ERM 9.3 Test Log-in
You will need to reset your ‘Test’ Single Sign On password to access the ERM 9.3 Test Environment.

➤ Please note, this will not reset your usual University SSO password.

There are two ways you can reset the password.

**Option 1**
1) Click on the Test Link: [https://usertest.erm.scquest.com/ouauckland/erd-client/app/secure/home/](https://usertest.erm.scquest.com/ouauckland/erd-client/app/secure/home/)
2) Click the Reset Password link:

3) Follow the instructions and choose to send the verification number to your phone. The email option will not work. If you don’t have a phone number configured, please use Option 2 below.

**Option 2**
Call the SSC on 86000 and ask to get your Test SSO password reset.

Please make sure to remember your password!

**Troubleshooting**
If you get to a screen that says ‘unknown user’, please email sciquest@auckland.ac.nz and we can provide you with access.
