REGULATIONS:

1. The Award will be known as the Pattle Delamore Partners’ Award in Environmental Engineering.
2. The value of the Award will be $2,000.
3. Selection will be based on academic achievement in ENVENG 333 and potential in the field of Engineering Hydrology.
4. An Award will be made annually by the University of Auckland Council upon the recommendation of a Selection Committee comprising the Head of the Department of Civil and Environmental Engineering, the academic staff member teaching ENVENG 333 and a representative of Pattle Delamore.
5. The University of Auckland Council will not be bound to award the Award in any year if there is no candidate of sufficient merit.
6. In the event of a tie, the Head of the Department of Civil and Environmental Engineering shall determine if the Award may be shared.
7. The University of Auckland Council has the power to amend or vary these regulations provided there is no departure from the main purpose of the Prize.

The Award was established in 2004 and is financed from funds which are donated annually by Pattle Delamore Partners Ltd.

Pattle Delamore Partners Ltd is a consulting engineering firm providing specialist environmental services throughout New Zealand. In their business of infrastructure, mining and municipal engineering, engineering hydrology is a core skill area. The Award will help foster the close relationship that exists between the company, the Faculty of Engineering and the University. It will also demonstrate the high regard that the commercial world holds for students excelling in Engineering Hydrology from Civil/Environmental Engineering.

It is intended that the Award will encourage excellence in the study of environmental engineering subjects and in particular in water resources engineering.
