What is a team?
You can create or join a team to collaborate with a certain group of people. Have conversations, share files, and use shared tools with the group—all in one place. That group could consist of a class of students and educators, a group of staff, and educators collaborating on a topic, or even a group for a student club or other extracurriculars.

Control who can enter the meeting directly.
Use the virtual meeting lobby so that participants wait to be admitted to the meeting instead of joining immediately.

Control who joins the meeting as a presenter or attendee.
Select Only Me to designate all other participants as attendees. This is the safest set-up for meetings held in a classroom setting.

If you expect to have more than one presenter in your meeting, select Specific people and pick the other participants who should join as presenters. Select Everyone if you want all participants to join the meeting as a presenter.

Meeting options may be limited by your IT administrator’s policy settings.
