# INTRODUCTION

---

Welcome to the University of Auckland. This *Calendar* is the official publication of the University and includes academic statutes and regulations governing admission, enrolment, fees and examinations. The *Calendar* sets out requirements for degrees, diplomas and certificates and lists the approved courses offered by the University. It also provides key information about the University and its staff.

## The Academic Year

The academic year at the University of Auckland is divided into two semesters. Each semester covers a period of about 15 weeks comprising approximately 12 teaching weeks followed by three weeks for study and examination. The first semester starts at the beginning of March and the second semester in mid-July. Each semester has a mid-semester break which lasts for one to two weeks. During the three weeks after the end of lectures, there is a period of study followed by the examinations for the courses studied during that semester. There is a three-week inter-semester break during which results will be published and any further admissions and enrolments processed. A small number of specialist courses may be taught during the inter-semester break. At the end of the second semester there is a 13-week break. A Summer School comprising six weeks operates from the beginning of January. A limited number of courses are available. A small number of programmes are offered in quarters rather than semesters, comprising approximately 10 teaching weeks followed by one week for study and exams.

## The Points System

The value allocated to each course is standardised and is given as a number of points, based on the notional hours of learning in the course which will usually require the completion of eight 15-point courses a year. Most courses are offered in values of 10, 15, 20 and 30 points. For instance, the programme for many bachelors degrees requires the completion of a total of 360 points. The points value for diplomas and certificates varies according to the discipline and content. Full details are listed in the regulations.

## Planning a Programme

Assistance with programme planning for current students is available online through the My Programme Requirements report. This report outlines the academic requirements for a programme of study and provides an individualised report comparing a student's progress towards completion against the requirements. It indicates where requirements have been met, which requirements have yet to be completed and the points required. Students are able to enrol directly from the report into courses available for the programme.

Students can also enrol into classes via Timetable Planner. This tool allows students to view potential timetable options, as well as adding preferences such as work or study gaps.

Students planning a programme can also consult faculty and departmental handbooks and seek advice about programmes and course options through faculty student centres and AskAuckland Central. Course advice is provided in the University's General Library before the start of the academic year. Intending students should phone 0800 61 62 63 or visit [auckland.ac.nz](http://auckland.ac.nz) for general advice and information. This *Calendar* contains the regulations and requirements for each faculty's degrees, diplomas and certificates. It is important that students read the regulations for the programme they plan to take and ensure that they complete the prerequisites required for subsequent study. The details for each course are listed by faculty and in alphanumeric order in the Course Prescriptions. In addition, there is a range of Interfaculty and Conjoint degrees which are administered and supervised across the faculties.

## Admission and Enrolment

The University of Auckland has an online system for admission and enrolment. All new students, and those intending to change their programme, should complete the online Application for Admission ([www.auckland.ac.nz/apply\\_now](http://www.auckland.ac.nz/apply_now)).

If students do not have internet access, Application for Admission forms are available by phone, by mail or in person from: AskAuckland Central, The University of Auckland, 24 Princes St, or Private Bag 92019, Auckland Mail Centre, Auckland 1142, New Zealand. Email [studentinfo@auckland.ac.nz](mailto:studentinfo@auckland.ac.nz). Phone 0800 61 62 63.

Applicants whose admission to a programme is approved will receive an offer of a place and on acceptance of this offer may proceed to enrol in courses.

## Official Communications to Students

Electronic Mail is the official and primary means of communication with students. All official email to a student will be sent to a student's University email address ([username@aucklanduni.ac.nz](mailto:username@aucklanduni.ac.nz)). If the student wishes to forward messages to other addresses it is their responsibility to ensure the alternative address is in place and operating correctly. Failure to read an email does not free a student from their responsibilities to understand and comply with the University's requirements.

## GLOSSARY OF TERMS

*Note: The descriptions below are not intended to be legal definitions. The Regulations in the Calendar should also be referred to when interpreting these terms.*

**Academic English Language Requirement:** A specified level of attainment in English studies in NCEA, CIE and IB; if admitted without meeting this requirement students may satisfy it in their first year of study by passing a specified undergraduate course in academic English.

**Academic Head:** A person appointed to an academic leadership position with responsibility for managing a school or department.

**Academic Integrity Course:** An online course designed to increase student knowledge of academic integrity, University rules relating to academic conduct, and the identification and consequences of academic misconduct.

**Academic Standing:** A means of measuring a student's academic performance each semester. Students are required to pass at least 50 percent of points enrolled in a semester to maintain good academic standing. Graduated academic sanctions apply to students failing to meet this requirement.

**Ad Eundem Statum:** A means of admission to the University on the basis of a qualification awarded by a body other than the New Zealand Qualifications Authority or the University of Auckland.

**Admission:** The process by which a student applies, and is approved, for entry to the University and to a University qualification.

**Alumni:** A term describing graduates of the University and staff who have worked for the University.

**Bachelors degree:** A first degree.

**Campus:** A geographic location where University of Auckland qualifications are delivered.

**Certificate:** A qualification awarded after academic study of a coherent programme of between 60 and 120 points.

**Certificate of Proficiency:** Recognises successful completion of a course by those who are not enrolled in a degree or diploma.

**Class:** A component of a course, e.g., a lecture stream.

**Completing student:** A student whose current enrolment is designed to complete a certificate, diploma or degree.

**Conjoint degree:** Enables students to complete two bachelors-level degrees, in a single programme of study. Conjoint degrees, often referred to as 'conjoins', require enrolment in less points than the separate components and may be completed in a shorter timeframe than two degrees.

**Core courses:** Compulsory courses that cover knowledge essential for the completion of a programme of study.

**Corequisite course:** A course that should be taken in the same semester as another unless it has previously been satisfactorily completed.

**Council:** The governing body of the University. It is composed of elected staff, students and graduates, and external appointees.

**Course:** A basic component of all academic programmes.

**Course prescriptions:** A list of courses including course code, title, points value, description of content, prerequisites, corequisites and restrictions.

**Course schedule:** A list of the courses prescribed for a programme which forms part of the regulations.

**Coursework:** Assessable work produced by students, normally submitted during teaching weeks, e.g., essays, assignments, reports, tests, and practical, tutorial and seminar work.

**Cross-credit:** A course which is common to two University of Auckland undergraduate diplomas or Bachelors degrees and is credited to both.

**CUAP:** Committee on University Academic Programmes: A subcommittee of Universities New Zealand on which all universities and the New Zealand Union of Students Associations are represented; CUAP undertakes programme approval and moderation procedures for the universities in New Zealand, as well as providing advice and comment on academic matters and developments across the university system.

**Cumulative GPA:** Calculated from all grades achieved by a student. Used for selection purposes unless an alternative has been indicated by the Faculty.

**Current enrolment:** Courses or other work taken by a student in a particular academic year or semester.

**Degree:** Principal qualification awarded by the University of Auckland, i.e., bachelors, masters and doctoral degrees.

**DELNA:** Diagnostic English Language Needs Assessment.

**Department:** A division of a faculty centred around a subject or group of related subjects.

**Diploma:** A University qualification, generally awarded at graduate or postgraduate level.

**Direct entry:** Entry into a higher level of a subject or later part of a degree without the prerequisites.

**Discipline:** A branch of knowledge which is researched and taught at the University.

**Dissertation:** A written research component of a degree or diploma worth between 30 and 80 points.

**Distance education:** Courses or programmes of study which provide content and support services to students who rarely, if ever, attend for face-to-face or for on-campus access to educational facilities.

**Distinction:** Postgraduate degrees and postgraduate diplomas may be awarded with Distinction to signify a highly superior level of performance.

**Doctoral degree:** A qualification at an advanced level requiring an original contribution to knowledge.

**EFTS:** Equivalent full-time student.

**Electives:** A defined set of courses for a diploma or degree from which a student may make a choice.

**End of lectures:** The final day of the final teaching week of a semester. The final lecture for a particular course might occur before this day.

**Enrolment:** The process by which a student, having gained admission to the University and to a qualification, selects and gains entry to courses and classes.

**Examination:** Formal assessment under supervision occurring after the teaching in a course has been completed.

**Extramural campus:** Where the teaching occurs at a distance mainly through paper-based study materials without a requirement for students to attend scheduled, on-campus classes. Students' study is guided by workbooks and written interaction with teaching staff.

**Extramural students:** Students who have exemption from receiving instruction on campus.

**Faculty:** An organisational unit responsible for the delivery of academic programmes and research. Faculties usually comprise a number of schools or departments.

**Flexible learning:** Learning characterised by a mixed mode of delivery and assessment of instructional material.

**Grade Point Average (GPA):** A means of measuring a student's performance at this University. The average grade achieved over a period of time expressed numerically on a scale between 0 (no passes) and 9 (A+ average).

**Grade Point Equivalent (GPE):** A means of measuring a student's prior relevant academic performance and experience. Grades or marks achieved at external institutions and/or in examinations (such as NCEA) expressed as an equivalent to a Grade Point Average on the scale 0-9.

**Graduand:** A person who has completed the requirements for a degree but has not yet had the degree conferred.

**Graduate:** A person on whom a degree has been conferred.

**Graduate certificate:** A graduate certificate must be a minimum of 0.5 EFTS or 60 points. CUAP requires that half or more of the courses must be above Stage II.

**Graduate diploma:** A graduate diploma must be a minimum of 1.0 EFTS or 120 points. It must include 75 points above Stage II.

**Honours:** Degrees, in some cases completed within prescribed time limits, may be awarded with honours which signify advanced or distinguished study.

**Laboratory:** A teaching session of a practical nature.

**Late Year Term:** A period of about 12-13 weeks used for teaching or research. It starts on 1 December and finishes on the last Saturday before the beginning of the first semester of the following academic year.

**Lecture:** A basic unit of instruction.

**Limited entry:** Applied to a course or programme for which the number of students that can be accepted is limited because of constraints on staffing, space or equipment.

**Major:** A required component of a degree, including a specified number of points in a subject at the most advanced level.

**Masters degree:** A degree programme at a higher level than a bachelors degree.

**Maximum full-time enrolment:** 80 points per semester, 30 points in Summer School, 45 points per quarter or 60 points in Late Year Term.

**Merit:** Postgraduate degrees and postgraduate diplomas may be awarded with Merit to signify a superior level of performance.

**Minimum full-time enrolment:** 50 points per semester, 25 points in Summer School, 25 points per quarter or 50 points in Late Year Term.

**Minor:** A component of a degree including a specified number of points above Stage I in a subject.

**Module:** An optional component of a bachelor's degree comprising 45 points focused on a particular skill or area of study.

**Normal full-time study:** A student workload of 120 points in one year.

**NZQA:** New Zealand Qualifications Authority. The government agency that administers the National Certificates of Educational Achievement (NCEA) qualifications for secondary school students, and is responsible for the quality assurance of non-university tertiary training providers in New Zealand.

**Online campus:** Where the teaching occurs online through computer-based interactions without the requirement to attend on-campus classes, though some scheduled online sessions might be compulsory. Communication between teachers and students is via a learning management system and email and reliable broadband internet access is required.

**Part:** A defined subdivision specified in the regulations of some degrees.

**Plussage:** A method of calculating the final result a student has gained in a course by counting either the final examination grade or a combination of final examination grade plus coursework, whichever is to the student's advantage.

**Point(s):** A value assigned to a course or other work to indicate its weighting within the University of Auckland's certificates, diplomas and degrees.

**Postgraduate certificate:** A qualification of at least 0.5 EFTS or 60 points. CUAP requires that all courses must be above Stage III.

**Postgraduate diploma:** A qualification of at least 1.0 EFTS or 120 points. CUAP requires that all courses must be above Stage III.

**Postgraduate programme:** A programme at a higher level than a bachelors degree.

**Prerequisite:** A requirement that must be met before commencement of study for a particular course or programme.

**Prescribed texts:** Textbooks which are considered essential to a course.

**Proctor:** A person who deals with disputes involving students. The Proctor can also provide advice about what

to do about disputes involving a member of staff, and about other issues to do with student conduct.

**Programme:** A prescribed set of one or more courses or other work which on satisfactory completion leads to the award of a University of Auckland certificate, diploma or degree.

**Project:** A piece of investigative written work on a topic approved by the relevant Head of Department and supervisor.

**Quarter:** A 10-week period of instruction for Graduate School of Management students.

**Reassigned course:** A course satisfactorily completed for one programme which has been transferred to another programme.

**Recognition of Prior Academic Study (ROPAS):** A means of assessment of previous study for students from another institution for admission or credit to the University.

**Regulation:** A rule set down by the University.

**Research essay:** A research-based essay on a topic approved by the relevant Head of Department and supervisor.

**Research Masters:** A research based programme of study that includes either a 90 or 120 point thesis or research portfolio.

**Research portfolio:** A coherent, integrated programme of research-based work.

**Research project:** A piece of research-based work on a topic approved by the relevant Head of Department, usually worth between 30 and 80 points.

**Restriction (restricted course):** A course in which the learning objectives, content and/or assessment are so similar to a second course that a student cannot be credited with both towards a certificate, diploma or degree. In some cases a restricted course may be taken and credited as a Certificate of Proficiency.

**Schedule:** University lists of courses, credits or limitations, often in tabular form.

**School:** A division of a faculty, which may comprise departments or disciplines that teach and research similar or related academic subjects.

**Semester:** A period of about 15 weeks which includes about 12 teaching weeks and about three weeks for study and examinations. In addition there is a mid-semester break of up to two weeks.

**Senate:** An academic board that advises Council on courses of study or training, awards, regulations and other academic matters.

**Specialisation:** A programme of related courses normally comprising more than 50 percent of a qualification.

**Stage:** The academic level of study in a subject.

**Subject:** An area of learning which may be provided by a school or a department, or by departments offering related courses.

**Summer School:** A six-week period during which a select range of courses is taught and assessed.

**Taught Masters:** A programme of study that is normally based on an undergraduate degree and includes coursework consisting of courses, project work and research in varying combinations. Masters degrees that build on generic attributes and/or experience (often called 'conversion masters') are usually in professional fields and are recognised as appropriate professional preparation by the industry concerned.

**Thesis:** A research component of a postgraduate programme having a value of 90 or more points which will have a written component but may also include design, creative or performative elements.

**Transfer credit:** Credit granted towards a University of Auckland qualification from work successfully completed at another tertiary institution.

**Tutorial:** A small group-learning session.

**Undergraduate:** A person studying towards a first degree.

**Unspecified campus:** Applies to courses where the teaching occurs through scheduled face-to-face interactions on sites that are not recognised University of Auckland campuses. Examples include the provision of courses where the course material is delivered in students' local work-related environment.

**UTAS:** Undergraduate Targeted Admission Schemes. Admission schemes designed to improve access into higher education for students from under-represented equity groups.

### Admission to the University of Auckland

The University of Auckland has an online system for admission and enrolment. All new students, and those intending to change their programme in 2020, are required to complete an Application for Admission. This may be completed online at [www.auckland.ac.nz/apply\\_now](http://www.auckland.ac.nz/apply_now).

If students do not have internet access, Application for Admission forms are available by phone, by mail or in person from:

AskAuckland Central  
The University of Auckland  
24 Princes St  
or  
Private Bag 92019  
Auckland Mail Centre  
Auckland 1142  
New Zealand  
Email: [studentinfo@auckland.ac.nz](mailto:studentinfo@auckland.ac.nz)  
Phone: 0800 61 62 63

All Applications for Admission will be acknowledged. Applicants will receive an offer of a place in programmes (degree, diploma or certificate) for which their admission is approved. **This offer of a place must be accepted online before the student can proceed to enrol in courses.**

**Undergraduate**

Applications to the University of Auckland must be received no later than the published closing date. Applications received after the closing date will only be considered on the basis of academic merit, if there are places available. International students should start the application process as early as possible to allow sufficient time to apply for a visa.

**Postgraduate**

Applications for Semester One submitted after 8 December will only be considered if places are available. Applications for Semester Two submitted after 4 July will only be considered if places are available. International students should start the application process as early as possible to allow sufficient time to apply for a visa.

**Doctoral**

Doctoral applications may be submitted at any time of the year (excluding the Degree of Doctor of Clinical Psychology and the Degree of Doctor of Education).

**Summer School**

No late applications will be accepted.

**Special Admission**

Applications to the University of Auckland must be received no later than the published closing date and no later than 1 December. Applications received after 1 December will only be considered if places are available.

**2020 Enrolment Dates**

Students must enrol as soon as possible after acceptance of an offer of place, as many University of Auckland courses are very popular and have a limited number of places available.

# THE UNIVERSITY OF AUCKLAND

## Arms of the University of Auckland

### Heraldic Description

The shield is azure (blue) with an argent (silver) mullet (five-pointed star). Between the stars is an open book "proper" i.e. in its natural colours. The edge of the book and the binding are gold ("Or") and it is bound with seven gold clasps on either side which close the book securely. Its "chief" (broad strip at the top of the shield) is wavy, that is the base of the chief is in a wave-like line. The chief is argent and on it are three kiwis "proper" meaning they are shown in their natural colour.

### Symbolism

The open book together with the motto 'Ingenio et Labore', freely translated as 'by natural ability and hard work', reflect the aim of the institution and combined with the three stars, express the idea of learning pursued under the Southern Hemisphere sky. The kiwis are indicative of New Zealand, as the bird is confined to its islands, and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the coast.

The shield, minus the ribbon containing the Latin motto (called the Crest), is used in combination with wordmark and graphic elements to form the University logo. Guidelines for the logo are prescribed in the University's Style Guide.

## History of the University of Auckland

### University of New Zealand

As early as 1862 an unknown writer, "J.G.", proposed in *Chapman's New Zealand Monthly Magazine* that a university should be established in Auckland. The pioneer town, founded less than a quarter of a century before, had other, more pressing issues, and initially there was no response to the suggestion. Consequently the first university, Otago, was created in 1869 in the South Island, where the inhabitants were wealthier and more keen on education. In 1870, Parliament passed legislation to create the University of New Zealand as an examining body with affiliated teaching colleges. An Auckland politician, later Speaker of the House of Representatives, Maurice O'Rorke, advocated that the University be located in Auckland but it was established as a federal body with no fixed location. Canterbury, which had been planning to create a university, became the first place to open a college of the new federal university in 1873.

The citizens of Auckland at first received university instruction at the Auckland Grammar School. Students sat the examinations of the University of New Zealand. In 1877, one of these students, Kate Edger, became the first woman to graduate with a Bachelor of Arts from a British university.

### Auckland University College

In 1878, O'Rorke chaired a Royal Commission on higher education that recommended the establishment of university colleges in Auckland and Wellington. In 1882, the Auckland University College was set up by Act of Parliament and was formally opened on 21 May 1883 in the Choral Hall, then the largest hall in Auckland. The Governor, Sir William Jervois, announced that the College was to be a thoroughly democratic institution, open to women as well as men, and to all classes.

The applicants for the first four chairs, of Classics and English, Mathematics, Natural Science, and Chemistry and Physics, were interviewed in England by the New Zealand Agent-General and some of the most famous scientists and scholars of the day, including the great Benjamin Jowett of Balliol College, Vice-Chancellor of the University of Oxford. The men appointed were an impressive group. The chemist, F.D. Brown, had studied in France and Leipzig as well as London, and taught at Oxford and London. He had published a dozen papers. Algernon Phillips Thomas, the biologist, was a Balliol man who had revealed the life history of the liver fluke. The classicist, T.G. Tucker, was to become a famous scholar. When he left to go to Melbourne University in 1885, he was succeeded by Hutcheson Macaulay Posnett, an Irishman who had written several books, including one on comparative literature – what would now be called the sociology of literature – a subject he is credited with inventing. The first professor of Mathematics, George

Walker, was accidentally drowned shortly after he reached Auckland and was succeeded by W.S. Aldis, who had been the top scholar in his subject at Cambridge and was the author of several mathematical books.

### Finding a Home

When O'Rorke first tried to secure a university for Auckland he suggested housing it in Government House, left empty when the Governor moved with the capital to Wellington in 1865. This immediately aroused opposition in the press because many Aucklanders hoped that the capital – and the Governor – would eventually return to Auckland. These conflicting ambitions lay at the basis of a recurrent feature of the history of the College, the great "site row", with the College trying to get at least part of the grounds of Government House while some influential citizens strongly opposed it. One result was that for years the College had no permanent site or permanent buildings. Teaching started in the disused District Court House, expanded into Admiralty House and, in 1890, into the original Parliament Building. In 1907, the Choral Hall was purchased and, in 1917, the College occupied the building vacated by the Grammar School. In 1926 the College acquired its first permanent building, now the Clock Tower Building, in Princes Street.

### Early Difficulties

The College was poor: its statutory grant was for many years only £4,000 a year, while land reserves, set aside by government to provide an income, brought in very little. There were few students: 95 in 1883, 156 by 1901. Some had not passed the matriculation examination and were not studying for degrees. Most were part-time, trainee teachers and law clerks, with music students from 1888 onwards, and commerce students by 1905. The College was dominated by the lay members of Council, especially by Sir Maurice O'Rorke, who was an autocratic chairman from 1883 to 1916.

The early College struggled to keep its small staff – some left for positions in Australia and elsewhere. Most of the remainder grew increasingly out-of-date in their subjects. There was no system of sabbatical or study leave until the 1920s. The teachers' role was to hand on traditional knowledge. The staff lectured for very long hours and, in general, the students were given a good, traditional undergraduate education. Research was not expected and was rarely done. In some subjects research was impossible. For instance, the Library took no mathematical journals, so the mathematicians knew little about recent work. Some students, however, started to carry out good research, notably in Chemistry.

### Progress

In the 1920s and well into the 1930s the College was ruled by a Registrar, Rocke O'Shea, and a new Chairman of the Council (President after 1924), another former Cabinet Minister, Sir George Fowlds. Under their leadership the University started to change. The first New Zealand graduates with postgraduate education abroad were appointed to the staff, notably the very able economist, Horace Belshaw, the philosopher, R.P. Anschutz, and the

physicist, P.W. Burbidge. An excellent researcher, W.F. Short, was appointed as a lecturer in Chemistry.

Some advances were made in providing professional education. The only such education offered at the College was in Law, which attracted large numbers of students. The only "professional schools" recognised by the University of New Zealand were Medicine at Otago and Engineering at Canterbury. In 1906, the College established a School of Mining, which slowly and covertly was turned into a "School of Engineering". After fierce battles with Canterbury, fired by provincial rivalry, the Auckland School received University recognition for its teaching in the first two professional years. Students then had to go to Canterbury to complete the final year of their degree. In 1917, the College began instruction in Architecture.

### Academic Freedom and Development

During the Depression of the early 1930s, the College experienced its first dispute over academic freedom. The temporary appointment of a lecturer in History, J.C. Beaglehole, later a world-famous scholar, was terminated, his friends believed, because of a letter he wrote to a newspaper defending the right of communists to distribute their literature. This episode led to a Council election in which the liberal, Hollis Cocker, defeated a conservative candidate. The College Council then adopted resolutions in favour of academic freedom and received the undeserved congratulations of the British academic establishment, including Lord Rutherford and Wittgenstein. At the same time the College enrolled a lively group of students led by James Bertram, who established a new literary journal, *Phoenix*. This journal was the focus for the first literary movement in New Zealand history: Allen Curnow, A.R.D. Fairburn, R.A.K. Mason and other writers, later distinguished, wrote for it.

The College received a great intellectual stimulus in 1934 when four new professors arrived: H.G. Forder, a very able mathematician; Arthur Sewell, a brilliant lecturer in English; a classicist, C.G. Cooper; and a new historian, James Rutherford.

### The University of Auckland

The College gained its first academic leader in the 1950s, when the Council appointed a Principal (later Vice-Chancellor) K.J. Maidment, a Classics don from Merton College, Oxford. He came in 1950 and remained for two decades. Maidment faced a further, fierce "site row". The Council wanted to move the College to a larger site out of town. Instead, in 1956, the National government offered Government House as compensation for staying in Princes Street. Another citizens' "save Government House" campaign followed. Both academic staff and the public were deeply divided over the issue, which was resolved in 1960: the University was to stay where it was. In 1957 the slow move towards autonomy was marked by legislation which changed the title of the College to the University of Auckland while leaving the functions and powers of the University of New Zealand intact.

The "site row" held up the building programme for about six years, while student rolls rose rapidly, to 4,000 by 1959, with the result that there was overcrowding in quite inadequate buildings. Universities everywhere were expanding rapidly. New Zealand academic salaries could not compete with those of overseas universities and many able Auckland staff left for positions in Australian and other universities. Despite these problems, there was significant progress. New subjects were introduced: Geography, Anthropology, Māori Studies and Fine Arts. There was a new emphasis on staff research. Many of the new and younger academics became very active researchers, reflected in the growing lists of staff publications.

In the 1960s, the Report of the Hughes Parry Committee led to major improvements in University conditions and governance. Staff salaries were raised. For the first time the students were given fairly generous bursaries, which led to a rapid increase in the proportion of full-time students. The government grant to the University rose rapidly. In 1962, the University at last became independent when the University of New Zealand was abolished.

### Growth and Change

A massive university building programme commenced, and over the next two decades the campus was transformed as one large building after another was erected: Fine Arts, Science, Engineering buildings, a Student Union, a new Library. A number of new subjects were introduced, including Political Studies, Art History and Sociology. In 1968, teaching commenced in the new Medical School on the Grafton Campus. By the end of the 1960s Auckland had the largest University Library in the country.

When Dr Maidment departed in 1970, there were 9,300 students. His successor, Dr Colin Maiden, was an Auckland engineer who had headed a research division of General Motors in Michigan. One of the first things that struck him in Auckland was the need for better student facilities. He pushed ahead to provide a theatre, a gymnasium and recreation centre, and a large playing-field "complex". The entire administrative organisation, from faculties and committees to deputy vice-chancellors, was reformed. The academic boom of the 1960s continued well into the 1970s and several new buildings, such as Human Sciences, were constructed and new subjects, including Management Studies and Computer Science, were introduced.

The 1970s brought numerous social changes: an increase in the proportion of Māori and Pacific students and in the proportion of women and older students. In 1975 and 1981 the first two women professors were appointed, Marie Clay and Patricia Bergquist. At a time of high inflation, the government grant to the University rose rapidly, to \$95.2 million by 1989. In 1983 the University celebrated its centennial. Although there was a certain economic austerity, after a century of growth the University had established itself strongly within its own community and nationally.

There were still to be challenges. The wide-ranging restructuring of education undertaken by the Labour

government after 1984 encompassed the universities, and their autonomy and their identity were seen to be threatened. As a result of efforts by the universities, supported by alumni, some changes were secured in the Education Amendment Acts of 1989 and 1990, but the University Grants Committee was abolished, the Ministry of Education became responsible for tertiary education policy, and the composition of the Council was altered. At the turn of the century, the government took another look at the whole range of tertiary education with the Tertiary Education Advisory Commission, out of which came the Tertiary Education Commission as the funder of tertiary education.

### The 1990s Onwards

Anxious to respond to the growing demand for university education in the early 1990s, the University offered courses at other tertiary institutions in Auckland and Northland. Acquiring buildings used for the 1990 Commonwealth Games village, it began to develop a campus at Tāmaki, initially offering courses in Commerce. Increasing student enrolments obliged it, like other universities, to introduce quotas for all first-year courses in 1992, breaking the historic policy of "open entry".

From the mid-1990s, the University introduced semesters, launched its first major fund-raising appeal, produced its first strategic plan and inaugurated a Summer School. It joined Universitas 21, an international network of research-intensive universities in Australasia, Asia, North America and Europe, as a foundation member. In the late 1990s, the School of Medicine expanded to become a Faculty of Medical and Health Sciences, introducing degrees in Nursing, Health Sciences and Pharmacy.

The third Vice-Chancellor, Professor Kit Carson, served from 1995 to 1998 and was followed by Dr John Hood in 1999. Dr Hood was an alumnus of the University, a former Rhodes Scholar and business leader. He faced a difficult financial situation as governments had progressively reduced tuition subsidies per student, and the University needed to re-activate its building programme. The last period of intensive construction had ended with completion of the new School of Music in 1986 and the Marae complex in 1988. The Law School had moved into refurbished premises in a new precinct to the north of Waterloo Quadrant in 1992. However, the University was growing very rapidly, with increasing numbers of international students as well as a growing number of domestic students, who could now borrow to fund their tuition and other costs. This growth reached a peak in 2004 and then started to slow. In its 2005 Strategic Plan the University resolved to pursue a quality agenda and to limit student growth to an average of one percent per annum over time. Consequently the University extended limits on admission from a few professional qualifications to all of its undergraduate degrees. In 2010, the student roll was 40,997 or 32,654 equivalent full-time students (EFTS).

From the 1990s, research became very much more important in the life of the University and its academics. The country started to look more than ever

to universities to generate new ideas and knowledge, including innovations that might be harnessed for economic development. The University had already founded UniServices as an organisation to develop and commercialise research. In the early 2000s it became host to four of eight national Centres of Research Excellence funded by the government.

In 2004 it was designated the country's leading research university "on virtually any measure" in the Performance Based Research Fund (PBRF) assessment carried out by the recently created Tertiary Education Commission. In the PBRF assessments released in 2007 and 2012, the University of Auckland again emerged as the New Zealand university with the greatest overall strength. Revenue from research and contract activities grew from \$153 million in 2006 to \$243 million in 2016. International ranking systems started to become important to university reputations and placed great significance on research performance. The University was consistently placed first among New Zealand universities, although its actual placement varied from year to year and among the ranking systems.

Between 2000 and 2007 the University embarked on another major building programme. The impressive Kate Edger Information Commons and Student Commons, the Engineering Atrium and greatly expanded library wing, and a seven-floor extension to the Science Centre, which houses Computer Science and Software Engineering, enhanced the City Campus. At Tāmaki, a new building was constructed for the new School of Population Health. A Fale Pasifika opened in 2004 and the Sir Owen G. Glenn Building, a large and striking new complex for the Business School, was completed in 2007.

Organisational change saw Architecture, Dance Studies, Fine and Visual Arts, Music, and Planning combine to form the National Institute of Creative Arts and Industries (NICAI).

The University and the Auckland College of Education amalgamated in September 2004 to form a Faculty of Education. The new faculty, based primarily at the College's campus in Epsom, was established with the aim of becoming New Zealand's leading provider of teacher and social services education. Then in 2015, the Faculty of Education changed its name to the Faculty of Education and Social Work, making more visible the two main practitioner communities the faculty engages with and serves – teachers and educators – and those in the human services/social work and counselling professions. With the move towards cross-disciplinary teaching and research, it is planned that the Faculty of Education and Social Work will be relocated to the City Campus.

In 2016 the National Institute of Creative Arts and Industries changed its name to the Faculty of Creative Arts and Industries (CAI) to align with the naming conventions of other University faculties.

### University Leadership

Dr John Hood left the University in mid-2004 to take up the position of Vice-Chancellor of the University of Oxford.

Professor Stuart McCutcheon, formerly Vice-Chancellor at Victoria University of Wellington, succeeded him as Vice-Chancellor in January 2005. Under his leadership a new strategic plan, which was refreshed in 2013, envisaged the development of a University focused on excellent undergraduate teaching and learning, dynamic and challenging postgraduate education, and research that contributes to international knowledge, understanding and economic and social development. The University also recognised that it must play a role in addressing inequities in educational participation and achievement by Māori and Pacific students, and placed an emphasis on enhancing its recruitment and support programmes for potential students.

In 2019 it was announced that the new Vice-Chancellor of the University of Auckland will be Professor Dawn Freshwater, the current Vice-Chancellor of the University of Western Australia. Professor Freshwater takes up the role in March 2020 and will be the first woman to hold the position since the University was founded.

### Funding

The University has become increasingly dependent on its own ability to raise the funds it requires to operate. Student tuition fees, including the fees of international students, are now an important part of University income, alongside the tuition subsidies contributed by government. Income from research is substantial. Philanthropic donations have also become a very important way in which friends and alumni of the University show their support for its activities, for the staff and the students. The University has come a long way from the early fund-raising appeal of the 1990s. A "Leading the Way" fundraising campaign, which ran from 2009 to 2012, exceeded its target of \$150 million in 2011. The "For All Our Futures" campaign was launched in 2016, with the goal of raising \$300 million by 2020 to support life-changing research to address critical challenges facing our communities. The fund-raising campaign was the largest ever undertaken by any university in New Zealand.

### Recent Campus Developments

In 2009 the University adopted a Campus Development Strategy that proposed a major investment in infrastructure. The initial major projects included the redevelopment of the Grafton Campus to refurbish laboratories, upgrade plant and construct the Boyle building (completed 2012); a student accommodation building at Elam to house 442 students (completed 2011); and a new South Pacific Centre for Marine Science, based at the Leigh Marine Laboratory, which fosters marine research and educates visitors on the marine environment. A major development of the Maths and Physics buildings was completed in 2011.

In 2013, in a bid to underpin 50 years of growth on a site close to the existing City and Grafton Campuses, the University purchased 5.2 hectares at Newmarket. The site, previously owned and occupied by Lion Breweries, has been partially redeveloped, and the mixed-use campus

was officially opened in May 2015, with Engineering and Science occupying the first facilities.

As a result of the Newmarket purchase, in January 2014 the University transferred the 20-hectare Colin Maiden Park and its associated facilities at the Tāmaki Innovation Campus to Auckland Council. This transaction was followed by a sale of the balance of the campus in April 2016 with the University scheduled to fully exit the Campus at the end of 2019. This sale was part of the University's long-term strategy to consolidate activities at the City, Grafton and Newmarket campuses and significantly reduce landholdings. It also reflects the growing importance of cross-disciplinary teaching and research at the University and the need for faculties to be co-located.

After refurbishment in 2014, the University's iconic building, the ClockTower on Princes Street now houses the Office of the Vice-Chancellor, as well as aspects of student administration and the Council Room. The refurbished Alfred Nathan House (completed 2017) also on Princes Street, where the Office of the Vice-Chancellor was previously located, is now home to AskAuckland (the former Student Information Centre), Communications and Marketing, the Schools Partnership Office, the International Office and other administrative and student support services.

The Maidment Theatre, which opened in 1976 and played a crucial role in the development of Auckland's vibrant theatre scene, was closed in December 2015 and later demolished due to concerns about its seismic strength. The University hopes to build a new performing arts facility elsewhere on the City Campus to meet the teaching, research and service requirements in theatre, music and dance as well as providing a venue for University public events.

The new Science Centre on the corner of Princes and Wellesley streets has been a significant enhancement to the City Campus (completed 2016) and a major new Engineering building is due to open in Semester One, 2020.

In 2018 Council approved the development of a new state-of-the-art Recreation and Wellness Centre. Demolition of the old centre and surrounding structures on the City Campus is planned for 2020, with the new facility due to be completed in 2023. In the meantime, temporary sports and recreation facilities will be available at 70 Stanley Street and in Wynyrd Street. The existing Recreation Centre was built in 1978 when the University had 10,000 students. It now has 40,000 students and more than 5,000 staff.

The provision of accommodation has increased dramatically to cater for the increased number of students seeking a residential experience. Additional self-catered student accommodation, the Carlaw Park Student Village, opened in 2014 next to the Domain, to provide more than 700 student places; a further 315 self-catered single and double studio apartments in Symonds Street opened for Semester One, 2017. Grafton

Hall reopened in 2019 after a two-year refurbishment, and provides catered student accommodation, while Waipārūrū Hall is due to be completed in 2020, providing almost 800 first-year student places. A further 488 self-catered single rooms are available in Te Tirohanga o te Tōangaroa on Anzac Ave, accommodation that will be completed in time for Semester One, 2020.

In 2018 the new Early Childhood Centre opened at Park Avenue in the city.

In May 2019 the new state-of-the-art facility for the Department of Exercise Sciences was officially opened, after their move from Tāmaki. The Newmarket facilities include a Health and Rehabilitation Clinic and a Movement Neuroscience Laboratory and the move has brought the department closer to allied health organisations with which it has relationships, as well as Auckland City Hospital.

In November 2019 the School of Population Health and associated clinics is due to move to a new purpose-built facility at the Grafton Campus on Park Avenue. The School of Medicine, currently accommodated in Auckland City Hospital, will also be relocating to the new building by Semester One, 2020.

## The Current University

The University has seven campuses with eight faculties representing each of its main disciplines: Arts; Business and Economics; Creative Arts and Industries; Education and Social Work; Engineering; Law; Medical and Health Sciences; and Science. It also has two large-scale research institutes: the Auckland Bioengineering Institute and the Liggins Institute.

Many courses and research activities reflect Auckland's and New Zealand's place in the world. This perspective has long been a feature of our programmes. For example, Pacific archaeology, ethnology and languages are emphasised in the discipline of Anthropology. Asian languages, including Chinese, Japanese and Korean, are taught, and Pacific Island languages were introduced in 1991.

Geographers carry out fieldwork in the Pacific Islands, while University scientists make frequent study trips to the Antarctic. The Leigh Marine Laboratory, about 100km north of Auckland and part of the Faculty of Science, brings together a wide range of expertise and facilities to work towards our understanding of the marine environment

The University continues to build on these foundations with the introduction of the Bachelor of Global Studies in 2018 and the Bachelor of Design in 2020. A suite of exclusively on-line taught masters programmes is being progressively offered from 2020.

The University of Auckland recognises research and research-led teaching as a primary responsibility of its academic staff. High-quality research on a large scale and across the full range of disciplines, represented

by faculties and Large-Scale Research Institutes, is essential to ensure the place of the University of Auckland among the leading international research universities. University researchers contribute to the growth of new knowledge by conducting fundamental research across a wide range of fields in the natural, human and social sciences, the humanities and creative arts. The University fosters the commercialisation of its research to assist in the pursuit of the country's economic objectives and applies it so as to enhance social values and advance the wellbeing of all New Zealanders. Research underpins the University's obligation to act as a critic and conscience of society. As the leading research university in New Zealand, the University of Auckland is committed to the quality and excellence of its degree courses including its postgraduate and doctoral programmes.

## Structure of the University

### The Council

The University's governing body is the Council, a mixture of elected staff, students and graduates, and outside appointees. The Vice-Chancellor, the University's chief academic and administrative officer, is also a member. Council is chaired by the Chancellor who is a lay member of the Council.

### The Senate

On academic matters, Council is bound to consult the Senate which the Vice-Chancellor chairs. This body includes all the professors, some non-professional staff and student representatives. The Senate takes advice from the Education and Research Committees, and from specialist committees, dealing for example with the Library and the Faculties.

### The Faculties

Each faculty is a sub-committee of Senate and is headed by a Dean who is usually supported by Associate Deans, a Director of Faculty Operations and other administrative staff. The Dean is responsible for coordinating the academic and research activities of individual departments and liaises with both the Office of the Vice-Chancellor and the Senate committees on academic programmes, staff appointments, buildings, research funding, library facilities, timetabling etc. The faculty student centres provide assistance to students with programmes and courses. Information is available on faculty websites; handbooks are available from both faculty and departmental offices.

### Large-Scale Research Institutes

Each large-scale research institute (LSRI) is headed by a Director, supported by a Deputy Director and administrative staff. The Director is responsible for coordinating the research activities of LSRI staff, including postgraduate research supervision, and liaises with both the Office of the Vice-Chancellor and the Senate committees on regulations, staff appointments, buildings, research funding, library facilities etc. Information is available on LSRI websites.

### Central Administration and Services

Day-to-day central administration and service provision is performed by the Vice-Chancellor's Office and Academic Services, Alumni Relations and Development, Campus Life, Communications and Marketing, Equity Office, Finance, Human Resources, International Office, IT Services, Libraries and Learning Services (including the University Library), Office of Research Strategy and Integrity, Organisational Performance and Improvement, Property Services and the School of Graduate Studies.

## The City Campus

The City Campus, established in 1883, is in the heart of Auckland City. Separated from the tower blocks of the central business district by historic Albert Park on its western flank, the campus covers over 20 hectares. To the southeast lie the trees and open spaces of the Auckland Domain. Its proximity to the cultural and commercial amenities of the country's largest city, attractive green setting and harbour views bestows advantages enjoyed by few inner city campuses anywhere.

The City Campus has undergone major development during its existence with many refurbished and new building works.

A new 32,000m<sup>2</sup> building for the Faculty of Engineering is complete and design is underway for a new Recreation and Wellness Centre building.

## The Epsom Campus

The Epsom Campus was established in 1926 as the site of the Auckland College of Education, formerly known as the Auckland Teachers' College and the Auckland Teachers' Training College (established 1881). Upon the amalgamation of the Auckland College of Education and the University of Auckland in 2004, the Epsom Campus became the primary site for the new Faculty of Education.

The 11.5 hectare campus on Epsom Avenue is approximately four kilometres from the City Campus and three kilometres from the Grafton Campus. It is flanked by Mt Eden Village to the west, Maungawhau (Mt Eden) Domain to the north, and directly adjoins Auckland Normal Intermediate and Kohia Schools and Melville Park to the south and south-east. The campus is well sited for major transport routes. Established trees and gardens complement diverse facilities, including pool, gymnasium, café, marae, tennis courts, health and counselling centre and early childhood centres, to make this an attractive study location.

The Epsom Campus also houses the Kohia Centre and retail outlet, the Woolf Fisher Research Centre and the Sylvia Ashton-Warner Library.

## The Grafton Campus

Located opposite Auckland City Hospital and the entrance to the Domain, the Grafton Campus covers a 2.75 hectare site on Park Road, Grafton. Originally established for the School of Medicine in 1968, the site was recognised as a separate campus in 1995 and in 2008 was formally designated as the Grafton Campus.

Home to the Faculty of Medical and Health Sciences (FMHS) and the Liggins Institute, the campus is a modern biomedical and health education and training facility, complemented by a specialist medical library, the Philson.

The campus houses a number of significant research facilities, including the Auckland Cancer Society Research Centre, Brain Research New Zealand - Rangahau Roro Aotearoa, the Centre for Brain Research, a state-of-the-art Biomedical Imaging Research Unit, the Centre for Advanced MRI, the Clinical Research Centre, the Neurological Foundation Human Brain Bank, the Auckland Regional Tissue Bank, Grafton Clinical Genomics, the Clinical Skills Centre and the Auckland Medical Research Foundation Medical Sciences Learning Centre.

With the opening of the new Park West building, all Faculty schools are represented on campus, as well as hosting publically accessible teaching and research clinics and Speech Science (part of the Faculty of Science).

Satellite clinical campuses of FMHS operate at Middlemore, North Shore, Tauranga and Waikato Hospitals with further clinical sites at Henderson, Whangarei, Rotorua, Whakatane and New Plymouth.

---

## The Leigh Campus

The Leigh Marine Laboratory, situated at Leigh, north of Auckland, houses the University's Marine Science Research Facility.

---

## The Newmarket Campus

The 5.2 hectare Newmarket site was previously owned and occupied by Lion Breweries, and acquired by the University in 2013 to develop as a long term mixed-use campus. The Newmarket Campus is a major strategic acquisition for the University which provides opportunities for long-term growth close to the City and Grafton campuses. The site's benefits include the opportunity to integrate campus development across the city, providing long term additional space to develop purpose-built research facilities and student accommodation, as well as other business development opportunities.

The campus houses the Faculty of Engineering research facilities as well as the Department of Exercise Sciences (Faculty of Science).

---

## The South Auckland Campus

The University is opening a new campus in central Manukau in 2020. It will have space and resources to build and support community and school relationships, and provide more study options for communities in South and East Auckland in particular.

Initially, the Bachelor of Education (Teaching), Tertiary Foundation Certificate (Education pathway) and New Start programmes are being offered at the new South Auckland Campus, with a limited number of General Education courses to be taught from Semester 2, 2020. Other local University of Auckland students can use the space for informal study, and study-support services will be available to all students.

The opening of the new campus marks the end of a 20-year partnership with Manukau Institute of Technology (MIT), with whom the University previously delivered its programmes from Otara.

---

## The Tai Tokerau Campus

The Tai Tokerau Campus in Whangārei was established by the Auckland College of Education in 1992. Centrally located, the campus offers lecture rooms, student centre, library and a base for a range of Faculty of Education and Social Work programmes and staff, while also providing a base for a wider presence of the University of Auckland in the North.

---

## The Tāmaki Innovation Campus

As part of its long-term strategy to consolidate activities at the City, Grafton and Newmarket campuses, the University of Auckland completed its relocation of teaching, research and other activities from the Tāmaki Innovation Campus, which it had previously sold, in 2019.

Services formerly offered at Tāmaki continue to be delivered by the University of Auckland Clinics, providing expertise to clients from their new locations. The Hearing and Tinnitus, Optometry, Nutrition and Dietetic and Speech Language Therapy Clinics are now located in new facilities on the Grafton Campus. The Health and Rehabilitation Clinic is in new premises on the Newmarket Campus and the Psychology Clinic is located in the Faculty of Science on the City Campus.

## Alumni Relations and Development

Alumni Relations and Development is the University's centralised point of contact for two key groups:

- Alumni and friends, a 200,000-strong network spread across the Auckland region, throughout New Zealand and around the globe. Alumni Relations and Development enables alumni and friends to stay connected with the University and one another and to enjoy a range of benefits and services. Those who

wish to have a closer relationship with the University can join a range of alumni groups and clubs listed on the Alumni and friends website (visit [www.auckland.ac.nz/globalalumni](http://www.auckland.ac.nz/globalalumni)).

- Philanthropic partners and donors, whose generosity has a transformative effect on research, teaching and learning at the University.

Alumni Relations and Development operates in close collaboration with the University's Senior Leadership Team, faculties and other service divisions. It is located at University House, 19A Princes Street.

### Special Admission

- 5 a A person who does not hold a university entrance qualification but who is a New Zealand citizen or permanent resident and has attained the age of 20 years on or before the first day of the semester in which a proposed programme is offered is eligible to be granted Special Admission.
- b A person seeking Special Admission to the University has to apply for it in accordance with the Admission Regulations and submit evidence of age and educational qualifications.
- c Senate may waive the age requirement where an applicant is in its opinion otherwise fit to be admitted and, in particular, has satisfied any qualification for admission specified in the regulations for that programme of study.
- d A person seeking to be admitted to the University of Auckland who wishes to be granted credit for any prior learning must apply under Regulation 7 (Admission at Entrance Level or with Credit).
- e Special Admission applicants who have previously failed a foundation programme or not reached an adequate standard in a preparatory programme, will not be re-admitted to the University unless their last enrolment is two or more years previous and they have subsequently undertaken work, study or life experience that demonstrates readiness for academic study. Special Admission applicants refused admission should be advised of other study options.

### Discretionary Entrance

- 6 a A person under the age of 20 years who does not meet the University Entrance standard, but
  - (i) is a citizen or permanent resident of New Zealand or Australia\*
  - and
  - (ii) has received secondary schooling to at least New Zealand Year 12 level (or its equivalent overseas) and earned at least 14 credits in an approved subject at Level 2 towards NCEA (or its equivalent)
  - and
  - (iii) has met the literacy and numeracy standards required for University Entrance, or their equivalents may apply for Discretionary Entrance.

*\* Australian applicants' most recent year of schooling must have been in New Zealand.*
- b Persons who have undertaken Year 13 study beyond 1 June at a New Zealand secondary school may normally not be admitted under the Discretionary Entrance provisions before July in the following year. Admission will be at the discretion of the University.
- c In special circumstances the Chair of Universities New Zealand–Te Pōkai Tara's Sub-Committee on University Entrance may permit persons who do not fulfill Regulation 6a(ii) or Regulation 6a(iii) above to apply for Discretionary Entrance.
- d A person studying at a New Zealand secondary school, who is attempting to qualify for entrance to the University, may apply for Discretionary Entrance in the same year for the purpose of enrolling in courses offered in Summer School. Any person admitted under this regulation who does not, in the following January, meet the University Entrance standard will be required to withdraw from the University and may re-apply for admission at mid-year. Students required to withdraw may complete their Summer School programme before doing so, but any courses passed will not be credited to a qualification until a University Entrance qualification is gained.
- e A person seeking Discretionary Entrance to the University must apply by completing the requirements prescribed on the Discretionary Entrance form.

### Admission *ad eundem statum* (Admission at Entrance Level or with Credit)

- 7 a **From a New Zealand university**  
A student from another university in New Zealand, including a student who had enrolled at the University

of Auckland previously, who wishes to reapply to the University of Auckland must submit an Application for Admission form and may apply for credit under the provisions of the Credit Regulations.

**b From another tertiary institution in New Zealand or overseas**

A person who wishes to be admitted to the University and who has gained appropriate qualifications validated by the New Zealand Qualifications Authority or from an overseas institution may be granted admission by this University:

- (i) at entrance level
- (ii) with credit towards a certificate, diploma or a Bachelors degree for work which in the opinion of Senate is substantially equivalent and is in accordance with the credit regulations
- (iii) with graduate status.

**c From a New Zealand secondary school**

New Zealand citizens, permanent residents or international students who have gained from a New Zealand secondary school an entrance qualification approved by Universities New Zealand–Te Pūkai Tara for the purpose of admission *ad eundem statum*, may be granted admission *ad eundem statum* to this University.

**d From an overseas secondary school**

New Zealand citizens, permanent residents or international students who have gained an appropriate overseas qualification may apply to have that qualification recognised as being equivalent to a university entrance qualification set out in Regulations 4a–e above. A New Zealand citizen who has completed a year of academic study overseas, which is deemed to be at the equivalent of Year 13 in New Zealand, whether or not a formal academic qualification has been obtained, may apply for Discretionary Entrance, if appropriate, or may apply for *ad eundem statum* entrance under this Regulation.

e A person seeking admission under this regulation has to apply by completing the requirements on the Application for Admission form.

- 8 a Credits may be specified or unspecified and the grant of admission may include permission to advance in specified subjects or courses.
- b Prerequisite courses or programmes may be prescribed as a condition of the approval to proceed to a higher degree or other qualification.

### Students Enrolled at Another Educational Institution

- 9 a When they enrol, students are required to declare if they are intending to enrol concurrently during the year in question at any other educational institution.
- b A student at a New Zealand secondary school who satisfies the admission requirements and who has the specific written approval of the institution's principal may, with the approval of Senate or its representative, enrol in up to 15 points per semester.

### English Language Competence

- 10 a Applicants for admission to the University of Auckland must provide evidence acceptable to the University of their competence in both written and spoken English.
- b For admission purposes, the University will be satisfied of an applicant's competence in English:
  - (i) if English is the applicant's first language
  - or
  - (ii) if the applicant has a New Zealand university entrance qualification
  - or
  - (iii) if the applicant has an overseas university entrance qualification from a country where the main language is English and the main language of instruction and assessment for that qualification was English
  - or
  - (iv) if the applicant performs to a satisfactory standard, as set down by the University Senate from time to time, in an approved English Language test
  - or
  - (v) if the applicant provides other evidence acceptable to the University of competence in both written and spoken English.
- c If the applicant is age 20 years or over, and is a New Zealand citizen or permanent resident, this regulation does not apply.

*Note: Under the provisions of the Education Act 1989, the University of Auckland may require students over the age of 20 applying for admission to any restricted entry programme to provide evidence of English language competency.*

## Credit Regulations

### Credits

- 1 a A student may, with the approval of Senate or its representative and on payment of the prescribed fees under the Fees Statute, be granted credit towards a programme approved by the Dean of Faculty concerned under the provisions of these regulations.
- b A student may not be granted further credit for work already credited under this regulation.

### Credit from Another Tertiary Institution: Transfer Credit

- 2 a A student who applies for admission to the University of Auckland and has undertaken an appropriate programme at an approved tertiary institution may be granted appropriate credit towards a degree or other qualification of the University of Auckland on the basis of work successfully completed in the previous programme.
- b To be awarded an undergraduate degree of the University of Auckland, a student must complete at least the equivalent of a full time year of study as an enrolled student at the University of Auckland and pass a minimum of 120 points towards that degree.
- c Credit granted under 2a above may be specified or unspecified and the grant of admission may restrict advancement in specified subjects or programmes.
- d
  - (i) Credit granted under 2a above for an undergraduate qualification will normally be granted only for courses at Stage I and Stage II. Only in exceptional circumstances will the grant of credit be considered at Stage III for courses taken at Stage III at another tertiary institution.
  - (ii) Where Parts are specified for a Bachelors degree, credit may be awarded within a Part according to suitability of course content and/or professional requirements and irrespective of the Stage of the course passed. Credit towards an undergraduate qualification will not normally be granted for postgraduate level courses.
  - (iii) Subject to any provisions of the relevant Programme Regulations, where a transferring student has completed an undergraduate qualification at a recognised New Zealand or overseas institution, credit granted under 2a above will be treated as though it were 'cross-credit' under 5a and will be subject to the limits set out in 7.
  - (iv) Credit may be refused for undergraduate courses passed more than five years previously.
- e Unless prohibited by the regulations of a prescribed degree, credit may be granted under 2a above towards a Bachelors Honours Postgraduate degree, taught Masters degree or the taught component of a research Masters degree with a total points value of more than 120 points, or Postgraduate Diploma provided that:
  - (i) No more than 30 points may be granted as transfer credit.
  - (ii) The enrolment in the postgraduate qualification at the University of Auckland is no later than three semesters from the initial enrolment in the courses for which credit is to be given.
  - (iii) The application for transfer credit is made at the time the student is admitted to the postgraduate qualification.
  - (iv) The completed courses are at postgraduate level in the disciplinary area of the qualification for which transfer credit has been sought.
  - (v) Transfer credit will not be given for independent research courses such as a dissertation, research project, research portfolio, thesis, or similar, or the major creative component of a postgraduate programme.
  - (vi) Transfer credit will not be given for courses in completed qualifications.
  - (vii) Grades for transfer credit courses will not be included in the calculation of an overall grade for Honours (or Distinction/Merit).
- f Where prior approval for external tertiary study, exchange or study abroad enrolment has been granted:
  - (i) The grant of more than 30 points of credit for courses taken at another tertiary institution will be considered for a Bachelors Honours degree, taught Masters degree, the taught component of a research Masters degree with a total points value of more than 120 points, or a Postgraduate Diploma.
  - (ii) The grant of credit for courses taken at another tertiary institution will be considered for a research Masters degree.
- g The grant of 60 points of credit from a completed postgraduate certificate towards a Postgraduate Diploma may be approved where the admission regulations for the diploma programme allow for it.
- h Credit will not be available for any course passed at another tertiary institution with a conceded or restricted pass.

- i Where cross-credit or transfer credit has been awarded at another tertiary institution, this credit may not also be credited to a programme at the University of Auckland.

### Approved Study at Another Institution

- 3 a A student who is enrolled at the University of Auckland and who concurrently enrolls and completes courses at another tertiary institution, which they wish to credit to their University of Auckland qualification, must:
  - (i) Seek from the Dean of the relevant Faculty, or nominee, prior approval of the proposed concurrent enrolment and confirmation that the courses will satisfy the regulations and requirements for the qualification for which the student is enrolled at this University and that appropriate credit may be granted.
  - (ii) Apply for credit in accordance with these regulations when the official results are known.
- b Any credit granted towards a University of Auckland qualification from study at a Summer School will be added to the current year of study at this University.
- c Where prior approval has not been sought, credit will not normally be granted.
- 4 Where study at another institution is part of approved external study, study abroad or exchange arrangement, credit for an undergraduate qualification may be approved for Stage III or postgraduate level courses if the successfully completed study is deemed appropriate for such credit by the Dean of the relevant Faculty or nominee.

### Cross-credits and Internal Credit

- 5 a In this Regulation 'cross-credit' means a course which is common to two University of Auckland undergraduate qualifications, which may be Bachelors degrees, undergraduate diplomas and undergraduate certificates, and is credited to both. 'Internal credit' means credit awarded to a programme for one or more courses passed for another University of Auckland qualification, which cannot be designated as a cross-credit.
- b A student taking two programmes may only be awarded as cross-credits and/or internal credit the maximum allowed for one, but not both, of the programmes.
- c A course which is designated a cross-credit may not be credited to more than two qualifications.
- 6 a When calculating cross-credits between a second and third qualification, points from previously granted cross-credits may not be used. The maximum number of cross-credit points that may be granted is based on one third of the points not previously designated for cross-credits.
- b A Stage III course that fulfils the Stage III requirements of one qualification may not normally be designated as a cross-credit to meet the Stage III requirement of another qualification unless permitted by the regulations of a prescribed undergraduate degree.
- c A student may not designate as a cross-credit any course passed with a conceded pass or a restricted pass. If that course is compulsory, another course may be substituted for it as Senate or its representative may approve.
- d Designation of courses as cross-credits, as permitted by these regulations, is subject to the approval of the Dean of the relevant Faculty or their nominee.

### Limits

- 7 Subject to any other provisions of these regulations or the relevant Programme Regulations:
  - a In the case of qualifications of equal value, the total value of transfer credit, cross-credits and internal credit is limited to one third of the total value of the degree, diploma or certificate.
  - b Where the qualifications concerned are of different values, the total value of transfer credit, cross-credits and internal credit may not exceed one third of the total points value applying to the qualification of lesser value.
  - c Cross-credits are not available for Masters degrees, Bachelors Honours Postgraduate degrees, doctorates, postgraduate certificates and postgraduate diplomas.

### Limits on Cross-credits for Conjoint Degrees

- 8 a A conjoint degrees combination is considered to be two degrees for the purpose of calculating cross-credits.
  - (i) A maximum of 80 points may be cross-credited from a completed conjoint degree component to another qualification.
  - (ii) A maximum of 80 points may be cross-credited from a completed qualification to a conjoint degree component.
  - (iii) The apportionment of the points to the components of the conjoint degrees combination is subject to the approval of the appropriate Deans or their representatives.

### Reassigned Courses

- 9 a A student may apply, by submitting an Application to Reassign Courses form, to reassign courses passed for, and assigned to, one qualification to another qualification for which the courses are available.
- b A student may not reassign courses passed for one qualification to another once the qualification for which the courses were passed has been awarded.
- c A student may not reassign to another qualification any course passed with a conceded pass or a restricted pass. If that course is compulsory, another course may be substituted for it as Senate or its representative may approve.
- d A student may apply to reassign a course or courses passed for a Certificate of Proficiency to a taught Masters degree, or the taught component of a research Masters degree with a total points value of more than 120 points, a Bachelors Honours Postgraduate degree, a postgraduate diploma or a postgraduate certificate provided that:
  - (i) no more than 30 points are reassigned
  - (ii) the enrolment in the postgraduate qualification is no later than three semesters from the initial enrolment in the course(s) reassigned from a Certificate of Proficiency
  - (iii) the application to reassign is made at the time the student is admitted to the postgraduate qualification
  - (iv) the course is available in the schedule of the qualification to which it is reassigned.
- e Courses which are reassigned cease to be credited to the former qualification.

### Review and Appeal Procedure

- 10 a Decisions under these Regulations may be reviewed only if:
    - (i) There was a failure of the University's process and/or
    - (ii) The basis of the decision was manifestly at odds with the evidence.
  - b Requests for review of Transfer Credit and Approved Study at Another Institution decisions should be made to the Applications and Admissions Office. Requests for review of Cross-credits, Internal Credit and Reassigned Courses decisions should be made to the Records, Enrolment and Fees Office.
  - c If the request for review is unable to be resolved by the Applications and Admissions or Records, Enrolment and Fees Offices, it will be referred to the Faculty concerned or, in the case of postgraduate qualifications, the Dean of Graduate Studies for reconsideration.
  - d If a student remains dissatisfied following reconsideration by the Faculty or Dean of Graduate Studies, a written appeal for a review of the credit decision may be submitted to the Director, Academic Services.
  - e The Credit Review Board will consider all appeals relating to credit decisions on behalf of Senate.
  - f Students who are submitting an appeal have the right to be heard in person.
  - g The decision of the Credit Review Board must be recorded and the appellant informed of the decision in writing.
  - h The decision of the Credit Review Board is final.
- 

## Enrolment and Programme Regulations

*The 'Department' is the Department or School or other academic unit in which the student is enrolled, and the 'Head of Department' is the head of that academic unit.*

### Academic Calendar

- 1 a The academic year will begin on the first day of January of the calendar year and will end on the last day of December of that same calendar year.
- b There will be a Summer School, a Late Year Term, two semesters, four quarters, an Academic Year Term, and a doctoral year term in each year.
- c The Summer School will normally begin on the second working day after the New Year break and will end with examinations normally held over three days commencing the second or third Monday in February. If the second working day is a Friday, the Summer School will begin on the following Monday.
- d The first semester will normally begin on the ninth or tenth Monday of the calendar year and end on the 26th Monday of the calendar year, the final three weeks and one day of which will normally be a study and examination period.
- e The second semester will normally begin on the 29th or 30th Monday of the calendar year and end on the 46th

Monday of the calendar year, the final three weeks and one day again normally being a study and examination period.

- f Each semester will include a break of at least one week after about six weeks of teaching.
- g Quarters normally comprise a ten week period of teaching and examinations, followed by a break of one or two weeks.
- h The Academic Year Term will begin on the first day of January and will end on the last day of December of that same calendar year. Within the Academic Year Term, individual sessions that commence on a date within the Academic Year Term will be used to denote specific shorter periods of study.

### Definitions of Full-time and Part-time Study

- 2 Full-time study is defined as a student workload of:
  - a not fewer than 100 points over two semesters in one year  
or
  - b not fewer than 50 points in one semester  
or
  - c not fewer than 25 points in Summer School  
or
  - d not fewer than 25 points in one quarter  
or
  - e not fewer than 50 points in Late Year Term  
or
  - f not fewer than 100 points in the Academic Year Term  
or
  - g not fewer than 100 points in the doctoral year.
- 3 Part-time study is defined as a student workload of:
  - a fewer than 100 points over two semesters in one year  
or
  - b fewer than 50 points in one semester  
or
  - c fewer than 25 points in Summer School  
or
  - d fewer than 25 points in one quarter  
or
  - e fewer than 50 points in Late Year Term  
or
  - f fewer than 100 points in the Academic Year Term  
or
  - g fewer than 100 points in the doctoral year.

### Points

- 4 a (i) Students in a Bachelors degree, diploma or certificate are subject to the provisions of the Academic Standing regulations
- (ii) A student may enrol in:
  - (a) up to 80 points in each of Semesters One and Two
  - (b) up to 30 points in a Summer School
  - (c) up to 45 points in each of Quarters One, Two, Three and Four
  - (d) up to 60 points in Late Year Term
  - (e) up to 60 points in total if a student is enrolled in both Summer School and the Late Year Term
  - (f) up to 190 points in the Academic Year Term, or in the Academic Year Term in conjunction with other semesters, quarters or terms.

Notes:

- 1 *A recommended full-time programme in Semesters One and Two would normally comprise a total of 120 points.*
- 2 *A recommended full-time programme in Quarters One, Two, Three and Four would normally comprise a total of 120 points.*
- b (i) For a Masters degree, PhD or other doctorate, where another programme is included in the enrolment, a limit on points may be determined by the Dean of Faculty or delegated representative in any particular case provided that the Masters, PhD or doctoral programme will always comprise more than half of the total points for which the student has enrolled.

- (ii) Students who are eligible to claim student allowances and/or an additional student loan entitlement and wish to enrol during the summer vacation period in order to work on their thesis, dissertation or research topic are required to complete a Course Alteration Form.

### Exchange/Study Abroad

- 5 For study at another institution as part of an approved undergraduate exchange or study abroad arrangement:
  - a a student is required to enrol in at least 45 points in a semester for up to two semesters of their degree
  - b a student may enrol in a maximum of 75 points in a semester for up to two semesters of their degree
  - c the maximum amount of credit that may be awarded under these regulations is the maximum limit specified in Regulation 7 of the Credit Regulations.

### General Programme Provisions

- 6 a For the purposes of this section of the Regulations a representative of Senate includes a Dean, and a Deputy or Associate Dean; a Head of School and a Deputy or Associate Head of School; and a Head of Department and a Deputy or Associate Head of Department.
- b Subject to the Admission Regulations and to the express provisions of any other statute or regulation, every student for a certificate, diploma or degree programme must:
  - (i) be admitted to the University
  - and
  - (ii) follow the prescribed programme in the order prescribed or indicated in accordance with the regulations governing that programme
  - and
  - (iii) comply with the provisions of the Examination Regulations.
- c Each student must ensure that, before confirming their enrolment, their proposed programme and enrolment:
  - (i) complies with the regulations of the qualification to which they have been admitted
  - and
  - (ii) does not involve lecture clashes.
- d Senate or its representative may in exceptional circumstances approve:
  - (i) a proposed enrolment which does not in every particular satisfy the regulations for the programme for which the student is intending to enrol
  - or
  - (ii) a variation in the programme to avoid lecture clashes.
- e Where an approval of a proposed programme as a whole is declined by a representative of Senate the student may appeal to Senate whose decision shall be final.
- f A Faculty may determine whether a programme will be offered part-time or full-time for new students in any particular academic year. This information will be made available on the University's website.
- g Where electives are prescribed for a programme, Senate may at its discretion determine which of them shall be available in any semester provided that sufficient electives are available to enable students to complete their programme.
- h A student who has enrolled for the second semester in a course or courses that have a first semester prerequisite or corequisite and who fails the prerequisite/corequisite course(s) may not proceed with the second semester enrolment unless a concession is granted by the relevant Dean.
- i Where in the opinion of a Head of Department an insufficient number of students has enrolled in a course taught in the Department or where there are insufficient staff to teach it, that Head of Department may, with the approval of the Dean of Faculty, cancel that course not later than one week after the beginning of the semester in which it would have been taught, if the essential prerequisites for any student's enrolment are not thereby affected. A student is not to be charged a fee for any alteration to enrolment required because of the cancellation of a course.
- j If a student wishes to enrol in a course that is not explicitly listed in the Structure and Content or Schedule of their programme, they may do so, provided that:
  - (i) the Structure and Content or Schedule of their programme includes a provision for them to enrol in other courses
  - and
  - (ii) approval is given by the Dean of the faculty in which the course is offered
  - and
  - (iii) any prerequisite, corequisite or other conditions are met or Senate or its representative has, in approving the enrolment, waived those requirements

or

(iv) it is completed as a Certificate of Proficiency.

- k In respect of individual courses, 'to complete' means to attend all required classes, submit any required assessment, sit any required examinations, and be awarded a pass grade.

### Restrictions

- 7 a A student may not normally enrol in the same semester or quarter or Summer School or Late Year Term for more than two different programmes.
- b (i) A student may not enrol in the same semester or quarter or Summer School or Late Year Term for courses the content of which is substantially similar.
- (ii) A student may not enrol for any course the content of which is the same as, or substantially similar to, any course for which credit has been received, provided that in exceptional circumstances Senate or its representative may permit such enrolment for a Certificate of Proficiency.
- (iii) Work submitted for credit towards the result in any course may not be resubmitted in respect of any other course.
- c A student who has twice enrolled in, but has failed to be credited with a pass in, a course is not entitled to enrol again in that course other than in exceptional circumstances approved by Senate or its representative.
- d A student may not be admitted to a programme for a qualification at the same level, in the same discipline, as a qualification that has already been awarded or conferred or for which the requirements have been completed, unless specific provision is made in the regulations for the relevant programme or special approval is given by Senate or its representative.
- e Unless special approval is given by Senate or its representative, a student may not be admitted to a programme for a postgraduate qualification
- (i) for which the student has previously failed to meet the general requirements by being unable to complete within the total allowable enrolment limit
- or
- (ii) the content of which is the same as, or substantially similar to, any qualification for which the student has previously failed to meet the general requirements.

### Discontinuation

- 8 a A student who has not enrolled in a course for a programme for a period of three years shall have their admission to the programme discontinued and must apply for readmission to that programme before any further enrolment for the programme.
- b A student who has twice enrolled in, but has failed to be credited with a pass in a course which is required for completion of, or continued enrolment in, a programme may have their enrolment for that programme discontinued by Senate or its representative.
- c A student who has been admitted to a programme with specified conditions which must be met in order to be able to continue enrolment in that programme and who has not met those conditions may have their enrolment for that programme discontinued by Senate or its representative.
- d A student who has been re-admitted to a programme after discontinuation may have specified conditions imposed which must be met in order to be able to continue enrolment in that programme. Where such conditions are not met their enrolment for that programme may be discontinued by Senate or its representative.
- e A student whose enrolment in a programme has been discontinued under Regulations 8c or 8d may not be re-admitted to that programme within two years of the date of discontinuation.
- f A student who has received 'Did not sit' (DNS) or 'Did not complete' (DNC) grades on all their courses in a semester may have all future course enrolments deleted and their programme discontinued by Senate or its representative.
- g A student whose enrolment has been discontinued because of failure to meet specified conditions, or as a result of receiving 'Did not sit' (DNS) or 'Did not complete' (DNC) grades in a prior semester, may apply for reconsideration of their discontinuation where they consider that medical or other exceptional circumstances should be taken into account. An application for reconsideration of discontinuation must be made to the Dean of the Faculty in writing.

### Enrolment

- 9 a Following acceptance in a programme of their choice, students can enrol in courses online. For late enrolment see the Late Enrolment provisions in this section.

- b Students whose dissertations or theses for a diploma or degree are incomplete are required to be enrolled until the dissertation or thesis is presented.
- 10 a A double-semester course is a full-year course, run over two consecutive semesters and assessed at the end of the second semester of enrolment. The same grade is applied across both components of the course.
  - b To complete, students must enrol consecutively in both the A and B component of the course. Deadlines for additions and deletions for double-semester enrolments are noted under Changes to Current Enrolment.
  - c Enrolments must normally be made in consecutive semesters unless a suspension of time is approved for a postgraduate research course under General Regulations.
  - d The A and B enrolments in a double-semester course are two components of the same course. Any action applied to one component is applied to both.
  - e Enrolment in the A component of a double-semester course is considered a request for enrolment in the B component for the following semester and withdrawal from or deletion of one component will be applied to the remaining component.
- 11 a A double-quarter course is a half-year course, run over two consecutive quarters and assessed at the end of the second quarter of enrolment. The same grade is applied across both components of the course.
  - b To complete, students must enrol consecutively in both the A and B component of the course. Deadlines for additions and deletions for double-quarter enrolments are noted under Changes to Current Enrolment.
  - c Enrolments must normally be made in consecutive quarters unless a suspension of time is approved for a postgraduate research course under General Regulations.
  - d The A and B enrolments in a double-quarter course are two components of the same course. Any action applied to one component is applied to both.
  - e Enrolment in the A component of a double-quarter course is considered a request for enrolment in the B component for the following quarter and withdrawal from or deletion of one component will be applied to the remaining component.

### **Members of the Security Intelligence Service**

- 12 a No member of the Security Intelligence Service enrolled as a student at the University shall carry out any inquiries into security matters within the University premises.
- b The proposed attendance of a member of the Security Intelligence Service at the University shall be discussed between the Security Intelligence Service and the Registrar before their enrolment.
- c After those discussions have been held, Senate shall determine each year what special conditions (if any) as to attendance at Classes shall apply to students who are members of the Security Intelligence Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.
- d In this Section 12 'Member of the Security Intelligence Service' means an officer or employee engaged in the Security Intelligence Service established under the New Zealand Security Intelligence Service Act 1969.

### **Academic Integrity**

- 13 a All students admitted to a University of Auckland programme, excluding the University of Auckland Certificate in Foundation Studies, are required to complete the online Academic Integrity course.
- b Completion of the Academic Integrity Course is a one-time only requirement. A student who has completed the Academic Integrity Course under the regulations for a programme is not required to repeat the course when admitted to any subsequent programme.
- c For undergraduate students, completion of the Academic Integrity Course is a condition of fulfilling the requirements for General Education.
- d Students who, for any reason, are fully or partially exempted from the requirements for General Education must complete the online Academic Integrity Course unless they have previously done so.
- e All postgraduate students who have not already completed the Academic Integrity Course are required to do so as a condition for completing their programme of study, and before any degree, diploma or certificate is conferred or awarded.
- f All doctoral candidates who have not already completed the Academic Integrity Course are required to do so as a condition of meeting the requirements for the provisional registration period.

### Academic English Language Requirement

- 14 All domestic students, and all international students applying on the basis of a New Zealand secondary school qualification or results at another New Zealand tertiary institution, who are admitted to a University of Auckland bachelors degree qualification are required to meet the Academic English Language Requirement.

*Note: for the purpose of these regulations this includes the Bachelor of Engineering (Honours) and the Bachelor of Urban Planning (Honours).*

### Meeting the Academic English Language Requirement

- 15 To meet the Academic English Language Requirement through an entry qualification on admission to a bachelors degree a student must have:
- a If applying based on NCEA results  
either
    - (i) gained the University Entrance Literacy Standard and through their NCEA results achieved a minimum of 17 credits in English at Level 2 and/or 3

*Note: English for Academic Purposes standards US 22749, US 22750 and US 22751 will contribute to meeting the Academic English Language Requirement*

or

  - (ii) gained the University Entrance Literacy standard solely through Te Reo Māori and/or Te Reo Rangatira credits
- or
- b if applying based on University of Cambridge International Examinations (CIE, taken in New Zealand) results, gained the University Entrance Literacy Standard and achieved a minimum of a D grade in an English course at AS or A Level
- or
- c if applying based on International Baccalaureate (taken in New Zealand) results, gained the University Entrance Literacy Standard and be in receipt of 26 points
- or
- d if a graduate,
  - (i) completed a bachelors degree, or a higher qualification from a New Zealand university

or

- (ii) completed a bachelors degree, or a higher qualification, from a recognised tertiary education provider in New Zealand

or

- (iii) completed a qualification from an overseas tertiary institution that is the equivalent of a bachelors degree, or higher, in New Zealand, as approved by Senate or its representative

or

- e completed a University of Auckland Foundation programme, excluding the University of Auckland Certificate in Foundation Studies.

16 A student who has been admitted to a bachelors degree having passed at least 60 points of study at a tertiary institution, but who has not met the requirements in Regulation 15, will meet the Academic English Language Requirement if they achieve a result of good or satisfactory in DELNA screening (or an average score of 7 across all bands, and a minimum score of 7 in writing, in DELNA diagnosis if required). This result must be achieved within 12 months (three consecutive semesters) of the student's first enrolment.

17 A student who has been granted Special Admission will meet the Academic English Language Requirement if they achieve a result of good or satisfactory in DELNA screening (or an average score of 7 across all bands, and a minimum score of 7 in writing, in DELNA diagnosis if required). This result must be achieved within 12 months (three consecutive semesters) of the student's first enrolment.

18 Where the regulations allow a student to meet the Academic English Language Requirement through DELNA screening and/or diagnosis under Regulation 16 or 17, only the student's first attempt within the nominated 12 month period will be accepted as the definitive result for the purposes of meeting the Academic English Language Requirement.

19 Where the Academic English Language Requirement is not met by an entry qualification, as outlined in Regulation 15, or through an acceptable result in DELNA screening and/or diagnosis, as outlined in Regulations 16, 17 and 18, the requirement must be met by the student passing an academic English language course, approved by Senate or its representative, within 12 months (three consecutive semesters) of the student's first enrolment.

20 Summer School is defined as a semester for the purposes of the Academic English Language Requirement.

21 If a student enrolls in an academic English language course prior to completing DELNA screening and/or diagnosis, but subsequently meets the Academic English Language Requirement through DELNA, the deadlines for making

changes to their current enrolment as specified in Regulation 34 of the Enrolment and Programme Regulations, Changes to Current Enrolment, of the *University Calendar*, will still apply.

### **Failure to meet the Academic English Language Requirement**

- 22 A student who fails to meet the Academic English Language Requirement by the end of the 12 months may have their programme discontinued.
- 23 A student who has had their programme discontinued because of failure to meet the Academic English Language Requirement may apply for reconsideration of the decision where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. An application for reconsideration of the discontinuation must:
- a be made on the Reconsideration of the Academic English Language Requirement form
  - and
  - b include evidence of disabilities, impairments, medical or other exceptional circumstances
  - and
  - c reach the Deputy Vice Chancellor (Academic) within 14 days of the decision to discontinue being made.
- 24 Where such reconsideration is given the Deputy Vice-Chancellor (Academic) may:
- a confirm the discontinuation
  - or
  - b cancel the discontinuation
  - or
  - c cancel the discontinuation but apply conditions to any further enrolment.
- 25 A student who has had their programme discontinued because of failure to meet the Academic English Language Requirement will be excluded from enrolment in all programmes at the University of Auckland for at least one year.
- 26 Any student who has had their programme discontinued under the Academic English Language Requirement regulations and who has had their application for reconsideration declined, may within 14 days of being advised of the decision, appeal to the Council against the decision of the Deputy Vice-Chancellor (Academic).

### **Readmission**

- 27 A student whose programme has been discontinued for failure to meet the Academic English Language Requirement will be entitled to apply for admission to a programme after one year of exclusion.

Applications must:

- a be made on the Reconsideration of the Academic English Language Requirement form
- and
- b state the programme for which the student intends to apply, should the application for readmission be successful
- and
- c state the reasons why the student believes they should be readmitted and include evidence, where applicable
- and
- d reach the Director of Academic Services two months prior to the listed closing date for application to the programme.

Where such application is made, the Director of Academic Services may:

- a permit the student to be readmitted
  - or
  - b permit the student to be readmitted under specific conditions
  - or
  - c decline readmission.
- 28 A student declined readmission under these provisions may apply for reconsideration of their application for readmission. Where such reconsideration is given, the Deputy Vice-Chancellor (Academic) may:
- a confirm the decision to decline readmission
  - or
  - b permit the student to be readmitted
  - or
  - c permit the student to be readmitted under specific conditions.
- 29 Applications for reconsideration of a decision to decline readmission must reach the Deputy Vice-Chancellor (Academic) within 14 days of the decision to decline readmission being made.
- 30 A student readmitted under conditions specified by the Director of Academic Services or the Deputy Vice-

Chancellor (Academic), but who fails to satisfy those conditions, will be automatically excluded from enrolment in all programmes at the University of Auckland.

- 31 A student excluded under Regulation 30 is not entitled to apply for admission to a programme for at least one year following the date of their exclusion.
- 32 Any student declined readmission at this University under the Academic English Language Requirement regulations and who has had their application for reconsideration declined may, within 14 days of being advised of the decision, appeal to the Council against the decision of the Deputy Vice-Chancellor (Academic).

### Late Enrolment

- 33 a Subject to the availability of courses and/or availability of places in a course, a late enrolment may be accepted
- after the day prescribed and before the deadline for additions and deletions;
  - after the deadline for additions and deletions upon payment of a late enrolment fee.
- b The choice of courses for students who enrol after the closing date for enrolment will be determined by Senate or its representative and will not necessarily be those proposed by the students concerned. In determining such courses, Senate is to have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at or before the prescribed time.

### Changes to Current Enrolment

#### Deadlines for Additions and Deletions

- 34 The last dates for additions and deletions under Regulations 39 and 40 are set out below:

For enrolment in	Deadline for additions/deletions
Summer School courses	Seven days inclusive from the start of Summer School
Semester One courses	Second Friday of semester
Semester Two courses	Second Friday of semester
Double-semester (A and B) courses	Fourth Friday of first semester for the course
Late Year Term courses	Second Friday of Late Year Term
Quarter courses	Second Friday of quarter
Double-quarter (A and B) courses	Third Friday of first quarter for the course
FoundStCert courses	Fourth Friday following course start date
Course duration of five days or less	The day before the start of the course
Courses with non-standard dates – duration of 6 days - 15 weeks	Second Friday following course start date
Courses with non-standard dates - duration of 16 - 25 weeks	Third Friday following course start date
Courses with non-standard dates – duration of greater than 25 weeks	Fourth Friday following course start date

- 35 It is not sufficient for a student to notify an addition or deletion solely to the department or faculty – it must be done online.
- 36 Where special circumstances apply, a student may apply for an exemption from additional fees from the Director, Academic Services (or delegated authority).
- 37 Deadline dates are calculated from the start of the first week of the semester, quarter, Summer School or Late Year Term. For courses that start on other dates, including sessions, the deadline will be calculated from the start date of the course as specified in Student Services Online. The start date of a course may be prior to the period of teaching for the course. The deadline will be the second Friday after the start of the course for single semester, Late Year Term, quarter courses, and for courses with a duration of up to 15 weeks. The deadline will be the fourth Friday after the start of the course for double-semester, FoundStCert courses and courses greater than 25 weeks in duration. The deadline will be the third Friday after the start of the course for double-quarter courses and courses between 16 up to 25 weeks in duration. If the duration of a course comprises five days or less, then the deadline will be the day before the start of the course.
- 38 Where a thesis or research portfolio enrolment commences on 1 December, the deadline for deleting the enrolment, and the accompanying Semester One and Two enrolment, or for making changes to the points value of the enrolment in Semester One, is the fourth Friday of the course.

**Additions**

- 39 Students wishing to add a course to their current enrolment may do so online before the deadline for additions and deletions to be made for the session, semester, Summer School, quarter or Late Year Term of the enrolment, where the approved limit has not been reached.

**Deletions**

- 40 a A student wishing to delete a course may do so online before the deadline for additions and deletions to be made for the session, semester, Summer School, quarter or Late Year Term of the enrolment.
- b The course will be deleted from the student's academic record.

**Late Deletion**

- 41 a Late applications to delete a course or courses will be considered by the Director, Academic Services (or delegated authority) only in exceptional circumstances (such as illness, injury or events beyond the control of the student) and upon submission by the student of appropriate evidence.
- b Applications must be made on the Late Application to Delete a Course form and must be received by the last day of lectures of the semester, quarter, Summer School, or Late Year Term for the course. For FOUNDST courses applications must be made on the Late Application to Delete a Course form and must be received by the last day of the course in which the student is enrolled.
- c Following the decision on an application for late deletion of a course, the student may apply for reconsideration of that decision. An application for reconsideration must be made:
- (i) in writing to the Director, Academic Services no later than four weeks after the student is notified of the decision
  - and
  - (ii) must be accompanied by further evidence in support of the application.
- d Where a student has been permitted by the Director, Academic Services to delete a course after the prescribed date under this regulation, any refund or credit of tuition fees will be granted in accordance with the Tuition Fees Refund or Credit Guidelines given in Regulation 44.

**Substitutions**

- 42 a Where a department directs a student to substitute one course for another in the same subject, the faculty administration staff will process the substitution on the student's behalf and notify the student when the substitution has been actioned.
- b Courses may be substituted up until three weeks before the end of lectures for the semester in which the course is taught, or two weeks before the end of lectures for the quarter in which the course is taught.
- c A course may only be substituted with a course which is of the same duration, same points value and taught in the same semester or quarter.

*Note: Where students are directed to take a more/less advanced Second Semester course in place of a First Semester course, or a later quarter course in place of an earlier quarter course, they will be permitted, if necessary, to make a late academic deletion. The deletion will be processed by the department on behalf of the student.*

- d The substituted course will be removed from the student's academic record.
- e There will be no adjustment to the student's tuition fees. If there is a variation between charges payable in respect of the substitute and the substituted course, the student will be required to pay only the difference in those charges.
- f There will be no refund or credit of any fees or charges for the substituted course.

**Withdrawals**

- 43 a Any student wishing to cease attendance in a programme or course after the period specified for deletion may apply to do so by obtaining the approval of the relevant Head of Department and the Dean of the Faculty for that programme. Application must be made on the Course Alteration Form.

**Deadlines for Withdrawals**

- b The last dates for withdrawals are set out below:

For enrolment in	Deadline for withdrawals
Summer School courses	One week before the end of lectures
Semester courses	Third Friday before the end of lectures
Double-semester (A and B) courses	Third Friday before the end of lectures in the second semester
Late Year Term courses	Three weeks before the end of the term
Quarter courses	Second Friday before the end of lectures
Double-quarter (A and B) courses	Third Friday before the end of lectures in the second quarter
FoundStCert courses	Three weeks before the end of the course
Courses with non-standard dates – duration of 6 days - 15 weeks	Third Friday before the end of lectures
Courses with non-standard dates - duration of 16 - 25 weeks	Third Friday before the end of lectures
Courses with non-standard dates – duration of greater than 25 weeks	Third Friday before the end of lectures

- c The course will remain on the academic record and show as a withdrawal.
- d For the purposes of calculating a University Grade Point Average a withdrawal will be counted as a failure.
- e There will be no refund or credit of any fees or charges for the withdrawn course. All fees will remain owing.
- f For calculation of Requirements for Maintaining Good Academic Standing (under Regulation 47 of these regulations) withdrawal will be counted as a failure.
- g For selection into a limited-entry course, a withdrawal is counted as a failure.
- h Where withdrawal from a course will not reduce the student's enrolment to less than 100 points over the academic year, the withdrawal from that course will not affect selection into limited-entry courses.
- i For student allowances withdrawal from a course will count as a failure and automatically reduce the number of points in which the student is deemed to be enrolled.
- j If a student who ceases to attend lectures fails to complete the Course Alteration Form, the course(s) will be recorded as 'Did not sit' (DNS) and will count as a failure for all purposes.
- k Applications to withdraw submitted after the dates in Regulation 43b and before the end of the semester, quarter, Summer School or Late Year Term will be considered by the Director, Academic Services (or delegated authority) only in exceptional circumstances (such as illness, injury or events beyond the control of the student) and upon submission of the appropriate evidence.
- l Students receiving USA Government Federal Student Aid Title IV funds for payment of their study at the University of Auckland are subject to special withdrawal procedures. For further information students should contact the Applications and Admissions Office.

**Refund or Credit of Fees**

- 44 a Where a student applies, before the dates specified in Regulation 34, to delete all courses of the current enrolment, a full refund or credit of all tuition fees and the Student Services Fee will be made.

*Note: A student who has deleted all courses is no longer deemed to be enrolled.*

- b Where a student applies, before the dates specified in Regulation 34, to delete one or more but not all courses of the current enrolment, a refund or credit of the fees for the course(s) deleted will be made.
- c Where a student has been permitted by the Director, Academic Services, under Regulation 41, to delete a course after the prescribed date because of illness, injury or exceptional circumstances beyond the student's control, a refund or credit of tuition fees will be granted in accordance with the Tuition Fees Refund or Credit Guidelines below, provided that Senate may in its discretion increase this percentage, but there will be no refund of the Student Services Fee.
- d All course deletions, under Regulations 44a, 44b and 44c above, whereby the fees have been paid and therefore application for a refund may be made, will incur a refund processing fee which shall be deducted from the refund of the fees.

*Notes: Tuition Fees Refund or Credit Guidelines:*

- 1 For single-semester courses which are deleted:
  - (i) before the commencement of the mid-semester break for that semester: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 2 For double-semester courses which are deleted:
  - (i) before the commencement of the mid-semester break for the First Semester: 75 percent
  - (ii) before the end of the First Semester: 50 percent
  - (iii) before the commencement of the mid-semester break for the Second Semester: 25 percent
  - (iv) thereafter no refund or credit will be granted.
- 3 For Summer School courses which are deleted:
  - (i) before the end of the second week from the start of Summer School: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 4 For quarter courses which are deleted:
  - (i) before the end of the fifth week of the quarter: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 5 For double-quarter courses which are deleted:
  - (i) before the end of the first quarter: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 6 For Late Year Term courses which are deleted:
  - (i) before the end of the fifth week of the Late Year Term: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 7 For FOUNDST courses which are deleted:
  - (i) before the end of 50% of the course: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 8 For courses with non-standard dates:
  - (i) before the end of 50% of the course: 50 percent
  - (ii) thereafter no refund or credit will be granted.
- 9 For courses that start on dates other than the official start date of a semester, quarter, Summer School or term, the deadline as stated in Guidelines 1-8 above will be calculated from the start date of the course as specified in Student Services Online. The start date of the course may be prior to the period of teaching for the course.
- e Students receiving USA Government Federal Student Aid Title IV funds for payment of their study at the University of Auckland are subject to special refund procedures. For further information students should contact the Applications and Admissions Office.
- f The University may delay processing a refund or credit until after the last dates for additions and deletions under Regulation 34 have expired.
- g Where a student has provided all required documentation in support of their visa application and Immigration New Zealand has declined to grant a student visa then the University will process a full refund of any funds received, without deduction of a refund or administration fee.

**Academic Standing**

- 45 Regulations concerning Academic Standing apply to all undergraduate qualifications at the University of Auckland.
  - a The application of these regulations includes students intending to transfer to the University of Auckland from any other New Zealand university and those students applying for admission having previously studied at another tertiary institution.
  - b Summer School is classified as a semester for the purposes of Academic Standing.
  - c Academic Standing statuses are Good, At Academic Risk, Academic Restriction and Enrolment Terminated.
- 46 **Deferred Results**
  - a Assessment of a student's Academic Standing will be undertaken when results for at least 50 percent of points enrolled are available and where the results for the remaining points would not affect the overall outcome. Where results for 50 percent of points or more are not available assessment of a student's Academic Standing may be deferred until sufficient results are available and an assessment can be made.
  - b A student whose Academic Standing has not been able to be assessed for one or more semesters may have their academic status amended by more than one status at the discretion of Senate or its representative.

### Requirements for Maintaining Good Academic Standing

- 47 A student is required to pass at least 50 percent of points enrolled in any one semester, including Summer School, to maintain Good Academic Standing.

### At Academic Risk Academic Standing

- 48 A student who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to At Academic Risk.
- a A student with a status of At Academic Risk may be required to participate in such academic support programmes as deemed appropriate by the relevant Faculty.
  - b A student with a status of At Academic Risk who is enrolled in more than 60 points in the following semester of study (or 15 points in Summer School) may be required by the department to delete the excess course(s).
  - c A student with a status of At Academic Risk who meets the requirements for Good Academic Standing will, in the next semester of study, have their record amended to that status.

### Academic Restriction Academic Standing

- 49 A student with a status of At Academic Risk who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to Academic Restriction.
- a A student with a status of Academic Restriction will be restricted to:
    - (i) not more than 45 points of enrolment in that semester
    - (ii) not more than 25 points in Summer School.
  - b A student with a status of Academic Restriction will be required to participate in such academic support programmes as deemed appropriate by the relevant Faculty.
  - c The record of a student with a status of Academic Restriction will be referred to the relevant Faculty for review of the restriction which may be varied if appropriate.
  - d A student with a status of Academic Restriction who meets the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to At Academic Risk. Students whose enrolment is restricted under these provisions may apply to Senate for reconsideration of the restriction where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. Where such reconsideration is given, Senate or its representative (the Dean of the Faculty concerned) may:
    - (i) confirm the restriction
    - or
    - (ii) vary the restriction.
  - e Applications to Senate must:
    - (i) be made on the Reconsideration of Academic Standing form
    - and
    - (ii) if special consideration is sought for medical or other exceptional reasons, include evidence
    - and
    - (iii) reach the Dean of the Faculty concerned before the first day of the semester or Summer School.
- 50 Any student restricted under the Academic Standing regulations may within 14 days appeal to the Council against the decision of Senate.

### Enrolment Terminated

- 51 A student with a status of Academic Restriction who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to Enrolment Terminated.
- 52 A student with a status of Enrolment Terminated will be excluded from all programmes at the University of Auckland.
- 53 A student with a status of Enrolment Terminated will be entitled to reapply for admission to a programme after one year of exclusion. Where such application is made, Senate or its representative (the Dean of the Faculty concerned) may:
  - a decline readmission
  - or
  - b permit a student to be readmitted under specific conditions.
- 54 A student declined readmission under these provisions may apply to Senate for reconsideration of their exclusion where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. Where such reconsideration is given, Senate or its representative (the Dean of the Faculty concerned) may:
  - a confirm the exclusion
  - or

- b permit a student to enrol under specific conditions.
- 55 A student permitted to re-enrol under conditions specified by Senate or its representative, but who fails to satisfy those conditions, will be automatically excluded from enrolment at the University of Auckland.
- 56 A student excluded under Regulation 54 is not entitled to apply for admission to a programme for at least one year.
- 57 Applications to Senate must:
  - a be made on the Reconsideration of Academic Standing form
  - and
  - b if special consideration is sought for medical or other exceptional reasons, include evidence
  - and
  - c state the programme for which the student intends to apply, should the application for readmission be successful
  - and
  - d reach the Dean of the Faculty concerned before the first day of the semester or Summer School.
- 58 Any student declined readmission at this University under the Academic Standing regulations may within 14 days appeal to the Council against the decision of Senate.

### Vice-Chancellor's Special Powers

- 59 a The Vice-Chancellor may give such direction, or make such provision as they think fit, for the relief of undue hardship including but not restricted to:
  - (i) enforcement of requirements for admission to the University or to a programme, alteration or amendment to statutes or regulations, change in programme or examination requirements
  - or
  - (ii) occasions where official advice has been given in writing and acted upon, and it is later found that the courses the student has taken do not accord with the programme regulations and that hardship would be caused if the student were to be compelled to comply with the full requirements of the regulations.
- b A student may appeal against any decision of the Vice-Chancellor under this Regulation to the Council by giving notice in writing to the Registrar within 14 days of being notified of the decision. The Council shall have the power to make such provision as it may think fit. The decision of the Council on any appeal under this Regulation shall be final.

## Examination Regulations

*These regulations should be read in conjunction with the following examination information which contains more detail and specific instructions:*

**For staff:** *Instructions to Examiners and Assessors.*

**For students:** *The Examination instructions and regulations page on the University website.*

Notes:

- (i) the 'Department' is the Department or School or other academic unit in which the student is enrolled, and the 'Head of Department' is the head of that academic unit
- (ii) a representative of Senate includes the Deputy Vice-Chancellor (Academic), a Dean, and a Deputy or Associate Dean.

### Requirements

- 1 In order to be credited with a course, a candidate needs to have:
  - a enrolled in accordance with the Enrolment and Programme Regulations
  - and
  - b attended classes to the satisfaction of Senate
  - and
  - c completed to the satisfaction of the examiners such oral, practical, written or other tests or assignments as have been prescribed for completion during the course
  - and
  - d completed to the satisfaction of the examiners and in accordance with these regulations any examination prescribed by Senate
  - and
  - e made any payment due by that candidate to the University.

*Note: Candidates are to be informed by each department of the specific requirements for courses in that department and the extent to which coursework will be taken into consideration in assessing final results. In some cases candidates may not be permitted to sit the examination, as a result of unsatisfactory or incomplete coursework.*

### Language of Assessment

- 2 Except in courses where students are required to demonstrate their knowledge and understanding of languages other than English or Māori, or where a student has made provision to complete an assessment task in Te Reo Māori under the University of Auckland Te Reo Māori in Teaching, Learning and Learning and Assessment Policy, all assessment tasks must be completed in English.

### Work Other than Examinations

- 3 a It is the responsibility of each candidate to ascertain the nature of the requirements for each course from the department or faculty concerned.
- b Provided that candidates have met deadlines set for this work, examiners should normally have determined and returned interim or definitive grades for this work before sitting of the examination, if one is prescribed.

### Time of Examinations

- 4 a The examination will be held at the times specified in the timetable each year.
- b A candidate may not be examined in any course or part of a course at any time other than that set down for them in the timetable, except when, with the approval of Senate, a different time may be approved because of special circumstances, provided that there is the payment of the extra fee prescribed in the Fees Statute.

### Place of Examinations

- 5 All students have to sit their examinations at the University of Auckland except when, with the approval of Senate, a different examination centre may be established because of special circumstances, provided that there is the payment of the extra fee prescribed in the Fees Statute.

### Special Examination Conditions

- 6 A candidate who is permanently or temporarily disabled in a manner which affects their ability to undertake examinations under the prescribed examination conditions may, upon production of the appropriate evidence, obtain from one of the following bodies a recommendation which, subject to the approval of Senate or its representative, will enable that candidate to be examined under conditions which take account of the particular impairment: Student Health, Student Counselling or Student Learning Services.

### Direction of Examinations

- 7 a The examinations will comprise such written, oral and practical examinations as the examiners may determine. This may include examinations that must be completed on computers or other electronic devices.
- b Where degree regulations or prescriptions permit, or Senate, upon such conditions as it thinks fit, approves, the examiners may in respect of any examination release to the candidates the whole or part of the examination paper in advance of the sitting of the examination.
- c Candidates will complete answers to the questions in the presence of a supervisor, who is to be appointed or approved by the Manager, Examinations Services in accordance with detailed instructions furnished by the Examinations Office.

### Materials Permitted in the Examination Room

- 8 a A candidate must not bring to an examination any written or printed matter or any blank paper except by direction of the examiner.

*Note: Candidates are to be informed by each department of the specific books or materials allowed for particular examinations. Details are also explained in the Examination Instructions.*

- b (i) All books and papers not approved for use in the examination, along with any spare personal belongings brought to the examination must be left in such part of the room as the supervisor directs.
- (ii) Only implements required for the examination are permitted to be on the student's desk in a clear case or clear bag. All other cases and containers including glasses cases must be left in such part of the room as the supervisor directs.
- (iii) The University does not guarantee safekeeping of students' possessions in any circumstances, inside or outside examination rooms. Students concerned about the security of valuable possessions, briefcases etc during examinations will need to make alternative arrangements for their care, or ensure that they do not bring these possessions to the University on days when they are required to attend examinations.
- c A candidate may not bring into an examination an electronic calculator except by direction of the examiner. A calculator is defined as an electronic device capable of processing, storing or retrieving information, which has the primary purpose of mathematical calculation. Any calculator permitted to be taken into an examination must be hand-held, self-powered and noiseless. It must not make use of an audible alarm or facilities for 'wireless' transmission or reception of information.

*General Conditions:*

- (i) *other than spare batteries and calculator, supplementary material (e.g., operating manuals) related to the use and operation of the calculator will not be permitted in the examination room*
- and
- (ii) *in all cases it is the responsibility of the candidate to maintain the operation and operating power of the calculator.*

*Note: Candidates are to be informed by each Department of the specific types of calculators allowed for particular examinations. Details are also explained in the Examination Instructions.*

- d Students are not permitted to have in their possession in the examination room any other electronic device and/or mobile technology, or watches of any kind, unless specified by the examiner. Medically prescribed devices are permitted.
- e Unless specified by the examiner, any electronic device and/or mobile technology or watches of any kind brought into an examination room must have all functions switched off and must be left in such part of the room as the supervisor directs. Medically prescribed devices are permitted.
- f Any item not permitted in an examination room under Regulation 8d, that is found in the possession of a student will be removed for the duration of the examination and a fine of \$100 will apply.
- g Audible alarms may not be active on any devices permitted in the examination room. Any device that emits an audible sound signal or alarm during an examination will be removed for the duration of the examination and a fine of \$150 will apply.
- h Where specified material or calculators are permitted under Regulations 8a and 8c above, examiners are required to be present at the commencement of the examination to check material brought into the examination room.
- i Candidates will be asked to show their student identity cards on entry for verification purposes and must display them on their desk for the duration of the examination. Where a candidate does not present a valid student identity card they will be required to remain under examination supervision until they have been verified by the Examinations Office. An administrative fee of \$25 will be charged.

**Timekeeping of Examinations and Conduct**

- 9 a (i) A candidate will not be allowed to enter the room later than exactly halfway through the period specified for writing the examination.
- (ii) Latecomers will not be given any extra time for the examination.
- b Candidates will be allowed to read their examination papers for a period of not more than 10 minutes before the examination commences but may not use any writing materials, including calculators, or mark their examination papers until the room supervisor announces that they may do so.
- c Candidates must write out answers to examination questions in the official script book that is provided by the University unless otherwise directed by examiners in the exam instructions. No part of the script book may be torn out or removed from the examination room.
- d A candidate must not communicate with an examiner in regard to an examination either in the script book or otherwise, except through the Director, Academic Services.
- e A candidate must not communicate with another candidate in the examination room or copy from another candidate's answers.
- f Candidates will not be readmitted to the examination room after they have left it unless, during the full period of their absence, they have been under approved supervision.
- g All paper used during the examination must be handed to the supervisor before the candidate leaves the examination room.
- h A candidate will not be permitted to leave the examination before 15 minutes after half of the period specified for writing the examination has elapsed and then only with the permission of the supervisor and upon handing in the script.
- i No candidate will be permitted to leave the examination room during the last 15 minutes of the examination.
- j A candidate must not continue writing an answer after the supervisor has announced the expiration of time. In no circumstances is any time over and above the time allotted to any examination to be allowed to candidates for reading over their scripts or making any amendment or addition to scripts.

### Misconduct

- 10 a Any complaint that a candidate has committed an academic offence in an examination will be dealt with under the provisions of the Student Academic Conduct Statute.
- b Any complaint that a student has committed an offence relating to unauthorised equipment, dictionaries, timekeeping or other minor matter in which questions of academic honesty are not at stake will receive a warning letter from the Manager, Examinations Services. If a student receives two such warning letters they will be fined \$150.

### Non-payment of Examination Fines and Charges

- 11 The Manager, Examinations Services has the delegated authority to impose examination fines and charges. Where a student does not pay a fine or charge imposed under Regulations 8f, 8g, 8i or 10b then, until those fines or charges are paid in full and without prejudice to the right to recover the unpaid fines or charges at law, the Council may:
  - a withhold the formal notification of the results of any examination of the student
  - b decline to re-enrol the student
  - c decline to release the student's academic record
  - d withhold any degree or diploma certificate from that student
  - e restrict that student's access to University services
  - f charge a late payment fee not exceeding \$50
  - g impose additional charges to recover legal and collection costs where a third party is engaged to recover those fees and charges.

### Missed Examinations

- 12 A candidate who has missed an examination by reporting for it at the wrong time cannot sit that examination at another time.

### Aegrotat and Compassionate Consideration

- 13 a An application for Aegrotat or Compassionate Consideration may be made by candidates who have been prevented from being present at an examination or who consider that their preparation for or performance in an examination has been seriously impaired by temporary illness or injury or exceptional circumstances beyond their control, if the following conditions are satisfied:
  - (i) They must be enrolled for the course.
  - (ii) The application form must be submitted to the University Health and Counselling Service within one week of the date that the examination affected took place, or if more than one examination has been affected, then within one week of the last of those examinations.
  - (iii) The medical certificate or statement of exceptional circumstances on the application form must be completed in accordance with Regulations 13b and 13c below.
- b In the case of illness or injury, a registered medical practitioner must:
  - (i) State when the practitioner saw the candidate. This should be on the day of the examination, or if this is not possible, on the day before or the day after. For impaired preparation, the medical certificate should cover a period within the fortnight immediately preceding the examination, unless special circumstances apply.
  - (ii) Give sufficient detail of the illness or injury to show clearly that the candidate was not responsible for the illness or injury.
  - (iii) State whether, in the practitioner's opinion, the illness or injury of the candidate at the time either prevented the candidate from taking the examination, or was likely to have seriously impaired the candidate's preparation for it or performance in it.
- c In the case of exceptional circumstances beyond the candidate's control, the statement of circumstances must be supported by suitable evidence.
- d The application will be considered by Senate or its representative only if the medical or counselling adviser to the University reviews the evidence submitted and confirms that:
  - (i) the candidate was not responsible for the illness or injury or exceptional circumstances

and

  - (ii) because of the illness or injury or exceptional circumstances the candidate was either prevented from being present at the examination or the candidate's preparation for or performance in the examination was likely to have been seriously impaired.
- e The candidate may be granted an aegrotat or compassionate grade by Senate or its representative if the above conditions are satisfied and there is a recommendation for an aegrotat or compassionate grade from the appropriate Head of Department or Dean.
- f To make a recommendation for an aegrotat or compassionate grade, the Head of Department or Dean must certify that:

- (i) the candidate's coursework in the course was well above the minimum pass standard or, where relevant, the minimum standard for a class of Honours, Merit or Distinction  
and
  - (ii) for a candidate who sat the examination, the mark attained in the examination was lower than expected taking into account the candidate's coursework in that course  
and
  - (iii) the candidate is in their opinion clearly worthy of a pass in the course or, where relevant, to be awarded First or Second Class Honours, Merit or Distinction.
- g If a recommendation is required for a course with no coursework, the Head of Department or Dean may take into account the coursework and examination performance in any other courses for the same degree, where this is available to them.
- h When considering the application, Senate or its representative may take into account the candidate's work in other courses, or approve an aegrotat or compassionate grade other than that recommended, as it sees fit.
- i The above is subject to the restrictions that:
- (i) No more than one third of the total points value credited to a degree or diploma may be awarded with an aegrotat or compassionate grade granted under this Regulation.
  - (ii) A candidate for a Masters degree, Bachelors Honours Postgraduate degree or a Postgraduate Diploma in which Honours, Merit or Distinction is available may:
    - (a) instead of applying for aegrotat or compassionate consideration, apply to re-enrol in all of the courses affected  
or
    - (b) apply for aegrotat or compassionate consideration in courses worth up to the points limit specified above, and to re-enrol in any other affected courses in order to retain eligibility for Honours, Merit or Distinction.
- j A candidate who applied for Aegrotat or Compassionate Consideration in any course may, in exceptional circumstances and on a recommendation from the Head of the Department, be granted permission by Senate or its representative to take another examination, either written or oral, in that course.
- k The provisions of Regulation 13 apply to:
- (i) Any final written examination presented for a course for a degree, diploma, or certificate.
  - (ii) Any final practical examination presented for a course for a degree, diploma, or certificate, other than a clinical or performance examination.
- l The provisions of Regulation 13 apply (with necessary changes) to:
- (i) The final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, Bachelor of Fine Arts (Honours), Postgraduate Diploma in Fine Arts or the Degree of Master of Fine Arts.
  - (ii) The final submission in each semester of studio work for the Degree of Bachelor of Architectural Studies as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

*Note: The fees for Aegrotat and Compassionate Consideration are listed under the Fees Statute in this Calendar.*

## Reconsideration

- 14 a Following the decision of Senate on an application for Aegrotat or Compassionate Consideration, the candidate may apply to the Director, Academic Services, for reconsideration of that decision.
- b An application for reconsideration must be made:
- (i) in writing to the Director, Academic Services, no later than four weeks after the student is notified of Senate's decision  
and
  - (ii) must be accompanied by further evidence in support of the application for aegrotat or compassionate consideration.
- c Where the application seeks reconsideration of the effect of any medical evidence previously supplied or consideration of any additional medical evidence or both then:
- (i) If the medical or counselling adviser who reviewed the medical evidence previously submitted did not confirm that the requirements of Regulation 13d(i) and 13d(ii) had both been met then all the medical evidence shall be referred to a medically qualified independent person ('Referee') to determine that question. The Referee's decision will be final and conclusive.
  - (ii) If the requirements of Regulation 13d(i) and 13d(ii) have been found (either on the first application or by a Referee on reconsideration):

- (a) not to have been met, then the application shall be declined;
- (b) to have been met, then Senate or its representative shall consider the other factors to be taken into account in terms of Regulation 13 and determine whether or not to grant the application and that decision shall be final and conclusive.

### Written Tests

- 15 Where a percentage of the marks awarded for a course is allocated to a prior written test, and candidates are prevented by temporary illness or injury or exceptional circumstances beyond their control from sitting the test, or consider that their preparation for or performance in the test has been seriously impaired by any of those causes, then, if the conditions in Regulations 13c to 13f (with the necessary changes) are complied with, the candidates may on application and at the discretion of Senate:
- a be permitted to sit another written test
  - or
  - b receive a mark for the test based on the average of marks awarded for other coursework
  - or
  - c take a viva voce examination
  - or
  - d have the percentage of marks allocated to the test reallocated to the examination.

### Results Determination

- 16 In determining a candidate's result the examiners:
- a may take into consideration the work done by the candidate during the course
  - b are to give due weight to reports on practical work done by the candidate wherever these are required
  - c are to include marks obtained by the candidate where Senate has allotted a percentage of marks for on-course assessment in that course.

### Grades and Marks

#### 17 Pass Marks

A pass mark is 50 percent or over.

#### 18 Pass Grades

There are 11 pass grades:

A+	High first
A	Clear first
A-	Bare first
B+	High second
B	Clear second
B-	Bare second
C+	Sound pass
C	Pass
C-	Marginal pass
Pass	Ungraded pass
Conceded pass	

#### 19 Fail Grades

There are four fail grades:

D+	Marginal Fail
D	Clear Fail
D-	Poor Fail
Fail	Ungraded Fail

#### 20 Conceded Passes

- a Conceded passes apply only to courses taken towards:
  - (i) a Bachelors degree
  - or

- (ii) an undergraduate diploma comprising not fewer than 240 points  
or
- (iii) Parts I, II or III of a four year Bachelors honours degree, or its component part in a conjoint degree.
- b Courses taken towards Bachelors honours postgraduate degrees are not eligible for conceded passes.
- c A candidate may, at the discretion of the relevant faculty, be considered for a conceded pass. No application by the candidate is required.
- d A conceded pass, if granted, may not be declined by the candidate.
- e A conceded pass will apply only to the programme for which it is awarded and may not be reassigned or credited to any other programme, except where courses for a Bachelors degree are reassigned to a Bachelors honours degree, or where a student is awarded a Bachelors degree, having passed all of the required courses for a Bachelors honours degree not at Honours standard.
- f A candidate granted a conceded pass in a course who wishes to take that course again may do so only for Certificate of Proficiency.
- g A conceded pass will not be awarded for a course to meet the requirements of General Education.

**Recount of Marks**

- 22 By making application not later than seven weeks after the last day of the examination period, any candidate sitting a written examination only may have the marks awarded for their examination script recounted. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer, or any part of an answer, submitted by a candidate has been overlooked. Recounts should always include a careful checking of the accuracy and inclusion of coursework marks.

*Note: For the prescribed fee for an Application for Recount of Marks see the Fees Schedule in this Calendar.*

**Availability of Scripts**

- 23 By making application during the three months after the end of the examination period for the examination, a candidate may obtain a copy of their examination script.

*Note: Examination scripts will normally be retained only for four months after the examination period and thereafter will be destroyed.*

**Theses and Dissertations**

- 24 Where a thesis or dissertation is required as part of an examination the following conditions apply.

**a Theses**

Details of the submission and binding requirements for a thesis are listed in the General Regulations – Masters Degrees.

**b Dissertations**

Binding requirements for dissertations will be defined by the faculty.

**c Degree of Doctor of Philosophy**

- (i) Details of the submission and binding requirements for PhD theses are contained in the Statute for the Degree of Doctor of Philosophy 2016.
- (ii) On completion of the examination, the candidate is to submit two hardbound copies and one digital

copy of the thesis to the Graduate Centre as specified in Regulations 9u and 9v of the Statute for the Degree of Doctor of Philosophy 2016. A short abstract not exceeding 350 words is to be included with each copy and bound into the hardbound copies of the thesis. The Graduate Centre is to deposit two hardbound copies and one digital copy with the University Library.

*Note: Candidates are recommended to obtain the booklet Guide to Theses and Dissertations from the Graduate Centre before proceeding with the typing and binding of the thesis or dissertation. A clear, legible type style is to be used.*

### Embargoing of Theses

- 25 a A thesis will normally be available for public consultation unless there are compelling reasons for restricting access to it.
- b Access to a thesis may be restricted, normally for a maximum of two years, if it contains confidential and sensitive material that would:
- (i) breach prior contractual arrangements with outside organisations
  - or
  - (ii) prevent or jeopardise an application for a patent, licence, or registration
  - or
  - (iii) provide good reason for refusing to disclose the contents of the thesis, consistent with the provisions of the Privacy Act (1993) or the Official Information Act (1982).
- c An application for an embargo is to be made by the author of the thesis and/or the supervisor, through the Head of Department to the Dean of Graduate Studies.
- d The embargo will apply to all copies of the thesis, whether hard copy or electronic.
- 26 The University Librarian or a delegated authority has a right to make and supply copies of theses and dissertations in terms of Section 56 of the Copyright Act (1994) unless the author has imposed conditions restricting the reproduction of their work for a stipulated period.

### Failed Theses

- 27 a Where a thesis or dissertation has failed the examination, that thesis or dissertation is not to be deposited in the University Library or digital repository.
- b Where a thesis or dissertation has passed, but requirements for the degree have not been met, the thesis or dissertation is not to be deposited in the University Library or digital repository.

### References to the Senate

- 28 For the purposes of these regulations 'Senate' indicates any duly empowered delegate of the Senate.

## Fees Statute 2001

### 1 Title and Commencement

This statute may be cited as the Fees Statute 2001 and came into force on 1 January 2001.

### 2 Interpretation

In this statute unless the context otherwise requires:

**'Act'** means the Education Act 1989.

**'Council'** means the Council of the University of Auckland.

**'Deletions'** means the deletion of a course from the student's academic record as specified in the Enrolment and Programme Regulations.

**'Domestic Student'** has the meaning given in the Act.

**'Due Date'** is the date specified on the Fees Account and/or on the student's account available through Student Services Online.

**'Enrol'** has a corresponding meaning.

**'Enrolment'** means enrolment in a programme or course at the University.

**'Enrolment and Programme Regulations'** are the Regulations governing enrolment and all associated activity such as, but not limited to, definitions of full-time and part-time study, restrictions to enrolment and changes to current enrolments after closing date.

**'Fees Account'** means an invoice or an invoice/statement, or online invoice/statement for the fees and charges payable by a Student as a condition of enrolment.

**'International Student'** has the meaning given in the Act.

**'Staff Member'** means a member of the staff of the University.

**'Student'** includes a Domestic Student and an International Student who is:

- a duly enrolled as a Student of the University

or

b applying to enrol as a Student of the University.

**‘Student Loan’** has the same meaning as it has in section 2 of the Student Loan Scheme Act 2011.

**‘Student Services Fee’** means the fee paid by an enrolled Student for Student Support Services provided by the University.

**‘University’** means the University of Auckland constituted under the University of Auckland Act 1961.

**‘University Services’** means those services provided by the University that can be accessed by a Student on request or application, such as enrolment, the provision of an official academic transcript or other services such as (but not limited to) accommodation, health care or library.

**‘Withdrawals’** of courses may be approved as outlined in the Enrolment and Programme Regulations.

### 3 Tuition Fees

3.1 The Council may prescribe from time to time Tuition Fees payable by:

a Domestic Students; in compliance with section 227 of the Act

and

b International Students or any categories of International Students; in compliance with section 228 of the Act.

3.2 Tuition Fees may be prescribed either by resolution of the Council or by a schedule to this statute.

3.3 The Tuition Fees prescribed by the Council at the date when this statute comes into force apply until other Tuition Fees are prescribed in place or in addition to them.

### 4 General Fees

4.1 The Council hereby prescribes the General Fees specified in the schedule.

4.2 The Council may from time to time by resolution vary the amount of, or delete, any General Fee specified in the schedule or prescribe any additional General Fee.

4.3 Any such variation, deletion, or addition shall apply from the date specified in the amending resolution.

### 5 Additional Fees/Charges

Faculties and Departments of the University may impose charges to recover costs in providing Students with non-compulsory services incidental to courses or programmes.

### 6 Payment of Fees and Charges

6.1 Tuition Fees, General Fees and any other charges imposed pursuant to section 5 that are included on the Student's Fees Account must be paid by the Student.

6.2 All Students must pay the full amount on their Fees Account by the due date.

6.3 Charges imposed on a Student pursuant to section 5 that are not included in a Fees Account shall be paid by the Student on demand.

6.4 Any instalment of a Student Loan (within the meaning of the Student Loan Scheme Act 2011) that is available to a Student and received by the University in respect of their enrolment shall be applied toward payment of the Student Fees Account on the occasion of that enrolment.

### 7 Refunds or Credits

7.1 The Council may by resolution prescribe from time to time in accordance with sections 227 and 228 of the Act;

a the circumstances in which Domestic Students and International Students are or may be entitled to a refund or credit of all or any part of the Tuition Fees and General Fees paid or payable to the Council

and

b the quantum of those refunds.

7.2 The circumstances in which a refund or credit may be made and the quantum of that refund or credit that is applicable when this statute comes into force, continues until a change is prescribed by resolution.

7.3 The Council will take all reasonable steps to ensure that both Domestic Students and International Students are informed of the circumstances in which they are or may be entitled to any refund or credit of all or any part of the fees that have been paid or are payable by them to the Council.

7.4 The refund or credit of all or any part of a Tuition Fee or a General Fee that was paid by Student Loan shall be applied in reduction of that loan.

7.5 In the case where a credit balance is insufficient to cover the total amount of the refund processing fee or administration fee, the fee will be adjusted to equal the amount of the credit balance.

7.6 In the event the University ceases to provide the courses in which the Student is enrolled then the University will delete the enrolments and process any refund or credit in accordance with the Enrolment and Programme Regulations and without deduction of or requirement to pay a refund fee.

## 8 Non-payment of Fees and Charges

### 8.1 Where a Student does not pay:

- a the Fees Account rendered to that Student  
or
- b a charge for that Student imposed under section 5 on demand;  
then, until those fees and charges are paid in full and without prejudice to the right to recover the unpaid fees or charges at law; the Council may:
  - (i) Delete the enrolment of that Student from a course or courses;
  - (ii) Withhold the formal notification of the final grades of the Student;
  - (iii) Decline to re-enrol the Student;
  - (iv) Decline to release the Student's official academic transcript;
  - (v) Exclude that Student from the University;
  - (vi) Withhold any Degree or Diploma certificate from that Student;
  - (vii) Restrict that Student's access to University Services.
  - (viii) Charge a late payment fee.
  - (ix) Impose additional charges to recover legal and collection costs where a third party is engaged to recover those fees and charges.

### 8.2 Application for Reinstatement

- a A Student upon whom a penalty is imposed under section 8.1(i) may apply to have their enrolment reinstated upon payment of the outstanding amount owing and the course reinstatement fee as outlined in Schedule - Part A.
- b To be eligible to complete course requirements, a Student must apply for course reinstatement no later than two weeks before the beginning of the examination period within the semester which enrolment in the course(s) took place.

8.3A Student upon whom a penalty is imposed under section 8.1 may by giving written notice to the Director, Academic Services within eight days of the penalty having been imposed, apply to the Council or duly constituted Committee of the Council to review the imposition of that penalty. The notice must set out the reasons for the review. The decision of the Council or its Committee is final.

## 9 Non-attendance

A Student who stops attending lectures or classes in a course or courses remains liable for the fees prescribed for that course or courses.

## General Regulations – Bachelors Honours Postgraduate Degrees

*The following regulations take precedence over the specific regulations for each Bachelors Honours Postgraduate degree published in this Calendar. As far as possible they are to be read in conjunction with the specific degree regulations for each Bachelors Honours Postgraduate degree. The Bachelors Honours Postgraduate degree will not be awarded until the requirements for the qualifying Bachelors degree have been completed.*

*Note: For the purposes of these regulations:*

- (i) a Bachelors Honours Postgraduate degree is worth a total of 120 points
- (ii) a dissertation, research portfolio, research project or thesis is worth between 30 and 120 points.

### General Requirements

- 1 A student enrolled for a Bachelors Honours Postgraduate degree at this University must pass the full points value specified in the degree regulations. The total enrolment may not exceed the minimum points requirement for the degree by more than 40 points.

### Duration of Enrolment

- 2 The requirements for a Bachelors Honours Postgraduate degree must be completed within:
  - a one year of initial enrolment for the degree if enrolled full-time  
or
  - b two years of initial enrolment for the degree if enrolled part-time.
- 3 In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

**Completion of Requirements**

- 4 a A student enrolled for a Bachelors Honours Postgraduate degree must complete all work in taught courses by the last day of the semester in which the course is taught.
- b A student enrolled in a dissertation, research portfolio, research project or thesis of 30 points or more must complete the dissertation, research portfolio, research project or thesis by the last day of the final semester of enrolment in the dissertation, research portfolio, research project or thesis. In exceptional circumstances beyond the student's control, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.
- c A student who has failed a course or courses of no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the duration of enrolment specified in Regulation 2 in order to complete the degree.

**Tuition Fees for Extensions of Time**

- 5 Where an extension of time for the submission of a dissertation, research portfolio, research project or thesis is approved under Regulation 4b, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student's current enrolment period in the course has ended.

**Honours**

- 6 a The Bachelors Honours Postgraduate degree may be awarded only where a student's overall grade is sufficiently high.
  - b Honours will be awarded in either of two classes: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.
  - c Where a student's average grade is insufficiently high to be eligible for the award of honours, Senate or its representative may approve the reassignment of points to the relevant Graduate or Postgraduate Diploma.
- 7 Calculation of the class of Honours will include the grades given for all courses attempted in the degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

**Submission**

- 8 a Dissertations, research portfolios, research projects and theses are to be bound as specified by the Faculty and submitted to the supervisor or department in accordance with Regulation 4b.
- b The Head of Department is to transmit the submitted dissertation, research portfolio, research project or thesis to the examiner(s).
- c Copies of dissertations, research portfolios, research projects and theses are not deposited with the University Library.

**Suspension**

- 9 Enrolment for a Bachelors Honours Postgraduate degree will normally be continuous. In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may grant a period of suspension from enrolment not normally exceeding two consecutive semesters. In such cases the period of suspension will not count towards the time limits for the degree.

**Transfer Credits, Cross-credits and Reassignments**

- 10 a **Transfer credits**  
Transfer credits may be awarded for a Bachelors Honours Postgraduate degree as specified in Regulations 2e and 2f(i) of the Credit Regulations.
- b **Cross-credits**  
Courses may not be cross-credited into or from a Bachelors Honours Postgraduate degree.
- c **Reassignments**
  - (i) With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.
  - (ii) In certain circumstances, Senate or its representative may approve the reassignment of points to the relevant Postgraduate degree as provided for in Regulation 6c.

**Certificate of Proficiency**

- 11 The Certificate of Proficiency regulations under 'Other Programmes' apply.

### Transitional Certificate

- 12 The Transitional Certificate regulations under 'Other Programmes' apply. A Transitional Certificate course may not be reassigned to a Bachelors Honours Postgraduate degree.

### Variations

- 13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Bachelors Honours Postgraduate degree.

## General Regulations – Masters Degrees

*The following regulations apply to all Masters degrees published in this Calendar unless otherwise stated. As far as possible they are to be read in conjunction with the specific degree regulations for each Masters degree.*

Notes:

- (i) a Masters is a Research Masters if it includes a thesis or research portfolio of at least 90 points, otherwise it is a Taught Masters
- (ii) a thesis or research portfolio is worth 90 or 120 points
- (iii) a dissertation or research project is worth between 30 and 80 points
- (iv) for the purposes of these regulations only, full-time enrolment is 50 points or more in one semester or 25 points or more in one quarter, otherwise the semester or quarter enrolment (and any Summer School enrolment) is part-time
- (v) The 'Department' is the Department or School or other academic unit in which the student is enrolled, and the 'Head of Department' or 'Academic Head' is the head of that academic unit
- (vi) a representative of Senate includes a Dean, and a Deputy or Associate Dean.

### General Requirements

- 1 A student enrolled for a Masters degree at this University must pass the full points value specified in the degree regulations. The total enrolment may not exceed the minimum points requirement for the degree by more than 40 points.

### Duration of Enrolment

- 2 a The requirements for a Masters degree must be completed in accordance with the following time limits and the thesis or research portfolio due dates in Regulation 2e.

		Degree Total Points				
		120	180	240	300	360

- e A thesis or research portfolio must be submitted by the following due dates:

Start date of thesis or research portfolio	Final semester of enrolment <sup>1</sup>	Due date for thesis or research portfolio <sup>2</sup>
1 December	Semester One	31 May <sup>3</sup>
	Semester Two	30 November <sup>4</sup>
1 March	Semester One	31 August <sup>4</sup>
	Semester Two	28 February <sup>5</sup>
15 July	Semester One	14 July <sup>4</sup>
	Semester Two	14 January <sup>5</sup>

**Notes:**

- 1 The final semester of enrolment depends on the start date of the thesis or research portfolio and the number of semesters (either two, three or four) in which a student is enrolled in thesis or research portfolio points before they satisfy the thesis or research portfolio points requirement.
  - 2 These due dates provide 12 months of continuous enrolment in the thesis or research portfolio for students completing their thesis or research portfolio points enrolment in two consecutive semesters, and 18 or 24 months of continuous enrolment for other students (by enrolment in thesis or research portfolio points in three or four consecutive semesters respectively).
  - 3 This due date occurs within the final semester of enrolment.
  - 4 This due date is in the same year as the final semester of enrolment
  - 5 This due date is in the year following the final semester of enrolment.
- f A student enrolled in a 240 point Research Masters must complete at least 105 points of coursework prior to enrolment in the thesis or research portfolio.
- g A student enrolled in a 300 point Research Masters must complete at least 180 points of coursework prior to enrolment in the thesis or research portfolio.
- h A student enrolled in a 360 point Research Masters must complete at least 240 points of coursework prior to enrolment in the thesis or research portfolio.

### Completion of Requirements

#### 3 a Thesis or Research Portfolio Extension of Time

- (i) If, in exceptional circumstances beyond the student's control, a thesis or research portfolio has not been able to be completed by the due date specified in Regulation 2, Senate or its representative may, upon consideration of a student's application and the required supporting evidence, approve a limited extension of time, not normally exceeding eight months, for the work to be completed.

- (ii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student's current enrolment period in the thesis or research portfolio has ended.
- b **Dissertation or Research Project Extension of Time**
  - (i) If, in exceptional circumstances beyond the student's control, the dissertation or research project has not been able to be completed by the last day of the final semester or quarter of enrolment in the dissertation or research project, Senate or its representative may, upon consideration of a student's application and the required supporting evidence approve a limited extension of time, not exceeding six months.
  - (ii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student's current enrolment period in the dissertation or research project has ended.
- c **Other courses**  
Extensions of time to complete work in courses other than a thesis, research portfolio, dissertation or research project will not be granted beyond the end of the semester(s) or quarter(s) of enrolment in the course.
- d **Failed courses**  
A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester or quarter beyond the duration of enrolment for completion specified in Regulation 2 in order to complete the degree.

### Honours

- 4 a Where the specific degree regulations include a provision for Honours, a Masters degree may be awarded with Honours where a student's overall grade is sufficiently high and where the student has passed a research component of at least 30 points.
- b There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.
- c First Class Honours may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Second Class Honours First Division may be awarded where a student has achieved an overall Grade Point Average between and including 5.50 and 6.99. Second Class Honours Second Division may be awarded where a student has achieved an overall Grade Point Average between and including 4.00 and 5.49.

### Distinction or Merit

- 5 a Where the specific degree regulations include a provision for Distinction or Merit, and Honours has not been awarded, the Masters degree may be awarded with Distinction or Merit where a student's grade is sufficiently high.
- b Distinction may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Merit may be awarded where a student has achieved an overall Grade Point Average between and including 5.50 and 6.99.

### Theses

- 6 a The student is to submit one temporary-bound copy and a digital copy of their thesis to the appropriate Faculty Student Centre in accordance with Regulations 2 and 3a.
- b The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.
- c The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.
- d Where the outcome of the examination is to award a thesis a passing grade:
  - (i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.
  - (ii) The thesis deposited in digital form will be accessible to authenticated users through the University's digital repository unless embargoed under Regulation 25 of the Examination Regulations.
- e Where the outcome of the examination is to award a thesis a fail grade the thesis will not be held in the University's Library or digital repository.

### Research Portfolios

- 7 a The student is to submit one temporary-bound copy and a digital copy of their research portfolio to the appropriate Faculty Student Centre in accordance with Regulations 2 and 3a.
- b The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.
- c Copies of research portfolios are not deposited in the University Library, nor deposited with the University's digital repository.

### Research Projects and Dissertations

- 8 a Research projects and dissertations are to be bound as specified by the Faculty and submitted to the supervisor or department, in accordance with Regulations 2 and 3b.
- b The Academic Head is responsible for transmitting the submitted copies to the examiners.
- c Copies of research projects or dissertations are not deposited in the University Library, nor deposited with the University's digital repository.

### Substitutions and Failed Courses

- 9 Masters students may not change their enrolment in a course after the last date approved for deletions, except in exceptional circumstances as provided for in the Enrolment and Programme Regulations under Changes to Current Enrolment.
- 10 A Masters student may not normally re-enrol in a failed course except as provided for in the regulations relating to aegrotat and compassionate passes. In exceptional circumstances, the student may apply to Senate or its representative, on the recommendation of the Head of Department, for permission to re-enrol in the course.
- 11 Calculation of the overall grade will include the grades given for all courses attempted in the degree. For the purposes of grade or mark calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

### Suspension

- 12 In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may grant a period of suspension from enrolment not normally exceeding one year for enrolment in a thesis or research portfolio or two consecutive semesters, or four quarters, for enrolment in other courses. In such cases the period of suspension will not count towards the time limits for the degree.

### Transfer Credits, Cross-credits and Reassignments

- 13 a **Transfer credits**
  - (i) Transfer credits may be awarded for a Taught Masters degree or the taught component of a Research Masters degree with a total points value of more than 120 points as specified in Regulations 2e and 2f(i) of the Credit Regulations.
  - (ii) Except as provided for in Regulations 2e and 2f(ii) of the Credit Regulations, transfer credits may not be awarded for a Research Masters degree.
- b **Cross-credits**  
Courses may not be cross-credited into or from a Masters degree.
- c **Reassignments**  
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

### Certificate of Proficiency

- 14 a The Certificate of Proficiency regulations under 'Other Programmes' apply.
- b A course passed for a Certificate of Proficiency may be reassigned to a Taught Masters degree, or the taught component of a Research Masters degree with a total points value of more than 120 points as specified in Regulation 9 of the Credit Regulations.
- c A course passed for a Certificate of Proficiency may not be reassigned to a Research Masters degree except as specified in 14b above.

### Transitional Certificate

- 15 The Transitional Certificate regulations under 'Other Programmes' apply. A Transitional Certificate course may not be reassigned to a Masters degree.

### Reviews of Examination of Thesis or Research Portfolio

- 16 a If a student believes that, in the examination of their thesis or research portfolio, they have been significantly disadvantaged by the examination process, or any part of the examination process, then they may request

a review of the decision. An application for review must be made to the Associate Dean (Postgraduate) or nominee of the faculty, and must clearly set out the grounds for the review. All relevant documents relied upon must be submitted with the application for review

- b Any application for review as to the examinations process or outcome must be lodged within three months of the result of the examination being officially communicated to the student.
- c The Associate Dean (Postgraduate) or nominee will investigate the matter and will provide the Dean of Graduate Studies with a written report within two weeks of the student's application. Following receipt of the report the Dean of Graduate Studies will make the final decision.

### Reviews of Extensions and Suspensions

- 17 a If an extension or suspension application is declined, the student may make an application for a review of that decision. An application for review must be made in writing to the Associate Dean (Postgraduate) or nominee of the faculty within three months of the decline being officially communicated to the student. The application must clearly set out the grounds for the review, and all relevant documents relied upon must be submitted with the application for review.
- b The Associate Dean (Postgraduate) or nominee will investigate the application for review and provide the Dean of Graduate Studies with a written report within two weeks of the student's application. Following receipt of the report the Dean of Graduate Studies will make the final decision.
- c Where the Dean of Graduate Studies has permitted a student to suspend or extend a course following a review and has provided that decision to the student, any tuition fees that are incurred as a result of the decision, as determined by Regulation 3a or b, must be paid.

### Variations

- 18 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Masters degree.

## General Regulations – Named Doctorates

*These Regulations apply to all doctoral degrees except the Doctor of Philosophy and Higher Doctorates, and should be read in conjunction with the regulations for those degrees.*

*The 'Department' is the Department or School or other academic unit in which the candidate is registered, and the 'Head of Department' is the head of that academic unit.*

### Admission

- 1 Every candidate for a named-doctoral degree must have applied for admission and been admitted to the University of Auckland.

### Registration

- 2 a Every candidate for a named-doctoral degree must be registered by the Board of Graduate Studies.
- b Registration is provisional for all candidates for the first 12 months of equivalent full-time study following the Date of Registration as defined in Regulation 2.
- c Application for registration must be made to the Head of Department, Division, School, Chair of a Board of Studies or Director of the Research Centre or Institute ("the Head of Department") in the discipline in which the candidate is to be registered and must include, where appropriate to the composition of the doctoral degree, a preliminary research proposal.
- d The Head of Department will make a recommendation to the Faculty Associate Dean (Postgraduate) as to whether the candidate:
  - (i) meets the eligibility criteria and has the ability to follow the proposed programme of study
  - and
  - (ii) has submitted a satisfactory preliminary research proposal as stipulated by the Head of Department.
- e Where the Head of Department is satisfied, this recommendation must include:
  - (i) the proposed date of registration
  - (ii) nominations for supervisors
  - (iii) confirmation that the School/Department accepts responsibility for making satisfactory supervision arrangements and providing research resources and facilities over the whole enrolment for the degree
  - (iv) an appropriate set of goals for the provisional period of registration agreed to by both the candidate and nominated main supervisor; these must include, but are not limited to, those goals prescribed in the regulations for the relevant named doctorate and any standard goals required by the Board of Graduate

Studies such as attendance at induction events, English language screening, and the satisfaction of academic integrity and health and safety requirements.

- f Where an intending candidate is not resident in Auckland, the Head of Department must also provide the Associate Dean (Postgraduate) and the Board of Graduate Studies with evidence that the candidate will be provided with research resources and supervisory support at the location in which the research is to be carried out.
- g On receipt of the recommendation of the Head of Department, the Faculty Associate Dean (Postgraduate) will make a recommendation to the Board of Graduate Studies as to the matters set out in Regulation 2d.
- h On receipt of the recommendation of the Faculty Associate Dean (Postgraduate), the Board of Graduate Studies will decide whether or not to register the candidate and, if so, the conditions that will apply to the registration. The Board of Graduate Studies may call for any further information it considers relevant before making its decision.
- i Registration takes effect on the date (the “Date of Registration”) approved by the Board of Graduate Studies. Where a candidate has already started supervised research on the doctoral topic, the Date of Registration may, subject to approval by the Board of Graduate Studies, be backdated by not more than six months.
- j The Board of Graduate Studies will appoint the supervisors for each candidate. The supervisors must be actively involved in research in the candidate’s general field, and must either hold a doctoral degree or be appropriately qualified and experienced. Persons who are themselves candidates for the same named doctorate may not be appointed as supervisors, although they may be appointed as advisers.
- k For each candidate the Board of Graduate Studies will appoint a suitably qualified main supervisor who takes overall responsibility for the supervision of the candidate and for assistance in the provision of research resources. The main supervisor must be a staff member of the University of Auckland.
- l In addition, the Board of Graduate Studies will appoint for each candidate:
  - (i) at least one suitably qualified co-supervisor
  - and/or
  - (ii) an advisory committee or adviser/s.
- m Candidates wishing to present and defend a thesis in Te Reo Māori must, before applying to the Head of Department to be registered, obtain the permission of the Pro Vice-Chancellor (Māori). When such permission is granted, the Pro Vice-Chancellor (Māori) will make a recommendation in writing to the Board of Graduate Studies as to:
  - (i) whether the candidate has adequate fluency and literacy in Te Reo Māori in the subject area of the thesis
  - and
  - (ii) the likelihood of being able to find appropriately qualified examiners for the thesis.

### Reviews of Registration

- 3 a During provisional registration, a candidate must achieve the goals prescribed by the Board of Graduate Studies and satisfy any other applicable programme requirements specified in the regulations for the relevant named doctorate.
- b Where a thesis proposal is required as a provisional goal, it should be submitted for approval to the appropriate committee or subcommittee of the Department, Institute and/or Faculty in which the candidate is registered. The committee may accept the proposal, or indicate changes needed to the candidate and supervisor(s) and request a resubmission, or it may decline the proposal. It will inform the Head of Department of its decision.
- c At the end of the provisional registration period, the candidate, the supervisor/s and the Head of Department are to submit a formal report to the Board of Graduate Studies on the progress of the candidate. This report may also be discussed by the appropriate postgraduate committee of the Department, Institute and/or Faculty in which the candidate is registered. The report should clearly state whether or not the progress of the candidate has been satisfactory, whether or not any programme specific requirements for the period have been satisfied, and whether or not the goals laid down for the provisional period of registration have been achieved. The report should include a recommendation that the candidate’s registration be:
  - (i) confirmed
  - or
  - (ii) continued on a provisional basis for a period of three to six months
  - or
  - (iii) discontinued and the candidate recommended for enrolment in another programme, where a suitable programme exists
  - or
  - (iv) terminated.

- d At the end of each year of registration following the provisional period, the main supervisor, the candidate and the Head of Department are to submit, through the Associate Dean (Postgraduate) of the Faculty, a joint report to the Board of Graduate Studies on the candidate's progress. This report may also be discussed by the appropriate postgraduate committee of the Department, Institute and/or Faculty in which the candidate is registered. As part of this report, the main supervisor and the Head of Department are to make one of the following recommendations:
  - (i) that the candidate's registration be continued
  - or
  - (ii) that the candidate's registration be continued subject to specified conditions
  - or
  - (iii) that the candidate's registration be terminated.
- e Where a recommendation is made under Regulation 3c(ii) or 3d(ii), the Head of Department will also recommend to the Board of Graduate Studies any specific goals and/or conditions to be met by the candidate and the time in which these are to be completed. At the end of this period the Head of Department and main supervisor will advise the Board of Graduate Studies whether or not these requirements have been met. Registration will be terminated if the specified conditions have not been fulfilled to the satisfaction of the Board of Graduate Studies.
- f No decision to terminate registration may be made by the Board of Graduate Studies unless the candidate has been notified in writing and given reasonable opportunity to respond.

### Changes to the Conditions of Registration

- 4 a The Head of Department may, after consultation with the candidate, make a written recommendation to the Board of Graduate Studies via the Faculty Associate Dean (Postgraduate) for changes in the conditions of registration for the candidate. After considering a recommendation from the Head of Department, the Board of Graduate Studies may, after considering any submissions made by the candidate, change the conditions of registration for any candidate.
- b Where a resident candidate intends to be absent from the University in pursuit of their research for more than two months, supervisors are to submit for approval by the Board of Graduate Studies, through the Head of Department and before the candidate's departure, suitable plans for the supervision of the candidate during the period of absence.
- c When necessary, the Head of Department will make a recommendation to the Board of Graduate Studies regarding changes to the supervision of the candidate. This will normally be required when a supervisor is granted leave, resigns or retires.  
  
Whilst the Board of Graduate Studies will take into consideration the candidate's views on any recommended changes to supervision, it reserves the right to determine the appointment of supervisor/s according to the availability of suitably qualified staff.
- d When the Board of Graduate Studies is satisfied that there is sufficient reason, it may extend a candidate's submission date. Before approving an extension of submission time the Board of Graduate Studies will require the candidate, the supervisor(s) and Head of Department to agree on the programme of supervision and schedule of research considered necessary for submission by the new date proposed.
- e Where a candidate is unable to continue with their research programme because of circumstances beyond their control, the Board of Graduate Studies may suspend their registration for a specified period of time. The conditions of Regulation 7g of the Statute for the Degree of Doctor of Philosophy 2016 will apply.
- f Enrolment and Programme Regulations regarding discontinuation apply to candidates for named doctorates.
- g The Board of Graduate Studies may terminate the registration of any candidate who:
  - (i) fails to enrol for any academic year corresponding to a year of registration
  - or
  - (ii) fails to make payment of any tuition fees related to the registration
  - or
  - (iii) applies to cease being registered
  - or
  - (iv) has not made satisfactory progress while under provisional registration
  - or
  - (v) has received an unsatisfactory annual report
  - or
  - (vi) has not submitted a required provisional year or annual report
  - or

- (vii) has not met any conditions specified under Regulation 3e  
or
- (viii) has not satisfied a requirement as stipulated in the structure and content regulation of the relevant named doctorate regulations  
or
- (ix) has not submitted or re-submitted the examinable work in time  
or
- (x) has had the termination of their registration recommended by a decision of a Disputes Committee constituted pursuant to Regulation 6  
or
- (xi) is prohibited under the Disciplinary Statute of the University from enrolling.

Before making a decision to terminate a candidate's registration pursuant to this Regulation or otherwise, the Board of Graduate Studies will allow the candidate a reasonable opportunity to respond.

### Enrolment and Fees

- 5 a Candidates for the degree must be enrolled and pay all prescribed fees including tuition fees in each academic year for which they are registered. Candidates need not pay tuition fees for any period during which their registration is suspended.
- b On enrolment in each academic year every candidate must pay the prescribed fees for that academic year.
- c A candidate who submits all examinable work or terminates their registration will receive a refund of one-twelfth of the tuition fee paid for each complete month of the period between the date of submission of the examinable work or termination of registration and the end of the academic year for which fees have been paid.
- d Unless otherwise exempted under the relevant regulations, all candidates must pay the prescribed Building Levy and Student Services fees and any other fees as may be prescribed from time to time. There is no refund of these fees.
- e Notification of the award of the degree will be withheld until all outstanding fees have been paid for the academic year in which a candidate is registered. Candidates will not be able to graduate until all outstanding fees have been paid.

### Appeals

- 6 a If a doctoral candidate believes that they have been significantly disadvantaged by the examination process, or by any part of the examination process, then a written appeal may be made to the Board of Graduate Studies, setting out the grounds of the appeal. All relevant documents relied upon must be submitted with the appeal. Regulations 11d and 11e of the Statute for the Degree of Doctor of Philosophy 2016 shall then apply.
- b Candidates, supervisors or Heads of Department may appeal against any decision, other than one bearing on examination matters, of the Board of Graduate Studies normally within three months of the making of the decision, on the grounds that:
  - (i) relevant information which was not available to the Board of Graduate Studies at the time of its making the decision has since become available  
and/or
  - (ii) the procedure adopted in arriving at the decision was unfair.

The appeal must state clearly all grounds relied on by the candidate and attach all relevant documentation. Regulation 11b of the Statute for the Degree of Doctor of Philosophy 2016 shall then apply.

### Dispute Resolution Procedures

- 7 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

### Transitional Arrangements

- 8 a These regulations came into force on 1 January 2016 and revoked the previous General Regulations for Named Doctorates.
- b For candidates initially registered under previous regulations, the Board of Graduate Studies may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

## General Regulations – Postgraduate Certificates

*The following regulations take precedence over the specific regulations for each Postgraduate Certificate published in this Calendar. As far as possible they are to be read in conjunction with the specific regulations for each Postgraduate Certificate.*

*Note: For the purposes of these regulations a postgraduate certificate is worth 60 points.*

### General Requirements

- 1 A student enrolled for a Postgraduate Certificate at this University must pass the full points value specified in the postgraduate certificate regulations. The total enrolment may not exceed the minimum points requirement for the postgraduate certificate by more than 30 points.

### Deadlines for Completion

- 2 a The requirements for a Postgraduate Certificate must be completed within:
  - (i) one semester of initial enrolment for the postgraduate certificate if enrolled full-time  
or
  - (ii) four semesters of initial enrolment for the postgraduate certificate if enrolled part-time.
- b In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.
- c In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may increase the duration allowed for enrolment for a period not normally exceeding one semester.

### Completion of Requirements

- 3 a A student enrolled for a Postgraduate Certificate must complete the requirements by the last day of the final semester of enrolment in the programme.
- b Extensions of time to complete work in examined courses or 100 percent coursework courses will not be granted beyond the end of the semester(s) in which the course is offered.
- c A student who has failed a course or courses of no more than 30 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 2 in order to complete the postgraduate certificate.

### Transfer Credits, Cross-credits and Reassignments

- 4 a **Transfer credits**  
Transfer credit may not be awarded for a Postgraduate Certificate.
- b **Cross-credits**  
Courses may not be cross-credited into or from a Postgraduate Certificate.
- c **Reassignments**  
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

### Certificate of Proficiency

- 5 a The Certificate of Proficiency regulations under 'Other Programmes' apply.
- b A Certificate of Proficiency course may be reassigned to a Postgraduate Certificate as specified in Regulation 9 of the Credit Regulations.

### Transitional Certificate

- 6 The Transitional Certificate regulations under 'Other Programmes' apply. A Transitional Certificate course may not be reassigned to a Postgraduate Certificate.

### Variations

- 7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Postgraduate Certificate.

## General Regulations – Postgraduate Diplomas

*The following regulations take precedence over the specific regulations for each Postgraduate Diploma published in this Calendar. As far as possible they are to be read in conjunction with the specific regulations for each Postgraduate Diploma.*

*Note: For the purposes of these regulations:*

- (i) a Postgraduate Diploma is worth a total of 120 points
- (ii) a dissertation or research project is worth between 30 and 80 points
- (iii) the 'Department' is the Department or School or other academic unit in which the student is enrolled, and the 'Head of Department' is the head of that academic unit
- (iv) a representative of Senate includes a Dean, and Deputy or Associate Dean.

### General Requirements

- 1 A student enrolled for a Postgraduate Diploma at this University must pass the full points value specified in the postgraduate diploma regulations. The total enrolment may not exceed the minimum points requirement for the postgraduate diploma by more than:
  - a 40 points
  - or
  - b 20 points in the case of a student with credit granted from a postgraduate certificate.

### Duration of Enrolment

- 2 a The requirements for a Postgraduate Diploma must be completed within
  - (i) one year of initial enrolment for the postgraduate diploma if enrolled full-time
  - or
  - (ii) four years of initial enrolment for the postgraduate diploma if enrolled part-time.
- b In the case of a student who has completed a postgraduate certificate for which credit is granted to a postgraduate diploma the requirements must be completed within
  - (i) one semester of admission if enrolled full-time
  - or
  - (ii) two years of admission if enrolled part-time.
- c In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.
- d In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may increase the duration allowed for enrolment for a period not normally exceeding two consecutive semesters.

### Completion of Requirements

- 3 a A student enrolled for a Postgraduate Diploma must complete all work in taught courses by the last day of the semester in which the course is taught.
- b (i) A student enrolled in a dissertation or research project of 30 points or more must complete the dissertation or research project by the last day of the final semester of enrolment in the dissertation or research project.
- (ii) If, in exceptional circumstances beyond the student's control, a dissertation or research project has not been able to be completed by the due date specified in Regulation 3b(i), Senate or its representative may, upon consideration of a student's application and the required supporting evidence, approve a limited extension of time, not exceeding six months.
- (iii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student's current enrolment period in a dissertation or research project course has ended.
- c A student who has failed a course or courses of no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the duration of enrolment specified in Regulation 2 in order to complete the postgraduate diploma.
- d **Fine Arts Studio**  
A student enrolled in the Postgraduate Diploma in Fine Arts must complete their individual programme not later than 1 November in the year in which the work is undertaken or by such other date as may be approved by the Head of School of Fine Arts.

### Distinction or Merit

- 4 a Where the specific postgraduate diploma regulations include a provision for Distinction or Merit, a

postgraduate diploma may be awarded with Distinction or Merit where a student's overall grade is sufficiently high.

- b Distinction may be awarded where a student has achieved an overall grade point average of 7.0 or higher. Merit may be awarded where a student has achieved an overall grade point average of between and including 5.50 and 6.99.
- 5 Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in the diploma. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

### Dissertations and Research Projects

- 6 a Dissertations or Research Projects are to be bound as specified by the Faculty and submitted to the supervisor or department in accordance with Regulation 3b.
- b The Head of Department is to transmit the submitted dissertation or research project to the examiner(s).
- c Copies of dissertations and research projects are not deposited with the University Library.

### Transfer Credits, Cross-credits and Reassignments

- 7 a **Transfer credits**  
Transfer credits may be awarded for a Postgraduate Diploma as specified in Regulations 2e and 2f(i) of the Credit Regulations.
- b **Cross-credits**  
Courses may not be cross-credited into or from a Postgraduate Diploma.
- c **Credit from a postgraduate certificate**  
In the case of a student who has completed a Postgraduate Certificate for which credit is granted to a Postgraduate Diploma, admission to the Postgraduate Diploma must take place within five years of completion of the Postgraduate Certificate.
- d **Reassignments**  
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

### Certificate of Proficiency

- 8 a The Certificate of Proficiency regulations under 'Other Programmes' apply.
- b A Certificate of Proficiency course may be reassigned to a Postgraduate Diploma as specified in Regulation 9 of the Credit Regulations.

### Transitional Certificate

- 9 The Transitional Certificate regulations under 'Other Programmes' apply. A Transitional Certificate course may not be reassigned to a Postgraduate Diploma.

### Variations

- 10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Postgraduate Diploma.

## International Students

*The following notes are intended to be a general guide for international students wishing to be admitted to the University of Auckland. Further information is available from the International Office or from the International students section of the University website at [www.international.auckland.ac.nz](http://www.international.auckland.ac.nz)*

### Admission

International students should apply for admission using the online Application for Admission. Intending applicants should note the following general points:

- 1 All international students enrolling in an undergraduate programme must hold, as a minimum requirement, an acceptable university entrance qualification.
- 2 All international students seeking admission to graduate or postgraduate programmes must hold, or expect to hold before the start of the programme, a recognised first degree in a relevant discipline.
- 3 Applicants whose first language is not English are required to provide satisfactory evidence of their proficiency in English. International applicants entering the University on the basis of NCEA or Cambridge Assessment International Education (Cambridge International, formerly known as University of Cambridge International Examinations (CIE)) taken in New Zealand, or International Baccalaureate (IB) taken in New Zealand, must

meet the standard literacy requirements for admission. International applicants who have taken Cambridge International or IB outside of New Zealand must meet the standard admission requirements from these qualifications but may also meet the standard literacy requirement through an alternative approved English test as outlined in the minimum English Language proficiency requirements. International applicants entering the University on the basis of qualifications other than NCEA, Cambridge International or IB taken in New Zealand must meet a specified score in IELTS or an alternative approved English test, or must have completed and passed the Foundation Certificate in English for Academic Purposes (FCertEAP), the English Pathway for Undergraduate Studies (EPUS), the English Pathway for Postgraduate Studies (EPPS), or an approved alternative. The minimum score required in IELTS for admission to an undergraduate programme at the University is an overall score of 6.0 with no less than 5.5 on an individual band. The minimum score required in IELTS for admission to a postgraduate programme at the University is an overall score of 6.5 with no less than 6.0 on an individual band. Higher requirements may be imposed by faculties for entry to specified undergraduate and postgraduate programmes.

### Health and Travel Insurance

- 4 It is the responsibility of all international students to ensure that they have appropriate and current approved health insurance for their period of study in New Zealand, and for the length of their student visa. Health and travel insurance is a condition of enrolment, and as such, must be valid for the entire duration of study. A student's enrolment cannot continue in the event of their insurance cover being declined.

### Student Visa

- 5 The majority of international students must have a student visa before entering New Zealand. All students must have a valid visa for the duration of their studies. For further information, visit Immigration New Zealand's website at [www.immigration.govt.nz](http://www.immigration.govt.nz).
  - a An international student is any student who is not a citizen or permanent resident of New Zealand (includes the Cook Islands, Tokelau and Niue) or Australia.
  - b Every international student must provide the following information to the University of Auckland:
    - (i) photocopy of title page of passport and of current visa
    - (ii) current Auckland address and contact phone number(s)
    - (iii) full name and current address of an emergency contact/next of kin.
  - c Where a student does not provide evidence of a valid student visa and/or the required contact details either prior to commencement of study or before the visa information held on file at the University expires, then, until that evidence is produced, the Council may:
    - (i) withdraw the enrolment of that student from a course or courses, with no refund or credit of fees and/or
    - (ii) decline to re-enrol the student
    - (iii) restrict or remove that student's access to University services, including but not limited to the Student Learning System.

### International Student Fees

- 6 International fees (refer to Schedule – Part C – International Students) apply to students who:
  - a are not citizens of New Zealand or Australia (refer note 5a above)  
or
  - b do not hold residency status in New Zealand or Australia  
or
  - c are being fully funded under the New Zealand Ministry of Foreign Affairs and Trade New Zealand Aid Programme  
or
  - d are not participating in an official University of Auckland exchange programme.

### International Scholarships

New Zealand Scholarships are available for international students from selected countries as identified by the Ministry of Foreign Affairs and Trade ([www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships](http://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships)).

The University of Auckland also offers international scholarships including the University of Auckland International Student Excellence Scholarship, University of Auckland Doctoral Scholarships at PhD level for international students from all countries; and scholarships from various faculties at all levels. To find out more about scholarships visit [www.auckland.ac.nz/en/study/scholarships-and-awards/find-a-scholarship.html](http://www.auckland.ac.nz/en/study/scholarships-and-awards/find-a-scholarship.html)

## The Limitation of Entry Statute 1991

*At the University of Auckland this 18th day of February 1991. Pursuant to Section 224 of the Education Act 1989, as amended by the Education Amendment Act 1990, the Council of the University of Auckland hereby makes the following Statute:*

- 1 a This statute may be cited as The Limitation of Entry Statute 1991.  
b This Statute came into force on 1 January 1991.
  - 2 Where the Council is satisfied that it is necessary to do so because:
    - a students cannot be allocated places in appropriate lecture rooms or laboratories at times when they can reasonably be expected to attend
    - or
    - b the number of teaching staff does not ensure all students expected to seek a place in a particular programme or course can be adequately taught;there shall be deemed to be an insufficiency of accommodation or of staff.
  - 3 The maximum number of students that may be enrolled for any such programme or course shall be determined by the Council from time to time after considering any recommendations from Senate and be published in a schedule to this Statute.
  - 4 In determining such maximum number of students the Council may, after securing a recommendation from Senate:
    - a prescribe academic standards to be achieved as a prerequisite for enrolment for any such programme or course
    - and
    - b prescribe other criteria for selection of students to be permitted enrolment for any such programme or course.
  - 5 The Limitation of Entry Statute 1985 is hereby repealed.
- 

## Limitations Schedule 2020

*This Schedule is made under the provisions of Regulation 3 of the Limitation of Entry Statute 1991.*

### Limited-entry Programmes and Courses

Because of insufficient accommodation and restrictions on staffing there will be a limitation on the number of students who can be enrolled in 2020 in the programmes and courses listed below.

### Approved Limitations

- 1 Students must apply for a place in any limited entry programme. Unless otherwise specified in **Closing Dates for Admission, the closing date for Application for Admission is 8 December 2019 and for Enrolment is 14 February 2020. The closing date for Admission to Summer School is 1 December 2019 and for Enrolment is 22 December 2019.**
- 2 Application for places in any limited-entry programmes and/or courses will be made online, or in person.
- 3 Applications received after the specified closing dates will be given reduced priority in consideration for a place in a limited-entry programme and/or course.
- 4 Where the number of applicants for a place in a limited-entry programme or course exceeds the approved number of available places, the Faculty or department concerned will select students in accordance with criteria that have been approved by the University Council.
- 5 Where a course is taught in both semesters, the Selection Committee will allocate students to the First or Second Semester where numbers of applications for one semester exceed places available.
- 6 Selection criteria will be available from the Faculty or department concerned for the information of students. In general, selection will be based upon academic merit. In those cases where the scholastic record is insufficient, e.g., Discretionary Entrance and Special Admission, other criteria such as the recommendation of the School Principal or Advisor, or employment history, will be taken into account. Account will also be taken of the University's Equal Educational Opportunity objectives. Limitations on programmes and courses are listed below.

# GENERAL STATUTES AND REGULATIONS

## Conferment of Academic Qualifications and Academic Dress Statute 1992

- 1 Every degree and every diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council and at a meeting of the Council.
- 2 Every degree and every diploma of the University shall be conferred or awarded by the Chancellor, or if they are absent from the meeting or incapacitated by sickness or otherwise, by the Vice-Chancellor or Pro-Chancellor. The Council may also authorise another person to confer degrees or award diplomas at a particular ceremony.
- 3 Every recipient of a degree shall receive a certificate in appropriate form, under the Common Seal of the University, that their degree has been conferred and stating the class of honours (if any awarded), or whether it has been awarded with Distinction or Merit.
- 4 Every diploma shall be in appropriate form under the Common Seal of the University and state, where relevant, whether it has been awarded with Distinction or Merit.
- 5 At a specified time or times each year the Council shall meet in convocation of the University to confer degrees and award diplomas. Persons wishing to have their degree conferred or diploma awarded (whether in person or in absentia) at such a ceremony must apply in accordance with the dates specified on the University website.
- 6 The form of words to be used by the Chancellor, the Vice-Chancellor, Pro-Chancellor or such other person as may have been appointed by the Council to confer degrees or to award diplomas shall be as follows:
  - a **Degrees**  
*'By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], confer the degrees stated upon those who, within their several faculties, have satisfied the requirements of this University.'*
  - b **Diplomas**  
*'By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], award the diplomas stated upon those who, within their several faculties, have satisfied the requirements of this University.'*
- 7 In appropriate circumstances, the form of words to be used by the Chancellor, the Vice-Chancellor, Pro-Chancellor or such other person as may have been appointed by the Council to confer degrees and to award diplomas shall be as follows: *'By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], confer the degrees and award the diplomas stated upon those who, within their several faculties, have satisfied the requirements of this University.'*
- 8 The academic dress worn by members of the University at any public ceremony of the University shall be the costume appropriate to their degree, but doctors may on special occasions wear a scarlet gown and graduates admitted *ad eundem statum* may wear the academic costume of their own university. Unless the holder of a diploma is also a graduate the only academic dress they may wear is an undergraduate gown and the scarf appropriate to their diploma.
- 9 The academic costumes of the University of Auckland shall be as follows:
  - a The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel. The robe for the Pro-Chancellor is a black gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold tassel. The robe for the Vice-Chancellor is a blue silk gown with facings of silver lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with silver lace and tassel. The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with a black silk tassel. The robe for the Kaumatua and the Kuia is the Fellows gown of the colour University blue to be worn with a black scarf lined with the colour University blue bearing on each lapel the coat of arms. The cap is a black velvet trencher with a black silk tassel. The academic dress for Graduation Officials shall be the costume appropriate to their degree. In addition, the gown shall bear on each shoulder the coat of arms of the University, and the trencher shall have a blue tassel. Graduation Officials who are not graduates shall wear an undergraduate gown bearing the coat of arms of the University on each shoulder.
  - b The gown for a Bachelors degree is as for the Cambridge Bachelor of Arts. The gown for a Masters degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelors degree is lined with coloured satin and bordered with white fur. - c The hood for a Bachelor with Honours degree is as for the relevant Bachelors degree, with the addition of a 25mm ribbon band on the outside of the hood, alongside the fur. The colour of the ribbon band is the same colour as the lining.

The hood for a Bachelors degree for which the prerequisite is another Bachelors degree within the same Faculty, is as for a Bachelor with Honours degree, with the addition of a second 25mm band at a distance of 25mm from the first band. Both bands are the same colour as the lining.

Where there is more than one Masters or Bachelors degree within a Faculty, the hoods for such degrees are lined with satin in the colour approved by Council. The first such degree will have no ribbon band, but subsequent degrees of this nature will be distinguished by the addition of a 25mm band on the edge of the satin. The colour of the ribbon band for the first subsequent degree within a Faculty will be dark brown, and any further subsequent degrees of this nature within the Faculty will be in another colour which is not taupe, nor unless otherwise approved, the colour used to line the hoods for any other degree.

The hood for an Interfaculty Bachelors degree or Masters degree is lined with the colour of the Faculty primarily responsible for the degree, with the addition of a 25mm ribbon band on the edge of the satin. Where there are two Faculties involved, the colour of the ribbon band is the colour of the hood lining of the second Faculty. Where more than two Faculties are involved, the colour of the ribbon band is taupe. Where the Faculty primarily responsible for an Interfaculty Masters degree has an existing Interfaculty Masters degree listed in Regulation 9b, where more than two Faculties are involved, the colour of the ribbon band for this subsequent Interfaculty Masters degree will be dark brown.

- d The gown for the degrees of Doctor of Clinical Psychology, Doctor of Education, Doctor of Fine Arts, Doctor of Medicine, Doctor of Music, Doctor of Musical Arts and Doctor of Pharmacy is as for the Cambridge Master of Arts with the addition of facings of 50mm wide satin. The hood is made wholly of satin and this and the facings of the gown are of the following colours for the different degrees:

Clinical Psychology	dark blue
Education	emerald green
Fine Arts	gold
Medicine	crimson
Music	white
Musical Arts	white
Pharmacy	grey-green

- e The gown for the degree of Doctor of Philosophy is as for the Cambridge Master of Arts, with the addition of 100mm satin facings, made up of 75mm of scarlet edged with 25mm of gold. The hood is made wholly of scarlet satin.

- f The gown for the degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature, and Doctor of Science is as for the Cambridge Master of Arts, but is made of black silk, or scarlet silk or cloth. The hood is made wholly of satin, and is of the following colours for the different degrees:

Engineering	dark violet
Laws	light blue
Literature	pink
Science	dark blue

- g The cap for all graduates other than Doctors and the officers of the University is a black trencher with a tassel. The cap for all Doctors other than officers of the University is as for the full dress Cambridge Doctor of Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

*Note: The colour of the lining of the hood for the Degree of Master of Philosophy is that of the closest Masters degree to which the subject of the MPhil relates.*

- h The scarf for a diploma is to be made of the same black material as the gown with a band of colour in plain satin as in existing hoods down the centre edge. The colour is to match the degree cluster most closely associated with the diploma. The lining is to be the same colour as the band. The width of the scarf at the base is to be 140mm in total, the black being 100mm and the colour 40mm, and narrowing behind the neck. A band of the lining colour is to be stepped down from the inside edge to the outside edge of the black material at the base of each side of the scarf. The diploma scarves are as follows:

Architecture	lemon band and lining
Arts	pink band and lining
Business and Economics	burgundy band and lining
Creative and Performing Arts	pink band and lining
Education	emerald green band and lining

Engineering	dark violet band and lining
Fine Arts	gold band and lining
Laws	light blue band and lining
Medical and Health Sciences	crimson band and lining
Music	white band and lining
Pharmacy	grey-green band and lining
Planning	chartreuse green band and lining
Property	silver grey band and lining
Science	dark blue band and lining
Theology	forest green band and lining

- i The gown for the honorary degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature, Doctor of Music, Doctor of Science and Doctor of the University of Auckland is as for the Cambridge Master of Arts, but is made of scarlet satin. The hood is made wholly of satin, and is one of the following colours for the different degrees:

Engineering	dark violet
Laws	light blue
Literature	pink
Music	white
Science	dark blue
The University of Auckland	University blue

- 10 Regalia specifications for degrees and diplomas that have been deleted from this Statute can be found in previous editions of the *University Calendar*.
- 11 The gown for a Fellow of the University of Auckland will be an undergraduate gown of the colour University Blue bearing on the left front lapel the coat of arms of the University. No hood or cap shall be worn.

 Doctor of Engineering  
 Doctor of Literature  
 Doctor of Laws  
 Doctor of Music  
 Doctor of Science  
 Doctor of the University of Auckland  
 A Masters degree in any Faculty of the University
  - 4 The Council may confer a degree or award a diploma previously included in a University of Auckland Degrees and Diplomas Statute on a person who had been enrolled in a programme leading to that qualification prior to its deletion from the Statute provided that person:
    - a had completed a significant component of the course of study prior to the deletion of the degree or diploma and
    - b has completed a course of study in accordance with the provisions of the regulations for that degree or diploma.
  - 5 The Degrees Statute 1990 is hereby repealed.
- 

## The Honorary Degrees and Awards Statute 1998

*Pursuant to sections 192 and 194 of the Education Act 1989 and section 20 of the University of Auckland Act 1961 the Council of the University makes the following statute:*

- 1 This Statute may be cited as the Honorary Degrees and Awards Statute 1998 and shall come into force on the 16 March 1998.
- 2 The Council may at its discretion:
  - a Confer the following honorary degrees:  
 Doctor of Laws  
 Doctor of Science  
 Doctor of Literature  
 Doctor of Music  
 Doctor of Engineering  
 Doctor of the University of Auckland  
 A Masters degree in any Faculty of the University;  
 and
  - b Award the title 'Fellow of the University' ('Fellowship').
- 3 The University Honours Committee of the Council shall consider nominations and make recommendations to the Council for the conferring of any honorary degree or fellowship under this Statute.
- 4 The University Honours Committee shall henceforth consist of:
  - a the Chancellor who shall be the Chair of the Committee
  - b the Vice-Chancellor
  - c the Pro-Chancellor
  - d one member appointed by the Council
  - e two members of Senate elected by Senate
  - f the student member of the Council.
- 5 The Council may, from time to time, approve guidelines for the award of honorary degrees and fellowships and, in making its recommendations, the University Honours Committee shall ensure that it complies with all those guidelines.
- 6 The Council may also, in its discretion and on the recommendation of the University Honours Committee:
  - a award the title 'Professor Emeritus' to a retired member of the academic staff who held the office of a Professor of the University immediately before their retirement
  - b award the title 'Distinguished Professor Emeritus' to a retired member of the academic staff who held the office of a Distinguished Professor of the University immediately before their retirement
  - c award the title 'University Librarian Emeritus' to a retired member of staff who held the office of University Librarian immediately before their retirement and who has a record of long and distinguished service to the University as the University Librarian.
- 7.1 The University Honours Committee may recommend to the Council, for the conferment of an Honorary Doctor's degree:

- a Any person who:
    - (i) is academically distinguished, or has made a distinguished contribution in creative or artistic fields, and has, or has had, some intimate connection with the University
    - or
    - (ii) has shown strong interest in the well-being of the University by benefactions, or in other appropriate ways
    - or
    - (iii) is of international repute and is visiting, or has visited the University in an official capacity
  - or
  - b Any other person approved for the purpose after consultation with Education Committee on behalf of Senate.
- 7.2 The University Honours Committee may recommend to the Council, for the conferment of an Honorary Masters degree:
- a any member of the professional staff who has given long and distinguished service to the University
  - or
  - b any member of the academic staff who does not hold a degree
  - or
  - c any other person approved for the purpose after consultation with Education Committee on behalf of Senate.
- 7.3 The University Honours Committee may recommend to the Council, for the conferment of a Fellowship, a person who:
- a has made a unique and valuable contribution to the University
  - and
  - b is not a permanent member of staff.
- 8 A nomination for the conferment of an honorary degree or a fellowship may be made by any three persons each of whom is a member of the Council or of Senate or of both these bodies; and shall be made confidentially to the Vice-Chancellor in accordance with the relevant provisions of the guidelines in force under Clause 5 of this Statute.
- 9 The Honorary Degrees Regulations 1978 and The Fellow of the University of Auckland Statute 1992 are both hereby repealed.

## Guidelines for the Award of Honorary Degrees and Fellowships

- 1 A nomination for an honorary degree or for the award of a fellowship shall be made confidentially in writing to the Vice-Chancellor and signed by three persons each of whom shall be a member of the Council or of Senate or of both these bodies.
- 2 Each nomination shall be accompanied by a statement outlining in sufficient detail the career, standing and qualifications of the nominee and the grounds under Clauses 7.1, 7.2 or 7.3 for conferring the degree or awarding the fellowship.
- 3 The Vice-Chancellor shall refer each nomination and the accompanying statement to the University Honours Committee of Council.
- 4 If Council approves a recommendation that an honorary degree be conferred or a fellowship be awarded the Vice-Chancellor shall invite the nominee to accept the award.
- 5 The conferring of honorary doctorate degrees shall not be confined to a graduation ceremony but shall be arranged at the discretion of the Council.
- 6 The conferring of an honorary Masters degree will, except in very exceptional circumstances, take place at a graduation ceremony.
- 7 The award of a fellowship shall be arranged at the discretion of the Council.

## REGULATIONS – ARTS

### The Degree of Bachelor of Arts – BA

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Duration and Total Points Value

- 1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

#### Structure and Content

- 2 Of the 360 points required for this degree, a student must pass:
  - a at least 300 points from courses listed in the Bachelor of Arts Schedule, including
    - (i) at least 180 points in courses above Stage I, of which at least 90 points must be above Stage II
    - (ii) courses in a minimum of three subjects listed in the Bachelor of Arts Schedule
  - b (i) two majors of 120 points each from the Bachelor of Arts Schedule, of which at least 45 points must be above Stage II in each major
 

*or*

  - (ii) a specialisation in Communication.
  - c 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
- 3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
- 4 a A student may include in their degree one or more modules of 45 points from one of the subjects available for modules in the Bachelor of Arts Schedule.
  - b Courses passed for modules cannot also be counted for majors.
- 5 Up to 30 points may be taken from courses available for other programmes offered at this University.

#### General Education Exemptions

- 6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
 

*either*

  - (i) completed an undergraduate degree at a tertiary institution
  - or*
  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
  - or*
  - (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
- b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
- c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
  - (i) 15 points from courses offered in the General Education Schedules
  - and*
  - (ii) a further 15 points from courses available for this degree.
- d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

#### Conjoint Degrees

- 7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

### Special Cases

- 8 For language courses, enrolment of students with prior knowledge of the language is at the discretion of the Academic Head or nominee.
  - a Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.
  - b If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course.
  - c A student who has passed or been credited with a language acquisition course may not enrol for a course which precedes that course in the sequence of language acquisition courses.

### Variations

- 9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 10 These regulations came into force on 1 January 2018. The 2006 regulations for the Degree of Bachelor of Arts were thereby repealed.

**The Degree of Bachelor of Theology – BTheol**

*New admissions into the Degree of Bachelor of Theology were suspended in 2014. Students who have a current enrolment in this qualification should contact their faculty regarding completion.*

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Duration and Total Points Value**

- 1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

### Structure and Content

- 2 Of the 360 points required for this degree, a student must pass:
  - a at least 255 points from courses listed in the Bachelor of Theology Schedule, including 180 points above Stage I of which at least 75 points must be above Stage II  
and
  - b a student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
  - c Up to 45 points may be taken from courses in the Bachelor of Arts Schedule with the approval of the Academic Head or nominee.
  - d Up to 30 points may be taken from courses in other Bachelor programmes offered at this University.

### General Education Exemptions

- 3 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
  - either
    - (i) completed an undergraduate degree at a tertiary institution
    - or
    - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
    - or
    - (iii) been admitted to this degree with credit from another tertiary institution of 240 points or more.
  - b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.  
(ii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
  - c A student admitted to this degree with credit from another tertiary institution of between 120 and 235 points inclusive must pass:
    - (i) 15 points from courses offered in the General Education Schedules  
and
    - (ii) a further 15 points from courses available for this degree.
  - d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

### Conjoint Degrees

- 4 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

### Variations

- 5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 6 These regulations came into force on 1 January 2014. The 2006 regulations for the Degree of Bachelor of Theology were thereby repealed.

## The Degree of Bachelor of Fine Arts (Honours) – BFA(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

- 1 a No student on whom the Degree of Bachelor of Fine Arts has already been conferred may enrol for this degree.
- b At the discretion of the Dean of Faculty of Creative Arts and Industries a student who has completed Parts I, II and III for a Bachelor of Fine Arts or its equivalent, and achieved a Grade Point Average of 5 or higher in all Fine Arts courses above Stage II, may be permitted to enrol for this degree.
- c Where the Faculty of Creative Arts and Industries approves enrolment for the Degree of Bachelor of Fine Arts (Honours) the courses previously passed for the Degree of Bachelor of Fine Arts will be reassigned to the Degree of Bachelor of Fine Arts (Honours).

*Note: 30 points of the General Education requirement must be completed prior to enrolment.*

### Duration and Total Points Value

- 2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

### Structure and Content

- 3 Of the 480 points required for this degree, a student must pass:
- a 360 points from the Degree of Bachelor of Fine Arts Schedule  
and
- b 120 points from courses listed in the Bachelor of Fine Arts (Honours) Schedule.
- 4 The programme for each student requires the approval of the Dean of Faculty of Creative Arts and Industries.
- 5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Conjoint Degrees

- 6 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination for which the specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

### Research Project

- 7 a The research project is to be carried out under the guidance of a supervisor/s appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Creative Arts and Industries.
- b The research project topic must be approved by the Dean of Faculty of Creative Arts and Industries prior to enrolment.

- c The research project is to be completed by the last day of the final semester of enrolment in the research project. If, in exceptional circumstances beyond the student's control, the research project has not been able to be completed by the above deadline, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

### Award of Honours

- 8 The Bachelor of Fine Arts (Honours) may be awarded with either First Class Honours or Second Class Honours in either First Division or Second Division. The class of Honours shall be determined by the grade achieved in FINEARTS 790.

### Withdrawal from Honours

- 9 A student whose work does not satisfy the standard specified in Regulation 8, or who at any time chooses to withdraw from Honours, may transfer from the Degree of Bachelor of Fine Arts (Honours) to the Degree of Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degree of Bachelor of Fine Arts (Honours) may be reassigned to the Degree of Bachelor of Fine Arts.

### Variations

- 10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 11 These regulations came into force on 1 January 2015. The 2008 regulations for the Degree of Bachelor of Arts (Honours) were thereby repealed.

## The Degree of Bachelor of Urban Planning (Honours) – BUrbPlan(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

- 1 Admission to this programme is at the discretion of Senate or its representative.
- 2 No student on whom the Bachelor of Planning has been conferred or who has passed more than 240 points towards the Bachelor of Planning, or equivalent, may enrol for this degree.

*Note: To be admitted a student must meet University entry criteria and through the submission of a written statement demonstrate knowledge required for the programme.*

### Duration and Total Points Value

- 3 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

### Structure and Content

- 4 Of the 480 points required for this degree, a student must pass:
  - a at least 450 points from courses listed in the Bachelor of Urban Planning (Honours) Schedule and
  - b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
- c A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
- 5 a A student must pass each of Parts I, II, III, and IV as listed in the Bachelor of Urban Planning (Honours) Schedule.
  - b (i) A student will not be permitted to enrol for Part II unless Part I has been completed, nor to enrol for Part III unless Part II has been completed, nor to enrol for Part IV unless Part III has been completed.
  - (ii) However, a student who has failed to pass one of those parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.
  - (iii) Only in exceptional circumstances will a student be permitted to enrol for Part III unless all of Part I has been completed, or to enrol for Part IV unless all of Part II has been completed.
  - (iv) A student will not be permitted to enrol for Part IV if they have not completed the 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
  - (v) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### General Education Exemptions

- 6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
 

*either*

  - (i) completed an undergraduate degree at a tertiary institution
  - or*
  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
  - or*
  - (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
- b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Architecture and Planning.
- c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
  - (i) 15 points from courses offered in the General Education Schedules
  - and*

- (ii) a further 15 points from courses approved by the Head of School of Architecture and Planning.
- d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

### Variations

- 7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Honours

- 8 The Bachelor of Urban Planning (Honours) may be awarded with First Class Honours or with Second Class Honours in either First Division or Second Division. The class of Honours shall be determined by the student's weighted average grade over courses undertaken in Parts II, III and IV excluding General Education. Students who have passed all courses and completed all other requirements for the BUrbPlan(Hons) but whose performance in the courses is deemed by the Head of School of Architecture and Planning to be not of Honours standard will be awarded the Degree of Bachelor of Urban Planning.

### Commencement

- 9 These regulations came into force on 1 January 2014.

## The Degree of Doctor of Fine Arts – DocFA

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.*

### Preamble

- 1 a A candidate for the Degree of Doctor of Fine Arts is required to pursue an approved programme of advanced study and research as an enrolled student of the University.
- b It is expected that this programme will normally be completed within four years of full-time candidature and in no fewer than three years of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.
- c The Degree of Doctor of Fine Arts is awarded for a formal and systematic exposition of a coherent programme of advanced creative work that is supported by a written thesis and carried out over the period of registration for the degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:
  - (i) is an original and substantial creative work
  - and
  - (ii) meets internationally recognised standards for such work
  - and
  - (iii) the thesis is an original contribution to the field of Fine Art and demonstrates knowledge of the artistic practices and literature relevant to the creative work undertaken and the ability to exercise critical and analytical judgment of them.
- d The submission of the creative work will normally be:
  - (i) an exhibition, and/or other live performance held after submission of the thesis.
  - or
  - (ii) audio, visual or other recording or documentation submitted together with the thesis.
- e The thesis may not, without prior approval of the Board of Graduate Studies, exceed 30,000 words in total.
- f All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

### Eligibility

- 2 A candidate for the Degree of Doctor of Fine Arts is required to have:
  - a (i) completed the requirements for the award of either the Degree of Master of Fine Arts with First Class or Second Class Honours First Division at the University of Auckland
  - or
  - (ii) completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent
- and
- b demonstrated to the satisfaction of the Head of School of Fine Arts, in consultation with the School of Fine Arts Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in fine arts creative practice and research.

### Admission Essential

- 3 A candidate for the Degree of Doctor of Fine Arts must have applied for admission and been admitted to the University of Auckland.

### Duration

- 4 A candidate must complete the requirements for this degree within not fewer than three full-time years and not more than four full-time years (or their part-time equivalent) from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8 of these regulations.

### Registration

- 5 a Registration and all conditions pertaining to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
- b The following provisional goals are required of all candidates:
  - (i) approval of the full research proposal by the appropriate departmental/faculty postgraduate committee, including full proposals for both creative work and thesis, a provisional title, a discussion of methodology, an outline of the creative work to be undertaken, an outline of the thesis structure and statement of the resources required to complete the research
  - (ii) substantial examples of creative work such as a series of works, exhibition, or performance completed to the satisfaction of the main supervisor

- (iii) a substantial piece of written work, such as a literature review, completed to the satisfaction of the main supervisor
  - (iv) presentation by the student of the research proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the main supervisor
  - (v) ethics approval/s and/or permissions obtained for the research (if required)
  - (vi) attendance at one of the Doctoral Skills Programme Induction Days
  - (vii) completion of the standard doctoral milestone goals relating to induction, English language and academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration
  - (viii) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities.
- c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

### Structure and Content

- 6 A student enrolled for this degree must pass FINEARTS 894 Studio.

### Reviews of Registration

- 7 Reviews of progress and continuation of registration will be made according to Regulation 3 of the General Regulations for Named Doctorates.

### Changes to the Conditions of Registration

- 8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

### Enrolment and Fees

- 9 Enrolment and fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

### Submission

#### 10 a Time for Submission

Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the creative work and thesis in no fewer than three and no more than four years from the Date of Registration if they are full-time students, or no fewer than six and no more than eight years in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.

#### b Copies of Creative Work and Thesis

- (i) In those cases where the submission of the creative work is an exhibition and/or performance, as in Regulation 1d(i), the following will apply:

At least one month prior to the submission of the creative work, all candidates are initially required to submit one copy in temporary binding and one electronic copy in pdf format of the thesis to the School of Graduate Studies. Copies should include the following statement to examiners on the first page:

"This thesis is for examination purposes only and is confidential to the examination process."

- (ii) In those cases where the creative work is submitted together with the thesis, as in Regulation 1d(ii), all candidates are initially required to submit two copies of the creative work as documentation and/or as recordings in a standard retrievable form, and one copy of the thesis in temporary binding and one electronic copy of the thesis in pdf format to the School of Graduate Studies by the maximum submission date. The thesis copies should include the following statement to examiners on the first page:

"This creative work and thesis are for examination purposes only and are confidential to the examination process."

#### c Notification of Submission

Three months prior to the expected date of submission of the creative work, or of the creative work and thesis, candidates should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the creative work or thesis on the grounds of conflict of interest, then they may also submit at this time the name of this person or people and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

This notice of submission must be approved by the Head of School and, in the case of Regulation 1d(i), must include:

- (i) a brief statement describing the creative work to be examined  
and

- (ii) a statement as to the availability of the creative work for examination  
and
- (iii) confirmation that a suitable venue for such creative work as an exhibition and/or performance is available within the time limit of the enrolment  
and
- (iv) confirmation that the creative work submission will be recorded in a standard retrievable form and two copies deposited with the School of Graduate Studies.

In the case of Regulation 1d(ii), this notice of submission must be approved by the Head of School and must include:

- (v) a brief statement describing the creative work to be examined
- (vi) a statement as to the availability of the creative work for examination; that it will be documented, or recorded in a standard retrievable form, and that two copies will be deposited with the School of Graduate Studies together with the thesis.

**d Declaration as to Originality of the Thesis and Creative Work**

The thesis is to be accompanied by a statutory declaration, signed by the candidate, stating:

- (i) that the creative work and thesis are the candidate's own work
- (ii) whether any part of the creative work and/or thesis (in form or substance) has been submitted or accepted for any other degree or diploma and, where that is the case, clearly setting out the extent to which that earlier work has been incorporated into the thesis
- (iii) that written permission has been obtained for any third-party copyright material reproduced in the creative work and/or thesis that represents a "substantial part" of the other work
- (iv) that the temporary-bound copy and electronic copy of the thesis are identical

**e Co-Authorship**

- (i) Where the thesis contains jointly authored research papers, case studies and/or any other work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.
- (ii) Where the thesis includes research reported in published or unpublished co-authored works, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.
- (iii) Where the creative work includes co-produced creative work, a Co-Production Form must be signed by the candidate and all the joint producers, stating the elements of the jointly produced material which are the candidate's own work.

**f Language of Thesis**

The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

## Examination

**11 a General Provisions**

The Head of School of Fine Arts and/or the Associate Dean (Postgraduate) of the Faculty may nominate another person to the Board of Graduate Studies to be authorised to act in their place in all of the provisions of this Regulation and Regulations 12 and 13. If either the Head of School or Associate Dean (Postgraduate) is a supervisor of the candidate, an alternate must be nominated and appointed.

- b Neither the supervisors nor the candidate may communicate with the examiners regarding the examination at any stage of the examination process, except as specified in Regulations 12 and 13 of these regulations.

**c Nomination of Examiners**

On notification of submission or intent to submit under Regulation 10c, the Head of School will, on the advice of the supervisor/s, nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis and creative work. At least one nominee should be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the research or the preparation of the creative work and/or thesis.

**d Appointment of Examiners**

The Board of Graduate Studies will consider the nominations provided by the Head of School and any submissions made by the candidate under the provisions of Regulation 10c and will appoint two suitably qualified persons who are available to act as examiners. Both examiners must be able to participate in the oral examination in the case of candidates submitting in accordance with Regulation 1d(i); one examiner must be able to participate in the oral examination in the case of candidates submitting in accordance with Regulation 1d(ii).

**e Appointment of Examination Committee**

The Board of Graduate Studies will also appoint an Examination Committee which will normally be composed of:

(i) the Head of School

and

(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee

and

(iii) one other person ("the Head of School Nominee") nominated by the Head of School. This person will have knowledge of the general field of the creative work and the thesis, but not necessarily of the research topic, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the creative work or thesis research or the preparation of the creative work or thesis. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty should be substituted.

**Examination with Exhibition and/or Performance**

12 a In those cases where the submission of the creative work is an exhibition and/or performance as in Regulation 1d(i), the oral examination will proceed as follows:

- (i) The oral examination will take place during the period in which the creative work is being examined and on or near the site of that work.
- (ii) Each examiner will be provided with a copy of the thesis at least one month prior to the final exhibition and/or performance and is to examine the thesis independently prior to the oral examination.
- (iii) Each examiner will attend the final exhibition or performance of the creative work and is to examine the creative work independently prior to the oral examination.
- (iv) The Head of School will arrange the oral examination to take place after the examiners have completed their independent examinations but during the period in which the creative work is available for examination.
- (v) The Board of Graduate Studies will appoint a person to act as Independent Chair of the oral examination. The chair must be a member of the academic staff of the University but will not normally be a member of the Faculty of Creative Arts and Industries.
- (vi) The oral examination must be attended by the candidate, both examiners, the Chair and the Head of School Nominee on the Examination Committee. The Head of School Nominee will not act as examiner and may only participate to the extent requested by the chair. The main supervisor may attend with the agreement of the candidate but may only participate to the extent requested by the Chair.
- (vii) At the oral examination the candidate may give a short introductory presentation concerning the creative work and the thesis.
- (viii) During the oral examination, examiners will discuss with the candidate issues pertinent to the creative work and thesis and relevant matters in the field to which the creative work and thesis belong.
- (ix) No recommendation regarding outcome is to be made at the time of the oral examination; and no discussion of the recommendations listed in Regulation 12b is permitted at this time regardless of whether or not the candidate is present.
- (x) On completion of the oral examination, the Chair will provide a written report to the Board of Graduate Studies attesting to the integrity of the examination.
- (xi) On completion of the oral examination there is to be no communication regarding the examination between the examiners, or between the examiners, the Head of School nominee and the candidate.

**b Examiners' Reports**

Acting independently, the Examiners are required to provide the School of Graduate Studies, within four weeks of attendance at the oral examination, with a written report in English on the quality of the creative work and the thesis according to the criteria outlined in Regulation 1c.

Each report will include one of the following recommendations:

either

(i) to award the degree

The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material

or

(ii) to award the degree after specified "minor corrections" have been made to the thesis, to the satisfaction of one of the examiners or nominee (who may be the main supervisor), and by a specified date. The examiner should provide a full list of corrections. This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. These changes can normally be made within a three month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library

- or
- (iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of one of the examiners or nominee (who will be the Head of School), by a specified date. The examiner should provide a full list of revisions. This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 3-6 month period
- or
- (b) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the examiner or examiners by a specified date
- or
- (iv) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the creative work and/or thesis is not yet of Doctor of Fine Arts standard. The creative work and/or thesis will require either further research, reworking of specific areas, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required Doctor of Fine Arts standard. The candidate will be permitted to resubmit, normally within a 12 month period
- or
- (v) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree. This recommendation is made when an examiner is of the opinion that the creative work and/or thesis has substantive flaws incompatible with the requirements of a Doctor of Fine Arts
- or
- (vi) not to award the degree.
- c As suppliers of evaluative material in terms of the Privacy Act 1993, all examiners will be informed that the information and reports they supply as such will be held in confidence to the candidate, supervisors and to persons involved in the formal examination process. Candidates' preparation for thesis revision should be assisted by knowing what the examiners have said about their thesis. Examiners' reports will normally be released initially to those involved in the examination process, other than the candidate. Part 1 of the report, the recommendation, will not be released to the candidate but, if the Examination Committee recommends that the candidate revise the thesis, and the Board of Graduate Studies accepts that recommendation, then the School of Graduate Studies will release the examiners' evaluations (Part 2 of the report) to the candidate. The author of each report will not be identified. Part 2 of the report will also be released for the purposes of judging the Vice-Chancellors Prize for Best Doctoral Thesis for those candidates who have been nominated.
- d The Board of Graduate Studies (through the Dean of Graduate Studies) reserves the right to remove from an examiner's report made available to the candidate any material that it considers should not be released.
- e **Replacement of Examiners**
- If a report has not been received within one month of the oral examination, the School of Graduate Studies will send a reminder to the examiner and advise that unless the report is received within one further month the appointment of the examiner will be terminated. If the report has not been received within one month of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner, who will be provided with a recording of the exhibition and/or performance.
- The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.
- f **Consideration of Examiners' Reports**
- Upon receipt of both the examiners' reports, the School of Graduate Studies will provide copies for consideration by the Examination Committee. The examiners' reports will also be made available to the supervisor/s on a confidential basis. Supervisor/s may comment on the reports in writing to the Examination Committee on a confidential basis. The Examination Committee may also request clarification of issues raised in the examiners' reports from the examiners and, if necessary, from supervisors. If the recommendations of the examiners differ and the Examination Committee considers that the difference may be resolved, the Chair may invite the two examiners to consult and to provide a written report or reports on the outcome of their consultations. The Examination Committee may also contact the Examiners to seek agreement on a list of recommended minor corrections and/or revisions.
- g **Recommendation of the Examination Committee**
- The Examination Committee will then make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 12e and which recommends one of the following:
- (i) to appoint one or more further independent examiners to report on any areas of conflict

or

- (ii) to award the degree

or

- (iii) to award the degree after specified "minor corrections" have been made to the thesis, to the satisfaction of one of the examiners or nominee (who may be the main supervisor), and by a specified date. This recommendation shall include full details of the work to be undertaken and a time frame for the completion of that work and nominate the party to whose satisfaction the work must be completed.

or

- (iv) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of one of the examiners or nominee (who will be the Head of School), by a specified date. This recommendation shall include full details of the work to be undertaken and a time frame for the completion of that work and nominate the party to whose satisfaction the work must be completed. When the Head of School acts as the Examiner's nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School may discuss the revisions with the Head of School Nominee on the Examination Committee and/or the main supervisor. If the Head of School is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis must be assessed by an examiner.

or

- (b) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Examiner or Examiners by a specified date. This recommendation shall include full details of the work to be undertaken and a time frame for the completion of that work and nominate the party to whose satisfaction the work must be completed.

or

- (v) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under this clause. This recommendation shall include a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date the examiner's reports were forwarded to the Examination Committee by the School of Graduate Studies.

or

- (vi) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

or

- (vii) not to award the degree.

#### **h Further Examiners**

In the event that the examiners' reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners to report on any matters it may specify. In this event, the candidate will be kept informed, and Regulations 12b to 12d will apply for the reports of the further examiners. Such examiners will be provided with a recording of the exhibition and/or performance, and with a copy of the thesis.

#### **i Minor Corrections**

In the event that the Board of Graduate Studies requires a candidate to undertake minor corrections, the following provisions apply:

- (i) the Head of School Nominee will ensure that the candidate is provided with a copy of the required minor corrections, and the specified date for the corrections to be completed by
- (ii) if the required minor corrections are completed to the satisfaction of an examiner or nominee (who may be the main supervisor) by the specified date, that person will notify the School of Graduate Studies that the degree may be awarded
- (iii) in cases where an examiner or nominee (who may be the main supervisor) reports that the minor corrections were not completed to their satisfaction or by the specified date, the Examination Committee will consider the evidence and will make a report and recommendation to the Board of Graduate Studies.

#### **j Revisions**

In the event that the Board of Graduate Studies requires the candidate to undertake revisions to the satisfaction of an examiner or nominee (who will be Head of School), or to the satisfaction of both examiners, the following provisions apply:

- (i) the Head of School Nominee will ensure that the candidate is provided with a copy of the required revisions, and the specified date for the revisions to be completed by
- (ii) if the required revisions are completed to the satisfaction of an examiner or nominee (who will be the Head of School), or the examiners, by the specified date, that person will notify the School of Graduate Studies that the degree may be awarded
- (iii) in cases where an examiner or nominee (who will be the Head of School), or the examiners, report that the revisions were not completed to their satisfaction or by the specified date, the Examination

Committee will consider the evidence and will make a report and recommendation to the Board of Graduate Studies. This recommendation may include the need to undertake further revisions.

**k Revision and Resubmission**

In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the creative work and/or thesis and resubmit it on one occasion only, the Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date the examiners' reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, the following provisions apply:

- (i) the School of Graduate Studies will inform the candidate of the decision, and will forward copies of Part 2 of the examiners' reports to the candidate
- (ii) within two weeks of the notification from the School of Graduate Studies, the Examination Committee will meet with the candidate and discuss the revisions required
- (iii) the Chair of the Examination Committee will send a written report of the meeting with the candidate to the School of Graduate Studies which will include a recommendation as to the date for resubmission
- (iv) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission
- (v) if the creative work and/or thesis is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
- (vi) upon resubmission, the revised creative work and/or thesis is to be examined as a whole by the same examiners in accordance with the provisions of Regulation 12, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the creative work and/or thesis, the Board of Graduate Studies will appoint alternative examiner/s
- (vii) a second oral will only be held in the event that the creative work is required to be revised and resubmitted
- (viii) where no amendments to the thesis were required, the examiners shall be provided with a copy of the original thesis for reference purposes but shall not re-examine it
- (ix) where the creative work was not required to be revised and resubmitted, the examiners shall be provided with a recording of the creative work for reference purposes but shall not re-examine it
- (x) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports and the original examiners' reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 12e. Following consideration of all examiners' reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 12e and a recommendation in accordance with Regulation 12f of these regulations.

**l Final Decision**

After considering all of the reports of the examiners and the Examination Committee, the Board of Graduate Studies will make the final decision as to the award of the degree.

**m Copies for Deposit**

- (i) On successful completion of the examination, candidates will be required to deposit two archival records in a standard retrievable form of the examined creative work, and two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, with the School of Graduate Studies. The degree will not be conferred until the candidate has complied with this requirement.
  - (ii) When two hardbound copies and a digital copy of the Doctor of Fine Arts thesis are deposited, these must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.
- n**
- (i) The digital thesis and recording of the examined creative work deposited shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.
  - (ii) A recording of the examined creative work and a thesis which are deposited in digital form will be accessible through the University's digital repository, unless embargoed under Regulation 25 of the Examination Regulations.

**Examination of Creative Work with the Thesis**

- 13 a In those cases where the creative work is submitted together with the thesis, as in Regulation 1d(ii), Regulations 11a to 11e will apply.

**b Examiners' Reports**

Each examiner will be provided with the recording or documentation of the creative work and an electronic copy of the thesis in pdf format. The recording or documentation of the creative work and a copy of the thesis will be provided to the Examination Committee. The Examiners will independently examine both the thesis

and the creative work. Acting independently, the Examiners are required to provide the School of Graduate Studies, within two months of receipt of the creative work and thesis, with a written report in English on the quality of the creative work and thesis according to the criteria outlined in Regulation 1c.

- c The examiners will include with their reports one of the following recommendations:
- (i) to award the degree, subject to satisfactory performance at the oral examination. The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material.
  - or
  - (ii) to award the degree after specified “minor corrections” have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), by a specified date, and subject to satisfactory performance at the oral examination. This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. These changes can normally be made within a three month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.
  - or
  - (iii) to award the degree after revisions have been made to the thesis to the satisfaction of the Examiner or nominee (who will be the Head of School), by a specified date, and subject to satisfactory performance at the oral examination. This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 3-6 month period.
  - or
  - (iv) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the creative work and/or thesis is not yet of Doctor of Fine Arts standard. The creative work and/or thesis will require either further research, reworking of specific areas, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required Doctor of Fine Arts standard. The candidate will be permitted to resubmit, normally within a 12 month period.
  - or
  - (v) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree. This recommendation is made when an examiner is of the opinion that the creative work and/or thesis has substantive flaws incompatible with the requirements of a Doctor of Fine Arts.
  - or
  - (vi) not to award the degree.
- d As suppliers of evaluative material in terms of the Privacy Act 1993, all examiners will be informed that the information and reports they supply as such will be held in confidence to the candidate, supervisors and to persons involved in the formal examination process. Candidates’ preparation for thesis revision should be assisted by knowing what the examiners have said about their thesis. Examiners’ reports will normally be released initially to those involved in the examination process, other than the candidate. Part 1 of the report, the recommendation, will not be released to the candidate but, if the Examination Committee recommends that the candidate proceed to oral or that the candidate revise and resubmit the work prior to an oral, and the Board of Graduate Studies accepts that recommendation, then the School of Graduate Studies will release the examiners’ evaluations (Part 2 of the report) to the candidate. The author of each report will not be identified. Part 2 of the report will also be released for the purposes of judging the Vice-Chancellors Prize for Best Doctoral Thesis for those candidates who have been nominated.
- e The Board of Graduate Studies (through the Dean of Graduate Studies) reserves the right to remove from an examiner’s report made available to the candidate any material that it considers should not be released.
- f **Replacement of Examiners**  
If a report has not been received within two months, the School of Graduate Studies will send a reminder to the examiner and advise that unless the report is received within two further months the appointment of the examiner will be terminated. If the report has not been received within two months of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.
- The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.
- g **Consideration of Examiners’ Reports**  
The Examination Committee will consider the examination reports in accordance with Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016.

**h Recommendation of the Examination Committee**

The Examination Committee will then make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016 and which recommends one of the following:

- (i) to appoint one or more further independent examiners to report on any areas of conflict  
*or*
- (ii) to proceed to the oral examination  
*or*
- (iii) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only  
*or*
- (iv) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree  
*or*
- (v) not to award the degree.

**i Further Examiners**

In the event that the examiners' reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners to report on any matters it may specify. In this event, the candidate will be kept informed, and Regulations 13b to 13e will apply for the reports of the further examiners. Such examiners will be provided with the recording or documentation of the creative work and a copy of the thesis.

**j Oral Examination**

In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

**k Recommendation of the Oral Examination**

On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of School Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations:

*either*

- (i) to award the degree  
*or*
- (ii) to award the degree after specified "minor corrections" (see Regulation 13c(ii)) have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), and by a specified date

*or*

- (iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School), by a specified date. When the Head of School acts as the Oral Examiner's nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School may discuss the revisions with the Head of School Nominee on the Examination Committee and/or the main supervisor. If the Head of School is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis must be assessed by the Oral Examiner

*or*

- (b) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Examiner or Examiners by a specified date

*or*

- (iv) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 13h(iii). This recommendation is made when an examiner concludes that the creative work and/or thesis is not yet of Doctor of Fine Arts standard. The creative work and/or thesis will require either further research, reworking of specific areas, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required Doctor of Fine Arts standard. The candidate will be permitted to resubmit, normally within a 12 month period.

*or*

- (v) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

*or*

- (vi) not to award the degree. In the case of recommendations 13k(iii) and 13k(iv), the report must also state clearly the nature of the revisions recommended.

**l When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies.**

m When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

**n Revision and Resubmission**

In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the creative work and/or thesis prior to an oral examination, Regulations 12j(i-v) of these regulations will apply

and

- (i) upon resubmission, the revised creative work and/or thesis is to be examined as a whole by the same examiners in accordance with the provisions of this Regulation 13, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis, the Board of Graduate Studies will appoint alternative examiner/s
- (ii) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports and the original examiners' reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 13f. Following consideration of all examiners' reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 13f. The Examination Committee may recommend the appointment of one or more further independent examiners to report on any areas of conflict, and the Board of Graduate Studies may appoint a further examiner in accordance with Regulation 13h of these regulations. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners' evaluations of the revised thesis (Part 2 of the report) to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:
  - (a) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree
  - or
  - (b) not to award the degree.

o In the event that the Board of Graduate Studies requires that a candidate revise and resubmit the creative work and/or thesis after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date of the oral examination. In such cases, the following provisions apply:

- (i) the School of Graduate Studies will inform the candidate of the decision and send a copy of the oral examination report to the Examination Committee
- (ii) within two weeks of the notification from the School of Graduate Studies, the Examination Committee will meet with the candidate and discuss the revisions required
- (iii) the Chair of the Examination Committee will send a written report of the meeting with the candidate to the School of Graduate Studies
- (iv) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission
- (v) upon resubmission, the revised creative work and/or thesis is to be examined as a whole by the same examiners in accordance with the provisions of this Regulation 13, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the creative work and/or thesis, the Board of Graduate Studies will appoint alternative examiner/s
- (vi) where no amendments to the thesis were required, the examiners shall be provided with a copy of the original thesis for reference purposes but shall not re-examine it
- (vii) where the creative work was not required to be revised and resubmitted, the examiners shall be provided with a copy of the creative work for reference purposes but shall not re-examine it
- (viii) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports, the original examiners' reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 13f. Following consideration of all examiners' reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 13f. The Examination Committee report must recommend one of the following:
  - (a) to appoint one or more further examiners in accordance with Regulation 13h of these regulations to report on any areas of conflict
  - or

(b) to proceed to a second oral examination. In which case Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply

or

(c) to award the degree

or

(d) to award the degree after specified “minor corrections” have been made to the thesis to the satisfaction of the Examiner or nominee (who may be the Main Supervisor), by a specified date

or

(e) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

or

(f) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations of the revised thesis (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

**p Final Decision**

After considering all of the reports of the examiners and the Examination Committee, the Board of Graduate Studies will make the final decision as to the award of the degree.

**q Copies for Deposit**

(i) On successful completion of the examination, candidates will be required to deposit two archival records in a standard retrievable form of the examined creative work, and two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, with the School of Graduate Studies. The degree will not be conferred until the candidate has complied with this requirement.

(ii) When two hardbound copies and a digital copy of the Doctor of Fine Arts thesis are deposited, these must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.

r (i) The digital thesis and recording of the examined creative work deposited shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

(ii) A recording of the examined creative work and a thesis which are deposited in digital form will be accessible through the University’s digital repository, unless embargoed under Regulation 25 of the Examination Regulations.

## Variations

14 In exceptional circumstances the Board of Graduate Studies may approve a personal programme that does not conform to these regulations.

## Appeals

15 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

## Dispute Resolution Procedures

16 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

## Transitional Arrangements

17 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Fine Arts were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of this statute to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

## The Degree of Doctor of Music – DMus

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including Academic Statutes and Regulations.*

### Preamble

1 a A candidate for the degree of Doctor of Music is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

b It is expected that this programme will normally be completed within four years of full-time candidature but

in no fewer than three years of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.

- c The Degree of Doctor of Music is awarded for the successful pursuit of a coherent programme of advanced composition that is supported by a written thesis and carried out over the period of registration for the Degree. Upon completion of the programme, candidates must submit a portfolio which, in the opinion of the examiners and the Board of Graduate Studies, satisfies both the following criteria:
  - (i) the consistent demonstration of compositional skills (the composition component) at the highest professional levels, meeting internationally recognised standards for such work
  - and
  - (ii) the provision of written material (the thesis) that demonstrates a knowledge of the artistic practices and literature relevant to the works contained in the composition component and an ability to articulate critical and analytical judgement relating to them.
- d The thesis may not, without the prior permission of the Board of Graduate Studies, exceed 20,000 words in total.
- e All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

### Eligibility

- 2 A candidate for the Degree of Doctor of Music is required to have:
  - a completed the requirements for the Degree of Master of Music at the University of Auckland with First Class Honours or Second Class Honours First Division, or completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to the Degree of Master of Music with First Class Honours or Second Class Honours (First Division) at the University of Auckland
  - and
  - b demonstrated, to the satisfaction of the Head of School of Music, in consultation with appropriate Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in music composition and research.

### Admission Essential

- 3 Every candidate for the Degree of Doctor of Music must have applied for admission and have been admitted to the University of Auckland.

### Duration and Total Points Value

- 4 A candidate enrolled for this degree must complete the requirements for this degree, with a total value of 360 points, within not fewer than three full-time years and not more than four full-time years (or the part-time equivalent) from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8 of these regulations.

### Registration

- 5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
- b The following provisional goals are required of all candidates:
  - (i) full proposals for both the composition component and the thesis, including a provisional title, a schedule of research, an outline of compositions yet to be written and a statement of resources required to complete the research, to be approved by the appropriate postgraduate committee
  - (ii) substantial items of compositional and written material, such as a major section from a composed work and a literature review, completed to the satisfaction of the main supervisor
  - (iii) presentation by the student of the proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the supervisors
  - (iv) ethics approval/s and/or permissions obtained for the research (if required)
  - (v) completion of the standard doctoral milestone goals relating to induction, English language and academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration
  - (vi) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities
  - (vii) enrolment in and satisfactory passing of one or more courses as determined by the postgraduate committee.
- c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

## Structure and Content

- 6 a A candidate for this degree must pass MUS 894 Composition.
- b A candidate is to submit for examination a collection of original and substantial musical works of at least sixty minutes' duration (the composition component), consisting of at least three significant items, each of which may be within any of the following classes:
  - (i) orchestral work
  - (ii) work using vocal, keyboard or ensemble resources
  - (iii) music theatre
  - (iv) sonic arts.
- c Sonic arts may be included in work within classes (i), (ii) or (iii) listed in Regulation 6b.
- d A candidate is also to submit for examination a thesis which may address a single research topic or more than one related research topics or provide detailed analytical commentary on the compositions submitted, and which will be linked to the composition component in such a way that the candidate's creative and aesthetic ideals are clearly articulated.

## Reviews of Registration

- 7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named Doctorates.

## Changes to the Conditions of Registration

- 8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

## Enrolment and Fees

- 9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

## Submission

- 10 a **Copies of Portfolio**  
All candidates are initially required to submit one copy of a portfolio in temporary binding and one electronic copy in pdf format to the School of Graduate Studies. The portfolio consists of the composition component and the thesis, which are to be supplemented by three copies of any accompanying audio or audiovisual files, or those involving other media. Copies should include the following statement to examiners on the first page: "This portfolio is for examination purposes only and is confidential to the examination process."
- b **Time for Submission**  
Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the portfolio in no fewer than three and no more than four years from the Date of Registration if they are full-time students, or no fewer than six and no more than eight years in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.
- c **Notification of Submission**  
Three months prior to the expected date of submission, candidates should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the portfolio on the grounds of conflict of interest, then the candidate may also submit at this time the name of this person or persons and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.
- d **Declaration as to Originality**  
The portfolio is to be accompanied by a statutory declaration, signed by the candidate, stating:
  - (i) that the portfolio is the candidate's own work
  - (ii) that no part of the portfolio has been submitted or accepted for any other degree or diploma
  - (iii) that written permission has been obtained for any third-party copyright material reproduced in the portfolio that represents a "substantial part" of the other work
  - (iv) that the temporary-bound copy and electronic copy of the composition component and thesis are identical, and that the three copies of the accompanying files are identical.
- e **Language of Portfolio**  
The portfolio is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

## Examination

- 11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that Regulations 9f, 9g, 9l, 9o, 9r (iv-vii), 9s (iv-vii) and 9u of the Statute for the Degree of Doctor of Philosophy 2016 will not apply.

### a **Nomination of Examiners**

On notification of intention to submit under Regulation 10c, the Head of School of Music will, on the advice of the supervisor/s, nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study represented by the portfolio. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the research for or the preparation of the portfolio. Examiners will be appointed in accordance with Regulation 9d of the Statute for the Degree of Doctor of Philosophy 2016.

### b **Appointment of Examination Committee**

The Board of Graduate Studies will also appoint an Examination Committee, which will normally be composed of:

(i) the Head of School of Music

and

(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee

and

(iii) one other person ("the Head of Department Nominee"), nominated by the Head of School of Music. This person will have knowledge of the general field of the portfolio, but not necessarily of the portfolio's techniques and topics, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the research for or the preparation of the portfolio. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty must be substituted.

### c **Examiners' Reports**

Each examiner will be provided with electronic copies of the portfolio, together with accompanying audio or audiovisual files, or those involving other media, and, acting independently, is required to provide the School of Graduate Studies, within two months of receipt of the portfolio, with a written report in English on the quality of the work according to the criteria outlined at Regulation 1c. One copy of the portfolio will be provided to the Examination Committee.

- d The examiners will include with their reports one of the following recommendations:

(i) to award the degree, subject to satisfactory performance at the oral examination;

The portfolio can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing any of the material contained in the portfolio.

or

(ii) to award the degree after specified "minor corrections" have been made to the portfolio to the satisfaction of one of the examiners or a nominee (who may be the main supervisor) and by a specified date, and subject to satisfactory performance at the oral examination;

This recommendation can be made when the composition component has reached the required standard but for minor problems such as those involving notation or performance logistics and/or when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, problems connected with referencing or typographical errors. These changes can normally be made within a three-month period. When these corrections are made, the portfolio will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after specified revisions have been made to the portfolio to the satisfaction of the examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance at the oral examination;

This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantial, for example in the case of the composition component the need to reshape the structure of a piece, reconsider the use of performing media or achieve higher standards of presentation, or in the case of the thesis the need to analyse data further, rewrite chapters or sections, correct significant lapses in logic or coherence, or achieve higher standards of presentation. These changes can normally be made within a 3-6 month period.

or

(iv) to permit the candidate to revise the portfolio and resubmit it for examination on one further occasion only.

This recommendation is made when an examiner concludes that the portfolio is not yet of doctoral standard. It may require in the case of the composition component a reconsideration of structure, a higher level of understanding of performing media or greater evidence of creative control, and/or in the case of the thesis further research, rewriting of specific sections, reconceptualisation or reorganisation in order to reach the required standard. The candidate will be permitted to resubmit, normally within a twelve-month period.

or

- (v) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree.

This recommendation is made when an examiner is of the opinion that the portfolio demonstrates substantial flaws incompatible with the requirements of a DMus.

or

- (vi) not to award any degree.

#### e Replacement of Examiners

If a report has not been received within two months, the School of Graduate Studies will send a reminder to the examiner and advise them that unless the report is received within two further months the appointment of the examiner will be terminated. If the report has not been received within two months of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.

The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.

#### f Consideration of Examiners' Reports

The examiners' reports will be referred to the Examination Committee as in Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016. The Examination Committee, which will be provided with a copy of the portfolio and any accompanying audio or audiovisual material, will make a report to the Board of Graduate Studies which includes the nature and outcome of any communication with the examiner/s and/or supervisor/s made under Regulation 9k and which recommends one of the following:

- (i) to appoint one or more further independent examiners to report on any areas of conflict

or

- (ii) to proceed to the oral examination

or

- (iii) to permit the candidate to revise the portfolio and resubmit it for examination on one further occasion only

or

- (iv) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

- (v) not to award any degree.

#### g Further Examiners

In the event that the examiners' reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners, as specified in Regulation 9m of the Statute for the Degree of Doctor of Philosophy 2016, to report on any matters it may specify. Such examiners will be provided with copies of the portfolio.

#### h Oral Examination

In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

#### i Recommendation of the Oral Examination

On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations:

either

- (i) to award the degree

or

- (ii) to award the degree after specified "minor corrections" (see Regulation 11d(ii)) have been made to the portfolio, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), and by a specified date

or

- (iii) (a) to award the degree subject to revising part or parts of the portfolio, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School of Music), by a specified date. When the Head of School of Music acts as the Oral Examiner's nominee, the nature of the revisions must be such that

they can certify that compliance has been achieved. In such cases, the Head of School of Music may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the main supervisor. If the Head of School of Music is unable to assess whether the revisions have been made to the required standard, the revisions to the portfolio must be assessed by the Oral Examiner

- (b) to award the degree subject to revising part or parts of the portfolio to the satisfaction of the Examiner or Examiners by a specified date

or

- (iv) to permit the candidate to revise the portfolio, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 11f(iii)

or

- (v) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

- (vi) not to award the degree.

In the case of recommendations 11i(iii) and 11i(iv), the report must also state clearly the nature of the revisions recommended.

- j When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies. When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

**k Revision and Resubmission**

In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the portfolio prior to an oral examination, the Examination Committee will recommend

- (i) a timeframe for the resubmission

The date of resubmission of the portfolio may not be fewer than six months or more than twelve months from the date the examiners' reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, Regulations 9r(i to iii) of the Statutes for the Degree of Doctor of Philosophy Statute 2016 apply

and

- (ii) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the portfolio is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission
  - (iii) if the portfolio is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
  - (iv) upon resubmission, the portfolio is to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the portfolio, the Board of Graduate Studies will appoint alternative examiner/s.
  - (v) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports and the original examiners' reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11f. Following consideration of all examiners' reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11f. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners' reports to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulations 11h and 11i of these regulations. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:
    - (a) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree
- or
- (b) not to award the degree.

- l In the event that the Board of Graduate Studies requires the candidate to revise the portfolio after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be fewer than six months or more than twelve months from the date of the oral examination. In such cases, Regulation 9s(i-iii) of the Statute for the Degree for the Doctor of Philosophy 2016 and the following provisions apply:

- (i) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the portfolio is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission
- (ii) if the portfolio is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
- (iii) upon resubmission, the portfolio is to be examined by the same examiners in accordance with the provisions of this Clause, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable, the Board of Graduate Studies will appoint alternative examiner/s.
- (iv) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports, the original examiners' reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis.

The procedure followed by the Examination Committee will be that in Regulation 11f. Following consideration of all examiners' reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11f. The Examination Committee report must recommend one of the following:

(a) to proceed to a second oral examination (in which case Regulations 11h and i of these regulations apply)

or

(b) to award the degree

or

(c) to award the degree after specified "minor corrections" (see Regulation 11d(ii)) have been made to the portfolio to the satisfaction of the Examiner or nominee (who may be the main supervisor), by a specified date

or

(d) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

(e) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners' evaluations of the work (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

#### m Final Decision

After considering all of the reports of the examiners and Examination Committees, the Board of Graduate Studies will make the final decision as to the award of the degree.

#### n Copies for Deposit

On completion of the examination the candidate must deposit two hardbound copies of the portfolio, corrected or revised as may be required, and of any accompanying audio or audiovisual material, with the School of Graduate Studies. These must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same. The degree will not be conferred until the candidate has complied with this requirement.

### Variations

- 12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

### Appeals

- 13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

### Dispute Resolution Procedures

- 14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

### Transitional Arrangements

- 15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Music were thereby repealed.
- b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled.

## The Degree of Doctor of Musical Arts – DMA

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Preamble

- 1 a A candidate for the degree of Doctor of Musical Arts is required to pursue an approved programme of advanced study and research as an enrolled student of the University.
- b It is expected that this programme will normally be completed in no fewer than 33 months and no more than 36 months of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.
- c The Degree of Doctor of Musical Arts is awarded for the successful completion of a coherent programme of advanced performance work that is firmly supported by a written thesis and carried out over the period of registration for the Degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies both the following criteria:
  - (i) the consistent exhibition of performance skills at the highest professional levels, meeting internationally recognised standards for such work
  - and
  - (ii) the provision of written material (the thesis) that makes an original contribution to the field of knowledge relating to music performance, and shows an ability to articulate critical judgement and performance theory, while demonstrating a knowledge of the literature relevant to the history and performing practice of the music contained in the candidate's examinable programmes.  
The thesis may not, without the prior permission of the Board of Graduate Studies, exceed 35,000 words in total.
- d All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

### Eligibility

- 2 A candidate for the Degree of Doctor of Musical Arts is required to have:
  - a completed the requirements for the Degree of Master of Music at the University of Auckland with First Class Honours or Second Class Honours First Division, or completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to the Degree of Master of Music with First Class Honours or Second Class Honours (First Division) at the University of Auckland
  - and
  - b demonstrated, to the satisfaction of the Head of School of Music, in consultation with the School of Music Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in music performance and research.

### Admission Essential

- 3 Every candidate for the Degree of Doctor of Musical Arts must have applied for admission and have been admitted to the University of Auckland.

### Duration and Total Points Value

- 4 A candidate enrolled for this degree must normally follow a programme of 36 full-time months (or the part-time equivalent) and pass an approved three-part programme of advanced study in music performance and research with a total value of 360 points.

### Registration

- 5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
- b The following provisional goals are required of all candidates:
  - (i) full proposals for both the thesis and future recitals, including a provisional title, a schedule of research, an outline of repertoire and a statement of resources required to complete the research, to be approved by the appropriate postgraduate committee
  - (ii) a substantial piece of written work, such as a literature review, completed to the satisfaction of the main supervisor
  - (iii) presentation of a minimum of one and maximum of two recitals
  - (iv) presentation by the student of the proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the supervisors
  - (v) ethics approval/s and/or permissions obtained for the research (if required)
  - (vi) completion of the standard doctoral milestone goals relating to induction, English language and

- academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration
- (vii) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities
- (viii) enrolment in and satisfactory passing of one or more courses as determined by the postgraduate committee.
- c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

### Reviews of Registration

- 6 a Reviews of progress and continuation of registration will be made according to Regulation 3 of the General Regulations for Named Doctorates.
- b During provisional registration, a candidate must achieve the provisional goals specified by the Board of Graduate Studies, and successfully complete the requirements for Part I of the degree as specified in Regulation 9 of these regulations.
- c Annual reviews of progress and continuation of registration beyond the period of provisional registration will be made in accordance with Regulation 3d of the General Regulations for Named Doctorates and in relation to Regulation 9 of these regulations below as well as progress on the thesis.

### Changes to the Conditions of Registration

- 7 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

### Enrolment and Fees

- 8 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

### Structure and Content

- 9 a During the period of Registration a candidate will undertake a three-part programme of academic and practical research in performance, repertoire and pedagogy relating to the candidate's instrument or performance medium, and present a total of five public recitals each of approximately 90 minutes' duration, including, in Part III, the Final Recital.
- b The candidate's recitals must provide a balanced programme comprising solo and ensemble repertoire which must include music of historical significance, recognised virtuoso pieces and works of a demanding contemporary nature. For each recital the candidate must provide substantial programme notes of a professional standard. In every case except for the Final Recital, the candidate's proposed programme and programme notes are to be approved by the performance supervisor and the Head of School of Music at least three months before the recital date. The proposed programme for the Final Recital must be included in the candidate's Annual Report at the end of Part II. The proposed Final Recital programme may be changed with the approval of the performance supervisor and the Head of School of Music at least six months before the recital date.

#### Part I

- c During Part I of the degree the candidate will:
  - (i) present a minimum of one and a maximum of two recitals, as prescribed in Regulations 9a, b and f
  - and
  - (ii) provide full proposals and a substantial example of written work
  - and
  - (iii) give a seminar on the thesis research, in consultation with the appropriate supervisor or supervisors.

#### Part II

- d During Part II of the degree the candidate will continue to undertake supervised research in performance, and on the approved thesis topic. To complete Part II, the candidate must present:
  - (i) a minimum of two and a maximum of three recitals, so that a total of four recitals has been presented for Parts I and II together
  - and
  - (ii) a seminar on the thesis research, in consultation with the appropriate supervisor or supervisors.

#### Part III

- e During Part III of the degree the candidate will complete and submit the thesis, and will present a further seminar and a Final Recital, with a programme that is linked to the thesis topic in such a way that the

candidate's theoretical and aesthetic ideals are clearly articulated through both the musical performance and the written submission.

### Recitals

- f All recitals except the Final Recital will be assessed by panels appointed by the Head of School of Music, to whom a report on each recital should be sent. The panels will consist of an internal examiner, an external examiner of international expertise and distinction and the Head of School of Music or nominee, who will act as moderator. Each of the first four recitals must be judged satisfactory in order for the student to progress to the next.

Recitals judged unsatisfactory will be treated as follows:

- (i) the recital should normally be retaken within two months. If circumstances do not allow this, an application may be made to the Head of School of Music for a further month in which to present the recital
- (ii) the original programme must normally be offered again in its entirety. Any alteration of the programme must be approved, in advance, by the Head of School of Music
- (iii) the same examining panel, where possible, will judge the retaken recital. If either examiner or the Head of School of Music nominee should become unavailable, the Head of School of Music will appoint a replacement.

Recitals may only be retaken once; if a retaken recital is judged to be unsatisfactory, the Head of School of Music will recommend to the Board of Graduate Studies that registration in the degree be terminated.

### Submission

#### 10 a Copies of Thesis

All candidates are initially required to submit to the School of Graduate Studies one copy of the thesis in temporary binding and one electronic copy in pdf format. Copies should include the following statement to examiners on the first page:

"This thesis is for examination purposes only and is confidential to the examination process".

#### b Time for Submission

Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the thesis and undertake the final recital in no fewer than 33 months and no more than 36 months from the Date of Registration if they are full-time students, or no fewer than 66 months and no more than 72 months in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.

#### c Notification of Submission

Three months prior to the date of the Final Recital, which should normally be undertaken on or before the maximum submission date, a candidate must notify the School of Graduate Studies in writing of their intention to submit the thesis, which must be received one month before the date of the Final Recital or maximum submission date, whichever is sooner. This notice of submission must be approved by the Head of School of Music and must include details of the programme of the Final Recital, as approved by the Head of School of Music, in accordance with Regulation 9b. If a candidate has reason to believe that any person would be unsuitable to serve as an examiner on the grounds of conflict of interest, then the candidate may also submit to the School of Graduate Studies at this time the name of this person or persons and a statement in writing as to the nature of the conflict of interest. This notice of submission must be approved by the Head of School of Music.

#### d Declaration as to Originality

One month prior to the date of the Final Recital, the candidate must submit to the School of Graduate Studies one copy of the thesis in temporary binding and one electronic copy in pdf format accompanied by a statutory declaration, signed by the candidate, stating:

- (i) that the thesis is the candidate's own work
- (ii) that no part of the thesis has been submitted or accepted for any other degree or diploma
- (iii) that the temporary-bound copy and electronic copy are identical.

#### e Language of Thesis

The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

### Examination

- 11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that Regulations 9c, 9e, 9f, 9g, 9i, 9l, 9o, 9r (iv-vii), 9s (iv-vii) and 9u of the Statute for the Degree of Doctor of Philosophy 2016 will not apply.

**a Nomination and Appointment of Examiners**

Upon request to approve a notice of submission as per Regulation 10c of these regulations, the Head of School of Music will, on the advice of the supervisor(s), nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis and creative work. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University of Auckland or have been involved in either the research for or the preparation of the thesis and recital, and will not therefore have been involved in assessment of any of the first four recitals. Examiners will be appointed in accordance with Regulation 9d of the Statute for the Degree of Doctor of Philosophy 2016. Both examiners must be able to attend the Final Recital in person and one examiner must be able to attend the Oral Examination in person.

**b Appointment of Examination Committee**

The Board of Graduate Studies will also appoint an Examination Committee, which will normally be composed of:

(i) the Head of School of Music

and

(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee

and

(iii) one other person ("the Head of Department Nominee"), nominated by the Head of School of Music. This person will have knowledge of the general field of the thesis, but not necessarily of the thesis topic, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the thesis research or the preparation of the thesis or recital. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty must be substituted.

**c Examination Process**

The final examination will take the thesis and the Final Recital into joint consideration.

d The Final Recital is to be attended by both the examiners and the Head of Department Nominee, and must be recorded in both sound and vision.

e Each examiner will be provided with a copy of the thesis, which is to be examined independently. Within one month after the date of the Final Recital, examiners are required to provide the Board of Graduate Studies with a report on both the thesis and the Final Recital according to the criteria given in Regulation 1c. The examiners will include with their reports one of the following recommendations. The examiners may also combine a recommendation of Regulation 11e(v) of these regulations with the recommendation of (ii), (iii) or (iv).

(i) to award the degree, subject to satisfactory performance at the oral examination;

The thesis and Final Recital can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the thesis.

or

(ii) to award the degree after specified "minor corrections" have been made to the thesis to the satisfaction of one of the examiners or a nominee (who may be the main supervisor) and by a specified date, and subject to satisfactory performance at the oral examination (and in the Final Recital if recommendation (v) is also selected).

This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, problems connected with referencing or typographical errors. These changes can normally be made within a three-month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after specified revisions have been made to the thesis to the satisfaction of the examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance at the oral examination (and in the Final Recital if recommendation (v) is also selected).

This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantial, for example the need to analyse data further, rewrite chapters, correct significant lapses in logic or coherence, or achieve higher standards of presentation. These changes can normally be made within a 3-6-month period.

or

(iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the thesis is not yet of doctoral standard. It will require either further research, rewriting of specific sections, reconceptualisation, and/

or reorganisation in order to reach the required standard. The candidate will be permitted to resubmit, normally within a twelve-month period.

and/or

- (v) to permit the candidate to repeat the Final Recital on one further occasion only.

This recommendation is made when an examiner concludes that Final Recital was not yet of doctoral standard. It may require a higher level of professional competence, interpretive reconceptualisation or a greater degree of musical artistry. The candidate will be permitted to offer the Final Recital again, normally within a 12-month period.

or

- (vi) not to award the degree, but refer the thesis and performance (the Final Recital) to the appropriate authority within the University for consideration of the award of another degree.

This recommendation is made when an examiner is of the opinion that the thesis and performance demonstrated substantial flaws incompatible with the requirements of a DMA.

or

- (vii) not to award any degree.

**f Replacement of Examiners**

- (i) If a report has not been received within one month, the School of Graduate Studies will send a reminder to the examiner and advise them that unless the report is received within a further month the appointment of the examiner will be terminated. If the report has not been received within one month of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.
- (ii) The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.

Any replacement examiner will be provided with a digital recording of the Final Recital, as well as with a copy of the thesis.

**g Consideration of Examiners' Reports**

The examiners' reports will be referred to the Examination Committee as in Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016. The Examination Committee, which will be provided with both a copy of the thesis and a DVD recording of the Final Recital, will make a report to the Board of Graduate Studies which includes the nature and outcome of any communication with the examiner/s and/or supervisor/s made under Regulation 9k and which recommends one of the following:

- (i) to appoint one or more further independent examiners to report on any areas of conflict

or

- (ii) to proceed to the oral examination

or

- (iii) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only

or

- (iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only and retake the Final Recital on one further occasion only

or

- (v) not to award the degree, but refer the thesis and performance (the Final Recital) to the appropriate authority within the University for consideration of the award of another degree

or

- (vi) not to award any degree

**h Further Examiners**

In the event that the examiners' reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners, as in Regulation 9m of the Statute for the Degree of Doctor of Philosophy 2016, to report on any matters it may specify. Such examiners will be provided with a copy of the recording of the Final Recital and the thesis.

**i Oral Examination**

In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

**j Recommendation of the Oral Examination**

On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations. The Examiners may also combine recommendation Regulation 11j(v) of these regulations with the recommendation of (ii), (iii) or (iv):

either

- (i) to award the degree

or

- (ii) to award the degree after specified “minor corrections” (see Regulation 11e(ii)) have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the Main Supervisor), and by a specified date, and subject to satisfactory performance in the Final Recital where recommendation (v) is also selected

or

- (iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance in the Final Recital where recommendation (v) is also selected. When the Head of School of Music acts as the Oral Examiner’s nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School of Music may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the Main Supervisor. If the Head of School of Music is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis must be assessed by the Oral Examiner

or

- (b) to award the degree subject to revising part or parts of the thesis to the satisfaction of the Examiner or Examiners by a specified date

or

- (iv) to permit the candidate to revise the thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 11g(iii) or (iv)

and/or

- (v) to permit the candidate to repeat the Final Recital on one further occasion only, but only if the candidate has not already been permitted to retake the Final Recital under Regulation 11g(iv)

or

- (vi) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

- (vii) not to award the degree.

In the case of recommendations 11j(iii) and 11j(iv), the report must also state clearly the nature of the revisions recommended.

- k When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies. When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

**l Revision and Resubmission of the Thesis/Repetition of the Final Recital**

- (i) In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the thesis, or revise the thesis and retake the Final Recital, prior to an oral examination, the Examination Committee will recommend:
  - (a) a timeframe for the resubmission of the thesis
  - (b) a timeframe for the retaking of the Final Recital, if required.
- (ii) The date of resubmission of the thesis or retaking of the Final Recital may not be fewer than six months or more than twelve months from the date the examiners’ reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, Regulations 9r(i to iii) of the Degree of Doctor of Philosophy Statute 2016 apply

and

- (iii) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted and/or the Final Recital retaken. The registration of the candidate is to continue under the conditions applying at the first date of submission
- (iv) if the thesis is not resubmitted or the Final Recital is not repeated by the prescribed date, the registration of the candidate will normally be terminated
- (v) upon resubmission of the thesis, or resubmission of the thesis and retaking of the Final Recital, the thesis, and Final Recital if retaken, are to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission or recital may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis or to attend the repeated Final Recital, the Board of Graduate Studies will appoint alternative examiner/s. In cases where a repeated Final Recital has not been required by the Board of Graduate Studies, examiners will be provided with a copy of the recording of the original.
- (vi) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11g. Following consideration of all examiners’ reports, the Examination Committee

will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11g. The Examination Committee may recommend the appointment of one or more further independent examiners to report on any areas of conflict, and the Board of Graduate Studies may appoint a further examiner where there is serious conflict between examiners' reports. Further examiners must be provided with a copy of the thesis and a recording of the Final Recital. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners' reports to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulations 11i and 11j of these regulations. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

(a) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

(b) not to award the degree.

m In the event that the Board of Graduate Studies requires the candidate to revise the thesis and/or repeat the Final Recital after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be fewer than six months or more than twelve months from the date of the oral examination. In such cases, Regulation 9s(i-iii) of the Statute of the Degree for the Doctor of Philosophy 2016 and the following provisions apply:

- (i) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted and/or the Final Recital retaken. The registration of the candidate is to continue under the conditions applying at the first date of submission
- (ii) if the thesis is not resubmitted or the Final Recital is not repeated by the prescribed date, the registration of the candidate will normally be terminated
- (iii) upon resubmission, the thesis and/or Final Recital are to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission or recital may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis or to attend the repeated Final Recital, the Board of Graduate Studies will appoint alternative examiner/s. In cases where a repeated Final Recital has not been required by the Board of Graduate Studies, examiners will be provided with a copy of the recording of the original.
- (iv) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports, the original examiners' reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis.

The procedure followed by the Examination Committee will be that in Regulation 11g. Following consideration of all examiners' reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11g. The Examination Committee report must recommend one of the following:

(a) to appoint one or more further examiners to report on any areas of conflict. Where the Board of Graduate Studies appoints a further examiner, they shall be provided with a copy of the thesis and a recording of the Final Recital as appropriate.

or

(b) to proceed to a second oral examination in cases where the thesis was revised and resubmitted (in which case Regulations 11i and 11j of these regulations apply)

or

(c) to award the degree

or

(d) to award the degree after specified minor corrections (see Regulation 11e(ii)) have been made to the thesis to the satisfaction of the Examiner or nominee (who may be the Main Supervisor), by a specified date

or

(e) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

(f) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners' evaluations of the work (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

**n Final Decision**

After considering all of the reports of the examiners and Examination Committees, the Board of Graduate Studies will make the final decision as to the award of the degree.

**o Copies for Deposit**

On completion of the examination the candidate must deposit two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, and the audio and video recordings of the Final Recital with the School of Graduate Studies. These must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same. The degree will not be conferred until this requirement has been complied with.

### Variations

- 12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

### Appeals

- 13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

### Dispute Resolution Procedures

- 14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

### Transitional Arrangements

- 15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Musical Arts were thereby repealed.
- b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled.

## REGULATIONS – EDUCATION AND SOCIAL WORK

### The Degree of Bachelor of Education (Teaching) – BEd(Tchg)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

*In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children and young persons.*

#### Admission

- 1 To be admitted to this programme a student must have demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional certification and passed the numeracy and literacy skills assessments.
- 2 Students who have a qualification gained at an overseas institution may be required to provide evidence of language proficiency.
- 3 To be admitted to the Huarahi Māori specialisation students must have passed a Te Reo Māori competency assessment and met the University Entrance Literacy requirements in Te Reo Māori or equivalent.

#### Notes:

*(i) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children's Act 2014.*

*(ii) Personal references and an interview will be required.*

- 4 Admission to this programme is at the discretion of Senate or its representative.

#### Duration and Total Points Value

- 5 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Credit Regulations.

#### Structure and Content

- 6 Of the 360 points required for this degree, a student must pass:
  - a at least 345 points from one of the specialisations listed in the Bachelor of Education (Teaching) Schedule and
  - b 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
- 7 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.

#### English Language Requirements

- 8 A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDPRAC 304 or 307 or EDPRACM 300.

#### General Education Exemptions

- 9 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
  - either*
  - (i) completed an undergraduate degree at a tertiary institution
  - or*
  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
  - or*
  - (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.
- b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses approved by the Dean of Faculty of Education and Social Work.
- c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

### Practical Requirements

- 10 a In any course that has a practicum and non-practicum component, a student must pass both the practicum and the non-practicum component in order to have passed that course as a whole.
- b Re-enrolment in any practicum course after failing that course requires the permission of the Dean or nominee.
- c At the discretion of Senate or its representative, a student who does not pass a practicum course may be declined permission to re-enrol for this degree.

### Professional Requirements

- 11 a In order to complete the requirements for this degree, a student must be able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand.
- b A student who, after enrolment, ceases to be able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean or nominee.
- c If the Dean or nominee has reason to believe that a student does not meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand the Dean or nominee shall advise the student and take into account any written response from the student.
- d If the Dean or nominee is satisfied that the student is not able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand then they will notify Senate or its representative.
- e On receipt of such advice, Senate or its representative may terminate the student's enrolment and any application to re-enrol may likewise be declined.
- f A student whose enrolment is terminated under Regulation 11e may appeal from that decision to the Council or its duly appointed delegate.

### Termination of Enrolment

- 12 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by the Dean of the Faculty of Education and Social Work and any application to re-enrol may likewise be declined.
- b A student who is subject to any such inquiry may be suspended by the Dean of Faculty of Education and Social Work from attending lectures, classes and any teaching placement pending the outcome of the inquiry.
- c A student whose enrolment is terminated under Regulation 12a may appeal from that decision to the Council or its duly appointed delegate.

### Reassignment

- 13 In exceptional circumstances, and with the approval of Senate or its representative, a student may apply to reassign Stage II or III courses passed for this degree to the Graduate Diploma in Education.

### Variations

- 14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 15 These regulations came into force on 1 January 2020. The 2006 regulations for the Degree of Bachelor of Education (Teaching) were thereby repealed.

## The Degree of Doctor of Education – EdD

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.*

### Preamble

- 1 a A candidate for the degree of Doctor of Education is required to pursue an approved programme of advanced study and research as an enrolled student of the University.
- b It is expected that this programme will usually be completed within four to six years from the date of registration.
- c The Degree of Doctor of Education is awarded for a formal and systematic exposition of a coherent programme of advanced research work carried out over the period of registration for the degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:
  - (i) is an original contribution to scholarship relating to professional practice in the field of Education  
and
  - (ii) meets internationally recognised standards for such work  
and
  - (iii) demonstrates a knowledge of the literature relevant to the subject of the thesis, and the ability to exercise critical and analytical judgement of it  
and
  - (iv) is satisfactory in its methodology, in the quality and coherence of its written expression, and in its scholarly presentation and format.
- d The thesis may not, without prior permission of the Board of Graduate Studies, exceed 100,000 words in total.
- e If the core of the thesis comprises a series of published or unpublished research papers and/or case studies, the candidate must be the lead or sole author of each paper or case study and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.
- f If the core of the thesis does not comprise a series of published or unpublished research papers and/or case studies, a candidate may still include within their thesis published or unpublished research papers and/or case studies, provided that the candidate was the lead or sole author of each paper or case study. The thesis must be presented in a consistent format, citation style and typeface.
- g In the case of published or unpublished research papers and/or case studies that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper and/or case study. The thesis must be presented in a consistent format, citation style and typeface.
- h All material which is not the original work of the author of the thesis must:
  - (i) be fully and appropriately attributed  
or
  - (ii) if a substantial part of another work, only be reproduced with the written permission of the copyright owner of the other work.

- i All research for the thesis is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

### Eligibility

- 2 A candidate for the Degree of Doctor of Education is required to have:
  - a (i) completed the requirements for the award of either the Degree of Master of Education or the Degree of Master of Arts in Education with First Class or Second Class (First Division) Honours at the University of Auckland
  - or
  - (ii) completed the requirements for the award of either the Degree of Bachelor of Education (Teaching) (Honours) or the Degree of Bachelor of Arts (Honours) in Education with First Class or Second Class (First Division) Honours at the University of Auckland
  - or
  - (iii) completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to one of the prerequisite qualifications specified in Regulations 2a(i) and (ii)
- and
- b demonstrated an ability to pursue doctoral level research in the field of Education as typically indicated by the assessment of the equivalent of 30 points or more of independent research work
- and
- c had at least two years' professional experience in education or in another professional area considered comparable by the Board of Graduate Studies.

### Admission

- 3 Every candidate for the Degree of Doctor of Education must have applied for admission and been admitted to the University of Auckland.

### Duration and Total Points Value

- 4 a A candidate enrolled for this degree must follow an approved two-part programme with a total value of 360 points.
- b Candidates must complete the requirements for Part I within two successive part-time years, unless permitted additional time by the Board of Graduate Studies under Regulation 8.
- c After completing Part I candidates must complete the requirements for Part II within two full-time or four part-time years, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8.

### Registration

- 5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
- b The following provisional goals are required of all candidates for this degree:
  - (i) completion of EDPROFST 844 Research Portfolio
  - (ii) completion of a literature review to the satisfaction of the main supervisor
  - (iii) approval of a full thesis proposal by the appropriate postgraduate committee
  - (iv) presentation of the proposal and/or work in progress to an appropriate forum
  - (v) completion of the standard doctoral milestone goals relating to induction, English language, academic integrity and health and safety prescribed by the Board of Graduate Studies upon commencement of the registration.
- c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

### Structure and Content

- 6 a A candidate enrolled for this degree must pass Parts I and II as follows:
  - (i) Part I: 120 points from EDPROFST 844 Research Portfolio
  - (ii) Part II: 240 points from EDPROFST 897 Thesis.
- b A candidate must complete the requirements of Part I to the satisfaction of the supervisor and external examiner before commencing Part II.

### Reviews of Registration

- 7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named Doctorates.

### Changes to the Conditions of Registration

- 8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

### Enrolment and Fees

- 9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

### Submissions

- 10 The submission process will follow that of Regulation 8 of the Statute for the Degree of Doctor of Philosophy 2016.

### Examinations

- 11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that:
- a examiners will be requested to assess the thesis according to the criteria of Regulation 1(c) of these regulations and
  - b the Board of Graduate Studies will normally appoint the Doctor of Education Adviser as the Head of Department nominee on the Examination Committee (and who will participate in the Oral Examination), as described in the Degree of Doctor of Philosophy Statute, for all Doctor of Education examinations.

### Variations

- 12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform with these regulations.

### Appeals

- 13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

### Dispute Resolution Procedures

- 14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

### Transitional Arrangements

- 15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Education were thereby repealed.
- b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of this statute to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

## REGULATIONS – ENGINEERING

---

### The Degree of Bachelor of Engineering – BE

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Degree Requirements

- 1 Students who enrol for the degree of Bachelor of Engineering (Honours) may be awarded the degree of Bachelor of Engineering if, having passed all courses and completed all other requirements for a BE(Hons), their performance in the courses is deemed by the Dean of Engineering to be not of Honours standard.

*Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.*

---

### The Degree of Bachelor of Engineering (Honours) – BE(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Duration and Total Points Value

- 1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

#### Structure and Content

- 2 A student must pass 480 points from the Bachelor of Engineering (Honours) Schedule including:
  - a 120 points: Part I as listed in the Bachelor of Engineering (Honours) Schedule including 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*  
and
  - b 360 points from Parts II, III and IV for one of the areas of specialisation listed in the Bachelor of Engineering (Honours) Schedule.
- 3
  - a A student will not normally be permitted to enrol for Part II unless Part I has been completed, or to enrol for Part III unless Part II has been completed, or to enrol for Part IV unless Part III has been completed.
  - b However, a student who has failed to pass one of those Parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.
  - c Only in exceptional circumstances will a student be permitted to enrol for Part III unless Part I has been completed, or to enrol for Part IV unless Part II has been completed.
- 4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

#### General Education Exemptions

- 5 A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
  - either
  - a completed an undergraduate degree at a tertiary institution
  - or
  - b commenced study for this degree at a tertiary institution before 1 January 2006
  - or
  - c been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution
  - or
  - d been admitted to this degree with credit from another tertiary institution for the entire Part I of this degree.
- 6 A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses offered at this University.
- 7 A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

## Conjoint Degrees

- 8 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

## Practical Requirements

- 9 a A student enrolled for this degree must carry out satisfactorily such practical work in ENGGEN 299 and ENGGEN 499, field trips and laboratory requirements, as prescribed by the Faculty of Engineering.
- b A student will not be considered to have completed the requirements for this degree unless Academic Services has received from the Dean of Faculty of Engineering confirmation that the student has complied with the requirements of Regulation 9a.

## English Language Requirements

- 10 a A student enrolled for this degree must demonstrate competence in the English language, in ENGGEN 199, as prescribed by the Faculty of Engineering.
- b A student will not be considered to have completed the requirements for this degree unless Academic Services has received from the Dean of Faculty of Engineering confirmation that the student has complied with the requirements of Regulation 10a.

## Honours

- 11 The Bachelor of Engineering (Honours) may be awarded with First Class Honours or with Second Class Honours in either First Division or Second Division. The class of honours shall be determined by the student's weighted average grade over Parts II, III and IV. Students who have passed all courses and completed all other requirements for a BE(Hons) but whose performance in the courses is deemed by the Dean of Engineering to be not of Honours standard will be awarded the degree of Bachelor of Engineering.

## Variations

- 12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

## Commencement

- 13 These regulations came into force on 1 January 2008. The 2000 regulations for the Degree of Bachelor of Engineering were thereby repealed.

- up to 30 points from COMPSYS 302, ELECTENG 305, 331, 332, SOFTENG 325, 350, 364, up to 15 points from other courses not below 300 level approved by the Head of Department

#### Part IV

- 60 points: COMPSYS 700, 770, ENGGEN 403, 499
- at least 15 points from COMPSYS 701, 723, 726
- at least 15 points from COMPSYS 704, 705, 725
- up to 30 points from COMPSYS 710–715, 721, 722, 727, ELECTENG 704, 706, 722, 726, 732–734, SOFTENG 701, 751, 761, up to 15 points from other 700 level courses approved by the Head of Department

## Electrical and Electronic Engineering

### Requirement:

#### Part II

- 105 points: COMPSYS 201, ELECTENG 204, 209, 291, ENGGEN 204, 299, ENGSCI 211, SOFTENG 281
- 15 points from ELECTENG 292, SOFTENG 283, 284

#### Part III

- 60 points: ELECTENG 310, 311, ENGGEN 303, ENGSCI 313
- at least 30 points from ELECTENG 305, 309, 331, 332
- up to 30 points from COMPSYS 302–306, ELECTENG 307, SOFTENG 325, 350, 364, other courses above Stage II approved by the Head of Department

#### Part IV

- 60 points: ELECTENG 700, 770, ENGGEN 403, 499
- 60 points from COMPSYS 723–727, ELECTENG 701, 703, 704, 706, 721, 722, 724, 726, 731–736, 738, SOFTENG 753, other 700 level courses approved by the Head of Department

## Engineering Science

### Requirement:

#### Part II

- 90 points: BIOMENG 221, ENGGEN 204, 299, ENGSCI 211, 233, 255, 263
- 30 points from BIOMENG 241, COMPSYS 225, COMPSYS 202, MECHENG 211, STATS 210, other approved courses above Stage I offered at this University

#### Part III

- 90 points: ENGGEN 303, ENGSCI 314, 331, 343, 363, 391
- 30 points from BIOMENG 341, ENGSCI 309, 344, 355, up to 15 points from other approved courses above Stage II offered at this University

#### Part IV

- 60 points: ENGGEN 403, 499, ENGSCI 700, 733
- 60 points from BIOMENG 771, ENGSCI 701, 711, 712, 721, 740–742, 745, 753, 755, 760–763, 768, GEOTHERM 785, MECHENG 711, 712, 743, up to 30 points from other approved 700 level courses offered at this University

## Mechanical Engineering

### Requirement:

#### Part II

- 105 points: ENGGEN 204, 299, ENGSCI 211, MECHENG 211, 222, 235, 236, 242

- 15 points from MECHENG 201 or another course approved by the Head of Department

#### Part III

- 120 points: ENGGEN 303, ENGSCI 311, MECHENG 311, 322, 325, 334, 340, 352

#### Part IV

- 60 points: ENGGEN 403, ENGGEN 499, MECHENG 700, 731
- 60 points from ENGGEN 705, MECHENG 707, 708, 712, 713, 715, 722, 724, 726, 743, 747, 752, other 700 level courses approved by the Head of Department

## Mechatronics Engineering

### Requirement:

#### Part II

- 105 points: ENGGEN 204, 299, ENGSCI 211, MECHENG 211, 222, 235, 242, 270
- 15 points: MECHENG 201 or another course approved by the Head of Department

#### Part III

- 120 points: ENGGEN 303, ENGSCI 311, MECHENG 312, 313, 322, 325, 370, 371

#### Part IV

- 75 points: ENGGEN 403, 499, MECHENG 700, 705, 706
- 45 points from COMPSYS 726, ENGGEN 705, MECHENG 709, 712, 715, 722, 724, 726, 735, 736, 743, 747, 752, other 700 level courses approved by the Head of Department

## Software Engineering

### Requirement:

#### Part II

- 90 points: COMPSYS 201, ENGGEN 204, 299, ENGSCI 211, SOFTENG 206, 281, 283
- 15 points from ELECTENG 291, SOFTENG 282
- 15 points from ELECTENG 204, 292, SOFTENG 284

#### Part III

- 60 points: ENGGEN 303, SOFTENG 306, 325, 350
- at least 15 points from SOFTENG 310, 351
- at least 15 points from SOFTENG 364, 370
- up to 30 points from COMPSYS 367, 373, COMPSYS 303–306, ELECTENG 305, 331, 332, ENGSCI 313, other courses above Stage II approved by the Head of Department

#### Part IV

- 60 points: ENGGEN 403, 499, SOFTENG 700, 770
- 60 points from COMPSYS 705, 723, 726, ELECTENG 733, ENGSCI 760, SOFTENG 701, 702, 710, 711, 750–754, 761, 762, up to 30 points from other 700 level courses approved by the Head of Department

## Structural Engineering

### Requirement:

#### Part II

- 120 points: CIVIL 200, 202, 203, ENGGEN 204, 299, ENVENG 200, ENGSCI 211, STRCTENG 200, 201

#### Part III

- 105 points: CIVIL 300, ENGGEN 303, ENGSCI 311, STRCTENG 300–303
- 15 points from CIVIL 301–303, 305, another approved Stage III course offered at this University

#### Part IV

- 105 points: CIVIL 705, 756, 790, ENGGEN 403, 499, STRCTENG 700, 701
- 15 points from CIVIL 700, 722, 726, 729, 731, 733, 735, 736, 741, 750, 782, 791 ENVENG 701, 740, 747, an approved 700 level course offered at this University

## The Degree of Master of Earthquake Engineering – MEqEng

*The regulations for this degree are to be read in conjunction with all other relevant regulations including the Academic Statutes and Regulations.*

### Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for:

either

- a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

or

- (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative

and

- (b) passed 60 points in the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering from this University relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded

or

- (iii) (a) a relevant Bachelors degree from this University, as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

and

- (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering

or

- (iv) (a) a relevant Bachelors degree as approved by Senate or its representative

and

- (b) the Postgraduate Diploma in Engineering from this University with at least 60 points of courses relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or

- b (i) a relevant Bachelors degree from this University as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

or

- (ii) (a) a relevant Bachelors degree as approved by Senate or its representative

and

- (b) passed 60 points in the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering from this University relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded.

*Note: Whether a degree is considered relevant will depend on the courses taken in that degree. Degrees in Architecture, Civil Engineering or Science for example, may be considered relevant.*

- 2 In exceptional circumstances Senate or its representative may approve the admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

### Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

- a pass courses with a total value of 120 points

and

- b complete within the time limit specified in the General Regulations – Masters Degrees

and

- c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:

- a pass courses with a total value of 180 points

and

- b complete within the time limit specified in the General Regulations – Masters Degrees

and

- c not exceed 220 points for the total enrolment for this degree.

### Structure and Content

- 5 A student enrolled for this degree must complete the requirements as listed in the Master of Earthquake Engineering Schedule.
- 6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by Senate or its representative.
- 7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 4.5 or higher in the first 30 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Earthquake Engineering cannot continue.
- 8 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Earthquake Engineering cannot continue.
- 9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Reassignment

- 10 A student may apply to reassign courses passed for the Master of Earthquake Engineering to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Earthquake Engineering.

### Thesis / Research Project

- 11 a A thesis or research project, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
- b The topic of the thesis or research project must be approved by the Head of Department prior to enrolment.
- c The thesis or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

### Transfer from Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering

- 12 A student who has passed courses towards the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering, or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

### Variations

- 13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Honours / Distinction / Merit

- 14 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

### Commencement

- 15 These regulations came into force on 1 January 2019.

and  
(b) the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher or its equivalent
    - or
    - (iii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses  
and  
(b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering
    - or
    - (iv) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative  
and  
(b) the Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher or its equivalent
    - or
    - b (i) the requirements for a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses
    - or
    - (ii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative  
and  
(b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

*Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.*

- 2 Students must have completed courses relevant to the specialisation in which they intend to enrol, and passed any prerequisite courses prior to enrolment in this programme.
- 3 A student wishing to enrol in courses listed in a specialisation in the Master of Engineering Studies Schedule as part of this programme must satisfy any prerequisites specified for that specialisation.
- 4 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or equivalent professional experience in the engineering profession.

### Duration and Total Points Value

- 5 A student admitted to this degree under Regulation 1a must:
  - a pass courses with a total value of 120 points  
and
  - b complete within the time limit specified in the General Regulations – Masters Degrees.
- 6 A student admitted to this degree under Regulation 1b must:
  - a pass courses with a total value of 180 points  
and
  - b complete within the time limit specified in the General Regulations – Masters Degrees  
and
  - c not exceed 220 points for the total enrolment for this degree.

### Structure and Content

- 7 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Engineering Schedule.
- 8 A student enrolled for this degree who has already passed any course the same or similar to those required for this degree, must substitute an alternative course approved by the appropriate Head of Department.
- 9 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in at least 30 points of taught courses taken for this degree by the end of the first semester of their enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering cannot continue.
- 10 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this degree and have completed all taught courses by the end of their second semester of enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering cannot continue.
- 11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Reassignment

- 12 A student may apply to reassign courses passed for this degree to the Master of Engineering Studies, Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering.

### Thesis

- 13
  - a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
  - b The thesis is to embody the results obtained by the student in an investigation on a topic approved by the Head of Department prior to enrolment.
  - c The investigation is to be carried out by the student at the University under the direct supervision of a member of the academic staff, provided that:
    - (i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as Senate or its representative may determine
    - (ii) field work may be carried out at such places and for such periods as Senate or its representative may determine.
  - d At the discretion of the Head of Department the candidate may be required to attend an oral examination.
  - e The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

### Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering

- 14 A student who has passed courses towards a Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available for a specialisation in this degree and is eligible to be admitted to this programme, may apply to reassign those courses to the Master of Engineering for that specialisation provided that the postgraduate certificate or postgraduate diploma has not been awarded.

### Variations

- 15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Honours

- 16 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

### Commencement

- 17 These regulations came into force on 1 January 2018. The 2014 regulations for the Degree of Master of Engineering were thereby repealed.

b (i) the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage II, or the equivalent as approved by Senate or its representative

and

(ii) at least two years of relevant professional experience approved by the Dean of Faculty of Engineering.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has:

a attained extensive, practical, professional or scholarly experience in the engineering profession deemed equivalent to the requirement in Regulation 1

and

b performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

*Note: A relevant qualification may include Applied Science, Architecture, Commerce, Construction, Information Technology, Science and Technology.*

### Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees.

and

c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 220 points for the total enrolment for this degree.

### Structure and Content

5 Students must achieve a Grade Point Average of 4.0 or higher in 30 points of taught courses taken for this degree by the end of the first semester of their enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Project Management cannot continue.

6 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this degree and have completed their first 60 points of taught courses by the end of their second semester of enrolment. If this is not achieved, enrolment in the Master of Engineering Project Management cannot continue.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Variations

8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Honours

9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

### Reassignment

10 A student who has not met the requirement in Regulation 5 or 6 may apply to reassign courses passed for this degree to the Postgraduate Certificate in Engineering Project Management.

### Commencement

11 These regulations came into force on 1 January 2018.

### Master of Engineering Project Management (MEPM) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<b>Taught Masters Requirement:</b> <ul style="list-style-type: none"> <li>• 60 points: CIVIL 703, ENGGEN 730, 731, 736</li> <li>• 30 points from CIVIL 704, 708, 709, 716, ENGGEN 705, 732–735,</li> </ul>	ENGSCI 755, MECHENG 752, other approved 600 and 700 level courses in the Faculty of Engineering <ul style="list-style-type: none"> <li>• 30 points: ENGGEN 792 or 794 Research Project</li> </ul>

## The Degree of Master of Engineering Studies – MEngSt

*The regulations for this degree are to be read in conjunction with all other relevant regulations including the Academic Statutes and Regulations.*

### Admission

1 In order to be admitted to this programme, a student needs to have completed:

either

a (i) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher in 120 points above Stage III or its equivalent

or

(ii) (a) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative  
and

(b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering Studies with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded

or

(iii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent, in 120 points in the most advanced courses  
and

(b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering

or

(iv) (a) the requirements for a relevant Bachelors degree as approved by Senate or its representative  
and

(b) the Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent

or

(v) a Bachelors degree of at least four years duration equivalent to 1a(iv) with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

or

b (i) the requirements for a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent, in 120 points in the most advanced courses

or

(ii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative  
and

(b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering Studies with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

*Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.*

2 For entry to a specialisation in this programme, students must have completed courses relevant to the

specialisation, passed any prerequisite courses prior to enrolment in this programme and satisfied any prerequisites specified for the specialisation in the Master of Engineering Studies Schedule.

- 3 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

### **Duration and Total Points Value**

- 4 A student admitted to this degree under Regulation 1a must:
  - a pass courses with a total value of 120 points  
and
  - b complete within the time limit specified in the General Regulations – Masters Degrees  
and
  - c not exceed 160 points for the total enrolment for this degree.
- 5 A student admitted to this degree under Regulation 1b must:
  - a pass courses with a total value of 180 points  
and
  - b complete within the time limit specified in the General Regulations – Masters Degrees  
and
  - c not exceed 220 points for the total enrolment for this degree.

### **Structure and Content**

- 6 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Studies Schedule.
- 7 If these requirements include courses the same as, or similar to, those already passed by a student, alternative courses must be substituted as approved by the appropriate Head of Department.
- 8 This degree will be conferred with an endorsement as to the chosen area of specialisation.
- 9 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 3.5 or higher in the first 30 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Studies cannot continue.
- 10 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Studies cannot continue.
- 11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### **Reassignment**

- 12 A student may apply to reassign courses passed to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering.

### **Thesis / Research Portfolio / Dissertation / Research Project**

- 13 a A thesis, research portfolio, research project, or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
- b The topic of a thesis, dissertation or research project and the elements of a research portfolio must be approved by the Head of Department prior to enrolment.
- c At the discretion of the Head of Department, a thesis, dissertation, research project or research portfolio candidate may be required to attend an oral examination.
- d The thesis, research portfolio, research project or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

### **Transfer from Postgraduate Certificate in Light Metals Reduction Technology**

- 14 A student who has passed courses towards a Postgraduate Certificate in Light Metals Reduction Technology that are available for the Light Metals Reduction Technology specialisation may reassign those courses to this specialisation in this degree provided that the Postgraduate Certificate in Light Metals Reduction Technology has not been awarded.

### **Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering**

- 15 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available for a specialisation in this degree may apply to reassign those courses to this specialisation provided that the postgraduate certificate or postgraduate diploma has not been awarded.

## Variations

- 16 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

## Honours / Distinction / Merit

- 17 This degree may be awarded with either Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

## Commencement

- 18 These regulations came into force on 1 January 2020. The 2018 regulations for the Degree of Master of Engineering Studies were thereby repealed.

### Master of Engineering Studies (MEngSt) Schedule

---

A student who has to complete 120 points must satisfy the requirement for one of the following specialisations:

#### Chemical and Materials Engineering

##### Requirement:

##### Taught Masters

- at least 45 points from CHEMMAT 713, 721, 724, 752–755, 771–773, 787–789, MECHENG 742
- up to 75 points from CHEMMAT 712, 722, 756, 757, ENERGY 721, ENVSCI 711, FOODSCI 703, MECHENG 743
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Civil Engineering

##### Requirement:

##### Taught Masters

- at least 45 points from CIVIL 702, 704, 707–710, 717, 723–725, 740, 745, 763–766, 769–772, 787–789, 792, 795, but no more than 45 points from CIVIL 787–789, 795
- up to 75 points from CIVIL 701, 703, 706, 711, 713–716, 718–722, 726, 727, 730–734, 741, 742, 744, 750, 754, 758–762, 767, 768, 773–775, 782, 791, ENGGEN 734, 769
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Computer Systems Engineering

##### Requirement:

##### Taught Masters

- at least 45 points from COMPSYS 701, 704, 705, 726–729, 787–789, 795, ELECTENG 704, 706, 734, SOFTENG 701, 751, but no more than 45 points from COMPSYS 787–789, 795
- up to 75 points from COMPSYS 710, 711, 713–715, 721–725, ELECTENG 722, 726, 732, 733, SOFTENG 761
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Construction Management

##### Requirement:

##### Taught Masters

- at least 45 points from CIVIL 704, 707, 709, 765, 787–789, 795, but no more than 45 points from CIVIL 787–789, 795
- up to 75 points from CIVIL 703, 708, 716, 743, 791, 792, ENGGEN 734, ENGSCI 755, other approved 600 and 700 level courses offered at this University

#### Electrical and Electronic Engineering

##### Requirement:

##### Taught Masters

- at least 45 points from COMPSYS 726, 727, ELECTENG 704, 706, 734, 737–741, 787–789, 795, but no more than 45 points from ELECTENG 787–789, 795

- up to 75 points from ELECTENG 701, 703, 721, 722, 724, 726, 731–733, 735, 736
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Engineering Science

##### Requirement:

##### Taught Masters

- 45 points from ENGSCI 787–789, 795
- up to 75 points from BIOMENG 771, ENGSCI 711, 712, 721, 740–742, 745, 753, 760–763, 768, 772, GEOTHERM 785
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Environmental Engineering

##### Requirement:

##### Taught Masters

- at least 45 points from ENVENG 701–703, 705, 707, 746, 747, 750, 787–789, 795, but no more than 45 points from ENVENG 787–789, 795
- up to 75 points from ENVENG 706, 719, 740, 744, 752
- up to 30 points from appropriate ENVSCI 600 and 700 level courses, subject to approval by the Head of Department
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Food Engineering

##### Requirement:

##### Research Masters

- 90 points: CHEMMAT 776 or 777 Research Portfolio
- 30 points from CHEMMAT 771–773

##### Taught Masters

- at least 15 points from CHEMMAT 772, 773, 778
- up to a further 75 points from BIOSCI 741, CHEMMAT 752, 756, 757, 772, 773, 778, ENGGEN 732, 769, FOODSCI 703, 706–709, 740, or other approved 600 or 700 level courses offered at this University
- 30 points: CHEMMAT 779 Research Project

#### Food Process Engineering

*From 1 January 2020 Food Process Engineering has been renamed as Food Engineering*

#### Geotechnical Engineering

**Prerequisite:** CIVIL 324 or 728 or equivalent

##### Requirement:

##### Taught Masters

- 30 points from CIVIL 751, 752, 788, 789
- at least 15 points from CIVIL 702, 723–725

- up to 60 points from CIVIL 701, 720–722, 726, 728, 741, 754, ENGSCI 711, ENVENG 746, 752
- at least 15 points but no more than 30 points from EARTHSCI 705, 770–772

With the prior approval of the Head of Department, up to 45 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university

## Mechanical Engineering

### Requirement:

#### Taught Masters

- at least 45 points from MECHENG 711, 714, 719, 728, 742, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
- up to 75 points from ENGGEN 705, 769, MECHENG 701, 702, 712, 713, 715, 717, 722, 724, 726, 735, 736, 743, 747, 752
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

## Mechatronics Engineering

### Requirement:

#### Taught Masters

- at least 45 points from MECHENG 710, 719, 720, 728, 730, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
- up to 75 points from COMPSYS 704, 705, 723, 726, ELECTENG 706, 733, ENGGEN 705, 769, 770, MECHENG 709, 722, 724, 726, 735, 736, 752
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

## Medical Devices and Technologies

### Requirement:

#### Research Masters

- 30 points from ENGGEN 770, 771 or other approved 600 or 700 level courses
- 90 points: ENGGEN 793 Research Portfolio

#### Taught Masters

- 30 points: ENGGEN 770, 771
- 30 points from CIVIL 703, CHEMMAT 740, 741, ENGGEN 705, MECHENG 728, 730, 752, MEDSCI 703, PHYSICS 780, or other

- approved 600 or 700 level courses offered at this University
- 60 points: ENGGEN 791 Project

## Plastics

*From 1 January 2020 Plastics has been renamed as Polymer Engineering*

## Polymer Engineering

### Requirement:

#### Taught Masters

- 60 points: POLYMER 700, 704–706
- 15 points from CHEMMAT 721, 753, ENGGEN 769, MECHENG 742, 743, 751, 752, PSYCH 715, an approved 600 or 700 level course offered at this University
- 45 points: MECHENG 795 Research Project

## Software Engineering

### Requirement:

#### Taught Masters

- at least 45 points from COMPSYS 704, 705, 726, 727, SOFTENG 701, 751, 754, 755, 787–789, 795, but no more than 45 points from SOFTENG 787–789, 795
- up to 75 points from COMPSYS 711, 715, 725, 734, SOFTENG 702, 710, 711, 750, 752, 753, 761, 762
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

## Transportation Engineering

### Requirement:

#### Taught Masters

- at least 45 points from CIVIL 763–766, 769–772, 779, 787–789, but no more than 45 points from CIVIL 779, 787–789
- up to 75 points from CIVIL 758, 759, 761, 762, 767, 768, 773–775

With the prior approval of the Head of Department, up to 45 points may be replaced by other appropriate courses offered at this or another university

## Yacht Engineering

*The MEngSt in Yacht Engineering was withdrawn in 2019.*

A student who has to complete 180 points must satisfy the requirement for one of the following specialisations:

## Civil Engineering

### Requirement:

#### Taught Masters

- at least 45 points from CIVIL 702, 704, 707–710, 717, 723–725, 740, 745, 763–766, 769–772, 787–789, 792, 795, but no more than 60 points from CIVIL 787–789, 795
- up to 135 points from CIVIL 701, 703, 706, 711, 713–716, 718–722, 726, 727, 730–734, 741, 742, 744, 750, 754, 758–762, 767, 768, 773–775, 782, 791, ENGGEN 734, 769
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

## Computer Systems Engineering

### Requirement:

#### Taught Masters

- at least 45 points from COMPSYS 701, 704, 705, 726–729, 787–789, 795, ELECTENG 704, 706, 734, SOFTENG 701, 751, but no more than 60 points from COMPSYS 787–789, 795
- up to 135 points from COMPSYS 710, 711, 713–715, 721–725, ELECTENG 722, 726, 732, 733, SOFTENG 761
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

## Construction Management

### Requirement:

#### Taught Masters

- at least 45 points from CIVIL 704, 707, 709, 765, 787–789, 795, but no more than 45 points from CIVIL 787–789, 795
- at least 30 points from CIVIL 703, 708, 716, 791, 792
- up to 105 points from CIVIL 743, ENGGEN 734, ENGSCI 755, other approved 600 and 700 level courses offered at this University

## Electrical and Electronic Engineering

### Requirement:

#### Taught Masters

- at least 45 points from COMPSYS 704, 705, 726, 727, ELECTENG 704, 706, 734, 737–741, 787–789, 795, but no more than 60 points from ELECTENG 787–789, 795
- up to 135 points from ELECTENG 701, 703, 721, 722, 724, 726, 731–733, 735, 736
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

---

## Engineering Science

**Requirement:****Taught Masters**

- at least 45 points, but no more than 60 points, from ENGSCI 787–789, 795
  - up to 135 points from BIOMENG 771, ENGSCI 711, 712, 721, 740–742, 745, 753, 760–763, 768, 772, GEOTHERM 785
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
- 

## Environmental Engineering

**Requirement:****Taught Masters**

- at least 45 points from ENVENG 701–703, 705, 707, 746, 747, 750, 787–789, 795, but no more than 60 points from ENVENG 787–789, 795
  - up to 75 points from ENVENG 706, 719, 740, 744, 752
  - up to 45 points from appropriate ENVSCI 600 and 700 level courses, subject to approval by the Head of Department
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
- 

## Food Engineering

**Requirement:****Taught Masters**

- at least 15 points from CHEMMAT 772, 773, 778
  - up to a further 135 points from BIOSCI 741, CHEMMAT 752, 756, 757, 772, 773, 778, ENGGEN 732, 769, FOODSCI 703, 706–709, 740, or other approved 600 or 700 level courses offered at this University
  - 30 points: CHEMMAT 779 Research Project
- 

## Mechanical Engineering

**Requirement:****Taught Masters**

- at least 45 points from MECHENG 711, 714, 719, 728, 742, 751, 753, 787–789, 795, but no more than 60 points from MECHENG 787–789, 795
  - up to 135 points from ENGGEN 705, 769, MECHENG 701, 702, 712, 713, 715, 717, 722, 724, 726, 735, 736, 743, 747, 752
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
- 

## Mechatronics Engineering

**Requirement:****Taught Masters**

- at least 45 points from MECHENG 710, 719, 720, 728, 730, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
  - up to 135 points from COMPSYS 704, 705, 723, 726, ELECTENG 706, 733, ENGGEN 705, 769, 770, MECHENG 709, 722, 724, 726, 735, 736, 752
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
- 

## Polymer Engineering

**Requirement:****Taught Masters**

- 60 points: POLYMER 700, 704–706
  - 75 points from CHEMMAT 721, 753, ENGGEN 769, MECHENG 742, 743, 751, 752, PSYCH 715; up to 45 points from approved 600 and 700 level courses offered at this University
  - 45 points: MECHENG 795 Research Project
- 

## Software Engineering

**Requirement:****Taught Masters**

- at least 45 points from COMPSYS 704, 705, 726, 727, SOFTENG 701, 751, 754, 755, 787–789, 795, but no more than 60 points from SOFTENG 787–789, 795
  - up to 135 points from COMPSYS 711, 715, 725, 734, SOFTENG 702, 710, 711, 750, 752, 753, 761, 762
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

*The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

- 1 In order to be admitted to this programme, a student needs to have:
  - a *either*
    - (i) completed the requirements for any Bachelors degree approved by Senate or its representative
    - or
    - (ii) received a professional qualification in Engineering approved by Senate or its representative
    - or
    - (iii) attained an equivalent level of practical experience in the engineering profession as approved by Senate or its representative
  - or
  - b attained a level of technical competence in Engineering equivalent to at least Parts I and II of the Degree of Bachelor of Engineering (Honours), as may be approved by the Dean of Faculty of Engineering.

### Duration and Total Points Value

- 2 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

### Structure and Content

- 3 Of the 120 points required for this graduate diploma, a student must pass:
  - a at least 45 points from courses, excluding Project courses, listed in the Master of Engineering Studies Schedule.
  - b up to 75 points from:
    - (i) courses, excluding Project courses, listed for Parts III and IV in the Bachelor of Engineering (Honours) Schedule
    - (ii) courses listed in the Graduate Diploma in Engineering Schedule
    - (iii) up to 30 points from courses listed for Parts I and II in the Bachelor of Engineering (Honours) Schedule, with the specific approval of the Dean of Faculty of Engineering.
- 4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
- 5 The programme for each student requires the approval of the Dean of Faculty of Engineering.

### Variations

- 6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 7 These regulations came into force on 1 January 2006. The 2004 regulations for the Graduate Diploma in Engineering were thereby repealed.

## REGULATIONS – LAW

---

### The Degree of Bachelor of Laws – LLB

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Duration and Total Points Value

- 1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

#### Structure and Content

- 2 Of the 480 points required for this degree, a student must pass:
  - a 465 points: Part I, including LAW 121G, and Parts, II, III and IV as listed in the Bachelor of Laws Schedule and
  - b 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
- 3
  - a Except as permitted under Regulation 9, a student may not enrol for Part II unless Part I has been completed.
  - b Each student must pass Parts II, III and IV in the order set out in the Bachelor of Laws Schedule unless approval to vary the order is given by the Dean of Faculty of Law.

*Note: A student completing Part II will be permitted to commence Part III concurrently, subject to prerequisites and points limits.*

- 4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

#### General Education Exemptions

- 5 A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
  - either
  - a completed an undergraduate degree at a tertiary institution
  - or
  - b commenced study for this degree at a tertiary institution before 1 January 2006
  - or
  - c been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.
- 6 A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

#### Written Work and Practical Requirements

- 7 In order to complete the requirements of LAW 400 or LAW 499 under Regulation 2 above, a student must carry out such legal research assignments and practical application of the law as the Faculty of Law may require.

#### Conjoint Degrees

- 8 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

#### Graduate Admission

- 9 A student who is a graduate or graduand of any university in New Zealand, or who is granted admission *ad eundem statum* with graduate status under the Admission Regulations, may be granted credit of up to 75 points towards LLB Part I. Such a student will normally be required to pass satisfactorily LAW 121G, 131 and 141 before applying for admission to LLB Part II.

*Note:*

- (i) Admission to Part II will be subject to selection, according to the approved selection criteria.
- (ii) In exceptional circumstances the Dean of Faculty of Law may permit a graduate or graduand to be admitted directly to LLB Part II without having passed LAW 121G, 131 and 141, provided that the applicant has demonstrated to the satisfaction of the Dean an aptitude for legal studies, and provided that LAW 121G, 131 and 141 are taken concurrently with the Part II course(s).

### Courses from Other Programmes

- 10 a In place of elective Law courses totalling not more than 45 points for this degree, a student may take courses at Stage II or above offered for other programmes at this University, if they are related to the student's Law studies and approved by the Dean of Faculty of Law.
- b While approval of such courses is normally given before enrolment, the Dean of Faculty of Law may in special cases apply this provision to courses previously passed for another programme. Where the Dean approves such courses, they are to be reassigned from that other programme to this degree.

### Research Papers

- 11 a With the prior approval of the teacher of the course and the Dean of Faculty of Law, a student enrolled for this degree may elect to present a research paper in lieu of an examination in any elective law course.
- b This regulation applies also to a student taking any elective Law course or courses for any degree other than this, or for any diploma or for a Certificate or Certificates of Proficiency.

### Variations

- 12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 13 These regulations came into force on 1 January 2006. The 1996 regulations for the Degree of Bachelor of Laws were thereby repealed.

## The Degree of Bachelor of Laws (Honours) – LLB(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

### Admission

- 1 a No student on whom the Degree of Bachelor of Laws has already been conferred may enrol for this degree.
- b At the discretion of the Dean of Faculty of Law, a student who has completed Parts I and II for the Degree of Bachelor of Laws may be permitted to enrol for this degree.
- c Where the Faculty of Law approves enrolment for the Degree of Bachelor of Laws (Honours) the courses previously passed for the Degree of Bachelor of Laws will be reassigned to the Degree of Bachelor of Laws (Honours).

### Duration and Total Points Value

- 2 A student enrolled for this degree must pass courses with a total value of 540 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

### Structure and Content

- 3 Of the 540 points required for this degree, a student must pass:
  - a 480 points from the Degree of Bachelor of Laws Schedule and
  - b 60 points from courses listed in the Bachelor of Laws (Honours) Schedule.

- 4 All the provisions and requirements of the Degree of Bachelor of Laws apply also to a student enrolled for this degree, including the provisions concerning written work and practical requirements, courses in other faculties and research papers, and the General Education requirements.
- 5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Conjoint Degrees

- 6 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination for which the specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

### Dissertation

- 7
  - a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.
  - b The dissertation topic must be approved by the Dean of Faculty of Law prior to enrolment.
  - c A student must enrol for the dissertation in the semester following completion of Part IV of the schedule for the Degree of Bachelor of Laws.
  - d The dissertation must be completed and submitted by the last day of lectures in the semester of enrolment.
  - e In exceptional circumstances beyond the student's control, Senate or its representative may approve a limited extension of time, not exceeding two months, for the completion of the dissertation. Where an extension of time is approved, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student's current enrolment period in the course has ended.

### Award of Honours

- 8 This degree will be awarded only where a student's work throughout the entire programme, inclusive of the courses required for the Degree of Bachelor of Laws, is of a sufficiently high standard, as determined by the Faculty of Law. In assessing the standard of a student's work in this programme, the courses taught by other faculties that are taken as part of Part I will not be taken into account.

### Withdrawal from Honours

- 9 A student whose work does not satisfy the standard specified in Regulation 8, or who at any time chooses to withdraw from Honours, may transfer from the Degree of Bachelor of Laws (Honours) to the Degree of Bachelor of Laws. In that case the courses already passed for, or credited to, the Degree of Bachelor of Laws (Honours) may be reassigned to the Degree of Bachelor of Laws, except for any dissertation taken under Regulation 3b.

### Variations

- 10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 11 These regulations came into force on 1 January 2006. The 1996 regulations for the Degree of Bachelor of Laws (Honours) were thereby repealed.

### The Degree of Bachelor of Medical Imaging – BMedImag

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Degree Requirements

- Students who enrol for the Degree of Bachelor of Medical Imaging (Honours) may be awarded the Degree of Bachelor of Medical Imaging if, having passed all courses and completed all other requirements for a BMedImag(Hons), their performance in the courses is deemed by the Head of the School of Medical Sciences to be not of Honours standard.

*Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.*

### The Degree of Bachelor of Medicine and Bachelor of Surgery – MBChB

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Admission

- In order to be admitted to this programme, a student needs to have:
  - either
    - completed the requirements for the courses listed in Part I of the MBChB Schedule on a full-time basis, with a Grade Point Average of 6.0 or higher
    - or
    - successfully completed, normally in the minimum academic time and no more than five years prior to the date of application, a degree, postgraduate degree or postgraduate diploma from a New Zealand university with a Grade Point Average of 6.0 or higher or equivalent
    - or
    - met the requirements of a special entry scheme
  - and
  - demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as a doctor. This requirement will normally include an interview.
- Students selected for admission under Regulation 1a(i) will be admitted to MBChB Part II.
  - Students selected for admission under Regulation 1a(ii) or Regulation 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the schedule to these regulations before proceeding to Part II.

#### Duration and Total Points Value

- A student enrolled for this degree must follow a programme of six full-time years and pass courses with a total value of 720 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.
  - Enrolment for the degree will normally be continuous. In exceptional circumstances Senate or its representative, on the recommendation of the Head of Programme, may grant a period of suspension from enrolment not normally exceeding two consecutive semesters.
  - Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

## Structure and Content

- 4 Of the 720 points required for this degree, a student must pass:
  - a 705 points from Parts I, II, III, IV, V and VI, as listed in the Bachelor of Medicine and Bachelor of Surgery Schedule.
  - b (i) 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.
  - (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
  - (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
- 5 a However, where a student has been granted admission with credit, or in exceptional circumstances which Senate or its representative approves, a student may be directly admitted to Part II, Part III or Part IV.
- b Each Part of the programme is to be completed to the satisfaction of Senate or its representative before a student is permitted to enrol for the next Part.
- c At the discretion of Senate or its representative, a student who fails any of Parts II-VI may be declined permission to re-enrol in the programme as a whole.
- d A student who fails twice to pass the same Part will not be permitted to continue with this degree.

## General Education Exemptions

- 6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
 

*either*

  - (i) completed an undergraduate degree at a tertiary institution
  - or*
  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
  - or*
  - (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.
- b A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

## Practical Requirements

- 7 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Faculty of Medical and Health Sciences may require.

## Variations

- 8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

## Fitness to Practise Requirements

- 9 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences' Fitness to Practise Policy.
- b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student's attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student's attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.
- c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student's enrolment in the programme may be suspended or terminated in accordance with the policy.
- d Where a student's enrolment in the programme has been terminated under Regulation 9c, any application to re-enrol may be declined.
- e A student whose enrolment is suspended or terminated under Regulation 9c or their application to re-enrol declined under Regulation 9d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

## Commencement

- 10 These regulations came into force on 1 January 2019. The 2006 regulations for the Degree of Bachelor of Medicine and Bachelor of Surgery were thereby repealed.

### General Education Exemptions

- 8 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
- either
    - (i) completed an undergraduate degree at a tertiary institution
    - or
    - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
    - or
    - (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
  - b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses listed in the Bachelor of Science Schedule.
  - c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
    - (i) 15 points from the courses offered in the General Education Schedules and
    - (ii) a further 15 points from other courses listed in the Bachelor of Science Schedule.
  - d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

### Enrolment for Two Programmes

- 9 A student may not be enrolled in this degree at the same time as in another programme, unless special permission is given by Senate or its representative.

### Practical Requirements

- 10 a A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Faculty of Medical and Health Sciences may require.
- b In any course that includes both a final written examination and practical or clinical work, a student must pass both the final written examination and the practical or clinical work to pass that course as a whole. However, a

student who passes the practical or clinical work but fails the final written examination may, at the discretion of the Head of School, have the result for the practical or clinical work for that failed course carried forward when the course is repeated.

- c A student who repeats any course may also be required to undertake such additional practical or clinical work as the Head of School of Optometry and Vision Science determines.
- d Where a weakness occurs in the clinical practice component, in accordance with examination regulation 21, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This provision will only apply when the student's current enrolment period has ended.

### Fitness to Practise Requirements

- 11 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences' Fitness to Practise Policy.
- b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student's attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student's attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.
- c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student's enrolment in the programme may be suspended or terminated in accordance with the policy.
- d Where a student's enrolment in the programme has been terminated under Regulation 11c, any application to re-enrol may be declined.
- e A student whose enrolment is suspended or terminated under Regulation 11c or their application to re-enrol declined under Regulation 11d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

### Variations

- 12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Honours

- 13 a This degree may be awarded with Honours where a student's overall grade is sufficiently high. There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.
- b Honours may normally be awarded only if the requirements for this degree are completed within ten semesters of initial enrolment for the degree. In exceptional circumstances however, Senate or its representative may approve an extension of this period for not more than two further semesters.

### Commencement

- 14 These regulations came into force on 1 January 2011. The 2006 regulations for the Degree of Bachelor of Optometry were thereby repealed.

### Practical Requirements

- 13 A student enrolled for this degree who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.
- 14 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol in a clinical remediation course in addition to the requirements of their programme.

### Suspension or Termination of Enrolment

- 15 a If a student is required to undertake clinical or practice experience as part of their programme, and their behaviour, attitude or circumstances is found, after due and fair inquiry, to be inappropriate, offensive or disruptive in this environment, or to be likely to give rise to a risk of harm to the welfare of any party in a clinical or practice environment, then the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.
- b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any clinical attachments pending the outcome of the inquiry.
- c A student whose enrolment is terminated or application to re-enrol is declined under Regulation 16a may appeal from that decision to the Council or its duly appointed delegate.

### Fitness to Practise Requirements

- 16 a Students in the Nutrition and Dietetics specialisation must meet the applicable fitness to practise requirements, as outlined in the Faculty of Medical and Health Sciences' Fitness to Practice Policy.
- b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student's attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student's attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.
- c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student's enrolment in the programme may be suspended or terminated in accordance with the policy.
- d Where a student's enrolment in the programme has been terminated under Regulation 16c, any application to re-enrol may be declined.
- e A student whose enrolment is suspended or terminated under Regulation 16c or their application to re-enrol declined under Regulation 16d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

### Variations

- 17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Honours

- 18 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees

### Commencement

- 19 These regulations came into force on 1 January 2018. The 2012 regulations for the Degree of Master of Health Sciences were thereby repealed.

## The Degree of Doctor of Medicine – MD

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.*

### Preamble

- 1 a A candidate for the Degree of Doctor of Medicine is required to pursue an approved programme of advanced study and research as an enrolled student of the University.
- b A candidate for the Degree of Doctor of Medicine may draw upon original studies completed prior to registration that have not been submitted as part of a previous degree or diploma.
- c It is expected that this programme will usually be completed within three to four years of full-time candidature. Part-time candidature may also be permitted.
- d The Degree of Doctor of Medicine is awarded for a formal and systematic exposition of a coherent programme of advanced research work in any branch of medicine or medical science presented in a thesis which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:
  - (i) is an original contribution to any branch of medicine or medical science
  - and
  - (ii) meets internationally recognised standards for such work
  - and
  - (iii) demonstrates a knowledge of the literature relevant to the subject of the thesis, and the ability to exercise critical and analytical judgement of it
  - and
  - (iv) is satisfactory in its methodology, in the quality and coherence of its written expression, and in its scholarly presentation and format.
- e The thesis may not, without prior permission of the Board of Graduate Studies, exceed 100,000 words in total.
- f If the core of the thesis comprises a series of published or unpublished research papers and/or case studies, the candidate must be the lead or sole author of each paper or case study and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.
- g If the core of the thesis does not comprise a series of published or unpublished research papers and/or case studies, a candidate may still include within their thesis published or unpublished research papers and/or case studies, provided that the candidate was the lead or sole author of each paper or case study. The thesis must be presented in a consistent format, citation style and typeface.
- h In the case of published or unpublished research papers and/or case studies that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper and/or case study. The thesis must be presented in a consistent format, citation style and typeface.
- i All material which is not the original work of the author of the thesis must:
  - (i) be fully and appropriately attributed

or

- (ii) if a substantial part of another work, only be reproduced with the written permission of the copyright owner of the other work.

- j All research for the thesis is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

### Eligibility

- 2 A candidate for the Degree of Doctor of Medicine is required to have:
  - a (i) completed the requirements for the award of the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland
  - or
  - (ii) completed the requirements for the award of a medical qualification that the Board of Graduate Studies considers to be equivalent to the prerequisite qualification specified in Regulation 2a(i) of this regulation
- and
- b demonstrated an ability to pursue doctoral level research in the field of medicine or medical science, as measured by the prior completion of 30 points or more of postgraduate level or equivalent research to an appropriate standard
- and
- c following the completion of their medical qualification, normally had at least five years of experience in medical practice or in an area considered comparable by the Board of Graduate Studies.

### Admission

- 3 Every candidate for the Degree of Doctor of Medicine must have applied for admission and been admitted to the University of Auckland.

### Duration

- 4 a A candidate will normally be required to complete the requirements for the degree within not less than three full-time years and not more than four full-time years, or the part-time equivalent, from the date of registration unless permitted to do otherwise by the Board of Graduate Studies.
- b A candidate who draws upon original studies completed prior to registration may, with the permission of the Board of Graduate Studies, complete the requirements for the degree in less than three years. The minimum time for completion will not be less than one full-time year or part-time equivalent.

### Registration

- 5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
- b A minimum of four goals will normally be prescribed by the Board of Graduate Studies for completion during the period of provisional registration.

### Structure and Content

- 6 A candidate enrolled for this degree must pass MEDSCI 896 Thesis.

### Reviews of Registration

- 7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named Doctorates.

### Changes to the Conditions of Registration

- 8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

### Enrolment and Fees

- 9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

### Submission

- 10 a All candidates are required to submit one copy in temporary binding and one electronic copy in pdf format of the thesis to the Graduate Centre. Copies should include the following statement to examiners on the first page:  
"This thesis is for examination purposes only and is confidential to the examination process."
- b Three months prior to the expected date of submission, a candidate should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the thesis on the grounds of conflict of interest, then the candidate may

also submit at this time the name of this person and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

- c The thesis is to be accompanied by a statutory declaration, signed by the candidate, stating that the thesis is the candidate's own work and that neither the thesis nor any part of it has been submitted or accepted for any other degree or diploma and that written permission has been obtained for any third-party copyright material reproduced in the thesis that represents a "substantial part" of the other work. The declaration should also state that the temporary-bound copy and electronic copy are identical.
- d Where the thesis contains jointly authored research papers, case studies and/or any other work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.  
Where the thesis includes research reported in published or unpublished co-authored works (other than as in Regulations 1g and 1h in the PhD Statute) a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.
- e The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

## Examination

- 11 The examination process will follow that of Regulation 9 of the PhD Statute, except that Regulations 9a, b, c, d, e, f, g and i will not apply, and
  - a The Associate Dean (Postgraduate) of the Faculty of Medical and Health Sciences, the Head of Department, and/or the Dean of the Faculty may nominate another person to the Board of Graduate Studies to be authorised to act in their place in all of the provisions of this Regulation 11 and Regulation 9 of the PhD Statute where it applies. If either the Head of Department or the Associate Dean (Postgraduate) or the Dean of the Faculty is a supervisor of the candidate, an alternate must be nominated and appointed.
  - b Neither the supervisors nor the candidate may communicate with the examiners regarding the examination at any stage of the examination process, except as specified in this Regulation 11 or Regulation 9 of the PhD Statute where it applies.
  - c **Nomination of Examiners**  
On notification of submission or intent to submit under Regulation 10b, the Head of Department will, on the advice of the supervisor(s), nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the thesis research or the preparation of the thesis.
  - d **Appointment of Examiners**  
The Board of Graduate Studies will consider the nominations provided by the Head of Department and any submissions made by the candidate under the provisions of Regulation 10b and will appoint two suitably qualified persons who are available to act as examiners. One examiner must be able to participate in any oral examination in person.
  - e **Appointment of Examination Committee**  
The Board of Graduate Studies will appoint a Doctor of Medicine Examination Committee consisting of the Associate Dean (Postgraduate) of the Faculty of Medical and Health Sciences as Chair, the Head of Department, the Dean of Faculty of Medical and Health Sciences, and the Head of School of Medicine, for all Doctor of Medicine examinations.
  - f **Examiners' Reports**  
Each examiner will be provided with an electronic copy of the thesis in PDF format and, acting independently, is required to provide the Graduate Centre, within two months of receipt of the thesis, with a written report in English on the quality of the thesis according to the criteria of Regulation 1(c) of these regulations. A copy of the thesis will be provided to the Examination Committee.
  - g **Recommendation of Examiners**  
The examiners will include with their reports one of the following recommendations:
    - (i) to award the degree.  
The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material.
    - or
    - (ii) to award the degree after specified "minor corrections" have been made to the thesis to the satisfaction

of the Chair of the Doctor of Medicine Examination Committee or nominee, who may be the Main Supervisor, by a specified date.

This recommendation is made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. When these are corrected, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.

or

- (iii) (a) to award the degree after revisions have been made to the thesis to the satisfaction of the Doctor of Medicine Examination Committee, by a specified date, and subject to satisfactory performance at any oral examination.

This recommendation is made when the Examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 3–6 month period. The Examiner should indicate whether or not they regard an Oral Examination as appropriate.

or

- (b) to award the degree after revisions have been made to the thesis to the satisfaction of the Examiner by a specified date, and subject to satisfactory performance at any oral examination. The Examiner should indicate whether or not they regard an Oral Examination as appropriate.

This recommendation is made when the Examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. The nature of the revisions must be such that subject-specific knowledge is required and the Examiner wishes to see and approve the changes. These changes can normally be made within a 3–6 month period.

or

- (iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only. This recommendation is made when the Examiner concludes that the thesis is not yet of MD standard. It will require either further research, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required MD standard. The candidate will be permitted to resubmit, normally within a 12 month period.

or

- (v) not to award the degree, but refer the thesis to the appropriate authority within the University for consideration of the award of another degree.

This recommendation is made when the Examiner is of the opinion that the thesis has substantive flaws incompatible with the requirements of a MD.

or

- (vi) not to award any degree.

#### **h Recommendation of the Doctor of Medicine Examination Committee**

The Doctor of Medicine Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with examiners and/or supervisors made under Regulation 9k (PhD Statute) and which recommends one of the following:

- (i) to appoint one or more further independent examiners to report on any areas of conflict

or

- (ii) to award the degree

or

- (iii) to award the degree after specified “minor corrections” have been made to the thesis to the satisfaction of the Doctor of Medicine Examination Committee or nominee, who may be the main supervisor, by a specified date

or

- (iv) (a) to award the degree subject to revising part or parts of the thesis to the satisfaction of the Doctor of Medicine Examination Committee or nominee, who must be the Head of Department, by a specified date

or

- (b) to award the degree subject to revising part or parts of the thesis to the satisfaction of the Examiner or Examiners by a specified date

or

- (v) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit

or

- (vi) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree

or

- (vii) not to award the degree

- or  
(viii) to require the candidate to undergo an Oral Examination.
- i In the case of recommendations (iv) and (v), the report must also state clearly the nature of the revisions recommended.
- j Where a candidate is required to revise and resubmit the thesis before any oral examination, Regulation 9r of the PhD Statute will apply, except that the examiners shall examine the revised thesis as a whole in accordance with Regulation 11g of these regulations rather than Regulation 9g of the PhD Statute, excepting that a further resubmission may not be recommended, and that the recommendations available to the Examination Committee at Regulation 9r(vii) of the PhD Statute are replaced by those detailed at Regulation 11h of these regulations.
- k Oral Examination**
- (i) An Oral Examination will be held only on the recommendation of the Doctor of Medicine Examination Committee or as required by the Board of Graduate Studies.
- (ii) An oral examination will only be held where there is a reasonable doubt regarding the adequacy of the thesis and/or the appropriate recommendation and where, in the opinion of the Committee or of the Board of Graduate Studies, an oral examination is the most appropriate way of addressing those doubts.
- (iii) Should an oral examination be required, the Board of Graduate Studies will appoint a Head of Department Nominee in accordance with Regulation 9e of the PhD Statute, and the Oral Examination and the remainder of the examination process will proceed as per Regulation 9n to 9t of the PhD Statute, except that:
- a) Where a candidate has previously revised and resubmitted their thesis in accordance with Regulation 11h(v) of the Doctor of Medicine regulations no subsequent revision and resubmission is permitted.
- b) Where an oral examination results in the candidate being required to revise and resubmit the thesis:
- (i) the examiners shall examine the revised thesis as a whole in accordance with Regulation 11g of the Doctor of Medicine regulations rather than Regulation 9g of the PhD Statute, excepting that a further revision and resubmission may not be recommended
- and
- (ii) the composition of the Examination Committee for the revised and resubmitted thesis at Regulation 9s(vii) of the PhD Statute shall revert to that of the Doctor of Medicine Examination Committee appointed in accordance with Regulation 11e of the Doctor of Medicine regulations but include, where that person is not already included, the Head of Department Nominee appointed in accordance with Regulation 9e of the PhD Statute
- and
- (iii) The recommendations available to the Examination Committee at Regulation 9s(vii) of the PhD Statute after consideration of the examiners' reports for the revised and resubmitted thesis shall be replaced by those detailed at Regulation 11h of the Doctor of Medicine regulations.
- l Copies for Deposit**
- (i) On successful completion of the examination, candidates will be required to deposit two hardbound copies of the thesis and one digital copy, corrected as may be required, with the Graduate Centre. The degree will not be conferred until the candidate has complied with this requirement.
- (ii) When two hardbound copies and a digital copy of the thesis are deposited, these must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.
- g (i) The digital thesis deposited shall be formatted as specified in the Guidelines for Formatting a Digital Thesis.
- (ii) A thesis which is deposited in digital form will be accessible through the University's digital repository, unless embargoed under Regulation 25 of the Examination Regulations.

### Variations

- 12 In exceptional circumstances the Board of Graduate Studies may approve a programme which does not conform to these regulations.

### Appeals

- 13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

### Dispute Resolution Procedures

- 14 Disputes are to be resolved according to Regulation 7 of the General Regulations for Named Doctorates.

### Transitional Arrangements

- 15 a These regulations came into force on 1 January 2016. The 2009 regulations for the Degree of Doctor of Medicine were thereby repealed.
- b For candidates initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

## REGULATIONS – SCIENCE

### The Degree of Bachelor of Science – BSc

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Duration and Total Points Value

- 1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

#### Structure and Content

- 2 Of the 360 points required for this degree, a student must pass:
  - a at least 300 points from courses listed in the Bachelor of Science Schedule, including
    - (i) at least 180 points above Stage I, including at least 75 points above Stage II
    - (ii) courses in a minimum of three subject codes listed in the Bachelor of Science Schedule
    - (iii) (a) at least one major, as listed in the Bachelor of Science Schedule, and 15 points from a capstone course listed in the Bachelor of Science Schedule  
or  
(b) one specialisation, as listed in the Bachelor of Science Schedule.
  - b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
  - c up to 30 points from courses available for other programmes offered at this University.
- 3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
- 4 a A student may include one or more modules from the modules available in the Bachelor of Science Schedule.
  - b (i) One module from the Schedule of another degree may be included.
  - (ii) If a module from the Schedule of another degree is completed, the courses will be counted under Regulation 2a.

#### General Education Exemptions

- 5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
 

*either*

  - (i) completed an undergraduate degree at a tertiary institution
  - or*
  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
  - or*
  - (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
- b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
- c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
  - (i) 15 points from courses offered in the General Education Schedules
  - and*
  - (ii) a further 15 points from courses available for this degree.
- d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

#### Practical Requirements

- 6 In any course that includes assessed practical work as well as other assessed work, it may be required that a student must obtain passes in both the practical and the other work in order to pass that course as a whole.

Where this is specified a student who passes the practical work but who fails the other work may, at the discretion of the Academic Head, have the result for the practical work carried forward when the course is retaken.

### Conjoint Degrees

- 7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

### Special Cases

- 8 a In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiners as having reached a pass in an equivalent Stage I course(s), the student may be credited with the appropriate Stage I course(s).
- b If a student who is enrolled in and fails an advanced or accelerated Stage I course but is certified by the examiners as having reached a pass in an equivalent Stage I course in the same subject having a lower entry requirement, the student may be credited with the latter course. The relevant Academic Head shall certify to Senate or its representative that the failed course is an advanced or accelerated course.

### Variations

- 9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 10 These regulations came into force on 1 January 2019. The 2006 regulations for the Degree of Bachelor of Science were thereby repealed.

 Stage III courses: ANTHRO 306, 309, 317, 318, 322, 328, 337, 348, 349, 352, 353, 365, 367, 399

#### Astrosciences

Stage I course: ASTRO 100

#### Biological Sciences

Stage I courses: BIOSCI 100–109  
 Stage II courses: BIOSCI 201–220  
 Stage III courses: BIOSCI 320–396, 399

#### Business Analytics

*Only for students in the Information and Technology Management major*

Stage II course: BUSAN 201  
 Stage III courses: BUSAN 300–302

#### Chemistry

Stage I courses: CHEM 100–150  
 Stage II courses: CHEM 250–260  
 Stage III courses: CHEM 310–392, 397–399

#### Civil Engineering

Stage II courses: CIVIL 220, 221  
 Stage III course: CIVIL 322

#### Communication

Stage II course: COMMS 208

#### Computer Science

Stage I courses: COMPSCI 101–130

Stage II courses: COMPSCI 210–289  
 Stage III courses: COMPSCI 313–393, 399

#### Data Science

Stage I course: DATASCI 100

#### Earth Sciences

Stage I courses: EARTHSCI 102, 105, 120  
 Stage II courses: EARTHSCI 202, 203, 205, 206, 208, 220, 261, 262  
 Stage III courses: EARTHSCI 303, 305, 307, 315, 320, 360, 361, 372, 388, 390, 399

#### Ecology

Stage III course: ECOLOG 301

#### Economics

*Only for students in a Mathematics or Statistics major with a GPA of at least 5 and a B grade or higher in MATHS 120 and 130, or 153*

Stage II courses: ECON 201, 211, 221  
 Stage III courses: ECON 301, 311

#### Education

Stage II course: EDUC 201

#### Electrical Engineering

*Only for students in the Physics major*

Stage II courses: ELECTENG 209, 210, 292  
 Stage III course: ELECTENG 303, 331

#### Engineering Science

Stage III course: ENGSCI 391

**Environmental Change**

Stage III course: ENVCHG 300

## The Degree of Bachelor of Advanced Science (Honours) – BAdvSci(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Duration and Total Points Value**

- 1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

**Structure and Content**

- 2 Of the 480 points required for this degree, a student must pass:
  - a at least 420 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including
    - (i) at least 300 points above Stage I, including at least 210 points above Stage II
    - (ii) courses in a minimum of three subject codes
    - (iii) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
    - (iv) a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
    - (v) the core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
  - b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*
  - c up to 30 points from courses available for other programmes offered at this University.
- 3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
- 4
  - a A student may include one or more modules from the modules available in the Bachelor of Science Schedule.
  - b
    - (i) One module from the Schedule of another degree may be included.
    - (ii) If a module from the Schedule of another degree is completed, the courses will be counted under Regulation 2a.
- 5 A student must achieve a Grade Point Average of 5.0 or higher in each successive two semesters of full-time enrolment, or the part-time equivalent, taken towards this degree. If this Grade Point Average is not achieved, enrolment in the Bachelor of Advanced Science (Honours) cannot continue.

**Reassignment**

- 6 A student who does not achieve the Grade Point Average specified in Regulation 5 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science and/or the Bachelor of Science.

**General Education Exemptions**

- 7
  - a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
 

*either*

    - (i) completed an undergraduate degree at a tertiary institution

*or*

    - (ii) been admitted to this degree having completed 240 points of degree level study at another tertiary institution.

- b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
- c A student admitted to this degree having completed between 120 and 135 points of degree level study from another tertiary institution must pass:
  - (i) 15 points from courses offered in the General Education Schedules
  - and
  - (ii) a further 15 points from courses available for this degree.
- d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

### Practical Requirements

- 8 In any course that includes assessed practical work as well as other assessed work, it may be required that a student must obtain passes in both the practical and the other work in order to pass that course as a whole. Where this is specified, a student who passes the practical work but who fails the other work may in these circumstances, at the discretion of the Academic Head, have the result for the practical work carried forward when the course is retaken.

### Honours

- 9 a This degree may be awarded with Honours where a student's overall grade in 120 points of 700 level courses, including the research project or dissertation, is sufficiently high. There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either the First Division or Second Division.
- b Students who have passed all courses and completed all other requirements for a BAdvSci(Hons) but whose performance in the courses is deemed by the Dean of Science to be not of Honours standard will be awarded the degree of Bachelor of Science and the Postgraduate Diploma in Science instead.

### Conjoint Degrees

- 10 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

### Special Cases

- 11 a In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiners as having reached a pass in an equivalent Stage I course(s), the student may be credited with the appropriate Stage I course(s).
- b If a student who is enrolled in and fails an advanced or accelerated Stage I course but is certified by the examiners as having reached a pass in an equivalent Stage I course in the same subject having a lower entry requirement, the student may be credited with the latter course. The relevant Academic Head shall certify to Senate or its representative that the failed course is an advanced or accelerated course.

### Variations

- 12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 13 These regulations came into force on 1 January 2019.

## The Degree of Bachelor of Science (Honours) – BSc(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

- 1 In order to be admitted to this programme, a student needs to have:
  - a completed the requirements for the Degree of Bachelor of Science from the University of Auckland including at least 90 points above Stage II or attained an equivalent qualification as approved by Senate or its representative
  - and
  - b attained at least a B average in 45 points above Stage II in the relevant subject major as specified in the Bachelor of Science regulations or equivalent
  - and
  - c approval from the relevant Head of Department, Director of School, or equivalent.
- 2 A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed:
  - a courses with a total value of at least 345 points towards that degree including the requirements of the major as specified in the regulations for the Bachelor of Science
  - and
  - b the Stage III entry requirements for this degree
 may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol for this degree. The requirements for the Bachelor of Science degree must be completed within 12 months of initial enrolment for the Bachelor of Science (Honours). The Bachelor of Science (Honours) will not be awarded until the requirements for the Bachelor of Science have been completed.

*Note: Applicants to Preparatory Clinical Psychology must be able to demonstrate professional attributes suitable for becoming a clinical psychologist. A written supplementary application, personal references and an interview will normally be required.*

### Duration and Total Points Value

- 3 A student enrolled for this degree must:
  - a pass courses with a total value of 120 points
  - and
  - b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.
- 4 The total enrolment for this degree must not exceed 160 points.

### Structure and Content

- 5 A student enrolled for this degree must pass 120 points in one of the subjects listed in the Bachelor of Science (Honours) Schedule.
- 6 A project or dissertation between 30 and 90 points must be included. Where the dissertation is of less than 90 points, the points value of the dissertation and a research preparation course (such as a dissertation preparation or research methods course) in the same subject must not exceed 60 points.
- 7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.
- 8 The programme for each student must be approved by the relevant Head of Department, Director of School or equivalent.

### Project / Dissertation

- 9
  - a The project or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the relevant Head of Department.
  - b The dissertation topic must be approved by the relevant Head of Department prior to enrolment.
  - c The dissertation is to be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

## Variations

- 10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

## Honours

- 11 a This degree may be awarded only where a student's overall grade for the Degree of Bachelor of Science (Honours) is sufficiently high to deserve Honours.
- b Should a student fail to qualify for the award of the Degree of Bachelor of Science (Honours), Senate or its representative may approve the reassignment of points towards the Postgraduate Diploma in Science.
- 12 Where the standard specified in Regulation 11a is achieved, Honours will be awarded as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

## Commencement

- 13 These regulations came into force on 1 January 2006. The 1996 regulations for the Degree of Bachelor of Science (Honours) were thereby repealed.

### Subjects available:

---

#### Applied Mathematics

**Prerequisite:** A major in Applied Mathematics or Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 340, 361 and MATHS 362 or 363, or equivalent courses approved by the Academic Head or nominee

**Requirement:**

- at least 45 points from MATHS 761–770
- up to 45 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department
- 30 points: MATHS 776 Research Project

#### Bioinformatics

**Prerequisite:** A major in Bioinformatics or Biological Sciences and COMPSCI 220 or equivalent as approved by the Director and at least 90 points at Stage III

**Requirement:**

- 45 points: BIOINF 702, 704, BIOSCI 702
- 30 points from BIOSCI 733, 737, 752, 755–758, COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 761, 783, 784
- 45 points: BIOINF 789 Project

#### Biological Sciences

**Prerequisite:** At least 90 points at Stage III including at least 60 points from Stage III Biological Sciences. With the permission of the Director of the School of Biological Sciences, up to 15 points at Stage III in related courses may be substituted.

**Requirement:**

- 15 points: BIOSCI 762
  - 45 points: BIOSCI 788 Dissertation
- and
- 60 points from BIOINF 701, BIOSCI 724–746, 749–761
- or
- 45 points from BIOINF 701, BIOSCI 724–759 and a further 15 points, subject to approval by the Head of School of Biological Sciences, from 700 level courses in a related subject

#### Biomedical Science

*The BSc(Hons) in Biomedical Science was suspended in 2016. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.*

**Prerequisite:** A major in Biomedical Science and at least 90 points at Stage III

**Requirement:**

- 30 points from BIOINF 701, BIOSCI 736, 737, 741, 746, 755–759,

HLTHPSYC 716, MEDSCI 701–723, 725–734, 737–740

- 90 points: BIOMED 791 Research Portfolio

#### Biotechnology

**Prerequisite:** A major in Biotechnology, or equivalent as approved by the Director, and at least 90 points at Stage III

**Requirement:**

- 30 points from BIOSCI 741, 752, 759
- 30 points: SCIENT 701, 703
- 15 points: BIOSCI 762
- 45 points: BIOTECH 788 Dissertation

#### Chemistry

**Prerequisite:** A major in Chemistry and at least 90 points at Stage III

**Requirement:**

- 60 points: CHEM 793 Dissertation
- and
- 60 points from CHEM 710–780
- or
- 45 points from CHEM 710–780 and a further 15 points, subject to approval by the Head of Department, from 700 level courses in a related subject

#### Computer Science

**Prerequisite:** A major in Computer Science and at least 90 points at Stage III

**Requirement:**

- at least 60 points from BIOINF 702, COMPSCI 701–716, 720–777
- up to 30 points from 700 level courses in a related subject with approval of the Head of Department
- 30 points: COMPSCI 789 Research Project

#### Earth Sciences

**Prerequisite:** A major in Earth Sciences, Geography, or Geology and at least 90 points at Stage III with at least 45 points at Stage III in Earth Sciences or Geology courses or GEOG 330, 331, 334, 351, 360 or equivalent

**Requirement:**

- at least 60 points from EARTHSCI 703–772, GEOG 730, 745, 746, 770–772, GEOPHYS 760, 761
- up to 30 points from 700 level courses as approved by the Programme Coordinator
- 30 points: EARTHSCI 789 Research Project

## Exercise Sciences

**Prerequisite:** A major in Sport and Exercise Science, Exercise Sciences or equivalent as approved by the Head of Department and at least 90 points at Stage III

**Requirement:**

- 15 points: EXERSCI 705
- at least 30 points from EXERSCI 702–704, 706–714 and up to 30 points from approved 700 level courses offered at this University
- 45 points: EXERSCI 780 Dissertation

## Food Science

**Prerequisite:** A major in Food Science or Food Science and Nutrition and at least 90 points at Stage III

**Requirement:**

- at least 30 points from CHEMMAT 757, FOODSCI 706–710
- up to 30 points from MEDSCI 709, 710, BIOSCI 741 or other courses approved by Programme Director
- 60 points: FOODSCI 788 Dissertation

## Geography

**Prerequisite:** A major in Geography or Earth Sciences and at least 90 points at Stage III with at least 45 points at Stage III in Geography

**Requirement:**

- 15 points: GEOG 701
- at least 60 points from EARTHSCI 705, 713, 732, ENVMTG 741–762, ENVSCI 704, 713, 737, 738, GEOG 712–779
- up to 15 further points, subject to approval by the Academic Head
- 30 points: GEOG 789 Research Project

## Geophysics

**Prerequisite:** At least 90 points at Stage III including at least 30 points from GEOPHYS 310–361 and 15 points from EARTHSCI 301–307, 372, GEOPHYS 310–361, MATHS 302–389, PHYSICS 331–390

**Requirement:**

- 45 points from EARTHSCI 763, GEOPHYS 711–713, 761, PHYSICS 743
- 45 points from approved 600 or 700 level courses in Earth Sciences, Geophysics, Mathematics or Physics, or other Science subjects approved by the Head of Department
- 30 points: GEOPHYS 789 Research Project

## Green Chemical Science

**Prerequisite:** A major or specialisation in Chemistry or Green Chemical Science, or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director

**Requirement:**

- 30 points from CHEM 710–751, 780
- 30 points: CHEM 760, ENVSCI 714
- 60 points: CHEM 793 Dissertation

## Logic and Computation

**Prerequisite:** A major in Logic and Computation and at least 90 points at Stage III

**Requirement:**

- 15 points from COMPSCI 720, 750, 760, 767
- 15 points from PHIL 736–738
- 60 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738
- 30 points: LOGICOMP 782 Research Project

## Mathematics

**Prerequisite:** A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332

**Requirement**

*either*

- 90 points in 700 level Mathematics courses  
*or*  
at least 45 points in 700 level Mathematics courses and up to 45 points, subject to approval by the Head of Department, from 700 level courses in a related subject  
*and*  
• 30 points: MATHS 776 Research Project

## Medical Physics and Imaging Technology

**Prerequisite:** A major in Physics and at least 90 points at Stage III

**Requirement:**

- 45 points: MEDSCI 703, 737, PHYSICS 780
- 15 points: PHYSICS 743
- 15 points from MEDSCI 701–740, PHYSICS 703–780, 791, 792
- 45 points: PHYSICS 787 Project

## Medicinal Chemistry

**Prerequisite:** A major in Medicinal Chemistry and at least 90 points at Stage III

**Requirement:**

- 15 points: CHEM 735
- 45 points from CHEM 710–780, BIOSCI 757, 759, MEDSCI 708, 715, 716, 721, 722

15 points from 700 level courses in a related subject approved by the Head of Department

*and*

- 60 points: PHARMCOL 787 Dissertation

## Photonics

**Prerequisite:** A major in Physics including ELECTENG 209, and ELECTENG 210 or 292, and ELECTENG 303 or 331 or equivalent courses approved by the Academic Head or nominee

**Requirement:**

- 15 points from PHYSICS 726, 752
- at least 15 points from ELECTENG 726, 732, PHYSICS 743
- up to 45 points from other 600 or 700 level courses in Physics or related subjects approved by the Head of Department
- 45 points: PHYSICS 787 Project

## Physics

**Prerequisite:** A major in Physics and at least 90 points at Stage III

**Requirement:**

- 45 points from PHYSICS 703–788, 791, 792

*and either*

- a further 45 points from GEOPHYS 761–780, MATHS 720, 725, 761–770, PHYSICS 701–780, 791, 792
- up to 30 points from other approved 700 level courses offered at this University
- 30 points: PHYSICS 789 Research Project

## Physiology

**Prerequisite:** A major in Physiology and at least 90 points at Stage III

**Requirement:**

- 30 points: MEDSCI 733, 743
- 30 points from MEDSCI 701, 703, 717, 727–732, 734, 737, 739, 744
- 60 points: PHYSIOL 787 Dissertation

## Psychology

**Prerequisite:** A major in Psychology and at least 90 points at Stage III including PSYCH 306

**Requirement:**

either

- 15 points: PSYCH 779
- 75 points from PSYCH 700–770, 775
- 30 points: PSYCH 780 Research Project

or

**Preparatory Clinical Psychology**

## The Degree of Master of Data Science – MDataSci

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

- 1 In order to be admitted to this degree, a student must have completed the requirements for:
  - a (i) the Degree of Bachelor of Science in Data Science from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
  - or
  - (ii) the Degree of Bachelor of Science with a double major in Computer Science and Statistics from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
  - or
  - b (i) the Degree of Bachelor of Science with a major in Computer Science or Statistics from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
  - and
  - (ii) STATS 101, or an equivalent course approved by the Director.

### Duration and Total Points Value

- 2 A student admitted to this degree under Regulation 1a must:
  - a pass courses with a total value of 180 points
  - and
  - b complete within the time limit specified in the General Regulations – Masters Degrees
  - and
  - c not exceed 220 points for the total enrolment in this degree.
- 3 A student admitted to this degree under Regulation 1b must:
  - a pass courses with a total value of 240 points

  - and
  - c not exceed 280 points for the total enrolment in this degree.

### Structure and Content

- 4 a A student enrolled for this degree must complete the requirements as listed in the Master of Data Science Schedule.
- b A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses prior to enrolment in DATASCI 792. If this Grade Point Average is not achieved, enrolment in the Master of Data Science cannot continue.
- c A student who has to complete 240 points must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses prior to enrolment in DATASCI 792. If this Grade Point Average is not achieved, enrolment in the Master of Data Science cannot continue.
- 5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Dissertation**

- 6 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
- b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.
- c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Reassignment**

- 7 A student who does not achieve the Grade Point Average specified in Regulation 4 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science.

**Variations**

- 8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Honours**

- 9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

**Commencement**

- 10 These regulations came into force on 1 January 2020. The 2019 regulations for the Degree of Master of Data Science were thereby repealed.

  - and
  - (ii) the Stage III entry requirements for this degree

may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol for this degree. The requirements for the Degree of Bachelor of Science must be completed within 12 months of initial enrolment for the Degree of Master of Science. Should these requirements not be completed within these 12 months, enrolment for the Degree of Master of Science will be suspended until they have been completed.
- b A student who has not completed all the requirements of the Degree of Bachelor of Science (Honours) or the Postgraduate Diploma in Science but who has:

- (i) passed 105 points towards the Degree of Bachelor of Science (Honours) or the Postgraduate Diploma in Science

and

- (ii) met all other entry and prerequisite requirements

may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol for this degree. The requirements for the Degree of Bachelor of Science (Honours) or Postgraduate Diploma in Science must be completed within 12 months of initial enrolment for the Master of Science. Should these requirements not be completed within these 12 months, enrolment for the Master of Science will be suspended until they have been completed.

- 3 In exceptional circumstances Senate or its representative may approve the admission of a student who has completed the requirements of a Bachelor of Science, or an equivalent qualification, and has significant relevant professional scientific experience.
- 4 Admission to this degree requires approval from the relevant Head of Department, Director of School, or equivalent and is at the discretion of Senate or its representative.

### Duration and Total Points Value

- 5 A student admitted to this degree under Regulation 1a must:
  - a pass courses with a total value of 240 points
 and
  - b complete within the time limit specified in the General Regulations – Masters Degrees
 and
  - c not exceed 280 points for the total enrolment for this degree.
- 6 A student admitted to this degree under Regulation 1b or 3 must:
  - a pass courses with a total value of 120 points
 and
  - b complete within the time limit specified in the General Regulations – Masters Degrees
 and
  - c not exceed 160 points for the total enrolment for this degree.

### Structure and Content

- 7 A student enrolled for this degree must complete the requirements for one of the subjects as listed in the Master of Science Schedule.
- 8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Thesis / Research Portfolio / Dissertation

- 9 a A thesis, research portfolio, or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
  - (i) The thesis or dissertation topic for the 120 point MSc must be approved by the relevant Departmental Postgraduate Committee prior to enrolment in the degree.
  - (ii) The thesis or dissertation topic for the 240 point MSc must be approved by the relevant Departmental Postgraduate Committee prior to enrolment in the thesis or dissertation.
- c A student who has to complete 240 points for this degree and whose programme includes a thesis, research portfolio or dissertation needs, before enrolment for the thesis, research portfolio or dissertation, to obtain an average grade of at least B– in 90 points selected from the first 120 points passed in the coursework component of the degree. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Science for all subjects except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.
- d A student who has passed at least 105 points but fewer than 120 points of a 240 point degree and obtained an average grade of at least B– in 90 points may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol in the thesis, research portfolio or dissertation, but must have completed 120 points for the coursework component of the degree within 12 months of initial enrolment in the thesis, research portfolio or dissertation. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Science for all subjects except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.
- e The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

## Reassignment

- 10 A student who does not meet the requirements of this degree may apply to reassign courses passed for the Master of Science to the Postgraduate Diploma in Science for all subjects except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

## Variations

- 11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

## Honours / Distinction / Merit

- 12 This degree may be awarded with either Honours, Distinction, or Merit in accordance with the General Regulations – Masters Degrees.

## Commencement

- 13 These regulations came into force on 1 January 2017. The 2010 regulations for the Degree of Master of Science were thereby repealed.

### Master of Science (MSc) Schedule

---

A student who has to complete 120 points must satisfy the requirement for one of the following subjects:

#### Applied Mathematics

**Prerequisite:** A BSc(Hons) or PGDipSci in Applied Mathematics

**Requirement:**

**Research Masters**

- 120 points: MATHS 795 MSc Thesis in Applied Mathematics

#### Bioinformatics

**Prerequisite:** A BSc(Hons) in Bioinformatics, or a PGDipSci in Bioinformatics including BIOSCI 761, or an equivalent qualification as approved by the Programme Director

**Requirement:**

**Research Masters**

- 120 points: BIOINF 796 MSc Thesis in Bioinformatics

#### Biological Sciences

**Prerequisite:** A BSc(Hons) in Biological Sciences, or a PGDipSci in Biological Sciences including BIOSCI 761, or an equivalent qualification as approved by the Director

**Requirement:**

**Research Masters**

- 120 points: BIOSCI 796 MSc Thesis in Biological Sciences

#### Biomedical Science

*The MSc in Biomedical Science was suspended in 2016. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.*

**Prerequisite:** A BSc(Hons) in Biomedical Science, or a PGDipSci in Biomedical Science, or an equivalent qualification as approved by the Board of Studies (Biomedical Science)

**Requirement:**

**Research Masters**

- 120 points: BIOMED 796 MSc Thesis in Biomedical Science

#### Biosecurity and Conservation

**Prerequisite:** A PGDipSci in Biosecurity including BIOSCI 761 or ENVSCI 701, or an equivalent qualification as approved by the Director, School of Biological Sciences, or the Director, School of Environment

**Requirement:**

**Research Masters**

- 120 points: BIOSEC 796 Thesis in Biosecurity and Conservation

#### Biotechnology

**Prerequisite:** A BSc(Hons) or PGDipSci in Biotechnology or Biological Sciences including BIOSCI 761

**Requirement:**

**Research Masters**

- 30 points from BIOINF 701, BIOSCI 724–746, 749–759
- 90 points: BIOTECH 794 Thesis

#### Chemistry

**Prerequisite:** A BSc(Hons) or PGDipSci in Chemistry including CHEM 795

**Requirement:**

**Research Masters**

- 120 points: CHEM 796 MSc Thesis in Chemistry

#### Clinical Exercise Physiology

**Prerequisite:** A PGDipSci in Clinical Exercise Physiology or equivalent qualification as approved by the Head of Department

**Requirement:**

**Taught Masters**

- 75 points: EXERSCI 773, 774, 775
- 45 points: EXERSCI 792 Dissertation

#### Computer Science

**Prerequisite:** A BSc(Hons) or PGDipSci in Computer Science

**Requirement:**

**Research Masters**

- 120 points: COMPSCI 796 MSc Thesis in Computer Science

#### Earth Sciences

**Prerequisite:** A BSc(Hons) or PGDipSci in Applied Geology, Earth Sciences, Geography, or Geology

**Requirement:**

**Research Masters**

- 120 points: EARTHSCI 796 MSc Thesis in Earth Sciences

#### Environmental Management

**Prerequisite:** A PGDipSci in Environmental Management

**Requirement:**

**Research Masters**

- 120 points: ENVMGT 796 MSc Thesis in Environmental Management

#### Environmental Science

**Prerequisite:** A PGDipSci in Environmental Science or equivalent including ENVSCI 701

**Requirement:**

**Research Masters**

- 120 points: ENVSCI 796 MSc Thesis in Environmental Science

## Exercise Sciences

**Prerequisite:** A BSc(Hons) or PGDipSci in Sport and Exercise Science, Exercise Sciences or a PGDipSci in Clinical Exercise Physiology

**Requirement:**

**Research Masters**

- 120 points: EXERSCI 796 MSc Thesis in Exercise Sciences

## Food Science

**Prerequisite:** A BSc(Hons) or PGDipSci in Food Science, or equivalent

**Requirement:**

**Research Masters**

- 120 points: FOODSCI 796 MSc Thesis in Food Science

## Forensic Science

**Prerequisite:** A Postgraduate Diploma in Forensic Science with an average of B– or higher or other relevant qualifications as approved by the Programme Director

**Requirement:**

**Research Masters**

- 120 points: FORENSIC 796 MSc Thesis in Forensic Science

## Geography

**Prerequisite:** A BSc(Hons) or PGDipSci in Geography

**Requirement:**

**Research Masters**

- 120 points: GEOG 796 MastersThesis in Geography

## Geophysics

**Prerequisite:** A BSc(Hons) or PGDipSci in Geophysics

**Requirement:**

**Research Masters**

- 120 points: GEOPHYS 796 MSc Thesis in Geophysics

## Green Chemical Science

**Prerequisite:** A specialisation in Chemistry or Green Chemical Science or an equivalent subject approved by the Director, including CHEM 760, 795, and ENVSCI 701 or equivalent courses approved by the Director

**Research Masters**

**Requirement:**

- 120 points: CHEM 796 Thesis

## Logic and Computation

**Prerequisite:** A BSc(Hons) or PGDipSci in Logic and Computation

**Requirement:**

**Research Masters**

- 120 points: LOGICOMP 796 Thesis

## Marine Science

**Prerequisite:** A PGDipSci in Marine Science or equivalent

**Requirement:**

**Research Masters**

- 120 points: MARINE 796 MSc Thesis in Marine Science

## Mathematics

**Prerequisite:** A BSc(Hons) or PGDipSci in Mathematics

**Requirement:**

**Research Masters**

- 120 points: MATHS 796 Thesis in Mathematics
- or
- 30 points from MATHS 701–789, or approved 700 level courses in related subjects with the approval of the Head of Department
- 90 points: MATHS 798 Research Portfolio in Mathematics

## Medical Statistics

**Prerequisite:** A major in Medical Statistics or Statistics or an equivalent subject approved by the Academic Head or nominee, with an average of 5.0 or higher including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee

**Requirement:**

**Taught Masters**

- 30 points: STATS 768, 780
- 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
- 30 points from BIOINF 704, POPLHLTH 707–709, 711, 767, STATS 701–703, 705, 708–731, 735–767, 769–779, 782–787, or other 700 level courses offered at this University approved by the Academic Head or nominee
- 45 points: STATS 793 Dissertation

## Optometry

**Prerequisite:** A BOptom or a PGDipSci in Optometry, and current registration as an optometrist and an annual practising certificate

**Requirement:**

**Research Masters**

- 120 points: OPTOM 796 MSc Thesis in Optometry

**Taught Masters**

- 90 points: OPTOM 791
- 30 points: OPTOM 757

## Pharmacology

**Prerequisite:** A BSc(Hons) or PGDipSci in Pharmacology

**Requirement:**

**Research Masters**

- 120 points: PHARMCOL 796 MSc Thesis in Pharmacology

## Physics

**Prerequisite:** A BSc(Hons) or PGDipSci in Physics

**Requirement:**

**Research Masters**

- 120 points: PHYSICS 796 MSc Thesis in Physics

## Physiology

**Prerequisite:** A BSc(Hons) or PGDipSci in Physiology

**Requirement:**

**Research Masters**

- 120 points: PHYSIOL 796 MSc Thesis in Physiology

## Psychology

**Prerequisite:** A BSc(Hons) or PGDipSci in Psychology and PSYCH 306, or equivalent as approved by the Head of School

**Requirement:**

**Research Masters**

- 120 points: PSYCH 796 Thesis in Psychology

## Speech Science

**Prerequisite:** A PGDipSci in Speech Science, or equivalent as approved by the Chair of the Board of Studies

**Requirement:**

**Research Masters**

- 120 points: SPCHSCI 796 MSc Thesis in Speech Science

## Statistics

**Prerequisite:** A BSc(Hons) or PGDipSci in Statistics or Medical Statistics with an average of B or higher; and STATS 210 or 225, or equivalent

**Requirement:**

**Research Masters**

- 30 points from 700 level courses in Statistics or other approved 600 or 700 level courses offered at this University
- 90 points: STATS 798 Thesis

**Taught Masters**

- 15 points: STATS 732
- at least 45 points from BIOINF 704, POPLHLTH 707–709, 711, STATS 701–787
- up to 15 points from another approved 700 level course offered at this University
- 45 points: STATS 793 Dissertation

**Wine Science**

**Prerequisite:** A PGDipSci in Wine Science

**Requirement:**

**Research Masters**

- 120 points: WINESCI 796 MSc Thesis in Wine Science

A student who has to complete 240 points must satisfy the requirement for one of the following subjects:

**Applied Mathematics**

**Prerequisite:** A major in Applied Mathematics or Mathematics, or an equivalent subject approved by the Academic Head or nominee, including MATHS 340, 361, and MATHS 362 or 363 or equivalent courses approved by the Academic Head or nominee

**Requirement:**

**Research Masters**

- at least 60 points from MATHS 761–770
- up to 60 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department
- 120 points: MATHS 795 MSc Thesis in Applied Mathematics

**Bioinformatics**

**Prerequisite:** A BSc with a major in Bioinformatics or Biological Sciences and COMPSCI 220, or equivalent as approved by the Programme Director

**Requirement:**

**Research Masters**

- 75 points: BIOINF 701, 702, 704, BIOSCI 702, 761
- 45 points from BIOSCI 733, 737, 752, 755–758, COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 732, 761, 783, 784, or related 700 level courses, from at least two departments as approved by the Programme Director
- 120 points: BIOINF 796 MSc Thesis in Bioinformatics

**Biological Sciences**

**Prerequisite:** A major in Biological Sciences, or equivalent as approved by the Director

**Requirement:**

**Research Masters**

- 15 points: BIOSCI 761
- at least 75 points from BIOINF 701, BIOSCI 724–746, 749–761
- up to 30 points from approved 700 level courses in a related subject
- 120 points: BIOSCI 796 MSc Thesis in Biological Sciences

**Biomedical Science**

*The MSc in Biomedical Science was suspended in 2016. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.*

**Prerequisite:** A major in Biomedical Science, or equivalent as approved by the Board of Studies (Biomedical Science)

**Requirement:**

**Research Masters**

- at least 90 points from MEDSCI 703–723, 725–739, BIOINF 701, BIOSCI 728, 729, 733, 736, 737, 738, 741, 746, 755–761, HLTHPSYC 716
- up to 30 points from other 700 level courses as approved by the Board of Studies (Biomedical Science)
- 120 points: BIOMED 796 MSc Thesis in Biomedical Science

**Biosecurity and Conservation**

**Prerequisite:** An approved BSc or equivalent experience subject to approval by the Programme Director

**Requirement:**

**Research Masters**

- 15 points: BIOSCI 761 or ENVSCI 701
- 45 points: BIOSCI 747, 748, ENVSCI 733

- at least 30 points from BIOSCI 724, 730, 735, 751, ENVMGT 743, 746, ENVSCI 716, 737
- up to 30 points from approved 700 level courses in the Faculty of Science
- 120 points: BIOSEC 796 Thesis in Biosecurity and Conservation

**Chemistry**

**Prerequisite:** A major in Chemistry

**Requirement:**

**Research Masters**

- 15 points: CHEM 795
- at least 75 points from CHEM 710–780
- up to 30 points from 700 level courses in Chemistry or related subjects with approval of the Head of School
- 120 points: CHEM 796 MSc Thesis in Chemistry

**Clinical Exercise Physiology**

**Prerequisite:** A BSc in Exercise Sciences, Sport and Exercise Science or equivalent approved programme

**Requirement:**

**Taught Masters**

- 90 points: EXERSCI 703, 705, 710, 712, 771, 772
- 30 points from approved 700 level courses in the Faculty of Science or the Faculty of Medical and Health Sciences
- 75 points: EXERSCI 773, 774, 775
- 45 points: EXERSCI 792 Dissertation

**Computer Science**

**Prerequisite:** A major in Computer Science

**Requirement:**

**Research Masters**

- at least 90 points from COMPSCI 701–716, 720–780
- up to 30 points from 700 level courses in a related subject with approval of the Head of Department
- 120 points: COMPSCI 796 MSc Thesis in Computer Science

**Earth Sciences**

**Prerequisite:** A major in Applied Geology, Earth Sciences, Geography, or Geology and at least 90 points at Stage III with at least 45 points at Stage III in Earth Sciences or Geology

**Requirement:**

**Research Masters**

- at least 90 points from EARTHSCI 703–772, GEOG 730, 745, 746, 771, 772, GEOPHYS 760, 761
- up to 30 points from 700 level courses as approved by the Programme Coordinator
- 120 points: EARTHSCI 796 MSc Thesis in Earth Sciences

**Environmental Management**

**Prerequisite:** An approved BSc, BE, BA, BPlan, BCom or equivalent degree

**Requirement:**

**Research Masters**

- 15 points: GEOG 701
- and
- at least 60 points from ENVMGT 741–747
- and
- up to 45 points from 700 level courses as approved by the Programme Coordinator

and

- 120 points: ENVMG 796 MSc Thesis in Environmental Management

## Environmental Science

**Prerequisite:** An approved BSc, or other equivalent degree

**Requirement:**

**Research Masters**

- 30 points: ENVSCI 701, 711
- at least 60 points from EARTHSCI 705, 720, ENVSCI 702–707, 713–738, GEOG 730, 745–749, 771, ENVMG 742, 744, MARINE 703
- up to 30 points from 700 level courses as approved by the Programme Coordinator
- 120 points: ENVSCI 796 MSc Thesis in Environmental Science

## Exercise Sciences

**Prerequisite:** A major in Sport and Exercise Science or Exercise Sciences, or equivalent

**Requirement:**

**Research Masters**

- 15 points: EXERSCI 705
- at least 75 points from EXERSCI 702–704, 706–714
- up to 30 points from other 700 level courses as approved by the Head of Department
- 120 points: EXERSCI 796 MSc Thesis in Exercise Sciences

## Food Science

**Prerequisite:** A major in Food Science, or Food Science and Nutrition, or in Biological Sciences, or in Chemistry, or in other relevant areas as approved by the Programme Coordinator

**Requirement:**

**Research Masters**

- 60 points from FOODSCI 703, 707, 708, CHEMMAT 757
- 60 points from approved 700 level courses
- 120 points: FOODSCI 796 MSc Thesis in Food Science

## Forensic Science

**Prerequisite:** An approved BSc or other equivalent degree as approved by the Programme Director

**Requirement:**

**Research Masters**

- 105 points from FORENSIC 701–704, 706, 707
- 15 points from 700 level courses as approved by the Programme Director
- 120 points: FORENSIC 796 MSc Thesis in Forensic Science

## Geography

**Prerequisite:** A major in Geography or Earth Sciences with 45 points at Stage III in Geography

**Requirement:**

**Research Masters**

- 15 points: GEOG 701
- at least 75 points from EARTHSCI 705, 713, 732, ENVMG 741–746, ENVSCI 704, 713, 737, 738, GEOG 712–779
- up to 30 additional points from other 700 level courses in a related subject as approved by the Academic Head
- 120 points: GEOG 796 Masters Thesis in Geography

## Geophysics

**Prerequisite:** A major in Geophysics, or equivalent as approved by the Geophysics Graduate Programme Advisor

**Requirement:**

**Research Masters**

- 30 points from GEOPHYS 711–713, 761
- 90 points from 700 level courses in Earth Sciences, Geophysics, Mathematics, Physics or other Science subjects approved by the Programme Coordinator
- 120 points: GEOPHYS 796 MSc Thesis in Geophysics

## Green Chemical Science

**Prerequisite:** A major or specialisation in Chemistry or Green Chemical Science or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director

**Research Masters**

**Requirement:**

- 75 points from CHEM 710–751, 780
- 45 points: CHEM 760, 795, ENVSCI 714
- 120 points: CHEM 796 Thesis

## Logic and Computation

**Prerequisite:** A major in Logic and Computation

**Requirement:**

**Research Masters**

- 15 points from COMPSCI 720, 750
- 15 points from PHIL 736–738
- 90 additional points from LOGICOMP 701, 702, COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, MATHS 713, 715, PHIL 736–738
- 120 points: LOGICOMP 796 Thesis

## Marine Science

**Prerequisite:** An approved BSc, BE, or equivalent degree

**Requirement:**

**Research Masters**

- 15 points: MARINE 701
- 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
- 90 points from the following 700 level courses including at least two of the following subject areas: BIOSCI 724–727, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMG 742, 744, ENVSCI 702, 704, 714, FOODSCI 703, 708, GEOG 730, 746, 748, 771, GEOPHYS 711–713, 761, MARINE 702–705, STATS 767, or other courses approved by the Programme Coordinator
- 120 points: MARINE 796 MSc Thesis in Marine Science

## Mathematics

**Prerequisite:** A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332

**Requirement:**

**Research Masters**

- at least 75 points in 700 level Mathematics courses
- up to 45 points from approved 700 level courses in Mathematics or related subjects, with the approval of the Head of Department

and either

- 120 points: MATHS 796 Thesis in Mathematics

or

- 30 points from MATHS 701–789, 792–797 or 700 level courses in related subjects as approved by the Head of Department
- 90 points: MATHS 798 Research Portfolio in Mathematics

## Medical Statistics

**Prerequisite:** A major in Statistics or an equivalent subject approved by the Academic Head or nominee

**Requirement:**

**Taught Masters**

- 75 points: POPLHLTH 708, STATS 768, 770, 773, 780
- 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
- 15 points from STATS 779, 782
- at least 60 points from BIOINF 704, POPLHLTH 707, 709, 711, 767, STATS 701–703, 705, 708–731, 735–767, 769–779, 782–787
- up to 30 points from 700 level courses offered at this University approved by the Academic Head or nominee
- 45 points: STATS 793 Dissertation

## Optometry

**Prerequisite:** A BOptom, or an equivalent qualification approved by the Head of School

**Requirement:**

**Research Masters**

either

- 120 points from OPTOM 751, 752, 757, 759

or

at least 90 points from OPTOM 751, 752, 757, 759 and up to 30 points from 700 level courses in a related subject as approved by the Head of School

- 120 points: OPTOM 796 MSc Thesis in Optometry

## Pharmacology

**Prerequisite:** A major in Pharmacology or equivalent as approved by the Head of Department

**Requirement:**

**Research Masters**

- at least 60 points from MEDSCI 700, 701, 715–723, 735, 744
- up to 60 points from other 700 level courses as approved by the Head of Department
- 120 points: PHARMCOL 796 MSc Thesis in Pharmacology

## Physics

**Prerequisite:** A major in Physics, or equivalent as approved by the Head of Department

**Requirement:**

**Research Masters**

- 75 points from PHYSICS 701–788
- and either
- 45 additional points from PHYSICS 701–788, MATHS 761–763, GEOPHYS 761–780
- or
- at least 15 additional points from PHYSICS 701–788, MATHS 761–763, GEOPHYS 761–780
- and
- up to 30 points from approved 700 level courses in related subjects as approved by the Head of Department
- 120 points: PHYSICS 796 MSc Thesis in Physics

## Physiology

**Prerequisite:** A BSc with a major in Physiology, or equivalent qualification

**Requirement:**

**Research Masters**

- 30 points: MEDSCI 733, 743
- 90 points from MEDSCI 701–703, 717, 727–734, 737, 739, 744
- 120 points: PHYSIOL 796 MSc Thesis in Physiology

## Psychology

**Prerequisite:** A major in Psychology and PSYCH 306, or equivalent as approved by the Head of School

**Requirement:**

**Research Masters**

- 120 points from PSYCH 700–770, 775
- or
- 105 points from PSYCH 700–770, 775, up to 15 points from other approved 700 level courses in related subjects
- 120 points: PSYCH 796 Thesis in Psychology

## Speech Science

**Prerequisite:** A BSc, or other qualification as approved by the Chair of the Board of Studies

**Requirement:**

**Research Masters**

- 60 points from SPCHSCI 701, 711–713, 722, 723, 733, 736, 743, 746, 751–754
- 60 points from other approved 700 level courses in Audiology, Computer Science, Engineering, Linguistics, Psychology, Physiology, Speech Science
- 120 points: SPCHSCI 796 MSc Thesis in Speech Science

## Statistics

**Prerequisite:** A major in Statistics, or equivalent as approved by the Head of Department

**Requirement:**

**Research Masters**

- 15 points: STATS 732
- 15 points from STATS 779, 782
- at least 90 points from BIOINF 704, POPLHLTH 707–709, 711, STATS 701–787
- up to 30 points from approved 700 level courses offered at this University
- 90 points: STATS 798 Thesis

**Taught Masters**

- 15 points: STATS 732
- 15 points from STATS 779, 782
- at least 150 points from BIOINF 704, POPLHLTH 707–709, 711, STATS 701–787
- up to 15 points from another approved 700 level course offered at this University
- 45 points: STATS 793 Dissertation

## Wine Science

**Prerequisite:** A BSc, or other relevant degree as approved by the Programme Director

**Requirement:**

**Research Masters**

**The Degree of Doctor of Clinical Psychology – DClinPsy**

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.*

**Preamble**

- 1 a A candidate for the Degree of Doctor of Clinical Psychology is required to pursue an approved programme of advanced study, research and clinical practice as an enrolled student of the University.
- b It is expected that this programme will normally be completed within three years of full-time candidature.
- c The Degree of Doctor of Clinical Psychology is awarded for a formal and systematic exposition of a coherent programme of advanced research work and supervised practice, carried out over the period of registration for the degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:
  - (i) that the research thesis is an original contribution to knowledge, and is of direct relevance to the field of clinical psychology
  - and
  - (ii) that the research components of the degree (thesis and clinical research projects) meet internationally recognised standards for such work
  - and
  - (iii) that the candidate has demonstrated both the knowledge of the relevant literature, in both research and clinical practice, and the ability to exercise analytical and professional judgement.
- d A Doctor of Clinical Psychology thesis may not exceed 60,000 words in total without the permission of the Board of Graduate Studies.
- e If the core of the thesis comprises a series of published or unpublished research papers, the candidate must be the lead or sole author of each paper and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.
- f If the core of the thesis does not comprise a series of published or unpublished research papers, a candidate may still include within their thesis published or unpublished research papers, provided that the candidate was the lead or sole author of each paper. The thesis must be presented in a consistent format, citation style and typeface.
- g In the case of published or unpublished research papers that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper. The thesis must be presented in a consistent format, citation style and typeface.
- h All material that is not the original work of the author must:
  - (i) be fully and appropriately attributed
  - or
  - (ii) if a substantial part of another work, be reproduced only with the written permission of the copyright owner of that other work.
- i The Portfolio of Clinical Research may not exceed 25,000 words in total and will consist of five separate reports with the maximum word limit of 5000 words for each.
- j All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

**Eligibility**

- 2 In order to be admitted to this doctoral degree, candidates must have:
  - a (i) completed the requirements for the Degree of Bachelor of Arts (Honours) or Bachelor of Science (Honours) in Psychology from this University with a Grade Point Average of 6.0 or higher
  - or

- (ii) completed the requirements for the Degree of Master of Arts or Master of Science in Psychology from this University with a Grade Point Average of 6.0 or higher
- or
- (iii) an equivalent qualification in Psychology with a Grade Point Average of 6.0 or higher as approved by the Board of Graduate Studies

and

- b (i) passed PSYCH 708, 718, 723, 779 with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

and

- (ii) passed PSYCH 780 with a Grade Point Average of 6.0 or higher, or the equivalent as approved by Senate or its representative

and

- c demonstrated in accordance with the approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking to be a Doctor of Clinical Psychology. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

- 3 Candidates must continue to meet the requirements of the Health Practitioners Competence Assurance Act (2003) for Professional and Ethical behaviour.

### Admission

- 4 Every candidate for the Degree of Doctor of Clinical Psychology must have applied for admission and been admitted to the University of Auckland.

### Duration and Total Points Value

- 5 a A candidate for this degree must follow a programme consisting of three full-time years, and pass an approved programme with a total value of 360 points.
- b Candidates must pass each part, and must normally complete the requirements for this degree within three years from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 9 of these regulations.

### Registration

- 6 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
- b The following provisional goals are required for all candidates for this degree:
  - (i) completion of PSYCH 801 and PSYCH 897 Part I
  - (ii) completion of a full thesis research proposal for PSYCH 899 Thesis to the satisfaction of the appropriate postgraduate committee
  - (iii) completion of a literature review and method section to the satisfaction of the academic unit or nominee
  - (iv) ethics approval(s) and/or permissions obtained for the research
  - (v) commence data collection
  - (vi) completion of the standard goals relating to induction, English language, academic integrity and health and safety prescribed by the Board of Graduate Studies upon commencement of the registration.
- c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

### Structure and Content

- 7 a Of the 360 points required for this degree, a student must pass Parts I, II and III, as listed in the Doctor of Clinical Psychology Schedule.

*Note that PSYCH 897 and 899 are awarded only on completion of the whole programme.*

- b (i) A student who fails any course or part of a course of the programme, may be required to repeat that part or course or to sit a special examination before proceeding into the next part of the programme.
- (ii) A student must complete PSYCH 801 before enrolment in PSYCH 802, and must complete PSYCH 802 before enrolment in PSYCH 803.
- (iii) A student who fails any part of the programme may be declined permission to enrol again in that part of the programme or, under Regulation 4g of the General Regulations for Named Doctorates, be declined permission to enrol in the programme as a whole.

### Reviews of Registration

- 8 Reviews of registration will be made each year in accordance with Regulation 3 of the General Regulations for Named Doctorates, except that Regulation 3c(ii) will not apply. Instead, candidates may be confirmed subject to specified conditions.

### Changes to the Conditions of Registration

- 9 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

### Enrolment and Fees

- 10 Enrolment and fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

### Submission

- 11 a All candidates are initially required to submit one copy of the thesis and the Portfolio of Clinical Research in temporary binding and one electronic copy in pdf format of the thesis and the Portfolio of Clinical Research to the Graduate Centre. Copies should include the following statement to examiners on the first page:  
"This thesis and portfolio are for examination purposes only and are confidential to the examination process."
- b Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the thesis and the Portfolio of Clinical Research in no fewer than three and no more than four years from the Date of Registration.
- c Three months prior to the expected date of submission, candidates should notify the Graduate Centre in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the thesis and the Portfolio of Clinical Research on the grounds of conflict of interest, the candidate may also submit at this time the name of this person and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.
- d The thesis and Portfolio of Clinical Research are to be accompanied by a statutory declaration, signed by the candidate stating:
- (i) that the thesis and Portfolio of Clinical Research are the candidate's own work
  - (ii) whether any part of the thesis or Portfolio of Clinical Research (in form or substance) has been submitted or accepted for any other degree or diploma and, where that is the case, clearly setting out the extent to which that earlier work has been incorporated into the thesis or Portfolio of Clinical Research
  - (iii) that written permission has been obtained for any third-party copyright material reproduced in the thesis or Portfolio of Clinical Research that represents a "substantial part" of the other work
  - (iv) that the temporary-bound copy and electronic copy are identical.
- e The thesis and Portfolio of Clinical Research are to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.
- f Where the thesis or Portfolio of Clinical Research contain jointly authored research papers and/or any other jointly authored work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.

Where the thesis or Portfolio of Clinical Research include research reported in published or unpublished co-authored works (other than as in Regulations 1e and 1f), a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.

### Examination

- 12 a The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016 except that:
- (i) examiners will be requested to examine the thesis according to the criteria of Clause 1(c) of these regulations, and to provide an assessment of the grades assigned to the Portfolio of Clinical Research
  - (ii) candidates may be asked to make specified minor corrections to or resubmit all or part of the Portfolio of Clinical Research.
- b In the event that a candidate is asked to resubmit all or part of the Portfolio of Clinical Research the same process of examination will be followed for the resubmitted work.

### Variations

- 13 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

### Appeals

- 14 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

### Dispute Resolution Procedures

- 15 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

### Transitional Arrangements

- 16 a These regulations came into force on 1 January 2020. The 2016 regulations for the Degree of Doctor of Clinical Psychology were thereby repealed.
- b For candidates initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of this statute to ensure consistency with the provisions of the statute under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

- 6 A student enrolled for this postgraduate diploma must pass 120 points in one of the specialisations listed in the Postgraduate Diploma in Science Schedule.
- 7 A project or dissertation of up to 45 points from courses listed in the Postgraduate Diploma in Science Schedule may be included.

- 8 The programme for each student must be approved by the relevant Head of Department, Director of School or equivalent.
- 9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Project / Dissertation

- 10 a A project or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative on the recommendation of the Head of Department, Director of School or equivalent.
- b The dissertation or project topic must be approved by the relevant Head of Department or Director of School prior to enrolment.
- c The dissertation is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

### Variations

- 11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Distinction

- 12 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

### Commencement

- 13 These regulations came into force on 1 January 2020. The 2006 regulations for the Postgraduate Diploma in Science were thereby repealed.

### Specialisations available:

#### Applied Mathematics

**Prerequisite:** A major in Applied Mathematics or Mathematics, or an equivalent subject approved by the Academic Head or nominee, including MATHS 340, 361, and MATHS 362 or 363, or equivalent courses approved by the Academic Head or nominee

**Requirement:**

- at least 60 points from MATHS 761–770
- up to 60 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department

#### Bioinformatics

**Prerequisite:** A BSc with a major in Bioinformatics or Biological Sciences and COMPSCI 220, or equivalent as approved by the Programme Director

**Requirement:**

- 45 points from BIOINF 702, 704, BIOSCI 702
- 75 points from BIOINF 701, BIOSCI 733, 737, 752, 755–758, 761 COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 732, 761, 783, 784, or related 700 level courses, as approved by the Programme Director

#### Biological Sciences

**Prerequisite:** A major in Biological Sciences, or equivalent as approved by the Director

**Requirement:**

- at least 90 points from BIOINF 701, BIOSCI 724–746, 749–761
- up to 30 points from 600 or 700 level courses in a related subject

#### Biomedical Science

*The PGDipSci in Biomedical Science was suspended in 2016. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.*

**Prerequisite:** A major in Biomedical Science, or equivalent as approved by the Board of Studies (Biomedical Science)

**Requirement:**

- at least 90 points from MEDSCI 703–723, 725–740, BIOINF 701, BIOSCI 728, 729, 733, 736, 737, 738, 741, 746, 755–761, HLTHPSYC 716
- up to 30 points from other 600 or 700 level courses as approved by the Board of Studies (Biomedical Science)

#### Biosecurity and Conservation

**Prerequisite:** An approved BSc or equivalent experience subject to approval by the Programme Director

**Requirement:**

- 45 points: BIOSCI 747, 748, ENVSCI 733
- 45 points from BIOSCI 761 or ENVSCI 701, BIOSCI 724, 730, 733, 734, 735, 738, 751, ENVMTG 742, 743, 746, ENVSCI 716, 734, 737
- 30 points from approved 700 level courses in the Faculty of Science

#### Biotechnology

**Prerequisite:** A major in Biotechnology, or equivalent as approved by the Director, and at least 90 points at Stage III

**Requirement:**

- 45 points from BIOSCI 741, 752, 755, 759
- 30 points: SCIENT 701, 703
- 45 points from other approved 700 level courses in Biological Sciences

#### Chemistry

**Prerequisite:** A major in Chemistry

**Requirement:**

- at least 90 points from CHEM 691, 710–780, 795
- up to 30 points from 600 or 700 level courses in Chemistry or related subjects with approval of the Head of Department

*Note: Students intending to study for a Master of Science in Chemistry must take CHEM 795*

## Clinical Exercise Physiology

**Prerequisite:** A major in Exercise Sciences, Sport and Exercise Science, or an equivalent qualification and EXERSCI 302 or equivalent as approved by the Head of Department

**Requirement:**

- 90 points: EXERSCI 703, 705, 710, 712, 771, 772
- 30 points from approved 700 level courses in the Faculty of Science or the Faculty of Medical and Health Sciences

## Computer Science

**Prerequisite:** A major in Computer Science

**Requirement:**

- at least 90 points from COMPSCI 691, 701–716, 720–780, BIOINF 702
- up to 30 points from 700 level courses in a related subject with approval of the Academic Head or nominee

## Earth Sciences

**Prerequisite:** A major in Earth Sciences, Geography, or Geology with at least 45 points at Stage III in Earth Sciences or Geology courses or GEOG 330, 331, 334, 351, 360 or equivalent

**Requirement:**

- at least 90 points from EARTHSCI 703–772, GEOG 730, 732, 745, 746, 770–772, GEOPHYS 760, 761
- up to 30 points from 700 level courses as approved by the Programme Coordinator

## Environmental Management

**Prerequisite:** An approved BSc, BE, BA, BPlan, BCom or equivalent degree

**Requirement:**

- 15 points: GEOG 701
- at least 60 points from ENVMGT 741–762
- up to 45 points from 700 level courses as approved by the Programme Coordinator

## Environmental Science

**Prerequisite:** An approved BSc, or other equivalent degree

**Requirement:**

- 30 points: ENVSCI 701, 711
- at least 60 points from EARTHSCI 705, 720, ENVSCI 702–707, 713–738, GEOG 730, 745–749, 770, 771, ENVMGT 742, 744, MARINE 703
- up to 30 points from 700 level courses as approved by the Programme Coordinator

## Exercise Sciences

**Prerequisite:** A major in Exercise Sciences, Sport and Exercise Science, or equivalent as approved by the Head of Department

**Requirement:**

- 15 points: EXERSCI 705
- at least 45 points from 700 level courses in Exercise Sciences as approved by the Head of Department
- up to 60 points from other 600 or 700 level courses in Biological Sciences, Engineering, Exercise Sciences, Food Science, Nutrition, Physiology, Psychology, Statistics, or related subjects, as approved by the Head of Department

## Food Science

**Prerequisite:** A major in Food Science, or in Food Science and Nutrition, or in Biological Sciences, or in Chemistry, or in other relevant areas as approved by the Programme Coordinator

**Requirement:**

- 60 points from FOODSCI 703, 707, 708, CHEMMAT 757
- 60 points from approved 600 and 700 level courses

## Geography

**Prerequisite:** A major in Geography or Earth Sciences with 45 points at Stage III in Geography

**Requirement:**

- 15 points: GEOG 701
- at least 75 points from EARTHSCI 705, 713, 732, ENVMGT 741–762, ENVSCI 704, 713, 737, 738, GEOG 712–779
- up to 30 points from other approved 700 level courses offered at this University

## Geophysics

**Prerequisite:** A major in Geophysics, Physics, or a related subject, with appropriate knowledge in the Earth Sciences

**Requirement:**

- 45 points from EARTHSCI 763, GEOPHYS 711–713, 761, PHYSICS 743
- 75 points from approved 600 or 700 level courses in in Earth Sciences, Geophysics, Mathematics, Physics or other Science subjects approved by the Head of Department

## Green Chemical Science

**Prerequisite:** A major or specialisation in Chemistry or Green Chemical Science or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director

**Requirement:**

- 90 points from CHEM 691, 710–751, 780, 795
- 30 points: CHEM 760, ENVSCI 714

## Logic and Computation

**Prerequisite:** A major in Logic and Computation

**Requirement:**

- 15 points from COMPSCI 720, 750, 760, 767
- 15 points from PHIL 736–738
- 90 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738

## Marine Science

**Prerequisite:** An approved BSc, BE, or equivalent degree

**Requirement:**

- 15 points: MARINE 701
- 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
- 90 points from the following 700 level courses including at least two of the following subject areas: BIOSCI 724–727, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMGT 742, 744, ENVSCI 702, 704, 714, FOODSCI 703, 708, GEOG 730, 746, 748, 771, GEOPHYS 711–713, 761, MARINE 702–705, STATS 767, or other courses approved by the Programme Coordinator

## Mathematics

**Prerequisite:** A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332

**Requirement:**

- at least 75 points in 700 level Mathematics courses
- up to 45 points from approved 600 or 700 level courses in Mathematics or related subjects, with the approval of the Head of Department

## Medical Statistics

**Prerequisite:** A major in Statistics, or equivalent as approved by the Head of Department, and STATS 210 or 225

**Requirement:**

- 45 points: POPLHLTH 708, STATS 770, 773
- 15 points from STATS 779, 782 or equivalent

- at least 30 points from STATS 701–703, 705, 708–787, BIOINF 704, POPLHLTH 707–709, 711, 767
- up to 30 points from 700 level courses in Statistics or related subjects, as approved by the Head of Department

### Optometry

**Prerequisite:** A BOptom, or an equivalent qualification approved by the Head of School

**Requirement:**

- 120 points from OPTOM 751, 752, 757, 759
- or
- at least 90 points from OPTOM 751, 752, 757, 759
- up to 30 further points, subject to approval by the Head of Department, from approved 600 or 700 level courses in a related subject

### Pharmacology

**Prerequisite:** A major in Pharmacology or equivalent as approved by the Head of Department

**Requirement:**

- at least 60 points from MEDSCI 700, 701, 715–723, 735, 744
- up to 60 points from other 600 or 700 level courses as approved by the Head of Department

### Physics

**Prerequisite:** A major in Physics, or equivalent as approved by the Head of Department

**Requirement:**

- 75 points from PHYSICS 625–681, 691, 701–787, 788
- and
- a further 45 points from PHYSICS 625–681, 691, 701–787, 788, MATHS 761–770, GEOPHYS 761, 780
- or
- at least 15 points from PHYSICS 625–681, 691, 701–787, 788, MATHS 761–770, GEOPHYS 761, 780
- up to 30 points, subject to the approval of the Head of Department, from approved 600 and 700 level courses in related subjects

### Physiology

**Prerequisite:** A BSc with a major in Physiology, or equivalent qualification

**Requirement:**

- 30 points from MEDSCI 733, 743
- 90 points from MEDSCI 701, 703, 717, 727–734, 737, 739, 744

### Psychology

**Prerequisite:** A major in Psychology, or equivalent

**Requirement:**

*either*

- 120 points from PSYCH 700–770, 775

*or*

- 105 points from PSYCH 700–770, 775
- 15 points from other approved 600 or 700 level courses offered at this University

*or*

- Applied Behaviour Analysis: 120 points: PSYCH 741, 749, 750, 751, 754, 759

### Speech Science

**Prerequisite:** A BSc, or other qualification as approved by the Chair of the Board of Studies

**Requirement:**

- 60 points from SPCHSCI 701, 711–713, 722, 723, 733, 736, 743, 746, 751–754
- 60 points from other approved 600 or 700 level courses in Audiology, Computer Science, Engineering, Linguistics, Physiology, Psychology, Speech Science

### Statistics

**Prerequisite:** A major in Statistics, or equivalent as approved by the Head of Department, and STATS 210 or 225

**Requirement:**

- 15 points from STATS 779, 782 or equivalent
- at least 75 points from STATS 701–703, 705, 708–787, BIOINF 704, POPLHLTH 707–709, 711
- up to 30 points from 700 level courses in Statistics or related subjects, as approved by the Head of Department

### Wine Science

**Prerequisite:** A BSc, or other relevant degree as approved by the Programme Director

**Requirement:**

- at least 75 points from WINESCI 701–708
- up to 45 points from approved 600 and 700 level courses in Biological Sciences, Chemical and Materials Engineering, Chemistry, Food Science or Geography

## REGULATIONS – INTERFACULTY PROGRAMMES

### The Degree of Bachelor of Global Studies – BGlobalSt

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Duration and Total Points Value

- 1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

#### Structure and Content

- 2 Of the 360 points required for this degree, a student must pass:
  - a at least 300 points from courses listed in the Bachelor of Global Studies Schedule, including:
    - (i) at least 195 points above Stage I, including at least 75 points above Stage II
    - (ii) 45 points: GLOBAL 100, 200, 300
    - (iii) a major of at least 150 points from the Bachelor of Global Studies Schedule, of which at least 45 points must be above Stage II
    - (iv) 60 points from one of the Languages listed in the Bachelor of Global Studies Schedule, of which at least 30 points must be above Stage I
    - (v) 45 points from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is aligned with the chosen Language, of which at least 15 points must be above Stage II.
  - b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*
  - c up to 30 points from courses available for this programme or other programmes at this University.
- 3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

#### General Education Exemptions

- 4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
 

*either*

  - (i) completed an undergraduate degree at a tertiary institution
  - or*
  - (ii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.
- b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
- c A student who has been fully exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

#### Conjoint Degrees

- 5 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the *University Calendar*.

#### Special Cases

- 6 a For Language courses, enrolment of students with prior knowledge of the language is at the discretion of the Academic Head or nominee.
- b Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level. A student who is required to enrol in a more advanced course may choose either to complete 60 points of Language courses or complete alternative course(s) from elsewhere in the Bachelor of Global Studies Schedule.
- c If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course.

- d A student who has passed or been credited with a language acquisition course may not enrol for a course which precedes that course in the sequence of language acquisition courses.

### Variations

- 7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 8 These regulations came into force on 1 January 2018.

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

- 1 In order to be admitted to this programme, a student needs to have:
  - a completed the requirements for either
    - (i) the Postgraduate Diploma in Bioscience Enterprise
 or

- (ii) any other equivalent qualification approved by Senate or its representative  
and
  - b attained a B+ average in at least 90 points taken for the Postgraduate Diploma in Bioscience Enterprise  
and
  - c approval from the Director of School, or equivalent.
- 2 A student who has not completed all the requirements of the Postgraduate Diploma in Bioscience Enterprise but who has:
- a passed 105 points towards the Postgraduate Diploma in Bioscience Enterprise  
and
  - b met all other entry and prerequisite requirements
- may, with the approval of the Director of School or equivalent, enrol for this degree. The requirements for the Postgraduate Diploma in Bioscience Enterprise must be completed within 12 months of initial enrolment for the Master of Bioscience Enterprise. Should these requirements not be completed within these 12 months, enrolment for the Master of Bioscience Enterprise will be suspended until they have been completed.

### Duration and Total Points Value

- 3 A student enrolled for this degree must:
- a pass courses with a total value of 120 points  
and
  - b complete within the time limit specified in the General Regulations – Masters Degrees.

- 2 Except as otherwise specified in these regulations, each student's programme is to be governed by the regulations for each of the component degrees.
- 3 Only when all the requirements for both component degrees have been satisfied may the two degrees be conferred upon the student.

### Admission

- 4 Admission to a conjoint degrees combination may be at initial enrolment, or after the student has passed or been credited with not more than 270 points for either component degree, but the student must not have graduated in either of the component degrees.
- 5
  - a A student for a conjoint degrees combination must gain admission to each of the component degrees and
  - b achieve a standard equivalent to a Grade Point Equivalent (GPE) of at least 3.9, except for the Bachelor of Engineering (Honours) which requires a GPE of at least 5.5, in the last year of full-time study.

### Continuation

- 6 In order to continue in a conjoint degrees combination, a student needs to achieve a Grade Point Average (GPA) of at least 3.5 each year, except for the Bachelor of Engineering (Honours) conjoint degrees combinations which

require a GPA of 4.0 each year, and Bachelor of Advanced Science (Honours) conjoint degrees combinations which require a GPA of 5.0 each year.

- 7 A student who has been discontinued from a conjoint degrees combination due to the continuation requirement specified in Regulation 6 may apply for readmission. To be eligible for readmission:
  - a the student must have achieved a GPA of at least 3.5, 4.0 for the Bachelor of Engineering (Honours) or 5.0 for the Bachelor of Advanced Science (Honours), in the most recent 120 points of study towards one or more of the component degrees following the student's discontinuation. In exceptional circumstances the required grade point average may be waived by Senate or its representative.
  - b if a student has fewer than 120 points to complete then they may apply for readmission immediately.
  - c neither of the component degrees can have been awarded.
- 8 A student must state the reasons for re-admission, and include evidence where applicable. Where such application is made, the Deans or nominees of the respective faculties may:
  - a permit the student to be readmitted to the conjoint degrees combination
  - b permit the student to be readmitted under specific conditions
  - c decline readmission.
- 9 A student may be readmitted to a conjoint degrees combination once, other than in exceptional circumstances approved by Senate or its representative.

### Approval

- 10 As a condition of approval, Senate or its representative may require that a student include in a conjoint programme:
  - a a specified major subject or specialisation
  - b specified elective courses.

### Duration and Total Points Requirements

- 11 The duration of a conjoint degrees combination is determined by the sum of the points required for each of the component degrees as set out in the Schedule of Requirements in these regulations.

### General Education

- 12 a A student is exempted from the requirement to pass a course offered in the General Education Schedule who has:
 

*either*

  - (i) completed an undergraduate degree at a tertiary institution

*or*

  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006.
- b A student who has been admitted to either component degree of a conjoint degree combination who has completed 120 points or more of degree-level study at another tertiary institution is exempted from the General Education requirement for the conjoint degree.
- c A student who has been exempted from the General Education requirement must substitute 15 points from courses available for the component degrees.
- d A student who has been exempted from the General Education requirement is nonetheless required to complete the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

### Suspension

- 13 A student may in any year totally suspend study for both component degrees of a conjoint degrees combination.

### Additional Component Degrees/Diplomas

- 14 a If a student has satisfied the requirements of one (but not both) of the component degrees and would be eligible to have that degree conferred, the relevant Dean may approve the suspension of enrolment for the conjoint degree to allow the student to enrol for a relevant honours or Masters degree or diploma. In that case the total number of points passed must satisfy the regulations specified for that programme.
- b With the approval of the relevant Deans, a student who suspends conjoint study to pursue a graduate programme may complete the conjoint degrees combination provided they have not graduated with the completed component degree in the meantime.

### Graduation

- 15 A student must graduate in all components of the conjoint degrees combination in one or more ceremonies in the same graduation period.

*Note: Graduation in one component of the conjoint degrees combination constitutes a discontinuation of the conjoint degrees.*

### Variations

- 16 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Commencement

- 17 These regulations came into force on 1 January 2019. The 2006 regulations for the Conjoint Degrees were thereby repealed.

*The specific requirements for each conjoint degree combination can be found under its respective Schedule.*

## OTHER UNIVERSITY COURSES

---

### Academic English Studies

Academic English Studies offers credit courses for international students and New Zealand residents whose first language is not English.

A range of courses is offered with the aim of improving academic English skills and increasing proficiency in reading and writing for academic purposes. Students gain credit points for successfully passing each course.

ACADENG 100 develops skills in English grammar and vocabulary for academic reading and writing. ACADENG 101 focuses on academic writing, and the skills needed for basic academic essays. ACADENG 104 focuses on academic English skills to help Business students understand and express business-related concepts. At Stage II level, ACADENG 210 is an advanced academic writing course for students who need to write different kinds of research reports.

ACADENG 100, ACADENG 101, and ACADENG 104 are approved courses for students who have not met the Academic English Language Requirement (AELR). ACADENG 104 can be taken as an elective but priority is given to Business students who need the course to meet the AELR.

Further information may be obtained from the School of Cultures, Languages and Linguistics, Faculty of Arts.  
Phone: +64 9 373 7599 ext 84066.

### New Start for Adults

New Start provides part-time University preparation and bridging courses for adults over the age of 20 who need to gain skills and confidence to undertake University study. No previous qualifications are required. Students who complete New Start must also complete the University of Auckland Academic Integrity ACADINT A01 course.

Students gain information on the structure of university degrees, and an insight into the standard of work expected. Educational guidance is an integral part of New Start and students are offered assistance in planning their ongoing programmes.

### New Start General NSGEN 47

New Start General introduces students to many lecture topics in humanities, social sciences, education and law and offers tutorials, assignments with written feedback and a final test.

This is a 13-week part-time, day or evening course providing a comprehensive overview of first-year degree study. Coursework is set and graded. This course is compulsory.

Depending on the final grade achieved in this course students may apply for admission into an undergraduate degree in the faculties of Arts, Education and Social Work and Law.

New Start General is offered at three campuses throughout the year: University of Auckland City Campus (Semester One and Semester Two), South Auckland (Semester One and Semester Two) and Tai Tokerau in Whangarei (Summer School and Semester Two).

### **New Start Mathematics**

Two mathematics options are taught at the University of Auckland City Campus: Mathematics Fundamentals and Mathematics Preparation for University. Mathematics Preparation for University is designed to be taken with New Start General as a pathway to Business School. Students intending to enrol in these courses must first sit a maths assessment. Results will be used to recommend the best pathway for students.

#### **Mathematics Fundamentals NSMAT 10**

Mathematics Fundamentals is designed to build students' skills and confidence. It is a short intensive course taught over four consecutive Saturdays in a workshop environment. Most of the time students will be working together collaboratively, either as a class or in groups, but sometimes there will be lectures. The course includes workshops, lectures, assignments and a final test.

This course is offered in Summer School and in the mid-semester break.

Students are advised to enrol in this course before the start of semester to prepare for the Mathematics Preparation for University course.

#### **Mathematics Preparation for University NSMAT 14**

A variety of topics of everyday interest is explored with the aim of clarifying the underlying mathematics and statistics. The course includes workshops, lectures, assignments and a final test.

This is a 12-week part-time, evening course which is offered in Semester One and Semester Two and which is compulsory, together with New Start General NSGEN 47, for students planning to undertake an undergraduate degree in Commerce or Property at the University's Business School.

A grade of A- or above achieved in both Mathematics Preparation for University NSMAT 14 and New Start General NSGEN 47 entitles students to apply for admission into the degrees of Bachelor of Commerce and Bachelor of Property.

# GENERAL EDUCATION REGULATIONS AND SCHEDULES

## General Education Regulations

- 1 Students required to include General Education in their programme must pass courses as specified in the General Education Regulations and Schedules for their programme.
- 2
  - a A student may not take a General Education course with the same subject code as any course they have previously passed, or are already enrolled in.
  - b A student will not meet the General Education requirement for their programme if they subsequently enrol in a course with the same subject code as a General Education course which has been passed for their programme, unless the subsequent course is assigned to a different programme. Where appropriate the student may be able to use the course to meet another degree requirement. This regulation does not apply to LAW 121G, LAW 131, and LAW 141 provided no other LAW courses were taken.
  - c Students who transfer programmes and wish to meet the General Education requirement of their new programme using a course in a subject in which they have passed more than one course may do so if the General Education course is the only course in that subject credited or reassigned to their new programme.
- 3 A student may not take both of their General Education courses in the same subject.
- 4 Language courses do not satisfy the General Education requirement for a student who has prior knowledge of the language (for example, as a native speaker, through formal or informal study, or through living with others who speak the language). A student with prior knowledge of the language may be declined enrolment or the enrolment may be deleted at the discretion of the Academic Head or nominee.
- 5 A student who is required to meet the Academic English Language Requirement as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the *University Calendar*, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

### Notes:

- (i) *Some courses available for General Education are also available as part of regular degree requirements. The content and assessment for both occurrences of the course are the same. A student must enrol in the General Education offering of a course in order to meet the General Education requirements of their programme.*
- (ii) *Some General Education courses have limits on the number of students who can enrol. Places in these courses will be allocated on a first-come-first-served basis.*
- (iii) *Students who have met the Academic English Language Requirement under Regulations 14-16 of the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar cannot use ACADENG 100, 101, or ENGWRIT 101 to meet the General Education requirement for their degree.*

## REGULATIONS – DOCTOR OF PHILOSOPHY

### Statute for the Degree of Doctor of Philosophy – PhD

#### Preamble

- 1 a Candidates for the degree of Doctor of Philosophy are required to pursue an approved programme of advanced study and research under supervision as enrolled students of the University. The demands of PhD research require a significant commitment by candidates in terms of time and resources, and candidates are normally expected to be working full-time on their doctoral research.
- b It is expected that this programme will usually be completed within three to four years of full-time candidature. Part-time candidature may also be permitted.
- c Upon completion of an approved programme of research:
  - (i) a candidate must submit a thesis that meets the requirements set out in Regulation 1e
  - or
  - (ii) upon the recommendation of the Academic Head and approval from the Board of Graduate Studies, a candidate may present a corpus of creative work for assessment with a written thesis, comprising an integrated whole, that meets the requirements set out in Regulation 1e.
- d In order for the PhD degree to be awarded, the candidate must satisfy the examiners in an oral examination and any other relevant examination that may be required on the subject of the thesis and on relevant matters in the field or fields to which the subject belongs.
- e The PhD degree is awarded for a formal and systematic exposition of a coherent programme of advanced research work. The work is carried out over the period of enrolment for the degree and, in the opinion of the examiners and the Board of Graduate Studies, satisfies all of the following criteria:
  - (i) is an original contribution to knowledge or understanding in its field
  - and
  - (ii) meets internationally recognised standards for such work
  - and
  - (iii) demonstrates knowledge of the literature relevant to the subject and the field or fields to which the subject belongs, and the ability to exercise critical and analytical judgement of it
  - and
  - (iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.
- f PhD theses may not, without the prior permission of the Board of Graduate Studies, exceed 100,000 words in total, or 60,000 words in total when accompanied by a corpus of creative work.
- g If the core of the thesis comprises a series of published or unpublished research papers and/or case studies, the candidate must be the lead or sole author of each paper or case study and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.
- h If the core of the thesis does not comprise a series of published or unpublished research papers and/or case studies, a candidate may still include within their thesis published or unpublished research papers and/or case studies, provided that the candidate was the lead or sole author of each paper or case study. The thesis must be presented in a consistent format, citation style and typeface.
- i In the case of published or unpublished research papers and/or case studies that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper and/or case study.
- j All material which is not the original work of the author of the thesis must:
  - (i) be fully and appropriately attributed
  - or
  - (ii) if a substantial part of another work, be reproduced only with the written permission of the copyright owner of that other work.
- k All research for the thesis is to be conducted in accordance with the University of Auckland Research Code of Conduct Policy.

#### Eligibility

- 2 Candidates for the degree of Doctor of Philosophy are required to have:

- a (i) completed the requirements for the award of a masters degree in a relevant subject area with First Class or Second Class (Division I) Honours at the University of Auckland  
or
  - (ii) completed the requirements for the award of a bachelors degree in a relevant subject area with First Class or Second Class (Division I) Honours at the University of Auckland  
or
  - (iii) completed all the taught coursework requirements (if any) for a masters degree of the University of Auckland at the equivalent of First Class or Second Class (Division I) Honours level, and have made substantial progress towards completion of the masters research thesis  
or
  - (iv) completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to a masters degree in a relevant subject area with First Class or Second Class (Division I) Honours or a bachelors degree with First Class or Second Class (Division I) Honours from the University of Auckland
- and
- b demonstrated an ability to pursue doctoral-level research
- and
- c if presenting a corpus of creative work for assessment, have demonstrated advanced training or experience in a relevant creative practice, and, in their provisional year, have identified their intention to present a corpus of creative work for final assessment and have received the approval of the Board of Graduate Studies.
  - d In exceptional circumstances, the Board of Graduate Studies may consider for registration a person whose qualifications do not meet the requirements of Regulation 2a, if it is satisfied that the person's experience in research and the results of that experience are so outstanding that the person is likely to have the ability to complete the degree successfully.

## Admission

### 3 Admission Essential

Every candidate for the Degree of Doctor of Philosophy must have applied for admission and been admitted to the University of Auckland.

## Registration

### 4 a Registration Essential

Every candidate for the Degree of Doctor of Philosophy must be registered by the Board of Graduate Studies.

#### b Provisional Registration

Registration is provisional for all candidates for the first 12 months of equivalent full-time study following the Date of Registration as defined in Regulation 4j of this Statute.

#### c Application for Registration

Application for registration must be made to the head of the department, division, school, chair of a board of studies or director of the research centre or institute ("the Head of Department") in the discipline in which the candidate is to be primarily registered.

#### d Part-time Registration

Candidates with compelling reasons may be permitted to register as part-time students if the Board of Graduate Studies expects that the candidate will be able to complete the PhD within the permitted time frame. A candidate must normally submit the thesis in no fewer than six and no more than eight years if they have been registered as a part-time student for the whole period of their registration.

#### e Non-resident Candidature

For non-resident candidates, the Head of Department must provide the Board of Graduate Studies with evidence that the candidate has access to appropriate research resources and supervisory support.

#### f Concurrent Registration

In exceptional cases a candidate may be permitted to enrol concurrently in a second degree in order to complete that degree, provided it is not the qualifying degree for entry into the PhD programme.

#### g Role of the Head of Department

The Head of Department will make a recommendation to the Faculty Associate Dean (Postgraduate) as to:

- (i) whether the candidate:
  - (a) meets the eligibility requirements
 and
  - (b) has a preliminary thesis proposal capable of meeting the requirements of Regulation 1e of this Statute
 and
  - (c) has an appropriate set of goals for the provisional year of registration, agreed to by both the candidate and main supervisor

and

if the Head of Department is of that opinion, then they will recommend:

- (ii) whether their department (in conjunction with any other department where the field of study is interdisciplinary, or other university in the case of jointly awarded degrees) accepts the responsibility for:
    - (a) making satisfactory supervision arrangements for the PhD
- and
- (b) providing adequate research resources and facilities

and

if the Head of Department is of that opinion, then they will nominate:

- (iii) which other departments will be involved if the field of study is interdisciplinary. In these cases, the Heads of any other departments involved are required to endorse the recommendation

and

- (iv) suitably qualified supervisors and, where appropriate, advisers

and

- (v) in the case of a candidate in a languages and literatures discipline, or a candidate for whom joint registration with another university in a non-English speaking country is proposed, the language in which the thesis is to be submitted and examined.

**h Role of the Associate Dean (Postgraduate)**

On receipt of the recommendation of the Head of Department, the Faculty Associate Dean (Postgraduate) will make a recommendation to the Board of Graduate Studies as to the matters set out in Regulation 4g.

**i Role of the Board of Graduate Studies**

On receipt of the recommendation of the Faculty Associate Dean (Postgraduate), the Board of Graduate Studies will decide whether or not to register the candidate and, if so, the conditions that will apply to the registration. The Board of Graduate Studies may call for any further information it considers relevant before making its decision.

**j Date of Registration**

Registration takes effect on the date (the 'Date of Registration') approved by the Board of Graduate Studies. Where a candidate has already started supervised research on the PhD topic, the Date of Registration may be backdated by not more than six months, except for a candidate transferring from a masters degree under Regulation 2a(iii), when the Date of Registration may be backdated not earlier than the date on which the coursework component (if any) of the masters degree was completed.

**k Supervision**

The Board of Graduate Studies will appoint the supervisors for each candidate. The supervisors must be actively involved in research in the candidate's general field, and must either hold a doctoral degree or be appropriately qualified. Persons who are themselves candidates for the degree of PhD may not be appointed as supervisors, although they may be appointed as advisers.

**l For each candidate the Board of Graduate Studies will appoint either:**

- (i) a main supervisor who takes overall responsibility for the supervision of the candidate and for assistance in the provision of research resources and at least one co-supervisor. The main supervisor must be a staff member of the University of Auckland

or

- (ii) two supervisors with joint responsibility for the supervision of the candidate and for assistance in the provision of research resources. One of the supervisors, who must be a staff member of the University of Auckland, will be the administrative point of contact.

**m In addition, the Board of Graduate Studies may appoint adviser/s for each candidate.**

**n Coursework**

- (i) The Board of Graduate Studies may require the candidate to undertake coursework that is considered to be necessary for the successful completion of the programme of research. Such coursework must be completed as part of the provisional registration requirements, will not exceed 60 points in total and should normally be at the postgraduate level. Candidates must normally pass any such research-related coursework at the grade of at least B+ or its equivalent, or any such undergraduate generic skill course at the grade of at least B or its equivalent

or

- (ii) The Board of Graduate Studies may require the candidate to include a structured coursework component into the candidate's provisional year goals that is considered to be necessary for the successful completion of the programme of research. The structured coursework component will consist of designated courses that are compulsory within the provisional year. Candidates will be required to pass with a minimum B+ average across all courses, with no course lower than a B. The

courses taken in the structured coursework component will not normally exceed 60 points in total and shall be at the postgraduate level.

**o Presentation in Te Reo Māori**

Candidates wishing to present and defend a thesis in Māori must, before applying to the Head of Department to be registered, obtain the permission of the Pro Vice-Chancellor (Māori). When such permission is granted, the Pro Vice-Chancellor (Māori) will make a recommendation to the Board of Graduate Studies as to:

- (i) whether the candidate has adequate fluency and literacy in Te Reo Māori in the subject area of the thesis and
- (ii) the likelihood of being able to find appropriately qualified examiners for the thesis.

## Reviews of Registration

**5 a Provisional Goals**

During provisional registration, a candidate must:

- (i) achieve the provisional year goals prescribed by the Board of Graduate Studies and
- (ii) if required, attend an interview with a member of their Faculty to discuss their progress.

**b Provisional Review**

By the end of the provisional registration period, the candidate must submit their full thesis proposal to the appropriate postgraduate committee, give an oral presentation on their thesis proposal (which will be attended by members of the postgraduate committee), and meet with members of the postgraduate committee to discuss their progress to date and plans for the remainder of their enrolment.

- c** The postgraduate committee will submit a report on the candidate's proposal, presentation and meeting, and the candidate, the supervisor/s and the Head of Department will submit a report to the Board of Graduate Studies on the progress of the candidate. The reports will clearly state whether or not the progress of the candidate has been satisfactory, the goals laid down for the provisional year have been achieved and the candidate's research proposal has been approved. The reports should include a recommendation that the candidate's registration be:

- (i) confirmed
- or
- (ii) continued on a provisional basis for a period of three to six months
- or
- (iii) discontinued and the candidate recommended for enrolment in another degree
- or
- (iv) terminated.

- d** Where the recommendation is to confirm the candidate's registration, a copy of the candidate's full thesis proposal must be submitted to the Board of Graduate Studies.

**e Annual Review of Registration**

In each year of registration each candidate must pursue a programme of advanced study and research to the satisfaction of the Head of Department and the main supervisor. At the end of each year of registration following the provisional period, the supervisor/s, the candidate and the Head of Department are to submit, through the Associate Dean (Postgraduate) of the faculty, a joint report to the Board of Graduate Studies on the candidate's progress. This report may also be discussed by the appropriate postgraduate committee of the department, institute and/or faculty in which the candidate is registered. As part of this report the supervisor/s and the Head of Department are to make one of the following recommendations:

- (i) that the candidate's registration be continued
- or
- (ii) that the candidate's registration be continued subject to specified conditions
- or
- (iii) that the candidate's registration be terminated.

**f Specified Conditions for Registration**

Where a recommendation is made under Regulations 5c(i), 5c(ii) or 5e(ii), the Head of Department will also recommend to the Board of Graduate Studies the specific goals and/or conditions to be met by the candidate and the time in which these are to be completed. At the end of this period the Head of Department and supervisor/s will advise the Board of Graduate Studies whether or not these requirements have been met. Registration will terminate if the specified conditions have not been fulfilled to the satisfaction of the Board of Graduate Studies.

- g** If the supervisor/s have concerns about the candidate's registration, the Board of Graduate Studies may send the candidate a formal warning. The formal warning will state the conditions the candidate must meet in order for their registration to continue. The candidate will be given the opportunity to respond, and will have three

months to meet the conditions set out in the formal warning. Failure to meet those conditions may result in a decision to terminate the candidate's registration.

**h Recommendation to Terminate**

No decision to terminate registration may be made by the Board of Graduate Studies unless the candidate has been notified in writing and given reasonable opportunity to respond.

## **Enrolment and Fees**

**6 a Enrolment**

Candidates for the PhD degree must be enrolled and pay fees in each academic year for which they are registered. Candidates need not pay tuition fees for any period during which their registration is suspended under Regulation 7g.

**b** On enrolment in each academic year every candidate must pay the fee prescribed for that academic year.

**c Refunds**

A candidate who submits a thesis or terminates their registration will receive a refund of one-twelfth of the tuition fee paid for each complete month of the period between the date of submission of the thesis or termination of registration and the end of the academic year for which fees have been paid, provided the candidate has paid the fees for at least three years of full-time equivalent study.

**d Fees other than Tuition Fees**

Unless otherwise exempted under the relevant regulations, all candidates must pay the prescribed Student Services fees and any other fees as may be prescribed from time to time. There is no refund of these fees.

**e Fees to be paid before Notification of Award of the Degree**

Notification of the award of the degree will be withheld until all outstanding fees have been paid. Candidates will not be able to graduate until all outstanding fees have been paid.

**f Other Fees Payable**

Candidates who enrol for courses other than those specified in their provisional year goals must pay the fees prescribed for those courses on enrolment.

## **Changes to the Conditions of Registration**

**7 a** The Head of Department may, after consultation with the candidate, make a written recommendation to the Board of Graduate Studies for changes in the conditions of registration for the candidate. The candidate may express their written views on the recommendation to the Board of Graduate Studies if they wish. After considering a recommendation from the Head of Department, the Board of Graduate Studies may, after considering any submissions made by the candidate, change the conditions of registration for that candidate.

**b** Permission to present a corpus of creative work for assessment with the written thesis as an integrated whole requires the recommendation of the Head of Department and approval from the Board of Graduate Studies.

**c Absence from the University**

Where a resident candidate intends to be absent from the University in pursuit of their research for more than one month, supervisors are to submit for approval by the Board of Graduate Studies, through the Head of Department and before the candidate's departure, suitable plans for the supervision of the candidate during their absence.

**d Changes in Supervision**

When necessary, the Head of Department is to recommend changes to the supervision of the candidate for approval by the Board of Graduate Studies. This will normally be required when a supervisor is granted leave, resigns or retires.

Whilst the Board of Graduate Studies will take into consideration the candidate's views on any recommended changes to supervision, it reserves the right to determine the appointment of supervisor/s according to the availability of suitably qualified staff.

**e Change to Part-time or Full-time Registration**

Candidates may apply to change their registration from part-time to full-time and vice versa.

**f Extension of Time for Submission**

When the Board of Graduate Studies is satisfied that there is sufficient reason, it may extend a candidate's submission date. Before approving an extension of submission time the Board of Graduate Studies will require the candidate, the supervisor/s and Head of Department to agree on the programme of supervision and schedule of research considered necessary for submission by the new date proposed.

**g Suspension of Registration**

Where a candidate is unable to continue with their research programme because of circumstances beyond their control, the Board of Graduate Studies may suspend their registration for a specified period of time. The

following conditions apply:

- (i) the length of time for which a candidate's registration may be suspended will be in multiples of whole calendar months
- (ii) the Board of Graduate Studies must be satisfied that any period of suspension will not adversely affect the viability of the candidate's research
- (iii) any period of suspension will be excluded from the calculation of the final submission date
- (iv) while registration is suspended, a candidate is exempt from fees and enrolment, and is not entitled to any tuition or supervision, or to the use of any other research resources of the University.

#### **h Discontinuation of Registration**

Enrolment and Programme Regulations regarding discontinuation apply to PhD candidates.

#### **i Termination of Registration**

The Board of Graduate Studies may terminate the registration of any candidate who:

- (i) fails to enrol for any academic year corresponding to a year of registration  
or
- (ii) fails to make payment of any tuition fees related to the PhD registration  
or
- (iii) applies to cease being registered  
or
- (iv) has not made satisfactory progress while under provisional registration  
or
- (v) has received an unsatisfactory annual report  
or
- (vi) fails to meet the conditions of a formal warning  
or
- (vii) fails to submit by the due date a provisional or annual report  
or
- (viii) is unable to resume study after the maximum period of suspension as determined by the Board of Graduate Studies  
or
- (ix) has not met any conditions specified under Regulation 5f  
or
- (x) has not submitted or re-submitted the thesis in time  
or
- (xi) has had the termination of their registration recommended by a decision of a Disputes Committee constituted pursuant to Regulation 12 of this Statute  
or
- (xii) is prohibited under the Disciplinary Statute of the University from enrolling.

Before making a decision to terminate a candidate's registration pursuant to this Regulation or otherwise, the Board of Graduate Studies will allow the candidate a reasonable opportunity to respond.

### **Submission**

#### **8 a Copies of Thesis**

All candidates are initially required to submit one copy in temporary binding and one electronic copy in pdf format of the thesis to the School of Graduate Studies. Copies should include the following statement to examiners on the first page:

"This thesis is for examination purposes only and is confidential to the examination process."

#### **b Time for Submission**

Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the thesis in no fewer than three and no more than four years from the Date of Registration if they are full-time students, or no fewer than six and no more than eight years in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.

#### **c Notification of Submission**

Three months prior to the expected date of submission, candidates should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the thesis on the grounds of conflict of interest, then the candidate may also submit at this time the name of this person or people and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

#### **d Declaration as to Originality**

The thesis is to be accompanied by a statutory declaration, signed by the candidate, stating:

- (i) that the thesis is the candidate's own work
  - (ii) whether any part of the thesis (in form or substance) has been submitted or accepted for any other degree or diploma and, where that is the case, clearly setting out the extent to which that earlier work has been incorporated into the thesis
  - (iii) that written permission has been obtained for any third-party copyright material reproduced in the thesis that represents a "substantial part" of the other work
  - (iv) that the temporary-bound copy and electronic copy are identical.
- e Where the thesis contains jointly authored research papers, case studies and/or any other work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.

Where the thesis includes co-produced creative work, a Co-Production Form must be signed by the candidate and all the joint producers, stating the elements of the jointly produced material which are the candidate's own work.

**f Language of Thesis**

The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

## Examination

**9 a General Provisions**

The Head of Department and/or the Associate Dean (Postgraduate) of the faculty may nominate another person to the Board of Graduate Studies to be authorised to act in their place in all of the provisions of this Regulation 9. If either the Head of Department or the Associate Dean (Postgraduate) is a supervisor of the candidate, an alternate must be nominated and appointed.

- b Neither the supervisors nor the candidate may communicate with the examiners regarding the examination at any stage of the examination process, except as specified in this Regulation 9.

**c Nomination of Examiners**

On notification of submission or intent to submit under Regulation 8c, the Head of Department will, on the advice of the supervisor/s, nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis. At least one nominee must be from outside New Zealand. The examiners must not be staff members of the University or have been involved in either the thesis research or the preparation of the thesis.

**d Appointment of Examiners**

The Board of Graduate Studies will consider the nominations provided by the Head of Department and any submissions made by the candidate under the provisions of Regulation 8c and will appoint two suitably qualified persons who are available to act as examiners. One examiner must be able to participate in the oral examination in person.

**e Appointment of Examination Committee**

The Board of Graduate Studies will also appoint an Examination Committee which will normally be composed of:

- (i) the Head of Department

and

- (ii) an Associate Dean (Postgraduate), who will chair the Examination Committee

and

- (iii) one other person ("the Head of Department Nominee") nominated by the Head of Department. This person will have knowledge of the general field of the thesis, but not necessarily of the thesis topic, and will normally be a staff member of the University.

No member of the Examination Committee may be a supervisor or have been involved in either the thesis research or the preparation of the thesis. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty, or another Associate Dean from their faculty who is not in the same department, should be substituted.

**f Examiners' Reports**

Each examiner will be provided with an electronic copy of the thesis in pdf format and, acting independently, is required to provide the School of Graduate Studies, within two months of receipt of the thesis, with a written report in English on the quality of the thesis according to the criteria outlined in Regulation 1e. A copy of the thesis will be provided to the Examination Committee.

- g The examiners will include with their reports one of the following recommendations:

- (i) to award the degree, subject to satisfactory performance at the oral examination.  
The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material.
  - or
  - (ii) to award the degree after specified “minor corrections” have been made to the thesis and/or corpus of creative work, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), by a specified date, and subject to satisfactory performance at the oral examination.  
This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. These changes can normally be made within a one-month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.
  - or
  - (iii) to award the degree after revisions have been made to the thesis and/or corpus of creative work, to the satisfaction of the Examiner or nominee (who will be the Head of Department), by a specified date, and subject to satisfactory performance at the oral examination.  
This recommendation is made when an examiner concludes that the revisions required are not minor, including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 2-4 month period.
  - or
  - (iv) to permit the candidate to revise the thesis and/or corpus of creative work, and resubmit it for examination on one further occasion only.  
This recommendation is made when an examiner concludes that the thesis is not yet of PhD standard. It will require either further research, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required PhD standard. The candidate will be permitted to resubmit, normally within a 12 month period.
  - or
  - (v) not to award the degree, but refer the thesis to the appropriate authority within the University for consideration of the award of another degree.  
This recommendation is made when an examiner is of the opinion that the thesis has substantive flaws incompatible with the requirements of a PhD.
  - or
  - (vi) not to award any degree.
- h As suppliers of evaluative material in terms of the Privacy Act 1993, all examiners will be informed that the information and reports they supply as such will be held in confidence to the candidate, supervisors and to persons involved in the formal examination process. Candidates’ preparation for an oral examination or thesis revision should be assisted by knowing what the examiners have said about their thesis. Examiners’ reports will normally be released initially to those involved in the examination process, other than the candidate. Part 1 of the report, the recommendation, will not be released to the candidate, but, if the Examination Committee recommends that the candidate proceed to oral, and the Board of Graduate Studies accepts that recommendation, then the School of Graduate Studies will release the examiners’ evaluations (Part 2 of the report) to the candidate. At this stage, the candidate will not be informed of the names, or other identifying information, of their examiners. Part 2 of the report will also be released for the purpose of judging the Vice-Chancellor’s Prize for Best Doctoral Thesis for those candidates who have been nominated. The Board of Graduate Studies (through the Dean of Graduate Studies) reserves the right to remove from an examiner’s report made available to the candidate any material that it considers should not be released.
- i **Replacement of Examiners**  
If a report has not been received within two months, the School of Graduate Studies will send a reminder to the examiner and advise the candidate that unless the report is received within two further months the appointment of the examiner may be terminated. If the report has not been received within two months of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.
- j The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.
- k **Consideration of Examiners’ Reports**  
Upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies for consideration by the Examination Committee. The examiners’ reports will also be made available to the supervisor/s on a confidential basis. Supervisor/s may comment on the reports in writing to the Examination Committee on a confidential basis. The Examination Committee may also request clarification of issues raised in examiners’ reports from the examiners and, if necessary, from supervisors. If the recommendations of the examiners are in conflict and the Examination Committee considers that the conflict may be resolved, the Chair may invite the two examiners to consult and to provide a written report or reports on the outcome of their consultations.

**l Recommendation of the Examination Committee**

The Examination Committee will then make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 9k and which recommends one of the following:

- (i) to appoint one or more further independent examiners to report on any areas of conflict  
*or*
- (ii) to proceed to the oral examination  
*or*
- (iii) to permit the candidate to revise the thesis and/or corpus of creative work, and resubmit it for examination on one further occasion only  
*or*
- (iv) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree  
*or*
- (v) not to award the degree.

**m Further Examiners**

In the event that the examiners' reports are in serious conflict the Board of Graduate Studies may appoint further independent external examiners to report on any matters which it may specify. In this event the candidate will be kept informed, and Regulations 9f to 9j will apply for the reports of the further examiners.

**n Oral Examination**

In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, the following procedures will apply:

- (i) the Board of Graduate Studies, on the recommendation of the Examination Committee, will appoint one of the examiners to be the Oral Examiner and will determine whether the Oral Examiner should attend the examination in person or by video-conference. Candidates are expected to be available to attend the oral examination in person
- (ii) the Board of Graduate Studies will appoint a person to act as an independent Chair of the oral examination. The Chair must be a member of the academic staff of the University, but will not be a member of a faculty in which the candidate is registered
- (iii) the examination must be attended by the candidate, the Oral Examiner, the Chair and the Head of Department Nominee on the Examination Committee. A supervisor or co-supervisor may attend with the agreement of the candidate, but will not act as an examiner and may only participate to the extent requested by the Chair
- (iv) subject to Regulation 9h above, the School of Graduate Studies will forward copies of Part 2 of the examiners' reports to the candidate no fewer than five working days before the oral examination
- (v) during the oral examination, the Oral Examiner and Head of Department Nominee will discuss with the candidate the subject of the thesis and relevant matters in the field or fields to which the subject belongs. The Oral Examiner will discuss with the candidate issues raised in the examiners' reports and ask questions of the candidate on behalf of the other examiner. The Head of Department Nominee will ensure that the other examiner's comments and questions are discussed.

**o Recommendation of the Oral Examination**

On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations:

*either*

- (i) to award the degree  
*or*
- (ii) to award the degree after specified "minor corrections" (see Regulation 9g(ii)) have been made to the thesis and/or corpus of creative work, to the satisfaction of the Oral Examiner or nominee (who may be the Main Supervisor), and by a specified date

*or*

- (iii) (a) to award the degree subject to revising part or parts of the thesis and/or corpus of creative work, to the satisfaction of the Oral Examiner or nominee (who will be the Head of Department), by a specified date (see Regulation 9g(iii)). When the Head of Department acts as the Oral Examiner's nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of Department may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the candidate's supervisor/s. If the Head of Department is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis and/or corpus of creative work must be assessed by the Oral Examiner.

*or*

- (b) to award the degree subject to revising part or parts of the thesis and/or corpus of creative work, to the satisfaction of the Examiner or Examiners by a specified date (see Regulation 9g(iii))

or

- (iv) to permit the candidate to revise the thesis and/or corpus of creative work, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 9l(iii)

or

- (v) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree

or

- (vi) not to award the degree.

In the case of recommendations 9o(iii) and 9o(iv), the report must also state clearly the nature of the revisions recommended.

**p When Minor Corrections are Required**

In the event that the Board of Graduate Studies requires the candidate to undertake minor corrections the following provisions apply:

- (i) the Head of Department Nominee of the oral examination, in consultation with the Oral Examiner or nominee (who may be one of the candidate's supervisors), will prepare a written report detailing the minor corrections required
- (ii) the Head of Department Nominee will ensure that the candidate is provided with a copy of the required minor corrections, and the specified date by which the corrections are to be completed
- (iii) if the required minor corrections are completed to the satisfaction of the Oral Examiner or nominee (who may be the one of the candidate's supervisors) by the specified date, that person will notify the School of Graduate Studies that the degree may be awarded
- (iv) in cases where the Oral Examiner or nominee (who may be one of the candidate's supervisors) reports that the minor corrections were not completed to their satisfaction or by the specified date, the Examination Committee will consider the evidence and will make a report and recommendation to the Board of Graduate Studies.

**q When Revisions are Required**

In the event that the Board of Graduate Studies requires the candidate to undertake revisions to the satisfaction of the Oral Examiner or nominee (who will be the Head of Department), or to the satisfaction of the Examiner, the following provisions apply:

- (i) the Head of Department Nominee of the oral examination, in consultation with the Oral Examiner or the Examiner, will prepare a written report detailing the revisions required
- (ii) the Head of Department Nominee will ensure that the candidate is provided with a copy of the required revisions, and the specified date by which the revisions are to be completed
- (iii) if the required revisions are completed to the satisfaction of the Oral Examiner or nominee (who will be the Head of Department), or the Examiner, by the specified date, that person will notify the School of Graduate Studies that the degree may be awarded
- (iv) in cases where the Oral Examiner or nominee (who will be the Head of Department) or the Examiner reports that the revisions were not completed to their satisfaction or by the specified date, the Examination Committee will consider the evidence and will make a report and recommendation to the Board of Graduate Studies. This recommendation may include the need to undertake further revisions.

**r When Revision and Resubmission are Permitted**

In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the thesis and/or corpus of creative work prior to an oral examination, the Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date the Board of Graduate Studies accepts the Examination Committee's recommendation. If the Board of Graduate Studies accepts the recommendation, the following provisions apply:

- (i) the School of Graduate Studies will inform the candidate of the decision, and will forward copies of Part 2 of the examiners' reports to the candidate
- (ii) within two weeks of the notification from the School of Graduate Studies, the Examination Committee will meet with the candidate and discuss the revisions required
- (iii) the Chair of the Examination Committee will send a written report of the meeting with the candidate to the School of Graduate Studies
- (iv) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted. Where possible, the registration of the candidate is to continue under the conditions applying at the first date of submission
- (v) if the thesis is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
- (vi) upon resubmission, the revised thesis is to be examined as a whole by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission may not be recommended.

If any of the original examiners is unavailable to re-examine the thesis, the Board of Graduate Studies will appoint alternative examiner/s

- (vii) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports and the original examiners' reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 9k. Following consideration of all examiners' reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 9k. Where warranted, the Examination Committee may recommend, and/or the Board of Graduate Studies may determine, that Regulation 9m should apply. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners' evaluations of the revised thesis (Part 2 of the report) to the candidate no fewer than five working days before the oral examination. The remainder of the examination process will proceed as per Regulations 9n-q.

If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

- (a) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree

or

- (b) not to award the degree.

- s In the event that the Board of Graduate Studies requires the candidate to revise the thesis and/or corpus of creative work after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date of the oral examination. In such cases, the following provisions apply:

- (i) the School of Graduate Studies will inform the candidate of the decision and send a copy of the oral examination report to the Examination Committee
- (ii) within two weeks of the notification from the School of Graduate Studies, the Examination Committee will meet with the candidate and discuss the revisions required
- (iii) the Chair of the Examination Committee will send a written report of the meeting with the candidate to the School of Graduate Studies
- (iv) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted. Where possible, the registration of the candidate is to continue under the conditions applying at the first date of submission
- (v) if the thesis is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
- (vi) upon resubmission, the revised thesis is to be examined as a whole by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis the Board of Graduate Studies will appoint alternative examiner/s
- (vii) upon receipt of both of the examiners' reports, the School of Graduate Studies will provide copies of the new examiners' reports, the original examiners' reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 9k. Following consideration of all examiners' reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 9k. Where warranted, the Examination Committee may recommend, and/or the Board of Graduate Studies may determine, that Regulation 9m should apply. Otherwise, the Examination Committee report must recommend one of the following:

- (a) to proceed to a second oral examination (in which case Regulations 9n-q apply)

or

- (b) to award the degree

or

- (c) to award the degree after specified "minor corrections" (see Regulation 9g(ii)) have been made to the thesis and/or corpus of creative work to the satisfaction of the Examiner or nominee (who may be one of the candidate's supervisors), by a specified date

or

- (d) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree

or

- (e) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the

examiners' evaluations of the revised thesis (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

**t Final Decision**

After considering all of the reports of the examiners and the Examination Committee, the Board of Graduate Studies will make the final decision as to the award of the degree.

**u Copies for Deposit**

- (i) On successful completion of the examination, candidates will be required to deposit two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, with the School of Graduate Studies. The degree will not be conferred until the candidate has complied with this requirement.
- (ii) When two hardbound copies and a digital copy of the PhD thesis are deposited, these must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.
- v (i) The digital thesis deposited shall be formatted as specified in the Guidelines for Formatting a Digital Thesis.
- (ii) A thesis which is deposited in digital form will be accessible through the University's digital repository, unless embargoed under Regulation 25 of the Examination Regulations.

### Variations

- 10 In exceptional circumstances, the Board of Graduate Studies may approve a personal programme which does not conform to the regulations for a PhD.

### Appeals

**11 As to Registration**

- a Candidates, supervisors or Heads of Department may appeal against any decision of the Board of Graduate Studies made under Regulations 4, 5, 7 or 8 of this Statute, normally within three months of the making of the decision, on the grounds that:
  - (i) relevant information which was not available to the Board of Graduate Studies at the time of its making the decision has since become available
  - and/or
  - (ii) the procedure adopted in arriving at the decision was unfair. The appeal must state clearly all grounds relied on by the appellant and all relevant documentation must be attached.
- b Any appeal made under Regulation 11a will be considered by the Chair of the Board of Graduate Studies, or their nominee, who may seek further information relating to the grounds of the appeal and shall notify the candidate of new information before making any decision. The Chair shall give a written decision outlining the reason/s for the decision. A decision:
  - (i) grounded on the lack of relevant information shall be final
  - or
  - (ii) grounded on procedural unfairness may be further appealed within six months after the decision is made to the Vice-Chancellor (or nominee) whose decision shall be final.

**As to Examination**

- c If a PhD candidate believes that they have been significantly disadvantaged by the examination process, or by any part of the examination process, then a written appeal may be made to the Board of Graduate Studies, setting out the grounds of the appeal. All relevant documents relied upon must be submitted with the appeal.
- d Any appeal as to examination process must be lodged within three months of the result of the examination being officially communicated to the candidate. The appeal document must state clearly all grounds relied on and include all relevant documents.
- e In the case of appeals as to examination process:
  - (i) the Chair of the Board of Graduate Studies, or their nominee, will undertake a preliminary investigation and determine if there are grounds for the appeal to be taken to a further stage
  - (ii) if there are grounds for further consideration of an appeal, this will be undertaken by two members of the Board of Graduate Studies who have not been involved in the examination process who will make a recommendation to the Vice-Chancellor
  - (iii) the candidate will be provided with a copy of the recommendation to the Vice-Chancellor and will have the opportunity to respond to the recommendation
  - (iv) the decision of the Vice-Chancellor will be final and may involve a re-examination of the work.

### Dispute Resolution Procedures

- 12 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

### Transitional Arrangements

- 13 a This Statute came into force on 1 January 2016 and revoked the previous Statute for the Degree of Doctor of Philosophy.
- b For candidates initially registered under a previous statute, the Board of Graduate Studies may agree to vary the application of the provisions of this Statute to ensure consistency with the provisions of the statute under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

## REGULATIONS – HIGHER DOCTORATES

*In addition to the degree of Doctor of Philosophy, the University offers higher doctorates in Engineering (DEng), Laws (LLD), Literature (LittD), and Science (DSc). These are the highest academic awards offered by the University and are awarded to graduates or close affiliates of the University of Auckland who have published original work that has, over an extensive period of time, given them authoritative standing and international eminence in their respective field. The higher doctorate is thus to be seen as recognition of real distinction in one of these areas of study. It is awarded rarely and only after rigorous examination of a substantial and significant corpus of material. A person wishing to become a candidate for a higher doctorate should refer to the Guidelines for Candidates of Higher Doctorates.*

### The Degree of Doctor of Engineering – DEng

#### Eligibility

- 1 The Degree of Doctor of Engineering shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence in some branch of engineering or technology such that they are considered to have authoritative standing and international eminence in their field.
- 2 The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, or as designs and inventions. In addition to the published work, the candidate may submit unpublished work in support of the application.
- 3 A candidate for the Degree of Doctor of Engineering must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.
- 4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.
- 5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.
- 6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

#### Application

- 7 A person wishing to become a candidate for a Doctor of Engineering should apply in writing to the Dean of Graduate Studies, providing:
  - a a completed *Application to be Examined for a Higher Doctorate*
  - and
  - b an academic curriculum vitae
  - and
  - c academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).
- 8 Consideration of applications and examination shall be carried out in accordance with the *Procedure for the Examination of Higher Doctorates*, as determined by the Board of Graduate Studies from time to time.

---

## The Degree of Doctor of Laws – LLD

### Eligibility

- 1 The Degree of Doctor of Laws shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to the history, philosophy, exposition or criticism of law, such that they are considered to have authoritative standing and international eminence in their field.
- 2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.
- 3 A candidate for the Degree of Doctor of Laws must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.
- 4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.
- 5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.
- 6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

### Application

- 7 A person wishing to become a candidate for a Doctor of Laws should apply in writing to the Dean of Graduate Studies, providing:
    - a a completed *Application to be Examined for a Higher Doctorate*
    - and
    - b an academic curriculum vitae
    - and
    - c academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.
  - 8 Consideration of applications and examination shall be carried out in accordance with the *Procedure for the Examination of Higher Doctorates*, as determined by the Board of Graduate Studies from time to time.
- 

## The Degree of Doctor of Literature – LittD

### Eligibility

- 1 The Degree of Doctor of Literature shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to linguistic, literary, philosophical, social, cultural or historical knowledge such that they are considered to have authoritative standing and international eminence in their field.
- 2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.
- 3 A candidate for the Degree of Doctor of Literature must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.
- 4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.
- 5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.
- 6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

### Application

- 7 A person wishing to become a candidate for a Doctor of Literature should apply in writing to the Dean of Graduate Studies, providing:
  - a a completed *Application to be Examined for a Higher Doctorate*
  - and
  - b an academic curriculum vitae

and

c academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.

- 8 Consideration of applications and examination shall be carried out in accordance with the *Procedure for the Examination of Higher Doctorates*, as determined by the Board of Graduate Studies from time to time.

## The Degree of Doctor of Science – DSc

### Eligibility

- 1 The Degree of Doctor of Science shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to some branch of pure or applied science such that they are considered to have authoritative standing and international eminence in their field.
- 2 The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.
- 3 A candidate for the Degree of Doctor of Science must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.
- 4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.
- 5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.
- 6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

### Application

- 7 A person wishing to become a candidate for a Doctor of Science should apply in writing to the Dean of Graduate Studies, providing:
  - a a completed *Application to be Examined for a Higher Doctorate*
  - and
  - b an academic curriculum vitae
  - and
  - c academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).
- 8 Consideration of applications and examination shall be carried out in accordance with the *Procedure for the Examination of Higher Doctorates*, as determined by the Board of Graduate Studies from time to time.

## Procedure for the Examination of Higher Doctorates

*This procedure applies to the examination of the Degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature and Doctor of Science, and should be read in conjunction with the Higher Doctorate Examination Procedures.*

### Consideration of Applications to be Examined

- 1 As soon as possible after an application to be examined has been lodged with the Dean of Graduate Studies and has been determined to meet initial requirements, the application will be forwarded to the relevant Faculty Dean or delegate ("the Faculty") for further consideration.
- 2 The Faculty will appoint an Examination Committee of three senior academics who have a general understanding of the applicant's field of research. At least two members of the Committee must be academic members of the University, one of whom will be nominated to chair the Examination Committee.
- 3 The Examination Committee will investigate the information provided, including the quality and nature of the submission for examination, will seek input from the Dean of the Faculty, and will make a recommendation to the Dean of Graduate Studies within one month that the Faculty:
  - a will allow the applicant to be admitted to candidature for the higher doctorate
  - or
  - b will not allow the applicant to be admitted to candidature for the higher doctorate.

### Notification of Assessment of Application and Intention to Submit

- 4 The Dean of Graduate Studies will advise the applicant of the Faculty's decision and, if the application has

been accepted, will request written notification of the applicant's intention to proceed with candidature and submission. The submission of work to be examined must be received by the Dean of Graduate Studies within three months of the notification that the application was accepted.

- 5 The examination will not proceed until receipt of the candidate's written notification of intention to proceed and payment of fees as set out in Schedule B of the Fees Statute.

### **Appointment of Examiners**

- 6 Upon payment of fees and receipt of the candidate's written notification of intention to proceed, the Dean of Graduate Studies will request that the Faculty nominate three external examiners. The nominations should be made within three months of the request. The examiners must be of authoritative standing and international eminence in the field of the submitted work and must be active in research. At least one examiner shall be resident outside New Zealand. Examiners must not have engaged in substantial collaboration with the candidate. Any involvement with the candidate by the examiner which could constitute a conflict of interest should be declared at the outset. The appointment of all examiners must be approved by the Dean of Graduate Studies.

### **Submission**

- 7 The candidate shall lodge at the School of Graduate Studies:
  - a three copies of the work to be examined
  - and
  - b a statutory declaration which shall:
    - (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own
    - and
    - (ii) declare that the work in substantially its present form has not been submitted or accepted previously for the award of a degree or diploma in this or any other tertiary institution, and is not being submitted for a degree or diploma in any other tertiary institution or for another degree or diploma at this institution.

### **Examination**

- 8 The degree will be awarded solely on consideration of the submitted works upon which the candidate's claim to the degree is based.
- 9 In order to qualify for the degree, the submitted works must provide sufficient evidence that the candidate has made an original contribution of special excellence to their discipline such that they are considered to have authoritative standing and international eminence in their field.
- 10 Examiners will be requested to report to the Dean of Graduate Studies on the submission within three months of receipt and recommend whether the candidate:
  - a should be awarded the degree
  - or
  - b should not be awarded the degree.
- 11 The reports of all examiners will be forwarded to the Examination Committee for consideration of whether or not to admit the candidate to the degree.
- 12 If the examiners' recommendations differ, the Examination Committee may invite the examiners to consult and provide a written report or reports on the outcome of their consultation. If, after such consultation, the differences remain unresolved, the Examination Committee may recommend to the Dean of Graduate Studies that a further independent external examiner be appointed to report on areas of conflict.
- 13 The Examination Committee shall recommend an outcome based on the examiners' reports to the Dean of Graduate Studies. The Dean of Graduate Studies will determine the result of the examination and notify the candidate of the decision.
- 14 An unsuccessful submission may not be presented for re-examination until at least five years after initial submission and must include new material.

### **Deposit of Submission in the Library**

- 15 On successful completion of the examination of the submitted work, and when possible, two bound copies will be deposited in the University Library by the School of Graduate Studies. The first bound copy will remain in the Library for reference purposes; the second copy may be borrowed by members of the Library, or sent to other libraries on inter-library loan. The third copy will be returned to the candidate.

### **Graduation**

- 16 Candidates who have satisfied the requirements for any award of the University shall be admitted to that award.

## COURSE PRESCRIPTIONS

---

*The Course Prescriptions contain approved University of Auckland courses. Before selecting courses from this Calendar, students and potential students are advised to ascertain which courses are expected to be offered in this Academic Year and in which semester they are scheduled by referring to the Class Search on Student Services Online, or by contacting AskAuckland Central in Alfred Nathan House, 24 Princes Street, email [studentinfo@auckland.ac.nz](mailto:studentinfo@auckland.ac.nz), phone 0800 316 263, or the relevant faculty student centre.*

*Where courses in the following Course Prescriptions are listed with an 'A' and a 'B' option, this means that, if they are offered, they will be taught over two semesters and students must enrol in both Part A and Part B in order to complete and, where successful, be credited with the course. Courses with no 'A' or 'B' designation are taught over one semester.*

*The Prescriptions are listed by faculty, in alpha-numeric order by subject title and should be read in conjunction with the relevant regulations.*

## The University of Auckland

### Academic Integrity

#### ACADINT A01

0 Points

#### Academic Integrity Course

The Academic Integrity Course is an online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

### Foundation Studies

#### Foundation Courses

#### FOUNDST 10F

24 Points

#### English for Academic Purposes

Develops skills for understanding, writing, reading and speaking English. Attention is paid to accuracy, grammatical structures, spelling, punctuation and word use. Tasks include group discussions and formal presentations, note-taking, extended reading and formal comprehension exercises, paragraph and note-form summaries and preparation of research reports.

#### FOUNDST 11F

24 Points

#### Accounting

Provides introduction to accounting methods and concepts. Topics include cash and accrual accounting, budgeting, cash flow, depreciation, assessment of performance, accounting systems, job costing, cost-volume-profit analysis, financial statements for sole traders, partnerships and companies.

#### FOUNDST 12F

24 Points

#### Art

Provides a practical knowledge of visual arts and understanding of arts in context. Through a number of practical assignments and the production of a portfolio, students develop ideas, observe, analyse, interpret and evaluate images.

#### FOUNDST 13F

24 Points

#### Biology

Develops an understanding of biology and the skills to apply biological knowledge to solve problems, design and perform experiments, and to interpret and present evidence. Topics include structure and function of the cell, responses of plants and animals to biotic and abiotic factors, genetics and evolution (primates and hominids).

#### FOUNDST 14F

24 Points

#### Chemistry

Provides science students with the skills and confidence to test their ideas experimentally. Topics include atomic theory, chemical bonding and shapes of molecules, chemistry of transition elements, metal hydroxides, halogens and selected ions, analysis of laboratory solutions and commercial products, energy involved in physical and chemical changes, Aqueous Chemistry, oxidation-reductions and applications, spectroscopic identification of organic compounds.

#### FOUNDST 15F

24 Points

#### Classical Studies

Gives an introduction to the history, literature, art, architecture and politics of ancient Greece (600-400BC) and Rome (753 BC to 14 AD). Develops vital skills for university level study, including critical thinking, analysis and writing argumentative essays.

#### FOUNDST 16F

24 Points

#### Economics

Covers a wide range of economic issues, from basic economic concepts and principles, to policy options available to governments, and probable consequences of economic decisions. Topics include relative scarcity and production possibilities, demand, supply and the market, market structures, including monopoly, externalities, public goods and government intervention, equity and efficiency, financial markets, aggregate demand and supply and the macroeconomic economy.

#### FOUNDST 17F

24 Points

#### Geography

Covers the formation of natural features and develops skills involved in interpreting topographic data. Analysis of cultural processes (urban growth, migration, development and sustainability), the study of human actions that modify natural processes, and analysis of the outcomes.

#### FOUNDST 18F

24 Points

#### Information Technology

Provides a broad knowledge of computer technology, common application software, programming, word processing, spreadsheets and databases. Topics include computer hardware, computer software, operating systems, business applications, problem solving techniques used for programming.

#### FOUNDST 19F

24 Points

#### Mathematics with Calculus

Provides a solid foundation for university subjects requiring a prior knowledge of Mathematics with Calculus. Topics include calculus, algebra, trigonometry, geometry.

#### FOUNDST 20F

24 Points

#### Mathematics with Statistics

Provides students with a broad range of mathematical knowledge and skills and is a pre-requisite for many university courses. Topics include algebra and graphing functions, exponentials and logarithms, correlation and progression, probability and set theory, random variables and their distributions, time series, linear programming, mathematical modelling, numerical equation solving, binomial, poisson and normal distributions.

#### FOUNDST 21F

24 Points

#### Physics

Develops students' theoretical knowledge, problem-solving skills and experimental techniques. Topics include light, waves, kinematics, mechanics, electricity and magnetism, atomic and nuclear physics.

### Internship

#### Postgraduate 700 Level Courses

#### INTERNSP 700

15 Points

#### Internship 1

Enables the development of practical knowledge and hands-on experience through a supervised internship.

### **Stage III**

#### **ANCHIST 300 15 Points**

##### **Egypt in Dynasty XVIII**

The cosmopolitan nature of ancient Egypt during the era of its imperial expansion and its consciousness as a world power. Topics covered include the social, political and economic ramifications of this sudden change in Egypt's role in the ancient world. The emergence of new religious directions will also be discussed, among which are the state cults of Amun-Re and the religious monotheism of Akhenaton.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History

*Restriction:* ANCHIST 200

#### **ANCHIST 302 15 Points**

##### **Greece and Persia**

A study of the contacts and conflicts between Greece and Persia 560-323BC.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek

*Restriction:* ANCHIST 202

#### **ANCHIST 304 15 Points**

##### **Directed Study**

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies or Classical Studies and Ancient History, or 30 points in Greek or Latin

#### **ANCHIST 310 15 Points**

##### **Egyptian Language 2A**

A study of the historical inscriptions covering the key pharaonic records of Dynasty XVIII, for example, of Thutmose III and Amunhotep II and non-royal individuals of the XVIIIth

Dynasty. Texts include the war records, building inscriptions, the Hymn to the Aten and the various sphinx stelae.

*Prerequisite:* ANCHIST 220

#### **ANCHIST 314 15 Points**

##### **Historians of Rome**

A study of the Greek and Latin writers on Roman history in English translation; writers will include Livy, Sallust and Tacitus.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Latin

*Restriction:* ANCHIST 753

#### **ANCHIST 324 15 Points**

##### **Historians of Greece**

A study of the Greek writers on Greek history in English translation; writers will include Herodotus, Thucydides and Xenophon.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek

*Restriction:* ANCHIST 752

#### **ANCHIST 330 15 Points**

##### **Egypt in Dynasties XI-XVII**

Covers the history of Egypt during one major phase of unification, the Middle Kingdom, as well as the First and Second Intermediate Periods. Topics analysed include the rise of imperialism in the south (Nubia), the importance of literature of propaganda as a social bond of loyalty, the conquest of the north by the Asiatic Hyksos, and the new artistic style of portraiture.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History

*Restriction:* ANCHIST 230

#### **ANCHIST 340 15 Points**

##### **Egyptian Language 2B**

A study of the main literary texts of the XIIth Dynasty such as The Story of Sinuhe and Cheops and the Magicians. Emphasis is placed upon various literary elements of these compositions such as folktale elements, the use of propaganda, the individual in society and the exotic foreign settings to the tales.

##### **Icon and Narrative: Egypt, Greece and the Aegean**

A study of key periods and cultural developments in the art and archaeological remains of Egypt (from the Predynastic Period to the New Kingdom) and Greece and the Aegean island cultures of the Bronze Age (from c. 4000 BC to c. 1000 BC).

*Prerequisite:* 15 points at Stage II in Ancient History or Classical Studies, or 30 points at Stage II in Art History or Greek

*Restriction:* ANCHIST 251

#### **ANCHIST 352 15 Points**

##### **Egyptian Religion**

A study of ancient Egyptian religion from the Early Dynastic period through to the end of the Late Period. The course will examine religious practice as well as religious thought, and

will consider the patterns of belief throughout the ancient period of Egypt's history.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History

*Restriction:* ANCHIST 252

#### **ANCHIST 353 15 Points**

##### **Early Egypt**

Covers the earliest periods of Egypt's development from the prehistoric period to the end of the Old Kingdom. This course focuses on the lead-up to state formation and the great Pyramid Age that followed.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History

*Restriction:* ANCHIST 253

#### **ANCHIST 354 15 Points**

##### **Early Rome**

A study of the earliest development of ancient Rome, using written sources but with special emphasis on archaeological evidence.

*Prerequisite:* 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Latin

*Restriction:* ANCHIST 254

#### **ANCHIST 355 15 Points**

##### **The Later Roman Empire**

A study of the Roman Empire between the third and sixth centuries CE. Topics covered include the social, economic and political crises of the period, encounters and struggles between Romans and barbarians, the conflict between Paganism and Christianity, and the emergence of the barbarian kingdoms in the West and the Byzantine empire in the East.

## Anthropology

### Stage I

#### ANTHRO 100 15 Points Human Cultures: Introduction to Social Anthropology

Humans are social and cultural beings. This course provides an understanding of human lives. Basic concepts and approaches are covered.

#### ANTHRO 101 15 Points World Archaeology

World archaeology from the emergence of culture to the first cities, including the Pacific region.

#### ANTHRO 102 15 Points How Humans Evolve

Humans are primates united by sociality, diversity, and flexibility and are subject to the same evolutionary forces as other species. However, human evolution is biocultural and is subject to both biological and cultural inheritances. Biological anthropology includes the study of human evolution past and present. This course will examine our evolutionary history and how evolution affects humans today.

#### ANTHRO 103 15 Points Musics of the World in Everyday Life

Examines the personal, communal, religious, patriotic, emotional and economic roles that music plays in the lives of musicians, composers and listeners. Employs research from a range of ethnographic perspectives and encourages students to think and act analytically about their own musical worlds. Examples and case studies are drawn from around the globe, encompassing contemporary urban and remote village settings.

#### ANTHRO 104 15 Points ANTHRO 104G 15 Points Peoples and Cultures of the Pacific

A survey of the peoples of Pacific Islands through the perspectives of archaeology, biological anthropology, ethnomusicology, linguistics and social anthropology.

#### ANTHRO 105 15 Points ANTHRO 105G 15 Points Question of Race and Racism

International, cross-cultural and interdisciplinary perspectives question 'race' and 'racism'. Why does the concept have such social and political potency? What are the impacts of concepts of race and practices of racism and anti-racism on individuals, families, communities, nation-states and empires, and in Aotearoa New Zealand and the Pacific in particular?

#### ANTHRO 106 15 Points ANTHRO 106G 15 Points Issues and History in Popular Music

A survey of popular music styles, artists, sub-cultures and issues that explores facets such as genre, the music industry, music and politics, music videos, the sales process, race and identity, and gender theory. Core theory and writers in popular music studies are introduced and popular music is used to explore societal changes in class, ethnicity, gender, sexuality, youth, and global economic and cultural processes.

Note: Does not meet the General Education requirement for BMus or BMus conjoints.

Restriction: POPMUS 106, 106G

### Stage II

#### ANTHRO 200 15 Points Archaeology: Understanding the Past

An examination of current concepts in archaeological research and their place in the development of archaeological thought. How archaeology makes use of its methods and theories to understand the past. An introductory laboratory component. This course is essential for students who may wish to continue their study of Archaeology at Stage III.  
*Prerequisite: 30 points in Anthropology or 60 points passed*

#### ANTHRO 201 15 Points Human Evolution

Explores issues fundamental to understanding humans' place in nature from a biocultural perspective. What led to the evolution of bipedalism, large brains, and language? How do we define species in the fossil record? How can we reconstruct ancient diets and ecologies? The course will examine how new discoveries and advancements in biology are reshaping understandings of our evolutionary history.  
*Prerequisite: 30 points in Anthropology or 60 points passed*

#### ANTHRO 202 15 Points Music and Identity in World Music Cultures

Examines music's role in the construction and reinforcement of identity. Considers a range of culturally constructed concepts including class, gender and ethnicity; also considers the impact of mass mediated sound and unique nature of music in the cultural diaspora. Examples and case studies range from the ritual musics of Africa and the classical music of South Asia to East Asian pop.  
*Prerequisite: 30 points passed*

#### ANTHRO 203 15 Points Thinking like a Social Anthropologist

A survey of some of the key anthropological theories used to analyse human social life, discussed by reference to cross-cultural studies. Also considers current debates/issues within the discipline.

*Prerequisite: ANTHRO 100 or 30 points in Anthropology*

#### ANTHRO 204 15 Points Ethnography of Island Polynesia

What is distinctive about Polynesian culture and society? How and why are Polynesian cultures alike? How are they different? In what ways are Fiji, Samoa, Tikopia, Tokelau and Tonga different or similar to other Oceanic cultures? Anthropological studies of these questions will be explored through indigenous Polynesian, anthropological and historical accounts.

*Prerequisite: ANTHRO 100 or 30 points in Anthropology, Māori Studies or Pacific Studies, or 45 points in BGlobalSt courses*

#### ANTHRO 205 15 Points Primate Behaviour, Ecology and Conservation

Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.

*Prerequisite: 15 points in Anthropology or 60 points passed*

Restriction: ANTHRO 349

#### ANTHRO 206 15 Points Origins of Civilisation

The shift from a hunter-gatherer way of life to one based

on village life and agriculture is foundational for the development of complex society. The course considers what socio-cultural changes were involved as Holocene societies developed in different parts of the world and how the relationship between humans and the environment changed.  
*Prerequisite: 15 points in Anthropology or 60 points passed*  
*Restriction: ANTHRO 322*

#### **ANTHRO 207 15 Points**

##### **Archaeological History of Aotearoa New Zealand**

Examines the first 600-700 years of human settlement in Aotearoa New Zealand from an archaeological perspective, from Polynesian arrival through the early historic period. Themes include Māori origins in East Polynesia, adaptations to Aotearoa's temperate environment, changing patterns of resource use, Māori material culture and arts, the development of fortified sites or pā, and the emergence of classic Māori society.

*Prerequisite: 60 points passed*

*Restriction: ANTHRO 365*

#### **ANTHRO 208 15 Points**

##### **Medical Anthropology**

Medical Anthropology draws on biological and social/cultural anthropology to address issues of human health and disease. A distinct subfield, it includes studies of the co-evolution of humans and diseases, human ecology, cultural constructions of health and illness, medical knowledge and healing practices, and the political economy of health. Students are asked to research, think and write analytically about these topics.

*Prerequisite: ANTHRO 100 or 102 or 60 points passed at Stage I*

#### **ANTHRO 211 15 Points**

##### **Human Sex, Gender and Sexuality**

Explores the central anthropological topics of human sex, sexuality and gender from diverse perspectives. Topics may include cross-cultural and social conceptualisations and creations of difference; ideas about biology, gender and sexuality; how they are simultaneously socio-cultural products and forces; lived experiences and corporeal and political phenomena; reproductive politics; and global, national and local sexual and gender relations.

*Prerequisite: ANTHRO 100 or 30 points in Anthropology, Gender Studies, History or Sociology*

*Restriction: ANTHRO 215, 342*

#### **ANTHRO 212 15 Points**

##### **Ethnographic Film and Photography**

Explores uses of photography and film in the production and dissemination of anthropological knowledge. Emphasises the choices in subject matter, imagined audience, composition, construction of narrative (or not), and mode of representation that are made at all stages in the production of ethnographic images. Uses ethnographic images to reflect on construction of ethnographic texts.

*Prerequisite: ANTHRO 100 or ARTHIST 115 or 30 points in Anthropology, Sociology, Media Film and Television, or Communication*

*Restriction: ANTHRO 320*

#### **ANTHRO 217 15 Points**

##### **Rhythm, Blues and Rock**

African-American popular music and culture from the mid-1930s through the early 1960s, including styles such as blues, R 'n' B, and early Rock 'n' Roll. Considers issues of racial and gendered representation, creativity, the popular music industry, the place of music in the development of

'youth culture' and stylistic trends. Individual performers, recordings and performances, are also examined.

*Prerequisite: 30 points passed*

*Restriction: POPMUS 206*

#### **ANTHRO 234 15 Points**

##### **Popular Musics of the Pacific**

From hip hop to reggae to pop, this course explores Pacific popular music genre, artists and songs as well as relevant musical techniques, modes of distribution and processes of fusion and change. It probes the positions and possibilities of Pasifika pop musics by discussing critical questions about culture, authenticity, modernisation, consumerism, identity and musical (ex)change.

*Prerequisite: 30 points passed*

#### **ANTHRO 235 15 Points**

##### **The Anthropology of Human Remains**

Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.

*Prerequisite: 15 points in Anthropology or 60 points passed*

*Restriction: ANTHRO 367*

#### **ANTHRO 236 15 Points**

##### **Special Topic**

#### **ANTHRO 241 15 Points**

##### **Anthropology of the Body**

Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender, and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.

*Prerequisite: ANTHRO 100 or 30 points in Anthropology*

*Restriction: ANTHRO 354*

#### **ANTHRO 244 15 Points**

##### **Politics of Culture**

A critical exploration of contemporary debates on and around the idea of 'culture'. Focuses particularly on controversies at the interface between anthropology and politics, from problems of cultural translation and the appropriation of culture, to the politicisation of culture, multiculturalism and the rise of the 'consumer culture'.

*Prerequisite: ANTHRO 100 or 30 points in Anthropology or Political and International Relations*

*Restriction: ANTHRO 330*

#### **ANTHRO 246 15 Points**

##### **Tradition and History in New Zealand Archaeology**

Examines Māori traditions and history as a guide to processes in the New Zealand archaeology. Case studies will include Māori canoe traditions, the expeditions of Hongi Hika and Te Rauparaha, and the Ngāi Tahu settlement of the South Island.

*Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed*

*Restriction: ANTHRO 346*

#### **ANTHRO 247 15 Points**

##### **Anthropology Today: Debates in Culture**

The primary aim is to provide students with an introduction to some of the more topical and controversial themes that social anthropologists are currently engaged with.

Topics include: the culture of terrorism, anthropology and cyberculture, the anthropological study of prisons, race and racism, and the politics of representation.

*Prerequisite:* ANTHRO 100 or 30 points in Anthropology

*Restriction:* ANTHRO 371

#### **ANTHRO 248 15 Points**

##### **Special Topic**

*Prerequisite:* ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

#### **ANTHRO 250 15 Points**

##### **World-view and Religion**

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion, ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.

*Prerequisite:* ANTHRO 100 or 30 points in Anthropology or Theological and Religious Studies or Sociology

*Restriction:* ANTHRO 379

#### **ANTHRO 251 15 Points**

##### **Special Topic**

*Prerequisite:* ANTHRO 100 or 30 points in Anthropology

#### **ANTHRO 252 15 Points**

##### **Special Topic: Global Heritage Management**

Globally, archaeological features and historic monuments are increasingly threatened by urban development, looting, antiquities trafficking, and effects of climate change. Using an archaeological perspective, state-of-the-art recording technologies, community partnerships, legislation, management systems, and the role of museums in conservation and exhibition will be examined. Case studies from Aotearoa, Pacific and elsewhere illustrate major issues, contradictions, and controversies, alongside effective heritage management.

*Prerequisite:* ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

#### **ANTHRO 268 15 Points**

##### **Exploring Ethnography**

Explores ethnographic approaches to human cultures, including key elements of ethnographic fieldwork and analytic approaches. Uses ethnography to understand contexts and processes that shape people's social and cultural lives. In any given year, a different ethnographic region (e.g., Europe, Melanesia, Polynesia, South-East Asia, New Zealand) or theme (e.g., art, economics, racism, technology, violence) may be covered.

*Prerequisite:* ANTHRO 100 or 30 points in Anthropology, Sociology or History

*Restriction:* ANTHRO 368

### **Stage III**

#### **ANTHRO 301 15 Points**

##### **Contemporary Research in Music and Culture**

A seminar-style course covering a range of current topics and methods in ethnomusicology. Examines selected theories, methods, and perspectives on the roles and meanings of musical activity in contemporary human culture. We will view music as a symbolic component of cultural expression and as both focus and paradigm for cultural structures and behaviours.

*Prerequisite:* ANTHRO 202 or 30 points at Stage II in Transnational Cultures and Creative Practice

*Restriction:* ANTHRO 279

#### **ANTHRO 306**

**15 Points**

##### **Pacific Archaeology**

The archaeology of the Pacific region, including colonisation, settlement patterns, interisland trade, traditional navigation, cultural change, emergence of complex societies and ethnohistory.

*Prerequisite:* 60 points at Stage II

*Restriction:* ANTHRO 706

#### **ANTHRO 309**

**15 Points**

##### **Quantitative Methods in Anthropology**

Introduces analytical approaches to anthropological data, emphasising application of statistical principles to research design. Strongly recommended for all students of anthropology considering postgraduate study. Concepts and topics include: variable scales, operational definitions, sampling, choosing appropriate statistical tests, error, measures of central tendency and dispersion, accuracy, bias and validity. This course assumes only a limited mathematical background.

*Prerequisite:* ANTHRO 200 or 201 or 203 or 120 points passed

*Restriction:* SOCSRES 300

#### **ANTHRO 310**

**15 Points**

##### **Reading Ethnography**

Ethnographic texts are the major outcome of research in social and cultural anthropology. This seminar-based course compares different ethnographies and approaches to ethnographic research and writing.

*Prerequisite:* ANTHRO 203 with a minimum B pass

#### **ANTHRO 317**

**15 Points**

##### **Field Methods in Archaeology**

Participation in a field school involving an intensive introduction to all aspects of excavation and subsequent laboratory analysis and report preparation.

*Prerequisite:* ANTHRO 200 passed with a grade of B- or higher

*Restriction:* ANTHRO 737

#### **ANTHRO 318**

**15 Points**

##### **Archaeological Science**

Archaeology uses a great number of scientific methods. This lab course introduces the application of these techniques. Using the resources found in our laboratories, topics covered include geophysical sub-surface prospecting, dating, identifying the origin of archaeological material using petrography and geochemistry, residue analysis, ceramic and stone artefact production, and study of archaeological sediments. Coursework includes a series of hands-on laboratories.

*Prerequisite:* B- or higher in ANTHRO 200 or 201

#### **ANTHRO 319**

**15 Points**

##### **World-view and Religion**

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion, ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.

*Prerequisite:* ANTHRO 203 or 30 points at Stage II

*Restriction:* ANTHRO 250

#### **ANTHRO 321**

**15 Points**

##### **Equality and Inequality**

Examines conceptualisations, realities and consequences of equality and inequality cross-culturally. Considers whether there are egalitarian societies and whether inequality is inevitable. Covers types and systems of inequality such as slavery, gender inequality, caste and class, as well as

differences between economic and political inequality, and between equality of opportunity and equality of results.

*Prerequisite:* ANTHRO 203 or 30 points at Stage II

**ANTHRO 322 15 Points**  
**Origins of Civilisation**

The shift from a hunter-gatherer way of life to one based on village life and agriculture is foundational for the development of complex society. The course considers what socio-cultural changes were involved as Holocene societies developed in different parts of the world and how the relationship between humans and the environment changed.

*Prerequisite:* 60 points at Stage II

*Restriction:* ANTHRO 206

**ANTHRO 327 15 Points**  
**Music and Culture in Bollywood**

Focuses on Hindi film songs and song scenes taken from mainstream "Bollywood" films, with consideration of tensions between music as popular song and as a narrative component. Examines issues and theories of music, semiotics and narrative context and convention and explores the role of film song in South Asian popular culture.

*Prerequisite:* 30 points at Stage II

**ANTHRO 328 15 Points**  
**Bioarchaeology**

A practical introduction to the archaeological analysis and interpretation of biological remains, emphasising faunal materials but also including macrobotanical remains and pollen.

*Prerequisite:* ANTHRO 200 or 201 with a minimum B- grade

**ANTHRO 329 15 Points**  
**Music of East Asia: Tradition, Modernity and Globalisation**

Explores East Asia from the ethnomusicological perspective and illuminates how music negotiates boundaries and constructs varying identities in China, Japan, and Korea, while affirming a distinct cultural identity generally referred to as "East Asian". Using different musical practices of East Asia as case studies, it examines multiple approaches and methodologies used in studying East Asian music.

*Prerequisite:* 30 points at Stage II

**ANTHRO 330 15 Points**  
**Politics of Culture**

A critical exploration of contemporary debates on and around the idea of 'culture'. Focuses particularly on controversies at the interface between anthropology and politics, from problems of cultural translation and the appropriation of culture, to the politicisation of culture, multiculturalism and the rise of the 'consumer culture'.

*Prerequisite:* ANTHRO 203 or 30 points at Stage II

*Restriction:* ANTHRO 244

**ANTHRO 331 15 Points**  
**Anthropology Today: Debates in Culture**

The primary aim is to provide students with an introduction to some of the more topical and controversial themes that social anthropologists are currently engaged with. Topics include: the culture of terrorism, anthropology and cyberculture, the anthropological study of prisons, race and racism, and the politics of representation.

*Prerequisite:* ANTHRO 203 or 30 points at Stage II

*Restriction:* ANTHRO 247

**ANTHRO 337 15 Points**  
**Birth, Death, and Disease: Anthropological Demography**

Examines how human populations change over time, what factors underlie patterns of disease and death, and why demography is so important to the study of epidemics. The

course will explore the use of demographic methods and theories of demographic and epidemiological transition to examine fertility, morbidity, mortality, and migration from an anthropological perspective, with a particular focus on infectious disease dynamics.

*Prerequisite:* ANTHRO 201 or 60 points in Anthropology

**ANTHRO 340 15 Points**  
**Heritage Conservation in Aotearoa**

Addresses the main principles of heritage conservation focusing on the rationale rather than treatment methods. Special emphasis is given to the fields of: conservation of place, archaeological, architectural, ethnographic and fine art conservation. Provides students with a cultural orientation to conservation where issues are examined through several contexts, including anthropological studies and conservation science.

*Prerequisite:* 30 points at Stage II in Anthropology

**ANTHRO 342 15 Points**  
**Human Sex, Gender and Sexuality**

Explores the central anthropological topics of human sex, sexuality and gender from diverse perspectives. Topics may include cross-cultural and social conceptualisations and creations of difference; ideas about biology, gender and sexuality; how they are simultaneously socio-cultural products and forces; lived experiences and corporeal and political phenomena; reproductive politics; and global, national and local sexual and gender relations.

*Prerequisite:* ANTHRO 203 or 30 points at Stage II

*Restriction:* ANTHRO 211, 215

**ANTHRO 345 15 Points**  
**Directed Study in Anthropology**

A directed reading and individual study course, offered in exceptional circumstances, to prepare students in the methodologies of a selected sub-discipline of Anthropology, with the agreement and under the supervision of appropriate staff.

*Prerequisite:* ANTHRO 200 or 201 or 219 or 203 and Head of Disciplinary Area approval

**ANTHRO 346 15 Points**  
**Tradition and History in New Zealand Archaeology**

Examines Māori traditions and history as a guide to processes in the New Zealand archaeology. Case studies will include Māori canoe traditions, the expeditions of Hongi Hika and Te Rauparaha, and the Ngāi Tahu settlement of the South Island.

*Prerequisite:* ANTHRO 200 or 201 or 203 or 219 or 120 points passed

*Restriction:* ANTHRO 246

**ANTHRO 347 15 Points**  
**Special Topic in Anthropology**

*Prerequisite:* 30 points at Stage II in Anthropology including either ANTHRO 200 or 201

**ANTHRO 348 15 Points**  
**Perspectives on Human Growth**

Adopts evolutionary and biocultural perspectives in examining patterns of human growth and maturation. Human developmental patterns are placed within an evolutionary framework using evidence from non-human primates and earlier hominid remains. Variability within and among human populations in growth and developmental timing is considered in terms of genetics interacting with physical, biotic and social factors.

*Prerequisite:* ANTHRO 201 or 60 points in Anthropology

- ANTHRO 349** 15 Points  
**Primate Behaviour, Ecology and Conservation**  
 Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.  
*Prerequisite:* ANTHRO 201 or 60 points in Anthropology  
*Restriction:* ANTHRO 205
- ANTHRO 351** 15 Points  
**Special Topic**  
*Prerequisite:* ANTHRO 203 or 30 points at Stage II in Anthropology
- ANTHRO 352** 15 Points  
**Special Topic: Applied Anthropology**  
 Examines how anthropology has been used in interventions that affect people's lives, and how anthropology has contributed to public policy and public discourse. Considers ethical, methodological and theoretical complexities of anthropology's engagement in development and advocacy. Finally, the course will consider how anthropologists fit into the bigger picture of transnational governmentality, policy and economy.  
*Prerequisite:* 60 points in Anthropology
- ANTHRO 353** 15 Points  
**Archaeology in Practice**  
 Introduces standard laboratory methods for analysing artefacts and generating material culture data to answer questions about the past. Quantitative observations, classification, and hypothesis testing will be emphasised. Course content will be relevant to a range of archaeological research, including research in heritage management contexts. Analysis of Australasian and Pacific Island materials will form the basis of laboratory work when possible.  
*Prerequisite:* B- or higher in ANTHRO 200 or 201
- ANTHRO 354** 15 Points  
**Anthropology of the Body**  
 Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.  
*Prerequisite:* ANTHRO 203 or 30 points at Stage II in Anthropology  
*Restriction:* ANTHRO 241
- ANTHRO 357** 15 Points  
**Gender, Sexuality and Popular Music**  
 Explores the ways in which gender and sexual identities are both reflected in and modified by mainstream popular music: from 'girl power' to boy bands; from outwardly gay and lesbian artists to the gay appropriation of heterosexual female divas; from the camp masculinity of heavy metal to lesbian rock and riot grrrls; from women-hating gangster rappers to powerful women in the recording industry.  
*Prerequisite:* 30 points at Stage II  
*Restriction:* POPMUS 306
- ANTHRO 358** 15 Points  
**Gender and Colonialism in the Pacific**  
 The transformation of gender relations in the Pacific from the inception of the European contact period and through the colonial process. Emphasis will be on the gendered nature of colonialism both in terms of how it framed the process, as well as how the experience was lived.  
*Prerequisite:* ANTHRO 203 or 30 points at Stage II  
*Restriction:* WOMEN 303
- ANTHRO 360** 15 Points  
**Special Topic**  
*Prerequisite:* ANTHRO 200 or 201 or 203 or 219 or 120 points passed
- ANTHRO 365** 15 Points  
**Coming of the Māori: Archaeology of Aotearoa**  
 Examines the first 600-700 years of human settlement in Aotearoa/New Zealand from an archaeological perspective, from Polynesian arrival through the early historic period. Themes include Māori origins in East Polynesia, adaptations to Aotearoa's temperate environment, changing patterns of resource use, Māori material culture and arts, the development of fortified sites or pā, and the emergence of classic Māori society.  
*Prerequisite:* 60 points at Stage II  
*Restriction:* ANTHRO 207
- ANTHRO 366** 15 Points  
**Medicine, Power and Politics**  
 Anthropological examination of the interplay between cultural values, local and national politics, and international health programs and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings.  
*Prerequisite:* ANTHRO 203 or 30 points at Stage II
- ANTHRO 367** 15 Points  
**The Anthropology of Human Remains**  
 Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.  
*Prerequisite:* ANTHRO 200 or 201 with a minimum B- grade  
*Restriction:* ANTHRO 235
- ANTHRO 368** 15 Points  
**Exploring Ethnography**  
 Explores ethnographic approaches to human cultures, including key elements of ethnographic fieldwork and analytic approaches. Uses ethnography to understand contexts and processes that shape people's social and cultural lives. In any given year, a different ethnographic region (e.g., Europe, Melanesia, Polynesia, South-East Asia, New Zealand) or theme (e.g., art, economics, racism, technology, violence) may be covered.  
*Prerequisite:* ANTHRO 203 or 30 points at Stage II in Anthropology  
*Restriction:* ANTHRO 268
- ANTHRO 370** 15 Points  
**Special Topic**  
*Prerequisite:* ANTHRO 200 or 120 points passed
- ANTHRO 399** 15 Points  
**Capstone: Anthropological Science**  
 Provides students with an opportunity to demonstrate their integrated knowledge and growth in the major. Students are

encouraged to make connections between their academic learning in anthropological science and the professional world. Specific topics will vary by year, but will feature projects designed to incorporate both independent and collaborative work, as well as the potential for public engagement.

*Prerequisite: 30 points passed at Stage III in Anthropological Science or Academic Head approval*

| <b>Contact and Colonialism</b>   |                   |
| A seminar focused on critical understanding of the political, social and economic expansion of European countries around the world and its cultural consequences. Themes may include: cultural encounter, causes and effects of colonisation, interpretations of the other by colonisers and colonised, Creole cultures, slavery, race, resistance |                   |

and accommodation, gender, demography, environmental impacts.

*Restriction: ANTHRO 720*

#### **ANTHRO 744 15 Points**

##### **Anthropology and History**

A critical examination of the characteristics, applications and interactions of different media in the production of the past: chant, genealogy, song, dance, textiles, carving, architecture, as well as written text.

*Restriction: ANTHRO 720*

#### **ANTHRO 745 15 Points**

##### **Special Topic: Anthropology and the Humanities**

Explores the interactions between anthropology and the humanities, especially literature and visual arts. Topics include anthropology's formation in relation to modernism, primitivism; how these movements have influenced nationalisms; contemporary exercises in genre-bending: ethnographic novels, ethnography as literature, televisual ethnography; the borders between empirical ethnographic and imaginative accounts. Students will consider how and why disciplinary boundaries are formed and transgressed.

#### **ANTHRO 746 15 Points**

##### **Special Topic: The Archaeology of the Anthropocene**

Calls for the Anthropocene, a new geological epoch, recognise long-term, consequential effects of human societies, regardless of size, economics or socio-political complexity, on environments, organisms and ecosystems. When did the Anthropocene begin? How do we track socio-natural interactions over deep time? What might the past offer the future? This course explores how archaeology contributes to these and related questions.

#### **ANTHRO 747 15 Points**

##### **Special Topic**

#### **ANTHRO 748 15 Points**

##### **Human Osteology**

Advanced method and theory in human osteology. Coursework is a combination of seminars and practical workshops covering the areas of biocultural frameworks, ethics, taphonomy, human identification, dental anthropology, palaeopathology and biomolecular approaches. Work is focused upon method and theory as applied in the southern hemisphere.

*Restriction: ANTHRO 730*

#### **ANTHRO 749 15 Points**

##### **Advanced Primatology**

A practical and theoretical exploration of the methodological principles and research methods in contemporary primatology. Students build a working understanding of behavioural data collection and analysis, as well as developing tools for the assessment of populations and habitats.

*Restriction: ANTHRO 730*

#### **ANTHRO 753 15 Points**

##### **Ethnographic Research**

Students learn observational, ethnographic and quantitative social anthropological research methods by designing and carrying out a small class research project. Ethical and methodological issues are introduced.

*Restriction: ANTHRO 711, 734*

#### **ANTHRO 756 15 Points**

##### **Anthropology and Intellectual Property**

Examines recent anthropological contributions to debates about intellectual property. These include concepts

of ownership, the objectification and appropriation of indigenous knowledge, creativity, bioprospecting, the protection of intangible cultural property, and the effects of global flows of information on persons, privacy and the ownership of ideas.

**Special Topic**

**ANTHRO 760** 15 Points  
**Anthropological Theory and the Contemporary World**

An analysis of foundational and current theoretical works in social anthropology and their relevance to understanding contemporary societies and cultures. The course examines anthropological approaches to long-standing disciplinary debates and contemporary issues of wider public debate.  
*Prerequisite:* Permission of Head of Department  
*Restriction:* ANTHRO 714

**ANTHRO 761** 15 Points  
**Cultural Worlds in Anthropological Perspective**

Draws on both classic and cutting edge approaches in anthropology to examine how human social and cultural worlds are constituted, contested and changed. The course introduces students to a range of different anthropological perspectives on contemporary social, political and economic issues and shows how these can be addressed cross-culturally.  
*Prerequisite:* Permission of Head of Department

## Art History

### Stage I

**ARTHIST 107** 15 Points

**The Renaissance: Art and the City**

An investigation of the social and cultural history of urbanisation 1400-1600 as expressed in painting, sculpture and architecture. The areas of study will involve looking at art in the spheres of public buildings, religious institutions and private houses. The cities to be covered may include Florence, Bruges, Venice, Antwerp and Rome.

**ARTHIST 109** 15 Points

**Shock of the Modern**

Will explore the production and reception of modern art in the context of rapid social, political and technological change during the period from c.1850 to 1970. Modern art is interpreted broadly to include painting, sculpture, design, architecture, performance, photography and film. Issues such as the emergence of the avant garde, primitivism and abstraction will be studied.

*Restriction:* ARTHIST 104, 105, 141

**ARTHIST 114** 15 Points

**ARTHIST 114G** 15 Points

**Understanding Art: Leonardo to Warhol**

Is seeing learned? Can an image be read in the same way as a text? Understanding images is central to everyday life. Visual literacy is fundamental to all disciplines. This course provides students with tools for making sense of various kinds of images and objects: photographs, advertisements, paintings, film, television, comics, cartoons, monuments, buildings, maps, landscape, digital and internet images.

*Restriction:* ARTHIST 109

**ARTHIST 115** 15 Points

**ARTHIST 115G** 15 Points

**Global Art Histories**

A broad survey of visual art spanning from the early modern period to the contemporary. Students will be introduced to a range of art practices situated within a global context and will consider art works produced in Māori and Pacific cultures alongside Indian, Asian, Middle Eastern, European and American traditions.

### Stage II

**ARTHIST 200** 15 Points

**Radical Change: 1850-1940**

Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

*Restriction:* ARTHIST 202, 222, 300, 302, 322

**ARTHIST 201 15 Points****Art and Revolution 1750-1850**

Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericault and Delacroix.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

*Restriction:* ARTHIST 321

**ARTHIST 203 15 Points****Art and Devotion in Northern Europe**

A survey of art in Northern Europe with the focus on developments primarily in painting and sculpture, and to a lesser extent in manuscript illumination and tapestry. Religious symbolism, approaches to landscape representation and portraiture are examined, as well as new genres such as still life and architectural painting. Artists studied include van Eyck, Campin, van der Goes, Hieronymus Bosch and Pieter Brueghel.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

*Restriction:* ARTHIST 303

**ARTHIST 204 15 Points****Ways of Seeing Contemporary Art**

Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

*Restriction:* ARTHIST 334

**ARTHIST 206 15 Points****South Asian Photography**

Examines the development and reception of photography from the nineteenth to the twenty-first centuries across South Asia, focusing on how photographic practices evolved in response to socio-political factors such as class, gender, and colonisation. The course will cover topics such as studio portraits, painted images, and fine-art prints looking at work by artists such as Dayanita Singh and Raghu Rai.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

*Restriction:* ARTHIST 313

**ARTHIST 210 15 Points****Modernism and Design**

A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

*Restriction:* ARTHIST 310

**ARTHIST 214 15 Points****Rethinking NZ Art and Curating**

The selection of topics from the late eighteenth century to the 1970s includes cross-cultural interactions and

representations, landscape and art, questions of cultural identity and innovation, relationships with the art of Europe, America, Australia and Oceania, and tensions between the local and international. Painting, sculpture, carving, architecture, photography and other media are studied.

*Prerequisite:* 15 points at Stage I in Art History and 30 points passed

**Writing in the Workplace**

Addresses written communication in the workplace across a range of discourses, environments, strategies and audiences. Focusing on different kinds of writing used in contexts such as government, community organisations, consultancy, professions, NGOs and private business, students will analyse and produce key workplace text-types within a critical framework of workplace analysis and scholarship on labour and organisations.

*Prerequisite: 60 points at Stage I in BA courses*

**COMMS 201 15 Points****Journalism Studies**

Explores journalism, communications and the news media, examining the history and contemporary state of such practices from a theoretical, rather than practical, perspective. Students gain knowledge about the profound impact that social, political and technological shifts have had on the field of communications today and discuss their implications for popular, professional and citizen journalism.

*Prerequisite:* 60 points at Stage I in BA courses

*Restriction:* FTVMS 225

**COMMS 202 15 Points****Audiences and Users**

Examines the ways that audiences have been conceived, addressed, measured and empowered in the context of the history and technologies of communication media. Theories of reception to be studied include uses and gratifications models, consumer behaviourism, passive versus active audiences, the rise of the 'prosumer', modes of engagement and fan discourses. Students will also learn about audience research methods.

*Prerequisite:* 60 points at Stage I in BA courses

**COMMS 203 15 Points****Television Journalism**

A practical course where students explore the production of current affairs journalism. Students learn to write, video, present and edit short news items in the field and integrate these into a multi-camera production recorded as live in the television studio. Studio skills include directing, production management, multi-cam scripting, vision switching, presenting and interviewing within a framework of current industry practice.

*Prerequisite:* 60 points at Stage I in BA courses

*Restriction:* FTVMS 201

**COMMS 204 15 Points****Social Media**

Addresses issues related to the use of social media and considers in particular the influence of new media corporations such as Facebook, as well as platforms like Twitter, SnapChat, Tinder and YouTube. Explores our cultural practices and social rituals in relation to these peer-to-peer, one-to-many media technologies, and examines this revolution in the media landscape.

*Prerequisite:* 60 points at Stage I in BA courses

*Restriction:* FTVMS 235, 335

**COMMS 205 15 Points****Writing: Concept and Craft**

An exploration of written communication which connects writing as an object of analysis and critique to writing as a multi-faceted craft. Since writing systems, materials and tools create the worlds we live in, the course conceptualises the relation between world and word, image and text, technology and body, and addresses cultural, critical and digital literacies that organise lived experience.

*Prerequisite:* 60 points at Stage I in BA courses

*Restriction:* ENGLISH 105, 257, 363

**COMMS 206 15 Points****Special Topic**

*Prerequisite:* 60 points at Stage I in BA courses

**COMMS 208 15 Points****Digital Communication Ethics**

Addresses applied ethical issues arising in digital journalism, social media, "big data" surveillance and privacy, algorithmic bias, and software design. As digital media expand beyond

the personal computer, there is an increase of ethical issues pertaining to mobile devices, GPS navigation, biometric modelling, artificial intelligence, and the ever-expanding range of wired devices tracking us through the so-called 'internet of things'.

*Prerequisite:* 60 points passed

**Stage III****COMMS 300 15 Points****New Media and the Future of Communication**

Explores theories and practices of communication in the digital age. The course analyses contemporary debates and controversies about the impact of new digital media platforms on the nature and ethics of communication. Examines the implications for the future in terms of opportunities and risks for individuals, communities and institutions in an environment of rapidly advancing communication technologies.

*Prerequisite:* 15 points from COMMS 200-208 and 15 points in BA courses

*Restriction:* FTVMS 203, 314

**COMMS 301 15 Points****Digital Communication and Practice**

Offers a practical and creative approach to digital communication within the critical context of platform studies. Students will navigate the capacities, affordances and limitations of a variety of digital platforms by developing the skills to create platform-specific outputs, such as podcasts, gifs, vlogs, mobile films and digital storytelling shorts.

*Prerequisite:* 15 points from COMMS 200-208 and 15 points in BA courses

**COMMS 302 15 Points****Visual Communication**

Provides students the tools for communicating with various kinds of visual images and objects. These may include brands, logos, graphics, photographs, advertisements, promos, paintings, cartoons, maps, architecture and architectural diagrams. Students will interrogate their culturally specific visual competencies and refine their skills in visual literacy while addressing issues of textuality, identity, ethnicity, nation, class, gender, and communicative inter-relationships more generally.

*Prerequisite:* ARTHIST 115 and 30 points from BA courses, or 15 points from COMMS 200-208 and 15 points from BA courses

**COMMS 303 15 Points****Sports Media**

Examines the relationship between sport and the media. Topics include sports journalism; industry practice; the mediated game event; online communities of fandom; commentary; issues of race and gender; and sports law. Students have the opportunity to experience outside broadcast of televised sport and use the university television studio to engage with key media sport professionals.

*Prerequisite:* 15 points from COMMS 200-208 and 15 points in BA courses

*Restriction:* FTVMS 313

**COMMS 304 15 Points****Gender, Politics and the Media**

Addresses the theory, practice and representation of politics in the media from a gendered perspective. Analyses the

relationship between the media and women and men in the public sphere.

### COMMS 700 30 Points

#### Digital Futures

Considers emerging communication and media technologies and potential future consequences for individuals, societies, and the world at large. Key areas of interest include robotics and AI; ubiquitous computing and the Internet of Things (IoT); 3D printing; virtual, augmented and mixed reality technologies. Issues examined include automation; future of employment; surveillance; new modes of experience; transformed human relationships; and ecological consequences.

*Restriction:* MEDIA 717

### COMMS 701 30 Points

#### Communication and Data

Explores the implications for communication in an age of big data, where code and algorithms curate, evaluate, and profile users' data. The course addresses issues such as archives, clouds, privacy, identity, algorithmic bias and discrimination, complexity, informational capitalism, and affective labour, while also considering possibilities for rethinking the past and predicting the future through the analysis and visualisation of data.

### COMMS 702 30 Points

#### Communication Excess and Avoidance

Silences and absences make communication possible. Each medium, whether spoken or printed, projected or computed, has peculiar silences ranging from elegant to tragic, comic to painful, fleeting to eternal. Superabundant digital media raise acute questions about communicative excess and possible needs to disconnect. Such questions will be addressed alongside the cultural and technological history of communication excess and absence.

*Restriction:* MEDIA 745

### COMMS 703 30 Points

#### Popular Communication and Politics

Explores popular communication across a range of media, genres, texts and technologies to consider the political nature of the cultures, patterns of use, and modes of interpretation that emerge around them. The course will examine the cultural appropriation, adoption, adaptation and distribution of communicative media as well as the political economy of communication, consumer culture and varying forms of fandom.

## Criminology

### Stage II

**CRIM 200** 15 Points  
**Cultural Criminology**

Exposes students to the major concepts and methodological approaches within cultural criminology, a field that is unique in its exploration of the meanings associated with crime and deviance. The course also considers the broader contexts of crime, how powerful groups and media influence criminal

justice policies, and the relationship between popular discourses and the nature of social control.

*Prerequisite:* 60 points passed from BA courses

### **CRIM 201 15 Points**

#### **Debates in Criminology**

Presents analysis of criminal behaviour, crime control and community safety. Attention is paid to criminal offending, response and regulation. Examples are drawn from New Zealand and overseas.

*Prerequisite:* 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIO 100, 101, 103

### **CRIM 202 15 Points**

#### **Contemporary Issues in Punishment**

The focus is on contemporary issues in punishment, considering both its purposes and effectiveness. The course explores a range of perspectives drawing on longstanding criminological, sociological and philosophical literatures.

*Prerequisite:* 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIO 100, 101, 103

### **CRIM 203 15 Points**

#### **The Criminal Mind: Crime and Individual Differences**

Examines the phenomena of crime and punishment from a psychological perspective. Particular attention is paid to psychological explanations of crime, the relationship between mental illness and crime, and the role of psychology in law enforcement, the courts, and corrections.

*Prerequisite:* 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, PSYCH 108, SOCIO 100, 101, 103

### **CRIM 204 15 Points**

#### **Critical Studies in Policing**

Explores policing in New Zealand and beyond, including its legal and theoretical underpinnings. Critically examine media representations of the police, policing and inequality; police culture, power and accountability; the effects of human rights claims on policing methods and emerging threats to policing both locally and globally.

*Prerequisite:* 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIO 100, 101, 103

### **CRIM 205 15 Points**

#### **Crime, Media and Society**

The relationship between crime and the media is complex and contradictory. This course investigates this relationship by encouraging students to develop an understanding of how the media help to influence the public views of crime and criminalisation. It will do this by focusing on media portrayals of crime and criminal behaviour, media effects, and theories of media and communication.

*Prerequisite:* 30 points at Stage I in Law, Media, Film and Television, Psychology, or Sociology

### **CRIM 206 15 Points**

#### **Special Topic**

*Prerequisite:* 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIO 100, 101, 103

### **Stage III**

### **CRIM 301 15 Points**

#### **Issues in Criminal Justice**

Discusses the workings of the criminal justice system and explores and contextualises classical and emergent approaches to criminal justice, including their legal underpinnings. Practical and theoretical issues will be considered using a case study approach. Emphasis is given to the developing synthesis of criminal and social justice.

*Prerequisite:* 15 points from CRIM 201, 202

### **CRIM 302 15 Points**

#### **Criminology: The Indigenous and the Global**

Are we all equal before the law? Or, are groups treated differently by the criminal justice system? This course examines, with particular emphasis on indigenous peoples in New Zealand, Australia and Canada, the impact of differential practices on inequalities and collective efforts to achieve social change. Concepts of restorative justice are central to this course.

*Prerequisite:* 15 points from CRIM 201, 202

### **CRIM 303 15 Points**

#### **Gender, Crime and Justice**

Explores the importance of gender in the study of crime and criminal justice and examines patterns of offending, victimisation and employment in the criminal justice system amongst women and men. Traditional criminology theories and feminist critiques, and the differential treatment of women and men in the criminal justice system as victims, offenders and professionals will be critically examined and evaluated.

*Prerequisite:* 15 points from CRIM 201, 202

### **CRIM 304 15 Points**

#### **Key Issues in Restorative Justice**

Provides a critical analysis of the restorative justice process as a response to offender behaviour, which will aid an understanding of its place within the wider criminal justice system. A variety of perspectives on restorative justice will be considered, as well as the various practices associated with it, and its effectiveness according to different stakeholders.

*Prerequisite:* 15 points from CRIM 201, 202

### **CRIM 305 15 Points**

#### **Victims and Victimology**

Explores patterns and theories of victimisation, the position of victims and victimology within criminology, and the representation of victims in the media. Includes case studies of specific types of victimisation such as racial hate crimes and family and sexual violence. Victims' rights and the position of victims in the criminal justice system and restorative justice will also be examined.

*Prerequisite:* 15 points from CRIM 201, 202

### **CRIM 306 15 Points**
