The Sir Mont Liggins Memorial Scholarships

Description

The Scholarships were established in 2016 and are funded by the Mont Liggins Memorial Fund. The intention of the scholarships is to encourage and support academically excellent students to undertake a Master of Science or Master of Health Sciences that falls within one or more of the strategic research themes of the University of Auckland Liggins Institute.

The Liggins Institute has a number of overlapping research themes exploring the ways in which factors in the early life environment affect health throughout the life course and influence the health of following generations. A particular focus is on the effect of altered early life nutrition on later life health. Opportunities span basic science, clinical and translational research platforms.

Selection process

- Application is made to the Scholarships Office
