University of Auckland Doctoral Scholarships

Scholarship description

These Scholarships were established in 1996 and revised in 2016. The intention of the Scholarships is to encourage and support academically excellent domestic and international students, who are paying domestic fees, to undertake doctoral study at the University of Auckland. Students will be assessed for scholarship eligibility and award at the time of application to the doctoral programme.

Selection process

- The Scholarships are awarded by the University of Auckland Council on the recommendation of the Dean of Graduate Studies, a Faculty Dean or the Director of a Large Scale Research Institute (LSRI).
- The basis of selection for Scholarships awarded by the University of Auckland Council at the recommendation of the Dean of Graduate Studies will be academic merit as measured by performance in the most recent qualifying programme for doctoral study (including standing of awarding institution).
- The basis of selection for Scholarships awarded by the University of Auckland Council at the recommendation of a Faculty Dean or the Director of an LSRI will be academic merit and any other factors the Dean or Director considers relevant in the circumstances.

Regulations

1. The Scholarships shall be known as the University of Auckland Doctoral Scholarships.
2. The University of Auckland Doctoral Scholarship provides a tax-free stipend of up to $27,600 per annum in 2018, with an annual cost of living adjustment to the stipend value, for up to 36 months (see Regulation 10 and Note ii) for students enrolled in a PhD, DClinPsy or the research component of another approved doctorate. In addition, compulsory tuition fees will be covered for up to 36 months for all domestic students and for international students who are eligible to study under the domestic fees policy (see Note iii). International students will also receive compulsory international student health cover. Part-time students will be paid pro-rata for up to 72 months (see Note iv).
3. Students will be considered for the award of a University of Auckland Doctoral Scholarship at the time of application.
to the doctoral programme only. Students who have already been admitted to their doctoral programme are not eligible for consideration for a University of Auckland Doctoral Scholarship (see Notes xxi, xxv, xxvi and xxix).

4. The Scholarships may be awarded for full-time enrolment in the Degree of Doctor of Philosophy, Doctor of Clinical Psychology or the research component of another approved doctorate. The scholarships may also be available to domestic students for whom socially compelling reasons make part-time enrolment preferable (see Note iv).

5. The Scholarships are tenable by domestic students and international students who are paying domestic fees.

6. The Scholarships will be awarded by the University of Auckland Council on the recommendation of the Dean of Graduate Studies, a Faculty Dean or the Director of an LSRI.

7. The Dean of Graduate Studies’ recommendation for the award of a scholarship will be based on academic merit as measured by performance in the applicant’s most recent qualifying programme for doctoral study (including standing of awarding institution) (see Notes v-vii and ix-x).

8. A Faculty Dean’s or the Director of an LSRI’s recommendation for the award of a scholarship will be based on academic merit (as at Note viii) and any other factors the Dean/Director considers relevant in the circumstances (see Notes vii-x).

9. Domestic and international students will be required to enrol within 3 and within 6 months respectively of the date of their unconditional programme offer, otherwise the scholarship offer will lapse (see Note xxi). Awardees must also meet all requirements of their admission and scholarship offer before any payments will be made.

10. The University of Auckland Doctoral Scholarships will provide support for up to 36 months of study and payments will commence from the doctoral enrolment date. A further six months of scholarship funding, subject to Scholarship Sub-Committee approval, may be available (see Note xxiii). These durations shall be pro-rated for part-time scholarship awardees (see Note iv).

11. To comply with the full-time study requirement in Regulation 4, the amount of additional and paid work a Scholar may undertake either inside or outside the University shall not exceed a total of 500 hours per scholarship year (see Note xxxi).

12. A University of Auckland Doctoral Scholarship may not be held concurrently with any other doctoral scholarship funded by the University of Auckland (including scholarships funded by faculties), or with any postgraduate scholarship or grant awarded by the Universities New Zealand Committee, Tertiary Education Commission, New Zealand Ministry of Foreign Affairs and Trade, Asian Development Bank, Education New Zealand or any other New Zealand government or foreign government-funded scholarships or grants or with Colfuturo Credito Beca. However, it may be held with any other study award or grant where the regulations for that award or grant permit, and where the University of Auckland Council so approves, up to an additional maximum of 75% of the stipend value of the University of Auckland Doctoral Scholarship. If the value of the co-tenured scholarship exceeds 75% of the University of Auckland Doctoral Scholarship stipend value, the emolument for the University of Auckland Doctoral Scholarship will be reduced to limit the additional co-tenured stipend value to 75% of the University of Auckland Doctoral Scholarship stipend value.

13. A Scholarship may be terminated by the University of Auckland Council should it receive a report from the Board of Graduate Studies that a candidate’s academic progress is unsatisfactory.

14. Notes (i)–(xxxiii) below are deemed to be Regulations.

Notes

I. Students who have been offered a scholarship must meet all requirements for admission into their intended programme in order to take up the scholarship offer.

II. Compulsory fees are those only related to the relevant Doctoral study, plus Student Services Fee. In addition, for international students, the single student Health Insurance compulsory charge (as detailed on the tuition fees invoice) is covered by the Scholarship for the duration of the scholarship.

III. To be eligible to pay domestic PhD fees, recipients who are permanent residents of New Zealand or Australia, Australian citizens or international students may only be resident outside of New Zealand for a maximum total of twelve months over the period of their enrolment in their doctoral degree and only for the purposes of conducting
Recipients of University of Auckland Doctoral Scholarships are normally required to be enrolled on a full-time basis. However, domestic students for whom socially compelling reasons make part-time enrolment preferable may apply to hold a scholarship on a part-time basis pro-rated. Socially compelling reasons include a) carer responsibilities for: pre-school and/or school-aged children; an invalid or disabled family / whanau member; or b) medical condition(s), impairment(s) or disabilities. Applicants will not be granted permission to hold a University of Auckland Doctoral Scholarship on a part-time basis if they wish to undertake full-time paid employment or substantial part-time employment. Students who hold a scholarship on a part-time basis are subject to the same employment restrictions as full-time scholarship holders (i.e. 500 hours per scholarship year; refer Regulation 11 and Note xxxi) and are required to change to full-time enrolment if a change in their circumstances means they no longer qualify to hold the scholarship on a part-time basis.

All applicants who obtained a grade point average (GPA) of 8.00 or above (in their most recent qualifying programme) at a New Zealand university will be awarded a scholarship.

All Māori or domestic Pacific applicants who obtained a GPA of 7.50 or above (in their most recent qualifying programme) at a New Zealand university will be awarded a scholarship.

Outstanding applicants who completed their most recent qualifying programme outside New Zealand will be considered for a scholarship by the Dean of Graduate Studies on the basis of academic merit, as measured by performance in the qualifying programme. Matters considered by the Dean of Graduate Studies in relation to performance in the qualifying programme include, but are not limited to, grade point equivalence (GPE) and academic record for qualifying programme, academic references and the standing of the institution at which the qualifying programme was completed.

Each Faculty Dean and the Director of an LSRI has the discretion to recommend to Council the award of a Scholarship to an applicant on the basis of academic merit and any other factors the Dean/Director considers relevant in the circumstances. Matters that may be considered by the Dean/Director in relation to academic merit include, but are not limited to, academic record, standing of awarding institution, academic references, cv, research and publication record. To avoid doubt, each Faculty Dean and the Director of an LSRI may choose not to exercise this discretion in any given year.

Where a qualifying programme is the basis for entry to the doctoral programme, an applicant must have a GPE/GPA of 7.00 or above in that most recent qualifying programme to be eligible for scholarship consideration by the Dean of Graduate Studies, a Faculty Dean or the Director of an LSRI. Where a qualifying programme is entirely pass/fail, the University may generate a GPE only where the programme consists entirely of a thesis. To avoid doubt, the following categories of applicants are not eligible for scholarship consideration by the Dean of Graduate Studies but may be eligible for scholarship consideration by a Faculty Dean or Director of an LSRI under Note ix: (1) applicants without a qualifying programme or qualifying programme GPA/E; (2) applicants who completed their most recent qualifying programme both at a New Zealand institution and with a GPA of 7.00-7.99 (7.00-7.49 for Māori and domestic Pacific students); (3) applicants who completed their most recent qualifying programme both at a New Zealand institution that is not a university and with a GPA of 8.00 or above; (4) applicants qualifying for entry to the doctoral programme through the exceptional circumstances provisions of the relevant doctoral programme regulations.

Where the most recent qualifying programme is an undergraduate honours degree (or equivalent undergraduate degree or integrated undergraduate and postgraduate degree or MBChB), the GPA/E under Notes v-vii and ix-x will be calculated over the final two years of full-time study (or equivalent) in the programme. In all other cases, save masters transfers, the GPA/E under Notes v-vii and ix-x will be calculated over the entirety of the most recent qualifying programme.

To be deemed a qualifying programme for the PhD, EdD or MD for the purposes of scholarship consideration under Notes v-vii and ix-x of these regulations, an individual programme must satisfy Regulations 2a and 2b of the relevant doctoral regulations.

Where an applicant for the PhD, EdD or MD has a qualification which satisfies Regulation 2a but not Regulation 2b of the relevant doctoral programme regulations, and the Board of Graduate Studies allows (on a case-by-case
basis for the purposes of programme admission) that qualification to be combined with a subsequent University
of Auckland enrolment in an individual research course that satisfies Regulation 2b of the relevant doctoral
programme regulations, the Dean of Graduate Studies may, on a case-by-case basis and subject to Note xvi,
permit the combined GPA/E from that qualification and the research course to be considered the qualifying
programme GPA/E under Notes v-vii of these Scholarship regulations ("combined GPA/E permission").

XIV. The Dean of Graduate Studies may not grant combined GPA/E permission under Note xiii or Notes xix-xx where
the applicant has a previous programme which satisfies both Regulation 2a and Regulation 2b of the relevant
doctoral programme regulations. In such cases, the applicant’s most recent programme that satisfies both
Regulation 2a and Regulation 2b of the relevant doctoral programme regulations will be their “most recent
qualifying programme” under Notes v-vii and ix-x of these Scholarship regulations.

XV. Where the MBChB is a qualifying programme under Note xii and the final two years of the programme are
ungraded, the following provisions apply: a) only a student who obtains a “distinction” in each of the final two
years of the MBChB is deemed to have a qualifying programme GPA of at least 8.00 under Note v; b) a student
who obtains a “pass” and a “distinction” across the final two years of the MBChB is deemed to have a qualifying
programme GPA of 7.50 under Notes v-vi and ix-x; c) a student who obtains a "pass" in each of the final two
years of the MBChB does not have a GPA of 7.00 or above under Note ix.

XVI. Where the MBChB is a qualifying programme under Note xii and the final two years of the MBChB are ungraded, the following provisions apply: a) only a student who obtains a “distinction” in each of the final two
years of the MBChB is deemed to have a qualifying programme GPA of at least 8.00 under Note v; b) a student
who obtains a “pass” and a “distinction” across the final two years of the MBChB is deemed to have a qualifying
programme GPA of 7.50 under Notes v-vi and ix-x; c) a student who obtains a "pass" in each of the final two
years of the MBChB does not have a GPA of 7.00 or above under Note ix.

XVII. In the case of the DClinPsy, the GPA/E for the most recent qualifying programme is calculated over the entirety
of the programme that satisfies Regulation 2a of the DClinPsy regulations. Where additional courses are required
for the applicant to satisfy Regulation 2b of the DClinPsy regulations, these grades shall also be included in the
calculation of the GPA/E for the most recent qualifying programme under Notes v-vi and ix-x.

XVIII. In the case of conjoint degrees, the qualifying programme for the purposes of Notes v-vii and ix-x is the
component degree that is relevant to the proposed doctoral study.

XIX. Where the Board of Graduate Studies permits (on a case-by-case basis) a New Zealand university postgraduate
programme that is primarily or entirely comprised of creative practice to be combined with a subsequent
University of Auckland enrolment in a bridging programme for the purposes of satisfying regulations 2a and 2b of
the PhD Statute for admission to a PhD with creative practice, the Dean of Graduate Studies may, on a case-
by-case basis, give permission for the combined GPA to be considered the qualifying programme GPA under
Note v, provided the applicant has a GPA of 8.00 or above (GPA of 7.50 or above for Māori or domestic Pacific
students) in the creative programme and a GPA of 8.00 or above (GPA of 7.50 or above for Māori or domestic
Pacific students) in the bridging programme.

XX. Where the Board of Graduate Studies permits (on a case-by-case basis) an international postgraduate
programme that is primarily or entirely comprised of creative practice to be combined with a subsequent
University of Auckland enrolment in a bridging programme for the purposes of satisfying regulations 2a and 2b of
the PhD Statute for admission to a PhD with creative practice, the Dean of Graduate Studies may, on a case-by
basis, give permission for the combined programmes to be considered the qualifying programme under
Note vii, provided the applicant has a GPA of 8.00 or above in the bridging programme.

XXI. Students who transfer from a University of Auckland research masters to a doctoral degree will be assessed for
this Scholarship at the same time as their application to transfer to the PhD is considered. For students
transferring from masters degrees of greater than 120 points, the qualifying programme GPA under Notes v-vi
and ix-x will be calculated over all coursework undertaken for the masters degree. To have a qualifying
programme GPA of 8.00 or above under Note v (or a GPA of 7.50 or above under Note vi), students transferring
from a 120 point University of Auckland research masters degree must have a GPA of 8.00 or above (GPA of
7.50 or above for Māori and Pacific students) in any coursework undertaken for the masters programme and a
GPA of 8.00 or above (GPA of 7.50 or above for Māori or Pacific students) in the New Zealand university
programme that qualified them for admission to the masters programme. Where the New Zealand university
programme that qualified the student for admission to the masters is an undergraduate honours degree, the GPA
shall be calculated over the final two years of study (or equivalent) in that programme. In all other cases, the GPA
shall be calculated over the entirety of the programme that qualified the student for admission to the masters
programme. Students transferring from a 120 point University of Auckland research masters degree who were
admitted to the masters programme based on a qualification completed at an overseas institution may be
considered for a scholarship under Note vii, where GPE shall refer to that overseas qualification, provided they
obtained a GPA of no less than 8.00 in any coursework undertaken for the University of Auckland masters
degree. All students who transfer and are awarded the Scholarship and a) who were enrolled on a part-time basis
during their masters degree, will have the tenure of their doctoral scholarship adjusted to account for the masters
degree enrolment period on a full-time equivalent basis, and b) who were previously in payment of a University of
Auckland Masters Research Scholarship, Māori Postgraduate Scholarship or Pacific Postgraduate Scholarship
will commence payment for their University of Auckland Doctoral Scholarship from the date specified by the Dean
of Graduate Studies.

XXII. Domestic and international students are required to either a) enrol and begin their studies within 3 and within 6
months respectively of the date of unconditional offer in the programme or b) in exceptional circumstances, have
obtained approval from the Dean of Graduate Studies for a delayed take up time. PhD enrolments and
scholarship payments must commence on the first of the month.

XXIII. A further six months of scholarship funding, subject to Scholarship Sub-Committee approval, may be available to
those PhD students who have held a University of Auckland Doctoral Scholarship. Extensions are not normally
available for students undertaking a 360 point doctoral programme unless there are significant extenuating
circumstances.

XXIV. The Scholarship will not cover any bridging programmes.

XXV. Students who have been offered a University of Auckland Doctoral Scholarship, and decline an offer of place, are
eligible to be considered for both admission and a scholarship again at a later date provided they have not
enrolled in a doctorate at the University and held some other doctoral scholarship at the University in the interim.
Students who have commenced payment for a University of Auckland Doctoral Scholarship are not eligible to
hold a subsequent University of Auckland Doctoral Scholarship.

XXVI. A student who applied to a University of Auckland doctoral programme and received an offer of place, but was
not offered a University of Auckland Doctoral Scholarship (whether or not the student applied for the scholarship),
will not be eligible for consideration for a scholarship again if they make another application to a doctoral
programme at a later date, unless the student’s subsequent application is based on a new qualifying programme.

XXVII. A student who has previously terminated a University of Auckland Doctoral Scholarship for health reasons may
apply in writing to the Scholarships Sub-Committee for consideration to receive the remaining balance of the
scholarship, up to the maximum allowable tenure, to support completion of their doctoral programme.

XXVIII. Students who have already commenced payment may defer their University of Auckland Doctoral Scholarship
funding for up to one year in total during their tenure of the scholarship provided they do not hold some other
doc toral scholarship in the interim.

XXIX. The maximum combined period of scholarship tenure for students who a) transfer from one university-funded
doc toral scholarship to another, or b) terminate one doctoral degree and commence another, or c) have
completed one doctoral degree and return to commence a second, shall be a total of up to 36 months with a
possible extension of up to six further months. Where a Masters student is approved to upgrade their partially
completed degree to doctoral study and is subsequently awarded a University of Auckland Doctoral Scholarship,
the tenure of the Scholarship will be up to 36 months from the start date of the research component of their
Masters degree.

XXX. Recipients of University of Auckland Doctoral Scholarships will be required to give undertakings that they will
comply with the regulations for the Scholarship and will notify the Scholarships Office of any change in their enrolment, employment or funding status. The University of Auckland may, in the event it can be established that a recipient of a University of Auckland Doctoral Scholarship is not complying with these regulations, terminate the Scholarship and require repayment of the funds received from the date of the breach.

XXXI. Paid work that is required as part of an approved doctoral programme (such as an internship for some named doctorates) or that is undertaken as part of an approved University of Auckland Internship, is not counted towards the 500 hours of additional and paid work that a Scholar may undertake while in receipt of a scholarship.

XXXII. University of Auckland Doctoral Scholarship holders enrolled in the DClinPsy internship year may apply to the Scholarships Office for a stipend. If they provide evidence to the Scholarships Office that their net internship salary is less than the value of the University of Auckland Doctoral Scholarship stipend they will receive a stipend to bring their income up to the value of the scholarship stipend.

XXXIII. University of Auckland Doctoral Scholarship holders enrolled in the University of Auckland PhD Internship Programme for three months or less, and who are undertaking an unpaid internship, may continue to receive all or part of their Scholarship, subject to Scholarships Sub-Committee approval.
