GENERAL STATUTES AND REGULATIONS
STATUTES AND REGULATIONS

Statutes and regulations at present in force are printed in the Calendar, and are deemed to be sufficient announcement to all members of the University.

CONFERRING OF DEGREES AND ACADEMIC DRESS

REGULATIONS

1. Every Degree and every Diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council in that behalf and at a meeting of the Council by the Chancellor or if he is absent from New Zealand or incapacitated by sickness or otherwise then by the Vice-Chancellor.

2. Every recipient of a Degree shall receive a certificate in appropriate form, under the Common Seal of the University, that his degree has been conferred and stating the class of honours (if any) awarded to him.

3. Every Diploma shall be in appropriate form under the Common Seal of the University.

4. In May of each year the Council shall meet in Convocation of the University for a ceremony of conferring Degrees and awarding Diplomas. Any person desiring to have his Degree conferred, or his Diploma awarded (whether in person or in absentia) at such a ceremony shall give notice of his desire to the Registrar not later than 10 April in the year of the ceremony.

5. The form of words to be used by the Chancellor or the Vice-Chancellor in conferring a Degree shall be as follows:

   'By authority vested in me as Chancellor (or Vice-Chancellor) I now proceed to confer the Degrees stated upon those who, within their several Faculties, have satisfied the requirements of this University.'

6. The form of words to be used by the Chancellor or Vice-Chancellor in awarding a Diploma shall with the necessary changes be the same as for the conferring of a Degree.

7. The regulations for academic dress shall be as follows:

   (i) Graduates must appear at all public ceremonies of the University in the academic costume proper to their degree, but doctors may on special occasions wear a scarlet gown and
graduates admitted *ad eundem statum* may wear the academic costume of their own University. Unless the holder of a diploma is also a graduate, the only academic dress he may wear is an undergraduate gown.

(ii) The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel.

The robe for the Pro-Chancellor is a black silk gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold tassel.

The robe for the Vice-Chancellor is a blue silk gown with facings of silver lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with silver lace and tassel.

The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with black silk tassel.

(iii) The gown for a Bachelor’s degree is as for the Cambridge Bachelor of Arts. The gown for a Master’s degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelor’s degree is lined with coloured silk and bordered with white fur. The hood for a Master’s degree is lined with coloured silk only.

The colours of the linings of the hoods may be seen on a chart at the Registry, and are as follows: Arts — pink; Science — dark blue; Law — light blue; Music — white; Engineering — violet; Commerce — orange; Architecture — lemon.

(iv) The gown for the degree of Doctor of Philosophy is as for the Cambridge Master of Arts. The hood is made wholly of scarlet silk.

(v) The gown for a Doctor’s degree other than that of Doctor of Philosophy is as for the Cambridge Master of Arts but it is made wholly of black silk or of scarlet silk or cloth. The hood is made wholly of silk and is of the following colours for the different degrees; LittD — pink; DSc — dark blue; LLD — light blue; MusD — white.

(vi) The cap for all graduates other than the officers of the University is a black trencher with a tassel.
MATRICULATION REGULATIONS

1. Qualification for Matriculation

(i) To matriculate a student must —

(a) if he has been previously enrolled at another University or University College in New Zealand disclose that fact and apply to the Registrar for the transfer of his academic record; or

(b) have been granted either by accrediting or examination the University Entrance qualification by the Universities Entrance Board; or be reported by the Examiners of the Entrance Scholarships examination to be qualified to pass the University Entrance examination; or

(c) have been granted admission ad eundem statum by the Universities Entrance Board at the standard of the University Entrance examination; or

(d) have been granted admission under the provisions of the Admission Ad Eundem Statum Regulations; or

(e) have been granted admission under the Provisional and Special Admission Regulations.

(ii) No person shall be eligible to matriculate while enrolled for full-time instruction in a secondary school, combined school, registered private secondary or technical school.

(iii) No person shall be eligible to matriculate unless he has attained the age of sixteen years by 31 December in the year preceding his application for matriculation or has obtained the permission of the Senate to matriculate before attaining that age.

(iv) The Senate may in exceptional circumstances permit a person who has not attained the age of sixteen years to matriculate.

2. Matriculation Declaration

Every student shall upon entering the University make the following declaration: 'I do solemnly promise that I will faithfully obey the Statutes and Regulations of the University of Auckland so far as they apply to me.'
3. *Dates*

(i) All students, other than those enrolled for the Diploma in Obstetrics, shall complete the matriculation declaration not later than 31 March or such later date that Senate approves in the year in which they enrol.

(ii) A student who enrols for the Diploma in Obstetrics, and who is required to matriculate, shall complete the matriculation declaration not later than 30 November or such later date that Senate approves in the year in which he enrols.
PROVISIONAL ADMISSION AND SPECIAL ADMISSION REGULATIONS

Subject to the provisions of the University of Auckland Act 1961 section 24, and to the provisions of these regulations any candidate who is not otherwise qualified for admission to the University may be granted provisional or special admission to courses for degrees or diplomas or professional qualifications or a certificate of proficiency.

Provisional Admission

1. A candidate who has attained the age of twenty-one years by 31 December in the year preceding that for which application is made may be granted provisional admission to a course of a degree, or diploma, or professional qualification, or certificate of proficiency.

2. Until the provisional admission has been confirmed the student shall be entitled to enrol only for the subject or units of the course for which provisional admission was granted.

3. The provisional admission shall be confirmed when the candidate
   (a) having been admitted direct to a Professional year in Architecture, Engineering, or Fine Arts has been credited with a pass in the whole of a Professional Year or its equivalent, or
   (b) in any other case has been credited with a pass in not fewer than three units of his course.

4. When provisional admission has been confirmed a candidate may enrol for any other course for which he is eligible.

Notes: (i) If candidates are under the age of 25 they will generally be advised by the Senate to sit the University Entrance Examination, unless their applications show professional or technical qualifications such as nurses', mariners' or air pilots' certificates.

49
Consideration will be given to the amount and kind of secondary school education gained by the applicants, and preference will be given to those who are prepared to attend the University full-time.

(ii) Provisional Admission will not be granted to extramural students save in very exceptional circumstances.

Special Admission

5. A candidate is eligible to apply for special admission to the course for the Executan Diploma in Music if he has:

(a) attained the age of sixteen years by 31 December in the year preceding that in which he intends to enrol, and

(b) passed the School Certificate Examination, and

(c) passed the Course Entrance Examination.

6. A candidate is eligible to apply for special admission to the course for the Diploma in Fine Arts if he has:

(a) attained the age of sixteen years by 31 December in the year preceding that in which he intends to enrol, and

(b) been a student for at least three years at a post-primary school, and

(c) passed the Fine Arts Preliminary Examination as defined by the Universities Entrance Board, provided that a candidate who has passed the Fine Arts Preliminary Examination under the 1962 Regulations shall also be required to satisfy the Senate that he has attained a satisfactory standard in English.

7. A candidate is eligible to apply for special admission to the course for the Diploma in Town Planning if he

(a) has attained the age of twenty-one years by 31 December in the year preceding that in which he intends to enrol, and
(b) (i) has been admitted or has qualified for admission to a Degree other than Architecture or Engineering,

or (ii) holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning.

8. A candidate is eligible to apply for special admission to the course for the Diploma in Building and Construction Management if he

(a) has attained the age of twenty-one years by 31 December in the year preceding that in which he intends to enrol, and

(b) (i) has been admitted or has qualified for admission to a Degree other than Architecture or Engineering;

or (ii) holds or has qualified for the award of a professional qualification in Architecture, Engineering, Surveying or Quantity Surveying;

or (iii) has had not less than five years' responsible practical experience in Architecture, Engineering, Building and Construction or Quantity Surveying; provided that the Senate may approve a shorter period of practical experience where the candidate has followed an approved course of study at a University for at least two years and passed the appropriate examinations.

9. A candidate is eligible to apply for special admission to the course for the Diploma in Business and Industrial Administration if he

(a) has attained the age of twenty-one years by 31 December in the year preceding that in which he intends to enrol, and

(b) (i) holds or has qualified for the award of a professional qualification in Accountancy, Engineering, Science, or other approved discipline;

or (ii) holds or has qualified for the award of the
New Zealand Certificate in Engineering with outstanding merit;
or (iii) has had not less than five years' responsible experience in industry; provided that the Senate may approve a shorter period of practical experience where the candidate has followed an approved course of study at a University for at least two years and passed the appropriate examinations.

10. A candidate who is granted special admission to a course is entitled to enrol only for the course for which special admission was granted.

11. A candidate seeking provisional or special admission shall
(a) make application to the Registrar on the appropriate form, and
(b) submit satisfactory evidence of age, and
(c) submit evidence of educational qualifications, and also, in the case of applications for provisional admission, any other evidence to indicate that he is qualified to enter upon the course with reasonable prospect of success, and
(d) pay the prescribed fees, and
(e) for all courses other than the course for the Diploma in Obstetrics make application not later than 31 January in the year in which he wishes to enrol provided that on payment of the prescribed fees and a late fee of $5, an application may be considered if it is made not later than the last day of the enrolling period preceding the commencement of the first term.

Notwithstanding anything in this section, on payment of a fine of $10 in addition to the prescribed fees and late fee, and subject to the approval of the Vice-Chancellor, an application may be considered after the last day of the enrolling period in each year.
(f) for the course for the Diploma in Obstetrics make application not later than 1 November in the year in which he wishes to enrol.
ADMISSION AD EUNDEM STATUM REGULATIONS

1. Subject to the provisions of the University of Auckland Act, 1961, S.24, and to the provisions of these regulations the Council may admit any person ad eundem statum to any degree or other academic qualification or part thereof.

Credits towards first Degree or Diploma

2. On an application for credits for subjects towards a bachelor's degree or a diploma course the Council may —
   (a) grant credits for specified subjects at specified stages; and,
   (b) grant exemptions in a number of unspecified subjects and grant permission to advance in specified subjects.

Right to proceed to Higher Degree

3. On an application for the right to proceed to a higher degree or diploma with honours, the Council may grant admission to the status of the holder of a degree or diploma with the right to proceed to a specific higher degree or diploma with or without honours; provided that the applicant complies with any prerequisites prescribed or required by Council for such degree or diploma.

Procedure

4. (i) A student from an overseas University shall
   (a) make written application to the Registrar on the appropriate form;
   (b) submit such evidence as the Senate may require of academic standing and of any degree obtained at a former University;
   (c) submit a declaration of identity;
   (d) pay the prescribed fee;
   (e) for all courses other than the course for the Diploma in Obstetrics make application not later than 31 January in the year in which he wishes to enrol provided that on payment of the prescribed fees and a late fee of $5, an application may be considered if it is made not later than the last day of the enrolling period preceding the commencement of the first term.

   Notwithstanding anything in this section, on payment of a fine of $10 in addition to the prescribed fees and late fee, and subject to the approval of the Vice-Chancellor, an application may be considered after the last day of the enrolling period in each year.
   (f) for the course for the Diploma in Obstetrics make applica-
tion not later than 1 November in the year in which he wishes to enrol.

(ii) A student from another University within New Zealand shall
(a) make written application to the Registrar on the prescribed form;
(b) request the Registrar of his former University to forward a copy of his official record to the University of Auckland;
(c) for all courses other than the course for the Diploma in Obstetrics make application not later than 31 January in the year in which he wishes to enrol provided that on payment of the prescribed fees and a late fee of $5, an application may be considered if it is made not later than the last day of the enrolling period preceding the commencement of the first term.

Notwithstanding anything in this section, on payment of a fine of $10 in addition to the prescribed fees and late fee, and subject to the approval of the Vice-Chancellor, an application may be considered after the last day of the enrolling period in each year.

(d) for the course for the Diploma in Obstetrics make application not later than 1 November in the year in which he wishes to enrol.

Completion of Degree or Diploma at another University

5. A student who leaves the University of Auckland district either to reside in another University district within New Zealand or to reside overseas, and who requires to pass in a final subject or section to complete a degree or diploma of the University of Auckland, may, with the approval of the Council, take appropriate examinations in another University, and may with like approval, be granted ad eundem credit for such examinations. Provided that this concession will not be granted within New Zealand if a student has not been credited with a subject at Stage III.

Admission at Entrance Standard

Note: Candidates who are seeking recognition of overseas educational qualifications for the purpose of entry to any New Zealand University should, if admission at entrance standard only is required make written application, with fee of $5.50, to the Secretary of the University Grants Committee, Box 8035, Wellington. Such applications will be referred to the Universities Entrance Board for decision.
TERMS REGULATIONS

Keeping Terms
1. A candidate for a degree or diploma or certificate of proficiency must be matriculated and must keep terms in the subjects prescribed for his course provided that a student enrolled in accordance with the Extramural Enrolment Statute shall not be required to keep terms.

2. A student shall keep terms in a unit or subject by attending the classes in that unit or subject to the satisfaction of the Senate and by performing to the satisfaction of the Senate such oral, practical, written, and other work therein as the Senate may require.

   Students will be informed by each department of the specific requirements for terms in that department, and the extent to which the year's work will be taken into consideration in assessing final results.

   Students in the professional years in Architecture and Fine Arts should note that terms will be awarded, not in single units or subjects but in the whole course for which the student is enrolled in that year.

3. A student who satisfies the Senate that he is unable to attend the full course of study for which he is enrolled may, on the recommendation of the Head of the Department concerned, be granted partial exemption from lectures.

Terms Carried Forward
4. (a) Terms in any unit or subject shall be good only for the year in which they are kept, provided that upon application the Senate may at its discretion permit those terms to be carried forward to a later year in the case of any student who has been refused an aegrotat or compassionate pass in that unit or subject, or, who in the opinion of the Senate, would incur hardship if he were required to keep terms afresh.

   (b) Each application for the carrying forward of terms shall be made in writing to the Registrar not later than 31 January of the year next following that in which the terms were kept, or after that date upon payment of a late fee of $5, provided that no such application shall be made later than 21 February next except with the leave of the Senate and upon payment of a fine of $10 in addition to the late fee of $5.

55
(c) A student whose terms in a unit or subject have been carried forward to a later year shall not be entitled to apply again under this Regulation for those terms to be carried forward; but otherwise he shall be deemed for all purposes to have kept terms in that unit or subject in that later year.

(Note: See regulation 3 (f) of the Enrolment and Course Regulations (General).

Failure in Units

5. Students granted Terms Carried Forward are subject to the provisions of Regulation 9 of the Enrolment and Course Regulations (General).

Note: For the purposes of this Regulation students shall be deemed to be engaged in academic studies in that year whether or not they sit their degree examinations.

Multiple Courses and Subjects

6. No candidate shall be eligible to keep terms in the same year for more than two distinct courses for degrees and diplomas. A candidate entering for two such courses shall be permitted to present himself for examination in only two subjects more than the maximum number allowed in either course.

7. No candidate shall be eligible to keep terms in a subject for which he has received credit for another degree or diploma.

8. Subject to the provisions of the course regulations for any degree or diploma, no candidate shall be eligible to keep terms in two stages of a subject in the same year, provided that the Senate may waive this requirement in the case of a candidate of proved merit.

Courses where Terms are Required

9. The subjects in which terms must be kept are as follows: All the subjects of the BA, MA, BCom, MCom, BSc, BSc(Hons), MSc, BMus, BMus(Exec), MMus, BRA, MFA, BArch, MArch, BE, ME, LLB, LLB(Hons), LLM degrees including any of the subjects for the MA or MSc degrees in which a candidate who has already qualified himself for Honours may present himself for further Honours; all subjects of the examination for admission as Barristers or Solicitors; all subjects of the courses for DipArch, DipBldg, DipBIA, DipCrim, DipEd, DipEdPsych, DipFA, DipFA(Hons), ExecDipMus, ExecDipMus(Hons), DipOpt, DipTP, and DipUrbVal.
THE FACULTY OF FINE ARTS (LIMITATION OF ENROLMENTS) STATUTE

1. Title and Commencement — (1) This Statute may be cited as the Faculty of Fine Arts (Limitation of Enrolments) Statute 1965. (2) This Statute shall come into force on 1 January 1966.

2. Limitation of Enrolments — Until such time as accommodation for additional students is made available to the Faculty of Fine Arts by the Council, an insufficiency of accommodation shall be deemed to exist in that Faculty, and the maximum number of students which may be enrolled in that Faculty in any year shall be one hundred and twenty-five provided that the Council, having regard to the distribution of students between the First, Second, Third, and Fourth Professional years of the course for the Degree of Bachelor of Fine Arts and in the First, Second, and Third Professional years of the course for the Diploma in Fine Arts and in the course for the Diploma in Fine Arts with Honours, may, in any year, increase that number to such number, not exceeding one hundred and thirty-five, as it thinks fit.
ENROLMENT AND COURSE REGULATIONS (GENERAL)

1. *Dates of Terms*

(a) There shall be in each year three terms. The first term shall begin on the first Monday after 25 February and shall end on the Saturday preceding the 19th Monday of the Calendar year. The second term shall begin on the 22nd Monday of the Calendar year and shall end on the Saturday of the 11th week thereafter. The third term shall begin on the 36th Monday of the Calendar year and shall end on 31 October of each year. The Easter recess shall extend from Good Friday to the Tuesday of Easter week both days inclusive. The mid-term break during the second term shall consist of the whole of the 6th week.

(b) For the purpose of the holding of such examinations as may be required at the conclusion of the University year, all Lectures and Laboratory courses shall cease about the end of the fifth week of the third term in each year. Under special circumstances lectures may be continued to a date not later than 28 October.

2. *General Course Provisions*

(a) Subject to the Admission Ad Eundem Statum Regulations and to the express provisions of any other regulations every candidate for a Degree, Diploma or Certificate of Proficiency shall be required to

(i) be a matriculated student of the University;

(ii) follow the prescribed course of study in the order prescribed or indicated in accordance with the regulations governing the course;

(iii) keep terms in the prescribed subject or subjects in accordance with the Terms Regulations;

(iv) carry out the prescribed practical work (if any);

(v) comply with the provisions of the Examination Regulations;

(vi) pass the prescribed examinations.

(b) The personal course of study of every student shall require the approval of the Senate provided that
(i) the Senate may delegate to the Dean of the Faculty within which the student is enrolled the power to give such approval;

(ii) where approval of a personal course of study has been withheld by a decision of the Dean acting under delegation of that power the student may appeal to the Senate against that decision.

(iii) where options are prescribed for a course, the Senate may at its discretion determine which of them shall be available in any year: provided always that sufficient options shall be available to enable a candidate to complete his course.

3. Enrolment

(a) Every internal student shall enrol in person and enrolment will not be completed until a course card, signed by the student and endorsed by Heads of Departments and/or the Dean of the Faculty has been presented at the Registry together with the prescribed fees.

(b) Enrolments shall be made during the enrolling period immediately before the commencement of the first term and shall be completed in accordance with the detailed timetable published in this Calendar.

(c) Candidates for the Master's and PhD degrees whose theses are incomplete are required to re-enrol at the beginning of each academic year until the thesis is presented.

(d) Candidates for the Diploma in Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 November.

(e) Extramural students shall enrol in accordance with the provision of the Extramural Enrolment Statute and Regulations.

(f) Students who have applied for terms to be carried forward and who have not received a decision by enrolment week must enrol and pay fees in the normal way. If an application to carry terms forward is approved the applicant may cancel his enrolment and receive a refund of fees provided that
(i) application for Terms Carried Forward was made before 31 March and

(ii) an 'Alteration to Course' form is completed and lodged at the Registry within fourteen days of the posting of the official notification of approval.

(g) A student who has applied for Admission Ad Eundem, or Provisional Admission or Special Admission to be eligible to matriculate, and who has not received a decision before the beginning of enrolment week, shall enrol and pay fees as if his application had been granted. If his application is refused he shall be admitted as a non-matriculated student to lectures and laboratories only; provided that his enrolment may be cancelled and his fees fully refunded if within fourteen days of the posting to him of notice of refusal he lodges at the Registry an appropriately completed 'Alteration to Course' form.

(h) A student who is enrolled at another University in New Zealand and who wishes to enrol at the University of Auckland shall submit to the Registrar an application to transfer, on the prescribed form, not later than 31 January in the year in which he wishes to enrol, provided that a late application will be considered

(i) if made not later than the last day of the enrolling period preceding the beginning of the first term on payment of a late fee of $5;

(ii) if made after the beginning of the first term on payment of a late fee of $15 and subject to the approval of the Vice-Chancellor;

Note: A student wishing to apply for credits towards a Degree or Diploma offered by the University of Auckland must also comply with the provisions of the Admission Ad Eundem Statum Regulations.

4. Penalties for Late Enrolment

Fines

(a) All students enrolling for courses in the Faculty of Science shall enrol not later than Tuesday of the week in which enrolment takes place, and all students enrolling for courses in Faculties other than Science which include units in Biology, Botany, Chemistry,
Geology, Physics or Zoology shall enrol not later than Tuesday of the week in which enrolment takes place, and all students enrolling for courses in Faculties other than Science which include units in Applied Mathematics, Mathematics or Statistical Mathematics shall enrol not later than Wednesday of the week in which enrolment takes place, and all students enrolling for the Second, Third, and Fourth Professional and Honours years for courses in the Faculty of Fine Arts shall enrol not later than Monday of the week in which enrolment takes place, and all other students other than those enrolling for the Diploma in Obstetrics, shall enrol not later than Friday of the week in which enrolment takes place; provided that enrolments may be accepted after the days prescribed but in no case will

(i) a student whose home is outside New Zealand be accepted later than the commencement of the second week of lectures

or (ii) a student permanently resident in New Zealand be accepted later than 31 March

except with the special permission of the Senate and upon payment of such of the following penalties as the Senate may in its discretion impose on him:

(i) in each case a late fee of $20, and

(ii) in cases where enrolment is applied for after the end of the first week of term an additional fine of $4 for each week or part of a week after the first week of term by which the application for enrolment has been delayed; and

(b) all students enrolling for the Diploma in Obstetrics shall enrol not later than 1 November provided that enrolments may be accepted after this date upon payment of a fine of $4 for each week or part of a week after 1 November by which the application for enrolment has been delayed.

Choice of Course

(c) The courses of study of those enrolled after the date prescribed will be determined by the Senate and will not necessarily
conform with those proposed by the students concerned. In determining such courses, the Senate will have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at the approved time.

**PhD Enrolments**

(d) The provisions of this regulation do not apply to enrolments for the Degree of Doctor of Philosophy.

5. **Payment of Fees**

(a) All fees that cannot be claimed under a bursary or study award must be paid at enrolment provided that an extension of time for payment of fees may be granted by the Registrar under special circumstances. In any case in which fees are not paid in accordance with sub-clause (a) of this Regulation, the following provisions shall apply:

(i) a fine of 10% of the amount of such fees shall be payable after a lapse of fourteen days from the due date;

(ii) the Senate shall withhold the granting of terms until such fees have been paid;

(iii) no person shall be enrolled as a student of this University while any fees due by him under the provisions of this regulation remain unpaid;

(iv) a student shall not be entitled to have his record transferred to any other University while any fees due by him under the provisions of this regulation remain unpaid.

(b) If a student enrolled for a Course of Instruction in a Single Instrument in the Department of Music elects to pay tuition fees in three instalments, a fine of $4 per week will be imposed for each week or part of a week by which the payment of fees for term II or term III has been delayed.

6. **Alterations to Courses**

If a student wishes to vary in any way his course as approved at enrolment he must complete and sign an ‘Alteration to Course’ form at the Registry.

*Note:* It is not sufficient to notify a change of course solely to a Department.
(a) Dates for Applications: All applications must be lodged at the Registry during the period 8 March – 31 March in each year.

(b) Additions, Deletions or Substitutions:
   (i) All applications for the addition, deletion, or substitution of a subject or subjects must be endorsed by the Dean of the Faculty concerned.
   (ii) Any additional fees must be paid at the time of lodging the application.
   (iii) Applications for additions or substitutions will be accepted after 31 March in each year provided that they are accompanied by fines of $4 per week or part thereof.

7. Refunds of Fees
(a) To be eligible for a refund of fees candidates, other than candidates for the Diploma in Obstetrics, must lodge an ‘Alteration to Course’ form at the Registry on or before 31 March in each year. Candidates for the Diploma in Obstetrics must lodge an ‘Alteration to Course’ form at the Registry on or before 1 December in each year. No refunds will be made for withdrawals after these dates.
(b) Alterations involving the deletion of all subjects will receive a full refund of all tuition fees and students’ association fee.
(c) Alterations involving a partial cancellation of the enrolment will receive a full refund of all tuition fees in respect of the subject or subjects deleted.

   Note: Students who have their tuition fees paid under University Entrance Scholarships, Education Department Bursaries, Government Study Awards, Training College Bursaries, Post-primary Teachers’ Studentships or the Colombo Plan should note that if they do not comply with the regulations relating to ‘Alteration to Course’ they may prejudice their scholarship or bursary in a future year. The University will claim tuition fees from the authority concerned in accordance with enrolments as at 31 March in each year.

8. Non-matriculated Students
   Admission to lectures or laboratories may be granted to non-matriculated students provided they comply with all other regulations governing admission. The Council may from time to time
restrict entry of non-matriculated students to one or more subjects by reason of shortage of accommodation or other special circumstances.

*Note:* A non-matriculated student may not enter for any degree, diploma or certificate of proficiency examinations as he is unable to comply with the course regulations.

9. **Exclusion from Lectures**

(1) **Unsatisfactory Term Work:**

Heads of Departments may exclude any student from classes in any subjects in their departments on the ground of unfitness or of unsatisfactory progress in such subjects. A student so excluded shall have the right of appeal to the Senate. All students recommended for exclusion shall be informed individually by the Head of the Department not later than the Friday preceding the mid-term break. Such students may lodge an appeal against their exclusion not later than the following Friday. The date and time for hearing appeals will be posted on departmental notice-boards.

(2) **Failure in a unit after two attempts:**

Any student who has twice attempted but has failed to be credited with a pass in an optional unit or subject, shall not be entitled to re-enrol in that unit or subject without the prior permission of the Head of the Department in which it is taught.

(3) **Failure to make satisfactory progress in course of study as a whole:**

(a) The following students including a student transferring from another University shall not be entitled to enrol without the prior permission of the Senate:

(i) **Faculties of Arts, Commerce, Education, Law, Music, and Science:**

Any student in the Faculties of Arts, Commerce, Education, Law, Music, and Science who over the last two years of his academic studies has failed to be credited with a pass in two units.

(ii) **Faculties of Architecture and Engineering:**

Any student in the Faculties of Architecture and Engineering who over the last two years of his
academic studies has failed to be credited with a pass in sufficient subjects of a professional year to enable him to proceed to the next higher professional year.

(iii) **Faculty of Fine Arts:**
Any student in the Faculty of Fine Arts who fails any professional year as a whole, or after two attempts has failed to complete all the subjects of a professional year.

(iv) **Excluded from another University:**
Any student who has been excluded from any University as an unsatisfactory student.

(b) **Procedure for obtaining permission to enrol:**
Application for such permission shall be made not later than 31 January in the year in which the student wishes to enrol provided that on payment of a late fee of $5 an application may be considered if it is made not later than the last day of the enrolling period preceding the commencement of the first term.

Notwithstanding anything in this section, on payment of a fine of $10 in addition to the late fee, and subject to the approval of the Vice-Chancellor an application may be considered after the last day of the enrolling period in each year.

(c) **Conditional Re-Enrolment:**
Permission of the Senate granted to any student to re-enrol under the provisions of this sub-clause may be subject to such conditions relating to a Department or Faculty in which the student may pursue his studies as the Senate may see fit to impose.

(d) **Right of Appeal:**
Any student who is refused permission to enrol by the Senate or who objects to any condition of the enrolment imposed by the Senate shall have the right of appeal to the Council.

**Note:** For the purposes of this regulation:

(i) Students who in any year of their academic studies have not formally withdrawn, in terms of regulation 6 of these Regulations, from all of the courses for which they enrolled shall be deemed to be engaged in academic studies in that year.
(ii) 'Units' include units in an external professional examination conducted by the University Grants Committee, provided that the student was also enrolled at a University in the year in which the external professional examinations were taken.

10. Cross-credited and Exempted Units
(a) Cross-credits:
Except where special provision is made in the regulations governing a specific degree, a candidate who has been credited with passes in units (or subjects) common to two or more courses may, on payment of the prescribed fee under the Fees Regulations, transfer not more than three units (or subjects) passed in one course to any one other course, provided the necessary terms have been kept. No candidate shall be allowed to obtain credit for the same unit (or subject) in more than two courses and no Stage III unit (or subject) shall be transferred from one course to another. A pass in a subject of the Engineering Intermediate examination or of the Architectural Intermediate examination (other than a conceded pass granted for the purposes of such Intermediate Examinations) shall be transferable pursuant to this Regulation. No subject of a course for a Master's degree shall be transferred from one course to another. Wherever a candidate is unable to transfer a unit (or subject) compulsory in his second course he may present another unit (or subject) approved by the Senate in place of it.

(b) Exempted Units:
(i) A candidate for a Degree or Diploma, who has passed or been credited with a pass in a unit or subject not prescribed for that Degree or Diploma but the same as or substantially equivalent to a subject or unit so prescribed, may at the discretion of the Senate be exempt from that prescribed subject or unit; subject, however, to the provisions of any other regulation.

(ii) A candidate exempted either under this or any other regulation from a subject or unit shall pay the prescribed fee under the Fees Regulations for that subject or unit.
(c) Abandoned Units:

Where a candidate abandons one course of study before completion and proceeds to a second course, he may transfer without payment of fee to his new course any appropriate units with which he has been credited. If at any time he wishes to resume the course which he has abandoned and to retain the units first credited to it he shall pay cross-credit fees in accordance with section (a) hereof.

11. Additional Lectures

A student while pursuing a course of study in the University may with the approval of the Vice-Chancellor, after consultation with the Heads of Departments concerned, take lectures in a subject which he is not offering for examination without payment of fee for the course provided that this facility shall be granted only where the additional lectures would be useful in supplementing the student's course of study.

12. Vice-Chancellor's Special Powers

The Vice-Chancellor may give such direction, or make such provision as he shall think fit for the relief of undue hardship where it is shown to his satisfaction —

(a) that an alteration or amendment to statutes or regulations involving a change in a course of study or in examination requirements has caused a candidate hardship; or

(b) that official advice has been given and acted upon, and it is later found that a candidate's course is not in accordance with the governing regulations and hardship would be caused if the candidate were to be compelled to comply with the full requirements of the regulations;

Provided that the candidate may appeal against the decision of the Vice-Chancellor to the Council, which shall have power to make such provision as it may think fit.
EXTRAMURAL ENROLMENT STATUTE

1. Title and Commencement: (1) This statute may be cited as the Extramural Enrolment Statute 1962.

(2) This statute shall come into force on 1 January, 1963.

2. Extramural enrolment: Any student who satisfies the Senate that he is prevented from attending classes shall, so far as is shown to be necessary and subject to the provisions of this statute, be exempted from attendance at classes and may be enrolled as an extramural student.

3. Restrictions: (1) Exemption shall not be granted:

(a) in any of the following subjects at any stage in any course. Biology; Botany; Chemistry; Genetics; Geography; Geology; Microbiology; Physics; Psychology; Radiophysics; Zoology;

(b) in any subject of the courses for the following degrees and diplomas: Master of Architecture; Master of Arts; Master of Commerce; Master of Engineering; Master of Laws; Master of Music; Master of Science; Bachelor of Architecture; Bachelor of Engineering; Bachelor of Fine Arts; Bachelor of Laws (Honours); Bachelor of Music (Executant); Bachelor of Science (Honours); Diploma in Architecture; Diploma in Building and Construction Management; Diploma in Criminology; Diploma in Educational Psychology; Diploma in Fine Arts with or without Honours; Executant Diploma in Music; Diploma in Optometry; Diploma in Town Planning.

(c) in any subject at Stage III for the degree of Bachelor of Arts or Bachelor of Commerce or Bachelor of Science, unless the candidate has completed as an internal student four units including a Stage II unit;

(d) to a candidate who is living in the Urban Area (as defined by the Government Statistician) of Auckland or of Hamilton or in any of the University Districts of the Victoria University of Wellington, the University of Canterbury, or the University of Otago save in exceptional circumstances and with the approval of the other University concerned;

(e) in any subject or stage of a subject that is not for the time being taught at the University, but, notwithstanding any-
thing to the contrary in paragraph (g) of this section, exemption may be granted in individual cases of hardship if a University in New Zealand at which the subject is taught agrees to examine the candidate;

*Note:* If a candidate granted exemption under this provision enters for examination in any other subject in the same year no assurance can be given that examination time-tables can be so arranged that the candidate will be able to sit all papers.

(f) to a candidate who, having been admitted to another University in New Zealand, is still on the books of that University as a candidate for any degree, diploma, or other qualification;

(g) to a candidate who fails to produce such evidence as the Senate may require that he is prevented from attending classes in the subject at any University;

(h) to a candidate who is prevented from attending a class by reason of attendance at another class.

(2) The Council may, by regulation, provide that extramural enrolment shall not be accepted in the course for any specified subject, or for any specified part thereof, which requires practical or laboratory work, or the use of materials or teaching services of such a nature that, in the opinion of the Council, the course cannot satisfactorily be taken extramurally.

4. *Persons beyond New Zealand:*

(1) Except as provided in subsection (2) of this section, exemption shall not be granted to a candidate who is not resident in New Zealand (including New Zealand Island Territories) Fiji, Tonga or Western Samoa.

(2) A candidate who ceases to reside in any of the countries mentioned in subsection (1) of this section and who requires to pass in one or two units or subjects or in the final group of subjects of a course to complete a degree, diploma or professional qualification may, at the discretion of the Senate and subject to the provisions of this statute, be granted exemption in the subjects concerned.

5. *Tuition at Massey University:*

(1) A student who is on the books of the University of Auckland and who is exempted from tuition at the University of Auckland in any unit or units for which extramural tuition is provided at Massey University, shall
(a) be required to enrol for tuition in such unit or units at Massey University; and

(b) not be permitted in the same year to enrol for any other unit or units at the University of Auckland.

(2) A student so enrolled shall take the examinations of Massey University, and any unit he passes shall be credited to his course.

6. Procedure: A student seeking exemption from classes and enrolment as an extramural student of the University of Auckland shall make application in accordance with the Extramural Regulations of the University and pay the prescribed fees.

7. Application of statutes and regulations: Except as otherwise expressly provided, an extramural student shall be subject to all the statutes and regulations of the University.

8. Repeal: The University of New Zealand Statute ‘Terms and Lectures’ shall cease to apply to the University of Auckland.

REGULATIONS

Extramural Enrolment at the University of Auckland:

1. A student seeking exemption from classes and enrolment as an exempted student of the University of Auckland shall

(a) make application to the Registrar of the University of Auckland on the form provided;

(b) make a declaration stating

(i) the grounds on which the application is based

(ii) that he is not on the books of any other University

(iii) his current residential and business addresses

(iv) whether to the best of his knowledge there will not be any change of residence during the academic year, or where there is an expected change of residence during the academic year the expected new residential address together with the approximate date of the change;

(c) supply such evidence as the Senate may require that he is prevented from attending classes in the subject at another university;

(d) pay the prescribed fees.
2. Application for enrolment as an extramural student shall be made not later than 1 March in the year of the examination provided that applications for enrolment may be accepted after 1 March upon the payment of a penalty of $4 for each week or part of a week after 1 March by which the application for enrolment has been delayed.

3. In the event of a student discontinuing his studies after exemption has been granted a full refund of fees will be made provided notification is received by the Registrar on or before 31 March. No refund of fees shall be made for withdrawals after this date and the fees shall not be transferable to the following or any subsequent year.

Procedure for Extramural Enrolment at Massey University:

4. (a) If a student is resident outside the urban area of Auckland and is eligible to be registered with Massey University he does not need to apply to the University of Auckland for exemption from lectures;

(b) If a student is resident in the urban area of Auckland he must apply to the University of Auckland for exemption from lectures;

(c) A student applying for enrolment for tuition with Massey University in any subject shall make application to the Director of Extramural Studies in the manner prescribed by the Statutes and Regulations of that University.

Failure in Units

5. Extramural studies are subject to the provisions of regulation 9 of the Enrolment and Course Regulations (General).

Note: For the purposes of this regulation students who have not formally withdrawn in accordance with Regulation 3 or who have registered with Massey University and have not withdrawn in accordance with the regulations of that University shall be deemed to be engaged in academic studies in that year.

Notes on Extramural Enrolment

1. Grounds of Exemption

The Senate is strongly of opinion that degree students who do not attend lectures are putting themselves at so serious a disadvantage that it will require the most explicit assurances
as to the impossibility of attendance before granting such applications. It is essential that students attempting first-year degree work should, by attendance at lectures, obtain that necessary introduction to University methods of work which will be the basis of their later advanced studies. And it is equally essential that, at advanced stages of their course, they should have the guidance of University teachers and access to a large library such as is not in practice available outside the University centres.

Exceptional circumstances which may be taken into consideration in the case of students living within those areas include the following:

(a) Physical infirmity.

(b) Conditions of employment. Exemption will be granted only where the student can establish conclusively that it is impossible for him to attend lectures in either the subject in which he wishes to enrol or in another subject offered to him by the Senate as an alternative deemed by it to be suitable to his course. A letter setting out full circumstances will be required.

(c) Other special circumstances — e.g. students who have passed three units internally and then find it necessary to apply for exemption may be given special consideration.

2. Tuition

Although students may be accepted as external students the University cannot undertake to provide any special tuition by correspondence or otherwise.

3. Examination Centres

The following examination centres are at present established: Apia, Auckland, Dargaville, Gisborne, Hamilton, Lautoka, Nuku’alofa, Paeroa, Rotorua, Rarotonga, Suva, Whangarei. An applicant for exemption in any subject in which an oral test or examination is required in addition to written papers should establish, when first applying for exemption, that arrangements can be made by the Registrar for the oral test to be held at the centre at which he proposes to present himself for examination.
EXAMINATION REGULATIONS

1. Eligibility to Sit Examinations

To be eligible to present himself for examination in a unit a candidate must:

(a) have been enrolled as an internal student and have been granted terms, or
(b) have been granted exemption in accordance with the Extramural Statute and Regulations, or
(c) have been granted Terms Carried Forward in accordance with the Terms Regulations.

2. Time of Examinations

The examinations shall be held at the times specified in the Timetable each year.

3. Place of Examinations

All internal students must sit their examinations at Auckland. Extramural students who do not wish to sit their examinations at Auckland may sit at one of the centres specified in the Extramural Enrolment Regulations, provided that, with the approval of the Senate, a special examination centre may be established under special circumstances subject to the payment of the extra fee prescribed in the Fees Regulations.

4. Conduct of Examinations

(i) The examinations shall comprise such written, oral and practical examinations as the examiners may determine.

(ii) Candidates shall write out answers to the questions in the presence of a supervisor, who shall be appointed or approved by the Council in accordance with such detailed instructions as may be furnished by the Council.

(iii) No candidate shall communicate with an examiner in regard to an examination except through the Registrar.

(iv) No candidate may be examined in any subject or part of a subject at any time other than that set down for him in the time-table.

(v) No candidate shall be allowed to enter the room later than forty-five minutes after the beginning of the examination nor
leave the examination until one hour has elapsed from the
beginning of the examination and then only with the permission
of the supervisor and upon handing in his script.

(vi) Candidates shall be allowed to read their examination
papers for a period of not more than ten minutes before the
examination commences but may not begin writing their answers
until the room supervisor announces that they may do so.

(vii) No candidate is to bring with him into the examination
room any written or printed matter except by direction of the
examiner. All paper used during the examination must be
handed into the supervisor.

(viii) No candidate shall communicate with another in the
examination room.

(ix) No candidate shall continue writing an answer after the
supervisor has announced the expiration of time. In no circum-
stances is any time over and above the time allotted to any
paper to be allowed a candidate for reading over his scripts or
making any amendment or addition to his scripts.

(x) Any candidate who is found guilty of any dishonest prac-
tice in connection with any examination or of any breach of any
rules dealing with the conduct of examinations shall be liable
to the penalties hereinafter provided. The candidate shall, before
the meeting of the Senate at which it is proposed to deal with
the complaint, be notified in writing of the subject matter of
the same and shall be requested to state in writing his answer
to the charge, and he may with the consent of the Senate appear
when the complaint is determined. If the Senate finds the charge
proved it may disqualify the candidate from sitting for any
examinations for such period as it thinks fit and may, if he
has been credited with a pass in the examination in respect of
which the charge arose, cancel such credit.

(xi) Where the Senate is satisfied that a candidate has not com-
plied with any regulation of the University whether in respect
of any examination or any other matter, the Senate shall have
power, having given the candidate such opportunity as it con-
siders reasonable of remedying his non-compliance with the
regulation or regulations, to suspend for such time as it may
see fit the release to the candidate of the results of any examin-
ation, or decline to credit to his course any subject or subjects,
or to impose both these penalties.
(xii) A candidate may appeal to the Council from any decision of the Senate under clauses (x) and (xi) of this regulation by giving notice in writing to the Registrar within fourteen days of being notified of the decision of the Senate. A candidate so appealing shall be entitled to make submissions in writing, and may, with the consent of the Council, appear when the appeal is determined. The Council may dismiss or allow the appeal or vary the penalty but shall not impose any penalty which the Senate could not have imposed. The decision of the Council on any appeal under this regulation shall be final.

5. Marking of Scripts (Extract from Regulation): In determining a candidate's result the examiners may take into consideration the work done by the candidate during the year and shall give due weight to reports on practical work wherever these are required.

6. Masters Work at Standard of Honours

A candidate, whose work is at the standard of Honours for a Masters degree, but who is ineligible for the award of Honours under the relevant course regulations shall be informed of the standard of Honours that he would have been awarded had he been eligible.

7. Recount of Marks

By making application within four weeks from the date of the mailing of his official result of the examinations, any candidate sitting for an examination for a degree, diploma, professional qualification, or certificate of proficiency may have the marks awarded his scripts recounted in any unit which he has failed.

The fee for such recount shall be as prescribed in the Fees Regulations. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer or any portion of an answer submitted by a candidate has been overlooked. No information relative to the application will be placed before the examiner.

Candidates for the Degree of Bachelor of Architecture or the Diploma in Architecture, or the Bachelor of Fine Arts, or the Diploma in Fine Arts, or the Diploma with Honours in Fine Arts, or the Bachelor of Music (Executant), or the Executant Diploma in Music may apply for a recount of marks for written papers only.
8. Aegrotat Pass

A candidate who has been prevented by illness or injury from presenting himself at any examination in any subject, or who considers that his performance in any examination in any subject has been seriously impaired by illness or injury may on application and with the approval of the Senate be granted an aegrotat pass in such subject if the following conditions are satisfied:

(a) that the candidate is enrolled as an internal student for the course of instruction in the unit or subject in question;

(b) that the illness or injury was reported in writing to the Registrar within one week of the date upon which the examination affected took place or if more than one examination has been affected then within one week of the last of such examinations;

(c) that as soon as practicable after reporting the illness the candidate furnish to the Registrar a certificate (on the form provided) from a registered medical practitioner stating —

(i) that he examined the candidate medically on a certain date;

(ii) that in his opinion the candidate was unable through illness or injury to present himself for the examination, or that in his opinion the candidate's performance in the examination was likely to have been seriously impaired by illness or injury. The nature of the illness or injury shall be stated in sufficient detail to make it clear that the candidate was not responsible for his disability, and in a form suitable for submission in cases of doubt to a medical referee;

(d) that the candidate's responsible teachers in the subject or subjects of the examination in question certify that his work therein during his course of instruction was well above the minimum pass standard (or where relevant the minimum standard for a class of Honours) and that he is in their opinion clearly worthy to pass in that subject or subjects (or where relevant to be awarded First or Second Class Honours), or

alternatively that the Senate is satisfied upon considering the quality of the candidate's work during the course of instruction and of any work which he has completed in the current examina-
tions (whether in the subject or subjects in question or any other subject and including work in papers not affected by his illness or injury) that the candidate is clearly worthy to pass in the subject or subjects in question or (where relevant) to be awarded First or Second Class Honours therein,

provided that in either case (i) Honours may not be given to a candidate who applies under this regulation in respect of more than one paper for an Honours degree involving not more than four papers; or in respect of more than two papers for an Honours degree involving five or more papers,

(ii) a candidate for the degree of Bachelor of Engineering with Honours may, on the recommendation of the Senate, be given Honours irrespective of the number of aegrotat passes awarded.

9. *Compassionate Pass*

Where by reason of any exceptional circumstances beyond his control and other than his own illness or injury a candidate has been prevented from presenting himself at any examination or considers that his performance in any examination has been seriously impaired, he may on application and with approval of the Senate be granted a compassionate pass subject to compliance with the same conditions (with necessary changes) as those appearing in clauses (a), (d) and (e) of regulation 8. Such an application must be made to the Registrar on the form provided within one week of the date upon which the examination affected took place, or, if several examinations have been affected, then within one week of the last of those examinations, and must be supported by such evidence as the Registrar shall require.

10. (a) The provisions of regulations 8 and 9 shall apply to

(i) any final written examination presented for a unit of a course for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification.

(ii) any final practical examination presented for a unit of a course for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;

(iii) any terms examination which has been allotted a percentage of the marks awarded for the final examinations
for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;

(b) The provisions of regulations 8 and 9 shall apply (with necessary changes) to

(i) the final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, or for the Diploma in Fine Arts, or for the Diploma with Honours in Fine Arts;

(ii) the final submission in each year of studio work for the Degree of Bachelor of Architecture or for the Diploma in Architecture

as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

11. Theses

Where a thesis is required as part of an examination the following conditions shall apply:—

I. Diplomas, Bachelors and Masters:

(a) The candidate shall submit one copy of the thesis to the Registrar who shall transmit it to the examiners.

(b) If the thesis is submitted in the examination for the degree of Master of Architecture or Master of Arts or Master of Engineering two copies (including the copy submitted to the examiners) shall after the award of the degree be deposited with the University Library; except that when any one of the subjects Botany, Chemistry, Geology, Physics or Zoology is taken for the degree only one copy of the thesis shall be so deposited.

(c) If the thesis is submitted for any other degree or diploma only one copy of the thesis shall be deposited with the University Library.

(d) Where more than the required number of copies of a thesis are submitted any additional copies shall be returned to the candidate.

(e) The supervisor of the thesis shall be responsible for the deposit of the thesis in the Library.

Note: (i) The examination copy of any written thesis presented for a degree or diploma shall be bound in a form sufficiently durable for preservation and use in the University
Library. A second copy, where required, may consist of a carbon duplicate of the typescript only. The Library will, if necessary, copy illustrated material such as maps and will bind this second copy of the thesis. This copy may be placed in a Departmental reading room.

(ii) Candidates are recommended to obtain the booklet 'Pointers on the Binding of Theses' from the Bindery before proceeding with the typing and binding of the thesis.

II. Degree of Doctor of Philosophy:

(a) The candidate shall submit three copies of the thesis to the Registrar.

(b) On completion of the examination two copies shall be deposited with the University Library. The disposal of the third copy shall be at the discretion of the Head of the Department.

12. Examination Centres

Pursuant to Regulation 1 hereof the University of Auckland will conduct examinations in the following centres: Apia, Dargaville, Gisborne, Hamilton, Lautoka, Nuku'alofa, Paeroa, Rotorua, Rarotonga, Suva, and Whangarei. Internal candidates are required to sit their examinations at Auckland.

DISCIPLINE

Under the provisions of the University of Auckland Act 1961 the Senate has, subject to a right of appeal to the Council, the power to deal with all questions relating to the discipline of students. This involves the power to fine or suspend any student for misconduct, either within or without the University precincts.

During the intervals between meetings of the Senate, and subject to a right of appeal to the Senate, the Vice-Chancellor may exercise alone the powers of the Senate as to regulating admission of students and maintaining the ordinary discipline of the University. He may suspend any student guilty of any breach of discipline.

**Disciplinary Regulations**

1. These Regulations may be cited as the Disciplinary Regulations 1966.
2. These Regulations shall come into force on 1 January 1967.
3. In these Regulations unless the context otherwise requires:
   - ‘Class’ means any lecture tutorial seminar or other assembly of students at which tuition is being given and includes any lecture or address within the University at which students are present.
   - ‘Hall’ means any hostel or hall of residence under the control of the Council.
   - ‘Student’ means a duly enrolled student of the University and includes for the purposes of Regulation 4 hereof a person applying so to enrol.
   - ‘Students’ Association’ means The University of Auckland Students’ Association Incorporated.
   - ‘Warden’ means the person who is for the time being in charge of any Hostel and includes his duly appointed deputy.
   - ‘The University’ includes any institution under the control of the Council.
   - ‘University property’ includes property owned by any institution under the control of the Council, and any property held by the Crown on behalf of or for the purposes of the University.
   - Words and expressions defined in the Act have the meanings so defined.

4. (i) Every student shall on enrolling at the University sign a declaration in the following form or to the like effect:
   ‘I hereby solemnly promise that I will faithfully obey the rules and regulations of the University and be bound by the same.’

   (ii) The Senate shall have power to impose conditions on the attendance at classes of any student and to obtain his undertaking to observe those conditions either at his
enrolment or in the course of his attendance at the University in all cases where in the reasonable opinion of the Senate it is necessary so to do in order to prevent any possible disturbance to the carrying out of normal teaching activities at the University or otherwise to maintain order and discipline.

(iii) The Senate may as delegate of the Council exercise the powers conferred on the Council by s. 24 (2) of the Act without however preventing the Council from exercising those powers.

5. No student shall act (whether within or without the precincts of the University) in a manner

(a) contrary to the good government of the University or to accomplishment of the purposes for which it is established; or

(b) having the effect of bringing the University or any member of the University into disrepute; or

(c) likely (in the reasonable opinion of the Senate) to impede or disturb the normal teaching activities of the University; or

(d) prejudicial to the maintenance of discipline amongst the students of the University.

6. Every student shall observe the following rules and directions:

(a) Every student shall be reasonably and appropriately dressed while in attendance at the University.

(b) No alcoholic liquors shall be brought into or consumed within the precincts of the University except with the permission of the Senate. It shall be a condition of such permission in the case of any student function that one senior member of the staff shall be present throughout the function.

(c) No student shall smoke in the library except with permission of the Librarian nor in any class except with the permission of the person in charge of it.

(d) Quietness shall be maintained at all times in University buildings. In particular, the use of radios is prohibited within the University precincts, save within the Student Union.
(e) The starting, riding, or parking of cycles, motor-cycles, and motor vehicles in University grounds by students is prohibited. Students may, however, make use of University parking areas, as to such parts of those areas and at such times as may from time to time be notified by the Registrar.

(f) Student notices may be posted only on permanent noticeboards provided, and in accordance with conditions laid down by the Students' Association.

(g) Such directions as may be reasonably made by the Vice-Chancellor, the Registrar, any Professor, member of the Senate, or Lecturer, in order to maintain good order and discipline within the University and in particular (but not in limitation) during any class.

7. (i) The Senate shall have power:

(a) to impose on any student who does not observe the provisions of these regulations; or the conditions (if any) attached to his attendance at classes pursuant to Regulations 4 and 16 hereof; or any direction given under Regulation 10 hereof; or who otherwise commits any breach of University discipline; any one or more of the following penalties as it thinks fit:

(i) a fine not exceeding $40

(ii) a suspension from attendance at the University or any of its classes for such period as it thinks fit

(iii) expulsion from the University

(iv) a limitation or prohibition on his attendance at any class or classes at the University or his use or enjoyment of any of the facilities of the University.

(b) to withhold the granting of terms to any student who is in default with any payment due by him to the University under these or any other regulations or any Statute

(c) to delegate the powers conferred on it by these regulations to any committee of the Senate without thereby preventing itself or the Vice-Chancellor pursuant to Regulation 8 hereof from exercising any such delegated power.
(ii) Nothing in these regulations shall in any way limit or restrict the power conferred on the Senate by s.34(3) of the Act to deal with all matters relating to the maintenance of discipline amongst the students of the University.

8. The Vice-Chancellor shall have power (subject always to Regulation 13 hereof) to exercise all the powers and authorities of the Senate under these Regulations and under the Act, including any powers delegated by the Senate to any committee of the Senate, during the intervals between the meetings of the Senate or that committee.

9. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate, or Lecturer shall have power to impose a fine not exceeding $20 on any student who:

(a) does not observe the provisions of these regulations; or

(b) does not observe any directions exhibited under the next succeeding regulation; or

(c) otherwise commits any breach of University discipline.

10. Any Warden shall have power:

(a) from time to time to give such directions as he reasonably thinks fit for the maintenance of good order and discipline within the Hall under his charge Provided However that all such directions shall if of general application be exhibited on the main noticeboard of the Hall to which they relate forthwith after they are given

(b) to impose as he thinks fit on any student who does not observe any of the directions so given, any one or more of the following penalties:

(i) a fine not exceeding $20,

(ii) a suspension from attendance at the Hall for such period as the Warden thinks fit,

(iii) expulsion from the Hall.

11. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate, or Lecturer may (whether or not in addition to imposing a fine) order any student to pay as a penalty the cost of replacing or repairing any University property lost
damaged or destroyed by reason of the wilfulness negligence or misconduct of that student. Any penalty so ordered shall be paid within 14 days.

12. The executive of the Students' Association shall (without prejudice to the powers of the Senate under s. 34 (3) of the Act) have power of disciplinary control over the Students' Common Rooms and in exercise of that power may (i) impose a fine not exceeding $10 on any student guilty of any act prejudicial to the maintenance of discipline therein and (ii) (whether or not in addition to imposing a fine) order any student to pay as a penalty the cost of replacing or repairing any University property therein lost damaged or destroyed by reason of the wilfulness negligence or misconduct of that student.

13. (i) All fines and other penalties imposed under Regulations 8, 9, 10, and 11 hereof or by any committee of the Senate under powers delegated to it under Regulation 7 hereof shall forthwith be reported to the Senate by the person or body imposing them.

(ii) Any student on whom a fine or other penalty is imposed under Regulations 8, 9, 10, and 11 hereof or by any committee of the Senate under powers delegated under Regulation 7 may within seven (7) days of the imposition of that penalty appeal to the Senate against it. The Senate may hear and determine an appeal in such manner as it thinks proper.

(iii) Any student who suffers any penalty under these Regulations by a decision of the Executive of the Students' Association or of the Senate or whose appeal under the preceding clause of this regulation is dismissed by a decision of the Senate may within seven (7) days of that decision appeal against it to the Council whose decision shall be final.

14. Nothing in these regulations shall prejudice the rights and remedies of the University under the general law in respect of the misconduct or negligence of any student.
15. (a) No member of the Security Service enrolled as a student at the University shall carry out any inquiries into security matters within the precincts of the University.

(b) The proposed attendance of a member of the Security Service at the University shall be discussed between the Security Service and the University Authorities before his enrolment.

16. After the discussions contemplated in the preceding sub-clause 15(b) have been held, the Senate shall determine each year what special conditions (if any) as to attendance at classes shall apply to students who are members of the Security Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.
THE LIBRARY

The University Library was launched in 1884 with a grant of £37 for books which were to be 'bought in England and uniformly bound in full calf with golden lettering'. Since then the Library has grown into a collection of more than 250,000 volumes, excluding thousands of unbound periodicals, pamphlets and reprints. It has benefited by a number of valuable gifts, the most notable among them being the collection of books in Classics and Old Testament Literature bequeathed by the late Professor A. C. Paterson.

The University Library comprises the General Library, which occupies the south wing of the Princes Street building, staffed libraries at the Schools of Architecture, Engineering, Fine Arts, and Law and in Biological Sciences, and departmental reading rooms in a number of subjects. The General Library holds most of the books needed for undergraduate reading in arts and science subjects. It also contains more advanced material in Languages and Literature, both classical and modern, Philosophy, Psychology, Education, Accountancy, Mathematics, Anthropology, and History.

A fuller description of the Library, its services and organisation, can be found in the Library Guide, available to new students at the beginning of the year, or on request from the Lending Desk.

The Library is open on Sundays during the 3rd Term (9 a.m. — 5 p.m.) for study purposes but no lending services are available.

The Library is closed on Anniversary Day, Good Friday, Easter Saturday, Easter Monday, Easter Tuesday, Anzac Day, Queen's Birthday, and for three weeks from and including Christmas Eve.

The Reference Assistant is on duty between 9.30 a.m. and 5 p.m. on week-days only.

**Telephone:** 30-060. After 5 p.m.: 30-161.

**Borrowing**

All members of the University may use the Library. Teaching Staff and members of the University Council, enrolled students, and graduates may borrow from it. This privilege may be extended, in special cases, to other persons.

Books may be borrowed whenever the Library is open, but no books will be issued within 15 minutes of closing time. Borrowers should write their name and address clearly and legibly on the book card of each book and present book and card at the exit for stamping along with their identity card. The address should be that to which any notices should be sent. The desk assistant will stamp the book with the date on which it is to be returned.

Books on the open shelves which have book cards and date slips may be borrowed, usually, until the next end of term, but in some cases for three, seven or fourteen days only. Borrowers should always check the date stamped in the book by the desk assistant. Glass case books without 'not to be borrowed' labels may be borrowed for a fortnight only. Books located in storage can be made available at 24 hours' notice.

Departmental books must normally be borrowed direct from the departmental library and students not enrolled in that department must obtain a special form from the General Library. At certain times, e.g. during vacation when the departmental libraries are closed, such books may be borrowed through the General Library. All other materials must be used in the Library except that Honours Students have certain privileges and may
borrow open-shelf books without date slips or 'not to be borrowed' slips for one week; bound volumes of periodicals for two weeks; books on Inter-loan from other Libraries; theses for fourteen days.

Recalls and Fines. All books are subject to recall within 24 hours. Failure to respond to a recall notice within 24 hours incurs a fine of 25c. If a second or third notice is necessary, fines are increased accordingly. If all three notices are ignored, a disciplinary fine of up to $10 may be imposed.

Reserved books are issued for 3-day or 7-day periods, depending on the number of people waiting. If these books are kept beyond the date for return stamped on the date slip, a fine is automatically incurred, the limited-period stamp being considered the first recall notice.

Other books retained beyond the date for return stamped on the slip, may be charged at the rate of 5c per day, whether a notice has been sent or not.

The Library is under no obligation to notify borrowers when books are overdue, and a fine will still be charged when books are returned after the date stamped, even though no notice has been received.

Library fines amounting to $1 or more, bills and disciplinary fines, must be paid to the University Cashier at the Registry where receipts will be given. Fines of less than $1 must be paid at the Lending Desk at the Library. Unless fines are paid promptly, any of the following penalties may be imposed:

- refusal of terms,
- withholding of examination scripts,
- withdrawal of Library privileges,
- refusal of re-enrolment next session,
- disqualification from graduation.

Renewals. Borrowers who wish to renew a book for a further period, may apply by telephone or letter (giving author, title, and call-number on the spine of the book) or in person. Renewal will be refused if the book is reserved, and may be refused at the Librarian’s discretion. At the end of a term, all outstanding
books must be returned or presented for renewal at the Lending Desk. They cannot be renewed by letter or telephone at this time.

**Reservations.** Borrowers may reserve one book a day by filling in a reservation card at the Lending Desk. When the reserved book is available, this card will be placed in a rack outside the main door of the Library. Borrowers should present this card at the Lending Desk where the reserved book will be held for them for three days. For postal reservations please enquire at the desk.

**Desk Copies.** Some books, because of heavy demand, are kept behind the Lending Desk. These Desk Copies are available for one hour at a time, on surrender of the reader's identity card, and may not be removed from the Library. Failure to abide by this rule will incur a heavy penalty.

**Interlibrary Loan.** Teaching Staff and advanced students may borrow books from other libraries through the Interloan Assistant. Such books are subject to the conditions imposed by the lending library. Photo and micro copies of material which cannot be lent by other libraries, may also be ordered through the Interloan Assistant.

**Xerox Copying.** The Xerox 914 copier in Room 34 is available for private use between 9 a.m. and 5 p.m. (weekdays only) at a cost of 8c per sheet.

**Special Collections**

**Paterson Collection.** This collection of Greek and Latin classical works and books on religious history was bequeathed to the Library on condition that the books should not appear on the open shelves. Most of the books in the collection may be borrowed by making a request to a member of the Library staff.

**Gramophone Records.** A collection of records, mostly of classical music, but including some poetry and drama, is kept behind the Lending Desk. These are available to students, graduates, and staff members who pay an annual subscription. Current subscription rates are:—students $3, reduced to $2 for
enrolled music students; staff and graduate borrowers $4. Application to borrow should be made at the Lending Desk. The records are listed in the two final drawers of the Catalogue.

**Discipline**

Bags, satchels, or briefcases must be left in the racks provided outside the Library.

Removal of a book without having it properly issued will be punished by a disciplinary fine. In all cases of a disciplinary fine, the offender's name is reported to the Senate.

Under no circumstances must books be passed on to other students without being re-registered in the person's name. Fines for resulting inability to respond to recall or overdue notices will be charged to the student in whose name the book is issued.

Change of address should be notified immediately and any books on loan must be renewed and the new address put on the book card.

If a book is lost this should be reported immediately. Students who lose books are liable for the cost of replacement.

Books must not be marked in any way. If books are damaged, offenders will be charged with the cost of replacement or repair.

Library staff have the power to refuse to issue excessive numbers of books to one person.

Borrowers who take a book from the shelves, should not replace it after use, but leave it on a table for the Library staff to shelve.

Readers should not leave books and papers at tables when they go out of the Library for more than 15 minutes. Any reader unable to find a vacant place elsewhere is entitled to sit at any table where books and papers have been left by other readers absent for a time from the Library.

Quiet is necessary in the Library at all times. Talkers will be excluded.

Smoking is not allowed in the Library.

The Library Committee has authority to suspend library facilities in the case of any authorised borrower who persistently fails to comply with the rules of the Library.
COURSE REGULATIONS AND PRESCRIPTIONS
THE DEGREE OF BACHELOR OF ARTS

BA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

GENERAL PROVISIONS

1. Except as provided in the Admission ad eundem statum regulations a candidate for the Degree of Bachelor of Arts shall be matriculated, thereafter follow a course of study of not fewer than three years, keep terms in accordance with the Terms Regulations, comply with the provisions of the Examination Regulations, and pass the appropriate examinations.

2. The course of study for the degree shall consist of nine units, a unit being defined as one year's work in one of the subjects prescribed in these regulations.

3. (a) Every course of study shall include at least six units selected from Group A as defined in regulation 42.

(b) No course of study shall include more than seven units from any one of the following sub-groups of subjects within Group A, provided that in very special circumstances approved candidates may be allowed to include eight such units:

(i) Languages, including English and Maori Studies.

(iii) Mathematics, Music, Philosophy.

(c) Every course of study shall include at least one language unit* other than English selected from subgroup (i) of paragraph (b) above, provided that in special cases approved candidates may be exempted by the Senate from this requirement.

*Note: Candidates are strongly recommended to take the compulsory language unit in the first two years of their course. A candidate whose mother-tongue is not English is normally permitted to substitute English for the language requirement.

4. There shall normally be three stages in each subject, save where Special Units exist. Except as otherwise provided in these regulations and in the Terms Regulations, Stage II may be taken only after the subject has been passed at Stage I where that exists, and Stage III may be taken only after the subject has been passed at Stage II where that exists. Special Units may be taken only under such conditions as the Senate may determine for the personal course of study of each candidate.

5. Every course of study for the degree shall include at least four units higher than Stage I, selected from not fewer than two subjects, one at least of which shall be a Stage III unit.

6. (a) No course of study for the degree shall include more than five subjects, nor, save in special circumstances as decided by the Senate, fewer than four. Degree courses involving fewer than five subjects must be approved by the Senate upon the recommendation of the Heads of all Departments in which the candidate proposes to take advanced units.

(b) In any one year a candidate shall not offer or be credited with a pass in more than four units at one examination for this degree.

7. Before a student is admitted to Stage II in any subject the Senate may require him to have obtained a pass in at least one other subject.
8. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Science shall comply with such of the course regulations for that degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save when the Senate in individual cases allows otherwise.

9. No candidate may offer the subject Biology for this degree if he has already been credited with either Botany or Zoology for this degree or for the degree of Bachelor of Science; nor may a candidate who has been credited with Biology offer either Botany or Zoology.

10. A candidate with the permission of the Senate may enrol for Stage II of the subjects Chemistry, Mathematics, and Physics without having been credited with Stage I. If a candidate is credited with the Stage II unit he shall not also have the Stage I unit of the subject credited to his course. If the examiner certifies that the candidate though failing the Stage II unit, attained the standard of a pass at Stage I of the subject, the candidate shall have the Stage I unit of the subject credited to his course.

For the purposes of this Regulation Mathematics IA shall be regarded as the Stage I unit of the subject Mathematics.

11. A candidate with previous knowledge in the subject Chinese may be required by Senate to take Chinese II without having passed in Chinese I. If the candidate passes in Chinese II he shall be credited with Chinese II, but shall not be credited with Chinese I as a unit for any University degree or diploma. If the examiner certifies that the candidate though failing in Chinese II attained the standard of a pass in Chinese I, the candidate shall be credited with a pass in Chinese I.

12. A candidate shall not be enrolled in Economic History II unless he has passed Economics I.
13. For the purposes of regulation 6a Economics I is not defined as a subject when taken as a pre-requisite for Economic History II.

14. No candidate may offer the unit Economic History II for this degree if he has already been credited with Economics II and paper 13.21 was taken as one of the options in that unit under the regulations in force in 1963.

15. No candidate may offer the unit Economic History III for this degree if he had already been credited with Economics III and paper 13.32 was taken as one of the options in that unit under the regulations in force in 1963.

16. No candidate shall be enrolled in Economics III unless he has been credited with a pass in Pure Mathematics I or II.

17. No candidate may offer paper (c) 14.22 for Education II if he has been credited with, or has enrolled in, the subject Educational Tests, Measurement and Guidance for the Diploma in Education. As an alternative he shall present, subject to the approval of Senate, one of the papers 15.11 — 15.15 which has not been presented for the Diploma in Education.

18. (a) No candidate shall offer the unit English Special (Advanced) unless he has already been credited with a pass in English I.

(b) No candidate shall offer the option Old English in English III, paper (a) 18.30, if he has been previously credited with a pass in English Special (Advanced) or is concurrently enrolled for that unit.

19. No candidate shall offer the unit French III (Special) without the consent of the Head of the Department of Romance Languages. (At least a Grade B pass in French II or French III will normally be a pre-requisite.)
20. Students may not offer Geography III (Special) as part of their degree without the consent of the Head of the Department of Geography.

21. No candidate shall offer German III (Special) without the consent of the Head of the Department of Germanic Languages and Literature. (A Grade A or B pass in German II or German III will normally be a prerequisite.)

22. A candidate who has obtained a credit pass or better in the Entrance Scholarship Examination or an 'A' pass in the University Bursaries Examination and who has attained in the examination a mark of over 50% in the subject History may with the leave of the Senate enrol for and (if he obtains terms) be examined in either Asian History I or History of New Zealand, in lieu of History I: so that

(i) if he passes in the alternative chosen he may enrol for History II without enrolling for and passing in History I;

(ii) the alternative chosen shall not count as a subject for the purpose of regulation 6 (a).

23. No candidate may offer the papers 24.23, 24.24, 24.25 for History III if this option has been credited for History II.

24. No candidate who has been credited with a pass in History I under the regulations in force in 1962 may be credited with the History of New Zealand for the Degree of Bachelor of Arts.

25. Students may not offer History III (Special) without the consent of the Head of the Department of History. (At least a Grade B pass in History II or History III will normally be a pre-requisite.)

26. No candidate shall offer the subject The Legal System for this degree without the consent of the Dean of the Faculty of Law and the Head of each Department in which the candidate proposes to advance a subject to Stage III.
27. (a) Notwithstanding the provisions of Regulations 2, 3 (a) and (b), 5, and 6 (a), a candidate for this Degree

(i) who has been credited for this Degree with not less than six units, one being a stage III unit and two others being of a higher stage than stage I, and at least one being a language unit as prescribed in Regulation 3 (c), and

(ii) who has been credited for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) with any of the subjects to which this Regulation applies,

shall be entitled to be credited with not more than three of those subjects as a unit or units for this Degree as well as for the Degree of Bachelor of Laws or Bachelor of Laws (Honours).

(b) This Regulation shall apply to the following subjects

- The Legal System
- Comparative Law
- Constitutional Law
- Criminology
- International Law
- Jurisprudence
- Legal History

(c) The subjects so credited under this Regulation shall be admitted as additional cross-credits for the purpose of Regulation 10 (a) of the Enrolment and Course Regulations (General).

(d) A candidate who has completed or is completing his course for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) under the Regulations therefor published in the University of Auckland Calendar 1966, and who invokes this Regulation, may be credited with the subject Constitutional and Administrative Law in place of the subject Constitutional Law.

28. No candidate shall be enrolled in Maori Studies III unless he has been credited with a pass in Anthropology I.
29. (a) No candidate may be credited with both Mathematics IA and Mathematics IB as units for any University degree or diploma.

(b) No candidate may be credited with both Mathematics IB and Applied Mathematics I as units for any University degree or diploma.

(c) A candidate who has failed to pass in Mathematics IB may be credited with a pass in Mathematics IA if the examiner certifies that the candidate has attained a sufficient standard in the Pure Mathematical section of the examination.

(d) For the purpose of these regulations Mathematics IA shall be deemed to be the equivalent of the unit Pure Mathematics I as prescribed under the regulations in force in 1966.

30. (a) Except as provided in Regulation 32, Applied Mathematics III may be taken only after Applied Mathematics I has been passed.

(b) Except as provided in Regulation 10, Pure Mathematics II may be taken only when Mathematics IA or Mathematics IB has been passed.

31. (a) A candidate shall not be enrolled in Advanced Mathematics A unless he has passed in Pure Mathematics III and has passed or enrolled concurrently in either Applied Mathematics III or Statistical Mathematics III.

(b) A candidate who has been credited with Mathematics IA or Mathematics IB may not be credited with Advanced Mathematics A as a unit for any University degree or diploma.

(c) A candidate shall not offer Advanced Mathematics A without the consent of the Head of the Department of Mathematics.

(d) A candidate shall not be enrolled in Advanced Mathematics B unless he has been credited with or has enrolled concurrently in Advanced Mathematics A.

32. A candidate who has been credited with Mathematics IB or Statistical Mathematics II may with the permission of the Senate take Applied Mathematics
III without having passed in Applied Mathematics I. If the candidate passes in Applied Mathematics III, he shall be credited with Applied Mathematics III, but shall not be credited with Applied Mathematics I as a unit for any University degree or diploma.

33. (a) Candidates who propose to take only Music I may take either option (i) Style Analysis, or option (ii) Harmony, or both, in paper (b). Candidates who propose to advance to Music II must take option (ii) Harmony. Notwithstanding the requirements for candidates who propose to advance to Music II, the Senate may, on the recommendation of the Head of the Department, permit a candidate to advance to Music II after having been credited with a pass in option (i) only in paper (b) but (except by special permission of the Head of the Department) any such candidate shall be required to take option (ii) lectures and to satisfy the Head of the Department in a test thereon.

(b) No candidate shall be credited with a pass in either Music II (Special) or in Music III (Special) unless he has secured a pass mark in each of the papers he is required to present for the unit.

(c) Students may not offer Music II (Special) without the consent of the Head of the Department of Music, and it must be taken either concurrently with or after Music II. (At least a Grade B pass in Music I and a pass in the test for Preliminary Aural Training as prescribed for the Degree of Bachelor of Music will normally be a pre-requisite.)

(d) Students may not offer Music III (Special) without the consent of the Head of the Department of Music, and it must be taken either concurrently with or after Music III. (At least a Grade B pass in both Music II and Music II (Special) will normally be a pre-requisite.)

(e) i. Any candidate who has passed History of Musical Style 28.10, and Style Analysis 28.11 option (i), for the Executant Diploma in Music may be exempted from Music I for the Degree of Bachelor of Arts, subject to Regulation 10 of the Enrolment and
Course Regulations (General), but may not proceed to Music II.

ii. Any candidate who has passed History of Musical Style 28.10, and Harmony 28.11 option (ii), for the Executant Diploma in Music may be exempted from Music I for the Degree of Bachelor of Arts, subject to Regulation 10 of the Enrolment and Course Regulations (General), and may proceed to Music II.

Philosophy

34. No candidate may be credited with the same papers from 29.21 to 29.25 for both Philosophy II and Philosophy III.

Psychology

35. A candidate who has been credited with Psychology I and/or II for BSc may be exempted from the corresponding unit(s) in Psychology for BA. Any such units shall be treated as transferred units as provided in clause 10 of the Enrolment and Course Regulations (General).

36. No candidate may be enrolled in Psychology II unless he has been credited with a pass in Psychology IB. Notwithstanding this requirement the Senate may, on the recommendation of the Head of the Department, permit a candidate to advance to Psychology II after having taken Psychology IA.

PRACTICAL WORK

37. In each of the subjects Biology, and Geography every candidate shall comply with all requirements for practical work prescribed for those subjects. The practical work shall be assessed separately for each candidate. A pass in both the practical work and the written papers is necessary. The practical marks alone may, with the approval of the Senate, be credited to a subsequent year.

ORAL WORK

38. In each of the subjects Chinese, Indonesian, Japanese, and Maori Studies a candidate shall be required to pass in the oral work as well as the written papers.

39. Students not devoting their whole time to University work shall not be eligible in any one year for the award of terms in more than three units at Stage
I, nor in more than two units, one of which is at Stage II or III, save in exceptional circumstances as decided by the Senate.

ALTERATIONS TO COURSES

40. Candidates who wish to depart from their original choice of subjects in order to take Special Units may do so on such conditions as the Senate may direct. The Senate may vary the requirements of regulation 6 (a) for this purpose.

CHANGE IN REGULATIONS

41. (a) Candidates whose courses of study have been approved before the introduction of a Special Unit in any subject may take advantage of the new provisions in the subject concerned under such conditions as the Senate upon the recommendation of the Head of the Department may direct, provided that the provisions of Regulation 12 of the Enrolment and Course Regulations (General) are observed.
(b) Students working under the regulations governing the course for the BA Degree in force in 1962 may continue under those regulations (the ‘old regulations’) until and including the year 1965. After 1965 the course of every such student shall be governed by these regulations. The provisions of Regulation 12 of the Enrolment and Course Regulations (General) shall apply to every such student.

as prescribed for the Degree of Bachelor of Science
THE DEGREE OF MASTER OF ARTS AND MASTER OF ARTS WITH HONOURS

MA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

GENERAL PROVISIONS

1. Except as provided in the admission ad eundem statum regulations, a candidate for the Degree of Master of Arts shall before presenting himself for examination have —

(a) been admitted to the Degree of Bachelor of Arts,
(b) passed the subject he offers in its several stages as prescribed for the Degree of Bachelor of Arts, provided that in special cases recommended by the Head of the Department the Senate may exempt the candidate from this requirement; and
(c) kept terms at the Master's stage in the subject in which he proposes to present himself for examination,
(d) fulfilled the prerequisites prescribed by the Senate for the particular subjects (see regulations 10 to 21 below),
(e) complied with the provisions of the Examination Regulations.

2. The Senate may require candidates for MA and Honours not devoting their full time to University work to attend a prescribed course of studies for two years.

3. A candidate presenting subject 14, Languages and Literature, shall satisfy the requirements of regulation 1 (b) and 1 (c) in respect of each of the languages in his course. A candidate presenting subject 16, Mathematics, shall satisfy the requirements of regulation 1 (b) in respect of Mathematics and either Applied Mathematics or Statistical Mathematics.
4. A candidate shall present himself for and pass the examination in one of the subjects prescribed in regulation 23.

5. Notwithstanding anything in Regulation 4, a candidate for this Degree may with the permission of the Senate take one Stage III or one Master's paper or one Stage III and one Master's paper or two Master's papers in a subject other than the one in which he is taking his degree, where such papers are related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the degree is being taken.

6. Where a thesis is required the following conditions shall apply:

   (a) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch of the subject; or with the approval of the Senate shall consist of a review of the literature of some special problem, which may be combined with the repetition of some standard investigation on an aspect of this problem.

   (b) In the case of a thesis recording laboratory work, a certificate shall be supplied to the Registrar by the supervisor stating that laboratory work has been carried out within the University.

   (c) Subject to the provisions of Clauses (f) and (g) of this Regulation the candidate may present his thesis in the year in which he takes his examination or with the consent of the Head of the Department concerned, in any subsequent year.

   (d) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or at a subsequent date if so arranged with the Head of his Department. The Registrar shall hand the thesis to the Head of the Department concerned.

   (e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candi-
date, who may be permitted to revise it and to re-submit it by a later date to be specified by the examiner.

(f) The thesis must be presented within three years of the year in which the papers are presented, provided that this period may in special cases be extended by the Senate, and provided further that this provision shall not apply to any candidate who completed the papers prior to the end of 1963.

(g) Any candidate who completed the papers prior to the end of 1963 must present his thesis before the end of 1966, provided that this period may in special cases be extended by the Senate.

7. (a) A candidate in subject 11, History, may, with the approval of the Head of the Department, present a thesis in lieu of papers 24.40 and 24.41.

(b) A candidate presenting papers 24.40 and 24.41 shall do so in the same year as he presents his other papers for subject 11, History, or in the year following.

8. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the scripts in the first year in which a candidate sits an examination for the degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory, provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness (certified as under the aegrotat regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent written examination and still be eligible for the award of Honours, subject to the provisions of sub-clause (c) hereof.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing the final subject of his Bachelor's Degree, provided that this period may in special cases be extended by the
Senate. For this purpose the academic year is regarded as beginning on 1 March.

9. A candidate shall not present for this Degree a subject in which he has already passed for the Degree of Master of Commerce, or for the Degree of Master of Science, or as a principal subject for the Degree of Bachelor of Science (Honours).

10. A candidate who has been credited with a pass in Anthropology II and Maori Studies III as defined for the Degree of Bachelor of Arts may, on the recommendation of the Head of the Department of Anthropology, be granted special permission by Senate under Regulation 1(b) to present himself for examination in subject 1, Anthropology.

11. Except by special permission of the Senate which will be granted only in the most exceptional circumstances a candidate shall not present himself for examination in English for subject 6, English, unless he has previously been credited with a pass in Stage II of a language other than English, and also with English Special (Advanced) as defined for the Degree of Bachelor of Arts.

12. A candidate shall not present himself for examination in Latin for subject 14, Languages and Literature, or in subject 15, Latin, unless previously he has been credited with
   (a) a pass in Greek I,
   (b) either a pass in Stage III of a language other than Latin or passes in Stage II of one language and in Stage I of another language other than Latin, as defined for the Degree of Bachelor of Arts.

13. A candidate shall not present himself for examination in Greek for subject 14, Languages and Literature, or in subject 10, Greek, unless previously he has been credited with a pass in Stage III of a language other than Greek or with passes in Stage II of one language and in Stage I of another language, other than Greek, as defined for the Degree of Bachelor of Arts.
14. (a) A candidate shall not present himself for examination in French for subjects 7 or 14, Italian for subjects 13 or 14, or Spanish for subjects 21 or 14, unless

(i) he has previously been credited with three or, in exceptional circumstances and with the special approval of the Senate, two units in a language or languages as defined for the Degree of Bachelor of Arts other than the language to be presented for this Degree, at least one of such units being at Stage II; and

(ii) he has either passed in an examination in Latin at a standard not lower than University Entrance or satisfied the Head of the Department of Romance Languages that his knowledge of Latin is adequate for the intelligent study of the development of the language to be presented.

(b) No candidate shall offer for the subjects 7, French, or 14, Languages and Literature, a paper listed in column A hereof if he has been credited, for French III (Special) for the Degree of Bachelor of Arts, with the corresponding paper listed in column B: for which purpose:

16. A candidate shall not present himself for examination in Russian for subject 14, Languages and Literature, or in subject 20, Russian, unless previously he has been credited with a pass in Stage III of a language other than Russian or with passes in Stage II of one language and in Stage I of another language, other than Russian as defined for the Degree of Bachelor of Arts.

17. Except by special permission of Senate a candidate shall not present himself for examination in subject 17, Philosophy, unless he has passed in Philosophy III (Special) as for BA.

18. A candidate shall not present himself for examination in subject 12, History and Literature of Music, unless he has previously (i) passed Music III and Music III (Special) as for BA; (ii) furnished evidence of proficiency as an executant satisfactory to the Head of the Music Department; (iii) furnished evidence of ability to read in an approved foreign language.

19. Except by special permission of Senate a candidate shall not present himself for examination in subject 8, Geography, unless he has passed in Geography III (Special) as defined for the Degree of Bachelor of Arts;

Provided that a candidate may offer Geography if in place of Geography III (Special) he has passed at Stage III in an Arts subject approved by the Senate.
20. Except by special permission of the Senate a candidate shall not present himself for examination in subject 15, Psychology, unless he has been credited with a pass in Psychology III (Special) as defined for the Degree of Bachelor of Arts.

21. A candidate presenting himself for examination in any subject which is also a subject of examination for the Degree of Master of Science shall comply with such of the course regulations for that degree relating to prerequisites, combinations of subjects and practical work, as are applicable to that subject.

22. The personal course of study of every candidate shall require the approval of the Senate. The decision of the Senate on any question relating to the personal course of study of a candidate shall be subject to an appeal to the Council.

23. The subjects of examination for the degree are the following: (The prescriptions are defined elsewhere in this Calendar.)

(1) **ANTHROPOLOGY**

(Four papers and a thesis which shall count as four papers):

DEGREE OF DOCTOR OF PHILOSOPHY
PhD

Regulations for this degree are printed elsewhere in the Calendar.
THE DEGREE OF DOCTOR OF LITERATURE

LittD

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Literature shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Literature until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Literature shall be awarded for an original contribution (or contributions) of special excellence to linguistic, literary, philosophical, social or historical knowledge.

4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

(a) Three copies of the work to be examined;
(b) A statutory declaration which shall —
   (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
   (ii) state what portion (if any) of the work submitted has been previously presented for

126
a degree or diploma of the University of Auckland or any other University; and

(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

EXAMINATION PROCEDURE

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall —

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and

(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may —

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with the examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discre-
tion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.

(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

(a) to report independently on the quality of the work and its value as a significant contribution to learning; and

(b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A resubmission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

**PRELIMINARY RUSSIAN**

This course (two hours per week) is designed for students who intend to present Russian I in a subsequent year.

**SCIENCE RUSSIAN**

This course (two hours per week) is designed for science students who intend to sit for the Foreign Language Reading Examination in Russian (See Degree Regulations for MSc).

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. The Diploma in Education shall be granted to any candidate who:

   (i) Is a graduate of a University in New Zealand or is admitted to the status of a graduate and has kept terms and passed the University examination in Education I as defined for BA,

   or has matriculated and kept terms and passed the University examinations in five units including Education I,

   or is the holder of an approved University diploma and has kept terms and passed the University examinations in Education I. (Approved diplomas at present are the Diplomas in Fine Arts and Music, and the Diplomas in Home Science and Physical Education of the University of Otago. In special circumstances the Senate may permit a candidate who is the holder of a diploma other than those listed above, to undertake the course.)

   (ii) Has kept terms and passed the University examinations in the subject Educational Tests, Measurement and Guidance, and three other subjects selected from those listed in Regulation 3 hereof, except that a candidate who has passed the University examinations in the subject Education II shall substitute one of the other papers for Paper 14.22.

   (iii) Has complied with the provisions of the Examination Regulations.

   (iv) Has presented a certificate from the Professor of Education that he has carried out an original investigation on an approved topic provided that in very exceptional circumstances an additional paper may be substituted for the original investigation.
The results of the investigation must be submitted to the Registrar as follows:

(a) by 1 November in the year in which it is presented or at a subsequent date if so arranged with the Professor of Education;
(b) within three years of the year in which the requirements of Clause (ii) of this regulation were completed, provided that this period may in special cases be extended by the Senate, and provided further that this provision shall not apply to any candidate who completed those requirements prior to the end of 1963;
(c) any candidate who completed those requirements prior to the end of 1963 must submit the results of the investigation before the end of 1966, provided that this period may in special cases be extended by the Senate.

(v) Has presented to the Professor of Education a certificate from an approved authority indicating that he has been engaged for at least two years of full-time work in the practice of teaching, or in educational work of a related character, such as vocational guidance, child guidance, child welfare, or social work, and has shown efficiency therein.

2. A graduate, or the holder of an approved diploma, or an undergraduate candidate with five units which do not include Education I, may present himself for examination in Education I in the year in which he first presents himself for examination in one or more of the subjects listed in Regulation 3.

3. The subjects of examination for the Diploma shall be:

Educational Tests, Measurement and Guidance as for Education II, 14.22
Principles of Curriculum Construction 15.10
History of Educational Practice 15.11
Research in School Subjects: A. Language Arts 15.12
Research in School Subjects: B. Science and Arithmetic 15.13
Studies in Secondary Education 15.14
The Psychology of Adolescence 15.15
DEPARTMENT OF EDUCATION

PRESCRIPTIONS FOR DIPLOMA IN EDUCATION

Educational Tests, Measurement and Guidance (one paper).

As for Education II, paper 14.22. The assessment of human characteristics, especially as applied to educational and vocational guidance. Elementary statistical methods.

DIPLOMA IN EDUCATIONAL PSYCHOLOGY
DipEdPsych

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. The Diploma in Educational Psychology shall be granted to any candidate who has:

   (i) Satisfied the requirements for admission to the course as defined in Regulation 2 hereof; and

   (ii) Pursued a course of full-time study and in-service training for a period of not less than two years as set out in Regulation 3 hereof; and

   (iii) Kept terms in accordance with the Terms Regulations in the subjects as set out in Regulation 3 (i), and passed the University examinations therein; complied with the provisions of the Examination Regulations; and

   (iv) Satisfied the requirements of the course as prescribed in Regulation 3 (ii).

2. In order to be admitted to the course, a candidate shall:

   (i) Have obtained a pass in the papers of the MA degree or an approved equivalent in either Education or Psychology; and

   (ii) Satisfy the Senate that he is likely to benefit from the training provided by the course; and

   (iii) Enrol for each year of the course in accordance with the Enrolment and Course Regulations (General).

3. The course of study for the Diploma in Educational Psychology shall consist of the following two parts:

   (i) Part One (First Year)

Candidates are expected to present at the annual examinations written papers in the following subjects:

(1) Developmental and Educational Psychology 16.10, 16.11

224
(2) The Psychology and Education of Atypical Children 16.12, 16.13. The candidate, before being granted terms, must have carried out observational visits as prescribed.

(3) Theory and Practice of Educational Tests, Measurement and Research Design 16.14. The candidate, before being granted terms, must have satisfactorily completed a prescribed course of practical work.

(4) Case Study Techniques and Educational Counselling 16.15. The candidate, before being granted terms, must have satisfactorily completed a prescribed course of case work.

Note: Candidates may be required to attend additional courses in the Departments of Education and/or Psychology as indicated by the content of their degrees, and/or to enrol for the MA thesis.

(ii) Part Two (Second Year)

(1) Supervised participation in the work of approved psychological and special educational services.

(2) The presentation of a written report based on systematic study of the literature bearing upon a relevant special topic approved by the Professor of Education, and submitted to him not later than 1 November.

(3) A comprehensive oral examination covering the work of the whole course.

4. Subject to the approval of the Senate, which will be granted only in exceptional circumstances, exemption may be granted from any of the requirements under Regulations 1 to 3.

Note: Candidates should consult the Professor of Education early in the year regarding textbooks for the course.
The Department of University Extension offers tutorial classes in academic subjects in the city of Auckland and in centres of population throughout the Auckland University district. These classes usually include subjects drawn from the following disciplines.

- Anthropology
- Arts
- Commerce
- Economics
- Education
- Geography
- History
- Languages
- Literature
- Music
- Philosophy
- Psychology
- Religion
- Sciences

The Department of University Extension is responsible to the Senate through the Director of University Extension. The full-time teaching staff constitute a Board of Studies. This Board, after seeking the advice of voluntary associations interested in extension education and the approval of academic committees on the appropriateness of the suggested schedule of classes, will issue programmes of study for extension classes or groups.

**CERTIFICATE IN CRIMINOLOGICAL STUDIES**

This course of study is devised to meet the needs of those concerned to further their education in criminological studies. The course is held over one academic year and requires attendance at four lectures and tutorials weekly.

The subjects comprising the course are as follows. Each subject is examined in a final three-hour paper.

1. Society and Crime
2. The Personality of the Delinquent
3. The Nature and Purpose of Punishment
4. The Prevention of Crime

**CERTIFICATE IN SOCIAL STUDIES**

This is a course of study extending over two years of twenty-seven weeks in each year. The class meets for two hours on Tuesday and Thursday evenings for the first year subjects at a time to be arranged, and on Mondays and Wednesday evenings for the second year subjects.

Second year: Sociology, three terms: Introduction to Statistics, 1st term; Elements of law, 2nd term; Social Services, 3rd term.

Those interested should communicate with the Director of University Extension.

Conferences, Seminars and Week-end Schools

The University Extension Department will arrange, in association with other departments of the University, lecture courses, conferences or schools or seminars which will allow professional, scientific and technological workers the opportunity to renew and refresh their vocational education.
THE DEGREE OF BACHELOR OF SCIENCE

BSc

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Degree of Bachelor of Science shall follow a course of study of not fewer than three years, being

EITHER (a) the General Course governed by Regulations 3 to 24 inclusive of these Regulations or

(b) the Course in Human Biology, governed by Regulations 25-30 inclusive of these Regulations.

2. In these Regulations:

(a) a ‘unit’ means one year’s work in a subject

(b) units are classified in stages by the numerals I, II, and III except where shown otherwise in Regulations 24 and 30

(c) passing in a part, or unit, or subject of a course includes being credited with a pass in that part, or unit, or subject.

GENERAL COURSE

3. The General Course shall consist of eight units from those prescribed in Regulation 25, and shall include

(a) at least three units higher than Stage I, one at least of which shall be a Stage III unit, or a Stage IIIA unit where such a unit exists, provided that for the purpose of this requirement Stage IIIB units and Radio Physics III, respectively shall count as units higher than Stage I but shall not count as Stage III units, and
(b) at least four units chosen from the subjects Botany, Chemistry, Geology, Mathematics, Physics, and Zoology, one unit of which shall be either Chemistry or Physics, provided that, in special circumstances, the Senate may vary this requirement as it thinks fit.

4. Notwithstanding anything in Regulations 1 and 3 hereof a candidate who has qualified with outstanding merit for the New Zealand Certificate in Science (Chemistry) may be admitted by the Senate to the General Course with exemption from Chemistry I and two other unspecified Stage I units. To complete the requirements for the General Course any candidate so admitted shall be required to pass in Physics I, Mathematics IA or Mathematics IB, Chemistry II, and Chemistry IIIA, and one other unit at a level above Stage I.

Note: Any such candidate who has not passed the University Entrance Examination must apply for admission to the University under the Provisional Admission and Special Admission Regulations.

5. (a) Except as provided in Regulation 18 hereof, a candidate for the General Course shall not enrol for

(i) Stage II of a subject unless he has passed in at least three Stage I units, of which one shall be Stage I of that subject where that stage exists

(ii) Stage III, Stage IIIA or Stage IIIB of a subject, unless he has passed in Stage II of that subject where that stage exists, or unless he has passed in Stage I of that subject where that stage exists and Stage II does not provided that a candidate shall not enrol in

(i) Pure Mathematics II unless he has passed either in Mathematics IA or in Mathematics IB

(ii) Physics II unless he has passed in Physics IB.
(b) In subjects where both Stage IIIA and Stage IIIB are listed as units for the General Course a candidate shall not enrol in Stage IIIB unless he has passed or enrolled concurrently in Stage IIIA.

(c) A candidate enrolled in a Stage III unit in which practical work is required shall not in the same year enrol in more than one other Stage III or Stage II unit in which practical work is required. For the purpose of this sub-clause Stage III includes Stage IIIA and Stage IIIB.

6. A candidate shall not enrol in any one year in more than four units of the General Course.

7. A candidate shall not enrol in Botany IIIB unless he has
   (a) passed in Chemistry I; and
   (b) passed in a Stage II unit other than Botany II.

8. A candidate shall not enrol in Cell Biology III unless he has
   (a) passed in Chemistry II; and
   (b) passed in a Stage II unit other than Chemistry II; and
   (c) passed in at least one other unit in Botany or Zoology.

9. (a) A candidate shall not enrol in
   (i) Chemistry IIIA unless he has passed in six units of the General Course including Chemistry I and Chemistry II
   (ii) Advanced Chemistry unless he has passed in Chemistry IIIA and has passed or enrolled concurrently in Chemistry IIIB.
   (b) A candidate shall not be credited with both Advanced Chemistry and Chemistry I.

10. A candidate shall not enrol in Geography IIIB without the leave of the Head of the Department of Geography.
11. A candidate shall not enrol in Geology IIIA unless he has passed in Chemistry I.

12. A candidate shall not enrol in
   (a) Applied Mathematics III unless he has passed in either Pure Mathematics II or Engineering Mathematics II
   (b) Advanced Mathematics B unless he has passed or enrolled concurrently in Advanced Mathematics A
   (c) Statistical Mathematics II unless he has passed or enrolled concurrently in Pure Mathematics II
   (d) Statistical Mathematics III unless he has passed or enrolled concurrently in Pure Mathematics III.

13. (a) A candidate shall not be credited with both Mathematics IA and Mathematics IB, or with both Mathematics IB and Applied Mathematics I.
   (b) For the purpose of this Regulation Mathematics IA shall be deemed to include Pure Mathematics I as prescribed under the Regulations for the Degree of Bachelor of Science in force in 1966.
   (c) A candidate who has failed to pass in Mathematics IB may be credited with a pass in Mathematics IA if the examiner certifies that the candidate has attained a sufficient standard in the Pure Mathematical section of the Examination.

14. (a) A candidate shall not enrol in Advanced Mathematics A unless he has obtained the leave of the Head of the Department of Mathematics, and unless he has passed in Pure Mathematics III and has passed or enrolled concurrently in either Applied Mathematics III or Statistical Mathematics III provided that a candidate who has passed in Ancillary Mathematics may with the leave of the Head of the Department of Mathematics enrol in Advanced Mathematics A if he (i) has obtained or enrolled concurrently for a Certificate of Proficiency in Pure
Mathematics III and (ii) either has passed or enrolled concurrently in Applied Mathematics III or Statistical Mathematics III or has obtained or enrolled concurrently for a Certificate of Proficiency in Applied Mathematics III.

(b) A candidate who has passed in Mathematics IA or Mathematics IB shall not be credited with Advanced Mathematics A.

15. (a) A candidate shall not enrol in Ancillary Mathematics unless he has passed in Pure Mathematics II.

(b) A candidate shall not be credited with both Ancillary Mathematics and Pure Mathematics III. A candidate who has passed in Ancillary Mathematics may obtain a Certificate of Proficiency in Pure Mathematics III by passing in the paper or papers of Pure Mathematics III in which he has not passed for Ancillary Mathematics.

(c) A candidate shall be entitled to be credited with both Ancillary Mathematics and Applied Mathematics III if he passes at the one examination in six papers chosen with the leave of the Head of the Department of Mathematics from the papers prescribed for Pure Mathematics III and Applied Mathematics III; provided however that if he has already been credited with one of the units Ancillary Mathematics or Applied Mathematics III he shall be entitled to be credited with the other of those units if he passes at the one examination in three papers chosen as above-mentioned in which he has not passed for Ancillary Mathematics or Applied Mathematics III.

(d) Except as provided in Paragraph (c) of this Regulation, a candidate shall not be credited with both Ancillary Mathematics and Applied Mathematics III. A candidate who has passed in Ancillary Mathematics may obtain a Certificate of Proficiency in Applied Mathematics III and for this purpose shall
be exempted from passing in the paper or papers of Applied Mathematics III in which he has passed for Ancillary Mathematics.

16. A candidate shall not enrol in
   (a) Physics II unless he has passed in either Mathematics IA or Mathematics IB
   (b) Physics IIIA unless he has passed in Pure Mathematics II
   (c) Radio Physics III unless he has passed or enrolled concurrently in Physics IIIA.

17. A candidate shall not enrol in
   (a) Zoology II unless he has passed in Chemistry I or Physics IA or Physics IB
   (b) Zoology IIIB unless he has passed in a Stage II unit other than Zoology II.

18. Notwithstanding anything in Regulation 5 hereof
   (a) a candidate may with the leave of the Senate enrol for Chemistry II without having passed in Chemistry I, Physics II without having passed in Physics IB, and Pure Mathematics II without having passed in Mathematics IA or IB: provided that
      (i) if he passes in any such Stage II unit having enrolled in it under this Regulation, he shall not be credited also with a Stage I unit of the same subject
      (ii) if the examiner certifies that the candidate, though failing the Stage II unit, attained the standard of a pass in (as the case may be) Chemistry I, Physics IB, or Mathematics IA, the candidate shall be credited with Chemistry I, Physics IB, or Mathematics IA
   (b) A candidate who has passed in Mathematics IB or in Statistical Mathematics II may with the leave of the Senate enrol in Applied Mathematics III without having passed in Applied Mathematics I: provided that if having so enrolled he passes in Applied Mathematics III he shall not also be credited with Applied Mathematics I.
19. (a) A candidate who has passed the Intermediate Examination for the Degree of Bachelor of Engineering, may, subject otherwise to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), be credited with such unit or units for the General Course.

(b) A candidate who has passed in Engineering Mathematics II and Engineering Mathematics III for the Degree of Bachelor of Engineering shall, subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), be exempted from Pure Mathematics II for the General Course.

(c) A candidate who has passed in Pure Mathematics II for the Degree of Bachelor of Engineering without having passed Mathematics IA or IB and who qualifies for the exemption referred to in sub-clause (b) of this Regulation shall be exempted from Mathematics IA in lieu of Pure Mathematics II.

20. A candidate who has passed in Psychology IA or IB and Psychology II for the Degree of Bachelor of Arts or in any of those units and has performed such additional laboratory work as the Head of the Department of Psychology directs, may, subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), be exempted from the corresponding unit or units in Psychology for the General Course.

21. A candidate who holds the Diploma in Optometry may be credited with the units Psychology I and Psychology II for the General Course in addition to any units (or subjects) which he may be entitled to transfer by way of cross-credit under Regulation 10 of the Enrolment and Course Regulations (General).

22. (a) The Senate may in such exceptional cases as it thinks fit approve a personal course of study which does not conform to the foregoing Regulations.

(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.
23. A candidate in any unit of the subjects Botany, Cell Biology, Chemistry, Geography, Geology, Psychology, and Zoology, shall be required to do and pass in such practical work as the Head of the Department may prescribe (as well as to pass the written examinations) provided that the candidate's mark in the practical work may with the leave of the Senate be carried forward to a subsequent year.

Note: (i) Starred units (*) will not be taught during the current Calendar year.
(ii) The prescriptions are defined elsewhere in the Calendar.

COURSE IN HUMAN BIOLOGY

ADMISSION
25. (a) Admission to the Course in Human Biology shall be at the discretion of the Senate. Application for admission to the course shall be made to the Registrar in writing before 1 August or such other date as the Senate may determine, of the year preceding that in which the applicant proposes to enrol.

(b) Admission to Part I of the Course shall be granted or withheld upon a consideration of the past performance of the applicant at school and in public examinations, and upon an interview where this is required.

(c) In exceptional circumstances as the Senate may approve or under the Admission Ad Eundem Statum Regulations, admission may be granted to an applicant to Part II or Part III.

26. The Course in Human Biology shall consist of three Parts. A candidate shall be required to pass as a whole each Part of the course.

27. Except as provided in Regulation 25 (c) hereof no candidate shall be permitted to enrol in any unit or subject of Part II of the Course until he has passed Part I, or in any unit or subject of Part III until he has passed Part II.
28. A candidate shall carry out to the satisfaction of the Senate such practical work in each Part of the course as may be required.

29. The subjects and units prescribed for examination for the Course in Human Biology with the prescription numbers relative to each are the following:

Subjects, Units, and Prescription Numbers

**PART I**

Biology 60.10, 60.11, 60.12
Physico-Chemistry 60.20, 60.21, 60.22
Behavioural Science I 60.30

**PART II**

* General Biology 61.10
* Mammalian Form and Function 61.20, 61.21, 61.22
* Biological Chemistry 61.30, 61.31
* Behavioural Science II 61.40

**PART III**

* Body Function and Chemical Pathology 62.10, 62.11, 62.12
* Regional Anatomy 62.20
* General Pathology 62.30
* Behavioural Science III 62.40, 62.41

30. With the leave of the Senate a candidate not proceeding to a degree in medicine may in Part III substitute one advanced unit in a biological subject prescribed for the General Course for the Degree of Bachelor of Science for such portion of the work above prescribed as the Senate may deem to be equivalent to that work.

*Note:* (i) Starred units (*) will not be taught during the current Calendar year.

(ii) The prescriptions are defined elsewhere in the Calendar.
FOREIGN LANGUAGE READING
EXAMINATION

Every candidate intending to proceed to the MSc degree is strongly advised to take the course for the Foreign Language Reading Examination before completing the BSc degree. The ability to read scientific works in a foreign language is necessary for reading literature relating to the thesis. A pass in the Foreign Language Reading Examination is also required as part of the BSc(Hons) Degree. The regulations concerning this Examination are contained in the Degree Regulations for MSc and BSc(Hons).
THE DEGREE OF BACHELOR OF SCIENCE (HONOURS)

BSc(Hons)

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. The Degree may be awarded in each of the following Honours Schools:
   - Botany
   - Cell Biology
   - Geology
   - Physics
   - Zoology

2. In each Honours School a candidate's course for the Degree shall comprise:
   (a) such pre-requisites, being units prescribed for the Degree of Bachelor of Science, and
   (b) such Honours Parts (being Parts II, III and IV, Parts III and IV, or Part IV as the case may be) and
   (c) such subsidiary subjects as may be required and prescribed in that Honours School under Regulation 15:

provided that

(i) except where the Senate in its discretion otherwise permits, the number of pre-requisite units shall be not fewer than three in a case of entry into an Honours School at the end of the first year after matriculation and not fewer than six in a case of entry at the end of the second such year;

(ii) in the case of any pre-requisite subject and with the approval of the Senate, if the candidate has been permitted to enrol for and has passed at Stage II without having
passed at Stage I, Stage II may be substituted for Stage I, and Stage III may then be substituted for Stage II;

(iii) a candidate shall be required to pass or be credited with a pass in all pre-requisite subjects before he is admitted to the Honours School.

3. Except where otherwise provided in Regulation 15, and except in the case of any subject in which no practical work is required or prescribed, each unit or course of study prescribed for the Degree shall include examinations comprising written papers and practical work in both of which a candidate shall be required to pass.

4. No candidate shall be admitted to an Honours School without the approval of the Head of Department of that School and of the Senate. Such approval shall be granted or withheld upon a consideration of the candidate's performance:

(i) in the Entrance Scholarships Examination, if the Honours School to which the candidate seeks admission includes a special course at first year level, or

(ii) in the courses of University study already pursued by the candidate and particularly in the units required as pre-requisites to that Honours School.

5. A candidate may withdraw from the Honours School and be granted such credits and exemptions for units for the Degree of Bachelor of Science as the Senate shall determine.

6. (a) A candidate shall be required to pass as a whole each Part of his Honours course so that his performance in all the units comprising this part shall be considered: provided that a candidate who has failed to pass an Honours Part as a whole may in such exceptional circumstances as the Senate approves be credited with a unit or units of that Part and per-
mitted in a subsequent year to present the unit or units not so credited, together with (if the Senate permits) a unit or units of the next succeeding Part. The candidate shall then be required in that year to pass as a whole in all the units so presented upon the same conditions as those herein prescribed.

(b) In this regulation 'unit' includes any course prescribed for an Honours Part.

7. Except where the Senate otherwise permits, a candidate shall sit his final examinations within four years of his matriculation.

8. A candidate who, on the results of his examination, does not reach the standard required in the Honours School in which he is enrolled, shall be excluded by the Senate from the Honours School; but he may be granted such credits and exemptions for units for the Degree of Bachelor of Science as the Senate shall determine.

9. The Senate may permit a candidate to take an examination in an Honours unit before entry into an Honours School. If the candidate fails to pass that examination he may be granted such credits and exemptions for units for the Degree of Bachelor of Science as the Senate shall determine.

10. The Degree of Bachelor of Science (Honours) may be awarded with First Class or Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division. The class of Honours awarded shall be determined primarily on the performance of the candidate in the examinations in his final year but account may be taken of his work throughout his course.

11. The Senate may determine in respect of any candidate who fails to qualify for the Degree that he be awarded the Degree of Bachelor of Science or be credited with units towards that Degree or be
credited with the Degree of Bachelor of Science together with appropriate credits towards the Degree of Master of Science.

12. The Senate may, on written application by a candidate for the Degree of Bachelor of Science and without payment of a fee, grant him permission to transfer to a course under these Regulations and allow him to be credited with a pass in such units or subjects as the Senate shall determine.

13. A candidate shall not be admitted to the Degree unless

(a) he has been credited with a pass in a unit of a foreign language approved for this purpose by the Senate, or

(b) he has been credited with a pass in a foreign language reading examination

(i) prescribed for the purpose of this Regulation, and

(ii) approved by the Head of the Department of the Honours Subject which the candidate is presenting for this Degree.

14. A candidate whose mother-tongue is not English may on application and with the approval of Senate be exempted from the provisions of Regulation 13. Application must be made to the Registrar in writing and if such application is granted, exemption will be subject to the provisions of Regulation 10 (b) (ii) of the Enrolment and Course Regulations (General).

15. Subject to the provisos to Regulation 2, the Honours courses with subject and units of examination are as follows:

Admission to the Honours School in Botany shall be at the end of the first year after matriculation provided that admission may be permitted at the end of the second year after matriculation.
Pre-requisites

(a) For a candidate seeking admission to the Honours School at the end of his first year after matriculation:

Botany I,
Chemistry I,

and one other of the following units:—

Geology I, Mathematics IA or IB (or Pure Mathematics II), Physics IA or IB, Zoology I.

(b) For a candidate seeking admission to the Honours School at the end of his second year after matriculation:

Six units including Botany II, Chemistry I, and one other Stage II unit in the following subjects:—

Chemistry, Geology, Mathematics, Physics, Zoology, together with such part (if any) of the course for Botany Honours Part II as the Head of the Department may require.

Botany Honours Part II (Six Papers, together with practical work)

The course shall be that prescribed for Botany II for the Degree of Bachelor of Science (papers 6.20, 6.21) together with (i) a special additional course in Botany (paper 6.22) (ii) Chemistry for Biology II (paper 8.28) (iii) either an approved unit prescribed for the degree of Bachelor of Science or two special courses from those listed below, and (iv) such practical work as the Head of the Department requires.

Botany Honours Part III (Five Papers, together with practical work)

The course shall be that prescribed for Botany IIIA for the degree of Bachelor of Science (papers 6.30, 6.31) together with (i) a special additional course in Botany (paper 6.32) (ii) either an approved unit for the degree of Bachelor of Science or two approved special courses, and (iii) such practical work as the Head of the Department requires.
Special Courses for Botany II and III
Animal Ecology and Physiology  38.25
Biometry  27.20
Paleontology and Historical Geology  21.25
Physical Geography  20.20
*Chemistry for Biology III  8.38

*Botany Honours Part III only.

NOTE: The choice of subjects permitted will depend upon the botanical discipline in which the student intends to specialise.

Botany Honours Part IV (Three papers, together with practical work and dissertation).

The student shall follow one year's course of study approved by the Head of the Department of Botany and shall investigate one or more approved topics. The examination shall consist of three papers (6.45, 6.46, 6.47) and a report or reports embodying the results of the investigation which shall be equivalent to one paper. The report or reports shall be submitted by the beginning of the third term.

NOTE: The language for the Foreign Language Reading Examination will be German, Russian, or other language approved by Senate and this examination should be taken as early as possible.

Admission to the Honours School in Cell Biology shall be at the end of the second year after matriculation, except that in exceptional cases admission may be granted at the end of the third year after matriculation.

Prerequisites
Chemistry II, or Chemistry for Biology II, and four other units (including a second Stage II unit) chosen from Botany I, Botany II, Physics I, Physics II, Zoology I, Zoology II, Biochemistry II, and either Mathematics IA, Mathematics IB, Pure Mathematics II or any other unit approved by the Head of the Department.
*Cell Biology Honours Part III (Five papers, together with practical work).

The course shall be that prescribed for Cell Biology III considered in greater detail (four papers, 40.35, 40.36, 40.37, 40.38) and practical work together with Chemistry for Biology III (one paper, 8.38).

Cell Biology Honours Part IV (Four papers, together with practical work and a research report).

The student shall follow one year’s course of study approved by the Head of the Department of Cell Biology, and carry out an original investigation on an approved topic. The examination shall consist of four papers (40.45, 40.46, 40.47, 40.48) and a research report embodying the results of the investigation which shall be equivalent to one paper. The research report shall be delivered to the Registrar on the first Monday of the third term.

NOTE: The language for the Foreign Language Reading Examination will be French, German, Italian, Russian, or other language approved by the Senate. This examination should be taken as early as possible.

*This course will not be offered in 1968.

Admission to the Honours School in Geology shall be at the end of the second year after matriculation, provided that in exceptional circumstances admission may be permitted at the end of the third year after matriculation.

Pre-requisites
Geology I and II,
Chemistry I,
and three other units including at least two in the following subjects:—
Chemistry, Mathematics, Physics, Zoology.

Geology Honours Part III (Five papers, together with practical work).

The courses shall be those prescribed for Geology IIIA and Geology IIIB and the examination shall con-
sist of five papers (21.30-21.34 inclusive) together with such practical work as the Head of the Department requires.

In special cases with the approval of the Head of the Department of Geology, papers in advanced units of other subjects may be substituted for one or two (but not more) of the above papers.

*NOTE: Intending students should consult the Head of Department about the topic immediately after completing the papers for Part III.

The language for the Foreign Language Reading Examination will be French, German, Russian, or other language approved by Senate and this examination should be taken as early as possible.

Admission to the Honours School in Physics shall be at the end of the second year after matriculation provided that in exceptional circumstances admission may be granted at the end of the third year after matriculation.

Pre-requisites
Physics IB,
Physics II,

Mathematics IA or IB (or Pure Mathematics II),
Pure Mathematics II (or Pure Mathematics III),
and two other Stage I units including at least one from Botany, Chemistry, Geology, Zoology.

Physics Honours Part III (Five or Six papers, together with practical work).
An approved selection of courses from those prescribed for Physics IIIA, Physics IIIB, Radio Physics III, Pure Mathematics III, Applied Mathematics III, Statistical Mathematics III, Advanced Mathematics A or B, Chemistry II or IIIA and from such other courses as may be approved by the Head of the Department of Physics.

*Physics Honours Part IV* (Four or Five papers, together with practical work and an experimental or theoretical project).

An approved selection of courses from those prescribed for the degree of Master of Science in Physics, or in Mathematics, and from such other courses as may be approved by the Head of the Department of Physics; together with an approved experimental or theoretical project. The Foreign Language Reading Requirement shall be completed before the sitting of Honours Part IV.

**NOTE:** It is expected that two main course selections will be approved, corresponding to the present Radio Physics and Nuclear Physics courses, with approved variations in subsidiary subjects.

The language for the Foreign Language Reading Examination will be German or Russian or other language approved by Senate and this examination should be taken as early as possible.

**ZOOLOGY**

*Admission* to the Honours School in Zoology shall be at the end of the second year after matriculation, provided that in exceptional cases admission may be granted at the end of the third year after matriculation.

**Pre-requisites.**

Zoology I and II,
Chemistry I,

two other units from:—

Mathematics IA or IB (or Pure Mathematics II),
Physics IA or IB, Botany I, Geology I, and a further unit at Stage II or III.
Zoology Honours Part III (Four papers, together with practical work) will consist of Zoology IIIA and Zoology IIIB as prescribed for the Degree of Bachelor of Science (Papers 38.30, 38.31, 38.32, 38.33).

Zoology Honours Part IV (Three papers, together with practical work and a short dissertation).

(a) A course based on the prescriptions for Zoology II, Zoology IIIA and Zoology IIIB for the degree of Bachelor of Science requiring a broad knowledge of modern Zoology with particular reference to contemporary growth, philosophy and aims. (Two papers 38.45, 38.46).

(b) A special course in one of the following fields: Marine Biology, Entomology and Insect Ecology, Limnology, Vertebrate Biology, Experimental Zoology, or, with the special permission of the Head of Department, some other field: (one paper 38.47).

(c) The dissertation, which shall be given credit equal to that of two papers, shall be upon a topic approved before the end of the preceding year by the Head of the Department and a supervisor appointed by him. The dissertation shall be delivered to the Registrar on or before 1 November or such later date as the Head of the Department may permit.

NOTE: The dissertation must be compact in scope and disclose clear evidence of the power to carry out good independent practical work, and to present the results effectively.

The language for the Foreign Language Reading Examination will be French, German, Russian, or other language approved by the Senate and this examination should be taken as early as possible.
THE DEGREE OF MASTER OF SCIENCE

MSc

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Degree of Master of Science shall before enrolment:
   
   (a) have qualified for admission either to the Degree of Bachelor of Science or to the Degree of Bachelor of Science (Honours), and
   
   (b) have passed the subject he offers, either in its several stages as prescribed for the Degree of Bachelor of Science (including Stage IIIB if listed as a subject for that Degree) or in the final year of the course for the Degree of Bachelor of Science (Honours), and
   
   (c) fulfilled any prerequisites applicable to the subject;

   Provided that a candidate may offer: Physics, if he has passed Radio Physics III in place of Physics IIIB; Botany, if he has passed Cell Biology III or Chemistry IIIA or Zoology IIIA in place of Botany IIIB; Zoology, if he has passed Cell Biology III in place of Zoology IIIB; Geography, if in place of Geography IIIB he has passed at Stage III in a Science subject approved by the Senate; Geology, if in place of Geology IIIB he has passed at Stage III in a Science subject approved by the Senate.

2. A candidate who is not devoting his full time to University study shall, if the Senate so requires, follow a two year course of part-time study, of such content as the Senate may prescribe for him.

3. (a) A candidate who has qualified for the Degree of Bachelor of Science shall be required in the sub-
ject he offers to pass the prescribed examinations and to submit a thesis where that is prescribed, in accordance with Regulation 11 of these Regulations.

(b) A candidate who has qualified for the Degree of Bachelor of Science (Honours) shall be required to submit a thesis only, which shall be as prescribed in Regulation 11 of these Regulations, in such one of the subjects Botany, Geology, Physics, or Zoology as he offers. Provided that a candidate who has done work for the Degree of Bachelor of Science (Honours) but has qualified for admission not to that Degree but to the Degree of Bachelor of Science, may be granted exemption from such part of the course for the Degree of Master of Science as the Senate may approve, subject to his paying the prescribed fee as if that part of the course were an exempted unit for the purpose of Regulation 10 (b) of the Enrolment and Course Regulations (General).

4. Where a thesis is required the following conditions shall apply:

(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.

(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.

(c) In the case of a thesis recording laboratory work, a supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University.

(d) A candidate shall present his thesis in the same year as that in which he first takes his examination (if any), or with the consent of the Head of the Department and subject to paragraph (g) of this Regulation, in any subsequent year.

(e) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or at such later date as may be arranged with the Head of the Department.
(f) If the supervisor with the consent of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.

(g) No thesis shall be presented later than the third year (i) after that in which the candidate first takes his examination for this Degree or (ii) after the year of the completion of the candidate’s course for the Degree of Bachelor of Science (Honours); as the case may require: provided that this period may in special cases be extended by the Senate.

5. A candidate shall not offer a subject which he has already passed for the Degree of Master of Arts.

6. A candidate shall not offer Mathematics unless he has before enrolment passed or obtained a Certificate of Proficiency in Pure Mathematics III and in either Applied Mathematics III or Statistical Mathematics III.

7. A candidate shall not offer Physics unless he has before enrolment obtained terms in Ancillary Mathematics or done such other work as the Senate may deem equivalent.

8. A candidate shall not be admitted to the Degree unless

(a) he has been credited with a pass in a unit of a foreign language approved for this purpose by the Senate, or

(b) he has been credited with a pass in a foreign language reading examination

(i) prescribed for the purpose of this Regulation, and

(ii) approved by the Head of the Department of the subject which the candidate is offering for this Degree.
9. A candidate whose mother-tongue is not English may on application and with the approval of the Senate be exempted from the provisions of Regulation 8. Application shall be made to the Registrar in writing, and if granted, exemption will be subject to the provisions of Regulation 10 (b) (ii) of the Enrolment and Course Regulations (General).

10. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded in a subject to any candidate for this Degree who has qualified in that subject for the award of the Degree of Bachelor of Science (Honours).

(c) Honours shall not be awarded in a particular subject to any candidate who enrolled for and failed to qualify for admission to the Degree of Bachelor of Science (Honours) in that subject.

(d) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he shall still be eligible for the award of Honours subject to the provisions of sub-clause (e) of this Regulation.

(e) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of 1 March following his passing the final subject or subjects of the Degree of Bachelor of Science, or of the Degree of Bachelor of Science (Honours), provided that this period may in special cases be extended by the Senate.
11. The subjects of examination and relative requirements as to theses for the Degree, together with the prescription numbers relative to each examination paper, are as follows:

BOTANY (Three papers and a thesis which shall count as three papers): Papers 6.40, 6.41, 6.42.

CELL BIOLOGY (Three papers and a thesis which shall count as three papers): Papers 40.40, 40.41, 40.42.

CHEMISTRY (Four papers and a thesis which shall count as two papers): Papers 8.40, 8.41, 8.42, 8.43.

GEOGRAPHY (Four papers and a thesis which shall count as two papers): Paper 20.40 and three papers from 20.41 to 20.52.

GEOLOGY (Three papers and a thesis which shall count as two papers): Papers 21.40, 21.41, 21.42.

MATHEMATICS (Six or seven papers): A selection approved by the Head of the Department of Mathematics of six or seven from papers 26.40 to 26.59 inclusive. Candidates not credited with Advanced Mathematics A will normally be required to present seven papers.

PHYSICS (Three or four papers, and a thesis which shall count as two papers): Papers 31.40, 31.41, 31.42, 31.43.

PSYCHOLOGY (Four papers and a thesis which shall count as four papers): Four papers from 33.40 to 33.48.

ZOOLOGY (Two or three papers, and a thesis which shall count as three papers): Papers 38.40, 38.41, 38.42.

12. These Regulations shall come into force on 1 January 1968.

THE DEGREE OF DOCTOR OF PHILOSOPHY
PhD

Regulations for this degree are printed elsewhere in the Calendar.
THE DEGREE OF DOCTOR OF SCIENCE

DSc

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Science shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Science until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Science shall be awarded for an original contribution (or contributions) of special excellence in some branch of pure or applied science.

4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

   (a) Three copies of the work to be examined;

   (b) A statutory declaration which shall —

      (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and

      (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall —

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application.

(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may —

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with the examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand.

(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

256
(a) to report independently on the quality of the work and its value as a significant contribution to learning; and

(b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A resubmission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall consider the reports of the Examiners and prepare a final report based upon them which, together with the reports of the Examiners, shall be placed before the Senate, and the Senate shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where the Examiners' recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.
DEPARTMENT OF BOTANY

BOTANY I

(Two papers and practical work)
6.10 (a), 6.11 (b) The general structure and function of the plant cell; the general course of the evolution of structure, function and reproduction of plants, including detailed treatment of examples representing the whole range of the Plant Kingdom, together with the general morphology and histology of the Angiosperms; the characteristics of selected angiosperm families, with reference to their position in some recognized scheme of classification, and with special reference to their New Zealand representatives; the elements of plant physiology, plant ecology and genetics.

Practical: Two two-hour laboratories per week.

Prescribed texts: Alexopoulos & Bold, Algae and Fungi (Wiley); Esau, Anatomy of Seed Plants (Wiley); Bold, The Plant Kingdom (Prentice-Hall); Levine, R. P., Genetics (Holt, Rinehart, & Winston); Savage, J. M., Evolution (Holt, Rinehart, & Winston); Chapman and Brown, Physiology for First-Year Students (Auckland University); Millener, Chapman, Segedin, A classification of Plants (Auckland University).

Recommended books: Swanson, C. P., The Cell (Prentice-Hall); Stewart, F. C., Plants at Work (Addison-Wesley); *Thomas, M., Ranson, G. I. & Richardson, J. A., Plant Physiology (Churchill); Odum, Ecology (Holt, Rinehart, & Winston).

*For students who intend to advance in Botany.

Considerable attention is given to the indigenous flora and, wherever practicable, material from that source is used for laboratory work.

Excursions for the study of plants and plant communities in the field are held at intervals.

The Museum contains a collection of dried and preserved specimens and a large teaching herbarium. In the University grounds will be found a collection of indigenous plants of New Zealand.

BOTANY II

(Two papers and practical work)
6.20 (a), 6.21 (b) These papers will contain questions from the following sections I and II.
Section I

This comprises essentially either the lower or the higher plants taken in alternate years. In 1968 the lower plants will be taught.

Lower Plants: A more extensive and detailed knowledge of structure, function, reproduction and classification in the plant kingdom (including contemporary and extinct plants), as shown by a study of the Algae, Bryophytes, and Vascular Cryptogams and using a more comprehensive selection of examples than for the relevant parts of Botany.

Higher Plants: A more extensive and detailed knowledge of classification in the Plant Kingdom (including contemporary and extinct plants), as shown by a study of the Gymnosperms and Angiosperms, with special reference in classification to orders and families prominent in New Zealand and with a more comprehensive selection of examples than for the relevant parts of Botany I; Principles of Plant Ecology, Palynology, Biogeography, including the origin of the New Zealand flora; more detailed ecological study of selected New Zealand vegetation types.

Section II

A study of Biochemistry; a more extensive course in Genetics; a more extensive study of examples from Micro-organisms, Fungi and Algae illustrating structure, function, reproduction, and classification; fundamentals of Plant Ecology.

(Field work will include several day trips. Attendance will be obligatory.)

Laboratory work: Two practical periods of three hours each per week.
BOTANY IIIA

(Two papers and practical work)

6.30 (a), 6.31 (b) These papers will contain questions from the following sections I and II.

Section I

This comprises either the lower plants or the higher plants, whichever has not previously been taken.

In 1968 the lower plants will be taught.

Section II

Further studies in Plant Biochemistry and Plant Physiology; Plant Pathology; Fungal Genetics; Experimental Morphology.

Recommended books: Thomas, Ranson & Richardson, Plant Physiology (Churchill); Hillman, The Physiology of Flowering (Holt, Rinehart, & Winston); Bonner & Vamer, Plant Biochemistry (Academic Press); Davies, D. D., Intermediary Metabolism in Plants (Cambridge Univ. Press); Sistrom, Microbial Life (Holt, Rinehart, & Winston); Fincham & Day, Fungal Genetics (Blackwell); Esau, Anatomy of Seed Plants (Wiley); Horsfall & Dimond, Plant Pathology (Academic Press); Butler & Jones, Plant Pathology (Macmillan); Baker & Snyder, Ecology of Soil-Borne Plant Pathogens (Univ. Calif. Press).

(Field work will include several day trips. Attendance will be obligatory.)

Laboratory work: Two or three practical periods amounting in all to not more than eight hours per week.

BOTANY IIIB

(Two papers and practical work)

6.35 (a), 6.36 (b) Discussion of morphology and evolutionary significance and other philosophical problems as exemplified by the algae and land plants (living and extinct); the application of ecological principles to a study of the chief types and relationships of the indigenous vegetation of New Zealand; more advanced work in plant physiology requiring a deeper knowledge of chemistry and physics; Molecular Biology; evolution and biosystematics of New Zealand plant species; advanced plant pathology; marine and freshwater algae ecology.
The nature of the course demands a certain amount of field work which may be done during day trips or which may involve attendance for a longer period at a field locality in one of the vacations.

Practical: A minimum attendance of 6 hours per week, but, in practice, considerably more will be expected. A course of reading will be prescribed.

BOTANY FOR BSc(Hons)

BOTANY HONOURS PART II

(Three papers and practical work)

6.20 (a), 6.21 (b) These papers will contain questions based on Sections I and II of the Botany II course as set out on pages 258-9.

6.22 (c) Theory and practice of specialised aspects of Botany, including, in particular, those in the fields of Plant Physiology, Plant Pathology, Microscopy, Laboratory Culture of Plants.

Candidates will be required to sit a six hour combined theory and practical examination for this paper.

(Field work will include several day trips or a vacation course. Attendance will be obligatory.)

Laboratory work: Three practical periods of three hours each per week.

BOTANY HONOURS PART III

(Three papers and practical work)

6.30 (a), 6.31 (b) These papers will contain questions based on Sections I and II of the Botany IIIA course as set out on page 346.

6.32 (c) Discussion of morphology and evolutionary significance and other philosophical problems as exemplified by the algae and land plants (living and extinct); the application of ecological principles to a study of the chief types and relationships of the indigenous vegetation of New Zealand; Molecular Biology; Evolution of the New Zealand flora.
(The nature of the course demands a certain amount of field work which may be done during day trips or which may involve attendance for a larger period at a field locality in one of the vacations.)

Laboratory work: A minimum attendance of nine hours per week, but, in practice, more will be expected.

BOTANY HONOURS PART IV

(Three papers and practical work)

6.45 (a), 6.46 (b), 6.47 (c) More advanced work in the Algae, in Plant Pathology, in Plant Physiology (requiring a deeper knowledge of Chemistry and Physics), in Economic Botany and certain other topics, selected for study each year from the fields of Ecology, Physiology, Pathology, Experimental Morphology and Genetics.

Laboratory work: The student will be expected to spend the whole of his time in the Department and to carry out such investigations as may be assigned to him. Written reports will be required by the beginning of the third term.

SPECIAL COURSES FOR BOTANY HONOURS II AND III

Each course will consist of one paper plus practical work (where applicable).

38.25 Animal ecology and physiology as set out in sections II of Zoology II and Zoology III respectively for the Degree of BSc.

27.20 Biometry. Preliminary statistics plus further work on applied biological statistics.

21.25 Paleontology and Historical Geology. Sections (ii) of Geology 21.20 and 21.30 for the Degree of BSc.

20.20 Physical Geography. As for Paper 20.20 of Geography II for the Degree of BSc.

8.28 Chemistry for Biology II — Pre-requisite Chemistry I.

Aspects of physical, theoretical, inorganic, organic and radio chemistry with emphasis on biological applications.
8.38 Chemistry for Biology III:
   (i) Organic Chemistry as prescribed for Chemistry IIIA,
   (ii) Radio Chemistry as prescribed for Chemistry IIIB.

BOTANY FOR MSc

(Three papers and a Thesis)

6.40 (a), 6.41 (b), 6.42 (c) Students reading for MSc are required to have a deeper knowledge of Botany than for BSc.

The preparation of a thesis is a most important feature of the work, and a large part of the student's time should be given to this.

Prerequisites:

Students are reminded of the Foreign Language Reading requirement which is a prerequisite for admission to the Degree of MSc. The prescribed language is German, Russian, or such other language as may be approved by the Head of Department.
DEPARTMENT OF CELL BIOLOGY

CELL BIOLOGY III

Prerequisites: Chemistry II, one other Stage II unit and at least one unit in Botany or Zoology.

(Two papers)

40.30 (a) Methods used in the study of cell ultrastructure with special reference to Electron microscopy. The fine structure of representative microbial, plant and animal cells. The structure function and biosynthesis of nucleic acids and proteins. The genetic code. Genetic regulatory mechanisms.

40.31 (b) The structure and replication of representative plant, animal and bacterial viruses. Relationships of viruses with their host cells. The transmission and recombination of genetic material in bacterial viruses, in bacteria, and in diploid microorganisms. The units of mutation, function and recombination.

Note: It is not suggested that students purchase all of these books. Desk copies will be held in the Biology Library.

Entry from Cell Biology III to Part IV of Honours School for BSc(Hons): In exceptional circumstances entry to the Part IV of the Cell Biology Honours School may be permitted at the discretion of the Head of the Department and will involve such additional course work as deemed necessary.

CELL BIOLOGY FOR BSc(Hons)

CELL BIOLOGY HONOURS PART III

(Five papers and practical work)

40.35 (a) Methods used in the study of cell ultrastructure with special reference to Electron microscopy. The fine structure of representative microbial, plant and animal cells.

40.36 (b) The structure, function and biosynthesis of nucleic acids and proteins. The genetic code. Theories of genetic regulatory mechanisms.
40.37 (c) The structure and replication of representative plant, animal and bacterial viruses. Relationships of viruses with their host cells.

40.38 (d) The transmission and recombination of genetic material in bacterial viruses, in bacteria, and in diploid microorganisms.

*Note:* It is not suggested that students purchase all of these books. Desk copies will be held in the Biology Library.

8.38 (e) as prescribed for Chemistry for Biology III (see page 263).

**CELL BIOLOGY HONOURS PART IV**

(Four papers, together with practical work and a research report)

40.45 (a), 40.46 (b), 40.47 (c), 40.48 (d) The material for Cell Biology Part III considered in greater depth, with special reference to selected topics in Virology, Electron Microscopy, Microbial and Molecular Genetics and Molecular Biology.

*Texts:* To be prescribed.

**CELL BIOLOGY FOR MSc AND HONOURS**

(Three papers and a thesis)

40.40 (a), 40.41 (b), 40.42 (c). The general study of microorganisms at an advanced level, with more detailed study of certain special branches of the subject.

Students from the University of Auckland will be required to have taken the following subjects in the Bachelor's degree: Botany IIIA and IIIB; OR Botany IIIA and Genetics III; OR Chemistry IIIA and IIIB together with at least one unit of Botany or Zoology; OR Zoology IIIA and IIIB together with Chemistry I; OR Zoology IIIA and Genetics III together with Chemistry I; OR Botany IIIA and Chemistry IIIA; OR Zoology IIIA and Chemistry IIIA.

*Note:* From 1970 Cell Biology III will be the required subject in the Bachelor's degree.
Students from other universities or colleges must have taken one of these subjects or another suitable subject to an advanced undergraduate level (e.g. Microbiology III, or Biochemistry III as offered at Otago University).

**Thesis:** The preparation of a thesis is a most important feature of the work and a large part of the student's time should be devoted to this. The topic of research for the thesis can be in general microbiology, electron microscopy, molecular genetics, or in molecular biology, with special reference to nucleic acids and proteins.

**Prerequisites:** Students are reminded of the Foreign Language reading requirement which is a pre-requisite for admission to the MSc degree. The prescribed language may be French, German, Italian, Russian, or such other language as may be approved by the Head of the Department.

**RESEARCH IN CELL BIOLOGY**

Facilities are available for research by PhD and post-doctoral students in fields of virology, immunology, molecular genetics, electron microscopy, and molecular biology, with special reference to nucleic acids and proteins. Intending students should consult the Head of the Department as early as possible.
DEPARTMENT OF CHEMISTRY

CHEMISTRY I

(Two papers and practical work)
8.10 (a), 8.11 (b) General chemistry.

Students will attend four lectures a week. Tests will be held from time to time during lecture hours, and performance in these tests will contribute to the final mark for written papers.

Laboratories: Students will attend two practical classes (of two hours each) a week. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. The practical work will be assessed for each candidate, and the marks included in the marks schedule of the University. A pass both in the written papers and the practical course is necessary.

Students intending to proceed to Chemistry II are strongly advised to include Mathematics IA or IB in their course concurrently with Chemistry I. Students intending to proceed to Chemistry III should also include Physics IA or IB in their course.

Prescribed texts: Mahan, University Chemistry (Addison-Wesley); Aylward and Findlay, Chemical Data Book, 2nd Ed. (Wiley). Various other text-books may be recommended during lectures, but students are not advised to purchase these beforehand. These may include Grundon and Henbest, Organic Chemistry (Oldbourne); Roberts and Caserio, Organic Chemistry (Benjamin); Latimer and Hildebrand, Reference Book of Inorganic Chemistry (Macmillan); Cotton and Wilkinson, Inorganic Chemistry (Inter-science); Butler, Solubility and pH Calculations (Addison-Wesley); Pierce and Smith, General Chemistry Workbook (Freeman).

Laboratory Manual: The laboratory manual is available from the University Office.

CHEMISTRY II

(Two papers and practical work)
8.20 (a) Analytical, inorganic and quantum chemistry.
8.21 (b) Organic and physical chemistry.

Laboratories: Students are required to attend practical classes of not less than eight hours a week. The practical work will be assessed for each candidate, and the marks included in the
marks schedule of the University. A pass both in the written papers and in the practical course is necessary.

**CHEMISTRY IIIA**

(Two papers and practical work)

8.30 (a) Inorganic and quantum chemistry.

8.31 (b) Organic and physical chemistry.

Laboratories: Students are required to attend practical classes of not less than eight hours per week. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical course is necessary.

**CHEMISTRY IIIB**

(Two papers and practical work)

8.32 (a) Inorganic, physico-organic, radio- and structural chemistry.
8.33 (b) Organic and physical chemistry.

Laboratories: Students are required to attend practical classes of not less than eight hours per week. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical course is necessary.

ADVANCED CHEMISTRY

(Two papers and practical work)

8.34 (a) Inorganic, quantum, radio- and structural chemistry.

8.35 (b) Organic and physical chemistry.

Laboratories: Students are required to attend practical classes of not less than eight hours per week. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical course is necessary.

Prescribed texts: To be advised.

CHEMISTRY FOR MSc AND HONOURS

(Four papers and a thesis)

Students intending to read for MSc and Honours should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, in order to select the thesis topic and secure appropriate laboratory facilities. The course is
normally of one year's duration, but the thesis may, with the approval of the Head of the Department, be completed during the second year. (See clause 2 (c) of the Enrolment and Course Regulations (General).)

8.40 (a) Inorganic, quantum and structural chemistry.
8.41 (b) Organic chemistry.
8.42 (c) Physical chemistry.
8.43 (d) Advanced topics in chemistry.

A pass both in the thesis and in the written papers is necessary.

In addition to attending prescribed lectures in physical, structural, inorganic, and organic chemistry, students will be required to prepare and discuss a number of selected topics of special interest.

Students are reminded of the Foreign Language Reading requirement which is a prerequisite for admission to the MSc Degree. The prescribed language is German; classes are arranged by the Department of German.

**DEPARTMENT OF GEOGRAPHY**

For prescriptions see pages 168-74.

*Note:* The prescriptions for Geography IIIA and IIIB are as prescribed for Geography III and Geography III (Special) respectively for the Degree of Bachelor of Arts.
DEPARTMENT OF GEOLOGY

GEOLOGY I

(Two papers and practical work)

21.10 (a) Physical Geology. Materials of the lithosphere; weathering of rocks, transportation and deposition of sediments; the role of organisms in geological processes; igneous action; earthquakes; structural geology; geomorphology; metamorphism; deposits of economic importance.

Prescribed texts: Lab. book: Searle, Practical Course in Mineralogy and Petrography (available from the Registry); Gilluly, Waters, Woodford, Principles of Geology (Freeman); Searle, City of Volcanoes (Paul).

21.11 (b) Historical Geology. General principles of stratigraphy; geological chronology; broad outlines of geological history; elementary systematic paleontology and fossils characteristic of the geological periods; a general account of the stratigraphy of New Zealand.

Prescribed texts: A. M. Davies (revised by Stubblefield), An Introduction to Palaeontology (Murby); F. H. T. Rhodes, The Evolution of Life (Pelican); Geological Map of New Zealand (without accompanying bulletin), Scale 1:2,000,000 (N.Z. Geological Survey).

Lectures and laboratories: eight hours per week.

Practical: At least two practical classes must be attended each week. The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University.

A pass both in the written papers and in the practical course is necessary.

Field Excursions: Each student will be required to attend four field excursions, arranged usually for week-ends.

Note: Students planning to advance to Geology III, are recommended to include one unit of Mathematics, either Pure or Applied in their course.

GEOLOGY II

(Two papers and practical work)

21.20 (a) Geology, Paleontology and Historical Geology.

i. Physical Geology. As defined for Geology I but taken to a higher standard and with more emphasis on sedimen-
tation and structural geology. Study and preparation of geolog-ical maps.

ii. Paleontology and Historical Geology. Invertebrate paleontology continued; evolution of certain groups of organisms; Mesozoic and Tertiary stratigraphy of New Zealand.

21.21 (b) Geology and Mineralogy. Crystallography and mineralogy; the symmetry of the more important crystal classes; the elements of the stereographic projection; the principles and practical applications of optical crystallography; descriptive and determinative mineralogy.

Lectures and laboratories: Nine hours per week.

Practical: Students must attend each week practical classes in Mineralogy, Paleontology, Interpretation of Geological Maps. An attendance of at least six hours per week is expected of each candidate. The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written papers and the practical course is necessary.

Field classes: A field camp lasting about a week will be held, probably during the first vacation; other shorter trips may also be held. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of the excursions, which may be held anywhere in New Zealand.

GEOLOGY IIIA AND GEOLOGY IIIB

The following courses are offered:

21.30 General geology and structural geology

21.31 Stratigraphy, sedimentology and sedimentary petrology
21.32 Igneous and metamorphic petrology
21.33 Paleontology
21.34 Economic and engineering geology; mineragraphy

For Geology IIIA course 21.30 is compulsory. One other course as approved by the Head of Department shall be selected from 21.31, 21.32, 21.33, 21.34. Candidates are expected to have a wider knowledge of the fields of study covered in stages I and II and may be examined thereon.

For Geology IIIB any two of the remaining courses may be taken.

Prescribed texts:
21.33 As listed for Stage II 21.20 (ii).

Lectures and Practical work

An attendance of approximately 6 hours per week for each course is necessary for the lectures and practical work involved. The year's practical work will be assessed for each student and the marks entered in the schedule of the University. A pass both in written papers and in the practical course is required.

Field classes will be held through the year (including vacations). Attendance is compulsory and students must be prepared to pay a large part of the costs of excursions which may take some days and may be held anywhere in New Zealand.

GEOLOGY FOR MSc AND HONOURS

(Three papers and a thesis)

Examination: The examination for this degree consists of three written papers, 21.40, 21.41, 21.42, and a thesis. All candidates are advised to undertake work for theses before presenting themselves for written papers, and students who intend to read for this degree should therefore consult the Head of the Department well before the Session commences.
Text-books: Students should consult the staff before buying text-books.

Discussion Classes: These will be arranged at times to suit the convenience of students.

Foreign Language: Students are reminded of the Foreign Language Reading requirement which is a prerequisite for admission to the Degree of MSc. Candidates must show proficiency in one of the following languages: French, German or Russian.

ENGINEERING GEOLOGY

The prescription for this subject appears under School of Engineering courses.
The Marine Biological Research Station is situated on the east coast, some sixty miles north of Auckland, at Goat Island Bay, Leigh. It provides research space, facilities such as running seawater, and living accommodation for seven or more workers. Present work is centred on the ecology and physiology of shore and shallow water organisms, but the laboratory is open to workers in any branch of marine research.

The Research Station is managed by a committee — Chairman, Professor V. J. Chapman (Botany), Secretary, Associate Professor R. M. Cassie (Zoology) — but bookings should be made through the Resident Biologist, Dr W. J. Ballantine, R.D. Leigh (Telephone Leigh 7R).

Research facilities and accommodation are available to students proceeding to the BSc (IIIB), BSc(Hons), MSc, or PhD degrees as well as staff and visiting scientists.
DEPARTMENT OF MATHEMATICS

MATHEMATICS IA

(Two papers)

Note: This unit, formerly called Pure Mathematics I, does not include any mechanics.

In 1968 it is hoped to offer two different courses for Mathematics IA. It is intended that one course will be designed for students proposing to advance beyond Stage II in mathematics; this course will give more emphasis to theory. The other course will be designed for students not proposing to advance beyond Stage II in mathematics, and will give more emphasis to techniques. Students should make further enquiries when enrolling.

26.10 (a) Algebra and Trigonometry.

Fundamental operations in algebra; simple series; permutations and combinations; the binomial theorem; properties of polynomials and rational functions; determinants and linear equations.

Fundamental properties of the trigonometrical functions; triangle formulae with applications; summation of certain series.

26.11 (b) Calculus and Geometry.

Derivatives and integrals of elementary functions; applications to graphs and loci, rates of change, stationary values, plane areas, volumes of solids of revolution, mean values, centres of mass.

Properties of lines, circles, conics obtained by co-ordinate methods; fundamental notions in solid geometry.

MATHEMATICS IB

(Two papers)

Note: This unit overlaps both Mathematics IA (formerly Pure Mathematics I) and Applied Mathematics I, and cannot be taken together with either of these units. Students who have
passed Mathematics IB will have sufficient preparation to advance to Pure Mathematics II. In exceptional circumstances a student who has been credited with Mathematics IB may be admitted to Applied Mathematics III but such a student will normally be required to have attained a standard equivalent to a pass in Applied Mathematics I. A student who fails to pass in the mechanics section of Mathematics IB will be considered for a pass in Mathematics IA.

Most engineering intermediate students will be recommended to take Mathematics IB. In the event of staffing or accommodation difficulties it may be necessary to direct some engineering intermediate students whether to enrol in Mathematics IB or in the combination of Mathematics IA and Applied Mathematics I.

About 80 lectures will be held in common with Mathematics IA, and about 35 additional lectures will be given on part of the subject matter of Applied Mathematics I.

26.12 (a) Algebra.

Mechanics.

Statics of a particle and a rigid body. Dynamics of a single particle including simple harmonic motion, motion in a circle, and projectiles.

26.13 (b) Calculus.

Derivatives and integrals of elementary functions (including trigonometrical and exponential functions and their inverses). Applications to geometry and mechanics, etc. (graphs, rates of change, stationary values, areas, volumes, mean values, centres of mass, moments of inertia, etc.)

Geometry.

Properties of lines and conic sections treated by co-ordinate methods. Geometrical interpretation of inequalities. Elementary vector algebra.

Prescribed texts: As for Mathematics IA and Applied Mathematics I.

277
PURE MATHEMATICS II

(Two papers)

26.20 (a) Algebra, geometry and vector analysis.
Complex numbers; theory of equations; determinants; matrices; introduction to abstract algebra. Vector analysis with applications; co-ordinate solid geometry (simple loci, planes, lines, spheres).

26.21 (b) Calculus.
Limits; derivatives; the mean value theorem; integration and applications; exponential, logarithmic and related functions; partial differentiation; simple differential equations. Sequences and series.

PURE MATHEMATICS III

(Three papers)

26.30 (a) Algebra and Geometry.
Vector spaces and matrices; algebraic forms; introduction to abstract algebra; quadrics in three dimensions (co-ordinate methods).

26.31 (b) Analysis.
Limits; sequences; series; functions of a real variable; continuity; differentiability; Taylor's Theorem; Riemann integration; functions of several variables.

26.32 (c) Calculus and Differential Equations.
Partial derivatives; multiple integrals; special functions; applications; solutions of ordinary differential equations of special types; complex variable.

Prescribed texts: S. Lang, Linear Algebra (Addison-Wesley); R. Cooper, Functions of Real Variables (Van Nostrand); E. G. Phillips, Functions of a Complex Variable (Oliver & Boyd); D. V. Widder, Advanced Calculus (Prentice-Hall).

Recommended books: R. Godement, Cours d'algèbre (Hermann) OR S. MacLane and G. Birkhoff, Algebra (Macmillan); W. Rudin, Principles of Mathematical Analysis, latest edition (McGraw-Hill).

278
Additional text and reference book recommendations may be made in class or on the notice board.

Note. Students exempted from Pure Mathematics II on the grounds of having passed Engineering Mathematics II and Engineering Mathematics III may require additional preparation.

ADVANCED MATHEMATICS A

(Three papers)

Note: Prerequisites for this course are (1) a pass in Pure Mathematics III and (2) a pass or concurrent enrolment in either Applied Mathematics III or Statistical Mathematics III. Except by special permission of the Head of the Mathematics Department a grade B pass in Pure Mathematics III will be required.

Advanced Mathematics A cannot be credited with either Mathematics IA or Mathematics IB towards any University Degree or Diploma.

The student will select three of the papers prescribed for Applied Mathematics III, Statistical Mathematics III, and Mathematics for MA or MSc. A paper which has already been taken for Applied Mathematics III or Statistical Mathematics III may not be selected again. The student's selection of papers must be approved by the Head of the Mathematics Department.

Students may be permitted to take a Certificate of Proficiency in one or two papers of Advanced Mathematics A without presenting this unit or in addition to presenting this unit. This may be taken into account in deciding whether the student should be required to take seven papers for the master's degree. A bursary holder should note that he may claim additional units under his bursary only if he has not failed any units in his course.

Prescribed texts: A selection from those listed under courses for MA, MSc and Honours.

ADVANCED MATHEMATICS B

(Three papers)

Note: The pre-requisite for this course is a pass or concurrent enrolment in Advanced Mathematics A.
The student will select three of the papers prescribed for Applied Mathematics III, Statistical Mathematics III, and Mathematics for MA or MSc. A paper which has already been taken or selected for Applied Mathematics III, Statistical Mathematics III, or Advanced Mathematics A may not be selected again. The student's selection of papers must be approved by the Head of the Mathematics Department.

**APPLIED MATHEMATICS I**

(Two papers)

27.10 (a) Mechanics.

27.11 (b) Option (i) Statistics.
   Option (ii) Computing.

In the event of staffing or accommodation difficulties it may not be possible for all students to take the option of their preference.

**APPLIED MATHEMATICS III**

(Three papers)

Three papers selected by the student from among papers 27.30 to 27.34. The student's selection of papers must be approved by the Head of the Mathematics Department. Permission may be given for papers 27.33 and/or 27.34 to be selected from among the papers prescribed in the BE Regulations for Continuum Mechanics I, Continuum Mechanics II, Engineering Mathematics III S, Engineering Mathematics IV, Engineering Mathematics IV S, and Special Topic in Engineering Science.

27.30 (a) Methods of Applied Mathematics.

27.31 (b) Mechanics.

27.32 (c) Numerical Analysis.

27.34 (e) Special Topic. In 1968: Field Theory.

**STATISTICAL MATHEMATICS II**

(Two papers)

*Note:* The pre-requisite for this course is a pass or concurrent enrolment in Pure Mathematics II.

27.25 (a) Probability; frequency distributions of one variable; sampling theory for one variable; correlation and regression; testing of hypotheses and estimation in respect of large samples.

27.26 (b) Small sample distributions; goodness of fit, testing of hypotheses and estimation in respect of small samples; statistical design in experiments; analysis of variance techniques; sequential analysis.

**STATISTICAL MATHEMATICS III**

(Three papers)

Three papers selected by the student from among papers 27.35, 27.36, 27.37, 27.38. The student's selection of papers must be approved by the Head of the Mathematics Department.

*Note:* This course will not be offered in 1968. However it is proposed to offer a statistical option for Applied Mathematics III paper (d) and to permit students who have passed Statistical Mathematics II but have not taken Applied Mathematics III to
enrol in papers (a), (c), and (d) of Applied Mathematics III. If the student has not taken Applied Mathematics I he will be recommended for a concession under the appropriate BA or BSc regulation.

27.35 (a) Numerical Analysis.
27.36 (b) Probability.
27.37 (c) Statistics.
27.38 (d) Selected topics and problems.

**ANCILLARY MATHEMATICS**

(Three papers)

Three papers selected by the student from among the papers prescribed for Pure Mathematics III, Applied Mathematics III, and Advanced Mathematics A. The student's selection of papers requires the approval of the Head of the Mathematics Department. (See BSc Regulations). Before applying for approval by the Mathematics Department, the student should consult with and obtain approval of the Departments in which he is taking Stage III units.

This unit may not be credited for BSc along with Pure Mathematics III, but may under certain conditions (see BSc Regulations) be credited along with Applied Mathematics III.

**COURSES FOR MA, MSc AND HONOURS**

(Six or seven papers)

*Note:* Pure Mathematics III and either Applied Mathematics III or Statistical Mathematics III are pre-requisites for this course. Advanced Mathematics A is not a pre-requisite but students who have not passed in it will be required to attend such of the lectures in Advanced Mathematics as the Head of the Department directs.
The student shall select six or seven papers from among the papers set out below. The student’s selection of papers must be approved by the Head of the Mathematics Department. Candidates not credited with Advanced Mathematics A will normally be required to present seven papers. Not all of the papers listed will be offered each year. The prescriptions for such of the ‘topics’ papers as are offered will be determined each year by the Head of the Mathematics Department.

26.40  (a) Abstract algebra.
26.41  (b) Real variable analysis.
26.42  (c) Analysis (mainly complex variable).
26.43  (d) Projective geometry.
26.44  (e) Differential geometry.
26.45  (f) Selected options.
26.46  (g) Mechanics.
26.47  (h) Fluid dynamics.
26.48  (i) Probability and statistics.
26.49  (j) Topics in mathematical logic.
26.50  (k) Topics in algebra.
26.51  (l) Topics in analysis.
26.52  (m) Point-set topology.
26.53  (n) Topics in topology.
26.54  (o) Relativity.
26.56  (q) Topics in applied mathematics.
26.57  (r) Special topics I.
26.58  (s) Special topics II.
26.59  (t) Special topics III.

Students are advised to seek guidance before purchasing any of the above books. Other texts and references may be announced in class or on the notice board.

Students are reminded of the Foreign Language Reading requirement which is a pre-requisite for admission to the MSc degree. The language may be French, German, Russian, or such other language as may be approved by the Head of the Department.
DEPARTMENT OF PHYSICS

PHYSICS IA

(Two papers)

This course is intended primarily for students who intend to proceed to courses in Medicine, Dentistry, Agriculture, Architecture, Home Science, Surveying and Pharmacy. It is also recommended for students taking a BA or a BSc degree in Natural Science subjects.

The course has the same content as IB but a lower standard of attainment is required. A knowledge of Mathematics and Physics up to University Entrance standard will be assumed, and MKS units will be used throughout.

Students are advised to read the notice concerning Physics Tutorials (see page 290).

31.10 (a), 31.11 (b) Lectures for four hours per week on the following topics: (1) Mechanics, Gravitation and Physical Properties of Materials; (2) Geometrical and Physical Optics; (3) Periodic Motion, Wave-motion, Sound and E.M. Waves; (4) Molecular Motion; (5) Electricity and Modern Physics.

Laboratory Course: Two practical classes of two hours each per week.

Prescribed texts: Halliday and Resnick, Physics for Students of Science and Engineering, Parts I & II (Wiley); J. B. Earnshaw et al., First Year Course in Practical Physics (available from the Registry).

PHYSICS IB

(Two papers)

This course is intended for students wishing to advance in Physics or Engineering. Mathematics and Physics up to University Entrance standard will be assumed and MKS units will be used throughout.

31.12 (a), 31.13 (b) Lectures for four hours per week cover the same topics as in IA but a higher level of attainment will be required.

Laboratory Course: Two practical classes of two hours each week.

**PHYSICS II**

(Two papers)

Before being admitted to this Stage, students must have passed in Physics IB (or in Physics IA at a sufficiently high standard) and in Pure Mathematics I. Students of Physics II are advised to take Mathematics to Stage II.

31.20 (a), 31.21 (b) Lectures for four hours per week on the following topics: (1) Error Theory; (2) Modern Physics; (3) Electrotechnics; (4) Electromagnetism; (5) Heat and Thermodynamics; (6) General Physics.

*Laboratory Course:* Two practical classes of three hours each per week.

**PHYSICS IIIA**

(Two papers)

Pure Mathematics II is a prerequisite for this course, and students are advised to take Ancillary Mathematics.

31.30 (a), 31.31 (b) Lectures for four hours per week on the following topics: (1) General Physics and Relativity; (2) Quantum Statistics and Solid State; (3) Modern Physics; (4) Classical Mechanics; (5) Electrotechnics.

286
Laboratory Course: Two practical classes of three hours each per week.

Recommended books: H. Goldstein, Classical Mechanics (Addison-Wesley); Beranek, Acoustics (Wiley); Roberts and Muller, Heat and Thermodynamics (Blackie); Tolansky, Introduction to Interferometry (Longmans) or Williams, Interferometry (Methuen); W. P. Mason, Physical Acoustics and Properties of Solids (van Nostrand).

PHYSICS IIIB

(Two papers)

This unit may be taken concurrently with, or after, Physics IIIA. A pass in both units is necessary for the MSc and Honours course, but Radio Physics III is an alternative to Physics IIIB.

31.34 (a), 31.35 (b) Lectures for four hours per week on the following topics: (1) Advanced Mechanics; (2) Quantum Mechanics; (3) Nuclear Physics; (4) Electromagnetism; (5) Electrotechnics.

Laboratory Course: Two practical classes of three hours each per week.

Prescribed texts: Goldstein, Classical Mechanics (Addison-Wesley); Eisberg, Fundamentals of Modern Physics (Wiley) or Leighton, Modern Physics (McGraw-Hill); Elton, Introductory Nuclear Theory (Pitman); Merzbacher, Quantum Mechanics (Wiley); Reitz and Milford, Foundations of Electromagnet Theory (Addison-Wesley); Furley, Elements of Pulse Circuits (Methuen).

Recommended books: Panofsky and Phillips, Classical Electricity and Magnetism (Addison-Wesley); Evans, The Atomic Nucleus (McGraw-Hill); Mott, Elements of Wave Mechanics (Cambridge University Press); Rindler, Special Relativity (Oliver and Boyd); R. Littauer, Pulse Electronics (McGraw-Hill); W. Burcham, Nuclear Physics: an Introduction (Longmans).

RADIO PHYSICS III

(Two papers)

This unit may be taken concurrently with, or after, Physics IIIA. A pass in both units is necessary for the MSc and Honours course, but Physics IIIB is an alternative to Radio Physics III.
31.37 (a), 31.38 (b) Lectures for four hours per week on the following topics: (1) Electromagnetic Theory and Radiation; (2) General Circuit Theory; (3) Electronic Circuits; (4) Communications; (5) Semi-Conductor Physics.

Laboratory Course: Two practical classes of three hours each per week.

Prescribed texts: J. R. Reitz and F. J. Milford, Foundations of Electromagnetic Theory (Addison-Wesley); W. L. Everitt and G. E. Anner, Communication Engineering (3rd Edition — McGraw-Hill 1956); F. Farley, Elements of Pulse Circuits (Methuen); W. Jackson, High Frequency Transmission Lines (Methuen); G. Newstead, General Circuit Theory (Methuen); L. Le Croisette, Transistors (Prentice-Hall).

PHYSICS FOR MSc AND HONOURS
(Three or four papers and a thesis)

Prerequisites for Physics for MSc and Honours are Physics IIA and IIIB, or Physics II A and Radio Physics III; the keeping of terms in Ancillary Mathematics (or its equivalent) and the passing of the Foreign Language Reading Examination.

Depending on whether the student has previously taken Physics IIIB or Radio Physics III, he may proceed to take either the course in Nuclear Physics or the course in Radio Physics. The prescribed lectures differ somewhat in the two courses, but some lectures are given in common.

31.40 (a), 31.41 (b), 31.42 (c), 31.43 (d). The lectures comprise a selection from the topics listed below:

(1) Electricity; (2) Relativity; (3) Quantum Mechanics; (4) Electron Optics; (5) Plasma; (6) Nuclear Physics; (7) Radio Propagation and Ionosphere; (8) Noise, Controls and Computers;
(9) General Circuit Theory; (10) Acoustics; (11) Fluid Dynamics.

Students will also be required to prepare and to discuss selected topics at seminars. Students should seek advice in order to organize their thesis work immediately after enrolment.

To assist in meeting the requirements of the Postgraduate Scholarship regulations, candidates will be expected to submit their completed theses by 15 October in the second year of MSc enrolment. The department is prepared to meet the cost of an additional copy of the thesis for the departmental library, and candidates are urged to provide such a copy.

Students are advised to seek guidance before purchasing any of these text-books.

**RESEARCH IN PHYSICS**

Facilities are available for research by PhD and post-doctoral students in the fields of experimental and theoretical nuclear physics, atmospheric physics, plasma physics, electronics and ultrasonics.

The PhD degree requires a minimum of two years of full time research.

Research in Physics may also be undertaken in the University Radio Research Centre.
ACOUSTICS

A special course of ten demonstration lectures for BMus students and others is held biennially (1969 and every odd year), during the second term. The lectures are of general interest, and are available to the musical public on payment of the prescribed fee.

PHYSICS TUTORIALS

If circumstances permit, tutorial classes will be held once weekly during the first and second terms to supplement the Stage I lectures, and Stage I students who have not passed University Entrance Physics are recommended to attend these.

PRELIMINARY PHYSICS

This is a course of basic physics for students who have little or no previous physics background and who anticipate enrolling in Physics I the following year. It consists of two hours of lectures and two hours of laboratories per week.

(Some of the students taking Physics I during the current year may be advised to attend the lectures, and such students will be exempted from the prescribed fee).

AMIEE EXAMINATIONS

The Institution of Electrical Engineers (London) has approved certain exemptions from the Institution examinations for Physics students who have graduated BSc or MSc from the University of Auckland.

(i) A candidate awarded the Degree of Master of Science (with Honours) in Physics will be granted complete exemption from the Institution Examination.
(ii) A candidate awarded the Degree of Bachelor of Science and who has passed two subjects chosen from Physics IIA, Physics IIB, Radio Physics III, Pure Mathematics III, and Applied Mathematics III may satisfy the educational requirements of the Institution by passing two subjects in Part III of the Institution Examination chosen from Advanced Electrical Engineering, Physical Electronics and Applied Electronics, without being required to attend any further courses of study nor to submit laboratory reports.
DEPARTMENT OF PSYCHOLOGY

Notes on courses: Students taking Psychology for degrees in Science will be required to undertake more practical training than for degrees in Arts. Terms in Zoology I will normally be required before a candidate may present himself for examination in Psychology I for BSc. A candidate for Stage II should have passed Zoology I and a candidate for Stage III should have passed Zoology II and Pure Mathematics I. A recommended BSc degree structure with psychology as the main subject would hence be: Psychology I, II, IIIA, IIIB; Zoology I, II; Chemistry I; Pure Mathematics I or Physics IA or IB.

PSYCHOLOGY I

(Two papers and practical work)

33.10 (a), 33.11 (b). Introduction to Psychology. The course will consist of a general introduction to psychology with special emphasis upon physiological and comparative psychology.

Laboratory: Laboratory attendance of not fewer than four hours per week will be required together with a tutorial. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written papers and the practical examination is necessary.

*Test-book marked with an asterisk should be retained by students continuing in Psychology.

PSYCHOLOGY II

(Two papers and practical work)

33.20 (a), 33.21 (b). The course will include detailed study of experimental and statistical techniques applicable to the analysis of human and animal behaviour.

Laboratory: Laboratory attendance of not fewer than eight hours per week will be required together with a tutorial. The practical work will be assessed for each candidate and the marks

292
included in the marks schedule of the University. A pass both in the written papers and the practical examination is necessary.

**PSYCHOLOGY IIIA**

(Three papers and practical work)

33.30 (a) General Theory and Advanced Experimental Psychology. The course will include detailed consideration of contemporary psychological theories and problems. A variety of experiments will be performed to demonstrate and clarify major theoretical issues.

Laboratory attendance of not fewer than two hours per week will be required.

33.31 (b) The psychology of Individual Differences.

This course will include practical instruction in psychological testing.

Laboratory attendance of not fewer than two hours per week will be required.

33.32 (c) Cognitive Processes.

This course will include detailed examination of verbal learning and higher cognitive functions together with an introduction to psycholinguists.

Laboratory attendance will be required of not fewer than two hours per week.

PSYCHOLOGY IIIB

(Three papers and practical work)

This course, in addition to Psychology IIIA, will be required of candidates intending to proceed to MSc in Psychology.

33.35 (a) Physiological Psychology. Particular emphasis will be placed on implications of neuro-physiological findings for behaviour theory.

Laboratory attendance will be required of not fewer than two hours per week.

*Text-books marked with an asterisk should be retained by students continuing in Psychology.

33.36 (b) The design of psychological experiments.

33.37 (c) The psychological analysis of vision and hearing.

Laboratory attendance of not fewer than eight hours per week will be required.

*Text-books marked with an asterisk should be retained by students continuing in Psychology.

PSYCHOLOGY FOR MSc AND HONOURS

(Four papers and a thesis)

Students in consultation with the Head of Department will select four papers from among the following areas of study:

33.40 (a) History of Psychology.
33.41 (b) Quantitative Psychology.
33.42 (c) Personality.
33.43 (d) Sensation and Perception.
33.44 (e) Comparative Psychology.
33.45 (f) Physiological Psychology.
33.46 (g) Theoretical Psychology.
33.47 (h) Applied Experimental Psychology.
33.48 (i) Physiological Optics.

Candidates for the Master’s degree should consult the Head of the Department as soon as possible after the completion of the Bachelor’s degree, in order to select the thesis topic and obtain advice on vacation reading, text-books and laboratory facilities.

Students are reminded of the Foreign Language Reading requirement which is a prerequisite to the MSc degree. The prescribed language may be German, French, or Russian.
RADIO RESEARCH CENTRE

The Radio Research Centre is carrying out investigations mainly concerned with long-distance radio propagation, the properties of the ionosphere and space physics. Lectures on these subjects are given in conjunction with the Department of Physics. The Centre operates three experimental field stations which are located at Mullins Road, Ardmore, at Seagrove and at Awarua Plains, Invercargill. Research facilities are available for students proceeding to the MSc, ME, or PhD degrees.
DEPARTMENT OF ZOOLOGY

ZOOLOGY I

(Two papers and practical work)

38.10 (a), 38.11 (b) Animal Organisation and Pattern: A survey of invertebrate design and progress, with special reference to Protozoa, Coelenterata, Turbellaria, Annelida, Mollusca and Arthropoda, as grades of animal organisation.

The story of chordate evolution and design based on the study of Amphioxus, dogfish, frog and placental mammal. The embryology of Amphioxus and the frog up to the neurula stage, and of the chick and mammal with specific reference to embryonic membranes.

The cell: An introduction to cytology, biochemistry and general physiology.

Populations and Communities: An introduction to the principles of ecology.

Evolution and Genetics: The history and development of evolutionary ideas in relation to modern genetics.

Prescribed texts: Chapman & Barker, Zoology (Longmans); Miller, New Zealand Zoology — A Practical Introduction (Whitcombe & Tombs); Moore, Man, Time and Fossils (Cape); Maynard Smith, The Theory of Evolution (Pelican); Wallace & Srб, Adaptation (Prentice-Hall 2nd Ed.); Paul, Cell Biology (Heinemann), OR Loewy & Siekewitz, Cell Structure and Function (Holt, Rinehart, & Winston), OR Afzelius, Anatomy of the Cell (Univ. Chicago Press).

Recommended books: Phillipson, Ecological Energetics (Arnold); Browning, Animal Populations (Hutchinson); Kendrew, The Thread of Life (Bell).

For those who have not previously studied biology: Buchsbaum, Animals Without Backbones (Pelican, 2 vols.); Azimov, The Genetic Code (Murray); Baker & Allen, The Study of Biology (Addison-Wesley).

For those intending to advance in zoology the following are also recommended: Carthy, The Study of Behaviour (Arnold); Lorenz, King Solomon’s Ring (University Paperbacks).

Laboratory work: Attendance at two practical classes each week is the minimum requirement. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical course is necessary.

297
ZOOOLOGY II

(Two papers and practical work)

38.20 (a), 38.21 (b). These papers will contain questions from the following Sections I and II, the content of which will be spread over both papers.

Section I

This comprises Options A and B, taken in alternate years. In 1968 Option B will be taught.

Option A: Non-chordates: The structure, life and functions of the principal invertebrate phyla, with a more intensive treatment of the Mollusca and Insecta.

Prescribed texts: Barnes, Invertebrate Zoology (Saunders), OR Borradaile, Eastman, Potts & Saunders, The Invertebrata (O.U.P.); Imms, Outlines of Entomology (Methuen); Dales, Annelid Worms (Hutchinson); Mackie, Coelenterates (Hutchinson); Morton, Molluscs (Hutchinson) (4th ed., revised).

Option B: Chordates: The evolution and biology of the hemichordates and protochordates. The structure, life and development of the Vertebrata, with special reference to evolution and function.

Recommended books: Marshall, The Life of Fishes (Weidenfeld & Nicholson), OR Alexander, Functional Design in Fishes (Hutchinson); Goin & Goin, Introduction to Herpetology (Freeman); Berger, Bird Study (Wiley); Young, Life of the Mammals (O.U.P.).

The practical course includes instruction in microtomy, staining, and light microscopy; and a demonstration of the basic techniques of electron microscopy.

Section II

(a) Ecology: The organisation of communities and the regional ecology of the Auckland area.

Field work will include two one-week courses during terminal vacations; attendance at one or other is obligatory. May vacation: Whangarei Heads (Marine Biology). August vacation: Piha (Limnology, with some further marine biology).

In addition several day or weekend courses are available.

(b) Evolution: The Species: Modes of speciation, and the nature of isolating mechanisms.

(c) Cell structure and Function.

**Laboratory work:** At least two three-hour practical periods each week will be required. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical course is necessary.

ZOOLOGY IIIA

(Two papers and practical work)

38.30 (a), 38.31 (b). These papers will contain questions from the following Sections I and II, the content of which will be spread over both papers.

Section I

This comprises Option A or B of Section I in Zoology II, whichever has not been taken.

Section II

Experimental zoology: The experimental study of the principal functions and organ systems of metazoan animals; some practical problems will be included to acquaint students with apparatus and techniques.

Elements of quantitative ecology and biometry. Genetics and cytology.

**Laboratory work:** At least three three-hour practical periods each week will be required. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical course is necessary.

**ZOOCYANIII**

This course is generally taken concurrently with Stage IIIA, or may in certain circumstances be taken in a subsequent year. This, in addition to Zoology IIIA, will be required of candidates intending to proceed to MSc in Zoology.

(Two papers and practical work)

38.32 (a) Evolution: The theory of natural selection with special reference to experimental work on adaptation and selection in action. Ethology: An introduction to animal behaviour including particularly a study of instinctive behaviour, and with some account of the nature and modes of learning.

A short course of lectures and practical work on nucleic acids and proteins, given by the Department of Cell Biology.

38.33 (b) The principles of animal ecology with particular reference to population dynamics and interactions involving competition and predation, as well as community organisation.

A more advanced study of a selected special field of zoology. The range of topics may be varied from year to year, but will normally include Entomology, Limnology, Marine Biology, and Vertebrate Biology.

**ZOOCYAN FOR BSc(Hons)**

(See page 248).

Book lists for Zoology Honours Part IV will be available from the Secretary, Department of Zoology.
ZOOLOGY FOR MSc

(Three papers and a thesis)

This course normally requires two years and necessitates full-time attendance. Students who propose to undertake work of MSc or Honours standard should consult the Head of the Department towards the end of the previous year to decide upon the choice of a thesis subject and the field of the special paper.

38.40 (a), 38.41 (b), 38.42 (c).

38.40 (a) and 38.41 (b). A broader knowledge than is required for Zoology II, IIIA and IIIB, based upon some reading of recent original literature; with special emphasis on evolutionary aspects and the methods and philosophy of zoology, with some special study of a selected period in the growth of the science.

38.42 (c) An advanced knowledge of the special field of zoology in which the candidate's thesis topic falls, the questions to be broadly framed and not confined within the narrow range of the subject of research.

A candidate in Zoology will be required to satisfy the teacher in regard to attendance at lectures and in regard to the performance of practical work, and to present a brief thesis embodying the results obtained by himself in some investigation or research in Zoology. The credit to be assigned to this thesis shall depend not so much on the novelty or importance of the results obtained as upon the evidence it may afford of ability to carry on good practical work and of the power of independent observation.

(Theses must be handed to the Registrar not later than 1 November or at a subsequent date if so arranged with the Head of the Department.)

Students are reminded of the Foreign Language Reading requirement which is a pre-requisite for admission to the MSc
Degree. The prescribed language is either French, German, or Russian at the discretion of the Head of the Department; classes are arranged by the Departments of German, Romance Languages, and Russian.

The Laboratory

Animals are studied by means of dissection, by microscopical study, and otherwise. Students taking practical courses must provide their own dissecting instruments. Advice concerning the purchase of these is given when classes assemble. A microscope and the glass apparatus most frequently employed will be issued to each student, who will be held responsible for their care.

Practical Classes

The practical work will include instruction in the use of the microscope and the examination of selected animal types in the laboratory.

The Zoological Museum

The museum is open daily from 10 a.m. until 5 p.m.

Field Ecological Classes

There will be frequent opportunities for students in small groups to accompany members of the staff into the field for one day — or occasional week-end — trips. In addition, one week Field Courses will be offered in the First and Second Term Vacations. Attendance at one of these will be obligatory.
DEPARTMENTS OF BOTANY, CHEMISTRY, PHYSICS, PSYCHOLOGY, AND ZOOLOGY

BSc COURSE IN HUMAN BIOLOGY

PRESCRIPTIONS FOR PART I

BIOLOGY

(Three papers and practical work)

60.10, 60.11, 60.12 General, cellular, and systematic biology; vertebrate history; form and function; human origin and social evolution; biological mathematics.

PHYSICO-CHEMISTRY

(Three papers and practical work)

60.20, 60.21, 60.22 Structure and Properties of Matter.

Prescribed texts: Mahan, University Chemistry (Addison-Wesley); Aylward & Findlay, Chemical Data Book, 2nd ed. (Wiley); Other texts to be advised.

Students with a poor background in Physics and Chemistry are advised to read: Chemistry — An Experimental Science (prepared by CHEM study; W. H. Freeman and Co.); Physics (prepared by PSSC; Heath); Sienko and Plane, Chemistry (McGraw-Hill).

BEHAVIOURAL SCIENCE I

(One paper and practical work)

60.30 The course will include analysis of learning; perceptual behaviour; motivation and emotion; verbal learning and cognitive functions.

Prescribed texts: Hebb, A Textbook of Psychology, 2nd ed. (Saunders); Ulrich, Stachnik and Marby, Control of human behaviour (Scott Foresman).

One lecture weekly, and laboratory attendance of not fewer than two hours per week will be required. The practical work will be assessed for each candidate and the marks included in the schedule of the University. A pass both in the written examination and in the practical course is necessary.
DIPLOMA IN OPTOMETRY

DipOpt

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. A candidate for the Diploma in Optometry shall be a matriculated student of the University, shall keep terms in accordance with the Terms Regulations, comply with the provisions of the Examination Regulations, and pass the examinations hereinafter prescribed.

2. The subjects of examination for the Diploma in Optometry shall be:
   1. Chemistry I
   2. Physics IA or IB
   3. Zoology I
   4. Psychology I
   5. Psychology II
   6. Optometry II 44.20, 44.21, 44.22
   7. Optometry III 44.30, 44.31, 44.32

3. No candidate shall be enrolled in subjects numbered 4 to 7 unless he has been credited with passes in subjects 1 to 3, save with the special permission of the Senate.

4. In the subject Optometry the practical work shall be assessed separately for each candidate. A pass in both the practical work and the written papers is necessary. The practical marks alone may, with the approval of the Senate, be credited to a subsequent year.

5. A candidate who holds the Degree of Bachelor of Science and has been credited with a pass in the units Psychology I and Psychology II for that Degree, may, on payment of the prescribed fees under the Fees Regulations be credited with the units Psychology I and Psychology II for the Diploma in Optometry in addition to any units (or subjects) which he may be entitled to transfer under Regulation 10 of the Enrolment and Course Regulations (General).

304
DEPARTMENT OF PSYCHOLOGY

PRESCRIPTIONS FOR OPTOMETRY

OPTOMETRY II

(Three papers and practical work)

44.22 (a) Physiological Optics IA.

Note: A knowledge of the following topics will be assumed: Reflection and refraction at plane surfaces; spherical mirrors; image by refraction at a spherical boundary.

i. Geometrical Optics. A detailed study of reflection and refraction; thick lenses and systems of lenses; prisms, aberrations; optical instruments.

ii. Physical Optics. The nature of light; photometry; dispersion; interference and diffraction; polarization.

iii. The Eye as an Optical Instrument. The optical system of the eye; ocular refraction and spectacle refraction, size of the retinal image.

Prescribed texts: Fincham, W. H. A., Optics (Hatton Press); Emsley, H. H. and Swain, W., Ophthalmic Lenses (Hatton Press); Bennett, A. G., Optics of Contact Lenses (Assoc. of Dispensing Opticians).

44.21 (b) Physiological Optics IB.

i. Anatomy of the Eye and Orbit. Gross and microscopic structure of the eyeball and its appendages; the bony orbit; the visual pathways; development of the eye.

ii. Physiology of the Eye. Eyelids; lacrimal apparatus; cornea; aqueous humour formation; the intraocular pressure; choroid; ciliary body, iris and pupil; lens and vitreous; the retina and visual pathways.

Prescribed texts: Spooner, J. D., Ocular Anatomy (Hatton Press); Adler, F. H., Physiology of the Eye, 4th Ed. (Mosby).

Recommended books: Last, R. J., Wolff's Anatomy of the Eye and Orbit (Saunders).

44.22 (c) Clinical Optometry.

i. Introduction to Refraction. The theory, instruments and techniques of objective and subjective tests of refraction.
ii. Principles of the correction of ametropia. The prescribing of ophthalmic lenses and contact lenses.

Prescribed texts: Borish, I. M., Clinical Refraction (Professional Press); Grosvenor, T., Contact Lens Theory and Practice (Professional Press).

Recommended books: Giles, G. H., The Principles and Practice of Refraction (Chilton); Mandell, R. B., Contact Lens Practice, Basic and Advanced (Thomas); Doggart, J. H., Ocular Signs in Slit Lamp Microscopy (Henry Kimpton).

Practical: Students will be expected to follow a course of practical training in the vision laboratory of not fewer than six hours weekly. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University.

OPTOMETRY III

(Three papers and practical work)

44.30 (a) Physiological Optics IIA.

i. Sensory mechanisms of the visual system. Photochemistry and electrophysiology of vision; form perception.

ii. Motility of the eye. Accommodation and convergence; physiology of the ocular muscles.

44.31 (b) Physiological Optics IIB.

i. Physical and psychophysical description of the visual stimulus: Colourimetry; anomalies of colour vision; adaptation and temporal effects.

ii. Binocular vision and its anomalies. Space perception; the development of visual perception; theories of perception.

Recommended books: Ogle, K. N., Binocular Vision (Saunders); Walls, G. and Matthews, R., New Ways of Studying Color Blindness (Univ. of California Book Store).

44.32 (c) Clinical Optometry II.

i. Advanced clinical procedures. Case analysis; etiology of refractive errors: orthoptics; contact lens fitting; correction of aniseikonia and subnormal vision.
ii. Recognition of abnormal conditions.

iii. Ophthalmic optics. Theory and design of ophthalmic lenses and frames; the optics and design of contact lenses; the optical principles of aniseikonia.

**Practical:** Students will be expected to follow a course of practical training in the vision laboratory of not fewer than ten hours weekly. The practical work will be assessed for each candidate and the marks included in the marks schedule of the University.

**Post-Diploma Optometric Training**

Students should note that the regulations of the Opticians' Act stipulate that recipients of the Diploma in Optometry must undertake a year of post-Diploma training and pass a practical examination before being registered to practice by the Board. This training will be conducted at the University of Auckland whose optometric staff will undertake supervision of the teaching programme, examining of candidates, and scheduling of patients.
THE DEGREE OF BACHELOR OF COMMERCE

BCom

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Degree of Bachelor of Commerce shall be a matriculated student of the University, shall keep terms in accordance with the Terms Regulations, shall comply with the provisions of the Examination Regulations, and shall pass the examinations hereinafter prescribed.

2. The course of study for the Degree of Bachelor of Commerce shall include nine units, a unit being defined as one year's work in one of the subjects specified in these regulations (the prescriptions are defined elsewhere in this Calendar), and shall comprise the following:

(i) Any ONE of the following:

- History I
- Mathematics IA or IB
- Philosophy I
- Pure Mathematics II
- A Modern Foreign Language

Provided that Maori Studies shall not be accepted as a Modern Foreign Language for the purposes of this clause.

(ii) *Either* Accounting IA 1.10, 1.11, or Accounting IB 1.12, 1.13

(iii) Commercial Law I 2.10, 2.11

(iv) Economics I 13.10, 13.11

(v) Economics II 13.20, 13.21, 13.22

308
(vi) At least TWO of the following:
  Accounting II  1.20, 1.21, 1.22
  Commercial Law II  2.20, 2.21, 2.22
  Economic History II  13.24, 13.25, 13.26
  Psychology I  32.14, 32.15
*Production Analysis  7.20, 7.21
  Pure Mathematics II or III as prescribed for the
  Degree of Bachelor of Arts
  Statistical Mathematics II as prescribed for the
  Degree of Bachelor of Science

*This subject will be offered in 1968 only if a minimum
of four candidates enrol for the subject.

(vii) At least ONE of the following, including either
  Accounting III, or Economics III.
  Accounting III  1.30, 1.31, 1.32
  Economics III  three of 13.30, 13.31, 13.32, 13.33, 13.34
  Economic History III  13.35, 13.36, 13.37
  Pure Mathematics III as prescribed for the Degree
  of Bachelor of Arts
  Statistical Mathematics III as prescribed for the
  Degree of Bachelor of Science

3. (i) Unless the Senate in individual cases allows
otherwise, a candidate shall in his first year of study
include in his course one of the units specified in
Regulation 2(i) hereof and if he fails to obtain a
credit in that unit he shall in the following year in-
clude that unit (or another of the units specified in
Regulation 2(i) hereof) in his course for that year.
(ii) A candidate who at the end of his second year
of study for the Degree has not been credited with
a pass in one of the units specified in Regulation 2(i)
hereof shall not be entitled to proceed with the
Degree without the special permission of the Senate.

4. A candidate, other than a graduate of this Uni-
versity, shall obtain credits in the units specified in
Clauses (i) to (iv) inclusive of Regulation 2 of these
Regulations before proceeding with any other unit
for the Degree provided that the Senate may in any
year in respect of a candidate who has not passed
all such units approve a course consisting of any such units not yet passed together with one or more other units.

5. The units referred to in Regulation 2(v) - (vii) may be taken in any order except that:

(i) A Stage II unit may be taken only after the subject has been passed at Stage I where that exists.

(ii) A Stage III unit may be taken only after the subject has been passed at Stage II.

(iii) Economic History II may be taken only after Economics I has been passed.

(iv) Economic History II may not be taken if Economics II has already been passed and paper 13.21 was taken as one of the options in that subject under the regulations in force in 1963.

(v) Economic History III may not be taken if Economics III has already been passed and paper 13.32 was taken as one of the options in that subject under the regulations in force in 1963.

(vi) Economics III may be taken only after Mathematics IA or IB or Pure Mathematics II has been passed.

(vii) Accounting II may be taken only after Accounting IB has been passed.

Notwithstanding this requirement the Senate may, on the recommendation of the Head of Department, permit a candidate to advance to Accounting II after having taken Accounting IA if he satisfies the Head of Department that he has sufficient knowledge of the practical work included in the course for Accounting IB.

(viii) In and after 1971 a candidate shall not be enrolled in Accounting III unless he has passed in Mathematics IA or Pure Mathematics II or such other unit of Mathematics 310.
as is deemed by the Senate to be of equivalent standard.

(ix) A candidate shall not be enrolled in the subject Production Analysis unless he has passed Economics II and has also satisfied the pre-requisites in relation to practical experience prescribed for the subject.

(x) A candidate shall not be enrolled in Statistical Mathematics II unless he has been credited with a pass in or has been exempted from Pure Mathematics II or has enrolled in it concurrently.

(xi) A candidate shall not be enrolled in Statistical Mathematics III unless he has passed in Pure Mathematics III or has enrolled in it concurrently.

6. Any candidate shall be exempted from Economics I for the Degree of Bachelor of Commerce if he holds another Degree in this University and has passed for that other Degree a stage of Mathematics deemed by the Senate to be sufficiently advanced.

7. Any candidate who has passed Psychology IA or IB for the Degree of Bachelor of Arts or Psychology I for the Degree of Bachelor of Science and who has satisfied the tutorial and other requirements of the Department of Psychology in respect of industrial psychology shall be credited with Psychology I for the Degree of Bachelor of Commerce.

8. Any candidate who holds the Degree of Bachelor of Arts in this University may transfer Economics I and II in addition to any units (or subjects) which he may be entitled to transfer in terms of regulation 10 of the Enrolment and Course Regulations (General).

9. Any candidate who has been credited with a pass in Engineering Mathematics II and Engineering Mathematics III for the Degree of Bachelor of Engineering shall be exempted from Pure Mathematics II, provided that:

311
(a) a candidate who has been credited with a pass in Pure Mathematics II for the Degree of Bachelor of Engineering without having passed Mathematics IA or IB and who qualifies for the exemption from Pure Mathematics II shall be exempted from Mathematics IA in lieu of Pure Mathematics II, and

(b) a candidate who has been exempted the Intermediate Examination for the Degree of Bachelor of Engineering and who qualified for the exemption from Pure Mathematics II shall be exempted from Mathematics IA under Regulation 2(i) in lieu of Pure Mathematics II.

10. Any candidate who has been credited in another Course with a pass in Pure Mathematics II and Pure Mathematics III without having passed Mathematics IA or IB may under Regulation 10 of the Enrolment and Course Regulations (General) be credited with Pure Mathematics II as a unit specified in Regulation 2 (i) and Pure Mathematics III as a unit specified in Regulation 2 (vi).

11. Any candidate who holds the Degree of Bachelor of Engineering in this University, and who has passed Industrial Engineering for that Degree, shall be exempted from Production Analysis for the Degree of Bachelor of Commerce.

Not all of the optional subjects listed will be taught during the current Calendar year.

9. A candidate for the Degree of Bachelor of Laws (Honours) shall not later than eighteen months after he passes or is credited with a pass in the last of the subjects prescribed for the Degree, present a dissertation embodying the results of research undertaken under the direct supervision of a University teacher in the Faculty of Law: provided that the Senate may at its discretion extend the time for presentation of the dissertation.

10. The Degree of Bachelor of Laws (Honours) shall be awarded to candidates who have fulfilled the requirements of these Regulations within the period prescribed by the Senate and whose work throughout the course has been in the opinion of the Faculty of Law of a sufficiently high standard.

11. The Senate may, on written application by a candidate who has completed only the first year of his course for the Degree of Bachelor of Laws and, in special circumstances, any other candidate, and without payment of a fee, grant him permission to transfer to a course under these Regulations and allow him to be credited with a pass in such subjects as he has passed in his course for the Degree of Bachelor of Laws.
12. A candidate whose work does not in the opinion of the Faculty of Law satisfy the standard prescribed in Regulation 10 shall be entitled to have credited to the Degree of Bachelor of Laws without payment of a fee those subjects (being subjects for the Degree of Bachelor of Laws) in which he has passed or in which he has been credited with a pass.

13. (1) Except as otherwise provided in this Regulation, the course of every candidate shall be governed by these Regulations.

(2) The Regulations governing the Degree of Bachelor of Laws (Honours) which were included in the University of Auckland Calendar for 1966 (in this Regulation called 'the old Regulations') are hereby revoked, provided that

(a) the provisions of the old Regulations shall continue to apply until and including the year 1969 notwithstanding the revocation thereof to every candidate who was enrolled at a University in New Zealand before 1967 and who upon his first enrolment after these present Regulations come into force elects to remain under the provisions of the old Regulations:

(b) If any such candidate upon a subsequent enrolment revokes his election, or if any such candidate has not completed his course for the Degree of Bachelor of Laws (Honours) before 1970, the Senate shall prescribe the courses to be completed by that candidate in order to satisfy the requirements for the Degree of Bachelor of Laws (Honours).

14. These Regulations shall come into force on 1 January, 1967.
A candidate seeking admission as a barrister and solicitor of the Supreme Court of New Zealand must, in accordance with the Professional Examinations in Law Regulations 1966:

(a) qualify for admission to the Degree of Bachelor of Laws or Bachelor of Laws (Honours); and

(b) pass, or be credited with a pass in the following additional subjects:

- The Law of Civil Procedure 25.51
- Conveyancing and Draftsmanship 25.52
- The Law of Evidence 25.19
- Legal Ethics and Advocacy 25.53
- Office Administration and Accounting 25.54
- Taxation and Estate Planning 25.21

*Starred subjects will not be taught during the current Calendar year.

Each of the subjects will be taught in the Faculty of Law.

In the subjects the Law of Civil Procedure, Conveyancing and Draftsmanship, Legal Ethics and Advocacy, and Office Administration and Accounting, a candidate is credited with a pass if the Registrar receives a certificate from a teacher in the Faculty of Law that the candidate, having taken the course of study in the subject and done the work of the course to the satisfaction of the teacher, should be credited with a pass in the subject.

Alternatively the candidate must pass the examination in the subject, except in the case of Legal Ethics and Advocacy in which no examination is available.
THE DEGREE OF MASTER OF LAWS AND
MASTER OF LAWS WITH HONOURS

LLM

The personal course of study of every candidate must be
approved by the Senate. Approval will normally be granted for
courses which are in accordance with the following regulations:
for general provisions affecting their courses of study students
are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem
Statutum Regulations a candidate for the Degree of
Master of Laws must before presenting himself for
examination have:

(a) been admitted to the Degree of Bachelor of
Laws, and

(b) kept terms at the Master's stage in the subjects
in which he proposes to present himself for examina-
tion.

(c) complied with the provisions of the Examina-
tion Regulations.

2. (a) Every candidate for the Degree of Master of
Laws shall either

(i) present himself for and pass the examina-
tion in three of the subjects prescribed in Regulation
7 of these Regulations, or

(ii) present himself for and pass the examina-
tion in two of the subjects prescribed in Regulation
7 of these Regulations and present a thesis under the
conditions prescribed in Regulation 3 hereof, or

(iii) present himself in one year for and pass
the examination in two of the subjects prescribed in
Regulation 7 of these regulations and in the following
year present himself for and pass the examination in
two further subjects prescribed in Regulation 7 of
these Regulations, being subjects other than those in
which he presented himself in the previous year.
(b) The choice of subjects to be taken by each candidate shall be subject to the approval of the Dean of the Faculty of Law.

3. When a candidate elects to present a thesis the following conditions shall apply:

(a) The thesis, which shall be of the value of four papers, shall consist of an original contribution to the exposition of law, prepared under the supervision of a University teacher, upon a subject approved by the Dean of the Faculty of Law.

(b) A candidate may present his thesis in the year in which he takes his examination or in a subsequent year.

(c) The thesis must be presented within three years of the year in which the papers are presented, provided that this period may in special cases be extended by the Senate, and provided further that this provision shall not apply to any candidate who completed the papers prior to the end of 1963.

(d) Any candidate who completed the papers prior to the end of 1963 must present his thesis before the end of 1966, provided that this period may in special cases be extended by the Senate.

(e) The candidate shall submit his thesis to the Registrar by 1 November of the year in which it is presented or at a subsequent date if so arranged with his supervising teacher.

(f) When a thesis is forwarded to an Assessor the Dean of the Faculty of Law shall supply a certificate from the supervising teacher stating that he believes the thesis to be the original work of the candidate carried out under the direct supervision of the teacher and stating what part the teacher played in the preparation of the thesis.

4. The personal course of study of every candidate shall require the approval of the Senate provided that the Senate may delegate to the Faculty of Law
the power to approve personal courses of study but provided further that the decision of the Faculty in the exercise of the power so delegated shall be subject to an appeal to the Senate.

5. No candidate shall present himself for examination in a subject with which he has at any time been credited in the examination for the Degree of Master of Commerce.

6. (a) There shall be two classes of Honours — Master of Laws with First Class Honours; Master of Laws with Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) A candidate who has failed the examination or who has qualified for the award of the Degree without Honours shall not thereafter be eligible for the award of the Degree with Honours.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing his final subject for the Degree of Bachelor of Laws, provided that this period may in special cases be extended by the Senate.

7. The subjects of examination for the Degree are the following (the prescriptions are defined elsewhere in this Calendar):

THE DEGREE OF DOCTOR OF LAWS

LLD

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Laws shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Laws until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Laws shall be awarded for an original contribution (or contributions) of special excellence to the history, philosophy, exposition or criticism of law.

4. The Degree shall be awarded on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, provided that in addition to such published work the candidate may submit unpublished work in support of his application.

5. No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any Degree or Diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

(a) three copies of the work to be examined;

(b) a statutory declaration which shall

(i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and

(ii) state what portion (if any) of the work submitted has been previously presented for a
Degree or Diploma of the University of Auckland or any other University; and

(iii) declare that the work in substantially its present form has not been previously accepted for the award of a Degree or Diploma in this or any other University and is not being concurrently submitted for a Degree or Diploma in any other University.

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and

(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with the examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.
(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

(a) to report independently on the quality of the work and its value as a significant contribution to learning; and

(b) to recommend whether or not the Degree should be awarded, provided that where the recommendation is that the Degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A resubmission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the Degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

   (b) have kept terms in accordance with the provisions of the Terms Regulations in the subjects in which he proposes to present himself for examination; and
   (c) comply with the provisions of the Examination Regulations.

2. The Senate may require candidates for the Degree of Master of Music not devoting their full time to University work to attend a prescribed course of study for two years.

3. A candidate shall present himself for and be credited with a pass in, one subject selected from each of the following Groups. (The prescriptions are defined elsewhere in this Calendar.)

   Group A: EITHER (a) Fugue 41.40.
   OR (b) Twentieth Century Compositional Techniques 41.41.

   Group B: ONE paper from a prescribed list to be approved from time to time by the Senate.

   Group C: EITHER (a) A Musical Exercise
   OR (b) A Practical Performance
   OR (c) A Thesis

376
Each of the subjects in this group shall be of the value of four papers.

4. When a candidate elects to write a Musical Exercise, the following conditions shall apply:

(a) The Exercise shall be prepared under the supervision of a University teacher.

(b) A candidate may present his Exercise in the year in which he takes his examination, or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.

(c) The Exercise must be presented within three years of the year in which the papers are presented, provided that this period may in special cases be extended by the Senate.

(d) The candidate shall submit his Exercise together with a certificate from the supervisor stating that the work was carried out by the candidate under his supervision to the Registrar by 1 November in the year in which it is to be presented, or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, an Exercise which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to re-submit it by a later date to be specified by the examiner.

5. When a candidate elects the Practical Performance, the following conditions shall apply:

(a) Performance shall be restricted to any ONE of the following:

(i) An approved orchestral instrument,

(ii) The pianoforte,

(iii) The organ,

(iv) Any other instrument approved by the Head of the Department, OR

(v) The voice.
(b) A candidate shall present a concert performance of approximately one hour's duration, the programme to be approved by the Head of the Department.

The candidate shall submit his proposed programme to the Head of the Department for approval not later than the end of the first term.

(c) A candidate may present his Practical Performance in the year in which he takes his examination or, subject to the provisions of paragraph (d) of this regulation, in a subsequent year.

(d) The Practical Performance must be presented within three years of the year in which the papers are presented, provided that this period may in special cases be extended by the Senate.

(e) The candidate shall present himself for the Practical Performance on a date to be specified by the Head of the Department.

(f) If the Practical Performance does not reach a satisfactory standard, and if the examiner with the concurrence of the assessor so recommends, the candidate may be permitted to present a further Practical Performance at a later date to be specified by the examiner.

6. When a candidate elects to write a thesis, the following conditions shall apply:

(a) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch of Music.

(b) A candidate may present his thesis in the year in which he takes his examination or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.

(c) The thesis must be presented within three years of the year in which the papers are presented, provided that this period may in special cases be extended by the Senate.
(d) The candidate shall submit his thesis to the Registrar by 1 November of the year in which it is to be presented or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

HONOURS

7. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Master's Degree are unsatisfactory or if either the Musical Exercise, Practical Performance or Thesis at its first presentation is unsatisfactory; provided however that, subject to the provisions of paragraph (c) of this regulation, a candidate whose performance at a written examination has been seriously impaired by illness (certified as under the aegrotat regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent written examination and still be eligible for the award of Honours.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing the final subject of his Bachelor's Degree, provided that this period may in special cases be extended by the Senate. For this purpose the academic year is regarded as beginning on 1 March.

DEGREE OF DOCTOR OF PHILOSOPHY

PhD

Regulations for this degree are printed elsewhere in the Calendar.
THE DEGREE OF DOCTOR OF MUSIC

MusD

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Music shall hold the Degree of Bachelor of Music of the University of Auckland or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Music until at least five years after graduation to the qualifying degree.

3. The Degree of Doctor of Music shall be awarded for distinction in musical composition.

4. The candidate shall submit not more than three works of his own, published or otherwise, such works to be selected from the following:

   An oratorio, an opera, a cantata, a symphony for full orchestra, a concerto, an extended piece of chamber music.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

   (a) Three copies of the work to be examined;

   (b) A statutory declaration which shall —

      (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and

      (ii) state what portion (if any) of the work submitted has been previously presented for a
degree or diploma of the University of Auckland or any other University; and
(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall —

(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application.

(b) State the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may —

(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or

(b) elect to proceed with examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.
(b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

(a) to report independently on the quality of the work; and

(b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

THE DEGREE OF BACHELOR OF ARCHITECTURE AND
BACHELOR OF ARCHITECTURE WITH HONOURS

BArch

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Degree of Bachelor of Architecture shall be matriculated, shall keep terms in accordance with the Terms Regulations in the subjects of the intermediate examination, the examinations of the first, second, third and fourth professional years, shall comply with the provisions of the Examination Regulations, and shall pass the examinations hereinafter prescribed.

2. Except as hereinafter provided, a candidate shall be required to pass each examination as a whole. The first, second, third and fourth professional examinations shall include the grades of studio work hereinafter prescribed. In recommending a candidate for a pass in any examination the Senate shall take into consideration his performance in all subjects of that examination.

A candidate who has failed to pass any examination as a whole may, on the recommendation of the Senate, be credited with a subject or subjects of that examination. The candidate may then present in a subsequent year the remaining subjects of that examination together with such subjects of the succeeding professional examinations, if any, as the Senate may permit. The candidate shall be required to pass such a composite examination under the same conditions as set out above.

3. The Degree of Bachelor of Architecture may be awarded with or without Honours. A candidate may be recommended by the Senate for admission to the degree with Honours on the basis of his attaining a high standard in the whole of the work of the fourth professional year (taking into account also his record before entering the fourth professional year).
4. The Vice-Chancellor may on the recommendation of the Senate relax or modify the application of Regulations 2 and 3 in individual cases where undue hardship may be caused.

5. Notwithstanding anything in Regulation 1 hereof the Senate may, subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), exempt a candidate from the Intermediate Examination if it is satisfied that in the University Entrance Scholarship Examination he has reached a satisfactory standard provided that one of the subjects was physics.

6. Notwithstanding anything in Regulation 1 hereof a candidate who has qualified with outstanding merit for the New Zealand Certificate in Draughting (Architecture) may, subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), be admitted by the Senate to the course for the Degree of Bachelor of Architecture with exemption from the Intermediate and First Professional Examinations, or from such parts of the Intermediate and the First Professional Examinations as the Senate deems fit. Any such candidate who has not passed the University Entrance Examination shall apply for admission under the Provisional Admission and Special Admission Regulations.

**SUBJECTS OF EXAMINATIONS**

7. The subjects of the Intermediate examination shall be:

Stage I (or its equivalent) of *Physics and any two others* from the following list of subjects as prescribed for the Degrees of Bachelor of Arts and Bachelor of Science:

THE DEGREE OF MASTER OF ARCHITECTURE

MArch

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Degree of Master of Architecture shall

   (a) have been admitted to the Degree of Bachelor of Architecture; or

   (b) have been awarded the Diploma in Architecture and shall satisfy the Senate that he is qualified to pursue the course for the degree by reason of his professional work or by reason of his having pursued a further course of study or investigation since the award of the Diploma provided that the Senate may in addition require a person seeking enrolment under this provision to pass a special examination conducted by the University of Auckland; and shall

       (i) have kept Terms in accordance with the Terms Regulations while pursuing at the School of Architecture a course of full-time study approved by the Senate for a period of not less than one year;

       or

       have kept Terms and pursued at the School of Architecture a course of part-time study approved by the Senate, for a period of not less than two years;

       Provided that such full-time or part-time study may be carried out in an approved institution outside the University for such period or periods as may be determined by the Senate from time to time.

       (ii) comply with the provisions of the Examination Regulations.

       (iii) submit a thesis and present himself for a written examination as hereinafter prescribed; except that the

        409
Senate may exempt a candidate from the written examination as provided in Section 5 below.

2. The following conditions shall apply to the preparation and presentation of the thesis:

(a) The thesis shall embody the results obtained by the candidate of an original investigation or design or advanced study relative to Architecture. Its title and an outline of the proposed work shall be submitted to the Faculty of Architecture for approval not later than 1 February of the year in which the candidate enrolls provided that approval may be given to a title and outline submitted or re-submitted up until 31 March of that year. The work shall be carried out by the candidate himself under the supervision of a Supervisor appointed by the Senate from the School of Architecture.

(b) The candidate shall submit the thesis, accompanied by a certificate from the Supervisor stating that the work has been carried out wholly by the candidate under his supervision, to the Registrar not later than 1 November in the year in which it is presented, or at a subsequent date if so arranged with the Dean of the Faculty of Architecture. The Registrar shall hand the thesis to the Dean of the Faculty of Architecture.

(c) If the Examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to re-submit it at a later date, to be specified by the Examiner. A thesis that has been submitted twice may not be submitted for a third time.

3. (a) A candidate who has not been exempted from presenting the written examination shall take such examination not later than in the fourth year after enrolling for the degree.

(b) Every candidate shall submit his thesis by 1 November of the fourth year after enrolment for the degree, provided that this period may in special cases be extended by the Senate.

4. Except as provided in Section 5 a candidate shall be required to pass in one of the following subjects:

(1) The Theory of Architectural Design 5.44
(2) Advanced Constructional Design 5.52
5. The candidate will be advised on enrolment whether or not he will be required to present himself for examination in the written paper, provided that, if exemption is granted and if the thesis when presented is not considered to be satisfactory, a candidate may be required either to:

(a) pass the written examination, or
(b) pass the written examination in addition to resubmitting the thesis.

6. Where a candidate has been required to take the written examination the Senate shall take into consideration the combined results of the thesis and the written examination in recommending a candidate for admission to the Degree of Master of Architecture.

Structures II                      Bachelor of Architecture
Building Services I                Degree.

Third Institute Examination:
Testimonies of Study, Group III: A portfolio of work covering the design, construction and interior treatment of selected buildings, sketch designs of buildings or details and structural details.

Theory of Architectural Design I   As prescribed for the Bachelor
Building Services II               of Architecture Degree.
Provided that the Senate may permit a candidate who has passed the First Institute Examination and has passed or has sat the Second Institute Examination to become a full-time student. Students so admitted will be required to keep Terms and pass all the examinations and the studio grade as prescribed for Bachelor of Architecture Second Professional; except that the Senate may grant credits for subjects passed for the Second Institute Examination.

3. Having fulfilled the pre-requisite examinations prescribed in Section 2, the candidate shall enrol at the University of Auckland and pursue a course of full-time study at the School of Architecture for two years, keep Terms, and pass the examinations prescribed for the Diploma course.

4. The subjects of examination for the Diploma shall be:

First Diploma Examination: (As prescribed for BArch Third Professional)

1. Studio Work, Grade III
2. History of Architecture II 5.20
3. Theory of Architectural Design II 5.24
4. Structures III 5.32
5. Building Services III 5.33
6. Building Techniques 5.34
7. Building Economics 5.35

Second Diploma Examination: (As prescribed for BArch Fourth Professional)

1. Studio Work, Grade IV
2. Professional Practice and Building Organisation 5.45
3. Building Law 5.46
4. Structures IV 5.42
5. Architectural Civics 5.47

5. Except as hereinafter provided a candidate shall be required to pass each Diploma examination as a whole, including the grades of Studio work prescribed. In recommending a candidate for a pass in any examination the Senate shall take into consideration his performance in all subjects of that examination.

A candidate who has failed to pass any Diploma examination as a whole may, on the recommendation of the Senate, be credited with a subject or subjects of that examination. The
candidate may then present in a subsequent year the remaining subjects of that examination together with such subjects of the succeeding examination if any as the Senate may permit. The candidate shall be required to pass such a composite examination under the same conditions as set out above.
SCHOOL OF ARCHITECTURE

PRESCRIPTIONS FOR BArch

The prescriptions for the Professional subjects named in the Regulations for the Degree of Bachelor of Architecture and Bachelor of Architecture with Honours are as follows:

Studio Work

Studio work comprises courses of study and practice in the drawing offices (Studios) and laboratories of the School of Architecture. It consists of a wide range of architectural and related subjects in project form providing opportunity for the integration, in the process known as architectural design, of all the contributory subjects.

In architectural design, which includes structure and construction, the architect's methods of communication, sketches, presentation drawings, models, reports, working drawings and specification are practised.

Studio work is divided into four consecutive grades, each grade representing one session's work.

In each year will be included tests in drawing, design, construction and specifications related to the lecture subjects and work of that year.

FIRST PROFESSIONAL EXAMINATION

History of Architecture I (One paper)

5.10 A general survey of Architecture from its beginnings to the twentieth century.

The social, religious and physical influences upon Architecture. The evolution of architectural forms as expressions of man's changing attitudes, beliefs, requirements and techniques as exemplified by Egyptian, Middle Eastern, Greek, Roman, Byzantine, Romanesque, Gothic, Renaissance and Baroque architecture, the eclectic architecture of the 18th and 19th centuries and contemporary movements.

Building Materials I (One paper)

5.11 The physical properties, porosity, durability, changes in appearance, production, manufacture, uses and applications of

415
building materials including the following: stone, brick, concrete, concrete blocks, timber, metals, ceramics, glass, plasters, paints, bitumen, asphalt, asbestos, rubber, mastics and adhesives.

Structures I (One paper)

Building Services I (One paper)
5.13 Human environment, comfort and efficiency in buildings; climate; sun and daylight control; elementary basic theory of thermal insulation, heating and ventilation. Elementary plumbing, drainage and electrical installations.

SECOND PROFESSIONAL EXAMINATION

Theory of Architectural Design I (One paper)
5.14 The process of architecture; factors and conditions underlying architectural form and space; man as measure; aim and purpose; function, site, structure, light, services; the qualities of unity, proportion, rhythm, scale.

Building Materials II (One paper)
5.21 Dimensional instability in building materials; causes and effects, thermal properties, acoustical properties, fire resistant qualities of selected building materials as defined in Building Materials I. Treatment and protection required for special finishes, floor surfacing, precast members. Properties and uses of plastics in building. Autoclaved products. Light weight concretes.
Structures II (One paper)

Building Services II (One paper)

THIRD PROFESSIONAL EXAMINATION

History of Architecture II (One paper)
5.20 (The aim is to intensify the study of particular fields of architecture). Selected fields of architectural history such as Greek orders, Roman planning, Roman structure, Monastic planning, Cathedral planning, Medieval construction, Mannerism and Baroque, Oriental Architecture, 19th century development, Reform Movements, Modern Movement.

Note: The above subjects for intensive study may be changed from year to year — three or four only being taken in any one year as and when lecturers versed in the fields are available.

Selected fields will be published at the commencement of each session.

Theory of Architectural Design II (One paper)
5.24 Planning and environment. Architecture, Landscape Architecture and Town Design as means of modifying the physical

Structures III (One paper)

Building Services III (One paper)

Building Techniques (One paper)

5.34 Site factors; geological investigation, Test Bores, adjacent buildings, shoring and underpinning. Job organization. Equipment; building methods; erection methods, standardization, prefabrication. Special techniques. Economic aspects of choice of structure.

Note: The student will be required to prepare a critical report supported by illustrations of an actual building operation.

Building Economics (One paper)

5.38 Microeconomic factors as parameters in building decisions. Specifications, quantities, cost planning, productivity, density, buildings as investment and urban land economics.
FOURTH PROFESSIONAL EXAMINATION

Professional Practice and Building Organization (One paper)
5.45 The architect, his qualifications, appointment, authority, duties, responsibilities, liabilities, remuneration; sketch drawings; office routine; reports on property; making of surveys, code of professional practice; competitions; duties of Clerk of Works. Preparation of contract documents; building contracts, the formalities attending upon their formation and execution; tenders; superintendence; certificates progress and final; extras, alterations and omissions; vesting of materials and liens.

Methods of financing building projects — private individuals, business organizations, local bodies, government.

Tendering and other methods of contracting for and carrying out work. Job pre-planning — early collaboration between architect, builder and quantity surveyor. Job planning; progress Schedules; subcontractors.

Building Law (One paper)
5.46 The legal aspects of appointment, authority, responsibilities and remuneration of the architect. Secret commissions; ownership of drawings, copyright. Contracts, contract documents, formalities of formulation and execution. Tenders, progress and final certificates. Vesting of materials and liens; liquidated damages and penalties; remedies for breach of contract; excuses for non-performance of contract; arbitration; general legal principles relating to boundaries, fences, party walls and easements.

Structures IV (One paper)
5.42 A more advanced treatment of matters specified in Structures III. Theory of design to resist lateral forces and accepted systems of analysis. Quantitative analysis of frames and fixings in structural steel and reinforced concrete. Simple theory of prestressed concrete, materials and systems. Partial prestress and continuity, prestress applied to frameworks, compression members, cantilevers, walls. Wind pressures on buildings, movement in buildings, shrinkage, settlement and effect on structure. Vibrations and fatigue in buildings. Structural principles, stresses, dispersals and constructional requirements of the following constructional systems:— Precast building frames, lift slab, folded
plate, vaults, domes and shells, suspension structures, lamella, laminated, stressed skin, design in aluminium and light gauge steel. Comparison of different methods of structural design; elastic, limit and model analysis. Structural masonry (brick and block).

Architectural Civics (One paper)

PRESCRIPTIONS FOR MArch

The prescriptions for the subjects named in the Regulations for the Degree of Master of Architecture are as follows:

(1) The Theory of Architectural Design:—5.44.
A course of instruction related to the thesis subjects of the candidates for the Degree. The critical appraisal of existing architectural work, building forms and structures, allied to the thesis subjects.

(2) Advanced Constructional Design:—5.52.
A course of instruction on the structures and structural systems applicable to the thesis subjects of the candidates for the Degree. The site preparation, techniques, plant, equipment and sequence of operations employed.

(3) Building Science (Services and Mechanical Equipment):—5.43.
A course of instruction in the building requirements for insulation, air conditioning, acoustical treatment and mechanical services related to the subjects chosen for the thesis.

(4) Professional Practice, Building Organisation and Economics: 5.55.
A course of instruction in the organisation of the production of designs and of the work itself in conjunction with the contractor. Comparative costs and major economic considerations in the subject of the thesis.
DIPLOMA IN URBAN VALUATION
DipUrbVal

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. A candidate for the Diploma in Urban Valuation shall matriculate in accordance with the Matriculation Regulations, keep terms in accordance with the Terms Regulations, comply with the provisions of the Examination Regulations and pass the examinations hereinafter prescribed.

2. Any candidate who in the opinion of the Senate is unable to attend lectures may be granted exemption from attendance at lectures in not more than five subjects of Division A of the course.

3. A candidate for the Diploma shall be exempt from examination in any subject or subjects in which he has already passed in another course, provided that in all cases the prescription is substantially identical and the standard of these examinations is not lower than that prescribed for the Diploma in Urban Valuation.

4. The subjects of examination shall be in two divisions, A and B. Candidates shall be credited with passes in at least four subjects (including Building Materials I and II) of Division A, before presenting the subjects of Division B.

   The subjects of Division A shall be:

   (1) Building Materials I 37.11
   (2) Building Materials II 37.21
   (3) Building Services 37.13
   (4) Concrete and Steel Construction 37.32

   Note: A candidate who has passed Structures III of the Degree or Diploma courses in Architecture may be credited with the subject Concrete and Steel Construction.

   (5) Architectural Design 37.14
   (6) Architectural Civics 37.47
(7) Specifications, Measurements and Valuation of Materials 37.33

Note: A candidate who has passed for the Degree or Diploma examinations in Architecture Studio Grades I, II and III in which Specifications are included may be credited with the subject Specifications, Measurements and Valuation of Materials.

(8) Building Law 37.46
(9) Accounting 37.51
(10) Principles and Practice of Urban Valuation I 37.49, 37.50

The subjects of Division B shall be:

(1) Urban Land Economics 37.48
(2) Principles and Practice of Urban Valuation II 37.52, 37.53
(3) Practical Tests in Valuation of Town Properties (One full day)

5. On completing the requirements of the Diploma in Urban Valuation, a candidate is required to make application to the Registrar for the award of the Diploma. The application must be received by 10 April if the Diploma is to be presented at the following Graduation Ceremony.

PRESCRIPTIONS FOR DipUrbVal

The prescriptions for the subjects named in the preceding Regulations are given below:

Division A

(1) Building Materials I. (One paper) 37.11.

As prescribed for BArch, including construction and detail requirements of small buildings, footings and foundations, walling and cladding, roofs and roofings, floors and flooring, linings, windows, doors.

(2) Building Materials II. (One paper) 37.21.

As prescribed for BArch, including construction and detail requirements of two storey residential and light commercial
buildings, staircases, fireplaces, flues, flashings, metal windows, hardware, joinery, pavings and finishes.

(3) Building Services. (One paper) 37.13.

(4) Concrete and Steel Construction (One paper) 37.32.

A general knowledge of good and reasonable practice associated with the use of structural steel, reinforced concrete and prestressed concrete in buildings. Structural systems, their behaviour and performance; historical development. The nature and effects of loads acting on buildings; structural action, stress, strain. Factors influencing strength and structural performance. Failure, safety, design loads. The requirements of specifications for steel and the quality of materials and workmanship. Materials used for concrete, proportioning and mixing, placing and protection, control and testing of concrete quality; bending, placing and inspection of reinforcement; formwork and falsework. Materials used for steelwork, welding, erection and inspection of steelwork; fireproofing and general protection. Construction detailing, working drawings, methods of estimating.

Note: A candidate who has passed Structures III of the Degree or Diploma courses in Architecture may be credited with the subject Concrete and Steel Construction.

General principles of composition. Styles of design. General principles of design applied to the architecture of today.

(6) Architectural Civics (One paper) 37.47.

Modern town plans, their principles and techniques. Elements of town design, circulation, central areas, open spaces, industrial, commercial and residential areas. Townscape. Outline of town planning legislation in New Zealand.
(7) Specifications, Measurements and Valuation of Materials.
(One paper) 37.33.

The writing of specifications. The methods of measuring and valuing materials. The preparation of estimates.

Note: A candidate who has passed Studio Grades I, II and III in which Specifications are included may be credited with the subject Specifications, Measurements and Valuation of Materials.

(8) Building Law (One paper) 37.46.

The legal aspects of appointment, authority, responsibilities and remuneration of the valuer. Secret commissions; ownership of drawings, copyright. Contracts, contract documents, formulation and execution. Tenders, progress and final certificates. Vesting of materials and liens; liquidated damages and penalties; remedies for breach of contract; excuses for non-performance of contract; arbitration; general legal principles relating to boundaries, fences, party walls and easements.

(9) Accounting (One paper) 37.51.

(10) Principles and Practice of Urban Valuation I (Two papers) 37.49, 37.50.

The historical development of the profession with particular reference to New Zealand, The Valuation of Land Act 1961. The principles of valuation, the methods available to the valuer and their application to the valuation of land and improvements in residential local industrial and local commercial districts, for rentals, sale and purchase, mortages, progress and final inspections, and taxation. The law and procedure relating to the subdivision of land. An appreciation of the form and contents of valuation reports. The recording and analysis of evidence of sales of vacant and improved properties and of rentals.
Division B

(1) Urban Land Economics (One paper) 37.48.

(2) Principles and Practice of Urban Valuation II (Two papers) 37.52, 37.53.

(3) Practical Tests in Valuation of Town Properties. (One full day)

Candidates will be required to carry out practical field tests in Urban Valuation.

Note: The text-books recommended for these subjects may be ascertained by reference to the Department of Architecture prospectus.
DIPLOMA IN TOWN PLANNING AND
DIPLOMA IN TOWN PLANNING WITH HONOURS

DipTP and DipTP(Hons)

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General). An intending candidate who seeks admission on the basis of a professional qualification or a Degree qualification other than in Architecture or Engineering must apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Town Planning shall before enrolment:

   (a) have been admitted or have qualified for admission to a Degree in Architecture, or Engineering, or

   (b) be the holder or have qualified for the award of a Diploma in Architecture, in Surveying, or in Urban Valuation provided that, if not so qualified, a person may with the leave of the Senate be a candidate for the Diploma in Town Planning if before enrolment he

      (i) has been admitted or has qualified for admission to a Degree other than Architecture or Engineering, or

      (ii) holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning.

2. The Diploma may be awarded with Honours (in accordance with regulations 5, 6 and 7) or without Honours.
3. Every candidate shall
   (a) pass the examinations in the following subjects:
       (i) Town Planning Theory 36.10
       (ii) Town Planning Techniques 36.11, 36.12
       (iii) Geography as Related to Town Planning 36.13
       (iv) Civil and Traffic Engineering as Related to Town Planning 36.14
       (v) Architecture and Landscape as Related to Town Planning 36.14
       (vi) Statutory Planning and Administration 36.16
   (b) submit not later than 1 November in the year he presents the final subject in regulation 3 (a), a satisfactory dissertation upon a topic approved by the Head of the Department of Town Planning;
   (c) pursue a course of instruction in Drawing Office and Field Work provided by the Department, and submit to the Registrar a certificate signed by the Head of the Department that he has satisfactorily completed the course of instruction: but the certificate shall not be granted before the candidate has passed the written examinations.

4. A candidate who has followed a course of study and passed the required examination as part of a course for a University Degree or Diploma or Professional qualification, in a unit or subject the same as or substantially equivalent to any of those numbered (iii), (iv), or (v) in Regulation 3 (a) may, at the discretion of the Senate, be exempt from not more than two of the last-mentioned subjects upon condition that he pays the fees as prescribed in respect of exempted units or subjects.

5. (a) A candidate shall be eligible to enrol for the Diploma with Honours only if he has been granted the leave of the Senate so to do; to which it may be a pre-requisite that he has attained a high standard in the work prescribed in Regulation 3.
(b) The Senate shall inform him as soon as reason-
ably possible after his completion of that work whe-
ther or not he has leave so to enrol.

(c) Not later than 31 January next following, an
eligible candidate desiring to enrol for the Diploma
with Honours shall notify his desire to the Registrar
in writing.

6. A candidate for the Diploma with Honours shall
present a Thesis to which the following conditions
shall apply:

(a) the Thesis shall embody the results obtained by
the candidate in an investigation, approved by the
Head of the Department, in some branch of the sub-
ject of Town Planning;

(b) the candidate shall in the first, second or third
year following his completion of the work prescribed
in Regulation 3 (a), submit his Thesis to the Registrar
by 1 November or at a subsequent date approved by
the Head of the Department;

(c) Honours shall be awarded upon the results of
the Thesis but if a Thesis is not of sufficient standard
the Diploma shall be awarded to the candidate with-
out Honours.

7. No person who has been awarded the Diploma
in Town Planning shall be eligible to be a candidate
for the Diploma with Honours.

8. (i) Except as otherwise provided in this Regula-
tion, the course of every candidate shall be governed
by these Regulations.

(ii) The Regulations governing the Diploma in
Town Planning which were included in the Univer-
sity of Auckland Calendar for 1967 (in this Regula-
tion called 'the Old Regulations') are hereby revoked:
provided that a candidate who enrolled under the
Old Regulations and who except for presenting a
satisfactory thesis has completed the work and re-
quirements therein prescribed

428
(a) may submit a dissertation in accordance with Regulation 3 (b) hereof, in order to qualify for the Diploma; or, alternatively

(b) may enrol for the Diploma in Town Planning with Honours and present a Thesis in accordance with Regulation 6 (as if the work completed under the Old Regulations were the work prescribed in Regulation 3 (a) and 3 (c) hereof).

9. These Regulations shall come into force on 1 January 1968.
DEPARTMENT OF TOWN PLANNING

PRESCRIPTIONS FOR DipTP and DipTP(Hons)

The prescriptions of the subjects named in the preceding regulations are given below:

(1) Town Planning Theory
36.10 The main contributors to town planning thought, their theories and ideas, together with examples of the application of these in towns past and present. The objectives of present-day regional and town planning in N.Z. and selected overseas countries. Town planning in the context of social, economic and physical planning. The role of the town planner.

(2) Town Planning Techniques

(Two papers)
36.11 (a) Surveys for land-use planning. Social surveys. Assimilation and preparation of survey material. Projections for land-use planning. Use and study of planning maps and statistical data. Organisation of regional and local planning in N.Z. and in selected overseas countries.

(3) Geography as related to Town Planning
36.13 Principles of Geography. Geography and Town Planning. Urban Geography. Geographic techniques relevant to town planning: preparation of base maps and the use of air photography; land use; population and resource surveys and their analysis and presentation; definition of regions. Geography of New Zealand: main physical features, land use, distribution of population, economy, employment, industrial location and communications.

(4) Civil and Traffic Engineering as related to Town Planning
36.14 Public utility services: water, gas and electricity, sewerage and land drainage; an appreciation of the main requirements and reticulation systems of each. Flood prevention. Soil conditions and earth grading. Railway engineering requirements.
Road engineering design. Road systems, national and local. Principles of road planning. Road haulage and passenger transport requirements. Traffic movement and surveys. Car parking requirements.

(5) Architecture and Landscape as related to Town Planning

(6) Statutory Planning and Administration

(7) Drawing Office and Field Work
The course of study includes as an essential part Drawing Office Work related to the lectures. Students will be required to visit sites, make simple town planning surveys, gather relevant data, and work out a series of problems and exercises in maps, designs and reports.

(8) Dissertation
The dissertation shall be a written discourse, generally not less than 5,000 words nor more than 10,000 words in length, on an aspect of town planning approved by the Head of the Department. It must be an original work and presented in a form appropriate to its value as permanent departmental reference material.

(9) Thesis
The thesis, on an aspect of town planning approved by the Head of the Department, must be the original work of an individual student. The thesis may be written or may be a design accompanied by a report. A copy of the thesis shall, after the award of the Diploma with Honours, be deposited with the University Library.

MANAGEMENT

DipBldg

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

An intending candidate who seeks admission on the basis of a professional qualification, practical experience, the New Zealand Certificate in Building, Drafting (Architecture), or Engineering, or a Degree qualification other than in Engineering or Architecture, must apply for admission in accordance with the requirements of the Provisional Admission and Special Admission Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma shall be

(a) a graduate in Engineering, Architecture or, with the approval of Senate, a graduate in any other faculty; or

(b) a holder of a Diploma in Architecture, a Diploma in Surveying or a Diploma in Urban Valuation; or

(c) a holder of a professional qualification in Architecture, Engineering, Surveying, or Quantity Surveying, who is approved by the Senate as a suitable candidate; or

(d) a holder of the New Zealand Certificate in Building, Drafting (Architecture) or Engineering, who has obtained a pass with outstanding merit; or

(e) any person who has had not less than 5 years’ responsible practical experience in Architecture, Engineering, Building and Construction, or Quantity Surveying and who is approved by the Senate. The Senate in granting approval for the purpose of this paragraph may accept a candidate with a shorter period of practical experience if the candidate has followed an appropriate course of study at a University for at least two years and passed the required examinations.
2. A candidate seeking admission under Regulation 1 (c), (d) or (e) above, who has not been granted the University Entrance Qualification by the Universities Entrance Board, must apply for admission in accordance with the requirements of the Provisional Admission and Special Admission Regulations.

3. Every candidate shall

(a) Pass the examinations in the following subjects:
   Plant, Techniques and Materials  49.10
   Estimates, Specifications and Quantities  49.11
   Aspects of Building Law  49.12
   Costing and Accounting  49.13
   Corporation Law and Finance  49.14

   Building Management company organisation; control and supervision of projects; work study in the building industry  49.15, 49.16, 49.17

(b) Carry out and report on to the satisfaction of the Senate a series of case studies in approved topics allied to the above subjects.
This course may be taken in one year of full-time study or two years of part-time study. In the first year of the part-time course usually the first four subjects would be taken, three subjects being the required minimum.

The first year of the part-time course will be offered only if a minimum of four students enrol for the course.

The prescriptions for the subjects named in the preceding Regulations are given below:

Plant, Techniques, and Materials (one paper 49.10)

Estimates, Specifications, and Quantities (one paper 49.11)

Aspects of Building Law (one paper 49.12)
The principles applicable to contracts and other legal problems commonly encountered within the building industry.

Costing and Accounting (one paper 49.13)
Corporation Law and Finance (one paper 49.14)

The legal and financial structure of companies and partnerships. Principles of law and accounting governing the financing of companies and partnerships and building projects. Financial appraisal of projects.

Building Management (three papers 49.15, 49.16, 49.17)

Course Work

A series of case studies drawn from the building industry and covering the syllabus for Building Management plus other subjects in the course.

Text-books for subjects of this Diploma will be prescribed at the commencement of the Course.
THE DEGREE OF BACHELOR OF ENGINEERING

BE

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study, students are referred to the Enrolment and Course Regulations (General).

HONOURS

1. The Degree of Bachelor of Engineering may be awarded with or without Honours according to the standard of the candidate's work. There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division.

GENERAL PROVISIONS

2. (a) Except as otherwise provided, a candidate for the degree of Bachelor of Engineering shall be required

(i) to pursue a course of study for a period of not less than four years, and

(ii) to pass an Intermediate Examination and three Professional Examinations, and

(iii) to perform Practical Work to the satisfaction of the Faculty of Engineering.

(b) A candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination (including each Examination under Regulation 4), so that his performance in all the units of the Examination shall be considered: provided that a candidate who has failed to pass any such Examination as a whole may at the discretion of the Senate be credited with a unit or units of the Examination and permitted in a subsequent year to present the units not so credited, together with (if the Senate permits) a unit or units of the next succeeding Examination. The candidate shall then be re-
required to pass a composite Examination in all the units so presented upon the same conditions as those prescribed in this sub-clause.

3. (a) A candidate who has been credited for the Degree of Bachelor of Science with any or all of the units Chemistry I, Physics IB, Mathematics IA and Applied Mathematics I shall be credited with such unit or units for the purpose of this Degree.

(b) For the purpose of this regulation only

(i) Chemistry II shall be substituted for Chemistry I;

(ii) Physics II shall be substituted for Physics IB;

(iii) Pure Mathematics II shall be substituted for Mathematics IA, and

(iv) Applied Mathematics III shall be substituted for Applied Mathematics I

in any case where a candidate has been permitted in the course for the Degree of Bachelor of Science to enrol for the particular subject at Stage II or III (as the case may be) without first presenting that subject at Stage I.

4. A candidate for the Degree of Bachelor of Engineering who

(i) has been awarded or has qualified for the award of the Degree of Bachelor of Science, or

(ii) has completed within two years the examination requirements for the award of the Degree of Bachelor of Science, or

(iii) was permitted to enrol for Stage II or Stage III units in a subject without first presenting that subject at Stage I and who, if the Stage I units not taken were included, would have qualified within two years for the award of the Degree of Bachelor of Science

437
shall be required to pursue a course of study for a period of not less than two years in such subjects for the Degree as the Dean of the Faculty may prescribe and to pass an Examination in each year in the subjects so prescribed for that year; provided that

(i) the Examination for the first year shall be such that the amount of necessary study shall be substantially the same as for the Second Professional Examination;

(ii) all the subjects and units of the Third Professional Examination shall be included in the candidate's course of study but none such in the first year;

(iii) the candidate shall be exempt from the units and subjects of the Intermediate Examination and from such other units and subjects of the Degree as are not prescribed for his course under this regulation.

5. Any candidate who has passed in one year in Mathematics IA or Pure Mathematics II, and Physics IB or II, and Chemistry I or II, and one other unit, may be exempted by the Senate from the units of the Intermediate Examination, provided that he has also completed a course in Elementary Mechanics approved by the Senate.

6. The Senate may exempt a candidate from the Intermediate Examination if it is satisfied that in the Entrance Scholarships Examination he has reached a satisfactory standard and if the subjects the candidate has taken include Chemistry, Physics, Mathematics, and Additional Mathematics.

7. A candidate who has qualified with outstanding merit for the New Zealand Certificate of Engineering or the New Zealand Certificate in Draughting in the fields of Civil, Mechanical, or Electrical Engineering, or Telecommunications, may be exempted by the Senate from the Intermediate and First Professional Examinations or from such units of those Examinations as the Senate thinks fit.
8. Regulations 3, 4, 5, 6 and 7 of these regulations are subject to, so far as they are not inconsistent with, the provisions of the Enrolment and Course Regulations (General) relating to cross-credits and exemptions.

9. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Practical Work.

10. For the Second and Third Professional Examinations the candidate shall follow one of the following five courses:

- Chemical and Materials Engineering
- Civil Engineering
- Electrical Engineering
- Engineering Science
- Mechanical Engineering.

11. The subjects of the Examinations for the Degree shall be:

**Intermediate Examination**

- Mathematics IB 26.12, 26.13
- Chemistry I 8.10, 8.11
- Physics IB 31.12, 31.13

or

- Mathematics IA 26.10, 26.11
- Applied Mathematics I 27.10, 27.11
- Chemistry I 8.10, 8.11
- Physics IB 31.12, 31.13

**First Professional Examination**

- Drawing and Design I 50.10
- Electrical Engineering I 50.11
- Engineering Mathematics II 50.12
- Materials I 50.13
- Mechanics I 50.14, 50.15, 50.16
- Thermodynamics I 50.17
Second Professional Examination
Chemical and Materials Engineering Course:
Advanced Chemistry A 51.20, 51.21

†Not all of the optional subjects will be taught during the current Calendar year.

12. The Regulations governing the Degree of Bachelor of Engineering set forth in the University of Auckland Calendar for 1966 are hereby revoked: provided that every candidate who began his course under the last-mentioned regulations shall be credited for the purpose of these present regulations with such units as the Senate may determine.

13. These regulations shall come into force on 1 January 1967.
THE DEGREE OF MASTER OF ENGINEERING

ME

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. In order to qualify for the Degree of Master of Engineering a candidate must have been admitted to the Degree of Bachelor of Engineering, except as provided in the Admission Ad Eundem Statum Regulations, and shall:
   (i) have kept terms in and pursued a course of study approved by the Senate for not less than one year;
   (ii) comply with the provisions of the Examination Regulations;
   (iii) obtain a pass in the examination and the thesis herein-after prescribed.

2. The Degree of Master of Engineering shall be awarded to a candidate on the results of the examination and of the thesis. A candidate shall be required to pass in respect of both the papers (considered together) and the thesis. The thesis shall count as three papers.

3. The examination shall be in one of the following subjects:
   *Advanced Chemical and Materials Engineering 51.60, 51.61, 51.62
   Advanced Civil Engineering 52.60, 52.61, 52.62
   Electrical Engineering IV 53.60, 53.61, 53.62
   Engineering Science 54.60, 54.61, 54.62
   Mechanical Engineering IV 55.60, 55.61, 55.62

4. The following conditions shall apply to the preparation and presentation of the thesis:
   (i) The thesis shall embody the results obtained by the candidate in an investigation in a subject approved by the Faculty of Engineering. The investigation shall be carried out by the candidate himself, under the direct supervision of a University teacher, at a University institution.
   *Starred subject will not be offered during the current Calendar year.
(ii) The candidate shall submit the thesis to the Registrar by a date arranged with the Head of his Department. The Registrar shall forward the thesis to the examiner through the Head of the Department concerned.

(iii) When a thesis is forwarded to an Assessor, the Head of the Department concerned shall supply a certificate from the supervising teacher stating that the conditions of clause (i) above have been fulfilled, and stating also what part the teacher played in the work and preparation of the thesis.

(iv) If a thesis on first presentation is unsatisfactory, the Vice-Chancellor may in exceptional circumstances, when recommended by the examiners, permit the candidate to re-write the thesis and submit it by a specified date.

(v) The thesis must be presented not later than three years after enrolment for the degree, provided that this period may in special cases be extended by the Senate.
SCHOOL OF ENGINEERING

The School of Engineering is at present in the process of moving to new buildings on the University main site. In 1968 some courses will be offered on the main site and others will be offered at Ardmore which is about 22 miles south of Auckland and 4 miles from Papakura.

A hostel is available for students requiring accommodation at Ardmore (see Hostel regulations).

PRESCRIPTIONS FOR BE

The prescriptions for the subjects named in the preceding Regulations are listed below.

Where laboratory, field, or other practical work forms a part of the course requirements for any of the above subjects, no candidate shall be granted terms in the subject until he has completed such work to the satisfaction of the Head of the Department concerned.

INTERMEDIATE EXAMINATION

Applied Mathematics I
Chemistry I
Mathematics IA
Mathematics IB
Physics IB

as prescribed for the Degree of Bachelor of Science

PROFESSIONAL EXAMINATIONS

50.10 Drawing and Design I

The elements of engineering draughting.

50.11 Electrical Engineering I

Survey of basic electrical theory introduced in terms of transmission of energy and information. D-c power, d-c circuit analysis, electric and magnetic fields, a-c power, a-c circuit analysis, transformers. Measurements. Energy conversion. Elementary diode circuits.

446
50.12  Engineering Mathematics II

Calculus: Differentiation; Leibniz theorem; partial differentiation; methods of integration; definite integrals; multiple integrals; applications to areas, volumes, moments, length of arc, etc. Analysis: Logarithmic, exponential and hyperbolic functions; convergence of infinite series; Taylor's theorem; the common power series; Fourier series. Geometry: Curve sketching; plane curves such as the cycloids, catenary, etc.; curvature, envelopes, etc. Algebra: Polynomials; complex numbers; linear equations and introduction to matrices; determinants. Differential Equations: Elementary methods of solution of first order and simple second or higher order ordinary differential equations. Numerical Methods: Interpolation, differentiation and finite difference formulae; numerical integration; solution of equations by Newton's and other methods. Statistics: Frequency distributions and theoretical models; measures of central tendency and dispersion; elementary probability theory.

50.13  Materials I

(Alternative syllabuses appropriate to students' prospective course).

(a) Chemical and Materials Engineering and Engineering Science Courses:
An introductory course dealing with the behaviour of materials, treated from a rather fundamental standpoint.

(b) Civil Engineering and Mechanical Engineering Courses:
An introductory course dealing with the behaviour of engineering materials.

(c) Electrical Engineering Course:
An introductory course dealing with the behaviour of engineering materials, especially electrical and magnetic materials.

50.14, 50.15, 50.16  Mechanics I

50.14  Statics and Solid and Structural Mechanics
Static: Equilibrium of systems of forces and moments in two and three dimensions. The principle of virtual work.

Structural Mechanics: Statically determinate beams and trusses.

50.15 Dynamics and Mechanics of Machines
Dynamics and the application of dynamics to the study of machines and machine elements.

50.16 Fluid Mechanics

50.17 Thermodynamics I
An introduction to the fundamentals of thermodynamics and the elements of useful thermodynamic processes applied to engineering, including: Power and refrigeration cycles; gas dynamics; combustion and chemical processes.

Students not proceeding to a further stage in this subject will be given also an introduction to heat transfer and psychrometry.

51.20, 51.21 Advanced Chemistry A
Structural, physical, inorganic and organic chemistry.

51.22, 51.23 Chemical Engineering I
The following and related topics: Stoichiometry, fuels, heat transfer, humidification and drying, evaporation, distillation, gas absorption, extraction, crystallization, filtration sedimentation, mixing, size reduction, fluidization, absorption, base exchange, applied electrochemistry, thermodynamics and kinetics, catalysis and reactor design, unit processes in synthesis of chemicals, furnaces, automatic control, theory and planning of experiments, theories of momentum, mass and heat transfer, theory of models, interface phenomena, materials of construction.

51.24, 51.25 Materials II
The structure and properties of materials. Metals, ceramics, glasses, polymers, elastomers, etc.; composite materials.

51.26 Thermodynamics II S
Classical Thermodynamics: Revision of principles developed
in Thermodynamics I with extension to selected mechanical, electrical, magnetic and physico-chemical systems.

Statistical Thermodynamics: An introductory course with applications especially to crystalline solids.

Irreversible Thermodynamics: An introductory course with applications especially to thermoelectric systems.

Kinetics: The classical theory of reaction rates. First, second and higher order reactions. Diffusion.

51.30, 51.31 Chemical and Materials Technology
The technology of chemical process, metal-producing and 'conversion' industries, with special reference to industries of importance to New Zealand.

51.32, 51.33 Chemical Engineering II
Syllabus as for Chemical Engineering I, but taken to a more advanced level.

51.40 Advanced Chemistry B
An advanced course on selected aspects of structural, physical, inorganic and organic chemistry.

51.41 Process Control
Analysis and performance of automatic control systems, with special reference to process control.

51.42 Materials III
An advanced course on selected aspects of the properties of materials.

51.99 Special Topic in Chemical and Materials Engineering
An advanced course on a topic to be determined each year by the Head of the Department of Chemical and Materials Engineering.

52.20, 52.21 Drawing and Design IIC
As for 55.21, 55.22, Drawing and Design IIM.

52.22 Engineering Geology
Principles of physical and structural geology, seismology and elementary stratigraphy. Petrology and mineralogy of the
common rocks, rock groups and rock forming minerals. Geolog-
ical surveying and mapping. Geology of water supply and the
general application of geology to Civil Engineering.

52.23 Fluid Mechanics I

Dimensional analysis. Rotodynamic machines. Viscous flow.
Elementary lubrication theory. Turbulent flow. Boundary layer.
Lift and drag. Flow of water in pipes. Pumping systems. Open
channel flow. Similarity and models. Elements of gas flow in
pipes.

52.24 Mechanics and Properties of Materials I

Stress-strain properties of materials, bending, shear and
torsion. Deformations and deflections. Elements of the proper-
ties of soils, aggregates, concrete and other materials used in
civil engineering.

52.25 Structures I

Conventional restraints, stability of structures. Analysis of
statically determinate trusses. Virtual work, strain energy, com-
plementary energy, potential energy; application to structural
analysis. Compatibility, equilibrium. Deflection of trusses, in-
determinate trusses. Elastic equation for bending, analysis of
deflection of beams by energy and virtual work, analysis of in-
determinate beams, methods of analysis of frame structures in-
cluding slope deflection and moment distribution, sway of
simple structures. Maxwell-Betti and Muller-Breslau principles.
Influence lines. Buckling of struts.

52.26 Surveying

Linear measurement, chain surveying. Theodolite. Traverse
and co-ordinates. Levelling. Tacheometry, stadia surveying.
Calculation of area and volumes. Earthwork calculations and
mass diagram. Setting out: Horizontal circular curves, vertical
curves, transition curves. Photogrammetry: Perspective projec-
tion, vertical stereoscopic pairs, stereoscope and parallax bar,
height determination, radial line plotting, rectification, epipolar
Hydrographic surveying.
52.30, 52.31  Civil Engineering

The principles of public health engineering, hydrology and hydraulic engineering, contract law and management. Precise surveying, traffic and highway engineering.

52.32  Drawing and Design IIIC

One half of the year will be allocated to the design and preparation of working drawings of structures. During the remaining half-year the design problems will relate to the candidates' electives.

52.33  Fluid Mechanics II

52.34  Mechanics and Properties of Materials II

Concrete technology. Theory of design of reinforced and prestressed concrete. Experimental stress analysis, the structure and properties of selected materials used in civil engineering.

52.35  Soil Mechanics

52.36  Structures II

Extension of moment distribution to large structures, arch theory, column analogy, introduction of matrix methods of structural analysis, plastic design, vibrations and seismic analysis of buildings. Elements of plate theory, slab design and load distribution theories.

52.40  Advanced Fluid Mechanics

52.41 Advanced Mechanics and Properties of Materials

52.42 Advanced Soil Mechanics

52.43 Advanced Structures
Further matrix analysis, elasticity, membrane theory, plates and shells, cable structures, stability of beams and frameworks under axial loads. Model analysis, photoelastic methods, analysis of dams for static and dynamic loads.

52.44 Advanced Surveying
Advanced Photogrammetry, analytical methods of interpretation. Epipolar and radial plane plotting machines.
Geodesy: Figure of the earth. Map projections.
Astronomy: Precise observations for azimuth, latitude. Time.

52.45 Construction Management

52.46 Hydrology, Water Resources and Hydraulic Engineering
Additional topics in hydrology and related sciences. Hydrology of urban areas. Flow control and flood routing. Planning and development of water resources. Principles of hydraulic engineering applied to development of rivers and ports, irrigation, drainage and coast protection. Project work is included.

52.47 Public Health Engineering
Quantitative treatment of processes of water purification, sewage treatment, refuse disposal, pollution of rivers, coastal waters and atmosphere.
52.48 Transport Engineering
Traffic flow and queuing. Problems associated with roading and traffic flow in cities, parking. Economics of road transportation. Principles and economics of air, rail and water transportation.

52.49 Advanced Engineering Geology
Geological principles applied to engineering problems.

52.99 Special Topic in Civil Engineering
An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

53.20 Electrical Engineering IIS
Electronics: thermionic valves, semiconductor devices, associated circuits.
Maxwell's equations: electromagnetic wave propagation.
Logic circuits, elements of digital computation.

53.21, 53.22, 53.23 Electrical Engineering II
53.21 Electromechanical Energy Conversion.
Polyphase systems. Production of rotating field. Induction and synchronous machines. Field form and wave form.
The transformer equivalent circuit. Use of normalised quantities.
Transmission lines, single-phase and three-phase:— nominal \( T \) and \( \pi \), distributed constants, propagation, standing waves, reflection and transmission of plane electromagnetic wave.

Introduction to closed-loop systems, Nyquist criterion, poles and zeros, root locus.

53.23 Introduction to the physics of thermionic valve and semiconductor devices.

Diode and rectifier circuits, thyatron, silicon controlled rectifier, associated circuits.

Characteristics and parameters of thermionic valves and transistors. Small signal circuit theory, equivalent circuits, voltage and power amplifiers, feedback circuits, wide band amplifiers.

53.30 Electrical Design

The principles of design of electrical apparatus and systems. Each candidate is required to submit a report on project work which he has carried out during the year on an assigned topic.

53.31, 53.32, 53.33 Electrical Engineering III

53.31 Utilization of electrical plant.

Transformers polyphase and multi-winding. Harmonic phenomena.

Induction motors, polyphase and single-phase. Starting speed control and general characteristics.

Variable speed drives — motor characteristics.

Synchronous machines, equivalent circuits.

Rectifiers: mercury arc and solid state.

Feedback control systems.

53.32 Circuit theory and transmission lines.

Review of Laplace Transform methods. Fourier analysis.

Transmission lines: parameters including skin-effect resistance; surges; high frequency phenomena, standing waves, Smith Chart, losses, distortion. Simple infinite plane polarized wave. Wave guides. Power transmission lines, circle diagram.

Coupling networks: Attenuators, filters designed on image basis, Butterworth and Chebyshev filters.
53.33 Electronics.

Generalised small signal circuit analysis, two stage amplifier configurations, complementary devices.

Push pull amplifiers:— operation, design and thermal stability.

General feedback principles and stability considerations, oscillators, tuned circuit voltage and power amplifiers.

53.40 Electrical Engineering IIG

A course on electrical and electronic components and circuits leading to the study of industrial instrumentation, control systems and applications of electrical energy.

53.41 Communications

Modulation and demodulation and associated circuits; Fourier series, Fourier integral; Sampling theorem, Information theory, Statistical methods: Signal transmission through networks, convolution integral; Random signals and noise.

53.42 Control Systems

Analogue computation, operational amplifier solution of differential equations, simulation of systems. Non-linear methods.

53.43 Electrical Supply

Insulation:— influence on cable and plant construction, lines and cables, corona loss, thermal problems.

Equivalent circuits of multi-winding transformers and large synchronous machines.

Faults, calculations including the use of symmetrical components, network analyzers. Protection. Stability.
53.44 **Electromagnetic Fields**

53.45 **Semiconductors**
Outline of quantum theory, leading to energy band description of semiconductor action. P-N junction, physical nature and circuit properties. Transistors, low frequency and high frequency characteristics, circuit behaviour. Special transistors.

53.99 **Special Topic in Electrical Engineering**
An advanced course on a topic to be determined each year by the Head of the Department of Electrical Engineering.

54.20, 54.21, 54.22 **Continuum Mechanics I**
54.20 As for Mechanics II Paper 55.25.
54.21 As for Mechanics II Paper 55.27 or Fluid Mechanics I Paper 52.23.
54.22 Mathematical treatment of continuum mechanics, together with necessary vector and tensor analysis.
Special studies in fluids, elasticity, soil mechanics and plates and shells, etc.

54.23 **Engineering Mathematics III**
Ordinary Differential Equations: Methods of solution; simultaneous equations; applications to vibrations, beams, etc. Partial Differential Equations: Diffusion equation, Laplace's equation, wave equation and solution of boundary value problems by separation of variables; d'Alembert's solution of wave equation; relaxation methods. Laplace Transforms: Introduction and application to ordinary differential equations, etc. Vector Analysis: Gradient, divergence, curl and integral theorems. Matrices: Manipulation, inversion, eigenvalues, etc. Statistics: Discrete and continuous distributions; elementary sampling theory.

54.24, 54.25 **Engineering Mathematics IIIS**
54.24 Ordinary Differential Equations: Standard methods of solution; solution in series; phase plane methods; Bessel func-

54.25 Numerical Analysis: Theory and practice of numerical techniques, especially the solution of simultaneous linear algebraic equations and of ordinary and partial differential equations.

Statistics: Probability; theoretical distributions; estimation with large and small samples; regression.

(Practical work to include computer programming and operation).

54.30, 54.31 Continuum Mechanics II

54.30 Selection of topics from following list:— Elastostatics, elastodynamics and seismological phenomena, plates and shells, dislocation theory, plasticity, viscoelastic media, etc.

54.31 Selection of topics from following list:— Potential flow, compressible flow, turbulent flow, boundary layer, hydrodynamic stability, magnetohydrodynamics, etc.

54.32, 54.33 Engineering Mathematics IV S

54.32 Calculus of variations, including an introduction to generalised dynamics; functions of a complex variable with applications; integral equations including Green's functions; perturbation methods.

54.33 Further numerical analysis and methods of approximation; random processes and information theory; elements of statistical mechanics.

54.40 Engineering Mathematics IV

Selection of topics from following list:— Transform theory and applications, functions of a complex variable, variational methods, numerical techniques, statistics, electromagnetism, elasticity, etc.
54.99 *Special Topic in Engineering Science*

An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

55.20 *Drawing and Design IIIG*

Selected topics from 55.21, 55.22 Drawing and Design IIM.

55.21, 55.22 *Drawing and Design IIM*

The application of the principles of mechanics to the design of mechanical and structural components.

55.21 The engineering approach to design. Selection of materials. Failure theories and design stresses. Limits and fits. Design of mechanical components, including shafts, bearings, power transmission, fastenings and friction devices.

55.22 Design of beams; columns, ties, struts, and connections in structural steel and timber. Design of slabs, beams, columns and footings in reinforced concrete.

55.23 *Materials and Processes*

A course dealing with manufacturing engineering processes and the basic principles underlying them. Foundry processes; forming by deformation; forming by cutting; forming by joining. Heat treatment. Surface finishing. Introduction to quality control.

55.24 *Mechanics IIIG*

Structural Mechanics: Analysis of determinate and indeterminate beams and plane trusses. Instability of columns and beams, practical buckling formulae.

Mechanics of Machines: A shorter course in the kinematic and dynamic analysis of machines and machine elements.

55.25, 55.26, 55.27  

**Mechanics II**

55.26  Mechanics of Machines: The kinematic and dynamic analysis of machines and machine elements.

55.27  Fluid Mechanics: Rotodynamic machines; laminar viscous flow; turbulent flow; pipes; open channels; similarity and models; lubrication.

55.28  

**Thermodynamics II**

55.29  

**Thermodynamics II**

55.30  

**Drawing and Design III Mechanical**

The concept, design and specification of machines, mechanical plant and structures.

55.31  

**Industrial Administration**

55.41  

**Aeronautical Engineering**

55.42 Control Engineering

An introductory course with particular reference to mechanical systems such as control of pressure, temperature, flow and speed.

55.43 Engineering Materials and Stress Analysis

55.44 Fluid Mechanics

Wind tunnel techniques and design.

Aerodynamic design of compressors and turbines.

55.45 Heat Engineering

A study of thermodynamic principles and their application to power production, propulsion, and processes in mechanical engineering.
55.46 Industrial Engineering

Applied statistics. Analysis of variance. Design of experiments. Operational research and theory of decisions, including economic batch sizes, inventory control and replenishment, queuing theory, linear programming and allocation, Monte Carlo and other simulation techniques, reliability theory.

Work study including materials handling, plant and work place layout, time standards, PMT systems, work sampling, memo-motion and micro-motion studies, product development, design for production, quality control.

55.47 Mechanics of Machines

Advanced treatment of selected topics from 55.26, Mechanics of Machines.

55.48 Nuclear Engineering

55.49 Production Technology

Mechanisms and metallurgical aspects of hot and cold forming processes, chip formation with single point cutting tools. Control of vibration. Economics of manufacturing processes, attainment of dimensional and surface finish tolerances. Automatic and numerical control of production processes, servomechanisms, transducers, resolution and accuracy, Metrology and gauging.

55.50 Solid Mechanics

Topics in the mechanics of deformable solids and their application to the analysis of mechanical engineering configurations.

55.51 Vibrations

55.99 Special Topic in Mechanical Engineering

An advanced course on a topic to be determined each year by the Head of the Department of Mechanical Engineering.

Lists of text-books will be available at the office of the School of Engineering.

PRACTICAL WORK

(1) By the end of the First Professional Year all students are required to have completed to the approval of the Faculty a course in Workshop Practice. Students who have attended similar courses elsewhere before enrolling at Auckland may apply to the Faculty for approval of such courses.

(2) Before graduation students shall obtain approved practical experience in workshops or in engineering works for a minimum period of 1200 hours. This is expected to be undertaken during the summer vacation. Overtime up to 10 hours per week on suitable work may be allowed.

At least 320 hours must be spent in general engineering workshops; this should be completed before entering the Second Professional Year.

Mechanical engineering students may put in the whole of their practical time in engineering workshops, or may use some of this time in obtaining sub-professional experience, for example in a drawing office. However, Mechanical students should bear in mind that the Institution of Mechanical Engineers requires a minimum of eighteen months of workshop experience before accepting an application for Corporate Membership.

Students in Chemical and Materials Engineering may put in up to 600 hours in general engineering workshops. They must put in not fewer than 400 hours in approved plants or laboratories operating in the chemical engineering or materials en-
gineering field. The work in such plants or laboratories may be of a sub-professional nature, for example work as a technician in analytical or quality-control laboratories associated with a processing industry.

Other students may carry out further work in engineering workshops or may obtain experience appropriate to their specialised fields. Some of the remaining time may be spent in gaining sub-professional experience such as surveying field work in the case of Civil Engineering students.

(3) The approval of the Faculty of any proposed practical work must be obtained before its commencement. Students are advised to obtain as wide experience as possible in practical work and therefore approval will not normally be given for more than one period in a particular workshop or works.

(4) At the conclusion of each period of practical work and before the following 1 April each student must submit to Faculty: (a) a certificate signed by his employer showing the actual number of hours worked in ordinary time and also of overtime, and the type of work on which he has been engaged; (b) a full report by the student on the work done and the observations made. These reports will be graded and may be taken into account in recommending scholarships and other awards. Official certificates and instructions on the form of the report may be obtained from the School office.

(5) A student who, by virtue of exempting qualifications, is admitted to an engineering course at a stage later than First Professional must fulfil the requirements of these regulations. Faculty may however approve work of an engineering nature carried out by a student before enrolling for such a course.

Faculty may also approve previous work, not exceeding 250 hours, of a general nature other than engineering.

In all cases where approval is sought for work carried out before enrolling for an engineering course, a student must make application to Faculty in writing before 1 April of the year of first enrolment in that course.

Faculty may require certificates and a full report on such work before approval is considered.
PRESCRIPTIONS FOR ME

The prescriptions for the subjects named in the Course Regulations for the Degree of Master of Engineering are listed below.

Where laboratory, field or other practical work forms a part of the course requirements for any of the above subjects, no candidate shall be granted terms in the subject until he has completed such work to the satisfaction of the Head of the Department concerned.

**Advanced Chemical and Materials Engineering** 51.60, 51.61, 51.62
A course of lectures on special branches of Chemical and Materials Engineering allied to thesis subjects of the students taking the Degree.

**Advanced Civil Engineering** 52.60, 52.61, 52.62
A course of lectures on special branches of Civil Engineering allied to thesis subjects of the students taking the Degree.

**Electrical Engineering IV** 53.60, 53.61, 53.62
Fundamental theorems of electricity and magnetism; fields and waves. Physical electronics; vacuum tubes and semiconductor devices. Servomechanisms and control systems; linear analysis; some aspects of analysis of non-linear systems.

**Engineering Science** 54.60, 54.61, 54.62
A course of lectures on special branches of Engineering Science allied to the thesis subjects of students taking the Degree.

**Mechanical Engineering IV** 55.60, 55.61, 55.62
A course of lectures on special branches of Mechanical Engineering allied to thesis subjects of the students taking the Degree.

PROFESSIONAL INSTITUTION COURSES

Candidates for the examinations of the Professional Institutions may take courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their course.

   (ii) A final submission of work: as required by the Dean of the Faculty.

4. Except as hereinafter provided, a candidate shall be required to pass each Professional Examination as a whole, so that his performance in all the units of that Examination shall be considered: provided that a candidate who has failed to pass any Professional Examination as a whole may, at the discretion of the Senate, be credited with a unit or units of that Examination and permitted in a subsequent year to present the units not so credited together with (if the Senate permits) a unit or units of the next succeeding Professional Examination. The candidate shall then be required to pass a composite examination in all the

467
units so presented under the same conditions as those hereinbefore prescribed.

5. A candidate shall not be permitted to enrol in any one year for units from more than two consecutive Professional Examinations.

6. These Regulations shall come into force on 1 January, 1967.
THE DEGREE OF MASTER OF FINE ARTS

MFA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the Degree of Master of Fine Arts shall:—
   (a) before enrolment have qualified for admission to the Degree of Bachelor of Fine Arts;
   (b) follow a course of study of not less than one year.

2. The course for the degree shall consist of:—

Part I
Art History: Two papers which a candidate shall select from the papers prescribed for the Degree of Master of Arts in Art History:

Part II
Dissertation (which shall count as one paper):
   (a) The dissertation shall be on a special topic approved by the Head of the Department of Fine Arts and it will be related to one of the subjects chosen for Practical work;
   (b) A candidate may present the dissertation in the year of his examination in Art History or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year;
   (c) The dissertation shall be presented within three years of the year of examination in Art History provided that this period may in special cases be extended by the Senate.

Part III
Practical:
   (a) The subjects of this part are the following:—
       1. Design
       2. Graphic Arts
       3. Painting
       4. Sculpture.
A candidate shall carry out work satisfactory to the Head of the Department of Fine Arts — either in one subject (which shall count as three papers)
or in one subject as his major study (which shall count as two papers) supported by work in another subject (which shall count as one paper).

(b) The candidate shall present an exhibition of his work and provide an adequate printed catalogue thereof, not later than 1 November in the year in which the work is undertaken.

(c) The exhibition shall be presented within three years of the year of examination in Art History, provided that this period may in special cases be extended by the Senate.

HONOURS

3. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions:

First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate is examined in Art History for this Degree are unsatisfactory or if either the Dissertation or the Exhibition of Practical Work at its first presentation is unsatisfactory; provided however that, subject to the provisions of paragraph (c) of this regulation, a candidate whose performance at the written examination has been seriously impaired by illness (certified as under the aegrotat regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent written examination and still be eligible for the award of Honours.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing the final subject of his Bachelor’s Degree; provided that this period may in special cases be extended by the Senate. For this purpose the academic year is regarded as beginning on 1 March.
SCHOOL OF FINE ARTS

In 1888, by the Will of John Edward Elam, the sum of approximately £6,500 was provided to establish in Auckland the Elam School of Art and Design latterly known as the Elam School of Fine Arts. The first premises of the School in 1889 were in the Art Gallery Building. In 1950 the School came under the control of the University and now operates as the School of Fine Arts.

SCHOOL OF MEDICINE

The medical course, of six years’ duration, which is being established in the University of Auckland, will lead to the degrees of Bachelor of Medicine and Bachelor of Surgery. The first triennium will be devoted to the course in Human Biology for the degree of Bachelor of Science. A three-year period of clinical training follows and the subjects to be studied will include Obstetrics and Gynaecology, Medicine, and Surgery, together with their main sub-specialties. Students during their final year will be expected to undertake some supervised responsibility for the care of patients.

The first year of the medical course is being offered in 1968. Course Regulations and Prescriptions appear on pages 237-8 and page 303. Although the subjects for the first year of the course are to be taught within existing Science Departments and students are required to enrol in the Faculty of Science, the curriculum is being drawn up as part of a fully integrated medical course. During the year some special lectures will be given by medical speakers, and visits will be arranged to some of the main Auckland hospitals.

As long as accommodation is limited, admission to the course will be restricted to fifty students, all of whom are to be asked to express their intention to complete the six-year course for entry into the medical profession. When facilities are adequate — probably in three or four years’ time — a number of students may enter the course in Human Biology for the degree of Bachelor of Science. These students may decide to proceed to higher degrees in science with a view to entering para-medical disciplines or other specialised fields of biological science.
DIPLOMA IN OBSTETRICS

DipObst

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. A candidate for the Diploma in Obstetrics shall be a matriculated student of this University, shall satisfy the prerequisites and pass the examinations hereinafter prescribed.

2. A candidate shall enrol not later than 1 November, or such later date as Senate approves, in the year preceding the date of the examinations and he shall comply with the provisions of Regulations 3 (d) and 7 (a) of the Enrolment and Course Regulations (General).

3. The candidate shall on 31 December preceding the examinations:

   (i) (a) have either held a registerable medical qualification for two years or been a graduate from the Central Medical School of Fiji for five years; and

   (b) have completed two years' resident appointments in hospitals including at least six months in obstetrics and gynaecology at one of the hospitals approved for this purpose (the list of hospitals is defined under prescriptions); or

   (ii) (a) have held a registerable medical qualification for at least seven years, and

   (b) have submitted evidence of having personally conducted at least 300 deliveries, and
(c) have presented a certificate signed by the Head of the Department that the candidate has during the three years immediately preceding the examinations, attended an approved course of postgraduate instruction in Obstetrics and Gynaecology.

**NOTE:**

(i) The approved course should last for at least one week and may be taken after the candidate has enrolled but must be completed before sitting the examinations;

(ii) This provision will not apply after the 1971 examinations.

Notwithstanding anything in this Regulation the Vice-Chancellor may on the recommendation of Senate relax or modify these conditions.

4. The examinations for the Diploma in Obstetrics shall be (the prescriptions are defined elsewhere in this Calendar):

   (i) Written (one three-hour paper — 47.10)
   (ii) Clinical
   (iii) Oral.

5. The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during March each year provided that should there be sufficient candidates, examinations may be held elsewhere at suitable dates.

6. The examinations shall be conducted in accordance with the Examination Regulations.
POST-GRADUATE SCHOOL OF OBSTETRICS AND GYNAECOLOGY

The Department is situated at the National Women's Hospital, Claude Road, Auckland 3. In addition to providing the training for 6th year medical students from Dunedin there are extensive facilities for postgraduate education in obstetrics and gynaecology as follows:

(a) Diploma in Obstetrics of the University of Auckland:

This is a general practitioner qualification and serves to distinguish those general practitioners who have been trained to handle the common abnormalities encountered in obstetrical practice. A six months' resident appointment to the staff of a teaching obstetrical and gynaecological unit is required before candidates are allowed to sit the examination, but see also provision 3 (ii) on pages 485-6. Details of such appointments are available on application.

With the object of encouraging medical practitioners who intend to carry out an obstetric practice modifications have been made in the Diploma regulations to bring these more in line with the Royal College regulations in England and to make it possible for medical practitioners to take the examination soon after their obstetric appointment during their first post-registration year.

The new regulations also allow graduates of the Fiji Central School of Medicine to take the examination following a period of residence at the National Women's Hospital.

The examinations shall include questions on the anatomy, physiology, pathology and management of normal and abnormal pregnancy, labour and puerperium, including the care of the new-born during the first month of life.

In addition, the candidates will be required to have a knowledge of the physiology and pathology of medical gynaecology, including abnormal menstruation, amenorrhoea and dysmenorrhoea, endocrine therapy, abortions, infertility and contraception, ectopic pregnancies and moles, vaginal discharges, the diagnostic facets of malignancy, and such minor surgical procedures as may be encountered in a predominantly obstetrical practice.

The following are approved Hospitals for the purpose of Regulation 3 (i) (b):—
(1) National Women's Hospital, Auckland
(2) Dunedin Hospital
(3) Waikato Hospital
(4) Wellington Hospital
(5) Christchurch Hospital; consecutive posts at St. Helens Hospital and Princes Margaret Hospital
(6) The Women's Hospital, Bangkok, Thailand
(7) Any Hospital recognised by the Royal College of Obstetricians and Gynaecologists for its Diploma in Obstetrics.

(b) Specialist Training in Obstetrics and Gynaecology:

(i) Membership of the Royal College of Obstetricians and Gynaecologists:

The Royal College requires two years' experience on the resident staff of a recognized hospital, such as the National Women's Hospital, before accepting candidates for the MRCOG examination. The training period in the Postgraduate School is for two and a half years at present which includes a good grounding in neonatal paediatrics and pathology. Details of such appointments and of the instruction which goes with them are available on application.

(ii) MD or ChM Degrees:

Research appointments are available at the National Women's Hospital and afford the opportunity of preparing for the MSc and PhD degrees of the University of Auckland.

Applications will be welcome from scientists and medical graduates who wish to carry out research in the scientific background of obstetrics, gynaecology, and neonatal paediatrics.

(c) Refresher Work for General Practitioners:

(i) Appointment to the resident staff of National Women's Hospital for periods of one to four weeks can be arranged at various times throughout the year. These short-term appointments afford an opportunity of attending the teaching programme of the hospital as well as gaining practical experience in some of the common obstetrical procedures.
Practitioners living in or visiting Auckland are welcome to attend any of the teaching rounds, lectures or clinics. Details of the weekly teaching programme are available on application.

(ii) Short Courses of a week's duration are held at frequent intervals. These courses are conducted by the full-time and part-time staff generally with an overseas visiting Professor or other notable figure on Obstetrics and Gynaecology as guest speaker. They serve as refresher courses and also cover the theoretical material required for the Diploma in Obstetrics.
POSTGRADUATE SCHOOL OF ANATOMY

This school of Anatomy is located in the Stevenson Laboratory in the grounds of Green Lane Hospital, Epsom. Facilities, including dissection, are available for refresher and research work in human anatomy; and the lecture room of the laboratory is available for lectures to postgraduate and undergraduate medical students, to physiotherapy practitioners and students and other such interested organisations.

The School and the Laboratory are under the control of the Auckland Postgraduate Medical Committee.

Basic Medical Sciences:

Each year the Postgraduate Committee conducts a course in basic medical sciences designed to meet the requirements of the Primary Fellowship of the Royal Australasian College of Surgeons, and the Faculty of Anaesthetists of that College, the course being sponsored and financed by the College. This course is suitable for students preparing for postgraduate diplomas in gynaecology, dental surgery, or radiology. There is a preliminary period of four months’ reading accompanied by weekly tutorials, followed by three months of intensive work under the direction of a senior overseas anatomist who holds the title of Visiting Professor of Anatomy in the University of Auckland. Lectures and tutorials in anatomy, physiology, pathology and pharmacology are held each day, and a complete systematic dissection of the human body is undertaken.

The preliminary period commences in March; the intensive period runs through July, August, September, and October, the examination being held in Dunedin at the end of November each year.

For 1968 Professor R. J. Last, Professor of Applied Anatomy in the Nuffield Institute of Medical Sciences, Royal College of Surgeons, Lincolns Inn Fields, London will conduct the anatomy part of the Basic Medical Sciences Course.

Intending applicants, who need not necessarily be surgical or anaesthetic trainees, should communicate with the Course Convener, Mr. W. S. Wood, 82 Mountain Road, Auckland 3.
THE DEGREE OF DOCTOR OF PHILOSOPHY

PhD

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. Every candidate for the Degree of Doctor of Philosophy shall apply to the Head of his Department for registration as such, showing —
   (a) that he has the requisite preliminary qualification set out in regulation 2 hereof, and
   (b) that he has adequate training and ability to pursue a course of advanced study and research.

2. The preliminary qualification shall be one of the following:
   (a) qualification for admission to a Bachelor's Degree with Honours or a Master's Degree with Honours of the University of Auckland, or
   (b) admission by the Council, on the recommendation of the Senate, to the status of a graduate of the University of Auckland who is entitled to proceed to the Degree of Doctor of Philosophy.

3. The Head of the Department concerned shall forward to the Registrar for submission to the Senate, a recommendation which shall include the proposed field of study, the proposed date of registration, the nomination of a Supervisor or Supervisors from members of the academic staff, together with satisfactory evidence of the candidate's training and ability to pursue the proposed course. The Senate shall determine the date of registration.

4. If registration is approved by the Senate the candidate shall comply with the provisions of the Enrolment and Course Regulations (General).

5. A candidate for a Master's Degree who has qualified for admission to a Bachelor's Degree with Honours may subse-
quently be registered as a candidate for the Degree of Doctor of Philosophy. If he is so registered the Senate may allow credit for the work for the Master's course if that work can form part of the doctoral thesis.

6. (a) After being registered as a candidate for the Degree of Doctor of Philosophy the candidate shall pursue a course of advanced study and research at the University to the satisfaction of the Head of the Department and the Supervisor for a period of at least two calendar years from the date of registration, during which he shall work at his advanced study and research full-time under the supervision of a teacher in the University;

Provided that

(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;

(ii) field work may be carried out at such places and for such periods as the Senate may determine;

(iii) research requiring the use at first hand of documents or books not available within the University may be undertaken in an approved institution outside the University, for such period or periods and on such conditions as may be determined from time to time by the Senate;

(iv) when a candidate has completed the initial period of two years' full-time study and research he may apply to the Senate for permission to continue as a part-time candidate. Any such application must be supported by the Supervisor and the Head of the Department.

(b) For the purpose of this regulation a candidate shall be deemed to work full time if he has no occupation other than his study or research; provided that he may

(i) with the approval of his Supervisor and the Head of the Department engage for not more than six hours in any one week in academic work other than his study or research;

(ii) take such statutory, recreational and other holidays as are normally incidental to a full-time occupation.

7. Notwithstanding anything in regulation 6, a full-time member of the academic staff, other than a Head of Department,
may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least four calendar years from the date of his registration to the satisfaction of the Head of his Department and the Supervisor.

8. Unless he has fulfilled the requirements of this regulation as part of his preliminary qualification, every candidate for the Degree of Doctor of Philosophy shall (unless he has passed Stage I of a foreign language approved by the Senate) forward to the Registrar a certificate of his ability to read works in his field of study in a foreign language approved by the Senate. The certificate shall be given by the Senate and shall certify that the candidate has satisfactorily translated from a foreign language one or more passages set by the Head of the Department in which the candidate is working for the degree in conjunction with the Head of the Language Department concerned.

The choice of foreign language shall be determined by the candidate's Head of Department.

Note: Candidates in those Departments which prescribe German or Russian as a foreign language are advised to attend a suitable course in one of these subjects.

9. The Supervisor shall submit to the Senate, through the Head of the Department, a brief report on the progress of the candidate at the end of each year. A candidate's registration may be terminated by the Senate if an unfavourable report is received.

10. A candidate shall not be eligible to enrol for any other course while registered for the Degree of Doctor of Philosophy unless he obtains the prior permission of the Senate.

11. Provided that he has fulfilled the conditions prescribed in these regulations a candidate may apply at any time within six years (or, in the case of a member of the academic staff, within eight years) from the date of registration to the Registrar to be examined, and shall submit to the Registrar three bound copies of a thesis (which shall be retained by the University)
embodying the results of his research. An examination fee of $40 is payable at the time when the thesis is submitted. Should a thesis be resubmitted as provided in regulation 14, a further examination fee of $40 is payable.

12. After having accepted the candidate’s application to be examined the Senate shall, upon the recommendation of the Head of the Department, approve the title of the thesis and shall appoint as examiners:

(a) The Supervisor or Supervisors, and

(b) Two other persons of whom one may be a member of the staff of the University of Auckland if the subject is taught at no other University in New Zealand; but otherwise, except in such circumstances as the Senate thinks fit, neither shall be a member of that staff.

13. The Supervisor shall forward to the Registrar a certificate stating that the work described in the thesis was carried out by the candidate under his supervision and that the conditions laid down in regulation 6 or 7 have been fulfilled.

14. A copy of the thesis shall be submitted to each examiner. Except where the Vice-Chancellor, acting on the advice of the examiners, otherwise authorises, the Supervisor and one external examiner shall together examine the candidate orally on the subject of the thesis and on the general field to which the subject belongs. The oral examination shall be held after the reports from the external examiners have been received, and not sooner than six weeks after the submission of the thesis, except in very special circumstances and with the approval of the Senate. At the request of the oral examiners the candidate may be required to present himself for a written examination. The three examiners shall after consultation make a report to the University on the whole examination. The examiners may recommend that a thesis, not considered entirely suitable by them for acceptance, may be revised by the candidate for resubmission on one further occasion only.

Note: For those candidates already registered for the degree, the time limit for presentation of thesis prescribed in regulation 11 will apply, not from the date of registration, but from the date of bringing in of these regulations.
CERTIFICATE OF PROFICIENCY

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General).

1. With the permission of Senate a matriculated student may be enrolled for any course or part of a course which is offered for a Degree or a Diploma for the purpose of gaining a Certificate of Proficiency.

2. To qualify for a Certificate of Proficiency in a unit or a subject, or a part of a unit or a subject, a student, unless exempted by Senate, must enrol in accordance with the Enrolment and Course Regulations (General), keep terms in accordance with the Terms Regulations, comply with the provisions of the Examination Regulations, and pass the appropriate examinations.

3. A candidate who has passed in a unit or subject for a Certificate of Proficiency may at a later date have this unit or subject credited towards a Degree or Diploma, provided that at the time of passing the unit or subject for Certificate of Proficiency the candidate had fulfilled or had been granted exemption from any pre-requisite conditions prescribed for the Degree or Diploma.

4. (a) A candidate who has passed in any subject or subjects at Masters' level for a Certificate of Proficiency may be awarded a Certificate of Proficiency with Honours provided that he would have been eligible for Honours if he had presented such subject or subjects under the appropriate Masters' Degree Regulations.

   (b) The class or classes of Honours shall be as provided under the appropriate Masters’ Degree Regulations.

   Note: A member of the permanent academic staff of this University with overseas university qualifications may be permitted to enrol for a unit or a subject for Certificate of Proficiency without having to make a formal application for admission ad eundem statum.
THE CHAPEL

The Maclaurin Chapel in Princes Street was established under a deed of trust by Sir William Goodfellow, Hon. LLD, in memory of his son Richard Maclaurin Goodfellow who was killed in the War, and of Professor Richard Maclaurin, one of Auckland's most distinguished graduates.

The Board of Management established by the trust deed comprises seventeen members including three University representatives. The Board is responsible for the administration of the trust including the appointment of the Chaplain.

University Services are held at the beginning and end of each term, and for special occasions; these services are non-denominational. Morning prayers are held each morning of term at 8.45 a.m. The Chapel is open continuously for private meditation.

In the reading room behind the Chapel there is a library of books and periodicals which are available for borrowing. Application may be made to the Registrar for the use of the reading room for University meetings.

The Maclaurin Chaplain has his office in the Chapel building, and is available for consultation by any member of the University. He can be reached by telephoning the University (30-060).

STUDENT COUNSELLING

A counselling service is provided free of charge for students and intending students of the University.

The Student Counsellor, Mrs L. A. McLay, is available to help students with problems related to choice of career, difficulties in settling down to study, adjustment to University life, and financial and personal difficulties.

Students should feel quite free to see the counsellor when they wish, either individually or in small groups, preferably with, though if necessary without an appointment.

The Student Counselling Service is located at 9 Grafton Road (Tel: 49-672) and is open during usual University hours.
STUDENT HEALTH SERVICE

A voluntary Health Service for University of Auckland students, initiated in 1954 by the Health Department, will be continued in 1968 under the full-time directorship of Dr W. S. Auburn.

The Service is primarily educational and preventive and is designed to help students to maintain an optimum state of health. This purpose will be served by an annual interview and examination during which students will have an opportunity of discussing with the student doctor any problems of physical or mental health that concern them. Should the examination reveal any condition requiring treatment, the student may be referred to his own medical adviser or, if his home is outside Auckland, he may obtain treatment at the Student Health Centre. The content of the interview and the result of the examination are strictly confidential between doctor and student.

To join the Student Health Service, students should enrol at the Registry by completing the relevant part of the enrolment form marked ‘Student Health Service’. Appointments for interviews will be staggered throughout the year and early enrolments will receive priority.

STUDENT LODGINGS

An accommodation service is provided without charge for students and intending students of the University.

The Student Lodgings Officer, Mrs L. L. Williamson, is available to receive applications for admission to University Halls of Residence and to assist students to find suitable accommodation in private homes. Information on other hostels is also available.

Application forms for accommodation at University Halls of Residence are available from early September and completed applications should be forwarded by 1 November.

Application for private board should be made not later than January.

Enquiries should be addressed to: The Student Lodgings Officer, University of Auckland, Box 2175, Auckland.
INTERNATIONAL HOUSE

International House is situated in Whitaker Place, off Symonds Street, close to the University. Part of this new Hall of Residence will open in 1968.

Applications for admission must be made by 1 November on the prescribed form which is obtainable from the Student Lodgings Officer at the University.

Fees are payable by the term or half-term in advance.

JEAN BEGG HOUSE

Jean Begg House, administered by the Y.W.C.A., provides full accommodation for women students and is situated in Queen Street not far from the University.

Application for admission must be made by 1 November on the prescribed form which is obtainable from the Student Lodgings Officer at the University.

Fees are subject to review and are payable by the term or half-term in advance. At the end of 1967 fees ranged from $9.75 for shared rooms to $11.50 for single rooms.

NEWMAN HALL

The Catholic Archbishop of Auckland has made Newman Hall available as a centre for Catholic students. It is situated in Waterloo Quadrant close to the University and provides rooms for student activities and study, lounges, lecture theatre, library, and cafeteria. A chapel is situated on the top floor, where Mass is celebrated daily.

Attached to the Hall is a hostel providing accommodation for 18 male students. Fees are payable by the term. The fee for a single room is $5 per week, for a double room $4 per week. A deposit of $20 is required on admission to the hostel to cover possible liabilities of a general nature. The deposit is refunded in full or after a deduction for a liability has been made when the student leaves the hostel. Application for admission must be made on the prescribed form and forwarded to the Warden, 16 Waterloo Quadrant, Auckland, 1, before 30 November.
The Catholic Chaplain is Rev. Father L. Clandillon O.P., who is in residence at Newman Hall (phone 44-990) and is available to all students.

NORMAN SPENCER HALL

The Anglican Diocese of Auckland administers a Hall of Residence, known as Norman Spencer Hall, which provides full accommodation for 70 men students. The Hall is situated at 9 St. Stephen's Avenue, Parnell, and is twenty minutes' walk to the University.

Application for admission must be made by 1 November on the prescribed form which is obtainable from the Student Lodgings Officer at the University. The selection of students is made by the Chairman of the Hall Management Committee and the Warden. If an applicant is accepted a deposit of $10 is required to confirm his acceptance of residence. This deposit will be held in a general fund to meet any outstanding liabilities due to the Hall from the individual student. Any balance will be refunded when residence is terminated.

Fees are subject to review and are payable in advance by the term or half-term. At the end of 1967 fees were $12 a week for single rooms, $11.50 for rooms shared by two, and $11 for rooms shared by three.

O'RORKE HALL

O'Rorke Hall provides full accommodation for about 195 students, both men and women. It is situated at 49 Symonds Street, two hundred yards from the University.

Probable rates for the first term 1968 are $9.75 per week for a shared room (double, triple, and one room of four) and $10.50 for a single room. Fees are subject to review each term and are payable by the term or half-term in advance.

Applications for admission must be lodged before 1 November with the Student Lodgings Officer at the University from whom application forms and information circulars are obtainable in September. If an applicant is accepted he must deposit $10 with
the Registrar. This will be held in a general fund to meet outstanding liabilities due to the University from the individual student or from the body of students. Any balance will be refunded when residence is terminated.

ACADEMIC DRESS

The Auckland Branch of the New Zealand Federation of University Women owns a stock of Academic Gowns, Hoods, and Caps (black trencher with a tassel). These are available for hire at all times during the year. Details may be obtained at the Registry, or the Office of the Students’ Association. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the Graduation Ceremony with his result card.

The proceeds earned by this service are devoted chiefly to the establishment and maintenance of Fellowships to enable New Zealand women graduates to continue their studies overseas, or to bring overseas students to New Zealand.

PRESS CORRESPONDENCE

Members of the University are reminded that it is normal practice to sign Press correspondence as from the University only when the writer has some special competence in the subject discussed. For members of the teaching staff, such subjects would normally be those within the area of their academic competence, and for students, matters of general student concern. Student members should indicate their student status either in the body of the letter or in the address given. On matters of general public interest, all members of the University write in their private capacity.

STUDENTS' ASSOCIATION ACTIVITIES

The Association seeks to unite students for the good of the University, to represent students in all spheres in which their interests are concerned, and to foster intellectual and social life in the University.

The Association is an incorporated body, formed in 1891. The control of the business and affairs of the Association rests principally with the Executive Committee. The Executive dates back as far as 1899. From 1922 the Executive has been selected by the Association as a whole.

The present system of electing executive members to specific portfolios was introduced in 1956. The Executive Committee now comprises the President, the two Vice-Presidents and Treasurer, and eleven portfolio holders.

The Executive acts as the official mouthpiece for the Association, and takes official action on behalf of the Association in the interests of the Student body. Through the Executive which acts as a co-ordinating body the Association undertakes a very wide variety of activities.
There are over sixty clubs and societies affiliated to the Association covering all spheres of student interest. Many of these have been active for a number of years and are widely known in Auckland. The sports clubs cater for almost all sporting interests and most participate in local inter-Auckland-club competitions and in the NZUSU tournaments.

Over the years many athletes of national fame have gained prominence while competing for University clubs. Those with more intellectual interest are catered for by the wide range of religious, academic, social, political, and other societies.

Equally widely known are the Association’s activities during the annual capping week. These celebrations began in the 1890’s with demonstrations at the capping ceremony. Now capping festivities include the production of Revue, the holding of a procession through the city centre, the publication of Capping Magazine and a collection on behalf of charity. These take place in the final week of the first term.

The Association organises many social functions including the Freshers Prom in March and Graduation Ball in May. Dances and social gatherings are held from time to time throughout the year.

During the first two weeks of the academic year the Association organises an orientation fortnight to help acquaint new students with the various facets of university life. The association organises student concessions for its members with a number of firms in the city, and also with the promoters of various attractions of interest to students.

The Association is responsible for various publications including an annual literary magazine, Kiwi; a weekly broadsheet, This is the Week this Is outlining the current activities for the week; and a student newspaper, Craccum, which appears during term and traditionally expresses student opinion and features news of interest to students. A scholarship is paid annually to the editor.

The Association takes up residence in the new Student Union Building in February 1968. The Student Union consists of five blocks. The Cafeteria Block under the general control of the
Catering Manager, M. Govorko, contains the basement kitchen and the Cafeteria on the ground floor seating approximately 400 where full meals are available.

On the first floor the Snack bar which seats 120, provides a tea and coffee service to students bringing their own lunches besides selling hot and cold lunches and refreshments. The restaurant, seating 70 is on the second floor and provides high quality meals for students, staff, and members of the University Club. The University Club is on the top floor of the building. Membership is open to all university graduates and diploma holders over the age of 21.

The Administration block houses the Association offices and the general meeting rooms and Executive offices along with the office of the President and the Administrative Secretary, V. Preece. The office is open from 9 a.m. to 5 p.m. for Association business. Alongside this stands the block housing the University Bookshop Ltd. in which the Students' Association has a half interest, a general store run by the Association, and a clothing retailer.

The two blocks nearest Alfred Street contain music, recreation, and common rooms. In the basement of one of these blocks is the Coffee Bar seating 90 and providing coffee service.

All students are required to pay the annual prescribed Students' Association fee of $16. $6 of this fee is devoted to the Building fund from which the Student Union building is being partly financed and which will assist in the future construction of a theatre and a gymnasium. The Student Union Building will eventually cost $1,050,000. $260,000 have been provided from student levies and $65,000 have been raised by public appeal largely through the generosity of many city firms, and individuals, and organisations associated with the University. The government provided a subsidy of $440,000 and the balance is provided by a loan from the University.

The importance of the Association lies in its position as the tangible link between the individual students and the academic and administrative staffs of the University and the citizens of Auckland. In this position the representations of the Association in matters involving the interests of students exert an influence both within the University and in the city at large.
HOURS OF CATERING SERVICES

Cafeteria: term: 9 a.m. to 7 p.m. holidays: 10 a.m. to 6.15 p.m.

Snack Bar: term: 9 a.m. to 7 p.m. holidays: closed

Restaurant: term: 12 to 2.30 p.m. and 6 p.m. to 10 p.m.
   holidays: 12 to 2.30 p.m. and 6 p.m. to 10 p.m.

   holidays: 12 to 8 p.m.
THE NEW ZEALAND UNIVERSITY STUDENTS' ASSOCIATION

The New Zealand University Students' Association is the national organisation to which all the University Student Associations in New Zealand belong.

It represents its members in matters affecting students throughout New Zealand on a national and international level such as improved student bursary systems and the provision of better student accommodation facilities.

NZUSA is administered from Wellington by a non-resident executive which is elected at Easter Council. Two NZUSA councils are held at Easter and Winter Tournaments together with the National Sports (NZUSU) and Student Press (NZSPA) Councils.

NZUSA encourages inter-university student activities and an Arts Festival has been held since 1959 including exhibitions of painting and sculpture, chess and bridge tournaments, debating, drama, folk singing, poetry, literary readings, and jazz sessions. NZUSA promotes an annual congress during the long vacation at Curious Cove, Queen Charlotte Sound.

NZUSU supervises the Easter and Winter Tournaments (held at each of the main Universities in rotation) and co-ordinates sports tours of Australia. Each tournament features a week of inter-university competitions in a great variety of summer or winter sports interspersed with social functions.

NZUSA is a member of the International Student Conference although its major international work is to further closer relations with Australian and South East Asian students. Annual exchange tours on working holidays and work camps have been held in Samoa, Fiji, and New Caledonia as well as trips to Russia and China.
AUCKLAND UNIVERSITY DISTRICT
GRADUATES' ASSOCIATION (INC.)

President: K. L. Piper, BArch N.Z.
Treasurer: S. C. Schofield, BCom N.Z.
Secretary: Nancy I. Hammond, (Mrs), BA N.Z.

The Graduates' Association was formed over fifteen years ago to provide facilities for intellectual and social intercourse among University graduates, to assist the Court of Convocation in carrying out its functions, to promote interest in University affairs among graduates and others, to publish magazines, periodicals, etc., dealing with matters concerning graduates or University affairs, and generally to further the interests of graduates.

Membership of the Association is open to graduates and diploma holders of any University (in or outside New Zealand).

Persons eligible to join the Association who have not already done so would be welcomed as members. Membership application forms are available from the treasurer, Mr S. Schofield, 10 Peverill Crescent, Papatoetoe. Enquiries about the activities and services of the Association are also welcomed.
ENROLMENT TIMETABLE

PRE-ENROLMENT

In 1968 there will be a limitation to the numbers of students who can be enrolled for the Professional years in the FACULTY OF ARCHITECTURE, in the Professional and Honours years in the FACULTY OF FINE ARTS and in the course in Human Biology in the FACULTY OF SCIENCE. Students who wish to enrol for any of these courses must make application for pre-enrolment as follows:

(1) FACULTY OF ARCHITECTURE

First Professional year students are required to make application for enrolment by post not later than Wednesday, 31 January. Application forms should be obtained from the School of Architecture or from the Registrar.

(2) FACULTY OF FINE ARTS

(a) First Professional year students are required to make application for enrolment by post not later than Wednesday, 31 January. Application forms should be obtained from the Registrar.

(b) Second, Third, and Fourth Professional and Honours years students are required to make application for enrolment by post not later than Monday, 15 January. Application forms will be included with 1967 Examination Result Cards.

(3) FACULTY OF SCIENCE

Applications for enrolment for the course in Human Biology for the Degree of Bachelor of Science closed on 1 September, 1967. Only those students who have been advised that they have been accepted for the course will be permitted to enrol.

ENROLMENT

Enrolment of internal students, including students for the Professional and Honours years in the Faculties of Architecture and Fine Arts and for the course in Human Biology in the Faculty of Science, for the 1968 academic year will take place during the period Monday, 19 February, to Friday, 23 February, 1968, inclusive. Students will be required to attend at the University, Princes Street, for enrolment in accordance with the following timetable:

Students enrolling in more than one Faculty should note

(a) only one enrolment is required

(b) enrolment must be on the appropriate day for whichever Faculty is first on the timetable

(c) enrolment within a Faculty must be on the appropriate day for whichever unit is first on the timetable.

NOTES:

(1) STUDENTS WISHING TO TRANSFER TO THE UNIVERSITY OF AUCKLAND FROM OTHER UNIVERSITIES IN NEW ZEALAND

A student who is enrolled at another University in New Zealand and who wishes to enrol at the University of Auckland shall submit to the Registrar an application to transfer, on the prescribed form. Applications close on 31 January, 1968, but late applications will be accepted up until Friday, 23 February, if accompanied by a late fee of $5.

(2) FAILURE TO MAKE SUFFICIENT PROGRESS IN COURSE OF STUDY — PRIOR PERMISSION OF SENATE TO RE-ENROL.
The following students, both graduate and undergraduate, including those transferring from another University, shall not be accepted for enrolment unless they have been granted the prior permission of Senate so to do

(i) Faculties of Arts, Commerce, Education, Law, Music, and Science:
any student who, over the last two years of his academic studies, has failed to be credited with a pass in two units.

(ii) Faculties of Architecture and Engineering:
any student who, over the last two years of his academic studies, has failed to be credited with a pass in sufficient subjects of a professional year to enable him to proceed to the next higher professional year.

(iii) Faculty of Fine Arts:
any student who has failed a Professional Year as a whole, or after two attempts has failed to complete a Professional Year.

(iv) Excluded from another University:
any student who has been excluded from any University as an unsatisfactory student.

For the purpose of this regulation a student will be deemed to have been engaged in academic studies whether or not he attempted the final examinations if he was

(a) enrolled for a unit as an internal student as at 31 March
(b) enrolled for a unit as an extramural student as at 31 March
(c) granted Terms carried forward in a unit.

Applications close on 31 January, 1968, but late applications will be accepted up until Friday, 23 February, if accompanied by a late fee of $5.

(3) TERMS CARRIED FORWARD
Applications close on 31 January, 1968, but late applications will be accepted up until Wednesday, 21 February, if accompanied by a late fee of $5.

(4) ADMISSION AD EUNDEN STATUM, PROVISIONAL ADMISSION, or SPECIAL ADMISSION
Applications close on 31 January, 1968, but late applications will be accepted up until Friday, 23 February, if accompanied by a late fee of $5.

(5) PRE-ENROLMENT INTERVIEWS
Deans of Faculties will be available during the week, Monday, 12 February, to Friday, 16 February, to interview and advise students.

(6) PENALTIES FOR LATE ENROLMENTS
The following penalties will be imposed if enrolment is not completed in accordance with the above timetable:

(a) Fines and Late Fees
(i) During enrolment week a fine of $20 will be imposed on students who fail to enrol by the following dates:
Students enrolling for the Second, Third, and Fourth Professional, and Honours years for courses in the Faculty of Fine Arts MONDAY, 19 FEBRUARY
Students enrolling for courses in the Faculty of Science TUESDAY, 20 FEBRUARY
Students enrolling in Faculties other than Science for courses which include units in Biology, Botany, Chemistry, Geology, Physics, or Zoology TUESDAY, 20 FEBRUARY
Students enrolling in Faculties other than Science for courses which include units in Applied Mathematics, Mathematics, or Statistical Mathematics WEDNESDAY, 21 FEBRUARY
All other students FRIDAY, 23 FEBRUARY
(ii) After enrolment week a fine of $20 will be imposed on all students, together with a further penalty of $4 for each week or part of a week after Friday, 1 March.

(b) Choice of Course
The course of study of a student making a late enrolment will be determined by the Senate and will not necessarily conform with that proposed by the student concerned. In determining such course the Senate will have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled in accordance with the timetable.

(c) No enrolment (with the exception of enrolments for PhD) will be accepted after 31 March without the special authority of the Senate in each case.

(7) REFUND OF FEES
Students are advised to note particularly that where courses are amended after enrolment NO refunds of fees will be made for subjects deleted after 31 March, 1968. A full refund of fees paid will be allowed in respect of subjects deleted on or before 31 March. Holders of Education Department bursaries, Government study awards, Training College bursaries, Secondary teachers' studentships, etc., should note that the University will claim tuition fees from the Department or authority concerned in respect of those subjects for which they are enrolled as at 31 March, 1968, and that no amendments to courses involving alteration to this claim can be accepted after that date.
LECTURE AND LABORATORY TIMETABLES

The following section contains timetables for students in the faculties of Arts, Science, Law, Commerce and Music.

Timetables for students in the faculties of Architecture, Engineering, and Fine Arts will appear on noticeboards at the beginning of the session.

**Stage I lectures and laboratories are given in sets. Before the beginning of the session students will consult Departmental noticeboards to see which sets of lectures and laboratories they are required to attend, and to confirm the hours shown in the timetable.**

**Note 1.** For Geography and Psychology lecture times see Faculty of Arts timetable.

**Note 2.** The times for Advanced Mathematics, Botany Certificate, Geology IIIA & IIIIB, Psychology, and Zoology IIIIB will be arranged by the Department concerned.

**Note 3.** 'Priority' laboratories in Stage II and III subjects have precedence over other laboratories.

**Note 4.** Laboratory times for Advanced Chemistry, Chemistry II, IIIA, and IIIIB other than Wednesday morning will be arranged by the Department.

**Note 5.** The times for courses for BSc(Hons) will be arranged by the Departments concerned.

In all cases application on the prescribed form must be lodged at enrolment. Evidence of qualification must be produced by all First Year students.

All students should note —

(a) Preliminary subjects cannot be claimed under a Bursary.

(b) The total number of units which may be claimed under a bursary is restricted to the number of units prescribed under the regulations for the Degree or Diploma course being taken.

   e.g.      BA    9 units
            BSc   8 units
Provided that the following additional units may be claimed during the tenure of the bursary

(i) Additional units approved by Senate where a student has not failed any units in his course

(ii) One Foreign Language Reading unit for a Master of Science Degree

(iii) Additional units which are pre-requisites for a Master's Degree where a student has not failed any units in his course.

(c) A student under a Government Study Award and receiving full or half pay is not eligible to receive allowances under a Fees and Allowances Bursary or Master's Bursary.

(d) A student admitted to a course on the basis of the New Zealand Certificate in Engineering, or the New Zealand Certificate in Draughting (Architecture) or the New Zealand Certificate in Science (Chemistry) is eligible to hold a Fees and Allowances Bursary provided he has not had previous Bursary assistance. A student who has had previous bursary assistance should check with the Registry prior to enrolment to see whether he is entitled to receive further Bursary assistance. If the bursary has expired or been terminated no further assistance will be available.

(e) A student under a Study Permit is not eligible for Bursary assistance.

(f) A student with qualifications for a Bursary but not born in New Zealand, must be able to sign a declaration that he is remaining permanently in New Zealand to be eligible to hold a Bursary.

(g) Once a Bursary is taken up it will be terminated if it is not held continuously except where

(i) the Bursary is suspended compulsorily by reason of failure in units, or

(ii) the student has applied for and been granted a voluntary suspension.
FEES BURSARIES

Eligibility: A Fees Bursary may be awarded to any person who has been accredited for Entrance or has passed the Entrance Examination after 1944, or to any person who has qualified academically for entrance to a University on the results of the Entrance Scholarship Examination after 1944, or the University Bursaries Examination, or to any person who has been granted admission ad eundem statum.

Persons who have only the Endorsed School Certificate, Higher School Certificate, or the Fine Arts Preliminary qualification may be awarded a Fees Bursary provided they are not enrolled for courses for which candidates are required to have passed the Entrance Examination. A student granted admission under the Provisional Admission and Special Admission Regulations and a student who passed the University Entrance before 1945 is able to qualify for a Fees Bursary after passing two units in any year or, where passes are credited in groups of units, after passing more than half of a professional Examination. The bursary will be available in the year following qualification.

A student who cannot hold a University Scholarship or a Fees and Allowances Bursary because he is not taking a full-time course in any year automatically qualifies for a Fees Bursary.

Tenure: Refer page 534.

Suspension for Failure and Reinstatement: Refer page 538.

Value: Under the Fees Bursary a student may claim nine-tenths of tuition fees for units he is eligible to take under the bursary.

FEES AND ALLOWANCES BURSARIES
(including Boarding)

Eligibility: A Fees and Allowances Bursary may be awarded to a student pursuing a full-time course who holds one of the following:—

(a) Higher School Certificate gained the year after qualifying for University Entrance
(b) Higher School Certificate gained the same year as qualifying for University Entrance provided he

(i) was awarded Higher School Certificate prior to 1963, or,

(ii) qualified for University Entrance on the basis of a credit pass or better, in the University Entrance Scholarships Examination, or,

(iii) qualified for University Entrance on the basis of a pass in the University Bursaries Examination that was of such a standard that the student would have also qualified for the award of a Higher School Certificate, or,

(iv) is enrolling for the Executant Diploma in Music Course

(c) Higher School Certificate in Fine Arts — Bursary available for Diploma of Fine Arts only

(d) The New Zealand Certificate in Engineering, Building, Draughting, or Science for approved courses only provided that a student has had no previous Bursary assistance — see Note (d) on page 528.

(e) passed in any year in units or subjects of a recognised course which constitute a full-time course provided that a student whose bursary has expired or been terminated cannot qualify for a Fees and Allowances Bursary under these provisions

(f) been granted ad eundem statum admission on the basis of study at an overseas University and bursary assistance approved provided

(i) he has not been previously enrolled with a University in New Zealand; and

(ii) he has been credited with passes at an overseas University which are in the opinion of Senate equivalent to the passes prescribed for (e) above.

Boarding Allowance: A student holding a Fees and Allowances Bursary is eligible also for a boarding allowance if

(a) his parents' permanent residence is outside the Auckland Urban area and he proves that he is unable to travel daily to any University in New Zealand because of distance or transport
difficulties provided that students wishing to enrol in Professional units of courses not taught at the University in whose Urban area his parents reside may claim a boarding allowance, e.g. Professional units in Architecture, Engineering, and Fine Arts or,

(b) the student has been awarded a special boarding allowance by the Director-General of Education.

Value: An allowance of

- $80 per annum first year
- $120 per annum second year
- $160 per annum third year
- $200 per annum fourth and subsequent years

provided that a student is enrolled for a full-time course. In addition a student may claim nine-tenths of tuition fees for units he is eligible to take under the bursary. A student eligible for a boarding allowance will in addition receive an allowance of $250 per annum.

Tenure: Refer page 534.

Definitions of Full-time Study: Refer page 535.

Suspension for Failure and Reinstatement: Refer page 538.

SUPPLEMENTARY BURSARY ALLOWANCES

Eligibility: Provided the student is the holder of a Fees and Allowances Bursary and not also the holder of a Junior Scholarship he may qualify for a Supplementary allowance as follows:

(a) Supplementary Allowance A — if the student has obtained in or after 1966

(i) an 'A' pass in the University Bursaries Examination, or
(ii) a credit pass in the Entrance Scholarships Examination.

(b) Supplementary Allowance B — if the student has

(i) obtained a 'B' pass in the University Bursaries Examination, or
(ii) sat the Entrance Scholarships Examination and been deemed to have obtained a 'B' pass in the University Bursaries Examination, or,
(iii) been credited at a University in New Zealand in or after 1967 with 'B' passes or better in each of the units which constitute a full-time course.

(c) Supplementary Allowance Special — if the student has been credited at a University in New Zealand in the year 1966 with passes in each of the units which constitute a full-time course.

Value: Supplementary Allowance A $100 per annum  
Supplementary Allowance B $60 per annum  
Supplementary Allowance Special $80 per annum

UNIVERSITY JUNIOR SCHOLARSHIPS

Eligibility: A Junior Scholarship may be awarded to each of the top eighty-eight candidates on the list of the results of the Entrance Scholarships Examination held in 1967. In addition, the holder of a Junior Scholarship may also hold a Fees and Allowances Bursary provided he complies with the regulations of that bursary.

Tenure: Refer page 534.

Definition of Full time Study: A student must be devoting his whole time to his University studies.

Suspension for Failure and Reinstatement: In the event of any failures a special report is forwarded by the University of Auckland to the Universities Entrance Board with a recommendation regarding the continuation, suspension or termination of the Scholarship.

Value: $220 per annum.

MASTERS' BURSARIES

It should be noted that University Junior Scholarships are no longer available for masterate courses. However, Masters' Bursaries are co-tenable with University Senior Scholarships, which are at present valued at $200 per annum.
Eligibility: A Master’s Bursary may be awarded to any person who, having completed a Bachelor’s degree in not more than one year in excess of the minimum period stipulated for a student taking a full-time course, is proceeding in the next year or the following year to a full-time course leading to a Master’s degree. The award is not confined to a student who held the initial qualification for the award of a Fees or a Fees and Allowances Bursary.

For example, if a student were enrolled for the BA degree during 1964, 1965, and 1966, in that time passing eight units, he could in 1967 be credited with his ninth unit. Provided that he enrolled for full-time study he could claim a Master’s Bursary either in 1968 or in 1969.

Full-time course: A student is deemed to be taking a full-time course provided he is not working for more than six hours per week or if employed by the University on work related to his Master’s course, e.g. as a demonstrator, then for not more than ten hours per week.

Tenure: A Master’s Bursary is tenable for one year in the first instance. If the course is not completed by 1 March of the following year the tenure may be extended for a further period on a monthly basis with the maximum of eight months provided that:

(i) the Head of the Department certifies that the additional period is essential for the completion of the course being pursued;

(ii) the student is not working for more than six hours per week or if employed by the University on work related to his Master’s course, e.g. as a demonstrator, then for not more than ten hours per week.

Value: The value of the Master’s Bursary covers nine-tenths of tuition fees payable for the student’s course and an allowance of $300.

Boarding Allowance: A Boarding Allowance of $250 is payable under the same conditions as for a Fees and Allowances Bursary.
TENURE FOR FEES BURSARIES
FEES AND ALLOWANCES BURSARIES
AND JUNIOR SCHOLARSHIPS

The period of tenure for the various courses is as follows:—

One year:  DipBldg, DipBIA, DipEd, DipTP
Two years:  DipTP(Hons), DipUrbVal
Three years:  BA, BMus, BSc, ExecDipMus, DipCrim, DipFA, DipOpt, ProfAcc, NZIA
Four years:  BCom, BCom/ProfAcc, BE, BFA, BSc(Hons), DipArch, DipFA(Hons), ExecDipMus(Hons)
Five years:  BArch, LLB, LLB(Hons), BA/LLB, BA/LLB(Hons), BMus(Exec), BDS
Six years:  MB, ChB.

The period of tenure is the minimum period in which a student pursuing a full-time course in each year can complete his course and once the Bursary is taken up it must be held continuously except if under suspension for failure in units. This means that where a student is part-time it is unlikely that he will be able to complete his course within the tenure of the Bursary. He will be required to pay all fees for units required to complete his course after his bursary has expired.

The Bursary may be extended to enable a student to study a second undergraduate course if,

1. the total period of assistance for the two courses does not exceed five years except where the period of tenure for the Bursary for one of the courses is five years in which case the total period of assistance will be the period for that course plus one year, e.g.

BE (4 yrs.), BSc (3 yrs.) total period of assistance 5 years.
LLB (5 yrs.), BA (3 yrs.) total period of assistance 6 years.

and,
2. (a) he proceeds to the second course in the year following that in which he completes his first course unless approval has been granted by the Director-General to waive this requirement because of special circumstances, or

(b) he is taking units for a second course in the year in which he is completing his first course provided

(i) he has had no failures in his first degree or diploma course, or

(ii) he has not previously failed more than one unit of his first degree or diploma course and the remaining units of that course do not in themselves constitute a full-time course.

DEFINITIONS OF FULL-TIME STUDY

The Regulations state that a 'full-time course' for any year means any subject or combination of subjects which, in the opinion of the Senate of the University of Auckland, would enable a student to complete his course within the period of the tenure of the bursary. The Senate has fixed the following minimum combinations of units for the purpose of this Regulation.

Note: A unit in which Terms have been carried forward cannot be counted for full-time study unless a student is also enrolled internally and attending lectures in that unit.

SUSPENSION FOR FAILURE AND REINSTATEMENT

A bursary shall be suspended in any of the following circumstances:—

(i) If the student fails to be credited with passes in at least two units where passes are credited in individual units.

The bursary shall not be reinstated unless in the following year the student is credited with passes in at least two units.

(ii) If the student fails to be credited with passes in more than half of a Professional Examination or the equivalent of more than half of a Professional Examination where passes are required in groups of units.

The bursary shall not be reinstated unless in the following year the student is credited with passes in more than half of a Professional Examination:
Provided that if the student is not proceeding with study in the following year because of exceptional circumstances he may apply to the Registrar for permission to defer reinstatement of his bursary for a further year.

For the purpose of this regulation Studio will count as the equivalent of three units.

Only one suspension as above shall be allowed and any subsequent failure to comply with the requirements of either bursary shall result in cancellation of the bursary.

Sickness: If suspension or failure to gain reinstatement is in any way attributable to sickness then the student should notify the Director-General of Education, Wellington, as he has power either to continue the bursary or to extend the period for qualifying for reinstatement.

Voluntary Suspension: Where for any reason (other than failure to obtain the required number of units or sufficient credits to enable the continuation of his bursary) a bursar is unable to continue his course, he may apply to the Registrar, who has power to approve the application, for the voluntary suspension of his bursary for any specified period up to three years. Any further extension can be approved only by the Director-General of Education.

Students should note that Voluntary Suspension is not automatically granted. An application is necessary. Failure to apply for Voluntary Suspension may cause the automatic termination of a bursary.

SECONDARY TEACHERS' STUDENTSHIPS

Studentships are available to students wishing to study at this University for degrees in Arts, Science, Commerce and Music, and for diplomas in Fine Arts. Successful candidates will be enrolled at the Teachers' College as well as the University and will thus be members of the teaching profession from the time they take up the Studentship.

An allowance of $420 a year will be paid during the first year, increasing to $530 the second year, $640 the third year, and $740 the fourth and fifth year. In addition, students may hold any university bursary or scholarship to which they would
normally be entitled, such as a Fees and Allowances Bursary, 'A' and 'B' bursaries, and University Entrance Scholarships.

Successful applicants will be required to enter into an agreement and provide a bond accepting the obligations laid down for the Studentships. Applications should be sent to the Director-General of Education, Wellington, by 15 August for the following year.

Notes:

(i) Claims for tuition fees are accepted provisionally at the time of enrolment and are subject to confirmation by the Department making the award concerned. If claims are refused by the Department students will be required to pay fees in cash later in the year.

(ii) (a) When a student withdraws from classes before 31 March, no claim for fees in the deleted subject is made to the Department, nor is the student himself liable for such fees.

(b) When a student withdraws from classes after this date, no alteration will be made to the claim for fees already made on his behalf, and he will therefore be deemed to have failed to keep terms in such subjects so far as his bursary or study award is concerned.

SECONDARY TEACHERS' BURSARIES

Bursaries are available to students wishing to study at this University for the Diploma in Fine Arts.

Intending students may apply for bursaries in anticipation of gaining School Certificate and Preliminary Diploma in Fine Arts, or University Entrance qualifications at the end of the year in which they make application.

The bursaries will be available for three years but bursars who have successfully completed the first year of the course will be permitted to apply for transfer to a Secondary Teachers' Studentship.

The bursary will provide for the payment of nine-tenths of tuition fees in addition to an allowance of $140 a year, and a boarding allowance where applicable of $80 a year.
Applications should be lodged preferably before 15 July but will be received by the Director-General of Education, Wellington, C.I. up to 15 August.

Note: Students considering training for secondary teaching through studentships, bursary, or any other teacher training course should consult the Principal Lecturer, Division U at the Auckland Secondary Teachers' College. The address is 62 Epsom Avenue, Telephone 65-980.

STATE SERVICES COMMISSION BURSARIES AND GRANTS

The State Services Commission offers to employees of Departments administered by the Commission, study awards relating to a wide variety of courses. Briefly, these fall into three categories:

(A) for ‘popular’ specialist courses (e.g., accountancy, law, engineering, architecture, forestry, science, general agriculture).

(B) for ‘rare’ specialist courses (e.g., horticulture, food technology, farm economics, biochemistry) which have been declared by the Commission to be of critical value to the department concerned.

Note: These awards are designed for school leavers and probationers who are paid a series of allowances.

(C) for leave to selected public servants who are no longer on probation. These awards are:

(i) Final Year — Full salary for full-time study in the final year to complete BA, LLB, BCom, BCom/ProfAcc, or ProfAcc. Principal condition is a bond for 3 years’ service.

(ii) Honours — Full salary for full-time study for one year to obtain a master’s degree in commerce, arts, or law. Principal condition is a bond for 3 years’ service.

(iii) Penultimate Year — Half salary for full-time study for one year to applicants who are normally under 22 years of age on 1 March, who have completed at least 4 units in arts, commerce, or accountancy or 10 units in law. Condition is a bond for 3 years’ service, or 5 years’ service if followed by a Final Year Study Award.
Closing date for category (C) awards is 1 December with the State Services Commission.

Notes:

(i) Claims for tuition fees are accepted provisionally at the time of enrolment and are subject to confirmation by the Department making the award concerned. If claims are refused by the Department students will be required to pay fees in cash later in the year.

(ii) (a) When a student withdraws from classes before 31 March, no claim for fees in the deleted subject is made to the Department, nor is the student himself liable for such fees.

(b) When a student withdraws from classes after this date, no alteration will be made to the claim for fees already made on his behalf, and he will therefore be deemed to have failed to keep terms in such subjects so far as his bursary or study award is concerned.

Refund of Fees: The Commission arranges for departments to refund 90 per cent of the consolidated university fee in each subject passed by a student who is taking an approved course and who has paid his or her own fee for that subject and received no assistance towards it from public moneys.
SCHOLARSHIPS, BURSARIES, AND PRIZES

The tables on the following pages provide brief details of available scholarships and bursaries (pages 544-55), and prizes (pages 556-9).

A booklet entitled Regulations for Scholarships and Prizes is available without charge from the enquiry counter at the Registry, Princes Street. This booklet gives full details of the regulations governing scholarships, bursaries, prizes and other awards administered by the University and details of funds available for special assistance.

A handbook published annually entitled University Grants Committee Handbook gives full details of the regulations governing awards administered by the University Grants Committee. This handbook may be purchased through booksellers or direct from the University Grants Committee, Box 8035, Wellington. Copies are also available for reference in the University main library.

The attention of students and graduates is drawn to the Scholarships Notice Boards in the cloister on the lower ground floor of the Main Arts Building and in the Student Union where further notices and details are displayed of scholarships, bursaries, and prizes currently offered.

Review of a scholarship:

The Council, in awarding any scholarship, reserves the right to reduce the annual value of such scholarship at any time and from time to time during the tenure of it by any holder should the annual income of the funds of such scholarship, in the opinion of the Council, render such reduction expedient. All scholarships offered are subject to review in the event of the candidate being awarded other scholarships. Every holder of a scholarship shall be deemed to accept the award of same, subject to the above reservation, and notwithstanding that the value of such scholarship is set out specifically in the Regulations.

Re-award of a scholarship discontinued by the original holder:

Fresh applications may be called for in any scholarships discontinued after a period of three months or more from the original date of award; the re-award in the event of the discontinuation of the scholarship to be made on the basis of the original application if possible.

5. Visitor of the University
An Act to consolidate and amend certain enactments of the General Assembly relating to the University of Auckland

BE IT ENACTED by the General Assembly of New Zealand in Parliament assembled, and by the authority of the same, as follows:

1. Short Title and commencement—(1) This Act may be cited as the University of Auckland Act 1961.

(2) This Act shall come into force on the first day of January, nineteen hundred and sixty-two.

2. Interpretation—In this Act, unless the context otherwise requires,—

“The Chancellor” means the Chancellor of the University of Auckland elected under this Act:

“The Council” means the Council of the University of Auckland:

“Financial year” means the financial year of the University fixed by the Council with the concurrence of the University Grants Committee:

“General course of study” means the structure of any course for a degree or other academic qualification and the subjects of study in the course; and includes the content of any subject in the course, any set works or periods to be studied, the extent and nature of any practical work required for any such subject, any prerequisites to the course or to the subjects of study in the course, and the types of examination:

“Lecturer” means a member of the staff of the University of Auckland who is in terms of his appointment an associate professor, a reader, a senior lecturer, or a lecturer of the University; and includes such other persons and classes of persons as the Council from time to time determines:

“Personal course of study” means the subjects which an individual student selects for a degree or other academic qualification in accordance with the general course of study for the time being prescribed for all students for the degree or other academic qualification:

“The Pro-Chancellor” means the Pro-Chancellor of the University of Auckland elected under this Act:

“Professor” means a professor of the University of Auckland; but does not include an associate professor:

“The Registrar” means the Registrar of the University of Auckland:

“The Senate” means the Senate of the University of Auckland:

“The University” means the University of Auckland constituted under this Act:

“The Vice-Chancellor” means the Vice-Chancellor of the University of Auckland appointed under this Act.

3. Constitution of the University—(1) For the advancement of knowledge and the dissemination and maintenance thereof by teaching and research there shall be in the Auckland University District a University to be called the University of Auckland.

581
(2) The University shall consist of the Council, the professeors emeriti, the professors, lecturers, junior lecturers, Registrar, and librarian of the University for the time being in office, the graduates and undergraduates of the University, the graduates of the University of New Zealand whose names are for the time being on the register of the Court of Convocation of the Auckland University District, and such other persons and classes of persons as the Council may from time to time determine.

(3) The University shall be a body corporate with perpetual succession and a common seal, and may hold real and personal property, and sue and be sued, and do and suffer all that bodies corporate may do and suffer.

(4) The University established under this Act is hereby declared to be the same institution as the institution of that name existing immediately before the commencement of this Act under the University of Auckland Act 1954 (as amended by the University of Auckland Amendment Act 1957), which institution was originally established under the name of the Auckland University College under the Auckland University College Act 1882.

4. University District and Court of Convocation—(1) For the purposes of this Act there shall be a district to be called the Auckland University District, comprising the area specified in the First Schedule to this Act.

(2) The boundaries of the Auckland University District may be altered from time to time by the Governor-General by Order in Council.

(3) There shall be a Court of Convocation for the Auckland University District.

(4) The said Court of Convocation shall consist of the persons whose names are enrolled on a register to be kept by the Registrar.

(5) Every person shall be entitled to have his name enrolled on the register of the Court of Convocation who—

(a) is a graduate of the University; or

(b) being a graduate of the University of New Zealand, either by examination at any time or by reason of having been admitted ad eundem gradum before the first day of January, nineteen hundred and forty-three, is not, by reason of that qualification, enrolled on the register of the Court of Convocation for any other University District in New Zealand, and is otherwise qualified in accordance with statutes made by the Council to be enrolled on the register of the Court of Convocation for the Auckland University District; or

(c) not being such a graduate, is a professor or graduate full-time member of the staff of the University or a graduate member, approved by the Council as being of University status, of the staff of an institution affiliated to the University; or

(d) is otherwise entitled in accordance with statutes made by the Council to have his name enrolled on the said register.

(6) The Council may from time to time make statutes for the keeping of the register of the Court of Convocation, which statutes may include provisions prescribing the persons and classes of persons who are eligible under paragraph (b) or paragraph (d) of subsection (5) of this section for membership of the said Court of Convocation and the conditions (whether as to payment of fee or otherwise) on which persons are entitled to have
their names enrolled in the register of the said Court; and, subject to
this Act and to the said statutes, if any, the said Court shall have power
to make such rules for the conduct of its business as it thinks fit and
until rules governing its meetings are so made shall meet at such times
and places as the Council may determine.

(7) The said Court may make representations to the Council on any
matter concerning the interests of the University.

5. Visitor of the University—The Governor-General shall be the Visitor
of the University, and shall have all the powers and functions usually
possessed by Visitors.

The Council

6. Constitution of Council—(1) There shall be a Council of the Univer-
sity, to be called the Council of the University of Auckland.

(2) The Council shall consist of—

(a) Three members to be appointed by the Governor-General:

(b) The Vice-Chancellor or, while there is no Vice-Chancellor in office
or during the absence or incapacity of the Vice-Chancellor,—

(i) The Deputy Vice-Chancellor; or

(ii) While there no Deputy Vice-Chancellor in office or during
the absence or incapacity of the Deputy Vice-Chancellor, the
Chairman of the Senate:

(c) Five members to be appointed by the Senate, of whom four shall
be professors, and one shall be a lecturer appointed by the
Senate from its sub-professorial members:

(d) Six members to be elected by the Court of Convocation for the
Auckland University District:

(e) One member to be elected by the governing bodies of State second-
ary schools, technical schools, and combined schools, and such
registered private secondary schools as the Council may from
time to time determine, being in all cases schools situated in the
Auckland University District, each governing body to have one
vote for the purposes of any such election:

(f) One member to be appointed by the Executive Committee of the
Auckland University Students’ Association Incorporated:

(g) Such number of members (not exceeding three) as the Council
from time to time after the commencement of this Act thinks
fit, to be appointed by the Council:

(h) The Mayor of Auckland.

7. Transitional provisions—(1) Upon the commencement of this Act the
members of the Council who were elected or appointed under paragraphs
(d), (e), (g), (h) and (i) of subsection (2) of section 6 of the University of
Auckland Act 1954 shall go out of office, and shall not be replaced.

(2) The other members of the Council who were in office immediately
before the commencement of this Act shall continue in office for terms
expiring as follows:

(a) Of those of the said members who were appointed by the Governor-
General, the term of one (being the one who has been longest
in office at the date of the commencement of this Act) shall

583
expire with the thirtieth day of June, nineteen hundred and sixty-two, the term of another (being the one who has been next longest in office at the date of the commencement of this Act) shall expire with the thirtieth day of June, nineteen hundred and sixty-three, and the term of the remaining one shall expire with the thirtieth day of June, nineteen hundred and sixty-four:

(b) The term of those of the said members who were appointed by the Professorial Board (since called the Senate) shall expire with the thirty-first day of December, nineteen hundred and sixty-two:

(c) The term of the member who was appointed by the Executive Committee of the Auckland University Students' Association Incorporated shall expire with the thirtieth day of June, nineteen hundred and sixty-two:

(d) Of those of the said members who were elected by the District Court of Convocation of the Auckland University District, the term of three (being those who have been longest in office at the date of the commencement of this Act) shall expire with the thirtieth day of June, nineteen hundred and sixty-three, and the term of the remaining three shall expire with the thirtieth day of June, nineteen hundred and sixty-five.

(3) The first member to be elected under paragraph (e) of subsection (2) of section 6 of this Act, and the three additional members to be appointed by the Senate under paragraph (c) of that subsection, shall come into office at the commencement of this Act or as soon thereafter as they are elected or appointed; and if they come into office after the commencement of this Act their terms shall be calculated as if they came into office at the commencement of this Act.

8. Terms of office—(1) Subject to the provisions of this Act, the members of the Council elected under paragraph (d) of subsection (2) of section 6 of this Act shall hold office for a term of four years, the members of the Council appointed under paragraphs (c) and (f) of subsection (2) of section 6 of this Act shall hold office for a term of two years, and all other elected or appointed members of the Council shall hold office for a term of three years. All elected or appointed members of the Council may from time to time be re-elected or reappointed.

(2) Elections or appointments of members of the Council to take the place of members whose terms are due to expire with the thirtieth day of June in any year shall be held or made not later than the third Monday in June in that year; and members so elected or appointed shall come into office on the first day of July following the date specified in this subsection for their election or appointment.

(3) Appointments of members of the Council to take the place of members whose terms are due to expire with the thirty-first day of December in any year shall be made not later than the third Monday in December in that year; and members so appointed shall come into office on the first day of January following the date specified in this subsection for their appointment.

(4) If at the time prescribed by this section for the election or appointment of any member or members of the Council no member or members or insufficient members are elected or appointed, the Council may itself appoint a suitable person in the place, and for the term or the remainder of the term, of the member who should have been elected or appointed.
(5) Every member of the Council elected or appointed under any of the provisions of paragraphs (a), (c), (d), (e), and (f) of subsection (2) of section 6 of this Act, unless he sooner vacates his office under section 11 of this Act, shall continue to hold office until his successor comes into office. Every member of the Council appointed under paragraph (g) of subsection (2) of section 6 of this Act shall go out of office at the expiration of his term of office.

9. Employees as Council members—(1) No person in the employment of the University shall be eligible for office as a member of the Council, otherwise than under paragraph (b) or paragraph (h) of subsection (2) of section 6 of this Act, unless he is a member appointed by the Senate:

Provided that the Council may pay to any member for the time being of the Council who has acted, at the request of the Council, as an examiner, assessor, or moderator in any subject or examination a fee or stipend determined in accordance with paragraph (c) of section 18 of this Act, and no person to whom any such fee or stipend is paid shall be ineligible as aforesaid:

Provided also that no person shall be ineligible as aforesaid by reason of any other employment by the University if the amount paid to him in any financial year in respect of that employment does not exceed four hundred pounds.

(2) A member of the Council who is in the employment of the University shall not be entitled to vote on any question before the Council or any committee of the Council which directly affects his salary or in which he, either alone or in common with other members of the staff, has a direct pecuniary interest.

10. Disqualification of members of Council—The following persons shall be incapable of being elected or appointed to be members of the Council:

(a) A mentally defective person within the meaning of the Mental Health Act 1911:

(b) A bankrupt who has not obtained his order of discharge or whose order of discharge has been suspended for a term not yet expired or is subject to conditions not yet fulfilled:

(c) A person convicted of any offence, punishable by imprisonment, unless he has received a free pardon or has served his sentence or otherwise suffered the penalty imposed on him.

11. Casual vacancies in Council—(1) If any elected or appointed member of the Council—

(a) Dies; or

(b) Resigns his office by writing under his hand delivered to the Registrar; or

(c) Is absent without leave from three consecutive meetings of the Council; or

(d) Becomes ineligible for election or appointment to the Council under the provision of this Act under which he was elected or appointed; or

(e) Becomes a mentally defective person within the meaning of the Mental Health Act 1911; or

(f) Is adjudged a bankrupt; or
(g) Is convicted of any offence punishable by imprisonment,—
he shall thereupon cease to be a member, and the vacancy thereby created
shall be deemed to be a casual vacancy.

(2) If any elected or appointed member of the Council becomes the
Mayor of Auckland or the Vice-Chancellor, a casual vacancy shall arise in
respect of the office previously held by him.

(3) Every casual vacancy in the office of an elected or appointed mem-
ber of the Council (other than a member appointed under paragraph (g)
of subsection (2) of section 6 of this Act) shall, as soon as practicable, be
filled by the election or appointment of a new member in the same
manner as in the case of the vacating member, and the member elected
or appointed to fill any casual vacancy shall hold office for only the
residue of the term of the vacating member.

12. Proceedings of Council not affected by vacancies, etc.—No act or
proceeding of the Council, or of any committee thereof, or of any person
acting as a member of the Council, shall be invalidated in consequence
of there being a vacancy in the number of the Council at the time of
that act or proceeding, or of the subsequent discovery that there was some
defect in the election or appointment of any person so acting, or that he
was incapable of being or had ceased to be such a member.

13. Election of members—(1) The Registrar of the University, or such
other person as the Council appoints, shall be the Returning Officer for
the purpose of conducting elections of members of the Council.

(2) The elections of members of the Council shall be conducted, and
rolls for the elections shall be prepared, in the manner prescribed by
statutes or regulations of the University.

14. Meetings of Council—(1) The Council shall meet at such times and
places as it determines:
Provided that it shall meet at least once in the month of July in each
year.

(2) At any meeting of the Council six members shall form a quorum,
and no business shall be transacted unless a quorum is present.

(3) At any meeting of the Council the person presiding at the meeting
shall have a deliberative vote, and in the case of an equality of votes
shall also have a casting vote.

(4) Every question before the Council shall be decided by a majority
of the votes of the members present at the meeting of the Council and
entitled to vote on that question.

15. Special meetings of Council—(1) The Chancellor may at any time,
of his own motion, call a special meeting of the Council, and the Chan-
cellor shall call a special meeting on the requisition in writing of any five
members.

(2) Notice of any such meeting shall be posted to each member at his
usual address at least forty-eight hours before the time fixed for the
meeting.

16. Council may appoint committees—(1) The Council may from time
to time appoint standing or special committees.
(2) The Council may delegate any of its powers and duties, including any powers and duties which it has by delegation from any other body or person, but (except as provided in subsection (2) of section 35 of this Act) not including this power of delegation, and not including the power to make statutes and regulations, to any such committee or to the Senate or any person; and the committee or the Senate or person, as the case may be, may, without confirmation by the Council, exercise or perform the delegated powers or duties in like manner and with the same effect as the Council could itself have exercised or performed them.

(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power or the performance of any duty by the Council.

(4) Unless and until any such delegation is revoked, it shall continue in force according to its tenor.

(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Council.

Powers of the Council

17. Council to be governing body of University—The Council shall be the governing body of the University through which the corporation of the University shall act, and shall have the entire management of and superintendence over the affairs, concerns, and property of the University; and, subject to the provisions of this Act and any other Act, shall in respect of all such matters have authority to act in such manner as appears to it to be best calculated to promote the interests of the University and of any other institution controlled by the Council and to promote and foster adult education:

Provided that the Council shall not make any final decision on any matter mentioned in section 36 of this Act until it has first consulted the Senate or in the case of any appointment of academic staff the committee of the Senate specified in the second proviso to that section and considered any recommendations the Senate or committee may make in that behalf, unless the Senate or committee, having had reasonable opportunity to make such recommendations, has failed so to do.

18. Appointment of professors, lecturers, etc.—The Council shall have full power—

(a) To institute the offices of professor and lecturer and such other offices as it thinks fit in connection with the University and any other institution controlled by the Council:

(b) To appoint and remove all professors, lecturers, teachers, officers, and servants of the University and of any other institution controlled by the Council:

Provided that in the case of a dismissal of a member of the academic staff, no decision shall be taken by the Council until the Council has considered any recommendations made in that behalf by the Senate, unless the Senate, having had reasonable opportunity to make such recommendations, has failed so to do:

(c) To appoint and remove examiners, assessors, and moderators:

Provided that the fee or stipend which the Council may pay to any examiner, assessor, or moderator shall be in accordance with a scale fixed by the Council with the concurrence of the University Grants Committee.
19. Conferment of degrees—(1) The Council shall have power to confer
any degree or to award any other academic qualification specified in the
Second Schedule to this Act.

(2) The Council may from time to time, by statute, add to or omit from
the list of degrees and other academic qualifications specified in the said
Second Schedule the name or description of any degree or other academic
qualification or otherwise amend the list; and every such statute shall
have effect according to its tenor:
Provided that no statute adding to the said list of degrees shall come
into force until it has been approved by the University Grants Committee.

(3) The Council shall, in accordance with such conditions as it may
prescribe, have power to confer any degree or to award any academic
distinction as an honorary degree or academic distinction:
Provided that no honorary degree or academic distinction shall be con-
ferred on or awarded to any person by the Council unless that person
has been recommended therefor by a joint committee of the Council and
the Senate set up in accordance with the statutes or regulations of the
University.

20. Award of certificates, etc.—The Council shall have power, under
such conditions as it thinks fit, to award certificates, fellowships, scholar-
ships, bursaries, and prizes, and to make other awards.

21. Lectures to members of the public—The Council shall have power
to provide such lectures and instruction for any persons, whether or not
they are members of the University, as it thinks fit, and on such condi-
tions as it thinks fit, and may award certificates to any of them.

22. Power to make statutes and regulations—(1) Subject to the provisions
of this Act and any other Act, the Council may from time to time make
such statutes of the University as may in its opinion be necessary or
expedient for the administration of the affairs of the University.

(2) Subject to the provisions of this Act and any other Act and to the
statutes (if any) of the University, the Council may from time to time
make such regulations of the University as may in its opinion be necessary
or expedient for the administration of the affairs of the University.

(3) Without limiting the generality of the foregoing provisions of this
section it is hereby declared that statutes and regulations so made may
prescribe any matters which by this Act are required or permitted to be
prescribed or with respect to which statutes or regulations are, in the
opinion of the Council, necessary or expedient for giving effect to this
Act.

(4) Subject to the provisions of section 36 of this Act and, where so
required by any Act, to the consent of the University Grants Committee
or the Curriculum Committee, the Council may make statutes or regula-
tions with respect to all or any of the degrees and other academic qual-
ifications, certificates, fellowships, scholarships, bursaries, prizes, and awards
of the University which the Council may confer or award, and with res-
pect to general courses of study and personal courses of study for the
same.

(5) All such statutes and regulations shall be in writing.
(6) No statute passed by the Council of the University as aforesaid shall come into force until it has been approved by the Governor-General.

(7) All such statutes and regulations shall have effect according to their tenor, and shall be published by the Council.

(8) A copy of any such statute or regulation under the seal of the University shall be sufficient evidence in all Courts of the same and of its having been made and (where necessary) approved in accordance with this section.

23. Seal of the University—The seal of the University shall be in the custody of the Registrar or such other officer as the Council may appoint, and shall not be affixed to any document except pursuant to a resolution of the Council, or by the authority of a resolution of a committee of the Council acting in accordance with an authority for that purpose conferred upon it by the Council.

24. Admission of students—(1) Every person who is academically qualified for entrance to a University in New Zealand in accordance with the requirements of the Universities Entrance Board shall be eligible to matriculate at the University without further examination.

(2) The Council shall have power to decline to enrol any student at the University, or in a particular course or courses, or in classes in a particular subject or subjects on the ground of—

(a) The person not being of good character; or

(b) Misconduct or a breach of discipline on the part of the student; or

(c) The person not having attained the age of sixteen years on the previous thirty-first day of December, or the person not having attained any other age prescribed in respect of any course of study by any course regulations within the meaning of the Universities Act 1961; or

(d) The person being enrolled for full-time instruction in a secondary school, technical school, combined school, district high school, or registered private secondary or technical school; or

(e) Insufficient academic progress by the student after a reasonable trial at the University or at any other University or University College of Agriculture; or

(f) Insufficiency of accommodation or of teachers in the University or in a faculty or department of the University; or

(g) The person not having satisfied any conditions prescribed by any course regulations within the meaning of the Universities Act 1961.

(3) The Council shall, as soon as practicable after the commencement of this Act, make a statute or statutes governing the persons and classes of persons who may be enrolled or refused enrolment as external students of the University, and the conditions under which, and the subjects and courses for which, they may be so enrolled or refused enrolment. The Council may from time to time make further statutes for all or any of the purposes specified in this subsection, and may by statute repeal or amend any statute made under this subsection. No statute made under this subsection shall come into force until it has been approved by the University Grants Committee.

(4) For the purposes of paragraph (f) of subsection (2) of this section the Council may, if it thinks fit, from time to time make statutes defining
the circumstances in which insufficiency of accommodation or of teachers in the University or in a faculty or department of the University shall be deemed to exist, and the maximum number of students who may be admitted to any course or class. No such statute shall come into force until it has been approved by the University Grants Committee. Every such definition that is made by statute under this subsection shall be conclusive for all purposes.

(5) Where any person has obtained in any University or other place of learning any degree or other academic qualification or part thereof substantially corresponding or equivalent, in the opinion of the Senate, to any degree or other academic qualification or part thereof which the Council is empowered to confer or award, the Council may admit that person at its discretion ad eundem statum in the University without further examination and may withdraw any such admission at any time.

(6) A person admitted to the status of the holder of a degree or other academic qualification or part thereof of the University shall not be deemed to be the holder of the degree or other academic qualification or part thereof, nor shall he be entitled to be enrolled as a graduate of the University, but he shall be entitled to proceed to any degree or other academic qualification of which the degree or other academic qualification or part thereof to the status of which he has been admitted is a prerequisite upon the same terms and conditions as those upon which a holder of the degree or other academic qualification or part thereof is entitled so to proceed.

(7) Where a person who has been a student of another University and has matriculated at any University in New Zealand is admitted to the University of Auckland, the Council of that University shall give him such credits as it considers appropriate for any units or subjects which he has already passed in New Zealand and with which he has been credited towards a degree or other academic qualification in his former University or grant him such exemptions as it considers appropriate, so that he may complete his course without suffering undue hardship as a consequence of his transfer.

(8) Any person who is eligible to be admitted or who has been admitted to a degree of the University of New Zealand, or who has been admitted ad eundem at graduate status by the Senate of the University of New Zealand shall be deemed to be of equivalent status in the University of Auckland for the purpose of proceeding to a degree or other academic qualification of the University of Auckland, and shall, subject to the course regulations for the degree or other academic qualification for which he is a candidate, be eligible to proceed to the degree or other academic qualification:

Provided that, in approving his personal course of study, the Senate may, at its discretion, require any such person to complete such supplementary courses as it thinks fit either as a prerequisite to or concurrently with his course of study for the degree or other academic qualification for which he is a candidate.

(9) The provisions of subsection (8) of this section shall, with the necessary modifications, apply to any person who is eligible to be awarded or who has been awarded a diploma of the University of New Zealand, or to any person who has been admitted ad eundem by the Senate of the University of New Zealand to the status of a holder of a diploma of that University.

590
The Chancellor and Pro-Chancellor

25. Election of Chancellor—(1) At its first meeting held in the month of July in the year nineteen hundred and sixty-two, and in every third year thereafter, the Council shall elect one of its members to be the Chancellor of the University of Auckland:

Provided that the Vice-Chancellor or any other person who is for the time being a member of the Council under paragraph (b) of subsection (2) of section 6 of this Act or a member of the Council appointed by the Senate shall not be so elected.

(2) The Chancellor shall be the ceremonial head of the University and the Chairman of the Council.

(3) Unless the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election:

Provided that, upon any person completing two consecutive terms each of three years as Chancellor, he shall cease to be eligible for re-election as Chancellor until after the lapse of a period of three years during which he did not hold that office.

(4) If the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, the Council shall elect some eligible person to be the Chancellor for the remainder of the term for which the vacating Chancellor was elected.

(5) For the purpose of the election of the Chancellor for any term, the Registrar of the University shall preside at the meeting, but shall not be entitled to vote. In the event of an equality of votes the election shall be determined by lot.

26. Election of Pro-Chancellor—(1) At its first meeting held in the month of July in each year, the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland.

(2) Unless the Pro-Chancellor sooner resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office of Pro-Chancellor until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election.

(3) If the Pro-Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act or is elected to be the Chancellor he shall thereupon vacate the office of Pro-Chancellor, and the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland for the remainder of the term.

(4) During any vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Pro-Chancellor shall have and may exercise and perform all the powers and duties of the Chancellor, other than his powers in relation to the conferring of degrees and the award of other academic qualifications and distinctions.
27. Right to preside at meetings of Council—The Chancellor shall preside at every meeting of the Council at which he is present. If at any meeting of the Council the Chancellor is not present or there is no Chancellor, the Pro-Chancellor shall preside at the meeting; and if the Pro-Chancellor also is not present at the meeting or there is no Pro-Chancellor, the Council shall appoint some member present to preside at that meeting. The Pro-Chancellor or person so appointed shall have and may exercise in any such case all the powers and functions of the Chancellor for the purposes of the meeting.

The Vice-Chancellor and Deputy Vice-Chancellor

28. Vice-Chancellor—(1) The Council may from time to time appoint some fit and proper person to be the Vice-Chancellor of the University of Auckland.

(2) The Vice-Chancellor shall have the following functions, powers, and duties:

(a) He shall be the academic and administrative head of the University;

(b) He shall, by virtue of his office, be a member of the Council, Chairman of the Senate, a member of every faculty, and a member of every committee set up by the Council or the Senate:

(c) He shall have such duties as the Council, subject to the provisions of this Act, may from time to time specify:

(d) He may, during the intervals between meetings of the Senate, exercise alone (but subject always to the control of the Council and to a right of appeal to the Senate) such of the powers of the Senate as to maintaining the discipline of the University as may be prescribed in that behalf by statutes or regulations made under the authority of this Act:

(e) On the occurrence from any cause of a vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Vice-Chancellor shall exercise the powers of the Chancellor in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

(3) The Vice-Chancellor may appoint any member of the Senate to attend in his place the meeting of any board, committee, or other body which is not constituted by or under this Act (whether created by or under any other Act or otherwise) of which the Vice-Chancellor is a member. Any person so appointed shall while so attending be deemed for all purposes to be a member of the board, committee, or other body and may exercise all the rights and powers which the Vice-Chancellor could have exercised had he been personally present. The fact that any member of the Senate so attends shall be sufficient evidence of his authority so to do.

29. Deputy Vice-Chancellor—(1) The Council may from time to time appoint a professor as the Deputy Vice-Chancellor of the University of Auckland.

(2) The Deputy Vice-Chancellor shall hold office for such period as may be determined by the Council.

(3) The Deputy Vice-Chancellor may exercise such of the Vice-Chancellor's functions, powers, and duties, whether arising under any Act or
otherwise, as the Council, upon the recommendation of the Vice-Chancellor or (in the absence of such a recommendation) of its own motion, may from time to time either specially or generally delegate to the Deputy Vice-Chancellor.

(4) In addition to the powers conferred upon him by subsection (3) of this section, the Deputy Vice-Chancellor shall, during any vacancy in the office of Vice-Chancellor, or in the absence of the Vice-Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, be Chairman of the Senate and may exercise such other of the Vice-Chancellor’s functions, powers, and duties, whether arising under any Act or otherwise, as the Council may determine.

The Senate

30. Constitution of Senate—(1) There shall be a Senate of the University of Auckland.

(2) The Senate shall consist of:
(a) The Vice-Chancellor;
(b) The professors of the University;
(c) The librarian of the University;
(d) Two lecturers to be elected by the full-time lecturers of the University;
(e) Such other members of the University as the Council, with the advice of the Senate, may from time to time appoint.

(3) The Council may from time to time make statutes or regulations defining the time and manner of holding elections for the purposes of paragraph (d) of subsection (2) of this section, the persons and classes of persons eligible to vote at those elections, and the term for which persons so elected shall hold office.

(4) The Senate of the University of Auckland is hereby declared to be the same body as the Professorial Board of the University of Auckland constituted by section 23 of the University of Auckland Act 1954; and every reference in any enactment or document to the Professorial Board of the University of Auckland shall hereafter be read as a reference to the Senate of the University of Auckland.

31. Chairman of Senate—(1) Whenever there is no Vice-Chancellor or Deputy Vice-Chancellor in office, the Senate shall, at its first meeting held thereafter and at its first meeting in each year, elect one of its members, being a professor, to be the Chairman of the Senate; and if it fails to do so the Council may appoint a professor to be the Chairman of the Senate.

(2) The person so appointed shall hold office until the appointment of a Vice-Chancellor or Deputy Vice-Chancellor or until the election or appointment of his successor under this section, whichever happens first, and shall be eligible for re-election or reappointment, but shall not hold office for more than two terms in succession.

32. Meetings of Senate—(1) The person who is entitled in accordance with the provisions of sections 28, 29, and 31 of this Act to be Chairman of the Senate at any meeting thereof at which he is present shall preside at that meeting. In the absence of any such person from any such meet-
ing, the members present shall elect one of their number to be Chairman for the purposes of that meeting and the person so elected shall preside at that meeting.

(2) At any meeting of the Senate the person presiding shall have a deliberative vote, and in the case of an equality of votes shall also have a casting vote.

(3) Every question before the Senate shall be decided by a majority of the valid votes recorded thereon.

(4) At every meeting of the Senate a quorum shall consist of such number of members as the Senate from time to time determines, and no business shall be transacted unless a quorum is present.

(5) Save as expressly provided in this Act, the Senate shall have power to make rules as to the time and place of its meetings and the procedure thereat;
Provided that it shall meet at least once in each year.

33. Proceedings of Senate not affected by vacancies, etc.—No act or proceeding of the Senate, or of any committee thereof, or of any person acting as a member of the Senate, shall be invalidated in consequence of there being a vacancy in the number of the Senate at the time of that act or proceeding, or of the subsequent discovery that there was some defect in the appointment of any person so acting, or that he was incapable of being or had ceased to be such a member.

34. Functions of Senate—(1) The Senate shall have power of its own motion, or at the request of the Council, to make recommendations or reports to the Council on any matter affecting the University.

(2) The Senate shall be specially charged with:
(a) The duty of furthering and co-ordinating the work of faculties and departments and of encouraging scholarship and research; and
(b) The control of the Library.

(3) The Senate shall have power to deal with all matters relating to the maintenance of discipline amongst the students of the University, and shall have such powers of fining, suspending, and expelling students guilty of misconduct or breaches of discipline, and such other powers of whatsoever kind as may be conferred on it by statutes or regulations made under the authority of this Act:
Provided that any person aggrieved by any action of the Senate may appeal to the Council, whose decision shall be final.

(4) The Senate shall have power to approve personal courses of study proposed by individual students:
Provided that the Senate shall not approve personal courses of study for a degree or other academic qualification in such a way as to introduce general restrictions not provided for in the course regulations governing the course of study for that degree or other academic qualification.

35. Senate may appoint committees—(1) The Senate may from time to time appoint standing or special committees.

(2) The Senate may delegate any of its powers and duties (including any powers and duties which it has by delegation from the Council or any other body or person) to any such committee or to any person; and
the committee or person may, without confirmation by the Senate, exercise or perform those powers or duties in like manner and with the same effect as the Senate could itself have exercised or performed them:

Provided that the Council may prohibit, or impose conditions in respect of, the delegation by the Senate of any power or duty that is delegated to the Senate by the Council.

(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power by the Senate.

(4) Unless and until any such delegation is revoked, it shall continue in force according to its tenor.

(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Senate.

36. Council to consult Senate on academic matters—The Council shall not make any statute or regulation or decision in relation to entrance to the University or to any course of study or to the prescription of any subject for any degree or other academic qualification or certificate, or to any fellowship, scholarship, bursary, prize, or award or the examination or qualification therefor, or to the admission, attendance, and discipline of students, or to examinations and other academic tests, or to the institution of the offices of professor or lecturer, or to the appointment of academic staff, including the Vice-Chancellor and Deputy Vice-Chancellor, or to the appointment of examiners, assessors, or moderators, or to honorary degrees and other academic distinctions, or to the affiliation of any institution or branch or department thereof, until it has first received and considered any recommendation that the Senate may make in that behalf, unless the Senate, having had a reasonable opportunity to make such a recommendation, has failed to do so:

Provided that a decision to confer an honorary degree or academic distinction shall be made in the manner provided in subsection (3) of section 19 of this Act, and nothing in this section shall apply to such a decision:

Provided also that in the case of appointments to the academic staff, the Council shall need only to secure a recommendation from a committee of the Senate appointed under section 35 of this Act.

Affiliated Institutions

37. Admission of affiliated institutions—(1) The Council may, on such terms and conditions and subject to such inspections, reports, and inquiries as it thinks fit, affiliate other institutions or branches or departments thereof situated within the Auckland University District, or recognise selected members of the staffs thereof as teachers of the University, or admit the members thereof to any of the privileges of the University and accept attendance at courses of study in such institutions or branches or departments thereof in place of such part of the attendance at courses of study in the University and upon such terms and conditions and subject to such regulations as may from time to time be determined by the Council.

(2) The Council may at any time revoke any such affiliation, recognition, admission, or acceptance.

Financial Provisions

38. Benefactions to be strictly applied—Subject to the provisions of the Charitable Trust Act 1957, all benefactions at any time vested in or en-
joyed by the University with a declaration of trust, or as an endowment for the promotion of any particular branch of science or learning, shall be applied strictly by the Council accordingly.

39. Application of income and capital of University—Subject to the provisions of this Act and any other Act and to the terms of any trust or endowment, the income and capital of the University shall be applied in doing whatever the Council thinks expedient in order that the University may best accomplish the purposes for which it is established.

40. Money to be paid into bank—(1) All money received by the University amounting to ten pounds and upwards shall, as soon as practicable after it has come into the hands of the proper officer of the University, be paid into such bank account or accounts of the University as the Council from time to time determines.

(2) No such money shall be withdrawn from the bank except by authority of the Council and by cheque signed by an officer of the University approved by the Council, and countersigned by a member of the Council, or by another officer of the University, approved by the Council: Provided that it shall be lawful, with the prior consent in writing of the Audit Office and subject to such conditions as the Audit Office prescribes, for any money to be paid by the Council by cheque issued by means of a cheque-writing machine, and every such cheque issued by means of such a machine and bearing a facsimile of the signature of the persons authorised pursuant to the provisions of this section to sign and countersign cheques shall be deemed to have been duly signed and countersigned in accordance with the provisions of this section.

41. Loan money to be paid into a separate account—All money borrowed by the Council on behalf of or for the purpose of the University, other than money borrowed under section 51 of this Act, shall be paid into a separate bank account in the name of the loan, and shall not be drawn out of the bank or expended except for the special purposes for which it was borrowed.

42. Investment of money—Subject to the terms of any trust or endowment, any money belonging to or vested in the University and available for investment may be invested in accordance with the provisions of the Trustee Act 1956 as to the investment of trust funds, or in such other manner as the Minister of Finance from time to time approves.

43. Provision for Common Fund investment—(1) The Council may at any time, if it thinks fit, establish the following funds and account:

(a) A Common Fund to be known as the University of Auckland Common Fund:

(b) A Reserve Fund to be known as the University of Auckland Common Fund Reserve Fund:

(c) A Common Fund Income Account to be known as the University of Auckland Common Fund Income Account.

(2) Subject to the provisions of this section, if the Council has established the said funds and account, it may invest any trust funds in its possession, whether at the time in a state of investment or not, whether...
they came into its possession before or after the commencement of this Act, and whether they comprise the whole or part of the trust estate to which they belong, either—

(a) On a separate account in respect of the trust estate to which the funds belong; or

(b) If the funds are not directed to be invested in some other specified manner, and investment in the said Common Fund is not inconsistent with the terms of the trust instrument (if any) governing the funds, as part of the said Common Fund.

(3) All funds forming part of the said Common Fund shall be invested in the manner required by section 42 of this Act.

(4) Where any funds of a trust estate are in the possession of the Council and are lawfully invested in any investment in which the said Common Fund may be invested as aforesaid, then, if in accordance with paragraph (b) of subsection (2) of this section the funds could be invested as part of the said Common Fund, the Council may transfer that investment to the said Common Fund and give credit in that Fund to the trust estate for such amount as it considers proper, having regard to its duty to be fair to all those interested in the said Common Fund and to those beneficially interested in the capital and income of the trust estate to which the investment belongs. Upon any investment being so transferred it shall cease to form part of the trust estate to which it formerly belonged.

(5) Investments made from funds forming part of the said Common Fund shall not be made on account of or belong to any particular trust estate, but the Council shall cause to be kept an account showing at all times the entitlement of each trust estate in the said Common Fund.

(6) All income derived from the said Common Fund and from the investments and money included therein shall be paid into the said Common Fund Income Account.

(7) In each year interest on the amount of the entitlement of each trust estate in the said Common Fund shall be transferred from the said Common Fund Income Account and credited to that trust estate at such uniform rate as may from time to time be determined by the Council:

Provided that in no case shall the rate so determined be lower than one-half per cent below the rate which would be so paid if all the income paid into the said Common Fund Income Account in that year was so transferred.

(8) The Council shall also each year pay into the said Reserve Fund—

(a) All income in the said Common Fund Income Account which is not transferred to any trust estate in that year in accordance with subsection (7) of this section:

(b) All capital gains arising in connection with the said Common Fund.

(9) The funds forming part of the said Reserve Fund shall be kept separate from all other trust funds, and shall be invested in the manner authorised by section 42 of this Act.

(10) All income paid into the said Reserve Fund as aforesaid, and all income derived from the said Reserve Fund and from the investments and money included therein shall be applied as the Council thinks fit in any one or more of the following ways:

(a) Towards augmenting the capital of the said Reserve Fund:
(b) Towards stabilising or increasing the income of the said Common Fund:

(c) Towards reinstating any losses of capital in the said Common Fund.

(11) The capital of the said Reserve Fund may, if the Council thinks fit, be applied in reinstating any losses of capital in the said Common Fund.

(12) The Council may at its discretion at any time withdraw from the said Common Fund any amount for the time being to the credit of any trust estate in the said Common Fund; and where any amount is being so withdrawn—

(a) If the capital of the said Reserve Fund has increased while the said amount was in the said Common Fund, the Council shall pay out of the said Reserve Fund and add to the amount so withdrawn, as capital, such amount (if any) as it considers equitable having regard to the length of the period during which the amount was in the said Common Fund and to the proportion which the said amount bears to the average amount of the total assets of the said Common Fund during that period:

(b) If losses of capital in the said Common Fund have occurred during the said period, then, so far as those losses have not been reinstated and cannot be reinstated from the amounts in the said Reserve Fund at the time of the withdrawal, that amount shall bear its proportion of those losses, as determined by the Council, and the amount being so withdrawn shall abate accordingly.

44. Travelling allowances and expenses of members of Council—(1) The Council may pay to each of its members travelling allowances and expenses; and, in respect of travel in New Zealand, those allowances and expenses shall not exceed those payable in accordance with the Fees and Travelling Allowances Act 1951, and the provisions of that Act shall apply accordingly.

(2) In respect of travel in New Zealand the Council is hereby declared to be a statutory Board within the meaning of the Fees and Travelling Allowances Act 1951.

45. Council may insure members against personal accident while engaged in duties—The Council may from time to time enter into contracts of insurance of a type for the time being approved by the Minister of Education insuring members of the Council against loss from personal accident arising out of and in the course of the exercise of their powers or duties as members of the Council, and may pay the premiums payable in respect of those contracts.

46. Unauthorised expenditure of Council—The Council may in any financial year of the University expend out of the general fund of the University for purposes not authorised by any law for the time being in force any sum or sums not exceeding in the aggregate a one-thousandth part of the revenue of the University from all sources for the immediately preceding financial year.

47. Council to prescribe fees—There shall be payable by the students of the University or any of them such fees as the Council from time to time prescribes:
Provided that scales of tuition and of examination fees may be so prescribed only with the concurrence of the University Grants Committee.

48. Fees payable to associations of students—The Council shall have power to impose and collect from time to time from students of the University or from any of them such fees as it considers reasonable for the benefit of any association or organisation of students of the University, and to dispose of those fees accordingly.

49. Grants by Council to associations of staff or students—The Council may from time to time make grants or loans from its funds on such terms and conditions as it thinks fit to any association or organisation of staff or students of the University.

50. Powers of Council in respect of property—(1) Without limiting or in any way affecting any other powers conferred upon the Council by the Auckland University College Reserves Act 1885 or this Act or any other Act or by law, it is hereby declared that, subject to the provisions of this section, the Council may do all or any of the following things on behalf of and for the purposes of the University, namely:

(a) Establish, build, maintain, repair, add to, alter, rebuild, reinstate, conduct, manage, and control halls of residence for students and academic staff, and houses for academic staff and any other of its employees whatsoever, and buildings and rooms and other facilities for the recreation or social use of students, academic staff, and other employees:

(b) Purchase, take on lease, or otherwise acquire any real or personal property for any purposes whatsoever in connection with the University or any institution controlled by the Council:

(c) With the consent of the Minister of Education in the case of land and in other cases without his consent, sell or otherwise alienate any right, title, estate, or interest in any real or personal property vested in the University:

(d) With the consent of the Minister of Education, borrow money from the Crown or from any corporation or person; and (for the purpose of securing any money so borrowed) mortgage, charge, or pledge any right, title, estate, or interest in any land vested in the University:

(e) Grant leases of any land vested in the University; and for that purpose the Council is hereby declared to be a leasing authority within the meaning of the Public Bodies' Leases Act 1908:

(f) On such conditions as may be prescribed by the Minister of Finance, guarantee loans made to members of the staff for housing purposes by other persons and bodies.

(2) Notwithstanding anything to the contrary in the Public Bodies' Leases Act 1908 or in any lease granted by the Council, the Council may—

(a) In its absolute discretion, at any time not earlier than three years nor later than one year before the date of the expiration of any lease of any land vested in the University that does not confer a right of renewal, grant a renewal of the lease upon such terms as it thinks fit; and the provisions of this paragraph shall apply to any such lease whether granted before or after the commencement of this Act:
(b) With the consent of the Minister of Education, grant leases of land vested in the University upon such terms as that Minister may approve:

(c) Grant leases and licenses for the extraction and removal of coal and other minerals from land vested in the University at such rent or royalties and upon such terms and conditions as the Council may determine.

(3) The Minister of Education is hereby empowered to make advances upon such terms as the Minister of Finance may approve to the Council for the purposes of the University out of money appropriated by Parliament for the purpose.

51. Power to borrow by way of overdraft or temporary loan—In addition to the powers conferred by section 50 of this Act, it shall be lawful for the Council, in anticipation of its revenue, from time to time to borrow money by way of overdraft or on temporary loan on behalf of and for the purposes of the University:

Provided that the amount so borrowed shall not at any time exceed one-twelfth of the revenue of the University from all sources during the immediately preceding financial year of the University:

Provided also that at the end of any financial year of the University the amount of the overdraft or loan shall not exceed the outstanding revenue due to the University in respect of that financial year.

52. Annual report and statement of accounts—(1) The Council shall, during the month of April in every year, furnish to the Minister of Education and to the University Grants Committee a report on the University during the immediately preceding year.

(2) The Council shall also, as soon as practicable after the end of every financial year of the University, furnish to the Minister of Education and to the University Grants Committee a statement of the assets and liabilities of the University as at the end of that financial year, together with an account of income and expenditure showing the financial transactions for that year, which statement and account shall be audited by the Audit Office.

Repeals and Savings

53. Repeals and savings—(1) The enactments specified in the Third Schedule to this Act are hereby repealed.

(2) All bylaws which originated under any of the enactments hereby repealed or under the corresponding provisions of any former enactment and are subsisting or in force on the commencement of this Act shall endure for the purposes of this Act as fully and effectually as if they had originated as regulations under the corresponding provisions of this Act, and accordingly shall, where necessary, be deemed to be regulations and to have so originated; and every reference to any such bylaw in any Act, regulation, order, or other enactment, or in any instrument or document whatsoever shall, after the commencement of this Act, unless inconsistent with the context, be read as a reference to a regulation made under the corresponding provisions of this Act.

ENACTMENTS REPEALED

1954, No. 74—The University of Auckland Act 1954.
1957, No. 25—The University of Auckland Amendment Act 1957.

601
COURT OF CONVOCATION STATUTE 1962

Pursuant to Section 4 of the University of Auckland Act 1961

1. This Statute may be cited as the Court of Convocation Statute 1962.

2. The Registrar of the University shall prepare and maintain a register to be known as the Register of the Court of Convocation for the Auckland University District and shall (subject to Section 5 hereof) enrol thereon the names and addresses (so far as such addresses are known) of all persons entitled to be so enrolled under Section 4 of the said Act and under Section 3 of this Statute.

3. Under and for the purposes of sub-section 5 of Section 3 of the said Act each person shall be entitled to have his name enrolled on the Register of the Court of Convocation (without fee) who being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted ad eundem gradum before the 1st day of January, 1943 is not by reason of that qualification enrolled on the register of the Court of Convocation for any other University District in New Zealand and (i) under Section 23A of the New Zealand University Act 1908 was enrolled or entitled to be enrolled on the register of the District Court of Convocation of the Auckland University District at the 31st day of December, 1961 or (ii) was an undergraduate member of the University of Auckland at the 31st day of December, 1961 and became a graduate of the University of New Zealand after that date or (iii) at a date after the 31st day of December, 1961 and immediately before his enrolment had resided in the Auckland University District for a period of not less than three calendar months.

4. Except as provided in Section 5 hereof it shall not be necessary for any person entitled to be so enrolled on the register to apply for enrolment.

5. Every person who is entitled to be enrolled on the register under paragraph (iii) of Section 3 of this Statute may apply to the Registrar for enrolment and upon making that application and producing such evidence of the facts and matters entitling him to enrolment as the Registrar may reasonably require shall be enrolled on the register.

6. Any enrolled member of the Court may, by notice under his hand delivered to the Registrar, object to the register on the ground that any person whose name is on the register does not possess the necessary qualifications.

7. The Registrar shall enquire into and dispose of any such objection forthwith after receiving it.

8. Any person aggrieved by any decision or act of the Registrar relating to the register may appeal therefrom to the Council by notice under his hand, addressed to the Chancellor, and delivered at the University not later than 5 o'clock on the afternoon of the seventh day before the day on which the register is to be closed for the purposes of an impending election.

9. Every such appeal shall be heard and determined by the Council or a Committee appointed by the Council and the Registrar shall amend the register in such manner as the Council or the Committee when disposing of the appeal directs.

10. (a) Any member of the Court having changed his address shown on the Register may request the Registrar to amend the register in respect of that address and the Registrar shall make such amendment accordingly.
(b) The Registrar being satisfied (otherwise than under the preceding paragraph (a) of this section) that the address of a member of the Court has been changed may amend the register in respect of that address provided that he shall forthwith post notices of that amendment to the member at both the old and the new address.

11. The Registrar shall expunge from the register the name of any person who has died or has ceased to be entitled to be enrolled thereon, and he shall be entitled to make any amendment of name made necessary by marriage.
THE COUNCIL ELECTIONS (COURT OF CONVOCATION REPRESENTATIVES)

Regulations

1. All persons entitled to be placed upon the roll of the Court of Convocation shall be eligible for enrolment as electors.

2. The date of Election shall be determined by the Returning Officer and reported to the Council.

3. Whenever any election is to be held the Returning Officer shall (not less than forty days before the election) by notice in at least two newspapers, published in the City of Auckland, call for nominations of candidates to be lodged with him on or before a day, to be fixed by him, being not less than ten days from the date of the first advertisement, which notice shall be in the following form (or in a form to the like effect):

THE UNIVERSITY OF AUCKLAND

Election of .................. Member(s) of the Council by the Court of Convocation for the Auckland University District.

An election of .................. member(s) will be held at 5 p.m.

on the .................. day of .............., 19.........., at the office of the Registrar of the University, Princes Street, in the City of Auckland.

No person shall be recognized as a candidate at this election unless he shall have been previously nominated in a document signed by two electors, and unless such nomination paper shall have been delivered to the Returning Officer by postal delivery or otherwise not later than 5 p.m. on the .................. day of ..........., 19...........

The roll of electors will remain open for inspection and additions until 5 p.m. on the fourteenth day before the election and will then be closed. Immediately thereafter the Returning Officer will issue the voting papers to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge).

........................................

Returning Officer.

4. The roll shall be closed at five o'clock in the afternoon of the fourteenth day immediately preceding the day on which an election is to be held, and shall continue to be closed until the election is completed; and no name shall be entered on the roll while it is closed. Immediately thereafter the Returning Officer shall issue the voting papers simultaneously to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge); nor shall any voting paper be sent to any person whose address is not within New Zealand, Fiji, Samoa or Australia.

604
5. Notwithstanding anything above set out, the Returning Officer shall issue a voting paper to any elector whose name appears on the roll and who shall apply in writing to the Returning Officer for a voting paper on the ground that his voting paper is lost or destroyed or defaced or that no voting paper has been issued to him.

6. At every election the votes shall be given by sealed voting papers issued by the Returning Officer in the form prescribed by these regulations, delivered to the Returning Officer on or before the day and time fixed for holding the election, or posted to him in a sealed envelope on or before that day.

7. In any election to fill a casual vacancy the notice of advertisement calling for nominations shall state that the vacancy is a casual one.

8. If an election for filling a casual vacancy be appointed to be held at the same time as an election for the filling of a vacancy occurring by rotation, hereinafter called an ordinary vacancy, separate voting papers shall be issued for each election and each nomination and each voting paper shall specify to which election it relates, and at the time of election the Returning Officer shall first complete the election for filling the casual vacancy or vacancies; and when such election shall be complete, he shall at once proceed to complete the election for filling the ordinary vacancy.

9. When two or more elections are to take place as contemplated in the last preceding Regulation, then in every advertisement relating to such an election, notice shall be given that no nomination paper will be valid, unless it distinctly indicates to which of the vacancies it shall relate.

10. Nominations shall be made by two persons qualified to vote and shall contain the written consent of the candidate to his nomination.

11. Nominations shall be in the following form (or in a form to the like effect):

THE UNIVERSITY OF AUCKLAND

Election to be held on ............. the ............. day of .............

19........, of Members of the Council by the Court of Convocation for the Auckland University District.

We, ........................................... and ...........................................

being duly qualified voters, hereby nominate

..............................................................

..............................................................

of ..............................................................

for election to the Council by the Court of Convocation for the Auckland University District.

Date......................

I consent to the above nomination.
12. If the nominations received do not exceed the number of vacancies, the Returning Officer shall declare the candidate(s) duly elected.

13. Every voting paper shall be in the form following or to the like effect, that is to say:

A. Front of voting paper:

VOTING PAPER
COUNCIL OF THE UNIVERSITY OF AUCKLAND
ELECTION OF MEMBERS
By the Court of Convocation
for the Auckland University District.

Directions.
The voter must vote for just as many candidates as there are vacancies.
The voter is to put a cross (X) in the square opposite to the name or names of the candidates for whom he desires to vote.

THE VOTER MUST SIGN HIS NAME AND ADDRESS ON THE BACK OF THIS CARD.

............ The voting paper shall here be perforated horizontally. ............

B. Back of voting paper (below perforation):

I declare that I am not, by reason of my being a graduate of the University of New Zealand (either by examination at any time or by admission ad eundem gradum before 1st January, 1943), enrolled on the register of the Court of Convocation of any University District in New Zealand other than the Auckland University District.

I request the Registrar to record my address on the roll as appears below.

SIGNATURE OF VOTER: .............................................................

ADDRESS: .............................................................

.............................................................

606
14. Every voting paper shall be forwarded to the voter accompanied by an envelope, addressed to the Returning Officer.

15. The poll shall close at 5 o'clock on the afternoon of the day of the election; but all voting papers shall be included and counted which are received by the Returning Officer in due course by post before the close of the sixth day after the day of the election, provided that the Returning Officer is satisfied that the paper was posted in accordance with the provisions of Section 6. On the 7th day after the day of the election the Returning Officer shall open and count the votes. As soon as the voting papers have been checked with the Roll the name and address shall be removed from each voting paper before the votes are counted.

16. Each candidate shall be entitled to nominate a scrutineer, who shall have the same rights and duties as those vested at the date of the poll in a scrutineer at any polls of the Auckland City Council.

17. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.

18. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.

19. The Returning Officer is authorized to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.

The Council at its meeting held on 17 September, 1945, resolved:

'That in respect of elections of members of the Council by the Court of Convocation, so that the electors may be notified of the qualifications of candidates, Council adopts the following procedure:

(1) That every candidate for election be invited to send in with his nomination paper the following information:

(a) Name.  
(b) Occupation.  
(c) Residence.  
(d) Degrees (with dates).  
(e) Academic posts held.  
(f) Other relevant qualifications.

(2) That the Council arrange that copies of statements submitted be sent out with the voting papers.'
THE COUNCIL ELECTIONS (REPRESENTATIVE OF GOVERNING BODIES OF SECONDARY SCHOOLS)

Regulations

1. These regulations may be cited as the Council Elections (Representative of Governing Bodies of Secondary Schools) Regulations 1962.

2. For the purpose of Section 6 Subsection (2) paragraph (e) of the University of Auckland Act 1961 the Governing Bodies of only such registered private secondary schools as are entitled to accredit persons for entrance to a University shall be entitled to vote for the member of Council elected under that paragraph.

3. Each of the Governing Bodies entitled under Section 6 Subsection (2) paragraph (e) of the said Act and the foregoing paragraph 2 of these regulations shall be enrolled on the Roll of Electors. The Roll shall be revised in each year as at the 30th April.

4. The date of an Election by the Governing Bodies shall be determined by the Returning Officer and reported by him to the Council.

5. Whenever an Election is to be held, the Returning Officer shall (not less than 40 days before the Election), by notice addressed to each Elector upon the Roll, call for nominations of candidates to be lodged with him on or before a date fixed in such notice, being not less than ten days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):

---

THE UNIVERSITY OF AUCKLAND

Election of one Member of Council by the Governing Bodies of certain Secondary Schools situated with the Auckland University District, under Section 6 Subsection (2) paragraph (e) University of Auckland Act 1961.

An Election of one member will be held at 5 p.m. on the .............
day of ......................... 19........., at the Office of the Registrar of the University, Princes Street, in the City of Auckland.

No person shall be recognised as a candidate at this Election unless he has been previously nominated by an Elector in a paper signed by the Chairman of that Elector in pursuance of a resolution, in that behalf and signed also by the person nominated, and unless that nomination paper has been delivered to the Returning Officer by postal delivery or otherwise not later than 5 p.m. on the

......................... day of ......................... 19..........

..................................................

Returning Officer.

---

6. Nominations shall be in the following form (or in a form to the like effect):

608
THE UNIVERSITY OF AUCKLAND

Election to be held on the .................. day of.................. 19......, of one Member of Council by the Governing Bodies of certain Secondary Schools situated in the Auckland University District under Section 6 Subsection (2) paragraph (e) University of Auckland Act 1961.

being the Governing Body of School and being a duly qualified Elector hereby nominates ....................... (address)

....................................................... (occupation)

for election to the Council by the Governing Bodies of State Secondary Schools, Technical School and Combined Schools, and such registered Private Schools as the Council of the University has determined by regulation in that behalf, being in all cases schools situated in the Auckland University District.

Dated this ....................... day of ............... 1962.

....................................................... Chairman.

I consent to the above nomination.

....................................................... 7. A nomination shall be made by an Elector and shall contain the written consent of the candidate to his nomination.

8. If not more than one nomination is received the Returning Officer shall forthwith after the closing date for the receipt of nominations declare the candidate duly elected.

9. If more than one nomination is received the Returning Officer shall immediately after the closing date for receipt of nomination issue a voting paper to each Elector shown in the Roll as revised.

10. The Returning Officer shall also issue a voting paper to any Elector whose name appears upon the Roll, and who shall apply in writing to the Returning Officer for a voting paper on the ground that its voting paper is lost or destroyed or defaced or that no voting paper has been issued to it.

11. At every Election the votes shall be given by sealed voting papers issued by the Returning Officer in the form prescribed by these regulations, delivered to the Returning Officer on or before the day and time fixed for holding the Election, or forwarded to him by post or otherwise, so as to reach him not later than that day and time.
12. In any Election to fill a casual vacancy the notice calling for nominations shall state that the vacancy is a casual one.

13. Every voting paper shall be in the form following (or to the like effect), and shall include occupations and addresses, as well as the names of candidates:

THE UNIVERSITY OF AUCKLAND

Election of one Member of Council by the Governing Bodies of certain Secondary Schools situated within the Auckland University District, under Section 6 Subsection (2) paragraph (e) University of Auckland Act 1961.

Directions

The voter is to cause a cross (X) to be put in the square opposite to the name of the candidate for whom it has resolved to vote.

THE CHAIRMAN OF THE VOTER MUST COMPLETE THE CERTIFICATE ON THE BACK OF THIS CARD.

B. Back of voting paper:

I certify that the vote made on this paper was made in pursuance of a resolution of .................................. governing body of ..................................

school passed at a duly constituted meeting thereof.

.................................................................

Chairman.

14. Every vote shall be made by an Elector in pursuance of a resolution passed at a meeting of the Elector.

15. Every voting paper shall be forwarded to the Elector accompanied by a stamped envelope, addressed to the Returning Officer.

16. All such envelopes received by the Returning Officer shall remain unopened until the close of the poll and no voting paper shall count unless it is received by the Returning Officer not later than the day and hour fixed for the election.

17. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.

18. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.

19. The Returning Officer is authorized to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.
THE SENATE ELECTIONS (LECTURERS' REPRESENTATIVES)

Regulations

1. These regulations may be cited as the Senate Elections (Lecturers' Representatives) Regulations 1962.

2. In these regulations unless the context otherwise requires the word 'lecturers' means members of the staff of the University who are lecturers within the meaning of Section 2 of The University of Auckland Act 1961 (whether by specific mention in that section or by determination under it by the Council) and the word 'member' means a member of the Senate elected by the full-time lecturers under Section 30 of the said Act and these regulations.

3. All lecturers other than those holding part-time or temporary positions shall be eligible to vote at such elections provided that a junior lecturer appointed for a term of not less than four years shall not be deemed to hold a temporary position.

4. Each member (other than a member elected to fill a casual vacancy) shall hold office on the Senate for a term of two years beginning on the 1st day of January immediately following his election provided that the term of the first two members shall be calculated as if they had come into office on the 1st day of January, 1961.

4.A. Notwithstanding anything contained in the principal regulations:

(a) The first vacancy to occur after the date when these regulations came into force in the offices of the members holding office at that date (other than a vacancy occurring at the expiry of the term for which a member has been elected) shall not be deemed to be a casual vacancy.

(b) The election to fill the vacancy so occurring shall take place within two months of the date on which the vacancy occurs.

(c) The member elected to fill that vacancy shall hold office on the Senate from the date when he is elected or the 1st day of January 1967 (whichever date is the later) until the 31st day of December 1968.

(d) The term of the office of a member in which the vacancy referred to in paragraph (a) of this regulation does not occur shall run until the 31st day of December 1967.

5. If any member —

(a) dies; or

(b) resigns his office by writing under his hand delivered to the Registrar; or

(c) ceases to be a lecturer

he shall thereupon cease to be a member, and the vacancy thereby created shall be deemed to be a casual vacancy.

6. (a) Elections other than elections to fill casual vacancies shall take place not later than the third Monday in the month of October next preceding the expiry of every term of office provided that the first elections under these regulations shall take place within two calendar months of the making of these regulations.

(b) An election to fill a casual vacancy shall take place within two calendar months of the arising of the casual vacancy.

7. The Registrar shall be the Returning Officer for the purpose of conducting elections under these regulations.
8. The date of an election shall be determined by the Returning Officer and reported to the Senate.

9. Whenever an election is to be held the Returning Officer shall not less than thirty-five days before the election by notice addressed to each elector call for nominations of candidates to be lodged with him on or before a date fixed in that notice but being not less than twenty-one days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):

THE UNIVERSITY OF AUCKLAND

Election of .................. Member(s) of the Senate by the full-time Lecturers of the University.

An election of .................. Member(s) of the Senate by the full-time Lecturers will be held at 5 p.m. on the .................. day of .................. 19........, at the Office of the Registrar of the University, Princes Street, in the City of Auckland.

To be recognised as a candidate at this election a person must first have been nominated by two full-time lecturers in a nomination paper (which must also be signed by the nominee) delivered to the Returning Officer by personal delivery or otherwise not later than 5 p.m. on the .................. day of .................. 19.........

Any lecturer of the University (including the Director of Adult Education and any Junior Lecturer appointed for a term of not less than four years) is eligible for nomination.

................................................

Returning Officer.

THE UNIVERSITY OF AUCKLAND

Election to be held on the .................. day of .............. 19........ of .................. Member(s) of the Senate by the full-time Lecturers of the University.

We ........................................... and ...........................................

being duly qualified electors hereby nominate ........................................... of ........................................... Department for election to the Senate by the full-time lecturers of the University.

Date ...........................................

I consent to this nomination.

...........................................
10. Each nomination shall:
   (a) be made by two electors,
   (b) contain the signature of the person nominated,
   (c) be in the following form (or in a form to the like effect):

11. If not more than one nomination is received the Returning Officer shall forthwith after the closing date for nominations declare the candidate duly elected.

12. If more than one nomination is received the Returning Officer shall immediately after the closing date for nominations issue a voting paper in the prescribed form to each elector.

13. The Returning Officer shall also issue a voting paper to any elector who applies in writing to the Returning Officer for a voting paper on the ground that his voting paper is lost or destroyed or defaced or that no voting paper has been issued to him.

14. The voting papers shall be returned to the Returning Officer on or before the day and time fixed for holding the election, or sent to him by post or otherwise so as to reach him not later than that day and time.

15. In any election for a casual vacancy the notice calling for nominations shall state that the vacancy is a casual one.

16. Every voting paper shall be in the form following (or to the like effect):

THE UNIVERSITY OF AUCKLAND

Election to be held on the ................................ day of ........................ 19......

of ................................ Member(s) of the Senate by the full-time Lecturers
of the University.

Directions

The voter must vote for just as many candidates as there are vacancies.

The voter must put an (X) in the square opposite the name(s) of the candidate(s) for whom he wishes to vote.

THE VOTER MUST SIGN HIS NAME AND ADDRESS ON THE BACK OF THIS PAPER.
17. On completion of the counting of votes the Returning Officer shall forthwith declare the results of the poll by notice addressed to each elector.

18. The Returning Officer shall, subject to the regulations, determine conclusively all questions of detail concerning an election.

19. The Returning Officer is authorised to destroy the voting papers after a lapse of two weeks from the date of the notices announcing the result of the poll.

20. The University shall be deemed a sufficient address for the issuing of notices and voting papers to electors under these regulations.

FORM OF LEGACY

I give (free from legacy duty) the sum of pounds to the University of Auckland, established at Auckland by The University of Auckland Act 1961, and I declare that the receipt of the Registrar for the time being of the said University shall be a sufficient discharge for the said legacy.

NOTE.—If any special direction or condition is to be attached to the Legacy, insert it here.

FORM OF ATTESTATION FOR A WILL

Signed by the testator as and for his last will and testament, in the sight and presence of us together, who in his sight and presence, at his request and in the sight and presence of each other, have hereunto subscribed our names as witnesses.
