

Auckland Bioengineering Institute Prize in Biomedical Engineering

Code:	P174
Faculty:	Engineering
Applicable study:	Part IV Research Project in BE(Hon) in Biomedical Engineering
Closing date:	By nomination
Tenure:	Prize
For:	Prize
Number on offer:	1
Offer rate:	Annually
Value:	\$300

Description

The Prize was established in 2007 to recognise the most meritorious project in Biomedical Engineering. This degree programme is one of the two degrees offered by the Department of Engineering Science. Before the establishment of a separate Biomedical Engineering Degree, all students in the Department of Engineering Science were eligible for the Cecil M Segedin prize. Since the Cecil M Segedin prize is specifically reserved for students in the Engineering Science Degree programme, a separate prize was established for those students enrolled in the Biomedical Engineering Degree programme.

Selection process

- Nomination is made to the Scholarships Office
- The Prize will be awarded by the University of Auckland Council upon receiving the recommendation of the Head of the Department of Engineering Science

Regulations

1. The Prize will be known as the Auckland Bioengineering Institute Prize in Biomedical Engineering.
2. The value of the Prize will be \$300.
3. The Prize will be awarded annually for the most meritorious Research Project in Part IV of the Bachelor of Engineering (Honours) Biomedical Engineering programme.
4. The Prize will be awarded by the University of Auckland Council upon receiving the recommendation of the Head of the Department of Engineering Science.
5. The University of Auckland Council will not be bound to award the Prize in any year if there is no candidate of sufficient merit.
6. In the event of a tie, the Head of the Department of Engineering Science shall determine if the Prize may be shared.
7. The University of Auckland Council has the power to amend the above regulations provided that there is no departure from the main purpose of the Prize.
