Can we safely reduce the risk of breathing problems for newborn babies by giving corticosteroid injections to their mothers before a planned caesarean section?

Welcome to Newsletter 3 for the C*STEROID Trial

RECRUITMENT UPDATE

Recruitment has been slow lately but we are starting to see an interest in participation again, particularly with our women in Auckland! **Well done to our Waikato and Counties Manukau sites for 4 new recruits each last month!**

Our overall recruitment progress is sitting close to 15% with 371 babies recruited. **Can we reach 20% by the end of the year?** That’s 125 more mothers and babies, so a target of 5 new recruits each month for all our NZ sites!!

C*STEROID INVESTIGATORS MEETING
WEDNESDAY 28TH SEPTEMBER AT 7:00PM NZST, 5:00PM AEST, 4:30PM ACST

Remember to SAVE THE DATE and join us for the next C*STEROID teleconference. It would be great to see representatives from all interested, establishing and recruiting sites. The zoom link has been sent out via email. Please contact us on csteroid@auckland.ac.nz if you have not received the invite and would like to join. We look forward to seeing you all and welcoming our Australian sites during this meeting!

REDCAP REMINDERS

Thank you everyone for your ongoing efforts in sending through completed CRFs and resolving data queries in a timely manner.

A few reminders:

**C*STEROID Trial Screening - Contacts CRF2**
- Make sure to upload baby's consent after the baby is born when he/she has become a legal entity. Please scan and upload the baby's consent after completion (required for New Zealand participants only).
- Please also complete the baby's details (NHI and name) after birth.

**C*STEROID FEASIBILITY STUDY ARTICLE**

The C*STEROID Feasibility Study is now published in the BMJ Open.

C*STEROID Feasibility was completed to support the development of the C*STEROID Trial. The aim was to assess the feasibility of conducting a randomised placebo-controlled trial of corticosteroids prior to planned caesarean section from 35+0 to 39+6 weeks.
