University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry

Scholarship description

The Scholarship was established in 2017 and is funded by a Marsden Grant awarded to an academic staff member from the Faculty of Science at the University of Auckland. The main purpose of the Scholarship is to support a student to develop their PhD research project on a specific topic within the general area of Inorganic Chemistry.

Selection process

- Nomination is made to the Scholarship Office
- The Scholarship is awarded by the University of Auckland on the recommendation of the Selection Committee

Regulations

1. The Scholarship will be known as the University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry.
2. One Scholarship will be awarded, for a period of up to three years, and will include a fortnightly stipend to the value of up to $27,500 per annum plus compulsory domestic PhD fees.
3. The Scholarship may be awarded only to new students applying for admission to a PhD in the Faculty of Science at the University of Auckland who meet all the requirements of these regulations and who will be conducting PhD research within the general area of inorganic chemistry.
4. The Scholarship is tenable by full-time domestic and international students who are eligible to pay domestic fees (see Note iv).
5. The basis of selection will be academic merit (see Note v) and the quality and nature of the research proposal. Matters that may be considered in relation to academic merit include, but are not limited to, academic record, standing of awarding institution, academic references, CV, research and publication record. Where a completed programme with a University of Auckland GPA/GPE is the basis for entry to the PhD, an applicant must have a GPA/GPE of 6.00 or above in that programme to be eligible for scholarship consideration.
6. The Scholarship will be awarded by the University of Auckland Council upon the recommendation of a Selection
Committee comprising the Associate Dean (Postgraduate), the Head of Department and the Principal Investigator.

7. The Scholarship will provide support for up to 36 months of study and payments will commence from the doctoral enrolment date. A further six months of scholarship funding, subject to Scholarship Sub-Committee approval, may be available (see Note vi).

8. To comply with the full-time study requirement in Regulation 4, the amount of additional and paid work a Scholar may undertake either inside or outside the University shall not exceed a total of 500 hours per scholarship year (see Note vii).

9. The University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry may not be held concurrently with a University of Auckland Doctoral Scholarship or with any other New Zealand government or foreign government-funded scholarships or grants. However, it may be held with any other study award or grant where the regulations for that award or grant permit, and where the University of Auckland Council so approves, up to an additional maximum of 75% of the stipend value of the University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry. If the value of the co-tenured scholarship exceeds 75% of the University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry stipend value, the emolument for the University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry will be reduced to limit the additional co-tenured stipend value to 75% of the University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry stipend value.

10. The University of Auckland Council, in consultation with the donor, has the power to terminate or suspend a Scholarship if it receives an unsatisfactory report on the progress of a Scholar from the Associate Dean (Postgraduate) of the Faculty of Science.

11. The University of Auckland Council has the power to amend or vary these Regulations, in consultation with the donor, provided that there is no departure from the main purpose of the Scholarship.

12. Notes [i] – [ix] below are deemed to be Regulations.

Notes

I. For further information about the project and possible topics can be obtained from the Principal Investigator – Erin Leitao, erin.leitao@auckland.ac.nz.

II. Students who have been offered a scholarship must meet all requirements for admission into their intended programme in order to take up the scholarship offer.

III. Compulsory fees are those only related to the relevant Doctoral study, plus Student Services Fee.

IV. To be eligible to pay domestic PhD fees, recipients who are permanent residents of New Zealand or Australia, Australian citizens or international students may only be resident outside of New Zealand for a maximum total of twelve months over the period of their enrolment in their doctoral degree and only for the purposes of conducting research.

V. Where the completed programme is an undergraduate honours degree (or equivalent undergraduate degree or integrated undergraduate and postgraduate degree), the grade point average or equivalent will be calculated over the final two years of full-time study (or equivalent) in the programme. In all other cases, the grade point average or equivalent will be calculated over the entirety of the programme.

VI. A further six months of scholarship funding, subject to Scholarship Sub-Committee approval, may be available to those PhD students who have held a University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry.

VII. Recipients of a University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry will be required to give undertakings that they will comply with the regulations for the Scholarship and will notify the Scholarships Office of any change in their enrolment, employment or funding status. The University of Auckland may, in the event it can be established that a recipient of a University of Auckland Marsden Grant PhD Scholarship in Inorganic Chemistry is not complying with these regulations, terminate the Scholarship and require repayment of the funds received from the date of the breach.

VIII. Paid work that is undertaken as part of an approved University of Auckland Internship, is not counted towards the 500 hours of additional and paid work that a Scholar may undertake while in receipt of a scholarship.
IX. These regulations are subject to Senate and Council approval.
