University of Auckland Acoustics Research Centre PhD Scholarship

Description

This Scholarship was established in 2017 and is funded by the commercial activities of the Acoustics Testing Service.

The intention of the Scholarship is to encourage and support academically excellent domestic and international students, who are eligible to pay domestic fees, and to support students undertaking doctoral study in the Department of Mechanical Engineering at the University of Auckland in the general area of acoustics.

Selection process

- Nomination is made to the Scholarships Office
- The Scholarship is awarded by the University of Auckland Council on the recommendation of the Selection Committee

Regulations

1. The Scholarship will be known as the University of Auckland Acoustics Research Centre PhD Scholarship.
2. One Scholarship may be awarded annually, for a period of up three years and will include a stipend of up to $27,300 per annum plus compulsory fees for all domestic and international students who are eligible to study under the domestic fees policy, and compulsory international student health insurance, where applicable (see Notes I - III). Part-time students will be paid pro-rata for up to 72 months (see Note V).
3. Students will be considered for the award of a University of Auckland Acoustics Research PhD Scholarship at the time of application for admission to a PhD in the Faculty of Engineering at the University of Auckland.
4. The Scholarship is tenable by full-time domestic and international students who are eligible to pay domestic fees and who meet all the requirements of these regulations (see Note III). The scholarship may also be available to domestic students for whom socially compelling reasons make part-time enrolment preferable (see Note V).
5. The basis of selection will be academic merit and the quality and nature of the research proposal. Matters that may be considered in relation to academic merit include, but are not limited to, academic record, standing of awarding institution, academic references, CV, research and publication record. Where a completed programme with a
University of Auckland GPA/GPE is the basis for entry to the PhD, a candidate must have a GPA/GPE of 7.00 or above in that programme to be eligible for scholarship consideration (see Note IV).

6. The Scholarship will be awarded by the University of Auckland Council upon the recommendation of a Selection Committee comprising the Associate Dean (Postgraduate) of the Faculty of Engineering (or nominee), the Head of the Department of Mechanical Engineering (or nominee) and a member of the academic staff of the Department of Mechanical Engineering.

7. Domestic and international students will be required to enrol within 3 and within 6 months respectively of the date of their unconditional programme offer, otherwise the scholarship offer will lapse. Awardees must also meet all requirements of their admission and scholarship offer before any payments will be made.

8. The Scholarship will provide support for up to 36 months of study, subject to satisfactory annual performance review, and payments will commence from the doctoral enrolment date. A further six months of scholarship funding, subject to Scholarship Sub-Committee approval, may be available. These durations shall be pro-rated for part-time scholarship awardees (see Note V).

9. To comply with the full-time study requirement in Regulation 4, the amount of additional and paid work a Scholar may undertake either inside or outside the University shall not exceed a total of 500 hours per scholarship year (see Note VII).

10. The University of Auckland Acoustics Research Centre PhD Scholarship may not be held concurrently with a University of Auckland Doctoral Scholarship or with any other New Zealand government or foreign government-funded scholarships or grants. However, it may be held with any other study award or grant where the regulations for that award or grant permit, and where the University of Auckland Council so approves, up to an additional maximum of 75% of the stipend value of the University of Auckland Acoustics Research Centre PhD Scholarship. If the value of the co-tenured scholarship exceeds 75% of the University of Auckland Acoustics Research Centre PhD Scholarship stipend value, the emolument for the University of Auckland Acoustics Research Centre PhD Scholarship will be reduced to limit the additional co-tenured stipend value to 75% of University of Auckland Acoustics Research Centre PhD Scholarship stipend value.

11. The University of Auckland Council, in consultation with the donor, has the power to terminate or suspend a Scholarship if it receives an unsatisfactory report on the progress of a Scholar from the Associate Dean (Postgraduate) of the Faculty of Engineering.

12. The University of Auckland Council has the power to amend or vary these Regulations, in consultation with the donor, provided that there is no departure from the main purpose of the Scholarship.

Notes

I. Students who have been offered a scholarship must meet all requirements for admission into their intended programme in order to take up the scholarship offer.

II. Compulsory fees are those only related to the relevant Doctoral study, plus Student Services Fee. In addition, for international students, the single student Health Insurance compulsory charge (as detailed on the tuition fees invoice) is covered by the Scholarship for the duration of the scholarship.

III. To be eligible to pay domestic PhD fees, recipients who are permanent residents of New Zealand or Australia, Australian citizens or international students may only be resident outside of New Zealand for a maximum total of twelve months over the period of their enrolment in their doctoral degree and only for the purposes of conducting research.

IV. Assessment of academic merit will include the grade point average or equivalent in the qualifying programme. Where the qualifying programme is an undergraduate honours degree (or equivalent undergraduate degree or integrated undergraduate and postgraduate degree), the grade point average or equivalent will be calculated over the final two years of full-time study (or equivalent) in the programme. In all other cases, the grade point average or equivalent will be calculated over the entirety of the qualifying programme.

V. Recipients of the University of Auckland Acoustics Research Centre PhD Scholarship are normally required to be
enrolled on a full-time basis. However, domestic students for whom socially compelling reasons make part-time enrolment preferable may apply to hold a scholarship on a part-time basis pro-rated. Socially compelling reasons include a) carer responsibilities for: pre-school and/or school-aged children; an invalid or disabled family / whānau member; or b) medical condition(s), impairment(s) or disabilities. Applicants will not be granted permission to hold a University of Auckland Acoustics Research Centre PhD Scholarship on a part-time basis if they wish to undertake full-time paid employment or substantial part-time employment. Students who hold a scholarship on a part-time basis are subject to the same employment restrictions as full-time scholarship holders (i.e. 500 hours per scholarship year; refer Regulation 9 and Note vii) and are required to change to full-time enrolment if a change in their circumstances means they no longer qualify to hold the scholarship on a part-time basis.

VI. Recipients of a University of Auckland Acoustics Research Centre PhD Scholarship will be required to give undertakings that they will comply with the regulations for the Scholarship and will notify the Scholarships Office of any change in their enrolment, employment or funding status. The University of Auckland may, in the event it can be established that a recipient of a University of Auckland Acoustics Research Centre PhD Scholarship is not complying with these regulations, terminate the Scholarship and require repayment of the funds received from the date of the breach.

VII. Paid work that is required as part of an approved doctoral programme (such as an internship for some named doctorates) or that is undertaken as part of an approved University of Auckland Internship, is not counted towards the 500 hours of additional and paid work that a Scholar may undertake while in receipt of a scholarship.
