In New Zealand
for Employability***

Nau mai, haere mai Welcome to the University of Auckland

Postgraduate study at the University of Auckland offers the opportunity to fulfil your academic and career potential, and make a significant contribution to society. Whether you choose one of our taught or research programmes, you can expect to challenge your thinking, learn new skills and position yourself for the next step in your career.

As you pursue advanced study, you could be involved in the discovery and development of innovations that improve our social, cultural, economic and environmental wellbeing.

As well as innovation through research, we offer specialised and innovative degrees such as the Master of Earthquake Engineering that meet the demands of an ever-changing world.

We've also been recognised as world leaders in sustainability with our recent number one ranking in the Times Higher Education Impact Ratings. These measure how well educational institutions are delivering on the United Nations' Sustainable Development Goals.

Our more than 14,000 postgraduate students play an important role in the University's innovation ecosystem and are a valued part of our academic community. As such, we offer a wide range of support and opportunities, including:

- Over 150 taught and research postgraduate programmes
- \$40 million in postgraduate scholarships and awards each year
- Extensive pastoral and learning support

The University of Auckland is also placed at number one in New Zealand for Graduate Employability***. When you finish your studies, you'll be equipped for the next step – what that looks like is up to you. Success with us is just the beginning.

We look forward to welcoming you in 2021.

“I believe doctoral research will help me broaden my horizons in the interface between Māori culture and environmental engineering.”

Nona is a PhD candidate in Environmental Engineering. His thesis aims to facilitate more efficient collaboration between Māori communities and non-Māori parties to utilise and develop geothermal resources.

“As a member of Te Ārawa and Tainui iwi, I am regularly engaging with various members of Te Ārawa and Ngāti Tūwharetoa hapū and obtaining historical and cultural mōhiotanga (knowledge) of Māori communities’ spiritual and physical links with geothermal resources in the central North Island. I also explore the different worldviews associated with geothermal development to pursue holistic decision-making and ensure cultural, environmental, social, and economic sustainability.

“Within geothermal development, Māori communities are under-benefited, and with little sustainability, our Te Ārawa and Tūwharetoa people are at risk of losing the very gift that our ancestors have thrived with for hundreds of years.

“I am originally from Rotorua where I was immersed in Māori culture and language, and utilised geothermal resources as a member of the local community. By combining my cultural heritage with an education from a western engineering institute, I have the ability to help facilitate sustainable change and increase cultural awareness in the engineering space for our people.

“I hope to raise our younger generation’s awareness of past, present and future issues that Māori communities may face if the current direction of geothermal utilisation continues.”

Nona Hohepa-Taute is a PhD candidate in Environmental Engineering. He is a recipient of a Ngāti Māhino Iwi Authority scholarship and GNS Science Doctoral Research Award.

Watch Nona speak about his postgraduate experience at www.auckland.ac.nz/gradvids

Get a taste of postgraduate study

Meet our academics, explore your study options and see what postgraduate life could be like for you.

Postgraduate Week

28 September - 2 October 2020

Don't miss out on the chance to attend a range of postgraduate events in 2020, including panel discussions and one-on-one advice sessions. Webinars will also give you detailed insight into some of our postgraduate programmes and the opportunity to ask our academic supervisors any questions. Registrations are essential.

www.postgradweek.ac.nz

Three Minute Thesis

The Three Minute Thesis competition gives postgraduates 180 seconds to explain their entire thesis to a general audience. This fast-paced annual competition is an unmissable highlight in the postgraduate calendar, and a unique platform for postgraduates to increase their research impact and refine their research communication skills.

www.auckland.ac.nz/3mt

Postgraduate Research Showcase

Each year, this showcase brings together some of the best postgraduate research from across the University. It's a fantastic opportunity for our postgraduate students to gain public recognition for their research and to network with peers, academics and industry representatives.

POST GRADUATE WEEK 2020

28 Sep - 2 Oct

Discover a world of opportunities to start your postgraduate journey.

postgradweek.ac.nz

“I learned so many new skills during my postgraduate studies, and it allowed me to develop both professionally as a scientist and grow as a person.”

Rebecca is a graduate of the Doctor of Philosophy in Biological Sciences and a lecturer in Wine Science at the University of Auckland. Her PhD research investigated how different temperatures used during wine fermentation impacts the metabolism of yeast.

“I chose to pursue my doctorate because it was exciting to be able to select a PhD topic that was interdisciplinary, combining my love of genetics and aroma chemistry. My decision to undertake my studies at the University of Auckland was for its strong research culture and world-class science performance.

“My PhD has provided me with many opportunities. At an academic level, my research resulted in the publication of three journal articles in highly-regarded journals in the field of wine science. I was also able to attend three international conferences and present the work from my thesis.

“At a professional level, I was able to work for my supervisor as a lab technician for a year after my PhD, which led to developing commercial wine yeast strains along with some teaching experience. This led to postdoctoral and teaching work which was essential for getting my academic position at the University of Auckland.

“I have also made lifelong friends and developed networks for research collaboration.”

Rebecca Deed is a recipient of the Janet Bain MacKay Memorial Prize, the Frances Briggs Memorial Prize in Plant Sciences, and the Bright Futures Doctoral Scholarship.

Postgraduate research

Postgraduate research is a cornerstone of the University of Auckland. The breadth of research being conducted at the University means we offer a wide range of disciplines to our research students. There is a wealth of opportunities for you to undertake research as a postgraduate student: from small research projects to in-depth doctoral theses.

Leading researchers

The University has more internationally and nationally esteemed researchers than any other tertiary institution in New Zealand. This means you could be working alongside internationally respected researchers on a project of global significance, whilst building your international networks and a reputation of excellence.

Be part of our research community

As a postgraduate researcher at the University of Auckland, you will be part of a community of like-minded postgraduate scholars that has the largest number of research degree completions in the country.

Renowned research-led University

The University of Auckland has more top quality researchers in more subjects than any other university in New Zealand.* The University supports the work of eight faculties covering a comprehensive range of disciplines, as well as two internationally-renowned Large Scale Research Institutes. The University is also host to five Centres of Research Excellence (CoREs), partner on another five, and hosts two National Science Challenges and is a partner on another eight.

* Quality Evaluation (PBRF) – Final Results, Ngā Kete (TEC)

\$40 million

worth of postgraduate scholarships and awards are on offer each year.

FindaThesis

Find doctoral and masters research opportunities at the University on FindaThesis. Whether you're searching by area of interest or looking for a specific project, the online database provides detailed information about available projects, potential supervisors and more.

www.findathesis.auckland.ac.nz

You can also browse the University's staff directory to find potential supervisors who research in your area of interest.

www.unidirectory.auckland.ac.nz

“As a Pacific student, the University’s Māori and Pacific Admission Scheme (MAPAS) provides valuable academic and pastoral support that is second to none.”

Julie recently completed a Bachelor of Health Sciences (Honours), investigating the perceptions of Māori stroke survivors and their whanau on the use of a robotic aid to assist rehabilitation. She will be extending her research into a PhD, focusing on the epidemiology of cardiovascular disease among Pacific people living in New Zealand.

“Cardiovascular disease is the leading cause of preventable death both in New Zealand and globally, and Pacific people in particular experience a disproportionately higher burden compared to the general population.

“There is a lack of Pacific health researchers, and a greater lack of Pacific epidemiologists in New Zealand. I decided to pursue postgraduate study to help change this and do my part to improve the health experiences and outcomes of Pacific people in New Zealand.”

“The reputation of the University of Auckland was one of the reasons that I decided to study here. The calibre of the academic staff and the teaching environment is very high, and there are many internationally-recognised academics in the Faculty of Medical and Health Sciences.

“My postgrad study helped me to determine what fuels my passion, and where I want to situate myself in the health workforce. I liked that classes were a lot smaller and you could build networks and relationships with peers, staff members and academics who become colleagues when you complete your studies.”

Julie Winter-Smith is a recipient of the Ministry of Health Aniva scholarship and the Pacific Health Workforce Awards.

Arts

As one of the world's leading faculties for humanities and social sciences, we are passionate about making a difference and pushing the boundaries of knowledge and understanding.

Our research strengths include:

- Archaeology
- Conflict and terrorism
- Cybercrime
- Disaster recovery
- Histories, cultures and identities
- Indigenous knowledge and development
- Linguistics and language
- Policing and restorative justice
- Public policy
- Refugees and transnational migration
- Sustaining environments
- Transforming societies

Through your postgraduate study, you will develop specialist knowledge alongside advanced capabilities in critical and creative thinking, written communication and cultural awareness. Our graduates go on to work in diverse fields such as archaeology, international relations and development, museums and cultural heritage, and policy-making.

Auckland Bioengineering Institute

The Auckland Bioengineering Institute (ABI) is a world-leading research institute that aims to improve medical diagnosis and treatment of injury and disease, and to develop new assistive devices for the disabled. Our focus on research excellence, clinical application, entrepreneurship and commercialisation adds value to society and to the New Zealand economy.

Our research strengths include:

- Biophysically-based computational models of the human body
- Innovative medical devices and instrumentation
- Biomimetics and augmented human technologies
- Engineering for clinical technologies

ABI has many international collaborations in fields such as musculoskeletal and gastrointestinal modelling, cardiac, lung, and womens health research, plus augmented and virtual reality. We promote a culture of entrepreneurs based on opportunities that emerge from our research. Our goal is to help students achieve their best through a research-focused environment and a range of generous grants and scholarships.

Business School

At the Business School, we have an unconditional commitment to quality teaching and research in topics that shape the futures of people and organisations for the benefit of New Zealand and the world.

Our academics are engaged in research programmes that enable people to develop ideas, knowledge and skills that shape their development, advance New Zealand business, influence the global economy and enhance society. Their projects frequently involve

postgraduate students and collaborations with international colleagues.

The Business School focuses on four strategic research and education themes that align closely with the University's commitment to research on issues of national and international significance.

- Innovation and value creation
- Succeeding in international markets
- Productivity and sustainable business
- Leadership and governance

Our researchers work in a number of disciplinary areas:

- Accounting
- Commercial Law
- Economics
- Finance
- Information Systems
- International Business
- Management
- Marketing
- Operations Management
- Property

We also host research institutes and centres that focus on long-term programmes of high relevance, such as building New Zealand's business connections with Asia, digital enterprise, retirement policy, Māori and Pacific business development, and energy and resource use.

QS World Rankings by Subject 2020.

“I enjoy the independence of postgraduate study. Having a major project to manage is a great challenge that is very exciting to me.”

Originally from the UK, Jarrah is a recipient of a University of Auckland Doctoral Scholarship. After completing a Summer Research Scholarship which sparked an interest in further postgraduate study, Jarrah is now studying towards a PhD in Bioengineering.

“My work focuses on cardiac mechanics using the Auckland Bioengineering Institute’s cardiomyometer. The title of my thesis is ‘Transient dynamic performance of cardiac muscle during interventions,’ where an intervention is anything that modifies the contractile state of cardiac muscle be that stimulus frequency, muscle length, or use of pharmacological agents.

“By performing more physiologically relevant experiments, we can get a better understanding of how the heart works. This is especially useful when looking at diseased tissue (e.g. diabetic) where we can figure out what changes or goes wrong, providing us with information about potential targets for treating these conditions.

“I chose the University of Auckland due to its world-leading instrumentation for the study of cardiac muscle, along with the financial security of a doctoral scholarship. The high academic ranking and distinguished reputation of the University was certainly a consideration in my decision to come here for my undergraduate degree. At the time it was the only New Zealand university that offered biomedical engineering and even now, the degree it offers is unparalleled in the country.

“Studying bioengineering at the University is something special – it’s a relatively small group which means that you get to know everyone pretty quickly. ABI has a great social committee which organises events catering to all types of people. I’ve made so many great friends through these events that I would have otherwise never met.”

Jarrah Dowrick is a recipient of the University of Auckland Doctoral Scholarship.

 Watch Jarrah speak about his postgraduate experience at www.auckland.ac.nz/gradvids

Creative Arts and Industries

The Faculty of Creative Arts and Industries is the University's centre of creative research, teaching and practice within the fields of architecture, heritage conservation, urban planning, urban design, dance, design, fine arts and music.

Key research strengths include:

- **Architecture, heritage conservation, urban planning, urban design:** urban and architectural resilience and sustainability; urban and spatial planning and place making; design research; the history, theory and pedagogy of the built environment, including Māori and Pacific-focused research.
- **Dance Studies:** choreography, performance, community dance, dance education, ethnography, history and technology
- **Design:** advanced technologies, global challenges, community engagement, natural environment, enterprise, theory and practice methodologies, impact and leadership.
- **Fine Arts:** curatorial, critical and theoretical research contributing to local and international contemporary arts discourse.
- **Music:** music performance, composition, improvisation, music in historical and social contexts, music education and pedagogy, music production, musicians' health.

Education and Social Work

Research in the Faculty of Education and Social Work is committed to improving the educational and social wellbeing of society. Our research harnesses the vast potential that diversity brings to education, social work, counselling and social and community leadership.

Five sub-themes summarise the key spheres of our research: advancing equity and social justice; enhancing indigenous opportunities; leading learning; promoting life-long wellbeing; and supporting intercultural inclusiveness.

Research strengths include:

- Applied theatre in education
- Education and schooling success for diverse communities within New Zealand
- Educational leadership
- Health education, physical education and sports studies
- Knowledge in education
- Literacies and languages
- Pacific education, languages and communities
- Māori and indigenous language revitalisation, language education and language policy
- Social work practice strategies for promoting the wellbeing of diverse populations.

Our collaborative relationships with schools and communities of practice have enabled the faculty to secure significant funding for its research and professional fellowships, along with postgraduate study scholarships for outstanding researchers from New Zealand and around the world.

Engineering

The Faculty of Engineering covers a wide range of innovative and exciting research – from pure to applied – with demonstrable positive impacts on society, economics and technology and a commitment to ensuring we lead the way towards a sustainable future.

Some of our major research areas include:

- Earthquake engineering
- Energy
- Food
- Healthcare technology
- Infrastructure
- Manufacturing
- Robotics
- Smart materials

We believe in inclusivity – our postgraduate students are valued members of our research teams. Our capacities are further strengthened through collaborations with industry and other faculties and research institutions, so you're exposed to the best knowledge on offer.

Law

As New Zealand's leading law school, we have a tradition of excellence proven by a strong international reputation for research. Our strength is reflected in the calibre of our award-winning lecturers and supervisors. Auckland Law School has leaders in all major areas of the law.

The New Zealand Centre for Legal Theory recently became our sixth renowned research centre, alongside the New Zealand Centres for Indigenous Peoples and the Law; Information and Communications Technology Law; Environmental Law; Human Rights Law, Policy and Practice; and Law and Business.

Our broad range of research areas include:

- Contract, torts, equity and other areas of private law
- Corporate and commercial law
- Criminal law and justice
- Family and relationships law and policy
- Indigenous peoples and the law
- International and comparative law
- Land and environmental law
- Legal history and theory
- Litigation and dispute resolution
- Public law, including constitutional and administrative law
- Tax and regulations

Liggins Institute

The Liggins Institute is a world-leading centre for research into maternal, foetal and child health, nutrition, development, epigenetics and translational and implementation science. Our mission is to improve life-long health through excellent research into the long-term consequences of early-life events.

Our multi-disciplinary approach enables us to view 21st century health problems from different angles at once, and our four key research themes reflect this:

- **Determinants of a healthy life** is a groundbreaking area of science that has the potential to understand why and how non-communicable diseases develop.
- **Healthy mothers, healthy babies** focuses on the importance of a mother's environment, diet and lifestyle prior to and during pregnancy for her child's lifelong health.
- **Nutrition for lifelong health** encompasses every stage of life: from the health of parents at conception, to the impact of diet on muscle health in adulthood.

- **Research to reality** is finding the best ways to translate our research findings into changes in clinical practice.

From cellular research to clinical trials, the Liggins Institute focuses on the application of knowledge, because we know that intervening in people's health early has the biggest impact on lifelong health.

Medical and Health Sciences

At the Faculty of Medical and Health Sciences we are committed to improving the health of our local, national and global communities through excellence in research. Our faculty is the largest biomedical research faculty in New Zealand, with a proud history of attracting and growing pre-eminent researchers and talented students, as well as generating high levels of research funding.

Our faculty has fostered a very strong research culture and is host to a number of internationally renowned and highly regarded research programmes.

Research strengths include:

- Audiology
- Bioengineering
- Biomedical imaging
- Cancer, cardiovascular biology
- Clinical medicine
- Developmental biology
- Genomics
- Immunology
- Neuroscience
- Nursing
- Ophthalmology
- Pharmacy
- Population health
- Reproductive biology
- Vision science

A strong culture of collaboration exists at all levels through the faculty, allowing vital links across faculty, between faculties and with other tertiary research institutions.

Science

The Faculty of Science is New Zealand's leading and largest science faculty. The breadth of scientific research is diverse and a variety of high-quality postgraduate research options are available.

Science plays a vital role in addressing the key issues that confront us and future generations. For this reason, research in the faculty is regularly successful in funding rounds for a broad range of projects, from searching for early-life in terrestrial hot-springs to improving the process for producing milk powder.

We provide a rich research environment for our students. Our many research strengths include:

- Knowledge sciences
- Our world and universe
- Aroha atu, aroha mai: Science in society
- Healthy people, healthy communities
- Food, food production and nutrition
- Sustainable futures
- Future materials and technologies
- Computational biology

Our faculty benefits from strong collaborations within the global academic community. Our relationships with commercial industry are an important aspect of scientific research and innovation, and we are proud of our significant links to the Crown Research Institutes of New Zealand.

“I wanted to study at a great university. I chose the University of Auckland because of the classes that were offered.”

Maria is a Master of Laws graduate, specialising in Corporate and Commercial Law. She works as a Solicitor for Simpson Grierson.

“I have been practising Corporate and Commercial Law for the last five years. I thought studying a masters would give my career a new opportunity to increase my knowledge and experience. I wanted to expand my network and research topics I’m interested in.

“I’m a Spanish native speaker. By coming to this university, I challenged my English skills. It helped to improve my communication and research skills.

“I think studying this programme is a great decision. You will meet many lawyers from around the world and get the opportunity to exchange knowledge and opinions. Auckland is a great place to study and to live.”

Maria Nieto is a recipient of the International Student Excellence Scholarship.

New Zealand's most innovative university

From innovation workshops and challenges to support starting a spin-out company, the University has a strong innovation culture, where every student has the opportunity to develop and pursue their entrepreneurial potential.

The University of Auckland has been identified as one of the world's leading entrepreneurial universities¹ and the most innovative university in New Zealand². We are committed to developing entrepreneurial-minded students and graduates in an innovative environment.

- Many of our academics and postgraduate students are involved in research that has the potential to benefit our society and economy.
- We offer extensive support to students and staff to develop and commercialise their research.
- We provide opportunities and activities to develop your innovation and entrepreneurship skills.
- We have opportunities to network with like-minded students and academics in an environment where collaborations have led to start-ups and spin-out companies.
- We offer postgraduate programmes in innovation and entrepreneurship that will stretch and develop those working, or seeking a career, in commercialisation.

Velocity

Velocity is the University of Auckland's globally renowned entrepreneurship programme. It is student-led, supported by the Centre for Innovation and Entrepreneurship, and runs year-round seminars, workshops and challenges.

Velocity's 100k challenge encourages those with a business or social enterprise idea to test its potential. Shortlisted entrants win a place in the Velocity Launch Pad Programme, where they receive mentoring and workshops. Finalists compete in the \$100k Velocity Grand Final for seed-capital and support in growing their venture.

Velocity has launched more than 120 ventures and has attracted more than \$258 million in investment.

www.velocity.auckland.ac.nz

Unleash Space: innovation hub and maker space

Unleash Space is the University's state-of-the-art innovation hub and maker space. Membership is free for all students and staff at the University. It offers workshops, equipment and seminars to inspire and motivate and help you develop your entrepreneurial capability.

Create what you imagine, design for today and prototype for tomorrow. The space houses 3D printers, laser cutters, routers, electronics, vacuum formers, sewing machines, craft and art supplies and other tools and machinery.

www.unleashspace.ac.nz

Commercialise your research

The University offers a range of opportunities for postgraduate students to explore the potential to commercialise their research.

UniServices offer commercialisation workshops that:

- Introduce you to the concepts of entrepreneurship, intellectual property and commercialisation
- Equip you with the tools and skills needed to attract investment
- Help you develop networks and prepare for a career in R&D
- Offer potential investment into new start-ups via the University of Auckland Inventors Fund
- Provide access to expert advisors through Return on Science

Enterprising Researcher module

The Enterprising Researcher module helps doctoral candidates develop their capacity for research enterprise. This online module is open to all doctoral candidates and will help you increase the impact of your research and diversify your career options.

IP Protection and commercial development

At UniServices, we bring ideas to life. We partner with the best minds at the University of Auckland and business to apply intelligent thinking to ideas that have the potential to change the world.

For over 30 years, UniServices has worked alongside postgraduate students, researchers and academic staff at the University of Auckland to transfer world-class knowledge and technology into existing companies and start-ups.

www.uniservices.co.nz

Funding and investment

- The University of Auckland Inventors' Fund, managed by UniServices, is a \$20 million seed investment fund that is accessible to University researchers and students. The fund supports the commercialisation of ideas and inventions, enabling researchers to transform their research into businesses and new products.
- Four Return on Science investment committees, and the student-led Momentum programme, provide support to founders and inventors.

www.returnonscience.co.nz

Commercialisation and innovation masters

The Business School offers a masters programme in commercialisation and innovation. This unique programme is designed for innovators, researchers and working professionals.

www.auckland.ac.nz/newprogrammes

1. Awarded Entrepreneurial University of the Year at the 2020 Asia-Pacific Triple E Entrepreneurship and Engagement Excellence Awards in Higher Education.

2. Reuters Top 75: Asia Pacific's Most Innovative Universities 2019.

“PhD study has changed my attitude towards life. I now think in a more positive way.”

“I chose University of Auckland’s masters programme as it is the top university in New Zealand, and its accounting and finance department ranks high internationally.

“During my masters studies, I had great support from the teaching staff and their enthusiasm fostered my interest in accounting research. With no hesitation, I chose to continue my PhD studies at the University of Auckland.

“Starting PhD study is a serious decision. Before making the decision, talk to some PhD students about their study and life so that you can get a feeling about whether you’ll like it. Having a face-to-face talk with the teaching staff in your department helps a lot.

“Another piece of advice that I got from a famous accounting professor is to do what you are good at. It is a virtuous cycle that makes you more confident and more passionate.”

Lucy (Yixin) Wei is a Master of Commerce in Accounting graduate, first year PhD student and Graduate Teaching Assistant. She is a recipient of the University of Auckland Doctoral Scholarship.

Our postgraduate programmes

Postgraduate study enables you to deepen your understanding of your subject, develop specialist skills and knowledge, follow your passion for research, stand out from your peers in a competitive job market or change careers. We offer a wide range of postgraduate programmes to help you reach your goals.

Pathways to our postgraduate programmes

Over 150

postgraduate programmes are on offer across over 200 subjects, including over 100 subjects available for the PhD. Options range from traditional disciplines to emerging cross-disciplinary subjects.

Masters

We offer an extensive range of masters degrees to allow you to increase your knowledge in your subject, gain a professionally-accredited qualification, follow your passion for research or change career whilst gaining an advanced qualification.

Taught masters provide advanced specialist training in your field and are usually completed by taught courses only, although some can include a dissertation or research project.

Research masters are completed by thesis. They offer the opportunity to follow your research passion whilst developing advanced research skills.

Conversion masters enable you to study a masters in a different subject to your bachelors degree. To find out if a conversion masters is available in your area of interest, contact the postgraduate adviser for that discipline: www.auckland.ac.nz/pgadviser

120, 180 and 240-point masters programmes

Some of our masters are available as 120-point (1 year full-time), 180-point (18 months full-time) or 240-point (2 years full-time) programmes, offering options for direct entry with a bachelors degree (to some 180 and 240-point programmes) or a bachelors (honours) or postgraduate diploma (to 120-point programmes).

Further study

A research masters degree can lead to entry to a doctoral programme.

Bachelors (honours)

Extend the knowledge you gained in your undergraduate degree with a bachelors (honours) degree. Our honours programmes are a great way to explore an area of interest from your undergraduate study in greater depth, develop research skills and give yourself an edge in the job market. Honours degrees are also seen as a pathway to further study.

Bachelors (honours) programmes usually combine taught courses with a research project. Some honours can be completed as a research-only programme.

Further study

A bachelors (honours) degree can lead onto a masters or, if you perform well in your dissertation, some subject areas may allow direct entry to a doctoral programme.

Programme entry

You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation, typically with a GPA or GPE of 5.0. Some programmes may require higher scores.

Postgraduate diploma

Postgraduate diplomas offer the opportunity to build on your major undergraduate subject and can be an alternative to a bachelors (honours) degree. Some postgraduate diplomas provide specialised training and the opportunity for advancement in your profession.

Postgraduate diplomas are normally completed by taught courses, but may include practical training, formal study or a research project.

Further study

Postgraduate diplomas can provide an alternative pathway to masters programmes and, in some disciplines, can be used as the first year of enrolment for a two-year masters programme.

Programme entry

You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation, typically with a GPA or GPE of 3.0 or 4.0. Some programmes may require higher scores.

“I have truly been taught, challenged, supported, affirmed and encouraged through the lecturing, supervision and the programme as a whole.”

“I work in the area of social and community leadership and was looking for some learning that gave me an opportunity to explore leadership, social innovation and design, and to master the skills of research and do some of my own. The Master of Social and Community Leadership was a perfect qualification for that.

“I am the General Manager of Social Services at the Auckland City Mission, responsible for all of our service provision. It is a genuine and real privilege for me to be able to respond to the needs of people who for a variety of reasons find themselves struggling and quite desperate at times.

“My role has meaning and purpose, and I get to be both responsive and creative. It’s fun, hard, challenging and really, really rewarding.

“This qualification has taught me a lot about evidence informed work, its importance and how to get to it!”

Helen Robinson is a recent graduate of the Master of Social and Community Leadership. She works as the General Manager of Social Services at the Auckland City Mission.

Programme entry

120-point masters

You must have completed one year of postgraduate study, following an undergraduate degree, at a recognised university (or similar institution) in a field relevant to your chosen specialisation. Four-year bachelors degrees will be considered where the final year consists of postgraduate-level study.

You will typically require a GPA or GPE of 5.0. If you are applying for the Master of Engineering Studies, a GPA or GPE of 4.0 or higher is required. Some programmes may require higher scores.

180 and 240-point masters

You must have completed an undergraduate degree at a recognised university (or similar institution) in a field relevant to your specialisation (with the exception of conversion masters), typically with a GPA or GPE of 5.0. Some programmes may require higher scores.

Conversion masters

You will need an undergraduate degree with good passing grades. Requirements vary, so please check the relevant programme details: www.auckland.ac.nz/programmefinder

Doctoral degrees

A doctorate is the highest level of degree you can achieve. It gives you the freedom to follow your passion and undertake advanced research in your area of interest. You can develop essential transferrable skills as well as specialised research skills, both of which are relevant to a range of careers.

The Doctor of Philosophy (PhD) is available in 100 different subjects and is offered in all faculties and large-scale research institutes.

The University also offers six named doctorates: Doctor of Clinical Psychology, Doctor of Education, Doctor of Fine Arts, Doctor of Medicine, Doctor of Music and Doctor of Musical Arts.

For the PhD, you will prepare a substantial thesis of original research that contributes significantly to knowledge and understanding in your discipline. Your thesis may include publications you have written under supervision for this degree or, for those in a creative arts or design discipline, you may present a body of creative work for assessment with your thesis. Our doctoral candidates work closely with at least one appointed supervisor and many work in a team of researchers.

We offer a wealth of English-language enrichment opportunities to support your studies. All new doctoral candidates take a Diagnostic English Language Needs Assessment

(DELNA) as part of their provisional goals. This helps us allocate you any English-language support you might need to ensure your academic success (see page 49 for more information on English-language support).

Programme entry

Acceptance to our doctoral programmes is based on academic merit.

You must be able to demonstrate an ability to carry out independent research and have already completed a significant research project, dissertation or thesis, at university.

If you have New Zealand postgraduate qualifications, you need to have completed a postgraduate bachelors (honours) degree with first class or second class (division 1) honours, or a masters degree with first class or second class (division 1) honours, in a field related to your doctoral studies.

If you have overseas qualifications, you will need to have completed a masters-level qualification in a field related to your doctoral studies. You must have a GPE of at least 5.5.

Your acceptance into a doctoral programme is dependent on the availability of appropriate supervision and study facilities.

Calculating your GPA/GPE

Grades or marks achieved at the University of Auckland are given a grade point average (GPA).

Grades or marks achieved at other institutions are given a grade point equivalent (GPE). Use our GPE calculator for an indication of your GPE: gpecalculator.auckland.ac.nz

English-language requirements

The minimum requirement is an overall IELTS academic score of 6.5 with no band less than 6.0, or an approved equivalent. Some programmes require higher levels of English proficiency, see:

www.auckland.ac.nz/pg-english-reqs

Academic integrity requirement

The University of Auckland requires all students admitted into a programme to complete the Academic Integrity Course in their first semester.

www.auckland.ac.nz/academicintegritycourse

International student fees	
Postgraduate programmes (per subject area)	2021 estimated annual tuition fee for international students (NZ\$) ³
Science	\$44,526.00
Interfaculty programmes	*
Doctoral programmes	2021 estimated annual tuition fee for international students (NZ\$) ³
Doctor of Clinical Psychology (DClinPsy)	\$44,464.80
Doctoral programmes	2020 estimated annual tuition fee for international students (NZ\$) ³
Doctor of Philosophy (PhD)	\$7,250.40 ⁶

- Part-time study options are generally not available to international students on student visas. International students must be enrolled full-time to meet the requirements of their student visa.
- 1 December start available for 120-point research masters only, subject to supervisor availability.
- Based on annual tuition fees for full-time study of 120 points except: programmes that require 60 points to complete (the annual tuition fee for 60 points is shown); some one-year programmes offered by the Faculty of Education and Social Work require 150 or 160 points to complete (the annual tuition fee for the points required to complete these programmes is shown); the full programme fee is shown for Graduate School of Management programmes. Tuition fees are indicative only and the fees for 2021 will be set at the end of 2020. All students will also pay a student services fee. As an indication, this fee is \$943.20 for students undertaking a full-time load of 120 points in 2020. Students taking fewer than 120 points pay proportionately lower fees.
- Semester Two start may not be possible for all subjects/majors/specialisations and only if places are available.
- Upon the recommendation of the Academic Head and approval from the Board of Graduate Studies, a candidate may present a corpus of creative work for assessment with a written thesis, comprising an integrated whole.
- New international PhD students will be accorded domestic status for the purposes of tuition fees, subject to supervisory and residency requirements. A new international PhD student is defined as a foreign student enrolled for the first time in a Doctor of Philosophy programme at a New Zealand university. Note that to be eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research activities overseas during your doctoral programme (for a cumulative total of no more than 12 months).
- Part-time only.
- Professional programme accredited by the relevant professional body.
- Part-time study is subject to prior approval by the School of Architecture and Planning.
- Available to qualifying students who have completed Parts I, II and III for the Bachelor of Fine Arts with the required grades. It is not available to students who have already graduated with a BFA (these students may apply to the PGDipFA or MFA two-year option).

11. After completing the initial two years of full-time study a candidate may apply for permission to continue as a part-time student.
12. This programme will be offered every two years. The next intake will be 2022.
13. Research option only available for Food Engineering and Medical Devices and Technologies specialisations.
14. Full-time study may not be possible for all subjects/majors/specialisations.
15. Part-time study may not be possible for all subjects/majors/specialisations and only if places are available.
16. Must be registered with the Medical Council of New Zealand.
17. Must be registered with the Pharmacy Council of New Zealand.
18. Semester Two start may be possible subject to prior approval by the Head of Programme.
19. Must have completed Master of Health Psychology.
20. Must be registered with the Nursing Council of New Zealand.
21. Taught option only available for Optometry.

22. This programme has a limited intake each year and is open to New Zealand and Australian citizens and permanent residents only.
 23. Programme starts in early January.
 24. Taught option available for a limited range of majors.
 25. Programme starts on 8 December.
 26. Part-time study option is only available for 120-point masters.
 27. There is an additional cost of \$5,000 for an international business trip.
 28. Master of Design begins in 2021 subject to standard regulatory approval.
 29. Postgraduate Certificate in Teaching Linguistically Diverse Learners begins in 2021 subject to standard regulatory approval.
 30. Postgraduate Diploma in Teaching Linguistically Diverse Learners begins in 2021 subject to standard regulatory approval.
- *Tuition fees will be charged at the respective rate for the subject.

“There’s never been a better time to gain the skills that the Master of Conflict and Terrorism Studies can teach you.”

Eloise is a graduate of the Master of Conflict and Terrorism Studies (MCTS) programme. She now works as an Intelligence Analyst for the New Zealand Police.

“During my bachelors degree, I became interested in understanding wider theories of conflict, peace, and terrorism within political science. These interests led me to the Master of Conflict and Terrorism Studies.

“I learnt so many skills I use every day in my role as an Intelligence Analyst – from clear and concise communication skills, to analytical research skills, to the ability to think critically about things that might be taken for granted.

“My role is to analyse ongoing trends within crime in Auckland to identify emerging risks or patterns. The New Zealand Police take a prevention first approach towards crime, and my job is to embody this approach by identifying issues within crime before they fully emerge.

“I wanted to study at the University of Auckland for its international outlook. I really liked the idea of studying at a university that had a global mindset and I was enthusiastic about the prospect of undertaking an overseas exchange while I was studying.

“If you’re keen to work in intelligence in the future, I would really recommend the MCTS. It’s opened many doors for me and without a doubt, it gave me the skills and experience I require to succeed in my current role.”

Eloise Sims is a recipient of the 360 International Exchange Award, Auckland Medical History Society Essay Prize and Sir Robert Jones Scholarship in History.

Funding your studies

The University of Auckland believes in investing in our postgraduate students – that’s why we offer postgraduate scholarships, awards and prizes to a total value of over \$40 million each year. It pays to investigate funding possibilities as early as possible, so you know what you may be eligible for and when applications are due. Other options also exist to help you meet the costs of your study.

Guaranteed postgraduate scholarships

The University offers guaranteed scholarships to research students who meet grade point average (GPA) thresholds from their qualifying programme. Our guaranteed postgraduate scholarships are some of the most generous scholarships on offer in New Zealand.

As a high-achieving domestic research student, you could be eligible for:

Guaranteed postgraduate scholarships

University of Auckland Postgraduate Honours/ PGDip Scholarship

University of Auckland Māori Postgraduate Scholarship

University of Auckland Pacific Postgraduate Scholarship

University of Auckland Research Masters Scholarship

University of Auckland Doctoral Scholarship

International students

We offer guaranteed University of Auckland Doctoral Scholarships to international PhD applicants who meet GPA thresholds in their qualifying programme from a New Zealand university. For more information, visit: www.auckland.ac.nz/makethegrade

Other postgraduate scholarships

In addition to guaranteed scholarships, the University offers a range of other postgraduate scholarships, awards and bursaries including:

Postgraduate scholarships

Kupe Leadership Scholarship

University of Auckland Universitas 21 Doctoral Student Mobility Scholarship

The Kate Edger Educational Charitable Trust Awards

Freemasons Postgraduate Scholarships

Various faculty and subject-specific scholarships

Our Scholarships website provides a database of scholarships offered through the University of Auckland, as well as information on external scholarship providers.

For detailed scholarship information, including criteria, closing dates, online applications and application forms, visit:

www.auckland.ac.nz/scholarships

Summer Research Scholarships

Summer Research Scholarships are a great way to gain valuable research experience over the summer months, boost your CV and help you think about pursuing postgraduate study.

The scholarships provide a \$6,000 tax-free stipend and are open to high-achieving domestic and international students. Applications are especially welcomed from international students, Māori students, Pacific students and students from other New Zealand universities.

www.summer.ac.nz

Doctoral scholarships and support funding

University of Auckland Doctoral Scholarships are a generous postgraduate scholarship, paying fees and providing a stipend (living allowance) of \$28,200* per annum for three years of full-time doctoral study, which may be extended by a further six months (on application).

Doctoral scholarships are awarded to both domestic and international students. There are no closing dates or extra application forms: when you apply, just tick the box to request assessment for the scholarship and we'll do the rest. Scholarship offers are made alongside offers of places in doctoral programmes.

Under a New Zealand Government scheme, new international PhD students who reside in New Zealand during their doctoral study will pay the same annual tuition fees as New Zealand students (NZ\$7,250.40; US\$4,745.53** per annum in 2020). Including compulsory health insurance for international students (NZ\$620, see pg. 50) and the Student Services fee (NZ\$943.20) the total fee in 2020 was NZ\$8,813.60 (US\$5,767** per annum).

www.auckland.ac.nz/pg-international-tuition-fees

*As of 2020.

**Exchange rate as at 6 Dec 2019.

PRESS accounts

If you're a doctoral candidate undertaking supervised research, you're automatically entitled to research support funding through a University PRESS account. PRESS accounts provide at least \$1,200 per annum (discipline dependent) over the four year period of your registration, or until initial submission. You can use the money for costs such as attending conferences, research-related travel and accommodation, and research consumables.

www.auckland.ac.nz/press-accounts

Student loans and allowances

Student loans and allowances are administered by StudyLink, a service of the Ministry of Social Development.

New Zealand citizens and permanent residents may be eligible for financial assistance to support them during their studies.

www.studylink.govt.nz

Phone: 0800 88 99 00

Employment during study

Advanced postgraduate students are often employed as tutors, laboratory demonstrators or teaching assistants for undergraduate courses. Tutoring is a great way to gain valuable professional and teaching experience during your masters or PhD study.

Other opportunities include part-time research assisting, administrative duties or library work. There may be limits on allowable work hours (particularly for scholarship and international students), so you need to check any conditions that may apply. If you are working outside of the University to finance your study, it's important that you discuss your work commitments with your department's postgraduate adviser or your supervisor to ensure you can balance your workload realistically.

\$28,200

The annual tax-free stipend provided by the University of Auckland Doctoral Scholarships in 2020 (fees are also covered).

Enhancing your career potential

Whether you want to change careers, prepare yourself for a career in academia, develop your research portfolio or learn new skills, postgraduate study can help you stand out amongst your peers.

Postgraduate study can give you the edge in a crowded marketplace. It can also offer the opportunity to change careers, upskill or prepare for the next step in your career. Our graduates are highly sought after in New Zealand and around the world. This is reflected in our QS Stars five-star rating for employability, and our ranking as the 59th in the world in the 2020 QS Graduate Employability Rankings. This puts the University of Auckland No.1 in New Zealand and top five among Oceania universities, in recognition of the fact that our graduates are extremely likely to be employed and go on to change the world.

The value that employers place on postgraduate study is reflected in the levels of remuneration and employment that those with a postgraduate qualification enjoy. According to a Ministry of Education report on post-study earnings, employment rates increase with the level of qualification gained and people with postgraduate qualifications command high earnings, with many earning twice the national median.*

**Young, domestic graduate outcomes – earnings. Ministry of Education, 2017.*

Whatever your motivation, a postgraduate taught qualification will provide you with the chance to:

- Explore new and emerging fields of study.
- Acquire further specialist knowledge and theory.
- Gain advanced knowledge of professional practice (depending on your programme).

A postgraduate research qualification will give you the opportunity to:

- Demonstrate mastery of specialist knowledge and theory.
- Define and manage a research project.
- Undertake original research and practice.

Learn new skills

To augment and enhance the skills and knowledge you receive as a postgraduate student, the University offers a variety of courses to develop academic and professional skills, and to help with career planning and professional development.

Doctoral Academic Leadership Initiative

The Doctoral Academic Leadership Initiative (DALI) prepares mid-phase doctoral students for life in academia, focusing on academic leadership, research and teaching. Applications open in October each year. DALI is hosted by the School of Graduate Studies.

www.auckland.ac.nz/dali

Career Development and Employability Services (CDES)

The CDES team supports postgraduate students to identify where they want to take their qualification and develop an employability action plan to build experience (and confidence) alongside their studies.

Our support is available from day one, right up to three years after graduation!

We bring employers on campus to connect with students in person and offer a range of interactive workshops, from career direction to job search, interview skills and LinkedIn.

Login to MyCDES to access exclusive online modules, browse the job board and register for appointments and events.

**RANKED
NUMBER 1**
**IN NEW ZEALAND
FOR EMPLOYABILITY***

*QS Graduate Employability Rankings 2020

Gaining an international qualification

Our partnerships with leading universities around the world open up a range of opportunities for you to interact with your counterparts, including joint research projects with partner universities, international networking, exchanges, conferences and workshops.

Take advantage of our international partnerships and programmes

The University of Auckland is ranked 13th in the world in the 2020 Times Higher Education's most international universities, reflecting our international outlook. We develop key international relationships that enhance our ability to perform as a globally competitive research-led University. Our formal engagement in 40+ countries includes organisations and institutions across industry, government, philanthropy, alumni and higher education.

www.auckland.ac.nz/globalpartners

360 International

360 International creates opportunities for you to complete part of your University of Auckland degree overseas. Taught postgraduate study may be done on exchange for one semester of a one-year programme. You must discuss feasibility and timing with your faculty.

The countries that you can visit on a one-semester exchange currently include Australia, Belgium, Brazil, Canada, Chile, China, Denmark, England, France, Germany, Iceland, Ireland, Italy, Japan, Korea, Mexico, the Netherlands, New Caledonia, Norway, Scotland, Singapore, Spain, Sweden, Taiwan and the US.

www.auckland.ac.nz/360

Association of Pacific Rim Universities (APRU)

As a network of leading universities linking the Americas, Asia and Australasia, the Association of Pacific Rim Universities (APRU) is the Voice of Knowledge and Innovation for the Asia-Pacific region. APRU brings together thought leaders, researchers, and policy-makers to exchange ideas and collaborate on effective solutions to the challenges of the 21st century.

APRU leverages collective education and research capabilities of its members into the international public policy process. Primary research areas include natural hazards & disaster risk reduction, women in leadership, population aging, global health, sustainable cities, artificial intelligence and the future of work, the Pacific Ocean, and labour mobility.

A number of opportunities exist for students, including participation in APRU research conferences and research symposia.

Universitas 21 (U21)

Universitas 21 (U21) empowers students and staff from 27 world-class universities to share excellence, collaborate across borders and nurture international knowledge exchange. U21 values cultural difference, connecting together perspectives from around the world, and harnesses the collective expertise of its exceptional institutions to benefit all of its members.

U21 Doctoral Student Mobility

The University of Auckland offers scholarships for confirmed doctoral candidates to visit U21 partners for the purpose of research. The scholarships provide up to \$5,000 towards the recipient's mobility. Applications are accepted year-round and are assessed monthly.

Worldwide Universities Network (WUN)

The Worldwide Universities Network (WUN) brings together 23 universities across six continents that sit in widely diverse geographical and cultural contexts, and which, in partnership provide an unparalleled richness of talent and resources that are brought to bear on major research problems.

WUN provides opportunities for early-career researchers, including postgraduate and postdoctoral students, to gain experience in international research collaborations.

www.auckland.ac.nz/internationalnetworks

China Scholarship Council (CSC)

China to New Zealand

Top Chinese PhD students can study at the University of Auckland through a scholarship programme developed in collaboration with the China Scholarship Council (CSC). Students who receive a scholarship are given a living allowance by the Chinese Government for the term of the scholarship, return airfare to New Zealand, student visa fees and the cost of overseas student health cover.

www.auckland.ac.nz/china-csc

New Zealand to China

The Confucius Institute in Auckland offers a number of scholarships to study in China, from a semester to a degree programme. These scholarships usually provide a monthly allowance and also cover tuition fees, teaching materials, accommodation and on-campus medical care. Please refer to the Institute's website for more information.

www.ci.ac.nz/what-we-offer/scholarships/nzchina-scholarship

“Postgraduate study has helped develop and define my skill set, clarify my creative focus and will provide me with an internationally-recognised qualification that is held in esteem by institutions around the world.”

“I was awarded a Summer Research Scholarship to study methods of integrating musical textures into virtual reality environments. This foundational research was hugely inspiring to me and led directly into the pursuit of further study.”

“My research in this area opened my eyes to an ever-expanding array of creative possibilities and research avenues offered by this technology. One of my studies on musical interactivity in virtual reality was accepted into the International Computer Music Conference 2017, and this opportunity saw me travelling to Daegu, South Korea to present my work as a five-day virtual reality installation.

“As an aspiring composer, I was drawn to the teaching staff at the University of Auckland. The composition department features perhaps the most diverse collective of internationally-recognised composers and lecturers in the country. The level of support offered by the department allowed me to progress further and achieve more than I ever could have without their expertise and enthusiasm.

“When I travel overseas to conferences or music festivals, my alma mater is always a conversation starter. So many students from the University of Auckland have gone on to make names for themselves as international composers and as teachers at other world-class universities.

“I decided to pursue postgraduate studies when it became clear to me that I had only begun to scratch the surface of my area of interest – my research focus had become my passion and I wasn’t ready to give it up. I hope this qualification will lead me further into a career in academia and freelance composition.”

Clovis McEvoy, Master of Music student, is a recipient of the University of Auckland’s Summer Research Scholarship and Masters Guaranteed Scholarship.

Watch Clovis speak about his postgraduate experience at www.auckland.ac.nz/gradvids

Utilising student services and support

When you embark on the challenge of postgraduate study, it's important to feel confident that you have the support you need to succeed. Our extensive range of student services ensure that help is readily available; we can assist you with everything from research skills to career planning.

School of Graduate Studies

The School of Graduate Studies has overall responsibility for the development and oversight of policies and procedures for graduate programmes and for the promotion of graduate study, and provides advice to all doctoral students and their supervisors.

www.auckland.ac.nz/sgs

Get in touch at postgradinfo@auckland.ac.nz.

The School of Graduate Studies coordinates a range of events for postgraduates, from the monthly Doctoral Morning Tea to the annual Three Minute Thesis competition.

www.auckland.ac.nz/postgradevents

www.auckland.ac.nz/dmt

www.auckland.ac.nz/3minutethesis

Postgraduate Students' Association (PGSA)

The PGSA aims to make postgraduate life more enriching and fulfilling, and is the voice of postgraduate students (along with AUSA) within the University and the community.

The PGSA hosts social and academic events, produces a newsletter and acts as a representative for postgraduate students on various boards and committees at the University. Membership is free and allows you access to the Postgraduate lounge and gets you a discount at Strata café, both of which are situated on Level 4 of the Kate Edger Information Commons.

For membership details see www.uoapgsa.org

To learn more about its work, have your say about University issues and receive the latest information about events, you can like the PGSA Facebook page: www.facebook.com/pgsa.uoa.

Alumni Relations

Everyone who graduates from the University of Auckland becomes part of our community of more than 200,000 alumni in New Zealand and around the world. The Alumni Relations team keeps you connected with your fellow graduates and the University community through events and reunions, international alumni networks and social media.

There are many benefits and services available to our alumni. Visit the alumni and friends website at www.alumni.auckland.ac.nz or email alumni@auckland.ac.nz to find out more.

Doctoral Support

The University offers a variety of resources to support and assist doctoral candidates in two ways: to help candidates refine the transferable, research and academic skills needed to complete a doctorate successfully and in a timely manner; and to help with career planning, preparedness and professional development.

All doctoral candidates are required to attend an induction and complete a development needs analysis with their supervisor.

Learning support

Libraries and Learning Services

Libraries and Learning Services provide resources, workshops and advice to help you successfully complete your study.

From the Libraries and Learning Services website you can access diverse collections of electronic resources, including databases, e-journals and e-books. Your University username and password allows you to access most electronic resources anytime, anywhere. Within the libraries you can access large collections of print, multimedia and microtext materials, including unique manuscript and archive collections.

There are online resources and workshops available for a variety of topics, including finding articles, time management, reading effectively, critical thinking and reference management. Online resources to support masters research and thesis writing are also available.

Advisers offer research consultations to help you identify appropriate information sources, create search strategies and help you stay current with research.

Libraries and Information Commons (IC) facilities also provide more than 4,000 study spaces, many with computers and access to printers, scanners and photocopiers. IC Helpdesks provide support for student computing resources and services including username and password, student email, internet access, the wireless network and student file storage.

www.library.auckland.ac.nz

Study space

In addition to the plentiful general study spaces, the postgraduate students' commons has a quiet study/meeting space reserved for postgraduate students. Many faculties, schools and departments also offer dedicated postgraduate workstations or research facilities – for example, the Arts Graduate Study Centre provides computers and study space specifically for postgraduate students in Arts. Check your faculty website for details, or request more information from the postgraduate adviser in your department.

South Auckland Campus

The South Auckland Campus, Te Papa Ako o Tai Tonga is available for use by all University of Auckland staff and students. The facility offers study spaces, laptops, printing and library services.

Māori and Pacific student support

We welcome and support Māori and Pacific participation and achievement in all aspects of University life.

Waipapa Marae (City Campus) and Te Aka Matua o Te Pou Hawaiki (Epsom Campus) provide a home away from home for our Māori students and their whānau.

14,037

postgraduates form a community of like-minded scholars pursuing their passion for learning.

Our Fale Pasifika is the centre of the University's Pacific community. It houses the Centre for Pacific Studies, and provides a space for discussion and support.

The Pro Vice-Chancellor Māori and Pro Vice-Chancellor Pacific Office's Kaimanaaki and Pacific Equity Adviser can provide advice and guidance to help ensure our Māori and Pacific students succeed here.

The Offices host networking events for Māori and Pacific postgraduate students throughout the academic year. For more information email:

Naomi Fuamatu, Student Equity Adviser:

International student support

The University provides a comprehensive range of support services for international students to help make your transition to life in Auckland as smooth as possible. This includes learning and academic support, English language support and personal support (see pg. 48-49).

www.international.auckland.ac.nz

Students who are parents

Accommodation

The University offers a limited range of one, two and three-bedroom apartments to postgraduate students with young families (see pg. 46).

www.accommodation.ac.nz

Childcare

The University Early Childhood Centres offer assistance with juggling childcare and study. All of our centres follow the New Zealand early childhood curriculum, Te Whāriki.

There are six on-campus early childhood centres providing care for children of our students on the City, Grafton and Epsom Campuses. Bookings are essential as there can be a waiting list at each centre.

Phone: +64 9 923 9714

www.auckland.ac.nz/childcare

Two of the centres are Māori medium centres: Hineteiwaiwa Kohanga Reo on the City Campus and Te Puna Kōhungahunga on the Epsom Campus. For further information about these centres, please contact: +64 9 623 8837.

Parent Space and breastfeeding facilities

Parent Space (available at Tāmaki and City Campuses) offers facilities for students with children under 16, including study space, computers and WiFi, a high chair and port-a-cot, toys and books, and a place for you to relax. Breastfeeding facilities are available on all of our campuses.

www.auckland.ac.nz/parentingsupport

Health and counselling service

Your health and wellbeing is key to your success while you're studying. Our health and counselling service has practitioners who specialise in student needs, offering you quality advice, support and care. Our main centre is at the Kate Edger Information Commons on the City Campus. Clinics are also open throughout semester on the Epsom and Grafton campuses. Students who register the service as their primary health organisation are eligible for discounted healthcare.

www.auckland.ac.nz/healthandcounselling

AUSA Advocacy

AUSA Advocacy is a professional service that provides advice to students with a range of academic, administrative and welfare related issues. All students can access this free, confidential service, which is completely independent from the University.

We provide advice about your rights and responsibilities within the University, in a respectful, non-judgmental and timely manner. Our services include advocacy, support, assistance, information and referrals on any issues that may affect your ability to meet

your academic goals. We aim to empower you to negotiate University policy and grievance procedures and to develop an environment where the privacy, dignity and respect of all parties are maintained.

AUSA Advocacy

Rooms G15 or G09, Old Choral Hall, City Campus

Email: advocacy@ausa.org.nz

Recreation and entertainment

Cafés and bars

Whether you're lunching with friends or just grabbing a snack, there's an outlet on campus to suit your needs. Our wide range of retailers and vending machines ensure you don't need to travel far, giving you time to enjoy the vibrant campus culture. A variety of food trucks frequently visit the City and Epsom Campuses during semester.

www.auckland.ac.nz/foodandretail

Strata, the postgraduate area on the fourth floor of the Kate Edger Information Commons, features a postgraduate lounge – a large, quiet study area – and a licensed café with a balcony that overlooks the City Campus. The PGSA hosts a number of postgraduate functions throughout the year on and off-campus.

Doctoral students are welcome to join the Staff Common Room (SCR) Club at Old Government House on the City Campus. Primarily a social club, the SCR operates a café and bar, and organises social functions for its members. To join, email SCRAdmin@auckland.ac.nz

Clubs

There are more than 200 student clubs and societies, ranging from cultural organisations to academic interest groups and clubs for hiking, skiing, art, fitness and yoga. Attend the Clubs Expo at the start of semester to meet the current club members and find out more.

www.auckland.ac.nz/clubs

Sport and recreation

Play sport, get fit and have fun. If you're keen on sport, we have a wide range of opportunities on offer to you. You could get some friends together and sign up for one of the UNIM8S Social Sports Leagues, or represent your faculty in one of 13 sports in the Interfaculty Sports Championship. And if you're competitive, you could even represent the University of Auckland in the National Tertiary Sports Championship.

If you are already involved in sport at the highest level, support is available to help you navigate through the challenge of being a student-athlete.

Recreation is also offered on the City Campus, with all memberships including access to a wide range of group fitness classes, weights and cardio equipment. Additional programmes and services are also available such as boxfit, self-defence, and much more.

www.universitysport.auckland.ac.nz

Music and culture

You can often enjoy free musical events in the City Campus Quad. 95bFM broadcasts from the City Campus, providing news, views, music, gig guides and an accommodation guide. Visit www.95bfm.com for live streaming or to volunteer.

Visit the Gus Fisher Gallery to see work by established New Zealand and international artists or try the George Fraser Gallery for a taste of the talent at Elam School of Fine Arts.

Drama students frequently present productions in our Drama Studio.

Details of music concerts, dance performances and art exhibitions produced by the Faculty of Creative Arts and Industries can be found at www.creative.auckland.ac.nz, where you can sign up to receive regular updates.

What's On is your online hub for events at the University. Join the What's On events email list or like the What's On Facebook page to keep up-to-date with what's happening on campus.

www.auckland.ac.nz/whatson

www.facebook.com/uoawhatson

UniGuides

As a new student at the University of Auckland it can be challenging to meet new friends, learn about campus resources and services or find out where classes are located. The UniGuide Programme is a free service designed to help make your first semester easier, by connecting you with a student mentor who can show you the ropes. You will meet your UniGuide at your Faculty Orientation Day.

www.auckland.ac.nz/uniguides

“I am fortunate that my years at the University of Auckland have provided me with opportunities and experiences that I will carry with me for life.”

Xavier is a Master of Science in Geography graduate. He works as a Poukokiri Rangahau Māori (Senior Librarian, Māori Research) at Auckland Council.

“My postgraduate interests came about in my third year of undergraduate study, helped greatly by having enthusiastic lecturers. I think some of their energy rubbed off on me.

“The people I encountered and the opportunities that came out of that are the main highlights from my time studying. Meeting people and learning about their interests enriched my time at university.

“I am a research librarian specialising in Māori subject matter. My interests span history, to arts and crafts, to whakapapa research. I help people with reference enquiries in these areas, as well as undertake my own research.

“The ability to get on with people from various backgrounds has been valuable and has carried me on to my current job. Research work, collecting and analysing information, and looking at different perspectives are also skills that I have developed and am still developing.”

Xavier Forsman (Te Rarawa) is a recipient of the School of Environment Māori Masters Thesis Scholarship.

Finding accommodation

As a postgraduate student, you need a living environment that allows you to focus on your studies, while enjoying all the social and recreational opportunities that the University and city of Auckland have to offer.

University-managed accommodation

Furnished, self-catered options

All of our residences offer the opportunity to meet and make new friends with other students from New Zealand and around the world. In residences that house both postgraduate and undergraduate students, postgraduate students are housed close together so that they can form their own community.

55 Symonds

55 Symonds offers modern, air-conditioned studio deluxe and studio deluxe double apartments that are suitable for both singles and couples. As well as the amenities offered in your studio, shared facilities include a large communal kitchen and dining area opening onto a spacious courtyard, TV room, lounge and additional study areas.

Carlaw Park Student Village

Located in Parnell, Carlaw Park is only a five minute walk from the City Campus and accommodates 697 students in a combination of two, three and four bedroom apartments spread throughout seven buildings. The two bedroom apartments are exclusively designated for students with young families. Each building has direct access to shared common areas, including a large study room, games room, large outdoor area and laundry facilities.

Te Tirohanga o te Tōangaroa

Located at 128 Anzac Ave, just a five-minute walk from the University General Library on the City Campus, Te Tirohanga will open for the first time in 2020. This residence offers 488 single rooms, with communal kitchen, dining, study, lounge and games areas as well as access to a rooftop deck with a BBQ.

UniLodge Anzac Beach

Located only a five minute walk from the City Campus, UniLodge Anzac Beach provides an independent-living environment in self-catered studio, studio deluxe, or one or two bedroom apartments. There are a number of recreation facilities for you to enjoy, including a swimming pool, sun deck, BBQ area, games room, theatre and gymnasium. UniLodge Anzac Beach is not suitable for families.

UniLodge Whitaker

UniLodge Whitaker is a high-rise apartment complex just a short walk from the City Campus. This residence offers 270 studio apartments and 30 deluxe studio apartments, each with their own ensuite bathrooms and kitchenette facilities. Residents also enjoy modern shared facilities including a large communal kitchen, lounge with Sky TV, study room, games room and small on-site gym.

Waikohanga House

Located at 44 Symonds Street, just a five minute walk from the City Campus, this beautifully refurbished building is the University's newest accommodation for couples and families. Waikohanga House offers fully-furnished one, two and three bedroom apartments. Residents have access to on-site laundry and printing facilities.

How to apply

You can apply online for a place in a University-managed residence for 2021 from 1 August 2020 at www.accommodation.ac.nz

Accommodation for couples and families

We provide a range of accommodation for couples and families. Demand is high for this accommodation and availability is limited, especially if you are applying outside of Semester One. If you are applying in Semester Two or between February and November, we recommend you contact our Accommodation team for assistance in finding accommodation that best fits your needs.

 PG = postgraduates.

Private accommodation

Apart from our University-managed student accommodation facilities, there is a range of apartments and flats around Auckland. The University is located close to the city's central business district and is served well by public transport from all areas.

If you are interested in seeking accommodation outside of the University residences, our Accommodation Solutions team can assist you with comprehensive information about renting in Auckland, including rental agents, useful websites, tenancy requirements, bus timetables, maps, school information and more.

Private accommodation can be difficult to find during January and February, with large numbers of students looking for accommodation. We suggest that you start your search early to secure accommodation.

Please note that we do not inspect or guarantee the quality or availability of private accommodation.

Renting

If you rent a house or a flat in a nearby suburb you will need to sign a tenancy agreement with the landlord. City flats or apartments are generally furnished, while those in nearby suburbs are often unfurnished, with just a stove and oven provided.

Homestays

In a homestay you live in a New Zealand family home where you will have a fully-furnished room. Your host will provide breakfast and dinner each weekday and three meals each day during the weekends. Note that most homestays are not usually located within walking distance of the University campuses and may be a bus ride away. We use a homestay agency for placements.

Flatting

Share a house or flat with other students. You are responsible for paying the rent, electricity, gas, insurance, water, garden maintenance and phone charges, according to the details in your tenancy agreement. You will need to provide basic furniture such as a bed and a desk.

Accommodation Solutions holds a flatting seminar in February or March. We also run Flatting Week in late September, which includes a range of events from one-on-one flatting workshops to opportunities to connect with local accommodation providers.

Contact Accommodation Solutions

Come and see us at our office, call or email us for assistance.

Arriving from abroad

The University of Auckland warmly welcomes students from all over the world. Studying with us offers you a wonderful opportunity to gain an internationally recognised qualification in a stimulating environment. Our diverse student population includes over 8,500 international students from more than 120 countries, so you'll be part of a genuinely global academic community.

Why study in New Zealand?

- As a safe and politically stable country with a high standard of living, New Zealand is an ideal place to enjoy your postgraduate study.
- New Zealand enjoys a global reputation for technical innovation supported by its world-class education system and reputation for research excellence.
- Education in New Zealand is not just about imparting knowledge, but also about generating new ideas and fostering independent thinking.
- Studying at the University of Auckland, New Zealand's leading university,* will equip you for the global marketplace with an internationally recognised qualification.

*www.worldranked.ac.nz

Domestic fees for PhDs

Under a New Zealand Government scheme, new international PhD students who reside in New Zealand during their doctoral study will pay the same annual tuition fees as New Zealand students (NZ\$7,250.40; US\$4,745.53* per annum in 2020). Including compulsory health insurance for international students (NZ\$620, see pg. 42) and the Student Services fee (NZ\$943.20) the total fee in 2020 was NZ\$8,813.60 (US\$5,767* per annum).

*Exchange rate as at 6 December 2019.

Benefits of studying for a PhD in New Zealand

- As a PhD candidate you have open work rights under the terms of your student visa.
- On completion of your PhD, you can apply for a three-year Post-Study Work Visa which allows you to work for any employer in New Zealand.
- Your spouse or partner can apply for a work visa valid for the duration of your PhD programme.
- Your dependent children can attend New Zealand's primary and secondary schools at the same subsidised rate as New Zealand children.

www.immigration.govt.nz

Support for international students

As an international postgraduate student, you will have access to the extensive support services the University of Auckland offers to all its students. There are also specialist international student support services to help you adjust to life in New Zealand and enjoy your studies at the University.

International Orientation

The International Office arranges an Orientation programme at the beginning of Semester One and Two for new international students. It is designed to give you all the information you need about the University and living in Auckland. In addition, the University puts on a number of social, sporting and cultural activities that provide great opportunities to make new friends. The Business School also provides an Orientation for its coursework masters students in Quarters Two and Four.

When you arrive, you can sign up for a Uniguide – a current student who can answer your questions and help you find your way around campus during your first few weeks.

www.auckland.ac.nz/is-orientation

Pastoral care for international students

Our international student advisers can help if you need to talk to someone about any difficulties. They offer a free, confidential service to help you sort out issues related to your studies, accommodation, health, budgeting, work, immigration or adjusting to life in New Zealand.

www.auckland.ac.nz/is-advisers

Scholarships

The University of Auckland administers scholarships that are open to international students wishing to pursue postgraduate study.

The International Office also works with external scholarship agencies and government bodies to provide opportunities for international students who meet entry requirements.

See the following table for a selection of available scholarships. For a full list, visit www.scholarships.auckland.ac.nz

Postgraduate scholarships for international students

University of Auckland International Student Excellence Scholarship
University of Auckland Doctoral Scholarship
Agnes Paykel PhD Scholarship
Asian Development Bank – Japan Scholarship Program
Dean's International Doctoral Scholarship (FMHS)
Faculty of Education and Social Work Postgraduate International Student Scholarship
Faculty of Arts International Masters Degree Scholarship
Faculty of Creative Arts and Industries International Student Masters Award
Faculty of Science Masters Awards
New Zealand Scholarships
University of Auckland Fulbright Scholarships
University of Auckland Health Research Doctoral Scholarship
University of Auckland International Business Masters Scholarship
University of Auckland Law School's Dean's Doctoral Scholarship
University of Auckland Senior Health Research Doctoral Scholarship

For more information on scholarships available to international students, including selection criteria, application forms and closing dates, visit: www.auckland.ac.nz/is-scholarships

Guaranteed scholarships

The University offers guaranteed University of Auckland Doctoral Scholarships to new international PhD applicants who meet grade point average (GPA) thresholds in their qualifying programme from a New Zealand university.

For more information see

www.auckland.ac.nz/makethegrade

English-language support

If English is not your first language, you will be required to provide proof of your English-language proficiency to be accepted for postgraduate study (see www.auckland.ac.nz/pg-english-reqs for more information about English-language requirements). The University provides plenty of support to help you further develop your academic English skills during your studies.

DELNA

DELNA (Diagnostic English Language Needs Assessment) is a free service that determines the level of English language support you will need to succeed in your studies.

www.delna.auckland.ac.nz

English Language Enrichment (ELE)

English Language Enrichment (ELE) provides opportunities for students to develop their academic communication skills through workshops and individual consultations. At ELE on campus, you can get advice about your English, join language learning groups and find language exchange partners through the Language Exchange Programme (LEX).

ELE Online provides language learning materials, including vocabulary, grammar and pronunciation tools to help improve your academic English. Your student online access allows you to use these resources anytime, anywhere.

www.library.auckland.ac.nz/ele

Working while you study

If you are enrolled as a full-time student at the University of Auckland, you may be eligible to work during your programme of study.

For up-to-date information on work rights while on a student visa in New Zealand please visit:

www.immigration.govt.nz/study

Career Development and Employability Services (CDES)

Create your future with the support of our free services, available from day one through to three years after graduation.

Career Development and Employability Services (CDES) supports you to find your direction, identify opportunities and develop the skills to be employable at the end of your studies.

Our team works closely with organisations and faculties to create specialised programmes, career expos, networking opportunities and employer presentations to help you to connect with potential employers. CDES also has a specialised careers consultant for international students.

Access online tools, job boards, and book appointments, workshops and employer events through MyCDES, your online career management portal.

www.cdes.auckland.ac.nz

Before you arrive in New Zealand

Immigration

You must apply for a student visa to cover the period you intend to study in New Zealand. You must show evidence that you have been accepted into a programme, have paid your tuition fees and have sufficient funds to cover your costs while in New Zealand. You must apply for your visa before entering New Zealand.

Full details on rights to employment in New Zealand while studying are available through Immigration New Zealand, and can be viewed on its website at www.immigration.govt.nz/study

How to apply

Honours, postgraduate certificate, postgraduate diploma and masters programmes

Before you apply

- Check the entry (www.auckland.ac.nz/pg-entry-requirements) and English-language (www.auckland.ac.nz/pg-english-reqs) requirements for your programme.
- Check the application closing date (pg. 52). We recommend you apply as early as possible. You don't need to wait to meet the requirements before applying – as long as you meet them before the programme begins.
- If you are applying for a 1-year masters with a research project, you will need to provide evidence that a member of academic staff has agreed to supervise you. See FindaThesis (www.findathesis.auckland.ac.nz), the research webpages for your area of interest or contact the postgraduate adviser for your programme/faculty for potential supervisor details.

Ready to apply?

New to the University of Auckland or a former student?

1. Apply for admission online:
www.applytostudy.auckland.ac.nz

Current student?

1. Make an Add/Change programme request online:
www.applytostudy.auckland.ac.nz

2. You will receive an acknowledgement email listing the supporting documents we require, and a Student ID number for logging on to your Application for Admission. You can check your application status online and see what supporting documents you will need to provide. Your application will be assessed once we receive sufficient information (such as uploaded transcripts, other academic results, references or a portfolio) or you have attended an interview.

2. We will assess your application and inform you of the outcome via email. The status will show on the 'Your applications' section of the Application for Admission.

3. Accept (or decline) your offer online at www.applytostudy.auckland.ac.nz. If you have a conditional offer, you should accept your offer straight away. There is no need to wait to meet the conditions before accepting your offer. We encourage you to submit the required information to meet the conditions as soon as you are able.*

4. Enrol in your courses. The postgraduate enrolment process is faculty-specific. See www.auckland.ac.nz/pgenrolment

Applying for a Graduate School of Management programme

For information on how to apply to a Graduate School of Management programme, visit www.gsm.auckland.ac.nz

Need help applying?

Find answers to frequently asked questions:

www.askauckland.ac.nz

Email: postgradinfo@auckland.ac.nz

Phone: 0800 61 62 65

Find a postgraduate adviser:

www.auckland.ac.nz/pgadviser

*Conditional offers

Conditional offers are made when your place in a programme is subject to one or more conditions. For example, you may need to supply final results or complete a prerequisite course.

When you receive a conditional offer:

1. Accept (or decline) the offer.
2. Meet the conditions.
3. Submit evidence that you have met the conditions.

PhD or named doctorate

Before you apply

- Read the academic entry requirements: www.auckland.ac.nz/doctoreentry
- Decide on, and clarify as much as possible, your potential research topic or area of research. Check that we have active research in your preferred research area by exploring faculty or department websites, FindaThesis (www.findathesis.auckland.ac.nz) and the University Directory (www.unidirectory.auckland.ac.nz).
- Check the English-language requirements for your programme: www.auckland.ac.nz/pg-english-reqs
- If you are applying for the Doctor of Clinical Psychology or Doctor of Education, check the application closing date (pg. 48). Applications for all other doctoral programmes may be submitted at any time of the year.
- Have electronic copies of the following ready:
 - Relevant academic transcripts
 - Statement of Research Intent
 - Approved English language test scores from within the last two years
 - Academic CV or résumé
 - Evidence of research activity (including a thesis or dissertation)
- Arrange for two referees to support your doctoral application. Doctoral referee reports must be submitted directly from your referees.

You can download a Statement of Research Intent form, a Doctoral Referee Report form, and follow our step-by-step guide for doctoral applications, admissions and enrolment at www.auckland.ac.nz/applydoctorate

Ready to apply?

1. Apply for admission online: www.apply.auckland.ac.nz

2. You will receive an acknowledgement email with your Application for Admission login details. You can use these details to keep track of your application status. You can also check online to see if you need to supply any additional supporting documents. Assessment of your doctoral application can take eight weeks or longer.

3. When a decision is made, the status will show on the 'Your applications' section of your Application for Admission and we will inform you of the outcome via email. If you indicate in your application that you would like to be considered for a University of Auckland Doctoral Scholarship, you will be informed of the outcome in the same email.

4. Accept (or decline) the offer online.

5. When you accept an offer of place, you are admitted to your programme. We will acknowledge your acceptance by email with information on how to enrol. Domestic applicants have 3 months to enrol; international applicants have 6 months to enrol.

International applicants

Follow the guidelines on pages 50–51.

Read the entry requirements for non-doctoral programmes for international applications: www.auckland.ac.nz/pg-entry-requirements

We recommend you apply as early as possible to allow sufficient time to apply for visas.

We have a number of official agents and overseas representatives who can help you with the application process in person: see www.auckland.ac.nz/findanagent

Dates to remember

Application closing dates

Please make careful note of the application closing dates listed below. Applications submitted after the closing date will be considered if places are available. If you wish to apply to begin your study in Semester Two 2021, you should check with your faculty to see if there are specific closing dates for the programme you wish to study.

Doctoral applications (excluding DClinPsy and EdD) may be submitted at any time of the year.

Applications to Law postgraduate programmes may be submitted at any time of the year.

Closing dates for applications for admission in 2021¹

Semester One admission	
Master of Audiology Master of Energy Master of Health Sciences in Nutrition and Dietetics Master of Speech Language Therapy Practice	1 October 2020
Bachelor of Medical Science (Honours) Postgraduate Diploma in Clinical Psychology Postgraduate Diploma in Counselling Theory Postgraduate Diploma in Forensic Science Postgraduate Diploma in Health Psychology Master of Counselling Master of Science in Forensic Science Doctor of Clinical Psychology	1 November 2020
Bachelor of Arts (Honours) in Psychology ² Bachelor of Science (Honours) in Psychology ² Postgraduate Diploma in Arts in Psychology Postgraduate Diploma in Science in Psychology Master of Arts in Psychology Master of Health Psychology Master of Science in Psychology Master of Nursing Science	1 December 2020

Information for international students

The Education (Pastoral Care of International Students) Code of Practice: The University of Auckland has agreed to observe and be bound by the *Education (Pastoral Care of International Students) Code of Practice*. www.nzqa.govt.nz/the-code

Immigration: To complete enrolment, students must have a current valid visa that permits them to study at the University of Auckland.

Full details of visa requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available through the New Zealand Immigration Service, and can be viewed on their website at www.immigration.govt.nz/study

Eligibility for health services

Most international students are not entitled to publicly funded health services while in New Zealand.

If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health and can be viewed on their website at www.health.govt.nz

Medical and travel insurance

All international students are legally required to have appropriate health and travel insurance. The University of Auckland's recommended policy is Studentsafe Inbound University, a scheme that meets New Zealand government requirements. When you enrol you will automatically be covered by Studentsafe Inbound University and the insurance premium will be added to your student account. You will receive details with your offer of admission letter from the University.

www.auckland.ac.nz/is-insurance

Costs

All costs are shown in New Zealand dollars and are expressed inclusive of New Zealand Goods and Services Tax if applicable.

Privacy

The University of Auckland undertakes to collect, store, use and disclose your information in accordance with the provisions of the Privacy Act 1993. Further details of how the University handles your information are set out in a brochure available from the AskAuckland Central student information centre or by phoning 0800 61 62 63.

Disclaimer

Although every reasonable effort is made to ensure accuracy, the information in this document is provided as a general guide for students and is subject to alteration. All students enrolling at the University of Auckland must consult its official document, the current *Calendar of the University of Auckland*, to ensure that they are aware of and comply with all regulations, requirements and policies.

Glossary

This is a quick guide to common University of Auckland terms used in this prospectus. These are not intended to be legal definitions; refer to the University Calendar when interpreting these terms: www.calendar.auckland.ac.nz

Application for Admission

The first step in the application process is to apply for admission to the University and your postgraduate programme: www.apply.auckland.ac.nz

Course

The basic component of your programme of study. Courses are normally taught and assessed over one semester or two consecutive

semesters in the same academic year. A course is sometimes referred to as a "paper" at other universities.

Enrolment

Once you have applied and been admitted to the University and your programme, you will need to enrol in the courses that will make up your programme of study (see pg. 50).

Faculty

There are eight faculties at the University: each offers and administers programmes within their discipline or group of disciplines. In addition, you can undertake postgraduate programmes at one of our large-scale research institutes:

Auckland Bioengineering Institute and Liggins Institute.

Programme

A programme is a prescribed set of one or more courses or other work (such as a thesis). A certificate, diploma or degree is awarded on the successful completion of the programme.

University of Auckland Calendar

You will find regulations and requirements for all of our postgraduate programmes in the University Calendar, available in print and online: www.calendar.auckland.ac.nz

Find out more

There are a number of online and printed resources to help with your decision making. Our advisers are here to provide guidance and there are a number of opportunities to visit us on campus (see pg. 5).

Postgraduate newsletter

Sign up for the postgraduate newsletter, *Explore*, for the latest on postgraduate study at the University of Auckland.
