

ALUMNI AND FRIENDS
THE UNIVERSITY OF AUCKLAND

@auckland

Dear alumni & friends,

Congratulations to all our recent graduates. We very much hope you will [keep in touch](#) and enjoy the [benefits of being a part of our alumni community](#).

Those of you tempted to raise a glass to celebrate might be encouraged by some [new research from The University of Auckland](#). Dr Maggie Kalev and Professor Matthew During's recent studies, published in the *Journal of Neuroscience*, suggest that drinking in moderation may aid the memory.

But for those who over indulge and do something they might regret, the research also contains some sobering warnings about 'drinking to forget'.

You can read [more about the research](#) on the University website.

Look This Way: New Zealand Writers on New Zealand Artists

Why does a particular work of art seize your attention? Here, 17 writers answer this seemingly simple question, each writing on a favourite artist. They tell stories, find treasures, make connections, but above all look hard at the art works, while inviting the reader to share their perspective.

[Go to the AUP website](#)

An award-winning Italian photographer who has worked on the film sets of such renowned directors as Mel Gibson, Spike Lee and Ridley Scott is a visiting Hood Fellow at The University of Auckland. While in Auckland, Philippe Antonello exhibits his work at The Gus Fisher Gallery 28 September - 6 October.

New Zealand's oceans - prototype for a blue planet?

Exciting world class research is currently being done at the South Pacific Centre for Marine Science to underpin the future sustainable health of our oceans and maintain the tradition of New Zealand as a prototype for a blue planet.

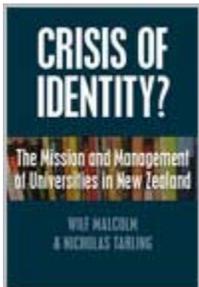

Professor John Montgomery will talk about some of the research highlights at the alumni and friends reception in Tauranga. [Read more about the Tauranga event](#)

2007 Keith Sinclair Memorial Lecture: October 16

This year Associate Professor Linda Bryder, DPhil (Oxford), MA will present 'Cartwright Revisited: Medical Research and National Women's Hospital from the 1960s to the 1980s'.
