II. For the purpose of this Scholarship, academic merit is measured by the grade point average or grade point equivalent obtained in the applicant's most recent qualifying programme for doctoral study. Where the most recent qualifying programme is an undergraduate honours degree (or equivalent undergraduate degree or integrated undergraduate or postgraduate degree), the grade point average or equivalent will be calculated over the final two years of full-time study (or equivalent) in the programme. In all other cases, the grade point average or equivalent will be calculated over the entirety of the most recent qualifying programme.
