ARMS OF THE UNIVERSITY OF AUCKLAND

as granted by Garter, Clarenceux and Norroy and Ulster, Kings of Arms by Letters Patent bearing date the 15th February 1962 and recorded in the College of Arms, London.

Heraldic Description
Azure between three Mullets Argent an open Book proper edged and bound Or with seven clasps on either side Gold on a Chief wavy also Argent three Kiwis proper.

On a scroll set below the Arms appear the words 'Ingenio et Labore'.

Symbolism
The open book together with the motto 'Ingenio et Labore', freely translated as 'by natural ability and hard work', indicate in a general way the aim of the institution and combined with the three stars express the idea of learning pursued under the sky of the Southern Hemisphere. The kiwis are indicative of New Zealand as the bird is absolutely confined to its Islands and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the sea coast.

CONFERRING OF DEGREES AND ACADEMIC DRESS REGULATIONS

1. Every Degree and every Diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council in that behalf and at a meeting of the Council by the Chancellor or if he is absent from New Zealand or incapacitated by sickness or otherwise then by the Vice-Chancellor.

2. Every recipient of a Degree shall receive a certificate in appropriate form, under the Common Seal of the University, that his degree has been conferred and stating the class of honours (if any) awarded to him.

3. Every Diploma shall be in appropriate form under the Common Seal of the University.

4. In May of each year the Council shall meet in Convocation of the University for a ceremony of conferring Degrees and awarding Diplomas. Any person desiring to have his Degree conferred, or his Diploma awarded (whether in person or in absentia) at such a ceremony shall give notice of his desire to the Registrar not later than 10 April in the year of the ceremony.

5. The form of words to be used by the Chancellor or the Vice-Chancellor in conferring a Degree shall be as follows

   'By authority vested in me as Chancellor (or Vice-Chancellor) I now proceed to confer the Degrees stated upon those who, within their several Faculties, have satisfied the requirements of this University.'

6. The form of words to be used by the Chancellor or Vice-Chancellor in awarding a Diploma shall with the necessary changes be the same as for the conferring of a Degree.

7. The regulations for academic dress shall be as follows

   (a) Graduates must appear at all public ceremonies of the University in the academic costume proper to their degree, but doctors may on special occasions wear a scarlet gown and graduates admitted ad eundem statum may wear the academic costume of their own University. Unless the holder of a diploma is also a graduate, the only academic dress he may wear is an undergraduate gown.

   (b) The robe for the Chancellor the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel.

   The robe for the Pro-Chancellor is a black silk gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold tassel.

   The robe for the Vice-Chancellor is a blue silk gown with facings of silver lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with silver lace and tassel.

   The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with blue silk tassel.

   (c) The gown for a Bachelor's degree is as for the Cambridge Bachelor of Arts. The gown for a Master's degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelor's degree is lined with coloured silk and bordered with white fur. The hood for a Master's degree is lined with coloured silk only.

   The colours of the linings of the hoods for the Bachelors' and Masters' degrees are as follows:

   Architecture ..............................................lemon (BCC 111 primrose)

   Arts ..........................................................pink (BCC 32 rosepink)

   Commerce ..................................................orange (BCC 57 spectrum orange)

   Engineering ..................................................violet (BCC 179 violet)

   Fine Arts ....................................................gold (BCC 114 gold)

   Laws ..........................................................light blue (BCC 194 pompadour)

   Medicine ....................................................crimson (BCC 240 medici crimson)

   Music ..........................................................white (BCC 1 white)

   Science .........................................................dark blue (BCC 87 empire blue)

   Town Planning ................................................light green (BCC 171 chartreuse green)

   (d) The gown for the degree of Doctor of Philosophy is as for the Cambridge Master of Arts with the addition of facings four inches wide of scarlet satin (3in — BCC 209 post office red) edged with gold satin (1in — BCC 114 gold). The hood is made wholly of scarlet silk.

1976 Calendar
(e) The gown for a Doctor's degree other than that of Doctor of Philosophy is as for the Cambridge Master of Arts but it is made of black silk or of scarlet silk or cloth. The hood is made wholly of silk and is of the following colours for the different degrees:

- Laws ......................................................light blue (BCC 194 pompadour)
- Literature .................................................... pink (BCC 32 rosepink)
- Music ............................................................ white (BCC 1 white)
- Science .................................................... dark blue (BCC 87 empire blue)

(f) The cap for all graduates other than Doctors and the officers of the University is a black trencher with a tassel.

(g) The cap for all Doctors other than the officers of the University is as for the full dress Cambridge Doctor of Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

Notes:

1. The colour of the lining of the hood for the Degree of Master of Philosophy is that of the Faculty in which the Degree is taken.
2. Number references are from the British Colour Council Dictionary of Colour Standards. Approximate colours in the substitute material satin may be seen on a chart at the enquiry counter at the Registry.
3. Satin or taffeta is frequently used as a substitute material for silk which is not always obtainable.

AWARD OF HONORARY DEGREES
Clause 19(3) of the University of Auckland Act 1961 gives Council power to confer any degree as an honorary degree in accordance with such conditions as it may prescribe:

Provided that no honorary degree shall be conferred on any person by the Council unless that person has been recommended therefor by a joint committee of the Council and the Senate set up in accordance with the Statutes or Regulations of the University. Pursuant to the above clause of the Act, Council has drawn up regulations and set up an Honorary Degrees Committee for the conferment of the following honorary degrees

- Doctor of Laws
- Doctor of Science
- Doctor of Literature
- Doctor of Music.

Information regarding the procedure and criteria for the nomination of a candidate for one of the above honorary degrees may be obtained from either the Vice-Chancellor or the Registrar.

MATRICULATION REGULATIONS

1. To matriculate a student must have been granted
   (a) (i) The University Entrance qualification by the Universities Entrance Board either by accrediting or examination; or (ii) admission by the Universities Entrance Board at the standard of the University Entrance examination; or (iii) admission under the provisions of the admission Ad Eundem Statum Regulations; or (iv) admission under the provisions of the Provisional and Special Admission Regulations; and
   (b) a place at the University.

2. No person shall be eligible to matriculate
   (a) while enrolled for full-time instruction in a secondary school, combined school or registered private, secondary, or technical school; and
   (b) unless he has attained the age of sixteen years by 31 December in the year preceding his application for matriculation, provided that the Senate may in exceptional circumstances permit a person who has not attained that age to matriculate.

Matriculation Declaration

3. Every student shall upon entering the University make the following declaration ‘I do solemnly promise that I will faithfully obey the Statutes and Regulations of the University of Auckland so far as they apply to me.’

4. (a) All students, other than those enrolled for the Diploma in Gynaecology and obstetrics, the Diploma in Obstetrics and the Diploma in Paediatrics, shall complete the matriculation declaration not later than 31 March or such later date that Senate approves in the year in which they enrol.
(b) A student who enrols for the Diploma in Gynaecology and Obstetrics and who is required to matriculate, shall complete the matriculation declaration not later than (i) 31 March for the June examination, (ii) 30 September for the December examination, or such later date that Senate approves in the year in which he enrols.

(c) A student who enrols for the Diploma in Obstetrics and who is required to matriculate, shall complete the matriculation declaration not later than (i) 31 May for the August examination, (ii) 30 November for the March examination in the following year, or such later date that Senate approves in the year in which he enrols.

(d) A student who enrols for the Diploma in Paediatrics, and who is required to matriculate, shall complete the matriculation declaration not later than 31 October or such later date that Senate approves in the year in which he enrols.

PROVISIONAL ADMISSION AND SPECIAL ADMISSION REGULATIONS

Subject to the provisions of the University of Auckland Act 1961, S. 24, and to the provisions of these regulations any candidate who is not otherwise qualified for admission to the University may be granted provisional or special admission to courses for degrees, diplomas, professional qualifications, or certificates.

Provisional Admission

1. A candidate who has attained the age of twenty-one years by 31 December in the year preceding that for which application is made may be granted provisional admission, to a Course of Study for a degree, diploma, professional qualification, or certificate provided that this minimum age requirement may be waived where the candidate is otherwise eligible to be granted admission to a Course on the basis of any of the following qualifications.

(a) the New Zealand Certificate in Building;
(b) the New Zealand Certificate in Draughting (Architecture);
(c) the New Zealand Certificate in Draughting (Town and Country Planning);
(d) the New Zealand Certificate in Engineering;
(e) the New Zealand Certificate in Quantity Surveying;
(f) the New Zealand Certificate in Science;
(g) the New Zealand Certificate in Town Planning;
(h) two years of study at a Teaching College and the attainment of a standard considered satisfactory by the Senate.

2. As long as a candidate's admission remains provisional he may enrol only for papers or subjects of the Course of Study for which he was granted provisional admission.

3. A candidate's admission shall cease to be provisional when he

(a) having been admitted direct to a Professional year in Architecture, Engineering, or Fine Arts, or to a Town Planning Examination, has qualified to proceed to the next Professional Year or 7 year Planning Examination as the case may be, or
(b) having been admitted to the Course of Study for the Degree of Bachelor of Science has gained at least thirty-six credits, or
(c) having been admitted to any Course of Study other than those specified in this regulation, has passed an equivalent full-time course approved for a particular Course of Study.

4. When a candidate's admission ceases to be provisional he may enrol for any other Course of Study for which he is eligible.

Notes: (i) If candidates are under the age of 25 they will generally be advised by the Senate to sit the University Entrance Examination, unless their applications show professional or technical qualifications such as nurses', mariners' or air pilots' certificates.

(ii) Consideration will be given to the amount and kind of secondary school education gained by the applicants and preference will be given to those who are prepared to attend the University full-time.

(iii) Provisional Admission will not be granted to extramural students save in very exceptional circumstances.

Special Admission

(ii) holds a professional qualification in Engineering, or
(iii) holds or has qualified with outstanding merit for the award of the New Zealand Certificate in Engineering, or
(iv) has had not less than five years responsible experience in Public Health or Public Health Engineering.

10. A candidate for admission to a Course of Study for a degree or diploma of this University, who, by reason of his qualification in a Course for a New Zealand Certificate or the Professional Examination in Accountancy, may be eligible for exemptions, shall seek special admission to the Course of Study for that degree or diploma whether or not he is a matriculated student or holds a University Entrance qualification.

11. A candidate who is granted special admission to a Course of Study is entitled to enrol only for the Course of Study for which special admission was granted.

Procedure
12. A candidate seeking provisional or special admission shall
(a) make application to the Registrar on the appropriate form, and
(b) submit satisfactory evidence of age, and
(c) submit evidence of educational qualifications, and also, in the case of applications for provisional admission, any other evidence to indicate that he is qualified to enter upon the Course of Study with reasonable prospect of success, and  
(d) pay the prescribed fees, and  
(e) for all Courses of Study except for the Diploma in Gynaecology and Obstetrics and the Diploma in Obstetrics make application not later than 10 January in the year in which he wishes to enrol provided that on payment of the prescribed fees and a late fee of $10, an application may be considered if it is made not later than the last day of the enrolling period preceding the commencement of the first term.  
Notwithstanding anything in this section, on payment of a fine of $10 in addition to the prescribed fees and late fee, and subject to the approval of the Vice-Chancellor, an application may be considered after the last day of the enrolling period in each year.  
(f) for the Course of Study for the Diploma in Gynaecology and Obstetrics make application not later than  
(i) 1 March for the June examination  
(ii) 1 September for the December examination  
in the year in which he wishes to enrol.

(i) 1 May for the August examination  
(ii) 1 November for the March examination in the following year  
in the year in which he wishes to enrol.  
(h) for the Course of Study for the Diploma in Paediatrics make application not later than 1 October in the year in which he wishes to enrol.  

ADMISSION AD EUNDEM STATUM REGULATIONS  
1. Subject to the provisions of the University of Auckland Act, 1961, S. 24, and to the provisions of these regulations the Council may admit any person ad eundem statum to any degree or other academic qualification or part thereof provided that a student from another university in New Zealand seeking admission to any undergraduate course shall only be granted admission ad eundem statum if in the opinion of the Senate there are compelling circumstances for his transfer to this University.  

Credits towards first Degree or Diploma  
2. On an application for credits under these regulations for papers or subjects towards a Course of Study for a Bachelor's degree or diploma or for work at a Teachers College under the control of the Auckland Teachers Colleges Council the University Council may  
(a) grant credits for specified papers or subjects at specified stages; and, or in the alternative,  
(b) grant exemptions in a number of unspecified courses, papers, subjects or units, and grant permission to advance in specified subjects.  

Right to proceed to Higher Degree  
3. On an application for the right to proceed to a higher degree or diploma with honours, the Council may grant admission to the status of the holder of a degree or diploma with the right to proceed to a specific higher degree or diploma with or without honours; provided that the applicant complies with any prerequisites prescribed or required by Council for such degree or diploma.  

Procedure  
4. (a) A student from an overseas university shall  
(i) make written application to the Registrar on the appropriate form,  
(ii) submit such evidence as the Senate may require of academic standing and of any degree obtained at a former university,  
(iii) submit a declaration of identity,  
(iv) pay the prescribed fee,  
(v) make application for any undergraduate Course of Study not later than 30 September in the year preceding that in which he wishes to enrol or for any graduate Course of Study not later than 31 January in the year in which he wishes to enrol, provided that a late application may be accepted only with the permission of the Senate and on payment of a fine of $20.  
Notwithstanding anything in this section, on payment of a fine of $10 in addition to the prescribed fees and late fee, and subject to the approval of the Vice-Chancellor, an application may be considered after the last day of the enrolling period in each year.

1 October or such later date that Senate approves in the year in which he enrolls.

Completion of Degree or Diploma at another University.
5. A student who leaves the University of Auckland district either to reside in another university district within New Zealand or to reside overseas, and who has passed for a degree or diploma of the University of Auckland such part of the work as the Senate may from time to time determine to be the major part of the work for that degree or diploma may, with the approval of the Senate in order to complete that degree or diploma, take appropriate examinations at another University and may, with like approval be granted credits under these regulations for such examinations.

Admission at Entrance Standard
Note: Candidates who are seeking recognition of overseas educational qualifications for the purpose of entry to any New Zealand University should, if admission at entrance standard only is required make written application with the appropriate fee by 1 July of the preceding year to the Secretary, Overseas Students Admissions Committee, Box 8035, Wellington, New Zealand.

TERMS REGULATIONS
1. Except for the subjects of the Engineering Professional Years these regulations shall apply (a) to every student intending to present himself for examination in written papers or oral or practical work, other than a student enrolled in accordance with the Extramural Enrolment Regulations and
(b) in respect of
(i) every paper or subject, or part of a paper or subject, and
(ii) every part of a Course of Study where that part is required to be passed as a whole, prescribed for any degree or diploma of the University.
2. Where these regulations apply, a student shall keep terms in each paper or subject or part of a Course of Study and in that paper, subject, or part of a Course of Study shall
(a) attend classes to the satisfaction of the Senate, and
(b) perform to the satisfaction of the Senate such oral, practical, written, and other work as the Senate may require.
Notes: (i) Students will be informed by each department of the specific requirements for terms in that department and the extent to which the year’s work will be taken into consideration in assessing final results.
(ii) Every student in the Course of Study for BHB, for the professional examinations for BArch, DipFA, and DipFA (Hons), and in the practical papers for BFA, should note that terms will be awarded not in single papers or subjects but in the whole course for which he is enrolled in that year.

3. A student who satisfies the Senate that he is unable to attend the full Course of Study for which he is enrolled may, on the recommendation of the Head of the Department concerned, be granted partial exemption from lectures.

Terms Carried Forward
4. (a) Terms in any paper or subject shall be good only for the year in which they are kept, provided that upon application the Senate may at its discretion permit those terms to be carried forward to a later year in the case of any student who has been refused an aegrotat or compassionate pass in that paper or subject, or, who in the opinion of the Senate, would incur hardship if he were required to keep terms afresh.

(b) Each application for the carrying forward of terms shall be made in writing to the Registrar not later than 10 January of the year next following that in which the terms were kept, or after that date upon payment of a late fee of $5, provided that no such application shall be made later than 31 January next except with the leave of the Senate and upon payment of a fine of $10 in addition to the late fee of $5.

(c) A student whose terms in a paper or subject have been carried forward to a later year shall not be entitled to apply again under this Regulation for those terms to be carried forward; but otherwise he shall be deemed for all purposes to have kept terms in that paper or subject in that later year.

Note: See regulation (e) of the Enrolment and Course Regulations (General).

Failure in Papers or Subjects
5. Students granted Terms Carried Forward are subject to the provisions of Regulation 9 of the Enrolment and Course Regulations (General). Note: For the purpose of this Regulation students shall be deemed to be engaged in academic studies in that year whether or not they sit their degree examinations.

Multiple Courses of Study and Subjects
6. No candidate shall be eligible to keep terms in the same year for more than two distinct Courses of Study for degrees and diplomas. A candidate entering for two such Courses of Study shall be permitted to present himself for examination in only two subjects more than the maximum allowed in either Course of Study.

7. No candidate shall be eligible to keep terms in any paper or subject for which he has received credit for another degree or diploma.

8. Subject to the provisions of the Course of Study regulations for any degree or diploma, no candidate shall be eligible to keep terms in two stages of a subject in the same year, provided that the Senate may waive this requirement in the case of a candidate of proven merit.

THE LIMITATION OF ENROLMENTS STATUTE 1970

WHEREAS the University will be unable adequately to accommodate all of those students who, from 1972 onwards, may be expected to seek to gain admission to its courses or classes:

Now the Council of the University of Auckland, after consulting the Senate of the University, in pursuance of Sections 22 and 24 of the University of Auckland Act 1961, HEREBY MAKES the following Statute.

1. This Statute may be cited as The Limitation of Enrolments Statute 1970 and shall come into force on the first day of January 1972.

2. In 1972 and each succeeding year
   (a) the number of students who may be admitted to courses (other than as extramural students) within the Faculties of Architecture, and Town Planning, Engineering, Fine Arts, Law, Medicine and Human Biology, and Music shall be the number appearing beside the names of those Faculties in the First Schedule to this Statute;
   and
   (b) the number of enrolments (other than extramural enrolments) permitted in papers for the courses or classes set out in the Second Schedule to this Statute shall be 21,000; provided that the Council may, in respect of any year during which this Statute is in force, having regard to the ac-
accommodation then available, the number of students expected to seek admission, and any other relevant circumstance, increase or reduce any number appearing in the First Schedule and the number of enrolments permitted in Stage I papers, courses or classes within the subjects, set out in the Second Schedule by not more than one-tenth.

3. The numbers determined in respect of any year during which this Statute is in force pursuant to the preceding clause shall be the maximum numbers of admissions and enrolments respectively for that year and when those numbers have been reached an insufficiency of accommodation in the University shall be deemed to exist.

4. The Faculty of Fine Arts (Limitation of Enrolments) Statute 1965 is hereby repealed.

**ENROLMENT AND COURSE REGULATIONS (GENERAL)**

**Dates of Terms**

1. (a) There shall be in each year three terms. The first term shall begin on the first Monday after 25 February and shall end on the Saturday preceding the 19th Monday of the Calendar year. The second term shall begin on the 22nd Monday of the Calendar year and shall end on the Saturday of the 11th week thereafter. The third term shall begin on the 36th Monday of the Calendar year and shall end on 31 October of each year. The Easter recess shall extend from Good Friday to the Tuesday of Easter week both days inclusive. The mid-term break during the second term shall consist of the whole of the 6th week.

(b) For the purpose of the holding of such examinations as may be required at the conclusion of the University year, all lectures and laboratory courses shall cease about the end of the fifth week of the third term in each year. Under special circumstances lectures may be continued to a date not later than 28 October.
General Course Provisions

2. (a) Subject to the admission Ad Eundem Statum Regulations and to the express provisions of any other regulations every candidate for a degree, diploma or certificate course shall be required to

(i) be a matriculated student of the University;
(ii) follow the prescribed Course of Study in the order prescribed or indicated in accordance with the regulations governing the Course;
(iii) keep terms in the prescribed subject or subjects in accordance with the Terms Regulations;
(iv) carry out the prescribed practical work (if any);
(v) comply with the provisions of the Examination Regulations;
(vi) pass the prescribed examinations.

(b) The personal Course of Study of every student shall require the approval of the Senate provided that

(i) the Senate may delegate to the Dean of the Faculty within which the student is enrolled the power to give such approval;
(ii) the Senate may in exceptional circumstances approve a personal Course of Study which does not in every particular satisfy the regulations for the degree or diploma for which the student is enrolled;
(iii) where approval of a personal Course of Study has been withheld by a decision of the Dean acting under delegation of that power the student may appeal to the Senate against that decision;
(iv) where options are prescribed for a Course of Study the Senate may at its discretion determine which of them shall be available in any year: provided always that sufficient options shall be available to enable a candidate to complete his Course.

(c) In relation to the time limit for the presentation of a dissertation, original investigation, or thesis ‘academic year’ shall in these and all other regulations of the University, unless the context requires otherwise, mean the period from the first day of March in one calendar year to the last day of February in the calendar year next following.

Eligibility to Enrol

3. (a) Students entitled to enrol at the University of Auckland, subject to places being available, and who otherwise fulfil the eligibility requirements shall include

(i) those previously enrolled whose official record remains at this University;
(ii) those living in the area defined in the Appendix of these regulations who wish to enrol for the first time at a university in a course of study in the Faculties of Arts (excluding the Courses for the Diploma in Education Psychology, the Diploma in Language Teaching Studies)

Science (including the subjects of the Architecture and Engineering Intermediate examinations but excluding the Course for the Diploma in Optometry);
(iii) those living in New Zealand south of the area defined in the Appendix of these regulations who wish to enrol for the first time at a university in a Course of Study approved for the purposes of this sub-clause by the Senate.

Note: For 1976, subject to places being available, the Senate has approved for the purposes of Regulation 3 (a) the following courses in the Faculty of Arts:

(a) Anthropology. For an intending student living in the North Island south of the area defined in the Appendix of these Regulations any Course of Study including at least five papers in Prehistory and Physical Anthropology.
(b) Art History. Any Course of Study including at least seven papers from Art History.
(c) Asian Studies Any Course of Study including at least seven papers, three of which are at a stage higher than Stage I, from the subjects, Asian Geography, Asian History, Asian Politics, Chinese, Indonesian, and Japanese.
(d) Classics For an intending student living in the Auckland University District (as defined in the First Schedule to the 1976 Calendar

...
University of Auckland Act 1961) south of the area defined in the Appendix of these regulations, any Course of Study including at least nine papers, three of which are at a stage higher than Stage I, from the subjects Ancient History, Greek, and Latin.

(e) Germanic Languages
Any Course of Study including at least ten papers from the subjects German and Scandinavian Studies. At least five of the papers must be in Scandinavian Studies.

(f) Linguistics
Any Course of Study, including at least eight papers from Linguistics.

(g) Maori Studies
Any Course of Study including two or more papers of the subject Maori Studies. Intending students must satisfy the Head of the Department of Anthropology that they are competent speakers in Maori. The minimum qualification normally accepted as adequate will be a pass in Maori in the School Certificate Examination.

(h) Romance Languages
Any Course of Study including at least nine papers from the subjects French, Italian, and Spanish. At least five of the papers must be in Italian or in Spanish, or in Italian and Spanish.

Each student who wishes and is entitled to enrol must complete a pre-enrolment form by the date prescribed and shall in his enrolment be subject to any restrictions or conditions imposed by the Senate and by the Faculty or Faculties in which he enrols.

Notes: (i) For 1976 pre-enrolment is required for the following Courses of Study: LLB and LLB(Hons) (except Intermediate), LLM, MJur, DipCrim, Law Professional. (See also the note after Reg 3 (b) below.)

(ii) There is a limitation on the number of students that can enrol for certain papers and for each of these papers intending students shall attend in person at the Department on the Monday or Tuesday preceding enrolment week to seek acceptance for enrolment in 1976. (See General Staff and Student Information; Enrolment.)

(b) Students who may be permitted by the Senate to enrol at the University of Auckland, subject to places being available, and who otherwise fulfil the eligibility requirements shall include

(i) those who wish to enrol for the first time in a Course of Study in the Faculty of Architecture and Town Planning, for the Professional Examinations or Town Planning Examinations,

Engineering, for the examinations for the professional years,

(ii) those who wish to enrol at a university for the first time and are not entitled to enrol under subclauses (ii) and (iii) of regulation 3 (a) of these regulations;

(iii) those who have failed to make satisfactory academic progress in their University studies or have been excluded from the University;

(iv) those transferring from another university in New Zealand who satisfy the Senate as required by the Ad Eundem Statum Regulations that there are compelling reasons for their transfer;

(v) those who wish to enrol to complete the Course requirements of another university in New Zealand;

(vi) those overseas students granted Admission Ad Eundem Statum with credits; or

(vii) those overseas students selected for admission at entrance level.

Each student not entitled to enrol but who wishes to enrol must complete a pre-enrolment form by
the date prescribed, and if permission to enrol is granted shall in his enrolment be subject to any restrictions imposed by the Senate and by the Faculty or Faculties in which he enrols.

Note: For 1976 pre-enrolment is required for the following Courses of Study: BArch First Professional (for the first time), DipUrbVal, BTP (except Intermediate), MTP, DipTP, DipBIA (for the first time), BE First Professional (for the first time), DipPHE (for the first time), BFA First Professional (for the first time), DipClinPsych, DipOpt (Div II for the first time). (See also the note after Reg. 3(a) above.)

Enrolment

4. (a) Every internal student shall enrol at the University in person before the beginning of the first term in accordance with the detailed enrolment timetable published in this Calendar; provided that where a student is, by reason of illness or of any exceptional circumstances beyond his control, unable to enrol in due time, he may with the permission of the Senate enrol late without penalty if he
(i) applies for that permission on or before 31 January, or as soon as reasonably possible in any case where it is after that date that the student becomes ill or the exceptional circumstances arise; and
(ii) produces with his application a medical certificate or reasonable evidence of the exceptional circumstances relied upon.

(b) Students whose dissertations, original investigations, or theses for a degree, or diploma, are incomplete shall be required to re-enrol at the beginning of each academic year until the dissertation, original investigation, or thesis is presented.

(c) (i) Candidates for the Diploma in Gynaecology and Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.
(ii) Candidates for the Diploma in Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.
(iii) Candidates for the Diploma in Paediatrics must complete a formal enrolment and pay the prescribed fees not later than 1 October or such date as approved by the Senate.
(iv) Candidates for the final year of the Degree of Bachelor of Medicine and Bachelor of Surgery must complete a formal enrolment and pay the prescribed fees not later than 15 November or such date as approved by the Senate for the commencement of the Trainee Internship year.

(d) Extramural students shall enrol in accordance with the provision of the Extramural Enrolment Statute and Regulations.

(e) Students who have applied for terms to be carried forward and who have not received a decision by enrolment week must enrol and pay fees in the normal way. If an application to carry terms forward is approved the applicant may cancel his enrolment and receive a refund of fees provided that
(i) application for Terms Carried Forward was made before 31 March and
(ii) an ‘Alteration to Course’ form is completed and lodged at the Registry within fourteen days of the posting of the official notification of approval.

(f) A student who has applied for Ad Eundem Statum Admission, or Provisional Admission, or Special Admission to be eligible to matriculate, and who has not received a decision before the beginning of enrolment week, shall enrol and pay fees as if his application had been granted. If his application is refused he shall be admitted as a non-matriculated student to lectures and laboratories only; provided that his enrolment may be cancelled and his fees fully refunded if within fourteen days of the posting to him of notice of refusal he lodges at the Registry an appropriately completed ‘Alteration to Course’ form.

(g) A student who is enrolled at another university in New Zealand and who wishes to enrol at the University of Auckland shall submit to the Registrar an application to transfer, on the prescribed form, not later than 10 January in the year in which he wishes to enrol, provided that a late application may be accepted only with the permission of the Senate and on payment of a fee of $20.

Note: A student wishing to apply for credits towards a degree or diploma offered by the University of Auckland must also comply with the provisions of the Admission Ad Eundem Statum Regulations.

Penalties for Late Enrolment

Fines

5. (a) All students enrolling for Courses of Study in the Faculty of Science shall enrol not later than Tuesday of the week in which enrolment takes place, and
General Statutes and Regulations, Enrolment and Course (General) 63

all students enrolling for Courses of Study in Faculties other than Science which include papers or subjects in Biology, Botany, Chemistry, Geology, Physics, or Zoology shall enrol not later than Tuesday of the week in which enrolment takes place, and

(d) All students enrolling for the Diploma in Paediatrics shall enrol by 1 October or such later date as approved by Senate
provided that enrolments may be accepted after this date upon payment of a fine of $4 for each week or part of a week after 1 October or such later date as approved by Senate by which the application for enrolment has been delayed.
(e) All students enrolling for the final year for the Degree of Bachelor of Medicine and Bachelor of Surgery shall enrol by 15 November or such later date as approved by the Senate provided that enrolments may be accepted after this date upon payment of a fine of $4 for each week or part of a week after this date by which the application for enrolment has been delayed.

Choice of Course of Study
(f) The Courses of Study of those enrolled after the date prescribed will be determined by the Senate and will not necessarily conform with those proposed by the students concerned. In determining such Courses, the Senate will have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at the approved time.

PhD Enrolments
(g) The provisions of this regulation do not apply to enrolments for the Degree of Doctor of Philosophy.

Payment of Fees
6. (a) All fees that cannot be claimed under a bursary or study award shall be paid at enrolment: provided that under circumstances beyond the control of the student, the Registrar may, on

1976 Calendar
application, grant an extension of time up to 31 March for the payment of the balance of the fees which the student cannot pay at enrolment.

(b) In any case in which fees are not paid in accordance with Clause (a) of this regulation, the following provisions shall apply:
   (i) the Senate may impose a fine of 10% of the amount of fees outstanding after 14 March or after any later date in March to which time for payment has been extended by the Registrar;
   (ii) the Senate shall withhold the granting of terms until such fees have been paid;
   (iii) no person shall be enrolled as a student of this University while any fees due by him under the provisions of this regulation remain unpaid;
   (iv) a student shall not be entitled to have his record transferred to any other University while any fees due by him under the provisions of this regulation remain unpaid.

Note: A student who, because of circumstances beyond his control, is unable to pay all his fees at enrolment must interview the Registrar or his Deputy and complete an agreement regarding the payment of the balance of the fees. He must ensure that his enrolment forms are handed in to the Cashier. If enrolment forms are handed in after enrolment week the full penalties for late enrolment may be imposed by the Senate.

(c) If a student enrolled for a Course of Instruction in a Single Instrument in the Department of Music elects to pay tuition fees in three instalments, a fine of $4 per week will be imposed for each week or part of a week by which the payment of fees for term II or term III has been delayed.

Alterations to Courses of Study

7. (1) Additions, Substitutions or Withdrawals of Papers and Subjects

(a) A student who having completed enrolment wishes to alter his Course of Study may apply to the Senate upon the conditions in clause (b) or (c) (as the case may require) and clause (d) of this regulation for leave to add, substitute, or withdraw from any paper or subject.

Note: It is not sufficient to notify a change of Course of Study solely to a Department. An ‘Alteration to Course of Study application must be filed at the Registry.

Additions and Substitutions

(b) All applications to add or substitute a paper or subject shall require the permission of the Senate and shall be lodged at the Registry not later in each year than:
   (i) the second Friday after the commencement of lectures in the first term, in the case of a laboratory subject (including the subject Studio in the Faculty of Architecture and Town Planning and the Faculty of Fine Arts) and in the case of any subject prescribed for the First, Second or Third Law Examination for LLB or LLB (Hons) Degree or for the Law Professional Examination
   (ii) The third Friday after the commencement of lectures, or the third Friday after mid-term break, whichever is the earlier, in the case of any subject prescribed for the degree of Bachelor of Architecture, the Diploma in Urban Valuation, or the NZIA Special Examination
   (iii) the first Friday after the commencement of lectures in the first or second semester (as the case may be), in the case of any subject in the Faculty of Engineering, provided that no first semester subject may be deleted after lectures cease in the first semester.
   (iv) 30 April, in the case of changes of optional papers for Masters courses (other than in Engineering)
   (v) 30 April, in the case of a linked co-requisite paper marked ** in the schedule for the degree of Bachelor of Arts where another linked co-requisite paper is being substituted for it
   (vi) 31 March, in the case of every other paper or subject provided that a late application may be accepted with the special permission of the Senate and upon payment of a late fee of $4 for each week or part of a week by which it is late.

Withdrawals

(c) (i) All applications to withdraw from a paper or subject other than an application to withdraw from the Course of Study for the Diploma in Gynaecology and Obstetrics, the Diploma in Paediatrics, the Diploma in Obstetrics, the final year for the Degree of Bachelor of Medicine and Bachelor of Surgery, or the second semester for the Degree of Bachelor of Engineering shall be endorsed with the approval of the Dean of the Faculty and shall be lodged at the Registry not later than 31 March in each year.
   (ii) All applications to withdraw from the Course of Study for the Diploma in Gynaecology and Obstetrics shall be lodged at the Registry not later than 1 April for the June examination or 1 October for the December examination.
   (iii) All applications to withdraw from the Course of Study for the Diploma in Obstetrics shall be lodged at the Registry not later than 1 April for the June examination or 1 October for the December examination.

1976 Calendar
(iv) All applications to withdraw from the Course of Study for the Diploma in Paediatrics shall be lodged at the Registry not later than 1 November or such later date as approved by Senate.

(v) All applications to withdraw from the final year for the Degree of Bachelor of Medicine and Bachelor of Surgery shall be lodged at the Registry not later than 15 December immediately following the date approved for enrolment for that final year.

(vi) All applications to withdraw from subjects for the first semester of a professional year for the Degree of Bachelor of Engineering shall be lodged at the Registry not later than 31 March in each year, and applications to withdraw from subjects for the second semester shall be lodged not later than 15 August in each year.

Fees

(d) (i) Payment of Additional Fees
Any additional tuition fees and all late fees shall be paid at the time of the lodging of the application.

(ii) Refund of Fees
(a) Where a candidate applies under paragraph (c) of this Regulation and within the appropriate time limit to withdraw from all the papers or subjects for which he has enrolled, he shall receive a full refund of all tuition fees and of the Students' Association fee.

(b) Where the student has within the appropriate time limit applied under paragraph (c) to withdraw from a paper or subject (but not from all for which he has enrolled), or under paragraph (c) to substitute a paper or subject for which a lesser fee is prescribed than that which he has paid, he shall receive a refund of the difference between the total tuition fees paid and the total due on acceptance of the application for withdrawal or substitution.

(d) Where a student for reasons of illness or injury or any exceptional circumstances beyond his control makes a late application for withdrawal, the Senate may in its absolute discretion grant a partial refund of tuition fees but in no case of the Students’ Association fee.

Note: Students who have their tuition fees paid under University Scholarships, Education Department Bursaries, Government Study Awards, Training College Bursaries, Secondary Teachers’ Studentships, Colombo Plan, or S.C.A.A.P. should note that if they do not comply with the regulations relating to ‘Alterations to Courses of Study’ they may prejudice their scholarship or bursary in a future year. The University will claim tuition fees from the authority concerned in accordance with enrolments as at 31 March in each year.

(2) Alteration of Optional Papers for Masters and Linked Co-requisite Papers Marked in the Schedule for the Degree of Bachelor of Arts

All applications to alter a choice of paper shall be endorsed by the Head of the Department concerned and lodged at the Registry not later than 30 April each year provided that a late application may be accepted with the special permission of the Head of the Department and upon payment, if the Senate so requires, of a late fee not exceeding $4 for each week or part of a week by which it is late.

Note: It is not sufficient to receive approval solely from the Head of the Department for a change of an optional paper. An ‘Alteration to Course of Study’ application must be filed at the Registry.

(3) Applications for approval of Senate as required by Regulations governing intended Course of Study

A student who wishes to take in any year a Course of Study which under any regulation for the Degree of Bachelor of Arts or the Degree of Master of Arts requires the specific approval of the Senate, shall make application to the Registrar on the appropriate form not later than 31 January in the year in which he wishes to enrol, provided that with the permission of a Head of Department an application may be accepted after this date.

Non-matriculated Students

8. Admission to lectures or laboratories may be granted to non-matriculated students provided they comply with all other regulations governing admission. The Council may from time to time restrict entry of non-metriculated students to one or more subjects by reason of shortage of accommodation or other special circumstances.

Note: A non-matriculated student may not enter for any degree, diploma, or certificate of proficiency examinations as he is unable to comply with the course regulations.
Exclusion

9. Unsatisfactory Work During Year

(1) Heads of Departments may exclude any student from a Course of Study in any subjects in their departments on the ground of unfitness or of unsatisfactory progress in such subjects. A student so excluded shall have the right of appeal to the Senate. All students recommended for exclusion shall be informed individually by the Head of the Department not later than the Friday preceding the mid-term break. Such students may lodge an appeal against their exclusion not later than the following Friday.

(2) Failure in a paper or subject after two attempts:

Any student who has twice attempted but has failed to be credited with a pass in an optional paper or subject shall not be entitled to re-enrol in that paper or subject without the prior permission of the Head of the Department in which it is taught.

Exclusion for failure to make sufficient academic progress in a Course of Study as a whole

10. (1) In this regulation and the schedule to it: 'a particular Faculty' means a Faculty named in the left hand column of the Schedule to this regulation; 'unsatisfactory student' (i) means, in relation to a particular Faculty, a student who has made insufficient academic progress in that he has failed to the extent described opposite the name of that Faculty, in the right hand column of the Schedule to this regulation, in any Course of Study there specified; (ii) includes any student who fails to comply with conditions of enrolment imposed under clause (5) of this regulation. In the case of any student, a 'year of academic studies' means a year in which he has enrolled and has not withdrawn his enrolment by the prescribed dates.

(2) (a) No unsatisfactory student may enrol in a particular Faculty without the prior permission of the Senate.

(b) This clause of this regulation does not apply to a student

(i) enrolling to complete Case Studies, Dissertation, Original Investigation or Thesis for any degree or diploma, or

(ii) enrolling for further study following the completion of a degree or diploma or a prerequisite for a masters degree or postgraduate diploma, or

(iii) enrolling for the Degree of Doctor of Philosophy.

(3) No student may enrol in the University, without the prior permission of the Senate,

(a) who has been excluded from any university on the ground that he has failed to make sufficient academic progress; or

(b) who wishes to transfer to this university from another university under the regulations of which he requires special permission to enrol having failed to make sufficient academic progress.

(4) Application for permission to enrol under clause (2) or clause (3) of this regulation must be made

(a) on payment of the prescribed fee not later than 10 January in the year in which the student wishes to enrol; or

(b) on payment of a late fee of $10 (in addition to the prescribed fee) not later than 31 January of that year.

(5) In granting a student permission to enrol under clause (2) or clause (3) of this regulation, the Senate may impose on the student such conditions as it thinks fit

(a) in relation to the minimum academic progress he must make in the year of enrolment (so as to be entitled to enrol in the next year without application under this regulation);

(b) otherwise in relation to his future Course of Study.

(6) Any student

(a) to whom the Senate refuses permission to enrol under clause (2) or clause (3) of this regulation; or

(b) who objects to any condition of enrolment imposed by the Senate under clause (5); may within 14 days appeal to the Council against the refusal or imposition.

(7) This regulation is subject to Regulation 11 of these regulations.

Any other Course of Study: any student who has failed his previous year of academic study as a whole. |

Note: A full-time Course of Study is as defined in the Scholarships Bursaries and Awards Section.

11. Application of foregoing regulation to students who have been enrolled part-time
Regulation 10 of these regulations shall not apply to a student who, over the last two years of his academic studies, has been enrolled in this University part-time for a Course of Study and has passed at least half of the papers or subjects for which he was so enrolled.

12. Cross-credits
(a) In this regulation, cross-credits means papers or subjects which:
(i) are common to two or more Courses of Study;
(ii) have been passed by a candidate for the purpose of one of those Courses of Study; and
(iii) that candidate desires to transfer to another of those Courses of Study.

(b) A candidate may, on payment of the prescribed fees under the Fees Regulations, transfer to the Course of Study for any degree or diploma named or referred to in the left hand column of the Schedule to this regulation cross-credits as shown opposite the degree or diploma so named or referred to in the right hand column of that Schedule (with any exceptions there stated).

(c) No candidate may transfer as a cross-credit any paper or subject in which he has obtained a-
conceded pass or restricted pass; and if that paper or subject is compulsory he may take in place of it any such other paper or subject as the Senate may approve.

(d) No candidate may transfer as a cross-credit any paper or subject already so transferred under this regulation.

(e) In any case where an application for the transfer of cross-credits is not otherwise covered by this regulation or not covered by special provisions made elsewhere in the Regulations of the University or (ii) is subject to any doubt or difficulty in the interpretation of these or any other Regulations of the University — the Vice-Chancellor may approve any such transfer of credits, or give any such direction in relation to the application, as he thinks fit.

### 13. Exemptions

(a) A candidate for a degree or diploma, who has passed in a paper or subject not prescribed for that degree or diploma but the same as or substantially equivalent to a paper or subject so prescribed, may at the discretion of the Senate be exempt from that prescribed paper or subject; subject, however, to the provisions of any other regulation.

(b) A candidate exempted either under this or any other regulation from a paper or subject shall pay the prescribed fee under the Fees Regulations to be exempted from that paper or subject.

### 14. Abandonments

Where a candidate abandons one Course of Study before completion and proceeds to another Course, he may transfer without payment of fee to his new Course any appropriate papers or subjects with which he has been credited. If at any time he wishes to resume the Course which he has abandoned and to retain the papers or subjects first credited to it he shall do so in accordance with Regulation 12 of these Regulations.
15. A student while pursuing a Course of Study in the University may with the approval of the Vice-Chancellor, after consultation with the Heads of Departments concerned, take lectures in a subject which he is not offering for examination without payment of fee for the Course provided that this facility shall be granted only where the additional lectures would be useful in supplementing the student's Course of Study.

Vice-Chancellor's Special Powers

16. (a) The Vice-Chancellor may give such direction, or make such provision as he shall think fit for the relief of undue hardship where it is shown to his satisfaction

(i) that an alteration or amendment to statutes or regulations involving a change in a Course of Study or in examination requirements has caused a candidate hardship; or

(ii) that official advice has been given and acted upon, and it is later found that a candidate's Course of Study is not in accordance with the governing regulations and hardship would be caused if the candidate were to be compelled to comply with the full requirements of the regulations.

(b) Where a candidate for a Master's degree writes a script outside the prescribed time for the examination, the Vice-Chancellor shall have power to

(i) admit or reject the script as part of the examination

(ii) authorise the Head of the Department to conduct an oral examination, and that the Head of the Department where appropriate and if necessary, shall submit a mark based on the year's work and the oral examination.

(c) A candidate may appeal against any decision of the Vice-Chancellor under this Regulation to the Council which shall have power to make such provision as it may think fit.

EXTRAMURAL ENROLMENT STATUTE

Title and Commencement
1. (1) This statute may be cited as the Extramural Enrolment Statute 1962.
(2) This statute shall come into force on 1 January, 1963.

Extramural enrolment
2. Any student who satisfied the Senate
(i) that he is prevented from attending classes, or
(ii) that if enrolled only for a Masters thesis, or a Dissertation, or an Original Investigation he does not need to use the facilities of any University department, shall, so far as is shown to be necessary and subject to the provisions of this statute, be exempted from attendance at classes and may be enrolled as an extramural student.

Restrictions
3. (1) Except for enrolments permitted pursuant to paragraph (ii) of clause 2 of this Statute exemption shall not be granted:
(a) in any of the following subjects at any stage in any Course: Anthropology; Art History; Biochemistry; Biology; Botany; Cell Biology; Chemistry; Composition; Geography; Geology; Legal Ethics and Advocacy; Physics; Production Analysis; Psychology; Zoology;
(b) in any subject of the Courses for the following degrees and diplomas: Master of Architecture; Master of Arts; Master of Commerce; Master of Engineering; Master of Fine Arts; Master of Jurisprudence; Master of Laws; Master of Medical Science; Master of Music; Master of Philosophy; Master of Science; Master of Town Planning; Bachelor of Architecture; Bachelor of Engineering; Bachelor of Human Biology; Bachelor of Fine Arts; Bachelor of Laws (Honours); Bachelor of Medicine and Bachelor of Surgery; Bachelor of Music (Performance); Bachelor of Science (Honours); Bachelor of Town Planning — First and second Town Planning Examinations; Diploma in Building and Construction Management; Diploma in Business and Industrial Administration; Diploma in Clinical Psychology; Diploma in Computational Mathematics; Diploma in Criminology; Diploma in Educational Psychology; Diploma in Gynaecology and Obstetrics; Diploma in Language Teaching Studies; Diploma in Local Government and Administration; Diploma in Music; Diploma in Music with Honours; Diploma in Obstetrics; Diploma in Optometry; Diploma in Paediatrics; Diploma in Psychiatry; Diploma in Public Health Engineering; Diploma in Statistics; Diploma in Town Planning; Diploma in Urban Valuation;
(c) in any subject of Stage III for the degree of Bachelor of Arts unless the candidate has completed as an internal student for the degree nine papers including three at Stage II level;
(d) in any subject at Stage III for the degree of Bachelor of Commerce unless the candidate has completed as an internal student for the degree seventeen papers including at least six papers at Stage II level;
(e) in any subject for the degree of Bachelor of Science unless the candidate has gained as an internal student for the degree forty-eight credits including twelve credits higher than Stage I.
(f) in any subject at any Stage for the degree of Bachelor of Arts except in special circumstances to be determined by the University Senate on the recommendation of the Head of the Department;
(g) in papers numbered 26.290 and 26.390 in the subject Mathematics in any course;
(h) to a candidate who is living in the Urban Area (as defined by the Government Statistician) of Auckland or of Hamilton or in any of the University Districts of the Victoria University of Wellington, the University of Canterbury, or the University of Otago save in exceptional circumstances and with the approval of the other University concerned;
(i) in any subject or stage of a subject that is not for the time being taught at the University, but, notwithstanding anything to the contrary in paragraph (g) of this section, exemption may be granted in individual cases of hardship if a University in New Zealand at which the subject is taught agrees to examine the candidate.

Note: If a candidate granted exemption under this provision enters for examination in any other subject in the same year no assurance can be given that examination time-tables can be so arranged that the candidate will be able to sit all papers.

1976 Calendar
(j) to a candidate who, having been admitted to another University in New Zealand, is still on the books of that University as a candidate for any degree, diploma, or other qualification;
(k) to a candidate who fails to produce such evidence as the Senate may require that he is prevented from attending classes in the subject at any University;
(1) to a candidate who is prevented from attending a class by reason of attendance at another class.

(2) The council may, by regulation, provide that extramural enrolment shall not be accepted in the Course for any specified subject, or for any specified part thereof, which required practical or laboratory work, or the use of materials or teaching services of such a nature that, in the opinion of the council, the course cannot satisfactorily be taken extramurally.

Persons beyond New Zealand
4. (1) Except as provided in subsection (2) of this section, exemption shall not be granted to a candidate who is not resident in New Zealand (including New Zealand Island Territories), Cook Islands, Fiji, Niue, or Western Samoa.

(2) A candidate who ceases to reside in any of the countries mentioned in subsection (1) of this section and who requires to pass in the final group of papers or subjects of a Course to complete a degree, diploma or professional qualification may, at the discretion of the Senate and subject to the provisions of this statute, be granted exemption in the subjects concerned.

Tuition at Massey University
5. (1) A student who is on the books of the University of Auckland and who is exempted from tuition at the University of Auckland in any subject or subjects for which extramural tuition is provided at Massey University, shall
(a) be required to enrol for tuition in such subject or subjects at Massey University; and
(b) not be permitted in the same year to enrol for any other subject or subjects at the University of Auckland.

(2) A student so enrolled shall take the examinations of Massey University, and any subject he passes shall be credited to his course.

Procedure
6. A student seeking exemption from classes and enrolment as an extramural student of the University of Auckland shall make application in accordance with the Extramural Regulations of the University and pay the prescribed fees.

Application of statutes and regulations
7. Except as otherwise expressly provided, an extramural student shall be subject to all the statutes and regulations of the University.

REGULATIONS
Extramural Enrolment at the University of Auckland
1. A student wishing to enrol as an extramural student on the grounds (a) that he is prevented from attending classes, or (b) that he is enrolling only for a Masters thesis, or a Dissertation, or an Original Investigation and would not therefore be making use of the facilities of any University Department shall make application to the Registrar of the University on the prescribed form not later than 10 January in the year in which he wishes to enrol as an extramural student or after that date upon payment of a late fee of $5, provided that no such application shall be made later than 21 February next except with the leave of the Senate and upon payment of a fine of $10 in addition to the late fee of $5.

2. Each applicant for extramural enrolment shall
(a) state the grounds on which the application is based;
(b) state that he is not on the books of any other University;
(c) state his current residential and business address;
(d) state whether to the best of his knowledge there will not be any change of residence during the
academic year, or where there is an expected change of residence during the academic year, the expected address together with the approximate date of the change;

(e) supply such evidence as the Senate may require that he
(i) is prevented from attending classes in the course, paper or subject at another University,
or
(ii) does not need to use the facilities of any University Department;
(f) pay the prescribed fees.

3. In the event of a student discontinuing his studies after exemption has been granted a full refund of fees will be made provided notification is received by the Registrar on or before 31 March. No refund of fees shall be made for withdrawals after this date and the fees shall not be transferable to the following or any subsequent year.

Procedure for Extramural Enrolment at Massey University

4. (a) If a student is resident outside the urban area of Auckland and is eligible to be registered with Massey University, he does not need to apply to the University of Auckland for exemption from lectures;
(b) If a student is resident in the urban area of Auckland he must apply to the University of Auckland for exemption from lectures;
(c) A student applying for enrolment for tuition with Massey University in any subject shall make application to the Director of Extramural Studies in the manner prescribed by the Statutes and Regulations of that University.

Failure in Papers or Subjects

5. Extramural studies are subject to the provisions of regulation 9 of the Enrolment and Course Regulations (General).

Note: For the purpose of this regulation students who have not formally withdrawn in accordance with Regulation 3 or who have registered with Massey University and have not withdrawn in accordance with the regulations of that University shall be deemed to be engaged in academic studies in that year.

Notes on Extramural Enrolment

1. Grounds of Exemption
   (a) Where a student wishes to enrol for one paper or equivalent and does not wish to attend lectures, the Senate will generally approve an application for exemption if extramural tuition is provided by Massey University.
   (b) The Senate will consider applications from students for Extramural Enrolment in paper(s) or equivalent not available at Massey made on the grounds of special circumstances such as physical infirmity, distance from the University, conditions of employment, etc., which would prevent them from attending lectures. Students enrolling with Auckland, however, are not provided with any special tuition by correspondence or otherwise. It is therefore emphasised that they are putting themselves at a serious disadvantage by not attending lectures. It is essential that students attempting first year work should, by attendance at lectures, obtain that necessary introduction to university methods of work which would be the basis of their later advanced studies. It is equally essential that at advanced stages of their course, they should have the guidance of university teachers and access to a large library such as is not in practice available to students not attending lectures.

2. Examination Centres
   The following examination centres are at present established: Apia, Auckland, Dargaville, Gisborne, Lautoka, Nuku'alofa, Paeroa, Rotorua, Rarotonga, Suva, Whangarei. An applicant for exemption in any subject in which an oral test or examination is required in addition to written papers should establish, when first applying for exemption, that arrangements can be made by the Registrar for the oral test to be held at the centre at which he proposes to present himself for examination.

EXAMINATION REGULATIONS

Eligibility to Sit Examinations

1. To be eligible to present himself for examination in a paper or subject, a candidate
   (a) must have been enrolled as an internal student and have kept terms if required to do so in accordance with the Terms Regulations, or
   (b) not being enrolled as an internal student, must have been granted exemption in accordance with the Extramural Statute and Regulations, or have been granted Terms Carried Forward in accordance with the Terms Regulations.

Time of Examinations
2. The examinations shall be held at the times specified in the Timetable each year.

Place of Examinations
3. All internal students must sit their examinations at Auckland. Extramural students who do not wish to sit their examinations at Auckland may sit at one of the centres specified in the Extramural
Enrolment Regulations, provided that, with the approval of the Senate, a special examination centre may be established under special circumstances subject to the payment of the extra fee prescribed in the Fees Regulations.

Conduct of Examinations
4. (a) The examinations shall comprise such written, oral and practical examinations as the examiners may determine.
(b) Candidates shall write out answers to the questions in the presence of a supervisor, who shall be appointed or approved by the Council in accordance with such detailed instructions as may be furnished by the Council.
(c) No candidate shall communicate with an examiner in regard to an examination except through the Registrar.
(d) No candidate may be examined in any subject or part of a subject at any time other than that set down for him in the time-table.
(e) No candidate shall be allowed to enter the room later than one hour thirty minutes after the beginning of the examination nor leave the examination until one hour forty five minutes has elapsed from the beginning of the examination and then only with the permission of the supervisor and upon handing in his script.
(f) Candidates shall be allowed to read their examination papers for a period of not more than ten minutes before the examination commences but may not begin writing their answers until the room supervisor announces that they may do so.
(g) No candidate is to bring with him into the examination room any written or printed matter except by direction of the examiner. All paper used during the examination must be handed into the supervisor.
(h) No candidate shall communicate with another in the examination room.
(i) No candidate shall continue writing an answer after the supervisor has announced the expiration of time. In no circumstances is any time over the above the time allotted to any paper to be allowed a candidate for reading over his scripts or making any amendment or addition to his scripts.
(j) Any complaint that a candidate has committed an examination offence shall be referred to the Deans Committee of the Senate (to which the Senate has delegated power to deal with all matters relating to examinations) to determine whether the complaint should be investigated. For the purposes of this Regulation an examination offence includes any breach of any rules relating to the conduct of examinations and any dishonest practice occurring in the preparation or submission of any work (whether in the course of an examination or not) which counts toward the attainment of a pass in any subject or otherwise occurring in connection with any examination.
(k) The Discipline Committee of the Senate (to which the Senate has delegated the appropriate powers) shall hear and determine any complaint which the Deans Committee has resolved should be investigated. The candidate concerned shall be notified in writing of the subject matter of the complaint and the time and place of the hearing. He shall be invited to state in writing his answer to the complaint and may attend the hearing.
(l) The Senate shall have power (which it may delegate to its Discipline Committee) to do all or any of the following things in the case of a candidate found guilty of an examination offence:
(i) Impose upon him any of the penalties prescribed in the Disciplinary Regulations
(ii) Disqualify him from sitting any examinations for such period as may be prescribed
(iii) Cancel any pass with which he may have been credited in the subject or examination in respect of which the offence has occurred.
(m) Where the Senate or any committee of the Senate is satisfied that a candidate has not complied with any Regulation of the University whether in respect of any examination or any other matter having given the candidate such opportunity as it considers reasonable of remedying his non-compliance with the Regulation or Regulations, then the Senate shall have power (which it may delegate to its Discipline Committee) to suspend for such time as may be prescribed the release to the candidate of the results of any examination, or to decline to credit to his course any subject or subjects, or to impose both those penalties.
(n) A candidate may appeal to the Council from any decision of the Senate or its Discipline Committee under paragraphs (l) or (m) of this Regulation by giving notice in writing to the Registrar within 14 days of being notified of the decision. A candidate so appealing shall be entitled to make submissions in writing and may, with the consent of the Council, appear when the appeal is determined. The Council may dismiss or allow the appeal or vary the penalty but shall not impose any
penalty which the Senate or its Discipline Committee could not have imposed. The decision of the Council on any appeal under this Regulation shall be final.

Marking of Scripts
5. (a) In determining a candidate's result the examiners
(i) may take into consideration the work done by the candidate during the year;
(ii) shall give due weight to reports on practical work done by the candidate wherever these are required;
(iii) shall include marks obtained by the candidate where the Senate has allotted a percentage of marks for awarding on the year's work of the candidate in any paper or subject.

Passes — Grades and Marks
(b) A pass mark in any paper or subject including papers and thesis for a Masters degree is:
for a single paper, 50%;
for two or more combined or linked papers, an average of 50%;
for one or more papers and a thesis, an average of 50%;
provided that
(i) the Senate may give approval for a thesis to count as more than one paper;
(ii) a candidate not attaining a minimum of 37% in any combined or linked paper except in the papers or thesis for a Masters degree and mid-year examinations, will fail the subject as a whole;
(iii) a candidate for the Degree of Master of Engineering must pass in each of eight subjects or in each of three subjects and a thesis;
(iv) where oral work is required for a paper of a language, unless otherwise provided, a pass in both oral work and written papers is not necessary;
(v) where both practical and written work is required for a paper or subject a pass in both practical work and written papers is necessary;

There are eleven pass grades and two fail grades as set out:

Pass Grades
A+ high first
A clear first
A- bare first
B+ high second
B clear second
B-- bare second
C+ sound pass
C pass
C— marginal pass

Restricted.
A restricted pass shall apply only to a paper in the Faculty of Arts, Commerce, or Science. A candidate at the discretion of the appropriate Faculty may be considered for restricted passes. No application by the candidate for consideration is required. A restricted pass in a paper which is a pre-requisite for enrolment in another paper shall not be accepted as fulfilling that pre-requisite except with the approval of the relevant Head of Department in each case.

Note: A student with a Restricted Pass in a paper who wishes to take the paper again may do so for Certificate of Proficiency only.

Conceded.
A conceded pass shall apply only to the degrees of Bachelor of Architecture, Bachelor of Engineering, Bachelor of Fine Arts, Bachelor of Laws, Bachelor of Laws (Honours), to the Law Professional Examination and to the Diploma in Music and the Diploma in Business and Industrial Administration and may not be transferred to another Course of Study. A candidate at the discretion of the appropriate Faculty may be considered for a conceded pass. No application by the candidate for consideration is required.

Fail Grades
D indicates that in the opinion of the examiners the candidate has a reasonable chance of succeeding in the paper or subject if he sits again in the following year.
E indicates that the candidate is unlikely to succeed in the paper or subject.

Open Book and Restricted Book Examinations
(c) (i) Where an examination is designated 'Open Book', candidates may take into the examination room any material including books, Acts, etc., and there will be no check on items taken into the examination room.
(ii) Where an examination is designated 'Restricted Book', candidates may take into the examination room only the material specified by the examiner.

Work at Standard of Honours
6. A candidate whose work is at the standard of Honours or a First or Second Class Pass under the relevant degree or diploma regulations but who is ineligible for the award of Honours or a
First or Second Class Pass under the regulations shall be informed of the standard that he would have been awarded had he been eligible.

Recount of Marks
7. By making application within four weeks from the date of the mailing of his official result of the examinations, any candidate sitting for an examination for a degree, diploma, professional qualification, or certificate of proficiency may have the marks awarded his scripts recounted in any paper or subject which he has failed. The fee for such a recount shall be as prescribed in the Fees Regulations. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer or any portion of an answer submitted by a candidate has been overlooked. No information relative to the application will be placed before the examiner. Candidates for the Degree of Bachelor of Architecture, the Bachelor of Fine Arts, the Diploma in Fine Arts, the Diploma with Honours in Fine Arts, the Bachelor of Music (Performance), the Diploma in Music, or the Diploma in Music with Honours may apply for a recount of marks for written papers only.

Aegrotat Pass
8. A candidate who has been prevented by illness or injury from presenting himself at any examination in any paper or subject, or who considers that his performance in any examination in any paper or subject has been seriously impaired by illness or injury may on application and with the approval of the Senate be granted an aegrotat pass in such paper or subject if the following conditions are satisfied
   (a) that the candidate is enrolled as an internal student for the course of instruction in the paper or subject in question;
   (b) that the illness or injury was reported in writing to the Registrar within one week of the date upon which the examination affected took place or if more than one examination has been affected then within one week of the last of such examinations;
   (c) that as soon as practicable after reporting the illness the candidate furnish to the Registrar a certificate (on the form provided) from a registered medical practitioner stating
      (i) that he examined the candidate medically on a certain date;
      (ii) that in his opinion the candidate was unable through illness or injury to present himself for the examination, or that in his opinion the candidate's performance in the examination was likely to have been seriously impaired by illness or injury. The nature of the illness or injury shall be stated in sufficient detail to make it clear that the candidate was not responsible for his disability, and in a form suitable for submission in cases of doubt to a medical referee;
   (d) that the candidate's responsible teachers in the paper or subject of the examination in question certify that his work therein during the course of instruction was well above the minimum pass standard (or where relevant the minimum standard for a class of Honours or Pass) and that he is in their opinion clearly worthy to pass in that paper or subject (or where relevant to be awarded First or Second Class Honours OR First or Second Class Pass),

or.

alternatively that the Senate is satisfied upon considering the quality of the candidate's work during the course of instruction and of any work which he has completed in the current examinations (whether in the paper or subject in question or any other paper or subject that the candidate is clearly worthy to pass in the paper or subject in question or (where relevant) to be awarded First or Second Class Honours OR First or Second Class Pass therein, provided that in either case
   (i) Honours or a First or Second Class Pass may not be given to a candidate who has been awarded a pass under this regulation in respect of more than one paper for a degree or diploma involving not more than four papers; or in respect of more than two papers for a degree involving five or more papers,
   (ii) a candidate for the degree of Bachelor of Engineering may, on the recommendation of the Senate, be given Honours irrespective of the number of aegrotat passes awarded.

Compassionate Pass
9. Where by reason of any exceptional circumstances beyond his control and other than this own illness or injury a candidate has been prevented from presenting himself at any examination in any paper or subject or considers that his performance in any examination in any paper or subject has been seriously impaired, he may on application and with the approval of the Senate be granted a compassionate pass subject to compliance with the same conditions (with necessary changes) as those appearing in clauses (a) and (d) of regulation 8. Such an application must be made to the 1976 Calendar
Registrar on the form provided within one week of the date upon which the examination affected took place, or, if several examinations have been affected, then within one week of the last of those examinations, and must be supported by such evidence as the Registrar shall require.

10. (a) The provisions of regulations 8 and 9 shall apply to
(i) any final written examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(ii) any final practical examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(iii) any terms examination which has been allotted a percentage of the marks awarded for the final examinations for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;

(b) The provisions of regulations 8 and 9 shall apply (with necessary changes) to
(i) the final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, or for the Diploma in Fine Arts, or for the Diploma with Honours in Fine Arts;
(ii) the final submission in each year of studio work for the Degree of Bachelor of Architecture as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

Note: A candidate eligible to present himself solely on the grounds of his having been granted Terms Carried Forward is ineligible for the award of an Aegrotat Pass or Compassionate Pass in that examination.

Viva Voce Examination

11. A candidate who is eligible to apply and has applied for an aegrotat or compassionate pass in any paper or subject may, in exceptional circumstances and on a recommendation from the Head of the Department concerned, be granted permission by the Senate to take a viva voce examination in any paper or subject of his aegrotat or compassionate pass application.

Concessions

12. Where degree regulations or prescriptions permit, or the Senate upon such conditions as it thinks fit, approves, the examiners may in respect of any examination
(a) release to the candidates, the examination paper in advance of the sitting of the examination;
(b) allot a percentage of marks for awarding on the year’s work of the respective candidates;
(c) require or permit the candidates, either wholly or partly in lieu of taking an examination held in accordance with Regulations 2 to 5 inclusive and 7 to 9 inclusive of these Regulations, to submit for examination such written assignments of work as may be required.

Theses

13. Where a thesis is required as part of an examination the following conditions shall apply

(a) Diplomas, Bachelors, and Masters Degrees
(i) The candidate shall submit two copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis provided that a candidate for the degree of Master of Engineering shall submit three copies and a short abstract bound in each copy.
(ii) The Registrar shall transmit the submitted copies to the examiners.
(iii) On completion of the examination the supervisor of the thesis shall be responsible through the Head of the Department for the deposit of two copies with the University Library.
(iv) On completion of the examination for the Degree of Master of Engineering the disposal of the third copy submitted shall be at the discretion of the Head of the Department.
(v) Where more than the required number of copies of a thesis are submitted any additional copies shall be returned to the candidate.

Notes: (i) The examination copy of any written thesis presented for a degree or diploma shall be the first copy, unless the thesis is cyclostyled printed, reproduced photographically or by electrostatic process and be bound in a form sufficiently durable for preservation and use in the University Library. The second copy may consist of a carbon duplicate of the typescript only. The Library will, if necessary, copy illustrated material such as maps and will bind this second copy of the thesis. This copy may be placed in a Departmental reading room.
(ii) Candidates are recommended to obtain the booklet ‘Pointers on the Binding of Theses’ from the Bindery before proceeding with the typing and binding of the thesis.

(b) Degree of Doctor of Philosophy
(i) The candidate shall submit three copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis.
(ii) On completion of the examination two copies shall be deposited with the University Library. The disposal of the third copy shall be at the discretion of the Head of the Department.
Notes: (i) The author of a thesis has a right to impose conditions restricting the publication of his work to ensure for such a period as he may stipulate, without however curtailing the University Librarian's right to make and supply copies thereof in terms of subsection (3) of Section 21 of the Copyright Act (1962).
(ii) Where it is suspected that a thesis contains defamatory material the University Librarian may restrict access to the thesis subject to confirmation by the Library Committee.
(iii) Supervisors are requested to notify the University Library when a thesis is submitted if it is believed to contain material which could be considered defamatory.

Abstracts
14. Where a thesis, dissertation, research essay, or original investigation is submitted as part of an examination for a Bachelor's or Master's degree, a Diploma, or the degree of Doctor of Philosophy a candidate shall at the same time submit a short abstract not exceeding 500 words, suitable for publication. The abstract shall be bound in each copy of a thesis submitted.

Examination Centres
15. Pursuant to Regulation 1 hereof the University of Auckland will conduct examinations in the following centres: Apia, Auckland, Dargaville, Gisborne, Lautoka, Nuku'alofa, Paeroa, Rotorua, Rarotonga, Suva, and Whangarei. Internal candidates are required to sit their examinations at Auckland.

### EXAMINATION FEES

- **PhD**: $80
- **All other Doctorates**: $100

### STUDENTS' ASSOCIATION FEE

**Subscription**: $34

This fee must be paid by all students other than those enrolled for DipG&O, DipObst, DipPaed, DipPsychiat; PhD part-time; Masters Degrees from 3rd year onwards; Thesis only for MTP; Original Investigations only for DipEd; Part II only for DipEdPsych; Dissertations only for LLB (Hons); Bsc (Hons); DipTP; DipCrim; DipBIA; DipLang; DipOpt and DipUrbVal.

**Note**: The Annual Subscription includes a Building Levy of $12. As from January 1961, no student shall be liable to pay a Building Levy who has previously paid it five times or more at this University or any other University in New Zealand. To be eligible for an exemption from the Building Levy a student must complete the appropriate application form obtainable from the office of the Students' Association and submit it to the Students' Association before enrolment week. Late applications will not be accepted after 30 November in the year the fee was paid.

### PENALTIES

DISCIPLINE

Under the provisions of the University of Auckland Act 1961 the Senate has, subject to a right of appeal to the Council, the power to deal with all questions relating to the discipline of students. During the intervals between meetings of the Senate, and subject to a right of appeal to the Senate, the Vice-Chancellor may exercise alone the powers of the Senate as to discipline.

DISCIPLINARY REGULATIONS

1. These Regulations may be cited as the Disciplinary Regulations 1972.
2. These Regulations shall come into force on 1 January 1973.
3. In these Regulations unless the context otherwise requires:
   - 'Class' means any lecture, tutorial, seminar, laboratory, or other assembly of students at which tuition is being given and includes any lecture or address within the University at which students are present;
   - 'Hall' means any hostel or hall of residence or other student accommodation under the control of the Council;
   - 'Student' means a duly enrolled student of the University and includes for the purposes of Regulation 4 hereof a person applying so to enrol;
   - 'Students' Association' means the Auckland University Students' Association Incorporated;
   - 'Warden' means the person who is for the time being in charge of any Hall and includes his duly appointed deputies;
   - 'The Act' means the University of Auckland Act 1961 and its amendments;
   - 'The University' includes any institution under the control of the Council;
   - 'University property' includes property occupied by the University, property owned by any institution under the control of the Council, and any property held by the Crown on behalf of or for the purposes of the University.
   - Words and expressions defined in the Act have the meanings so defined.
4. (a) Every student shall on enrolling at the University sign a declaration in the following form or to the like effect: 'I hereby solemnly promise that I will faithfully obey the rules and regulations of the University and be bound by the same.'
   (b) The Senate shall have power to impose conditions on the attendance at classes of any student and to obtain his undertaking to observe those conditions, either at his enrolment, or in the course of his attendance at the University in all cases where in the reasonable opinion of the Senate it is necessary so to do in order to prevent any possible disturbance to the carrying out of normal activities at the University or otherwise to maintain order and discipline.
   (c) The Senate or the Discipline Committee of the Senate may as delegate of the Council exercise the powers conferred on the Council by s. 24(2) of the Act without however preventing the Council from exercising those powers.
5. No student or other member of the University shall:
   (a) act in a manner contrary to the good government of the University or prejudicial to its functioning as such;
   (b) wilfully or recklessly damage or deface, or wilfully move without authority, any property of the University, or any other property within the University precincts;
   (c) wilfully impede the activities of the University, whether in teaching, research or otherwise;
   (d) wilfully create any nuisance in or on the University precincts;
   (e) wilfully obstruct any officer or member of the University employed at the University in the due performance of his functions or of the work he is required to perform;
   (f) be in a part of the University precincts in which he is not, at that time, entitled to be, knowing that he is not entitled to be there at that time;
   (g) (i) start, ride, or park without prior permission, a cycle, a motor cycle, or a motor vehicle in University grounds;
   (ii) fail to comply with the University Parking Regulations at all times;
   (h) fail to comply with the directions on any notice erected with the authority of the Council and governing entry, speed and exit of vehicles, and the location of parking spaces;
   (i) commit any criminal offence in the University precincts;
   (j) smoke
      (i) in the Library except with the permission of the Librarian; or
      (ii) in any General Lecture Theatre; or
      (iii) in any Seminar Room except with the permission of the person in charge of it;
(k) commit a breach of any University Statute or Regulation or of any rule of conduct made by any person authorized by the Council or the Senate to make such rule, provided that the Statute Regulation or rule has been published in the University Calendar or that reasonable notice thereof has been given by other means, to students generally or to the student charged with misconduct, before the misconduct is alleged to have taken place.

6. No student shall
(a) knowingly fail to identify himself if required or to comply with such directions as may be reasonably made by the Vice-Chancellor, the Registrar, any Professor, member of the Senate, or Lecturer in order to maintain good order and discipline;
(b) knowingly fail to comply with any reasonable direction given to him by the person in charge of a group of students going to, engaged in, or returning from a field trip or any other academic activity conducted by the University beyond the University precincts, or, while, a member of such a group, do anything which would constitute misconduct if done within the University precincts;
(c) fail to comply with any specific Departmental or Faculty Regulation in regard to appropriate dress in relation to safety or to professional courses;
(d) bring or consume alcoholic liquors within the precincts of the University for other than official functions except with the permission of the Senate. Permission for alcoholic liquors to be consumed at other functions will be subject to the following conditions
(i) where the function is held in a lecture theatre, reading room, seminar room, staff study or staff common room, one senior member of the staff shall be present throughout the function;
(ii) where the function is held within the facilities under the control of the Student Union Management Committee, a senior member of the staff or a member of the Student Executive or a member of the Student Union Management Committee shall be present throughout the function;
(e) post student notices elsewhere than on the permanent notice boards provided for this purpose, and in accordance with the conditions laid down by the Student’s Association.

7. The person in charge of a class may reprimand, or exclude from not more than three successive meetings of the class, any student whom he considers guilty of misconduct in class. Any exclusion from more than one meeting of the class under this Regulation shall be reported promptly to the Vice-Chancellor. A student reprimanded or excluded under this Regulation may appeal to the Vice-Chancellor or to the Senate for the matter to be reviewed. The Vice-Chancellor may suspend the operation of an order for exclusion from class until the appeal has been heard and determined.

8. The Senate shall have power
(a) to impose on any student who does not observe the provisions of these Regulations; or the conditions (if any) attached to his attendance at classes pursuant to Regulations 4 and 16 hereof; or any direction given under Regulation 11 hereof; or who otherwise commits any breach of University discipline; any one or more of the following penalties as it thinks fit
(i) such sum by way of restitution as may be appropriate for any damage so caused;
(ii) a fine not exceeding $100;
(iii) a suspension from attendance at the University or any of its classes for such period as it thinks fit;
(iv) expulsion from the University;
(v) a limitation or prohibition on his attendance at any class or classes at the University or his use or enjoyment of any of the facilities of the University;
(b) to withhold the granting of terms to any student who is in default with any payment due by him to the University under these or any other Regulations or any Statute;
(c) to delegate the powers conferred on it by these Regulations to the Discipline Committee of the Senate without thereby preventing itself or the Vice-Chancellor pursuant to Regulation 9 hereof from exercising any such delegated power.

9. The Vice-Chancellor shall have power (subject always to Regulation 14 hereof) to exercise all the powers and authorities of the Senate under these Regulations and under the Act, including any powers delegated by the Senate to any committee of the Senate, during the intervals between meetings of the Senate or that Committee.

10. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate or Lecturer shall have power to report any student to the Discipline Committee for any breach of these regulations.

11. Any Warden shall have the power (subject always to Regulation 14 hereof)
(a) from time to time to give such directions as he reasonably thinks fit for the maintenance of
good order and discipline within the Hall under his charge provided however that all such directions shall if of general application be exhibited on the main notice board of the Hall to which they relate forthwith after they are given;
(b) to impose as he thinks fit on any student who does not observe any of the directions so given, any one or more of the following penalties.
(i) such sum by way of restitution as may be appropriate for any damage so caused;
(ii) a fine not exceeding $50;
(iii) a suspension from attendance at the Hall for such period as the Warden thinks fit;
(iv) expulsion from the Hall.
12. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate, or Lecturer may, in addition to reporting any breach of these Regulations to the Discipline Committee, order any student to pay the cost of replacing or repairing any University property lost damaged or destroyed by reason of the wilfulness, negligence, or misconduct of that student. Any penalty so ordered shall be paid within 14 days.
13. The Executive of the Students' Association shall (without prejudice to the powers of the Senate under s. 34(3) of the Act) have power of disciplinary control over students within the Student Union Buildings or the precincts of the Student Union Buildings and in exercise of that power may
(i) impose a fine not exceeding $25 on any student guilty of any act prejudicial to the maintenance of discipline therein, and
(ii) (whether or not in addition to imposing a fine) order any student to pay as a penalty the cost of replacing or repairing any property therein lost damaged or destroyed by reason of the wilfulness, negligence, or misconduct of that student.
14. (a) All fines and other penalties imposed under Regulations 9, 11 and 12 hereof or by the Discipline Committee under powers delegated to it under Regulation 8 hereof shall forthwith be reported to the Senate by the person or body imposing them.
(b) Any student on whom a fine or other penalty is imposed under Regulations 9, 11 and 12 hereof under powers delegated under Regulation 8 may within seven (7) days of imposition of that penalty, by giving notice to the Registrar in writing, appeal to the Senate against it. The Senate may hear and determine an appeal in such manner as it thinks proper.
(c) Any student who suffers any penalty under these Regulations by a decision of the Senate or the Discipline Committee of the Senate or the Executive of the Students' Association or whose appeal under the preceding clause of this Regulation is dismissed by a decision of the Senate may within seven (7) days of that decision, by giving notice to the Registrar in writing, appeal against it to the Council which may hear and determine the appeal in such manner as it thinks proper. The decision of the Council shall be final.
15. (a) The grounds of Old Government House are open to all members of the University for their individual use for the purpose of quiet recreation;
(b) No organised group activities will be permitted in those grounds without the specific permission of the Vice-Chancellor, acting on behalf of the Council, given in each case and in such terms as are appropriate;
(c) Members of the University may bring guests into the University grounds but not into the grounds of Old Government House except in terms of clauses (a) and (b) above;
(d) At all times, and more particularly at night, members of the University and their guests shall act in such a way as not to cause disturbance or inconvenience to those living in the grounds (both occupants of Old Government House and members of the custodial staff), or to residents in the immediate neighbourhood.
Notes: (i) If the above requirements are observed, no time limit on the use of the grounds will be necessary, nor shall there be any need for the Police to be on the campus by invitation or otherwise.
(ii) Members of the University while in the grounds are free to observe demonstrations which may occur in the adjoining streets, but they are reminded that the Statutory and Common Law powers of the Police enable the Police to enter the University campus and to take appropriate action in relation to offences committed thereon and to prevent a breach of the peace.
(iii) Whenever it appears likely that demonstrations of the kind mentioned in note (ii) above will occur, the Vice-Chancellor shall consult with the appropriate representatives of staff and students.
(iv) Any privileges of staff, students, and their guests in respect of the use of the grounds may be withdrawn by the Vice-Chancellor, acting on behalf of Council; the Vice-Chancellor shall report the circumstances to the next following meeting of the Senate and Council.
16. (a) No member of the Security Service enrolled as a student at the University shall carry out any inquiries into security matters within the precincts of the University.

1976 Calendar
The proposed attendance of a member of the Security Service at the university shall be discussed between the Security Service and the University Authorities before his enrolment.

17. After the discussions contemplated in the preceding sub-clause 16(b) have been held, the Senate shall determine each year what special conditions (if any) as to attendance at classes shall apply to students who are members of the Security Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.

18. Nothing in these Regulations shall prejudice the rights and remedies of the University under the general law in respect of the misconduct or negligence of any student.

THE LIBRARY

The University Library was established in 1884 with a grant of £37 for books which were to be 'bought in England and uniformly bound in full calf with golden lettering'. Since then the Library has grown into a collection of more than 500,000 volumes, excluding thousands of unbound periodicals, pamphlets, and reprints. Over 9,000 periodical titles are currently received. The Library has benefited by a number of generous gifts among them being the collection of books in Classics and Old Testament Literature bequeathed by the late Professor A. C. Paterson and an extensive collection of material relating to the Labour movement in New Zealand and other countries presented by Mr P. W. G. McAra.

The University Library comprises the General Library in the Library Building on the corner of Princes Street and Alfred Street, divisional libraries in Architecture, Asian Languages, Biological Sciences, Engineering, Fine Arts, Geography, Geology, Law, Medicine, Music, Science. In addition there are departmental reading rooms in a number of subjects. The General Library contains most of the books needed for undergraduate reading in arts subjects. It also contains more advanced material in Accountancy, Anthropology, Education, Geography, History, Languages and Literature, both classical and modern, Philosophy, Psychology.

A separate Undergraduate Reading Room has been opened in the former Ballroom of Old Government House. This contains 140 seats for readers and a collection of works in heavy demand.

More information about the Library, its services and organisation, can be found in the Library Guide and in the pamphlet Books and reading accommodation in the University of Auckland. These are available from the Reference Desk in the General Library. Library tours are offered during the week preceding enrolment and during the first week of lectures. Readers are encouraged to seek assistance throughout the year from Reference Department staff.

LIBRARY REGULATIONS

1. These regulations may be cited as the Library Regulations 1970 and shall come into force on 1 January 1971.

2. Except where otherwise stated
   (a) these regulations shall apply to all sections of the University Library, that is, the General Library, Undergraduate Reading Room, Architecture, Asian Languages and Literature, Biological Sciences, Centre for Continuing Education, Engineering, Fine Arts, Geography, Geology, Law, Medicine, Music, and Science, and such other sections as may be added by the Senate;
   (b) in these regulations 'books' includes all types of printed, written and photographic material, and (except where the context otherwise requires) gramophone records and tapes.

Hours of Opening
(General Library only)

3. The hours of opening shall be:

The Library shall be open on Sundays during the second and third terms from 9 a.m. to 5 p.m. for study purposes but no lending services shall be available during those periods.

The Library shall be closed on Anniversary Day, Good Friday, Easter Saturday, Easter Sunday, Easter Monday, Anzac Day, Queen's Birthday, and for the period of three weeks from and including Christmas Eve.
These hours may be varied at the discretion of the University Librarian and any variation shall be appropriately notified in the General Library.

Readers
4. (a) All members of the University* ordinarily resident in New Zealand and of its library and administrative staff shall be readers for the purpose of these Regulations and may
(i) use all sections of the Library; and
(ii) on completion of such registration formalities as the University Librarian requires, borrow books from it; provided that no person shall be deemed an undergraduate member of the University unless he is currently enrolled as such.
(b) By special permission of the University Librarian any person not included among those authorised by clause (a) of this Regulation may be a reader and accorded full or partial use of Library facilities.
(c) The University Librarian may at any time require from any reader as a condition of that reader's use of the Library and borrowing facilities that he pay to the University a sum of not more than $15 as a deposit to be applied in payment or part payment of any sum for which he may become liable under regulation 6 (d). Any balance of the deposit shall be refunded on the termination of his use of the library.

Borrowing
5. (a) No reader shall borrow any book otherwise than in accordance with these regulations.
(b) (General Library only). Books may be borrowed whenever the General Library is open except on Sundays and such public holidays as the University Librarian may determine; but no books shall be issued after 9 p.m. on Monday to Friday, or after 4.30 p.m. on Saturdays. The hours during which books may be borrowed may be varied at the discretion of the University Librarian.
(c)(General Library only). Borrowers shall write their name and address clearly and legibly on the book card of each book and present book and card at the exit for stamping along with their identity card. The address given shall be that to which any notices should be sent. The desk assistant shall stamp the book with the date on which it is to be returned.
(d) Any person on leaving the Library shall on demand present all books and personal property for inspection.
(e)(General Library only). Any book on the open shelves which has a book card and date slip may be borrowed until the next end of term or for such shorter periods as the Librarian may decide. Borrowers shall be required to check the date stamped in the book by the desk assistant. Glass case books without ‘not to be borrowed’ labels may be borrowed for a fortnight only. All other materials shall be used only in the Library except that Teaching Staff and Postgraduate Students may borrow bound volumes of periodicals for fourteen days, and theses for fourteen days.
(f) Books from any section of the Library other than the General Library shall be borrowed direct from that Section.
(g) All books shall be subject to recall within 24 hours. Failure to respond to a recall notice within 24 hours shall incur a fine of 25c plus 25c for each further notice. After three notices a letter may be sent to the borrower requiring return of the book and if such a letter is sent the fine shall be increased to $2. Other books retained beyond the date for return stamped on the date slip incur a fine of 5c per day, whether a notice has been sent or not.
(h) The librarian shall be under no obligation to notify borrowers when books are overdue and a fine may still be charged when books are returned after the date stamped, even though no notice has been received.
(i) Borrowers who wish to renew a book on limited loan for a further period may apply by letter (giving author, title and call number on the spine of the book) or in person, or (in the case of theses, periodicals or glass case books) by telephone. Renewal will be refused if the book is reserved, and may be refused at the discretion of an authorised librarian. At the end of term, all outstanding books shall be returned or presented for renewal at the Lending Desk. They cannot be renewed by letter or by telephone at this time.
(j) Readers may reserve for borrowing one book a day by filling in a reservation card at the Lending Desk. The length of loan allowed shall depend on the number of other readers who are also waiting for the book. Late return of limited loan reserved books shall incur a fine of 25c per volume plus 25c for each notice sent requiring a return of the book.
(k) Books which are in heavy demand may be kept behind the Lending Desk. These Desk Copies shall be available for a specified period (advertised in the Library concerned) on surrender of the

*Members of the University includes the University Council and all professors, lecturers, and junior lecturers, and all graduates and enrolled undergraduates of the University.
reader's identity card and may not be removed from the Library except in the case of overnight loans. Failure to return Desk Copies on time shall incur a fine of 25c per volume for each quarter hour or part of a quarter for which the book is not returned.

(b) Teaching staff and postgraduate students may apply to borrow books from another library through the Interloans Assistant. Such books are subject to the conditions imposed by that library.

(m) The gramophone records held in the General Library shall be available for borrowing on payment of a subscription determined by the University Librarian from time to time.*

(n) Library books may be taken out of New Zealand only with the prior permission of the University Librarian.

(o) Authorised librarians may refuse to issue excessive numbers of books to any one reader.

**Discipline**

6. (a) Bags, satchels and briefcases shall not be taken into the Library.

(b) Under no circumstances shall a book be passed on to another reader without being re-issued in that reader's name. Where this regulation is broken the reader in whose name the book is issued shall remain liable for all fines payable by reason of failure to return a book which is overdue or recalled.

(c) Every reader shall immediately notify to the Library any change of his address and thereupon renew the borrowing of all books issued to him.

(d) Readers shall be responsible for, and shall make good, any loss of or damage to books on loan to them or being used by them in the Library. In addition to the cost of replacement readers may be charged an administration fee of $2 whether or not the book is subsequently returned. The loss of a book shall be reported immediately to an authorised librarian.

*Current rates are: Students $5 (reduced to $4 for enrolled music students); staff and graduate borrowers $6.

(e) No reader shall deface or mark any book.

(f) The reservation of seats in the Library shall not be permitted. Books and any other articles left for any length of time on chairs or tables may be removed by any of the Library staff. No responsibility is accepted for personal belongings left in the Library.

(g) Silence shall be observed in all public reading areas.

(h) Bottles of ink shall not be brought into the Library.

(i) No reader shall smoke or shall consume food or drink in any part of the Library open to readers.

(j) A warning signal will be given 15 minutes before closing time and all readers shall vacate the Library by closing time.

(k) Library fines or charges amounting to $1 or more, bills and disciplinary fines shall be paid to the University Cashier in the Old Arts Building. Fines of less than $1 may be paid at the Lending Desk of the Library concerned.

(l) Where a fine or charge is not paid within 14 days of becoming due

(i) the University Librarian may withdraw library privileges from the reader in default for such period as he thinks fit;

(ii) the Senate may impose on the reader any of the following penalties; refusal of terms; withholding of examination scripts; refusal of re-enrolment for the next academic year; disqualification from graduation.

(m) No reader may borrow from the Library while any fine or charge payable by him is outstanding.

(n) Any authorised librarian may require any reader who is guilty of disorderly or improper conduct or of any breach of these regulations to withdraw from the Library and the University Librarian may withdraw library privileges from that person for such period as he thinks fit. Nothing in these regulations shall limit the application to the Library (where relevant) of the Disciplinary Regulations 1972.

Note: The unauthorised borrowing or removal of books is regarded as a serious disciplinary offence.

**Copyright**

7. Every reader using copying facilities in the Library shall duly comply with the laws on copyright.

Note: (i) Readers are warned that if a copyright work is copied the copying must be a 'fair dealing for the purpose of research or private study only' to comply with the laws on copyright.

(a) No more than one copy of the work must be taken.

(b) No whole copyright work by any author can be copied.
(c) Single extracts must not exceed 4000 words. If a series of extracts is required, each extract must not exceed 3000 words to a total of 8000 words. In neither case must the total amount copied exceed 10% of the whole work.

(ii) These rules apply to coin-operated copying machine and not to photocopying supplied by librarians.

(iii) Failure to observe these rules may be treated as a breach of discipline. Users who are in doubt as to whether an item is in copyright should consult a member of the Library Staff.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ARTS

BA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Arts shall follow a course of study of not fewer than three years.

2. The course of study for the Degree shall consist of twenty-two papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II, and III.

3. Every course of study shall include at least fifteen papers selected from subjects in Group A in the Schedule.

4. Every course of study for the Degree shall include
   (a) at least six papers in one subject of which three are at stage III level;
   (b) at least twelve papers higher than stage I level selected from two or more subjects;
   (c) no more than eleven papers in any one subject.

5. Every course of study shall consist of five subjects:
   provided that, in exceptional circumstances, the Senate may, upon the recommendation of the Heads of the Departments in which the candidate proposes to take advanced papers, approve a course consisting of four or more than five subjects.

5. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

Requirements for Particular Subjects

7. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Science shall comply with such of the course regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.

Botany, Chemistry, Geography, Mathematics, Physics, Zoology

8. (a) A candidate may with the permission of the Senate enrol for stage II papers of a subject to which this regulation applies without having been credited with the stage I papers. If a candidate is credited with stage II papers he shall not also have the stage I papers of the subject credited to his course. If the examiner certifies that the candidate though failing a stage II paper or papers, attained the standard of a pass at stage I of the subject, the candidate shall have the appropriate stage I paper or papers credited to his course.

(b) This Regulation applies to the following subjects:

Botany, Mathematics
Chemistry, Physics
Geography, Zoology

Chinese, Indonesian, Japanese

9. (a) A candidate with previous knowledge in any subject to which this Regulation applies may be required by the Senate to take stage II papers of that subject without having passed stage I papers. If the candidate passes stage II papers he shall be credited with stage II papers but shall not be credited with stage I papers as papers for any University degree or diploma. If the examiner certifies that the candidate though failing a stage II paper or papers, attained the standard of a pass at stage I of the subject, the candidate shall have the appropriate stage I paper or papers credited to his course.

(b) This Regulation applies to the following subjects:

Chinese, Indonesian, Japanese

Law

10. (a) This Regulation applies (notwithstanding the provisions of Regulations 2, 3, 4, 5 and 6) to a candidate for this Degree who has been credited for this Degree with not less than fifteen papers (in this Regulation called ‘arts papers’), of which three are at stage III level and six others are at a higher level than stage I.

(b) Where the candidate:
(i) has been credited with fifteen arts papers and
(ii) has been credited for the degree of LLB or LLB (Hons) with five subjects from those listed in Parts I and II of the Schedule to this Regulation, of which at least two are from Part II — he shall be entitled to be credited with those five subjects as the remaining seven papers for this Degree.

(c) Where the candidate:
(i) has been credited with more than fifteen but less than twenty-two arts papers and
(ii) has been credited for the Degree of LLB or LLB (Hons) with one or more subjects from those listed in Parts I and II of 10(f) below
then, if the Dean of the Faculty of Arts deems the subject or subjects (so credited) to be of sufficient weight, the candidate shall be entitled to be credited with it or them as the remaining paper or papers for this Degree.

(d) The subjects so credited under this Regulation shall be admitted as additional cross-credits for the purpose of Regulation 10(a) of the Enrolment and Course Regulations (General).

(e) A candidate who has completed or is completing his course for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) under the Regulations published in the University of Auckland Calendar 1966, and who invokes this Regulation, may be credited with the subject Constitutional and Administrative Law in place of the subject Constitutional Law.

Music
11. (a) Every candidate intending to advance in music (that is to enrol for any papers in music for this Degree beyond Stage I level) shall before an enrolment in his Stage I papers in Music satisfy the Head of the Department of Music that he has attained a suitable standard in music.
(b) Except with leave of the Senate, no candidate may advance in music unless he has satisfied the provisions of sub-clause (a) of this regulation.

Oral Work
12. In each of the subjects Chinese, Indonesian and Japanese a candidate shall be required to pass in the oral work as well as the written papers.

Credit for Teachers College Students
13. A student who has successfully completed in or after 1974 a three-year course at a Teachers College under the control of the Auckland Teachers Colleges Council, may, with the approval of Senate, be granted credit for up to four unspecified Stage I papers towards this degree. Any credits granted under this regulation shall count as one unspecified subject in Group B in the Schedule to these Regulations.

14. The Senate may in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

15. (a) Except as otherwise provided in this Regulation, the course of study of every candidate shall be governed by these Regulations.
(b) A candidate who gained credit in any unit or units under any of the former Regulations for this Degree, shall be credited with such equivalent paper or papers as the Senate shall determine.
(g) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these regulations, shall be determined by the Head of the Department concerned.

16. These Regulations shall come into force on 1 January, 1974.
Schedule
1. This Schedule sets out paper numbers, prerequisites, corequisites, subjects, restrictions and other conditions applying to courses for the Degree of Bachelor of Arts.
2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. (a) The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year. Except as provided elsewhere in these Regulations or in this Schedule, if a corequisite of a paper is failed then the paper passed cannot be used as a prerequisite to other courses.
   (b) Except as provided elsewhere in these Regulations or in this Schedule, the corequisite marked ** in the Schedule are linked in the sense that they (i) must be attempted in the same year and will not be credited separately.
   (ii) will be treated as a unit for the purpose of Examination Regulation 5 (b), of the Examination Regulations.
5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

THE DEGREE OF MASTER OF ARTS

MA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations; for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Arts shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Arts, except as provided in Regulation 2 below, and
   (b) (i) have obtained either a grade higher than C — in each Stage III paper in the subject in which he proposes to attempt MA or, if those papers are taken concurrently an average grade higher than C — and, (ii) have fulfilled the prerequisites for his subject as listed in the Schedule to these Regulations provided that in special circumstances where the Head of Department so recommends the Senate may for the respective purposes of this Subclause (b) of these Regulations, accept a C — pass or waive such prerequisites as it thinks fit.

2. Subject to the Admission Ad Eundem Statum Regulations, a candidate may enrol for this Degree after having completed at least twenty papers, including 12 papers at advanced level, for the Bachelor of Arts Degree, provided that
   (a) his proposed course for this Degree will extend over not fewer than two academic years;
   (b) he has obtained grades averaging B- or above in the advanced papers for the Bachelor of Arts Degree of the subject which he proposes to take for this Degree;
   (c) he satisfies the conditions "in Regulation 1(b) above, or is exempted from them;
   (d) the remaining paper or papers for the Bachelor of Arts Degree are not in the subject which he proposes to take for this Degree nor prerequisite to it;
   (e) he enrols for these two papers in the first year of his course for this Degree;
   (f) should he not pass the remaining paper or papers in the first year of his Master of Arts course, his Masters course shall be suspended until he has passed the remaining paper or papers.

3. Except as provided elsewhere in these Regulations and in the Schedule a candidate shall take all papers required for this Degree in the same year. The Senate may require a candidate not devoting his full time to University work to take a prescribed course of studies for two years before taking the examination for any papers.

4. A candidate presenting subject 18, Languages and Literature, shall satisfy the requirements of Regulation 1(b)(i) in respect of each of the languages in his course. A candidate presenting subject 20 Mathematics, shall satisfy the requirements of Regulation 1(b)(i) in respect of Mathematics and Applied Mathematics.

5. A candidate shall be required to fulfil the requirements and pass the examination in one of the subjects prescribed in the Schedule.

6. Notwithstanding anything in Regulation 5, a candidate for this Degree may with the permission of the Senate take (i) one Stage III or one Master's paper or (ii) one Stage III and one Master's paper or (iii) two Master's papers, in a subject other than the one in which he is taking his Degree, if each such paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.

7. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.

8. The personal course of study of every candidate must be approved by the Head of Department.

Theses

9. Where a thesis is required the following conditions shall apply:
   (a) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch of the subject; or with the approval of the Senate shall consist of a review of the literature of some special problem, which may be combined with the repetition of some standard investigation on an aspect of that problem.
(b) In the case of a thesis recording laboratory work, a certificate shall be supplied to the Registrar by the supervisor stating that laboratory work has been carried out within the University.

(c) Subject to the provisions of Subclause (f) of this Regulation, the candidate may present his thesis in the year in which he takes his examination or with the consent of the Head of the Department concerned, in any subsequent year.

(d) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or at a subsequent date if so arranged with the Head of his Department. The Registrar shall deliver the thesis to the Head of the Department concerned.

(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

(f) A candidate shall present his thesis within three years of the year in which he takes the papers, provided that the time may be extended, in exceptional cases, by the Senate.

Note: An abstract is to be submitted with each copy of a thesis, dissertation, or research essay, see Examination Regulation 14.

Honours
10. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall still be eligible for the award of Honours, subject to the provision of Subclause (c) of this Regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree: Provided that the time may be extended, in exceptional cases, by the Senate. For the purpose of this Subclause, the academic year is deemed to begin on 1 March.

11. A candidate shall not take for this Degree a subject in which he has already passed for the Degree of Master of Commerce, or for the Degree of Master of Science, or as a principal subject for the Degree of Bachelor of Science (Honours).

12. The Senate, upon the recommendation of the Head or Heads of Departments concerned, may, in such exceptional circumstances as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations or to the Schedule below.

Schedule
(1) Ancient History

Prerequisites: Eight papers in the subject of Ancient History including three Stage III papers OR three stage III papers of Latin or Greek together with six papers of Ancient History.

Requirements: Four papers and a special subject which counts as two papers and an essay which counts as one paper.

The papers shall be selected from 12.400, 12.402 to 12.409; the special subject shall be selected from 12.500 to 12.503.

Notwithstanding anything in Regulation 3 a candidate shall present three or four papers in the first year and the remaining paper (if any), the special subject and essay in the year next following.

(2) Anthropology

Prerequisites: (i) Either eight papers including three Stage III papers of Anthropology;

(ii) or with the special permission of the Senate, three papers in Maori Studies III or three papers in Linguistics III and five papers in Anthropology.

Requirements: Five papers and a research essay which counts as one paper; or four papers and a thesis counting as two papers:

The papers shall be selected from 03.400 to 03.411, 03.300 to 03.324, 83.300 to 83.307, 04.300 to 04.305 with no more than three papers from the following group of papers: 03.300 to 03.324, 83.300 to 83.307, 04.300 to 04.305.
Notwithstanding anything in Regulation 3 a candidate may, with the permission of the Head of
the Department, present four papers in the first year and one paper and a research essay in the
second year; or, in the case of a part-time student, present three papers in the first year and either
two papers and a research essay or one paper and a thesis in the second year.

(3) Art History

Prerequisites: Eight papers in the subject of Art History including three Stage III papers plus a
pass in Stage I of Greek, Latin or a modern European language other than English.
Requirements: Four papers and a thesis which counts as three papers.
The papers shall be selected from either papers 19.400 to 19.405 and one paper from options
prescribed for Art History III; or two of papers 19.400 to 19.405 and two papers from options
prescribed for Art History III; provided that no paper that has been credited to the degree of
Bachelor of Arts shall be taken for this Degree, and that papers 19.305 and 19.401 may not both
be taken for this Degree.

(4) Chinese

THE DEGREE OF DOCTOR OF LITERATURE

LittD

General Provisions
1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Literature shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Literature until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Literature shall be awarded for an original contribution (or contributions) of special excellence to linguistic, literary, philosophical, social or historical knowledge.

4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with
(a) Three copies of the work to be examined;
(b) A statutory declaration which shall
(i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
(ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure
7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall
(a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and
(b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may
(a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
(b) elect to proceed with the examination.

9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may, in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.
(b) The contents of the Moderator’s report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:
(a) to report independently on the quality of the work and its value as a significant contribution to learning; and
(b) to recommend whether or not the degree should be awarded, provided that where the
recommendation is that the degree should not be awarded by the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

BIOLOGY FOR BA

This is a stage I course for students who do not plan to take a science degree. The course is intended as a general survey of the biological sciences, with elementary chemistry, physics and mathematics being introduced as necessary. The course cannot be used as a prerequisite for advanced Botany or Zoology. Weekly attendance at one 2-hour laboratory is required. Enrolment is through the Zoology Department at the allotted time for Science courses.
39.111 Unifying Concepts in Biology
Given during the first half of the year, with some lectures in conjunction with Biology 101 (Central Concepts in Biology).
Cell Structure; Energy relationships: photosynthesis and respiration; Molecular Biology: control of synthesis of nucleic acids, proteins and macromolecules; Genetics: mechanisms of inheritance; Organic Evolution; Basic principles of ecology.
39.112 Biological Diversity and Function
Presented during the second half of the year. Resume of the Plant and Animal Kingdoms, with emphasis on human importance; Elementary Plant and Animal Physiology and Development.
DEPARTMENT OF CLASSICS

The Department of Classics includes five subjects. Latin, Greek and Ancient History are taught to MA with Honours level, Hebrew and Biblical History and Literature at Stage I only. Hebrew II and Biblical History and Literature II will not be available until further notice. Students should note that in the Classics Department all the language papers at Stages I and II, and the basic papers at Stage III, are normally linked to other papers and must be taken, and passed, concurrently; the Ancient History papers may all be taken individually by students with the necessary prerequisites and corequisites, but students wishing to advance beyond Stage I should plan their courses carefully in consultation with a member of Staff.

An MA with Honours in Latin and Greek (Combined Honours) requires that students pass Latin III and Greek III before enrolling in their MA year. Students planning this course should therefore start Latin and Greek together in their first year. Students who have taken the scholarship papers in Latin or Greek or who are sufficiently advanced in their studies may be enrolled for Stage II papers in place of Stage I papers. Such students should see the Head of Department at the earliest possible date.

One paper in Elementary Latin (09.102) is now available for those students who have not passed U.E Latin. It is intended that students with no Latin at all should be able to take this course, which is designed to lead on to Latin in a subsequent year, as well as to equip a student with the linguistic knowledge required for reading the documentary source materials needed for Ancient and Medieval History, and for Renaissance Studies in many subjects.

Students who intend to advance to MA with Honours in Latin or Greek are strongly advised to enrol for the other as well in their first year. The prerequisites are stated on pages 142, 144 of this Calendar. Students who intend to advance to MA with Honours in Ancient History are advised that part of the course involves studying original documents in at least one of the languages Egyptian, Akkadian, Greek, Latin. Those who wish to take the Greek and Latin options should enrol in Greek I or Latin I papers in their first year; as much of the scholarly work on Ancient History (especially Egyptian and Akkadian subjects) is in foreign languages, students planning to take these options should enrol for German I and French I papers, in their first year preferably.

Students should note that Greek III and Latin III may be used as the Stage III prerequisite to Ancient History MA with Honours provided that six Ancient History papers have been passed (see page 140 of this Calendar).

Students who intend to take Latin or Greek are advised that Ancient History papers, at least in the field relevant to their language, will be most useful, especially for those advancing beyond Stage I, since outlines of Roman (Greek) History are now no longer taught within the language courses. Students considering enrolling for any subject in the Department are strongly advised to come and see a member of staff during the pre-enrolment period. External students should consult the Department as early in the year as possible.

Latin I

The scope and methods of educational research, experiment, and evaluation, including related statistical procedures.

14.410 Principles and Practice of Counselling
An advanced examination of counselling principles, together with practical experiences in selected counselling procedures.

†14.411 The Process of Educational Planning
The course falls into two parts. The first, which is severely practical, consists in the evaluation of a current local plan to develop educational institution or a system of institutions, or a region. Emphasis will be placed on the development of technical planning skills.
The second part involves examination and evaluation of methods and techniques.
14.412 Behaviour Analysis in Education
An examination of the application of behaviour analysis techniques to contemporary problems in education, including supervised research and field experience.

Thesis
A candidate presenting a thesis, dissertation or folio of case work shall forward it to the Professor of Education, not later than 1 November in the year in which it is to be examined. A research seminar will be held once a week during the first half of the year for those preparing to write MA thesis.
A timetable for these seminars will be available at enrolment.

DEPARTMENT OF ENGLISH
Notes (i) Since the supply of text-books continues to be uncertain, some changes in courses may be unavoidable. Students will be notified of any such changes at the beginning of the academic year.
The books mentioned in the appendix are prescribed books — i.e. those which students must have. Students should obtain from the department the fuller version of prescriptions and book lists, which include recommended books (i.e. additional to those prescribed); and also lists of further prescribed books which are required for those papers not mentioned in the appendix.
All students should possess a good Dictionary; the Concise Oxford is recommended.
(ii) Students intending to take English as a major subject will find that the subjects which combine most appropriately with it are: any foreign language (including Classics) or Maori Studies, History or Philosophy or Art History or Biblical History and Literature or Linguistics. Attention is directed to the MA prerequisites, as set out in the regulations for that degree. Students intending to do MA in English should plan their courses with these requirements in mind:

English I
Students take either 18.100 or 18.102 which deal with the literature of historical periods, and either 18.101 or 18.103 which deal with recent and contemporary literature. Each course involves one lecture per week for the whole year, and one lecture per week for half the year, with tutorials.

- 18.100 Introduction to Chaucer, Shakespeare and the Study of Language
- 18.101 Twentieth Century Literature
- 18.102 The Age of Shakespeare and Milton
- 18.103 New Zealand Literature

English II
Three papers must be taken: see BA Schedule. Each paper involves one lecture per week; tutorials are also given.

- 18.200 Mediaeval Literature: Chaucer’s Contemporaries and either Chaucer or Early English
- 18.201 English Language and Chaucer
The Chaucer section is available only to students who have not passed 18.100
- 18.202 The Age of Pope and Johnson
- 18.203 The Age of Wordsworth
- 18.204 Shakespeare: Tragedies
The course will also include a brief introduction to the textual study of Shakespeare.

English III
The usual course consists of a minimum of three papers, and a maximum of six papers. Normally students must take one paper from 18.300-18.304, one from 18.310-18.313, and one from 18.320-324. For details, and for courses involving other subjects, see BA schedules, and also the MA prerequisites (p. ). Students should consult the department at or before enrolling to obtain approval for their courses. Each paper involves one lecture per week, with tutorial work as arranged.

- 18.300 The English Language from Chaucer’s day to the present
- 18.301 Old English Literature
- 18.302 Middle English Literature
Prerequisite: 18.200
18.303 The Linguistic Analysis of Literature  
Prerequisite: 18.201.

(2) Combined Honours — English with another language
Students will select three or four papers (set out above for Single Honours) as approved by the Heads of Department concerned.

1976 Calendar
DEPARTMENT OF GEOGRAPHY

Geography I

Two papers are offered for Geography I — they may be taken separately or together — but students planning to advance in geography should enrol in both. Practical work, tutorials and field excursions form an integral part of the two courses and a satisfactory performance in these is required. It is recommended that all geography students should have an atlas, such as Philips' University Atlas, Oxford Atlas, Goode's World Atlas, Bartholomew's Advanced Atlas of Modern Geography, Aldine University Atlas. A list of recommended books for each of the papers is available from the departmental secretary.

20.101 Introductory Physical Geography
The paper provides an introduction to climatology/meteorology, geomorphology, biogeography and soils.

20.102 Introductory Human Geography
Population growth, migration, urbanisation and economic development: their impact on spatial organisation and resource use.

Geography II

Four papers are offered for Geography II — they may be taken separately — but students planning to advance in geography should enrol for 20.201, 20.202 and either 20.203 or 20.204. A list of recommended books for each of the papers is available from the departmental secretary.

20.201 Physical Geography
This paper focuses on the major principles of biogeography, soil geography and fluvial geomorphology.

20.202 Human Geography
Principles of population analysis, urban and economic geography.

20.203 Remote Sensing
Photogrammetry, photo interpretation and an introduction to more recent techniques of remote sensing and their application.

20.204 Statistical Analysis in Geography
An introduction to elementary statistical methods for the non-mathematical student. The course covers descriptive statistics and the testing of simple statistical relationships.

Geography III

In 1976 it is expected that at least seven papers will be offered for students wishing to do advanced work in geography. Each paper will involve at least two hours of lectures, seminars or laboratory work per week, but students must also attend such additional practical work and fieldwork as may be required. The Geography of New Zealand paper (20.301) will require attendance at a field course of at least eight days duration. A list of recommended books for each of the papers is available from the departmental secretary.

20.301 Geography of New Zealand

†20.302 Man's Role in the Environment
A selected survey of the impact of man's technology on resources and the environment.

20.303 Advanced Physical Geography 1
For 1976: Geomorphology

†20.304 Advanced Physical Geography 2

20.305 Advanced Human Geography 1
For 1976: Social geography

20.306 Advanced Human Geography 2
For 1976: Principles of location and regionalisation in economic geography.

20.307 Remote Sensing
This paper is identical to paper 20.203.
20.308 Statistical Analysis in Geography
This paper is identical to paper 20.204.
20.309 Special Area Studies 1
*20.310 Special Area Studies 2
*20.311 Special Systematic Studies 1
†20.312 Special Systematic Studies 2
20.313 Advanced Statistical Analysis in Geography
An examination of multivariate methods and spatial statistics.

Geography for MA, MSc, and Honours
(Four papers and a thesis (20.601))
At least seven papers will be offered in 1976. Students will be required to select any four of the papers set out below. A list of recommended books for each of the papers is available from the departmental secretary.

20.400 History and Nature of Geography
20.410 Geography of the Southwest Pacific
*20.411 Geography of a Special Area
20.420 Biogeography
†20.421 Climatology
20.422 Geomorphology
An advanced course on karst, coasts and drainage basins emphasising current research and quantitative methods.
†20.423 Soil Geography
†20.424 Hydrology
Hydrology and fluvial geomorphology
20.430 Agricultural Geography
Principles of land use competition and characteristics of systems of agriculture with emphasis on developed economies.
*20.431 Historical Geography
20.432 Industrial Geography
A critical appraisal of the principles of growth and location of manufacturing organisations.
*20.433 Political Geography
20.434 Population Geography
Analysis and applications of the methods and materials of demography.
†20.435 Transport Geography
20.436 Urban Geography
The emphasis of the course is on the evolution of urban systems and contemporary urban problems.
20.440 Special Topic
For 1976: Remote Sensing. An advanced study of remote sensing applications involving analysis of a range of recent imagery and data.
†20.441 Special Topic

Asian Geography
†20.130 The Geography of East Asia
20.140 The Geography of Southeast Asia

1976 Calendar
Information about the Department is contained in the Departmental Handbook and the Handbook of the Faculty of Arts, both of which are available from the University Office.

Students intending to take MA course should at all stages throughout their undergraduate studies consult the Head of Department concerning their degree structure, and should note carefully in the Departmental Handbook the strong recommendations concerning related subjects.

German I

Most students enrolling for German I have studied German previously. They are divided, on the basis of their knowledge, into streams. Each stream has five hours of teaching per week.

Students may enrol without previous knowledge of the subject. Such students will receive a total of six hours of teaching per week throughout the year.

A candidate's result will be determined over two papers. Papers 22.100 and 22.101 are linked corequisites — see BA schedule.

22.100 Language acquisition
Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.101 Literature and texts
Selected works of German literature for translation and comment. Literary criticism. Oral use of German.

Recommended course: All students from Stage I to Honours are strongly recommended to attend a course of six lectures (time and place to be announced) entitled Aspects of German Thought from Lessing to Karl Marx.

In determining the final result, the candidate's performance during the year and in particular his performance in class tests on the translation of prescribed texts, will be taken into consideration.

German II

A candidate's result will be determined over the three papers. Papers 22.200, 22.201 and 22.202 are linked corequisites — see BA Schedule.

22.200 Language acquisition
Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.201 Aspects of German literature and language from the Middle Ages to the 18th Century

22.202 Aspects of 20th Century German literature

Recommended course: All students from Stage I to Honours are strongly recommended to attend a course of six lectures (time and place to be announced) entitled Aspects of German Thought from Lessing to Karl Marx.

In determining the final result, the candidate's performance during the year, and in particular his performance in class tests on the translation of prescribed texts, will be taken into consideration.

German III

A candidate's result will be determined over papers 22.300, 22.301 and 22.302, which are linked corequisites. For the purposes of BA regulation 4(a) these three papers must be taken.

22.300 Language acquisition
Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.301 (i) Middle High German language and literature with special reference to Walther von der Vogelweide and the Nibelungenlied
(ii) 19th and 20th century narrative prose

22.302 (i) German drama with special reference to selected authors from Goethe to Hebbel
(ii) Aspects of romantic literature

Students who have passed, or are taking concurrently, papers 22.300, 22.301 and 22.302 may, with the approval of the Head of Department, take up to three of the following papers. Students not concurrently enrolled for 22.300 may be required to do further language work.

22.303 Linguistic analysis of contemporary written German

22.401 As for German MA and Honours

22.406 As for German MA and Honours
With the approval of the Head of Department, other papers prescribed for German MA and Honours may be selected. Recommendations for background reading for all papers will be circulated. Recommended course: All students from Stage I to Honours are strongly recommended to attend a course of six lectures (time and place to be announced) entitled Aspects of German Thought from Lessing to Karl Marx. In determining the final result, the candidate’s performance during the year will be taken into consideration.

**German for MA and Honours**

Students intending to enrol for MA must consult the Head of the Department towards the end of the previous year to discuss optional papers and to obtain advice on vacation reading. Recommended course: All students from Stage I to Honours are strongly recommended to attend a course of six lectures (time and place to be announced) entitled Aspects of German Thought from Lessing to Karl Marx.

(1) **Single Honours — German**

Seven papers comprising 22.400 and six others, to be selected with the approval of the Head of the Department. Students will normally be required to include either 22.401 or 22.402 and either 22.404 or 22.405. Or with the approval of Head of Department five papers and a thesis (22.601). No student may offer for MA any paper in which he has already been credited with a pass.

- **22.409** Scandinavian drama with special reference to Ibsen and Strindberg.
- **22.410** Linguistic analysis of contemporary written German.
- **22.411** An approved special topic in German language or literature.
- **22.412** An approved special topic in German language and literature.
- **22.413** An approved special topic in German language or literature.
- **22.414** An approved special topic in German language or literature.
- **22.415** An approval special topic in German language or literature.
- **22.416** An approved special topic in German language or literature.
- **22.417** An approved special topic in German language, literature, thought or history.

With the approval of the Head of Department, a thesis may be substituted for two of the optional papers. Students receiving such approval will be strongly advised to do the thesis in a second year. Every candidate will be required to pass an examination on the oral use of the language. In determining the class of Honours, the candidate’s performance in both the written papers and the oral examination will be taken into consideration.

(2) **Combined Honours — German with another language**

Three papers in German and three in the other subject, with the seventh paper selected from either subject.

Three or four papers in German as defined above for Single Honours, to be selected with the approval of the Head of the Department.
Every candidate will be required to pass an examination on the oral use of the language. In determining the class of Honours, the candidate’s performance in the written papers, the oral examination and in course work will be taken into consideration.

22.500 Preliminary German
This course (one hour per week) is designed for students who intend to present German I in a subsequent year, or who wish to acquire an elementary reading knowledge of German. A further optional hour is available in the language laboratory.

German Reading Knowledge for Science Students
22.501 Foreign Language Reading Examination (German)
This course (two hours per week) is designed for science students who intend to sit for the Foreign Language Reading Examination in German (see Degree Regulations for BSc(Hons) and MSc)

Scandinavian Studies I
Students may enrol without previous knowledge of the subject. Such students may receive a total of seven hours of teaching per week.
A candidate’s result will be determined over two papers. Papers 46.100 and 46.101 are linked corequisites — see BA Schedule.

46.100 Language acquisition

(ii) Twentieth century Swedish literature, with special reference to poetry and the novel
46.202 Scandinavian drama with special reference to Holberg, Ibsen, Strindberg and Ingmar Bergman
In determining the final result, the candidate’s performance during the year will be taken into consideration.

DEPARTMENT OF HISTORY
Fuller details concerning the Department’s teaching programme and its requirements of students are contained in a guide which all students must obtain from the Department at 1A Wynyard Street. Students are advised to call at the Department before enrolment to discuss courses and to obtain reading lists and a leaflet entitled Advice on Books to Buy. This will list recommended texts for papers for which there are no prescribed texts.

Certain optional papers offered at Stage III and MA may, at the discretion of the Head of Department, require a knowledge of a foreign language. Students intending to major in History or to go on to do an MA in History should therefore bear in mind that the lack of such knowledge may effectively reduce the number of papers open to them. The most helpful languages are likely to be French, German and Latin, but further advice must be sought from the Department.

1976 Calendar
History I

24.100 From Versailles to Pearl Harbour: issues of peace and war:
(first half of year)
This paper is concerned with the origins of the second world war in Europe and Asia. It examines the challenges Germany and Japan presented to the status quo and considers the outcome.

24.101 The Russian Revolution
(first half of year)
The Origins of the 1917 revolution and the development of Russian society from Alexander III to Krushchev.

24.102 Imperialism and Neo-Colonialism
(first half of year)
This paper will discuss the imperialist expansion of the late nineteenth century and the allegedly neo-imperialist relationship between the Great Powers and the former colonial territories in the post-independence period. It will include some case-studies.

24.103 Fascism in the inter-war years
(second half of year)
A study of the nature of inter-war fascism with particular reference to the movement in Italy, Germany and Spain.

24.104 The Development of Modern Cities
(Second half of year)
This paper is a study of the emergence and growth of cities in Great Britain, the United States of America and Australia.

24.105 The U.S.A. since 1890
(second half of year)
This paper deals with the role of the United States in world affairs as well as surveying domestic, social and political developments.

24.120 Race Relations in New Zealand
(first half of year)
A study of race relations and cultural contact in New Zealand from the late eighteenth century to the present day.

24.121 New Zealand Society and Politics
(second half of year)
This paper surveys New Zealand history (other than race relations and specifically Maori history) since 1840, but with main emphasis on the period since 1870.

Note: Each of the above papers will be taught for half of the year, three lectures, one tutorial per week, in the following sequences: 24.100-24.103; 24.101-24.105; 24.102-24.104; 24.120-24.121. Second half year papers will start in the week beginning 21 June. Should their timetable permit, students may take a single paper, or two or more papers from different sequences.

Asian History I

24.130 China since the Opium War
(first half of year)
A paper on the collapse of Imperial China under the impact of foreign imperialism and internal upheavals and the subsequent struggle to rebuild a modern nation.

24.131 Vietnam 1802-1975; Unity and Division
(second half of year)
This paper will study Vietnam since 1802. It will discuss the search for unity on Confucian lines under the Nguyen dynasty following centuries of disunity; the impact of the French after the decline of China’s influence in East Asia and the new impulses to disunity; the rise of a revolutionary national independence movement (the Vietminh) and the movement towards a unified Vietnam.

Note: There will be three lectures and one tutorial a week for each paper. Paper 24.131 will start in the week beginning 21 June.
History II

24.200 Rome and the Barbarians. 300-800
(first half of year)
This paper studies the decline of the Roman Empire during the fourth century, particularly in the West, and the subsequent settlement of its provinces by the Goths, Franks, Lombards and Anglo-Saxons: attention will focus on the problems of political, cultural and religious continuity.

24.201 Medieval England: Edward the Martyr to Edward I
(second half of year)
This paper examines the accidents and the aspirations which went into the making of the Kingdom of England. Attention will be concentrated upon the role of the king, in the face of invasion from without and criticism from within. Translations of original sources will form an important part of the reading.

24.210 New Monarchs and New Worlds: Western Europe in the 16th century
(first half of year)
24.211 New Monarchs and New Worlds: Western Europe in the 17th century
(second half of year)
These two papers deal with the rise of the European monarchies in England, France and Spain and the growth of their colonial and commercial empires.

24.212 The French Enlightenment
(first half of the year)
This paper will concentrate on eighteenth century French thought but some attention will also be paid to its seventeenth century background.

†24.213 A paper in 17th or 18th century British or European history
(second half of year)
Details of this paper will be available from the Department.

24.230 Polynesian and European Exploration of the Pacific
(first half of year)
This paper will deal with the European exploration of the Pacific and theories on the origin and migration of Polynesians, including Maori voyages to New Zealand.

24.231 West Africa before 1800
(second half of year)
A study of the state and culture of pre-colonial Africa, with reference to European contact and impact.

24.232 The American Colonies and the United States to 1789
(first half of year)
A paper dealing with the development of American colonial society and institutions, leading to the American Revolution and the establishment of the United States.

24.233 Australian Society and Politics 1788-1972
(second half of year)
The course will examine major themes in Australian studies from the convicts to the advent of the Whitlam Government. Attention will also be paid to literature and the arts.

Note: Each of the above papers will be taught for half of the year, two lectures, one tutorial per week, in the following sequences: 24.200-24.201; 24.210-24.211; 24.212-24.213; 24.230-24.231; 24.232-24.233. Second half year papers will start the week beginning 21 June. Should their timetable permit, students may take a single paper, or two or more papers from different sequences.

Asian History II

24.220 State and Society in Southeast Asia
(first half of year)
This paper begins by examining the social, economic and political structure of Southeast Asia before the arrival of the Europeans. A discussion of the Islamisation of the maritime south leads into an account of the early Portuguese, Spanish and Dutch empires. It concludes with an examination of the colonial impact in the nineteenth century.
24.221 Nationalism, Revolution and Independence in Southeast Asia (second half of year)
This paper deals with the rise of indigenous nationalism, the impact of the Japanese occupation, the independence movements and finally some major themes in the post-independence period (e.g. the impact of communism and other ideologies, the decline of parliamentary democracy, the problems of multi-racial societies).

24.222 China under the Ming and Manchu Dynasties (second half of year)
A paper on the social, political and economic structure of the final period of the Chinese empire, and the practice of imperial government under native and foreign rulers, China's relations with the outside world, and the development of her cultural heritage.

Note: Each of the above papers will be taught for half of the year, two lectures, one tutorial per week. Papers 24.220 and 24.221 will be taught in sequence. Second half of the year papers will start in the week beginning 21 June.

History III

24.300 Byzantines, Arabs and Franks 610-843 (first half of year)
The theme of the paper concerns a debate about authority, religious and secular. Attention will be focussed on the Iconoclast Controversy — its background in the seventh century, and its social and political implications. Comparison will be made with analogous factors within Islam during the 'Abbasid Revolution, and in the West during the Carolingian usurpation and Renaissance (involving, therefore, some background study of Arab expansion and Merovingian decline). This paper is not available to students who passed 24.202 in 1974 or 1975.

24.301 The Mexican Revolution (second half of year)
The twentieth century revolution (1910-1920) and the subsequent attempts to carry out the objectives of the revolution with social and political reforms; the corruption of ideas by the power of an inherited political environment.

24.302 The Reign of Henry VIII (first half of year)
A study (involving the extensive use of primary sources) of King, Court, and Kingdom in the throes of a political revolution imposed from above and a religious reformation initiated from below.

24.303 The History of the Family (second half of year)
The paper deals with the family in France and England in the Early Modern and Modern periods with reference to social status, social and economic change, family size, composition and relationships.

24.304 The Habsburg Empire 1867-1918 (first half of year)
This paper will deal with the political, economic and social history of the Dual Monarchy, and with foreign policy only as a reflection of internal pressures.

24.305 The Habsburg Empire and Germany in the Eighteenth Century (Second half of year)
This course will concentrate on the internal, mainly political, developments of the Habsburg Empire and Prussia. Enlightened Despotism in Central Europe will be discussed and defined.

24.306 From Vienna to Frankfurt: European International Relations 1815-71 (first half of year)
This course will study the main international problems brought about by the great economic and political changes of the century.

24.307 The Origins of the First World War (second half of year)
This paper approaches the origins of the first world war through discussion of the foreign policies of the main European countries involved, including Italy, and an analysis of international relations from 1870, and particularly from 1890, to 1915.
24.308 New Zealand and Great Britain 1840-1914
(first half of year)
This paper studies the implications of colonial status on New Zealand development and the influence of the British connection on New Zealand society, its economic and political structure.

24.309 British Labour History 1815-1918
(second half of year)
The conditions of life and work of the lower classes and the evolving nature of the industrial and political labour movements.

24.310 The American Civil War and Reconstruction
(first half of year)
A paper dealing with the problems of slavery, race relations, and sectionalism in nineteenth-century America.

24.311 U.S. Foreign Policy 1890-1965
(second half of year)
This paper is concerned with conflicting interpretations of American expansionism. It is particularly suitable for students who have already taken 24.105.

24.312 Sino-Japanese Relations since the Meiji Restoration
(first half of year)
A study of the relations of the two principal nations of the Far East, since the impact of the West; the breakdown of China's informal overseas empire; and the role of Japan in the development of Chinese nationalism.

24.313 West Africa since 1800
(second half of year)
A selection of case studies of indigenous states and cultures in Nigeria, Sierra Leone and Ghana, and discussion of European impact and colonialism.

24.314 Race in the Antipodes: New Zealand, Australia and South Africa in the 19th century
(second half of year)
An examination of the evolution of ideas about race in the nineteenth century, with case studies of New Zealand, Australia and South Africa.

24.315 Pacific History: culture contact to about 1900
(first half of year)
An examination of the relations between Pacific Islanders and Europeans (explorers, traders and missionaries) up to the colonial period.

24.316 Philosophy of History
(full year)
For details of this paper see MA 24.410. Stage III students wishing to attempt this paper require the permission of the Head of Department.

24.317 St Augustine
(first two terms)
For details of this paper see MA 24.412. Students wishing to attempt this paper require the permission of the Head of Department.

Note: Each of the above papers (except 24.316 and 24.317) will be taught for half of the year, one one-hour and one two-hour period per week, in the following sequences: 24.300-24.301; 24.302-24.303; 24.304-24.305; 24.306-24.307; 24.308-24.309; 24.310-24.311; 24.312-24.313; 24.315-24.314. Second half year papers will start in the week beginning 21 June. Should their timetable permit, students may take a single paper or two or more papers from different sequences. But it may prove impossible owing to pressure of numbers in certain classes to allow students to enrol for all the papers of their first choice.

History for MA and Honours

Five papers and a research essay (24.603) counting as one paper; or, with the permission of the Head of the Department four papers and a thesis (24.601). The research essay must be on a subject connected with one of the candidate's formally examined MA papers. In exceptional circumstances, however, the Head of Department may permit a candidate to write a research essay on a subject connected with one of the papers he passed at History III. The thesis shall not exceed 50,000 words and two copies must be handed in to the Registrar. The research essay shall be between 10,000 and 20,000 words and two copies must be submitted to the Department. Candidates presenting five papers and a research essay shall present four papers in the first year,
and the remaining paper and research essay in the year next following; or, in special circumstances
and with the permission of the Head of Department, shall present five papers and the research es-
say in the same year, or three papers in the first year and the remaining two papers and research
essay in the year next following. Candidates presenting a thesis must attempt four papers in the
first year.
Students attempting the one-year MA must present their research essay by the last day of
February in the calendar year following the examinations. Other students attempting research es-
says must present them by 1 November of the second year of the course. For the date for theses,
see MA Regulation 9 (d).

24.400 New Zealand Society
A consecutive discussion of aspects of New Zealand society, including racial, cultural, social and
literary attitudes. The course will be based largely on contemporary publications.

24.401 The political development of the Pacific Islands from about 1870
An examination of political and related social change in the Pacific Islands from annexation to
decolonization.

24.402 Racial Interaction in Southern Africa in the 20th century
The impact on race relations of the expansion and contraction of the South African frontier.

24.403 Australian Culture and Society
This course will cover the period from 1890 with special emphasis on the social, cultural and
political developments of the nation. Those taking the course will be encouraged to consult a
range of sources, including novels, poetry, drama, art and cartoons.

24.404 Tudor Parliaments and the Governing Class, 1485-1603.
This course involves the extensive use of primary materials. It concentrates on the changing con-
stitutional role of parliament; the shifting relationship between king, lords, and commons; and
parliament's response to contemporary political and social problems.

24.405 The United States since 1880
This paper concentrates on race relations, trade unionism and labour in politics, the impact of im-
migration, and the rise of federal power.

24.406 Individual and Community in Western Europe 1050-1200
The investigation concentrates upon developments and changes in the relationships between com-
munities (intellectual, religious, commercial, heretical) and the individuals which made them up.
A reading knowledge of French or Latin (or perhaps German) is essential.

24.407 Indonesia and the Philippines: Colonial Experience and Post-colonial problems
This paper examines the similarities and contrasts in the colonial history of Indonesia and the
Philippines and discusses some of the problems the two Republics have faced since independence.

24.408 Russia since 1917
About half the course will be devoted to the period between February 1917 and the consolidation
of Communist power. The remainder will examine a number of leading themes in Russian history
since 1922.

24.409 British Social History 1870-1914
This paper studies aspects of social change in late nineteenth century Britain. Topics such as at-
titudes to poverty, social legislation, housing problems, the role of women and changes in educa-
tion are covered.

24.410 Philosophy of History
This paper is an introduction to various aspects of the topic, including the writings of 'speculative'
philosophers of history like Toynbee and modern philosophers like Karl Popper.

24.411 Political Parties and the Development of the American Republic 1760-1860
A study of the early American republic with special reference to the development of the first three
party systems.

24.412 St Augustine
(In 1976 only, the full course will be taught within the first two terms.)
The course focuses on the career and writings of Augustine himself, especially the Confessions and
the City of God, but takes particular note also of his important contemporaries, Jerome and
Pelagius. The chief purpose of the course is to examine the interaction of religious ideas (pagan

1976 Calendar
and Christian) with the changes (social and political) that marked the decline of the Roman Empire in this period. Linguistic ability, both classical and modern, will be an important advantage.

Note: Not available to students who passed the paper of the same title at Stage III in previous years.

24.413 The Origins of the Second World War
This course is mainly concerned with the origins of the war in Europe and lays particular emphasis upon the inter-connection between internal and international affairs.

24.414 The Evolution of a Plural Society in Malaysia 1400-1976
The aims of this paper are, firstly, the drawing out of major themes for joint discussion and, secondly, the use of primary sources where possible.

24.415/18.404 Victorian Studies
An inter-disciplinary paper, shared with the English department, concerned with selected topics from English literature and British social and cultural history of the nineteenth century.

24.416 Special Topic to be Prescribed by the Head of Department

Note: (i) There is no guarantee that all the papers listed above will be available in any one year.
(ii) It may prove impossible, owing to pressure of numbers in certain classes, to allow students to enrol for all the papers of their first choice.
(iii) All students intending to enrol for MA must see the Head of Department before formally enrolling, preferably at the end of the previous year.

DEPARTMENT OF PSYCHOLOGY

Note on textbooks: Students taking advanced courses are advised to consult with the lecturers concerned before purchasing books.

Notes on courses: The Schedule attached to the Course Regulations for the Degree of BA should be consulted for pre and corequisites. The Arts Faculty Handbook contains further useful advice.

Psychology I

Papers 32.100 and 32.101 are linked corequisites.
These papers are intended primarily for students of Law, Commerce, Architecture, Education and Fine Arts, and are also recommended for students taking BA Degree who do not wish to advance in Psychology.

32.100 Introduction to Psychology
32.101 Topics in Modern Psychology
An introduction to the experimental analysis of man's thought and behaviour. Stress will be placed on the application of research findings to various fields of human endeavour.
(Laboratory attendance and other practical work of not fewer than two hours per week will be required).
Papers 32.102 and 32.103 are linked corequisites.
These papers are intended for students wishing to advance in Psychology.

32.102 Introduction to Experimental Psychology
32.103 Contemporary Psychology
An introduction to the experimental analysis of man's thought and behaviour. Stress will be placed on the biological basis of such phenomena as sensation, perception, learning, memory, emotion, motivation and thinking.
(Laboratory attendance and other practical work of not fewer than two hours per week will be required together with attendance at tutorials to be arranged).

Psychology II

Three papers must be taken by students wishing to advance to Stage III.

Terms in Psychology II. Any student who is enrolled for two or more papers of Psychology II must satisfy the Department's requirements in statistics in order to keep Terms in each of the papers for which he is enrolled. Students can satisfy the requirements either:
(a) by having passed paper 26.181 offered by the Department of Mathematics; or
(b) by passing a test based on W. S. Ray, Basic Statistics (Appleton-Century-Crofts, 1968). The first test will be held during the first week of Term I at a time and place to be announced. Students who feel prepared may sit this test and successful candidates will satisfy the Department's re-
requirements in statistics. Those not passing the test will be required to attend a course of eight lectures in statistics, and sit a second test to be held in the last week of Term I. Those not passing the second test will be required to attend a further course of lectures, and sit a third test in the last week of Term II.

32.201 Operant Behaviour

**Foreign Language Reading Examination (French)**

34.500 Foreign Language Reading Examination in French (without lectures).
34.501 Foreign Language Reading Examination in French (with lectures).

Students wishing to gain this qualification as a prerequisite for Masterate or Doctorate degrees are advised as follows:

(a) if you passed in French at Bursaries or Scholarship level, you should with some reading in French in your own subject be able to pass FLRE without following a course and should therefore enrol for 34.500. If you wish to follow a refresher course on French texts, 34.105 is suggested for Science majors, 34.103 for Humanities majors, and 34.101 or 34.107 for Language and Literature majors;

(b) if you passed in French at a lower level than Bursaries, you should enrol for a language course: 34.104 for Maths and Science majors, 34.102 or 34.100 for others; a pass in the appropriate one of these papers exempts you from FLRE, and the paper may be credited towards your Bachelor's degree if you are still an undergraduate; you may of course take the lectures for one of these courses but sit 34.501;

(c) if you have done no French before at all, you should enrol for a beginner's course at the Centre for Continuing Education, and follow (b) above once you have successfully completed it.

**French for MA and Honours**

(Seven papers or four papers and a thesis (34.601).)

The requirements are given in section (9) of the MA Schedule. The thesis must be taken in a second year. For the MA in Languages and Literature, the requirements are in section (18) of the MA schedule: there is no thesis option. Paper 34.400 is compulsory for both subjects, and the marks for it bear a relative weighting of three to two for each other paper in French. Selection of paper 34.421 is subject to the permission of the Head of the Department. Prerequisites may be waived by the Head of the Department.

34.400 Language Acquisition
Oral and written use of French, tested by: comprehension, explanation, conversation, composition, exposition of an unprepared topic, translation, dictation, reading aloud; with linguistic and stylistic analysis. (Prerequisite: 34.300.)

Notes
   (1) Before being granted terms for courses 16.100 to 16.106 candidates must have satisfactorily completed the prescribed practical work, case work, and/or observational visits associated with each course.
   (2) A candidate who has already passed one or more papers from 16.100-16.106 or their equivalent will be required to substitute a course of study which has the approval of the Head of Department.

B Part II
   (a) Supervised participation in the work of approved psychological and special educational services.
   (b) A comprehensive oral examination covering the work of the whole course.
   (c) The presentation of a dissertation reporting the systematic study of the literature bearing upon a relevant special topic or a piece of field research related to the function of an education psychologist approved by the Head of the Department of Education, and submitted to him not later than 2 November or a subsequent date approved by the Head of Department, and within three years of the year in which the requirements of Part II, (a) and (b) were completed. This period may in special cases be extended by the Senate.

4. Subject to the approval of the Senate, which will be granted only in exceptional circumstances, exemption may be granted from any of the requirements under Regulations 1 to 3.

Note: Candidates should consult the Head of the Department of Education early in the year regarding textbooks for the course.
DIPLOMA IN LANGUAGE TEACHING STUDIES

The personal course of every candidate must be approved by Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1(a) The Diploma in Language Teaching Studies may be awarded to a candidate in any one of the following subjects:

- French
- German

(b) The Diploma may be awarded with or without Honours

2. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Language Teaching Studies shall before his enrolment for this Diploma

(a) have been admitted or have qualified for admission to a Bachelor's Degree, and

(b) have passed—

(i) three approved papers at French III level, if he wishes to enrol for the Diploma in French; or

(ii) three approved papers at German III level if he wishes to enrol for the Diploma in German.

3(a) Except with the approval of Senate a candidate for the Diploma shall not enrol for any of the subjects of Part II in Regulation 4(a) unless he has passed in or enrolled concurrently for the subjects of Part I

(b) A candidate who fails to complete the requirements of the Diploma under Regulation 4(a) in one year or in two successive years shall not be eligible to re-enrol for the Diploma without the leave of Senate so to do.

4(a) Every candidate shall, in respect of the subject he has chosen for the Diploma, be required to pursue and pass the examination in the following courses:

Part I

(i) Applied Linguistics: phonology and lexicology, 71.100

(ii) Applied Linguistics morphology and syntax, 71.101

(iii) Oral competence in the language which is the subject of the candidates course of study for the Diploma, 71.102

Part II

(iv), (v), and (vi) Techniques of programming language instructions, of evaluating programmes and of testing the results of programmes 71.103, 71.104, 71.105.

(b) Every candidate for Honours shall (in addition to the requirements in Regulation 4(a) be required to pursue and to submit a Dissertation on an original research investigation approved by the Head of Department (71.200).

5(a) A candidate shall be eligible to enrol for Honours only with the leave of the Senate; for which is required a high standard in the work prescribed in Regulation 4(a)

(b) The Senate shall inform him as soon as reasonably possible after his completion of that work as to whether he has leave to enrol for Honours.

6. A candidate for Honours shall submit a Dissertation as prescribed in Regulation 4(b) on or before 1 November in the second year following that in which the candidate has completed the work prescribed in Regulation 4(a); or such later date as the Senate may in exceptional circumstances permit.

Note: An abstract is to be submitted with the dissertation, see Examination Regulation 14.

7. Honours shall be awarded upon the results of the Dissertation but if the Dissertation is not of sufficient standard the Diploma shall be awarded to the candidate without Honours.

8. A candidate who before 1975 completed the requirements for the Diploma in Language Laboratory Teaching except for the submission of a dissertation shall be entitled:

(i) to qualify without further examination for the award of the Diploma in Language Teaching Studies, or

(ii) to transfer to the course for the Diploma in Language Teaching Studies with Honours, if he makes application to do so before 1 January, 1976.

9. These Regulations shall come into force on 1 January, 1975.
DIPLOMA IN LOCAL GOVERNMENT AND ADMINISTRATION

Diploma

The personal course of study of every candidate must be approved by the Senate. General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations and except in special circumstances, a candidate for the Diploma in Local Government and Administration shall before his enrolment have been awarded or qualified for the award of a Degree or Diploma of this University.
2. A candidate for the Diploma shall pursue a course of study for a period of not less than one year.
3. No candidate shall be credited for this Diploma with any paper which he has passed for another degree or diploma.
4. (a) A candidate shall be required in his first year of study to take Part I.
    (b) No candidate shall take papers for Part 2 or for Part 3 unless he has passed or enrolled concurrently in the papers for Part 1.

Subjects

5. The subjects for examination for the Diploma shall be:

   **Part I**
   - The Local Government System in New Zealand 30.600
   - Public Administration 30.601

   **Part 2**
   - Urban Government and Politics 30.402, as prescribed for MA (Candidates who have already been credited with 30.402 may substitute Urban Geography 20.436, as prescribed for MA and MSc)

   **Part 3**
   - Either
     - Two papers from the following:
       - Local Government Law, 25.220, as prescribed for LLB
       - Public Sector Accounting, 1.204 as prescribed for BCom
       - State and Local Taxation, 25.384, as prescribed for LLB(Hons)
       - Planning Law and Administration, 36.202, as prescribed for DipTP
     - † Public Economics 13.204, as prescribed for BA and BCom
     - Macro-economics 13.201, as prescribed for BA and BCom
     - Micro-economics 13.200 as prescribed for BA and BCom
     - Organisational Studies 72.200, as prescribed for BCom
     - Special paper as prescribed for any other Degree or Diploma of this University and approved by the Head of Department.
   - or
   - Research Essay (which shall count as two papers)

   Note: An abstract is to be submitted with the Research Essay, see Examination Regulation 14.

Prerequisites or Corequisites

6. A candidate shall, before taking any of papers 13.200, 13.201, 13.204, 1.204 for this Diploma pass or enrol concurrently in paper 13.100 Micro-economics and paper 13.101 Macro-economics, or have obtained exemption from the Head of the Department of Economics.

7. These Regulations shall come into force on 1 January 1974.

† This paper will not be taught unless sufficient staff are available.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF SCIENCE

BSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the degree of Bachelor of Science shall follow a Course of study of not fewer than three years.

2. In these Regulations
   (a) a 'course' is an independently assessed segment of work in a subject, the successful completion of which results in the award of credits as set out in the Schedule to these Regulations.
   (b) courses are classified as Stage I (papers numbered 100-199), Stage II (200-299) and Stage III (300-399).
   (c) for the purposes of these Regulations, courses for the Degree of Bachelor of Science in the Subject Biology will count as courses in Botany or Zoology, but not in both.

3. A complete Course of study requires the gaining of 96 credits, of which
   (a) at least 36 are from courses above Stage I
   (b) at least 12 are from Stage III courses in the Faculty of Science
   (c) at least 48 are from courses in the Subjects Biochemistry, Biology, Botany, Cell Biology, Chemistry, Computer Studies, Geology, Mathematics, Physics and Zoology and of these at least 12 are from the subjects of Physics or Chemistry or both.

Course Load

4. A candidate may not enrol in any one year for courses totalling more than 50 credits.

5. A candidate may not take in any one year any combination of either
   (a) Stage II and Stage III courses, or
   (b) Stage III courses
   in which practical work is involved where the total credits exceed 30.

6. Except as provided in Regulation 9, a candidate may not enrol for a Stage II course until he has 24 Stage I credits.

Practical Work Requirements

7. A candidate in any course of the subjects Biochemistry, Biology, Botany, Cell Biology, Chemistry, Geography, Geology, Psychology and Zoology, must pass, besides the written examination, in such practical work as may be prescribed by the Head of Department provided that the candidate's mark in such practical work may, with the leave of the Senate, be carried forward to a subsequent year.

Credit for other Courses

8.(a) The Senate may permit a candidate to take for this Degree up to a limit of 12 credits calculated in accordance with the schedule to this Regulation any of the courses or subjects, not presented for this Degree, to which this Regulation applies.

(b) This Regulation applies to any course or subject (as the case may be) (i) prescribed and defined in the Regulations for any of the Degrees of BArch, BA, BCom, BE, LLB, LLB(Hons), and (ii) not the same as or substantially overlapping with any course prescribed for this Degree.

9. Notwithstanding anything in Regulation 6 the Senate may permit a candidate to enrol for Stage II courses in Biology, Botany, Chemistry, Geography, Physics, Mathematics or Zoology without having passed the prescribed prerequisite courses provided that:
The candidate shall only be credited with a pass in the Stage II course and not in the prerequisite course.

A candidate failing the Stage II course may be credited with a pass at Stage I if the examiner certifies he has reached that level.

Where the candidate gained at least 12 credits in Stage II courses in Biology, Botany, Chemistry, Geography, Physics, Pure Mathematics or Zoology he may also include in his Course of study, two papers as prescribed for the Degree of Bachelor of Arts in addition to any Course that may be taken under Regulation 8 of these Regulations. Five credits will be given for each paper passed.

**Entry with NZCS (Chemistry)**

10. Notwithstanding anything in these Regulations a candidate who has passed with merit the written and practical examinations for the New Zealand Certificate of Science or other recognised technical qualifications of comparable standard may be credited with such specified courses, and/or given such unspecified credits not exceeding 36 credits in total, as the Senate may determine.

Note: Any such candidate who has not passed the University Entrance Examination shall apply for admission under the Special Admission Regulations.

**Credit for Teachers College Students**

11. A student who has successfully completed in or after 1974 a three year course at a Teachers College under the control of the Auckland Teachers Colleges Council, may, with the approval of Senate, be granted up to twelve unspecified Stage I credits toward this degree. A candidate granted credits under this Regulation shall be required to gain at least 84 credits from courses set out in the Schedule to these Regulations.

**Cross-Credits and Exemptions**

12 (1) Subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), (a) a candidate who has passed the Intermediate Examination for the Degree of Bachelor of Engineering, may be credited with the subjects of that Examination as equivalent courses for the Course of study governed by the Regulations for this Degree.

(b) a candidate who has passed for the Degree of Bachelor of Engineering (i) Engineering Mathematics II and Engineering Mathematics III prior to 1972, or (ii) Engineering Mathematics IA and IB and Engineering Mathematics II in or subsequent to 1972,

shall, subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), be credited with Mathematics 240 and 261 for the Course of study governed by the Regulations for this Degree.

(2) A candidate, who has passed Mathematics 220 or Mathematics 240 for the Degree of Bachelor of Engineering without having passed any Mathematics at the Stage I level and who qualifies for the exemption referred to in sub-clause (b) of this Regulation shall be credited with Mathematics 120 and 140, in lieu of Mathematics 220 and 240.

**Psychology**

13. Subject to the provisions of Regulation 10 of the Enrolment and Course Regulations (General), a candidate who has passed in Psychology IA or IB and Psychology II for the Degree of Bachelor of Arts or in any of those units and has performed such additional laboratory work as the Head of the Department of Psychology directs, may be exempted from the corresponding course or courses in Psychology for this Degree.

14. A candidate who holds the Diploma in Optometry may be credited with the courses Psychology 106, Psychology 107 and three courses at advanced levels in Psychology for this Degree in addition to any units (or subjects) which he may be entitled to transfer by way of cross-credit under Regulation 10 of the Enrolment and Course Regulations (general).

**Transitional Provisions**

15 (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units under any of the former Regulations for this Degree, shall be credited with such equivalent course or courses as the Senate shall determine.

(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.
Exceptions
16 (a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.
(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.
17. These Regulations shall come into force on 1 January 1973.

SCHEDULE
1. This schedule sets out course numbers, examination numbers, credits, prerequisites, corequisites, and restrictions applying to Courses of study offered for the Degree of Bachelor of Science.
2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading ‘prerequisites’ in relation to a course refers to other courses which must be passed before the candidate may take that course.
4. The heading ‘corequisites’ in relation to a course refers to other courses which must be taken concurrently with that course or have been passed in the previous year.
5. The heading ‘restrictions’ in relation to a course refers to a course which cannot be taken together with that course.
6. A candidate may not take a further stage of a course until he satisfies all prerequisite and corequisite requirements for that course.

Notes: (a) The first 12 credits obtained in courses Zoology 201-309 inclusive and Biology 207/307, 211 shall be deemed to be at the Stage II level.
(b) Courses Zoology 201-309 inclusive have additional course work at the Stage III level.
(c) Chordate Zoology and Non Chordate Zoology are taught in alternate years. Chordate Zoology will be taught in 1976.
(d) Any candidate majoring in another subject may, with the permission of the Head of Department, take up to two courses in Zoology without fulfilling the prerequisites and corequisites listed in the schedule.

*Starred papers will not be taught during the current Calendar year.
†These papers will not be taught during the current Calendar year unless sufficient staff is available.
FOREIGN LANGUAGE READING EXAMINATION

Every candidate intending to proceed to the MSc degree is strongly advised to take the course for the Foreign Language Reading Examination before completing the BSc degree. The ability to read scientific works in a foreign language is necessary for reading literature relating to the thesis. A pass in the Foreign Language Reading Examination is also required as part of the BSc(Hons) Degree. The regulations concerning this Examination are contained in the Degree Regulations for MSc and BSc(Hons).

THE DEGREE OF BACHELOR OF SCIENCE (HONOURS)

BSc(Hons)

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

1. The Degree may be awarded in each of the following Honours Schools:
   - Geology
   - Mathematics

2. Admission to the Course of study for the Degree of Bachelor of Science (Honours) shall be at the discretion of the Senate and shall be given at either the end of the second year or third year after matriculation provided that where the proviso to Regulation 8 applies, admission may be granted at the end of the third or fourth year after matriculation.

3. No candidate shall be admitted to an Honours School without the approval of the Head of Department of that School and of the Senate. Such approval shall be granted or withheld upon a consideration of the candidate's performance in the courses of University study already pursued by the candidate and particularly in the courses required as prerequisites to that Honours School.

4. No candidate may be awarded the degree of Bachelor of Science (Honours) if he has previously been awarded the degree of Bachelor of Science of this University.

5. In each Honours School a candidate's Course of study for the Degree shall comprise:
   (a) such prerequisites, being courses prescribed for the Degree of Bachelor of Science, and
   (b) such Honours Parts (being Parts III and IV, or Part IV as the case may be) and
   (c) such courses in other subjects as may be required and prescribed in that Honours School under Regulation 15:
      provided that
      (i) except where the Senate in its discretion otherwise permits, the number of prerequisite courses shall be not fewer than 72 credits in a case of entry into an Honours School at the end of the second year after matriculation and not fewer than 96 in a case of entry at the end of the third such year;
      (ii) in the case of any prerequisite subject and with the approval of the Senate, if the candidate has been premitted to enrol for and has passed at Stage II without having passed at Stage I, Stage II may be substituted for Stage I, and Stage III may then be substituted for Stage II;

6. A candidate in any subject for this Degree where practical work is prescribed, must pass beside the written examination, in such practical work as may be prescribed by the Head of the Department.

Withdrawal and Exclusion from Course

7. A candidate may withdraw from the Honours School and be granted such credits and exemptions for courses for the Degree of Bachelor of Science as the Senate shall determine.

8. A candidate shall be required to pass as a whole each Part of the Honours Course of study so that his performance in all courses comprising this Part shall be considered: provided that a candidate who has failed to pass an Honours Part as a whole may in such exceptional circumstances as the Senate approves be credited with a course or courses of that Part and permitted in a subsequent year to present the course or courses not so credited, together with (if the Senate permits) a course or courses of the next succeeding Part. The candidate shall then be required in that year to pass as a whole in all the courses so presented upon the same conditions as those herein prescribed.
9. A candidate shall sit his final examinations for the degree within four years of his matriculation: provided that at the discretion of the Senate the period may be extended to five years 
(a) where a candidate first enrolled in the subject of his Honours School in his second year after matriculation, or 
(b) in any special circumstances.

10. A candidate who, on the results of his examination, does not reach the standard required in the Honours School in which he is enrolled, shall be excluded by the Senate from the Honours School but he may be granted such credits and exemptions for courses for the Degree of Bachelor of Science as the Senate shall determine.

Classes of Honours
11. The Degree of Bachelor of Science (Honours) may be awarded with First Class or Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division. The class of Honours awarded shall be determined primarily on the performance of the candidate in the examinations in his final year but account may be taken of his work throughout his Course of study.

12. The Senate may determine in respect of any candidate who fails to qualify for the Degree that he be awarded the Degree of Bachelor of Science or be credited with courses towards that Degree or be credited with the Degree of Bachelor of Science together with appropriate credits towards the Degree of Master of Science.

Transfer to BSc (Hons)
13. The Senate may, on written application by a candidate for the Degree of Bachelor of Science and without payment of a fee, grant him permission to transfer to a Course of study under these Regulations and allow him to be credited with a pass in such courses as the Senate shall determine.

Foreign Language Reading Examination
14. A candidate shall not be admitted to the Degree unless 
(a) he has been credited with a pass in a unit of a foreign language approved for this purpose by the Senate, or 
(b) he has been credited with a pass in a foreign language reading examination 
(i) prescribed for the purpose of this Regulation, and 
(ii) approved by the Head of the Department of the Honours Subject which the candidate is presenting for this Degree.

15. A candidate whose mother-tongue is not English may on application and with approval of Senate be exempted from the provisions of Regulation 14. Application must be made to the Registrar in writing and if such application is granted, exemption will be subject to the payment of a fee as provided by Regulation 10 of the Enrolment and Course Regulations (General).

Requirements of Honours Schools
16. Subject to the provisos to Regulation 5, the Honours Courses of study with subject and courses of examination are as follows:

Geology
Prerequisites
(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation.
Geology, four courses, totalling 24 credits.
Chemistry 100, or Chemistry 101 and 102
and 36 credits from other courses in any of the following subjects:
Botany, Chemistry, Geology, Mathematics, Physics, Zoology, or in any other subject approved by the Head of Department.
(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation.
Structure of Course of study as specified for entry at the end of the second year.
In special cases, with the approval of the Head of Department of Geology, courses at an advanced level in any other subjects may be substituted for any of the above, provided that the candidate has gained at least 12 credits from Geology Stage III courses.
Geology Honours Part III
(Geology courses totalling not fewer than 24 credits, together with practical work).
Part III shall contain courses prescribed as Geology second or third year courses, for a total of not fewer than 24 credits. In special cases, with the approval of the Head of the Department of Geology, advanced courses of other subjects may be substituted for Geology courses, provided that the Course of study contains Geology courses totalling at least 12 credits.

Geology Honours Part IV
(Three papers together with practical work and thesis).
The student shall follow one year's Course of study approved by the Head of the Department of Geology and carry out an original investigation on an approved topic.* The examination shall consist of three papers prescribed for the Degree of Master of Science (21.401, 21.402, 21.403, 21.404, 21.405, 21.406) and a thesis embodying the results of the investigation which shall be equivalent to one paper. The thesis shall be delivered to the Registrar at the beginning of the second half of the second term.

*Notes: (i) Intending students should consult the Head of Department about the research topic immediately after completing the papers for Part III.
(ii) The language for the Foreign Language Reading Examination will be French, German, Russian, or other language approved by Senate and this examination should be taken as early as possible.
(iii) An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Mathematics
Prerequisites
(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation.
A total of 72 credits from the following subjects:
Mathematics, Chemistry, Physics, or in any other subject approved by the Head of the Department of Mathematics provided that prerequisite courses, together with the papers selected for Part III, will enable the candidate to attain a level equivalent to the prerequisites for entry to Part IV.
(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation. Six courses from Mathematics 310 to 399 including 320 or 321, 330 or 331, 340, 360 and two of 361 to 399. If Mathematics 261 has been passed then 360 may be replaced by one other 300 or 400 level paper.

Mathematics Honours Part III
(24 credits in courses approved by the Head of Department of Mathematics).
Part III shall consist of courses approved by the Head of Department of Mathematics totalling 24 credits and including such Mathematics papers as will enable attainment of a level equivalent to the prerequisites for entry to Part IV.

Mathematics Honours Part IV
(Five papers in courses approved by the Head of Department of Mathematics).
Part IV shall consist of 5 papers approved by the Head of Department of Mathematics. Normally these will be selected from Mathematics 400 to 499 provided that one of the papers may be replaced by one of Mathematics 310 to 390.

Transitional Provisions
17(a) Except as otherwise provided in this Regulation, the Course of study of every candidate in the Geology and Mathematics Honours schools shall be governed by these Regulations.
(b) A candidate who gained credits in any unit under any of the former Regulations for this Degree, shall be credited with such equivalent course or courses as the Senate shall determine.
(c) Except as provided for in clause (d) any candidate enrolled for this Degree in the Departments of Botany and Zoology shall comply with the Regulations published in the 1972 Calendar.
(d) The Senate may, on written application by a candidate who enrolled for a Science Degree before 1973, approve subject prerequisites which do not conform to those listed here.
18. These Regulations shall come into force on 1 January 1973.

THE DEGREE OF MASTER OF SCIENCE
MSc
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.
General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Science shall before his enrolment for this Degree
(a) (i) have been admitted or qualified for admission to the Degree of Bachelor of Science, or
(ii) have been admitted or qualified for admission to the Degree of Bachelor of Science (Honours),
or
(iii) in the subject Psychology in lieu of the requirement of paragraph (i) of this clause have been awarded or qualified for the award of the Diploma in Optometry;
(b) have passed the following subject prerequisites or have passed the subject he offers in the final year of the course for the Degree of Bachelor of Science (Honours); provided that in special cases recommended by the Head of the Department the Senate may exempt the candidate from this requirement:

**Biochemistry** Biochemistry 301 and 302

**Botany** 24 Stage III credits from the subjects Biochemistry, Biology, Botany, Cell Biology, Chemistry, or Zoology, including at least 12 Stage III credits from Botany or Biology.

**Cell Biology** 24 credits from Stage III courses including Cell Biology 301 and 302.

**Chemistry** 8.210, 8.220, 8.230 and 18 credits from courses 8.310-8.391; or Chemistry IIIA and IIIB.

Note: Students who have passed Chemistry IIIB but not Chemistry IIIB as defined in the old regulations and wish to proceed to Honours will be enabled to enrol in a suitable course in order to complete the prerequisite for Honours; the Head of Department and the Dean should be consulted.

**Geography** 24 Stage III credits including at least 12 Stage III credits from Geography.

**Geology** 24 Stage III credits including at least 12 Stage III credits from Geology.

**Mathematics** Mathematics 320 or 321 or 331, 340; together with three other papers selected from
(a) 260 to 299, (b) 360 to 399 and (c) those papers in Computer Studies approved by the Head of Department, with at least two of these three papers being at 300 level. At least one of 261 and 360 must be included.

**Physics** Physics 210, 220, 240, 250, 290; and 22 credits from courses approved by the Head of Department, including at least 12 credits from the courses Physics 310-385 and at least 6 credits from the laboratory courses Physics 390-393.

**Psychology**
(i) either 20 credits from Psychology 301 to 309; or
(ii) the completed requirements for the Diploma in Optometry.

**Zoology** 24 stage III credits, including at least 12 Stage III credits from Zoology or Biology.

(c) have passed with a Grade higher than C- either in all Stage II and III courses prescribed for the Degree of Bachelor of Science which are prerequisites for the subject he takes for this Degree;

or in all subjects in Division IV for the Diploma in Optometry if that Diploma is the prerequisite for the subject Psychology he takes for this Degree;

or in Part III of the Course of study in Human Biology for the Degree of Bachelor of Science; provided that the Head of the Department of the subject may at his discretion approve a Grade C-pass for the purpose of this clause.

2. A candidate may sit the examination papers required for this Degree over two successive years. He may only elect to follow this course of study when he first enrols for the Degree. Such candidates shall not be eligible to gain Honours.

3. A candidate for this Degree, may with the permission of the Heads of the Departments concerned and with the approval of the Senate take one Master's paper in a subject other than that in which he is taking his degree. Each such paper shall substitute for one paper of the subject in which the Degree is being taken.

4(a) A candidate who has qualified for the Degree of Bachelor of Science shall be required in the subject he takes to pass the prescribed examinations and to present a thesis where that is prescribed, in accordance with Regulation 13 of these Regulations.

(b) A candidate who has qualified for the Degree of Bachelor of Science (Honours) shall be required to present a thesis only, which shall be as prescribed in Regulation 13, in the subject Geology or Physics. Provided that a candidate who has done work for the Mathematics Degree Bachelor of Science (Honours) but has qualified for admission not to that Degree but to the Degree of Bachelor of Science, may be granted exemption from such part of the Course of study
for the Degree of Master of Science as the Senate may approve, subject to his paying the prescribed fee as if that part were an exempted unit for the purpose of Regulation 10 of the Enrolment and Course Regulations (General).

5. Where a thesis is required the following conditions shall apply:
(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.
(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
(c) In the case of a thesis requiring laboratory work, such work shall be carried out within the University provided that the Senate may permit a candidate to carry out such work in an approved institute outside the University for such limited period or periods as may be necessary.
(d) A candidate shall present his thesis not later than twenty-four months after his first enrolment for this Degree, provided that this period may be extended with the permission of the Head of the Department by not more than one year and, provided that in exceptional circumstances this period may be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

6. A candidate shall not take a subject which he has already passed for the Degree of Master of Arts.

Honours
7 (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded in a subject to any candidate for this Degree who has qualified in that subject for the award of the Degree of Bachelor of Science (Honours).
(c) Honours shall not be awarded in a particular subject to any candidate who enrolled for and failed to qualify for admission to the Degree of Bachelor of Science (Honours) in that Subject.
(d) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he shall still be eligible for the award of Honours subject to the provisions of sub-clause (e) of this Regulation.
(e) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree provided that this period may be extended, in exceptional cases, by the Senate.

8(a) Notwithstanding anything to the contrary in the foregoing Regulations a candidate may upon the recommendation of the Heads of the Departments concerned and with the approval of the Senate:
(i) substitute an Engineering paper for any papers, paper, or part of a paper prescribed in Regulation 13, and
(ii) substitute a thesis (to carry such weight as may be determined) in an Engineering subject for a thesis in any subject prescribed in Regulation 13;
so that part but not the whole of the candidate's course for this Degree may be taken in Engineering.

Note: A candidate changing in toto from one Faculty to another should enrol for the Degree of Master of Philosophy.
(b) The Senate may require the candidate to take any appropriate prerequisite courses before granting any such approval.
(c) In this Regulation 'an Engineering paper' and 'an Engineering subject' mean respectively any paper and any subject prescribed in or for the purposes of Regulation 3 of the Regulations for the Degree of Master of Engineering.

Foreign Language Reading Examination
9. A candidate shall not be admitted to the Degree unless
(a) he has been credited with a pass in a unit of a foreign language approved for this purpose by the Senate, or
(b) he has been credited with a pass in a foreign language reading examination.

Note: A candidate presenting for this Degree shall not be admitted unless he satisfies the foreign language requirements.
10. A candidate whose mother-tongue is not English may on application and with the approval of Senate be exempted from the Provisions of Regulation 9. Application must be made to the Registrar in writing and if such application is granted, exemption will be subject to the payment of a fee as provided by Regulation 10 of the Enrolment and Course Regulations (General).

**Savings and Transitional Provisions**

11(a) All candidates enrolled for this Degree
(i) who completed a Bachelor of Science Degree in, or before, 1972 shall pass the subject prerequisites listed in the 1972 Calendar;
(ii) shall have their course governed by these Regulations, except those referred to in sub-clause (i).
(b) The Senate may, on written application by a candidate who enrolled for a Bachelor of Science Degree of this University before 1973, approve a course of study which does not conform to the subject prerequisites published in the 1972 Calendar or to those listed here.

12. These Regulations shall come into force on 1 January, 1973.

**List of Subjects**

13. The subjects of examination and relative requirements as to thesis for this Degree, together with the prescription numbers relative to each examination paper, are as follows:

- **Anatomy** (Two papers and a thesis which shall count as four papers): Papers 65.401, 65.402.
- **Biochemistry** (Three papers and a thesis which shall count as three papers): Papers 66.401 to 66.403.
- **Botany** (Three papers and a thesis which shall count as three papers): Three papers from 6.411 to 6.471.
- **Cell Biology** (Three papers and a thesis which shall count as three papers): Papers 40.401, 40.402, 40.403.
- **Chemistry** (Seven papers and a thesis which shall count one-third towards the assessment for the final grade): A selection approved by the Head of Department of Chemistry of six papers from 8.410, 8.411, 8.412, 8.420, 8.421, 8.422, 8.430, 8.431, 8.432, 8.440, which together shall count one-half towards the assessment for the final grade, and paper 8.450 which shall count one-sixth towards the assessment for the final grade.
- **Geography** (Four papers and a thesis which shall count as three papers): Four papers from 20.400 to 20.441.
- **Geology** (Three papers and a thesis which shall count as two papers): Papers 21.401 to 21.406.
- **Mathematics** (Five papers and a thesis which shall count as three papers, or five papers and an advanced course of study which shall count as three papers). A selection approved by the Head of the Department of Mathematics of five papers from 26.400 to 26.499 together with a thesis or an advanced course of study provided that one of the papers may be replaced by one of 26.310 to 26.390 not already taken for any other degree or diploma.
- **Pathology** (Two papers and a thesis which shall count as four papers): Papers 68.400, 68.401.
- **Physics** (Four papers and a thesis which shall count as four papers): Four papers from 31.410-31.485, and the thesis 31.490.
- **Physiology** (Two papers and a thesis which shall count as four papers): Papers 67.401, 67.402.
- **Psychology** (Four papers and a thesis which shall count as three papers): Four papers from 33.401 to 33.414.
- **Zoology** (Three papers and a thesis which shall count as three papers): Papers 38.401, 38.402, 38.403.

**THE DEGREE OF DOCTOR OF SCIENCE**

**DSc**

**General Provisions**

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Science shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Science until at least eight years after graduation to his first degree.
3. The Degree of Doctor of Science shall be awarded for an original contribution (or contributions) of special excellence in some branch of pure or applied science.

4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:

   (a) Three copies of the work to be examined;
   (b) A statutory declaration which shall —
       (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
       (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
       (iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall:

   (a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate be advised to withdraw his application.
   (b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may —

   (a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
   (b) elect to proceed with the examination.

9(a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand.

   (b) The contents of the Moderator’s report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:

    (a) to report independently on the quality of the work and its value as a significant contribution to learning; and
    (b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A resubmission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall consider the reports of the Examiners and prepare a final report based upon them which, together with the reports of the Examiners, shall be placed before the Senate, and the Senate shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where the Examiners’ recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.
DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ANATOMY

Anatomy for MSc and Honours

(Two papers and a thesis (65.601)).

65.401, 65.402 The study of selected fields of Anatomy at an Advanced Level with Detailed Study of One Particular Field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Students from other Universities must have completed Anatomy III or the equivalent.

DEPARTMENT OF BIOCHEMISTRY

Stage III

Prerequisites: See BSc Schedule.

Biochemistry 301 (One paper and practical work).

66.301 Introduction and scope of biochemistry, proteins, enzymes; metabolic pathways photosynthesis, nitrogen fixation, bioenergetics.

Biochemistry 302 (One paper and practical work).

66.302 Carbohydrates, lipids; biosynthesis of amino acids, purines and pyrimidines; nucleic acids, protein synthesis; vitamins, metabolic regulation and biochemical endocrinology.

Laboratories. Students are required to attend practical classes of not less than eight hours a week and practical work will be assessed. A pass in each of the written papers and in the practical course is necessary.

Entry to Biochemistry III may have to be restricted if the number of applicants exceeds the number of laboratory places. Students who intend to enrol should make preliminary application to the Secretary, Department of Biochemistry on the appropriate departmental form not later than 30 January. Candidates who lack one or more of the prerequisites listed in the BSc Schedule are also permitted to make preliminary application.

Biochemistry for MSc

(Three papers and a thesis (66.601)).

66.401, 66.402, 66.403. The general study of Biochemistry at an advanced level, with more detailed study in the fields of enzymology, metabolic pathways, microbial metabolism and biochemical control mechanisms and biochemical endocrinology.

Candidates for the Master's Degree should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, in order to select thesis topic and obtain advice on vacation reading.

The course will be of a minimum duration of one year; the student should normally expect to complete his thesis during the following year.

Students from other Universities must have taken Biochemistry to an advanced undergraduate level (e.g. Biochemistry III as offered at Otago University).

Students are reminded of the Foreign Language Reading requirement which is a prerequisite to the MSc Degree. The prescribed language is either French, German, or Russian at the discretion of the Head of the Department.

Research in Biochemistry

Facilities are available for research for PhD students and Post-doctoral research workers in several fields of animal, microbial and plant biochemistry as well as enzymology.

Intending applicants should in the first instance make application to the Department.
DEPARTMENT OF BOTANY

BIOLOGY

Biology 101 Central Concepts in Biology
An introductory course dealing with biological concepts common to animals, micro-organisms and plants; organic evolution; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; genetic principles and mechanisms; fundamental process of ecosystems; population and community dynamics. This course may be taken as part of the Stage I requirement in either Botany or Zoology but may not receive credit in both.

Biology 207/307 Biometry
Elementary statistical methods and concepts with particular emphasis on their application in biological research.

Biology 211 Population and Community Ecology
Elementary demography and models of population growth; population genetics with emphasis on the concepts of selection and fitness; two-species interactions, competition and predation; multispecies associations. The emphasis will be on experimental ecology of both plants and animals from a wide range of habitats. Prerequisites: Biology 101, Botany 102, Zoology 102.

Biology 221 Environmental Physiology
Solar radiation, its physical nature, measurement and biological effects. Environmental control of plant and animal metabolism: enzyme kinetics, control mechanisms, diffusion limitations.

Biology 311 Freshwater Ecology
Animal and plant freshwater communities, particularly of lakes and rivers; the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a field trip during May vacation to the Limnological Station and a week-end camp on the West Coast.

Biology 312 Marine Ecology
The characteristics of the seas and sea-shore as habitats for life; the nature of the community and ecosystem with special reference to the seas. The detailed habitat structure of New Zealand shores, saltmarshes and mangrove swamps. An introduction to the ecology of tropical reefs. The principles of coastal conservation. Practical work includes a 7-day field course at Whangarei Heads, day trips and a supervised individual research project.

Biology 313 Terrestrial Ecology
Emphasis will be on plant community studies. Distribution of major community types with particular reference to soils and climate. Pedogenesis, physico-chemical aspects of soils and nutrient cycles. Basic concepts pertaining to terrestrial ecosystems. Measurement of structure and number. Historical development and community studies. Practical work will include a five-day field course during enrolment week, in conjunction with Bot 361, and several one-day local trips.

Biology 314 Applied Ecology
Principles and practice of pest control; resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems — especially in relation to eutrophication and pollution of freshwater systems.

BOTANY

Stage I
The Course consists of two 6-credit papers, Biology 101 (paper 39.101) and Botany 302 (paper 6.102). Credit will not be given in either paper unless a pass in the corresponding practical work is gained (BSc Regulation 7).

Biology 101 Central Concepts in Biology
(See Biology prescriptions, page 239)

Botany 102 Form and Function in Plants
A basic course in plant science dealing with plant structures and physiological processes, especially those dealing with water and solute uptake and movement, respiration and photosynthesis. A survey of the plant kingdom illustrating diversity in form, ecology, reproduction, nutrition, evolution and classification. In addition to set laboratories and exercises, one or two field trips on Saturdays will be held which students will normally be expected to attend.

1976 Calendar
Stage II
The course consists of four three-credit papers, Biology 221 (paper 39.221), Botany 271 (paper 6.271), Botany 281 (paper 6.281) and Botany 291 (paper 6.291) together with practical work including field trips.
A pass in Biology 101 and Botany 102 will normally be required before enrolment in any of these courses. Zoology 102 should normally have been taken in the previous year but may be taken as a corequisite.

Biology 221 Environmental Physiology
(See Biology prescriptions, page 239)

Botany 271 Algal Biology
The structure, physiology, ecology, reproduction, classification and economic uses of the major groups of algae.

Botany 281 Fungal Biology
Form, function, classification, genetics and nutrition of fungi; comparative studies of other groups of microorganisms, introduction to plant pathology.

Botany 291 Metaphyte Morphology
A comparative study of bryophytes, pteridophytes and spermatophytes including morphology, reproduction, phylogeny and taxonomy.

Stage III
The course consists of a selection from thirteen three-credit papers from Biology 311-314 (papers 39.311-39.314) and Botany 321-376 (papers 6.321-6.376) together with practical work, including field trips.

Biology 311 Freshwater Ecology
(See Biology prescriptions, page 239)

Biology 312 Marine Ecology
(See Biology prescriptions, page 239)

Biology 313 Terrestrial Ecology
(See Biology prescriptions, page 239)

Biology 314 Applied Ecology
(See Biology prescriptions, page 239)

Botany 321 Plant Physiology 1

Botany 322 Plant Physiology 2
Mineral nutrition and enzyme control in response to nutrients; uptake and transport of nutrients in plants. Control of plant growth and differentiation, including the role of plant hormones.

Botany 331 Plant Pathology 1
History; mycological review; introduction to host-parasite relations; effect of environmental factors on fungal diseases; specific diseases.

Botany 332 Plant Pathology 2
Advanced host-parasite relations; aerobiology, epidemiology, control of fungal diseases; specific diseases.

Botany 333 Plant Pathology 3
Introductory bacteriology, nematology and virology

Botany 341 Genetics
Plant cytogenetics including the study of the nucleus in division, changes in chromosome structure and number and the meiotic behaviour of chromosome anomalies in hybrids and polyploids. Genetics of recombination with emphasis on the mapping of gene loci; theories of crossing-over; tetrad analysis particularly in the fungi.

Botany 351 Plant Ultrastructure
The electron microscope and associated techniques involved in tissue preparation; plant ultrastructure, including membrane, organelles and extra cellular structures.
Botany 361 Metaphyte Systematics
Origins of and evolutionary trends in major metaphyte groups and their organs; systems of classification, especially the Besseyan system for angiosperms; the identification of plants to species using standard keys and floras; classical and modern taxonomic methods including rules of botanical nomenclature and herbarium practice; the historical development of taxonomic concepts; speciation processes with special relevance to N.Z. vascular plant evolution. The course will include a number of field trips, including a five-day field course, during enrolment week, in conjunction with Bio 313.

Botany 376 Advanced Systematics of Algae and Fungi
Systematic study of selected algal and fungal groups frequently encountered in research projects in New Zealand freshwater and marine biology, plant pathology, forest ecology, etc.

Botany for MSc
Any three of the following papers and a thesis (6.601) which is equivalent to three papers.

Botany 411 Plant Hydrobiology
Botany 413 Terrestrial Ecology and Plant Geography
Botany 421 Advanced Plant Physiology
Botany 422 Plant Biochemistry
Botany 431 Advanced Plant Pathology
Botany 432 Epidemiology of Plant Diseases
Botany 441 Genetics and Evolution
Botany 451 Plant Ultrastructure and Differentiation
Botany 461 Phylogeny and Systematics
†Botany 471 Algal Taxonomy and Biology

(See also MSc Regulation 3).
Corequisites: Biology 207; Foreign Languages Reading Examination in German, Russian or such other language as may be approved by the Head of the Department.

DEPARTMENT OF CELL BIOLOGY
Stage III
Prerequisites: See BSc Schedule.

40.301 Molecular Biology and Immunology

40.302 Molecular Genetics and Virology
The structure and replication of representative plant, animal and bacterial viruses. Relationships of viruses with their host cells. The transmission and recombination of genetic material in bacterial viruses, in bacteria, and in diploid microorganisms. The units of mutation, function and recombination.

Cell Biology for MSc and Honours
[Three papers and a Thesis (40.601)]

40.401 Molecular Biology, 40.402 Molecular Genetics, 40.403 Virology and Immunology
The material for Cell Biology 301 and 302 considered in greater depth, with knowledge of some of the current original literature. The course will be based on selected topics in Virology, Electron Microscopy, Molecular Biology, Microbial and Molecular Genetics, and Immunology.

Prerequisites: For Auckland students, Cell Biology 301 and 302. Students from other universities or colleges must have taken some suitable subject to an advanced undergraduate level (e.g. Biochemistry Advanced II or Microbiology Advanced II as offered at Otago University). For Auckland students who do not have Cell Biology 301 and 302 as part of their undergraduate degree, and for students from other universities the MSc degree will normally involve a two year course, in which the candidates will be required to take the course work for Cell Biology 301 and/or 302, and keep terms in that subject.

1976 Calendar
Students are reminded of the Foreign Language reading requirement which is a prerequisite for admission to the MSc degree. The prescribed language may be French, German, Italian, Russian, or such other language as may be approved by the Head of the Department. Students are also reminded of the requirement of a grade higher than C— in prerequisite Stage II and Stage III Subjects for BSc (see MSc Regulation 1 (c) ).

Thesis: The preparation of a thesis is a most important feature of the work and a large part of the student’s time should be devoted to this aspect of the course. The topic of research for the thesis can be in virology, electron microscopy, molecular genetics, in molecular biology with special reference to nucleic acids and proteins, or in basic aspects of immunology.

Research in Cell Biology
Facilities are available for research by PhD and post-doctoral students in fields of virology, immunology, molecular genetics, electron microscopy, and molecular biology, with special reference to nucleic acids and proteins.

Intending students should consult the Head of the Department as early as possible.

Note: An MSc in Cell Biology is not a prerequisite for PhD registration.

DEPARTMENT OF CHEMISTRY
The courses in Chemistry for the BSc Degree under the new regulations are progressive; although prerequisites have not been prescribed more restrictively than necessary, students should bear in mind that familiarity with relevant material from earlier courses is assumed in the later ones.

First Year Courses
8.101 (6 credits) Principles of Organic Chemistry
(One paper and practical work).
A pass both in the written paper and the practical course is necessary (BSc regulation 7).
Lectures: Students will attend four lectures a week in the first half of the academic year. Tests will be held from time to time outside lecture hours, and performance in these tests will contribute to the final grade for the written paper.
Laboratories: Students will attend two practical classes (of two hours each) a week in the first half of the academic year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

8.102 (6 credits) Principles of Inorganic Chemistry
(One paper and practical work).
A pass both in the written paper and the practical course is necessary (BSc regulation 7).
Lectures: Students will attend four lectures a week in the second half of the academic year. Tests will be held from time to time outside lecture hours, and performance in these tests will contribute to the final grade for the written paper.
Laboratories: Students will attend two practical classes (of two hours each) a week in the second half of the academic year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Students taking Chemistry 102 are advised to take Chemistry 101 either previously or concurrently unless their previous accomplishment in Chemistry is at least a good mark in the University Bursary examination.

Students intending to proceed to Chemistry 8.210 or Chemistry 8.220 are strongly advised to take Mathematics 26.140 (or an equivalent course) beforehand. Students intending to take Third-year Chemistry courses should include Physics 31.115 and 31.125 (or 31.110 and 31.120).

Accelerated First Year Course
8.100 (8 credits) Organic and Inorganic Chemistry
(One paper and practical work).
A pass both in the written paper and the practical course is necessary (BSc regulation 7). This is an accelerated course covering the material of both Chemistry 101 and Chemistry 102.
Lectures. Students will attend two lectures a week. Two tests will be held during the year outside lecture hours and performance in these tests and in a set essay will contribute to the final grade for the written paper.

Laboratories: Students will attend one practical class of three hours a week. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. This course is intended to be taken simultaneously with Chemistry 210. Students taking Chemistry 100 are strongly advised to include Mathematics 26.140 (or an equivalent course) in their course concurrently. Entry to Chemistry 100 is restricted to students, who, on the evidence of high marks in the University Bursary or Scholarship examinations, have demonstrated previous ability in Chemistry. Students intending to take third-year courses should include Physics 31.115 and 31.125 (or 31.110 and 31.120).

Advanced Courses
Familiarity with the relevant material in the first-year courses will be assumed.

8.210 (6 credits) Physical, Analytical and General Chemistry
(One paper and practical work)
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). This course includes analytical chemistry, structural and quantitative aspects of spectroscopy, chemical thermodynamics and kinetics.

Lectures: Students will attend two lectures a week. Two tests will be held during the year.
Laboratories: The practical course covers both analytical and physical chemistry. Students are required to attend practical classes of not less than 72 hours during the year. This may be completed by doing either six hours per week for half the year or three hours per week for the whole year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.101, or 8.102, or 8.100.

8.220 (6 credits) Inorganic, Structural and Theoretical Chemistry
(One paper and practical work).
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course provides an introduction to atomistics and chemical bonding, and to the chemistry of the solid state. Aspects of the chemistry of transition metal and main group elements are treated at greater depth.

Lectures: Students will attend two lectures a week. Two tests will be held during the year.
Laboratories: Students are required to attend practical classes of not less than 72 hours. The practical course may be completed by doing either six hours per week for half the year or three hours per week for the whole year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.101, or 8.102, or 8.100.

8.230 (6 credits) Organic Chemistry
(One paper and practical work).
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course is based on the prescribed text and covers the structure and reactions of carbon compounds, classified by functional groups. An introduction to the chemistry of molecules of biological importance is included.

Lectures: Students will attend two lectures a week. Two tests will be held outside the lecture hours. Non-compulsory tutorials will also be given.
Laboratories: Students are required to attend practical classes for not less than 72 hours during the year. This may be carried out by doing six hours per week for half the year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.101 plus 8.102 or 8.100.
8.310 (3 credits) General Physical Chemistry
(One paper and practical work).
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course will include Chemical thermodynamics, ionics, electrodics, phase phenomena, scientific method.
Lectures: Students will attend one lecture a week. A test will be held during the year.
Laboratories: Students are required to attend practical classes totalling 36 hours, at times to be arranged. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

8.311 (3 credits) Molecular Physical Chemistry
(One paper and practical work)
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course will include quantum chemistry, Hückel molecular orbital theory, statistical mechanics, intermolecular forces, surface chemistry.
Lectures: Students will attend one lecture a week. A test will be held during the year.
Laboratories: Students are required to attend practical classes totalling 36 hours, at times to be arranged. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

8.320 (3 credits) Inorganic Chemistry
(One paper and practical work)
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course will cover aspects of organo-metallic chemistry, bio-inorganic chemistry and inorganic kinetics.
Lectures: Students will attend a total of 23 lectures during the year. A test will be held during the year.
Laboratories: Students will be required to attend practical classes of not less than 36 hours during the year. Performance in the practical work will contribute to the final grade for the course. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection.
Prerequisite: 8.220.

8.321 (3 credits) Physical-Inorganic Chemistry
(One paper and practical work).
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course includes aspects of atomistics, quantum chemistry, and co-ordination chemistry.
Lectures: Students will attend a total of 23 lectures during the year. A test will be held during the year.
Laboratories: Students will be required to attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.
Prerequisite: 8.220.

8.330 (3 credits) Advanced Organic Chemistry (a) Using Organic Reactions
(One paper and practical work).
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). This is a course in which the principles of organic chemistry are applied to organic synthesis. Bond forming reactions and functional group modification are covered, together with illustrations of specific syntheses of the laboratory and industrial type.
Lectures: Students will attend one lecture a week. A test will be held during the year. Non-compulsory tutorials will also be given.
Laboratories. Students are required to attend practical classes of not less than 36 hours during the year. This will normally be done over a 6 week period during the first half of the year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.230

8.331 (3 credits) Advanced Organic Chemistry (b) Studying Organic Reactions
(One paper and practical work)
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). This course will cover aspects of the investigation of organic reactions including physical-organic chemistry and a more detailed examination of organic reaction classes.

Lectures: Students will attend one lecture a week. A test will be held during the year. Non-compulsory, tutorials will also be given.

Laboratories. Students are required to attend practical classes of not less than 36 hours during the year. This will normally be done over a six week period during the second half of the year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.230
Corequisite: 8.330.

8.340 (3 credits) Structural Methods in Chemistry
(One paper and practical work)
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course covers the investigation of crystal and molecular structure. Background theory is discussed for X-ray structural analysis, molecular spectroscopy and mass spectroscopy. Practical applications in inorganic and organic chemistry are included throughout.

Lectures: Students will attend 32 lectures during the year. A test will be held during the year.

Laboratories. Students will attend practical classes for 20 hours during the year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.210 or 8.220 or 8.230

8.350 (2 credits) Elementary Radiochemistry
8.351 (2 credits) Advanced Radiochemistry
For detailed prescriptions see 8.350 and 8.351, Certificates in Principles and Practice of Radiochemistry on page 275 and 287

8.360 (3 credits) Analytical Chemistry
(One paper and practical work).
A pass both in the written paper and in the practical course is necessary (BSc regulation 7). The course will cover instrumental methods of analysis. It will consist of 16 lectures and 48 hours laboratory work on a project in analysis. A test will be held during the year. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 8.210

8.390 (3 credits) Advanced Topics in Chemistry
8.391 (3 credits) Advanced Topics in Chemistry

Chemistry for MSc and Honours
Candidates must select six courses from those numbered 8.410-8.440 inclusive and all candidates must take Course 8.450. At least one course must be chosen from division (a), Physical Chemistry, one from (b), Inorganic Chemistry, and one from (c), Organic Chemistry. The assessment of a student's overall attainment in the degree will be made on the basis that each of the six papers chosen from 8.410-8.440 has a weight of one, that paper 8.450 has a weight of two, and the thesis (8.601) has a weight of four.

Note: Students who have passed Chemistry IIIA but not Chemistry IIIB as defined in the old regulations and wish to proceed to Honours will be enabled to enrol in a suitable course in order to complete the prerequisite for Honours; the Head of Department and the Dean should be consulted.
Students intending to read for MSc and Honours should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, regarding allocation of a thesis topic and to ensure availability of laboratory facilities. The course is normally of one year's duration, but the thesis may, with the approval of the Head of the Department, be completed during the second year. [See clause 2(c) of the Enrolment and Course Regulations (General).] An overall prerequisite for the course is that students have completed 8.210, 8.220 and 8.230 and 18 credits from Chemistry Courses at the third-year level. Additional prerequisites for individual papers are also generally required.

(a) Physical Chemistry

8.410 General Physical Chemistry
(One 2-hour paper)
This course will cover surface chemistry, electrochemistry, the liquid state and thermodynamics.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 8.310.

8.411 Molecular Spectroscopy
(One 2-hour paper).
This course will cover vibrational and magnetic resonance spectroscopy.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 8.311 or 8.340.

8.412 Chemical Kinetics
(One 2-hour paper).
This course will cover experimental and theoretical aspects of chemical kinetics.

Lectures: Students will attend 20 lectures during the year.

(b) Inorganic Chemistry

8.420 Organo-metallic Chemistry
(One 2-hour paper).
The course covers advanced aspects of organo-metallic chemistry with emphasis on the heavier metals and low-valent co-ordination compounds.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 8.320.

8.421 Physical Methods in Inorganic Chemistry
(One 2-hour paper).
The course deals with molecular structure and conformation, and the application of advanced physical techniques in the elucidation of the structural and electronic states of inorganic co-ordination complexes and biological models.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 8.321 or 8.340.

8.422 Inorganic Kinetics and Mechanisms
(One 2-hour paper).
This course covers an advanced study of reactions of co-ordination compounds including substitution reactions, rearrangement reactions and electron transfer reactions. Metal ion catalysed and metallo-enzyme catalysed reactions are also studied.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 8.220.

(c) Organic Chemistry

8.430 General Organic Chemistry
(One 2-hour paper).
This course will cover stereochemistry, conformational analysis, orbital symmetry, and aromaticity.

Lectures: Students will attend 20 lectures during the year.

Prerequisite: 8.330 or 8.331.
8.431 Intermediates, rearrangements and radicals
(One 2-hour paper).
This course will cover the above topics at a greater depth than at the 8.331 level.
Lectures: Students will attend 20 lectures during the year.
Prerequisite: 8.330 or 8.331.

8.432 Industrial and Applied Organic Chemistry
(One 2-hour paper).
Lectures: Students will attend 20 lectures during the year.
Prerequisite: 8.230.

(d) General Chemistry
8.440 Quantum Chemistry
(One 2-hour paper).
Lectures: Students will attend 20 lectures during the year.
Prerequisite: 8.321.

8.450 Special Topics in Chemistry
(One 3-hour paper).
Students must choose three topics in specialised areas of chemistry from a selection to be offered.
Lectures: Students will attend 10 lectures in each topic selected.

In addition to attending prescribed lectures, students will be required to prepare and discuss a number of selected topics of special interest. Students are reminded of the Foreign Language Reading requirements which is a prerequisite for admission to the MSc Degree. The prescribed language normally is German; classes are arranged by the Department of Germanic Languages and Literature. Students wishing to present other languages should consult the Head of Department on enrolment.

COMPUTER STUDIES
Stage I Courses
Mathematics 190 (6 credits) Introduction to Algorithmic Processes
Algorithmic processes with examples selected from fields such as statistics, random number generation, simulation, searching and sorting, network analysis, text editing, symbol manipulation. Programming in ALGOL.

Mathematics 191 (6 credits) Introduction to Computing
The computer and its logical structure, low and high level programming languages, data and program structures, introduction to operating systems. Programming in BASIC and FORTRAN.

Stage II Courses
Computer Studies 210 (4 credits) Computer Organisation
This course deals with the logical structure of digital computers. Topics include the von Neumann computer and extensions, multi-register and stack computers, microprogramming and data communications, and case studies of representative computers.

Computer Studies 220 (4 credits) Information Structures
A course in which information processing techniques are presented in terms of the relationships between items of data to be manipulated. Topics include lists, stacks, queues, sorting and searching, data defining and manipulating languages, file organisation and structured programming.

Computer Studies 230 (4 credits) Programming Languages
Characterisation of programming languages, program and data structures in high-level languages, special purpose languages. Formal description of programming languages, syntax notations, context-free, context-sensitive and regular languages, introduction to compilers.

Mathematics 290 (4 credits) Numerical Computation
(See Mathematics prescriptions).

Stage III Courses
Computer Studies 310 (4 credits) Advanced Computer Organisation
This paper is an extension of Computer Studies 210 covering topics such as multi-processing, virtual storage and advanced machine structures. Enrolment is subject to the approval of the Chairman, Board of Computer Studies.

1976 Calendar
Computer Studies 320 (4 credits) Operating Systems
Principles of operating systems, including handling of concurrent processes, memory management, processor management, task scheduling, file systems and protection. Comparison and evaluation of several current systems. Students will take part in some major software development during the course.

*Computer Studies 330 (4 credits) Compiler Construction

Mathematics 390 (4 credits) Numerical Analysis
(See Mathematics prescriptions).

Mathematics 391 (4 credits) Computational Methods in Linear Optimization
(See Mathematics prescriptions).

Physics 340 (2 credits) Pulse and Digital Electronics
(See Physics prescriptions).

DEPARTMENT OF GEOGRAPHY

Geography for BSc
The prescriptions for Geography courses are as prescribed for Geography papers for BA — see pages 176-177.

Geography for MSc and Honours
(Four papers and a thesis (20.601)).
A candidate is expected to enrol for and sit the four papers in the first year, present the thesis in the year next following and submit it for examination by 1 November of that year. Papers shall be selected from 20.400 50 20.441. For prescription see page 177.

DEPARTMENT OF GEOLOGY

Stage I
Two courses are offered:

21.101 General Geology
Forty-six hours lectures, 46 hours laboratories, 6 credits. Materials of the lithosphere; igneous action and metamorphism; weathering of rocks; transportation and deposition of sediments; structural geology and geomorphology; rock and mineral deposits; the earth as a planet; structure of the earth from seismology and gravity; geological maps.

Field Classes: Each student will be required to attend two field excursions, arranged usually on weekends during term time.

Practical Work: One two-hour practical class must be attended each week. The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.102 Introductory Paleontology, Historical Geology and Sedimentation
Forty-six hours lectures, 46 hours laboratories, 6 credits. Skeletal anatomy and evolution of all major groups of animals and plants; general principles of stratigraphy; geological history and development of New Zealand; sedimentation on continents and in oceans.

Field Classes: Each student will be required to attend two field excursions, arranged usually on weekends during term time.

Practical Work: One two-hour practical class must be attended each week. The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Stage II
Three courses are offered:

21.201 Introductory Tectonics (prerequisite 21.101)
Fifty-eight hours lectures, 46 hours laboratories, 6 credits. Elements and mechanical principles of structural geology. Structures of metamorphic rocks. Geological maps and their construction, regional geology, and hypotheses of global tectonics in the light of geophysics.
Field Classes: A field camp lasting about a week will be held probably during the first vacation and other one-day excursions may be arranged throughout the year. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of these classes which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.202 New Zealand Historical Geology (Prerequisite 21.102)
Fifty-eight hours lectures, 46 hours laboratories, 6 credits. Advanced treatment of the full New Zealand stratigraphic sequence, biostratigraphy, paleogeography, and geological history, with the regional geology of some smaller areas and the comparative paleontology necessary as a background to biostratigraphy.

Field Classes: In conjunction with course 21.201 a field camp lasting about a week will be held probably during the first vacation; other one-day excursions may be arranged throughout the year. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of these classes, which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.203 Determinative Mineralogy
(Prerequisite 21.101; corequisite: Chemistry 101 and 102 or Chemistry 8.100)

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical courses and the written paper is necessary.

Stage III
The following seven courses are offered:

Forty-six hours lectures, 69 hours laboratories, 6 credits. Regional geology of selected areas with special emphasis on orogenic belts. Introduction to applied geophysics; geology and geophysics of the southwest Pacific. Sea-level changes. Advanced methods in structural geology. Elements of surveying; photogrammetry and photogeology; elements of engineering geology. Slide-rule techniques are used throughout this course.

Field Classes: A field camp lasting about a week to ten days will be held probably during the first vacation, and other short trips may also be arranged. Attendance at these field classes is compulsory and students must be prepared to pay a large part of the cost of excursions which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the Marks Schedule of the University. A pass in both the practical work and the written paper is necessary.

21.302 Sedimentology and Marine Geology
(Prerequisites 21.201, 21.203), for exemptions see schedule.
Forty-six hours lectures, 69 hours laboratories, 6 credits. Physical, chemical and biological processes in the major environments of sedimentation; geomorphology, origin and structure of submarine physiographic provinces. Petrography of sedimentary rocks; processes of modern marine sedimentation and erosion.

Field Work: Attendance is compulsory at a field course of at least one week's duration in the May or August vacation anywhere in New Zealand. In addition, a number of single day excursions will be held at weekends during term. Students must be prepared to pay a large part of the costs of these excursions.
Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical work and the written paper is necessary.

21.303 Advanced Paleontology (Prerequisites 21.102 or 39.101 or 6.101)
Forty-six hours lectures, 69 hours laboratories, 6 credits. Advanced treatment of major invertebrate groups (Foraminiferida, Brachiopoda, Mollusca, Coelenterata. Echinodermata, Arthropoda) covering their morphology, origin, evolution, paleoecology and geological history. Paleoecologic principles and practice, paleoecology of other groups of organisms (ichnofossils, Bryoza, etc.).
Field Classes: A total of about seven days of field work will be arranged throughout the year anywhere in New Zealand, attendance is compulsory and students must be prepared to pay a large part of the cost of these excursions.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Note: Since the prerequisites for this unit are first-year courses it is possible to take 21.303 as a second year course; students who intend to major in Geology must obtain the permission of the Head of Department to take 21.303 in their second year.

21.304 Minerals and Mineral Deposits
(Prerequisites 21.203, Chemistry 101 and 102 or Chemistry 8.100; corequisites 21.302 and 21.305)
Sixty-nine hours lectures, 46 hours laboratories, 6 credits. Systematic mineralogy and crystal chemistry; advanced determinative mineralogy using a variety of analytical and instrumental techniques: mineral deposits in sedimentary, igneous and metamorphic environments and their genesis.
Field Classes: A total of about seven days will be spent in the field throughout the year. Attendance at these classes is compulsory and students must be prepared to pay a large part of the cost of these excursions which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.305 Igneous and Metamorphic Petrology
(Prerequisites 21.203, Chemistry 1 or Chemistry 8.100)
Forty-six hours lectures, 69 hours laboratories, 6 credits. Petrography, chemistry, petrogenesis and regional settings of igneous and metamorphic rocks.

Field Classes: A total of about seven days of field work will be held throughout the year; attendance is compulsory and students must be prepared to pay a large part of the cost of trips which may be made anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Forty-three hours lectures, 3 credits. A lecture course covering physical principles, equipment and techniques used in investigating the physical composition of the earth's crust and in mineral exploration.

21.307 Experimental Geophysics (joint laboratory course with Physics Department). (Prerequisites and Corequisites as for 21.306)
Sixty-nine hours laboratories, 3 credits. This is a laboratory course associated with 21.306; use and calibration of geophysical instrumentation, experiments to illustrate basic principles, analysis and interpretation of field data involving both Geology and Geophysics. This course is identical with course Physics 31.393 and those students who satisfy the prerequisites 31.210 and 31.290 should enrol in 31.393.
Field Classes: About seven days of field work will be held throughout the year anywhere in New Zealand. Students must be prepared to pay a large part of the cost of these excursions which are compulsory.

Practical Work. A final pass or fail grade for this unit will be established by assessment and marking of laboratory and field reports on experiments carried out during the course.

1976 Calendar
BSC (Hons) Part IV in Geology
(Three papers and a research project).
The regulations which cover the BSc(Hons) course are listed on page 270. This course in Geology is designed to enable students of high ability to complete an Honours degree in four years and thus be eligible to proceed direct to a PhD degree, and for the award of post-graduate scholarships. Students enrolled for BSc(Hons) Part IV in Geology undertake course work as for first-year MSc students and will select three papers from those prescribed for the MSc degree (21.401-21.406). In addition, they must complete a research project by the beginning of the second half of the academic year, and the marks allotted for the project report count as equivalent to one paper. Admission to the Honours School may be granted at the end of either the second or third year after first enrolment in the Geology Department. Students who wish to be considered for enrolment should consult the Head of Department prior to enrolment or at any time during the preceding year. Students who have been admitted to Part IV should consult the Geology staff about textbooks and particularly about fourth-year research projects at the end of their Stage III year.

Students are reminded of the Foreign Language Reading requirement which is a prerequisite for admission to the degree of BSc(Hons). Candidates must show proficiency in one of the following languages: French, German or Russian.

MSc and Honours in Geology
(Three papers and a Thesis (21.601)).
The MSc is normally a full-time two-year degree, following the completion of a BSc, and consists of three written papers to be selected from 21.401-21.406 together with a thesis which, for examination assessment, counts as two written papers.

21.401 Tectonics and Structural Geology
Analysis of complex structural sequences in metamorphic and non-metamorphic rocks. Principles of strain analysis and rock mechanics. Selected topics in regional geology as related to tectonic theory.

21.402 Sediments and Sedimentary Processes
Sedimentary processes and products in both ancient and modern settings. Identification and interpretation of sedimentary environments; the provenance and subsequent diagenetic history of terrigenous and carbonate sediments.

21.403 Stratigraphy and Paleontology
Principles and practice in stratigraphy and correlation, the fossil record and its interpretation, the historical geology of New Zealand.

21.404 Mineralogy and Geochemistry
The crystal chemistry of mineral systems, the abundance and distribution of the elements in specific geological environments, and selected mineral groups and their paragenesis.

21.405 Genesis of Igneous and Metamorphic Rocks
Studies in the petrology of igneous and metamorphic rocks covering geological settings, PT environments, petrochemistry and mineral assemblages with emphasis on recent developments in the theoretical, experimental and observational fields.

21.406 Advanced Applied Geophysics
The theory and practice of the interpretation of geophysical measurements. The topics covered are presented in two groups in alternate years: (i) (odd years) potential field theory, quantitative interpretation of gravitational and magnetic anomalies (two- and three-dimensional bodies); (ii) (even years) DC and AC resistivity measurements, seismic wave transmission, refraction and reflection studies. Practical work: The year's practical work will be assessed by means of exercises to be completed during the lecture course which will be held during the first half of the year, and two essays and discussion of a seminar topic in the second half.

Note: This course is the same as Physics 433 and is given jointly by the Geology and Physics Departments. Previous enrolment in Physics 330, Geology 306 and Geology 307 is desirable.

PhD in Geology
(Thesis (21.602) and an oral examination).
Facilities are available for research by PhD candidates in many branches of Geology: geochemistry, petrology, mineralogy, structural geology, paleontology and stratigraphy, sedimentology, marine geology and geophysics. Students intending to work for this degree should have reached a satisfactory level of attainment in BSc(Hons) or MSc.

1976 Calendar
ENGINEERING GEOLOGY
The prescription for this subject appears under School of Engineering courses.

LEIGH LABORATORY
The Leigh Laboratory is situated on the east coast, some hundred kilometres north of Auckland, at Goat Island Bay, Leigh. It provides research space, facilities such as running seawater, and living accommodation for seven or more workers. Present work is centered on the ecology and physiology of shore and shallow water organisms and marine geophysics, but the laboratory is open to workers in any branch of marine research.

Excellent collecting grounds are available in the district, though an application has been made for the area in the immediate vicinity of the Laboratory to be designated a Marine Reserve. Within ten kilometres of the laboratory there are examples of almost every kind of shore from mangrove swamps and quiet harbours to exposed rocky shores and surf beaches. A full climate station is maintained and climatic variables in the intertidal region are regularly monitored. The laboratory owns a 6m deep-V high-speed runabout which is available for offshore collecting by Scuba and for plankton and oceanographic sampling. Full facilities are available for quantitative phytoplankton work, seawater chemistry, underwater sound transmission and reception, and respiratory and photosynthetic measurements using oxygen electrodes or manometry. Tank rooms with constantly running seawater can be used for the maintenance of animals and seaweeds.

The Laboratory is managed by a committee composed of the Heads of such Departments as Zoology, Botany and Physics. Students who wish to work for extended periods at the Laboratory must make arrangements with the Director through their supervisor. Short term visitors must book in advance with the Director, Dr W. J. Ballantine, R.D., Leigh (Telephone, Leigh 26-111).

Research facilities and accommodation are available to students proceeding to the BSc, BSc(Hons), MSc, or PhD degrees as well as staff and visiting scientists.

DEPARTMENT OF MATHEMATICS

Stage I Courses
Maths 120 (6 credits) 26.120 Principles of Algebra
Maths 121 (6 credits) 26.121 Introductory Algebra
Maths 122 (6 credits) 26.122 Algebraic methods

Sets, relations, functions; introduction to formal systems and mathematical logic; number systems, integers, mathematical induction, rational numbers, real and complex numbers. De Moivre's theorem; vectors, matrices, transformations in the plane, linear equations; introduction to groups, rings and fields.

These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics to higher stages will normally take Maths 120. However, well prepared students are encouraged to enrol in Maths 121 instead of Maths 120. The alternative courses, Maths 121 and 122, will concentrate more on techniques than theory. Engineering students will be recommended to take Maths 121, which will consist of a selection of topics from the above prescription (excluding groups, rings and fields), together with a brief introduction to probability and statistics. Commerce students are recommended to take Maths 122, which will consist of a selection of topics from the following: Sets, relations, functions; mathematical logic and induction; vectors, matrices, transformations in the plane, linear equations; probability, Markov chains; linear programming.

Students who pass Maths 121 or 122 will require permission from the Head of Department before they may enrol for Maths 220.

Note: Students taking any of these courses who have inadequate preparation in Mathematics are recommended to enrol also for Supplementary Mathematics.

Maths 140 (6 credits) 26.140 Principles of Calculus
Maths 141 (6 credits) 26.141 Introductory Calculus
Maths 142 (6 credits) 26.142 Concepts of Calculus

Sequences, series, convergency; limits, continuity; derivatives and integrals; differential calculus of polynomials and rational functions; antiderivatives and integrals of polynomials; logarithmic, exponential and circular functions; calculus in Euclidean geometry; applications.
These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics to higher stages will normally take Maths 140. However, well prepared students are encouraged to enrol in Maths 241 instead of Maths 140.

Other students are recommended to take Maths 141 or Maths 142, both of which will concentrate more on techniques than on theory. Maths 142 is especially designed to meet the needs of commerce students.

Students who pass Maths 141 or Maths 142 will require permission from the Head of the Department before they may enrol in Maths 240.

Note: Students taking any of these courses who have inadequate preparation in mathematics are recommended to enrol also for Supplementary Mathematics.

Supplementary Mathematics

This course is designed for students whose preparation in Mathematics is not sufficient to allow them to cope easily with the 100-level courses listed above. It may be taken prior to, or concurrently with, these courses. In the latter case the prescribed fee is waived. The course is of two hours duration per week, one hour being devoted to algebra and the other to calculus etc.

Maths 170 (6 credits) 26.170 Principles of Mechanics
Elementary vector algebra; statics of a particle and rigid body; centres of mass and moments of inertia; dynamics of a single particle including work, energy, momentum, simple harmonic motion, motion in a circle and projectiles; introduction to dynamics of a system of particles and of a rigid body.

Maths 180 (6 credits) 26.180 Principles of Statistics
Axioms of probability, random variables, variables and their distributions, expected values, discrete bivariate distributions, sampling methods, small and large sample inference, regression, non-parametric methods.

Maths 181 (6 credits) 26.181 Introduction to Probability and Statistics
The syllabus is similar to that of 26.180 but with less emphasis on mathematical proofs and more emphasis on statistical techniques and their applications. Further topics such as contingency tables, goodness of fit tests, and a brief introduction to the computer will be included. Students intending to advance in statistics to high stages will normally take 26.180. Other students who do not have a good background of pure mathematics and statistics at the sixth or seventh form level are advised to take 26.181. Students who pass 26.181 will require permission from the Head of the Department before they may enrol in 26.280.

Maths 190 (6 credits) 26.190 Introduction to Algorithmic Processes
Algorithmic processes with examples selected from fields such as statistics, random number generation, simulation, searching and sorting, network analysis, text editing, symbol manipulation. Programming in ALGOL.

Maths 191 (6 credits) 26.191 Introduction to Computing
The computer and its logical structure, low and high level programming languages, data and program structures, introduction to operating systems. Programming in BASIC and FORTRAN. Maths 190 and 191 are also available under the subject “Computer Studies” and students majoring in this subject should take both these papers, or at least Maths 191. However, those students who wish to major in Mathematics, and wish to know something about computing are advised to take 190.

Stage II Courses

Maths 210 (6 credits) 26.210 Principles of Mathematics
Enrolment in this course requires permission from the Head of the Department. The course consists of a wide selection of topics from various branches of Mathematics, and further information about the course can be obtained from the Administrative Assistant of the Department of Mathematics.

Maths 220 (6 credits) 26.220 Linear Algebra
Vector spaces, linear mappings, matrices, inner products and norms, determinants, quadratic forms.

Maths 221 (8 credits) 26.221 Algebra (accelerated course)
A selection of topics from Maths 120 and Maths 220 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 120.
Faculty of Science, Prescriptions, Mathematics

Note: Maths 221 and 241 will be taught as an integrated Mathematics course and well prepared students should seek advice from the Mathematics Department as to whether they should take either course or both courses.

Maths 240 (6 credits) 26.240 Calculus
Basic types of ordinary differential equations; linear second order differential equations with constant coefficients; sequences and series of real numbers; L'Hospital's rule and computation of limits; improper integrals; solid analytical geometry; functions of several variables; partial differentiation; multiple integration; elementary vector analysis.

Maths 241 (8 credits) 26.241 Calculus and Analysis (accelerated course)
A selection of topics from Maths 140 and Maths 240 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 140.

Maths 261 (6 credits) 26.261 Applied Calculus
Differential equations, special functions, difference equations, Laplace transform methods, Fourier series, the Fourier transform, the method of separation of variables, vector analysis. Maths 261 may not be taken concurrently with or subsequent to Maths 340 or Maths 360.

Maths 280 (6 credits) 26.280 Statistics
Probability spaces, distribution theory of one or more variables, probability and moment generating functions, statistical inference, goodness of fit, introduction to analysis of variance and experimental design, regression, non-parametric methods.

Maths 290 (4 credits) 26.290 Numerical Computation
Introduction to the numerical algorithms fundamental to scientific computer work. Interpolation and approximations, numerical differentiation and integration, solution of non-linear equations, linear systems of equations.

Stage III Courses

Maths 310 (4 credits) 26.310 Special Topics in Pure Mathematics (a)
Enrolment in this paper requires permission from the Head of the Department. Further information concerning this paper may be obtained from the Administrative Assistant of the Department of Mathematics.

Maths 311 (4 credits) 26.311 Special Topics in Pure Mathematics (b)
Enrolment in this paper requires permission from the Head of the Department. Further information concerning this paper may be obtained from the Administrative Assistant of the Department of Mathematics.

Maths 320 (4 credits) 26.320 Algebraic Structures

Maths 321 (4 credits) 26.321 Introduction to Abstract Algebra
Groups, rings, unique factorization domains, fields.

Maths 330 (4 credits) 26.330 Introductory Analysis

Maths 331 (4 credits) 26.331 Principles of Analysis
Elements of set theory, real numbers, metric spaces, Euclidean spaces, continuity, differentiation, Riemann-Stieltjes integration, sequences and series of functions.

Maths 340 (4 credits) 26.340 Multivariable Calculus
Real valued functions of several variables, multiple integration, vector analysis, introduction to complex analysis.

Maths 350 (4 credits) 26.350 Geometry
A selection of topics chosen from axioms systems, affine geometry, Euclidean geometry, projective geometry, Minkowski space and special relativity, hyperbolic geometry, topology, differential geometry, groups and geometry. Enrolment in this course requires permission from the Head of the Department.

1976 Calendar
Maths 360 (4 credits) 26.360 Applied Analysis
Differential equations, the special functions of applied mathematics, orthogonal polynomials, Fourier series, Boundary value problems.

Maths 361 (4 credits) 26.361 Mathematical techniques of Operations Research
A selection of topics from applied probability, queueing theory, applications of linear and non-linear optimization, simulation and Monte-Carlo methods.
Enrolment in this course requires permission from the Head of the Department.

Maths 362 (4 credits) 26.362 Special topics in applied mathematics
Enrolment in this course requires permission from the Head of the Department. Further information concerning this course may be obtained from the Administrative Assistant of the Department of Mathematics.

Maths 370 (4 credits) 26.370 Mechanics
General dynamical principles, theory of rotating axes, motion under central forces, motion of a rigid body, Lagrange’s equations of motion.

Maths 371 (4 credits) 26.371 Field Theory
An introduction to electromagnetism and fluid dynamics.

Maths 380 (4 credits) 26.380 Probability
Introduction to stochastic processes, generating functions, recurrent event theory, Markov chains including applications to random walks and discrete branching processes, Poisson processes, birth and death processes including applications to queueing processes, miscellaneous topics.

Maths 381 (4 credits) 26.381 Linear Statistical Models
Expectation and covariance operators for random vectors, quadratic forms, multivariate normal distribution, detailed study of multiple linear regression, analysis of variance and covariance.

Maths 390 (4 credits) 26.390 Numerical Analysis

Maths 391 (4 credits) 26.391 Computational Methods in Linear Optimization
Linear programming; Simplex and revised Simplex methods; duality; decomposition and column generation; integer programming; applications from network problems, graph theory, transportation.
Prescribed texts: A list of prescribed texts and recommended books may be obtained from the Administrative Assistant of the Department of Mathematics.

Courses for MA, MSc and Honours.

The Prerequisites for the MA and MSc degrees are: Mathematics 320 or 321, 330 or 331, 340 together with three other papers, of which at least two are at 300 level, selected from 260 to 299, 360 to 399 and those papers in Computer Studies approved by the Head of Department, (at least one of 261 and 360 must be included), together with a pass in the Foreign Language Reading Examination.

A student shall select five papers, approved by the Head of Department of Mathematics, from 26.400 to 26.499 together with a thesis (26.601) or an advanced course of study (26.603) (which will count as three papers). One of these papers may be replaced by one of 26.310 to 26.399 not already taken for any other degree or diploma.

Not all of the papers listed will be offered each year. The prescriptions for such of the ‘topic’ papers as are offered will be determined each year by the Head of the Department of Mathematics. When the course number ends with a suffix A or B, this indicates that the course in question is a half paper. Subject to the approval of the Head of Department, any paper may be replaced by two of these half papers.

A candidate must normally complete his thesis or advanced course of study not later than twenty four months after his first enrolment for this degree.

**BSc (Honours) in Mathematics**

Prerequisites for Part IV of the BSc(Hons) degree are: six courses from Mathematics 310 to 399, including 320 or 321, 330 or 331, 340, 360 and two of 361 to 399. If Mathematics 261 has been
Faculty of Science, Prescriptions, Engineering Mechanics, Pathology, Physics 257

passed then 360 may be replaced by one other 300 or 400 level paper. However, students of proven ability may be considered for entry at either Part III or Part IV level.

The courses available at Part III level are such as will allow a candidate to satisfy the prerequisites for Part IV. The requirements for Part IV are five courses as prescribed for the degree of MSc. Students who obtain the BSc(Hons) will be permitted to complete the MSc by presenting a thesis or completing an advanced course of study as approved by the Head of the Department of Mathematics.

Diploma in Computational Mathematics

Candidates for this diploma must have completed a Bachelor's degree and will normally have obtained passes in Mathematics papers 220, 240, 290 and at least one of 170 and 180. The course of study consists of five papers including at least three on computational topics at 300 or 400 level, taught within the Mathematics Department, together with a project, 26.700. In addition to the 400 level papers available to MSc students those papers in Computer Studies approved by the Head of the Department will be available for diploma students.

Diploma in Statistics

Candidates for this Diploma must have completed a Bachelor's degree and will normally have obtained passes in Mathematics papers 220, 240, 280. The course of study consists of five papers including at least three at 300 or 400 level on topics in the areas of probability and statistics taught within the Mathematics Department, together with a project, 26.701.

DEPARTMENT OF MECHANICAL ENGINEERING

57.100 Engineering Mechanics

An elementary course on the principles of mechanics including: Statics; The equilibrium (in two dimensions) of a particle, rigid body and simple systems of rigid bodies. The laws of friction; Newton's laws of motion; Application to the motion of a particle moving in a straight line or in a plane, an introduction to the dynamics of a system of particles and to the motion of a rigid body. The concepts of momentum, energy, their conservation and of power. These principles will be applied to examples of mechanical systems of relevance in engineering. Material on vector algebra, centre of mass and moments of inertia included as required in the above.

DEPARTMENT OF PATHOLOGY

Pathology for MSc and Honours

(Two papers and a Thesis (68.601)).

68.401, 68.402 The study of selected fields of Pathology at an advanced level with detailed study of one particular field. The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

DEPARTMENT OF PHYSICS

Stage I Courses

Physics 104 (4 credits) Basic Electronics for Instrumentation

This course is intended for non-physicists who need to use and understand electronic instrumentation. It aims to provide a basic understanding of electronic circuits and electronic instruments commonly used for scientific purposes.

The topics covered include:

(1) the calculation, measurement and observation of direct, alternating and transient electrical signals;

1976 Calendar
(2) a discussion of the factors which cause measurement and observational errors;
(3) the characteristics of some active circuit devices, including transducers;
(4) the operating principles and uses of power supplies, amplifiers and oscilloscopes;
(5) simple logic circuits and their use in the control of experimental parameters.

The course will consist of 12 1-hour lectures and 12 2-hour laboratory periods. The laboratory work is an integral part of the course in which a substantial part of the instruction will take place.

Physics 105 Acoustics (Paper 28.113 for BMus)
This course forms part of the requirements for the degree of Bachelor of Music and is examined as paper 28.113. The course is given in alternative years and will next be given in 1977. Topics covered include the fundamental principles of oscillations and wave propagation; stationary waves; resonance; loudness; pitch; tone quality; intervals and scales; the principles of operation of stringed, woodwind, brass and other instruments; the electronic production and reproduction of sound; and the acoustics of rooms.

Physics 110 and 120
These courses are given in the first and second half-years respectively and are intended for students who wish to advance in the physical sciences and mathematics. Both courses must be passed before certain of the Stage II and more advanced courses in physics may be taken.

Mathematics up to University Entrance standard will be assumed. Students who have not completed a further year of study in physics beyond University Entrance standard may have difficulty with these courses.

Students who do not attain the standard required for a pass in Physics 110 or 120 may be credited with a pass in Physics 115 or 125 respectively.

Physics 110 (6 credits)
Lectures for four hours per week in the first half-year selected from the following topics: mechanics, wave motion, heat and thermodynamics, sound and light. Tutorial assistance is available.

Laboratory Course. Three hours of practical work each week, in conjunction with the lecture material.

Physics 120 (6 credits).
Lectures for four hours per week in the second half-year from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Physics 113 and 123
These courses are given in the first and second half-years respectively as part of the requirement for Engineering Intermediate. They are similar in content and standard to the courses Physics 110 and 120, and may be credited in lieu of those courses towards the BSc degree for students who do not wish to continue in Engineering. This credit will satisfy any prerequisite requirements for the advanced courses in physics which refer to Physics 110 or 120. Students who do not attain the standard required for a pass in Physics 113 or 123 may be credited with a pass in Physics 115 or 125 for the purposes of the BSc degree.

Mathematics up to University Entrance standard will be assumed. Students who have not completed a further year of study in physics beyond University Entrance standard may have difficulty with these courses.

Physics 113 (6 credits).
Lectures for four hours per week in the first half-year selected from the following topics: heat, thermodynamics, wave-motion, sound and light. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.
Physics 123 (6 credits).
Lectures for four hours per week in the second half-year selected from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Physics 115 and 125
These courses are given in the first and second half-years respectively and are intended primarily for students who intend to proceed to courses in medicine (Otago), dentistry, agriculture, architecture, home science, surveying, pharmacy and optometry. They are also recommended for students taking a BA degree or a BSc degree in natural science subjects. Mathematics and physics up to University Entrance standard will be assumed.

Students who are credited with a pass in Physics 115 or 125 may enrol for Physics 200 but are not eligible to enrol for any other advanced courses in Physics. Students who gain a sufficiently high standard of pass in Physics 115 or 125 may be granted a pass in Physics 110 or 120 respectively.

Physics 115 (6 credits)
Lectures for four hours per week selected from the following topics: mechanics, wave motion, heat and thermodynamics, sound and light. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with lecture material.

Physics 125 (6 credits)
Lectures for four hours per week selected from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available.

Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Stage II Lecture Courses

Note: There is no laboratory requirement for any of the advanced lecture courses in Physics, but not more than TWO of the courses Physics 210-250 may be credited unless the laboratory course Physics 290 is also credited.

Physics 200 (4 credits) Topic in Contemporary and Applied Physics
This course provides an introduction to a variety of topics in physics of contemporary interest, such as space physics, astrophysics, geophysics and biophysics. It also discusses the basic physics involved in a variety of general topics such as music, photography and microscopy. The course is descriptive in nature and makes extensive use of demonstrations, slides, films and closed circuit TV. One two-hour lecture per week is devoted to each topic, with a different lecturer each week.

The prerequisite for Physics 200 is one of the courses Physics 110-125 or Physico-chemistry for Human Biology. This course is examined by continuous assessment.

Lectures: Two hours per week throughout the year.

Physics 201 (2 credits) Astrophysics
This is an introductory course covering such topics as stellar structure and evolution, galaxies and cosmological theories.

The prerequisites for Physics 201 are any one of Physics 110, 113 or 115, together with any one of Physics 120, 123 or 125.

Physics 210-250
The prerequisites for each of these courses are Physics 110 and 120, and Mathematics 120 and 140. Students are recommended to enrol concurrently in Mathematics 220 and 240. Students not planning to take Mathematics 340 and 360 may wish to enrol also in Mathematics 261. Each course comprises two hours of lectures each week during one half-year. Tutorial assistance may be provided by arrangement with the lecturer.

Lists of text books or books for recommended reading are available from the Departmental Office by 1 December of the year prior to enrolment.

1976 Calendar
Physics 210 (2 credits) Oscillations and Waves
The aim of this course is to examine the general properties of waves and to consider the usefulness of wave equations by means of specific examples. Undamped, damped and forced vibrations are treated for electrical and mechanical systems. The elastic properties and elastic constants of materials are discussed, and the propagation of waves in elastic media is treated, with special emphasis on acoustics.

Physics 220 (2 credits) Electromagnetism
The aim of this course is to cover the basic theory of the commonly observed electromagnetic phenomena. The lectures will deal with electrostatics, magnetostatics, dielectric and magnetic materials, electromagnetic induction, Maxwell's equations, electromagnetic waves, relation between Special Relativity Theory and Maxwell's equations and applications thereof. Relevant aspects of the differential vector calculus are also included.

Physics 240 (2 credits) Electronic Physics
The aim of this course is to provide students with a fundamental understanding of the basic electronic circuits which are useful in physics instrumentation. The lectures will cover (i) d-c, a-c and transient circuit theory, (ii) semiconductor device physics, (iii) circuit applications of semiconductor devices, and (iv) principles of electronic design and instrumentation.

Note: Students are recommended to enrol concurrently in the laboratory course Physics 290; however, those students specialising in Computer Studies who are taking Physics 240 solely as a prerequisite to Physics 340 are recommended to enrol for Physics 290 concurrently with Physics 340, unless they intend to enrol for Physics 390, 391 and 392.

Physics 250 (2 credits) Quantum Physics
The aim of this course is to introduce students to the concepts and methods of quantum theory. The formal structure of the theory will not be stressed. The course will cover the Schrodinger equation, and its application to simple quantum systems.

Stage II Laboratory Course
Physics 290 (6 credits) Experimental Physics
This is a laboratory course which supplements the lectures at Stage II level. It occupies two three-hour periods each week throughout the year, and is examined on the basis of continuous assessment. The course is preceded by five lectures on statistics and the analysis of experimental data. Physics 290 is prerequisite to the laboratory course at Stage III level, and must be passed before more than two of the courses Physics 210-250 may be credited. The prerequisites for Physics 290 are Physics 110 and 120, Mathematics 120 and 140.

Note: Students specialising in Computer Studies should refer to the note under Physics 240.

Stage III Lecture Courses
Note: There is no laboratory requirement for any of the advanced lecture courses in Physics, but not more than THREE of the courses Physics 312-385 may be credited unless at least ONE of the laboratory courses Physics 390-392 is also credited.

Physics 312-385
The prerequisites for these courses are listed in the schedule of courses on pages 225-226. Students are recommended to enrol concurrently in Mathematics at Stage III level, the courses Mathematics 340, 360, 381, 390 being the most relevant. Students not wishing to enrol in Mathematics 340 or 360 are recommended to enrol in Mathematics 261. Students should note the prerequisite requirement for MSc in physics (see page 234) and the arrangements concerning MSc theses (see page 265). Each course comprises two hours of lectures for one half-year. Tutorial assistance may be provided by arrangement. Lists of text books or books for recommended reading are available from the Departmental Office by 1 December of year prior to enrolment.
Faculty of Science, Prescriptions, Physics 261

Physics 312 (2 credits) Classical Mechanics
This course aims to give a brief review of the non-relativistic mechanics of systems of particles, and to develop the principles of generalised classical mechanics as they are used in physics. It will deal with the following topics: momentum, energy, angular momentum of single particles, and particle systems, generalised coordinates, constraints, Lagrange’s equations, two-body problem, central forces and orbits, rigid body motion, Hamilton’s principle, conservation theorems and symmetries, Hamilton’s equations, canonical transformations, Poisson brackets. Emphasis is also laid on the parallels between the classical and quantum theories of mechanics.

Physics 313 (2 credits) Thermodynamics and Statistical Mechanics
This course is designed to extend the elementary consideration of heat and kinetic theory to cover the foundations of statistical mechanics, with application to quantum statistics. The following topics are covered: thermodynamics — first and second laws, entropy; kinetic theory — Boltzmann transport equation, H-theorem, transport problems; statistical mechanics — Boltzmann, Fermi and Bose distributions.

Physics 320 (2 credits) Electromagnetism and Electromagnetic Waves
The course extends the electromagnetism of Physics 220 to the general situation, carrying on through Maxwell’s equations to the propagation and properties of EM waves. The lectures are based on the following topics: electrostatics in terms of Laplace’s equation, including its solution in terms of Legendre polynomials and cylindrical harmonics; dielectrics; magnetic fields and currents; Maxwell’s equations; Lienard Wiechert potentials. Electromagnetic wave propagation, wave guides; radiation from antennas, reflection, refraction and scattering of electromagnetic waves. Introduction to physics of plasmas as relating to electromagnetic waves.

Physics 330 (2 credits) Terrestrial Physics
This course is intended to provide a general introduction to the physics of the solid earth. It may be taken independently of the courses Physics 331 and 332, but the three courses taken together provide an overall picture of the physics of the Earth.
Note: Physics 330 is a corequisite to the courses Geology 306 Applied Geophysics and Geology 307/Physics 393 Experimental Geophysics. It has associated with it some particular experiments in applied geophysics which are also available to any students enrolled for the laboratory courses Physics 391 or 392.

Physics 331 (2 credits) Marine Physics
This course is intended as a general introduction to physical oceanography. It may be taken independently of the courses Physics 330 and 332, but the three courses together provides an overall picture of the physics of the Earth.

Physics 332 (2 credits) Atmospheric Physics
This course is intended to provide a general introduction to the physical processes involved in the lower atmosphere. It may be taken independently of the courses Physics 330 and 331, but the three courses taken together provide an overall picture of the physics of the Earth.

Physics 340 (2 credits) Pulse and Digital Electronics
This course provides a systematic introduction to digital circuits and concepts that are basic to contemporary instrumentation and computation. The aim is to lead students from simple switching concepts in linear passive circuits via non-linear discrete semiconductor devices to integrated circuits and basic instrumentation systems. The course is of interest to all students intending to undertake experimental work and it is recommended by the Board of Computer Studies for students with an interest in Computer Science.
Note: Students in this course will benefit substantially by also enrolling in Physics 290, 390, 391 or 392.

Physics 341 (2 credits) Circuit Electrophysics
This course is concerned with steady-state a-c circuit theory applied to both passive and active circuit analysis. Topics discussed include complex vector loci, Nyquist and Bode diagrams, matrix representation, s-plane concepts and operational amplifiers. Emphasis is placed on circuits suitable for instrumentation and data acquisition wherever possible. In common with Physics 340 this course is of interest to students intending to undertake experimental work although it is rather more theoretically biased.
Note: Students in this course will benefit substantially by also enrolling in Physics 390, 391 or 392.
Physics 342 (2 credits) Semiconductor Physics and Devices
This course is concerned with the physics underlying the electrical behaviour of semi-conductor materials and junctions. It also applies these ideas to the understanding of the operation of some of the large number of semiconductor devices in existence. This course is of general interest and may be taken independently of Physics 340 and 341.

Physics 350 (2 credits) Quantum Mechanics and Atomic Physics
The course is designed to give an understanding of the observed behaviour of atomic systems in terms of the quantum theory. The following topics are discussed: (a) the one-dimensional Schrödinger equation and its application to linear molecules; (b) the quantization of orbital angular momentum and the extension of Schrödinger's equation to three dimensions; (c) perturbation theory and an introduction to matrix mechanics; (d) the spectra of hydrogen, hydrogen-like ions, alkali-like spectra and exotic atoms and their interpretation; (e) the spectra of helium, helium-like ions and the alkaline earth elements and their interpretation.

Physics 352 (2 credits) Molecular and Solid-State Physics
The molecular physics section of the course covers the following topics: the hydrogen molecular ion, the hydrogen molecule, covalent and ionic bonds, molecular rotational and vibrational spectra and their interpretation using Schrödinger theory. The solid state section of the course deals with the structure of crystals and crystal lattices, lattice vibrations and the thermal properties of solids. The band theory of solids in terms of the quantum theory is also covered, as well as other selected topics. Concurrent or prior enrolment in Physics 350 is desirable.

Physics 353 (2 credits) Nuclear and Particle Physics
The aim of this course is to discuss the basic properties of atomic nuclei and elementary particles, and to give an introduction to recent developments in these fields. The course is divided into two sections: Nuclear physics: basic properties of nuclei, radioactive decay, nuclear reaction mechanisms, introduction to nuclear models. Particle physics: discovery of mesons, resonances and strange particles, basic properties of elementary particles and their interactions, introduction to quark models.

Physics 380-385 (each 2 credits) Selected Topics
Subject to the approval of the Head of Department students may select not more than two topics from those offered at MSc level in Physics. Any necessary prerequisites or corequisites will be as determined by the Head of Department.

Stage III Laboratory Courses
Physics 390, 391, 392 (each 3 credits) Experimental Physics A, B, C
Three general laboratory courses are available at Stage III level in Physics, and students may enrol for one or more of these in the same or subsequent years. Each course normally occupies two three-hour laboratory periods for half the year, but laboratory times are flexible depending on the allocation of experiments in the Advanced Laboratory, and Physics 392 may be spread over the whole year, at the discretion of the laboratory manager. Each course will contain a representative selection of experiments from different branches of physics, but will in addition contain experiments selected as far as is practicable to suit the particular interests of students. Experiments are available in general physics, atomic and nuclear physics, electronic physics and pure and applied geophysics.

In view of the value to be derived towards an understanding of experimental physics, it is expected that all students taking the courses Physics 390 and/or 391 will offer themselves for a period of Stage I laboratory demonstrating.

Students may enrol for Physics 390, 391 or 392 whether or not they are enrolled for lecture courses in Physics, but concurrent or prior enrolment in Stage III lecture courses will be an advantage. At least ONE of the courses 390, 391 and 392 must be credited before more than three of the courses Physics 312-385 may be credited. At least TWO of the courses 390, 391, 392 or 393 are required as a prerequisite to Masters in Physics. The Stage II laboratory course Physics 290 is prerequisite to each of 390, 391 and 392.
Faculty of Science, Prescriptions, Physics 263

Note: Certain experiments in applied geophysics from the course Physics 393 are available in the second half-year within Physics 391 and 392 for students who have not enrolled and do not intend to enrol in Physics 393.

Physics 393 (3 credits) Experimental Geophysics
This is a joint course offered by the Geology and Physics Departments and is the same as Geology 307. Students holding the Physics prerequisites 31.210 and 31.290 should enrol in Physics 393. For further information on this course students should consult the entry under 21.307 Experimental Geophysics on page 250 of the Calendar.

Physics for MSc and Honours

Lecture Courses Physics 410-485.
A number of lecture courses are available for the MSc degree in Physics covering a wide range of topics. Not all the papers listed may be offered each year, and a sufficient number of enrolments will be required in each case. Students are required to attend FIVE courses from those listed, of which FOUR are to be presented for examination. Students must inform the Head of Department in writing of their choice of papers for examination at dates to be notified. With the approval of the Head of Department it is possible to select one Stage III course in Physics not previously taken, or with the approval of both Heads of Departments concerned one Stage III course in another subject, as one of the five courses required for the MSc degree in Physics. In these cases additional coursework may be required and a special examination will be set as one of the "Selected Topics" 31.480-485. With the approval of Senate a Masters paper in another subject may be substituted for one of the papers in Physics.

Students will be advised in their selection of courses at enrolment, but should discuss their proposed course of study and possibly thesis topic with lecturing staff before the end of the Stage III year. There are no specific prerequisites for the individual lecture courses, but it is desirable that students should have taken the corresponding Stage III course where this is indicated. Concurrent enrolment in suitable courses may be advised.

Lists of textbooks or books for recommended reading are available from the Departmental Office by 1 December of the year prior to enrolment, but the advice of the lecturing staff should be sought before purchases are made.

Physics 410 Transform methods
This course deals with the theory and application of transform methods to linear physical systems. Topics presented include: convolution, continuous and discrete Fourier transforms, Laplace transforms, z-transforms, electric circuits. Fourier spectroscopy, diffraction theory and holography.

Physics 414 Relativity
Introductory lectures on tensors are followed by a review of the Special Theory of Relativity. This covers kinematics, dynamics, and electromagnetism. Special emphasis is laid on the covariance of relativistic relations. Tensor theory is then further developed, and the fundamental postulates leading to the General Theory of Relativity presented. The course concludes with a brief study of Einstein's theory of gravitation and observational tests.

Physics 420 Plasma Physics and Ionosphere
Plasma physics is introduced by considering the motion of charged particles in perturbed magnetic fields under the “guiding centre” approximation. The basic equations for fully ionized plasma are developed and applied to fusion machines and astrophysical problems. Waves in plasma are treated in a manner which includes the motion of positive ions as well as electrons. The physics of the upper atmosphere is described, at heights up to 50,000km. The production and movement of ionisation at different heights, and the changes with time, position and solar activity, are then considered from a theoretical and practical viewpoint. Emphasis is placed on methods of investigation using radio waves and satellites.

Note: Previous enrolment in Physics 320 is desirable.

Physics 431 Ocean Acoustics and Dynamics
Ocean Acoustics — 10 lectures: Theoretical treatments of acoustic propagation in the ocean.
Ocean Dynamics — 13 lectures: Equations of fluid motion on the rotating earth; Reynolds
stresses; planetary boundary layers; circulation and vorticity in a planetary fluid; linear vorticity balance theories of the wind-driven ocean circulation.

Note: Previous enrolment in Physics 331 is desirable.

Physics 432 Cloud Physics
The aim of the course is to provide a detailed understanding of the condition of the atmosphere and the various physical processes which lead to the formation of clouds, the onset of precipitation and the occurrence of lightning discharges. The contents of the course includes: the theory of nucleation of condensation, freezing and sublimation. The measurement of nucleating agents in the atmosphere. Observations of cloud microstructure and its relation to rainfall probability. The theory of droplet growth and the development of droplet populations. The formation of rain and its characteristics. The growth of ice in the atmosphere, leading to precipitation. The electrical properties of clouds and studies of the lightning flash. Thunderstorm theories. Current research in cloud physics.

Note: Previous enrolment in Physics 332 is desirable.

Physics 433 Advanced Applied Geophysics
The theory and practice of the interpretation of geophysical measurements. The topics covered are presented in two groups in alternate years: (i) (odd years) potential field theory, quantitative interpretation of gravitational and magnetic anomalies (two- and three-dimensional bodies); (ii) (even years) DC and AC resistivity measurements, seismic wave transmission refraction and reflection studies.

Practical Work: The year's practical work will be assessed by means of exercises to be completed during the lecture course which will be held during the first half of the year and two essays and a discussion of a seminar topic in the second half.

Note: This course is the same as Geology 406 and is given jointly by the Geology and Physics Departments. Previous enrolment in Physics 330, Geology 306 and Physics 393 is desirable.

Physics 440 Digital Electronics
A course in digital and high speed pulse electronics with applications in instrumentation and digital systems. Topics discussed include: number systems and codes, combinational logic, sequential digital systems (synchronous and asynchronous), digital system components and high speed switching devices.

The course is of interest to students intending to undertake experimental work in any field of study and -particularly to those with an interest in Computer Science.

Note: Previous enrolment in Physics 340 is desirable.

Physics 441 Signal Processing
This course is concerned with the theory and application of modern techniques used in the transmission, reception and interpretation of signals. Topics presented include: operational amplifiers and active filters, modulation and detection of signals in the presence of noise, signal analysis by analogue and digital processes, digital filtering, phased detectors and optical signal processing methods.

Note: Previous enrolment in Physics 341 is desirable and concurrent enrolment in Physics 410 is recommended.

Physics 450 Quantum Theory
This course extends the work already covered in Physics 250 and 350. Students are introduced to linear vector spaces in quantum mechanics and Dirac's bra and ket notation. An introduction to formal scattering theory is given. Rotations and other symmetry operations with applications are discussed. Time dependent perturbation theory is treated, along with several applications.

Note: Previous enrolment in Physics 312 and 350 is desirable.

Physics 453 Nuclear Physics
This course extends and treats more quantitatively topics already introduced in the nuclear physics part of Physics 353. The following topics are discussed: nucleon — nucleon forces, the nuclear three body problem, shell model of the nucleus, collective states, reaction mechanisms, fission and beta decay.

Note: Previous enrolment in Physics 350 and 353 is desirable, and students are recommended to enrol concurrently in Physics 450.

Physics 454 Elementary Particle Physics
Relativistic quantum theory and properties of spin-½ particles; properties of the elementary particles as experimentally found and introduction to the theory of their strong and weak interactions; quantum field theory; cosmic rays; survey of current experimental and theoretical research approaches.

Note: Previous enrolment in Physics 350 and 353 is desirable, and students are recommended to enrol concurrently in Physics 450.
Physics 455 Quantum Optics
Modern developments in the basic theoretical description of light fields and of optical phenomena. Statistical properties of light fields, coherence, photon detection, photo-electron counting and correlation with applications to very high resolution spectroscopy in light-scattering processes. The laser and non-linear optical phenomena.
Note: Previous enrolment in Physics 350 is desirable.

Physics 480-485 Selected Topics
Special Lectures
Short courses of lectures on special techniques and instrumentation relevant to research activities of interest to the Department will be given from time to time. These lectures are available to staff and students and do not form part of the MSc examination.

Thesis
Physics 490
An experimental or theoretical thesis is required, and will count as FOUR papers. A list of thesis topics is produced during the third term for the following year, and students who intend to enrol are asked to consult this list and to select a topic after discussion with the lecturing staff concerned. The thesis may be completed by February 1 of the second year of MSc enrolment, provided that students have commenced work on the thesis in December of their Stage III year. Theses will otherwise be expected to be completed by 1 October of the second year of enrolment. Extension of time for a third year may be granted in exceptional circumstances.
The Department is prepared to meet the cost of an additional copy of the thesis for the Departmental thesis library, and students are asked to provide such a copy.

Foreign Language Reading Requirement
Students are reminded of the Foreign Language Reading requirement which is a prerequisite for admission to the MSc degree. The prescribed language is normally German or Russian; classes are arranged by the Department concerned.

Research in Physics
Facilities are available for postgraduate and postdoctoral research in Physics in a wide variety of fields. Further information is available from the Departmental Office.
The PhD degree in Physics normally requires about two and a half to three years full-time work. Part-time study is possible after the initial two years.

DEPARTMENT OF PHYSIOLOGY
Physiology for MSc and Honours
(Two papers and a Thesis (67.601)).
67.401, 67.402
The study of selected fields of Physiology at an advanced level with detailed study of one particular field. The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.
Students from other Universities must have completed Physiology III or the equivalent.
Students are reminded of the Foreign Language reading requirement which is a prerequisite for admission to the MSc degree. The prescribed language may be French, German, Italian, Russian, or such other language as may be approved by the Head of the Department.

DEPARTMENT OF PSYCHOLOGY
Notes on Courses: Zoology and Mathematics are useful subjects for students advancing in Psychology for degrees in Science. The Schedule attached to the Course Regulations for the Degree of BSc should be consulted for prerequisites and corequisites. The Science Faculty handbook contains further useful advice.

Psychology Stage I
Note that paper 33.106 is a corequisite for paper 33.107.
33.106 Introductory Psychology
Laboratory: Laboratory attendance and other practical work of two hours per week will be required. The practical work will be assessed for each candidate.

33.107 Biological Psychology
Laboratory: Laboratory attendance and other practical work of two hours per week will be required. The practical work will be assessed for each candidate.

Psychology Stage II

33.201, 33.202, 33.203, 33.204, 33.205.
Three papers must be taken by students wishing to advance to Stage III.

Terms in Psychology II. Any student who is enrolled for two or more papers of Psychology II must satisfy the Department's requirements in statistics in order to keep Terms in each of the papers for which he is enrolled. Students can satisfy the requirements either:
(a) by having passed paper 26.181 offered by the Department of Mathematics; or
(b) by passing a test based on W. S. Ray Basic Statistics (Appleton-Century-Crofts, 1968). The first test will be held during the first week of Term I at a time and place to be announced. Students who feel prepared may sit this test and successful candidates will satisfy the Department's requirements in statistics. Those not passing the test will be required to attend a course of eight lectures in statistics, and sit a second test to be held in the last week of Term I. Those not passing the second test will be required to attend a further course of lectures, and sit a third test in the last week of Term II.

33.201 Operant Behaviour
A number of original articles will be referred to during the year. A useful supplementary text is: Nevin, J. A. The Study of Behaviour (Scott, Foresman).

33.202 Sensation and Perception

33.203 Comparative Psychology

33.204 Social Behaviour

33.205 Physiological Psychology
Laboratory: Laboratory attendance or other practical work of not less than two hours per week will be required for each paper at the Stage II level.

Psychology Stage III

Twenty Stage III Psychology points are required for entry to MSc and Honours in Psychology.
Note: Paper 33.301 covers some of the essential skills required for professional work in psychology and should be taken by all candidates who may wish to work with clients.

33.301 The Psychology of Individual Differences
This course will include practical instruction in psychological testing.

33.302 Psychological Theory
The course will include consideration of some continuing and contemporary psychological issues and problems.

33.303 Cognitive Process
This course examines the psychology of language, memory and thought.

33.304 Theory and Systems of Personality
Differing theoretical conceptions of personality are treated; the major viewpoints are clinical, psychometric, behavioural and phenomenological.

33.305 Physiological Psychology
This course will consist of an examination of the physiological bases of behaviour.

33.306 The Design of Psychological Experiments
This course will include the nature of experimentation in research on operant behaviour; curve fitting; multiple regression; parametric and non-parametric methods; factorial design; probability and analysis of variance.
Reference will be made to other books and original papers during the course.

33.307 The Psychological Analysis of Vision and Hearing
The course will include a study of the effects of noise on man.
33.308 Special Topic
A research topic undertaken under the supervision of a staff member and written up for presentation instead of a final paper.

33.309 Learning
Laboratory attendance or other practical work of two hours per week will be required for each Stage III level paper.

Psychology for MSc and Honours
[Four papers and a Thesis (33.601) which is equivalent to three papers.]
Students in consultation with the Head of Department will select four papers from among the following:

33.401 History of Psychology
+33.402 Quantitative Psychology
33.403 Applied Analysis of Human Behaviour
33.404 Sensation and Perception
33.405 Comparative Psychology
33.406 Physiological Psychology
33.407 Theoretical Psychology
For 1976, this paper will be devoted to attentive performance. The course will include consideration of tasks regarded as measuring attention, correlates of attention and variables influencing attention.
33.408 Clinical Neuropsychology
33.409 Abnormal Psychology
33.410 Neuropsychology
33.411 Advanced Operant Behaviour
33.412 Experimental Study of Social Behaviour
33.413 Contemporary Issues in Developmental Psychology
33.414 Physiological Optics
Candidates for the Master's degree should consult the Head of the Department as soon as possible after the completion of the Bachelor's degree, in order to select the thesis topic and obtain advice on vacation reading, text-books and laboratory facilities.

Students are reminded of the Foreign Language Reading requirement which is a prerequisite to the MSc degree. The prescribed language may be German, French, or Russian.

DEPARTMENT OF ZOOLOGY

Stage I

The complete first-year course consists of two 6-credit papers, Biology 101 (paper 39.101) and Zoology 102 (paper 38.102). Credit will not be given in either paper unless a pass in the corresponding practical work is gained (B.Sc. regulation 7).

Biology 101 Central Concepts in Biology
An introductory course dealing with biological concepts common to animals, micro-organisms and plants; organic evolution; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; fundamental processes of ecosystems; population and community dynamics; genetic principles and mechanisms. This course may be taken as part of the Stage I requirement in either Botany or Zoology, but may not receive credit in both.

Zoology 102 Animal Evolution and Diversity
A survey of the evolution of animals, considering both the broad aspects of the evolutionary progression and detailed adaptations in physiology and anatomy to specific habitat and life history situations.

1976 Calendar
Biology for BA

This is a Stage I course for students who do not plan to take a science degree. The course is intended as a general survey of the biological sciences, with elementary chemistry, physics and mathematics being introduced as necessary. The course cannot be used as a prerequisite for advanced Botany or Zoology. Weekly attendance at one 2-hour laboratory is required. Enrolment is through the Zoology Department at the allotted time for Science courses.

39.111 Unifying concepts in Biology
Given during the first half of the year, with some lectures in conjunction with Biology 101 (Central Concepts in Biology).
Cell Structure; Energy relationships; photosynthesis and respiration; Molecular Biology: control of synthesis of nucleic acids, proteins and macromolecules; Genetics: mechanisms of inheritance; Organic Evolution; Basic principles of ecology.

39.112 Biological Diversity and Function
Presented during the second half of the year. Resume of the Plant and Animal Kingdoms, with emphasis on human importance. Elementary Plant and Animal Physiology and Development.

Advanced Courses

Zoology 201, 301 Non-chordate Zoology
Note: This course will next be offered in 1977.
The classification, structure and functioning of the invertebrates. A wide range of phyla will be considered; treatment of the main groups of land arthropods (Arachnida; Insecta and Myriapoda) will be limited to a study of their basic organization and their evolutionary relationships with other arthropods.

Zoology 202, 302 Chordate Zoology
The evolution and biology of the hemichordates and protochordates. The evolution, structure and ecology of the Vertebrata, with particular reference to function and adaptation. Adaptations of mammals to special environments.
The practical course includes the study of vertebrate animals in the laboratory and in the field, and instruction in the preparation of material for microscopic study.

Zoology 203, 303 Animal Orientation and Timing
Orientation mechanisms and biological timing. A study of the orientation behaviour involved in habitat selection, migration, homing and predation in animals, with emphasis on the investigation of the mechanisms of these reactions using control systems analysis and sense organ physiology.

Zoology 204, 304 Social Behaviour of Animals
Derivation and Evolution of displays; ritualisation, releasers, instinctive behaviour; the ontogeny of social behaviour; the modes of communication; the use of space, territory, hierarchies, individual recognition; pair bonding, mating and parental care; the behaviour of the social insect.

Zoology 205, 305 Entomology
The structure, evolution and systematics of the insects. An introduction to those terrestrial groups related to insects i.e. Ochtopora, Myriapoda, and Arachnida, the basic structure and morphology of insects, and a systematic coverage of the insect orders.

Biology 207, 307 Biometry
Elementary statistical methods and concepts with particular emphasis on their application in biological research.

Biology 211 Population and Community Ecology
Elementary demography and models of population growth; population genetics with emphasis on the concepts of selection and fitness; two-species interactions, competition and predation; multi-species associations. The emphasis will be on experimental ecology of both plants and animals from a wide range of habitats.

Biology 221 Environmental Physiology
Solar radiation, its physical nature, measurement and biological effects. Environmental control of plant and animal metabolism: enzyme kinetics, control mechanisms, diffusion limitations.

Zoology 209, 309 Comparative Physiology
The major functional features of animals and their component organs, tissues and cells. The treatment is largely comparative, with emphasis on invertebrates and lower vertebrates. Energy metabolism, transport of materials, and intra-organismal communication are considered in the
context of homeostatic mechanisms. The practical course provides an introduction to experimental methods commonly used in Physiology.

Zoology 310. Animal morphogenesis
Aspects of the cellular structure, behaviour and biochemistry which relate to morphogenesis. Particular topics will be chosen in relation to interests of staff. Laboratory work will emphasise techniques and will include preparation of material for transmission and scanning electron microscopy.

Biology 311 Freshwater Ecology
Animal and plant freshwater communities, particularly of lakes and rivers; the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a field trip to the Limnological Station and a week-end on the West Coast during May vacation.

Biology 312 Marine Ecology
The characteristics of the seas and sea-shore as habitats for life; the nature of the community and ecosystem with special reference to the seas. The detailed habitat structure of New Zealand shores, saltmarshes and mangrove swamps. An introduction to the ecology of tropical reefs. The principles of coastal conservation. Practical work includes a 7-day field course at Whangarei Heads, day trips and a supervised individual research project.

Biology 313 Terrestrial Ecology
Distribution of major community types with particular reference to soils and climate. Pedogenesis, physico-chemical aspects of soils and nutrient cycles. Basic concepts pertaining to terrestrial ecosystems. Measurement of structure and number. Historical development and community studies. Practical work will include a five day field course during enrolment week in conjunction with Botany 361, and several one-day local trips. Emphasis will be on plant community studies.

Biology 314 Applied Ecology
Principles and practice of pest control; resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems — especially in relation to eutrophication and pollution of freshwater systems.

Zoology for MSc
(Three papers and a Thesis (38.601)).

This course normally requires from fifteen months to two years and necessitates full-time attendance. Students who propose to undertake the MSc Degree should consult the Head of the Department towards the end of the previous year to decide upon the choice of a thesis subject.

38.401 Evolution and Natural Selection
The Neo-Darwinian theory is appraised, wider and more deeply than at the undergraduate level. This study comprises two, equal parts: considered in the first is the theory and, especially, the weaknesses in it, and in the second actual evolutionary changes within populations and species. Much of this study will be done through independent reading.

38.402 — 38.410
Papers on a variety of topics ranging from developmental biology to population dynamics. The list of topics for the year will be available to students well before enrolment.

Students are reminded of the Foreign Language Reading requirement which is a prerequisite for admission to the MSc Degree. The prescribed language is either French, German, or Russian at the discretion of the Head of the Department; classes are arranged by the Departments of German, Romance Languages, and Russian.

Laboratory Work
Two practical classes each week is the minimum requirement. The practical work will be assessed separately and the marks will be included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary.

The Laboratory
Animals are studied by means of direct observation, dissection and microscopical study. Students taking practical courses must provide their own dissecting instruments. Advice concerning the purchase of these is given when classes assemble. Microscope and the apparatus most frequently employed will be issued to each student, who will be held responsible for their care. Students taking the advanced courses in field behaviour and ecology should possess field glasses.

1976 Calendar
All research students are required to lodge a deposit of $10 with the Department of Zoology before being granted access to equipment in the Department.

The McGregor Museum
The museum is open daily from 10 a.m. until 5 p.m.

Field Ecological Classes
There will be frequent opportunities for students in small groups to accompany members of the staff into the field for one day — or occasional weekend — trips. In addition, one week field courses will be required for advanced ecology classes 39:311 — 39:313.

ENVIRONMENTAL STUDIES
† Environment 200 (4 credits)
This course provides an introduction to environmental topics of global significance under the headings World Ecosystem, World Resources, Population, Technological Impact, and the Future. The prerequisite for this course is 24 Stage I credits or the equivalent from any Faculty, including at least 6 credits from courses within the Science Faculty.
There will be 46 hours of lectures throughout the year plus associated tutorial classes.

RADIO RESEARCH CENTRE
The Radio Research Centre is carrying out investigations mainly concerned with long-distance radio propagation, the properties of the ionosphere and space physics. Lectures on these subjects are given in conjunction with the Department of Physics and the Department of Electrical Engineering. The Centre operates one experimental field station which is located at Mullins Road, Ardmore. Research facilities are available for students proceeding to the MSc, ME, or PhD degrees.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN CLINICAL PSYCHOLOGY

DipClinPsych
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Clinical Psychology shall
(a) have been admitted or qualified for admission to a Bachelor’s degree of the University of Auckland and
(b) have satisfied the prerequisites for admission to a Master’s degree in Psychology of this University.

2. Admission to the course of study for the Diploma shall be at the discretion of the Senate on consideration of a recommendation from the Head of the Department of Psychology.

3. A candidate for the Diploma shall
(a) follow a course of study of not less than three years
(b) concurrently follow a course of study for a Master’s degree in Psychology which shall include papers 33.403 and 33.409 and a thesis in the field of clinical psychology.

Course Content
4. The course of study for the Diploma shall consist of two Parts
Part I (two years)
Lectures, laboratory work, and clinical instructions in the practice of psychology. Each candidate will be required to undertake a minimum of 12 hours per week during the first academic year and 15 hours per week during the second academic year of supervised clinical work with patients at the Behaviour Analysis Unit of the Department of Psychology or at any approved mental health institution (as may be required).
Part 2 (one year)
Practical work of not less than 38 hours per week within the psychology section of the Department of Justice, within the Department of Health, or within the Behaviour Analysis Unit of the Department of Psychology of the University.

5. No candidate shall be permitted to proceed to Part 2 until he has completed to the satisfaction of the Head of the Department of Psychology the work required for Part 1 of the course and has completed the requirements for a Master's degree in Psychology.

6. A candidate shall carry out to the satisfaction of the Head of the Department of Psychology such class, laboratory, clinical, and practical work as may be required.

7. A candidate shall be deemed to have completed the requirements for the Diploma when he is awarded a pass on a final examination which shall include examination of a patient, the candidate's written report on the patient, and an oral examination.

8. These Regulations shall come into force on 1 January 1974.

DIPLOMA IN COMPUTATIONAL MATHEMATICS

DipCompMaths
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Computational Mathematics shall before enrolment for this Diploma.
(a) have been admitted or have qualified for admission to a Bachelor's degree, and
(b) except where the Senate otherwise permits, have passed in the following Mathematics courses (as prescribed for the degree of BSc):
(i) Papers 220 and 240
(ii) Paper 290 or (before 1974) Paper 390 and
(iii) at least one of Papers 170 and 180.

2. A candidate for this Diploma shall follow a course of study of one year full-time or two years part-time.

3. A candidate shall complete a course of study approved by the Head of the Department of Mathematics comprising five Mathematics papers prescribed for the degree of BSc, chosen from papers 310 to 499, including at least three from (a) papers 390 to 399, (b) 490 to 499 and (c) those papers in Computer Studies approved by the Head of Department; together with a project on a topic in Computational Mathematics which counts as one paper: provided that in exceptional cases approved by the Head of Department, one of the papers may be replaced by another paper at a lower level or by a paper taught in another Department.

4. Save where in exceptional circumstances the Senate extends the time, the project required in Regulation 3 shall be delivered to the Registrar not later than 1 November in the year following the year of the first enrolment for this diploma.

5. No candidate may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other Degree or Diploma.

6. These regulations shall come into force on 1 January 1974.

DIPLOMA IN OPTOMETRY

DipOpt
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Optometry shall follow a course of study of not fewer than four years.

2. The subjects of examination for the Diploma in Optometry shall be:
Division I
(As prescribed for the Degree of Bachelor of Science).
Chemistry 101, 102
Physics 115, 125 or 110, 120
Zoology 102
Biology 101

Division II
Optics 44.201
Motility and Binocular Vision 44.202
Ocular Anatomy 44.203
Ocular Physiology 44.204
Clinical Optometry II 44.211
Introduction to Pathology 44.212
Introductory Psychology 33.106
Biological Psychology 33.107

Division III
Sensory Aspects of Vision 44.301
Applied Optics 44.302
Clinical Optometry III 44.311
Contact Lens Practice 44.312
Binocular Vision and its anomalies 44.303
Ocular Pathology 44.304
Sensation and Perception 33.202
One paper from 33.201, 33.203, 33.204, 33.205

Division IV
Advanced Physiological Optics 44.401
Environmental Optometry 44.402
Socio-Economic Optometry 44.403
Clinical Optometry IV 44.411
Pediatric Optometry 44.412
Geriatric Optometry 44.413
Clinical Practice 44.414
Project 44.421
The Psychological Analysis of Vision and Hearing 33.307

3. Project. A candidate taking Project 44.421 is required to submit not later than 1 November in the year he presents the other subjects in Division IV, or at a subsequent date approved by the Head of the Department of Psychology, a satisfactory dissertation on a clinical topic approved by the Head of the Department.

4. Except with the approval of Senate, a candidate for the Diploma shall not enrol in the subjects of Division II unless he has passed in the subjects of Division I in the subjects of Division III unless he has passed in the subjects of Division II in the subjects of Division IV unless he has passed in the subjects of Division III.

5. In the subject Optometry the practical work shall be assessed separately for each candidate. A pass in both practical work and the written papers is necessary. The practical marks alone may, with the approval of the Senate, be credited to a subsequent year. In Division IV each section of paper 44.414 shall be assessed separately, and a pass in each section shall be required for the paper as a whole to be passed. Paper 44.414 shall be passed in the same year as 44.411 for a pass in each to be credited.

6. A candidate who holds the Degree of Bachelor of Science and has been credited with a pass in the subjects Psychology I and Psychology II for that Degree, may, on payment of the prescribed fees under the Fees Regulations be credited with the subjects Psychology I and Psychology II for the Diploma in Optometry in addition to any papers (or subjects) which he may be entitled to transfer under Regulation 10 of the Enrolment and Course Regulations (General).
7(a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.
(b) A candidate who passed in any unit under any of the former Regulations for this Diploma shall be credited with such equivalent papers or subjects as the Senate may determine.

DIPLOMA IN STATISTICS
DipStats
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Statistics shall before enrolment for this Diploma have been admitted or have qualified for admission to a Bachelor’s degree, and
(a) have passed in the following Mathematics courses (as prescribed for the Degree of BSc):
   (a) Papers 220 and 240 and (b) papers 280 or (before 1974) papers 381; or
   (b) have reached an equivalent level of attainment to the approval of the Senate.
2. A candidate for this Diploma shall follow a course of study for one year full-time or two years part-time or for such longer period (either full or part time) as the Senate on the recommendation of the Head of the Department of Mathematics may require or permit.
3(a) A candidate shall complete a course of study approved by the Head of the Mathematics Department on the recommendation of the Head of the Statistics Unit comprising five 300 or 400 level Mathematics papers together with a project in Statistics which counts as one paper. At least three of the papers shall be selected from papers 26.380, 26.381, and 26.480 to 26.489, and the remainder from papers in statistics and related topics offered by the Mathematics and other Departments.
   (b) A candidate who has no knowledge of computing shall be required to attend an appropriate course in computer programming.
4. A candidate shall deliver the project required in Regulation 3(a) to the Register by not later than 1 November in the year following the year of first enrolment, or by such later date as the Senate may in exceptional circumstances permit.
5. No candidate may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other Degree or Diploma.
6. These regulations shall come into force on 1 January, 1974.

DIPLOMA COURSE PRESCRIPTIONS
DIPLOMA IN CLINICAL PSYCHOLOGY
The course of study for this Diploma is designed to prepare the candidate for professional competence as a clinical psychologist.
The duration of the course is three years. Not more than five candidates may be admitted to the course for the first time in any one year. Candidates wishing to enrol should consult the Professor of Clinical Psychology in December preceding their first enrolment for the course.

Part 1 (two years)
In the first year candidates are required to complete papers 33.403 and 33.409 plus at least two other graduate papers; perform clinical work of no less than 12 hours per week at the Behaviour Analysis Unit or the Department of Psychology; and visit for approximately 20 working hours each no less than five mental health institutions and/or rehabilitation or penal institutions as may be approved from year to year for that purpose.
In the second year candidates are required to complete the writing of their masters thesis to be submitted during (and typically by the end of) this year; and perform clinical work of no less than 15 hours per week at the Behaviour Analysis Unit of the Department of Psychology or another approved mental health institution.
Part 2 (third year)
Practical work of not less than 38 hours per week is required. Students report progress monthly in
press to the course director. Candidates wishing to take Part 2 in the following year should consult
the Professor of Clinical Psychology at the end of their second year in Part 1 of the course.
The final examination in the third year of the course will normally take place over two days
towards the end of November, and consist of
(a) examination of a patient in the course of which the student will recommend behaviour
analytical procedures, tentatively describe control stimuli and behaviours involved, and detail
prescriptions of possible treatment, subject to the outcome of diagnostic procedures. For this part
the candidate will have available the full first day of the examination and he should organize this
such that he presents his written recommendation by 5 p.m. of that day, and
(b) an oral examination on the second day, which will consist of questions about the particular
case during the morning hours, and questions regarding the practice of behaviour modification
and general ethical issues relating to psychological practice in the afternoon.

DIPLOMA IN OPTOMETRY

DEPARTMENT OF PSYCHOLOGY

Optometry II
(Six papers and practical work).

44.201 Optics
(A knowledge of elementary optics will be assumed).
A study of geometrical and physical optics with emphasis on lenses and lens systems; visual and
ophthalmic applications.

44.202 Motility and Binocular Vision
The characteristics and control of ocular movements; accommodation and convergence; sensory
aspects of binocular vision and space perception.

44.203 Ocular Anatomy
Gross and microscopic structure of the eye and its adnexa; the bony orbit; Visual pathways and
visual cortex; development and comparative anatomy of the eye.

44.204 Ocular Physiology
Activity of the various structures related to their function. Metabolic activity; synaptic transmis-
sion; maintenance of transparency and intraocular pressure.

44.211 Clinical Optometry
The theory, instruments and techniques of examinations of refractive error and visual functions.

44.212 Introduction to Pathology
Histological appearances of normal tissues; general theory of pathological processes.
Note: Students will be required to provide themselves with a number of ophthalmic instruments for their per-
sonal use throughout the course. The major items are a hand ophthalmoscope, retinoscope, Traquair targets
trial frame and a focussing torch. Guidance will be given by the staff in the selection and purchase of suitable
equipment, and of sundry additional small items which are required.

Optometry III
(Six papers and practical work).

44.301 Sensory Aspects of Vision
Physical and psychophysical description of the visual stimulus; photochemistry and electro-
physiology of vision.

44.302 Applied Optics
A further study of lens systems with emphasis on the design of optical systems; the eye as an optical
instrument; ophthalmic lens design.

44.303 Binocular Vision and its Anomalies
Abnormal sensory and motor aspects of binocular vision; associated anomalies of the Central
Nervous System.

44.304 Ocular Pathology
The effects of pathological processes on the structures and functions of the eye; introduction to
clinical recognition of abnormal ocular conditions.
Faculty of Science, Certificate Regulations, Radiochemistry 275

43.311 Clinical Optometry
The principles of optometric examination and prescribing.

44.312 Contact Lens Practice
Clinical aspects of contact lens fitting techniques. Complications of contact lens wearing: contra indications.

Optometry IV
(Seven papers, and minor research project).

44.401 Advanced Physiological Optics
Nature and distribution of refractive errors; theories of emmetropization; ocular genetics. Application of contemporary research in physiological optics to clinical optometry.

44.402 Environmental Optometry
The design of the visual environment and its effects on visual efficiency, productivity and safety; Occupational hazards and eye protection; Principles of illuminating engineering, light sources, glare, lighting for special tasks.

44.403 Socio-Economic Optometry
Socio-economic aspects of optometric practice. Relationships between the practitioner, patient and allied professions.

44.411 Clinical Optometry IV
Special techniques of examination; investigation of visual fields; correction of aniseikonia; analysis of clinical findings.

44.412 Paediatric Optometry
The clinical examination of motility and binocular vision; recognition, classification and treatment of strabismus; special examination techniques for children.

44.413 Geriatric Optometry
Age changes in the eye. Clinical management of diseases of the ageing eye — criteria for referral; management of low visual acuity.

44.421 Project
A minor investigation into a topic in physiological optics or optometry.

CERTIFICATE REGULATIONS

CERTIFICATES IN THE PRINCIPLES AND PRACTICE OF RADIOCHEMISTRY

8.350 Elementary Certificate
The course for this Certificate involves ten lectures and eleven laboratory classes each of three hours' duration. Candidates may attend laboratory classes once a week in the first half year, once a week in the second half year, or by arrangement. No student may enter the laboratory unless he is wearing spectacles, safety glasses or some other approved form of eye protection. The course is designed to suit the needs of chemists and biologists who anticipate working with tracer quantities of radio-isotopes. Topics covered include:
- Counting methods
- Counting statistics
- Handling radioactive substances
- Source preparation
- Radiological safety
- Three channel beta scintillation spectrometer
- Gas-liquid chromatography of volatile beta-emitting substances

Examinations: Candidates will be assessed on their practical work together with a written test.

Prerequisite: 8.210, but students having need of radiochemical techniques may be admitted to 8.350 without having passed 8.210 upon obtaining the approval of the Head of the Chemistry Department.
A knowledge of Physics to about first year standard will be assumed.

1976 Calendar
8.351 Advanced Certificate
The course for the Advanced Certificate is intended to be taken in the same year as, or in a subsequent year to the Elementary Certificate. The course involves ten lectures given in the second half year, together with eleven laboratory classes each of three hour's duration. Candidates offering both Elementary and Advanced Certificates in the same year must attend the laboratory once each week throughout the session.
Candidates offering the Advanced Certificate only may attend the laboratory by arrangement. The course is designed to give a more detailed knowledge of radiochemical procedure. Topics covered include:
- Gamma spectroscopy
- Neutron activation
- Radio-isotope generators
- Radiochemical analytical procedures
- Radiochemical synthesis
- Applications

Examinations: Candidates will be assessed on their practical work together with a written test.

Prerequisite: 8.350 (Note: 8.350 may be taken in the same year).
A knowledge of Physics to about first year standard will be assumed.

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

Minimum Time for Degree
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Commerce shall follow a course of study of not fewer than three years.

Definition of a Paper
2. In these Regulations a paper means an examinable part of one year's work in a subject. Papers are classified in three Stages, I, II, III, prescribed for this Degree in the Schedule to these Regulations.

Course Content
3. Every candidate in his course of study for this Degree
   (a) shall pass not fewer than twenty of the papers;
   (b) shall comply with the requirements specified in the Schedule to these Regulations;
   (c) may include as one, two, or three papers for this Degree one, two or three papers not already passed for this Degree from any subject prescribed for any other Degree of this University, provided that for Science courses to be available for credit under this clause each such Science course must carry a minimum of four credits in the Schedule to the BSc Regulations, provided further that for the purpose of this Regulation Science courses carrying lesser credit may be aggregated with other Science courses from the same stage of the same subject.
   (d) shall pass no fewer than three papers at Stage III from one of the subjects Accounting, Economic History, and Economics:
       provided that he may, with the permission of the Heads of the Departments of the subjects chosen, substitute one paper at Stage III in another of those subjects, or Management Studies.

4. Except as provided elsewhere in these Regulations a candidate
   (a) shall pass in the following Stage I papers
      Accounting 1.100, 1.101.
      Commercial Law 2.100
      Economics 13.100, 13.101
      Mathematics 26.122, 26.142 or approved substitutes — see Schedule;

Order of Presenting Course
(b) shall in his first year of study take papers 26.122 and 26.142 of Mathematics and if he fails to pass either or both he shall take again in the following year the paper or papers he failed;
(c) shall, before taking any other paper for this Degree, pass or enrol concurrently in the papers (a) above; provided that this clause shall not apply to a candidate
   (i) who has been admitted or qualified for admission to a Degree of this University
   (ii) enrolled conjointly for this Degree and the Degree of Bachelor of Laws in respect of Commercial Law 2.100 and an Ancient or Modern Language, or English, or Maori Studies, or Philosophy.

Maximum Course Load
5. Except with the permission of the Senate no candidate shall take in any one year more than eight papers for this Degree.

Direct Entry
6(a) Notwithstanding anything in Regulations 3 and 4 of these Regulations a candidate may with the leave of the Senate take Stage II papers or any subject to which this Regulation applies without having passed stage I. If a candidate passes a Stage II paper in a subject he shall not be credited with any prerequisite Stage I paper of that subject. If the examiner certifies that the candidate though failing a State II paper attained the standard of a pass in a Stage I paper the candidate shall be credited with a pass in a Stage I paper of that subject.
(b) This Regulation applies to the following subjects
   Accounting
   Economics
   Mathematics
Credits
7(1) (a) A candidate who has passed for another Degree of this University two Stage II level papers in Pure Mathematics or equivalent and has passed papers 13.200 and 13.201 of Economics shall be credited with papers 13.100 and 13.101 of Economics, on payment of the fees required by Regulation 10 of the Enrolment and Course Regulations (General)
(b) A candidate who, for the Degree of Bachelor of Engineering, has passed Engineering Mathematics IA and IB and Engineering Mathematics II shall be credited with Mathematics 26.240 and 26.360 on payment of the fees required by Regulation 10 of the Enrolment and Course Regulations (General)
provided that the total credits granted to a candidate under paragraphs (a) and (b) of this clause of this regulation and Regulation 10 of the Enrolment and Course Regulations (General) shall not exceed eight.
(2) A candidate who, for the Degree of Bachelor of Engineering, has been exempted from the Intermediate Examination shall be exempted without credit from Mathematics 26.122 and 26.142.

8. Where a candidate who abandons from another course of study to this Degree and who had attained a passing standard in a paper listed in the Schedule to these Regulations without receiving credit for that paper in that course, he may be credited with that paper for this Degree.

9. Notwithstanding anything elsewhere in these Regulations a candidate who has qualified with merit for the New Zealand Certificate of Commerce in Accountancy, or who has completed the Professional Examination in Accountancy, or who has passed with merit in at least six subjects of the Professional Examination in Accountancy, may be admitted by the Senate to the Course for this Degree with credit for Accounting 1.100, 1.101. Commercial Law 2.100 and 2.200 and two other unspecified papers provided he pays the fees required by Regulation 10 of Enrolment and Course Regulations (General).

10. (1) A candidate
(a) who, for this Degree or for the Degree of Bachelor of Laws or Bachelor of Laws (Honours), has passed the following papers
(i) Accounting 1.100 and 1.101
(ii) Economics 13.100 and 13.101
(iii) Mathematics 26.122 and 26.142, or approved substitutes — see Schedule,
(b) who, for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) has passed
(iv) Legal System 25.103
(v) Law of Contract 25.105
(vi) Commercial Law 25.204 or Advanced Commercial Law 25.302
(viii) Industrial Law 25.212
(ix) Revenue Law 25.221.
(c) who, for this Degree has in addition passed no fewer than eight Stage II or Stage III papers [including no fewer than three Stage III papers are required by the Regulation 3(d)] selected from those specifically listed in the Schedule, and other than those of Commercial Law shall be deemed to have satisfied the requirements for this Degree.
(2) The papers so credited to this Degree under this Regulation shall be admitted as cross-credits, exemptions, or additional cross-credits as the case may be for the purpose of Regulation 10 of the Enrolment and Course Regulations (General).

Arts and Science Elective
11. Except as provided in Regulation 3(c), a candidate wishing to take for this Degree any unit, course or paper which is also prescribed for any other degree, shall comply with such of the Regulations for each of those Degrees as apply to that unit, course, or paper.

12. No candidate shall take a subject, unit or paper the same as or substantially equivalent to any other subject unit or paper, and obtain credit for both for this degree.

Savings and Transitional Provisions
13(1) Except as otherwise provided in this Regulation the course of study of every candidate shall be governed by these Regulations.
(2) A candidate who passed under any of the former Regulations for this Degree in any unit of which the papers are also papers under these Regulations shall be credited with passes in those papers under these Regulations provided that the Senate is satisfied that the prescription in any such paper is at least the equivalent of that prescribed under these Regulations.

1976 Calendar
(3)(a) A candidate who enrolled for the Degree before 1971 may be permitted by the Senate to substitute History I, Philosophy I, or a modern foreign language (other than Maori Studies) for Pure Mathematics 26.122 and 26.142 as prescribed for the Degree;
(b) A candidate permitted to proceed under sub-clause (a) of this Regulation shall be required to pass two stage II papers of Economics approved by the Head of the Department.
(4) The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

14. These Regulations shall come into force on 1 January 1971.

Schedule
1. This schedule sets out paper numbers, prerequisites, corequisites, restrictions and other conditions applying to papers for the Degree of Bachelor of Commerce.
2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. A candidate may not take a further stage of a subject until he satisfies all prerequisite and corequisite requirements for that stage of the subject.
## ACCOUNTING

At the discretion of the Head of Department of Mathematics

The Head of Department of the subject concerned may require the candidate to pass in a paper or course as prescribed for any other Degree.
THE DEGREE OF MASTER OF COMMERCE
MCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations. Students not qualified to enrol for MCom by reason of Clause 1(a) of these Regulations may be permitted to enrol for MPhil.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Commerce shall before his enrolment for this Degree (a) have been admitted or qualified for admission to the Degree of Bachelor of Commerce, and (b)(i) have fulfilled the prerequisites for his subject as shown in the Schedule to these Regulations, and (ii) have obtained a grade higher than C- in each Stage III paper in the subject which he proposes to take for this Degree, provided that, in special circumstances where the Head of Department so recommends, the Senate may for the respective purposes of this Subclause (b) of this Regulation, waive such preconditions as it thinks fit.

2. A candidate shall be required to fulfil the requirements of and pass the examination in one of the subjects prescribed in the Schedule.

3. Notwithstanding anything in Regulation 2, a candidate for this Degree may with the permission of the Senate take (i) one Stage III or one Master's paper or (ii) one Stage III and one Master's paper, or (iii) two Master's papers, in a subject other than the one in which he is taking his Degree, if each such paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.

4. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.

5. A candidate shall not take for this Degree a subject in which he has already passed for the Degree of Master of Arts or the Degree of Master of Philosophy.

6. Except as provided in the Schedule a candidate shall take all papers required for this Degree in the same year.

7. Subject to Regulation 9(d), a candidate shall complete the requirements for this Degree within twenty-four months of his first enrolment for the Degree.

Honours

8(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division. (b) To be eligible for the award of Honours a candidate shall pass no fewer than four papers in the first year of enrolment for this Degree. (c) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory, provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or exceptional circumstances beyond his control (certified as under the Aegrotat Pass or Compassionate Pass provisions of the Examination Regulations) may elect, instead of applying for a aegrotat or compassionate pass, to present himself at a subsequent written examination and still be eligible for the award of Honours, subject to the provisions of Regulation 7 above, and to Regulations 8 and 9 of the Examination Regulations.

Thesis

9(a) A thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject. (b) A thesis may be presented in the first year of enrolment for this Degree only with the approval of the Head of Department concerned.
A candidate may enrol for a thesis in any year subsequent to the first year of enrolment for this Degree only if he obtains an average grade of at least B— in the papers sat in the first year.

A candidate shall present his thesis not later than twenty-four months after his first enrolment for this Degree, provided that this period may be extended by the Head of Department concerned for not more than one year and in exceptional circumstances for longer by the Senate.

If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to represent it subject to Regulation 9 (d) above by a later date specified by the Head of Department.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Personal Course of Study

(i) for each of the subjects Accounting, Economic History, Economics or Management Studies shall require the approval of the appropriate Head of Department.

(ii) for the subject Operations Research shall require the approval of the Dean of the Faculty of Commerce.

The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

Savings and Transitional Provisions

A candidate enrolled for this Degree under the Regulations published in the 1974 Calendar may complete the Degree under those Regulations or he may elect to transfer to the present Regulations. A candidate electing to transfer to these Regulations shall not be permitted to present papers which in the opinion of the Head of Department concerned contain a substantial portion of work included in papers for which the candidate has received credits.

These Regulations shall come into force on 1 January, 1975.

SCHEDULE

(1) Accounting

Prerequisites: Eight papers in the subject Accounting including three Stage III papers.

Requirements: Six papers; or four papers and a thesis which shall count as two papers; or five papers and a research essay which shall count as one paper.

Subject to Regulation 8 (b) a candidate may enrol for fewer than four papers in the first year of his enrolment for the Degree.

The papers shall be selected from 1.400 to 1.410 and 2.400 and 2.401.

Provided that a candidate may, with the approval of the Head of the Department, substitute for one or two Accounting papers for this Degree advanced papers not already taken by him from those prescribed for the Degree of Bachelor of Commerce in either Accounting or Commercial Law or both as follows:

Two advanced BCom papers for one paper for this Degree; three advanced BCom for two papers for this Degree; and further provided that a candidate substituting in terms of this clause is not eligible for the award of Honours.

Exemptions

4(a) A candidate who has been credited for the Degree of Bachelor of Arts or the Degree of Bachelor of Science with any of the units specified for the Intermediate Examination shall be credited with such unit or units for the purposes of this degree.

(b) A candidate who is a graduate of any University in New Zealand shall be exempted from passing the Intermediate Examination, and his course of study may be pursued for a period of not less than three years.

(c) In granting admission ad eundem statum to a candidate from an overseas University in one or more units or subjects of the Degree the Senate may require that the candidate shall pass an Examination in the law and practice in New Zealand, covering such matters as may from time to time be prescribed by the Senate.

Notes: (1) The prescriptions for the Examination in the law and practice in New Zealand may be obtained on application to the Dean of the Faculty of Law.

(2) Every candidate desiring to be examined in the law and practice in New Zealand shall give to the Registrar notice in writing of his desire to be so examined and shall pay to the Registrar an examination fee of $10.

(3) Such examination shall be held at such time and place as may be fixed by the Vice-Chancellor.

Practical Courses

5. No candidate shall be admitted to this Degree unless the Registrar has received from the Dean of the Faculty of Law a certificate that the candidate has compiled with the requirements of Regulation 1(c).
Approval of Courses
6. The personal course of study of every candidate shall require the approval of the Senate provided that
(a) The Senate may delegate to the Faculty of Law the power to give such approval and may also
delegate the discretionary powers conferred in Regulations 2 and 4 of these Regulations.
(b) The candidate may appeal to the Senate where approval of a personal course of study has been
withheld by a decision of the Faculty acting under the delegation of any of the powers referred to
in the previous proviso.

Course Requirements
7. Every candidate shall be required
(a) To undertake as part of his Third Law Examination a course of study comprising a sufficient
number of advanced law courses. The Faculty of Law shall determine from time to time which
subjects shall be advanced courses for the purpose of this requirement and how many of such
courses (not exceeding two-fifths of the Third Law Examination) shall be the minimum require-
ment.
(b) To undertake in both his Second and Third Law Examinations a course of study comprising
sufficient law subjects to amount to a full-time course of about 14 hours of instruction per week.
The Faculty shall from time to time determine the composition of a full-time course for these
purposes.
Note: The Handbook of a Faculty of Law will state the advanced subjects, the prerequisites if any, and the
weight of each subject within a full-time course of study.

Courses in Other Faculties
8(a) In lieu of optional law subjects (totalling not more than one-fifth of the content of the Second
and Third Law Examinations combined) a candidate may take such units or papers offered by
other Faculties and related to his law studies as are approved by the Dean of the Faculty of Law.
Provided that he shall before enrolling in such units or papers obtain the permission of the Head
of the Department in which they are being taken and of the Dean of the Faculty of Law; but the
Faculty of Law may in special cases apply this provision to a candidate who has previously taken
units or papers in another Faculty which would have qualified under this Regulation if prior ap-
proval had been obtained.
(b) Subject to Regulation 10 of the Enrolment and Course Regulations (General) any unit or
paper taken by a candidate under this Regulation may be credited only to the Degree of Bachelor
of Laws.

Research Paper
9. A candidate for the degree of Bachelor of Laws may with the prior approval of the Dean of the
Faculty of Law, elect to present a research paper in lieu of examination in a subject of the Third
Law Examination;

Provided that in either case the teacher in the subject shall certify that the research paper or dissertation is related to that subject and the candidate shall comply with the requirements for obtaining terms in that subject.

Standards
6. The Degree of Bachelor of Laws (Honours) shall be awarded to candidates who have fulfilled the requirements of these Regulations and whose work throughout the course has been in the opinion of the Faculty of Law of a sufficiently high standard.

Transfer to LLB(Hons)
7. The Senate may, on written application by a candidate who has completed only the First Law Examination and, in special circumstances any other candidate, and without payment of a fee, grant him permission to transfer to a course under these Regulations and allow him to be credited with a pass in such subjects as he has passed in his course for the Degree of Bachelor of Laws.
Transfer to LLB
8. A candidate whose work does not in the opinion of the Faculty of Law satisfy the standard prescribed in Regulation 6, or who at any stage elects to withdraw from the Degree of Bachelor of Laws (Honours), shall be entitled to have credited to the Degree of Bachelor of Laws without payment of a fee those subjects (being subjects for the Degree of Bachelor of Laws) in which he has passed or in which he has been credited with a pass.

The course of every candidate shall be governed by these regulations.

Commencement
10. These regulations shall apply to all candidates taking the degree of Bachelor of Laws (Honours) from January 1973, provided that any candidate who commenced his law course before that date or before 1967 shall be entitled to the credits prescribed in Regulation 12 of the Regulations for the Degree of Bachelor of Laws.

THE DEGREE OF DOCTOR OF LAWS LLD

General Provisions
1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Laws shall be a graduate of the University of Auckland, or of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Laws until at least eight years after graduation to his first degree.

3. The Degree of Doctor of Laws shall be awarded for an original contribution (or contributions) of special excellence to the history, philosophy, exposition or criticism of law.

4. The Degree shall be awarded on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, provided that in addition to such published work the candidate may submit unpublished work in support of his application.

5. No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any Degree or Diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:
   (a) three copies of the work to be examined;
   (b) a statutory declaration which shall state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
   (i) state what portion (if any) of the work submitted has been previously presented for a Degree or Diploma of the University of Auckland or any other University; and

1976 Calendar
(iii) declare that the work in substantially its present form has not been previously accepted for the award of a Degree or Diploma in this or any other University and is not being concurrently submitted for a Degree of Diploma in any other University

Examination Procedure

7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall
   (a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and
   (b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.

8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may
   (a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
   (b) elect to proceed with the examination.

9(a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.

(b) The contents of the Moderator’s report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:
   (a) to report independently on the quality of the work and its value as a significant contribution to learning; and
   (b) to recommend whether or not the Degree should be awarded, provided that where the recommendation is that the Degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A resubmission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.

12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the Degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

THE DEGREE OF BACHELOR OF MUSIC (PERFORMANCE)

BMus(Performance)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music (Performance) shall
(a) before his enrolment for this Degree have passed a Course Entrance Examination under Regulation 2, and
(b) follow a course of study of not fewer than four years, and
(c) follow his course of study continuously except where and in so far as the Head of Department permits otherwise.

Course Entrance
2. The Course Entrance Examination shall be held in September each year and shall consist of three parts:
(a) the performance of two compositions of the candidate's own choice, and
(b) musicianship tests, including aural tests and sight reading,
(c) a three-hour paper including tests in harmony, counterpoint and aural perception.

3. A candidate for the Course Entrance Examination shall give notice in writing on the prescribed form to the Registrar not later than 30 June preceding the Examination.

Course Content
4. The course of study for the Degree shall consist of twenty-eight papers selected from those listed in the Schedule to these Regulations. Except as otherwise provided in the Schedule every course of study shall include
(a) all papers from Group A, being Performance 28.120, 28.220, 28.320 and 28.420 (which altogether shall count as fourteen papers)
(b) six papers from Group B
(c) three papers from Group C
(d) one paper from Group D
(e) four papers from Group E.

5. For Performance 28.120, 28.220, 28.320 and 28.420. A candidate shall
(a) carry out performance work (including the giving of class demonstrations), and
(b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and
(c) pass a performance examination in any one of the following subjects:

</tr>
</tbody>
</table>

A candidate presenting Singing shall attend such language courses and do such language work as the Head of the Department of Music may require.

6. It shall be a condition of a candidate's being permitted to pursue or continue this course of study that he
(a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of Department of Music, and
(b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of Department of Music.

Note: * This instrument will not be taught during the current Calendar year.
† This instrument may not be taught during the current Calendar year.

1976 Calendar
7. (a) Except as otherwise provided in this Regulation, the course of study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units of a Professional Examination under any of the Regulations for the Degree of Bachelor of Music (Executant) shall be credited with such equivalent paper or papers as the Senate may determine.

8. These Regulations shall come into force on 1 January 1976.

Schedule
1. This Schedule sets out Groups, paper numbers, prerequisites, corequisites, restrictions, and other conditions applying to courses of study for the Degree of Bachelor of Music (Performance).
2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

THE DEGREE OF MASTER OF MUSIC
MMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Music shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission either to the Degree of Bachelor of Music or to the Degree of Bachelor of Music (Performance), and
   (b) (i) have obtained a grade higher than C- in each compulsory paper in Music at Stage II and Stage III levels provided that in special circumstances where the Head of Department so recommends the Senate may accept a C- pass in any paper or papers, and
      (ii) if taking Performance for this Degree, satisfy the Head of the Department of his proficiency as a performer.

2. The Senate may require a candidate for the Degree of Master of Music not devoting his full time to University work to attend a prescribed course of study for two years.

Course Content
3. The course of study for this Degree shall consist of
   (a) four papers and a Composition which shall count as two papers, or
   (b) two papers and a Performance which shall count as four papers, or
   (c) four papers and a Thesis which shall count as two papers.

4. The papers prescribed for this Degree are:
   28.401 Special Topic
   28.402 Aesthetics in Music
   †28.403 Studies in Mediaeval Music
   †28.404 Musical Instruments of the Renaissance and the Baroque Period
   28.405 History of Music (Special Period)
   †28.406 History of Music Notation
   28.407 History of Music Theory

   28.415 Advanced Orchestration
   *28.416 Electronic Music
   28.421 Style Analysis in Relation to Performance
   28.422 Stylistic Study of a Specific Composer's Work.

A candidate may with the approval of the Head of the Department of Music take one or two papers not previously taken from those listed under Music III in the Schedule to the Regulations for the Degree of Bachelor of Music.

Composition
5. When a candidate elects to write a Composition, the following conditions shall apply:
   (a) The Composition shall be prepared under the supervision of a University teacher.
   (b) A candidate may present his Composition in the year in which he takes the papers or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.
   (c) A candidate shall present his Composition within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.
   (d) The candidate shall submit his Composition together with a certificate from the supervisor stating that the work was carried out by the candidate under his supervision to the Registrar by 1 November in the year in which it is to be presented, or at a subsequent date if so arranged with the Head of the Department.
   (d) If the examiner with the concurrence of the assessor so recommends, a Composition which is not satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.
Performance
6. When a candidate elects to present a Performance, the following conditions shall apply:
(a) A candidate shall present a concert Performance of approximately one hour's duration, the
programme to be approved by the Head of the Department. The candidate shall submit his
proposed programme to the Head of the Department for approval not later than the end of the
first term.
(b) The Performance shall be restricted to ONE of the following:
(i) An approved orchestral instrument
(ii) The pianoforte
(iii) The organ
(iv) Any other instrument approved by the Head of the Department
(v) Singing.
(c) A candidate may present his Performance in the year in which he takes the papers or, subject to
provisions of paragraph (d) of this regulation, in a subsequent year.
(d) A candidate shall present his Performance within three years of the year in which he takes the
papers, provided that the time may be extended in exceptional cases by the Senate.
(e) The candidate shall present himself for the Performance on a date to be specified by the Head
of the Department.
(f) If the Performance is not satisfactory and if the examiner with the concurrence of the assessor
so recommends, the candidate may be permitted to present a further Performance at a later date to
be specified by the examiner.

7. A candidate shall participate in approved choral or instrumental work within the University
throughout his enrolment for this Degree, to the satisfaction of the Head of the Department of
Music.

Thesis
8. When a candidate elects to write a Thesis, the following conditions shall apply:
(a) The Thesis shall embody the results obtained by the candidate in an investigation relating to
some branch of Music.
(b) A candidate may present his Thesis in the year in which he takes the papers or, subject to the
provisions of paragraph (c) of this regulation, in a subsequent year.
(c) A candidate shall present his Thesis within three years of the year in which he takes the
papers, provided that the time may be extended in exceptional cases by the Senate.
(d) The candidate shall submit his Thesis to the Registrar by 1 November of the year in which it is
to be presented or at a subsequent date if so arranged with the Head of the Department.
(e) If the examiner with the concurrence of the assessor so recommends, a thesis which is not
satisfactory shall be returned to the candidate, who may be permitted to revise it and to re-submit
it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the
thesis, see Examination Regulation 14.

Honours
9. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Se-
cond Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in the first year in which a candidate sits an
examination for the Degree are unsatisfactory or if the Composition or Performance or Thesis at
its first presentation is unsatisfactory; provided, however, that a candidate whose performance at
a written examination has been seriously impaired by illness or injury or exceptional cir-
cumstances beyond his control (certified under the aegrotat or compassionate pass provisions of
the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate
pass, to take a subsequent written examination so that he shall still be eligible for the award of
Honours subject to the provisions of sub-clause (c) of this Regulation.
(c) A candidate shall be eligible for the award of Honours only if he completes the requirements
for Honours within three years of his first enrolment for this Degree, provided that this period
may in exceptional cases be extended by the Senate.

THE DEGREE OF DOCTOR OF MUSIC

MusD

General Provisions
1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Music shall hold the Degree of Master of Music of the University of Auckland or Bachelor of Music of the University of New Zealand.

2. No candidate shall present himself for the Degree of Doctor of Music until at least five years after graduation to the qualifying degree.

3. The Degree of Doctor of Music shall be awarded for distinction in musical composition.

4. The candidate shall submit not more than three works of his own, published or otherwise, such works to be selected from the following:
   An oratorio, an opera, a cantata, a symphony for full orchestra, a concerto, an extended piece of chamber music.

5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.

6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:
   (a) Three copies of the work to be examined,
   (b) A statutory declaration which shall:
       (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
       (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
       (iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure
7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall:
   (a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether in his opinion the examination should proceed or whether the candidate should be advised to withdraw his application.
   (b) State the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.
   (8) If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may:
       (a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
       (b) elect to proceed with examination.

9 (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.
   (b) The contents of the Moderator's report shall not be communicated to the Examiners.

10. The duties of each Examiner shall be:
    (a) to report independently on the quality of the work; and
    (b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.

11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.
12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degree shall be awarded.

13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner; and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.
DEGREE COURSE PRESCRIPTIONS
PRESCRIPTIONS FOR BMus

Restrictions on Entry to Courses

Owing to the restrictions on the numbers able to take Music in all areas of the department, the following entry standards are required for 1976:

1. An entry examination will be held for ALL students intending to advance Music beyond Stage I.
   This examination will be held at the Conservatorium in the first week of September, and will be in two parts.
   (a) One three-hour paper, including tests in harmony, counterpoint and aural perception.
   (b) A viva-voce including:
      either (i) in the case of entries for Dip.Mus. and B.Mus (Performance) this will take the form of a performance in their selected instrument.
      or (ii) in the case of entries for B.Mus and B.A. (with advancing to Stage II in mind) the opportunity to perform on their chosen instrument and simple sight-singing. For those intending to take Composition, a series of short tests will be sent to them a week before the date of the examination for them to complete and present at the viva-voce.

2. Enrolments in the following papers will be restricted as follows:

* This instrument will not be taught during the current Calendar year.
† This instrument may not be taught during the current Calendar year.

1976 Calendar
Restrictions
8. It shall be a condition of a candidate’s being permitted to pursue or continue this course of study that he
(a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of Department of Music,
(b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Diploma, to the satisfaction of the Head of Department of Music, and
(c) shall not enrol for any other course of study without the leave of the Head of Department of Music.

9. (a) Except as otherwise provided in this regulation the course of study of every candidate shall be governed by these regulations.
(b) A candidate who has gained a credit for any subject under any former regulations under the Diploma in Music shall be credited with such equivalent paper or papers as Senate may determine.

10. These Regulations shall come into force on 1 January 1976.

Schedule
1. This Schedule sets out Groups, paper numbers, prerequisites, corequisites, restrictions, and other conditions applying to courses of study for the Diploma in Music.
2. This Schedule shall be read with the Regulations for the Diploma and with the prescriptions set out elsewhere in the Calendar.
3. The heading ‘prerequisites’ in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. The heading ‘corequisites’ in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading ‘restrictions’ in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

An intending candidate who has not been granted the University Entrance Qualification by the Universities Entrance Board and who seeks admission on the basis of the New Zealand Certificate in Draughting (Architecture), the New Zealand Certificate in Building, the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying must apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

General Provisions
1(a) Subject to the Admission Ad Eundem Statum Regulations and except as otherwise provided in these regulations, a candidate for the degree of Bachelor of Architecture shall be required to (i) pursue a course of study for a period of not less than five years, and (ii) pass the Intermediate Examination and complete to the satisfaction of the Senate the requirements of the four Professional Examinations.

(b) Except as hereinafter provided a candidate shall be required to pass as a whole the Intermediate Examination and the requirements of each Professional Examination. In recommending him for a pass in any Examination the Senate shall take into consideration his performance in all subjects of that Examination.

A candidate who has failed to pass any Examination as a whole may, on the recommendation of the Senate, be credited with a subject or subjects of that Examination. He may in a subsequent year take the remaining subjects of that Examination together with such subjects of the succeeding Professional Examinations, if any, as the Senate may permit. He shall be required to pass such a composite examination under the same conditions as set out above.

Honours
2. The Degree of Bachelor of Architecture may be awarded with or without Honours according to the standard of the candidate’s work in the Fourth Professional Examination (taking into account also his record in the other Professional Examinations).

Concessions
3. The Senate may exempt a candidate from the Intermediate Examination (a) who has reached a standard satisfactory to the Senate in the University Entrance Scholarship Examination, provided that one of the subjects is Mathematics, Additional Mathematics, or Physics; or

(b) who has been admitted or has qualified for admission to a Degree or, on the special recommendation of the Head of the School of Architecture, a Diploma, in any Faculty of this University; or

(c) who has by examination qualified with outstanding merit for the New Zealand Certificate in Building, or the New Zealand Certificate in Draughting (Architecture), or the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying, and who has completed the practical requirements for the award of such Certificate.

4. The Senate may exempt a candidate from the Intermediate and First Professional Examinations, or from the Intermediate Examination and such parts of the First Professional Examination as it deems fit, if the candidate

(i) has by examination qualified with outstanding merit for the New Zealand Certificate in Draughting (Architecture) and has completed the practical requirements for the award of that Certificate; or

(ii) has been awarded or has qualified for the award of the Degree of Bachelor of Engineering (Civil), and his undergraduate record in that Degree is of a sufficiently high standard in the opinion of the Head of the School of Architecture.

Note: A candidate granted exemption under Regulations 3 or 4 shall pay the fees required under Regulation 10 of the Enrolment and Course Regulations (General).

1976 Calendar
Intermediate

5(a) The subjects of the Intermediate Examination shall be:
Three subjects comprising one chosen by the candidate from each of the Groups A, B, and C listed in the Schedule to this Regulation, of subjects prescribed for the Degree of BA or of BSc as the case may be:
provided that
(i) in the case of any or each of the three subjects a candidate may substitute for that subject an equivalent subject passed at another New Zealand University;
(ii) a candidate who, in the Universities Bursaries Examination, has obtained a 'B' Grade or better and has gained not less than 50 marks in one of the subjects Pure Mathematics, Applied Mathematics or Physics, may choose instead of a subject from Group A an additional subject from Group B or Group C;
(iii) in exceptional circumstances and on the recommendation of the Dean of the Faculty of Architecture and Town Planning, the Senate may permit a candidate to choose the three subjects from those appearing in the Schedule to this Regulation without restriction as to Groups, save that one shall be chosen from Group A unless the foregoing proviso (ii) applies.

(b) In respect of each subject chosen from the schedule to this Regulation, a candidate shall be required
(i) to pass at least two arts papers or to obtain at least 12 science credits (as the case may be) and
(ii) to comply with such of the course regulations for the Degree of Bachelor of Arts or Bachelor of Science as are applicable (including all requirements as to practical work and all prerequisites, corequisites and restrictions).

6. A candidate, who in the Architecture Intermediate Examination has passed Economics, shall not take 15.116 General Economics.

7(a) For each Professional Examination a candidate shall be required to pass the stage of Studio, and gain credits from the subjects set out in the Schedule to Regulation 11, including credits from core subjects for that Professional Examination set out in Part A of that Schedule, in accordance with the following:

First Professional Examination
Studio 1 and at least 18 credits including 15 credits in core subjects.

Second Professional Examination
Studio 2 and at least 18 credits including 15 credits in core subjects.

Third Professional Examination
Studio 3 and at least 18 credits which may include credits in core subjects

Fourth Professional Examination
Studio 4 and at least 18 credits including credits in core subjects not passed for the Third Professional Examination.
(b) The Senate may permit a candidate to take a subject or subjects as defined in the Regulations for a degree in any other Faculty, in lieu of a subject or subjects set out in Part B of the Schedule to 1976 Calendar
Regulation 11, up to an equivalent of 10 credits for this degree, and credits will be awarded for a pass in such subjects in accordance with the following:

(c) A candidate shall be required to gain at least 4 credits from the Drawing Group of subjects 15.401-15.405 set out in Part B of the Schedule to Regulation 11.

(d) A candidate shall not be awarded a pass in a core subject if he has not completed in Studio the coursework related to that subject to the satisfaction of the Senate.

8(a) A candidate may not gain credits for any Professional Examination in any subject for which he gained credits in a previous Professional Examination; provided that a candidate who has failed to gain the required number of credits in the subjects of a Professional Examination and enrols to repeat subjects or take other subjects to make up the required number of credits for that Professional Examination, may at the discretion of the Head of the School of Architecture take additional subjects to provide not more than 6 credits; and such of those credits as the candidate gains in excess of the credits required to complete that Professional Examination shall be deemed to be gained for the next succeeding Professional Examination for which the candidate may enrol.

9. A candidate shall not enrol for subjects totalling more than 24 credits for any Professional Examination; provided that a candidate who has failed to gain 6 or fewer of the required number of credits in a Professional Examination, may, at the discretion of the Head of the School of Architecture, enrol in subjects for the remainder of the required number of credits, together with the subjects of the next succeeding Professional Examination, up to a total of not more than 24 credits.

10. A candidate may not take a subject unless he has passed or been exempted the prerequisite subject for that subject as provided in Regulation 11, and the Schedule to it; provided that

(a) where the prerequisite subject and the advanced subject are taught consecutively in one year, the candidate may enrol for both, but he may not take the advanced subject if he does not pass the prerequisite subject, and

(b) where he has been exempted from some or all of the requirements of the course for this degree by virtue of a qualification in a related subject, the Senate may at its discretion exempt him from the requirements of this Regulation.

Note: A candidate who is ineligible under proviso (a) to take an advanced subject should withdraw from that subject in accordance with Regulation 7 of the Enrolment and Course Regulations (General).

11(a) The subjects of the Professional Examination shall be as listed and numbered under the headings Title of Subject and Number of subject in the Schedule to this Regulation (The core subjects being in Part A and the subjects other than core subjects in Part B). The prerequisite for and the credits to be awarded for each subject shall be as shown in the appropriate column opposite the name of the subject.

(b) Each subject referred to in the Schedule to this Regulation as 'Special Topic' and the prerequisite or prerequisites for it shall be as determined by the Head of the School of Architecture.

(c) Each subject named or referred to in the schedule to this Regulation shall be an independently assessed segment of work the successful completion of which shall result in the award of the number of credits shown.

These subjects listed in Part B of the Schedule will be taught only if sufficient staff are available and if enrolments are adequate to warrant the teaching of the subject.

Note: The Course of study of any candidate enrolled for this Degree before, but not in, 1974, is subject to the transitional provisions set out in Regulations 12 and 13 for this Degree published in the University of Auckland Calendar for 1974.
THE DEGREE OF MASTER OF ARCHITECTURE

MArch

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the terms Regulations and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Architecture shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Architecture, or
   (b)(i) have been awarded or qualified for the award of the Diploma in Architecture, and
   (ii) satisfy the Senate that he is qualified to pursue the course for the degree by reason of his professional work or by reason of his having pursued a further course of study or investigation since he was awarded or qualified for the award of the Diploma provided that the Senate may in addition require a person seeking enrolment under this provision to pass a special examination.

2. A candidate for the Degree of Master of Architecture shall
   (a)(i) follow a course of full-time study of not less than one year, or
   (ii) follow a course of part-time study of not fewer than two years
   Provided that such full-time or part-time study may be carried out in an approved institution outside the University for such period or periods as may be determined by the Senate from time to time,
   (b) submit a thesis, and
   (c) except as provided in Regulation 6, pass a written examination.

3. The following conditions shall apply to the preparation and presentation of the thesis:
   (a) The thesis shall embody the results obtained by the candidate of an original investigation or design or advanced study relative to Architecture. Its' title and an outline of the proposed work shall be submitted to the Faculty of Architecture for approval not later than 1 February of the year in which the candidate enrols provided that approval may be given to a title and outline submitted or resubmitted up until 31 March of that year. The work shall be carried out by the candidate himself under the supervision of a Supervisor appointed by the Senate from the School of Architecture.
   (b) The candidate shall submit the thesis, accompanied by a certificate from the Supervisor stating that the work has been carried out wholly by the candidate under his supervision, to the Registrar not later than 1 November in the year in which it is presented, or at a subsequent date if so arranged with the Dean of the Faculty of Architecture. The Registrar shall hand the thesis to the Dean of the Faculty of Architecture.
   (c) If the Examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to re-submit it at a later date, to be specified by the Examiner. A thesis that has been submitted twice may not be submitted for a third time.
   Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

4(a) A candidate who has not been exempted from presenting the written examination shall take such examination not later than in the fourth year after enrolling for the degree.
   (b) Every candidate shall submit his thesis by 1 November of the fourth year after enrolment for the degree, provided that this period may in special cases be extended by the Senate.

5. Except as provided in Regulation 6 a candidate shall be required to pass in one of the following subjects:
   (1) 15.150 Building Science
   (2) 15.151 Design Theory
   (3) 15.152 Practice and Law

6. The candidate will be advised on enrolment whether or not he will be required to present himself for examination in the written paper, provided that, if exemption is granted and if the thesis when presented is not considered to be satisfactory, a candidate may be required either to:
   (a) pass the written examination, or
   (b) pass the written examination in addition to resubmitting the thesis.

1976 Calendar
7. Where a candidate has been required to take the written examination the Senate shall take into consideration the combined results of the thesis and the written examination in recommending a candidate for admission to the Degree of Master of Architecture.

INSTITUTE OF ARCHITECTS’ SPECIAL EXAMINATION

Note: These examinations are prescribed by the Education Committee of New Zealand Institute of Architects and administered by a Special Examination Committee representing both the NZIA and the Architects’ Education and Registration Board. Candidates are advised to study carefully the corresponding sections of the regulations for BArch. The NZIA Special Examination is recognised by the Architects’ Education and Registration Board as qualification for registration (see AERB ordinances). Registration is a prerequisite to corporate membership of the Institute.

N.Z.I.A. Special Examination

1. Persons with suitable architectural experience who fulfil the conditions set out in clauses 4, 5 and 6 may apply to the Special Examination Committee of the NZIA for admission to the NZIA Special Examination.

2. The Committee may admit candidates at its discretion to the Examination, and may give exemption at its discretion from any or all of the subjects of the Examination as set out in clause 7 and may determine the period of required practical experience in New Zealand as set out in clause 9.

3. Candidates who are admitted to the Examination, and who pass the examinations and fulfil the requirements of the Committee, may subject to registration by the Architects’ Education and Registration Board, be admitted as Corporate Members of the NZIA.

4. An applicant for admission to the Examination shall be:
(a) a holder of an overseas qualification accepted in the country in which it was obtained as being of professional standard in architecture; or
(b) not less than 30 years of age at the time of application and with not less than ten years’ suitable architectural experience.

5. Application for admission to the Examination shall be made to the NZIA Special Examination Committee on the form provided.

All applications shall include:
(a) details of the experience and examples of the work of the applicant, together with suitable corroborative evidence.
(b) a written report, thesis, review or article, the sole work of the candidate, on some architectural or related topic, as an indication of the applicant’s ability to study or analyse clearly and to write clearly upon it.

Applications under clause 4(a) shall include documentary evidence of the qualification obtained, including where possible details of the course prescriptions and grades obtained.
Applications under clause 4(b) shall include evidence of the age of the applicant, and a statement signed by at least two registered architects attesting to the applicant’s experience in and suitability for the profession.

6. A fee of $20 shall be paid by the applicant to the NZIA upon making formal application for admission to the Examination. This fee will be refunded should the application be refused. If the application is approved the candidate shall in addition pay to the University the prescribed fees for examination in the subjects in which he is required to enrol of those enumerated in clause 7.

7. Candidates recommended by the Committee for admission shall sit for the NZIA Special Examination in the following subjects:
(1) Professional Practice
(2) Building Law
(3) Structures
(4) Design and Construction
(5) Oral Examination
subject to such exemptions as may be allowed in each case by the NZIA Special Examination Committee from any or all of these subjects.

8. A pass in subjects (1) to (3) will be obtained by a candidate who passes the corresponding subjects prescribed for the BArch degree, as follows:

1976 Calendar
Subject (4) Design and Construction shall consist of the preparation of a design in answer to a set problem. Part of the design shall be submitted in the form of working and/or structural drawings. Subject (5) Oral Examination will be conducted by the NZIA Special Examination Committee, subsequent to the completion of the other subjects.

9. A candidate recommended by the Committee for admission to the NZIA Special Examination shall, before he becomes entitled to a Certificate stating that he has completed the requirements of the Examination, pass the required subjects and provide satisfactory evidence to the Committee that he has completed such period of approved practical experience in New Zealand (up to 140 weeks) as shall have been determined by the Committee at the time his application for admission was approved.

10. Application forms for admission to the Examination may be obtained from the Secretary, NZIA, P.O. Box 438, Wellington, or from the Dean of the Faculty of Architecture, University of Auckland.

15.111 History of Building
Studies in the development of built environment in settlements, buildings and technology.

15.112 History of Architectural Theory
History of western architectural theories from Greek to modern times.

15.113 History of Building Technology
Influence of economics on the development of building technology.

15.114 Advanced Design Methods
A study of current proposals for strategies and techniques in architectural design, covering aspects of problem or objective stating, survey, analysis, integration of sub-systems, evaluation and testing.

15.115 Building Performance and Programming
Man-environment interactions as measures of performance of built environment; a theory of function in architectural design. Applications. Techniques of performance measurement and appraisal.

15.116 General Economics
Introduction to the principles of Economics.
15.117 Town Planning

15.118 to 15.129 Special Topics
Courses which may be taught in any year on topics in history or theory of architecture; the availability and content of each topic to be determined each year by the Head of the School of Architecture.

15.201 Construction 1
Principles of building construction, materials studies, building services.

15.202 Environmental Control 1
Climate, man, and energy considerations in buildings. Introduction to psychophysics, including lighting and vision, hearing and noise control, thermal comfort and ventilation.

15.203 Structure 1
Forces acting on buildings, study of equilibrium, resistance of elements and simple assemblies. Design and performance features of commonly used materials.

15.204 Construction 2
Advanced studies in the subject matter of Construction 1.

15.205 Environmental Control 2
Advanced studies in the subject matter of Environmental Control 1 including an introduction to room acoustics.

15.206 Structure 2
Deflection characteristics of common elements, force as arrested movements, approximations of complex building frames, instabilities, introduction to efficient but seldom used systems, discussion of techniques used by structural engineers for frame analysis.

15.207 Light
Advanced studies in natural and artificial lighting in buildings.

15.208 Materials Science
Advanced studies in building materials.

15.209 Construction 3
Advanced studies in building construction; system and industrial building; research applications; performance specifications.

15.210 Construction 4
Advanced studies in building construction. The building industry.

15.211 Structure 3
A more advanced treatment of Structure 2. Loadings, secondary stresses, torsion, deflection, arches, portals; vibration; failure.

15.212 Structure 4
Advanced studies in Structure.

15.213 Noise Control

15.214 Acoustics
Advanced studies in room acoustics. Control of reverberation, electronic assistance of reverberation, theory and measurements for reflection masking and integration, application in design, acoustical models, mathematical models of rooms.

15.215 Building Services
Advanced studies in building services, their design performance and coordination.

15.216 Thermal Environment
Advanced studies in thermal environment control, heating, air conditioning and cooling of buildings.

15.217 Computer Applications
Introduction to computer programming. Applications in documentation and problem solving in building.

1976 Calendar
15.218 to 229 Special Topics
Courses which may be taught in any year on topics in technology; the availability and content of each topic to be determined each year by the Head of the School of Architecture.

15.301 Professional Practice 1
The architectural profession in New Zealand. Historical background and controlling legislation. Codes of professional practice.

15.302 Professional Practice 2

15.303 Building Law
Aspects of law as they affect the practice of architecture, building, land and related property.

15.304 Contract Documentation
Preparation of documentation at all stages of architectural service; briefs, feasibility studies, reports, working drawings, certification; developments in this area. Principles and practice involved in the preparation of specifications, interpretation; performance specifications.

15.305 Commercial Practice and Management
A general appreciation of the principles and practice of accounting and commercial practice relevant to the practice of architecture. Management theory, organisation; administration, production, distribution and control aspects; economic, financial and investment theories and techniques.

15.306 Cost Control
Cost planning and control in relation to the design team and design process. Economic feasibility. Cost in use studies. The quantity surveyor. Pricing.

15.307 to 314 Special Topics
Advanced courses which may be taught in any year on topics in Practice; the availability and content of each topic to be determined each year by the Head of the School of Architecture.

15.401 Drawing 1
Basic freehand drawing. Instrumental drawing: basic descriptive geometry; conventional projections; basic perspective.

15.402 Drawing 2
Selected freehand techniques. Instrumental drawing: advanced descriptive geometry; advanced perspective.

15.403 to 15.405 Special Topics
Advanced courses which may be taught in any year on topics in Drawing; the availability and content of each topic to be determined each year by the Head of the School of Architecture.
DIPLOMA COURSE REGULATIONS

FACULTIES OF ARCHITECTURE, COMMERCE, ENGINEERING AND LAW

*DIPLOMA IN BUILDING AND CONSTRUCTION MANAGEMENT

DipBCM

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

An intending candidate who seeks admission on the basis of a professional qualification, practical experience, the New Zealand Certificate in Building, Drafting (Architecture), or Engineering, or a Degree qualification other than in Engineering in Architecture, must apply for admission in accordance with the requirements of the Provisional Admission and Special Admission Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Building and Construction Management shall before his enrolment for this Diploma
   (a) have been admitted or qualified for admission to a Degree in Engineering, Architecture or, with the approval of the Senate, to a Degree in any other faculty; or
   (b) have been awarded or qualified for the award of a Diploma in Architecture, a Diploma in Surveying, or a Diploma in Urban Valuation; or
   (c) hold a professional qualification in Architecture, Engineering, Surveying, or Quantity Surveying and be approved by the Senate as a suitable candidate, or
   (d) have by examination qualified with outstanding merit for the New Zealand Certificate in Building, Drafting (Architecture), or Engineering and have completed the practical requirements for the award of that certificate; or
   (e) have had not less than five years responsible practical experience in architecture, engineering, building and construction, or quantity surveying and be approved by the Senate. The Senate in granting approval for the purpose of this clause may accept a candidate with a shorter period of practical experience where the candidate has followed an appropriate course of study at a University for at least two years and passed the required examinations.

2. The subjects for the Diploma shall be
   49.110 Plant, Techniques and Materials
   49.111 Estimates, Specifications and Quantities
   49.112 Aspects of Building Law
   49.113 Corporation Law and Finance
   49.114, 49.115, 49.116 Building Management

Provided that with the permission of the Senate a candidate who has passed approved examinations in comparable subjects and has considerable responsible practical experience may be exempted from not more than two of these subjects.

3. Every candidate shall carry out and report on to the satisfaction of the Senate a series of projects in approved topics related to the subjects specified in Regulation 2 of these Regulations.

SCHOOL OF ARCHITECTURE

DIPLOMA IN URBAN VALUATION

DipUrbVal

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Urban Valuation shall follow a course of study of not fewer than two years.

1976 Calendar
2. The Diploma may be awarded with or without Honours.

3. A candidate for the Diploma shall be exempt from examination in any subject or subjects in which he has already passed in another course, provided that in all cases the prescription is substantially the same as and the standard of these examinations is not lower than that prescribed for the Diploma in Urban Valuation.

4(a) The subjects of examination shall be:

- 15.201 Construction I
- 15.202 Environmental Control I
- 15.116 General Economics
- 15.104 Building Economics
- 15.303 Building Law
- 37.114 Design Criteria
- 15.204 Construction 2
- 15.205 Environmental Control 2
- 15.117 Town Planning
- 37.133 Specifications, Measurements, and Valuation of Materials
- 37.151 Accounting
- 37.149,37.150 Principles and Practice of Urban Valuation I
- 37.118 Concrete and Steel Construction
- 37.148 Urban Land Economics
- 37.152,37.153 Principles and Practice of Urban Valuation 2
- 37.154 Practical Studies in Valuation of Urban Properties
- 37.155 Dissertation (for Honours)

(b) The subjects shall be taken in the order listed above or in such other order as the Senate may approve or require for the course of any candidate.

5(a) A candidate shall be eligible to enrol for Honours only with the leave of the Senate; for which is required a high standard in the work prescribed in Regulation 4.

(b) The Senate shall inform him as soon as reasonably possible after his completion of that work as to whether he has leave to enrol for Honours.

(c) Not later than 10 January next following, an eligible candidate wishing to enrol for Honours shall notify the Registrar in writing.

6. A candidate for Honours shall submit a Dissertation to which the following conditions shall apply:

(a) the Dissertation shall embody the results obtained by the candidate in an investigation, approved by the Head of the School of Architecture, in some branch of the subject of Urban Valuation;

(b) a candidate shall in the first, second, or third year following the completion of the work described in Regulation 4, submit his Dissertation to the Registrar by 1 November or at a subsequent date approved by the Head of the School of Architecture;

(c) Honours shall be awarded upon the results of the Dissertation but if the Dissertation is not of sufficient standard the Diploma shall be awarded to the candidate without Honours.

Note: An abstract is to be submitted with the dissertation, see Examination Regulation 14.

Transitional

7. The course of any candidate who was enrolled prior to 1974 but was not enrolled in 1974 shall be subject to the transitional regulations set out in the University of Auckland Calendar for 1974.

8(a) The Senate may in such exceptional cases as it thinks fit approve a personal course of study which does not conform to the foregoing Regulations.

(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

9. These Regulations shall come into force on 1 January 1974.

In the first year of the part-time course the first four subjects are required to be taken. The prescriptions for the subjects named in the preceding Regulations are given below:

49.110 Plant, Techniques, and Materials

49.111 Estimates, Specifications, and Quantities
Specifications — types to suit differing forms of contracts and relationship with contract documents. Omissions, errors, and conflict in documents. Responsibilities, setting out, variation and extras, control of materials, completion and warranties. Quantity Surveying — principles of computation of quantities including earthwork, bills of quantities.

49.112 Aspects of Building Law
The principles applicable to contracts and other legal problems commonly encountered within the building industry.

49.113 Corporation Law and Finance
An introduction to financial accounting and the principles of business finance. Legal aspects of Companies, Partnerships and the financing thereof.

49.114, 49.115, 49.116 Building Management
(Three papers).

Projects
A series of case studies drawn from the building industry and covering the syllabus for Building Management plus other subjects in the course.

Text-books for subjects of this Diploma will be prescribed at the commencement of the Course.

PRESCRIPTIONS FOR DipUrb Val

The prescriptions for the subjects named in the preceding Regulations are given below.

15.201 Construction I
As prescribed for BArch.

15.202 Environmental Control I
As prescribed for BArch.

15.116 General Economics
As prescribed for BArch.

15.117 Town Planning
As prescribed for BArch.

15.303 Building Law
As prescribed for BArch.

37.114 Design Criteria
General principles of design applied in architecture.
Note: A candidate who has passed the subjects 101 Theory of Architecture I and 102 Theory of Architecture II for the BArch course may be credited with the subject Architectural Design.

37.118 Concrete and Steel Construction
A general study of good and reasonable practice associated with the use of structural steel, reinforced concrete and prestressed concrete in buildings.
Note: A candidate who has passed 208 Structure 2 of the BArch course may be credited with the subject Concrete and Steel Construction.
15.204 Construction 2  
As prescribed for BArch.

15.205 Environmental Control 2  
As prescribed for BArch.

15.104 Building Economics  
As prescribed for BArch.

37.133 Specifications, Measurements, and Valuation of Materials  
(One paper).  
The writing of specifications. The methods of measuring and valuing materials. The preparation of estimates.  
Note: A candidate who has passed Studio 15.410, 411, 412 for BArch may be credited with the subject Specifications, Measurements, and Valuation of Materials.

37.151 Accounting  
(One paper).  

37.149, 37.150 Principles and Practice of Urban Valuation 1  
(Two papers).

DEGREE COURSE REGULATIONS

DEPARTMENT OF TOWN PLANNING

THE DEGREE OF BACHELOR OF TOWN PLANNING

BTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

General Provisions

1(a) Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Town Planning shall

(i) pursue a course of study for a period of not less than four years;
(ii) pass an Intermediate Examination and two Town Planning Examinations;
(iii) carry out practical work in the application of Town Planning to the satisfaction of the Head of Department.

(b) Except with the permission of Senate no candidate for this Degree shall take in any one year more than nine papers.

Examinations

2. Except as hereinafter provided a candidate shall be required to pass as a whole the Intermediate Examination and each Town Planning Examination so that his performance in all papers of the Examination shall be considered; provided that

(a) where a candidate fails to pass an Examination (whether Intermediate or Town Planning) as a whole he may at the discretion of the Senate be

(i) credited with a paper or papers of that Examination, and
(ii) permitted in a subsequent year to present the paper or papers not so credited, together with a paper or papers of the First or Second Town Planning Examination as the case may be.

(b) No candidate may enrol for any papers of the First Town Planning Examination until he has passed at least six papers prescribed at Stage II level for the Intermediate Examination.

(c) A candidate who is studying for this degree part-time or in conjunction with any other degree, may be required to pass an examination consisting of such work, less than the full Examination, as the Senate may in its discretion determine and present the remaining papers of the full Examination in a subsequent year, together with a paper or papers of the next succeeding Examination.

(d) A candidate to whom either of the foregoing provisos (a) and (c) applies shall be required to pass as a whole an Examination consisting of the papers taken in any year, so that the candidate's performance in all papers taken in that year shall be considered.

3. The Examinations for this Degree shall be:

Intermediate Examination

(a) The Course of study for the Intermediate Examination shall consist of

(i) ten Arts papers or equivalent Science credits (or an equivalent combination of papers and credits), of which three-fifths are above Stage I level, from the following subjects as prescribed for the Degree of BA or BSc as the case may be:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Arts</th>
<th>Science</th>

</tr>
<tr>
<td>Botany</td>
<td>History</td>
<td></td>
</tr>
<tr>
<td>Economics</td>
<td>Mathematics</td>
<td></td>
</tr>
</tbody>
</table>

Any other subject or subjects prescribed for the Degree of BA or BSc may be approved by the Head of Department for the purposes of this paragraph.

(ii) four other papers or equivalent credits (or an equivalent combination of papers and credits) from any subjects prescribed for the Degree of BA or BSc or for any other degree approved by the Head of the Department of Town Planning for the purposes of the candidate's Course of Study.

(b) A candidate who has passed the Second Professional Examination for BArch or BE, or the Second Law Examination for LLB or LLB(Hons), or two professional years for a degree of another New Zealand University may, with the approval of the Senate, be exempted the requirements of the Intermediate Examination.
A candidate who has qualified with outstanding merit for the New Zealand Certificate in Draughting (Town and Country Planning) or the New Zealand Certificate in Town Planning may, with the approval of the Senate, be exempted the requirements of the Intermediate Examination. Note: Any such candidate is required to apply for admission under the Special Admission Regulations.

First Town Planning Examination

Part A
36.200 Planning Theory
36.201 Planning Techniques
36.202 Planning Law and Administration

Part B not fewer than two of the following
36.203 Urban Settlements
36.204 Society and Settlements
36.205 Communications and Utilities

Part C
Two Stage III papers from one of the subjects listed for the Intermediate Examination in paragraph (a) (i) of this Regulation.

Second Town Planning Examination

Part A
36.300 Advanced Planning Theory
36.301 Advanced Planning Techniques
36.302 Advanced Planning Law and Administration and one of
36.303
36.304
36.305 Special Topics approved by the Head of the Department of Town Planning
36.306
36.307

Part B not fewer than two of the following:
36.203 Urban Settlements
36.204 Society and Settlements
36.205 Communications and Utilities
36.310 Urban Design
36.311 History of Town Planning
36.312 Resource Management
36.313
36.314
36.315 Special Topics approved by the Head of the Department of Town Planning
36.316
36.317

Part C
Two papers including one Stage III paper from the subjects for the Intermediate Examination as in paragraph (a) (i) of this Regulation, and prescribed for the Degree of BA or BSc as approved by the Head of the Department of Town Planning.

Restrictions Prerequisites and Corequisites

4 (a) As to Part B of the Second Town Planning Examination:
(i) No candidate shall take paper 36.203 or paper 36.204 or paper 36.205 if he has already been credited with that paper for Part B of the First Town Planning Examination.
(ii) No candidate shall take any of the papers 36.311, 36.312, 36.313, 36.314, 36.315, 36.316 or 36.317 unless he has passed in or taken concurrently the papers 36.203, 36.204 and 36.205.
(b) In respect of the papers and equivalent credits taken from this Degree (whether for the Intermediate Examination or for Part C of the First or the Second Town Planning Examination) each candidate shall be required to comply with all regulations applicable thereto for the Degree of BA or BSc or other Degree (including regulations and requirements relating to corequisites, prerequisites, restrictions, combinations of subject and practical work).

Exemptions

5(a) A candidate who has been credited for a Degree with any of the papers or equivalent credits specified for the Intermediate Examination may be credited with those papers or credits for the purpose of this Degree.
(b) Subject to the Admission Ad Eundem Statum Regulations, a candidate who is a graduate of any New Zealand University shall be exempted from passing the Intermediate Examination, and his Course of study shall be pursued for a period of not less than two years.

c(c) A candidate proceeding under paragraph (b) of this Regulation or Regulation 3 (b) may substitute for any or all of the Stage III papers prescribed for Part C of the First and Second Town Planning Examinations not fewer than the same number of papers prescribed for the Degree of BA or BSc as approved by the Head of the Department of Town Planning.

Practical Course

6. No candidate shall be admitted to this Degree unless the Registrar has received from the Head of the Department of Town Planning a certificate that the candidate has complied with the requirements of the Department as to practical work.

7. These Regulations shall come into force on 1 January, 1975

THE DEGREE OF MASTER OF TOWN PLANNING

MTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the degree of Master of Town Planning shall before enrolment.

(a) have been admitted or qualified for admission to the Degree of Bachelor of Town Planning, and

(b) have obtained, in the opinion of the Head of the Department, a sufficiently high standard in Part A of the Second Town Planning Examination, with no paper graded lower than C.

2. Except as provided elsewhere in these Regulations a candidate shall take all papers required for this Degree in the same year. At his first enrolment for the Degree the Senate may require a candidate not intending to devote his full time to his Course of study to sit his papers in a subsequent year.

3. No candidate shall take for this Degree any paper that is the same or substantially equivalent to any other paper that he has passed or is taking and obtain credit for both for this Degree.

Course Content

4. Every candidate for the Degree of Master of Town Planning shall be required to pass in five papers and a research essay which shall count as one paper; or four papers and a thesis which shall count as two papers. The papers shall be chosen from

- 36.400 Planning Theory
- 36.401 Planning Techniques
- 36.402 Planning Law and Administration
- 36.403
- 36.404
- 36.405
- 36.406
- 36.407
- 36.408

Special topics approved by the Head of the Department of Town Planning.

- 52.45 Public Health Engineering (as prescribed for the Degree of ME)
- 52.78 Transportation Planning (as prescribed for the Degree of ME)
- 20.436 Urban Geography (as prescribed for the subject Geography for the Degree of MA)
- 30.402 A topic on urban government and politics (as prescribed for the subject Political Studies for the Degree of MA)
- 82.406 Urban Sociology and Ecology (as prescribed for the subject Sociology for the Degree of MA)
- 25.383 Social Control of Land [as prescribed for the Degree of LLB(Hons)]
- 15.151 Design Theory (as prescribed for the Degree of MArch) provided that the Head of Department of Town Planning must approve the relevance of paper 15.151 to the subject of investigation for the thesis before a candidate may enrol in that paper.

Note: This paper may not be taught during the Current Calendar year.
Dept. Town Planning, Degree Regulations, MTP 373

Thesis
5. Where a thesis is required the following conditions shall apply:
(a) The thesis shall embody the results obtained by the candidate in a investigation in some branch of Town Planning.
(b) A candidate shall present his thesis in the year in which he takes the papers, or within the next three years, provided that the time may be extended in exceptional cases, by the Senate.
(c) If the examiner with the concurrence of the assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.
Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Honours
6(a) There shall be two Classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory; provided that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified as under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he is still eligible for the award of Honours, subject to the provisions of paragraph (c) of this Regulation.
(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree.

Transitional Provision
7. Notwithstanding anything in paragraph (a) of Regulation 1 a candidate who has been awarded the Diploma in Town Planning shall be eligible to enrol for this Degree up to and including the year 1976, subject to the provisions of the Regulations governing the Diploma in Town Planning which were included in the University of Auckland Calendar for 1974.
8. These Regulations shall come into force on 1 January 1975.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN TOWN PLANNING

DipTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

An intending candidate who seeks admission under the proviso of Regulation 1 of these Regulations may need to apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Town Planning shall before enrolment have been admitted or have qualified for admission to a Degree in Architecture, Engineering, Law, or Surveying; or to a Bachelor's Degree for which he has passed at least three Stage III papers in the subjects of Economics, Geography, or Sociology, or any of those subjects: provided that, if not so qualified, a person may with the leave of the Senate enrol for the Diploma if he
(i) has been admitted or has qualified for admission to any other Degree, or
(ii) holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning, or
(iii) has been awarded or qualified for the award of a Diploma in Architecture or Surveying or
(iv) has been awarded or qualified for the award of a Diploma in Urban Valuation, his first enrolment for which was made before 1975.

Course Content
2. Every candidate shall be required to:
(i) pass six papers from Parts A and B of the First Town Planning Examination
(ii) pass four papers from Part A and two papers from Part B of the Second Town Planning Examination
(iii) complete the practical course prescribed for the Degree of Bachelor of Town Planning.

3. No candidate shall take for this Diploma a paper the same as or substantially equivalent to any paper he has passed for another University Diploma or Degree and shall for any such paper substitute another paper approved by the Head of the Department of Town Planning.

4(a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.
(b) The Regulations governing the Diploma in Town Planning which were published in the University of Auckland Calendar for 1974 (in this Regulation called the 1974 Regulations) are hereby revoked, provided that a candidate who enrolled under the 1974 Regulations shall, with the exception of the dissertation, complete work and requirements equivalent to those prescribed in the 1974 Regulations by 1 November 1975 and may submit up to and including the year 1978 a dissertation in accordance with Regulation 2(c) of those Regulations, in order to qualify for the Diploma.

5. These regulations shall come into force on 1 January, 1975.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ENGINEERING

BE

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

Honours

1. The Degree of Bachelor of Engineering may be awarded with or without Honours according to the standard of the candidate's work. There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division.

General Provisions

2(a) Except as otherwise provided, a candidate for the degree of Bachelor of Engineering shall be required
(i) to pursue a Course of study for a period of not less than four years, and
(ii) to pass an Intermediate Examination and the examinations of the three Professional Years, and
(iii) to perform Practical Work to the satisfaction of the Faculty of Engineering, and
(iv) to perform Laboratory and Field Work to the satisfaction of the Faculty of Engineering.
(b) A candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination (including each Examination under Regulation 4), so that his performance in all the subjects of the Examination shall be considered: provided that a candidate who has failed to pass any such Examination as a whole may at the discretion of the Senate be credited with a subject or subjects of the Examination and permitted in a subsequent year to present the subjects not so credited, together with (if the Senate permits) a subject or subjects of the next succeeding Examination. The candidate shall then be required to pass a composite Examination in all the subjects so presented upon the same conditions as those prescribed in this sub-clause.

Concessions

3(a) A candidate who has been credited for the Degree of Bachelor of Science with any or all of the courses Chemistry I, Mathematics 120 or 121, Mathematics 140 or 141, Physics 113, and Physics 123 shall be credited with such course or courses for this Degree.
(b) For the purpose of this regulation only
(i) two of the courses Chemistry 100, 201, 202 and 203 may be substituted for Chemistry I.
(ii) Stage II Physics courses totalling 6 credits may be substituted for each of the courses Physics 113 and 123.
(iii) Stage II Pure Mathematics courses totalling 6 credits may be substituted for each of the courses Physics 113 and 123.
(iv) A candidate who has been credited for the Degree of Bachelor of Science with the course Mathematics 170 or Stage II or III Applied Mathematics courses totalling 6 credits may be credited with such course or courses in lieu of Engineering Mechanics 57.100 for this Degree.

4. A candidate for the Degree of Bachelor of Engineering who
(a)(i) has been awarded or has qualified for the award of the Degree of Bachelor of Science, or
(ii) has completed within two years the examination requirements for the award of the Degree of Bachelor of Science, or

(iii) was permitted to enrol for Stage II or Stage III courses in a subject without first presenting that subject at Stage I and who, if the Stage I courses not taken were included, would have qualified within two years for the award of the Degree of Bachelor of Science, shall be required to pursue a Course of study for a period of not less than two years in such subjects for the Degree as the Dean of the Faculty may prescribe and to pass Examinations in each year in the subjects so prescribed for that year; provided that
(b)(i) the Examination for the first year shall be such that the amount of necessary study shall be substantially the same as for the Second Professional Examination;
(ii) all the subjects and courses of the Third Professional Examination shall be included in the candidate's Course of study but none such in the first year;

1976 Calendar
(iii) the candidate shall be exempt from the courses and subjects of the Intermediate Examination and from such other subjects of the Degree as are not prescribed for his Course under this regulation.

5. Any candidate who has passed in one year in Mathematics 120 or 121, Mathematics 140 or 141, Physics 113, Physics 123 and Chemistry I, or the substitutes permitted under Regulation 3 (b), and one other course, may be exempted by the Senate from the subjects of the Intermediate Examination, provided that he has also completed a Course in Elementary Mechanics approved by the Senate.

6(a) The Senate may exempt a candidate from the Intermediate Examination if it is satisfied that in the Entrance Scholarships Examination he has reached a satisfactory standard and if the subjects the candidate has taken include Chemistry, Physics, Pure Mathematics, and Applied Mathematics.

(b) The Senate may permit a candidate who has gained a pass in the Bursary examination, or a Junior Scholarship, to substitute courses, papers or subjects totalling or equivalent to 12 credits, for prescribed courses of Engineering Intermediate related to one subject of the Bursary Examination in which he attained a standard of achievement approved by the Senate.

Substitution for Engineering Mechanics shall not be permitted.

7(a) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate in Engineering or the New Zealand Certificate in Draughting in the fields of Civil, Mechanical, or Electrical Engineering, or Telecommunications, and who has completed the practical requirements for the award of that Certificate, may be exempted by the Senate from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

(b) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate of Science (Metallurgy) and who has completed the practical requirements for the award of that Certificate may for the Course in Chemical and Materials Engineering be exempted from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

(c) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate of Science (Physics) in the sub-division of Applied Electronics and who has completed the practical requirements for the award of that Certificate may for the Course in Electrical Engineering be exempted from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

8. Regulations 3, 4, 5, 6, and 7 of these regulations shall be read together with, so far as they are not inconsistent with, the provisions of the Enrolment and Course Regulations (General) relating to cross-credits and exemptions.

Practical Work
9. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Practical Work.

Laboratory and Field Work
10. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Laboratory and Field Work.

Prerequisites
11. No student may enrol (a) for any subject of the First Professional Year without having completed the whole of the Intermediate Examination;
(b) for any subject of the Third Professional Year without having completed the whole of the First Professional Examination.

Note: In considering the enrolment of a student whose course is irregular by reason of past omissions or failures, the Dean will recommend for approval only a course for which he finds the student adequately prepared by his previous studies.

Form of Course
12. For the Second and Third Professional Examinations the candidate shall follow one of the following five courses:
Chemical and Materials Engineering
Civil Engineering
Electrical Engineering
Engineering Science
Mechanical Engineering

Savings and Transitional Provisions

14. The Regulations governing the Degree of Bachelor of Engineering set forth in the University of Auckland Calendar for 1971 are hereby revoked: provided that every candidate who began his course under the last mentioned regulations shall be credited for the purpose of these present regulations with such units as the Senate may determine.

15. These regulations shall come into force on 1 January 1972.

** A candidate is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Mechanical Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of two papers.

THE DEGREE OF MASTER OF ENGINEERING

ME

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1976 Calendar
General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Engineering shall
(a) before his enrolment for this Degree have been admitted or qualified for admission to the Degree of Bachelor of Engineering, and
(b) follow a Course of study of not less than one year.

2. Every candidate for this Degree shall either
(a) pass in each of eight subjects chosen according to Regulation 3, or
(b)(i) pass in each of three subjects, and
(ii) pass in respect of a thesis (which shall count as equivalent to five subjects).

Subjects
3. The following conditions shall apply to the choice of subjects:
(a) Every candidate shall choose his subjects in consultation with the Head of his Department from those listed in clause (b) of this Regulation; provided that no subject that has been credited to another degree shall be taken for this Degree.
(b) The subjects of examination for the degree are:
(i) ¶51.70 Advanced Materials
51.71 Advanced Process Control
51.72 Chemical Engineering Seminar
51.73 Materials Seminar
51.74 Studies in Chemical Engineering
51.75 Studies in Materials Engineering

55.74 Productivity Management
55.75 Studies in Mechanical Engineering
50.70 Project A
50.71 Project B
50.72 Project C
50.73 Project D (value 2 papers)
(ii) those subjects approved by the Head of Department from any of those offered at Third Professional level for the BE degree.

Project Work
4. (a) No candidate shall take
(i) Project A, B, C or D if he submits a thesis for this degree;
(ii) more than one of the Projects A, B or C if he takes Project D.
(b) A candidate who takes Project D must submit his project report not later than twelve months after his enrolment for this project provided that the Senate may, in exceptional circumstances, extend this period.
(c) A candidate who takes Project A, B or C must submit his project report on the last day of the semester in which the project is taken provided that the Senate may, in exceptional circumstances, extend this period.

Thesis
5. The following conditions shall apply to the thesis:
(a) The thesis shall embody the results obtained by the candidate in an investigation in a subject approved by the Head of his Department.
(b) The investigation shall be carried out personally by the candidate at the University under the direct supervision of a member of the academic staff: Provided that
(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;
(ii) field work may be carried out at such places and for such periods as the Senate may determine.
(c)(i) The supervisor shall be the principal examiner.
(ii) The Senate acting on the advice of the Head of the Department shall appoint either an external assessor or a second internal examiner.
(d) At the discretion of the Head of his Department the candidate may be required to attend an oral examination on the subject of his thesis, which shall take place within four weeks of the date on which the thesis was submitted, or within such longer period as the Senate may in special circumstances approve.
(e) If the supervisor with the consent of the assessor or second examiner as the case may be so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.
(f) A candidate shall present his thesis not later than 18 months or, if he is a part-time candidate not later than 36 months, after his first enrolment for this degree, provided that the Senate may, in exceptional circumstances, extend this period.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

(g) Notwithstanding anything in Regulation 5(f) a part-time candidate shall present his thesis not later than 36 months after his first enrolment for this degree, provided that the Senate may, in exceptional circumstances, extend this period.

6(a) Notwithstanding anything in Regulations 2 and 3 of these Regulations a candidate may upon the recommendation of the Heads of the Departments concerned and with the approval of the Senate
(i) substitute a Science paper for any papers, paper, or part of a paper prescribed in Regulation 3(b);
(ii) substitute a thesis (to carry such weight as may be determined) in a Science subject for a thesis in any subject prescribed in Regulation 3(b);
so that part of the candidate's Course for this Degree may be taken in Science.

1976 Calendar
(b) The Senate may require the candidate to take any appropriate prerequisite courses before granting any such approval.
(c) In this regulation "a Science paper" and "a Science subject" mean respectively any paper and any subject prescribed in or for the purposes of Regulation 13 of the Regulations for the Degree of Master of Science or the purposes of Part IV of any Honours School under the Regulations for the Degree of Bachelor of Science (Honours).

Classes of Pass
7. The Degree of Master of Engineering shall be awarded in three divisions — First Class, Second Class, and Pass, provided that a candidate who is required to re-submit the thesis shall be eligible for the award of the Degree in the pass division only.
8. These regulations shall come into force on 1 January, 1972.

* Not available in 1976.
† May not be taught in 1976.
‡ Not all electives will be available in a given year.

RESEARCH IN ENGINEERING
Facilities are available for research by PhD and postdoctoral students in each of the Departments of the School of Engineering.
Attention is drawn to the fact that the Honours degree qualifying a PhD student for registration need not necessarily be one in Engineering. Graduates with a good Honours degree in Physics, Chemistry, or Mathematics, for example, could be considered for registration in Engineering.

PROFESSIONAL INSTITUTION COURSES
Candidates for the examinations of the Council of Engineering Institutions may take courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their course.

Professional Examinations

50.09 General Studies I
A study of the formation and growth of ideas and their effect on the development of Western culture in the last two hundred years: population growth, the rise of the city, the impact of science and technology, social and political responses.

50.10 Dynamics
Dynamics and the application of dynamics to the study of machines and machine elements.

50.11 Electrical Engineering I
An introductory course, with principal emphasis on electric circuit theory and electronics.

50.12 Engineering Drawing
The elements of engineering draughting and graphics.

50.13 Engineering Mathematics IA
Statistical frequency distributions, measures of centrality and dispersion, probability, theoretical distributions, including Binomial, Poisson and Normal models, applications. Elementary transcendental functions of a real variable, with a brief introduction to complex arguments, representation in rectangular and polar co-ordinates, curve sketching. Differential calculus of one variable, Leibniz theorem, mean values, Taylor’s theorem, power series, limiting values, partial differentiation.

50.14 Fluid Mechanics I

50.15 Engineering Design I
Introduction to the application of mechanics to the design of mechanical and structural components.

50.16 Engineering Mathematics IB
Course in computer programming with exercises. Ordinary differential equations, isoclines, first order homogeneous and linear kinds, second order constant coefficient, simultaneous equations. Linear algebra, solvability of sets of equations, matrix notations and operations, homogeneous equations, numerical methods of solution by elimination and iteration. Integral calculus of one variable, improper integrals. Fourier series, multiple integrals, gamma function, Laplace transforms and applications.

1976 Calendar
50.17 Materials I
An introductory course dealing with the behaviour of engineering materials. Alternative syllabuses will be offered appropriate to the student's prospective course.

50.18 Mechanics of Materials I
Statics: Equilibrium of systems of forces and moments in two and three dimensions. The principle of virtual work. Friction.
Structural Mechanics: Statically determinate beams and trusses. Elementary vibrations.

50.19 Thermodynamics I
(Alternative syllabuses appropriate to student's prospective course.)
(a) Chemical and Materials Engineering and Engineering Science Courses:
Classical chemical thermodynamics up to and including the concepts of chemical potential, fugacity and activity; applications of these concepts. Thermodynamics of power and refrigeration cycles, and flow processes. Introduction to statistical thermodynamics. Elements of formal kinetics; activation energy and the Arrhenius-equation.
(b) Electrical Engineering and Mechanical Engineering Courses:
An introduction to the fundamentals of thermodynamics and the elements of useful thermodynamic processes applied to engineering, including: power and refrigeration cycles; gas dynamics; combustion and chemical processes.

50.20 General Studies II
A survey of some of the problems of contemporary man, including aspects of politics, sociology, ecology and technology and their interactions.

51.20 Advanced Chemistry A
General, analytical and organic chemistry.

51.21 Chemical Engineering Fundamentals
Introduction to chemical engineering calculations; mass and energy balances; psychrometry. Introduction to unit operations; phase relationships. Fluid flow; Newtonian flow; incompressible non-Newtonian flow; introduction to compressible flow; pipe circuits; pumps and pumping; flow measurement.

51.22 Materials II
A course of intermediate level dealing mainly with physical metallurgy.

51.23 Advanced Chemistry B
General and physical chemistry.

51.24 Chemical Engineering Design I
The elements of design applied to chemical engineering plant and projects.

51.25 Selection and processing of Materials
Mechanical metallurgy. Metals processing. Selection of engineering materials.

51.26 Transport Phenomena

51.27 Materials IIIE

51.30 Chemical Engineering Design II

51.31 Mass Transfer Operations I
Mass transfer in staged processes. Introductory aspects of distillation, extraction, gas absorption, humidification and drying.

51.32 Particulate Technology
Interaction of particles and fluids. Particulate separation processes.

51.33 Process Control
Process dynamics and simulation. Control theory and stability analysis with industrial applications.
51.34 Chemical Engineering Design III  
Process engineering. Forecasting and process evaluation. In this course the student will be required to complete a major design project, the grading of which will carry the weight of one paper.

51.35 Chemical Reactor Engineering  
Reaction kinetics and process reactors. Fuel technology.

51.36 Project in Chemical and Materials Engineering  
A student is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Chemical and Materials Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of two papers.

51.40 Advanced Chemistry C  
An advanced course on selected aspects of structural, physical, inorganic and organic chemistry.

51.41 Chemical Engineering Design seminar  
Selected topics from advanced fields of process equipment design, process engineering and economics.

51.42 Industrial Materials Engineering  
Application of the principles of materials to topics selected from: castings, polymers, ceramics, coatings, composites, powder metallurgy, welding, non-destructive testing etc.

51.43 Mass Transfer Operations II  
Advanced mass transfer in staged processes, including multicomponent systems. Specialized mass transfer operations.

51.44 Materials III  
Advanced physical metallurgy. Structure and properties of polymers, glasses and ceramics.

51.45 Mineral Processing  
Analysis of selected methods of mineral processing. Equipment and circuits for processing minerals.

51.46 Special Topic in Chemical Engineering  
A course on a topic in chemical engineering to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.47 Special Topic in Materials Engineering  
A course on a topic in materials engineering to be determined each year by the Head of the Department of Chemical and Materials Engineering.

52.10 Structures I  
Elementary statics for structural analysis: equilibrium of free bodies, stability of structural mechanisms, concept of compatibility, determinate and indeterminate structures; analysis of determinate structures (trusses, three-pinched frames and arches); concept of axial force, shearforce and bending moment, beam theory, shearforce and bending moment diagrams; work and energy principles, virtual work theorem and application; moment area.  
Elementary Strength of Materials: stress and strain at a point, principal stresses. Mohr’s circle.

52.11 Surveying I  

52.20 Mechanics and Properties of Materials I  

52.21 Structures II  
Analysis of indeterminate structures; slope deflection equations, moment distribution for single and multiple sway structures; arch analysis; column analogy; energy theorems; influence lines; approximate methods for indeterminate structures.
52.22 Surveying II

52.23 Civil Engineering Design I
Design of beams, columns, ties, struts and connections in structural steel and timber. Design of slabs, beams, columns and footings in reinforced concrete.

52.24 Engineering Geology I
Principles of physical and structural geology, seismology and elementary stratigraphy. Petrology and mineralogy of the common rocks, rock groups and rock forming minerals. Geological surveying and mapping. Geology of water supply and the general application of geology of Civil Engineering.

52.25 Fluid Mechanics II

52.26 Geomechanics I

52.27 Engineering Design II M

52.30 Civil Engineering
Principles of public health engineering, hydrology and hydraulic engineering, traffic and highway engineering.

52.31 Fluid Mechanics IIIA
Introduction to hydrology, precipitation, interception, evaporation, transpiration, infiltration, analysis of hydrographs, storage, flood estimation and flood routing, analysis of data. Loose boundary hydraulics. Introduction to elements of classical hydrodynamics and potential flow. Flow through porous media. Analysis of water surface waves and wave forces.

52.32 Geomechanics IIIA

52.33 Mechanics and Properties of Materials IIIA
Theory of design of reinforced and prestressed concrete. Concrete technology. Experimental stress analysis. The structure and properties of selected materials used in civil engineering.

52.34 Structures IIIA

52.35 Civil Engineering Administration

52.36 Civil Engineering Design II
The course will comprise projects on the planning and design of civil engineering projects.

1976 Calendar
52.40 Engineering Geology II
Geological principles applied to engineering problems.

52.41 Fluid Mechanics IIIB

52.42 Geomechanics IIIB

52.43 Highway and Traffic Engineering

52.44 Mechanics and Properties of Materials IIIB

52.45 Public Health Engineering
Chemistry and microbiology of water and wastewater, water and wastewater collection and treatment, solid and liquid wastes disposal, pollution of rivers, coastal waters and atmosphere.

52.46 Special Topic in Civil Engineering
A course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.47 Structures IIIB
Advanced matrix methods for structural analysis; finite element method for two and three dimensional problems in plane stress and plate bending; nonlinear analysis of structures; structural synthesis; application of digital computers; analysis of specific structural types.

52.48 Surveying III

52.50 Water Resources Engineering
Additional topics in hydrology, meteorology and related sciences. Planning of water resources. Principles of hydraulic engineering as applied to river control, drainage and irrigation, water supply and storage. Selected topics of coastal and oceanic engineering. Project work forms a central part of all the above course work.

53.20 Electrical Engineering II

53.21 Control Systems I

53.22 Electromagnetic Fields I
Static electric and magnetic fields. Methods of solution of engineering static field problems. Fundamentals of dynamic fields; energy; simple plane waves; skin effect.
53.23 Electronics I
Introduction to the physics of semiconductor devices.
Characteristics and performance of diodes, thyristors, junction transistors, field effect devices.
Small signal amplifier theory, introduction to feedback systems, direct-coupled amplifiers.

53.24 Utilization of Electricity I
Introduction of principles of energy conversion. Generator and motor action and operation.
Characteristics of d.c. machines. The machine as an amplifier. Cross field machines.
Polyphase systems. Production of rotating field. Induction and synchronous machines. Field form and wave form.
The transformer equivalent circuit. Use of normalised quantities.

53.25 Electrical Engineering IIS
Electromagnetic field theory.

53.30 Electronics II
Generalised small signal analysis of single and multi-stage circuits. Feedback principles and stability considerations; oscillators, switching circuits, tuned voltage, amplifiers, voltage regulator circuits, wide band amplifiers.
Power amplifiers; operation, design, and thermal stability.
Modulation, demodulation and frequency changing. Noise, noise figure measurements and calculations.

53.31 Transmission Lines and Circuits
Coupling networks: filters and attenuators. Transmission lines: response to surges, response to A-C from power frequencies to UHF. Wave guides.

53.32 Utilization of Electricity II
Transformers polyphase and multi-winding. Harmonic phenomena.
Induction motors, polyphase and single-phase. Starting speed control and general characteristics.
Variable speed drives — motor characteristics.
Synchronous machines, equivalent circuits.
Rectifiers: mercury arc and solid state.

53.33 Electrical Design
Detailed treatment of some aspects of design relevant to the synthesis of electrical systems.

53.34 Project in Electrical Engineering
A student is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Electrical Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of two papers.

53.40 Applied Network Synthesis
A detailed study of both passive and active network transfer functions. Emphasis on low-pass and band-pass networks for amplifiers, oscillators, and other instrumentation used in industry and for research. Introduction to irrational transfer functions, and to active negative impedance converters and gyrators.

53.41 Communications
Modulation and demodulation and associated circuits: Fourier series, Fourier integral; Sampling theorem, Information theory, Statistical methods; Signal transmission through networks convolution integral; Random signals and noise.

53.42 Control Systems II
Introduction to modern control theory and applications. State space description of dynamic systems and solutions of the state equation. Examples of multivariable feedback and time optimal switched systems using this formulation. Computer control basics including analogue/digital conversion, digital control algorithms and microprocessor devices.

53.43 Electromagnetic Fields II
Fundamentals of radio and microwave communication systems.

1976 Calendar
53.44 Power Systems

53.45 Semiconductors

53.46 Special Topic in Electrical Engineering
An advanced course on a topic to be determined each year by the Head of the Department of Electrical Engineering.

53.47 Applied Electricity
A course on electrical and electronic components and circuits leading to the study of industrial instrumentation, control systems and applications of electrical energy.

54.20 Engineering Mathematics II

54.21 Computational Techniques I
Numerical analysis and algorithms extending the work done in Engineering Mathematics I and II and applied to the solution of engineering problems. Topics discussed will include: solution of large linear systems, solution of partial differential equations, stability analysis, error analysis etc. Familiarity with computer programming will be assumed.

54.22 Continuum Mechanics I

54.23 Systems Analysis
Optimization techniques, brief review of classical and modern methods. Linear programming, graphical interpretation, theory of Simplex procedure, duality theory, transportation and allocation algorithms, all with applications. Computer simulation, models of single and multichannel processes, applications to such problems as inventory control, repair and breakdown, facility allocation, traffic problems.

54.24 Engineering Mathematics III S
The course material of Engineering Mathematics II augmented by a selection of topics such as Fourier transforms, special functions.

54.30 Continuum Mechanics II
(a) Solid mechanics including elastostatics, elastodynamics, thermoelasticity, plasticity and viscoelasticity.
(b) Fluid dynamics including potential flow, vorticity dynamics, boundary layer analysis and an introduction to compressible flow, turbulent flow and hydrodynamic stability.

54.31 Engineering Mathematics III S
Selected topics such as complex variable theory, calculus of variations, transform theory.

54.32 Statistics and Random Processes
Probability distributions of one and many variables, marginal and conditional distributions, change of variable(s); sampling theory, sums, differences and sums of squares of normal variates, hypothesis testing, parameter estimation, analysis of variance, design of statistical tests, correlation and regression, non-parametric tests. Introduction to time-series analysis, ideas, stationarity, ergodicity, Fourier transforms, harmonic analysis, autocorrelation, power spectral density, applications to problems such as random vibration, communication theory, turbulence.

54.34 Topics in Engineering Mathematics
Advanced methods of engineering mathematics including topics such as the theory of ordinary differential equations with application to control theory and optimal control, the theory of partial differential equations, wave propagation, perturbation methods, advanced numerical analysis.
54.35 Computational Techniques II
Selected topics in numerical analysis and algorithms relevant to the solution of engineering problems such as finite element techniques, optimisation, fast Fourier transforms, numerical solution of partial differential equations, data handling, computer languages.

54.40 Mechanics of Structures
Such topics as the static, stability and dynamic analysis of framed structures, shells, membrane and cable structures.
Assignments will require a reasonable facility at computer programming.

54.41 Project in Engineering Science
A student is required to submit a report on project work carried out on a topic assigned by the Head of Department of Theoretical and Applied Mechanics. The work shall be supervised by a member of the staff. The report shall carry the weight of one paper.

54.42 Special Topic in Engineering Science “A”
Advanced courses on a topic to be determined each semester by the Head of the Department of Theoretical and Applied Mechanics.

54.43 Continuum Mechanics III
An advanced treatment of selected topics in solid mechanics and fluid mechanics.

54.44 Control Theory
Introduction to modern control theory and applications. State space description of dynamic systems and solutions of the state equation. Examples of multivariable feedback and time optimal switched systems using this formulation. Computer control basics including analogue/digital conversion, digital control algorithms and microprocessor devices.

54.45 Operations Research
Selection of topics from the following: Further programming methods such as integer-programming, stochastic programming, quadratic programming. Dynamic programming, Queueing theory. Monte Carlo methods and stochastic approximation. Geometric programming. Direct climbing optimisation. Game and strategy theory. Markov processes and extensions.

54.46 Special Topic in Engineering Science “B”
Advanced courses on a topic to be determined each semester by the Head of the Department of Theoretical and Applied Mechanics.

54.47 Engineering Mathematics III
A course in mathematical methods similar in scope to Engineering Mathematics IIIS and intended primarily as a service course for students not taking Engineering Science options.

55.20 Mechanics of Materials II

55.21 Production Technology I
A survey of metal forming processes.
An introduction to the casting process including metallurgical and thermodynamic considerations, casting design and quality control, casting economics and the choice of casting and moulding methods.
An introduction to metal cutting and the optimisation of the process.

55.22 Thermodynamics II

55.23 Mechanical Engineering Design I
The application of the principles of mechanics to the design of mechanical components. Selection of materials. Failure theories and design stresses. Limits and fits. Design of mechanical components, including shafts, bearings, power transmission, friction devices and fastenings.

55.24 Theory of Machines
The kinematic and dynamic analysis of machines and machine elements. Vibrations. An introduction to control theory.
55.25 Engineering Design IIC
The application of the principles of mechanics to the design of mechanical components. The engineering approach to design. Selection of materials. Failure theories and design stresses. Design of mechanical components, including shafts, bearings, power transmission, fiction devices and fastenings.

55.26 Engineering Design IIG

55.27 Thermodynamics IIS

55.28 Fluid mechanics IIM
General equations of fluid flow in three dimensions. Laminar viscous flows, including lubrication theory and laminar boundary layers. Turbulence and turbulent flows in boundary layers, pipes and ducts. Introduction to pumps, fans and turbines. Elements of wing theory.

55.30 Industrial Administration
Company formation, financing and organisation. Management, leadership, motivation and communications. Managerial control in marketing, production, personnel, finance and EDP. Industrial relations. Project evaluations.

55.31 Mechanical Engineering Design II
The concept, design and specification of machines, mechanical plant and structures.

55.32 Mechanical Design Project
A mechanical design project on a topic or topics to be determined by the Head of the Department of Mechanical Engineering.

55.33 Project in Mechanical Engineering
A student is required to submit a report on project work carried out on a topic assigned by the Head of Department of Mechanical Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of two papers.

55.40 Control Engineering

55.41 Fluid Dynamics and Heat Transfer

55.42 Mechanics of Materials IIIA
A senior course dealing with the mechanical behaviour and properties of materials, strongly biased towards mechanical engineering practice. Topics such as: strengthening mechanisms, elastic stress analysis, stress concentrations, plasticity, fracture, fracture toughness, residual stresses, creep, limit analysis, selection of engineering materials. Case studies.

55.43 Acoustics and Vibrations
The nature and effects of noise and vibrations. Vibrations of continuous systems, including plates and membranes. Control at the source by design and control of transmission. Techniques and apparatus for measurement. Human factors. Case studies.

55.44 Applied Aerodynamics
55.45 Applied Thermodynamics
Application of the principles of thermodynamics to the design of refrigeration, heating and air-conditioning plant.
Energy Conversion and its economics.
Design of heat exchangers.

55.51 Engineering Economics
A course intended to familiarize the student with the organisational and control techniques of sound production management. Emphasis will be placed on the following topics: resource utilisation and alternative forms of costing, queuing theory, budgeting and profit planning controls, stock control, transfer pricing, quality control, maintenance policies, statistical design of experiments, comparison of manufacture versus procurement, techniques of evaluating project and capital equipment expenditure.

55.46 Industrial Engineering
A course designed to introduce the student to the problems associated with modern productivity management. The topics covered will include; method study, work measurement, advanced work study, ergonomics, material and mechanical handling, productivity rationalisation, value engineering, assembly line balancing, job evaluation, wage incentive schemes, network planning.

* 55.47 Nuclear Engineering
An introduction to the basic concepts of nuclear reactor analysis and the application of reactor theory, various engineering principles, and computer methods to problems of nuclear power system design, management, and safety analysis. Illustration of principle of criticality using thermal neutron theory; slowing-down theory and resonance absorption—Fermi Age theory. Theory of neutron moderation and multi-group neutron diffusion theory; heterogeneous reactor theory. Elementary control theory and the coupling of core dynamics with heat transfer, fluid flow, heat exchangers, pumps, and turbines. Principles of safety evaluation of a nuclear power system.

55.48 Production Technology II

55.49 Mechanics of Materials IIIIB
A senior course dealing with the mechanical behaviour and stress analysis of machine components and other mechanical engineering configurations. Topics such as: rotating discs, flat plates, pressure vessels, beams on elastic foundations, buckling of beams and columns, torsion and bending of thin-walled section, thermal stresses, stress waves in solids, experimental stress analysis, nondestructive testing. Case studies from engineering practice.

55.50 Special Topic in Mechanical Engineering
An advanced course on a topic to be determined each year by the Head of the Department of Mechanical Engineering.

Practical Work
(1) By the end of the First Professional Year all students are required to have completed to the approval of the Faculty a course in Workshop Practice. Students who have attended similar courses elsewhere before enrolling at Auckland may apply to the Faculty for approval of such courses.
(2) Before graduation students shall obtain approved practical experience in workshops or in engineering works for a minimum period of 1200 hours. This is expected to be undertaken during the summer vacation. Overtime up to 10 hours per week on suitable work may be allowed.
At least 320 hours must be spent in general engineering workshops; this should be completed before entering the Second Professional Year.
Mechanical engineering students may put in the whole of their practical time in engineering workshops, or may use some of this time in obtaining sub-professional experience, for example, in a drawing office. However, Mechanical students should bear in mind that the Institution of Mechanical Engineers requires a minimum of eighteen months of workshop experience before accepting an application for Corporate Membership.
Students in Chemical and Materials Engineering may put in up to 600 hours in general engineering workshops. They must put in not fewer than 400 hours in approved plants or laboratories.

* Not available in 1976.
†† Not all electives will be available in a given semester.

1976 Calendar
operating in the chemical engineering or materials engineering field. The work in such plants or laboratories may be of a sub-professional nature, for example work as a technician in analytical or quality-control laboratories associated with a processing industry.

Other students may carry out further work in engineering workshops or may obtain experience appropriate to their specialised fields. Some of the remaining time may be spent in gaining sub-professional experience such as surveying field work in the case of Civil Engineering students.

(3) The approval of the Faculty of any proposed practical work must be obtained before its commencement. Students are advised to obtain as wide experience as possible in practical work and therefore approval will not normally be given for more than one period in a particular workshop or works.

(4) At the conclusion of each period of practical work each student must submit to Faculty: (a) a certificate signed by his employer showing the actual number of hours worked in ordinary time and also of overtime, and the type of work on which he has been engaged; (b) a full report by the student on the work done and the observations made. These reports will be graded and may be taken into account in recommending scholarships and other awards. Official certificates and instructions on the form of the report may be obtained from the School office.

The due date for handing in reports is 31 July, and reports will not be received between 1 August and 1 January. In order to graduate at the graduation ceremony in any year students must have handed in by 1 February of that year reports covering all periods of practical work. (Students handing in reports covering all periods of practical work on or about 1 February must appreciate that it may not be possible for these to be marked in time to allow graduation at the graduation ceremony.)

(5) A student who by virtue of exempting qualifications is admitted to an engineering course at a stage later than First Professional must fulfil the requirements of these regulations, with the exception that clause (1) relating to a course in Workshop Practice may be waived. Faculty may however approve work of an engineering nature carried out by a student before enrolling for Engineering.

Faculty may also approve previous work, not exceeding 250 hours, of a general nature other than engineering.

In all cases where approval is sought for work carried out before enrolling for an engineering course, a student must make application to Faculty in writing before 1 April of the year of first enrolment in that course.

Faculty may require certificates and a full report on such work before approval is considered.

Laboratory and Field Work
1. Laboratory work related to subjects of the First and Second Professional Years of the course is undertaken in integrated programmes designated First Professional Laboratories and Second Professional Laboratories.

2. In order to gain the formal recognition of having completed the laboratory work necessary for admission to the degree, a candidate shall attend the First Professional Laboratory and Second Professional Laboratory courses, carry out the experiments and submit reports, to a required standard.

3. Laboratory work related to subjects of the Third Professional year is an integral part of each subject. A candidate's satisfactory attendance and performance, including the submission of reports, forms a part of the requirement for a pass in each subject.

4. Candidates taking the subjects Surveying I and Surveying II shall, to a required standard, undertake Field Work, including the submission of reports.

††PRESCRIPTIONS FOR ME

51.70 Advanced Materials
An advanced course on selected topics in materials science or materials engineering.

51.71 Advanced Process Control

51.72 Chemical Engineering Seminar
A graduate course on a topic or topics from the advanced fields of fluid mechanics, transport phenomena, heat transfer, particulate technology, chemical reactors and fuel technology.

1976 Calendar
51.73 Materials Seminar
A graduate course on a topic or topics in the field of materials to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.74 Studies in Chemical Engineering
An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.75 Studies in Materials Engineering
An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

52.70 Earthquake Engineering

52.71 Fluid Mechanics Seminar
Special topics selected from fluid dynamics, water resources engineering, statistics and numerical methods.

52.72 Geomechanics Seminar
Advanced studies of recent developments in theoretical soil mechanics.

52.73 Mechanics and Properties of Materials Seminar
Special topics selected from recent developments in the mechanics and properties of selected materials used in civil engineering.

52.74 Public Health Engineering Seminar
Selected topics from water and wastewater engineering pollution control.

52.75 Structural Dynamics

52.76 Structures Seminar
Selected topics from recent developments in structural analysis and design.

52.77 Transportation Engineering Seminar
Selected topics from recent developments in the planning and design of transport facilities and systems.

52.78 Transportation Planning

52.79 Transportation Systems Analysis
Analytical techniques such as: probability and statistics, queuing theory, simulation, linear and dynamic programming, network flow and allocation algorithms applied to the planning and design of transport facilities. Characteristics of transport systems and urban structure. Project evaluation and decision analysis.

52.80 Special Seminar in Civil Engineering
An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.81 Structural Analysis
Analytical methods for some or all of the following structures: space frames and grids, shear wall systems, folded plant structures, bridge superstructures. Solution techniques will include approximate methods, matrix and computer methods. Optimisation techniques and computer-aided design may also be included.
52.82 Space Structures  
Selected topics in the analysis of space structures such as cable structures, plate and shell structures. Special consideration for stability, elasticity and plasticity may also be included.

52.83 Environmental Engineering  
Applied chemistry, microbiology, and ecology of air, land and water pollution.

52.84 Community Health Practice  
Environmental planning and management; community and occupational health services; legal aspects of environmental control.

52.85 Pollution Control Practice  
Air, land, and water pollution control systems in engineering practice.

52.86 Advanced Fluid Mechanics  
Selected topics from applied fluid mechanics and hydraulics.

52.87 Coastal Engineering  

52.88 Advanced Water Resources Engineering  
Selected topics from hydrology and water resources engineering.

52.89 Applied Geomechanics  
Application of the principles of soil mechanics, rock mechanics and engineering geology to practical problems in civil engineering.

52.90 Earth Structures  
The stability, deformation, design and construction of earth structures.

52.91 Traffic Engineering  
Design and capacity of highways and intersections, motorways and interchanges, weaving sections and rotaries. Traffic control and safety. Accident studies and analyses. Co-ordination of traffic signals and area traffic control. Travel and delay studies. Planning and design for pedestrian and vehicular traffic. Large-scale parking.

52.92 Structural Design  
Design philosophies. Special considerations in steel, reinforced concrete, prestressed concrete and masonry structural design. The background to and the use of design codes.

53.70 Advanced Control Systems  
Theory of modern control systems with emphasis on optimization techniques for both deterministic and stochastic processes. State space modelling of dynamic systems and choice of suitable performance criteria. Examples of applications and discussion of computational problems.

53.71 Advanced Electrical Engineering  
An advanced course on selected topics in quantum mechanics, interferometry, plasma physics and semiconductor device physics.

53.72 Antenna Theory  
Selected topics in antenna theory. The emphasis is on mathematical analysis.

53.73 Heavy Current Electronics  
Selected topics in the utilisation of thyristor devices in industrial electrical engineering applications.

54.70 Studies in Engineering Mathematics  
A graduate course in Mathematics applied to Engineering problems on such topics as the theory of ordinary differential equations, partial differential equations, perturbation methods, advanced numerical analysis, etc.

54.71 Studies in Engineering Science  
A graduate course on topics to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.72 Studies in Control Theory  
A graduate course in modern Control Theory including such topics as optimal control, stochastic and nonlinear systems.

1976 Calendar
54.73 Studies in Continuum Mechanics A
54.74 Studies in Continuum Mechanics B
Graduate courses in Continuum Mechanics covering topics in the mechanics of solids and fluids and other continua.

54.75 Finite Element Methods
A graduate course on finite element formulations and application to problems such as stress analysis, seepage, dynamics, stability, temperature stress, freezing. A background such as that gained in Computational Techniques II or Structures IIIB would be desirable.

54.76 Studies in Operations Research A
54.77 Studies in Operations Research B
Graduate courses in recent developments in Operations Research and applications.

54.78 Advanced Systems Analysis
A graduate course on a selection of topics from systems analysis and operations research. This subject cannot be credited if 54.23 or 54.45 have previously been credited towards a degree.

54.79 Random Processes
A graduate course in the theory and application of discrete and continuous random processes including topics such as queueing models, Markov processes, information theory, Monte Carlo simulation, turbulence and random vibration.

55.70 Advanced Mechanical Engineering
A course of lectures and directed reading on particular topics in mechanical engineering allied to the thesis subjects of students taking the ME degree.

55.71 Advanced Applied Aerodynamics
Selected topics such as aerofoil theory, turbulence, boundary layers; aerodynamic machines, natural aerodynamics, industrial aerodynamics, gas dynamics. Experimental methods.

55.72 Advanced Mechanics of Materials
Study of selected topics in the nature, mechanical behaviour and properties of materials, with particular relevance to industrial production processes.

55.73 Advanced Production Technology
Selected topics from process metallurgy including casting, welding, metal forming and heat treatment; production specification, inspection and quality control; metal removal processes and optimisation; advanced machine and process control systems.

55.74 Productivity Management
The course will consist of two major sections. The first will alert the student to the human-relations requirements for an increase in industrial productivity. The second will be concerned with the techniques and the important peripheral matters necessary for planned productivity improvements.

55.75 Studies in Mechanical Engineering
A course of lectures and directed reading in a topic to be determined each year by the Head of the Department of Mechanical Engineering.

1976: To be announced

50.70, 50.71, 50.72, 50.73 Project A, B, C, D
A candidate may take the equivalent of three single paper projects. For example, he may take Projects A, B and C, or Project D and one of Projects A, B and C. He is required to submit a report on each project carried out. These projects may include design studies, a survey and evaluation of modern advances in a branch of engineering, a small experimental or theoretical research project, the development of a new design procedure, the development of a computer package.

†† Not all electives will be available in a given semester.

Professional Institution Courses
Candidates for the examinations of the Council of Engineering Institutions may take Courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their Course.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN PUBLIC HEALTH ENGINEERING

DipPHE

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

An intending candidate who seeks admission on the basis of a professional qualification, the New Zealand Certificate in Engineering, or practical experience must apply for admission in accordance with the requirements of the Provisional and Special Admission Regulations.

Every intending new candidate must apply to the Registrar for permission to enrol in the course not later than 10 January 1976.

General Provisions
1. Subject to the admission Ad Eundem Statum Regulations a candidate for the Diploma in Public Health Engineering shall before his enrolment for this Diploma:
(a) have been admitted or have qualified for admission to a Degree in Engineering or, with the approval of the Senate, to a Degree in any other faculty;
(b) hold a professional qualification in Engineering;
(c) have by examination qualified with outstanding merit for the New Zealand Certificate in Engineering and have completed the practical requirements for the award of that Certificate;
(d) have had not less than 5 years responsible experience in Public Health or Public Health Engineering and be approved by the Senate.

2. A candidate for this Diploma shall follow a Course of study of not less than one year full-time or two years part-time.

Course Content
3. The subjects for examination for the Diploma shall be
(a) 56.10 Biochemical Sciences
56.11 Biological Sciences
56.12 Hydrological Sciences
(b) 56.13 Treatment Processes
56.14 Pollution Control
56.15 Environmental Health Engineering
and the candidate shall be required to carry out such projects (56.16) as the Senate may require, to the satisfaction of his Course supervisor. Projects shall be deemed passed when the Course supervisor has signed a certificate of satisfactory completion of the project work.

4. The candidate shall be required to pass the subjects under clause 3(a) before he can enrol for the subjects under clause 3(b).

5. These Regulations shall come into force on 1 January, 1971.

DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DipPHE

The prescriptions of the subjects named in the regulations are given below:

56.10 Biochemical Sciences
The physical, chemical and microbiological properties of natural waters, wastewaters, waste solids and atmospheric contaminants and their engineering significance.

56.11 Biological Sciences

1976 Calendar
56.12 Hydrological Sciences
Hydrological practice in water resources engineering. Water and wastewater collection, distribution and disposal systems. Effluent dispersion into fresh water and marine environments.

56.13 Treatment Processes
Unit operations in water, wastewater and solid waste treatment for urban, agricultural and industrial areas. Engineering economics.

56.14 Pollution Control

56.15 Environmental Health Engineering

56.16 Projects
The projects will be on aspects of public health engineering suited to the individual candidate's sphere of activity and approved by the Head of the Department of Civil Engineering. They may take the form of any of the following:
(a) engineering design to a set of given specifications,
(b) a theoretical, laboratory or field investigation of a specified research topic,
(c) a critical review of a specified topic based upon a comprehensive search of the literature or of available data.
Projects shall carry the weight of two papers.

THE DEGREE OF BACHELOR OF FINE ARTS

BFA OPTION 1 AND OPTION II

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Fine Arts shall
   (a) follow a course of study of not fewer than four years, taking either Option I or Option II prescribed in these regulations and
   (b) pass four Professional Examinations.

2. In these Regulations:
   'Papers' includes Studio I, Studio II, Studio III and Studio IV.
   'Prescribed or approved papers' in relation to any candidate means the following papers:
   Studio Theory: 27.201-27.208, 27.211-27.216, 27.301
   Art History II: 19.251, 19.252 and 19.253
   Any other paper (or the equivalent credits)
   (i) prescribed for the Degree of BA, BSc or any other Degree and
   (ii) approved by the Head of the Department of Fine Arts for the course of that candidate for this Degree and by the Head of the Department in which the paper is taken.

3. The subjects of Examination for the Degree shall be:

Option I

First Professional Examination 6 papers, consisting of
(i) Studio I: 27.150 having the value of 4 papers, and
(ii) Art History I: 19.151, 19.152.

Second Professional Examination 9 papers, consisting of:
Either (a) (i) Studio II: 27.250 having the value of 6 papers and
   (ii) Three prescribed or approved papers.
Or (b) (i) Studio II: 27.251 having the value of 7 papers and
   (ii) Two prescribed or approved papers.

Third Professional Examination 9 papers, consisting of:
Either (a) (i) Studio III: 27.350 having the value of 6 papers and
   (ii) Three prescribed or approved papers.
Or (b) (i) Studio III: 27.351 having the value of 7 papers and
   (ii) Two prescribed or approved papers.

Fourth Professional Examination 9 papers, consisting of:
Either (a) Studio IV: 27.450 having the value of 9 papers
   Or (b) Studio IV: 27.451 having the value of 7 papers and any two papers in Studio Theory 27.201-27.208, 27.211-27.216.

Option II

First Professional Examination 6 papers, consisting of:
(i) Studio I: 27.151 having the value of 4 papers; and
(ii) Art History I: 19.151, 19.152.

Second Professional Examination 9 papers, consisting of:
Either (a) (i) Studio II: 27.252 having the value of 3 papers; and
   (ii) Six prescribed or approved papers.
Or (b) (i) Studio II: 27.253 having the value of 4 papers; and
   (ii) Five prescribed or approved papers.

Third Professional Examination 9 papers, consisting of:
Either (a) (i) Studio III: 27.352 having the value of 3 papers; and
   (ii) Six prescribed or approved papers.
Faculty of Fine Arts, Degree Regulations, BFA 407

Or (b) (i) Studio III: 27.353 having the value of 4 papers; and
(ii) Five prescribed or approved papers.

Fourth Professional Examination 9 papers, consisting of:
(i) Studio IV: 27.452 having the value of 6 papers; and
(ii) Three prescribed or approved papers.

**Studio**

4. In each Professional year work for Studio shall consist of:
(a) a formal submission of work at the conclusion of each study period; and
(b) a final formal submission of work; which may include written examination papers, as required by the Dean of the Faculty.

5. A candidate shall be required to pass as a whole each Professional Examination consisting of more than one subject, so that his performance in all the papers of the Examination shall be considered; provided that
(a) a candidate who has failed to pass any such Examination as a whole, may, at the discretion of the Senate, be credited with a paper or papers of that Examination, and permitted in a subsequent year to take the papers not so credited; and
(b) a candidate who does not pass the Second Professional Examination as a whole, but is credited with a paper or papers of that Examination may, if the Senate permits, take with the papers being re-presented for that Examination a paper or papers for the Third Professional Examination.

6. In respect of every prescribed or approved paper prescribed for a Degree other than this (that is, every paper taken for this Degree other than Studio I, II, III and IV and the papers in Studio Theory) a candidate shall be required to comply with all regulations applicable thereto for the Degree of BA, BSc or other Degree (including all prerequisites, corequisites and restrictions).

Revocations Transitional Savings

7.(1) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.
(2) The Regulations governing the Degree of Bachelor of Fine Arts (called 'the old degree regulations') last published in the University of Auckland Calendar for 1974 are hereby revoked.
(3) Subject to paragraphs (4) and (5) of these Regulations, the Regulations governing the Diploma in Fine Arts and the Diploma in Fine Arts (Honours) respectively, last published in the University of Auckland Calendar for 1974 (called "the old diploma regulations"), are hereby revoked.
(4) Every candidate who enrolled for the Diploma in Fine Arts in a year before 1974
(a) shall complete his course for that Diploma under the old diploma regulations applicable to it and
(b) may take the course for the Diploma in Fine Arts with Honours under the old diploma regulations applicable to it provided that in the case of each of the papers Art History II 19.257, Art History III 19.306, and Art History IV 19.404 (in which he has not already passed) he shall take a paper in Studio Theory instead of that paper.
(5) Every candidate who first enrolled for the Diploma in Fine Arts in 1974 may at his option either proceed under paragraph (4) of this Regulation (as if he had enrolled before that year) or transfer to a course under these present regulations for the Degree of Bachelor of Fine Arts.
(6) A candidate who first enrolled for the Degree of Bachelor of Fine Arts before 1975 but has not completed the course under the old degree regulations shall be entitled to the following credits:
(a) Each paper in Art History passed under the old degree regulations shall be credited under these present regulations.
(b) Each paper (other than an Art History paper) prescribed for the degree of BA passed for the Intermediate Examination under the old degree regulations shall be credited as a prescribed or approved paper.
(c) Where the candidate chooses Option I —
(i) a pass in Studio I under the old degree regulations shall be credited as a pass in Studio I and Studio II
(ii) passes in Studio I and Studio II under the old degree regulations shall be credited as passes in Studio I, Studio II and Studio III.
(d) Where the candidate chooses Option II
(i) a pass in Studio I under the old degree regulations shall be credited as a pass in Studio I, Studio II, and Studio III.

1976 Calendar
(ii) passes in Studio I and Studio II under the old degree regulations shall be credited as passes in Studio I, Studio II, Studio III, and Studio IV.

(7) A candidate who first enrolled for the Diploma of Fine Arts in 1974 and has elected to transfer to a course under these present regulations shall be entitled to the following credits:

(a) Where the candidate chooses Option I

(i) a pass in Studio I under the old diploma regulations shall be credited as a pass in Studio I
(ii) a pass in Art History I 19.153 under the old diploma regulations shall be credited as a pass in a paper in Studio Theory.

(b) Where the candidate chooses Option II —

(i) a pass in Studio I under the old diploma regulations shall be credited as passes in Studio I and Studio II
(ii) a pass in Art History I 19.153 under the old diploma regulations shall be credited as a pass in a paper in Studio Theory.

8. (a) These regulations shall come into force on 1 January 1975.
(b) Paragraphs (4), (5), (6), and (7) of Regulation 7 shall expire 31 December 1980.

THE DEGREE OF MASTER OF FINE ARTS

MFA

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Fine Arts shall

(a) before his enrolment for this Degree have been admitted or have qualified for admission to the Degree of Bachelor of Fine Arts, and
(b) have passed with a Grade higher than C- in Studio IV and the subjects taken at Stage III level in his Bachelor of Fine Arts course, and
(c) follow a Course or study of not less than two years, taking either of the Options prescribed under these Regulations.

2. In these Regulations:

'prescribed or approved papers' in relation to any candidate means the following papers:

Advanced Studio Theory 27.551

Any paper other than a paper in Art History, prescribed for any Degree other than this Degree and approved by the Head of the Department of Fine Arts for the Course of that candidate and by the Head of the Department in which the paper is taken.

3. The subjects of examination for the Degree shall be:

Option I — Course Content Part I

First Year: Part I. Advanced Studio V Practice and Theory 27.550 having the value of four papers.

— Course Content Part II

Second Year: Part II. Studio VI 27.660 having the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.

Option II — Course Content Part I

First Year: Part I

(a) Art History IV
(b) Two papers approved by the Head of the Department of Fine Arts being either two papers chosen from 19.400, 19.401, 19.402, 19.403 and 19.405 or one paper chosen from 19.400, 19.401, 19.402, 19.403, 19.405 and one of the papers prescribed for Art History III not already credited to the Degree of Bachelor of Fine Arts; provided that papers 19.305 and 19.401 may not both be taken for this Degree

1976 Calendar
OR

Any two prescribed or approved papers not already credited to the Degree of Bachelor of Fine Arts.

— Course Content Part II
First Year: Part II. Studio V 27.651 which shall have the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.

— Course Content Part III
Second Year: Part III. One of the following which shall have the value of three papers:
(a) Thesis 19.601 on a special topic of Art History approved by the Head of the Department of Art History, or
(b) Thesis 27.601 on a special topic related to the candidate's programme of work for Studio V and approved by the Head of the Department of Fine Arts.

4. (1) No candidate taking Option I shall take Studio VI without having first passed in Studio V unless the Head of the Department permits the work for Studio V to be examined with the work for Studio VI in the second year of the course.

(2) A candidate taking Option II shall not take Art History IV unless he has either passed 8 papers in Art History including three Stage III papers or complied with such prerequisites as the Head of the Department of Fine Arts may otherwise prescribe for him.

(3) In respect of any prescribed or approved paper taken in Option II and prescribed for a Degree other than this, a candidate shall be required to comply with all regulations applicable thereto for that other Degree (including all prerequisites, corequisites and restrictions).

Savings and Transitional Provisions
5.(1) Except as otherwise provided in this Regulation, the course of every candidate shall be governed by these Regulations.

(2) The Regulations governing the Degree of Master of Fine Arts which were last published in the University of Auckland Calendar for 1974 (in this Regulation called "the old Regulations") are hereby revoked.

(3) A candidate who began the course for the Degree of Master of Fine Arts in 1974 shall be entitled to the following credits:
(a) If he passed Art History IV and Studio IV under the old Regulations and chooses Option I, he shall be credited with Studio V.
(b) If he passed Art History IV under the old Regulations and chooses Option II, he shall be credited with Art History IV.

Honours
6 (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions: First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate is examined in Art History for this Degree are unsatisfactory or if either the work in Studio V, VI, or the thesis at its first presentation is unsatisfactory; provided that, subject to the provisions of paragraph (c) of this Regulation, a candidate whose performance at the written examination has been seriously impaired by illness (certified as under the aegrotat regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent written examination and still be eligible for the award of Honours.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing the final subject of his Bachelor's Degree; provided that this period may in special cases be extended by the Senate.

7. These Regulations shall come into force on 1 January 1976.

27.301 Professional Practice for Designers
Business methods and procedures commonly used by professional designers; Topics may include:
(a) Preparation of a portfolio; (b) What to expect after graduation; (c) Correspondence; (d) Reports and report writing; (e) Fee structure; (f) Estimating fees, fee letters and contracts; (g) Business structure; (h) Setting up an office; (i) Running an office; (j) Budgeting (overheads etc.);
(k) Securing work and clients; (l) Accountants and taxation; (m) Design and the Law; (n) Ethics;
(o) Design organisations; (p) Special topics related to the individual student’s requirements.

Studio For BFA

Studio I
Option I 27.150
Option II 27.151

Exploration of those disciplines which are fundamental to the development of the artist and designer. Basic elements of two- and three-dimensional design (space, shape, line, rhythm, texture) and the varied properties and qualities of colour and light. The creative potential and characteristic limitations of various media such as wood, stone, plastic, metal, glass and pigment. Methods of techniques such as welding, casting, print-making, painting, and photographic media. Observation and analysis of the structure of the natural world and human environment. Drawing as an expressive means of communication, and as a vital stimulus to personal development.

1976 Calendar
Studio II
Option I 27.250, 27.251
Option II 27.252, 27.253
Individually planned programme, with area of emphasis related to the student's requirements, for example, drawing and one or more of the following: painting, sculpture and design. Advanced experimentation in techniques and materials. Design includes Graphic and Industrial Design. Print-making, Photography and Jewellery. Due to accommodation, Jewellery is limited to 4 students at any one time.

Studio III
Option I 27.350, 27.351
Option II 27.352, 27.353
Development of Studio II in selected fields.

Studio IV
Option I 27.450, 27.451
Option II 27.452
Development of Studio III in selected fields.

Studio for MFA

Studio V
Option I 27.550
Option II 27.551
The candidate's programme shall be a practical performance in some aspect of the fine arts. The proposed programme shall be submitted for approval to the Dean of the School of Fine Arts by 31 March.

Studio VI
Option I 27.650
The work in Studio VI may be in an aspect of the fine arts other than that approved for Studio V. The proposed programme shall be submitted for approval to the Dean of the School of Fine Arts by 31 March.

Thesis for MFA
Option II
Either
19.601
A thesis on a topic in Art History, to be approved by the Head of the Department of Art History. The thesis must be submitted to the Registrar by 1 November.

27.601
A thesis shall embody the results obtained by the candidate of an original investigation or advanced study relative to the candidate's programme in Studio V. The proposed topic shall be submitted for approval to the Dean of the School of Fine Arts by 31 March.

SCHOOL OF MEDICINE

The medical Course, which has been established in the University of Auckland, is of six years' duration. The degree of Bachelor of Human Biology (BHB) is awarded upon satisfactory completion of the first three years. Ultimately the course leads to the degrees of Bachelor of Medicine and Bachelor of Surgery (MBCHB). Course Regulations and Prescriptions appear in the following pages.

Bachelor of Human Biology

Although subjects for the early years of the course are taught in association with departments of the Faculty of Science the curriculum has been drawn up as a fully integrated medical Course. During the first year special lectures are given by medical speakers, and visits are arranged to some of the main Auckland hospitals. During the second and third years the Course presents a detailed analysis of the normal structure and function of the human organism together with an introduction into the ways in which the intrinsic biological mechanisms are disturbed in disease. The course during these two years is presented by the Departments of Anatomy, Physiology, Biochemistry, Pathology, and Psychology, with assistance from the Clinical Departments. It is over this period that the medical students pursues a child study by following the progress and growth of an individual, new born infant.

Fundamental biochemical and physiological mechanisms — largely expressed at cellular levels — and their structural bases are considered first, followed by a study of the principal organ systems which ensure the continuance of these functions. The study of the locomotor and nervous systems, of the complex control of body activity, metabolism and nutrition, of reproduction and growth, and of fundamental aspects of Pathology form further major units of the course.

Admission to the first year of the course is restricted to one hundred and thirty students who intend to complete the six year Course for entry into the medical profession. There will be no direct entry into the second or third year Courses in Human Biology in 1976.

Bachelor of Medicine and Bachelor of Surgery

The clinical triennium follows qualification for the award of the Degree of Bachelor of Human Biology. The Auckland Hospital Board has made available for teaching purposes all hospitals under its control; at present instruction has been arranged at the four major hospitals — Auckland Hospital, Green Lane, Middlemore and National Women's. Subjects to be studied include Medicine, Surgery, Obstetrics and Gynaecology, Paediatrics, Pathology, Psychiatry and Community Health together with their main sub-specialities. During their final year Trainee Interns will be expected to undertake some supervised responsibility for the care of patients.

An introductory course of ten weeks duration acquaints the student with the art and techniques of interrogating and examining patients. This is followed by a period of study in the hospital wards and outpatient clinics during which the student is given the opportunity to witness the forms in which disease may present itself, and to study the management of disease processes within the general and special fields of modern medicine. Emphasis is placed upon topic teaching by which a particular disease or injury is studied at the one time in all its aspects — medical, surgical, pathological, social, etc.

During the Clinical Course students will spend a proportion of their time in elective studies, that is pursuing in depth, subjects of particular interest to them. They will also serve a period in general practice under the direction of family doctors.

Other Degrees and Diplomas

All departments undertake graduate teaching in medicine for the research degree of PhD and for the degree of Master of Medical Science. Opportunities exist to follow the latter course on completion of the Human Biology course for preclinical subjects, and on completion of the second year for MBChB for clinical subjects. These opportunities allow for research activities during the medical course but, necessarily, prolong it. The Degree of Master of Medical Science replaces the MD and ChM offered by other universities.

In addition diploma courses are offered in the Postgraduate School of Obstetrics and Gynaecology and by the departments of Paediatrics and Psychiatry. All clinical departments are associated with the basic and advanced vocational training for the examinations and diplomas offered by the various colleges.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF HUMAN BIOLOGY

BHB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations and the Examination Regulations.

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the degree of Bachelor of Human Biology shall follow a Course of study of not fewer than three years.

Admission
2. (a) Admission to the Course of study in Human Biology shall be at the discretion of the Senate. Application for admission to the Course shall be made to the Registrar in writing before 1 October or such other date as the Senate may determine, of the year preceding that in which the applicant proposes to enrol.
(b) Admission to Part I of the Course of study shall be granted or withheld upon a consideration of the past performance of the applicant at school and in public examinations, and upon an interview where this is required.
(c) In such exceptional circumstances as the Senate may approve or under the Admission Ad Eundem Statum Regulations, admission may be granted to an applicant to Part II or Part III.

Course Content
3. The Course of study shall consist of three Parts. A candidate shall be required to pass as a whole each Part of the Course of study: provided that a candidate, who re-enrols for a Part of the Course of study having failed to pass it as a whole at the first attempt, may be allowed to carry out, to the satisfaction of the Heads of Departments concerned, alternative work in lieu of the work in that Part where his previous performance was satisfactory.* For the purpose of assessing the grade of this candidate as a whole for a Part of the Course of study the Senate may approve that the satisfactory pass grade in that previous work be carried forward.

4. Except as provided in Regulation 2(c) hereof no candidate shall be permitted to enrol in Part II of the Course until he has passed Part I, or in Part III until he has passed Part II.
5. A candidate shall carry out to the satisfaction of the Senate such practical work in each Part of the Course of study as may be required.
6. The papers prescribed for examination for the Course of study in Human Biology are:

Part I
Biology 60.100, 60.101, 60.102
Physico-Chemistry 60.200, 60.201, 60.202
Behavioural Science I 60.300

Part II
Human Cell and Tissue Biology 61.100, 61.101, 61.102
Visceral Organ Systems 61.200, 61.201, 61.202
Behavioural Science II 61.300

Part III
Neurolocomotor System 62.100, 62.101
Homeostasis 62.200
Human Reproduction and Development 62.300
General Pathology 62.400
Behavioural Science III 62.500
Pharmacology 62.600

7. (a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.
(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.
8. These Regulations shall come into force on 1 January 1976.
DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY

MBChB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

I. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Medicine and Bachelor of Surgery shall before enrolment have qualified for admission to the Degree of Bachelor of Human Biology.

2(a) Each candidate shall follow a Course of study of not fewer than three years, consisting of three Parts.

(b) No candidate shall be permitted to proceed to his second year of study until he has completed, to the satisfaction of the Senate, the work prescribed for his first year.

(c) Each candidate shall follow his course of study for Part I and Part II continuously and where he fails to do so he may return to his course of study only with the approval of the Senate, and on such conditions as the Senate may determine.

(d) No candidate shall be permitted to proceed to Part III until he has passed Parts I and II as a whole.

Practical Work

3. A candidate shall carry out to the satisfaction of the Senate, such practical and clinical work in each part of the course as may be required.

Course Content

4. The Course shall consist of:

Part I
Lectures, Laboratory work and clinical instruction in the practice of Medicine including methods of interviewing and examining the patient. Clinical Pharmacology, Community Health, Pathology.

Part II
Lectures, laboratory work and clinical instruction in the practice of Medicine including method care of patients in the Hospital and in the Community: The study of man in relationship to age and environmental influences.

At the conclusion of the second year of study there will be a composite examination consisting of four written papers and four oral and/or clinical examinations. Papers 90.100, 90.101, 90.102, 90.103.

A candidate will be required to pursue a course of study of four weeks as a junior clinical clerk during or after the first academic year of study for the course.

Part III
Clinical work as a trainee intern and with responsibility for patients over three successive periods of three months each together with a further three month elective period.

5(a) A candidate shall be deemed to pass Parts I and II of the course when the Senate so resolves after consideration of a report from the Faculty of Medicine, as to the candidate's performance and results in his work for those Parts.

(b) A candidate shall be deemed to have completed Part III successfully provided he obtains passing assessments from each of the periods of that Part.

The candidate shall not be deemed to be qualified for admission to the Degree except upon a favourable recommendation of the Senate based on those assessments and on a general report by the Faculty of Medicine of the candidate's general performance throughout the course.

1976 Calendar
THE DEGREE OF MASTER OF MEDICAL SCIENCE

MMedSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department before making an application to enrol. The number of candidates that can be accepted in any subject for the degree is limited. Applications close 15 October for the following year and only those students who have been advised that they have been accepted for the Course will be permitted to enrol.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Medical Science shall

(a) before his enrolment for this Degree have passed part II of the course prescribed for the Degree of Bachelor of Medicine and Bachelor of Surgery; and

(b) follow a Course of study of not less than one year.

2. A candidate who is not devoting his full time to University study shall, if the Senate so requires, follow a two-year course of part-time study of such content as the Senate may prescribe.

Course Content

3. Every candidate for the Degree shall

(a) pass the examinations, and

(b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:

91.400, 91.401 Community Health (Two papers and a thesis)
92.400, 92.401 Medicine (Two papers and a thesis)
47.400, 47.401 Obstetrics and Gynaecology (Two papers and a thesis)
93.400, 93.401 Paediatrics (Two papers and a thesis)
68.405, 68.406 Pathology (Two papers and a thesis)
94.400, 94.401 Psychiatry (Two papers and a thesis)
95.400, 95.401 Surgery (Two papers and a thesis)
90.400, 90.401 A medical subject approved by the Senate on the recommendation of the Faculty of Medicine and Human Biology (Two papers and a thesis)

Thesis

4. The following conditions shall apply to the thesis:

(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.

(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.

(c) In the case of a thesis recording laboratory work, a supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this regulation.

(d) A candidate shall present his thesis in the same year as that in which he first takes his examination (if any), or with the consent of the Head of the Department and subject to paragraph (g) of this Regulation, in any subsequent year.

(e) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or at such later date as may be arranged with the Head of the Department.

(f) If the supervisor with the consent of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.

1976 Calendar
(g) No thesis shall be presented later than the third year after that in which the candidate first takes his examination for this Degree provided that this period may in special cases be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

5. A candidate shall not enrol for a subject which he has already passed for the Degree of Master of Science.

6. These Regulations shall come into force on 1 January, 1972.
DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BHB

Course of Study in Human Biology — Part I

Departments of Botany, Cell Biology, Chemistry, Physics, Psychology, Zoology

Biology

(Three papers and practical work).

60.100, 60.101, 60.102
Cells, structure and physiology; elementary biochemistry; form and function of animals and plants; the history of the vertebrates; genetics; evolution; principles of ecology and behaviour; biological mathematics.

Physico-Chemistry

(Three papers and practical work).

60.200, 60.201, 60.202
A study of the structure and properties of matter including the following topics: elasticity, fluids, analytical chemistry, organic chemistry, electromagnetism, biomathematics, oscillations and waves, electronics and A.C., introductory biochemistry and selected topics in physical chemistry.

Behavioural Science I

(One paper and practical work).

60.300
An introduction to the scientific study of behaviour. The course includes a treatment of the topics of learning, motivation, emotion, sensory and perceptual processes, verbal behaviour, and cognitive functions. An introduction to experimental method and statistics.

Course of Study in Human Biology — Part II

Departments of Anatomy, Biochemistry, Cell Biology, Physiology, Psychology

Human Cell and Tissue Biology

(Three papers and practical work).

61.100, 61.101, 61.102
A study of fundamental concepts in molecular, cellular and tissue biology in man.

Visceral Organ Systems

61.200, 61.201, 61.202
A study of the circulatory, respiratory, alimentary, renal and reproductive systems; the gross anatomy of the trunk; and general biochemistry.

Behavioural Science II

(One paper and practical work).

61.300
The course includes: an introduction to personality, an introduction to the scientific study of social behaviour, an introduction to psychological testing, and the study of behaviour in early childhood. Applications of statistical methods in studying behaviour are also treated.

Course of Study in Human Biology — Part III

Departments of Anatomy, Biochemistry, Cell Biology, Pathology, Physiology, Psychology

Neurolocomotor System

(Two papers and practical work).

62.100, 62.101
A study of the limbs and back and of the nervous system including the special senses; and the psychological testing of abnormal individuals.

Homeostasis

(One paper and practical work)

62.200
A study of the integrated physiology of human organ systems including their control, the correction of disturbance.
Human Reproduction and Development  
(One paper and practical work).

62.300  
A study of the biology of human reproduction and sexuality; aspects of human genetics, foetal development, growth and ageing; biochemical aspects of endocrinology and nutrition.

General Pathology  
(One paper and practical work).

62.400  
A study of the principles of pathology.

Behavioural Science III  
(One paper and practical work).

62.500  
This course includes: the study of development from early childhood to adolescence; the ageing process; physiological psychology; introduction to clinical practice.  
Practical work assessment is included in the schedule of the University and a pass in both written examinations and in the laboratory course is necessary.

Pharmacology  
(One paper and course work)

62.600  
This course covers the absorption, distribution and fate of administered drugs; drug toxicity and abuse; the evaluation of new drugs; and the mechanisms of action of drugs that affect the various homeostatic control systems in the body.  
Course work assessment is included in the schedule of the University, and a pass in both written examinations and in course work is necessary.

**PRESCRIPTIONS FOR MBChB**

The duration of the course will be three years.

**Cost of Equipment, Instruments and Books**  
The cost of pursuing the undergraduate medical course, in addition to the tuition, examination and other fees, includes the purchase of essential equipment, instruments and prescribed textbooks. Particulars of the equipment and instruments required in First Year will be supplied to all students enrolling for these classes. Advice concerning additional equipment and instruments will be given from time to time in lectures, lists of prescribed textbooks are issued to all students enrolled for year 1 MBChB and may also be obtained on request to the Assistant Registrar, School of Medicine. White coats are provided by the Auckland Hospital Board for which a fee of $15 is charged to cover initial costs and laundering during the clinical course. There will also be an annual $10 fee to provide special textbooks, monographs, reprints, slides and films for the instruction of students during the first and second years of the course. This fee may be paid in one instalment of $20 upon enrolling for the second year.

**First year of course for MBChB (Fourth year of the Medical Course)**

**Practice of Medicine:**  
The Practice of Medicine is a combined course of 10 weeks covering the clinical approach to the patient and methods used in physical and laboratory diagnosis. The disciplines of medicine, surgery, paediatrics, psychiatry, obstetrics and gynaecology, pathology and radiology will participate in this course, and students will study patients of all ages with a wide variety of illnesses in the disciplines of medicine. The course will consist of lectures, symposia, case demonstrations, with particular emphasis on tutorial teaching in the wards.

**Systems of Medicine**  
During the remainder of the first year, a combined course, the Systems of Medicine, will cover the wide range of human disease arranged on a System basis. The natural history, pathology, disordered physiology, methods of diagnosis and treatment of common diseases will be covered. Each discipline of medicine will contribute to the teaching. The principles of clinical pharmacology and therapeutics will be taught together with the Systems of Medicine course.

1976 Calendar
Themes of Medicine
The Themes of Medicine will consist of a course throughout this year dealing with social, community, preventive, family, forensic and epidemiological aspects of medicine presented in a logical sequence with appropriate field work.

Clinical Clerkship
In addition to the theoretical teaching, practical clinical experience will be given in gynaecology and obstetrics, medicine, paediatrics, psychiatry and surgery as an essential and important part of the teaching.

Second year of the Course for MBChB (Fifth year of the Medical Course)
The combined topic teaching of the Systems of Medicine and the Themes of Medicine will be completed.
Clinical experience will continue in medicine, surgery, psychiatry, paediatrics, obstetrics and gynaecology.
At the conclusion of the second year there will be a composite examination consisting of four written papers, four oral and/or clinical examinations. At the end of each term throughout the first and second years there will be tests on the work covered during that term.
Papers 90.100, 90.101, 90.102, 90.103.

Third year of the Course for MBChB (Sixth year of the Medical Course)
This is a trainee intern year of 52 weeks divided into four quarters of 12 weeks each and 4 weeks holiday. One of these quarters will be an “Elective” period when the student may take optional training in special disciplines of medicine. A list of approved electives will be provided from which to choose.
The remaining 36 weeks will be spent participating, under supervision, in the responsible care of sick people in hospital and in the home.
Assessment, including clinical and oral examinations where appropriate, of the students’ progress will be made at the end of each assignment.
A salary will be paid to the trainee intern by the Hospital Board.

Community Health
Community Health is taught during each of the clinical years. Studies in the first and second years of the course include thirty-eight sessions which are complementary to the Systems of Medicine teaching and are designed to give the student an understanding of the human being in constant encounter with social and other environmental influences. The course incorporates instruction in family practice, preventive aspects of medicine, health education, epidemiology, industrial medicine, and extra-mural hospital services.
Students will be required to undertake a course of field studies, participating in community health projects and visiting a number of institutions in the community for the welfare of the incapacitated.

Gynaecology and Obstetrics
Gynaecology and Obstetrics will deal with the physiology, endocrinology and pathology of human reproduction, and their application to the clinical practice of gynaecological and obstetric medicine.
The teaching will emphasise the incorporation of the principles of this subject into total medical practice.
The theoretical teaching will be within the course on the systems of medicine and clinical clerkships will be required during the third year of the course concurrent with a clerkship in neonatal paediatrics.

Medicine
Various common medical diseases affecting different organ systems of the body will be considered with emphasis on their natural history, clinical presentation, methods of diagnosis, together with principles of treatment and prevention. Clinical clerkship will provide experience both in acute general medicine and, during the second year of the course, on selected aspects of different specialities within internal medicine. Tutorial teaching will play an important part in this teaching programme in which emphasis will be placed on the quality of the written as well as the verbal case presentations.

Paediatrics
The undergraduate course in Paediatrics commences with an interdisciplinary child development and family study in the second and third years of the course in Human Biology. Patient-based
teaching in Paediatrics is carried out in the hospital and community setting over the three years of the clinical course.

Prevention of disease and the effect of disease on the developing child are emphasised in the departmental contribution to the course of lectures given in the first two years of the clinical course on the organic and psycho-social basis of ill health. At the end of this course of lectures students are examined in their knowledge and comprehension of the principles of Paediatrics. In the third year of the clinical course there is a period of trainee internship in Paediatrics which is mandatory and a term of elective study in the broad field of child health is offered.

Pathology
Teaching in Pathology commences in the third term of the third year of the course in Human Biology, and continues throughout the first, second and third years of the course for MBChB. Subjects under the aegis of Pathology include the Morphological Basis of Disease, Medical Microbiology, Haematology, Immunology, Chemical Pathology, and Forensic Medicine.

During the first part of the first year of the course for MBChB, the principles of pathology and microbiology are taught on the basis of the teaching in these subjects undertaken during the latter part of the course in Human Biology.

During the remainder of the first year, and through the second year, the teaching in pathology is largely integrated with the teaching programmes of other clinical departments.

An elective programme in pathology is available for periods of up to 3 months during the third year of the course.

Psychiatry
With a background concept of normal human behaviour patterns engendered in the Behavioural Sciences component of the Human Biology course, students will receive instruction during the clinical triennium in the recognition of mental aberration and abnormal behaviour, and in the management of patients who suffer psychiatric disturbance. Most of this teaching will be incorporated in the Systems of Medicine course.

The Department of Psychiatry will join with other clinical departments, especially the departments of Paediatrics and Community Health, in conducting research towards the identification of health problems in society and the delineation of remedial measures, including methods of health education. Students will participate in these projects.

Surgery
Surgical diseases will be taught covering their natural history, pathology, methods of diagnosis (including special investigations such as radiology and clinical biochemistry), and general principles of treatment. Included in the surgical diseases will be those related to eye, ear, nose and throat, the musculo-skeletal system, the genito-urinary system, the nervous system and those related to plastic surgery. The theoretical teaching of these subjects will be done within the Systems of Medicine course.

Clinical Clerkships will be required in general surgery and the special divisions of surgery listed above, including the Accident and Emergency Department. Theoretical and practical teaching in anaesthesia will be given.

The examination in surgery will be part of the composite examination at the end of second year together with assignments during the third year.
POST-GRADUATE SCHOOL OF OBSTETRICS AND GYNAECOLOGY

The Department is situated at the National Women's Hospital, Claude Road, Auckland 3. In addition to training Auckland medical students there are extensive facilities for postgraduate education in obstetrics and gynaecology.

DIPLOMA COURSE REGULATIONS

DIPLOMA IN GYNAECOLOGY AND OBSTETRICS

DipG&O

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. A candidate for the Diploma in Gynaecology and Obstetrics shall
(a) enrol not later than 1 March for the June examination and 1 September for the December examination, or such later dates as the Senate approves; and
(b) before sitting for Part 2 of the examination:
(i) hold a qualifying degree or diploma approved by the Medical Council of New Zealand for four years and be registered in New Zealand or hold equivalent Commonwealth registration for three years, or
(ii) be a medical diplomate of the Fiji School of Medicine of six years' standing; and
(c) hold for at least one year the Diploma in Obstetrics of the University of Auckland or of Otago or of the Royal College of Obstetricians and Gynaecologists; and
(d) have undertaken at least two years' training in the specialty of gynaecology and obstetrics in posts approved by the Royal College of Obstetricians and Gynaecologists providing that only one year of service at the Colonial War Memorial Hospital, Suva shall count towards the total; and
(e) prior to his acceptance for Part 2 of the examination, have submitted dissertations on an obstetrical and on a gynaecological subject which has been approved by the Head of the Department.

Notwithstanding anything in this regulation, the Vice Chancellor may on the recommendation of Senate relax or modify these conditions.

Examinations

2. The examinations for the Diploma in Gynaecology and Obstetrics shall consist of two parts which may be taken separately or together.

Part 1 shall consist of a written examination (two papers), 47.101, 47.102 on reproductive biology and basic medical sciences as applied to gynaecology and obstetrics. The Part 1 examination may be taken during the training period specified above in 1(d).

Part 2
(a) written (two papers), 47.103, 47.104
(b) clinical
(c) oral.

The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December.

3. These Regulations shall come into force 1 January, 1972.

DIPLOMA IN OBSTETRICS

DipObst

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1976 Calendar
General Provisions

1. A candidate for the Diploma in Obstetrics shall
   (a) enrol not later than 1 March for the June examination and 1 September for the December examination, or such later dates as the Senate approves;
   (b) on 31 May preceding the June examination or on 30 November preceding the December examination
   (i) have either held a registrable medical qualification for eighteen months or been a graduate from the Fiji Medical School for five years, or been a graduate from the Papuan Medical College for five years, and have completed eighteen months' resident appointments in hospitals including at least six months in obstetrics for family practice at one of the hospitals approved for this purpose, or
   (ii) have held registrable medical qualification for at least seven years, and have submitted evidence of having personally conducted at least 300 deliveries, and have presented a certificate signed by the Head of the Department that the candidate has during the three years immediately preceding the examinations, attended an approved course of postgraduate instruction in obstetrics and family practice.

Note: The approved course should last for at least one week and may be taken after the candidate has enrolled but must be completed before sitting the examinations.

Notwithstanding anything in this Regulation the Vice-Chancellor may on the recommendation of Senate relax or modify these conditions.

Examinations

2. The examinations for the Diploma in Obstetrics shall be
   (a) Written (one three-hour paper — 47.100)
   (b) Clinical
   (c) Oral.

3. The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December each year provided that should there be sufficient candidates, examinations may be held elsewhere at suitable dates.

HIGHER ACADEMIC TRAINING IN OBSTETRICS AND GYNAECOLOGY

(i) Membership of the Royal College of Obstetricians and Gynaecologists
The Royal College requires two years' experience on the resident staff of a recognized hospital, such as the National Women's Hospital, before accepting candidates for the MRCOG examination. The training period in the Postgraduate School is for two and a half years at present which includes a good grounding in neonatal paediatrics and pathology. Details of such appointments and of the instruction which goes with them are available on application.

(ii) MSc or PhD Degrees
Research appointments are available at the National Women's Hospital and afford the opportunity of preparing for the MSc and PhD degrees of the University of Auckland. Applications will be welcome from scientists and medical graduates who wish to carry out research in biochemistry, endocrinology, or the scientific background of obstetrics, gynaecology, and neonatal paediatrics.

REFRESHER TRAINING FOR FAMILY DOCTORS AND SPECIALISTS

(i) Practitioners with interests in the fields covered at the School may attend for periods of up to four weeks as visiting postgraduates. During the time they are attending the Postgraduate School attachments to the Auckland Hospital Board as Honorary Medical Officers can be made in order to facilitate the performance of practical procedures. Visitors may attend the daily teaching sessions as well as gain practical experience tailored to their needs.
(ii) Short courses usually of a week's duration are held at regular intervals. In addition to teaching at Diploma level advanced courses are provided.
(iii) Departmental staff are available to participate in courses throughout New Zealand by arrangement with the Head of the Department.
DIPLOMA COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR DipG&O

Part 1

The subjects covered by two papers will include basic sciences such as anatomy, biochemistry, cell biology, embryology, endocrinology, genetics, immunology, medical sociology, microbiology, pathology, pharmacology, physiology and elementary statistics. The examination will deal with those aspects of these subjects which should form part of the general education of any specialist and particularly those aspects which are applicable to obstetrics and gynaecology.

Dissertations

Candidates are advised to discuss the preparation of their dissertations with the Head of the Department at an early stage in their training period. Both obstetric and gynaecological dissertations are designed to give candidates the opportunity to study in detail conditions of their own choice and to express their own views based on personal experience and on a study of the literature. The dissertations should show clear evidence of ability to make use of a reference library and of the English language. Socio-medical topics may be particularly suitable for one or other of the dissertations. The dissertations should be accurately typed in good English and simply bound. In general the size of the dissertations should be in the order of 3000-4000 words each and credit will be given for original contributions.

Part 2

Two written papers

(a) Obstetrics, and such aspects of endocrinology, medicine, neonatal paediatrics and surgery as are relevant to the practice of obstetrics.
(b) Gynaecology, and such aspects of endocrinology, medicine, medical sociology and surgery as are relevant to the practice of gynaecology.

A clinical examination which will include presentation and discussion of obstetric and gynaecological cases.

An oral examination in obstetrics and gynaecology. In this candidates should be prepared to discuss their dissertations, to be examined on applied anatomy, physiology and pathology, and to be shown radiographs, instruments, specimens and histological slides for comment.

PRESCRIPTIONS FOR DipObst

This is a general practitioner qualification and serves to distinguish those general practitioners who have been trained to handle the common abnormalities encountered in obstetrical practice. A six months' resident appointment to the staff of a teaching obstetrical and gynaecological unit is required before candidates are allowed to sit the examination, but see also provision I(b)(ii) of the preceding regulations. Details of such appointments are available on application.

With the object of encouraging medical practitioners who intend to carry out an obstetric practice modifications have been made in the Diploma regulations to bring these more in line with the Royal College regulations in England and to make it possible for medical practitioners to take the examination soon after their obstetric appointment during their first post-registration year.

The new regulations also allow graduates of the Fiji Central School of Medicine to take the examination following a period of residence at the National Women's Hospital.

The examinations shall include questions on the anatomy, physiology, pathology and management of normal and abnormal pregnancy, labour and puerperium, including the care of the newborn during the first month of life.

In addition, the candidates will be required to have a knowledge of the physiology and pathology of medical gynaecology, including abnormal menstruation, amenorrhoea and dysmenorrhoea, endocrine therapy, abortions, infertility and contraception, ectopic pregnancies and moles, vaginal discharges, the diagnostic facets of malignancy, and such minor surgical procedures as may be encountered in a predominantly obstetrical practice.

The following are approved Hospitals for the purpose of Regulation I(b)(i):

(1) Auckland: National Women's St. Helens
(2) Waikato
(3) Rotorua
(4) Palmerston North
(5) Lower Hutt

1976 Calendar
Faculty of Medicine and Human Biology, Department of Paediatrics, Diploma Regulations, DipPaed

(6) Wellington
(7) Christchurch Womens
(8) Dunedin
(9) Any other hospital which meets the current criteria for approval during the full tenure of the post.
(10) Any Hospital recognised by the Royal College of Obstetricians and Gynaecologists for its Diploma in Obstetrics.

That approval of hospitals will be recognised on criteria of:
(i) Specialist and registrar staff in obstetrics, gynaecology and neonatal paediatrics.
(ii) The number of normal and abnormal patients attending the hospital clinics.
(iii) The provision of graduate teaching in antenatal, postnatal and gynaecological clinics, wards and delivery rooms, including teaching in neonatal paediatrics and family planning. The post must be a continuous one of six months.

DEPARTMENT OF PAEDIATRICS
†DIPLOMA IN PAEDIATRICS

The Diploma in Paediatrics is a qualification which serves to recognise general medical practitioners who have been trained to manage the common paediatric abnormalities encountered in practice. The course is limited to four candidates in 1976 and preference for inclusion will be given to those practitioners who do not have easy access to paediatric consultant services. The prerequisite of at least a six months resident appointment in an approved teaching hospital is mandatory.

Approved teaching hospitals:
1. Princess Mary Hospital for Children, Auckland and
2. National Women's Hospital, Auckland
(for a maximum of three of the six months required under the regulations for the Diploma).

This list may be extended or varied from time to time with the approval of Senate.

The examination for the Diploma will test knowledge and ability in the areas of Child Development, Preventive Paediatrics, and Management of Common disorders of childhood with emphasis on those aspects encountered in remote and medically developing areas.

In addition to the two written papers each of three hours duration there will be a clinical examination and an oral examination. The examinations will normally be held in October each year at the School of Medicine.

DIPLOMA COURSE REGULATIONS
†DIPLOMA IN PAEDIATRICS

DipPaed

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Paediatrics shall
   (a) enrol not later than 1 October or such later date as the Senate approves;
   (b) on 31 December following his enrolment for this Diploma have held a medical qualification registrable in New Zealand, for three years or more, or have been a graduate from the Central Medical School of Fiji for three years or more;
   (c) sit the examinations in the year following his enrolment.

Course Content
2. Every candidate for the Diploma shall
   (a) follow the prescribed course of study
   (b) before 30 June of the year in which he sits the examinations, have completed six months resident paediatric appointment in a hospital or hospitals approved for this purpose.

1976 Calendar
Examinations
3. The examinations for the Diploma shall be
   †(a) Written 93.405, 93.406
   †(b) Clinical
   †(c) Oral.

4. These Regulations shall come into force 1 January 1974.

Notes: (1) The approved teaching hospitals are listed under Department of Paediatrics on page 426.
(2) † This paper will not be taught during the current Calendar year unless sufficient staff is available.

DIPLOMA IN PSYCHIATRY

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations a candidate for the Diploma in Psychiatry shall before his enrolment for this Diploma
   (a) have held a registrable medical qualification for at least two years or have been a graduate from the Fiji Medical School for three years, and
   (b) have completed at least one year's hospital service approved by the Senate for this enrolment.

2. Each candidate shall follow a course of part-time study of not fewer than two years consisting of two Parts to the satisfaction of the Senate. No candidate shall proceed to Part II until he has passed Part I.

Course Content
3. The Course shall consist of:

   Part I
   Lectures, Laboratory work, and Clinical Instruction and prescribed areas of General Medicine, basic medical, social and behavioural sciences and experimental methods and mensuration. The Senate shall determine the dates of the composite interdisciplinary examination in this Part, 94.100, 94.101, 94.102.

   Part II
   either
   Four subjects from the following of which at least two must be selected from 94.103 to 94.106 and approved by the Head of Department of Psychiatry:
   94.103 Child Psychiatry
   94.104 Community Psychiatry
   94.105 Individual Psychotherapy and Behaviour Therapy
   94.106 Biological Psychiatry
   94.107 Clinical Psychiatry
   94.108 Family Therapy, Group Therapy, Therapeutic Community
   94.109 Mental Deficiency
   94.110 Alcoholism and Drug Dependence
   94.111 Geriatric Psychiatry
   94.112 Research Project
   94.113 Forensic Psychiatry

   or
   94.114 A Research Project, approved by the Head of the Department of Psychiatry.

   Each candidate shall carry out and report on a series of cases studied or submit a dissertation or both to the satisfaction of the Senate in respect of each subject he takes in Part II and shall submit to the Registrar certificates signed by the Head of the Department of Psychiatry that he has for each of those subjects satisfactorily completed these requirements.

   Practical Work
   4. A candidate shall carry out to the satisfaction of the Head of the Department of Psychiatry such practical clinical and hospital out-patient work in each Part of the Course as may be required.

   5(a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.
DIPLOMA COURSE PRESCRIPTIONS
PRESCRIPTIONS FOR DipPsychiat

The prescriptions of the subjects named in the preceding regulations are given below.

Part I
consists of:
(a) Clinical practicum. Every candidate shall produce a certificate from a supervisor approved by the Head of the Department of Psychiatry that he has satisfactorily completed one year’s clinical work in psychiatry of at least 20 hours/week in a hospital approved by the Head of the Department of Psychiatry.

(b) Interdisciplinary Examination as follows:
94.100 Basic medical sciences (1 paper)
94.101 Basic social and behavioural sciences (including statistics) (1 paper)
94.102 Clinical Psychiatry (1 paper)
Clinical examination
Oral examination

Part II
The approval of the Head of the Department of Psychiatry is required for enrolment in any subject or project in Part II.
96.114 Research Project. Requires one year's full-time work.

HIGHER ACADEMIC AND VOCATIONAL TRAINING
The various clinical departments of the School of Medicine, like the Postgraduate School of Obstetrics and Gynaecology, have research and associated clinical positions available for those preparing for PhD, MSc, MPhil, and MMedSic degrees and for the higher vocational diplomas of fellowship of the specialist colleges.

THE POSTGRADUATE MEDICAL COMMITTEE
The Postgraduate Medical Committee, under the Chairmanship of the Associate Dean of Graduate Studies in Medicine accepts responsibility for the organisation and supervision of graduate and postgraduate work among the medical practitioners in Auckland. The activity of the Committee is linked with the School of Medicine and with the hospitals under the control of the Auckland Hospital Board.

The Committee arranges annual courses throughout the academic year in surgery, internal medicine, anaesthesia, radiology, pathology, psychiatry, paediatrics and dentistry. It also arranges visits by overseas medical speakers both in the University and in the associated hospitals and publishes a monthly bulletin of medical postgraduate affairs, This Month.

The co-ordination and supervision of graduate studies is carried out with the help of advisory committees of the Postgraduate Committee, each of which is responsible for its particular area of medical education including supervision of the registrar and graduate training programme and the organisation of such visiting professors as come to Auckland under the sponsorship of the Auckland Savings Bank and other auspices.

All graduates attending one of the annual courses of the Committee and all overseas graduates undergoing postgraduate training in the Auckland hospitals are required to enrol with the Postgraduate Medical Committee as graduate students of the University of Auckland.

The activities in postgraduate medicine are outlined in a booklet which is available from the Associate Dean’s office.

The members of the Postgraduate Committee are the Chairman, the Associate Dean of Graduate Studies in Medicine, Dr C. H. Maclaurin; the Deputy Chairman, Dr G. I. Nicholson; the Honorary Treasurer, Associate Professor J. G. Buchanan; the Honorary Secretary, Dr C. J. Mercer; Dr C. J. Alexander; Associate Professor J. F. Arthur; Dr P. M. Barhan; Professor D. G. Bonham; Dr P. J. Chapman; Professor D. S. Cole, Dean of Medicine; Dr T. G. Hawley; Dr P. J. Hurley; Professor D. R. Lines; Associate Professor W. R. McLeod; Dr R. F. Moody; Dr L. A. Scriven; Dr V. F. Sorrell and Dr L. Wright.

The office of the Committee is in the School of Medicine.

DEGREE COURSE REGULATIONS

THE DEGREE OF MASTER OF PHILOSOPHY

MPhil

Note: This degree fills a special, limited need. It permits a student in special approved cases only, to take a Master's degree in a Faculty other than that in which he has qualified for a Bachelor's degree, and only when the Master's course concerned cannot be taken in the Faculty in which he completed his Bachelor's degree. Permission to enrol for the Degree of Master of Philosophy will be given only where Senate is satisfied that the student holds qualifications at least equivalent to those normally required for the Master's course concerned. Normally at least Stage III of the subject to be taken for MPhil would have to be included in the prerequisites.

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission to a Bachelor's Degree, and
   (b) have been approved by the Senate as qualified to pursue a Course of study for a Masters Degree in a Faculty other than that in which he qualified for his Bachelor's Degree.

Course Content

2. Every candidate for the Degree of Master of Philosophy shall comply with the Course Regulations for a Master's Degree prescribed in the Faculty in which he is pursuing his Course of study.

3. The Degree shall be awarded by the Senate after receipt of a certificate, from the Head of the Department in which the Course for the Degree has been taken, stating that the candidate has completed the prescribed requirements.

Class of Pass

4. The Degree of Master of Philosophy shall be awarded in three divisions — First Class, Second Class, and Pass, provided that a candidate who is required to resit the written examinations or to resubmit the thesis shall be eligible for the award of the Degree in the Pass division only.

5. These Regulations shall come into force on 1 January, 1971.

THE DEGREE OF DOCTOR OF PHILOSOPHY

PhD

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. Every candidate for the Degree of Doctor of Philosophy shall apply to the Head of his Department for registration as such, showing:
   (a) that he has the requisite preliminary qualification set out in regulation 2 hereof, and
   (b) that he has adequate training and ability to pursue a Course of advanced study and research.

2. The preliminary qualification shall be
   (a) qualification for admission to a Bachelor's Degree with Honours, or a Bachelor's (Honours) Degree, or a Master's Degree with Honours of this University, or
   (b) qualification for admission to a Master's Degree First Class or Second Class, or
   (c) qualification for admission to the Degree of Bachelor of Medicine and Bachelor of Surgery together with evidence that the candidate has carried out research which, in the opinion of the Senate, is satisfactory evidence of the candidate's ability to pursue a Course of advanced study and research for this Degree.
   (d) in the case of a graduate of another University, admission to the Course under the provisions of the Admission Ad Eundem Statum Regulations, or
   (e) any other qualification approved by the Senate in the particular case of any candidate.

1976 Calendar
3. The Head of the Department concerned* shall forward to the Registrar for submission to the Senate, a recommendation which shall include the proposed field of study, the proposed date of registration, the nomination of a Supervisor or Supervisors from members of the academic staff, together with satisfactory evidence of the candidate's training and ability to pursue the proposed course and in the case of a recommendation in Engineering, the description of the papers the candidate is required to take in terms of Regulation 10(a) hereof. The Senate shall determine the date of registration.

Note: In the Faculty of Engineering the Dean of Engineering shall forward any recommendation for registration.

4. If registration is approved by the Senate the candidate shall comply with the provisions of the Enrolment and Course Regulations (General).

5. A candidate for a Master's Degree may, after the completion of at least one year's work for that Degree at a standard considered satisfactory by the Senate, be registered as a candidate for the Degree of Doctor of Philosophy. Any such candidate so registered may be allowed credit for the work for the Master's Course if that work can form part of the doctoral thesis. The date of registration shall not be earlier than the end of the academic year in which he completed papers for Master's or Bachelor's Degree with Honours.

6(a) After being registered as a candidate for the Degree of Doctor of Philosophy the candidate shall pursue a Course of advanced study and research at the University to the satisfaction of the Head of the Department and the Supervisor for a period of at least two calendar years from the date of registration, during which he shall work at his advanced study and research full-time under the supervision of a teacher in the University; provided that
(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;
(ii) field work may be carried out at such places and for such periods as the Senate may determine;
(iii) research requiring the use at first hand of documents or books not available within the University may be undertaken in an approved institution outside the University, for such period or periods and on such conditions as may be determined from time to time by the Senate;
(iv) when a candidate has completed the initial period of two years full-time study and research he may apply to the Senate for permission to continue as a part-time candidate. Any such application must be supported by the Supervisor and the Head of the Department.
(b) For the purpose of this regulation a candidate shall be deemed to work full time if he has no occupation other than his study or research; provided that he may
(i) with the approval of his Supervisor and the Head of the Department engage for an average period of not more than six hours in any one week in academic work other than his study or research;
(ii) take such statutory, recreational and other holidays as are normally incidental to full-time occupation.

7(a) Notwithstanding anything in Regulation 6, a part-time member of the academic staff whose duties as such require of him not more than 12 hours work in any one week and who has no other occupation except his study or research may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least three calendar years from the date of his registration, to the satisfaction of the Head of his Department and the Supervisor.
(b) Notwithstanding anything in Regulation 6, a full-time member of the academic staff, other than a Head of Department, may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least four calendar years from the date of his registration to the satisfaction of the Head of his Department and the Supervisor.
(c) Notwithstanding anything in Regulation 6, a full-time member of the teaching staff of a Teachers' College in Greater Auckland may apply for registration as a candidate for the Degree of Doctor of Philosophy and shall submit with his application a statement from the Principal of the College that his college work is such as to allow him to pursue a course at the University for the Degree of Doctor of Philosophy. After being registered he shall pursue to the satisfaction of the Head of his Department and the Supervisor, a course of advanced study and research at the University over a period of at least four calendar years from the date of his registration.
8. Unless he has fulfilled the requirements of this regulation as part of his preliminary qualification, every candidate for the Degree of Doctor of Philosophy shall (unless he has passed one Stage I language paper of a foreign language approved by the Senate) forward to the Registrar a certificate of his ability to read works in his field of study in a foreign language approved by the Senate. The certificate shall be given by the Senate and shall certify that the candidate has satisfactorily translated from a foreign language one or more passages set by the Head of the Department in which the candidate is working for the degree in conjunction with the Head of the Language Department concerned.

The choice of foreign language shall be determined by the candidate's Head of Department.

Note: (i) Candidates in those Departments which prescribe German or Russian as a foreign language are advised to attend a suitable course in one of these subjects.

(ii) Candidates in this Department which prescribe French as a foreign language are advised to consult the Head of Department of Romance Languages to ascertain whether they need to attend a course in the subject.

9. The Supervisor shall submit to the Senate, through the Head of the Department, a brief report on the progress of the candidate at the end of each year, provided that in the case of a candidate who is a member of the teaching staff of a Teachers' College the supervisor shall submit a report at the end of each six months. A candidate's registration may be terminated by the Senate if an unfavourable report is received.

10 (a) A candidate for the Degree of Doctor of Philosophy in Engineering shall take three papers prescribed for the Degree of Master of Engineering or papers deemed by the Deans Committee to be equivalent provided that the Senate on the recommendation of the Deans Committee may waive or modify this requirement.

(b) A candidate shall not be eligible to enrol for any other course while registered for the Degree of Doctor of Philosophy unless he obtains the prior permission of the Senate.

11 (a) A candidate who has fulfilled the conditions required by these regulations may apply at any time within six years from the date of registration to the Registrar to be examined provided that a full-time member of the academic staff, or a member of the teaching staff of a Teachers' College, may apply at any time within eight years and this period may in special circumstances be extended by the Senate for a full-time member of the academic staff who has not while registered for the Degree been a full-time research student.

(b) A candidate shall submit to the Registrar three bound copies of a thesis embodying the results of his research which shall be retained by the University.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

(c) When a thesis is submitted an examination fee of $80 is payable.

(d) When a thesis is re-submitted as provided in regulation 14 of these regulations a further examination fee of $80 is payable.

12 (a) After having accepted the candidate's application to be examined the Senate, shall, upon the recommendation of the Head of Department, approve the title of the thesis and shall appoint as examiners:

(i) The Supervisor or Supervisors,

(ii) one person, who shall also act as Oral Examiner, and who may be a member of the staff of this University if there is no specialist in the field at another University in New Zealand, and

(iii) one person who may not be a member of the staff of this University except in such circumstances as the Senate thinks fit.

(b) The Senate may, on the recommendation of the Head of the Department, appoint a further examiner and in exceptional circumstances two further examiners.

13. The Supervisor shall forward to the Registrar a certificate stating that the work described in the thesis was carried out by the candidate under his supervision and that the conditions laid down in regulation 6 or 7 have been fulfilled.

14 (a) A copy of the thesis shall be submitted to each examiner. Except where the Vice-Chancellor, acting on the advice of the examiners, otherwise authorises the Supervisor and one external examiner shall together examine the candidate orally on the subject of the thesis and on the general field to which the subject belongs. The oral examination shall be held after the reports from the external examiners have been received, and not sooner than six weeks after the submission of the thesis, except in very special circumstances and with the approval of the Senate. At the request of the oral examiners the candidate may be required to present himself for a written examination. The oral examiners shall make a joint report to the Senate on the whole examination. The examiners may recommend that a thesis, not considered entirely suitable by them for acceptance, may be revised by the candidate for resubmission on one further occasion only.
(b) Where a candidate registered for this Degree who has not qualified for or been awarded a Masters Degree of this University submits or re-submits a thesis not considered entirely suitable to the examiners, the Senate may recommend that the thesis be submitted for a Masters Degree without Honours in the appropriate Faculty provided that the candidate satisfies all other requirements for that Masters Degree.

CERTIFICATE COURSE REGULATIONS

CERTIFICATE OF PROFICIENCY

COP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), the Terms Regulations, and the Examination Regulations.

1. In these regulations: a ‘pass’ means a pass in any paper or subject or in any examinable part of a subject.

‘Certificate of Proficiency’ means a Certificate issued by the University as to a pass otherwise than for a Degree or Diploma.

2. With the permission of the Senate a matriculated student may be enrolled under the Enrolment and Course Regulations (General) for the purpose of obtaining a Certificate of Proficiency.

3. To obtain a Certificate of Proficiency a student who is enrolled under Regulation 2 must keep terms in accordance with the Terms Regulations, comply with the provisions of the Examination Regulations and pass the appropriate examinations.

4. Where a candidate has obtained a pass for a Certificate of Proficiency he may at any time have that pass credited to a Degree or Diploma if he has complied with, or in exceptional circumstances is exempted by the Senate from, any prerequisite, corequisite condition or other requirement prescribed for that Degree or Diploma.

5. A candidate who (a) has obtained a pass in any subject at Masters level for a Certificate of Proficiency and (b) would have been eligible for Honours if he had presented that subject under the appropriate Masters Degree Regulations, may be awarded a Certificate of Proficiency with Honours of the appropriate class provided in those Regulations.

Note: A member of the permanent academic staff of this University with overseas university qualifications may be permitted to enrol for a paper or a subject for Certificate of Proficiency without having to make a formal application for admission ad eundem statum.

INTER FACULTY STUDIES

Operations Research

Operations Research can be defined briefly as the application of scientific methods to management problems. It is widely used in areas such as optimal scheduling, inventory control, decision analysis and many similar applications, both on a short-term basis and to assist in long-range planning.

Training for OR is frequently inter-disciplinary and in the University there are several paths along which OR may be approached. Because of this, the major routes are described here, and further reference should be made to relevant prescriptions in the Faculties of Commerce, Engineering and Science.

1. In the Faculty of Science, the Department of Mathematics offers courses which contain topics dealing with the theory and methodology of basic stochastic and deterministic techniques in Operations Research. In particular the following courses are relevant:

Mathematical Techniques of Operations Research 26.361
Probability 26.380
Computational Methods in Linear Optimization 26.391

Related papers are available at undergraduate and graduate level towards the degrees BSc, BSc(Hons), MSc or towards the diplomas DipCompMaths, DipStats. Interested students should consult the Head of the Department of Mathematics.

1976 Calendar
2. In the Faculty of Commerce students may specialise in Operations Research for the BCom degree by taking four papers offered by the Department of Economics.

Managerial Economics 13.203
Operations Research 13.303
Operations Research 13.403
Mathematical Programming 13.409

together with related papers in Accounting, Economics, Engineering, Management Studies and Mathematics. Papers 13.203 and 13.303 are also available to undergraduates in Arts and Science.

At the graduate level, the Faculty offers the Degree of MCom (or MPhil) in Operations Research. Interested students should consult the Head of the Department of Economics.

3. In Engineering, students wishing to specialise in Operations Research may do so within their professional degree by choosing the following BE papers in Engineering Science or Mechanical Engineering:

Systems Analysis 54.23
Operations Research 54.45
Project 54.41 or 55.33

Appropriate papers in such areas as computation, statistics, industrial administration and transportation are also available. The project can be chosen from a wide area of application in industry and corporate administration.

At the graduate level, further papers are offered towards the degrees of ME, MPhil and PhD, and interested students should consult the Head of Department of Theoretical and Applied Mechanics.

CENTRE FOR CONTINUING EDUCATION

The Centre promotes a wide variety of courses for the general public. The courses are intended to make available to the community the study of university subjects, to offer continuing education to various professional groups, to help those concerned with offering other educational courses and to bring a university approach to problems within the community. The courses are generally held in the University, and take place both in the evenings and daytime. Courses of ten weeks or longer are arranged during the University terms and seminars and weekend courses are promoted throughout the year. The Centre also conducts certificate courses in Criminological Studies, Personnel Management and Community Studies. Seminars of up to five days are held for engineers, dentists, pharmacists, businessmen, teachers and similar professional groups.

Information about the Centre’s activities is available in various brochures and other publications which are available on request from the Centre for Continuing Education, University of Auckland, Private Bag, Auckland (phone 74-740, extension 320).

COMPUTER CENTRE

The Computer Centre provides a digital computing service for users throughout the campus. This service is based on a Burroughs B6700 computer of principal characteristics:

Processor speed: 5MHz (10MHz arithmetic)
Memory: 144K words (51 bit, 1.2 microsec.)
Magnetic Disk: 60M bytes, fixed head, 23ms
Magnetic Tapes: 4 1600 b.p.i. 72Kc phase encoded
Card Reader: 17-track NRZI
Line Printer: 300 c.p.m. 1400 c.p.m.
Magnetic Tapes: 1100 1. p.m. 132 char.
Paper Tape Reader: 400 l.p.m. 132 char.
Three Remote Terminals

Languages available on the system include:
FORTRAN
ALGOL
COBOL
PL/I
APL
DYNAMO
SNOBOL
SIMULA

A range of applications programming packages is also available, including linear programming, statistics, numerical analysis and scheduling.

Persons wishing to use the system are expected to prepare their own programs and data; the Centre does not employ staff to write programs for its users. Teaching staff at the Centre provide a number of courses in elementary and advanced aspects of computer programming and computer use each year and also provide an advisory service on general aspects of program development. Special batch services are provided for handling programs submitted by undergraduate students and the Job Reception and Return facilities for these are located on the ground floor, Room G04 — Users work room. Staff members and research students intending to use Computer Centre facilities should first obtain from the office (a) a Usercode, (b) information sheets relating to those parts of the service they intend using, (c) information about forthcoming courses.

The Computer Centre building is open between 8 a.m. and 9 p.m. weekdays only, vacation periods included. Operating hours for 1976 are expected to be 9 a.m. to 12 midnight with some expanded operating hours during the second term.

COMPUTER SYSTEM REGULATIONS

Pursuant to section 22 of the University of Auckland Act 1961 the Council of the University makes the following Regulations: —

1. These Regulations may be cited as the Computer System Regulations 1975 and shall come into force on 1 January 1976.

2. In these Regulations, unless the context otherwise requires — “System” means any Computer System controlled and operated by the Council whether at the Computer Centre established in the University or elsewhere. “Director” in relation to any System means the person authorized by the Council to control it.

1976 Calendar
3. No student or any other member of the University shall:
(a) without authority of the Director gain access or attempt to gain access to the System;
(b) obtain or attempt to obtain from the System any information to which he is not entitled;
(c) use or attempt to use the System so as to cause costs to be incurred —
   (i) by the University, without the consent of his Head of Department and the Head of any other Department concerned;
   (ii) by any person other than the University, without the consent of that other person.

4. Any breach of Regulation 3 of these Regulations shall be deemed to be a breach of the Disciplinary Regulations of the University.

Notes (i): Application to use a Computer System must be made to the person in control — that is, to the Director of the Computer Centre or, in the case of a system under the control of a Head of Department, to that Head of Department or his nominee.

(ii) Withdrawal of complete facilities for improper use:

The purpose of the Regulations is to make certain improper uses of computer systems under the Council's control breaches of University discipline, so that any breach of Regulation 3 may, if committed by a student, be dealt with under the Disciplinary Regulations. Each user of a computer system must note that any improper use, whether or not it can be or is so dealt with and whether or not it is within the scope of Regulation 3 above, may lead to his being temporarily or permanently refused the use of the system, by the Director of the Computer Centre or by the Head of the Department concerned (or other person having control of the system). Any person aggrieved by such a refusal may, in the ordinary course of University administration, have the matter referred, through the Vice-Chancellor, to the Council.

ACADEMIC DRESS
The Auckland Branch of the New Zealand Federation of University Women owns a stock of Academic Gowns, Hoods and Caps (black trencher with a tassel). These are available for hire at all times during the year. Details may be obtained at the Registry. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the Graduation Ceremony with his result card.
The proceeds earned by this service are devoted chiefly to the establishment and maintenance of Fellowships to enable New Zealand women graduates to continue their studies overseas, or to bring overseas students to New Zealand.

CAREERS AND APPOINTMENTS OFFICE
The chief duties of this Office are threefold:
to increase the awareness in the community, and the use made by the community, of university trained people;
to put prospective employers in touch with suitable persons seeking employment and to acquaint past and present students of the University with occupational opportunities;
to give advice and information on careers and employment to students and graduates of the University.
As part of the work, arrangements are made for Employer Visits and for Career Talks, while students who register receive personal notification of opportunities for employment.
The Office is situated in the suite of rooms on the Harbour side of the Upper Lecture Theatre. It is open during normal University Administrative hours. The telephone numbers are 74-740 extensions 703 and 632.

THE CHAPEL
The Maclaurin Chapel was established under a deed of trust by Sir William Goodfellow, Hon. LLD, in memory of his son, Richard Maclaurin Goodfellow, killed during service with the Fleet Air Arm in World War II, and of Professor Richard Cockburn Maclaurin, one of Auckland's most distinguished graduates.
University representatives are included on the Board of Management which is responsible for administering the trust.
Services conducted in the University Chapel are non-denominational in character, and all members of the University are welcomed. Regular services are held on Sunday evenings during term time, and are advertised. There are also occasional midweek lunch-time services.
The Chapel is always open for private meditation.
The hall attached to the Chapel contains a library of theological books and periodicals, available for borrowing. Application for the use of the hall for University meetings may be made to the Registrar.

Chaplains
Auckland University has three chaplains working in it, and the Chaplaincy is regarded as an ecumenical one. Both Protestant chaplains represent those denominations which have membership in the National Council of Churches, and all three regard themselves as being available to any member of the university community, for any kind of consultation that individuals may wish to have.
The Maclaurin Chaplain, the Rev. P. W. Davis, who is appointed by the Richard Maclaurin Goodfellow Foundation, may be contacted in his office in the Chapel complex (telephone 74-740, extension 732). The Chaplain appointed by the Auckland Council of Churches, The Rev. Dr J. C. Hinchcliff, has his rooms behind the Upper Lecture Theatre (Room 10) (telephone 74-740, extension 495). Father E. O'Sullivan, O.P., may be found at the Catholic Chaplaincy Centre, Newman Hall, Waterloo Quadrant. Telephone 374-990.
ACCOMMODATION SERVICE

An accommodation service is provided without charge for students and intending students of the University.

The Student Lodgings Officer is available to receive applications for admission to University Halls of Residence and to assist students to find board in private homes.

A notice board giving details of houses, flats and rooms available for occupation by students is maintained in the accommodation office, which is situated in room 005 in the basement of the Old Arts Building.

HALLS OF RESIDENCE

The University administers two Halls of Residence and, in addition, two other Halls work within the University system. All halls except for Jean Begg House, cater for both men and women.

Applications for admission to these Halls should be addressed to the Student Lodgings Officer, University of Auckland, Private Bag, Auckland. Applications for admission in 1976 close on 1 November, 1975.

Grafton Hall, Seafield View Road, Grafton, administered by the Presbyterian Methodist Congregational Foundation Inc. and within 15 minutes' walk of the University. The Hall is open to all students and accommodation and board is provided for 150 students.

International House, 27 Whitaker Place, administered by the University and within seven minutes' walk of the University. Accommodation and full board is provided for 158 residents.

Jean Begg House, 391 Upper Queen Street, administered by the Y.W.C.A. and about 15 minutes walk from the University. Bed and Breakfast is provided for a total of 60 women students. Lunch and dinner are available, cafeteria style, in the main dining room.

O'Rorke Hall, 49 Symonds Street, administered by the University and within three minutes' walk of the Campus. Accommodation and full board is provided for 166 students.

Norman Spencer Senior Student Apartments, 9 St Stephens Avenue, Parnell. Accommodation is available for approximately 50 senior students in single study bedrooms with use of well equipped communal cooking and bathroom facilities. There is limited accommodation for married couples.

LOST PROPERTY

All enquiries regarding lost property should be referred to the Head Custodian or the Enquiries counter in the Registry.

METRICATION

Teaching throughout the University is in metric units in 1976, but in some subjects where imperial units are embodied in legislation or regulation, these may still be referred to until authorised values in the new units are gazetted.

Students are recommended to purchase metric texts where these are available.

The system of units being adopted is known as SI (International System). It is a new system, internationally agreed, and is not a modified old metric system. Care must be taken in the selection of texts and conversion data which may be found useful. The sole authoritative publication on the subject is New Zealand Standard 6501: 1972. THE INTERNATIONAL SYSTEM (SI) UNITS AND THEIR APPLICATION. If this is not available the provisional NZS 6501P: 1971 may be used.

PARKING

Street parking is available for two-wheel vehicles in Symonds Street between Alfred and Wellesley Streets, in Alfred Street, in Princes Street outside the Student Union, and in Symonds Street between Grafton Road and the Human Sciences building.

1976 Calendar
An area in lower Grafton Road (area No. 13) has been set aside for students' cars. Admission is on production of student identity card and payment of 10 cents. Check out passes are available for re-entry later the same day but to guarantee is given that a space will be available. No charge is made for this area during the weekend or after 4 p.m. on weekdays.

Students may use the parking facilities in lower Alten Road (Area 11) and on the eastern side of Wynyard Street (Areas 16, 30 and 34) without charge after 5.45 p.m. any day, at any time during the weekends, during the May and August vacations, and during December and January. Students may be asked to show identity cards in order to distinguish themselves from ordinary members of the public.

The parking building at 36 Princes Street is available for general parking after 5.45 each evening and weekends at a cost of 20 cents.

PRESS CORRESPONDENCE

Members of the University are reminded that it is normal practice to sign Press correspondence as from the University only when the writer has some special competence in the subject discussed. For members of the teaching staff, such subjects would normally be those within the area of their academic competence, and for students, matters of general student concern. Student members should indicate their student status either in the body of the letter or in the address given. On matters of general public interest, all members of the University write in their private capacity.

STUDENT COUNSELLING

The Counselling Service is free and confidential for any member of the University community who wishes to use it. Anyone using the Service (and this includes intending students) may discuss without fear of judgement or criticism, or pressure to adopt any particular course of action, any issue of a personal, social, or academic nature. The aim of the Service is to enable people to relate more satisfactorily with other people in their immediate and general environment. For this purpose, personal counselling is provided, as well as a variety of group activities. The Service is free, confidential, voluntary and readily available. The three full-time counsellors are Lorna McLay, Quentin Brew and Brian Lythe, the last-named with a special responsibility for overseas students. They, as well as Moira Mackie and Clare Ward, part-time counsellors, are available during usual University hours, preferably by appointment, but in matters of urgency, without. An appointment may readily be made by ringing the Secretary, telephone 74-740, extensions 595, 596, at Student Counselling, 51 Symonds Street, Auckland.

STUDENT HEALTH SERVICE

The University of Auckland Student Health Service is staffed by a full-time Director, a nursing sister and eleven part-time doctors. The services of a consulting psychiatrist are also available. This free service, available to all students living away from home is designed to help students maintain an optimum state of health. All students are entitled to an annual interview and medical examination during which they have an opportunity to discuss any physical or mental health problems. Immunisations against tetanus and other infectious diseases are also available free to all students, but there is a charge of 50 cents per injection for overseas travel.

The hours of appointment are as follows:
Monday to Friday: 9 a.m. to 4.30 p.m.
During the evening and at weekends there is an emergency service available and the doctor on duty can be contacted through the University Emergency Enquiries, phone 70-095

TELEPHONES

Telephones for the use of students are provided by the Students' Association in the Student Union Building. In addition Public Telephones are provided by the Post Office in the Arts Building (adjacent to the Bank), the Library Building (first floor by the lifts) the Science Building (main foyer), the Thomas Building and at the School of Engineering (adjacent to the Library). Students are not permitted to make or receive outside calls through the University main telephone system except on University business.

Students’ Association Activities

The aim of the Association is to further the interests of the student body within the University and without. The student body is an integral part of the University community and the Association and its members are involved not only in the government of the University but also in fostering social and intellectual activities within the University.

In recent years the Association has changed from a merely social and service organisation catering for the needs of students on Campus to an organisation concerned with student problems in their widest context.

The Association is an Incorporated Society founded in 1891. The control of the business and affairs of the Association rests with the Executive Committee elected annually and consisting of a President, Administrative and Welfare Vice-Presidents, Treasurer, and twelve Portfolio Holders. The Executive is the official mouthpiece for the Association and takes official action on behalf of the Association in the interests of the student body. Through this Executive which acts as a coordinating body the Association undertakes a wide and varied number of activities. There are over one hundred clubs and societies affiliated to the Association covering many spheres of student interest. The sports clubs cater for almost all sporting interest and most participate in the local Auckland inter-club competitions and in the NZUSU tournaments. The cultural societies cater for a wide range of religious, academic, social, and political interests. Information about these clubs and societies is available in the Orientation Handbook.

The Association organises social functions during the course of the year ranging from informal dances to the Graduates Ball. During the first two weeks of the academic year the Association organises the Orientation Fortnight to acquaint new students with the varied facets of university life. The Association organises student concessions for its members with a number of city firms and with the promoters of attractions of interest to students.

The Association runs an employment bureau to obtain part-time and vacation work for students. Other services provided by the Association are “Contact” (an advisory and information service run by students for other students) and a legal referral system. The NZUSA Travel Bureau runs a very busy travel office in the Administration Block for use by staff and students. The Overseas Students’ Counsellor and the Chaplain have offices in the Union Building.

1976 Calendar
The Association is responsible for various publications including a weekly broadsheet *This is The Week This Is*, outlining current activities for the week; a student newspaper *Craccum* which appears weekly during the term and traditionally expresses students' views and features news of interest to students; such publications as *Guide to Student Flatting* and an annual handbook for first year students containing a digest on information of use to new students; and as well distributes the various publications to the national body, NZUSA, which includes *Living With Sex*, and the *Overseas Student Handbook*.

The Student Representative Council was set up in 1969 consisting of elected representatives of student groups and faculties, together with past and present Executive members, and is an advisory body empowered to make recommendations to the Executive on any matter of concern to students.

The Association occupies the Student Union Building whose control and use is subject to management by the Student Union Management Committee consisting of six students and five representatives of the University including representatives of the Senate, Council and Sub-Professorial staff.

The Student Union is made up of five blocks. The cafeteria block is under the general supervision of the Catering Manager and contains a basement and kitchen and the ground floor cafeteria seating 600 where a full hot and cold meal service is available. On the first floor is the Snack Bar which seats approximately 100 and provides a snack, coffee, and milk shake service during the middle of the day, and also a Pizza Pie Parlour seating 80. The Restaurant which seats 100 is on the first floor and provides a higher quality meal for students and staff. The University Club occupies the second floor of this block and adjoining this a functions room accommodating up to 150 people. The Milk Bar on the basement level offers sweets, milk shakes, ice creams, etc, and has indoor and outdoor seating for 70. The Coffee Bar also on the basement level which seats 90 is open for extended hours and serves coffee, tea and light snacks.

The Administration block contains the Association offices, Council Rooms, general meeting rooms, and the Executive offices along with the offices of the President and the Association Secretary, the Union Manager, and the Accountant.

The public office is open from 8.30 a.m. to 5 p.m. for Association business. Besides this stands the block housing the University Bookshop Auckland Ltd. in which the Association has a half interest, above which are the main common rooms. Underneath both these blocks is the basement, storage, toilets and student locker area. The two blocks nearest Alfred Street contain the TV room, billiards room, the sick bay, a common room, table tennis room, and judo room.

All students are required to pay the annual Students' Association fee of $34, $12 of this fee being paid into the building fund. The building fund levy is payable for 5 continuous years of attendance at the University of Auckland, credit being given for attendance at other New Zealand Universities for any full year. The money is paid into a building fund to finance present and future buildings in the Student Union. The present Student Union which cost $1,370,000 has been paid for equally from a Government subsidy and from the building fund, the balance being made up from a public subscription of $65,000.

The Kenneth Maidment Theatre which is due for completion before the beginning of the 1976 academic year, will cater for the cultural activities of the Association and the University. To complement this, work has begun on the Recreation Building which will provide a focus for sporting activities on campus. Plans are now being made for completion of the rest of the Union. These include a swimming pool and a large indoor hall.

The Association has embarked upon a pilot housing scheme to provide flatting accommodation for students.

The Association is a link between individual students and the academic and administrative staff of the University. During 1968 advances were made in the field of student participation in the government of the University. Students now elect four representatives to the Senate, in addition to the representative on the University Council elected since 1947, and there are student representatives on all Department and Faculty committees. The Association through its Executive represents students in matters involving their interest within the University and the community at large.
THE NEW ZEALAND UNIVERSITY STUDENTS' ASSOCIATION

The New Zealand University Students' Association is the national body to which all University Students' Associations are affiliated. Its purpose is to act for students in all matters of national concern, primarily in the field of education, but also on questions of social concern and international matters.

Two Councils are held each year in May and August, and at these Councils NZUSA policy is formulated by the constituents.

In addition to representing students on matters of national concern, NZUSA runs the Student Travel Bureau which provides discount travel for students intending to travel overseas.

The management of NZUSA is vested in the National Executive which is composed of the President, five office holders and the seven constituent Presidents. The President of NZUSA is a full-time position.

Sporting activities are directed by the New Zealand University Sports Union which promotes two inter-university tournaments, as well as organizing international tours (usually to Australia). Tournaments are held in rotation at the five major universities.

National Cultural activities are the responsibility of the New Zealand Students' Arts Council which is a standing committee of NZUSA whose membership also includes training colleges and technical institutes. NZSAC provides a wide range of activities on campus including films, rock shows, exhibitions and overseas artists from many disciplines. Through membership of NZSAC students receive discounts on many local productions.

AUCKLAND UNIVERSITY DISTRICT GRADUATES' ASSOCIATION (INC.)

President: K. L. Piper, BArch N.Z.
Secretary: M. A. Perkinson, MCom, ACA.

The Graduates' Association was formed in 1951 with the primary aim of assisting the Court of Convocation to carry out its function of electing six members of the Court to the University Council, the governing body of the University of Auckland, and to make representations to the Council on any matter concerning the interests of the University.

Other objects of the Graduates' Association are the provision of facilities for intellectual and social intercourse among University graduates, the promotion of interest in University affairs, student representatives on all Department and Faculty committees. The Association through its Executive represents students in matters involving their interest within the University and the community at large.

The Association also concerns itself with the interests of undergraduates, particularly in relation to welfare, accommodation, etc. A recent Association project was the setting up of a student loan fund for short term loans to students in temporary financial difficulties. (Applications for these are made through the Student Counsellors.) Most lectures and discussions are held at the Maclaurin Hall in Princes Street, and most social functions at the Student Union.

Membership of the Association is open to graduates and diploma holders of any University (in or out of New Zealand). Those eligible to join the Association who have not already done so would be welcomed as members. The secretary, Mr M. A. Perkinson, Accountancy Department, University of Auckland, Private Bag, Auckland, will be pleased to receive membership enquiries or to give further information about the activities of the Association and the Court of Convocation.

1976 Calendar
AUCKLAND UNIVERSITY CLUB (INC.)

President: W. A. Young, LLB.
Vice-Presidents: D. E. Cryer, BA., R. J. Moorhead, BA.
Secretary: H. C. Bull.

The Auckland University Club Inc., having obtained a Club Charter, opened its premises on the top floor of the Cafeteria Block in the Student Union on 1 June 1968. The Club provides the means by which former graduates can maintain close links with other graduates, with present students and with members of the University Staff. It encourages a closer relationship between the University and the professional and business community.

Membership is open to persons over the age of 20 who are members of the Court of Convocation of the University of Auckland, graduates or diploma holders of other Universities, members of professional societies who have gained a substantial portion of their professional qualifications as students of the University of Auckland, and members of The Auckland University Students’ Assn. (Inc.). Numbers are limited in terms of the Club Charter to 2,250 and at present the membership is fully taken up, but a waiting list is being maintained. Application forms are available from the Secretary.

The Club is open from 11 a.m. to 10.30 p.m. Monday to Friday and from 4 p.m. to 10.30 p.m. on Saturdays.

Enquiries should be directed to the Secretary at the Club premises. Telephones: Secretary, 372-275; Club Bar 371-119. Postal Address: The Auckland University Club (Inc.), Private Bag, Auckland.

THE NEW ZEALAND UNIVERSITIES GRADUATES ASSOCIATION (UK)

The New Zealand Universities Graduates Association (UK) was formed in 1970 with the main aim of creating and fostering opportunities for graduates of New Zealand Universities to establish contacts with other New Zealand graduates in the United Kingdom of Great Britain and Northern Ireland.

Other objects of the Association are the establishment of links with Universities, and University organisations throughout the United Kingdom and New Zealand, and to make known to visitors the names of individuals or organisations who might be helpful to them.

Membership is open to holders of a degree or equivalent professional qualifications and associate-membership is available to all members of NZUSA who are not yet graduates. Subscriptions are subject to review. 1970 was £stgl (or £stgl-10-0 for membership for husband and wife).

The Secretary will be pleased to receive membership enquiries and give further information. Postal Address: Hon. Sec. N.Z. Universities Graduates Assoc., Greenlands, Keymer Road, Burgess Hill, Sussex, UK.

PRE-ENROLMENT

Because of insufficient accommodation there will be a limitation on the number of students who can be enrolled for certain courses at the University in 1976. With a few exceptions (see Notes) those wishing to enrol in 1976 for any of the Courses of Study listed below must complete a pre-enrolment application by the date prescribed. Application forms are available from the Registrar, University of Auckland, Private Bag, Auckland, or at the Enquiries counter, Administration Building, 24 Princes Street. No intending student will be permitted to enrol in any of the Courses of Study listed below unless he has received notice in reply to his pre-enrolment application that a place is available to him in 1976. Students wishing to enrol for Courses of Study other than those listed below do not need to pre-enrol.

Notes:
1. Admission Ad Eundem Statum
(a) Students from other New Zealand Universities wishing to transfer to the University of Auckland

   Student on the books of another university in New Zealand wishing to transfer to the University of Auckland are required to make application to transfer on the appropriate form (Form C) to the Registrar not later than 10 January. A late application may be accepted until 31 January and then only with the permission of the Senate and on payment of a fine of $20.

   Because the University of Auckland is unable adequately to accommodate all of the students who in 1976 will seek to gain admission, students wishing to transfer to the University of Auckland for any undergraduate course shall be admitted ONLY IF THERE ARE COMPELLING CIRCUMSTANCES FOR TRANSFER TO AUCKLAND.

   (b) Students from Overseas

   Overseas students wishing to be admitted for the first time to a New Zealand university must

   (i) if applying for undergraduate status, or credits at the University of Auckland, apply to this University for admission not later than 30 September for a place for the following year;
   (ii) if not applying for undergraduate status or credits but for admission at entrance level, apply to the Overseas Students Admissions Committee (OSAC), Box 8035, Wellington, N.Z., not later than 1 July for a place for the following year.
   (iii) if applying for graduate status, apply to the University for admission not later than 31 January.

2. Terms Carried Forward

   Applications close 10 January, but late applications will be accepted up to 31 January, on payment of a late fee of $5. Application forms are available from the Registry.

3. Provisional Admission

   Applications close 10 January, but late applications may be accepted up to 31 January and then only with the permission of Senate and on payment of a late fee of $5. Application forms are available from the Registry. A limitation has been placed on the number of students that may be enrolled for the first time at this University with Provisional Admission. (Students seeking exemption for BArch (Regulations 3 and 4), BCom (Regulation 11), BE (Regulation 7), or BSc (Regulation 10) shall not for this purpose be counted as applicants for Provisional Admission.)

4. Special Admission

   Applications for Special Admission for DipBCM, DipBIA, DipLGA, DipPHE, and DipTP close 10 January. Application forms (Form D) are available from the Registry.

1976 Calendar
5. Failure to make Sufficient Progress in Course of Study — Prior Permission of Senate to Re-enrol

Students, both graduate and undergraduate, including those transferring from another university, shall not be accepted for enrolment in 1976 unless they have made satisfactory progress or have previously obtained the permission of the Senate to enrol in 1976. For definition of satisfactory progress refer to Enrolment and Course Regulations (General), page 66. A student will be deemed to have been engaged in academic studies whether or not he attempted the final examinations if at 31 March in that year he was enrolled for a paper or subject as an internal student or had been granted Terms Carried Forward in a paper or subject.

Applications for permission to re-enrol, with the prescribed fee of $5 close 10 January, but late applications will be accepted up to 31 January, on payment of a late fee of $10.

6. Pre-Enrolment Interviews

A General Information and Advisory Centre in the Student Union, 6 Alfred Street, will be open from 16 February until the end of enrolment week on 27 February. The Liaison Office will be open from 28 January. Deans of Faculties will be available during the week 16 February to 20 February to interview and advise students.

Students wishing to enrol in papers listed below must attend at the Department concerned on 16 or 17 February to seek acceptance for that paper.

Biochemistry; 301, 302
Biology; 221, 311, 313
Botany; 321, 331
Education; 14.410
Geology; any Stage III course, MSc, BSc (Hons) Pt IV, PhD
Sociology; 82.100, 82.101, 82.200, 82.201

7. Penalties

(a) Late Pre-Enrolment
A late fee of $10 will be imposed on students who have failed to apply for re-admission by 10 January but make application by 31 January.

(b) Late Enrolment
A student who has been granted a place and fails to enrol on the appropriate day and morning or afternoon as set out in the enrolment timetable may forfeit his place, or if permitted to enrol (i) may be subject to a penalty of $5 for enrolling during enrolment week on the wrong day, morning or afternoon, or
(ii) if enrolling after enrolment week will be subject to a penalty of $20 together with a further penalty of $4 for each week or part of a week that the enrolment is late.

(c) Late Additions or Substitutions to Courses
A fine of $4 for each week or part of a week that the application is late for alterations after the following dates:
(i) Laboratory subjects including the subjects Studio, in the Faculty of Architecture and Fine Arts and any subject of the First, Second or Third Law Examination for LLB or LLB (Hons) Degree or for the Law Professional Examination After Friday, 14 March
(ii) Subject of an Engineering Professional year After the Second Friday of the Semester
(iii) All other units and subjects After 31 March
(d) Late Alterations of Optional Papers for Masters and linked corequisite papers marked in the Schedule for the Degree of Bachelor of Arts where other linked corequisites are being substituted. A fine of $4 for each week or part of a week that the application is late After 30 April
(e) Choice of Course
The Course of study of a student making a late enrolment will be determined by the Senate and will not necessarily conform with that proposed by the student concerned. In determining such Course the Senate will have regard to prior claims upon both laboratory and classroom space of students who have enrolled in accordance with the above timetable.

8. Refund of Fees
Students are advised to note particularly the regulation with regard to refund of fees where they alter their Course of Study after enrolment. Under this regulation a full refund of fees paid will be allowed in respect of papers or subjects deleted on or before 31 March (except for subjects of the second semester of a professional year in Engineering when the last date for withdrawal is 15 August). No refund of fees will be made for papers or subjects deleted after 31 March. Holders of Education Department bursaries, Government study awards, Training College bursaries, Secon-
dary Teachers' Studentships, etc, should note that the University will claim tuition fees from the Department of Education, or authority concerned in respect of those papers or subjects for which they are enrolled as at 31 March and that no amendments to Courses involving alteration to a claim for tuition fees can be accepted after that date.

9. Limitations
Limitations have been placed on the number of students that can be accepted in 1976 for the following Courses or Studies.

1976 ENROLMENT

Students wishing to enrol at the University of Auckland in 1976 are required to attend at the University, Princes Street, to enrol during the hours 9 a.m. to 5.30 p.m., Monday to Friday 23-27 February 1976 inclusive in accordance with this timetable. Students who are required to pre-enrol are asked to bring with them their 'confirmation of place'. Students enrolling for the first time should bring their UE, HSC, Bursary, and Scholarship results or evidence of admission ad eundem statum at entrance level. Any student who has a changed name since last enrolment should produce her marriage certificate, a deedpoll, or a statutory declaration.

Students enrolling in more than one Faculty should note:
(a) only one enrolment is required
(b) enrolment must be on the appropriate day, and morning or afternoon, for whichever Faculty and whichever paper or subject in that Faculty, is first on the timetable.

Students may collect their enrolment forms from the Old Arts Building, 12 Princes Street, the day before they are required to enrol (Friday 20 February for those enrolling on Monday the 23rd).

**LECTURE AND LABORATORY TIMETABLES**

The following section contains lecture and laboratory times for students taking Courses in the Faculties of Arts, Commerce, and Science.

Timetables for lectures in the Schools of Architecture, Engineering, Fine Arts, Law, Medicine, and Music will appear on departmental noticeboards at the beginning of the session.

**Notes:**

1. The timetable is a basic structure only; additional information is available from the Department.
2. Certain classes are held at times arranged by the Departments concerned, in particular these are:
   1. lectures for Masters degree courses;
   2. tutorials and oral and practical classes (this applies to a large number of Subjects);
   3. Stage I Science lectures are given in sets. Before the beginning of the session students will consult Departmental noticeboards to see which sets of lectures they are required to attend and to confirm the hours shown in the timetable.
   4. Departments will announce the allocation of individual courses to particular lecture hours. Some of the lecture hours shown will be used for optional or alternative courses and in some cases all lecture hours allocated may not be utilised.

---

1976 Calendar
Students will not be permitted to enrol in Courses of Study that have a clash in lecture times, except with the approval of the Senate.

Bracketed Papers. Each bracketed paper will be taught at one or more of the times listed. Details are available from the Departments concerned.

**ABBREVIATIONS**

BURSARIES

Bursaries are available to students who hold the necessary academic qualifications and are New Zealand citizens or permanently resident in New Zealand.

Major changes to the University Bursaries Regulations have been announced to take effect in 1976. Details of the new Regulations have not been finalised at the date of publication of the Calendar and a supplement will be published and made available from the Registry as soon as possible.

DEFINITIONS OF FULL-TIME STUDY 1976

To be eligible for allowances a student must be enrolled in and attending all the lectures, laboratories and tutorials in either:

(a) one of the combinations of subjects set out below, or
(b) some other combination of subjects approved by Senate.

A subject in which Terms have been carried forward cannot be counted for full-time study unless a student is also enrolled internally and attending lectures in that subject.

(b) not be employed outside the University for more than 6 hours per week or within the university on work related to his course for more than 10 hours per week e.g. Demonstrator.

SCHOLARSHIPS AND PRIZES

A booklet entitled Awards Handbook 1976 is available without charge from the enquiry counter at the Registry, Princes Street. This booklet gives full details of the regulations governing scholarships, bursaries, prizes and other awards administered by the University and details of funds available for special assistance.

A handbook published annually entitled University Grants Committee Handbook gives full details of the regulations governing awards administered by the University Grants Committee. This handbook is available from Whitcoulls Ltd, booksellers and for reference in the University library.

The attention of students and graduates is drawn to the Scholarships Notice Boards in the cloister on the lower ground floor of the Old Arts Building and in the Student Union.

Review of Scholarship
The Council, in awarding any scholarship, reserves the right to reduce the annual value of such scholarship at any time and from time to time during the tenure of it by any holder should the annual income of the funds of such scholarship, in the opinion of the Council, render such reduction expedient. All scholarships offered are subject to review in the event of the candidate being awarded other scholarships. Every holder of a scholarship shall be deemed to accept the award of same, subject to the above reservation, and notwithstanding that the value of such scholarship is set out specifically in the Regulations.

Re-award of a Scholarship discontinued by the Original Holder.
Fresh applications may be called for in any scholarships discontinued after a period of three months or more from the original date of award; the re-award in the event of the discontinuation of the scholarship to be made on the basis of the original application if possible.

AN ACT TO CONSOLIDATE AND AMEND CERTAIN ENACTMENTS OF THE GENERAL ASSEMBLY RELATING TO THE UNIVERSITY OF AUCKLAND.

BE IT ENACTED by the General Assembly of New Zealand in Parliament assembled, and by the authority of the same, as follows:

1. Short Title and commencement — (1) This Act may be cited as the University of Auckland Act 1961.

(2) This Act shall come into force on the first day of January, nineteen hundred and sixty-two.

2. Interpretation — In this Act, unless the context otherwise requires, —

"The Chancellor" means the Chancellor of the University of Auckland elected under this Act:
"The Council" means the Council of the University of Auckland:
"Financial year" means the financial year of the University fixed by the Council with the concurrence of the University Grants Committee:
"General course of study" means the structure of any course for a degree or other academic qualification and the subjects of study in the course; and includes the content of any subject in the course, any set works or periods to be studied, the extent and nature of any practical work required for any such subject, any prerequisites to the course or to the subjects of study in the course, and the types of examination:
"Lecturer" means a member of the staff of the University of Auckland who is in terms of his appointment an associate professor, a reader, a senior lecturer, or a lecturer of the University; and includes such other persons and classes of persons as the Council from time to time determines:
"Personal course of study" means the subjects which an individual student selects for a degree or other academic qualification in accordance with the general course of study for the time being prescribed for all students for the degree or other academic qualification:
"The Pro-Chancellor" means the Pro-Chancellor of the University of Auckland elected under this Act:
"Professor" means a professor of the University of Auckland; but does not include an associate professor:
"The Registrar" means the Registrar of the University of Auckland:
"The Senate" means the Senate of the University of Auckland:
"The University" means the University of Auckland constituted under this Act:
"The Vice-Chancellor" means the Vice-Chancellor of the University of Auckland appointed under this Act.

3. Constitution of the University — (1) For the advancement of knowledge and the dissemination and maintenance thereof by teaching and research there shall be in the Auckland University District a University to be called the University of Auckland.

(2) The University shall consist of the Council, the professores emeriti, the professors, lecturers, junior lecturers, Registrar, and librarian of the University for the time being in office, the graduates and undergraduates of the University, the graduates of the University of New Zealand whose names are for the time being on the register of the Court of Convocation of the Auckland University District, and such other persons and classes of persons as the Council may from time to time determine.

(3) The University shall be a body corporate with perpetual succession and a common seal, and may hold real and personal property, and sue and be sued, and do and suffer all that bodies corporate may do and suffer.

(4) The University established under this Act is hereby declared to be the same institution as the institution of that name existing immediately before the commencement of this Act under the University of Auckland Act 1954 (as amended by the University of Auckland Amendment Act 1957), which institution was originally established under the name of the Auckland University College under the Auckland University College Act 1882.

4. University District and Court of Convocation — (1) For the purposes of this Act there shall be a district to be called the Auckland University District, comprising the area specified in the First Schedule to this Act.

(2) The boundaries of the Auckland University District may be altered from time to time by the Governor-General by Order in Council.

(3) There shall be a Court of Convocation for the Auckland University District.
(4) The said Court of Convocation shall consist of the persons whose names are enrolled on a register to be kept by the Registrar.

(5) Every person shall be entitled to have his name enrolled on the register of the Court of Convocation who —

(a) Is a graduate of the University; or

(b) Being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted ad eundem gradum before the first day of January, nineteen hundred and forty-three, is not, by reason of that qualification, enrolled on the register of the Court of Convocation for any other University District in New Zealand, and is otherwise qualified in accordance with statutes made by the Council to be enrolled on the register of the Court of Convocation for the Auckland University District; or

(c) Not being such a graduate, is a professor or graduate full-time member of the staff of the University or a graduate member, approved by the Council as being of University status, of the staff of an institution affiliated to the University; or

(d) Is otherwise entitled in accordance with statutes made by the Council to have his name enrolled on said register.

(6) The Council may from time to time make statutes for the keeping of the register of the Court of Convocation, which statutes may include provisions prescribing the persons and classes of persons who are eligible under paragraph (b) or paragraph (d) of subsection (5) of this section for membership of the said Court of Convocation and the conditions (whether as to payment of fee or otherwise) on which persons are entitled to have their names enrolled in the register of the said Court; and, subject to this Act and to the said statutes, if any, the said Court shall have power to make such rules for the conduct of its business as it thinks fit and until rules governing its meetings are so made shall meet at such times and places as the Council may determine.

(7) The said Court may make representations to the Council on any matter concerning the interests of the University.

5. Visitor of the University — The Governor-General shall be the Visitor of the University, and shall have all the powers and functions usually possessed by Visitors.

The Council

6. Constitution of Council — (1) There shall be a Council of the University, to be called the Council of the University of Auckland.

(2) The Council shall consist of —

(a) Three members to be appointed by the Governor-General:

(b) The Vice-Chancellor or, while there is no Vice-Chancellor in office or during the absence or incapacity of the Vice-Chancellor,—

(i) The Deputy Vice-Chancellor; or

(ii) While there is no Deputy Vice-Chancellor in office or during the absence or incapacity of the Deputy Vice-Chancellor, the Chairman of the Senate:

(c) Five members to be appointed by the Senate, of whom four shall be professors, and one shall be a lecturer appointed by the Senate from its sub-professorial members and for the purpose of this paragraph a lecturer shall be deemed to become a member of the Senate upon his being elected as such:

(d) Six members to be elected by the Court of Convocation for the Auckland University District:

(e) One member to be elected by the governing bodies of State secondary schools, technical schools, and combined schools, and such registered private secondary schools as the Council may from time to time determine, being in all cases schools situated in the Auckland University District, each governing body to have one vote for the purposes of any such election:

(f) One member to be appointed by the Executive Committee of the Auckland University Students' Association Incorporated:

(g) Such number of members (not exceeding three) as the Council from time to time after the commencement of this Act thinks fit, to be appointed by the Council:

(h) The Mayor of Auckland:

(i) One member to be appointed by the Council of the University of Albany. The first member shall be appointed as soon as practicable after such date as shall be prescribed by Order in Council for a term which shall be deemed to have commenced on the date so prescribed.

1976 Calendar
(3) Notwithstanding anything in sub-section (2) of this section, the membership of the Council shall also include for a single term expiring with such date as shall be prescribed by Order in Council, one additional member who shall be appointed by the Council of the University of Albany as soon as practicable after the commencement of the University of Albany Act 1972.

7. Transitional provisions — (1) Upon the commencement of this Act the members of the Council who were elected or appointed under paragraphs (d), (e), (g), (h), and (i) of subsection (2) of section 6 of the University of Auckland Act 1954 shall go out of office, and shall not be replaced.

(2) The other members of the Council who were in office immediately before the commencement of this Act shall continue in office for terms expiring as follows:

(a) Of those of the said members who were appointed by the Governor-General, the term of one (being the one who has been longest in office at the date of the commencement of this Act) shall expire with the thirtieth day of June, nineteen hundred and sixty-two, the term of another (being the one who has been next longest in office at the date of the commencement of this Act) shall expire with the thirtieth day of June, nineteen hundred and sixty-three, and the term of the remaining one shall expire with the thirtieth day of June, nineteen hundred and sixty-four;

(b) The term of those of the said members who were appointed by the Professional Board (since called the Senate) shall expire with the thirty-first day of December, nineteen hundred and sixty-two;

(c) The term of the member who was appointed by the Executive Committee of the Auckland University Students' Association Incorporated shall expire with the thirtieth day of June, nineteen hundred and six-two;

(d) Of those of the said members who were elected by the District Court of Convocation of the Auckland University District, the term of three (being those who have been longest in office at the date of the commencement of this Act) shall expire with the thirtieth day of June, nineteen hundred and sixty-three and the term of the remaining three shall expire with the thirtieth day of June, nineteen hundred and sixty-five.

(3) The first member to be elected under paragraph (e) of subsection (2) of section 6 of this Act, and the three additional members to be appointed by the Senate under paragraph (e) of that subsection, shall come into office at the commencement of this Act or as soon thereafter as they are elected or appointed; and if they come into office after the commencement of this Act their terms shall be calculated as if they came into office at the commencement of this Act.

8. Terms of office — (1) Subject to the provisions of this Act, the members of the Council elected under paragraph (d) of subsection (2) of section 6 of this Act shall hold office for a term of four years, the members of the Council appointed under paragraphs (c) and (i) of subsection (2) of section 6 of this Act shall hold office for a term of two years, and all other elected or appointed members of the Council shall hold office for a term of three years. All elected or appointed members of the Council may from time to time be re-elected or reappointed.

(2) Elections or appointments of members of the Council to take the place of members whose terms are due to expire with the thirtieth day of June in any year shall be held or made not later than the third Monday in June in that year; and members so elected or appointed shall come into office on the first day of July following the date specified in this subsection for their election or appointment.

(3) Appointments of members of the Council to take the place of members whose terms are due to expire with the thirty-first day of December in any year shall be made not later than the third Monday in December in that year; and members so appointed shall come into office on the first day of January following the date specified in this subsection for their appointment.

(4) If at the time prescribed by this section for the election or appointment of any member or members of the Council no member or members of insufficient members are elected or appointed, the Council may itself appoint a suitable person in the place and for the term or the remainder of the term, of the member who should have been elected or appointed.

(5) Every member of the Council elected or appointed under any of the provisions of paragraphs (a), (c), (d), (e), and (i) of subsection (2) of section 6 of this Act, unless he sooner vacates his office under section 11 of this Act, shall continue to hold office until his successor comes into office. Every member of the Council appointed under paragraph (g) of subsection (2) of section 6 of this Act shall go out of office at the expiration of his term of office.
9. Employees as Council members —(1) No person in the employment of the University shall be eligible for office as a member of the Council, otherwise than under paragraph (b) or paragraph (h) of subsection (2) of section 6 of this Act, unless he is a member appointed by the Senate:

Provided that the Council may pay to any member for the time being of the Council who has acted, at the request of the Council, as an examiner, assessor, or moderator in any subject or examination a fee or stipend determined in accordance with paragraph (c) of section 18 of this Act, and no person to whom any such fee or stipend is paid shall be ineligible as aforesaid:

Provided also that no person shall be ineligible as aforesaid by reason of any other employment by the University if the amount paid to him in any financial year in respect of that employment does not exceed such amount as the Minister of Education from time to time determines.

(2) A member of the Council who is in the employment of the University shall not be entitled to vote on any question before the Council or any committee of the Council which directly affects his salary or in which he, either alone or in common with other members of the staff, has a direct pecuniary interest.

10. Disqualification of members of Council — The following persons shall be incapable of being elected or appointed to be members of the Council:

(a) A mentally defective person within the meaning of the Mental Health Act 1911:

(b) A bankrupt who has not obtained his order of discharge or whose order of discharge has been suspended for a term not yet expired or is subject to conditions not yet fulfilled:

(c) A person convicted of any offence, punishable by imprisonment, unless he has received a free pardon or has served his sentence or otherwise suffered the penalty imposed on him.

11. Casual vacancies in Council — (1) Subject to subscriptions (1A) and (1B) of this section, if any elected or appointed member of the Council —

(a) Dies; or

(b) Resigns his office by writing under his hand delivered to the Registrar; or

(c) Is absent without leave from three consecutive meetings of the Council; or

(d) Becomes ineligible for election or appointment to the Council under the provision of this Act under which he was elected or appointed; or

(e) Becomes a mentally defective person within the meaning of the Mental Health Act 1911; or

(f) Is adjudged a bankrupt; or

(g) Is convicted of any offence punishable by imprisonment for a term of 2 years or more; or

(h) Is convicted of any offence punishable by imprisonment for a term of less than 2 years and is sentenced to imprisonment for that offence, he shall thereupon cease to be a member and the vacancy thereby created shall be deemed to be a casual vacancy.

(1A) In any case to which paragraph (g) of subsection (1) of this section applies —

(a) The disqualification shall not take effect until the expiration of the time for appealing against the conviction and, in the event of an appeal against conviction, until the appeal is determined; and

(b) The member concerned shall be deemed to have been granted leave of absence until the expiration of that time, and shall not be capable of acting as a member during the period of that leave of absence.

(1B) In any case to which paragraph (h) of subsection (1) of this section applies —

(a) The disqualification shall not take effect until the expiration of the time for appealing against the conviction or the sentence and, in the event of an appeal against conviction or against the sentence or both, until the appeal is determined; and

(b) The member concerned shall be deemed to have been granted leave of absence until the expiration of that time, and shall not be capable of acting as a member during the period of that leave of absence.

(2) If any elected or appointed member of the Council becomes the Mayor of Auckland or the Vice-Chancellor, a casual vacancy shall arise in respect of the Office previously held by him.

(3) Every casual vacancy in the office of an elected or appointed member of the Council (other than a member appointed under paragraph (g) of subsection (2) of section 6 of this Act) shall, as soon as practicable, be filled by the election or appointment of a new member, in place of the vacating member, in the same manner as in the case of the vacating member, and the member
elected or appointed to fill any casual vacancy shall hold office for only the residue of the term of
the vacating member.

12. Proceedings of Council not affected by vacancies, etc. — No act or proceeding of the Council,
or of any committee thereof, or of any person acting as a member of the Council, shall be in-
validated in consequence of there being a vacancy in the number of the Council at the time of that
act or proceeding, or of the subsequent discovery that there was some defect in the election or ap-
pointment of any person so acting, or that he was incapable of being or had ceased to be such a
member.

13. Election of members — (1) The Registrar of the University, or such other person as the Council
appoints, shall be the Returning Officer for the purpose of conducting elections of members of the
Council.

(2) The elections of members of the Council shall be conducted and determined, and rolls for the
elections shall be prepared, in the manner prescribed by statutes or regulations of the University.

14. Meetings of Council—The Council shall meet at such times and places as it determines:
Provided that it shall meet at least once in the month of July in each year.

(2) At any meeting of the Council six members shall form a quorum, and no business shall be tran-
sacted unless a quorum is present.

(3) At any meeting of the Council the person presiding at the meeting shall have a deliberative
vote, and in the case of an equality of votes shall also have a casting vote.

(4) Every question before the Council shall be decided by a majority of the votes of the members
present at the meeting of the Council and entitled to vote on that question.

15. Special meetings of Council — (1) The Chancellor may at anytime, of his own motion, call a
special meeting of the Council, and the Chancellor shall call a special meeting on the requisition in
writing of any five members.

(2) Notice of any such meeting shall be posted to each member at his usual address at least forty-
eight hours before the time fixed for the meeting.

16. Council may appoint committees — (1) The Council may from time to time appoint standing or
special committees.

(2) The Council may delegate any of its powers and duties, including any powers and duties which
it has by delegation from any other body or person, but (except as provided in subsection (2) of
section 35 of this Act) not including this power of delegation, and not including the power to make
statutes and regulations, to any such committee or to the Senate or any person; and the committee
or the Senate or person, as the case may be, may, without confirmation by the Council, exercise or
perform the delegated powers or duties in like manner and with the same effect as the Council
could itself have exercised or performed them.

(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exer-
cise of any power or the performance of any duty by the Council.

(4) Unless and until any such delegation is revoked, it shall continue in force according to its
tenor.

(5) It shall not be necessary that any person who is appointed to be a member of any such com-
mittee, or to whom any such delegation is made, shall be a member of the Council.

Powers of the Council

17. Council to be governing body of University — The Council shall be the governing body of the
University through which the corporation of the University shall act, and shall have the entire
management of and superintendence over the affairs, concerns, and property of the University;
and, subject to the provisions of this Act and any other Act, shall in respect of all such matters
have authority to act in such manner as appears to it to be best calculated to promote the interests
of the University and of any other institution controlled by the Council and to promote and foster
adult education:

Provided that the Council shall not make any final decision on any matter mentioned in section
36 of this Act until it has first consulted the Senate or in the case of any appointment of academic
staff the committee of the Senate specified in the second proviso to that section and considered
any recommendations the Senate or committee may make in that behalf, unless the Senate or com-
mittee, having had reasonable opportunity to make such recommendations, has failed so to do.

+1976 Calendar
18. Appointment of professors, lecturers, etc. — Subject to the provisions of section 36 of this Act, the Council shall have power —

(a) To institute the offices of professor and lecturer and such other offices as it thinks fit in connection with the University and any other institution controlled by the Council:

(b) To appoint and remove all professors, lecturers, teachers, officers, and servants of the University and of any other institution controlled by the Council:

(c) To appoint and remove examiners, assessors, and moderators:

Provided that the fee or stipend which the Council may pay to any examiner, assessor, or moderator shall be in accordance with a scale fixed by the Council with the concurrence of the University Grants Committee.

19. Conferment of degrees — (1) The Council shall have power to confer any degree or to award any other academic qualification specified in the Second Schedule to this Act.

(2) The Council may from time to time, by statute, add to or omit from the list of degrees and other academic qualifications specified in the said Second Schedule the name or description of any degree or other academic qualification or otherwise amend the list; and every such statute shall have effect according to its tenor:

Provided that no statute adding to the said list of degrees shall come into force until it has been approved by the University Grants Committee.

(3) The Council shall, in accordance with such conditions as it may prescribe, have power to confer any degree or to award any academic distinction as an honorary degree or academic distinction:

Provided that no honorary degree or academic distinction shall be conferred on or awarded to any person by the Council unless that person has been recommended therefor by a joint committee of the Council and the Senate set up in accordance with the statutes or regulations of the University.

20. Awards of certificates, etc. — The Council shall have power, under such conditions as it thinks fit, to award certificates, fellowships, scholarships, bursaries and prizes, and to make other awards.

21. Lectures to members of the public — The Council shall have the power to provide such lectures and instruction for any persons, whether or not they are members of the University, as it thinks fit, and on such conditions as it thinks fit, and may award certificates to any of them.

22. Power to make statutes and regulations — (1) Subject to the provisions of this Act and any other Act, the Council may from time to time make such statutes of the University as may in its opinion be necessary or expedient for the administration of the affairs of the University.

(2) Subject to the provisions of this Act and any other Act and to the statutes (if any) of the University, the Council may from time to time make such regulations of the University as may in its opinion be necessary or expedient for the administration of the affairs of the University.

(3) Without limiting the generality of the foregoing provisions of this section it is hereby declared that statutes and regulations so made may prescribe any matters which by this Act are required or permitted to be prescribed or with respect to which statutes or regulations are, in the opinion of the Council, necessary or expedient for giving effect to this Act.

(4) Subject to the provisions of section 36 of this Act and, where so required by any Act, to the consent of the University Grants Committee or the Curriculum Committee, the Council may make statutes or regulations with respect to all or any of the degrees and other academic qualifications, certificates, fellowships, scholarships, bursaries, prizes, and awards of the University which the Council may confer or award, and with respect to general courses of study and personal courses of study for the same.

(5) All such statutes and regulations shall be in writing.

(6) No statute passed by the Council of the University as aforesaid shall come into force until it has been approved by the Governor-General.

(7) All such statutes and regulations shall have effect according to their tenor, and shall be published by the Council.

(8) A copy of any such statute or regulation under the seal of the University shall be sufficient evidence in all Courts of the same and of its having been made and (where necessary) approved in accordance with this section.

1976 Calendar
23. Seal of the University — The seal of the University shall be in the custody of the Registrar or such other officer as the Council may appoint, and shall not be affixed to any document except pursuant to a resolution of the Council, or by the authority of a resolution of a committee of the Council acting in accordance with an authority for the purpose conferred upon it by the Council.

24. Admission of students — (1) Every person who is academically qualified for entrance to a University in New Zealand in accordance with the requirements of the Universities Entrance Board shall be eligible to matriculate at the University without further examination.

(2) The Council shall have power to decline to enrol any student at the University, or in a particular course or courses, or in classes in a particular subject or subjects on the ground of —

(a) The person not being of good character; or

(b) Misconduct or a breach of discipline on the part of the student; or

(c) The person not having attained the age of sixteen years on the previous thirty-first day of December, or the person not having attained any other age prescribed in respect of any course of study by any course regulations within the meaning of the Universities Act 1961; or

(d) The person being enrolled for full-time instruction in a secondary school, technical school, combined school, district high school, or registered private secondary or technical school; or

(e) Insufficient academic progress by the student after a reasonable trial at the University or at any other University or University College of Agriculture; or

(f) Insufficiency of accommodation or of teachers in the University or in a faculty or department of the University; or

(g) The person not having satisfied any conditions prescribed by any course regulations within the meaning of the Universities Act 1961.

(3) The Council shall, as soon as practicable after the commencement of this Act, make a statute or statutes governing the persons and classes of persons who may be enrolled or refused enrolment as external students of the University, and the conditions under which, and the subjects and course for which, they may be so enrolled or refused enrolment. The Council may from time to time make further statutes for all or any of the purposes specified in this subsection, and may by statute repeal or amend any statute made under this subsection. No statute made under this subsection shall come into force until it has been approved by the University Grants Committee.

(4) For the purposes of paragraph (1) of subsection (2) of this section the Council may, if it thinks fit, from time to time make statutes defining the circumstances in which insufficiency of accommodation or of teachers in the University or in a faculty or department of the University shall be deemed to exist, and the maximum number of students who may be admitted to any course or class. No such statute shall come into force until it has been approved by the University Grants Committee. Every such definition that is made by statute under this subsection shall be conclusive for all purposes.

(5) Where any person has obtained in any University or other place of learning any degree or other academic qualification or part thereof substantially corresponding or equivalent, in the opinion of the Senate, to any degree or other academic qualification or part thereof which the Council is empowered to confer or award, the Council may admit that person at its discretion ad eundem statum in the University without further examination and may withdraw any such admission at any time.

(6) A person admitted to the status of the holder of a degree or other academic qualification or part thereof of the University shall not be deemed to be the holder of the degree or other academic qualification or part thereof, nor shall he be entitled to be enrolled as a graduate of the University, but he shall be entitled to proceed to any degree or other academic qualification of which the degree or other academic qualification or part thereof to the status of which he has been admitted is a prerequisite upon the same terms and conditions as those upon which a holder of the degree or other academic qualification or part thereof is entitled so to proceed.

(7) Where a person who has been a student of another University and has matriculated at any University in New Zealand is admitted to the University of Auckland, the Council of that University shall give him such credits as it considers appropriate for any units or subjects which he has already passed in New Zealand and with which he has been credited towards a degree or other
academic qualification in his former University or grant him such exemptions as it considers appropriate, so that he may complete his course without suffering undue hardship as a consequence of his transfer.

(8) Any person who is eligible to be admitted or who has been admitted to a degree of the University of New Zealand, or who has been admitted ad eundem at graduate status by the Senate of the University of New Zealand shall be deemed to be of equivalent status in the University of Auckland for the purpose of proceeding to a degree or other academic qualification of the University of Auckland, and shall, subject to the course regulations for the degree or other academic qualifications for which he is a candidate, be eligible to proceed to the degree or other academic qualification:

Provided that, in approving his personal course of study, the Senate may, at its discretion, require any such person to complete such supplementary courses as it thinks fit either as a prerequisite to or concurrently with his course of study for the degree or other academic qualification for which he is a candidate.

(9) The provisions of subsection (8) of this section shall, with the necessary modifications, apply to any person who is eligible to be awarded or who has been awarded a diploma of the University of New Zealand, or to any person who has been admitted ad eundem by the Senate of the University of New Zealand to the status of a holder of a diploma of that University.

The Chancellor and Pro-Chancellor

25. Election of Chancellor — (1) At its first meeting held in the month of July in the year nineteen hundred and sixty-two, and in every third year thereafter, the Council shall elect one of its members to be the Chancellor of the University of Auckland:

Provided that the Vice-Chancellor or any other person who is for the time being a member of the Council under paragraph (b) of subsection (2) of section 6 of this Act or a member of the Council appointed by the Senate shall not be so elected.

(2) The Chancellor shall be the ceremonial head of the University and the Chairman of the Council.

(3) Unless the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election:

Provided that, upon any person completing two consecutive terms each of three years as Chancellor, he shall cease to be eligible for re-election as Chancellor until after the lapse of a period of three years during which he did not hold that office.

(4) If the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, the Council shall elect some eligible person to be the Chancellor for the remainder of the term for which the vacating Chancellor was elected.

(5) For the purpose of the election of the Chancellor for any term, the Registrar of the University shall preside at the meeting, but shall not be entitled to vote. In the event of an equality of votes the election shall be determined by lot.

26. Election of Pro-Chancellor — (1) At its first meeting held in the month of July in each year, the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland.

(2) Unless the Pro-Chancellor sooner resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office of Pro-Chancellor until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election.

(3) If the Pro-Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act or is elected to be the Chancellor he shall thereupon vacate the office of Pro-Chancellor, and the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland for the remainder of the term.

(4) During any vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Pro-Chancellor shall have
and may exercise and perform all the powers and duties of the Chancellor, other than his powers in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

27. Right to preside at meetings of Council — The Chancellor shall preside at every meeting of the Council at which he is present. If at any meeting of the Council the Chancellor is not present or there is no Chancellor, the Pro-Chancellor shall preside at the meeting; and if the Pro-Chancellor also is not present at the meeting or there is no Pro-Chancellor, the Council shall appoint some member present to preside at that meeting. The Pro-Chancellor or person so appointed shall have and may exercise in any such case all the powers and functions of the Chancellor for the purposes of the meeting.

The Vice-Chancellor and Deputy Vice-Chancellor

28. Vice-Chancellor — (1) The Council may from time to time appoint some fit and proper person to be the Vice-Chancellor of the University of Auckland.

(2) The Vice-Chancellor shall have the following functions, powers and duties:

(a) He shall be the academic and administrative head of the University:

(b) He shall, by virtue of his office, be a member of the Council, Chairman of the Senate, a member of every faculty, and a member of every committee set up by the Council or the Senate:

(c) He shall have such duties as the Council, subject to the provisions of this Act, may from time to time specify:

(d) He may, during the intervals between meetings of the Senate, exercise alone (but subject always to the control of the Council and to a right of appeal to the Senate) such of the powers of the Senate as to maintain the discipline of the University as may be prescribed in that behalf by statutes or regulations made under the authority of this Act:

(e) On the occurrence from any cause of a vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Vice-Chancellor shall exercise the powers of the Chancellor in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

(3) The Vice-Chancellor may appoint any member of the Senate to attend in his place the meeting of any board, committee, or other body which is not constituted by or under this Act (whether created by or under any other Act or otherwise) of which the Vice-Chancellor is a member. Any person so appointed shall while so attending be deemed for all purposes to be a member of the board, committee, or other body and may exercise all the rights and powers which the Vice-Chancellor could have exercised had he been personally present. The fact that any member of the Senate so attends shall be sufficient evidence of his authority so to do.

29. Deputy Vice-Chancellor — (1) The Council may from time to time appoint a professor as the Deputy Vice-Chancellor of the University of Auckland.

(2) The Deputy Vice-Chancellor shall hold office for such period as may be determined by the Council.

(3) The Deputy Vice-Chancellor may exercise such of the Vice-Chancellor's functions, powers, and duties, whether arising under any Act or otherwise, as the Council, upon the recommendation of the Vice-Chancellor or (in the absence of such a recommendation) of its own motion, may from time to time either specially or generally delegate to the Deputy Vice-Chancellor.

(4) In addition to the powers conferred upon him by subsection (3) of this section, the Deputy Vice-Chancellor shall, during any vacancy in the office of Vice-Chancellor, or in the absence of the Vice-Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, be Chairman of the Senate and may exercise such other of the Vice-Chancellor's functions, powers and duties, whether arising under any Act or otherwise, as the Council may determine.

The Senate

30. Constitution of Senate — (1) There shall be a Senate of the University of Auckland.

(2) The Senate shall consist of:

(a) The Vice-Chancellor:

(b) The professors of the University:

(c) The librarian of the University:

(d) Two lecturers to be elected by the full-time lecturers of the University:
(e) Such other members of the University as the Council, with the advice of the Senate, may from time to time appoint.

(3) The elections of members of the Senate under paragraph (d) of subsection (2) of this section shall be conducted and determined in the manner prescribed by statutes or regulations of the University, which statutes or regulations may define the time of holding any such election, the persons and classes of persons eligible to vote at those elections, and the term for which persons so elected shall hold office.

(4) The Senate of the University of Auckland is hereby declared to be the same body as the Professorial Board of the University of Auckland constituted by section 23 of the University of Auckland Act 1954; and every reference in any enactment or document to the Professorial Board of the University of Auckland shall hereafter be read as a reference to the Senate of the University of Auckland.

31. Chairman of Senate — (1) Whenever there is no Vice-Chancellor or Deputy Vice-Chancellor in office, the Senate shall, at its first meeting held thereafter and at its first meeting in each year, elect one of its members, being a professor, to be the Chairman of the Senate; and if it fails to do so the Council may appoint a professor to be the Chairman of the Senate.

(2) The person so appointed shall hold office until the appointment of a Vice-Chancellor or Deputy Vice-Chancellor or until the election or appointment of his successor under this section, whichever happens first, and shall be eligible for re-election or reappointment, but shall not hold office for more than two terms in succession.

32. Meetings of Senate — (1) The person who is entitled in accordance with the provisions of sections 28, 29, and 31 of this Act to be Chairman of the Senate at any meeting thereof at which he is present shall preside at that meeting. In the absence of any such person from any such meeting, the members present shall elect one of their number to be Chairman for the purposes of that meeting and the person so elected shall preside at that meeting.

(2) At any meeting of the Senate the person presiding shall have a deliberative vote, and in the case of an equality of votes shall also have a casting vote.

(3) Every question before the Senate shall be decided by a majority of the valid votes recorded thereon.

(4) At every meeting of the Senate a quorum shall consist of such number of members as the Senate from time to time determines, and no business shall be transacted unless a quorum is present.

(5) Save as expressly provided in this Act, the Senate shall have power to make rules as to the time and place of its meetings and the procedure thereat;
Provided that it shall meet at least once in each year.

33. Proceedings of Senate not affected by vacancies, etc. — No act or proceeding of the Senate, or of any committee thereof, or of any person acting as a member of the Senate, shall be invalidated in consequence of there being a vacancy in the number of the Senate at the time of that act or proceeding, or of the subsequent discovery that there was some defect in the appointment of any person so acting, or that he was incapable of being or had ceased to be such a member.

34. Functions of Senate — (1) The Senate shall have power of its own motion, or at the request of the Council, to make recommendations or reports to the Council on any matter affecting the University.

(2) The Senate shall be specially charged with:
(a) The duty of furthering and co-ordinating the work of faculties and departments and of encouraging scholarship and research; and

(b) The control of the Library.

(3) The Senate shall have power to deal with all matters relating to the maintenance of discipline amongst the students of the University, and shall have such powers of fining, suspending, and expelling students guilty of misconduct or breaches of discipline, and such other powers of whatsoever kind as may be conferred on it by statutes or regulations made under the authority of this Act:
Provided that any person aggrieved by any action of the Senate may appeal to the Council, whose decision shall be final.
(4) The Senate shall have power to approve personal courses of study proposed by individual students:

Provided that the Senate shall not approve personal courses of study for a degree or other academic qualification in such a way as to introduce general restrictions not provided for in the course regulations governing the course of study for that degree or other academic qualification.

35. Senate may appoint committees — (1) The Senate may from time to time appoint standing or special committees.

(2) The Senate may delegate any of its powers and duties (including any powers and duties which it has by delegation from the Council or any other body or person) to any such committee or to any person; and the committee or person may, without confirmation by the Senate, exercise or perform those powers or duties in like manner and with the same effect as the Senate could itself have exercised or performed them:

Provided that the Council may prohibit, or impose conditions in respect of, the delegation by the Senate of any power or duty that is delegated to the Senate by the Council.

(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power by the Senate.

(4) Unless and until any such delegation is revoked, it shall continue in force according to its tenor.

(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Senate.

36. Council to consult Senate on academic matters — (1) The Council shall not make any statute or regulation or decision in relation to entrance to the University or to any course of study or to the prescription of any subject for any degree or other academic qualification or certificate, or to any fellowship, scholarship, bursary, prize, or award or the examination or qualification therefor, or to the admission, attendance, and discipline of students, or to examinations and other academic tests, or to the institution of the offices of professor or lecturer, or to the appointment or removal of academic staff, including the Vice-Chancellor and Deputy Vice-Chancellor, or to the appointment of examiners, assessors, or moderators, or to honorary degrees and other academic distinctions, or to the affiliation of any institution or branch or department thereof, until it has first received and considered any recommendation that the Senate may make in that behalf, unless the Senate, having had a reasonable opportunity to make such a recommendation, has failed to do so:

Provided that a decision to confer an honorary degree or academic distinction shall be made in the manner provided in subsection (3) of Section 9 of this Act, and nothing in this section shall apply to such a decision:

Provided also that in the case of appointments to the academic staff, or removal of academic staff, the Council shall need only to secure a recommendation from a committee of the Senate appointed under Section 35 of this Act.

(2) Nothing in the foregoing provisions of this section shall limit any power conferred on the Senate by Section 35 of this Act to delegate any of its powers and duties.

Affiliated Institutions

37. Admission of affiliated institutions — (1) The Council may, on such terms and conditions and subject to such inspections, reports, and inquiries as it thinks fit, affiliate other institutions or branches or departments thereof situated within the Auckland University District, or recognise selected members of the staffs thereof as teachers of the University, or admit the members thereof to any of the privileges of the University and accept attendance at courses of study in such institutions or branches or departments thereof in place of such part of the attendance at courses of study in the University and upon such terms and conditions and subject to such regulations as may from time to time be determined by the Council.

(2) The Council may at any time revoke any such affiliation, recognition, admission, or acceptance.

Financial Provisions

38. Benefactions to be strictly applied — Subject to the provisions of the Charitable Trust Act 1957, all benefactions at any time vested in or enjoyed by the University with a declaration of trust, or as an endowment for the promotion of any particular branch of science or learning, shall be applied strictly by the Council accordingly.

1976 Calendar
39. **Application of income and capital of University** — (1) Subject to the provisions of this Act and any other Act and to the terms of any trust or endowment, the income and capital of the University shall be applied in doing whatever the Council thinks expedient in order that the University may best accomplish the purposes for which it is established.

(2) Without limiting the generality of the foregoing provisions of this section it is hereby declared that the Council may from time to time, out of income which may be applied in accordance with those provisions, create, maintain, and add to a fund or funds for any one or more of the purposes for which that income may be applied.

40. **Money to be paid into bank** — (1) All money received by the University amounting to twenty dollars and upwards shall, as soon as practicable after it has come into the hands of the proper officer of the University, be paid into such bank account or accounts of the University as the Council from time to time determines.

(2) No such money shall be withdrawn from the bank except by authority of the Council and by cheque or other instrument signed by an officer of the University approved by the Council and countersigned by a member of the Council, or by another officer of the University, approved by the Council:

Provided that it shall be lawful, with the prior consent in writing of the Audit Office and subject to such conditions as the Audit Office prescribes, for any money to be paid by the Council by cheque issued by means of a cheque-writing machine, and every such cheque issued by means of such a machine and bearing a facsimile of the signature of the persons authorised pursuant to the provisions of this section to sign and countersign cheques shall be deemed to have been duly signed and countersigned in accordance with the provisions of this section.

41. **Loan money to be paid into a separate account** — All money borrowed by the Council on behalf of or for the purpose of the University, other than money borrowed under Section 51 of this Act, shall be paid into a separate bank account in the name of the loan, and shall not be drawn out of the bank or expended except for the special purposes for which it was borrowed.

42. **Investment of money** — Subject to the terms of any trust or endowment, any money belonging to or invested in the University and available for investment may be invested in accordance with the provisions of the Trustee Act 1956 as to the investment of trust funds, or in such other manner as the Minister of Finance from time to time approves.

43. **Provision for Common Fund investment** — (1) The Council may at any time, if it thinks fit, establish the following funds and account:

(a) A Common Fund to be known as the University of Auckland Common Fund:

(b) A Reserve Fund to be known as the University of Auckland Common Fund Reserve Fund:

(c) A Common Fund Income Account to be known as the University of Auckland Common Fund Income Account.

(2) Subject to the provisions of this section, if Council has established the said funds and account, it may invest any trust funds in its possession, whether at the time in a state of investment or not, whether they came into its possession before or after the commencement of this Act, and whether they comprise the whole or part of the trust estate to which they belong, either —

(a) On a separate account in respect of the trust estate to which the funds belong; or

(b) If the funds are not directed to be invested in some other specified manner, and investment in the said Common Fund is not inconsistent with the terms of the trust instrument (if any) governing the funds, as part of the said Common Fund.

(3) All funds forming part of the said Common Fund shall be invested in the manner required by Section 42 of this Act.

(4) Where any funds of a trust estate are in the possession of the Council and are lawfully invested in any investment in which the said Common Fund may be invested as aforesaid, then, if in accordance with paragraph (b) of subsection (2) of this section the funds could be invested as part of the said Common Fund, the Council may transfer that investment to the said Common Fund and give credit in that Fund to the trust estate for such amount as it considers proper, having regard to its duty to be fair to all those interested in the said Common Fund and to those beneficially interested in the capital and income of the trust estate to which the investment belongs. Upon any investment being so transferred it shall cease to form part of the trust estate to which it formally belonged.

1976 Calendar
(5) Investments made from funds forming part of the said Common Fund shall not be made on account of or belong to any particular trust estate, but the Council shall cause to be kept an account showing at all times the entitlement of each trust estate in the said Common Fund.

(6) All income derived from the said Common Fund and from the investments any money included therein shall be paid into the said Common Fund Income Account.

(7) In each year interest on the amount of the entitlement of each trust estate in the said Common Fund shall be transferred from the said Common Fund Income Account and credited to that trust estate at such uniform rate as may from time to time be determined by the Council:

Provided that in no case shall the rate so determined be lower than one half per cent below the rate which would be so paid if all the income paid into the said Common Fund Income Account in that year was so transferred.

(8) The Council shall also each year pay into the said Reserve Fund —

(a) All income in the said Common Fund Income Account which is not transferred to any trust estate in that year in accordance with subsection (7) of this section:

(b) All capital gains arising in connection with the said Common Fund.

(9) The funds forming part of the said Reserve Fund shall be kept separate from all other trust funds, and shall be invested in the manner authorised by Section 42 of this Act.

(10) All income paid into the said Reserve Fund as aforesaid, and all income derived from the said Reserve Fund and from the investments and money included therein shall be applied as the Council thinks fit in any one or more of the following ways:

(a) Towards augmenting the capital of the said Reserve Fund:

(b) Towards stabilising or increasing the income of the said Common Fund:

(c) Towards reinstating any losses of capital in the said Common Fund.

(11) The capital of the said Reserve Fund may, if the Council thinks fit, be applied in reinstating any losses of capital in the said Common Fund.

(12) The Council may at its discretion at any time withdraw from the said Common Fund any amount for the time being to the credit of any trust estate in the said Common Fund; and where any amount is being so withdrawn—

(a) If the capital of the said Reserve Fund has increased while the said amount was in the said Common Fund, the Council shall pay out of the said Reserve Fund and add to the amount so withdrawn, as capital, such amount (if any) as it considers equitable having regard to the length of the period during which the amount was in the said Common Fund and to the proportion which the said amount bears to the average amount of the total assets of the said Common Fund during that period:

(b) If losses of capital in the said Common Fund have occurred during the said period, then, so far as those losses have not been reinstated and cannot be reinstated from the amounts in the said Reserve Fund at the time of the withdrawal, that amount shall bear its proportion of those losses, as determined by the Council, and the amount being so withdrawn shall abate accordingly.

44. Travelling allowances and expenses of members of Council — (1) the Council may pay to each of its members travelling allowances and expenses; and, in respect of travel in New Zealand, those allowances and expenses shall not exceed those payable in accordance with the Fees and Travelling Allowances Act 1951, and the provisions of that Act shall apply accordingly.

(2) In respect of travel in New Zealand the Council is hereby declared to be a statutory Board within the meaning of the Fees and Travelling Allowances Act 1951.

45. Council may insure members against personal accident while engaged in duties — The Council may from time to time enter into contracts of insurance of a type for the time being approved by the Minister of Education insuring members of the Council against loss from personal accident arising out of and in the course of the exercise of their powers or duties as members of the Council, and may pay the premiums payable in respect of those contracts.

46. Unauthorised expenditure of Council — The Council may in any financial year of the University expend out of the general fund of the University for purposes not authorised by any law for the time being in force any sum or sums not exceeding in the aggregate a one-thousandth part of the revenue of the University from all sources for the immediately preceding financial year.

1976 Calendar
47. Council to prescribe fees — There shall be payable by the students of the University or any of them such fees as the Council from time to time prescribes:

Provided that scales of tuition and of examination fees may be so prescribed only with the concurrence of the University Grants Committee.

48. Fees payable to associations of students — The Council shall have power to impose and collect from time to time from students of the University or from any of them such fees as it considers reasonable for the benefit of any association or organisation of students of the University, and to dispose of those fees accordingly.

49. Grants by Council to associations of staff or students — The Council may from time to time make grants or loans from its funds on such terms and conditions as it thinks fit to any association or organisation of staff or students of the University.

50. Powers of Council in respect of property — (1) Without limiting or in any way affecting any other powers conferred upon the Council by the Auckland University College Reserves Act 1885 or this Act or any other Act or by law, it is hereby declared that, subject to the provisions of this section, the Council may do all or any of the following things on behalf of and for the purposes of the University, namely:

(a) Establish, build, maintain, repair, add to, alter, rebuild, reinstate, conduct, manage, and control halls of residence for students and academic staff, and houses for academic staff and any other of its employees whatsoever, and buildings and rooms and other facilities for the recreation or social use of students, academic staff and other employees:

(b) Purchase, take on lease, or otherwise acquire any real or personal property for any purposes whatsoever in connection with the University or any institution controlled by the Council:

(c) With the consent of the Minister of Education in the case of land and in other cases without his consent, sell or otherwise alienate any right, title, estate, or interest in any real or personal property vested in the University:

(d) With the consent of the Minister of Education, borrow money from the Crown or, on such terms and conditions as may be fixed by the Minister of Finance, from any corporation or person; and (for the purpose of securing any money so borrowed) mortgage, charge, or pledge any right, title, estate, or interest in any land vested in the University:

(e) Grant leases of any land vested in the University; and for that purpose the Council is hereby declared to be a leasing authority within the meaning of the Public Bodies' Leases Act 1908:

(f) On such conditions as may be prescribed by the Minister of Finance, guarantee loans made to members of the staff for housing purposes by other persons and bodies.

(2) Notwithstanding anything to the contrary in the Public Bodies' Leases Act 1908 or in any lease granted by the Council, the Council may —

(a) In its absolute discretion, at any time not earlier than three years nor later than one year before the date of the expiration of any lease of any land vested in the University that does not confer a right of renewal, grant a renewal of the lease upon such terms as it thinks fit; and the provisions of this paragraph shall apply to any such lease whether granted before or after the commencement of this Act:

(b) With the consent of the Minister of Education, grant leases of land vested in the University upon such terms as that Minister may approve:

(c) Grant leases and licenses for the extraction and removal of coal and other minerals from land vested in the University at such rent or royalties and upon such terms and conditions as the Council may determine.

(3) The Minister of Education is hereby empowered to make advances upon such terms as the Minister of Finance may approve to the Council for the purposes of the University out of money appropriated by Parliament for the purpose.

51. Power to borrow by way of overdraft or temporary loan — In addition to the powers conferred by section 50 of this Act, it shall be lawful for the Council, in anticipation of its revenue, from time to time to borrow money by way of overdraft or on temporary loan on behalf of and for the purposes of the University:

Provided that the amount so borrowed shall not at any time exceed one-twelfth of the revenue of the University from all sources during the immediately preceding financial year of the University:
Provided also that at the end of any financial year of the University the amount of the overdraft or loan shall not exceed the outstanding revenue due to the University in respect of that financial year.

52. Annual report and statement of accounts — (1) The Council shall, during the month of April, in every year, furnish to the Minister of Education and to the University Grants Committee a report on the University during the immediately preceding year.

(2) The Council shall also, as soon as practicable after the end of every financial year of the University, furnish to the Minister of Education and to the University Grants Committee a statement of the assets and liabilities of the University as at the end of that financial year, together with an account of income and expenditure showing the financial transactions for that year, which statement and account shall be audited by the Audit Office.

Repeals and Savings

53. Repeals and savings — (1) The enactments specified in the Third Schedule to this Act are hereby repealed.

(2) All bylaws which originated under any of the enactments hereby repealed or under the corresponding provisions of any former enactment and are subsisting or in force on the commencement of this Act shall ensure for the purposes of this Act as fully and effectually as if they had originated as regulations under the corresponding provisions of this Act, and accordingly shall, where necessary, be deemed to be regulations and to have so originated; and every reference to any such bylaw in any Act, regulation, order, or other enactment, or in any instrument or document whatsoever shall, after the commencement of this Act, unless inconsistent with the context, be read as a reference to a regulation made under the corresponding provisions of this Act.

1976 Calendar
COURT OF CONVOCATION STATUTE 1962

Pursuant to Section 4 of the University of Auckland Act 1961

1. This Statute may be cited as the Court of Convocation Statute 1962.

2. The Registrar of the University shall prepare and maintain a register to be known as the Register of the Court of Convocation for the Auckland University District and shall (subject to Section 5 hereof) enrol thereon the names and addresses (so far as such addresses are known) of all persons entitled to be so enrolled under Section 4 of the said Act and under Section 3 of this Statute.

3. Under and for the purposes of subsection 5 of Section 4 of the said Act each person shall be entitled to have his name enrolled on the Register of the Court of Convocation (without fee) who being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted ad eundem gradum before the 1st day of January, 1943, is not by reason of that qualification enrolled on the register of the Court of Convocation for any other University District in New Zealand and

(i) under Section 23A of the New Zealand University Act 1908 was enrolled or entitled to be enrolled on the register of the District Court of Convocation of the Auckland University District at the 31st day of December, 1961.

or (ii) was an undergraduate member of the University of Auckland at the 31st day of December, 1961 and became a graduate of the University of New Zealand after that date

or (iii) at a date after the 31st day of December, 1961 and immediately before his enrolment had resided in the Auckland University District for a period of not less than three calendar months.

4. Except as provided in Section 5 hereof it shall not be necessary for any person to be so enrolled on the register to apply for enrolment.

5. Every person who is entitled to be enrolled on the register under paragraph (iii) of Section 3 of this Statute may apply to the Registrar for enrolment and upon making that application and producing such evidence of the facts and matters entitling him to enrolment as the Registrar may reasonably require shall be enrolled on the register.

6. Any enrolled member of the Court may, by notice under his hand delivered to the Registrar, object to the register on the ground that any person whose name is on the register does not possess the necessary qualifications.

7. The Registrar shall enquire into and dispose of any such objection forthwith after receiving it.

8. Any person aggrieved by any decision or act of the Registrar relating to the register may appeal therefrom to the Council by notice under his hand, addressed to the Chancellor, and delivered at the University not later than 5 o'clock on the afternoon of the seventh day before the day on which the register is to be closed for the purposes of an impending election.

9. Every such appeal shall be heard and determined by the Council or a Committee appointed by the Council and the Registrar shall amend the register in such manner as the Council or the Committee when disposing of the appeal directs.

10. (a) Any member of the Court having changed his address shown on the register may request the Registrar to amend the register in respect of that address and the Registrar shall make such amendment accordingly.

(b) The Registrar being satisfied (otherwise than under the preceding paragraph (a) of this section) that the address of a member of the Court has been changed may amend the register in respect of that address provided that he shall forthwith post notices of that amendment to the member at both the old and the new address.

11. The Registrar shall expunge from the register the name of any person who has died or has ceased to be entitled to be enrolled thereon, and he shall be entitled to make any amendment of name made necessary by marriage.
THE COUNCIL ELECTIONS (COURT OF CONVOCATION REPRESENTATIVES)

Regulations

1. These regulations may be cited as the Council Elections (Court of Convocation Representatives) Regulations.

2. For the purposes of conducting the elections to the Council by the Court of Convocation an electoral roll shall be prepared and revised from time to time of the names of those members of the Court who are eligible to vote in accordance with these regulations.

3. The members of the Court who are eligible to vote at an election by the Court are those members (but no other members) who
   (a) voted at the last two preceding elections
   (b) (having had their names entered on the Court register since the penultimate election) voted at the last preceding election
   (c) have had their names entered on the Court register since the last preceding election
   (d) (not being in any of the foregoing categories) apply for a voting paper by letter delivered or posted to the Returning Officer so as to be received by him on or before 5 o'clock in the afternoon of the 14th day preceding the day on which the election is to be held.

4. In these Regulations and the forms contained herein:
   'the roll' means the electoral roll prepared in accordance with this regulation
   'elector' and 'voter' respectively refer to those members of the Court whose names are for the time being entered on the electoral roll.

5. The date of Election shall be determined by the Returning Officer and reported to the Council.

6. Whenever any election is to be held the Returning Officer shall (not less than forty days before the election) by notice in at least two newspapers, published in the City of Auckland, call for nominations of candidates to be lodged with him on or before a day, to be fixed by him, being not less than ten days from the date of the first advertisement, which notice shall be in the following form (or in a form to the like effect).

THE UNIVERSITY OF AUCKLAND

Election of ......................... Member(s) of the Council by the Court of Convocation for the Auckland University District.

An election of ......................... member(s) will be held at 5 p.m. on the ......................... day of ........................., 19 ............, at the office of the Registrar of the University, Princes Street, in the City of Auckland.

No person shall be recognized as a candidate at this election unless he shall have been previously nominated in a document signed by two electors, and unless such nomination paper shall have been delivered to the Returning Officer by postal delivery or otherwise not later than 5 p.m. on the ......................... day of ........................., 19 ............

The roll of electors will remain open for inspection and additions until 5 p.m. on the fourteenth day before the election and will then be closed. Immediately thereafter the Returning Officer will issue the voting papers to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge).

........................................
Returning Officer

7. The roll shall be closed at five o'clock in the afternoon of the fourteenth day immediately preceding the day on which an election is to be held and shall continue to be closed until the election is completed; and no name shall be entered on the roll while it is closed. Immediately thereafter the Returning Officer shall issue the voting papers simultaneously to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge); nor shall any voting paper be sent to any person whose address is not within New Zealand, Fiji, Samoa or Australia.
8. Notwithstanding anything above set out, the Returning Officer shall issue a voting paper to any elector whose name appears on the roll and who shall apply in writing to the Returning Officer for a voting paper on the ground that his voting paper is lost or destroyed or defaced or that no voting paper has been issued to him.

9. At every election the votes shall be given by sealed voting papers issued by the Returning Officer in the form prescribed by these regulations, delivered to the Returning Officer on or before the day and time fixed for holding the election, or posted to him in a sealed envelope on or before that day.

10. In any election to fill a casual vacancy the notice of advertisement calling for nominations shall state that the vacancy is a casual one.

11. If an election for filling a casual vacancy be appointed to be held at the same time as an election for the filling of a vacancy occurring by rotation, hereinafter called an ordinary vacancy, separate voting papers shall be issued for each election and each nomination and each voting paper shall specify to which election it relates, and at the time of election the Returning Officer shall first complete the election for filling the casual vacancy or vacancies; and when such election shall be complete, he shall at once proceed to complete the election for filling the ordinary vacancy.

12. When two or more elections are to take place as contemplated in the last preceding Regulation, then in every advertisement relating to such an election, notice shall be given that no nomination paper will be valid, unless it distinctly indicates to which of the vacancies it shall relate.

13. Nominations shall be made by two persons qualified to vote and shall contain the written consent of the candidate to his nomination.

14. Nominations shall be in the following form (or in a form to the like effect):

THE UNIVERSITY OF AUCKLAND

Election to be held on ..................... the ..................... day of ..................... 19........... of Members of the Council by the Court of Convocation for the Auckland University District.

We, ..................... and ..................... being duly qualified voters, hereby nominate

..............................................................

of ..............................................................

for election to the Council by the Court of Convocation for the Auckland University District.

Date ..............................................................

I consent to the above nomination.

..............................................................

15. If the nominations received do not exceed the number of vacancies, the Returning Officer shall declare the candidate(s) duly elected.

16. Every voting paper shall be in the form following or to the like effect, that is to say:
A. Front of voting paper:

VOTING PAPER
COUNCIL OF THE UNIVERSITY OF AUCKLAND
ELECTION OF MEMBERS
By the Court of Convocation
for the Auckland University District.

Directions

The voter is to put a cross (X) in the square opposite to the name or names of the candidates for whom he desires to vote.

THE VOTER MUST SIGN HIS NAME AND ADDRESS ON THE BACK OF THIS CARD.

The voting paper shall here be perforated horizontally.

B. Back of voting paper (below perforation):

I declare that I am not, by reason of my being a graduate of the University of New Zealand (either by examination at any time or by admission ed eundem graduam before 1st January, 1943), enrolled on the register of the Court of Convocation of any University District in New Zealand other than the Auckland University District.

I request the Registrar to record my address on the roll as appears below.

SIGNATURE OF VOTER: .................................................................

ADDRESS: ..............................................................................

.................................................................

17. Every voting paper shall be forwarded to the voter accompanied by an envelope, addressed to the Returning Officer.

18. The poll shall close at 5 o'clock on the afternoon of the day of the election; but all voting papers shall be included and counted which are received by the Returning Officer in due course by post before the close of the sixth day after the day of the election, provided the Returning Officer is satisfied that the paper was posted in accordance with the provisions of Section 9. On the 7th day after the day of the election the Returning Officer shall open and count the votes. As soon as the voting papers have been checked with the Roll the name and address shall be removed from each voting paper before the votes are counted.

1976 Calendar
19. Each candidate shall be entitled to nominate a scrutineer, who shall have the same rights and duties as those vested at the date of the poll in a scrutineer at any polls of the Auckland City Council.

20. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.

21. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.

22. The Returning Officer is authorized to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.

The Council at its meeting held on 17 September, 1945, resolved:

That in respect of elections of members of the Council by the Court of Convocation, so that the electors may be notified of the qualifications of candidates, Council adopts the following procedure:

(1) That every candidate for election be invited to send in with his nomination paper the following information:
   (a) Name.
   (b) Occupation.
   (c) Residence.
   (d) Degrees (with dates).
   (e) Academic posts held.
   (f) Other relevant qualifications.

(2) That the Council arrange that copies of statements submitted be sent out with the voting papers.

THE COUNCIL ELECTIONS (REPRESENTATIVE OF GOVERNING BODIES OF SECONDARY SCHOOLS)

16. All such envelopes received by the Returning Officer shall remain unopened until the close of the poll and no voting paper shall count unless it is received by the Returning Officer not later than the day and hour fixed for the election.

17. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.

18. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.

19. The Returning Officer is authorized to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.

THE SENATE ELECTIONS (LECTURERS' REPRESENTATIVES)

Regulations

1. These regulations may be cited as the Senate Elections (Lecturers' Representatives) Regulations 1962.

2. In these regulations unless the context otherwise requires the word “lecturers” means members of the staff of the University who are lecturers within the meaning of Section 2 of The University of Auckland Act 1961 (whether by specific mention in that section or by determination under it by the Council) and the word “member” means a member of the Senate elected by the full-time lecturers under Section 30 of the said Act and these Regulations.

3. All lecturers other than those holding part-time or temporary positions shall be eligible to vote at such elections provided that a junior lecturer appointed for a term of not less than four years shall not be deemed to hold a temporary position.

4. Each member (other than a member elected to fill a casual vacancy) shall hold office on the Senate for a term of two years beginning on the 1st day of January immediately following his election provided that the term of the first two members shall be calculated as if they had come into office on the 1st day of January, 1961.

4.A. Notwithstanding anything contained in the principal regulations:

(a) The first vacancy to occur after the date when these regulations came into force in the offices of the members holding office at that date (other than a vacancy occurring at the expiry of the term for which a member has been elected) shall not be deemed to be a casual vacancy.

(b) The election to fill the vacancy so occurring shall take place within two months of the date on which the vacancy occurs.

(c) The member elected to fill that vacancy shall hold office on the Senate from the date when he is elected or the 1st day of January 1967 ( whichever date is the later) until the 31st day of December 1968.

(d) The term of the office of a member in which the vacancy referred to in paragraph (a) of this regulation does not occur shall run until the 31st day of December 1967.

1976 Calendar
520 History and Legislation, Senate Elections (Lecturers' Reps) Regulations

5. If any member —
   (a) dies; or
   (b) resigns his office by writing under his hand delivered to the Registrar; or
   (c) ceases to be a lecturer he shall thereupon cease to be a member, and the vacancy thereby created shall be deemed to be a casual vacancy.

6. (a) Elections other than elections to fill casual vacancies shall take place not later than the third Monday in the month of October next preceding the expiry of every term of office provided that the first elections under these regulations shall take place within two calendar months of the making of these regulations.
   (b) An election to fill a casual vacancy shall take place within two calendar months of the arising of the casual vacancy.

7. The Registrar shall be the Returning Officer for the purpose of conducting elections under these regulations.

8. The date of an election shall be determined by the Returning Officer and reported to the Senate.

9. Whenever an election is to be held the Returning Officer shall not less than thirty-five days before the election by notice addressed to each elector call for nominations of candidates to be lodged with him on or before the date fixed in that notice but being not less than twenty-one days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):

THE UNIVERSITY OF AUCKLAND
