THE UNIVERSITY OF AUCKLAND
CENTENARY MESSAGE

The University of Auckland celebrates its centenary in 1983. Functions of a varied nature will be held throughout the year. In the main focus period of 6–9 May there will be a special programme of events, including symposia and lectures, an assembly for the centenary oration and for the reception of greetings from universities around the world, a convocation for the award of honorary degrees, a service of thanksgiving and commemoration, and a concert featuring the New Zealand Symphony Orchestra and University choral groups. In addition there will be a full programme of receptions and social events in which staff and students will welcome back graduates to the campus and return hospitality to the community.

The centenary of the University of Auckland is the most notable educational event in the history of Auckland and must be marked by some permanent gift worthy of the occasion. The University of Auckland Foundation has therefore been established to commemorate the centenary. The Foundation is intended primarily to encourage a flow of highly-qualified visitors from overseas to share their knowledge and their expertise with the university community, staff and students alike, and with the wider community of city, region and nation.

I would hope that many of you using this Calendar will contribute to this appeal and I look forward to seeing you at some of our centenary functions.

I wish you well in your academic activities during the 1983 academic year, and hope the year will be as exciting and rewarding for you as for the University as a whole.

C. J. Maiden
Vice-Chancellor
THE UNIVERSITY OF AUCKLAND FOUNDATION

In commemoration of the Centenary of the University, the University of Auckland Foundation is established for the advancement of education in New Zealand in ways which extend the University's ability to meet the higher educational needs of the Community.

The Trustees will apply the income of the Foundation from time to time in fulfilling within the University District and elsewhere in New Zealand the purpose for which the Foundation is established:

1. To encourage the transfer and exchange of knowledge among scholars and the dissemination of knowledge among the community.

2. To encourage overseas scholars to visit New Zealand and New Zealand scholars to visit overseas to carry out study and research and to exchange and impart their knowledge and experience.

3. To arrange the movement within New Zealand of resident and visiting scholars.

4. To facilitate those visits and movements of scholars to, from and within New Zealand, assisting to arrange the temporary exchange or occupation of academic posts in New Zealand and (where New Zealand scholars are concerned) overseas.

5. To arrange the giving of lectures and the promotion of educational discussion and debate in New Zealand before invited or public audiences by scholars from both within and without New Zealand and to arrange itineraries and accommodation for the participants;

and in encouraging, arranging and facilitating those activities the Trustees may make such grants, pay such fees, cost of travel and accommodation and make such other expenditure as they consider necessary or desirable.

Note: "New Zealand Scholar" means a scholar resident in New Zealand who is pursuing his career here. "Scholar" includes a person engaged in any discipline, in the study or practice of administration and of technology and in the management or custody of libraries.

Donations to the Foundation should be sent to:

HISTORY OF THE UNIVERSITY OF AUCKLAND

As early as 1862 an unknown writer, ‘J.G.’, proposed in Chapman’s New Zealand Monthly Magazine that a university should be established in Auckland. No one took up the suggestions. In the South Island, where the inhabitants were wealthier and keener on education, a university was established in Otago in 1869 and a college in Canterbury in 1873. In 1870 Parliament passed legislation to create the University of New Zealand as an examining body with affiliated teaching colleges. An Auckland politician, later Speaker of the House of Representatives, Maurice O’Rorke, tried to induce Parliament to place the University in Auckland, but he failed. The University of New Zealand had no fixed abode; its Senate met in the main towns in turn.

The citizens of Auckland did nothing to establish a college, but some so-called ‘university’ instruction was provided at the Auckland Grammar School. One student, Kate Edger, in 1877 became the first woman to graduate B.A. at a British university.

In 1878 O’Rorke was appointed chairman of a Royal Commission to report on higher education. It recommended that University Colleges should be established at Auckland and Wellington. In 1882 the Auckland University College was set up by Act of Parliament. Thus the College was a creation, not of the citizens and local government, like those in the south, but of the state.

The applicants for the first four chairs, of Classics and English, Mathematics, Natural Science, Chemistry and Physics, were interviewed in England by the New Zealand Agent-General and some of the most famous scientists and scholars of the day, including the great Benjamin Jowett of Balliol College, Vice-Chancellor of Oxford University. The men appointed formed an impressive group. The chemist, F. D. Brown, had studied both in France and at Leipzig as well as London, and taught at Oxford and London. He had published a dozen papers. Algernon Phillips Thomas, the biologist, was a Balliol man who had discovered the life history of the liver fluke. The classicist, T. G. Tucker, was to become a famous scholar. When he left to go to Melbourne University in 1885 he was succeeded by Hutcheson Macaulay Posnett, an Irishman who had written several books, including one on comparative literature, what would now be called the sociology of literature, a subject which he is now credited with inventing. The first professor of Mathematics was drowned shortly after he reached Auckland and he was succeeded by W. S. Aldis, who had been the senior wrangler at Cambridge and was the author of several mathematical books.

The College was formally opened on 21 May 1883 in the Choral Hall, then the largest hall in Auckland. The Governor, Sir William Jervois, announced that the College was to be a thoroughly democratic institution, open to all, women as well as men, and to all classes. He remarked that the first College building was a barn. It was, in fact, a disused court-house.

When O’Rorke had first tried to secure a University for Auckland, in 1872, he had suggested housing it in Government House, left empty when the capital was moved to Wellington in 1865. This immediately aroused opposition in the newspapers, for many Aucklanders hoped that the capital—and the governor—would eventually return to Auckland. These conflicting ambitions lay at the basis of a recurrent feature of the history of the College, the great ‘site row’ which raged with particular violence in the years 1909-12, with the College trying to get at least part of the grounds of Government House while numerous citizens strongly opposed it. One result was that for years the College had no permanent site or permanent buildings. Instead, it acquired the disused Admiralty House and a building which had been the original Parliament House. In 1907 the Choral Hall was purchased. In 1917 the College occupied the deserted Grammar School. Not until 1926 did it acquire its first permanent building, now the Old Arts building, in Princes Street.

The College was poor: its statutory grant was for many years only £4,000 a year, while its educational reserves were of such poor land that they brought in very little. It was small: there were 95 students in 1883; 156 by 1901. Many of the students had not passed the matriculation examination. Most of them were part-time, trainee teachers and Law clerks, Music students from 1888 onwards, Commerce students by 1905. The College was dominated by the lay members of Council, especially by Sir Maurice O’Rorke, who was its chairman from 1883 to 1916. When Professor Aldis complained in 1892 that he had found the College stables occupied by O’Rorke’s son’s polo ponies he was dismissed! Despite a prolonged public controversy, Council would not reinstate him. Posnett also left, in 1891.

Some of the best professors departed. Most of the remainder grew increasingly out-of-date in their subjects. There was no system of sabbatical or study leave until the nineteen-twenties. The teachers simply handed on traditional knowledge: research was not expected and was rarely done. The staff lectured for very long hours. In some subjects research was impossible. For instance, the library took no mathematical journals, so the mathematicians knew little about recent work. Some students, however, carried out good research notably in Chemistry. In general the students were given a good, traditional undergraduate education, but standards were not rigorous and had in some subjects declined by the twenties.
In that decade and well into the thirties the College was ruled by a Registrar, Rocke O'Shea, and a new Chairman (President after 1924), another former Cabinet Minister, Sir George Fowlds. Under their not always benevolent dictatorship some improvements were made. The first New Zealand graduates with post-graduate education abroad were appointed to the staff, notably the very able economist, Horace Belshaw, the philosopher, R. P. Anschütz, and the physicist, P. W. Burbidge. An excellent researcher, W. F. Short, was appointed as a lecturer in Chemistry.

Some advances were made in providing professional education. The only such education offered at the College was in Law, which attracted large numbers of students. The only 'professional schools' recognized by the University of New Zealand were Medicine at Otago and Engineering at Canterbury. In 1906 the College established a School of Mining, which, covertly and by degrees was turned into a 'School of Engineering'. After fierce battles with Canterbury, fired by provincial rivalry, the Auckland School received University recognition for its teaching in the first two professional years. Students then had to go to Canterbury to complete their final year of education. In the course of this battle, in 1917, the College also began instruction in Architecture.

During the depression of the early nineteen-thirties there were great disputation and rancour. The temporary appointment of a lecturer in history, J. C. Beaglehole, later a world-famous scholar, was terminated after and, his friends believed, because of a letter of liberal or radical tendency, to a newspaper, defending the right of Communists to distribute their literature. This episode led to a Council election in which a liberal, Hollis Cocker, displaced a conservative. The College Council now adopted resolutions in favour of academic freedom and received the undeserved congratulations of the flower of the British academic establishment, including Lord Rutherford and Wittgenstein. At this time, in a modern terminology, the College 'came alive'. For instance, some students, led by James Bertram, established a new literary journal, Phoenix, which was the focus for the first literary movement in New Zealand history: Allen Curnow, A. R. D. Fairburn, R. A. K. Mason and other writers, later distinguished, wrote for it.

The College received great intellectual stimulus in 1934 when four new professors arrived, H. G. Forder, a very able mathematician, Arthur Sewell, a brilliant lecturer in English, a classicist, C. G. Cooper, and a new historian, James Rutherford.

The College had never had academic leadership. Cocker came to dominate it before and during World War II as much as had O'Rorke and O'Shea. But Council now appointed the first Principal (later Vice-Chancellor) K. J. Maidment. He came in 1950 and remained for two decades. He was a Classics don from Merton College, Oxford.

The nineteen-fifties was a very difficult period in the history of the College — the University of Auckland, as it was called from 1958 onwards. There was a further, fierce 'site row'. Council wanted to move to a larger site out of town. The National Government in 1956 offered Government House to the College as a compensation for staying in Princes Street. Another 'save Government House' campaign followed. Both academic staff and the public were deeply divided over the issue, which was resolved in 1960: the University was to stay where it was.

The 'site row' held up the building programme for about six years, while student rolls rose rapidly, to 4,000 by 1959, with the result that there was bad overcrowding in quite inadequate buildings — army huts, for instance, were erected. Universities everywhere were expanding rapidly. New Zealand salaries were low and many able Auckland staff were recruited by Australian or other universities. Despite these problems, there was significant progress. New subjects were introduced: Geography, Anthropology, Maori Studies, Fine Arts. There was a new emphasis on staff research. Many of the new and younger academics became very active researchers, as could be seen in the growing lists of staff publications.

A general improvement in conditions was spearheaded by a Committee, the Hughes Parry Committee, which reported on University conditions. Staff salaries were raised. For the first time the students were given fairly generous bursaries, which led to a rapid increase in the proportion of full-time students. The government grant to the University rose rapidly. There was a massive university building programme, and over the next two decades the campus was transformed as one large building after another was erected: Fine Arts, Science, Engineering buildings, a Student Union, a new library ... A number of new subjects were introduced, including Political Studies, Art History, and Sociology. In 1968 teaching commenced in the new Medical School, which was the most important 'new development'. By the end of the sixties Auckland had the largest university library in the country, whereas it had usually been the smallest. Most of the credit for this belonged to Kenneth Maidment. One other change must be mentioned. In 1962 the University at last became independent, when the University of New Zealand was abolished.
When Dr Kenneth Maidment departed in 1970, there were 9,300 students. Under his successor, Dr Colin Maiden, the roll increased to over 12,000 by 1981. Dr Maiden was an Auckland engineer who headed a research division of General Motors in Michigan. One of the first things that struck him in Auckland was the paucity of student facilities. He pushed ahead to get them a theatre, a splendid gymnasium and recreation centre, and a large playing field 'complex'. The entire administrative organisation, from faculties and committees to deputy vice-chancellors, was reformed. The academic boom of the sixties continued well into the seventies and several new buildings, like Human Sciences, were built and new subjects, like Management Studies and Computer Science, were introduced.

The seventies brought numerous social changes: an increase in the proportion of Maori and Polynesian students and in the proportion of women as well as in the proportion of older students. Only in the years 1975-81 were the first two women professors appointed, Marie Clay and Patricia Bergquist. At a time of high inflation the government grant to the University rose rapidly, to $48.5 million by 1982. Nevertheless there was a certain austerity by then, in a bleak economic climate, but after a century of growth the University seems sufficiently strongly established in the community to withstand hard conditions.

ARMS OF THE UNIVERSITY OF AUCKLAND

as granted by Garter, Clarenceux and Norroy and Ulster, Kings of Arms by Letters Patent bearing date the 15th February 1962 and recorded in the College of Arms, London.

Heraldic Description

Azure between three Mullets Argent an open Book proper edged and bound Or with seven clasps on either side Gold on a Chief wavy also Argent three Kiwis proper.

On a scroll set below the Arms appear the words 'Ingenio et Labore'.

Symbolism

The open book together with the motto 'Ingenio et Labore', freely translated as 'by natural ability and hard work', indicate in a general way the aim of the institution and combined with the three stars express the idea of learning pursued under the sky of the Southern Hemisphere. The kiwis are indicative of New Zealand as the bird is absolutely confined to its Islands and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the sea coast.

GENERAL STATUTES AND REGULATIONS

ADMISSION REGULATIONS

Prerequisites
1. To be placed on the books of the University of Auckland as a student (to matriculate), subject always to a place being available, a person must have been granted
   (a) the University Entrance qualification by the New Zealand Universities Entrance Board either by accrediting or examination, or
   (b) admission by the New Zealand Universities Entrance Board at the Standard of the University Entrance examination, or
   (c) admission by the University Council at its discretion at a standard to be determined in respect of work done in any other University or other place of learning substantially corresponding or equivalent to courses taught at the University of Auckland, or
   (d) provisional admission.

*Notes: (i) Overseas students not previously enrolled at a university who are seeking admission to New Zealand Universities at entrance level are required to apply for a place, and for recognition of overseas educational qualifications, to: The Secretary, Overseas Students Admissions Committee, P.O. Box 12348, Wellington North, N.Z.
   (ii) New Zealand students and others who are ordinarily resident in New Zealand who have obtained University Entrance qualifications for countries outside New Zealand and who seek admission to New Zealand Universities at entrance level must apply for recognition of their qualifications to: The Secretary, Universities Entrance Board, P.O. Box 12348, Wellington North, N.Z.

2. (a) Persons may be admitted to lectures or laboratories without being placed on the books of the University (i.e. as non-matriculated students) provided they comply with all other regulations governing admission.
   (b) A non-matriculated student may not take university examinations.

Matriculation
3. Except where the Senate approves otherwise, no person shall be eligible to be on the books of the University
   (a) while enrolled for full-time instruction in a secondary school, area school or technical institute
   (b) while remaining on the books of another University
   (c) unless sixteen years or over by 31 December in the year preceding the year of first enrolment at the University; but the Senate may in exceptional circumstances permit a person under that age to enrol.

Note: to paragraph (b) Approval has been given for Auckland Secondary Teachers College physical education and music students enrolled at Massey University for BEd to be enrolled in the same year in approved courses at the University of Auckland.

4. Every student shall upon first enrolling at the University make the following declaration “I promise to obey the Statutes, Regulations and requirements of the University of Auckland”.

Admission ad eundem statum
Note: For students applying to transfer to this University from another university, the Council pursuant to S24 of the University of Auckland Act 1961
   (a) may grant admission with credits and exemptions for papers towards the course for a Bachelor's degree or a diploma for work which in the option of the Senate is substantially corresponding or equivalent.
   (b) may grant admission to the status of a degree holder or diploma holder with the right to proceed to a specific higher degree or diploma with or without Honours.

Credits may be specified or unspecified and the grant of admission may include permission to advance in specified subjects.
Prerequisites may be prescribed as a condition of the approval to proceed to a higher degree or diploma.

5 (a) A student from another University wishing to transfer or be admitted to the University of Auckland shall apply on the appropriate form not later than 15 January and pay the prescribed fee.
   (b) Each such application shall be accompanied or supplemented by such evidence as the Senate may require as to:
      (i) identity
      (ii) academic standing, and
      (iii) any degree or diploma obtained by the applicant at another university.

6. A student from another University in New Zealand shall be granted admission only if in the opinion of the Senate there are compelling circumstances for transfer to this University.

Provisional Admission
7. A person who does not hold a University entrance qualification but who has attained the age of twenty-one years by 31 December in the year preceding that for which application is made may be granted provisional admission to any course of study. The Senate may waive that age requirement where the applicant is in its opinion otherwise fit to be admitted and in particular has
(a) satisfied any qualification for admission specified in the regulations for that course of study; or
(b) completed two years of study at a Teachers College and attained a sufficient standard therein; or
(c) passed School Certificate and attained the age of 16 years by 31 December in the year before enrolment, where granted a place in the course for the Diploma in Music; or
(d) obtained any other qualification approved by the Senate.

8. A student's admission shall cease to be provisional when the student
(a) having been admitted direct to a Professional year in Architecture, Engineering, or Fine Arts, or to a Town Planning Examination, has qualified to proceed to the next Professional Year or Town Planning Examination as the case may be, or
(b) having been admitted to the course of study for the degree of Bachelor of Arts has passed not fewer than 6 papers, or
(c) having been admitted to any Course of Study other than those specified in this regulation, has passed an equivalent full-time course approved for a particular Course of Study.

9. (a) While admission remains provisional, a student may enrol only for papers or subjects of the Course of Study for which admission is granted.
(b) When admission ceases to be provisional the student may enrol for any other Course of Study subject to any requirement for enrolment in that course.

10. A person seeking provisional admission to the University shall apply on the appropriate form by the prescribed date, submit evidence of age and educational qualifications, and pay the prescribed fees. The dates and fees shall be as from time to time prescribed by the Council.

Notes: (i) If candidates are under the age of 25, they will generally be advised by the Senate to sit the University Entrance examination unless their applications show professional or technical qualifications such as nurses, mariners or air pilots certificates.
(ii) Closing date for applications for Provisional Admission is 15 January (except: DipG&O - 1 March or 1 September; DipObst - 1 May or 1 November; DipPaed - 1 October).
(iii) On payment of a late fee of $20 an application for any course of study (except DipG&O, DipObst and DipPaed) may be considered if it is made not later than the Friday preceding the enrolment week.
(iv) On payment of a fine of $20 in addition to the prescribed fees and late fee subject to the permission of the Senate, an application made after the Friday preceding enrolment week may be considered.
(v) In courses such as DipBIA, DipTP, or in Fine Arts, where practical qualifications may receive merit classification, students should apply for a place on the appropriate enrolment form and if they are offered a conditional place they should then apply for provisional admission where this is required.

ENROLMENT AND COURSE REGULATIONS (GENERAL)

Dates of Terms
1. (a) There shall be in each year three terms. The first term shall begin on the first Monday after 25 February and shall end on the Saturday preceding the 19th Monday of the calendar year. The second term shall begin on the 22nd Monday of the calendar year and shall end on the Saturday of the 11th week thereafter. The third term shall begin on the 36th Monday of the calendar year and shall end on 31 October of each year. The Easter recess shall extend from Good Friday to the Tuesday of Easter week, both days inclusive. The mid-term break during the second term shall consist of the whole of the 6th week.
(b) For the purpose of the holding of such examinations as may be required at the conclusion of the University year, all lectures and laboratory courses shall cease about the end of the fifth week of the third term in each year. Under special circumstances lectures may be continued to a date not later than 28 October.
(c) Examinations in Engineering shall be held in the fifth week of the second term and after the eighth week of the third term.

Lecture and laboratory courses in Engineering shall be suspended for the fourth and fifth weeks of the second term and shall end in the seventh week of the third term.

General Course Provisions
2. (a) Subject to the admission Ad Eundem Statum Regulations and to the express provisions of any other regulations every candidate for a degree, diploma or certificate course shall be required to
(i) be a matriculated student of the University;
(ii) follow the prescribed Course of Study in the order prescribed or indicated in accordance with the regulations governing the Course;
(iii) carry out the prescribed practical work (if any);
(iv) comply with the provisions of the Examination Regulations;
(v) pass the prescribed examinations.
(b) The personal Course of Study of every student shall require the approval of the Senate provided that
(i) the Senate may delegate to the Dean of the Faculty within which the student is enrolled the power to give such approval;
(ii) the Senate may in exceptional circumstances approve a personal Course of Study which does not in every particular satisfy the regulations for the degree or diploma for which the student is enrolled;
(iii) Any person who produces evidence to the satisfaction of the Senate of inability to attend classes and who wishes to take any paper or papers the equivalent of which is not available by extramural enrolment at Massey University may, in exceptional circumstances be permitted to enrol at the University of Auckland with such dispensations and upon such conditions as the Senate thinks fit;
(iv) where approval of a personal Course of Study has been withheld by a decision of the Dean acting under delegation of that power the student may appeal to the Senate against that decision;
(v) where options are prescribed for a Course of Study the Senate may at its discretion determine which of them shall be available in any year: provided always that sufficient options shall be available to enable a candidate to complete his Course.
(c) Where in the opinion of a Head of Department an insufficient number has enrolled for a paper taught in the Department or there are insufficient staff to teach it, that Head of Department may, with the approval of the Dean of the Faculty, withdraw that paper for the current year within one week of the beginning of the first Term, if the essential prerequisites for any candidate's course of study are not thereby affected. No candidate shall be charged a fee for any change of course required because of the withdrawal of a paper.
(d) In relation to the time limit for the presentation of a dissertation, original investigation, or thesis 'academic year' shall in these and all other regulations of the University, unless the context requires otherwise, mean the period from the first day of March in one calendar year to the last day of February in the calendar year next following.
(e) Applications for approval of Senate as required by Regulations governing intended Course of Study.
A student who wishes to take in any year a Course of Study which under any regulation for the Degree of Bachelor of Arts or the Degree of Master of Arts requires the specific approval of the Senate, shall make application to the Registrar on the appropriate form not later than 31 January in the year in which he wishes to enrol, provided that with the permission of a Head of Department an application may be accepted after this date.
(f) Except (i) as provided in the Extramural Enrolment Statute 1962 and the Extramural Enrolment Regulations and (ii) otherwise with the special permission of the Senate, no student shall enrol or continue to be enrolled at the University of Auckland while enrolled at any other university or university college.

Eligibility to Enrol
3.(a) Students entitled to enrol at the University of Auckland subject to places being available, and who otherwise fulfil the eligibility requirements shall include
(i) those previously enrolled whose official record remains at this University;
(ii) those living in the area defined in the Appendix of these regulations who wish to enrol for the first time at a university in a course of study in the Faculties of Arts (including the Course for the Diploma in Education but excluding other Diploma Courses);
Commerce
Law, for the Intermediate Examination
Music, for the Degree of Bachelor of Music
Science (including the subjects of the Architecture and Engineering Intermediate examinations but excluding the Course for the Degree of Bachelor of Optometry);
(iii) those living in New Zealand south of the area defined in the Appendix of these regulations who wish to enrol for the first time at a university in a Course of Study approved for the purposes of this subclause by the Senate.

Each student who wishes and is entitled to enrol must complete a pre-enrolment form by the date prescribed and shall in his enrolment be subject to any restrictions or conditions imposed by the Senate and by the Faculty or Faculties in which he enrols.

Notes: (i) For 1983, pre-enrolment is required for some of the Courses of Study provided for in Regulation 3(a) (see pre-enrolment).
(ii) There is a limitation on the number of students that can enrol for certain Courses of Study and for certain papers (see pre-enrolment).

(b) Students who may be permitted by the Senate to enrol at the University of Auckland, subject to places being available, and who otherwise fulfil the eligibility requirements shall include
(i) those who wish to enrol for the first time in a Course of Study in the Faculty of Architecture and Town Planning, for the Professional Examinations or Town Planning Examinations, Engineering, for the examinations for the professional years,
Fine Arts,
Medicine and Human Biology,
Music for the Degree of Bachelor of Music (Performance), Bachelor of Music (Performance) with Honours, Diploma in Music or Diploma in Music with Honours.
Science for the Degree of Bachelor of Optometry or for the following Diploma Courses: Broadcast Communication, Business and Industrial Administration, Clinical Psychology, Computational Mathematics, Criminology, Drama, Educational Psychology, Energy Technology (Geothermal), Guidance and Counselling, Gynaecology and Obstetrics, Local Government and Administration, Mathematical Education, Obstetrics, Paediatrics, Psychiatry, Statistics, Town Planning, Valuation;
(ii) those who wish to enrol at a university for the first time and are not entitled to enrol under subclauses (ii) and (iii) of Regulation 3(a) of these regulations;
(iii) those who have failed to make satisfactory academic progress in their University studies or have been excluded from the University;
(iv) those transferring from another university in New Zealand who satisfy the Senate as required by the Ad Eundem Statum Regulations that there are compelling reasons for their transfer;
(v) those who wish to enrol to complete the Course requirements of another university in New Zealand;
(vi) those overseas students granted Admission Ad Eundem Statum with credits; or
(vii) those overseas students selected for admission at entrance level.
Each student not entitled to enrol but who wishes to enrol must complete a pre-enrolment form by the date prescribed, and if permission to enrol is granted shall in his enrolment be subject to any restrictions imposed by the Senate and by the Faculty or Faculties in which he enrols.

Notes: (i) For 1983 pre-enrolment is required for some of the Courses of Study provided for in Regulation 3. (b), (see pre-enrolment).
(ii) There is a limitation on the number of students that can enrol for certain Courses of Study and for certain papers (see pre-enrolment).

Enrolment
4.(a) Every internal student shall enrol at the university in person before the beginning of the first term in accordance with the detailed enrolment timetable published in this Calendar; provided that where a student is, by reason of illness or of any exceptional circumstances beyond his control, unable to enrol in due time, he may with the permission of the Senate enrol late without penalty if he
(i) applies for that permission on or before 31 January, or as soon as reasonably possible in any case where it is after that date the student becomes ill or the exceptional circumstances arise; and
(ii) produces with his application a medical certificate or reasonable evidence of the exceptional circumstances relied upon.
(b) Students whose dissertations, original investigations, or theses for a degree, or diploma, are incomplete shall be required to re-enrol at the beginning of each academic year until the dissertation, original investigation, or thesis is presented.
(c) (i) Candidates for the Diploma in Gynaecology and Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.
(ii) Candidates for the Diploma in Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.
(iii) Candidates for the Diploma in Paediatrics must complete a formal enrolment and pay the prescribed fees not later than 1 October or such date as approved by the Senate.
(iv) Candidates for the final year of the Degree of Bachelor of Medicine and Bachelor of Surgery must complete a formal enrolment and pay the prescribed fees not later than 15 November or such date as approved by the Senate for the commencement of the Trainee Internship year.
(d) Extramural students shall enrol in accordance with the provision of the Extramural Enrolment Statute and Regulations.
(e) A student who has applied for Ad Eundem Statum Admission, or Provisional Admission, or Special Admission to be eligible to matriculate, and who has not received a decision before the beginning of enrolment week, shall enrol and pay fees as if his application had been granted. If his application is refused he shall be admitted as a non-matriculated student to lectures and laboratories only; provided that his enrolment may be cancelled and his fees fully refunded if within fourteen days of the posting to him of notice of refusal he lodges at the Registry an appropriately completed ‘Alteration to Course’ form.
(f) A student who is enrolled at another university in New Zealand and who wishes to enrol at the University of Auckland shall submit to the Registrar an application to transfer on the prescribed form not later than 15 January in the year in which he wishes to enrol, provided that a late application may be accepted only with the permission of the Senate and on payment of a fee of $20.

Note: A student wishing to apply for credits towards a degree or diploma offered by the University of Auckland must also comply with the provisions of the Admission Ad Eundem Statum Regulations.
(g) No student shall be enrolled in the same year for more than two distinct Courses of Study for degrees and diplomas. A student enrolling for two such Courses of Study shall be permitted to sit for examination in only two papers or their equivalent more than the maximum allowed in either Course of Study.

(h) No student shall be enrolled in any paper or subject for which they have received credit for another degree or diploma or in any paper or subject with content substantially similar to any other paper for which they have received credit.

(i) Subject to the provisions of the Regulations for any degree or diploma no student shall be enrolled in two stages of a subject in the same year, provided that the Senate may waive this requirement in the case of a student of proven merit.

(j) Students who satisfy the Senate that they are unable to attend the full Course of Study for which they are enrolled may, on the recommendation of the Head of Department concerned, be granted partial exemption from lectures.

5. (a) Each student (except for DipG&O, DipObst, DipPaed, or for final year MBChB) shall enrol on the appropriate day and morning or afternoon as set out in the enrolment timetables. Provided that on payment of the prescribed late fee and penalties as Senate may in its discretion impose an enrolment may be accepted after the day prescribed but in no case shall

(i) a student whose home is outside New Zealand be accepted later than the commencement of the second week of lectures, or

(ii) a student permanently resident in New Zealand be accepted later than 31 March, or

(iii) a student be accepted for enrolment in a laboratory subject (including the subject Studio in the Faculty of Architecture and Town Planning and Faculty of Fine Arts) and any subject prescribed for the First, Second or Third Law Examination for LLB or LLB (Hons) Degree or for the Law Professional Examination and any subject in the Faculty of Engineering except with the special permission of the Senate.

Notes: (i) A late fee of $20 is prescribed.

(ii) Where enrolment is applied for after the end of the first week of term an additional fine of $4 is payable for each week or part of a week after the first week of term by which the application to enrol has been delayed.

(b) Each student for the Diploma in Gynaecology and Obstetrics or the Diploma in Obstetrics shall enrol not later than 1 March for the June examination or 1 September for the December examination in that year.

Note: On payment of a fine of $4 for each week or part of a week after 1 March or 1 September a late application to enrol may be considered.

(c) Each student for the Diploma in Paediatrics shall not enrol by 1 October or such later date as approved by the Senate.

Note: On payment of a fine of $4 for each week or part of a week after 1 October a late application may be considered.

(d) Each student for the final year for the Degree of Bachelor of Medicine and Bachelor of Surgery shall enrol by 15 November or such later date as approved by the Senate.

Note: On payment of a fine of $4 for each week or part of a week after 15 November a late application may be considered.

Choice of Course of Study

(e) The Courses of Study of those enrolled after the date prescribed will be determined by the Senate and will not necessarily conform with those proposed by the students concerned. In determining such Courses, the Senate will have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at the approved time.

PhD Enrolments

(f) The provisions of this regulation do not apply to enrolments for the Degree of Doctor of Philosophy.

Payment of Fees

6. (a) All fees that cannot be claimed under a study grant or bursary shall be paid in full at enrolment: provided that the Registrar or his deputy may, in exceptional circumstances grant an extension of time for the payment of fees.

(b) A charge of $10 shall be paid with any application to defer payment of fees provided that the Registrar or his deputy may at his discretion waive payment of this charge.

(c) In any case where fees remain unpaid, a student shall not be entitled to have his record transferred to another University or to sit the final examination.

Note: A student who is unable to pay fees at enrolment must interview the Registrar or his deputy and complete an agreement regarding payment. Extension of time for payment of fees is not granted as a matter of course but only in exceptional circumstances.
Alterations to Courses of Study

7. Additions, or Deletions of Papers and Subjects

(a) A student who having completed enrolment wishes to alter the course of study may apply to the Senate upon the conditions in the schedule of this regulation for leave to add or delete, from any paper or subject. Any application made after the commencement of the first term in each year shall be submitted to the Registry on the appropriate form with the prescribed fees.

Notes: (i) It is not sufficient to notify a change of course of study solely to a Department. An "Application to Alter Course" form must be handed in at the Registry.
(ii) The prescribed fee is $10.
(iii) On payment of a late fee of $4 for each week or part of a week a late addition (but not a late deletion) may be considered.

Notes: (i) A student ceasing to take a paper after the prescribed date for deletion is strongly advised to notify the Registrar as soon as possible but not later than three weeks before lectures for the paper finish. The date of notification will be entered against the enrolment for the year in that paper on the student's academic record. (A notification form is available from the Inquiry counter at the Registry.)
(ii) A student should refer to Regulation 7(c)(iii) if the reason for ceasing to take a paper is illness or injury, or any exceptional circumstances beyond his control.

Fees
(b) Payment of Additional Fees or Late Fees
Any additional tuition fees and all late fees shall be paid at the time of the lodging of the application.
(c) Refund of Fees
(i) Where a candidate applies under paragraph (a) of this Regulation and within the appropriate time limit to delete all the papers for which he has enrolled, he shall receive a full refund of all tuition fees and of the Students’ Association Fee.
(ii) Where the student has within the appropriate time limit applied under paragraph (a) to delete a paper (but not all papers for which he has enrolled), or to add a paper for which a lesser fee is prescribed than that which he has paid, he shall receive a refund of the difference between the total tuition fees paid and the total due on acceptance of the application for addition or deletion.
(iii) Where a student for reasons of illness or injury or any exceptional circumstances beyond his control makes a late application for deletion, the Senate may in its absolute discretion grant a partial refund of tuition fees, but in no case of the Students’ Association fee.

Note: Students who have their tuition fees paid under University Scholarships, Education Department Bursaries, Government Study Awards, Training College Bursaries, Secondary Teachers’ Studentships, or Bilateral Aid Programme should note that if they do not comply with the Regulations relating to ‘Alterations to Course of Study’ they may prejudice their scholarship or bursary in a future year.

Non-matriculated Students
8. Admission to lectures or laboratories may be granted to non-matriculated students provided they comply with all other Regulations governing admission. The Council may from time to time restrict entry of non-matriculated students to one or more subjects by reason of shortage of accommodation or other special circumstances.

Note: A non-matriculated student may not enter for any degree, diploma, or certificate of proficiency examinations as he is unable to comply with the course Regulations.
Exclusion
9(a) Heads of Departments may exclude any student from further study in any paper or subject in their departments on the grounds of unfitness or of unsatisfactory progress in the paper or subject. A student so excluded shall be informed by the Head of Department.
(i) not later than the Friday preceding the mid-term break for a paper or subject taught over the full teaching year
(ii) within seven weeks of the commencement of a paper or subject taught over half of the teaching year
(iii) within four weeks of the commencement of a paper or subject taught over one-third of the teaching year.
A student may lodge an appeal to the Senate against the decision of the Head of Department not later than seven days after the notice of exclusion is given.
(b) Failure in a Paper or Subject Twice
Any student who has twice enrolled for, but has failed to be credited with a pass in an optional paper or subject shall not be entitled to enrol again for that paper or subject without the prior permission of the Head of the Department in which it is taught.

Exclusion for failure to make satisfactory academic progress in a Course of Study as a whole
10(1) In this Regulation and the schedule to it: 'a particular Faculty' means a Faculty named in the left hand column of the Schedule to this Regulation;
'un satisfactory student' (i) means, in relation to a particular Faculty, a student who has made insufficient academic progress in that he has failed to the extent described opposite the name of that Faculty, in the right hand column of the Schedule to this Regulation, in any Course of Study there specified; (ii) includes any student who fails to comply with conditions of enrolment imposed under clause (5) of this Regulation. In the case of any student, a 'year of academic studies' means a year in which he is enrolled and has not withdrawn enrolment by the prescribed dates.

(2)(a) No unsatisfactory student may enrol in a particular Faculty without the prior permission of the Senate. 
(b) This clause of this Regulation does not apply to a student
(i) enrolling to complete Case Studies, Dissertation, Original Investigation or Thesis for any degree or diploma, or
(ii) enrolling for further study within the two years next following the completion of a degree or diploma or for a prerequisite for a Master's degree or postgraduate diploma, or
(iii) enrolling for the Degree of Doctor of Philosophy.

(3) No student may enrol in the University, without the prior permission of the Senate,
(a) who has been excluded from any university on the ground that he has failed to make sufficient academic progress; or
(b) who wishes to transfer to this university from another university under the Regulations of which he requires special permission to enrol having failed to make sufficient academic progress.

(4) Application for permission to enrol under clause (2) or clause (3) of this Regulation must be made on the appropriate form and submitted with the prescribed fee to the Registrar not later than 10 January in the year in which the student wishes to enrol.

Notes: (i) Under the Fees Regulations a late application may be received with a late fee of $20 after 10 January and not later than the Friday preceding enrolment week.
(ii) on payment of a fine of $20 in addition to the prescribed fee and late fee an application made after the Friday preceding enrolment week may be considered.

(5) In granting a student permission to enrol under clause (2) or clause (3) of this Regulation, the Senate may impose on the student such conditions as it thinks fit.
(a) in relation to the minimum academic progress he must make in the year of enrolment (so as to be entitled to enrol in the next year without application under this Regulation); 
(b) otherwise in relation to his future Course of Study.

(6) Any student
(a) to whom the Senate refuses permission to enrol under clause (2) or clause (3) of this Regulation; or
(b) who objects to any condition of enrolment imposed by the Senate under clause (5); may within 14 days appeal to the Council against the refusal or imposition.

(7) This Regulation is subject to Regulation 11 of these Regulations.

**Note:** A full-time Course of Study is as defined in the Scholarships, Bursaries and Awards Section.

### Application of Foregoing Regulation to Students who have been Enrolled Part-time

11. Regulation 10 of these Regulations shall not apply to a student who, over the last two years of his academic studies, has been enrolled in this University part-time for a Course of Study and has passed at least half of the paper or subjects for which he was so enrolled.

## Cross Credits

12(a) In this Regulation, cross-credits means papers of subjects which:

(i) are common to two or more Courses of Study;

(ii) have been passed by a candidate for the purpose of one of those Courses of Study; and

(iii) that the candidate desires to transfer to another of those Courses of Study.

(b) A candidate may, on payment of the prescribed fees under the Fees Regulations, transfer to the Course of Study for any degree or diploma named or referred to in the left hand column of the Schedule to this regulation cross-credits as shown opposite the degree or diploma so named or referred to in the right hand column of that Schedule (Subject to any other provisions of this regulation).

(c) No Stage III paper that fulfils the Stage III requirement of a Course of Study may be cross-credited to meet the Stage III requirement of another Course of Study. e.g. Stage III Maths credits passed as the only Stage III credits for BSc, could not be credited to BA unless three other Stage III papers were passed for the BA Course of Study.

(d) No candidate may transfer as a cross-credit any paper or subject passed with a conceded pass or restricted pass; and if that paper or subject is compulsory any other paper or subject may be substituted for it as the Senate may approve.

(e) No candidate may transfer as a cross-credit any paper or subject already so transferred under this regulation.

(f) In any case where an application for the transfer of cross-credits

(i) is not otherwise covered by this regulation or not covered by special provisions made elsewhere in the Regulations of the University or

(ii) is subject to any doubt or difficulty in the interpretation of these or any other Regulations of the University – the Vice-Chancellor may approve any such transfer of credit, or give any such direction in relation to the application, as he thinks fit.

(a) For a student who has successfully completed in or after 1974 a three-year full-time Division A course at a Teachers’ College under the control of the Auckland Teachers’ Colleges Council, one or two unspecified papers (not being papers in Music) in lieu of the BA papers prescribed for the Degree. For a student specializing in music in the above three-year course, a further one or two unspecified Stage I papers.
(b) For a student who has successfully completed in or after 1974 a Division B (concurrent study course) at a Teachers’ College under the control of the Auckland Teachers’ Colleges Council not more than one unspecified paper (not being papers in Music) in lieu of a BA paper prescribed for the Degree.
(c) For a student who has successfully completed in or after 1974 a three-year full-time Division Home Economics or Commercial course at the Auckland Secondary Teachers’ College not more than one unspecified paper (not being a paper in Music) in lieu of a BA paper prescribed for the Degree.

Science
(v) Degree of Bachelor of Science

(a) For a student who has successfully completed in or after 1974 a three-year full-time Division A course or a three-year full-time Division Home Economics and Commercial course at a Teachers’ College under the control of the Auckland Teachers’ Colleges Council, not more than twelve unspecified Stage I credits.
(b) For a student who has successfully completed in or after 1976 and up to and including 1980 a two-year full-time course in Division A at a Teachers College under the control of the Auckland Teachers’ Colleges Council, not more than six unspecified Stage I credits.
(c) For a student who has successfully completed in or after 1974 and up to and including 1980 a Division B (concurrent study course) at a Teachers’ College under the control of the Auckland Teachers Colleges Council, not more than six unspecified Stage I credits.

A student granted credit under these provisions (a, b and c) shall not be eligible for further credit under Regulation 8 of the BSc Degree course regulations.

(d)(i) For a student who has completed in or after 1981 a three-year Division B (concurrent study non-BSc) course at a Teachers College under the control of the Auckland Teachers’ Colleges Council, twelve unspecified Stage I credits. A student granted this credit shall not be eligible for further credit under Regulation 8 of the BSc Degree course regulations.
(ii) Mr a student who has completed in or after 1981 a three-year Division B (concurrent Study BSc) course at a Teachers’ College under the control of the Auckland Teachers’ Colleges Council, twelve unspecified Stage I credits. A student granted this credit will only be eligible to gain six credits under Regulation 8 of the BSc Degree course regulations.
(c) For a student who has completed in or after 1981 a two or one year course at a Teachers’ College under the control of the Auckland Teachers’ Colleges Council, the credits referred to in part (d)(i) or (d)(ii) shall be reduced to two-thirds and one-third respectively of the values given in (d)(i) or (d)(ii).

Note: The progress of students granted credit for Certificate Courses of the Centre for Continuing Education will be reviewed following their first year of study after the granting of the credit.

Exemptions
14(a) A candidate for a degree or diploma, who has passed in a paper or subject not prescribed for that degree or diploma but the same as or substantially equivalent to a paper or subject so prescribed, may at the discretion of the Senate be exempt from that prescribed paper or subject; subject, however, to the provisions of any other regulation.
(b) A candidate exempted either under this or any other regulation for a paper or subject shall pay the prescribed fee under the Fees Regulations to be exempted from that paper or subject.
15. Except as permitted either by Regulation 12 of these Regulations or by the Regulations for any particular Course of Study, no candidate may be granted in all more than one-third of the paper requirements of a Course of Study as cross-credits, credit, or exemptions.

Abandonments
16. A student may apply on the appropriate form and on payment of the prescribed fee to abandon one Course of Study before completion and to proceed to another Course. Any appropriate papers or subjects already credited may be transferred to the new Course.

Note: The prescribed fee for an “Abandonment” application is $10.

Completion of Degree or Diploma at another University
17. A student who leaves the University of Auckland district either to reside in another university district within New Zealand or to reside overseas, and who has passed for a degree or diploma of the University of Auckland such part of the work as the Senate may from time to time determine to be the major part of the work for that degree or diploma may, with the approval of the Senate in order to complete that degree or diploma, take appropriate examinations at another University and may, with like approval be granted credits under these regulations for such examinations.

Additional Lectures
18. A student while pursuing a Course of Study in the University may with the approval of the Vice-Chancellor, after consultation with the Heads of Departments concerned, take lectures in a subject which he is not offering for examination without payment of fee for the Course provided that this facility shall be granted only where the additional lectures would be useful in supplementing the student's Course of Study.

Vice-Chancellor's Special Powers
19(a) The Vice-Chancellor may give such direction, or make such provision as he shall think fit for the relief of undue hardship where it is shown to his satisfaction.
(i) that an alteration or amendment to statutes or regulations involving a change in a Course of Study or in examination requirements has caused a candidate hardship; or
(ii) that official advice has been given and acted upon, and it is later found that a candidate's Course of Study is not in accordance with the governing regulations and hardship would be caused if the candidate were to be compelled to comply with the full requirements of the regulations.
(b) Where a candidate for a Master's degree writes a script outside the prescribed time for the examination, the Vice-Chancellor shall have power to
(i) admit or reject the script as part of the examination.
(ii) authorise the Head of Department to conduct an oral examination, and that the Head of the Department where appropriate and if necessary, shall submit a mark based on the year's work and the oral examination.
(c) A candidate may appeal against any decision of the Vice-Chancellor under this Regulation to the Council which shall have power to make such provision as it may think fit.

# ENROLMENT

## PRE-ENROLMENT

Because of insufficient accommodation and restrictions on staffing there will be a limitation on the number of students who can be enrolled for certain courses at the University in 1983. With a few exceptions (see Notes) those wishing to enrol in 1983 for any of the Courses of Study listed below must complete a pre-enrolment application by the date prescribed. Application forms are available from the Registrar, University of Auckland, Private Bag, Auckland, or at the Inquiries Counter, Administration Building, 24 Princes Street. Intending students will not be permitted to enrol in any of the Courses of Study listed below unless they have received notice in reply to their pre-enrolment applications that a place is available in 1983. Students wishing to enrol for Courses of Study other than those listed below do not need to pre-enrol.

Pre-enrolment applications that are received late are subject to a late fee of $20. Students pre-enrolling late are warned that they may not be given equal priority with those pre-enrolling by the due date. The above pre-enrolment requirements do not apply to applicants in the categories mentioned in Notes 1 - 3 below
Notes:
1. Admission Ad Eundem Statum
   (a) Students from other New Zealand Universities wishing to transfer to the University of Auckland
   Students on the books of another University in New Zealand wishing to transfer to the University of Auckland
   are required to make application to transfer on the appropriate form (Form C) to the Registrar not later than
   15 January. A late application may be accepted until the Friday preceeding enrolment week with the permis-
   sion of the Senate and subject to availability of places and upon payment of a late fee of $20, and after the
   Friday preceeding enrolment week upon payment of an additional fine of $20.
   Because the University of Auckland is unable adequately to accommodate all of the students who in 1983 will
   seek to gain admission, students wishing to transfer to the University of Auckland for any undergraduate
   course shall be admitted ONLY IF THERE ARE COMPELLING CIRCUMSTANCES FOR TRANS-
   FER TO AUCKLAND. Students wishing to enrol for papers at Stage I level in Arts, Science and Inter-
   mediate examinations will be selected on priority gradings based largely on their previous academic record.
   They may be required to nominate alternative papers and may be re-distributed to these alternative papers if
   there are inadequate places in the papers of their first choice.
   (b) Students from Overseas
   Overseas students wishing to be admitted for the first time to a New Zealand university must
   (i) if applying for undergraduate status, to this University apply for admission not later than 1 September if
   they are in New Zealand or Fiji and not later than 1 May if they are in another country
   to the Overseas Students Admissions Committee (OSAC), Box 12-348, Wellington North, N.Z. for a place
   for the following year.
   (ii) if applying for graduate status, apply to the University for admission not later than 30 November.
   Late applications may be accepted until the Friday preceeding enrolment week upon payment of a late fee of
   $20 and after the Friday preceeding enrolment week upon payment of an additional fine of $20.

2. Provisional Admission
   Applications close 15 January, but late applications may be accepted up to the Friday preceeding Enrolment
   week and then only with the permission of Senate and on payment of a late fee of $20, and subject to places
   being available. Applications may be accepted after the Friday preceeding enrolment week upon payment of
   an additional fine of $20. Application forms are available from the Registry. A limitation has been placed on
   the number of students that may be enrolled for the first time at this University with Provisional Admission.

3. Failure to make Sufficient Progress in Course of Study — Prior Permission of Senate to Re-enrol
   Students, both graduate and undergraduate, including those transferring from another university, shall not be
   accepted for enrolment in 1983 unless they have made satisfactory progress or have previously obtained the
   permission of the Senate to enrol in 1983. For definition of satisfactory progress refer to Enrolment and Course
   Regulations (General). A student will be deemed to have been engaged in academic studies whether or not he
   attempted the final examination if at 31 March in that year he was enrolled for a paper or subject as an internal
   student or had been granted Terms Carried Forward in a paper or subject.
   Applications for permission to re-enrol, with the prescribed fee of $20 close 10 January, but late applications
   will be accepted up to the Friday preceeding enrolment week upon payment of a late fee of $20 and after the
   Friday preceeding enrolment week upon payment of an additional fine of $20.

4. Pre-Enrolment Interviews
   A General Information and Advisory Centre in the Student Union, 6 Alfred Street, will be open from 14
   February until the end of enrolment week on 25 February. The Liaison Office will be open from 19 January.

5. Late Enrolments
   Students enrolling late in the Faculties of Arts or Science, and for Intermediate examinations, if they have
   obtained prior permission to enrol late, must name any Stage I Arts and Science papers for which they wish
   to enrol. At enrolment they may be required to nominate alternative papers and to accept re-distribution into
   these alternatives.
   Students who have failed to seek prior permission to enrol late but who have been accepted for late enrolment,
   will be allocated the lowest priority grade for acceptance into those Stage I papers where there is a restriction
   on enrolment.

Note: This applies to all students who apply to enrol or who enrol late including transfers, provisional admissions, exclusion students and ad
eundem admissions.
6. Penalties
(a) Late Pre-Enrolment
A late fee of $20 will be imposed on students who have failed to apply for pre-enrolment by the prescribed
date. Students pre-enrolling late are warned that they may not be given equal priority with those pre-enrolling
by the due date.
(b) Late Enrolment
A student who wishes to enrol or who has been granted a place and fails to enrol on the appropriate day and
morning or afternoon as set out in the enrolment timetable may forfeit his place, or if permitted to enrol
(i) may be subject to a penalty of $5 for enrolling during enrolment week on the wrong day, morning or
afternoon, or
(ii) if enrolling after enrolment week will be subject to a penalty of $20 together with a further penalty of
$4 for each week or part of a week that the enrolment is late.
The $5 late fee may be waived if the student makes application before enrolment to enrol during the enrolment
week but not in accordance with the timetable.
(c) Late Additions or Deletions to Courses
A fine of $4 for each week or part of a week that the application is late for alterations after the following dates:

Note: Late application for pre-enrolment for BHB will only be accepted up to 1 November on payment of the late fee.

(i) Laboratory subjects including the subjects Studio, in the Faculty of Architecture and Fine Arts and any
subject of the First, Second, or Third Law Examination for LLB or LLB (Hons) Degree or for the Law
Professional Examination. After Friday, 12 March
(ii) Subjects of an Engineering Professional year. After the First Friday after the commencement of lectures.
(iii) All other papers and subjects which are taught from the beginning of the academic year
After 31 March
(iv) All other papers and subjects commencing after the beginning of the academic year. After the Second
Friday, after the commencement of lectures in the papers concerned.
(v) Subjects for BArch, DipVal or NZIA/AERB Special Examination. After the Second Friday, following
commencement of lectures.
(vi) Masters courses and linked co-requisite papers where other linked co-requisites are being substituted
After 30 April.

(d) Choice of Course
The Course of study of a student making a late enrolment will be determined by the Senate and will not
necessarily conform with that proposed by the student concerned. In determining such Course the Senate will
have regard to prior claims upon both laboratory and classroom space of students who have enrolled in
accordance with the above timetable.

7. Refund of Fees
Students are advised to note particularly Regulation 7 of the Enrolment and Course (General) Regulations
with regard to refund of fees where they alter their Course of Study after enrolment. Under this regulation
a full refund of fees paid will be allowed in respect of papers or subjects deleted on or before 31 March, or
on or before a later date as listed in Regulation 7. No refund of fees will be made for papers or subjects deleted
after 31 March, except as previously listed. Holders of Education Department bursaries, Government study
awards, Training College bursaries, Secondary Teachers' Studentships, etc, should note that the University
will claim tuition fees from the Department of Education, or authority concerned in respect of those papers
or subjects for which they are enrolled as at 31 March and that no amendment to Courses involving alteration
to a claim for tuition fees can be accepted after that date.

1983 ENROLMENT TIMETABLE

Students wishing to enrol at the University of Auckland in 1983 are required to attend at the University,
Princes Street, to enrol during the hours of 9 a.m. to 5 p.m., Monday to Friday 21–25 February 1983 inclusive
in accordance with this timetable. Enrolment is not completed until all fees payable in cash are paid in full.
Students who were required to pre-enrol are asked to bring with them their 'confirmation of place'.
Students enrolling for the first time at a university should bring their UE, HSC, 6th Form Certificate, Bursary
or Scholarship results or evidence of admission ad eundem statum at entrance level.
Any student who has changed name since last enrolment should produce a marriage certificate, a deedpoll, or
a statutory declaration.
Students enrolling in more than one Faculty should note that only one enrolment form is required. Students may collect their enrolment forms from Lecture Theatre B28, Basement of Library Building, 5 Alfred Street, the day before they are required to enrol (Friday 18 February for those enrolling on Monday the 21st). Postgraduate students in Engineering may complete their departmental enrolment on Friday 18 February.

EXTRAMURAL ENROLMENT STATUTE

1.(1) This Statute may be cited as the Extramural Enrolment Statute 1981.

(2) This Statute shall come into force on 1 January 1982.

2. Any person qualified to enrol at a University in New Zealand who in any year is living in the urban area of Auckland and who satisfies the Senate of the University of Auckland that he or she should not be required to attend classes at the University, shall, subject to the provisions of this Statute and upon such conditions as Senate thinks fit, be permitted to enrol extramurally in that year.

3. No person who is already on the books of another University in New Zealand as a candidate for any degree, diploma or other qualification shall be permitted to enrol extramurally without the permission of that other University.

4. Except where the Senate otherwise permits, a person who is permitted to enrol extramurally in any paper or papers for which extramural tuition is provided at Massey University, shall—
   (a) be required to register or enrol for tuition in each such paper at Massey University;
   (b) not enrol in the same year for any other paper or papers at the University of Auckland;
   (c) take the examinations of Massey University, and appropriate credit shall be granted at the University of Auckland for the paper or papers passed.

5. Save with the permission of the Senate granted in such exceptional circumstances as it thinks fit, no person on the books of the University of Auckland may be enrolled extramurally in respect of
   (a) any Stage III paper;
   (b) any work for a Masters degree;
   (c) any work for a diploma;
   (d) any paper requiring practical or laboratory work;
   (e) any paper or other work which, in the opinion of Senate, requires internal tuition at a University.

6.(1) A person who is on the books of the University of Auckland as a candidate for any degree, diploma or other qualification but who lives outside the urban area of Auckland but within New Zealand, may be permitted to enrol extramurally.

   2. Permission for the purpose of subsection (1) of this section shall be at the discretion of Senate, but it shall be granted—
      (a) in the case of a person not living in the Auckland University District, only with the approval of the appropriate other University;
      (b) in the case of a person living in the urban area of Dunedin, Christchurch, Wellington, Palmerston North or Hamilton, only if he or she is unable to attend classes at the appropriate other University.

   (3) For the purpose of subsection (2) of this section “the appropriate other University” is Massey University or the University of Waikato, as the case may be, when the person lives in the urban area of Palmerston North or Hamilton; and is otherwise the University of the District in which the person lives (that is, the University of Otago, the University of Canterbury, or the Victoria University of Wellington, as the case may be).

7. A person on the books of this University who ceases to reside in New Zealand, and who requires to pass in the final paper or papers for any degree, diploma or other qualification, may enrol extramurally in the paper or papers at the discretion of Senate and upon such conditions as it thinks fit.

8. For the purposes of this Statute—
   the urban area of each University town named is as defined from time to time by the Council of the University concerned;
   the Auckland University District is as defined in the First Schedule to the University of Auckland Act 1961 but with the exclusion of the urban area of Hamilton.
   New Zealand includes Cook Islands, Niue and Tokelau.

9. The Extramural Enrolment Statute 1962 is repealed.

Notes: A person who is already on the books of another University in New Zealand who is not qualified to enrol extramurally in accordance with Section 2 of this Statute, is, unless the Senate otherwise decides in exceptional circumstances, expected either to transfer to the University of Auckland or to enrol for such paper or papers at the University of Auckland as may be acceptable to the other University.

(ii) A student living in the urban area of Auckland who has been permitted to enrol extramurally at another University in any particular year will be expected, in any subsequent year of university study, either to enrol at the University of Auckland or to obtain the Senate's permission to continue to enrol extramurally.

(iii) The Senate normally permits Auckland Secondary Teachers College physical education or music students, who are enrolled for BEd at Massey University, to enrol at the University of Auckland for a paper or papers other than those in respect of which extramural enrolment is permitted.
EXTRAMURAL ENROLMENT REGULATIONS

1. Every person wishing, in any year, to enrol extramurally under the Extramural Enrolment Statute 1981 shall apply to the Registrar of the University not later than 10 January of that year.

2. Every application shall state—
   (a) the papers or other work in respect of which extramural enrolment is sought;
   (b) the grounds of the application;
   (c) whether the applicant is already on the books of, or (where it may be permitted or required) proposes to enrol at, any other University and if so, which University and for what course, papers or other work;
   (d) (i) the applicant’s current business and residential address;
        (ii) whether to the best of the applicant’s knowledge and belief there will be any change of residence during the year of enrolment; and if so the expected new address and approximate date of change.

3. The applicant if living within the urban area of Auckland shall provide such evidence as the Senate deems fit that he or she is unable or should not be required to attend classes at the University of Auckland.

4. The application for extramural enrolment under section 6 of the Statute by a student already on the books of this University who lives in the urban area of a University town other than Auckland must be supported by a certificate from the Registrar of the appropriate University that the applicant is unable to attend classes at that University.

5. Every student permitted to enrol extramurally—
   (a) shall pay the prescribed fees for course approval (in addition to any fees payable at another University);
   (b) may withdraw from his or her studies by written notice to the Registrar not later than 31 March; and,
   (c) having done so by that date, shall be entitled to a full refund of fees (but not any late fee or fine).

6. (1) The studies of students permitted to enrol extramurally under the Statute are subject to Regulation 10 of the Enrolment and Course Regulations (General).
    (2) For the purpose of this Regulation students who have not withdrawn under Regulation 5(b) or, being enrolled also at Massey University, have not withdrawn in accordance with the Regulations of that University, shall be deemed engaged in academic studies in the relevant year.

7. The Extramural Regulations last published in the 1981 Calendar are revoked.

8. These Regulations shall come into force on 1 January 1982.

EXAMINATION REGULATIONS

Eligibility to Sit Examinations

1. To be eligible to present himself for examination in a paper or subject, a candidate
   (a) must have been enrolled as an internal student, have attended classes to the satisfaction of the Senate, and performed to the satisfaction of the Senate such oral, practical, written, and other work as the Senate may require.
   (b) not being enrolled as an internal student, must have been granted exemption in accordance with the Extramural Statute and Regulations.

Note: Students will be informed by each department of the specific requirements for courses in that department and the extent to which the year’s work will be taken into consideration in assessing final results. In some cases students may not be permitted to sit the final examinations.

Time of Examinations

2. The examinations shall be held at the times specified in the Timetable each year.

Place of Examinations

3. All internal students must sit their examinations at Auckland. Extramural students who do not wish to sit their examinations at Auckland may sit at one of the centres specified in the Extramural Enrolment Regulations, provided that, with the approval of the Senate, a special examination centre may be established under special circumstances subject to the payment of the extra fee prescribed in the Fees Regulations.

Conduct of Examinations

4(a) The examinations shall comprise such written, oral and practical examinations as the examiners may determine.
   (b) Candidates shall write out answers to the questions in the presence of a supervisor, who shall be appointed or approved by the Council in accordance with such detailed instructions as may be furnished by the Council.
   (c) No candidate shall communicate with an examiner in regard to an examination except through the Registrar.
   (d) No candidate may be examined in any subject or part of a subject at any time other than that set down for him in the timetable.
(e) No candidate shall be allowed to enter the room:
(i) for a 3-hour examination later than one hour thirty minutes after candidates have begun writing the examination,
(ii) for a 2-hour examination later than one hour after candidates have begun writing the examination,
(iii) for a 1½-hour examination later than forty-five minutes after candidates have begun writing the examination,
(iv) for a 1-hour examination later than thirty minutes after candidates have begun writing the examination.
(f) No candidate shall be permitted to leave the room:
(i) of a 3-hour examination until one hour forty-five minutes has elapsed from the time the writing of the examination began,
(ii) of a 2-hour examination until one hour fifteen minutes has elapsed from the time the writing of the examination began,
(iii) of a 1½-hour examination until one hour has elapsed from the time the writing of the examination began,
(iv) of a 1-hour examination until forty-five minutes has elapsed from the time the writing of the examination began,
and then only with the permission of the supervisor and upon handing in his script.
(g) Candidates shall be allowed to read their examination papers for a period of not more than ten minutes before the examination commences but may not begin writing their answers until the room supervisor announces that they may do so.
(h) No candidate shall bring to an examination any written or printed matter except by direction of the examiner. All books and papers not approved for use in the examination, along with any spare personal belongings brought to the examination shall be left in such part of the room as the supervisor shall direct. All paper used during the examination must be handed to the supervisor before the candidate leaves the examination room.
(i) No candidate shall communicate with another in the examination room.
(j) No candidate shall continue writing an answer after the supervisor has announced the expiration of time. In no circumstances is any time over and above the time allotted to any paper to be allowed a candidate for reading over his scripts or making any amendment or addition to his scripts.
(k) Any complaint that a candidate has committed an examination offence shall be referred to the Deans Committee of the Senate (to which the Senate has delegated power to deal with all matters relating to examinations) to determine whether the complaint should be investigated. For the purposes of this Regulation an examination offence includes any breach of any rules relating to the conduct of examinations and any dishonest practice occurring in the preparation or submission of any work (whether in the course of an examination or not) which counts toward the attainment of a pass in any subject or otherwise occurring in connection with any examination.
(l) The Discipline Committee of the Senate (to which the Senate has delegated the appropriate powers) shall hear and determine any complaint which the Deans Committee has resolved should be investigated. The candidate concerned shall be notified in writing of the subject matter of the complaint and the time and place of the hearing. He shall be invited to state in writing his answer to the complaint and may attend the hearing.
(m) The Senate shall have power (which it may delegate to its Discipline Committee) to do all or any of the following things in the case of a candidate found guilty of an examination offence:
(i) Impose upon him any of the penalties prescribed in the Disciplinary Regulations
(ii) Disqualify him from sitting any examinations for such period as may be prescribed
(iii) Cancel any pass with which he may have been credited in the subject or examination in respect of which the offence has occurred.
(n) Where the Senate or any committee of the Senate is satisfied that a candidate has not complied with any Regulation of the University whether in respect of any examination or any other matter having given the candidate such opportunity as it considers reasonable of remedying his non-compliance with the Regulation or Regulations, then the Senate shall have power (which it may delegate to its Discipline Committee) to suspend for such time as may be prescribed the release to the candidate of the results of any examination, or to decline to credit to his course any subject or subjects, or to impose both those penalties.
(o) A candidate may appeal to the Council from any decision of the Senate or its Discipline Committee under paragraphs (m) or (n) of this Regulation by giving notice in writing to the Registrar within 14 days of being notified of the decision. A candidate so appealing shall be entitled to make submissions in writing and may, with the consent of the Council, appear when the appeal is determined. The Council may dismiss or allow the...
appeal or vary the penalty but shall not impose any penalty which the Senate or its Discipline Committee could not have imposed. The decision of the Council on any appeal under this Regulation shall be final.

Marking of Scripts
5(a) In determining a candidate's result the examiners:
(i) may take into consideration the work done by the candidate during the year;
(ii) shall give due weight to reports on practical work done by the candidate wherever these are required;
(iii) shall include marks obtained by the candidate where the Senate has allotted a percentage of marks for awarding on the year's work of the candidate in any paper or subject.

Passes - Grades and Marks
(b) A pass mark in any paper or subject including papers and thesis for a Masters degree is: for a single paper, 50%;
for two more combined or linked papers, an average of 50%;
for one or more papers and a thesis, an average of 50%;
provided that
(i) the Senate may give approval for a thesis to count as more than one paper;
(ii) a candidate not attaining a minimum of 37% in any combined or linked paper except in the papers or thesis for a Masters degree and mid-year examinations, will fail the subject as a whole provided that this requirement may be waived in exceptional circumstances at the discretion of the Senate;
(iii) a candidate taking papers in the Faculty of Music not attaining a minimum of 37% of the marks allocated for the end of the year examination, will fail the paper as a whole. This does not apply to examinations in Performance.
(iv) a candidate for the Degree of Master of Engineering must pass in each of eight subjects or in each of three subjects and a thesis;
(v) where oral work is required for a paper of a language, unless otherwise provided, a pass in both oral work and written papers is necessary;
(vi) where both practical and written work is required for a paper or subject a pass in both practical work and written papers is necessary;
There are eleven pass grades and two fail grades as set out:

Pass Grades
- A+ high first
- A clear first
- A - bare first
- B + high second
- B clear second
- B - bare second
- C+ sound pass
- C pass
- C - marginal pass

Notes: (i) Candidates for LLB and LLB(Hons), who pass a subject of a Law examination with a grade of C- will have that grade credited to their course only at the discretion of the Senate.
(ii) Candidates for BMus (Performance) who pass the subject Performance 28.120 with a grade of C- and are therefore not eligible to proceed with the Course of Study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage I Music papers toward the course of study for the Degree of BMus.

Restricted
A restricted pass shall apply only to a paper in the Faculty of Arts, Commerce, or Science. A candidate at the discretion of the appropriate Faculty (or Department for the Faculty of Science) may be considered for restricted passes. No application by the candidate for consideration is required. A restricted pass in a paper which is pre-requisite for enrolment in another paper shall not be accepted as fulfilling that pre-requisite except with the approval of the relevant Head of Department in each case.

Note: A student with a Restricted Pass in a paper who wishes to take the paper again may do so for Certificate of Proficiency only.

Conceded
A conceded pass shall apply only to the following Courses of Study and may not be transferred to another course of Study: Bachelor of Architecture, Diploma in Business and Industrial Administration, Bachelor of Engineering, Bachelor of Fine Arts, Bachelor of Human Biology, Bachelor of Laws, Bachelor of Laws with Honours, Law Professional Examination, Bachelor of Medicine and Surgery, Bachelor of Music, Bachelor of Music (Performance), Diploma in Music, Diploma in Music with Honours, Bachelor of Science, Bachelor of Town Planning.
A candidate at the discretion of the appropriate Faculty may be considered for a conceded pass. No application by the candidate for consideration is required.

Fail Grades
D indicates that the candidate is advised to consult the Head of Department concerned before deciding to re-enrol if a paper or subject is optional or elective.
E indicates a serious failure to meet the requirements for the paper or subject: the candidate must consult the Head of Department concerned as to the advisability of re-enrolling in an optional or elective paper or subject.
Open Book and Restricted Book Examination
(c) (i) Where an examination is designated "Open Book", candidates may take into the examination room any material including books, Acts, etc, and there will be no check on items taken into the examination room. (ii) Where an examination is designated "Restricted Book", candidates may take into the examination room only the material specified by the examiner.

Work at Standard of Honours
6. A candidate whose work is at the standard of Honours or a First or Second Class Pass under the relevant degree or diploma regulations but who is ineligible for the award of Honours or First or Second Class Pass under the regulations shall be informed of the standard that he would have been awarded had he been eligible.

Recount of Marks
7. By making application within four weeks from the date of the mailing of his official result of the examinations, any candidate sitting for an examination for a degree, diploma, professional qualification, or certificate of proficiency may have the marks awarded his scripts recounted in any paper or subject which he has failed. The fee for such a recount shall be as prescribed in the Fees Regulations. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer or any portion of an answer submitted by a candidate has been overlooked. No information relative to the application will be placed before the examiner. Candidates for the degree of Bachelor of Architecture, Bachelor of Fine Arts, Master of Fine Arts, Bachelor of Music (Performance), Bachelor of Music (Performance) with Honours, or for the Diploma in Music, or the Diploma in Music with Honours may apply for a recount of marks for written papers only.

Aegrotat Pass
8. A candidate who has been prevented by illness or injury from presenting himself at any examination in any paper or subject, or who considers that his performance in any examination in any paper or subject has been seriously impaired by illness or injury may on application and with the approval of the Senate be granted an aegrotat pass in such paper or subject if the following conditions are satisfied:
(a) that the candidate is enrolled as an internal student for the course of instruction in the paper or subject in question;
(b) that the illness or injury was reported in writing to the Registrar within one week of the date upon which the examination affected took place or if more than one examination has been affected then within one week of the last of such examinations;
(c) that as soon as practicable after reporting the illness the candidate furnish to the Registrar a certificate (on the form provided) from a registered medical practitioner stating
(i) that he examined the candidate medically on a certain date;
(ii) that in his opinion the candidate was unable through illness or injury to present himself for the examination, or that in his opinion the candidate's performance in the examination was likely to have been seriously impaired by illness or injury. The nature of the illness or injury shall be stated in sufficient detail to make it clear that the candidate was not responsible for his disability, and in a form suitable for submission in cases of doubt to a medical referee;
(d) that the candidate's responsible teachers in the paper or subject of the examination in question certify that his work therein during the course of instruction was well above the minimum pass standard (or where relevant the minimum standard for a class of Honours or Pass) and that he is in their opinion clearly worthy to pass in that paper or subject (or where relevant to be awarded First or Second Class Honours OR First or Second Class Pass),
or alternatively that the Senate is satisfied upon considering the quality of the candidate's work during the course of instruction and of any work which he has completed in the current examinations (whether in the paper or subject in question or any other paper or subject) that the candidate is clearly worthy to pass in the paper or subject in question or (where relevant) to be awarded First or Second Class Honours OR First or Second Class Pass therein,
provided that in either case
(i) Honours or a First or Second Class Pass may not be given to a candidate who has been awarded a pass under this regulation in respect of more than one paper for a degree or diploma involving not more than four papers; or in respect of more than two papers for a degree involving five or more papers;
(ii) a candidate for the degree of Bachelor of Engineering may, on the recommendation of the Senate, be given Honours irrespective of the number of aegrotat passes awarded.

Note: The prescribed fee for an application for recount of marks is $20 and is refundable only if the recount shows that a pass rather than a fail grade should be recorded.
Compassionate Pass

9. Where by reason of any exceptional circumstances beyond his control and other than his own illness or injury a candidate has been prevented from presenting himself at any examination in any paper or subject or considers that his performance in any examination in any paper or subject has been seriously impaired, he may on application and with the approval of the Senate be granted a compassionate pass subject to compliance with the same conditions (with necessary changes) as those appearing in clauses (a) and (d) of Regulation 8. Such an application must be made to the Registrar on the form provided within one week of the date upon which the examination affected took place, or, if several examinations have been affected, then within one week of the last of those examinations, and must be supported by such evidence as the Registrar shall require.

Note: The fee prescribed under the Fees Regulations for each application for a Compassionate Pass is $5.

10(a) The provisions of Regulations 8 and 9 shall apply to:
(i) any final written examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(ii) any final practical examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(iii) any terms examination which has been allotted a percentage of the marks awarded for the final examinations for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(b) The provisions of Regulations 8 and 9 shall apply (with necessary changes) to:
(i) the final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, or the Degree of Master of Fine Arts;
(ii) the final submission in each year of studio work for the Degree of Bachelor of Architecture as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

Viva Voce Examination

11. A candidate who is eligible to apply and has applied for an aegrotat or compassionate pass in any paper or subject may, in exceptional circumstances and on a recommendation from the Head of the Department concerned, be granted permission by the Senate to take a viva voce examination in any paper or subject of his aegrotat or compassionate pass application.

Concessions

12. Where degree Regulations or prescriptions permit, or the Senate upon such conditions as it thinks fit approves, the examiners may in respect of any examination:
(a) release to the candidates, the examination paper in advance of the sitting of the examination;
(b) allot a percentage of marks for awarding on the year's work of the respective candidates;
(c) require or permit the candidates, either wholly or partly in lieu of taking an examination held in accordance with Regulations 2 to 5 inclusive and 7 to 9 inclusive of these Regulations, to submit for examination such written assignments of work as may be required.

Theses

13. Where a thesis is required as part of an examination the following conditions shall apply:
(a) Diplomas, Bachelors, and Masters Degrees
   (i) The candidate shall submit two copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis provided that a candidate for the degree of Master of Engineering shall submit three copies and a short abstract bound in each copy.
   (ii) The Registrar shall transmit the submitted copies to the examiners.
   (iii) On completion of the examination the supervisor of the thesis shall be responsible through the Head of the Department for the deposit of two copies with the University Library.
   (iv) On completion of the examination for the Degree of Master of Engineering the disposal of the third copy submitted shall be at the discretion of the Head of the Department.
   (v) Where more than the required number of copies of a thesis are submitted any additional copies shall be returned to the candidate.
(b) Degree of Doctor of Philosophy
   (i) The candidate shall submit three copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis.
   (ii) On completion of the examination two copies shall be deposited with the University Library. The disposal of the third copy shall be at the discretion of the Head of the Department.
Notes: (i) The examination copy of any written thesis presented for a degree or diploma shall be the first copy, unless the thesis is cyclostyled printed, reproduced photographically or by electrostatic process and be bound in a form sufficiently durable for preservation and use in the University Library. The second copy may consist of a carbon duplicate of the typescript only. The Library will, if necessary, copy illustrated material such as maps and will bind this second copy of the thesis. This copy may be placed in a Departmental reading room.
(ii) Candidates are recommended to obtain the booklet ‘Pointers on the Binding of Theses’ from the Bindery before proceeding with the typing and binding of the thesis.
(iii) The author of a thesis has a right to impose conditions restricting the publication of his work to ensure for such a period as he may stipulate, without however curtailing the University Librarian’s right to make and supply copies thereof in terms of subsection (3) of Section 21 of the Copyright Act (1962).
(iv) Where it is suspected that a thesis contains defamatory material the University Librarian may restrict access to the thesis subject to confirmation by the Library Committee.
(v) Supervisors are requested to notify the University Library when a thesis is submitted if it is believed to contain material which could be considered defamatory.
(vi) Where a thesis has been presented as part of a degree which
(a) has been awarded but the thesis itself is a failed thesis restrictions on its use in the library may be imposed
(b) has not been awarded the thesis will not be deposited in the Library irrespective of whether the thesis itself has a pass or fail grade.
(vii) For the Fourth Professional Examination for BArch one bound copy only of the thesis is required to be submitted.
(viii) Candidates for DipBIA are required to consult the Course Director concerning the binding of the Project for the Diploma course.

Abstracts
14. Where a thesis, dissertation, research essay, or original investigation is submitted as part of an examination for a Bachelor’s or Master’s degree, a Diploma, or the Degree of Doctor of Philosophy a candidate shall at the same time submit a short abstract not exceeding 500 words, suitable for publication. The abstract shall be bound in each copy of a thesis submitted.

Examination Centres
15. Pursuant to Regulation 1 hereof the University of Auckland will conduct examinations in the following centres: Apia, Auckland, Dargaville, Gisborne, Lautoka, Nuku'alofa, Paeroa, Rotorua, Rarotonga, Suva, and Whangarei. Internal candidates are required to sit their examinations at Auckland.

CONFERRING OF DEGREES AND ACADEMIC DRESS REGULATIONS

1. Every Degree and every Diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council in that behalf and at a meeting of the Council by the Chancellor or if he is absent from New Zealand or incapacitated by sickness or otherwise then by the Vice-Chancellor.
2. Every recipient of a Degree shall receive a certificate in appropriate form, under the Common Seal of the University, that his degree has been conferred and stating the class of honours (if any) awarded to him.
3. Every Diploma shall be in appropriate form under the Common Seal of the University.
4. In May of each year the Council shall meet in Convocation of the University for a ceremony of conferring Degrees and awarding Diplomas. Persons desiring to have their Degree conferred or Diploma awarded (whether in person or in absentia) at a ceremony in May shall make application to the Registrar not later than 31 March in the year of the ceremony.
5. The form of words to be used by the Chancellor (or Vice-Chancellor) in conferring a Degree shall be as follows
‘By authority vested in me as Chancellor (or vice-Chancellor) I now proceed to confer the Degrees stated upon those who, within their several Faculties, have satisfied the requirements of this University.’
6. The form of words to be used by the Chancellor (or Vice-Chancellor) in awarding a Diploma shall with the necessary changes be the same as for the conferring of a Degree.
7. The regulations for academic dress shall be as follows.
(a) Graduates must appear at all public ceremonies of the University in the academic costume proper to their degree, but doctors may on special occasions wear a scarlet gown and graduates admitted Ad Eundem Statum may wear the academic costume of their own University. Unless the holder of a diploma is also a graduate, the only academic dress he may wear is an undergraduate gown.
(b) The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel. The robe for the Pro-Chancellor is a black silk gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold tassel. The robe for the Vice-Chancellor is a blue silk gown with facings of silver lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with silver lace and tassel.
The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with black silk tassel.
(c) The gown for a Bachelor's degree is as for the Cambridge Bachelor of Arts. The gown for a Master's degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelor's degree is lined with coloured silk and bordered with white fur. The hood for a Master's degree is lined with coloured silk only.

The colours of the linings of the hoods for the Bachelors' and Masters' degrees are as follows:

- Architecture: lemon (BCC 111 primrose)

(g) The cap for all Doctors other than the officers of the University is as for the full dress Cambridge Doctor of Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

Notes: (1) The colour of the lining of the hood for the Degree of Master of Philosophy is that of the Faculty in which the Degree is taken.
(2) Number references are from the British Colour Council Dictionary of Colour Standards. Approximate colours in the substitute material satin may be seen on a chart at the inquiry counter at the Registry.
(3) Satin or taffeta is frequently used as a substitute material for silk which is not always obtainable.

***AWARD OF HONORARY DEGREES***

Clause 19 (3) of the University of Auckland Act 1961 gives Council power to confer any degree as an honorary degree in accordance with such conditions as it may prescribe:

Provided that no honorary degree shall be conferred on any person by the Council unless that person has been recommended therefor by a joint committee of the Council and the Senate set up in accordance with the Statutes or Regulations of the University. Pursuant to the above clause of the Act, Council has drawn up regulations and set up an Honorary Degrees Committee for the conferment of the following honorary degrees.

- Doctor of Laws
- Doctor of Science
- Doctor of Literature
- Doctor of Music
- Any Master's Degree

Information regarding the procedure and criteria for the nomination of a candidate for one of the above honorary degrees may be obtained from either the Vice-Chancellor or the Registrar.

1983 Calendar

General Studies & Regulations
(ii) Students concurrently enrolled full-time at the Auckland Technical Institute may pay a reduced fee of $6 per paper (general fee $4, building levy $2). To claim the reduction such students must complete the appropriate application form obtainable from the Students’ Association Office, have the form certified by the Managing Secretary of the Students’ Association of the Auckland Technical Institute and submit it to the University Registry before enrolment week.

Building Levy:
The Students’ Association Fee includes a building levy of $12, or $2 per paper if a student is concurrently enrolled full-time at the Auckland Technical Institute. Students who since January 1961 have paid a building levy five times or more at this or any other NZ University may be exempted from further payment of the levy. To claim the exemption such students must complete the appropriate application form obtainable from the Students’ Association Office and submit it to the Registry before enrolment week. Late applications will be considered but in no case after 30 November in the year for which the exemption is sought. If the levy was previously paid at another NZ University evidence of this should accompany the application.
Graduates or graduands taking one Certificate of Proficiency paper only but wishing to join the Students’ Association are exempt from payment of the building levy.

### WELFARE FEE

Welfare Fee $8.50*

All students are required to pay the Welfare Fee (with limited exceptions)

(i) The following students if they wish to use the Welfare Services must pay the Welfare Fee and the Students’ Association Fee.

- Students living outside Auckland and not using the University Facilities other than the Library who are enrolled only for thesis, dissertation or research essay.
- Students not required to pay the Students’ Association Fee (see under Students’ Association see para. (i) above).
- Students enrolled full-time at Auckland Teachers College, Auckland Technical Institute, North Shore Teachers College or Secondary Teachers College may pay a reduced Welfare Fee of $5. Evidence of having paid a welfare charge at the College or Institute in the same year must be produced at enrolment.
- Full-time members of staff who are enrolled for courses may not use the Welfare Services except by payment of standard charges for non-student users. The Student Health Service is available only in an emergency.
- Students sponsored by the United Nations for DipEnTech (Geotherm) and students under approved University exchange schemes may use the Welfare Services without payment of the Fee.

*These fees are liable to increase for the 1983 academic year subject to the Price Freeze Regulations.

### DISCIPLINE

Under the provisions of the University of Auckland Act 1961, the Senate has, subject to a right of appeal to the Council, the power to deal with all questions relating to the discipline of students. During the intervals between meetings of the Senate, and subject to a right of appeal to the Senate, the Vice-Chancellor may exercise alone the powers of the Senate as to discipline.

### DISCIPLINARY REGULATIONS

1. These Regulations may be cited as the Disciplinary Regulations 1972.
2. These Regulations shall come into force on 1 January, 1973.
3. In these Regulations unless the context otherwise requires:
   - ‘Class’ means any lecture, tutorial, seminar, laboratory, or other assembly of students at which tuition is being given and includes any lecture or address within the University at which students are present;
   - ‘Hall’ means any hostel or hall of residence or other student accommodation under the control of the Council;
   - ‘Student’ means a duly enrolled student of the University and includes for the purposes of Regulation 4 hereof a person applying so to enrol;
   - ‘Students’ Association’ means the Auckland University Students’ Association Incorporated;
   - ‘Warden’ means the person who is for the time being in charge of any Hall and includes his duly appointed deputies;
   - ‘The Act’ means the University of Auckland Act 1961 and its amendments;
   - ‘The University’ includes any institution under the control of the Council;
   - ‘University property’ includes property occupied by the University, property owned by any institution under the control of the Council, and any property held by the Crown on behalf of or for the purposes of the University.
   Words and expressions defined in the Act have the meanings so defined.
4(a) Every student shall on enrolling at the University sign a declaration in the following form or to the like effect:
   'I hereby solemnly promise that I will faithfully obey the rules and regulations of the University and be bound by the same.'
(b) The Senate shall have the power to impose conditions on the attendance at classes of any student and to obtain his undertaking to observe those conditions, either at his enrolment, or in the course of his attendance at the University in all cases where in the reasonable opinion of the Senate it is necessary so to do in order to prevent any possible disturbance to the carrying out of normal activities at the University or otherwise to maintain order and discipline.
(c) The Senate or the Discipline Committee of the Senate may as delegate of the Council exercise the powers conferred on the Council by s. 24 (2) of the Act without however preventing the Council from exercising those powers.
5. No student or other member of the University shall:
   (a) act in a manner contrary to the good government of the University or prejudicial to its functioning as such;
   (b) wilfully or recklessly damage or deface, or wilfully move without authority, any property of the University or any other property within the University; precincts;
(c) wilfully impede the activities of the University, whether in teaching, research or otherwise;
(d) wilfully create any nuisance in or on the University precincts;
(e) wilfully obstruct any officer or member of the University employed at the University in the due performance of his functions or of the work he is required to perform;
(f) be in a part of the University precincts in which he is not, at that time, entitled to be, knowing that he is not entitled to be there at that time;

(g) (i) start, ride, or park without prior permission, a cycle, a motorcycle, or a motor vehicle in University grounds;
(ii) fail to comply with the University Parking Regulations at all times;
(h) fail to comply with the directions on any notice erected with the authority of the Council and governing entry, speed and exit of vehicles, and the location of parking spaces;
(i) commit any criminal offence in the University precincts;
(j) smoke

(i) in the Library except with the permission of the Librarian; or
(ii) in any General Lecture Theatre; or
(iii) in any Seminar Room except with the express consent of all those present;
(k) commit a breach of any University Statute or Regulation or of any rule of conduct made by any person authorized by the Council or the Senate to make such rule, provided that the Statute Regulation or rule has been published in the University Calendar or that reasonable notice thereof has been given by other means, to students generally or to the student charged with misconduct, before the misconduct is alleged to have taken place.

6. No student shall
(a) knowingly fail to identify himself if required or to comply with such directions as may be reasonably made by the Vice- Chancellor, the Registrar, any Professor, member of the Senate, or Lecturer in order to maintain good order and discipline;
(b) knowingly fail to comply with any reasonable direction given to him by the person in charge of a group of students going to, engaged in, or returning from a field trip or any other academic activity conducted by the University beyond the University precincts, or, while a member of such a group, do anything which would constitute misconduct if done within the University precincts;
(c) fail to comply with any specific Departmental or Faculty Regulation in regard to appropriate dress in relation to safety or to professional courses;
(d) bring or consume alcoholic liquors within the precincts of the University for other than official functions except with the permission of the Senate. Permission for alcoholic liquors to be consumed at other functions will be subject to the following conditions.

(i) where the function is held in a lecture theatre, reading room, seminar room, staff study or staff common room, one senior member of the staff shall be present throughout the function;
(ii) where the function is held within the facilities under the control of the Student Union Management Committee, a senior member of the staff or a member of the Student Executive or a member of the Student Union Management Committee shall be present throughout the function;
(e) post student notices elsewhere than on the permanent notice boards provided for this purpose, and in accordance with the conditions laid down by the Students' Association.

7. The person in charge of a class may reprimand, or exclude from not more than three successive meetings of the class, any student whom he considers guilty of misconduct in class. Any exclusion from more than one meeting of the class under this Regulation shall be reported promptly to the Vice- Chancellor. A student reprimanded or excluded under this Regulation may appeal to the Vice- Chancellor or to the Senate for the matter to be reviewed. The Vice- Chancellor may suspend the operation of an order for exclusion from class until the appeal has been heard and determined.

8. The Senate shall have power
(a) to impose on any student who does not observe the provisions of these Regulations; or the conditions (if any) attached to his attendance at classes pursuant to Regulations 4 and 16 thereof; or any direction given under Regulation 11 hereof; or who otherwise commits any breach of University discipline; any one or more of the following penalties as it thinks fit.

(i) such sum by way of restitution as may be appropriate for any damage so caused;
(ii) a fine not exceeding $300;
(iii) a suspension from attendance at the University or any of its classes for such period as it thinks fit;
(iv) expulsion from the University;
(v) a limitation or prohibition on his attendance at any class or classes at the University or his use or enjoyment of any of the facilities of the University;
(b) to prohibit the sitting of examinations by any student who is in default with any payment due by him to
the University under these or any other Regulations or any Statute;
(c) to delegate the powers conferred on it by these Regulations to the Discipline Committee of the Senate without
thereby preventing itself or the Vice-Chancellor pursuant to Regulation 9 hereof from exercising any such
deleagated power.
9. The Vice-Chancellor shall have power (subject always to Regulation 14 hereof) to exercise all the powers and
authorities of the Senate under these Regulations and under the Act, including any powers delegated by the Senate
to any committee of the Senate, during the intervals between meetings of the Senate or that Committee.
10. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate or Lecturer shall have power
to report any student to the Discipline Committee for any breach of these regulations.
11. Any Warden shall have the power (subject always to Regulation 14 hereof)
(a) from time to time to give such directions as he reasonably thinks fit for the maintenance of good order and
discipline within the Hall under his charge provided however that all such directions shall if of general applic-
bition be exhibited on the main notice board of the Hall to which they relate forthwith after they are given;
(b) to impose as he thinks fit on any student who does not observe any of the directions so given, any one or more
of the following penalties:
(i) such sum by way of restitution as may be appropriate for any damage so caused;
(ii) a fine not exceeding $50;
(iii) a suspension from attendance at the Hall for such period as the Warden thinks fit;
(iv) expulsion from the Hall.
12. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate, or Lecturer may, in addition
to reporting any breach of these Regulations to the Discipline Committee, order any student to pay the cost of
replacing or repairing any University property lost, damaged or destroyed by reason of the wilfulness, negligence,
or misconduct of that student. Any penalty so ordered shall be paid within 14 days.
13. The Executive of the Students' Association shall (without prejudice to the powers of the Senate under s. 34(3)
of the Act) have power of disciplinary control over students within the Student Union Buildings or the precincts
of the Student Union Buildings and in exercise of that power may
(i) impose a fine not exceeding $25 on any student guilty of any act prejudicial to the maintenance of discipline
therein, and
(ii) (whether or not in addition to imposing a fine) order any student to pay as a penalty the cost of replacing or
repairing any property therein lost, damaged or destroyed by reason of the wilfulness, negligence, or misconduct
of that student.
14(a) All fines and other penalties imposed under Regulations 9, 11, and 12 hereof or by the Discipline
Committee under powers delegated to it under Regulation 8 hereof shall forthwith be reported to the Senate by
the person or body imposing them.
(b) Any student on whom a fine or other penalty is imposed under Regulations 9, 11 and 12 hereof or by any
committee of the Senate under powers delegated under Regulation 8 may within seven (7) days of imposition of
that penalty, by giving notice to the Registrar in writing, appeal to the Senate against it. The Senate may hear and
determine an appeal in such manner as it thinks proper.
(c) Any student who suffers any penalty under these Regulations by a decision of the Senate or the Discipline
Committee of the Senate or the Executive of the Students' Association or whose appeal under the preceding clause
of this Regulation is dismissed by a decision of the Senate may within seven (7) days of that decision, by giving
notice to the Registrar in writing, appeal against it to the Council which may hear and determine the appeal in
such manner as it thinks proper. The decision of the Council shall be final.
15(a) The grounds of Old Government House are open to all members of the University for their individual use
for the purpose of quiet recreation;
(b) No organised group activities will be permitted in those grounds without the specific permission of the
Vice-Chancellor, acting on behalf of the Council, given in each case and in such terms as are appropriate;
(c) Members of the University may bring guests into the University grounds but not into the grounds of Old
Government House except in terms of clauses (a) and (b) above;
(d) At all times, and more particularly at night, members of the University and their guests shall act in such a way
as not to cause disturbance or inconvenience to those living in the grounds (both occupants of Old Government
House and members of the custodial staff), or to residents in the immediate neighbourhood.
Notes: (i) If the above requirements are observed, no time limit on the use of the grounds will be necessary, nor shall there be any need for the
Police to be on the campus by invitation or otherwise.
(ii) Members of the University while in the grounds are free to observe demonstrations which may occur in the adjoining streets, but they are
reminded that the Statutory and Common Law powers of the Police enable the Police to enter the University campus and to take appropriate action
in relation to offences committed thereon and to prevent a breach of the peace.
(iii) Whenever it appears likely that demonstrations of the kind mentioned in note (ii) above will occur, the Vice-Chancellor shall consult with
the appropriate representatives of staff and students.
16(a) No member of the Security Service enrolled as a student at the University shall carry out any inquiries into security matters within the precincts of the University.

(b) The proposed attendance of a member of the Security Service at the University shall be discussed between the Security Service and the University Authorities before his enrolment.

17. After the discussions contemplated in the preceding sub-clause 16(b) have been held, the Senate shall determine each year what special conditions (if any) as to attendance at classes shall apply to students who are members of the Security Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.

18. Nothing in these Regulations shall prejudice the rights and remedies of the University under the general law in respect of the misconduct or negligence of any student.

THE LIBRARY

The University Library was established in 1884 with a grant of £37 for books which were 'to be bought in England and uniformly bound in full calf with golden lettering'. Since then the Library has grown into a collection of more than 900,000 volumes, excluding thousands of unbound periodicals, pamphlets, and reprints. Over 11,000 periodical titles are currently received. The Library has benefited by a number of generous gifts among them being the collection of books in Classics and Old Testament Literature bequeathed by the late Professor A. C. Paterson and an extensive collection of material relating to the Labour movement in New Zealand and other countries presented by Mr P. W. G. McAra.

The University Library comprises the General Library in the Library Building on the corner of Princes Street and Alfred Street, divisional libraries in Architecture, Biological Sciences, Continuing Education, Engineering, Fine Arts, Geography, Geology, Law, Medicine, Music, Science. In addition there are departmental reading rooms in a number of subjects. The General Library contains most of the books needed for undergraduate reading in arts subjects. It also contains more advanced material in Accountancy, Anthropology, Education, Geography, History, Languages and Literature, both classical and modern, Philosophy, Psychology.

A separate Undergraduate Reading Room has been opened in the former Ballroom of Old Government House. This contains 140 seats for readers and a collection of works in heavy demand.

More information about the Library, its services and organisation, can be found in the Library Guide and in the pamphlet Books and Reading Accommodation in the University of Auckland. These are available from the Information Desk in the General Library. Library tours are offered during the week preceding enrolment and during the first week of lectures. Readers are encouraged to seek assistance throughout the year from Reference Department staff.

LIBRARY REGULATIONS

1. These regulations may be cited as the Library Regulations 1970 and shall come into force on 1 January, 1971.

2. Except where otherwise stated

(a) these regulations shall apply to all sections of the University Library, that is, the General Library, Undergraduate Reading Room, Architecture, Biological Sciences, Centre for Continuing Education, Engineering, Fine Arts, Geography, Geology, Law, Medicine, Music, Science, and such other sections as may be added by the Senate;

(b) in these regulations 'books' includes all types of printed, written and photographic material, and (except where the context otherwise requires) gramophone records and tapes.

Summer Vacation

| 9 am - 5 pm |
| 9 am - 12 noon |
| (Wed - 8 pm) |

The Library shall be open on Sundays in first and second terms and August Study Break from 9 am to 5 pm and in third term from 9 am to 9 pm. No lending services shall be available on Sundays. The Library shall be closed on Anniversary Day, Waitangi Day, Good Friday, Easter Saturday, Easter Sunday, Easter Monday, Anzac Day, Queen's Birthday and for up to three weeks from and including Christmas Eve.
These hours may be varied at the discretion of the University Librarian and any variation shall be appropriately notified in the General Library.

Readers
4(a) All members of the University Council, all professors lecturers and junior lecturers, all enrolled students of the University, and all library, administrative and technical staff shall be readers for the purpose of these Regulations and may
(i) use all sections of the Library; and
(ii) on completion of such registration formalities as the University Librarian requires, borrow books from it; provided that no person shall be deemed an undergraduate member of the University unless he is currently enrolled as such.

(b) By special permission of the University Librarian any person not included among those authorised by clause (a) of this Regulation may be a reader and accorded full or partial use of Library facilities.

(c) The University Librarian may at any time require from any reader as a condition of that reader’s use of the Library and borrowing facilities that he pay to the University a sum of not more than $15 as a deposit to be applied in payment or part payment of any sum for which he may become liable under Regulation 6 (d). Any balance of the deposit shall be refunded on the termination of his use of the library.

(d) Persons admitted as approved readers under clause (b) of this Regulation may be charged an annual fee which shall be determined by the Library Committee from time to time*. No fee shall be charged retired members of the University staff or such persons as the Librarian may determine.

*The fee for 1983 will be $30.

Borrowing
5(a) No reader shall borrow any book otherwise than in accordance with these regulations.

(b) (General Library only). Borrowing starts at 9 am and ceases 20 minutes before closing time. No borrowing on Sundays. The hours during which books may be borrowed may be varied at the discretion of the University Librarian. Borrowers shall write their name and address clearly and legibly on the book card of each book and present book and card at the exit for stamping along with their identity card. The address given shall be that to which any notices should be sent. The desk assistant shall stamp the book with the date on which it is to be returned.

(c) Any person on leaving the Library shall on demand present all books and personal property for inspection.

(d) (General Library only). Any book on the open shelves which has a book card and date slip may be borrowed until the next end of term or for such shorter periods as the Librarian may decide. Borrowers shall be required to check the date stamped in the book by the desk assistant. Glass case books without ‘not to be borrowed’ labels may be borrowed for a fortnight only. All other materials shall be used only in the Library except that Teaching Staff and Postgraduate Students may borrow bound volumes of periodicals for fourteen days, and theses for fourteen days.

(e) Books from any section of the Library other than the General Library shall be borrowed direct from that Section.

(f) All books shall be subject to recall within 24 hours. Borrowers who fail to respond to a recall notice within 24 hours shall incur a fine of 50c plus 50c for each further 24 hours that the book is overdue. Borrowers who retain other books beyond the date for return stamped on the date slip incur a fine of 10c per day whether a notice has been sent or not.

(g) The librarian shall be under no obligation to notify borrowers when books are overdue and a fine may still be charged when books are returned after the date stamped, even though no notice has been received.

(h) Borrowers who wish to renew a book on limited loan for a further period may apply by letter (giving author, title and call number on the spine of the book) or in person, or (in the case of theses, periodicals or glass case books) by telephone. Renewal, will be refused if the book is reserved, and may be refused at the discretion of an authorised librarian. At the end of term, all out-standing books shall be returned or presented for renewal at the Lending Desk. They cannot be renewed by letter or by telephone at this time.

(i) Readers may reserve for borrowing one book a day by filling in a reservation card at the Lending Desk. The length of loan allowed shall depend on the number of other readers who are also waiting for the book. Borrowers who return limited loan reserve books late shall incur a fine of 50c per volume for each 24 hours the book is overdue.

(j) Books which are in heavy demand may be kept behind the Lending Desk. These Desk Copies shall be available for a specified period (advertised in the Library concerned) on surrender of the reader’s identity card and may not be removed from the Library except in the case of overnight loans. Failure to return Desk Copies on time shall incur a fine of 25c per volume for each quarter hour or part of a quarter for which the book is not returned.
(k) Teaching staff and postgraduate students may apply to borrow books from another library through the Interloans Assistant. Such books are subject to the conditions imposed by that library.
(l) The gramophone records held in the General Library shall be available for borrowing on payment of a subscription determined by the University Librarian from time to time.*
(m) Library books may be taken out of New Zealand only with the prior permission of the University Librarian.
(n) Authorised librarians may refuse to issue excessive numbers of books to any one reader.
*Current subscriptions are: students $9; staff and graduate borrowers $10.

**Discipline**

6(a) Bags, satchels and briefcases shall not be taken into the Library.
(b) Under no circumstances shall a book be passed on to another reader without being reissued in that reader's name. Where this regulation is broken the reader in whose name the book is issued shall remain liable for all fines payable by reason of failure to return a book which is overdue or recalled.
(c) Every reader shall immediately notify to the Library any change of his address and thereupon renew the borrowing of all books issued to him.
(d) (i) Readers shall be responsible for, and shall make good, any loss of or damage to books on loan to them or being used by them in the Library. In addition to the cost of replacement or repair, readers may be charged an administration fee of $5, whether or not the book if lost is subsequently found and returned in good order.
   (ii) The loss of a book shall be reported immediately to an authorised librarian.
   (iii) A lost book remains the property of the University, notwithstanding payment of the bill for its replacement, and must be returned if found. A refund (in whole or part, according to the condition of the book on return) will be made for it but the administration fee may be retained.
(e) No reader shall deface or mark any book.
(f) The reservation of seats in the Library shall not be permitted. Books and any other articles left for any length of time on chairs or tables may be removed by any of the Library staff. No responsibility is accepted for personal belongings left in the Library.
(g) Silence shall be observed in all public reading areas.
(h) Bottles of ink shall not be brought into the Library.
(i) No reader shall smoke or shall consume food or drink in any part of the Library open to readers.
(j) A warning signal will be given 15 minutes before closing time and all readers shall vacate the Library by closing time.
(k) Library fines or bills shall be paid at the lending desk of the Library concerned.
(l) Where a fine or charge is not paid within 14 days of becoming due.
   (i) the University Librarian may withdraw library privileges from the reader in default for such period as he thinks fit;
   (ii) the Senate may impose on the reader any of the following penalties; prohibit the sitting of examinations; withholding of examination scripts; refusal of re-enrolment for the next academic year; disqualification from graduation.
(m) No reader may borrow from the Library while any fine or charge payable by him is outstanding.
(n) Any authorised librarian may require any reader who is guilty of disorderly or improper conduct or of any breach of these regulations to withdraw from the Library and the University Librarian may withdraw library privileges from that person for such period as he thinks fit. Nothing in these regulations shall limit the application to the Library (where relevant) of the Disciplinary Regulations 1972.

**Note:** The unauthorised borrowing or removal of books is regarded as a serious disciplinary offence.

**Copyright**

7. Every reader using copying facilities in the Library shall duly comply with the laws on copyright.

**Note:** (i) Readers are warned that if a copyright work is copied the copying must be a "fair dealing for the purpose of research or private study only" to comply with the laws on copyright.

(a) No more than one copy of the work must be taken.
(b) No whole copyright work by any author can be copied.
(c) Single extracts must not exceed 4000 words. If a series of extracts is required, each extract must not exceed 3000 words to a total of 8000 words. In neither case must the total amount copied exceed 10% of the whole work.
(ii) These rules apply to coin-operated copying machines and not to photocopying supplied by librarians.
(iii) Failure to observe these rules may be treated as a breach of discipline. Users who are in doubt as to whether an item is in copyright should consult a member of the Library Staff.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ARTS

BA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations; for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Arts shall follow a course of study of not fewer than three years.
2. The course of study for the Degree shall consist of twenty-one papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II, and III.
3. Every course of study shall include at least fourteen papers selected from subjects in Group A in the Schedule.
4. Every course of study for the Degree shall include
   (a) at least six papers in one subject of which three are at stage III level;
   (b) at least eleven papers higher than stage I level selected from two or more subjects;
   (c) no more than eleven papers in any one subject.
5. Every course of study shall consist of four, five or six subjects:
   provided that in exceptional circumstances the Senate may, upon the recommendation of the Heads of Departments in which the candidate proposes to take advanced papers, approve a course consisting of more than six subjects.
6. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

Requirements for Particular Subjects.
7. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Science shall comply with such of the course Regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.

Botany, Chemistry, Economics, Geography, Mathematics, Physics, Zoology
8.(a) A candidate may with the permission of the Senate enrol for Stage II papers of a subject to which this Regulation applies without having been credited with the Stage I papers. If a candidate is credited with stage II papers he shall not also have the stage I papers of the subject credited to his course. If the examiner certifies that the candidate though failing a stage II paper or papers, attained the standard of a pass at stage I of the subject, the candidate shall have the appropriate stage I paper or papers credited to his course.
   (b) This Regulation applies to the following subjects:
      Botany   Economics   Mathematics   Zoology
      Chemistry  Geography  Physics

Chinese, Indonesian, Japanese
9.(a) A candidate with previous knowledge of any subject to which this Regulation applies may be required by the Senate to take stage II papers of that subject without having passed stage I papers. If the candidate passes stage II papers he shall be credited with stage II papers but shall not be credited with stage I papers as papers for any University degree of diploma. If the examiner certifies that the candidate though failing a stage II paper or papers, attained the standard of a pass at stage I of the subject, the candidate shall have the appropriate stage I paper or papers credited to his course.
   (b) This Regulation applies to the following subjects: Chinese, Indonesian, Japanese.

Law
10.(a) This Regulation applies (notwithstanding the provisions of Regulations 2, 3, 4, 5 and 6) to a candidate for this Degree who has been credited for this Degree with not less than fourteen papers (in this Regulation called 'arts papers'), of which three are at stage III level in one subject and six others are at a higher level than stage I.
(b) Where the candidate:

(i) has been credited with fourteen arts papers and
(ii) has been credited with the Degree of LLB or LLB (Hons) with five subjects from those listed in Parts I and II of the Schedule to this Regulation, of which at least two are from Part II — he shall be entitled to be credited with those five subjects as the remaining seven papers for this Degree.

(c) Where the candidate:

(i) has been credited with more than fourteen but less than twenty-one arts papers and
(ii) has been credited for the Degree of LLB or LLB (Hons) with one or more subjects from those listed in Parts I and II of 10(f) below then, if the Dean of the Faculty of Arts deems the subject or subjects (so credited) to be of sufficient weight, the candidate shall be entitled to be credited with it or them as the remaining paper or papers for this Degree.

(d) A candidate who has completed or is completing his course for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) under the Regulations published in the University of Auckland Calendar 1966, and who invokes this Regulation, may be credited with the subject Constitutional and Administrative Law in place of the subject Constitutional Law.

Music
11.(a) Except with the leave of the Senate, no candidate may advance in Music (that is take any papers in that subject beyond Stage I level) unless he has, before enrolling for any Stage I paper in Music, satisfied the Head of Department that he has attained a suitable standard in the subject.

(b) A candidate advancing in Music shall comply with Regulations 6 and 7 of the Regulations for the Degree of Bachelor of Music as if he were enrolled for that Degree.

Oral Work

12. In each of the subjects Chinese, Indonesian and Japanese a candidate shall be required to pass in the oral work as well as the written papers.

Cross-credits, Credit, and Exemptions

13.(a) Except in the case of students to whom Regulations 10 applies, the total cross-credits, credits and exemptions granted to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall not exceed ten papers for this Degree.

(b) In the case of students to whom Regulation 10 applies, the maximum number of cross-credits, credits and exemptions granted to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall be determined by the Dean.

14. Notwithstanding anything in these Regulations a candidate who has successfully completed:

(i) a course or courses at a Teachers' College under the control of the Auckland Teachers' Colleges Council; or
(ii) the requirements for a Certificate Course of the Centre for Continuing Education, as listed in the Schedule to Regulation 13 of the Enrolment and Course Regulations (General), may be granted credit for this degree as provided by that Regulation.
15. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of Study which does not conform to the foregoing Regulations. Such a course may include papers offered in other Faculties.

16. (a) Except as otherwise provided in this Regulation, the Course of Study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units under any of the former Regulations for this Degree, shall be credited with such equivalent paper or papers as the Senate shall determine.

(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.

(d) A candidate who gained credit in any paper or papers under any of the former Regulations may complete the Degree under these present regulations;

(e) These Regulations shall come into force on January 1 1981.

Schedule

1. This Schedule sets out paper numbers, prerequisites, corequisites, subjects, restrictions and other conditions applying to courses for the Degree of Bachelor of Arts.

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. (a) The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

(b) Where a prerequisite has been waived by a Head of Department and re-imposed as a corequisite the paper or papers as to which that corequisite is imposed may not be credited as a pass for the candidate's Course of Study unless and until he has passed that corequisite.

4. (a) The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year. Except as provided elsewhere in these Regulations or in this Schedule, if a corequisite of a paper is failed then the paper passed cannot be used as a prerequisite to other courses.

(b) Except as provided elsewhere in these Regulations or in this Schedule, the corequisites marked** in the Schedule are linked in the sense that they (i) must be attempted in the same year and will not be credited separately.

(ii) will be treated as a unit for the purpose of Examination Regulation 5(b), of the Examination Regulations.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

THE DEGREE OF MASTER OF ARTS

MA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Arts shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Arts, except as provided in Regulation 2 below, and
   (b) (i) have fulfilled the prerequisites for his subject as listed in the Schedule to these Regulations and have obtained a grade higher than an average of C in the Stage III papers in the subject he proposes to attempt for MA;
      (ii) provided that in special circumstances where the Head of Department so recommends the Senate may accept an average grade of less than C+ or waive such prerequisites as it thinks fit.

2. Subject to the Admission Ad Eundem Statum Regulations, a candidate may enrol for this Degree after having completed at least nineteen papers, including eleven papers at advanced level, for the Bachelor of Arts Degree, provided that
   (a) his proposed course for this Degree will extend over not fewer than two academic years;
   (b) he has obtained grades averaging B- or above in the advanced papers for the Bachelor of Arts Degree of the subject which he proposes to take for this Degree;
   (c) he satisfies the conditions in Regulation 1(b) above, or is exempted from them;
   (d) the remaining paper or papers for the Bachelor of Arts Degree are not in the subject which he proposes to take for this Degree nor prerequisite to it;
   (e) he enrolls for these two papers in the first year of his course for this Degree;
   (f) should he not pass the remaining paper or papers in the first year of his Master of Arts course, his Master's course shall be suspended until he has passed the remaining paper or papers.

3. A candidate for this Degree shall follow a course of study that may extend over one year or more according to the requirements for the respective subjects in the Schedule but, except with the special permission of the Senate, shall not exceed three years in duration.

4. A candidate presenting subject 17, Languages and Literature, shall satisfy the requirements of Regulation 1(b) (i) in respect of each of the languages in his course. A candidate presenting subject 21 Mathematics, shall satisfy the requirements of Regulation 1(b) (i) in respect of Mathematics and Applied Mathematics.

5. A candidate shall be required to fulfil the requirements and pass the examination in one of the subjects prescribed in the Schedule provided that the Head of Department may require a student who fails to achieve a sufficient level in his paper or papers to substitute a further paper or papers for a thesis, dissertation or research essay where these are prescribed.

6. Notwithstanding anything in Regulation 5, a candidate for this Degree may with the permission of the Senate take:
   (i) one Stage III or one Master's paper or:
   (ii) one Stage III and one Master's paper or:
   (iii) two Master's papers, in a subject other than the one in which he is taking his Degree, or:
   (iv) two Master's papers or one Master's and one Stage III paper in subjects that both differ from the one in which he is taking this Degree, if in each case such a paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.

7. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.

8. No candidate who has previously failed in a subject for this degree shall enrol a second time in the same subject without the permission of the Senate. For the purpose of this regulation, subject 17 Languages and Literature and anyone of the individual subjects which under Clause 16 of the appended Schedule may be used to make up a combined Languages and Literature course, shall be regarded as the same subject.

9. The personal course of study of every candidate must be approved by the Head of Department.
Theses
10. Where a thesis is required the following conditions shall apply.
(a) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch
of the subject; or with the approval of the Senate shall consist of a review of the literature of some special
problem, which may be combined with the repetition of some standard investigation on an aspect of that
problem.
(b) In the case of a thesis recording laboratory work, a certificate shall be supplied to the Registrar by the
supervisor stating that laboratory work has been carried out within the University.
(c) Except where otherwise provided in the schedule, the candidate must present his thesis in the year in which
he first sits papers for his degree or, with the consent of the Head of Department concerned, in either of the
subsequent two years, provided that the time may be extended, in exceptional cases, by Senate.
(d) The candidate shall submit his thesis to the Registrar by 1 November of the academic year in which it is
presented or at a subsequent date within that academic year if so arranged with the Head of his Department.
The Registrar shall deliver the thesis to the Head of the Department concerned.
(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered
satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later
date specified by the examiner and approved by Senate.

II. Where a dissertation or research essay is required the following conditions shall apply.
(a) The candidate shall present the dissertation or research essay in the year prescribed under the appropriate
Departmental heading in the Schedule
(b) Except as provided in the Schedule, the candidate shall submit the dissertation or research essay to the
Registrar by 1 November in the year in which it is due to be completed or at a subsequent date within the
same academic year if so approved by the Head of Department concerned, provided that the period may be
extended, in exceptional cases, by Senate. The Registrar shall deliver the dissertation or research essay to the
Head of Department.

Note: An abstract is to be submitted with each copy of a thesis, dissertation or research essay, see Examination Regulation 14.

Honours
12(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall be awarded only if a candidate obtains a sufficient standard in the papers taken and in the
thesis at its first presentation, provided that, subject to sub-clause (c) of this Regulation, a candidate who qualifies for an aegrotat or compassionate pass may retain eligibility for Honours by applying:
(i) for an aegrotat or compassionate pass in papers not in excess of the number permitted to a candidate for Honours under the Examination Regulations, or
(ii) to sit or resit in the year next following all the papers affected, or
(iii) for a pass or passes under (i) and to sit or resit the remainder as in (ii) above.
(c) A candidate permitted under Regulation 3 to take a course of study for this Degree for a longer period than
three academic years shall not be eligible for honours unless the Senate so decides.
13. A candidate shall not take for this Degree a subject in which he has already passed for the Degree of Master
of Commerce, or for the Degree of Master of Science, or as a principal subject for the Degree of Bachelor of
Science (Honours).
14. The Senate, upon the recommendation of the Head or Heads of Departments concerned, may, in such
exceptional circumstances as it thinks fit, approve a personal course of study which does not conform to the
foregoing Regulations or to the Schedule below.

Schedule

(1) Ancient History
Prerequisites: Eight papers in the subject of Ancient History including three Stage III papers OR six papers
in Ancient History if a student has passed three Stage III papers in Latin or Greek.
Requirements: Four papers and a special subject which counts as two papers and an essay which counts as one
paper.
The papers shall be selected from 12.400--12.414, except that one paper not already taken may be taken from
12.300--12.332. The special subject shall be one of those from 12.502/512 to 12.520/12.530.
Normally a candidate shall present three or four papers in the first year and the remaining paper (if any), the special subject (2 papers) and essay (12.603) or dissertation (12.604) in the next year following. A candidate in full time employment, or with other demanding responsibilities may be permitted by the Head of Department to take three papers in the first year, the special subject in the second year and one paper and the essay or dissertation in the third year OR (with special permission) two papers in the first year, the special subject and one paper in the second year and one paper and the essay or dissertation in the third year. Other combinations may be approved by the Head of Department in special cases provided that candidates for Honours must complete the work within three years.

(2) Anthropology

Prerequisites: Either eight papers in Anthropology and Maori Studies, or Anthropology and Linguistics, including three Stage III papers in Anthropology;

Requirements: Seven papers, or four papers and a thesis (03.601) which counts as three papers. The papers shall be selected from 03.400 to 03.419, 03.300 to 03.333, 83.300 to 83.310, 04.302 to 04.307 with no more than three papers from the following group of papers: 03.300 to 03.333, 83.300 to 83.310, 04.302 to 04.309.

A candidate shall present four papers in the first year and if taking seven papers, present the remaining papers in the following year.

A candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of Department to present three papers in the first year, or in special circumstances, two papers in the first year, and if taking seven papers, shall present all papers within three years of first enrolment for the Degree.

(3) Art History

Prerequisites: Eight papers in the subject of Art History including three Stage III papers plus a pass in Stage I of Greek, Latin or a modern European language other than English.

Requirements: Four papers and a thesis (19.601) which counts as three papers. The papers shall be selected from eight papers 19.400 to 19.409; or three papers 19.400 to 19.409 and one paper from options prescribed for Art History III; provided that no paper that has been credited to the degree of Bachelor of Arts shall be taken for this Degree, and that papers 19.305 and 19.401 may not both be taken for this Degree. A candidate shall present the four papers in the first year: except that a candidate in full-time employment or with other demanding responsibilities may be permitted by the Head of Department to spread the papers over two years, at least two being taken in the first year.

(4) Asian Studies

Prerequisites: Three Stage III papers in an Asian language: and such Stage II or III papers in the other subjects as the respective Heads of Departments shall approve.

Requirements: Five papers and a thesis (97.601) which counts as two papers; or six papers and a dissertation or research essay (97.604) which counts as one paper.

In either case candidates shall include three papers selected from those available at Masters level in Chinese, Indonesian or Japanese subject to the approval of the Head of Department. The remaining two or three papers shall, subject to the approval of the Heads of Departments, be selected from the Masters papers in one or two different subjects. At the discretion of the Heads of Departments one Stage III paper may be substituted for one of these Masters papers. In the thesis or dissertation, sources in the Asian language being studied will be used.

(5) Chinese

Prerequisites: Eight papers in the subject of Chinese including three Stage III papers.

Requirements: Six papers and a dissertation (48.604) which counts as one paper.

Papers 48.400 and 48.401 and four others selected from 48.402 to 48.417.

A candidate may present the six papers and a dissertation in the same year or four papers in the first year including 48.400 to 48.401, and the two papers and dissertation in the year next following. The dissertation must be presented by 1 November in the second year of the course provided this period may be extended to 28 February of the following year with the permission of the Head of Department and provided further that the time may be extended by the Senate in special cases.

(6) Economics

Prerequisites: Eight papers in the subject of Economics including three Stage III papers.
Requirements: Six papers; or four papers and a thesis (13.601) which counts as two papers; or five papers and a research essay (13.603) which counts as one paper. The papers shall be selected from 13.400 to 13.413. A candidate presenting five papers and a research essay or six papers shall either present all papers and the research essay in the same year or, having presented four papers in the first year, present the remaining two papers or the one paper and research essay in the year next following.

(7) Education
Prerequisites: Eight papers in the subject Education including three Stage III papers.
Requirements: (i) Four papers and a thesis (14.601) which counts as three papers. The papers shall be selected from 14.400 to 14.418. OR (ii) Four papers and a folio of casework (14.606) in the area of guidance and counselling with associated seminars counting three papers. The four papers shall include 14.405, 14.410 and two other papers approved by the Head of Department. No more than ten students chosen on academic criteria and personal qualities may in any one year be permitted to prepare a folio of casework in guidance and counselling. Those not so chosen may complete this Degree by presenting a thesis. OR (iii) Four papers and a folio of casework (14.607) in the area of reading problems with associated seminars counting three papers. The four papers include 14.407, 14.412 and two other papers approved by the Head of Department. No more than ten students chosen on academic criteria and personal qualities may in any one year be permitted to prepare a folio of casework and attend a seminar course on Achieving Change in Low Reading Performance. Those not so chosen may complete this Degree by presenting a thesis. OR (iv) Five papers and a thesis (14.611) which counts as two papers. In exceptional circumstances the Head of Department may permit a candidate who has commenced a thesis or folio of casework instead to complete the MA as either: (v) Six papers and a dissertation (14.604) which counts as one paper OR (vi) Seven papers.

A candidate may, with the consent of the Head of Department, be permitted to present three papers or two papers in the first year and remaining papers in the year next following.

Note: In considering applications to attempt two or three papers only in the first year, the Head of Department may take into account the extent of a student's employment or other responsibilities outside the University.

(8) English
Prerequisites: (i) Two approved papers in a language other than English (normally two Stage I papers of a European language or two approved language papers from Maori Studies) and (ii) Eight papers in English including 3 papers at Stage III chosen in accordance with the corequisites.
Requirements: Seven papers; or five papers and a thesis (18.601) which counts as two papers; or six papers and a dissertation (18.604) which counts as one paper. A research essay (18.603) may be substituted for the dissertation. A candidate presenting (a) Seven papers or (b) Six papers and a research essay or dissertation shall present all papers or all papers and the research essay or dissertation in the same year or, having presented four papers in the first year, present the remaining three papers or two papers and research essay or dissertation in the year next following. Other combinations may be presented only with permission of the Head of Department, provided that no candidate may present fewer than three papers in the first year. The papers shall be selected from 18.400 to 18.407, 18.409 to 18.422, 18.424 to 18.428 and from (but shall include not more than one of) the Stage III English papers for the Degree of Bachelor of Arts.

(9) French
Prerequisites: Eight papers in the subject French including three Stage III papers.
Requirements: Seven papers; or four papers and a thesis (34.601) which counts as three papers. Paper 34.400 and either six or three papers selected from 34.401 to 34.423. Paper 34.421 may only be taken with the permission of the Head of Department. A candidate presenting seven papers shall either present all papers in the same year or having presented four papers, one of which shall be paper 34.400, in the first year, shall present, with the approval of the Head of the Department, his thesis or the remaining three papers in the year next following. Other combinations may be presented only with permission of the Head of Department, provided that no candidate may present fewer than three papers in the first year.
(10) Geography

Prerequisites: Eight papers in the subject Geography including three Stage III papers.

Requirements: Four papers and a thesis (20.601) which counts as three papers. A candidate shall present four papers in the first year, and the thesis in the following year. In exceptional circumstances a candidate may, with the consent of the Head of Department be permitted to present the papers in two consecutive years with at least two papers in the first year, the thesis then being submitted in the third year. Papers shall be selected from 20.400 to 20.442.

(11) German

At the discretion of the Heads of Departments one Stage III paper may be substituted for one of these Masters papers. In the thesis or dissertation, sources in the Asian language being studied will be used.

BIOLOGY: DEPARTMENTS OF BOTANY AND ZOOLOGY

Biology for BA
This is a Stage I course for students who do not plan to take a science degree. The course is intended as a general survey of the biological sciences, with elementary chemistry, physics and mathematics being introduced as necessary. The course cannot be used as a prerequisite for advanced Botany or Zoology. The two courses in the Biology for Arts series are taught in alternate years.

39.111 Unifying Concepts in Biology
Taught during 1983.

39.112 Biological Diversity and Functions

DEPARTMENT OF CLASSICS AND ANCIENT HISTORY

The Department of Classics and Ancient History includes six subjects. Latin, Greek and Ancient History are taught to MA with Honours level, Classical Studies, Biblical History and Literature and Hebrew at Stage I only. Hebrew II and Biblical History and Literature II will not be available until further notice.

Students should note that in the Classics and Ancient History Department most of the language papers at Stage I and II, and the basic papers at Stage III, are normally linked to other papers and must be taken, and passed, concurrently; the Ancient History papers may all be taken individually by students with the necessary prerequisites and corequisites, but students wishing to advance beyond Stage I should plan their courses carefully in consultation with a member of staff.

An MA with Honours in Latin and Greek (Combined Honours) requires that students pass Latin III and Greek III before enrolling in their MA year.

Students planning this course should therefore start Latin and Greek together in their first year. Students who have taken the scholarship papers in Latin or Greek or who are sufficiently advanced in their studies may be enrolled for Stage II papers in place of Stage I papers. Such students should see the Head of Department at the earliest possible date.

One paper in Elementary Latin (09.102) is now available for those students who have not passed V.E. Latin. It is intended that students with no Latin at all should be able to take this course, which is designed to lead on to Latin in a subsequent year, as well as to equip a student with the linguistic knowledge required for reading the documentary source materials needed for Ancient and Medieval History and for Renaissance Studies in many subjects.

Students who intend to advance to MA with Honours in Latin or Greek are strongly advised to enrol for the other as well in their first year. The prerequisites are stated in the MA Degree Course Regulations.

Students who intend to advance to Stage III in Ancient History are required to cope with documents in an ancient language, and must pass a prerequisite paper before enrolling for Stage III. The prerequisite
Faculty of Arts, Degree Prescriptions, Latin

1983 Calendar

Faculty of Arts, Degree Prescriptions, Latin

paper for Paper 12.300 and 12.320 is 12.210, for 12.322 and 12.332 is 10.100, for 12.303 is 09.102.
After 1977 all students must fulfil these prerequisites. Students who wish to take the Greek or Latin options
at MA are advised to enrol in Greek or Latin papers in their first year, and do more than the prerequisite
minimum. Students who wish to take the Egyptian option must pass paper 12.310 before enrolling for
MA, and 12.410 before enrolling for papers 12.520/530. As much of the scholarly work on Ancient His-
tory (especially Egyptian and Akkadian subjects) is in foreign languages, students planning to take these
options should enrol for German I and French I papers in their first year preferably. Students planning to take these
options should enrol for German I and French I papers, in their first year preferably. Students who wish to take the Egyptian
option must pass paper 12.310 before enrolling for MA, and 12.410 before enrolling for papers 12.520/
530. As much of the scholarly work on Ancient History (especially Egyptian and Akkadian subjects) is in
foreign languages, students planning to take these options should enrol for German I and French I
papers, in their first year preferably. Students should note that Greek III and Latin III may be used as the
Stage III prerequisite to Ancient History MA with Honours provided that six Ancient History papers
have been passed (see the MA Degree Course
Regulations).

Students who intend to take Latin or Greek are ad-
vised that Ancient History papers, at least in the field
relevant to their language, will be most useful, espe-
cially for those advancing beyond Stage I, since out-
lines of Roman (Greek) History are now no longer
taught within the language courses. Students consid-
ering enrolling for any subject in the Department are
strongly advised to come and see a member of staff
during the pre-enrolment period. External students
should consult the Department as early in the year as
possible.

Note:
*This paper will not be taught during the current Calendar year.
†This paper will not be taught during the current Calendar year unless
sufficient staff is available.

DEPARTMENT OF ENGLISH

Notes (i) Since the supply of text-books continues to be uncertain, some changes in courses may be unavoidable. Students will be notified of any such changes at the beginning of the academic year. The books mentioned in the appendix are prescribed books - ie those which students must have. Students should obtain from the department the fuller version of prescriptions and book lists, which include recommended books (ie additional to those prescribed) and also lists of further prescribed books which are required for those papers not mentioned in the appendix. All students should possess a good Dictionary: Collins English Dictionary and the Concise Oxford are recommended. (ii) Attention is directed to the MA prerequisites as set out in the regulations for that degree. Students intending to take MA in English should plan their courses with these requirements, particularly that of a foreign language in mind.

English I
To advance to English II two English I papers must have been passed. Students intending to advance papers at English II are advised to take 18.100. Paper 18.100 has one lecture weekly for the whole year. The other papers have one lecture per week with an additional weekly lecture for half the year. All courses have weekly tutorials.

18.100 Introduction to Chaucer, Shakespeare and the Study of Language
18.101 Twentieth Century Literature
18.103 New Zealand Literature
18.104 Nineteenth Century Literature

English II

To advance to English III three specific English II papers must have been passed. See BA Schedule under English II: Qualifications. Each paper involves one lecture per week; tutorials are also given.

18.327 Special Topic IV as prescribed by the Head of Department: Australian Literature

18.328 Special Topic V as prescribed by the Head of Department: Creative Writing

Entry to this course is restricted. Details for the procedure to be followed for pre-enrolment are available from the Department.

Note: 18.301 and 18.302 are normally prerequisites for MA paper 18.403. 18.301 is a prerequisite for MA paper 18.400, 18.302 is a prerequisite for MA paper 18.411 and normally a prerequisite for 18.401. 18.301 is normally a prerequisite for MA paper 18.402.

English for MA and Honours

Note: Intending MA students who are in doubt about the choice of courses should consult the Head of Department.

(1) Single Honours – English

Students will select seven of the papers set out below, their selection of papers to be approved by the Head of the Department. One paper listed under Stage III English, if not already credited for a BA degree, may be offered as a paper for an MA. Not more than three papers may be taken from the period after 1930. With the permission of the Head of Department, a thesis (18.601) may be substituted for two papers or a dissertation (18.604) or a research essay (18.603) for one paper. The dissertation may take the form of a documented essay of about 25,000 words; the thesis will normally be longer, and will be upon a topic requiring detailed research. Candidates who propose to present their papers over two years will normally be required to submit specified coursework before sitting the examination for each paper. Those who present all their papers in one year will be given the opportunity to submit coursework. All students taking a paper from English III will be required to submit the prescribed coursework for that paper.

DEPARTMENT OF GERMANIC LANGUAGES AND LITERATURE

The Department of Germanic Languages and Literature teaches two subjects: German and Scandinavian Studies.

Information about the Department is contained in the Departmental Handbook and the Handbook of the Faculty of Arts, both of which are available from the University Office.

Students intending to take an MA course should at all stages throughout their undergraduate studies consult the Head of Department concerning their degree structure, and should note carefully in the Departmental Handbook the strong recommendations concerning related subjects.

*This paper will not be taught during the current Calendar year.
†This paper will not be taught during the current Calendar year unless sufficient staff is available.

GERMAN

German I
Most students enrolling for German I have studied German previously. They are divided, on the basis of their knowledge, into streams. Each stream has five
hours of teaching per week.
Students may enrol without previous knowledge of the subject. Such students have a different syllabus (including prescribed texts) from the rest of the class, and receive a total of six hours of teaching throughout the year.
Papers 22.100 and 22.101 are linked corequisites. A candidate’s result will be determined over the two papers. See BA schedule.
In determining the final result, the candidate’s performance during the year and in particular his performance in class tests, will be taken into consideration.

22.100 Language acquisition
Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.101 Literature and texts
Selected works of German literature for translation and comment. Literary criticism.

22.102 Aspects of modern German civilization
This paper is open to any interested student, whether or not he or she is studying German language and literature. The paper is strongly recommended to students of German at all stages.
A survey of modern German history, thought and culture (i) Aspects of 19th and 20th century German history and thought; (ii) Literature (studied in translation), music, art and cinema of the period.

22.103 Reading Knowledge for Arts students in selected disciplines

German II

A candidate’s result will be determined over the three papers. Papers 22.200, 22.201 and 22.202 are linked corequisites – see BA Schedule.
In determining the final result, the candidate’s performance during the year and in particular his performance in literature assignments and in class tests, will be taken into consideration.

22.200 Language acquisition
Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.201 Selected aspects of German literature and language

22.202 Aspects of 20th Century German literature

German III

A candidate’s result will be determined over papers 22.300, 22.301 and 22.302, which are linked corequisites. For the purposes of BA regulation 4 (a) these three papers must normally be taken. In determining the final result, the candidate’s performance during the year and in particular his performance in literature assignments and in class tests will be taken into consideration.

22.300 Language acquisition
Written and oral use of German tested in some or all of the following ways: translation, composition, comprehension, conversation, dictation.

22.301 Medieval and Romantic texts

22.302 Classics of Modern German literature
Students who have passed, or are taking concurrently, papers 22.300, 22.301 and 22.302 may, with the permission of the Head of Department, take up to three approved papers which are prescribed for German MA and Honours. Recommendations for background reading for all papers will be circulated.

German for MA and Honours

Students intending to enrol for MA must consult the Head of Department towards the end of the previous year to discuss optional papers and to obtain advice on vacation reading.

(1) Single Honours – German
Seven papers comprising 22.400 and six others, to be selected with the approval of the Head of the Department. With the approval of the Head of Department five papers and a thesis (22.601) may be offered. No student may offer for MA any paper in which he or she has already been credited with a pass.

24.208 Early Modern Spain and its Silver Colonies
(first half of year)
The growth of the powerful Spanish monarchy from the late fifteenth century, together with its colonisation of Mexico and Peru. In the seventeenth century, the emphasis is on the weakening of the Crown and the erosion of metropolitan control over the two colonial societies. The focus of the paper is Habsburg Spain.

24.212 The French Enlightenment
(second half of year)
A study of eighteenth-century French thought with some attention to its seventeenth-century background. An essential part of the course will be the study in translation of some specified works by Montesquieu, Voltaire and Diderot.

24.213 Society and Revolution in France 1750–1800
(second half of year)
The social and economic development of France, focussing on the medium-term background to the Revolution at the end of the eighteenth century. Specific topics include population growth, religiosity, industrialisation, urbanisation, popular mentalities, criminality and the development of institutions.

24.214 Parliaments, Estates and Revolutions, 1550–1660
(first half of year)
A study of representation and consent in early modern Europe and of the parliamentary assemblies which were the embodiment of these principles. The course falls into two parts: a static, institutional study of assemblies in the mid-sixteenth century; and a dynamic study of the rise, decline, or eclipse of those assemblies, and particularly of their role in the crises of the mid-seventeenth century.

24.215 Society in Crisis: Europe 1550–1660
(second half of year)
This course — with an emphasis on social history — attempts to capture something of the ‘flavour’ of the world of sixteenth- and seventeenth-century Europe as well as providing students with an introduction to some of the more important events of those centuries. Particular attention will be paid to three examples of crisis: the Thirty Years War, the English Revolution, and the French Fronde.

24.230 Polynesian and European Exploration of the Pacific
(first half of year)
European exploration of the Pacific and theories on the origin and migration of Polynesians, including Maori voyages to New Zealand.

\textbf{24.302 The Reign of Henry VIII}

(first half of year)

A study (involving the extensive use of primary sources) of King, Court, and Kingdom in the throes of a political revolution imposed from above and a religious reformation initiated from below.

\textbf{24.303 The History of the Family in France and England}

(second half of year)

The social and demographic aspects of the family. The twin foci are the relationship of the family to its social, economic and political environment, and relationships among various members of the family. Specific topics of study include: household structure, the law and practice of marriage and divorce, the social relationship of women and men, child-rearing, sexuality, inheritance practices, and contraception.

\textbf{24.304 The Habsburg Empire 1848–1918}

(first half of year)

The problems of the central administration of the Empire and its political and ethnic components. Foreign policy to be dealt with only insofar as it throws light on the Empire’s problems and fate.

\textbf{24.307 The Origins of the First World War}

(second half of year)

The origins of the First World War through discussion of the foreign policies of the main European countries involved, including Italy, and an analysis of international relations from 1870, and particularly from 1890 to 1915.

\textbf{24.309 British Labour History 1850–1918}

(first half of year)

The conditions of life and work of the lower classes and the evolving nature of the industrial and political labour movements.

\textbf{24.310 The American Civil War and Reconstruction}

The problems of slavery, race relations, and sectionalism in nineteenth-century America.

\textbf{24.314 Race in the Antipodes: New Zealand, Australia and South Africa in the 19th Century}

(first half of year)

The evolution of ideas about race in the nineteenth century with case studies of New Zealand, Australia and South Africa.

\textbf{24.315 Pacific History: culture contact to about 1900}

(first half of year)

The relations between Pacific Islanders and Europeans (explorers, traders and missionaries) up to the colonial period.

\textbf{24.320 Special Topic}

To be prescribed by Head of Department

\textbf{24.321 American Labour History 1865–1940}

(second half of year)

Economic and social conditions of manual workers; racial, ethnic and cultural divisions; mobility and class; trade unions; socialism and labour in politics.

\textbf{24.322 Women in New Societies}

(first half of year)

A comparative study of women’s history in New Zealand, the USA and Australia.

\textbf{24.325 Special Topic}

To be prescribed by Head of Department

\textbf{24.326 Aspects of the History of European Antisemitism}

(second half of year)
Introductory lectures will be given on attitudes to the Jews in the Ancient World, the New Testament, the Church Fathers and the Middle Ages. The main emphasis will be on the period since the Enlightenment. German anti-semitism will be stressed and other topics will also be selected for study, including anti-semitism in France, fascist Italy, the Habsburg monarchy and its successor states, and Russia.

**24.327 Communism in Western Europe**  
(second half of year)  
Communism in Western Europe from the Russian Revolution to the present. Topics include the German Revolution of 1918, Gramsci and Italian Communism, the British general strike of 1926, the French Popular Front, Spanish Civil War, the Resistance and recent trends in Eurocommunism.

**24.328 Religion in Changing Societies**  
(second half of year)  
A study of religion in mid-nineteenth century Britain and how that religion fared when transplanted to Australia and New Zealand.

†**24.329 Special Topic**  
To be prescribed by Head of Department

**24.331 Justinian: Triumph or Disaster?**  
(second half of year)  
Did Justinian restore to a shattered empire unity, efficiency, and taste? Or did he destroy the political stability of Africa, Italy, and Gaul, and overlook new dangers in Persia and the Balkans?

**24.332 Early Monasticism**  
(first half of year)  
This paper traces the development and wider impact of Christian asceticism, in all its forms, but particularly coenobitic, and in both East and West, from its origins, particularly after the mid-third century, until, but probably not including, Benedict.

**24.333 A History of Medieval Europe from Charlemagne to Philip the Fair**  
(first half of year)  
Designed as a successor to 24.201, this paper will cover approximately the same period (c.800–c.1296) and will deal with the political and cultural history of medieval European States (excluding England).

**24.334 Britain and Russia: a Century of Conflict**  
(first half of year)  
During the nineteenth century one of the major factors in the formulation of British foreign policy was fear of the growth of Russian power. What was British policy in response? To what extent does an examination of Russian foreign policy warrant the nineteenth-century British interpretation of it?

**24.335 Historical Biography in New Zealand**  
The art of biography and its problems, including those of psycho-biology, with particular reference to biographies of New Zealanders and biographies written in New Zealand.

**24.336 Popular Culture in Early Modern Europe**  
(second half of year)  
The attitudes and values of ordinary people in Europe c.1500–1750; in other words popular culture in the widest sense of the term. Topics will include political and social protest, religion and irreligion, witchcraft, healing, literature, recreations — though students will have the opportunity to concentrate on specific areas of interest. Other regions will be discussed, but the emphasis will be on England.

Note: Each of the above papers will be taught for half of the year, one one-hour and one two-hour period per week in the following sequences: 24.302–24.336; 24.304–24.326; 24.334–24.307; 24.309–24.321, 24.315–24.301; 24.322–24.303, 24.333–24.327; 24.314–24.328, 24.332–24.331. Second half year papers will start in the week beginning 20 June. Should their timetable permit, students may take a single paper or two or more papers from different sequences. But it may prove impossible owing to pressure of numbers in certain classes to allow students to enrol for all the papers of their first choice.

**24.337 A History of Medieval Europe from Charlemagne to Philip the Fair**  
(first half of year)  
A survey of British imperialism in the Southeast Asian context from the late eighteenth century to the year following the Second World War, with an emphasis on selected topics and areas.

**24.330 British Imperialism in Southeast Asia**  
(first half of year)  
A survey of British imperialism in the Southeast Asian context from the late eighteenth century to the year following the Second World War, with an emphasis on selected topics and areas.

Note: Each of the above papers will be taught for half of the year, one one-hour and one two-hour period per week, in the following sequence: 24.324–24.312; 24.330 will be taught in the first half of the year. Second half year papers start during the week beginning 20 June.
History for MA and Honours

Five papers and a research essay (24.603) counting as one paper; or, with the permission of the Head of Department, four papers and a thesis (24.601). The research essay must be on a subject connected with one of the candidate's formally examined MA papers or, with the permission of the Head of Department, with one of the papers passed at History III. The thesis shall not exceed 50,000 words and two copies must be handed in to the Registrar. The research essay shall be between 10,000 and 20,000 words and two copies must be submitted to the Registrar. Candidates presenting a research essay may attempt the five papers and present the essay in one year, or attempt four papers in the first year and present the remaining paper and research essay in the second year, or with the permission of the Head of Department attempt three papers in the first year and present the remaining two papers and research essay in the second year. Candidates presenting a thesis must attempt four papers in the first year.

Students attempting the one-year MA must present their research essay by the last day of February in the calendar year following the examinations. Other students attempting research essays must present them by 1 December of the second year of the course. For the date for theses, see MA Regulations I0 (d). Students writing theses or research essays are expected to report regularly to their supervisors and to attend monthly graduate seminars on research methods.

24.404 Kings, Lords, and Commons: Tudor Government and Society 1485-1603

Note: (i) Only students who have previously studied New Zealand (eg 24.120, 24.121 or 24.406) may take this course.
(ii) With the permission of the Head of Department this course may be substituted for the research essay 24.603.

24.420 China's Struggle for Modernity: The Republican Era
An examination of China's fragmentation under the warlords and its tortuous development towards a new national unity.

*24.421 Special Topic
To be prescribed by Head of Department

*24.422 Special Topic
To be prescribed by Head of Department

24.423 Marxist Historians and their Critics
This paper is a concentrated study of historical method and debate. It is divided into three main sections. Section one deals with the contributions, methodologies and development of some prominent Marxist historians. Section two examines some specific controversies involving Marxist historians. Section three discusses some classic statements about the nature and value of history, using anti-Marxist, non-Marxist, and Marxist examples.

Note: (i) There is no guarantee that all the papers listed above will be available in any one year.
(ii) If enrolment for any MA paper falls below five, students will be given the option of transferring to another MA paper. As an alternative it may be possible in some cases to arrange for the paper to continue as a reading course, meeting once a fortnight.
(iii) All students intending to enrol for MA must see the Head of Department before formally enrolling, preferably at the end of the previous year.

Music III

Music for MA and Honours
Restriction on entry to Courses:
1. Interview by Board of teaching members of Music Faculty; and
2. Performance where applicable.
A candidate reading for this Degree will be required to satisfy the Head of Department of Music of his proficiency as a performer and his ability to read an approved language other than English. (Four papers and a Thesis (28.601), which counts as three papers).

Note: (1) The availability of these papers will depend on the number of students and their choice of papers.
(2) The specific requirements for choice of papers are given in MA Schedule (22).

DEPARTMENT OF PHILOSOPHY
Full details concerning the Philosophy Department, the content of its courses and its requirements of students are contained in a brochure entitled Department of Philosophy: Course Outlines. A copy can be obtained from the Philosophy Department Secretary, Room 214, first floor, Old Arts Building, Princes Street. The brochure also contains a full list of textbooks for each course. Students are strongly advised to consult the brochure and to seek advice from the Department concerning their proposed Course of Study before enrolment. Students enrolling in Philosophy must obtain a copy of the brochure.

All students who propose to enrol in Philosophy III from 1980 onwards will be required to have passed paper 29.208 Metaphysics II. Those who have passed Philosophy II papers in years up to and including 1978, but not 1979, and who have satisfied the prerequisites for Philosophy III as listed in the BA Schedule during those years, will be permitted to enrol in Philosophy III in subsequent years.
Prerequisites and corequisites for the various papers offered by the Department are set out in detail in the BA Schedule. Students should note that paper 29.101 is a prerequisite for some Philosophy III papers. Students may be able to obtain an exemption from the prerequisite or corequisite requirement of 29.101 for various papers by passing a special examination in logic to be held immediately before enrolment week. Interested students should see the Head of Department at the earliest opportunity, preferably before the vacation, as some study through the vacation will be needed. A pass in the special examination carries no credit towards a degree.

Philosophy I
Note: Two hours per week for each paper including lectures and tutorials.

29.100 Introduction to Metaphysics and Theory of Knowledge

29.101 Introduction to Logic

29.102 Ethics

29.103 Social Philosophy

Philosophy II
Note: (i) Paper 29.208 is a prerequisite for all Philosophy III papers.
(ii) One two-hour period per week for each paper other than 29.201 (two one-hour periods per week).
(iii) The prerequisite for all Philosophy II papers is a pass in two Philosophy I papers.
(iv) Students majoring in a subject other than Philosophy who wish to enrol in Philosophy II papers and who have not passed any Philosophy I papers may enrol if the Head of Department deems they have adequate background in the subject matter of the papers.

Philosophy for MA and Honours

Prerequisites for enrolment for MA in Philosophy are passes in eight Philosophy papers, including 29.101, 29.306, and three other Philosophy III papers (or two other Philosophy III papers for students taking a double major). All Philosophy III papers must be passed at an average grade of C+ or higher. Seven papers are required for MA in Philosophy: either four papers to be taken in the first year and three in the second year of the course, or, with the approval of the Head of Department, four papers and a thesis counting as three papers (29.601). One paper may be chosen from those offered in Philosophy III which the student has not previously passed. All other papers are to be selected from 29.400 to 29.420, not all of which are offered in any one year. The selection must be approved by the Head of the Department, who will generally require that the chosen papers fall within at least three of the following areas of Philosophy: (i) Theoretical Philosophy (Metaphysics, Epistemology, etc); (ii) Practical Philosophy (Ethics, Political Philosophy, etc.); (iii) Logic; and (iv) History of Philosophy (either a period or an important figure). Students intending to enrol for an MA in Philosophy must consult the Head of Department towards the end of the previous year to discuss the availability of papers, the proposed MA course, and textbooks, reference works and vacation reading for each course.

(a) Three papers (not already passed for any other degree or diploma) from 14.308, 14.304, 14.309, 14.310, 14.311, 14.312, 14.317, 14.325. Approval may be given for enrolment in Stage III papers from other Departments where training requirements for specialised application warrant this, as in the case of vocational guidance.
(b) Papers 14.405 or 14.418, and 14.410, provided that in exceptional circumstances a candidate may substitute for any or all of these papers a course or courses of study approved by the Head of Department.
Part II
Preparation and presentation of a folio of casework, 14.606, counting as three papers; together with satisfactory participation in such seminars and counselling and related activities as the Head of Department may require.
Note: Most students will require 1000 hours or more of face to face counselling work and related activities to attain competence in casework.
3. No more than ten students chosen on academic criteria and personal qualities shall in any one year be admitted for Part II.
4. The folio of casework required for Part II shall be
(a) submitted within three years of the year in which the candidate completed Part I, or within such longer period as the Senate may in special circumstances permit; and
(b) delivered to the Registrar by 1 November, or later date approved by the Head of Department, of the year in which it is submitted.
5. A candidate shall be required to pass each paper of Part I and to pass Part II as a whole.
6. The Senate may in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.
7. These Regulations shall come into force on 1 January 1977.
DIPLOMA IN LOCAL GOVERNMENT AND ADMINISTRATION

DipLGA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examinations Regulations.

General Provisions
1. Subject to the Admission Ad Eundum Statum Regulations, a candidate for the Diploma in Local Government & Administration shall before his enrolment have been awarded or qualified for the award of a Degree of Diploma of this University, provided that, if not so qualified, a person may with the leave of the Senate be a candidate for the Diploma in Local Government & Administration if before enrolment he:
   (i) holds or has qualified for the award of a professional qualification in Accountancy, Management, or other approved discipline; or
   (ii) has had not less than five years responsible practical experience in a responsible position in local government or administration.
2. A candidate for the Diploma shall pursue a course of study for a period of not less than one year, provided that for part-time students the course of study shall extend over a period of not less than two years.
3. Except with the permission of the Senate in exceptional circumstances,
   (i) the course of study must be completed within four years of the date of first enrolment for the Diploma; and
   (ii) the Research Essay, (Paper 30.603) must be submitted with any paper which he has passed for another degree of diploma.
4. No candidate shall take papers for Part 2 unless he has passed or enrolled concurrently in the papers for Part I.

Subjects
6. The subjects for examination for the Diploma shall be:
   Part I
   *30.500 The Local Government System in New Zealand
   *30.413 Public Administration
   Note: A candidate who has already been credited with 30.413 may substitute 72.405. Organisational Development as prescribed for MCom.
   30.402 Urban Government and Politics as prescribed for MA
   Note: A candidate who has already been credited with 30.402 may substitute 20.436 Urban Geography as prescribed for MA and MSc.
   Part 2
   Either
   Two papers from the following:
   25.220 Local Government Law, as prescribed for LLB
   01.204 Public Sector Accounting, as prescribed for BCom
   36.202 Planning Law and Administration, as prescribed for BTP and DipTP or 25.319 as prescribed for LLB
   13.204 Public Economics, as prescribed for BA and BCom
   13.201 Macro-economics, as prescribed for BA and BCom
   13.200 Micro-economics, as prescribed for BA and BCom
   72.203 Organisational Structure as prescribed for BCom
   One paper as prescribed for any other Degree or Diploma of this University and specifically approved by the Head of Department.
   or
   30.603 Research Essay (which counts as two papers).
   Note: An abstract is to be submitted with the Research Essay, see Examinations Regulation 14.

Prerequisite or Corequisite
7. A candidate shall before taking any of papers 13.200, 13.201, 13.204, 01.204 for this Diploma pass or enrol concurrently in paper 13.100 Micro-economics and paper 13.101 Macro-economics, or have obtained a waiver of this requirement from the Head of the Department of Economics or the Head of the Department of Accountancy as necessary.
8. These regulations shall come into force on 1 January 1980.
PRESCRIPTIONS FOR DipLGA

The course for the Diploma in Local Government and Administration may be completed in not less than one year of full-time study or two years of part-time study. Students are required to take papers from Part I in their first year of study.

Prescriptions for courses listed in the Regulations for the Diploma (and not prescribed for other degrees) are given below.

**30.500 The New Zealand Local Government System**
The evolution, structure and characteristics of the system. Reorganisation schemes and functional features. Local politics, elections and public participation.

**30.603 Research Essay**
A research essay may be presented in lieu of two papers from Part 2 of the course. It shall consist of 18,000 to 20,000 words on an approved topic in local Government Administration or Politics.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF SCIENCE

BSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

General Provisions
1. Except as provided in the Admission Ad Eundem Statum Regulations candidates for the Degree of Bachelor of Science shall follow a Course of study of not less than three years.
2. (a) The subjects prescribed for this Degree are:

<table>
<thead>
<tr>
<th>Subject</th>
</tr>
</thead>
<tbody>
<tr>
<td>Biochemistry</td>
</tr>
<tr>
<td>Geology</td>
</tr>
<tr>
<td>Botany</td>
</tr>
<tr>

<tr>
<td>Environmental Studies</td>
</tr>
<tr>
<td>Physiology</td>
</tr>
<tr>
<td>Geography</td>
</tr>
<tr>
<td>Psychology</td>
</tr>
<tr>
<td>Zoology</td>
</tr>
</tbody>
</table>

(b) For the purpose of these Regulations: a 'paper' is a separately assessed segment of work in a subject, and papers are classified as follows:

<table>
<thead>
<tr>
<th>Stage</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Stage I</td>
<td>xx. 100 to xx. 199</td>
</tr>
<tr>
<td>Stage II</td>
<td>xx. 200 to xx. 299</td>
</tr>
<tr>
<td>Stage III</td>
<td>xx. 300 to xx. 399</td>
</tr>
</tbody>
</table>

(c) 'credits' are awarded for the successful completion of papers as set out in the Schedule to these Regulations ("the BSc Schedule")

3. A complete Course of Study for this Degree requires the gaining of at least 96 credits, of which:
   (a) at least 12 credits must be from Stage III papers in the BSc Schedule;
   (b) at least 36 credits must be from papers above Stage I; and
   (c) at least 6 credits must be from each of any FOUR subjects as prescribed in Regulation 2(a)

4. For the purpose of Regulation 3(c) credits obtained from one or more papers in Biology shall all count as credits in either Botany or Zoology and may not be apportioned between those two subjects in any way.

5. In relation to the taking of any paper, a candidate shall comply (i) (before enrolment) with all pre-requisite requirements and (ii) with all co-requisite requirements; as set out in the BSc Schedule. But the Head of Department may in exceptional circumstances waive any of those requirements.

6. Except as provided in Regulation 9, a candidate who has not gained at least 24 credits from Stage I papers may not enrol for a Stage II paper.

Practical Work Requirements
7. In any paper that includes practical work as well as written work;
   (a) a candidate must obtain passes in both in order to pass the paper as a whole;
   (b) a candidate who is awarded a pass in the practical work, but who fails the written work may, with the permission of the Head of Department, have the grade for the practical work carried forward to a subsequent year.

Note: Candidates requesting this permission should apply before 1 March in the year of re-enrolment for the paper.

Course Load Restrictions
8. A candidate may not enrol, in any one year, for papers totalling more than 50 credits.

Direct Entry to Stage II papers
9. Notwithstanding anything in Regulations 5 and 6, the Senate may, in exceptional circumstances, permit a suitably qualified candidate to enrol for Stage II papers without having passed the pre-requisite Stage I papers. But where such permission is given:
   (a) a successful candidate shall be credited only with passes in the Stage II papers and not in any of the pre-requisite papers;
(b) a candidate who fails any Stage II paper may be granted a pass in the appropriate Stage I paper if the necessary standard has been attained;

(c) a candidate who gains at least 12 credits from Stage II papers under this Regulation may include in the Course of Study 12 further credits as prescribed for a Bachelors Degree in any other Faculty, in addition to any credits that may be obtained under Regulation 10.

Credit for Papers in Other Faculties
10. (a) A candidate for this Degree may obtain up to 12 credits from papers or subjects, not listed in the BSc Schedule, to which this Regulation applies.

(b) This Regulation applies to any paper or subject which:-

(i) is taught in any of the Faculties of the University other than the Faculty of Science, and is prescribed for a Bachelor's Degree in any of those other Faculties; and

(ii) is not the same as, or does not substantially overlap with, any other paper or papers which the candidate wishes to credit towards the BSc Degree.

(c) The credits allowed for the purpose of this Regulation shall be:-

<table>
<thead>
<tr>
<th>Faculty</th>
<th>Credit per credit or subject</th>
</tr>
</thead>
<tbody>
<tr>
<td>Architecture &amp; Town Planning</td>
<td>1 credit</td>
</tr>
<tr>
<td>Arts</td>
<td>5 credits</td>
</tr>
<tr>
<td>Commerce</td>
<td>5 credits</td>
</tr>
<tr>
<td>Engineering</td>
<td>4 credits, 6 credits</td>
</tr>
<tr>
<td>Fine Arts</td>
<td>5 credits</td>
</tr>
<tr>
<td>Law</td>
<td>2 credits</td>
</tr>
<tr>
<td>Medicine &amp; Human Biology</td>
<td>6 credits</td>
</tr>
<tr>
<td>Music</td>
<td>5 credits</td>
</tr>
</tbody>
</table>

Cross-Credits from other Degree Courses

Note: See Regulation 12 of the Enrolment and Course Regulations (General)

11. Credits obtained under Regulation 10, from papers which are credited also to the Course of Study for another Degree, shall be counted as cross-credits for the purpose of Regulation 12 of the Enrolment and Course Regulations (General)

Credits for Papers Abandoned from other Degree Courses

Note: See Regulation 16 of the Enrolment and Course Regulations (General)

12. For the purposes of these Regulations the words 'appropriate papers' in Regulation 16 of the Enrolment and Course Regulations (General) shall be interpreted as meaning:-

(a) papers listed in the BSc Schedule;

(b) papers equivalent to papers listed in the BSc Schedule as determined by the Senate;

(c) papers that can be credited towards the BSc Degree under Regulation 10.

Note: to (b) above: For example, Engineering Mechanics 55.001 is accepted by the Senate as equivalent to Principles of Mechanics 26.170.

Credit for NZCS
13. A candidate who has gained the New Zealand Certificate of Science, or has gained any other recognised technical qualifications of comparable standard, may be credited with such specified papers and/or given such unspecified credits up to a maximum of 36 credits, as the Senate may determine.

Credit for Teacher's College Courses

Note: A candidate who has successfully completed a course at an Auckland Teacher's College may be granted credits towards this Degree as provided by Regulation 13 of the Enrolment and Course Regulations (General).

Transitional Provisions
14. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit, course or paper under any of the former Regulations for this Degree, shall be credited with such equivalent paper or papers as may be determined by the Senate.
(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.

**Exceptions**
15. (a) The Senate may, in such cases as it thinks fit, approve a personal Course of Study which does not conform to the foregoing Regulations.
(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

**Validity**
16. These Regulations shall come into force on January 1, 1983.

**Schedule**
1. This schedule sets out paper numbers, credits, prerequisites, corequisites, and restrictions applying to Courses of Study offered for the Degree of Bachelor of Science.
2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading ‘prerequisites’ in relation to a paper refers to other papers which must be passed before the candidate may take that course.
4. The heading ‘corequisites’ in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading ‘restrictions’ in relation to a paper refers to papers which cannot be credited together with that paper.

**NOTE:** Any candidate majoring in another subject may, with the permission of the Head of Department, take up two papers in Zoology without fulfilling the pre-requisites and co-requisites listed in the Schedule.
THE DEGREE OF BACHELOR OF SCIENCE (HONOURS)  
BSc (Hons)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. The Degree may be awarded in each of the following Honours Schools:
   - Geology
   - Mathematics

2. Admission to the Course of study for the Degree of Bachelor of Science (Honours) shall be at the discretion of the Senate and shall be given at either the end of the second year or third year after matriculation provided that where the proviso to Regulation 8 applies, admission may be granted at the end of the third or fourth year after matriculation.

3. No candidate shall be admitted to an Honours School without the approval of the Head of Department of that School and of the Senate. Such approval shall be granted or withheld upon a consideration of the candidate's performance in the courses of University study already pursued by the candidate and particularly in the papers required as prerequisites to that Honours School.

4. No candidate may be awarded the degree of Bachelor of Science (Honours) if he has previously been awarded the degree of Bachelor of Science of this University.

5. In each Honours School a candidate's Course of study for the Degree shall comprise:
   (a) such prerequisites, being papers prescribed for the Degree of Bachelor of Science, and
   (b) such Honours Parts (being Parts III and IV, or Part IV as the case may be) and
   (c) such Foreign Language requirements as the Head of the Department within the Honours School may prescribe, and
   (d) such papers in other subjects as may be required and prescribed in that Honours School under Regulation 14:

   provided that
   (i) except where the Senate in its discretion otherwise permits, the number of prerequisite papers shall be not fewer than 72 credits in a case of entry into an Honours School at the end of the second year after matriculation and not fewer than 96 in a case of entry at the end of the third such year;
   (ii) in the case of any prerequisite subject and with the approval of the Senate, if the candidate has been permitted to enrol for and has passed at Stage II without having passed at Stage I, Stage II may be substituted for Stage I, and Stage III may then be substituted for Stage II;
   (iii) in the case of a candidate whose mother tongue is not English the Foreign Language requirements shall be waived.

6. A candidate for this Degree may, with the permission of the Heads of the Departments concerned and the approval of Senate, substitute one paper in another subject for one paper of the subject in which the Degree is being taken.

7. A candidate in any subject for this Degree where practical work is prescribed, must pass beside the written examination, in such practical work as may be prescribed by the Head of the Department.

Withdrawal and Exclusion from Course

8. A candidate may withdraw from the Honours School and be granted such credits and exemptions for papers for the Degree of Bachelor of Science as the Senate shall determine.

9. A candidate shall be required to pass as a whole each Part of the Honours Course of study so that his performance in all papers comprising this Part shall be considered: provided that a candidate who has failed to pass an Honours Part as a whole may in such exceptional circumstances as the Senate approves be credited with papers of that Part and permitted in a subsequent year to present the paper or papers not so credited, together with (if the Senate permits) a paper or papers of the next succeeding Part.

The candidate shall then be required in that year to pass as a whole in all the papers so presented upon the same conditions as those herein prescribed.

10. A candidate shall sit his final examinations for the degree within four years of his matriculation: provided that at the discretion of the Senate the period may be extended to five years

   (a) where a candidate first enrolled in the subject of his Honours School in his second year after matriculation, or
   (b) in any special circumstances.
11. A candidate who, on the results of his examination, does not reach the standard required in the Honours School in which he is enrolled, shall be excluded by the Senate from the Honours School but he may be granted such credits and exemptions for papers for the Degree of Bachelor of Science as the Senate shall determine.

**Classes of Honours**

12. The Degree of Bachelor of Science (Honours) may be awarded with First Class or Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division. The class of Honours awarded shall be determined primarily on the performance of the candidate in the examinations in his final year but account may be taken of his work throughout his Course of study.

13. The Senate may determine in respect of any candidate who fails to qualify for the Degree that he be awarded the Degree of Bachelor of Science or be credited with papers towards that Degree or be credited with the Degree of Bachelor of Science together with appropriate credits towards the Degree of Master of Science.

**Transfer to BSc (Hons)**

14. The Senate may, on written application by a candidate for the Degree of Bachelor of Science and without payment of a fee, grant him permission to transfer to a Course of study under these Regulations and allow him to be credited with a pass in such papers as the Senate shall determine.

**Requirements of Honours Schools**

15. Subject to the provisos to Regulation 5, the Honours Courses of study with subject and papers of examination are as follows:

**Geology Prerequisites**

(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation, Geology, four papers, totalling 24 credits

Chemistry 115 or 125

and 36 credits from other papers in any of the following subjects:

Botany, Chemistry, Geology, Mathematics, Physics, Zoology, or in any other subject approved by the Head of Department.

(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation, structure of Course of study as specified for entry at the end of the second year:

In special cases, with the approval of the Head of Department of Geology, papers at an advanced level in any other subjects may be substituted for any of the above, provided that the candidate has gained at least 12 credits from Geology Stage III papers.

**Geology Honours Part III**

(Geology papers totalling not fewer than 24 credits, together with practical work). Part III shall contain papers prescribed as Geology second or third year papers, for a total of not fewer than 24 credits. In special cases, with the approval of the Head of the Department of Geology, advanced papers of other subjects may be substituted for Geology papers, provided that the Course of study contains Geology papers totalling at least 12 credits.

**Geology Honours Part IV**

(Three papers together with practical work and thesis).

The student shall follow one year's Course of study approved by the Head of the Department of Geology and carry out an original investigation on an approved topic.* The examination shall consist of three papers prescribed for the Degree of Master of Science (21.401 to 21.406 and 21.408 but not 86.100 or 86.102) and a thesis embodying the results of the investigation which shall be equivalent to one paper. The thesis shall be delivered to the Registrar at the beginning of the second half of the second term.

*Notes: (i) Intending students should consult the Head of Department about the research topic immediately after completing the papers for Part III.

(ii) The language for the Foreign Language Reading Examination shall be any approved by the Head of Department of Geology and this examination should be taken as early as possible.

(iii) An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

**Mathematics Prerequisites**

(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation, a total of 72 credits from the following subjects:

Mathematics, Chemistry, Physics, or in any other subject approved by the Head of the Department of Mathematics and Statistics provided that prerequisite papers, together with the papers selected for Part III, will enable the candidate to attain a level equivalent to the prerequisites for entry to Part IV.

(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation, Mathematics 220, 240, at least one of 260, 280, 281, plus twenty 300 or 400 level credits approved by the Head.
of the Department of Mathematics and Statistics. Of those twenty credits at least 16 shall be from papers in Mathematics; except that in special circumstances the Head of Department may approve a minimum of 12 such mathematics credits.

Mathematics Honours Part III
(24 credits in papers approved by the Head of Department of Mathematics and Statistics).
Part III shall consist of papers approved by the Head of Department of Mathematics and Statistics totalling 24 credits and including such Mathematics papers as will enable attainment of a level equivalent to the prerequisites for entry to Part IV.

Mathematics Honours Part IV
(20 credits in papers approved by the Head of the Department of Mathematics and Statistics).
Part IV shall consist of papers approved by the Head of the Department of Mathematics and Statistics totalling 20 credits.

Note: Normally these will be selected from papers Mathematics 400 to 499 and Computer Science 490 to 499 provided that up to four credits may be replaced by four stage three credits from papers in Mathematics and Computer Science.

THE DEGREE OF BACHELOR OF OPTOMETRY
BOptom
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the degree of Bachelor of Optometry shall follow a Course of study of not fewer than four years.

2. In these Regulations
(a) a ‘paper’ is an independently assessed segment of work in a subject, the successful completion of which results in the award of credits as set out in the Schedule to these Regulations.
(b) Papers are classified as Stage I (papers numbered .100-.199), Stage II (.200-.299), Stage III (.300-399) and Stage IV (.400-499).

3. A complete Course of study requires the gaining of 133 credits.

Course Load
4. A candidate may not enrol in any one year for papers totalling more than 50 credits.

5. A candidate in any paper of the subjects Biochemistry, Biology, Chemistry, Optometry, and Psychology shall be required to pass both the written papers and in such practical work as may be required by the Head of the Department; provided that the candidate's mark in the practical work may, with the leave of the Senate, be carried forward to a subsequent year.

6 (a) Candidates may not enrol for any paper until they have satisfied all the prerequisite and corequisite requirements for that paper, as set out in the BOptom Schedule, or have permission from the Head of Department.
(b) A candidate required to repeat any year III subjects may also be required to undertake such additional practical and clinical work as the Head of the Department of Psychology determines.

Exceptions
7. (a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.
(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

Optional Transition From DipOpt
8. Any candidate who in or before 1981 enrolled for the Diploma in Optometry but has not completed the requirements for or been awarded that Diploma before 31 December 1987 may either (i) transfer to the Course of study for this Degree (in which case he shall be credited with such equivalent paper or papers for this Degree as the Senate may determine), or (ii) complete the Course of study for the Diploma in Optometry in accordance with the regulations for that Diploma last published in the University of Auckland Calendar for 1981.

Revocation
9. The regulations for the Diploma in Optometry are revoked (subject to Regulation 8 of these present Regulations).

10. These Regulations shall come into force in 1 January 1982.
Schedule

1. This schedule sets out paper numbers, credits, prerequisites, corequisites, and restrictions applying to papers for the Degree of Bachelor of Optometry.
2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading ‘prerequisites’ in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. The heading ‘corequisites’ in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading ‘restriction’ in relation to a paper refers to a paper which cannot be taken together with that paper.
6. A candidate may not take a further stage of a paper until he satisfies all prerequisite and corequisite requirements for that paper.

THE DEGREE OF MASTER OF SCIENCE
MSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Science shall before his enrolment for this Degree

   (a) (i) have been admitted or qualified for admission to the Degree of Bachelor of Science, except as provided in Regulation 2, below, or
   (ii) have been admitted or qualified for admission to the Degree of Bachelor of Science (Honours), or
   (iii) in the subject Psychology in lieu of the requirements of paragraph (i) of this clause have been awarded or qualified for the award of the Diploma in Optometry;

   (b) have passed the following subject prerequisites or have passed the subject he offers in the final year of the course for the Degree of Bachelor of Science (Honours); provided that in special cases recommended by the Head of the Department the Senate may exempt the candidate from this requirement:

   **Biochemistry**
   - Biochemistry 301 and 302

   **Botany**
   - 24 Stage III credits including at least 12 Stage III credits from Botany and/or Biology

   **Cell Biology**
   - either Cell Biology 301 and 302, or Cell Biology 303 and at least six credits from Cell Biology 304 and 305

   **Chemistry**
   - 08.210, 08.220, 08.230 and 18 Stage III credits; including at least 12 Stage III credits from Chemistry

   **Computer Science**
   - at least 24 credits in Computer Science above Stage I level; at least 24 credits at Stage III level of which at least 12 shall be from papers in Computer Science; in special circumstances the Head of Department may approve lower minimum requirements.

   **Geography**
   - 24 Stage III credits including at least 12 Stage III credits from Geography

   **Geology**
   - 24 Stage III credits including at least 12 Stage III credits from Geology

   **Mathematics**
   - Mathematics 220 or 221, 240 or 241 at least one of 260 (or 261 if passed before 1978) 280, 281 plus twenty 300 or 400 level credits approved by the Head of the Department of Mathematics and Statistics; of those twenty credits at least 16 shall be from papers in Mathematics and Computer Science; except that in special circumstances the Head of Department may approve a minimum of 12 such credits from Mathematics and Computer Science.

   **Physics**
   - Physics 210, 220, 240, 250, 290; and 22 credits from papers approved by the Head of Department, including at least 12 credits from the papers Physics 310–385 and at least 6 credits from the laboratory papers Physics 390–393

   **Physiology**
   - 18 Stage III credits including Physiology 301 and at least 6 Stage III credits from Biochemistry, Cell Biology, Psychology or Zoology; or other papers approved by the Head of Department

   **Psychology**
   - (i) either 24 Stage III credits including at least 12 stage III credits from Psychology; or
   - (ii) on the requirements for the Degree of Bachelor of Optometry

   **Zoology**
   - 24 stage III credits, including at least 12 Stage III credits from Zoology or Biology

   (c) have passed with an average Grade of C+ or better, either in all Stage III papers prescribed for the Degree of Bachelor of Science which are prerequisites for the subject taken for this Master's Degree; or in all subjects in Division IV for the Diploma of Optometry if that Diploma is the prerequisite for the subject Psychology taken for this Degree; provided that the Heads of Department may at their discretion approve a lower grade for the purpose of this clause.

2. With the approval of the Head of Department, a candidate may enrol for this Degree after having gained at least 90 credits, including 36 credits above Stage I level for the Degree of Bachelor of Science, provided that
(a) his proposed course for this Degree will extend over not fewer than two academic years;
(b) he has obtained grades averaging B- or above in the advanced papers for the Degree of Bachelor of Science
of the subject which he proposes to take for this Degree;
(c) he satisfies the conditions in Regulation 1 (b) and (c) above, or is exempted from them;
(d) he must have completed the prerequisite papers for this Degree;
(e) he enrols for the remaining paper or papers for the Degree of Bachelor of Science in the first year of his
course for this Degree;
(f) should he not pass the remaining paper or papers for the Degree of Bachelor of Science in the first year
of his Master of Science course, his Master's course shall be suspended until he has passed the remaining paper
or papers.

3. A candidate may sit the examination papers required for this Degree over two successive years. He may
only elect to follow this course of study when he first enrols for the Degree. Such candidates shall not be
eligible to gain Honours.

4. A candidate for this Degree, may with the permission of the Heads of the Departments concerned and with
the approval of the Senate take one Master's paper in a subject other than that in which he is taking his degree.
Each such paper shall substitute for one paper of the subject in which the Degree is being taken.

5. (a) A candidate who has been admitted or has qualified for admission to
(i) the Degree of Bachelor of Science shall be required in the subject taken to pass the prescribed examinations
and to present a thesis where that is prescribed, in accordance with Regulations 12 of these Regulations;
(ii) the Degree of Bachelor of Science (Honours) shall be required to present a thesis only, which shall be as
prescribed in Regulation 12 in the subject Geology or Mathematics;
(iii) the Diploma in Energy Technology (Geothermal), having taken papers 86.101 and 86.102, may for the
subject Geology, with the approval of the Head of Department of Geology, be permitted to present for this
Degree a thesis only.
(b) A candidate who has done work for the Mathematics Degree Bachelor of Science (Honours) but has
qualified for admission not to that Degree but to the Degree of Bachelor of Science, may be granted exemption
from such part of the Course of study for the Degree of Master of Science as the Senate may approve, subject
to his paying the prescribed fee as if that part were an exempted unit for the purpose of Regulation 14 of the
Enrolment and Course Regulations (General).

6. Where a thesis is required the following conditions shall apply:
(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the
Department.
(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the
subject.
(c) In the case of a thesis requiring laboratory work, such work shall be carried out within the University
provided that the Senate may permit a candidate to carry out such work in an approved institute outside the
University for such limited period or periods as may be necessary.
(d) A candidate (other than one in the Departments of Geography, Mathematics and Statistics and
Psychology) shall present his thesis not later than twenty-four months after his first enrolment for this degree,
but on a recommendation from the Head of Department, the Dean of the Faculty may permit an extension
of not more than one year. For candidates in the Departments of Geography, Mathematics and Statistics and
Psychology, regulation 10 (c) and 10 (d) for the degree of Master of Arts applies.
(e) The candidate shall submit his thesis to the Registrar by the prescribed date. The Registrar shall deliver
the thesis to the Head of the Department concerned.

Note: An abstract is to be submitted with each copy of the thesis; see Examination Regulation 14.

7. A candidate shall not take a subject which he has already passed for the Degree of Master of Arts.

Honours

8. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class
Honours shall be awarded in two divisions, First Division, and Second Division.
The degree may be awarded with distinction to a candidate who (i) has already qualified for admission to the
Degree of Bachelor of Science (Honours) and has achieved a standard equivalent to first class honours or (ii)
has been admitted to this degree under Regulation 5 (a) (iii) and has achieved a standard equivalent to first
class honours.
(b) Honours shall not be awarded in a particular subject to any candidate who enrolled for and failed to qualify
for admission to the Degree of Bachelor of Science (Honours) in that Subject.
(c) Honours shall not be awarded if the papers in the first year in which a candidate whose performance at
a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond
his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may
elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he
shall still be eligible for the award of Honours subject to the provisions of sub-clause (d) of this Regulation.
(d) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours
within twenty-four months of his first enrolment for this Degree provided that this period may be extended,
in exceptional cases, by the Senate.

9. (a) Notwithstanding anything to the contrary in the foregoing Regulations a candidate may upon the
recommendation of the Heads of the Departments concerned and with the approval of the Senate:
(i) substitute an Engineering paper for any papers, paper, or part of a paper prescribed in Regulation 12, and
(ii) substitute a thesis (to carry such weight as may be determined) in an Engineering subject for a thesis in
any subject prescribed in Regulation 12;
so that part but not the whole of the candidate’s course for this Degree may be taken in Engineering.
(b) The Senate may require the candidate to take any appropriate prerequisite papers before granting any such
approval.
(c) In this Regulation ‘an Engineering paper’ and ‘an Engineering subject’ mean respectively any paper and any
subject prescribed in or for the purposes of Regulation 3 of the Regulations for the Degree of Master of Engineering.

Savings and Transitional Provisions
10. (a) All candidates enrolled for this Degree
(i) who completed a Bachelor of Science Degree in, or before, 1972 shall pass the subject prerequisites listed
in the 1972 Calendar;
(ii) shall have their course governed by these Regulations, except those referred to in sub-clause (i).
(b) The Senate may in such exceptional cases as it thinks fit approve a personal course of study which does
not conform to the foregoing Regulations.

11. These Regulations shall come into force on 1 January, 1973.

List of Subjects
12. The subjects of examination and relative requirements as to theses for this Degree, together with the
prescription numbers relative to each examination paper, are as follows:
Anatomy (Two papers and a thesis 65.621 which shall count as four papers): papers 65.401, 65.402
Biochemistry (Three papers and a thesis 66.601 which shall count as three papers): papers 66.401 to 66.403
Botany (Three papers and a thesis 06.601 which shall count as three papers): paper 06.401 plus two papers
from 06.410 to 06.460
Cell Biology (Three papers and a thesis 40.601 which shall count as three papers): papers 40.401, 40.402, 40.403
Chemistry Five papers and a thesis which shall count as four papers: five papers from 08.410–08.450 which
together shall count one-half towards the assessment for the final grade, and paper 08.450 which shall count
one-sixth towards the assessment for the final grade.
Computer Science (Papers totalling 16 credits and a thesis which will count as 16 credits or papers totalling
16 credits and an advanced course of study which will count as 16 credits): a selection approved by the Head
of the Department of Computer Science of papers from Computer Science 400 to 499 with total credit value
as shown in the prescriptions of 16 credits together with a thesis or an advanced course of study
Geography (Four papers and a thesis 0.601 which shall count as three papers): four papers from 20.400 to 20.442
Geology (Three papers and a thesis 21.601 which shall count as two papers; Foreign Language Reading
Examination): three papers from 21.401 to 21.406, 21.408 and 86.100 or 86.102: the chosen foreign language
must be approved by the Head of the Department of Geology; the Foreign Language Reading requirement
shall be waived in the case of a candidate whose mother tongue is not English
Mathematics (Papers totalling 20 credits and a thesis which will count as 16 credits or papers totalling 20
credits and an advanced course of study which will count as 16 credits): a selection approved by the Head
of the Department of Mathematics and Statistics of papers from Mathematics 400 to 499 and Computer Science
490 to 499, with total value as shown in the Prescriptions of 20 credits together with a thesis or an advanced
course of study, provided that up to four of these credits may be replaced by four stage three credits from
papers in Mathematics and Computer Science not already taken for any other Degree or Diploma
Pathology (Two papers and a thesis 68.621 which shall count as four papers): papers 68.401, 68.402.
Physics (Four papers and a thesis 31.601 which shall count as four papers): four papers from 31.410–31.485.
Physiology (Three papers and a thesis 67.621 which shall count as three papers): three papers from
Psychology (Four papers and a thesis 32.601 which shall count as three papers): four papers from 32.401 to 2.453.
Note: From 1984 students who have not passed 32.306 will be required to take paper 32.419.
Zoology (Three papers and a thesis 38.601 which shall count as three papers): three papers from 38.401 to
38.410.
DEPARTMENT OF ANATOMY

Anatomy for MSc and Honours
Two papers and a thesis (65.621)

65.401, 65.402 The study of selected fields of Anatomy at an Advanced Level with Detailed Study of One Particular Field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Students from other Universities must have completed Anatomy III or the equivalent.

DEPARTMENT OF BIOCHEMISTRY

Stage II

Prerequisites: See BSc Schedule. Entry to Biochemistry II is limited.

Biochemistry 201 (One paper and practical work).
An introductory course based on the unifying theme of energy in biochemical systems. Topics are the role of energy in living systems; photosynthesis as a process of solar energy capture for biosynthesis; metabolism as a process for rearrangement of molecular fragments; respiration as the controlled release of energy from molecular fragments; enzymes as regulatory molecules; nucleic acids as stores of biochemical information.

The course is a prerequisite for those proceeding to papers 66.301, 66.302 and the MSc degree in Biochemistry. Passes are required in both the written paper and in practical work (BSc Regulation 7).

Lectures: Students will attend two lectures a week.

Two tests will be held during the year.

Laboratories: Students are required to attend practical classes totalling 72 hours, at times to be arranged during the second half of the year. Performance in laboratory work will contribute to the final grade for the course. Students should wear a laboratory coat and covered footwear during practical classes.

Entry to Biochemistry III may have to be restricted if the number of applicants exceeds the number of laboratory places. Candidates who lack one or more of the prerequisites listed in the BSc Schedule are also permitted to make preliminary application. Competence in mathematics up to University Entrance level is assumed.

Biochemistry for MSc
Three papers and a thesis (66.601)

66.401, 66.402, 66.403. The general study of Biochemistry at an advanced level, with more detailed study in fields of enzymology, metabolic pathways, microbial metabolism, biochemical control mechanisms and biochemical endocrinology.

Candidates for the Master's Degree should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, in order to select a thesis topic and to obtain advice on vacation reading.

The course will be of a minimum duration of one year; the student should normally expect to complete his thesis during the following year.

Students from other Universities must have taken Biochemistry to an advanced undergraduate level (eg Biochemistry III as offered at Otago University).

Research in Biochemistry

Research facilities are available for PhD students and Post-doctoral workers in several fields of animal, microbial and plant biochemistry.

Intending applicants should make application to the Head of Department in the first instance.

DEPARTMENT OF BOTANY

Stage I

The first year course for students in Botany, Zoology or Biology consists of three 6-credit papers, Biology 101 (Paper 39.101), Botany 102 (Paper 06.102) and Zoology 102 (Paper 38.102).

Biology 101 Central Concepts in Biology
Biochemical concepts common to animals, microorganisms and plants; the biochemistry of macromolecules.
molecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; genetic principles and mechanisms; fundamental processes of ecosystems; population and community dynamics; organic evolution. This course may be taken as part of the Stage I requirement in either Botany or Zoology, but may not receive credit in both.

**Botany 102 Form and Function in Plants**
An introductory course including the study of major plant groups. Topics covered include major features of NZ flora and vegetation; cytological and anatomical architecture and their relation to photosynthesis, respiration, translocation and transpiration; the regulation of growth and reproduction. The course will include a number of small group discussions and one or two field trips which students will be expected to attend.

**Stage II**
The course consists of Botany 201 or 202 together with Botany 221 and Botany 203 or Biology 213 and practical work including field trips.

**Botany 201 Lower Plants**
The biology of fungi, algae, bryophytes and pteridophytes.

*Botany 202 Higher Plants*
The anatomy, morphology and systematics of gymnosperms and angiosperms together with an introduction to cytology and ultrastructure. This course will next be offered in 1984.

**Botany 203/303 Crop Physiology and Anatomy**
A study of crop diversity; applied physiology, especially of flowering, reproduction and senescence; anatomy and development of harvestable portions of crops; principles of crop protection and crop improvement.

**Biology 207/307 Biometry**
Elementary statistical methods and concepts with particular emphasis on their application in biological research.

**Biology 211 Population and Community Ecology**
Elementary demography and models of population growth; population genetics with emphasis on the concepts of selection and fitness; two-species interactions, competition and predation; multispecies associations. The emphasis will be on experimental ecology of both plants and animals from a wide range of habitats. There will be a field course of one week, the first week of the May vacation from 8–13 May inclusive. This field course is run in conjunction with 39.213 and attendance is compulsory for students doing both subjects. Students not doing 39.213 in conjunction may apply for admission to the field course at enrolment.

**Biology 212 Coastal Marine Biology**
The shore and shallow sea as a habitat life, and a workshop for ecologists. Habitat structure and intertidal zonation, exemplified chiefly by New Zealand shores. Descriptive schemes of community space, with underlying physical and biotic parameters. The adaptation of the various groups of plants and animals to life between tides. Coastal biogeography. The conservation and utilisation of the coastline. Practical work includes obligatory seven day field course available at Whangarei Heads during the third week of May vacation (21–30 May). Alternative field courses may be available at Leigh Laboratory in Mid-term and first week of August vacation (13–20 August).

**Biology 213 New Zealand Vegetation Ecology**
New Zealand vegetation since the break-up of Gondwanaland. Palynological studies. Alpine environments. Major forest types. Lowland swamp and coastal communities. Emphasis will be placed on autecological studies and the dynamics of the ecosystems described, including the role of native and introduced fauna. Practical work will include an experimental project and day field trips. A field course will be held from 8–13 May in conjunction with 39.211, and attendance is compulsory for students doing both subjects. Students not doing 39.211 in conjunction may apply for admission to the field course at enrolment.

**Botany 221 Plant Physiology**
An introduction to plant physiology and biochemistry with particular emphasis on plant response to environment. Water: water potentials and water movement in the soil-plant-atmosphere continuum; water stress; plant adaptation. Oxygen: principles of gas exchange; structural adaptation to oxygen deficit; biochemical adaptations to oxygen deficit. Temperature: enzyme reactions, membrane effects, thermal adaptation. Mineral nutrition: criteria of essentiality; uptake mechanisms; role of nutrients. Laboratories will cover basic techniques used to study plant responses to these factors.

**Stage III**
The course consists of a selection from papers from Biology 311, 313, 314, 316 and Botany 301 to 361 together with practical work, including field trips.

**Botany 301 Lower Plants**
See Botany 201.

*Botany 302 Higher Plants*
See Botany 202.

**Biology 311 Freshwater Ecology**
Animal and plant freshwater communities, particularly of lakes and rivers, the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a field trip during May vacation (9–12) and a weekend field course (30 April-1 May).
Biology 312 Coastal Marine Biology
See Biology 212.

Biology 313 The Ecology and Biogeography of Terrestrial Ecosystems
Current controversies on community stability and diversity. Ordination and classification techniques. Sampling, with special reference to forests. Ecosystem integration, through animal-plant-pathogen interactions. Nutrient cycling. Forest dynamics with reference to different types of forest ecosystems. The tropical rain forest. A compulsory residential field class will be held from 21-26 February, departing late afternoon on the 21st. Interpretation and analysis of the field data will take place during the Wednesday laboratory times.

Biology 314 Applied Ecology
The application of ecological principles to resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems — the planning process.

Biology 316 Biological Oceanography
Characteristics of marine communities: the physical and chemical environment and primary production; marine algology; zooplankton and secondary production; characteristics of plankton, nekton, benthos and meiofaunas in shallow and deep seas. Practical work includes day or weekend field trips and several days of laboratory investigation.

Botany 321 Plant Physiology

Botany 325 Differentiation in Plants
An integrated study of physiological, structural and ultrastructural aspects of differentiation processes in plants. Emphasis is placed on hormonal interactions and the associated ultrastructural changes involved in a range of processes such as: cell division, dormancy and germination, tropisms, correlative growth processes, flowering.

Botany 331 Plant Pathology 1
History; principles of plant pathology; introduction to host-parasite relations; etiology and control of specific soil-borne diseases.

Botany 332 Plant Pathology 2
Mycolological review; abiotic disease; environmental effects on fungal disease; aerobiology; fungicides and disease control; diseases of significance in N.Z. economy.

Botany 341 Plant Genetics
Plant cytogenetics including the study of the nucleus in division, changes in chromosome structure and number and the meiotic behaviour of chromosome anomalies in hybrids and polyploids. Genetics of recombination with emphasis on the mapping of gene loci: theories of crossing-over; tetrad analysis.

Botany 361 Advanced Plant Taxonomy
Classical and experimental approaches to the study of taxonomic relationships in metaphytes including cytological, chemical and numerical techniques as well as field and herbarium methods and a knowledge of plant nomenclature rules. Phylogenetic and phenetic systems of classification; analysis of variation; speciation processes. Students should expect to attend a field course at Tongariro National Park from May 16 to May 20th incl.

Laboratory Work
The practical work will be assessed separately and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary for credit to be awarded for a paper (B.Sc. Regulation 6).

Field Courses in Botany/Biology, 1983
06.361: 16-20 May 39.213: 8-13 May
39.211: 8-13 May 39.311: 9-12 May

Botany for MSc
This course takes from fifteen months to two years and requires full time attendance. It comprises Botany 401 and two other papers from those listed below, together with a thesis (06.601) which is equivalent to three papers.

06.401 Advanced Topics in Botany
06.410 Plant Ecology
Selected topics in plant demography. Forest community concepts. Field techniques and computer analysis. Historical plant ecology.

06.420 Plant Physiology and Biochemistry
In depth consideration of selected topics

06.450 Developmental Botany, pure and applied
A study of contemporary research into aspects of the anatomy, ultrastructure and physiology of plant development.

06.460 Plant Systematics and Genetics
Modern approaches to plant classification (phyletic, phenetic, cladistic) and theories and techniques which form its basis. Cytogenetics; cytotaxonomy; quantitative genetic variation; recombinational and hybrid analysis.

Postgraduate Research: MSc Thesis and PhD
Facilities are available for MSc and PhD research in a wide range of topics in Botany and Biology.
DEPARTMENT OF CELL BIOLOGY

Stage III

Prerequisites: See BSc Schedule.

40.303 Cellular and Molecular Biology
Lectures: Optical and electron microscopical methods used in the study of cell structure. The fine structure of cellular organelles and components in relation to their function. The structure, biosynthesis and function of nucleic acids and proteins. The Genetic Code. Genetic regulatory mechanisms in bacteria and eukaryotes. The mammalian cell cycle and control of growth of mammalian cells by hormones and other agents.
Laboratories: The laboratory course will cover basic methods used to fix and examine biological material by light and electron microscopy. Experiments will also be performed with proteins and nucleic acids to illustrate their properties and the techniques used to investigate the structure and function of these materials.

40.304 Molecular Genetics
Lectures: The units of mutation, function and recombination in bacteria and viral viruses. The transmission and recombination of genetic material in bacterial viruses, bacteria and diploid microorganisms. Eukaryotic somatic cell genetics.
Laboratories: The laboratory course will cover basic methods used in bacteriology and microbiology as an introduction to experiments in microbial genetics. Experiments will be performed to illustrate methods of transmission of genetic information in microorganisms and the experimental application of such techniques to the resolution of problems of gene order and organisation of chromosomes.

40.305 Virology and Immunology
Lectures: The structure and replication of bacterial, plant and animal viruses. Immunity, the structure and synthesis of antibodies and the cellular basis of the immune response.
Laboratories: The laboratory course will cover basic methods used in virology to purify and characterise viruses and techniques used for studying antibodies and the cells that synthesise such molecules. An introduction to techniques used in the culture of animal cells forms part of this course.

Cell Biology for MSc and Honours
Three papers and a Thesis (40.601)

40.401 Cellular and Molecular Biology
40.402 Molecular Genetics
40.403 Virology and Immunology
The material for Cell Biology 303, 304 and 305 considered in greater depth, with knowledge of some of the current original literature. The course will be based on selected topics in Membrane Biology, Molecular Biology Virology, Immunology and, Microbial and Molecular Genetics.

Prerequisites: For Auckland students, at least 12 credits from Cell Biology 303, 304 or 305 (or Cell Biology 301 and 302 prior to 1979). Students from other universities or colleges must have taken some suitable subject to an advanced undergraduate level (e.g. Biochemistry Advanced II or Microbiology Advanced II as offered at Otago University). For students from other universities the MSc degree will normally involve a two-year course, in which the candidates may be required to take all or part of the course work for Cell Biology Stage III.

Students are reminded of the requirement of a grade of at least C+ in prerequisite Stage II and Stage III Subjects for BSc (see MSc Regulation 1(c)).

Thesis: The preparation of a thesis (40.601) is a most important feature of the work and a large part of the student’s time should be devoted to this aspect of the course. The topic of research for the thesis can be in virology, electron microscopy, molecular genetics or molecular biology.

Research in Cell Biology
Facilities are available for research by PhD and post-doctoral students in fields of virology, molecular genetics, electron microscopy, and molecular biology. An outline of courses appropriate to students intending to advance to research in Cell Biology may be found in the Science Faculty Handbook and other departmental publications. Intending students should consult the Head of the Department as early as possible.

Note: An MSc in Cell Biology is not a prerequisite for PhD registration.

DEPARTMENT OF CHEMISTRY

The courses in Chemistry for the BSc Degree under these regulations are progressive; although prerequisites have not been prescribed more restrictively than necessary, students should bear in mind that familiarity with relevant material from earlier courses is assumed in the later ones.

First Year Courses
The following points apply to all First Year courses.
(i) Each course involves one paper and practical work. A pass in both the written paper and the practical course is necessary.
(ii) Each course involves four hours of lectures and one three-hour laboratory course per week, for one half year.
(iii) Tests will be held for each course, outside lecture hours. Performance in these tests may contribute to the final grade for the written paper.
(iv) Performance in the practical work will contribute to the final grade for the course.

Chemistry 08.110 (6 credits) Organic, Physical and General Chemistry
Chemistry 08.120 (6 credits) Inorganic, Physical and General Chemistry
These courses are given in the first and second half years respectively and are intended for students who wish to take at least one Stage II paper in Chemistry. Students who do not attain the standard required for a pass in Chemistry 110 or 120 may be credited with a pass in Chemistry 115 or 125.

Chemistry 08.113 (6 credits) Organic, Physical and General Chemistry
Chemistry 08.123 (6 credits) Inorganic, Physical and General Chemistry
These courses are given in the first and second half years respectively as part of the requirements for Engineering Intermediate. They are similar in standard to the courses Chemistry 110 and 120 and may be credited in lieu of those courses towards the BSc degree for students who do not continue in Engineering. Students who do not attain the standard required for a pass in Chemistry 113 or 123 may be credited with a pass in Chemistry 115 or 125 for the purposes of the BSc degree.

Chemistry 08.115 (6 credits) Organic, Physical and General Chemistry
Chemistry 08.125 (6 credits) Inorganic, Physical and General Chemistry
These courses are given in the first and second half years respectively and are intended primarily for students (other than BE Int.) who do not intend to proceed in Chemistry. Students who are credited with a pass in Chemistry 115 or 125 may enrol for any Stage II chemistry course (other than Chemistry 211) only with the permission of the Head of Department. Students who gain a sufficiently high standard of pass in Chemistry 115 or 125, normally B- or higher, may be credited with a pass in Chemistry 110 or 120 respectively.

Supplementary Chemistry
A short course in chemistry will be offered to supplement the normal first year courses for students who have been away from school for some years or who have a weak background in chemistry e.g. fifth form general science only.

The course will begin in the week before enrolment (10 a.m. Wednesday 16th February) and run for 2 days, and will continue with one lecture/tutorial per week during the first term.

No enrolment is required. Any interested student should consult the chemistry department for further details.

Advanced Courses
Familiarity with the relevant material in the first-year courses will be assumed.

08.210 (6 credits) Physical and Analytical Chemistry
(one three-hour paper and practical work)

This course includes analytical chemistry, structural and quantitative aspects of spectroscopy, chemical thermodynamics and kinetics.

Lectures: Students will attend two lectures a week. One test will be held outside lecture hours.

Laboratories: The practical course covers both analytical and physical chemistry. Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

Prerequisite: 08.110 or 08.113 and 08.120 or 08.123

Restriction: 08.211

08.211 (3 credits) Analytical Chemistry
(One two-hour paper and practical work)

The course is designed as a service course for those advancing in subjects other than Chemistry. Its content is similar to that of the Analytical Section of 08.210, and the teaching program will coincide with that of 08.210 for the major part of the course.

A pass in both the written paper and the practical course is necessary.

Prerequisite: 08.110 or 08.113 or 08.115 or 08.120 or 08.123 or 08.125

Restriction: 08.210

08.220 (6 credits) Inorganic, Structural and Theoretical Chemistry
(One three-hour paper and practical work)

The course provides an introduction to chemical bonding, and to the chemistry of the solid state. Aspects of the chemistry of transition metal and main group elements are treated at greater depth. An introduction to kinetic studies of inorganic systems is also included.

Lectures: Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless he is wearing an approved form of eye-protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

Prerequisite: 08.110 or 08.113 and 08.120 or 08.123 or 08.125

Restriction: 08.210

08.230 (6 credits) Organic Chemistry
(One three-hour paper and practical work)

The course is based on the prescribed text and covers the structure and reactions of carbon compounds, classified by functional groups. An introduction to the chemistry of molecules of biological importance is included.

Lectures: Students will attend two lectures a week. One test will be held outside lecture hours.

Laboratories: Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless he is wearing an approved form of eye protection.
protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary

**Prerequisite:** 08.110 or 08.113 and 08.120 or 08.123

**08.310 (3 credits) General Physical Chemistry**  
(One two-hour paper and practical work)  
The course will include chemical thermodynamics, electrochemistry and surface chemistry.  
**Lectures:** One lecture per week throughout the year. One test (20%) and assignments (10%) will comprise the course work requirement of 30%.

**Laboratories:** Students will attend practical classes of not less than 6 hours per week in any one quarter of the teaching year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.210

**08.311 (3 credits) Molecular Physical Chemistry**  
(One two-hour paper and practical work)  
The course will include spectroscopy, rotational, vibrational and electronic spectra of molecules, statistical symmetry and thermodynamics, electric and magnetic properties of molecules.

**Lectures:** One lecture per week throughout the year. One test (20%) and assignments (10%) will comprise the coursework requirement of 30%.

**Laboratories:** Students will attend practical classes of not less than 6 hours per week in any one quarter of the teaching year. No student will enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.210

**08.320 (3 credits) Inorganic Chemistry**  
(One two-hour paper and practical work)  
The course will cover aspects of organo-metallic chemistry, bio-inorganic chemistry and inorganic kinetics.

**Lectures:** Students will attend a total of 23 lectures during the year. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.220

**08.321 (3 credits) Physical-Inorganic Chemistry**  
(One two-hour paper and practical work)  
The course includes aspects of Inorganic kinetics, quantum chemistry, and co-ordination chemistry.

**Lectures:** Students will attend a total of 23 lectures during the year. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.220

**08.331 (3 credits) Advanced Organic Chemistry**  
(a) Physical Organic and Mechanistic  
(One two-hour paper and practical work)  
This course will cover aspects of the investigation of organic reactions including physical-organic chemistry and a more detailed examination of organic reaction classes.

**Lectures:** Students will attend two lectures per week during the first half of the year. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. This will normally be done over a six-week period during the first half of the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.230

**08.330 (3 credits) Advanced Organic Chemistry**  
(b) Reactions and Synthesis  
(One two-hour paper and practical work)  
This is a course in which the principles of organic chemistry are applied to organic synthesis. Bond forming reactions and functional group modification are covered, together with illustrations of specific syntheses of the laboratory and industrial type.

**Lectures:** Students will attend two lectures per week during the second half of the year. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. This will normally be done over a six-week period during the second half of the year. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.
A pass both in the written paper and in the practical course is necessary
Prerequisite: 08.230
Corequisite: 08.331

08.340 (3 credits) Structural Methods in Chemistry
(One two-hour paper and practical work)
This course deals with physical methods of determining chemical structures. Background theory is described for mass spectrometry, nuclear magnetic resonance, infrared and Raman spectroscopy, and X-ray structural analysis. Practical applications in inorganic, organic and organometallic chemistry are included. The course will consist of 32 lectures and 20 hours to be devoted to practical work and laboratory assignments. One test will be held outside lecture hours. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary
Prerequisite: 08.210
Corequisites: 08.220 and 08.230

08.350 (2 credits) Elementary Radiochemistry
08.351 (2 credits) Advanced Radiochemistry
For detailed prescriptions for 08.350 and 08.351, see Regulations for Certificates in Principles and Practice of Radiochemistry.

08.360 (3 credits) Analytical Chemistry
(One two-hour paper and practical work)
The course will cover instrumental methods of analysis. It will consist of 16 lectures and 48 hours laboratory work on a project in analysis. One test will be held outside lecture hours. No student may enter the laboratory unless he is wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary
Prerequisite: 08.210
Corequisites: 08.220 and 08.230

08.410 Interfacial Chemistry and Kinetics
(One 3-hour paper)
This course will include surface chemistry, electrochemistry, kinetics and catalysis. Lectures: Students will attend 30 lectures during the year.

08.411 Molecular Spectroscopy and Bonding
(One 3-hour paper)
This course will cover aspects of molecular spectroscopy, resonance spectroscopy, chemical structure and bonding, including applications of symmetry and group theory to these topics. Lectures: Students will attend 30 lectures during the year.

08.420 Inorganic Chemistry
(One 3-hour paper)
This course will cover topics in organic-transition metal chemistry, co-ordination chemistry, and structural chemistry. Lectures: Students will attend 30 lectures during the year.

08.421 Physical Inorganic Chemistry
(One 3-hour paper)
This course will cover aspects of bonding, kinetics, and mechanism in inorganic chemistry. Lectures: Students will attend 30 lectures during the year.
08.430 General Topics in Organic Chemistry
(One 3-hour paper)
This course will cover general topics such as heterocyclic, organoelemental, and applied organic chemistry.
Lectures: Students will attend 30 lectures during the year.

08.431 Advanced Topics in Organic Chemistry
(One 3-hour paper)
This course will cover topics such as intermediates, rearrangements, and stereochemistry at an advanced level.
Lectures: Students will attend 30 lectures during the year.

08.450 Special Topics in Chemistry
(One 3-hour paper)
Students must choose three topics in specialised areas of chemistry from a selection to be offered.
Lectures: Students will attend 10 lectures in each topic selected.
In addition to attending prescribed lectures, students will be required to prepare and discuss a number of selected topics of special interest.

DEPARTMENT OF COMPUTER SCIENCE
Stage I Courses
Computer Science 100 (6 credits) Introduction to Programming
An introduction to algorithm and program design. Programming in a structured language (Pascal). This course is intended for students who may wish to advance in Computer Science.

Computer Science 101 (6 credits) Elements of Computing
Computer systems. Elementary programming. Applications of computers. Use of software packages. This course is intended for students who have no wish to advance in Computer Science.

Computer Science 105 (6 credits) Introduction to Computer Science

Stage II Courses
Computer Science 210 (4 credits) Computer Organization
This course deals with the logical structure of digital computers and systems. Topics include: number representation and binary arithmetic; digital logic; implementation of a simplified processor; architectural aspects of conventional machines; assembly languages; hardware requirements for high-level language support; computer peripherals.

Computer Science 220 (4 credits) Information Structures and Programming Languages

Computer Science 230 (4 credits) Computing Laboratory
This course introduces techniques for developing and maintaining large programs. Extensive practical programming experience is provided.

Computer Science 235 (4 credits) Computer Applications
This course studies the applications of Computer Science, particularly to commercial areas. Topics will include: Commercial file processing, programming in Cobol. Office applications packages such as for word processing. Introduction to simulation.

Computer Science 290 (4 credits) Numerical Computation
Introduction to the numerical algorithms fundamental to scientific computer work. Interpolation and approximation, numerical differentiation and integration, solution of nonlinear equations, linear systems of equations.

Stage III Courses
Computer Science 301 (2 credits) Topic in Computer Science (a)
Computer Science 302 (2 credits) Topic in Computer Science (b)
Computer Science 303 (4 credits) Topic in Computer Science (c)
Computer Science 304 (4 credits) Topic in Computer Science (d)
One or more of these topics papers may be taught in any particular year. The actual contents of such courses and the requirements that must be met before departmental approval to enrol in them is given, will be announced prior to enrolment. Enrolment is subject to the approval of the Head of Department.

Computer Science 310 (4 credits) Advanced Computer Organization
This paper continues on from Computer Science 210 in describing the organisation of modern computer systems. Topics include microprogramming, virtual storage, high-level language support, advanced machine structures, and several case studies.

Computer Science 320 (4 credits) Advanced Information Structures
This course deals with the storage and manipulation of data. Material includes: development of database management systems; hierarchical, network and relational data models; languages for data description, manipulation and querying; performance, reliability and security; design considerations; existing systems; advanced topics.
Computer Science 340 (4 credits) Operating Systems
Principles of operating systems, including handling of concurrent processes, memory management, processor management, task scheduling, file systems and protection. Comparison and evaluation of several current systems.

Computer Science 350 (4 credits) The Theory of Computation

Computer Science 390 (4 credits) Numerical Analysis

Courses for MSc and Honours
To satisfy the prerequisites for the MSc degree two separate requirements must be satisfied. The first of these is that the course work in Computer Science above Stage I level amounts to at least 24 credits, and the second is that the total number of credits at Stage III level be at least 24 with at least 12 in Computer Science. In special circumstances the department would consider a relaxation of either of these requirements. Students accepted as candidates for this degree select papers approved by the Head of the Computer Science Department from 07.400 to 07.499, with a total value of 16 credits.

In addition they write a thesis (07.601) or take an advanced course of study (07.605), either of which counts as 16 credits. Not all 400 level papers will be offered each year but those that are, together with their prescriptions, will be announced prior to enrolment.

A candidate must normally complete his thesis or advanced course of study not later than twenty-four months after his first enrolment for this degree.

Computer Science 401 (2 credits) Advanced Topic in Computer Science (a)
Computer Science 402 (2 credits) Advanced Topic in Computer Science (b)
Computer Science 403 (2 credits) Advanced Topic in Computer Science (c)
Computer Science 404 (2 credits) Advanced Topic in Computer Science (d)
Computer Science 405 (2 credits) Project in Computer Science
Computer Science 406 (2 credits) Seminar in Computer Science
Computer Science 410 (2 credits) Computer Architecture
Computer Science 411 (2 credits) Topic in Computer Architecture

Computer Science 416 (2 credits) Computer Graphics
Computer Science 420 (2 credits) Database Management Systems
Computer Science 430 (2 credits) Theory of Compilers
Computer Science 431 (2 credits) Compiler Construction
Computer Science 440 (2 credits) Advanced Operating Systems
Computer Science 441 (2 credits) Topic in Operating Systems
Computer Science 450 (2 credits) Theoretical Computer Science
Computer Science 451 (2 credits) Computational Complexity
Computer Science 460 (2 credits) Artificial Intelligence
Computer Science 461 (2 credits) Computational Logic
Computer Science 490 (2 credits) Numerical Linear Algebra
Computer Science 491 (2 credits) Numerical Quadrature
Computer Science 492 (2 credits) Numerical Solution of Ordinary Differential Equations
Computer Science 493 (2 credits) Numerical Solution of Partial Differential Equations
Computer Science 494 (2 credits) Mathematical Software

DEPARTMENT OF GEOGRAPHY
Geography for BSc
The prescriptions for Geography courses are as prescribed for Geography papers for BA.

Geography for MSc and Honours
[Four papers and a thesis (20.601)]
A candidate is expected to enrol for and sit the four papers in the first year, present the thesis in the year next following and submit it for examination by 1 November of that year. Papers shall be selected from 20.400 to 20.442. The prescriptions for Geography courses are as prescribed for Geography papers for MA.

DEPARTMENT OF GEOLOGY
Stage I
Two courses are offered.
21.100 Fundamentals of General and Environmental Geology
Sixty-nine hours lectures, 46 hours laboratories, 8 credits. The earth as a planet; materials and basic structure of the lithosphere, igneous activity,
metamorphism, tectonism and structural geology; general geomorphology, weathering, erosion and principles of sedimentation; introductory paleontology and stratigraphy; the geological history of New Zealand and the South-west Pacific; mineral deposits; environmental and engineering geology. The practical course will include identification of elementary rocks and minerals, examination of fossils, preparation and interpretation of simple geologic maps.

Field Classes: Each student will be required to attend at least two field excursions, arranged usually on weekends during term time.

Practical Work: One two-hour practical class must be attended each week. The year’s practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.150 Applications of Geological Concepts and Methods (corequisite: 21.100)
Twenty-three hours lectures, 54 hours laboratories, 4 credits. The history of, and scientific method in, geology, stratigraphic correlation, paleontology and paleoecology; the planetary system and elementary geophysics; igneous, metamorphic and sedimentary petrography, applied aspects of structure and tectonics.

Field Classes: Each student will be required to attend at least two field excursions, arranged usually on weekends during term time.

Practical Work: One three-hour practical class must be attended each week. The year’s practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Note: Students terminating at Stage I Geology need only take 21.100 to acquire a sound background to all aspects of the discipline. A pass in both 21.100 and 21.150 is necessary before a student can advance to Stage II courses in Geology. Any student taking both 21.100 and 21.150 and failing in the former whilst passing the latter will receive 4 credits and will not be permitted to advance in Geology until 21.100 has been passed. Students in 1983 who have only one of 21.101, 21.102 will not be permitted to enrol in 21.100, but with the permission of the Head of Department may enrol in 21.150.

Stage II
Three courses are offered. Entry to each course is limited to 36. Students who intend to enrol should make pre-enrolment application to the Registrar no later than 15 January 1983.
Attention is drawn to the inclusion in the Schedule of Science Faculty courses of Geomechanics 1, 52.231, as a Stage II course relevant to those with an interest in Engineering Geology.

21.201 Introductory Tectonics (Prerequisites: 21.100 plus 21.150)
Fifty-eight hours lectures, 46 hours laboratories, 6 credits. Elements and mechanical principles of structural geology. Structures and metamorphic rocks. Geological maps and their construction, regional geology, and hypotheses of global tectonics in the light of geophysics. Aspects of engineering geology.

Field Classes: A field camp lasting about a week will be held probably during the first vacation and other one-day excursions may be arranged throughout the year. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of these classes which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.202 New Zealand Historical Geology (Prerequisites: 21.100 plus 21.150)
Fifty-eight hours lectures, 46 hours laboratories, 6 credits. Advanced treatment of the full New Zealand stratigraphic sequence, biostratigraphy, paleoecology, and geological history, with the regional geology of some smaller areas and the comparative paleontology necessary as a background to biostratigraphy.

Field Classes: In conjunction with course 21.201 a field camp lasting about a week will be held probably during the first vacation; other one day excursions may be arranged throughout the year. Attendance at the field classes is compulsory and students must be prepared to pay a large part of the cost of these classes, which may be held anywhere in New Zealand.

Practical Work: The year’s practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.203 Introduction to Mineralogy and Petrology (Prerequisites: 21.100 plus 21.150; Corequisite: Chemistry 08.115 or 08.125)

Field Classes: One-day excursions may be arranged throughout the year. Attendance at these classes is compulsory and students must be prepared to pay a large part of the costs involved.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical courses and the written paper is necessary. Students will be required to attend one two-
Stage III

Entry to each course is limited to 25. Students who intend to enrol should make pre-enrolment application to the Registrar no later than 15 January, 1983; students are advised to consult members of the Geology staff about their intended course before pre-enrolment.

Compulsory Field Class in Geological Mapping

All students enrolling in a Stage III course in Geology (except 21.306 or 21.307) are required to attend a Field Class in Geological Mapping, and to submit a satisfactory finished map and report. The field Class required will normally be the Stage III one usually held during the May vacation; except that the Head of the Department may permit a student to attend instead the Stage II Field Class which is usually held in the May vacation. This Field Class is part of the field classes which are specified for individual Stage III courses. It may be held anywhere in New Zealand and students must be prepared to pay a large part of the cost.

The following seven courses are offered:

21.301 Advanced Tectonics and Applied Geology

(Prerequisites: 21.201 and 21.202)
Forty-six hours lectures, 69 hours laboratories, 6 credits. Regional Geology of selected areas with special emphasis on orogenic belts. Introduction to applied geophysics; geology and geophysics of the southwest Pacific. Advanced methods in structural geology. Elements of surveying; photogrammetry and photogeology; principles and practice in engineering geology. Slide-rule and pocket calculation techniques are used throughout this course.

Field Classes: Attendance at the Stage III Compulsory Field Class in Geological Mapping is required.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical work and the written paper is necessary.

21.302 Sedimentology and Marine Geology

(Prerequisites: 21.201, 21.203) for exemptions see schedule
Forty-six hours lectures, 69 hours laboratories, 6 credits. Physical, chemical and biological processes in the major environments of sedimentation; geomorphology, origin and structure of submarine physiographic provinces. Petrography of sedimentary rocks; process of modern marine sedimentation and erosion.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days of field work will be held throughout the year; attendance is compulsory and students must be prepared to pay a large part of the cost of trips which may be made anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical work and the written paper is necessary.

21.303 Advanced Paleontology

(Prerequisites: 21.102, or (21.100 plus 21.150) or 39.101 plus either 06.102 or 38.102)
Forty-six hours lectures, 69 hours laboratories, 6 credits. Advanced treatment of major invertebrate groups (Foraminiferida, Brachiopoda, Mollusca, Coelenterata, Echinodermata, Arthropoda) covering their morphology, origin, evolution, paleoecology and geological history. Paleoecologic principles and practice, paleoecology of other groups of organisms (ichnofossils, Bryozoa, etc.)

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days of field work will be arranged throughout the year anywhere in New Zealand, attendance is compulsory and students must be prepared to pay a large part of the cost of these excursions.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

Note: Since the prerequisites for this course are first-year courses it is possible to take 21.303 as a second year course; students who intend to major in Geology must obtain the permission of the Head of Department to take 21.303 in their second year.

21.304 Minerals and Mineral Deposits

(Prerequisites: 21.203, Chemistry 08.123 or 08.125; Corequisites: 21.302 and 21.305)
Sixty-nine hours lectures, 46 hours laboratories, 6 credits. Systematic mineralogy and crystal chemistry; advanced determinative mineralogy using a variety of analytical and instrumental techniques; mineral deposits in sedimentary, igneous and metamorphic environments and their genesis; elementary aspects of geochemistry.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days will be spent in the field throughout the year. Attendance at these classes is compulsory and students must be prepared to pay a large part of the cost of these excursions which may be held anywhere in New Zealand.

Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.
21.305 Igneous and Metamorphic Petrology
(Prerequisites: 21.203, Chemistry 08.120 or 08.123 or 08.125)
Forty-six hours lectures, 69 hours laboratories, 6 credits. Petrography, chemistry, petrogenesis and regional settings of igneous and metamorphic rocks.
Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days will be spent in the field throughout the year. Attendance is compulsory and students must be prepared to pay a large part of the cost of these trips which may be held anywhere in New Zealand.
Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks schedule of the University. A pass in both the practical course and the written paper is necessary.

21.306 Applied Geophysics
(Prerequisites: either 21.201, (26.120 or 26.121), (06.141 or 06.142), (31.110 or 31.113 or 31.115) and (31.120 or 31.123 or 31.125) or (21.101 or 21.100), 21.150, 31.210. Corequisite: 31.330)
Thirty-six hours lectures, 3 credits. A lecture course covering physical principles, equipment and techniques used in investigating the physical composition of the earth's crust and in mineral exploration. Standard numerical and graphical interpretation methods are discussed, and are used to interpret gravity, magnetic, seismic and DC-resistivity measurements to derive realistic geological gross structures and structures of mineral deposits.

21.307 Experimental Geophysics (joint laboratory course with Physics Department).
Seventy-two hours lectures, 3 credits. This is a laboratory course associated with 21.306. Use and calibration of geophysical instrumentation, experiments to illustrate basic principles, analysis and interpretation of field data involving both Geology and Geophysics. This course is identical with course 31.393 and those students who satisfy the prerequisites 31.210 and 31.290 should enrol in 31.393.
Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, about five days of field work will be held throughout the year anywhere in New Zealand. Students must be prepared to pay a large part of the cost of these excursions which are compulsory.
Practical Work: The year's practical work will be assessed for each candidate and the marks included in the marks Schedule of the University. Part of the practical work is designed to prepare the students for the interpretation of the fieldwork in the 21.307 (31.393) course.

BSc (Hons) Part IV in Geology
(Three papers and a research report 21.603)
The regulations which cover the BSc (Hons) course are listed elsewhere. This course in Geology is designed to enable students of high ability to complete an Honours degree in four years and thus be eligible to proceed direct to a PhD degree, and for the award of post-graduate scholarships. Students enrolled for BSc (Hons) Part IV in Geology undertake course work as for first-year MSc students and will select three of the following papers prescribed for the MSc degree (21.401-21.406 and 21.408 but not 86.100 or 86.102). In addition, they must complete a research project by the beginning of the second half of the academic year, and the marks allotted for the project report count as equivalent to one paper. Admission to the Honours School may be granted at the end of either the second or third year after first enrolment in the Geology Department. Students who wish to be considered for enrolment should consult the Head of Department prior to enrolment or at any time during the preceding year. Students who have been admitted to Part IV should consult the Geology staff about textbooks and particularly about fourth-year research projects at the end of their Stage III year. Students are reminded of the Foreign Language Reading requirement for admission to the degree of BSc (Hons). Candidates must show proficiency in a language approved by the Head of Department.

MSc and Honours in Geology
[Three papers and a Thesis (21.601)]
The MSc is normally a full-time two-year degree, following the completion of a BSc, and consists of three written papers to be selected from 21.401-21.406 and 21.408 and either 86.100 or 86.102 together with a thesis which, for examination assessment, counts as two written papers. Students are reminded of the Foreign Language Reading requirement for admission to the degree of MSc or MSc (Hons); proficiency must be shown in a language approved by the Head of Department.

Note: Interested students should also refer to School of Engineering courses in Geomechanics.

21.401 Tectonics and Structural Geology
Analysis of complex structural sequences in metamorphic and non-metamorphic rocks. Principles of strain analysis and rock mechanics. Selected topics in regional geology as related to tectonic theory.

21.402 Sediments and Sedimentary Processes
Sedimentary processes and products in both ancient and modern settings. Identification and interpretation of sedimentary environments; the provenance and subsequent diagenetic history of terrigenous and carbonate sediments.
21.403 Stratigraphy and Paleontology
Principles and practice in stratigraphy and correlation, the fossil record and its interpretation, the historical geology of New Zealand.

21.404 Mineralogy and Geochemistry
The crystal chemistry of mineral systems, the abundance and distribution of the elements in specific geological environments, and selected mineral groups and their paragenesis.

21.405 Genesis of Igneous and Metamorphic Rocks
Studies in the petrology of igneous and metamorphic rocks covering geological settings, PT environments, petrochemistry and mineral assemblages with emphasis on recent developments in the theoretical, experimental and observational fields.

21.406 Advanced Applied Geophysics
The theory and practice of the interpretation of geophysical measurements. The topics covered are presented in two groups in alternate years: (i) (odd years) potential field theory, quantitative interpretation of gravitational and magnetic anomalies (two- and three-dimensional bodies); (ii) (even years) DC and AC resistivity measurements, seismic wave transmission, refraction and reflection studies. Practical work: The year's practical work will be assessed by means of exercises to be completed during the lecture course which will be held during the first half of the year, and two essays and discussion of a seminar topic in the second half.

Note: This course is the same as Physics 433 and is given jointly by the Geology and Physics Department. Previous enrollment in Physics 330, Geology 306 and Geology 307 is desirable.

21.408 Advanced Engineering Geology
Application of geology to engineering practice with emphasis on the geological, physical and structural variants in rock masses and soil masses. Aspects of ground investigation methods, aggregates, relevant clay mineralogy, groundwater, sediments and soils, excavation methods, stability of slopes, foundation requirements and relationship to soil mechanics and rock mechanics.

86.100 Geothermal Systems and Technology

Note: This course includes two compulsory field trips, normally held in late February to Wairakei and in May to Ngawha, each of about five days duration, but timing, location and duration may be altered from year to year.

86.102 Geothermal Exploration Technology

Note: (a) Students seeking enrolment in this course must have passed 21.304 or 21.305 or 21.306; in addition, a pass in either 08.210 or 08.220 is desirable.

(b) This course includes a compulsory field trip, normally held in Mid-Term Break to Wairakei and Wellington and of five days duration, but timing, location and duration may be altered from year to year.

PhD in Geology
(Thesis (21.602) and an oral examination)
Facilities are available for research by PhD candidates in many branches of Geology: geochemistry, petrology, mineralogy, structural geology, palaeontology and stratigraphy, sedimentology, marine geology, geophysics and engineering geology. Students intending to work for this degree should have reached a satisfactory level of attainment in BSc (Hons) or MSc. Students working for this degree who have not already shown proficiency in a foreign language will be required to pass the Foreign Language Reading Examination in a language approved by the Head of Department.

LEIGH LABORATORY
The Leigh Laboratory is situated on the east coast, some seventy kilometres north of Auckland, at Goat Island Bay, Leigh. It provides research and some advanced course space, facilities such as running seawater, and living accommodation for twenty workers. Present work is centred on the ecology, physiology and systematics of shore and shallow water organisms, and geology and marine geophysics, but the laboratory is open to workers in any branch of marine research.

Excellent collecting grounds are available in the district, although the area in the immediate vicinity of the laboratory is designated a marine reserve, in which certain limitations are imposed. Within ten kilometres of the laboratory there are examples of almost every kind of shore from mangrove swamps and quiet harbours to exposed rocky shores and surf beaches. A full climate station is maintained and climatic variables in the intertidal region are regularly monitored. The laboratory owns various small boats which are available for nearshore collecting, scuba work and for plankton sampling. A 10m work boat with winch and accommodation for 6 is available for offshore work. Certain scuba equipment and divers' air compressor are available and there are full facilities for quantitative phytoplankton work, seawater chemistry, and respiratory and photosynthetic measurements using electrodes or manometry. Tank rooms with constantly running seawater can be used for the maintenance of animals and seaweeds.

The Laboratory is managed by a committee composed of the Heads of such Departments as Zoology, Botany and Physics. Students who wish to work at the Laboratory must make arrangements with the Director through their supervisors and any other
Director through their supervisors and any other bookings can be made in advance by contacting the Director, Dr W. J. Ballantine, R.D., Leigh (Telephone, Warkworth 26-111). Facilities and accommodation are available to students proceeding to the BSc, BSc (Hons), MSc, or PhD degrees as well as staff and visiting scientists.

DEPARTMENT OF MATHEMATICS AND STATISTICS

Stage I Courses

**Maths 120 (6 credits)** 26.120 Principles of Algebra

**Maths 121 (6 credits)** 26.121 Introductory Algebra

**Maths 122 (6 credits)** 26.122 Finite Mathematics

These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics or Engineering will take Maths 120 or 121 which are to be considered as equivalent for prerequisite purposes. Students with a strong entrance background should enrol in Maths 120 and students with a weak background in Maths 121. However, well prepared students are encouraged to enrol in Maths 221. Maths 122 is appropriate for commerce and law students and for arts and social science students not intending to major in Mathematics. However, as this is a first course in Mathematics, better prepared students are encouraged to take Maths 120 or 121 instead.

**Syllabus for Maths 120 and 121:** integers and induction; complex numbers; linear equations and matrices; vectors and geometry of 2 and 3 dimensions; polynomials; brief introduction to abstract algebra.

**Syllabus for Maths 122:** a selection of topics from logic, sets, principles of counting, vectors and matrices, linear equations, probability and Markov chains, linear programming, the theory of games, number systems.

**Maths 140 (6 credits)** 26.140 Principles of Calculus

**Maths 141 (6 credits)** 26.141 Introductory Calculus

**Maths 142 (6 credits)** 26.142 Concepts of Calculus

These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics or Engineering will take Maths 140 or 141 which are to be considered as equivalent for prerequisite purposes. Students with a strong entrance background should enrol in Maths 140 and students with a weak background in Maths 141. However, well prepared students are encouraged to enrol in Maths 241. Maths 142 is appropriate for commerce and law students and for arts and social science students not intending to major in Mathematics.

Limits, continuity; derivatives and integrals; differential calculus of polynomials and rational functions; antiderivatives and integrals of polynomials; logarithmic, exponential and circular functions; calculus in Euclidean geometry; applications.

**Maths 170 (6 credits)** 26.170 Principles of Mechanics

Elementary vector algebra; statics of a particle and rigid body; centres of mass and moments of inertia; dynamics of a single particle including work, energy, momentum, simple harmonic motion, motion in a circle and projectiles; introduction to dynamics of a system of particles and of a rigid body.

**Maths 180 (6 credits)** 26.180 Principles of Statistics

Axioms of probability, random variables, probability distributions, expected values, discrete bivariate distributions, sampling distributions, small and large sample inference, regression.

**Maths 181 (6 credits)** 26.181 Introduction to Probability and Statistics

The syllabus is similar to that of 26.180 but with less emphasis on mathematical proofs and more emphasis on statistical techniques and their applications. Further topics such as contingency tables, goodness of fit tests will be included. Students intending to advance in statistics to Stage III will normally take 26.180. Other students who do not have a good background of pure mathematics and statistics at the sixth or seventh form level are advised to take 26.181. If in doubt, please consult the lecturer in charge of the course. A special version of 26.181 called 26.181C (for departmental purposes only), is available for commerce students. Students who pass 26.181 will require permission from the Head of the Department before they may enrol in 26.280.

Stage II Courses

In accordance with regulation 14 of the BSc regulations and regulation 15 of the BA regulations, the Head of Department may waive the prerequisites listed in the schedule in particular cases. This applies particularly to students who, instead of having passed the formal prerequisite, have passed a related paper with a good grade. The papers to which this applies are 122 instead of 120 or 121, 142 instead of 140 or 141 and 181 instead of 180.

**Maths 210 (6 credits)** 26.210 Principles of Mathematics

The course consists of a wide selection of topics from various branches of Mathematics. Further information about the course may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.
Maths 220 (6 credits) 26.220 Linear Algebra
Matrices, vector spaces, linear mappings, determinants, eigenvalues and eigenvectors, non-singular reduction of quadratic forms, Sylvester's law of inertia, inner products, orthogonal reduction of real quadratic forms.

Maths 221 (8 credits) 26.221 Algebra (accelerated course)
A selection of topics from Maths 120 and Maths 220 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 120.

Maths 240 (4 credits) 26.240 Calculus
Algebra and geometry of vectors in three dimensional space; calculus of vector valued functions, curves, functions of several variables, partial derivatives, chain rule, maxima and minima, div, grad and curl; multiple integrals; least upper bounds; sequences and series, introduction to power series.

Maths 241 (8 credits) 26.241 Calculus and Analysis (accelerated course)
A selection of topics from Maths 140 and Maths 240 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 140.

Maths 260 (4 credits) 26.260 Differential Equations
Methods for the solution of ordinary differential equations, including variation of parameters, Laplace transform methods, and power series solutions; elementary Fourier series and boundary value problems.

Maths 280 (4 credits) 26.280 Statistical Theory
Probability spaces, distribution theory of one or more variables, probability and moment generating functions, sampling theory for the normal distribution, estimation, hypothesis testing, linear models.

Maths 281 (4 credits) 26.281 Statistical Methods
Basic statistical methods, introduction to analysis of variance and experimental design, goodness of fit, contingency tables, non-parametric methods, regression, sample survey methods.

Stage III Courses
In accordance with regulation 14 of the BSc regulations and regulation 15 of the BA regulations, the Head of Department may waive the prerequisites listed in the schedule in particular cases.

*Maths 310 (4 credits) 26.310 Special Topics in Pure Mathematics (a)
Enrolment in this paper requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.

†Maths 311 (2 credits) 26.311 Special Topics in Pure Mathematics (b)
Enrolment in this paper requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.

Maths 315 (4 credits) 26.315 Formal Logic
Formal systems, proof-theoretic and model-theoretic approaches to classical and model sentential logic, introduction to first-order logic.

Maths 320 (4 credits) 26.320 Algebraic Structures
Maths 321 (4 credits) 26.321 Introduction to Abstract Algebra
Groups, rings, unique factorisation domains, fields. The object of these courses is to give a basic introduction to modern algebra, exclusive of linear algebra. They are alternative courses, and only one of them may be selected by any student. Both courses are acceptable and suitable as a prerequisite for Maths 420, and the Mathematics and Statistics Department reserves the right to direct which of these courses a particular student shall take.

Maths 330 (2 credits) 26.330 Introductory Analysis
Elements of set theory, the real number system, sequences and series of functions, uniform convergence, Riemann integration.

Maths 331 (4 credits) 26.331 Principles of Analysis (accelerated course)
A selection of topics from 26.330 and 26.340 taught as a unified course. This course follows on from 26.241 and enrolment requires permission from the Head of the Department of Mathematics and Statistics.

Maths 335 (2 credits) 26.335 Metric and Normed Spaces
Metric and normed linear spaces with particular reference to n-dimensional Euclidean space and C(a,b), compactness, connectedness, completeness and their applications.

Maths 340 (4 credits) 26.340 Multivariable Calculus
Differential and integral calculus of vector-valued functions of several variables and applications.

Maths 345 (2 credits) 26.345 Techniques of Complex Variables
Analytic functions, power series, calculation of integrals by residues.

Maths 350 (4 credits) 26.350 Topics in Mathematics
A selection of topics chosen from topology or differential geometry. Enrolment in this paper requires permission from the Head of Department.
*Maths 355 (4 credits) 26.355 Geometry
A selection of topics chosen from axiom systems, affine geometry, Euclidean and non-Euclidean geometry, projective geometry, inversive geometry, convexity.

Maths 360 (4 credits) 26.360 Applied Analysis
Differential equations, the special functions of applied mathematics, orthogonal polynomials, Fourier series, Boundary value problems.

*Maths 362 (4 credits) 26.362 Special topics in applied mathematics
Enrolment in this course requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.

Maths 370 (4 credits) 26.370 Mechanics
General dynamical principles, theory of rotating axes, motion under central forces, motion of a rigid body, Lagrange's equations of motion, Hamiltonian theory, special theory of relativity.

Maths 371 (4 credits) 26.371 Field Theory
An introduction to electromagnetism and fluid dynamics.

Maths 380 (4 credits) 26.380 Probability
Introduction to stochastic processes, generating functions, recurrent event theory. Markov chains including applications to random walks and discrete branching processes. Poisson processes, birth and death processes including applications to queuing processes, miscellaneous topics.

Maths 381 (4 credit.) 26.381 Statistical Analysis
Expectation and covariance operators for random vectors, quadratic forms, multivariate normal distribution, detailed study of multiple linear regression, analysis of variance and covariance.

Maths 391 (4 credits) 26.391 Optimisation in Operations Research
Linear programming; Simplex and revised Simplex methods; duality, and the dual Simplex method; post optimal analysis; decomposition and column generation; integer programming; cutting planes and branch and bound; dynamic programming; network analysis, transportation and flow problems.

Maths 395 (4 credits) 26.395 Mathematical Modelling for Operations Research
Digital simulation techniques and applications. Monte-Carlo methods and related statistical analysis; introduction to deterministic and stochastic models in such areas as queuing theory, inventory control, reliability, Markov decision processes, risk analysis.

Courses for MA, MSc and Honours
The Prerequisites for the MA and MSc degrees are: Mathematics 220 or 221, 240 or 241, at least one of 260, 280, 281, plus twenty 300 or 400 level credits approved by the Head of the Mathematics and Statistics Department. Normally at least 16 of these credits shall be from courses in Mathematics and Computer Science, but 12 credits in Mathematics and Computer Science may be approved in special cases.

The student shall select papers, approved by the Head of the Department of Mathematics and Statistics Department, from 26.400 to 26.499 and 07.490 to 07.499 with a total credit value of 20 credits, together with a thesis (26.601) or an advanced course of study (26.605), which will count as 16 credits. Up to four of the 20 credits may be replaced by four stage three credits from Mathematics and Computer Science papers not already taken for any other Degree or Diploma.

A candidate who has not passed Mathematics 320 or 321, 330 or 331 and 340 will normally be required to pass these papers or their equivalents during their first Masters year. Prospective Masters students should consult the Administrative Secretary of the Mathematics and Statistics Department for further details, preferably when they enrol for their 300 level papers.

Not all 400 level papers listed will be offered each year. The list of papers to be offered and their prescriptions will be determined each year by the Head of the Department of Mathematics and Statistics. The number of credits for each paper is given after the title.

A candidate must normally complete his thesis or advanced course of study not later than twenty four months after his first enrolment for this degree.

**BSc (Honours) in Mathematics**

Prerequisites for Part IV of the BSc(Hons) degree are the same as for an MA or MSc degree in Mathematics. Normally only students of proven ability (B+ or above) may be considered for entry at either Part III or Part IV level.

The courses available at Part III level are such as will allow a candidate to satisfy the prerequisites for Part IV. The requirements for Part IV are: a selection of papers, approved by the Head of the Mathematics and Statistics Department, from 26.400 to 26.499 and Computer Science 07.490 to 07.499 with a total credit value of 20 credits. The comments above concerning 320 or 321 etc with regard to the first year of the Masters degree also apply to Part IV of the BSc(Hons).

Students who obtain the BSc(Hons) will be permitted to complete the MSc by presenting a thesis or completing an advanced course of study as approved by the Head of the Department of Mathematics and Statistics.

**Diploma in Mathematical Education**

See under Diploma Regulations and Prescriptions.

**Diploma in Statistics**

See under Diploma Regulations and Prescriptions.

**DEPARTMENT OF PATHOLOGY**

Pathology for MSc and Honours

(Two papers and a Thesis (68.621)

68.401, 68.402

The study of selected fields of Pathology at an advanced level with detailed study of one particular field. The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

**DEPARTMENT OF PHILOSOPHY**

Stage II Course

Philosophy 29.203 (5 credits) Philosophy of Science

This course is available for second and third year BSc students. It provides an introduction to the logic, methodology, ontology and epistemology of science, and other problem areas where philosophy intersects with foundational issues in special sciences. No prior acquaintance with philosophy will be presupposed. However, students will be required to master some elementary logic. Full details of the course, including texts, can be found in the brochure Department of Philosophy: Course Outlines available from the Departmental Secretary.
DEPARTMENT OF PHYSICS

Stage I courses

Physics 104 (2 credits) Basic Electronics for Instrumentation

This course is given in even numbered years. It is intended for nonphysicists who need to use and understand electronic instrumentation. It aims to provide a basic understanding of electronic circuits and electronic instruments commonly used for scientific purposes.

The topics covered include:
1. the calculation, measurement and observation of direct, alternating and transient electrical signals;
2. a discussion of the factors which cause measurement and observational errors;
3. the characteristics of some active circuit devices, including transducers;
4. the operating principles and uses of power supplies, amplifiers and oscilloscopes;
5. simple logic circuits and their use in the control of experimental parameters.

The course will consist of 12 1-hour lectures and 12 2-hour laboratory periods. The laboratory work is an integral part of the course in which a substantial part of the instruction will take place.

Physics 105 Acoustics (Paper 28.113 for BMus)

This course is provided as an option for the degree of Bachelor of Music only and is examined as paper 28.113. Topics covered include the fundamental principles of oscillations and wave propagation; stationary waves; resonance; loudness; pitch; tone quality; intervals and scales; the principles of operation of stringed, woodwind, brass and other instruments; the electronic production and reproduction of sound; and the acoustics of rooms.

Physics 110, 113, 120, 123

The course combinations (110, 120) or (113, 123) are intended for students who wish to advance in the physical sciences, engineering or mathematics. These two combinations have the majority of the syllabus and the majority of the final examination in common and are equivalent as prerequisites for advancing Physics or Engineering.

Students will be streamed so that those with a strong entrance background (normally A Bursary or better) will take Physics 110 and 120. These courses omit those topics which are adequately covered in Bursary Physics and replaces them with alternative topics to give a broader coverage at the Stage I level.

Students with B Bursary or less background will be streamed to take Physics 113 and 123 as the regular Stage I Physics course.

Students who do not attain the standard required for a pass in Physics 110/113 or 120/123 may be credited with a pass in Physics 115 or 125 respectively.

Physics 110 (6 credits)

Lectures for four hours per week and one three hour laboratory session per week in the first half year. The course is based on the topics mechanics, heat, wave-motion, sound and light. Tutorial assistance is available.

Physics 113 (6 credits)

Lectures for four hours per week and one three hour laboratory session per week in the first half year. The course is based on the topics mechanics, heat, wave-motion, sound and light. Tutorial assistance is available.

Physics 120 (6 credits)

Lectures for four hours per week and one three hour laboratory session per week in the second half year. The course is based on the topics electricity, relativity and modern physics. Tutorial assistance is available.

Physics 123 (6 credits)

Lectures for four hours per week and one three hour laboratory session per week in the second half year. The course is based on the topics electricity, relativity and modern physics. Tutorial assistance is available.

Physics 115 and 125

These courses are given in the first and second half-years respectively and are intended primarily for students who intend to proceed to courses in medicine (Otago), dentistry, agriculture, architecture, home science, surveying, pharmacy and optometry. They are also recommended for students taking a BA degree or a BSc degree in natural science subjects. Mathematics and physics up to University Entrance standard will be assumed.

Students who are credited with a pass in Physics 115 or 125 may enrol for Physics 200 but are not eligible to enrol for any other advanced courses in Physics. Students with good results in Physics 115 and 125 and the Mathematics prerequisites may apply to the Head of the Department for permission to advance to Physics 210–290.

Physics 115 (6 credits)

Lectures for four hours per week selected from the following topics: mechanics, heat, wave-motion, sound and light. Tutorial assistance is available. Laboratory Course: Three hours of practical work each week in conjunction with lecture material.

Physics 125 (6 credits)

Lectures for four hours per week selected from the following topics: electricity, relativity, and modern physics. Tutorial assistance is available. Laboratory Course: Three hours of practical work each week in conjunction with the lecture material.

Stage II Lecture Courses

Note: There is no laboratory requirement for any of the advanced lecture courses in Physics, but not more than TWO of the courses Physics 210–250 may be credited unless the laboratory course Physics 290 is also credited.
Direct Entry
Students who have gained an Entrance Scholarship with outstanding marks in both Physics and Mathematics may be granted direct entry to Stage II courses in Physics. Enquiries should be first made to the Head of Department.

Physics 200 (4 credits) Topics in Contemporary and Applied Physics
This course provides an introduction to a variety of topics in physics of contemporary interest, such as space physics, astrophysics, geophysics and biophysics. It also discusses the basic physics involved in a variety of general topics such as music, photography and microscopy. The course is descriptive in nature and makes extensive use of demonstrations, slides, films and closed circuit TV. One two-hour lecture per week is devoted to each topic, with a different lecturer each week. The prerequisite for Physics 200 is one of the courses Physics 110–125 or Physics-chemistry for Human Biology. This course is examined by continuous assessment.

Lectures: Two hours per week throughout the year.

Physics 201 (2 credits) Astrophysics
This is an introductory course covering such topics as stellar structure and evolution, galaxies and cosmological theories.

The prerequisites for Physics 201 are any one of Physics 110, 113 or 115, together with any one of Physics 120, 123 or 125.

Physics 210–250
The prerequisites for each of these courses are Physics 110 and 120, and Mathematics 120 and 140. Students are recommended to enrol concurrently in Mathematics 240 and 260. Each course comprises two hours of lectures each week during one half-year. Tutorial assistance may be provided by arrangement with the lecturer.

Lists of text books or books for recommended reading are available from the Departmental Office by 1 December of the year prior to enrolment.

Physics 210 (2 credits) Oscillations and Waves
The aim of this course is to examine the general properties of waves and to consider the usefulness of wave equations by means of specific examples. Undamped, damped and forced vibrations are treated for electrical and mechanical systems. The course emphasises the usefulness of Fourier transforms in wave analysis, and gives close attention to their application in a qualitative understanding of Fraunhofer diffraction.

Physics 220 (2 credits) Electromagnetism and Optics
The electromagnetism part of this course covers the basic theory of the commonly observed electromagnetic phenomena and shows that they lead to Maxwell’s equations (integral form). The optics part deals with optical sources, coherence, diffraction, holography, interferometers and polarisation.

Physics 240 (2 credits) Electronic Physics
The aim of this course is to provide students with a fundamental understanding of the basic electronic circuits which are useful in physics instrumentation. The lectures will cover (i) d-c, a-c and transient circuit theory, (ii) semiconductor device physics, (iii) circuit applications of semiconductor devices, and (iv) principles of electronic design and instrumentation.

Note: Students are recommended to enrol concurrently in the laboratory course Physics 290; however, those students specialising in Computer Studies who are taking Physics 240 solely as a prerequisite to Physics 343 are recommended to enrol for Physics 290 concurrently with Physics 343, unless they intend to enrol for Physics 390, 391 and 392.

Physics 250 (2 credits) Quantum Physics
The aim of this course is to introduce students to the concepts and methods of quantum theory. The formal structure of the theory will not be stressed. The course will cover the Schrödinger equation, and its application to simple quantum systems.

Stage II Laboratory Course
Physics 290 (6 credits) Experimental Physics
This is a laboratory course which supplements the lectures at Stage II level. It occupies two three-hour periods each week throughout the year, and is examined on the basis of continuous assessment. The course is preceded by an introductory lecture and concludes with a short examination (oral or written) to determine minor adjustments to student grades. Physics 290 is a prerequisite to the laboratory course at Stage III level, and must be passed before more than two of the courses Physics 210–250 may be credited.

The prerequisites for Physics 290 are Physics 110 and 120, Mathematics 120 and 140. The corequisites are TWO of the courses Physics 201–250.

Note: Students specialising in Computer Studies should refer to the note under Physics 240.

Stage III Lecture Courses
Note: There is no laboratory requirement for any of the advanced lecture courses in Physics, but not more than THREE of the courses Physics 312–385 may be credited unless at least ONE of the laboratory courses Physics 390–392 is also credited.

Physics 312–385
The prerequisites for these papers are listed in the BSc Schedule. Students are recommended to enrol concurrently in Mathematics at Stage III level, the papers 26.340, 26.345 and 26.360 being the most relevant. Some papers in Computer Science such as 07.100, 07.105, 07.210 and 07.340 are also likely to be of benefit to Physics students.

Students should note the prerequisite requirement for MSc in physics and the arrangements concerning MSc theses.
Each course comprises two hours of lectures for one half-year. Tutorial assistance may be provided by arrangement.

List of text books or books for recommended reading are available from the Departmental Office by 1 December of year prior to enrolment.

**Physics 312 (2 credits) Classical Mechanics**
This course aims to give a brief review of the non-relativistic mechanics of systems of particles, and to develop the principles of generalised classical mechanics as they are used in physics. It will deal with the following topics: momentum, energy, angular momentum of single particles, and particle systems, generalised co-ordinates, constraints, Lagrange's equations, two-body problem, central forces and orbits, rigid body motion, Hamilton's principle, conservation theorems and symmetries, Hamilton's equations, canonical transformations, Poisson brackets. Emphasis is also laid on the parallels between the classical and quantum theories of mechanics.

**Physics 313 (2 credits) Thermodynamics and Statistical Mechanics**

**Physics 320 (2 credits) Electromagnetism and Electromagnetic Waves**
The course extends the electromagnetism of Physics 220 to the general situation, carrying on through Maxwell's equations to the propagation and properties of EM waves. The lectures are based on the following topics: electrostatics in terms of Laplace's equation, including its solution in terms of Legendre polynomials and cylindrical harmonics; dielectrics; magnetic fields and currents; Maxwell's equations; Lienard Wiechert potentials. Electromagnetic wave propagation, wave guides; radiation from antennas, reflection, refraction and scattering of electromagnetic waves. Introduction of physics of plasmas as relating to electromagnetic waves.

**Physics 330 (2 credits) Terrestrial Physics**
A general introduction to the physics of the solid Earth, including aspects of the gravitational field, the rotation and figure of the Earth, seismology and the internal structure of the Earth, the Earth's internal heat, the geomagnetic field, palaeomagnetism and geo-dynamics.

**Physics 331 (2 credits) Marine Physics**
A general introduction to ocean physics including a review of the physical properties of ocean water, the application of fluid mechanics to dynamic phenomena in the ocean and atmosphere, such as geostrophic, gradient, inertial flow, wind driven circulation, gravity waves, the tides and underwater acoustics.

**Physics 332 (2 credits) Atmospheric Physics**
A general introduction to physical processes involved in the lower atmosphere, including the origin, composition and structure of the atmosphere; the radiation balance; optical phenomena; atmospheric electricity; cloud physics; the thermodynamics and circulation of the atmosphere.

**Physics 341 (2 credits) Circuit Electrophysics**
This course is concerned with steady-state a-c circuit theory applied to both passive and active circuit analysis. Topics discussed include complex vector loci, Nyquist and Bode diagrams, matrix representation, s-plane concepts and operational amplifiers. Emphasis is placed on circuits suitable for instrumentation and data acquisition wherever possible. In common with Physics 343 this course is of interest to students intending to undertake experimental work although it is rather more theoretically biased.

**Physics 342 (2 credits) Semiconductor Devices**
This course is concerned with understanding the electrical behaviour of semiconductor devices. It contains material relating to the physics of semiconductor junctions, device fabrication and integration, electrical characteristics of discrete and integrated devices, circuit models and device applications. Although the course is general in nature, and is designed to follow Physics 240, students will benefit from concurrent enrolment in Physics 341.

**Physics 343 (2 credits) Pulse and Digital Electronics**
This course provides a systematic introduction to digital circuits and concepts that are basic to contemporary instrumentation and computation. The aim is to lead students from simple switching concepts in linear passive circuits via non-linear discrete semiconductor devices to integrated circuits and basic instrumentation systems. The course is of interest to all students intending to undertake experimental work.

**Physics 350 (2 credits) Quantum Mechanics and Atomic Physics**
The course is designed to give an understanding of the observed behaviour of atomic systems in terms of
the quantum theory. The following topics are discussed: (a) the one-dimensional Schrodinger equation and its application to linear molecules; (b) the quantisation of orbital angular momentum and the extension of Schrodinger’s equation to three dimensions; (c) perturbation theory and an introduction to matrix mechanics; (d) the spectra of hydrogen, hydrogen-like ions, alkali-like spectra and exotic atoms and their interpretation; (e) the spectra of helium, helium-like ions and the alkaline earth elements and their interpretation.

Physics 352 (2 credits) Molecular and Solid-State Physics

The molecular physics section of the course covers the following topics: the hydrogen molecular ion, the hydrogen molecule, covalent and ionic bonds, molecular rotational and vibrational spectra and their interpretation using the Schrodinger theory. The solid state section of the course deals with the structure of crystals and crystal lattices, lattice vibrations and the thermal properties of solids. The band theory of solids in terms of the quantum theory is also covered, as well as other selected topics. Concurrent or prior enrolment in Physics 350 is considered very desirable.

Physics 353 (2 credits) Nuclear and Particle Physics

The aim of this course is to discuss the basic properties of atomic nuclei and elementary particles, and to give an introduction to recent developments in these fields. The course is divided into two sections: Nuclear physics: basic properties of nuclei, radioactive decay, nuclear reaction mechanisms, introduction to nuclear models. Particle physics: discovery of mesons, resonances and strange particles, basic properties of elementary particles and their interactions, introduction to quark models. Concurrent or prior enrolment in Physics 350 is considered very desirable.

Physics 356 (2 credits) Nuclear Science

This course covers many topics of practical interest to experimental nuclear physicists and the theoretical backgrounds of several of the experiments in Physics 390–392 are discussed.

This course will include the interaction of charged particles, gamma rays and neutrons with matter and a selection of topics from: fission, fusion, radioactive decay, detectors, nuclear analytical techniques, beam optics, machine physics.

Physics 380–385 (each 2 credits) Selected Topics

Subject to the approval of the Head of Department students may select not more than two topics from those offered at MSc level in Physics. Any necessary prerequisites or corequisites will be as determined by the Head of Department.

Stage III Laboratory Courses

Physics 390, 391, 392 (each 3 credits) Experimental Physics A, B, C

Three general laboratory courses are available at Stage III level in Physics, and students may enrol for one or more of these in the same or subsequent years. Each course normally occupies two three-hour laboratory periods for half the year, but laboratory times are flexible depending on the allocation of experiments in the Advanced Laboratory, and Physics 392 may be spread over the whole year, at the discretion of the course organiser. Each course will contain a representative selection of experiments from different branches of physics, but will in addition contain experiments selected as far as is practicable to suit the particular interests of students. Experiments are available in general physics, atomic and nuclear physics, electronic physics and pure and applied geophysics.

In view of the value to be derived towards an understanding of experimental physics, it is expected that all students taking any of the 390-series laboratory courses will offer themselves for a period of Stage I laboratory demonstrating.

Prerequisites for enrolment in Physics 390, 391 or 392 are passes in TWO of the courses 31.201 to 31.250. Corequisites are concurrent enrolment (or passes) in ONE of the courses 31.312 to 31.353 for each Physics 390/1/2 course enrolment. At least ONE of the courses 390, 391 and 392 must be credited before more than three of the courses Physics 312–385 may be credited. At least TWO of the courses 390, 391, 392 or 393 are required as a prerequisite to Masters in Physics. The Stage II laboratory course Physics 290 is prerequisite to each of 390, 391 and 392.

Physics 383 (3 credits) Experimental Geophysics

This is a joint course offered by the Geology and Physics Department and is the same as Geology 307. Students holding the Physics prerequisites 31.210 and 31.290 should enrol in Physics 393. For further information on this course students should consult the entry under 21.307 Experimental Geophysics.

Physics for MSc and Honours

Students are required to enrol and be examined in four papers from those listed below and a thesis (Physics 601) which counts as four papers. In addition they will be invited to attend one further course without formal enrolment. All Masters papers will be examined at the end of the year.

Lecture Courses Physics 410–485

A number of lecture courses are available for the MSc degree in Physics covering a wide range of topics. Not all the papers listed may be offered each year and a sufficient number of enrolments will be
required in each case. With the approval of Senate a Masters paper in another subject may be substituted for one of the papers in Physics. Further, with the approval of the Head of Department it is possible to select one Stage III course in Physics not previously taken, or with the approval of both Heads of Departments concerned, one Stage III course in another subject as one of the four courses required for the MSc degree in Physics. In these cases additional course work may be required and a special examination will be sat as one of the "selected topics" 31.480–485.

Students will be advised in their selection of courses at enrolment but should discuss their proposed course of study and possible thesis topic with lecturing staff before the end of the Stage III year. There are no specific prerequisites for the individual lecture courses, but it is desirable that students should have taken the corresponding Stage III course where this is indicated. Concurrent enrolment in suitable courses may be advised.

Lists of textbooks or books for recommended reading are available from the Departmental Office by 1 December of the year prior to enrolment, but the advice of the lecturing staff should be sought before purchases are made.

**Physics 410 Transform methods**

This course deals with the theory and application of transform methods to linear physical systems. Topics presented will include: convolution, continuous and discrete Fourier transforms, Laplace transforms, z transforms and Hilbert transforms; with applications selected from: electric circuits, signal processing, optics, wave theory, spectroscopy and statistics.

**Physics 414 Relativity and Cosmology**

Aspects of the special and general theories of relativity. The necessary tensor calculus is developed in the course which is designed to give an introduction to gravitation and cosmology.

**Physics 420 Laboratory and Space Plasma**

The treatment of plasma physics is restricted to the fully ionized state. The subject is introduced by considering the motion of charged particles under the "guiding centre" approximation. Fluid type equations are developed to describe the properties of plasma. Solutions with application to astrophysics and fusion machines are considered. Propagation of electrostatic and electromagnetic waves in homogeneous magnetised plasma is given some emphasis. About eight lectures on space physics are devoted to the solar wind and the earth's magnetosphere and ionosphere.

**Physics 431 Wave Propagation**

A general treatment of propagation of acoustic, electromagnetic, seismic and surface waves with selected applications in underwater acoustics, oceanography, radio waves in the ionosphere, geophysical exploration and earthquake analysis. Topics include rays and normal modes in inhomogeneous layered media, reflection coefficients, attenuation, WKB approximations, stress-strain tensors, Rayleigh, Love and head waves and whole Earth models.

**Physics 432 Cloud Physics**

The aim of the course is to provide a detailed understanding of the condition of the atmosphere and the various physical processes which lead to the formation of clouds, the onset of precipitation and the occurrence of lightning discharges. The contents of the course includes the theory of nucleation of condensation, freezing and sublimation. The measurement of nucleating agents in the atmosphere. Observations of cloud microstructure and its relation to rainfall probability. The theory of droplet growth and the development of droplet populations. The formation of rain and its characteristics. The growth of ice in the atmosphere, leading to precipitation. The electrical properties of clouds and studies of the lightning flash. Thunderstorm theories. Current research in cloud physics.

**Physics 433 Advanced Applied Geophysics**

The theory and practice of the interpretation of geophysical measurements. The topics covered are presented in two groups in alternate years: (i) (odd numbered years) potential field theory, quantitative interpretation of gravitational and magnetic anomalies (two and three-dimensional bodies); (ii) (even numbered years) DC and AC resistivity measurements, seismic wave transmission refraction and reflection studies.

Practical Work: The year's practical work will be assessed by means of exercises to be completed during the lecture course which will be held during the first half of the year and two essays and a discussion of a seminar topic in the second half.

**Physics 441 Signal Processing**

This course is concerned with the theory and application of modern techniques used in the transmission, reception and interpretation of signals. Topics presented include: operational amplifiers and active filters, modulation and detection of signals in the presence of noise, signal analysis by analogue and digital processes, digital filtering, phased detectors and optical signal processing methods.

**Note:** Previous enrolment in Physics 320 is desirable.
Physics 443 Integrated Electronics
A course in digital and high speed pulse electronics with application in instrumentation and digital systems. Topics discussed include: number systems and codes, combinational logic, sequential digital systems (synchronous and asynchronous), digital system components and high speed switching devices. The course is of interest to students intending to undertake experimental work in any field of study and particularly to those with an interest in Computer Science.

Note: Previous enrolment in Physics 343 is desirable.

Physics 450 Quantum Theory
A review is given of the general formalism of quantum theory, making use of Dirac notation throughout. Particular topics covered may include scattering theory, time-dependent perturbation theory, relativistic quantum mechanics and spin, quantum theory of radiation and introductory quantum field theory, rotations and other symmetry operations. Applications are taken from atomic, nuclear and particle physics.

Physics 453 Nuclear Physics
The aim of this course is to present a unified picture of nuclear structure and interactions. The main topics discussed are the nucleon-nucleon interaction, nuclear matter and nuclear models, and nuclear reactions.

Note: Previous enrolment in third year nuclear physics courses and in Physics 350 is desirable, and concurrent enrolment in Physics 450 is strongly recommended.

†Physics 454 Elementary Particle Physics
Properties of the elementary particles as experimentally found and introduction to the theory of their strong electromagnetic and weak interactions; quantum field theory; cosmic rays; survey of current experimental and theoretical research approaches.

Note: Previous enrolment in Physics 350 and 353 is desirable, and students are recommended to enrol concurrently in Physics 450.

†Physics 455 Laser Physics and Quantum Optics

Note: Previous enrolment in Physics 350 is desirable.

Physics 480–485 Selected Topics
Special Lectures
Short courses of lectures on special techniques and instrumentation relevant to research activities of interest to the Department will be given from time to time. These lectures are available to staff and students and do not form part of the MSc examination.

Physics 601 Thesis
An experimental or theoretical thesis is required, and will count as four papers. A list of thesis topics available is produced prior to enrolment. Students with special research interests may include other suggestions for consideration. A suitable thesis programme will then be allocated by the Head of Department after discussion with students and with the teaching staff concerned. Thesis topics will be allocated as early as is practicable in the first year of enrolment.

With the approval of the Head of Department the thesis may be submitted by February 1st of the year following first enrolment for the Master of Science degree provided that students have commenced work on the thesis in December of their Stage III year. Theses will otherwise be expected to be completed by November 1st of the second year of enrolment. Extensions of time for a third year may be granted in special circumstances.

The Department is prepared to meet the cost of an additional copy of the thesis for the Departmental thesis library and students are asked to provide such a copy.

†This paper will not be taught during the current Calendar year unless sufficient staff is available.

Research in Physics
Facilities are available for postgraduate and post-doctoral research in Physics in a wide variety of fields. Further information is available from the Departmental Office.

The PhD degree in Physics normally requires about two and a half to three years full-time work. Part-time study is possible after the initial two years.

DEPARTMENT OF PHYSIOLOGY
Stage II
67.201 Introductory Physiology
(one paper and practical work)
An introductory course on cellular and organ physiology and relevant processes, particularly in mammalian systems. Topics are muscle, nervous system, motor control and sensory function; cardiovascular and respiratory systems and blood, with their exchange and transport functions; endocrine and reproductive systems, with hormonal control of cell metabolism; alimentary system, digestion and absorption; kidney function; body fluids. There is little overlap with course 38.209/309 offered by the Zoology Department.

Lectures: Students will attend two lectures a week.
Laboratories: Students are required to attend practical classes of not less than three hours per week.
Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: Chemistry 08.100 or 08.115, or 08.120 or 18.125. 6 credits from any course in Biology or Zoology.

A maximum number will be determined by the available accommodation.

Stage III

67.301 Systematic Physiology
(one paper and practical work)

This course examines specific aspects of physiology which demonstrate the integration of function from the level of the cell to that of the whole organism. Oxygen supply and demand, regulation of body fluids, cardiovascular control, body temperature regulation and determinants of function in the central nervous system are considered in depth. Special emphasis is placed on mammalian systems. Practical work complements the lecture course and provides training in a wide range of the techniques used in physiology.

Lectures: Students will attend two lectures a week.
Laboratories: Students are required to attend practical classes of not less than three hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: Physiology 67.201 and 12 or more credits from any science course at the Stage II or III level. A maximum number will be determined by the available accommodation.

Physiology for MSc and Honours
(Three papers and a Thesis (67.621) which shall count as three papers). Students who propose to undertake the MSc degree should consult the Head of Department as early as possible. Candidates must select three courses from those listed below.

67.401 Mechanisms of Physiological Control
Studies of physiological regulatory mechanisms.

67.402 Applications of Systems Analysis in Physiology
An introduction to systems analysis and control theory, and their application to physiological systems. Taught jointly with Department of Zoology.

67.403 Neurophysiology
Central processing of sensory information, such as pain, temperature or vision. Embryonic, environmental and developmental influences on the pattern and stability of neural connections.

67.406 Perinatal Physiology
A study of the physiology of the foetus and newborn, with an introduction to the methodology in this field. This paper will be taught in the Department of Paediatrics.

†67.405 Methods in Physiology
An outline of the theory and practice of data acquisition and analysis in physiology. Principles of experimental design, instrumentation, statistics and computation are considered with respect to specific experiments.

†This paper will not be taught during the current Calendar year unless sufficient staff is available.

DEPARTMENT OF PSYCHOLOGY

Optometry
Year 1
Chemistry
08.110 Organic, Physical and General
08.120 Inorganic, Physical and General
Chemistry
Mathematics
26.142 Concepts of Calculus
Physics
31.110 Mechanics and Heat, Wave-Motion, Sound and Light
31.120 Electricity, Relativity and Modern Physics
Psychology
32.108 Introduction to General Psychology
32.109 Introduction to Experimental Psychology
Biology
39.101 Central Concepts of Biology

All papers as prescribed for the Degree of Bachelor of Science.

Note: For 08.110 a candidate may substitute 08.113 or 08.115
For 08.120 a candidate may substitute 08.123 or 08.125.
For 31.110 a candidate may substitute 31.113 or 31.115.
For 31.120 a candidate may substitute 31.123 or 31.125.

Year II
44.200 Physical Optics

44.201 Geometrical Optics
Refraction at plane and spherical surfaces, limitations of Gaussian optics, thick lenses, cardinal points, equivalent and vertex powers, paraxial theory of optical instruments, stops. Magnification. Optical materials.

44.203 Ocular Anatomy
Anatomy of the eye and orbit and adjacent structures, cranial nerves, blood supply to the eye, embryology of the eye, comparative anatomy of the eye.

44.204 Ocular Physiology and Biochemistry
The vascular supply to the eye. Formation and circulation of aqueous humour, intraocular pressure. Chemistry and metabolism of the cornea, corneal permeability, turgescence and the maintenance of transparency. Structure of the crystalline lens.
Faculty of Science, Degree Prescriptions, Psychology, Optometry

44.210 Physiological Optics
Optics of the eye, schematic eyes, accommodation, spectacle and relative spectacle magnification. Luminous efficiency, light and dark adaptation, increment thresholds. Stiles Crawford effect, temporal and spatial induction, critical fusion frequency, enoptic phenomena, visual acuity, trivariance of vision, chromaticity, theories of colour vision and colour discrimination. Classification of eye movements, local signs, corresponding points, diplopia, afferent and efferent control mechanisms, rotary movements, nystagmus, conjugate movements, vergence and stereopsis, Panum's areas, fixation disparity.

Psychology
32.207 Sensory Processes: Physiological Psychology

Biochemistry
66.201 Introductory Biochemistry

Physiology
67.201 Introductory Physiology
All papers as prescribed for the Degree of Bachelor of Science

Year III
44.305 Ocular Pharmacology
General principles of drug actions on organ systems and the central and peripheral nervous systems. Characteristics of drugs producing miosis, mydriasis, cycloplegia, accommodative spasm and anaesthesia of ocular surfaces.

44.310 Physiological Optics
Electrophysiology of vision, electroretinography, electro-oculography, the visual evoked potential. Visual information processing. Fusion and stereopsis in the human visual system. Recent advances in visual physiology. Instrumentation for vision research, detectors, power supplies, analog and digital recorders, signal generators.

44.306 Applied Optics
Optical design, meridional and paraxial ray tracing, aberrations of single surfaces, lens systems. The design of optical instruments, optical tolerances, and the assessment of optical performance. Luminous transmittance. Colorimetry, the CIE colorimetric systems.

44.312 Contact Lens Practice
Contact lens designs and principles of fitting. Disinfection procedures, patient instruction. Signs and symptoms of ill-fitting contact lenses and lens modification procedures.

44.313 Environmental Vision
Visual ergonomics in land transport, aviation and industry. The elements of illuminating engineering, photometric concepts and computational methods. Lamp types, principles and applications, atmospheric optics.

44.315 Ocular Pathology
A study of the pathology and clinical manifestations of diseases of the eye, orbit, lacrimal apparatus and visual pathways. Symptomatic disturbances of vision, headache. Eye signs of general disease.

44.316 Ophthalmic Optics

44.330 Clinical Optometry
Refractive anomalies of the eye, changes in refraction with age, aetiology of refractive errors, presbyopia. Binocular vision anomalies, heterophoria, fusion, heterotropia. The optometric examination, objective and subjective refractive techniques. Assessment of ocular health, oculomotor balance, visual fields and colour vision. Clinical problem solving and patient management.

32.306 The Design of Psychological Experiments
As prescribed for the Degree of Bachelor of Science

Year IV
44.414 Community Health Optometry
Organisation of health services in New Zealand, health planning and administration. Health manpower requirements. The delivery of health care, role of government statutory and voluntary agencies. Role of optometry in the team approach to health care. Optometric needs of particular groups. Principles of industrial safety, incidence of eye injuries, eye protection programmes, visual screening.

44.421 Project
An investigation into some aspect of optometry or visual science.

44.430 Clinical Optometry
A course of training in clinical optometry including contact lens practice, aniseikonia and subnormal vision. Practice management, ethics, professional conduct.

Psychology for BSc
The prescriptions for Psychology courses are as prescribed for BA.

Note: Zoology and Mathematics are useful subjects for students advancing in Psychology for degrees in Science. The Schedule attached to the Course Regulations for the Degree of BSc should be consulted for prerequisites and corequisites. The Science Faculty handbook contains further useful advice.

Psychology for MSc and Honours
Four papers and a Thesis (32.601) which is equivalent to three papers.
Students in conjunction with the Head of Department will select four papers from among the following: 32.401-32.421. For prescriptions for papers 32.401-32.413 and 32.415-32.421 see Psychology for MA and Honours.

**32.451 Physiological Optics**
A review of selected areas of visual physiology.

**32.452 Special topic in Optometry**
1983: The application of physiological optics to advanced techniques for determination of the refractive status of the eye.

**32.453 Research Topic in Optometry**
1983: Cornea and contact lens research techniques.

**DEPARTMENT OF ZOOLOGY**

**Stage I**
The first year course for students in Botany, Zoology or Biology comprises three 6-credit papers, Biology 101 (paper 39.101), Botany 102 (paper 06.102) and Zoology 102 (paper 38.102).

**Biology 101 Central Concepts of Biology**
Biochemical concepts common to animals, microorganisms and plants; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; genetic principles and mechanisms; fundamental processes of ecosystems; population and community dynamics; organic evolution. This course may be taken as part of the Stage I requirement in either Botany or Zoology, but may not receive credit in both.

**Zoology 102 Animal Evolution and Diversity**
A survey of the evolution of animals, considering both the broad aspects of the evolutionary progression and detailed adaptations in physiology and anatomy to specific habitat and life history situations. Developmental biology.

**Biology for BA**
This is a Stage I course for students who do not plan to take a science degree. The course is intended as a general survey of the biological sciences, with elementary chemistry, physics and mathematics being introduced as necessary. The course cannot be used as a prerequisite for advanced Botany or Zoology. The two courses in the Biology for Arts series are taught in alternate years.

**39.111 Unifying concepts in Biology**
Taught in odd numbered years only. Cell Structure; Energy relationships; photosynthesis and respiration; Molecular Biology; control of synthesis of nucleic acids, proteins and macromolecules; Genetics; mechanisms in inheritance; Physiology.

**39.112 Biological Diversity and Function**
Taught in even numbered years only. Resume of the Plant and Animal Kingdoms, with emphasis on human importance. Principles of Ecology and Organic Evolution.

---

**Advanced Courses**

**Zoology 201, 301 Non-chordate Zoology**
Taught in odd numbered years only. The classification, structure and functioning of the invertebrates. A wide range of phyla will be considered; less emphasis will be given to land arthropods. (Detailed treatment of these is given in 38.205-305).

**Zoology 202, 302 Chordate Zoology**
Taught in even numbered years only. The evolution and biology of the hemichordates and protochordates and vertebrates from fish through to mammals. Particular emphasis is placed on the functional design of vertebrate animals and their adaptations to special environments.

The practical course includes the study of vertebrate animals in the laboratory.

**Zoology 203, 303 Animal Orientation and Timing**
Orientation mechanisms and biological timing. A study of the orientation behavior involved in habitat selection, migration, homing and predation in animals, with emphasis on the investigation of the mechanisms of these reactions using control systems analysis and sense organ physiology. The adaptive significance, nature and control mechanisms of biological clocks will also be studied in detail.

**Zoology 204, 304 Social Behaviour of Animals**
An evolutionary study of the behavioural ecology of social animals. Communication: evolution and ontogeny of signals, channels of communication, individual recognition, aggressive and courtship signalling; cultural transmission and dialect formation. Social structures: use of space, territories, hierarchies; mating systems, strategies of the sexes, monogamy, polygamy, cooperative breeding; kin groupings.

**Zoology 205, 305 Entomology**
The structure, evolution and systematics of the insects. An introduction to those terrestrial groups related to insects i.e. Onychopora, Myriapoda, and Arachnida, the basic structure and morphology of insects, and a systematic coverage of the insect orders. Applied Entomology.

**Biology 207, 307 Biometry**
Elementary statistical methods and concepts with particular emphasis on their application in biological research.

**Zoology 209, 309 Comparative Physiology**
Elementary concepts in zoophysiology with emphasis on adaptation to environment. Respiration, neurophysiology, and water balance receive special attention from a comparative viewpoint. The practical course provides an introduction to methods and instrumentation of importance in biological experimentation. There is no vertebrate vivisection in the practical course.
Bioloxy 211 Population and Community Ecology
Elementary demography and models of population growth; population genetics with emphasis on the concepts of selection and fitness; two-species interactions, competition and predation; multispecies associations. The emphasis will be on experimental ecology of both plants and animals from a wide range of habitats. There will be a compulsory field course of one week to the Coromandel with Biology 213 during the first week of May vacation (8–14 May).

Bioloxy 212, 312 Coastal Marine Biology
The shore and shallow sea as a habitat, life, and a workshop for ecologists. Habitat structure and intertidal zonation, exemplified chiefly by New Zealand shores. Descriptive schemes of community space, with underlying physical and biotic parameters. The adaptation of the various groups of plants and animals to life between tides. Coastal biogeography. The conservation and utilisation of the coastline. Practical work includes obligatory seven day field course available at Whangarei Heads during the third week of May vacation (21–30 May). Alternative field courses may be available at Leigh Laboratory in Mid-term and first week of August vacation (14–20 August).

Bioloxy 213 New Zealand Vegetation
New Zealand vegetation since the break-up of Gondwanaland. Palynological studies. Alpine environments. Major forest types. Lowland swamp and coastal communities. Emphasis will be placed in autecological studies and the dynamics of the ecosystems described, including the role of native and introduced fauna. Practical work will include an experimental project and day field-trips. A field course will be held from 8–13 May in conjunction with 39.211, and attendance is compulsory for students doing both subjects. Students not doing 39.211 in conjunction may apply for admission to the field course at enrolment.

*Zooloxy 310 Animal Morphogenesis
Aspects of the cellular structure, behaviour and biochemistry as these relate to developmental processes. Practical work involves the use of both scanning and transmission electron microscopes, acquaintance with electrophoretic and cell culture techniques as well as grafting experiments designed to illustrate general aspects of animal morphogenesis.

Bioloxy 311 Freshwater Ecology
Animal and plant freshwater communities, particularly of lakes and rivers; the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a field trip and a weekend field course during May vacation.

Bioloxy 313 The Ecology and Biogeography of Terrestrial Ecosystems
Current controversies on community stability and diversity. Ordination and classification techniques. Sampling, with special reference to forests. Ecosystem integration through animal-plant-pathogen interactions. Nutrient cycling. Forest dynamics with reference to different types of forest ecosystems. The tropical rain forest. A compulsory residential field class will be held from 22–26 February, departing late afternoon on the 22nd. Interpretation and analysis of the field data will take place during the Wednesday laboratory times.

Bioloxy 314 Applied Ecology
The application of ecological principles to resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems; the planning process; wildlife management.

Zooloxy 315 Evolutionary Genetics
An analysis of intraspecific variability, the genetic differences between closely related species and the evolutionary relationships among species as estimated by techniques such as chromosome analysis and electrophoresis. The genetics of a number of speciation models are considered and recent genetic advances and challenges to modern evolutionary theory are critically examined.

Bioloxy 316 Biological Oceanography
Characteristics of marine communities; the physical and chemical environment and primary production; marine algology; zooplankton and secondary production; characteristics of plankton, nekton, benthos and meiofaunas in shallow and deep seas. Practical work includes day or weekend field trips and several days of laboratory investigation.

Laboratory Work
One practical class each week for first year courses and two classes each week for advanced courses is the minimum requirement. The practical work will be assessed separately and the marks will be included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary. (BSc Regulation 7).

All research students are required to lodge a deposit of $10 with the Department of Zoology before being granted access to keys in the Department.

ZOOLOGY FOR MSc
(Three papers selected from 38.401–38.410 and a Thesis (38.601)).
This course normally requires from fifteen months to two years and necessitates full-time attendance. Students who propose to undertake the MSc Degree should consult the Head of the Department towards the end of the previous year.
38.401 Evolution and Natural Selection
The Neo-Darwinian theory is appraised, wider and more deeply than at the undergraduate level. This study comprises two equal parts: considered in the first is the theory and, especially, the weaknesses in it, and in the second actual evolutionary changes within populations and species. Much of this study will be done through independent reading.

38.402 Application of Systems Analysis in Physiology
A critical treatment of theory and techniques of systems analysis and control theory and their applications in physiology.

38.403 Chronobiology
The study of biological clocks: their adaptive significance, location, chemical nature and mathematical models.

38.404 Behavioural Ecology and Sociobiology
Selected topics on the evolution of sociality in animals, including man.

38.405 Entomology and Pest Management
(a) The functional anatomy and reproductive and life history strategies that make insects so varied and abundant, and
(b) Modern views of pest management leading up to a review of integrated strategies.

38.406 Southern Oceans' Biogeography
The geology and tectonics of the southern continents, the evolution of the circulation of the southern oceans, palaeoclimatology. Understanding of these phenomena is used to interpret the biogeography of the southern hemisphere lands with emphasis on the N.Z. region. Taught jointly with Botany and Geology.

38.407 Community Ecology
A series of seminars leading to an understanding of community dynamics as exemplified by succession and island biogeography.

38.408 Marine Biology
Selected topics such as the distribution patterns of plankton, reproductive and larval strategies of marine animals, and the population dynamics of fish and benthic animals.

38.409 Zoophysiology
Selected topics in respiration, neurobiology and physiological control systems.

38.410 Morphogenesis
Recent work on membrane structure, cellular adhesion, segregation and recognition is considered and related to the overall biochemical and genetic control of morphogenetic systems, particularly to cell positioning and the formation of pattern during development.

Postgraduate Research: MSc Thesis and PhD
Staff and facilities are available for Masters and PhD research in many areas of zoology, environmental biology and the interaction of plants and animals. Although much research is field oriented, of animals in natural and experimental situations, excellent facilities are also available for physiological and ultrastructural studies.

Research by staff covers such diverse interests as marine ecology, especially of the inshore communities; the behavioural ecology of both terrestrial and aquatic animals, with emphasis on sociality and communication; entomology and pest management; the physiology of nervous and respiratory systems; chronobiology, morphogenesis, ultrastructure and cellular and organ functions.

There runs through all studies the related themes of evolutionary change and adaptation, and of systematics and population dynamics. Encouragement is given to an experimental approach based soundly on statistical techniques.

Much of the marine research is done at the Leigh Marine Laboratory; studies of native birds and lizards occur throughout the Hauraki Gulf Islands.

The McGregor Museum
The museum is open daily from 10 am until 5 pm.

ENVIRONMENTAL STUDIES
Environmental Studies
An inter-disciplinary undergraduate paper in Environmental Studies is offered at Stage II level. Responsibility for the administration of this paper has been assigned to the Department of Town Planning.

84.200 Environmental Studies (4 credits)
Prerequisites: 24 Stage I credits or the equivalent from any Faculty, including six credits from the Science Faculty.

Introduction to global environmental problems of population, resources and pollution, with local illustrations through tutorials and field trips.
DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS

DIPLOMA IN CLINICAL PSYCHOLOGY
DipClinPsych

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Clinical Psychology shall
   (a) have been admitted or qualified for admission to a Bachelor’s degree of the University of Auckland and
   (b) have satisfied the prerequisites for admission to a Master’s degree in Psychology of this University.
2. Admission to the Course of study for the Diploma shall be at the discretion of the Senate on consideration of a recommendation from the Head of the Department of Psychology.
3. A candidate for the Diploma shall
   (a) follow a Course of study of not less than three years
   (b) concurrently follow a Course of study for a Master’s degree in Psychology which shall include papers 32.403 and 32.409 and a thesis in the field of clinical psychology.

Course Content
4. The Course of study for the Diploma shall consist of two Parts
   Part 1 32.500 (two years)
   Lectures, laboratory work, and clinical instruction in the practice of psychology. Each candidate will be required to undertake a minimum of 12 hours per week during the first academic year and 15 hours per week during the second academic year of supervised clinical work with patients at the Department of Psychology or at any approved mental health institution (as may be required).
   Part 2 32.501 (one year)
   Practical work of not less than 38 hours per week within the psychology section of the Department of Justice, within the Department of Health, or within the Department of Psychology of the University.
5. No candidate shall be permitted to proceed to Part 2 until he has completed to the satisfaction of the Head of the Department of Psychology the work required for Part I of the course and has completed the requirements for a Master’s degree in Psychology.
6. A candidate shall carry out to the satisfaction of the Head of the Department of Psychology such class, laboratory, clinical and practical work as may be required.
7. A candidate shall be deemed to have completed the requirements for the Diploma when he is awarded a pass on a final examination which shall include examination of a patient, the candidate’s written report on the patient, and an oral examination.
8. These Regulations shall come into force on 1 January 1974.

PRESCRIPTIONS FOR DipClinPsych
DIPLOMA IN CLINICAL PSYCHOLOGY
The Course of study for this Diploma is designed to prepare the candidate for professional competence as a clinical psychologist.
The duration of the course is three years. Not more than five candidates may be admitted to the course for the first time in any one year. Candidates wishing to enrol should consult the Head of Department before 31 October preceding their first enrolment for the course.
Part 1 32.500 (first and second years)
In the first year candidates are required to complete papers 32.403 and 32.409 plus at least two other graduate papers; perform work supervised at the Department of Psychology; and visit as instructed.
In the second year candidates are required to complete the writing of their master’s thesis to be submitted by the end of this year; and attend classes as required; and perform clinical work of no less than 15 hours per week at the Department of Psychology or another approved mental health institution.
Candidates wishing to take Part 2 in the following year should consult the Head of Department at the end of their second year in Part 1 of the course.

**Part 2 32.501 (third year)**

Practical work of not less than 38 hours per week in an approved mental health institution is required. The final examination in the third year of the course will normally take place over two days towards the end of November.

**DIPLOMA IN COMPUTATIONAL MATHEMATICS**

**DipCompMaths**

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Computational Mathematics shall before enrolment for this Diploma
(a) have been admitted or have qualified for admission to a Bachelor's degree, and
(b) except where the Senate otherwise permits, have passed in the following courses as prescribed for the degree of BSc:
   (i) Mathematics 220 or 221, 240 or 241
   (ii) at least one of Mathematics 170, 180
   (iii) Computer Science 230, 290, 390
   (iv) one further paper in Computer Science or Applied Mathematics carrying at least four credits above Stage 1.
2. A candidate permitted by the Senate to enrol for the Diploma without having fulfilled all the prerequisite requirements, may be required by the Senate to include all or any of the unfulfilled prerequisite as additional papers.
3. A candidate for the Diploma shall follow a Course of study of one year.
4. (a) The Course of study for the Diploma shall consist of the following papers:
   07.590 Studies in Computational Mathematics (weighting 6)
   07.591 Exercises in Computational Mathematics (weighting 2)
   07.592 Seminar in Computational Mathematics (weighting 1)
   07.593 Project in Computational Mathematics (weighting 3)
   (b) A candidate shall be required to pass as a whole the papers weighted respectively as shown in paragraph (a) of this Regulation.
5. (a) The project (07.593) shall be delivered to the Registrar by 1 November, or later date approved by the Head of Department of Computer Science, of the year of the candidate's enrolment for the Diploma.
   (b) Save where the Senate extends the time, the requirements for the Diploma shall be completed within that year.
6. These Regulations shall come into force on 1 January 1980.

**PRESCRIPTIONS FOR DipComp Maths**

**DIPLOMA IN COMPUTATIONAL MATHEMATICS**

Candidates for this Diploma must have completed a Bachelor's degree and will normally have obtained passes in Computer Science 07.290 and Mathematics papers 26.220 or 26.221, 26.240 or 26.241 and at least one of 26.170 and 26.180. They will also normally have obtained passes in Computer Science papers 07.230, 07.390 and a further advanced paper in Computer Science or Applied Mathematics, although they may be permitted to complete some of the requirements while enrolled for the diploma. The course of study consists of a lecture course (07.590) together with a practical work (07.591), participation in a Seminar series (07.592) and the completion of a project (07.593).

**07.590 Studies in Computational Mathematics**

Numerical methods in linear algebra, differential equations, optimisation, and related fields. The construction of algorithms for the efficient solution of computational problems.

**07.591 Exercises in Computational Mathematics**

Practical work in computer programming and the construction of Mathematical software.
250 Faculty of Science, Diploma Regulations & Prescriptions, DipCompMaths, DipEnTech (Geotherm.)

07.592 Seminar in Computational Mathematics
To satisfy the requirements of this course, each candidate participates in the seminar series arranged by the Department of Computer Science and presents at least one seminar to the satisfaction of the Head of the Department of Computer Science.

07.593 Project in Computational Mathematics
An investigation, supported by computer work, of some approved topic in Computational Mathematics for of an application to some other subject.

DIPLOMA IN ENERGY TECHNOLOGY (GEOTHERMAL)
DipEnTech (Geotherm)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Energy Technology (Geothermal) shall before his enrolment for this Diploma
   (a) have been admitted or have qualified for admission to a Bachelor’s degree in science or engineering or
   (b) have reached an equivalent level of attainment in science or engineering to the approval of the Senate.
2. Admission to the Course of study shall be at the discretion of the Senate on consideration of a recommendation from the Board of Studies, Geothermal Institute.
3. A candidate for the Diploma shall follow a Course of study of one year.
4. The Course of study for the Diploma shall consist of three parts. The Diploma shall be granted by examination.

Part I
A core paper in Geothermal Systems and Technology (86.100)

Part II
EITHER (a) Geothermal Exploration for Earth Scientists (86.101) and
(b) Geothermal Exploration Technology (86.102) OR
(c) Geothermal Production Technology (86.103) and
(d) Geothermal Energy Utilisation (86.104)

Part III
A project (86.606) on some aspect of Geothermal Energy

5. The project (86.606) shall be delivered to the Registrar by November 1 of the year of the candidates enrolment for the Diploma, or such later date as may be approved by Senate.
6. These Regulations shall come into force on January 1, 1979.

PRESCRIPTIONS FOR DipEnTech (Geotherm)
DIPLOMA IN ENERGY TECHNOLOGY (GEOTHERMAL)

The Course of study for this Diploma is taught under the auspices of the Geothermal Institute which has been set up within the University of Auckland by special funding from the United Nations Development Programme and the New Zealand Government. Teaching will be carried out within the Faculty of Science and the School of Engineering by the academic staff, and by visiting lecturers from Government agencies and private organisations engaged in geothermal exploration and development.

Applications for admission to this Diploma course must be made to the Board of Studies, Geothermal Institute by 1 August for entry to the course in the following year. The number of students accepted for the course will be restricted each year.

Note: Any prospective student who has not passed the University Entrance Examination, who has been previously enrolled at a New Zealand University other than the University of Auckland, or who last attended an overseas university must apply for admission under the Provisional Admission, and Admission Ad Eundem Statum Regulations as defined elsewhere in the Calendar. Part I will be the equivalent of two papers. The examination for the Diploma shall be in three parts and must be passed as a whole.

Part 1
Geothermal Systems and Technology (86.100)
Scope of geothermal projects. Basic facts of geothermal systems. Introduction to geothermal exploration and technology. Reservoir engineering.

Part 2
EITHER (a) Geothermal Exploration for Earth Scientists (86.101)
Petroleum, secondary mineralisation and alteration. Drillhole logging. Geochemistry of geothermal fluids. Geophysical investigation of geothermal fields. Estimation and assessment of thermal field potential, and
(b) Geothermal Exploration Technology (86.102)
Planimetric and geological mapping techniques. Mapping and sampling of geothermal discharge. Geophysical prospecting techniques. Geochemical analysis. Drillhole logging techniques and instrumentation, OR
(c) Geothermal Production Technology (86.103)
Drilling techniques and completion tests, fluid transmission, thermodynamics and fluid mechanics of geothermal fluids, well operation and analysis, reservoir modelling and assessment, corrosion and deposition, materials for geothermal plant, and
(d) Geothermal Energy Utilisation (86.104)

Part 3
A written project on some aspect of geothermal energy including some degree of original research by the candidate (86.606).

DIPLOMA IN MATHEMATICAL EDUCATION
DipMathEd

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Mathematical Education shall before enrolment for this Diploma:
   (1) have been admitted or have qualified for admission to a Bachelor’s degree, or have satisfied Regulation 2 of the regulations for the Degree of Master of Arts or Regulation 2 of the Regulations for the Degree of Master of Science and
   (2) (a) have passed in the following Mathematics courses (as prescribed for the Degree of BSc):
       (i) papers 220 or 221 and 240 or 241 and (ii) one other 200 level course in mathematics; or (b) have to the satisfaction of the Senate reached an equivalent level of attainment and
   (3) be required to have had teaching experience to the satisfaction of the Head of Department of Mathematics and Statistics except where the Head of that Department permits otherwise.

2. A candidate for this Diploma shall follow a Course of study for one year full-time or two years part-time or for such longer periods (either full or part-time) as the Senate on the recommendation of the Head of the Department of Mathematics and Statistics may require or permit.

3. (a) A candidate shall complete a Course of study approved by the Head of the Department of Mathematics and Statistics consisting of papers having a total credit value of 24 credits selected from 300, 400 or 500 level Mathematics papers. The selection must include a project, 26.500 which counts as four credits. At least 16 credits must be selected from papers 26.500-26.569.
   (b) A candidate who does not have an adequate knowledge of the major areas of secondary school mathematics will be required to make up the deficiency by attending an appropriate course or courses as directed by the Head of Department of Mathematics and Statistics.

4. A candidate shall deliver the project required in Regulation 3 (a) to the Registrar by not later than 1 November in the year following the year of first enrolment, or by such later date as the Senate may in exceptional circumstances permit.

5. No candidates may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other Degree or Diploma.

6. These Regulations shall come into force on 1 January, 1980.

PREScriptions FOR DipMathEd
Diploma In Mathematical Education

Candidates for this Diploma must have completed or almost completed a Bachelor’s degree and will normally have obtained passes in papers 26.220 or 26.221, 26.240 or 26.241 and one other 200 level paper in Mathematics. Although the regulations also require that a candidate should normally have had some teaching experience, this requirement can be waived on the recommendation of the Head of the Department of Mathematics and Statistics: intending candidates without such experience are invited to consult with the Head of the Department prior to enrolment. The course of study consists of papers having a total credit value of 24 credits selected from 300, 400 or 500 level Mathematics papers. The selection must include a project, 26.500 which counts as four credits. At least 16 credits must be selected from papers 26.500-26.569. The 500 level papers are listed below together with their credit values:
DIPLOMA IN STATISTICS

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Statistics shall before enrolment for this Diploma have been admitted or have qualified for admission to a Bachelor’s degree or have satisfied Regulation 2 for the Degree of Master of Arts or Regulation 2 of the Regulations for the Degree of Master of Science, and shall
   (a) have passed in the following Mathematics courses (as prescribed for the Degree of BSc):
      (i) papers 220 or 221 and 240 or 241 and (ii) paper 280 or (before 1974) paper 381; or
   (b) have reached an equivalent level of attainment to the approval of the Senate.

2. A candidate for this Diploma shall follow a Course of study for one year full-time or two years part-time or for such longer periods (either full or part-time) as the Senate on the recommendation of the Head of the Department of Mathematics and Statistics may require or permit.

3. (a) A candidate shall complete a Course of study approved by the Head of the Department of Mathematics and Statistics on the recommendation of the Head of the Statistics Unit, consisting of papers having a total credit value of 20 credits selected from 300, 400 or 500 level papers in Mathematics and Computer Science and 300 or 400 level statistics papers in other subjects; together with a project, 26.580, which counts as four credits. At least 12 credits must be selected from papers 26.380, 26.381, 26.391 or 26.395, 26.480 to 26.490 and 26.581 to 26.589.
   (b) A candidate who has no knowledge of computing shall be required to attend an appropriate course in computer programming.

4. A candidate shall deliver the project required in Regulation 3 (a) to the Registrar by not later than 1 November in the year following the year of first enrolment, or by such later date as the Senate may in exceptional circumstances permit.

5. No candidate may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other degree or diploma.

6. These Regulations shall come into force on 1 January 1974.
CERTIFICATE REGULATIONS

CERTIFICATES IN THE PRINCIPLES AND PRACTICE OF RADIO-CHEMISTRY

08.350 Elementary Certificate
The course for this Certificate involves ten lectures and eleven laboratory classes each of three hours’ duration. Candidates may attend laboratory classes once a week in the first half year, or by arrangement. No student may enter the laboratory unless he is wearing an approved form of eye protection.

The course is designed to suit the needs of chemists and biologists who anticipate working with tracer quantities of radio-isotopes. Topics covered include:
- Counting methods
- Counting statistics
- Handling radioactive substances
- Source preparation
- Radiological safety
- Three channel beta scintillation spectrometer
- Gas-liquid chromatography of volatile beta-emitting substances

Examinations: Candidates will be assessed on their practical work together with a written test.
Prerequisite: 08.210, but students having need of radiochemical techniques may be admitted to 08.350 without having passed 08.210 upon obtaining the approval of the Head of the Chemistry Department.
A knowledge of Physics to about first year standard will be assumed.

08.351 Advanced Certificate
The course for the Advanced Certificate is intended to be taken in the same year as, or in a subsequent year, to the Elementary Certificate. The course involves ten lectures given in the second half year, together with eleven laboratory classes each of three hours’ duration. Candidates offering both Elementary and Advanced Certificates in the same year must attend the laboratory once each week throughout the session. No student may enter the laboratory unless wearing an approved form of eye protection.

Candidates offering the Advanced Certificate only may attend the laboratory by arrangement. The course is designed to give a more detailed knowledge of radiochemical procedure. Topics covered include:
- Gamma spectroscopy
- Neutron activation
- Radio-isotope generators
- Radiochemical analytical procedures
- Radiochemical synthesis
- Applications

Examinations: Candidates will be assessed on their practical work together with a written test.
Prerequisite: 08.350 (Note: 08.350 may be taken in the same year).
A knowledge of Physics to about first year standard will be assumed.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF COMMERCE

BCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be
granted for courses which are in accordance with the following regulations: for general provisions affecting their
Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination
Regulations.

Admission
1. (a) Admission to any paper in Part I of the Course of Study in Commerce shall be at the discretion of the
Senate. Application for admission shall be made to the Registrar in writing before 10 January, or such other
date as the Senate may determine, of the year in which the applicant proposes to enrol.
(b) Admission to any paper in Part I shall be granted or withheld upon a consideration of the past performance
of the applicant at school and in university and public examinations, and upon an interview where this is
required.

Minimum Time for Degree
2. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of
Commerce shall follow a course of study of not fewer than three years.

Definition of a Paper
3. In these Regulations a paper means an examinable part of one year's work in a subject. Papers are classified
in three Stages, I, II, III, prescribed for this Degree in the Schedule to these Regulations.

Course Content
4. Every candidate in his Course of Study for this degree
(a) shall comply with the requirements specified below for Part I and Part II;
(b) shall comply with the requirements specified in the Schedule to these Regulations.

Part I
5. Except as provided elsewhere in these Regulations, for Part I a candidate shall be required
(a) to pass in two papers selected from
Computer Science 07.100, 07.105
Economics 13.102
Management Studies 72.100;
(b) to pass the following Stage I papers
Accounting 01.100, 01.101; or 01.102, 01.103;
Commercial Law 02.100;
Economics 13.100, 13.101; or 13.103, 13.104;

Order of Presenting Course
(c) before taking any other paper for Part I of this degree, to pass or enrol concurrently in the papers in
paragraph (a) of this Regulation;
(d) before taking any paper for Part II of this degree, to pass or enrol concurrently in the papers in paragraph
(b) of this Regulation: provided that the Senate may waive the requirements of paragraph (c) or paragraph (d)
of this Regulation for a candidate
(i) who has been admitted or qualified for admission to a degree of this University; or
(ii) enrolled, under Regulation 13 (1) of these Regulations, conjointly for this degree and the Degree of
Bachelor of Arts or the Degree of Bachelor of Science; or
(iii) enrolled conjointly for this degree and the Degree of Bachelor of Laws.

Part II
6. (a) Except as provided elsewhere in these Regulations, for Part II a candidate shall be required to pass no
fewer than thirteen papers at any stage, including no fewer than three Stage III papers selected from the
subjects Accounting, Economics, and Management Studies;
(b) A candidate may include as one, two, or three papers for this Degree one, two, or three papers not already passed for this degree from any subject prescribed for any other degree of this University; provided that (i) for Science papers to be available for credit under this clause each such Science paper must carry a minimum of four credits in the Schedule to the Regulations for the Degree of BSc, and (ii) for the purpose of this Regulation, Science papers carrying lesser credit may be aggregated with other Science papers from the same stage of the same subject.

**Maximum Course Load**

7. Except with the permission of the Senate no candidate shall take in any one year more than eight papers for this Degree.

**Direct Entry**

8. (a) Notwithstanding anything in Regulations 4, 5 and 6 of these Regulations a candidate may with the leave of the Senate take Stage II papers of any subject to which this Regulation applies without having passed Stage I. If a candidate passes a Stage II paper in a subject he shall not be credited with any prerequisite Stage I paper of that subject. If the examiner certifies that the candidate though failing a Stage II paper attained the standard of a pass in a Stage I paper the candidate shall be credited with a pass in a Stage I paper of that subject.

(b) This Regulation applies to the following subjects:
- Accounting
- Economics
- Mathematics

**Credits**

9. (1) (a) A candidate who has passed for another Degree of this University two Stage II level papers in Pure Mathematics or equivalent and has passed papers 13.200 and 13.201 of Economics shall be credited with papers 13.100 and 13.101 of Economics, on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General).

(b) A candidate who, for the Degree of Bachelor of Engineering, has passed Engineering Mathematics I and Engineering Mathematics II shall be credited with Mathematics 26.240 and 26.360 on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General).

Provided that the total credits granted to a candidate under paragraphs (a) and (b) of this clause of this Regulation and Regulation 12 of the Enrolment and Course Regulations (General) shall not exceed eight.

10. A candidate for this degree who abandoned another course of study and passed in a paper listed in the Schedule to these Regulations without receiving credit for that paper for any degree or diploma, may be credited with that paper for this degree.

11. (1) Notwithstanding anything elsewhere in these Regulations a candidate who has qualified with merit for the New Zealand Certificate of Commerce in Accountancy, or who has completed the Professional Examination in Accountancy, or who has passed with merit in at least six subjects of the Professional Examination in Accountancy, may be admitted by the Senate to the course for this degree with credit for Accounting 01.100, 01.101, Commercial Law 02.100 and 02.203 and two other unspecified papers provided he pays the fees required by Regulation 12 of Enrolment and Course Regulations (General).

(2) A candidate who has completed the Diploma in Business and Industrial Administration shall be credited with Management Studies 72.203, Economics 13.103 and two unspecified papers on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General).

**BCom/LLB, BCom/LLB (Hons)**

12. (1) A candidate who

(a) for this degree or for the Degree of Bachelor of Laws or Bachelor of Laws (Honours), has passed the following papers

(i) two papers selected from
- Mathematics, Pure 26.120, 26.122, 26.140, 16.142
- Computer Science 07.100, 07.105
- Economics 13.102
- Management Studies 72.100;

(ii) Accounting 01.100, 01.101; or 01.102, 01.103;

(iii) Economics 13.100, 13.101; or 13.103, 13.104; and
(b) for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) has passed
(iv) Legal System 25.103;
(v) Law of Contract 25.105;
(vi) Commercial Law 25.204 or Advanced Commercial Law 25.302;
(vii) Company Law and Partnership 25.208 or Company Finance 25.309;
(viii) Industrial Law 25.212;
(ix) Income Tax 25.221; and
(c) for this degree has in addition passed no fewer than eight Stage II or Stage III papers (including no fewer
than three Stage III papers from the subjects Accounting, Economics and Management Studies) selected from
those specifically listed in the Schedule, in the subjects Accounting, Economics, Management Studies, Math-
ematics and Computer Science, shall be deemed to have satisfied the requirements for this degree.
(2) The papers so credited to this degree under this Regulation shall be admitted as cross-credits, exemptions,
or additional cross-credits as the case may be for the purpose of Regulation 12 of the Enrolment and Course
Regulations (General).

BCom/BA, BCom/BSc
13. (1) A candidate whose academic record is, in the opinion of the Dean of the Faculty of Commerce, of
sufficiently high standard, may, with the permission of the Senate, be admitted to a conjoint course of study
for this Degree and the Degree either of BA or of BSc (in this Regulation called “a conjoint course”).
(2) Admission to a conjoint course of study shall be either at the beginning of that course or immediately after
the first year of academic study either for this Degree or the Degree of BA or of BSc.
(3) A candidate taking a conjoint course shall be required to re-enrol for it, with the permission of the Dean
of the Faculty of Commerce and of the Dean of the other Faculty concerned, in each year after the year of
first enrolment (so that a continuous enrolment is maintained).
(4) A candidate who has taken a conjoint course and who
(a) has passed for the Degree of Bachelor of Arts or the Degree of Bachelor of Science the following papers:
(i) two papers selected from
Computer Science 07.100, 07.105
Economics 13.102
Management Studies 72.100;
(ii) Economics 13.100, 13.101; or 13.103, 13.104; and
(b) for Part I of this degree has passed
(i) Accounting 01.100, 01.101; or 01.102, 01.103;
(ii) Commercial Law 02.100; and
(c) for Part II of this degree has passed no fewer than seven Stage II or Stage III papers selected from those
specifically listed in the Schedule, in the subjects Accounting, Commercial Law, Economics, Management
Studies, Mathematics and Computer Science, including no fewer than three Stage III papers selected from the
subjects Accounting, Economics, and Management Studies; and
(d) has completed the requirements for either the Degree of Bachelor of Arts or the Degree of Bachelor of
Science,
shall be deemed to have satisfied the requirements for this degree.
(5) The papers so credited to this degree under this Regulation shall be admitted as cross-credits, exemptions,
or additional cross-credits as the case may be for the purpose of Regulation 12 of the Enrolment and Course
Regulations (General).

Elective Papers
14. Except as provided in Regulation 6 (b), a candidate wishing to take for this Degree any unit, course or
paper which is also prescribed for any other degree, shall comply with such of the Regulations for each of those
Degrees as apply to that unit, course, or paper.
15. No candidate shall take a subject, unit or paper the same as or substantially equivalent to any other subject,
unit or paper, and obtain credit for both for this degree.

Savings and Transitional Provisions
16. (1) Except as otherwise provided in this Regulation the course of study of every candidate shall be
governed by these Regulations.
(2) A candidate who passed under any of the former Regulations for this degree in any unit of which the
papers are also papers under these Regulations shall be credited with passes in those papers under these
Regulations provided that the Senate is satisfied that the prescription in any such paper is at least the equivalent of that prescribed under these Regulations.

(3) A candidate who enrolled for the degree before 1971 may be permitted by the Senate to complete the requirements for the degree by following a prescribed Course of Study.

(4) The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

17. These Regulations shall come into force on 1 January, 1977.

Schedule

1. This schedule sets out paper numbers, prerequisites, corequisites, restrictions and other conditions applying to papers for the Degree of Bachelor of Commerce.

2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. A candidate may not take a further stage of a subject until he satisfies all prerequisite and corequisite requirements for that stage of the subject.

The Head of Department may waive corequisites for candidates with sufficient previous knowledge (including candidates with a good pass in 13.103 and 13.104).

For papers 13.210, 13.211, 13.213 and 13.214 the Head of Department will waive the prerequisites for candidates with a B— or better pass in 13.103.

13.104 and 13.214 may not be taken concurrently.
Economics — Stage III

Note: Students taking papers 13.300, 13.301, 13.302, 13.303 and 13.305 must have previously passed 26.122, 26.142, 13.102 or 13.202, or alternatives approved by the Head of the Department. Students are strongly recommended to have taken 13.205.

ELECTIVE PAPERS — any Stage

One, two or three papers as prescribed for any other Degree not already taken for this Degree.

The Head of Department of the subject concerned may require the candidate to pass in a paper or course as prescribed for any other Degree.

*This paper will not be taught in the current Calendar year.
†This paper may not be taught during current Calendar year unless sufficient staff is available.
THE DEGREE OF MASTER OF COMMERCE

MCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations. Students not qualified to enrol for MCom by reason of Clause 1 (a) of these Regulations may be permitted to enrol for MPhil.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Commerce shall before his enrolment for this Degree
(a) have been admitted or qualified for admission to the Degree of Bachelor of Commerce, and
(b) (i) have fulfilled the prerequisites for his subject as shown in the Schedule to these Regulations, and
(ii) have obtained a grade higher than C— in each Stage III paper in the subject which he proposes to take for this Degree,
provided that, in special circumstances where the Head of Department so recommends, the Senate may for the respective purposes of this Subclause (b) of this Regulation, waive such preconditions as it thinks fit.
2. A candidate shall be required to fulfil the requirements of and pass the examination in one of the subjects prescribed in the Schedule.
3. Notwithstanding anything in Regulation 2, a candidate for this Degree may with the permission of the Senate take
(i) one Stage III or one Master's paper or (ii) one Stage III and one Master's paper, or (iii) two Master's papers, in a subject other than the one in which he is taking his Degree, if each such paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.
4. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.
5. A candidate shall not take for this Degree a subject in which he has already passed for the Degree of Master of Arts or the Degree of Master of Philosophy.
6. Except as provided in the Schedule a candidate shall take all papers required for this Degree in the same year.
7. Subject to Regulation 9 (d), a candidate shall complete the requirements for this Degree within twenty-four months of his first enrolment for the Degree.

Honours
8 (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) To be eligible for the award of Honours a candidate shall pass no fewer than four papers in the first year of enrolment for this Degree.
(c) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory, provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or exceptional circumstances beyond his control (certified as under the Aegrotat Pass or Compassionate Pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to present himself at a subsequent written examination and still be eligible for the award of Honours, subject to the provisions of Regulation 7 above, and to Regulation 8 and 9 of the Examination Regulations.

Thesis
9 (a) A thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
(b) A thesis may be presented in the first year of enrolment for this Degree only with the approval of the Head of Department concerned.
(c) A candidate may enrol for a thesis in any year subsequent to the first year of enrolment for this Degree only if he obtains an average grade of at least B — in the papers sat in the first year.
(d) A candidate shall present his thesis not later than twenty-four months after his first enrolment for this Degree, provided that this period may be extended by the Head of Department concerned for not more than one year and in exceptional circumstances for longer by the Senate.
(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to represent it subject to Regulation 9 (d) above by a later date specified by the Head of Department.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Personal Course of Study
10. The personal Course of study of a candidate shall require the approval of the appropriate Head of Department.
11. The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

Savings and Transitional Provisions
12 (a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.
(b) A candidate enrolled for this Degree under the Regulations published in the 1974 Calendar may complete the Degree under those Regulations or he may elect to transfer to the present Regulations. A candidate electing to transfer to these Regulations shall not be permitted to present papers which in the opinion of the Head of Department concerned contain a substantial portion of work included in papers for which the candidate has received credits.
13. These Regulations shall come into force on 1 January, 1975.

SCHEDULE

(1) Accounting
Prerequisites: Eight papers in the subject Accounting including three Stage III papers.
Requirements: Six papers; or four papers and a thesis (01.601) which shall count as two papers; or five papers and a research essay (01.603) which shall count as one paper.
To be eligible for honours a candidate shall pass no fewer than four papers in the first year of enrolment for this degree. A candidate not seeking honours may enrol for a minimum of three papers in the first year. The papers shall be selected from 01.400 to 01.414 and 02.400 to 02.406.

THE DEGREE OF BACHELOR OF LAWS

LLB

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Laws shall be required to
   (a) pursue a course of study for a period of not less than four years;
   (b) pass an Intermediate Examination and three Law Examinations;
   (c) carry out work in the detailed application of law to the satisfaction of the Faculty of Law (“the Faculty”).

Examinations
2. (1) A candidate shall be required to pass as a whole each Law Examination, so that the candidate’s performance in all subjects of the examination shall be taken into consideration: provided that
   (a) A candidate who has failed to pass any Law Examination as a whole may at the discretion of the Senate be credited with a subject or subjects of that examination and permitted in a subsequent year to present the subject or subjects not so credited together with a subject or subjects of the next succeeding Law Examination.
   (b) A candidate who has passed the Intermediate Examination may at the discretion of the Senate be permitted to present either Part A only or Part B only of the First Law Examination, presenting the remaining part in a subsequent year together (if the candidate so wishes) with a subject or subjects of the next succeeding examination.
   (c) A candidate who is undertaking the Degree or any part of the Degree part-time or in conjunction with any other degree shall be required to pass an examination consisting of such work, less than the full examination, as the Senate may in its discretion determine, and present the remaining part of the examination in a subsequent year, together (if the candidate so wishes) with a subject or subjects of the next succeeding examination.

(2) A candidate to whom any of the foregoing provisos apply shall be required to pass as a whole an examination consisting of the subjects taken in any year, so that performance in all subjects taken in that year shall be considered.

(3) A candidate who has failed only one subject of a Law Examination may be required by the Senate to pass in the following February a special examination in that subject to be credited with a pass in the examination as a whole.

4. In respect of the arts papers and science credits for the Intermediate Examination a candidate shall be required to comply with all relevant regulations for the BA Degree or the BSc Degree as the case may be (including regulations and requirements relating to corequisites, prerequisites, restrictions, combinations of subjects and practical work).

Exemptions
5. (1) A candidate who has been credited for the BA Degree or the BSc Degree with any papers or credits required for the Intermediate Examination shall be credited with them for the purposes of this Degree also.  
(2) A candidate who is a graduate of any University in New Zealand shall be exempted from passing the Intermediate Examination and shall pursue a course of study for this Degree for a period of not less than three years.  
(3) In granting admission ad eundem statum to a candidate from an overseas University in one or more subjects of the Degree the Senate may require that the candidate shall pass an examination in the law and practice in New Zealand, covering such matters as may from time to time be prescribed by the Senate. The examination shall be at a time and place fixed by the Vice-Chancellor and the fee for it shall be $20.

Practical Courses
6. No candidate shall be admitted to this Degree unless the Registrar has received from the Dean a certificate that the candidate has complied with the requirements of Regulation 1(c).

Approval of Courses
7. (1) The personal course of study of every candidate shall require the approval of the Senate.  
(2) The Senate may delegate to the Faculty the power to approve personal courses of study and also the discretionary powers conferred in Regulations 2 and 5 of these Regulations.  
(3) The candidate may appeal to the Senate where approval of a personal course of study has been withheld by a decision of the Faculty acting under the delegation of any of the powers referred to in the last preceding paragraph.

Course Requirements
8. Every candidate shall be required  
(a) To undertake as part of his Third Law Examination a course of study comprising a sufficient number of advanced law courses. The Faculty shall determine from time to time which subjects shall be advanced courses for the purpose of this requirement and how many of such courses (not exceeding two-fifths of the Third Law Examination) shall be the minimum requirement.  
(b) To undertake in both his Second and Third Law Examinations a course of study comprising sufficient law subjects to amount to a full-time course of about 14 hours of instruction per week. The Faculty of Law shall from time to time determine the composition of a full-time course for these purposes.
(c) To undertake and satisfy in any subject any tutorial practical writing or test requirements as the Faculty determines from time to time. A candidate who fails to comply with these requirements may not be permitted to sit the final examination.

Note: The Handbook of the Faculty of Law will state the advanced subjects, the prerequisites if any, and the weight of each subject within a full-time course of study and the writing and other requirements of the Faculty of Law.

Courses in Other Faculties
9 (1) In lieu of optional law subjects (totalling not more than one-fifth of the content of the Second and Third Law Examination combined) a candidate may take such papers offered by other Faculties and related to his law studies as are approved by the Dean of the Faculty of Law. Before enrolling in the papers the candidate shall obtain the permission of the Head of the Department in which they are being taken and of the Dean of the Faculty of Law; but the Faculty of Law may in special cases apply this provision to a candidate who has previously taken papers in another Faculty which would have qualified under this Regulation if prior approval had been obtained.

(2) Any paper taken by a candidate under this Regulation may be credited only to this Degree.

Research Paper
10. A candidate for this Degree may with the prior approval of the Dean elect to submit a research paper in lieu of examination in a subject of the Third Law Examination, if the teacher in the subject has certified that the research paper is related to that subject.

BCom/LLB
11 (1) A candidate shall be credited with any subject named in the left hand column of the schedule to this paragraph of this Regulation if he or she has passed for the Degree of Bachelor of Commerce the paper or papers named opposite that subject in the right hand column of the schedule.

Schedule
Introduction to Commercial Law 25.203

(c) Credits under this Regulations shall be additional to any permitted to a candidate under the Enrolment and Course Regulatoins (General).

(d) No candidate shall be entitled under this Regulation to credits for more than five law subjects.

Commencement
12 (1) These regulations shall apply to all students taking the Degree of Bachelor of Laws from 1 January 1973.

(2) Any candidate who began his or her law course before that date shall be entitled to the following credits: (a) A pass in Legal System before 1973 shall be credited as both pass in Legal System and a pass in Legal History.

(b) A pass in any of the subjects in subclause (ii) of Division III of the 1966 Degree Regulations (1972 Calendar, p.441) shall be credited as a pass in Constitutional Law.
(c) Subject to the foregoing provisions passes in any of the subjects mentioned in Division I and II of the 1966 Degree Regulations shall be credited as passes in the corresponding subjects in the Regulations for this Degree.

(d) Passes in any of the subjects in Division III of the 1966 Degree Regulations shall (unless already credited under subclause (ii) above) be credited as equivalent to one-fifth of either the Second Law or Third Law Examination.

(e) A pass in Introduction to Commercial Law shall not be required where the candidate has before 1973 either passed Commercial Law and the Law of Personal Property under the 1966 Degree Regulations or passed or been credited with or exempted from not less than twelve subjects towards his LLB degree.

(3) Where the course of any candidate is not specifically covered by the above provisions and in other cases where there is doubt concerning the course of any candidate such course shall be settled by the Dean.

(4) Any candidate who began his or her law course before 1967 shall be entitled to the benefit of any transitional provisions then applicable.

THE DEGREE OF BACHELOR OF LAWS (HONOURS)

In cases approved by the Dean, notwithstanding anything in Regulation 3, a candidate may present a dissertation in lieu of an examination in a subject of the Third Law Examination on condition that in either case the teacher in the subject certifies that the research paper or dissertation is related to that subject.

Standards
6. This Degree shall be awarded to candidates who have fulfilled the requirements of these Regulations and whose work throughout the course has been in the opinion of the Faculty of a sufficiently high standard.

Transfer to LLB (Hons)
7. The Senate may, on written application by a candidate who has completed only the First Law Examination and, in special circumstances any other candidate, and without payment of a fee, permit the candidate to transfer to a course under these Regulations; for which the candidate may then be credited with the subjects already passed for the LLB.

Transfer to LLB
8. A candidate whose work does not in the opinion of the Faculty satisfy the standard prescribed in Regulation 6, or who at any stage elects to withdraw from this Degree, shall be entitled to have credited to the LLB Degree without payment of a fee those subjects (being subjects for the LLB Degree) in which the candidate has passed or been credited with a pass.

Commencement
9. These Regulations shall apply to all candidates taking the Degree of Bachelor of Laws (Honours) from January 1973, but any candidate who began his or her law course before that date or before 1967 shall be entitled to the credits prescribed in Regulation 12 of the Regulations for the Degree of Bachelor of Laws.

Note: Legal Practice: A student completing his First Law Examination is required to enrol for 25.406 Legal Practice I, his Second Law Examination 25.407 Legal Practice II and his Third Law Examination 25.408 Legal Practice III.

LAW PROFESSIONAL EXAMINATIONS
A candidate seeking admission as a barrister and solicitor of the High Court of New Zealand must, in accordance with the Professional Examinations in Law Regulations 1966:
(a) qualify for admission to the Degree of Bachelor of Laws or Bachelor of Laws (Honours); and
(b) pass, or be credited with a pass in the following additional subjects:

5. Candidates for Division 2 subjects 25.245 and 25.246 shall be required to undertake a practical research project on a topic approved by the Dean of the Faculty of Law ("the Dean").
   Note: The report (which is expected to be submitted no later than the end of the third term) should not exceed 25,000 words.
6. Assessment of a candidate's performance in subjects 25.245 and 25.246 shall be based upon the design and report submitted, in lieu of an examination.

Cross-credits, Credits and Exemptions
7. The provision for granting cross-credits, credits and exemptions to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall apply only to the subject 25.101 Criminal Law; and then upon condition that the candidate substitutes for it such other subject prescribed in Regulation 3 of the Regulations for the Degree of Bachelor of Laws as the Dean approves in the particular case.

Course Sequence
8. A candidate shall not be enrolled for any subject in Division 2 until that candidate has passed all subjects in Division 1; provided that the Dean may, in exceptional circumstances, allow a candidate who has failed to pass the subject 25.101 Criminal Law to proceed to Division 2.
9. A candidate who has failed only one subject in Division 1 may be required by the Senate to pass in the following February a special examination in that subject to be credited with a pass in the Division as a whole.
Distinction
10. The Diploma may be awarded with or without distinction.

Transition
11. (1) The course of every candidate shall be governed by these Regulations.
(2) The Regulations governing the Diploma in Criminology which were first included in the University Calendar for 1973 (in this Regulation called "the 1973 Regulations") are revoked: provided that a candidate for Honours who enrolled under the 1973 Regulations or under any previous Regulations for the Diploma in Criminology and who except for submitting a satisfactory Dissertation has completed the course there prescribed may:
(a) apply to submit a Dissertation and to take Honours in accordance with Regulation 6 of the 1973 Regulations, or
(b) apply to be awarded the Diploma without Honours.
(3) The course of every candidate who enrolled under the 1973 Regulations or under any previous Regulations for the Diploma in Criminology shall, except where paragraph (2) of this Regulation applies, be settled by the Dean.
12. These Regulations shall come into force on 1 January 1982.

PRESCRIPTIONS FOR DipCrim

Normally an interview supported by evidence of the candidate's suitability for the course will be required for the purpose of Regulation 1 (a).

For the subjects listed in Regulation 3 Division 1:

25.241 Deviance Theory
A study of traditional and contemporary theories of Deviance within the contexts of sociology, psychology, political theory, anthropology, history and legal theory.

25.242 Criminal Justice and Penal Policy
An examination of the aims, functions and practices of the criminal justice system as a whole, in theory and in practice, including law-making, policing, the courts and the sentencing process. A study of penal theory and penal policy. An evaluation of these issues within their broader social context.

25.243 Comparative Perspectives and Research Methods
A comparative study of various forms of research methodology. A critical study of the role played by perspectives, value orientations and epistemology in criminological work. The development of an understanding of the use and defects of various forms of research design, and the use of statistics. The ethics of research.

For the subjects listed in Regulation 3 Division 2:

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF MUSIC

BMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music shall
   (a) before his enrolment for this Degree satisfy the Head of the Department of Music that he has attained a suitable standard in music, and
   (b) follow a Course of study of not fewer than three years.

Course Entrance
2. A candidate for entrance to the Course of study for the Degree shall give notice in writing on the prescribed form to the Registrar not later than 15 November immediately preceding the year in which the candidate wishes to enrol.

Course Requirements
3. The Course of study for the Degree shall consist of twenty-two papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II and III.
4. Every course of study shall include
   (a) at least four papers in Music as Stage I level
   (b) no more than eleven papers in Music at Stage II level
   (c) at least three papers in Music at Stage III level
   (d) at least two papers (not being papers in Music) from those prescribed for the Degree of Bachelor of Arts (whether Group A or Group B of the Schedule to the Regulations for that Degree).
5. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.
6. A candidate shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of the Department of Music.
7. A student must satisfy the Head of the Department that the necessary tests in Aural training have been undertaken and passed.
   Note: The training consists of listening to a course of tests on tapes and working at exercises coupled with these tests. Students will be periodically examined. Good students will be able to complete the prescribed course in a year; others may take longer.
8. The Senate may on the recommendation of the Head of the Department grant a credit of two unspecified Music papers at Stage I level towards this Degree to any student who has passed the examination in Performance 28.120 for the Degree of Bachelor of Music (Performance) or Diploma in Music with a grade of C-; or a credit of two unspecified Music papers at Stage II level towards this Degree to any student who has passed the examination in Performance 28.220 for the Degree of Bachelor of Music (Performance) or Diploma in Music with a grade of C-.
   Note: See Regulations 4 and 6 of the regulations for the Degree of Bachelor of Music (Performance) and Regulations 6 and 7 of the regulations for the Diploma in Music.
9. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Arts shall comply with such of the course regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.
10. The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.
Application of Regulations and Transitional Provisions
11. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.
(b) A candidate who gained credit in any unit or units or was entitled to exemptions under any of the former Regulations for this Degree shall be credited with such equivalent paper or papers as the Senate may determine.
(c) For candidates who enrolled for this Degree before 1976 the subject prerequisites, corequisites, and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department of Music.
12. These Regulations shall come into force on 1 January, 1976.

Schedule
1. This Schedule sets out paper numbers, subjects, prerequisites, corequisites, restrictions, and other conditions applying to Courses of study for the Degree of Bachelor of Music.
2. This Schedule shall be read with the Regulations for the degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enroll for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

A candidate planning to enrol for MMus is reminded that prerequisites for MMus will depend on the area of his specialisation and his choice of papers.
THE DEGREE OF BACHELOR OF MUSIC (PERFORMANCE)
BMus (Performance)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music (Performance) shall
(a) before his enrolment for this Degree satisfy the Head of the Department of Music that he has attained a suitable standard in music, including performance and
(b) follow a Course of full-time study of not fewer than four years, and
(c) follow his Course of study continuously except where and in so far as the Head of the Department permits otherwise.

Course Entrance
2. A candidate for entrance to the Course of study for this Degree shall give notice in writing on the prescribed form to the Registrar not later than 30 June immediately preceding the year in which the candidate wishes to enrol.

Course Requirements
3. The Course of study for the Degree shall consist of twenty-eight papers selected from those listed in the Schedule to these Regulations. Papers are classified in four stages — I, II, III and IV.

4. For performance 28.120, 28.220, 28.320 and 28.420, a candidate shall
(a) carry out performance work (including the giving of class demonstrations), and
(b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and
(c) pass a Performance examination, with a grade of C or better in the case of 28.120 and 28.220, in any one of the following subjects.

Note: (i) This instrument may not be taught during the current Calendar year.
(ii) A candidate who passes the subject Performance 28.120 with a grade of C— and is therefore not eligible to proceed with the Course of study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage II Music papers towards the Course of study for the Degree of BMus. See Regulation 8 of the Regulations for that Degree.

(d) A candidate presenting Singing shall attend such language Courses and do such language work as the Head of the Department may require.
(e) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ, its technique and repertoire, as part of the Course.

5. Except with the permission of the Senate no candidate shall take in any one year one more than nine papers for this Degree.

6. A candidate who (having been a candidate for this Degree) has been granted credit towards the Degree of Bachelor of Music under Regulation 8 of the regulations for that Degree shall not at a later re-enrol for this Degree.

Note: See note to Regulation 4 of these Regulations.

7. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he (a) shall not undertake any musical work, including musical competitions and examinations, outside the Course without the consent of the Head of the Department of Music, and
(b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Degree, to the satisfaction of the Head of the Department of Music.

(c) shall not enrol for any other Course of study without the leave of the Head of the Department of Music.

8. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) The Senate may in such exceptional cases as it think fit approve a personal Course of study which does not conform to the foregoing Regulations.

(c) A candidate who gained credit in any unit or units of a Professional Examination under any of the Regulations for the Degree of Bachelor of Music (Executant) shall be credited with such equivalent paper or papers as the Senate may determine.

9. These Regulations shall come into force on 1 January, 1976.

Schedule

1. This Schedule sets out groups, paper numbers, subjects, prerequisites, corequisites, restrictions, and other conditions applying to the Courses of study for the Degree of Bachelor of Music (Performance).

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

THE DEGREE OF BACHELOR OF MUSIC (PERFORMANCE) WITH HONOURS
BMus (Performance) (Hons)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Music (Performance) with Honours shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Music (Performance) and

(b) A candidate for this Degree may with the permission of the Senate take one Stage III or one Masters paper in a subject other than Music, if such paper is related to the candidate's research or professional interests. Such paper shall substitute for and be equivalent to one paper in the degree of Master of Music.

Composition
9. When a candidate elects to write a Composition, the following conditions shall apply.
(a) The Composition shall be prepared under the supervision of a University teacher.
(b) A candidate may present his Composition in the year in which he takes the papers or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.
(c) A candidate shall present his Composition within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(d) The candidate shall submit his Composition together with a certificate from the supervisor stating that the work was carried out by the candidate under his supervision to the Registrar by 1 November in the year in which it is to be presented, or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, a Composition which is not satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Performance 10. When a candidate elects to present a Recital, the following conditions shall apply.

(a) A candidate shall present a concert Recital of approximately one hour's duration, the programme to be approved by the Head of the Department. The candidate shall submit his proposed programme to the Head of the Department for approval not later than the end of the first term.

(b) The Recital shall be restricted to ONE of the following:
   (i) an approved orchestral instrument
   (ii) the pianoforte
   (iii) the organ and/or harpsichord
   (iv) any other instrument approved by the Head of the Department
   (v) singing.

(c) A candidate may present his Recital in the year in which he takes the papers or, subject to the provisions of paragraph (d) of this regulation, in a subsequent year.

(d) A candidate shall present his Recital within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(e) The candidate shall present himself for the Recital on a date to be specified by the Head of the Department.

(f) If the Recital is not satisfactory and if the examiner with the concurrence of the assessor so recommends, the candidate may be permitted to present a further Recital at a later date to be specified by the examiner.

Thesis 11. When a candidate elects to write a Thesis, the following conditions shall apply.

(a) The Thesis shall embody the results obtained by the candidate in an investigation relating to some branch of Music.

(b) A candidate may present his Thesis in the year in which he takes the papers or, subject to the provisions of paragraph (c) of this regulation, in a subsequent year.

(c) A candidate shall present his Thesis within three years of the year in which he takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(d) A candidate shall submit his Thesis to the Registrar by 1 November of the year in which it is to be presented or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, a Thesis which is not satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Honours 12. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the Composition or Performance or Thesis at its first presentation is unsatisfactory; provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall be eligible for the award of Honours subject to the provisions of sub-clause (c) of this Regulation.

(c) A candidate shall be eligible for the award of honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree, provided that this period may in exceptional cases be extended by the Senate.
Special Provision
13. The Senate may in such special circumstances as it thinks fit approve a personal course of study which does not conform to the foregoing regulations.

DIPLOMA COURSE REGULATIONS AND PRESCRIPTONS

DIPLOMA IN MUSIC

DipMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

An intending candidate who has not been granted the University Entrance qualification by the Universities Entrance Board must apply for admission in accordance with the requirements of the Admission Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Music shall
   (a) before his enrolment for the Diploma satisfy the Head of the Department of Music that he has attained
   a suitable standard in music, including performance
   (b) follow a course of full-time study of not fewer than three years, and
   (c) follow his course of study continuously, except where and in so far as the Head of the Department permits
   otherwise.

Course Entrance

2. A candidate for entrance to the course of study for this Diploma shall give notice in writing on the prescribed
   form to the Registrar not later than 30 June immediately preceding the year in which the candidate wishes to
   enrol.

Course Requirements

3. The course of study for the Diploma shall consist of not fewer than eighteen papers selected from those listed
   in the Schedule to these Regulations. Papers are listed in three stages – I, II and III.

4. Except with the permission of the Senate no candidate shall take in anyone year more than eight papers
   for this Diploma.

5. A candidate with previous knowledge in Aural Training or Harmony may be required by the Head of the
   Department of Music to take in his first year Musicianship (28.101) and Materials of Music (28.102). If the
   candidate passes he shall be credited with a pass in each paper accordingly, but shall not be credited with a
   pass in Rudiments and Basic Aural Perception (28.001) and Basic Harmony (28.002). The candidate shall take
   in the third year of his course for this Diploma two other papers from the selection lists for Stage II and III.
   Where the candidate fails each or either of the papers 28.101 and 28.102 but is certified by the examiner to
   have attained the standard of a pass in paper 28.001 or 28.002 or both (as the case may be), the candidate shall
   have the appropriate paper or papers credited to his course.

6. Once a candidate enrols for paper 28.101 he shall be required to satisfy the Head of the Department that
   the necessary tests in Aural training have been undertaken and passed.

   Note: The training consists of listening to a course of tests on cassettes and working at exercises coupled with these tests. Students will be
   periodically examined. Good students will be able to complete the prescribed course in a year; others may take longer.

7. For Performance 28.120, 28.220, 28.325 a candidate shall

(e) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ its technique and repertoire as part of the course.

8. The candidate who (having been a candidate for this Diploma) has been granted credit towards the Degree of BMus under Regulation 8 of the Regulations for that degree shall not at later time re-enrol for this Diploma.

9. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he
(a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of the Department of Music,
(b) shall participate in approved choral or instrumental work within the University throughout his enrolment for this Diploma, to the satisfaction of the Head of the Department of Music, and
(c) shall not enrol for any other course of study without the leave of the Head of the Department of Music.

10. (a) Except as otherwise provided the Course of study of every candidate shall be governed by these Regulations.
(b) A candidate who has gained a credit for any subject under any former Regulations under the Diploma in Music shall be credited with such equivalent paper or papers as the Senate may determine.

11. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.

12. These Regulations shall come into force on 1 January, 1976.

Schedule
1. This Schedule sets out paper numbers, prerequisites, corequisites, restrictions, and other conditions applying to Courses of study for the Diploma in Music.

2. This Schedule shall be read with the Regulations for the Diploma and with the prescriptions set out elsewhere in the Calendar.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.

DEGREE COURSE REGULATIONS

SCHOOL OF ARCHITECTURE

THE DEGREE OF BACHELOR OF ARCHITECTURE

BArch

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations. An intending candidate who has not been granted the University Entrance Qualification by the Universities Entrance Board and who seeks admission on the basis of the New Zealand Certificate in Draughting (Architecture), the New Zealand Certificate in Building, the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying must apply for admission in accordance with the requirements of the Admission Regulations.

General Provisions

1. (a) Subject to the Admission Ad Eundem Statum Regulations and except as otherwise provided in these regulations, a candidate for the degree of Bachelor of Architecture shall be required to
(i) pursue a course of study of not less than five years; and
(ii) pass the Intermediate Examination and complete to the satisfaction of the Senate the requirements of the four Professional Examinations.

(b) Except as hereinafter provided a candidate shall be required to pass as a whole the Intermediate Examination and the requirements of each Professional Examination. In recommending him for a pass in any Examination the Senate shall take into consideration his performance in all subjects of that Examination. A candidate who has failed to pass any Examination as a whole may, on the recommendation of the Senate, be credited with a subject or subjects of that Examination. He may in a subsequent year take the remaining subjects of that Examination together with such subjects of the succeeding Professional Examinations, if any, as the Senate may permit. He shall be required to pass such a composite examination under the same conditions as set out above.

Honours

2. The Degree of Bachelor of Architecture may be awarded with or without Honours according to the standard of the candidate's work in the Fourth Professional Examination (taking into account also his record in the other Professional Examinations).

Concessions

3. The Senate may exempt a candidate from the Intermediate Examination
(a) who has reached a standard satisfactory to the Senate in the University Entrance Scholarship Examination, provided that one of the subjects is Mathematics, Additional Mathematics, or Physics; or
(b) who has been admitted or has qualified for admission to a Degree or, on the special recommendation of the Head of the School of Architecture, a Diploma, in any Faculty of this University; or
(c) who has by examination qualified with outstanding merit for the New Zealand Certificate in Building, or the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying, and who has completed the practical requirements for the award of such Certificate.

Note: A candidate seeking admission to the First Professional Examination under the provisions of this clause is advised to submit with the required application form, the folder of work in prescribed form in Regulation 5(a).

4. (a) Where a candidate
(i) has been awarded or has qualified for the award of the Degree of Bachelor of Engineering (Civil) and his record in that Degree is of sufficiently high standard in the opinion of the Head of the School of Architecture; or
(ii) has by examination qualified with outstanding merit for the New Zealand Certificate in Draughting (Architecture) and has completed the practical requirements for that Certificate
the Senate may exempt that candidate from the Intermediate Examination and up to a total of 36 credits from the First and Second Professional Examinations.

(b) Where a candidate
(i) has qualified by examination for the New Zealand Certificate in Draughting (Architecture) but without
outstanding merit and completed the practical requirements for it; and
(ii) has completed the Intermediate Examination with results sufficient to secure a place in the First Professional Examination
the Senate may exempt that candidate from up to a total of 36 credits from the First and Second Professional Examinations.
Note: A candidate granted exemption under Regulations 3 or 4 shall pay the fees required under Regulation 12 of the Enrolment and Course Regulations (General).

Intermediate
5. (a) The Intermediate Examination shall comprise:
b a folder of work in prescribed form;
and
two papers or 12 credits in a subject (or with the approval of the Head of the School of Architecture, two related subjects) from each of the Groups A, B and C listed in the Schedule to this Regulation, of subjects prescribed for the Degree of BA or BSc as the case may be; provided that
(i) in the case of any or each of the subjects in the Schedule a candidate may substitute for that subject an equivalent subject passed at another New Zealand University;
(ii) a candidate who, in the Universities Bursaries Examination, has obtained a 'B' Grade or better and has gained not less than 50 marks in one of the subjects Pure Mathematics, Applied Mathematics or Physics, may choose instead of a subject from Group A an additional subject from Group B or Group C;
(iii) in exceptional circumstances and on the recommendation of the Dean of the Faculty of Architecture and Town Planning, the Senate may permit a candidate to choose the three subjects from those appearing in the Schedule to this Regulation without restriction as to Groups, save that one shall be chosen from Group A unless the foregoing proviso (ii) applies.
(b) In respect of each subject chosen from the Schedule to this Regulation, a candidate shall be required to comply with such of the course regulations for the Degree of Bachelor of Arts or Bachelor of Science as are applicable (including all requirements as to practical work and all prerequisites, corequisites and restrictions).
Note: The folder of work and results in the subjects from the Schedule shall be taken into account in any selection that may be required because of a restriction in the number of places available.

6. (a) For each Professional Examination a candidate shall be required to gain credits from the subjects set out in the Schedule to Regulation 10, including core subjects for that Professional Examination set out in Part A of that schedule and other subjects from Part B of that schedule, in accordance with the following:

First Professional Examination
Studio I (18 credits) and at least 18 further credits including 18 credits in other core subjects.

Second Professional Examination
Studio 2 (18 credits) and at least 18 further credits including 18 credits in other core subjects.

Third Professional Examination
Studio 3 (18 credits) and at least 18 further credits which shall include 8 credits in other core subjects and may include credits in other subjects.
**Fourth Professional Examination**

Studio 4 (18 credits including 9 credits in a thesis) and at least 18 further credits which shall include 4 credits in other core subjects and may include credits in other subjects; or

Studio 4 Extended (27 credits including 9 or 18 credits in a thesis) and at least 9 further credits which shall include 4 credits in other core subjects and may include credits in other subjects.

**Notes:**
(i) A candidate who does not attain the standard required for a pass in Studio 4 Extended (27 credits) may be credited with a pass in Studio 4 (18 credits).
(ii) Students who fail to pass Studio 2 are advised to consult the Dean before seeking to enrol in core subjects for Third and Fourth Professional Examinations and subject electives.

(b) The Senate may permit a candidate to take a subject or subjects as defined in the Regulations for a degree in any Faculty, in lieu of a subject or subjects set out in Part B of the Schedule to Regulation 10, up to an equivalent of 10 credits for this degree, and credits will be awarded for a pass in such subjects in accordance with the following:

7. A candidate may not gain credits for any Professional Examination in any subject for which he gained credits in a previous Professional Examination; provided that

(a) where a candidate has in 1977 or any later year gained more credits than required to complete the Professional Examination for which he is enrolled, the additional credits to a maximum of six may be credited to the next succeeding Professional Examination.

(b) A candidate who has failed to gain the required number of credits in the subjects of a Professional Examination and enrolls to repeat subjects or take other subjects to make up the required number of credits for that Professional Examination, may at the discretion of the Head of the School of Architecture take additional subjects to provide not more than 6 credits; and such of those credits as the candidate gains in excess of the credits required to complete that Professional Examination may to a maximum of six be credited to the next succeeding Professional Examination.

8. A candidate shall not enrol for more than 42 credits in any Professional Examination; provided that a candidate who has failed to gain 6 or fewer of the required number of credits in a Professional Examination, may, at the discretion of the Head of the School of Architecture, enrol in subjects for the remainder of the required number of credits, together with the subjects of the next succeeding Professional Examination, up to a total of not more than 42 credits.

9. A candidate may not take a subject unless he has passed or been exempted the prerequisite subject for that subject as provided in Regulation 10, and the Schedule to it; provided that

(a) where the prerequisite subject and the advanced subject are taught consecutively in one year, the candidate may enrol for both, but he may not take the advanced subject if he does not pass the prerequisite subject; and

(b) where the candidate has been exempted from one or more of the subjects of the course for this degree under Regulation 4 or the Ad Eundem Statum Regulations, the Senate may at its discretion exempt him from the requirements of this Regulation.

**Note:** A candidate who is ineligible under proviso (a) to take an advanced subject should withdraw from that subject in accordance with Regulation 7 of the Enrolment and Course Regulations (General).

10. (a) The subjects of the Professional Examination shall be as listed and numbered under the headings *Title of subject* and *Number of subject* in the Schedule to this Regulation, (the core subjects being in Part A, and the other subjects in Part B). The credits to be awarded and the prerequisite or corequisite for each subject shall be as shown in the appropriate column opposite the name of the subject.

(b) Each subject referred to in the Schedule to this Regulation as 'Special Topic' and the prerequisite or prerequisites for it shall be as determined by the Head of the School of Architecture.

(c) Each subject named or referred to in the Schedule to this Regulation shall be an independently assessed segment of work, the successful completion of which shall result in the award of the number of credits shown.

#### Part A (Core Subjects)

**First Professional Examination**

- 15.101 Studio 1: 18 credits
- 15.111 Architectural Design 1: 3 credits
- 15.112 Man-Environment Studies 1: 1 credit
- 15.113 Construction 1: 4 credits
- 15.114 Environmental Control 1: 3 credits
- 15.115 Structure 1: 2 credits
- 15.116 Drawing 1: 3 credits
- 15.117 20th Century Architecture: 2 credits

**Second Professional Examination**

- 15.201 Studio 2: 18 credits
- 15.211 Architectural Design 2: 3 credits
- 15.212 Man-Environment Studies 2: 2 credits
- 15.213 Construction 2: 4 credits
- 15.214 Environmental Control 2: 3 credits
- 15.215 Structure 2: 2 credits
- 15.218 Professional Practice 1: 1 credit
- 15.216 Drawing 2: 3 credits

**Third Professional Examination**

- 15.301 Studio 3: 18 credits
- 15.311 Architectural Design 3: 3 credits
- 15.319 Building Economics 1A: 3 credits
- 15.320 Contract Documentation: 2 credits

**Fourth Professional Examination**

- 15.401 Studio 4 or: 18 credits
- 15.402 Studio 4 Extended: 27 credits
- 15.418 Professional Practice 2: 2 credits
- 15.421 Building Law: 2 credits

#### Part B (Other Subjects)

- 15.132 19th Century Architecture: 2 credits
- 15.134 History of Building: 2 credits
- 15.135 Polynesian Architecture: 1 credit
- 15.321 Advanced Design Methods: 4 credits
- 15.426 Design Theory Elective: 3 credits
- 15.324 Architectural Aesthetics: 2 credits
- 15.325 History of Architectural Theory: 1 credit
- 15.330 Design & Building Evaluation: 3 credits
- 15.332 Man-Environment Studies 3: 4 credits
- 15.412 Man-Environment Elective: 3 credits
- 15.331 Town Planning: 2 credits
- 15.333 NZ Architecture: 2 credits
- 15.337 Building Economics 1B: 1 credit
- 15.420 Building Economics 2: 3 credits
- 15.519 Building Economics Elective: 3 credits
- 15.338 Commercial Practice & Mgt.: 2 credits
- 15.339 Cost Control: 2 credits
- 15.340 Sound: 2 credits
- 15.344 Audio Systems Design: 1 credit

### THE DEGREE OF MASTER OF ARCHITECTURE

**MArch**

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Architecture shall before his enrolment for this Degree
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Architecture, or (b)(i) have been awarded or qualified for the award of the Diploma in Architecture; and
   (ii) satisfy the Senate that he is qualified to pursue the course for the degree by reason of his professional work or by reason or his having pursued a further course of study or investigation since he was awarded or qualified for the award of the Diploma provided that the Senate may in addition require a person seeking enrolment under this provision to pass a special examination.

2. A candidate for the Degree of Master of Architecture shall
   (a) (i) follow a course of full-time study of not less than one year, or
   (ii) follow a course of part-time study of not fewer than two years;
   provided that such full-time or part-time study may be carried out in an approved institution outside the University for such period or periods as may be determined by the Senate from time to time, and
(b) submit a thesis, and
(c) except as provided in Regulation 6, pass a written examination.

3. The following conditions shall apply to the preparation and presentation of the thesis (15.601): (a) the thesis shall embody the results obtained by the candidate of an original investigation or design or advanced study relative to Architecture. Its title and an outline of the proposed work shall be submitted to the Faculty of Architecture for approval not later than 1 February of the year in which the candidate enrols provided that approval may be given to a title and outline submitted or resubmitted not later than 31 March of that year. The work shall be carried out by the candidate himself under the supervision of a Supervisor appointed by the Senate from the School of Architecture.

(b) The candidate shall submit the thesis, accompanied by a certificate from the Supervisor stating that the work has been carried out wholly by the candidate under his supervision, to the Registrar not later than 1 November in the year in which it is presented, or at a subsequent date if so arranged with the Dean of the Faculty of Architecture and Town Planning. The Registrar shall hand the thesis to the Dean of the Faculty of Architecture and Town Planning.

(c) If the Examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it at a later date, to be specified by the Examiner. A thesis that has been submitted twice may not be submitted for a third time.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

4. (a) A candidate who has not been exempted from presenting the written examination shall take such examination not later than in the fourth year after enrolling for the degree.

(b) Every candidate shall submit his thesis by 1 November of the fourth year after enrolment for the degree, provided that this period may in special cases be extended by the Senate.

5. Except as provided in Regulation 6 a candidate shall be required to pass in one of the following subjects:

(1) 15.502 Building Science
(2) 15.503 Design Theory
(3) 15.506 Practice and Law

6. The candidate will be advised on enrolment whether or not he will be required to present himself for examination in the written paper, provided that, if exemption is granted and if the thesis when presented is not considered to be satisfactory, a candidate may be required either to: (a) pass the written examination, or (b) pass the written examination in addition to resubmitting the thesis.

7. Where a candidate has been required to take the written examination the Senate shall take into consideration the combined results of the thesis and the written examination in recommending a candidate for admission to the Degree of Master of Architecture.
3. The committee will consider applicants who:
(a) by their work have demonstrated a level of achievement worthy of an architect;
(b) are not less than 35 years of age and have not less than 10 years' suitable architectural experience;
(c) make application on the form provided;
(d) provide details of their experience and examples of their work, together with suitable corroborative
evidence. The extent of the applicant's personal involvement in the preparation of the material shall be certified
by affidavit;
(e) provide a written report, thesis, review or article, the sole work of the applicant, on some architectural or
related topic, as an indication of the candidate's ability to study or analyse a topic and write clearly upon it;
(f) provide evidence of age;
(g) provide statements from at least three registered architects attesting to the applicant's experience, achieve-
ments and suitability for the profession;
(h) provide any further information that may be requested by the Committee.
4. A fee of $50 shall be paid by the applicant to the NZIA upon making formal application to the Examination.
This fee is not refundable.
5. Each applicant shall be interviewed by the Committee or by a sub-committee comprising at least two
members thereof.
6. Following such interview, the Committee shall admit applicants to the Examination or refuse admission
at its discretion.
7. On admitting a candidate to the Examination the Committee
(i) may at its discretion exempt the candidate from either or both of the subjects of the Examination set out
in Clause 8,
(ii) may at its discretion require the candidate to pass any other subject or subjects prescribed for a recognised
qualification in architecture in New Zealand, and
(iii) shall require of the candidate such further period of approved practical experience (up to 140 weeks from
the date of application) as it sees fit.
8. Applicants admitted to the Examination shall be required to pass the following subjects:
(i) Professional Practice (ii) Building Law
subject to such exemption as may be allowed in each case by the Committee.
9. A pass in subjects 8(i) and (ii) will be obtained by a candidate who passes the corresponding subjects for
the BArch degree of the University of Auckland.
10. On passing the required subjects and satisfying the Committee that any further period of required practical
experience has been satisfactorily completed, the candidate shall be entitled to a Certificate stating that he has
completed the requirements of the Joint Special Examination.
11. On refusing an applicant admission to the Examination the Committee shall advise him in writing of
reasons for its decision. The Committee will consider a further application after not less than three years from
the date of the previous application.
12. Application forms for admission to the Examination may be obtained from the Chief Executive, NZIA,
PO Box 438, Wellington, or from the Dean of the Faculty of Architecture & Town Planning, University of
Auckland, Private Bag, Auckland.
13. These regulations shall come into effect on 1 January 1983.
DEGREE COURSE PRESCRIPTIONS

PRESCRIPTION FOR BArch

The prescriptions for the subjects named in the preceding Regulations for BArch are listed below.

Architecture Intermediate

Folder of Work
A paper detailing requirements for the folder of work may be obtained from the Administration Officer at the School of Architecture.

Professional Years

15.101 Studio I
A course of study and practice in Architectural Design in the studios and laboratories of the School of Architecture, with related lectures and seminars. Its scope includes the development of architectural skill and understanding and the co-ordination of subject matter of the course.

15.201 Studio 2
15.301 Studio 3
15.401 Studio 4
15.402 Studio 4 Extended

15.111 Architectural Design 1
Introductory consideration of the phenomena architecture perception and design, and of design process and method. Formal aspects of space materials, structure and services. Historical emphases up to the present day.

15.112 Man-Environment Studies 1
An introduction to physical, social and cultural aspects of man's relation to the natural and built environment.

15.113 Construction 1
Principles of Building Construction, material studies, building services.

15.114 Environmental Control 1
Climate, man, and energy considerations in buildings. Introduction to psychophysics, including lighting and vision, hearing and noise control, thermal comfort and ventilation.

15.115 Structure 1
Forces acting on buildings, study of equilibrium, resistance of elements and simple assemblies. Design and performance features of commonly used materials.

15.116 Drawing 1
Basic freehand drawing; instrumental drawing; basic descriptive geometry; conventional projections; basic perspective. Other communication techniques.

15.117 20th Century Architecture
Description of principal architectural movements and personalities of contemporary architecture from c.1900 to c.1970.

15.211 Architectural Design 2
Design process, form structures, selected historical studies including New Zealand architecture.

15.212 Man-Environment Studies 2
Human factors in environmental design. Environmental perception, cognition and meaning. Social interaction and the environment. An introduction to current environmental research methods and findings with conclusions for architectural theory.

15.213 Construction 2
Advanced studies in the subject matter of Construction 1.

15.214 Environmental Control 2
Advanced studies in the subject matter of Environmental Control 1.

15.215 Structure 2
Deflection characteristics of common elements, force as arrested movements, approximations of complex building frames, instabilities, introduction to efficient but seldom used systems, discussion of techniques used by structural engineers for frame analysis.

15.216 Drawing 2
Selected freehand techniques; instrumental drawing; advanced descriptive geometry; perspective, scigraphy. Further communication techniques.

15.218 Professional Practice 1
The architectural profession in New Zealand. Historical background and controlling legislation. Codes of professional practice.

15.311 Architectural Design 2
Buildings in the urban context; design and control of development; townscape and landscape.

15.319 Building Economics 1A
Microeconomics as parameters in building decisions. Urban land economics, density, buildings as investment.

15.320 Contract Documentation
Preparation of documentation at all stages of architectural service; briefs, feasibility studies, reports, working drawings, certification; developments in this area. Principles and practice involved in the preparation of specifications, interpretation; performance specifications. Computer assistance in documentation.
15.418 Professional Practice 2

15.421 Building Law
Aspects of law as they affect the practice of architecture, building, land and related property.

15.132 19th Century Architecture
Description of developments of architectural style and building technique during period c.1750–c.1880 showing the foundations upon which the 20th century architecture develops.

15.134 History of Building
Studies in the development of built environment in settlements, buildings and technology.

15.135 Polynesian Architecture
A chronological study of the architectural efforts of the Maori from the prehistoric period up to the present day.

15.321 Advanced Design Methods
A study of techniques for problem stating, survey, analysis, production of alternatives, evaluation and testing, plus critical path analysis techniques and a look at some strategies.

15.426 Design Theory Elective
A fourth year Studio project emphasising theory and techniques from Design Theory in its concept, synthesis and evaluation.

15.324 Architectural Aesthetics
Discussion of aesthetic principles as they relate to the visual arts, especially to architecture and to individual experience, and to architectural design. Further development of architectural form perception.

15.325 History of Architectural Theory
History of western architectural theories from Greek to modern times.

15.330 Design & Building Evaluation
Man-environment interactions as a basis for evaluation of the performance of the built environment and a theory of its function. Techniques and applications of performance measurement and appraisal.

15.332 Man-Environment Studies 3
Further investigation of the principles from the behavioural sciences related to the use, perception, evaluation, research and design of the built environment. Statistical analysis of findings and theories about human response, preferences and behaviour in environmental settings.

15.412 Man-Environment Elective
A fourth year Studio project emphasising theory and techniques from Man-Environment Studies in its concept, synthesis and evaluation.

15.331 Town Planning

15.333 NZ Architecture
Studies in Architecture in New Zealand with reference to historical influences and particular developments.

15.337 Building Economics 1B
Major assignment relative to Building Economics 1A.

15.420 Building Economics 2
Factors governing productivity. Process of substitution in history of building technology. Skill, tools, energy converters, materials and organisations.

15.519 Building Economics Elective
Individual project in Building Economics.

15.338 Commercial Practice & Management
A general appreciation of the principles and practice of accounting and commercial practice relevant to the practice of architecture. Management theory organisation; administration, production, distribution and control aspects; economic, financial and investment theories and techniques.

15.339 Cost Control
Cost planning and control in relation to the design team and design process. Economic feasibility. Cost in use studies. The quantity surveyor. Pricing.

15.340 Sound
A consolidation of the material previewed in the Environmental Control subjects on acoustics and noise control, i.e. the origins, behaviour, description and measurement of sound, and the elements of noise control, room acoustics and the hearing process.

15.344 Audio Systems Design
An introduction to the design of sound systems for use in auditoria and theatres.

15.439 Acoustics
Advanced studies in room acoustics. Control of reverberation, electronic assistance of reverberation, theory and measurements for reflection masking and integration, application in design, acoustical models, mathematical models of rooms.

15.540 Acoustics Elective
Individual project in Acoustics.

15.444 Noise Control
Advanced studies in noise control. Mathematical treatment of theory.

15.542 Noise Control Elective
Individual project in Noise Control.

15.313 Multi-storey Construction
Construction of multi-storey buildings, and how construction is affected by architectural design decisions.
15.413 Industrialised Building  
Methods of building construction, conventional and unconventional. Site organisation, office, labour, plant and materials handling.

15.513 Construction Elective  
A field survey and report on an agreed topic related to Multi-storey Construction, or Industrialised Building.

15.345 Construction Management  
Introduction to quantitative techniques in management of construction projects.

15.445 Construction Management Elective  
Individual project in Construction Management.

15.315 Structure 3  
Simplified analysis of concrete and steel designs and explanations of code requirements.

15.415 Structure 4  
Advanced analysis in concrete and steel design and qualitative study of secondary stresses.

15.346 Timber Technology  
Rationalisation of timber performance in structure, and discussion of engineering use including both current and predicted techniques.

15.341 Building Services  
Advanced studies in building services, their design performance and co-ordination.

15.449 Building Services Elective  
Individual project in Building Services.

15.343 Energy Efficient Design  
Heating, cooling, lighting and ventilation of buildings using natural ambient energy (sun and wind).

15.447 Thermal Environment Elective  
Individual project in Thermal Environment.

15.351 Lighting  
Advanced studies in natural and artificial lighting in buildings.

15.352 Materials Science  
Advanced studies in building materials.

15.353 Computer Applications  
Applications in documentation and problem solving in building.

15.354 Computer Programming  
Introduction to programming in FORTRAN and BASIC, together with practical exercises.

Courses which may be taught in any year, on topics in architecture; the availability, content, prerequisites and corequisites to be determined each year by the Head of the School of Architecture.

Some special topics which are offered regularly are:

15.170 Medieval Architecture  
Characteristic medieval architectural forms in their setting and context.

15.171 History of Western Architecture  
A survey of western architecture from its beginnings in the Near East until the early 19th century.

15.260 Ergonomics  
The limitations and capacities of people as applied to the design of buildings, equipment, and the environment.

15.261 Presentation Techniques  
Specialised techniques and development of graphic skills related to Studio presentation.

15.270 Graphic Techniques  
Elementary graphic processes for presentation, finished art and reproduction.

15.271 Measured Drawings  
Techniques involving measurement, photography, collation, filing/recording, drawing skills, and other related techniques.

15.363 Settlement Studies  
A brief study of current issues and the effect on settlement patterns – an introduction to ekistics.

15.370 Land and Building Form Studies  
Interpretation and analysis of the spatial structure of land forms and building forms.

15.371 Domestic Design  
A study of activity relationships within the house and its location within the natural environment landscape, with emphasis on the quality of life.

15.373 Introduction to Valuation  
An introduction to the theories and techniques of valuation.

15.374 Contemporary Architecture  
Critical discussions and lectures on world architecture post-1970 and New Zealand post-war. Study of popular architecture in New Zealand.

15.377 Urban Design  
Focuses on urban design theory and practice, with particular emphasis on design of space between buildings, and strategies for implementation of design schemes.
DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS

SCHOOL OF ARCHITECTURE

DIPLOMA IN VALUATION

Dip Val

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations; for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Ad Eundem Statum Regulations and except as otherwise provided in these regulations, a candidate for the Diploma in Valuation shall
(a) have been admitted or qualified for admission to a Bachelor's degree of the University of Auckland, or
(b) hold or have qualified for the award of an approved professional or technician qualification in valuation, or
(c) have passed an Intermediate Examination comprising seven papers from the following papers, including Statistical Methods 13.102 (or Maths 26.180 or 26.181) and Economics 13.103 and 13.104 (or, 13.100 and 13.101) and at least one paper from Mathematics 26.120, 26.121, 26.122, 26.140, 26.141, 26.142, Computer Science 07.100, 07.105, and at least three papers from Accounting 01.100, 01.101, Commercial Law 02.100, Geography 20.101, 20.102, Valuation I 37.101.

2. A candidate for this Diploma (including the Intermediate Examination) shall follow a course of study of not less than three years.

3. The subjects of the examination shall be:

(b) A candidate shall be eligible to enrol for Honours only with the leave of the Senate. A high standard is required in the work prescribed in Regulation 3.
(c) The Senate shall inform him as soon as reasonably possible after the completion of that work as to whether he has leave to enrol for Honours.
(d) Not later than 15 January next following, an eligible candidate wishing to enrol for Honours shall notify the Registrar in writing.
(e) A candidate for Honours shall submit a Dissertation to which the following conditions shall apply:
(i) the Dissertation shall embody the results obtained by the candidate in an investigation, approved by the Head of the School of Architecture, in some branch of the subject of Valuation;
(ii) a candidate shall in the first, second or third year following the work described in Regulation 3 submit his Dissertation to the Registrar by 1 November or at a subsequent date approved by the Head of the School of Architecture;
(iii) Honours shall be awarded upon the result of the Dissertation but if the Dissertation is not of sufficient standard the Diploma shall be awarded to the candidate without Honours.

Note: An abstract is to be submitted with the Dissertation (see Examination Regulation 14).

5. These Regulations shall come into force on 1 January 1979.

DEGREE COURSE REGULATIONS

DEPARTMENT OF TOWN PLANNING

THE DEGREE OF BACHELOR OF TOWN PLANNING

BTP

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. (a) Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Town Planning shall
   (i) pursue a course of study for a period of not less than four years
   (ii) pass an Intermediate Examination and two Town Planning Examinations
   (iii) carry out practical work in the application of Town Planning to the satisfaction of the Head of the Department.

   (b) Except with the permission of Senate no candidate for this Degree shall take in any one year more than nine papers.

Examinations

2. Except as hereinafter provided a candidate shall be required to pass as a whole the Intermediate Examination and each Town Planning Examination so that his performance in all papers of the Examination shall be considered; provided that
   (a) where a candidate fails to pass an Examination (whether Intermediate or Town Planning) as a whole he may at the discretion of the Senate be
      (i) credited with a paper or papers of that Examination, and
      (ii) permitted in a subsequent year to present the paper or papers not so credited, together with a paper or papers of the First or Second Town Planning Examination as the case may be.
   (b) No candidate may enrol for any papers of the First Town Planning Examination until he has passed at least six papers prescribed at Stage II level for the Intermediate Examination.
   (c) A candidate who is studying for this degree part-time or in conjunction with any other degree, may be required to pass an examination consisting of such work, less than the full Examination, as the Senate may in its discretion determine and present the remaining papers of the full Examination in a subsequent year, together with a paper or papers of the next succeeding Examination.
   (d) A candidate to whom either of the foregoing provisos (a) and (c) applies shall be required to pass as a whole an Examination consisting of the papers taken in any year, so that the candidate's performance in all papers taken in that year shall be considered.

3. The Examinations for this Degree shall be:

Intermediate Examination

(a) The Course of study for the Intermediate Examination shall consist of
   (i) ten Arts papers or equivalent Science credits (or an equivalent combination of papers and credits), of which three-fifths are above Stage I level, from the following subjects as prescribed for the Degree of BA or BSc as the case may be:

      Anthropology  English  Philosophy
      Art History  Geography  Political Studies
      Biology  Geology  Psychology
      Botany  History  Sociology
      Computer Science  Mathematics  Zoology
      Economics

   Any other subject or subjects prescribed for the Degree of BA or BSc may be approved by the Head of Department for the purposes of this paragraph.
   (ii) four other papers or equivalent credits (or an equivalent combination of papers and credits) from any subjects prescribed for the Degree of BA or BSc or for any other degree approved by the Head of the Department of Town Planning for the purposes of the candidate's Course of Study.
(b) A candidate who has passed the Second Professional Examination for BArch or BE, or the Second Law Examination for LLB or LLB(Hons), or two professional years for a degree of another New Zealand University may, with the approval of the Senate, be exempted the requirements of the Intermediate Examination.

(c) A candidate who has qualified with outstanding merit for the New Zealand Certificate in Draughting (Town and Country Planning) or the New Zealand Certificate in Town Planning may, with the approval of the Senate, be exempted the requirements of the Intermediate Examination.

Note: Any such candidate is required to apply for admission under the Admission Regulations.

Part C
One Stage III paper from the subjects for the Intermediate Examination as in paragraph (a) (i) of this Regulation and prescribed for the Degree of BA or BSc as approved by the Head of the Department of Town Planning.
Restrictions Prerequisites and Corequisites

4. (a) As to Part B of the Second Town Planning Examination:
(i) no candidate shall take paper 36.203 or paper 36.204 or paper 36.205 if he has already been credited with that paper for Part B of the First Town Planning Examination.
(ii) No candidate shall take any of the papers 36.311, 36.312, 36.313, 36.314, 36.315, 36.316 or 36.317 unless he has passed in or taken concurrently the papers 36.203, 36.204 and 36.205.
(b) In respect of the papers and equivalent credits taken for this Degree (whether for the Intermediate Examination or for Part C of the First or the Second Town Planning Examination) each candidate shall be required to comply with all Regulations applicable thereto for the Degree of BA or BSc or other Degree (including Regulations and requirements relating to corequisites, prerequisites, restrictions, combinations of subject and practical work).

Exemptions

5. (a) A candidate who has been credited for a Degree with any of the papers or equivalent credits specified for the Intermediate Examination may be credited with those papers or credits for the purpose of this Degree.
(b) Subject to the Admission Ad Eundem Statum Regulations, a candidate who is a graduate of any New Zealand University shall be exempted from passing the Intermediate Examination, and his Course of study shall be pursued for a period of not less than two years.
(c) A candidate proceeding under paragraph (b) of this Regulation or Regulation 3 (b) may substitute for any or all of the papers prescribed for Part C of the First and Second Town Planning Examinations not fewer than the same number of papers prescribed for any other Degree or Diploma as approved by the Head of the Department of Town Planning.
(d) A candidate may substitute papers from Part B of the Second Town Planning Examination for an equal number of papers from Part C of the First and Second Town Planning Examinations as approved by the Head of the Department of Town Planning provided the candidate passes or has passed three papers at Stage III level.

Practical Course

6. No candidate shall be admitted to this Degree unless the Registrar has received from the Head of the Department of Town Planning a certificate that the candidate has complied with the requirements of the Department as to practical work.
7. These Regulations shall come into force on 1 January, 1975.

THE DEGREE OF MASTER OF TOWN PLANNING

MTP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the degree of Master of Town Planning shall before enrolment:
(a) have been admitted or qualified for admission to the Degree of Bachelor of Town Planning, and
(b) have obtained, in the opinion of the Head of the Department, a sufficiently high standard in Part A of the Second Town Planning Examination, with no paper graded lower than C.
2. Except as provided elsewhere in these Regulations a candidate shall take all papers required for this Degree in the same year. A candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of the Department to present three or four papers in the first year, or in special circumstances two papers in the first year; and shall present all papers within three years of first enrolment for the Degree.
3. No candidate shall take for this Degree any paper that is the same or substantially equivalent to any other paper that he has passed or is taking and obtain credit for both for this Degree.
Course Content
4. Every candidate for the Degree of Master of Town Planning shall be required to pass in five papers and a research essay (36.603) which shall count as one paper; or four papers and a thesis (36.601) which shall count as two papers. The papers shall be chosen from
- 36.400 Planning Theory
- 36.401 Planning Techniques
- 36.402 Planning Law and Administration
- Special topics approved by the Head of the Department of Town Planning
- Special topics approved by the Head of the Department of Town Planning
- Special topics approved by the Head of the Department of Town Planning
- Special topics approved by the Head of the Department of Town Planning
- Special topics approved by the Head of the Department of Town Planning
- Special topics approved by the Head of the Department of Town Planning
- Research Essay
- 52.740 Public Health Engineering Seminar (as prescribed for the Degree of ME)
- 52.780 Transportation Planning (as prescribed for the Degree of ME)
- 20.436 Urban Geography (as prescribed for the subject Geography for the Degree of MA)
- 30.402 A topic on Urban Government and Politics (as prescribed for the subject Political Studies for the Degree of MA)
- 82.406 Urban Sociology and Ecology (as prescribed for the subject Sociology for the Degree of MA)
- 25.383 Social Control of Land (as prescribed for the Degree of LLB (Hons))
- 15.503 Design Theory (as prescribed for the Degree of MArch) provided that the Head of the Department of Town Planning must approve the relevance of paper 15.503 to the subject of investigation for the thesis before a candidate may enrol in that paper.

Thesis
5. Where a thesis (36.601) is required the following conditions shall apply:
(a) the thesis shall embody the results obtained by the candidate in an investigation in some branch of Town Planning.
(b) A candidate shall present his thesis in the final year in which he takes the papers or within the next three years, provided that the time may be extended in exceptional cases by the Senate.
(c) If the examiner with the concurrence of the assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

Honours
6.(a) There shall be two Classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory; provided that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified as under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he is still eligible for the award of Honours, subject to the provisions of paragraph (c) of this Regulation.
(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree.

Transitional Provision
7. Notwithstanding anything in paragraph (a) of Regulation 1, a candidate who has been awarded or qualified for the award of the Diploma in Town Planning shall be eligible to enrol for this Degree up to and including the year 1983; but the Degree shall not be awarded with Honours if the candidate has been awarded the Diploma in Town Planning with Honours under former regulations.
8. These Regulations shall come into force on 1 January 1975.

DIPLOMA COURSE REGULATIONS & PRESCRIPTIONS

DIPLOMA IN TOWN PLANNING

Dip TP

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study, students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

An intending candidate who seeks admission under the proviso of Regulation 1 of these Regulations may need to apply for admission in accordance with the requirements of the Admission Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Diploma in Town Planning shall before enrolment have been admitted or have qualified for admission to a Degree in Architecture, Engineering, Law, or Surveying; or to a Bachelor's Degree for which he has passed at least three Stage III papers in the subjects of Economics, Geography, or Sociology, or any of those subjects; provided that, if not so qualified, a person may, with the leave of the Senate, enrol for the Diploma if he (i) has been admitted or has qualified for admission to any other Degree, or (ii) holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning, or (iii) has been awarded or qualified for the award of a Diploma in Architecture or Surveying or (iv) has been awarded or qualified for the award of a Diploma in Urban Valuation, his first enrolment for which was made before 1975.

Course Content

2. Every candidate shall be required to:
   (i) pass six papers from Parts A and B of the First Town Planning Examination
   (ii) pass four papers from Part A and two papers from Part B of the Second Town Planning Examination and
   (iii) complete the practical course prescribed for the Degree of Bachelor of Town Planning.

3. No candidate shall take for this Diploma a paper the same as or substantially equivalent to any paper he has passed for another University Diploma or Degree and shall for any such paper substitute another paper approved by the Head of the Department of Town Planning.

4. (a) Except as otherwise provided in this Regulation the course of every candidate shall be governed by these Regulations.  
   (b) The Regulations governing the Diploma in Town Planning which were published in the University of Auckland Calendar for 1974 (in this Regulation called the 1974 Regulations) are hereby revoked, provided that a candidate who enrolled under the 1974 Regulations shall, with the exception of the dissertation, complete work and requirements equivalent to those prescribed in the 1974 Regulations by 1 November 1975 and may submit up to and including the year 1978 a dissertation (36.399) in accordance with Regulation 2 (c) of those Regulations, in order to qualify for the Diploma.

5. These regulations shall come into force on 1 January, 1975.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF ENGINEERING

BE

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

Honours

1. The Degree of Bachelor of Engineering may be awarded with or without Honours according to the standard of the candidate's work. There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division.

General Provisions

2.(a) Except as otherwise provided, a candidate for the degree of Bachelor of Engineering shall be required
(i) to pursue a Course of study for a period of not less than four years, and
(ii) to pass an Intermediate Examination and the examinations of the three Professional Years, and
(iii) to perform Practical Work to the satisfaction of the Faculty of Engineering, and
(iv) to perform Laboratory and Field Work to the satisfaction of the Faculty of Engineering.
(b) A candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination (including each Examination under Regulation 4), so that his performance in all the subjects of the Examination shall be considered: provided that a candidate who has failed to pass any such Examination as a whole may at the discretion of the Senate be credited with a subject or subjects of the Examination and permitted in a subsequent year to present the subjects not so credited, together with (if the Senate permits) a subject or subjects of the next succeeding Examination. The candidate shall then be required to pass a composite Examination in all the subjects so presented upon the same conditions as those prescribed in this sub-clause.

Concessions

3.(a) A candidate who has been credited for the Degree of Bachelor of Science with any or all of the papers Chemistry 110 or 120, Mathematics 120 or 121, Mathematics 140 or 141, Physics 110 or 113, and Physics 120 or 123 shall be credited with such paper or papers for this Degree.
(b) For the purposes of this Regulation only
(i) two of the papers Chemistry 210, 220 and 230 may be substituted for Chemistry 113, 123.
(ii) Stage II Physics papers totalling 6 credits may be substituted for each of the papers Physics 110, 113, 120, 123.
(iii) Stage II Pure Mathematics papers totalling 6 credits may be substituted for each of the papers Pure Mathematics 120 or 121 and 140 or 141.
(c) A candidate who has been credited for the Degree of Bachelor of Science with the paper Mathematics 170 or Stage II or III Applied Mathematics papers totalling 6 credits may be credited with such paper or papers in lieu of Engineering Mechanics I 55.001 for this Degree.

4. A candidate for the Degree of Bachelor of Engineering who
(a)(i) has been awarded or has qualified for the award of the Degree of Bachelor of Science, or
(ii) has completed within two years the examination requirements for the award of the Degree of Bachelor of Science, or
(iii) was permitted to enrol for Stage II or Stage III papers in a subject without first presenting that subject at Stage I and who, if the Stage I papers not taken were included, would have qualified within two years for the award of the Degree of Bachelor of Science, shall be required to pursue a Course of study for a period of not less than two years in such subjects for the Degree as the Dean of the Faculty may prescribe and to pass Examinations in each year in the subjects so prescribed for that year; provided that
(b)(i) the Examination for the first year shall be such that the amount of necessary study shall be substantially the same as for the Second Professional Examination:
(ii) all the subjects and papers of the Third Professional Examination shall be included in the candidate's Course of study but none such in the first year.

(iii) the candidate shall be exempt from the papers and subjects of the Intermediate Examination and from such other subjects of the Degree as are not prescribed for his Course under this Regulation.

5. Any candidate who has passed in one year in Mathematics 120 or 121, Mathematics 140 or 141, Physics 113, Physics 123 and Chemistry 110, 120 or the substitutes permitted under Regulation 3(b), and one other course, may be exempted by the Senate from the subjects of the Intermediate Examination, provided that he has also completed a Course in Elementary Mechanics approved by the Senate.

6.(a) The Senate may exempt a candidate from the Intermediate Examination if it is satisfied that in the Entrance Scholarships Examination he has reached a satisfactory standard and if the subjects the candidate has taken include Chemistry, Physics, Pure Mathematics, and Applied Mathematics. If the candidate has reached an exceptional standard in the Entrance Scholarships Examination, the Senate may grant the exemption if the subjects taken include Chemistry, Physics, and Pure Mathematics either at the Bursary or Scholarship level.

(b) The Senate may permit a candidate who has gained a pass in the Bursary examination, or a Junior Scholarship, to substitute papers, papers or subjects totalling or equivalent to 12 credits, for prescribed papers of Engineering Intermediate related to one subject of the Bursary Examination in which he attained a standard of achievement approved by the Senate.

Substitution for Engineering Mechanics I shall not be permitted.

7.(a) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate in Engineering, and who has completed the practical requirements for the award of that Certificate, may be exempted by the Senate from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

(b) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate of Science (Metallurgy) or Chemistry and who has completed the practical requirements for the award of that Certificate may for the Course in Chemical and Materials Engineering be exempted from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

(c) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate of Science (Physics) in the sub-division of Applied Electronics and who has completed the practical requirements for the award of that Certificate may for the Course in Electrical and Electronic Engineering be exempted from the Intermediate and First Professional Examinations or from such of those examinations as the Senate thinks fit.

8. Regulations 3, 4, 5, 6, and 7 of these Regulations shall be read together with, so far as they are not inconsistent with, the provisions of the Enrolment and Course Regulations (General) relating to cross-credits and exemptions.

Practical Work
9. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Practical Work.

Laboratory and Field Work
10. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Laboratory and Field Work.

Prerequisites
11. No student may enrol (a) for any subject of the First Professional Year without having completed the whole of the Intermediate Examination;

(b) for any subject of the Third Professional Year without having completed the whole of the First Professional Examination.

Note: In considering the enrolment of a student whose course is irregular by reason of past omissions or failures, the Dean will recommend for approval only a course for which he finds the student adequately prepared by his previous studies.

Form of Course
12. The candidate shall follow one of the following five papers:

Chemical and Materials Engineering
Civil Engineering
Electrical and Electronic Engineering
Engineering Science
Mechanical Engineering
List of Subjects
13. Subjects in the Professional years taught in the first half year only will be examined mid-year. Subjects taught in the second half year only and full year subjects will be examined at the end of the year. Refer to course prescriptions for details. The subjects of the Examinations for the Degree shall be:

**One elective from the list below**

54.301 Special Topic in Engineering Science A
An approved subject from another University course

**Project in Engineering Science**

54.302 Special Topic in Engineering Science B
54.343 Mechanics of Structures
54.352 Stochastic Methods in Operations Research
54.361 Control Theory
An approved subject from another University course

**A candidate is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Theoretical and Applied Mechanics. The work shall be supervised by a member of the staff. In addition to the subjects listed for Engineering Science Third Professional Year, candidates are required to attend the Engineering Science Laboratory (three hours per week or equivalent), carry out assignments and submit reports, to a required standard.

Note: (i) The choice of elective subjects must be approved by the Head of the Department of Theoretical and Applied Mechanics. There should be no timetable conflict in the proposed course. Approval will depend on the compatibility of the chosen subjects with the candidate's personal aptitudes and interests, and the coherence of the proposed course as a whole.

(ii) A subject chosen from another University course must be of an appropriate weight and academic level. The syllabus may not be the same or substantially overlap that of another subject in the candidate's course. In respect of subjects from other degrees, a subject from the list above will be considered equivalent to one paper for BA or BCom at stage II or stage III or three credits for BSc at stage II or stage III.
(iii) In normal circumstances one elective subject is to be chosen from those taught in the first half-year and one from those taught in the second half-year.

(iv) Those students who have previously passed General Studies II for their Second Professional Examination will be required to take an additional elective subject in their Third Professional Year.

(v) Some electives may not be available in any given year.

**Note:** The choice of elective subjects must be approved by the Head of the Department of Mechanical Engineering. There should be no timetable conflict in the proposed course. Approval will depend on the compatibility of the chosen subjects with the candidate's personal aptitudes and interests, their mutual compatibility and the coherence of the proposed course as a whole.

A subject chosen from another course must be of an appropriate weight and academic level. The syllabus may not be the same or substantially overlap that of another subject in the candidate's course. In respect of subjects from other degrees, a subject from the list above will be considered equivalent to one paper for BA or BCom at stage II or stage III or to three credits for BSc at stage II or stage III or to four credits for BArch at third or fourth professional.

In normal circumstances three subjects are to be chosen from those taught in the second half-year.

**Savings and Transitional Provisions**

14. The Regulations governing the Degree of Bachelor of Engineering set forth in the University of Auckland Calendar for 1981 are hereby revoked: provided that every candidate who began his course under the last mentioned Regulations shall be credited for the purpose of these present regulations with such units as the Senate may determine.

15. These Regulations shall come into force on 1 January 1983.
THE DEGREE OF MASTER OF ENGINEERING ME

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Engineering shall
   (a) before his enrolment for this Degree have been admitted or qualified for admission to the Degree of Bachelor of Engineering, and
   (b) follow a Course study of not less than one year.
2. Every candidate for this Degree shall
   (a) pass in each of eight subjects where those subjects do not include Project D, or
   (b) pass in Project D and six other subjects, or
   (c)(i) pass in each of three subjects, and
   (ii) pass in respect of a thesis (which shall count as equivalent to five subjects).

Subjects
3. The following conditions shall apply to the choice of subjects
   (a) Every candidate shall choose subjects in consultation with the Head of his Department from those listed in clause (b) of this Regulation; provided that no subject that has been credited to another Degree shall be taken for this Degree.
   (b) The subjects of examination for the Degree are:
      (i) 50.700 Project A
      50.710 Project B
      50.720 Project C
      50.730 Project D (value 2 papers)
      ‡ 51.700 Advanced Materials
      51.710 Advanced Process Control
      51.720 Chemical Engineering Seminar
      51.730 Materials Seminar
      51.740 Studies in Chemical Engineering
      51.750 Studies in Materials Engineering
      51.760 Biochemical Engineering Seminar
      51.770 Advanced Chemical Engineering
      52.700 Earthquake Engineering
      52.710 Fluid Mechanics Seminar
      52.720 Geomechanics Seminar
      52.730 Mechanics and Properties of Materials Seminar
      52.740 Public Health Engineering Seminar
      52.741 Project Management
      52.742 Case Studies in Project Management
      52.750 Structural Dynamics
      52.760 Structures Seminar
      52.770 Transportation Engineering Seminar
      52.780 Transportation Planning
      52.790 Transportation Systems Analysis
      52.800 Special Seminar in Civil Engineering A
      52.801 Special Seminar in Civil Engineering B
      52.810 Structural Analysis
      52.820 Space Structures
      52.860 Advanced Fluid Mechanics
(ii) those subjects approved by the Head of Department from any of those offered at Third Professional level for the BE Degree.

(iii) Subject to the permission of the Heads of Departments concerned, one or two papers chosen from those offered in any other Faculty at the final-year undergraduate level or the master's level provided

(a) that prerequisite and timetabling requirements can be met, and

(b) that the syllabus is not the same as or substantially overlapping with any course prescribed for this Degree, and

(c) that the paper has a weight not less than that of an engineering paper.

Project Work

4. (a) No candidate shall take

(i) Project A, B, C or D if he submits a thesis for this Degree;

(ii) more than one of the Projects A, B or C if he takes Project D.

(b) A candidate who takes Project D must submit his project report not later than twelve months after his enrolment for this project provided that the Senate may, in exceptional circumstances, extend this period.

(c) A candidate who takes Project A, B or C must submit his project report on the last day of the period in which the project is taken provided that the Senate may, in exceptional circumstances, extend this period.
Thesis

5. The following conditions shall apply to the thesis (56.601):
(a) The thesis shall embody the results obtained by the candidate in an investigation in a subject approved by the Head of the Department.
(b) The investigation shall be carried out personally by the candidate at the University under the direct supervision of a member of the academic staff; provided that
(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;
(ii) field work may be carried out at such places and for such periods as the Senate may determine.
(c)(i) The supervisor shall be the principal examiner.
(ii) The Senate acting on the advice of the Head of the Department shall appoint either an external assessor or a second internal examiner.
(d) At the discretion of the Head of the Department the candidate may be required to attend an oral examination on the subject of the thesis, which shall take place within four weeks of the date on which the thesis was submitted, or within such longer period as the Senate may in special circumstances approve.
(e) If the supervisor with the consent of the assessor or second examiner as the case may be so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date as specified by the supervisor.
(f) A candidate shall present the thesis not later than 18 months, or if (s)he is a part-time candidate not later than 36 months, after the first enrolment for this Degree, provided that the Senate may, in exceptional circumstances, extend this period.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

(g) Notwithstanding anything in Regulation 5(f) a part-time candidate shall present the thesis not later than 36 months after the first enrolment for this Degree, provided that the Senate may, in exceptional circumstances, extend this period.

Classes of Pass

6. The Degree of Master of Engineering may, on the recommendation of the Senate, be awarded with distinction.
7. These regulations shall come into force on 1 January, 1972.

† Not all electives will be available in a given year.

RESEARCH IN ENGINEERING

Facilities are available for research by PhD students and postdoctoral fellows in each of the Departments of Engineering in a wide range of topics and also within the Radio Research Centre, which comes under the Department of Electrical and Electronic Engineering, in communications, ionospheric and ground wave radio propagation, antennas and radio direction-finding.

Attention is drawn to the fact that the Honours degree qualifying a PhD student for registration need not necessarily be one in Engineering. Graduates with a good Honours degree in Physics, Chemistry, or Mathematics, for example, could be considered for registration in Engineering.

PROFESSIONAL INSTITUTION COURSES

Candidates for the examinations of the Council of Engineering Institutions may take courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their course.

55.001 Engineering Mechanics I

(Two lectures per week and problem clinics)

An introductory course dealing with the principles of Newtonian rigid-body mechanics and the analysis of simple mechanical systems. Topics to be treated are (a) statics of particles, rigid bodies, and collections of rigid bodies including the concepts of contact and body forces, moments of forces, couples, free-body diagrams, equivalent force systems, centroids, equilibrium conditions, and Coulomb friction, (b) kinematics of particles and rigid bodies including velocity, acceleration, angular velocity, and angular acceleration, and (c) kinetics including the concepts of moment of inertia, inertia force, and inertia torque and the principles of D'Alembert, impulse-momentum, and work-energy as applied to planar motion of particles and rigid bodies.

Professional Examinations

50.101 General Studies I

[Three lectures and one tutorial per week. Second half-year]
A course that considers aspects of human development; origins, societies, politics, human nature, and creativity.

50.111 Engineering Design

[One lecture and one three-hour drawing office class per week]
The elements of engineering draughting and graphics. Introduction to the application of mechanics to the design of mechanical and structural components.

50.201 General Studies II

[Three lectures and one tutorial per week. First half-year]
A survey of some of the problems of contemporary man, including aspects of politics, sociology, ecology and technology and their interactions.

51.111 Chemical Engineering IA

[Four lectures and one tutorial per week. First half-year]

51.112 Chemical Engineering IB

[Four lectures and one tutorial per week. Second half-year]
Classical chemical thermodynamics up to and including the concepts of chemical potential, fugacity and activity; applications of these concepts. Thermodynamics of power and refrigeration cycles, and flow processes. Introduction to statistical thermodynamics. Incompressible Newtonian flow; fluid resistance; friction factor; boundary layer concepts; flow in closed channels; losses; flow measurement; turbulent flow; pumping; piping networks.

51.121 Materials I

[Three lectures and one tutorial per week. First half-year]
Mechanical properties and testing of engineering materials; atomic and structural aspects; deformation and strengthening mechanisms; annealing; working processes; temperature dependent properties of materials; microstructures; solidification and phase equilibria; heat treatment; non-destructive testing; corrosion; non-metallic materials including polymers, wood, ceramics and concrete.

51.151 Thermodynamics

[Three lectures and one tutorial per week. Second half-year]
Classical chemical thermodynamics up to an including the concepts of chemical potential, fugacity and activity; applications of these concepts. Thermodynamics of power and refrigeration cycles and flow processes. Introduction to statistical thermodynamics.
51.211 Chemical Engineering IIA
[Two lectures and one tutorial per week]
Non-Newtonian fluid flow; flow models and applications; aspects of open-channel flow; compressible flow. Heat transfer by diffusion and convection; convection correlations; boiling and condensation heat transfer; heat exchanger operation and design. Steady-state mass and energy balancing including graphical methods. Evaporator types; sizing performance; multiple effect evaporation; vapour recompression. Drying equipment; drying mechanisms; simultaneous heat and mass transfer; drying curves and applications.

51.212 Chemical Engineering IIB
[Two lectures and one tutorial per week]
Mass transfer operations; phase equilibria; single and multistage processes; simple and multi-component distillation; liquid-liquid and solid-liquid extraction; differential contact operations; gas absorption; combined heat, mass and momentum transfer; humidification and cooling towers; other transfer operations.

51.221 Materials II
[Three lectures and one tutorial per week]
Topics in materials engineering including: kinetics of metallurgical reactions, imperfections and plastic flow, mechanical behaviour of materials, x-ray diffraction, deformation processing, solidification and casting, metallurgy and properties of engineering alloys. Corrosion and oxidation.

51.222 Electrical Engineering Materials
[Three lectures and one tutorial per week. First half-year]

51.231 Chemical Engineering Design I
[One lecture and one two-hour drawing office class per week]
Analysis of simple structures; design of steel beams, columns, trusses and reinforced concrete beams and footings; effects of earthquakes. The general specification of a process; alternative processing schemes; the basis for process selection; the development of precise heat and material balances and their subsequent updating as detailed design proceeds; the process flow diagram and description; a process of relevance to New Zealand will be chosen to illuminate this course and Chemical Engineering Design II. Students will be guided in the design of a holdup vessel and a pressure vessel for this process using all relevant standards.

51.241 Advanced Chemistry A
[Three lectures per week. First half-year]
Organic chemistry; industrial organic chemistry; analytical chemistry; chemical safety.

51.242 Advanced Chemistry B
[Three lectures per week. Second half-year]
Chemical kinetics; heterogeneous catalysis; electrochemistry; air pollution; biological chemistry.

51.311 Chemical Engineering IIIA
[Five lectures per week. First half-year]
Dynamic modelling of linear open-loop system; transfer functions; linear closed-loop systems; analysis and control; control theory; stability analysis using root-locus and frequency response methods. Controller tuning; industrial application with simple and complex control systems. Introductory principles of biochemistry and microbiology; industrial applications; enzyme reactions; fermentations; membrane processing; chromatography and application to the dairy and meat process industries.

51.312 Chemical Engineering IIIB
[Two lectures per week]
A course on particulate technology, including characterisation of particles; fluid dynamics; analysis of separation processes; separation mechanisms; size reduction; particle size measurement; sedimentation; fluidisation; conveying; filtration; packed beds; solid/solid separations; gas cleaning; agglomeration; storage; atomisation; mixing.

51.313 Chemical Engineering IIIC
[Three lectures per week. Second half-year]
The restraints of thermodynamics and kinetics; effects of temperature and pressure on process rate; batch and continuous stirred tank models as they apply to homogeneous reactions; limitations of the models and the use of residence time analysis; heterogeneous reactions and an introduction to biochemical reactions and an introduction to biochemical reactor design and combustion.

51.321 Materials III
[Three lectures per week. Second half-year]
51.331 Chemical Engineering Design II
[One lecture and one three-hour drawing office class per week]
Plant start-up and the need for ancillary process piping. General problems of materials transportation; safe design and hazard analysis; single risk and double jeopardy principles; reliability of components; sequence controllers, venting and fire control; pumps, compressors and ejectors; their specification; structure of the chemical industry; plant commissioning and start-up; legal requirements including obligations to the public; the employer and the profession; basis of contract law, common law and patent law; environment, health, air and water pollution legislation; engineering economics and overall cost estimation. Students will develop the example given in Chemical Engineering Design I to include pipe, valve and instrument schedules, a pipe and instrumentation diagram, a hazard analysis, an environmental impact report outline and a cost estimate of the overall process. In addition they will design or specify individual heat exchangers, towers and chemical reactors.

51.361 Project in Chemical and Materials Engineering
A student is required to submit a report on project work carried out on a topic assigned by the Head of Department of Chemical and Materials Engineering. The work shall be supervised by a member of the staff.

52.111 Mechanics of Materials
[Three lectures and one shared tutorial per week. Second half-year]
Stress, strain and stress/strain relationships; application of these concepts to simple structural members. Properties of civil engineering materials.

52.121 Fluid Mechanics I
[Two lectures and one shared tutorial per week. First half-year]

52.122 Fluid Mechanics II
[Three lectures and one tutorial per week. First half-year]

52.131 Introductory Geology for Engineers
[Three lectures and one shared tutorial per week. First half-year]
Principles of physical and structural geology; seismology and elementary stratigraphy. Petrology and mineralogy of the common rocks, rock groups and rock forming minerals. Geological surveying and mapping. Geology of water supply and the general application of geology to Civil Engineering.

52.141 Structures I
[Two lectures and one shared tutorial per week. First half-year]
Analysis of determinate structures; approximate analysis of indeterminate structures, plastic analysis of framed structures; appreciation of structural systems.

52.151 Surveying
[Two lectures and one shared tutorial per week. Second half-year]
Introduction to land surveying theory and practice for Civil Engineers. Principles of typical surveying equipment and of its operation and application.

52.211 Properties of Materials and Design
[Three lectures and two hours drawing office per week]
The analysis and design of components of civil engineering structures. Further properties of civil engineering materials.

52.221 Fluid Mechanics II
[Two lectures and one shared tutorial per week. First half-year]
52.231 Geomechanics I
[Two lectures and one shared tutorial per week]

52.241 Structures II
[Two lectures and one shared tutorial per week]
Analysis of indeterminate structures by force and displacement methods. Moment distribution and moment area methods for framed structures. Analysis of frames subject to dynamic loads.

52.271 Traffic and Highway Engineering
[Two lectures and one shared tutorial per week]
Basic elements of intersection and highway capacity, intersection design, signal control design, theoretical analysis of traffic flow. Introduction to traffic and transportation planning. Transport in NZ. Highway location, geometrics and alignment design. Earthwork volumes. Setting out works. Pavement design. Road construction techniques.

52.301 Special Topic in Civil Engineering
[Three lectures and one tutorial per week. Second half-year]
A course on a topic in Civil Engineering to be determined each year by the Head of Department of Civil Engineering.

52.311 Mechanics and Properties of Materials
[Three lectures and one tutorial per week. Second half-year]
A selection of topics from the following: Elasticity and plasticity; experimental methods; beams, plates and shell theory; stability of structural sections, analysis of joints; shear walls and deep beams; civil engineering materials; further material on traditional materials as well as information on modern advances.

52.321 Hydrology
[Two lectures and one tutorial per week. First half-year]
Introduction to hydrology, precipitation, interception, evaporation, transpiration, infiltration, groundwater, runoff and hydrographs, storage, flood estimation and flood routing, soil erosion. Elements of river control work. Introduction to concepts of coastal engineering.

52.322 Fluid Mechanics III
[Three lectures and one tutorial per week. Second half-year]
Introduction to the generalised form of equations of motion and to concept of potential flow. Introduction to flow through porous medium and application of potential flow techniques to analysis of flow through porous media, unsteady groundwater flow and leaky aquifers, intrusion of salt water. Introduction to the theory of water waves, wave forces and coastal processes. Introduction to the elements of dispersion and diffusion into water and atmosphere.

52.323 Water Resources Engineering
[Three lectures and one tutorial per week. Second half-year]
Introduction to synthetic hydrology, reservoir capacity and yield analysis, design of flood control structures, irrigation and drainage, urban drainage, introduction to coastal engineering, water resources systems engineering, and related topics.

52.331 Geotechnical Engineering
[Two lectures and one tutorial per week. First half-year]

52.332 Geomechanics II
[Three lectures and one tutorial per week. Second half-year]

52.333 Engineering Geology
[Three lectures and one tutorial per week. Second half-year]
Geological principles applied to engineering problems.

52.341 Structures III
[Three lectures and one tutorial per week. Second half-year]
Direct stiffness method for truss and frame structures; energy theorems; approximate methods for asymmetrical buildings, multibeam bridges, simple cable networks and shell structures.
52.361 Civil Engineering Design I
[Two lectures and one two-hour drawing office class per week. First half-year]
Civil Engineering design with emphasis on concrete and steel structures involving continuity.

52.362 Civil Engineering Design II
[Two lectures and one two-hour drawing office class per week. Second half-year]
Introduction to further design techniques including structures in which seismic considerations are important.

52.371 Traffic Systems Design
[Three lectures and one tutorial per week. Second half-year]
Signal control design, linking and area control. Traffic management techniques. Driver characteristics and safety. Traffic control devices and design application. Design of parking and street lighting. Introduction to traffic flow and queuing theory, systems simulation and applications.

52.381 Civil Engineering Administration
[Two lectures and one tutorial per week, first half-year. Three lectures and one tutorial per week, second half-year]
An introduction to financial, legal and managerial principles, and their application to problems in civil engineering management. Systems approach to decision making. Topics related to professional engineering practice.

52.382 Management Techniques
[Three lectures and one tutorial per week. Second half-year]
Introduction to project planning and the making and implementation of decisions.

52.391 Public Health Engineering
[Two lectures and one tutorial per week. First half-year]

52.392 Water Quality Engineering
[Three lectures per week. Second half-year]
Chemistry and microbiology of water. Unit operations and process design in water and waste-water treatment. Engineering management of natural water quality.

53.111 Electrical Engineering IG
[Three lectures and one tutorial per week. Second half-year]
An introductory course, with principal emphasis on electric circuit theory and electronics.

53.121 Networks
[Two lectures in the first half-year, one in the second half-year and one tutorial per week]

53.131 Electronics I
[Two lectures and one tutorial per week. Second half-year]

53.141 Power Apparatus and Systems I
[Two lectures and one tutorial per week. First half-year]

53.204 Electrical Engineering Design
[Three hours per week]

53.211 Electrical Engineering IIS
[Three lectures and one tutorial per week. First half-year]
53.222 Networks and Signals
[Three lectures and one tutorial per week. First half year.]
Bridge circuits; resonance, Q, gain bandwidth considerations, tuned coupled circuits; Laplace Transforms; pole-zero diagrams and applications; Two Port coupling networks; filter design using Image Parameters, frequency and impedance transformation; filter design using appropriate methods; active filter design. Signal levels and logarithmic units, signal spectrum and transmission in band limited channels, modulation techniques, electrical noise.

53.251 Transmission Lines and Fields
[Three lectures and one tutorial per week. Second half year.]
Vector analysis revision; static fields; the electric field and materials; fields varying in time; Maxwell's equations; electromagnetic waves; Poynting's theorem; skin effect; exact and approximate solution of field problems. Transmission lines with distributed constants; surges on lines; AC lines; standing waves, resonance and antiresonance; Smith chart; common transmission lines, parameters, higher order modes; high frequency lines, communication lines and high power lines.

53.231 Electronics II
[Two lectures and one tutorial per week]
Digital: binary codes, code conversion; binary number conventions, Z's complement; binary arithmetic operations, addition, subtraction, multiplication; computer basics, microprocessors, typical structures, memory elements, peripheral devices. Analogue: Y parameters for passive and active circuits; feedback amplifiers, instrumentation amplifiers; sample and hold circuits, A/D and D/A conversion; thyristor-controlled rectifiers and inverters, line commutated converters.

53.241 Power Apparatus and Systems II
[Three lectures and one tutorial per week. Second half-year]

53.271 Control Systems
[Three lectures per week. First half-year]

53.301 Project in Electrical Engineering
[Six hours per week in the first half year, seven in the second half year]
A student is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Electrical and Electronic Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of three papers.

53.302 Advanced Electrical Engineering A
[Three lectures per week. First half year]
Two modules chosen from the following list of four:
Advanced Electronics A. High frequency device models; transient and frequency response of basic amplifier configurations; power amplifiers; stability and frequency response of feedback amplifiers; oscillators; mixers; computer-aided active network analysis.
Power Systems. Power system components; control of power and frequency; reactive power and voltage control; introduction to load flow and fault analysis; steady state, transient, and dynamic stability; AC and DC power transmission; protection; load forecasting and management; reliability.
Communication Systems. Modulation techniques, AM and FM; antennas, gain, beamwidth, aperture, radiation pattern, arrays; propagation, broadcasting, ionospheric, microwave, tropospheric; electrical noise, noise figure, noise in cascaded networks; introduction to digital techniques, sampling theorems, anti-aliasing, linear and log-PCM, quantization-noise; wideband techniques, FDM, TDM, TDM-PDM.

Mathematics Topic A. A selection from the following topics: probability theory; stochastic processes; queuing theory and applications; data analysis; forecasting techniques.

53.303 Advanced Electrical Engineering B
[Three lectures per week. First half year]
Two modules chosen from the following list of four:
Advanced Electronics B. Difference amplifiers; operational amplifiers; phase locked loops; A/D and D/A conversion; sample and hold circuits; charge-coupled devices; opto-electronics; transducers; integrated circuit techniques.
High Frequency Systems. VHF/UHF/microwave systems; instrumentation and measurement techniques, transmission lines and distributed circuit elements; devices and components; antennas; propagation; noise and system dynamic range.

Microprocessors and Control. Proportional control using a microprocessor; sampling considerations; D/A and A/D conversion; stability considerations; integral control; the digital integrator; proportional and integral control; 3-term digital controller; computer control; z-transforms; discrete data systems; controller design for microprocessor systems.
Mathematics Topic B. A selection from the following topics: solution of ordinary differential equations including such standard forms as Bessel, Lagrange; solution of partial differential equations with various boundary conditions; complex variable theory; numerical solution of ordinary and partial differential equations; sparse matrix and applications; optimisation theory.

53.304 Special Topic in Electrical Engineering
[Three hours per week. Second half year]
An advanced course on a topic to be determined each year by the Head of the Department of Electrical and Electronic Engineering.

53.311 Applied Electricity
[Three lectures per week. Second half-year]
A course on electrical and electronic components and circuits leading to the study of industrial instrumentation, control systems and application of electrical energy.

53.312 Electrical Engineering for Civil Engineers
[Three lectures and one tutorial per week. Second half-year]
A descriptive introduction to electric power, generation, transmission and distribution systems. Three phase theory and practice. Elementary theory of the induction motor, its control, and practical applications in civil engineering systems. Electrical safety and regulations. Concepts of instrumentation in engineering; transducers, digital logic and systems; aspects of solid state devices, analogue computers and applications; microprocessors and microcomputers; control systems; telemetry in instrumentation.

53.321 Applied Network Synthesis
[36 lectures]
Passive Network Synthesis: introduction to the concept of positive realness of a network function, test of positive realness; Cauer synthesis, Foster synthesis: R1, LC, RC circuits; Darlington synthesis or RLC circuits; Transformless Darlington synthesis; Elementary introduction to passive multiport synthesis; Test of the positive realness of a multiport network function; Multiport Darlington synthesis via the Kalman-Yakubovich-Anderson lemma.

53.331 Semiconductors
[36 lectures]
Review of properties and conduction processes in semiconductor materials; the PN junction, diode DC and small — and large — signal models, diode charge control model, diode devices; transistors, principles and modelling of bi-polar and field effect devices for small — and large — signal operation, switching characteristics, switching models, power devices including thermal and second-breakdown characteristics; measurement of model parameters; special devices; noise models.

53.341 Advanced Power Systems
[Three hours per week. Second half year]

53.351 Advanced Communication
[Three hours per week. Second half year]

53.361 Electromagnetic Fields
[Three hours per week. Second half year]

53.371 Advanced Control Engineering
[Three hours per week. Second half year]

53.381 Computer Engineering
[Three hours per week. Second half-year]
Computer design: system configuration, computer instructions, timing and control, execution of instructions, design of registers, control. Microprogramming, control algorithm driven design, engineering considerations. Memory and storage: memory management, memory devices, mass-storage systems. Microcomputer system design: 8 bit, 16 bit devices. Bit slice system realisation: computer design using bit slice.
54.111 Engineering Mathematics I
[Two lectures and one tutorial per week]
Elementary transcendental functions of a real variable, with a brief introduction to complex arguments, representation in rectangular and polar co-ordinates, curve sketching.
Differential calculus of one variable, Leibniz theorem, mean values, Taylor's theorem, power series, limiting values, partial differentiation. Integral calculus of one variable, improper integrals. Ordinary differential equations, isoclines, first order homogeneous and linear kinds, second order constant coefficient, simultaneous equations. Linear algebra, solvability of sets of equations, matrix notations and operations, homogeneous equations, numerical methods of solution by elimination and iteration.
Statistical and probabilistic methods, sampling theory, estimation and confidence intervals, regression and correlation, experimental data analysis; all with Engineering applications.
Course in computer programming with exercises.

54.112 Engineering Mathematics II
[Two lectures in the first half-year, three in the second half-year and one tutorial per week]
As for 54.111 Engineering Mathematics I, plus:
Introductory Computer modelling.

54.211 Engineering Mathematics II
[Two lectures and one tutorial per week]
Ordinary Differential Equations: Laplace transforms; linear differential equations; application to vibrations, beams etc; simultaneous differential equations; numerical methods for ordinary differential equations.
Partial differential equations: Fourier series; separation of variables technique for partial differential equation; boundary value problems involving the diffusion, Laplace and wave equations. Computational Techniques: application of the following techniques to the solution of engineering problems: polynomial approximation; linear algebraic equations; numerical solution of transcendental equations; ordinary differential equations, integral equations. Engineering Statistics: probability distributions; change of variable; hypothesis testing; parameter estimation; correlation and regression.

54.212 Engineering Mathematics III
[Three lectures per week. First half-year]
Ordinary Differential Equations: Laplace transforms; linear differential equations; application to vibrations, beams etc; simultaneous differential equations; numerical methods for ordinary differential equations.
Partial differential equations: Fourier series; separation of variables technique for partial differential equation; boundary value problems involving the diffusion, Laplace and wave equations. Computational Techniques: application of the following techniques to the solution of engineering problems: polynomial approximation; linear algebraic equations; numerical solution of transcendental equations; ordinary differential equations, integral equations. Engineering Statistics: probability distributions; change of variable; hypothesis testing; parameter estimation; correlation and regression.

54.241 Continuum Mechanics I
[Two lectures in the first half-year, three in the second half-year, and one tutorial per week]
Vector and tensor analysis; analysis of stress and strain; constitutive relations and field equations; analytical and numerical solutions of problems in fluid mechanics and linear elasticity; finite difference and finite element methods. Open channel flow.

54.251 Operations Research I
[Two lectures and one tutorial per week]
Linear programming, simplex and revised simplex methods, duality and dual simplex, sensitivity and post-optimal analysis, modelling and applications. Digital computer simulation, Monte Carlo methods, statistical design and analysis of simulation experiments; introduction to queuing theory; applications of simulation especially to waiting-line problems.

54.291 Engineering Science Design
[One lecture and one two-hour drawing office class per week in the first half-year; three contact hours per week in second half-year]
Analysis of simple structures; design of steel beams, columns and trusses and reinforced concrete beams: effects of earthquakes.
Systems analysis and design concepts applied to the computer solution of engineering problems, particularly in continuum mechanics and operations research, including preparation of initial specifications, implementation of algorithms and presentation of results.

54.301 Special Topic in Engineering Science A
[Three lectures per week. First half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.302 Special Topic in Engineering Science B
[Three lectures per week. Second half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.
54.303 Project in Engineering Science
[Equivalent in weight to one elective subject. Normally done in the second half-year]
An investigation carried out under the supervision of a member of staff on a topic assigned by the Head of the Department of Theoretical and Applied Mechanics. A written report on the work must be submitted. No final examination. Grade assessed on the work done and the report.

54.312 Engineering Mathematics IIIS
[Three lectures per week]
A course in advanced engineering mathematics including such subjects as complex variable theory, variational calculus, integral transforms, selected topics on differential equations, computational techniques and statistics.

54.313 Engineering Analysis A
[Three lectures per week. First half-year]
An approved choice of three modules from a list prepared each year by the Head of the Department of Theoretical and Applied Mechanics. The list will include modules from the subject areas of Engineering Mathematics, Computational Techniques, Engineering Statistics, Mechanics and Operations Research.

54.314 Engineering Analysis B
[Three lectures per week. Second half-year]
An approved choice of three modules from a list prepared each year by the Head of the Department of Theoretical and Applied Mechanics. The list will include modules from the subject areas of Engineering Mathematics, Computational Techniques, Engineering Statistics, Mechanics and Operations Research.

54.341 Continuum Mechanics II
[Two hours per week]
(a) Mechanics of solids including such topics as elastostatics in two and three dimensions, elastodynamics, thermoeelasticity, principles of structural analysis, etc.
(b) Mechanics of fluids including such topics as potential flow, vorticity dynamics, boundary layer analysis and an introduction to compressible flow, turbulence, wave motion, and hydrodynamic stability.

54.343 Mechanics of Structures
[Three hours per week. Second half-year]
Such topics as the static, stability and dynamic analysis of framed structures, shells, membrane and cable structures.
Assignments will require a reasonable facility at computer programming.

54.351 Operations Research II
(Two lectures per week]
Introduction to deterministic and stochastic models in such areas as inventory control, reliability, decision processes, scheduling; integer programming, including cutting planes and branch and bound techniques; dynamic programming with applications; network analysis, transportation and flow problems. (Professional practice of OR, case studies, and computer packages with applications will be covered in Engineering Science Laboratory)

54.352 Stochastic Models in Operations Research
[Three hours per week. Second half-year]
The application of non-deterministic methods in Operations Research, including topics such as Markov processes, stochastic programming, time series analysis, forecasting.

54.361 Control Theory
[Three hours per week. Second half-year]
As for 53.371 Advanced Control Engineering.

55.101 Engineering Mechanics II
[Three lectures and one tutorial per week. First half-year]

55.102 Mechanical Engineering IE
[Three lectures and one tutorial per week. Second half-year]
Introduction to the fundamentals of thermodynamics, power cycles and heat transfer. Elementary stress analysis. Miscellaneous topics.

55.111 Thermodynamics and Fluid Mechanics I
[Three lectures and one tutorial per week]
Thermodynamic variables, thermostatic and hydrostatics. Integral equations of conservation of mass, momentum and energy, equations of state. Applications to turbomachinery, power and refrigeration cycles.

55.211 Thermodynamics and Fluid Mechanics II
[Two lectures and one tutorial per week]
Thermodynamic relations, dimensional analysis, advanced thermodynamic cycles. Integral equations of conservation of mass, momentum and energy, with application to energy conversion and heat transfer.
Compressible flow in pipes and nozzles. Mixtures and solutions, combustion. Laminar and turbulent flow, elements of external flows.

55.221 Theory of Machines
[Two lectures and one tutorial per week]
Machines: belts, clutches and other friction devices, gears and gearboxes, balancing.
Vibrations: undamped and damped single and multiple degree-of-freedom lumped-mass systems, simple distributed mass systems, phase-plane diagrams, viscous and Coulomb damping.
Control: concept of negative feed-back, block diagrams, transfer functions, elementary frequency-response analysis.

55.231 Industrial Administration
[Three lectures per week. Second half-year]
An introductory course for engineering students on the organisational, financial and human relations aspects of management theory and practice.

55.241 Mechanics of Materials I
[Two lectures and one tutorial per week]

55.261 Mechanical Engineering Design I
[Two lectures and one two-hour drawing office class per week]
The concept, design and specification of machines, mechanical plant and structures. Study of production processes such as sheet forming, bulk forming, metal cutting, welding, casting and moulding. Optimisation of production processes. Relationship of production and design.
No final examination: Grade assessed on course assignments.

55.301 Project in Mechanical Engineering
[About six scheduled hours per week. Equivalent in weight to two elective subjects]
A comprehensive investigation and report on a topic assigned by the Head of the Department of Mechanical Engineering.
No final examination: Grade assessed on project report and year’s work.

55.302 Engineering Case Studies
[Equivalent to one elective subject. Second half-year]
An investigation and report, or detailed design, on a selected topic in mechanical engineering. For example: (i) a design from initial feasibility study to prototype drawings; (ii) a critical appraisal of the performance, or failure, of some industrial plant, equivalent or scheme; (iii) a study of the technical and commercial viability of an engineering enterprise. Each study will be undertaken by a small group of students and will be supervised by a member of staff.
No final examination: Grade assessed on group performance and individual final report.

55.303 Special Topic in Mechanical Engineering
[Three lectures per week. Either first or second half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Mechanical Engineering.

55.311 Applied Fluid Mechanics
[Three lectures per week. First half-year]

55.312 Applied Aerodynamics
[Three lectures per week. Second half-year]

55.321 Control Engineering A
[Three lectures per week. First half-year]
Classical linear control theory as applied to mechanical and other relevant systems: an introduction to state-space methods and to digital control techniques.

55.323 Control Engineering B
[Three lectures per week, second half-year]
An introduction to modern control methods as applied to mechanical and other systems. Digital control algorithms and state-space techniques. Incorporation of microprocessors into mechanical systems.

55.322 Acoustics and Vibrations
[Three lectures per week. Second half-year]
The nature and effects of noise and vibrations. Vibrations of continuous systems, including plates and

55.331 Industrial Engineering  
[Three lectures per week. First half-year]  
An introduction to the problems associated with effective industrial management and the techniques used to solve them. The course considers both the human and technological aspects of productivity improvement procedures, applied to NZ Industry.

55.332 Manufacturing Systems  
[Three lectures per week. Second half-year]  
An introduction to current concepts in the design and operation of modern manufacturing systems. This includes the technological, economic and social aspects surrounding the use of computer integrated manufacturing and robotic systems.

55.333 Engineering Economics  
[Three lectures per week. Second half-year]  
A course intended to familiarize the student with the financial aspects of engineering management. Emphasis will be placed on topics such as alternative forms of costing, budgeting and profit planning, breakeven analysis, transfer pricing, replacement and maintenance policies, make or buy decisions and project cost estimation. Techniques of evaluating project and capital equipment expenditure, including consideration of the sociological and environmental factors, will be studied, for both private and public sector investments.

55.341 Mechanics of Materials IIA  
[Three lectures per week. First half-year]  
A senior course dealing with the mechanical behaviour and properties of materials, strongly biased towards mechanical engineering practice. Topics such as: strengthening mechanisms, elastic stress analysis, stress concentrations, plasticity, fracture, fracture toughness, residual stresses, creep, limit analysis, selection of engineering materials. Case studies.

55.342 Mechanics of Materials IIB  
[Three lectures per week. Second half-year]  
A senior course dealing with the mechanical behaviour and stress analysis of machine components and other mechanical engineering configurations. Topics such as: flat plates, pressure vessels, structural frames, thin-walled sections, thermal stresses, stress waves in solids, mechanical testing, failure analysis, case studies.

55.351 Thermal Engineering  
[Three lectures per week. First half-year]  
Energy resources: their use and consequent environmental impacts. Economics of energy conversion. Engine cycles, emissions. Heat and mass transfer and applications: heat exchanger and drier design.

55.352 Applied Thermodynamics  
[Three lectures per week. Second half-year]  

55.361 Mechanical Engineering Design II  
[Two lectures and one two-hour drawing office class per week]  
EITHER  
A. Plant and process design: Design of mechanical structures. Handling of unit loads and bulk materials. Building services and environmental equipment. Selected plant equipment, e.g. pressure vessels.  
AND Lectures on professional mechanical engineering practice.  
No final examination: Grade assessed on course assignments.

55.371 Production Technology  
[Three lectures per week. Second half-year]  

†† Not all electives will be available in a given year.

Practical Work
(1) By the end of the First Professional Year all students are required to have completed to the approval of the Faculty a course in Workshop Practice. Students who have attended similar courses elsewhere before enrolling at Auckland may apply to the Faculty for approval of such courses.
(2) Before graduation students shall obtain approved practical experience in workshops or in engineering works for a minimum period of 1200 hours. This is expected to be undertaken during the summer vacation. Overtime up to 10 hours per week on suitable work may be allowed.
At least 320 hours must be spent in general engineering workshops; this should be completed before entering the Second Professional Year. Mechanical engineering students may put in the whole of their practical time in engineering work-
shops, or may use some of this time in obtaining subprofessional experience, for example, in a drawing office. However, Mechanical students should bear in mind that the Institution of Mechanical Engineers requires a minimum of eighteen months of workshop experience before accepting an application for Corporate Membership.

Students in Chemical and Materials Engineering may put in up to 600 hours in general engineering workshops. They must put in not fewer than 600 hours in approved plants or laboratories operating in the chemical engineering or materials engineering field. The work in such plants or laboratories may be of a subprofessional nature, for example work as a technician in analytical or quality-control laboratories associated with a processing industry. Other students may carry out further work in engineering workshops or may obtain experience appropriate to their specialised fields. Some of the remaining time may be spent in gaining sub-professional experience such as surveying field work in the case of Civil Engineering students. Every student should normally have completed the first two periods of his practical work before completing the academic requirements of the degree.

(3) The approval of the Faculty of any proposed practical work must be obtained before its commencement. Students are advised to obtain as wide experience as possible in practical work and therefore approval will not normally be given for more than one period in a particular workshop or works.

(4) At the conclusion of each period of practical work each student must submit to Faculty: (a) a certificate signed by his employer showing the actual number of hours worked in ordinary time and also of overtime, and the type of work on which he has been engaged; (b) a full report by the student on the work done and the observations made. These reports will be graded and may be taken into account in recommending scholarships and other awards. Official certificates and instructions on the form of the report may be obtained from the School office.

The due date for handing in practical work reports shall be the July 31 immediately following the completion of the particular work period. If a report is not submitted by this date then that work period will not be recognised except under exceptional circumstances. For final reports submitted after March 1, it is unlikely that students will be able to graduate at the graduation ceremony of that year.

(5) A student who by virtue of exempting qualifications is admitted to an engineering course at a stage later than First Professional must fulfil the requirements of these regulations, with the exception that clause (1) relating to a course in Workshop Practice may be waived.

(6) Faculty may, however, approve work of an engineering nature carried out by a student before enrolling for Engineering. Faculty may also approve previous work, not exceeding 250 hours, of a general nature other than engineering. In all cases where approval is sought for work carried out before enrolling for an engineering course, a student must make application to Faculty in writing before 1 April of the year of the first enrolment in that course. Faculty may require certificates and a full report on such work before approval is considered.

Laboratory and Field Work
1. Laboratory work related to subjects of the First and Second Professional Years of the course is undertaken in integrated programmes designated First Professional Laboratories and Second Professional Laboratories.

2. In order to gain the formal recognition of having completed the laboratory work necessary for admission to the degree, a candidate shall attend the First Professional Laboratory and Second Professional Laboratory courses, carry out the experiments and submit reports, to a required standard.

3. Laboratory work related to subjects of the Third Professional year is an integral part of each subject. A candidate's satisfactory attendance and performance, including the submission of reports, forms a part of the requirement for a pass in each subject.

4. Candidates taking the subjects Surveying and Traffic and Highway Engineering shall, to a required standard, undertake Field Work, including the submission of reports.

††PRESCRIPTIONS FOR ME

51.700 Advanced Materials
An advanced course on selected topics in materials science or materials engineering.

51.710 Advanced Process Control

51.720 Chemical Engineering Seminar
A graduate course on a topic or topics from the advanced fields of fluid mechanics, transport phenomena, heat transfer, particulate technology, chemical reactors and fuel technology.

51.730 Materials Seminar
A graduate course on a topic or topics in the field of materials to be determined each year by the Head of the Department of Chemical and Materials Engineering.
51.740 Studies in Chemical Engineering
An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.750 Studies in Materials Engineering
An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.760 Biochemical Engineering Seminar
A graduate course on selected topics in biochemical engineering; biological reactors, fermentation, protein processing and enzymology.

51.770 Advanced Chemical Engineering
An advanced course on selected topics such as fluid flow, rheology, heat transfer, mass transfer, separation processes.

52.700 Earthquake Engineering

52.710 Fluid Mechanics Seminar
Special topics selected from fluid dynamics, water resources engineering, statistics and numerical methods.

52.720 Geomechanics Seminar
Advanced studies of recent developments in theoretical soil mechanics.

52.730 Mechanics and Properties of Materials Seminar
Special topics selected from recent developments in the mechanics and properties of selected materials used in civil engineering.

52.740 Public Health Engineering Seminar
Selected topics from water and wastewater engineering pollution control.

52.741 Project Management
Planning, organisation and control of large engineering projects.

52.742 Case Studies in Project Management
Analysis of the management of some large engineering projects currently in hand or recently completed.

52.750 Structural Dynamics

52.760 Structures Seminar
Selected topics from recent developments in structural analysis and design.

52.770 Transportation Engineering Seminar
Selected topics from recent developments in the planning and design of transport facilities and systems.

52.780 Transportation Planning

25.313 Environmental Law
See prescriptions for LL.B.

52.790 Transportation Systems Analysis
Selected analytical techniques taken from: probability and statistics, queuing theory, simulation, linear and dynamic programming, network flow and allocation algorithms, as applied to the planning and design of transport facilities. Characteristics of transport systems and urban structure. Economic evaluation of transport projects. Transport systems planning techniques applied to urban planning.

52.800 Special Seminar in Civil Engineering A
An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.801 Special Seminar in Civil Engineering B
An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.810 Structural Analysis
Analytical methods for some or all of the following structures: space frames and grids, shear wall systems, folded plant structures, bridge superstructures. Solution techniques will include approximate methods, matrix and computer methods. Optimisation techniques and computer-aided design may also be included.
52.820 Space Structures
Selected topics in the analysis of space structures such as cable structures, plate and shell structures. Special consideration for stability, elasticity and plasticity may also be included.

52.860 Advanced Fluid Mechanics
Selected topics from applied fluid mechanics and hydraulics.

52.870 Coastal Engineering
Waves, wave theories, wave forces on structures. Breakers, tsunamis, flow induced oscillations, resonance problems, tidal estuaries. Sediment transport by waves. Topics from coastal and harbour engineering.

52.880 Advanced Water Resources Engineering
Selected topics from hydrology and water resources engineering.

52.890 Applied Geomechanics
Application of the principles of soil mechanics, rock mechanics and engineering geology to practical problems in civil engineering.

52.900 Earth Structures
The stability, deformation, design and construction of earth structures.

52.910 Traffic Engineering
Design and capacity of highways and intersections, motorways and interchanges, weaving sections and rotaries. Traffic control and safety. Accident studies and analyses. Co-ordination of traffic signals and area traffic control. Travel and delay studies. Planning and design for pedestrian and vehicular traffic. Large-scale parking.

52.920 Structural Design
Design philosophies. Special considerations in steel, reinforced concrete, prestressed concrete and masonry structural design. The background to and the use of design codes.

53.710 Advanced Electrical Engineering
An advanced course on selected topics in Electrical Engineering.

53.721 Electromagnetic Theory
Selected topics in electromagnetic theory. The emphasis is on mathematical analysis.

53.730 Heavy Current Electronics
Selected topics in the utilisation of thyristor devices in industrial electrical engineering applications.

53.740 Microprocessors and Minicomputers
Review of computer basics including number representation, logical and arithmetic operations, A/D and D/A conversion, computer architecture. Programming systems for small computers, input-output, interrupts instruction sets. Applications in the fields of signal processing, communications, control, data logging.

53.750 Studies in Electrical Engineering
An advanced course on a topic to be determined each year by the Head of the Department of Electrical and Electronic Engineering.

53.760 Electronic Circuits and Systems
A graduate course covering state of the art topics in Advanced Electronics including: computer aided circuit analysis; non-linear circuit concepts; oscillators; mixers; power amplifiers; stability; noise.

53.770 Digital Signal Processing
Z-Transform, discrete Fourier Transform, Fast Fourier Transform, hardware implementation and noise analysis. Digital filters; design techniques, hardware implementation and noise analysis. Signal coding techniques, bandwidth compression, and transmission impairments, with emphasis placed on voice and picture transmission.

53.780 VHF and UHF Radio Communication
A course concerned with the planning and design of VHF and UHF Radio Communications Systems. Consideration will be given to analogue and digital systems, and both mobile and point-to-point services.

53.700 Advanced Control Systems
Theory of modern control systems with emphasis on optimization techniques for both deterministic and stochastic processes. State space modelling of dynamic systems and choice of suitable performance criteria. Examples of applications and discussion of computational problems.

54.700 Studies in Engineering Mathematics
A graduate course in Mathematics applied to Engineering problems on such topics as the theory of ordinary differential equations, partial differential equations, perturbation methods, advanced numerical analysis, etc.
54.710 Studies in Engineering Science
A graduate course on topics to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.720 Studies in Control Theory
A graduate course in modern Control Theory including such topics as optimal control stochastic and non-linear systems.

54.730 Studies in Continuum Mechanics A
54.740 Studies in Continuum Mechanics B
Graduate courses in Continuum Mechanics covering topics in the mechanics of solids and fluids and other continua.

54.750 Finite Element Methods
A graduate course on finite element formulations and applications to problems such as stress analysis, seepage, heat transfer and fluid flows.

54.760 Studies in Operations Research A
54.770 Studies in Operations Research B
Graduate courses in recent developments in Operations Research and applications.

54.780 Advanced Systems Analysis
A graduate course on a selection of topics from systems analysis and operations research. This subject cannot be credited if 54.23 or 54.45 have previously been credited towards a degree.

54.790 Random Processes
A graduate course in the theory and application of discrete and continuous random processes including topics such as queuing models, Markov processes, information theory, Monte Carlo simulation, turbulence and random vibration.

54.800 Geothermal Modelling
A study of methods currently used for modelling convective flows in geothermal systems.

554.810 Bio-engineering
Introduction to the application of engineering principles and methods to biological problems. Mechanical properties of living tissue: constitutive laws, structure/function relationships, myocardial and lung mechanics, haemodynamics. Biological control mechanisms. Electro-physiology. Instrumentation and measurement: principles and applications.

54.820 Nonlinear Optimisation
A study of theoretical conditions for optimality in nonlinear optimization and numerical methods for the solution of systems of nonlinear equations and constrained and unconstrained optimization problems including the nonlinear least squares problem.

55.700 Advanced Mechanical Engineering
A course of lectures and directed reading on particular topics in mechanical engineering allied to the thesis subjects of students taking the ME degree.

55.710 Advanced Applied Aerodynamics
Selected topics such as aerofoil theory, turbulence, boundary layers; aerodynamic machines, natural aerodynamics, industrial aerodynamics, gas dynamics. Experimental methods.

55.720 Advanced Mechanics of Materials
Study of selected topics in the nature, mechanical behaviour and properties of materials, with particular relevance to industrial production processes.

55.730 Advanced Production Technology
Selected topics from process metallurgy including casting, welding, metal forming and heat treatment; production specification, inspection and quality control; metal removal processes and optimisation; advanced machine and process control systems.

55.740 Productivity Management
The course will consist of two major sections. The first will alert the student to the human-relations requirements for an increase in industrial productivity. The second will be concerned with the techniques and the important peripheral matters necessary for planned productivity improvements.

55.750 Studies in Mechanical Engineering
A course of lectures and directed reading in a topic to be determined each year by the Head of the Department of Mechanical Engineering. 1983: To be announced

86.100 Geothermal Systems and Technology
86.103 Geothermal Production Technology
86.104 Geothermal Energy Utilisation
86.606 A project on some aspects of Geothermal Energy

50.700, 50.710, 50.720, 50.730 Project A, B, C, D
A candidate may take the equivalent of three single paper projects. For example, the candidate may take Projects A, B and C, or Project D and one of Projects A, B and C. The candidate is required to submit a report on each project carried out. These projects may include design studies, a survey and evaluation
of modern advances in a branch of engineering, a small experimental or theoretical research project, the development of a new design procedure, the development of a computer package.

†† Not all electives will be available in a given year.

Professional Institution Courses
Candidates for the examinations of the Council of Engineering Institutions may take Courses selected from the BE syllabus. Prospective candidates should consult the Dean of the Faculty before planning their Course.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF FINE ARTS

BFA OPTION I AND OPTION II

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Fine Arts shall
   (a) follow a course of study of not fewer than four years, taking either Option I or Option II prescribed in these regulations and
   (b) pass four Professional Examinations.
2. In these Regulations:
   'Papers' includes Studio I, Studio II, Studio III and Studio IV.
   'Prescribed or approved papers' in relation to any candidate means the following papers:
   Studio Theory: 27.201–27.208, 27.211–27.216, 27.301
   Any other paper (or the equivalent credits) (i) prescribed for the Degree of BA, BSc or any other Degree and
   (ii) approved by the Head of the Department of Fine Arts for the course of that candidate for this Degree and
   by the Head of the Department in which the paper is taken.
3. The subjects of Examination for the Degree shall be:

Option I
First Professional Examination 6 papers, consisting of:
(i) Studio I: 27.150 having the value of 4 papers, and
(ii) Art History I: 19.151, 19.152.
Second Professional Examination 9 papers, consisting of:
Either (a) (i) Studio II: 27.250 having the value of 6 papers and
   (ii) three prescribed or approved papers.
Or (b) (i) Studio II: 27.251 having the value of 7 papers and
   (ii) Two prescribed or approved papers.
Third Professional Examination 9 papers, consisting of:
Either (a) (i) Studio III: 27.350 having the value of 6 papers and
   (ii) Three prescribed or approved papers.
Or (b) (i) Studio III: 27.351 having the value of 7 papers and
   (ii) Two prescribed or approved papers.
Fourth Professional Examination 9 papers, consisting of:
Either (a) Studio IV: 27.450 having the value of 9 papers
Or (b) (i) Studio IV: 27.451 having the value of 7 papers and
   (ii) Two prescribed or approved papers.

Option II
First Professional Examination 6 papers, consisting of:
(i) Studio I: 27.151 having the value of 4 papers; and
(ii) Art History I: 19.151, 19.152.
Second Professional Examination 9 papers, consisting of:
Either (a) (i) Studio II: 27.252 having the value of 3 papers; and
   (ii) Six prescribed or approved papers.
Or (b) (i) Studio II: 27.253 having the value of 4 papers; and
   (ii) Five prescribed or approved papers.
Third Professional Examination 9 papers, consisting of:
Faculty of Fine Arts, Degree Regulations, MFA

Either (a) (i) Studio III: 27.352 having the value of 3 papers; and
(ii) Six prescribed or approved papers.
Or (b) (i) Studio III: 27.353 having the value of 4 papers; and
(ii) Five prescribed or approved papers.
Fourth Professional Examination 9 papers, consisting of:
(i) Studio IV: 27.452 having the value of 6 papers; and
(ii) Three prescribed or approved papers.

4. All students will be required to make a formal submission of work in Studio, or to fulfill the course work in any subject or tutorial as may be determined by the Faculty from time to time. A student who fails to comply with these requirements may be declined permission to sit the final examination.

Studio

5. In each Professional year work for Studio shall consist of:
(a) a formal submission of work at the conclusion of each study period;
and
(b) a final formal submission of work; which may include written examination papers, as required by the Dean of the Faculty.

6. A candidate shall be required to pass as a whole each Professional Examination consisting of more than one subject, so that his performance in all the papers of the Examination shall be considered; provided that
(a) a candidate who has failed to pass any such Examination as a whole may, at the discretion of the Senate, be credited with a paper or papers of that Examination, and permitted in a subsequent year to take the papers not so credited; and
(b) a candidate who does not pass the Second Professional Examination as a whole, but is credited with a paper or papers of that Examination may, if the Senate permits, take with the papers being re-presented for that Examination a paper or papers for the Third Professional Examination.

7. In respect of every prescribed or approved paper prescribed for a Degree other than this (that is, every paper-taken for this Degree other than Studio I, II, III and IV and the papers in Studio Theory) a candidate shall be required to comply with all regulations applicable thereto for the Degree of BA, BSc or other Degree (including all prerequisites, corequisites and restrictions).

Revocations

8.(1) The course of every candidate shall be governed by these Regulations.
(2) The Regulations governing the Degree of Bachelor of Fine Arts last published in the University of Auckland Calendar for 1974 are hereby revoked.
(3) The Regulations governing the Diploma in Fine Arts and the Diploma in Fine Arts (Honours) respectively, last published in the University of Auckland Calendar for 1974 are hereby revoked.

9. These regulations shall come into force on 1 January 1975.

THE DEGREE OF MASTER OF FINE ARTS

MFA

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Fine Arts shall
(a) before his enrolment for this Degree have been admitted or have qualified for admission to the Degree of Bachelor of Fine Arts, and
(b) have passed with a Grade higher than C+ in Studio IV in his Bachelor of Fine Arts course provided that in special circumstances where the Head of Department so recommends the Senate may accept a C+ pass, and
(c) follow a Course of study of not less than two years, taking either of the Options prescribed under these Regulations.
2. In these Regulations:
'prescribed or approved papers' in relation to any candidate means the following papers:
Faculty of Fine Arts, Degree Regulations, MFA

Studio Theory
Any paper other than a paper in Art History, prescribed for any Degree other than this Degree and approved by the Head of the Department of Fine Arts for the Course of that candidate and by the Head of the Department in which the paper is taken.

Course Content
3. The subjects of examination for the Degree shall be:

Option I
First Year; Part I: Advanced Studio V Practice and Theory 27.550 having the value of four papers.
Second Year; Part II: Studio VI 27.650 having the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.

Option II
First Year; Part I:
(a) Art History IV: Two papers approved by the Head of the Department of Fine Arts being either two papers chosen from 19.400–19.409, or one paper chosen from 19.400–19.409 and one of the papers prescribed for Art History III not already credited to the Degree of Bachelor of Fine Arts; provided that papers 19.305 and 19.401 may not both be taken for this Degree
or
(b) Any two prescribed or approved papers not already credited to the Degree of Bachelor of Fine Arts.
First Year; Part II: Studio V 27.551 which shall have the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.
Second Year; Part III: One of the following which shall have the value of three papers:
(a) Thesis 19.601 on a special topic of Art History approved by the Head of the Department of Art History, or
(b) Thesis 27.601 on a special topic related to the candidate's programme of work for Studio V and approved by the Head of the Department of Fine Arts.

4.(1) No candidate taking Option I shall take Studio VI without having first passed in Studio V unless the Head of the Department permits the work for Studio V to be examined with the work for Studio VI in the second year of the course.
(2) A candidate taking Option II shall not take Art History IV unless he has either passed 2 papers in Art History including three Stage III papers or complied with such prerequisites as the Head of the Department of Fine Arts may otherwise prescribe for him.
(3) In respect of any prescribed or approved paper taken in Option II and prescribed for a Degree other than this, a candidate shall be required to comply with all Regulations applicable thereto for that other Degree (including all prerequisites, corequisites and restrictions).

Savings and Transitional Provisions
5.(1) Except as otherwise provided in this Regulation, the course of every candidate shall be governed by these Regulations.
(2) The Regulations governing the Degree of Master of Fine Arts which were last published in the University of Auckland Calendar for 1974 (in this Regulation called “the old Regulations”) are hereby revoked.
(3) A candidate who began the course for the Degree of Master of Fine Arts in 1974 shall be entitled to the following credits:
(a) If he passed Art History IV and Studio IV under the old Regulations and chooses Option I, he shall be credited with Studio V and one prescribed or approved paper.
(b) If he passed Art History IV under the old Regulations and chooses Option II, he shall be credited with Art History IV.

Honours
6(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions: First Division and Second Division.
(b) Honours shall not be awarded if the papers in the first year in which a candidate is examined in Art History
for this Degree are unsatisfactory or if either the work in Studio V, VI, or the thesis at its first presentation is unsatisfactory: provided that, subject to the provisions of paragraph (c) of this Regulation, a candidate whose performance at the written examination has been seriously impaired by illness (certified as under the aegrotat Regulations) may elect, instead of applying for an aegrotat award, to present himself at a subsequent written examination and still be eligible for the award of Honours.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of passing the final subject of his Bachelor's Degree; provided that this period may in special cases be extended by the Senate.

7. These Regulations shall come into force on 1 January 1976.
DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ART HISTORY

Art History I
(Two papers).
19.151 Renaissance Art to c.1520
19.152 Western Art from c.1840 to the present day.

Art History II
(Three papers).
19.259 Topics in 18th and early 19th Century Art.
Prerequisites: 19.151, 19.152.
19.260 Topics in Baroque Art
19.261 Topics in 17th and Early 18th Century Art in Northern Europe.

Art History III
(Three papers).
19.301 Special Topic in Medieval Art
To be prescribed by the Head of Department.
19.302 Mid-19th Century Painting in France and Britain
19.304 Durer and his Sources and Influence
19.305 New Zealand Art (General)
19.306 Special Topic in Western Art after 1500
19.307 Art in the USA, 1945 to the present day
19.308 Topics in early 20th Century Art
19.309 Women in Art
*19.310 Topics in 17th Century Graphic Art
Prerequisites: Two of 19.251-19.253, or two of 19.257-19.261

Art History for MFA
†19.400 Topics in 17th Century Drawing
19.401 Topics in Australian and New Zealand Art (advanced)
19.402 Special Topic in Western Art before 1600
To be prescribed by the Head of Department.
*19.403 Watteau and his Sources and Influence
19.404 Film Studies
†19.405 Nicolas Poussin and 17th Century Classicism.

Note: A candidate who has been credited with a pass in 19.303 may not take this paper.

19.406 Art Historiography
*19.407 A Topic in Medieval Art
19.408 A Topic in 19th Century Art
19.409 Topics in The Theory of Modern Art

ELAM SCHOOL OF FINE ARTS

As a University Centennial gesture, the name of the School this year reverts to Elam School of Fine Arts, acknowledging John Edward Elam who, when he died in 1888, bequeathed funds to establish an art school in Auckland. Elam School of Art & Design opened in 1890 in rooms at the Auckland Art Gallery, with E. W. Payton its first Director. The School quickly became an important influence on the artistic life of the city, becoming registered in 1900 and adding evening classes in 1902. A new building in Rutland Street provided space for the growing School from 1914, and in 1925, A. J. C. Fisher was appointed Director, remaining in that post until his death in 1959. During the mid-30s the School moved to more spacious accommodation in the Old Grammar School in Symonds Street, using the Old Newton West Primary School after the January 1949 fire. In 1950, the school became part of Auckland University College, and began offering Diploma courses. The First Chair of Fine Arts was established in 1961 and Professor Paul J. Beadle was appointed. In 1962, the School moved to its present building in Whitaker Place. Degree courses began in 1967, and in 1968 a separate Department of Art History was established. Professor Jolyon D. Saunders became Head of the Faculty of Fine Arts in 1977 when Professor Beadle assumed the first Personal Chair in Fine Arts.
Exhibitions and displays planned as part of the University Centenary this year, will act as fore-runners of the Elam School of Fine Arts Centenary to be held in 1990.

### Studio Theory

27.201 Art Criticism

27.202 Comparative Studies

A reading/seminar programme concerned with ideas, philosophy and attitudes.

†27.203 Design Methodology

The study of methods used in the collection and collation of information, the recognition, analysis and description of complex problems, and the generation and presentation of solutions.

†27.204 Two-Dimensional Development

The evolution and communication of ideas and information through drawings and diagrams based on formal conventions.

**Topics from the development of photography**

†27.205 Up to Alfred Stieglitz in Berlin, i.e. 19th century

†27.206 From Alfred Stieglitz in America, i.e. 20th century

27.212 Intermedia Studies

27.215 Theory and Practice of Painting

27.216 Workshop Practice

**Special Topics in painting, sculpture or design approved by the Head of the Department.**

For Studio III and IV students only. A programme based on discussions of art-works displayed by students at seminar meetings with written comments or reviews of the works.

27.207 Special Topic

27.208 Special Topic

†27.211 Special Topic

†27.213 Special Topic

†27.214 Special Topic

†27.301 Professional Practice for Designers

Business methods and procedures commonly used by professional designers; Topics may include:

(a) Preparation of a portfolio; (b) What to expect after graduation; (c) Correspondence; (d) Reports and report writing; (e) Fee structure; (f) Estimating fees, fee letters and contracts; (g) Business structure; (h) Setting up an office; (i) Running an office; (j) Budgeting (overheads etc.); (k) Securing work and clients; (l) Accountants and taxation; (m) Design and the Law; (n) Ethics; (o) Design organisations; (p) Special topics related to the individual student’s requirements.

### Studio for BFA

**Studio I**

**Option I 27.150 and Option II 27.151**

Exploration of those disciplines which are fundamental to the development of the artist and designer.

Basic elements of two and three-dimensional design (space, shape, line, rhythm, texture) and the varied properties and qualities of colour and light. The creative potential and characteristic limitations of various media such as wood, stone, plastic, metal, glass and pigment. Methods of techniques such as welding, casting, print-making, painting, and photographic media. Observation and analysis of the structure of the natural world and human environment. Drawing as an expressive means of communication, and as a vital stimulus to personal development.

**Studio II**

**Option I 27.250, 27.251 and Option II 27.252, 27.253**

Individually planned programme as approved by the Dean of the Faculty of Fine Arts, with content related to the student’s requirements, for example, drawing and one or more of the following: painting, sculpture and design. Advanced experimentation in techniques and materials.

**Studio III**

**Option I 27.350, 27.351 and Option II 27.352, 27.353**

Development of Studio II in selected fields.

**Studio IV**

**Option I 27.450, 27.451 and Option II 27.452**

Development of Studio III in selected fields.

### Studio for MFA

**Studio V**

**Option I 27.550 and Option II 27.551**

The candidate’s programme shall be a practical performance in some aspect of the fine arts. The proposed programme shall be submitted for approval to the Dean of the Faculty of Fine Arts by 31 March.

**Studio VI**

**Option I 27.650**

The work in Studio VI may be in an aspect of the fine arts other than that approved for Studio V. The proposed programme shall be submitted for approval to the Dean of the Faculty of Fine Arts by 31 March.

**Thesis for MFA**

**Option II Either**

19.601

A thesis on a topic in Art History, to be approved by
the Head of the Department of Art History. The thesis must be submitted to the Registrar by 1 November or 27.601

A thesis shall embody the results obtained by the candidate of an original investigation or advanced study relative to the candidate's programme in Studio V. The proposed topic shall be submitted for approval to the Dean of the Faculty of Fine Arts by 31 March.

The medical Course in the University of Auckland is of six years' duration. The degree of Bachelor of Human Biology (BHB) is awarded upon satisfactory completion of the first three years. Ultimately the course leads to the degrees of Bachelor of Medicine and Bachelor of Surgery (MBChB).

**Bachelor of Human Biology**

Although subjects for the early years of the course are taught in association with departments of the Faculty of Science the Curriculum has been drawn up as a fully integrated medical Course. During the first year such aspects of Biology, Chemistry and Physics as provide the necessary language and concepts for the understanding of the Medical Sciences are studied. The Behavioural Sciences and Biochemistry are introduced and opportunities provided for hospital visits and attendance at case presentations and lectures on selected medical topics. During the second and third years the Course presents a detailed analysis of the normal structure and function of man together with an introduction into the ways in which the intrinsic biological mechanisms are disturbed in disease and may be modified by drugs or poisons. The course during these two years is presented by the Departments of Anatomy, Pharmacology, Physiology, Biochemistry, Pathology, and Psychology, with assistance from the Clinical Departments. It is over this period that the medical students pursue a child study by following the progress and growth of a new born infant.

Fundamental biochemical and physiological mechanisms — largely expressed at cellular levels — and their structural bases are considered first, followed by a study of the principal organ systems which ensure the continuance of these functions. The study of the locomotor and nervous systems, of the complex control of body activity, metabolism and nutrition, of reproduction and growth, and of fundamental aspects of Pathology and Pharmacology form further major units of the course.

Admission to the first year of the course is restricted to those students who intend to complete the six year Course for entry into the medical profession.

**Bachelor of Medicine and Bachelor of Surgery**

The clinical triennium follows qualification for the award of the Degree of Bachelor of Human Biology. The Auckland Hospital Board has made available for teaching purposes all hospitals under its control; at present instruction has been arranged at the four major hospitals — Auckland Hospital, Green Lane, Middlemore and National Women's. The Waikato Hospital Board also provides teaching facilities at Waikato Hospital for students.

Subjects to be studied include Medicine, Surgery, Obstetrics and Gynaecology, Paediatrics, Pathology, Psychiatry, Clinical Pharmacology and Community Health together with their main sub-specialities. During their final year Trainee Interns will be expected to undertake some supervised responsibility for the care of patients.

An introductory course of five weeks duration acquaints the students with the art and techniques of interrogating and examining patients. This is followed by a period of study in the hospital wards and outpatients clinics during which the student is given the opportunity to witness the forms in which disease may present itself, and to study the management of disease processes within the general and special fields of modern medicine. Emphasis is placed upon topic teaching by which a particular disease or injury is studied at the one time in all its aspects — medical, surgical, pathological, social, etc.

During the Clinical Course students will spend a proportion of their time in elective studies, that is pursuing in depth, subjects of particular interest to them. They will also serve a period in general practice under the direction of family doctors.

**Masters Degrees**

All departments undertake graduate teaching in Medicine and one year Masters courses are available.

**Master of Human Biology (MHB)**

is undertaken after completion of the BHB and is available in the basic medical science departments. It corresponds to the degree of BMedSc in some Commonwealth Universities.

**Master of Medical Science (MMedSc)**

is a one-year Masters degree that may be taken in clinical subjects after completion of the second year of the MBChB.

Both these are supervised research degrees embodying both papers and a thesis.

**Doctoral Degrees. Doctor of Philosophy (PhD)**

All departments undertake graduate teaching for the research Degree of Doctor of Philosophy (PhD) in accordance with the regulations of the University.
Doctor of Medicine (MD)
is offered as a non-supervised research degree by thesis alone and this may not be submitted until five years after graduation MBChB. This degree is usually based on clinical research work which may be undertaken outside the University. It is normally available to graduates of the University of Auckland and, under the Ad Eundem Admission Regulations to graduates of other medical schools who are working as members of the University of Auckland teaching staff. Candidates do not enrol in the normal fashion but at an appropriate stage in their research seek the recommendation of the Faculty to enrol for the degree. Faculty’s recommendation is then based on a preliminary review of the topic, the methods involved in the investigation and the contribution of this work to medical knowledge. The permission to submit the thesis may be obtained after the work is completed or before it is undertaken but there is a five year upper limitation of time between permission to submit and the actual submission of the thesis.

Diplomas
In addition diploma courses are offered in the Postgraduate School of Obstetrics and Gynaecology and by the department of Paediatrics. All clinical departments are associated with the basic and advanced vocational training for the examinations and diplomas offered by the various colleges.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF HUMAN BIOLOGY

BHB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Except as provided in the Admission Ad Eundem Statum Regulations a candidate for the degree of Bachelor of Human Biology shall follow a Course of study of not fewer than three years.

Admission
2. (a) Admission to the Course of study in Human Biology shall be at the discretion of the Senate. Application for admission to the Course shall be made to the Registrar in writing before 1 October or such other date as the Senate may determine, of the year preceding that in which the applicant proposes to enrol.
(b) Admission to Part I of the Course of study shall be granted or withheld upon a consideration of the past performance of the applicant at school and in public examinations, and upon an interview where this is required.
(c) In such exceptional circumstances as the Senate may approve or under the Admission Ad Eundem Statum Regulations, admission may be granted to an applicant to Part II or Part III.

Course Content
3. The Course of study shall consist of three Parts. A candidate shall be required to pass as a whole each Part of the Course of study: provided that a candidate, who re-enrols for a Part of the Course of study having failed to pass it as a whole at the first attempt, may be allowed to carry out, to the satisfaction of the Heads of Departments concerned, alternative work in lieu of the work in that Part where his previous performance was satisfactory.* For the purpose of assessing the grade of this candidate as a whole for a Part of the Course of study the Senate may approve that the satisfactory pass grade in that previous work be carried forward.
*Normally a B-grade or better.
4. Except as provided in Regulation 2 (c) hereof no candidate shall be permitted to enrol in Part II of the Course until he has passed Part I, or in Part III until he has passed Part II.
5. A candidate shall carry out to the satisfaction of the Senate such practical written and tutorial work in each Part of the Course of study as may be required.
6. The papers prescribed for examination for the Course of study in Human Biology are:

Part I
Biology 60.100, 60.101, 60.102
Physico-Chemistry 60.103, 60.104, 60.105
Behavioural Science I 60.108

Part II
Anatomy 60.205
Biochemistry 60.206
Physiology (Medical) II 60.207
Behavioural Science II 60.208

Part III
General Pathology 60.301
Neurolocomotor Systems 60.302, 60.303
Human Reproduction and Development 60.304
Physiology (Medical) III 60.305
Pharmacology 60.306
Behavioural Science III 60.308

7.(a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.
(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

8. These Regulations shall come into force on 1 January 1979.

THE DEGREE OF BACHELOR OF MEDICINE AND BACHELOR OF SURGERY

MBChB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Medicine and Bachelor of Surgery shall before enrolment have qualified for admission to the Degree of Bachelor of Human Biology not more than one academic year previously, except where the Senate otherwise permits.

2. (a) Each candidate shall follow a Course of study of not fewer than three years.
(b) No candidate shall be permitted to proceed to his second year of study until he has completed, to the satisfaction of the Senate, the work prescribed for his first year.
(c) Each candidate shall follow his course of study for Year I and Year II continuously and where he fails to do so he may return to his course of study only with the approval of the Senate, and on such conditions as the Senate may determine.
(d) No candidate shall be permitted to proceed to Year III until he has passed Years I and II as a whole.

Practical Work

3. A candidate shall carry out to the satisfaction of the Senate, such practical and clinical work in each year of the course as may be required.

Course Content

4. The Course shall consist of:

Year I (Year IV of the medical course)
Year Code: 90.100
(a) Lectures, laboratory work and instruction in the clinical skills of medicine, including methods of interviewing and examining the patient, Clinical Pharmacology, Community Health, Pathology.
(b) Lectures, laboratory work and clinical instruction in systematic medicine with instruction in diagnosis and management of patients in the hospital and the community. The study of man in his environment.
A candidate will be required to undertake a four week clerkship in July/August, in either Medicine or Surgery. A further clerkship of four weeks shall be taken either in November or in the following February in another clinical discipline.

Year II (Year V of the medical course)
Year Code: 90.200
Lectures, laboratory work and clinical instruction continue in systematic medicine, with increasing emphasis on clinical work in the specialties of Obstetrics and Gynaecology, Paediatrics, Psychiatry, together with practical experience in Community Health and courses in environmental health and forensic pathology.
At the conclusion of Year II there will be a composite examination of four written papers and four oral and/or clinical examinations.

Year III (Year VI of the medical course)
Year Code: 90.300
Clinical work as a trainee intern and with responsibility for patients over three successive periods of three months each together with a further three month elective period.
5. (a) A candidate shall be deemed to pass Years I and II of the course when the Senate so resolves after consideration of a report from the Faculty of Medicine and Human Biology, as to the candidate's performance and results in his work for those Years.
(b) A candidate shall be deemed to have completed Year III successfully if he obtains passing assessments from each of the periods of that academic Year. The candidate shall not be deemed to be qualified for admission to the Degree except upon a favourable recommendation of the Senate based on those assessments and on a general report by the Faculty of Medicine and Human Biology of the candidate’s general performance throughout the course.

THE DEGREE OF MASTER OF HUMAN BIOLOGY

MHB

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department and obtain his approval before attending to enrol. This consultation should normally take place prior to 1 December preceding the year of intended enrolment.

General Provisions
1. Subject to the Admission Ad Eundem Statum regulations, a candidate for the Degree of Master of Human Biology shall before his enrolment for this degree have been admitted or qualified for admission to the Degree of Bachelor of Human Biology.

Course Content
2. Every candidate for the degree shall
   (a) pass the examinations, and
   (b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:
       65.405, 65.406 Anatomy (two papers and a thesis 65.601)
       63.403, 63.404 Behavioural Science (two papers and a thesis 63.601)
       66.405, 66.406 Biochemistry (two papers and a thesis 66.611)
       68.403, 68.404 Pathology (two papers and a thesis 68.601)
       67.405, 67.406 Physiology (two papers and a thesis 67.601)
       96.400, 96.401 Pharmacology (two papers and a thesis 96.601)

Thesis
3. The following conditions shall apply to the thesis:
   (a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of Department.
   (b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
   (c) In the case of a thesis recording laboratory work, the Supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this regulation. Laboratory work for the degree in Biochemistry shall be conducted in the Department of Biochemistry.
   (d) A candidate shall submit his thesis to the Registrar by 1 November in the year in which he first enrols for the degree or at such later date in that or the next year as may be arranged by the Head of Department in consultation with the Supervisor. An extension of time beyond two years from the date of first enrolment for the degree may in exceptional circumstances be approved by the Senate.
   (e) If the Supervisor, after consultation with the Head of Department and with the consent of the Assessor, so recommends, a thesis which is not considered satisfactory will be returned to the candidate, who may be permitted to revise and resubmit the thesis at a later date to be specified by the Head of Department after consultation with the Supervisor.

Note: An abstract is to be submitted with each copy of the thesis; see Examination Regulation 14.

Honours
4.(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in which a candidate takes an examination for the degree are unsatisfactory; provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he shall still be eligible for the award of Honours subject to the provisions of sub-clause (c) of this regulation.

(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within two years of his first enrolment for this degree provided that this period may be extended, in exceptional cases, by the Senate.

5. These regulations shall come into force on 1 January 1977.

THE DEGREE OF MASTER OF MEDICAL SCIENCE

MMEdSc

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department and obtain his approval before attending to enrol. This consultation should normally take place prior to 1 December preceding the year of intended enrolment.

General Provisions

1. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Master of Medical Science shall
   (a) before his enrolment for this Degree have passed year II of the course prescribed for the degree of Bachelor of Medicine and Bachelor of Surgery; and
   (b) follow a Course of study of not less than one year.

2. A candidate who is not devoting his full time to University study shall if the Senate so requires follow a two-year course of part-time study of such content as the Senate may prescribe.

Course Content

3. Every candidate for the Degree shall
   (a) pass the examinations, and
   (b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:
      96.402, 96.403 Clinical Pharmacology (Two papers and a thesis 96.611)
      91.400, 91.401 Community Health (Two papers and a thesis 91.601)
      92.400, 92.401 Medicine (Two papers and a thesis 92.601)
      47.400, 47.401 Obstetrics and Gynaecology (Two papers and a thesis 47.601)
      93.400, 93.401 Paediatrics (Two papers and a thesis 93.601)
      68.405, 68.406 Pathology (Two papers and a thesis 68.611)
      94.400, 94.401 Psychiatry (Two papers and a thesis 94.601)
      95.400, 95.401 Surgery (Two papers and a thesis 95.601)
      90.400, 90.401 A Medical subject approved by the Senate on the recommendation of the Faculty of Medicine and Human Biology (Two papers and a thesis 90.601)

Thesis

4. The following conditions shall apply to the thesis:
   (a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.
   (b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
   (c) In the case of a thesis recording laboratory work, a supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this Regulation.
   (d) A candidate shall present his thesis in the same year as that in which he first takes his examination (if any) or with the consent of the Head of the Department and subject to paragraph (g) of this Regulation, in any subsequent year.
386  Faculty of Medicine & Human Biology, Degree Regulations, MD

(e) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or at such later date as may be arranged with the Head of the Department.

(f) If the supervisor with the consent of the Assessor so recommends a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.

(g) No thesis shall be presented later than the third year after that in which the candidate first takes his examination for this Degree provided that this period may in special cases be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis; see Examination Regulation 14.

5. A candidate shall not enrol for a subject which he has already passed for the Degree of Master of Science.

6. These Regulations shall come into force on 1 January 1972.

THE DEGREE OF DOCTOR OF MEDICINE

MD

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations.

General Provisions

1. Except as provided in the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Doctor of Medicine shall hold the degree of Bachelor of Medicine and Bachelor of Surgery of the University of Auckland.

2. A candidate shall be required to present a thesis in any branch of medicine or medical science. The thesis shall be specially written for the purposes and shall embody a critical account of original studies carried out by the candidate which may include previously published work.

3. No candidate shall submit a thesis for this Degree until at least five years after graduation to the degree of Bachelor of Medicine and Bachelor of Surgery.

Application to be Examined

4. A candidate shall make application in writing to be examined. The application shall be lodged with the Registrar. It shall state the title of the thesis to be examined and be accompanied by an outline of the proposed or actual scope of the work and the methods involved.

5. As soon as reasonably possible, the Faculty of Medicine and Human Biology shall examine the application and shall make its recommendation thereon to the Senate. The Senate shall then determine whether or not the application and the title and outline of the thesis should be approved.

Submission of the Thesis

6. The candidate shall (subject to Regulation 3) be required to submit the thesis by lodging three copies of it with the Registrar within five years of the date on which the Senate approves the title and outline of the thesis (or within such further time as the Senate may permit).

7. The thesis shall be accompanied by a Statutory Declaration which shall:

(i) state the extent to which the thesis is based on the candidate's own work and identify as clearly as possible any parts which are not so based;

(ii) state what portion (if any) of the thesis submitted has been previously presented for a degree or diploma; and

(iii) declare that the thesis in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination of the Thesis

8. On receipt of the thesis, the Senate, on the recommendation of the Faculty of Medicine and Human Biology, shall appoint two External Examiners (of whom at least one is resident outside New Zealand) and one Examiner who is a member of the teaching staff of the University of Auckland.

9. The duties of each Examiner shall be:

(i) to report independently on the quality of the thesis and its value as a significant contribution to learning, and
(ii) to recommend whether or not the Degree should be awarded. Where the recommendation is that the Degree should not be awarded the Examiner may recommend that the candidate be permitted to resubmit the thesis at a later date.

10. The candidate may be required to take an oral or a written examination, or both, in the field of knowledge in which the thesis lies.

11. The reports of the Examiners shall be placed before the Senate which shall determine whether or not the Degree should be awarded.
DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BHB

Course of Study in Human Biology —
Part I
Departments of Anatomy, Biochemistry, Botany, Cell Biology, Chemistry, Physics, Physiology, Psychology, Zoology.

Biology
(Three papers and practical work)
60.100, 60.101, 60.102
Cells, structure and physiology; elementary biochemistry; form and function of animals and plants; the history of the vertebrates; genetics; evolution; principles of ecology and behaviour; biological mathematics.

Physico-Chemistry
60.103, 60.104, 60.105
A study of the structure and properties of matter covering the following areas:
Organic and Biochemistry (nomenclature, structure and isomerism, functional group reactivity, fats, carbohydrates, proteins, enzymes, intermediary metabolism).
Analytical and Physical Chemistry (spectrophotometry, spectrometry, chromatography, radiochemistry, solution chemistry, reaction kinetics).
Physics (mechanics, thermodynamics, fluids, surfaces, solids, electromagnetism, oscillations and waves, light and sound, modern physics).
Computing (microcomputer operation, BASIC, project work involving the analysis of medical records).

Behavioural Science I
(One paper and practical work).
60.108
An introduction to the scientific study of behaviour. The course includes a treatment of the topics of learning, motivation, emotion, sensory and perceptual processes, verbal behaviour, and cognitive functions. An introduction to experimental methods and statistics. An introduction to medical sociology.

Course of Study in Human Biology —
Part II
Departments of Anatomy, Biochemistry, Physiology, Psychology.

Anatomy
(1 paper and coursework)
60.205
The study of the microscopic and gross anatomy of the trunk and its organ systems.

Biochemistry
(2 papers and coursework)
60.206
Extension of subject matter taught in Part I and the biochemistry of major topics with particular reference to those relevant to medicine. This paper includes a section dealing with fundamental concepts in microbiology and cellular immunology.

Physiology (Medical) II
(2 papers and coursework)
60.207
The study of circulatory, respiratory, alimentary and renal function and associated topics.

Behavioural Science II
(One paper and practical work)
60.208
The study of development from conception through infancy, childhood, adolescence, youth, the working years, to old age. Adjustment to stresses, resources available to individuals and to the community. Communication and interpersonal processes. Topics in medical sociology. Brain and behaviour.

Course of Study in Human Biology —
Part III
Departments of Anatomy, Biochemistry, Pathology, Physiology, Psychology, Pharmacology/Clinical Pharmacology.

General Pathology
(One paper and practical work)
60.301
A study of the principles of Pathology.

Neurolocomotor System
(Two papers and practical work)
60.302, 60.303
A study of the limbs and back and of the nervous system including the special senses.

Human Reproduction and Development
(One paper and practical work)
60.304
A study of the biology of human reproduction and sexuality; aspects of human genetics, foetal development, growth and ageing; biochemical aspects of endocrinology and nutrition.

Physiology (Medical) III
(One paper and practical work)
60.305
A study of the integrated physiology of human organs systems including their control, the correction of disturbance.
Pharmacology
(One paper and course work)
60.306
This course covers the absorption, distribution and fate of administered drugs; drug toxicity and abuse; the evaluation of new drugs; and the mechanisms of action of drugs that affect the various homeostatic control systems of the body.

Behavioural Science III
(One paper and practical work)
60.308
Course work assessment is included and a pass in both written examinations and in course work is necessary.

PRESCRIPTIONS FOR MBChB
The duration of the course will be three years.

First year of course for MBChB
(Fourth year of the Medical Course)
Clinical Methods
An introduction to clinical medicine is provided during the first section of the first term. Methods of history taking and physical examination are demonstrated and practised by students. Students are also introduced to the principles underlying application of laboratory techniques and organ imaging to solving of patients' problems. The disciplines of medicine, surgery, paediatrics, psychiatry, obstetrics and gynaecology, pathology and radiology (organ imaging) contribute to the course. Lectures, symposia, case demonstrations, tutorial teaching, and bedside instruction, all play a part in this section of the course.

Systems of Medicine
During the remainder of the first year, a combined course, the Systems of Medicine, will cover the wide range of human disease arranged on a System basis. The natural history, pathology, disordered physiology, methods of diagnosis and treatment of common diseases will be covered. Each discipline of medicine will contribute to the teaching. The principles of clinical pharmacology and therapeutics will be taught together with the Systems of Medicine course.

Clinical Clerkship
In addition to the theoretical teaching, practical clinical experience will be gained in physical examination as it relates to gynaecology and obstetrics, medicine, paediatrics, psychiatry and surgery. Instruction will take the form of supervised history taking and examination with bedside demonstration, combined with tutorials.

Second year of the Course for MBChB
(Fifth year of the Medical Course)
The combined topic teaching of the Systems of Medicine and Community Health will be completed. The class will be divided in halves, one majoring in Medicine and Surgery and completing topic (organ systems) teaching; the other in Psychiatry, Paediatrics and Obstetrics and Gynaecology. These allocations will change at mid-year.

A number of topics not included within the Systems of Medicine teaching will be covered in whole and half-class sessions. These include Medico-legal aspects of practice, a short course in ethics and the humanities, management of patients with malignant disease, head injuries, alcoholism and aspects of rehabilitation medicine.

At the conclusion of the year, there will be a composite examination consisting of four written papers and oral and/or clinical examinations.

Third year of the Course for MBChB
(Sixth year of the Medical Course)
This is a trainee intern year of 52 weeks divided into four quarters of 12 weeks each and 4 weeks holiday. One of these quarters will be an "Elective" period when the student may take optional training in special disciplines of medicine. A list of approved electives will be provided from which to choose.

The remaining 36 weeks will be spent participating, under supervision, in the responsible care of sick people in hospital and in the home. Assessment, including clinical and oral examinations where appropriate, of the student's progress will be made at the end of each assignment.

A salary will be paid to the trainee intern by the Hospital Board.

Experience in General Practice
The student is attached to an approved teaching practice for four weeks, during which time he sees patients and discusses their management with the general practitioner, attends house visits with him and takes part in a weekly seminar conducted by a general practice member of the Department of Community Health.

Community Health
The Community Medicine Course covers selected topics in preventive medicine, health education, epidemiology and occupational health. The object is to emphasise the importance of prevention, and to give the student an understanding of the health service and how the various arms of the service, both hospital and community based, interact with the population. In Year 2 students undertake an investigation of some
aspects of community medicine which entails practical experience in dealing with health problems. Concurrently with the Community Medicine course there are a series of seminars and visits concerning Primary Health Care and General Practice.

**Gynaecology and Obstetrics**

Gynaecology and Obstetrics will deal with the physiology, endocrinology and pathology of human reproduction and their application to the clinical practice of gynaecological and obstetric medicine. The teaching will emphasise the incorporation of the principles of this subject into total medical practice. The theoretical teaching will be within the course on the systems of medicine and clinical clerkships will be required during the third year of the course concurrent with a clerkship in neonatal paediatrics.

**Medicine**

Various common medical diseases affecting different organ systems of the body will be considered with emphasis on their natural history, clinical presentation, methods of diagnosis, together with principles of treatment and prevention. Clinical clerkship will provide experience both in acute general medicine and, during the second year of the course, on selected aspects of different specialties within internal medicine. Tutorial teaching will play an important part in this teaching programme in which emphasis will be placed on the quality of the written as well as the verbal case presentations.

**Paediatrics**

The undergraduate course in Paediatrics commences with an interdisciplinary child development and family study in the second and third years of the course in Human Biology. Patient-based teaching in Paediatrics is carried out in the hospital and community setting over the three years of the clinical course. Prevention of disease and the effect of disease on the developing child are emphasised in the departmental contribution to the course of lectures given in the first two years of the clinical course on the organic and psycho-social basis of ill health. At the end of this course of lectures students are examined in their knowledge and comprehension of the principles of Paediatrics. In the third year of the clinical course there is a period of trainee internship in Paediatrics which is mandatory and a term of elective study in the broad field of child health is offered.

**Pathology**

Teaching in Pathology commences in the third term of the third year of the course in Human Biology, and continues throughout the first, second and third years of the course for MBChB. Subjects under the aegis of Pathology include the Morphological Basis of Disease, Medical Microbiology, Haematology, Immunology, Chemical Pathology, and Forensic Medicine. During the first part of the first year of the Course for MBChB, the principles of pathology and microbiology are taught on the basis of the teaching in these subjects undertaken during the latter part of the course in Human Biology. During the remainder of the first year, and through the second year, the teaching in pathology is largely integrated with the teaching programmes of other clinical departments.

An elective programme in pathology is available for periods of up to 3 months during the third year of the course.

**Psychiatry**

With a background concept of normal human behaviour patterns engendered in the Behavioural Sciences component of the Human Biology course, students will receive instruction during the clinical triennium in the recognition of mental aberration and abnormal behaviour, and in the management of patients who suffer psychiatric disturbance. Most of this teaching will be incorporated in the Systems of Medicine course.

The Department of Psychiatry will join with other clinical departments, especially the departments of Paediatrics and Community Health, in conducting research towards the identification of health problems in society and the delineation of remedial measures, including methods of health education. Students will participate in these projects.

**Surgery**

Surgical diseases will be taught covering their natural history, pathology, methods of diagnosis (including special investigations such as radiology and clinical biochemistry), and general principles of treatment. Included in the surgical diseases will be those related to eye, ear, nose and throat, the musculo-skeletal system, the genito-urinary system, the nervous system and those related to plastic surgery. The theoretical teaching of these subjects will be done within the Systems of Medicine course.

Clinical Clerkships will be required in general surgery and the special divisions of surgery listed above, including the Accident and Emergency Department. Theoretical and practical teaching in anaesthesia will be given.

The examination in surgery will be part of the composite examination at the end of the second year together with assignments during the third year.

**PRESCRIPTIONS FOR MHB**

**Department of Anatomy**

65.405, 65.406, 65.601 The study of selected fields
of Anatomy at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Department of Biochemistry
(Two papers and a thesis)
66.405, 66.406, 66.611 The general study of Biochemistry at an advanced level with particular reference to topics of medical relevance.

Candidates for the Master's Degree should consult the Head of the Department as soon as possible after completion of course prerequisites in order to select a thesis topic and obtain advice on vacation reading. Research work for the thesis will be the major feature of the year's work and will be carried out in the Department. Attendance at departmental seminars and informal group discussions is obligatory.

Department of Pathology
(Two papers and a thesis)
68.403, 68.404, 68.601 The study of selected fields of Pathology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the main features of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Department of Physiology
(Two papers and a thesis)
67.405, 67.406, 67.601 The study of selected fields of Physiology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Department of Pharmacology/Clinical Pharmacology
(Two papers and a thesis)
96.400, 96.401, 96.601 The study of selected fields of Pharmacology and Clinical Pharmacology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

Department of Psychology
(Two papers and a thesis)
63.403, 63.404, 63.601 The general study of the Behavioural Sciences to Medicine. One or more special topics.

The thesis will be based on a research project. An outline of the project must be submitted for the approval of the Head of the Department, before the end of the previous academic year after discussion with the person, for the time being, in charge of Behavioural Science teaching.
DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS

†DIPLOMA IN PAEDIATRICS

DipG&O

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. A candidate for the Diploma in Gynaecology and Obstetrics shall
   (a) enrol not later than 1 March for the June examination and 1 September for the December examination, or such later dates as the Senate approves; and
   (b) before sitting for Part 2 of the examination:
      (i) hold a qualifying degree or diploma approved by the Medical Council of New Zealand for four years and be registered in New Zealand or hold equivalent Commonwealth registration for three years, or
      (ii) be a medical diplomate of the Fiji School of Medicine of six years' standing; and
   (c) hold for at least one year the Diploma of Obstetrics of the University of Auckland or of Otago or of the Royal College of Obstetricians and Gynaecologists; and
   (d) have undertaken at least two years' training in the specialty of gynaecology and obstetrics in posts approved by the Royal College of Obstetricians and Gynaecologists provided that only one year of service at the Colonial War Memorial Hospital, Suva, shall count towards the total, and
   (e) prior to his acceptance for Part 2 of the examination, have submitted dissertations on an obstetrical and on a gynaecological subject which has been approved by the Head of the Department.

Notwithstanding anything in this Regulation, the Vice-Chancellor may on the recommendation of Senate relax or modify these conditions.

Examinations
2. The examinations for the Diploma in Gynaecology and Obstetrics shall consist of two parts which may be taken separately or together.

   Part 1 shall consist of a written examination (two papers), 47.101, 47.102 on reproductive biology and basic medical sciences as applied to gynaecology and obstetrics. The Part 1 examination may be taken during the training period specified above in 1 (d).

   Part 2
   (a) written (two papers), 47.103, 47.104
   (b) Clinical
   (c) oral.

The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December.

3. These regulations shall come into force on 1 January, 1972.

PRESCRIPTIONS FOR DipG&O

Part 1
The subjects covered by two papers will include basic sciences such as anatomy, biochemistry, cell biology, embryology, endocrinology, genetics, immunology, medical sociology, microbiology, pathology, pharmacology, physiology and elementary statistics. The examination will deal with those aspects of these subjects which should form part of the general education of any specialist and particularly those aspects which are applicable to obstetrics and gynaecology.

Dissertations
Candidates are advised to discuss the preparation of their dissertations with the Head of the Department at an early stage in their training period. Both obstetric and gynaecological dissertations are designed to give candidates the opportunity to study in detail conditions of their own choice and to express their own views based on personal experience and on a study of the literature. The dissertations should show clear evidence of ability to make use of a reference library and of the English language. Socio-medical topics may be particularly suitable for one or other of the dissertations. The dissertations should be accurately typed in good English and simply bound. In general the size of the dissertations should be in the order of 3000–4000 words each and credit will be given for original contributions.
Part 2
Two written papers
(a) Obstetrics, and such aspects of endocrinology, medicine, neonatal paediatrics and surgery as are relevant to the practice of obstetrics.
(b) Gynaecology, and such aspects of endocrinology, medicine, medical sociology and surgery as are relevant to the practice of gynaecology.
A clinical-examination which will include presentation and discussion of obstetric and gynaecological cases. An oral examination in obstetrics and gynaecology. In this candidates should be prepared to discuss their dissertations, to be examined on applied anatomy, physiology and pathology, and to be shown radiographs, instruments, specimens and histological slides for comment.

DIPLOMA IN OBSTETRICS
DipObst

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. A candidate for the Diploma in Obstetrics shall
(a) enrol not later than 1 March for the June examination and 1 September for the December examination, or such later dates as the Senate approves;
(b) on 31 May preceding the June examination or on 30 November preceding the December examination
(i) have either held a registrable medical qualification for eighteen months or been a graduate from the Fiji Medical School for four years, or been a graduate from the Medical Faculty of the University of Papua New Guinea for four years, and
(ii) have held registrable medical qualification for at least seven years, and have submitted evidence of having personally conducted at least 300 deliveries, and have presented a certificate signed by the Head of the Department that the candidate has during the three years immediately preceding the examinations, attended an approved course of postgraduate instruction in obstetrics and family practice.

Note: The approved course should last for at least one week and may be taken after the candidate has enrolled but must be completed before sitting the examinations.

Notwithstanding anything in this Regulation the Vice-Chancellor may on the recommendation of Senate relax or modify these conditions.

Examinations
2. The examinations for the Diploma in Obstetrics shall be
(a) Written (one three-hour paper - 47.500)
(b) Clinical
(c) Oral.
3. The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December each year provided that should there be sufficient candidates, examinations may be held elsewhere at suitable dates.

PRESCRIPTIONS FOR DipObst
This is a general practitioner qualification and serves to distinguish those general practitioners who have been trained to handle the common abnormalities encountered in obstetrical practice. A six months’ resident appointment to the staff of a teaching obstetrical and gynaecological unit is required before candidates are allowed to sit the examination, but see also provision 1 (b)(ii) of the preceding regulations. Details of such appointments are available on application. With the object of encouraging medical practitioners who intend to carry out an obstetric practice modifications have been made to the Diploma regulations to bring these more in line with the Royal College regulations in England and to make it possible for medical practitioners to take
the examinations soon after their obstetric appointment during their first post-registration year. The new regulations also allow diplomates of the Fiji Central School of Medicine to take the examinations following a period of residence at an approved hospital.

The examinations shall include questions on the anatomy, physiology, pathology and management of normal and abnormal pregnancy, labour and puerperium, including the care of the new-born during the first month of life. In addition, the candidates will be required to have a knowledge of the physiology and pathology of medical gynaecology, including abnormal menstruation, amenorrhoea and dysmenorrhoea, endocrine therapy, abortions, infertility and contraception, ectopic pregnancies and moles, vaginal discharges, the diagnostic facets of malignancy, and such minor surgical procedures as may be encountered in a predominantly obstetrical practice.

The following are approved Hospitals for the purpose of Regulation 1(b)(i):
(1) Auckland: National Women's with or without rotation to Middlemore and St Helens Hospital
(2) Christchurch Women's
(3) Dunedin
(4) Invercargill: Kew Hospital
(5) Lower Hutt
(6) Palmerston North
(7) Rotorua
(8) Waikato
(9) Wanganui
(10) Wellington
(11) Whangarei
(12) Any other hospital which meets the current criteria for approval during the full tenure of the post.
(13) Any hospital recognised by the Royal College of Obstetricians and Gynaecologists or the Australian College of Obstetricians and Gynaecologists.

That approval of hospitals will be recognised on criteria of:
(i) Specialist and registrar staff in obstetrics, gynaecology and neonatal paediatrics.
(ii) The number of normal and abnormal patients attending the hospital clinics.
(iii) The provision of graduate teaching in antenatal, postnatal and gynaecological clinics, wards and delivery rooms, including teaching in neonatal paediatrics and family planning. The post must be a continuous one of six months.

HIGHER ACADEMIC TRAINING IN OBSTETRICS AND GYNAECOLOGY

(i) Membership of the Royal College of Obstetricians and Gynaecologists and Membership of the Australian College of Obstetricians and Gynaecologists

Resident posts providing specialist training suitable for the Membership examination are available at the National Women's and associated hospitals. A formal teaching programme for both Part I and part II examinations is provided for residents. Elective time post in neonatal paediatrics, anaesthesia and pathology can also be arranged.

(ii) MSc or PhD Degrees

Research appointments are available at the National Women's Hospital and afford the opportunity of preparing for the MSc and PhD Degrees of the University of Auckland. Applications will be welcome from scientists and medical graduates who wish to carry out research in biochemistry, endocrinology, or the scientific background of obstetrics, gynaecology, and neonatal paediatrics.

REFRESHER TRAINING FOR FAMILY DOCTORS AND SPECIALISTS

(i) Practitioners with interests in the fields covered at the School may attend for periods of up to four weeks as visiting postgraduates. During the time they are attending the Postgraduate School attachments to the Auckland Hospital Board as Honorary Medical Officers can be made in order to facilitate the performance of practical procedures. Visitors may attend the daily teaching sessions as well as gain practical experience tailored to their needs.

(ii) Short courses usually of a week’s duration are held at regular intervals. In addition to teaching at Diploma level advanced courses are provided.

(iii) Departmental staff are available to participate in courses throughout New Zealand by arrangement with the Head of the Department.
THE POSTGRADUATE MEDICAL COMMITTEE

The Postgraduate Medical Committee, under the Chairmanship of the Associate Dean of Postgraduate Affairs in Medicine accepts responsibility for the organisation and supervision of graduate and postgraduate work among the medical practitioners in Auckland. The activity of the Committee is linked with the School of Medicine and with the hospitals under the control of the Auckland Hospital Board.

The Committee arranges annual courses throughout the academic year in internal medicine, surgery, anaesthesia, radiology, pathology, psychiatry, paediatrics and dentistry. It also arranges visits by overseas medical speakers both in the University and in the associated hospitals and publishes a monthly bulletin of medical postgraduate affairs, *This Month*.

The co-ordination and supervision of postgraduate studies is carried out with the help of advisory committees of the Postgraduate Committee, each of which is responsible for its particular area of medical education including supervision of the registrar and graduate training programme and the organisation of such visiting professors as come to Auckland under the sponsorship of the Auckland Savings Bank and other auspices. All graduates attending one of the annual courses of the Committee and all overseas graduates undergoing postgraduate training in the Auckland hospitals are required to enrol with the Postgraduate Medical Committee as graduate students of the University of Auckland.

The activities in postgraduate medicine are outlined in a booklet which is available from the Associated Dean’s office.

The members of the Postgraduate Committee are the Chairman, the Associate Dean of Postgraduate Affairs in Medicine, Dr C. H. Maclaurin; the Deputy Chairman, Dr P. M. Barham; the Honorary Treasurer, Dr E. J. W. Stephens; the Honorary Secretary, Dr Robin H. Briant; Associate Professor R. A. Boas; Professor D. G. Bonham; Dr P. J. Chapman; Professor D. S. Cole, Dean of Medicine; Dr H. Doerr; Dr R. K. Haydon; Dr T. G. Hawley; Dr J. R. D. Mathews; Dr R. F. Moody; Dr O. R. Nicholson; Associate Professor J. C. Probert; and Associate Professor J. D. Wilson.

The office of the Committee is in the School of Medicine.

DEGREE COURSE REGULATIONS

THE DEGREE OF DOCTOR OF LITERATURE

LittD

General Provisions
1. Except as provided in the Admission Ad Eundem Statum Relations, a candidate for the Degree of Doctor of Literature shall be a graduate of the University of Auckland, or of the University of New Zealand.
2. No candidate shall present himself for the Degree of Doctor of Literature until at least eight years after graduation to his first degree.
3. The Degree of Doctor of Literature shall be awarded for an original contribution (or contributions) of special excellence to linguistic, literary, philosophical, social or historical knowledge.
4. The degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.
5. No work shall be considered for the degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.
6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with
   (a) three copies of the work to be examined;
   (b) a statutory declaration which shall
      (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
      (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
      (iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure
7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall
   (a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and
   (b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.
8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may
   (a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
   (b) elect to proceed with the examination.
9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional examiner who may be a member of the teaching staff of the University of Auckland.
   (b) The contents of the Moderator's report shall not be communicated to the Examiners.
10. The duties of each Examiner shall be:
    (a) to report independently on the quality of the work and its value as a significant contribution to learning; and
    (b) to recommend whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded, the Examiner may recommend that the candidate be permitted to re-submit the work together with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.
11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.
12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the degree shall be awarded.
13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

THE DEGREE OF MASTER OF PHILOSOPHY

MPhil

Note: A student who has qualified for a Bachelor's Degree in one Faculty but who wishes to take a Masters course which is only available in another Faculty may be permitted by Senate to do so for the degree of Master of Philosophy. Permission will normally be given where the Senate is satisfied that the student holds qualifications at least equivalent to the prerequisites for the Masters course concerned. In some cases, instead of MPhil, the Master's Degree of the Faculty will be approved as the course for a student particularly appropriately qualified, (e.g. a student qualified in engineering but with a Bachelor's Degree in another Faculty may be permitted to take a Masters course in Engineering for ME instead of MPhil.)

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Ad Eundem Statum Regulations, a candidate shall before his enrolment for this Degree
(a) have been admitted or qualified for admission to a Bachelor's Degree, and
(b) have been approved by the Senate as qualified to pursue a Course of study for a Master's Degree in a Faculty other than that in which he qualified for his Bachelor's Degree.

Course Content
2. Every candidate for the Degree of Master of Philosophy shall comply with the Course Regulations for a Master's Degree prescribed in the Faculty in which he is pursuing his Course of study.
3. The Degree shall be awarded by the Senate after receipt of a certificate from the Head of the Department in which the Course for the Degree has been taken, stating that the candidate has completed the prescribed requirements.

Honours
4. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect; instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall still be eligible for the award of Honours, subject to the provision of subclause (c) of this regulation.
(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree: provided that this period may be extended, in exceptional cases, by the Senate.
5. These Regulations shall come into force on 1 January, 1971.

THE DEGREE OF DOCTOR OF PHILOSOPHY

PhD

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Every candidate for the Degree of Doctor of Philosophy shall apply to the Head of his Department for registration as such, showing:
(a) that he has the requisite preliminary qualification set out in regulation 2 hereof, and
(b) that he has adequate training and ability to pursue a Course of advanced study and research.
2. The preliminary qualification shall be
Interfaculty, Degree Regulations, PhD

(a) qualification for admission to a Bachelor's Degree with Honours, or a Bachelor's (Honours) Degree, or a Master's Degree with Honours of this University, or
(b) qualification for admission to a Master's Degree First Class or Second Class, or
(c) qualification for admission to the Degree of Bachelor of Medicine and Bachelor of Surgery together with evidence that the candidate has carried out research which, in the opinion of the Senate, is satisfactory evidence of the candidate's ability to pursue a Course of advanced study and research for this Degree
(d) in the case of a graduate of another University, admission to the Course under the provisions of the Admission Ad Eundem Statum Regulations, or
(e) any other qualification approved by the Senate in the particular case of any candidate.

3. (a) The Senate (Deans Committee) having received a recommendation from the Head of the Department concerned (or in Engineering and Medicine and Human Biology, from the Dean concerned) shall determine if the candidate may be registered and the date and conditions of that registration.
(b) A recommendation for registration shall include:
(i) the field of study
(ii) the date of registration
(iii) the name of a supervisor or supervisors from members of the academic staff
(iv) satisfactory evidence of the candidate's training and ability to pursue the proposed Course of Study
(v) a statement of any foreign language requirement (or none) which the candidate must satisfy as part of the Course of Study
(vi) where submitted by the Dean of Engineering, a description of the papers required in terms of clause 8(a) of these Regulations.

4. A candidate for a Master's Degree may, after the completion of at least one year's work for that Degree at a standard considered satisfactory by the Senate, be registered as a candidate for the Degree of Doctor of Philosophy. Any such candidate so registered may be allowed credit for the work for the Master's Course if that work can form part of the doctoral thesis. The date of registration shall not be earlier than the end of the academic year in which he completed papers for a Master's or Bachelor's Degree with Honours.

5. (a) After being registered as a candidate for the Degree of Doctor of Philosophy the candidate shall pursue a Course of advanced study and research at the University to the satisfaction of the Head of the Department and the Supervisor for a period of at least two calendar years from the date of registration, during which he shall work at his advanced study and research full time under the supervision of a teacher in the University; provided that
(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;
(ii) field work may be carried out at such places and for such periods as the Senate may determine;
(iii) research requiring the use at first hand of documents or books not available within the University may be undertaken in an approved institution outside the University, for such period or periods and on such conditions as may be determined from time to time by the Senate;
(iv) when a candidate has completed the initial period of two years full-time study and research he may apply to the Senate for permission to continue as a part-time candidate. Any such application must be supported by the Supervisor and the Head of the Department.
(b) For the purpose of this regulation a candidate shall be deemed to work full time if he has no occupation other than his study or research; provided that he may
(i) with the approval of his Supervisor and the Head of the Department engage for an average period of not more than six hours in any one week in academic work other than his study or research;
(ii) take such statutory, recreational and other holidays as are normally incidental to full-time occupation.

6. (a) Notwithstanding anything in Regulation 5, a part-time member of the academic staff whose duties as such require of him not more than 12 hours in any one week and who has no other occupation except his study or research may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least three calendar years from the date of his registration, to the satisfaction of the Head of his Department and the Supervisor.
(b) Notwithstanding anything in Regulation 5, a full-time member of the academic staff, other than a Head of the Department, may register as a candidate for the Degree of Doctor of Philosophy. After being so registered he shall pursue a course of advanced study and research at the University over a period which shall, except in special circumstances to be determined by the Senate, be of at least four calendar years from the date of his registration to the satisfaction of the Head of his Department and the Supervisor.
(c) Notwithstanding anything in Regulation 5, a full-time member of the teaching staff of a Teachers' College in Greater Auckland may apply for registration as a candidate for the Degree of Doctor of Philosophy and shall submit with his application a statement from the Principal of the College that his college work is such as to allow him to pursue a course at the University for the Degree of Doctor of Philosophy. After being registered he shall pursue to the satisfaction of the Head of his Department and the Supervisor, a course of advanced study and research at the University over a period of at least four calendar years from the date of his registration.

7. The Supervisor shall submit to the Senate, through the Head of the Department, a brief report on the progress of the candidate at the end of each year, provided that in the case of a candidate who is a member of the teaching staff of a Teachers' College the Supervisor shall submit a report at the end of each six months. A candidate's registration may be terminated by the Senate if an unfavourable report is received.

8. (a) A candidate for the Degree of Doctor of Philosophy in Engineering shall take three papers prescribed for the Degree of Master of Engineering or papers deemed by the Deans Committee to be equivalent provided that the Senate on the recommendation of the Deans Committee may waive or modify this requirement.

(b) A candidate shall not be eligible to enrol for any other course while registered for the Degree of Doctor of Philosophy unless he obtains the prior permission of the Senate.

9. (a) A candidate who has fulfilled the conditions required by these Regulations may apply at any time within six years from the date of resignation to the Registrar to be examined provided that a full-time member of the academic staff, or a member of the teaching staff of a Teachers' College, may apply at any time within eight years and this period may in special circumstances be extended by the Senate for a full-time member of the academic staff who has not while registered for the Degree been a full-time research student.

(b) A candidate shall submit to the Registrar three bound copies of a thesis embodying the results of his research which shall be retained by the University.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.

10. (a) After having accepted the candidate's application to be examined the Senate, shall upon the recommendation of the Head of the Department, approve the title of the thesis and shall appoint as examiners:

(i) the Supervisor or Supervisors,

(ii) one person, who shall also act as Oral Examiner, and who may be a member of the staff of this University if there is no specialist in the field at another University in New Zealand, and

(iii) one person who may not be a member of the staff of this University except in such circumstances as the Senate thinks fit.

(b) The Senate may, on the recommendation of the Head of the Department, appoint a further Examiner and in exceptional circumstances two further Examiners.

11. The Supervisor shall forward to the Registrar a certificate stating that the work described in the thesis was carried out by the candidate under his supervision and that the conditions laid down in Regulation 5 or 6 have been fulfilled.

12. (a) A copy of the thesis shall be submitted to each examiner who shall report on the thesis independently. Except where the Vice-Chancellor acting on the advice of the Examiners otherwise authorises, the Supervising Examiner and one External Examiner shall together examine the candidate orally on the subject of the thesis and on the general field to which the subject belongs. The oral examination shall be held after the reports from all the examiners have been received, and not sooner than six weeks after the submission of the thesis, except in very special circumstances and with the approval of the Senate. At the request of the Oral Examiners the candidate may be required to take a written examination. The Oral Examiners shall make a joint report to the Senate on the whole examination. The Examiners may recommend that a thesis, not considered entirely suitable by them for acceptance, may be revised by the candidate for resubmission on one further occasion only.

(b) Where a candidate registered for this Degree who has not qualified for or been awarded a Master's Degree of this University submits or re-submits a thesis not considered entirely suitable to the examiners, the Senate may recommend that the thesis be submitted for a Master's Degree without Honours in the appropriate Faculty provided that the candidate satisfies all other requirements for that Master's Degree.
CERTIFICATE COURSE REGULATIONS

CERTIFICATE OF PROFICIENCY
COP

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. In these regulations a “pass” means a pass in any paper or subject or in any examinable part of a subject.
   “Certificate of Proficiency” means a Certificate issued by the University as to a pass otherwise than for a Degree or Diploma.
2. With the permission of the Senate a matriculated student may be enrolled under the Enrolment and Course Regulations (General) for the purpose of obtaining a Certificate of Proficiency.
3. To obtain a Certificate of Proficiency a student who is enrolled under Regulation 2 must comply with the provisions of the Examination Regulations and pass the appropriate examinations.
4. Where a candidate has obtained a pass for a Certificate of Proficiency he may at any time have that pass credited to a Degree or Diploma if he has complied with, or in exceptional circumstances is exempted by the Senate from, any prerequisite, corequisite condition or other requirement prescribed for that Degree or Diploma.
5. A candidate who (a) has obtained a pass in any subject at Masters level for a Certificate of Proficiency and (b) would have been eligible for Honours if he had presented that subject under the appropriate Master’s Degree Regulations, may be awarded a Certificate of Proficiency with Honours of the appropriate class provided in those Regulations.

Note: A member of the permanent academic staff of this University with overseas university qualifications may be permitted to enrol for a paper or a subject for Certificate of Proficiency without having to make a formal application for Admission Ad Eundem Statum.

INTER FACULTY STUDIES

Operations Research

Operations Research can be defined briefly as the application of scientific methods to the management problems. It is widely used in areas such as optimal scheduling, inventory control, decision analysis and many similar applications, both on a short-term basis and to assist in long-range planning.

Training for Operations Research is frequently inter-disciplinary and in the University there are several paths along which Operations Research may be approached. Because of this, the major routes are described here, and further reference should be made to relevant prescriptions in the Faculties of Commerce, Engineering and Science.

1. In the Faculty of Science, the Department of Mathematics and Statistics offers courses which contain topics dealing with the theory and methodology of basic stochastic and deterministic techniques in Operations Research. In particular the following Courses are relevant:
   Probability 26.380
   Optimization in Operations Research 26.391
   Mathematical Modelling for Operations Research 26.395
   Related papers are available at undergraduate and graduate level towards the Degrees BSc, BSc(Hons), MSc or towards the Diplomas DipCompMaths, DipStats. Interested students should consult the Head of the Department of Mathematics and Statistics.
2. In the Faculty of Commerce students wishing to specialise in Operations Research for the BCom degree should consider the following papers offered by the Departments of Management Studies and Economics:
   Management Science 72.202
   Operations Research 72.308 (13.303)
   Operations Research 72.408
   Mathematical Programming 72.409
together with related papers in Accounting, Computer Science, Economics, Engineering, Management Studies and Mathematics.

At the graduate level students may choose courses in Operations Research towards the degrees of MCom or MPhil which may include a thesis or a research essay in this area. Interested students should consult the Head of the Department of Management Studies or of Economics.

3. In Engineering students may specialise in Operations Research within the professional degree by taking the Engineering Science course, which includes:

- Operations Research I 54.251
- Operations Research II 54.351
- Engineering Science Design 54.291
- Project in Engineering Science 54.303
- Stochastic Models in Operations Research 54.352

Appropriate papers in such areas as computation, statistics, industrial administration and transportation are also available. The project topic can be chosen from a wide area of application in industry and corporate administration.

At the graduate level, students may specialise in Operations Research for the degrees of ME, MPhil and PhD by choosing from:

- Studies in Operations Research A 54.760
- Studies in Operations Research B 54.770
- Random Processes 54.790
- Studies in Engineering Science 54.710

and related papers (offered by several Engineering Departments) such as Control, Transportation, Microprocessors and Minicomputers.

Interested students should consult the Head of the Department of Theoretical and Applied Mechanics.

INTERMEDIATE COURSE FOR DEGREES OR DIPLOMAS FOR OTHER NZ UNIVERSITIES

Intermediate Courses for Degrees or Diplomas of other New Zealand Universities

Intermediate courses may be taken at the University of Auckland for a number of degrees and diplomas offered by other New Zealand universities except for Medicine, Dentistry and Pharmacy at the University of Otago as from 1983. Enquiries in the first instance must be made to the University concerned before any enrolment for that University is made at the University of Auckland.

A student wishing to enrol at Auckland for an Intermediate course for a degree or diploma at another University is required to include on the enrolment forms the course of study and the University for which it is being taken as an Intermediate e.g. Forestry Intermediate (Canterbury).

A student who decides to remain at Auckland after having passed Intermediate papers for another University’s course may apply to have those papers credited to an Auckland course by completing the appropriate form (Abandonment) and paying the prescribed fee of $10.

CENTRE FOR CONTINUING EDUCATION

The Centre for Continuing Education is a department of the University, the special function of which is to create opportunities for the whole community to attend courses and other activities of a university standard for personal enjoyment and development or advancement of professional knowledge. Nearly all courses are conducted by university academic staff or outside specialists. It makes available to the general public a wide variety of courses in the humanities, sciences, music and the arts. These are usually of ten weeks or longer. Day or weekend seminars are also promoted both at the Centre and in Northland. In addition to its general offering of music courses, the Centre organises and promotes the annual Cambridge Music School, a two week residential school for serious performers and composers from throughout New Zealand.

Adults contemplating degree studies for the first time are offered a "New Start" programme which is designed to introduce them to university study methods and facilities. Short introductory courses in some arts subjects not taught in the secondary schools, e.g. psychology, economics, sociology, education, Maori studies, are specifically designed for intending degree students.

Certificate courses are conducted in (i) Personnel Management and Industrial Relations, (ii) Community Studies. Short courses providing professional development for workers in health, education, welfare, recreation, community development and counselling fields are also available. These courses are conducted under the heading of 'Working With People.'

The Centre also promotes a wide-ranging series of seminars, courses and conferences for such professional groups as engineers, businessmen, teachers, surveyors, valuers.

Publicity brochures about the Centre's activities are available on request from the Centre for Continuing Education. More information can be obtained by telephoning the Centre 737,999 extensions 7720 or 8735, writing to the Centre for Continuing Education, University of Auckland, Private Bag, Auckland or calling at the General Office of the Centre, Old Choral Hall, 7 Symonds Street.

COMPUTER CENTRE

The Computer Centre provides a digital computing service for users throughout the campus. The two main computer systems used are:

**IBM 4341 & Series/1**
- **Memory**: 4 Mb
- **Disk**: 1100 Mb (later 1700 Mb)
- **Magnetic tape**: 2 @ 1600/6250 bpi, 470 Kb, p.e.
- **Card reader**: 600 cpm
- **Line printer**: 450 lpm
- **Graph plotter**: 8-pen, A3
- **Graphics screen**: ADE colour unit

Terminals & remote printers connect through three Series/1 communications computers. Two further Series/1 computers are used for the University's administrative data processing.

**DEC System-10**
- **Memory**: 1 Mb
- **Disk**: 120 Mb
- **Magnetic tape**: 1 @ 800 bpi NZRI

Terminals and remote printers connecting to the two systems are installed in clusters at key locations on the campus; further clusters and some individual stations will be installed during the year.

A further system, a Prime P400, provides time-sharing services for a small number of terminals. A wide range of languages and packages is available, particularly on the IBM system. Languages include Fortran IV, Fortran 77, PL/1, Cobol, Pascal, Basic, Lisp and Snobol 4; packages include SPSS, Minitab and SAS (statistics), LINDO and LP 1 (optimization), simulation languages and other facilities.

**USER SERVICES**

Undergraduate classes are expected to use terminals to the Dec-10 system, or small computers installed in various teaching departments. Limited access to the IBM 4341 is available for the specialised requirements of small, advanced classes.
Research Services for staff members and post-graduate students are based on the IBM 4341.

Key-Data Services are based on three IBM 5280 key-diskette units which can connect to the IBM or DEC-10 main-frames.

Advisory Services are provided throughout the day by a roster of staff members. Introductory courses and lectures on more advanced aspects of computer use are given at intervals through the year. University departments are charged for all use of the IBM system, and are provided with fixed resource allocations for their students' use of the DEC-10 system. Information about charging rates, budget and student resource allocations and access controls generally is available through the Computer Centre office. The office staff can also advise on the range of documentation available to users, whether as manuals and guides sold through the University Book Shop or as User Notes issued by the Centre.

The Computer Centre building is open between 8 am and 11.30 pm week-days only, including all vacations. The computer systems operate continuously, and access to them through terminals in other buildings is available whenever these buildings are open.

COMPUTER SYSTEM REGULATIONS

Pursuant to section 22 of the University of Auckland Act, 1961 the Council of the University makes the following Regulations:

1. These Regulations may be cited as the Computer System Regulations 1975 and shall come into force on 1 January 1976.

2. In these Regulations, unless the context otherwise requires — "System" means any Computer System controlled and operated by the Council whether at the Computer Centre established in the University or elsewhere. "Director" in relation to any System means the person authorised by the Council to control it.

3. No student or any other member of the University shall:
   (a) without authority of the Director gain access or attempt to gain access to the System;
   (b) obtain or attempt to obtain from the System any information to which he is not entitled;
   (c) use or attempt to use the System so as to cause costs to be incurred —
      (i) by the University, without the consent of his Head of Department and the Head of any other Department concerned;
      (ii) by any person other than the University, without the consent of that other person.

4. Any breach of Regulation 3 of these Regulations shall be deemed to be a breach of the Disciplinary Regulations of the University.

Notes: (i) Application to use a Computer System must be made to the person in control — that is, to the Director of the Computer Centre or, in the case of a system under the control of a Head of Department, to that Head of Department or his nominee.

(ii) Withdrawal of complete facilities for improper use: The purpose of the Regulations is to make certain improper uses of the Computer Centre, breaches of University discipline, so that any breach of Regulation 3 may, if committed by a student, be dealt with under the Disciplinary Regulations. Each user of the Computer System must note that any improper use, whether or not it can be or is dealt with and whether or not it is within the scope of Regulation 3 above, may lead to his being temporarily or permanently refused the use of the System, by the Director of the Computer Centre or by the Head of Department concerned. Any person aggrieved by such a refusal may, in the ordinary course of University administration, have the matter referred, through the Vice-Chancellor, to the Council.

STUDENT SERVICES

ACADEMIC DRESS
The Auckland Branch of the New Zealand Federation of University Women owns a stock of Academic Gowns, Hoods and Caps (black trenched with a tassel). These are available for hire at all times during the year. Details may be obtained at the Registry. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the Graduation Ceremony with his result card.

CAREERS ADVISORY SERVICE
The Careers Advisory Service has four main functions:
1. To give advice and information to students and graduates of the University about career opportunities, and to put them in touch with prospective employers.
2. To prepare and circulate through Craccum (the student newspaper) a schedule of job vacancies, informing students and graduates of specific opportunities offered by employers.
3. To arrange the MID YEAR CAMPUS VISITS (held throughout the second term) and CAREERS WEEK (held November). These programmes provide opportunities for students to meet employers on the campus and discuss employment prospects.
4. To increase the awareness of the community of the potential benefits of employing University graduates. Students are encouraged to visit the Careers Advisory Service in the early stages of their University course to discuss suitable employment opportunities for when they complete their study programmes.

THE CHAPEL
The Maclaurin Chapel was established under a deed of trust by Sir William Goodfellow, Hon. LLD, in memory of his son, Richard Maclaurin Goodfellow, killed during service with the Fleet Air Arm in World War II, and of Professor Richard Cockburn Maclaurin, one of Auckland's most distinguished graduates. University representatives are included in the Board of Management which is responsible for administering the trust.

Services conducted in the University Chapel are non-denominational in character, and all members of the University are welcomed. Regular services are held during term time as follows: Morning Prayer each weekday at 9.40 a.m.; Communion Service, 1.10 pm on Thursdays. Special Services as advertised.

CHAPLAINS
There are three chaplains to the University — two of whom represent those denominations which have membership in the National Council of Churches, and the Roman Catholic chaplain who works in a chaplaincy team of students and staff at Newman Hall. The Maclaurin Chaplain, the Rev. Dr K. J. Sharpe, who is appointed by the Richard Maclaurin Goodfellow Foundation, may be contacted in his office in the Chapel complex (phone 737-732).

The Chaplain appointed by the Auckland Council of Churches, the Rev. J. M. Ker, has his rooms behind the Upper Lecture Theatre (Room 10) (phone 737-999, extension 7495).

The Roman Catholic Chaplain, Father D. Halstead, OP, resides at Newman Hall, 16 Waterloo Quadrant (phone 732-097).

The three chaplains work together as the University chaplaincy service. They are available to any member of the University for consultation.

NEWMAN HALL
Newman Hall is the University Catholic Centre at 16 Waterloo Quadrant. It is named for Cardinal Newman, the nineteenth century scholar, in commemoration of whom the annual Newman Lecture is held.

Newman Hall is the centre for the University Parish, which is the community of students, graduates and staff. The chaplaincy is carried on by a group consisting of the University Catholic Chaplain who is a Dominican priest, and students and staff. Some of the members of the community live at Newman Hall and are available
at any time (student members, phone 32-618). The major services are Mass at 7.00 pm every Sunday evening (February till Christmas), weekday mass daily during term at 1.10 pm. Further details may be obtained from the Newman Hall secretary (phone 732-097).

**ACCOMMODATION SERVICE**

An accommodation service is provided without charge for students and intending students of the University. The Student Lodgings Officer is available to receive applications for admission to University Halls of Residence and to assist students to find board in private homes. A notice board giving details of houses, flats and rooms available for occupation by students is maintained in the accommodation office, which is situated in room 005 in the basement of the Old Arts Building.

**HALLS OF RESIDENCE**

The University administers two Halls of Residence and, in addition, one other Hall works within the University system. All three Halls offer three meals a day. There are also two other University administered establishments which offer students furnished accommodation but do not provide meals. All establishments accommodate both men and women. Applications for admission, which close on 30 October 1982, should be addressed to the Student Lodgings Officer, University of Auckland, Private Bag, Auckland. Late applications are accepted for the waiting list.

**Grafton Hall**, Seafield View Road, Grafton, administered by the Presbyterian Methodist Congregational Foundation Inc and within 15 minutes’ walk of the University. Accommodation and full board is provided for 160 students.

**International House**, 27 Whitaker Place, administered by the University and within seven minutes’ walk of the campus. Accommodation and full board is provided for 163 students.

**O'Rorke Hall**, 49 Symonds Street, administered by the University and within three minutes’ walk of the campus. Accommodation and full board is provided for 172 students.

**Norman Spencer Senior Student Apartments**, 9 St Stephens Avenue, Parnell. Accommodation is available for approximately 50 senior students in single study bedrooms with use of well equipped communal cooking and bathroom facilities. There is limited accommodation for married couples.

**Park Road Student Flats**, Grafton. Accommodation is provided for 44 students (12 in single rooms and 32 in shared rooms). Each room has its own bathroom but residents must share the communal kitchen.

**APPLIED RESEARCH OFFICE (ARO)**

The basic objective of the Applied Research Office is to bring together interested academic staff and outside sponsoring bodies so that University expertise and facilities can be made available to the community and so the University will benefit from an increased flow of research funds. The experience of working on projects carried out through the ARO can often be of considerable benefit to individual academic staff involved and also of general benefit to the University.

The ARO will also arrange for the patent protection of inventions made by University staff and students where there is a good possibility of commercialisation of the invention.

The ARO is headed by an Executive Officer who reports to the ARO Management Subcommittee of Research Committee. The Office is located on the sixth floor of the School of Engineering and is open during normal University administration hours. (Phone 737-999 extensions 7808 and 7809).

**INVENTIONS AND PATENTS**

When staff or students consider that during the course of their University activities a discovery or innovation has occurred which may have possibilities for commercial exploitation, the University expects them to disclose such a discovery to the University by informing the Applied Research Office. The Applied Research Office Management Subcommittee would, in due course, make a decision as to whether to recommend its assignment to the University, its protection and its course of commercialisation. An agreement between the inventor(s) and the University would then be entered into, such an agreement describing the obligations of the parties and the division of any income and expenditure.
Members of staff and students should know that prior to the granting of a provisional patent, publication is likely to render any research result unpatentable. It is not the wish of the University, however, that this circumstance should inhibit the free publication of research work. Staff or students are not to use for commercial purposes any invention or development or computer program to which they have had access while at the University without the specific approval of the University obtained through the Head of Department concerned.

LOST PROPERTY
All enquiries regarding lost property should be referred to the Head Custodian or the Enquiries counter in the Registry.

PARKING
Street parking is available for two-wheel vehicles in Symonds Street between Alfred and Wellesley Streets, in Alfred Street, in Symonds Street between Grafton Road and the Human Sciences building, Princes Street outside Maidment Arts Centre and School of Medicine. Provision has been made for parking of bicycles on the following areas: Concourse, School of Engineering, Symonds Street; Upper and lower Concourses, Recreation Centre, Symonds Street; Physics Building, Princes Street side; Accountancy, Area 1, Alfred Street; Concourse, lower lecture Theatre and Library; School of Architecture, Symonds Street; School of Medicine, Park Road. An area in lower Grafton Road (area No. 13) has been set aside for students’ cars. Admission is on production of student identity card and payment of 20 cents. Check out passes are available for re-entry later the same day but no guarantee is given that a space will be available. No charge is made for this area during the weekend or after 4 pm on weekdays.
Students may use the parking facilities in Wynyard Street (between Grafton and Alten Roads) without charge after 5.45 pm any day, at any time during the weekends and during December and January. Students may be asked to show identity cards in order to distinguish themselves from ordinary members of the public. The parking building at 36 Princes Street is available for general parking after 5.45 each evening and weekends.

PRESS CORRESPONDENCE
Members of the University are reminded that it is normal practice to sign Press correspondence as from the University only when the writer has some special competence in the subject discussed. For members of the teaching staff, such subjects would normally be those within the area of their academic competence, and for students, matters of general student concern. Student members should indicate their student status either in the body of the letter or in the address given. On matters of general public interest, all members of the University write in their private capacity.

COUNSELLING
The Counselling Service is available and confidential for any member of the University community who wishes to use it. Anyone using the Service (and this includes intending students) may discuss without fear or judgment, criticism or pressure any issue of a personal, social, vocational or academic nature. The aim of the Service is to enable people to relate more satisfactorily with other people in their immediate and general environment. For this purpose, personal counselling is provided, as well as group activities. The Counselling Service also offers direct assistance for improving study and reading skills. The Service is confidential, voluntary and readily available. The three full-time counsellors are Lorna McLay, David Simpson and Brian Lythe, the last-named with a special responsibility for overseas students. They are available during usual University hours, preferably by appointment, but in matters of urgency, without. An appointment may readily be made by ringing the Secretary, telephone 737-895/896, at Counselling, above the Post Office, main campus.

STUDENT HEALTH SERVICE
The University of Auckland Student Health Service is available to all students and is designed to help them maintain an optimum state of health. There is a full-time Director, a nursing sister and eleven part-time
Student Services, Student Health Service, Crèche, Telephones, Students' Association

Doctors including a Psychiatrist and those in the Family Planning and Physical Medicine fields. A full clinical service is provided as well as immunisations against infectious disease and for those going on overseas travel. The hours of appointment are as follows:

Monday to Friday: 9 am to 4.30 pm.
During the evening and at weekends an emergency service is available and the doctor on duty can be contacted by phoning 599-095.

Emergency medical services are available:
1. 153 Newton Road
2. 1958 Great North Road, Avondale
3. 736 Manukau Road, Royal Oak
4. 4 Great South Road, Papatoetoe.

THE CRÈCHE

The University operates a crèche which is primarily available for the children of students. It is run by a staff of 10 people trained in early childhood care; Mrs Elaine McCulloch is the supervisor. Children from 0–5 years may attend but in terms of the crèche’s licence children can only stay for up to 4 hours at any one time. The crèche is open 8 am – 5 pm Monday to Friday during the University year: it is also open for one week in each of the May and August holidays to enable parents to study.

The crèche is only able to take 38 children at any one time of whom only 10 may be under 2 years of age. The pressure for use is greatest in the morning.

Enrolments for the crèche are accepted during Enrolment Week. To assist in allotting places and times, early enrolment is encouraged.

Crèche charges are $1.00 hr with a $12 enrolment fee. A childcare subsidy administered by the Social Welfare Department is available to the parents of children using the crèche for more than 12 1/2 hours a week. The subsidy is subject to an income qualification.

For further information telephone Mrs McCulloch Ext. 7755.

TELEPHONES

Telephones for the use of students are provided by the Students' Association in the Student Union Building. In addition, Public Telephones are provided by the Post Office in the Arts Building (adjacent to the Bank), the Library Building (first floor by the lifts), the Thomas Building and at the School of Engineering (adjacent to the Library), Human Science Building (adjacent to lecture theatres), School of Architecture (adjacent to lecture theatres), Physics Building basement and School of Medicine near cafeteria.

Students are not permitted to make or receive outside calls through the University main telephone system except on University business.

STUDENTS’ ASSOCIATION

The Association is an Incorporated Society founded in 1891. The aim of the Association is to further the interests of the student body within the University and without. The student body is an integral part of the University community and the Association and its members are involved not only in the government of the University but also in fostering social, intellectual, political, cultural and sporting activities within the University.

In recent years the Association has changed from a merely social and service organisation catering for the needs of students on Campus to an organisation concerned with student problems in their widest context.

The control of the business and affairs of the Association rests with the Executive Committee elected annually and comprising a full-time President and fourteen portfolio holders together with the Association Secretary — a full-time administrative post. The Executive is the official mouthpiece for the Association and takes official action on behalf of the Association in the interests of the student body. Through this Executive which acts as a co-ordinating body the Association undertakes a wide and varied number of activities.

The Association is a link between individual students, the academic and administrative staff of the University. Students now elect four representatives to Senate, one representative to University Council, representatives to departmental and faculty committees as well as representatives to committees of Senate, Council and the Association. Through its Executive, the Association represents students in matters involving their interest within the University and the Community at large.
The Student Representative Council (SRC) was set up in 1969 and membership is open to all students. The political and policymaking body of the Association, SRC is empowered to act on any matter of concern to students.

There are over one hundred clubs and societies affiliated to the Association covering many spheres of student interest. The sports clubs cater for almost all sporting interests and most participate in the local Auckland inter-club competitions and in the NZUSU tournaments. The cultural societies cater for a wide range of religious, academic, social, cultural and political interests. Information about these clubs and societies is available in the Orientation Handbook. The Association organises social functions during the course of the year ranging from informal dances to the Graduates Ball. During the first two weeks of the academic year the Association organises the Orientation Fortnight to acquaint new students with the varied facets of University life. The Association organises student concessions for its members with a number of city firms and with the promoters of attractions of interest to students, through the Discount Handbook available to all students.

The Association runs a Student Information Office (SIO). Various welfare activities (e.g. school visits, blood days, TITWTI, student accommodation) are co-ordinated through the SIO by the Welfare Officer. The SIO also provides general information about various on-campus student activities. The Association runs an employment bureau to obtain part-time and vacation work for students. There is also a travel office in the Administration block for use by staff and students.

The Association is responsible for various publications including a newspaper Craccum which appears weekly during term and traditionally expresses students' views and features news of interest to students; such publications as Tenancy Booklet and Sexuality Booklet and as well distributes the various publications of the national body, NZUSA.

The Association occupies the Student Union Building whose control and use is subject to management by the Student Union Management Committee consisting of six students and five representatives of the University including representatives of the Senate, Council and Sub-Professorial staff.

The Student Union is made up of five blocks. The cafeteria block is under the general supervision of the Catering Manager and contains a basement and kitchen and the ground floor cafeteria seating 600 where a full hot and cold meal service is available. The Restaurant which seats 100 is on the first floor and provides a higher quality meal for students and staff. The Milk Bar on the basement level offers sweets, milkshakes, ice-creams, etc, and has indoor and outdoor seating for 70. The Coffee Bar also on the basement level which seats 90 is open for extended hours and serves coffee, tea and light snacks.

The Administration block contains the Association offices, Council Room, general meeting rooms, and the Executive offices along with the offices of the President and the Association Secretary, Assistant Registrar (Student Union), and the Accountant.

The public office is open from 9 am to 5 pm for Association business. Alongside this stands the block housing the University Bookshop Auckland Ltd, in which the Association has a half interest, above which are the main common rooms. Underneath both these blocks is the basement, storage, toilets and student locker area. The two blocks nearest Alfred Street contain the TV room, billiards room, the sick bay, a common room, and table tennis room.

All students are required to pay the annual Students' Association fee of $52, a portion of which is paid into the building fund. The building fund levy is payable for 5 continuous years of attendance at the University of Auckland, credit being given for attendance at other New Zealand Universities for any full year. The building fund is used to finance present and future buildings in the Student Union.

The Maidment Arts Centre, on the corner of Princes Street and Alfred Street, caters for the cultural activities of the Association and the University. The centre contains two theatres, the larger being the Kenneth Maidment Theatre seating 450, while the smaller Little Theatre is suitable for audiences of up to 120. The Centre is managed by Theatre Management Committee which comprises five Association and four University Members.

The Recreation Centre, administered by a Joint Students' Association/University Committee, opened mid 1977 and provides seven squash courts, a work-out gymnasium and weight training area on a lower level. On the ground level is the main gymnasium adjacent to which are areas for fencing and the martial arts. The Recreation Centre also includes badminton, basketball and tennis courts and has been planned to meet a comprehensive range of student sporting needs.

The official Association noticeboard outside the Custodian’s Office carries information on Association activities and meetings, as well as details on Association appointments to various bodies and committees.
**THE NEW ZEALAND UNIVERSITY STUDENTS' ASSOCIATION**

Formed in 1929, the New Zealand University Students' Association is the national union of New Zealand's university students, to which all seven local university students' association are affiliated, giving a total membership of approximately 50,000.

NZUSA acts for students in all matters of national concern. Education and student welfare are NZUSA's major concerns, but it also takes stands on wider social and political issues on which students, through their representatives, have expressed their collective views.

NZUSA's National Office is in Wellington and is headed by the President along with General, Women's and Education and Welfare Vice-Presidents and two Research Officers. In addition there is one part-time officer, the National Overseas Students' Action Committee Co-ordinator.

NZUSA's policies are made by representatives of its constituent students' associations at Council Meetings twice a year. These policies are carried out under the guidance of the National Executive consisting of the Presidents of the constituent associations and the full-time elected officers of NZUSA.

NZUSA also maintains a travel service through its wholly owned company Student Travel Service Ltd. STS Ltd operates the Air New Zealand domestic standby scheme and provides students with low cost overseas travel and other discounts. STS Ltd has offices on most university campuses including Auckland.

NZUSA's activities are funded by an annual levy of approximately $5 paid by constituent students' associations on account of each individual member. More information about NZUSA can be gained by contacting AUSA or by writing to the President, PO Box 9047, Courtenay Place, Wellington.

**AUCKLAND UNIVERSITY DISTRICT GRADUATES' ASSOCIATION (INC.)**

*President:* R. H. Lockstone, BA, N.Z.

*Secretary:* M. A. Perkinson, MCom, ACA.

The Graduates' Association was formed in 1951 with the primary aim of assisting the Court of Convocation to carry out its function of electing six members of the Court to the University Council, the governing body of the University of Auckland, and to make representations to the Council on any matter concerning the interests of the University.

Other objects of the Graduates' Association are the provision of facilities for intellectual and social intercourse among University graduates, the promotion of interest in University affairs among graduates and others, the publishing of magazines, periodicals, etc dealing with matters concerning graduates or University affairs, and generally furthering the interests of University graduates who are, or have been, members of the Court.

The Association also concerns itself with the interests of undergraduates, particularly in relation to welfare, accommodation, etc. A recent Association project was the setting up of a student loan fund for short-term loans to students in temporary financial difficulties. (Applications for these are made through the Student Counsellors.)

Membership of the Association is open to graduates and diploma holders of any University (in or out of New Zealand).

Those eligible to join the Association who have not already done so would be welcomed as members. The President, Mr R. H. Lockstone, 40 Landscape Rd, Mt Eden, phone 689-519, or Mr M. Perkinson of the Department of Accountancy Auckland University, will be pleased to receive membership inquiries or to give further information about the activities of the Association and the Court of Convocation.
AUCKLAND UNIVERSITY CLUB (INC.)

President: R. B. Wheeler
Vice-President: G. Witton.
Secretary/Manager: Jane Jamieson.
Phone: 732-279.

The Auckland University Club Inc., having obtained a Club Charter, opened its premises on the top floor of the Cafeteria Block in the Student Union on 1 June 1968. The Club provides the means by which former graduates can maintain close links with other graduates, with present students and with members of the University Staff. It encourages a closer relationship between the University and the professional and business community.

Membership is open to persons over the age of 20 who are members of the Court of Convocation of the University of Auckland, graduates or diploma holders of other Universities, members of professional societies who have gained a substantial portion of their professional qualifications as students of the University of Auckland, and members of The Auckland University Students' Assn (Inc.). Numbers are limited in terms of the Club Charter to 2250. Application forms are available from the Secretary.

The Club is located in its own premises at 23/25 Princes St where the facilities include a restaurant, two bars, private function room, reading room and a pool room.

THE NEW ZEALAND UNIVERSITIES GRADUATES ASSOCIATION (UK)

The New Zealand Universities Graduates Association (UK) was formed in 1967 with the main aim of creating and fostering opportunities for graduates of New Zealand Universities to establish contacts with other New Zealand graduates in the United Kingdom of Great Britain and Northern Ireland.

Other objects of the Association are the establishment of links with Universities and University organisations throughout the United Kingdom and New Zealand, and to make known to visitors the names of individuals or organisations who might be helpful to them.

Membership is open to holders of a degree or equivalent professional qualifications and associate membership is available to all members of NZUSA who are not yet graduates. Subscriptions are subject to review and in 1981–82 were member £2, Associate member £1.50, Student £0.75, husband and wife (both qualified) £3.

The Secretary will be pleased to receive membership inquiries and give further information. Postal Address: Secretary Jocelyn Cook, 132 Woodwarde Road, Dulwich, London SE 22 UK.

LECTURE AND LABORATORY TIMETABLES

The following section contains lecture and laboratory times for students taking Courses in the Faculties of Arts, Commerce, and Science. Timetables for lectures in the Schools of Architecture, Engineering, Fine Arts, Law, Medicine, and Music will appear on departmental notice boards at the beginning of the session.

Notes:
(1) The timetable is a basic structure only; additional information is available from the Department.
(2) Certain classes are held at times arranged by the Departments concerned, in particular these are:
(i) lecture for Masters degree courses;
(ii) tutorials and oral and practical classes (this applies to a large number of subjects);
details of all the above are placed on Departmental notice boards or promulgated at early class meetings.
(3) Stage I Science lectures are given in sets. Before the beginning of the session students should consult Departmental notice boards to see which sets of lectures they are required to attend and to confirm the hours shown in the timetable.
(4) Departments will announce the allocation of individual courses to particular lecture hours. Some of the lecture hours shown will be used for optional or alternative courses and in some cases all lecture hours allocated may not be utilised.
(5) Students will not be permitted to enrol in Courses of Study that have a clash in lecture times, except with the approval of the Senate.
(6) Bracketed Papers. Each bracketed paper will be taught at one or more of the times listed. Details are available from the Departments concerned.

**NOTE:** German I students attend T 4 plus an additional four hours from the other listed times. These other classes are streamed and students are allocated to particular streams on the basis of their previous language experience. All students must consult the departmental timetable (available prior to enrolment week in the German Department) before arranging their lecture hours.

TERTIARY ASSISTANCE GRANTS

Tertiary Assistance Grants are available to students who hold the necessary academic qualifications and are New Zealand citizens or permanently resident in New Zealand.

Information on the provisions of the Tertiary Assistance Grants Regulations is available at the Registry room 102.

To be eligible for a tertiary study grant a student must be enrolled in and attending all the lectures, laboratories and tutorials in either:

(a) one of the definitions of full-time study set out below, or
(b) some other programme of study approved by Senate.

DEFINITIONS OF FULL-TIME STUDY 1983

Architecture and Town Planning

- BArch: 36 credits
- Town Planning Intermediate: 6 Arts papers or equivalent in the first year.
- 7 Arts papers or equivalent in the second year.
- BTP: 7 papers
- DipTP: 6 papers
- DipVal: 6 subjects

When extra papers (e.g. Arts or Science papers) are taken for Arch Int in the second or subsequent year the definition of full-time study for the appropriate Degree or Diploma will apply.

Arts

- BA: Either 7 papers
  or 6 papers only, (i) if this is the first year of enrolment for any course at any University
  (ii) if 3 of the papers are at Stage III level
- DipBrC: All work as specified under DipBrC Reg 3.
- DipDrama: All work as specified under DipDrama Reg 3 and 4
- DipEdPsych: Pt I or Pt II
- DipGuid: Pt I or Pt II
- DipLGA: All subjects required under DipLGA Reg 5.

Commerce

- BCom: Either 6 papers
  or 3 Stage III and 2 other papers

Engineering

- Engineering Intermediate: 36 credits
- BE: A Professional year or equivalent.
- DipBIA: All subjects required under DipBIA Reg 4.

Fine Arts

- BFA: 6 papers in the first Professional year
  9 papers in the second, third and fourth Professional years.

Law

- Law Intermediate: All subjects required under LLB Reg 3.
- LLB: First, second or third Law examination or equivalent
- LLB Hons: Division I or II equivalent
- Dip Crim
Where extra papers (e.g. Arts or Science papers) are taken for Law Intermediate in the second or subsequent year the definition of full-time study for the appropriate Degree or Diploma will apply.

**Medicine and Human Biology**
- **BHB**
- **MBChB**

**Music**
- **BMus**
  - Either: 6 papers in the first year of enrolment at any University
  - or: 7 papers
  - or: 3 stage III and 3 other papers
- **BMus (Performance)**
- **BMus (Performance) (Hons)**
- **DipMus**
- **DipMus (Hons)**

**Science**
- **BSc**
  - Either: 36 credits
  - or: 30 credits including 18 above Stage I
  - or: 24 credits other than Stage I
  - or: 24 credits including 12 at Stage III
- **BSc (Hons)**
- **BOptom**
- **DipComp Maths**
- **DipEn Tech (Geotherm)**
- **DipMath Ed**
- **DipOpt**
- **DipStats**

**Masters' Courses**
The student must be pursuing a full-time programme approved by the Head of the Department.

Notes:  
(i) For the purposes of the Tertiary Assistance Grants Regulations the following exceptional combinations of papers/credits have been approved:  
(a) as more than half of a full-time programme:  
- **BA and BMus**: 3 papers at stage III level  
- **BSc**: 12 credits at stage III level  
- **BCom**: 2 papers at stage III level plus one other  
(b) as one-third or more of a full-time programme:  
- **BSc**: 6 credits at stage III level  
- **BE**: Either 3 half-year papers or 1 full-year paper and 1 half-year paper  
- Courses, including intermediates, in Arts and Music: 2 papers  
- **BTP, DipBIA**: 2 papers  

A full list of definitions is available from the Tertiary Grants Section, Registry.

(ii) The following course requirements are not included in the definitions of full-time study for Tertiary Assistance Grants purposes:  
- **LLB and LLB (Hons)**: Legal Practice  
- **BE**: Laboratory requirements
TENURE

In general, students have a standard entitlement to assistance for two recognised courses or five years, whichever is the lesser. (The entitlement to fees grant is for assistance for two recognised courses or the equivalent of five years of full-time study, whichever is the lesser.) The period of tenure for the various courses that have been recognised for tertiary grants purposes is as follows:

One Year: Dip BIA, DipBrC, DipCompMaths, DipDrama, DipEd, DipEdPsych, DipEnTech (Geotherm), DipGuid, DipLGA, DipMus (Hons), DipStats, DipMathEd, MTP, MArch, MJur, LLM (papers only), MMedSc, MHB, BMus (Performance) (Hons), ME (papers only)

Two Years: DiplCrim, DiplTP, MBChB, MA, MCom, MSc, MPhil, MFA, ME (papers and thesis) MMus, LLM (papers and thesis), MA/DipClinPsych

Three Years: BA, BCom, BHB, BMus, BSc, DiplMus, DiplVal, ACA

Four Years: BCom/ACA, BE, BFA, BMus (Performance), BOptom, BSc (Hons), BTP, DiplOpt, LLB (Hons)

Five Years: BArch, BA/LLB†, BA/LLB (Hons)†, BA/BMus†, BA/BMus (Performance)†, BA/DipMus†, BA/DipMus (Hons)†, BCom/LLB†, BCom/LLB (Hons)†, BHB/MBChB, BMus/DipMus†, BMus/DipMus (Hons)†, BMus/DipOpt†, BMus (Performance)/BMus (Performance) (Hons), BA/MA, BA/MA/DipClinPsych.

BSc/MSc, BSc (Hons)/MSc, BCom/MCom, LLB/LLM (papers only), LLB (Hons)/MJur, BMus/MMus, BE/ME (papers only), BTP/MTP

Six Years: LLB/LLM (papers and thesis)*, BFA/MFA*, BHB/MBChB/MMedSc*, BHB/MMH/MBChB*, BCom/ACA/MCom*, BArch/MArch* BE/ME (papers and thesis)*, BMus (Perf)*/MMus (Perf)*, DiplOpt/MSoc (in Psych)*

Notes: (i) Conjoint courses, marked with a dagger (†), count as two courses. Other combined courses count as one course only.

(ii) Those combinations of courses marked with an asterisk (*) have been approved as "long" courses and can qualify for a sixth year of tenure.

(iii) Combinations of BSc/MSc in Chemistry/BE(Chem) and BSc/Hons in Chemistry/BE(Chem) have been designated as Courses of National Importance with a tenure of 6-7 years. Students may apply to the Director-General to receive assistance for these combinations regardless of any previous assistance which has been granted. A combination of a paramedical course and a suitable undergraduate course is also designated as a Course of National Importance.

(iv) A further year's fees assistance is available for Law Professionals in the following combinations only: LLB/LLM/LawProf and LLB (Hons)/MJur/LawProf, LLB/LawProf and LLB (Hons)/LawProf.

SCHOLARSHIPS AND PRIZES

A booklet entitled Awards Handbook is available without charge from the enquiry counter at the Registry, Princes Street. This booklet gives full details of the regulations governing scholarships, bursaries, prizes and other awards administered by the University and details of funds available for special assistance.

A handbook published annually entitled University Grants Committee Handbook gives full details of the regulations governing awards administered by the University Grants Committee. This handbook is available from Whitcoulls Ltd, booksellers, and for reference in the University library.

The attention of students and graduates is drawn to the Scholarships Notice Boards in the cloister on the lower ground floor of the Old Arts Building and in the Student Union.

Review of Scholarship

The Council, in awarding any scholarship, reserves the right to reduce the annual value of such scholarship at any time and from time to time during the tenure of it by any holder should the annual income of the funds of such scholarship, in the opinion, of the Council, render such reduction expedient. All scholarships offered are subject to review in the event of the candidate being awarded other scholarships. Every holder of a scholarship shall be deemed to accept the award of same, subject to the above reservation, and notwithstanding that the value of such scholarship is set out specifically in the Regulations.

Re-award of a Scholarship discontinued by the Original Holder

Fresh applications may be called for in any scholarships discontinued after a period of three months or more from the original date of award; the re-award in the event of the discontinuation of the scholarship to be made on the basis of the original application if possible.

AN ACT TO CONSOLIDATE AND AMEND CERTAIN ENACTMENTS OF THE GENERAL ASSEMBLY RELATING TO THE UNIVERSITY OF AUCKLAND

BE IT ENACTED by the General Assembly of New Zealand in Parliament assembled, and by the authority of the same, as follows:

1. **Short Title and commencement** — (1) This Act may be cited as the University of Auckland Act 1961.
   (2) This Act shall come into force on the first day of January, nineteen hundred and sixty-two.

2. **Interpretation** — In this Act, unless the context otherwise requires, —
   “The Chancellor” means the Chancellor of the University of Auckland elected under this Act:
   “The Council” means the Council of the University of Auckland:
   “Financial year” means the financial year of the University fixed by the Council with the concurrence of the University Grants Committee:
   “General course of study” means the structure of any course for a degree or other academic qualification and the subjects of study in the course; and includes the content of any subject in the course, any set works or periods to be studied, the extent and nature of any practical work required for any such subject, any prerequisites to the course or to the subjects of study in the course, and the types of examination:
   “Lecturer” means a member of the staff of the University of Auckland who is in terms of his appointment an associate professor, a reader, a senior lecturer, or a lecturer of the University; and includes such other persons and classes of persons as the Council from time to time determines:
   “Personal course of study” means the subjects which an individual student selects for a degree or other academic qualification in accordance with the general course of study for the time being prescribed for all students for the degree or other academic qualification:
   “The Pro-Chancellor” means the Pro-Chancellor of the University of Auckland elected under this Act:
   “Professor” means a professor of the University of Auckland; but does not include an associate professor:
   “The Registrar” means the Registrar of the University of Auckland:
   “The Senate” means the Senate of the University of Auckland:
   “Students’ Association” means the Auckland University Students’ Association Incorporated:
   “The University” means the University of Auckland constituted under this Act:
   “The Vice-Chancellor” means the Vice-Chancellor of the University of Auckland appointed under this Act.

3. **Constitution of the University** — (1) For the advancement of knowledge and the dissemination and maintenance thereof by teaching and research there shall be in the Auckland University District a University to be called the University of Auckland.
   (2) The University shall consist of the Council, the professors emeriti, the professors, lecturers, junior lecturers, Registrar, and librarian of the University for the time being in office, the graduates and undergraduates of the University, the graduates of the University of New Zealand whose names are for the time being on the register of the Court of Convocation of the Auckland University District, and such other persons and classes of persons as the Council may from time to time determine.
   (3) The University shall be a body corporate with perpetual succession and a common seal, and may hold real and personal property, and sue and be sued, and do and suffer all that bodies corporate may do and suffer.
   (4) The University established under this Act is hereby declared to be the same institution as the institution of that name existing immediately before the commencement of this Act under the University of Auckland Act 1954 (as amended by the University of Auckland Amendment Act 1957), which institution was originally established under the name of the Auckland University College under the Auckland University College Act 1882.

4. **University District and Court of Convocation** — (1) For the purposes of this Act there shall be a district to be called the Auckland University District, comprising the area specified in the First Schedule to this Act.
   (2) The boundaries of the Auckland University District may be altered from time to time by the Governor-General by Order in Council.
   (3) There shall be a Court of Convocation for the Auckland University District.
   (4) The said Court of Convocation shall consist of the persons whose names are enrolled on a register to be kept by the Registrar.
   (5) Every person shall be entitled to have his name enrolled on the register of the Court of Convocation who —
      (a) Is a graduate of the University; or
(b) Being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted *ad eundem gradum* before the first day of January, nineteen hundred and forty-three, is not, by reason of that qualification, enrolled on the register of the Court of Convocation for any other University District in New Zealand, and is otherwise qualified in accordance with statutes made by the Council to be enrolled on the register of the Court of Convocation for the Auckland University District; or

(c) Not being such a graduate, is a professor or graduate full-time member of the staff of the University or a graduate member, approved by the Council as being of University status, of the staff of an institution affiliated to the University; or

(d) Is otherwise entitled in accordance with statutes made by the Council to have his name enrolled on the said register.

(6) The Council may from time to time make statutes for the keeping of the register of the Court of Convocation, which statutes may include provisions prescribing the persons and classes of persons who are eligible under paragraph (b) or paragraph (d) of subsection (5) of this section for membership of the said Court of Convocation and the conditions (whether as to payment of fee or otherwise) on which persons are entitled to have their names enrolled in the register of the said Court; and, subject to this Act and to the said statutes, if any, the said Court shall have power to make such rules for the conduct of its business as it thinks fit as the Council may determine.

(7) The said Court may make representations to the Council on any matter concerning the interests of the University.

5. Visitor of the University — The Governor-General shall be the Visitor of the University, and shall have all the powers and functions usually possessed by Visitors.

The Council

6. Constitution of Council — (1) There shall be a Council of the University, to be called the Council of the University of Auckland.

(2) The Council shall consist of —

(a) Three members to be appointed by the Governor-General:

(b) The Vice-Chancellor or, while there is no Vice-Chancellor in office or during the absence or incapacity of the Vice-Chancellor, —

(i) The Deputy Vice-Chancellor; or

(ii) While there is no Deputy Vice-Chancellor in office during the absence or incapacity of the Deputy Vice-Chancellor, the Chairman of the Senate:

(c) Five members to be appointed by the Senate, of whom four shall be professors, and one shall be a lecturer appointed by the Senate from its sub-professorial members:

(ca) One full-time lecturer to be elected by the full-time lecturers:

(d) Six members to be elected by the Court of Convocation for the Auckland University District:

(e) One member to be elected by the governing bodies of State secondary schools, technical schools, and combined schools, and such registered private secondary schools as the Council may from time to time determine, being in all cases schools situated in the Auckland University District, each governing body to have one vote for the purposes of any such election:

(f) One member, to be appointed by the Executive Committee of the Students' Association, who shall be, at the time of his appointment, enrolled for a degree or diploma as a full-time or part-time internal student of the University and shall, before being appointed, have been enrolled for at least 2 academic years at a university or universities in New Zealand:

(fa) The president for the time being of the Students' Association:

(g) Such number of members (not exceeding three) as the Council from time to time after the commencement of this Act thinks fit, to be appointed by the Council:

(h) The Mayor of Auckland:

(i) One member to be appointed by the Council of the University of Albany. The first member shall be appointed as soon as practicable after such date as shall be prescribed by Order in Council for a term which shall be deemed to have commenced on the date so prescribed.

(3) The Mayor of Auckland may from time to time nominate a member of the Auckland City Council to be his alternate on the Council; and the alternate for the time being may act in place of the Mayor at any meeting of the Council not attended by the Mayor.
(3a) Notwithstanding anything in subsection (2) of this section, the membership of the Council shall also include for a single term expiring with such date as shall be prescribed by Order in Council, one additional member who shall be appointed by the Council of the University of Albany as soon as practicable after the commencement of the University of Albany Act 1972.

7. Transitional provisions — (Repealed)

8. Terms of office — (1) Subject to the provisions of this Act, the members of the Council elected under paragraph (d) of subsection (2) of section 6 of this Act shall hold office for a term of four years, the members of the Council appointed under paragraphs (c), (ca), and (f) of subsection (2) of section 6 of this Act shall hold office for a term of two years, and all other elected or appointed members of the Council shall hold office for a term of three years. All elected or appointed members of the Council may from time to time be re-elected or reappointed.

(2) Elections or appointments of members of the Council to take the place of members whose terms are due to expire with the thirtieth day of June in any year shall be held or made not later than the third Monday in June in that year; and members so elected or appointed shall come into office on the first day of July following the date specified in this subsection for their election or appointment.

(3) Appointments of members of the Council to take the place of members whose terms are due to expire with the thirty-first day of December in any year shall be made not later than the third Monday in December in that year; and members so appointed shall come into office on the first day of January following the date specified in this subsection for their appointment.

(4) If at the time prescribed by this section for the election or appointment of any member or members of the Council no member or members or insufficient members are elected or appointed, the Council may itself appoint a suitable person in the place, and for the term or the remainder of the term, of the member who should have been elected or appointed.

(5) Every member of the Council elected or appointed under any of the provisions of paragraphs (a), (c), (ca), (d), (e), and (f) of subsection (2) of section 6 of this Act, unless he sooner vacates his office under section 11 of this Act, shall continue to hold office until his successor comes into office. Every member of the Council appointed under paragraph (g) of subsection (2) of section 6 of this Act shall go out of office at the expiration of his term of office.

9. Employees as Council members — (1) No person in the employment of the University shall be eligible for office as a member of the Council, otherwise than under paragraph (b) or paragraph (h) of subsection (2) of section 6 of this Act, unless he is a member appointed by the Senate:

Provided that the Council may pay to any member for the time being of the Council who has acted, at the request of the Council, as an examiner, assessor, or moderator in any subject or examination a fee or stipend determined in accordance with paragraph (c) of section 18 of this Act, and no person to whom any such fee or stipend is paid shall be ineligible as aforesaid:

Provided also that no person shall be ineligible as aforesaid by reason of any other employment by the University if the amount paid to him in any financial year in respect of that employment does not exceed such amount as the Minister of Education from time to time determines.

10. Disqualification of members of Council — The following persons shall be incapable of being elected or appointed to be members of the Council:

(a) A mentally defective person within the meaning of the Mental Health Act 1911:
(b) A bankrupt who has not obtained his order of discharge or whose order of discharge has been suspended for a term not yet expired or is subject to conditions not yet fulfilled:
(c) A person convicted of any offence, punishable by imprisonment, unless he has received a free pardon or has served his sentence or otherwise suffered the penalty imposed on him.

11. Casual vacancies in Council — (1) Subject to subsections (1A) and (1B) of this section if any elected or appointed member of the Council —

(a) Dies; or
(b) Resigns his office by writing under his hand delivered to the Registrar; or
(c) Is absent without leave from three consecutive meetings of the Council; or
(d) Becomes ineligible for election or appointment to the Council under the provision of this Act under which he was elected or appointed; or
(e) Becomes a mentally defective person within the meaning of the Mental Health Act 1911; or
(f) Is adjudged a bankrupt; or
(g) Is convicted of any offence punishable by imprisonment for a term of 2 years or more; or
(h) Is convicted of any offence punishable by imprisonment for a term of less than 2 years and is sentenced to imprisonment for that offence, he shall thereupon cease to be a member and the vacancy thereby created shall be deemed to be a casual vacancy.

(1A) In any case to which paragraph (g) of subsection (1) of this section applies —
(a) The disqualification shall not take effect until the expiration of the time for appealing against the conviction and, in the event of an appeal against conviction, until the appeal is determined; and
(b) The member concerned shall be deemed to have been granted leave of absence until the expiration of that time, and shall not be capable of acting as a member during the period of that leave of absence.

(1B) In any case to which paragraph (h) of subsection (1) of this section applies —
(a) The disqualification shall not take effect until the expiration of the time for appealing against the conviction or the sentence and, in the event of an appeal against conviction or against the sentence or both, until the appeal is determined; and
(b) The member concerned shall be deemed to have been granted leave of absence until the expiration of that time, and shall not be capable of acting as a member during the period of that leave of absence.

(2) If any elected or appointed member of the Council becomes the Mayor of Auckland or the Vice-Chancellor, a casual vacancy shall arise in respect of the office previously held by him.

(3) Every casual vacancy in the office of an elected or appointed member of the Council (other than a member appointed under paragraph (g) of subsection (2) of section 6 of this Act) shall, as soon as practicable, be filled by the election of appointment of a new member, in place of the vacating member, in the same manner as in the case of the vacating member, and the member elected or appointed to fill any casual vacancy shall hold office for only the residue of the term of the vacating member.

12. Proceedings of Council not affected by vacancies, etc. — No act or proceeding of the Council, or of any committee thereof, or of any person acting as a member of the Council, shall be invalidated in consequence of there being a vacancy in the number of the Council at the time of that act or proceeding, or of the subsequent discovery that there was some defect in the election or appointment of any person so acting, or that he was incapable of being or had ceased to be such a member.

13. Election of members — (1) The Registrar of the University, or such other person as the Council appoints, shall be the Returning Officer for the purpose of conducting elections of members of the Council.
(2) The elections of members of the Council shall be conducted and determined, and rolls for the elections shall be prepared in the manner prescribed by statutes or regulations of the University.

14. Meetings of Council — The Council shall meet at such times and places as it determines: Provided that it shall meet at least once in the month of July in each year.
(2) At any meeting of the Council six members shall form a quorum, and no business shall be transacted unless a quorum is present.
(3) At any meeting of the Council the person presiding at the meeting shall have a deliberate vote, and in the case of an equality of votes shall also have a casting vote.
(4) Every question before the Council shall be decided by a majority of the votes of the members present at the meeting of the Council and entitled to vote on that question.

15. Special meetings of Council — (1) The Chancellor may at any time, of his own motion, call a special meeting of the Council, and the Chancellor shall call a special meeting on the requisition in writing of any five members.
(2) Notice of any such meeting shall be posted to each member at his usual address at least forty-eight hours before the time fixed for the meeting.

16. Council may appoint committees — The Council may from time to time appoint standing or special committees.
(2) The council may delegate any of its powers and duties, including any powers, and duties which it has by delegation from any other body of person, but (except as provided in subsection (2) of section 35 of this Act) not including this power of delegation, and not including the power to make statutes and regulations, to any such committee or to the Senate or any person; and the committee or the Senate or person, as the case may be, may, without confirmation by the Council, exercise or perform the delegated powers or duties in like manner and with the same effect as the Council could itself have exercised or performed them.
(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power or the performance of any duty by the Council.
(4) Unless and until any such delegation is revoked, it shall continue to force according to its tenor.
(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Council.

Powers of the Council

17. Council to be governing body of University — The Council shall be the governing body of the University through which the corporation of the University shall act, and shall have the entire management and superintendence over the affairs, concerns, and property of the University; and, subject to the provisions of this Act and any other Act, shall in respect of all such matters have authority to act in such manner as appears to it to be best calculated to promote the interests of the University and of any other institution controlled by the Council and to promote and foster adult education:
Provided that the Council shall not make any final decision on any matter mentioned in section 36 of this Act until it has first consulted the Senate or in the case of any appointment or removal of academic staff the committee of the Senate specified in the second proviso to that section, and considered any recommendations the Senate or committee may make in that behalf, unless the Senate or committee, having had reasonable opportunity to make such recommendations, has failed so to do.

18. Appointment of professors, lecturers, etc. — Subject to the provisions of section 36 of this Act, the Council shall have power —
(a) To institute the offices of professor and lecturer and such other offices as it thinks fit in connection with the University and any other institution controlled by the Council:
(b) To appoint, upon such conditions, for such term, and upon such notice, as it thinks fit, all professors, lecturers, teachers, officers, and servants of the University and of all other institutions controlled by the Council.
(c) To appoint and remove examiners, assessors, and moderators:
Provided that the fee or stipend which the Council may pay to any examiner, assessor, or moderator shall be in accordance with a scale fixed by the Council with the concurrence of the University Grants Committee.

19. Conferment of degrees — (1) The Council shall have power to confer any degree or to award any other academic qualification specified in the Second Schedule to this Act.
(2) The Council may from time to time, by statute, add to or omit from the list of degrees and other academic qualifications specified in the said Second Schedule the name or description of any degree or other academic qualification or otherwise amend the list; and every such statute shall have effect according to its tenor:
Provided that no statute adding to the said list of degrees shall come into force until it has been approved by the University Grants Committee.
(3) The Council shall, in accordance with such conditions as it may prescribe, have power to confer any degree or to award any academic distinction as an honorary degree or academic distinction:
Provided that no honorary degree or academic distinction shall be conferred on or awarded to any person by the Council unless that person has been recommended theretofore by a joint committee of the Council and the Senate set up in accordance with the statutes or regulations of the University.

20. Awards of certificates, etc. — The Council shall have power, under such conditions as it thinks fit, to award certificates, fellowships, scholarships, bursaries and prizes, and to make other awards.

21. Lectures to members of the public — The Council shall have power to provide such lectures and instruction for any persons, whether or not they are members of the University, as it thinks fit, and on such conditions as it thinks fit, and may award certificates to any of them.

22. Power to make statutes and regulations — (1) Subject to the provisions of this Act and any other Act, the Council may from time to time make such statutes of the University as may in its opinion be necessary or expedient for the administration of the affairs of the University.
(2) Subject to the provisions of this Act and any other Act and to the statutes (if any) of the University, the Council may from time to time make such regulations of the University as may in its opinion be necessary or expedient for the administration of the affairs of the University.
(3) Without limiting the generality of the foregoing provisions of this section it is hereby declared that statutes and regulations so made may prescribe any matters which by this Act are required or permitted to be prescribed or with respect to which statutes or regulations are, in the opinion of the Council, necessary or expedient for giving effect to this Act.
(4) Subject to the provisions of section 36 of this Act and, where so required by any Act, to the consent of the University Grants Committee or the Curriculum Committee, the Council may make statutes or regulations
with respect to all or any of the degrees and other academic qualifications, certificates, fellowships, scholarships, bursaries, prizes, and awards of the University which the Council may confer or award, and with respect to general courses of study and personal courses of study for the same.

(5) All such statutes and regulations shall be in writing.

(6) No statute passed by the Council of the University as aforesaid shall come into force until it has been approved by the Governor-General.

(7) All such statutes and regulations shall have effect according to their tenor, and shall be published by the Council.

(8) A copy of any such statute or regulation under the seal of the University shall be sufficient evidence in all Courts of the same and of its having been made and (where necessary) approved in accordance with this section.

23. Seal of the University — The seal of the University shall be in the custody of the Registrar or such other officer as the Council may appoint, and shall not be affixed to any document except pursuant to a resolution of the Council, or by the authority of a resolution of a committee of the Council acting in accordance with an authority for that purpose conferred upon it by the Council.

24. Admission of students — (1) Every person who is academically qualified for entrance to a University in New Zealand in accordance with the requirements of the Universities Entrance Board shall be eligible to matriculate at the University without further examination.

(2) The Council shall have power to decline to enrol any student at the University, or in a particular course or courses, or in classes in a particular subject or subjects on the ground of —

(a) The person not being of good character; or

(b) Misconduct or a breach of discipline on the part of the student; or

(c) The person not having attained the age of sixteen years on the previous thirty-first day of December, or the person not having attained any other age prescribed in respect of any course of study by any course regulations within the meaning of the Universities Act 1961; or

(d) The person being enrolled for full-time instruction in a secondary school, technical school, combined school, district high school, or registered private secondary or technical school; or

(e) Insufficient academic progress by the student after a reasonable trial at the University or at any other University or University College of Agriculture; or

(f) Insufficiency of accommodation or of teachers in the University or in a faculty, department, class, or course of the University;

Provided that the Council shall exercise its power under this paragraph in accordance with criteria and procedures prescribed from time to time by it after consultation with the University Grants Committee.

(g) The person not having satisfied any conditions prescribed by any course regulations within the meaning of the Universities Act 1961.

(3) The Council shall, as soon as practicable after the commencement of this Act, make a statute or statutes governing the persons and classes of persons who may be enrolled or refuse enrolment as external students of the University, and the conditions under which, and the subjects and course for which, they may be so enrolled or refused enrolment. The Council may from time to time make further statutes for all or any of the purposes specified in this subsection, and may by statute repeal or amend any statute made under this subsection. No statute made under this subsection shall come into force until it has been approved by the University Grants Committee.

(4) For the purposes of paragraph (f) of subsection (2) of this section the Council may, if it thinks fit, from time to time make statutes defining the circumstances in which insufficiency of accommodation or of teachers in the University or in a faculty, department, class, or course of the University shall be deemed to exist, and the maximum number of students who may be admitted to any faculty, department, course or class. No such statute shall come into force until it has been approved by the University Grants Committee. Every such definition that is made by statute under this subsection shall be conclusive for all purposes.

(5) Where any person has obtained in any University or other place of learning any degree or other academic qualification or part thereof which the council is empowered to confer or award, the Council may admit that person at its discretion ad eundem statum in the University without further examination and may withdraw any such admission at any time.

(6) A person admitted to the status of the holder of a degree or other academic qualification or part thereof to the University shall not be deemed to be the holder of the degree or other academic qualification or part thereof, nor shall he be entitled to be enrolled as a graduate of the University, but he shall be entitled to
proceed to any degree or other academic qualification of which the degree or other academic qualification or part thereof to the status of which he has been admitted is a prerequisite upon the same terms and conditions as those upon which a holder of the degree or other academic qualification or part thereof is entitled so to proceed.

(7) Where a person who has been a student of another University and has matriculated at any university in New Zealand is admitted to the University of Auckland, the Council of that University shall give him such credits as it considers appropriate for any units or subjects which he has already passed in New Zealand and with which he has been credited towards a degree or other academic qualification in his former University or grant him such exemptions as it considers appropriate, so that he may complete his course without suffering undue hardship as a consequence of his transfer.

(8) Any person who is eligible to be admitted or who has been admitted to a degree of the University of New Zealand, or who has been admitted ad eundem at graduate status by the Senate of the University of New Zealand shall be deemed to be of equivalent status in the University of Auckland for the purpose of proceeding to a degree or other academic qualification of the University of Auckland, and shall, subject to the course regulations for the degree or other academic qualification for which he is a candidate, be eligible to proceed to the degree or other academic qualification.

Provided that, in approving his personal course of study, the senate may, at its discretion, require any such person to complete such supplementary courses as it thinks fit either as a prerequisite to or concurrently with his course of study for the degree or other academic qualification for which he is a candidate.

(9) The provisions of subsection (8) of this section shall, with the necessary modifications, apply to any person who is eligible to be awarded or who has been awarded a diploma of the University of New Zealand, or to any person who has been admitted ad eundem by the Senate of the University of New Zealand to the status of a holder of a diploma of that University.

The Chancellor and Pro-Chancellor

25. Election of Chancellor — (1) At its first meeting held in the month of July in the year nineteen hundred and sixty-two, and in every third year thereafter, the Council shall elect one of its members to be the Chancellor of the University of Auckland:

Provided that the Vice-Chancellor or any other person who is for the time being a member of the Council under paragraph (b) of subsection (2) of section 6 of this Act or a member of the Council appointed by the Senate shall not be so elected.

(2) The Chancellor shall be the ceremonial head of the University and the Chairman of the Council.

(3) Unless the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election:

Provided that, upon any person completing two consecutive terms each of three years as Chancellor, he shall cease to be eligible for re-election as Chancellor until after the lapse of a period of three years during which he did not hold that office.

(4) If the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, the Council shall elect some eligible person to be the Chancellor for the remainder of the term for which the vacating Chancellor was elected.

(5) For the purpose of the election of the Chancellor for any term, the Registrar of the University shall preside at the meeting, but shall not be entitled to vote. In the event of an equality of votes the election shall be determined by lot.

26. Election of Pro-Chancellor — (1) At its first meeting held in the month of July in each year, the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland.

(2) Unless the Pro-Chancellor sooner resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election.

(3) If the Pro-Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act or is elected to be the Chancellor he shall thereupon vacate the office of Pro-Chancellor, and the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland for the remainder of the term.

(4) During any vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Pro-Chancellor shall have and may exercise and
perform all the powers and duties of the Chancellor, other than his powers in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

27. Right to preside at meetings of Council — The Chancellor shall preside at every meeting of the Council at which he is present. If at any meeting of the Council the Chancellor is not present or there is no Chancellor, the Pro-Chancellor shall preside at the meeting; and if the Pro-Chancellor also is not present at the meeting or there is no Pro-Chancellor, the Council shall appoint some member present to preside at that meeting. The Pro-Chancellor or person so appointed shall have and may exercise in any such case all the powers and functions of the Chancellor for the purposes of the meeting.

28. Vice-Chancellor — (1) The Council may from time to time appoint some fit and proper person to be the Vice-Chancellor of the University of Auckland.

(2) The Vice-Chancellor shall have the following functions, powers and duties:
(a) He shall be the academic and administrative head of the University:
(b) He shall, by virtue of his office, be a member of the Council, Chairman of the Senate, a member of every faculty, and a member of every committee set up by the Council or the Senate:
(c) He shall have such duties as the Council, subject to the provisions of this Act, may from time to time specify:
(d) He may, during the intervals between meetings of the Senate, exercise alone (but subject always to the control of the Council and to a right of appeal to the Senate) such of the powers of the Senate as to maintain the discipline of the University as may be prescribed in that behalf by statutes or regulations made under the authority of this Act:
(e) On the occurrence from any cause of a vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Vice-Chancellor shall exercise the powers of the Chancellor in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

(3) The Vice-Chancellor may appoint any member of the Senate to attend in his place the meeting of any board, committee, or other body which is not constituted by or under this Act (whether created by or under any other Act or otherwise) of which the Vice-Chancellor is a member. Any person so appointed shall while so attending be deemed for all purposes to be a member of the board, committee, or other body and may exercise all the rights and powers which the Vice-Chancellor could have exercised had he been personally present. The fact that any member of the Senate so attends shall be sufficient evidence of his authority so to do.

29. Deputy Vice-Chancellor — (1) The Council may from time to time appoint a professor as the Deputy Vice-Chancellor of the University of Auckland.

(2) The Deputy Vice-Chancellor shall hold office for such period as may be determined by the Council.

(3) The Deputy Vice-Chancellor may exercise such of the Vice-Chancellor's functions, powers, and duties, whether arising under any Act or otherwise, as the Council, upon the recommendation of the Vice-Chancellor or (in the absence of such a recommendation) of its own motion, may from time to time either specially or generally delegate to the Deputy Vice-Chancellor.

(4) In addition to the powers conferred upon him by subsection (3) of this section, the Deputy Vice-Chancellor shall, during any vacancy in the office of Vice-Chancellor, or in the absence of the Vice-Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, be Chairman of the Senate and may exercise such other of the Chancellor's functions, powers and duties, whether arising under any Act or otherwise, as the Council may determine.

The Senate

30. Constitution of Senate — (1) There shall be a Senate of the University of Auckland.

(2) The Senate shall consist of:
(a) The Vice-Chancellor:
(b) The professors of the University:
(c) The librarian of the University:
(d) As many full-time lecturers, and each to be elected in such manner, as the Council may from time to time determine:
(e) As many students, to be appointed by the Executive Committee of the Students' Association, as the Council may from time to time determine:

(f) As many and such other officers or members of the University as the Council may from time to time appoint.

(3) The elections of members of the Senate under subsection (2) (d) of this section shall be conducted and determined in the manner prescribed by statutes or regulations of the University, which statutes or regulations shall, in relation to any such election, specify –

(a) The time the election is to be held; and

(b) The classes of person eligible to vote; and

(c) The number of members each such class may elect; and

(d) The terms of office of the members to be elected.

(3A) For the purposes of this section, 'student' means a person who is enrolled for a degree or diploma as a full-time or part-time internal student of the University.

(3B) The term of office of every member of the Senate pursuant to paragraph (e) or paragraph (f) of subsection (2) of this section shall be the term specified in statutes or regulations of the University.

(3C) Before making any determination or appointment under paragraph (d) or paragraph (e) or paragraph (f) of subsection (2) of this section, the Council shall seek and consider the advice of the Senate.

(4) The Senate of the University of Auckland is hereby declared to be the same body as the Professorial Board of the University of Auckland constituted by section 23 of the University of Auckland Act 1954; and every reference in any enactment or document to the Professorial Board of the University shall hereafter be read as a reference to the Senate of the University of Auckland.

31. Chairman of Senate – (1) Whenever there is no Vice-Chancellor or Deputy Vice-Chancellor in office, the Senate shall, at its first meeting held thereafter and at its first meeting in each year, elect one of its members, being a professor, to be the Chairman of the Senate; and if it fails to do so the Council may appoint a professor to be the Chairman of the Senate.

(2) The person so appointed shall hold office until the appointment of a Vice-Chancellor or Deputy Vice-Chancellor or until the election or appointment of his successor under this section, whichever happens first, and shall be eligible for re-election or reappointment, but shall not hold office for more than two terms in succession.

32. Meeting of Senate – (1) The person who is entitled in accordance with the provisions of sections 28, 29, and 31 of this Act to be the Chairman of the Senate at any meeting thereof at which he is present shall preside at that meeting. In the absence of any such person from any such meeting, the members present shall elect one of their number to be the Chairman for the purposes of that meeting and the person so elected shall preside at that meeting.

(2) At any meeting of the Senate the person presiding shall have a deliberative vote, and in the case of an equality of votes shall also have a casting vote.

(3) Every question before the Senate shall be decided by a majority of the valid votes recorded thereon.

(4) At every meeting of the Senate a quorum shall consist of such number of members as the Senate from time to time determines, and no business shall be transacted unless a quorum is present.

(5) Save as expressly provided in this Act, the Senate shall have power to make rules as to the time and place of its meetings and the procedure thereat:

Provided that it shall meet at least once in each year.

33. Proceedings of Senate not affected by vacancies, etc. – No act or proceeding of the Senate, or of any committee thereof, or of any person acting as a member of the Senate, shall be invalidated in consequence of there being a vacancy in the number of the Senate at that time of that act or proceeding, or of the subsequent discovery that there was some defect in the appointment of any person so acting, or that he was incapable of being or had ceased to be such a member.

34. Functions of Senate – (1) The Senate shall have power of its own motion, or at the request of the Council, to make recommendations or reports to the Council on any matter affecting the University.

(2) The Senate shall be specially charged with:

(a) The duty of furthering and co-ordinating the work of faculties and departments and of encouraging scholarship and research; and

(b) The control of the Library.

(3) The Senate shall have power to deal with all matters relating to the maintainance of discipline amongst the students of the University, and shall have such powers of fining, suspending, and expelling students guilty of
History & Legislation, University of Auckland Act 1961

misconduct or breaches of discipline, and such other powers of whatsoever kind as may be conferred on it by statutes or regulations made under the authority of this Act:
Provided that any person aggrieved by any action of the Senate may appeal to the Council, whose decision shall be final.

(4) The Senate shall have power to approve personal courses of study proposed by individual students:
Provided that the Senate shall not approve personal courses of study for a degree or other academic qualification in such a way as to introduce general restrictions not provided for in the course regulations governing the course of study for that degree or other academic qualification.

35. Senate may appoint committees — (1) The Senate may from time to time appoint standing or special committees.
(2) The Senate may delegate any of its powers and duties (including any powers and duties which it has by delegation from the Council or any other body or person) to any such committee or to any person; and the committee or person may, without confirmation by the Senate, exercise or perform those powers or duties in like manner and with the same effect as the Senate could itself have exercised or performed them:
Provided that the Council may prohibit, or impose conditions in respect of, the delegation by the Senate of any power or duty that is delegated to the Senate by the Council.
(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power by the Senate.
(4) Unless and until any such delegation is revoked, it shall continue in force according to its tenor.
(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Senate.

36. Council to consult Senate on academic matters — (1) The Council shall not make any statute or regulation or decision in relation to entrance to the University or to any course of study or to the prescription of any subject for any degree or other academic qualification or certificate, or to any fellowship, scholarship, bursary, prize, or award or the examination or qualification therefor, or to the admission, attendance, and discipline of students, or to examinations and other academic tests, or to the institution of the offices of professor or lecturer, or to the appointment or removal of academic staff, including the Vice-Chancellor and Deputy Vice-Chancellor, or to the appointment of examiners, assessors, or moderators, or to honorary degrees and other academic distinctions, or to the affiliation of any institution or branch or department thereof, until it has first received and considered any recommendation that the Senate may make in that behalf, unless the Senate, having had a reasonable opportunity to make such a recommendation, has failed to do so:
Provided that a decision to confer an honorary degree or academic distinction shall be made in the manner provided in subsection (3) of section 19 of this Act, and nothing in this section shall apply to such a decision:
Provided also that in the case of the appointment of the academic staff, or the removal of academic staff, the Council shall need only to secure a recommendation from a committee of the Senate appointed under section 35 of this Act.
(2) Nothing in the foregoing provisions of this section shall limit any power conferred on the Senate by section 35 of this Act to delegate any of its powers and duties.

Affiliated Institutions

37. Admission of affiliated institutions — (1) The Council may, on such terms and conditions and subject to such inspections, reports, and inquiries as it thinks fit, affiliate other institutions or branches or departments thereof situated within the Auckland University District, or recognise selected members of the staffs thereof as teachers of the University, or admit the members thereof to any of the privileges of the University and accept attendance at courses of study in such institutions or branches or departments thereof in place of such part of the attendance at courses of study in the University and upon such terms and conditions and subject to such regulations as may from time to time be determined by the Council.
(2) The Council may at any time revoke any such affiliation, recognition, admission, or acceptance.

Financial Provisions

38. Benefactions to be strictly applied — Subject to the provisions of the Charitable Trust Act 1957, all benefactions at any time vested in or enjoyed by the University with a declaration of trust, or as an endowment for the promotion of any particular branch of science or learning, shall be applied strictly by the Council accordingly.
39. **Application of income and capital of University** — (1) Subject to the provisions of this Act and any other Act and to the terms of any trust or endowment, the income and capital of the University shall be applied in doing whatever the Council thinks expedient in order that the University may best accomplish the purpose for which it is established.

(2) Without limiting the generality of the foregoing provisions of this section it is hereby declared that the Council may from time to time, out of income which may be applied in accordance with those provisions, create, maintain, and add to a fund or funds for any one or more of the purposes for which that income may be applied.

40. **Money to be paid into bank** — (1) All money received by the University amounting to twenty dollars and upwards shall, as soon as practicable after it has come into the hands of the proper officer of the University, be paid into such bank account or accounts of the University as the Council from time to time determines.

(2) No such money shall be withdrawn from the bank except by authority of the Council and by cheque, or other instrument, signed by an officer of the University approved by the Council, and countersigned by a member of the Council, or by another officer of the University, approved by the Council:

Provided that it shall be lawful, with the prior consent in writing of the Audit Office and subject to such conditions as the Audit Office prescribes, for any money to be paid by the Council by cheque issued by means of a cheque-writing machine, and every such cheque issued by means of such a machine and bearing a facsimile of the signatures, of the persons authorised pursuant to the provisions of this section to sign and countersign cheques shall be deemed to have been duly signed and countersigned in accordance with the provisions of this section.

41. **Loan money to be paid into a separate account** — All money borrowed by the Council on behalf of or for the purposes of the University, other than money borrowed under Section 51 of this Act, shall be paid into a separate bank account in the name of the loan, and shall not be drawn out of the bank or expended except for the special purposes for which it was borrowed.

42. **Investment of money** — Subject to the terms of any trust or endowment, any money belonging to or vested in the University and available for investment may be invested in accordance with the provisions of the Trustee Act 1956 as to the investment of trust funds, or in such other manner as the Minister of Finance from time to time approves.

43. **Provision for Common Fund investment** — (1) The Council may at any time, if it thinks fit, establish the following funds and account:

(a) A Common Fund to be known as the University of Auckland Common Fund:

(b) A Reserve Fund to be known as the University of Auckland Common Fund Reserve Fund:

(c) A Common Fund Income Account to be known as the University of Auckland Common Fund Income Account.

(2) Subject to the provisions of this section, if the Council has established the said funds and account, it may invest any trust funds in its possession, whether at the time in a state of investment or not, whether they came into its possession before or after the commencement of this Act, and whether they comprise the whole or part of the trust estate to which they belong, either —

(a) On a separate account in respect of the trust estate to which the funds belong; or

(b) If the funds are not directed to be invested in some other specified manner, and investment in the said Common Fund is not inconsistent with the terms of the trust instrument (if any) governing the funds, as part of the said Common Fund.

(3) All funds forming part of the said Common Fund shall be invested in the manner required by Section 42 of this Act.

(4) Where any funds of a trust estate are in the possession of the Council and are lawfully invested in any investment in which the said Common Fund may be invested as aforesaid, then, if in accordance with paragraph (b) of subsection (2) of this section the funds could be invested as part of the said Common Fund, the Council may transfer that investment to the said Common Fund and give credit in that Fund to the trust estate for such amount as it considers proper, having regard to its duty to be fair to all those interested in the said Common Fund and to those beneficially interested in the capital and income of the trust estate to which the investment belongs. Upon any investment being so transferred it shall cease to form part of the trust estate to which it formally belonged.

(5) Investments made from funds forming part of the said Common Fund shall not be made on account of or belong to any particular trust estate, but the Council shall cause to be kept an account showing at all times the entitlement of each trust estate in the said Common Fund.
(6) All income derived from the said Common Fund and from the investments and money included therein shall be paid into the said Common Fund Income Account.

(7) In each year interest on the amount of the entitlement of each trust estate in the said Common Fund shall be transferred from the said Common Fund Income Account and credited to that trust estate at such uniform rate as may from time to time be determined by the Council:
Provided that in no case shall the rate so determined be lower than one half per cent below the rate which would be so paid if all the income paid into the said Common Fund Income Account in that year was so transferred.

(8) The Council shall also each year pay into the said Reserve Fund —
(a) All income in the said Common Fund Income Account which is not transferred to any trust estate in that year in accordance with subsection (7) of this section;

(b) All capital gains arising in connection with the said Common Fund.

(9) The funds forming part of the said Reserve Fund shall be kept separate from all other trust funds, and shall be invested in the manner authorised by Section 42 of this Act.

(10) All income paid into the said Reserve Fund as aforesaid, and all income derived from the said Reserve Fund and from the investments and money included therein shall be applied as the Council thinks fit in any one or more of the following ways:
(a) Towards augmenting the capital of the said Reserve Fund;

(b) Towards stabilising or increasing the income of the said Common Fund;

(c) Towards reinstating any losses of capital in the said Common Fund.

(11) The capital of the said Reserve Fund may, if the Council thinks fit, be applied in reinstating any losses of capital in the said Common Fund.

(12) The Council may at its discretion at any time withdraw from the said Common Fund any amount for the time being to the credit of any trust estate in the said Common Fund; and where any amount is being so withdrawn —
(a) If the capital of the said Reserve Fund has increased while the said amount was in the said Common Fund, the Council shall pay out of the said reserve Fund and add to the amount so withdrawn, as capital, such amount (if any) as it considers equitable having regard to the length of the period during which the amount was in the said Common Fund and to the proportion which the said amount bears to the average amount of the total assets of the said Common Fund during that period:

(b) If losses of capital in the said Common Fund have occurred during the said period, then, so far as those losses have not been reinstated and cannot be reinstated from the amounts in the said Reserve Fund at the time of the withdrawal, that amount shall bear its proportion of those losses, as determined by the Council, and the amount being so withdrawn shall abate accordingly.

44. Travelling allowances and expenses of members of Council — (1) The Council may pay to each of its members travelling allowances and expenses; and, in respect of travel in New Zealand, those allowances and expenses shall not exceed those payable in accordance with the Fees and Travelling Allowances Act 1951, and the provisions of that Act shall apply accordingly.

(2) In respect of travel in New Zealand the Council is hereby declared to be a statutory Board within the meaning of the Fees and Travelling Allowances Act 1951.

45. Council may insure members against personal accident while engaged in duties — The Council may from time to time enter into contracts of insurance of a type for the time being approved by the Minister of Education insuring members of the Council against loss from personal accident arising out of and in the course of the exercise of their powers or duties as members of the Council, and may pay the premiums payable in respect of those contracts.

46. Unauthorised expenditure of Council — The Council may in any financial year of the University expend out of the general fund of the University for purposes not authorised by any law for the time being in force any sum or sums not exceeding in the aggregate a one-thousandth part of the revenue of the University from all sources for the immediately preceding financial year.

47. Council to prescribe fees — There shall be payable by the students of the University or any of them such fees as the Council from time to time prescribes:
Provided that scales of tuition and of examination fees may be so prescribed only with the concurrence of the University Grants Committee.

48. Fees payable to associations of students — The Council shall have power to impose and collect from time to time from students of the University or from any of them such fees as it considers reasonable for the benefit of any association or organisation of students of the University, and to dispose of those fees accordingly.
49. Grants by Council to associations of staff or students — The Council may from time to time make grants or loans from its funds on such terms and conditions as it thinks fit to any association or organisation of staff or students of the University.

50. Powers of Council in respect of property — (1) Without limiting or in any way affecting any other powers conferred upon the Council by the Auckland University College Reserves Act 1885 or this Act or any other Act or by law, it is hereby declared that, subject to the provisions of this section, the Council may do all or any of the following things on behalf of and for the purposes of the University, namely:

(a) Establish, build, maintain, repair, add to, alter, rebuild, reinstate, conduct, manage, and control halls of residence for students and academic staff, and houses for academic staff and any other of its employees whatsoever, and buildings and rooms and other facilities for the recreation or social use of students, academic staff and other employees;

(b) Purchase, take on lease, or otherwise acquire any real or personal property for any purposes whatsoever in connection with the University or any institution controlled by the Council:

(c) With the consent of the Minister of Education in the case of land and in other cases without his consent, sell or otherwise alienate any right, title, estate, or interest in any real or personal property vested in the University:

(d) With the consent of the Minister of Education, borrow money from the Crown or, on such terms and conditions as may be fixed by the Minister of Finance, from any corporation or person; and (for the purpose of securing any money so borrowed) mortgage, charge, or pledge any right, title, estate, or interest in any land vested in the University:

(e) Grant leases of any land vested in the University; and for that purpose the Council is hereby declared to be a leasing authority within the meaning of the Public Bodies' Leases Act 1908:

(f) On such conditions as may be prescribed by the Minister of Finance, guarantee loans made to members of the staff for housing purposes by other persons and bodies.

(2) Notwithstanding anything to the Contrary in the Public Bodies’ Leases Act 1908 or in any lease granted by the Council, the Council may —

(a) In its absolute discretion, at any time not earlier than three years nor later than one year before the date of the expiration of any lease of any land vested in the University that does not confer a right of renewal, grant a renewal of the lease upon such terms as it thinks fit; and the provisions of this paragraph shall apply to any such lease whether granted before or after the commencement of this Act:

(b) With the consent of the consent of the Minister of Education, grant leases of land vested in the University upon such terms as that Minister may approve:

(c) Grant leases and licences for the extraction and removal of coal and other minerals from land vested in the University at such rent or royalties and upon such terms and conditions as the Council may determine.

(3) The Minister of Education is hereby empowered to make advances upon such terms as the Minister of Finance may approve to the Council for the purposes of the University out of money appropriated by Parliament for the purpose.

51. Power to borrow by way of overdraft, or temporary loan — In addition to the powers conferred by section 50 of this Act, it shall be lawful for the Council, in anticipation of its revenue, from time to time to borrow money by way of overdraft or on temporary loan on behalf of and for the purposes of the University. Provided that the amount so borrowed shall not at any time exceed one-twelfth of the revenue of the University from all sources during the immediately preceding financial year of the University:

Provided also that at the end of any financial year of the University the amount of the overdraft or loan shall not exceed the outstanding revenue due to the University in respect of that financial year.

52. Annual report and statement of accounts — (1) The Council shall, during the month of April, in every year, furnish to the Minister of Education and to the University Grants Committee a report on the University during the immediately preceding year.

(2) The Council shall also, as soon as practicable after the end of every financial year of the University, furnish to the Minister of Education and to the University Grants Committee a statement of the assets and liabilities of the University as at the end of that financial year, together with an account of income and expenditure showing the financial transactions for that year, which statement and account shall be audited by the Audit Office.
Repeals and Savings

53. Repeals and savings — (1) The enactments specified in the Third Schedule to this Act are hereby repealed.

(2) All bylaws which originated under any of the enactments hereby repealed or under the corresponding provisions of any former enactment and are subsisting or in force on the commencement of this Act shall enure for the purposes of this Act as fully and effectually as if they had originated as regulations under the corresponding provisions of this Act, and accordingly shall, where necessary, be deemed to be regulations and to have so originated; and every reference to any such bylaw in any Act, regulation, order, or other enactment, or in any instrument or document whatsoever shall, after the commencement of this Act, unless inconsistent with the context, be read as a reference to a Regulation made under the corresponding provisions of this Act.

THIRD SCHEDULE

ENACTMENTS REPEALED

1954, No 74 — The University of Auckland Act 1954.
1975, No 25 — The University of Auckland Amendment Act 1957.
COURT OF CONVOCATION STATUTE 1962

Pursuant to Section 4 of the University of Auckland Act 1961

1. This Statute may be cited as the Court of Convocation Statute 1962.

2. The Registrar of the University shall prepare and maintain a register to be known as the Register of the Court of Convocation for the Auckland University District and shall (subject to Section 5 hereof) enrol thereon the names and addresses (so far as such addresses are known) of all persons entitled to be so enrolled under Section 4 of the said Act and under Section 3 of this Statute.

3. Under and for the purposes of subsection 5 of Section 4 of the said Act each person shall be entitled to have his name enrolled on the Register of the Court of Convocation (without fee) who being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted ad eundem gradum before the 1st day of January, 1943, is not by reason of that qualification enrolled on the register of the Court of Convocation for any other University District in New Zealand and

(i) under Section 23A of the New Zealand University Act 1908 was enrolled or entitled to be enrolled on the register of the District Court of Convocation of the Auckland University District at the 31st day of December, 1961, or

(ii) was an undergraduate member of the University of Auckland at the 31st day of December, 1961, and became a graduate of the University of New Zealand after that date, or

(iii) at a date after the 31st day of December, 1961, and immediately before his enrolment had resided in the Auckland University District for a period of not less than three calendar months.

4. Except as provided in Section 5 hereof it shall not be necessary for any person to be so enrolled on the register to apply for enrolment.

5. Every person who is entitled to be enrolled on the register under paragraph (iii) of Section 3 of this Statute may apply to the Registrar for enrolment and upon making that application and producing such evidence of the facts and matters entitling him to enrolment as the Registrar may reasonably require shall be enrolled on the register.

6. Any enrolled member of the Court may, by notice under his hand delivered to the Registrar, object to the register on the ground that any person whose name is on the register does not possess the necessary qualifications.

7. The Registrar shall enquire into and dispose of any such objection forthwith after receiving it.

8. Any person aggrieved by any decision or act of the Registrar relating to the register may appeal therefrom to the Council by notice under his hand, addressed to the Chancellor, and delivered at the University not later than 5 o’clock on the afternoon of the seventh day before the day on which the register is to be closed for the purposes of an impending election.

9. Every such appeal shall be heard and determined by the Council or a Committee appointed by the Council and the Registrar shall amend the register in such manner as the Council or the Committee when disposing of the appeal directs.

10. (a) Any member of the Court having changed his address shown on the register may request the Registrar to amend the register in respect of that address and the Registrar shall make such amendment accordingly.

(b) The Registrar being satisfied (otherwise than under the preceding paragraph (a) of this section) that the address of a member of the Court has been changed may amend the register in respect of that address provided that he shall forthwith post notices of that amendment to the member at both the old and the new address.

11. The Registrar shall expunge from the register the name of any person who has died or has ceased to be entitled to be enrolled thereon, and he shall be entitled to make any amendment of name made necessary by marriage.
THE COUNCIL ELECTIONS (COURT OF CONVOCATION REPRESENTATIVES) REGULATIONS

1. These regulations may be cited as the Council Elections (Court of Convocation Representatives) Regulations.

2. For the purposes of conducting the elections to the Council by the Court of Convocation an electoral roll shall be prepared and revised from time to time of the names of those members of the Court who are eligible to vote in accordance with these regulations.

3. The members of the Court who are eligible to vote at an election by the Court are those members (but no other members) who
   (a) voted at the last two preceding elections
   (b) (having had their names entered on the Court register since the penultimate election) voted at the last preceding election.
   (c) have had their names entered on the Court register since the last preceding election
   (d) (not being in any of the foregoing categories) apply for a voting paper by letter delivered or posted to the Returning Officer so as to be received by him on or before 5 o'clock in the afternoon of the 14th day preceding the day on which the election is to be held.

4. In these Regulations and the forms contained herein:
   'the roll' means the electoral roll prepared in accordance with this regulation
   'elector' and 'voter' respectively refer to those members of the Court whose names are for the time being entered on the electoral roll.

5. The date of election shall be determined by the Returning Officer and reported to the Council.

6. Whenever any election is to be held the Returning Officer shall (not less than forty days before the election) by notice in at least two newspapers, published in the City of Auckland, call for nominations of candidates to be lodged with him on or before a day, to be fixed by him, being not less than ten days from the date of the first advertisement, which notice shall be in the following form (or in a form to the like effect).

THE UNIVERSITY OF AUCKLAND

Election of Member(s) of the Council by the Court of Convocation for the Auckland University District.

An election of member(s) will be held at 5.00 pm on the __________ day of __________ 19________
at the office of the Registrar of the University, Princes Street, in the City of Auckland.

No person shall be recognised as a candidate at this election unless he shall have been previously nominated in a document signed by two electors, and unless such nomination paper shall have been delivered to the Returning Officer by postal delivery or otherwise not later than 5.00 pm on the __________ day of ______________ 19________

The roll of electors will remain open for inspection and additions until 5.00 pm on the fourteenth day before the election and will then be closed. Immediately thereafter the Returning Officer will issue the voting paper to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge).

.................................................................
Returning Officer

7. The roll shall be closed at five o'clock in the afternoon of the twenty first day immediately preceding the day on which an election is to be held and shall continue to be closed until the election is completed; and no name shall be entered on the roll while it is closed. Immediately thereafter the Returning Officer shall issue the voting papers simultaneously to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge); nor shall any voting paper be sent to any person whose address is not within New Zealand, Cook Islands, Fiji, Western Samoa or Australia.

Note: The voting papers for overseas members to be posted airmail.
8. Notwithstanding anything above set out, the Returning Officer shall issue a voting paper to any elector whose name appears on the roll and who shall apply in writing to the Returning Officer for a voting paper on the ground that his voting paper is lost or destroyed or defaced or that no voting paper has been issued to him.

9. At every election the votes shall be given by sealed voting papers issued by the Returning Officer in the form prescribed by these regulations, delivered to the Returning Officer on or before the day and time fixed for holding the election, or posted to him in a sealed envelope on or before that day.

10. In any election to fill a casual vacancy the notice of advertisement calling for nominations shall state that the vacancy is a casual one.

11. If an election for filling a casual vacancy be appointed to be held at the same time as an election for the filling of a vacancy occurring by rotation, hereinafter called an ordinary vacancy, separate voting papers shall be issued for each election and each nomination and each voting paper shall specify to which election it relates, and at the time of election the Returning Officer shall first complete the election for filling the casual vacancy or vacancies; and when such election shall be complete, he shall at once proceed to complete the election for filling the ordinary vacancy.

12. When two or more elections are to take place as contemplated in the last preceding Regulation, then in every advertisement relating to such an election, notice shall be given that no nomination paper will be valid, unless it distinctly indicates to which of the vacancies it shall relate.

13. Nomination shall be made by two persons qualified to vote and shall contain the written consent of the candidate to his nomination.

14. Nomination shall be in the following form (or in a form to the like effect):

```plaintext
THE UNIVERSITY OF AUCKLAND

.................................................................

17. Every voting paper shall be forwarded to the voter accompanied by an envelope, addressed to the Returning Officer.
18. The poll shall close at 5 o'clock on the afternoon of the day of the election; but all voting papers shall be included and counted which are received by the Returning Officer in due course by post before the close of the sixth day after the day of the election, provided the Returning Officer is satisfied that the paper was posted in accordance with the provisions of Section 9. On the seventh day after the day of the election the Returning Officer shall open and count the votes. As soon as the voting papers have been checked with the Roll the name and address shall be removed from each voting paper before the votes are counted.
19. Each candidate shall be entitled to nominate a scrutineer, who shall have the same rights and duties as those vested at the date of the poll in a scrutineer at any polls of the Auckland City Council.

20. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.

21. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.

22. The Returning Officer is authorised to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.

The Council at its meeting held on 18 August, 1975 resolved:

That in respect of elections of members of the Council by the Court of Convocation, Council adopt the following procedure in order to ensure that electors are notified of the qualifications of candidates:

(1) That each candidate for election be invited to send to the Registrar with his nomination paper a short statement, not exceeding 250 words, for inclusion with the voting papers.

(2) That the statement shall include the name, occupation, residence, degrees, academic posts held, publications, and any other relevant information provided by the candidate.

(3) That the Council arrange that a copy of these statements be forwarded to each elector with the voting paper.

14. Every vote shall be made by an Elector in pursuance of a resolution passed at a meeting of the Elector.
15. Every voting paper shall be forwarded to the Elector accompanied by a stamped envelope, addressed to the Returning Officer.
16. All such envelopes received by the Returning Officer shall remain unopened until the close of the poll and no voting paper shall count unless it is received by the Returning Officer not later than the day and hour fixed for the election.
17. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.
18. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.
19. The Returning Officer is authorised to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.

Council at its meeting on 19 July 1982 adopted the following procedure to ensure that electors are notified of the qualifications of candidates:
1. That each candidate for election be invited to send to the Registrar with his nomination paper a short statement, not exceeding 250 words, for inclusion with the voting papers.
2. That the statement shall include the name, occupation, residence, degrees, academic posts held, publications, and any other relevant information provided by the candidate.
3. That the Council arrange that a copy of these statements be forwarded to each elector with the voting paper.
THE COUNCIL ELECTIONS (LECTURERS' REPRESENTATIVE) REGULATIONS

1. These Regulations may be cited as the Council Elections (Lecturers' Representative) Regulations 1978.

2. For the purposes of these Regulations, the Council determines that a person appointed for a term of not less than one year as a temporary lecturer and a person appointed for a term of not less than three years as a junior tutor or tutor, are lecturers within the definition of that term contained in Section 2 of the Act.

3. In these Regulations, unless the context otherwise requires —
   "the Act" means the University of Auckland Act 1961;
   "the Council" means the Council of the University;
   "election" means an election conducted under these Regulations;
   "elector" means a full-time lecturer and includes a person appointed full-time for a term of not less than one year as a temporary lecturer and a person appointed full-time for a term of not less than three years as a junior lecturer, senior tutor or tutor; but does not otherwise include any person holding a temporary appointment.
   "Returning Officer" refers to the Registrar of the University.

4. In the election of one member of the Council pursuant to paragraph (ca) of Subsection (2) of Section 6 of the Act —
   (a) All electors shall be eligible to nominate candidates and to vote; and
   (b) All electors, except those who are temporary lecturers appointed for less than two years, shall be eligible to be nominated as candidates.

5. The election shall be by secret ballot.

6. The date of the election shall be determined by the Returning Officer and reported to the Council.

7. Whenever an election is to be held the Returning Officer shall (not less than thirty-five days before the election) by notice addressed to all electors call for nomination for candidates to be lodged with him on or before the date fixed in that notice but being not less than twenty-one days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):

   THE UNIVERSITY OF AUCKLAND

   Election of one Member of Council by the full-time lecturers under Section 6 Subsection (2) paragraph (ca) of the University of Auckland Act 1961.

   I hereby call for nominations for the Lecturers' representative on the Council. Nominations must be delivered to the Returning Officer by personal delivery or otherwise not later than 5.00 pm on .

   Every full-time lecturer (including a person appointed for a term of not less than one year as a temporary lecturer and a person appointed for a term of not less than three years as a junior lecturer, senior tutor or tutor) is eligible to be an elector and to nominate candidates at this election.

   All electors, except those who are temporary lecturers for less than two years, are eligible to be nominated as candidates.

   Every candidate must be nominated by two electors on a nomination form which must also be signed by the nominee.

   Should an election be necessary it will be held at 5.00 pm on at the office of the Registrar of the University in Princes Street. The election will be conducted as a postal ballot.

   The person elected will hold office for a term of two years [or as required, in the case of a casual vacancy].

   Nomination forms are available from the undersigned.

   RETURNING OFFICER

8. Each nomination shall:
   (a) be made by two electors;
   (b) contain the signature of the person nominated;
   (c) be in the following form (or in a form to the like effect):
THE UNIVERSITY OF AUCKLAND

ELECTION FOR REPRESENTATIVE OF LECTURERS ON COUNCIL

for election to the Council by the full-time Lecturers of the University.

Date .................................................................................................

I consent to this nomination ..................................................................

NOMINATIONS CLOSE AT 5.00 P.M. ON ..............................................

9. If not more than one nomination is received for the vacancy, the Returning Officer shall forthwith after the closing date of nominations declare the candidate duly elected.
10. If more than one nomination is received for the vacancy, the Returning Officer shall immediately after the closing date for nominations issue a voting paper in the prescribed form to each elector.
11. The Returning Officer shall issue a voting paper to any elector who applies in writing to the Returning Officer for a voting paper on the grounds that his voting paper is lost or destroyed or defaced, or that no voting paper has been issued to him.
12. The voting paper shall be returned to the Returning Officer on or before the day and time fixed for holding the election, or sent to him by post or otherwise so as to reach him not later than that day and time.
13. In any election for a casual vacancy the notice calling for nominations shall state that the vacancy is a casual one.
14. Every voting paper shall be in the form following (or to the like effect):

THE UNIVERSITY OF AUCKLAND

REPRESENTATIVE OF LECTURERS ON COUNCIL

Election to be held at 5.00 p.m. on ......... 19 .... of ..........

ONE Member of Council by the full-time Lecturers of the University.

DIRECTIONS

The voter must put an "X" in the square opposite the name of the candidate for whom he wishes to vote.

THE VOTER MUST SIGN HIS NAME, AND PRINT HIS NAME AND DEPARTMENT ON THE BACK OF THE ENCLOSED SPECIAL ADDRESSED ENVELOPE.

Voting papers, in sealed envelopes, must be addressed to the Returning Officer and reach him by the above day and time.

RETURNING OFFICER
15. On completion of the counting of votes the Returning Officer shall forthwith declare the results of the poll by notice published within the University.

16. The Returning Officer shall, subject to these regulations, determine conclusively all questions of detail concerning an election.

17. Where there is an equality of votes between candidates and the addition of a vote would entitle any of those candidates to be declared elected, the Returning Officer shall determine by lot which candidate shall be elected.

18. The Returning Officer is authorised to destroy the voting papers after a lapse of three months from the date of the notices announcing the result of the poll.

19. The University shall be deemed a sufficient address for the issuing of notices and voting papers to electors under these regulations.

THE SENATE ELECTIONS (LECTURERS’ REPRESENTATIVES) REGULATIONS

1. These Regulations may be cited as the Senate Elections (Lecturers’ Representatives) Regulations 1978.

2. For the purpose of these Regulations, the Council determines that a person appointed for a term of not less than one year as a temporary lecturer and a person appointed for a term of not less than three years as a junior lecturer, senior tutor or tutor, are lecturers within the definition of that term contained in Section 2 of the Act.

3. In these Regulations, unless the context otherwise requires —
   ‘the Act’ means the University of Auckland Act 1961;
   ‘election’ means an election conducted under these Regulations;
   ‘elector’ means a full-time lecturer and includes a person appointed full-time for a term of not less than one year as a temporary lecturer and a person appointed full-time for a term of not less than three years as a junior lecturer, senior tutor or tutor; but does not otherwise include any person holding a temporary appointment.
   ‘member’ and ‘lecturers’ representative’ means a member of the Senate elected by the full-time lecturers in a Faculty under section 30 of the Act and these Regulations;
   “Returning Officer” refers to the Registrar of the University.

4. For the purpose of these Regulations —
   The Centre for Continuing Education is deemed to be a Faculty of the University;
   Each member of the staff of each of the Departments of Art History, Geography, Mathematics, and Psychology shall respectively be allocated by the Senate to an appropriate Faculty.

5. (i) The number of members of the Senate to be elected by the full-time lecturers under section 30 (2) of the Act shall be thirteen.
   (ii) Those thirteen members shall be elected by secret ballot from and by the full-time lecturers of the respective Faculties of the University, as follows:—
   The Faculty of Arts; three members.
   The Faculty of Science; two members.
   Each of the eight other Faculties of the University — that is:
   the Faculty of Architecture and Town Planning,
   the Faculty of Commerce,
   the Faculty of Engineering,
   the Faculty of Fine Arts,
   the Faculty of Law,
   the Faculty of Medicine and Human Biology,
   the Faculty of Music, and
   the Centre for Continuing Education; one member.

6. In every election in a Faculty, held under these Regulations —
   (a) All electors in that Faculty shall be eligible to nominate candidates and to vote; and
   (b) All such electors, except those who are temporary lecturers appointed for less than two years, shall be eligible to be nominated as candidates.

7. Each member (other than a member elected to fill a casual vacancy) shall hold office on the Senate for a term of two years beginning on the 1st of February next following that member’s election.

8. The term of office of each of the present lecturer members of the Senate shall, according to the Faculty
from which that member was appointed and (in the Faculty of Arts and in the Faculty of Science) according to seniority of appointment, end as follows:

Faculty of Architecture and Town Planning (one member) 31 January 1979
Faculty of Arts (three members)
   The member from that Faculty whose present term of office began first 31 January 1979
   The two remaining members 31 January 1980
Faculty of Commerce (one member) 31 January 1980
Faculty of Engineering (one member) 31 January 1980
Faculty of Fine Arts (one member) 31 January 1979
Faculty of Law (one member) 31 January 1979
Faculty of Medicine & Human Biology (one member) 31 January 1980
Faculty of Music (one member) 31 January 1979
Faculty of Science (two members)
   The member from that Faculty whose present term of office began first 31 January 1979
   The remaining member 31 January 1980
Centre for Continuing Education (one member) 31 January 1979

9. If any member —
(a) dies; or
(b) resigns his office by writing under his hand delivered to the Registrar; or
(c) ceases to be a full-time lecturer; or
(d) is appointed Acting Head of a Department for a period of more than three months he shall thereupon cease to be a member, and the vacancy so created shall be deemed to be a casual vacancy.

10. (a) Elections other than elections to fill casual vacancies shall take place in the respective faculties not later than July each year so that the names of all lecturers' representatives for the subsequent year are known at the August meeting of the Senate.
(b) An election to fill a casual vacancy shall take place within two calendar months of the arising of the casual vacancy.

11. The Registrar shall be the Returning Officer for the purpose of conducting the elections.
12. Subject to Regulation 10, the date of an election shall be determined by the Returning Officer and shall be reported to the Senate.
13. Whenever an election is to be held, the Returning Officer shall, not less than thirty-five days before the election, by notice addressed to each elector in the appropriate Faculty call for nominations of candidates to be lodged with him on or before the date fixed in that notice but being not less than twenty-one days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):
THE UNIVERSITY OF AUCKLAND

delivery or otherwise not later than 5.00 p.m. on........... 19 ........... Every full-time lec-
turer in the appropriate Faculty (including a person appointed for a term of not less than one year as
a temporary lecturer and a person appointed for a term of not less then three years as a junior lecturer,
senior tutor or tutor) is eligible to be an elector and to nominate candidates at this election.
All electors in the Faculty, except those who are temporary lecturers for less than two years, are eligible
to be an elector and to nominate candidates in that faculty.
Every candidate must be nominated as candidates in that Faculty on a nomination form which must
also be signed by the nominee.
for the purpose of these elections: The Faculty of Arts includes the Department of Art History and
Geography but not the Departments of Mathematics and Statistics, and Psychology.
The Faculty of Science includes the Departments of Mathematics and Psychology.
Elections should they be necessary, will be held at 5.00 p.m. on........... 19 ........... at the
office of the Registrar of the University in Princes Street. The election will be conducted as a postal
ballot.
The persons elected will hold office for a term of two years.
