

# Data Saving and Sharing in a Digital Age: Issues and Implications

Peter Davis and Martin von Randow  
Centre of Methods & Policy Application in the Social Sciences  
Faculty of Arts, The University of Auckland

**THE UNIVERSITY  
OF AUCKLAND**  
NEW ZEALAND  
Te Whare Wānanga o Tāmaki Makaurau

Seminar, Ministry of Health  
Wellington  
11 February 2009

**NZSSDS**  
Social Science Data Service

Tertiary Education Commission  
Te Amorangi Mātauranga Matua

BeSTGRID

ENABLED BY  
KAREN

- Background paper
  - Outline of TEC-funded pilot project
  - Significance of data saving and sharing
  - Some issues and implications
- Response of a UK research funder
  - Medical Research Council
- NZ Social Science Data Service (NZSSDS)
  - Data acquisition and preservation
  - Data access and analysis
  - Training
- Nesstar Demonstration
- Questions?

- Objectives and components
  - Acquire and protect key data sets
  - Trial the exchange and analysis of data via BeSTGRID
  - Establish sustainable model
  - Training for provision and use of services
- Outcome – Data Service
  - Key social science data sets archived
  - Those data sets readily accessible
  - User community with necessary skills
- Key partners
  - Social science departments
  - BeSTGRID project team
  - Australian Social Science Data Archive (ASSDA)

## 11 February 2009

### Technology

-  Common digital medium for all data
-  High-performance computing
-  Exchange of data via internet

### Government policy

-  “Knowledge” economy
-  Value of science investment
-  Funders insisting on saving and sharing

### Science community

-  Power of secondary data analysis
  -  Re-use of expensive data
  -  Primary collections harder
  -  Transparency and integrity
- The University of Auckland

- ❑ Research funders
  - Insist on saving and sharing of data by grant holders?
- ❑ University authorities
  - Encourage saving and sharing among employees?
- ❑ Ethics committees
  - Favour preservation and re-use of research data?
- ❑ Scientific community
  - Save, share and document data, take to secondary analysis?
- ❑ Information managers
  - Will library be custodian of research data? Role of ITSS?
- ❑ Data service concept
  - Is there a sustainable business/professional model?

- Background paper
  - Outline of TEC-funded pilot project
  - Significance of data saving and sharing
  - Some issues and implications
- Response of a UK research funder
  - Medical Research Council
- NZ Social Science Data Service (NZSSDS)
  - Data acquisition and preservation
  - Data access and analysis
  - Training
- Nesstar Demonstration
- Questions?

# MRC Data Sharing Initiative:

## *The Forward Strategy*

**MAKING BETTER USE OF  
MRC-FUNDED RESEARCH DATA**

[www.mrc.ac.uk/PolicyGuidance/EthicsAndGovernance/DataSharing](http://www.mrc.ac.uk/PolicyGuidance/EthicsAndGovernance/DataSharing)  
[allan.sudlow@headoffice.mrc.ac.uk](mailto:allan.sudlow@headoffice.mrc.ac.uk)

# Why Preserve or Share Research Data?

- **Reduce Duplication**
  - **Effort of Data Creation and Analyses**
- **Secondary Analysis**
  - **Comparative & Confirmatory analysis**
  - **Testing of new & alternative hypotheses, tools & methods**
  - **Meta-analysis e.g. systematic analysis of clinical trials data**
- **Data enrichment**
  - **Linking datasets**
  - **Large-scale pooling for complex or comprehensive analyses**
- **Asset management**

# Data Access Principles

- **Governance of access to & use of MRC-funded research data must balance the interests of data providers, users & research participants (personal data).**
- **Access policies & practices must be transparent, equitable, practicable & provide clear decisions, consistent with MRC data sharing policy.**
- **Access policies must comply with statutory and other regulatory requirements, and good research practice.**
- **Principles supported by online, example-led guidance on:**
  - **Dataset discovery**
  - **Governing access and use of data**
  - **Data sharing agreements**
  - **Data from research involving people**
  - **Funding data access**

## *Forward Strategy: Vision*

- 1. Discovery of MRC research data along with metadata and other essential documentation**
- 2. Managed access to, and use of, data for high-quality secondary research**
- 3. Curation to enable informed re-use of preserved data**
- 4. Long-term preservation of high-value MRC-funded datasets**
- 5. Development of tools, standards and guidance needed to support these activities.**
