THE UNIVERSITY OF AUCKLAND FOUNDATION

In commemoration of the Centenary of the University, the University of Auckland Foundation is established for the advancement of education in New Zealand in ways which extend the University’s ability to meet the higher educational needs of the Community.

The Trustees will apply the income of the Foundation from time to time in fulfilling within the University District and elsewhere in New Zealand the purpose for which the Foundation is established:

1. To encourage the transfer and exchange of knowledge among scholars and the dissemination of knowledge among the community.

2. To encourage overseas scholars to visit New Zealand and New Zealand scholars to visit overseas to carry out study and research and to exchange and impart their knowledge and experience.

3. To arrange the movement within New Zealand of resident and visiting scholars.

4. To facilitate those visits and movements of scholars to, from and within New Zealand, assisting to arrange the temporary exchange or occupation of academic posts in New Zealand and (where New Zealand scholars are concerned) overseas.

5. To arrange the giving of lectures and the promotion of educational discussion and debate in New Zealand before invited or public audiences by scholars from both within and without New Zealand and to arrange itineraries and accommodation for the participants;

and in encouraging, arranging and facilitating those activities the Trustees may make such grants, pay such fees, cost of travel and accommodation and make such other expenditure as they consider necessary or desirable.

Note: “New Zealand Scholar” means a scholar resident in New Zealand who is pursuing his career here. “Scholar” includes a person engaged in any discipline, in the study or practice of administration and of technology and in the management or custody of libraries.

Donations to the Foundation should be sent to:

The Registrar,
University of Auckland,
Private Bag,
Auckland 1.

A form of legacy for the Foundation, or for the University as a whole, is available on request from the Registrar.

HISTORY OF THE UNIVERSITY OF AUCKLAND

As early as 1862 an unknown writer, ‘J.G.’, proposed in Chapman’s New Zealand Monthly Magazine that a university should be established in Auckland. No one took up the suggestion. In the South Island, where the inhabitants were wealthier and keener on education, a university was established in Otago in 1869 and a college in Canterbury in 1873. In 1870 Parliament passed legislation to create the University of New Zealand as an examining body with affiliated teaching colleges. An Auckland politician, later Speaker of the House of Representatives, Maurice O’Rorke, tried to induce Parliament to place the University in Auckland, but he failed. The University of New Zealand had no fixed abode; its Senate met in the main towns in turn.

The citizens of Auckland did nothing to establish a college, but some so-called ‘university’ instruction was provided at the Auckland Grammar School. One student, Kate Edger, in 1877 became the first woman to graduate B.A. at a British university.

In 1878 O’Rorke was appointed chairman of a Royal Commission to report on higher education. It recommended that University Colleges should be established at Auckland and Wellington. In 1882 the Auckland University College was set up by Act of Parliament. Thus the College was a creation, not of the citizens and local government, like those in the south, but of the state.

1988 Calendar
The applicants for the first four chairs, of Classics and English, Mathematics, Natural Science, Chemistry and Physics, were interviewed in England by the New Zealand Agent-General and some of the most famous scientists and scholars of the day, including the great Benjamin Jowett of Balliol College, Vice-Chancellor of Oxford University. The men appointed formed an impressive group. The chemist, F.D. Brown, had studied both in France and at Leipzig as well as London, and taught at Oxford and London. He had published a dozen papers. Algernon Phillips Thomas, the biologist, was a Balliol man who had discovered the life history of the liver fluke. The classicist, T.G. Tucker, was to become a famous scholar. When he left to go to Melbourne University in 1885 he was succeeded by Hutcheson Macaulay Posnett, an Irishman who had written several books, including one on comparative literature, what would now be called the sociology of literature, a subject which he is now credited with inventing. The first professor of Mathematics was drowned shortly after he reached Auckland and he was succeeded by W.S. Aldis, who had been the senior wrangler at Cambridge and was the author of several mathematical books.

The College was formally opened on 21 May 1883 in the Choral Hall, then the largest hall in Auckland. The Governor, Sir William Jervois, announced that the College was to be a thoroughly democratic institution, open to all, women as well as men, and to all classes. He remarked that the first College building was a barn. It was, in fact, a disused courthouse.

When O’Rorke had first tried to secure a University for Auckland, in 1872, he had suggested housing it in Government House, left empty when the capital was moved to Wellington in 1865. This immediately aroused opposition in the newspapers, for many Aucklanders hoped that the capital — and the governor — would eventually return to Auckland. These conflicting ambitions lay at the basis of a recurrent feature of the history of the College, the great 'site row' which raged with particular violence in the years 1909-12, with the College trying to get at least part of the grounds of Government House while numerous citizens strongly opposed it. One result was that for years the College had no permanent site or permanent buildings. Instead, it acquired the disused Admiralty House and a building which had been the original Parliament House. In 1907 the Choral Hall was purchased. In 1917 the College occupied the deserted Grammar School. Not until 1926 did it acquire its first permanent building, now the Old Arts building, in Princes Street.

The College was poor: its statutory grant was for many years only £4,000 a year, while its educational reserves were of such poor land that they brought in very little. It was small: there were 95 students in 1883; 156 by 1901. Many of the students had not passed the matriculation examination. Most of them were part-time, trainee teachers and Law clerks, Music students from 1888 onwards, Commerce students by 1905. The College was dominated by the lay members of Council, especially by Sir Maurice O’Rorke, who was its chairman from 1883 to 1916. When Professor Aldis complained in 1892 that he had found the College stables occupied by O’Rorke’s son’s polo ponies he was dismissed! Despite a prolonged public controversy, Council would not reinstate him. Posnett also left, in 1891.

Some of the best professors departed. Most of the remainder grew increasingly out-of-date in their subjects. There was no system of sabbatical or study leave until the nineteen-twenties. The teachers simply handed on traditional knowledge: research was not expected and was rarely done. The staff lectured for very long hours. In some subjects research was impossible. For instance, the library took no mathematical journals, so the mathematicians knew little about recent work. Some students, however, carried out good research notably in Chemistry. In general the students were given a good, traditional undergraduate education, but standards were not rigorous and had in some subjects declined by the twenties.

In that decade and well into the thirties the College was ruled by a Registrar, Rocke O’Shea, and a new Chairman (President after 1924), another former Cabinet Minister, Sir George Fowlds. Under their not always benevolent dictatorship some improvements were made. The first New Zealand graduates with post-graduate education abroad were appointed to the staff, notably the very able economist, Horace Belshaw, the philosopher, R.P. Anschutz, and the physicist, P.W. Burbidge. An excellent researcher, W.F. Short, was appointed as a lecturer in Chemistry.

Some advances were made in providing professional education. The only such education offered at the College was in Law, which attracted large numbers of students. The only 'professional schools' recognized by the University of New Zealand were Medicine at Otago and Engineering at Canterbury. In 1906 the College established a School of Mining, which, covertly and by degrees was turned into a 'School of Engineering'. After fierce battles with Canterbury, fired by provincial rivalry, the Auckland School received University recognition for its teaching in the first two professional years. Students then had to go to Canterbury to complete their final year of education. In the course of this battle, in 1917, the College also began instruction in Architecture.

During the depression of the early nineteen-thirties there was great disputation and rancour. The temporary appointment of a lecturer in history, J.C. Beaglehole, later a world-famous scholar, was terminated, his friends believed, because of a letter of liberal or radical tendency, to a newspaper, defending the
right of Communists to distribute their literature. This episode led to a Council election in which a liberal, Hollis Cocker, displaced a conservative. The College Council now adopted resolutions in favour of academic freedom and received the undeserved congratulations of the flower of the British academic establishment, including Lord Rutherford and Wittgenstein. At this time, in a modern terminology, the College 'came alive'. For instance, some students, led by James Bertram, established a new literary journal, *Phoenix*, which was the focus for the first literary movement in New Zealand history: Allen Curnow, A.R.D. Fairburn, R.A.K. Mason and other writers, later distinguished, wrote for it.

The College received great intellectual stimulus in 1934 when four new professors arrived, H.G. Forder, a very able mathematician, Arthur Sewell, a brilliant lecturer in English, a classicist, C.G. Cooper, and a new historian, James Rutherford.

The College had never had academic leadership. Cocker came to dominate it before and during World War II as much as had O'Rorke and O'Shea. But Council now appointed the first Principal (later Vice-Chancellor) K.J. Maidment. He came in 1950 and remained for two decades. He was a Classics don from Merton College, Oxford.

The nineteen-fifties was a very difficult period in the history of the College — the University of Auckland, as it was called from 1958 onwards. There was a further, fierce 'site row'. Council wanted to move to a larger site out of town. The National Government in 1956 offered Government House to the College as a compensation for staying in Princes Street. Another 'save Government House' campaign followed. Both academic staff and the public were deeply divided over the issue, which was resolved in 1960: The University was to stay where it was.

The 'site row' held up the building programme for about six years, while student rolls rose rapidly, to 4,000 by 1959, with the result that there was bad overcrowding in quite inadequate buildings — army huts, for instance, were erected. Universities everywhere were expanding rapidly. New Zealand salaries were low and many able Auckland staff were recruited by Australian or other universities. Despite these problems, there was significant progress. New subjects were introduced: Geography, Anthropology, Maori Studies, Fine Arts. There was a new emphasis on staff research. Many of the new and younger academics became very active researchers, as could be seen in the growing lists of staff publications.

A general improvement in conditions was spearheaded by a Committee, the Hughes Parry Committee, which reported on University conditions. Staff salaries were raised. For the first time the students were given fairly generous bursaries, which led to a rapid increase in the proportion of full-time students. The government grant to the University rose rapidly. There was a massive university building programme, and over the next two decades the campus was transformed as one large building after another was erected: Fine Arts, Science, Engineering buildings, a Student Union, a new library ... A number of new subjects were introduced, including Political Studies, Art History, and Sociology. In 1968 teaching commenced in the new Medical School, which was the most important 'new development'.

By the end of the sixties Auckland had the largest university library in the country, whereas it had usually been the smallest. Most of the credit for this belonged to Kenneth Maidment. One other change must be mentioned. In 1962 the University at last became independent, when the University of New Zealand was abolished.

When Dr Kenneth Maidment departed in 1970, there were 9,300 students. Under his successor, Dr Colin Maiden, the roll increased to over 13,500 by 1987. Dr Maiden was an Auckland engineer who headed a research division of General Motors in Michigan. One of the first things that struck him in Auckland was the paucity of student facilities. He pushed ahead to get them a theatre, a splendid gymnasium and recreation centre, and a large playing field 'complex'. The entire administrative organisation, from faculties and committees to deputy vice-chancellors, was reformed. The academic boom of the sixties continued well into the seventies and several new buildings, like Human Sciences, were built and new subjects, like Management Studies and Computer Science, were introduced.

The seventies brought numerous social changes: an increase in the proportion of Maori and Polynesian students and in the proportion of women as well as in the proportion of older students. Only in the years 1975-81 were the first two women professors appointed, Marie Clay and Patricia Bergquist. At a time of high inflation the government grant to the University rose rapidly, to $74.7 million by 1987. Nevertheless there was a certain austerity by then, in a bleak economic climate, but after a century of growth the University seems sufficiently strongly established in the community to withstand hard conditions.

GENERAL STATUTES AND REGULATIONS

ADMISSION REGULATIONS

Prerequisites and conditions

1. Subject to the Council's statutory powers to decline enrolment (whether for insufficiency of accommodation or of teachers or for other cause) and to Regulation 2, a person is qualified to matriculate (that is, to be admitted to the University and placed on its books as a student) if that person has been granted —

(a) the University Entrance qualification by the New Zealand Universities Entrance Board either by accrediting or examination, or
(b) admission by the New Zealand Universities Entrance Board at the Standard of the University Entrance examination (see Notes (i) and (ii) below), or
(c) admission by the University Council at its discretion at a standard to be determined in respect of work done in any other University or other place of learning substantially corresponding or equivalent to courses taught at the University of Auckland (see Admission Ad Eundem Statum), or
(d) admission by the University Council under Regulation 7; or
(e) special admission; or
(f) provisional entrance by the New Zealand Universities Entrance Board.

*Notes: (i) Overseas students not previously enrolled at a university who are seeking admission to New Zealand Universities at entrance level are required to apply for a place, and for recognition of overseas educational qualifications, to: The Secretary, Overseas Students Admissions Committee, P.O. Box 12348, Wellington North, New Zealand.
(ii) New Zealand students and others who are ordinarily resident in New Zealand who have obtained University Entrance qualifications for countries outside New Zealand and who seek admission to New Zealand Universities at entrance level must apply for recognition of their qualifications to: The Secretary, Universities Entrance Board, P.O. Box 12348, Wellington North, New Zealand.

2. (a) Save with the permission of the Senate, a person who
(i) has not reached the age of 16 years, by the 31st of December of the year preceding that in which admission is sought; or
(ii) is on the books of another University; or
(iii) is enrolled for full-time instruction in a secondary school, area school or technical institute shall not matriculate or be eligible to be on the books of the University.
(b) The Senate's permission in relation to paragraph (a)(i) of this Regulation shall be granted only in exceptional circumstances.

Note: to paragraph (2) Approval has been given for Auckland College of Education, physical education and music students enrolled at Massey University for BEd to be enrolled in the same year in approved courses at the University of Auckland.

3. A person seeking to matriculate shall comply with the Preparatory Application Regulations.

Matriculation

4. At matriculation (that is, on admission to the University) every student shall make the following declaration: 'I promise to obey the Statutes, Regulations and requirements of the University of Auckland.'

5. Personal Interest Course — Non-Matriculated Students

there are two categories:

(a) Examining
(b) Non-Examining

(a) Examining:
(i) a person who has a personal interest in a paper or papers but is ineligible to matriculate may make application in accordance with the Preparatory Application Regulations and subject to Senate approval may enrol in a paper or papers and sit the University Examinations.
(ii) A student who passes a paper in which he or she is enrolled under (i) above and who subsequently matriculates may have such a paper credited towards a degree or diploma provided that all the necessary conditions for such a degree or diploma (other than matriculated status) were fulfilled at the time that paper was passed.

Note: (i) Applications must be made on the Preparatory Application Form and submitted with a prescribed fee of $27.50 to the Registrar not later than 15 January, or in a case where pre-enrolment is required for a course or paper, by the date set by the Council for pre-enrolment in that course or paper.
(ii) Under the Fees Regulations a late application may be received with a late fee of $22 after 15 January and not later than 15 February.
(iii) On payment of a fine of $22 in addition to the prescribed fee and late fee an application made after 15 February may be considered.
(b) Non Examining:
(i) A person who has a personal interest in a paper or papers but who is ineligible to matriculate may with the approval of the Head of the Department concerned enrol in the paper or papers on condition that the person complies with the preparatory Application Regulations, and all Regulations governing enrolment.
(ii) A student in this category may not take any university examinations.

Note: Approval will not normally be granted to courses or papers with restricted entry, i.e. those requiring application for a place.

Admission ad eundem statum

Note: For students applying to transfer to this University from another university, the Council pursuant to S24 of the University of Auckland Act 1961
(a) may grant admission with credits and exemptions for papers towards the course for a Bachelor’s Degree or a diploma for work which in the opinion of the Senate is substantially corresponding or equivalent
(b) may grant admission to the status of a degree holder or diploma holder with the right to proceed to a specific higher degree or diploma with or without Honours.

Credits may be specified or unspecified and the grant of admission may include permission to advance in specified subjects.

Prerequisites may be prescribed as a condition of the approval to proceed to a higher degree or diploma.

Students from another University in New Zealand

6. A student from another University in New Zealand who wishes to transfer or be admitted to the University of Auckland
(a) Shall do so in accordance with the Preparatory Application Regulations;
(b) Shall be granted admission only if in the opinion of the Senate there are compelling circumstances for transfer to this University.

Students from an overseas University

7. (a) A person ordinarily resident overseas who holds a degree or other qualification from an overseas University may apply for admission to graduate status by completing the prescribed form and submitting it with the prescribed fee to the Registrar not later than 30 November.
(b) A person ordinarily resident in New Zealand who holds a degree or other qualification from, or has partly qualified in an overseas University may apply for admission at the appropriate level by completing the prescribed form and delivering it with the prescribed fee to the Registrar not later than 15 January in the year of the intended enrolment.

Note: A student wishing to enrol in a course or paper requiring pre-enrolment must comply with the Preparatory Application Regulations — i.e. submit their application by the date set by Council for pre-enrolment in that course or paper, even if it's earlier than the date indicated in (a) and (b) above.

8. All applications under Regulation 6 and 7 shall be accompanied or supplemented by such evidence as the Senate may require as to:
(i) identity
(ii) academic standing, and
(iii) any degree or diploma obtained by the applicant from another University.

Special Admission

9. A person who does not hold a University entrance qualification but who has attained the age of twenty-one years by 31 December in the year preceding that for which application is made may be granted special admission to any course of study. The Senate may waive that age requirement where the applicant is in its opinion otherwise fit to be admitted and in particular has
(a) satisfied any qualification for admission specified in the regulations for that course of study; or
(b) completed two years of study at a Teachers College and attained a sufficient standard therein; or
(c) passed School Certificate and attained the age of 16 years by 31 December in the year before enrolment, where granted a place in the course for the Diploma in Music; or
(d) obtained any other qualification approved by the Senate.

10. A student granted Special admission may enrol only for papers or subjects for the course of study for which admission is granted.

11. (a) Special admission becomes normal admission when the student
(i) having been admitted direct to a Professional Examination in Architecture, Engineering or Fine Arts has qualified to proceed to the next Professional Year, or
(ii) having been admitted to any course of study has passed an equivalent full-time course approved for a particular course of study.
(b) When a student has qualified for normal admission the student may enrol in any course of study subject to any requirements for enrolment in that course.

1988 Calendar
12. A person seeking special admission to the University shall apply for it in accordance with the Preparatory Application regulations, submit evidence of age and educational qualifications, and pay the prescribed fees.

Notes: (i) If candidates are under the age of 25, they will generally be advised by the Senate to undertake some preliminary studies unless their applications show professional or technical qualifications such as nurses, mariners or air pilots certificates.

(ii) Closing date for applications for Special Admission is 15 January (except: DipG&O - 1 March or 1 September; DipObst - 1 May or 1 November; DipPaed - 1 October).

(iii) On payment of a late fee of $22 an application for any course of study (except DipG&O, DipObst and DipPaed) may be considered if it is made not later than 15 February.

(iv) On payment of a fine of $22 in addition to the prescribed fees and late fee subject to the permission of the Senate, an application made after 15 February may be considered.

(v) In courses such as DipBIA, or in Fine Arts, where practical qualifications may receive merit classification, students should apply for a place on the appropriate enrolment form and if they are offered a conditional place they should then apply for Special admission where this is required.

Provisional Entrance

Notes: 1. Under the University Entrance Qualification Regulations 1985 of the Universities Entrance Board a person who does not hold a University Entrance qualification and has not reached the age to apply for Special Admission may be granted Provisional Entrance to any Course of Study if that person (a) has reached the age of 16 years by 31 December of the year preceding that in which admission is sought (b) (i) has been awarded in the year in which application is made sixth form certificate in one or more subjects OR (ii) has gained a University Entrance credit in at least one subject under Regulation 10 of the Universities Entrance Regulations 1962. For full details refer to the University Grants Committee Handbook.

2. The entrance qualification shall cease to be provisional when the student has been issued with a certificate from the Universities Entrance Board.

Notes: The Universities Entrance Board will issue a certificate when the student has satisfactorily completed one year's full-time study or its equivalent.

3. (a) While the entrance qualification remains provisional a student may enrol only for papers or subjects of the Course of Study for which permission is granted.

(b) When the entrance qualification ceases to be provisional the student may enrol for any other Course of Study subject to any requirement for enrolment in that course.

4. A person seeking Provisional Entrance to University shall apply on the form provided by the Universities Entrance Board.

Notes: (i) Closing date for applications for Provisional Entrance is 17 November of the year preceding that in which admission is sought.

(ii) The fee prescribed by the Universities Entrance Board is $55 (including GST).

(iii) No late applications will be considered.

PREPARATORY APPLICATION REGULATIONS

1. Every person intending to enrol or to re-enrol in the University who comes within any of the categories described in Regulation 2 and 5 of the Admission Regulations shall give notice of that intention by completing the Preparatory Application Form and submitting it to the Registrar —

(i) By 15 January in the year of intended enrolment, or

(ii) In a case where pre-enrolment is required in any course or paper, by the date set by the Council for pre-enrolment in that course or paper.

2. The categories referred to in Regulation 1 are:

(a) Persons seeking to enrol as first year students (including those seeking Special admission) who are eligible to enrol at the University of Auckland and who have never previously enrolled at a University.

(b) Students whose last previous enrolment was at a University in New Zealand.

(c) Students who (having failed to make satisfactory academic progress) need the permission of the Senate (under the Exclusion Regulations) to enrol.

(d) Students who (wishing to enrol for any course of study or paper where entry is restricted) are required to pre-enrol (see Pre-enrolment Regulations).

(e) Persons seeking to enrol who are ineligible to matriculate.

3. Fees, as appropriate, must accompany the completed form.

Note: Special Admission Personal Interest Course - Non matriculated students (Examining) fee - $27.50. Exclusion — $22. First year students (unless special or personal interest course [examining], pre-enrolment and transfer applications pay no deposit (fees are payable at enrolment). Late applications of the Preparatory Application Form from any of the categories above will be received on payment of a late fee of $22; but if the application is for or includes pre-enrolment with a closing date of 15 January the pre-enrolment or the pre-enrolment section of the form will not (other than in exceptional circumstances) be accepted after 22 January. A fine of $22, in addition to the prescribed late fee is payable on any application for Transfer, Special Admission, Personal Interest Course, Non-matriculated Students (Examining) and Exclusion made after 15 February.

1988 Calendar
ENROLMENT AND COURSE REGULATIONS (GENERAL)

Dates of Terms
1. (a) There shall be in each year three terms. The first term shall begin on the first Monday after 25 February and shall end on the Saturday preceding the 19th Monday of the calendar year. The second term shall begin on the 22nd Monday of the calendar year and shall end on the Saturday of the 11th week thereafter. The third term shall begin on the 36th Monday of the calendar year and shall end on 31 October of each year. The Easter recess shall extend from Good Friday to the Tuesday of Easter week, both days inclusive. The mid-term break during the second term shall consist of the whole of the 6th week.
(b) For the purpose of the holding of such examinations as may be required at the conclusion of the University year, lectures and laboratory courses shall normally cease about the end of the fifth week of the third term in each year.
(c) Lecture and laboratory courses in Engineering shall be suspended for the fourth and fifth weeks of the second term and shall end in the seventh week of the third term.

General Course Provisions
2. (a) Subject to the Admission Regulations and to the express provisions of any other regulations every candidate for a degree, diploma or certificate course shall be required to
(i) be a matriculated student of the University;
(ii) follow the prescribed Course of Study in the order prescribed or indicated in accordance with the regulations governing the Course;
(iii) carry out the prescribed practical work (if any);
(iv) comply with the provisions of the Examination Regulations;
(v) pass the prescribed examinations.
(b) The personal Course of Study of every student shall require the approval of the Senate provided that
(i) the Senate may delegate to the Dean of the Faculty within which the student is enrolled the power to give such approval;
(ii) the Senate may in exceptional circumstances approve a personal Course of Study which does not in every particular satisfy the regulations for the degree or diploma for which the student is enrolled;
(iii) Any person who produces evidence to the satisfaction of the Senate of inability to attend classes and who wishes to take any paper or papers the equivalent of which is not available by extramural enrolment at Massey University may in exceptional circumstances be permitted to enrol at the University of Auckland with such dispensations and upon such conditions as the Senate thinks fit;
(iv) where approval of a personal Course of Study has been withheld by a decision of the Dean acting under delegation of that power the student may appeal to the Senate against that decision;
(v) where options are prescribed for a Course of Study the Senate may at its discretion determine which of them shall be available in any year: provided always that sufficient options shall be available to enable a candidate to complete his Course.
(c) Where in the opinion of a Head of Department an insufficient number has enrolled for a paper taught in the Department or there are insufficient staff to teach it, that Head of Department may, with the approval of the Dean of the Faculty, withdraw that paper for the current year within one week of the beginning of the first Term, if the essential prerequisites for any candidate's course of study are not thereby affected. No candidate shall be charged a fee for any change of course required because of the withdrawal of a paper.
(d) In relation to the time limit for the presentation of a dissertation, original investigation, or thesis, 'academic year' shall in these and all other regulations of the University, unless the context requires otherwise, mean the period from the first day of March in one calendar year to the last day of February in the calendar year next following.
(e) Except (i) as provided in the Extramural Enrolment Statute 1962 and the Extramural Enrolment Regulations and (ii) otherwise with the special permission of the Senate, no student shall enrol or continue to be enrolled at the University of Auckland while enrolled at any other university or university college.

Eligibility to Enrol
3. (a) Students entitled to enrol at the University of Auckland subject to places being available, and who otherwise fulfil the eligibility requirements shall include
(i) those previously enrolled whose official record remains at this University;
(ii) those living in the area defined in the Appendix of these Regulations who wish to enrol for the first time at a university in a course of study in the Faculties of Arts (including the Course for the Diploma in Education but excluding other Diploma Courses);

Commerce

(ii) those who wish to enrol at a university for the first time and are not entitled to enrol under subclauses (ii) and (iii) of Regulation 3 (a) of these Regulations;
(iii) those who have failed to make satisfactory academic progress in their University studies or have been excluded from the University under Regulation 10 of these Regulations;
(iv) those transferring from another university in New Zealand who satisfy the Senate as required by the Admission Regulations that there are compelling reasons for their transfer;
(v) those who wish to enrol to complete the Course requirements of another university in New Zealand;
(vi) those overseas students granted Admission Ad Eundem Statum with credits; or
(vii) those overseas students selected for admission at entrance level.
Each student permitted to enrol shall be subject in enrolment to any restrictions or conditions imposed by the Senate or by the Faculty or Faculties in which he or she enrols.

**Note:** Compliance with the Preparatory Application Regulations is necessary for the categories of students to whom those Regulations apply (e.g. where pre-enrolment is required).

**Enrolment**
4.(a) Every internal student shall enrol at the university in person before the beginning of the first term in accordance with the detailed enrolment timetable published in this Calendar; provided that where a student is, by reason of illness or of any exceptional circumstances beyond his control, unable to enrol in due time, he may with the permission of the Senate enrol late without penalty if he
(i) applies for that permission on or before 31 January, or as soon as reasonably possible in any case where it is after that date the student becomes ill or the exceptional circumstances arise; and
(ii) produces with his application a medical certificate or reasonable evidence of the exceptional circumstances relied upon.

(b) Students whose dissertations, original investigations, or theses for a degree, or diploma, are incomplete shall be required to re-enrol at the beginning of each academic year until the dissertation, original investigation, or thesis is presented.
(c) (i) Candidates for the Diploma in Gynaecology and Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.
(ii) Candidates for the Diploma in Obstetrics must complete a formal enrolment and pay the prescribed fees not later than 1 March for the June examination or 1 September for the December examination.
(iii) Candidates for the Diploma in Paediatrics must complete a formal enrolment and pay the prescribed fees not later than 1 October or such date as approved by the Senate.
(iv) Candidates for the final year of the Degree of Bachelor of Medicine and Bachelor of Surgery must complete a formal enrolment and pay the prescribed fees not later than 15 November or such date as approved by the Senate for the commencement of the Trainee Internship year.
(d) Extramural students shall enrol in accordance with the provision of the Extramural Enrolment Statute and Regulations.
(e) A student who has applied for Ad Eundem Statum Admission, or Special Admission to be eligible to matriculate, and who has not received a decision before the beginning of enrolment week, shall enrol and pay fees as if his application had been granted. If his application is refused he shall be admitted as a non-matriculated student to lectures and laboratories only; provided that his enrolment may be cancelled and his fees fully refunded if within fourteen days of the posting to him of notice of refusal he lodges at the Registry an appropriately completed ‘Alteration to Course’ form.

(f) A student who is enrolled at another University in New Zealand and who wishes to enrol at the University of Auckland shall submit to the Registrar an application to transfer on the prescribed form not later than 15 January in the year in which he wishes to enrol, provided that a late application may be accepted only with the permission of the Senate and on payment of a fee of $22.

**Exceptions**

5. (a) No student shall be enrolled in the same year for more than two distinct Courses of Study for degrees and diplomas. A student enrolling for two such Courses of Study shall be permitted to sit for examination in only two papers or their equivalent more than the maximum allowed in either Course of Study.

(b) (i) No student shall be enrolled in the same year for papers the content of which is substantially similar.

(ii) No student shall be enrolled in any paper already credited to a Course of Study or in any paper the content of which is substantially similar to any paper for which credit has been received provided that in exceptional circumstances the Senate may permit such enrolment for Certificate of Proficiency.

(iii) For the purposes of sub-paragraphs (i) and (ii) above substantially similar papers are not limited to those that are specifically restricted under any regulations for a Course of Study.

(c) Subject to the provisions of the Regulations for any degree or diploma no student shall be enrolled in two stages of a subject in the same year, provided that the Senate may waive this requirement in the case of a student of proven merit.

(d) Any student who has twice enrolled for, but had failed to be credited with a pass in an optional paper or subject shall not be entitled to enrol again for that paper or subject without the prior permission of the Head of Department in which it is taught.

(e) Students who satisfy the Senate that they are unable to attend the full Course of Study for which they are enrolled may, on the recommendation of the Head of Department concerned, be granted partial exemption from lectures.

6. (a) Each student (except for DipG&O, DipObst, DipPaed, or for final year MBChB) shall enrol on the appropriate day and morning or afternoon as set out in the enrolment timetables. Provided that on payment of the prescribed late fee and penalties as Senate may in its discretion impose an enrolment may be accepted after the day prescribed but in no case shall

(i) a student whose home is outside New Zealand be accepted later than the commencement of the second week of lectures, or

(ii) a student permanently resident in New Zealand be accepted later than 31 March, or

(iii) a student be accepted for enrolment in a laboratory subject (including the subject Studio in the Faculty of Architecture, Property and Planning and Faculty of Fine Arts) and any subject prescribed for the First, Second or Third Law Examination for LLB or LLB (Hons) Degree or for the Law Professional Examination and any paper in the Faculty of Engineering except with the special permission of the Senate.

**Notes:**

(i) A late fee of $22 is prescribed.

(ii) Where enrolment is applied for after the end of the first week of term an additional fine of $4.40 is payable for each week or part of a week after the first week of term by which the application to enrol has been delayed.

(b) Each student for the Diploma in Gynaecology and Obstetrics or the Diploma in Obstetrics shall enrol not later than 1 March for the June examination or 1 September for the December examination in that year.

Note: On payment of a fine of $4.40 for each week or part of a week after 1 March or 1 September a late application may be considered.

(c) Each student for the Diploma in Paediatrics shall enrol by 1 October or such later date as approved by the Senate.

**Notes:**

On payment of a fine of $4.40 for each week or part of a week after 1 October a late application may be considered.

(d) Each student for the final year for the Degree of Bachelor of Medicine and Bachelor of Surgery shall enrol by 15 November or such later date as approved by the Senate.

**Notes:**

On payment of a fine of $4.40 for each week or part of a week after 15 November a late application may be considered.

**Choice of Course of Study**

(e) The Courses of Study of those enrolled after the date prescribed will be determined by the Senate and will not necessarily conform with those proposed by the students concerned. In determining such Courses, the Senate will have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at the approved time.

**PhD Enrolments**

(f) The provisions of this Regulation do not apply to enrolments for the Degree of Doctor of Philosophy.
Payment of Fees
7. (a) All fees that cannot be claimed under a study grant or bursary shall be paid in full at enrolment, provided that the Registrar or his deputy may, in exceptional circumstances grant an extension of time for the payment of fees.
(b) A charge of $10 shall be paid with any application to defer payment of fees provided that the Registrar or his deputy may at his discretion waive payment of this charge.
(c) In any case where fees remain unpaid, a student shall not be entitled to have his record transferred to another University or to sit the final examination.

Note: A student who is unable to pay fees at enrolment must interview the Registrar or his deputy and complete an agreement regarding payment. Extension of time for payment of fees is not granted as a matter of course but only in exceptional circumstances.

Alterations to Course of Study
8. (a) Additions, or Deletions of Papers and Subjects
A student who having completed enrolment wishes to alter the Course of Study may apply to the Senate upon the conditions in the schedule of this Regulation for permission to add or delete, from any paper or subject. Any application made after the commencement of the first term in each year shall be submitted to the Registry on the appropriate form with the prescribed fees.

Notes: (i) It is not sufficient to notify a change of course of study solely to a Department. An "Application to Alter Course" form must be handed in at the Registry.
(ii) The prescribed fee is $11
(iii) On payment of a late fee of $4.40 for each week or part of a week a late addition (but not a late deletion) may be considered.

Schedule

Applications for Additions, Deletions and Substitutions of papers and subjects must be handed in at the Registry not later than the date prescribed below:

| Faculties of Architecture Property and Planning, Commerce, Fine Arts, Law, Medicine (except DipG&O, DipObst, DipPaed and final year for MBChB), and Science | ADDITIONS | The Monday of the third week of lectures in the paper(s) concerned.
| Faculties of Architecture Property and Planning, Commerce, Fine Arts, Law, Medicine (except DipG&O, DipObst, DipPaed and final year for MBChB), and Science | DELETIONS | 31 March
| Faculties of Architecture Property and Planning, Commerce, Fine Arts, Law, Medicine (except DipG&O, DipObst, DipPaed and final year for MBChB), and Science | OR | for papers commencing after the beginning of the academic year: the Monday of the third week of lectures in the paper(s) concerned.
| Faculties of Arts and Music | ADDITIONS | Papers in Geography, Mathematics, Psychology and from Group B of the BA Regulations and papers commencing after the beginning of the academic year: The Monday of the third week of lectures in the paper(s) concerned.
| Faculties of Arts and Music | All other papers: 31 March | DELETIONS
| Faculties of Arts and Music | 31 March OR | 31 March
| Faculties of Arts and Music | for papers commencing after the beginning of the academic year: the Monday of the third week of lectures in the paper(s) concerned. | SUBSTITUTIONS Masters courses: 31 March
| Faculty of Engineering | ADDITIONS | Intermediate and papers in other Faculties — refer appropriate Faculty.
| Faculty of Engineering | The first Friday after the commencement of lectures in the paper(s) concerned. | DELETIONS
| Faculty of Engineering | 31 March for full -year and first half -year papers and 8 August for second half -year papers. | SUBSTITUTIONS Masters courses: 30 April
| DipG&O and DipObst | DELETIONS | 1 April for June examinations or 1 October for December examinations.
Notes: Deletions after Prescribed date: (i) A student ceasing to take a paper after the prescribed date for deletion is strongly advised to notify the Registrar as soon as possible but not later than three weeks before lectures for the paper finish. (A ‘Ceased Lectures Form’ is available at the enquiries counter at the Registry for this purpose).
(ii) Where a student ceased lectures as under (i) above the following will apply: (a) the academic record will show the date of notification against the paper concerned (eg ‘withdrew May’) (b) for exclusion purposes the paper will be treated as a ‘year of academic studies’ (c) for tertiary grants purposes the paper will be treated as a failure. (d) for selection in a restricted course/paper there is no overall policy. It is important therefore to ask the Dean of the Faculty or the Head of Department concerned for information in this respect. (ii) A student should refer to Regulation 8(c)(2)(ii) of the Examination Regulations if the reason for ceasing to take a paper is illness or injury, or any exceptional circumstances beyond his or her control.

Fees

(b) Payment of Additional Fees or Late Fees
Any additional tuition fees and all late fees shall be paid at the time of the lodging of the application.

(c) Refund of Fees
(i) Where a candidate applies under paragraph (a) of this Regulation and within the appropriate time limit (1) to delete all the papers for which he or she is enrolled, he or she shall receive a full refund of all tuition fees, and of the Students’ Association Fee and Welfare Fee.
(2) to delete paper(s) but not all the papers for which he or she is enrolled or to substitute a paper for which a lesser fee is prescribed, he or she shall receive a refund of the difference between the total fees paid and the total due.
(ii) Where a student for reasons of illness or any exceptional circumstances beyond his or her control makes a late application for deletion, the Senate may in its absolute discretion grant a partial refund of tuition fees, but in no case of the Students’ Association Fee and Welfare Fee.

Note: Students who have their tuition fees paid under University Scholarships, Fees Grants or Bursaries, Government Study Awards, Training College Bursaries, Secondary Teachers’ Studentships, or Bilateral Aid Programme should note that if they do not comply with the Regulations relating to ‘Alterations to Course of Study’ they may prejudice their scholarship or bursary in a future year.

Non-Matriculated Students

9. Admission to lectures or laboratories may be granted to non-matriculated students provided they comply with all other Regulations governing admission. The Council may from time to time restrict entry of non-matriculated students to one or more subjects by reason of shortage of accommodation or other special circumstances.

Note: A non-matriculated student may not enter for any degree, diploma, or certificate of proficiency examinations as he is unable to comply with the course Regulations.

Exclusion for failure to make satisfactory academic progress in a Course of Study as a whole

10. (1) In this Regulation and the schedule to it: ‘unsatisfactory student’ (i) means a student who has made insufficient academic progress in that he has failed to the extent described opposite the name of that Faculty, in the right hand column of the Schedule to this Regulation, in any Course of Study there specified; (ii) includes any student who fails to comply with conditions of enrolment imposed under clause (5) of this Regulation. In the case of any student, a ‘year of academic studies’ means a year in which he is enrolled and has not withdrawn enrolment by the prescribed dates.
(2)(a) No unsatisfactory student may enrol at the University without the prior permission of the Senate.
(b) This clause of this Regulation does not apply to a student
(i) enrolling to complete Case Studies, Dissertation, Original Investigation or Thesis for any degree or diploma, or
(ii) enrolling for further study within the two years next following the completion of a degree or diploma or for a prerequisite for a Master’s Degree or postgraduate diploma, provided that if a student has previously enrolled for a further course or courses of study over the last two years the conditions under Regulation II will apply, or
(iii) enrolling for the Degree of Doctor of Philosophy.
(3) No student may enrol in the University, without the prior permission of the Senate,
(a) who has been excluded from any university on the ground that he has failed to make sufficient academic progress; or
(b) who wishes to transfer to this university from another university under the Regulations of which he requires special permission to enrol having failed to make sufficient academic progress.
(4) Application for permission to enrol under paragraph (2) or paragraph (3) of this Regulation shall be made in accordance with the Preparatory Application Regulations.

1988 Calendar
Note: (i) Applications must be made on the Preparatory Application Form and submitted with the prescribed fee of $22 to the Registrar not later than 15 January, or in a case where pre-enrolment is required for a course or paper, by the date set by Council for pre-enrolment in that course or paper.

(ii) Under the Fees Regulations a late application may be received with a late fee of $22 after 15 January and not later than 15 February.

(iii) On payment of a fine of $22 in addition to the prescribed fee and late fee an application made after 15 February may be considered.

(5) In granting a student permission to enrol under clause (2) or clause (3) of this Regulation, the Senate may impose on the student such conditions as it thinks fit:
(a) in relation to the minimum academic progress he must make in the year of enrolment (so as to be entitled to enrol in the next year without application under this Regulation);
(b) otherwise in relation to his future Course of Study.

(6) (a) Any student
(i) to whom the Senate refuses permission to enrol under clause (2) or clause (3) of this Regulation; or (ii) who objects to any condition of enrolment imposed by the Senate under clause (5); may within 14 days appeal to the Council against the refusal or imposition.

(b) A student who has appealed in accordance with this Regulation may pending the outcome be permitted by Senate provisionally to enrol in the same year in a Faculty other than the one in respect of which the appeal is being undertaken, and should the Council confirm the Senate's refusal to enrol the student in the course in respect of which an appeal is undertaken, Senate may make that provisional enrolment definite.

(c) In the event that Council confirms the Senate's refusal to enrol the student in the course in respect of which an appeal is undertaken, Senate may nevertheless readmit the student to that course in a subsequent year, provided that the student has by study or other activity in the interim shown to the satisfaction of Senate that there is a reasonable chance of academic success at the University.

(7) This regulation is subject to Regulation 11 and 12 of these Regulations.

Note: A full-time Course of Study is as defined in the Scholarships, Tertiary Assistance Grants and Awards Section.

Students who have enrolled in two or more Courses of Study

11. Notwithstanding anything in the Schedule or Regulation 10 or in Regulation 12 of these Regulations
(a) a student who has enrolled for two or more courses will require the prior permission of Senate to enrol for any course at the University if that student has over the last two years of academic studies failed to pass the equivalent of one year’s full-time Course of Study or if part-time at least half of the papers enrolled for;
(b) a student who has enrolled for two or more courses will require the prior permission of Senate to enrol for any Course of Study in which that student has over the last two years of academic studies failed to pass at least half of the papers enrolled for.

Application of Foregoing Regulation to Students who have been Enrolled Part-time
12. Regulation 10 of these Regulations shall not apply to a student who, over the last two years of his academic studies, has been enrolled in this University part-time for a Course of Study and has passed at least half of the paper or subjects for which he was so enrolled.

Cross Credits
13(a) In this Regulation, cross-credits means papers of subjects which:
(i) are common to two or more Courses of Study;
(ii) have been passed by a candidate for the purpose of one of those Courses of Study; and
(iii) that the candidate desires to transfer to another of those Courses of Study.
(b) A candidate may, on payment of the prescribed fees under the Fees Regulations, transfer to the Course of Study for any degree or diploma named or referred to in the left hand column of the Schedule to this regulation cross-credits as shown opposite the degree or diploma so named or referred to in the right hand column of that Schedule (subject to any other provisions of this regulation).
(c) No Stage III paper that fulfils the Stage III requirements of a Course of Study may be cross-credited to meet the Stage III requirement of another Course of Study.
e.g. Stage III Maths credits passed as the only Stage III credits for BSc, could not be credited to BA unless three other Stage III papers were passed for the BA Course of Study.
(d) No candidate may transfer as a cross-credit any paper or subject passed with a conceded pass or restricted pass; and if that paper or subject is compulsory any other paper or subject may be substituted for it as the Senate may approve.
(e) No candidate may transfer as a cross-credit any paper or subject already so transferred under this Regulation.
(f) In any case where an application for the transfer of cross-credits
(i) is not otherwise covered by this Regulation or not covered by special provisions made elsewhere in the Regulations of the University or
(ii) is subject to any doubt or difficulty in the interpretation of these or any other Regulations of the University — the Vice-Chancellor may approve any such transfer of credit, or give any such direction in relation to the application, as he thinks fit.

Exemptions
15(a) A candidate for a degree or diploma, who has passed in a paper or subject not prescribed for that degree or diploma but the same as or substantially equivalent to a paper or subject so prescribed, may at the discretion of the Senate be exempt from that prescribed paper or subject; subject, however, to the provisions of any other regulation.

(b) A candidate exempted either under this or any other regulation for a paper or subject shall pay the prescribed fee under the Fees Regulations to be exempted from that paper or subject.

16. Except as permitted by Regulation 12 of these Regulations or by the Regulations for any particular Course of Study, no candidate may be granted in all more than one-third of the paper requirements of a Course of Study as cross-credits, credit, or exemptions.

Abandonments
17. A student may apply on the appropriate form and on payment of the prescribed fee to abandon papers credited to one Course of Study and have them credited to another Course of Study.

1988 Calendar
Note: The prescribed fee for an "Abandonment" application is $11.

**Completion of Degree or Diploma at another University**

18. A student who leaves the University of Auckland district either to reside in another university district within New Zealand or to reside overseas, and who has passed for a degree or diploma of the University of Auckland such part of the work as the Senate may from time to time determine to be the major part of the work for that degree or diploma may, with the approval of the Senate in order to complete that degree or diploma, take appropriate examinations at another University and may, with like approval be granted credits under these regulations for such examinations.

**Additional Lectures**

19. A student while pursuing a Course of Study in the University may with the approval of the Dean of the appropriate Faculty, after consultation with the Heads of Departments concerned, take lectures in a subject which he is not offering for examination without payment of fee for the Course provided that this facility shall be granted only where the additional lectures would be useful in supplementing the student's Course of Study.

**Vice-Chancellor's Special Powers**

20(a) The Vice-Chancellor may give such direction, or make such provision as he shall think fit for the relief of undue hardship where it is shown to his satisfaction:

(i) that an alteration or amendment to statutes or regulations involving a change in a Course of Study or in examination requirements has caused a candidate hardship; or

(ii) that official advice has been given and acted upon, and it is later found that a candidate's Course of Study is not in accordance with the governing regulations and hardship would be caused if the candidate were to be compelled to comply with the full requirements of the regulations.

(b) Where a candidate for a Master's degree or Bachelor of Science (Honours) degree writes a script outside the prescribed time for the examination, the Vice-Chancellor shall have power to

(i) admit or reject the script as part of the examination

(ii) authorise the Head of Department to conduct an oral examination, and the Head of the Department where appropriate and if necessary, shall submit a mark based on the year's work and the oral examination.

(c) A candidate may appeal against any decision of the Vice-Chancellor under this Regulation to the Council by giving notice in writing to the Registrar within fourteen (14) days of being notified of the decision. Council shall have the power to make such provision as it may think fit. The decision of the Council on any appeal under this Regulation shall be final.

**APPENDIX**

THE LIMITATION OF ENTRY STATUTE 1985

1. This Statute may be cited as the Limitation of Entry Statute 1985 and shall come into force on 1 January 1986.
2. There is deemed to be an insufficiency of accommodation or of teachers in respect of a faculty, department, class or course if
   (i) students cannot be allocated places in appropriate lecture rooms or laboratories at times when they can be reasonably expected to attend, or
   (ii) the number of teaching staff does not ensure that all students can be adequately taught.
3. The maximum number of students that may be enrolled in any such faculty, department, class, or course shall be such as the Council after securing a recommendation from the Senate and after consultation with the University Grants Committee shall from time to time determine in respect of each such faculty, department, class or course.
4. In determining such maximum number of students the Council may after securing a recommendation from Senate and after consultation with the University Grants Committee:-
   (a) prescribe academic standards to be achieved as a prerequisite for enrolment in any such faculty, department, class or course and
   (b) prescribe other criteria for selection of students to be permitted enrolment in any such faculty, department, class or course.

ENROLMENT
To facilitate enrolment 1988 ALL FIRST YEAR students (except most special admission applicants, but including those applying for transfer from another NZ University) and those subject to exclusion will be required to complete a Preparatory Application Form to be submitted as soon as possible prior to 15 January. These are available from the Registrar, University of Auckland, Private Bag, Auckland, or at the Enquiries Counter, Registry Building, 24 Princes Street.

1. Students wishing to enrol at the University of Auckland in 1988 who come under any of the categories listed below must complete a Preparatory Application Form.

(a) First Year including those applying for Special Admission or Personal Interest Courses.
New Zealand students or those ordinarily resident in New Zealand who have never previously enrolled at a University in New Zealand or overseas.

Note: (i) Those who do not hold New Zealand University Entrance qualifications but have passed an entrance qualification for admission to an overseas university must complete the Preparatory Application Form and also apply for a grant of Admission Ad Eundem Statum at entrance level through the Universities Entrance Board, P.O. Box 12348, Wellington North.
(ii) Overseas students on entry permit who have applied or are applying to OSAC for a place must not complete the Preparatory Application Form.

1988 Calendar
(b) Transfer
Students whose last previous enrolment was at another University in New Zealand.

(c) Exclusion
Students who have failed to make satisfactory academic progress and require the permission of Senate to re-enrol.

(d) Pre-enrolment
Students who wish to enrol in a course of study or paper(s) with restricted entry (as detailed in the timetable below).

The Preparatory Application Forms must be completed and posted to the Registrar, University of Auckland, Private Bag, Auckland or handed into the Enquiries Office, Registry Building, 24 Princess Street by the prescribed date listed below if pre-enrolling, otherwise not later than 15 January 1988.

Late applications are subject to a late fee of $22.

Note: (i) Late applications for restricted entry courses/papers with a closing date of 15 January will not be accepted after 22 January (other than in exceptional circumstances.)

(ii) For those restricted entry courses/papers with a closing date other than 15 January late applications will not be considered except
(a) in exceptional circumstances
(b) if places remain available in the course/paper concerned.

2. In addition to completing the Preparatory Application Form all students must complete their enrolment by attending in person at the University in accordance with the Enrolment Timetable. Students failing to enrol in accordance with the Timetable may forfeit their place or be charged late penalties in full.

PREPARATORY ENROLMENT
Because of insufficient accommodation and restrictions on staffing there will be a limitation on the number of students who can be enrolled for certain courses at the University in 1988. With a few exceptions (see Notes) those wishing to enrol in 1988 for any of the Courses of Study listed below must complete a Preparatory Application Form by the date prescribed. Application forms are available from the Registrar, University of Auckland, Private Bag, Auckland, or at the Enquiries Counter, Registry Building, 24 Princes Street. Intending students will not be permitted to enrol in any of the Courses of Study listed below unless they have received notice in reply to their Preparatory Application Form that a place is available in 1988. Students wishing to enrol for Courses of Study other than those listed below do not need to pre-enrol.

Note: (i) Late applications for restricted entry courses/papers with a closing date of 15 January will not be accepted after 22 January (other than in exceptional circumstances). (ii) For those restricted entry courses/papers with a closing date other than 15 January late applications will not be considered except (a) in exceptional circumstances (b) if places remain available in the course/paper concerned.

Notes:

1. Admission Ad Eundem Statum
   (a) Students from other New Zealand Universities wishing to transfer to the University of Auckland.
   Students from other New Zealand Universities wishing to transfer to the University of Auckland are required to make application to transfer on the appropriate form to the Registrar not later than 15 January, or in the case of students wishing to enrol in any course or paper requiring pre-enrolment, by the date set by Council for pre-enrolment in that course or paper. A late application may be accepted with the permission of the Senate and subject to availability of places and upon payment of a late fee of $22 up to 15 February, and after 15 February upon payment of an additional fine of $22.

   Because the University of Auckland is unable adequately to accommodate all of the students who in 1988 will seek to gain admission, students wishing to transfer to the University of Auckland for any undergraduate course shall be admitted ONLY IF THERE ARE COMPPELLING CIRCUMSTANCES FOR TRANSFER TO AUCKLAND. Students wishing to enrol for papers or courses in which restriction of numbers is necessary will be selected on priority gradings based largely on their previous academic record. They will be required to nominate alternative papers and may be considered for alternatives if there are insufficient places in the papers of their first choice.

   (b) Students from Overseas requiring a student entry permit
   Under Government Regulations students who would require a student entry permit to enrol and who have part of a qualification from a University outside New Zealand cannot be enrolled with credits towards any course at the University of Auckland except in a limited number of specified cases.

   (i) Overseas students seeking admission at entrance level should apply to the Overseas Students Admissions Committee (OSAC), P.O. Box 12348, Wellington North, New Zealand as follows.
   Those in New Zealand, Fiji, Tonga, French Polynesia and Hong Kong by 1 September 1987.
   Those in places other than New Zealand, Fiji, Tonga, French Polynesia and Hong Kong by 1 May 1987.

   (ii) A person applying for graduate status must apply to the University for admission not later than 30 November.

2. Special Admission
   Students are referred to Regulation 9 of the Admission Regulations and General Fees and Penalties under the Fees Regulations.

3. Exclusion for Failure to make Sufficient Progress in Course of Study as a whole
   Students are referred to Regulation 10 of the Enrolment and Course Regulations (General) and General Fees and Penalties under the Fees Regulations.

4. Preparatory Enrolment Interviews
   A General Information and Advisory Centre in the Lower Lecture Theatre will be open from 7 to 15 January, and in the Recreation Centre will be open from 17 to 24 February. The Liaison Office will be open from 5 January.

5. Penalties
   (a) Late Preparatory Enrolment, Late Enrolment, Late Additions or Deletions to Courses
   Students are referred to Penalties under the Fees Regulations for applications for late submission of the Preparatory Application Form, and late enrolment. For late additions or deletions of courses refer to Regula-
tion 8 of the Enrolment and Course Regulations (General).

(b) Choice of Course

The Course of study of a student making a late enrolment will be determined by the Senate and will not necessarily conform with that proposed by the student concerned. In determining the student's Course the Senate will have regard to prior claims upon both laboratory and classroom space of students who have enrolled in accordance with the enrolment timetable.

6. Refund of Fees

Students are referred to Regulation 8(c) of the Enrolment and Course Regulations (General).

---

1988 ENROLMENT TIMETABLE

Students wishing to enrol at the University of Auckland in 1988 are required to attend at the University, Princes Street, to enrol during the hours of 9 a.m. to 5 p.m., Thursday 18 and Friday 19, Monday 22 February – Friday 26 February 1988 inclusive in accordance with this timetable. Enrolment is not completed until all fees payable in cash are paid in full. (Credit cards are not acceptable).

Students who were required to pre-enrol for a course of study or paper with restricted entry are asked to bring with them their 'confirmation of place'.

Students enrolling for the first time at a university should bring their UE, or other UE equivalent, HSC, 6th Form Certificate, Bursary or Scholarship results or evidence of admission ad eundem statum at entrance level. Any student who has changed name since last enrolment should produce a marriage certificate, a deed poll, or a statutory declaration.

Students enrolling in more than one Faculty should note that only one enrolment form is required.

Students other than those enrolling for the first time at a New Zealand University must collect their enrolment forms from Mathematics Lecture Theatre 1, Physics/Mathematics Building, 36 Princes Street, the day of their enrolment. Students enrolling for the first time at a New Zealand University must collect their enrolment forms from Physics Lecture Theatre 1, Physics/Mathematics Building, 36 Princes Street, the day of their enrolment. Students who may have difficulty completing enrolment due to disability should write to Disabled Students Resource Officer, AUSA, not later than 15 January, giving their name, address, telephone number, details of their disability, assistance required and the papers and course in which they propose to enrol.

Students failing to enrol in accordance with the Timetable may forfeit their place or be charged late penalties in full.

EXTRAMURAL ENROLMENT STATUTE
1.(1) This Statute may be cited as the Extramural Enrolment Statute 1981.
(2) This Statute shall come into force on 1 January 1982.
2. Any person qualified to enrol at a University in New Zealand who in any year is living in the urban area of Auckland and who satisfies the Senate of the University of Auckland that he or she should not be required to attend classes at the University, shall, subject to the provisions of this Statute and upon such conditions as Senate thinks fit, be permitted to enrol extramurally in that year.
3. No person who is already on the books of another University in New Zealand as a candidate for any degree, diploma or other qualification shall be permitted to enrol extramurally without the permission of that other University.
4. Except where the Senate otherwise permits, a person who is permitted to enrol extramurally in any paper or papers for which extramural tuition is provided at Massey University, shall —
(a) be required to register or enrol for tuition in each such paper at Massey University;
(b) not enrol in the same year for any other paper or papers at the University of Auckland;
(c) take the examinations of Massey University, and appropriate credit shall be granted at the University of Auckland for the paper or papers passed.
5. Save with the permission of the Senate granted in such exceptional circumstances as it thinks fit, no person on the books of the University of Auckland may be enrolled extramurally in respect of
(a) any Stage III paper;
(b) any work for a Master's Degree;
(c) any work for a diploma;
(d) any paper requiring practical or laboratory work;
(e) any paper or other work which, in the opinion of Senate, requires internal tuition at a University.
6.(1) A person who is on the books of the University of Auckland as a candidate for any degree, diploma or other qualification but who lives outside the urban area of Auckland but within New Zealand, may be permitted to enrol extramurally.
(2) Permission for the purpose of subsection (1) of this section shall be at the discretion of Senate, but it shall be granted —
(a) in the case of a person not living in the Auckland University District, only with the approval of the appropriate other University;
(b) in the case of a person living in the urban area of Dunedin, Christchurch, Wellington, Palmerston North or Hamilton, only if he or she is unable to attend classes at the appropriate other University.

3. For the purpose of subsection (2) of this section "the appropriate other University" is Massey University or the University of Waikato, as the case may be, when the person lives in the urban area of Palmerston North or Hamilton; and is otherwise the University of the District in which the person lives (that is, the University of Otago, the University of Canterbury, or the Victoria University of Wellington, as the case may be).

7. A person on the books of this University who ceases to reside in New Zealand, and who requires to pass in the final paper or papers for any degree, diploma or other qualification, may enrol extramurally in the paper or papers at the discretion of Senate and upon such conditions as it thinks fit.

8. For the purposes of this Statute —
   the urban area of each University town named is as defined from time to time by the Council of the University concerned;
   the Auckland University District is as defined in the First Schedule to the University of Auckland Act 1961 but with the exclusion of the urban area of Hamilton.

New Zealand includes Cook Islands, Niue and Tokelau.

9. The Extramural Enrolment Statute 1962 is repealed.

Notes: (i) A person who is already on the books of another University in New Zealand who is not qualified to enrol extramurally in accordance with Section 2 of this Statute, is, unless the Senate otherwise decides in exceptional circumstances, expected either to transfer to the University of Auckland or to enrol for such paper or papers at the University of Auckland as may be acceptable to the other University.
(ii) A student living in the urban area of Auckland who has been permitted to enrol extramurally at another University under this Statute in any particular year will be expected, in any subsequent year of university study, either to enrol at the University of Auckland or to obtain the Senate's permission to continue to enrol extramurally.
(iii) The Senate normally permits Auckland Secondary Teachers' College physical education or music students, who are enrolled for BEd at Massey University, to enrol at the University of Auckland for a paper or papers other than those in respect of which extramural enrolment is permitted.

EXTRAMURAL ENROLMENT REGULATIONS

1. Every person wishing, in any year, to enrol extramurally under the Extramural Enrolment Statute 1981 shall apply to the Registrar of the University not later than 15 January of that year.

2. Every application shall state —
   (a) the papers or other work in respect of which extramural enrolment is sought;
   (b) the grounds of the application;
   (c) whether the applicant is already on the books of, or (where it may be permitted or required) proposes to enrol at any other University and if so, which University and for what course, papers or other work;
   (d) (i) the applicant's current business and residential address;
          (ii) whether to the best of the applicant's knowledge and belief there will be any change of residence during the year of enrolment; and if so the expected new address and approximate date of change.

3. The applicant if living within the urban area of Auckland shall provide such evidence as the Senate deems fit that he or she is unable or should not be required to attend classes at the University of Auckland.

4. The application for extramural enrolment under section 6 of the Statute by a student already on the books of this University who lives in the urban area of a University town other than Auckland must be supported by a certificate from the Registrar of the appropriate University that the applicant is unable to attend classes at that University.

5. Every student permitted to enrol extramurally —
   (a) shall pay the prescribed fees for course approval (in addition to any fees payable at another University);
   (b) may withdraw from his or her studies by written notice to the Registrar not later than 31 March; and, having done so by that date, shall be entitled to a full refund of fees (but not any late fee or fine).

6(1) The studies of students permitted to enrol extramurally under the Statute are subject to Regulation 10 of the Enrolment and Course Regulations (General).
   (2) For the purpose of this Regulation students who have not withdrawn under Regulation 5(b) or, being enrolled also at Massey University, have not withdrawn in accordance with the Regulations of that University, shall be deemed engaged in academic studies in the relevant year.

7. The Extramural Regulations last published in the 1981 Calendar are revoked.

8. These Regulations shall come into force on 1 January 1982.

EXAMINATION REGULATIONS

Eligibility to Sit Examinations

1. To be eligible to present himself or herself for examination in a paper or subject, a candidate
(a) must have been enrolled as an internal student, have attended classes to the satisfaction of the Senate, and performed to the satisfaction of the Senate such oral, practical, written, and other work as the Senate may require.

Note: Students will be informed by each department of the specific requirements for courses in that department and the extent to which the year's work will be taken into consideration in assessing final results. In some cases students may not be permitted to sit the final examinations.

(b) not being enrolled as an internal student, must have been granted exemption in accordance with the Extramural Statute and Regulations.

**Time of Examinations**

2. The examinations shall be held at the times specified in the timetable each year.

**Place of Examinations**

3. All internal students must sit their examinations at Auckland. Extramural students who do not wish to sit their examinations at Auckland may sit at one of the centres specified in the Extramural Enrolment Regulations, provided that, with the approval of the Senate, a special examination centre may be established under special circumstances subject to the payment of the extra fee prescribed in the Fees Regulations.

**Conduct of Examinations**

4(a) The examinations shall comprise such written, oral and practical examinations as the examiners may determine.

(b) Where degree Regulations or prescriptions permit, or the Senate upon such conditions as it thinks fit approves, the examiners may in respect of any examination release to the candidates, the examination paper in advance of the sitting of the examination.

(c) Candidates shall write out answers to the questions in the presence of a supervisor, who shall be appointed or approved by the Council in accordance with such detailed instructions as may be furnished by the Council.

(d) No candidate shall communicate with an examiner in regard to an examination except through the Registrar.

(e) No candidate may be examined in any subject or part of a subject at any time other than that set down for him in the timetable.

(f) No candidate shall be allowed to enter the room:
   (i) for a 3-hour examination later than one hour thirty minutes after candidates have begun writing the examination,
   (ii) for a 2-hour examination later than one hour after candidates have begun writing the examination,
   (iii) for a 1½-hour examination later than forty-five minutes after candidates have begun writing the examination,
   (iv) for a 1-hour examination later than thirty minutes after candidates have begun writing the examination.

(g) No candidate shall be permitted to leave the room:
   (i) of a 3-hour examination until one hour forty-five minutes has elapsed from the time the writing of the examination began,
   (ii) of a 2-hour examination until one hour fifteen minutes has elapsed from the time the writing of the examination began,
   (iii) of a 1½-hour examination until one hour has elapsed from the time the writing of the examination began,
   (iv) of a 1-hour examination until forty-five minutes has elapsed from the time the writing of the examination began,

and then only with the permission of the supervisor and upon handing in his script.

(h) Candidates shall be allowed to read their examination papers for a period of not more than ten minutes before the examination commences but may not begin writing their answers until the room supervisor announces that they may do so.

(i) No candidate shall bring into examination an electronic calculator except by direction of the examiner. Where an examination has been designated 'calculator permitted'—
   (i) the calculator used in the examination must be electronic, truly portable and self-powered, and noiseless. No audible alarms may be used
   (ii) no supplementary material (e.g. operating manuals) related to the use and operation of the calculator will be permitted in the examination room other than spare batteries
   (iii) in all cases it is the responsibility of the candidate to maintain the operation and operating power of the calculator.

Note: In the context of Regulation 4(i) above Electronic Calculator refers to any electronic device capable of information storage, or processing or retrieval.

(j) No candidate shall bring to an examination any written or printed matter except by direction of the examiner.

(i) Where an examination is designated "Open Book", candidates may take into the examination room any
written or printed material including books, Acts, etc, and there will be no check on items taken into the examination room.

(ii) Where an examination is designated “Restricted Book”, candidates shall take into the examination room only material specified by the examiner, and that material shall not be annotated, written or typed upon, or otherwise marked.

(iii) Where an examination is designated “Restricted Book – may be written upon”, candidates shall take into the examination room only material specified by the examiner; and that material may be annotated, written or typed upon or otherwise marked in a relevant or contextual manner.

(iv) All books and papers not approved for use in the examination, along with any spare personal belongings brought to the examination shall be left in such part of the room as the supervisor shall direct. All paper used during the examination must be handed to the supervisor before the candidate leaves the examination room.

(v) Where material is permitted under items (ii) and (iii) above, examiners will be required to be present at the commencement of the examination to check material brought in to the examination room.

(k) No candidate shall communicate with another in the examination room.

(l) No candidate shall continue writing an answer after the supervisor has announced the expiration of time. In no circumstances is any time over and above the time allotted to any paper to be allowed a candidate for reading over his scripts or making any amendment or addition to his scripts.

(m) Any complaint that a candidate has committed an examination offence shall be referred to the Deans Committee of the Senate (to which the Senate has delegated power to deal with all matters relating to examinations) to determine whether the complaint should be investigated. For the purposes of this Regulation an examination offence includes any breach of any rules relating to the conduct of examinations and any dishonest practice occurring in the preparation or submission of any work (whether in the course of an examination or not) which counts toward the attainment of a pass in any subject or otherwise occurring in connection with any examination.

(n) The Discipline Committee of the Senate (to which the Senate has delegated the appropriate powers) shall hear and determine any complaint which the Deans Committee has resolved should be investigated. The candidate concerned shall be notified in writing of the subject matter of the complaint and the time and place of the hearing. He shall be invited to state in writing his answer to the complaint and may attend the hearing.

(o) The Senate shall have power (which it may delegate to its Discipline Committee) to do all or any of the following hings in the case of a candidate found guilty of an examination offence:

(i) Impose upon him any of the penalties prescribed in the Disciplinary Regulations

(ii) Disqualify him from sitting any examinations for such period as may be prescribed

(iii) Cancel any pass with which he may have been credited in the subject or examination in respect of which the offence has occurred.

(p) Where the Senate or any committee of the Senate is satisfied that a candidate has not complied with any Regulation of the University whether in respect of any examination or any other matter having given the candidate such opportunity as it considers reasonable of remedying his non-compliance with the Regulation or Regulations, then the Senate shall have power (which it may delegate to its Discipline Committee) to suspend for such time as may be prescribed the release to the candidate of the results of any examination, or to decline to credit to his course any subject or subjects, or to impose both those penalties.

(q) A candidate may appeal to the Council from any decision of the Senate or its Discipline Committee under paragraphs (n) or (o) of this Regulation by giving notice in writing to the Registrar within 14 days of being notified of the decision. A candidate so appealing shall be entitled to make submissions in writing and may, with the consent of the Council, appear when the appeal is determined. The Council may dismiss or allow the appeal or vary the penalty but shall not impose any penalty which the Senate or its Discipline Committee could not have imposed. The decision of the Council on any appeal under this Regulation shall be final.

Marking of Scripts

5 (a) In determining a candidate’s result the examiners:

(i) may take into consideration the work done by the candidate during the year;

(ii) shall give due weight to reports on practical work done by the candidate wherever these are required;

(iii) shall include marks obtained by the candidate where the Senate has allotted a percentage of marks for awarding on the year’s work of the candidate in any paper or subject.

Passes – Grades and Marks

(b) A pass mark in any paper or subject including papers and thesis for a Master’s Degree is: for a single paper, 50%;

for two or more combined or linked papers, an average of 50%;

for one or more papers and a thesis, an average of 50%;

provided that
(i) the Senate may give approval for a thesis to count as more than one paper;
(ii) a candidate not attaining a minimum of 37% in any combined or linked paper except in the papers or thesis for a Masters degree and mid-year examinations, will fail the subject as a whole provided that this requirement may be waived in exceptional circumstances at the discretion of the Senate;
(iii) a candidate taking papers in the Faculty of Music not attaining a minimum of 37% of the marks allocated for the end of the year examination, will fail the paper as a whole. This does not apply to examinations in Performance.
(iv) a candidate for the Degree of Master of Engineering must pass in each of eight subjects or in each of three subjects and a thesis;
(v) where oral work is required for a paper of a language, unless otherwise provided, a pass in both oral work and written papers is necessary;
(vi) where both practical and written work is required for a paper or subject a pass in both practical work and written papers is necessary.

There are eleven pass grades and two fail grades as set out:

Notes:

(i) Candidates for BMus (Performance) who pass the subject Performance 28.120 with a grade of C- and are therefore not eligible to proceed with the Course of Study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage I Music papers toward the course of study for the Degree of BMus.

**Restricted Passes**

A restricted pass shall apply only to a paper in the Faculty of Arts, Commerce, or Science. A candidate at the discretion of the appropriate Faculty (or Department for the Faculty of Science) may be considered for restricted passes. No application by the candidate for consideration is required. A restricted pass in a paper which is a prerequisite for enrolment in another paper shall not be accepted as fulfilling that prerequisite except with the approval of the relevant Head of Department in each case.

**Conceded Passes**

A conceded pass shall apply only to the following Courses of Study and may not be transferred to another Course of Study: Bachelor of Architecture, Diploma in Business and Industrial Administration, Bachelor of Engineering, Bachelor of Fine Arts, Bachelor of Human Biology, Bachelor of Laws, Bachelor of Laws with Honours, Law Professional Examination, Bachelor of Medicine and Surgery, Bachelor of Music, Bachelor of Music (Performance), Diploma in Music, Bachelor of Optometry, Bachelor of Property Administration, Bachelor of Planning (including Intermediate years where applicable).

A candidate at the discretion of the appropriate Faculty may be considered for a conceded pass. No application by the candidate for consideration is required.

**Work at Standard of Honours**

6. A candidate whose work is at the standard of Honours or a First or Second Class Pass under the relevant degree or diploma regulations but who is ineligible for the award of Honours or First or Second Class Pass under the regulations shall be informed of the standard that he would have been awarded had he or she been eligible.

**Recount of Marks**

7. By making application within four weeks from the date of the mailing of his official result of the examinations, any candidate sitting for an examination for a degree, diploma, professional qualification, or certificate of proficiency may have the marks awarded his scripts recounted in any paper or subject which he has failed. The fee for such a recount shall be as prescribed in the Fees Regulations. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer or any portion of an answer submitted by a candidate has been overlooked. No information relative to the application will be placed before the examiner. Candidates for the degree of Bachelor of Architecture, Bachelor of Fine Arts, Master of Fine Arts, Bachelor of Music (Performance), Bachelor of Music (Performance) with Honours, or for the Diploma in Music, or the Diploma in Music with Honours may apply for a recount of marks for written papers only.

Note: The prescribed fee for an application for recount of marks is $22 and is refundable only if the recount shows that a pass rather than a fail grade should be recorded.

1988 Calendar
Availability of scripts
8. By making application during the period from the second Monday of December until the Friday preceding the Enrolment period a candidate may apply to view his or her final examination script provided all the assessment processes have been completed. In special cases a photocopy may be obtained.

Note: The prescribed fee for viewing an examination script is $5.50 and $11 for a photocopy. The fee is not refundable.

Aegrotat Pass
8. A candidate who has been prevented by illness or injury from presenting himself at any examination in any paper or subject, or who considers that his performance in any examination in any paper or subject has been seriously impaired by illness or injury may apply and with the approval of the Senate be granted an aegrotat pass in such paper or subject if the following conditions are satisfied:
(a) that the candidate is enrolled as an internal student for the course of instruction in the paper or subject in question;
(b) that the illness or injury was reported in writing to the Registrar within one week of the date upon which the examination affected took place or if more than one examination has been affected then within one week of the last of such examinations;
(c) that as soon as practicable after reporting the illness the candidate furnish to the Registrar a certificate (on the form provided) from a registered medical practitioner stating
(i) that he examined the candidate medically on a certain date;
(ii) that in his opinion the candidate was unable through illness or injury to present himself for the examination, or that in his opinion the candidate’s performance in the examination was likely to have been seriously impaired by illness or injury. The nature of the illness or injury shall be stated in sufficient detail to make it clear that the candidate was not responsible for his disability, and in a form suitable for submission in cases of doubt to a medical referee;
(d) that the candidate’s responsible teachers in the paper or subject of the examination in question certify that his work therein during the course of instruction was well above the minimum pass standard (or where relevant the minimum standard for a class of Honours or Pass) and that he is in their opinion clearly worthy to pass in that paper or subject (or where relevant) to be awarded First or Second Class Honours OR First or Second Class Pass, or
alternatively that the Senate is satisfied upon considering the quality of the candidate’s work during the course of instruction and of any work which he has completed in the current examinations (whether in the paper or subject in question or any other paper or subject) that the candidate is clearly worthy to pass in the paper or subject in question or (where relevant) to be awarded First or Second Class Honours OR First or Second Class Pass therein,
provided that in either case
(i) Honours or a First or Second Class Pass may not be given to a candidate who has been awarded a pass under this regulation in respect of more than one paper for a degree or diploma involving not more than four papers; or in respect of more than two papers for a degree involving five or more papers;
(ii) a candidate for the degree of Bachelor of Engineering may, on the recommendation of the Senate, be given Honours irrespective of the number of aegrotat passes awarded.

Note: The fee prescribed under the Fees Regulations for each application for an Aegrotat Pass is $5.50.

Compassionate Pass
10. Where by reason of any exceptional circumstances beyond his control other than his own illness or injury a candidate has been prevented from presenting himself at any examination in any paper or subject or considers that his performance in any examination in any paper or subject has been seriously impaired, he may apply and with the approval of the Senate be granted a compassionate pass subject to compliance with the same conditions (with necessary changes) as those appearing in clauses (a) and (d) of Regulation 8. Such an application must be made to the Registrar on the form provided within one week of the date upon which the examination affected took place, or, if several examinations have been affected, then within one week of the last of those examinations, and must be supported by such evidence as the Registrar shall require.

11. (a) The provisions of Regulations 8 and 9 shall apply to:
(i) any final written examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(ii) any final practical examination presented for a paper or subject of a Course of Study for a Degree, or for a Diploma, or for a Certificate of Proficiency, or for a Professional qualification;
(b) the provisions of Regulations 8 and 9 shall apply (with necessary changes) to:
(i) the final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, or the Degree of Master of Fine Arts;
(ii) the final submission in each year of studio work for the Degree of Bachelor of Architecture as if such final
submission were an examination and as if the date upon which such final submission was due were the date of examination.

12. Where (i) a percentage of the marks awarded for a final examination is allocated to a prior written test; and (ii) a candidate is prevented, by illness, injury or circumstances beyond his or her control, from sitting the test; or considers that his or her performance in the test has been seriously impaired by any of those causes — then; if the conditions in clauses (a), (b) and (c) of regulation 8 are (with the necessary changes) complied with, the candidate may on application and at the discretion of the Senate —
(a) be permitted to sit another written test; or
(b) receive a mark based on the average of marks awarded for other course work; or
(c) take a viva voce examination; or
(d) have the entire mark allocated to the final examination.

13. A candidate who is eligible to apply and has applied for an aegrotat or compassionate pass in any paper or subject may, in exceptional circumstances and on a recommendation from the Head of the Department concerned, be granted permission by the Senate to take a viva voce examination in any paper or subject of his aegrotat or compassionate pass application.

Concessions

14. Where degree Regulations or prescriptions permit, or the Senate upon such conditions as it thinks fit approves, the examiners may in respect of any examination require or permit the candidates, either wholly or partly in lieu of taking an examination held in accordance with Regulations 2 to 5 inclusive and 7 to 9 inclusive of these Regulations, submit for examination such written assignments of work as may be required.

Theses

15. Where a thesis is required as part of an examination the following conditions shall apply:
(a) Diplomas, Bachelors, and Masters Degrees (i) The candidate shall submit two copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis provided that a candidate for the degree of Master of Engineering shall submit three copies and a short abstract bound in each copy.
(ii) The Registrar shall transmit the submitted copies to the examiners.
(iii) On completion of the examination the supervisor of the thesis shall be responsible through the Head of the Department for the deposit of two copies with the University Library.
(iv) On completion of the examination for the Degree of Master of Engineering the disposal of the third copy submitted shall be at the discretion of the Head of the Department.
(v) Where more than the required number of copies of a thesis are submitted any additional copies shall be returned to the candidate.
(b) Degree of Doctor of Philosophy
(i) The candidate shall submit three copies of the thesis to the Registrar and a short abstract bound in each copy of the thesis.

Note: A further unbound copy of the thesis and extract will be required by the University Library if the candidate wishes to have the thesis published by University Microfilms International. Information in this connection will be forwarded to the candidate when the Degree is awarded.
(ii) On completion of the examination two copies shall be deposited with the University Library. The disposal of the third copy shall be at the discretion of the Head of the Department.

Notes: (i) The examination copy of any written thesis presented for a degree or diploma shall be the first copy, unless the thesis is cydostyled printed, reproduced photographically or by electrostatic process and be bound in a form sufficiently durable for preservation and use in the University Library. The second copy may consist of a carbon duplicate of the typescript only. The copy may be placed in a Departmental reading room.
(ii) Candidates are recommended to obtain the booklet Guide to the Presentation of Theses from the Library before proceeding with the typing and binding of the thesis.
(iii) The author of a thesis has a right to impose conditions restricting the publication of his work to ensure for such a period as he may stipulate, without however curtailing the University Librarian's right to make and supply copies thereof in terms of subsection (3) of Section 21 of the Copyright Act (1962).
(iv) Where it is suspected that a thesis contains defamatory material the University Librarian may restrict access to the thesis subject to confirmation by the Library Committee.
(v) Supervisors are requested to notify the University Library when a thesis is submitted if it is believed to contain material which could be considered defamatory.
(vi) Where a thesis has been presented as part of a degree which
(a) has been awarded but the thesis itself is a failed thesis the thesis will not be deposited in the Library;
(b) has not been awarded the thesis will not be deposited in the Library irrespective of whether the thesis itself has been a pass or fail grade.
(vii) For the Fourth Professional Examination for BArch one bound copy only of the thesis is required to be submitted.
(viii) Candidates for DipBIA are required to consult the Course Director concerning the binding of the Project for the Diploma course.

Abstracts

16. Where a thesis, dissertation, research essay, or original investigation is submitted as part of an examination for a Bachelor's or Master's Degree, a Diploma, or the Degree of Doctor of Philosophy, a candidate shall at the same time submit a short abstract not exceeding 350 words, suitable for publication. The abstract shall be bound in each copy of a thesis submitted.

Examination Centres

17. Pursuant to Regulation 1 hereof the University of Auckland will conduct examinations in the following
CONFERRING OF DEGREES AND ACADEMIC DRESS REGULATIONS

1. Every Degree and every Diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council in that behalf and at a meeting of the Council by the Chancellor or if he is absent from New Zealand or incapacitated by sickness or otherwise then by the Vice-Chancellor.

2. Every recipient of a Degree shall receive a certificate in appropriate form, under the Common Seal of the University, that his Degree has been conferred and stating the class of Honours (if any) awarded to him.

3. Every Diploma shall be in appropriate form under the Common Seal of the University.

4. In May of each year the Council shall meet in Convocation of the University for a ceremony of conferring Degrees and awarding Diplomas. Persons desiring to have their Degree conferred or Diploma awarded (whether in person or in absentia) at a ceremony in May shall make application to the Registrar not later than 31 March in the year of the ceremony.

5. The form of words to be used by the Chancellor (or Vice-Chancellor) in conferring a Degree shall be as follows: 'By authority vested in me as Chancellor (or Vice-Chancellor) I now proceed to confer the Degrees stated upon those who, within their several Faculties, have satisfied the requirements of this University.'

6. The form of words to be used by the Chancellor (or Vice-Chancellor) in awarding a Diploma shall with the necessary changes be the same as for the conferring of a Degree.

7. The regulations for academic dress shall be as follows:
   (a) Graduates must appear at all public ceremonies of the University in the academic costume proper to their Degree, but doctors may on special occasions wear a scarlet gown and graduates admitted Ad Eundem Statum may wear the academic costume of their own University. Unless the holder of a Diploma is also a graduate, the only academic dress he may wear is an undergraduate gown.
   (b) The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel.
   (c) The gown for a Bachelor's Degree is as for the Cambridge Bachelor of Arts. The gown for a Master's Degree is as for the Cambridge Master of Arts. The hood for every Degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelor's Degree is lined with coloured silk and bordered with white fur. The hood for a Master's Degree is lined with coloured silk only.

   The colours of the linings of the hoods for the Bachelors' and Masters' Degrees are as follows:
   - Architecture: lemon (BCC 111 primrose)
   - Arts: pink (BCC 32 rosepink)
   - Business Administration: burgundy (Polysatin 115cm width)

(f) The cap for all graduates other than Doctors and the officers of the University is a black trencheder with a tassel.

(g) The cap for all Doctors other than the officers of the University is as for the full dress Cambridge Doctor of Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

Notes:
1. The colour of the lining of the hood for the Degree of Master of Philosophy is that of the Faculty in which the Degree is taken.
2. Number references are from the British Colour Council Dictionary of Colour Standards. Approximate colours in the substitute material satin may be seen on a chart at the inquiry counter at the Registry.
3. Satin or taffeta is frequently used as a substitute material for silk which is not always obtainable.

**AWARD OF HONORARY DEGREES**

Clause 19 (3) of the University of Auckland Act 1961 gives Council power to confer any degree as an honorary degree in accordance with such conditions as it may prescribe: Provided that no honorary degree shall be conferred on any person by the Council unless that person has been recommended therefore by a joint committee of the Council and the Senate set up in accordance with the Statutes or Regulations of the University. Pursuant to the above clause or the Act, Council has drawn up regulations and set up an Honorary Degrees Committee for the conferment of the following honorary degrees:

- **Doctor of Laws**
- **Doctor of Science**
- **Doctor of Literature**
- **Doctor of Music**
- **Any Master’s Degree**

Information regarding the procedure and criteria for the nomination of a candidate for one of the above honorary degrees may be obtained from either the Vice-Chancellor or the Registrar.

**FEES REGULATIONS**

The following fees have been prescribed by Council and are all subject to Goods and Service Tax of 10% which is included in the following schedule.

All students are required to pay the Students' Association Fee (which includes a building levy) except that

(i) The following internal students need not pay the Fee:

those enrolled for DipG&O; DipObst; DipPaed; MBchB Pt III; Master's Degree from 3rd year onwards;

MPian Thesis only; DipEd Original Investigation only; Part II only for DipEdPsych, DipClinPsych, DipGuid;

Dissertation only for LLB(Hons), DipCrim; Research Essay only for BPlan, DipLGA; Project only for

DipBIA, DipStats, DipMathEd; Condensed course held in April for medical research workers for Certificate in

Radiochemistry only; one paper, or one set of linked papers where the corequisites are marked ** in the BA

Schedule for Certificate of Proficiency only by graduates or graduands. If a student is not joining the Students’

Association the Identity Card will be over-stamped “NOT AUSA MEMBER”.

(ii) Students concurrently enrolled full-time at the Auckland Technical Institute may pay a reduced fee of

$13.20 per paper (general fee $11, building levy $2.20). Students concurrently enrolled full-time at Auckland

College of Education may pay a reduced fee of one half of the Students' Association Fee (including the building

levy). To claim these reductions such students must complete the appropriate application form obtainable from

the Students’ Association Office, have the form certified by the Managing Secretary of the Students’ Associa-

tion of the Auckland Technical Institute and submit it to the University Registry before enrolment week.

(iii) Students who are members of the Auckland University Medical Students’ Association who are enrolled in

year 2 or 3 of the BHB course or in year 1 or 2 of the MBchB course may pay a reduced fee exclusive of the

building levy of $33 less than the Auckland University Students' Association Fee.

Building Levy:
The Students’ Association Fee includes a building levy of $19.80, or $2.20 per paper if a student is concurrently

enrolled full-time at the Auckland Technical Institute. Students who since January 1961 have paid a building

levy five times or more at this or any other NZ University may be exempted from further payment of the levy.

To claim the exemption such students must complete the appropriate application form obtainable from the

Students’ Association Office and submit it to the Registry before enrolment week. Late applications will be

considered but in no case after 30 November in the year for which the exemption is sought. If the levy was

previously paid at another NZ University evidence of this should accompany the application.

Graduates or graduands taking one Certificate of Proficiency paper only but wishing to join the Students’

Association are exempt from payment of the building levy.

**DISCIPLINE**

Under the provisions of the University of Auckland Act 1961, the Senate has, subject to a right of appeal to the Council, the power to deal with all questions relating to the discipline of students. During the intervals between meetings of the Senate, and subject to a right of appeal to the Senate, the Vice-Chancellor may exercise alone the powers of the Senate as to discipline.

**DISCIPLINARY REGULATIONS**

1. These Regulations may be cited as the Disciplinary Regulations 1972.
2. These Regulations shall come into force on 1 January, 1973.
3. In these Regulations unless the context otherwise requires:
   - 'Class' means any lecture, tutorial, seminar, laboratory, or other assembly of students at which tuition is being given and includes any lecture or address within the University at which students are present;
'Hall' means any hostel or hall of residence or other student accommodation under the control of the Council;
'Student' means a duly enrolled student of the University and includes for the purposes of Regulation 4 hereof a person applying so to enrol;
'Students' Association;' means the Auckland University Students' Association Incorporated;
'Warden' means the person who is for the time being in charge of any Hall and includes his duly appointed deputies;
'The Act' means the University of Auckland Act 1961 and its amendments;
'The University' includes any institution under the control of the Council;
'University property' includes property occupied by the University, property owned by any institution under the control of the Council, and any property held by the Crown on behalf of or for the purposes of the University.

Words and expressions defined in the Act have the meanings so defined.

4(a) Every student shall on enrolling at the University sign a declaration in the following form or to the like effect:
'I hereby solemnly promise that I will faithfully obey the rules and regulations of the University and be bound by the same.'

(b) The Senate shall have the power to impose conditions on the attendance at classes of any student and to obtain his/her undertaking to observe those conditions, either at his/her enrolment, or in the course of his/her attendance at the University in all cases where in the reasonable opinion of the Senate it is necessary so to do in order to prevent any possible disturbance to the carrying out of normal activities at the University or otherwise to maintain order and discipline.

(c) The Senate or the Discipline Committee of the Senate may as delegate of the Council exercise the powers conferred on the Council by S. 24(2) of the Act without however preventing the Council from exercising those powers.

5. No student or other member of the University shall:
(a) act in a manner contrary to the good government of the University or prejudicial to its functioning as such;
(b) wilfully or recklessly damage or deface, or wilfully move without authority, any property on the University or any other property within the University precincts;
(c) wilfully impede the activities of the University, whether in teaching, research or otherwise;
(d) wilfully create any nuisance in or on the University precincts;
(e) wilfully obstruct any officer or member of the University employed at the University in the due performance of his functions or of the work he is required to perform;
(f) Interfere by offensive behaviour or unwanted attention with the pursuit of work or study by another student, member, or officer of the University or that other person's proper enjoyment of its amenities;
(g) be in a part of the University precincts in which he is not, at that time, entitled to be, knowing that he is not entitled to be there at that time;
(h) (i) start, ride, or park without prior permission, a bicycle, a motorcycle, or a motor vehicle in University grounds;
(ii) fail to comply with the University Parking Regulations at all times;
(i) fail to comply with the directions on any notice erected with the authority of the Council and governing entry, speed and exit of vehicles, and the location of parking spaces;
(j) commit any criminal offence in the University precincts;
(k) smoke
(l) in any of the Libraries;
(ii) in any General Lecture Theatre, Seminar Room, Tutorial Room or Laboratory;
(l) commit a breach of any University Statute or Regulation or of any rule of conduct made by any person authorised by the Council or the Senate to make such a rule, provided that the Statute Regulation or rule has been published in the University Calendar or that reasonable notice thereof has been given by other means, to students generally or to the student charged with misconduct, before the misconduct is alleged to have taken place.

6. No student shall
(a) knowingly fail to identify himself if required or to comply with such directions as may be reasonably made by the Vice-Chancellor, the Registrar, any Professor, member of the Senate, or Lecturer in order to maintain good order and discipline;
(b) knowingly fail to comply with any reasonable direction given to him by the person in charge of a group of students going to, engaged in, or returning from a field trip or any other academic activity conducted by the University beyond the University precincts, or, while a member of such a group, do anything which would constitute misconduct if done within the University precincts;
(c) fail to comply with any specific Departmental or Faculty Regulation in regard to appropriate dress in relation to safety or to professional courses;
(d) bring or consume alcoholic liquors within the precincts of the University for other than official functions except with the permission of the Senate. Permission for alcoholic liquors to be consumed at other functions will be subject to the following conditions:
(i) where the function is held in a lecture theatre, reading room, seminar room, staff study or staff common room, one senior member of the staff shall be present throughout the function;
(ii) where the function is held within the facilities under the control of the Student Union Management Committee, a senior member of the staff or a member of the Student Executive or a member of the Student Union Management Committee shall be present throughout the function;
(e) post student notices elsewhere than on the permanent notice boards provided for this purpose, and in accordance with the conditions laid down by the Students' Association.

7. (a) Where there is misconduct by a student in a class, the person in charge of the class may reprimand the student and may exclude him or her from not more than three successive class meetings. Any such exclusion for more than one class meeting shall be promptly reported to the Vice-Chancellor.

(b) Where there is misconduct by a student in the use of any University facility, the person in charge of the facility may reprimand the student and may exclude him or her from using it for any period or indefinitely. Any such exclusion shall be promptly reported to the Vice-Chancellor except where it is for a period less than one week.

(c) A student reprimanded or excluded under paragraph (a) or paragraph (b) of this Regulation may appeal to the Senate against the reprimand or order for exclusion. The Vice-Chancellor may suspend the operation of the order for exclusion until the appeal has been heard or determined.

(e) in this Regulation, 'University facility' includes the Recreation Centre but does not include the University Library and the Computer Centre.

8. The Senate shall have power

(a) to impose on any student who does not observe the provisions of these Regulations; or the conditions (if any) attached to his/her attendance at classes pursuant to Regulations 4 and 6 thereof; or any direction given under Regulation 11 hereof; or who otherwise commits any breach of University discipline; anyone or more of the following penalties as it thinks fit:

(i) such sum by way of restitution as may be appropriate for any damage so caused;
(ii) a fine not exceeding $500;
(iii) a suspension from attendance at the University or any of its classes for such period as it thinks fit;
(iv) expulsion from the University;
(v) a limitation or prohibition on his/her attendance at any class or classes at the University or his/her use or enjoyment of any of the facilities of the University;

(b) to prohibit the sitting of examinations by any student who is in default with any payment due to the University under these or any other Regulations or any Statute;

(c) to delegate the powers conferred on it by these Regulations to the Discipline Committee of the Senate without thereby preventing itself or the Vice-Chancellor pursuant to Regulation 9 hereof from exercising any such delegated power.

(d) In this Regulation, 'University facility' includes the Recreation Centre but does not include the University Library and the Computer Centre.

9. The Vice-Chancellor shall have power (subject always to Regulation 14 hereof) to exercise all the powers and authorities of the Senate under these Regulations and under the Act, including any powers delegated by the Senate to any committee of the Senate, during the intervals between meetings of the Senate or that Committee.

10. The Vice-Chancellor, the Registrar, the Director of the Computer Centre, the Physical Recreation Officer, the Head of the Audio-Visual Centre, or any Professor, member of the Senate or Lecturer shall have power to report any student to the Discipline Committee for any breach of these regulations.

11. Any Warden shall have the power (subject always to Regulation 14 hereof) to impose on any student who does not observe any of the directions so given, anyone or more of the following penalties:

(i) such sum by way of restitution as may be appropriate for any damage so caused;
(ii) a fine not exceeding $50;
(iii) a suspension from attendance at the Hall for such period as the Warden thinks fit;
(iv) expulsion from the Hall.
12. The Vice-Chancellor, the Registrar, or any Professor, member of the Senate, or Lecturer may, in addition to reporting any breach of these Regulations to the Discipline Committee, order any student to pay the cost of replacing or repairing any University property lost, damaged or destroyed by reason of the wilfulness, negligence, or misconduct of that student. Any penalty so ordered shall be paid within 14 days.

13. The Executive of the Students' Association shall (without prejudice to the power of the Senate under S. 34(3) of the Act) have power of disciplinary control over students within the Student Union Buildings or the precincts of the Student Union Building and in exercise of that power may

(i) impose a fine not exceeding $25 on any student guilty of any act prejudicial to the maintenance of discipline therein, and

(ii) (whether or not in addition to imposing a fine) order any student to pay as a penalty the cost of replacing or repairing any property therein lost, damaged or destroyed by reason of wilfulness, negligence, or misconduct of that student.

14. (a) All fines and other penalties imposed under Regulations 9, 11, and 12 hereof or by the Discipline Committee under powers delegated to it under Regulation 8 hereof shall forthwith be reported to the Senate by the person or body imposing them.

(b) Any student on whom a fine or other penalty is imposed under Regulations 9, 11, and 12 hereof or by any committee of the Senate under powers delegated under Regulation 8 may within fourteen (14) days of imposition of that penalty, by giving notice to the Registrar in writing, appeal to the Senate against it. The Senate may hear and determine an appeal in such manner as it thinks proper.

(c) Any student who suffers any penalty under these Regulations by a decision of the Senate or the Discipline Committee of the Senate or the Executive of the Students' Association or whose appeal under the preceding clause of this Regulation is dismissed by a decision of the Senate may within fourteen (14) days of that decision, by giving notice to the Registrar in writing, appeal against it to the Council which may hear and determine the appeal in such manner as it thinks proper. The decision of the Council shall be final.

15. (a) The grounds of Old Government House are open to all members of the University for their individual use for the purpose of quiet recreation;

(b) No organised group activities will be permitted in those grounds without specific permission of the Vice-Chancellor, acting on behalf of the Council, given in each case and in such terms as are appropriate;

(c) Members of the University may bring guests into the University grounds but not into the grounds of Old Government House except in terms of clauses (a) and (b) above;

(d) At all times, and more particularly at night, members of the University and their guests shall act in such a way as not to cause disturbance or inconvenience to those living in the grounds (both occupants of Old Government House and members of the custodial staff), or to residents in the immediate neighbourhood.

Notes: (i) If the above requirements are observed, no time limit on the use of the grounds will be necessary, nor shall there be any need for the Police to be on the campus by invitation or otherwise.

(ii) Members of the University while in the grounds are free to observe demonstrations which may occur in the adjoining streets, but they are reminded that the Statutory and Common Law powers of the Police enable the Police to enter the University campus and to take appropriate action in relation to offences committed thereon and to prevent a breach of the peace.

(iii) Whenever it appears likely that demonstrations of the kind mentioned in note (ii) above will occur, the Vice-Chancellor shall consult with the appropriate representatives of staff and students.

(iv) Any privileges of staff, students, and their guests in respect of the use of the grounds, may be withdrawn by the Vice-Chancellor, acting on behalf of Council; the Vice-Chancellor shall report the circumstances to the next following meeting of the Senate and Council.

16. (a) No member of the Security Service enrolled as a student at the University shall carry out any inquiries into security matters within the precincts of the University.

(b) The proposed attendance of a member of the Security Service at the University shall be discussed between the Security Service and the University Authorities before his enrolment.

17. After the discussions contemplated in the preceding sub-clause 16(b) have been held, the Senate shall determine each year what special conditions (if any) as to attendance at classes shall apply to students who are members of the Security Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.

18. Nothing in these Regulations shall prejudice the rights and remedies of the University under the general law in respect of the misconduct or negligence of any student.

**THE LIBRARY**

The University Library was established in 1884 with a grant of £37 for books which were 'to be bought in England and uniformly bound in full calf with golden lettering'. Since then the Library has grown into a collection of more than 1 million volumes, excluding thousands of unbound periodicals, pamphlets, and reprints. Over 14,000 periodical titles are currently received. The Library has benefited by a number of generous gifts among them being the collections of books in Classics and Old Testament Literature bequeathed by the late Professor A. C. Paterson and an extensive collection of material relating to the Labour movement in...
New Zealand and other countries presented by Mr P. W. G. McAra.
The University Library comprises the General Library in the Library Building on the corner of Princes Street
and Alfred Street, divisional libraries in Architecture Property and Planning, Biological Sciences, Continuing
Education, Engineering, Fine Arts, Geography, Geology, Law, Maori Studies, Medicine, Music, Science. In
addition there are departmental reading rooms in a number of subjects. The General Library contains most of
the books needed for under-graduate reading in arts subjects. It also contains more advanced material in
Accountancy, Anthropology, Education, Geography, History, Languages and Literature, both classical and
modern, Philosophy, Psychology.
A separate Undergraduate Reading Room is situated in the former Ballroom of Old Government House. This
contains 140 seats for readers and a collection of works in heavy demand.
The Audio Visual Library is located in the Arts I Building. It contains a collection of videotapes, radio cassettes
and slides.
More information about the Library, its services and organisation, can be found in the Library Guide and in the
pamphlet Books and Reading Accommodation in the University of Auckland. These are available from the
Information Desk in the General Library. Library tours are offered during the week preceding enrolment and
during the first week of lectures. Readers are encouraged to seek assistance throughout the year from Reference
Department staff.

LIBRARY REGULATIONS
1. These regulations may be cited as the Library Regulations 1970 and shall come into force on 1 January, 1971.
2. Except where otherwise stated
(a) these regulations shall apply to all sections of the University Library, that is, the General Library,
Undergraduate Reading Room, Architecture Property and Planning, Biological Sciences, Centre for Contin-
uing Education, Engineering, Fine Arts, Geology, Geography, Law, Maori Studies, Medicine, Music and
Science, and such other sections as may be added by the Senate;
(b) in these regulations 'books' includes all types of printed, written and photographic material, and (except
where the context otherwise requires) gramophone records and tapes.

Hours of Opening (General Library only)
3. The hours of opening shall be: Mondays to Thursdays
   8.30 am - 11 pm
   Fridays 8.30 am - 8 pm
   (Third Term - 11 pm)
   Saturdays
   9 am - 5 pm
   (Third Term - 9 pm)

May Study Break (first two weeks)
   8.30 am - 6 pm
   (Wed - 8 pm)

Summer Vacation
   9 am - 5 pm
   9 am - 12 noon

The Library shall be open on Sundays in first and second terms and August Study Break from 9 am to 5 pm and
in third term form 9 am to 9 pm. No lending services shall be available on Sundays. The Library shall be closed
on Anniversary Day, Waitangi Day, Good Friday, Easter Saturday, Easter Sunday, Easter Monday, Anzac
Day, Queen's Birthday and for up to three weeks from and including Christmas Eve.
These hours may be varied at the discretion of the University Librarian and any variation shall be appropriately
notified in the General Library.

Readers
4. (a) All members of the University Council, all professors, lecturers and junior lecturers, all enrolled students
of the University, and all library, administrative and technical staff shall be readers for the purpose of these
Regulations and may
(i) use all sections of the Library; and
(ii) on completion of such registration formalities as the University Librarian requires, borrow books from it;
provided that no person shall be deemed an undergraduate member of the University unless he is currently
enrolled as such.
(b) By special permission of the University Librarian any person not included among those authorised by clause
(a) of this Regulation may be a reader and accorded full or partial use of Library facilities.
(c) The University Librarian may at any time require from any reader as a condition of that reader's use of the
Library and borrowing facilities that he pay to the University a sum of not more than $15 as a deposit to be
applied in payment or part payment of any sum for which he may become liable under Regulation 6 (d). Any
balance of the deposit shall be refunded on the termination of his use of the library.
(d) Persons admitted as approved readers under clause (b) of this Regulation may be charged an annual fee
which shall be determined by the Library Committee from time to time*. No fee shall be charged to retired

1988 Calendar
members of the University staff or such persons as the Librarian may determine.

*The fee for 1988 will be $55 including GST.

**Borrowing**

5. (a) No reader shall borrow any book otherwise than in accordance with these regulations.

(b) (General Library only). Borrowing starts at 9am and ceases 20 minutes before closing time. No borrowing on Sundays. The hours during which books may be borrowed may be varied at the discretion of the University Librarian. Borrowers shall write their name and address clearly and legibly on the book card of each book and present book and card at the exit for stamping along with their identity card. The address given shall be that to which any notices should be sent. The desk assistant shall stamp the book with the date on which it is to be returned.

(c) Any person on leaving the Library shall on demand present all books and personal property for inspection.

(d) (General Library only). Any book on the open shelves which has a book card and date slip may be borrowed until the next end of term or for such shorter periods as the Librarian may decide. Borrowers shall be required to check the date stamped in the book by the desk assistant. Glass case books without ‘not to be borrowed’ labels may be borrowed for a fortnight only. All other materials shall be used only in the Library except that Teaching Staff and Postgraduate Students may borrow bound volumes of periodicals for fourteen days, and theses for fourteen days.

(e) Books from any section of the Library other than the General Library shall be borrowed direct from that Section.

(f) All books shall be subject to recall within 24 hours. Borrowers who fail to respond to a recall notice within 24 hours shall incur a fine of (including GST) of $1.50 plus $1.50 for each further 24 hours that the book is overdue. Borrowers who retain other books beyond the date for return stamped on the date slip incur a fine of (including GST) of 25c per day whether a notice has been sent or not.

(g) The Librarian shall be under no obligation to notify borrowers when books are overdue and a fine may still be charged when books are returned after the date stamped, even though no notice has been received.

(h) Borrowers who wish to renew a book on limited loan for a further period may apply by letter (giving author, title and call number on the spine of the book) or in person, or (in the case of theses, periodicals or glass case books) by telephone. Renewal will be refused if the book is reserved, and may be refused at the discretion of an authorised librarian. At the end of the term, all outstanding books shall be returned or presented for renewal at the Lending Desk. They cannot be renewed by letter or by telephone at this time.

(i) Readers may reserve for borrowing one book a day by filling in a reservation card at the Lending Desk. The length of loan allowed shall depend on the number of other readers who are also waiting for the book. Borrowers who return limited loan reserve books late shall incur a fine (including GST) of $1.50 per volume for each 24 hours the book is overdue.

(j) Books which are in heavy demand may be kept behind the Lending Desk. These Desk Copies shall be available for a specified period (advertised in the Library concerned) on surrender of the reader’s identity card and may not be removed from the Library except in the case of overnight loans. Failure to return Desk Copies on time shall incur a fine (including GST) of $1 per volume for each hour or part of an hour for which the book is not returned.

(k) Teaching staff and postgraduate students may apply to borrow books from another library through the Interloans Assistant. Such books are subject to the conditions imposed by that library.

(l) The gramophone records held in the General Library shall be available for borrowing on payment of a subscription determined by the University Librarian from time to time.*

(m) Library books may be taken out of New Zealand only with the prior permission of the University Librarian.

(n) Authorised librarians may refuse to issue excessive numbers of books to any one reader.

*Current subscriptions are: students $14; staff and graduate borrowers $16 (including GST).

Subscription to complete collection including compact discs $40 (including GST) for staff and students.

**Discipline**

6. (a) Bags, satchels and briefcases shall not be taken into the Library.

(b) Under no circumstances shall a book be passed on to another reader without being reissued in that reader’s name. Where this regulation is broken the reader in whose name the book is issued shall remain liable for all fines payable by reason of failure to return a book which is overdue or recalled.

(c) Every reader shall immediately notify to the Library any change of his address and thereupon renew the borrowing of all books issued to him.

(d) (i) Readers shall be responsible for, and shall make good, any loss of or damage to books on loan to them or being used by them in the Library. In addition to the cost of replacement or repair, readers may be charged an
administration fee of $10 (including GST), whether or not the book if lost is subsequently found and returned in good order.

(ii) The loss of a book shall be reported immediately to an authorised librarian.

(iii) A lost book remains the property of the University, notwithstanding payment of the bill for its replacement, and must be returned if found. A refund (in whole or part, according to the condition of the book on return) will be made for it but the administration fee may be retained.

(e) No reader shall deface or mark any book.

(f) The reservation of seats in the Library shall not be permitted. Books and any other articles left for any length of time on chairs or tables may be removed by any of the Library staff. No responsibility is accepted for personal belongings left in the Library.

(g) Silence shall be observed in all public reading areas.

(h) Bottles of ink shall not be brought into the Library.

(i) No reader shall smoke or shall consume food or drink in any part of the Library open to readers.

(j) A warning signal will be given 15 minutes before closing time and all readers shall vacate the Library by closing time.

(k) Library fines or bills shall be paid at the lending desk of the Library concerned.

(l) Where a fine or charge is not paid within 14 days of becoming due:

(i) the University Librarian may withdraw library privileges from the reader in default for such period as he thinks fit;

(ii) the Senate may impose on the reader any of the following penalties; prohibit the sitting of examinations; withholding of examination scripts; refusal of re-enrolment for the next academic year; disqualification from graduation.

(m) No reader may borrow from the Library while any fine or charge payable by him is outstanding.

(n) Any authorised librarian may require any reader who is guilty of disorderly or improper conduct or of any breach of these regulations to withdraw from the Library and the University Librarian may withdraw library privileges from that person for such period as he thinks fit. Nothing in these regulations shall limit the application to the Library (where relevant) of the Disciplinary Regulations 1972.

Note: The unauthorised borrowing or removal of books is regarded as a serious disciplinary offence.

Copyright

7. Every reader using copying facilities in the Library shall duly comply with the laws on copyright.

Note: (i) Readers are warned that if a copyright work is copied the copying must be a “fair dealing for the purpose of research or private study only” to comply with the laws on copyright.

(a) No more than one copy of the work must be taken.

(b) No whole copyright work by any author can be copied.

(c) Single extracts must not exceed 4000 words. If a series of extracts is required, each extract must not exceed 3000 words to a total of 8000 words. In neither case must the total amount copied exceed 10% of the whole work.

(ii) These rules apply to coin-operated copying machines and not to photocopying supplied by librarians.

(iii) Failure to observe these rules may be treated as a breach of discipline. Users who are in doubt as to whether an item is in copyright should consult a member of the Library Staff.
ARMS OF THE UNIVERSITY OF AUCKLAND

as granted by Garter, Clarenceux and Norry and Ulster, Kings of Arms by Letters Patent bearing date the 15th February 1962 and recorded in the College of Arms, London.

Heraldic Description
Azure between three Mullets Argent an open Book proper edged and bound Or with seven clasps on either side Gold on a Chief wavy also Argent three Kiwis proper.

On a scroll set below the Arms appear the words 'Ingenio et Labore'.

Symbolism
The open book together with the motto 'Ingenio et Labore', freely translated as 'by natural ability and hard work', indicate in a general way the aim of the institution and combined with the three stars express the idea of learning pursued under the sky of the Southern Hemisphere. The kiwis are indicative of New Zealand as the bird is absolutely confined to its Islands and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the sea coast.

DEGREE COURSE REGULATIONS

FACULTY OF ARTS

The Faculty of Arts offers a first degree, the Bachelor of Arts, and a Master of Arts, which may be awarded with or without honours.

The BA is intended to be a general degree, containing a number of different subjects, but at least one subject has to be carried to Stage III level (sometimes informally called a 'major'). Students can choose from a very large number of subjects, including some in Science and Commerce. They can thus partially prepare themselves for a range of occupations, and credits may be granted in respect of Teachers' College courses. But the concept behind the degree is more that of a liberal education than a vocational one.

In the MA a student usually works within one particular discipline, and more often than not the degree will include a research component.

The BA is, if taken full-time, a 3 year degree, but it may be taken part-time. The MA, an Honours degree, must be taken within a limited period, varying according to discipline, but not more than three years in any case. Several Diplomas are available within the Faculty, normally post-graduate, and with a vocational emphasis. They include the Diplomas in Broadcast Communication, Drama, Education, Educational Psychology, Guidance and Counselling, and Local Government and Administration.

THE DEGREE OF BACHELOR OF ARTS

BA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations; for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Arts shall follow a course of study of not fewer than three years.
2. The course of study for the Degree shall consist of twenty-one papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II, III.
3. No course of study for the Degree shall include more than seven papers selected from Group B, nor more than eighteen in total from Pure and Applied Mathematics and subjects in Group B.
4. Every course of study for the Degree shall include
   (a) at least six papers in one subject of which three are at Stage III level;
   (b) at least eleven papers higher than Stage I level selected from two or more subjects;
   (c) no more than eleven papers in any one subject.
5. Every course of study shall consist of four, five or six subjects: provided that in exceptional circumstances the Senate may, upon the recommendation of the Heads of Departments in which the candidate proposes to take advanced papers, approve a course consisting of more than six subjects.
6. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

Requirements for Particular Subjects

7. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Science shall comply with such of the course Regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.

Botany, Chemistry, Economics, Geography, Mathematics, Physics, Zoology

8. (a) A candidate may with the permission of the Senate enrol for Stage II papers of a subject to which this Regulation applies without having been credited with the Stage I papers. Candidates credited with Stage II papers shall not also have the Stage I papers of the subject credited to their courses. If the examiner certifies that the candidate though failing a Stage II paper or papers, attained the standard of a pass at Stage I of the subject, the candidate shall have the appropriate Stage I paper or papers credited to his or her course.
(b) This Regulation applies to the following subjects:
   Applied Mathematics Chemistry Geography Pure Mathematics
   Botany Economics Physics Zoology

Chinese, Indonesian, Japanese

9. (a) A candidate with previous knowledge of any subject to which this Regulation applies may be required by
the Senate to take Stage II papers of that subject without having passed Stage I papers. A candidate who passes Stage II papers shall be credited with Stage II papers but shall not be credited with Stage I papers as papers for any University degree or diploma. If the examiner certifies that the candidate though failing a Stage II paper or papers, attained the standard of a pass at Stage I of the subject, the candidate shall have the appropriate Stage I paper or papers credited to his or her course.

(b) This Regulation applies to the following subjects: Chinese, Indonesian, Japanese.

**Law**

10.(a) This Regulation applies (notwithstanding the provisions of Regulations 2, 3, 4, 5 and 6) to a candidate for this Degree who has been credited for this Degree with not fewer than fifteen papers (in this Regulation called 'arts papers'), of which three are at Stage III level in one subject and five others are at a higher level than Stage I.

(b) Where the candidate:

(i) has been credited with fifteen arts papers and
(ii) has been credited for the Degree of LLB or LLB (Hons) with six subjects from those listed in Parts I and II of 10 (f) below, of which at least three are from Part II — the candidate shall be entitled to be credited with those six subjects as the remaining six papers for this Degree.

(c) Where the candidate:

(i) has been credited with more than fifteen but fewer than twenty-one arts papers and
(ii) has been credited for the Degree of LLB or LLB (Hons) with one or more subjects from those listed in Parts I and II of 10 (f) below the candidate shall be entitled to be credited with it or them as the remaining paper or papers for this Degree, provided that only subjects listed in Part II shall be credited as papers at Stage II.

(d) A candidate who has completed or is completing the course for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) under the Regulations published in the University of Auckland Calendar 1966, and who invokes this Regulation, may be credited with the subject Constitutional and Administrative Law in place of the subject Constitutional Law.

(e) This present regulation being in substitution for that which appeared in the University of Auckland Calendar 1987 ("the old regulation") — a candidate who before 1988 enrolled for this Degree and for any part of the First Law Examination for the Degree of LLB or LLB(Hons) may proceed under the old regulation but with the substitution of the Schedule to this present regulation; upon condition that the candidate completes the course for this Degree in 1988 or 1989.

1988 Calendar
Music
11. (a) Except with the leave of the Senate, no candidates may advance in Music (that is take any papers in that subject beyond Stage I level) unless they have, before enrolling for any Stage I paper in Music, satisfied the Head of Department that they have attained a suitable standard in the subject.
(b) Candidates advancing in Music shall comply with Regulation 6 of the Regulations for the Degree of Bachelor of Music as if they were enrolled for that Degree.

Oral Work
12. In each of the subjects Chinese, Indonesian and Japanese a candidate shall be required to pass in the oral work as well as the written papers.

Cross-credits, Credit, and Exemptions
13. (a) Except in the case of students to whom Regulation 10 applies, the total cross-credits, credits and exemptions granted to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall not exceed ten papers for this Degree.
(b) In the case of students to whom Regulation 10 applies, the maximum number of cross-credits, credits and exemptions granted to a candidate under Regulations 12, 13 and 14 of the Enrolment and Course Regulations (General) shall be determined by the Dean.
14. Notwithstanding anything in these Regulations a candidate who has successfully completed:
   (i) a course or courses at Teachers' College under the control of the Auckland Teachers' Colleges Council; or
   (ii) the requirements for a Certificate Course of the Centre for Continuing Education; or
   (iii) the course either for the Diploma in Nursing or the Diploma in Physiotherapy at the Auckland Technical Institute; or
   (iv) Studio I for BFA but is not completing that Degree; or
   (v) Legal System for LL.B, but is not completing that Degree
   as listed in the Schedule to Regulation 14 of the Enrolment and Course Regulations (General), may be granted credit for this Degree as provided by that Regulation.
15. The Senate may in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations. Such a course may include papers offered in other Faculties.
16. (a) Except as otherwise provided in this Regulation, the course of study of every candidate shall be governed by these Regulations.
(b) A candidate who gained credit in any unit or units under any of the former Regulations for this Degree, shall be credited with such equivalent paper or papers as the Senate shall determine.
(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.
(d) A candidate who gained credit in any paper under any of the former Regulations may complete the Degree under these present Regulations.
(e) These Regulations shall come into force on 1 January 1981.

Schedule
1. This Schedule sets out paper numbers, prerequisites, corequisites, subjects, restrictions and other conditions applying to courses for the Degree of Bachelor of Arts.
2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. (a) The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.
(b) Where a prerequisite has been waived by a Head of Department and re-imposed as a corequisite the paper or papers as to which that corequisite is imposed may not be credited as a pass for the candidate's course of study unless and until he has passed that corequisite.
4. (a) The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year. Except as provided elsewhere in these Regulations or in this Schedule, if a corequisite of a paper is failed then the paper passed cannot be used as a prerequisite to other courses.
(b) Except as provided elsewhere in these Regulations or in this Schedule, the corequisites marked ** in the Schedule are linked in the sense that they
(i) must be attempted in the same year and will not be credited separately;
(ii) will be treated as a unit for the purpose of Examination Regulation 5(b), of the Examination Regulations.
5. The heading ‘restrictions’ in relation to a paper refers to a paper which cannot be taken in addition to that paper.
6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until he satisfies all prerequisite and corequisite requirements and other requirements listed in the Schedule.
The papers prescribed for this Degree are:

THE DEGREE OF MASTER OF ARTS

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Master of Arts shall before enrolment for this Degree
(a) have been admitted or qualified for admission to the Degree of Bachelor of Arts, except as provided in Regulation 2 below, and
(b) (i) have fulfilled the prerequisites for a subject as listed in the Schedule to these Regulations and have obtained a grade higher than an average of C in the Stage III papers in that subject;
(ii) provided that in special circumstances where the Head of Department so recommends the Senate may accept an average grade of less than C + or waive such prerequisites as it thinks fit.
2. Subject to the Admission Regulations, candidates may enrol for this Degree after having completed at least nineteen papers, including eleven papers at advanced level, for the Bachelor of Arts Degree, provided that
(a) the course proposed for this Degree will extend over not fewer than two academic years;
(b) they have obtained grades averaging B- or above in the advanced papers for the Bachelor of Arts Degree of the subject which they propose to take for this Degree;
(c) they satisfy the conditions in Regulation 1 (b) above, or are exempted from them;
(d) the remaining paper or papers for the Bachelor of Arts Degree are not in the subject which they propose to take for this Degree nor prerequisite to it;
(e) they enrol for these two papers in the first year of their course for this Degree;
(f) should they not pass the remaining paper or papers in the first year of their Master of Arts course, their Master’s course shall be suspended until they have passed the remaining paper or papers.
3. A candidate for this Degree shall follow a course of study that may extend over one year or more according to the requirements for the respective subjects in the Schedule but, except with the special permission of the Senate, shall not exceed three years in duration.
4. A candidate presenting subject 17, Languages and Literature, shall satisfy the requirements of Regulation 1(b) (i) in respect of each of the languages in his course. A candidate presenting subject 21, Mathematics, shall satisfy the requirements of Regulation 1(b) (i) in respect of Mathematics and Applied Mathematics.
5. A candidate shall be required to fulfil the requirements and pass the examination in one of the subjects prescribed in the Schedule provided that the Head of Department may require a student who fails to achieve a sufficient level in his paper or papers to substitute a further paper or papers for a thesis, dissertation or research essay where these are prescribed.
6. A candidate for this Degree may not
(a) substitute a paper or papers for any paper in which the candidate has already been examined for this Degree;
(b) resit any paper for this Degree except as provided in Regulation 13.
7. Notwithstanding anything in Regulation 5, a candidate for this Degree in any subject listed in the appended Schedule other than the subject 17, Languages and Literature, may with the permission of the Senate take:
(i) one Stage III or one Master’s paper or:

1988 Calendar
(ii) one Stage III and one Master's paper or:
(iii) two Master's papers, in a subject other than the one being taken for this Degree, or:
(iv) two Master's papers or one Master's and one Stage III paper in subjects that both differ from the one being taken for this Degree, if in each case such a paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.

8. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper he has passed or is taking and obtain credit for both for this Degree.

9. No candidate who has previously failed in a subject for this degree shall enrol a second time in the same subject without the permission of the Senate. For the purpose of this Regulation, subject 17, Languages and Literature and any one of the individual subjects which under Clause 17 of the appended Schedule maybe used to make up a combined Languages and Literature course, shall be regarded as the same subject.

10. The personal course of study of every candidate must be approved by the Head of Department.

Theses

11. Where a thesis is required the following conditions shall apply:

(a) The thesis shall embody the results obtained by the candidate in an investigation relating to some branch of the subject; or with the approval of the Senate shall consist of a review of the literature of some special problem, which may be combined with the repetition of some standard investigation on an aspect of that problem.

(b) In the case of a thesis recording laboratory work, a certificate shall be supplied to the Registrar by the supervisor stating that laboratory work has been carried out within the University.

(c) Except where otherwise provided in the schedule, candidates must present their thesis in the year in which they first sit for their degree or, with the consent of the Head of Department concerned, in either of the subsequent two years, provided that the time may be extended, in exceptional cases, by Senate.

(d) Candidates shall submit their thesis to the Registrar by 1 November of the academic year in which it is presented or at a subsequent date within that academic year if so arranged with the Head of his Department. The Registrar shall deliver the thesis to the Head of Department concerned.

(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date specified by the examiner and approved by Senate.

12. Where a dissertation or research essay is required the following conditions shall apply:

(a) The candidate shall present the dissertation or research essay in the year prescribed under the appropriate Departmental heading in the Schedule.

(b) Except as provided in the Schedule, the candidate shall submit the dissertation or research essay to the Registrar by 1 November in the year in which it is due to be completed or at a subsequent date within the same academic year if so approved by the Head of Department concerned, provided that the period may be extended, in exceptional cases, by Senate. The Registrar shall deliver the dissertation or research essay to the Head of Department.

Note: An abstract is to be submitted with each copy of a thesis, dissertation or research essay, see Examination Regulation 15.

Honours

13. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall be awarded only if a candidate obtains a sufficient standard in the papers taken and in the thesis at its first presentation, provided that, subject to sub-clause (c) of this Regulation, a candidate who qualifies for an aegrotat or compassionate pass may retain eligibility for Honours by applying:

(i) for an aegrotat or compassionate pass in papers not in excess of the number permitted to a candidate for Honours under the Examination Regulations, or

(ii) to sit or resit in the year following all the papers affected, or

(iii) for a pass or passes under (i) and to sit or resit the remainder as in (ii) above.

(c) A candidate permitted under Regulation 3 to take a course of study for this Degree for a longer period than three academic years shall not be eligible for honours unless the Senate so decides.

14. A candidate shall not take for this Degree a subject already passed for the Degree of Master of Commerce, or for the Degree of Master of Science, or as a principal subject for the Degree of Bachelor of Science (Honours).

15. The Senate, upon the recommendation of the Head or Heads of Departments concerned, may, in such exceptional circumstances as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations or to the Schedule below.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Master of Literature shall before enrolment have been admitted or qualified for admission to a Master's Degree with First or Second Class Honours, or, in exceptional cases, one of the other preliminary qualifications that would be required for enrolment for the Degree of Doctor of Philosophy.
2. A candidate for this Degree shall follow a course of full-time supervised study of not less than one year, nor more than two years, or the equivalent in part-time study.

Course Content
3. The course of study for this Degree shall comprise the preparation and presentation of a thesis, based on original research in one of the subjects available in the Faculty of Arts. The research topic shall be approved by the Head of Department and by the Senate.
4. The Senate shall, on the recommendation of the Head of Department, appoint a supervisor or supervisors of the thesis.

Other Provisions
5. The Senate may, in such exceptional circumstances as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.
6. The Degree may, on the recommendation of the Senate, be awarded with Distinction.
7. Notwithstanding Regulation 12(b) of the Regulations for the Degree of Doctor of Philosophy, a thesis rejected for that Degree shall not be submitted for this Degree.
8. These Regulations shall come into force on 1 January 1988.

DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF ANTHROPOLOGY
The Department of Anthropology includes three subjects: Anthropology, Maori Studies and Linguistics.

Some papers in this Department are offered under more than one subject. Such a paper will be listed under the same short title but with a different code number for each subject. Thus Introduction to Maori Society is listed both under Anthropology with the code number 03.102, and Maori Studies, with the code number 04.101. Students will choose the subject under which they wish to take such double-listed papers.

No paper may be credited twice to the same degree.

Note: * This paper will not be taught during the current Calendar year.
† This paper will not be taught during the current Calendar year unless sufficient staff is available

In either case candidates shall include three papers selected from those available at Master's level in Chinese, Indonesian or Japanese subject to the approval of the Head of Department. The remaining two or three papers shall, subject to the approval of the Heads of Departments, be selected from the Master's papers in one or two different subjects. At the discretion of the Heads of Departments one Stage III paper may be substituted for one of these Master's papers. In the thesis or research essay, sources in the Asian language being studied will be used.

DEPARTMENT OF CLASSICS AND ANCIENT HISTORY
The Department of Classics and Ancient History includes four subjects. Latin, Greek and Ancient History are taught to MA with Honours level, Classical Studies at Stage I only. Students should note that in the Classics and Ancient History Department most of the language papers at Stage I and II, and the basic papers at Stage III, are normally linked to other papers and must be taken, and passed, concurrently; the Ancient History papers may all be taken individually by students with the necessary prerequisites and corequisites, but students wishing to advance beyond Stage I should plan their courses carefully in consultation with a member of staff.
An MA with Honours in Latin and Greek (Combined Honours) requires that students pass Latin III and Greek III before enrolling in their MA year. Students planning this course should therefore start Latin and Greek together in their first year. Students who have taken the scholarship papers in Latin or Greek or who are sufficiently advanced in their studies may be enrolled for Stage II papers in place of Stage I papers. Such students should see the Head of Department at the earliest possible date.

Latin I consists of 09.100 and 09.101 for students who have studied Latin for four or more years at school, and of 09.102 and 09.103 for students with less than that. Students in the former group may in special circumstances apply to the Head of Department for permission to enrol in 09.102/3. Students who have passed 09.100 and 09.101 proceed to Latin II. Students who have passed 09.102 and 09.103 may, with the consent of the Head of Department, proceed to Latin II, but may prefer to take 09.100 and 09.101 before doing so.

Students who intend to advance to MA with Honours in Latin or Greek are strongly advised to enrol for the other as well in their first year. The prerequisites are stated in the MA Degree Course Regulations.

Students who intend to advance to Stage III in Ancient History are required to cope with documents in an ancient language, and must pass a prerequisite paper before enrolling for Stage III. The prerequisite paper for Paper 12.300 and 12.320 is 12.210, for 12.322 and 12.332 is 10.100, for 12.303 and 12.313 is 09.102.

Students who wish to take the Greek or Latin options at MA are advised to enrol in Greek or Latin papers in their first year, and do more than the prerequisite minimum. Students who wish to take the Egyptian option must pass paper 12.310 before enrolling for MA, and 12.410 before enrolling for papers 12.520/530. As much of the scholarly work on Ancient History (especially Egyptian and Akkadian subjects) is in foreign languages, students planning to take these options should enrol for German I and French I papers, in their first year preferably. Students should note that Greek III and Latin III may be used as the Stage III prerequisite to Ancient History MA with Honours provided that six Ancient History papers have been passed (see the MA Degree Course Regulations).

Students who intend to take Latin or Greek are advised that Ancient History papers, at least in the field relevant to their language, will be most useful, especially for those advancing beyond Stage I, since outlines of Roman (Greek) History are now no longer taught within the language courses. Students considering enrolling for any subject in the Department are strongly advised to come and see a member of staff during the pre-enrolment period. External students should consult the Department as early in the year as possible.

Note:
- This paper will not be taught during the current Calendar year.
- This paper will not be taught during the current Calendar year unless sufficient staff is available.

DEPARTMENT OF ENGLISH

Notes (i) Since the supply of textbooks continues to be uncertain, some changes in courses may be unavoidable. Students will be notified of any such changes at the beginning of the academic year. The books mentioned in the appendix are recommended books - ie those which students must have. Students should obtain from the department the fuller version of prescriptions and book lists, which include recommended books (ie additional to those prescribed); and also lists of further prescribed books which are required for those papers not mentioned in the appendix.

All students should possess a good Dictionary: Collins English Dictionary and the Concise Oxford are recommended.

(ii) Attention is directed to the MA prerequisites as set out in the Regulations for that Degree. Students intending to take MA in English should plan their courses with these requirements, particularly that of a foreign language, in mind.

English I

To advance to English II two English I papers must have been passed. Students intending to take 18.200 are advised to take 18.100. Students intending to take 18.201 are advised to take 18.105. Paper 18.100 has one lecture weekly for the whole year. The other papers have one lecture per week with an additional weekly lecture for half the year. All courses have weekly tutorials.

18.100 Introduction to Chaucer and Shakespeare
18.101 Twentieth Century Literature
18.103 New Zealand Literature
18.104 Nineteenth Century Literature
18.105 Introduction to English Language

English II

To advance to English III three specific English II papers must have been passed. See BA Schedule under English II: Note. Each paper involves one lecture per week except for 18.201 which has an additional lecture for part of the year; tutorials are also given.

18.200 Medieval Literature
18.201 English Language
18.205 Sociolinguistics
18.210 The Age of Shakespeare: Poetry
18.213 The Age of Shakespeare: Tragedy
18.220 Twentieth Century Fiction
18.222 Modern Poetry: 1900-1945

English III

The course consists normally of a minimum of three papers, and a maximum of six papers; students must take one paper from 18.300-18.304, one from 18.306-18.308 and one from the group 18.310 and 18.314-18.329. See BA Schedule under English III: Qualifications, and also MA prerequisites. Each paper involves one lecture per week (except 18.301 which has two lectures per week), with tutorial work as arranged.

18.328 Special Topic V as prescribed by the Head of Department: Creative Writing
Entry to this course is restricted. Details for the procedure to be followed for pre-enrolment are available from the Department.

*18.329 Special Topic VI as prescribed by the Head of Department

Note: 18.301 and 18.302 are normally prerequisites for MA paper 18.403. 18.301 is a prerequisite for MA paper 18.400, 18.302 is a prerequisite for MA paper 18.411 and normally a prerequisite for 18.401. 18.301 is normally a prerequisite for MA paper 18.402.

English for MA and Honours

Note: Intending MA students who are in doubt about the choice of courses should consult the Head of Department.

(1) Single Honours – English

Students will select seven of the papers set out below, their selection of papers to be approved by the Head of the Department. One paper listed under Stage III English, if not already credited for a BA degree, may be offered as a paper for an MA. Not more than three papers may be taken from the period after 1930. With the permission of the Head of Department, a thesis (18.601) may be substituted for two papers or a dissertation (18.604) for one paper. The dissertation will normally take the form of a documented essay of about 12,000 words; while the length of the thesis is approximately 25,000 words upon a topic requiring detailed research.

Candidates who present their papers in two years are required to complete the specified coursework before sitting the examination for each paper. Those who present all their papers in one year are, in most cases, exempt from coursework but will be given the opportunity to submit it if they desire. All students taking a paper from English III will be required to submit the prescribed coursework for that paper.

DEPARTMENT OF HISTORY
Fuller details concerning the Department's teaching programme and its requirements of students are contained in a Guide which all students must obtain from the Department at 5 Wynyard Street. Students are advised to call at the Department before enrolment to discuss courses and to obtain reading lists and a leaflet entitled Advice on Books to Buy. This will list recommended texts for papers for which there are no prescribed texts.

History I
24.100 From Versailles to Pearl Harbor: issues of peace and war
(first half of year)
The origins of the Second World War in Europe and Asia. The course examines the challenges Germany and Japan presented to the status quo and considers the outcome.

24.101 The Russian Revolution
(first half of year)
The origins of the 1917 revolution and the development of the Soviet state and society.

24.103 Fascism in the inter-war Years
(first half of year)
The nature of inter-war fascism with particular reference to Italy, Germany and Great Britain.

24.105 The USA in the 20th Century
(second half of year)
Political, social, intellectual, cultural, economic, and military trends and events in this century. Topics include: the origins of modern America; immigration; America's experiment with imperialism; the Progressive Era; World War I; the 1920s; the Great Crash; the Depression; Franklin D. Roosevelt and the New Deal; World War II; the Cold War; Harry S. Truman and the Fair Deal; the changing political, economic and social role of women in America; civil rights; Korea; the Eisenhower years; John F. Kennedy and Camelot; Lyndon B. Johnson and the Great Society; Black Power; Vietnam; the 1960s; feminism; and the Nixon years.

24.106 Marxism in Perspective
(second half of year)
Marxism stands at the crossroads of the modern social sciences. This course provides an introduction to Marxism and Socialism in the context of industrialisation and the nineteenth-century labour movement. This interdisciplinary course should interest students of sociology, economics, political studies and philosophy as well as history.

24.107 Women in New Societies
(second half of year)
The social, economic and political history of women in the USA, New Zealand and Australia. The paper will begin with America in the colonial period and finish in the 1920s. Special themes will be women's domestic and family role, the changing work of
women, the education of women, the women's rights movement and women's participation in social reform movements.

24.120 A History of Race Relations in New Zealand
(first half of year)
A history of racial and cultural interaction in New Zealand from the late eighteenth century to the 1980s.

24.121 New Zealand Society and Politics
(second half of year)
New Zealand history (other than race relations and specifically Maori history) since 1840, but with the main emphasis on the period since 1870.

24.140 Europe in the Age of Kings and Queens 1450-1700
(second half of year)
An introduction to the history of late medieval and early modern Europe, with emphasis on the development of European states and changes in habits of thought, social order and life styles.

24.141 Europe in the Age of Revolution 1750-1875
(second half of year)
A survey of the economic, social, political and ideological transformation of Europe during the eighteenth and nineteenth centuries, with emphasis on the 'dual revolution' - the French Revolution of 1789 and the British Industrial Revolution.

Note: Papers are taught on a half-year basis, three lectures per week. The following will be in sequence in 1988: 24.100-24.107; 24.101-24.105; 24.103-24.106; 24.120-24.121. 24.140, 24.141 will not be in sequence. Second half year papers will start in the week beginning 20 June. Should their timetable permit, students may take a single paper, or two or more papers from different sequences.

Asian History I

24.130 China since the Opium War
(second half of the year)
The collapse of Imperial China under the impact of foreign imperialism and internal upheavals and the subsequent struggle to rebuild a modern nation.

24.132 Nationalism and Revolution in Vietnam, Thailand and Indonesia
(first half of year)
An examination of the nineteenth-century roots of nationalism and the significance of the revolutionary struggle in the twentieth century.

Note: There will be three lectures and one tutorial a week for each paper. Paper 24.130 will start in the week beginning 20 June.

24.133 The development of modern Japan
(all year)
Offering some explanations for the rise of Japan as a major world power, the paper first discusses the feudal order in Tokugawa Japan and the policy of seclusion. The next section analyses the transition to a unified nation state and the opening of Japan to the West. The third section deals with the modernisation of Japan, its expansion into East Asia and the Pacific, the American occupation, and the reconstitution of the political order after 1945.

Note: 24.133 will be taught throughout the year, three lectures and a tutorial each fortnight.

History II

24.200 Rome and the Barbarians 350-750
(first half of year)
The course will provide a broad outline of relations between the Roman Empire and various northern peoples from about 250 to about 600. Attention will then focus on the period during which the Goths first entered and settled within the Empire (roughly 350-430), concentrating on the motives of their leaders, the responses of the imperial government and the provincial aristocracy, and the resulting impact upon Roman institutions, culture, and economy.

24.201 Medieval English Kingship from Alfred to Henry III
(second half of year)
Studies in the development of royal power in England from the Anglo-Saxon period until the thirteenth century.

24.214 Parliaments, Estates and Revolutions, 1500-1660
(second half of year)
A study of representation and consent in early modern Europe and of the parliamentary assemblies which were the embodiment of these principles. The course falls into two parts: a static, institutional study of assemblies in the mid-sixteenth century; and a dynamic study of the rise, decline, or eclipse of those assemblies, and particularly of their role in the crises of the mid-seventeenth century.

24.215 Society in Crisis: Europe 1550-1660

24.216 Modern France 1871 to the Present
(first half of year)
A political, social and economic history of France under the Republic emphasising the dynamics of social conflict and the mediating role of the State.

24.230 Polynesian and European Exploration of the Pacific
(first half of year)
European exploration of the Pacific and theories on the origin and migrations of Polynesians, including Maori voyages to New Zealand.

24.232 Colonial Society and the American Revolution
(first half of year)
The development of the societies and institutions of colonial America leading to the American Revolution.

24.233 Australian Society 1788-1988
(second half of year)
A study of some of the main factors that have shaped Australian society and the attitudes and values of Australians.

24.234 New Zealand Communities 1840-1940
(second half of year)
A study of the origins, social structure, cultural and economic change, politics and government of different types of New Zealand communities. Case studies will be made of certain communities e.g. a
Wakefield community, a sheep station, a Maori community, an urban community.

24.305 Special Topic
24.306 Special Topic

Second half year papers will start in the week beginning 20 June. Should their timetable permit, students may take a single paper, or two or more papers from different sequences.

Asian History II
24.222 China under the Ming and Qing Dynasties
(first half of year)
The social, political and economic structure of the final period of the Chinese empire, and the practice of imperial government under native and foreign rulers, China's relations with the outside world, and the development of her cultural heritage.

24.223 State and Society in Pre-colonial Island S.E. Asia
(first half of year)
An introduction to the history and culture of Malaysia, Indonesia, and the Philippines until the end of the nineteenth century. The course first examines their common economic and cultural environment, and the impact of Indian and Islamic ideas on society. It then traces the effects of Western intrusion into the archipelago and shows how this laid the grounds for the evolution of the region's modern political divisions.

24.224 State and Society in Pre-colonial Mainland S.E. Asia
(second half of year)
An introduction to the history and culture of Burma, Thailand, and the Indo-China states until the end of the nineteenth century. The main concern of the course is to show how a number of different ethnic unities which shared a similar geographic, economic and religious environment developed in time to become distinct polities. These historic experiences in turn determined how they responded to the Western challenge in the nineteenth century.

Note: Papers are taught on a half-year basis, two lectures, one tutorial per week. 24.223, 24.224 are taught in sequence. 24.222 will be taught in the first half. Second half year papers will start in the week beginning 20 June.

History III
24.301 The Reign of Henry VIII
24.302 The Mexican Revolution
24.303 The American Civil War and Reconstruction
(first half of year)
The problems of slavery, race relations, and sectionalism in nineteenth-century America.

24.304 Race in the Antipodes: New Zealand, Australia and South Africa in the 19th Century
(second half of year)
The evolution of ideas about race in the nineteenth century with case studies of New Zealand, Australia and South Africa.

24.305 Pacific History: Culture Contact to about 1900
(first half of year)
The relations between Pacific Islanders and Europeans (explorers, travellers and missionaries) up to the colonial period.

24.306 Special Topic
To be prescribed by Head of Department

24.307 The Origins of the First World War
(first half of year)
The origins of the First World War through discussion of the foreign policies of the main European countries involved, including Italy, and an analysis of international relations from 1870, and particularly from 1890 to 1915.

24.308 British Labour History 1850-1918
(first half of year)
The conditions of life and work of the lower classes and the evolving nature of the industrial and political labour movements.

24.309 A History of Mediaeval Europe from Charlemagne to Philip the Fair
(second half of year)
Designed as a successor to 24.201, this paper will cover approximately the same period (c. 800-c. 1296) and will deal with the political and cultural history of mediaeval European States (excluding England).

24.330 Britain and Russia: a Century of Conflict
(second half of year)
During the nineteenth century one of the major fac-
tors in the formulation of British foreign policy was fear of the growth of Russian power. What was Brit-
tish policy in response? To what extent does an ex-
amination of Russian foreign policy warrant the nin-
teenth-century British interpretation of it?

*24.336 Popular Culture in Early Modern Europe

24.338 Racial Equality in the United States since 1920
(second half of year)
The efforts of blacks to achieve full benefits of ci-
tizenship in the United States, including the NAACP's attack on segregation through the courts
Brown v Board of Education, the Civil Rights
movement, Martin Luther King, Black Power, Black Separatism and Black nationalism.

Note: Papers are taught on a half-year basis, one one-hour and one
two-hour period per week. The following will be the sequence for 1988:
24.333; 24.327-24.325. Second half year papers will start in the week
beginning 20 June. Should their timetable permit, students may take a
single paper or two more papers from different sequences. But it may
prove impossible owing to pressure of numbers in certain classes to
allow students to enrol for all the papers of their first choice.

Asian History III

24.312 Sino-Japanese Relations since the Meiji Restoration
(first half of year)
The relations of the two principal nations of the Far
East, 1868-1945: the breakdown of China's informal
overseas empire: the growth of Japan's ambition and
capability and the impact of these upon China.

24.330 British Imperialism in Southeast Asia
(first half of year)
A survey of British imperialism in the Southeast
Asian context from the late eighteenth century to the
two years following the Second World War, with an em-
phasis on selected topics and areas.

24.340 Theravada Buddhism and Islam in Southeast Asian History
(second half of year)
The first section of the course will discuss the history
and major teachings of these religions and their na-
ture in Southeast Asia. The second section will ex-
amine the influence of specific religious developments
in Theravada Buddhism and Islam in the history of
Southeast Asia.

Note: Papers are taught on a half-year basis, one one-hour and one
two-hour period per week, in the following sequence: 24.330-24.340,
24.312 will be taught in the first half year. Second half year papers start
during the week beginning 20 June.

History for MA and Honours

Students must attempt four papers (excluding 24.430
and 24.431 but including 24.410) in their first year
and complete their remaining work in their second
year. Students in full-time employment or with other
demanding responsibilities may (with the permission
of the Head of Department) attempt fewer papers in
their first year and spread their remaining work over
the one or, at most, two years following.

The thesis shall not exceed 50,000 words and two
copies must be handed in to the Registrar in accor-
dance with MA Regulation 11(d). The dissertation
shall be between 10,000 and 15,000 words and two
copies must be submitted to the Registrar by 1
December in the student's final year.

The Head of Department may permit a student not
attempting a thesis to include as one of the six papers
required a special study (24.430), involving a research
programme prepared in consultation with one or
more staff members. In exceptional cases, a second
special study (24.431) may be included.

Students are expected to report regularly to their
supervisors and to attend a fortnightly graduate re-
search seminar in their second and (where applicable)
third year.

24.400 Topics in New Zealand History

Discussion of research and controversy on several
broad topics including race, class, gender, locality and
nationality.

24.401 The Political Development of the Pacific Islands from about 1870

An examination of political and related social change
in the Pacific Islands from annexation to
decolonisation.

*24.402 Race and Class in Southern Africa in the 20th century

†24.403 Topics in Australian History since 1880

An investigation of social change and social structure
with emphasis on issues at present engaging the at-
tention of research workers.

24.404 Kings, Lords and Commons: Tudor Government and Society 1485-1603

This course involves the extensive use of primary
materials. It concentrates on the changing role of
parliament; the shifting relationship between king,
lords, and commons; and parliament's response to a
wide variety of political, economic and social prob-
lems ranging from religion and witchcraft to treason
and inflation.

†24.405 The Crisis of American Liberalism

The evolution of American society and institutions
since the advent of the New Deal. The course will
include readings on major political, social, economic,
cultural, and military developments from 1932
through the resignation of Richard Nixon, as well as
foreign policy for the same period. Emphasis will be
on the changes wrought by the Great Depression and
the New Deal and the emergence of America as a
global power.

*24.406 Individual and Community in Western Europe 1050-1200

24.407 Indonesia and the Philippines: Colonial Experience and Post-colonial problems

This paper examines the similarities and contrasts in
the colonial history of Indonesia and the Philippines
and discusses some of the problems the two Republics
have faced since independence.

*24.409 British Social History 1870-1914
24.410 The Historian's Craft: Theories, Methods and Techniques
The course is designed to achieve two aims: (1) to provide a basic knowledge of the evolution of history as a discipline through a selective study of some of the most influential schools of history in the past; and (2) to establish a sound understanding of some modern trends in history. The latter would involve the examination of ideas and the application of methodologies which have been developed by the French Annales School, by the closer links being forged between history and the social sciences, and by the unique developments which have evolved in the historiography of Asia, Africa, and the Pacific.

†24.411 Topics in the History of the Early American Republic
A study of early national American society and politics, with special reference to political culture, diplomacy and war in the years between 1776 and 1828.

24.413 The Origins of the Second World War
This course is mainly concerned with the origins of the war in Europe and lays particular emphasis upon the relationship between internal and international affairs.

24.420 China's Struggle for Modernity: The Republican Era
An examination of China's gradual fragmentation after the 1911 revolution and its tortuous development towards a new national unity.

†24.421 Special Topic
To be prescribed by Head of Department

24.422 Topics in Late Roman Religion
The course is designed to provide opportunity and guidance for seminar work on a variety of issues, pagan as well as Christian and Jewish, over a broad period of time (roughly the first five centuries of the common era).

In 1988, lectures will focus on Basil of Caesarea (d. 379), and students will be encouraged (though without insistence) to study the literary, philosophical and ascetic traditions that contributed to Christian monasticism in the fourth century.

*24.423 Marxist Historians and their Critics
24.430 Special Study
A research programme, normally related to one of the papers 24.400 to 24.429, selected in consultation with one or more staff members and approved by the Head of Department.

24.431 Special Study
A research programme, normally related to one of the papers 24.400 to 24.429, selected in consultation with one or more staff members and approved by the Head of Department.

Note: (i) There is no guarantee that all papers listed above will be available in any one year.
(ii) If enrollment for any MA paper other than 24.430 and 24.431 falls below five, students may be asked to transfer to another MA paper, or to pursue study in the field by enrolling in 24.430 or 24.431.
(iii) All students intending to enrol for MA must see the Head of Department before formally enrolling, preferably before the end of the previous year.

DEPARTMENT OF MATHEMATICS AND STATISTICS
For prescriptions see Index.

DEPARTMENT OF MUSIC
Note: * This paper will not be taught during the current Calendar year
† This paper may not be taught during the current Calendar year

Restrictions on Entry to Courses:
1. A student wishing to advance in Music for BA (that is beyond Stage I) who has little evidence of musical background is required to satisfy the Head of Department of Music that an appropriate standard has been reached. For this purpose short interviews will be held in late January of the year for which preparatory application has been made. A limited number of first-year places is available in the Department. Students should refer to the Faculty of Music Prescriptions for details.

Music I
Music I (as prescribed for B.Mus)

Prescriptions for BA
28.104 Music and the 20th Century
(One paper)
A listening-based approach to music and its various types and forms in the period 1900-1960.

28.105 Basic Musical Techniques
(One paper)
Fundamental written skills in music, and practice in keyboard work and aural perception.

Music II
Music II (as prescribed for B.Mus)

Music III
Music III (as prescribed for B.Mus)

Music for MA and Honours
Seven papers are required for MA in Music: four papers, and a thesis (which counts as three papers), as prescribed for MMus.

Entry to the course depends on interview by the Board of teaching members of the Music Faculty. Where necessary, a candidate will be required to satisfy the Head of the Department as to his or her proficiency as a performer, or ability to read an approved language other than English, or both.

Note: (1) The availability of these papers will depend on the number of students and their choice of papers.
(2) The specific requirements for choice of papers are given in MA Schedule (22).

PACIFIC STUDIES
Note: These papers are taught by visiting academics in different departments each year. Enquiries for 1988 should be initially addressed to the departments of Political Studies and Anthropology.

*79.100 A Topic in the Political Economy of the Pacific
79.101 A Topic in Pacific Arts

Note: *This paper will not be taught during the current Calendar year.
DEPARTMENT OF PHILOSOPHY

Full details concerning the Philosophy Department, the content of its courses and its requirements of students are contained in a brochure entitled Department of Philosophy: Course Outlines. A copy can be obtained from the Philosophy Department Secretary, first floor, 3 Alfred Street. The brochure also contains a full list of textbooks for each course. Students are strongly advised to consult the brochure and to seek advice from the Department concerning their proposed Course of Study before enrolment. Students enrolling in Philosophy must obtain a copy of the brochure.

Prerequisites and corequisites for the various papers offered by the Department are set out in detail in the BA Schedule. Students should note that paper 29.101 is a prerequisite for some Philosophy III papers. Students may be able to obtain an exemption from the prerequisite or corequisite requirement of 29.101 for various papers by passing a special examination in logic to be held immediately before enrolment week. Interested students should see the Head of Department at the earliest opportunity, preferably before the vacation, as some study through the vacation will be needed. A pass in the special examination carries no credit towards a degree.

Philosophy I

Note: Two hours per week for each paper including lectures and tutorials.

29.100 Introduction to Metaphysics and Theory of Knowledge
29.101 Introduction to Logic
29.102 Ethics
29.103 Social Philosophy

Philosophy II

Note: (i) Paper 29.208 is a prerequisite for all Philosophy III papers.
(ii) One two-hour period per week for each paper other than 29.201 (two one-hour periods per week).
(iii) The prerequisites for all Philosophy II papers is a pass in two Philosophy I papers.
(iv) Students majoring in a subject other than Philosophy who wish to enrol in Philosophy II papers and who have not passed any Philosophy I papers may enrol if the Head of Department deems they have adequate background in the subject matter of the papers.

*29.200 Philosophy of Mind
29.201 Logic II

*29.202 Philosophy of Language
29.203 Philosophy of Science

Philosophy for MA and Honours

Prerequisites for enrolment for MA in Philosophy are passes in eight Philosophy papers, including 29.101, 29.306, and three other Philosophy III papers (or two other Philosophy III papers for students taking a double major). All Philosophy III papers must be passed at an average grade of C+ or higher. Seven papers are required for MA in Philosophy: either four papers to be taken in the first year and three in the second year of the course, or, with the approval of the Head of Department, four papers and a thesis counting as three papers (29.601). One paper may be chosen from those offered in Philosophy III which the student has not previously passed. All other papers are to be selected from 29.400 to 29.420, not all of which are offered in any one year. The selection must be approved by the Head of the Department, who will generally require that the chosen papers fall within at least three of the following areas of Philosophy: (i) Theoretical Philosophy (Metaphysics, Epistemology, etc.); (ii) Practical Philosophy (Ethics, Political Philosophy, etc.); (iii) Logic; and (iv) History of Philosophy (either a period or an important figure). Students intending to enrol for an MA in Philosophy must consult the Head of Department towards the end of the previous year to discuss the availability of papers, the proposed MA course, and textbooks, reference works and vacation reading for each course.

29.417 Aesthetics
29.418 Special Topic
29.419 Special Topic
29.420 Special Topic
Candidates for 29.420 will be required to write essays (to be submitted no later than the end of the fourth week of the third term) within a field of Philosophy to be specified by the Head of Department. There will be no examination paper.

DEPARTMENT OF PHYSICS

Physics I
31.100 Concepts of Physics
Two lectures plus one laboratory/tutorial per week for the whole year. The course begins by discussing the rise of Newtonian mechanics. It is found, for instance, that people untutored in physics tend to have a view of the physical world similar to that which prevailed amongst “scientists” in mediaeval times. The meaning and significance of the three laws of motion enunciated by Newton are explained. His law of gravitation is then discussed and combined with the laws of motion to show how the motions of planets and moons could be predicted. Terrestrial applications of Newton’s ideas are then given, such as applications to fluid flow and the kinetic theory of gases. The 19th century concept of how light waves were propagated is discussed and how this gave a surprising result when attempts were made to determine the absolute motion of the earth; Einstein’s resolution of the dilemma and the origins of the theory of relativity; the wedding of space and time and matter and energy. Ideas of quantum theory are introduced to explain atomic properties. The validity of the theory as demonstrated by its successes will then be shown. Since quantum theory seems to deny determinism, conceptual difficulties will be discussed. Although the course can be taken satisfactorily with little background in mathematics, the quantitative nature of physics will often be stressed. To this end lectures will often contain “appendices” sometimes in the form of handouts aimed at more satisfying explanations of the lecture material for those with a mathematical background.

DEPARTMENT OF POLITICAL STUDIES

Note: *This paper will not be taught during the current Calendar year.

DIPLOMA IN DRAMA

DipDrama

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations a candidate for the Diploma in Drama shall before his or her enrolment for this Diploma either (i) have been admitted or qualified for admission to the Degree of Bachelor of Arts having passed in not fewer than three papers in Stage II in English, or a language other than English, or such other subject or subjects as the Senate may approve; or (ii) have been admitted or qualified for admission to some other university degree approved for this purpose by the Senate; or hold or have qualified for an award or qualification in dramatic work approved for this purpose by the Senate;
and in any case have had in the opinion of the Senate sufficient experience in the theatre or in the writing or teaching of drama.
2. A candidate for this Diploma shall follow a course of study for a period of one year, but in exceptional circumstances this period may be extended by the Senate.
3. The Course shall consist of such written and practical work as may be prescribed in theatrical, dramatic, and related fields.
4. A candidate shall throughout his enrolment for this Diploma carry out such practical work and shall participate in such approved theatrical work or plays as the Lecturer in charge of the Course shall require.
5. These Regulations shall come into force on 1 January 1977.

PRESCRIPTIONS FOR DipDrama

The Diploma in Drama is directed by Mervyn Thompson, Senior Lecturer in Drama aided by other professional tutors and University lecturers.
The purpose of the Diploma in Drama is to offer a basic training in theatre and playwriting to those wishing to work in schools, the theatre or in the community. It should not be seen as a training course for professional actors.
Candidates wishing to enrol in 1988 in the Course for the Diploma in Drama (75.100) are required to give notice of their intention to the Registrar of the University not later than 15 January 1988.
Candidates should have a Bachelor of Arts Degree from Auckland or some other University or should hold an award or qualification in dramatic work and have had experience in the theatre or in the teaching of drama. Generally, candidates under 20 years of age are not considered for the course.
Candidates may be called for an interview. All candidates will be required to produce evidence of academic qualifications and a variety of theatrical skills.
The Course is a full-time course extending over one year. Permission to take other courses or do other theatre work will be granted only in rare instances.
The Course will include a selection of the following:
(i) Fundamentals of acting including speech, movement and improvisation.
(ii) Basic techniques of the theatre, e.g. lighting, design, wardrobe, direction.
(iii) Television acting and the use of television equipment.

(viii) Practical work in production.
(ix) Brief exercises in the making of theatre for young people.
(x) Exercises in group theatre and playmaking.
In 1988 the emphasis will be on playwriting and related skills.
A list of books required for study will be available from the Department. All students should obtain this.

DIPLOMA IN EDUCATION

DipEd

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations; for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Regulations a candidate for the Diploma in Education shall before enrolment for this Diploma:
   (a) have been admitted or qualified for admission to a degree at a University in New Zealand except as provided in Regulation 2 below or have been awarded or qualified for the award of a University diploma approved by the Senate; and
   (b) have passed papers 14.100 or 14.102 and 14.101 as prescribed for the Degree of Bachelor of Arts, provided that those papers or either of them may with the permission of the Head of Department be taken concurrently with papers in Part I of the course.

Note: Approved diplomas at present are the Diplomas in Fine Arts and Music and Diplomas in Home Science and Physical Education of the University of Otago. In special circumstances the Senate may permit a candidate who is the holder of a diploma other than those listed above to undertake the course.

2. Subject to the Admission Regulations a candidate may enrol for the Diploma in Education after having completed at least nineteen papers for the Bachelor of Arts Degree, or the equivalent in another degree, provided that
   (a) The proposed course for this Diploma will extend over not fewer than two academic years.
   (b) The remaining papers of the Bachelor's Degree are taken in the first year of the Diploma course.
   (c) Should the candidate not pass the remaining paper or papers the Diploma course shall be suspended until they have been passed.

3. (a) The course of study for the Diploma in Education shall consist of two parts:

Part I
Four papers in Education at Stage II or III as prescribed for the Degree of Bachelor of Arts and not having already been credited to a degree or diploma, of which not more than two are at Stage II.

Part II
A report of an original investigation (14.500) having the value of two papers, of a topic approved by the Head of the Department of Education.

(b) A candidate shall be required to pass each paper in Part I and the original investigation in Part II.

4. As to the investigation and report for Part II:
   (a) the topic shall be submitted to the Head of Department in reasonable time before 31 March of the year in which the report is to be submitted, so that it may be approved by that date;
   (b) the report shall be submitted within three years of the year in which the candidate completes Part I, or within such longer period as the Senate may in special circumstances permit;
   (c) the report shall be delivered to the Registrar by 1 November, or later date approved by the Head of Department, of the year in which it is submitted.

Note: An abstract is to be submitted with the original investigation. (See Examination Regulation 14.)

5. Every candidate shall present to the Head of Department a certificate from an approved authority confirming that the candidate has been engaged for at least two years in full-time work in the practice of teaching, or in education work of a related character, such as vocational guidance, child guidance, child welfare, social work or community education, and has shown efficiency therein.

6. The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

7. These Regulations shall come into force on 1 January 1977.

   (i) holds or has qualified for the award of a professional qualification in Accountancy, Management, or other approved discipline; or
   (ii) has had not less than five years responsible practical experience in a responsible position in local government or administration.

2. A candidate for the Diploma shall pursue a course of study for a period of not less than one year, provided that for part-time students the course of study shall extend over a period of not less than two years.

3. Except with the permission of the Senate in exceptional circumstances,
   (i) the course of study must be completed within four years of the date of first enrolment for the Diploma; and
   (ii) the Research Essay (Paper 30.623) must be submitted within two years of the date of first enrolment for that paper.

4. No candidate shall be credited for this Diploma with any paper which he has passed for another degree or diploma.

5. No candidate shall take papers for Part II unless he has passed or enrolled concurrently in the papers for Part I.

Subjects

6. The subjects for examination for the Diploma shall be:

   Part I
   30.500 The Local Government System in New Zealand
   30.413 Public Administration as prescribed for MA
   Note: A candidate who has already been credited with 30.413 may substitute 72.405 Organisational Development as prescribed for MCom.
   *30.402 Urban Government and Politics as prescribed for MA
   Note: A candidate who has already been credited with 30.402 may substitute 20.436 Urban Geography as prescribed for MA and MSc.

   Either
   Two papers from the following:
   25.220 Local Government Law, as prescribed for LLB
   25.313 Environmental Law, as prescribed for LLB
   25.319 Planning Law, as prescribed for LLB
   36.252 Law, Government & Planning, as prescribed for BTP
   01.204 Public Sector Accounting, as prescribed for BCom
   01.413 Management Decision Making and Control in the Government Sector, as prescribed for MCom
   †13.203 Economics, as prescribed for BA and BCom
   13.204 New Zealand Public Economics, as prescribed for BA and BCom
   13.214 The New Zealand Economy, as prescribed for BA and BCom
   13.307 Public Expenditure, as prescribed for BA and BCom
   72.203 Organisation and Management, as prescribed for BCom
   72.207 Labour Relations, as prescribed for BCom
   72.303 Advanced Labour Relations, as prescribed for BCom
   72.307 Personnel Policy & Practice, as prescribed for BCom
   One paper as prescribed for any other Degree or Diploma of this University and specifically approved by the Head of Department.
   or
   30.623 Research Essay (which counts as two papers).
   Note: An abstract is to be submitted with the Research Essay, see Examinations Regulation 14.

1988 Calendar
Prerequisite for Papers in Part II
7. Candidates should note that, unless a waiver is obtained from the relevant Head of Department, they will be required to comply with the prerequisites stipulated in the Calendar for the respective papers in Accountancy, Economics and Management Studies.
8. These Regulations shall come into force on 1 January 1980.

PRESCRIPTIONS FOR DipLGA
The course for the Diploma in Local Government and Administration may be completed in not less than one year of full-time study or two years of part-time study. Students are required to take papers from Part I in their first year of study.

Prescriptions for courses listed in the Regulations for the Diploma (and not prescribed for other degrees) are given below.

30.500 The New Zealand Local Government System
The evolution, structure and characteristics of the system. Reorganisation schemes and functional features. Local politics, elections and public participation.

30.623 Research Essay
A research essay may be presented in lieu of two papers from Part II of the course. It shall consist of 18,000 to 20,000 words on an approved topic in local Government Administration or Politics.

POSTGRADUATE DIPLOMA IN SOCIAL RESEARCH PGDipSocRes
The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their courses for study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. (a) Subject to the Admission Regulations, a candidate for the Diploma in Social Research shall, before enrolment for this Diploma, have been admitted or qualified for admission to the Degree of Master of Arts in one of the subjects listed in paragraph (b) of this Regulation; or, if not so qualified, and provided Senate approves, have completed not fewer than four papers for that Degree in one of those subjects.
(b) The subjects in which a candidate shall have qualified in terms of paragraph (a) of this Regulation are Anthropology, Maori Studies, Economics, Geography, Sociology, Political Studies, Education, Psychology and History.
(c) In exceptional circumstances, Senate may approve the enrolment of a candidate who has been admitted or qualified for admission to a degree other than a Master of Arts or who has included in their qualifying degree subjects other than those specified in paragraph (b) of this Regulation.
2. A candidate for this Diploma shall follow a one year course of full-time study, or a two year course of part-time study.
3. The course of study for this Diploma shall consist of two parts.

Part I
†82.500 The Uses of Social Research.
†82.501 Issues and Methods in Research I.
†82.502 Issues and Methods in Research II.

Part II
A report on an original social research investigation counting as two papers (82.503). The report shall be not more than 20,000 words long. Two copies must be submitted to the Registrar not later than the last day of February in the Calendar year following the examinations.
4. A candidate shall be required to pass each paper of Part I and pass Part II as a whole.
5. The Senate may in such exceptional cases as it thinks fit approve a personal course of study which does not conform to the foregoing Regulations.
6. These Regulations shall come into force on 1 January 1987.

PRESCRIPTIONS FOR PGDipSocRes
The purpose of the Diploma is to provide graduate students with a preparation in the methodological principles and practice of social research.

The course is a full-time course extending over one year or two years of part-time study. Entry to the course will be restricted to six candidates in any one year. Candidates wishing to enrol in the course for the Diploma
are required to give notice of their intention to the Registrar of the University by letter which shall include a curriculum vitae showing academic results and any other qualifications by 15 January each year. Candidates may be called for interview.

82.500 The Uses of Social Research
This paper will examine the literature on the roles of social research and social theory in the formulation, monitoring and evaluation of social policy; and the role of social policy concerns in the development of social science knowledge. The paper will apply themes from this literature to the New Zealand context.

82.501 Issues and Methods in Research I
82.502 Issues and Methods in Research II
These papers will provide an advanced critical education and training of in a range of qualitative and quantitative social research methods. These will include social surveys, use of official social data, field observation studies, and documentary studies. Analytical devices specifically intended to assist policy making and evaluating theories also will be reviewed.

82.503 Supervised Social Research Project (Practicum)
This exercise will involve an empirical research study within an explicit theoretical and/or policy relevant framework. The exercise will be reported in an essay of up to 20,000 words, written specifically to communicate the findings to appropriate audiences. Where possible the practicum will be carried out, at least in part, in an appropriate policy setting, or as a group research project.

The Faculty of Science consists of fourteen independent Departments covering the full range of mathematical, physical, biological, behavioural and earth sciences. Each Department teaches papers at the undergraduate and graduate levels as well as being involved in research. Students commencing the BSc Course are advised to consult the Science Faculty Handbook which describes the papers offered and gives advice on planning a Course of study. Information on research activities is contained in the University of Auckland Research Report which is published each year and lists research publications and thesis topics. In addition each Department issues information on the courses it teaches.

Bachelor of Science
Over 200 papers grouped under sixteen different subject headings are offered in the BSc schedule. Students select personal Courses of study from among these papers according to their interests and career objectives. There are 32 Stage I papers each of which provides an introduction to the subject and a foundation on which to build further study. The Stage II and III papers progress to a more advanced level, with a greater depth and concentration of subject-matter. The papers differ in their relative sizes and this is indicated by the number of credits awarded for each paper passed. Most of the Science papers involve laboratory or fieldwork which is an integral part of the teaching programme.

The subjects offered in the BSc schedule are:

</tbody>
</table>

Students should note that not all subjects are available at Stage I. The BSc schedule gives a breakdown of each subject's papers and their stages.

The minimum requirements for the BSc Degree can be summarised as follows:

- At least three years' study
- A total of 96 credits
- At least 36 credits above Stage I
- At least 12 credits in Stage III Science papers
- At least four different Science subjects (at least 6 credits in each). Regulation 3(c) permits exceptions.

For the purpose of defining Science subjects, Applied Mathematics and Pure Mathematics are separate subjects, but Biology is not a subject (all Biology credits must count as either Botany or Zoology).

There are two important constraints which must be borne in mind when planning a BSc course. The first is that all prerequisite and corequisite requirements are met. The best way to plan a BSc course is to select first the major subject which will be taken to Stage III. Then work backwards to ensure that all the necessary prerequisites are taken in the first two years. The other constraint on selection of papers is the problem of timetable clashes. Students should study carefully the timetable information given in this Calendar, noting particularly the quarters of the year in which each paper is taught. Some of the larger classes will have several alternative laboratory and lecture streams which may help to avoid clashes. Thus most of the common combinations of Stage I papers can be taken without clashes, but the large number of advanced papers means that many combinations of subjects are impossible for timetable reasons. As a general rule it is not possible to take papers which clash in lecture or laboratory times, unless a special arrangement can be negotiated with the Departments concerned.

The BSc Regulations include some special provisions which can be of benefit to some students. Thus students who have performed well in Bursary or Scholarship examinations may be permitted to enrol directly in Stage II papers without having passed the prerequisite Stage I papers. Students who have been awarded the NZCS or other technical qualifications before coming to University may be granted credit towards the BSc (maximum 36 credits). Students who abandon Intermediate courses for Engineering, Architecture and other courses will normally be permitted to credit passes in Science papers for the BSc Degree.

Although the main object of the BSc course is to teach scientific method and to impart knowledge and appreciation of some of the main scientific disciplines it is also possible to acquire a broad educational experience by suitable choice of papers. BSc students may also take up to 12 credits from papers in other Faculties, giving an opportunity to pursue interests outside of the sciences. To enable students to obtain
knowledge of particular use in Commerce, the papers listed in the Appendix may be selected in excess of these 12 credits, although enrolment limitations apply to many.

**Bachelor of Science (Honours)**
This course is available only to students of proven ability in Biochemistry, Computer Science, Geology, Applied Geology and Mathematics. Students normally change from the BSc course to the BSc (Hons) course at the end of their second or third year at University. The course covers much of the same advanced material as the MSc course, but it is possible to complete BSc (Hons) within four years. BSc (Hons) graduates are permitted to enrol for PhD studies without completing a Master’s degree.

**Bachelor of Optometry**
This is a four-year professional course leading to registration as an optometrist. The first year consists of eight specified Science papers at the Stage I level. Entry into the second year of the course is strictly limited to 18 students and selection is made on the basis of performance in the first year. Considerable clinical training is involved particularly in the final year.

**Master of Science**
This is a course of advanced study and an introduction to research, based on the study of one scientific discipline in depth. All of the Science Departments offer MSc courses, each course consisting of a number of specialist papers plus a thesis on a selected research topic. (In Computer Science and Mathematics the thesis may be replaced by an advanced course of study.) All Departments offer a wide range of MSc research topics and intending students are advised to discuss their proposed course with staff members before completing the BSc Degree.

The prerequisite for the MSc course is a BSc degree with the required number of Stage III credits as specified for each subject in the MSc regulations, with an average grade of C+ or better in these Stage III papers.

**Doctor of Philosophy**
The PhD Degree has become accepted as the appropriate qualification for a career in scientific research. The PhD course consists of advanced study and supervised research leading to the presentation of a thesis. The thesis must be an original contribution to knowledge and meet the recognised international standards of scientific research.

**Diploma in Clinical Psychology**
This is a three-year course which is undertaken in conjunction with the Master’s Degree in Psychology.

**Diploma in Computer Science**
This is a specialist graduate course concentrating on topics in Computer Science.

**Diploma in Mathematical Education**
This is a course for graduates in Mathematics who are involved in teaching the subject in secondary schools.

**Diploma in Statistics**
This is a specialist postgraduate course involving papers in Statistics, Mathematics and Computer Science together with a project.

**Certificate in the Principles and Practice of Radiochemistry**
A pass in 08.350, or 08.352 will entitle students to receive the elementary certificate.
DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF SCIENCE
BSc

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations; for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

General Provisions

1. Except as provided in the Admission Regulations candidates for the Degree of Bachelor of Science shall follow a Course of study of not less than three years.
2. (a) The subjects prescribed for this Degree are:
   - Biochemistry
   - Botany
   - Cellular and Molecular Biology
   - Chemistry
   - Computer Science
   - Education
   - Environmental Studies
   - Geography
   - Geology
   - Mathematics (Applied)
   - Mathematics (Pure)
   - Pharmacology
   - Philosophy of Science
   - Physics
   - Physiology
   - Psychology
   - Zoology
   (b) For the purpose of these Regulations: a ‘paper’ is a separately assessed segment of work in a subject, and papers are classified as follows:
      - Stage I (xx. 100 to xx. 199)
      - Stage II (xx. 200 to xx. 299)
      - Stage III (xx. 300 to xx. 399)
   (c) ‘credits’ are awarded for the successful completion of papers as set out in the Schedule to these Regulations (“the BSc Schedule”)
3. A complete Course of Study for this Degree requires the gaining of at least 96 credits, of which:
   (a) at least 12 credits must be from Stage III papers in the BSc Schedule;
   (b) at least 36 credits must be from papers above Stage I; and
   (c) at least 6 credits must be from each of any FOUR subjects as prescribed in Regulation 2(a) or, if 20 or more credits are included under Regulation 10, at least 6 credits must be from each of any THREE subjects prescribed in Regulation 2(a).
   (d) Credits obtained from the paper 14.327 (Aspects of Science Education) shall not satisfy the requirement of Regulation 3(a) above.
4. For the purpose of Regulation 3(c) credits obtained from one or more papers in Biology shall all count as credits in either Botany or Zoology and may not be apportioned between those two subjects in any way.
5. In relation to the taking of any paper, a candidate shall comply (i) (before enrolment) with all requirements and (ii) with all corequisite requirements; as set out in the BSc Schedule. Unless otherwise specified in the BSc schedule, a minimum grade of C is required in each prerequisite paper. However, the Head of Department may in exceptional circumstances:
   (a) waive any of those requirements;
   (b) waive any prerequisite requirement and impose it as a corequisite.
6. Except as provided in Regulation 9, a candidate who has not gained at least 24 credits from Stage I papers may not enrol for a Stage II paper.

Practical Work Requirements

7. In any paper that includes practical work as well as written work;
   (a) a candidate must obtain passes in both in order to pass the paper as a whole;
   (b) a candidate who is awarded a pass in practical work, but who fails the written work may, with the permission of the Head of Department, have the result for the practical work carried forward to a subsequent year.
   Note: Candidates requesting this permission should apply to the Head of Department prior to the commencement of the Enrolment period in the year of re-enrolment for the paper.

Course Load Restrictions

8. A candidate may not enrol, in any one year, for papers totalling more than 50 credits.
Direct Entry to Stage II papers
9. Notwithstanding anything in Regulations 5 and 6, the Senate may, in exceptional circumstances, permit a suitably qualified candidate to enrol for Stage II papers without having passed the prerequisite Stage I papers. But where such permission is given: —
(a) a successful candidate shall be credited only with passes in the Stage II papers and not in any of the prerequisite papers;
(b) a candidate who fails any Stage II paper may be granted a pass in the appropriate Stage I paper if the necessary standard has been attained;
(c) a candidate who gains at least 12 credits from Stage II papers under this Regulation may include in the Course of Study 12 further credits as prescribed for a Bachelor's Degree in any other Faculty, in addition to any credits that may be obtained under Regulation 10, Appendix (b).

Credit for Papers in other Faculties
10. (a) A candidate for this Degree may obtain up to 32 credits from papers or subjects listed or referred to in the Appendix to the Schedule to these Regulations; of which credits not more than 12 may be obtained from the papers or subjects referred to in paragraph (b) of that Appendix.
(b) The credits allowed for the purpose of this Regulation shall be:—

Credit for Other Qualifications
13. A candidate who has gained the New Zealand Certificate of Science, or has gained any other recognised technical qualifications of comparable standard, may be credited with such specified papers and/or given such unspecified credits up to a maximum of 36 credits, as the Senate may determine.

Cross-Credits from other Degree Courses
Note: See Regulation 13 of the Enrolment and Course Regulations (General)
11. Credits obtained under Regulation 10, from papers which are credited also to the Course of Study for another Degree, shall be counted as cross-credits for the purpose of Regulation 13 of the Enrolment and Course Regulations (General)

Credit for Papers Abandoned from other Degree Courses
Note: See Regulation 17 of the Enrolment and Course Regulations (General)
12. For the purposes of these Regulations the word ‘papers’ in Regulation 17 of the Enrolment and Course Regulations (General) shall be interpreted as meaning:—
(a) papers listed in the BSc Schedule;
(b) papers equivalent to papers listed in the BSc Schedule as determined by the Senate;
(c) papers that can be credited towards the BSc Degree under Regulation 10.

Credit for Other Qualifications
13. A candidate who has gained the New Zealand Certificate of Science, or has gained any other recognised technical qualifications of comparable standard, may be credited with such specified papers and/or given such unspecified credits up to a maximum of 36 credits, as the Senate may determine.

Transitional Provisions
14. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.
(b) A candidate who gained credit in any unit, course or paper under any of the former Regulations for this Degree, shall be credited with such equivalent papers as may be determined by the Senate.
(c) For candidates who enrolled for this Degree before 1973 the subject prerequisites, corequisites and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department concerned.

Exceptions
15. (a) The Senate may, in such cases as it thinks fit, approve a personal Course of Study which does not conform to the foregoing Regulations.
(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.
Validity
16. These Regulations shall come into force on January 1, 1983.

Schedule
1. This schedule sets out paper numbers, credits, prerequisites, corequisites, and restrictions applying to Courses of Study offered for the Degree of Bachelor of Science.
2. The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.
3. The heading ‘prerequisites’ in relation to a paper refers to other papers which must be passed before the candidate may take that course.
4. The heading ‘corequisites’ in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.
5. The heading ‘restrictions’ in relation to a paper refers to papers which cannot be credited together with that paper.

**Note:** Even though laboratory hours are not shown explicitly for papers 07.301 to 07.306, they will usually involve a considerable amount of practical work.

**Note:** In exceptional circumstances and with the permission of Head of Department, some papers offered for MSc in Computer Science may be taken for the BSc Degree. Each such paper shall carry the credit rating shown in the MSc prescriptions.

**Note:**

(i) Normally a course containing more than six credits from 31.325-356 (including any already credited) will not be approved unless the papers 31.210, 31.220 or 31.240, 31.250 and 31.260 and 31.290 have already been credited (or are contained in the course) AND it also contains 31.325 and at least one of 31.390-392 (unless these have already been credited).

(ii) For students who have taken Stage II Physics papers prior to 1986 the prerequisites for the Stage III Physics papers will be advised by the Head of Department.

(iii) Students who have taken Stage III papers prior to 1988 may enrol in the new 4 credit papers only where these do not involve substantial overlap with previously credited papers. Details of restrictions will be advised by the Head of Department.

1988 Calendar
THE DEGREE OF BACHELOR OF SCIENCE (HONOURS)  

BSc (Hons)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. The Degree may be awarded in each of the following Honours Schools: Biochemistry, Computer Science, Geology, Applied Geology, Mathematics.

2. Admission to the Course of study for the Degree of Bachelor of Science (Honours) shall be at the discretion of the Senate and shall be given at either the end of the second year or third year after matriculation provided that where the proviso to Regulation 10 applies, admission may be granted at the end of the third or fourth year after matriculation.

3. No candidate shall be admitted to an Honours School without the approval of the Head of Department of that School and of the Senate. Such approval shall be granted or withheld upon a consideration of the candidate’s performance in the courses of University study already pursued by the candidate and particularly in the papers required as prerequisites to that Honours School.

4. No candidate may be awarded the degree of Bachelor of Science (Honours) if he has previously been awarded the Degree of Bachelor of Science of this University.

5. In each Honours School a candidate’s Course of study for the Degree shall comprise:

(a) such prerequisites, being papers prescribed for the Degree of Bachelor of Science, and

(b) such Honours Parts (being Parts III and IV, or Part IV as the case may be) and

(c) such Foreign Language requirements as the Head of the Department within the Honours School may prescribe, and

(d) such papers in other subjects as may be required and prescribed in that Honours School under Regulation 15: provided that

(i) except where the Senate in its discretion otherwise permits, the number of prerequisite papers shall be not fewer than 72 credits in a case of entry into an Honours School at the end of the second year after matriculation and not fewer than 96 in a case of entry at the end of the third such year;

(ii) in the case of any prerequisite subject and with the approval of the Senate, if the candidate has been permitted to enrol for and has passed at Stage II without having passed at Stage I, Stage II may be substituted for Stage I, and Stage III may then be substituted for Stage II:

(iii) in the case of a candidate whose mother tongue is not English the Foreign Language requirements shall be waived.

6. A candidate for this Degree may, with the permission of the Heads of the Departments concerned and the approval of Senate, substitute one paper in another subject for one paper of the subject in which the Degree is being taken.

7. A candidate in any subject for this Degree where practical work is prescribed, must pass besides the written examination, in such practical work as may be prescribed by the Head of the Department.

Withdrawal and Exclusion from Course

8. A candidate may withdraw from the Honours School and be granted such credits and exemptions for papers
for the Degree of Bachelor of Science as the Senate shall determine.

9. A candidate shall be required to pass as a whole each Part of the Honours Course of study so that his performance in all papers comprising this Part shall be considered: provided that a candidate who has failed to pass an Honours Part as a whole may in such exceptional circumstances as the Senate approves be credited with a paper or papers of that Part and permitted in a subsequent year to present the paper or papers not so credited, together with (if the Senate permits) a paper or papers of the next succeeding Part. The candidate shall then be required in that year to pass as a whole in all the papers so presented upon the same conditions as those herein prescribed.

10. A candidate shall sit his/her final examinations for the degree within four years of his/her matriculation: provided that at the discretion of the Senate the period may be extended to five years:

(a) where a candidate first enrolled in the subject of his/her Honours School in his/her second year after matriculation, or;
(b) in any special circumstances.

11. A candidate who, on the results of his/her examination, does not reach the standard required in the Honours school in which he/she is enrolled, shall be excluded by the Senate from the Honours School but he/she may be granted such credits and exemptions for papers for the Degree of Bachelor of Science as the Senate shall determine.

Classes of Honours

12. The Degree of Bachelor of Science (Honours) may be awarded with First Class or Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division. The class of Honours awarded shall be determined primarily on the performance of the candidate in the examinations in his final year but account may be taken of his work throughout his Course of Study.

13. The Senate may determine in respect of any candidate who fails to qualify for the Degree that he be awarded the Degree of Bachelor of Science or be credited with papers towards that Degree or be credited with the Degree of Bachelor of Science together with appropriate credits towards the Degree of Master of Science.

Transfer to BSc (Hons)

14. The Senate may, on written application by a candidate for the Degree of Bachelor of Science and without payment of a fee, grant him permission to transfer to a Course of Study under these Regulations and allow him to be credited with a pass in such papers as the Senate shall determine.

Requirements of Honours Schools

15. Subject to the provisos to Regulation 5, the Honours Courses of study with subject and papers of examination are as follows:

Biochemistry Prerequisites

(a) For a candidate seeking admission to the Honours School at the end of the second year after matriculation, a total of 72 credits from papers that may be credited to the BSc Degree providing that these prerequisite papers, together with the papers selected for Part III, will enable the candidate to attain a level equivalent to the prerequisites for entry to Part IV.
(b) For a candidate seeking admission to the Honours School at the end of the third year after matriculation, a total of 96 credits from papers that may be credited to the BSc Degree including 66.301 and 66.302 plus 12 additional Stage III Science credits from Botany, Cell Biology, Chemistry, Pharmacology, Physiology or Zoology.

Biochemistry Honours Part III

(Note not fewer than 24 credits in Stage III papers approved by the Head of Department of Biochemistry). Part III shall consist of:

(a) 66.301 and 66.302 and
(b) at least 12 Stage III credits from Botany, Cell Biology, Chemistry, Pharmacology, Physiology or Zoology.

Biochemistry Honours Part IV

(Three papers together with practical work and a thesis)
The student shall follow one year's Course of Study approved by the Head of Department of Biochemistry and carry out an original investigation on an approved topic.* The examination shall consist of three papers prescribed for the Degree of Master of Science (66.401 to 66.403) and a thesis embodying the results of the investigation which shall be equivalent to one paper. The thesis (66.603) shall be delivered to the Registrar at the end of the third term.

Note: Intending students should consult the Head of Department about the research topic immediately after completing the papers for Part III.

Computer Science Prerequisites

(a) For a candidate seeking admission to the Honours School at the end of the second year after matriculation, a total of 72 credits from papers that may be credited to the BSc Degree provided that these prerequisite papers, together with the papers selected for Part III, will enable the candidate to attain a level equivalent to the
prerequisites for entry to Part IV.

(b) For a candidate seeking admission to the Honours School at the end of the third year after matriculation, a total of 96 credits from papers that may be credited to the BSc Degree including at least 20 credits at 300 or 400 level, of which at least 16 shall be from papers in Computer Science.

**Computer Science Honours Part III**
(24 credits in papers approved by the Head of the Department of Computer Science)
Part III shall consist of papers approved by the Head of the Department of Computer Science totalling 24 credits and including such papers as will enable attainment of a level equivalent to the prerequisite to entry to Part IV.

**Computer Science Honours Part IV**
(24 credits approved by the Head of the Department of Computer Science)
Part IV shall consist of papers approved by the Head of the Department of Computer Science totalling 24 credits.

*Note: Normally the papers will be selected from Computer Science 07.400 to 07.499, as prescribed for the Degree of Master of Science.*

**Geology Prerequisites**

(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation, Geology, four papers, totalling 24 credits
Chemistry 08.120, 08.121 or 08.123
and 36 credits from other papers in any of the following subjects:
Botany, Chemistry, Geology, Mathematics, Physics, Zoology, or in any other subject approved by the Head of Department.
(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation, structure of Course of Study as specified for entry at the end of the second year:
24 credits from papers 21.300-21.388.
In special cases, with the approval of the Head of the Department of Geology, papers at an advanced level in any other subjects may be substituted for any of the above, provided that the candidate has gained at least 12 credits from Geology Stage III papers.

**Geology Honours Part III**
(Geology papers totalling not fewer than 24 credits, together with practical work)
Part III shall contain papers prescribed as Geology second or third year papers, for a total of not fewer than 24 credits. In special cases, with the approval of the Head of the Department of Geology, advanced papers of other subjects may be substituted for Geology papers, provided that the Course of Study contains Geology papers totalling at least 12 credits.

**Geology Honours Part IV**
(Three papers together with practical work and thesis)
The student shall follow one year's Course of Study approved by the Head of the Department of Geology and carry out an original investigation on an approved topic.* The examination shall consist of three papers prescribed for the Degree of Master of Science (21.401 to 21.409 but not 86.100 or 86.102) and a thesis embodying the results of the investigation which shall be equivalent to one paper. The thesis (21.603) shall be delivered to the Registrar at the beginning of the second half of the second term.

*Notes: (i) Intending students should consult the Head of Department about the research topic immediately after completing the papers for Part III. (ii) The language for the Foreign Language Reading Examination shall be any approved by the Head of the Department of Geology and this examination should be taken as early as possible. (iii) An abstract is to be submitted with each copy of the thesis, see Examination Regulation 14.*

**Applied Geology Prerequisites**

(a) For a candidate seeking admission to the Honours School at the end of the second year after matriculation: Geology, five papers totalling at least 24 credits:
Chemistry 08.121
Mathematics (26.120 or 121) and (26.140 or 141) and (21.175)
Physics 31.140 or 31.141 and at least 18 credits from papers in any of the following subjects:
Chemistry, Computer Science, Geomechanics, Mathematics, Mineral Engineering, Physics or any other subject approved by the Head of the Department of Geology.
(b) For any candidate seeking admission to the Honours School at the end of the third year after matriculation: structure of Course of Study as specified for entry at end of second year, and at least 24 credits from 21.301, 21.302, 21.304 or 21.284, 21.305, either (21.306 plus 21.307) or 21.386, 21.381, 21.382, 21.388, 52.331, 52.332, 56.312, 56.314 provided at least 12 credits are from Geology Stage III papers.
In special cases, with the approval of the Head of the Department of Geology, papers at an advanced level in any other subjects may be substituted for any of the above, provided that the candidate has gained at least 12 credits from the Geology Stage III papers.

1988 Calendar
Applied Geology Honours Part III
(Not fewer than 24 credits in Stage III papers approved by the Head of the Department of Geology, together with practical work.)
In special cases, with the approval of the Head of the Department of Geology, papers at an advanced level in any other subjects may be substituted for any of the above provided that the candidate has gained at least 12 credits from Geology III papers.

Applied Geology Honours Part IV
(Three papers together with practical work and thesis.)
The student shall follow one year's Course of Study approved by the Head of the Department of Geology and carry out an original investigation on an approved topic. The examination shall consist of three papers prescribed for the Degree of Master of Science in Applied Geology and a thesis (21.613) embodying the results of the investigation which shall be equivalent to one paper. The thesis shall be delivered to the Registrar at the beginning of the second half of the second term.

Mathematics Prerequisites
(a) For a candidate seeking admission to the Honours School at the end of his second year after matriculation: a total of 72 credits from the following subjects: Mathematics, Chemistry, Computer Science, Physics, or in any other subject approved by the Head of the Department of Mathematics and Statistics provided that prerequisite papers, together with the papers selected for Part III, will enable the candidate to attain a level equivalent to the prerequisites for entry to Part IV.
(b) For a candidate seeking admission to the Honours School at the end of his third year after matriculation: Mathematics 26.220 or 26.221, 26.240 or 26.241, at least one of 26.260, 26.280, 26.281, plus twenty 300 or 400 level credits approved by the Head of the Department of Mathematics and Statistics. Normally at least 16 of those 20 credits shall be from papers in Mathematics and Computer Science, but 12 credits in Mathematics and Computer Science may be approved in special cases.

Mathematics Honours Part III
(24 credits in papers approved by the Head of the Department of Mathematics and Statistics.)
Part III shall consist of papers approved by the Head of the Department of Mathematics and Statistics totalling 24 credits and including such Mathematics papers as will enable attainment of a level equivalent to the prerequisites for entry to Part IV.

Mathematics Honours Part IV
(20 credits in papers approved by the Head of the Department of Mathematics and Statistics.)
Part IV shall consist of papers approved by the Head of the Department of Mathematics and Statistics with a total credit value of 20 credits. Normally these papers will be chosen from Mathematics 26.400 to 26.499 and Computer Science 07.490 to 07.499 but the Head of the Department of Mathematics and Statistics may approve a wider selection of relevant papers, including up to 4 Stage III credits not already taken for any other degree or diploma.

THE DEGREE OF BACHELOR OF OPTOMETRY
BOptom
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.
1. Except as provided in the Admission Regulations a candidate for the degree of Bachelor of Optometry shall follow a Course of study of not fewer than four years.
2. In these Regulations
(a) a 'paper' is an independently assessed segment of work in a subject, the successful completion of which results in the award of credits as set out in the Schedule to these Regulations.
(b) Papers are classified as Stage I (papers numbered .100-.199), Stage II (.200-.299), Stage III (.300-399) and Stage IV (.400- 499).
3. A complete Course of study requires the gaining of 153 credits.

Course Load
4. A candidate may not enrol in any one year for papers totalling more than 50 credits.
5. A candidate in any paper of the subjects Biochemistry, Biology, Chemistry, Optometry, and Psychology shall
be required to pass both the written papers and in such practical work as may be required by the Head of Department; provided that the candidate's mark in the practical work may, with the leave of the Senate, be carried forward to a subsequent year.

6. (a) Candidates may not enrol for any paper until they have satisfied all the prerequisite and corequisite requirements for that paper, as set out in the BOptom Schedule, or have permission from the Head of the Department of Optometry.

(b) A candidate required to repeat any year III subjects may also be required to undertake such additional practical and clinical work as the Head of the Department of Optometry determines.

(c) A candidate required to repeat any of the papers 44.430, 44.431, 44.432 and 44.433 may also be required to complete such additional work and examinations in any or all of those papers as the Head of the Department of Optometry may determine.

(d) A candidate shall be required to pass independently the written component and clinical practice component of each of the papers 44.430, 44.431, 44.432 and 44.433 in order to pass each paper as a whole.

Exceptions

7. (a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

Optional Transition From DipOpt

8. Any candidate who in or before 1981 enrolled for the Diploma in Optometry but has not completed the requirements for or been awarded that Diploma before 31 December 1987 may either (i) transfer to the Course of study for this Degree (in which case he shall be credited with such equivalent paper or papers for this Degree as the Senate may determine), or (ii) complete the Course of study for the Diploma in Optometry in accordance with the Regulations for that Diploma last published in the University of Auckland Calendar for 1981.

Revocation

9. The Regulations for the Diploma in Optometry are revoked (subject to Regulation 8 of these present Regulations).

10. These Regulations shall come into force on 1 January 1982.

Schedule

(1) This schedule sets out paper numbers, credits, prerequisites, corequisites, and restrictions applying to papers for the Degree of Bachelor of Optometry.

(2) The schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

(3) The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

(4) The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

(5) The heading 'restriction' in relation to a paper refers to a paper which cannot be taken together with that paper.

(6) A candidate may not take a further stage of a paper until he satisfies all prerequisite and corequisite requirements for that paper.

1988 Calendar
### THE DEGREE OF MASTER OF SCIENCE MSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

**Prerequisites**

1. (a) Subject to the Admission Regulations, a candidate for the Degree of Master of Science, before enrolment for the Degree
   (i) shall (subject to Regulation 2) have been admitted (or have qualified for admission to) any of the following qualifying degrees:-
      - Bachelor of Science (Honours);
      - Bachelor of Science;
      - Bachelor of Optometry;
      - shall have attained any other qualification approved by the Senate as equivalent to a qualifying degree; and
   (ii) shall (subject to Regulation 3) have fulfilled the further prerequisites in the Schedule to this Regulation.

(b) For the purposes of these Regulations, candidates for this Degree are classified according to their qualifying Degree (or equivalent qualification) and are referred to accordingly as:-
   - 'BSc (Hons) candidates for this Degree'
   - 'BSc candidates for this Degree'
   - 'BOptom candidates for this Degree'.

(c) For the purpose of these Regulations Medical Science will be treated as a subject offered for this Degree. For this subject the role of the Head of Department in these Regulations will be taken by the Chairman of the Committee for the MSc in Medical Science.

### Schedule

The further prerequisites are (subject to Regulation 3):

(a) For BSc (Hons) candidates for this Degree:- a pass in the final BSc (Hons) year in the subject offered for this Degree;

(b) For BOptom candidates for this Degree:- a pass, with an average grade of C+ or better, in the Year IV of the course for the Degree of Bachelor of Optometry;

(c) For BSc candidates for this Degree:- a pass, with an average grade of C+ or better in all Stage III BSc papers, in the appropriate prerequisite subjects, as follows:

Enrolment with Incomplete BSc
2. With the approval of the Head of Department, a candidate may enrol for this Degree after having gained at least 90 credits for the Degree of Bachelor of Science, but on the following conditions:
   (a) the candidate’s course for this Degree extends over two academic years;
   (b) the candidate has fulfilled the prerequisites in the Schedule to Regulation 1 or been exempted from them;
   (c) the remaining paper or papers for the Degree of Bachelor of Science are taken in the first year of the course for this Degree;
   (d) if any remaining paper for the Degree of Bachelor of Science is not passed in the first year of the Master of Science course, the Master’s course shall be suspended until that paper is passed.

Variation of or Exemption from Prerequisites
3. In any special case recommended by the Head of Department, the Senate may at its discretion -
   (a) vary in any way; or
   (b) exempt the candidate wholly or partly from the appropriate prerequisites in the Schedule to Regulation 1; and may accept a lower average grade than C+ in the prerequisites in paragraphs (b) and (c) of that Schedule.

General Provisions
4. Papers shall be taken in either the first or the second year or spread over two years according to the requirements of the Department.
5. (a) A candidate for this Degree may, with the permission of the Heads of the Departments concerned and with the approval of the Senate, take, by way of substitution for one paper of the subject in which the
Degree is being taken, one paper in another subject.

(b) The combination of papers taken for the subject Medical Science must be approved by the Chairman of the Committee for the MSc in Medical Science. Papers offered in more than one aspect of Medical Science may be approved.

c) The combination of papers taken for the subject Environmental Science must be approved by the Director of Environmental Science of the Faculty of Science.

6. Every candidate for this Degree shall be required to pass the prescribed papers and to present a thesis where that is prescribed by Regulation 10:

except that a thesis only may, with the permission of the Senate, on the recommendation of the Head of Department, be presented:

by a BSc (Hons) candidate for this Degree; on condition that the candidate fulfils any special requirements set by the Head of Department.

Thesis Requirements

7. Where a thesis is required the following conditions shall apply:

(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of Department;

(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject;

(c) In the case of a thesis requiring laboratory work, that work shall be carried out within the University; but the Senate may permit a candidate to carry out the work in an approved institute outside the University for such limited period or periods as may be necessary;

(d) The candidate shall submit the thesis to the Registrar by the date prescribed in Regulation 9.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 15.

Honours

8. (a) There shall be two classes of Honours; First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Candidates who have completed the full requirements of this Degree in accordance with Regulation 10 are eligible for the award of Honours, except that a BSc (Hons) candidate for this Degree may not be awarded Honours in the Master's Degree in the same subject.

(c) The Degree may be awarded with Distinction to any

(i) BSc (Hons) candidate for this Degree; or

(ii) any candidate who has taken this Degree under exception (b) to Regulation 6: Where the candidate has achieved a standard equivalent to First Class Honours.

(d) Honours shall not be awarded in a particular subject to any candidate who enrolled for and failed to qualify for admission to the Degree of Bachelor of Science (Honours) in that subject. Such a candidate may be awarded the Degree with Distinction if a standard equivalent to First Class Honours has been achieved.

(e) Honours shall be awarded if a candidate obtains a sufficient standard in the papers and thesis; but (subject to Regulation 9) a candidate who qualified for an aegrotat or compassionate pass may retain eligibility for Honours by applying

(i) for an aegrotat or compassionate pass in one paper (or two papers for a course involving five or more papers), or

(ii) to resit all the papers affected, or

(iii) for a pass or passes under (i) and to resit the remaining papers affected under (ii).

Note: In order to be eligible for Honours or a Degree with Distinction the candidate must complete all requirements of the Degree within the time limit specified in Regulation 9.

Time limits

9. (a) The requirements for this Degree in Regulation 10 shall be completed:

(i) in the subjects Geography and Mathematics by 1 November of the second year of enrolment;

(ii) in every other subject, within 24 months of the candidate's first enrolment.

(b) In a special case the Senate may, on the recommendation of the Head of Department, grant the candidate:

(i) a time extension of three months, with continued eligibility for Honours or Distinction;

(ii) a further time extension of nine months, the candidate being no longer eligible for Honours or Distinction.

(c) In exceptional circumstances the Senate may, on such written or other evidence as it requires, at its discretion grant a reasonable extension of time to a candidate for medical or compassionate or other compelling reasons. The extension may be granted -
(i) whether or not there has been any extension under paragraph (b) of this Regulation; and
(ii) with or without continued eligibility for Honours or Distinction.

(d) A candidate taking this Degree by thesis only shall submit the thesis within 18 months of first enrolment; but the time may be extended under paragraphs (b) and (c) of this Regulation.

List of Subjects
10. The subjects of examination and relative requirements as to theses for this Degree, together with the prescription numbers relative to each examination paper, are as follows:

**Applied Geology**
- Three papers and a thesis 21.611 which shall count as two papers; Foreign Language Reading Examination. One paper only from any three of the following four groups 21.408, (21.471 to 21.478), 21.484, and any one approved paper listed in the ME schedule. The chosen foreign language must be approved by the Head of Department of Geology; with the approval of the Head of Department the Foreign Language Reading requirement may be waived in the case of a student whose mother tongue is not English.

**Biochemistry**
- Three papers and a thesis 66.601 which shall count as three papers (papers 66.401 to 66.403).

**Botany**
- Three papers and a thesis 06.601 which shall count as three papers (papers 06.402 to 06.460).

**Cellular and Molecular Biology**
- Three papers and a thesis 40.601 which shall count as three papers (papers 40.401, 40.402, 40.403).

**Chemistry**
- Five papers and a thesis 08.601 which shall count as four papers (five papers from 08.410-08.450).

**Computer Science**
- Papers totalling 24 credits and a thesis 07.601 which shall count as 24 credits or papers totalling 24 credits and an advanced course of study 07.605 which shall count as 24 credits. Normally the papers will be selected from Computer Science 07.400 to 07.499. The selection of papers must be approved by the Head of Department of Computer Science.

**Environmental Science**
- Four papers and a thesis 64.601 which shall count as four papers. The papers are:
  (i) Environmental Science 64.401 and
  (ii) two 400-level papers in one subject selected from Biochemistry, Botany, Cellular and Molecular Biology, Geology, Geophysics, Physics, Physiology, Zoology or in the case of Chemistry 3 papers which in determining the overall result will be treated as the equivalent of 2 papers in the other subjects and
  (iii) one Stage III or Master's 400-level paper in another Science subject or Civil Engineering 52.391 or 52.392, Economics 13.413, Law 25.327 or Planning 36.451.

**Geography**
- Four papers and a thesis 20.601 which shall count as three papers (four papers from 20.400 to 20.445).

**Geology**
- Three papers and a thesis 21.601 which shall count as two papers; Foreign Language Reading Examination (three papers from 21.401 to 21.409 and 86.100 or 86.102, the chosen foreign language must be approved by the Head of Department of Geology; with the approval of the Head of Department the Foreign Language Reading Requirements may be waived in the case of a student whose mother tongue is not English).

**Mathematics**
- Papers totalling 20 credits and a thesis 26.601 which will count as 16 credits or papers totalling 20 credits and an advanced course of study 26.605 which will count as 16 credits. The selection of papers is to be made with the approval of the Head of Department of Mathematics and Statistics of papers from Mathematics 26.400 to 26.499 and Computer Science 07.490 to 07.499. Up to four of the twenty credits may be replaced by four Stage III credits from papers in Mathematics and Computer Science not already taken for any other Degree or Diploma.

**Medical Science**
- Three papers and a thesis 89.601 which shall count as three papers. The combination of papers selected from Biochemistry 66.401-403, Cellular and Molecular Biology 40.403, Physiology 67.401-406, Psychology 32.406, 410, 416, 419, Pharmacology 96.404-407 or Medical Science 89.401-404 must be approved by the Chairman of the Committee for the MSc in Medical Science.

**Optometry**
- Three papers and a thesis 44.601 which shall count as three papers (two papers from 44.551 to 44.554, plus a third paper from another subject for this Degree approved by the Heads of Departments concerned).
Pharmacology

Three papers and a thesis 96.621 which shall count as three papers (two papers from 96.404 to 96.407, plus a third paper from Biochemistry, Cellular and Molecular Biology, Medical Science or Physiology for this Degree, the choice of paper to be approved by the Head of Department concerned, or, for Medical Science, by the Chairman of the Committee for the MSc in Medical Science).

Physics

Four papers and a thesis 31.601 which shall count as four papers (four papers from 31.410-31.489).

Physiology

Three papers and a thesis 67.621 which shall count as three papers (three papers from 67.401 to 67.406).

Psychology

Four papers and a thesis 32.601 which shall count as three papers (four papers from 32.401 to 32.421).

Zoology

Three papers and a thesis 38.601 which shall count as three papers (three papers from 38.401 to 38.411).

Exceptions

11. In exceptional cases the Senate may approve a personal Course of study which does not conform to the foregoing Regulations.
12. These Regulations shall come into force on 1 January 1985.

DEGREE COURSE PRESCRIPTIONS

DEPARTMENT OF BIOCHEMISTRY

Stage II

Prerequisites: See BSc Schedule. Entry to Biochemistry II is limited.

66.202 Molecular Aspects of Cells

(One paper and practical work)

An introduction to molecular structures of biochemical importance and their relationships to cellular structure and function. Topics include biochemical thermodynamics; amino acids; carbohydrates and polysaccharides; lipids; nucleic acids; purification of proteins; protein structure; enzymes; cell membranes and transport; mitochondria and chloroplasts; specialised cell functions; elementary immunochemistry.

The course is a prerequisite for those advancing to papers 66.301, 66.302 BSc (Hons) and the MSc Degree in Biochemistry. Passes are required in both the written paper and in practical work (BSc Regulation 7).

Lectures: Students will attend two lectures a week. Two tests will be held during the year.

Laboratories: Students are required to attend practical classes totalling 72 hours. Performance in practical work will contribute 30% of the final grade for the course. Students should wear a laboratory coat and covered footwear in the laboratory.

Prerequisites: 6 credits from any Stage I Chemistry course and Biology, 39.101.

66.203 Central Concepts of Metabolism

(One paper and practical work)

An introduction to metabolism with particular emphasis on regulation and control - highlighting regulatory enzymes, covalent modification and amplification; energy-yielding pathways; comparative metabolism of animal, bacterial and plant cells; hormones.

The course is a prerequisite for those proceeding to papers 66.301, 66.302 BSc (Hons) and the MSc Degree in Biochemistry. Passes are required in both the written paper and practical work (BSc Regulation 7).

Lectures: Students will attend two lectures a week. Two tests will be held during the year.

Laboratories: Students are required to attend practical classes totalling 72 hours. Performance in practical work will contribute to 20% of the final grade for the course. Students should wear laboratory coats and covered footwear in the laboratory.

Prerequisites: 6 credits from any Stage I Chemistry course and Biology, 39.101.

Combined Enrolment in 66.202 and 66.203 is limited to 50.

Stage III

Prerequisites: See BSc Schedule.

66.301 Biochemistry of Macromolecules

(One paper and practical work)

Topics introduced in papers 66.202 and 66.203 are treated in greater depth, emphasis is placed upon the biochemistry of macromolecules with particular reference to structure and its elucidation using contemporary methods of protein, glycoprotein and nucleic acid sequencing, high-field NMR and other forms of spectroscopy and mass spectrometry. Practical work is concerned with the theory and practice of analytical procedures used by biochemists.

66.302 Metabolic Interrelationships

(One paper and practical work)

This course examines recent advances in biochemistry such as mechanisms of communication in plants, the molecular biology of growth factors,
aspects of the chemistry and biochemistry of haemoglobins, the structure and function of glyco-protein hormones and other topics of current interest. Laboratories: Students are required to attend practical classes of not less than six hours a week. Performance in laboratory work will contribute to the final grade for the course. Students should wear a laboratory coat and covered footwear during practical classes. Entry to Biochemistry III may have to be restricted if the number of applicants exceeds the number of laboratory places. Candidates who lack one or more of the prerequisites listed in the BSc Schedule are also permitted to make preliminary application. Competence in mathematics up to University Entrance level is assumed.

Biochemistry for MSc
Three papers and a thesis (66.601) 66.401, 66.402, 66.403. The general study of biochemistry at an advanced level with a special focus on recent developments in biochemistry and molecular biology. Considerable emphasis is placed upon direct reading, tutorials and seminars in each paper. Candidates for the Master’s Degree should consult the Head of the Department as soon as possible after the completion of the Bachelor’s Degree, in order to select a thesis topic and to obtain advice on vacation reading.

The course will be of a minimum duration of one year; the student should normally expect to complete his or her thesis during the following year.

Students from other Universities must have taken Biochemistry to an advanced undergraduate level (e.g. Biochemistry Advanced 2 as offered at Otago University).

Research in Biochemistry
Research facilities are available for PhD students and post-doctoral workers in various areas of biochemistry as listed in the Faculty of Science Handbook.

Intending applicants should make application to the Head of Department in the first instance.

DEPARTMENT OF BOTANY

Stage I
The first year course for students in Botany, Zoology or Biology consists of three 6-credit papers, Biology 101 (Paper 39.101), Botany 102 (Paper 66.102) and Zoology 102 (Paper 38.102).

39.101 Central Concepts in Biology
Biochemical concepts common to animals, micro-organisms and plants; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; genetic principles and mechanisms; fundamental processes of ecosystems; population and community dynamics; organic evolution. This course may be taken as part of the Stage I requirement in either Botany or Zoology, but may not receive credit in both.

06.102 Form and Function in Plants
An introductory course including the study of major plant groups. Topics covered include major features of NZ flora and vegetation; cytological and anatomical architecture and their relation to photosynthesis, respiration, translocation and transpiration; the regulation of growth and reproduction. The course will include a number of small group discussions and one or two field trips which students will be expected to attend.

Stage II
The course consists of Botany 202 or 204, Botany 205, Botany 221, Biology 210 together with practical work including field trips.

06.202 Evolution Morphology and Cell Structure of Vascular Plants
The anatomy, morphology and systematics of gymnosperms and angiosperms together with an introduction to cytology and ultrastructure.

*06.204 Mycology and Microbial Interactions with Higher Plants
Introduction to bacteria and microbial nutrition. Fungal morphology, physiology, taxonomy and life cycles, especially of pathogens. Micro-organisms in the soil and on plant surfaces and their role in decomposition and recycling. Pathogenic and non-pathogenic interactions with higher plants.

06.205 Crop Physiology and Plant Breeding
A study of physiology and breeding systems of plants with special emphasis given to fruit and vegetable crops of the Auckland region. The genetic component will include origin and domestication of crop plants, breeding systems, chromosome manipulation and plant breeding, gene banks and the conservation of genetic resources. Physiological aspects will emphasize the physiology of sexual and asexual reproduction by traditional and modern methods (e.g. tissue culture), the manipulation of plant habit and development, and the physiology of production and storage of the harvestable portions of crops (fruit, flowers and tubers).

39.210 Population and Community Ecology
Elementary demography and models of population growth with equal emphasis on plants and animals. Species interactions in multispecies associations, competition and predation. The emphasis will be on experimental ecology of plants and animals from a wide range of habitats. Examples are drawn from New Zealand marine environment and native forests. Practical work includes a compulsory field course, normally held during the first week of the May vacation, concentrating on the description and dynamics of native forest ecosystems (see below for dates).

06.221 Plant Physiology
An introduction to plant physiology and biochemistry with particular emphasis on plant response
to environment. **Water**: water potentials and water movement in the soil-plant-atmosphere continuum; water stress; plant adaptation. **Oxygen**: principles of gas exchange; structural adaptations to oxygen deficit; biochemical adaptations to oxygen deficit. **Temperature**: enzyme reactions, membrane effects, thermal adaptation. **Mineral nutrition**: criteria of essentiality; uptake mechanisms; role of nutrients. Laboratories will cover basic techniques used to study plant responses to these factors.

**Stage III**
The course consists of a selection of papers from Biology 311, 313, 314, and Botany 302 to 371 together with practical work, including field trips.

**06.302 Evolution, Morphology and Cell Structure of Vascular Plants**
See Botany 202.

*06.304. Mycology and Microbial Interaction with Higher Plants*
See Botany 204.

**39.311 Freshwater Ecology**
Animal and plant freshwater communities, particularly of lakes and rivers, the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a weekend field course and four one-day field trips normally held in the first week of May vacation (see below for dates).

**39.313 Terrestrial Ecology**
Sampling, with reference to forest communities; ordination and classification. Community theory and concepts of stability and diversity. Animal-plant interactions particularly with respect to New Zealand. Forest dynamics and the study of both temporal and spatial change. A compulsory residential field class is held during enrolment week (see below for dates). Interpretation of the field data will take place during some Wednesday laboratory times.

**39.314 Applied Ecology**
The application of ecological principles to resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems — the planning process.

**06.321 Plant Physiology**

**06.325 Differentiation in Plants**
Growth, differentiation, pattern and form. Control processes involved in vascular development, root initiation, root shoot interaction and other correlative processes, developmental processes such as flowering, geotropism. Emphasis is placed on the role of plant growth regulators and on those processes which have important implications for crop development. Practical work is by an experimental project.

**06.331 Plant Pathology 1**
Review of fungal diseases of significance to the NZ economy; plant pathogenic nematodes, bacteria, viruses and mycoplasmas; techniques for diagnosis, isolation, culture and identification/characterisation of pathogenic organisms.

**06.332 Plant Pathology 2**
Mechanisms of fungal pathogenesis; effects of disease on host plant physiology; host-pathogen interactions at the cellular level; epidemiology, diseases assessment and forecasting; principles of disease control, chemical and biological control of disease.

**06.341 Plant Genetics**
Plant cytogenetics to include chromosome structure and genome organisation, chromosome behaviour in normal cell division and in structural and numerical mutants, B (supernumerary) chromosomes, sex chromosomes, chromosome evolution.

**06.361 Advanced Plant Taxonomy**
Classical and experimental approaches to the study of taxonomic relationships in metaphytes including cytological, chemical and numerical techniques as well as field and herbarium methods and a knowledge of plant nomenclature rules. Phylogenetic and phenetic systems of classification; analysis of variation; speciation processes. Students should expect to attend a field course at Tongariro National Park in the May vacation (see below for dates).

**06.371 Marine Botany**
Marine plants and communities; the sea as an environment for plant growth; photosynthesis and productivity in the sea; reproduction and life histories of marine plants; the utilisation and cultivation of seaweeds and microalgae. The practical work includes a residential 5 day class at the Leigh Laboratory during the August Vacation (see below for dates).

**Laboratory Work**
The practical work will be assessed separately and the marks included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary for credit to be awarded for a paper (BSc Regulation 7).

**Field Courses in Botany/Biology, 1988**

06.361: 23–27 May

39.311: 30 April and 1

06.371: 15–19 August

May and 9–12 May

39.210: 8–13 May

39.313: 21–26 February

**Botany for MSc**
This course takes from fifteen months to two years and requires full-time attendance. It comprises three papers selected from 06.402 to 06.460 inclusive, together with a thesis (06.601) which is equivalent to three papers.

Students intending to read for MSc should consult the Head of Department as soon as possible after the completion of the Bachelor's Degree, in order to select a thesis topic and to have sufficient time to establish that appropriate facilities will be available for the research programme.
06.402 Selected Topics in Botany
A specialist course of study into aspects of current research.

06.410 Plant Ecology
Selected topics in plant demography. Forest community concepts. Field techniques and computer analysis. Historical plant ecology.

06.420 Plant Physiology and Biochemistry
In depth consideration of selected topics.

06.430 Plant Pathology
In depth consideration of selected topics.

06.450 Developmental Botany, pure and applied
A study of contemporary research into aspects of the anatomy, ultrastructure and physiology of plant development.

06.460 Plant Systematics and Genetics
In depth consideration of selected topics in plant classification and cytogenticics.

(See also MSc Regulation 4)

Postgraduate Research: MSc Thesis and PhD
Facilities are available for MSc and PhD research in a wide range of topics in Botany and Biology.

DEPARTMENT OF CELLULAR AND MOLECULAR BIOLOGY

Stage III
Prerequisites: See BSc Schedule.

40.303 Cellular and Molecular Biology

Laboratories: The laboratory course will cover basic methods used to fix and examine biological material by light and electron microscopy. Experiments will also be performed with proteins and nucleic acids to illustrate their properties and the techniques used to investigate the structure and function of these materials.

40.304 Microbial and Molecular Genetics
Lectures: The units of mutation, function and recombination in bacteria and bacterial viruses. The transmission and recombination of genetic material in bacterial viruses, bacteria and diploid micro-organisms. Eukaryotic somatic cell genetics.

Laboratories: The laboratory course will cover basic methods used in bacteriology and microbiology as an introduction to experiments in microbial genetics. Experiments will be performed to illustrate methods of transmission of genetic information in micro-organisms and the experimental application of such techniques to the resolution of problems of gene order and organisation of chromosomes.

40.305 Plant and Animal Molecular Biology

Laboratories: An introduction to the culture of animal cells. Techniques used for studying antibodies and the cells involved in the immune response. An introduction to plant cell culture, including the isolation of protoplasts. Techniques for the isolation of plant organelles and nucleic acids and aspects of plant transformation using Agrobacterium plasmid vectors.

Cellular and Molecular Biology for MSc and Honours
Three papers and a Thesis (40.601).

40.401 Cellular and Molecular Biology
40.402 Microbial and Molecular Genetics
40.403 Plant and Animal Molecular Biology

The material for Cellular and Molecular Biology 40.303, 304 and 305 considered in greater depth, with knowledge of some of the current original literature. The course will be based on selected topics in Membrane Biology, Molecular Biology, Microbial and Molecular Genetics, Immunology, Virology, Gene Transfer and Gene Expression in Plants and Animals.

Prerequisites: For Auckland students, at least 12 credits from Cellular and Molecular Biology 303, 304 or 305 (or Cell Biology 301 and 302 prior to 1979). Students from other universities or colleges must have taken some suitable subject to an advanced undergraduate level (e.g. Bio-chemistry Advanced II or Microbiology Advanced II as offered at Otago University). For students from other universities the MSc degree will normally involve a two-year course, in which the candidates may be required to take all or part of the course work for Cellular and Molecular Biology Stage III.

Although not a prerequisite, it is strongly suggested that intending Master's students should have taken a Radiochemistry course such as 08.352 or 08.250. Students are reminded of the requirement of a grade of at least C+ in all Stage III subjects for BSc that are prerequisite for MSc (see MSc Regulation 1 (c)).

Thesis: The preparation of a thesis (40.601) is a most important feature of the work and a large part of the student's time should be devoted to this aspect of the course. The topic of research for the thesis can be in virology, electron microscopy, immunology,
molecular genetics or molecular biology or plant molecular genetics.

**Research in Cellular and Molecular Biology**
Facilities are available for research by PhD and post-doctoral students in the fields of virology, molecular genetics, electron microscopy, molecular biology and plant molecular genetics. An outline of courses appropriate to students intending to advance to research in Cellular and Molecular Biology may be found in the Science Faculty Handbook and other departmental publications.

Intending students should consult the Head of the Department as early as possible.

**Note:** An MSc in Cellular and Molecular Biology is not a prerequisite for PhD registration.

**DEPARTMENT OF CHEMISTRY**
The courses in Chemistry for the BSc Degree under these regulations are progressive; although prerequisites have not been prescribed more restrictively than necessary, students should bear in mind that familiarity with relevant material from earlier courses is assumed in the later ones.

**First Year Courses**

**08.111 (6 credits) Organic and Physical Chemistry**
Structure, properties and spectra of organic compounds, acid-base equilibria, kinetics, systematic organic chemistry.

*Lectures:* Students will attend two lectures a week for the whole year and twelve 3-hour laboratory sessions throughout the year. No student may enter the laboratory unless wearing an approved form of eye protection (safety glasses with glass lenses). A pass in both theory and practical is necessary. Coursework comprises tests and the practical. The final grade is assessed from tests 24%, practical 20%, final examination 56%; or practical 20%, final examination 80%; whichever is to the student's advantage.

**08.121 (6 credits) Inorganic and Physical Chemistry**
Atomic structure, the molecular structure and reactions of selected elements and their compounds, chemical bonding, energetics, equilibria and electrochemistry.

*Lectures:* Students will attend two lectures a week for the whole year and twelve 3-hour laboratory sessions throughout the year. No student may enter the laboratory unless wearing an approved form of eye protection (safety glasses with glass lenses). A pass in both theory and practical is necessary. Coursework comprises tests and the practical. The final grade is assessed from tests 24%, practical 20%, final examination 56%; or practical 20%, final examination 80%; whichever is to the student's advantage.

**08.121 (6 credits) Inorganic and Physical Chemistry**
Atomic structure, the molecular structure and reactions of selected elements and their compounds, chemical bonding, energetics, equilibria and electrochemistry.

*Lectures:* Students will attend two lectures a week for the whole year and twelve 3-hour laboratory sessions throughout the year. No student may enter the laboratory unless wearing an approved form of eye protection (safety glasses with glass lenses). A pass in both theory and practical is necessary. Coursework comprises tests and the practical. The final grade is assessed from tests 24%, practical 20%, final examination 56%; or practical 20%, final examination 80%; whichever is to the student's advantage.

**Supplementary Chemistry**
This course is designed to assist students who do not have a strong background of chemistry. It will revise the basic principles of chemistry and provide background for the laboratory and lecture courses in 08.111 and 08.121. No enrolment is required, and no credit is given towards the BSc. The course begins straight after enrolment, on Tuesday, Wednesday and Thursday, 23-25 February, starting at 9.00 am each day. During the teaching year Supplementary Chemistry is held at 8.00 am on Wednesday each week, covering the theory for the following week's laboratory assignment.

**Advanced Courses**
Familiarity with the relevant material in the first-year courses will be assumed.

**08.210 (6 credits) Physical and Analytical Chemistry**
(One three-hour paper and practical work)
This course includes analytical chemistry, diatomic spectroscopy, reaction rates and mechanism, thermodynamics and chemical equilibrium.

*Lectures:* Students will attend two lectures a week. One test will be held outside lecture hours.

*Laboratories:* The practical course covers both analytical and physical chemistry. Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

*Prerequisite:* 08.111 and 08.121 or 1987 prerequisites.

**08.220 (6 credits) Inorganic, Structural and Theoretical Chemistry**
(One three-hour paper and practical work)
The course provides an introduction to chemical bonding, and to the chemistry of the solid state. Aspects of the chemistry of transition metal and main group elements are treated at greater depth. An introduction to kinetic studies of inorganic systems is also included.

*Lectures:* Students will attend two lectures a week. One test will be held outside lecture hours.

*Laboratories:* Students will attend practical classes of not less than 72 hours by doing 6 hours per week for half the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course. A pass both in the written paper and in the practical course is necessary.

*Prerequisite:* 08.111 and 08.121 or 1987 prerequisites.

**08.230 (6 credits) Organic Chemistry**
(One three-hour paper and practical work)
The course is based on the prescribed text and covers the structure and reactions of carbon compounds, classified by functional groups. An introduction to the chemistry of molecules of biological importance and
to applied organic chemistry is included.

**Lectures:** Students will attend two lectures a week. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 72 hours by doing six hours per week for half the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.111 and 08.121 or 1987 prerequisites. Entry to Chemistry 08.230 is limited to 142 students.

**08.250 (2 credits) Radiochemical Techniques for Biological Scientists**

This service course is designed to meet the needs of biological scientists, health workers and natural scientists who anticipate working with tracer quantities of radio-isotopes. It is not to be regarded as a training course for chemists. Students who expect to major in chemistry should generally enrol in 08.352 to gain experience in the principles and practice of radiochemistry. Principles of radioactive decay, quenching and self absorption, instrumental measurement of activity and dose, pulse height analysis, scintillation counting of $\gamma$ and $\beta$ nuclides, homogeneous and heterogenous counting, radiography, radiological safety, waste disposal.

Ten lectures and ten three-hour laboratory sessions.

One test (1.5 hr) will be held outside lecture hours.

No student may enter the laboratory unless wearing an approved form of eye protection.

**Prerequisite:** 08.111 or 08.121

**08.310 (3 credits) Physical Chemistry**

(One two-hour paper and practical work)

The course includes spectra and structure of polyatomic molecules, molecular thermodynamics and kinetics.

**Lectures:** One lecture per week throughout the year. One test (20%) and assignments (10%) will comprise the coursework requirement of 30%.

**Laboratories:** Students will attend practical classes of not less than 6 hours per week in any one quarter of the teaching year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.210

**Corequisite:** 08.310

**08.320 (3 credits) Inorganic Chemistry**

(One two-hour paper and practical work)

The course will cover aspects of organometallic chemistry and bio-inorganic chemistry.

**Lectures:** Students will attend a total of 23 lectures during the year. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.220

**08.321 (3 credits) Physical-Inorganic Chemistry**

(One two-hour paper and practical work)

The course includes aspects of inorganic kinetics, quantum chemistry, and co-ordination chemistry.

**Lectures:** Students will attend a total of 23 lectures during the year. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.220

**08.330 (3 credits) Advanced Organic Chemistry A**

(One two-hour paper and practical work)

This course deals with topics not already covered in the prescribed Chemistry 08.230 text. They include nitrogen, sulfur, and phosphorus compounds, aromatic compounds, hetero-cycles and natural products.

**Lectures:** Students will attend one lecture per week during the year. Two tests will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. This will normally be done in quarters 1 or 2 during the first...
half of the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.
A pass both in the written paper and in the practical course is necessary.

### Prerequisite: 08.230

Entry to Chemistry 08.330 is limited to 50 students.

**08.331 (3 credits) Advanced Organic Chemistry B**

(One two-hour paper and practical work)
This course deals with topics such as stereochemistry, the study of reaction mechanisms, radicals, photochemistry, pericyclic reactions, and reactions of carbonyl compounds.

**Lectures:** Students will attend one lecture per week during the year. Two tests will be held outside lecture hours.

**Laboratories:** Students will attend practical classes of not less than 36 hours during the year. This will normally be done in quarters 3 or 4 during the second half of the year. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.230

**Corequisite:** 08.330

Entry to Chemistry 08.331 is limited to 50 students.

**08.340 (3 credits) Structural Methods in Chemistry**

(One two-hour paper and practical work)
This course deals with physical methods of determining chemical structures. Background theory is described for mass spectrometry, nuclear magnetic resonance, infrared and Raman spectroscopy, and X-ray structural analysis. Practical applications in inorganic, organic and organometallic chemistry are included. The course will consist of 32 lectures and 20 hours to be devoted to practical work and laboratory assignments. One test will be held outside lecture hours. Performance in the practical work will contribute to the final grade for the course.

A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.210

**Corequisites:** 08.220 and 08.230

**08.352 (3 credits) Radiochemistry**

The course is designed to meet the needs of chemists or biologists who anticipate working with tracer quantities of radioisotopes. Counting methods and counting statistics, handling radioactive substances, source preparation, radiological safety, three channel beta scintillation spectrometry, gamma spectroscopy, neutron activation, radioisotope generators and application of the principles and practice of radiochemistry to environmental, biological and chemical problems.
Sixteen lectures and sixteen three-hour laboratory sessions. Two tests will be held outside lecture hours. No student may enter the laboratory unless wearing an approved form of eye protection.

**Prerequisites:** 08.210

**Restrictions:** 08.250, 08.350

**08.360 (3 credits) Analytical Chemistry**

(One two-hour paper and practical work)
The course will cover instrumental methods of analysis. It will consist of 16 lectures and 48 hours laboratory work on a project in analysis. One test will be held outside lecture hours. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.
A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.210

Entry to Chemistry 08.360 is limited to 24 students.

**08.370 (3 credits) Environmental Chemistry**

(One two-hour paper and practical work)
The course covers aspects of the chemistry of the atmosphere, natural waters, and the land surface. A section on hazards associated with chemicals and their handling is also included.

**Lectures:** Students will attend one lecture a week. One test will be held outside lecture hours.

**Laboratories:** Students will attend practical classes, totalling 36 hours, at times to be arranged. No student may enter the laboratory unless wearing an approved form of eye protection. Performance in the practical work will contribute to the final grade for the course.
A pass both in the written paper and in the practical course is necessary.

**Prerequisite:** 08.210

**Restriction:** 08.270

Entry to Chemistry 08.370 is limited to 30 students.

**08.390 (3 credits) Advanced Topics in Chemistry**

Candidates must select five papers from those numbered 08.410-08.450 inclusive. The assessment of a student's overall attainment in the degree will be made on the basis that each of the five papers has a weight of one, and the thesis 08.601 has a weight of four.

Students intending to read for MSc and Honours should consult the Head of the Department as soon as possible after the completion of the Bachelor's Degree, regarding allocation of a thesis topic and to ensure availability of laboratory facilities. The course is normally of one year's duration, but the thesis may, with the approval of the Head of the Department,
completed during the second year. [See clause 2 (d) of the Enrolment and Course Regulations (General).]

An overall prerequisite for the course is that students have completed 08.210, 08.220 and 08.230 and 18 Stage III credits including at least 12 Stage III credits from Chemistry.

**08.410 Interfacial Chemistry and Kinetics**  
(One 3-hour paper)  
This course will include surface chemistry, electrochemistry, kinetics and catalysis.  
*Lectures:* Students will attend 30 lectures during the year.

**08.411 Molecular Spectroscopy and Bonding**  
(One 3-hour paper)  
This course will cover aspects of molecular spectroscopy, magnetic resonance spectroscopy, chemical structure and bonding, including applications of symmetry and group theory to these topics.  
*Lectures:* Students will attend 30 lectures during the year.

**08.420 Inorganic Chemistry**  
(One 3-hour paper)  
This course will cover topics in organo-transition metal chemistry, co-ordination chemistry, and structural chemistry.  
*Lectures:* Students will attend 30 lectures during the year.

**08.421 Physical Inorganic Chemistry**  
(One 3-hour paper)  
This course will cover aspects of bonding, kinetics and mechanism in inorganic chemistry.  
*Lectures:* Students will attend 30 lectures during the year.

**08.430 Organic Chemistry: Reactions and Synthesis**  
(One 3-hour paper)  
This is a course in which the principles of organic chemistry are applied to organic synthesis.  
*Lectures:* Students will attend 30 lectures during the year.

**08.431 Organic Chemistry: Physical Organic and Mechanistic**  
(One 3-hour paper)  
This course will cover aspects of the investigation of organic reactions including physical-organic chemistry.  
*Lectures:* Students will attend 30 lectures during the year.

**08.450 Special Topics in Chemistry**  
(One 3-hour paper)  
Students must choose three topics in specialised areas of chemistry from a selection to be offered.  
*Lectures:* Students will attend 10 lectures in each topic selected.  
In addition to attending prescribed lectures, students will be required to prepare and discuss a number of selected topics of special interest.

---

**PhD in Chemistry**  
Thesis 08.602 and oral examination. Facilities are available for postgraduate research on a wide variety of topics in all branches of Chemistry. Further information is available from the Head of Department. The PhD course usually takes between two and three years of full-time study and research.

**DEPARTMENT OF COMPUTER SCIENCE**

**Stage I Courses**

**07.100 (6 credits) Introduction to Programming**  
An introduction to algorithm and program design. Programming in a structured language (Pascal). This course is intended for students who may wish to advance in Computer Science.

**07.101 (6 credits) Elements of Computing**  
Computer systems. Elementary programming. Applications of computers. Use of software packages. This course is intended for students who have no wish to advance in Computer Science.

**07.105 (6 credits) Introduction to Computer Science**

**Stage II Courses**

**07.210 (4 credits) Computer Organisation**  
This course deals with the logical structure of digital computers and systems. Topics include: number representation and binary arithmetic; digital logic; implementation of a simplified processor; architectural aspects of conventional machines; assembly languages; hardware requirements for high-level language support; computer peripherals.

**07.220 (4 credits) Data Structures**  
Data structures and associated algorithms. The analysis of algorithms. Programming in Prolog. The application of data structures to language implementation.

**07.230 (4 credits) Computing Laboratory**  
This course introduces techniques for developing and maintaining large programs. Extensive practical programming experience is provided.

**07.235 (4 credits) Computer Applications**  
This course studies the applications of Computer Science, particularly to commercial areas. Topics will include: Commercial file processing, programming in Cobol. Office applications packages such as for word processing.

**07.290 (4 credits) Numerical Computation**  
Introduction to the numerical algorithms fundamental to scientific computer work. Interpolation and approximation, numerical differentiation and integration, solution of nonlinear equations, linear systems of equations.

1988 Calendar
74.220 (4 credits) Systems Analysis
See Prescriptions Department of Management Science and Information Systems Faculty of Commerce.

74.221 (4 credits) Programming Laboratory
See Prescriptions Department of Management Science and Information Systems Faculty of Commerce.

Stage III Courses
07.301 (2 credits) Topic in Computer Science (a)
07.302 (2 credits) Topic in Computer Science (b)
07.303 (2 credits) Topic in Computer Science (c)
07.304 (4 credits) Topic in Computer Science (d)
07.305 (4 credits) Topic in Computer Science (e)
07.306 (4 credits) Topic in Computer Science (f)

One or more of these topics papers may be taught in any particular year. The actual contents of such courses and the requirements that must be met before departmental approval to enrol in them is given, will be announced prior to enrolment. Enrolment is subject to the approval of the Head of Department.

07.310 (4 credits) Advanced Computer Organisation
This paper continues on from 07.210 in describing the organisation of modern computer systems. Topics include microprogramming, virtual storage, data communication, high-level language support, advanced machine structures, and several case studies.

07.320 (4 credits) Database Systems
This course deals with the storage and manipulation of data. Material includes: development of database management systems; hierarchic, network and relational data models; languages for data description, manipulation and querying; performance, reliability and security; design considerations; existing systems; advanced topics.

07.330 (4 credits) Language Implementation

07.340 (4 credits) Operating Systems
What is an operating system? Operating system principles: concurrent processes, processor management, memory management, disk management, other peripherals, security. Interacting with people: system implementation and job control languages.

07.351 (4 credits) Formal Languages, Automata and Computability

07.352 (4 credits) Design and Analysis of Algorithms
A study of aspects of problem solving and algorithm design, including the following topics: algorithm efficiency, order analysis, profiling, design levels, fine tuning, abstract data types, program verification, invariants, recursion, parallel algorithms, and decidability.

07.360 (4 credits) Introduction to Artificial Intelligence
An introduction to the methods and applications of artificial intelligence. The nature of artificial intelligence. Languages for artificial intelligence. Problem solving and search. Knowledge representation. Applications in areas such as expert systems, natural language, perception, robotics, learning and planning.

07.390 (4 credits) Numerical Analysis

26.391 (4 credits) Optimisation in Operations Research
See Department of Mathematics and Statistics.

26.395 (4 credits) Mathematical Modelling for Operations Research

BSc (Honours) in Computer Science
The regulations covering the BSc (Hons) in Computer Science are included in the general regulations for the degree. This course is designed to allow students of high ability to complete an Honours degree in four years and thus be eligible to proceed directly to a PhD degree and be eligible for the award of post-graduate scholarships. Students who obtain the BSc (Hons) will be permitted to advance to an
MSc by presenting a thesis or by pursing an approved advanced course of study.

**Courses for MSc and Honours**

Candidates for this degree select papers totalling 24 credits approved by the Head of the Computer Science Department. Normally these papers are selected from the list that follows.

In addition they write a thesis (07.601) or take an advanced course of study (07.605), either of which counts as 24 credits. Not all 400 level papers will be offered each year but those that are, together with their prescriptions, will be announced prior to enrolment.

**Diploma in Computer Science**

See under Diploma Regulations and Prescriptions

**Postgraduate Research: MSc Thesis and PhD**

Facilities are available for MSc and PhD research in a range of topics in Computer Science. Further information is available from the Head of Department.

The PhD course usually takes between two and three years of full-time study and research.

**DEPARTMENT OF EDUCATION**

**Education Stage III**

14.327 (4 credits) Aspects of Science Education

An introduction to children's learning in science; to issues in the philosophy of science relevant to the science curriculum and to a range of other issues in the contemporary international debate concerning science education at primary and secondary level.

**ENVIRONMENTAL SCIENCE**

The MSc in Environmental Science is a joint degree in Environmental Science and another Science subject. It is co-ordinated by the Director of Environmental Science and contributed to by a number of Departments. Students who intend to take the course must consult as early as possible the Director of Environmental Science who will advise on a suitable paper combination for the degree. A Preparatory Application Form must be submitted by October 31 in the year preceding intended entry to the programme.

The course consists of four papers and a thesis 64.601 which shall count as four papers. In the case of a joint degree with Chemistry three papers will be taken under MSc Regulation 10 Environmental Science (ii) but treated as the equivalent of two papers in the other subjects. The papers are Environmental Science 64.401 plus a selection from Stage III and Masters 400-level papers in Science, Civil Engineering 52.391 or 52.392, Economics 13.413, Law 25.327 and Planning 36.451. Students will also be required to attend the Environmental...
Science seminars. The combination of papers must be approved by the Director of Environmental Science in consultation with the Heads of Departments concerned. The papers and thesis will normally be completed in two years of study.

64.401 Environmental Science
The principles and procedures of Environmental Science through an examination of the concepts, theories and methods of Science as they relate to both natural and managed environments. Topics include scientific methods, systems theory and its applications, environmental monitoring and modelling, analytical techniques, policy and management issues and environmental impact assessment procedures. The course will include both field and laboratory work and a comprehensive case study. Attendance at Environmental Science seminars (normally held fortnightly) is a required part of this paper. (Available only to students enrolled for an MSc in Environmental Science.)

DEPARTMENT OF GEOGRAPHY

Geography for BSc
The prescriptions for Geography courses are as prescribed for Geography papers for BA.

Geography for MSc and Honours
[Four papers and a thesis (20.601)]
A candidate is expected to enrol for and sit the four papers in the first year, present the thesis in the year next following and submit it for examination by 1 November of that year. Papers shall be selected from 20.400 to 20.445. The prescriptions for Geography courses are as prescribed for Geography papers for MA.

DEPARTMENT OF GEOLOGY

Stage I
Two courses are offered.

21.100 Fundamentals of General and Environmental Geology
Sixty-nine hours lectures, 46 hours laboratories, 8 credits. Global geophysics, materials and basic structure of the lithosphere, igneous activity, metamorphism, tectonism and structural geology; general geomorphology, weathering, erosion and principles of sedimentation; introductory palaeontology and stratigraphy; the geological history of New Zealand and the South-west Pacific; mineral deposits; environmental and engineering geology. The practical course will include identification of elementary rocks and minerals, examination of fossils, preparation and interpretation of simple geologic maps.
Field Classes: Each student will be required to attend at least two field excursions, arranged usually on weekends during term time.
Practical Work: One two-hour practical class must be attended each week. A pass in both the practical course and the written paper is necessary.

21.150 Applications of Geological Concepts and Methods
(Corequisite: 21.100)
Twenty-three hours lectures, 54 hours laboratories, 4 credits. The history of, and scientific method in, geology, stratigraphic correlation, palaeontology and paleocology; the planetary system and elementary geophysics; igneous, metamorphic and sedimentary petrography, applied aspects of structure and tectonics.
Field Classes: Each student will be required to attend at least two field excursions, arranged usually on weekends during term time.
Practical Work: One three-hour practical class must be attended each week. A pass in both the practical course and the written paper is necessary.

Stage II
Entry to each course is limited. Students who intend to enrol should make pre-enrolment application to the Registrar no later than 15 January 1988.
Field Classes are a compulsory part of each paper and students must be prepared to pay a large part of the cost.
Attention is drawn to the inclusion in the Schedule of Science Faculty courses of 52.231 Geomechanics I as a Stage II course relevant to those students with an interest in mining or engineering geology.
The following seven courses are offered:

21.200 Introduction to Field Geology
Seven days field work, 4 laboratory hours; 2 credits. Introduction to the techniques of geological mapping. Each student will be required to produce a geological map and a report on their field mapping exercise.

21.211 Principles of Structural Geology and Geophysics
Three lectures and 3 laboratory hours per week, first half year. 4 credits. Elements and mechanical principles of structural geology. Introduction to applied geophysics and solid earth geophysics.
Field Classes: One-day excursions may be arranged during this course.
Practical Work: A pass in both the practical course and the written paper is necessary.

21.212 Principles of Historical Geology and Palaeontology
21.213 Principles of Mineralogy
(Prerequisites: 21.100 and 21.150. Corequisite: 08.121.
Restriction: 21.203)
Two lectures and 4 laboratory hours per week; first half year. 4 credits.
Field Classes: One-day excursions may be arranged during this course.
Practical Work: A pass in both the practical course and the written paper is necessary.

21.215 Principles of Petrography
Two lectures and 4 laboratory hours per week; second half year. 4 credits.
The major rock-forming minerals. Introduction to igneous, metamorphic and sedimentary petrography.
Field Classes: One-day excursions may be arranged during this course.
Practical Work: A pass in both the practical course and the written paper is necessary.

21.281 Geology IIA for Mining
(Prerequisites: 21.100 and 21.150; 08.121; (26.120 or 26.121); (26.140 or 26.141); and 26.175. Corequisites: 52.231 and 21.203. Restriction: 21.201)
Three lectures and two laboratory hours per week; first half year. 3 credits.
Engineering geology and applied structural geology; application of methods to exploration and exploitation. Introduction to basic geophysical methods used to investigate subsurface geology.
Field work: Each student will be required to do at least two days of field work.
Note: Enrolment requires permission of Head of Geology Department for science students or Head of Department of Mining Engineering for engineering students.

21.284 Geology IIB for Mining
Three lectures and two laboratory hours per week; second half year. 3 credits.
Fossil fuels and mineral deposits. Case history studies of major types of deposits. Exploration methods. Factors influencing formation, localisation and variation in grade in a deposit.
Field work: Each student will be required to do at least two days of field work.
Note: Enrolment requires permission of Head of Geology Department for science students or Head of Department of Mining Engineering for engineering students.

Stage III
Entry to each course is limited. Students who intend to enrol should make pre-enrolment application to the Registrar no later than 15 January, 1988; students are advised to consult members of the Geology staff about their intended course before pre-enrolment.
Attention is drawn to the inclusion in the BSc Schedule of 52.331 Geotechnical Engineering, 52.332 Geomechanics II, 56.312 Evaluation and Mineral Economics and 56.314 Rock Mechanics as Stage III courses relevant to those students with an interest in engineering or mining geology.
Field Classes: Field classes are a compulsory part of each paper and may be held anywhere in New Zealand. Students must be prepared to pay a large part of the cost of field excursions.
The following fifteen courses are offered:

21.300 Field Methods for Geology
(Prerequisites: 21.200. Corequisite: 6 Geology III credits. Restriction: this course may not be taken by any student who, prior to 1988, has completed the requirements for the compulsory Stage III Field Class in Geological Mapping).
At least 10 days field work and 12 laboratory hours. 2 credits.
Photogrammetry, photogeology. A field report and map of a selected area.
Note: This course must be taken by all Geology students taking Geology III papers (excluding 21.306) totalling 6 credits or more. Under special circumstances the Head of Department may permit a student to take 21.200 rather than 21.300.

21.302 Sedimentology and Marine Geology
Forty-six hours lectures, 69 hours laboratories, 6 credits. Physical, chemical and biological processes in the major environments of sedimentation; geomorphology, origin and structure of submarine physiographic provinces. Petrography of sedimentary rocks; process of modern marine sedimentation and erosion.
Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days of field work will be held throughout the year; attendance is compulsory and students must be prepared to pay a large part of the cost of trips which may be made anywhere in New Zealand.
Practical Work: A pass in both the practical work and the written paper is necessary.

21.303 Advanced Paleontology
(Prerequisites: 21.100 and 21.150 or 39.101 and either 06.102 or 38.102. Corequisite: 21.300)
Forty-six hours lectures, 69 hours laboratories, 6 credits. Advanced treatment of some major invertebrate groups (including Foraminiferida, Brachiopoda, Mollusca, Coelenterata) covering their...
morphology, origin, evolution, paleoecology and geological history. Paleoecologic principles and practice, paleoecology of other groups of organisms (ichnofossils, Bryozoa, etc.).

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days of field work will be arranged throughout the year anywhere in New Zealand; attendance is compulsory and students must be prepared to pay a large part of the cost of these excursions.

Practical Work: A pass in both the practical course and the written paper is necessary.

Note: Since the prerequisites for this course are first-year courses it is possible to take 21.303 as a second year course; students who intend to major in Geology must obtain the permission of the Head of Department to take 21.303 in their second year.

**21.304 Minerals and Mineral Deposits**

Three lectures and two laboratory hours per week, 6 credits. Mineral deposits in sedimentary, igneous and metamorphic environments and their genesis; industrial minerals; coal, gas and petroleum deposits. Applied mineralogy. Introduction to hydrogeology.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days will be spent in the field throughout the year. Attendance at these classes is compulsory and students must be prepared to pay a large part of the cost of these excursions which may be held anywhere in New Zealand.

Practical Work: A pass in both the practical course and the written paper is necessary.

Note: Students are recommended to enrol concurrently in 56.101.

**21.305 Igneous and Metamorphic Petrology**

Forty-six hours lectures, 69 hours laboratories, 6 credits. Petrography, chemistry, petrogenesis and regional settings of igneous and metamorphic rocks.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, a total of about five days will be spent in the field throughout the year. Attendance is compulsory and students must be prepared to pay a large part of the cost of these trips which may be held anywhere in New Zealand.

Practical Work: A pass in both the practical course and the written paper is necessary.

**21.306 Applied Geophysics**

Forty hours lectures, 3 credits. A lecture course covering physical principles, equipment and techniques used in investigating the physical composition of the earth's crust and in mineral exploration. Standard numerical and graphical interpretation methods are discussed, and are used to interpret gravity, magnetic, seismic and DC-resistivity. measurements to derive realistic geological gross structures and structures of mineral deposits.

**21.307 Experimental Geophysics (joint laboratory course with Physics Department).**

Seventy-two hours laboratories, 3 credits. This is a laboratory course associated with 21.306. Use and calibration of geophysical instrumentation, experiments to illustrate basic principles, analysis and interpretation of field data involving both Geology and Geophysics. This course is identical with course Physics 31.393, and those students who satisfy the prerequisites: 31.210 and 31.290 and one other paper from 31.200-31.250 should enrol in 31.393.

Field Classes: In addition to the Stage III Compulsory Field Class in Geological Mapping, about five days of field work will be held throughout the year anywhere in New Zealand. Students must be prepared to pay a large part of the cost of these excursions which are compulsory.

Practical Work: Part of the practical work is designed to prepare the students for the interpretation of the field work in the 21.307 (31.393) course.

**21.310 Geology of Australasia and the South West Pacific**

(Prerequisites: at least 8 Geology Stage II credits. Corequisites: any two Geology III papers selected from 21.303-21.318)

Thirty six lectures and 21 laboratory hours; second half year. 3 credits.

Geological evolution of Australasia, the islands of the S.W. Pacific and the Pacific and Tasman ocean crust.

Field Classes: A total of about five days will be spent in the field throughout the year.

Practical Work: A pass in both the practical course and the written paper is necessary.

**21.311 Advanced Structural Geology**

(Prerequisites: 26.121 and 08.121 or (31.140 or 21.141) and either 21.201 or (21.200, 21.211). Corequisite: 21.300. Restriction: 21.301)

Two lectures and 3 laboratory hours per week; first half year. 3 credits.

Principles of structural analysis; fault patterns; strain analysis; regional metamorphic structure.

Field Classes: Four one-day field excursions.

Practical Work: A pass in both the practical course and the written paper is necessary.

**21.312 Advanced Sedimentology**

Two lectures and 3 laboratory hours per week; first half year. 3 credits.

Modern sedimentary processes, sedimentary facies models; basin analysis, tectonics and sedimentation.
Advanced sedimentary petrography.

Field Classes: One day excursions may be arranged during this course.

Practical Work: A pass in both the practical course and the written paper is necessary.

21.318 Introduction to Engineering Geology
Two lectures and 2 laboratory hours per week; first half year. 3 credits.

Field Classes: Two one-day field excursions.

Practical Work: A pass in both the practical course and the written paper is necessary.

21.319 Special Topics in Mineralogy and Geochemistry
(Prerequisites: 08.210, either 21.203 or 21.213)
Two lectures and 2 laboratory hours per week; second half year. 3 credits.

Abundance and distribution of elements and element partitioning including kinetic and thermodynamic aspects. Chemical aspects of aqueous systems. Crystallography and crystal chemistry.

Practical Work: A pass in both the practical course and the written paper is necessary.

21.381 Geology III for Mining
(Prerequisites: 21.203; 52.231; (21.201 or 21.281); and (31.140 or 31.141).
One lecture and two laboratory hours per week; first half year. 3 credits.

Exploration and mining geophysics. Advanced surface and subsurface investigation of geologic conditions. Case histories of applied structural geology and hydrogeologic problems.

Field work: Each student will be required to do at least two days of field work.

Note: Enrolment requires permission of Head of Geology Department for science students or Head of Department of Mining Engineering for engineering students.

21.382 Coal Geology for Mining
Two lectures and 2 laboratory hours per week; second half year. 3 credits.

Problems in coal geology related to coal exploration and mining.

Field Classes: Two one-day field excursions.

Practical Work: A pass in both the practical course and the written paper is necessary.

21.386 Applied Geophysics for Mining

Equipment and techniques used in mine development and investigation of mineral deposits.

Field work: Each student will be required to attend a field camp and prepare a report on a geophysical project.

Note: Enrolment requires permission of Head of Geology Department for science students or Head of Department of Mining Engineering for engineering students.

21.388 Engineering Geology
(Prerequisite: 52.231. Corequisite: 21.318)
Three lectures and one laboratory hour per week; second half year. 3 credits.

Geological principles applied to engineering problems.

Field work: Each student will be required to do at least two days of field work.

Note: Enrolment requires permission of Head of Geology Department for science students or Head of Department of Civil Engineering for engineering students. Science students are advised to enrol concurrently in 52.331 and 52.332.

52.231 Geomechanics I
52.331 Geotechnical Engineering
53.332 Geomechanics II
56.101 Mineral Engineering
56.312 Evaluation and Mineral Economics
56.314 Rock Mechanics

BSc (Hons) Part IV in Geology
(Three papers and a research report 21.603)

The regulations which cover the BSc (Hons) course are listed elsewhere. Students enrolled for BSc (Hons) Part IV in Geology undertake course work as for first-year MSc students and will select three of the following papers prescribed for the MSc Degree (21.401 to 21.409 but not 86.100 or 86.102). In addition, they must complete a research project by the beginning of the second half of the academic year, and the marks allotted for the project report count as equivalent to one paper. Students who wish to be considered for enrolment should consult the Head of Department prior to enrolment or at any time during the preceding year. Students who have been admitted to Part IV should consult the Geology staff about textbooks and particularly about fourth-year research projects at the end of their Stage III year.

Students are reminded of the Foreign Language Reading requirement for admission to the degree of BSc (Hons). Candidates must show proficiency in a language approved by the Head of Department.

BSc (Hons) Part IV in Applied Geology
[Three papers and a thesis (21.613)]

Students enrolled for BSc (Hons) Part IV in Applied Geology undertake course work as for MSc students and will select three papers from the four groups of papers specified by the Schedule for MSc in Applied Geology. In addition they must complete a thesis by the beginning of the second half of the academic year, the thesis being equivalent to one paper. Students who have been admitted to Part IV should consult the Geology staff about textbooks and particularly about fourth-year research projects at the end of their Stage III year.
Students are reminded of the Foreign Language Reading requirement for admission to the degree of
BSc (Hons). Candidates must show proficiency in a
language approved by the Head of Department.

MSc and Honours in Geology

[Three papers and a thesis (21.601)]
The MSc is normally a full-time two-year degree,
following the completion of a BSc, and consists of
three written papers to be selected from 21.401 to
21.409 and either 86.100 or 86.102 together with a
thesis which, for examination assessment, counts as
two written papers.

Students are reminded of the Foreign Language
Reading requirement for admission to the degree of
MSc or MSc (Hons). Students must show proficiency
in a language approved by the Head of Department.

21.401 Tectonics and Structural Geology
Analysis of complex structural sequences in meta-
morphic and non-metamorphic rocks. Principles of
strain analysis and rock mechanics. Selected topics in
regional geology as related to tectonic theory.

21.402 Sediments and Sedimentary Processes
Sedimentary processes and products in both ancient
and modern settings. Identification and interpretation
of sedimentary environments; the provenance and
subsequent diageneric history of terrigenous and
carbonate sediments.

21.403 Stratigraphy and Paleontology
Principles and practice in stratigraphy and correla-
tion, the fossil record and its interpretation, the his-
torical geology of New Zealand.

21.404 Advanced Studies in Mineral Deposits
Advanced studies of selected types of mineral depo-
sits with respect to their physicochemical conditions
of formation and subsequent modification.

21.405 Genesis of Igneous and Metamorphic
Rocks
Studies in the petrology of igneous and metamorphic
rocks covering geological settings, PT environments,
petrochemistry and mineral assemblages with em-
phasis on recent developments in the theoretical, ex-
perimental and observational fields.

21.406 Advanced Applied Geophysics
The theory and practice of the interpretation of geo-
physical measurements. Topics covered are: potential
field theory, quantitative interpretation of gravita-
tional and magnetic anomalies (two- and three-
dimensional bodies); DC and AC resistivity meas-
urements, seismic wave transmission, refraction and
reflection studies. Practical work: The year’s practical
work will be assessed by means of exercises to be
completed during the lecture course and two essays
and discussion of a seminar topic.

Note: This course is the same as Physics 433 and is given jointly by the
Geology and Physics Departments. Previous enrolment in Physics 330,
Geology 306 and Geology 307 is desirable.

21.408 Advanced Engineering Geology
Application of geology to engineering practice with
emphasis on the geological, physical and structural
variants in rock masses and soil masses. Aspects of
ground investigation methods, aggregates, relevant
clay mineralogy, groundwater, sediments and soils,
evacuation methods, stability of slopes, foundation
requirements and relationship to soil mechanics and
rock mechanics.

21.409 Mineral Chemistry and Geochemistry
The abundance and distribution of the elements.
Special topics in the chemistry of minerals, rocks and
fluids.

Note: Students seeking enrolment in this course should have passed
21.304, 21.305, 08.210 and 08.220 or equivalent papers.

21.484 Economic and Mining Geology
The exploration and exploitation of mineral deposits
and other economically important earth materials.

Note: Students seeking enrolment in this course should have passed
21.381, 21.384 or 21.304, and 56.312 or equivalent papers.

86.100 Geothermal Systems and Technology
Scope of geothermal projects. Geothermal systems.
Introduction to geothermal exploration and tech-
nology. Reservoir engineering. Chemistry of thermal
fluids. Economics, environmental and legal aspects.
Case studies.

Note: This course includes two compulsory field trips, normally held in
late February to Wairakei, and in May to Ngawha, each of about five
days' duration, but timing, location, and duration maybe altered from
year to year.

86.102 Geothermal Exploration Technology
Geology of thermal areas. Hydrothermal alteration of
reservoir rocks. Mapping and analyses of geothermal
discharges. Geochemistry of thermal fluids. Geo-
physical exploration of prospects. Drillhole logging.
Instrumentation.

Note: (a) Students seeking enrolment in this course must have passed
21.304 or 21.305 or 21.306; in addition, a pass in either 08.210 or 08.220
is desirable.

(b) This course includes a compulsory field trip, normally held in
mid-term break to Wairakei and Wellington and of five days' duration,
but timing, location, and duration maybe altered from year to year.

MSc and Honours in Applied Geology
(Three papers and a thesis 21.611)
Prerequisite: A BSc with 24 Stage III credits, includ-
ing at least 12 which must be from Geology.
The MSc is a full-time two-year degree following the
completion of a BSc and consists of three written
papers together with a thesis which, for examination
assessment, counts as two written papers. The in-
dividual Course of study of each student must be
approved by the Head of the Department of Geology.
The student shall select three papers from the fol-
lowing four groups: 21.408; (21.471-21.479); 21.484;
and any approved paper listed in the ME Schedule.
Students are reminded of the Foreign Language
Reading requirement; the chosen foreign language
must be approved by the Head of the Department of
Geology; with the permission of the Head of the
Department the Foreign Language Reading re-
The University’s Marine Laboratory provides research facilities for staff and postgraduate students in any branch of marine science. Present work is centred on the ecology, reproductive biology and taxonomy of shore and shallow water organisms, fish physiology, physical & biological oceanography, and some aspects of applied fisheries. It also provides facilities for laboratory and field exercises for advanced undergraduate courses (BSc) primarily in conjunction with the Botany and Zoology departments.

The area in the immediate vicinity of the Laboratory is a Marine Reserve, and permission is required to collect specimens. However, there are examples of most types of marine habitats within 10km of the Laboratory, from where samples can be readily collected. There are a number of small boats for work in and around the Reserve, and a 4m inflatable craft for work slightly further afield. The Laboratory’s research vessel, R. V. Proteus, is equipped with diving compressor, winch, radar and accommodation for 6, and is used for offshore work. Full facilities for diving are available at the Laboratory, including scuba tanks, air compressor, and other equipment. Constantly running seawater is pumped through several tank rooms both indoors and outdoors, and a small climate station is maintained. In addition to general laboratory and office space, there are specialised areas for culturing, computing, photography, chemical analyses, and a small library.

The Laboratory is situated in Goat Island Bay on the east coast, 100km by road north of Auckland. There is on-site bunkroom accommodation for up to 36 students, and 2 self-contained visitors’ cottages. A large kitchen and dining room complex is available to all workers. The Laboratory is managed by a University committee under the chairmanship of Assoc. Prof. B. A. Foster. Inquiries concerning use of the facilities at Leigh should be directed to the Scientist-in-Charge, Dr R. G. Creese, R.D. Leigh, (Phone 26-111, or Auckland 793-534.)

DEPARTMENT OF MATHEMATICS AND STATISTICS
Stage I Courses

Basic skills
A course covering basic skills in mathematics is offered by the department. It is designed for students who have not studied mathematics for some years or those whose background in mathematics is weak. It meets each week during the first term for a lecture or tutorial session; ongoing assistance is available throughout the year if required. In addition to detailed notes containing numerous worked examples, students will have access to the department’s microcomputers with further examples, illustrations and exercises. No enrolment is necessary for this non-credit course.

26.101 (6 credits) Introduction to Algebra and Calculus
This course is a combined algebra and calculus paper. It is for those who do not intend to advance in Mathematics and whose background is weak. It is ideally suited to those students who do not wish to take both an algebra and a calculus paper.
26.120 (6 credits) Principles of Algebra
26.121 (6 credits) Introductory Algebra
26.122 (6 credits) Finite Mathematics
These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics or Engineering will take Maths 120 or 121 which are to be considered as equivalent for prerequisite purposes. Students with a strong entrance background should enrol in Maths 120 and students with a weak background in Maths 121. However, well prepared students are encouraged to enrol in Maths 221. Maths 122 is appropriate for commerce and law students and for arts and social science students not intending to major in Mathematics. However, as this is a first course in Mathematics, better prepared students are encouraged to take Maths 120 or 121 instead.

Syllabus for Maths 120 and 121: integers and induction; complex numbers; linear equations and matrices; vectors and geometry of 2 and 3 dimensions; polynomials; brief introduction to abstract algebra.

Syllabus for Maths 122: a selection of topics from logic, sets, principles of counting, vectors and matrices, linear equations, probability and Markov chains, linear programming, the theory of games, number systems.

26.140 (6 credits) Principles of Calculus
26.141 (6 credits) Introductory Calculus
26.142 (6 credits) Concepts of Calculus
These are alternative courses and only one of them may be selected by any student. Students intending to advance in Mathematics or Engineering will take Maths 140 or 141 which are to be considered as equivalent for prerequisite purposes. Students with a strong entrance background should enrol in Maths 140 and students with a weak background in Maths 141. However, well prepared students are encouraged to enrol in Maths 241. Maths 142 is appropriate for commerce and law students and for arts and social science students not intending to major in Mathematics.

Limits, continuity; derivatives and integrals; differential calculus of polynomials and rational functions; antiderivatives and integrals of polynomials; logarithmic, exponential and circular functions; calculus in Euclidean geometry; applications.

26.175 (6 credits) Introduction to Mathematical Modelling
An introduction to applied mathematics. Constructing mathematical models to problems with elementary examples from geometry, mechanics, population dynamics, conflict models, etc. Solution procedures will require methods of algebra, geometry, calculus, elementary differential equations and numerical methods. Emphasis will be placed on the complete modelling process from problem formulation to solution interpretation.

26.180 (6 credits) Principles of Statistics
Axioms of probability, random variables, probability distributions, expected values, discrete bivariate distributions, sampling distributions, small and large sample inference, regression.

26.181 (6 credits) Introduction to Probability and Statistics
The syllabus is similar to that of 26.180 but with less emphasis on mathematical proofs and more emphasis on statistical techniques and their applications. Further topics such as contingency tables, goodness of fit tests will be included. Students intending to advance in statistics to Stage III will normally take 26.180. Other students who do not have a good background of pure mathematics and statistics at the sixth or seventh form level are advised to take 26.181. If in doubt, please consult the lecturer in charge of the course. Students who pass 26.181 will require permission from the Head of the Department before they may enrol in 26.280.

Stage II Courses
In accordance with Regulation 5 of the BSc Regulations and Regulation 7 of the BA Regulations, the Head of Department may waive the prerequisites listed in the schedule in particular cases. This applies particularly to students who, instead of having passed the formal prerequisite, have passed a related paper with a good grade. The papers to which this applies are 122 instead of 120 or 121, 142 instead of 140 or 141 and 181 instead of 180.

26.210 (6 credits) Principles of Mathematics
The course consists of a wide selection of topics from various branches of Mathematics. Further information about the course may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.

26.220 (6 credits) Linear Algebra
Matrices, vector spaces, linear mappings, determinants, eigenvalues and eigenvectors, non-singular reduction of quadratic forms, Sylvester's law of inertia, inner products, orthogonal reduction of real quadratic forms.

26.221 (8 credits) Algebra (accelerated course)
A selection of topics from Maths 120 and Maths 220 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 120.

26.240 (4 credits) Calculus
Algebra and geometry of vectors in three dimensional space; calculus of vector valued functions, curves, functions of several variables, partial derivatives, chain rule, maxima and minima, div, grad and curl, multiple integrals; least upper bounds; sequences and series, introduction to power series.

Note: Students who intend to advance to Stage III and have obtained a grade of B- or better in papers 26.140 or 26.141 are encouraged to enrol concurrently in paper 26.330.
26.241 (8 credits) Calculus and Analysis (accelerated course)
A selection of topics from Maths 140 and Maths 240 taught as a unified course. Well prepared students are encouraged to seek permission to enrol in this course rather than in Maths 140.

26.260 (4 credits) Differential Equations
Methods for the solution of ordinary differential equations, including variation of parameters, Laplace transform methods, and power series solutions; elementary Fourier series and boundary value problems.

26.270 (4 credits) Principles of Mechanics

26.280 (4 credits) Statistical Theory
Probability spaces, distribution theory of one or more variables, probability and moment generating functions, sampling theory for the normal distribution, estimation, hypothesis testing, linear models.

26.281 (4 credits) Data Analysis
Exploratory data analysis, introduction to analysis of variance and experimental design, goodness of fit, contingency tables, non-parametric methods, regression, simulation, miscellaneous topics.

07.290 (4 credits) Numerical Computation
See Department of Computer Science entry.

Stage III Courses
In accordance with Regulation 5 of the BSc Regulations and Regulation 7 of the BA Regulations, the Head of Department may waive the prerequisites listed in the schedule in particular cases. This applies particularly to students wishing to enrol in paper 26.330 concurrently with paper 26.240.

26.310 (4 credits) Special Topics in Pure Mathematics (a)
Enrolment in this paper requires permission from the Head of Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.

26.311 (2 credits) Special Topics in Pure Mathematics (b)
Enrolment in this paper requires permission from the Head of Department. If this paper is offered, further information may be obtained from the Administrative Secretary of the Department of Mathematics and Statistics.

26.315 (4 credits) Formal Logic
Formal systems, proof-theoretic and model-theoretic approaches to classical and modal sentential logic, introduction to first-order logic.

26.320 (4 credits) Algebraic Structures
Introduction to Abstract Algebra
Groups, rings, unique factorisation domains, fields. The object of these courses is to give a basic introduction to modern algebra, exclusive of linear algebra. They are alternative courses, and only one of them may be selected by any student. Both courses are acceptable and suitable as a prerequisite for Maths 420, and the Mathematics and Statistics Department reserves the right to direct which of these courses a particular student shall take.

26.325 (4 credits) Discrete and Combinatorial Mathematics
A selection of topics involving enumeration, graph theory, designs and codes, with applications.

26.330 (2 credits) Introductory Analysis
Students with good grades in Maths 140 may with the permission of the Head of Department proceed direct to Maths 330 in their second year.

Elements of set theory, the real number system, sequences and series of functions, uniform convergence, Riemann integration.

26.331 (6 credits) Principles of Analysis (accelerated course)
A selection of topics from 26.330 and 26.340 taught as a unified course. This course follows on from 26.241 and enrolment requires permission from the Head of the Department of Mathematics and Statistics.

26.335 (2 credits) Metric and Normed Spaces
A selection of topics chosen from topology or metric and normed linear spaces with particular reference to n-dimensional Euclidean space and C(a,b), compactness, connectedness, completeness and their applications.

26.340 (4 credits) Multivariable Calculus
Differential and integral calculus of vector-valued functions of several variables and applications.

26.345 (2 credits) Techniques of Complex Variables
Analytic functions, power series, calculation of integrals by residues.

26.350 (4 credits) Topics in Topology
A selection of topics chosen from topology or differential geometry. Enrolment in this paper requires permission from the Head of Department.

26.355 (4 credits) Geometry
A selection of topics chosen from axiom systems, affine geometry, Euclidean and non-Euclidean geometry, projective geometry, inversive geometry, convexity.

26.360 (4 credits) Applied Analysis
Differential equations, the special functions of applied mathematics, orthogonal polynomials, Fourier series, boundary value problems.

26.362 (4 credits) Applied Mathematics (a)
Enrolment in this course requires permission from the Head of the Department. If this paper is offered, further information may be obtained from the Ad-
ministrative Secretary of the Department of Mathematics and Statistics.

26.363 (2 credits) Special Topics in Applied Mathematics (b)
Enrolment in this course requires permission of the Head of Department. If this paper is offered, further information may be obtained from the Administrative Secretary, Department of Mathematics and Statistics.

26.368 (2 credits) Mathematical Theory of Control
Dynamical systems, time domain and frequency domain analysis, the exponential matrix, transfer functions, discrete-time systems. Linear control systems, feedback, stability, Nyquist and Liapunov theory.

26.371 (4 credits) Introduction to Continuum Mechanics
Vector and tensor analysis. Analysis of stress and strain. Constitutive relations and field equations. Introduction to fluid mechanics and linear elasticity theory.

26.372 (2 credits) Analytical Mechanics
Idea of the calculus of variations, Lagranges equations for mechanical systems. Application to rigid body dynamics and vibrations.

26.375 (2 credits) Applied Partial Differential Equations
Mathematical and physical classification of partial differential equations into hyperbolic (propagation processes), parabolic (diffusion processes) and elliptic ('steady state' processes). Modelling with partial differential equations, illustrations of solution procedures using both analytical and numerical techniques.

26.376 (2 credits) Theory of Waves
Paper presents a unified treatment of wave phenomenon. Oscillations and waves, Fourier analysis, linear and nonlinear waves, dispersion. Application to sound, water and electro-magnetic wave motions.

26.380 (4 credits) Applied Probability
Introduction to stochastic processes, generating functions, recurrent event theory. Markov chains including applications to random walks and discrete branching processes. Poisson processes, birth and death processes including applications to queuing processes, miscellaneous topics.

26.381 (4 credits) Linear Models
Expectation and covariance operators for random vectors, quadratic forms, multivariate normal distribution, detailed study of multiple linear regression, analysis of variance and covariance.

26.385 (4 credits) Advanced Data Analysis
Multiple regression, analysis of variance, experimental design, contingency tables, log-linear models, time series methods, multivariate analysis, sample survey methods.

07.390 (4 credits) Numerical Analysis
See Department of Computer Science entry

26.391 (4 credits) Optimisation in Operations Research
Linear programming; Simplex and revised Simplex methods; duality, and the dual Simplex method; post optimal analysis; decomposition and column generation, integer programming; cutting planes and branch and bound; dynamic programming; network analysis, transportation and flow problems.

26.395 (4 credits) Mathematical Modelling for Operations Research
Digital simulation techniques and applications. Monte Carlo methods and related statistical analysis; introduction to deterministic and stochastic models in such areas as queueing theory, inventory control, reliability, Markov decision processes, risk analysis.

26.399 (2 credits) Applied Mathematics Laboratory
Definition, analysis and solution of practical problems associated with applied mathematics courses in mechanics, statistics and operations research. Emphasis will be placed on preparation of initial problem specifications, implementation of algorithms, and computer programs and presentation of results. Students shall select three appropriate topics from those offered taking into account the applied mathematics papers in which they are enrolled.

Courses for MA, MSc and Honours
The prerequisites for the MA and MSc Degrees are: Mathematics 26.220 or 26.221, 26.240 or 26.241, at least one of 26.260, 26.280, 26.281, plus twenty 300 or 400 level credits approved by the Head of the Department of Mathematics and Statistics. Normally at least 16 of these credits shall be from papers in Mathematics and Computer Science, but 12 credits in Mathematics and Computer Science may be approved in special cases.

The student shall select papers, approved by the Head of the Department of Mathematics and Statistics, from 26.400 to 26.499 and 07.490 to 07.499 with a total credit value of 20 credits, together with a thesis (26.601) or an advanced course of study (26.605), which will count as 16 credits. Up to four of the 20 credits may be replaced by four Stage III credits from Mathematics and Computer Science papers not already taken for any other degree or diploma.

Candidates who have not passed Mathematics 26.320 or 26.321, 26.330 or 26.331 and 26.340 will normally be required to pass these papers during their first Master's year. Prospective Master's students should consult the Administrative Secretary of the Department of Mathematics and Statistics for further details, preferably when they enrol for their 300 level papers. Not all 400 level papers listed will be offered each year. The list of papers to be offered and their prescriptions will be determined each year by the
Head of the Department of Mathematics and Statistics. The number of credits for each paper is given after the title.

A candidate must normally complete his thesis or advanced course of study not later than twenty-four months after his first enrolment for this degree.

**BSc (Honours) in Mathematics**

Prerequisites for Part IV of the BSc(Hons) Degree are the same as for an MA or MSc Degree in Mathematics. Normally only students of proven ability (B+ or above) may be considered for entry at either Part III or Part IV level.

The courses available at Part III level are such as will allow a candidate to satisfy the prerequisites for Part IV. The requirements for Part IV are: papers approved by the Head of the Department of Mathematics and Statistics, from 26.400 to 26.499 and Computer Science 07.490 to 07.499 but the Head of the Department of Mathematics and Statistics may approve a wider selection of relevant papers, including up to 4 Stage III credits not already taken for any other degree or diploma. The comments above concerning 26.320 or 26.321 etc. with regard to the first year of the Master's Degree also apply to Part IV of the BSc(Hons).

Students who obtain the BSc(Hons) will be permitted...
to complete the MSc by presenting a thesis or completing an advanced course of study as approved by the Head of the Department of Mathematics and Statistics.

**Diploma in Mathematical Education**
See under Diploma Regulations and Prescriptions

**Diploma in Statistics**
See under Diploma Regulations and Prescriptions

**MEDICAL SCIENCE**
The MSc in Medical Science is taught by several Departments in the School of Medicine. Students who intend to take the course should consult as early as possible (preferably by 1 December of the preceding year) the Dean of Science, Chairman of the Committee for the MSc in Medical Science, who acts as the Head of Department for the purpose of the MSc regulations.

The course consists of three papers and a thesis 89.601 which counts as three papers. The papers are selected from: the four papers in Medical Science 89.401-404, Biochemistry 66.401-403, Cellular and Molecular Biology 40.403, Physiology 67.401-406, Psychology 32.406, 410, 416, 419 and Pharmacology 96.404-407.

**89.401 Neuroanatomy**
An introduction to experimental techniques. The organisation of the mammalian nervous system with particular emphasis on the cellular, chemical and connectional anatomy of the sensory and motor systems.

**89.402 Immunobiology**
An intensive analysis of the ontogeny of cells that comprise the immune system, the genes and hormones that regulate differentiation and the processes underlying lymphocyte recognition. Emphasis is given to the molecular mechanisms regulating immunity.

**89.403 Experimental Pathology**
An introduction to the experimental method used to study normal and abnormal cells and tissues. Histological, histochemical, ultrastructural and biochemical approaches to cell and tissue injury.

**89.404 Cancer Biology**
The biological and molecular basis of cancer development and tumour growth and metastasis. Principles of radiobiology and cytotoxic therapy of cancer, with an emphasis on molecular mechanisms.

**DEPARTMENT OF OPTOMETRY**

**Optometry**

**Year I**

**Chemistry**

08.111 Organic and Physical Chemistry
08.121 Inorganic and Physical Chemistry

**Mathematics**

26.101 Introduction to Algebra and Calculus

**Physics**

31.140 Foundations of Classical Physics
31.150 Foundations of Modern Physics

**Psychology**

32.108 Introduction to General Psychology
32.109 Introduction to Experimental Psychology

**Biology**

39.101 Central Concepts of Biology
All papers as prescribed for the Degree of Bachelor of Science.

**Note:** For 31.140 a candidate may substitute 31.141. For 31.150 a candidate may substitute 31.151.

**Year II**

**44.200 Physical Optics**

**44.201 Geometrical Optics**
Refraction at plane and spherical surfaces, limitations of Gaussian optics, thick lenses, cardinal points, equivalent and vertex powers, paraxial theory of optical instruments, stops. Magnification. Optical materials.

**44.203 Ocular Anatomy**
Anatomy of the eye and orbit and adjacent structures, cranial nerves, blood supply to the eye, embryology of the eye, comparative anatomy of the eye.

**44.205 Ocular Physiology**
The vascular supply to the eye. Formation and circulation of aqueous humour, intraocular pressure. Chemistry and metabolism of the cornea, corneal permeability, turgescence and the maintenance of transparency. Structure of the crystalline lens.

**22.210 Physiological Optics**
Optics of the eye, schematic eyes, accommodation, spectacle and relative spectacle magnification. Luminous efficiency, light and dark adaptation, increment thresholds. Stiles Crawford effect, temporal and spatial induction, critical fusion frequency, en-toptic phenomena, visual acuity, trivariance of vision, chromaticity, theories of colour vision and colour discrimination. Classification of eye movements, local signs, corresponding points, diplopia, afferent and efferent control mechanisms, rotary movements, nystagmus, conjugate movements, vergence and stereopsis, Panum's areas, fixation disparity.

**Psychology**

32.220 Human Experimental Psychology

**Physiology**

67.201 Introduction to Physiology
All papers as prescribed for the Degree of Bachelor of Science

**Biochemistry**

66.204 General and Ocular Biochemistry

**Year III**

**44.305 Ocular Pharmacology**
General principles of drug actions on organ systems
and the central and peripheral nervous systems. Characteristics of drugs producing miosis, mydriasis, cycloplegia, accommodative spasm and anaesthesia of ocular surfaces.

**44.306 Applied Optics**
Optical design, meridional and paraxial ray tracing, aberrations of single surfaces, lens systems. the design of optical instruments, optical tolerances, and the assessment of optical performance. Luminous transmittance. Colorimetry, the CIE colorimetric systems.

**44.310 Physiological Optics**
Refractive anomalies of the eye, changes in refraction with age, aetiology of refractive errors, presbyopia. Fusion and stereopsis in the human visual system. Recent advances in visual physiology.

**44.312 Contact Lens Practice**
Contact lens designs and principles of fitting. Disinfection procedures, patient instruction. Signs and symptoms of ill-fitting contact lenses and lens modification procedures.

**44.313 Environmental Vision**

**44.314 General Pathology**
An introduction to general pathology including mechanisms of disease, infection, inflammation, repair, immunological processes, cardiovascular disease, neo-plasms, processes of ageing.

**44.315 Ocular Pathology**
A study of the pathology and clinical manifestations of diseases of the eye, orbit, lacrimal apparatus and visual pathways. Symptomatic disturbances of vision, headache. Eye signs of general disease.

**44.316 Ophthalmic Optics**

**44.330 Clinical Optometry**
The optometric examination, objective and subjective refractive techniques. Assessment of ocular health, oculomotor balance, visual fields and colour vision. Clinical problem solving and patient management. Binocular vision anomalies, heterophoria, fusion, heterotropia.

**32.213 Cognitive Processes: Introductory**
An introduction to the psychology of human perception memory, thinking and language.

**1988 Calendar**
DEPARTMENT OF PHARMACOLOGY  
AND CLINICAL PHARMACOLOGY  
Stage III Courses  
96.301 Principles of Pharmacology  
(One paper and practical work)  
An introductory course on the principles of pharmacology. Topics are passage of drugs across membranes; drug distribution, metabolism and elimination; pharmacokinetics; mechanism of drug action; drug toxicity; drug development and evaluation.  
Lectures: Students will attend two lectures a week.  
Laboratories: Students are required to attend practical classes of not less than three hours a week. Performance in laboratory work will contribute to the final grade for the course.  
Prerequisites: 66.201 or 66.202 or 67.201 and 12 or more credits from Science papers above Stage I.  
A maximum number will be determined by the available accommodation.  
*96.302 Systematic Pharmacology  
(One paper and practical work)  
This course examines specific aspects of pharmacology, particular emphasis being placed on mechanism of action, and the modification of normal function by drugs. The actions of drugs on excitable membranes, membrane bound enzymes, and cellular and bacterial replication will be considered in depth. The modification by drugs of neurotransmission, and renal, gastrointestinal and endocrine function will be reviewed. Practical work complements the lecture course.  
Lectures: Students will attend two lectures a week.  
Laboratories: Students are required to attend practical classes of not less than three hours a week. Performance in laboratory work will contribute to the final grade for the course.  
Prerequisites: 66.201 or 66.202 or 67.201 and 12 or more credits from Science papers above Stage I.  
Corequisites: 96.301.  
A maximum number will be determined by the available accommodation.  
Pharmacology for MSc and Honours  
(Three papers and a Thesis (96.621) which shall count as three papers.) Two papers to be selected from 96.404 to 96.407 and one from Biochemistry, Cellular and Molecular Biology, Medical Science or Physiology with the approval of the Head of the Department concerned, or for Medical Science, of the Chairman of the Committee for the MSc in Medical Science. Students who propose to undertake the MSc Degree should consult the Head of Department as early as possible and preferably before the end of the academic year preceding the year of enrolment for the degree. In consultation with the Head of the Department, students will select two papers among those listed below and an appropriate topic. Only two of the papers listed will be offered each year and a sufficient number of enrolments will be required in each case. The student should normally expect to complete his thesis during the second year.  
96.404 Drug Disposition and Action  
Absorption, distribution, metabolism and excretion of drugs. Sites and mechanisms of drug action. Analysis of these processes.  
96.405 Transmitter and Humoral Pharmacology  
Principles of effects of drugs on endogenous systems. Drugs affecting noradrenergic and cholinergic transmission. Drugs affecting synthesis, and actions of histamine, angiotensin, prostaglandins and related compounds and adenosine.  
96.406 Cardiovascular Pharmacology  
Mechanism of action of drugs on cardiovascular system. Drugs used to treat hypertension, cardiac arrhythmias, angina pectoris and heart failure. Drugs affecting blood coagulation.  
96.407 Special Topics  
The study of selected fields of pharmacology at an advanced level with detailed study of one particular field. The topic will be prescribed by the Head of the Department.  

DEPARTMENT OF PHILOSOPHY  
Stage II Course  
29.203 (5 credits) Philosophy of Science  
This course is available for second and third year BSc students. It provides an introduction to the logic, methodology, ontology and epistemology of science, and other problem areas where philosophy intersects with foundational issues in special sciences. No prior acquaintance with philosophy will be presupposed. However, students will be required to master some elementary logic. Full details of the course, including texts, can be found in the brochure Department of Philosophy: Course Outlines available from the Departmental Secretary.  

DEPARTMENT OF PHYSICS  
Stage I courses 31.101-104 and 28.113  
These papers present aspects of pure and applied physics of interest to students in other subjects or to students who wish to study physics for cultural rather than vocational reasons. They do not allow advancement in physics except to the Stage II papers 31.200-206 as shown in the BSc schedule.  
The papers 31.101 and 102 are of general interest. They emphasise concepts and assume a background familiarity with physics and mathematics equivalent to a University Entrance level. The papers 31.104 and 28.113 are specialised papers as indicated below.  
31.101 (6 credits) Concepts of Classical Physics  
Two lectures per week for the whole year and twelve three-hour laboratory sessions. The course begins with the basic ideas of periodic vibrations. These are then applied to mechanical
systems such as vehicle suspensions and to the study of sound vibrations. The principles of geometric optics are discussed leading to an understanding of how telescopes and microscopes work. Lectures in the second half of the year are concerned with the fundamentals of electromagnetism and its many manifestations in nature and technology. Some of the basic concepts discussed are those of electric charge, fields, electric potential, Faraday’s law of induction and the contribution of Maxwell to electromagnetism. In addition some practical electric current theory is dealt with including everyday applications. Because of limitations on numbers of pieces of apparatus it is rarely possible for physics laboratories to be in step with the lecture course. For this reason many experiments will be demonstrated in the lectures so that they will be more familiar when attempted in the laboratory.

31.102 (6 credits) Concepts of Modern Physics
Two lectures per week for the whole year and twelve three-hour laboratory sessions.
The course begins by discussing the rise of Newtonian mechanics. It is found, for instance, that people untutored in physics tend to have a view of the physical world similar to that which prevailed amongst “scientists” in mediaeval times. The meaning and significance of the three laws of motion enunciated by Newton are explained. His law of gravitation is then discussed and combined with the laws of motion to show how the motions of planets and moons could be predicted. Terrestrial applications of Newton’s ideas are then given, such as applications to fluid flow and the kinetic theory of gases. The 19th century concept of how light waves were propagated is discussed and how this gave a surprising result when attempts were made to determine the absolute motion of the earth; Einstein’s resolution of the dilemma and the origins of the theory of relativity; the wedding of space and time and matter and energy. Ideas of quantum theory are introduced to explain atomic properties. The validity of the theory as demonstrated by its successes will then be shown. Since quantum theory seems to deny determinism, conceptual difficulties will be discussed. Although the course can be taken satisfactorily with little background in mathematics, the quantitative nature of physics will often be stressed. To this end lectures will often contain “appendices” sometimes in the form of handouts aimed at more satisfying explanations of the lecture material for those with a mathematical background.

31.104 (2 credits) Basic Electronics for Instrumentation
Twelve lectures and twelve two-hour laboratory sessions. This paper is given in even numbered years. It is intended for nonphysicists who need to use and understand electronic instrumentation. It aims to provide a basic understanding of electronic circuits and electronic instruments commonly used for scientific purposes.
The topics covered include:
1. the calculation, measurement and observation of direct, alternating and transient electrical signals;
2. a discussion of the factors which cause measurement and observational errors;
3. the characteristics of some active circuit devices, including transducers;
4. the operating principles and uses of power supplies, amplifiers and oscilloscopes;
5. simple logic circuits and their use in the control of experimental parameters.
The laboratory work is an integral part of the paper in which a substantial part of the instruction will take place.

28.113 Acoustics (Paper in Faculty of Music)
This paper is offered as part of the course for the degree of Bachelor of Music but is available to science students under BSc Regulation 10. Topics covered include the fundamental principles of oscillations and wave propagation; stationary waves; resonance; loudness; pitch; tone quality; intervals and scales; the principles of operation of stringed, wood-wind, brass and other instruments; the electronic production and reproduction of sound; and the acoustics of rooms.

31.140, 141 and 150, 151
These papers provide for general advancement to Stage II papers in physics as well as entry to engineering and various other disciplines.
The papers 31.140 and 31.150 form a combination intended for students who expect to major in physics or advance in engineering. They are calculus-based in their presentation and are appropriate for students entering university with a background achievement in physics and mathematics equivalent to an A Bursary or Entrance Scholarship standard. They allow advancement to the core Stage II physics papers 31.210, 220, 240, 250, 260 and 290, as well as to the optional papers.
The papers 31.141 and 151 are intended for students wishing to advance in physics, engineering, other sciences, mathematics or various other disciplines such as architecture, dentistry, medicine (Otago), optometry, surveying etc. They are similar in content to the 31.140 and 31.150 papers but will be presented with minimal calculus and correspondingly assessed at a lower level of difficulty. They are strongly recommended for students entering with the equivalent of B Bursary or UE achievement in physics and mathematics. These papers allow advancement to the optional physics papers at Stage II (31.200, 206, 270) but normally a pass at a B-grade or better will be required to qualify for entry to the core papers.

31.140 (6 credits) Foundations of Classical Physics
Two lectures per week for the whole year and twelve three-hour laboratory sessions. Mechanics, wave-
motion, sound and light, electromagnetism. 
(Entrance Scholarship, A Bursary or equivalent standard assumed.)

31.141 (6 credits) Principles of Classical Physics
Two lectures per week for the whole year and twelve three-hour laboratory sessions. Mechanics, wave-motion, sound and light, electromagnetism. (Entrance Scholarship, A Bursary or equivalent standard assumed.)

31.150 (6 credits) Foundations of Modern Physics
Two lectures per week for the whole year and twelve three-hour laboratory sessions. Thermal physics, relativity and quantum physics. (Entrance Scholarship, A Bursary or equivalent standard assumed.)

31.151 (6 credits) Principles of Modern Physics
Two lectures per week for the whole year and twelve three-hour laboratory sessions. Thermal physics, relativity and quantum physics. (Entrance Scholarship, A Bursary or equivalent standard assumed.)

Stage II Lecture Courses
Note: Normally a course containing more than THREE of the papers 31.210, 220, 240, 250, 260 (including any already credited) will not be approved unless it also contains 31.290 (or 31.290 has already been credited). Attendance at a fortnightly tutorial or problem solving session is required for each advancing lecture course. These sessions may also be used for extensions of the lecture material. A list of textbooks or books for recommended reading is available from the Department Office prior to enrolment.

Direct Entry
Students who have gained an Entrance Scholarship with outstanding marks in both physics and mathematics may be granted direct entry to Stage II papers in physics. Enquiries should be made to the Head of Department.

Core Papers
The papers designated as core papers form part of the MSc prerequisite in physics. In addition, all students intending to take a major interest in Physics at Stage III are advised to take the Stage II core papers and appropriate Mathematics papers, whether or not they intend to proceed to Master's level.

Non-Advancing Papers
The papers 31.200-206 do not lead on to any other papers in physics at Stage III and have minimal Stage I prerequisites. These papers present aspects of pure and applied physics of interest to students in other subjects, but may also be taken by students advancing in physics.

31.200 (4 credits) Topics in Contemporary and Applied Physics
This paper provides an introduction to a variety of topics in physics of contemporary interest, such as space physics, astrophysics, geophysics and biophysics. It also discusses the basic physics involved in a variety of general topics such as music, photography and microscopy. The paper is descriptive in nature and makes extensive use of demonstrations, slides, films and closed circuit TV. One two-hour lecture per week is devoted to each topic, with a different lecturer each week. The course runs throughout the year. This paper is examined by continuous assessment. The prerequisite is any one of the 6-credit Stage I physics papers, or physicochemistry for Human Biology.

31.206 (2 credits) Introductory Geophysics
This paper introduces students to a broad range of topics in geophysics and is intended primarily for non-physics students with interests in geophysics and marine science. The coverage will include basic physical phenomena and processes relating to the Earth as a planet in the solar system, the atmosphere, the oceans and the solid Earth. The level of presentation is appropriate both for advancing physics students and for students in other disciplines.

Advancing Papers
The papers 31.210-270 lead on to more advanced papers in physics and have more extensive Stage I prerequisites than the non-advancing papers. These papers will be of interest primarily to students majoring in physics or in a closely cognate subject, but may be taken independently as part of a wider degree programme. Students enrolling in 31.210-270 should seek advice as to concurrent enrolment in pure and applied mathematics.

Each of the papers 31.210-270 comprises two lectures each week during one half-year, plus a fortnightly tutorial session which will be used for extensions to the lecture material and illustrative problem solving.

31.210 (3 credits) Theoretical Methods in Physics (core paper)
The aim of this paper is to present some typical mathematical methods which are used to describe physical systems. Specific examples will be introduced to show how a mathematical model is formulated for a given physical situation. Methods of analysing simple systems will be explained and solutions discussed in a way which will bring out their physical significance. Examples will be drawn from a variety of topics including mechanical oscillations, acoustical and optical wave propagation, electromagnetism, gravitation and quantum physics.

Note: The methods treated in this paper will be useful in other Stage II physics papers. Students are strongly recommended to enrol in 31.210 concurrently with any of the core papers. 31.210 is not a substitute for physics papers. Students are strongly recommended to enrol in 31.210 concurrently with any of the Stage II papers in pure or applied mathematics but is intended to be complementary to them.

31.220 (3 credits) Optics and Acoustics (core paper)
This paper deals with the fundamentals of optics and acoustics and with some of their applications. It will contain a discussion of such topics as: coherent sources (lasers); interference, diffraction and holography; plane, circular and elliptical polarisation; matrix methods for geometrical optics; image formation and detection; design of optical instruments; fibre optics; acoustic transducers; electromechanical and opto-acoustic analogues.
31.240 (3 credits) Electronic Physics (core paper)
The aim of this paper is to provide students with a fundamental understanding of basic electronic circuits and systems. Electric circuit theory, semiconductor devices, circuit applications and principles of electronic design and instrumentation.

Note: Students are recommended to enrol concurrently in the laboratory paper 31.290.

31.250 (3 credits) Quantum and Statistical Physics (core paper)
The aim of this paper is to introduce students to the concepts of quantum physics and statistical physics. The Schrödinger equation and its application to simple quantum systems. The foundations of classical statistical physics (Maxwell-Boltzmann distribution) and quantum statistics (Fermi-Dirac, Bose-Einstein).

31.260 (3 credits) Structure of Matter (core paper)
The aim of this paper is to give students an understanding of the structure of matter in terms of quantum concepts. The following systems will be covered: atoms, molecules, solids (including semiconductors), nuclei and particles.

31.270 (3 credits) Astronomy and Astrophysics (optional paper)
Techniques of optical and radio astronomy; determination of properties of the solar system and of stars such as distance, radius and mass; Hertzsprung-Russell diagram; equations of stellar structure, energy production and transport; introduction to stellar evolution, galactic structure and cosmology.

Note: The department operates a teaching observatory within the building which is made available to students.

Stage II Laboratory Courses
31.290 (6 credits) Experimental Physics (core paper)
This laboratory paper supplements the advancing Stage II lecture papers. It is a prerequisite for the laboratory papers at Stage III and forms part of the prerequisite for MSc in physics. The course occupies two three-hour periods each week throughout the year and is examined on the basis of continuous assessment.

Corequisites for this course are any two of the papers 31.210 to 270.

31.297 (2 credits) Digital Logic Laboratory (optional paper)
This laboratory paper is particularly designed for Computer Science students with an interest in computer hardware. It can be taken concurrently with 31.290 but on its own will not be a sufficient prerequisite for the laboratory papers at Stage III nor for MSc in physics. Physics 31.140 or 31.141 are designated prerequisites and Computer Science 07.210 is a corequisite in the course.

The course occupies two two-hour periods each week for half the year, and is examined on the basis of continuous assessment.

Stage III Lecture Courses
Note: The prerequisite for Masters in Physics in 1989 will include all the core papers at Stage II and III and TWO of 31.390-393.

Core Papers
The paper 31.325 is the core paper and forms part of the MSc requirement in Physics. See also preceding Note.

31.325-370
The prerequisites for these papers are listed in the BSc Schedule. Students are recommended to enrol concurrently in Mathematics at Stage III level, the papers 26.340, 26.345, 26.360 and 26.375 being the most relevant. Some papers in Computer Science such as 07.100, 07.101, 07.105, 07.210 and 07.340 are also likely to be of benefit to Physics students.

Students intending to undertake graduate studies in Physics should ensure that they satisfy the MSc prerequisites listed under the MSc Regulations.

31.325 (4 credits) Advanced Classical Physics (core paper)
This paper covering electromagnetism, classical and statistical mechanics, contains material important to all further studies in Physics. Topics covered include the development of Maxwell's equations in differential form, and the application of these equations to: electrostatics, magnetic fields, the EM wave equation, and EM wave propagation. Some topics in classical mechanics will be covered prior to statistical mechanics which covers: the basis for thermodynamics, entropy and temperature, radiation, and the classical and quantum description of an ideal gas. The lectures comprise a condensed set of material from the courses in the Department offered before 1988 as 31.312, 313 and 320.

31.326 (2 credits) Laser Physics and Electro Optics
This paper is concerned with modern advances in lasers and optics with emphasis on their applications. Topics covered include: common laser systems, resonator theory, propagation of laser beams, dispersion, opto electronic devices, nonlinear optics, fibre optics, optical transmission systems, fibre optic sensors and optical detectors. The course is of value to students with interests in electrical engineering, electro optics and research in any experimental area of Physics. 31.325 is a corequisite for Physics students, but other equivalent corequisites can be substituted by electrical engineering students.

31.330 (2 credits) Terrestrial Physics
A general introduction to the physics of the solid Earth, including aspects of the gravitational field, the rotation and figure of the Earth, seismology and the internal structure of the Earth, the Earth's internal heat, the geomagnetic field, paleomagnetism and geodynamics.

This 2 credit option is a special arrangement for ap-
applied geophysics students and has the majority of the lectures given in common with 31.335. Geology 21.306 (Applied Geophysics) is a corequisite.

**Note:** Physics 31.330 is a corequisite for Geology 21.306 and Geology 21.307/31.393 (Experimental Geophysics).

### 31.335 (4 credits) Geophysics

This 46 lecture course contains a subset of material offered before 1988 as courses 31.330, 331 and 332. It includes a general introduction to the physics of the solid Earth, including aspects of the gravitational field, the rotation and figure of the Earth, seismology and the internal structure of the Earth, the Earth's internal heat, the geomagnetic field, paleomagnetism and geodynamics. The physics of the ocean and atmosphere are treated by application of fluid mechanics to the relevant dynamical phenomena. Other topics include driven flow, circulation of the atmosphere and ocean, atmospheric electricity, radiation balance and optical phenomena.

### 31.342 (2 credits) Semiconductor Devices

This paper is concerned with understanding the electrical behaviour of semiconductor devices. It contains material relating to the physics of semiconductor junctions, device fabrication and integration, electrical characteristics of discrete and integrated devices, circuit models and device applications.

Although the paper is general in nature, and is designed to follow 31.240, students will benefit from concurrent enrolment in 31.345.

**Note:** Students in this paper are encouraged to enrol concurrently in 31.390, 391 or 392.

### 31.345 (4 credits) Analogue and digital Electronics

This paper contains all of the material offered before 1988 in 31.341 and 31.343 and is relevant to the needs of students intending to undertake experimental work in any area of Physics. Topics discussed include time and complex frequency domain analysis methods applied to electrical and physical systems, Laplace transform methods, Nyquist and Bode plots, poles and zeros, feedback, phase locked loops, oscillators, modulation and noise. A systematic introduction to modern digital techniques is given, covering pulse generation, shaping and cable transmission, active and passive switching circuits, combinational and sequential logic systems.

**Note:** Students enrolling in this paper will benefit substantially by also enrolling in 31.390, 391 or 392.

### 31.355 (4 credits) Advanced Quantum Physics

This 46 lecture course contains a subset of material given before 1988 in papers 31.350, 352 and 353. The paper deals with the postulates of non-relativistic quantum mechanics and their application in atomic, molecular, solid-state, nuclear and particle physics. The study of these topics will be developed using the three-dimensional Schrödinger equation and will include the quantisation of angular momentum and systems in which like particles interact.

**Note:** Students in this paper will benefit greatly by enrolling also in 31.390 or 31.391 or 31.392.

### 31.356 (2 credits) Principles of Experimental Quantum Physics

This 23 lecture course covers many topics of interest in experimental quantum physics. These are applicable to fields such as Medical Physics, Optical Communication, Radiochemistry etc. Some of the topics discussed are: the interaction of charged particles, neutrons and electromagnetic radiation with matter, the detection of particles and photons. In addition the course covers the apparatus of experimental quantum physics; particle accelerators, vacuum systems, ion and atomic beam sources, lasers.

**Note:** Students in this paper are encouraged to enrol concurrently in 31.390, 391 or 392.

### 31.370 (2 credits) Astrophysics

This paper builds upon the second year course 31.270 and includes the following topics: stellar variability and basic stellar pulsation theory; radial velocity curves; close binary star systems and accretion processes; pulsars and gravitational radiation; white dwarfs and neutron stars; properties and detection of black holes; Newtonian cosmology and research topics of current interest.

**Note:** The department operates a teaching observatory within the building which is made available to students.

### 31.380-389 (each 2 credits) Selected Topics

Subject to the approval of the Head of Department students may select not more than two topics from those offered at MSc level in Physics. Any necessary prerequisites or corequisites will be as determined by the Head of Department.

These papers will be examined in a fashion appropriate to Stage III as part of the Selected Topics 380-389.

From time to time special lecture courses in Physics may be offered to students in particular areas of specialisation. These papers will be announced prior to the enrolment period in the year in which they are given.

### Stage III Laboratory Courses

31.390, 391, 392 (each 3 credits) Experimental Physics A, B, C

Three general laboratory papers are available at Stage III level in Physics, and students may enrol for one or more of these in the same or subsequent years. Each paper normally occupies two three-hour laboratory periods for half the year, but laboratory times are flexible depending on the allocation of experiments in the Advanced Laboratory, and 31.392 may be spread over the whole year, at the discretion of the course organiser. Each paper will contain a representative selection of experiments from different branches of physics, but will in addition contain experiments selected as far as is practicable to suit the particular interests of students. Experiments are available in general physics, atomic and nuclear physics, electronic physics and pure and applied geophysics.

In view of the value to be derived towards an under-
standing of experimental physics, it is expected that all students taking any of the 390-series laboratory courses will offer themselves for a period of Stage I laboratory demonstrating.

Prerequisites for enrolment in 31.390, 391 or 392 are passes in two of the papers 31.210 to 31.270 and in 31.290 (special prerequisites apply for 31.393 – see below). Corequisites for all four laboratory papers are concurrent enrolment (or passes) totalling at least two credits from 31.325-356 for each one of 31.390-393. At least two of the papers 390 to 393 are required as a prerequisite to Masters in Physics.

31.393 (3 credits) Experimental Geophysics
This is a joint paper offered by the Geology and Physics Departments and is the same as 21.307. For further information on this paper students should consult the entry under 21.307 Experimental Geophysics.

Physics for MSc and Honours
MSc Lecture Courses
Students are expected to attend five of the lecture courses listed below, four of which must be presented for examination. Normally, all four papers will be examined at the end of the first year of MSc enrolment, but where a paper is not available in that year it may be taken during the second year at the discretion of the Head of Department. With the approval of the Heads of Department involved a Masters paper in another subject may be substituted for one of the papers in physics.

Students will be assisted in their selection of papers at enrolment but should feel free to discuss their proposed course of study, including an area of interest for thesis work, with lecturing staff before the end of the Stage III year.

There are no specific prerequisites for the individual lecture papers, but it is desirable that students should have taken the corresponding Stage III paper where this is indicated. Concurrent enrolment in suitable Masters papers may be advised. Enrolment for COP in a supporting paper may also be recommended.

A list of textbooks or books for recommended reading is available from the Departmental Office by 1 December of the year prior to enrolment, but the advice of the lecturing staff should be sought before purchases are made.

31.410 Transform Methods
This paper deals with the theory and application of transform methods to linear physical systems. Topics presented will include: convolution, continuous and discrete Fourier transforms, Laplace transforms, z transforms and Hilbert transforms; with applications selected from: electric circuits, signal processing, optics, wave theory, spectroscopy and statistics.

31.414 Relativity and Cosmology
Aspects of the special and general theories of relativity. The necessary tensor calculus is developed in the course which is designed to give an introduction to gravitation and cosmology.

31.420 Physics of Ionized Gases and the Ionosphere
Ionized Gases: Only fully ionized gases are treated. The subject is introduced by considering the motion of charged particles under the ‘guiding centre’ approximation. The Boltzmann equation is introduced and used to develop fluid type equations for a two-component ionized gas. Solutions with application to astrophysics and fusion machines are considered. Electrostatic and electromagnetic waves in a homogeneous ionized gas with and without a uniform magnetic field completes the treatment.

Ionosphere: Studies of the upper atmosphere and ionosphere relate to the interactions with solar plasma and solar radiation, formation of the different ionized layers, use of the ionosphere for long-distance radio communications, and the use of radio waves to investigate the upper atmosphere.

Note: Previous enrolment in 31.325 is desirable.

31.431 Wave Propagation
A general treatment of propagation of acoustic, electromagnetic, seismic and surface waves with selected applications in underwater acoustics, oceanography, radio waves in the ionosphere, geophysical exploration and earthquake analysis. Topics include rays and normal modes in inhomogeneous layered media, reflection coefficients, attenuation, WKB approximations, stress-strain tensors, Rayleigh, Love and head waves and whole Earth models.

31.432 Advanced Atmospheric Physics
The microphysics of cloud development and the formation of precipitation in warm and freezing clouds. Severe storms. Scattering and absorption of radiation by aerosols and precipitation. The formation of fogs. The dynamics and thermodynamics of airflow and precipitation development over hills. Topics in current research.

Note: Previous enrolment in 31.335 is desirable.

31.433 Advanced Applied Geophysics
The theory and practice of the interpretation of geophysical measurements. Topics covered include: potential field theory; quantitative interpretation of gravitational and magnetic anomalies (two-and-three dimensional bodies); DC and AC resistivity measurements; seismic wave transmission, refraction and reflection studies.

Practical Work: The year’s practical work will be assessed by means of exercises to be completed during the lecture course and two essays and discussion of a seminar topic.

Note: This paper is the same as 21.406 and is given jointly by the Geology and Physics Departments. Previous enrolment in 31.330 or 31.335, 21.306 and 31.393 is desirable.

31.441 Signal Processing
This paper is concerned with the theory and application of modern techniques used in the transmission,
reception and interpretation of signals. Topics presented include: operational amplifiers and active filters, modulation and detection of signals in the presence of noise, signal analysis by analogue and digital processes, digital filtering, phased detectors and optical signal processing methods.

**Note:** Previous enrolment in 31.345 is desirable and concurrent enrolment in 31.410 is recommended.

### 31.443 Integrated Electronics

A paper in digital and high speed pulse electronics with application in instrumentation and digital systems. Topics discussed include: number systems and codes, combinational logic, sequential digital systems (synchronous and asynchronous), digital system components and high speed switching devices.

The paper is of interest to students intending to undertake experimental work in any field of study and particularly to those with an interest in Computer Science.

**Note:** Previous enrolment in 31.345 is desirable.

### 31.450 Quantum Theory

A review is given of the general formalism of quantum theory, making use of Dirac notation throughout. Particular topics covered may include scattering theory, time-dependent perturbation theory, relativistic quantum mechanics and spin, quantum theory of radiation and introductory quantum field theory, rotations and other symmetry operations. Applications are taken from atomic, nuclear and particle physics.

### 31.453 Nuclear Physics

The aim of this paper is to present a unified picture of nuclear structure and interactions. The main topics discussed are the nucleon-nucleon interaction, nuclear matter and nuclear models, and nuclear reactions.

**Note:** Previous enrolment in 31.355 and 31.356 is desirable, and concurrent enrolment in 31.450 is strongly recommended.

### 31.454 Elementary Particle Physics

Properties of the elementary particles as experimentally found and introduction to the theory of their strong, electromagnetic and weak interactions; quantum field theory; cosmic rays; survey of current experimental and theoretical research approaches.

**Note:** Previous enrolment in 31.355 is desirable, and students are recommended to enrol concurrently in 31.450.

### 31.455 Laser Physics and Quantum Optics

**Note:** Previous enrolment in 31.355 is desirable.

### 31.480-489 Selected Topics

With the approval of the Head of Department it is possible to select one Stage III paper in physics not previously taken, or with the approval of both Heads of Departments concerned, one Stage III paper in another subject as one of the four papers required for the MSc degree in Physics. In these cases additional course work may be required and a special examination will be set as one of the Selected Topics 31.480-489.

### Special Lectures

Short courses of lectures on special techniques and instrumentation relevant to research activities of interest to the Department will be given from time to time. These lectures are available to staff and students and do not form part of the MSc examination.

### 31.601 Thesis

An experimental or theoretical thesis is required, and will count as four papers. Students are given advice concerning theses early in the first year of MSc enrolment and are expected to familiarise themselves with research in progress in the Department during the first half-year. Staff will be ready to discuss possible thesis topics with students during this period, with a view to a final choice of topic being made prior to the end of the second term. The choice of thesis topic is subject to the approval of the Head of Department, who will consider the availability of staff and facilities over the Department as a whole. Whenever possible, the student's first choice will be approved.

With the approval of the Head of Department the thesis may be submitted by 1 February of the year following first enrolment for the Master of Science degree provided that students have commenced work on the thesis in December of their Stage III year. Theses will otherwise be expected to be completed by 1 February following the second year of enrolment. Extensions of time under MSc Regulation 9(b) will not normally be recommended and will require justification by the candidate's supervisor on grounds of special circumstances only.

The Department is prepared to meet the cost of an additional copy of the thesis for the Departmental Thesis Library and students are asked to provide such a copy.

### Research in Physics

Facilities are available for postgraduate and postdoctoral research in Physics in a wide variety of fields. Further information is available from the Departmental Office.

The PhD degree in Physics normally requires about two and a half to three years full-time work. Part-time study is possible after the initial two years.

### DEPARTMENT OF PHYSIOLOGY

#### Stage II

### 67.201 Introductory Physiology

(one paper and practical work)

An introductory course on cellular and organ phys-
siology and relevant processes, particularly in mammalian systems. Topics are muscle, nervous system, motor control and sensory function; cardiovascular and respiratory systems and blood, with their exchange and transport functions; endocrine and reproductive systems, with humoral control of cell metabolism; alimentary system, digestion and absorption; kidney function; body fluids. This paper is complementary to paper 38.209 offered by the Zoology Department.

Lectures: Two lectures a week.
Laboratories: Students are required to attend practical classes of not less than three hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: 08.111 or 08.121: 6 credits from any course in Biology or Zoology.

Stage III

67.301 Systematic Physiology
(one paper and practical work)
This course examines specific aspects of physiology which demonstrate the integration of function from the level of the cell to that of the whole organism. Visceral regulatory mechanisms, regulation of body fluids, cardiovascular control, and the determinants of oxygen supply and demand are considered in depth. Special emphasis is placed on mammalian systems. Practical work complements the lecture course and provides training in a wide range of the techniques used in physiology.

Lectures: Two lectures a week.
Laboratories: Students are required to attend practical classes of not less than three hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: 67.201 and 12 or more credits from any science course at the Stage II or III level.

67.302 Physiology of Cells and Excitable Tissues
(one paper and practical work)
This half-year course examines the physiology of excitable tissues with particular emphasis on the nature of the fundamental processes involved. The bio-physical basis of membrane potentials; the nature of voltage and time dependent ion-selective membrane channels; synaptic transmission; the regulation of contractile processes; and functional differences between skeletal, cardiac and smooth muscle will be studied in detail. The approach is quantitative and special emphasis is placed on mammalian systems. Laboratory work complements the lecture courses and introduces students to the principal physiological techniques of investigation in this field.

Lectures: Two lectures a week.
Laboratories: Students are required to attend practical classes of not less than 3 hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: Physiology 67.201 and 12 or more credits from any science course at the Stage II or III level.

67.303 Physiology of the Nervous System
(one paper and practical work)
This half-year course examines the role of the nervous system and general pattern of its functional organisation. The physiology of the processing of sensory information, of motor outputs and their control, the integrative functions of the central nervous system, central neural mechanisms of homeostasis and aspects of the development of the nervous system are studied in detail. Special emphasis is placed on mammalian and human systems. Laboratory work complements the lecture course and introduces students to a range of neurophysiological techniques.

Lectures: Two lectures a week.
Laboratories: Students are required to attend practical classes of not less than 3 hours per week. Performance in laboratory work will contribute to the final grade for the course.

Prerequisites: Physiology 67.201 and 12 or more credits from any science course at the Stage II or III level.

Physiology for MSc and Honours
(Three papers and a Thesis (67.621) which shall count as three papers).

Students who propose to undertake the MSc Degree should consult the Head of Department as early as possible and preferably before the end of the academic year preceding the year of enrolment for the degree. In consultation with the Head of Department, students will select three papers from among those listed below and an appropriate thesis topic. Not all the papers listed may be offered each year and a sufficient number of enrolments will be required in each case. With the approval of the Senate, a Master's paper in another subject may be substituted for one of the papers in Physiology.

67.401 Mechanisms of Physiological Control
Studies of physiological regulatory mechanisms.

67.402 Applications of Systems Analysis in Physiology
An introduction to systems analysis and control theory, and their application to physiological systems.

67.403 Neurophysiology

67.405 Methods in Physiology
An outline of the theory and practice of data acquisition and analysis in physiology. Principles of experimental design, instrumentation, statistics and computation are considered with respect to specific experiments.
67.406 Perinatal Physiology
A study of the physiology of the foetus and newborn, with an introduction to the methodology in this field. This paper will be taught in the Department of Paediatrics.

DEPARTMENT OF PSYCHOLOGY
Note: on text books: Students taking advanced courses are advised to consult with the lecturers concerned before purchasing books.
Note: on courses: the Schedule attached to the Course Regulations for the Degree of BSc should be consulted for pre and corequisites.
*This paper will not be taught during the current Calendar year.
†This paper will not be taught during the current Calendar year unless sufficient staff is available.

Stage I Courses
Two papers are offered for Psychology I which together provide a general introduction to the psychological study of behaviour. The papers may be taken separately. However, a pass in 32.108 and 32.109 is necessary for entry to Stage II.
32.108 Introduction to General Psychology
Topics covered include: the neurobiological basis of behaviour; social behaviour and social influence; developmental psychology; mental abilities and measurement; personality; psychopathology and its treatments.
32.109 Introduction to Experimental Psychology
Topics covered include: learning, sensation and perception; memory and cognition; statistics. (Laboratory attendance of 2 hours per week is required.)

Stage II Courses
A pass in 12 Stage II credits in Psychology is necessary for entry to Stage III.
32.210 Learning
Concerned with the two major aspects of learning, schedule control and stimulus control. Topics include: schedules of reinforcement, law of effect, superstition, Premack theory, choice and matching, generalisation gradients, transfer tests, transposition, blocking and overshadowing.
32.220 Human Experimental Psychology
An introduction to experimental design, analysis and theory, as applied to human perception and cognition.
32.230 Brain and Behaviour
A basic introduction to the structure and function of the brain, with applications to animal and human behaviour.
32.240 Social and Developmental Psychology
An introduction to the study of social behaviour and change across the lifespan in human behaviour. Half the paper will include such topics as interpersonal processes, nonverbal behaviour, small group processes, attitude and attitude change, the physical environment, social interaction and intergroup relations. The other half of the paper will be devoted to behaviour changes in infancy, adolescence and adulthood. Motor, perceptual, cognitive and socioemotional developments will all be considered.

Stage III Courses
A pass in 12 Stage III credits in Psychology is necessary for entry to MSc and Honours in Psychology.
Note: Paper 32.301 covers some of the essential skills required for professional work in psychology and should be taken by all candidates who may wish to work with clients.
32.301 The Psychology of Individual Differences
A study of genetic sources of individual differences of their measurement, and of the construction and use of psychometric tests.
32.303 Cognitive Processes: Advanced
An examination of the psychology of attention, pattern recognition, memory, problem solving, language and thinking.
32.304 Theory and Systems of Personality
A study of different conceptions of personality with emphasis on their relevance to personal growth and social contexts.
32.305 Physiological Psychology
An advanced study of the physiological bases of behaviour with emphasis on research methodology.
32.306 The Design of Psychological Experiments
A course to help students design and analyse experiments in psychology, including topics in the analysis of variance, multiple regression, and categorical analysis. An introduction to the use of computers in data analysis through the BMD and SAS statistical packages.
32.307 The Psychological Analysis of Vision and Hearing
Aspects of visual perception affecting behaviour in a variety of environments will be discussed. A study of the effects of noise on people and some relations between normal and pathological hearing will also be covered.
32.308 Research Topic
A research topic undertaken under the supervision of a staff member and written up for presentation instead of a final paper.
32.309 Learning
A discussion of how behaviour is controlled and modified in animals by consequent reinforcers and punishers. Emphasis is on laboratory research using animals, with some human data also considered. The theoretical approach taken is mainly quantitative.
32.311 Social Psychology
This course concentrates on social functioning in both intergroup and intragroup settings.
32.312 Organisational Psychology
An examination of personnel psychology, organisational psychology and human engineering.
32.313 Special Topic in Psychology
32.314 Special Topic in Psychology
Courses for MSc and Honours
(Four papers and a thesis 32.601 which is equivalent to three papers.)
Students in consultation with the Head of the
Department will select their papers from among the following:

**32.401 History of Psychology**
An historical account of psychology with special reference to the aspirations and activities of influential psychologists.

**32.402 Quantitative Psychology**
The quantitative analysis of psychological phenomena.

**32.403 Applied Analysis of Human Behaviour**
An examination of general issues in behaviour analysis, of approaches to psychological assessment, and of the application of behavioural techniques to psychological phenomena.

**32.404 Sensation and Perception**
An advanced treatment of modern psychophysics and of the psychology of vision and hearing.

**32.406 Physiological Psychology**
A study of current issues in the physiological bases of behaviour.

**32.408 Clinical Neuropsychology**
An examination of the relation between the brain and mental functioning with an emphasis on clinical cases of brain damage.

**32.409 Abnormal Psychology**
A consideration of the psychological understanding of mental disorders, including their aetiology, classification, assessment and treatment.

**32.410 Neuropsychology**
An advanced treatment of functional models of the human brain and neurolinguistics.

**32.411 Advanced Operant Behaviour**
An advanced study of selected topics in learning at the level of current research.

**32.412 Social Psychology**
An examination of selected research topics in social psychology with a special emphasis on the underlying theories.

**32.413 Contemporary Issues in Developmental Psychology**
An examination of current research on infant development and parenting.

**32.415 Critical Issues in Psychology**
An examination of methodological, metatheoretical and social issues affecting the study and practice of psychology.

**32.416 Cognitive Processes**
A study of selected aspects of human cognition, which includes perception, attention, memory, problem solving and language.

**32.417 Special Topic in Psychology**
Physiological psychology laboratory techniques.

**32.418 Special Topic in Psychology**

**32.419 The Design of Psychological Experiments**
A course to help students design and analyse experiments in psychology, including topics in the analysis of variance, multiple regression, and categorical analysis. An introduction to the use of computers in data analysis through the BMD and SAS statistical packages.

**Note:** Students who have already passed 32.306 are not eligible to take this paper.

**32.420 Research Topic in Psychology**
A research topic undertaken under the supervision of a staff member and written up for presentation instead of a final paper.

**32.421 Theories and Systems of Psychotherapy**
A study of the theoretical bases of various systems of psychotherapy with particular emphasis on problems associated with matching systems to individuals.

**DEPARTMENT OF ZOOLOGY**

**Stage 1**
The first year course for students in Botany, Zoology or Biology comprises three 6-credit papers, Biology 101 (paper 39.101), Botany 102 (paper 06.102) and Zoology 102 (paper 38.102).

**39.101 Central Concepts of Biology**
Biochemical concepts common to animals, micro-organisms and plants; the biochemistry of macromolecules, especially nucleic acids and proteins; enzyme action and catalysis; cellular energetics; genetic principles and mechanisms; fundamental processes of ecosystems; population and community dynamics; organic evolution. This course may be taken as part of the Stage I requirement in either Botany or Zoology, but may not receive credit in both.

**38.102 Animal Evolution and Diversity**
A survey of the evolution of animals, considering both the broad aspects of the evolutionary progression and detailed adaptations in physiology and anatomy to specific habitat and life history situations. Developmental biology.

**Otago Medical Intermediate**
Extra lectures are run to meet the requirements of the Otago Medical School.

**Advanced Courses**

**38.201, 301 Invertebrate Zoology**
Taught in odd numbered years only. The classification, structure and functioning of the invertebrates. A wide range of phyla will be considered; less emphasis will be given to land arthropods. (Detailed treatment of these is given in 38.205.)

**38.202, 302 Vertebrate Zoology**
Taught in even numbered years only. The evolution and biology of the hemichordates and protochordates and vertebrates from fish through to mammals. Particular emphasis is placed on the functional design of vertebrate animals and their adaptations to special environments. The practical course includes the study of vertebrate animals in the laboratory.

**38.203 Animal Orientation and Timing**
A study of the orientation behaviour involved in habitat selection, migration, homing and predation in animals, with analysis of the sensory information in-
An introduction to biological timing will also be given, outlining both the role of biological clocks in the control of temporal patterns of behaviour and physiology, and the physical and biochemical nature of clocks. **38.204 Social Behaviour of Animals** An evolutionary study of the behavioural ecology of social animals. Communication: evolution and ontogeny of signals, channels of communication, aggressive and courtship signalling. Social structures: use of space, territories, hierarchies; mating systems, strategies of the sexes, monogamy, polygamy, cooperative breeding; kin groupings. **38.205 Entomology** The structure, evolution and systematics of the insects. An introduction to those terrestrial groups related to insects i.e. Onychopora, Myriapoda, and Arachnida, the basic structure and morphology of insects, and a systematic coverage of the insect orders. Required for 38.317. **38.209 Animal Physiology and Development** The functions of vertebrate and invertebrate animals and their developmental processes. Particular attention is given to the novel ways in which animals cope with environmental challenges. The practical course provides an introduction to methods and instrumentation of value to experimental biologists. **38.210 Population and Community Ecology** Elementary demography and models of population growth with equal emphasis on plants and animals. Species interactions in multispecies associations; competition and predation. The emphasis will be on experimental ecology of plants and animals from a wide range of habitats. Examples are drawn from the New Zealand marine environment and native forests. Practical work includes a compulsory field course, normally held during the first week of the May vacation. **38.212 Marine Biology** The shore and shallow sea as a habitat, life, and a workshop for ecologists. Habitat structure and intertidal zonation, exemplified chiefly by New Zealand shores. Descriptive schemes of community space, with underlying physical and biotic parameters. The adaptation of the various groups of plants and animals to life between tides. Coastal biogeography. The conservation and utilisation of the coastline. Practical work includes six-day field course Whangarei Heads during the May vacation. **38.310 Animal Morphogenesis** Aspects of the cellular structure, cellular recognition, behaviour and biochemistry as these relate to developmental processes. Practical work involves the use of both scanning and transmission electron microscopes, acquaintance with electrophoretic and cell culture techniques as well as grafting experiments designed to illustrate general aspects of animal morphogenesis. **38.311 Freshwater Ecology** Animal and plant freshwater communities, particularly of lakes and rivers; the physical and chemical environment; physiography of rivers and lakes; hydrology; pollution. Part of the course will consist of a weekend field course in late April and four one-day field trips normally held in the first week of the May vacation. **38.313 Terrestrial Ecology** Sampling, with reference to forest communities; ordination and classification. Community theory and concepts of stability and diversity. Animal-plant interactions particularly with respect to New Zealand. Forest dynamics and the study of both temporal and spatial change. A compulsory residential field class is normally held during enrolment week. Interpretation of the field data will take place during some Wednesday laboratory times. **38.314 Applied Ecology** The application of ecological principles to resource management, including natural recreational resources, forests and fisheries; aspects of the conservation of natural ecosystems; the planning process; wildlife management. **38.315 Evolutionary Genetics** Evolutionary Genetics is a broad discipline which includes aspects of many areas of genetics. The lecture and practical courses consider factors influencing the origin and persistence of form and the genetic differences between closely related species. Relationships among species, as estimated by techniques such as chromosome analysis and electrophoresis are discussed. The genetics of a number of speciation models are considered and recent genetical advances and challenges to neo-Darwinian theory are critically examined. **38.316 Biological Oceanography** Characteristics of marine environments and communities away from the shores. Global ocean patterns and processes. Marine algology and primary productivity. Zooplankton and secondary production. Interrelationships and population biology of plankton, nekton and benthos. Fisheries biology and models. New Zealand marine science research and knowledge. Practical work includes a residential 5-day class at the Leigh Marine Laboratory, involving sampling and analytical exercises, during the midterm break. **38.317 Applied Entomology** The principles and practice of applied entomology, especially of modern control methods, with reference to New Zealand and South Pacific pest problems.
Medical entomology. Practical work includes laboratory study and field work.

38.318 Advanced Concepts of Animal Behaviour
The evolution of cultural transmission of behaviour from one generation to the next. Decision making by individual animals including optimality models of behaviour, foraging, antipredation and spacing behaviour. The orientation behaviour of whole animals as a control system.

*38.319 Ecological Physiology of Marine Animals
(starts in 1989)
A consideration of environmental determinants of strategies in osmoregulation, metabolism, neural organisation and reproduction in various groups of marine animals. Organisms living between the tides, shallow subtidal, the deep sea, and polar regions will be considered.

Practical work includes two weekend classes at the Leigh Marine Laboratory, and two all-day classes in the Department, involving acute and aclimatory responses of organisms to environmental factors.

Plant Protection
Students seeking a broad training in this discipline should take the following courses in Botany and Zoology. Together they encompass experimental design and data analysis, entomology and pest management, plant pathogens and their control.

38.207 Biometry
06.204 Mycology and Microbial Interactions with Higher Plants
38.205 Entomology
06.331 Plant Pathology 1
06.332 Plant Pathology 2
38.317 Applied Entomology

Laboratory Work
One practical class each week for first year courses and two classes each week for advanced courses is the minimum requirement. The practical work will be assessed separately and the marks will be included in the marks schedule of the University. A pass both in the written examination and in the practical work is necessary. (BSc Regulation 7.)

All research students are required to lodge a deposit of $20 with the Department of Zoology before being granted access to keys in the Department.

Field Courses in Botany/Biology, Zoology 1988
06.361: 23-27 May
39.311: 30 April - 1 May and
06.371: 15-19 August
39.210: 8-13 May
39.313: 21-26 February
38.212: 15-21 May
38.316: 4-8 July

Zoology for MSc
Three papers selected from 38.401-38.411 and a Thesis (38.601.)

This course normally requires from fifteen months to two years and necessitates full-time attendance. Students who propose to undertake the MSc Degree should consult the Head of the Department towards the end of the previous year. Thesis research, where appropriate, can begin in the vacation before papers are taken.

*38.401 Evolution
The basic structure and logical framework of modern evolutionary theories; the ruling paradigm of neo-Darwinism, the nature of species, developmental biology and epigenetics; ways of looking at biology, e.g. functionalism versus structuralism.

38.402 Application of Systems Analysis in Physiology
Zoophysiology II. Selected topics on comparative neurobiology.

38.403 Chronobiology
The study of biological clocks: their adaptive significance, location, chemical nature and mathematical models.

38.404 Behavioural Ecology and Sociobiology
Selected topics on the evolution of sociality in animals, including humans.

38.405 Entomology and Pest Management
(a) The functional anatomy and reproductive and life history strategies that make insects so varied and abundant, and
(b) Modern views of pest management leading up to a review of integrated strategies.

38.406 Antarctic and Southern Oceans Ecosystem and Environment
The tectonics and paleoclimatology of southern continents, present day ocean circulations and biogeography. Use of these to interpret biology and ecosystems of Antarctica, and its management.

38.407 Community Ecology
A series of seminars leading to an understanding of community dynamics as exemplified by succession and island biogeography.

38.408 Marine Biology
Part of the course is given to a personal reading of recent work on the causes of patterns of abundance, the rest is a formal presentation of selected topics on the study of the pelagics and benthos, separately, and the whole sea as a working system.

38.409 Zoophysiology
Zoophysiology I. Selected topics in comparative respiration and metabolism.

38.410 Morphogenesis
Recent work on membrane structure, cellular adhesion, segregation and recognition is considered and related to the overall biochemical and genetic control of morphogenetic systems, particularly to cell positioning and the formation of pattern during development.

38.411 Special Topic Prescribed by the Head of Department
For 1988: Recent Advances in Systematics and Biogeography. An introduction to the theory and
practice of systematics and biogeography, including discussion of current controversies over cladistics and vicariance biogeography. Course will include practical experience in the latest techniques, and discussion of the implications of recent developments in systematics for biogeography, ecology and evolution.

**Postgraduate Research: MSc Thesis and PhD**

Staff and facilities are available for Masters and PhD research in many areas of zoology, environmental biology and the interaction of plants and animals. Although much research is field oriented, of animals in natural and experimental situations; excellent facilities are also available for physiological and ultrastructural studies.

Research by staff covers such diverse interests as marine ecology, especially of the inshore communities; the behavioural ecology of both terrestrial and aquatic animals, with emphasis on sociality and communication; entomology and pest management; the physiology of nervous and respiratory systems; chronobiology, morphogenesis, ultrastructure and cellular and organ functions.

There runs through all studies the related themes of evolutionary change and adaptation, and of systematics and population dynamics. Encouragement is given to an experimental approach based soundly on statistical techniques.

Much of the marine research is done at the Leigh Marine Laboratory; studies of native birds and lizards occur throughout the Hauraki Gulf Islands.

**The McGregor Museum**
The museum is open daily from 10 am until 5 pm.

**ENVIRONMENTAL STUDIES**

**Environmental Studies**

An inter-disciplinary undergraduate paper in Environmental Studies is offered at Stage II level. Responsibility for the administration of this paper has been assigned to the Department of Planning.

**84.200 Environmental Studies (4 credits)**

*Prerequisites:* 24 Stage I credits or the equivalent from any Faculty, including six credits from the Science Faculty.

Introduction to global environmental problems of population, resources and pollution, with local illustrations through tutorials and field trips.

**DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS**

**DIPLOMA IN CLINICAL PSYCHOLOGY**

**DipClinPsych**

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

**General Provisions**

1. Subject to the Admission Regulations, a candidate for the Diploma in Clinical Psychology shall at least have satisfied the prerequisites for admission to a Master's Degree in Psychology of this University.

2. Admission to the Course of study for the Diploma shall be at the discretion of the Senate on consideration of a recommendation from the Head of the Department of Psychology.

3. A candidate for the Diploma shall follow a Course of study of not less than three years by taking courses 32.500 and 32.501 as prescribed for this Diploma, and EITHER
   (a) concurrently follow a Course of study for a Master's Degree in Psychology which shall include papers 32.403, 32.408, 32.409, and 32.421, and a thesis 32.601,
   OR
   (b) if all or part of the Master's Degree has already been completed, concurrently take those requirements specified in 3(a) that have not already been completed. If the candidate has already taken a Master's Degree without a thesis, paper 32.420 (Research Topic in Psychology) may be substituted for the thesis.

**Course Content**

4. The Course of study for the Diploma shall consist of two Parts

   **Part I 32.500 (two years)**

   This course comprises seminars in the practice of Psychology, as well as supervised clinical work with clients at the Department of Psychology Clinic and with patients at approved health and mental health institutions, for a minimum of 12 hours per week in the first year and 20 hours per week in the second year. Evaluation will be by internal assessment, and candidates must gain a pass in each year of the course.

   **Part II 32.501 (one year)**

   This course comprises supervised practical work of not less than 38 hours per week in an approved mental
health institution, and a weekly three-hour seminar in the Department of Psychology. Candidates will be examined on the assessment of one or more patients, including written case reports. There will also be an oral examination.

5. No candidate shall be permitted to proceed to Part II before completing Part I to the satisfaction of the Head of the Department of Psychology.

6. A candidate shall carry out to the satisfaction of the Head of the Department of Psychology such seminar, clinical, and practical work as may be required.

7. A candidate shall be deemed to have completed the requirements for the Diploma upon gaining a pass in courses 32.500 and 32.501 and upon completing the requirements of the Master's Degree.

8. These Regulations shall come into force on 1 January 1988.

PRESCRIPTIONS FOR DipClinPsych

DIPLOMA IN CLINICAL PSYCHOLOGY

The Course of study for this Diploma is designed to prepare the candidate for professional competence as a clinical psychologist, and to qualify the candidate for registration as a psychologist under the Registration of Psychologists Act.

The minimum duration of the course is three years. No more than eight candidates may be admitted to the course for the first time in any one year. Candidates wishing to enrol should make application to the Programme Co-ordinator before 31 October preceding their first enrolment for the course. Application forms are available from the Department of Psychology.

Candidates wishing to take Part II in the following year should consult the Head of Department at the end of their second year in Part I.

DIPLOMA IN COMPUTER SCIENCE

DipCompSci

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations; for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Regulations, a candidate for the Diploma in Computer Science shall before enrolment for this Diploma
   (a) have been admitted or have qualified for admission to a Bachelor's Degree, or hold a professional qualification in Computer Science, or have attained an equivalent level of practical experience in the Computing Profession
   (b) have attained, to the Head of Department's approval, a level of technical competence in Computer Science equivalent to the prerequisites for 300 level Computer Science papers.

2. A candidate permitted by the Senate to enrol for the Diploma without having fulfilled all the prerequisite requirements may be required by the Senate to include all or any of the unfulfilled prerequisites as additional papers.

3. A candidate shall complete a Course of study approved by the Head of Department of Computer Science subject to the conditions that
   (a) the Course of study shall comprise papers having a total credit value of at least 24 credits selected from 300, 400, or 500 level papers in Computer Science
   (b) at least 8 credits of the course shall be at level 400 or above.

4. No candidate may present for this Diploma a paper which is the same or substantially similar in content to any paper the candidate has already passed for any other degree or diploma.

5. These Regulations come into force on 1 January 1986.

PRESCRIPTIONS FOR DipCompSci

DIPLOMA IN COMPUTER SCIENCE

This course of study is designed for graduates in fields other than Computer Science, or candidates with equivalent status, to pursue their specialised interest in developments in the Computer field. The course of study is tailored to fit individual student needs and is made up of papers having a total credit value of 24 credits selected from 300, 400 and 500 level papers in Computer Science, and relevant papers offered by other departments. The course will normally include a Diploma Project of either 4 or 8 credits. Candidates may complete their course in one full year's study or accumulate credits on a part-time basis. Details are available from the Department of Computer Science and the Diploma Course Regulations in this Calendar should be

1988 Calendar
consulted.

07.501 Diploma Project in Computer Science (a) (4 credits) A project on a practical aspect of Computer Science relevant to the candidate's interests.

07.502 Diploma Project in Computer Science (b) (8 credits) A project on a practical aspect of Computer Science relevant to the candidate's interests.

DIPLOMA IN MATHEMATICAL EDUCATION

DipMathEd

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

1. Subject to the Admission Regulations, a candidate for the Diploma in Mathematical Education shall before enrolment for this Diploma:

(1) have been admitted or have qualified for admission to a Bachelor’s Degree, or have satisfied Regulation 2 of the Regulations for the Degree of Master of Arts or Regulation 2 of the Regulations for the Degree of Master of Science and

(2) (a) have passed in the following Mathematics courses (as prescribed for the Degree of BSc):

(i) papers 26.220 or 221 and 240 and 241 and (ii) one other 200 level course in mathematics; or (b) have to the satisfaction of the Senate reached an equivalent level of attainment and

(3) be required to have had teaching experience to the satisfaction of the Head of the Department of Mathematics and Statistics except where the Head of that Department permits otherwise.

2. A candidate for this Diploma shall follow a Course of study for one year full-time or two years part-time or for such longer periods (either full or part-time) as the Senate on the recommendation of the Head of the Department of Mathematics and Statistics may require or permit.

3. (a) A candidate shall complete a Course of study approved by the Head of the Department of Mathematics and Statistics consisting of papers having a total credit value of 24 credits selected from 300, 400 or 500 level Mathematics papers. The selection must include a project, 26.500, which counts as four credits. At least 16 credits must be selected from papers 26.500-26.569.

(b) A candidate who does not have an adequate knowledge of the major areas of secondary school mathematics will be required to make up the deficiency by attending an appropriate course or courses as directed by the Head of the Department of Mathematics and Statistics.

4. A candidate shall deliver the project required in Regulation 3 (a) to the Registrar by not later than 1 November in the year following the year of first enrolment, or by such later date as the Senate may in exceptional circumstances permit.

5. No candidate may present for this Diploma a paper which is the same or substantially similar in content to any paper he has already passed for any other degree or diploma.

6. These Regulations shall come into force on 1 January, 1980.

PRESCRIPTIONS FOR DipMathEd

DIPLOMA IN MATHEMATICAL EDUCATION

Candidates for this Diploma must have completed or almost completed a Bachelor’s Degree and will normally have obtained passes in papers 26.220 or 26.221, 26.240 or 26.241 and one other 200 level paper in Mathematics. Although the Regulations also require that a candidate should normally have had some teaching experience, this requirement can be waived on the recommendation of the Head of the Department of Mathematics and Statistics: intending candidates without such experience are invited to consult with the Head of the Department prior to enrolment. The course of study consists of papers having a total credit value of 24 credits selected from 300, 400 or 500 level Mathematics papers. The selection must include a project, 26.500, which counts as four credits. At least 16 credits must be selected from papers 26.500-26.569. CERTIFICATE IN THE PRINCIPLES AND PRACTICE OF RADIOCHEMISTRY

08.350 Elementary Certificate in the Principles and Practice of Radiochemistry

The course for this Certificate involves ten lectures and ten laboratory classes each of three hours' duration. The course will run concurrently with the first ten lectures and laboratory sessions of 08.352, or by arrangement. Examinations: Candidates will be assessed on their practical work together with a written test. Prerequisite: 08.210, but students having need of radiochemical techniques may be admitted to the Certificate Course without having passed 08.210 upon obtaining the approval of the Head of the Chemistry Department. A knowledge of Physics to Bursary level will be assumed.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF COMMERCE

BCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

Admission
1. (a) Admission to any paper in Part I of the Course of Study in Commerce shall be at the discretion of the Senate. Application for admission shall be made to the Registrar in writing before 15 January, or such other date as the Senate may determine, of the year in which the applicant proposes to enrol.
(b) Admission to any paper in Part I shall be granted or withheld upon a consideration of the past performance of the applicant at school and in university and public examinations, and upon an interview where this is required.

Minimum Time for Degree
2. Subject to the Admission Ad Eundem Statum Regulations, a candidate for the Degree of Bachelor of Commerce shall follow a course of study of not fewer than three years.

Definition of a Paper
3. In these Regulations a paper means an examinable part of one year's work in a subject. Papers are classified in three Stages, I, II, III, prescribed for this Degree in the Schedule to these Regulations.

Course Content
4. Every candidate's Course of Study for this Degree
(a) shall comply with the requirements specified below for Part I and Part II;
(b) shall comply with the requirements specified in the Schedule to these Regulations.

Part I
5. Except as provided elsewhere in these Regulations, for Part I a candidate shall be required
(a) to pass in two papers selected with the approval of the Senate from
   Computer Science 07.100, 07.105
   Economics 13.102, 13.105
   Management Science and Information Systems 74.100;
(b) to pass the following Stage I papers
   Accounting 01.100, 01.101;
   Commercial Law 02.100;
   Economics 13.100, 13.101;
   Management Science and Information Systems 74.100;
(c) before taking any other paper for Part I of this Degree, to pass or enrol concurrently in the papers in paragraph (a) of this Regulation;
(d) before taking any paper for Part II of this Degree, to pass or enrol concurrently in the papers in paragraph (b) of this Regulation: provided that the Senate may waive the requirements of paragraph (c) or paragraph (d) of this Regulation for a candidate
   (i) who has been admitted or qualified for admission to a degree of this University; or
   (ii) enrolled, under Regulation 13 (1) of these Regulations, conjointly for this Degree and the Degree of Bachelor of Arts or the Degree of Bachelor of Science; or
   (iii) enrolled under Regulation 12(1) of the Regulations conjointly for this Degree and the Degree of Bachelor of Laws.

Part II
6. (a) Except as provided elsewhere in these Regulations, for Part II a candidate shall be required to pass no fewer than fourteen papers at any stage, including no fewer than three Stage III papers selected from the subjects Accounting, Economics, Management Science and Information Systems, Management Studies and Labour Relations, and Marketing and International Business.
   (b) A candidate may include as one, two, three or four papers for this Degree one, two, three or four papers not already passed for this Degree from any subject prescribed for any other Degree of this University; provided that
   (i) for Science papers to be available for credit under this clause each such Science paper must carry a minimum of four credits in the Schedule to the Regulations for the Degree of BSc, and
   (ii) for the purpose of

1988 Calendar
this Regulation, Science papers carrying lesser credit may be aggregated with other Science papers from the same stage of the same subject.

**Maximum Course Load**

7. Except with the permission of the Senate no candidate shall take in any one year more than eight papers for this Degree.

**Direct Entry**

8. (a) Notwithstanding anything in Regulations 4, 5 and 6 of these Regulations a candidate may with the leave of the Senate take Stage II papers of any subject to which this Regulation applies without having passed Stage I. A candidate who passes a Stage II paper in a subject shall not be credited with any prerequisite Stage I paper of that subject. If the examiner certifies that the candidate though failing a Stage II paper attained the standard of a pass in a Stage I paper the candidate shall be credited with a pass in a Stage I paper of that subject.

(b) This Regulation applies to the following subjects

- Accounting
- Economics
- Mathematics

**Credits**

9. (1) (a) A candidate who has passed for another degree of this University two Stage II level papers in Pure Mathematics or equivalent and has passed papers 13.200 and 13.201 of Economics shall be credited with papers 13.100 and 13.101 of Economics, on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General).

(b) A candidate who, for the Degree of Bachelor of Engineering, has passed Engineering Mathematics I and Engineering Mathematics II shall be credited with two unspecified papers in Stage II Mathematics on payment of the fees required by Regulation 12 of the Enrolment and Course Regulations (General).

Provided that the total credits granted to a candidate under paragraphs (a) and (b) of this clause of this Regulation and Regulation 12 of the Enrolment and Course Regulations (General) shall not exceed eight.

(2) A candidate who, for the Degree of Bachelor of Engineering, has been exempted from the Intermediate Examination shall be exempted without credit from the two papers required by Regulation 5 (a).

10. A candidate for this Degree who abandoned another course of study and passed in a paper listed in the Schedule to these Regulations without receiving credit for that paper for any degree or diploma, may be credited with that paper for this Degree.

**Concessions**

11. (1) (a) A candidate for BCom, BCom/BA, BCom/BSc or BCom/LLB who has gained a University Bursary or Entrance Scholarship may be permitted by the Senate to substitute one or more papers for one or more of the Stage I papers in Accounting, Economics, Applied Mathematics and Pure Mathematics prescribed for Part I in Regulation 5 (a).

(b) Each Part I paper for which substitution is permitted must relate to a subject or subjects of the University Bursaries Examination or the Entrance Scholarship Examination in which he or she attained a standard of achievement approved by the Senate.

(2) Notwithstanding anything elsewhere in these Regulations a candidate who has completed the Professional Examination in Accountancy may be admitted by the Senate to the course for this Degree with credit for Accounting 01.100, 01.101, 01.200, 01.202, Commercial Law 02.100, 02.200, and two papers as required by Regulation 5 (a) on payment of the fees required by Regulation 13 of the Enrolment and Course Regulations (General).

(3) Notwithstanding anything elsewhere in these Regulations a candidate who has passed with merit in at least six subjects of the Professional Examination in Accountancy, may be admitted by the Senate to the course for this Degree with credit for up to six papers as determined by the Senate on payment of the fees required by Regulation 13 of the Enrolment and Course Regulations (General).

(4) Notwithstanding anything elsewhere in these Regulations a candidate who has qualified with merit for the New Zealand Certificate of Commerce may be admitted by the Senate to the course for this Degree with credit for Accounting 01.100, 01.101, Commercial Law 02.100 and two other unspecified papers on payment of the fees required by Regulation 13 of the Enrolment and Course Regulations (General).

(5) Notwithstanding anything elsewhere in these Regulations a candidate who has qualified for the Diploma in Business and Industrial Administration may be admitted by the Senate to the course for this Degree with credit for Accounting 01.100, 01.101, Commercial Law 02.100, Management Science and Information Systems 74.100, Management Studies and Labour Relations 72.203, Marketing and International Business 71.200 and one other unspecified paper on payment of the fees required by Regulation 13 of the Enrolment and Course Regulations (General).
BCom/LLB, BCom/LLB (Hons)

12. (1) With the permission of Senate a candidate may be admitted to a conjoint course of study for this Degree and the Degree of Bachelor of Laws or Bachelor of Laws (Honours) (in this Regulation called “a conjoint course”).

(2) A candidate taking a conjoint course shall obtain the permission of Senate to re-enrol for it in each year after admission to the conjoint course.

(3) A candidate who has taken a conjoint course and who
(a) for this Degree or for the Degree of Bachelor of Laws or Bachelor of Laws (Honours), has passed the following papers
(i) two papers selected with the approval of the Senate from
   Mathematics, Applied, 26.180, 26.181
   Computer Science, 07.100, 07.105
   Economics 13.102, 13.105
   Management Science and Information Systems 74.100;
   (ii) Accounting 01.100, 01.101;
   (iii) Economics 13.100, 13.101;
   (b) for the Degree of Bachelor of Laws or Bachelor of Laws (Honours) has passed
   (iv) Legal System 25.103;
   (v) Law of Contract 25.105;
   (vi) Commercial Law 25.204 or Advanced Commercial Law 25.302;
   (vii) Company Law and Partnership 25.208;
   (viii) two or more papers having in aggregate at least four hours of instruction per week selected with the approval of Senate from Intellectual Property, 25.209;
   Industrial Law 25.212 or Advanced Industrial Law 25.306;
   Income Tax 25.221;
   Competition Law 25.228;
   Company Finance 25.309;
   Creditors Remedies 25.312;
   International Trade 25.315;
   Estate and Tax Planning 25.323
   Special Topic papers as prescribed for the Degree of Bachelor of Laws or Bachelor of Laws (Honours).
   (c) for this Degree has in addition passed no fewer than nine Stage II or Stage III papers selected from those specifically listed in the Schedule in the subjects Accounting, Computer Science, Economics, Management Science and Information Systems, Management Studies and Labour Relations, Marketing and International Business and Mathematics, including no fewer than three Stage III papers from the subjects Accounting, Economics and Management Science and Information Systems, Management Studies and Labour Relations and Marketing and International Business,
   shall be deemed to have satisfied the requirements for this Degree.

(4) The papers so credited to this Degree under this Regulation shall be admitted as cross-credits, exemptions, or additional cross-credits as the case may be for the purpose of Regulation 13 of the Enrolment and Course Regulations (General).

BCom/BA, BCom/BSc

13. (1) With the permission of Senate a candidate whose academic record is of a sufficiently high standard may be admitted to the conjoint course for this Degree and the Degree either of BA or BSc (in this Regulation called a “conjoint course”).

(2) A candidate taking a conjoint course shall obtain the permission of Senate to re-enrol for it in each year after admission to the conjoint course.

(3) A candidate who has taken a conjoint course and who
(a) for Part I of this Degree has passed the seven papers prescribed in Regulation 5;
(b) for Part II of this Degree has passed no fewer than nine Stage II or Stage III papers selected from those specifically listed in the Schedule, in the subjects Accounting, Commercial Law, Economics, Management Science and Information Systems, Management Studies and Labour Relations, and Marketing and International Business including no fewer than three Stage III papers selected from the subjects Accounting, Economics, Management Science and Information Systems, Management Studies and Labour Relations, and Marketing and International Business;
(c) has completed the requirements for either the Degree of Bachelor of Arts or the Degree of Bachelor of Science, shall be deemed to have satisfied the requirements for this Degree.
(4) The papers so credited to this Degree under this Regulation shall be admitted as cross-credits, exemptions, or additional cross-credits as the case may be for the purpose of Regulation 13 of the Enrolment and Course Regulations (General).

**Elective Papers**

14. Except as provided in Regulation 6 (b), a candidate wishing to take for this Degree any unit, course or paper which is also prescribed for any other Degree, shall comply with such of the Regulations for each of those Degrees as apply to that unit, course, or paper.

**Restriction**

15. No candidate shall take a subject, unit or paper the same as or substantially equivalent to any other subject, unit or paper, and obtain credit for both for this Degree.

**Savings and Transitional Provisions**

16. (1) Except as otherwise provided in this Regulation the course of study of every candidate shall be governed by these Regulations.

(2) A candidate who passed under any of the former Regulations for this Degree in any unit of which the papers are also papers under these Regulations shall be credited with passes in those papers under these Regulations provided that the Senate is satisfied that the prescription in any such paper is at least the equivalent of that prescribed under these Regulations.

(3) The Senate may, in such exceptional cases as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.

17. These Regulations shall come into force on 1 January, 1987.

**Schedule**

1. This Schedule sets out paper numbers, prerequisites, corequisites, restrictions and other conditions applying to papers for the Degree of Bachelor of Commerce.

2. The Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. A candidate may not take a further stage of a subject until he satisfies all prerequisite and corequisite requirements for that stage of the subject.

7. Where a prerequisite has been waived by the Head of Department and reimposed as a corequisite, the paper or papers as to which the corequisite is imposed may not be credited as a pass for the Candidate's Course of study unless or until that corequisite has been passed.

THE DEGREE OF MASTER OF COMMERCE

MCom

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations. Students not qualified to enrol for MCom by reason of Clause 1 (a) of these Regulations may be permitted to enrol for MPhil.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Master of Commerce shall before the candidate's enrolment for this Degree:
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Commerce, and
   (b) (i) have fulfilled the prerequisites for the candidate's subject as shown in the Schedule to these Regulations, and
   (ii) have obtained a grade higher than C- in each Stage III paper in the subject which the candidate proposes to take for this Degree, provided that, in special circumstances where the Head of Department so recommends, the Senate may for the respective purposes of this subclause (b) of this Regulation, waive such preconditions as it thinks fit.
2. A candidate shall be required to fulfil the requirements of and pass the examination in one of the subjects prescribed in the Schedule.
3. Notwithstanding anything in Regulation 2, a candidate for this Degree may with the permission of the Senate take
   (i) one Stage III or one Master's paper or (ii) one Stage III and one Master's paper, or (iii) two Master's papers, in a subject other than the one being taken for the Degree, if each such paper is related to the candidate's research interests. Each such paper shall substitute for and be equivalent to one paper in the Master's course of the subject in which the Degree is being taken.
4. No candidate shall take for this Degree any paper the same as or substantially equivalent to any other paper the candidate has passed or is taking and obtain credit for both for this Degree.
5. A candidate shall not take for this Degree a subject in which the candidate has already passed for the Degree of Master of Arts or the Degree of Master of Philosophy.
6. Subject to Regulation 8 (d), a candidate shall complete the requirements for this Degree within twenty-four months of the date of first enrolment for the Degree.

Honours

7 (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
   (b) To be eligible for the award of Honours a candidate shall pass no fewer than four papers in the first year of enrolment for this Degree.
   (c) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory, provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or exceptional circumstances beyond the candidate's control (certified as under the Aegrotat Pass or Compassionate Pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to present himself or herself at a subsequent written examination and still be eligible for the award of Honours, subject to the provisions of Regulation 6 above, and to Regulation 8 and 9 of the Examination Regulations.

Thesis

8 (a) A thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
   (b) A thesis may be presented in the first year of enrolment for this Degree only with the approval of the Head of Department concerned.
   (c) A candidate may enrol for a thesis in any year subsequent to the first year of enrolment for this Degree only if the candidate obtains an average grade of at least B- in the papers sat in the first year, (provided a thesis is not a compulsory requirement for the candidate's subject).
   (d) A candidate shall present the thesis not later than twenty-four months after the date of first enrolment for this Degree, provided that this period may be extended by the Head of Department concerned for not more
than one year and in exceptional circumstances for longer by the Senate.

(e) If the examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to represent it subject to Regulation 8 (d) above by a later date specified by the Head of Department.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 15.

**Personal Course of Study**

9. The personal Course of study of a candidate shall require the approval of the appropriate Head of Department.

10. The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

11. These Regulations shall come into force on 1 January, 1975.

DEGREE COURSE REGULATIONS

THE DEGREE OF BACHELOR OF LAWS

LLB

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Laws shall be required to
   (a) pursue a course of study for a period of not less than four years;
   (b) pass an Intermediate Examination and three Law Examinations;
   (c) carry out work and undergo experience in the detailed application of law and in relation to the provision of legal services, to the satisfaction of the Faculty of Law ("the Faculty").

Examinations

2. (1) A candidate shall be required to pass as a whole each Law Examination, so that the candidate's performance in all subjects of the examination shall be taken into consideration: provided that
   (a) A candidate who has failed to pass any Law Examination as a whole may at the discretion of the Senate be credited with a subject or subjects of that examination and permitted in a subsequent year to present the subject or subjects not so credited together with a subject or subjects of the next succeeding Law Examination.
   (b) A candidate who has passed the Intermediate Examination may at the discretion of the Senate be permitted to present part only of the First Law Examination, presenting the remaining part in a subsequent year together (if the candidate so wishes) with a subject or subjects of the next succeeding examination.
   (c) A candidate who is undertaking the Degree or any part of the Degree part-time or in conjunction with any other degree shall be required to pass an examination consisting of such work, less than the full examination, as the Senate may in its discretion determine, and present the remaining part of the examination in a subsequent year, together (if the candidate so wishes) with a subject or subjects of the next succeeding examination.
   (2) A candidate to whom any of the foregoing provisos apply shall be required to pass as a whole an examination consisting of the subjects taken in any year, so that performance in all subjects taken in that year shall be considered.
   (3) A candidate who has failed only one subject of a Law Examination may be required by the Senate to pass in the following February a special examination in that subject to be credited with a pass in the examination as a whole.

Subjects

3. The examinations and subjects for this Degree are:

Intermediate Examination

and any one or more optional subjects prescribed for the Second Law Examination.

Note: In any academic year, any optional subject for the Second or Third Law Examinations may be withdrawn if there are insufficient staff to teach it or too few enrolments to warrant its being taught.

Intermediate Credits
4. In respect of the arts papers and science credits for the Intermediate Examination a candidate shall be required to comply with all relevant regulations for the BA Degree or the BSc Degree as the case may be (including regulations and requirements relating to corequisites, prerequisites, restrictions, combinations of subjects and practical work).
Exemptions
5. (1) A candidate who has been credited for the BA Degree or the BSc Degree with any papers or credits required for the Intermediate Examination shall be credited with them for the purposes of this Degree also. (2) A candidate who is a graduate of any University in New Zealand shall be exempted from passing the Intermediate Examination but shall be required to pass 25.103 The Legal System as part of the First Law Examination and shall pursue a course of study for this Degree for a period of not less than three years. (3) In granting admission ad eundem statum to a candidate from an overseas University in one or more subjects of the Degree the Senate may require that the candidate shall pass an examination in the law and practice in New Zealand, covering such matters as may from time to time be prescribed by the Senate. The examination shall be at a time and place fixed by the Vice-Chancellor at a fee to be determined by the University from time to time.

Practical Courses
6. No candidate shall be admitted to this Degree unless the Registrar has received from the Dean a certificate that the candidate has complied with the requirements of Regulation 1(c).

Note: Legal Practice: A student completing his or her First Law Examination is required to enrol for 25.406 Legal Practice I, his or her Second Law Examination 25.407 Legal Practice II and his or her Third Law Examination 25.408 Legal Practice III.

Approval of Courses
7. (1) The personal course of study of every candidate shall require the approval of the Senate. (2) The Senate may delegate to the Faculty the power to approve personal courses of study and also the discretionary powers conferred in Regulations 2 and 5 of these Regulations. (3) The candidate may appeal to the Senate where approval of a personal course of study has been withheld by a decision of the Faculty acting under the delegation of any of the powers referred to in the last preceding paragraph.

Course Requirements
8. Every candidate shall be required
(a) To undertake as part of the candidate's Third Law Examination a course of study comprising a sufficient number of advanced law courses. The Faculty shall determine from time to time which subjects shall be advanced courses for the purpose of this requirement and how many of such courses (not exceeding two-fifths of the Third Law Examination) shall be the minimum requirement.
(b) To undertake in both the candidate's Second and Third Law Examinations a course of study comprising sufficient law subjects to amount to a full-time course of about 13 hours of instruction per week. The Faculty of Law shall from time to time determine the composition of a full-time course for these purposes.
(c) To undertake and satisfy in any subject such tutorial, practical, writing, attendance or test requirements as the Faculty determines from time to time. A candidate who fails to comply with these requirements may be barred from sitting the final examination.

Note: The Handbook of the Faculty of Law will state the advanced subjects, the prerequisites if any, and the weight of each subject within a full-time course of study and the writing and other requirements of the Faculty of Law.

Courses in Other Faculties
9. (1) In lieu of optional law subjects (totalling not more than one-fifth of the content of the Second and Third Law Examination combined) a candidate may take such papers at Stage II or above offered by other Faculties and related to the candidate's Law studies as are approved by the Dean of the Faculty of Law. Before enrolling in the papers the candidate shall obtain the permission of the Head of the Department in which they are being taken and of the Dean of the Faculty of Law; but the Faculty of Law may in special cases apply this provision to a candidate who has previously taken papers in another Faculty which would have qualified under this Regulation if prior approval had been obtained. (2) Any paper taken by a candidate under this Regulation may be credited only to this Degree.

Note: Approval of papers to form part of the candidate's Third Law Examination will ordinarily be confined to those at Stage III or above.

Research Paper
10. A candidate for this Degree may with the prior approval of the Dean elect to submit a research paper in lieu of examination in a subject of the Third Law Examination, if the teacher in the subject has certified that the research paper is related to that subject.

BCom/LLB
11. (1) A candidate shall be credited with any subject named in the left hand column of the schedule to this paragraph of this Regulation if he or she has passed for the Degree of Bachelor of Commerce the paper or papers named opposite that subject in the right hand column of the schedule.

Schedule

In cases approved by the Dean, notwithstanding anything in Regulation 3, a candidate may present a dissertation in lieu of an examination in a subject of the Third Law Examination.

On condition that in either case the teacher in the subject certifies that the research paper or dissertation is related to that subject.

Standards
6. This Degree shall be awarded to candidates who have fulfilled the requirements of these Regulations and whose work throughout the course has been in the opinion of the Faculty of a sufficiently high standard.

Transfer to LLB (Hons)
7. The Senate may, on written application by a candidate who has completed only the First Law Examination and, in special circumstances any other candidate, and without payment of a fee, permit the candidate to transfer to a course under these Regulations; for which the candidate may then be credited with the subjects already passed for the LLB.

Transfer to LLB
8. A candidate whose work does not in the opinion of the Faculty satisfy the standard prescribed in Regulation 6, or who at any stage elects to withdraw from this Degree, shall be entitled to have credited to the LLB Degree without payment of a fee those subjects (being subjects for the LLB Degree) in which the candidate has passed or been credited with a pass.

Commencement
9. These Regulations shall apply to all candidates taking the Degree of Bachelor of Laws (Honours) from January 1973, but any candidate who began his or her law course before that date or before 1967 shall be entitled to the credits prescribed in Regulation 12 of the Regulations for the Degree of Bachelor of Laws.

PROFESSIONAL LEGAL EDUCATION PROGRAMME
A candidate seeking admission as a barrister and solicitor of the High Court of New Zealand must satisfy the requirements of the Professional Examinations in Law Regulations 1987.
The Regulations are printed in the University Grants Committee Handbook. Details are available on request from the Director of the Institute of Professional Legal Studies or the Dean of the Faculty of Law.

POSTGRADUATE DIPLOMA IN LEGAL STUDIES
PG DipLS
The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.
1. Subject to the Admission Regulations, a candidate for the Postgraduate Diploma in Legal Studies shall, before enrolment, have been admitted to or be qualified for admission to the Degree of Bachelor of Laws or the Degree of Bachelor of Laws (Honours).
2. A candidate for the Diploma shall follow a Course of Instruction of not less than one year.
3. (1) Every candidate for the Diploma, either within one year in the case of a full-time student, or within not more than three successive years in the case of a student who is not full-time, shall:
(a) Fulfil the requirements of the project referred to in Regulation 4.
(b) Pass the examination in and fulfil any other requirements of each of four or more papers —
(i) which, if taken concurrently, would involve an aggregate of ten hours of instruction per week; and
(ii) which include papers listed in Regulation 5 in number sufficient when added to the project referred to in Regulation 4 to constitute at least one third of the candidate's course for this Postgraduate Diploma; and
(iii) of which the remainder are made up of papers offered from time to time for the Second or Third Law
Examination of the Degree of Bachelor of Laws; and
(iv) of which none are, or are substantially similar to, papers already credited to the candidate’s Bachelor’s Degree.

(2). For the purposes of this Regulation a candidate is not a full-time student if he or she:
(a) is in employment (including self-employment) for more than 20 hours in each week of the academic year throughout the three years of the work for this Postgraduate Diploma, and
(b) furnishes such evidence of being and intending to continue so employed, as the Dean of the Faculty of Law (hereinafter referred to as “the Dean”) may from time to time reasonably require.

4. Every candidate shall, during his or her course, complete to the satisfaction of the Faculty of Law (hereinafter referred to as “the Faculty”) a substantial exercise (carrying a weighting of three hours of instruction per week) in the detailed application of law upon the terms as to content, supervision and reporting prescribed therefore by the Dean of the Faculty of Law.

Note: A candidate wishing to comply with this requirement should enrol for 25.451 Legal Project.

5. The papers for which provision is made in Regulation 3 shall be:

DEGREE COURSE REGULATIONS

FACULTY OF MUSIC
Undergraduate courses offered within the Faculty comprise a general music degree, a performance degree and a diploma in performance.

Bachelor of Music (BMus)
This is a 3-year course which includes a broad study of all the main areas of music, but does not include courses in performance. After a common first-year course, students can follow a variety of options which allow for some degree of specialisation, in either composition, musicology, or general "skill" subjects.

Bachelor of Music (Performance) (BMus (Perf))
A 4-year course, of which half is devoted to performance. Students can select from various "academic” papers to make up their degree to the required total of 28 papers.

Diploma in Music (DipMus)
The course for the diploma extends over 3 years. Performance papers take up a little over half the course requirement, and entry to the course may be made on the basis of special merit in performance.
In addition to these courses within the Faculty of Music, courses include up to 11 papers as a major subject for BA, and there are two papers in music - 28.104 Music in the 20th Century and 28.105 Basic Musical Techniques - which are offered on a non-advancing basis.

Postgraduate Degrees
Grads of Bachelor of Music (Perf) may, on application, be accepted for a further year of study leading to the degree of Bachelor of Music (Perf) (Hons). Similarly, DipMus students may, in approved cases, enrol for the one-year course for DipMus (Hons).

Two-Year Postgraduate Courses in Music
Following the degree of BMus or BMus (Performance) students may be accepted for the degree of Master of Music (MMus) which can be taken in the area of composition, or performance, or musicology. Students who are BA graduates may elect to follow a course in musicology for a Master of Arts (MA) or a course in either composition or performance for the degree of Master of Philosophy (MPhil).
Details of other postgraduate degrees (DMus and PhD) appear in the appropriate sections of this Calendar.

THE DEGREE OF BACHELOR OF MUSIC

BMus
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Music shall
(a) before enrolling for this Degree satisfy the Head of the Department of Music that a suitable standard in music has been attained, and
(b) follow a Course of study of not less than three years.

Course Entrance
2. A candidate for entrance to the Course of study for the Degree shall give notice in writing on the prescribed form to the Registrar not later than 15 January of the year in which the candidate wishes to enrol.

Course Requirements
3. The Course of study for the Degree shall consist of twenty-one papers selected from those listed in the Schedule to these Regulations. Papers are classified in three stages, I, II and III.
4. Every course of study shall include
(a) at least four papers in Music at Stage I level
(b) no more than eleven papers in Music at Stage II level
(c) at least three papers in Music at Stage III level
(d) at least two and not more than four papers (not being papers in Music) from those prescribed for the Degree of Bachelor of Arts (whether Group A or Group B of the Schedule to the Regulations for that Degree).
5. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.
6. A candidate shall participate in approved choral or instrumental work within the University throughout enrolment for this Degree, to the satisfaction of the Head of the Department of Music.
7. The Senate may on the recommendation of the Head of the Department grant a credit of two unspecified Music papers at Stage I level towards this Degree to any student who has passed the examination in Performance 28.120 for the Degree of Bachelor of Music (Performance) or Diploma in Music with a grade of C-, or a credit of two unspecified Music papers at Stage II level towards this Degree to any student who has passed the examination in Performance 28.220 for the Degree of Bachelor of Music (Performance) or Diploma in Music with a grade of C-.

Note: See Regulations 4 and 6 of the Regulations for the Degree of Bachelor of Music (Performance) and Regulation 6 of the Regulations for the Diploma in Music.

8. A candidate wishing to be enrolled in any subject which is also a subject of examination for the Degree of Bachelor of Arts shall comply with such of the course regulations for that Degree relating to prerequisites, combinations of subjects, and practical work, as are applicable to that subject, save where the Senate in individual cases allows otherwise.

9. The Senate may, in such exceptional cases as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

Application of Regulations and Transitional Provisions

10. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.

(b) A candidate who gained credit in any unit or units or was entitled to exemptions under any of the former Regulations for this Degree shall be credited with such equivalent paper or papers as the Senate may determine.

(c) For candidates who enrolled for this Degree before 1976 the subject prerequisites, corequisites, and restrictions, where not covered by these Regulations, shall be determined by the Head of the Department of Music.

11. These Regulations shall come into force on 1 January, 1987.

Schedule

1. This Schedule sets out paper numbers, subjects, prerequisites, corequisites, restrictions, and other conditions applying to Courses of study for the Degree of Bachelor of Music.

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. The heading 'prerequisites' in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading 'corequisites' in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading 'restrictions' in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until all prerequisite and corequisite requirements and other requirements listed in the Schedule are satisfied.

The papers prescribed for this Degree are:

THE DEGREE OF BACHELOR OF MUSIC (PERFORMANCE)

BMus (Performance)

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Music (Performance) shall (a) before enrolling for this Degree satisfy the Head of the Department of Music that a suitable standard in music, including performance, has been attained, and (b) follow a Course of full-time study of not less than four years, and (c) follow a Course of study continuously except where and in so far as the Head of the Department permits otherwise.

Course Entrance

2. A candidate for entrance to the Course of study for this Degree shall give notice in writing on the prescribed form to the Registrar not later than 30 June immediately preceding the year in which the candidate wishes to enrol.

Course Requirements

3. The Course of study for the Degree shall consist of twenty-eight papers selected from those listed in the Schedule to these Regulations. Papers are classified in four stages - I, II, III and IV. With the approval of the Head of the Department of Music, a candidate may take one or two papers as prescribed for BA in lieu of one or two of the Music papers. Approval will not be granted in the first year of the candidate's course of study for this Degree in special cases.

4. For performance 28.120, 28.220, 28.320 and 28.420, a candidate shall (a) carry out performance work (including the giving of class demonstrations), and (b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and (c) pass a Performance examination, with a grade of C or better in the case of 28.120 and 28.220, in any one of the following subjects.

Note: (i) This instrument may not be taught during the current Calendar year.  
(ii) A candidate who passes the subject Performance 28.120 with a grade of C- and is therefore not eligible to proceed with the Course of study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage I Music papers towards the Course of study for the Degree of BMus. A candidate who passes the subject Performance 28.220 with a grade of C- and is therefore not eligible to proceed with the Course of study for BMus (Performance) may in respect of that pass apply for a credit of two unspecified Stage II Music papers towards the Course of study for the Degree of BMus. See Regulation 8 of the Regulations for that Degree.  
(d) A candidate presenting Singing for this Degree shall attend such language courses and do such language work as the Head of the Department may require.  
(e) Organ students will also receive tuition in harpsichord. A student studying the harpsichord may elect to include studies in the classical organ, its technique and repertoire, as part of the Course.

5. Except with the permission of the Senate no candidate shall take in any one year more than nine papers for this Degree.

6. Except as provided in the Regulations for the Degree, a candidate shall comply with all the prerequisite and corequisite requirements and all restrictions and other conditions, set out in this Schedule.

Note: See note to Regulation 4 of these Regulations.

7. It shall be a condition of a candidate’s being permitted to pursue or continue this Course of study that he or she (a) shall not undertake any musical work, including musical competitions and examinations, outside the Course without the consent of the Head of the Department of Music, and (b) shall participate in approved choral or instrumental work within the University throughout enrolment for this Degree, to the satisfaction of the Head of the Department of Music.

8. (a) Except as otherwise provided in this Regulation, the Course of study of every candidate shall be governed by these Regulations.  
(b) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.  
(c) A candidate who gained credit in any unit or units of a Professional Examination under any of the
Regulations for the Degree of Bachelor of Music (Executant) shall be credited with such equivalent paper or papers as the Senate may determine.

9. These Regulations shall come into force on 1 January, 1976.

**Schedule**

1. This Schedule sets out paper numbers, subjects, prerequisites, corequisites, restrictions, and other conditions applying to the Courses of study for the Degree of Bachelor of Music (Performance).

2. This Schedule shall be read with the Regulations for the Degree and with the prescriptions set out elsewhere in the Calendar.

3. The heading ‘prerequisites’ in relation to a paper refers to other papers which must be passed before the candidate may take that paper.

4. The heading ‘corequisites’ in relation to a paper refers to other papers which must be taken concurrently with that paper or have been passed in a previous year.

5. The heading ‘restrictions’ in relation to a paper refers to a paper which cannot be taken in addition to that paper.

6. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol for any paper until all prerequisite and corequisite requirements and other requirements listed in the Schedule are satisfied.

THE DEGREE OF MASTER OF MUSIC

MMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Master of Music shall before enrolling for this Degree
(a) have been admitted or qualified for admission either to the Degree of Bachelor of Music or to the Degree of Bachelor of Music (Performance), and
(b) (i) have obtained a grade higher than C- in each compulsory paper in Music at Stage II and Stage III levels provided that in special circumstances where the Head of the Department so recommends the Senate may accept a C- pass in any paper or papers, and (ii) if taking Performance for this Degree, have obtained a grade of B- or better in Performance at Stage IV, 28.420.
(c) have been accepted by a Music Department Selection Committee for study for the Degree of Master of Music, at an interview held in the November prior to first enrolment for the Degree of Master of Music.

2. Subject to the Admission Regulations, a candidate may enrol for this Degree having completed at least 20 papers including at least three papers at advanced level for the Bachelor of Music Degree or having completed at least 26 papers including at least three papers at advanced level for the Bachelor of Music (Performance) degree, provided that
(a) the proposed Course for the Degree of Master of Music is a full-time Course and will extend over a period of not less than two academic years;
(b) he or she has obtained grades averaging B- or above in the Stage III level papers for the Bachelor of Music Degree or, in the case of a student taking Performance for a Masters Degree, grades averaging B- or above in the Stage III level papers for the Bachelor of Music (Performance) Degree;
(c) he or she enrolls for the paper or papers in the first year of the Course for the Degree of Master of Music;
(d) he or she satisfies the requirements in Regulations l(b) and (c) above;
(e) should he or she not pass the remaining paper or papers in the first year of the Master of Music Course, the Masters Course shall be suspended until he or she has passed the remaining paper or papers.
3. No candidate shall be accepted for enrolment in subject (2) Performance for this Degree if the candidate has previously been awarded the Degree of Bachelor of Music (Performance) with Honours in this University.

4. A candidate for this Degree shall pursue a course of study of not less than two years.

Course Content

5. A candidate shall be required to fulfil the requirements and pass the examination in one of the subjects prescribed in the Schedule.

6. (a) A candidate for this Degree may with the approval of the Head of the Department of Music take one paper not previously taken from those listed under Music III of the Schedule to the Regulations for the Degree of Bachelor of Music.

(b) A candidate for this Degree may with the permission of the Senate take one Stage III or one Masters paper in a subject other than Music, if such paper is related to the candidate’s research or professional interests. Such paper shall substitute for and be equivalent to one paper in the degree of Master of Music.

7. A candidate for this Degree shall not substitute a paper or papers for any paper or papers for which the candidate has already been examined for this Degree, nor, excepting as provided in Regulation 13, shall the candidate re-sit a paper for this Degree.

Composition

8. When a Composition is required, the following conditions shall apply:

(a) The Composition shall be prepared under the supervision of a University teacher.

(b) A candidate may present the Composition in the year in which he or she takes the papers or, subject to the provisions of paragraph (c) of this Regulation, in a subsequent year.

(c) A candidate shall present the Composition within three years of the year in which he or she takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(d) A candidate shall submit the Composition together with a certificate from the supervisor stating that the work was carried out by the candidate under supervision to the Registrar by 1 November in the year in which it is to be presented, or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, a Composition which is not satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Performance

9. When a Recital is required, the following conditions shall apply:

(a) A candidate shall present a concert Recital of approximately one hour’s duration, the programme to be approved by the Head of the Department. The candidate shall submit the proposed programme to the Head of the Department for approval not later than the end of the first term.

(b) The Recital shall be restricted to ONE of the following:

(i) an approved orchestral instrument
(ii) the pianoforte
(iii) the organ and/or harpsichord
(iv) any other instrument approved by the Head of the Department
(v) singing

(c) A candidate may present the Recital in the year in which he or she takes the papers or, subject to the provisions of paragraph (d) of this Regulation, in a subsequent year.

(d) A candidate shall present the Recital within three years of the year in which he or she takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(e) A candidate shall be present for the Recital on a date to be specified by the Head of the Department.

(f) If the Recital is not satisfactory and if the examiner with the concurrence of the assessor so recommends, the candidate may be permitted to present a further Recital at a later date to be specified by the examiner.

Thesis

10. When a Thesis is required, the following conditions shall apply:

(a) The Thesis shall embody the results obtained by the candidate in an investigation relating to some branch of Music.

(b) A candidate may present the Thesis in the year in which he or she takes the papers or, subject to the provisions of paragraph (c) of this Regulation, in a subsequent year.

(c) A candidate shall present the Thesis within three years of the year in which he or she takes the papers, provided that the time may be extended in exceptional cases by the Senate.

(d) A candidate shall submit the Thesis to the Registrar by 1 November of the year in which it is to be presented or at a subsequent date if so arranged with the Head of the Department.

(e) If the examiner with the concurrence of the assessor so recommends, a Thesis which is not satisfactory shall
be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the Thesis, see Examination Regulation 15.

Honours

11. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Honours shall not be awarded if the papers in the first year in which a candidate sits an examination for the Degree are unsatisfactory or if the Composition or Performance or Thesis at its first presentation is unsatisfactory; provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his or her control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he or she shall be eligible for the award of Honours subject to the provisions of sub-clause (c) of this Regulation.

(c) A candidate shall be eligible for the award of Honours only if he or she completes the requirements for Honours within three years of the first enrolment for this Degree, provided that this period may in exceptional cases be extended by the Senate.

Special Provision

12. The Senate may in such special circumstances as it thinks fit approve a personal course of study which does not conform to the foregoing Regulations.

DMus

1. Except as provided in the Admission Regulations, a candidate for the Degree of Doctor of Music shall hold the Degree of Master of Music of the University of Auckland or Bachelor of Music of the University of New Zealand.

2. The Degree of Doctor of Music shall be awarded for distinction in musical composition.

3. A candidate for the Degree of Doctor of Music shall apply to the Head of the Department of Music for registration as such, showing that he or she has:
(a) the requisite preliminary qualification set out in Regulation 1; and
(b) adequate training and ability to pursue a course of advanced study in musical composition.

4 (a) The Senate having received a recommendation from the Head of Department shall determine whether the candidate may be registered and the date and conditions of registration.

(b) A recommendation shall include:
(i) the proposed date of registration
(ii) the name of a supervisor or supervisors from members of the academic staff
(iii) satisfactory evidence of the candidate’s training and ability to pursue the proposed Course of Study.

5. Having been registered as a candidate for the Degree, the candidate shall pursue a full-time course of advanced study in Composition at the University to the satisfaction of the Head of Department of Music and
the Supervisor or Supervisors, for a period of at least two calendar years from the date of registration.
6. Having completed the initial two years of full-time study, a candidate may apply to the Senate for permission
to continue as a part-time candidate.
7. The Supervisor shall submit to the Senate, through the Head of Department, a brief report on the progress of
the candidate at the end of each year. A candidate’s registration may be terminated by the Senate if an
unfavourable report is received.
8. Having complied with the conditions of the foregoing Regulations, a candidate shall, within five years from
the date of registration (or such further time as the Senate may permit), apply to the Registrar to be examined
for the Degree.
9. (a) A candidate shall submit for examination original and substantial work, consisting of not more than three
pieces, each of which may be within any of the following classes:
   (i) orchestral work
   (ii) opera
   (iii) work using vocal keyboard or ensemble resources
   (iv) presentation of Music Theatre
   (v) electronic music.
   (b) Electronic resources may be included in work within classes (i), (ii), (iii) or (iv) in paragraph (a) of this
   Regulation.
10. No work shall be considered for the Degree if the work, or a major part of it, has previously formed the basis
of an award of any degree or diploma in this or any other University.
11. The application to be examined shall be in writing and (accompanied by the fees prescribed in the Fees
Regulations) shall be lodged with the Registrar together with:
   (a) three copies of the work or works to be examined
   (b) a statutory declaration which shall:
       (i) state the extent to which the work is the candidate’s own, and (in the case of a conjoint work) identify as
       clearly as possible which parts are the candidate’s own; and
       (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of
       the University of Auckland or any other University; and
       (iii) declare that the work in substantially its present form has not been previously accepted for the award of a
degree or diploma in this or any other University and is not being concurrently submitted for a degree or
diploma in any other University.
12. (a) After having accepted the candidate’s application to be examined, the Senate shall, upon the recom-
   mendation of the Head of Department, appoint as Examiners:
   (i) the Supervisor or Supervisors
   (ii) one person who shall be a member of staff of another University within New Zealand, and
   (iii) one person who shall be resident outside New Zealand.
   (b) The Senate may, on the recommendation of the Head of Department, appoint a further Examiner and in
   exceptional circumstances two further Examiners.
13. (a) A copy of the work shall be submitted to each examiner who shall:
   (i) report independently to the Senate on the quality of the work;
   (ii) recommend to the Senate whether or not the Degree should be awarded.
   (b) Where the recommendation is that the Degree should not be awarded, the Examiner may recommend that
the candidate be permitted to resubmit the work at a later date. A resubmission shall be accompanied by a
further full examination fee.
14. A candidate who has held the qualifying degree for not less than five years may, in exceptional circum-
stances, be permitted by the Senate to proceed direct (without complying with Regulations 3 to 8) to
examination as prescribed in Regulations 9, 10 and 11.
15. (a) In the case of a candidate who qualifies for examination under the conditions of Regulation 14, the
Senate shall, as soon as possible after the application has been lodged, appoint a Moderator who shall:
   (i) consider the work and submit through the Registrar a preliminary report, which shall indicate whether, in his
or her opinion, the examination should proceed or whether the candidate should be advised to withdraw the
application; and
   (ii) state the names of not fewer than two persons recommended as suitable Examiners.
   (b) If the Moderator recommends that the candidate should be advised to withdraw the application, the
candidate shall be notified of the recommendation by the Registrar and in any such case the candidate may:
   (i) withdraw the application, being then entitled to a refund of one half of the fees paid under the provisions of
Regulation 11 of these Regulations; or
   (ii) elect to proceed with examination.
16. In the case of a candidate who qualifies for examination under the conditions of Regulation 14 above, and for whom the examination is to proceed —
(a) without being restricted in choice to the persons recommended under Regulation 15(a)(ii), the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside of New Zealand, and may at its discretion appoint an additional Examiner who may be a member of the teaching staff of the University of Auckland.
(b) The contents of the Moderator’s report shall not be communicated to the Examiners;
(c) The examination shall proceed as prescribed under Regulation 13.
17. Where only two Examiners have been appointed and their recommendations are conflicting, the Moderator, or (in the case of examination under Regulations 12 and 13) the Head of Department shall submit to the Senate the name of a further person qualified to act as an Examiner; and the Senate shall then appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with the provisions of Regulation 13, which shall be considered by the Senate together with the other reports.

Revocation
18. (i) The course of every candidate shall be governed by these Regulations.
(ii) The Regulations governing the Degree of Doctor of Music last published in the University of Auckland Calendar for 1985 are revoked.
(iii) These Regulations shall come into force on 1 January 1986.

DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BMus

Restrictions on Entry to Courses
1. Before enrolling for this Degree, a candidate who has little evidence of musical background is required to satisfy the Head of the Department of Music that an appropriate standard has been reached. For this purpose short interviews will be held in late January of the year for which preparatory application has been made.
2. A maximum of 60 first-year places will be available in the School of Music. Of this number, a limit of 35 is set for BMus and BA (advancing in Music) students. Restriction will be based on results in previous Music Examinations and/or interview.
3. For the following papers, restriction will be based on results in Stage 1 Music papers, and evidence of basic skills in the subject:—

DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS

DIPLOMA IN MUSIC

DipMus

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations. An intending candidate who has not been granted the University Entrance qualification by the Universities Entrance Board must apply for admission in accordance with the requirements of the Admission Regulations.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Diploma in Music shall
   (a) before enrolling for the Diploma satisfy the Head of the Department of Music that a suitable standard in music including performance has been attained;
   (b) follow a course of full-time study of not less than three years, and
   (c) follow a course of study continuously, except where and in so far as the Head of the Department permits otherwise.

Course Entrance

2. A candidate for entrance to the course of study for this Diploma shall give notice in writing on the prescribed form to the Registrar not later than 30 June immediately preceding the year in which the candidate wishes to enrol.

Course Requirements

3. The course of study for the Diploma shall consist of not fewer than eighteen papers selected from those listed in the Schedule to these Regulations. Papers are listed in three stages – I, II and III.

4. Except with the permission of the Senate no candidate shall take in any one year more than eight papers for this Diploma.

5. A candidate with previous knowledge in Aural Training or Harmony may be required by the Head of the Department of Music to begin the course by taking subjects in Group B of the Schedule. If the candidate passes 28.100 Harmony and Counterpoint and 28.101 Musicianship and Materials of Music, he or she will be credited with a pass in each paper accordingly, and shall continue the course as outlined in Group B of the Schedule. If the candidate fails either of papers 28.100 and 28.101 (but not both) and is certified by the examiner to have attained the standard of a pass in 28.105, the candidate shall have a credit as for 28.105 and shall continue the course as outlined in Group A of the Schedule.

6. For Performance 28.120, 28.220, 28.325 a candidate shall
   (a) carry out performance work (including the giving of class demonstrations), and
   (b) attend all classes in individual training and such classes in ensemble training, including orchestral rehearsals, as may be required, and
   (c) pass a Performance examination, with a grade of C or better in the case of 28.120 and 28.220, in any one of the following subjects:

Notes: A candidate who passes the subject Performance 28.120 with a grade of C- and is therefore not eligible to proceed with the Course of study for DipMus may in respect of that pass apply for a credit of two unspecified Stage I Music papers towards the Course of study for the Degree of BMus if he is eligible for enrolment for that Degree. A candidate who passes the subject Performance 28.220 with a grade of C- and is therefore not eligible to proceed with the Course of study for DipMus may in respect of that pass apply for a credit of two unspecified Stage II Music papers towards the Course of study for the Degree of BMus if he is eligible for enrolment for that Degree.

See Regulation 8 of the Regulations for that Degree.

(d) if presenting Singing for this Diploma attend such language courses and do such language work as the Head of the Department of Music may require;

(e) Organ students will also receive tuition in harpsichord. A student studying harpsichord may elect to include studies in classical organ, its technique and repertoire, as part of the course.

7. A candidate who (having been a candidate for this Diploma) has been granted credit towards the Degree of BMus under Regulation 8 of the Regulations for that Degree shall not at any later time re-enrol for this Diploma.

8. It shall be a condition of a candidate's being permitted to pursue or continue this Course of study that he or she
(a) shall not undertake any musical work, including musical competitions and examinations, outside the course without the consent of the Head of the Department of Music,
(b) shall participate in approved choral or instrumental work within the University throughout enrolment for this Diploma, to the satisfaction of the Head of the Department of Music, and
(c) shall not enrol for any other Course of study without the leave of the Head of the Department of Music.

9. (a) Except as otherwise provided the Course of study of every candidate shall be governed by these Regulations.
(b) A candidate who has gained a credit for any subject under any former Regulations under the Diploma in Music shall be credited with such equivalent paper or papers as the Senate may determine.

10. The Senate may in such exceptional cases as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.

11. These Regulations shall come into force on 1 January, 1976.

Schedule
1. This Schedule shall be read with the Regulations for the Diploma and with the Prescriptions set out elsewhere in the Calendar.

2. Except as provided elsewhere in these Regulations or in this Schedule, a candidate may not enrol in any paper unless the prerequisite and corequisite requirements as listed in the Schedule for the Degree of Bachelor of Music (Performance) are satisfied.

FACULTY OF ARCHITECTURE PROPERTY AND PLANNING

Three professional degrees are offered within the Faculty.

Bachelor of Architecture (BArch)
The degree of Bachelor of Architecture is recognised by the New Zealand Institute of Architects and the Architects Education & Registration Board for professional membership and registration. It is also recommended for recognition by the Commonwealth Association of Architects to all member institutes in the Commonwealth. The course comprises an Intermediate of six varied papers and a folder of drawings, from which students are selected for entry to the first of four professional years. Half the coursework of each professional year is spent in Studio, developing design skills, the balance being subjects in drawing, theory, history, technology, practice and other core subjects, with electives available in the later years.

Bachelor of Property Administration (BPA)
The degree of Bachelor of Property Administration is recognised by the New Zealand Institute of Valuers, the Valuers Registration Board, the Property Management Institute and the Real Estate Institute of New Zealand. The course has an Intermediate and two professional years, and provides a synthesis of studies concerned with the use, management, valuation, development, acquisition and transfer of primarily urban land and buildings, and with the economic, legal, sociological and technological factors which affect the ownership of the proprietary interests involved.

Bachelor of Planning (BPlan)
The degree of Bachelor of Planning is recognised by the New Zealand Planning Institute. The course has a one-year Intermediate of seven papers; followed by three professional years of studies in which the principal continuing components are Studio (practical work) and the Environmental Planning lecture series. Graduates with qualifications in approved subject areas may complete the BPlan degree in two years.

Master of Architecture (MArch)
The degree of Master of Architecture is essentially a research degree based on thesis, and may include an examination in an advanced stage of building science, design theory, or practice and law. It may be completed in one year full-time or two years part-time. The degree of BArch is prerequisite.

Master of Property Administration (MPA)
The degree of Master of Property Administration consists of four papers in advanced aspects of property administration (two may be Masters papers in a related department) and a thesis. It may be completed in one year of full-time study, or in up to four years part-time. The prerequisite is BPA with grades averaging B-, or DipVal or DipUrbVal subject to special conditions.

Master of Planning (MPlan)
The degree of Master of Planning, for which BPlan is prerequisite, consists of five papers in advanced planning or planning-related subjects and a research essay, or four papers and a thesis. The course may be taken part-time over up to three years.
DEGREE COURSE REGULATIONS

SCHOOL OF ARCHITECTURE
THE DEGREE OF BACHELOR OF ARCHITECTURE
BArch

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. (a) Subject to the Admission Regulations and except as otherwise provided in these regulations, a candidate for the degree of Bachelor of Architecture shall be required to
   (i) pursue a course of study of not less than five years; and
   (ii) pass the Intermediate Examination and complete to the satisfaction of the Senate the requirements of the four Professional Examinations.

(b) A candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination so that the candidate's performance in all subjects of the Examination shall be considered. Where a candidate fails to pass a Professional Examination as a whole the candidate may at the discretion of the Senate be credited with a subject or subjects of that Examination, and be permitted in a subsequent year to present the subject or subjects not so credited together with such subjects of the next succeeding Professional Examination, if any, as the Senate may permit. Where a candidate's course in any year consists of more or fewer subjects than a full Examination the candidate's performance in all subjects taken in that year shall be considered as a whole.

Honours

2. The Degree of Bachelor of Architecture may be awarded with or without Honours according to the standard of the candidate's work in the Fourth Professional Examination (taking into account also the candidate's record in the other Professional Examinations).

Concessions

3. The Senate may exempt a candidate from the Intermediate Examination
   (a) who has reached a standard satisfactory to the Senate in the University Entrance Scholarship Examination, provided that one of the subjects is Applied Mathematics, Pure Mathematics, or Physics; or
   (b) who has been admitted or has qualified for admission to a Degree or, on the special recommendation of the Head of the School of Architecture, a Diploma, in any Faculty of this University; or
   (c) who has by examination qualified with outstanding merit for the New Zealand Certificate in Building, or the New Zealand Certificate in Engineering (Civil Option), or the New Zealand Certificate in Quantity Surveying, and who has completed the practical requirements for the award of such Certificate.

Note: A candidate seeking admission to the First Professional Examination under the provisions of this clause is advised to submit with the required application form, the folder of work in prescribed form in Regulation 5(a).

4. (a) Where a candidate
   (i) has been awarded or has qualified for the award of the Degree of Bachelor of Engineering (Civil) with a record in that Degree of sufficiently high standard in the opinion of the Head of the School of Architecture; or
   (ii) has by examination qualified with outstanding merit for the New Zealand Certificate of Draughting (Architecture) and has completed the practical requirements for that Certificate the Senate may exempt that candidate from the Intermediate Examination and up to a total of 36 credits from the First and Second Professional Examinations.

(b) Where a candidate
   (i) has qualified by examination for the New Zealand Certificate in Draughting (Architecture) but without outstanding merit and completed the practical requirements for it; and
   (ii) has completed the Intermediate Examination with results sufficient to secure a place in the First Professional Examination
the Senate may exempt that candidate from up to a total of 36 credits from the First and Second Professional Examinations.

Note: A candidate granted exemption under Regulations 3 or 4 shall pay the fees required under Regulation 12 of the Enrolment and Course Regulations (General).
Intermediate
5. (a) The Intermediate Examination shall comprise:
a folder of work in prescribed form;
and
two papers or 12 credits in a subject (or with the approval of the Head of the School of Architecture, two related
subjects) from each of the Groups A, B and C listed in the Schedule to this Regulation, of subjects prescribed
for the Degree of BA or BSc as the case may be; provided that
(i) in the case of any or each of the subjects in the Schedule a candidate may substitute for that subject an
equivalent subject passed at another New Zealand University;
(ii) a candidate who, in the Universities Bursaries Examination, has obtained a 'B' Grade or better and has
gained not less than 50 marks in one of the subjects Pure Mathematics, Applied Mathematics or Physics, may
choose instead of a subject from Group A an additional subject from Group B or Group C;
(iii) in exceptional circumstances and on the recommendation of the Dean of the Faculty of Architecture,
Property and Planning, the Senate may permit a candidate to choose the three subjects from those appearing in
the Schedule to this Regulation without restriction as to Groups, save that one shall be chosen from Group A
unless the foregoing proviso (ii) applies;
(iv) subjects available in more than one group may be offered in either but not in both.
(b) In respect of each subject chosen from the schedule to this Regulation, a candidate shall be required to
comply with such of the course regulations for the Degree of Bachelor of Arts or Bachelor of Science as are
applicable (including all requirements as to practical work and all prerequisites, corequisites and restrictions).

Note: The folder of work and results in the subjects from the schedule shall be taken into account in any selection that may be required because of
a restriction in the number of places available.

6. (a) For each Professional Examination a candidate shall be required to gain credits from the subjects set out
in the Schedule to Regulation 10, including core subjects for that Professional Examination set out in Part A of
that schedule and other subjects from Part B of that schedule, in accordance with the following:

First Professional Examination
Studio 1 (18 credits) and at least 18 further credits including 18 credits in other core subjects.

Second Professional Examination
Studio 2 (18 credits) and at least 18 further credits including 18 credits in other core subjects.

Third Professional Examination
Studio 3 (18 credits) and at least 18 further credits which shall include 12 credits in other core subjects and may
include credits in other subjects.

Fourth Professional Examination
Studio 4 (18 credits including 9 credits in a thesis) and at least 18 further credits which shall include 4 credits in
other core subjects and may include credits in other subjects; or
Studio 4 Extended (27 credits including 9 credits in a thesis) and at least 9 further credits which shall include 4
credits in other core subjects and may include credits in other subjects.
Note: (i) A candidate who does not attain the standard required for a pass in Studio 4 Extended (27 credits) may be credited with a pass in Studio 4 (18 credits).
(ii) Students who fail to pass Studio 2 are advised to consult the Dean before seeking to enrol in core subjects for Third and Fourth Professional Examinations and subject electives.
(iii) At the discretion of the Head of the School of Architecture, an alternative approved subject may be offered to meet the core requirement in architectural history in the First Professional Examination, in place of 15.121 Western Architecture I.

(b) The Senate may permit a candidate to take a subject or subjects as defined in the Regulations for a degree in any Faculty, in lieu of a subject or subjects set out in Part B of the Schedule to Regulation 10, up to an equivalent of 10 credits for this degree, and credits will be awarded for a pass in such subjects in accordance with the following:

7. A candidate may not gain credits for any Professional Examination in any subject for which credits were gained in a previous Professional Examination; provided that
(a) where a candidate has in any year gained more credits than required to complete a Professional Examination, the additional credits to a maximum of six may be credited to the next succeeding Professional Examination.
(b) A candidate who has failed to gain the required number of credits in the subjects of a Professional Examination and enrols to repeat subjects or take other subjects to make up the required number of credits for that Professional Examination, may at the discretion of the Head of the School of Architecture take additional subjects to provide not more than 6 credits; and such of those credits as the candidate gains in excess of the credits required to complete that Professional Examination may to a maximum of six be credited to the next succeeding Professional Examination.

8. A candidate shall not enrol for more than 42 credits in any Professional Examination; provided that a candidate who has failed to gain 6 or fewer of the required number of credits in a Professional Examination, may, at the discretion of the Head of the School of Architecture, enrol in subjects for the remainder of the required number of credits, together with the subjects of the next succeeding Professional Examination, up to a total of not more than 42 credits.

9. A candidate may not take a subject unless he or she has passed or been exempted the prerequisite subject for that subject as provided in Regulation 10, and the Schedule to it; provided that
(a) where the prerequisite subject and the advanced subject are taught consecutively in one year, the candidate may enrol for both, but may not take the advanced subject if a pass is not gained in the prerequisite subject; and
(b) where the candidate has been exempted from one or more of the subjects of the course for this Degree under Regulation 4 or the Ad Eundem Statum Regulations, the Senate may at its discretion exempt the candidate from the requirements of this Regulation.

Note: A candidate who is ineligible under proviso (a) to take an advanced subject should withdraw from that subject in accordance with Regulation 7 of the Enrolment and Course Regulations (General).

10. (a) The subjects of the Professional Examination shall be as listed and numbered under the headings Title of subject and Number of paper in the Schedule to this Regulation, (the core subjects being in Part A, and the other subjects in Part B). The credits to be awarded and the prerequisite or corequisite for each subject shall be as shown in the appropriate column opposite the name of the subject.
(b) Each subject referred to in the Schedule to this Regulation as ‘Special Topic’ and the prerequisite or prerequisites for it shall be as determined by the Head of the School of Architecture.
(c) Each subject named or referred to in the Schedule to this Regulation shall be an independently assessed segment of work, the successful completion of which shall result in the award of the number of credits shown.

THE DEGREE OF BACHELOR OF PROPERTY ADMINISTRATION

BPA

The general course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for General provisions affecting their Course of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. (a) Subject to the Admission Regulations, and except as elsewhere provided in these Regulations, a candidate for the Degree of Bachelor of Property Administration shall:
   (i) pursue a course of study for a period of not less than three years; and
   (ii) pass an Intermediate Examination and two Property Administration Examinations.

(b) Except with the permission of the Senate no candidate for this degree shall take in any one year Property Administration Examination subjects worth more than 42 credits.

Examinations

2. (1) A candidate shall be required to pass as a whole the Intermediate Examination and each Property Administration Examination so that performance in all subjects of the Examination shall be considered; but — (a) a candidate who fails to pass an Examination (whether Intermediate or Property Administration) as a whole may, at the discretion of Senate be
   (i) credited with a subject or subjects of that Examination, and
   (ii) permitted in a subsequent year to present the subject or subjects not so credited, together with a subject or subjects of the First or Second Property Administration Examination as the case may be.

(b) A candidate who is studying for this Degree part-time or in conjunction with any other degree, may be required to pass an examination consisting of such work, less than the full Examination, as the Senate may in its discretion determine and to present the remaining subjects of the full Examination in a subsequent year, together with a subject or subjects of the next succeeding Examination.

(c) A candidate to whom either of the foregoing paragraphs (a) and (b) applies shall be required to pass as a whole an Examination consisting of the subjects taken in any year, so that the candidate's performance in all subjects taken in that year shall be considered.

(2) No candidate may enrol for any paper of the First Property Administration Examination without having passed at least six papers for the Intermediate Examination.
Intermediate Examination

3 (1) The subjects of the Intermediate Examination shall be:

**Subject** | **Paper Nos.**
---|---
Introduction to Property | 37.100
Statistics | 26.181 or 26.180 (or 13.102)
Economics (2 papers) | 13.100 and 13.101

Political Studies | 30.102, 30.107
Commercial Law | 02.100
Geology | 21.100
English | 18.101, 18.103

(2) (a) A candidate at another New Zealand University may substitute for any or each of the above papers an approved equivalent paper available at that University.

(b) Where a subject equivalent to the subject 37.100 is not available the candidate

(i) shall take an additional elective paper in the Intermediate Examination; and

(ii) shall, if admitted to the First Property Administration Examination, take 37.100 only as a required paper in Part B of that Examination.

Note: See note to Regulation 6.

**Prerequisites and Restrictions**
6. A candidate shall comply with the prerequisites and restrictions relating to any paper taken for Part B of the First or of the Second Property Administration Examination; except so far as the Head of Department concerned may otherwise permit.

**Note:** Candidates should before the beginning of the Intermediate year ascertain what prerequisites and restrictions may be applicable under this Regulation.

**Substitutions**
7. (1) A candidate for this Degree who has been credited for another Degree with any paper prescribed for the First or the Second Property Administration Examination (including any paper substantially the same) — shall substitute for each paper so credited such additional paper or papers (in Part B of that Examination) as the Head of Department may approve and as may be equivalent to it in credits.

(2) For the purpose of this Regulation —
(a) A paper in the Faculty of Arts or Commerce at 100 level shall count for 5 credits; above 100 level, 4 credits;
(b) Science credits shall count for the same number of credits for this Degree; and
School of Architecture, Degree Regulations, BPA, MArch

(c) The credits for any paper taken in any other Faculty shall be determined by the Head of Department.

Exemption
8. Subject to the Admission Regulations, a candidate who being a graduate of any New Zealand University has passed at least three papers (at least two of which shall not be elective papers) meeting the requirements of Regulation 3 shall —
   (a) be exempted from the Intermediate Examination except for Paper 37.100;
   (b) take Paper 37.100 as a required paper in Part B of the First Property Administration Examination; and
   (c) pursue a course of study of not less than two years.
9. These Regulations shall come into force on 1 January 1984.

Note: Subjects listed in the Schedule of Special Topics in Part B of the Second Property Administration Examination will be taught only if sufficient staff are available and if enrolments are adequate to warrant teaching the subject.

THE DEGREE OF MASTER OF ARCHITECTURE
MArch
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Regulations, a candidate for the Degree of Master of Architecture shall before enrolment for this Degree
   (a) have been admitted or qualified for admission to the Degree of Bachelor of Architecture, or
   (b) (i) have been awarded or qualified for the award of the Diploma in Architecture, and
      (ii) satisfy the Senate that he or she is qualified to pursue the course for the degree by reason of professional work or by reason of having pursued a further course of study or investigation since qualifying for the award of the Diploma, provided that the Senate may in addition require a person seeking enrolment under this provision to pass a special examination.
2. A candidate for the Degree of Master of Architecture shall
   (a) (i) follow a course of full-time study of not less than one year, or
      (ii) follow a course of part-time study of not fewer than two years;
   provided that such full-time or part-time study may be carried out in an approved institution outside the University for such period or periods as may be determined by the Senate from time to time, and
   (b) submit a thesis, and
   (c) except as provided in Regulation 6, pass a written examination.
3. The following conditions shall apply to the preparation and presentation of the thesis (15.601):
   (a) the thesis shall embody the results obtained by the candidate of an original investigation or design or advanced study relative to Architecture. Its title and an outline of the proposed work shall be submitted to the Faculty of Architecture, Property and Planning for approval not later than 1 February of the year in which the candidate enrolls provided that approval may be given to a title and outline submitted or resubmitted not later than 31 March of that year. The work shall be carried out solely by the candidate under the supervision of a Supervisor appointed by the Senate from the School of Architecture.
   (b) The candidate shall submit the thesis, accompanied by a certificate from the Supervisor stating that the work has been carried out wholly by the candidate under his or her supervision, to the Registrar not later than 1 November in the year in which it is presented, or at a subsequent date if so arranged with the Dean of the Faculty of Architecture, Property and Planning. The Registrar shall hand the thesis to the Dean of the Faculty of Architecture, Property and Planning.
   (c) If the Examiner with the concurrence of the Assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it at a later date, to be specified by the Examiner. A thesis that has been submitted twice may not be submitted for a third time.
   Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 15.
4. (a) A candidate who has not been exempted from presenting the written examination shall take such examination not later than in the fourth year after enrolling for the degree.
   (b) Every candidate shall submit the thesis by 1 November of the fourth year after enrolment for the degree, provided that this period may in special cases be extended by the Senate.
5. Except as provided in Regulation 6 a candidate shall be required to pass in one of the following subjects:
   (1) 15.502 Building Science
   (2) 15.503 Design Theory
   (3) 15.506 Practice and Law
6. Each candidate will be advised on enrolment whether or not a written examination will be required, provided that, if exemption is granted and if the thesis when presented is not considered to be satisfactory, a candidate may be required either to: (a) pass the written examination, or (b) pass the written examination in addition to resubmitting the thesis.

7. Where a candidate has been required to take the written examination the Senate shall take into consideration the combined results of the thesis and the written examination in recommending a candidate for admission to the Degree of Master of Architecture.

THE DEGREE OF MASTER OF PROPERTY ADMINISTRATION

MPA

The personal course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. (1) Subject to the Admission Regulations, a candidate for the Degree of Master of Property Administration shall before enrolment for this degree

   (a) have been admitted or qualified for admission to the Degree of Bachelor of Property Administration and have:

      (i) attained an average grade of B- or higher in the course of study for that Degree; or
      (ii) had at least two years’ relevant postgraduate experience in the field of study for this Degree; or
      (iii) otherwise shown to the satisfaction of the Head of Department capacity to undertake advanced study and research in the subjects proposed to be taken for this Degree; or

   (b) have been awarded the Diploma in Valuation with Honours and have completed two papers at 200 level or higher from those available for Part B of the First or Second Property Administration Examination; or

   (c) have been awarded the Diploma in Valuation at a standard acceptable to the Head of Department, have had at least two years’ relevant postgraduate experience in the field of study for this Degree, and have completed two papers at 200 level or higher and two papers at 300 level from those available for Part B of the First or Second Property Administration Examination.

   (2) Where the Head of Department so recommends, the Senate may approve the enrolment for this Degree of a candidate who has (with or without Honours) completed the Diploma in Valuation or in exceptional circumstances the Diploma in Urban Valuation; and who has, through other university study, through relevant practical experience, or otherwise, shown capacity to undertake advanced study and research in the subjects proposed to be taken for this Degree.

Course Content

2. Every candidate for this Degree shall:

   (i) in one year take the examinations in four of the papers prescribed in Regulation 3 of these Regulations, except that a candidate who provides evidence of being engaged in full time employment may be permitted by the Head of Department to present two papers in the first year and two in the second year; and
   (ii) present a thesis (37.601) under the conditions prescribed in Regulation 4.

Papers

3. The papers for this Degree are such of the following as are from time to time offered:

   37.401 Building Construction
   37.402 Land Administration
   37.403 Property Law
   37.404 Urban Land and Building Economics
   37.405 Valuation
   37.406 Appraisal
   37.407 Real Estate Financing
   37.408 Property Marketing
   37.409 Building Restoration
   37.410 Construction Management
   and not more than two from

   (i) the following papers

   Economics

   13.404 Development and Planning
   13.408 Urban Economics

1988 Calendar
The thesis shall be of the value of three papers, and shall embody the results obtained by the candidate in an investigation relating to some aspect of Property Administration.

(b) A candidate shall present the thesis in the year in which the last papers are taken, or in a subsequent year within three years of the year in which the candidate was first enrolled; but this period may in exceptional circumstances be extended by the Senate.

(c) The candidate shall deliver the thesis to the Registrar by 1 November of the year in which it is presented or at a later date with the permission of the Head of Department.

(d) Where a candidate submits a thesis which is of inadequate standard on first submission, the Senate may on the recommendation of the examiners permit the candidate to revise it and resubmit it at a later date specified by the examiners.

Honours

5. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.

(b) Where (i) on first examination, a candidate fails a paper; or

(ii) on first submission, a candidate’s thesis is of inadequate standard,

Honours shall not be awarded: but a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances (certified as under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so as to be still eligible for the award for Honours subject to the provisions of paragraph (c) of this Regulation.

(c) A candidate shall be eligible for the award of Honours only if the requirements for Honours are completed within three years of the candidate’s first enrolment for this Degree; but this period may in exceptional circumstances be extended by the Senate.

6. These Regulations shall come into force on 1 January 1986.

JOINT SPECIAL EXAMINATION OF NZIA AND AERB

Note: These regulations are prescribed by the Council of the New Zealand Institute of Architects and administered by a Special Examination Committee representing both the NZIA and the Architects Education and Registration Board.

The Joint Special Examination is recognised by the AERB as a qualification for registration (see AERB ordinances).

Persons who complete the Joint Special Examination are required to make separate application for registration to the AERB in accordance with the Board’s ordinances, and are required to attend the Board’s professional interview.

The Joint Special Examination is recognised by the NZIA for unclassified corporate membership. Registration is a prerequisite for corporate membership as an Associate.

1. Persons who fulfil the conditions set out in Clause 2 or Clause 3 may apply to the Special Examination Committee for admission to this Examination.

2. The Committee will consider applicants who:

(a) hold an overseas qualification acceptable in the country in which it was obtained as being of professional standard in architecture;

(b) make application on the form provided;

(c) provide documentary evidence of the qualification obtained, including where possible details of the course prescriptions and grades obtained;

(d) provide details of their experience and examples of their work, together with suitable corroborative evidence. The extent of the applicant’s personal involvement in the preparation of the material shall be certified by affidavit;
School of Architecture, Degree Regulations, NZIA & AERB Special Exams, Degree Prescriptions, BArch  325

(e) provide a written report, thesis, review or article, the sole work of the applicant, on some architectural or related topic, as an indication of the candidate's ability to study or analyse a topic and write clearly upon it.

3. The Committee will consider applicants who:
   (a) by their work have demonstrated a level of achievement worthy of an architect;
   (b) are not less than 35 years of age and have not less than 10 years' suitable architectural experience;
   (c) make application on the form provided;
   (d) provide details of their experience and examples of their work, together with suitable corroborative evidence. The extent of the applicant's personal involvement in the preparation of the material shall be certified by affidavit;
   (e) provide a written report, thesis, review or article, the sole work of the applicant, on some architectural or related topic, as an indication of the candidate's ability to study or analyse a topic and write clearly upon it;
   (f) provide evidence of age;
   (g) provide statements from at least three registered architects attesting to the applicant's experience, achievements and suitability for the profession;
   (h) provide any further information that may be requested by the Committee.

4. A fee shall be paid by the applicant to the NZIA upon making formal application to the Examination, as follows:
   (a) For overseas candidates under clause 2, $100.00.
   (b) For New Zealand resident candidates under clause 3, $300.00.
   This fee is not refundable.

5. Each applicant shall be interviewed by the Committee or by a Sub-Committee comprising at least two members thereof.

6. Following such interview, the Committee shall admit applicants to the Examination or refuse admission at its discretion.

7. On admitting a candidate to the Examination the Committee:
   (i) shall require the candidate to pass a written examination in professional practice as set out in Clause 8, provided that where the Committee is satisfied that the candidate has passed an approved written examination in professional practice the candidate may be exempted from this requirement; and
   (ii) may at its discretion require the candidate to pass any other subject or subjects prescribed for a recognised qualification in architecture in New Zealand, and
   (iii) shall require of the candidate such further period of approved practical experience (up to 140 weeks from the date of application) as it sees fit.

8. The following examinations are recognised by the Committee for the purposes of Clause 7(i):
   (i) 15.418 Professional Practice 2 and 15.421 Building Law, as conducted for the BArch Degree of the University of Auckland (may be taken extramurally by candidates outside Auckland); or
   (ii) ARCH 361 Professional Practice and ARCH 362 Professional Practice, as conducted for the BArch Degree of the Victoria University of Wellington.

9. On passing the required subjects and satisfying the Committee that any further period of required practical experience has been satisfactorily completed, the candidate shall be entitled to a Certificate stating that he or she has completed the requirements of the Joint Special Examination.

10. On refusing admission to the Examination the Committee shall advise the applicant in writing of reasons for its decision. The Committee will consider a further application after not less than three years from the date of the previous application.

11. Application forms for admission to the Examination may be obtained from the Chief Executive, NZIA, PO Box 438, Wellington, or from the Secretary, Joint NZIA/AERB Special Examination Committee, School of Architecture, University of Auckland, Private Bag, Auckland.

12. These Regulations shall come into effect on 1 January 1987.

**DEGREE COURSE PRESCRIPTIONS**

**PRESCRIPTIONS FOR BArch**
The prescriptions for the subjects named in the preceding Regulations for BArch are listed below.

**Architecture Intermediate**

**Folder of Work**
A paper detailing requirements for the folder of work may be obtained from the Administration Officer at the School of Architecture.

**Professional Years**

**15.101 Studio 1**
A course of study and practice in Architectural Design in the studios and laboratories of the School of Architecture, with related lectures and seminars. Its scope includes the development of architectural skill.

1988 Calendar
and understanding and the co-ordination of subject matter of the course.

15.201 Studio 2 Advanced
15.301 Studio 3 stages of the
15.401 Studio 4 work in
15.402 Studio 4 Extended Studio 1
15.111 Architectural Design 1

Introductory consideration of the main aspects of architecture, design processes, methods, and notation systems. Formal aspects of architectural space, and human living. Intention, meaning, and imagery in architecture. Philosophical directions.

15.112 People-Environment Studies 1

An introduction to physical, social and cultural aspects of people's relation to the natural and built environment.

15.113 Construction 1

Principles of Building Construction, material studies, building services.

15.114 Environmental Control 1

Climate, human and energy considerations in buildings. Introduction to psychophysics, including lighting and vision, hearing and noise control, thermal comfort and ventilation.

15.115 Structure 1

A study of movement through space — material constraint on such freedom; material organisation to define and preserve three dimensional form, particularly for human habitation. Joints categorised in terms of release. Practical examples throughout, mostly small and familiar constructions. Structography is introduced as a means of communicating structural intention. Emphasis is on observing existing structure.

15.116 Drawing 1

A study of the relationship between drawing and architectural form. Freehand and instrumental drawing. Basic descriptive geometry and conventional projections.

15.121 Western Architecture 1

An examination of western architecture together with relevant theory and criticism, from the early Middle Ages to the Renaissance.

15.211 Architectural Design 2

15.212 People-Environment Studies 2

Human factors in environmental design. Environmental perception, cognition and meaning. Social interaction and the environment. An introduction to current environmental research methods and findings with conclusions for architectural theory.

15.213 Construction 2

15.214 Environmental Control 2

An architectural approach to room acoustics, daylighting and artificial lighting. Principles of energy conservation and energy-conscious design of buildings.

15.215 Structure 2

Emphasis is on design and therefore on devising structure. Particular consideration is given to seismic demands, and the various building configurations which do this most effectively. Case studies are given in detail, at which stage consideration of secondary structure and seismic release is made.

15.216 Drawing 2

Selected freehand techniques; instrumental drawing; advanced descriptive geometry; perspective, structography. Life drawing. Studio related, commercial rendering, and communication techniques.

15.218 Professional Practice 1

The architectural profession in New Zealand. Historical background and controlling legislation. Codes of professional practice.

15.311 Architectural Design 3

15.314 Construction 3

Multi-storey construction methods, techniques, services and their integration as determinants of architectural form.

15.319 Building Economics

15.320 Contract Documentation

Preparation of documentation at all stages of architectural service; briefs, feasibility studies, reports, working drawings, certification; developments in this area. Principles and practice involved in the preparation of specifications, interpretation; performance specifications. Computer assistance in documentation.

15.418 Professional Practice 2

15.421 Building Law

Aspects of law as they affect the practice of architecture, building, land and related property.

15.117 20th Century Architecture

Description of principal architectural movements and
School of Architecture, Degree Prescriptions, BArch

personalities of contemporary architecture from c. 1900 to c. 1970.

15.120 History of Building Technology
Macrohistory of science and technology from Catal Huyuk to present as the setting for study of history of building technology. Process of innovation and substitution as major formative force in human history. Long range modelling of alternative futures as framework for policy. Limits to growth; sustainability, low impact options. Possible future settlement patterns.

15.122 Western Architecture 2
An examination of Western architecture together with relevant theory and criticism, from the Renaissance to the Enlightenment.

15.134 History of Building
Studies in the development of built environment in settlements, buildings and technology.

15.137 Medieval Architecture
Characteristic medieval architectural forms in their setting and context.

15.138 Oceanic Architecture
A study of the indigenous architecture of the Pacific Ocean region. The main emphasis is on Polynesia, with the architecture of New Zealand studied in depth, and is extended to Melanesia and Micronesia and comparisons made with the traditional architecture of Asia.

15.221 Introduction to Computing
An introduction to computer applications in architecture. Word processing, spread sheets, thermal calculations, etc.

15.222 Computer Graphics
Applications in computer aided draughting (CAD) and 3-dimensional modelling techniques.

15.223 Beginnings of Modern Architecture
An examination of selected architectural works, writings and philosophies that contributed to the development of modern architecture.

15.315 Structure 3
Content influenced by student requirements. The areas encouraged are: mathematical modelling of structure by computer; laboratory testing of structural systems; study of structural design codes; extension of Structographic analysis.

15.317 Domestic Design
A study of activity relationships within the house and its location within the natural environment landscape, with emphasis on the quality of life.

15.322 Advanced Design Methods
A study of techniques for problem stating, survey, analysis, production of alternatives, evaluation and testing, plus critical path analysis techniques and a look at some strategies.

15.324 Architectural Aesthetics
Discussion of aesthetic principles as they relate to the visual arts, especially to architecture and to individual experience, and to architectural design. Further development of architectural form perception.

15.325 History of Architectural Theory
History of western architectural theories from Greek to modern times.

15.331 Town Planning

15.333 New Zealand Architecture
Studies in Architecture in New Zealand with reference to historical influences and particular developments.

15.334 Contemporary Architecture
Critical discussions and lectures on world architecture post-1970 and New Zealand post-war. Study of popular architecture in New Zealand.

15.338 Commercial Practice & Management
A general appreciation of the principles and practice of accounting and commercial practice relevant to the practice of architecture. Management theory organisation; administration, production, distribution and control aspects; economic, financial and investment theories and techniques.

15.339 Cost Control
Cost planning and control in relation to the design team and design process. Economic feasibility. Cost in use studies. The quantity surveyor. Pricing.

15.340 Sound
A consolidation of the material previewed in the Environmental Control subjects on acoustics and noise control, i.e. the origins, behaviour, description and measurement of sound, and the elements of noise control, room acoustics and the hearing process.

15.342 People-Environment Studies 3
Further investigation of the principles from the behavioural sciences related to the use, perception, evaluation, research and design of the built environment. Statistical analysis of findings and theories about human response, preferences and behaviour in environmental settings.

15.343 Energy Efficient Design
Heating, cooling, lighting and ventilation of buildings using natural ambient energy (sun and wind).

15.344 Audio Systems Design
An introduction to the design of sound systems for use in auditoria and theatres.

15.345 Construction Management
Introduction to quantitative techniques in management of construction projects.

15.346 Timber Technology
Rationalisation of timber performance in structure, and discussion of engineering use including both current and predicted techniques.

15.351 Lighting
Advanced studies in natural and artificial lighting in buildings.
15.357 Urban Design
Focuses on urban design theory and practice, with particular emphasis on design of space between buildings, and strategies for implementation of design schemes.

15.410 Presentation Elective
Individual project requiring the presentation of a research report or design project to a public seminar.

15.411 Publication Elective
Individual project requiring the preparation of a research report or design project in a form suitable for publication in an approved journal.

15.412 People-Environment Elective
A fourth year Studio project emphasising theory and techniques from People-Environment Studies in its concept, synthesis and evaluation.

15.413 Industrialised Building
Methods of building construction, conventional and unconventional. Site organisation, office, labour, plant and materials handling.

15.426 Design Theory Elective
A critical investigation of the processes followed and/or an appraisal of the decisions reached in the briefing, design and development of either an actual building project, or a studio design project. This work may support further work for the 4th year thesis.

15.428 Practice Elective
Individual project in Professional Practice.

15.439 Acoustics
Advanced studies in room acoustics. Control of reverberation, electronic assistance of reverberation, theory and measurements for reflection masking and integration, application in design, acoustical models, mathematical models of rooms.

15.444 Noise Control
Advanced studies in noise control. Mathematical treatment of theory.

15.445 Construction Management Elective
Individual project in Construction Management.

15.447 Energy Efficient Design Elective
Individual project in Energy Efficient Design.

15.513 Construction Elective
A field survey and report on an agreed topic related to advanced Construction.

15.519 Building Economics Elective
Individual project in Building Economics.

15.540 Acoustics Elective
Individual project in Acoustics.

15.542 Noise Control Elective
Individual project in Noise Control.

15.160-15.169 Special Topics
15.260-15.269 Special Topics
15.360-15.369 Special Topics
15.170-15.189 Special Topics
15.270-15.289 Special Topics
15.370-15.389 Special Topics
15.390-15.399 Special Topics

Courses which may be taught in any year, on topics in architecture; the availability, content, prerequisites and corequisites to be determined each year by the Head of the School of Architecture.

Some special topics which are offered regularly are:

15.260 Ergonomics
The limitations and capacities of people as applied to the design of buildings, equipment, and the environment.

15.271 Measured Drawings
Techniques involving measurement, photography, collation, filing/recording, drawing skills, and other related techniques.

15.272 The Human Figure in Architecture
Study of the human figure, in movement and at rest, singly and in small and large groups, in relation to architecture and landscape.

15.385 Introduction to Landscape
Introduction to natural landscape, ecology, landscape design, to provide a basis for formulating individual philosophy and direction in designing in a wider context.

PRESCRIPTIONS FOR BPA
Prescriptions for the subjects named in the preceding Regulations for BPA are given below:

37.100 Introduction to Property

37.200 Principles of Valuation
Valuation methodologies and processes in relation to land and improvements. Valuation of income producing properties. The effect of the legal estate on values.

37.210 Principles of Land Administration

37.202 Property Law 1
The legal system; central and local government. The law relating to real property. Legal personality.

37.203 Residential Construction

37.204 Financial Appraisal

37.205 Land Use Planning
Planning practice in New Zealand. An examination of
planning techniques, the statutory planning process and the effect of planning on property rights and values. An evaluation of selected current planning issues.

37.209 Building Economics
Micro economic criteria for development and investment decisions. The mathematics of the time value of money in property, project and finance evaluations. Interest tables, DCF, inflation.

37.206 Building Technology

37.300 Advanced Valuation

37.310 Advanced Land Administration

37.302 Property Law 2

37.303 Commercial Construction
The construction of large and high rise buildings. Building, earthquake and health regulations. Building services and service contracts. Programmed and remedial maintenance.

37.304 Advanced Financial Appraisal
Business structures. Taxation of property and property ownership. Valuation of going concerns.

37.305 Urban Land Economics
The economics of urbanisation. Theories of urban structure. The urban land market. Role of the financial institutions. Economic aspects of urban valuation.

37.306 Building Contracts

37.312 Research Project
The topic for research must be approved by the Head of the School. The essay (or equivalent written work) must embody the results of an individual investigation into a property-related field, urban or rural, and must be the sole work of the student. The essay, which will count as one paper, must be of the order of 5,000 words (or equivalent) in length and must be submitted in the style and form required.

37.321 Development Process

37.322 Real Estate Markets
An exploration of the urban and rural property market and sub-markets. Price and value. Financial performance indices. Real estate cycles.

37.323 Introduction to Rural Valuation & Management

37.324 Project Management

37.325 Property Finance
The national and international money market. The financial intermediaries. Source of finance for property construction, development and investment and for tourist facilities. Economic factors and government policies.

37.326 Land Subdivision

PREScriptions FOR MPA
The prescriptions for the subjects named in the preceding Regulations for MPA are listed as follows:

37.401 Building Construction
Advanced studies in methods of construction, materials used, and services included with reference to issues such as long term maintenance, energy management.

37.402 Land Administration
Advanced studies in land economy and property management from national, regional and local viewpoints, including traditional and alternative land tenure systems and philosophies.

37.403 Property Law
Selected aspects of the law relating to property ownership, contractual relationships, leasing, development agreements and marketing contracts.

37.404 Urban Land and Building Economics
Advanced studies in the economic systems of the built environment.

37.405 Valuation
Advanced valuation techniques including investment appraisal, computerised valuation methods and overseas alternatives used in commercial and financial studies.

37.406 Appraisal
The study of the role of advanced analytical tech-
niques in valuation, development and property management.

37.407 Real Estate Financing
Directed readings on advanced real estate financing techniques. Consideration of legal and taxation implications. The role of joint ventures.

37.408 Property Marketing
Marketing principles and methods. The presentation of real estate proposals for sale, lease, development, investment, consultancy. Market research. Professional services in the integrated firm.

37.409 Building Restoration
Studies of recent New Zealand and overseas examples in terms of marketability, economics, controls and tenant perceptions. Specific guidelines for particular project types will be developed.

37.410 Construction Management
A critical assessment of local project management experiences in terms of timing, framework and professional skills involved. Future directions, along with present deficiencies, will be discussed.
DEGREE COURSE REGULATIONS

DEPARTMENT OF PLANNING
THE DEGREE OF BACHELOR OF PLANNING

BPlan

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. (a) Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Planning shall
(i) pursue a course of study for a period of not less than four years;
(ii) pass an Intermediate Examination and three Professional Examinations.
(b) Except with the permission of the Senate no candidate for this Degree shall take in anyone year more than 44 credits or their equivalent under Regulation 8(c).

Examinations
2. (a) A candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination so that the candidate’s performance in all papers of the Examination shall be considered; but
(i) Where a candidate fails to pass a Professional Examination as a whole the candidate may at the discretion of the Senate be credited with a paper or papers of that Examination, and be permitted in a subsequent year to present the paper or papers not so credited, together with a paper or papers of the Second, or Third Professional Examination as the case may be;
(ii) a candidate who has not passed or been exempted from the Intermediate Examination but has passed 6 papers of that Examination (including all of the papers required by subparagraphs (i), (ii), and (iii) of paragraph (a) of Regulation 3) may enrol for a paper or papers of the First Professional Examination as well as the remaining paper of the Intermediate Examination.
(b) A candidate whose course in any year consists of more or less papers than a full Examination or whose course is taken from more than one Examination shall have his or her performance in all papers taken in that year considered as a whole.

Intermediate Examination
3. (a) Subject to paragraph (b) of this Regulation, the Intermediate Examination shall consist of seven papers comprising:
(i) One paper from:
(ii) Geography 20.101 and 20.102
(iii) Economics 13.100 and 13.101
(iv) Two other papers as listed for the Degree of Bachelor of Arts, or the equivalent from any subjects prescribed for any other degree; but subject in any case to the approval of the Head of the Department.
(b) (i) A candidate who has gained not less than 50 marks in a University Bursaries Examination paper in mathematics which includes statistics may take an additional paper under subparagraph (iv) of paragraph (a) of this Regulation instead of the paper required under subparagraph (i) of that paragraph.
(ii) The Head of the Department may in exceptional circumstances approve the substitution for any of the papers listed in subparagraphs (i) to (iv) of paragraph (a) of this Regulation of any other paper or equivalent credits from any subjects prescribed for any other degree.
(c) A candidate may, with the approval of the Senate, be exempted from the requirements of the Intermediate Examination in any of the following cases:
(i) Subject to Regulation 7 of these Regulations, where the candidate is a graduate of any university;
(ii) where the candidate has passed the First Professional Examination for Bachelor of Architecture, Bachelor of Engineering or Bachelor of Property Administration, or the First Law Examination for Bachelor of Laws or Bachelor of Laws (Honours); or the first professional year for a similar degree of another New Zealand university;
(iii) where the candidate has qualified with outstanding merit for the New Zealand Certificate in Draughting (Town and Country Planning) or the New Zealand Certificate in Town Planning;
(iv) where the candidate holds a professional qualification in Architecture, Engineering, Surveying, or Town Planning, or has been awarded or qualified for the award of a Diploma in Architecture or Surveying or Valuation: but any candidate so exempted under any of the foregoing subparagraphs (i) to (iv) of this paragraph

1988 Calendar
may be required to take up to 6 additional credits as part of each of the First and Second Professional Examinations, if the Head of Department determines that the candidate has inadequate background in areas covered by the Intermediate Examination.

**THE DEGREE OF MASTER OF PLANNING**

**MPlan**

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

**General Provisions**

1. Subject to the Admission Regulations, a candidate for the Degree of Master of Planning shall before enrolment:

(a) have been admitted or qualified for admission to the Degree of Bachelor of Planning, and
(b) have obtained, in the opinion of the Head of the Department, a sufficiently high standard in Part A of the Third Professional Examination, with no paper graded lower than C.

2. Except as provided elsewhere in these Regulations a candidate shall take all papers required for this Degree in the same year. A candidate who is engaged in full-time employment, or with other demanding responsibilities, may be permitted by the Head of the Department to present three or four papers in the first year, or in special circumstances two papers in the first year; and shall present all papers within three years of first enrolment for the Degree.

3. No candidate shall take for this Degree any paper that is the same or substantially equivalent to any other paper being taken or already passed and obtain credit for both for this Degree.

Course Content

4. Every candidate for the Degree of Master of Planning shall be required to pass in five papers and a research essay (36.603) which shall count as one paper; or four papers and a thesis (36.601) which shall count as two papers. At least two papers and the Thesis or three papers and the research essay shall be chosen from Part A; not more than two papers can be chosen from Part B.

PART A

36.500 Planning Theory
36.501 Planning Techniques
36.502 Planning Law and Administration
36.503-512 Special Topics approved by the Head of Department of Planning
36.601 Thesis
36.603 Research Essay

PART B

52.491 Public Health Engineering Seminar (as prescribed for the Degree of ME)
52.473 Transportation Planning (as prescribed for the Degree of ME)
20.436 Urban Geography (as prescribed for the Degree of MA)
30.402 A topic on Urban Government and Politics (as prescribed for the subject Political Studies for the Degree of MA)
82.406 Urban Sociology and Ecology (as prescribed for the subject Sociology for the Degree of MA)
25.383 Social Control of Land (as prescribed for the Degree of LLB (Hons))
15.503 Design Theory (as prescribed for the Degree of MArch) provided that the Head of the Department of Planning approves the relevance of paper 15.503 to the subject of investigation for the thesis before a candidate may enrol in that paper.

Thesis

5. Where a thesis (36.601) is required the following conditions shall apply:
(a) the thesis shall embody the results obtained by the candidate in an investigation in some branch of Planning.
(b) A candidate shall present the thesis in the final year in which the papers are taken or within the next three years, provided that the time may be extended in exceptional cases by the Senate.
(c) If the examiner with the concurrence of the assessor so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to resubmit it by a later date to be specified by the examiner.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 15.

Honours

6.(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory; provided that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his or her control (certified as under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so as to be still eligible for the award of Honours, subject to the provisions of paragraph (c) of this Regulation.
(c) A candidate shall be eligible for the award of Honours only if the requirements for Honours are completed within three years of his first enrolment for this Degree.

7. These Regulations shall come into force on 1 January 1988.

Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. (a) Subject to the Admission Regulations and except as otherwise provided in these Regulations, a candidate for the Degree of Bachelor of Engineering shall be required to
(i) pursue a Course of study of not less than four years, and
(ii) pass an Intermediate Examination and the three Professional Examinations, and
(iii) perform Practical Work to the satisfaction of the Faculty of Engineering, and
(iv) perform Laboratory and Field Work to the satisfaction of the Faculty of Engineering.
(b) Except as otherwise provided in this paragraph, a candidate shall be required to pass as a whole the Intermediate Examination and each Professional Examination (including an Examination under Regulation 5); so that the candidate's performance in all subjects of the Examination shall be taken into consideration. A candidate who has failed to pass any Examination as a whole may, at the discretion of the Senate, be credited with a paper or papers forming part of that Examination; and may in a subsequent year take the remaining papers of that Examination together (subject to Regulation 9) with such papers of the succeeding Examination, if any, as the Senate may permit. The candidate shall then be required to pass a composite Examination under the same conditions as those in this paragraph.

Honours

2. The Degree of Bachelor of Engineering may be awarded with or without Honours according to the standard of the candidate's work. There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in either First Division or Second Division.

Concessions

3. (a) A candidate who has been credited for the Degree of Bachelor of Science with any papers for the Intermediate Examination or with any of the substitute papers authorised by paragraph (b) of this Regulation, shall be credited with them for the purpose of this Degree also.
(b) For the purpose of this Regulation only
(i) two of the papers Chemistry 08.210, 08.220 and 08.230 may be substituted for Chemistry 08.111 and 08.121
(ii) Stage II Physics papers totalling 6 credits may be substituted for each of the papers Physics 31.140 and 150
(iii) Stage II Pure Mathematics papers totalling 6 credits may be substituted for each of the papers Mathematics 26.120 and 140
(iv) Stage II or Stage III Applied Mathematics papers totalling 6 credits may be substituted for Engineering Mechanics 55.001.

4. (a) The Senate may exempt from the Intermediate Examination a candidate
(i) who has reached a satisfactory standard in the Entrance Scholarships Examination, if the subjects the candidate has taken include Chemistry, Physics, Pure Mathematics and Applied Mathematics or
(ii) who has reached an exceptional standard in the Entrance Scholarships Examination, if the subjects taken include Chemistry, Physics and Pure Mathematics.
(b) The Senate may permit a candidate who has gained a pass in the Universities Bursaries Examination to substitute papers totalling or equivalent to 12 credits for the papers of the Intermediate Examination which relate to one subject of the Bursary Examination in which he or she attained a standard of achievement approved by the Senate. But substitution for Engineering Mechanics shall not be permitted.

5. A candidate for this Degree who
(i) has qualified for the award of the Degree of Bachelor of Science or
(ii) has completed within two years the examination requirements for the award of the Degree of Bachelor of Science or
(iii) was permitted to enrol for Stage II or Stage III papers in a subject without first presenting that subject at Stage I and who, if the Stage I papers not taken were included, would have qualified within two years for the Degree of Bachelor of Science, shall be required to pursue a Course of study for a period of not less than two years in such papers for the Degree as the Senate may prescribe and to pass Examinations in each year in the papers so prescribed for that year; and the following provisions shall apply:
(a) The Examination for the first year shall be such that the amount of necessary study shall be substantially the
same as for the Second Professional Examination;
(b) All the papers of the Third Professional Examination shall be included in the candidate's Course of study but none such in the first year;
(c) The candidate shall be exempt from the papers of the Intermediate Examination and from such other papers of the Degree as are not prescribed under this Regulation.
6. (a) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate in Engineering, and who has completed the practical requirements for the award of that Certificate, may be exempted by the Senate from the Intermediate Examination and the First Professional Examination or from such papers of those examinations as the Senate thinks fit.
(b) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate in Science (Metallurgy) or (Chemistry), and who has completed the practical requirements for the award of that Certificate, may for the Courses in Chemical and Materials Engineering and Metallurgical and Materials Engineering be exempted by the Senate from the Intermediate Examination and the First Professional Examination or from such papers of those examinations as the Senate thinks fit.
(c) A candidate who has by examination qualified with outstanding merit for the New Zealand Certificate in Science (Physics) in the Applied Electronics option, and who has completed the practical requirements for the award of that Certificate, may for the Course in Electrical and Electronic Engineering be exempted from the Intermediate Examination and the First Professional Examination or from such papers of those examinations as the Senate thinks fit.

Practical Work
7. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Practical Work.

Laboratory and Field Work
8. A candidate shall not be admitted to the Degree unless the Registrar has received from the Dean of the Faculty of Engineering a certificate that the candidate has complied with the requirements of the Faculty as to Laboratory and Field Work.

Prerequisites
9. No candidate may enrol (a) for any paper of the First Professional Examination without having completed the whole of the Intermediate Examination;
(b) for any paper of the Third Professional Examination without having completed the whole of the First Professional Examination.

Elective Papers
10. (a) The Third Professional Examination shall include elective papers where specified in Regulation 13.
(b) A candidate's choice of elective papers shall require approval by the Senate.
(c) An elective paper chosen from another degree course shall be of an appropriate weight and academic level. The syllabus for it shall not be the same as or substantially overlap that of any other paper in the candidate's course.

Note: (i) Approval of a candidate's choice of elective papers will generally depend on the compatibility of the chosen papers with the candidate's personal aptitudes and interests, their mutual compatibility and the coherence of the proposed course as a whole. There should be no timetable conflict in the proposed course.
(ii) An elective paper in this Degree course will be considered equivalent to one Stage II or Stage III paper from the BA or BCom schedules or to 3 credits from Stage II or Stage III papers of the BSc schedule or to 4 credits from subjects of the Third or Fourth Professional Examinations of the BArch Degree course.

Approval of Courses
11. (a) The personal Course of study of every candidate shall require the approval of the Senate.
(b) The Senate may delegate to the Faculty the power to approve personal Courses of study and also the discretionary powers conferred in Regulations 4, 5, 6 and 10 of these Regulations.
(c) The Senate may in such special circumstances as it thinks fit approve a personal Course of study which does not conform to these Regulations.

Professional Courses
12. The candidate shall follow one of the following professional courses:
Chemical and Materials Engineering
Civil Engineering
Electrical and Electronic Engineering
Engineering Science
Mechanical Engineering
Metallurgical and Materials Engineering
Mineral Process Engineering
Mining Engineering
13. The papers for this Degree are:-

Savings and Transitional Provisions

14. These Regulations shall govern the course of every candidate; but any candidate whose course was begun under the Regulations set forth in the University of Auckland Calendar for 1981 shall be credited for the purpose of these present Regulations with such papers as the Senate may determine.

THE DEGREE OF MASTER OF ENGINEERING ME

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Master of Engineering shall
   (a) before enrolment for this Degree have been admitted or qualified for admission to the Degree of Bachelor of Engineering, and
   (b) follow a Course of study of not less than one year.

2. Every candidate for this Degree shall
   (a) pass in each of eight papers where those papers do not include Project D, or
   (b) pass in Project D and six other papers, or
   (c)(i) pass in each of three papers, and
   (ii) pass in respect of a thesis (which shall count as equivalent to five papers).

Papers

3. The following conditions shall apply to the choice of papers
   (a) Every candidate shall choose papers in consultation with the Head of his or her Department from those listed in clause (b) of this Regulation; provided that no paper that has been credited to another degree shall be taken for this Degree.
   (b) The papers of examination for the Degree are:
      (i) 50.401 Project A
      50.411 Project B
      50.421 Project C
      50.431 Project D (value 2 papers)

(ii) those papers approved by the Head of Department from any of those offered at Third Professional level for the BE Degree.

(iii) Subject to the permission of the Heads of Departments concerned, one or two papers chosen from those offered in any other Faculty at the final-year undergraduate level or the Master's level provided
(a) that prerequisite and timetabling requirements can be met, and
(b) that the syllabus is not the same as or substantially overlapping with any paper prescribed for this Degree, and
(c) that the paper has a weight not less than that of an Engineering paper.

Project Work
4. (a) No candidate shall take
(i) Project A, B, C or D if he or she submits a thesis for this Degree;
(ii) more than one of the Projects A, B or C, if Project D is also taken.

(b) A candidate who takes Project D must submit the project report not later than twelve months after enrolment for this project provided that the Senate may, in exceptional circumstances, extend this period.

(c) A candidate who takes Project A, B or C must submit the project report on the last day of the period in which the project is taken provided that the Senate may, in exceptional circumstances, extend this period.

Thesis
5. The following conditions shall apply to the thesis (50.601):
(a) The thesis shall embody the results obtained by the candidate in an investigation in a subject approved by the Head of the Department.

(b) The investigation shall be carried out personally by the candidate at the University under the direct supervision of a member of the academic staff; provided that
(i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as may be determined from time to time by the Senate;
(ii) field work may be carried out at such places and for such periods as the Senate may determine.
(c)(i) The supervisor shall be the principal examiner.
(ii) The Senate acting on the advice of the Head of the Department shall appoint either an external assessor or a second internal examiner.

(d) At the discretion of the Head of the Department the candidate may be required to attend an oral examination on the subject of the thesis, which shall take place within four weeks of the date on which the thesis was
submitted, or within such longer period as the Senate may in special circumstances approve.

(e) If the supervisor with the consent of the assessor or second examiner as the case may be so recommends, a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.

(f) A candidate shall present the thesis not later than 18 months, or if he or she is a part-time candidate not later than 36 months, after the first enrolment for this Degree, provided that the Senate may, in exceptional circumstances, extend this period.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 15.

Classes of Pass

6. The Degree of Master of Engineering may, on the recommendation of the Senate, be awarded with Distinction.

7. These Regulations shall come into force on 1 January, 1972.

RESEARCH IN ENGINEERING

Facilities are available for research by PhD students and postdoctoral fellows in each of the Departments of Engineering in a wide range of topics. Attention is drawn to the fact that the Honours Degree qualifying a PhD student for registration need not necessarily be one in Engineering. Graduates with a good Honours Degree in Physics, Chemistry, or Mathematics, for example, could be considered for registration in Engineering.

DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BE

Intermediate Examination
08.111 Chemistry
08.121 Chemistry
26.120 Mathematics or 26.121 Mathematics
26.140 Mathematics or 26.141 Mathematics
31.140 Physics or 31.141 Physics
31.150 Physics or 31.151 Physics
55.001 Engineering Mechanics

Two lectures per week and problem clinics
An introductory course dealing with the principles of Newtonian rigid-body mechanics and the analysis of simple mechanical systems. Topics to be treated are (a) statics of particles, rigid bodies, and collections of rigid bodies including the concepts of contact and body forces, moments of forces, couples, free-body diagrams, equivalent force systems, centroids, equilibrium conditions, and Coulomb friction, (b) kinematics of particles and rigid bodies including velocity, acceleration, angular velocity, and angular acceleration, and (c) kinetics including the concepts of moment of inertia, inertia force, and inertia torque and the principles of D'Alembert, impulse-momentum, and work-energy as applied to planar motion of particles and rigid bodies.

Professional Examinations
21.203
21.281 Geology papers for Mining

21.381 See Degree Course
21.386 Prescriptions for BSc
21.388

50.101 General Studies I
[Three lectures and one tutorial per week. Second half-year]
A course that considers aspects of human development; origins, societies, politics, human nature, and creativity.

50.111 Engineering Design
[One lecture and one three-hour drawing office class per week]
The elements of engineering draughting and graphics. Introduction to the application of mechanics to the design of mechanical and structural components.

50.122 Graphics
[One lecture and one three-hour drawing office class per week. First half-year]
The elements of engineering draughting and graphics and an illustrative design application.

50.201 General Studies II
[Three lectures and one tutorial per week. First half-year]
A course that gives some insights into the problems of contemporary society. Economic, ecological, social and resource constraints affecting the work of the engineer are examined as is the impact of technology and engineering on the environment and the future of society.

51.111 Introductory Process Engineering
[Four lectures and one tutorial per week. First half-year]

1988 Calendar

51.122 Materials IA

Corrosion; non-metallic materials including metals; microstructures; solidification and phase equilibria; heat treatment; non-destructive testing; corrosion; non-metallic materials including polymers, wood, ceramics and concrete.

First half-year

Mechanical properties and testing of engineering materials, tensile test, hardness test, toughness measurement, fatigue behaviour, damping. Deformation; structure of materials, elastic deformation, plastic deformation, viscoelastic deformation. Forming processes. Selection, specification, testing and inspection. Corrosion. Metallic and non-metallic materials including steels, non-ferrous alloys, polymers, wood, ceramics, concrete.

51.141 Applied Chemistry

Classical chemical thermodynamics including the concept of chemical potential, fugacity and activity; their applications to reacting systems. Thermodynamics of power and refrigeration cycles, and flow processes. Application of graphical methods to steady state mass and energy balances. Incompressible Newtonian flow; turbulent flow; pumping and piping networks. Non-Newtonian fluid flow.

51.121 Materials I

Mechanical properties and testing of engineering materials; atomic and structural aspects; deformation and strengthening mechanisms; annealing; working processes; temperature dependent properties of materials; microstructures; solidification and phase equilibria; heat treatment; non-destructive testing; corrosion; non-metallic materials including polymers, wood, ceramics and concrete.

51.122 Materials IA

Two lectures a week and one tutorial fortnightly.
51.215 Chemical Reactor Engineering
[Two lectures and one tutorial per week]

51.221 Materials II
[Two lectures and one tutorial per week]
Kinetics of metallurgical reactions; diffusion, point defects, nucleation and growth, annealing, Imperfections and plastic flow and dislocation theory. Mechanical behaviour of materials; X-ray diffraction; corrosion, oxidation degradation of materials.

51.222 Electrical Engineering Materials
[Three lectures and one tutorial per week. First half-year]

51.225 Physical Metallurgy
[Two lectures and one tutorial per week]
A treatment of modern metallographic methods including optical and electron optical techniques such as transmission and scanning electron microscopy; Interpretation of images, macro and micro structures, quantitative metallography, fractography. Modern analytical techniques such as spark emission, EDAX, Auger, SIMS etc. X-ray diffraction theory and applications.

Solid state transformations; Diffusion, kinetics, precipitation, eutectoid reactions, shear transformations, metastable transition phases, effect of alloying. Thermomechanical treatments. Commercial heat treatments.

51.232 Process Analysis and Synthesis
[One lecture and one tutorial, one drawing office per week]

51.243 Applied Organic Chemistry
[Three lectures per week. First half-year]

51.251 Chemical Materials
[Two lectures and one tutorial per week]
Thermodynamics and its application to equilibrium involving multi-component solutions such as polymers solutions, liquid metals and slags. Use of diagrams to represent zones of stability or likely reaction. Surface excess properties; phase equilibria and phase diagrams. Fuels and combustion. Aspects of hydrometallurgy. Kinetics of interphase transfer in metallurgical systems with examples associated with selected extractive metallurgical processes. Aspects of reactor design. Electrochemical engineering applied to extractive processes.

51.311 Process Control
[Five lectures per week. First half-year]
Dynamic modelling of linear open-loop systems; transfer functions; linear closed-loop systems; analysis and control; control theory; stability analysis using root-locus and frequency response methods. Controller tuning; industrial application with simple and complex control systems.

51.314 Particulate Technology
[Four lectures per week. Second half-year]
A course on particulate technology, including characterisation of particles; fluid dynamics; analysis of separation processes; separation mechanisms; size reduction; particle size measurement; sedimentation; fluidisation; conveying; filtration; packed beds; solid/solid separations; gas cleaning; agglomeration; storage; atomisation; mixing.

51.322 Materials III A
[Three lectures per week first half-year and two lectures per week second half-year]
chemical engineering plant. Properties of ceramic materials.

51.323 Materials IIB
[Three lectures per week. First half-year]

51.324 Metallurgical Engineering
[Three lectures per week. Second half-year]

51.325 Solid State Materials
[Three lectures per week. First half-year]

51.326 Non Metallic Materials Engineering
[Four lectures per week. Second half-year]

51.332 Equipment and Plant Design
[Three lectures and one drawing office per week. First half-year]

51.333 Chemical Engineering Design Project
[One lecture and five drawing office hours per week. Second half-year]
A single design project undertaken by students working in groups. The objective of the project is to integrate the design principles taught in 51.232 Process Analysis and Synthesis, and in 51.332 Equipment and Plant Design. A series of complementary lectures on special aspects of the assigned project will be given.

51.334 Materials Engineering Design
[One lecture, one drawing office hour. First half-year. One lecture, two drawing office hours. Second-half year]
Design of a process route for the fabrication of a metallurgical or materials product or the refining of metals and materials. Detailed consideration will be given to particular items of plant within the process route.

51.361 Project in Chemical and Materials Engineering
A student is required to submit a report on project work carried out on a topic assigned by the Head of Department of Chemical and Materials Engineering. The work shall be supervised by a member of the staff.

51.362 Project in Metallurgical & Materials Engineering
A student is required to submit a report on project work carried out on a topic assigned by the Head of Department of Chemical and Materials Engineering. The work shall be supervised by a member of the staff.

52.111 Mechanics of Materials
[Three lectures and one shared tutorial per week. Second half-year]
Stress, strain and stress/strain relationships; application of these concepts to simple structural members. Properties of civil engineering materials.

52.121 Fluid Mechanics I
[Two lectures and one shared tutorial per week. First half-year]

52.131 Introductory Geology for Engineers
[Three lectures per week and 15 hours laboratory. First half-year]

52.141 Structures I
[Two lectures and one shared tutorial per week]
Analysis of determinate structures; approximate analysis of indeterminate structures, plastic analysis of
framed structures; appreciation of structural systems.

52.151 Surveying
[Two lectures and one shared tutorial per week. Second half-year]
Introduction to land surveying theory and practice for Civil Engineers. Principles of typical surveying equipment and of its operation and application.

52.211 Properties of Materials and Design
[Three lectures and two hours drawing office per week]
The analysis and design of components of civil engineering structures. Further properties of civil engineering materials.

52.221 Fluid Mechanics II
[Two lectures and one shared tutorial per week]
Laminar viscous flows and elements of lubrication. Turbulent viscous flows. The nature of turbulent fluid flow.
Fundamentals of external flows, laminar and turbulent boundary layers, separation, lift and drag, velocity distribution and resistance to flows. Internal flows, velocity distribution and resistance in pipe flow, pipe networks, unsteady flows in pipelines. Compressive flows in pipelines and pipeline conveyance.
Open channel flow. Energy and momentum concepts applied to steady and unsteady open channel flow. Gradually and spatially varied flow. Open channel transitions. Resistance in open channel flows.
Loose Boundary Hydraulics: threshold of motion, movement by wind and water, bed forms, resistance to flow and calculation of rating curves, sediment transport, stable channel design, elements of river control works. Water waves: simple linear waves, wave celerity, orbital motion, interference, refraction, diffraction, wave energy and wave forces, shoaling waves.

52.231 Geomechanics I
[Two lectures and one shared tutorial per week]

52.241 Structures II
[Two lectures and one shared tutorial per week]
Analysis of indeterminate structures by force and displacement methods. Moment distribution and moment area methods for framed structures. Analysis of frames subject to dynamic loads.

52.271 Traffic and Highway Engineering
[Two lectures and one shared tutorial per week]
Basic elements of intersection and highway capacity, intersection design, signal control design, theoretical analysis of traffic flow. Introduction to traffic and transportation planning. Transport in NZ.

52.301 Special Topic in Civil Engineering
[Three lectures and one tutorial per week. Second half-year]
A course on a topic in Civil Engineering to be determined each year by the Head of Department of Civil Engineering.

52.311 Mechanics and Properties of Materials
[Three lectures and one tutorial per week. Second half-year]
A selection of topics from the following: Elasticity and plasticity; experimental methods; beams, plates and shell theory; stability of structural sections, analysis of joints; shear walls and deep beams; civil engineering materials; further material on traditional materials as well as information on modern advances.

52.321 Hydrology
[Two lectures and one tutorial per week. First half-year]
Introduction to hydrology, precipitation, interception, evaporation, transpiration, infiltration, groundwater, runoff and hydrographs, storage, flood estimation and flood routing, soil erosion. Elements of river control work. Introduction to concepts of coastal engineering.

52.322 Fluid Mechanics III
[Three lectures and one tutorial per week. Second half-year]
Introduction to the generalised form of equations of motion and to concept of potential flow. Introduction to flow through porous medium and application of potential flow techniques to analysis of flow through porous media, unsteady groundwater flow and leaky aquifers, intrusion of salt water.
Introduction to the theory of water waves, wave forces and coastal processes.
Introduction to the elements of dispersion and diffusion into water and atmosphere.

52.323 Water Resources Engineering
[Three lectures and one tutorial per week. Second half-year]
Introduction to synthetic hydrology, reservoir capacity and yield analysis, design of flood control structures, irrigation and drainage, urban drainage, introduction to coastal engineering, water resources systems engineering, and related topics.

52.331 Geotechnical Engineering
[Two lectures and one tutorial per week. First half-year]
52.332 Geomechanics II
[Three lectures and one tutorial per week. Second half-year]
A selection from the following:

52.341 Structures III
[Three lectures and one tutorial per week. Second half-year]
Direct stiffness method for truss and frame structures; energy theorems; approximate methods for asymmetrical buildings, multibeam bridges, simple cable networks and shell structures.

52.361 Civil Engineering Design I
[Two lectures and one two-hour drawing office class per week. First half-year]
Civil Engineering design with emphasis on concrete and steel structures involving continuity.

52.362 Civil Engineering Design II
[Two lectures and one two-hour drawing office class per week. Second half-year]
Introduction to further design techniques including structures in which seismic considerations are important.

52.371 Traffic Systems Design
[Three lectures and one tutorial per week. Second half-year]
Signal control design, linking and area control. Traffic management techniques. Driver characteristics and safety. Traffic control devices and design application. Design of parking and street lighting. Introduction to traffic flow and queueing theory, systems simulation and applications.

52.381 Civil Engineering Administration
[Two lectures and one tutorial per week, first half-year. Three lectures and one tutorial per week, second half-year]
An introduction to financial, legal and managerial principles, and their application to problems in civil engineering management. Systems approach to decision making. Topics related to professional engineering practice.

52.382 Management Techniques
[Three lectures and one tutorial per week. Second half-year]
Introduction to project planning and the making and implementation of decisions.

52.383 Accounting for Engineers
[Three lectures and one tutorial per week. Second half-year]
An introduction to the principles of accounting practice.

52.391 Public Health Engineering
[Two lectures and one tutorial per week. First half-year]

52.392 Water Quality Engineering
[Three lectures per week. Second half-year]
Chemistry and microbiology of water. Unit operations and process design in water and waste-water treatment. Engineering management of natural water quality.

52.393 Maritime Engineering
[Three lectures and one tutorial per week. Second half-year]

53.111 Electrical Engineering I
[Three lectures and one tutorial per week. Second half-year]
An introductory course, with principal emphasis on electric circuit theory and electronics.

53.112 Electrical Engineering for Mining
[Two lectures and one tutorial per week. Second half-year]

53.121 Networks
[Two lectures in the first half-year, one in the second half-year and one tutorial per week]

53.132 Linear Electronics
[Two lectures and one tutorial per week. Second half-year]
Biasing BJTs and FETs, SOAR curves, hybrid ecircuits, h and y parameters, active circuit analysis, operational amplifiers — biasing, simple low-pass all-pass and high-pass filters, feedback amplifiers, frequency response of linear amplifiers.

53.141 Power Apparatus and Systems I
[Two lectures and one tutorial per week. First half-year]
Review of electromagnetic theory. Magnetic mate-
rial materials and their properties with D.C. and A.C. excitation. The magnetic circuit. The single phase transformer. Introduction to electrical machines.

53.181 Digital Electronics and Computer Systems
[Two lectures and one tutorial per week]
Digital electronics: decision elements, basic logic systems, logic memory elements, logic families, sequential logic systems. Computer systems: finite-state systems, microprocessor systems, mathematical operations, operations on analogue signals, microprogramming.

53.204 Electrical Engineering Design
[Three hours per week]

53.211 Electrical Engineering IIS
[Two lectures and one tutorial per week. First half-year]

53.222 Networks and Signals
[Three lectures and one tutorial per week. First half-year.]
Bridge circuits; resonance, Q, gain bandwidth considerations, tuned coupled circuits; Laplace transforms; pole-zero diagrams and applications; Two Port coupling networks; filter design using Image Parameters, frequency and impedance transformation; filter design using appropriate methods; active filter design. Signal levels and logarithmic units, signal spectrum and transmission in band limited channels, modulation techniques, electrical noise.

53.232 Analogue Electronics
[Two lectures and one tutorial per week. First half-year]
Noise, bandwidth, power amplifiers, switching circuits, thyristors, power supplies, linear and switched mode, non-linear operational amplifier circuits, multipliers, dividers, logarithmic amplifiers, analogue-digital and digital-analogue conversion, sample-and-hold.

53.241 Power Apparatus and Systems II
[Three lectures and one tutorial per week. First half-year]

53.251 Transmission Lines and Fields
[Three lectures and one tutorial per week. Second half-year]
Vector analysis revision; static fields; the electric field and materials; fields varying in time; Maxwell's equations; electromagnetic waves; Poynting's theorem; skin effect. Transmission lines with distributed constants; surges on lines; AC lines; standing waves, resonance and antiresonance; Smith chart; common transmission lines, parameters, higher order modes; high frequency lines, communication lines and high power lines. Introduction to antennas and radio systems.

53.271 Control Systems
[Three lectures per week. Second half-year]

53.281 Microcomputer Engineering
[Two lectures and one tutorial per week. Second half-year]
Central processor architecture, memory systems, input-output, system buses, assemblers and assembly language programming, development systems, real-time industrial control using microprocessors, examples.

53.301 Project in Electrical Engineering
[Six hours per week in the first half-year, seven in the second half-year]
A student is required to submit a report on project work carried out on a topic assigned by the Head of the Department of Electrical and Electronic Engineering. The work shall be supervised by a member of the staff. The report shall carry the weight of three papers.

53.302 Advanced Electrical Engineering A
[Three lectures per week. First half-year]
Two modules chosen from the following list of three: Advanced Electronics A. High frequency device models; transient and frequency response of basic amplifier configurations; power amplifiers; stability and frequency response of feedback amplifiers; oscillators; mixers; computer-aided active network analysis.

Power Systems. Power system components; control of power and frequency; reactive power and voltage control; introduction to load flow and fault analysis; steady state, transient, and dynamic stability; AC and DC power transmission; protection; load forecasting and management; reliability.

Communication Systems. Modulation techniques, AM and FM, intermodulation; filtering and equalisation; electrical noise, noise figure, noise in cascaded networks; introduction to digital techniques, sampling theorems, anti-aliasing, linear and log-PCM, quantisation-noise; wideband techniques, FM-FDM, PCM-TDM.

53.303 Advanced Electrical Engineering B
[Three lectures per week. First half-year]
Two modules chosen from the following list of three:
Advanced Electronics B. Topics selected from:
Linear voltage regulators; switch-mode regulators; Cuk converter; difference amplifiers; operational amplifiers; phase locked loops; A/D and D/A conversion; sample and hold circuits; charge-coupled devices; opto-electronics; transducers; integrated circuit techniques.

Radio Systems. VHF/UHF/microwave systems; instrumentation and measurement techniques, transmission lines and distributed circuit elements; devices and components; antennas; propagation; noise and system dynamic range.

Microprocessors and Control. Proportional control using a microprocessor; sampling considerations; D/A and A/D conversion; stability considerations; integral control; the digital integrator; proportional and integral control; 3-term digital controller; computer control; z-transforms; discrete data systems; controller design for microprocessor systems.

53.304 Special Topic in Electrical and Electronic Engineering
[Three hours per week. Second half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Electrical and Electronic Engineering.

53.311 Applied Electricity
[Three lectures per week. Second half-year]
A course on electrical and electronic components and circuits leading to the study of industrial instrumentation, control systems and application of electrical energy.

53.312 Electrical Engineering for Civil Engineers
[Three lectures and one tutorial per week. Second half-year]
A descriptive introduction to electric power generation, transmission and distribution systems. Three phase theory and practice. Elementary theory of the induction motor, its control, and practical applications in civil engineering systems. Electrical safety and regulations. Concepts of instrumentation in engineering; transducers, digital logic and systems; aspects of solid state devices, analogue computers and applications; microprocessors and microcomputers; control systems; telemetry in instrumentation.

53.313 Analytical Techniques in Electrical Engineering
[Three lectures per week. First half-year]
The study of a number of advanced mathematical techniques appropriate to the broad field of electrical engineering applications.

53.321 Applied Network Synthesis
[Three lectures per week. Second half-year]

53.322 Signal Processing
[Three lectures per week. First half-year]
Analysis and processing of continuous signals. Quantitative and statistical treatment of signal distortion, random signals and electrical noise. Discrete-time signals and introduction to digital signal processing.

53.332 Custom Integrated Electronic Design
[Three lectures per week. Second half-year]

53.342 Power Systems
[Three lectures per week. First half-year]

53.343 Advanced Power System Topics
[Three lectures per week. Second half-year]

53.344 Power System Plant
[Three lectures per week. Second half-year]
Thermodynamic energy cycles and thermal power plant. Hydraulic pumps and turbines. Control and instrumentation.

53.352 Communication Systems
[Three lectures per week. First half-year]
Basic principles and techniques required for the design of an information transmission system.

53.353 Digital Communications
[Three lectures per week. Second half-year]

53.362 Microwave and Optical Engineering
[Three lectures per week. Second half-year]
Microwave systems; waveguides, passive components, resonators and filters. Microwave network theory, waveguide discontinuities. Microwave sources. Aperture antennas. Optical communication systems; propagation in optical fibres, attenuation, step-index and graded-index fibres, sources and detectors.

53.363 Electromagnetic Fields and Waves
[Three lectures per week. First half-year]
Systematic approach to electromagnetics as a basis for more advanced work in electromagnetic wave propagation, antennas, and microwaves.

53.371 Advanced Control Engineering
[Three lectures per week. Second half-year]

53.382 Software Engineering
[Three lectures per week. First half-year]
Programming languages. Data structures. Principles and practices of software reliability and design methodologies.

53.383 Computer Systems
[Three lectures per week. Second half-year]
Computer Architecture – Main frames/microprocessors; Multiprocessing systems; Memory systems – disk, main, virtual, distributed processing; Special purpose processors; Commercial computer networking.

53.390 Power Semiconductor Applications
[Three lectures per week. Second half-year]
Power devices and device physics; thyristors, GTOs, transistors, FETs, IG Ts. Conversion processes: AC-DC, DC-DC, DC-AC, UPS, switched mode power supplies.
DC motor drives: thyristor control, chopper control. AC motor drives: current source inverters, voltage source inverters.
Motor control techniques: inverter control, reduced voltage starters.
Drive system economics.

54.111 Engineering Mathematics I
[Three lectures and one tutorial per week]
Basic algebra and calculus of elementary functions of a real variable, introduction to complex arguments, linear algebra and matrix methods, geometrical properties such as curvature and arc length, power-series and indeterminate forms, differentiation and integration. Application to engineering problems will be stressed and assisted by curve sketching in rectangular and polar forms and by numerical methods. Ordinary differential equations including first order, second order constant coefficient and elementary simultaneous equations. Introduction to Laplace transforms.
Partial differentiation, evaluation of multiple integrals, vector analysis, grad, div, curl and integral theorems.
Statistical and probabilistic methods, sampling theory, estimation and confidence intervals, regression and correlation, exploratory data analysis. Problem solving, formulation and representation of algorithms, the FORTRAN language, use of the undergraduate computer system.

54.112 Engineering Mathematics II
[Three lectures and one tutorial per week]
second half-year, and one tutorial per week]
Vector and tensor analysis; analysis of stress and strain; constitutive relations and field equations; analytical and numerical solutions of problems in fluid mechanics and linear elasticity; finite difference and finite element methods. Open channel flow.

54.251 Operations Research I
[Two lectures and one tutorial per week]
Linear programming, simplex and revised simplex methods, duality and dual simplex, sensitivity and post-optimal analysis, modelling and applications. Integer programming, including cutting planes and branch and bound techniques; dynamic programming with applications; network analysis, transportation and flow problems.

54.291 Engineering Science Design
[One lecture and one two-hour drawing office class per week in the first half-year; three contact hours per week in second half-year]
Analysis of simple structures; design of steel beams, columns and trusses and reinforced concrete beams: effects of earthquakes.

54.301 Special Topic in Engineering Science A
[Three lectures per week. First half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.302 Special Topic in Engineering Science B
[Three lectures per week. Second half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.304 Project in Engineering Science
[Equivalent in weight to two elective papers]
An investigation carried out under the supervision of a member of staff on a topic assigned by the Head of the Department of Theoretical and Applied Mechanics. A written report on the work must be submitted.

No final examination. Grade assessed on the work done and the report.

54.312 Engineering Mathematics IIISA
[Three lectures per week. First half-year]
A course in advanced engineering mathematics including such subjects as variational calculus, advanced linear algebra, computational linear algebra, nonlinear optimisation, solution of nonlinear equations, statistics.

54.313 Engineering Analysis A
[Three lectures per week. First half-year]
An approved choice of three modules from a list prepared each year by the Head of the Department of Theoretical and Applied Mechanics. The list will include modules from the subject areas of Engineering Mathematics, Computational Techniques, Engineering Statistics, Mechanics and Operations Research.

54.314 Engineering Analysis B
[Three lectures per week. Second half-year]
An approved choice of three modules from a list prepared each year by the Head of the Department of Theoretical and Applied Mechanics. The list will include modules from the subject areas of Engineering Mathematics, Computational Techniques, Engineering Statistics, Mechanics and Operations Research.

54.315 Engineering Mathematics IIISB
[Three lectures per week. Second half-year]
A course in advanced engineering mathematics including such subjects as the theory and application of complex variables, integral transforms and integral equations.

54.322 Computational Techniques for Partial Differential Equations
[Three lectures per week. First half-year]

54.341 Continuum Mechanics II
[Two lectures per week]
(a) Mechanics of solids including such topics as elastostatics in two and three dimensions, elastodynamics, thermoelasticity, principles of structural analysis, etc.
(b) Mechanics of fluids including such topics as potential flow, vorticity dynamics, boundary layer analysis and an introduction to compressible flow, turbulence, wave motion, and hydrodynamic stability.

54.343 Mechanics of Structures
[Three lectures per week. Second half-year]
Such topics as the static, stability and dynamic analysis of framed structures, shells, membrane and cable structures.

Assignments will require a reasonable facility at computer programming.

54.351 Operations Research II
[Two lectures per week]
Introduction to deterministic and stochastic models in such areas as inventory control, reliability, decision processes, scheduling; digital computer simulation, Monte Carlo methods. (Professional practice in O.R., case studies, and computer packages with applications will be covered in Engineering Science Laboratory)

54.352 Stochastic Methods in Operations Research
[Three lectures per week. Second half-year]
The application of non-deterministic methods in Operations Research, including topics such as Markov
processes, stochastic programming, time series analysis, forecasting.

54.361 Control Theory
[Three lectures per week. Second half-year]
As for 53.371 Advanced Control Engineering.

55.101 Mechanics of Solids I
[Three lectures and one tutorial per week. First half-year]

55.102 Mechanical Engineering IE
[Three lectures and one tutorial per week. Second half-year]
Introduction to the fundamentals of thermodynamics, power cycles and heat transfer. Elementary stress analysis. Miscellaneous topics.

55.111 Thermodynamics and Fluid Mechanics I
[Three lectures and one tutorial per week]
Thermodynamic variables, thermostatics and hydrostatics. Integral equations of conservation of mass, momentum and energy, equations of state. Applications to turbomachinery, power and refrigeration cycles.

55.211 Thermodynamics and Fluid Mechanics II
[Two lectures and one tutorial per week]
Thermodynamic relations, dimensional analysis, advanced thermodynamic cycles. Integral equations of conservation of mass, momentum and energy, with application to energy conversion and heat transfer. Compressible flow in pipes and nozzles. Mixtures and solutions, combustion. Laminar and turbulent flow, elements of external flows.

55.221 Engineering Dynamics
[Three lectures and one tutorial per week. First half-year]
Kinetics of particles and rigid bodies: force and acceleration, work and energy, impulse and momentum. Motion in three dimensions, gyroscopic motion. Applications to machines, friction devices, balancing. Free and forced vibration of single degree of freedom systems. Damping. Multiple degree of freedom and continuous systems.

55.222 Control Engineering I
[Two lectures and one tutorial per week. Second half-year]

55.231 Industrial Administration
[Three lectures per week. Second half-year]
An introductory course for engineering students on the organisational, financial and human relations aspects of management theory and practice.

55.241 Mechanics of Solids II
[Three lectures and one tutorial per week. First half-year]
Analysis of stress and strain. Constitutive relations. Yield and fracture in metals. Bending of beams, elastic and plastic analysis of simple indeterminate beams and frames; torsion of shafts, non-circular and thin-walled sections; stability. Experimental stress analysis, testing methods; non-destructive testing.

55.261 Mechanical Engineering Design I
[One lecture and one two-hour drawing office class per week]
The concept, design and specification of machines, mechanical plant and structures. Relationship of production and design.

55.271 Production Technology I
[Three lectures and one tutorial per week. Second half-year]
An introduction to the casting process including metallurgical and thermodynamic considerations, casting design and quality control, casting economics and the selection of casting and moulding methods; bulk forming processes, selection of methods and tools; an introduction to sheet forming; metal cutting, machinability and tool life; friction and lubrication; surface finish, metrology and inspection; an introduction to CAD/CAM.

55.301 Project in Mechanical Engineering
[Equivalent in weight to two elective papers]
A comprehensive investigation and report on a topic assigned by the Head of the Department of Mechanical Engineering.

No final examination: Grade assessed on project report and year's work.

55.303 Special Topic in Mechanical Engineering
[Three lectures per week. Either first or second half-year]
An advanced course on a topic to be determined each year by the Head of the Department of Mechanical Engineering.

55.311 Applied Fluid Mechanics
[Three lectures per week. First half-year]

55.312 Applied Aerodynamics
[Three lectures per week. Second half-year]

55.321 Control Engineering II
[Three lectures per week. First half-year]
Classical linear control theory as applied to mechanical and other relevant systems: an introduction to state-space methods and to digital control techniques.

55.322 Mechanical Vibrations
[Three lectures per week. First half-year]

55.323 Microprocessors in Mechanical Control Systems
[Three lectures per week. Second half-year]
An introduction to modern control methods as applied to mechanical and other systems. Digital control algorithms and state-space techniques. Incorporation of microprocessors into mechanical systems.

55.324 Acoustics
[Three lectures per week. Second half-year]

55.331 Industrial Engineering
[Three lectures per week. First half-year]
An introduction to the problems associated with effective industrial management and the techniques used to solve them. The course considers both the human and technological aspects of productivity improvement procedures, applied to NZ industry.

55.332 Manufacturing Systems
[Three lectures per week. Second half-year]
An introduction to current concepts in the design and operation of modern manufacturing systems. This includes the technological, economic and social aspects surrounding the use of computer integrated manufacturing and robotic systems.

55.333 Engineering Economics
[Three lectures per week. Second half-year]
A course intended to familiarise the student with the financial aspects of engineering management. Emphasis will be placed on topics such as alternative forms of costing, budgeting and profit planning, break-even analysis, transfer pricing, replacement and maintenance policies, make or buy decisions and project cost estimation.

Techniques of evaluating project and capital equipment expenditure, including consideration of the sociological and environmental factors, will be studied for both private and public sector investments.

55.341 Mechanics of Deformation Processing
[Three lectures per week. First half-year]
Elastic stress analysis, theory of macroscopic and microscopic plasticity, strengthening mechanisms, fatigue, fracture, creep; visco-elasticity and behaviour of polymers; composites; selection of engineering materials.

55.342 Strength of Materials
[Three lectures per week. First half-year]
Analysis of stress and deformation in flat plates, axisymmetric shells, pressure vessels; structural frames; thermal stresses; stress waves in solids; failure analysis (including case studies).

55.351 Thermal Engineering
[Three lectures per week. First half-year]
Energy resources: their use and consequent environmental impacts. Economics of energy conversion. Engine cycles, emissions. Heat and mass transfer and applications: heat exchanger and drier design.

55.352 Applied Thermodynamics
[Three lectures per week. Second half-year]

55.361 Mechanical Engineering Design II
[Two lectures and one two-hour drawing office class per week]
EITHER A. Plant and process design: Design of mechanical structures. Handling of unit loads and bulk materials. Building services and environmental equipment. Selected plant equipment, e.g. pressure vessels.

AND Lectures on professional mechanical engineering practice.
No final examination: Grade assessed on course assignments.

55.371 Production Technology II
[Three lectures per week. Second half-year]

56.101 Mineral Engineering
[Two lectures per week]
56.111 Geology I for Mining
[Two lectures per week and 25 hours laboratory. Second half-year]

56.201 Mineral Processing I
[Four lectures per week, first half-year. One lecture per week, second half-year. One tutorial per week throughout the year]

56.202 Coal Preparation
[Two lectures and one tutorial per week. Second half-year]

56.203 Introduction to Mineralogy
[Two lectures per week and three hours laboratory per week. First half-year.]

56.212 Mine Environment and Ventilation
[Three lectures and one tutorial per week. First half-year]

56.214 Units Operations in Mining
[Two lectures per week first half-year. Three lectures per week, second half-year. One tutorial per week throughout the year]

56.231 Mine Surveying
[Three lectures per week and field work. Second half-year]
Introduction to land (including topographic) surveying theory and practice. Principles of typical surveying equipment and its operation and application. Introduction to mine surveying. Photogrammetry. This paper will include attendance at a four-day field exercise prior to third professional year.

56.301 Mineral Processing IIA
[Three lectures per week. First half-year]
Modelling, mathematical descriptions, simulation and modelling of separation and comminution processes and circuits, on-stream analyses and mill control in mineral processing plants.

56.302 Mineral Processing IIB
[Three lectures per week. Second half-year]
Flotation; solution and surface chemistry as related to flotation reagents, conditioners, equipment, kinetics and plant practice. Design and operation of flotation circuits.

56.303 Mineral Process and Plant Design
[Two lectures per week first half-year, one lecture and three design office hours per week second half-year] Ore body evaluation; feasibility studies and development economics. Design studies in mineral processing operations and circuits, process integration and flowsheet development. Evaluation of laboratory and pilot plant data. Equipment and process selection.

56.304 Project in Mineral Process Engineering
The candidate is required to submit a report on a topic in mineral engineering assigned by the Head of the Department of Mining Engineering. The work will be supervised by a member of staff.

56.312 Evaluation and Mineral Economics
[Two lectures per week and 12 hours laboratory first half-year, two lectures per week second half-year] Orebody evaluation, geostatistics. Mineral economics feasibility, taxation, metal pricing and marketing. Concept of exhaustibility and cut-off grade.

56.313 Mine Design
[One lecture per week and 12 laboratory hours first half-year, one lecture and three design office hours per week second-half year] Design of mine layouts including services; environmental and economic assessments. Students will be required to do design exercises in surface and underground mining in both metalliferous and coal.

56.314 Rock Mechanics
[Two lectures per week first half-year, one lecture and two design office hours per week second half-year] Behaviour of rock masses; rock properties, strength, deformation and failure. Laboratory and in situ testing, instrumentation. Analytical models of rock as linear elastic, plastic and visco-elastic media, numerical solutions. Underground excavation stability, rock-support interaction and slope stability. Ground control, rock improvement techniques and subsidence.

56.315 Project in Mining Engineering
The candidate is required to submit a report on a topic in mining engineering assigned by the Head of the Department of Mining Engineering. The work will be supervised by a member of staff.

56.316 Environmental Planning For Mining
[Three lectures per week. Second half-year]

56.317 Mine Production Engineering
[Three lectures per week. First half year]
Mine production techniques in coal and metalliferous mining. Special topics in coal and metalliferous mining. Safety.

56.318 Bulk Materials Handling
[Three lectures per week. Second half year]

Practical Work
1. Before enrolling for papers of the Second Professional Examination, candidates for the BE Degree are required to have completed to the approval of the Faculty of Engineering a recognised course in Workshop Practice. A candidate who has attended a similar course elsewhere before enrolling at the University of Auckland may apply to the Faculty for that course to be approved. Candidates who have been exempted by the Senate from the First Professional Examination are not required to complete a course in Workshop Practice.
2. (a) Except as otherwise provided, candidates may not be admitted to the Degree until they have obtained approved practical experience in workshops and engineering works for at least 1200 hours. It is expected that they will undertake such practical experiences during Summer vacations and that they will have completed at least one period of such work before enrolling for papers of the Second Professional Examination. All practical work must be approved by Faculty and shall meet the requirements of the appropriate department as set out in the current School of Engineering Handbook.
(b) The first period of practical work should permit candidates to become familiar with engineering processes and trade skills, particularly those appropriate to the branch of engineering being followed. Subsequent periods shall be related to the particular branch of engineering and may include work of a sub-professional nature. It is expected that the experience gained will be as broad as possible. The advice of the appropriate departmental member of the Practical Work Committee of the Faculty of Engineering may be sought before employment is accepted.
(c) At the conclusion of each period of practical work a candidate must submit to the Faculty: (i) a certificate signed by the employer showing the type of work carried out, the dates covered, the number of hours worked and the standard of attendance and performance; (ii) a satisfactory report on the work performed.

Official certificates and instructions on the form of report required may be obtained from the School of Engineering office. Reports shall be submitted not later than 31 July following completion of the work period. They will then be assessed and graded. Only in exceptional circumstances will late submissions be accepted. In order to allow sufficient time for assessment, final reports for candidates who wish to take part in the graduation ceremony should be submitted before 1 March.
(d) The Faculty of Engineering may approve the reduction in the 1200 hours practical work requirement for candidates who have been exempted by the Senate from the First Professional Examination. Any such reduction will depend on the nature and extent of employment undertaken before enrolment in the BE Degree Course. Evidence of such work may be required. In all cases at least one report on a total work period of not less than 400 hours must be submitted. Candidates must make application in writing to the Faculty by 1 April in the year of first enrolment in order to ascertain the requirements that must be fulfilled in each case. They are advised to consult a member of the Practical Work Committee of the Faculty of Engineering before submitting such application.

Laboratory and Field Work
1. Laboratory work related to papers of the First and Second Professional Examinations of the course is undertaken in integrated programmes designated First Professional Laboratories and Second Professional Laboratories.
2. In order to gain the formal recognition of having completed the laboratory work necessary for admission to the Degree, a candidate shall attend the First Professional Laboratory and Second Professional Laboratory courses, carry out the experiments and submit reports, to a required standard.
3. Laboratory work related to papers of the Third Professional Examination is an integral part of each paper. A candidate's satisfactory attendance and performance, including the submission of reports, forms a part of the requirement for a pass in each paper.
4. Candidates taking the papers Surveying and Traffic and Highway Engineering shall, to a required standard, undertake Field Work, including the submission of reports.
5. As part of their Degree course, candidates may be required to go on field trips to study engineering plant and works. The requirements in respect of such plant visits will be specified each year.

PREScriptions FOR ME
50.401 Project A 50.421 Project C
50.411 Project B 50.431 Project D
(Value two papers)
A candidate may take the equivalent of three single
paper projects. For example, a candidate may take Projects A, B, and C, or Project D and one of Projects A, B, and C. A candidate is required to submit a report on each project carried out. These projects may include design studies, a survey and evaluation of modern advances in a branch of engineering, a small experimental or theoretical research project, the development of a new design procedure, the development of a computer package.

51.411 Advanced Process Control

51.412 Chemical Engineering Seminar
A graduate course on a topic or topics from the advanced fields of fluid mechanics, transport phenomena, heat transfer, particulate technology, chemical reactors and fuel technology.

51.413 Studies in Chemical Engineering
An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.414 Biochemical Engineering Seminar
A graduate course on selected topics in biochemical engineering; biological reactors, fermentation, protein processing and enzymology.

51.415 Advanced Chemical Engineering
An advanced course on selected topics such as fluid flow, rheology, heat transfer, mass transfer, separation processes.

51.421 Advanced Materials
An advanced course on selected topics in materials science or materials engineering.

51.422 Materials Seminar
A graduate course on a topic or topics in the field of materials to be determined each year by the Head of the Department of Chemical and Materials Engineering.

51.423 Studies in Materials Engineering
An advanced course on topics to be determined each year by the Head of the Department of Chemical and Materials Engineering.

52.401 Special Seminar in Civil Engineering A
An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.402 Special Seminar in Civil Engineering B
An advanced course on a topic to be determined each year by the Head of the Department of Civil Engineering.

52.411 Mechanics and Properties of Materials Seminar
Special topics selected from recent developments in the mechanics and properties of selected materials used in civil engineering.

52.421 Fluid Mechanics Seminar
Special topics selected from fluid dynamics, water resources engineering, statistics and numerical methods.

52.422 Advanced Fluid Mechanics
Selected topics from applied fluid mechanics and hydraulics.

52.423 Coastal Engineering
Waves, wave theories, wave forces on structures. Breakers, tsunamis, flow induced oscillations, resonance problems, tidal estuaries. Sediment transport by waves. Topics from coastal and harbour engineering.

52.424 Advanced Water Resources
Selected topics from hydrology and water resources engineering.

52.431 Earthquake Engineering

52.432 Geomechanics Seminar
Advanced studies of recent developments in theoretical soil mechanics.

52.433 Applied Geomechanics
Application of the principles of soil mechanics, rock mechanics and engineering geology to practical problems in civil engineering.

52.434 Earth Structures
The stability, deformation, design and construction of earth structures.

52.441 Structural Dynamics

52.442 Structures Seminar
Selected topics from recent developments in structural analysis and design.

52.443 Structural Analysis
Analytical methods for some or all of the following structures: space frames and grids, shear wall systems, folded plant structures, bridge superstructures. Solution techniques will include approximate methods, matrix and computer methods. Optimisation techniques and computer-aided design may also be included.

52.444 Space Structures
Selected topics in the analysis of space structures such as cable structures, plate and shell structures. Special consideration for stability, elasticity and plasticity may also be included.

52.451 Environmental Law
See prescriptions for LLB, paper 25.313

52.461 Structural Design
Design philosophies. Special considerations in steel, reinforced concrete, prestressed concrete and masonry
structural design. The background to and the use of design codes.

52.471 Traffic Engineering
Design and capacity of highways and intersections, motorways and interchanges, weaving sections and rotaries. Traffic control and safety. Accident studies and analyses. Co-ordination of traffic signals and area traffic control. Travel and delay studies. Planning and design for pedestrian and vehicular traffic. Large-scale parking.

52.472 Transportation Engineering Seminar
Selected topics from recent developments in the planning and design of transport facilities and systems.

52.473 Transportation Planning

52.474 Transportation Systems Analysis
Selected analytical techniques taken from: probability and statistics, queuing theory, simulation, linear and dynamic programming, network flow and allocation algorithms, as applied to the planning and design of transport facilities. Characteristics of transport systems and urban structure. Economic evaluation of transport projects. Transport systems planning techniques applied to urban planning.

52.481 Project Management A
Planning, organisation and control of large engineering projects.

52.482 Case Studies in Project Management
Analysis of the management of some large engineering projects currently in hand or recently completed.

52.483 Project Management B
Estimating and cost control, contracts and decisions.

52.491 Public Health Engineering Seminar
Selected topics from water and wastewater engineering pollution control.

53.401 Studies in Electrical and Electronic Engineering A

53.402 Studies in Electrical and Electronic Engineering B

53.403 Studies in Electrical and Electronic Engineering C
Advanced courses on topics to be determined each year by the Head of the Department of Electrical and Electronic Engineering.

53.431 Digital Signal Processing
Fast Fourier transform (FFT) discrete operations via FFT digital filters, finite impulse (FIR) and infinite impulse response (IIR); design techniques for FIR and IIR filters; hardware implementations and noise analysis. State-space synthesis and non-linear behaviour of digital filters. Signal coding and bandwidth compression techniques. Two dimensional signal and image processing.

53.452 VHF and UHF Radio Communication
A course concerned with the planning and design of VHF and UHF Radio Communications Systems. Consideration will be given to analogue and digital systems, and both mobile and point-to-point services.

53.461 Electromagnetic Theory
Selected topics in electromagnetic theory. The emphasis is on mathematical analysis.

53.471 Advanced Control Systems
Theory of modern control systems with emphasis on optimisation techniques for both deterministic and stochastic processes. State-space modelling of dynamic systems and choice of suitable performance criteria. Examples of applications and discussion of computational problems.

53.482 Advanced Microprocessor Techniques
Review of the hardware and architecture of 8 and 16-bit devices; introduction to bit-slice technology, microprogrammed control. Input-output interfacing techniques, DMA control, interrupts etc. Development tools - both hardware and software; assemblers, high level languages. Application devices, e.g. digital signal processors, single-chip micro controllers.

54.401 Studies in Engineering Science
A graduate course on topics to be determined each year by the Head of the Department of Theoretical and Applied Mechanics.

54.411 Studies in Engineering Mathematics
A graduate course in Mathematics applied to Engineering problems on such topics as the theory of ordinary differential equations, partial differential equations, perturbation methods, advanced numerical analysis, etc.

54.421 Finite Element Methods
A graduate course on finite element formulations and applications to problems such as stress analysis, seepage, heat transfer and fluid flows.

54.422 Nonlinear Optimisation
A study of theoretical conditions for optimality in nonlinear optimisation and numerical methods for the solution of systems of nonlinear equations and constrained and unconstrained optimisation problems including the nonlinear least-squares problem.

54.441 Studies in Continuum Mechanics A

54.442 Studies in Continuum Mechanics B
Graduate courses in Continuum Mechanics covering topics in the mechanics of solids and fluids and other continua.

54.451 Studies in Operations Research A
54.452 Studies in Operations Research B
Graduate courses in recent developments in Operations Research and applications.

54.453 Advanced Systems Analysis
A graduate course on a selection of topics from systems analysis and operations research. This subject cannot be credited if 54.251 or 54.351 have previously been credited towards a degree.

54.454 Random Processes
A graduate course in the theory and application of discrete and continuous random processes including topics such as queuing models, Markov processes, information theory, Monte Carlo simulation, turbulence and random vibration.

54.461 Studies in Control Theory
A graduate course in modern Control Theory including such topics as optimal control, stochastic and nonlinear systems.

54.481 Geothermal Modelling
A study of mathematical methods currently used in geothermal reservoir engineering, and an introduction to the computer modelling of geothermal flows.

54.491 Bio-engineering
An introduction to the application of engineering principles and methods in biomedical research. Mechanical properties of living tissue: constitutive laws, structure/function relationships, myocardial and lung mechanics, haemodynamics. Biological control mechanisms. Electrophysiology. Instrumentation and measurement: principles and applications.

55.401 Studies in Mechanical Engineering
[Either half-year]
An advanced course on topics to be determined each year by the Head of the Department of Mechanical Engineering.

55.411 Fluid Dynamics
[First half-year]
Equations of fluid motion, laminar duct flow, laminar boundary layers and free shear layers, structure of turbulence, turbulent duct flow and turbulent shear layers.

55.412 Aerodynamics
[Second half-year]
Thin-airfoil theory, distributed singularity methods, lifting-line and lifting-surface theory, vortex lift; computation of boundary layers, prediction of drag and separation; bluff body flows, wind loading.

55.413 Wind Engineering
[Second half-year]
Basic meteorology and extreme wind speed analysis; planetary boundary-layer flow; wind structure; loads on engineering structures; dynamic response to turbulence; vortex shedding and aeroelastic effects; wind-tunnel testing.

55.422 Mechanical Control Systems
[Second half-year]
A selection of topics from modern control theory, directed towards the application of appropriate techniques in the description and simulation of mechanical systems. Emphasis will be placed on a structured approach to the analysis of control systems.

55.431 Manufacturing Analysis
[First half-year]
Manufacturing engineering topics and advanced concepts of manufacturing analysis. Topics include industry studies, production management, CAD/CAM, manufacturing systems, automation quality assurance, reliability and economics.

55.432 Manufacturing Automation and Robotics
[Second half-year]
Advanced, yet practical automation measures for manufacturing industry, with major emphasis on flexible automation and industrial robots. Analytical aspects and application concepts, economics and case studies are considered, as well as general factors.

55.433 Manufacturing Management
[Second half-year]
A participative course of lectures and simulation exercises on topics including maintenance, production control, productivity measurement, quality control, purchasing, research and development of manufacturing projects. The material will be presented as a series of interactive manufacturing management problems for student evaluation.

55.441 Mechanics of Materials
[First half-year]
Theory of elasticity: equations of elasticity, stress functions, energy theorems, stress waves, elastic instability.

55.442 Stress Waves and Vibrations
[Second half-year]

55.452 Reciprocating Internal Combustion Engines
[Second half-year]
Combustion processes; calculations for Diesel and Otto cycles, including turbocharging; ideal, fuel-air and real cycles; use of alternative fuels as supplements or replacements.

55.461 Computer Graphics and Computer Aided Design
[Second half-year]
Fundamentals of computer graphics as related to applications in engineering, the mathematics of surface and solid geometry as applied to design and manufacturing, computer-aided draughting and design systems.
55.471 Production Technology
[First half-year]

55.472 Metal Forming
[Second half-year]
Plasticity, analysis of deformation processes, application of upper bound and slip-line field techniques to bulk forming of metals. Properties and behaviour of sheet metals, anisotropy, strain mapping, determination of forming limits.

55.491 Heat Transfer Analysis
[First half-year]
Analytical and numerical methods for solving problems of heat transfer by conduction, radiation and convection.

55.492 Convective Heat Transfer
[Second half-year]
Conservation equations for mass, momentum and energy; laminar flow in ducts; forced laminar boundary layer flows; turbulent flow in ducts; forced convection turbulent boundary layers; natural convection boundary layers; natural convection in enclosures.

55.493 Geothermal Heat and Mass Transfer
[Second half-year]
The application of the principles of heat and mass transfer to geothermal energy technology. Topics include transmission of geothermal fluids within the reservoir and through pipe networks; heat exchangers; condensers; waste heat rejection; economic considerations.

56.401 Advanced Mineral Processing
An advanced paper on a topic or topics in mineral processing to be determined each year by the Head of the Department of Mining Engineering.

56.402 Seminar in Mineral Processing
A graduate-level paper on a selected aspect or aspects of mineral process engineering to be determined each year by the Head of the Department of Mining Engineering.

56.403 Advanced Flotation

56.404 Magnetic and Electrical Separation
Magnetic and electrical properties of minerals. Dynamics of ore particles in magnetic and electrical fields. Models of magnetic electrostatic and electrodynamic separation. Magnetic coagulation and filtration. Recent advances in magnetic and electrical separation equipment.

56.405 Industrial Minerals
The evaluation, processing, utilisation and development of non-metallic mineral resources.

56.411 Advanced Mining Engineering
An advanced paper on a topic or topics in mining engineering to be determined each year by the Head of the Department of Mining Engineering.

56.412 Seminar in Mining Engineering
A graduate-level paper on a selected aspect or aspects of mining engineering to be determined each year by the Head of the Department of Mining Engineering.

56.413 Advanced Mine Ventilation
Advanced topics in underground environmental assessment and control. Optimisation of ventilation requirements.

56.414 Advanced Geostatistics and Resource Evaluation
Theoretical and practical geostatistics, including the application of commercial-scale computer packages to problems of natural resource evaluation. Further study of extraction policy formulation and cutoff grade decisions.

56.415 Advanced Rock Mechanics
Further topics in rock mechanics.

56.416 Tunnelling and Quarrying Engineering
The design and methods of excavation and support of tunnels. Operational aspects of quarries in New Zealand.

86.401 Geothermal Systems and Technology
Scope of geothermal projects, features of geothermal systems, properties of geothermal fluids. Introduction to geothermal exploration, production and utilisation technology. Reservoir engineering, economics, environmental and legal aspects. Case histories.

Either

86.402 Geothermal Production Technology
Drilling technology and completion tests, fluid transmission, thermodynamics and fluid mechanics of geothermal fluids, well operation and analysis. Reservoir modelling and assessment, corrosion and deposition, materials.

or

86.403 Geothermal Energy Utilisation
DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS

DIPLOMA IN GEOTHERMAL ENERGY TECHNOLOGY

DipGeothermTech

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General) and the Examination Regulations.

1. Subject to the Admission Regulations, a candidate for the Diploma in Geothermal Energy Technology shall before enrolment for this Diploma
   (a) have been admitted or have qualified for admission to a Bachelor’s Degree in Science or Engineering or
   (b) have reached an equivalent level of attainment in science or engineering to the approval of the Senate.

2. Admission to the Course of study shall be at the discretion of the Senate on consideration of a recommendation from the Board of Studies, Geothermal Institute.

3. A candidate for the Diploma shall follow a Course of study of one year.

4. The Course of study for the Diploma shall consist of three parts. The Diploma shall be granted by examination.

   **Part I**
   A core paper in Geothermal Systems and Technology (86.100)

   **Part II**
   EITHER (a) Geothermal Exploration for Earth Scientists (86.101) and
   (b) Geothermal Exploration Technology (86.102) OR
   (c) Geothermal Production Technology (86.103) and
   (d) Geothermal Energy Utilisation (86.104)

   **Part III**
   A project (86.606) on some aspect of Geothermal Energy

5. The project (86.606) shall be delivered to the Registrar by October 25 of the year of the candidate’s enrolment for the Diploma, or such later date as may be approved by Senate.

6. These Regulations shall come into force on 1 January 1985.

PREScriptions FOR DipGeothermTech

DIPLOMA IN GEOTHERMAL ENERGY TECHNOLOGY

The Course of study for this Diploma is taught under the auspices of the Geothermal Institute which has been set up within the University of Auckland by special funding from the United Nations Development Programme and the New Zealand Government. Teaching will be carried out within the Faculty of Science and the School of Engineering by the academic staff, and by visiting lecturers from Government agencies and private organisations engaged in geothermal exploration and development.

Applications for admission to this Diploma course by foreign students must be made to the Board of Studies, Geothermal Institute by 1 September (15 October for New Zealand students) for entry to the course in the following year. The number of students accepted for the course will be restricted each year.

Note: Any prospective student who has not passed the University Entrance Examination, who has been previously enrolled at a New Zealand University other than the University of Auckland, or who last attended an overseas university must apply for admission under the Admission Regulations as defined elsewhere in the Calendar.

Part I will be the equivalent of two papers. The examination for the Diploma shall be in three parts and must be passed as a whole.

**Part 1** Geothermal Systems and Technology (86.100)

**Part 2** EITHER (a) Geothermal Exploration for Earth Scientists (86.101)

Petrology, secondary mineralisation and alteration. Drillhole logging. Geochemistry of geothermal fluids. Geophysical investigation of geothermal fields. Estimation and assessment of thermal field potential, and

(b) Geothermal Exploration Technology (86.102)

Planimetric and geological mapping techniques. Mapping and sampling of geothermal discharges. Geophysical prospecting techniques. Geochemical analysis. Drillhole logging techniques and instrumentation, OR

(c) Geothermal Production Technology (86.103)

Drilling techniques and completion tests, fluid transmission, thermodynamics and fluid mechanics of geothermal
fluids, well operation and analysis, reservoir modelling and assessment, corrosion and deposition, materials for geothermal plant, and
(d) Geothermal Energy Utilisation (86.104)

Part 3
A written project on some aspect of geothermal energy including some degree of original research by the candidate (86.606).

CERTIFICATE REGULATIONS

CERTIFICATE IN GEOTHERMAL ENERGY TECHNOLOGY
CertGeothermTech
Each candidate for the Certificate has to enrol for the Diploma in Geothermal Energy Technology. The course for the Certificate in Geothermal Energy Technology normally involves attendance at all lectures, laboratories and field trips of the papers 86.100 and either 86.101 and 86.102 or 86.103 and 86.104. However, during the year the candidate may be advised by Director of the Institute EITHER not to submit the project (86.606) and to continue with only those courses proceeding to a final written examination (i.e. 86.100, and either 86.101 and 86.102 or 86.103 and 86.104), OR to submit the project 86.606 and to continue with only two of the courses proceeding to a final written examination (86.100, 86.101, 86.102, 86.103, 86.104).

Examinations: Candidates will be assessed on their practical work and written tests during the course. The Certificate may be awarded for a pass in the following papers: 86.100 and either 86.101 and 86.102 or 86.103 and 86.104. Alternatively, the Certificate may be awarded for a pass in two of the following papers: 86.100, 86.101, 86.102, 86.103, 86.104, and a pass in the 86.606 project.

Prerequisites: As for Diploma in Geothermal Energy Technology.

DEGREE COURSE REGULATIONS

ELAM SCHOOL OF FINE ARTS
The Elam School of Fine Arts offers the Bachelor of Fine Arts Degree of four years' duration, and the Master of Fine Arts Degree and the Master of Philosophy Degree, each of two years' duration. Courses of study for each of these degrees involves a proportion of studio activities and theoretical studies which can be varied to accommodate the needs of individual students.

Bachelor Of Fine Arts (BFA)
All students entering the first year of the BFA course take a common programme which consists of practical studio activities conducted in the School of Fine Arts and two papers presented by the Department of Art History. Studio sessions are held in the morning from 9 am – 1 pm and the Art History study in the afternoons between 2 pm and 4 pm.
The first year studio programme consists of assignments and concentrated workshop sessions in design, drawing, painting, photography, printmaking and sculpture. The first year class is divided into smaller groups for these workshop periods, which operate on a rotating basis through the various sections of the School. Upon the completion of the first year, some degree of specialisation is normally expected. It is also possible to vary the proportion of practical to theoretical studies by selection of either Option I (Studio emphasis), or Option II (Theory emphasis). Regular seminars and personal tutorials are essential features of the courses, as are studio theory papers dealing with historical, critical and technical topics.

Master Of Fine Arts (MFA)
Any person wishing to enrol for the Master of Fine Arts Degree shall have passed the final year of the Bachelor of Fine Arts course with a Studio grade higher than B-.
Two course options allow the proportion of practical to theoretical studies to be varied. Studio work consists of a practical performance in an aspect of painting, sculpture, printmaking, photography or design. Candidates are required to present a course outline of their proposed programme to the Dean prior to 31 March. Graduate students are expected to base their activities in their studios during School hours, and to participate in a series of seminars on theoretical, critical and historical issues. In addition they are required to present a dissertation on a topic other than the main subject of their studio work, and to present an exhibition of their work at the end of the final year.

Master of Philosophy (MPhil)
The course requirements are the same as for the MFA Degree.

THE DEGREE OF BACHELOR OF FINE ARTS
BFA OPTION I AND OPTION II

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Fine Arts shall
   (a) follow a course of study of not fewer than four years, taking either Option I or Option II prescribed in these Regulations and
   (b) pass four Professional Examinations.
2. In these Regulations:
   ‘Papers’ includes Studio I, Studio II, Studio III and Studio IV.
   ‘Prescribed or approved papers’ in relation to any candidate means the following papers:
   Art History I: 19.151, 19.152, 19.153
(i) prescribed for the Degree of BA, BSc or any other Degree and
(ii) approved by the Head of the Department of Fine Arts for the course of that candidate for this Degree and by
the Head of the Department in which the paper is taken.

3. The subjects of Examination for the Degree shall be:
First Professional Examination 6 papers, consisting of:
(i) Studio I: 27.150 having the value of 4 papers, and
(ii) Art History I: Two papers from the following: 19.151, 19.152, 19.153.

Option I
Second Professional Examination 9 papers, consisting of:
Either (a) (i) Studio II: 27.250 having the value of 6 papers and
(ii) Three prescribed or approved papers.
Or (b) (i) Studio II: 27.251 having the value of 7 papers and
(ii) Two prescribed or approved papers.
Note: Students planning to take Studio III Sculpture must have passed 27.216.
Third Professional Examination 9 papers, consisting of:
Either (a) (i) Studio III: 27.350 having the value of 6 papers and
(ii) Three prescribed or approved papers.
Or (b) (i) Studio III: 27.351 having the value of 7 papers and
(ii) Two prescribed or approved papers.
Note: 27.216 is a prerequisite for entry to Studio III Sculpture but with special permission of the Head of Department may be taken as a corequisite.
Fourth Professional Examination 9 papers, consisting of:
Either (a) Studio IV: 27.450 having the value of 9 papers
Or (b) (i) Studio IV: 27.451 having the value of 7 papers and
(ii) Two prescribed or approved papers.

Option II
Second Professional Examination 9 papers, consisting of:
Either (a) (i) Studio II: 27.252 having the value of 3 papers; and
(ii) Six prescribed or approved papers. Or (b) (i) Studio II: 27.253 having the value of 4 papers; and
(ii) Five prescribed or approved papers.
Note: Students planning to take Studio III Sculpture must have passed 27.216.
Third Professional Examination 9 papers, consisting of:
Either (a) (i) Studio III: 27.352 having the value of 3 papers; and
(ii) Six prescribed or approved papers.
Or (b) (i) Studio III: 27.353 having the value of 4 papers; and
(ii) Five prescribed or approved papers.
Note: 27.216 is a prerequisite for entry to Studio III Sculpture but with special permission of the Head of Department may be taken as a corequisite.
Fourth Professional Examination 9 papers, consisting of:
(i) Studio IV: 27.452 having the value of 6 papers; and
(ii) Three prescribed or approved papers.

4. All students will be required to make a formal presentation of work in Studio, or to fulfil the course work in
any subject or tutorial as may be determined by the Faculty from time to time. A student who fails to comply
with these requirements may be declined permission to sit the final examination.

Studio
5. In each Professional year work for Studio shall consist of:
(a) a formal presentation of work at the conclusion of each study period; and
(b) a final formal presentation of work; which may include written examination papers, as required by the Dean
of the Faculty.

6. A candidate shall be required to pass as a whole each Professional Examination consisting of more than one
subject, so that his/her performance in all the papers of the Examination shall be considered; provided that
(a) a candidate who has failed to pass any such Examination as a whole may, at the discretion of the Senate, be
credited with a paper or papers of that Examination, and permitted in a subsequent year to take the papers not
so credited; and
(b) a candidate who does not pass the Second Professional Examination as a whole, but is credited with a paper
or papers of that Examination may, if the Senate permits, take with the papers being re-presented for that
Examination a paper or papers for the Third Professional Examination.

1988 Calendar
7. In respect of every prescribed or approved paper prescribed for a Degree other than this (that is, every paper taken for this Degree other than Studio I, II, III and IV and the papers in Studio Theory) a candidate shall be required to comply with all Regulations applicable thereto for the Degree of BA, BSc or other Degree (including all prerequisites, corequisites and restrictions).

Revocations
8.(1) The course of every candidate shall be governed by these Regulations.
(2) The Regulations governing the Degree of Bachelor of Fine Arts last published in the University of Auckland Calendar for 1974 are hereby revoked.
(3) The Regulations governing the Diploma in Fine Arts and the Diploma in Fine Arts (Honours) respectively, last published in the University of Auckland Calendar for 1974 are hereby revoked.
9. These Regulations shall come into force on 1 January 1975.

THE DEGREE OF MASTER OF FINE ARTS
MFA
The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for courses which are in accordance with the following Regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Master of Fine Arts shall
(a) before his/her enrolment for this Degree have been admitted or have qualified for admission to the Degree of Bachelor of Fine Arts, and
(b) have passed with a higher Grade than B- in Studio IV in their Bachelor of Fine Arts course provided that in special circumstances where the Head of the Department recommends the Senate may accept a B- pass, and
(c) follow a course of study of not less than two years, taking either of the Options prescribed under these Regulations.
2. In these Regulations:
'prescribed or approved papers' in relation to any candidate means the following papers:
Studio Theory
Any paper other than a paper in Art History, prescribed for any Degree other than this Degree and approved by the Head of the Department of Fine Arts for the Course of that candidate and by the Head of the Department in which the paper is taken.

Course Content
3. The subjects of examination for the Degree shall be:

Option I
First Year; Part I: Advanced Studio V Practice and Theory 27.550 having the value of four papers.
Second Year; Part II: Studio VI 27.650 having the value of four papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his/her work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.

Option II
First Year; Part I: (a) Art History IV: Two papers approved by the Head of Department of Fine Arts being either two papers chosen from 19.400 – 19.412, or one paper chosen from 19.400 – 19.412 and one of the papers prescribed for Art History III not already credited to the Degree of Bachelor of Fine Arts; provided that papers 19.305 and 19.401 may not both be taken for this Degree, or
(b) Any two prescribed or approved papers not already credited to the Degree of Bachelor of Fine Arts.
First Year; Part II: Studio V 27.551 which shall have the value of three papers. A candidate shall carry out work satisfactory to the Dean of the School of Fine Arts within an individually planned programme approved by the Head of the Department including the presentation of an exhibition of his/her work and an adequate printed catalogue thereof not later than 1 November in the year in which the work is undertaken or such later date as may be approved by the Head of the Department.
Second Year; Part III: One of the following which shall have the value of three papers:
Faculty of Fine Arts, Degree Regulations, MFA

(a) Thesis 19.601 on a special topic of Art History approved by the Head of the Department of Art History, or
(b) Thesis 27.601 on a special topic related to the candidate's programme of work for Studio V and approved by
the Head of the Department of Fine Arts.

4.(1) No candidate taking Option I shall take Studio VI without having first passed in Studio V unless the Head
of the Department permits the work for Studio V to be examined with the work for Studio VI in the second year
of the course.

4.(2) A candidate taking Option II shall not take Art History IV unless he/she has either passed 8 papers in Art
History including three Stage III papers or complied with such prerequisites as the Head of the Department of
Fine Arts may otherwise prescribe for him/her.

4.(3) In respect of any prescribed or approved paper taken in Option II and prescribed for a Degree other than
this, a candidate shall be required to comply with all Regulations applicable thereto for that other Degree
(including all prerequisites, corequisites and restrictions).

Savings and Transitional Provisions

5.(1) Except as otherwise provided in this Regulation, the course of every candidate shall be governed by these
Regulations.

5.(2) The Regulations governing the Degree of Master of Fine Arts which were last published in the University
of Auckland Calendar for 1974 (in this Regulation called “the old Regulations”) are hereby revoked.

5.(3) A candidate who began the course for the Degree of Master of Fine Arts in 1974 shall be entitled to the
following credits:
(a) If he/she passed Art History IV and Studio IV under the old Regulations and chooses Option I, he/she shall
be credited with Studio V and one prescribed or approved paper.
(b) If he/she passed Art History IV under the old Regulations and chooses Option II, he/she shall be credited
with Art History IV.

Honours

6.(a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class
Honours shall be awarded in two divisions: First Division and Second Division.

6.(b) Honours shall not be awarded if the papers in the first year in which a candidate is examined in Art History
for this Degree are unsatisfactory or either the work in Studio V, VI, or the thesis at its first presentation is
unsatisfactory; provided that, subject to the provisions of paragraph (c) of this Regulation, a candidate whose
performance at the written examination has been seriously impaired by illness (certified as under the aegrotat
Regulations) may elect, instead of applying for an aegrotat award, to present himself/herself at a subsequent
written examination and still be eligible for the award of Honours.

6.(c) A candidate shall be eligible for the award of Honours only upon completion of the requirements for
Honours within three years of his/her first enrolment for this Degree; but this period may be extended in
exceptional circumstances by the Senate.

7. These Regulations shall come into force on 1 January 1976.

ELAM SCHOOL OF FINE ARTS

In celebration of the University Centenary, the name of the School reverted in 1983 to Elam School of Fine Arts, acknowledging John Edward Elam who, when he died in 1888, bequeathed funds to establish an art school in Auckland. Elam School of Art & Design opened in 1890 in rooms at the Auckland Art Gallery, with E. W. Payton its first Director. The School quickly became an important influence on the artistic life of the city, becoming registered in 1900 and adding evening classes in 1902. A new building in Rutland Street provided space for the growing School from 1914, and, in 1925, A. J. C. Fisher was appointed Director, remaining in that post until his death in 1959. During the mid-30s the School moved to more spacious accommodation in the Old Grammar School in Symonds Street, using the Old Newton West Primary School after the January 1949 fire. In 1950 the School became part of Auckland University College, and began offering Diploma courses. The First Chair of Fine Arts was established in 1961 and Professor Paul J. Beadle was appointed. In 1962 the School moved to its present building in Whitaker Place. Degree courses began in 1967, and, in 1968, a separate Department of Art History was established. Professor Jolyon D. Saunders became Head of the Faculty of Fine Arts in 1977 when Professor Beadle assumed the first Personal Chair in Fine Arts. The Elam School of Fine Arts Centenary will be celebrated in 1990.

Studio Theory
*27.201 Art Critique
The objective is twofold; (a) to foster the student's
ability to formulate and communicate concepts and opinions about art; (b) to know what is at present happening in the art community. Written reviews of contemporary art events, such as exhibitions in the city, and verbal participation during meeting sessions are essential components of the paper.

**27.202 Comparative Studies**
A reading/seminar programme concerned with ideas, philosophy and attitudes.

**27.203 Design Methodology**
The study of methods used in the collection and collation of information, the recognition, analysis and description of complex problems, and the generation and presentation of solutions.

**27.204 Two-Dimensional Development**
The evolution and communication of ideas and information through drawings based on formal conventions.

**27.205 History of 19th Century Photography**
**27.206 History of 20th Century Photography**
**27.209 History of Photography in New Zealand**
The aim of this paper is to encourage research, documentation and dialogue on aspects of the History of Photography in New Zealand. Working on individual and/or group projects, the emphasis will be on the study and documentation of available primary source material: photographs, albums and literature. Interviews with photographers and their contemporaries may also be undertaken.

**27.214 Oceanic Arts Studies**
A seminar programme that introduces Fine Arts students to the living traditions of material and performing arts in Oceania, with an emphasis on Maoritanga.

**27.215 Art and Society**
A seminar programme which considers the creative, professional and social-economic dimensions of the visual arts. It also involves a workshop undertaking for candidates to explore or advance in some idiom distinct from their primary Studio method/s. All candidates are expected to maintain seminar and workshop notations and collate information pertaining to topics considered.

**27.216 Workshop Practice (Sculpture)**
Paper 27.216 is a prerequisite for entry to Studio III Sculpture.

**Special Topics in painting, sculpture, printmaking, photography or design approved by the Head of the Department.**

**27.210 Special Topic**
**27.211 Special Topic**
**27.213 Special Topic**

**27.301 Professional Practice for Designers**
Business methods and procedures commonly used by professional designers; topics may include:
(a) Preparation of a portfolio; (b) What to expect after graduation; (c) Correspondence; (d) Reports and report writing; (e) Fee structure; (f) Estimating fees, fee letters and contracts; (g) Business structure; (h) Setting up an office; (i) Running an office; (j) Budgeting (overheads etc.); (k) Securing work and clients; (l) Accountants and taxation; (m) Design and the Law; (n) Ethics; (o) Design organisations; (p) Special topics related to the individual student’s requirements.

**27.302 History of Photography in New Zealand (Advanced)**
The research, documentation and analysis of aspects of the history of photography in New Zealand. Working on individual and/or group projects, the emphasis will be on the study of primary source material: photographs, albums, literature.

Interviews with photographers and their contemporaries may also be undertaken.

### Studio for BFA

**Studio I**
**27.150**
Exploration of those disciplines which are fundamental to the development of the artist and designer. Basic elements of two and three-dimensional design (space, shape, line, rhythm, texture) and the varied properties and qualities of colour and light. The creative potential and characteristic limitations of various media such as wood, stone, plastic, metal, glass and pigment. Methods of techniques such as welding, casting, print-making, painting and photographic media. Observation and analysis of the structure of the natural world and human environment. Drawing as an expressive means of communication, and as a vital stimulus to personal development.

**Studio II**
**Option I 27.250, 27.251 and Option II 27.252, 27.253**
Individually planned programme as approved by the Dean of the Faculty of Fine Arts, with content related to the student’s requirements. For example, drawing and one or more of the following: painting, printmaking, photography, sculpture and design. Advanced experimentation in techniques and materials.

Note: Students planning to take Studio III Sculpture must have passed 27.216.

**Studio III**
**Option I 27.350, 27.351 and Option II 27.352, 27.353**
Development of Studio II in selected fields.

Note: Prerequisite for Studio III Sculpture: 27.216. With special permission of the Head of Department 27.216 may be taken as a corequisite.

**Studio IV**
**Option I 27.450, 27.451 and Option II 27.452**
Development of Studio III in selected fields.
Studio for MFA

Studio V

Option I 27.550 and Option II 27.551
The candidate's programme shall be a practical performance in some aspect of the fine arts. The proposed programme shall be submitted for approval to the Dean of the Faculty of Fine Arts by 31 March.

Studio VI

Option I 27.650
The work in Studio VI may be in an aspect of the fine arts other than that approved for Studio V. The proposed programme shall be submitted for approval to the Dean of the Faculty of Fine Arts by 31 March.

Thesis for MFA

Option II Either

19.601
A thesis on a topic in Art History, to be approved by the Head of the Department of Art History. The thesis must be submitted to the Registrar by 1 November or

27.601
A thesis to embody the results obtained by the candidate of an original investigation or advanced study relative to the candidate's programme in Studio V. The proposed topic shall be submitted for approval to the Dean of the Faculty of Fine Arts by 31 March.

Notes:
*This paper will not be taught during the current Calendar year.
†This paper may not be taught during the current Calendar year.
‡Not all electives will be available in a given year.

SCHOOL OF MEDICINE

The medical Course in the University of Auckland is of six years’ duration. The degree of Bachelor of Human Biology (BHB) is awarded upon completion of the first three years, and the degrees of Bachelor of Medicine and Bachelor of Surgery (MBChB) upon completion of the full course.

Bachelor of Human Biology

The curriculum in Human Biology covers a spectrum of studies from molecular biology to social psychology and the processes of disease. Introductory studies of chemistry, physics and biology lead to specialised studies of the human body and the integration of its responses. During the first year, courses in biology, chemistry and physics provide the language and concepts needed for the understanding of the applications of these sciences in medical biology. Biochemistry, immunobiology and selected aspects of anatomy and physiology are introduced. Opportunities are provided for hospital visits where lectures and case presentations relate the basic and clinical sciences.

The course in Behavioural Science extends over three years, the first focused on general principles, the second on issues of medical risk and the third on medical treatment. Topics include communication, decision-making, culture, behaviour and health, individual psychology and development, and brain-behaviour relationships.

During the second and third years, the course presents a detailed analysis of human structure and function, of the ways in which body mechanisms are disturbed, and of the ways in which disturbances are corrected. Fundamental biochemical and physiological mechanisms — largely expressed at cellular levels — and their structural bases are considered first, then the principal organ systems. The study of the locomotor and nervous systems, of the complex control of body activity, metabolism and nutrition, of reproduction and growth, and of fundamental aspects of pathology, immunobiology and pharmacology form further major units of the course. Over this period students maintain a continuing study of growth and progress of a normal child.

Admission to the first year of the course is restricted to those students who intend to complete the six year Course for entry into the medical profession.

Bachelor of Medicine and Bachelor of Surgery

The clinical triennuim follows qualification for the award of the Degree of Bachelor of Human Biology. The Auckland Hospital Board has made available for teaching purposes all hospitals under its control; at present instruction has been arranged at the five major hospitals — Auckland, Green Lane, Middlemore, National Women’s and North Shore. The Waikato Hospital Board also provides teaching facilities at Waikato Hospital for students.

Subjects studied include medicine, surgery, obstetrics and gynaecology, paediatrics, pathology, immunobiology, behavioural science, psychiatry, clinical pharmacology, general practice and community health together with their main sub-specialities. During their final year Trainee Interns are expected to undertake some supervised responsibility for the care of patients.

The Clinical Methods course of six weeks’ duration introduces the students to the clinical examination of patients particularly physical examination and history taking. This is followed by an introductory series of lectures and symposia preceding the sequence of ward attachments in the next two years. These practical studies in hospital wards and outpatient clinics enable the student to observe and increasingly participate in the care of patients with diverse health problems in the general and special fields of medicine and surgery. During formal instruction emphasis is placed on topic teaching in which a particular disease or health problem is studied in its various aspects — medical, surgical, pathological and social.

During the Clinical Course students spend a proportion of their time in elective studies, that is pursuing in depth, subjects of particular interest to them. They also serve a period in general practice under the direction of family doctors.

Research

Each department in the School of Medicine has a range of active research programmes. These cover areas of basic medical science to clinical medicine. Opportunities exist for students to undertake supervised studies leading to a Master’s degree, or to a Doctor of Philosophy. Students interested in research in the School of Medicine are encouraged to consult with the Head of Department of interest, or seek general information concerning financial support or opportunities available from the Chairman of the Graduate Studies Committee or the Research Sub-Dean.

Master of Human Biology (MHB)

This degree is undertaken after completion of BHB and usually before commencement of studies for MBChB. The degree can be taken in any of the basic medical science departments. Like comparable courses in other Commonwealth Universities (BMedSc, BSc(Med) etc) it offers a year of advanced study and supervised research in a restricted field of medical science.
Master of Medical Science (MMedSc)
This is a one-year Master's degree that may be taken in clinical subjects after completion of the second year of the MBChB.
Both these are supervised research degrees embodying both papers and a thesis.

Doctoral Degrees. Doctor of Philosophy (PhD)
All departments undertake graduate teaching for the research Degree of Doctor of Philosophy (PhD) in accordance with the regulations of the University.

Doctor of Medicine (MD)
This is offered as a non-supervised research degree by thesis alone and may not be submitted until five years after graduation MBChB. The degree is usually based on clinical research work which may be undertaken outside the University. It is normally available to medical graduates of the University of Auckland and, under the Ad Eundem Admission Regulations to graduates of other medical schools who are working as members of the University of Auckland academic staff or who are conducting research in a Department of the Faculty of Medicine and Human Biology.
Candidates do not enrol in the normal fashion but at an appropriate stage in their research seek the recommendation of the Faculty to enrol for the degree. Faculty's recommendation is based on a preliminary review of the topic, the methods involved in the investigation and the contribution of this work to medical knowledge. Permission to submit the thesis may be obtained after the work is completed or before it is undertaken but there is a five-year upper limitation of time between permission to submit and the actual submission of the thesis.

Diplomas
Diploma courses are offered in the Postgraduate School of Obstetrics and Gynaecology and by the Department of Paediatrics. All clinical departments are associated with the basic and advanced vocational training for the examinations and diplomas offered by the various colleges.

1988 Calendar
THE DEGREE OF BACHELOR OF HUMAN BIOLOGY
BHB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. Except as provided in the Admission Regulations a candidate for the Degree of Bachelor of Human Biology shall follow a Course of study of not fewer than three years.

Admission

2. (a) Admission to the Course of study in Human Biology shall be at the discretion of the Senate. Application for admission to the Course shall be made to the Registrar in writing before 1 October or such other date as the Senate may determine, of the year preceding that in which the applicant proposes to enrol.

(b) Admission to Part I of the Course of study shall be granted or withheld upon a consideration of the past performance of the applicant at school and in public examinations, and upon an interview where this is required.

(c) In such exceptional circumstances as the Senate may approve or under the Admission Ad Eundem Statum Regulations, admission may be granted to an applicant to Part II and Part III.

Course Content

3. The Course of study shall consist of three Parts. A candidate shall be required to pass as a whole each Part of the Course of study: provided that a candidate, who re-enrols for a Part of the Course of study having failed to pass it as a whole at the first attempt, may be allowed to carry out, to the satisfaction of the Heads of Departments concerned, alternative work in lieu of the work in that Part where his previous performance was satisfactory. For the purpose of assessing the grade of this candidate as a whole for a Part of the Course of study the Senate may approve that the satisfactory pass grade in that previous work be carried forward. Normally a B-grade or better.

4. Except as provided in Regulation 2(c) hereof no candidate shall be permitted to enrol in Part II of the Course until he has passed Part I, or in Part III until he has passed Part II.

5. A candidate shall carry out to the satisfaction of the Senate such practical written and tutorial work in each Part of the Course of study as may be required.

6. The papers prescribed for examination for the Course of study in Human Biology are:

Part I
Biology 60.100, 60.101, 60.102
Physico-Chemistry 60.103, 60.104, 60.105
Behavioural Science I 60.108

Part II
Anatomy 60.205
Biochemistry 60.206
Physiology (Medical) II 60.207
Behavioural Science II 60.208

Part III
General Pathology and Immunobiology 60.301
Neurolocomotor Systems 60.302, 60.303
Human Reproduction and Development 60.304
Physiology (Medical) III 60.305, 60.306
Pharmacology 60.307
Behavioural Science III 60.308

7. (a) The Senate may in such exceptional cases as it thinks fit approve a personal Course of study which does not conform to the foregoing Regulations.

(b) Every application for approval under this Regulation shall be submitted by the candidate in writing to the Registrar.

8. These Regulations shall come into force on 1 January 1979.

1988 Calendar
THE DEGREE OF BACHELOR OF MEDICINE AND
BACHELOR OF SURGERY
MBChB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Bachelor of Medicine and Bachelor of Surgery shall before enrolment have qualified for admission to the Degree of Bachelor of Human Biology not more than one academic year previously, except where the Senate otherwise permits.
2. Each candidate shall follow a Course of study of not fewer than three years.
3. (a) No candidate shall be permitted to proceed to Part II until the work prescribed for Part I has been completed to the satisfaction of the Senate.
   (b) No candidate shall be permitted to proceed to Part III until the work prescribed for Parts I and II has been completed to the satisfaction of the Senate.
4. Each candidate shall follow the course of Study for Part I, Part II and Part III continuously. Interrupted study may be resumed only with the approval of Senate and on such conditions as the Senate may determine.

Practical Work
5. A candidate shall carry out to the satisfaction of the Senate, such practical and clinical work in each year of the course as may be required.

Course Content
6. The Course shall consist of three parts:

Part I (Year IV of the medical course)
Year Code: 90.100
Lectures, laboratory and practical work, and clinical instruction in the diagnosis and management of patients in the hospital and in the community and the provision of health services in the population at large. Disciplines taught will include Medicine, Surgery, Paediatrics, Obstetrics and Gynaecology, Psychiatry, Behavioural Science, Community Health, General Practice, Pathology, Microbiology, Immunology and Haematology and Clinical Pharmacology.
At the end of Part I (Year IV) there will be a written examination consisting of papers in Behavioural Science, in Community Medicine and in General Medicine and Surgical topics and an interdisciplinary clinical and oral examination.

Part II (Year V of the medical course)
Year Code: 90.200
Lectures, laboratory and practical work, and further clinical instruction in all disciplines building on the work of Part I (Year IV), with increasing emphasis on special areas in Medicine and Surgery.
At the conclusion of Part II (Year V) there will be a major examination, consisting of (a) written papers in Pathology, Clinical Pharmacology, Obstetrics and Gynaecology, General Practice, Behavioural Science and two papers in General Medical and Surgical topics; (b) an inter-disciplinary clinical/oral examination in Medicine Surgery and Pathology; (c) an interdisciplinary objective structured clinical examination in practical topics.

Part III (Year VI of the medical course)
Year Code: 90.300
Clinical work as a trainee intern and with responsibility under supervision for patients during a period of nine months together with a further three-month elective period.
7. (a) A candidate shall be deemed to pass Parts I and II of the course when the Senate so resolves after consideration of a report from the Faculty of Medicine and Human Biology as to the candidate's performance and results in his work for those Parts.
   (b) A candidate shall be deemed to have completed Part III successfully on obtaining passing assessments from each of the periods of that academic year.
8. These Regulations shall come into force on 1 January, 1987.
THE DEGREE OF MASTER OF HUMAN BIOLOGY

MHB

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department and obtain his approval before attending to enrol. This consultation should normally take place prior to 1 December preceding the year of intended enrolment.

General Provisions

1. Subject to the Admission Regulations, a candidate for the Degree of Master of Human Biology shall before his enrolment for this degree have been admitted or qualified for admission to the Degree of Bachelor of Human Biology.

Course Content

2. Every candidate for the degree shall
(a) pass the examinations, and
(b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:
   65.405, 65.406 Anatomy (two papers and a thesis 65.601)
   63.403, 63.404 Behavioural Science (two papers and a thesis 63.601)
   66.405, 66.406 Biochemistry (two papers and a thesis 66.611)
   98.400, 98.401 Immunobiology (two papers and a thesis 98.601)
   68.403, 68.404 Pathology (two papers and a thesis 68.601)
   67.415, 67.416 Physiology (two papers and a thesis 67.601)
   96.400, 96.401 Pharmacology (two papers and a thesis 96.601)

Thesis

3. The following conditions shall apply to the thesis:
(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of Department.
(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
(c) In the case of a thesis recording laboratory work, the Supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this Regulation. Laboratory work for the degree in Biochemistry shall be conducted in the Department of Biochemistry.
(d) A candidate shall submit his thesis to the Registrar by 1 November in the year in which he first enrols for the degree or at such later date in that or the next year as may be arranged by the Head of Department in consultation with the Supervisor. An extension of time beyond two years from the date of first enrolment for the degree may in exceptional circumstances be approved by the Senate.
(e) If the Supervisor, after consultation with the Head of Department and with the consent of the Assessor, so recommends, a thesis which is not considered satisfactory will be returned to the candidate, who may be permitted to revise and resubmit the thesis at a later date to be specified by the Head of Department after consultation with the Supervisor.

Note: An abstract is to be submitted with each copy of the thesis; see Examination Regulation 15.

Honours

4. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
(b) Honours shall not be awarded if the papers in which a candidate takes an examination for the degree are unsatisfactory; provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination, so that he shall still be eligible for the award of Honours subject to the provisions of sub-clause (c) of this Regulation.
(c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within two years of his first enrolment for this degree provided that this period may be extended, in exceptional cases, by the Senate.

5. These Regulations shall come into force on 1 January 1977.
THE DEGREE OF MASTER OF MEDICAL SCIENCE
MMedSc

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

Note: Any student wishing to enrol for this degree must consult the Head of the appropriate Department and obtain his approval before attending to enrol. This consultation should normally take place prior to 1 December preceding the year of intended enrolment.

General Provisions
1. Subject to the Admission Regulations, a candidate for the Degree of Master of Medical Science shall (a) before his enrolment for this Degree have passed year II of the course prescribed for the Degree of Bachelor of Medicine and Bachelor of Surgery; and
(b) follow a Course of study of not less than one year.
2. A candidate who is not devoting his full time to University study shall if the Senate so requires follow a two-year course of part-time study of such content as the Senate may prescribe.

Course Content
3. Every candidate for the Degree shall (a) pass the examinations, and
(b) pass in respect of a thesis (which shall count as four papers) in one of the following subjects:
- 96.402, 96.403 Clinical Pharmacology (Two papers and a thesis 96.611)
- 91.400, 91.401 Community Health (Two papers and a thesis 91.601)
- 69.400, 69.401 General Practice (Two papers and a thesis 69.601)
- 98.402, 98.403 Immunobiology (Two papers and a thesis 98.611)
- 92.400, 92.401 Medicine (Two papers and a thesis 92.601)
- 47.400, 47.401 Obstetrics and Gynaecology (Two papers and a thesis 47.601)
- 93.400, 93.401 Paediatrics (Two papers and a thesis 93.601)
- 68.403, 68.406 Pathology (Two papers and a thesis 68.611)
- 94.400, 94.401 Psychiatry (Two papers and a thesis 94.601)
- 95.400, 95.401 Surgery (Two papers and a thesis 95.601)
- 90.400, 90.401 A Medical subject approved by the Senate on the recommendation of the Faculty of Medicine and Human Biology (Two papers and a thesis 90.601)

Thesis
4. The following conditions shall apply to the thesis:
(a) The Senate shall appoint a supervisor for the candidate upon the recommendation of the Head of the Department.
(b) The thesis shall embody the results obtained by the candidate in an investigation in some branch of the subject.
(c) In the case of a thesis recording laboratory work, a supervisor shall certify to the Registrar in writing that the laboratory work has been carried out within the University, or within such other institution as may be approved by the Senate for the purposes of this Regulation.
(d) A candidate shall present his thesis in the same year as that in which he first takes his examination (if any) or with the consent of the Head of the Department and subject to paragraph (g) of this Regulation, in any subsequent year.
(e) The candidate shall submit his thesis to the Registrar by 1 November in the year in which it is presented or such later date as may be arranged with the Head of the Department.
(f) If the supervisor with the consent of the Assessor so recommends a thesis which is not considered satisfactory shall be returned to the candidate, who may be permitted to revise it and to submit it again at a later date to be specified by the supervisor.
(g) No thesis shall be presented later than the third year after that in which the candidate first takes his examination for this Degree provided that this period may in special cases be extended by the Senate.

Note: An abstract is to be submitted with each copy of the thesis; see Examination Regulation 15.

5. A candidate shall not enrol for a subject which he has already passed for the Degree of Master of Science.
6. These Regulations shall come into force on 1 January 1972.

1988 Calendar
THE DEGREE OF DOCTOR OF MEDICINE
MD

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following Regulations.

General Provisions
1. Except as provided in the Admission Regulations, a candidate for the Degree of Doctor of Medicine shall hold the Degree of Bachelor of Medicine and Bachelor of Surgery of the University of Auckland.

Note: Except in special cases, admission ad eundem statum is granted only to medical graduates of other Universities who are members of the academic staff of the University of Auckland, or who are conducting research in a Department of the Faculty of Medicine and Human Biology.

2. A candidate shall be required to present a thesis (90.701) in any branch of medicine or medical science. The thesis shall be specially written for the purposes and shall embody a critical account of original studies carried out by the candidate which may include previously published work.

3. No candidate shall submit a thesis for this degree until at least five years after graduation to the degree of Bachelor of Medicine and Bachelor of Surgery.

Application to be Examined
4. A candidate shall make application in writing to be examined. The application shall be lodged with the Registrar. It shall state the title of the thesis to be examined and be accompanied by an outline of the proposed or actual scope of the work and the methods involved.

5. As soon as reasonably possible, the Faculty of Medicine and Human Biology shall examine the application and shall make its recommendation thereon to the Senate. The Senate shall then determine whether or not the application and the title and outline of the thesis should be approved.

Submission of the Thesis
6. The candidate shall (subject to Regulation 3) be required to submit the thesis by lodging three copies of it with the Registrar within five years of the date on which the Senate approves the title and outline of the thesis (or within such further time as the Senate may permit).

7. The thesis shall be accompanied by a Statutory Declaration which shall:
   (i) state the extent to which the thesis is based on the candidate's own work and identify as clearly as possible any parts which are not so based;
   (ii) state what portion (if any) of the thesis submitted has been previously presented for a degree or diploma; and
   (iii) declare that the thesis in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination of the Thesis
8. On receipt of the thesis, the Senate, on the recommendation of the Faculty of Medicine and Human Biology, shall appoint two External Examiners (of whom at least one is resident outside New Zealand) and one Examiner who is a member of the teaching staff of the University of Auckland.

9. The duties of each Examiner shall be:
   (i) to report independently on the quality of the thesis and its value as a significant contribution to learning, and
   (ii) to recommend whether or not the degree should be awarded. Where the recommendation is that the Degree should not be awarded the Examiner may recommend that the candidate be permitted to resubmit the thesis at a later date.

10. The candidate may be required to take an oral or a written examination, or both, in the field of knowledge in which the thesis lies.

11. The reports of the Examiners shall be placed before the Senate which shall determine whether or not the Degree should be awarded.

1988 Calendar
DEGREE COURSE PRESCRIPTIONS

PRESCRIPTIONS FOR BHB
Course of Study in Human Biology — Part I
Departments of Anatomy, Biochemistry, Cellular and Molecular Biology, Chemistry, Immunobiology, Physics, Physiology, Psychiatry and Behavioural Science, Zoology.

Biology
(Three papers and practical work)
60.100, 60.101, 60.102
Cells and histology; invertebrates, parasitology and zoonoses; embryology, vertebrate biology; primates and palaeoanthropology; microbiology; genetics; evolution; animal behaviour; introductory physiology.

Physico-Chemistry
(Three papers and practical work)
60.103, 60.104, 60.105
A study of the structure and properties of matter covering the following areas:
Organic Chemistry (nomenclature, structure, isomerism, functional group reactivity, polymers, lipids, carbohydrates, amino acids, nucleic acids).
Biochemistry (proteins, enzymes, polysaccharides, intermediary metabolism).
Analytical and Physical Chemistry (spectrophotometry, spectrometry, chromatography, radiochemistry, chemical energetics, solution chemistry, reaction kinetics).
Physics (mechanics, thermodynamics, gases, fluids, surfaces, solids, electromagnetism, oscillations and waves, light and sound, optics, modern physics).
Computing (computers in the medical environment, microcomputer operation, analysis of medical records, computer networks and communications).

Behavioural Science I
(One paper and practical work).
60.108
The aim of the course is the acquisition and practical application of behavioural science knowledge to medicine. Year I focus: the healthy individual. Stream topics: (1) Psychology and Development, (2) Society, Culture and Environment, (3) Communication and Social Interaction, (4) Behaviour and Health, (5) Brain and Behaviour, (6) Research Methods, (7) Problem-solving and Decision-making, (8) Integrative.

Course of Study in Human Biology — Part II
Departments of Anatomy, Biochemistry, Physiology, Psychiatry and Behavioural Science.

Anatomy
(1 paper and course work)
60.205
The study of the tissue organisation, microscopic and gross anatomy of the trunk and its organ systems, and the biology of the blood and immune system.

Biochemistry
(2 papers and course work)
60.206
Extension of subject-matter taught in Part I and the Biochemistry of major topics with particular reference to those relevant to Medicine.

Physiology (Medical) II
(2 papers and course work)
60.207
The study of circulatory, respiratory, alimentary and renal function and associated topics.

Behavioural Science II
(One paper and practical work)
60.208
Material in each of the eight teaching streams (see 60.108) is now applied to various groups under medical risk such as adolescents, the elderly, smokers, the obese, cultural minorities, and doctors themselves. Focus is on behavioural science aspects of etiology, assessment, and prevention.

Course of Study in Human Biology — Part III
Departments of Anatomy, Biochemistry, Immunobiology, Pathology, Physiology, Psychiatry and Behavioural Science, Pharmacology/Clinical Pharmacology.

General Pathology and Immunobiology
(One paper and practical work)
60.301
A study of the principles of Pathology.

Neurolocomotor System
(Two papers and practical work)
60.302, 60.303
A study of the limbs, back, head and neck and of the nervous system including the special senses.

Human Reproduction and Development
(One paper and practical work)
60.304
A study of the biology of human reproduction and sexuality; aspects of human genetics, foetal development, growth and ageing; biochemical aspects of endocrinology and nutrition.

Physiology (Medical) III
(Two papers and course work)
60.305, 60.306
Studies of the integrated physiology of human organs systems including their control and the correction of disturbances.

Pharmacology
(One paper and course work)
60.307
This course covers the absorption, distribution and fate of administered drugs; drug toxicity and abuse;
the evaluation of new drugs; and the mechanisms of action of drugs that affect the various homeostatic control systems of the body.

**Behavioural Science III**
(One paper and practical work)

**60.308**

Material in each of the eight teaching streams is applied to issues of patient management and treatment. Topics include interviewing and counselling skills, behavioural medicine, working with minority patients, and effects of organisational structures of hospitals.

---

**PRESCRIPTIONS FOR MBChB**

The duration of the course will be three years.

**MBChB (Part I)**

(**Fourth year of the Medical Course)**

**Clinical Methods**

An introduction to clinical medicine is provided during the first section of the first term. Methods of history taking and physical examination are demonstrated and practised by students. Students are also introduced to the principles underlying the application of laboratory techniques and organ imaging to solving of patients' problems. The disciplines of behavioural science, medicine, surgery, paediatrics, psychiatry, obstetrics and gynaecology, pathology and radiology (organ imaging) contribute to the course. Lectures, symposia, case demonstrations, tutorial teaching, and bedside instruction, all play a part in this section of the course.

**Ward Attachments**

During the first and second year of the Course, there are eight ward attachments, each of which is of four weeks' duration. These ward attachments are not combined with whole class teaching, so that each ward experience is uninterrupted. The first four of these ward attachments take place in the first year. During the two weeks each student rotates through Paediatrics, Obstetrics & Gynaecology, and Psychiatry once each, through Surgery and Medicine twice each and once through a four-week period of Special Clinical Teaching which includes Geriatrics, Family Medicine, Dermatology, Ophthalmology and Radiology. During each ward rotation a discussion on the application of Behavioural Science to clinical medicine takes place.

**Campus Teaching**

Between ward attachments there are periods of Campus Teaching. During this time the Community Health Programme in Occupational and Environmental Health, Epidemiology and Provision of Health Care is presented. Topic teaching covering Systems of Medicine and principles of Obstetrics & Gynaecology, of Paediatrics and of Geriatrics appropriate to subsequent ward attachments is developed. Subjects appropriate to the topic teaching are covered in Pathology and Clinical Pharmacology programmes.

At the conclusion of the year there is a composite examination consisting of two written papers, and for nominated students only, a clinical/oral (viva) examination.

**MBChB (Part II)**

(**Fifth year of the Medical Course**)**

**Ward Attachments**

In four ward attachments students complete the series described in Part I. There is no associated whole class teaching but with each 4-week ward block there is for each student a small group seminar in patient-related topics in Behavioural Science.

**Campus Teaching**

The combined topic teaching in the systems of medicine is completed. A number of symposia on topics not included in the Systems of Medicine are covered. These include Medico-legal aspects of practice, a short course in Ethics, management of head injuries, management of patients with malignant disease, alcoholism, aspects of rehabilitation medicine and topics in Behavioural Science.

Community Health projects, small group teaching in Radiology and half class studies in General Practice take place in the last two terms. At the conclusion of the year, there is a composite examination consisting of six written papers, a clinical/oral and an interdisciplinary objective structured clinical examination.

**MBChB (Part III)**

(**Sixth year of the Medical Course**)**

This is a trainee intern year of 52 weeks divided into four quarters of 12 weeks each and 4 weeks' holiday. One of these quarters is an "Elective" period when the student may take optional training in special disciplines of medicine. A list of approved electives is provided from which to choose or students may generate new protocols.

The remaining 36 weeks are spent participating, under supervision, in the responsibility for the care of sick people in hospital and in the home. Assessment, including clinical and oral examinations where appropriate, of the student's progress will be made at the end of each assignment.

A salary will be paid to the trainee intern by the Hospital Board.

**Community Health**

The Community Medicine Course covers selected topics in preventive medicine, health education, epidemiology and occupational health. The object is to emphasise the importance of prevention, and to give the student an understanding of the health service and how the various arms of the service, both hospital and community based, interact with the population. In Part II students undertake an investigation of some aspects of community medicine which entails practical experience in dealing with health problems.
General Practice
There are a series of seminars and visits concerning Primary Health Care and General Practice. In the Trainee Intern Year the students are attached to an approved teaching practice for four weeks, during which time they see patients and discuss their management with the general practitioner, attend house visits and take part in a weekly seminar conducted by a member of the Department of General Practice.

Gynaecology and Obstetrics
Gynaecology and Obstetrics will deal with the physiology, endocrinology and pathology of human reproduction and their application to the clinical practice of gynaecological and obstetric medicine. The teaching will emphasise the incorporation of the principles of this subject into total medical practice. The theoretical teaching will be included in whole class Topic Teaching during the first and second years of the course. Practical patient management will be taught during a four-week ward attachment. During the third (Trainee Intern) year, there will be a six-week attachment at National Women's Hospital, Middlemore Hospital, Waikato Hospital, or other selected base hospital. Within this period is a week of attachment to Neonatal Paediatrics.

Immunobiology
Teaching in Immunobiology includes the disciplines of Microbiology, Immunology and Haematology. An introduction to microbiology and molecular genetics is taught in the first year and an introduction to concepts in immunology is taught in the second year of the course in Human Biology. In the third year of the course, medical microbiology and haematology, and clinical immunology are taught in the third term. These courses provide an integrated basis for the clinical teaching which continues throughout the course for MBChB. During the first year of the course for MBChB, clinical microbiology is taught as part of the principles of pathology, while immunology, haematology and infectious disease teaching is integrated with teaching programmes of other clinical departments.

An elective programme in Immunobiology is available for periods of up to three months during the third year of the course for MBChB.

Medicine
Various common medical diseases affecting different organ systems of the body will be considered with emphasis on their natural history, clinical presentation, methods of diagnosis, together with principles of treatment and prevention. Clinical clerkship will provide experience both in acute general medicine and, during the second year of the course, on selected aspects of different specialties within internal medicine. Tutorial teaching will play an important part in this teaching programme in which emphasis will be placed on the quality of the written as well as the verbal case presentations.

Paediatrics
The undergraduate course in Paediatrics commences with an interdisciplinary child development and family study in the second and third years of the course in Human Biology. Patient-based teaching in Paediatrics is carried out in the hospital and community setting over the three years of the clinical course.

Prevention of disease and the effect of disease on the developing child are emphasised in the departmental contribution to the course of lectures given in the first two years of the clinical course on the organic and psycho-social basis of ill health. At the end of this course of lectures students are examined in their knowledge and comprehension of the principles of Paediatrics. In the third year of the clinical course there is a period of trainee internship in Paediatrics which is mandatory and a term of elective study in the broad field of child health is offered.

Pathology
Teaching in Pathology commences in the third term of the third year of the course in Human Biology, and continues throughout the first, second and third years of the course for MBChB. Subjects under the aegis of Pathology include the Morphological Basis of Disease, Chemical Pathology, and Forensic Medicine. During the first part of the first year of the Course for MBChB the principles of pathology are taught on the basis of the teaching in these subjects undertaken during the latter part of the course in Human Biology. During the remainder of the first year, and through the second year, the teaching in pathology is largely integrated with the teaching programmes of other clinical departments.

An elective programme in pathology is available for periods of up to 3 months during the third year of the course.

Psychiatry and Behavioural Science
With a background in normal human behaviour and the neurosciences from the Human Biology course, students will receive instruction during the clinical triennium in psychopathology and in the application of the behavioural sciences to medicine.

Psychiatry teaching, focused on the diagnosis and management of patients with psychiatric and psychological disturbance, is incorporated in full time rotations combining theory and clinical work in the 4th or 5th and 6th years. The emphasis is on giving students a set of concepts and clinical skills to enable them to recognise psychological and psychiatric disorders in the practice of medicine in all its branches and a sound grasp of psychopharmacology. Behavioural Science teaching takes place in whole class sessions and ward seminars. It aims to continue at the applied clinical level the themes covered in the
first three years as well as to prepare the student to recognise behavioural aspects of medical cases, and be able to plan appropriate behavioural medicine and psychosocial interventions in general medicine.

**Surgery**

Surgical diseases will be taught covering their natural history, pathology, methods of diagnosis (including special investigations such as radiology and clinical biochemistry), and general principles of treatment. Included in the surgical diseases will be those related to eye, ear, nose and throat, the musculo-skeletal system, the genito-urinary system, the nervous system and those related to plastic surgery. The theoretical teaching of these subjects will be done within the Topic Teaching course.

Clinical clerkships will be required in general surgery and the special divisions of surgery listed above, including the Accident and Emergency Department. Theoretical and practical teaching in anaesthesia will be given.

The examination in surgery will be part of the composite examination at the end of the second year together with assignments during the first and third years.

**PRESCRIPTIONS FOR MHB**

**Department of Anatomy**

65.405, 65.406, 65.601 The study of selected fields of Anatomy at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

**Department of Biochemistry**

(Two papers and a thesis)

66.405, 66.406, 66.611 The general study of Biochemistry at an advanced level with particular reference to topics of medical relevance.

Candidates for the Master's Degree should consult the Head of the Department as soon as possible after completion of course prerequisites in order to select a thesis topic and obtain advice on vacation reading. Research work for the thesis will be the major feature of the year's work and will be carried out in the Department. Attendance at departmental seminars and informal group discussions is obligatory.

**Department of Immunobiology**

(Two papers and a thesis)

98.400, 98.401, 98.601 The study of selected fields of Immunobiology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

**Department of Pathology**

(Two papers and a thesis)

68.403, 68.404, 68.601 The study of selected fields of Pathology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

**Department of Physiology**

(Two papers and a thesis)

67.415, 67.416, 67.601 The study of selected fields of Physiology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

**Department of Pharmacology/Clinical Pharmacology**

(Two papers and a thesis)

96.400, 96.401, 96.601 The study of selected fields of Pharmacology and Clinical Pharmacology at an advanced level with detailed study of one particular field.

The thesis will be based on a research project and will be the major feature of the year's work. The topic must be arranged with the Head of the Department before the end of the preceding academic year.

**Department of Psychiatry and Behavioural Science**

(Two papers and a thesis)

63.403, 63.404, 63.601 The study of selected fields of Behavioural Science at an advanced level, with detailed study of one particular field.

The thesis will be based on a research project. An outline of the project must be submitted for the approval of the Head of the Department before the end of the previous academic year after discussion with the Head of the Behavioural Science Section.
DIPLOMA COURSE REGULATIONS AND PRESCRIPTIONS

DIPLOMA IN PAEDIATRICS

   (c) sit the examinations in the year following his enrolment.

Course Content
2. Every candidate for the Diploma shall
   (a) follow the prescribed course of study
   (b) before 30 June of the year in which he or she sits the examinations, have completed six months' resident paediatric appointment in a hospital or hospitals approved for this purpose.

Examinations
3. The examinations for the Diploma shall be
   (a) Written 93.404, 93.406
   (b) Clinical
   (c) Oral

4. These Regulations shall come into force on 1 January 1974.

Notes:
(i) *This Course will not be taught during the current Calendar year unless sufficient staff is available.
(ii) The Diploma in Paediatrics is a qualification which serves to recognise general medical practitioners who have been trained to manage the common paediatric abnormalities encountered in practice. The course is limited to two candidates in 1988 and preference for inclusion will be given to those practitioners who do not have easy access to paediatric consultant services. The prerequisite of at least six months' appointment in an approved teaching hospital is mandatory.
(iii) The examination for the Diploma will test knowledge and ability in the areas of Child Development, Preventive Paediatrics, and Management of Common Disorders of Childhood with emphasis on those aspects encountered in remote and medically developing areas.
(iv) The examinations will normally be held in June each year at the School of Medicine.

POSTGRADUATE SCHOOL OF OBSTETRICS AND GYNAECOLOGY

Within the Department of Obstetrics and Gynaecology

The Department is situated at the National Women's Hospital, Claude Road, Auckland 3. In addition to training Auckland medical students there are extensive facilities for postgraduate education in obstetrics and gynaecology.

(b) Clinical
(c) Oral.
The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology during June and December.
3. These Regulations shall come into force on 1 January, 1972.

PRESCRIPTIONS FOR DipG&O

Part 1
The subjects covered by two papers will include basic sciences such as anatomy, biochemistry, cell biology, embryology, endocrinology, genetics, immunology, medical sociology, microbiology, pathology, pharmacology, physiology and elementary statistics. The examination will deal with those aspects of these subjects which should form part of the general education of any specialist and particularly those aspects which are applicable to obstetrics and gynaecology.

Dissertations
Candidates are advised to discuss the preparation of their dissertations with the Head of the Department at an early stage in their training period. Both obstetric and gynaecological dissertations are designed to give candidates the opportunity to study in detail conditions of their own choice and to express their own views based on personal experience and on a study of the literature. The dissertations should show clear evidence of ability to make use of a reference library and of the English language. Socio-medical topics may be particularly suitable for one or other of the dissertations. The dissertations should be accurately typed in good English and simply bound. In general the size of the dissertations should be in the order of 3000–4000 words each and credit will be given for original contributions.

Part 2
Two written papers
(a) Obstetrics, and such aspects of endocrinology, medicine, neonatal paediatrics and surgery as are relevant to the practice of obstetrics.
(b) Gynaecology, and such aspects of endocrinology, medicine, medical sociology and surgery as are relevant to the practice of gynaecology.
A clinical examination which will include presentation and discussion of obstetric and gynaecological cases. An oral examination in obstetrics and gynaecology. In this candidates should be prepared to discuss their dissertations, to be examined on applied anatomy, physiology and pathology, and to be shown radiographs, instruments, specimens and histological slides for comment.

DIPLOMA IN OBSTETRICS

DipObst

The personal Course of study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions

1. A candidate for the Diploma in Obstetrics shall enrol not later than 1 February or 1 August for the next succeeding examination.

   (i) a candidate for admission to the course for the Postgraduate Diploma in Obstetrics must have held a medical qualification for one year before commencing the course and must satisfy the Faculty of Medicine that previous training and experience fit the candidate to undertake the course.

   (ii) during the course the candidate must hold a resident appointment in obstetrics and gynaecology in a hospital recognised for this purpose by Senate.

   (iii) the duration of the course shall be at least six months. For those candidates commencing the course after 1 November 1986 the total time engaged in clinical training during the course and excluding leave, shall be at least 1600 hours. This minimum time may include up to 100 hours of formal education and up to 400 hours may involve a specific attachment to neonatal paediatrics.

   (iv) Auckland candidates shall enrol for the course on the first day of taking up their training at the School.

   (v) candidates from other approved centres (see Prescriptions for approved hospitals) may be excused the lecture course providing they attend the intensive course of ten days at the School prior to the examination.

   Notwithstanding anything in this Regulation the Senate may, in such exceptional circumstances as it thinks fit, approve a personal Course of study which does not conform to the foregoing Regulations.

Examinations

2. The examinations for the Diploma in Obstetrics shall be in three parts.

   (a) Written (one three-hour paper – 47.500)

   (b) Clinical

   (c) Oral or objective structured Clinical Examination.

3. The examinations shall be held at the Postgraduate School of Obstetrics and Gynaecology twice yearly.

4. Candidates shall apply to sit for the examination not later than 1 February or 1 August for the next succeeding examination.

PRESCRIPTIONS FOR DipObst

This is a general practitioner qualification and serves to distinguish those general practitioners who have been trained to handle the common abnormalities encountered in obstetric practice. A six months’ resident appointment to the staff of a teaching obstetric and gynaecological unit is required before candidates are allowed to sit the examination, but see also provision 1 (iii) of the preceding Regulations. Details of such appointments are available on application.

The examinations shall include questions on the anatomy, physiology, pathology and management of normal and abnormal pregnancy, labour and puerperium, including the care of the new-born during the first month of life. In addition, the candidates will be required to have a knowledge of the physiology and pathology of medical gynaecology, including abnormal menstruation, amenorrhea and dysmenorrhea, endocrine therapy, abortions, infertility and contraception, ectopic pregnancies and moles, vaginal discharges, the diagnostic facets of malignancy, and such minor surgical procedures as may be encountered in a predominantly obstetric practice.

The following are approved Hospitals for the purpose of Regulation 1 (ii):

(1) Auckland: National Women’s with or without rotation to Middlemore and St Helens Hospital

(2) Christchurch Women’s (3) Dunedin (4) Invercargill: Kew Hospital

(5) Lower Hutt (6) New Plymouth (7) Palmerston North

(8) Rotorua (9) Waikato (10) Wanganui

(11) Wellington (12) Whangarei

(13) Any other hospital which meets the current criteria for approval during the full tenure of the post.

(14) Any hospital recognised by the Royal College of Obstetricians and Gynaecologists or the Royal Australian College of Obstetricians and Gynaecologists.

That approval of hospitals will be recognised on criteria of:

(i) Specialist and registrar staff in obstetrics, gynaecology and neonatal paediatrics.
(ii) The number of normal and abnormal patients attending the hospital clinics.
(iii) The provision of graduate teaching in antenatal, postnatal and gynaecological clinics, wards and delivery rooms, including teaching in neonatal paediatrics and family planning. The post must be a continuous one of six months or more if under Regulation I (iii).

**HIGHER ACADEMIC TRAINING IN OBSTETRICS AND GYNAECOLOGY**

(i) Membership of the Royal College of Obstetricians and Gynaecologists, the New Zealand College of Obstetricians and Gynaecologists, and the Royal Australian College of Obstetricians and Gynaecologists

Resident posts providing specialist training suitable for the Membership examination are available at the National Women's and associated hospitals. A formal teaching programme for both Part I and Part II examinations is provided for residents. Elective time post in neonatal paediatrics, anaesthesia and pathology can also be arranged.

(ii) MSc or PhD Degrees

Research appointments are available at the National Women's Hospital and afford the opportunity of preparing for the MSc and PhD Degrees of the University of Auckland.

Applications will be welcome from scientists and medical graduates who wish to carry out research in biochemistry, endocrinology, or the scientific background of obstetrics, gynaecology, and neonatal paediatrics.

**REFRESHER TRAINING FOR FAMILY DOCTORS AND SPECIALISTS**

(i) Practitioners with interests in the fields covered at the School may attend for periods of up to four weeks as visiting postgraduates. During the time they are attending the Postgraduate School attachments to the Auckland Hospital board as Honorary Medical Officers can be made in order to facilitate the performance of practical procedures. Visitors may attend the daily teaching sessions as well as gain practical experience tailored to their needs.

(ii) Short courses usually of a week's duration are held at regular intervals. In addition to teaching at Diploma level advanced courses are provided.

(iii) Departmental staff are available to participate in courses throughout New Zealand by arrangement with the Head of the Department.

**THE POSTGRADUATE MEDICAL COMMITTEE**

The Postgraduate Medical Committee, under the Chairmanship of the Associate Dean of Postgraduate Affairs in Medicine, accepts responsibility for the organisation and supervision of both graduate vocational training and continuing medical education for doctors in the Auckland region. The activities of the Committee are linked with the School of Medicine and with the hospitals under the control of the Auckland Hospital Board. Vocational training courses are run in each major discipline under the general supervision of Specialty Advisory Sub-Committees made up of practising members of the disciplines concerned including members of the academic staff. In the case of Family Medicine the programme is run under the aegis of the Royal New Zealand College of General Practitioners.

The Committee arranges in addition a wide range of courses and meetings throughout the academic year in the field of continuing medical education in all disciplines. Visits by overseas medical speakers in both the School of Medicine and the associated teaching hospitals are also arranged through the Postgraduate Office in the School under the general co-ordination of the Postgraduate Committee. A monthly bulletin of postgraduate and continuing educational activities, *This Month*, is also circulated to all doctors in the Auckland region.

Within the Postgraduate Office in the School of Medicine there is a separate section dealing with continuing education in family medicine under the supervision of the Goodfellow Director of Continuing Medical Education in General Practice. The Goodfellow Director is ex officio a member of the Committee, and is responsible for the whole range of educational programmes arranged in the field of general practice, and also the administration of a special educational resource service for general practitioners based on the Philson Library of the School of Medicine.

The members of the Postgraduate Committee for 1988 are the Chairman, the Associate Dean of Postgraduate Affairs in Medicine, Dr C. H. Maclaurin; the Deputy Chairman, Dr P. M. Barham; the Honorary Treasurer, Dr N. H. G. Holford; the Honorary Secretary (vacant); Dr K. Bannister; Dr J. Birbeck; Professor D. G. Bonham; Professor D. S. Cole; Dr A. Davis; Dr A. L. Honeyman; Dr R. K. Haydon; Dr R. McIlroy; Dr J. R. D. Matthews; Dr P. Ockleford; Dr P. Patten; Associate Professor J. G. Richards.

DEGREE COURSE REGULATIONS

THE DEGREE OF DOCTOR OF LITERATURE
LittD

General Provisions
1. Except as provided in the Admission Regulations, a candidate for the Degree of Doctor of Literature shall be a graduate of the University of Auckland, or of the University of New Zealand.
2. No candidate shall present himself for the Degree of Doctor of Literature until at least eight years after graduation to his first degree.
3. The Degree of Doctor of Literature shall be awarded for an original contribution (or contributions) of special excellence to linguistic, literary, philosophical, social or historical knowledge.
4. The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.
5. No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other University.
6. A candidate shall make application in writing to be examined, and such application, accompanied by the fees prescribed in the Fees Regulations, shall be lodged with the Registrar together with:
   (a) three copies of the work to be examined,
   (b) a statutory declaration which shall
      (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own; and
      (ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Auckland or any other University; and
      (iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other University and is not being concurrently submitted for a degree or diploma in any other University.

Examination Procedure
7. As soon as possible after the application has been lodged, the Senate shall appoint a Moderator who shall:
   (a) consider the work and submit, through the Registrar, a preliminary report, which shall indicate whether, in his opinion, the examination should proceed or whether the candidate should be advised to withdraw his application; and
   (b) state the names of not fewer than two persons recommended as suitable examiners in the field covered by the work submitted, provided that the Senate in appointing examiners under Regulation 9 of these Regulations shall not be restricted to the persons so named.
8. If the Moderator recommends that the candidate should be advised to withdraw his application, the candidate shall be notified of the recommendation by the Registrar and in such case the candidate may
   (a) withdraw his application, whereupon he shall be entitled to a refund of one half of the fees paid under the provisions of Regulation 6 of these Regulations; or
   (b) elect to proceed with the examination.
9. (a) If the examination is to proceed the Senate shall appoint two independent External Examiners of whom at least one shall be resident outside New Zealand, provided that the Senate may in its discretion appoint an additional Examiner who may be a member of the teaching staff of the University of Auckland.
   (b) The contents of the Moderator's report shall not be communicated to the Examiners.
10. The duties of each Examiner shall be:
    (a) to report independently on the quality of the work and its value as a significant contribution to learning; and
    (b) to recommend whether or not the Degree should be awarded, provided that where the recommendation is that the Degree should not be awarded, the Examiner may recommend that the candidate be permitted to re-submit the work with further published work at a later date. A re-submission shall be accompanied by a further full examination fee.
11. All reports and other communications shall be sent to the Registrar who shall refer them to the Moderator.
12. The Moderator shall place the reports of the Examiners before the Senate which shall determine whether or not the Degree shall be awarded.
13. Notwithstanding anything in Regulation 12 of these Regulations the Moderator shall, where only two Examiners have been appointed and their recommendations are conflicting, submit to the Senate the name of a further person qualified to act as an Examiner and in such case the Senate shall appoint the person so named or some other suitable person to be an additional Examiner to furnish an independent report in accordance with
the provisions of Regulation 10 of these Regulations, which shall be considered by the Senate together with the other reports.

THE DEGREE OF DOCTOR OF SCIENCE

DEGREE COURSE REGULATIONS

THE DEGREE OF MASTER OF PHILOSOPHY
MPhil

Note: A student who has qualified for a Bachelor's Degree in one Faculty but who wishes to take a Masters course which is only available in another faculty may be permitted by Senate to do so for the degree of Master of Philosophy. Permission will normally be given where the Senate is satisfied that the student holds qualifications at least equivalent to the prerequisites for the Masters course concerned. In some cases, instead of MPhil, the Master's Degree of the Faculty will be approved as the course for a student particularly appropriately qualified, (e.g. a student qualified in Engineering but with a Bachelor's Degree in another Faculty may be permitted to take a Masters course in Engineering for ME instead of MPhil.)

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

General Provisions
1. Subject to the Admission Regulations, a candidate before his enrolment for this Degree shall have been:
   (a) admitted or qualified for admission to a Bachelor's Degree of this or any other University; and
   (b) have been approved by the Senate as qualified to pursue a Course of study for a Master's degree in a particular Faculty, but the content of whose first degree is, in the opinion of the Senate, not sufficiently similar to the normal Bachelor's degree in that Faculty.

Course Content
2. Every candidate for the Degree of Master of Philosophy shall comply with the Course Regulations for a Master's Degree prescribed in the Faculty in which he is pursuing his Course of study.
3. The Degree shall be awarded by the Senate after receipt of a certificate from the Head of the Department in which the Course for the Degree has been taken, stating that the candidate has completed the prescribed requirements.

Honours
4. (a) There shall be two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours shall be awarded in two divisions, First Division and Second Division.
   (b) Honours shall not be awarded if the papers in the first year in which a candidate takes an examination for the Degree are unsatisfactory or if the thesis at its first presentation is unsatisfactory: provided, however, that a candidate whose performance at a written examination has been seriously impaired by illness or injury or exceptional circumstances beyond his control (certified under the aegrotat or compassionate pass provisions of the Examination Regulations) may elect, instead of applying for an aegrotat or compassionate pass, to take a subsequent written examination so that he shall still be eligible for the award of Honours, subject to the provision of subclause (c) of this Regulation.
   (c) A candidate shall be eligible for the award of Honours only if he completes the requirements for Honours within three years of his first enrolment for this Degree: provided that this period may be extended, in exceptional cases, by the Senate.
5. These Regulations shall come into force on 1 January, 1971.

THE DEGREE OF DOCTOR OF PHILOSOPHY
PhD

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted or Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Every candidate for the Degree of Doctor of Philosophy shall apply to the Head of his Department for registration as such, showing:
   (a) that he has the requisite preliminary qualification set out in Regulation 2 hereof; and
   (b) that he has adequate training and ability to pursue a Course of advanced study and research.

2. The preliminary qualification shall be:
   (a) qualification for admission to a Bachelor's Degree with Honours, or a Bachelor's (Honours) Degree, or a Master's Degree with Honours of this University, or
   (b) qualification for admission to a Master's Degree First Class or Second Class, or
   (c) qualification for admission to the Degree of Bachelor of Medicine and Bachelor of Surgery together with evidence that the candidate has carried out research which, in the opinion of the Senate, is satisfactory evidence
of the candidate’s ability to pursue a Course of advanced study and research for this Degree
(d) in the case of a graduate of another University, admission to the Course under the provisions of the
Admission Regulations, or
(e) any other qualification approved by the Senate in the particular case of any candidate.

3. (a) The Senate (Deans Committee) having received a recommendation from the Head of the Department
concerned (or in Engineering and Medicine and Human Biology, from the Dean concerned) shall determine if
the candidate may be registered and the date and conditions of that registration.
(b) A recommendation for registration shall include: (i) the field of study (ii) the date of registration (iii) the
name of a supervisor or supervisors from members of the academic staff (iv) satisfactory evidence of the
candidate’s training and ability to pursue the proposed Course of Study (v) a statement of any language or other
requirement which the candidate must satisfy as part of the Course of Study (vi) where submitted by the Dean
of Engineering, a description of the papers required in terms of clause 8(a) of these Regulations.

4. A candidate for a Master’s Degree may, after the completion of at least one year’s work for that Degree at a
standard considered satisfactory by the Senate, be registered as a candidate for the Degree of Doctor of
Philosophy. Any such candidate so registered may be allowed credit for the work for the Master’s Course if that
work can form part of the doctoral thesis. The date of registration shall not be earlier than the end of the
academic year in which he completed papers for a Master’s or Bachelor’s Degree with Honours.

5.(a) After being registered as a candidate for the Degree of Doctor of Philosophy the candidate shall pursue a
Course of advanced study and research at the University to the satisfaction of the Head of the Department
and the Supervisor for a period of at least two calendar years from the date of registration, during which he shall
work at his advanced study and research full time under the supervision of a teacher in the University; provided that
(i) laboratory work may be carried out in an approved institution outside the University for such limited period
or periods as may be determined from time to time by the Senate;
(ii) field work may be carried out at such places and for such periods as the Senate may determine;
(iii) research requiring the use at first hand of documents or books not available within the University may be
undertaken in an approved institution outside the University, for such period or periods and on such conditions
as may be determined from time to time by the Senate;
(iv) when a candidate has completed the initial period of two years full-time study and research he may apply to
the Senate for permission to continue as a part-time candidate. Any such application must be supported by the
Supervisor and the Head of the Department.
(b) For the purpose of this Regulation a candidate shall be deemed to work full time if he has no occupation
other than his study or research; provided that he may
(i) with the approval of his Supervisor and the Head of the Department engage for an average period of not
more than six hours per week in academic work other than his study or research;
(ii) take such statutory, recreational and other holidays as are normally incidental to full-time occupation.

6.(a) Notwithstanding anything in Regulation 5, a part-time member of the academic staff
(i) engaged in teaching or in laboratory supervision (or in both) for not more than twelve hours a week on
average over the teaching weeks of the year, and
(ii) with no other occupation may register as a candidate for the Degree of Doctor of Philosophy. After being so
registered he shall pursue a course of advanced study and research at the University over a period which shall,
except in special circumstances to be determined by the Senate, be of at least three calendar years from the date
of his registration, to the satisfaction of the Head of his Department and the Supervisor.
(b) Notwithstanding anything in Regulation 5, a full-time member of the academic staff, other than a Head of
the Department, may register as a candidate for the Degree of Doctor of Philosophy. After being so registered
he shall pursue a Course of advanced study and research at the University over a period which shall, except in
special circumstances to be determined by the Senate, be of at least four calendar years from the date of his
registration to the satisfaction of the Head of his Department and the Supervisor.
(c) Notwithstanding anything in Regulation 5, a full-time member of the teaching staff of a Teachers’ College
in the Auckland area or a Technical Institute in the Auckland area or member of the staff of a recognised
Research Organisation may apply for registration for the Degree of Doctor of Philosophy and shall submit with
such application a statement from the Principal of the College or Institute or head of Research Organisation
that the candidate’s College or Institute or Research Organisation work is such as to allow him/her to pursue a
course at the University for the Degree of Doctor of Philosophy. After being registered the candidate shall
pursue to the satisfaction of the Head of his/her Department and the Supervisor, a Course of advanced study
and research at the University over a period of at least four calendar years from the date of registration.

7. The Supervisor shall submit to the Senate, through the Head of the Department, a brief report on the
progress of the candidate at the end of each year, provided that in the case of a candidate who is a member of the teaching staff of a Teachers’ College or Technical Institute or member of the staff of a recognised Research Organisation the Supervisor shall submit a report at the end of each six months. A candidate’s registration may be terminated by the Senate if an unfavourable report is received.

8.(a) A candidate for the Degree of Doctor of Philosophy in Engineering shall take three papers prescribed for the Degree of Master of Engineering or papers deemed by the Deans Committee to be equivalent provided that the Senate on the recommendation of the Deans Committee may waive or modify this requirement.

(b) A candidate shall not be eligible to enrol for any other course while registered for the Degree of Doctor of Philosophy unless he obtains the prior permission of the Senate.

9.(a) A candidate who has fulfilled the conditions required by these Regulations may apply at any time within six years from the date of registration to the Registrar to be examined provided that a full-time member of the academic staff, or a member of the teaching staff of a Teachers’ College or Technical Institute or a member of the staff of a recognised Research Organisation, may apply at any time within eight years and this period may in special circumstances be extended by the Senate for a full-time member of the academic staff who has not while registered for the Degree been a full-time research student.

(b) A candidate shall submit to the Registrar three bound copies of a thesis embodying the results of his research which shall be retained by the University.

Note: An abstract is to be submitted with each copy of the thesis, see Examination Regulation 15.

10.(a) After having accepted the candidate’s application to be examined the Senate shall, upon the recommendation of the Head of the Department, approve the title of the thesis and shall appoint as examiners:

(i) the Supervisor or Supervisors,

(ii) one person, who shall also act as Oral Examiner, and who may be a member of the staff of this University if there is no specialist in the field at another University in New Zealand, and

(iii) one person who may not be a member of the staff of this University except in such circumstances as the Senate thinks fit.

(b) The Senate may, on the recommendation of the Head of the Department, appoint a further Examiner and in exceptional circumstances two further Examiners.

11. The Supervisor shall forward to the Registrar a certificate stating that the work described in the thesis was carried out by the candidate under his supervision and that the conditions laid down in Regulation 5 or 6 have been fulfilled.

12. (a) A copy of the thesis shall be submitted to each examiner who shall report on the thesis independently. Except where the Vice-Chancellor acting on the advice of the Examiners otherwise authorises, the Supervising Examiner and one External Examiner shall together examine the candidate orally in the subject of the thesis and on the general field to which the subject belongs. The oral examination shall be held after the reports from all the examiners have been received, and not sooner than six weeks after the submission of the thesis, except in very special circumstances and with the approval of the Senate. At the request of the Oral Examiners the candidate may be required to take a written examination. The Oral Examiners shall make a joint report to the Senate on the whole examination. The Examiners may recommend that a thesis, not considered entirely suitable by them for acceptance, may be revised by the candidate for re-submission on one further occasion only.

(b) Where a candidate registered for this Degree who has not qualified for or been awarded a Master’s Degree of this University submits or re-submits a thesis not considered entirely suitable to the examiners, the Senate may recommend that the thesis be submitted for a Master’s Degree without Honours in the appropriate Faculty provided that the candidate satisfies all other requirements for that Master’s Degree.

13. Senate may, in such exceptional circumstances as it thinks fit, approve a personal course of study which does not conform to the foregoing Regulations.

CERTIFICATE COURSE REGULATIONS

CERTIFICATE OF PROFICIENCY

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted for Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. In these Regulations a “pass” means a pass in any paper or subject or in any examinable part of a subject.
“Certificate of Proficiency” means a Certificate issued by the University as to a pass otherwise than for a Degree or Diploma.

2. With the permission of the Senate a matriculated student may be enrolled under the Enrolment and Course Regulations (General) for the purpose of obtaining a Certificate of Proficiency.

3. To obtain a Certificate of Proficiency a student who is enrolled under Regulation 2 must comply with the provisions of the Examination Regulations and pass the appropriate examinations.

4. Where a candidate has sat a paper for Certificate of Proficiency that paper may not be credited towards or repeated for a Master’s Honours degree.

5. Except as provided by Regulation 4 of these Regulations a candidate who has obtained a pass for Certificate of Proficiency may at any time have that pass credited to a degree or diploma; on condition that any pre-requisite, co-requisite conditions or other requirements prescribed for that degree or diploma have been complied with; but in exceptional circumstances the Senate may exempt the candidate from this requirement.

6. A candidate who (a) has obtained a pass in any subject at Master’s level for a Certificate of Proficiency and (b) would have been eligible for Honours if that subject had been presented under the appropriate Master’s Degree Regulations, may be awarded a Certificate of Proficiency with Honours of the appropriate class provided in those Regulations.

7. A candidate who (having completed a Course of Study) has been admitted to a Degree, may, subject to the approval of the Senate, enrol for a further Course of Study prescribed for that Degree; and on completing it shall be entitled to be awarded a Certificate of Proficiency.

Note: A member of the permanent academic staff of this University with overseas university qualifications may be permitted to enrol for a paper or a subject for Certificate of Proficiency without having to make a formal application for Admission Ad Eundem Statum.

TRANSITIONAL CERTIFICATE

TCert

The personal Course of Study of every candidate must be approved by the Senate. Approval will normally be granted or Courses which are in accordance with the following regulations: for general provisions affecting their Courses of Study students are referred to the Enrolment and Course Regulations (General), and the Examination Regulations.

1. Subject to the Admission Regulations a candidate for a Transitional Certificate shall (a) have qualified for admission to a degree in this University and (b) with the approval of the Senate be enrolled in a course prescribed for a Transitional Certificate and (c) follow a course of study of not less than one year and pass the prescribed examinations and (d) comply with such of the prerequisites for that course as shall be specified in each case by the Senate.

2. The completion of the prerequisites for a Transitional Certificate shall have the effect of meeting whichever of MA Regulation I, MSc Regulation I, MCom Regulation I, MBA Regulation I, LLB Regulation I, MJur Regulation I, MPlan Regulation I, ME Regulation I, MFA Regulation I, or MPhil Regulation 2, the Senate shall determine is appropriate, and shall have no other purpose or effect whatever.

3. To be eligible for the award of a Transitional Certificate a candidate shall be required to enrol for the degree to which it leads.

4. The subjects for examination shall be those prescribed for the degree of BA, BSc, BCom, LLB, BMus, BMus (Performance), BArch, BPA, BPlan, BE, BFA.

INTER FACULTY STUDIES

Operations Research

Operations Research can be defined briefly as the application of scientific methods to the management problem. It is widely used in areas such as optimal scheduling, inventory control, decision analysis and many similar applications, both on a short-term basis and to assist in long-range planning.

Training for Operations Research is frequently inter-disciplinary and in the University there are several paths along which Operations Research may be approached. Because of this, major routes are described here, and further reference should be made to relevant prescriptions in the Faculties of Commerce, Engineering and Science.

1. In the Faculty of Science, the Department of Mathematics and Statistics offers courses which contain topics dealing with the theory and methodology of basic stochastic and deterministic techniques in Operations Research. In particular the following Courses are relevant:

   - Applied Probability 26.380
   - Optimization in Operations Research 26.391
Related papers are available at undergraduate and graduate level towards the Degrees BSc, BSc(Hons), MSc or towards the Diplomas DipCompSci, DipStats. Interested students should consult the Head of the Department of Mathematics and Statistics.

2. In the Faculty of Commerce students wishing to specialise in Operations Research for the BCom degree should consider the following papers offered by the Department of Management Science and Information Systems:

- Operations Management 74.200
- Operations Research 74.301
- Operations Research 74.401
- Mathematical Programming 74.402

together with related papers in Accounting, Computer Science, Economics, Engineering, Management Science and Information Systems and Mathematics.

At the graduate level students may choose courses in Operations Research towards the degrees of MCom or MPhil which may include a thesis or a research essay in this area. Interested students should consult the Head of the Department of Management Science and Information Systems or of Economics.

3. In Engineering students may specialise in Operations Research withintheprofessional degree by taking the Engineering Science Course, which includes:

- Operations Research I 54.251
- Operations Research II 54.351
- Engineering Science Design 54.291
- Project in Engineering Science 54.303
- Stochastic Models in Operations Research 54.352

Appropriate papers in such areas as computation, statistics, industrial administration and transportation are also available. The project topic can be chosen from a wide area of application in industry and corporate administration.

At the graduate level, students may specialise in Operations Research for the degrees of ME, MPhil and PhD by choosing from:

- Nonlinear Optimization 54.422
- Studies in Operations Research A 54.451
- Studies in Operations Research B 54.452
- Random Processes 54.454

and related papers (offered by several Engineering Departments) such as Control, Transportation, Microprocessors and Minicomputers.

Interested students should consult the Head of the Department of Theoretical and Applied Mechanics.

**INTERMEDIATE COURSE FOR DEGREES OR DIPLOMAS FOR OTHER NZ UNIVERSITY**

Intermediate Courses for Degrees or Diplomas of other New Zealand Universities

Intermediate courses may be taken at the University of Auckland for a number of degrees and diplomas offered by other New Zealand Universities. Enquiries in the first instance must be made to the University concerned before any enrolment for that University is made at the University of Auckland.

A student wishing to enrol at Auckland for an Intermediate course for a degree or diploma at another University is required to include on the enrolment forms the Course of study and the University for which it is being taken as an Intermediate e.g. Forestry Intermediate (Canterbury).

A student who decides to remain at Auckland after having passed Intermediate papers for another University's course may apply to have those papers credited to an Auckland course by completing the appropriate form (Abandonment) and paying the prescribed fee of $10.

CENTRE FOR CONTINUING EDUCATION

The Centre for Continuing Education is a Department of the University, the special function of which is to create opportunities for the whole community to attend courses and other activities for personal enjoyment and development or advancement of professional knowledge. Nearly all courses are conducted by university academic staff or outside specialists. It makes available to the general public a wide variety of courses in the humanities, sciences, music and the arts. These are usually of ten weeks or longer. Day or weekend seminars are also promoted at the Centre.

Adults contemplating degree studies after some years away from formal education, are offered "New Start" programmes in Arts, Commerce and Science designed to introduce them to university study methods and facilities. Alongside the basic New Start 10-week course are introductory courses in specific subjects, study skills, workshops and other supportive activities to assist adults recommence formal studies. A specific New Start programme for physically disabled people is offered each year.

Certificate courses are conducted in (i) Personnel Management and Industrial Relations, (ii) Adult Education. Short courses providing professional development for workers in health, education, welfare, recreation, community development are also available. Aspects of the theory and practice of Adult Education are taught in short courses within the Centre and at Stage III and Master’s level within the Education Department. The Centre also promotes a wide-ranging series of seminars, courses and conferences for such professional groups as engineers, businessmen, teachers, surveyors, valuers.

Publicity brochures about the Centre's activities are available on request from the Centre for Continuing Education. More information can be obtained by telephoning the Centre 737-999 extensions 7831 or 7832, writing to the Centre for Continuing Education, University of Auckland, Private Bag, Auckland or calling at the General Office of the Centre, Old Arts Building, 22 Princes Street.

COMPUTER CENTRE

The Computer Centre provides a digital computing service for users throughout the campus. The two main computer systems are an IBM 4341 and a DEC VAXCluster. Asynchronous terminals and remote printers connected to the two systems are installed at key locations on the campus. Further terminals are connected to a data switch exchange, providing access to either system. Terminals in use include Visual 200s, DEC VT240s and microcomputers (mostly IBM PC-compatible machines) running terminal emulator programs. The operating systems used are VM/CMS on the 4341 and VMS on the VAXCluster. The DEC/Shell is also available on the VAXCluster, providing a Unix-style user environment.

USER SERVICES

Undergraduate classes are expected to use terminals to the VAX system, or small computers installed in various teaching departments. Limited access to the IBM 4341 is available for the specialised requirements of small, advanced classes.

Research Services for staff members and post-graduate students are based on the IBM 4341.

Microcomputers are widely used on campus. The Centre provides support (both hardware and software) for a variety of microcomputer systems such as the IBM PC and the Apple Macintosh. The Centre has a 'demonstration room' where users can try out microcomputers and microcomputer software packages. A wide variety of personal computer hardware and software is sold to departments, staff and students. Price Lists are available from the office.

Key-Data Services are available, to enter data directly to either of the mainframe systems or on to floppy disks.

Advisory Services are provided throughout the day by a roster of staff members. Introductory courses and lectures on more advanced aspects of computer use are given at intervals through the year.

University departments are charged for all use of the IBM system, and are provided with fixed resource allocations for their students' use of the VAX system. Information about charging rates, budget and student resource allocations and access controls generally is available through the Computer Centre office. The Centre has prepared documentation which is free to users and may be selected from racks outside the office.

The Computer Centre building is open between 8 am and 11.30 pm week-days only, including all vacations. The computer systems operate continuously, and access to them through terminals in other buildings is available whenever these buildings are open.

1988 Calendar
COMPUTER SYSTEM REGULATIONS

Pursuant to section 22 of the University of Auckland Act, 1961, the Council of the University makes the following Regulations: 1. These Regulations may be cited as the Computer System Regulations 1975 and shall come into force on 1 January 1976.

2. In these Regulations, unless the context otherwise requires — “System” means any Computer System controlled and operated by the Council whether at the Computer Centre established in the University or elsewhere. “Director” in relation to any System means the person authorised by the Council to control it.

3. No student or any other member of the University shall:
   (a) without authority of the Director gain access or attempt to gain access to the System;
   (b) obtain or attempt to obtain from the System any information to which he is not entitled;
   (c) wilfully impede the operation or activity of any other user;
   (d) use or attempt to use the System so as to cause costs to be incurred;
   (i) by the University, without the consent of his Head of Department and the Head of any other Department concerned;
   (ii) by any person other than the University, without the consent of that other person.

4. (a) Any breach of Regulation 3 of these Regulations shall be deemed to be a breach of the Disciplinary Regulations of the University.
   (b) (i) Without prejudice to paragraph (a) of this Regulation, the Director may exclude from use of the System, for such period as the Director thinks fit, any person who has done anything in breach of Regulation 3 or has misused or attempted to misuse the system in any way.
   (ii) The Director shall forthwith report any such exclusion to the Vice-Chancellor.
   (iii) Any person so excluded may appeal to the Council against the exclusion.

Note: (i) Application to use a Computer System must be made to the person in control — that is, to the Director of the Computer Centre or, in the case of a system under the control of a Head of Department, to that Head of Department or his nominee.

ACADEMIC DRESS
The Auckland Branch of the New Zealand Federation of University Women owns a stock of Academic Gowns, Hoods and Caps (black trencher with a tassel and Tudor Bonnets). These are available for hire at all times during the year. Details may be obtained at the Registry. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the Graduation Ceremony with his or her result card.

CAREERS ADVISORY SERVICE
The Careers Advisory Service has five main functions:
1. To give advice and information to students and graduates of the University about career opportunities, and to put them in touch with prospective employers.
2. To maintain a 'Situations Vacant' service, informing students and graduates of specific opportunities offered by employers - circulating this information through direct referrals, noticeboards and the student newspaper.
3. To arrange the Employer Campus Visit programmes - CAREERS EXPO (held throughout the second term) and CAREERS WEEK (held in November after the exams). These programmes provide opportunities for students to meet employers on the campus and discuss employment prospects. An additional special programme, L.E.A.P., Legal Employment Advisory Programme, providing for law students to meet representatives of law firms is arranged during the May vacation.
4. To increase the awareness of the community of the potential benefits of employing University graduates. To report on the first destination of graduates of the University. Students are encouraged to visit the Careers Advisory Service in the early stages of their University course to discuss employment prospects available to them on completion of their study programmes.

The Careers Advisory Service is located in the suite of offices behind the Upper Lecture Theatre — inquiries to the Secretary in Room 14. The Service is open during normal University administrative hours. (Phone 737-702/703).

THE CHAPEL
The Maclaurin Chapel was established under a deed of trust by Sir William Goodfellow, Hon. LLD, in memory of his son, Richard Maclaurin Goodfellow, killed during service with the Fleet Air Arm in World War II, and of Professor Richard Cockburn Maclaurin, one of Auckland's most distinguished graduates.

University representatives are included in the Board of Management which is responsible for administering the trust.

Services conducted in the University Chapel are non-denominational in character, and all members of the University are welcomed. Regular services are held during term time as follows: Morning Prayer Tuesday and Thursday at 9 a.m.; Communion Service, 1.00 pm on Thursdays. Special Services as advertised.

CHAPLAINS
There are three chaplains to the University — two of whom represent those denominations which have membership in the National Council of Churches, and the Roman Catholic chaplain who works in a chaplaincy team of students and staff at Newman Hall. The Maclaurin Chaplain, the Rev. R.J. Galvin who is appointed by the Richard Maclaurin Goodfellow Foundation, may be contacted in his office in the Chapel complex (phone 737-732).

The Chaplain appointed by the Auckland Council of Churches, the Rev. J.M. Ker, has his rooms in Old Choral Hall (Room 114) (phone 737-999, extension 7495).

The Roman Catholic Chaplaincy Team is Sr. Teresa Roughan, Sr. Clare Conaglen, Miss Moira Gallagher and Fr. Michael Shires.

All the chaplains work together as the University Chaplaincy service. They are available to any member of the University for consultation.

NEWMAN HALL
Newman Hall is the Catholic Tertiary Centre at 16 Waterloo Quadrant. It is named for Cardinal John Henry Newman, the nineteenth century scholar.

Newman Hall is the centre for the University Parish, which is the community of students, graduates and staff. As Newman Hall is to undergo redevelopment during 1987-88 there will be no residential students.

1988 Calendar
Details and information as to our mass times and programmes can be obtained from the Chaplains Office, Old Choral Hall B144.

**ACCOMMODATION SERVICE**

An accommodation service is provided without charge for students of the University. The office, which is situated in the Northern Wing of the first floor of the Old Arts Building, has noticeboards giving details of accommodation available for occupation by students.

**HALLS OF RESIDENCE**

The University administers one Hall of Residence and one other Hall works within the University system. These Halls are primarily for young first year students.

The two Halls offer three meals a day. There are also two other University administered establishments which offer students furnished accommodation but do not provide meals. All establishments accommodate both men and women. Applications for admission, which close on 16 October 1987 should be addressed to the Accommodation Officer, University of Auckland, Private Bag, Auckland. Late applications are accepted for the waiting list.

**Grafton Hall**, Seafield View Road, Grafton, administered by the Presbyterian Methodist Congregational Foundation Inc and within 15 minutes' walk of the University. Accommodation and full board is provided for 160 students.

**International House**, 27 Whitaker Place, administered by the University and within seven minutes' walk of the campus. Accommodation and full board is provided for 164 students.

**Self Catering Accommodation**

**Norman Spencer Senior Student Apartments**, 9 St Stephens Avenue, Parnell. Accommodation is available for approximately 50 graduate students in single study bedrooms with use of well equipped communal cooking and bathroom facilities. There are a few double rooms available for married couples.

**Park Road Student Flats**, Grafton. Accommodation is provided for 44 students (12 in single rooms and 32 in shared rooms). Each room has its own bathroom but residents must share the communal kitchen. The single rooms are reserved for post-graduate students.

**APPLIED RESEARCH OFFICE (ARO)**

The basic objective of the Applied Research Office is to bring together interested academic staff and outside organisations so that University expertise and facilities can be made available to the community and so the University will benefit from an increased flow of research funds. The experience of working on projects carried out through the ARO can often be of considerable benefit to individual academic staff involved and also of general benefit to the University.

The ARO will also arrange for the patent protection of inventions made by University staff and students where there is a good possibility of commercialisation of the invention.

The ARO is headed by an Executive Officer who reports to the ARO Management Subcommittee of Research Committee. The office is located on the sixth floor of the School of Engineering and is open during normal University administration hours. (Phone 737-999 extensions 7808 and 7809).

**INTELLECTUAL PROPERTY INCLUDING INVENTIONS AND PATENTS**

When staff or students consider that during the course of their University activities a discovery or innovation has occurred which may have possibilities for commercial exploitation, the University requires them to disclose such a discovery to the University by informing the Applied Research Office. The Applied Research Office Management Subcommittee would, in due course, make a decision as to its assignment to the University, its protection and its course of commercialisation. An agreement between the discoverer(s) and the University would then be entered into, such an agreement describing the obligations of the parties and the division of any income and expenditure.

Members of staff and students should know that prior to the granting of a provisional patent, publication is likely to render any research result unpatentable. It is not the wish of the University, however, that this circumstance should inhibit the free publication of research work.

Copyright of journal articles and books are not included in the above requirements and the copyright will remain with the author(s).

Where research contract agreements are being negotiated on behalf of the University with clauses regarding the ownership of any future inventions or patents arising from the proposed research, then the University requires
that the Applied Research Office be consulted at an early stage of these negotiations to ensure that no commitments regarding such ownership are made to funding agencies which are in conflict with University policy.

Staff or students are not to use for commercial purposes any invention or development or computer program to which they have had access while at the University without the specific approval of the University obtained through the Head of Department concerned.

LOST PROPERTY
All enquiries regarding lost property should be referred to the Head Custodian or the Enquiries counter in the Registry.

PARKING
An area in lower Grafton Road (area No. 17) has been set aside for students' cars. Admission is on production of student identity card and payment in 1987 of $1.00 — up to two persons per car, three or more per car 50c — the 1988 fee being under review. No charge is made for this area during the weekend or after 4pm on weekdays. Students may use the parking facilities in Wynyard Street (between Grafton and Alten Roads) without charge after 5.45 p.m. any day, and at any time during the weekends. The parking building at 36 Princes Street is available for general parking after 5.45 each evening and weekends.

PRESS CORRESPONDENCE
Members of the University are reminded that it is normal practice to sign Press correspondence as from the University only when the writer has some special competence in the subject discussed. For members of the teaching staff, such subjects would normally be those within the area of their academic competence, and for students, matters of general student concern. Student members should indicate their student status either in the body of the letter or in the address given. On matters of general public interest, all members of the University write in their private capacity.

COUNSELLING SERVICE
The Counselling Service is located on the upper floor of the eastern extension of the Old Arts Block, and is staffed by both full-time and part-time Counsellors all of whom are registered psychologists. In addition the service has an Adviser for Overseas Students.

Personal counselling and a variety of group activities are available, preferably by appointment. Any enquiries should be made to the secretary, phone 737-895 (for internal extension 7895). The Service is free to all enrolled students, but staff pay a fee of $20 per consultation. Clients may discuss any personal or social problems in complete confidence, without judgement criticism or coercion. The Service seeks to help students learn skills for improved relationships and living, to complement their focus upon academic learning. The Service also incorporates a Student Learning Unit, described below, and accommodates the half-time Mediator in Harassment Procedures. Head of the Service is David Simpson.

THE DEPARTMENT OF PSYCHOLOGY CLINIC
The Psychology Clinic functions as part of the training programme for graduate students enrolled in the Diploma in Clinical Psychology. Psychological services are offered in the areas of assessment, counselling and therapeutic intervention. The Clinic is staffed by trainee clinical psychologists, supervised by staff members who are experienced and registered psychologists. The Clinic is open to the general public, and students and staff of the University are welcome to make appointments. Clients are assured of complete confidentiality. Fees are charged for each session on a sliding scale dependent on income. All initial sessions are $11, and the student rate is $11 per session. The Clinic is located in the Psychology Department on level 5 of the Human Sciences Building. Appointments can be made by phoning 737-999 Exts. 8412/8413/8562.

STUDENT LEARNING UNIT
The SLU is located in Rooms 1.48, 1.51 on the upper floor at the eastern end of Old Choral Hall, and is staffed by part-time academic tutors with special skills for helping students with varied problems of learning. Individual consultations are available free to enrolled students by appointment, phone 737-999 extensions 7321, 7322 or 7323. Varied groups dealing with problems of essay writing, notetaking, basic maths, reading for science, improving memory and concentration, etc. are available each term. Specialised educational testing and evaluation are also available, to assist remedial tuition. The SLU also deals with wider issues relating to attitudes and values in education, notably including problems of choice, and of motivation.
STUDENT HEALTH SERVICE
The University of Auckland Student Health Service is available to all students and is designed to help them maintain an optimum state of health. There is a full-time Director, a nursing sister and eleven part-time doctors including a Psychiatrist and those in the Family Planning and Physical Medicine fields. A full clinical service is provided as well as immunisation against infectious disease and for those going on overseas travel.

The hours of appointment are as follows:
Monday to Friday: 9am to 4.30pm.
During the evening and at weekends an emergency service is available and the doctor on duty can be contacted by phoning 597-119.

Emergency medical services are available
(1) 156 Newton Road, City
(2) 1956 Great North Road, Avondale
(3) 736 Manukau Road, Royal Oak. Open 9am to 6pm weekends and public holidays only
(4) 4 Great South Road, Papatoetoe.

RECREATION CENTRE
The Recreation Centre has been planned to meet a comprehensive range of sporting and recreational needs. The facilities available include seven squash courts, a health and fitness studio, a martial arts studio, a dance studio and the main hall which may be used for basketball, hockey, soccer, volleyball, badminton, cricket, netball, table tennis and cricket practice. The operating costs of the centre are met by membership charges paid by users of the centre.

UNIVERSITY PARK
The University Park is a 40 acre sports complex situated in Glen Innes. Sports facilities include rugby, soccer, hockey, athletics and tennis. The Clubrooms contain changing rooms and extensive social facilities.

THE CRÊCHE
The University operates two crèches primarily available for the children of students but with a limited number of places for those of staff. Based on hourly use with a maximum of up to four hours at any one time, both crèches are open from 7.45am to 5pm Monday to Friday during the University term. Holiday care is available during May and August. The licence is for children aged from 0-5 yrs. Staff are trained in Early Childhood Care and Education. Enrolments are accepted during enrolment week, and early enrolment at that time is advised. Both crèches will be open for casual use from the beginning of February.
For further information telephone Mrs McCulloch Ext. 7755.

HARASSMENT PROCEDURES
The University of Auckland is committed to the prevention of harassment whether it is sexual, racial or religious and which it defines as “the interference by offensive behaviour or unwanted attention in the pursuit of work or study or proper enjoyment of the University’s amenities by students, officers or members of the University.” Harassment procedures have been established to facilitate the quick, equitable and confidential resolution of harassment complaints.

CONTACT PEOPLE: Throughout the University there is a network of contact people drawn from staff and the student body to hear complaints in the first instance. Their role is to listen to the complaint, provide support for the complainant and describe the options available to the complainant for the resolution of the problem. Their names and contact numbers can be found on the back of the University internal telephone directory, at each departmental administrative office, at the Students’ Association offices and on the harassment brochure distributed to each student and each department at the beginning of each academic year.

MEDIATOR: The University also has a mediator on the staff to support the contact network, to assist in the resolution of complaints of a more serious nature or which for one reason or another cannot be resolved at contact network level and to assist in the establishment of education programmes throughout the University aimed at preventing the occurrence of harassment. The mediator may be contacted through the Counselling Service.
These procedures provide a completely confidential and sympathetic forum for the hearing and solution of sensitive complaints of this nature.
THE UNIVERSITY FINDS HARASSMENT TOTALLY UNACCEPTABLE. NO PERSONS USING THE UNIVERSITY'S FACILITIES SHOULD HESITATE TO USE THE PROCEDURES IF THEY FEEL THEY ARE THE VICTIM OF HARASSMENT.

TELEPHONES
Telephones for the use of students are provided by the Students' Association in the Student Union Building. In addition, Public Telephones are provided in the Arts Building (adjacent to the Post Office), the Library Building (first floor by the lifts), the Thomas Building and at the School of Engineering (adjacent to the Library), Human Science Building (adjacent to lecture theatres), School of Architecture (adjacent to lecture theatres), Physics Building basement, Arts/Commerce Building Block 1 level 2, Block 2 level 2, Chemistry Building foyer and School of Medicine near cafeteria.
Students are not permitted to make or receive outside calls through the University main telephone system except on University business.

STUDENTS' ASSOCIATION
The Association is an Incorporated Society which was founded in 1891. The aim of the Association is to further the interests of the student body within the University and without. The student body is an integral part of the University community and the Association and its members are involved not only in the government of the University but also in fostering social, intellectual, political, cultural and sporting activities within the University.
In recent years the Association has changed from a merely social and service organisation catering for the needs of students on Campus to an organisation concerned with student problems in their widest context.
The control of the business and affairs of the Association rests with the Executive Committee elected annually and comprising a full-time President and fifteen portfolio holders together with the Association Secretary - a full-time administrative post. The Executive is the official mouthpiece for the Association and takes official action on behalf of the Association in the interests of the student body. Through this Executive which acts as a co-ordinating body the Association undertakes a wide and varied number of activities.
The Association is a link between individual students and the academic and administrative staff of the University. Students elect four representatives to Senate, one representative to University Council, representatives to departmental and faculty committees as well as representatives to committees of Senate and Council. The President also sits ex officio on the Council and the Senate. Through its Executive, the Association represents students in matters involving their interest within the University and the community at large.
The Student Representative Council (SRC) was set up in 1969 and membership is open to all students. The political and policymaking body of the Association, SRC is empowered to act on any matter of concern to students.
There are over one hundred clubs and societies affiliated to the Association covering many spheres of student interest. The sports clubs cater for almost all sporting interests and most participate in the local Auckland inter-club competitions and in the NZCUSU tournaments. The cultural societies cater for a wide range of religious, academic, social, cultural and political interests. Information about these clubs and societies is available in the Orientation Handbook. The Association employs a full-time Social Activities Officer and organises a large number of social functions and cultural activities during the course of the year. These include informal dances, the formal Graduation Ball, film festivals and the annual Capping Festival. During the first two weeks of the academic year the Association organises the Orientation Festival to acquaint new students with the varied facets of University life. The Association organises student concessions for its members with a number of city firms and with the promoters of attractions of interest to students.
Various welfare activities (e.g. school visits, blood days, emergency accommodation) are co-ordinated by the Welfare Officer. The Association runs an Employment Bureau to obtain part-time and vacation work for students. The Association also employs a Disabled Students Resource Officer who is responsible for giving practical help and support to physically disabled students, as well as arranging access improvements, enrolling, parking and examination needs and a part-time Student-Parent Resource Officer to look after the needs of student parents.
The Association is responsible for various publications co-ordinated by the Media Officer, including a newspaper Craccum which appears weekly during term and traditionally expresses students' views and features news and viewpoints of significance to students; such publications as Discount Book, The Other Calendar and BiFiM magazine, and as well distributes the various publications of the national body, NZUSA. "Radio BFM", the Association's FM radio station, broadcasts on 91.8MHz throughout the academic year and is staffed by students.
The Association occupies the Student Union Building whose control and use is subject to management by the Student Union Management Committee consisting of six students and five representatives of the University including representatives of the Senate, Council and Sub-Professorial staff. The Student Union is made up of five blocks. The cafeteria block is under the general supervision of the Catering Manager and contains a basement and kitchen and the ground floor cafeteria seating 400 where a full hot and cold food service is available. The Restaurant which seats 100 provides a higher quality evening meal for students and staff. The Coffee Lounge next door to the Restaurant specialises in percolated coffees, gateaux and croissants. The Milk Bar on the basement level offers sweets, milkshakes, ice-creams, etc, and has indoor and outdoor seating for 70. The Coffee Bar, also on the basement level, which seats 90, is open for extended hours and serves coffee, tea and light snacks. On the top floor of the cafeteria block the Association runs a licensed club "Shadows". This is open to all Association members aged 18 or over and provides a nightly programme of entertainment and a range of refreshments. The Association also operates cafeterias in the Human Sciences Building, the Engineering School and the Medical School. The Administration block of the Student Union contains the Association offices, Council Room, general meeting rooms, and the Executive offices along with the offices of the President and the Association Secretary, Union Manager and Accountant. The public office is open from 9 am to 5 pm for Association business. Alongside this stands the block housing the University Book Shop Auckland Ltd, in which the Association has a half interest, above which are the main common rooms. Underneath both these blocks is the basement, storage, toilets and student locker area. The two blocks nearest Alfred Street contain the TV room, billiards room, the sick bay, an interim Marae, meeting rooms, womenspace and video games room. All students are required to pay the annual Students' Association fee of $85.80, a portion of which is paid into the building fund. The building fund levy is payable for 5 years of attendance at the University of Auckland, credit being given for attendance at other New Zealand Universities for any full year. The building fund is used to finance present and future buildings in the Student Union. The Maidment Arts Centre, on the corner of Princes Street and Alfred Street, caters for the cultural activities of the Association and the University. The centre contains two theatres, the large being the Kenneth Maidment Theatre seating 450, while the smaller Little Theatre is suitable for audiences of up to 120. The Centre is managed by the Theatre Management Committee which comprises five Association and four University members. The Recreation Centre has been planned to meet a comprehensive range of sporting and recreational needs. The facilities available include seven squash courts, a health and fitness studio, a martial arts studio, a dance studio and the main hall which may be used for basketball, hockey, soccer, volleyball, badminton, netball, table tennis and cricket practice. The operating costs of the centre are met by membership charges paid by the users of the Centre. The centre is managed by the Student Recreation Committee which comprises four Association and six University members. The Committee also supervises the facilities at University Park, a 40 acre sports complex situated in Glen Innes. Sports facilities include rugby, soccer, hockey, athletics and tennis. The Clubrooms contain changing rooms and extensive social facilities. The official Association noticeboard outside the Bookshop carries information on Association activities and meetings, as well as details on Association appointments to various bodies and committees.

**THE NEW ZEALAND UNIVERSITY STUDENTS' ASSOCIATION**

Formed in 1929, the New Zealand University Students' Association is the national union of New Zealand's university students, to which all seven local university students' associations are affiliated, giving a total membership of approximately 50,000. NZUSA acts for students in all matters of national concern. Education and student welfare are NZUSA's major concerns, but it also takes stands on wider social and political issues on which students, through their representatives, have expressed their collective views.
NZUSA's National Office is in Wellington and is headed by the President along with General, Women's, Maori and Education and Welfare Vice-Presidents and two Research Officers. In addition there is one part-time officer, the National Overseas Students' Action Committee Co-ordinator. NZUSA's policies are made by representatives of its constituent students' associations at Council Meetings twice a year. These policies are carried out under the guidance of the National Executive consisting of the Presidents of the constituent associations and the full-time elected officers of NZUSA. NZUSA's activities are funded by an annual levy of approximately $9 paid by constituent students' associations on account of each individual member. More information about NZUSA can be gained by contacting AUSA or by writing to the President, PO Box 9047, Courtenay Place, Wellington.

AUCKLAND UNIVERSITY DISTRICT GRADUATES' ASSOCIATION (INC.)
President: R. H. Lockstone, BA, N.Z.
Secretary: M. A. Perkinson, MCom, ACA.
The Graduates' Association was formed in 1951 with the primary aim of assisting the Court of Convocation to carry out its function of electing six members of the Court to the University Council, the governing body of the University of Auckland, and to make representations to the Council on any matter concerning the interests of the University.
Other objects of the Graduates' Association are the provision of facilities for intellectual and social intercourse among University graduates, the promotion of interest in University affairs among graduates and others, the publishing of magazines, periodicals, etc dealing with matters concerning graduates or University affairs, and generally furthering the interests of University graduates who are, or have been, members of the Court. The Association also concerns itself with the interests of undergraduates, particularly in relation to welfare, accommodation, etc. A recent Association project was the setting up of a student loan fund for short-term loans to students in temporary financial difficulties. (Applications for these are made through the Student Counsellors.) Membership of the Association is open to graduates and diploma holders of any University (in or out of New Zealand). Those eligible to join the Association who have not already done so would be welcomed as members. The President, Mr R. H. Lockstone, 40 Landscape Rd, Mt Eden, phone 689-519, or Mr M. Perkinson of the Department of Accountancy Auckland University, will be pleased to receive membership inquiries or to give further information about the activities of the Association and the Court of Convocation.

AUCKLAND UNIVERSITY CLUB (INC.)
Phone: 732-279.
The Auckland University Club Inc., provides the means by which former graduates can maintain close links with other graduates, with present students and with members of the University Staff. It encourages a closer relationship between the University and the professional and business community. The Club is located in its own premises at 23/25 Princes St where the facilities include a restaurant, two bars, private function room, reading room and a pool room. Membership is open to persons over the age of 20 who are members of the Court of Convocation of the University of Auckland, graduates or diploma holders of other Universities, members of professional societies who have gained a substantial portion of their professional qualifications as students of the University of Auckland, and members of The Auckland University Students' Assn (Inc.) and other suitable persons. Numbers are limited in terms of the Club Charter to 2250. Application forms are available from the Secretary.

THE NEW ZEALAND UNIVERSITIES GRADUATES ASSOCIATION (UK)
The New Zealand Universities Graduates Association (UK) was formed in 1967 with the main aim of creating and fostering opportunities for graduates of New Zealand Universities to establish contacts with other New Zealand graduates in the United Kingdom of Great Britain and Northern Ireland. Other objects of the Association are the establishment of links with Universities and University organisations throughout the United Kingdom and New Zealand, and to make known to visitors the names of individuals or organisations who might be helpful to them. Membership is open to holders of a degree or equivalent professional qualifications and associate membership is available to all members of NZUSA who are not yet graduates. Subscriptions are subject to review and in

1988 Calendar
LECTURE AND LABORATORY TIMETABLE
The following section contains lecture and laboratory times for students taking Courses in the Faculties of Arts, Commerce, Music and Science.

Timetables for lectures in the Faculty of Architecture, Property and Planning and the Schools of Engineering, Fine Arts, Law, Medicine, will appear on departmental noticeboards at the beginning of the session.

Notes:
(1) The timetable is a basic structure only; additional information is available from each Department.
(2) Certain classes are held at times arranged by the Department concerned, in particular these are:
(i) lectures for Masters degree courses;
(ii) tutorials, oral and practical classes (this applies to a large number of subjects).
In general such classes are not included in this printed timetable, details of all the above are placed on Departmental noticeboards or given out at early class meetings.
(3) Stage I Science lectures are given in sets. Before the beginning of the session students should consult Departmental noticeboards to see which sets of lectures they are required to attend and to confirm the hours shown in the timetable.
(4) Departments will announce the allocation of individual courses to particular lecture hours. Some of the lecture hours shown will be used for optional or alternative courses and in some cases all the lecture hours allocated may not be utilised.
(5) Students will not be permitted to enrol in Courses of Study that have a clash in lecture times, except with the approval of the Senate.
(6) Bracketed papers. Each bracketed paper will be taught at one or more of the times listed. Details are available from the Departments concerned.

Note: Laboratories are taken over the same period as the corresponding lectures, unless otherwise stated.

The length of laboratories is shown as follows:
- F 10-1 indicates a lab beginning at 10 am and finishing at 1 pm on Fridays.
- Where only one figure is given, e.g. W 3, the lab indicated lasts from 3 pm to 4 pm on Wednesdays.

TERTIARY ASSISTANCE GRANTS
For the convenience of students a brief outline of grants available through the Department of Education is printed below.
The official information is contained in a booklet available from the Registry entitled Applicants Guide for Tertiary Assistance Grants.
All enquiries should be made in the first instance to the Tertiary Grants Section, Registry building.
Note: Values stated are the figures as at July, 1987.

ELIGIBILITY
A Study Grant may be awarded only to a person who is:
(1) A New Zealand citizen; or
(2) a person from overseas who is entitled to reside permanently in New Zealand and who signs a statutory declaration stating their intention to do so.
Persons admitted to New Zealand on a study permit issued by the Department of Labour are not eligible for bursary assistance.

1. FEES GRANT
   (A) FEES GRANT
   A fees grant may be awarded to a student who is enrolled for a recognised course of study at a university in New Zealand provided that he/she is taking in that year at least one-third of a full-time programme.
   (B) VALUE OF A FEES GRANT
   A fees grant meets 75% of the tuition fees for all of the courses that normally constitute the course of study for which the grant is awarded.
   (C) INCOME RESTRICTION
   Students are not eligible for a fees grant if they have a personal gross income from any source in excess of $4,000.
   (D) TERM OF A FEES GRANT
   The maximum fees grant assistance available is for two courses or the equivalent of five years of a full-time study, whichever is the lesser.
   (E) SUSPENSION OF A FEES GRANT
   (a) Full-time study
   A fees grant is suspended if a student fails to pass more than half the course for which they receive assistance or more than half a full-time programme, whichever is the lesser.
   (b) Part-time study
   A fees grant is suspended if the student fails to pass more than half the papers for which they receive assistance or at least one third of a full-time programme whichever is the greater.
   (F) REINSTATEMENT OF FEES GRANT
   A fees grant is reinstated if in a subsequent year of study the student passes one-third of a full-time programme.

2. STUDY GRANT
   (A) STUDY GRANT
   A study grant is available where the following conditions are met:
   (i) for full-time study at a university;
   (ii) enrolled in an approved course;
   (iii) the course is a recognised course of study
   (iv) must attend all lectures, laboratories and tutorials.
   (B) VALUE OF STUDY GRANT
   The value is $41 a week for the period of the academic year.
   (C) INCOME RESTRICTION
   Students are not eligible for the full study if they are in receipt of a personal income of over $4,000 p.a.
   (D) TERM OF STUDY GRANT
   A study grant is available for recognised courses only, subject to a maximum of two courses or a limit of five years (unless the course has been specifically recognised as a long course). Each recognised course has a minimum tenure in which a full-time student could complete the recognised course.
(E) SUSPENSION OF A STUDY GRANT
A study grant is suspended if in any year, the student fails to gain passes in more than half the work of a full-time course.

(F) REINSTATEMENT OF STUDY GRANT
A suspended study grant can be reinstated if students, at their own expense, gain passes in more than half the work of a full-time course in any subsequent year of study.

3. A AND B BURSARIES
These are worth $200 p.a. and $100 p.a. respectively. They may be gained by passing Bursary examinations or sufficiently high grades in final examinations for a full-time course of study.

4. ACCOMMODATION GRANT
An accommodation grant of $37.50 per week may be claimed by students under the age of 20 years on 31 January, provided they are eligible to claim a study grant, if it is necessary for them to live away from either parent whose normal place of residence is outside the accommodation grant boundary, in order to attend the tertiary institution offering their course of study.

Students over the age of 20 years on 31 January may, provided they are eligible to claim a study grant, claim an accommodation grant if they are not residing at the home of either parent.

5. HARDSHIP GRANT
A hardship grant is available to students who are in receipt of a tertiary study grant and who would be unable to study full-time without additional financial assistance. The maximum amount payable is $58 weekly bringing the total grant payable to a maximum of $136.50 weekly. Applications for the hardship grant are assessed on a case by case basis and awards are made in accordance with the needs of individual students.

In general, single students under the age of 20 on 31 January in the year in which the application is made are required to make joint application with their parents or guardians. This may be waived in exceptional circumstances.

Additional information may be obtained by writing to the Registrar, University of Auckland, Private Bag, Auckland.

**TENURE**

In general, students have a standard entitlement to assistance for two recognised courses or five years, whichever is the lesser. (The entitlement to fees grant is for assistance for two recognised courses or the equivalent of five years of full-time study, whichever is the lesser.) The period of tenure for the various courses that have been recognised for tertiary grants purposes is as follows:

- **One Year:** DipBrC, DipBIA, DipCompSci, DipDrama, DipEd, DipELT, DipGeothermTech, DipGuid, DipLGA, DipMus (Hons), DipStats, DipMathEd, PGDipSocRes, MPlan, MArch, MJur, LLM (papers only), MMedSc, MHB, BMus (Performance) (Hons), ME (papers only), Transitional Certificate

- **Two Years:** DipCrim, DipTP, MBChB, MA, MCom, MSc, MPhil, MFA, ME (papers and thesis) MMus, LLM (papers and thesis), MA/DipClinPsych, DipEdPsych

- **Three Years:** BA, BCom, BHB, BMus, BPA, BSc, DipMus

- **Four Years:** BE, BFA, BMus (Performance), BOptom, BSc (Hons), BPlan, DipOpt, LLB, LLB (Hons), BCom/BSct, BCom/BA

- **Five Years:** BA/Arch, BA/BSc, BA/LLB†, BA/LLB (Hons)†, BA/BMus†, BA/BMus (Performance)†, BA/DipMus†, BA/DipMus (Hons)†, BCom/LLB†, BCom/LLB (Hons)†, BHB/MBChB, BMus DipMus†, BMus/DipMus (Hons)†, BSc/DipOpt†, BMus (Performance)/BMus (Performance) (Hons), BA/MA, BA/MA/DipClinPsych.

- **Six Years:** LLB/LLM (papers and thesis)*, BFA/MFA*, BHB/MBChB/MMedSc*, BHB/MHB/MBChB*, BA/Arch/MArch*, BE/ME (papers and thesis)*, BMus (Perf)*/MMus (Perf)*, DipOpt/MSc (in Psych)*

- **Seven Years:** BSc/BHB/MBChB, BA (Bio or Chem)/BHB/MBChB

**Notes:**

(i) Conjoint courses, marked with a dagger (†), count as two courses. Other combined courses count as one course only.

(ii) Those combinations of courses marked with an asterisk (*) have been approved as "long" courses and can qualify for a sixth year of tenure.

(iii) Certain courses have been designated as Courses of National Importance with a tenure of 6-7 years. Students may apply to the Director-General to receive assistance for combinations of courses regardless of any previous assistance which has been granted. A combination of a paramedical course and a suitable undergraduate course is designated as a Course of National Importance.

(iv) A further year's fees assistance is available for Law Professionals in the following combinations only: LLB/LLM/LawProf and LLB (Hons)/MJur/LawProf, LLB/LawProf and LLB (Hons)/LawProf.

(v) Seven years, long course in Medicine, requires student to be admitted to BHB II on the basis of credits for the first Degree.

**SCHOLARSHIPS AND PRIZES**

A booklet entitled Awards Handbook is available without charge from the enquiry counter at the Registry, Princes Street. This booklet gives full details of the regulations governing scholarships, bursaries, prizes and other awards administered by the University and details of funds available for special assistance.

A handbook published annually entitled University Grants Committee Handbook gives full details of the regulations governing awards administered by the University Grants Committee. This handbook is available from Whitcoulls Ltd, booksellers, and for reference in the University library.

**REVIEW OF SCHOLARSHIP**

The Council, in awarding any scholarship, reserves the right to reduce the annual value of such scholarship at any time and from time to time during the tenure of it by any holder should the annual income of the funds of such scholarship, in the opinion, of the Council, render such reduction expedient. All scholarships offered are subject to review in the event of the candidate being awarded other scholarships. Every holder of a scholarship shall be deemed to accept the award of same, subject to the above reservation, and notwithstanding that the value of such scholarship is set out specifically in the Regulations.

**RE-AWARD OF A SCHOLARSHIP DISCONTINUED BY THE ORIGINAL HOLDER**

Fresh applications may be called for in any scholarships discontinued after a period of three months or more from the original date of award; the re-award in the event of this discontinuation of the scholarship to be made on the basis of the original application if possible.

AN ACT TO CONSOLIDATE AND AMEND CERTAIN ENACTMENTS OF THE GENERAL ASSEMBLY RELATING TO THE UNIVERSITY OF AUCKLAND

BE IT ENACTED by the General Assembly of New Zealand in Parliament assembled, and by the authority of the same, as follows:

1. Short Title and commencement — (1) This Act may be cited as the University of Auckland Act 1961.
   (2) This Act shall come into force on the first day of January, nineteen hundred and sixty-two.

2. Interpretation — In this Act, unless the context otherwise requires, —
   “The Chancellor” means the Chancellor of the University of Auckland elected under this Act:
   “The Council” means the Council of the University of Auckland:
   “Financial year” means the financial year of the University fixed by the Council with the concurrence of the University Grants Committee:
   “General course of study” means the structure of any course for a degree or other academic qualification and the subjects of study in the course; and includes the content of any subject in the course, any set works or periods to be studied, the extent and nature of any practical work required for any such subject, any prerequisites to the course or to the subjects of study in the course, and the types of examination:
   “Lecturer” means a member of the staff of the University of Auckland who is in terms of his appointment an associate professor, a reader, a senior lecturer, or a lecturer of the University; and includes such other persons and classes of persons the Council from time to time determines:
   “Personal course of study” means the subjects which an individual student selects for a degree or other academic qualification in accordance with the general course of study for the time being prescribed for all students for the degree or other academic qualification:
   “The Pro-Chancellor” means the Pro-Chancellor of the University of Auckland elected under this Act:
   “Professor” means a professor of the University of Auckland; but does not include an associate professor:
   “The Registrar” means the Registrar of the University of Auckland:
   “The Senate” means the Senate of the University of Auckland:
   “Students’ Association” means the Auckland University Students’ Association Incorporated:
   “The University” means the University of Auckland constituted under this Act:

3. Constitution of the University — (1) For the advancement of knowledge and the dissemination and maintenance thereof by teaching and research there shall be in the Auckland University District a University to be called the University of Auckland.
   (2) The University shall consist of the Council, the professors emeriti, the professors, lecturers, junior lecturers, Registrar, and librarian of the University for the time being in office, the graduates and undergraduates of the University, the graduates of the University of New Zealand whose names are for the time being on the register of the Court of Convocation of the Auckland University District, and such other persons and classes of persons as the Council may from time to time determine.
   (3) The University shall be a body corporate with perpetual succession and a common seal, and may hold real and personal property, and sue and be sued, and do and suffer all that bodies corporate may do and suffer.
   (4) The University established under this Act is hereby declared to be the same institution as the institution of that name existing immediately before the commencement of this Act under the University of Auckland Act 1954 (as amended by the University of Auckland Amendment Act 1957), which institution was originally established under the name of the Auckland University College under the Auckland University College Act 1882.

4. University District and Court of Convocation — (1) For the purposes of this Act there shall be a district to be called the Auckland University District, comprising the area specified in the First Schedule to this Act.
   (2) The boundaries of the Auckland University District may be altered from time to time by the Governor-General by Order in Council.
   (3) There shall be a Court of Convocation for the Auckland University District.
   (4) The said Court of Convocation shall consist of the persons whose names are enrolled on a register to be kept by the Registrar.
   (5) Every person shall be entitled to have his name enrolled on the register of the Court of Convocation who —
      (a) Is a graduate of the University; or
(b) Being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted *ad eundem gradum* before the first day of January, nineteen hundred and forty-three, is not, by reason of that qualification, enrolled on the register of the Court of Convocation for any other University District in New Zealand, and is otherwise qualified in accordance with statutes made by the Council to be enrolled on the register of the Court of Convocation for the Auckland University District; or
(c) Not being such a graduate, is a professor or graduate full-time member of the staff of the University or a graduate member, approved by the Council as being of University status, of the staff of an institution affiliated to the University; or
(d) Is otherwise entitled in accordance with statutes made by the Council to have his name enrolled on the said register.

(6) The Council may from time to time make statutes for the keeping of the register of the Court of Convocation, which statutes may include provisions prescribing the persons and classes of persons who are eligible under paragraph (b) or paragraph (d) of subsection (5) of this section for membership of the said Court of Convocation and the conditions (whether as to payment of fee or otherwise) on which persons are entitled to have their names enrolled in the register of the said Court; and, subject to this Act and to the said statutes, if any, the said Court shall have power to make such rules for the conduct of its business as it thinks fit as the Council may determine.

(7) The said Court may make representations to the Council on any matter concerning the interests of the University.

5. Visitor of the University— The Governor-General shall be the Visitor of the University, and shall have all the powers and functions usually possessed by Visitors.

The Council

6. Constitution of Council — (1) There shall be a Council of the University, to be called the Council of the University of Auckland.

(2) The Council shall consist of—

(a) Three members to be appointed by the Governor-General:
(b) The Vice-Chancellor or, while there is no Vice-Chancellor in office or during the absence or incapacity of the Vice-Chancellor,—
   (i) The Deputy Vice-Chancellor; or
   (ii) While there is no Deputy Vice-Chancellor in office during the absence or incapacity of the Vice-Chancellor, the Chairman of the Senate:
(c) Five members to be appointed by the Senate, of whom four shall be professors, and one shall be a lecturer appointed by the Senate from its sub-professorial members:
   (ca) One full-time lecturer to be elected by the full-time lecturers:
   (d) Six members to be elected by the Court of Convocation for the Auckland University District:
   (e) One member to be elected by the governing bodies of State secondary schools, technical schools, and combined schools, and such registered private secondary schools as the Council may from time to time determine, being in all cases schools situated in the Auckland University District, each governing body to have one vote for the purposes of any such election:
   (f) One member, to be appointed by the Executive Committee of the Students' Association, who shall be, at the time of his appointment, enrolled for a degree or diploma as a full-time or part-time internal student of the University and shall, before being appointed, have been enrolled for at least 2 academic years at a university or universities in New Zealand:
   (fa) The president for the time being of the Students' Association:
   (g) Such numbers of members (not exceeding three) as the Council from time to time after the commencement of this Act thinks fit, to be appointed by the Council:
   (h) The Mayor of Auckland:
   (i) One member to be appointed by the Council of the University of Albany. The first member shall be appointed as soon as practicable after such date as shall be prescribed by Order in Council for a term which shall be deemed to have commenced on the date so prescribed.
(3) The Mayor of Auckland may from time to time nominate a member of the Auckland City Council to be his alternate on the Council; and the alternate for the time being may act in place of the Mayor at any meeting of the Council not attended by the Mayor.

(3a) Notwithstanding anything in subsection (2) of this section, the membership of the Council shall also include for a single term expiring with such date as shall be prescribed by Order in Council, one additional member who shall be appointed by the Council of the University of Albany as soon as practicable after the commencement of the University of Albany Act 1972.
7. Transitional provisions — (Repealed)

8. Terms of office — (1) Subject to the provisions of this Act, the members of the Council elected under paragraph (d) of subsection (2) of section 6 of this Act shall hold office for a term of four years, the members of the Council appointed under paragraphs (c), (ca), and (f) of subsection (2) of section 6 of this Act shall hold office for a term of two years, and all other elected or appointed members of the Council shall hold office for a term of three years. All elected or appointed members of the Council may from time to time be re-elected or reappointed.

(2) Elections or appointments of members of the Council to take the place of members whose terms are due to expire with the thirtieth day of June in any year shall be held or made not later than the third Monday in June in that year; and members so elected or appointed shall come into office on the first day of July following the date specified in this subsection for their election or appointment.

(3) Appointments of members of the Council to take the place of members whose terms are due to expire with the thirty-first day of December in any year shall be made not later than the third Monday in December in that year; and members so appointed shall come into office on the first day of January following the date specified in this subsection for their appointment.

(4) If at the time prescribed by this section for the election or appointment of any member or members of the Council no member or members or insufficient members are elected or appointed, the Council may itself appoint a suitable person in the place, and for the term or the remainder of the term, of the member who should have been elected or appointed.

(5) Every member of the Council elected or appointed under any of the provisions of paragraphs (a), (c), (ca), (d), (e), and (f) of subsection (2) of section 6 of this Act, unless he sooner vacates his office under section 11 of this Act, shall continue to hold office until his successor comes into office. Every member of the Council appointed under paragraph (g) of subsection (2) of section 6 of this Act shall go out of office at the expiration of his term of office.

9. Employees as Council members— (1) No person in the employment of the University shall be eligible for office as a member of the Council, otherwise than under paragraph (b) or paragraph (h) of subsection (2) of section 6 of this Act, unless he is a member appointed by the Senate:

Provided that the Council may pay to any member for the time being of the Council who has acted, at the request of the Council, as an examiner, assessor, or moderator in any subject or examination a fee or stipend determined in accordance with paragraph (c) of section 18 of this Act, and no person to whom any such fee or stipend is paid shall be ineligible as aforesaid:

Provided also that no person shall be ineligible as aforesaid by reason of any other employment by the University if the amount paid to him in any financial year in respect of that employment does not exceed such amount as the Minister of Education from time to time determines.

10. Disqualification of members of Council — The following persons shall be incapable of being elected or appointed to be members of the Council:

(a) A mentally defective person within the meaning of the Mental Health Act 1911;

(b) A bankrupt who has not obtained his order of discharge or whose order of discharge has been suspended for a term not yet expired or is subject to conditions not yet fulfilled;

(c) A person convicted of any offence, punishable by imprisonment, unless he has received a free pardon or has served his sentence or otherwise suffered the penalty imposed on him.

11. Casual vacancies in Council — (1) Subject to subsections (1A) and (1B) of this section if any elected or appointed member of the Council —

(a) Dies; or

(b) Resigns his office by writing under his hand delivered to the Registrar; or

(c) Is absent without leave from three consecutive meetings of the Council; or

(d) Becomes ineligible for election or appointment to the Council under the provisions of this Act under which he was elected or appointed; or

(e) Becomes a mentally defective person within the meaning of the Mental Health Act 1911; or

(f) Is adjudged a bankrupt; or

(g) Is convicted of any offence punishable by imprisonment for a term of 2 years or more; or

(h) Is convicted of any offence punishable by imprisonment for a term of less than 2 years and is sentenced to imprisonment or that offence, he shall thereupon cease to be a member and the vacancy thereby created shall be deemed to be a casual vacancy.

(1A) In any case to which paragraph (g) of subsection (1) of this section applies —

(a) The disqualification shall not take effect until the expiration of the time for appealing against the conviction and, in the event of an appeal conviction, until the appeal is determined; and

(b) The member concerned shall be deemed to have been granted leave of absence until the expiration of that
time, and shall not be capable of acting as a member during the period of that leave of absence.

(1B) In any case to which paragraph (b) of subsection (1) of this section applies —

(a) The disqualification shall not take effect until the expiration of the time for appealing against the conviction or the sentence and, in the event of an appeal against conviction or against the sentence or both, until the appeal is determined; and

(b) The member concerned shall be deemed to have been granted leave of absence until the expiration of that time, and shall not be capable of acting as a member during the period of that leave of absence.

(2) If any elected or appointed member of the Council becomes the Mayor of Auckland or the Vice-Chancellor, a casual vacancy shall arise in respect of the office previously held by him.

(3) Every casual vacancy in the office of an elected or appointed member of the Council (other than a member appointed under paragraph (g) of subsection (2) of section 6 of this Act) shall, as soon as practicable, be filled by the election or appointment of a new member, in place of the vacating member, in the same manner as in the case of the vacating member, and the member elected or appointed to fill any casual vacancy shall hold office for only the residue of the term of the vacating member.

12. Proceedings of Council not affected by vacancies, etc. — No act or proceeding of the Council, or any committee thereof, or of any person acting as a member of the Council, shall be invalidated in consequence of there being a vacancy in the number of the Council at the time of that act or proceeding, or of the subsequent discovery that there was some defect in the election or appointment of any person so acting, or that he was incapable of being or had ceased to be such a member.

13. Election of members — (1) The Registrar of the University, or such other person as the Council appoints, shall be the Returning Officer for the purpose of conducting elections of members of the Council.

(2) The elections of members of the Council shall be conducted and determined, and rolls for the elections shall be prepared in the manner prescribed by statutes or regulations of the University.

14. Meetings of Council — (1) The Council shall meet at such times and places as it determines: Provided that it shall meet at least once in the month of July in each year.

(2) At any meeting of the Council six members shall form a quorum, and no business shall be transacted unless a quorum is present.

(3) At any meeting of the Council the person presiding at the meeting shall have a deliberative vote, and in the case of an equality of votes shall also have a casting vote.

(4) Every question before the Council shall be decided by a majority of the votes of the members present at the meeting of the Council and entitled to vote on that question.

15. Special meetings of Council — (1) The Chancellor may at any time, of his own motion, call a special meeting of the Council, and the Chancellor shall call a special meeting on the requisition in writing of any five members.

(2) Notice of any such meeting shall be posted to each member at his usual address at least forty-eight hours before the time fixed for the meeting.

16. Council may appoint committees — (1) The Council may from time to time appoint standing or special committees.

(2) The Council may delegate any of its powers and duties, including any powers, and duties which it has by delegation from any other body or person, but (except as provided in subsection (2) of section 35 of this Act) not including this power of delegation, and not including the power to make statutes and regulations, to any such committee or to the Senate or any person; and the committee or the Senate or person, as the case may be, may, without confirmation by the Council, exercise or perform the delegated powers or duties in like manner and with the same effect as the Council could itself have exercised or performed them.

(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power or the performance of any duty by the Council.

(4) Unless and until any such delegation is revoked, it shall continue in force according to its tenor.

(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Council.

Powers of the Council

17. Council to be governing body of University — The Council shall be the governing body of the University through which the corporation of the University shall act, and shall have the entire management of and superintendence over the affairs, concerns, and property of the University; and, subject to the provisions of this Act and any other Act, shall in respect of all such matters have authority to act in such manner as appears to it to be best calculated to promote the interests of the University and of any other institution controlled by the Council and to promote and foster adult education:

Provided that the Council shall not make any final decision on any matter mentioned in section 36 of this Act

1988 Calendar
until it has first consulted the Senate or in the case of any appointment or removal of academic staff the committee of the Senate specified in the second proviso to that section, and considered any recommendations the Senate or committee may make in that belief, unless the Senate or committee, having had reasonable opportunity to make such recommendations, has failed so to do.

18. Appointment of professors, lecturers, etc. — Subject to the provisions of section 36 of this Act, the Council shall have power —
(a) To institute the offices of professor and lecturer and such other offices as it thinks fit in connection with the University and any other institution controlled by the Council;
(b) To appoint, upon such conditions, for such term, and upon such notice, as it thinks fit, all professors, lecturers, teachers, officers, and servants of the University and of all other institutions controlled by the Council.
(c) To appoint and remove examiners, assessors, and moderators:
Provided that the fee or stipend which the Council may pay to any examiner, assessor, or moderator shall be in accordance with a scale fixed by the Council with the concurrence of the University Grants Committee.

19. Conferment of degrees — (1) The Council shall have power to confer any degree or to award any other academic qualification specified in the Second Schedule to this Act.
(2) The Council may from time to time, by statute, add to or omit from the list of degrees and other academic qualifications specified in the said Second Schedule the name or description of any degree or other academic qualification or otherwise amend the list; and every such statute shall have effect according to its tenor:
Provided that no statute adding to the said list of degrees shall come into force until it has been approved by the University Grants Committee.
(3) The Council shall, in accordance with such conditions as it may prescribe, have power to confer any degree or to award any academic distinction as an honorary degree or academic distinction:
Provided that no honorary degree or academic distinction shall be conferred on or awarded to any person by the Council unless that person has been recommended thereto by a joint committee of the Council and the Senate set up in accordance with the statutes or regulations of the University.

20. Awards of certificates, etc. — The Council shall have power, under such conditions as it thinks fit, to award certificates, fellowships, scholarships, bursaries and prizes, and to make other awards.

21. Lectures to members of the public — The Council shall have power to provide such lectures and instruction for any persons, whether or not they are members of the University, as it thinks fit, and on such conditions as it thinks fit, and may award certificates to any of them.

22. Power to make statutes and regulations — (1) Subject to the provisions of this Act and any other Act, the Council may from time to time make such statutes of the University as may in its opinion be necessary or expedient for the administration of the affairs of the University.
(2) Subject to the provisions of this Act and to the statutes (if any) of the University, the Council may from time to time make such regulations of the University as may in its opinion be necessary or expedient for the administration of the affairs of the University.
(3) Without limiting the generality of the foregoing provisions of this section it is hereby declared that statutes and regulations so made may prescribe any matters which by this Act are required or permitted to be prescribed or with respect to which statutes or regulations are, in the opinion of the Council, necessary or expedient for giving effect to this Act.
(4) Subject to the provisions of section 36 of this Act and, where so required by any Act, to the consent of the University Grants Committee or the Curriculum Committee, the Council may make statutes or regulations with respect to all or any of the degrees and other academic qualifications, certificates, fellowships, scholarships, bursaries, prizes and awards of the University which the Council may confer or award, and with respect to general courses of study for the same.
(5) All such statutes and regulations shall be in writing.
(6) No statute passed by the Council of the University as aforesaid shall come into force until it has been approved by the Governor-General.
(7) All such statutes and regulations shall have effect according to their tenor, and shall be published by the Council.
(8) A copy of any such statute or regulation under the seal of the University shall be sufficient evidence in all Courts of the same and of its having been made and (where necessary) approved in accordance with this section.

23. Seal of the University — The seal of the University shall be in the custody of the Registrar or such other officer as the Council may appoint, and shall not be affixed to any document except pursuant to a resolution of the Council, or by the authority of a resolution of a committee of the Council acting in accordance with an authority for that purpose conferred upon it by the Council.
24. Admission of students — (1) Every person who is academically qualified for entrance to a University in New Zealand in accordance with the requirements of the Universities Entrance Board shall be eligible to matriculate at the University without further examination.

(2) The Council shall have power to decline to enrol any student at the University, or in a particular course or courses, or in classes in a particular subject or subjects on the ground of —

(a) The person not being of good character; or

(b) Misconduct or a breach of discipline on the part of the student; or

(c) The person not having attained the age of sixteen years on the previous thirty-first day of December, or the person not having attained any other age prescribed in respect of any course of study by any course regulations within the meaning of the Universities Act 1961; or

(d) The person being enrolled for full-time instruction in a secondary school, technical school, combined school, district high school, or registered private secondary or technical school; or

(e) Insufficient academic progress by the student after a reasonable trial at the University or at any other University or University College of Agriculture; or

(f) Insufficiency of accommodation or of teachers in the University or in a faculty, department, class, or course of the University;

Provided that the Council shall exercise its power under this paragraph in accordance with criteria and procedures prescribed from time to time by it after consultation with the University Grants Committee.

(g) The person not having satisfied any conditions prescribed by any course regulations within the meaning of the Universities Act 1961.

(3) The Council shall, as soon as practicable after the commencement of this Act, make a statute or statutes governing the persons and classes of persons who may be enrolled or refused enrolment as external students of the University, and the conditions under which, and the subjects and course for which, they may be so enrolled or refused enrolment. The Council may from time to time make further statutes for all or any of the purposes specified in this subsection, and may by statute repeal or amend any statute made under this subsection. No statute made under this subsection shall come into force until it has been approved by the University Grants Committee.

(4) For the purposes of paragraph (f) of subsection (2) of this section the Council may, if it thinks fit, from time to time make statutes defining the circumstances in which insufficiency of accommodation or of teachers in the University or in a faculty, department, class, or course of the University shall be deemed to exist, and the maximum number of students who may be admitted to any faculty, department, course or class. No such statute shall come into force until it has been approved by the University Grants Committee. Every such definition that is made by statute under this subsection shall be conclusive for all purposes.

(5) Where any person has obtained in any University or other place of learning any degree or other academic qualification or part thereof which the council is empowered to confer or award, the Council may admit that person at its discretion ad eundem statum in the University without further examination and may withdraw any such admission at any time.

(6) A person admitted to the status of the holder of a degree or other academic qualification or part thereof to the University shall not be deemed to be the holder of the degree or other academic qualification or part thereof, nor shall he be entitled to be enrolled as a graduate of the University, but he shall be entitled to proceed to any degree or other academic qualification of which the degree or other academic qualification or part thereof to the status of which he has been admitted is a prerequisite upon the same terms and conditions as those upon which a holder of the degree or other academic qualification or part thereof is entitled so to proceed.

(7) Where a person who has been a student of another University and has matriculated at any university in New Zealand is admitted to the University of Auckland, the Council of that University shall give him such credits as it considers appropriate for any units or subjects which he has already passed in New Zealand and with which he has been credited towards a degree or other academic qualification in his former University or grant him such exemptions as it considers appropriate, so that he may complete his course without suffering undue hardship as a consequence of his transfer.

(8) Any person who is eligible to be admitted or who has been admitted ad eundem at graduate status by the Senate of the University of New Zealand shall be deemed to be of equivalent status in the University of Auckland for the purpose of proceeding to a degree or other academic qualification of the University of Auckland, and shall, subject to the course regulations for the degree or other academic qualification for which he is a candidate, be eligible to proceed to the degree or other academic qualification.

Provided that, in approving his personal course of study, the Senate may, at its discretion, require any such person to complete such supplementary courses as it thinks fit either as a prerequisite to or concurrently with his course of study for the degree or other academic qualification for which he is a candidate.
(9) The provisions of subsection (8) of this section shall, with the necessary modifications, apply to any person who is eligible to be awarded or who has been awarded a diploma of the University of New Zealand, or to any person who has been admitted ad eundem by the Senate of the University of New Zealand to the status of a holder of a diploma of that University.

The Chancellor and Pro-Chancellor

25. Election of Chancellor — (1) At its first meeting held in the month of July in the year nineteen hundred and sixty-two, and in every third year thereafter, the Council shall elect one of its members to be the Chancellor of the University of Auckland:
Provided that the Vice-Chancellor or any other person who is for the time being a member of the Council under paragraph (b) of subsection (2) of section 6 of this Act or a member of the Council appointed by the Senate shall not be so elected.

(2) The Chancellor shall be the ceremonial head of the University and the Chairman of the Council.

(3) Unless the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election:
Provided that, upon any person completing two consecutive terms each of three years as Chancellor, he shall cease to be eligible for re-election as Chancellor until after the lapse of a period of three years during which he did not hold that office.

(4) If the Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, the Council shall elect some eligible person to be the Chancellor for the remainder of the term for which the vacating Chancellor was elected.

(5) For the purpose of the election of the Chancellor for any term, the Registrar of the University shall preside at the meeting, but shall not be entitled to vote. In the event of an equality of votes the election shall be determined by lot.

26. Election of Pro-Chancellor — (1) At its first meeting held in the month of July in each year, the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland.

(2) Unless the Pro-Chancellor sooner resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act, he shall continue to hold the office until his successor is elected, and (subject to the provisions of section 10 of this Act) shall be eligible for re-election.

(3) If the Pro-Chancellor resigns from that office or vacates his office as a member of the Council under subsection (1) of section 11 of this Act or is elected to be the Chancellor he shall thereupon vacate the office of Pro-Chancellor, and the Council shall elect one of its members who is eligible to be elected as Chancellor to be the Pro-Chancellor of the University of Auckland for the remainder of the term.

(4) During any vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Pro-Chancellor shall have and may exercise and perform all the powers and duties of the Chancellor, other than his powers in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

27. Right to preside at meetings of Council — The Chancellor shall preside at every meeting of the Council at which he is present. If at any meeting of the Council the Chancellor is not present or there is no Chancellor, the Pro-Chancellor shall preside at the meeting; and if the Pro-Chancellor also is not present at the meeting or there is no Pro-Chancellor, the Council shall appoint some member present to preside at that meeting. The Pro-Chancellor or person so appointed shall have and may exercise in any such case all the powers and functions of the Chancellor for the purposes of the meeting.

The Vice-Chancellor and Deputy Vice-Chancellor

28. Vice-Chancellor — (1) The Council may from time to time appoint some fit and proper person to be the Vice-Chancellor of the University of Auckland.

(2) The Vice-Chancellor shall have the following functions, powers and duties:
(a) He shall be the academic and administrative head of the University:
(b) He shall, by virtue of his office, be a member of the Council, Chairman of the Senate, a member of every faculty, and a member of every committee set up by the Council or the Senate:
(c) He shall have such duties as the Council, subject to the provisions of this Act, may from time to time specify:
(d) He may, during the intervals between meetings of the Senate, exercise alone (but subject always to the control of the Council and to a right of appeal to the Senate) such of the powers of the Senate as to maintain the discipline of the University as may be prescribed in that behalf by statutes or regulations made under the authority of this Act:
(e) On the occurrence from any cause of a vacancy in the office of Chancellor, or in the absence of the Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, the Vice-Chancellor shall exercise the powers of the Chancellor in relation to the conferring of degrees and the award of other academic qualifications and distinctions.

(3) The Vice-Chancellor may appoint any member of the Senate to attend in his place the meeting of any board, committee, or other body which is not constituted by or under this Act (whether created by or under any other Act or otherwise) of which the Vice-Chancellor is a member. Any person so appointed shall while so attending be deemed for all purposes to be a member of the board, committee, or other body and may exercise all the rights and powers which the Vice-Chancellor could have exercised had he been personally present. The fact that any member of the Senate so attends shall be sufficient evidence of his authority so to do.

29. Deputy Vice-Chancellor - (1) The Council may from time to time appoint a professor as the Deputy Vice-Chancellor of the University of Auckland.

(2) The Deputy Vice-Chancellor shall hold office for such period as may be determined by the Council.

(3) The Deputy Vice-Chancellor may exercise such of the Vice-Chancellor’s functions, powers, and duties, whether arising under any Act or otherwise, as the Council, upon the recommendation of the Vice-Chancellor or (in the absence of such a recommendation) of its own motion, may from time to time either specially or generally delegate to the Deputy Vice-Chancellor.

(4) In addition to the powers conferred upon him by subsection (3) of this section, the Deputy Vice-Chancellor shall, during any vacancy in the office of Vice-Chancellor, or in the absence of the Vice-Chancellor from New Zealand, or while he is incapacitated by sickness or otherwise, be Chairman of the Senate and may exercise such other of the Vice-Chancellor’s functions, powers and duties, whether arising under any Act or otherwise, as the Council may determine.

The Senate

30. Constitution of Senate - (1) There shall be a Senate of the University of Auckland.

(2) The Senate shall consist of:

(a) The Vice-Chancellor:

(b) The professors of the University:

(c) The Librarian of the University:

(d) As many full-time lecturers, and each to be elected in such manner, as the Council may from time to time determine:

(e) As many students, to be appointed by the Executive Committee of the Students' Association, as the Council may from time to time determine:

(f) As many and such other officers or members of the University as the Council may from time to time appoint.

(3) The elections of members of the Senate under subsection (2) (d) of this section shall be conducted and determined in the manner prescribed by statutes or regulations of the University, which statutes or regulations shall, in relation to any such election, specify -

(a) The time the election is to be held; and

(b) The classes of person eligible to vote; and

(c) The number of members each such class may elect; and

(d) The terms of office of the members to be elected.

(3A) For the purposes of this section, ‘student’ means a person who is enrolled for a degree or diploma as a full-time or part-time internal student of the University.

(3B) The term of office of every member of the Senate appointed pursuant to paragraph (e) or paragraph (f) of subsection (2) of this section shall be the term specified in statutes or regulations of the University.

(3C) Before making any determination or appointment under paragraph (d) or paragraph (e) or paragraph (f) of subsection (2) of this section, the Council shall seek and consider the advice of the Senate.

(4) The Senate of the University of Auckland is hereby declared to be the same body as the Professorial Board of the University of Auckland constituted by section 23 of the University of Auckland Act 1954; and every reference in any enactment or document to the Professorial Board of the University shall hereafter be read as a reference to the Senate of the University of Auckland.

31. Chairman of Senate - (1) Whenever there is no Vice-Chancellor or Deputy Vice-Chancellor in office, the Senate shall, at its first meeting held thereafter and at its first meeting in each year, elect one of its members, being a professor, to be the Chairman of the Senate; and if it fails to do so the Council may appoint a professor to be the Chairman of the Senate.

(2) The person so appointed shall hold office until the appointment of a Vice-Chancellor or Deputy Vice-Chancellor or until the election or appointment of his successor under this section, whichever happens first, and shall be eligible for re-election or reappointment, but shall not hold office for more than two terms in succession.
32. Meeting of Senate — (1) The person who is entitled in accordance with the provisions of sections 28, 29, and 31 of this Act to be the Chairman of the Senate at any meeting thereof at which he is present shall preside at that meeting. In the absence of any such person from any such meeting, the members present shall elect one of their number to be the Chairman for the purposes of that meeting and the person so elected shall preside at that meeting.

(2) At any meeting of the Senate the person presiding shall have a deliberative vote, and in the case of an equality of votes shall also have a casting vote.

(3) Every question before the Senate shall be decided by a majority of the valid votes recorded thereon.

(4) At every meeting of the Senate a quorum shall consist of such number of members as the Senate from time to time determines, and no business shall be transacted unless a quorum is present.

(5) Save as expressly provided in this Act, the Senate shall have power to make rules as to the time and place of its meetings and the procedure thereat:
Provided that it shall meet at least once in each year.

33. Proceedings of Senate not affected by vacancies, etc. — No act or proceeding of the Senate, or of any committee thereof, or of any person acting as a member of the Senate, shall be invalidated in consequence of there being a vacancy in the number of the Senate at that time of that act or proceeding, or of the subsequent discovery that there was some defect in the appointment of any person so acting, or that he was incapable of being or had ceased to be such a member.

34. Functions of Senate — (1) The Senate shall have power of its own motion, or at the request of the Council, to make recommendations or reports to the Council on any matter affecting the University.

(2) The Senate shall be specially charged with:
(a) The duty of furthering and co-ordinating the work of faculties and departments and of encouraging scholarship and research; and
(b) The control of the Library.

(3) The Senate shall have power to deal with all matters relating to the maintenance of discipline amongst the students of the University, and shall have such powers of fining, suspending, and expelling students guilty of misconduct or breaches of discipline, and such other powers of whatsoever kind as may be conferred on it by statutes or regulations made under the authority of this Act:
Provided that any person aggrieved by any action of the Senate may appeal to the Council, whose decision shall be final.

(4) The Senate shall have power to approve personal courses of study proposed by individual students:
Provided that the Senate shall not approve personal courses of study for a degree or other academic qualification in such a way as to introduce general restrictions not provided for in the course regulations governing the course of study for that degree or other academic qualification.

35. Senate may appoint committees — (1) The Senate may from time to time appoint standing or special committees.

(2) The Senate may delegate any of its powers and duties (including any powers and duties which it has by delegation from the Council or any other body or person) to any such committee or to any person; and the committee or person may, without confirmation by the Senate, exercise or perform those powers or duties in like manner and with the same effect as the Senate could itself have exercised or performed them:
Provided that the Council may prohibit, or impose conditions in respect of, the delegation by the Senate of any power or duty that is delegated to the Senate by the Council.

(3) Every such delegation shall be revocable at will, and no such delegation shall prevent the exercise of any power by the Senate.

(4) Unless and until any such delegation is revoked, it shall continue in force according to its tenor.

(5) It shall not be necessary that any person who is appointed to be a member of any such committee, or to whom any such delegation is made, shall be a member of the Senate.

36. Council to consult Senate on academic matters — (1) The Council shall not make any statute or regulation or decision in relation to entrance to the University or to any course of study or to the prescription of any subject for any degree or other academic qualification or certificate, or to any fellowship, scholarship, bursary, prize, or award or the examination or qualification therefore, or to the admission, attendance, and discipline of students, or to examinations and other academic tests, or to the institution of the offices of professor or lecturer, or to the appointment or removal of academic staff, including the Vice-Chancellor and Deputy Vice-Chancellor, or to the appointment of examiners, assessors, or moderators, or to honorary degrees and other academic distinctions, or to the affiliation of any institution or branch or department thereof, until it has first received and considered any recommendation that the Senate may make in that behalf, unless the Senate, having had a reasonable opportunity to make such a recommendation, has failed to do so:
Provided that a decision to confer an honorary degree or academic distinction shall be made in the manner
provided in subsection (3) of section 19 of this Act, and nothing in this section shall apply to such a decision:
Provided also that in the case of appointments to the academic staff, or the removal of academic staff, the Council shall need only to secure a recommendation from a committee of the Senate appointed under section 35 of this Act.
(2) Nothing in the foregoing provisions of this section shall limit any power conferred on the Senate by section 35 of this Act to delegate any of its powers and duties.

Affiliated Institutions

37. Admission of affiliated institutions — (1) The Council may, on such terms and conditions and subject to such inspections, reports, and inquiries as it thinks fit, affiliate other institutions or branches or departments thereof situated within the Auckland University District, or recognise selected members of the staffs thereof as teachers of the University, or admit the members thereof as teachers of the University, or admit the members thereof to any of the privileges of the University and accept attendance at courses of study in such institutions or branches or departments thereof in place of such part of the attendance at courses of study in the University and upon such terms and conditions and subject to such regulations as may from time to time be determined by the Council.
(2) The Council may at any time revoke any such affiliation, recognition, admission, or acceptance.

Financial Provisions

38. Benefactions to be strictly applied — Subject to the provisions of the Charitable Trust Act 1957, all benefactions at any time vested in or enjoyed by the University with a declaration of trust, or as an endowment for the promotion of any particular branch of science or learning, shall be applied strictly by the Council accordingly.

39. Application of income and capital of University — (1) Subject to the provisions of this Act and any other act and to the terms of any trust or endowment, the income and capital of the University shall be applied in doing whatever the Council thinks expedient in order that the University may best accomplish the purpose for which it is established.
(2) Without limiting the generality of the foregoing provisions of this section it is hereby declared that the Council may from time to time, out of income which may be applied in accordance with those provisions, create, maintain, and add to a fund or funds for anyone or more of the purposes for which that income may be applied.

40. Money to be paid into bank — (1) All money received by the University amounting to twenty dollars and upwards shall, as soon as practicable after it has come into the hands of the proper officer of the University, be paid into such bank account or accounts of the University as the Council from time to time determines.
(2) No such money shall be withdrawn from the bank except by authority of the Council and by cheque, or other instrument, signed by an officer of the University approved by the Council, and countersigned by a member of the Council, or by another officer of the University, approved by the Council:
Provided that it shall be lawful, with the prior consent in writing of the Audit Office and subject to such conditions as the Audit Office prescribes, for any money to be paid by the Council by cheque issued by means of a cheque-writing machine, and every such cheque issued by means of such a machine and bearing a facsimile of the signatures, of the persons authorised pursuant to the provisions of this section to sign and countersign cheques shall be deemed to have been duly signed and countersigned in accordance with the provisions of this section.

41. Loan money to be paid into a separate account — All money borrowed by the Council on behalf of or for the purposes of the University, other than money borrowed under Section 51 of this Act, shall be paid into a separate bank account in the name of the loan, and shall not be drawn out of the bank or expended except for the special purposes for which it was borrowed.

42. Investment of money — Subject to the terms of any trust or endowment, any money belonging to or vested in the University and available for investment may be invested in accordance with the provisions of the Trustee Act 1956 as to the investment of trust funds, or in such other manner as the Minister of Finance from time to time approves.

43. Provision for Common Fund investment — (1) The Council may at any time, if it thinks fit, establish the following funds and account:
(a) A Common Fund to be known as the University of Auckland Common Fund;
(b) A Reserve Fund to be known as the University of Auckland Common Fund Reserve Fund;
(c) A Common Fund Income Account to be known as the University of Auckland Common Fund Income Account.

1988 Calendar
Subject to the provisions of this section, if the Council has established the said funds and account, it may invest any trust funds in its possession, whether at the time in a state of investment or not, whether they came into its possession before or after the commencement of this Act, and whether they comprise the whole or part of the trust estate to which they belong, either—

(a) On a separate account in respect of the trust estate to which the funds belong; or

(b) If the funds are not directed to be invested in some other specified manner, and investment in the said Common Fund is not inconsistent with the terms of the trust instrument (if any) governing the funds, as part of the said Common Fund.

(3) All funds forming part of the said Common Fund shall be invested in the manner required by Section 42 of this Act.

(4) Where any funds of a trust estate are in the possession of the Council and are lawfully invested in any investment in which the said Common Fund may be invested as aforesaid, then, if in accordance with paragraph (b) of subsection (2) of this section the funds could be invested as part of the said Common Fund, the Council may transfer that investment to the said Common Fund and give credit in that Fund to the trust estate for such amount as it considers proper, having regard to its duty to be fair to all those interested in the said Common Fund and to those beneficially interested in the capital and income of the trust estate to which the investment belongs. Upon any investment being so transferred it shall cease to form part of the trust estate to which it formerly belonged.

(5) Investments made from funds forming part of the said Common Fund shall not be made on account of or belong to any particular trust estate, but the Council shall cause to be kept an account showing at all times the entitlement of each trust estate in the said Common Fund.

(6) All income derived from the said Common Fund and from the investments and money included therein shall be paid into the said Common Fund Income Account.

(7) In each year interest on the amount of the entitlement of each trust estate in the said Common Fund shall be transferred from the said Common Fund Income Account and credited to that trust estate at such uniform rate as may from time to time be determined by the Council:

Provided that in no case shall the rate so determined be lower than one half per cent below the rate which would be so paid if all the income paid into the said Common Fund Income Account in that year was so transferred.

(8) The Council shall also each year pay into the said Reserve Fund—

(a) All income in the said Common Fund Income Account which is not transferred to any trust estate in that year in accordance with subsection (7) of this section:

(b) All capital gains arising in connection with the said Common Fund.

(9) The funds forming part of the said Reserve Fund shall be kept separate from all other trust funds, and shall be invested in the manner authorised by section 42 of this Act.

(10) All income paid into the said Reserve Fund as aforesaid, and all income derived from the said Reserve Fund and from the investments and money included therein shall be applied as the Council thinks fit in any one or more of the following ways:

(a) Towards augmenting the capital of the said Reserve Fund:

(b) Towards stabilising or increasing the income of the said Common Fund:

(c) Towards reinstating any losses of capital in the said Common Fund.

(11) The capital of the said Reserve Fund may, if the Council thinks fit, be applied in reinstating any losses of capital in the said Common Fund.

(12) The Council may at its discretion at any time withdraw from the said Common Fund any amount for the time being to the credit of any trust estate in the said Common Fund; and where any amount is being so withdrawn—

(a) If the capital of the said Reserve Fund has increased while the said amount was in the said Common Fund, the Council shall pay out of the said Reserve Fund and add to the amount so withdrawn, as capital, such amount (if any) as it considers equitable having regard to the length of the period during which the amount was in the said Common Fund and to the proportion which the said amount bears to the average amount of the total assets of the said Common Fund during that period:

(b) If losses of capital in the said Common Fund have occurred during the said period, then, so far as those losses have not been reinstated and cannot be reinstated from the amounts in the said Reserve Fund at the time of the withdrawal, that amount shall bear its proportion of those losses, as determined by the Council, and the amount being so withdrawn shall abate accordingly.

44. Travelling allowances and expenses of members of Council—(1) The Council may pay to each of its members travelling allowances and expenses; and, in respect of travel in New Zealand, those allowances and expenses shall not exceed those payable in accordance with the Fees and Travelling Allowances Act 1951, and the provisions of that Act shall apply accordingly.
(2) In respect of travel in New Zealand the Council is hereby declared to be a statutory Board within the meaning of the Fees and Travelling Allowances Act 1951.

45. Council may insure members against personal accident while engaged in duties — The Council may from time to time enter into contracts of insurance of a type for the time being approved by the Minister of Education insuring members of the Council against loss from personal accident arising out of and in the course of the exercise of their powers or duties as members of the Council, and may pay the premiums payable in respect of those contracts.

46. Unauthorised expenditure of Council — The Council may in any financial year of the University expend out of the general fund of the University for purposes not authorised by any law for the time being in force any sum or sums not exceeding in the aggregate a one-thousandth part of the revenue of the University from all sources for the immediately preceding financial year.

47. Council to prescribe fees — There shall be payable by the students of the University or any of them such fees as the Council from time to time prescribes:

Provided that scales of tuition and of examination fees may be so prescribed only with the concurrence of the University Grants Committee.

48. Fees payable to associations of students — The Council shall have power to impose and collect from time to time from students of the University or from any of them such fees as it considers reasonable for the benefit of any association or organisation of students of the University, and to dispose of those fees accordingly.

49. Grants by Council to associations of staff or students — The Council may from time to time make grants or loans from its funds on such terms and conditions as it thinks fit to any association or organisation of staff or students of the University.

50. Powers of Council in respect of property — (1) Without limiting or in any way affecting any other powers conferred upon the Council by the Auckland University College Reserves Act 1885 or this Act or any other Act or bylaw, it is hereby declared that, subject to the provisions of this section, the Council may do all or any of the following things on behalf of and for the purposes of the University, namely:

(a) Establish, build, maintain, repair, add to, alter, rebuild, reinstate, conduct, manage, and control halls of residence for students and academic staff, and houses for academic staff and any other of its employees whatsoever, and buildings and rooms and other facilities for the recreation or social use of students, academic staff and other employees;

(b) Purchase, take on lease, or otherwise acquire any real or personal property for any purposes whatsoever in connection with the University or any institution controlled by the Council;

(c) With the consent of the Minister of Education in the case of land and in other cases without his consent, sell or otherwise alienate any right, title, estate, or interest in any real or personal property vested in the University;

(d) With the consent of the Minister of Education, borrow money from the Crown or, on such terms and conditions as may be fixed by the Minister of Finance, from any corporation or person; and (for the purpose of securing any money so borrowed) mortgage, charge, or pledge any right, title, estate, or interest in any land vested in the University:

(e) Grant leases of any land vested in the University; and for that purpose the Council is hereby declared to be a leasing authority within the meaning of the Public Bodies’ Leases Act 1908:

(f) On such conditions as may be prescribed by the Minister of Finance, guarantee loans made to members of the staff for housing purposes by other persons and bodies.

(2) Notwithstanding anything to the Contrary in the Public Bodies’ Leases Act 1908 or in any lease granted by the Council, the Council may —

(a) In its absolute discretion, at any time not earlier than three years nor later than one year before the date of the expiration of any lease of any land vested in the University that does not confer a right of renewal, grant a renewal of the lease upon such terms as it thinks fit; and the provisions of this paragraph shall apply to any such lease whether granted before or after the commencement of this Act:

(b) With the consent of the Minister of Education, grant leases of land vested in the University upon such terms as that Minister may approve.

(c) Grant leases and licences for the extraction and removal of coal and other minerals from land vested in the University at such rent or royalties and upon such terms and conditions as the Council may determine.

(3) The Minister of Education is hereby empowered to make advances upon such terms as the Minister of Finance may approve to the Council for the purposes of the University out of money appropriated by Parliament for the purpose.

51. Power to borrow by way of overdraft, or temporary loan — In addition to the powers conferred by section 50 of this Act, it shall be lawful for the Council, in anticipation of its revenue, from time to time to borrow money by way of overdraft or on temporary loan on behalf of and for the purposes of the University: Provided that the amount so borrowed shall not at any time exceed one-twelfth of the revenue of the University.
from all sources during the immediately preceding financial year of the University:
Provided also that at the end of any financial year of the University the amount of the overdraft or loan shall not exceed the outstanding revenue due to the University in respect of that financial year.

52. **Annual report and statement of accounts** — (1) The Council shall, during the month of April, in every year, furnish to the Minister of Education and to the University Grants Committee a report on the University during the immediately preceding year.
(2) The Council shall also, as soon as practicable after the end of every financial year of the University, furnish to the Minister of Education and to the University Grants Committee a statement of the assets and liabilities of the University as at the end of that financial year, together with an account of income and expenditure showing the financial transactions for that year, which statement and account shall be audited by the Audit Office.

**Repeals and Savings**

53. **Repeals and savings** — (1) The enactments specified in the Third Schedule to this Act are hereby repealed.
(2) All bylaws which originated under any of the enactments hereby repealed or under the corresponding provisions of any former enactment and are subsisting or in force on the commencement of this Act shall enure for the purposes of this Act as fully and effectually as if they had originated as regulations under the corresponding provisions of this Act, and accordingly shall, where necessary, be deemed to be regulations and to have so originated; and every reference to any such bylaw in any Act, regulation, order, or other enactment, or in any instrument or document whatsoever shall, after the commencement of this Act, unless inconsistent with the context, be read as a reference to a Regulation made under the corresponding provisions of this Act.

Section 53 (1)

COURT OF CONVOCATION STATUTE 1962

Pursuant to section 4 of the University of Auckland Act 1961

1. This Statute may be cited as the Court of Convocation Statute 1962.

2. The Registrar of the University shall prepare and maintain a register to be known as the Register of the Court of Convocation for the Auckland University District and shall (subject to section 5 hereof) enrol thereon the names and addresses (so far as such addresses are known) of all persons entitled to be so enrolled under section 4 of the said Act and under section 3 of this Statute.

3. Under and for the purposes of subsection 5 of section 4 of the said Act each person shall be entitled to have his name enrolled on the Register of the Court of Convocation (without fee) who being a graduate of the University of New Zealand either by examination at any time or by reason of having been admitted *ad eundem gradum* before the 1st day of January, 1943, is not by reason of that qualification enrolled on the register of the Court of Convocation for any other University District in New Zealand, and

(i) under section 23A of the New Zealand University Act 1908 was enrolled or entitled to be enrolled on the register of the District Court of Convocation of the Auckland University District at the 31st day of December, 1961, or

(ii) was an undergraduate member of the University of Auckland at the 31st day of December, 1961, and became a graduate of the University of New Zealand after that date, or

(iii) at a date after the 31st day of December, 1961, and immediately before had resided in the Auckland University District for a period of not less than three calendar months.

4. Except as provided in section 5 hereof it shall not be necessary for any person to be so enrolled on the register to apply for enrolment.

5. Every person who is entitled to be enrolled on the register under paragraph (iii) of section 3 of this Statute may apply to the Registrar for enrolment and upon making that application and producing such evidence of the facts and matters entitling him to enrolment as the Registrar may reasonably require shall be enrolled on the register.

6. Any enrolled member of the Court may, by notice under his hand delivered to the Registrar, object to the register on the ground that any person whose name is on the register does not possess the necessary qualifications.

7. The Registrar shall enquire into and dispose of any such objection forthwith after receiving it.

8. Any person aggrieved by any decision or act of the Registrar relating to the register may appeal therefrom to the Council by notice under his hand, addressed to the Chancellor, and delivered at the University not later than 5 o'clock on the afternoon of the seventh day on which the register is to be closed for the purposes of an impending election.

9. Every such appeal shall be heard and determined by the Council or a Committee appointed by the Council and the Registrar shall amend the register in such manner as the Council or the Committee when disposing of the appeal directs.

10. (a) Any member of the Court having changed his address shown on the register may request the Registrar to amend the register in respect of that address and the Registrar shall make such amendment accordingly.

(b) The Registrar being satisfied (otherwise than under the preceding paragraph (a) of this section) that the address of a member of the Court has been changed may amend the register in respect of that address provided that he shall forthwith post notices of that amendment to the member at both the old and the new address.

11. The Registrar shall expunge from the register the name of any person who has died or has ceased to be entitled to be enrolled thereon, and he shall be entitled to make any amendment of name made necessary by marriage.

THE COUNCIL ELECTIONS (COURT OF CONVOCATION REPRESENTATIVES) REGULATIONS

1. These regulations may be cited as the Council Elections (Court of Convocation Representatives) Regulations.

2. For the purposes of conducting the elections to the Council by the Court of Convocation an electoral roll shall be prepared and revised from time to time of the names of those members of the Court who are eligible to vote in accordance with these regulations.

3. The members of the Court who are eligible to vote at an election by the Court are those members (but no other members) who

(a) voted at the last two preceding elections

1988 Calendar
History & Legislation, Council Elections (Convocation Reps) Regulations

(b) (having had their names entered on the Court register since the penultimate election) voted at the last preceding election.

(c) have had their names entered on the Court register since the last preceding election

(d) (not being in any of the foregoing categories) apply for a voting paper by letter delivered or posted to the Returning Officer so as to be received by him on or before 5 o'clock in the afternoon of the twenty-first day preceding the day on which the election is to be held.

4. In these Regulations and the forms contained herein:

- ‘the roll’ means the electoral roll prepared in accordance with this regulation
- ‘elector’ and ‘voter’ respectively refer to those members of the Court whose names are for the time being entered on the electoral roll.

5. The date of election shall be determined by the Returning Officer and reported to the Council.

6. Whenever any election is to be held the Returning Officer shall (not less than forty days before the election) by notice in at least two newspapers, published in the City of Auckland, call for nominations of candidates to be lodged with him on or before a day, to be fixed by him, being not less than ten days from the date of the first advertisement, which notice shall be in the following form (or a form to the like effect).

---

THE UNIVERSITY OF AUCKLAND

Election of Member(s) of the Council by the Court of Convocation for the Auckland University District.

An election of member(s) will be held at 5.00 pm on the ........ day of ............ 19 .... at the office of the Registrar of the University, Princes Street, in the City of Auckland.

No person shall be recognised as a candidate at this election unless he shall have been previously nominated in a document signed by two electors, and unless such nomination paper shall have been delivered to the Returning Officer by postal delivery or otherwise not later than 5.00 pm on the .... day of .... 19 ....

The roll of electors will remain open for inspection and additions until 5.00 pm on the twenty-first day before the election and will then be closed. Immediately thereafter the Returning Officer will issue the voting paper to such voters as are shown on the roll with sufficient postal address (of which the Returning Officer shall be the sole judge).

7. The roll shall be closed at five o'clock in the afternoon of the twenty-first day immediately preceding the day on which an election is to be held and shall continue to be closed until the election is completed; and no name shall be entered on the roll while it is closed. Immediately thereafter the Returning Officer shall issue the voting papers simultaneously to such voters as are shown in the roll with sufficient postal address (of which the Returning Officer shall be the sole judge); nor shall any voting paper be sent to any person whose address is not within New Zealand, Cook Islands, Fiji, Western Samoa or Australia.

8. Notwithstanding anything above set out, the Returning Officer shall issue a voting paper to any elector whose name appears on the roll and who shall apply in writing to the Returning Officer for a voting paper on the ground that his voting paper is lost or destroyed or defaced or that no voting paper has been issued to him.

9. At every election the votes shall be given by sealed voting papers issued by the Returning Officer in the form prescribed by these regulations, delivered to the Returning Officer on or before the day and time fixed for holding the election, or posted to him in a sealed envelope on or before that day.

10. In any election to fill a casual vacancy the notice of advertisement calling for nomination shall state that the vacancy is a casual one.

11. If an election for filling a casual vacancy be appointed to be held at the same time as an election for the filling of a vacancy occurring by rotation, hereinafter called an ordinary vacancy, separate voting papers shall be issued for each election and each nomination and each voting paper shall specify to which election it relates, and at the time of election the Returning Officer shall first complete the election for filling the casual vacancy or vacancies; and when such election shall be complete, he shall at once proceed to complete the election for filling the ordinary vacancy.

Note: The voting papers for overseas members to be posted airmail.

12. When two or more elections are to take place as contemplated in the last preceding Regulation, then in every advertisement relating to such an election, notice shall be given that no nomination paper will be valid, unless it distinctly indicates to which of the vacancies it shall relate.

13. Nomination shall be made by two persons qualified to vote and shall contain the written consent of the candidate to his nomination.

14. Nomination shall be in the following form (or in a form to the like effect):
Election to be held on the day of 19... of Members of the Council by the Court of Convocation for the Auckland University District.

We, and being duly qualified voters, hereby nominate for election to the Council by the Court of Convocation for the Auckland University District.

Date ........................................

I consent to the above nomination.

15. If the nominations received do not exceed the number of vacancies, the Returning Officer shall declare the candidate(s) duly elected.

16. Every voting paper shall be in the form following or to the like effect, that is to say:

A. Front of voting paper

VOTING PAPER

The voter is to put a cross (X) in the square opposite to the name or names of the candidates for whom he desires to vote.

17. A Every voting paper shall be forwarded to the voter accompanied by an envelope, addressed to the Returning Officer.

B. Back of envelope:

THE VOTER MUST SIGN HIS/HER NAME AND ADDRESS BELOW.
(Full name in block letters)

I, declare that I am not, by reason of my being a graduate of the University of New Zealand (either by examination at any time or by admission ad eundem gradum before 1 January, 1943), enrolled on the register of the Court of Convocation of any University District in New Zealand other than the Auckland University District.

SIGNATURE OF VOTER: ........................................

ADDRESS: ........................................

(I request the Registrar to record my address on the roll as above.)

If recorded on University records under another name, e.g. maiden name, please state ........................................
18. The poll shall close at 5 o'clock on the afternoon of the day of the election; but all voting papers shall be included and counted which are received by the Returning Officer in due course by post before the close of the sixth day after the day of the election, provided the Returning Officer is satisfied that the paper was posted in accordance with the provisions of Section 9. On the seventh day after the day of the election the Returning Officer shall open and count the votes. As soon as the voting papers have been checked with the Roll the name and address shall be removed from each voting paper before the votes are counted.

19. Each candidate shall be entitled to nominate a scrutineer, who shall have the same rights and duties as those vested at the date of the poll in a scrutineer at any polls of the Auckland City Council.

20. Upon completion of the counting of votes, the Returning Officer shall forthwith declare the results of the poll.

21. The Returning Officer shall, subject to the provisions herein contained, determine conclusively all questions of detail concerning the election.

22. The Returning Officer is authorised to destroy the voting papers after a lapse of three months from the date of the official announcement of the result.

The Council at its meeting held on 18 August, 1975 resolved:

That in respect of elections of members of the Council by the Court of Convocation, Council adopt the following procedure in order to ensure that electors are notified of the qualifications of candidates:

1. That each candidate for election be invited to send to the Registrar with his nomination paper a short statement, not exceeding 250 words, for inclusion with the voting papers.
2. That the statement shall include the name, occupation, residence, degrees, academic posts held, publications, and any other relevant information provided by the candidate.
3. That the Council arrange that a copy of these statements be forwarded to each elector with the voting paper.

THE COUNCIL ELECTIONS (REPRESENTATIVE OF GOVERNING BODIES OF SECONDARY SCHOOLS) REGULATIONS

1. These regulations may be cited as the Council Elections (Representative of Governing Bodies of Secondary Schools) Regulations 1962.

2. For the purpose of Section 6 Subsection (2) paragraph (e) of the University of Auckland Act 1961 the Governing Bodies of only such registered private secondary schools as are entitled to accredit persons for entrance to a University shall be entitled to vote for the member of Council elected under that paragraph.

3. Each of the Governing Bodies entitled under Section 6 Subsection (2) paragraph (e) of the said Act and the foregoing paragraph 2 of these regulations shall be enrolled on the Roll of Electors. The Roll shall be revised in each year as at the 30th April.

4. The date of an Election by the Governing Bodies shall be determined by the Returning Officer and reported by him to the Council.

5. Whenever an Election is to be held, the Returning Officer shall (not less than 40 days before the Election), by notice addressed to each Elector upon the Roll, call for nominations of candidates to be lodged with him on or before a date fixed in such notice, being not less than ten days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):

10. If more than one nomination is received for the vacancy, the Returning Officer shall immediately after the closing date for nominations issue a voting paper in the prescribed form to each elector.

11. The Returning Officer shall issue a voting paper to any elector who applies in writing to the Returning Officer for a voting paper on the grounds that his voting paper is lost or destroyed or defaced, or that no voting paper has been issued to him.

12. The voting paper shall be returned to the Returning Officer on or before the day and time fixed for holding the election, or sent to him by post or otherwise so as to reach him not later than that day and time.

13. In any election for a casual vacancy the notice calling for nominations shall state that the vacancy is a casual one.
14. Every voting paper shall be in the form following (or to the like effect):

THE UNIVERSITY OF AUCKLAND

REPRESENTATIVE OF LECTURERS ON COUNCIL

Election to be held at 5.00 p.m. on ...................... 19 ............... of ..............

ONE Member of Council by the full-time Lecturers of the University.

Directions

The voter must put an "X" in the square opposite the name of the candidate for whom he wishes to vote.

The voter must sign his name, and print his name and department on the back of the enclosed special addressed envelope.

Voting papers, in sealed envelopes, must be addressed to the Returning Officer and reach him by the above day and time.

RETURNING OFFICER

15. On completion of the counting of votes the Returning Officer shall forthwith declare the results of the poll by notice published within the University.

16. The Returning Officer shall, subject to these regulations, determine conclusively all questions of detail concerning an election.

17. Where there is an equality of votes between candidates and the addition of a vote would entitle any of those candidates to be declared elected, the Returning Officer shall determine by lot which candidate shall be elected.

18. The Returning Officer is authorised to destroy the voting papers after a lapse of three months from the date of the notices announcing the result of the poll.

19. The University shall be deemed a sufficient address for the issuing of notices and voting papers to electors under these regulations.

THE SENATE ELECTIONS
(LECTURERS' REPRESENTATIVES OF FACULTIES)
REGULATIONS

1. These Regulations may be cited as the Senate Elections (Lecturers' Representatives) Regulations 1978*.

2. For the purpose of these Regulations, the Council determines that a person appointed for a term of not less than one year as a temporary lecturer and a person appointed for a term of not less than three years as an assistant lecturer, senior tutor or tutor, are lecturers within the definition of that term contained in section 2 of the Act.

3. In these Regulations, unless the context otherwise requires —

‘the Act’ means the University of Auckland Act 1961;
‘election’ means an election conducted under these Regulations;
‘elector’ means a full-time lecturer and includes a person appointed full-time for a term of not less than one year as a temporary lecturer and a person appointed full-time for a term of not less than three years as an assistant lecturer, senior tutor or tutor; but does not otherwise include any person holding a temporary appointment.
‘member’ and ‘lecturers' representative’ means a member of the Senate elected by the full-time lecturers in a Faculty under section 30 of the Act and these Regulations;
“Returning Officer” refers to the Registrar of the University.

4. For the purpose of these Regulations —
The Centre for Continuing Education is deemed to be a Faculty of the University;
Each member of the staff of each of the Departments of Art History, Geography, Mathematics, and Psychology
shall respectively be allocated by the Senate to an appropriate Faculty.

5. (i) The number of members of the Senate to be elected by the full-time lecturers under section 30 (2)(d) of the Act shall be eighteen, of which thirteen shall be elected under these Regulations.

(ii) Those thirteen members shall be elected by secret ballot from and by the full-time lecturers of the respective Faculties of the University, as follows:-

- The Faculty of Arts; three members.
- The Faculty of Science; two members.

Each of the eight other Faculties of the University — that is:
- the Faculty of Architecture, Property and Planning,
- the Faculty of Commerce,
- the Faculty of Engineering,
- the Faculty of Fine Arts,
- the Faculty of Law
- the Faculty of Medicine and Human Biology,
- the Faculty of Music, and
- the Centre for Continuing Education; one member.

6. In every election in a Faculty, held under these Regulations —

(a) All electors in that Faculty shall be eligible to nominate candidates and to vote; and

(b) All such electors, except those who are temporary lecturers appointed for less than two years, shall be eligible to be nominated as candidates.

7. Each member (other than a member elected to fill a casual vacancy) shall hold office on the Senate for a term of two years beginning on the 1st of February next following that member’s election.

8. The term of office of each of the present lecturer members of the Senate shall, according to the Faculty from which that member was appointed and (in the Faculty of Arts and in the Faculty of Science) according to seniority of appointment, end as follows:

- Faculty of Architecture, Property and Planning (one member) 31 January 1979
- Faculty of Arts (three members) 31 January 1979
- Faculty of Commerce (one member) 31 January 1980
- Faculty of Engineering (one member) 31 January 1980
- Faculty of Fine Arts (one member) 31 January 1979
- Faculty of Law (one member) 31 January 1979
- Faculty of Medicine and Human Biology (one member) 31 January 1980
- Faculty of Music (one member) 31 January 1979
- Faculty of Science (two members) 31 January 1979

9. If any member —

(a) dies; or
(b) resigns his office by writing under his hand delivered to the Registrar; or
(c) ceases to be a full-time lecturer; or
(d) is appointed Acting Head of a Department for a period of more than three months he shall thereupon cease to be a member, and the vacancy so created shall be deemed to be a casual vacancy.

10. (a) Elections other than elections to fill casual vacancies shall take place in the respective faculties not later than July each year so that the names of all lecturers’ representatives for the subsequent year are known at the August meeting of the Senate.

(b) An election to fill a casual vacancy shall take place within two calendar months of the arising of the casual vacancy.

11. The Registrar shall be the Returning Officer for the purpose of conducting the elections.

12. Subject to Regulation 10, the date of an election shall be determined by the Returning Officer and shall be reported to the Senate.

13. Whenever an election is to be held, the Returning Officer shall, not less than thirty-five days before the election, by notice addressed to each elector in the appropriate Faculty call for nominations of candidates to be lodged with him on or before the date fixed in that notice but being not less than twenty-one days from the date of the notice. The notice shall be in the following form (or in a form to the like effect):

THE SENATE ELECTIONS
(LECTURERS' REPRESENTATIVES AT LARGE)

REGULATIONS

Pursuant to sections 22 and 30 of the University of Auckland Act 1961, the Council of the University makes the following Regulations:

1. These Regulations may be cited as the Senate Elections (Lecturers' Representatives at Large) Regulations.
2. For the purpose of these Regulations, the Council determines that a person appointed for a term of not less than one year as a temporary lecturer and a person appointed for a term of not less than three years as an assistant lecturer, senior tutor or tutor, are lecturers within the definition of that term contained in section 2 of the Act.
3. In these Regulations, unless the context otherwise requires — 'the Act' means the University of Auckland Act 1961;
the Council' means the Council of the University;
'election' means an election conducted under these Regulations;
'elector' means a full-time lecturer and includes a person appointed full-time for a term of not less than one year
as a temporary lecturer and a person appointed full-time for a term of not less than three years as an assistant
lecturer, senior tutor or tutor; but does not otherwise include any person holding a temporary appointment.
'Member' and 'lecturers' representative' means a member of the Senate elected by the full-time lecturers under
section 30 of the Act and these Regulations;
"Returning Officer" refers to the Registrar of the University.

4. (i) The number of members of the Senate to be elected by the full-time lecturers under section 30 (2)(d) of the
Act shall be eighteen, of which five shall be elected under these Regulations (the other thirteen being elected
under the Senate Elections (Lecturers' Representatives of Faculties) Regulations.)
(ii) Those five members shall be elected by secret ballot from and by the full-time lecturers of the University.

5. In every election held under these Regulations:
(a) All electors shall be eligible to nominate candidates and to vote; and
(b) All such electors, except those who are temporary lecturers appointed for less than two years, shall be
eligible to be nominated as candidates.

6. Subject to Regulation 7, each member (other than a member elected to fill a casual vacancy) shall hold office
on the Senate for a term of two years beginning on the 1st day of February next following that member's
election.

7. The term of office of each of the lecturer members of the Senate first elected under these Regulations shall be
determined by lot so that of those members —
(a) The terms of 3 shall expire on 31 January 1986; and
(b) The terms of 2 shall expire on 31 January 1985.

8. If any member —
(a) dies; or
(b) resigns office by written notice delivered to the Registrar; or
(c) ceases to be a full-time lecturer; or
(d) is appointed Acting Head of a Department for a period of more than three months;
he or she shall thereupon cease to be a member, and the vacancy so created shall be deemed to be a casual
vacancy.

9. (a) Elections other than elections to fill casual vacancies shall take place not later than May in each year so that
the names of all lecturers' representatives for the subsequent year are known at the June meeting of the Senate.
(b) An election to fill a casual vacancy shall take place within two calendar months of the arising of the casual
vacancy.

10. The Registrar shall be the Returning Officer for the purpose of conducting the elections.
11. Subject to Regulation 9, the date of an election shall be determined by the Returning Officer and shall be
reported to the Senate.
12. Whenever an election is to be held, the Returning Officer shall, not less than thirty-five days before the
election, by notice addressed to each elector call for nominations of candidates to be lodged with him on or
before the date fixed in that notice but being not less than twenty-one days from the date of the notice. The
notice shall be in the following form (or in a form to the like effect):
