

## **RE: University of California fact sheet**

Please note that the UC fact sheet has been updated by 360 International with the new UC Reciprocity hyperlinks.

### ***Careful research and preparation are required for exchange at UC.***

UC has a unique application process where you could be placed at any of the three campuses listed in your application. If you find that only one campus is a viable option, you may need to reconsider your options as UC may not be suitable if you have limited flexibility in your courses.

For specific majors (popular majors), you must demonstrate evidence of meeting UC prerequisites before you study at UC. Please check [Preparation for Specific Majors](#) to see if this applies to your major. If you do not meet the prerequisites for a particular major, it is highly unlikely students will be admitted for that major.

Please also consider the cost of insurance, visa and living expenses at UC.

### **Application to 360 International:**

UC counts as one choice in your application to 360 International. However, you are still required to show evidence of researching courses at three campuses in your [Host University Preferences and Proposed Courses Form](#).

### **If nominated by 360 International to UC:**

You will apply to UC and will be required to research three campuses and submit a study plan for each. Flexibility of campus choice is required as UC makes the final decision as to where you are placed. Your first choice campus is not guaranteed.
