International Prospectus 2021

No 1 New Zealand university*

TOP 50 global university**

No 1 In New Zealand for Employability***

New Zealand
A warm welcome to New Zealand’s highest ranked university

Whatever your future goals, your time with us will broaden your horizons and help you to become a free thinker.

The University of Auckland offers an extremely wide variety of subjects. We’re also continuing to diversify our array of undergraduate programmes by adding innovative new degrees: the Bachelor of Design, Master of Nursing Science and Bachelor of Education (TESOL), new from 2020.

During your time here, you’ll learn from outstanding teachers, many of whom are global leaders in their field. Many of our academics are also energetic entrepreneurs. According to Reuters Top 75, we rank as the most innovative university in New Zealand.** We’ve also been recognised by the MIT Skoltech Initiative as one of the world’s top five emerging leaders in entrepreneurship.

University is about more than just gaining a qualification. Auckland City shines with opportunity. It offers a kaleidoscope of experiences that will help to shape your future. Think about the thrill of living in New Zealand’s biggest and most diverse city, the life-long friends you’ll make, the clubs you’ll join, the life skills you’ll master, and the memories you’ll cherish for years to come. We’re proud of our rich campus and city life, our convenient and secure accommodation options, our extensive scholarships, and our comprehensive support services and pastoral care.

QS World University Rankings also place the University of Auckland at number one in New Zealand for Graduate Employability in 2020. When you leave the University of Auckland, you’ll be equipped for the next step - whatever that looks like is up to you. Success with us is just the beginning.

We look forward to welcoming you in 2021.

Dawn Freshwater
Vice-Chancellor

In a world of increasing global opportunity, we want to help you to boost your life and career prospects. A qualification from an internationally renowned university will bring you closer to achieving your goals. According to international rankings, we are New Zealand’s leading university.* Our degrees are respected internationally, and our graduates are highly employable in national and global workplaces.
The University of Auckland is ranked #1 in Asia Pacific Universities, Top 75 Most Innovative according to the 2019 Reuters,

The University of Auckland is the highest ranked university in New Zealand in Times Higher Education and QS rankings for 2020.

The University of Auckland is ranked 83rd in the world.

QS World University Rankings by subject 2020

New Zealand is a modern, English-speaking country with a rich cultural heritage, known internationally for its stunning and diverse natural landscapes and the culture of its indigenous Māori people. New Zealand has earned a reputation for its politically independent stance, support for environmental causes, sporting achievements, and dynamic political and economic reform. Its citizens have made important contributions in the fields of scientific and technological discovery, medicine, conservation, creative arts, food and wine.

In addition to over 10 undergraduate programmes to choose from, there are 130 postgraduate programmes on offer across 250 subjects, including PhDs in over 120 different subjects. Options range from strong traditional disciplines to emerging cross-disciplinary subjects.

Begin your New Zealand story at the University of Auckland.

Why study in New Zealand?

New Zealand is a safe and politically stable country with a high standard of living. New Zealand enjoys a global reputation for technical innovation supported by research excellence. Education in New Zealand is not only about imparting knowledge but also about encouraging original thinking.

New Zealand has a progressive work rights policy, which allows international students to work in New Zealand on a post-study visa after finishing at university.

International PhD students receive a range of special benefits, including eligibility for a government funding scheme allowing them to pay the same tuition fees as New Zealand students.

New Zealand is a desirable country to live in, ranking 14th in the world on the United Nations Human Development Index 2019. It is also ranked 3rd in 163 countries on the Global Peace Index 2019, the world’s leading measure of national peacefulness.

*Mercer Consulting Quality of Living Rankings 2019

A city flanked by two harbours, Auckland’s unique geographic position means you can enjoy the vibrant atmosphere of a large, cosmopolitan city, and still be close to stunning beaches, nature walks and tranquil islands. You can kayak on sparkling harbours in the morning and hike through green subtropical forests in the afternoon. Add to that great cafés, restaurants and bars, excellent theatres, galleries, museums and terrific shopping.

With almost 40 percent of the population born overseas, Auckland is more culturally diverse than Sydney, London or New York,¹ and it is clear why Auckland has been ranked third out of 231 world cities for quality of life.²

¹World Migration report 2015
²Mercer Consulting Quality of Living Rankings 2019

City highlights

Sky Tower – Tallest building in the Southern Hemisphere, with spectacular views of the city

Eden Park – New Zealand’s largest stadium, hosting national and international rugby and cricket matches

Rangitoto Island – A dormant volcano with lava tunnels, fantastic views of the harbour and the world’s largest pohutukawa forest, only a 40-minute ferry ride from downtown Auckland

Piha Beach – The most famous surf beach in New Zealand, featuring black iron-ore sand, just 40 minutes from central Auckland through the protected forest of the Waitākere Ranges

Waiheke Island – Beautiful, subtropical island famous for its golden sandy beaches, wineries and water sports, just 40 minutes by ferry from downtown Auckland

Mount Eden – Dormant volcanic cone, centrally located with panoramic 360° views over the city, great for a picnic

Newmarket shopping precinct – Excellent shopping, movie theatres, restaurants and cafés, something for everyone

Auckland waterfront – Attractive, urban beaches alongside a walking and cycling promenade, cafés, bars and restaurants as well as sailboards, bicycle, sailboard and catamaran hire

The Domain – A beautiful inner city park close to the University, home to the Auckland Museum, where you can experience cultural performances, see priceless Māori treasures and learn about New Zealand’s natural history

Multicultural and local foods – A fantastic range of multicultural foods from all over the world and unique New Zealand foods

¹The University of Auckland City Campus

2 South Auckland Campus

Our new campus at Manukau – Ta Peka-Ro a Tai Tonga – reinforces our commitment to high-quality, local education and study-support services for students living in South and East Auckland.

³ Goldie Estate – Wine Science Centre

This 14-hectare vineyard and winery provides a unique venue where Wine Science students live, study and work in a boutique winery in an important winegrowing region of New Zealand.

South Auckland Campus

This 14-hectare vineyard and winery provides a unique venue where Wine Science students live, study and work in a boutique winery in an important winegrowing region of New Zealand.

4 Leigh Marine Laboratory

The Leigh Marine Laboratory is the “marine campus” of the University, offering opportunities for postgraduate teaching and research at the Goat Island Marine Reserve.

5 Epsom Campus

The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education, and social work.

6 City Campus

Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

7 Grafton Campus

Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

8 Newmarket Campus

Covering five hectares, this campus is designed to be a high-quality environment that supports research activities for the faculties of Engineering and Science.

9 Tai Tokerau Campus

The Faculty of Education and Social Work offers courses at the Tai Tokerau Campus, located in Whangārei, the capital of the Northland Region of New Zealand.

10 Leigh Marine Laboratory

The Leigh Marine Laboratory is the “marine campus” of the University, offering opportunities for postgraduate teaching and research at the Goat Island Marine Reserve.
The University of Auckland is a world-class research institution and is recognised as having the greatest depth and breadth of research activity of any tertiary institution in New Zealand.

World-class research

The University of Auckland is a large, diverse university with strengths in a wide range of disciplines, and a commitment to the research collaboration and impact that this breadth enables. This shapes our sense of place and purpose in the dynamic Asia-Pacific region. It positions us, and indeed obliges us, to address some difficult and important global and local challenges.

We achieve this, and contribute to the societies, environments, cultures, health, technology and economies of New Zealand and the world. We do this through excellence in research, connection with our communities, and commitment to the development of people who will lead positive change. Our research-intensive environment nurtures graduates who are able both to articulate and to challenge established knowledge, and who are equipped with the skills to reshape our world.

Renowned research-led university

We support the work of more than 60 research units, centres and institutes, including two internationally renowned Large Scale Research Institutes – the Liggins Institute and the Auckland Bioengineering Institute. We support the work of more than 60 research units, centres and institutes, including two internationally renowned Large Scale Research Institutes – the Liggins Institute and the Auckland Bioengineering Institute. In 2020 we were first or co-host to five New Zealand Centres of Research Excellence (CoREs), which promote world-class research and innovation, contributing to New Zealand’s development:

- Ngā Pae o te Maramatanga: New Zealand’s Indigenous Centre of Research Excellence
- Te Pūnaha Matatini: The Centre for Complex Systems and Networks
- The Maurice Wilkins Centre for Molecular Biodiscovery
- Medical Technologies
- Brain Research New Zealand: Rangahau Rero Aotearoa
- Infection and Immunology

We do this through excellence in research, connection with our communities, and commitment to the development of people who will lead positive change. Our research-intensive environment nurtures graduates who are able both to articulate and to challenge established knowledge, and who are equipped with the skills to reshape our world.

New Zealand’s most innovative University

The University of Auckland is New Zealand’s most innovative university and is the Asia-Pacific’s most Entrepreneurial University. It is known for creating inventive and impactful graduates. The Business School’s Centre for Innovation and Entrepreneurship offers a variety of free support for students and staff at all faculties, enabling participants to unleash their potential.

This includes extracurricular entrepreneurship programmes such as Velocity and facilities such as the University’s state-of-the-art maker space and innovation hub, Unleash Space.

Maybe you’re interested in social innovation or business creation; perhaps you have no experience and are yet to come up with ideas; or maybe you don’t want to launch your own venture and just want to develop skills and meet people.

In any case, we have many opportunities for you to get the most out of your time at the university and thrive in this new world of work, no matter the career path you choose.

www.unleashspace.ac.nz

Innovation hub and maker space

All truly entrepreneurial universities have one thing in common, a unique and iconic collaboration and education space. Unleash Space is ours. Through initial fun workshops and equipment training sessions, you will develop hands-on confidence. Our free state-of-the-art create and maker space is equipped with laser and vinyl cutters, 3D printers and scanners, vacuum formers, CNC routers and a sewing station. By pairing practical knowledge with academic understanding, you can transition from playing to experimenting to prototyping inventions.

www.unleashspace.ac.nz

Dr Hamed Minaeizaeim

Dr Hamed Minaeizaeim was studying his PhD in Biomedical Engineering at the Auckland Bioengineering Institute (ABI) when he developed a device to make the chest physiotherapy exercises prescribed for children with lung disorders a fun thing to do.

The device, BreatheHero, was developed in collaboration with a team of researchers at the University, and has won several awards including the UnisServices prize in the Velocity $100,000 Challenge. Using sensors and gaming technology, BreatheHero measures how well the children do them, rewards them when they do them well, and also collects data on how often they do them.

Hamed graduated in September 2019. For his PhD he also focused on the lung, using mathematical modelling to develop a framework to use medical imagery to track changes in diseased lungs more precisely than is currently possible. He was supervised by Dr Alys Clark and Professor Merryn Tawhai, both internationally recognised pioneers in lung modelling research.

Hamed began his studies in mechanical engineering at Bu-Ali Sina University in Iran before winning a scholarship to Stellenbosch University in South Africa, where he completed a Masters in Mechatronics Engineering. He worked as a consultant engineer in South Africa, but decided to follow up on his passion for biomedical engineering and moved to Auckland to study at the ABI.

“It is one of the best multidisciplinary bioengineering institutes in the world. It’s a multicultural institute with so many incredibly talented students and researchers who are researching cutting edge technology and science to reshape the future.”

Hamed is now employed as a Research Health Intelligence lead at Mahitahi Hauora, a new primary care entity in Northland that is committed to closing the equity gap between Māori and non-Māori in the region. He is leading a data analytic team to better identify where the gaps are in healthcare, why the healthcare systems are disadvantaging Māori and how to address that.
Build a global career

The University is among the top in the world for producing New Zealand-educated international graduates who are highly employable, with the capabilities employers want. Gain the interpersonal skills and networks to prosper in your career, anywhere your ambition takes you. With an employment rate of 96% for our graduates one year after graduation*, you can create your future now with the University of Auckland.

Centre for Innovation and Entrepreneurship

Our Centre of Innovation and Entrepreneurship offers a wide range of innovation, entrepreneurship and commercialisation programmes. It is our role to help you build your innovative and entrepreneurial mindset and capability to transform the world. Unleash your potential, wherever you are on your journey. Join a one-day workshop, or enter a part-time programme in the holidays. We have a range of interactive programmes for everyone. VentureLab is our incubator programme, SummerLab can help you boost your venture, and Velocity is the University of Auckland entrepreneurship development programme.

Career Development and Employability Services (CDES)

CDES assists current University of Auckland students with all aspects of career development. They continue to offer their services for three years following your graduation. CDES can help you find direction and build capabilities that boost your postgraduate employability. This will assist them to become self-managing and able to navigate the world of work, life and learning.

Employability Services (CDES) provides you with a personalised online development consultant. This includes a national/international job board, resources, and a portal for booking workshops, events, and appointments with Career Development Consultants. www.cdes.auckland.ac.nz

Understanding the New Zealand job market

CDES facilitates workshops and employability programmes specifically for international students with a specialised International Career Development Consultant.

University of Auckland Workplace Insights programme

CDES organises a programme where selected international students are paired with alumni, who help them to understand the New Zealand workplace, including employer expectations. This helps the students to make informed decisions and understand the skills they need for employment in New Zealand and can lead to further work experience opportunities.

Our suite of workshops

CDES also offers a suite of workshops that cover:

- Finding work opportunities in New Zealand
- Understanding New Zealand work culture
- Finding your career direction
- Networking: from nervous to natural
- Customising CV, cover letter and job applications
- Answering interview questions: making it easy

The workshops include a LinkedIn tutorial and psychometric testing.

Career and networking events

Over 200 employers connected with students through CDES in 2019. Approximately 10,000 students attended expos and recruitment events.

CDES career events include large industry expos, recruitment events and career education events. These allow students to connect with New Zealand and international employers, learn about different organisations, and make important connections.

World leading work rights

Study at New Zealand’s highest ranked university and obtain the skills and qualifications in demand with global employers. Grab the opportunity to gain a world-class education, learn new ways of thinking and enhance your future career.

New Zealand’s post-study work rights for international graduates are among the most progressive in the world – most New Zealand-educated international graduates with bachelor’s, masters and PhD qualifications can apply for a visa to work in New Zealand for up to three years after they finish their studies. We also have some of the best work rights for students in the world.

- Most university students can work part-time up to 20 hours a week and full-time during scheduled study breaks.
- PhD and research masters students have no restrictions on the hours they can work while studying.

With a three-year Post-study work visa you can work for any employer in almost any job in New Zealand. Your partner can apply for a work visa and your children can apply to study as domestic students in New Zealand schools.

New Zealand employers recognise the exceptional skills and value New Zealand-educated international graduates bring to New Zealand workplaces.

The Post-study work visa can be a pathway to securing New Zealand residency through the Skilled Migrant Category pathway. If you are less than 55 years old, meet the requirements around health, character and language, and have been working in a job relevant to your degree and above the remuneration threshold, you may be invited to apply for the Skilled Migrant Category pathway to residency. In 2015–2016, 4.5% of skilled principal migrants had been international students. New Zealand wants people who have the skills, experience and qualifications we need to grow our economy.

Aptitude and performance in the workplace, including performance appraisal, is one of the three factors that affects the decision to invite a principal migrant (this includes your partner and any dependants) to apply for permanent residency.

For more information on your right to work during and after study at the University of Auckland, visit www.immigration.govt.nz or www.nauruans-studystimenownz.gnet.nz

* Ministry of Business, Innovation and Employment 2016

Gunt Kittiwat

Gunt, from Thailand, completed a Bachelor of Commerce in Operations and Supply Chain Management at the University of Auckland, and now works as a Business Analyst at United Steel.

It was the University of Auckland’s ranking that drew me in, but stayed for the quality of lecturers, the flexibility offered, the support we received, and the lecturers who genuinely care for their students.

“I used to work as a Field Engineer for Schlumberger, a service company in Indonesia. I used to work on and off-shore 24/7, managing clients and supervising people. Being the only woman on the rig was not a big deal for me.“

“One of the biggest decisions in my life was deciding whether I should pursue a higher degree or stay in my comfort zone. Continuing on to a masters degree was the right option in spite of the challenges, because I still have contributions to make to my field.

“Fossil energies are going to run out soon, followed by the decrease of all stock worldwide. Studies in renewable energy are amongst the most necessary topics in the world. I’m being taught by expert lecturers and recognised renewable energy practitioners, and my knowledge will benefit my country, especially since there is currently a lack of experts in geothermal energy technology there.”

Sylvania Marchellina Suhartono

Sylvania came to the University of Auckland from Indonesia to pursue her Master of Energy degree and further her career in the field of renewable energy.

“I used to work as a Field Engineer for Schlumberger, a service company in Indonesia. I used to work on and off-shore 24/7, managing clients and supervising people. Being the only woman on the rig was not a big deal for me.“

10
Our commitment to sustainability

The 17 United Nations Sustainable Development Goals (SDGs) were established in 2015. They set a 15-year agenda and call to action for all countries to end poverty, fight inequalities and build peaceful, just and sustainable societies by 2030.

The University of Auckland ranked No. 1 globally in the University Impact Rankings by Times Higher Education (THE) in 2020 for the second year in a row. The rankings measure how universities worldwide are performing against the SDGs.

The Bachelor of Global Studies is a cross-faculty degree that draws on the combined expertise of the faculties of Arts, Business, Creative Arts and Industries, Engineering, Law and Science. This interdisciplinary programme will expand your mind as you are exposed to new ways of thinking about the world. As you gain competency in another language you’ll deepen your understanding of other cultures and perspectives.

The Bachelor of Global Studies will shape you as an informed citizen who can make a difference in our increasingly globalised world. You will develop skills for employment, such as leadership, teamwork, public speaking, critical thinking, research and intercultural communication.

Dr. Hilary Chung, Founding Director of the Global Studies Programme
The more you understand our world, the better you can reshape it. Choose from a wide range of study possibilities that explore societies, cultures and peoples in all their diversity, both in Aotearoa New Zealand and around the world. Future-proof your career with a degree from one of the world’s leading Arts faculties.*

At undergraduate level, our unique double major requirement encourages you to develop substantial knowledge in two fields and gives you a strong platform for future careers and postgraduate study. In your first year, you can choose from a wide range of subjects, exploring the human condition before deciding on your two majors.

At postgraduate level, you can pursue advanced study and research in your area of personal or professional interest such as conflict and terrorism, creative writing, indigenous studies, public policy, language teaching, and translation.

Academic staff in the faculty have diverse interests and pursue research across a wide range of subject areas. Staff include scholars who are internationally acclaimed as leaders in their fields. Teaching and learning are informed by commitment to research, which means you will be exposed to developing areas of knowledge and encouraged to undertake your own research wherever possible.

Arts research

Associate Professor Minako O’Hagan is the Discipline Convenor for Translation Studies. She spent 14 years at Dublin City University, where she lectured in translation technology, multimedia translation and terminology. She has research specialisms in translation technology with extensive publications, and has an international research network of collaborators in New Zealand, Europe and Japan.

“I am interested in a broad range of technology-related topics in Translation Studies, including fan translation, translation crowdsourcing and, more recently, accessibility capturing in Augmented Reality (AR). Through the European project INTERACT I have extended my interest in fan community translation to crisis community translation in order to understand the needs for translation at the time of major crises. My current work also includes ethical and legal issues in non-professional translation in digital environments.”

www.arts.auckland.ac.nz

Tarini Wijesekera

Tarini, from Sri Lanka, is studying towards a Master of Public Policy and was awarded the International Student Excellence Scholarship.

"After completing my undergraduate degree in sociology, I wasn’t sure about what to study for my masters. I decided to work for a year which led me to realise I was interested in how social problems can be solved practically. Public Policy is ideal for this as it teaches you the basics of defining, analysing and solving problems. Moreover, Public Policy is a versatile area of study because it hones your skills in research, writing and communication, which are crucial for jobs in a range of industries.

"Coming from a background where my family is supporting my education, it was a relief to receive the international student excellence scholarship. It has definitely eased the financial burden on my parents and my own anxiety, knowing that my tuition fees are partially covered."

"Studying at the University of Auckland has given me a versatile degree which will equip me well for work in different organisations and industries."

"I was motivated by the flexibility of the programme, as I could tailor my degree to suit my academic and research interests. The level of support provided to students by the University, both academically and emotionally, was another factor that was important to me."

"I am currently working on an interesting project as part of my internship at the Ministry of Business, Innovation and Entrepreneurship. I am doing a literature review of megatrends expected to impact New Zealand’s economy in the next ten years. The internship is a component of the degree, and it has been a great opportunity to make connections in the policy arena and to get a taste of what working in policy in the public sector is like.”

www.auckland.ac.nz
The University of Auckland Business School is one of Asia Pacific’s foremost research-led business schools, known for excellence and innovation in research, learning and partnership with enterprise. Our internationally qualified staff, up-to-date technology, and strong focus on student development mean that from day one you will receive a business education that is among the best on offer in New Zealand.

We hold leading international accreditation, including the triple crown: AACSB International, EQUIS and AMBA. These accreditations are your assurance of the highest academic standards. They offer global credibility and recognition.

University of Auckland Business School graduates occupy leading positions in business and professions within New Zealand and around the world. The home of the Business School, the Sir Owen G Glenn Building, is an iconic facility that is designed to promote a sense of community among staff and students. It will provide you with an extraordinary learning environment.

Business research

The global fashion industry creates NZ$3.3 billion in sales, yet thousands of its workers have been injured or killed. It is also one of the world’s most polluting industries. Associate Professor Maureen Benson-Rea, Associate Professor Michael Lee, Marketing, and recent doctoral graduate Miriam Selbert are researching how firms are responding to the need for social and environmental sustainability. A recent book, co-edited by Maureen, with a chapter from Mike and Miriam, highlighted the need for socially responsible governance. Maureen and Mike co-supervised Miriam’s PhD research on the slow fashion industry, which shows firms are aware of environmental and social issues caused by over-consumption and production.
Izzat Ramli

Izzat came from Malaysia to study for a Bachelor of Architectural Studies. He is now working towards completing a Master of Architecture (Professional) degree.

"Architecture is a very demanding programme. It demands your time, skills, energy, and requires creative thinking with technicality. I'm grateful to be surrounded by good studio mates who are always supportive, and by tutors, many of whom are professional practicing architects, who give me guidance and advice. The quality of students' work is significantly influenced by the large working space provided by the School of Architecture and Planning, complete with high-end computers and other technologies."

"In 2018 I received a Summer Research Scholarship from the University to develop my research on the connection between indigenous architecture of the Pacific and South East Asia, supervised by Professor Deidre Brown. The scholarship enabled me to conduct research in Malaysia, Borneo, and Indonesia.

"I am also a recipient of the Public Service Scholarship from the Government of Malaysia, Borneo, and Indonesia.

"In my studies, from high rise buildings to social housing, I have learned about different kinds of projects throughout my studies, from high rise buildings to social housing for slum dwellers. I hope to use those ideas in my future career."

"Every international student is like an ambassador for their own country. Don't be scared of trying and learning new things. Be confident in expressing your ideas and opinions because other students from different countries can learn a lot from us, too, with our own unique culture and identity."

Creative Arts and Industries research

Associate Professor Deb Polson leads the Design programme at the University of Auckland.

She is both an academic and a designer in the intersecting fields of data simulation and game design, and her research sees her collaborating with a wide range of people, from scientists, artists and farmers, to technologists and healthcare professionals, to invent new experiences, products and systems of interaction.

Her work has attracted collaborations with diverse groups from Plant Food NZ to Marvel Studios in Los Angeles.

"As an interaction and interface designer, I have long enjoyed conceiving, developing and deploying many multi-discipline research projects that exploit unique aspects of computer games, mobile devices, public displays and digital social networks...to turn complex ideas and situations into playful experiences."

The Faculty of Creative Arts and Industries is a centre of creative excellence, bringing together teaching and research in Architecture, Dance, Design, Fine Arts, Heritage Conservation, Music, Urban Planning and Urban Design. Architecture and planning (architecture/built environment) is ranked within the top 100 schools in the world.

We provide a lively studio teaching environment filled with fellow creatives and internationally recognised artists, practitioners, teachers and researchers. Our strong links with national and international creative communities enable you to connect and foster relationships with relevant professional and business organisations as part of your study.

The PhD and named doctorates are available for advanced research across all our disciplines. We also offer a PhD with a creative practice component. Students have the option to link theory and creative work into new innovative outcomes by incorporating elements such as contemporary art, design, performance or film into their research and final submission.

Studying at Creative Arts and Industries cultivates imaginative thinking, fresh ideas and innovation. The educational experience within the faculty and at the University of Auckland will help set you up for a life of research, discovery and practice that contributes to the future development of society and the creative arts and industries sector.

Undergraduate programmes

Bachelor of Architectural Studies

Bachelor of Design

Bachelor of Fine Arts

Bachelor of Music

Graduate Diploma of Architectural Studies

Lexie Qiao
Lexie, from China, is studying towards a Bachelor of Education (Teaching), specialising in Early Childhood Education. In 2019 she won a Blues Award for excellence in leadership.

"Education has always been my passion, and I’m interested in the ways people think and learn. I often reflect on my own experience of growing up in both Kiwi and Chinese education systems. I am interested in exploring the definitions of quality education for Kiwi children, and combining the essence of multiple cultures to achieve more equitable learning outcomes for all students.

"I value my network, and believe the people who surround you are significant for your future development. Choosing the University of Auckland means stepping onto a platform where you can mingle with the best in their fields and fully unleash your potential.

"In 2019, I received a Blues Award in Leadership and Services from the University – a high accolade at tertiary level for excellence in leadership. The award recognised my contribution for leading a student programme called Luckya Student Help, to support international students with mental health and personal development over the past two years. The acknowledgement has encouraged me to pursue my passion and showed me there are so many possibilities at University.

"My future career goal is to create high-quality education opportunities for students and support them to become global citizens by running businesses and not-for-profit organisations. In the 21st century, soft skills bring the most competitive advantages for the job market. The best thing about a Bachelor of Education is that it’s equipping me with professional communication skills in the workplace and offering rich possibilities at University."

Education and Social Work
The University of Auckland is New Zealand’s leading university for Education – ranked 97th in the world1 and the only New Zealand university to feature in the global top 50. Our staff are nationally and internationally recognised for their teaching and research, and our graduates are sought after by employers in local and global markets.

Our faculty offers a broad range of programmes and attracts diverse students from around the world. The Faculty of Education and Social Work is committed to leading learning and changing lives, with social justice at the heart of everything we do.

In many of our programmes, you will apply your learning through practical experience in the community. Our varied and extensive research contributes to the educational success, health, and wellbeing of individuals and communities, as well as policy formation.

Our masters and doctoral research programmes allow you to focus on research that can be applied in your area of interest. This is an opportunity to contribute valuable knowledge and understanding to your field.

Education research
Dr John Herasaghy is an award-winning lecturer and researcher in counselling, human services and social work.

With extensive experience utilizing social innovation technologies to create positive change for young people, John’s research lies primarily in youth wellbeing and how it is impacted by victimisation, harassment and gender and sexuality norms in education settings. His research around how young people manage online challenges effectively contributes to significant policy and practice developments in New Zealand, particularly around cyberbullying.

John is the founder and co-director of Toolbox Out – We Are Believing, a learning resource to help increase understanding and support of sex, gender and sexuality diversity. The resource won the prestigious NZ Design Institute Award for Social Good in Design in 2019 and an international hundrED Award for the top inspiring innovation in K-2 education in 2018.

1QS World University Rankings by Subject 2020
Daniel Campbell

Daniel is a New Zealand Scholarship recipient from the Caribbean state Saint Vincent and the Grenadines, who graduated in 2019 from the Master of Engineering programme.

“I feel extremely grateful to the government of New Zealand for giving me a New Zealand Scholarship. This opportunity provided me with the means to pursue postgraduate research at the prestigious University of Auckland.

“My specialisation is in Civil Engineering, focused on improving residential construction, project resilience and productivity. This study area is mutually important to New Zealand and Saint Vincent and the Grenadines (SVG) – the results may eventually contribute to the economic and social development of both multi-island states.

“SVG is classified as one of the top five most vulnerable countries in the world to natural disasters such as earthquakes, hurricanes, landslides, rains and drought. New Zealand has been able to continuously build its resilience to similar natural hazards, but also faces challenges with improving resilience and productivity.

“The academic and teaching staff at the University are great. The Engineering faculty has supervisors with extensive experience in both industry and academia. My supervisor Dr Gary Miller gave excellent guidance and support throughout the research process. He shared valuable lessons learned from his own research experience and always made time for face-to-face meetings to give high quality feedback. The International Student Advisers were also exceptional pillars of support.”

The Faculty of Engineering/Te Herenga Waka

The Faculty of Engineering/Te Herenga Waka provides internationally recognised qualifications to equip innovators and creative problem-solvers with the tools required to build a better tomorrow. As New Zealand’s leading Engineering faculty*, we offer a wide selection of undergraduate and postgraduate programmes across five departments.

We now offer ten undergraduate degree specialisations. After work experience, these lead to accreditation from Engineering New Zealand, making our graduates employable worldwide.

We foster close relationships with industry partners so that you can prepare for employment by completing work experience while studying.

Postgraduate students can work on globally significant projects alongside internationally respected researchers at our state-of-the-art research facilities. Our programmes include taught and research options, tailored to a variety of backgrounds and skill levels. These suit people with undergraduate degrees, as well as those who are already working in industry. All our programmes aim to enrich your knowledge and enhance your employability.

We are also home to over ten research units and centres – including the Geothermal Institute, the Centre for Advanced Composite Materials, and the Centre for Automation and Robotic Engineering Science – all of which produce world-class research.

Engineering research

Our faculty’s research expertise has officially extended to space, and Dr. John Cater has been a part of this from the beginning. He’s involved with undergraduate initiatives such as the Auckland Programme for Space Systems. There he serves as its Engineering Lead to groups of students working together to launch a miniature satellite into space. With the Faculty of Engineering’s involvement in New Zealand’s first ever Space Institute (Te Pūnaha Ātea), our research impact is reaching further than it ever has.

Dr. John Cater is an aerospace engineer with research expertise in flow control using laser management techniques and computational models, aerodynamics, and hypersonic boundary layers. More recently, he has focused on developing the underlying science and technology necessary to provide New Zealand with overhead monitoring capabilities, so we can observe changes in our natural environment all the way from space. This has implications in many fields in society, including search and rescue missions, tsunami warnings, other emergencies and more.
Lynn Buckley
Lynn, originally from Ireland, is completing a PhD specialising in Company Law. She is a recipient of the University of Auckland Doctoral Scholarship.

“I graduated from the University of Limerick with a Masters of International Commercial Law. I decided to pursue a PhD because I am passionate about my research topic. My research focuses on company law, corporate governance, and environmental sustainability. One of the things I enjoy most is the interdisciplinary nature of this growing area of research, as each discipline has the potential to offer its own unique ideas and insights.

“I chose to study at Auckland Law School because it is renowned for its subject matter expertise in environmental, corporate, and commercial law. Its focus on these areas afforded me the opportunity to research under the supervision of leaders in their academic fields.

“I like the flexibility the PhD programme provides to travel and connect with researchers from all over the world. A highlight of the programme has been the opportunity to travel to the University of Oslo where I was fortunate to present my research at the PhD Seminar on Companies and Markets.

“I am very fortunate to be in receipt of the University of Auckland Doctoral Scholarship. Without the scholarship I would not be in a financial position to undertake full-time doctoral study, so I’m very grateful to have the chance to fulfill my research ambitions. My studies are providing me with a range of invaluable benefits, from increased subject knowledge and enhanced transferrable skills to intellectual fulfilment and a sense of community with my peers. I’d love to work in academia one day and I believe that pursuing a PhD will help me along this career path. PhD students at the University of Auckland are afforded the opportunity to gain relevant experience through programmes such as the Doctoral Academic Leadership Initiative.”

Law
Auckland Law School has a proud history and produces many outstanding graduates. In 2020, we were ranked among the top 50 law schools in the world in the prestigious QS World University Rankings by Subject.

Our undergraduate and postgraduate programmes offer the largest range of courses of any Law faculty in New Zealand. The Law School has high entry standards for its Bachelor of Laws (LLB) and Bachelor of Laws (Honours) (LLB(Hons)) degrees, and has New Zealand’s largest postgraduate programme in law.

Leading scholars from top overseas universities regularly visit the Law School and teach courses for the Master of Laws (LML) programme.

Situated in the heart of the legal precinct, the Auckland Law School has strong links to the legal profession and judiciary. It is supported by the staff and resources of the Davis Law Library, New Zealand’s leading legal research library. The school provides a complete legal education, preparing students for legal practice as well as many other careers in an internationalised world. Law at the University of Auckland is challenging, exciting, and taught by some of the best legal scholars from New Zealand and around the world.

Law research
Associate Professor Timothy Kuhner is known for his uncompromising approach to the law of democracy. He recently co-edited a book on campaign finance reform in the United States, entitled Democracy by the People. Published in 2018 by Cambridge University Press, Kuhner and eighteen other experts weigh in on the corruption of the American political system and the options for changing course.

Kuhner also recently co-wrote a short film called The Struggle Against Corruption with staff at the United Nations Office on Drugs and Crime. In the film, he warns of democracy’s vulnerabilities to greed and authoritarianism.

I am blessed to have received a full scholarship for the duration of my PhD studies, funded through the New Zealand Aid Programme and administered by the Ministry of Foreign Affairs and Trade. It has helped tremendously in terms of living expenses and tuition fees, allowing me to focus on studies without added stress. “My research work is centred around developing a direct method to quantify non-transferrin-bound iron (NTBI) in the body. NTBI is found in patients who have iron overload, which can be due to repeated blood transfusions or increased iron absorption. NTBI is problematic because it is absorbed by the liver, heart and other organs, causing damage and hence disease states. Currently there is no effective or straightforward method of determining NTBI levels in the body to assist in clinical decisions for patient treatment. My research is aimed at addressing this.”

“The academic staff at the University have gone the extra mile to ensure I’ve received the best guidance and supervision for my PhD journey. The support available to international doctoral students is excellent. From the Doctoral Induction day, to Libraries and Learning Services workshops, to the faculty-organised induction, there is so much support available to us. “Come to the University of Auckland – the supervisors are experts in their fields, the technology and equipment available are some of the best in the industry, and the learning environment is one that fosters personal growth.”
Nishita Balamuralikrishna

Nishita’s Master of Professional Studies in Data Science taught her how to deal with big data and develop meaningful insights.

“I was looking to change my field in my final year of undergraduate study. I enjoyed programming, databases and statistics and wanted a field that would combine all three, so Data Science was a natural choice. During my search for data science programmes, I discovered that the University of Auckland is one of the best in the world for statistics, so that also helped make my decision.

“Taking courses without final exams and dependent on assignments for credits was different from my experience as a student in India, but the professors were very helpful. They answered the numerous questions I had which took away a lot of stress.

“Since graduation I have been working at EROAD as a Data Analyst/Business Intelligence Developer. One of my favourite parts of the job is dealing with massive amounts of data every day. The MProfStuds in Data Science taught me how to deal with big data and develop meaningful insights. Being able to put what I have learned to use in everyday work has been great.

“I didn’t have a lot of experience attending job interviews, so the events run by Career Development and Employability Services on resume writing and interviews were very helpful.

“I can see myself moving from a data analyst/business intelligence developer into a data scientist role in the future. In the long term I want to get a PhD specialising in machine learning and database systems.

“I’m driven by a love for data, programming and solving problems. I hope to help people with the insights and analysis I create. Working for a company like EROAD – who are heavily invested in driver and road safety – means my insights could help save someone’s life one day.”

Science research

Edin Whitehead is an early career researcher, pursuing a PhD in Biology at the School of Biological Sciences, carving out her career as a seabird biologist, science communicator and award-winning conservation photographer. Her research investigates how seabirds can act as environmental sentinels, she looks at energy flows through the marine environment, and analyses how this may change with a warming climate. While conducting surveys to assess breeding success, she uses GPS and GLS to track foraging and migration behaviour on islands in New Zealand such as the Poor Knights, Mokohinau and Marotiri. She takes samples to study body condition and physiology in the lab after each breeding season. Edin has led the design of recent research projects for the Northern NZ Seabird Trust – leading teams in the field. www.edinz.com

### Key

- a Recognised by the relevant professional organisations
- B PhD or DoCFa
- C Specialisations in Creative Practice (Classical, Composition, Jazz, or Popular Music) and Music Studies (with portfolios in Ensemble Direction, Learning, Community and Engagement, Music Education, Music Production, or Musicology) and Studio Pedagogy available at some levels
- D PhD, DMus or DMA
- E MDs beginning in 2021, subject to standard regulatory approval
- F MDes beginning in 2021, subject to standard regulatory approval

### Pathways to undergraduate study

**New Zealand secondary school**

New Zealand schools have an excellent reputation for their teaching quality and academic facilities. Pastoral care for international students often includes home-stay accommodation with a family. Most schools offer the National Certificate of Educational Achievement (NCEA), and some offer the internationally recognised University of Cambridge International Examinations (Cambridge International) or International Baccalaureate (IB). The University of Auckland recognises all of these qualifications.

Our entry requirements for students who have completed NCEA, Cambridge International (taken in New Zealand) or IB qualifications are the same for both New Zealand domestic students and international students.

**Foundation programmes**

If your secondary school qualifications do not meet our entry requirements, a Foundation programme can be an alternative entry pathway into a bachelors degree. Foundation programmes are suitable for both native English speakers and speakers of English as a second language. They will prepare you for university education with skills in:

- Critical and independent thinking
- Computer use and research
- Essential subject knowledge, such as accounting, art, biology, calculus, chemistry, classical studies, computer science, design, economics, English, geography, physics and statistics
- Mathematics
- Physics
- Psychology
- Speech Language Therapy Practice
- Statistics
- Wine Science

You must also meet any additional entry requirements for your programme(s) of study, such as an interview, audition or portfolio.

**Taylors College**

The Foundation Studies Certificate programme, owned by the University of Auckland and delivered by Taylors College in Auckland, is a comprehensive university preparation programme tailored to international students. Once enrolled in the Foundation Studies Certificate programme, you will officially become a student of the University of Auckland and enjoy full access to all University facilities and services, as well as student clubs and societies.

**Taylors College**

75 Karangahape Road, Auckland City
Email: tsc-questions@auckland.ac.nz
Phone: +64 9 306 2600
www.taylorsauckland.ac.nz

**UP International College**

The University of Auckland Certificate in Foundation Studies is owned by the University and delivered by UP International College, which has had a proven partnership with the University for over 50 years, offering a guaranteed progression for students into their chosen degree. The programme provides academic qualifications and study skills and enables students to transition successfully to the Kiwi way of life. Located nearby, you will be welcomed to the University with campus visits, support from alumni and teachers, social activities and access to resources.

**UP International College**

345 Queen Street, Auckland City
Email: admissions@up.education
Phone: +64 9 307 5199
www.up.education

**Prior tertiary study**

If you have started or completed tertiary study outside New Zealand, and want to study for a bachelors degree, you can transfer from a New Zealand or overseas tertiary institution to the University of Auckland. Your overseas qualification(s) must be approved for University admission, and you must also meet the entry requirements and undergraduate English language requirements for your programme. In your Application for Admission, you can apply for transfer of credit for tertiary courses completed elsewhere.

---

**Key**

- These subjects are available as areas of PhD study within other subjects in the Faculty of Science or within other faculties at the University.
- (Please consult a postgraduate adviser about availability.)
- Offered by the Faculty of Medical and Health Sciences
- Must be registered NZ optometrists

**Tara Tan, Managing Director of Grin Natural Products, completed the University of Auckland Certificate in Foundation Studies with UP Education and gained a Master of Commerce from the University of Auckland.**

“I was an average student back home in China but the staff at UP Education gave me every opportunity to succeed. I was encouraged to never give up. The teachers were always there to support me. It wasn’t just an academic programme; it inspired me to challenge myself. Foundation study set me up for academic success. It also gave me the right skills for the real world.”

---

**Kylie, from China, studied Foundation at Taylors College and is now studying towards a Master of Engineering Studies (Honours) at the University of Auckland.**

“My time at Taylors College was a really good transition for me between high school and university. I had a great experience while preparing for university and made lots of friends. I highly recommend it. The reason I choose the University of Auckland is because it is the top university in the country. We have modern laboratories, well-equipped lecture rooms and friendly staff. We have everything you can expect.”
PhD study

Pursue your PhD at the University of Auckland and pay the same tuition fees as New Zealand doctoral candidates – just NZ$7,250.40 in 2020.1 Join a research-led university with a reputation for academic excellence. You will have the opportunity to collaborate with world-class researchers, publish in leading academic journals and build the skills you need for a successful future in academia, industry and beyond.

Why choose us for your PhD?

World-class reputation

Our university is an institution of global standing, ranked among the top 200 in the world by QS World University Rankings, and in the top 2% globally by Times Higher Education.

The QS Stars audit recognises our world-leading status, designating us as a Five Star Plus university for excellence overall, as well as excellence in the following categories: Research, Innovation, Employability, Internationalisation, Inclusiveness, Teaching and Facilities.

We are the highest ranked university in New Zealand by both QS World University Rankings and Times Higher Education.

Leading research

We are New Zealand’s largest research organisation and have more comprehensive research offerings than any other university in the country.2 Our work is supported by the highest level of research income of any New Zealand university, having won 30% of the nation’s research fund. Our institution supports over 60 research units, centres and institutes, and hosts or co-hosts five Centres of Research Excellence (CoREs). This gives you the opportunity to contribute to a wealth of research activities that lead the way in your field.

Dynamic academic community

We have a higher concentration of top-ranked researchers than any other university in New Zealand.3 And we support more annual graduate student completions than any other university in the country.

Our thriving doctoral community is impactful and truly international: on average, our doctoral candidates attend three international conferences and publish three papers during their PhD, and around half of all our doctoral candidates join us from overseas.

Comprehensive support

We support your PhD journey through our outstanding financial, academic, employability and research-focused services and opportunities.

These include:

- Postgraduate Research Student Support (PRSS), an individual fund granted to every doctoral candidate for research-related expenses.
- Access to scholarship opportunities that support the studies of exceptional candidates.
- Use of the largest university library in New Zealand, staffed by research services advisors who offer personalised research assistance.
- A comprehensive toolkit of workshops, programmes, unique development opportunities and online resources to enhance your research skills, academic skills and employability (These include academic leadership and English Language Enrichment.)
- Support from a range of services, including the School of Graduate Studies, the International Student Support team, the Postgraduate Students’ association, Libraries and Learning Services, and Career Development and Employability services.

Family benefits

Not only can you pay the same tuition fees as New Zealand PhD candidates, you can also bring your family with you when you study. There are additional benefits to this:

- Your spouse or partner can apply for an open work visa valid for the same duration as your student visa.
- Your dependent children can attend a New Zealand state school for the same rates as New Zealand children.4

Mina Badiei

Mina comes from Iran and is pursuing her PhD in the School of Curriculum and Pedagogy, focusing on Early Childhood Education.

“I love children, and my passion is helping to provide a better education for them. Working as an Early Childhood teacher, I realised the importance of education and curriculum in the early years of children’s development. My doctoral thesis will investigate education and care experiences of toddlers, to explore how these very young children demonstrate agency and competency in decision-making.

“In the last year of my masters programme in Malaysia, I was searching for a world-class university to pursue my studies. My supervisor suggested the University of Auckland and, after finding out the high global ranking of the University’s Faculty of Education and Social Work and New Zealand’s post-study work visa options, I decided to apply for the doctoral programme.

“I am grateful for the guidance and advice my supervisors provide, and I like the peaceful environment of Epsom Campus – it has its own unique beauty in every season. I have always wanted an academic job at a university and my hope is that being a PhD student at the University of Auckland might help me find a job here.

“I thought it might be difficult to deal with being thousands of miles away from home, but Auckland’s rich culture and lovely people meant I didn’t feel homesick or lonely. I enjoy Auckland’s outstanding lifestyle, beautiful parks, landscapes and amazing beaches. Aucklanders are so friendly and welcoming, and living in Auckland is super cool.”

1 At the time of publication, the 2021 tuition fee had not been set. To be eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. Whenever you may undertake research activities and conference overseas during your doctoral programme (for a cumulative total of no more than 12 months).
2 Aucklanders: World Research Fund (WRF) report 2018
3 WRF report 2018
4 Schooling is free at state and state-integrated schools although parents are expected to meet some minor costs including school books, stationery and uniforms.

Employment opportunities

Finding work during and after your PhD is a key concern for many doctoral candidates. Luckily, when you study in New Zealand as a full-time international PhD candidate, your visa will allow you to work alongside your studies. On completion of your PhD, you can apply for a three-year post-study open work visa through Immigration New Zealand. This allows you to work for any employer in New Zealand.

During the period of this work visa, you may be eligible to apply for residence under the skilled migrant instructions, provided you meet the points requirement set out by Immigration New Zealand.

Study Abroad at the University of Auckland

Spend a summer, a semester or a year at the University of Auckland and earn credits toward your home university qualifications.

With 13 subjects ranked in the top 50 in the world, study abroad and exchange students enjoy a world-ranked education while living in the urban heart of New Zealand. Explore courses that complement your degree or immerse yourself in the cultural and environmental heritage of New Zealand.

With 13 subjects ranked in the top 50 in the world, study abroad and exchange students enjoy a world-ranked education while living in the urban heart of New Zealand. Explore courses that complement your degree or immerse yourself in the cultural and environmental heritage of New Zealand.

Guechbuoy Oeung
Guechbuoy (Min), from Cambodia, studied the English Pathway for Postgraduate Studies (EPPS) programme at the English Language Academy (ELA) and is now pursuing a Postgraduate Diploma in Arts in Politics and International Relations at the University of Auckland.

“It has been a great experience studying at the ELA. I have become more confident when speaking in front of people because the ELA has a variety of methods and techniques to help you improve your speaking skills. I also love the facilities here, especially the Study Centre. At the ELA Study Centre, I developed self-study methods which have been very rewarding and useful for my study at the University. Overall, the experience I have had here has been amazing for me. I have learnt a lot – not only at school but also from the people around me. If you would like to come to New Zealand to further your education, I strongly recommend an ELA pathway programme because it is the best stepping stone to university.”

English Language Academy

If you have not yet met the English language requirements for the University of Auckland, the English Language Academy (ELA) offers programmes that can help you achieve your language goals. The ELA is also an accredited IELTS and PTE Academic testing centre.

Academic pathway programmes

If we have already offered you a place that is conditional on meeting English language requirements, you can fulfil those requirements by successfully completing one of the University of Auckland English Language Academy pathway programmes. If you achieve the required grade, you will meet the University’s English language requirements and will not be required to take IELTS or any similar test.

The ELA’s English pathway programmes are designed to help you prepare for university studies. The courses cover note-taking, academic report and essay writing, exam preparation, presentation skills and communication techniques.

Foundation Certificate in English for Academic Purposes (FCertEAP) is a 20-week direct-entry pathway to admission to the University of Auckland. You must have a conditional offer of a place, and meet the following English language entry requirements:

<table>
<thead>
<tr>
<th>Undergraduate</th>
<th>IELTS PTE-A</th>
<th>TOEFL IBT</th>
<th>ELA Test</th>
</tr>
</thead>
<tbody>
<tr>
<td>Overall</td>
<td>5.5 40 70</td>
<td>Minimum CEFIR B1+</td>
<td></td>
</tr>
<tr>
<td>Writing</td>
<td>5.5 40 21</td>
<td>Minimum</td>
<td></td>
</tr>
<tr>
<td>Other bands</td>
<td>5.0 18 14</td>
<td>CEFIR B2</td>
<td></td>
</tr>
</tbody>
</table>

English Pathway for Undergraduate Studies (EPUS) is a ten-week direct-entry pathway to admission to the University of Auckland. You must have a conditional offer of a place and an Academic IELTS score that is 0.5 away from the required score for admission to the University. For example, a programme requiring 6.0 would need no less than 5.5 overall, 5.5 in the writing band, and no less than 5.0 in the other bands.

English Pathway for Postgraduate Studies (EPPS) is a ten-week direct-entry pathway to admission to the University of Auckland. You must have a conditional offer of a place and an Academic IELTS score that is 0.5 away from the required score for admission to the University. For example, a programme requiring 6.5 would need no less than 6.0 overall, 6.0 in the writing band, and no less than 5.5 in the other bands.

*The Academic IELTS score must have been issued within two years of the FCertEAP commencement date.

Other programmes

Academic English will equip you with the skills needed for university studies, including note-taking, academic report and essay writing, exam preparation, presentation skills and communication techniques. This full-time course runs in ten-week blocks, and you can choose to focus on either IELTS or university preparation skills. Students can progress from Academic English into FCertEAP.

General English is designed to help you improve your everyday English language skills and is also suitable to prepare you for an Academic English or pathway programme.

IELTS preparation is an elective course in the Academic English and General English programmes. We also offer evening and Saturday courses.

Email: marketing@ela.auckland.ac.nz
www.ela.auckland.ac.nz
In the past year, the University of Auckland awarded over $15 million in scholarships to international students.

We work with external scholarship agencies and government bodies to give opportunities to international students who meet admission entry criteria. For country-specific scholarships contact the relevant bodies.

FELIPE DUARTE

Felipe came to New Zealand from Colombia to study for a Postgraduate Diploma in Bioscience Enterprise. He received an International Student Scholarship.

“Since finishing my masters degree in Colombia, I have got more practical experience in science and business in my country. When I looked at options to study, this problem, I discovered a wide range of programmes on offer at the University of Auckland. The Bioscience Enterprise programme is unique, and the approach based on training students with real world industries is amazing.”

“Teachers are the visible face of a University – they are the people who have direct interaction with students. The behaviour and approach of the academic staff at the University has always been student-based, with an emphasis on learning cutting-edge techniques of teaching. They interact with us frequently and are interested in our learning process, even offering support if necessary. The learning environment with well-structured programmes.”

University of Auckland International Student Excellence Scholarship: Worth up to NZ$10,000 for an undergraduate degree for new students with overseas secondary or post-secondary qualifications, or English Language Academy (ELA) students who have received a conditional offer. Up to 50 scholarships a year awarded.

University of Auckland international School Leaver Scholarship: Worth up to NZ$20,000 for new international students from New Zealand high schools undertaking an undergraduate degree.

University of Auckland MBChB Graduate Entry International Masters Scholarship: Worth up to NZ$70,000 over four years for international graduate-entry students to the MBChB. Paid as a fees credit.

Dean’s Asia Scholarships in the Faculty of Business and Economics: Covers tuition fees for Asian international undergraduate students to complete a Bachelor of Commerce or Bachelor of Property degree at the University of Auckland Business School.

University of Auckland Foundation Pathway High Achiever Awards: Awarded each semester to high-achieving students completing a University of Auckland foundation programme at UoP Education or Taylor’s College. No application required.

New Zealand Excellence Awards: Worth up to NZ$10,000 for high-achieving students applying to a postgraduate programme in the Faculty of Engineering or Faculty of Science. Applications are open to new international students who hold Indian citizenship.

University of Auckland Health Research Doctoral Scholarship: Covers tuition fees and a stipend for up to three years, to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Health.

University of Auckland Faculty of Engineering Doctoral Scholarship: Covers tuition fees and a stipend of up to NZ$49,000 per year for up to three years, to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Engineering.

University of Auckland Law School’s Dean’s Doctoral Scholarship: Covers tuition fees and a tax-free stipend of up to NZ$49,000 per year for up to three years, to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Law.

University of Auckland Senior Health Research Scholarships: These scholarships are open to international students who have worked for at least three years as health professionals (such as medical graduates, clinical psychologists, nurses and other clinical researchers), who wish to study at doctoral level in a health-related area. Covers tuition fees plus a tax-free stipend of up to NZ$40,000 per annum.

University of Auckland Faculty of Engineering Doctoral Scholarship: Covers tuition fees and a stipend of up to NZ$49,000 (in 2020) per year for up to three years, to encourage and support academically excellent students to undertake full-time doctoral study on an agreed topic in the Faculty of Engineering.

University of Auckland MBChB Graduate Entry International Masters Scholarship: Worth up to NZ$40,000 for new international students applying to the 130 or 240 point Master of Biomedical Science, Master of Science in Pharmacology or Master of Science in Physiology.

University of Auckland Fulbright Scholarship: Awarded to postgraduate candidates already selected to hold Fulbright Awards, to enable them to complete degrees at the University of Auckland.

New Zealand Excellence Awards: Worth up to NZ$5,000 for high-achieving students applying to a postgraduate programme in the Faculty of Engineering, or Faculty of Science. Applications are open to new international students who hold Indian citizenship.

Dean’s International Doctoral Scholarship (Faculty of Medical and Health Sciences): Covers tuition fees, a relocation allowance and a stipend for an international student to undertake a research doctoral degree in the Faculty of Medical and Health Sciences.

Marie Clay Literacy Trust Research Award: Worth up to NZ$10,000 a year for up to two years, to fund a doctoral student to undertake research into literacy education in the New Zealand context.

University of Auckland Fullbright Scholarship: Awarded to PhD candidates already selected to hold Fulbright Awards, to enable them to complete degrees at the University of Auckland.

University of Auckland Health Research Doctoral Scholarships: Cover tuition fees and a stipend for academically excellent applicants to study in a health-related area in the Faculty of Medical and Health Sciences.

For more information on University of Auckland scholarships, please go to www.auckland.ac.nz/is-scholarships
Entry requirements

We welcome applications from international students with New Zealand or overseas qualifications.

English language proficiency

If you are an international applicant and your first language is not English, you will need to provide evidence of your English language proficiency. You can demonstrate this by achieving the required score on an approved English language test, such as IELTS, or successfully completing an ELA pathway programme. All test results are valid for two years from the date on the test certificate and all English language requirements must be met within one test certificate.

The table below shows the minimum scores for admission to the University. However, some of our undergraduate and postgraduate programmes have higher requirements. For more information about undergraduate English language requirements, www.auckland.ac.nz/ug-english-reqs

For more information about postgraduate English language requirements, www.auckland.ac.nz/pg-english-reqs

If you are an international applicant and your first language is not English, you will need to provide evidence of your English language proficiency. You can demonstrate this by achieving the required score on an approved English language test, such as IELTS, or successfully completing an ELA pathway programme. All test results are valid for two years from the date on the test certificate and all English language requirements must be met within one test certificate.

The table below shows the minimum scores for admission to the University. However, some of our undergraduate and postgraduate programmes have higher requirements. For more information about undergraduate English language requirements, www.auckland.ac.nz/ug-english-reqs

For more information about postgraduate English language requirements, www.auckland.ac.nz/pg-english-reqs

**International students studying at New Zealand secondary schools**

To be admitted to the University of Auckland you must achieve the New Zealand University Entrance (UE) standard and meet the entry requirements for the undergraduate programme you wish to pursue. If you have National Certificate of Educational Achievement (NCEA), University of Cambridge International Examinations (Cambridge International), or International Baccalaureate (IB) qualifications, you will be given a rank score.

The entry requirements for your programme will be expressed as the rank score you need to achieve in NCEA, Cambridge International or IB to guarantee you entry. Applicants with scores below these will still be considered, provided places are available.

Some programmes will also require you to have taken specific subjects and gained minimum credits in those, or have other requirements such as a portfolio, audition or interview. www.auckland.ac.nz/entry-requirements

**English language requirements**

If you are entering the University on the basis of NCEA, Cambridge International (NZ) or IB qualifications, you must meet the New Zealand University Entrance (UE) standard literacy requirements for admission.

International applicants entering the University on the basis of qualifications other than NCEA, Cambridge International or IB taken in New Zealand must meet a specified score in IELTS or an alternative approved English test, or must have completed and passed the Foundation Certificate in English for Academic Purposes (FCE), the English Pathway for Undergraduate Studies (EPUS), the English Pathway for Postgraduate Studies (EPPS), or an approved alternative.

Some programmes may also require you to demonstrate your proficiency in English at a selection interview. If you are applying for a Faculty of Education teaching programme, you must achieve an IELTS score of 7.0 in addition to NCEA, Cambridge International or IB requirements.

**International students outside New Zealand**

If you are an international student, you must meet University Entrance, individual programme and English language requirements. Academic entry requirements are based on the grades you achieved in your prior study. Some programmes also require you to have taken specific subjects or have other requirements such as a portfolio, audition, interview or proven research capability.

**Entry into a masters degree**

To enter a 120-point (one-year) masters programme, you must have completed one year of postgraduate study, following an undergraduate degree, in a related subject area at a recognised university, with the required GPE. The entry requirements for a 180-point or 240-point masters vary according to the subject area of your specialisation. Usually, you must have completed a bachelor degree (or equivalent) in a related subject area at a recognised university, with the required grade point equivalent (GPE).

**Entry into a Doctor of Philosophy (PhD)**

Entry into a PhD is based on academic merit. You should also possess high-level critical research skills and theoretical understanding. You must be able to demonstrate an ability to carry out independent research and have already completed a significant research project, dissertation, or thesis, at university.

You will need to have completed a masters-level qualification in a field related to your doctoral studies with the required grade point equivalent (GPE).

**Entry into a bachelors degree**

You must meet the equivalent of the New Zealand University Entrance (UE) standard (the minimum standard for admission to New Zealand universities) as well as the entry requirements and undergraduate English language requirements for the programme you wish to pursue. These are listed on our website. If you have completed a qualification not listed on our website, we will assess your application on its merits.

**Entry into a bachelors (honours) degree**

You will need to have completed an undergraduate degree from a recognised university, in a related subject area, with the required grade point equivalent (GPE). Exceptions are the BE (honours) and the BAppSc(hons). See our website for more information, including the specific entry requirements for your chosen programme(s).

**Entry into a postgraduate diploma**

Entry requirements vary according to your chosen subject area. You will need to have completed an undergraduate degree from a recognised university, in a related subject area, with the required GPE. Some programmes will require a higher GPE. See our website for more information, including the specific entry requirements for your chosen programme(s).

### Calculating your GPA/GPE

Grades or marks achieved at the University of Auckland are given a Grade Point Average (GPA). Grades or marks achieved through prior study at other institutions are converted into a Grade Point Equivalent (GPE) at the University of Auckland.

To convert your grades into a GPA, use our GPA Calculator:*

www.gpecalculator.auckland.ac.nz

*The online calculator provides an indicative guide only and does not guarantee a place to study at the University.

For further information on entry requirements, please see www.auckland.ac.nz/is-entry
Accommodation

Our accommodation provides a safe, comfortable and supportive environment in quality, fully-catered or self-catered residences. All are within easy walking distance of the City Campus, as well as many of Auckland’s main attractions. Your accommodation fees cover the cost of utilities such as water, electricity and internet. Bedding packs are available to purchase.

Application dates

Applications for Semester One 2021 open on 1 August 2020.

Applications for Semester Two 2021 open on 1 April 2021.

To have the best chance of getting a place in a residence, you should apply for accommodation at the same time you apply for your academic programmes. Late applications will be considered if rooms are available.

Couples and family accommodation at the University is limited, especially for those applying outside of the standard academic year. We encourage those applying in Semester Two or between February and November to contact our Accommodation team, who can assist you in finding suitable accommodation that best fits your needs.

Apply online at www.accommodation.ac.nz

Contact

Accommodation Solutions
Phone: +64 9 935 7601
Email: accom@auckland.ac.nz
www.accommodation.ac.nz

Private accommodation**

If living in a university residence isn’t for you, we can assist you with finding suitable private accommodation in Auckland.

Before you arrive in Auckland, we encourage you to read our e-book, Living in Auckland – A Students’ Guide, which is full of helpful information about locations, rental agreements, and the cost of living. This guide is available at www.auckland.ac.nz/living-in-auckland-ebook

We suggest you reserve temporary accommodation for your first few weeks in Auckland to allow time to familiarise yourself with the city, its surrounding suburbs and where you want to live.

Homestays – In a homestay you live with a family and have your own room. Meals and other services are provided. Please note that homestays are generally not close to the campus.

Private student accommodation and private residences – Our advisory service can assist you with information about student accommodation options near the campus.

Flatting – You share a house or flat with other residents and are responsible for paying the bills according to the details in the tenancy agreement.

We do not inspect or in any way guarantee the quality or availability of private accommodation. Do not under any circumstances sign agreements or pay deposits for any properties you have not seen. If in doubt, contact our private accommodation adviser.
Academic support

Libraries and Learning Services
Libraries and Learning Services provide resources, workshops and advice to help you succeed, even before you start your study.

In addition to the General Library, a number of specialist libraries cover the variety of subjects taught at the University. Your student online access allows you to search a diverse collection of electronic resources, including databases, e-journals and e-books, accessible anytime from anywhere. Within the libraries, you can access large collections of print, multimedia and microtext materials, including unique manuscript and archive collections.

We offer workshops to improve your academic skills, covering topics such as writing skills, finding course readings and articles, referencing, exam preparation, literature searching, presentation skills and thinking critically.

Speak to a Learning Adviser or Subject librarian to get advice on improving your academic skills and finding information for your assignments.

Libraries and Information Commons (IC) facilities provide more than 4,000 study spaces, many with computer workstations and access to printers, scanners and copiers. IC Helpdesks provide support for student computing resources and services including student email, internet access, the wireless network and student file storage.

www.library.auckland.ac.nz

English language for university study
The University offers free services to help you improve your English language skills while you study. (For information about English courses to enhance your academic English skills, contact your Student Adviser or Subject Librarian.)

www.english.auckland.ac.nz

Diagnostic English Language Needs Assessment (DELNA)
The DELNA Programme is designed to help students who may need to improve their academic language skills in order to succeed in their studies.

DELNA is a free check of your academic English language skills. Your results will not exclude you from courses you are already enrolled in and will not appear on your official academic record. Students begin with the DELNA Screening, which takes less than 30 minutes.

Depending on your results, you may be asked to follow the Screening with the two-hour DELNA Diagnosis, which consists of a reading, listening, and writing task. After the diagnosis, you will receive individual advice about the options available to enrich your academic language ability.

www.delna.auckland.ac.nz

English Language Enrichment (ELE) provides opportunities for any student enrolled at the University of Auckland to improve their academic English. At ELE on campus, you can use English language resources, get advice about your English, join language-learning groups and find language exchange partners. You can visit whenever you like and for as long as you like.

ELE Online provides language-learning materials, including vocabulary, grammar and pronunciation tools to help improve your academic English. Your student online access allows you to use these resources anytime, anywhere.

www.library.auckland.ac.nz/ele

Academic English Studies
Academic English Studies is taught in the Faculty of Arts. It aims to develop and improve your academic English skills. Contact your Student Centre to find out whether you can credit ACADEMS courses towards your degree.

www.arts.auckland.ac.nz/aes

Personal support
Meet and greet
The International Office provides a free airport transfer service for all new international students arriving in Auckland. This is a great way to avoid the stress of finding your own way to your accommodation. We will meet you and give you information to help you settle in to life in Auckland. A web link for this service is included in your Offer of Admission email.

Orientation
The International Office arranges an Orientation programme for all new international students. The International Orientation is designed to welcome you and give you all the information you need about the University and living in Auckland.

In addition, the University provides Faculty Orientation for all new students at the start of Semesters One and Two. You will also have the opportunity to meet new people and make friends at a range of social and cultural activities.

The Business School provides an Orientation for Business coursework masters students in Quarters Two and Four.

www.auckland.ac.nz/InternationalOrientation

UniGuides
UniGuides are current students from your faculty who can help you find your way around campus and answer your questions during the first few weeks of the semester. You will meet your UniGuide at your Faculty Orientation Day.

www.auckland.ac.nz/uniguide

Spirituality
Students of all religious and cultural beliefs are welcome and the University is proud to offer interdenominational pastoral care and spiritual guidance. Places of worship available on campus include a Christian chapel and Muslim prayer room. Nearby there are numerous churches, as well as a Hindu temple, a synagogue and a mosque.

www.auckland.ac.nz/spiritual

Career Development and Employability Services
Our award-winning Career Development and Employability Services (CDES) have a designated International Career Development Consultant who is responsible for providing specialised services. These will support your successful transition into work. If you have completed your studies, special events such as careers expos, recruitment events, networking opportunities, workshops and employer presentations can help you to engage with employers and understand the New Zealand job market.

CDES online tools, workshops, events, job board and personalised services can assist you to identify the opportunities available to you. They also provide information about courses and skills to help you compete in the New Zealand job market.

Go to page 40 to learn more about career development.

www.cdes.auckland.ac.nz

Childcare
If you need to organise childcare, there are six on-campus early childhood centres, offering places to children aged from three months to five years. Dedicated parent spaces provide facilities for caregivers and children, and there is a child-friendly study space in Old Choral Hall. Childcare fees are in demand, so apply early.

www.auckland.ac.nz/parent-student

University Health and Counselling Service
If you have any health concerns during your time at the University, your team of professional, experienced and friendly clinical staff are here to help you. As an international student, you will be able to make an appointment at our campus clinics for general health problems, urgent care needs or accidental injuries. For after-hours care, we have a registered nurse who is available by phone through the night or at any time our clinics are closed.

We provide a counselling service that can help you get back on track if you feel things are becoming too difficult to manage on your own. We offer brief therapy, daily duty slots for urgent counselling, group sessions, academic consultations and a number of online resources.

Fees and charges
All international students are required to have appropriate medical and travel insurance. The University recommends a scheme that meets requirements. (See pg. 47.) International students with this scheme will have all University Health and Counselling Services fees charged directly to the insurance company, provided the cover is for a condition covered in your policy.

www.auckland.ac.nz/healthandcounselling

Students with disabilities
We welcome international students with disabilities. Student Disability Services has a range of support available, including assessment of support needs, access to disability study spaces and special accommodations for tests and exams. It is important to check that the University is able to meet your specific requirements, as the type and level of support for international students with disabilities may differ from those at your home university.

Contact us early so we can discuss your support requirements.

www.disability.auckland.ac.nz

Personal development
You can complement your academic achievements by getting involved in a number of out-of-classroom activities that build a range of skills. Two ways to do this are:

Student Leadership Programme
The Student Leadership Programme is for all students to engage with current thinking about leadership and expand their own personal leadership behaviours. There are various ways to get involved, from half-day workshops to interactive talks.

www.auckland.ac.nz/leadership

Clubs and societies
Joining a club is a fantastic way to make friends, participate in activities and learn things outside of the lecture theatre, making your student experience richer and more rewarding.

Keen on kayaking? Appreciate desserts? Focused on footy? There are more than 250 clubs on campus – make sure you check them out at the Clubs Expo held during Orientation Week.

www.auckland.ac.nz/clubs

Recreation and sports
Sport and Recreation provides a wide range of facilities and services to students.

If you’re keen on sport you could get some friends together and sign up for one of the UNIMHS Social Sports leagues, or represent your faculty in one of 3.5 sports in the Interfaculty Sports Championship.

Recreational membership includes access to a wide range of group fitness classes, weights and cardio equipment. Additional programmes and services are also available such as bootcamp, self-defence, personalised programmes and much more.

www.universitysport.auckland.ac.nz

Volunteer Hub
Volunteering is a great way to make friends, get to know the city and gain new skills and experience. The Volunteer Hub provides the opportunity to volunteer for a wide range of organisations and community projects. You can also get social university recognition for your volunteering activities on your transcript.

www.auckland.ac.nz/volunteer

International student support staff
Being away from home is a challenge in itself. To assist you, the University has facilities and extensive support for international students, whatever your background or needs. Our team of international student support staff is available to help you with a range of issues, including immigration, health and wellbeing, financial advice, accommodation and personal support.

There is a 24/7 emergency number available if you urgently need to contact our staff, at any time of the day or night.

www.auckland.ac.nz/student-support-and-services
Student visas
You must apply for a student visa to cover the period you intend to study in New Zealand. You must show evidence you have been accepted into a programme, paid your tuition fees, and have sufficient funds to cover your living costs while in New Zealand. You must apply for your student visa before entering New Zealand. Full details on the necessary reporting requirements are available through Immigration New Zealand.

www.immigration.govt.nz

Eligibility for health services
Most international students are not entitled to publicly-funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment if you do not have appropriate insurance. Full details are available through the Ministry of Health.

www.health.govt.nz

Health and travel insurance
All international students are legally required to have appropriate health and travel insurance. The University has a recommended policy that meets New Zealand government requirements. When you enrol you will automatically be covered by Studentcare International University. The insurance premium will be added to your student account. You will receive details with your offer of admission letter from the University.

www.auckland.ac.nz/insurance

Accident insurance
The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand. But you may still be liable for other medical and related costs.

www.acc.co.nz

Employment
If you are enrolled in a research masters or a doctoral programme you will be eligible for unlimited work rights. Under certain circumstances, other student visa holders may work part-time or full-time (during scheduled University vacations) or to meet course requirements for practical work experience. You should refer to the Immigration New Zealand website for up-to-date information on application procedures for obtaining any variation of the conditions of your student visa.

www.immigration.govt.nz/study

On completion of your University of Auckland degree or diploma, you may apply for a Post Study Work visa for up to three years.

Living costs
Generally you should allow approximately NZ$21,000–$35,000 per year (or NZ$150–$267 per week) for general living costs, including accommodation, food and transport. Our International University Support staff are available to assist you with budgeting advice if necessary.

International tuition fees 2021

The University of Auckland calculates fees according to the courses you take within your degree or diploma programmes. Fees vary between faculties, and sometimes within a faculty. The tables below give the estimated annual tuition fee based on enrolment in 110 points. Visit our website for the most accurate and up-to-date information on international tuition fees:

www.auckland.ac.nz/studentfees

You are also required to pay a student service fee. This is calculated on a per point basis. The student service fees for 2021 will be set later in the year. As a guide, the student service fee for 2020 was calculated as NZ$7.86 per point (GST inclusive).

Expect to pay about NZ$21,200 per year for books and stationery. Some courses also have fees for field trips or site visits.
