REGULATIONS:
1. The Prize will be known as the David Scott Prize in Diabetes and Metabolic Medicine.
2. The value of the Prize will be $800. The sum will be paid in one instalment and recipients can only win the prize once.
3. The Prize will be based on a case report of a patient seen during the current academic year and the closing date will be 1 November. Only case reports for patients seen in the current academic year will be eligible.
4. The Prize will be awarded by the University of Auckland Council upon the recommendation of a committee comprising: the Head of the Department of Medicine, South Auckland Clinical School; the Clinical Head of Endocrinology, Counties Manukau District Health Board; and the Head of Department of General Practice and Primary Health Care, the University of Auckland; or their nominees.
5. The University of Auckland Council will not be bound to award the Prize in any year if there is no candidate of sufficient merit.
6. In the event of a tie, the committee shall determine if the Prize may be shared.
7. The University of Auckland Council has the power to amend or vary these regulations provided that there is no departure from the main purpose of the Prize.

Note:
(i) The successful applicant will be invited to present their case report either at the Counties Manukau Department of Medicine Clinical Science Symposium or at the Counties Manukau Science Fest in the following year.

The Prize was established in 2006 and is financed from funds donated for the purpose, held in trust by the South Auckland Health Foundation (a registered charity).

The main purpose of the Prize is to stimulate interest amongst medical students in evidence-based clinical care of patients with diabetes and metabolic disease.
