University of Auckland Marsden Grant PhD Scholarship in Multiobjective Optimisation

Scholarship description

This Scholarship was established in 2017 and is funded by a Marsden Faststart Grant awarded to an academic staff member from the Faculty of Engineering at the University of Auckland.

The main purpose of the Scholarship is to support a PhD student at the University of Auckland who is undertaking research in identifying Novel Decomposition Techniques for Multiobjective Optimisation.

Selection process

- Nomination is made to the Scholarships Office
- The Scholarship is awarded by the University of Auckland Council on the recommendation of the Selection Committee

Regulations

1. The Scholarship will be known as the University of Auckland Marsden Grant PhD Scholarship in Multiobjective Optimisation.
2. One Scholarship will be awarded, for a period of up to three years and will include a fortnightly stipend of up to $27,500 per annum plus compulsory fees of up to $7,500 per annum for all domestic and international students who are eligible to study under the domestic fees policy (see Notes ii and iii).
3. Students will be considered for the award of a University of Auckland Marsden Grant PhD Scholarship in Multiobjective Optimisation at the time of application for admission to a PhD in the Faculty of Engineering at the University of Auckland.
4. The Scholarship is tenable by a full-time domestic or international student who is eligible to pay domestic fees, and who meets all the requirements of these regulations (see Note iv).
5. The basis of selection will be academic merit and the quality and nature of the research proposal. Matters that may be considered in relation to academic merit include, but are not limited to, academic record, standing of awarding
The Scholarship will be awarded by the University of Auckland Council upon the recommendation of a Selection Committee comprising the Associate Dean (Postgraduate) of the Faculty of Engineering, the Head of Department and the Principal Investigator.

Domestic and international students will be required to enrol within 3 and within 6 months respectively of the date of their unconditional programme offer, otherwise the scholarship offer will lapse. Awardees must also meet all requirements of their admission and scholarship offer before any payments will be made.

The Scholarship will provide support for up to 36 months of study and payments will commence from the doctoral enrolment date. A further six months of scholarship funding, subject to Scholarship Sub-Committee approval, may be available. To comply with the full-time study requirement in Regulation 4, the amount of additional and paid work a Scholar may undertake either inside or outside the University shall not exceed a total of 500 hours per scholarship year (see Note vii).

The University of Auckland Council, in consultation with the donor, has the power to terminate or suspend a Scholarship if it receives an unsatisfactory report on the progress of a Scholar from the Associate Dean (Postgraduate) of the Faculty of Engineering.

The University of Auckland Council has the power to amend or vary these Regulations, in consultation with the donor, provided that there is no departure from the main purpose of the Scholarship.

Notes [i] – [viii] below are deemed to be Regulations.

I. For further information about the project and possible topics can be obtained from the Principal Investigator - Dr Andrea Raith, a.raith@auckland.ac.nz.

II. Students who have been offered a scholarship must meet all requirements for admission into their intended programme in order to take up the scholarship offer.

III. Compulsory fees are those only related to the PhD, plus Student Services Fee.

IV. To be eligible to pay domestic PhD fees, recipients who are permanent residents of New Zealand or Australia, Australian citizens or international students may only be resident outside of New Zealand for a maximum total of twelve months over the period of their enrolment in their doctoral degree and only for the purposes of conducting research.

V. Where the programme is an undergraduate honours degree (or equivalent undergraduate degree or integrated undergraduate and postgraduate degree), the grade point average or equivalent will be calculated over the final two years of full-time study (or equivalent) in the programme. In all other cases, the grade point average or equivalent will be calculated over the entirety of the programme.

VI. Recipients of a University of Auckland Marsden Grant PhD Scholarship in Multiobjective Optimisation will be required to give undertakings that they will comply with the regulations for the Scholarship and will notify the
Scholarships Office of any change in their enrolment, employment or funding status. The University of Auckland may, in the event it can be established that a recipient of a University of Auckland Marsden Grant PhD Scholarship in Multiobjective Optimisation is not complying with these regulations, terminate the Scholarship and require repayment of the funds received from the date of the breach.

VII. Paid work that is undertaken as part of an approved University of Auckland Internship, is not counted towards the 500 hours of additional and paid work that a Scholar may undertake while in receipt of a scholarship.

VIII. These regulations are subject to Senate and Council approval.
