2021 Calendar
Information contained in the Calendar was correct at the time of initial publication (October 2020) but is subject to change. Changes made following initial publication can be found at www.calendar.auckland.ac.nz/en/updates.html. The University reserves the right to change its regulations, courses and any other content of the Calendar, or to withdraw any programme of study, or impose limitations on enrolment should circumstances require this.

Editor: Andrew Kellett

Regulations Officers: Spring Chen, Anna Harding-Schofield, Gabriella Sharma, Neil Wright

Web Publisher: Sharmila Ravi

Cover: Waipapa Marae, with a view to the meeting house, Tāne-nui-a-rangi. Named for the original area, Waipapa, a historic landing place of canoes, and acknowledging Ngāti Whātua ki Ora as the tangata whenua of Waitematā, Waipapa Marae is the focal point of Māori life at the University of Auckland.

Further information on the history and current use of Waipapa Marae can be found at https://www.auckland.ac.nz/en/on-campus/life-on-campus/maori-life-on-campus/waipapa-marae.html

</tbody>
</table>
Welcome to the University of Auckland. This Calendar is the official publication of the University and includes academic statutes and regulations governing admission, enrolment, fees and examinations. The Calendar sets out requirements for degrees, diplomas and certificates and lists the approved courses offered by the University. It also provides key information about the University and its staff.

The Academic Year
The academic year at the University of Auckland is divided into two semesters. Each semester covers a period of about 15 weeks comprising approximately 12 teaching weeks followed by three weeks for study and examination. The first semester usually starts at the beginning of March and the second semester in mid-July. Each semester has a mid-semester break which lasts for one to two weeks. During the three weeks after the end of lectures, there is a period of study followed by the examinations for the courses studied during that semester. There is a three-week inter-semester break during which results will be published and any further admissions and enrolments processed. A small number of specialist courses may be taught during the inter-semester break. A Summer School comprising six weeks operates from the beginning of January. A limited number of courses are available. A small number of programmes are offered in quarters rather than semesters, comprising approximately 10 teaching weeks followed by one week for study and exams. Additionally, a range of masters programmes are available for commencement in November, including fully-online options offered as part of the Auckland Online initiative.

The Points System
The value allocated to each course is standardised and is given as a number of points, based on the notional hours of learning in the course. A full-time programme will usually require the completion of eight 15-point courses a year. Most taught courses are offered in values of 10, 15, 20 and 30 points. For instance, the programme for many bachelors degrees requires the completion of a total of 360 points. The points value for diplomas and certificates varies according to the discipline and content. Full details are listed in the regulations.

Planning a Programme
Assistance with programme planning for current students is available online through the My Programme Requirements report. This report outlines the academic requirements for a programme of study and provides an individualised report comparing a student’s progress towards completion against the requirements. It indicates where requirements have been met, which requirements have yet to be completed and the points required. Students are able to enrol directly from the report into courses available for the programme.

Students can also enrol into classes via Timetable Planner. This tool allows students to view potential timetable options, as well as adding preferences such as work or study gaps.

Students planning a programme can also consult faculty and departmental handbooks and seek advice about programmes and course options through faculty student centres and AskAuckland Central. Course advice is provided in the University's General Library before the start of the academic year. Intending students should phone 0800 61 62 63 or visit auckland.ac.nz for general advice and information. This Calendar contains the regulations and requirements for each faculty’s degrees, diplomas and certificates. It is important that students read the regulations for the programme they plan to take and ensure that they complete the prerequisites required for subsequent study. The details for each course are listed by faculty and in alphanumeric order in the Course Prescriptions. In addition, there is a range of Interfaculty and Conjoint degrees which are administered and supervised across the faculties.

Admission and Enrolment
The University of Auckland has an online system for admission and enrolment. All new students, and those intending to change their programme, should complete the online Application for Admission (www.auckland.ac.nz/apply_now).

If students do not have internet access, Application for Admission forms are available by phone, by mail or in person from: AskAuckland Central, The University of Auckland, 24 Princes St, or Private Bag 92019, Auckland Mail Centre, Auckland 1142, New Zealand. Email studentinfo@auckland.ac.nz. Phone 0800 61 62 63.

Applicants whose admission to a programme is approved will receive an offer of a place and on acceptance of this offer may proceed to enrol in courses.

Official Communications to Students
Electronic Mail is the official and primary means of communication with students. All official email to a student will be sent to a student’s University email address (username@aucklanduni.ac.nz). If the student wishes to forward messages to other addresses it is their responsibility to ensure the alternative address is in place and operating correctly. Failure to read an email does not free a student from their responsibilities to understand and comply with the University’s requirements.
Glossary of Terms

Note: The descriptions below are not intended to be legal definitions. The Regulations in the Calendar should also be referred to when interpreting these terms.

Academic English Language Requirement: A specified level of attainment in English studies in NCEA, Cambridge International and IB; if admitted without meeting this requirement students may satisfy it in their first year of study by passing a specified undergraduate course in academic English.

Academic Head: A person appointed to an academic leadership position with responsibility for managing a school or department.

Academic Integrity Course: An online course designed to increase student knowledge of academic integrity, University rules relating to academic conduct, and the identification and consequences of academic misconduct.

Academic Standing: A means of measuring a student’s academic performance each semester. Students are required to pass at least 50 percent of points enrolled in a semester to maintain good academic standing. Graduated academic sanctions apply to students failing to meet this requirement.

Ad Eundem Statum: A means of admission to the University on the basis of a qualification awarded by a body other than the New Zealand Qualifications Authority or the University of Auckland.

Admission: The process by which a student applies, and is approved, for entry to the University and to a University qualification.

Alumni: A term describing graduates of the University and staff who have worked for the University.

Bachelors degree: A first degree.

Campus: A geographic location where University of Auckland qualifications are delivered.

Certificate: A qualification awarded after academic study of a coherent programme of between 60 and 120 points.

Certificate of Proficiency: Recognises successful completion of a course by those who are not enrolled in a degree or diploma.

Class: A component of a course, e.g., a lecture stream.

Completing student: A student whose current enrolment is designed to complete a certificate, diploma or degree.

Component Degree: One of the qualifications that make up a Conjoint Degree. A Conjoint Degree will always include two component degrees. A student is awarded both component degrees on completion of the conjoint programme.

Conjoint Degree: Allows the completion of two undergraduate degrees in a shorter timeframe and with fewer points than would be possible through enrolling in them separately. Requires a minimum academic standard for admission and for continuation each year. While students are admitted to a Conjoint Degree, they are awarded two separate qualifications.

Core courses: Compulsory courses that cover knowledge essential for the completion of a programme of study.

Corequisite course: A course that should be taken in the same semester as another unless it has previously been satisfactorily completed.

Council: The governing body of the University. It is composed of elected staff, students and graduates, and external appointees.

Course: A basic component of all academic programmes.

Course prescriptions: A list of courses including course code, title, points value, description of content, prerequisites, corequisites and restrictions.

Coursework: Assessable work produced by students, normally submitted during teaching weeks, e.g., essays, assignments, reports, tests, and practical, tutorial and seminar work.

Cross-credit: A course which is common to two University of Auckland undergraduate diplomas or bachelor degrees and is credited to both.

CUAP: Committee on University Academic Programmes: A subcommittee of Universities New Zealand on which all universities and the New Zealand Union of Students Associations are represented; CUAP undertakes programme approval and moderation procedures for the universities in New Zealand, as well as providing advice and comment on academic matters and developments across the university system.

Cumulative GPA: Calculated from all grades achieved by a student. Used for selection purposes unless an alternative has been indicated by the Faculty.

Current enrolment: Courses or other work taken by a student in a particular academic year or semester.

Degree: Principal qualification awarded by the University of Auckland, i.e., bachelors, masters and doctoral degrees.

DELNA: Diagnostic English Language Needs Assessment.

Department: A division of a faculty centred around a subject or group of related subjects.

Diploma: A University qualification, generally awarded at graduate or postgraduate level.

Direct entry: Entry into a higher level of a subject or later part of a degree without the prerequisites.

Discipline: A branch of knowledge which is researched and taught at the University.

Dissertation: A written research component of a degree or diploma worth between 40 and 80 points.

Distance education: Courses or programmes of study which provide content and support services to students who rarely, if ever, attend for face-to-face or on-campus access to educational facilities.
**Distinction**: Postgraduate degrees and postgraduate diplomas may be awarded with Distinction to signify a highly superior level of performance.

**Doctoral degree**: A qualification at an advanced level requiring an original contribution to knowledge.

**EFTS**: Equivalent full-time student.

**Electives**: A defined set of courses for a diploma or degree from which a student may make a choice.

**End of lectures**: The final day of the final teaching week of a semester. The final lecture for a particular course might occur before this day.

**Enrolment**: The process by which a student, having gained admission to the University and to a qualification, selects and gains entry to courses and classes.

**Examination**: Formal assessment under supervision occurring after the teaching in a course has been completed.

**Extramural campus**: Where the teaching occurs at a distance mainly through paper-based study materials without a requirement for students to attend scheduled, on-campus classes. Students' study is guided by workbooks and written interaction with teaching staff.

**Extramural students**: Students who have exemption from receiving instruction on campus.

**Exit qualification**: A qualification, usually of a lesser credit value, that can be awarded to a student when they are unable to or choose not to complete the qualification in which they are or have been enrolled. A student may not commence study towards an exit qualification. It is only awarded following prior enrolment in an alternative qualification.

**Faculty**: An organisational unit responsible for the delivery of academic programmes and research. Faculties usually comprise a number of schools or departments.

**Flexible learning**: Learning characterised by a mixed mode of delivery and assessment of instructional material.

**Grade Point Average (GPA)**: A means of measuring a student's performance at this University. The average grade achieved over a period of time expressed numerically on a scale between 0 (no passes) and 9 (A+ average).

**Grade Point Equivalent (GPE)**: A means of measuring a student’s prior relevant academic performance and experience. Grades or marks achieved at external institutions and/or in examinations (such as NCEA) expressed as an equivalent to a Grade Point Average on the scale 0-9.

**Graduand**: A person who has completed the requirements for a degree but has not yet had the degree conferred.

**Graduate**: A person on whom a degree has been conferred.

**Graduate certificate**: A graduate certificate must be a minimum of 0.5 EFTS or 60 points. CUAP requires that half or more of the courses must be above Stage II.

**Graduate diploma**: A graduate diploma must be a minimum of 1.0 EFTS or 120 points. It must include 75 points above Stage II.

**Honours**: Degrees, in some cases completed within prescribed time limits, may be awarded with honours which signify advanced or distinguished study.

**Interfaculty programme**: A programme where responsibility for development and delivery is formally shared by more than one faculty, or a programme which was developed for the purpose of being made available to a broad range of students not necessarily associated with a specific faculty, and usually managed centrally.

**Laboratory**: A teaching session of a practical nature.

**Late Year Term**: A period of about 12-13 weeks used for teaching or research. It starts on 1 December and finishes on the last Saturday before the beginning of the first semester of the following academic year.

**Lecture**: A basic unit of instruction.

**Limited entry**: Applied to a course or programme for which the number of students that can be accepted is limited because of constraints on staffing, space or equipment.

**Major**: A required component of a degree, including a specified number of points in a subject at the most advanced level.

**Masters degree**: A degree programme at a higher level than a bachelor's degree.

**Maximum full-time enrolment**: 80 points per semester, 30 points in Summer School, 45 points per quarter or 60 points in Late Year Term.

**Merit**: Postgraduate degrees and postgraduate diplomas may be awarded with Merit to signify a superior level of performance.

**Minimum full-time enrolment**: 50 points per semester, 25 points in Summer School, 25 points per quarter or 50 points in Late Year Term.

**Minor**: A component of a degree including a specified number of points above Stage I in a subject.

**Module**: An optional component of a bachelor's degree comprising 45 points focused on a particular skill or area of study.

**Normal full-time study**: A student workload of 120 points in one year.

**NZQA**: New Zealand Qualifications Authority. The government agency that administers the National Certificates of Educational Achievement (NCEA) qualifications for secondary school students, and is responsible for the quality assurance of non-university tertiary training providers in New Zealand.

**Online campus**: Where the teaching occurs online through computer-based interactions without the requirement to attend on-campus classes, though some scheduled online sessions might be compulsory. Communication between teachers and students is via a learning management system and email and reliable broadband internet access is required.

**Online study**: Courses or programmes that are specifically developed for delivery via the internet and do not require students to attend the University in person.

**Part**: A defined subdivision specified in the regulations of some degrees.

**Plussage**: A method of calculating the final result a student has gained in a course by counting either the final examination grade or a combination of final examination
grade plus coursework, whichever is to the student’s advantage.

Point(s): A value assigned to a course or other work to indicate its weighting within the University of Auckland’s certificates, diplomas and degrees.

Postgraduate certificate: A qualification of at least 0.5 EFTS or 60 points. CUAP requires that all courses must be above Stage III.

Postgraduate diploma: A qualification of at least 1.0 EFTS or 120 points. CUAP requires that all courses must be above Stage III.

Postgraduate programme: A programme at a higher level than a bachelors degree.

Prerequisite: A requirement that must be met before commencement of study for a particular course or programme.

Prescribed texts: Textbooks which are considered essential to a course.

Proctor: A person who deals with disputes involving students. The Proctor can also provide advice about what to do about disputes involving a member of staff, and about other issues to do with student conduct.

Programme: A prescribed set of one or more courses or other work which on satisfactory completion leads to the award of a University of Auckland certificate, diploma or degree.

Programme schedule: A list of the courses prescribed for a programme which forms part of the regulations.

Project: A piece of investigative written work on a topic approved by the relevant Head of Department and supervisor.

Quarter: A period of about 11 weeks which usually includes 10 teaching weeks and an additional week for study and examinations.

Reassigned course: A course satisfactorily completed for one programme which has been transferred to another programme.

Recognition of Prior Academic Study (ROPAS): A means of assessment of previous study for students from another institution for admission or credit to the University.

Regulation: A rule set down by the University.

Research essay: A research-based essay on a topic approved by the relevant Academic Head and supervisor and normally worth between 15 and 45 points.

Research Masters: A research based programme of study that includes either a 90 or 120 point thesis or research portfolio.

Research portfolio: A coherent, integrated programme of research-based work.

Research project: A piece of research-based work on a topic approved by the relevant Academic Head and supervisor, normally worth between 30 and 45 points.

Restriction (restricted course): A course in which the learning objectives, content and/or assessment are so similar to a second course that a student cannot be credited with both towards a certificate, diploma or degree. In some cases a restricted course may be taken and credited as a Certificate of Proficiency.

Schedule: University lists of courses, credits or limitations, often in tabular form.

School: A division of a faculty, which may comprise departments or disciplines that teach and research similar or related academic subjects.

Semester: A period of about 15 weeks which includes about 12 teaching weeks and about three weeks for study and examinations. In addition there is a mid-semester break of up to two weeks.

Senate: An academic board that advises Council on courses of study or training, awards, regulations and other academic matters.

Specialisation: A programme of related courses normally comprising more than 50 percent of a qualification.

Stage: The academic level of study in a subject.

Subject: An area of learning which may be provided by a school or a department, or by departments offering related courses.

Summer School: A six-week period during which a select range of courses is taught and assessed.

Taught Masters: A programme of study that is normally based on an undergraduate degree and includes coursework consisting of courses, project work and research in varying combinations. Masters degrees that build on generic attributes and/or experience (often called ‘conversion masters’) are usually in professional fields and are recognised as appropriate professional preparation by the industry concerned.

Term: A broad reference to a period of enrolment such as a semester, quarter or session.

Thesis: A research component of a postgraduate programme having a value of 90 or more points which will have a written component but may also include design, creative or performative elements.

Transfer credit: Credit granted towards a University of Auckland qualification from work successfully completed at another tertiary institution.

Tutorial: A small group-learning session.

Undergraduate: A person studying towards a first degree.

Unspecified campus: Applies to courses where the teaching occurs through scheduled face-to-face interactions on sites that are not recognised University of Auckland campuses. Examples include the provision of courses where the course material is delivered in local work-related environments.

UTAS: Undergraduate Targeted Admission Schemes. Admission schemes designed to improve access into higher education for students from under-represented equity groups.

2021 Closing Dates for Admission

Closing Dates for Applications for Admission to Undergraduate and Postgraduate Programmes

Applications to the University of Auckland must be received no later than the dates listed in the table below. Applications received after these dates will only be considered if places are available. The following information should be read in conjunction with the Academic Statutes and Regulations.

Not all programmes are available for admission in all semesters or quarters.

**Admission to the University of Auckland**

The University of Auckland has an online system for admission and enrolment. All new students, and those intending to change their programme in 2021, are required to complete an Application for Admission. This may be completed online at [www.auckland.ac.nz/apply_now](http://www.auckland.ac.nz/apply_now).

If students do not have internet access, Application for Admission forms are available by phone, by mail or in person from:

AskAuckland Central  
The University of Auckland  
24 Princes St

or

Private Bag 92019  
Auckland Mail Centre  
Auckland 1142  
New Zealand  
Email: studentinfo@auckland.ac.nz  
Phone: 0800 61 62 63
All Applications for Admission will be acknowledged. Applicants will receive an offer of a place in programmes (degree, diploma or certificate) for which their admission is approved. **This offer of a place must be accepted online before the student can proceed to enrol in courses.**

**Undergraduate**
Applications to the University of Auckland must be received no later than the published closing date. Applications received after the closing date will only be considered on the basis of academic merit, if there are places available. International students should start the application process as early as possible to allow sufficient time to apply for a visa.

**Postgraduate**
Applications for Semester One submitted after 8 December will only be considered if places are available. Applications for Semester Two submitted after 4 July will only be considered if places are available. International students should start the application process as early as possible to allow sufficient time to apply for a visa.

**Doctoral**
Doctoral applications may be submitted at any time of the year (excluding the Degree of Doctor of Clinical Psychology and the Degree of Doctor of Education).

**Summer School**
No late applications will be accepted.

**Special Admission**
Applications to the University of Auckland must be received no later than the published closing date and no later than 1 December. Applications received after 1 December will only be considered if places are available.

---

### 2021 Enrolment Dates

Students must enrol as soon as possible after acceptance of an offer of place, as many University of Auckland courses are very popular and have a limited number of places available.

Arms of the University of Auckland

Heraldic Description
The shield is azure (blue) with an argent (silver) mullet (five-pointed star). Between the stars is an open book "proper" i.e. in its natural colours. The edge of the book and the binding are gold ("Or") and it is bound with seven gold clasps on either side which close the book securely. Its "chief" (broad strip at the top of the shield) is wavy, that is the base of the chief is in a wave-like line. The chief is argent and on it are three kiwis "proper" meaning they are shown in their natural colour.

Symbolism
The open book together with the motto ‘Ingenio et Labore’, freely translated as ‘by natural ability and hard work’, reflects the aim of the institution and combined with the three stars, expresses the idea of learning pursued under the Southern Hemisphere sky. The kiwis are indicative of New Zealand, as the bird is confined to its islands, and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the coast.

The shield, minus the ribbon containing the Latin motto (called the Crest), is used in combination with wordmark and graphic elements to form the University logo. Guidelines for the logo are prescribed in the University’s Style Guide.

University of Auckland Act 1961
The University of Auckland Act 1961 formally established the University of Auckland under New Zealand legislation.

The full text of the University of Auckland Act can be found by visiting www.legislation.govt.nz and typing the name of the Act into the search box.

History of the University of Auckland

University of New Zealand

As early as 1862 an unknown writer, "J.G.", proposed in Chapman’s New Zealand Monthly Magazine that a university should be established in Auckland. The pioneer town, founded less than a quarter of a century before, had other, more pressing issues, and initially there was no response to the suggestion. Consequently the first university, Otago, was created in 1869 in the South Island, where the inhabitants were wealthier and keener on education. In 1870, Parliament passed legislation to create the University of New Zealand as an examining body with affiliated teaching colleges. Auckland politician Maurice O’Rorke, later Speaker of the House of Representatives, advocated that the University be located in Auckland but it was established as a federal body with no fixed location. Canterbury, which had been planning to create a university, became the first place to open a college of the new federal university in 1873.

The citizens of Auckland at first received university instruction at the Auckland Grammar School. Students sat the examinations of the University of New Zealand. In 1877, one of these students, Kate Edger, became the first woman to graduate with a Bachelor of Arts from a British university.

Auckland University College

In 1878, O’Rorke chaired a Royal Commission on higher education that recommended the establishment of university colleges in Auckland and Wellington. In 1882, the Auckland University College was set up by Act of Parliament and was formally opened on 21 May, 1883 in the Choral Hall, then the largest hall in Auckland. The Governor, Sir William Jervois, announced that the College was to be a thoroughly democratic institution, open to women as well as men, and to all classes.

The applicants for the first four chairs, of Classics and English, Mathematics, Natural Science, and Chemistry and Physics, were interviewed in England by the New Zealand Agent-General and some of the most famous scientists and scholars of the day, including the great Benjamin Jowett of Balliol College, Vice-Chancellor of the University of Oxford. The men appointed were an impressive group. The chemist, F.D. Brown, had studied in France and Leipzig as well as London, and published a dozen papers. Algernon Phillips Thomas, the biologist, was a Balliol man who had revealed the life history of the liver fluke. The classicist, T.G. Tucker, was to become a famous scholar. When he left to go to Melbourne University in 1885, he was succeeded by Hutcheson Macaulay Posnett, an Irishman who had written several books, including one on comparative literature – that would now be called the sociology of literature – a subject he is credited with inventing. The first professor of Mathematics, George
Walker, was accidentally drowned shortly after he reached Auckland and was succeeded by W.S. Aldis, who had been the top scholar in his subject at Cambridge and was the author of several mathematical books.

Finding a Home

When O'Rorke first tried to secure a university for Auckland he suggested housing it in Government House, left empty when the Governor moved with the capital to Wellington in 1865. This immediately aroused opposition in the press because many Aucklanders hoped that the capital – and the Governor – would eventually return to Auckland. These conflicting ambitions lay at the basis of a recurrent feature of the history of the College, the great "site row", with the College trying to get at least part of the grounds of Government House while some influential citizens strongly opposed it. One result was that for years the College had no permanent site or permanent buildings. Teaching started in the disused District Court House, expanded into Admiralty House and, in 1890, into the original Parliament Building. In 1907, the Choral Hall was purchased and, in 1917, the College occupied the building vacated by the Grammar School. In 1926, the College acquired its first permanent building, now the ClockTower Building, in Princes Street.

Early Difficulties

The College was poor: its statutory grant was for many years only £4,000 a year while land reserves, set aside by government to provide an income, brought in very little.

There were few students: 95 in 1883, 156 by 1901. Some had not passed the matriculation examination and were not studying for degrees. Most were part-time, trainee teachers and law clerks, with music students from 1888 onwards, and commerce students by 1905. The College was dominated by the lay members of Council, especially by Sir Maurice O’Rorke, who was an autocratic chairman from 1883 to 1916.

The early College struggled to keep its small staff – some left for positions in Australia and elsewhere. Most of the remainder grew increasingly out-of-date in their subjects. There was no system of sabbatical or study leave until the 1920s. The teachers’ role was to hand on traditional knowledge. The staff lectured for very long hours and, in general, the students were given a good, traditional undergraduate education. Research was not expected and was rarely done. In some subjects research was impossible. For instance, the Library took no mathematical journals, so the mathematicians knew little about recent work. Some students, however, started to carry out good research, notably in Chemistry.

Progress

In the 1920s and well into the 1930s the College was ruled by a Registrar, Rocke O'Shea, and a new Chairman of the Council (President after 1924), another former Cabinet Minister, Sir George Fowlds. Under their leadership the University started to change. The first New Zealand graduates with postgraduate education abroad were appointed to the staff, notably the very able economist, Horace Belshaw, the philosopher, R.P. Anschutz, and the physicist, P.W. Burbidge. An excellent researcher, W.F. Short, was appointed as a lecturer in Chemistry.

Some advances were made in providing professional education. The only such education offered at the College was in Law, which attracted large numbers of students. The only "professional schools" recognised by the University of New Zealand were Medicine at Otago and Engineering at Canterbury. In 1906, the College established a School of Mining, which slowly and covertly was turned into a "School of Engineering". After fierce battles with Canterbury, fired by provincial rivalry, the Auckland School received University recognition for its teaching in the first two professional years. Students then had to go to Canterbury to complete the final year of their degree. In 1917, the College began instruction in Architecture.

Academic Freedom and Development

During the Depression of the early 1930s, the College experienced its first dispute over academic freedom. The temporary appointment of a lecturer in History, J.C. Beaglehole, later a world-famous scholar, was terminated, his friends believed, because of a letter he wrote to a newspaper defending the right of communists to distribute their literature. This episode led to a Council election in which the liberal, Hollis Cocker, defeated a conservative candidate. The College Council then adopted resolutions in favour of academic freedom and received the undeserved congratulations of the British academic establishment, including Lord Rutherford and Wittgenstein. At the same time the College enrolled a lively group of students led by James Bertram, who established a new literary journal, Phoenix. This journal was the focus for the first literary movement in New Zealand history and featured the works of Allen Curnow, A.R.D. Fairburn, R.A.K. Mason and other distinguished writers.

The College received great intellectual stimulus in 1934 when four new professors arrived: H.G. Forder, a very able mathematician; Arthur Sewell, a brilliant lecturer in English; a classicist, C.G. Cooper; and a new historian, James Rutherford.

The University of Auckland

The College gained its first academic leader in the 1950s, when the Council appointed a Principal (later Vice-Chancellor) K.J. Maidment, a Classics don from Merton College, Oxford. He came in 1950 and remained for two decades. Maidment faced a further, fierce "site row". The Council wanted to move the College to a larger site out of town. Instead, in 1956, the National Government offered Government House as compensation for staying in Princes Street. Another citizens’ "save Government House" campaign followed. Both academic staff and the public were deeply divided over the issue, which was resolved in 1960: the University was to stay where it was. In 1957, the slow move towards autonomy was marked by legislation which changed the title of the College to the University of Auckland while leaving the functions and powers of the University of New Zealand intact.
The "site row" held up the building programme for about six years, while student rolls rose rapidly, to 4,000 by 1958, with the result that there was overcrowding in quite inadequate buildings. Universities everywhere were expanding rapidly. New Zealand academic salaries could not compete with those of overseas universities and many able Auckland staff left for positions in Australian and other universities. Despite these problems, there was significant progress. New subjects were introduced: Geography, Anthropology, Māori Studies and Fine Arts. There was a new emphasis on staff research. Many of the new and younger academics became very active researchers, reflected in the growing lists of staff publications.

In the 1960s, the Report of the Hughes Parry Committee led to major improvements in University conditions and governance. Staff salaries were raised. For the first time, the students were given fairly generous bursaries, which led to a rapid increase in the proportion of full-time students. The government grant to the University rose rapidly. In 1962, the University at last became independent when the University of New Zealand was abolished.

Growth and Change

A massive university building programme commenced, and over the next two decades the campus was transformed as one large building after another was erected: Fine Arts, Science, Engineering buildings, a Student Union, a new Library. A number of new subjects were introduced, including Political Studies, Art History and Sociology. In 1968, teaching commenced in the new Medical School on the Grafton Campus. By the end of the 1960s Auckland had the largest University Library in the country.

When Dr Maidment departed in 1970, there were 9,300 students. His successor, Dr Colin Maiden, was an Auckland engineer who had headed a research division of General Motors in Michigan. One of the first things that struck him in Auckland was the need for better student facilities. He pushed ahead to provide a theatre, a gymnasium and recreation centre, and a large playing-field "complex". The entire administrative organisation, from faculties and committees to deputy vice-chancellors, was reformed. The academic boom of the 1960s continued well into the 1970s and several new buildings, such as Human Sciences, were constructed and new subjects, including Management Studies and Computer Science, were introduced.

The 1970s brought numerous social changes: an increase in the proportion of Māori and Pacific students and in the proportion of women and older students. In 1975 and 1981 the first two women professors were appointed, Marie Clay and Patricia Bergquist. At a time of high inflation, the government grant to the University rose rapidly, to $95.2 million by 1989. In 1983 the University celebrated its centennial. Although there was a certain economic austerity, after a century of growth the University had established itself strongly within its own community and nationally.

There were still to be challenges. The wide-ranging restructuring of education undertaken by the Labour Government after 1984 encompassed the universities, and their autonomy and their identity were seen to be threatened. As a result of efforts by the universities, supported by alumni, some changes were secured in the Education Amendment Acts of 1989 and 1990, but the University Grants Committee was abolished, the Ministry of Education became responsible for tertiary education policy, and the composition of the Council was altered. At the turn of the century, the government took another look at the whole range of tertiary education with the Tertiary Education Advisory Commission, out of which came the Tertiary Education Commission as the funder of tertiary education.

The 1990s Onwards

Anxious to respond to the growing demand for university education in the early 1990s, the University offered courses at other tertiary institutions in Auckland and Northland. Acquiring buildings used for the 1990 Commonwealth Games village, it began to develop a campus at Tamaki, initially offering courses in Commerce. Increasing student enrolments obliged it, like other universities, to introduce quotas for all first-year courses in 1992, breaking the historic policy of "open entry".

From the mid-1990s, the University introduced semesters, launched its first major fund-raising appeal, produced its first strategic plan and inaugurated a Summer School. It joined Univeristas 21, an international network of research-intensive universities in Australasia, Asia, North America and Europe, as a foundation member. In the late 1990s, the School of Medicine expanded to become a Faculty of Medical and Health Sciences, introducing degrees in Nursing, Health Sciences and Pharmacy.

The third Vice-Chancellor, Professor Kit Carson, served from 1995 to 1998 and was followed by Dr John Hood in 1999. Dr Hood was an alumnus of the University, a former Rhodes Scholar and business leader. He faced a difficult financial situation as governments had progressively reduced tuition subsidies per student, and the University needed to re-activate its building programme. The last period of intensive construction had ended with completion of the new School of Music in 1986 and the Marae complex in 1988. The Law School had moved into refurbished premises in a new precinct to the north of Waterloo Quadrant in 1992. However, the University was growing very rapidly, with increasing numbers of international students as well as a growing number of domestic students, who could now borrow to fund their tuition and other costs. This growth reached a peak in 2004 and then started to slow. In its 2005 Strategic Plan the University resolved to pursue a quality agenda and to limit student growth to an average of one percent per annum over time. Consequently, the University extended limits on admission from a few professional qualifications to all of its undergraduate degrees. In 2010, the student roll was 40,997 or 32,654 equivalent full-time students (EFTS).

From the 1990s, research became very much more important in the life of the University and its academics. The country started to look more than ever
to universities to generate new ideas and knowledge, including innovations that might be harnessed for economic development. The University had already founded UniServices as an organisation to develop and commercialise research. In the early 2000s it became host to four of eight national Centres of Research Excellence funded by the government.

In 2004 it was designated the country’s leading research university “on virtually any measure” in the Performance Based Research Fund (PBRF) assessment carried out by the recently created Tertiary Education Commission. In the PBRF assessments released in 2007 and 2012, the University of Auckland again emerged as the New Zealand university with the greatest overall strength. Revenue from research and contract activities grew from $153 million in 2006 to $269 million in 2019. International ranking systems started to become important to university reputations and placed great significance on research performance. The University was consistently placed first among New Zealand universities, although its actual placement varied from year to year and among the ranking systems.

Between 2000 and 2007 the University embarked on another major building programme. The impressive Kate Edger Information Commons and Student Commons, the Engineering Atrium and greatly expanded library wing, and a seven-floor extension to the Science Centre, which houses Computer Science and Software Engineering, enhanced the City Campus. At Tāmaki, a new building was constructed for the new School of Population Health. A Fale Pasifika opened in 2004 and the Sir Owen G. Glenn Building, a large and striking new complex for the Business School, was completed in 2007.

Organisational change saw Architecture, Dance Studies, Fine and Visual Arts, Music, and Planning combine to form the National Institute of Creative Arts and Industries (NICAI).

The University and the Auckland College of Education amalgamated in September 2004 to form a Faculty of Education. The new faculty, based primarily at the College’s campus in Epsom, was established with the aim of becoming New Zealand’s leading provider of teacher and social services education. Then in 2015, the Faculty of Education changed its name to the Faculty of Education and Social Work, making more visible the two main practitioner communities the faculty engages with and serves – teachers and educators – and those in the human services/social work and counselling professions. With the move towards cross-disciplinary teaching and research, it is planned that the Faculty of Education and Social Work will be relocated to the City Campus.

In 2016 the National Institute of Creative Arts and Industries changed its name to the Faculty of Creative Arts and Industries (CAI) to align with the naming conventions of other University faculties.

**University Leadership**

Dr John Hood left the University in mid-2004 to take up the position of Vice-Chancellor of the University of Oxford. Professor Stuart McCutcheon, formerly Vice-Chancellor at Victoria University of Wellington, succeeded him as Vice-Chancellor in January 2005. Under his leadership a new strategic plan, which was refreshed in 2013, envisaged the development of a University focused on excellent undergraduate teaching and learning, dynamic and challenging postgraduate education, and research that contributes to international knowledge, understanding and economic and social development. The University also recognised that it must play a role in addressing inequities in educational participation and achievement by Māori and Pacific students, and placed an emphasis on enhancing its recruitment and support programmes for potential students. Professor McCutcheon retired as Vice-Chancellor in early 2020.

Professor Dawn Freshwater, the former Vice-Chancellor of the University of Western Australia, became Vice-Chancellor in March 2020, the first woman to hold the position since the University was founded. Professor Freshwater initially performed her duties under quarantine, then lockdown, amid the Covid-19 crisis. From mid-2020, she was in the process of creating the new Strategic Plan for the University.

**Funding**

The University has become increasingly dependent on its own ability to raise the funds it requires to operate. Student tuition fees, including the fees of international students, are now an important part of University income, alongside the tuition subsidies contributed by government. Income from research is substantial. Philanthropic donations have also become an important way in which friends and alumni of the University show their support for its activities, for the staff and the students. The University has come a long way from the early fund-raising appeal of the 1990s. A “Leading the Way” fundraising campaign, which ran from 2009 to 2012, exceeded its target of $150 million in 2011. The “For All Our Futures” campaign launched in 2016 with a goal of raising $300 million by 2020. It ended up raising $380 million, the largest amount ever raised by any university in New Zealand. The funds are being used to support the aspirations of students as well as life-changing research to address critical challenges facing our communities and New Zealand.

**Campus Developments**

In 2009 the University adopted a Campus Development Strategy that proposed a major investment in infrastructure. The initial major projects included the redevelopment of the Grafton Campus to refurbish laboratories, upgrade plant and construct the Boyle building (completed 2012); a student accommodation building at Elam to house 442 students (completed 2011); and a new South Pacific Centre for Marine Science, based at the Leigh Marine Laboratory, which fosters marine research and educates visitors on the marine environment. A major development of the Maths and Physics buildings was completed in 2011.

In 2013, in a bid to underpin 50 years of growth on a site close to the existing City and Grafton Campuses, the
University purchased 5.2 hectares at Newmarket. The site, previously owned and occupied by Lion Breweries, has been partially redeveloped, and the mixed-use campus was officially opened in May 2015, with Engineering and Science occupying the first facilities.

As a result of the Newmarket purchase, in January 2014 the University transferred the 20-hectare Colin Maiden Park and its associated facilities at the Tāmaki Innovation Campus to Auckland Council. This transaction was followed by a sale of the balance of the campus in April 2016 with the University scheduled to fully exit the Campus at the end of 2019. This sale was part of the University’s long-term strategy to consolidate activities at the City, Grafton and Newmarket campuses and significantly reduce landholdings. It also reflects the growing importance of cross-disciplinary teaching and research at the University and the need for facilities to be co-located.

After refurbishment in 2014, the University’s iconic building, the ClockTower on Princes Street now houses the Office of the Vice-Chancellor, as well as aspects of student administration and the Council Room. The refurbished Alfred Nathan House (completed 2017) also on Princes Street, where the Office of the Vice-Chancellor was previously located, is now home to AskAuckland (the former Student Information Centre), Communications and Marketing, the Schools Partnership Office, the International Office and other administrative and student support services.

The Maidment Theatre, which opened in 1976 and played a crucial role in the development of Auckland’s vibrant theatre scene, was closed in December 2015 and demolished due to concerns about its seismic strength. The University hopes to build a new performing arts facility elsewhere on the City Campus to meet the teaching, research and service requirements in theatre, music and dance as well as providing a venue for University public events.

The new Science Centre on the corner of Princes and Wellesley streets has been a significant enhancement to the City Campus (completed 2016) as has a new state-of-the-art Engineering building that opened in Semester One, 2020.

In 2018, Council approved the development of a new state-of-the-art Recreation and Wellness Centre. The existing Recreation Centre was built in 1978 when the University had 10,000 students. It now has 40,000 students and more than 5,000 staff. Demolition of the old centre and surrounding structures on the City Campus began in 2020, with construction of the new facility due to commence the same year. Temporary sports and recreation facilities have been made available at 70 Stanley Street and in Wynyard Street.

As part of its long-term strategy to consolidate activities at the City, Grafton and Newmarket campuses, the University completed its relocation of teaching, research and other activities from the Tāmaki Innovation Campus, which it had previously sold, in 2019. The Tāmaki campus closed in late 2019.

After more than 20 years of offering programmes in partnership with Manukau Institute of Technology (MIT) in South Auckland, the University opened its own South Auckland campus in 2020. Te Papa Ako o Tai Tonga (Tai Tonga) in Manukau caters to a growing need from the community. In its first year, the new campus offered a Bachelor of Education (Teaching) programme, with more programmes planned for the future.

The provision of accommodation has increased dramatically to cater for the increased number of students seeking a residential experience. Additional self-catered student accommodation, the Carlaw Park Student Village, opened in 2014 next to the Domain, to provide more than 700 student places; a further 315 self-catered single and double studio apartments in Symonds Street opened for Semester One, 2017. Grafton Hall reopened in 2019 after a two-year refurbishment, and provides catered student accommodation, while Waipārūrū Hall was completed in 2020, providing 786 first-year student places. A further 488 self-catered single rooms became available in Te Tirohanga o te Tōangaroa on Anzac Ave in Semester One, 2020.

In 2018 the new Early Childhood Centre opened at Park Avenue in the city.

In May 2019 the new state-of-the-art facility for the Department of Exercise Sciences was officially opened, after their move from Tāmaki. The Newmarket facilities include a Health and Rehabilitation Clinic and a Movement Neuroscience Laboratory and the move has brought the department closer to allied health organisations with which it has relationships, as well as Auckland City Hospital.

In November 2019 the School of Population Health and associated clinics moved to a new purpose-built facility at the Grafton Campus on Park Avenue. The School of Medicine relocated from the City Hospital to the new Grafton building in Semester One, 2020.

The Current University

The University has seven campuses with eight faculties representing each of its main disciplines: Arts; Business and Economics; Creative Arts and Industries; Education and Social Work; Engineering; Law; Medical and Health Sciences; and Science. It also has two large-scale research institutes: the Auckland Bioengineering Institute and the Liggins Institute.

Many courses and research activities reflect Auckland’s and New Zealand’s place in the world. This perspective has long been a feature of our programmes. For example, Pacific archaeology, ethnology and languages are emphasised in the discipline of Anthropology. Asian languages, including Chinese, Japanese and Korean, are taught, and Pacific Island languages were introduced in 1991.

Geographers carry out fieldwork in the Pacific Islands, while University scientists make frequent study trips to the Antarctic. The Leigh Marine Laboratory, about 100km
north of Auckland and part of the Faculty of Science, brings together a wide range of expertise and facilities to work towards our understanding of the marine environment.

The University continues to build on these foundations with the introduction of the Bachelor of Global Studies in 2018 and the Bachelor of Design in 2020. Additionally, a suite of exclusively-online taught masters programmes was introduced in 2020 as part of the Auckland Online initiative, and these offerings will be further expanded over time.

The University of Auckland recognises research and research-led teaching as a primary responsibility of its academic staff. High-quality research on a large scale and across the full range of disciplines, represented by faculties and Large-Scale Research Institutes, is essential to ensure the place of the University of Auckland among the leading international research universities. University researchers contribute to the growth of new knowledge by conducting fundamental research across a wide range of fields in the natural, human and social sciences, the humanities and creative arts. Its expertise across a number of research disciplines was called upon by the Government in 2020 to assist in managing the Covid-19 pandemic.

The University fosters the commercialisation of its research to assist in the pursuit of the country’s economic objectives and applies it to enhance social values and advance the well-being of all New Zealanders. Research also underpins the University’s obligation to act as a critic and conscience of society. As the leading research university in New Zealand, the University of Auckland is committed to the quality and excellence of its degree courses including its postgraduate and doctoral programmes.

In 2020, the University of Auckland was ranked first for the second consecutive year in the University Impact Rankings by Times Higher Education (THE), reflecting its strong teaching, research, policy and operational performance against the United Nations’ Sustainable Development Goals (SDGs).

Structure of the University

The Council
The University’s governing body is the Council, a mixture of elected staff, students and graduates, and outside appointees. The Vice-Chancellor, the University’s chief academic and administrative officer, is also a member. Council is chaired by the Chancellor who is a lay member of the Council.

The Senate
On academic matters, Council is bound to consult the Senate which the Vice-Chancellor chairs. This body includes all the professors, some non-professorial staff and student representatives. The Senate takes advice from the Education and Research Committees, and from specialist committees, dealing for example with the Library and the Faculties.

The Faculties
Each faculty is a sub-committee of Senate and is headed by a Dean who is usually supported by Associate Deans, a Director of Faculty Operations and other administrative staff. The Dean is responsible for coordinating the academic and research activities of individual departments and liaises with both the Office of the Vice-Chancellor and the Senate committees on academic programmes, staff appointments, buildings, research funding, library facilities, timetabling etc. The faculty student centres provide assistance to students with programmes and courses. Information is available on faculty websites; handbooks are available from both faculty and departmental offices.

Large-Scale Research Institutes
Each large-scale research institute (LSRI) is headed by a Director, supported by a Deputy Director and administrative staff. The Director is responsible for coordinating the research activities of LSRI staff, including postgraduate research supervision, and liaises with both the Office of the Vice-Chancellor and the Senate committees on regulations, staff appointments, buildings, research funding, library facilities etc. Information is available on LSRI websites.

Central Administration and Services
Day-to-day central administration and service provision is performed by the Vice-Chancellor’s Office and Academic Services, Alumni Relations and Development, Campus Life, Communications and Marketing, Equity Office, Finance, Human Resources, International Office, IT Services, Libraries and Learning Services (including the University Library), Office of Research Strategy and Integrity, Organisational Performance and Improvement, Property Services and the School of Graduate Studies.

The City Campus
The City Campus, established in 1883, is in the heart of Auckland City. Separated from the tower blocks of the central business district by historic Albert Park on its western flank, the campus covers over 20 hectares. To the southeast lie the trees and open spaces of the Auckland Domain. Its proximity to the cultural and commercial amenities of the country’s largest city, attractive green setting and harbour views bestows advantages enjoyed by few inner city campuses anywhere.

The City Campus has undergone major development during its existence with many refurbished and new building works. A new 32,000m² building for the Faculty of Engineering is complete and work has begun on the construction of a new Recreation and Wellness Centre building. Temporary sports and recreation facilities have been made available at 70 Stanley Street and in Wynyard Street.

The Epsom Campus
The Epsom Campus was established in 1926 as the site of the Auckland College of Education, formerly known
as the Auckland Teachers’ College and the Auckland Teachers’ Training College (established 1881). Upon the amalgamation of the Auckland College of Education and the University of Auckland in 2004, the Epsom Campus became the primary site for the new Faculty of Education.

The 11.5 hectare campus on Epsom Avenue is approximately four kilometres from the City Campus and three kilometres from the Grafton Campus. It is flanked by Mt Eden Village to the west, Maungawhau (Mt Eden) Domain to the north, and directly adjoins Auckland Normal Intermediate and Kohia Schools and Melville Park to the south and south-east. The campus is well sited for major transport routes. Established trees and gardens complement diverse facilities, including pool, gymnasium, café, marae, tennis courts, health and counselling centre and early childhood centres, to make this an attractive study location.

The Epsom Campus also houses Kohia Centre and retail outlet and the Sylvia Ashton-Warner Library.

The Grafton Campus

Located opposite Auckland City Hospital and the entrance to the Domain, the Grafton Campus covers a 2.75 hectare site on Park Road, Grafton. Originally established for the School of Medicine in 1968, the site was recognised as a separate campus in 1995 and in 2008 was formally designated as the Grafton Campus.

Home to the Faculty of Medical and Health Sciences (FMHS) and the Liggins Institute, the campus is a modern biomedical and health education and training facility, complemented by a specialist medical library, the Philson.

The campus houses a number of significant research facilities, including the Auckland Cancer Society Research Centre, Brain Research New Zealand – Rangahau Roro Aotearoa, Manaaki Mānawa – the Centre for Heart Research, the Centre for Brain Research, a state-of-the-art Biomedical Imaging Research Unit, the Centre for Advanced MRI, the Clinical Research Centre, the Neurological Foundation Human Brain Bank, the Auckland Regional Bio Bank, Grafton Clinical Genomics, the Clinical Skills Centre and the Auckland Medical Research Foundation Medical Sciences Learning Centre.

With the opening of the new Park West building, all Faculty schools are represented on campus, as well as hosting publically accessible teaching and research clinics and Speech Science (part of the Faculty of Science).

Satellite clinical campuses of FMHS operate at Middlemore, North Shore, Tauranga and Waikato Hospitals with further clinical sites at Henderson, Whangarei, Rotorua, Whakatane and New Plymouth.

The Leigh Campus

The Leigh Marine Laboratory, situated at Leigh, north of Auckland, houses the University’s Marine Science Research Facility.

The Newmarket Campus

The 5.2 hectare Newmarket site was previously owned and occupied by Lion Breweries, and acquired by the University in 2013 to develop as a long term mixed-use campus. The Newmarket Campus is a major strategic acquisition for the University which provides opportunities for long-term growth close to the City and Grafton campuses. The site’s benefits include the opportunity to integrate campus development across the city, providing long term additional space to develop purpose-built research facilities and student accommodation, as well as other business development opportunities.

The campus houses the Faculty of Engineering research facilities as well as the Department of Exercise Sciences (Faculty of Science).

Te Papa Ako o Tai Tonga (The South Auckland Campus)

The University of Auckland has been present in South Auckland for over 20 years. The opening of Te Papa Ako o Tai Tonga in central Manukau continues the Universities commitment to South Auckland. Te Papa Ako o Tai Tonga has space and resources to build and support community and school relationships, and provide more study options for communities in South and East Auckland.

Currently, the Bachelor of Education (Teaching) - Primary, Tertiary Foundation Certificate (Education and Social Work pathway) and New Start programmes are being offered at the new South Auckland Campus, with a limited number of General Education courses to be taught from Semester 2, 2020. Other local University of Auckland students can use the space for informal study, and study-support services will be available to all students.

The opening of the new campus marks the end of a 20-year partnership with Manukau Institute of Technology (MIT), with whom the University previously delivered its programmes from Otara.

The Tai Tokerau Campus

The Tai Tokerau Campus in Whangārei was established by the Auckland College of Education in 1992. Centrally located, the campus offers lecture rooms, student centre, library and a base for Faculty of Education and Social Work programmes and staff, while also providing a wider presence for the University of Auckland in the North.

Alumni Relations and Development

Alumni Relations and Development is the University’s centralised point of contact for two key groups:

- Alumni and friends, an over 200,000-strong network spread across the Auckland region, throughout New Zealand and around the globe. Alumni Relations and
Development enables alumni and friends to stay connected with the University and one another and to enjoy a range of benefits and services. Those who wish to have a closer relationship with the University can engage in a number of ways, including the following:

- find out what’s happening on campus, attend events, watch videos of public lectures, browse our galleries of recent graduation ceremonies or read our recent alumni publications (visit www.auckland.ac.nz/en/alumni/whats-happening.html)
- join the free flash mentoring platform, Alumni Connect, to get career advice from other alumni or to share experiences and expertise with students (visit www.auckland.ac.nz/en/alumni/get-involved.html)
- connect with a range of alumni groups and clubs listed on the Alumni and friends website (visit www.auckland.ac.nz/globalalumni).

Philanthropic partners and donors, whose generosity has a transformative effect on research, teaching and learning at the University. To donate or to find out more about ways to give, and for general information about areas that can be supported, visit www.giving.auckland.ac.nz or email giving@auckland.ac.nz

Alumni Relations and Development operates in close collaboration with the University’s Senior Leadership Team, faculties and other service divisions. It is located at University House, 19A Princes Street.

For further information visit www.alumni.auckland.ac.nz or email alumni@auckland.ac.nz

Auckland UniServices Ltd

At UniServices, we bring ideas to life. We partner with the best minds at the University of Auckland to apply intelligent thinking to ideas that have the potential to change the world.

As the University of Auckland’s research and knowledge transfer company, UniServices’ core business is to transform knowledge into solutions for real-world challenges, working with government and industry for more than 30 years.

The objectives of UniServices are to:

- Support researchers and help them grow their research portfolios, increasing the impact of research on society and expanding the value of research outputs.
- Develop mutually-beneficial relationships with research funders and commercial clients, bringing the external worldview into the University research environment.
- Identify, protect and develop the intellectual property of the University that arises from world-class research.
- Commercialise University-sourced technology and innovations, developing and investing in the commercial potential of new ideas produced by University staff and students.
- Deliver social and economic benefits of research outputs to the wider community across New Zealand.

Centres of UniServices are situated on campus. The head office is located at Level 10, 49 Symonds Street. Opening hours are Monday to Friday 8.30am to 5pm. Phone: +64 9 373 7522 or visit www.uniservices.co.nz.
Statutes and Regulations and their Application

The following guidelines outline how the regulations and statutes in the Calendar are typically applied. The University reserves the right to introduce new and/or change regulations or statutes and/or to change the content of courses should the circumstances require.

Admission Regulations

Application for Admission
All new students intending to study at the University of Auckland for the first time, and students intending to change their programme, must submit an Application for Admission. To be admitted applicants must meet (a) the admission requirements as detailed below and (b) any specific programme entry requirements. Applicants whose admission to a programme is approved will receive an offer of a place and on acceptance of this offer may proceed to enrol online in courses.

Prerequisites and Conditions
1 Subject to the Council’s statutory powers to decline admission and enrolment (whether for insufficiency of accommodation or of teachers or for other cause) and to Regulation 2, a person is eligible to be admitted to the University and to be admitted as a student if that person:
   a has satisfied the requirements for entrance to a university in New Zealand
   or
   b is granted Special Admission
   or
   c is granted Discretionary Entrance
   or
   d is granted admission ad eundem statum, based upon study at a secondary school or another tertiary institution:
      (i) at entrance level
      or
      (ii) with credit
      or
      (iii) with graduate status.

2 Unless Senate approves otherwise, a person who has not reached the age of 16 years by 31 December in the year preceding that in which admission is sought will not be eligible to be admitted to this University.

3 A person seeking to be admitted to the University must:
   a comply with these regulations
   and
   b sign and date the declaration on the Application for Admission form which includes the words: ‘I will comply at all times with the University’s statutes, regulations, rules and policies’
   or
   c complete and submit the Application for Admission online, which includes a declaration with the words: ‘I will comply at all times with the University’s statutes, regulations, rules and policies’ and accept that completing and submitting the Application for Admission online constitutes signing and dating the declaration as defined under the Contract and Commercial Law Act 2017.

Requirements for Entrance to a University in New Zealand
4 a National Certificate of Educational Achievement
   From 2005 to 2014: a minimum of 42 credits at Level 3 or higher on the National Qualifications Framework, including a minimum of 14 credits at Level 3 or higher in each of two subjects from an approved subject list, with a further 14 credits at Level 3 or higher taken from no more than two additional domains on the National Qualifications Framework or approved subjects; plus, a minimum of 14 credits at Level 1 or higher in Mathematics or Pangarau; plus, a minimum of 8 credits at Level 2 or higher in English or Te Reo Māori; 4 credits must be in Reading and 4 credits must be in Writing.
   From 2015: NCEA Level 3; plus, three subjects at Level 3, made up of 12 credits each, in three approved subjects; plus Literacy, 10 credits at Level 2 or above*, made up of 5 credits in reading, 5 credits in writing; plus Numeracy, 10 credits at Level 1 or above*, made up of Achievement standards – specified achievement standards available through a range of subjects, or Unit standards – package of three numeracy unit standards (26623, 26626, 26627 – all three required).
   For 2020 only to recognise the disruption caused by COVID-19: NCEA level 3; plus three subjects at Level 3, made up of 12 credits each, in three approved subjects; plus Literacy, 10 credits at Level 2 or above*, made up of 5 credits in reading, 5 credits in writing; plus Numeracy, 10 credits at Level 1 or above*, made up of Achievement standards – specified achievement standards available through a range of subjects, or Unit standards – package of three numeracy unit standards (26623, 26626, 26627 – all three required).

*Note: For the lists of Level 1, Level 2 and 3 standards that contribute to University Entrance requirements, please visit the NZQA website www.nzqa.govt.nz/ncea.
b **Bursaries examination**
Up to and including 1986: an aggregate total of 160 marks in four subjects.
From 1987 to 1992: four individual subjects with D grades or higher. (Practical Art up to 1988 counts as two subjects for this purpose.)
From 1993 to 2003: three individual subjects with C grades or higher plus Higher School Certificate, or an 'A' or 'B' Bursary.

c **UE gained before 1986.**
d Up to and including 1992: a combination of credits, in a minimum of four subjects, gained from UE before 1986 and/or Bursaries Examinations since. A credit required a mark of at least 40 percent in 1986 or a D grade or higher from 1987 on. (Practical Art up to 1988 counts as two subjects for this purpose.)
From 1993 to 2003: a combination of credits in three individual subjects in the Bursaries Examination plus Higher School Certificate.

e Up to and including 2003: 13 credits in three different subjects at Level 3 or above on the National Qualifications Framework and Higher School Certificate.

*Note: Credits in approved subjects from the National Qualifications Framework, and grades C or better in NZUEBS or equivalent, may be combined to make up the equivalent of three C passes.*

**Special Admission**

5 a A person who does not hold a university entrance qualification but who is a New Zealand citizen or permanent resident and has attained the age of 20 years on or before the first day of the semester in which a proposed programme is offered is eligible to be granted Special Admission.

b A person seeking Special Admission to the University has to apply for it in accordance with the Admission Regulations and submit evidence of age and educational qualifications.

c Senate may waive the age requirement where an applicant is in its opinion otherwise fit to be admitted and, in particular, has satisfied any qualification for admission specified in the regulations for that programme of study.

d A person seeking to be admitted to the University of Auckland who wishes to be granted credit for any prior learning must apply under Regulation 7 (Admission at Entrance Level or with Credit).

e Special Admission applicants who have previously failed a foundation programme or not reached an adequate standard in a preparatory programme, will not be re-admitted to the University unless their last enrolment is two or more years previous and they have subsequently undertaken work, study or life experience that demonstrates readiness for academic study. Special Admission applicants refused admission should be advised of other study options.

**Discretionary Entrance**

6 a A person under the age of 20 years who does not meet the University Entrance standard, but
(i) is a citizen or permanent resident of New Zealand or Australia* and
(ii) has received secondary schooling to at least New Zealand Year 12 level (or its equivalent overseas) and earned at least 14 credits in an approved subject at Level 2 towards NCEA (or its equivalent) and
(iii) has met the literacy and numeracy standards required for University Entrance, or their equivalents may apply for Discretionary Entrance.

* Australian applicants’ most recent year of schooling must have been in New Zealand.

b Persons who have undertaken Year 13 study beyond 1 June at a New Zealand secondary school may normally not be admitted under the Discretionary Entrance provisions before July in the following year. Admission will be at the discretion of the University.

*Note: To recognise the disruption caused by COVID-19, if University Entrance is not achieved, Year 13 students may be considered under Discretionary Entrance for Semester One 2021 in certain circumstances approved by the Deputy Vice-Chancellor (Academic) or nominee.*

c In special circumstances the Chair of Universities New Zealand–Te Pōkai Tara’s Sub-Committee on University Entrance may permit persons who do not fulfill Regulation 6a(ii) or Regulation 6a(iii) above to apply for Discretionary Entrance.

d A person studying at a New Zealand secondary school, who is attempting to qualify for entrance to the University, may apply for Discretionary Entrance in the same year for the purpose of enrolling in courses offered in Summer School. Any person admitted under this regulation who does not, in the following January,
meet the University Entrance standard will be required to withdraw from the University and may re-apply for admission at mid-year. Students required to withdraw may complete their Summer School programme before doing so, but any courses passed will not be credited to a qualification until a University Entrance qualification is gained.

e A person seeking Discretionary Entrance to the University must apply by completing the requirements prescribed on the Discretionary Entrance form.

Admission *ad eundem statum* (Admission at Entrance Level or with Credit)

7 a From a New Zealand university
A student from another university in New Zealand, including a student who had enrolled at the University of Auckland previously, who wishes to reapply to the University of Auckland must submit an Application for Admission form and may apply for credit under the provisions of the Credit Regulations.

b From another tertiary institution in New Zealand or overseas
A person who wishes to be admitted to the University and who has gained appropriate qualifications validated by the New Zealand Qualifications Authority or from an overseas institution may be granted admission by this University:
(i) at entrance level
(ii) with credit towards a certificate, diploma or a Bachelors degree for work which in the opinion of Senate is substantially equivalent and is in accordance with the credit regulations
(iii) with graduate status.

c From a New Zealand secondary school
New Zealand citizens, permanent residents or international students who have gained from a New Zealand secondary school an entrance qualification approved by Universities New Zealand–Te Pōkai Tara for the purpose of admission *ad eundem statum*, may be granted admission *ad eundem statum* to this University.

d From an overseas secondary school
New Zealand citizens, permanent residents or international students who have gained an appropriate overseas qualification may apply to have that qualification recognised as being equivalent to a university entrance qualification set out in Regulations 4a–e above. A New Zealand citizen who has completed a year of academic study overseas, which is deemed to be at the equivalent of Year 13 in New Zealand, whether or not a formal academic qualification has been obtained, may apply for Discretionary Entrance, if appropriate, or may apply for *ad eundem statum* entrance under this Regulation.

e A person seeking admission under this regulation has to apply by completing the requirements on the Application for Admission form.

8 a Credits may be specified or unspecified and the grant of admission may include permission to advance in specified subjects or courses.

b Prerequisite courses or programmes may be prescribed as a condition of the approval to proceed to a higher degree or other qualification.

Students Enrolled at Another Educational Institution

9 a When they enrol, students are required to declare if they are intending to enrol concurrently during the year in question at any other educational institution.

b A student at a New Zealand secondary school who satisfies the admission requirements and who has the specific written approval of the institution’s principal may, with the approval of Senate or its representative, enrol in up to 15 points per semester.

English Language Competence

10 a Applicants for admission to the University of Auckland must provide evidence acceptable to the University of their competence in both written and spoken English.

b For admission purposes, the University will be satisfied of an applicant’s competence in English:
(i) if English is the applicant’s first language
or
(ii) if the applicant has a New Zealand university entrance qualification
or
(iii) if the applicant has an overseas university entrance qualification from a country where the main language is English and the main language of instruction and assessment for that qualification was English
or
(iv) if the applicant performs to a satisfactory standard, as set down by the University Senate from time to time, in an approved English Language test
or
(v) if the applicant provides other evidence acceptable to the University of competence in both written and spoken English.

c If the applicant is age 20 years or over, and is a New Zealand citizen or permanent resident, this regulation does not apply.

Note: Under the provisions of the Education Act 1989, the University of Auckland may require students over the age of 20 applying for admission to any restricted entry programme to provide evidence of English language competency.

Credit Regulations

Credits

1 a A student may, with the approval of Senate or its representative and on payment of the prescribed fees under the Fees Statute, be granted credit towards a programme approved by the Dean of Faculty concerned under the provisions of these regulations.

b A student may not be granted further credit for work already credited under this regulation.

Credit from Another Tertiary Institution: Transfer Credit

2 a A student who applies for admission to the University of Auckland and has undertaken an appropriate programme at an approved tertiary institution may be granted appropriate credit towards a degree or other qualification of the University of Auckland on the basis of work successfully completed in the previous programme.

b To be awarded an undergraduate degree of the University of Auckland a student must complete at least the equivalent of a full time year of study as an enrolled student at the University of Auckland and pass a minimum of 120 points towards that degree.

c Credit granted under 2a above may be specified or unspecified and the grant of admission may restrict advancement in specified subjects or programmes.

d (i) Credit granted under 2a above for an undergraduate qualification will normally be granted only for courses at Stage I and Stage II. Only in exceptional circumstances will the grant of credit be considered at Stage III for courses taken at Stage III at another tertiary institution.

(ii) Where Parts are specified for a Bachelors degree, credit may be awarded within a Part according to suitability of course content and/or professional requirements and irrespective of the Stage of the course passed. Credit towards an undergraduate qualification will not normally be granted for postgraduate level courses.

(iii) Subject to any provisions of the relevant Programme Regulations, where a transferring student has completed an undergraduate qualification at a recognised New Zealand or overseas institution, credit granted under 2a above will be treated as though it were ‘cross-credit’ under 5a and will be subject to the limits set out in 7.

(iv) Credit may be refused for undergraduate courses passed more than five years previously.

e Unless prohibited by the regulations of a prescribed degree, credit may be granted under 2a above towards a Bachelors Honours Postgraduate degree, taught Masters degree or the taught component of a research Masters degree with a total points value of more than 120 points, or Postgraduate Diploma provided that:

(i) No more than 30 points may be granted as transfer credit.

(ii) The enrolment in the postgraduate qualification at the University of Auckland is no later than three semesters from the initial enrolment in the courses for which credit is to be given.

(iii) The application for transfer credit is made at the time the student is admitted to the postgraduate qualification.

(iv) The completed courses are at postgraduate level in the disciplinary area of the qualification for which transfer credit has been sought.

(v) Transfer credit will not be given for independent research courses such as a dissertation, research essay, research project, research portfolio, thesis, or similar, or the major creative component of a postgraduate programme.

(vi) Transfer credit will not be given for courses in completed qualifications.

(vii) Grades for transfer credit courses will not be included in the calculation of an overall grade for Honours (or Distinction/Merit).

f Where prior approval for external tertiary study, exchange or study abroad enrolment has been granted:

(i) The grant of more than 30 points of credit for courses taken at another tertiary institution will be
considered for a Bachelors Honours degree, taught Masters degree, the taught component of a research Masters degree with a total points value of more than 120 points, or a Postgraduate Diploma.

(ii) The grant of credit for courses taken at another tertiary institution will be considered for a research Masters degree.

g The grant of 60 points of credit from a completed postgraduate certificate towards a Postgraduate Diploma may be approved where the admission regulations for the diploma programme allow for it.

h Credit will not be available for any course passed at another tertiary institution with a conceded or restricted pass.

i Where cross-credit or transfer credit has been awarded at another tertiary institution, this credit may not also be credited to a programme at the University of Auckland.

Approved Study at Another Institution

3 a A student who is enrolled at the University of Auckland and who concurrently enrols and completes courses at another tertiary institution, which they wish to credit to their University of Auckland qualification, must:

(i) Seek from the Dean of the relevant Faculty, or nominee, prior approval of the proposed concurrent enrolment and confirmation that the courses will satisfy the regulations and requirements for the qualification for which the student is enrolled at this University and that appropriate credit may be granted.

(ii) Apply for credit in accordance with these regulations when the official results are known.

b Any credit granted towards a University of Auckland qualification from study at a Summer School will be added to the current year of study at this University.

c Where prior approval has not been sought, credit will not normally be granted.

4 Where study at another institution is part of approved external study, study abroad or exchange arrangement, credit for an undergraduate qualification may be approved for Stage III or postgraduate level courses if the successfully completed study is deemed appropriate for such credit by the Dean of the relevant Faculty or nominee.

Cross-credits and Internal Credit

5 a In this Regulation 'cross-credit' means a course which is common to two University of Auckland undergraduate qualifications, which may be Bachelors degrees, undergraduate diplomas and undergraduate certificates, and is credited to both. 'Internal credit' means credit awarded to a programme for one or more courses passed for another University of Auckland qualification, which cannot be designated as a cross-credit.

b A student taking two programmes may only be awarded as cross-credits and/or internal credit the maximum allowed for one, but not both, of the programmes.

c A course which is designated a cross-credit may not be credited to more than two qualifications.

6 a When calculating cross-credits between a second and third qualification, points from previously granted cross-credits may not be used. The maximum number of cross-credit points that may be granted is based on one third of the points not previously designated for cross-credits.

b A Stage III course that fulfils the Stage III requirements of one qualification may not normally be designated as a cross-credit to meet the Stage III requirement of another qualification unless permitted by the regulations of a prescribed undergraduate degree.

c A student may not designate as a cross-credit any course passed with a conceded pass or a restricted pass. If that course is compulsory, another course may be substituted for it as Senate or its representative may approve.

d Designation of courses as cross-credits, as permitted by these regulations, is subject to the approval of the Dean of the relevant Faculty or their nominee.

Limits

7 Subject to any other provisions of these regulations or the relevant Programme Regulations:

a In the case of qualifications of equal value, the total value of transfer credit, cross-credits and internal credit is limited to one third of the total value of the degree, diploma or certificate.

b Where the qualifications concerned are of different values, the total value of transfer credit, cross-credits and internal credit may not exceed one third of the total points value applying to the qualification of lesser value.

c Cross-credits are not available for Masters degrees, Bachelors Honours Postgraduate degrees, doctorates, postgraduate certificates and postgraduate diplomas.
Limits on Cross-credits for Conjoint Degrees
8  a A conjoint degree programme is considered to be two degrees for the purpose of calculating cross-credits.

b (i) A maximum of 80 points may be cross-credited from a completed conjoint degree component to another qualification.
(ii) A maximum of 80 points may be cross-credited from a completed qualification to a conjoint degree component.
(iii) The apportionment of the points for each component of a conjoint degree is subject to the approval of the appropriate Deans or their representatives.

Reassigned Courses
9  a A student may apply, by submitting an Application to Reassign Courses form, to reassign courses passed for, and assigned to, one qualification to another qualification for which the courses are available.

b A student may not reassign courses passed for one qualification to another once the qualification for which the courses were passed has been awarded, unless the former qualification has been surrendered or rescinded.

c A student may not reassign to another qualification any course passed with a conceded pass or a restricted pass. If that course is compulsory, another course may be substituted for it as Senate or its representative may approve.

d A student may apply to reassign a course or courses passed for a Certificate of Proficiency to a taught Masters degree, or the taught component of a research Masters degree with a total points value of more than 120 points, a Bachelors Honours Postgraduate degree, a postgraduate diploma or a postgraduate certificate provided that:
(i) no more than 30 points are reassigned
(ii) the enrolment in the postgraduate qualification is no later than three semesters from the initial enrolment in the course(s) reassigned from a Certificate of Proficiency
(iii) the application to reassign is made at the time the student is admitted to the postgraduate qualification
(iv) the course is available in the schedule of the qualification to which it is reassigned.

e Courses which are reassigned cease to be credited to the former qualification.

Review and Appeal Procedure
10 a Decisions under these Regulations may be reviewed only if:
(i) There was a failure of the University's process and/or
(ii) The basis of the decision was manifestly at odds with the evidence.

b Requests for review of Transfer Credit and Approved Study at Another Institution decisions should be made to the Applications and Admissions Office. Requests for review of Cross-credits, Internal Credit and Reassigned Courses decisions should be made to the Records, Enrolment and Fees Office.

c If the request for review is unable to be resolved by the Applications and Admissions or Records, Enrolment and Fees Offices, it will be referred to the Faculty concerned or, in the case of postgraduate qualifications, the Dean of Graduate Studies for reconsideration.

d If a student remains dissatisfied following reconsideration by the Faculty or Dean of Graduate Studies, a written appeal for a review of the credit decision may be submitted to the Director, Academic Services.

e The Credit Review Board will consider all appeals relating to credit decisions on behalf of Senate.

f Students who are submitting an appeal have the right to be heard in person.

g The decision of the Credit Review Board must be recorded and the appellant informed of the decision in writing.

h The decision of the Credit Review Board is final.

Enrolment and Programme Regulations

The ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit.

Academic Calendar
1 a The academic year will begin on the first day of January of the calendar year and will end on the last day of December of that same calendar year.

b There will be a Summer School, a Late Year Term, two semesters, four quarters, an Academic Year Term, and a doctoral year term in each year.
c The Summer School will normally begin on the second working day after the New Year break and will end with examinations normally held over three days commencing the second or third Monday in February. If the second working day is a Friday, the Summer School will begin on the following Monday.

d The first semester will normally begin on the ninth or tenth Monday of the calendar year and end on the 26th Monday of the calendar year, the final three weeks and one day of which will normally be a study and examination period.

e The second semester will normally begin on the 29th or 30th Monday of the calendar year and end on the 46th Monday of the calendar year, the final three weeks and one day again normally being a study and examination period.

f Each semester will include a break of at least one week after about six weeks of teaching.

g Quarters normally comprise a ten week period of teaching and examinations, followed by a break of one or two weeks.

h The Academic Year Term will begin on the first day of January and will end on the last day of December of that same calendar year. Within the Academic Year Term, individual sessions that commence on a date within the Academic Year Term will be used to denote specific shorter periods of study.

Definitions of Full-time and Part-time Study

2 Full-time study is defined as a student workload of:
   a not fewer than 100 points over two semesters in one year
   or
   b not fewer than 50 points in one semester
   or
   c not fewer than 25 points in Summer School
   or
   d not fewer than 25 points in one quarter
   or
   e not fewer than 50 points in Late Year Term
   or
   f not fewer than 100 points in the Academic Year Term
   or
   g not fewer than 100 points in the doctoral year.

3 Part-time study is defined as a student workload of:
   a fewer than 100 points over two semesters in one year
   or
   b fewer than 50 points in one semester
   or
   c fewer than 25 points in Summer School
   or
   d fewer than 25 points in one quarter
   or
   e fewer than 50 points in Late Year Term
   or
   f fewer than 100 points in the Academic Year Term
   or
   g fewer than 100 points in the doctoral year.

Points

4 a (i) Students in a Bachelors degree, diploma or certificate are subject to the provisions of the Academic Standing regulations
   (ii) A student may enrol in:
      (a) up to 80 points in each of Semesters One and Two
      (b) up to 30 points in a Summer School
      (c) up to 45 points in each of Quarters One, Two, Three and Four
      (d) up to 60 points in Late Year Term
      (e) up to 60 points in total if a student is enrolled in both Summer School and the Late Year Term
      (f) up to 190 points in the Academic Year Term, or in the Academic Year Term in conjunction with other semesters, quarters or terms.

Notes:

1 A recommended full-time programme in Semesters One and Two would normally comprise a total of 120 points.
A recommended full-time programme in Quarters One, Two, Three and Four would normally comprise a total of 120 points.

For a Masters degree, PhD or other doctorate, where another programme is included in the enrolment, a limit on points may be determined by the Dean of Faculty or delegated representative in any particular case provided that the Masters, PhD or doctoral programme will always comprise more than half of the total points for which the student has enrolled.

Students who are eligible to claim student allowances and/or an additional student loan entitlement and wish to enrol during the summer vacation period in order to work on their thesis, dissertation or research topic are required to complete a Course Alteration Form.

For study at another institution as part of an approved undergraduate exchange or study abroad arrangement:
- a student is required to enrol in at least 45 points in a semester for up to two semesters of their degree
- a student may enrol in a maximum of 75 points in a semester for up to two semesters of their degree
- the maximum amount of credit that may be awarded under these regulations is the maximum limit specified in Regulation 7 of the Credit Regulations.

For the purposes of this section of the Regulations a representative of Senate includes a Dean, and a Deputy or Associate Dean; a Head of School and a Deputy or Associate Head of School; and a Head of Department and a Deputy or Associate Head of Department.

Subject to the Admission Regulations and to the express provisions of any other statute or regulation, every student for a certificate, diploma or degree programme must:
- be admitted to the University
- follow the prescribed programme in the order prescribed or indicated in accordance with the regulations governing that programme
- comply with the provisions of the Examination Regulations.

Each student must ensure that, before confirming their enrolment, their proposed programme and enrolment:
- complies with the regulations of the qualification to which they have been admitted
- does not involve lecture clashes.

Senate or its representative may in exceptional circumstances approve:
- a proposed enrolment which does not in every particular satisfy the regulations for the programme for which the student is intending to enrol
- a variation in the programme to avoid lecture clashes.

Where an approval of a proposed programme as a whole is declined by a representative of Senate the student may appeal to Senate whose decision shall be final.

A Faculty may determine whether a programme will be offered part-time or full-time for new students in any particular academic year. This information will be made available on the University’s website.

Where electives are prescribed for a programme, Senate may at its discretion determine which of them shall be available in any semester provided that sufficient electives are available to enable students to complete their programme.

A student who has enrolled for the second semester in a course or courses that have a first semester prerequisite or corequisite and who fails the prerequisite/corequisite course(s) may not proceed with the second semester enrolment unless a concession is granted by the relevant Dean.

If in the opinion of a Head of Department an insufficient number of students has enrolled in a course taught in the Department or where there are insufficient staff to teach it, that Head of Department may, with the approval of the Dean of Faculty, cancel that course not later than one week after the beginning of the semester in which it would have been taught, if the essential prerequisites for any student's enrolment are not thereby affected. A student is not to be charged a fee for any alteration to enrolment required because of the cancellation of a course.

If a student wishes to enrol in a course that is not explicitly listed in the Structure and Content or Schedule of their programme, they may do so, provided that:
(i) the Structure and Content or Schedule of their programme includes a provision for them to enrol in other courses

and

(ii) approval is given by the Dean of the faculty in which the course is offered

and

(iii) any prerequisite, corequisite or other conditions are met or Senate or its representative has, in approving the enrolment, waived those requirements

or

(iv) it is completed as a Certificate of Proficiency.

k In respect of individual courses, ‘to complete’ means to attend all required classes, submit any required assessment, sit any required examinations, and be awarded a pass grade.

Restrictions

7  a  A student may not normally enrol in the same semester or quarter or Summer School or Late Year Term for more than two different programmes.

b (i)  A student may not enrol in the same semester or quarter or Summer School or Late Year Term for courses the content of which is substantially similar.

(ii) A student may not enrol for any course the content of which is the same as, or substantially similar to, any course for which credit has been received, provided that in exceptional circumstances Senate or its representative may permit such enrolment for a Certificate of Proficiency.

(iii) Work submitted for credit towards the result in any course may not be resubmitted in respect of any other course.

c A student who has twice enrolled in, but has failed to be credited with a pass in, a course is not entitled to enrol again in that course other than in exceptional circumstances approved by Senate or its representative.

d A student may not be admitted to a programme for a qualification at the same level, in the same discipline, as a qualification that has already been awarded or conferred or for which the requirements have been completed, unless specific provision is made in the regulations for the relevant programme or special approval is given by Senate or its representative.

e Unless special approval is given by Senate or its representative, a student may not be admitted to a programme for a postgraduate qualification

(i) for which the student has previously failed to meet the general requirements by being unable to complete within the total allowable enrolment limit

or

(ii) the content of which is the same as, or substantially similar to, any qualification for which the student has previously failed to meet the general requirements.

Rescindment and Surrender of Qualifications

8  The University Council may rescind any qualification conferred or issued in error.

9  A qualification may be surrendered on application to Academic Services, and records of the qualification being awarded will be amended, including digital records. If the surrendered qualification is a degree or diploma then the graduate will be removed from the graduate database.

10  Surrender of a qualification is regarded as final. Re-conferment of the surrendered qualification would only be approved in exceptional circumstances.

11  Any subsequent reassignment of courses from a surrendered qualification towards another University of Auckland qualification must comply with the Credit Regulations of the University Calendar.

Discontinuation

12  a  A student who has not enrolled in a course for a programme for a period of three years shall have their admission to the programme discontinued and must apply for readmission to that programme before any further enrolment for the programme.

b  A student who has twice enrolled in, but has failed to be credited with a pass in a course which is required for completion of, or continued enrolment in, a programme may have their enrolment for that programme discontinued by Senate or its representative.

c  A student who has been admitted to a programme with specified conditions which must be met in order to be able to continue enrolment in that programme and who has not met those conditions may have their enrolment for that programme discontinued by Senate or its representative.

d  A student who has been re-admitted to a programme after discontinuation may have specified conditions
imposed which must be met in order to be able to continue enrolment in that programme. Where such conditions are not met their enrolment for that programme may be discontinued by Senate or its representative.

e A student whose enrolment in a programme has been discontinued under Regulations 12c or 12d may not be re-admitted to that programme within two years of the date of discontinuation.

f A student who has received ‘Did not sit’ (DNS) or ‘Did not complete’ (DNC) grades on all their courses in a semester may have all future course enrolments deleted and their programme discontinued by Senate or its representative.

g A student whose enrolment has been discontinued because of failure to meet specified conditions, or as a result of receiving ‘Did not sit’ (DNS) or ‘Did not complete’ (DNC) grades in a prior semester, may apply for reconsideration of their discontinuation where they consider that medical or other exceptional circumstances should be taken into account. An application for reconsideration of discontinuation must be made to the Dean of the Faculty in writing.

Enrolment

13 a Following acceptance in a programme of their choice, students can enrol in courses online. For late enrolment see the Late Enrolment provisions in this section.

b Students whose dissertations or theses for a diploma or degree are incomplete are required to be enrolled until the dissertation or thesis is presented.

14 a A double-semester course is a full-year course, run over two consecutive semesters and assessed at the end of the second semester of enrolment. The same grade is applied across both components of the course.

b To complete, students must enrol consecutively in both the A and B component of the course. Deadlines for additions and deletions for double-semester enrolments are noted under Changes to Current Enrolment.

c Enrolments must normally be made in consecutive semesters unless a suspension of time is approved for a postgraduate research course under General Regulations.

d The A and B enrolments in a double-semester course are two components of the same course. Any action applied to one component is applied to both.

e Enrolment in the A component of a double-semester course is considered a request for enrolment in the B component for the following semester and withdrawal from or deletion of one component will be applied to the remaining component.

15 a A double-quarter course is a half-year course, run over two consecutive quarters and assessed at the end of the second quarter of enrolment. The same grade is applied across both components of the course.

b To complete, students must enrol consecutively in both the A and B component of the course. Deadlines for additions and deletions for double-quarter enrolments are noted under Changes to Current Enrolment.

c Enrolments must normally be made in consecutive quarters unless a suspension of time is approved for a postgraduate research course under General Regulations.

d The A and B enrolments in a double-quarter course are two components of the same course. Any action applied to one component is applied to both.

e Enrolment in the A component of a double-quarter course is considered a request for enrolment in the B component for the following quarter and withdrawal from or deletion of one component will be applied to the remaining component.

Members of the Security Intelligence Service

16 a No member of the Security Intelligence Service enrolled as a student at the University shall carry out any inquiries into security matters within the University premises.

b The proposed attendance of a member of the Security Intelligence Service at the University shall be discussed between the Security Intelligence Service and the Registrar before their enrolment.

c After those discussions have been held, Senate shall determine each year what special conditions (if any) as to attendance at Classes shall apply to students who are members of the Security Intelligence Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.

d In this Section 16 ‘Member of the Security Intelligence Service’ means an officer or employee engaged in the Security Intelligence Service established under the New Zealand Security Intelligence Service Act 1969.
**Academic Integrity**
17 a All students admitted to a University of Auckland programme, excluding the University of Auckland Certificate in Foundation Studies, are required to complete the online Academic Integrity course.

b Completion of the Academic Integrity Course is a one-time only requirement. A student who has completed the Academic Integrity Course under the regulations for a programme is not required to repeat the course when admitted to any subsequent programme.

c For undergraduate students, completion of the Academic Integrity Course is a condition of fulfilling the requirements for General Education.

d Students who, for any reason, are fully or partially exempted from the requirements for General Education must complete the online Academic Integrity Course unless they have previously done so.

e All postgraduate students who have not already completed the Academic Integrity Course are required to do so as a condition for completing their programme of study, and before any degree, diploma or certificate is conferred or awarded.

f All doctoral candidates who have not already completed the Academic Integrity Course are required to do so as a condition of meeting the requirements for the provisional registration period.

**Academic English Language Requirement**
18 All domestic students, and all international students applying on the basis of a New Zealand secondary school qualification or results at another New Zealand tertiary institution, who are admitted to a University of Auckland bachelor's degree qualification are required to meet the Academic English Language Requirement.

Note: for the purpose of these regulations this includes the Bachelor of Engineering (Honours) and the Bachelor of Urban Planning (Honours).

**Meeting the Academic English Language Requirement**
19 To meet the Academic English Language Requirement through an entry qualification on admission to a bachelor's degree a student must have:

a If applying based on NCEA results

   either

      (i) gained the University Entrance Literacy Standard and through their NCEA results achieved a minimum of 17 credits in English at Level 2 and/or 3

   Note: English for Academic Purposes standards US 22749, US 22750 and US 22751 will contribute to meeting the Academic English Language Requirement

      or

      (ii) gained the University Entrance Literacy standard solely through Te Reo Māori and/or Te Reo Rangatira credits

or

b if applying based on University of Cambridge International Examinations (CIE, taken in New Zealand) results, gained the University Entrance Literacy Standard and achieved a minimum of a D grade in an English course at AS or A Level

or

c if applying based on International Baccalaureate (taken in New Zealand) results, gained the University Entrance Literacy Standard and be in receipt of 26 points

or

d if a graduate,

   (i) completed a bachelor's degree, or a higher qualification from a New Zealand university

   or

   (ii) completed a bachelor's degree, or a higher qualification, from a recognised tertiary education provider in New Zealand

   or

   (iii) completed a qualification from an overseas tertiary institution that is the equivalent of a bachelor's degree, or higher, in New Zealand, as approved by Senate or its representative

   or

   e completed a University of Auckland Foundation programme, excluding the University of Auckland Certificate in Foundation Studies.

20 A student who has been admitted to a bachelor's degree having passed at least 60 points of study at a tertiary institution, but who has not met the requirements in Regulation 19, will meet the Academic English Language Requirement if they achieve a result of good or satisfactory in DELNA screening (or an average score of 7 across all bands, and a minimum score of 7 in writing, in DELNA diagnosis if required). This result must be achieved within 12 months (three consecutive semesters) of the student's first enrolment.
21. A student who has been granted Special Admission will meet the Academic English Language Requirement if they achieve a result of good or satisfactory in DELNA screening (or an average score of 7 across all bands, and a minimum score of 7 in writing, in DELNA diagnosis if required). This result must be achieved within 12 months (three consecutive semesters) of the student’s first enrolment.

22. Where the regulations allow a student to meet the Academic English Language Requirement through DELNA screening and/or diagnosis under Regulation 20 or 21, only the student’s first attempt within the nominated 12 month period will be accepted as the definitive result for the purposes of meeting the Academic English Language Requirement.

23. Where the Academic English Language Requirement is not met by an entry qualification, as outlined in Regulation 19, or through an acceptable result in DELNA screening and/or diagnosis, as outlined in Regulations 20, 21 and 22, the requirement must be met by the student passing an academic English language course, approved by Senate or its representative, within 12 months (three consecutive semesters) of the student’s first enrolment.

24. Summer School is defined as a semester for the purposes of the Academic English Language Requirement.

25. If a student enrols in an academic English language course prior to completing DELNA screening and/or diagnosis, but subsequently meets the Academic English Language Requirement through DELNA, the deadlines for making changes to their current enrolment as specified in Regulation 38 of the Enrolment and Programme Regulations, Changes to Current Enrolment, of the University Calendar, will still apply.

Failure to meet the Academic English Language Requirement

26. A student who fails to meet the Academic English Language Requirement by the end of the 12 months may have their programme discontinued.

27. A student who has had their programme discontinued because of failure to meet the Academic English Language Requirement may apply for reconsideration of the decision where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. An application for reconsideration of the discontinuation must:
   a. be made on the Reconsideration of the Academic English Language Requirement form
   and
   b. include evidence of disabilities, impairments, medical or other exceptional circumstances
   and
   c. reach the Deputy Vice Chancellor (Academic) within 14 days of the decision to discontinue being made.

28. Where such reconsideration is given the Deputy Vice-Chancellor (Academic) may:
   a. confirm the discontinuation
   or
   b. cancel the discontinuation
   or
   c. cancel the discontinuation but apply conditions to any further enrolment.

29. A student who has had their programme discontinued because of failure to meet the Academic English Language Requirement will be excluded from enrolment in all programmes at the University of Auckland for at least one year.

30. Any student who has had their programme discontinued under the Academic English Language Requirement regulations and who has had their application for reconsideration declined, may within 14 days of being advised of the decision, appeal to the Council against the decision of the Deputy Vice-Chancellor (Academic).

Readmission

31. A student whose programme has been discontinued for failure to meet the Academic English Language Requirement will be entitled to apply for admission to a programme after one year of exclusion.

Applications must:
   a. be made on the Reconsideration of the Academic English Language Requirement form
   and
   b. state the programme for which the student intends to apply, should the application for readmission be successful
   and
   c. state the reasons why the student believes they should be readmitted and include evidence, where applicable
   and
   d. reach the Director, Academic Services two months prior to the listed closing date for application to the programme.

Where such application is made, the Director, Academic Services may:
a permit the student to be readmitted
or
b permit the student to be readmitted under specific conditions
or
c decline readmission.

32 A student declined readmission under these provisions may apply for reconsideration of their application for readmission. Where such reconsideration is given, the Deputy Vice-Chancellor (Academic) may:
a confirm the decision to decline readmission
or
b permit the student to be readmitted
or
c permit the student to be readmitted under specific conditions.

33 Applications for reconsideration of a decision to decline readmission must reach the Deputy Vice-Chancellor (Academic) within 14 days of the decision to decline readmission being made.

34 A student readmitted under conditions specified by the Director, Academic Services or the Deputy Vice-Chancellor (Academic), but who fails to satisfy those conditions, will be automatically excluded from enrolment in all programmes at the University of Auckland.

35 A student excluded under Regulation 34 is not entitled to apply for admission to a programme for at least one year following the date of their exclusion.

36 Any student declined readmission at this University under the Academic English Language Requirement regulations and who has had their application for reconsideration declined may, within 14 days of being advised of the decision, appeal to the Council against the decision of the Deputy Vice-Chancellor (Academic).

Late Enrolment

37 a Subject to the availability of courses and/or availability of places in a course, a late enrolment may be accepted
(i) after the day prescribed and before the deadline for additions and deletions;
(ii) after the deadline for additions and deletions upon payment of a late enrolment fee.

b The choice of courses for students who enrol after the closing date for enrolment will be determined by Senate or its representative and will not necessarily be those proposed by the students concerned. In determining such courses, Senate is to have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at or before the prescribed time.

Changes to Current Enrolment

Deadlines for Additions and Deletions

38 The last dates for additions and deletions under Regulations 43 and 44 are set out below:

<table>
<thead>
<tr>
<th>For enrolment in</th>
<th>Deadline for additions/deletions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer School courses</td>
<td>Seven days inclusive from the start of Summer School</td>
</tr>
<tr>
<td>Semester One courses</td>
<td>Second Friday of semester</td>
</tr>
<tr>
<td>Semester Two courses</td>
<td>Second Friday of semester</td>
</tr>
<tr>
<td>Double-semester (A and B) courses</td>
<td>Fourth Friday of first semester for the course</td>
</tr>
<tr>
<td>Late Year Term courses</td>
<td>Second Friday of Late Year Term</td>
</tr>
<tr>
<td>Quarter courses</td>
<td>Second Friday of quarter</td>
</tr>
<tr>
<td>Double-quarter (A and B) courses</td>
<td>Third Friday of first quarter for the course</td>
</tr>
<tr>
<td>FoundStCert courses</td>
<td>Fourth Friday following course start date</td>
</tr>
<tr>
<td>Course duration of five days or less</td>
<td>The day before the start of the course</td>
</tr>
<tr>
<td>Courses with non-standard dates - duration of 6 days - 15 weeks</td>
<td>Second Friday following course start date</td>
</tr>
<tr>
<td>Courses with non-standard dates - duration of 16 - 25 weeks</td>
<td>Third Friday following course start date</td>
</tr>
<tr>
<td>Courses with non-standard dates - duration of greater than 25 weeks</td>
<td>Fourth Friday following course start date</td>
</tr>
</tbody>
</table>
39 It is not sufficient for a student to notify an addition or deletion solely to the department or faculty – it must be done online.

40 Where special circumstances apply, a student may apply for an exemption from additional fees from the Director, Academic Services (or delegated authority).

41 Deadline dates are calculated from the start of the first week of the semester, quarter, Summer School or Late Year Term. For courses that start on other dates, including sessions, the deadline will be calculated from the start date of the course as specified in Student Services Online. The start date of a course may be prior to the period of teaching for the course. The deadline will be the second Friday after the start of the course for single semester, Late Year Term, quarter courses, and for courses with a duration of up to 15 weeks. The deadline will be the fourth Friday after the start of the course for double-semester, FoundStCert courses and courses greater than 25 weeks in duration. The deadline will be the third Friday after the start of the course for double-quarter courses and courses between 16 up to 25 weeks in duration. If the duration of a course comprises five days or less, then the deadline will be the day before the start of the course.

42 Where a thesis or research portfolio enrolment commences on 1 December, the deadline for deleting the enrolment, and the accompanying Semester One and Two enrolment, or for making changes to the points value of the enrolment in Semester One, is the fourth Friday of the course.

Additions

43 Students wishing to add a course to their current enrolment may do so online before the deadline for additions and deletions to be made for the session, semester, Summer School, quarter or Late Year Term of the enrolment, where the approved limit has not been reached.

Deletions

44 a A student wishing to delete a course may do so online before the deadline for additions and deletions to be made for the session, semester, Summer School, quarter or Late Year Term of the enrolment.

b The course will be deleted from the student’s academic record.

Late Deletion

45 a Late applications to delete a course or courses will be considered by the Director, Academic Services (or delegated authority) only in exceptional circumstances (such as illness, injury or events beyond the control of the student) and upon submission by the student of appropriate evidence.

b Applications must be made on the Late Application to Delete a Course form and must be received by the last day of lectures of the semester, quarter, Summer School, or Late Year Term for the course. For FOUNDST courses applications must be made on the Late Application to Delete a Course form and must be received by the last day of the course in which the student is enrolled.

c Following the decision on an application for late deletion of a course, the student may apply for reconsideration of that decision. An application for reconsideration must be made:

(i) in writing to the Director, Academic Services no later than four weeks after the student is notified of the decision

and

(ii) must be accompanied by further evidence in support of the application.

d Where a student has been permitted by the Director, Academic Services to delete a course after the prescribed date under this regulation, any refund or credit of tuition fees will be granted in accordance with the Tuition Fees Refund or Credit Guidelines given in Regulation 48.

Substitutions

46 a Where a department directs a student to substitute one course for another in the same subject, the faculty administration staff will process the substitution on the student’s behalf and notify the student when the substitution has been actioned.

b Courses may be substituted up until three weeks before the end of lectures for the semester in which the course is taught, or two weeks before the end of lectures for the quarter in which the course is taught.

c A course may only be substituted with a course which is of the same duration, same points value and taught in the same semester or quarter.

Note: Where students are directed to take a more/less advanced Second Semester course in place of a First Semester course, or a later quarter course in place of an earlier quarter course, they will be permitted, if necessary, to make a late academic deletion. The deletion will be processed by the department on behalf of the student.

d The substituted course will be removed from the student’s academic record.
e There will be no adjustment to the student’s tuition fees. If there is a variation between charges payable in respect of the substitute and the substituted course, the student will be required to pay only the difference in those charges.

f There will be no refund or credit of any fees or charges for the substituted course.

Withdrawals

47 a Any student wishing to cease attendance in a programme or course after the period specified for deletion may apply to do so by obtaining the approval of the relevant Head of Department and the Dean of the Faculty for that programme. Application must be made on the Course Alteration Form.

Deadlines for Withdrawals

b The last dates for withdrawals are set out below:

<table>
<thead>
<tr>
<th>For enrolment in</th>
<th>Deadline for withdrawals</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer School courses</td>
<td>One week before the end of lectures</td>
</tr>
<tr>
<td>Semester courses</td>
<td>Third Friday before the end of lectures</td>
</tr>
<tr>
<td>Double-semester (A and B) courses</td>
<td>Third Friday before the end of lectures in the second semester</td>
</tr>
<tr>
<td>Late Year Term courses</td>
<td>Three weeks before the end of the term</td>
</tr>
<tr>
<td>Quarter courses</td>
<td>Second Friday before the end of lectures</td>
</tr>
<tr>
<td>Double-quarter (A and B) courses</td>
<td>Third Friday before the end of lectures in the second quarter</td>
</tr>
<tr>
<td>FoundStCert courses</td>
<td>Three weeks before the end of the course</td>
</tr>
<tr>
<td>Courses with non-standard dates – duration of 6 days - 15 weeks</td>
<td>Third Friday before the end of lectures</td>
</tr>
<tr>
<td>Courses with non-standard dates - duration of 16 - 25 weeks</td>
<td>Third Friday before the end of lectures</td>
</tr>
<tr>
<td>Courses with non-standard dates – duration of greater than 25 weeks</td>
<td>Third Friday before the end of lectures</td>
</tr>
</tbody>
</table>

c The course will remain on the academic record and show as a withdrawal.

d For the purposes of calculating a University Grade Point Average a withdrawal will be counted as a failure.

e There will be no refund or credit of any fees or charges for the withdrawn course. All fees will remain owing.

f For calculation of Requirements for Maintaining Good Academic Standing (under Regulation 51 of these regulations) withdrawal will be counted as a failure.

g For selection into a limited-entry course, a withdrawal is counted as a failure.

h Where withdrawal from a course will not reduce the student’s enrolment to less than 100 points over the academic year, the withdrawal from that course will not affect selection into limited-entry courses.

i For student allowances withdrawal from a course will count as a failure and automatically reduce the number of points in which the student is deemed to be enrolled.

j If a student who ceases to attend lectures fails to complete the Course Alteration Form, the course(s) will be recorded as ‘Did not sit’ (DNS) and will count as a failure for all purposes.

k Applications to withdraw submitted after the dates in Regulation 47b and before the end of the semester, quarter, Summer School or Late Year Term will be considered by the Director, Academic Services (or delegated authority) only in exceptional circumstances (such as illness, injury or events beyond the control of the student) and upon submission of the appropriate evidence.

l Students receiving USA Government Federal Student Aid Title IV funds for payment of their study at the University of Auckland are subject to special withdrawal procedures. For further information students should contact the Applications and Admissions Office.

Refund or Credit of Fees

48 a Where a student applies, before the dates specified in Regulation 38, to delete all courses of the current enrolment, a full refund or credit of all tuition fees and the Student Services Fee will be made.

*Note: A student who has deleted all courses is no longer deemed to be enrolled.*

b Where a student applies, before the dates specified in Regulation 38, to delete one or more but not all courses of the current enrolment, a refund or credit of the fees for the course(s) deleted will be made.
c Where a student has been permitted by the Director, Academic Services, under Regulation 45, to delete a course after the prescribed date because of illness, injury or exceptional circumstances beyond the student's control, a refund or credit of tuition fees will be granted in accordance with the Tuition Fees Refund or Credit Guidelines below, provided that Senate may in its discretion increase this percentage, but there will be no refund of the Student Services Fee.

d All course deletions, under Regulations 48a, 48b and 48c above, whereby the fees have been paid and therefore application for a refund may be made, will incur a refund processing fee which shall be deducted from the refund of the fees.

Notes: Tuition Fees Refund or Credit Guidelines:
1 For single-semester courses which are deleted:
   (i) before the commencement of the mid-semester break for that semester: 50 percent
   (ii) thereafter no refund or credit will be granted.
2 For double-semester courses which are deleted:
   (i) before the commencement of the mid-semester break for the First Semester: 75 percent
   (ii) before the end of the First Semester: 50 percent
   (iii) before the commencement of the mid-semester break for the Second Semester: 25 percent
   (iv) thereafter no refund or credit will be granted.
3 For Summer School courses which are deleted:
   (i) before the end of the second week from the start of Summer School: 50 percent
   (ii) thereafter no refund or credit will be granted.
4 For quarter courses which are deleted:
   (i) before the end of the fifth week of the quarter: 50 percent
   (ii) thereafter no refund or credit will be granted.
5 For double-quarter courses which are deleted:
   (i) before the end of the first quarter: 50 percent
   (ii) thereafter no refund or credit will be granted.
6 For Late Year Term courses which are deleted:
   (i) before the end of the fifth week of the Late Year Term: 50 percent
   (ii) thereafter no refund or credit will be granted.
7 For FOUNDST courses which are deleted:
   (i) before the end of 50% of the course: 50 percent
   (ii) thereafter no refund or credit will be granted.
8 For courses with non-standard dates:
   (i) before the end of 50% of the course: 50 percent
   (ii) thereafter no refund or credit will be granted.
9 For courses that start on dates other than the official start date of a semester, quarter, Summer School or term, the deadline as stated in Guidelines 1-8 above will be calculated from the start date of the course as specified in Student Services Online. The start date of the course may be prior to the period of teaching for the course.

e Students receiving USA Government Federal Student Aid Title IV funds for payment of their study at the University of Auckland are subject to special refund procedures. For further information students should contact the Applications and Admissions Office.

f The University may delay processing a refund or credit until after the last dates for additions and deletions under Regulation 38 have expired.

g Where a student has provided all required documentation in support of their visa application and Immigration New Zealand has declined to grant a student visa then the University will process a full refund of any funds received, without deduction of a refund or administration fee.

Academic Standing

49 Regulations concerning Academic Standing apply to all undergraduate qualifications at the University of Auckland.

a The application of these regulations includes students intending to transfer to the University of Auckland from any other New Zealand university and those students applying for admission having previously studied at another tertiary institution.

b Summer School is classified as a semester for the purposes of Academic Standing.

c Academic Standing statuses are Good, At Academic Risk, Academic Restriction and Enrolment Terminated.
50 **Deferred Results**

a Assessment of a student's Academic Standing will be undertaken when results for at least 50 percent of points enrolled are available and where the results for the remaining points would not affect the overall outcome. Where results for 50 percent of points or more are not available assessment of a student's Academic Standing may be deferred until sufficient results are available and an assessment can be made.

b A student whose Academic Standing has not been able to be assessed for one or more semesters may have their academic status amended by more than one status at the discretion of Senate or its representative.

**Requirements for Maintaining Good Academic Standing**

51 A student is required to pass at least 50 percent of points enrolled in any one semester, including Summer School, to maintain Good Academic Standing.

**At Academic Risk Academic Standing**

52 A student who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to At Academic Risk.

a A student with a status of At Academic Risk may be required to participate in such academic support programmes as deemed appropriate by the relevant Faculty.

b A student with a status of At Academic Risk who is enrolled in more than 60 points in the following semester of study (or 15 points in Summer School) may be required by the department to delete the excess course(s).

c A student with a status of At Academic Risk who meets the requirements for Good Academic Standing will, in the next semester of study, have their record amended to that status.

**Academic Restriction Academic Standing**

53 A student with a status of At Academic Risk who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to Academic Restriction.

a A student with a status of Academic Restriction will be restricted to:

(i) not more than 45 points of enrolment in that semester

(ii) not more than 25 points in Summer School.

b A student with a status of Academic Restriction will be required to participate in such academic support programmes as deemed appropriate by the relevant Faculty.

c The record of a student with a status of Academic Restriction will be referred to the relevant Faculty for review of the restriction which may be varied if appropriate.

d A student with a status of Academic Restriction who meets the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to At Academic Risk. Students whose enrolment is restricted under these provisions may apply to Senate for reconsideration of the restriction where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. Where such reconsideration is given, Senate or its representative (the Dean of the Faculty concerned) may:

(i) confirm the restriction or

(ii) vary the restriction.

e Applications to Senate must:

(i) be made on the Reconsideration of Academic Standing form and

(ii) if special consideration is sought for medical or other exceptional reasons, include evidence and

(iii) reach the Dean of the Faculty concerned before the first day of the semester or Summer School.

54 Any student restricted under the Academic Standing regulations may within 14 days appeal to the Council against the decision of Senate.

**Enrolment Terminated**

55 A student with a status of Academic Restriction who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to Enrolment Terminated.

56 A student with a status of Enrolment Terminated will be excluded from all programmes at the University of Auckland.

57 A student with a status of Enrolment Terminated will be entitled to reapply for admission to a programme after one year of exclusion. Where such application is made, Senate or its representative (the Dean of the Faculty concerned) may:
a decline readmission
or
b permit a student to be readmitted under specific conditions.

58 A student declined readmission under these provisions may apply to Senate for reconsideration of their exclusion where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. Where such reconsideration is given, Senate or its representative (the Dean of the Faculty concerned) may:
a confirm the exclusion
or
b permit a student to enrol under specific conditions.

59 A student permitted to re-enrol under conditions specified by Senate or its representative, but who fails to satisfy those conditions, will be automatically excluded from enrolment at the University of Auckland.

60 A student excluded under Regulation 58 is not entitled to apply for admission to a programme for at least one year.

61 Applications to Senate must:
a be made on the Reconsideration of Academic Standing form
and
b if special consideration is sought for medical or other exceptional reasons, include evidence
and
c state the programme for which the student intends to apply, should the application for readmission be successful
and
d reach the Dean of the Faculty concerned before the first day of the semester or Summer School.

62 Any student declined readmission at this University under the Academic Standing regulations may within 14 days appeal to the Council against the decision of Senate.

Vice-Chancellor’s Special Powers
63 a The Vice-Chancellor may give such direction, or make such provision as they think fit, for the relief of undue hardship including but not restricted to:
(i) enforcement of requirements for admission to the University or to a programme, alteration or amendment to statutes or regulations, change in programme or examination requirements
or
(ii) occasions where official advice has been given in writing and acted upon, and it is later found that the courses the student has taken do not accord with the programme regulations and that hardship would be caused if the student were to be compelled to comply with the full requirements of the regulations.

b A student may appeal against any decision of the Vice-Chancellor under this Regulation to the Council by giving notice in writing to the Registrar within 14 days of being notified of the decision. The Council shall have the power to make such provision as it may think fit. The decision of the Council on any appeal under this Regulation shall be final.

Examination Regulations
These regulations should be read in conjunction with the following examination information which contains more detail and specific instructions:
For staff: Assessment (Coursework, Tests and Examinations) Policy Procedures.
For students: The Examination instructions and regulations page on the University website.

Notes:
(i) the ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit
(ii) a representative of Senate includes the Deputy Vice-Chancellor (Academic), a Dean, and a Deputy or Associate Dean.

Requirements
1 In order to be credited with a course, a candidate needs to have:
a enrolled in accordance with the Enrolment and Programme Regulations
and
b attended classes to the satisfaction of Senate
and
c completed to the satisfaction of the examiners such oral, practical, written or other tests or assignments as have been prescribed for completion during the course
and
d completed to the satisfaction of the examiners and in accordance with these regulations any examination prescribed by Senate
and
e made any payment due by that candidate to the University.

Note: Candidates are to be informed by each department of the specific requirements for courses in that department and the extent to which coursework will be taken into consideration in assessing final results. In some cases candidates may not be permitted to sit the examination, as a result of unsatisfactory or incomplete coursework.

Language of Assessment
2 Except in courses where students are required to demonstrate their knowledge and understanding of languages other than English or Māori, or where a student has made provision to complete an assessment task in Te Reo Māori under the University of Auckland Te Reo Māori in Teaching, Learning and Learning and Assessment Policy, all assessment tasks must be completed in English.

Work Other than Examinations
3 a It is the responsibility of each candidate to ascertain the nature of the requirements for each course from the department or faculty concerned.
b Provided that candidates have met deadlines set for this work, examiners should normally have determined and returned interim or definitive grades for this work before sitting of the examination, if one is prescribed.

Time of Examinations
4 a The examination will be held at the times specified in the timetable each year.
b A candidate may not be examined in any course or part of a course at any time other than that set down for them in the timetable, except when, with the approval of Senate, a different time may be approved because of special circumstances, provided that there is the payment of the extra fee prescribed in the Fees Statute.

Place of Examinations
5 All students have to sit their examinations at the University of Auckland except when, with the approval of Senate, a different examination centre may be established because of special circumstances, provided that there is the payment of the extra fee prescribed in the Fees Statute.

Special Examination Conditions
6 A candidate who is permanently or temporarily disabled in a manner which affects their ability to undertake examinations under the prescribed examination conditions may, upon production of the appropriate evidence, obtain from one of the following bodies a recommendation which, subject to the approval of Senate or its representative, will enable that candidate to be examined under conditions which take account of the particular impairment: Student Health, Student Counselling or Student Learning Services.

Direction of Examinations
7 a The examinations will comprise such written, oral and practical examinations as the examiners may determine. This may include examinations that must be completed on computers or other electronic devices.
b Where degree regulations or prescriptions permit, or Senate, upon such conditions as it thinks fit, approves, the examiners may in respect of any examination release to the candidates the whole or part of the examination paper in advance of the sitting of the examination.
c Candidates will complete answers to the questions in the presence of a supervisor, who is to be appointed or approved by the Manager, Examinations Services, in accordance with detailed instructions furnished by the Examinations Office.

Materials Permitted in the Examination Room
8 a A candidate must not bring to an examination any written or printed matter or any blank paper except by direction of the examiner.

Note: Candidates are to be informed by each department of the specific books or materials allowed for particular examinations. Details are also explained in the Examination Instructions.
b (i) All books and papers not approved for use in the examination, along with any spare personal belongings brought to the examination must be left in such part of the room as the supervisor directs.
(ii) Only implements required for the examination are permitted to be on the student’s desk in a clear case or clear bag. All other cases and containers including glasses cases must be left in such part of the room as the supervisor directs.
(iii) The University does not guarantee safekeeping of students' possessions in any circumstances, inside or outside examination rooms. Students concerned about the security of valuable possessions, briefcases etc during examinations will need to make alternative arrangements for their care, or ensure that they do not bring these possessions to the University on days when they are required to attend examinations.

c A candidate may not bring into an examination an electronic calculator except by direction of the examiner. A calculator is defined as an electronic device capable of processing, storing or retrieving information, which has the primary purpose of mathematical calculation. Any calculator permitted to be taken into an examination must be hand-held, self-powered and noiseless. It must not make use of an audible alarm or facilities for ‘wireless’ transmission or reception of information.

General Conditions:
(i) other than spare batteries and calculator, supplementary material (e.g., operating manuals) related to the use and operation of the calculator will not be permitted in the examination room
and
(ii) in all cases it is the responsibility of the candidate to maintain the operation and operating power of the calculator.

Note: Candidates are to be informed by each Department of the specific types of calculators allowed for particular examinations. Details are also explained in the Examination Instructions.

d Students are not permitted to have in their possession in the examination room any other electronic device and/or mobile technology, or watches of any kind, unless specified by the examiner. Medically prescribed devices are permitted.

e Unless specified by the examiner, any electronic device and/or mobile technology or watches of any kind brought into an examination room must have all functions switched off and must be left in such part of the room as the supervisor directs. Medically prescribed devices are permitted.

f Any item not permitted in an examination room under Regulation 8d, that is found in the possession of a student will be removed for the duration of the examination and a fine of $100 will apply.

g Audible alarms may not be active on any devices permitted in the examination room. Any device that emits an audible sound signal or alarm during an examination will be removed for the duration of the examination and a fine of $150 will apply.

h Where specified material or calculators are permitted under Regulations 8a and 8c above, examiners are required to be present at the commencement of the examination to check material brought into the examination room.

i Candidates will be asked to show their student identity cards on entry for verification purposes and must display them on their desk for the duration of the examination. Where a candidate does not present a valid student identity card they will be required to remain under examination supervision until they have been verified by the Examinations Office. An administrative fee of $25 will be charged.

Timekeeping of Examinations and Conduct

9a (i) A candidate will not be allowed to enter the room later than exactly halfway through the period specified for writing the examination.

(ii) Latecomers will not be given any extra time for the examination.

b Candidates will be allowed to read their examination papers for a period of not more than 10 minutes before the examination commences but may not use any writing materials, including calculators, or mark their examination papers until the room supervisor announces that they may do so.

c Candidates must write out answers to examination questions in the official script book that is provided by the University unless otherwise directed by examiners in the exam instructions. No part of the script book may be torn out or removed from the examination room.

d A candidate must not communicate with an examiner in regard to an examination either in the script book or otherwise, except through the Director, Academic Services.

e A candidate must not communicate with another candidate in the examination room or copy from another candidate's answers.

f Candidates will not be readmitted to the examination room after they have left it unless, during the full period of their absence, they have been under approved supervision.

g All paper used during the examination must be handed to the supervisor before the candidate leaves the examination room.
h. A candidate will not be permitted to leave the examination before 15 minutes after half of the period specified for writing the examination has elapsed and then only with the permission of the supervisor and upon handing in the script.

i. No candidate will be permitted to leave the examination room during the last 15 minutes of the examination.

j. A candidate must not continue writing an answer after the supervisor has announced the expiration of time. In no circumstances is any time over and above the time allotted to any examination to be allowed to candidates for reading over their scripts or making any amendment or addition to scripts.

Misconduct
10. a. Any complaint that a candidate has committed an academic offence in an examination will be dealt with under the provisions of the Student Academic Conduct Statute.

b. Any complaint that a student has committed an offence relating to unauthorised equipment, dictionaries, timekeeping or other minor matter in which questions of academic honesty are not at stake will receive a warning letter from the Manager, Examinations Services. If a student receives two such warning letters they will be fined $150.

Non-payment of Examination Fines and Charges
11. The Manager, Examinations Services, has the delegated authority to impose examination fines and charges. Where a student does not pay a fine or charge imposed under Regulations 8f, 8g, 8i or 10b then, until those fines or charges are paid in full and without prejudice to the right to recover the unpaid fines or charges at law, the Council may:

a. withhold the formal notification of the results of any examination of the student

b. decline to re-enrol the student

c. decline to release the student’s academic record

d. withhold any degree or diploma certificate from that student

e. restrict that student’s access to University services

f. charge a late payment fee not exceeding $50

g. impose additional charges to recover legal and collection costs where a third party is engaged to recover those fees and charges.

Missed Examinations
12. A candidate who has missed an examination by reporting for it at the wrong time cannot sit that examination at another time.

Aegrotat and Compassionate Consideration
13. a. An application for Aegrotat or Compassionate Consideration may be made by candidates who have been prevented from being present at an examination or who consider that their preparation for or performance in an examination has been seriously impaired by temporary illness or injury or exceptional circumstances beyond their control, if the following conditions are satisfied:

(i) They must be enrolled for the course.

(ii) The application form must be submitted to the University Health and Counselling Service within one week of the date that the examination affected took place, or if more than one examination has been affected, then within one week of the last of those examinations.

(iii) The medical certificate or statement of exceptional circumstances on the application form must be completed in accordance with Regulations 13b and 13c below.

b. In the case of illness or injury, a registered medical practitioner must:

(i) State when the practitioner saw the candidate. This should be on the day of the examination, or if this is not possible, on the day before or the day after. For impaired preparation, the medical certificate should cover a period within the fortnight immediately preceding the examination, unless special circumstances apply.

(ii) Give sufficient detail of the illness or injury to show clearly that the candidate was not responsible for the illness or injury.

(iii) State whether, in the practitioner’s opinion, the illness or injury of the candidate at the time either prevented the candidate from taking the examination, or was likely to have seriously impaired the candidate’s preparation for it or performance in it.

c. In the case of exceptional circumstances beyond the candidate’s control, the statement of circumstances must be supported by suitable evidence.

d. The application will be considered by Senate or its representative only if the medical or counselling adviser to the University reviews the evidence submitted and confirms that:

(i) the candidate was not responsible for the illness or injury or exceptional circumstances and
because of the illness or injury or exceptional circumstances the candidate was either prevented from being present at the examination or the candidate's preparation for or performance in the examination was likely to have been seriously impaired.

e The candidate may be granted an aegrotat or compassionate grade by Senate or its representative if the above conditions are satisfied and there is a recommendation for an aegrotat or compassionate grade from the appropriate Head of Department or Dean.

f To make a recommendation for an aegrotat or compassionate grade, the Head of Department or Dean must certify that:

(i) the candidate's coursework in the course was well above the minimum pass standard or, where relevant, the minimum standard for a class of Honours, Merit or Distinction

and

(ii) for a candidate who sat the examination, the mark attained in the examination was lower than expected taking into account the candidate's coursework in that course

and

(iii) the candidate is in their opinion clearly worthy of a pass in the course or, where relevant, to be awarded First or Second Class Honours, Merit or Distinction.

g If a recommendation is required for a course with no coursework, the Head of Department or Dean may take into account the coursework and examination performance in any other courses for the same degree, where this is available to them.

h When considering the application, Senate or its representative may take into account the candidate's work in other courses, or approve an aegrotat or compassionate grade other than that recommended, as it sees fit.

i The above is subject to the restrictions that:

(i) No more than one third of the total points value credited to a degree or diploma may be awarded with an aegrotat or compassionate grade granted under this Regulation.

(ii) A candidate for a Masters degree, Bachelors Honours Postgraduate degree or a Postgraduate Diploma in which Honours, Merit or Distinction is available may:

(a) instead of applying for aegrotat or compassionate consideration, apply to re-enrol in all of the courses affected

or

(b) apply for aegrotat or compassionate consideration in courses worth up to the points limit specified above, and to re-enrol in any other affected courses in order to retain eligibility for Honours, Merit or Distinction.

j A candidate who applied for Aegrotat or Compassionate Consideration in any course may, in exceptional circumstances and on a recommendation from the Head of the Department, be granted permission by Senate or its representative to take another examination, either written or oral, in that course.

k The provisions of Regulation 13 apply to:

(i) Any final written examination presented for a course for a degree, diploma, or certificate.

(ii) Any final practical examination presented for a course for a degree, diploma, or certificate, other than a clinical or performance examination.

l The provisions of Regulation 13 apply (with necessary changes) to:

(i) The final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, Bachelor of Fine Arts (Honours), Postgraduate Diploma in Fine Arts or the Degree of Master of Fine Arts.

(ii) The final submission in each semester of studio work for the Degree of Bachelor of Architectural Studies as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

Note: The fees for Aegrotat and Compassionate Consideration are listed under the Fees Statute in this Calendar.

Reconsideration

14 a Following the decision of Senate on an application for Aegrotat or Compassionate Consideration, the candidate may apply to the Director, Academic Services, for reconsideration of that decision.

b An application for reconsideration must be made:

(i) in writing to the Director, Academic Services, no later than four weeks after the student is notified of Senate's decision

and

(ii) must be accompanied by further evidence in support of the application for aegrotat or compassionate consideration.
c Where the application seeks reconsideration of the effect of any medical evidence previously supplied or consideration of any additional medical evidence or both then:

(i) If the medical or counselling adviser who reviewed the medical evidence previously submitted did not confirm that the requirements of Regulation 13d(i) and 13d(ii) had both been met then all the medical evidence shall be referred to a medically qualified independent person ("Referee") to determine that question. The Referee's decision will be final and conclusive.

(ii) If the requirements of Regulation 13d(i) and 13d(ii) have been found (either on the first application or by a Referee on reconsideration):
(a) not to have been met, then the application shall be declined;
(b) to have been met, then Senate or its representative shall consider the other factors to be taken into account in terms of Regulation 13 and determine whether or not to grant the application and that decision shall be final and conclusive.

Written Tests
15 Where a percentage of the marks awarded for a course is allocated to a prior written test, and candidates are prevented by temporary illness or injury or exceptional circumstances beyond their control from sitting the test, or consider that their preparation for or performance in the test has been seriously impaired by any of those causes, then, if the conditions in Regulations 13c to 13f (with the necessary changes) are complied with, the candidates may on application and at the discretion of Senate:

a be permitted to sit another written test
or
b receive a mark for the test based on the average of marks awarded for other coursework
or
c take a viva voce examination
or
d have the percentage of marks allocated to the test reallocated to the examination.

Results Determination
16 In determining a candidate's result the examiners:

a may take into consideration the work done by the candidate during the course
b are to give due weight to reports on practical work done by the candidate wherever these are required
c are to include marks obtained by the candidate where Senate has allotted a percentage of marks for on-course assessment in that course.

Grades and Marks
17 Pass Marks
A pass mark is 50 percent or over.

18 Pass Grades
There are 11 pass grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>High first</td>
</tr>
<tr>
<td>A</td>
<td>Clear first</td>
</tr>
<tr>
<td>A−</td>
<td>Bare first</td>
</tr>
<tr>
<td>B+</td>
<td>High second</td>
</tr>
<tr>
<td>B</td>
<td>Clear second</td>
</tr>
<tr>
<td>B−</td>
<td>Bare second</td>
</tr>
<tr>
<td>C+</td>
<td>Sound pass</td>
</tr>
<tr>
<td>C</td>
<td>Pass</td>
</tr>
<tr>
<td>C−</td>
<td>Marginal pass</td>
</tr>
<tr>
<td>Pass</td>
<td>Ungraded pass</td>
</tr>
<tr>
<td>Conceded pass</td>
<td></td>
</tr>
</tbody>
</table>

19 Fail Grades
There are four fail grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>D+</td>
<td>Marginal Fail</td>
</tr>
<tr>
<td>D</td>
<td>Clear Fail</td>
</tr>
</tbody>
</table>
20 **Conceded Passes**

a Conceded passes apply only to courses taken towards:

(i) a Bachelors degree

or

(ii) an undergraduate diploma comprising not fewer than 240 points

or

(iii) Parts I, II or III of a four year Bachelors honours degree, or the respective Part in a conjoint degree.

b Courses taken towards Bachelors honours postgraduate degrees are not eligible for conceded passes.

c A candidate may, at the discretion of the relevant faculty, be considered for a conceded pass. No application by the candidate is required.

d A conceded pass, if granted, may not be declined by the candidate.

e A conceded pass will apply only to the programme for which it is awarded and may not be reassigned or credited to any other programme, except where courses for a Bachelors degree are reassigned to a Bachelors honours degree, or where a student is awarded a Bachelors degree, having passed all of the required courses for a Bachelors honours degree not at Honours standard.

f A candidate granted a conceded pass in a course who wishes to take that course again may do so only for Certificate of Proficiency.

g A conceded pass will not be awarded for a course to meet the requirements of General Education.

h A conceded pass will not be given for a course failed at another university.

i **For the degrees of:**

Bachelor of Arts – BA

Bachelor of Commerce – BCom

Bachelor of Dance Studies – BDanceSt

Bachelor of Education (Teaching) – BEd(Tchg)

Bachelor of Global Studies – BGlobalSt

Bachelor of Health Sciences – BHSc

Bachelor of Human Services – BHumServ

Bachelor of Music – BMus

Bachelor of Physical Education – BPE

Bachelor of Property – BProp

Bachelor of Science – BSc

Bachelor of Social Work – BSW

Bachelor of Sport, Health and Education – BSportHPE

Bachelor of Theology – BTheol

Conceded passes will be awarded by a meeting of the Examiners for the faculty concerned, provided that the Dean of the faculty has the power to award where such power is authorised by the Examiners, in accordance with the following provisions.

One course to a maximum value of 30 points may be conceded provided:

(i) the concession will allow the student to complete the degree

(ii) the course conceded is not a course counting towards the student’s major or core requirements

(iii) the student obtained a grade of D+ in the course

(iv) the result was achieved in the last two semesters of enrolment, one of which may be a Summer School.

j **For the degrees of:**

Bachelor of Architectural Studies – BAS

Bachelor of Laws – LLB

Conceded passes will be awarded by a meeting of the Examiners for the faculty concerned in accordance with the following provisions:

(i) one course to a maximum value of 20 points may be conceded

(ii) the concession will allow the student to complete the degree

(iii) for the LLB, the course is not one of the core law subjects prescribed by the New Zealand Council of Legal Education

(iv) the student obtained a grade of D+ in the course

(v) the result was achieved in the last two semesters of enrolment, one of which may be a Summer School.
For the degrees of:
- Bachelor of Engineering – BE
- Bachelor of Engineering (Honours) – BE(Hons)
- Bachelor of Fine Arts – BFA
- Bachelor of Fine Arts (Honours) – BFA(Hons)
- Bachelor of Optometry – BOptom
- Bachelor of Urban Planning – BUrbPlan
- Bachelor of Urban Planning (Honours) – BUrbPlan(Hons)

Conceded passes will be awarded by a meeting of the Examiners for the faculty concerned in accordance with the following provisions:

1. that by the award of a conceded pass the student will complete a Part
2. one course to a maximum of 20 points per Part and a maximum of 20 points in any one academic year may be conceded
3. that to be eligible for the award of a conceded pass in any course the student must have achieved a grade of D+ and an overall Grade Point Average of 2.5 or better in that year
4. that no more than two courses be conceded, to a maximum of 30 points, in any one degree.

For the degree of Bachelor of Advanced Science (Honours) – BAdvSci(Hons):
Conceded passes will be awarded by a meeting of the Examiners for the faculty, provided that the Dean of the faculty has the power to award where such power is authorised by the Examiners, in accordance with the following provisions:

1. One course to a maximum value of 30 points may be conceded provided:
   a. the concession will allow the student to complete the degree
   b. the course conceded is not a course counting towards the student’s major or core requirements
   c. the course conceded is not at 700 level
   d. the student obtained a grade of D+ in the course
   e. the result was achieved in the last two semesters of enrolment, one of which may be a Summer School.

For the degree of Bachelor of Education (Teaching English to Speakers of Other Languages) – BEd(TESOL):
Conceded passes will be awarded by a meeting of the Committee of BEd(TESOL) Examiners in accordance with the following provisions:

1. that by award of a conceded pass the student will complete that Part
2. a maximum of 15 points in any one Part be conceded
3. that to be eligible for the award of a conceded pass the student must have achieved a grade of D+ in that course (or courses) and an overall Grade Point Average of 2.5 or better in that Part.

For the degree of Bachelor of Nursing – BNurs:
Conceded passes will be awarded by a meeting of the Committee of BNurs Examiners in accordance with the following provisions:

1. that by award of a conceded pass the student will complete that course
2. a maximum of 30 points in the Part be conceded
3. that to be eligible for the award of a conceded pass the student must have achieved a grade of D+ in that course (or courses) and an overall Grade Point Average of 2.5 or better in the Part.

Undergraduate Diplomas
For all undergraduate diplomas comprising 240 points or more a conceded pass may be awarded by a meeting of the Examiners for the Faculty concerned in accordance with the following provisions.

1. One course to a maximum value of 20 points may be conceded provided:
   a. that the conceded pass may only be awarded where it would permit the student to complete their diploma
   b. that the student has obtained a grade of D+ in that course.

Conjoint Degrees
For all conjoint degrees consideration for the award of conceded passes will be in accordance with the provisions for the particular degree as set out in (i), (j), (k) and (n) of this section.
Deferred Results

21 a Bachelor of Education (Teaching English to Speakers of Other Languages) – BEd(TESOL)

Where a candidate has a fail grade of D+ in a course (or courses) and the Examiners deem that the failure(s) may be redeemable by satisfactory completion of additional work, then a pass in that Part may be awarded under the following provisions:

(i) that the award of a grade for that course (or courses) be deferred until a prescribed course of additional study and/or examination be completed to the satisfaction of the Examiners

and

(ii) deferred results be limited to a maximum of 15 points in any Part

and

(iii) that to be eligible for a deferred result a student must achieve an overall Grade Point Average of 2.5 or better

and

(iv) that the reassessed grade in that course (or courses) be no greater than a grade of C+.

b Bachelor of Medical Imaging (Honours) – BMedImag(Hons)

Where a student has not achieved a pass in a particular component or components of a course the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the examiners.

If in the opinion of the Examiners for BMedImag(Hons) a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

c Bachelor of Medicine and Bachelor of Surgery – MBChB

Parts II, III, IV and V

Where a student has not achieved a pass in a particular component or components of a Part the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners.

If in the opinion of the Examiners for MBChB a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that Part.

MBChB Part VI

Where a student has not achieved a pass in a particular component or components of this Part, the Examiners may withhold the result and require a further period of assignment to a department. This will involve postponement of qualification.

If in the opinion of the Board of MBChB Examiners a particular weakness in a component or components is such that it cannot be, or has not been, addressed by this additional work, the student will fail the Part.

d Bachelor of Nursing – BNurs

Part I

Where a candidate has a fail grade of D or D+ in a course (or courses) and the Examiners deem that the failure(s) may be redeemable by satisfactory completion of additional work then a pass in that Part may be awarded under the following provisions:

(i) that the award of a grade for that course (or courses) be deferred until a prescribed course of additional study and/or examination be completed to the satisfaction of the Examiners

and

(ii) deferred results be limited to a maximum of 30 points in any Part

and

(iii) that to be eligible for a deferred result a student must achieve an overall Grade Point Average of 2.5 or better

and

(iv) that the reassessed grade in that course (or courses) be no greater than a grade of C+.

Parts II, III

Where unsatisfactory performance occurs in the clinical practice component of courses in Part II and Part III of the programme, the result of the course will be deferred. In these circumstances, the candidate will be required to complete additional work to the satisfaction of the examiners.

e Bachelor of Optometry – BOptom

Where a weakness occurs in the clinical practice component in certain double-semester Part IV and Part V courses, the result of the course or courses will be deferred. In these circumstances, the candidate will be required to complete additional work to the satisfaction of the examiners. The work will be examined in the following February.

f Bachelor of Pharmacy – BPharm

Where a student has not achieved a pass in a particular component or components of a course the Examiners
may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners.

If in the opinion of the Examiners for BPharm a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

g Bachelor of Physical Education – BPE
Where a student has been unable to complete the practical component of a course due to illness, injury or circumstances beyond their control, the result of the course will be deferred. In these circumstances the student will be required to complete assessment of the practical component as soon as practicably possible at a time deemed appropriate by the Head of Programme.

h Bachelor of Social Work – BSW
Where performance criteria have not been met in the skills based components of Stage II, III, and IV courses in the programme, the result of the course or courses will be deferred. In these circumstances, the candidate will be required to complete additional work to the satisfaction of the examiners. The work will be re-examined as soon as possible or in the following semester.

i Bachelor of Sport, Health and Physical Education – BSportHPE
Where a student has been unable to complete the practical component of a course due to illness, injury or circumstances beyond their control, the result of the course will be deferred. In these circumstances the student will be required to complete assessment of the practical component as soon as practicably possible at a time deemed appropriate by the Programme Leader.

j Postgraduate Diploma in Health Psychology – PGDipHealthPsych
Where a student has not achieved a pass in a particular component or components of HLTHPSYC 745, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for PGDipHealthPsych a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

k Postgraduate Diploma in Health Sciences in Magnetic Resonance Imaging
Where a student has not achieved a pass in a particular component or components of CLINIMAG 712, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGDipHSc in Magnetic Resonance Imaging a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

l Postgraduate Diploma in Health Sciences in Nuclear Medicine
Where a student has not achieved a pass in a particular component or components of CLINIMAG 716, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGDipHSc in Nuclear Medicine a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

m Postgraduate Diploma in Health Sciences in Ultrasound
Where a student has not achieved a pass in a particular component or components of CLINIMAG 715, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGDipHSc in Ultrasound a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

n Postgraduate Certificate in Health Sciences in Mammography
Where a student has not achieved a pass in a particular component or components of CLINIMAG 708, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGCertHSc in Mammography a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

o Master of Social Work (Professional) – MSW(Prof)
Where performance criteria have not been met in the skills based components of courses in Parts I and II of the programme, the result of the course will be deferred. In these circumstances, the candidate will be required to complete additional work to the satisfaction of the examiners. The work will be re-examined as soon as possible or in the following semester.

p Graduate Diploma in Teaching (Early Childhood Education), Graduate Diploma in Teaching (Primary), Graduate Diploma in Teaching (Secondary)
Where a student, at the completion of their programme, receives a grade of D+ for one course the result
of this course will be deferred. In this circumstance, the student’s overall progress will be reviewed by the Programme Head and if it is deemed to be of a satisfactory standard then the student may be given an opportunity to complete additional work within six weeks of notification.

q Master of Nursing Science – MNSc
Where a student has not achieved a pass in a particular component or components of a course the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

Recount of Marks
22 By making application not later than seven weeks after the last day of the examination period, any candidate sitting a written examination only may have the marks awarded for their examination script recounted. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer, or any part of an answer, submitted by a candidate has been overlooked. Recounts should always include a careful checking of the accuracy and inclusion of coursework marks.

Note: For the prescribed fee for an Application for Recount of Marks see the Fees Schedule in this Calendar.

Availability of Scripts
23 By making application during the three months after the end of the examination period for the examination, a candidate may obtain a copy of their examination script.

Note: Examination scripts will normally be retained only for four months after the examination period and thereafter will be destroyed.

Theses and Dissertations
24 Where a thesis or dissertation is required as part of an examination the following conditions apply.

a Theses
Details of the submission and binding requirements for a thesis are listed in the General Regulations – Masters Degrees.

b Dissertations
Binding requirements for dissertations will be defined by the faculty.

c Degree of Doctor of Philosophy
(i) Details of the submission and binding requirements for PhD theses are contained in the Statute for the Degree of Doctor of Philosophy 2016.

(ii) On completion of the examination, the candidate is to submit two hardbound copies and one digital copy of the thesis to the Graduate Centre as specified in Regulations 9u and 9v of the Statute for the Degree of Doctor of Philosophy 2016. A short abstract not exceeding 350 words is to be included with each copy and bound into the hardbound copies of the thesis. The Graduate Centre is to deposit two hardbound copies and one digital copy with the University Library.

Note: Candidates are recommended to obtain the booklet Guide to Theses and Dissertations from the Graduate Centre before proceeding with the typing and binding of the thesis or dissertation. A clear, legible type style is to be used.

Embargoing of Theses
25 a A thesis will normally be available for public consultation unless there are compelling reasons for restricting access to it.

b Access to a thesis may be restricted, normally for a maximum of two years, if it contains confidential and sensitive material that would:

(i) breach prior contractual arrangements with outside organisations

or

(ii) prevent or jeopardise an application for a patent, licence, or registration

or

(iii) provide good reason for refusing to disclose the contents of the thesis, consistent with the provisions of the Privacy Act (1993) or the Official Information Act (1982).

c An application for an embargo is to be made by the author of the thesis and/or the supervisor, through the Head of Department to the Dean of Graduate Studies.

d The embargo will apply to all copies of the thesis, whether hard copy or electronic.

26 The University Librarian or a delegated authority has a right to make and supply copies of theses and dissertations
in terms of Section 56 of the Copyright Act (1994) unless the author has imposed conditions restricting the reproduction of their work for a stipulated period.

**Failed Theses**

27 a Where a thesis or dissertation has failed the examination, that thesis or dissertation is not to be deposited in the University Library or digital repository.

b Where a thesis or dissertation has passed, but requirements for the degree have not been met, the thesis or dissertation is not to be deposited in the University Library or digital repository.

**References to the Senate**

28 For the purposes of these regulations ‘Senate’ indicates any duly empowered delegate of the Senate.

---

**Fees Statute 2001**

1 **Title and Commencement**

This statute may be cited as the Fees Statute 2001 and came into force on 1 January 2001.

2 **Interpretation**

In this statute unless the context otherwise requires:

- ‘Council’ means the Council of the University of Auckland.
- ‘Deletions’ means the deletion of a course from the student’s academic record as specified in the Enrolment and Programme Regulations.
- ‘Domestic Student’ has the meaning given in the Act.
- ‘Due Date’ is the date specified on the Fees Account and/or on the student’s account available through Student Services Online.
- ‘Enrol’ has a corresponding meaning.
- ‘Enrolment’ means enrolment in a programme or course at the University.
- ‘Enrolment and Programme Regulations’ are the Regulations governing enrolment and all associated activity such as, but not limited to, definitions of full-time and part-time study, restrictions to enrolment and changes to current enrolments after closing date.
- ‘Fees Account’ means an invoice or an invoice/statement, or online invoice/statement for the fees and charges payable by a Student as a condition of enrolment.
- ‘International Student’ has the meaning given in the Act.
- ‘Staff Member’ means a member of the staff of the University.
- ‘Student’ includes a Domestic Student and an International Student who is:
  a duly enrolled as a Student of the University
  or
  b applying to enrol as a Student of the University.
- ‘Student Loan’ has the same meaning as it has in section 2 of the Student Loan Scheme Act 2011.
- ‘Student Services Fee’ means the fee paid by an enrolled Student for Student Support Services provided by the University.
- ‘University’ means the University of Auckland constituted under the University of Auckland Act 1961.
- ‘University Services’ means those services provided by the University that can be accessed by a Student on request or application, such as enrolment, the provision of an official academic transcript or other services such as (but not limited to) accommodation, health care or library.
- ‘Withdrawals’ of courses may be approved as outlined in the Enrolment and Programme Regulations.

3 **Tuition Fees**

3.1 The Council may prescribe from time to time Tuition Fees payable by:

a Domestic Students; in compliance with section 227 of the Act

b International Students or any categories of International Students; in compliance with section 228 of the Act.

3.2 Tuition Fees may be prescribed either by resolution of the Council or by a schedule to this statute.

3.3 The Tuition Fees prescribed by the Council at the date when this statute comes into force apply until other Tuition Fees are prescribed in place or in addition to them.

4 **General Fees**

4.1 The Council hereby prescribes the General Fees specified in the schedule.

4.2 The Council may from time to time by resolution vary the amount of, or delete, any General Fee specified in the schedule or prescribe any additional General Fee.
4.3 Any such variation, deletion, or addition shall apply from the date specified in the amending resolution.

5 Additional Fees/Charges

Faculties and Departments of the University may impose charges to recover costs in providing Students with non-compulsory services incidental to courses or programmes.

6 Payment of Fees and Charges

6.1 Tuition Fees, General Fees and any other charges imposed pursuant to section 5 that are included on the Student’s Fees Account must be paid by the Student.

6.2 All Students must pay the full amount on their Fees Account by the due date.

6.3 Charges imposed on a Student pursuant to section 5 that are not included in a Fees Account shall be paid by the Student on demand.

6.4 Any instalment of a Student Loan (within the meaning of the Student Loan Scheme Act 2011) that is available to a Student and received by the University in respect of their enrolment shall be applied toward payment of the Student Fees Account on the occasion of that enrolment.

7 Refunds or Credits

7.1 The Council may by resolution prescribe from time to time in accordance with sections 227 and 228 of the Act:

a the circumstances in which Domestic Students and International Students are or may be entitled to a refund or credit of all or any part of the Tuition Fees and General Fees paid or payable to the Council; and

b the quantum of those refunds.

7.2 The circumstances in which a refund or credit may be made and the quantum of that refund or credit that is applicable when this statute comes into force, continues until a change is prescribed by resolution.

7.3 The Council will take all reasonable steps to ensure that both Domestic Students and International Students are informed of the circumstances in which they are or may be entitled to any refund or credit of all or any part of the fees that have been paid or are payable by them to the Council.

7.4 The refund or credit of all or any part of a Tuition Fee or a General Fee that was paid by Student Loan shall be applied in reduction of that loan.

7.5 In the case where a credit balance is insufficient to cover the total amount of the refund processing fee or administration fee, the fee will be adjusted to equal the amount of the credit balance.

7.6 In the event the University ceases to provide the courses in which the Student is enrolled then the University will delete the enrolments and process any refund or credit in accordance with the Enrolment and Programme Regulations and without deduction of or requirement to pay a refund fee.

8 Non-payment of Fees and Charges

8.1 Where a Student does not pay:

a the Fees Account rendered to that Student

or

b a charge for that Student imposed under section 5 on demand;
then, until those fees and charges are paid in full and without prejudice to the right to recover the unpaid fees or charges at law; the Council may:

(i) Delete the enrolment of that Student from a course or courses;

(ii) Withhold the formal notification of the final grades of the Student;

(iii) Decline to re-enrol the Student;

(iv) Decline to release the Student’s official academic transcript;

(v) Exclude that Student from the University;

(vi) Withhold any Degree or Diploma certificate from that Student;

(vii) Restrict that Student’s access to University Services.

(viii) Charge a late payment fee.

(ix) Impose additional charges to recover legal and collection costs where a third party is engaged to recover those fees and charges.

8.2 Application for Reinstatement

a A Student upon whom a penalty is imposed under section 8.1(i) may apply to have their enrolment reinstated upon payment of the outstanding amount owing and the course reinstatement fee as outlined in Schedule - Part A.

b To be eligible to complete course requirements, a Student must apply for course reinstatement no later than two weeks before the beginning of the examination period within the semester which enrolment in the course(s) took place.
8.3A Student upon whom a penalty is imposed under section 8.1 may by giving written notice to the Director, Academic Services within eight days of the penalty having been imposed, apply to the Council or duly constituted Committee of the Council to review the imposition of that penalty. The notice must set out the reasons for the review. The decision of the Council or its Committee is final.

9 Non-attendance
A Student who stops attending lectures or classes in a course or courses remains liable for the fees prescribed for that course or courses.

Fees Schedules
The 2021 fees schedules for Part A (all students), Part B (domestic students) and Part C (international students) were unavailable at time of publication. The 2021 fees schedules can be viewed on the University website from mid-December 2020 at www.calendar.auckland.ac.nz.

General Regulations – Bachelors Honours Postgraduate Degrees
The following regulations take precedence over the specific regulations for each Bachelors Honours Postgraduate degree published in this Calendar. As far as possible they are to be read in conjunction with the specific degree regulations for each Bachelors Honours Postgraduate degree. The Bachelors Honours Postgraduate degree will not be awarded until the requirements for the qualifying Bachelors degree have been completed.

Note: For the purpose of these regulations:
(i) a Bachelors Honours Postgraduate degree is worth a total of 120 points
(ii) a research component consists of a dissertation, research portfolio, research essay, research project or thesis worth between 30 and 120 points
(iii) a research essay or research project will normally be worth no more than 45 points
(iv) a dissertation will be worth at least 40 points and less than 90 points
(v) a research portfolio or thesis will be worth 90 or 120 points.

General Requirements
1 A student enrolled for a Bachelors Honours Postgraduate degree at this University must pass the full points value specified in the degree regulations. The total enrolment may not exceed the minimum points requirement for the degree by more than 40 points.

Duration of Enrolment
2 The requirements for a Bachelors Honours Postgraduate degree must be completed within:
a one year of initial enrolment for the degree if enrolled full-time
or
b two years of initial enrolment for the degree if enrolled part-time.

3 In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

Completion of Requirements
4 a A student enrolled for a Bachelors Honours Postgraduate degree must complete all work in taught courses by the last day of the semester in which the course is taught.
b The specified date for submission of a dissertation, research essay, research portfolio, research project or thesis of 30 points or more that is included in a bachelors honours postgraduate degree is the last day of the final term of enrolment in the dissertation, research essay, research portfolio, research project or thesis. If, in exceptional circumstances beyond the student’s control, the dissertation, research essay, research portfolio, research project or thesis has not been able to be completed by the last day of the final term, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.
c A student who has failed a course or courses of no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the duration of enrolment specified in Regulation 2 in order to complete the degree.

Tuition Fees for Extensions of Time
5 Where an extension of time for the submission of a dissertation, research portfolio, research essay, research project or thesis is approved under Regulation 4b, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the course has ended.
Honours
6 a Where the specific degree regulations include a provision for Honours, a Bachelors Honours Postgraduate degree may be awarded with Honours where the student has passed a research component of at least 30 points, comprising a single identifiable course.

b Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

c First Class Honours may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Second Class Honours First Division may be awarded where a student has achieved an overall Grade Point Average between and including 5.5 and 6.9. Second Class Honours Second Division may be awarded where a student has achieved an overall Grade Point Average between and including 4.0 and 5.4. Third Class Honours may be awarded where the student has achieved an overall Grade Point Average of 3.9 or below. The overall Grade Point Average will be rounded to one decimal place for the purpose of this Honours calculation.

7 Calculation of the class of Honours will include the grades given for all courses attempted in the degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Submission
8 a Dissertations, research essays, research portfolios, research projects and theses are to be submitted to the supervisor or department in accordance with Regulation 4b.

b The Head of Department is to transmit the submitted dissertation, research essay, research portfolio, research project or thesis to the examiner(s).

c Copies of dissertations, research essays, research portfolios, research projects and theses are not deposited with the University Library.

Suspension
9 Enrolment for a Bachelors Honours Postgraduate degree will normally be continuous. In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may grant a period of suspension from enrolment not normally exceeding two consecutive semesters. In such cases the period of suspension will not count towards the time limits for the degree.

Transfer Credits, Cross-credits and Reassignments
10 a Transfer credits
Transfer credits may be awarded for a Bachelors Honours Postgraduate degree as specified in Regulations 2e and 2f(i) of the Credit Regulations.

b Cross-credits
Courses may not be cross-credited into or from a Bachelors Honours Postgraduate degree.

c Reassignments
(i) With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.
(ii) In certain circumstances, Senate or its representative may approve the reassignment of points to the relevant Postgraduate degree as provided for in Regulation 6c.

Certificate of Proficiency
11 The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

Transitional Certificate
12 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Bachelors Honours Postgraduate degree.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Bachelors Honours Postgraduate degree.

General Regulations – Masters Degrees
The following regulations apply to all Masters degrees published in this Calendar unless otherwise stated. As far as possible they are to be read in conjunction with the specific degree regulations for each Masters degree.

Notes:
(i) a Masters is a Research Masters if it includes a thesis or research portfolio of at least 90 points, otherwise it is a Taught Masters
(ii) a research essay or research project will normally be worth no more than 45 points

(iii) a dissertation will be worth at least 40 points and less than 90 points

(iv) a research portfolio or thesis will normally be worth 90 or 120 points

(v) for the purposes of these regulations only, full-time enrolment is 50 points or more in one semester or 25 points or more in one quarter, otherwise the semester or quarter enrolment (and any Summer School enrolment) is part-time

(vi) The ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ or ‘Academic Head’ is the head of that academic unit

(vii) a representative of Senate includes a Dean, and a Deputy or Associate Dean.

General Requirements
1 A student enrolled for a Masters degree at this University must pass the full points value specified in the degree regulations. The total enrolment may not exceed the minimum points requirement for the degree by more than 40 points.

Duration of Enrolment
2 a The requirements for a Masters degree must be completed in accordance with the following time limits and the thesis or research portfolio due dates in Regulation 2e.

<table>

(i) (a) the start date of the enrolment in the thesis or research portfolio where the programme commences with a thesis or research portfolio enrolment

or

(b) the first semester, quarter or Summer School in which a student enrolled for a course which is assigned or reassigned to the programme.

(ii) One period of Summer School enrolment counts towards the time limit as one semester of part-time enrolment, but is not counted if a thesis or research portfolio enrolment has already commenced.

(iii) Where a student’s enrolment is partially full-time and partially part-time, the part-time time limit applies, provided that:

(a) one semester of full-time enrolment counts as two semesters of part-time enrolment

(b) one quarter of full-time enrolment counts as two quarters of part-time enrolment.

(iv) Where a student’s enrolment is entirely full-time, it must be in consecutive semesters or quarters.

(v) Where a student’s enrolment is at least partially part-time, up to a maximum of four semesters or four quarters of non-enrolment may occur provided that:

(a) one semester of non-enrolment counts towards the time limit as one semester of part-time enrolment

(b) one quarter of non-enrolment counts towards the time limit as one quarter of part-time enrolment

and

(c) any semesters of non-enrolment occur prior to commencement of a thesis or research portfolio enrolment.

b Enrolment in a Research Masters degree must conclude with the submission of the thesis or research portfolio.

c Enrolment in the thesis or research portfolio must commence on either 1 December, 1 March or 15 July and continue until the submission of the thesis or research portfolio.

d A student must enrol in thesis or research portfolio points in no fewer than two and no more than four
consecutive semesters until the thesis or research portfolio points requirement is satisfied and subject to the
time limits in Regulation 2a.

<table>

</table>

Notes:
1. The final semester of enrolment depends on the start date of the thesis or research portfolio and the number of semesters (either two, three or four) in which a student is enrolled in thesis or research portfolio points before they satisfy the thesis or research portfolio points requirement.
2. These due dates provide 12 months of continuous enrolment in the thesis or research portfolio for students completing their thesis or research portfolio points enrolment in two consecutive semesters, and 18 or 24 months of continuous enrolment for other students (by enrolment in thesis or research portfolio points in three or four consecutive semesters respectively).
3. This due date occurs within the final semester of enrolment.
4. This due date is in the same year as the final semester of enrolment
5. This due date is in the year following the final semester of enrolment.

f A student enrolled for a 240 point Research Masters must complete at least 105 points of coursework prior to enrolment in the thesis or research portfolio.

g A student enrolled for a 300 point Research Masters must complete at least 180 points of coursework prior to enrolment in the thesis or research portfolio.

h A student enrolled for a 360 point Research Masters must complete at least 240 points of coursework prior to enrolment in the thesis or research portfolio.

Completion of Requirements

3 a Thesis or Research Portfolio Extension of Time

(i) If, in exceptional circumstances beyond the student’s control, a thesis or research portfolio has not been able to be completed by the due date specified in Regulation 2, Senate or its representative may, upon consideration of a student's application and the required supporting evidence, approve a limited extension of time, not normally exceeding eight months, for the work to be completed.

(ii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the thesis or research portfolio has ended.

b Dissertation/Research Essay/Research Project

(i) The specified date for submission of a dissertation or research project that is included in a masters degree is the last day of the final term of enrolment in the dissertation or research project. If, in exceptional circumstances beyond the student’s control, the dissertation or research project has not been able to be completed by the last day of the final term of enrolment in the dissertation or research project, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

(ii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the dissertation or research project has ended.
c **Other courses**
Extensions of time to complete work in courses other than a dissertation, research essay, research portfolio, research project, or thesis will not be granted beyond the end of the semester(s) or quarter(s) of enrolment in the course.

d **Failed courses**
A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester or quarter beyond the duration of enrolment for completion specified in Regulation 2 in order to complete the degree.

### Honours

4 a Where the specific degree regulations include a provision for Honours, a Masters degree may be awarded with Honours where a student’s overall grade is sufficiently high and where the student has passed a research component of at least 30 points, comprising a single identifiable course.

b There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.

c First Class Honours may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Second Class Honours First Division may be awarded where a student has achieved an overall Grade Point Average between 5.5 and 6.9. Second Class Honours Second Division may be awarded where a student has achieved an overall Grade Point Average between and including 4.0 and 5.4. The overall Grade Point Average will be rounded to one decimal place for the purpose of this Honours calculation.

### Distinction or Merit

5 a Where the specific degree regulations include a provision for Distinction or Merit, and Honours has not been awarded, the Masters degree may be awarded with Distinction or Merit where a student’s grade is sufficiently high.

b Distinction may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Merit may be awarded where a student has achieved an overall Grade Point Average between 5.5 and 6.9. The overall Grade Point Average will be rounded to one decimal place for the purpose of this Honours calculation.

### Theses

6 a The student is to submit one temporary-bound copy and a digital copy of their thesis to the appropriate Faculty Student Centre in accordance with Regulations 2 and 3a.

b The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

c The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

d Where the outcome of the examination is to award a thesis a passing grade:
(i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.

(ii) The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

e Where the outcome of the examination is to award a thesis a fail grade the thesis will not be held in the University’s Library or digital repository.

### Research Portfolios

7 a The student is to submit one temporary-bound copy and a digital copy of their research portfolio to the appropriate Faculty Student Centre in accordance with Regulations 2 and 3a.

b The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

c Copies of research portfolios are not deposited in the University Library, nor deposited with the University’s digital repository.

### Dissertations/Research Essays/Research Projects

8 a Dissertations, research essays and research projects are to be submitted to the supervisor or department, in accordance with Regulations 2 and 3b.
b The Academic Head is responsible for transmitting the submitted copies to the examiners.

c Copies of dissertations, research essays and research projects are not deposited in the University Library, nor deposited with the University’s digital repository.

Substitutions and Failed Courses
9 Masters students may not change their enrolment in a course after the last date approved for deletions, except in exceptional circumstances as provided for in the Enrolment and Programme Regulations under Changes to Current Enrolment.

10 A Masters student may not normally re-enrol in a failed course except as provided for in the regulations relating to aegrotat and compassionate passes. In exceptional circumstances, the student may apply to Senate or its representative, on the recommendation of the Head of Department, for permission to re-enrol in the course.

11 Calculation of the overall grade will include the grades given for all courses attempted in the degree. For the purposes of grade or mark calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Suspension
12 In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may grant a period of suspension from enrolment not normally exceeding one year for enrolment in a thesis or research portfolio or two consecutive semesters, or four quarters, for enrolment in other courses. In such cases the period of suspension will not count towards the time limits for the degree.

Transfer Credits, Cross-credits and Reassignments
13 a Transfer credits
   (i) Transfer credits may be awarded for a Taught Masters degree or the taught component of a Research Masters degree with a total points value of more than 120 points as specified in Regulations 2e and 2f(i) of the Credit Regulations.
   (ii) Except as provided for in Regulations 2e and 2f(ii) of the Credit Regulations, transfer credits may not be awarded for a Research Masters degree.

b Cross-credits
Courses may not be cross-credited into or from a Masters degree.

c Reassignments
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

Certificate of Proficiency
14 a The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

b A course passed for a Certificate of Proficiency may be reassigned to a Taught Masters degree, or the taught component of a Research Masters degree with a total points value of more than 120 points as specified in Regulation 9 of the Credit Regulations.

c A course passed for a Certificate of Proficiency may not be reassigned to a Research Masters degree except as specified in 14b above.

Transitional Certificate
15 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Masters degree.

Reviews of Examination of Thesis or Research Portfolio
16 a If a student believes that, in the examination of their thesis or research portfolio, they have been significantly disadvantaged by the examination process, or any part of the examination process, then they may request a review of the decision. An application for review must be made to the Associate Dean (Postgraduate) or nominee of the faculty, and must clearly set out the grounds for the review. All relevant documents relied upon must be submitted with the application for review.

b Any application for review as to the examinations process or outcome must be lodged within three months of the result of the examination being officially communicated to the student.

c The Associate Dean (Postgraduate) or nominee will investigate the matter and will provide the Dean of Graduate Studies with a written report within two weeks of the student’s application. Following receipt of the report the Dean of Graduate Studies will make the final decision.

Reviews of Extensions and Suspensions
17 a If an extension or suspension application is declined, the student may make an application for a review of that decision. An application for review must be made in writing to the Associate Dean (Postgraduate) or nominee
of the faculty within three months of the decline being officially communicated to the student. The application must clearly set out the grounds for the review, and all relevant documents relied upon must be submitted with the application for review.

b The Associate Dean (Postgraduate) or nominee will investigate the application for review and provide the Dean of Graduate Studies with a written report within two weeks of the student’s application. Following receipt of the report the Dean of Graduate Studies will make the final decision.

c Where the Dean of Graduate Studies has permitted a student to suspend or extend a course following a review and has provided that decision to the student, any tuition fees that are incurred as a result of the decision, as determined by Regulation 3a or b, must be paid.

Variations
18 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Masters degree.

General Regulations – Named Doctorates

These Regulations apply to all doctoral degrees except the Doctor of Philosophy and Higher Doctorates, and should be read in conjunction with the regulations for those degrees.

The ‘Department’ is the Department or School or other academic unit in which the candidate is registered, and the ‘Head of Department’ is the head of that academic unit.

Admission
1 Every candidate for a named-doctoral degree must have applied for admission and been admitted to the University of Auckland.

Registration
2 a Every candidate for a named-doctoral degree must be registered by the Board of Graduate Studies.

b Registration is provisional for all candidates for the first 12 months of equivalent full-time study following the Date of Registration as defined in Regulation 2.

c Application for registration must be made to the Head of Department, Division, School, Chair of a Board of Studies or Director of the Research Centre or Institute (“the Head of Department”) in the discipline in which the candidate is to be registered and must include, where appropriate to the composition of the doctoral degree, a preliminary research proposal.

d The Head of Department will make a recommendation to the Faculty Associate Dean (Postgraduate) as to whether the candidate:
(i) meets the eligibility criteria and has the ability to follow the proposed programme of study
and
(ii) has submitted a satisfactory preliminary research proposal as stipulated by the Head of Department.

e Where the Head of Department is satisfied, this recommendation must include:
(i) the proposed date of registration
(ii) nominations for supervisors
(iii) confirmation that the School/Department accepts responsibility for making satisfactory supervision arrangements and providing research resources and facilities over the whole enrolment for the degree
(iv) an appropriate set of goals for the provisional period of registration agreed to by both the candidate and nominated main supervisor; these must include, but are not limited to, those goals prescribed in the regulations for the relevant named doctorate and any standard goals required by the Board of Graduate Studies such as attendance at induction events, English language screening, and the satisfaction of academic integrity and health and safety requirements.

f Where an intending candidate is not resident in Auckland, the Head of Department must also provide the Associate Dean (Postgraduate) and the Board of Graduate Studies with evidence that the candidate will be provided with research resources and supervisory support at the location in which the research is to be carried out.

g On receipt of the recommendation of the Head of Department, the Faculty Associate Dean (Postgraduate) will make a recommendation to the Board of Graduate Studies as to the matters set out in Regulation 2d.

h On receipt of the recommendation of the Faculty Associate Dean (Postgraduate), the Board of Graduate Studies will decide whether or not to register the candidate and, if so, the conditions that will apply to the registration. The Board of Graduate Studies may call for any further information it considers relevant before making its decision.
i Registration takes effect on the date (the “Date of Registration”) approved by the Board of Graduate Studies. Where a candidate has already started supervised research on the doctoral topic, the Date of Registration may, subject to approval by the Board of Graduate Studies, be backdated by not more than six months.

j The Board of Graduate Studies will appoint the supervisors for each candidate. The supervisors must be actively involved in research in the candidate's general field, and must either hold a doctoral degree or be appropriately qualified and experienced. Persons who are themselves candidates for the same named doctorate may not be appointed as supervisors, although they may be appointed as advisers.

k For each candidate the Board of Graduate Studies will appoint a suitably qualified main supervisor who takes overall responsibility for the supervision of the candidate and for assistance in the provision of research resources. The main supervisor must be a staff member of the University of Auckland.

l In addition, the Board of Graduate Studies will appoint for each candidate:
   (i) at least one suitably qualified co-supervisor
   and/or
   (ii) an advisory committee or adviser/s.

m Candidates wishing to present and defend a thesis in Te Reo Māori must, before applying to the Head of Department to be registered, obtain the permission of the Pro Vice-Chancellor (Māori). When such permission is granted, the Pro Vice-Chancellor (Māori) will make a recommendation in writing to the Board of Graduate Studies as to:
   (i) whether the candidate has adequate fluency and literacy in Te Reo Māori in the subject area of the thesis and
   (ii) the likelihood of being able to find appropriately qualified examiners for the thesis.

Reviews of Registration
3 a During provisional registration, a candidate must achieve the goals prescribed by the Board of Graduate Studies and satisfy any other applicable programme requirements specified in the regulations for the relevant named doctorate.

b Where a thesis proposal is required as a provisional goal, it should be submitted for approval to the appropriate committee or subcommittee of the Department, Institute and/or Faculty in which the candidate is registered. The committee may accept the proposal, or indicate changes needed to the candidate and supervisor(s) and request a resubmission, or it may decline the proposal. It will inform the Head of Department of its decision.

c At the end of the provisional registration period, the candidate, the supervisor/s and the Head of Department are to submit a formal report to the Board of Graduate Studies on the progress of the candidate. This report may also be discussed by the appropriate postgraduate committee of the Department, Institute and/or Faculty in which the candidate is registered. The report should clearly state whether or not the progress of the candidate has been satisfactory, whether or not any programme specific requirements for the period have been satisfied, and whether or not the goals laid down for the provisional period of registration have been achieved. The report should include a recommendation that the candidate's registration be:
   (i) confirmed
   or
   (ii) continued on a provisional basis for a period of three to six months
   or
   (iii) discontinued and the candidate recommended for enrolment in another programme, where a suitable programme exists
   or
   (iv) terminated.

d At the end of each year of registration following the provisional period, the main supervisor, the candidate and the Head of Department are to submit, through the Associate Dean (Postgraduate) of the Faculty, a joint report to the Board of Graduate Studies on the candidate's progress. This report may also be discussed by the appropriate postgraduate committee of the Department, Institute and/or Faculty in which the candidate is registered. As part of this report, the main supervisor and the Head of Department are to make one of the following recommendations:
   (i) that the candidate's registration be continued
   or
   (ii) that the candidate's registration be continued subject to specified conditions
   or
   (iii) that the candidate's registration be terminated.

e Where a recommendation is made under Regulation 3c(ii) or 3d(ii), the Head of Department will also recommend to the Board of Graduate Studies any specific goals and/or conditions to be met by the candidate and the time in which these are to be completed. At the end of this period the Head of Department and main
supervisor will advise the Board of Graduate Studies whether or not these requirements have been met. Registration will be terminated if the specified conditions have not been fulfilled to the satisfaction of the Board of Graduate Studies.

f No decision to terminate registration may be made by the Board of Graduate Studies unless the candidate has been notified in writing and given reasonable opportunity to respond.

Changes to the Conditions of Registration

4  a The Head of Department may, after consultation with the candidate, make a written recommendation to the Board of Graduate Studies via the Faculty Associate Dean (Postgraduate) for changes in the conditions of registration for the candidate. After considering a recommendation from the Head of Department, the Board of Graduate Studies may, after considering any submissions made by the candidate, change the conditions of registration for any candidate.

b Where a resident candidate intends to be absent from the University in pursuit of their research for more than two months, supervisors are to submit for approval by the Board of Graduate Studies, through the Head of Department and before the candidate’s departure, suitable plans for the supervision of the candidate during the period of absence.

c When necessary, the Head of Department will make a recommendation to the Board of Graduate Studies regarding changes to the supervision of the candidate. This will normally be required when a supervisor is granted leave, resigns or retires.

Whilst the Board of Graduate Studies will take into consideration the candidate's views on any recommended changes to supervision, it reserves the right to determine the appointment of supervisor/s according to the availability of suitably qualified staff.

d When the Board of Graduate Studies is satisfied that there is sufficient reason, it may extend a candidate's submission date. Before approving an extension of submission time the Board of Graduate Studies will require the candidate, the supervisor(s) and Head of Department to agree on the programme of supervision and schedule of research considered necessary for submission by the new date proposed.

e Where a candidate is unable to continue with their research programme because of circumstances beyond their control, the Board of Graduate Studies may suspend their registration for a specified period of time. The conditions of Regulation 7g of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

f Enrolment and Programme Regulations regarding discontinuation apply to candidates for named doctorates.

g The Board of Graduate Studies may terminate the registration of any candidate who:

(i) fails to enrol for any academic year corresponding to a year of registration
or
(ii) fails to make payment of any tuition fees related to the registration
or
(iii) applies to cease being registered
or
(iv) has not made satisfactory progress while under provisional registration
or
(v) has received an unsatisfactory annual report
or
(vi) has not submitted a required provisional year or annual report
or
(vii) has not met any conditions specified under Regulation 3e
or
(viii) has not satisfied a requirement as stipulated in the structure and content regulation of the relevant named doctorate regulations
or
(ix) has not submitted or re-submitted the examinable work in time
or
(x) has had the termination of their registration recommended by a decision of a Disputes Committee constituted pursuant to Regulation 6
or
(xi) is prohibited under the Disciplinary Statute of the University from enrolling.

Before making a decision to terminate a candidate’s registration pursuant to this Regulation or otherwise, the Board of Graduate Studies will allow the candidate a reasonable opportunity to respond.
Enrolment and Fees
5 a Candidates for the degree must be enrolled and pay all prescribed fees including tuition fees in each academic year for which they are registered. Candidates need not pay tuition fees for any period during which their registration is suspended.

b On enrolment in each academic year every candidate must pay the prescribed fees for that academic year, including the Student Services fee.

c A candidate who submits all examinable work or terminates their registration will receive a refund of one-twelth of the tuition fee and the Student Services fee paid for each complete month of the period between the date of submission of the examinable work or termination of registration and the end of the academic year for which fees have been paid.

d Notification of the award of the degree will be withheld until all outstanding fees have been paid for the academic year in which a candidate is registered. Candidates will not be able to graduate until all outstanding fees have been paid.

Appeals
6 a If a doctoral candidate believes that they have been significantly disadvantaged by the examination process, or by any part of the examination process, then a written appeal may be made to the Board of Graduate Studies, setting out the grounds of the appeal. All relevant documents relied upon must be submitted with the appeal. Regulations 11d and 11e of the Statute for the Degree of Doctor of Philosophy 2016 shall then apply.

b Candidates, supervisors or Heads of Department may appeal against any decision, other than one bearing on examination matters, of the Board of Graduate Studies normally within three months of the making of the decision, on the grounds that:
(i) relevant information which was not available to the Board of Graduate Studies at the time of its making the decision has since become available
and/or
(ii) the procedure adopted in arriving at the decision was unfair.

The appeal must state clearly all grounds relied on by the candidate and attach all relevant documentation. Regulation 11b of the Statute for the Degree of Doctor of Philosophy 2016 shall then apply.

Dispute Resolution Procedures
7 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

Transitional Arrangements
8 a These regulations came into force on 1 January 2016 and revoked the previous General Regulations for Named Doctorates.

b For candidates initially registered under previous regulations, the Board of Graduate Studies may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

General Regulations – Postgraduate Certificates
The following regulations take precedence over the specific regulations for each Postgraduate Certificate published in this Calendar. As far as possible they are to be read in conjunction with the specific regulations for each Postgraduate Certificate.

Note: For the purposes of these regulations:
(i) a postgraduate certificate is worth 60 points
(ii) a representative of Senate includes a Dean, Deputy Dean, or Associate Dean
(iii) the ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit.

General Requirements
1 A student enrolled for a Postgraduate Certificate at this University must pass the full points value specified in the postgraduate certificate regulations. The total enrolment may not exceed the minimum points requirement for the postgraduate certificate by more than 30 points.

Deadlines for Completion
2 a The requirements for a Postgraduate Certificate must be completed within:
(i) one semester of initial enrolment for the postgraduate certificate if enrolled full-time
or
(ii) four semesters of initial enrolment for the postgraduate certificate if enrolled part-time.

b In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

c In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may increase the duration allowed for enrolment for a period not normally exceeding one semester.

Completion of Requirements
3 a A student enrolled for a Postgraduate Certificate must complete the requirements by the last day of the final semester of enrolment in the programme.

b Extensions of time to complete work in examined courses or 100 percent coursework courses will not be granted beyond the end of the semester(s) in which the course is offered.

c A student who has failed a course or courses of no more than 30 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 2 in order to complete the postgraduate certificate.

Transfer Credits, Cross-credits and Reassignments
4 a Transfer credits
Transfer credit may not be awarded for a Postgraduate Certificate.

b Cross-credits
Courses may not be cross-credited into or from a Postgraduate Certificate.

c Reassignments
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

Certificate of Proficiency
5 a The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

b A Certificate of Proficiency course may be reassigned to a Postgraduate Certificate as specified in Regulation 9 of the Credit Regulations.

Transitional Certificate
6 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Postgraduate Certificate.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Postgraduate Certificate.

General Regulations – Postgraduate Diplomas

The following regulations take precedence over the specific regulations for each Postgraduate Diploma published in this Calendar. As far as possible they are to be read in conjunction with the specific regulations for each Postgraduate Diploma.

Note: For the purposes of these regulations:
(i) a postgraduate diploma is worth a total of 120 points
(ii) a research essay or research project will normally be worth up to 45 points
(iii) a dissertation will be worth at least 40 points and less than 90 points
(iv) a research portfolio will be worth 90 or 120 points
(v) the ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit
(vi) a representative of Senate includes a Dean, and Deputy or Associate Dean.

General Requirements
1 A student enrolled for a Postgraduate Diploma at this University must pass the full points value specified in the postgraduate diploma regulations. The total enrolment may not exceed the minimum points requirement for the postgraduate diploma by more than:

a 40 points
or

b 20 points in the case of a student with credit granted from a postgraduate certificate.
Duration of Enrolment

2  a  The requirements for a Postgraduate Diploma must be completed within
   (i) one year of initial enrolment for the postgraduate diploma if enrolled full-time
   or
   (ii) four years of initial enrolment for the postgraduate diploma if enrolled part-time.

   b  In the case of a student who has completed a postgraduate certificate for which credit is granted to a
      postgraduate diploma the requirements must be completed within
      (i) one semester of admission if enrolled full-time
      or
      (ii) two years of admission if enrolled part-time.

   c  In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled
      for a course which is assigned or reassigned to the programme.

   d  In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department,
      may increase the duration allowed for enrolment for a period not normally exceeding two consecutive
      semesters.

Completion of Requirements

3  a  A student enrolled for a Postgraduate Diploma must complete all work in taught courses by the last day of the
     semester in which the course is taught.

   b  (i)  The specified date for submission of a dissertation, research essay or research project of 30 points or
         more that is included in a postgraduate diploma is the last day of the final term of enrolment in the
         dissertation, research essay or research project.
         (ii) If, in exceptional circumstances beyond the student’s control, a dissertation or research project has not
              been able to be completed by the due date specified in Regulation 3b(i), Senate or its representative
              may, upon consideration of a student’s application and the required supporting evidence, approve a
              limited extension of time, not exceeding six months.
         (iii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at
              the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s
              current enrolment period in a dissertation or research project course has ended.

   c  A student who has failed a course or courses of no more than 40 points may be approved by Senate or its
      representative to enrol for no more than one further consecutive semester beyond the duration of enrolment
      specified in Regulation 2 in order to complete the postgraduate diploma.

   d  Fine Arts Studio
      A student enrolled for the Postgraduate Diploma in Fine Arts must complete their individual programme not
      later than 1 November in the year in which the work is undertaken or by such other date as may be approved
      by the Head of School of Fine Arts.

Distinction or Merit

4  a  Where the specific postgraduate diploma regulations include a provision for Distinction or Merit, a
     postgraduate diploma may be awarded with Distinction or Merit where a student’s overall grade is sufficiently
     high.

   b  Distinction may be awarded where a student has achieved an overall grade point average of 7.0 or higher. Merit
     may be awarded where a student has achieved an overall grade point average of between and including 5.50
     and 6.99.

5  Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in the
    diploma. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Dissertations / Research Essays / Research Projects

6  a  Dissertations, research essays, and research projects are to be submitted to the supervisor or department in
     accordance with Regulation 3b.

   b  The Head of Department is to transmit the submitted dissertation, research essay, or research project to the
      examiner(s).

   c  Copies of dissertations, research essays, and research projects are not deposited with the University Library.

Transfer Credits, Cross-credits and Reassignments

7  a  Transfer credits
      Transfer credits may be awarded for a Postgraduate Diploma as specified in Regulations 2e and 2f(i) of the
      Credit Regulations.
b **Cross-credits**
Courses may not be cross-credited into or from a Postgraduate Diploma.

c **Credit from a postgraduate certificate**
In the case of a student who has completed a Postgraduate Certificate for which credit is granted to a Postgraduate Diploma, admission to the Postgraduate Diploma must take place within five years of completion of the Postgraduate Certificate.

d **Reassignments**
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

**Certificate of Proficiency**
8 a The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

b A Certificate of Proficiency course may be reassigned to a Postgraduate Diploma as specified in Regulation 9 of the Credit Regulations.

**Transitional Certificate**
9 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Postgraduate Diploma.

**Variations**
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Postgraduate Diploma.

---

**International Students**

*The following notes are intended to be a general guide for international students wishing to be admitted to the University of Auckland. Further information is available from the International Office or from the international students section of the University website at www.international.auckland.ac.nz*

**Admission**
International students should apply for admission using the online Application for Admission. Intending applicants should note the following general points:

1. All international students enrolling in an undergraduate programme must hold, as a minimum requirement, an acceptable university entrance qualification.

2. All international students seeking admission to graduate or postgraduate programmes must hold, or expect to hold before the start of the programme, a recognised first degree in a relevant discipline.

3. Applicants whose first language is not English are required to provide satisfactory evidence of their proficiency in English. International applicants entering the University on the basis of NCEA or Cambridge Assessment International Education (Cambridge International, formerly known as University of Cambridge International Examinations (CIE)) taken in New Zealand, or International Baccalaureate (IB) taken in New Zealand, must meet the standard literacy requirements for admission. International applicants who have taken Cambridge International or IB outside of New Zealand must meet the standard admission requirements from these qualifications but may also meet the standard literacy requirement through an alternative approved English test as outlined in the minimum English Language proficiency requirements. International applicants entering the University on the basis of qualifications other than NCEA, Cambridge International or IB taken in New Zealand must meet a specified score in IELTS or an alternative approved English test, or must have completed and passed the Foundation Certificate in English for Academic Purposes (FCertEAP), the English Pathway for Undergraduate Studies (EPUS), the English Pathway for Postgraduate Studies (EPPS), or an approved alternative. The minimum score required in IELTS for admission to an undergraduate programme at the University is an overall score of 6.0 with no less than 5.5 on an individual band. The minimum score required in IELTS for admission to a postgraduate programme at the University is an overall score of 6.5 with no less than 6.0 on an individual band. Higher requirements may be imposed by faculties for entry to specified undergraduate and postgraduate programmes.

**Health and Travel Insurance**
4 It is the responsibility of all international students to ensure that they have appropriate and current approved health insurance for their period of study in New Zealand, and for the length of their student visa. Health and travel insurance is a condition of enrolment, and as such, must be valid for the entire duration of study. A student's enrolment cannot continue in the event of their insurance cover being declined.

**Student Visa**
5 The majority of international students must have a student visa before entering New Zealand. All students must
have a valid visa for the duration of their studies. For further information, visit Immigration New Zealand’s website at www.immigration.govt.nz.

a An international student is any student who is not a citizen or permanent resident of New Zealand (includes the Cook Islands, Tokelau and Niue) or Australia.

b Every international student must provide the following information to the University of Auckland:
   (i) photocopy of title page of passport and of current visa
   (ii) current Auckland address and contact phone number(s)
   (iii) full name and current address of an emergency contact/next of kin.

c Where a student does not provide evidence of a valid student visa and/or the required contact details either prior to commencement of study or before the visa information held on file at the University expires, then, until that evidence is produced, the Council may:
   (i) withdraw the enrolment of that student from a course or courses, with no refund or credit of fees and/or
   (ii) decline to re-enrol the student
   (iii) restrict or remove that student’s access to University services, including but not limited to the Student Learning System.

International Student Fees

6 International fees (refer to Schedule – Part C – International Students) apply to students who:
   a are not citizens of New Zealand or Australia (refer note 5a above)
   or
   b do not hold residency status in New Zealand or Australia
   or
   c are being fully funded under the New Zealand Ministry of Foreign Affairs and Trade New Zealand Aid Programme
   or
   d are not participating in an official University of Auckland exchange programme.

International Scholarships

The University of Auckland also offers international scholarships including the University of Auckland International Student Excellence Scholarship, University of Auckland Doctoral Scholarships at PhD level for international students from all countries; and scholarships from various faculties at all levels. To find out more about scholarships visit www.auckland.ac.nz/en/study/scholarships-and-awards/find-a-scholarship.html

Phone: +64 9 923 1969
Fax: +64 9 373 7405

Code of Practice

The University of Auckland has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Ministry of Education. Copies of the Code are available in six languages from the New Zealand Qualification Authority (NZQA) website at www.nzqa.govt.nz/the-code.

The Limitation of Entry Statute 1991

At the University of Auckland this 18th day of February 1991. Pursuant to Section 224 of the Education Act 1989, as amended by the Education Amendment Act 1990, the Council of the University of Auckland hereby makes the following Statute:

1 a This statute may be cited as The Limitation of Entry Statute 1991.

   b This Statute came into force on 1 January 1991.

2 Where the Council is satisfied that it is necessary to do so because:
   a students cannot be allocated places in appropriate lecture rooms or laboratories at times when they can reasonably be expected to attend
   or
   b the number of teaching staff does not ensure all students expected to seek a place in a particular programme or course can be adequately taught;
   there shall be deemed to be an insufficiency of accommodation or of staff.

3 The maximum number of students that may be enrolled for any such programme or course shall be determined by the Council from time to time after considering any recommendations from Senate and be published in a schedule to this Statute.
4 In determining such maximum number of students the Council may, after securing a recommendation from Senate:
   a prescribe academic standards to be achieved as a prerequisite for enrolment for any such programme or course
   and
   b prescribe other criteria for selection of students to be permitted enrolment for any such programme or course.

5 The Limitation of Entry Statute 1985 is hereby repealed.

Limitations Schedule 2021

This Schedule is made under the provisions of Regulation 3 of the Limitation of Entry Statute 1991.

Limited-entry Programmes and Courses
Because of insufficient accommodation and restrictions on staffing there will be a limitation on the number of students who can be enrolled in 2021 in the programmes and courses listed below.

Approved Limitations
1 Students must apply for a place in any limited entry programme. Unless otherwise specified in Closing Dates for Admission, the closing date for Application for Admission is 8 December 2020 and for Enrolment is 14 February 2021. The closing date for Admission to Summer School is 1 December 2020 and for Enrolment is 22 December 2020.

2 Application for places in any limited-entry programmes and/or courses will be made online, or in person.

3 Applications received after the specified closing dates will be given reduced priority in consideration for a place in a limited-entry programme and/or course.

4 Where the number of applicants for a place in a limited-entry programme or course exceeds the approved number of available places, the Faculty or department concerned will select students in accordance with criteria that have been approved by the University Council.

5 Where a course is taught in both semesters, the Selection Committee will allocate students to Semester One or Semester Two where numbers of applications for one semester exceed places available.

6 Selection criteria will be available from the Faculty or department concerned for the information of students. In general, selection will be based upon academic merit. In those cases where the scholastic record is insufficient, e.g., Discretionary Entrance and Special Admission, other criteria such as the recommendation of the School Principal or Advisor, or employment history, will be taken into account. Account will also be taken of the University’s Equal Educational Opportunity objectives. Limitations on programmes and courses are listed below.

Section 3: All other scheduled courses

All other scheduled courses offered by the University shall be deemed to be limited. The maximum number of students that may be enrolled in each course shall be the maximum limit set by the relevant faculty, which will usually be the maximum capacity of the room(s) allocated to the class(es) associated with each course through the University’s timetable process in accordance with the Academic Timetable Policy. Students will be selected for enrolment on a first in, first enrolled basis, until the maximum capacity has been reached.

C. General Education Courses
(admission by selection).

Section 2: Identified courses without specific prerequisite academic standards or other selection criteria

Students will be selected for enrolment into the following courses, up to the specified maximum number of places available, on a first in first enrolled basis:

<table>

Section 3: All other scheduled General Education courses

All other scheduled General Education courses offered by the University shall be deemed to be limited. The maximum number of students that may be enrolled in each course shall be the maximum limit set by the relevant faculty, which will usually be the maximum capacity of the room(s) allocated to the class(es) associated with each course through the University’s timetable process in accordance with the Academic Timetable Policy. Students will be selected for enrolment on a first in, first enrolled basis, until the maximum capacity has been reached.
General Statutes and Regulations

73 Conferment of Academic Qualifications and Academic Dress Statute 1992
77 Availability of Academic Dress
77 The Degrees and Diplomas Statute 1991
82 The Honorary Degrees and Awards Statute 2019
83 Guidelines for the Award of Honorary Degrees and Fellowships
Conferment of Academic Qualifications and Academic Dress Statute 1992

1 Every degree and every diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council and at a meeting of the Council.

2 Every degree and every diploma of the University shall be conferred or awarded by the Chancellor, or if they are absent from the meeting or incapacitated by sickness or otherwise, by the Vice-Chancellor or Pro-Chancellor. The Council may also authorise another person to confer degrees or award diplomas at a particular ceremony.

3 Every recipient of a degree shall receive a certificate in appropriate form, under the Common Seal of the University, that their degree has been conferred and stating the class of honours (if any awarded), or whether it has been awarded with Distinction or Merit.

4 Every diploma shall be in appropriate form under the Common Seal of the University and state, where relevant, whether it has been awarded with Distinction or Merit.

5 At a specified time or times each year the Council shall meet in convocation of the University to confer degrees and award diplomas. Persons wishing to have their degree conferred or diploma awarded (whether in person or in absentia) at such a ceremony must apply in accordance with the dates specified on the University website.

6 The form of words to be used by the Chancellor, the Vice-Chancellor, Pro-Chancellor or such other person as may have been appointed by the Council to confer degrees or to award diplomas shall be as follows:

   a Degrees
      ‘By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], confer the degrees stated upon those who, within their several faculties, have satisfied the requirements of this University.’

   b Diplomas
      ‘By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], award the diplomas stated upon those who, within their several faculties, have satisfied the requirements of this University.’

7 In appropriate circumstances, the form of words to be used by the Chancellor, the Vice-Chancellor, Pro-Chancellor or such other person as may have been appointed by the Council to confer degrees and to award diplomas shall be as follows: ‘By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], confer the degrees and award the diplomas stated upon those who, within their several faculties, have satisfied the requirements of this University.’

8 The academic dress worn by members of the University at any public ceremony of the University shall be the costume appropriate to their degree, but doctors may on special occasions wear a scarlet gown and graduates admitted ad eundem statum may wear the academic costume of their own university. Unless the holder of a diploma is also a graduate the only academic dress they may wear is an undergraduate gown and the scarf appropriate to their diploma.

9 The academic costumes of the University of Auckland shall be as follows:

   a The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel. The robe for the Pro-Chancellor is a black gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold lace and tassel. The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with a black scarf lined with the colour University blue bearing on each lapel the coat of arms. The academic dress for Graduation Officials shall be the costume appropriate to their degree. In addition, the gown shall bear on each shoulder the coat of arms of the University, and the trencher shall have a black tassel. Graduation Officials who are not graduates shall wear an undergraduate gown bearing the coat of arms of the University on each shoulder.

   b The gown for a Bachelor’s degree is as for the Cambridge Bachelor of Arts. The gown for a Masters degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelor’s degree is lined with coloured satin and bordered with white fur. The hood for a Masters degree is lined with coloured satin only. The hoods for the Bachelor’s and Masters degrees are as follows:
Arts
BA, MA  pink lining
BA(Hons)  pink lining; 25mm pink band on the outside edge of the hood
BTheol, MTheol  forest green lining
BTheol(Hons)  forest green lining; 25mm forest green band on the outside edge of the hood
MCTS  pink lining; 75mm dark brown band on the edge of the satin
MCW  pink lining; 25mm tan band on the edge of the satin
MindigSt  pink lining; 25mm terracotta band on the edge of the satin
MLitt  pink lining; 75mm pink band on the outside edge of the hood
MPP  pink lining; 25mm dark brown band on the edge of the satin
MTESOL  pink lining; 25mm light brown band on the edge of the satin

Business and Economics
BCom, MCom  orange lining
BCom(Hons)  orange lining; 25mm orange band on the outside edge of the hood
BProp, MProp  silver grey lining
BProp(Hons)  silver grey lining; 25mm silver grey band on the outside edge of the hood
MBA  burgundy lining
MCE  orange lining; 25mm terracotta band on the edge of the satin
MHRM  orange hood with 25mm dark brown band on the inside edge of the hood
MintBus  orange lining; 25mm light brown band on the edge of the satin
MMgt  orange lining; 25mm tan band on the edge of the satin
MMktg  orange lining; 25mm burgundy band on the edge of the satin
MProfAcctg  orange lining; 25mm orange band on the outside edge of the hood

Creative Arts and Industries
BAS, MAS  lemon lining
BDanceSt  jade green lining
BDanceSt(Hons)  jade green lining; 25mm jade green band on the outside edge of the hood
BFA, MFA  gold lining
BFA(Hons)  gold lining; 25mm gold band on the outside edge of the hood
BMus, MMus  white lining
BMus(Hons)  white lining; 25mm white band on the outside edge of the hood
BÜrbPlan  lime green lining
BÜrbPlan(Hons)  lime green lining; 25mm lime green band on the outside edge of the hood
MÄrch  lemon lining; two 25mm lemon bands, 25mm apart, on the outside edge of the hood
MÄrch(Prof)  lemon lining; 25mm lemon band on the outside edge of the hood
MÄrch(Prof)HerCons  lemon lining; 25mm turquoise band on the edge of the satin
MÄrch(Prof)UrbDes  lemon lining; 25mm tan band on the edge of the satin
MÄrch(Prof)UrbPlan(Prof)  lemon lining; 25mm light brown lining on the edge of the satin
MCommDance  jade green hood with 25mm dark brown band on the edge of the satin
MDanceSt  jade green lining; 25mm dark brown band on the outside edge of the hood
MDMT  jade green hood with 25mm tan band on the edge of the satin
MÜrbDes  lemon lining; 25mm chartreuse green band on the edge of the satin
MÜrbPlan  lime green lining; 25mm light brown band on the edge of the satin
MÜrbPlan(Prof)HerCons  lime green lining; 25mm turquoise band on the edge of the satin
MÜrbPlan(Prof)UrbDes  lime green lining; 25mm lemon band on the edge of the satin

Education and Social Work
BEd, MED  emerald green lining
BEd(Tchg)  emerald green lining
BEd(Tchg)(Hons)  emerald green lining; 25mm emerald green band on the outside edge of the hood
BEd(TESOL)  emerald green lining; 25mm dark brown band on the edge of the satin
BHUMserv  buff lining; 25mm light brown band on the edge of the satin
BPE  emerald green lining; 25mm light brown band on the edge of the satin
BSportHPE  emerald green lining; 25mm light brown band on the edge of the satin
BSW  buff lining
BSW(Hons)  buff lining; 25mm buff band on the outside edge of the hood
MCouns  buff lining; 25mm tan band on the edge of the satin
MEDLD  emerald green lining; 25mm tan band on the edge of the satin
MEDPRAC  emerald green lining with 25mm dark brown band on the edge of the satin
MSCL  buff lining; 25mm terracotta band on the edge of the satin

The hood for a Bachelor with Honours degree is as for the relevant Bachelors degree, with the addition of a 25mm ribbon band on the outside of the hood, alongside the fur. The colour of the ribbon band is the same colour as the lining.
The hood for a Bachelors degree for which the prerequisite is another Bachelors degree within the same Faculty, is as for a Bachelor with Honours degree, with the addition of a second 25mm band at a distance of 25mm from the first band. Both bands are the same colour as the lining.

When a new Bachelors or Masters degree is introduced within a Faculty, the main hood colour shall be that of the predominant existing colour used for that faculty's Bachelors or Masters qualifications. The hood for the new qualification may be distinguished through the use of bands or stripes of a width and colour to be determined by consultation between the Faculty and the Office of Graduation and approved by Council.

The hood for an Interfaculty Bachelors degree or Masters degree is lined with the predominant colour of the Faculty primarily responsible for the degree, with the addition of a 25mm ribbon band on the edge of the satin. Where there are two Faculties involved, the colour of the ribbon band is the predominant colour of the hood lining of the second Faculty. Where more than two Faculties are involved, the hood for the new qualification may be distinguished through the use of bands or stripes of a width and colour to be determined by consultation between the Faculty and the Office of Graduation and approved by Council.

d The gown for the degrees of Doctor of Clinical Psychology, Doctor of Education, Doctor of Medicine, Doctor of Music, Doctor of Musical Arts and Doctor of Pharmacy is as for the Cambridge Master of Arts with the addition of facings of 50mm wide satin. The hood is made wholly of satin and this and the facings of the gown are of the following colours for the different degrees:

<table>
<thead>
<tr>

</tbody>
</table>

e The gown for the degree of Doctor of Philosophy is as for the Cambridge Master of Arts, with the addition of 100mm satin facings, made up of 75mm of scarlet edged with 25mm of gold. The hood is made wholly of scarlet satin.

f The gown for the degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature, and Doctor of Science is as for the Cambridge Master of Arts, but is made of black silk, or scarlet silk or cloth. The hood is made wholly of satin, and is of the following colours for the different degrees:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

g The cap for all graduates other than Doctors and the officers of the University is a black trencher with a tassel. The cap for all Doctors other than officers of the University is as for the full dress Cambridge Doctor of Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

Note: The colour of the lining of the hood for the Degree of Master of Philosophy is that of the closest Masters degree to which the subject of the MPhil relates.

h The scarf for a diploma is to be made of the same black material as the gown with a band of colour in plain satin as in existing hoods down the centre edge. The colour is to match the degree cluster most closely associated with the diploma. The lining is to be the same colour as the band. The width of the scarf at the base is to be 140mm in total, the black being 100mm and the colour 40mm, and narrowing behind the neck. A band of the lining colour is to be stepped down from the inside edge to the outside edge of the black material at the base of each side of the scarf. The diploma scarves are as follows:

<table>

i The gown for the honorary degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature, Doctor of Music, Doctor of Science and Doctor of the University of Auckland is as for the Cambridge Master of Arts, but is made of scarlet satin. The hood is made wholly of satin, and is one of the following colours for the different degrees:

- Engineering: dark violet
- Laws: light blue
- Literature: pink
- Music: white
- Science: dark blue
- The University of Auckland: University blue

10 Regalia specifications for degrees and diplomas that have been deleted from this Statute can be found in previous editions of the University Calendar.

11 The gown for a Fellow of the University of Auckland will be an undergraduate gown of the colour University Blue bearing on the left front lapel the coat of arms of the University. No hood or cap shall be worn.

### Availability of Academic Dress

The Kate Edger Educational Charitable Trust trading as Academic Dress Hire owns a stock of academic gowns, hoods, scarves, trenchers and Tudor bonnets. These are available for hire Monday to Friday from 8.30am until 5pm throughout the year. Details may be obtained from Academic Dress Hire, 17 George Street, Newmarket, or www.academicdresshire.co.nz. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the graduation ceremony with their invitation to apply to graduate.

### The Degrees and Diplomas Statute 1991

At the University of Auckland this 18th day of February 1991.

Pursuant to section 194(1)(g) of the Education Act 1989, as amended by the Education Amendment Act 1990, the Council of the University of Auckland, after consulting Senate, hereby makes the following statute:

1 This Statute may be cited as the Degrees and Diplomas Statute 1991.

2 The Council shall have power to confer the following degrees on any person who completes a course of study in accordance with the provisions of the regulations for that qualification.

Bachelor of Advanced Science (Honours)  BAdvSci(Hons)  
Bachelor of Architectural Studies  BAS  
Bachelor of Arts  BA  
Bachelor of Arts (Honours)  BA(Hons)  
Bachelor of Biomedical Science (Honours)  BBiomedSc(Hons)  
Bachelor of Commerce  BCom  
Bachelor of Commerce (Honours)  BCom(Hons)  
Bachelor of Dance Studies  BDanceSt  
Bachelor of Dance Studies (Honours)  BDanceSt(Hons)  
Bachelor of Design  BDes

3 The Council shall have the power to confer the following honorary degrees in accordance with the provisions of the Honorary Degrees Regulations 1998.

Doctor of Engineering
Doctor of Literature
Doctor of Laws
Doctor of Music
Doctor of Science
Doctor of the University of Auckland
A Masters degree in any Faculty of the University

4 The Council may confer a degree or award a diploma previously included in a University of Auckland Degrees and Diplomas Statute on a person who had been enrolled in a programme leading to that qualification prior to its deletion from the Statute provided that person:
   a had completed a significant component of the course of study prior to the deletion of the degree or diploma and
   b has completed a course of study in accordance with the provisions of the regulations for that degree or diploma.

5 The Degrees Statute 1990 is hereby repealed.

---

The Honorary Degrees and Awards Statute 2019

Pursuant to sections 192 and 194 of the Education Act 1989 and section 20 of the University of Auckland Act 1961 Council of the University makes the following statute:

1 This Statute may be cited as the Honorary Degrees and Awards Statute 2019 and shall come into force on the 22 October 2019.

2 Council may at its discretion:
   a Confer the following honorary degrees:
      Doctor of Laws
      Doctor of Science
      Doctor of Literature
      Doctor of Music
Doctor of Engineering;
and
b Award the title ‘Fellow of the University’ (‘Fellowship’).

3 University Honours Committee of Council shall consider nominations and make recommendations to the Council for the conferring of any honorary degree or fellowship under this Statute.

4 University Honours Committee shall henceforth consist of:
   a the Chancellor who shall be the Chair of the Committee
   b the Vice-Chancellor
   c the Pro-Chancellor
   d one member appointed by Council
   e two members of Senate elected by Senate
   f the student member of Council.

5 Council may, from time to time, approve guidelines for the award of honorary degrees and fellowships and, in making its recommendations, University Honours Committee shall ensure that it complies with all those guidelines.

6 Council may also, in its discretion and on the recommendation of University Honours Committee:
   a award the title ‘Professor Emeritus’ to a retired member of the academic staff who held the office of a Professor of the University immediately before their retirement
   b award the title ‘Distinguished Professor Emeritus’ to a retired member of the academic staff who held the office of a Distinguished Professor of the University immediately before their retirement
   c award the title ‘University Librarian Emeritus’ to a retired member of staff who held the office of University Librarian immediately before their retirement and who has a record of long and distinguished service to the University as the University Librarian.

7.1 University Honours Committee may recommend to Council, for the conferment of an Honorary Doctor’s degree:
   a Any person who:
      (i) is academically distinguished, or has made a distinguished contribution in fields relevant to the University, and has, or has had, some intimate connection with the University
      or
      (ii) has shown strong interest in the well-being of the University by benefactions, or in other appropriate ways
      or
      (iii) is of international repute and is visiting, or has visited the University in an official capacity.

7.2 The contribution a current or retired staff member has made to the University in the course of their employment shall not be grounds for the award of an Honorary Doctor’s degree.

7.3 University Honours Committee may recommend to Council, for the conferment of a Fellowship, a person who:
   a has made a unique and valuable contribution to the University
   and
   b is not a permanent member of staff.

8 A nomination for the conferment of an honorary degree or a fellowship may be made by any three persons each of whom is a member of Council or of Senate or of both these bodies; and shall be made confidentially to the Vice-Chancellor in accordance with the relevant provisions of the guidelines in force under Clause 5 of this Statute.

9 The Honorary Degrees and Awards Statute 1998 is hereby repealed.

Guidelines for the Award of Honorary Degrees and Fellowships

1 A nomination for an honorary degree or for the award of a fellowship shall be made confidentially in writing to the Vice-Chancellor and signed by three persons each of whom shall be a member of the Council or of Senate or of both these bodies.

2 Each nomination shall be accompanied by a statement outlining in sufficient detail the career, standing and qualifications of the nominee and the grounds under Clauses 7.1, 7.2 or 7.3 for conferring the degree or awarding the fellowship.

3 The Vice-Chancellor shall refer each nomination and the accompanying statement to the University Honours Committee of Council.
4 If Council approves a recommendation that an honorary degree be conferred or a fellowship be awarded the Vice-Chancellor shall invite the nominee to accept the award.

5 The conferring of honorary doctorate degrees shall not be confined to a graduation ceremony but shall be arranged at the discretion of the Council.

6 The award of a fellowship shall be arranged at the discretion of the Council.

The Degree of Bachelor of Arts – BA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value

A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

Of the 360 points required for this degree, a student must pass:

a at least 300 points from courses listed in the Bachelor of Arts Schedule, including
   (i) at least 180 points in courses above Stage I, of which at least 90 points must be above Stage II
   (ii) courses in a minimum of three subjects listed in the Bachelor of Arts Schedule

b (i) two majors of 120 points each from the Bachelor of Arts Schedule, of which at least 45 points must be above Stage II in each major
   or
   (ii) a specialisation in Communication.

c 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

A student may include in their degree one or more modules of 45 points from one of the subjects available for modules in the Bachelor of Arts Schedule.

Courses passed for modules cannot also be counted for majors.

Up to 30 points may be taken from courses available for other programmes offered at this University.

General Education Exemptions

A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

either

(i) completed an undergraduate degree at a tertiary institution

or

(ii) commenced study for this degree at a tertiary institution before 1 January 2006

or

(iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

(i) 15 points from courses offered in the General Education Schedules

and

(ii) a further 15 points from courses available for this degree.

A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees

Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.
Special Cases
8 For language courses, enrolment of students with prior knowledge of the language is at the discretion of the Academic Head or nominee.
   a. Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.
   b. If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course.
   c. A student who has passed or been credited with a language acquisition course may not enrol for a course which precedes that course in the sequence of language acquisition courses.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

Bachelor of Arts (BA) Schedule

Subjects available:

**Academic English Studies and Linguistics**
- Stage I courses: ACADENG 101, LINGUIST 100, 101
- Stage II courses: ACADENG 210, LINGUIST 200, 201, 203
- Stage III courses: LANGTCHG 300, LINGUIST 300, 301, 305, 322, 324
- Requirement: 75 points: ACADENG 210, LINGUIST 200, 201, 203

**Ancient History**
The BA in Ancient History was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

- Major may include up to 45 points from GREEK or LATIN courses listed below
- Stage I courses: ANCHIST 100–110, CLASSICS 110–140, GREEK 100, 101, LATIN 100, 101
- Stage III courses: ANCHIST 300–379, CLASSICS 310–385, GREEK 300–310, LATIN 300–310
- Major must include:
  - at least 15 points from ANCHIST 100, 102, 103, 110
  - at least 75 points from ANCHIST 100–379 including at least 30 points from ANCHIST 300–379

**Anthropology**
- Stage I courses: ANTHRO 100–106, MĀORI 130
- Stage II courses: ANTHRO 200–268, MĀORI 230
- Stage III courses: ANTHRO 301–368, MĀORI 330, 396
- Requirement: at least 30 points from ANTHRO 100–104, 106
  - at least 15 points from ANTHRO 200, 201, 202, 203

**Art History**
- Stage I courses: ARTHIST 107–109, 114, 115, HUMS 101
- Stage II courses: ARTHIST 200–247, ANCIENT 280, PHIL 212
- Stage III courses: ARTHIST 300–347, HUMS 300
- Requirement: at least 45 points from ARTHIST 107, 109, 114, 115, 200–247
  - at least 45 points from ARTHIST 300–347
  - up to 30 points from ANCIENT 280, HUMS 101, 300, PHIL 212

**Asian Studies**
- Stage I courses: ASIAN 100, 140, CHINESE 130, HISTORY 103, JAPANESE 150, KOREAN 120
- Stage III courses: ANTHRO 327, 329, ASIAN 300, 302, 303, 309, CHINESE 303, COMPLIT 302, ECON 343, GEOG 322, HISTORY 313, 335, INTBUS 306, JAPANESE 308, 340, 341, 343, 370, 385, KOREAN 305, 341, MEDIA 301
- Requirement:
  - 30 points: ASIAN 100, 303

**Chinese**
- Stage I courses: ASIAN 100, CHINESE 100–178
- Stage II courses: ASIAN 200, 209, CHINESE 200–278, HISTORY 213, 225, MEDIA 201, POLITICS 211, 254
- Stage III courses: ASIAN 303, 304, 309, CHINESE 300–378, HISTORY 313, 335, MEDIA 301
- Requirement:
  - 45 points: ASIAN 100, 303
  - 30 points from ASIAN 200, 209, CHINESE 203, HISTORY 213, 225, MEDIA 201, 205, POLITICS 211, 254
  - 15 points from ASIAN 303, 304, 309, CHINESE 303, MEDIA 301, HISTORY 313, 335

**Classical Studies**
The BA in Classical Studies was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

- Major may include up to 45 points from GREEK or LATIN courses listed below
- Stage I courses: ANCHIST 102, 103, 110, CLASSICS 110–140, GREEK 100, 101, LATIN 100, 101
- Major must include:
  - at least 15 points from CLASSICS 110–385 including at least 30 points from CLASSICS 310–385
88	Regulations

Classical Studies and Ancient History
Stage I courses: ANCIENT 100-130, GREEK 100, 101, LATIN 100, 101
Stage II courses: ANCIENT 200-285, GREEK 200–204, LATIN 200–205
Stage III courses: ANCIENT 300-385, GREEK 300–310, LATIN 300–310
Requirement:

Stage III courses: COMPLIT 302–306, ENGLISH 340, EUROPEAN
300–378, FRENCH 302–379
Requirement:
•• 15 points: EUROPEAN 100
•• 15 points from FRENCH 204, 214, 218, 229, 239, 241, 244, 269, 279
•• 30 points from FRENCH 304, 305, 377, 378
•• at least 15 points from FRENCH 306, 308, 314, 320, 322, 329, 331,
339, 341, 344, 349, 379
•• up to 30 points from EUROPEAN 200–378


**Gender Studies**

**Stage I courses:** ANTHRO 106, ENGLISH 102, GENDER 101, POLITICS 109

**Stage II courses:** ANCIENT 216, ANTHRO 211, 241, ARTHIST 233, ASIAN 200, EUROPEAN 208, GERMAN 202–208, GERMAN 230, HISTORY 256, ITALIAN 203, PACIFIC 208, SOCIO 207, THEOREL 211

**Stage III courses:** ANCIENT 316, ANTHRO 342, 354, 357, 358, ARTHIST 333, ASIAN 303, COMMS 304, CRIM 303, ENGLISH 346, 354, EUROPEAN 304, GENDER 301–307, HISTORY 326, PACIFIC 307, PSYCH 319, SOCIO 315, 322, 326, THEOREL 311

Requirement:
- 30 points: GENDER 101, 208
- at least 15 points from GENDER 301–307

**Geography**

**Stage I courses:** EARTHSCI 105, GEOG 101–140

**Stage II courses:** GEOG 202–262, GISCI 241, 242

**Stage III courses:** GEOG 302–399, GISCI 341, 343

Requirement:
- 30 points: GEOG 101, 102
- 15 points: GEOG 250
- 15 points from GEOG 202, 205, 261, 262
- a further 15 points from GEOG 202, 205, 261, 262, GISCI 241, 242
- 15 points: GEOG 399

**German**

**Stage I courses:** EUROPEAN 100, GERMAN 106, 178

**Stage II courses:** COMPIT 200–210, EUROPEAN 200–278, GERMAN 201–291, HISTORY 217

**Stage III courses:** COMPIT 302–306, EUROPEAN 300–378, GERMAN 301–393, HISTORY 317

Requirement:
- 45 points: EUROPEAN 100, GERMAN 201, 301
- at least 30 points from GERMAN 100, 210–260, 291, 303–360, 391
- up to 30 points from COMPIT 200–306, EUROPEAN 200–278

**Greek**

**Stage I courses:** ANCIENT 102–130, GREEK 100, 101, LATIN 100, 101

**Stage II courses:** ANCIENT 200–285, GREEK 200–204, LATIN 200–205

**Stage III courses:** ANCIENT 300–385 GREEK 300–310, LATIN 300–310

Requirement:
- at least 30 points from GREEK 300–310

**History**

**Stage I courses:** ASIAN 100, EUROPEAN 100, HISTORY 103–108, HUMS 101

**Stage II courses:** ARTHIST 225, HISTORY 201–270, KOREAN 241, PACIFIC 214, POLITICS 229

**Stage III courses:** ARTHIST 225, HISTORY 300–370, HUMS 300, KOREAN 341, MĀORI 396, PACIFIC 314,

**Italian**

**Stage I course:** EUROPEAN 100

**Stage II courses:** ARTHIST 236, COMPIT 200, 202, 210, EUROPEAN 200, 207, ITALIAN 201, 202, 204–209, 211, 235–278

**Stage III courses:** ITALIAN 300, 301, 305–379

Requirement:
- 45 points: EUROPEAN 100, ITALIAN 201, 300
- at least 15 points from ITALIAN 202, 204, 209, 211
- at least 30 points from ITALIAN 301, 305, 330, 333–338, 355, 356
- up to 30 points from ARTHIST 236, COMPIT 200, 202, 210, EUROPEAN 200, 207

**Japanese**

**Stage I courses:** ASIAN 100, JAPANESE 130–150

**Stage II courses:** HISTORY 225, JAPANESE 222–292

**Stage III courses:** HISTORY 335, JAPANESE 300, 307–392

Requirement:
- 45 points: ASIAN 100, JAPANESE 150, 332
- 30 points from HISTORY 225, JAPANESE 222, 240–270, 292
- at least 45 points from JAPANESE 307–324, 340, 341, 343, 370, 381–392, HISTORY 335

**Korean**

**Stage I courses:** ASIAN 100, KOREAN 110–120

**Stage II courses:** ASIAN 204, 209, KOREAN 200–278

**Stage III courses:** ANTHRO 329, ASIAN 302, 309, KOREAN 300–378

Requirement:
- 45 points: ASIAN 100, KOREAN 120, 301
- 30 points from ASIAN 204, KOREAN 205, 241
- 15 points from ANTHRO 329, ASIAN 302, KOREAN 305, 341

**Latin**

**Stage I courses:** ANCIENT 102–130, GREEK 100, 101, LATIN 100, 101

**Stage II courses:** ANCIENT 200–285, GREEK 200–204, LATIN 200–205

**Stage III courses:** ANCIENT 300–385, GREEK 300–310, LATIN 300–310

Requirement:
- at least 30 points from LATIN 300–310

**Linguistics**

**Stage I courses:** LINGUIST 100, 101

**Stage II courses:** LINGUIST 200–209

**Stage III courses:** LINGUIST 300–324

Requirement:
- 15 points: LINGUIST 100
- 60 points: LINGUIST 200, 301

**Logic and Computation**

**Stage I courses:** COMPSCI 101, 120, 130, LINGUIST 100, MATHS 102, PHIL 101, 105

**Stage II courses:** COMPSCI 220, 225, LINGUIST 200, 201, LOGICOMP 201, MATHS 250, 253, 254, 255, PHIL 222, 216

**Stage III courses:** COMPSCI 320, 350, 367, LINGUIST 300, LOGICOMP 300–399, MATHS 315, 326, 328, PHIL 306, 315, 323

Requirement:
- 60 points: COMPSCI 120, 225, PHIL 101, 222

**Māori Studies**

**Stage I courses:** COOKIS 101, MĀORI 101–190, POLITICS 107

**Stage II courses:** ANTHRO 207, ARTHIST 238, COOKIS 201, 204, HISTORY 227, 260, MĀORI 200–292, MEDIA 210, POLITICS 229

**Stage III courses:** ARTHIST 338, COOKIS 300, 301, HISTORY 360, HUMS 300, MĀORI 301–396, MEDIA 325

Requirement:
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 301, 302

**Mathematics**

**Stage I courses:** MATHS 102–190

**Stage II courses:** COMPSCI 225, MATHS 202–270, STATS 210

**Stage III courses:** ENGSCI 391, MATHS 302–399, STATS 310, 325, 370

Requirement:
- 30 points from MATHS 120, 130, 162, 199
- 15 points: MATHS 250
- 30 points from MATHS 253, 255, 260, 270
- at least 45 points from MATHS 315, 320, 326, 328, 332, 333, 340, 353, 361, 362, 363
Media, Film and Television
Stage I courses: COMMS 100, 104, MEDIA 101
Stage II courses: CHINESE 203, COMMS 202, 204, FRENCH 239, GERMAN 230, KOREAN 205, MĀORI 202, MEDIA 201–236
Stage III courses: CHINESE 303, COMMS 300, 303, 304, FRENCH 339, KOREAN 305, MĀORI 303, MEDIA 301–336, SOCIOL 318
Requirement:
• 30 points: COMMS 100, MEDIA 101
• at least 30 points from MEDIA 201–236
• at least 30 points from MEDIA 301–336
Music
Stage I courses: ANTHRO 103, 106, MĀORI 190, MUS 103–111, 130, 143–162, PACIFIC 110
Stage II courses: ARTHIST 217, COOKIS 201, 204, PACIFIC 200–216, SAMOAN 201, TONGAN 201
Stage III courses: ARTHIST 317, COOKIS 300, 301, PACIFIC 300–316, SAMOAN 301, TONGAN 301
Requirement:
• 30 points: PACIFIC 100, 200
Philosophy
Stage I courses: PHIL 100–105
Stage II courses: PHIL 200–268
Stage III courses: PHIL 300–368
Politics and International Relations
Stage I courses: POLITICS 106–109
Stage II courses: COMMS 201, HISTORY 227, PHIL 205, POLITICS 201–254
Stage III courses: COMMS 304, MĀORI 330, 335, PHIL 310, POLITICS 300–356
Psychology
Stage I courses: PSYCH 108, 109, STATS 100–125
Stage II courses: PSYCH 200–209
Stage III courses: EXERSCI 304, PSYCH 300–320, 326–328, THEOREL 314
Requirement:
• 15 points from STATS 100–125
Screen Production
The BA in Screen Production was suspended in 2020. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

A major in this subject requires the approval of the Academic Head or nominee.
Stage I courses: COMMS 100, 104, MEDIA 101
Stage II courses: ANTHRO 212, COMMS 202, 203, MĀORI 202, MEDIA 201–224, 236, SCREEN 200, 201
Stage III courses: COMMS 301, 302, 307, MĀORI 303, MEDIA 301–328, 336, SCREEN 300–303
Requirement:
• 15 points: MEDIA 101
• 15 points from COMMS 100, 104
Social Science for Public Health
The BA in Social Science for Public Health was suspended in 2020. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

**Stage III courses:** COMMS 305, COMPLIT 303, ENGLISH 305, 309, 311, 323, 343, 344, 350, 354, 367, FTVMS 327

### Subjects available for modules:

#### Arts Scholars

*Only available to Arts Scholars*

**Courses:** ARTSCHOL 100, 200, 300

### Citizenship of Aotearoa New Zealand

**Courses:** HISTORY 107, 227, MĀORI 230, POLITICS 107, 229, SOCIOL 101  
**Requirement:**  
- 15 points from HISTORY 107, POLITICS 107, SOCIOL 101  
- 15 points from HISTORY 227, MĀORI 230, POLITICS 229

### Coding and Logic

**Courses:** PHIL 101, 216, 222, COMPSCI 101, 225  
**Requirement:**  
- 30 points: PHIL 101, COMPSCI 101  
- 15 points from PHIL 216, 222, COMPSCI 225

### Community Service in Youth Development

**Courses:** EDUC 200, 352, PACIFIC 206, SOCIOL 334, SOCYOUTH 300, YOUTHWRK 152  
**Requirement:**  
- 15 points: YOUTHWRK 152  
- 15 points: EDUC 200 or SOCYOUTH 300  
*Students enrolled in this module need to meet the requirements of the Children’s Act 2014*

### Critical Thinking

**Courses:** ENGLISH 318, PHIL 105, 225, POLITICS 209, SOCIOL 203  
**Requirement:**  
- 15 points: PHIL 105  
- 30 points from ENGLISH 318, PHIL 225, POLITICS 209, SOCIOL 203

### Greek

**Requirement:**  
- 45 points: GRÆEK 100, 101, 200

### Innovation and Entrepreneurship

**Requirement:**  
- 15 points from INNOVATE 100, 100G  
- 30 points: INNOVENT 204, 308

### Language Teaching and Learning

**Requirement:**  
- 15 points: LANGTCHG 101  
- 15 points: LANGTCHG 207  
- 15 points from a Language Acquisition course at any Stage in Chinese, Cook Islands Māori, French, German, Italian, Japanese, Korean, Māori, Russian, Samoan, Spanish or Tongan, as approved by the Academic Head or nominee

### Latin

**Requirement:**  
- 45 points: LATIN 100, 101, 200

### Māori, Pacific and Indigenous Knowledges

**Courses:** MĀORI 130, 202, 230, 396, PACIFIC 100, 200  
**Requirement:**  
- 30 points: MĀORI 130, PACIFIC 100

### Māori Language Skills

**Courses:** MĀORI 101, 103, 201, 203, 301, 302

### Modern Language: Chinese 1

**Courses:** CHINESE 100, 101, 178, 200, 201, 277, 278  
**Requirement:**  
- 15 points from CHINESE 100, 101, 178  
- 15 points from CHINESE 200, 201, 277, 278

### Modern Language: Chinese 2

**Courses:** CHINESE 200, 201, 277, 278, 300, 301, 302, 377, 378  
**Requirement:**  
- 15 points from CHINESE 200, 201, 277, 278  
- 15 points from CHINESE 300, 301, 302, 377, 378

### Modern Language: French 1

**Courses:** FRENCH 101, 102, 203, 204, 269, 277, 278  
**Requirement:**  
- 15 points from FRENCH 101, 102  
- 15 points from FRENCH 203, 204, 269, 277, 278

### Modern Language: French 2

**Courses:** FRENCH 203, 204, 269, 277, 278, 304, 305, 377, 378  
**Requirement:**  
- 15 points from FRENCH 203, 204, 269, 277, 278  
- 15 points from FRENCH 304, 305, 377, 378

### Modern Language: German 1

**Courses:** GERMAN 101, 102, 178, 200, 201, 277, 278  
**Requirement:**  
- 30 points from GERMAN 101, 102, 178, 200, 201, 277, 278  
- 15 points from GERMAN 200, 201, 277, 278

### Modern Language: German 2

**Courses:** GERMAN 200, 201, 277, 278, 301, 302, 306, 377, 378  
**Requirement:**  
- 15 points from GERMAN 200, 201, 277, 278  
- 15 points from GERMAN 301, 302, 306, 377, 378
Modern Language: Italian 1  
Courses: ITALIAN 100, 106, 107, 177, 200, 201, 277, 278  
Requirement:  
• 15 points from ITALIAN 100, 106, 107, 177  
• 15 points from ITALIAN 200, 201, 277, 278  

Modern Language: Italian 2  
Courses: ITALIAN 200, 201, 277, 278, 300, 301, 377, 378, 379  
Requirement:  
• 15 points from ITALIAN 200, 201, 277, 278  
• 15 points from ITALIAN 300, 301, 377, 378, 379  

Modern Language: Japanese 1  
Courses: JAPANESE 130, 131, 178, 231, 232, 277, 278  
Requirement:  
• 15 points from JAPANESE 130, 131, 178  
• 15 points from JAPANESE 231, 232, 277, 278  

Modern Language: Japanese 2  
Courses: JAPANESE 231, 232, 331, 332, 377, 378  
Requirement:  
• 15 points from JAPANESE 231, 232  
• 15 points from JAPANESE 331, 332, 377, 378  

Modern Language: Korean 1  
Courses: KOREAN 110, 111, 200, 201, 277, 278  
Requirement:  
• 15 points from KOREAN 110, 111  
• 15 points from KOREAN 200, 201, 277, 278  

Modern Language: Korean 2  
Courses: KOREAN 200, 201, 300, 301, 377, 378  
Requirement:  
• 15 points from KOREAN 200, 201  
• 15 points from KOREAN 300, 301, 377, 378  

Modern Language: Spanish 1  
Courses: SPANISH 104, 105, 178, 200, 201, 277, 278  
Requirement:  
• 15 points from SPANISH 104, 105, 178  
• 15 points from SPANISH 200, 201, 277, 278  

Modern Language: Spanish 2  
Courses: SPANISH 200, 201, 277, 278, 319, 321, 341, 342, 377, 378  
Requirement:  
• 15 points from SPANISH 200, 201, 277, 278  
• 15 points from SPANISH 319, 321, 341, 342, 377, 378  

Public Policy  
Courses: ECON 151, 152, 242, POLITICS 107, 222, 229  

Subjects available for minors:  

New admissions to the BA minors were suspended in 2017. Students who are enrolled in a minor should contact their faculty for advice regarding completion.  

Ancient History  
Minor must include:  
• at least 30 points from ANCHIST 100, 102, 103  
• at least 60 points from ANCHIST 100–379  

Russian Language Skills  
Courses: RUSSIAN 100, 101, 200, 201, 277, 278  
Requirement:  
• 15 points from RUSSIAN 100, 101  
• 15 points from RUSSIAN 200, 201, 277, 278  

Samoan Language Skills  
Requirement:  
• 45 points: SAMOAN 101, 201, 301  

Social and Cultural Research  
Courses: ANTHRO 309, SOCSCRES 200, 300, 301, SOCIOL 310  
Requirement:  
• 15 points: SOCSCRES 200  
• 30 points from ANTHRO 309, SOCSCRES 300, 301, SOCIOL 310  

Spatial Information and Analysis  
Courses: GEOG 140, 342, GISCI 241, 242, 341, 343  
Requirement:  
• 15 points: GEOG 140 or GISCI 140  
• 15 points from GISCI 241, 242  

Studies in Urban Wellbeing  
Courses: GEOG 104, 305, 307, SOCSCIPH 200, 300  
Requirement:  
• 30 points: GEOG 104, SOCSCIPH 200  

Sustainability  
Requirement:  
• 45 points: SUSTAIN 100, 200, 300  

Teaching in Society  
Courses: EDUC 105, 209, 300, 308  
Requirement:  
• 30 points: EDUC 105, 209  

Tongan Language Skills  
Requirement:  
• 45 points: TONGAN 101, 201, 301  

Visual Literacy: Researching Images  
Courses: ANTHRO 212, ARTHIST 115, 204, 217, COMMS 302, MEDIA 222  
Requirement:  
• 15 points: ARTHIST 115  
• 15 points from ANTHRO 212, COMMS 302, MEDIA 222  

Anthropology  
Minor must include:  
• at least 15 points from ANTHRO 100–104, 106  

Asian Studies  
Minor must include:  
• ASIAN 100, 200
Chinese
Minor must include:
• CHINESE 130 and 15 points from CHINESE 201, 302

Classical Studies
Minor must include:
• at least 60 points from CLASSICS 110–385

Criminology
Minor must include:
• CRIM 201, 202 and 15 points from CRIM 301, 302

Dance
Stage I courses: DANCE 101, 107, 112, 131
Stage II courses: DANCE 201, 210, 212, 231
Stage III courses: DANCE 302, 310, 331
Minor must include:
• DANCE 101, 107, 212
Note: Courses other than those listed above may be included in the BA only as part of the points permitted in Regulation 5 and not as part of the Dance minor

Drama
Minor must include:
• DRAMA 204

Economics
Minor must include:
• ECON 151, 152

Education
Minor must include:
• at least 30 points at Stage I in Education

Employment Relations and Organisation Studies
Minor must include:
• MGMT 211, 223
Note: Courses in Management other than those listed above may be included in the BA only as part of the points permitted in Regulation 5 and not as part of the Employment Relations and Organisation Studies minor

English
Minor must include:
• at least 15 points from ENGLISH 200, 210, 213, 264, 265, 302, 306, 310, 314, 340, 341, 353, 359 and no more than 15 points from LINGUIST 103, 203, 207

Ethnomusicology
Stage I courses: ANTHRO 103, 106
Stage II courses: ANTHRO 202, 217, 225, 234, LATINAM 216
Stage III courses: ANTHRO 301, 315, 323, 327, 329, 333, 357, LATINAM 301
Minor must include:
• ANTHRO 103, 202

European Studies
Minor must include:
• EUROPEAN 100. Students who have taken EUROPEAN 100 towards another subject in the BA must substitute another course from the European Studies schedule
• at least 15 points from EUROPEAN 200–278, 300–378
• at least 15 points at Stage II or above from either Group A: European Cultures and Languages or Group B: European History and Politics or Group C: Medieval and Early Modern European Studies
• at least 15 points at Stage II or above from a second Group different from the Group selected above

French
Minor must include:
• 15 points from FRENCH 204, 304

Gender Studies
Minor must include:
• GENDER 100, 208

Geography
Minor must include:
• at least 45 points from GEOG 101, 102, 202, and 15 points from GEOG 261, 262

German
Minor must include:
• GERMAN 200, 201

Italian
Minor must include:
• ITALIAN 107 or 177
Note: ITALIAN 203, 210, 212 and 232 may not be included in minor

Japanese
Minor must include:
• JAPANESE 150, 232 and at least 15 points from JAPANESE 222, 240–270, 307–324, 340, 341, 343, 370–392, HISTORY 242

Korean
Minor must include:
• KOREAN 201 or 250

Latin American Studies
Stage I courses: LATINAM 101, SPANISH 103, 105, POLITICS 106
Stage II courses: LATINAM 200, 201, 202, 216, SOCIOL 210
Stage III courses: LATINAM 301, 302, 303, 306, 320, 325, 350, POLITICS 355, SPANISH 313, ECON 342
Minor must include:
• SPANISH 103
• at least 15 points from LATINAM 201, 216, 303, 306, 320, 325
• no more than 3 courses in any one subject area, except by permission of the Programme Coordinator

Linguistics
Minor must include:
• 15 points from LINGUIST 100, 103

Logic and Computation
Minor must include:
• COMPSCI 101 or 107, 225, PHIL 101, 222

Mathematics
Minor must include:
• at least 30 points from MATHS 253, 255, 260

Media, Film and Television
Minor must include:
• COMMS 100, FTVM 101 and at least 30 points from FTVM 202–239
### Pacific Studies
Minor must include:
- PACIFIC 100, 200

### Screen Production
A minor in this subject requires the approval of the Academic Head or nominee.

Minor must include:
- COMMS 100, FTVM 101, SCREEN 200, 201

### Social Science for Public Health
Minor must include:
- SOCSCHIP 200, 300 and at least 15 points from POPLHLTH 101, 102, 203, 204, 207

### Spanish
Minor must include:
- SPANISH 105

### Statistics
Minor must include:
- at least 60 points from STATS 101-390

### Teaching English to Speakers of Other Languages
Minor must include:
- LANGTCHG 101, 202, 207, 301

### Theological and Religious Studies
Minor must include:
- at least 15 points from THEOREL 100–106 and THEOREL 201

### Additional courses available for the BA:

The Degree of Bachelor of Theology – BTheol

New admissions into the Degree of Bachelor of Theology were suspended in 2014. Students who have a current enrolment in this qualification should contact their faculty regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:
   a at least 255 points from courses listed in the Bachelor of Theology Schedule, including 180 points above Stage I of which at least 75 points must be above Stage II
   and
   b a student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
   c Up to 45 points may be taken from courses in the Bachelor of Arts Schedule with the approval of the Academic Head or nominee.
   d Up to 30 points may be taken from courses in other Bachelor programmes offered at this University.

General Education Exemptions

3 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree with credit from another tertiary institution of 240 points or more.

   b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
   (ii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

   c A student admitted to this degree with credit from another tertiary institution of between 120 and 235 points inclusive must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses available for this degree.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees

4 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

6 These regulations and/or schedule have been amended with effect from 1 January 2014.

Bachelor of Theology (BTheol) Schedule

| Stage I courses: THEOLOGY 101–107, 135, 136, 175, 176 |

BTheol must include:
- 60 points: THEOLOGY 103, 104, 107, 201
- 15 points from THEOLOGY 301, 303, 304, 306, 308, 330
- 60 points from THEOLOGY 310–313, 315, 319, 321–327, 331–335, 354, 355
The Degree of Bachelor of Arts (Honours) – BA(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this programme, a student must have:
   a. completed the requirements for the Degree of Bachelor of Arts or Bachelor of Global Studies from this University or an equivalent qualification as approved by Senate or its representative
   and
   b. passed the specified prerequisite courses for one of the subjects listed in the Bachelor of Arts (Honours) Schedule with a Grade Point Average of 5.0 or higher in 45 points above Stage II in that subject, or the equivalent as approved by Senate or its representative
   and
   c. passed the specified prerequisite courses as listed in the Bachelor of Arts (Honours) Schedule for the intended subject, or the equivalent as approved by Senate or its representative.

2. A student who has not completed all the requirements for the Degree of Bachelor of Arts or Bachelor of Global Studies but who has:
   a. passed courses with a total value of at least 345 points for that degree
   and
   b. achieved a Grade Point Average of 5.0 or higher in 45 points above Stage II in the subject intended for the Bachelor of Arts (Honours)
   and
   c. passed the specified prerequisite courses as listed in the Bachelor of Arts (Honours) Schedule for the intended subject
   may, with the approval of the relevant Academic Head or nominee, enrol for this degree. The remaining courses for the Degree of Bachelor of Arts or Bachelor of Global Studies must be passed within the first semester of enrolment for the Bachelor of Arts (Honours). The Degree of Bachelor of Arts (Honours) will not be awarded until the requirements for the Degree of Bachelor of Arts or Bachelor of Global Studies have been completed.

Note: Applicants to Preparatory Clinical Psychology must be able to demonstrate professional attributes suitable for becoming a clinical psychologist. A written supplementary application, personal references and an interview will normally be required.

Duration and Total Points Value
3. A student enrolled for this degree must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4. The total enrolment for this degree must not exceed 160 points.

Structure and Content
5. Of the 120 points required for this degree, a student must pass:
   a. at least 120 points in one of the subjects listed in the Bachelor of Arts (Honours) Schedule
   or
   b. (i) at least 90 points in one of the subjects listed in the Bachelor of Arts (Honours) Schedule
   and
   (ii) up to 30 points may be taken from other subjects listed in the Bachelor of Arts (Honours) Schedule, or from other 700 level courses offered at this University. The approval of all Academic Heads or nominees concerned is required.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7. The programme for each student requires the approval of the relevant Academic Head or nominee and the Dean of Faculty of Arts.

Dissertation / Research Essay / Research Project
8. a. The dissertation or research essay or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b. The dissertation or research essay or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.
The dissertation or research essay or research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

**Variations**
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Honours**
10 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

**Reassignment**
11 A student may apply to reassign courses passed from this programme to the Graduate Diploma in Arts or the Postgraduate Diploma in Arts.

**Amendment**
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

Spanish

**Prerequisite:** A major in Spanish, or an equivalent subject approved by the Academic Head or nominee including at least two non-language acquisition courses, one of which must be at Stage III or equivalent courses approved by the Academic Head or nominee

**Requirement:**
- 90 points from SPANISH 700–725, 728–778
- 30 points: SPANISH 782 Research Project

Statistics

**Prerequisite:** A major in Statistics, or an equivalent subject approved by the Academic Head or nominee including STATS 210 or 225, or an equivalent course approved by the Academic Head or nominee

**Requirement:**
- 90 points from STATS 701–703, 705, 708–780, 782–787
- 30 points: STATS 781 Research Project

The Degree of Master of Arts – MA

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1. In order to be admitted to this programme, a student needs to have:
   - **either**
     a. (i) completed the requirements for the Degree of Bachelor of Arts from the University of Auckland or an equivalent qualification approved by Senate or its representative
     and
     (ii) passed the specified prerequisite courses for one of the subjects listed in the Master of Arts Schedule with a Grade Point Average of 5.0 in 45 points above Stage II
   - **or**
     b. (i) completed the requirements for the Degree of Bachelor of Arts (Honours) from the University of Auckland in the intended subject with a Grade Point Average of 5.0 or higher over the programme
     - **or**
     (ii) completed the requirements for the Postgraduate Diploma in Arts or the Postgraduate Diploma in Translation Studies from this University in the intended subject with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
     - **or**
     (iii) completed the requirements for a qualification approved by Senate or its representative as equivalent to the degree of Bachelor of Arts (Honours) or Postgraduate Diploma in Arts, with a Grade Point Average of 5.0 over the programme.

2. A student who has passed courses with a total value of only 345 points towards the Degree of Bachelor of Arts and has passed:
   - **a** all other requirements for the degree
   - **and**
   - **b** the specified prerequisite courses for one of the subjects listed in the Master of Arts Schedule with a Grade Point Average of 5.0 or higher in at least 45 points above Stage II in that subject
   may, with the approval of the relevant Academic Head or nominee, enrol for this degree. The requirements for the Degree of Bachelor of Arts must be completed during the first semester of initial enrolment for the Degree of Master of Arts. Should these requirements not be completed within that semester, enrolment for the Degree of Master of Arts will be suspended until they have been completed.

**Duration and Total Points Value**

3. A student admitted to this degree under Regulation 1a or 2 must:
   - **a** pass courses with a total value of 240 points
   - **and**
   - **b** complete within the time limit specified in the General Regulations – Masters Degrees
   - **and**
   - **c** not exceed 280 points for the total enrolment for this degree.

4. A student admitted to this degree under Regulation 1b must:
   - **a** pass courses with a total value of 120 points
   - **and**
   - **b** complete within the time limit specified in the General Regulations – Masters Degrees
   - **and**
   - **c** not exceed 160 points for the total enrolment for this degree.

**Structure and Content**

5. A student enrolled for this degree must complete the requirements for one of the subjects as listed in the Master of Arts Schedule.
b A student enrolled for this degree must complete:
   either
   (i) for a Research Master of Arts, a Thesis or Research Portfolio as specified in the subject requirements
   or
   (ii) for a Taught Master of Arts, a research component of at least 45 points as specified in the subject requirements.

c A student who has to complete 240 points for this degree must achieve, in the first 120 points of enrolment, an average grade of B, or, for a research Masters, any grade specified for enrolment in a thesis or research portfolio for the subject. If the grade required is not achieved, enrolment for the MA cannot continue.

d A student who has to complete 240 points may include, with the approval of the Academic Head or nominee, up to 60 points from courses in other Master of Arts subjects or other 700 level courses offered at this University, or from appropriate courses from an approved programme of study at a university outside New Zealand approved by the Academic Head or nominee.

e A student who has to complete 120 points may include up to 30 points, with the approval of each of the Academic Heads or nominees, from courses in other Master of Arts subjects or other 700 level courses offered at this University.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Portfolio / Research Project / Dissertation
7 a A thesis, research portfolio, or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis or dissertation topic must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.

c The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student who does not meet the requirements of this degree may apply to reassign courses passed for the Master of Arts to another qualification for which they can meet the requirements. This will normally be a Postgraduate Diploma in Arts for all subjects except Language Teaching and Learning, for which courses passed will be reassigned to the Postgraduate Diploma in Language Teaching.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction / Merit
10 This degree may be awarded with either Honours, Distinction or Merit in accordance with the General Regulations – Master Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Arts (MA) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following subjects:

<table>
<thead>
<tr>
<th>Ancient History</th>

</table>
**Applied Linguistics**

Students who are not native speakers of English and who have not had at least two years of secondary or tertiary education with English as the language of instruction will need a minimum of 6.5 IELTS (Academic) or equivalent.

Prerequisite subject: Language Teaching, Linguistics, TESOL, or a language, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: LANGTCHG 796 Thesis or LINGUIST 796 Thesis

Taught Masters
- 75 points from LANGTCHG 700–740, 746, 747, 751, 752, 754, 756, 760–765, LINGUIST 724, 731
- 45 points: LANGTCHG 757, 790 Research Project, or LINGUIST 792 Dissertation

**Art History**

Prerequisite subject: Art History, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: ARTHIST 795 Research Portfolio or ARTHIST 796 Thesis

Taught Masters
- 75 points from ARTHIST 700–738, 793, MUSEUMS 700, 702, 704, 705, 750
- 45 points: ARTHIST 792 Dissertation

**Asian Studies**

Prerequisite subject: Asian Studies, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: ASIAN 796 Thesis or ASIAN 797 Research Portfolio or
- 30 points from ASIAN 708–758, CHINESE 730, 732–742, COMPLIT 703, 705, HISTORY 707, 737, JAPANESE 702, 703, 706, 707, 745, 747, 748, POLITICS 751
- up to 30 points of postgraduate level study from an approved exchange with an overseas institution
- 90 points: ASIAN 793 Thesis

**Chinese**

Prerequisite subject: Chinese, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: CHINESE 796 Thesis or CHINESE 797 Research Portfolio or
- 30 points from ASIAN 702, 752–759, CHINESE 730, 732–778, TRANSLAT 716
- 90 points: CHINESE 793 Thesis

Taught Masters
- 75 points from ASIAN 702, 752–759, CHINESE 730, 732–778, TRANSLAT 716
- 45 points: CHINESE 792 Dissertation

**Criminology**

Prerequisite subject: Criminology, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: CRIM 796 Thesis or CRIM 797 Research Portfolio

**Development Studies**

Prerequisite subject: Anthropology, Asian Studies, Development Studies, Economics, Education, Geography, Global Studies, History, Māori Studies, Pacific Studies, Politics and International Relations or Sociology, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: DEVELOP 796 Thesis or DEVELOP 797 Research Portfolio
- 60 points: DEVELOP 701, 709, 710, 712
- 45 points: DEVELOP 792 Dissertation or DEVELOP 793 Research Portfolio

**Drama**

Prerequisite subject: Drama, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: DRAMA 796 Thesis or DRAMA 797 Research Portfolio or
- 30 points from DRAMA 708, 710, 711, 716–726, 728, 730, EDUC 737, 756, ENGLISH 703, 706, 709, 711
- 90 points: DRAMA 793 or 795 Thesis

Taught Masters
- 120 points from DRAMA 708–711, 716–726, 728–730, EDUC 737, 756, ENGLISH 703, 706, 709, 711, including at least 45 points from DRAMA 709, 717, 770, 792 Dissertation

**Economics**

Prerequisite subject: Economics, or an equivalent subject approved by the Academic Head or nominee including ECON 701, 711 and either ECON 721 or 723 or equivalent courses approved by the Academic Head or nominee

Requirement:

Research Masters
- 30 points from ECON 701–783
- 90 points: ECON 794 Thesis

Taught Masters
- 75 points from ECON 701–783
- 45 points: ECON 792 Dissertation

**Education**

Prerequisite subject: Education, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: EDUC 796 Thesis or EDUC 797 Research Portfolio

**Employment Relations and Organisation Studies**

Prerequisite subject: Employment Relations and Organisation Studies, or an equivalent subject approved by the Academic Head or nominee including BUSINESS 710 and BUSINESS 704 or 705 or equivalent courses approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: GLMI 796 Thesis

**English**

Prerequisite subject: English, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 120 points: ENGLISH 796 Thesis or ENGLISH 797 Research Portfolio or
- 30 points from DRAMA 708, ENGLISH 700–787
• 90 points: ENGLISH 793 Thesis
  Taught Masters
• 75 points from DRAMA 708, ENGLISH 700–787
• 45 points: ENGLISH 792 Dissertation

French
Prerequisite subject: French, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: FRENCH 796 Thesis or FRENCH 797 Research Portfolio or
• 30 points from FRENCH 701–778
• 90 points: FRENCH 793 Thesis
  Taught Masters
• 75 points from FRENCH 701–778
• 45 points: FRENCH 792 Dissertation

Gender Studies
Prerequisite subject: Gender Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GENDER 796 Thesis or GENDER 797 Research Portfolio

Geography
Prerequisite subject: Geography, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GEOG 796 Thesis

German
Prerequisite subject: German, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GERMAN 796 Thesis or GERMAN 797 Research Portfolio or
• at least 15 points from GERMAN 703–778
• up to 15 points from COMPLIT 701–778
• 90 points: GERMAN 793 Thesis
  Taught Masters
• at least 60 points from GERMAN 703–778
• up to 15 points from COMPLIT 701–778
• 45 points: GERMAN 792 Dissertation

Greek
Prerequisite subject: Greek, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GREEK 796 Thesis or GREEK 797 Research Portfolio or
• 30 points from ANCENT 719, 756, GREEK 709
• 90 points: GREEK 794 Thesis

History
Prerequisite subject: History, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: HISTORY 796 Thesis or HISTORY 797 Research Portfolio

Italian
Prerequisite subject: Italian, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: LINGUIST 796 Thesis or LINGUIST 797 Research Portfolio or
• 30 points from LINGUIST 700–743

Japanese
Prerequisite subject: Japanese, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: JAPANESE 796 Thesis or JAPANESE 797 Research Portfolio or
• 30 points from ASIAN 702, 752–759, HISTORY 707, JAPANESE 702–745, 747, 748
• up to 30 points of postgraduate level study from an approved exchange with an overseas institution
• 90 points: JAPANESE 793 Thesis
  Taught Masters
• 75 points from ASIAN 752–759, HISTORY 707, JAPANESE 702–745, 747, 748
• 45 points: JAPANESE 792 Dissertation

Languages and Literature
Prerequisite subject: Languages and Literature, or one of the subjects listed below, or an equivalent subject approved by the Academic Head or nominee and 90 points in another of the subjects listed below including a language competence course at Stage III or equivalent language competence approved by the Academic Head or nominee
Subjects: Chinese, English, French, German, Greek, Italian, Japanese, Korean, Latin, Māori Studies, Spanish
Requirement:
Research Masters
• 120 points: LANGLIT 796 Thesis or LANGLIT 797 Research Portfolio or
• 30 points from 700 level courses in another of the subjects available
• 90 points: Thesis in one of the subjects available
  Taught Masters
• at least 15 points from 700 level courses in one of the subjects available
• at least 30 points from 700 level courses in another of the subjects available or Comparative Literature
• at least 30 points from appropriate 700 level language competence courses, in a language other than the student's first language for this degree if those points have not been taken in that language for the BA(Hons) or PGDipArts
• 45 points: LANGLIT 792 Dissertation

Latin
Prerequisite subject: Latin, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: LATIN 796 Thesis or LATIN 797 Research Portfolio or
• 30 points from 700 level courses in another of the subjects available
• 90 points: LATIN 794 Thesis

Linguistics
Prerequisite subject: Linguistics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: LINGUIST 796 Thesis or LINGUIST 797 Research Portfolio or
• 30 points from LINGUIST 700–743
• 90 points: LINGUIST 793 Thesis
  Taught Masters
  • 75 points from LINGUIST 700–743
  • 45 points: LINGUIST 792 Dissertation

Logic and Computation
Prerequisite subject: Logic and Computation, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: LOGICOMP 796 Thesis

Māori Studies
Prerequisite subject: Māori Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: MĀORI 796 Thesis or MĀORI 797 Research Portfolio

Mathematics
Prerequisite subject: Mathematics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: MATHS 796 Thesis
  or
  • 30 points from MATHS 701–770, 777, 781–789, 792–794 or approved 700 level courses in related subjects with the approval of the Academic Heads or nominees
  • 90 points: MATHS 798 Research Portfolio

Media and Communication
Prerequisite subject: Communication or Media, Film and Television, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: MEDIA 796 Thesis or MEDIA 797 Research Portfolio
  Taught Masters
  • 60 points from COMMS 700–713, MEDIA 704–746
  • 60 points: MEDIA 793 Dissertation

Museums and Cultural Heritage
Prerequisite subject: Museums and Cultural Heritage, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: MUSEUMS 796 Thesis or MUSEUMS 797 Research Portfolio

Music
Prerequisite subject: Music, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: MUS 796 Thesis

Pacific Studies
Prerequisite subject: Pacific Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: PACIFIC 796 Thesis or PACIFIC 797 Research Portfolio
  Taught Masters
  • 75 points from ARTHIST 730, 732, DEVELOP 702, EDUC 710, 712, ENGLISH 700, GEOG 715, HISTORY 712, INDIGEN 711, 712, MĀORI 700, MUSEUMS 705, PACIFIC 701–715
  • 45 points: PACIFIC 792 Dissertation
  or
  • 60 points from ARTHIST 730, 732, EDUC 710, 712, ENGLISH 700, GEOG 715, INDIGEN 711, 712, MĀORI 700, 710, 711, PACIFIC 701–712
  • 60 points: PACIFIC 793 Dissertation

Philosophy
Prerequisite subject: Philosophy, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: PHIL 796 Thesis or PHIL 797 Research Portfolio
  Taught Masters
  • 75 points from PHIL 701, 720–759, 765, 768, 769, 774–777
  • 45 points: PHIL 792 Dissertation

Politics and International Relations
Prerequisite subject: Politics and International Relations, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: POLITICS 796 Thesis
  or
  • 30 points from POLICY 701, 702, POLITICS 700–729, 733–777
  • 90 points: POLITICS 794 Thesis

Psychology
Prerequisite subject: Psychology, or an equivalent subject approved by the Academic Head or nominee including PSYCH 306, or an equivalent course approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: PSYCH 796 Thesis

Screen Production
Prerequisite subject: Screen Production, or equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: SCREEN 797 Project

Sociology
Prerequisite subject: Sociology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: SOCIOL 796 Thesis or SOCIOL 797 Research Portfolio
  Taught Masters
  • 75 points from GENDER 700, SOCIOL 700–790
  • 45 points: SOCIOL 792 Dissertation
  or
  • 60 points from GENDER 700, SOCIOL 700–790
  • 60 points: SOCIOL 794 Dissertation

Spanish
Prerequisite subject: Latin American Studies or Spanish, or an equivalent subject approved by the Academic Head or nominee
Requirement:
  Research Masters
  • 120 points: SPANISH 796 Thesis or SPANISH 797 Research Portfolio
  or
  • 30 points from SPANISH 718–778
  • 90 points: SPANISH 793 Thesis
  Taught Masters
  • 75 points from SPANISH 718–778
  • 45 points: SPANISH 792 Dissertation
A student who has to complete 240 points must satisfy the requirements for one of the following subjects:

### Ancient History
**Prerequisite subject:** Ancient History, Classical Studies, Classical Studies and Ancient History, or a major in Greek or Latin including 90 points in Ancient History or Classical Studies, or the equivalent approved by the Academic Head or nominee. Students must have passed 15 points from ANCIENT 220, GREEK 101, LATIN 101, or the equivalent approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 120 points from ANCIENT 719–792
- Research Masters: 120 points: ANCIENT 796 Thesis or ANCIENT 797 Research Portfolio or 150 points from ANCIENT 719–792
- 90 points: ANCIENT 794 Thesis

### Anthropology
**Prerequisite subject:** Anthropology or Anthropological Science, or an equivalent subject approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 120 points from ANTHRO 700–782 including 30 points from ANTHRO 700, 718, 726, 727, 733
- 120 points: ANTHRO 796 Thesis or ANTHRO 797 Research Portfolio
- Taught Masters: 180 points from ANTHRO 700–782
- 60 points: ANTHRO 790 Dissertation or 195 points from ANTHRO 700–782
- 45 points: ANTHRO 792 Dissertation

### Applied Linguistics
**Prerequisite subject:** Language Teaching, TESOL, Linguistics or a language, or an equivalent subject approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 30 points from CHINESE 739 or 740, 741 or 742, FRENCH 717, LANGTCHG 740, 760
- 75 points from LANGTCHG 700–740, 746, 747, 751, 752, 754, 756, 760–765, LINGUIST 720–722, 724, 726, 730, 731
- 135 points: LANGTCHG 757, LANGTCHG 796 Thesis, or LINGUIST 709, LINGUIST 796 Thesis
- Taught Masters: 30 points from CHINESE 739 or 740, 741 or 742, FRENCH 717, LANGTCHG 740, 760
- 45 points: LANGTCHG 757, 790 Research Project, or LINGUIST 792 Dissertation

### Art History
**Prerequisite subject:** Art History, or an equivalent subject approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 120 points from ARTHIST 700–738, 793, MUSEUMS 700, 702, 704, 705, 750
- 120 points: ARTHIST 795 Research Portfolio or ARTHIST 796 Thesis
- Taught Masters: 195 points from ARTHIST 700–738, 793, MUSEUMS 700, 702, 704, 705, 750
- 45 points: ARTHIST 792 Dissertation

### Asian Studies
**Prerequisite subject:** Chinese, Japanese or Korean, or an equivalent subject approved by the Academic Head or nominee, or a major in Asian Studies or an equivalent subject approved by the Academic Head or nominee with relevant language skills approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 120 points from ASIAN 708–780, CHINESE 724–742, COMPLIT 703, 705, HISTORY 707, 737, JAPANESE 702–748, POLITICS 751
- 120 points: ASIAN 796 Thesis or ASIAN 797 Research Portfolio or at least 105 points from ASIAN 708–780, CHINESE 724–742, 732–737, COMPLIT 703, 705, HISTORY 707, 737, JAPANESE 702–745, 747, 748, POLITICS 751
- up to 45 points of postgraduate level study from an approved exchange with an overseas institution
- 90 points: ASIAN 793 Thesis

### Chinese
**Prerequisite subject:** Chinese, or an equivalent subject approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 120 points from ASIAN 702, 752–759, CHINESE 724–782, TRANSLAT 716
- 120 points: CHINESE 796 Thesis or CHINESE 797 Research Portfolio or
- 150 points from ASIAN 702, 752–759, CHINESE 724–782, TRANSLAT 716
- 90 points: CHINESE 793 Thesis
- Taught Masters: 195 points from ASIAN 702, 752–759, CHINESE 724–782, TRANSLAT 716
- 45 points: CHINESE 792 Dissertation

### Criminology
**Prerequisite subject:** Criminology, or an equivalent subject approved by the Academic Head or nominee.

**Requirement:**
- Research Masters: 30 points: CRIM 700
• 90 points from CRIM 701–710, 780, SOCIOL 703, 713, 740, 742, 747
• 120 points: CRIM 796 Thesis or CRIM 797 Research Portfolio

Development Studies
Prerequisite subject: Anthropology, Asian Studies, Development Studies, Economics, Education, Geography, Global Studies, History, Māori Studies, Pacific Studies, Politics and International Relations or Sociology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 60 points: DEVELOP 701, 709, 710, 712
• 60 points from ANTHRO 753, CHINESE 727, DEVELOP 702–706, 713–717, ECON 771, EDUC 705, 710, 766, ENVMGT 744, 746, GEOG 714, 715, INDIGEN 711, 712, MĀORI 732, 743, PACIFIC 700, POLITICS 707, 710, 724, 731, 750, 751, SOCIOL 700, 713, 718, 732, 735
• 120 points: DEVELOP 796 Thesis
or
• 60 points: DEVELOP 701, 709, 710, 712
• 90 points from ANTHRO 753, 754, CHINESE 727, DEVELOP 702–706, 713–717, ECON 771, EDUC 705, 710, 766, ENVMGT 744, 746, GEOG 714, 715, INDIGEN 711, 712, MĀORI 732, 743, PACIFIC 700, POLITICS 707, 724, 729, 750, 751, 754, 763, SOCIOL 700, 713, 718, 732, 735
• 90 points: DEVELOP 794 Thesis

Taught Masters
• 60 points: DEVELOP 701, 709, 710, 712
• 135 points from ANTHRO 753, CHINESE 727, DEVELOP 702–706, 713–717, ECON 771, EDUC 705, 710, 766, ENVMGT 744, 746, GEOG 714, 715, INDIGEN 711, 712, MĀORI 732, 743, PACIFIC 700, POLITICS 707, 710, 724, 731, 750, 751, SOCIOL 700, 713, 718, 732, 735
• 45 points: DEVELOP 792 Dissertation or DEVELOP 793 Research Portfolio

Drama
Prerequisite subject: Drama, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points from DRAMA 708–711, 716–726, 728–790, ENGLISH 703, 706, 709, 711
• 120 points: DRAMA 796 Thesis or DRAMA 797 Research Portfolio
or
• 150 points from DRAMA 708–711, 716–726, 728–790, ENGLISH 703, 706, 709, 711
• 90 points: DRAMA 793 or 795 Thesis

Taught Masters
• 240 points from DRAMA 708–711, 716–726, 728–730, EDUC 737, 756, ENGLISH 703, 706, 709, 711, including at least 45 points from DRAMA 709, 717, 770, 792 Dissertation

Economics
Prerequisite subject: Economics, or an equivalent subject approved by the Academic Head or nominee including ECON 301, 311, 321 or equivalent courses approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points: ECON 701, 711
• 15 points from ECON 721, 723
• 105 points from ECON 702–704
• 90 points: ECON 794 Thesis

Taught Masters
• 30 points: ECON 701, 711
• 15 points from ECON 721, 723
• 150 points from ECON 702–704
• 45 points: ECON 792 Dissertation

Education
Prerequisite subject: Education, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points from EDPROFM 700, 702, EDPROFST 754, EDUC 700–791
• 120 points: EDUC 796 Thesis or EDUC 797 Research Portfolio

Employment Relations and Organisation Studies
Prerequisite subject: Employment Relations and Organisation Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 15 points: BUSINESS 710
• 15 points from BUSINESS 704, 705
• 60 points from GLMI 705–708
• 30 points from BUSINESS 704, 705, 711, 712, GLMI 701–704, 709–712, 750, 751
• 120 points: GLMI 796 Thesis

English
Prerequisite subject: English or Writing Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points from DRAMA 708, ENGLISH 700–787
• 120 points: ENGLISH 796 Thesis or ENGLISH 797 Research Portfolio
or
• 150 points from DRAMA 708, ENGLISH 700–787
• 90 points: ENGLISH 793 Thesis

Taught Masters
• 195 points from DRAMA 708, ENGLISH 700–787
• 45 points: ENGLISH 792 Dissertation

French
Prerequisite subject: French, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points from FRENCH 701–790
• 120 points: FRENCH 796 Thesis or FRENCH 797 Research Portfolio
or
• 150 points from FRENCH 701–790
• 90 points: FRENCH 793 Thesis

Taught Masters
• 195 points from FRENCH 701–790
• 45 points: FRENCH 792 Dissertation

Gender Studies
Prerequisite subject: Gender Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points: GENDER 700
• 90 points from DEVELOP 702, DRAMA 708, EDUC 714, ENGLISH 702, 721, 731, FRENCH 729, GENDER 701–706, 780, 785, HISTORY 706, 707, 725, 736, MEDIA 711, POLITICS 707, 724, POPLHLTH 769, PSYCH 755, SOCHFAM 700, SOCHLTH 756, SOCIOL 728, 735, SPANISH 722, 738
• 120 points: GENDER 796 Thesis

Geography
Prerequisite subject: Geography, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 15 points: ENVSCI 701
• 105 points from EARTHSCI 705, 713, ENVMTG 741, 743, 744, ENVSCI 704, 713, 737, 738, GEOG 712–779
• 120 points: GEOG 796 Thesis

German
Prerequisite subject: German, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points: GERMAN 703, 704
• 90 points from GERMAN 705–778
• 120 points: GERMAN 796 Thesis or GERMAN 797 Research Portfolio or
• 30 points: GERMAN 703, 704
• 120 points from GERMAN 705–778
• 90 points: GERMAN 793 Thesis
Taught Masters
• 30 points: GERMAN 703, 704
• 165 points from GERMAN 705–778
• 45 points: GERMAN 792 Dissertation

Greek
Prerequisite subject: Greek, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• at least 90 points from GREEK 707, 709, 714, 792
• up to 30 points from ANCIENT 719, 749–751, 756
• 120 points: GREEK 796 Thesis or GREEK 797 Research Portfolio or
• 120 points: GREEK 707, 709, 714, 792
• 30 points from ANCIENT 719, 749–751, 756
• 90 points: GREEK 794 Thesis

History
Prerequisite subject: History, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points: HISTORY 737
• 90 points from HISTORY 700–780
• 120 points: HISTORY 796 Thesis or HISTORY 797 Research Portfolio

Italian
Prerequisite subject: Italian, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points: ITALIAN 700
• 90 points from COMPLIT 705, ITALIAN 702–782
• 120 points: ITALIAN 796 Thesis or ITALIAN 797 Research Portfolio or
• 30 points: ITALIAN 700
• 120 points from COMPLIT 705, ITALIAN 702–782
• 90 points: ITALIAN 793 Thesis
Taught Masters
• 30 points: ITALIAN 700
• 165 points from COMPLIT 705, ITALIAN 702–782
• 45 points: ITALIAN 792 Dissertation

Japanese
Prerequisite subject: Japanese, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points from ASIAN 702, 752–759, JAPANESE 702–782
• 120 points: JAPANESE 796 Thesis or JAPANESE 797 Research Portfolio

Languages and Literature
Prerequisite subject: A major in one of the subjects listed below, or an equivalent subject approved by the Academic Head or nominee and at least 90 points in another of the subjects listed below or in Comparative Literature
Subjects: Chinese, English, French, German, Greek, Italian, Japanese, Korean, Latin, Māori Studies, Spanish
Requirement:
Research Masters
• 60 points from 700 level courses, including research essays or projects, in one of the subjects listed below
• 30 points from 700 level courses, including research essays or projects, in another of the subjects listed below or in Comparative Literature
• 30 points from appropriate 700 level language competence courses, in a language other than the student's first language taken for this degree and either
• 120 points: LANGLIT 796 Thesis or LANGLIT 797 Research Portfolio or
• 90 points: Thesis in one of the subjects listed below and a further 30 points from 700 level courses in another of the subjects listed below
Taught Masters
• at least 75 points from 700 level courses in one of the subjects listed below
• at least 45 points from 700 level courses in another of the subjects listed below or in Comparative Literature
• at least 60 points from appropriate 700 level language competence courses, in a language other than the student’s first language taken for this degree
• 60 points: LANGLIT 794 Dissertation

Latin
Prerequisite subject: Latin, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• at least 90 points from LATIN 707, 709, 714, 792
• up to 30 points from ANCIENT 719, 749–751, 756
• 120 points: LATIN 796 Thesis or LATIN 797 Research Portfolio or
• 120 points: LATIN 707, 709, 714, 792
• 30 points from ANCIENT 719, 749–751, 756
• 90 points: LATIN 794 Thesis

Linguistics
Prerequisite subject: Linguistics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points from LANGUISH 700–743
• 120 points: LANGUISH 796 Thesis
Taught Masters
• 195 points from LANGUISH 700–743
• 45 points: LANGUISH 792 Dissertation
Logic and Computation

Prerequisite subject: Logic and Computation, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 15 points from COMPSCI 720, 750, 760, 767
• 15 points from PHIL 736–738
• a further 90 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–782, MATHS 713, 715, PHIL 736–738
• 120 points: LOGICOMP 796 Thesis

Māori Studies

Prerequisite subject: Māori Studies, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 120 points from ARTHIST 730, INDIGEN 711, 712, MĀORI 700–790
• 120 points: MĀORI 796 Thesis or MĀORI 797 Research Portfolio

Mathematics

Prerequisite subject: Mathematics, or an equivalent subject approved by the Academic Head or nominee including either MATHS 332 and MATHS 320 or 328, or MATHS 340, 361, 363 or equivalent courses approved by the Academic Head or nominee

Requirement:
Research Masters
• 120 points from MATHS 701–770, 777, 781–789, 792–794 or approved 700 level courses in related subjects with the approval of the Academic Head or nominee
• 120 points: MATHS 796 Thesis
or
• 150 points from MATHS 701–770, 777, 781–789, 792–794 or approved 700 level courses in related subjects with the approval of the Academic Head or nominee
• 90 points: MATHS 798 Research Portfolio

Media and Communication

Prerequisite subject: Communication or Media, Film and Television, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 90 points from COMMS 700–713, MEDIA 704–746
• 30 points: MEDIA 781 Research Project
• 120 points: MEDIA 796 Thesis or MEDIA 797 Research Portfolio

Taught Masters
• 150 points from COMMS 700–713, MEDIA 704–746
• 30 points: MEDIA 781 Research Project
• 60 points: MEDIA 793 Dissertation

Museums and Cultural Heritage

Prerequisite subject: Anthropology, Art History, History, Māori Studies, Museums and Cultural Heritage or Sociology, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 45 points: MUSEUMS 702, 704
• 75 points from ANTHRO 704, 708, 742, 756, ARTHIST 700, 703, 706, 719, 730, 732, 734, ENGLISH 718, HISTORY 705, 712, MĀORI 741, MUSEUMS 700–780, SOCIOL 732
• 120 points: MUSEUMS 796 Thesis or MUSEUMS 797 Research Portfolio

Music

Prerequisite subject: Music, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 30 points from ANTHRO 727, 733, MUS 701, 740, 741, 742
Sociology

Prerequisite subject: Sociology, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters
- 90 points from GENDER 700, SOCIOL 700–713, 728–790
- 30 points: SOCIOL 718
- 120 points: SOCIOL 796 Thesis or SOCIOL 797 Research Portfolio

Taught Masters
- 165 points from GENDER 700, SOCIOL 700–713, 728–790
- 30 points: SOCIOL 718
- 45 points: SOCIOL 792 Dissertation
- 150 points from GENDER 700, SOCIOL 700–713, 728–790
- 30 points: SOCIOL 718
- 60 points: SOCIOL 794 Dissertation

Spanish

Prerequisite subject: Spanish, or an equivalent subject approved by the Academic Head or nominee including at least two non-language acquisition courses, one of which must be at Stage III or equivalent courses approved by the Academic Head or nominee

Requirement:

Research Masters
- 30 points: SPANISH 700
- 90 points from SPANISH 718–782
- 120 points: SPANISH 796 Thesis or SPANISH 797 Research Portfolio

Taught Masters
- 30 points: SPANISH 700
- 165 points from SPANISH 718–782
- 45 points: SPANISH 792 Dissertation

Statistics

Prerequisite subject: Statistics, or an equivalent subject approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee

Requirement:

Research Masters
- 150 points from STATS 701–706, 708–787
- 90 points: STATS 798 Thesis

Taught Masters
- 195 points from STATS 701–706, 708–787
- 45 points: STATS 793 Dissertation

The Degree of Master of Conflict and Terrorism Studies – MCTS

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a Bachelor of Arts (Honours), or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of 5.0 or higher
   or
   b completed the requirements for a Bachelors degree, or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of at least 5.0 in 45 points above Stage II.

2 Admission to this programme requires Academic Head or nominee approval.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points in the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points in the total enrolment for this degree.

Structure and Content

5 a A student enrolled for this degree must complete the requirements as listed in the Master of Conflict and Terrorism Studies Schedule.

   Taught Masters
   b A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Conflict and Terrorism Studies cannot continue.

   c A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Conflict and Terrorism Studies cannot continue.
6  a  Where a student has previously passed courses equivalent to any of the required courses for this degree, a 700 level course approved by the Academic Head or nominee must be substituted.

   b  Enrolment in any elective course is subject to the approval of the relevant Academic Head or nominee.

   c  The programme for each student requires the approval of the Academic Head or nominee for this degree.

7  A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8  a  A thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b  The thesis or dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

   c  The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
9  A student may apply to reassign courses passed for the Master of Conflict and Terrorism Studies to the Postgraduate Diploma in Conflict and Terrorism Studies.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Conflict and Terrorism Studies (MCTS) Schedule
A student who has to complete 120 points must satisfy the following requirements:

<table>

The Degree of Master of Creative Writing – MCW

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1  In order to be admitted to this programme, a student needs to have completed:

   a  (i)  the requirements for a four-year Bachelors degree

   or
(ii) the requirements for a Bachelors (Honours) degree
or
(iii) the requirements for a Bachelors degree
and
(a) a professional qualification equivalent to one year's advanced study
or
(b) at least three years of professional experience deemed relevant to this programme by Senate or its representative

and
b submitted a portfolio of creative writing which is judged by the Programme Coordinator to be of sufficient standard for entry into the programme.

Duration and Total Points Value
2 A student enrolled for this degree must:
a pass courses with a total value of 120 points
and
b complete within 12 months of initial enrolment, unless Senate or its representative extend this period.

Structure and Content
3 Research Masters
A student enrolled for this degree must pass 120 points: CREWRIT 797 Creative Writing.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Project
5 a The creative writing project is to be carried out under the guidance of a supervisor or supervisors appointed by Senate or its representative.

b The project topic must be approved by the Programme Coordinator prior to enrolment.

c The project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
7 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
8 These regulations have been amended with effect from 1 January 2014.

The Degree of Master of Indigenous Studies – MIndigSt
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
either
a completed the requirements for a Bachelors Honours degree or Postgraduate Diploma, or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of 5.0 or higher
or
b completed the requirements for a Bachelors degree, or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of 5.0 or higher in 45 points above Stage II.

2 Admission to this programme requires Academic Head or nominee approval.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and

c not exceed 160 points in the total enrolment for this degree.
4 A student admitted to this degree under Regulation 1b must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points in the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Indigenous Studies Schedule.

6 A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Indigenous Studies cannot continue.

7 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Indigenous Studies cannot continue.

8 Where a student has previously passed courses equivalent to any of the required courses, a 700 level course approved by the Coordinator for this degree must be substituted.

9 Enrolment in any elective course is subject to the approval of the relevant Academic Head or nominee.

10 The programme for each student requires the approval of the Coordinator for the Master of Indigenous Studies.

11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme regulations, Academic Integrity, of the University Calendar.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Dissertation
13 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
14 A student may apply to reassign courses passed for the Master of Indigenous Studies to the Postgraduate Diploma in Indigenous Studies.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
16 These regulations and/or schedule have been amended with effect from 1 January 2019.

Master of Indigenous Studies (MIndigSt) Schedule

The Degree of Master of Literature – MLitt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a Masters degree with First or Second Class Honours
   or
   b in exceptional cases, completed the requirements for one of the other preliminary qualifications that would be required for enrolment for the Degree of Doctor of Philosophy
   and
   c the approval of the relevant Academic Head or nominee.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass a thesis with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

Structure and Content
3 Research Masters
   A student enrolled for this degree must complete a 120 point thesis, based on original research in one of the subjects available in Arts or Theology.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
5 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
7 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Reassignment of Thesis
8 A thesis rejected for the Degree of Doctor of Philosophy may not be submitted for this degree.

Amendment
9 These regulations have been amended with effect from 1 January 2014.

The Degree of Master of Public Policy – MPP

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   either
   a completed the requirements for the Degree of Bachelor of Arts (Honours) in Politics and International Relations from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative including POLICY 742 or an equivalent course approved by Senate or its representative
   or
   b (i) completed the requirements for a Bachelors degree from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative
      or
   (ii) (a) completed the requirements for a Bachelors degree in a relevant subject from this University, or the equivalent as approved by Senate or its representative
and
(b) passed 60 points of courses towards the Postgraduate Certificate in Arts from this University, that includes POLICY 701, 702, 769 and POLITICS 757, or POLICY 740 and 741 with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

c completed STATS 101 or equivalent undergraduate statistics course.

2 A student who has met the requirements for admission under Regulation 1a above, and who has not completed POLICY 742 or its equivalent must have passed this course within one calendar year concurrent with enrolment in the Master of Public Policy. Should this requirement not be completed within this period, enrolment in further courses required for the Degree of Master of Public Policy will not be permitted until POLICY 742 has been completed.

Note: Relevant subjects may include anthropology, business, communication, economics, governance, law, media, organisational studies, political science, public administration, public health, public management, public policy, public relations, social geography, social sciences and sociology.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b, 1c or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Public Policy Schedule.

   b A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Public Policy cannot continue.

   c A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Public Policy cannot continue.

   d A student who has to complete 180 points for a Research Masters must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken. If this Grade Point Average is not achieved, enrolment in the Master of Public Policy cannot continue.

6 Where a student has previously passed courses equivalent to any of the required courses, a 700 level course approved by the Programme Coordinator for this degree may be substituted.

7 a Enrolment in any elective course is subject to the approval of the relevant Academic Head or nominee.

   b The programme for each student requires the approval of the Programme Coordinator for this degree.

8 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Public Policy or Postgraduate Certificate in Arts.

Transfer from Postgraduate Certificate in Arts
10 A student who has passed courses towards the Postgraduate Certificate in Arts may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.
Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Teaching English to Speakers of Other Languages – MTESOL

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a Bachelors degree from this University with a Grade Point Average of 3.5 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative and
   (ii) at least two years’ relevant professional experience or equivalent, as approved by Senate or its representative
   or
   b (i) completed the requirements for a Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.5 or higher, or the equivalent as approved by Senate or its representative and
   (ii) at least one year of relevant professional experience or equivalent, as approved by Senate or its representative.

2 Students who have not completed two years of full-time study in an English medium institution must have achieved an overall score of 6.5 with a minimum of 6.0 on all bands in IELTS (Academic) or equivalent.

**Notes:**

(i) Admission to and completion of this programme does not meet New Zealand teacher registration requirements.

(ii) A relevant subject may include: Business English, Linguistics, Language Studies, Language Teaching, Teaching English to Speakers of Other Languages (TESOL), Teaching English as a Foreign Language (TEFL), Translation and Interpreting

**Duration and Total Points Value**

3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.
Structure and Content
5 Taught Masters
A student enrolled for this degree must pass 120 points from courses listed in the Master of Teaching English to Speakers of Other Languages Schedule.

6 Permission to prepare and present a Dissertation must be given by the Academic Head or nominee.

7 The Academic Head or nominee may approve the inclusion of up to 45 points from equivalent 700 level courses offered at Victoria University of Wellington, or from other 700 level courses in Language Teaching and Learning offered at the University of Auckland.

8 The programme for each student requires the approval of the relevant Academic Head or nominee.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
10 a A dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b A student enrolled for the dissertation must also have passed or be enrolled in LANGTCHG 745.

c The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

d The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction
12 This degree may be awarded with either Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Master of Translation – MTrans

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:

   a (i) completed the requirements for the Degree of Bachelor of Arts (Honours) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

   or

   (ii) completed the requirements for the Degree of Bachelor of Arts from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative

   and

   b demonstrated competence in one of the languages offered for the Master of Translation equivalent to at least the level of a B+ grade in a language course above Stage II at this University

   and

   c for students who are not native speakers of English and who have not had at least three years of tertiary education with English as the language of instruction, a minimum overall score of IELTS (Academic) 7 or equivalent.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained extensive relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a above by Senate or its representative.

3 An interview and written aptitude test may be required.

Duration and Total Points Value

4 A student admitted to this degree must:

   a pass courses with a total value of 180 points

   and

   b complete within the time limit specified in the General Regulations – Masters Degrees

   and

   c not exceed 220 points for the total enrolment for this degree.
Structure and Content
5  a  A student enrolled for this degree must complete the requirements as listed in the Master of Translation Schedule.

   b  A student must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Translation cannot continue.

6  Where a student has previously passed courses equivalent to any of the required courses for this degree, a 700 level course(s) approved by the Academic Head or nominee must be substituted.

7  The programme of each student requires the approval of the Academic Head or nominee.

8  A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme regulations, Academic Integrity, of the University Calendar.

Reassignment
9  A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Translation Studies or Postgraduate Certificate in Translation.

Distinction
10 This degree may be awarded with Distinction or Merit as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

Certificate in Arts – CertArts
The regulations for this certificate are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Admission
1  In order to be admitted to this certificate, a student must have:
   a  been enrolled in the Degree of Bachelor of Arts, or a conjoint programme that includes the Bachelor of Arts as a component degree, or the Graduate Diploma in Arts at this University
   and
   b  passed at least 60 points for that degree or diploma
   and
   c  been recommended for admission by the Dean or nominee.

Total Points Value
2  A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3  Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Arts Schedule.

4  A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5  In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6  These regulations came into force on 1 January 2021.
Certificate in Languages – CertLang

The regulations for this certificate are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this certificate must follow a programme of the equivalent of one full-time semester and pass courses with a total value of 60 points from the courses listed in the Certificate in Languages Schedule.

Structure and Content
2 Of the 60 points required for this certificate, a student must pass at least 30 points above Stage I.
3 A student may not include courses for this certificate from more than two of the languages listed in the schedule for this certificate.
4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Special Cases
5 Enrolment of students with prior knowledge of the language being studied is at the discretion of the Academic Head or nominee.
   a Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.
   b If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course for this certificate.
   c A student who has passed or been credited with a language acquisition course, for this or any other programme, may not enrol for a course which precedes that course in the sequence of language acquisition courses in that language subject.

Credit and Cross-credit
6 A student who has passed a language course from the General Education Schedules may be granted credit for the equivalent course from the schedule for this certificate.
7 A student may not be granted credit or cross-credit towards this certificate of more than 15 points, including any points credited under Regulation 6.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2021.

Stage I courses: ITALIAN 100, 106, 107, 177
Stage II courses: ITALIAN 200, 201, 277, 278
Stage III courses: ITALIAN 300, 312, 377, 378, 379
Diploma in Arts – DipArts

The regulations for this diploma are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Arts, or a conjoint programme that includes the Bachelor of Arts as a component degree, at this University
     and
   b passed at least 120 points for that degree or diploma
     and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Arts Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Languages – DipLang

The regulations for this diploma are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this diploma must follow a programme of the equivalent of two full-time semesters and pass courses with a total value of 120 points from the courses listed in the Diploma in Languages Schedule.

Structure and Content
2 Of the 120 points required for this diploma, a student must pass
   a at least 60 points above Stage I, including
   b at least 30 points above Stage II.
3 A student may not include courses for this diploma from more than two of the languages listed in the schedule for this diploma.

4 With the permission of the Academic Head or nominee concerned, a student may include for this diploma up to 30 points from postgraduate level language acquisition courses.

5 With the permission of the Academic Head or nominee for a language for which points have been passed at Stage II, and approval of the Dean of Faculty of Education and Social Work, a student may include 15 points from EDUC 318 for this diploma.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Special Cases
7 Enrolment of students with prior knowledge of the language being studied is at the discretion of the Academic Head or nominee.
   a Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.
   b If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course for this diploma.
   c A student who has passed or been credited with a language acquisition course, for this or any other programme, may not enrol for a course which precedes that course in the sequence of language acquisition courses in that language subject.

Credit and Cross-credit
8 A student who has passed a language course from the General Education Schedules may be granted credit for the equivalent course from the schedule for this diploma.

9 A student may not be granted credit and/or cross-credits towards this diploma of more than 30 points, including any points credited under Regulation 8.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Diploma in Arts – GradDipArts

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for any degree from this University, or the equivalent as approved by Senate or its representative
   or (ii) demonstrated practical, professional, or scholarly experience of an appropriate kind that is approved by Senate or its representative as equivalent to that specified in 1a(i) above
   and
   b attained a level of preparation appropriate to the selected major for the Graduate Diploma in Arts as approved by the relevant Academic Head or nominee.

2 A student may, if Senate or its representative gives approval, enrol for this graduate diploma without having fulfilled the requirements of Regulation 1b above, provided that the student completes any prerequisite courses as part of or in addition to the normal requirements of this programme.

3 With the approval of Senate or its representative, a student who needs only 30 points to complete the Degree of Bachelor of Arts may enrol concurrently for this graduate diploma and those remaining points, provided that the graduate diploma will not be awarded until the Degree of Bachelor of Arts is completed.

Duration and Total Points Value
4 a A student enrolled for this graduate diploma must follow a programme equivalent of two full-time semesters and pass courses with a total value of 120 points.
   b The requirements for a Graduate Diploma in Arts must be completed within four years of initial enrolment.
   c In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.
   d In exceptional circumstances the Academic Head may increase the duration allowed for enrolment for a period not normally exceeding two consecutive semesters.

Structure and Content
5 Of the 120 points required for this graduate diploma a student must pass:
   a at least 75 points above Stage II from the Bachelor of Arts or Bachelor of Arts (Honours) Schedules
   and
   b at least 60 points from a major listed in the Bachelor of Arts Schedule, including the Stage III courses required for that major.

6 The programme for this graduate diploma may include a research essay or research project of up to 30 points in a subject for which the student is approved by the Academic Head or nominee as suitably qualified.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
8 Course(s) selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

9 Cross-credits will not be granted toward the Graduate Diploma in Arts.

Research Essay / Research Project
10 a The research essay or research project, when included in this qualification, is to be carried out under the guidance of a supervisor appointed by Senate or its representative on the recommendation of the relevant Academic Head or nominee.

b The research essay or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The research essay or research project is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations have been amended with effect from 1 January 2020.

Postgraduate Certificate in Arts – PGCertArts

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have:
   a completed the requirements for a Bachelors degree from this University
   and
   b passed the specified prerequisite courses in the selected subject for the Master of Arts, or the Master of Public Policy, with a Grade Point Average of 3.5 or higher in 45 points above Stage II in that subject, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained equivalent practical, professional or scholarly experience of an appropriate kind.

Structure and Content
3 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Commencement
5 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Translation – PGCertTrans

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Arts from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative
   or
produced evidence to the satisfaction of Senate or its representative, of appropriate academic or professional preparation, equivalent to a degree, to undertake the programme and

b demonstrated competence in one of the languages offered for the Postgraduate Certificate equivalent to at least the level of a B+ grade in a language course above Stage II or above at this University and
c for students who are not native speakers of English and who have not had at least three years of tertiary education with English as the language of instruction, a minimum overall score of IELTS (Academic) 7 or equivalent.

2 An interview and written aptitude test may be required.

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 A student enrolled for this postgraduate certificate must complete the requirement for one of the specialisations listed in the Postgraduate Certificate in Translation Studies Schedule.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
7 The programme for each student requires the approval of the Academic Head.

Reassignment
8 A student may apply to reassign courses passed for this postgraduate certificate to the Postgraduate Diploma in Translation Studies or Master of Translation.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2020.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:

   a at least 300 points from the courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points from the Core Courses listed in the Bachelor of Commerce Schedule
      (ii) 15 points from the Capstone Courses listed in the Bachelor of Commerce Schedule
      (iii) at least 180 points above Stage I, of which at least 75 points must be above Stage II from the courses listed in the Bachelor of Commerce Schedule
      (iv) the requirements of one or more majors as listed in the Bachelor of Commerce Schedule with at least 45 points at Stage III in each major

   and

   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 Up to 30 points may be taken from other undergraduate courses offered at this University.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ACADENG 104 to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.

5 Students must pass or be concurrently enrolled in all the Stage I Core Courses listed in the Bachelor of Commerce Schedule before enrolling in any other courses for this degree.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

   (i) 15 points from courses offered in the General Education Schedules

   and

   (ii) a further 15 points from courses available for this degree.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.
Special Cases
8 In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiner as having reached the standard of a pass at Stage I, the student may be credited with the appropriate Stage I course(s).

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

- 15 points from BUSINESS 328, MGMT 300, 302, 304, 309, 314, 320, PSYCH 322

#### Marketing
- 30 points: MKTG 202, 203
- 15 points: MKTG 303
- 30 points from MKTG 301, 302, 304–306, 308, 309, 312, 314

#### Operations and Supply Chain Management
- 45 points: OPSMGT 255, 258, 370
- 30 points (or 45 points if INFOSYS 310 is selected) from BUSAN 305, INFOSYS 310, 321, OPSMGT 357, 371, 372, 376

#### Taxation
- 30 points: COMLAW 201, 203
- 30 points: COMLAW 301, 311
- 15 points from ACCTG 311, 371, ECON 361, FINANCE 361

## The Degree of Bachelor of Property – BProp

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Duration and Total Points Value
1. A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

### Structure and Content
2. Of the 360 points required for this degree, a student must pass:
   a. 330 points from courses listed in the Bachelor of Property Schedule
   b. 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3. A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ACADENG 104 to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.
General Education Exemptions
4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses listed in the Bachelor of Commerce Schedule.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
      (i) 15 points from courses offered in the General Education Schedules
      and
      (ii) a further 15 points from courses listed in the Bachelor of Commerce Schedule.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
5 A student enrolled for this degree must participate in skills workshops as required by, and to the satisfaction of, the Head of Department of Property.

Conjoint Degrees
6 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Bachelor of Commerce (Honours) – BCom(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Degree of Bachelor of Commerce from the University of Auckland
   or
   b completed the requirements for an equivalent qualification as approved by Senate or its representative
   and
   c passed the prerequisites for one of the subjects listed in the Bachelor of Commerce (Honours) Schedule with a Grade Point Average of 5 or higher in 45 points at Stage III in that major
   and
   d the approval of the Dean of Faculty of Business and Economics.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
and
b. complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements for one of the subjects listed in the Bachelor of Commerce (Honours) Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 Students intending to qualify for entry to the Degree of Master of Commerce must include the prerequisite courses in the intended subject listed in the Master of Commerce Schedule.

Research Essay
7 a. The research essay is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b. The research essay topic must be approved by the relevant Head of Department prior to enrolment.

c. The research essay must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
10 A student may apply to reassign courses passed to the Graduate Diploma in Commerce or the Postgraduate Diploma in Commerce.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Business Administration – MBA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this degree, a student must have:
   a. either
      i. completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in at least 90 points in the most advanced courses, or the equivalent as approved by Senate or its representative
      or
      ii. completed the requirements for the Postgraduate Diploma in Business from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      or
      iii. (a) completed the requirements for a relevant Bachelors degree as approved by Senate or its representative
            and
            (b) completed the requirements for the Postgraduate Certificate in Business from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   b. normally, at least three years’ relevant management experience approved by Senate or its representative
   c. provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

2. In exceptional circumstances Senate or its representative may approve the admission of a student:
   a. who has attained extensive relevant, practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirements in Regulation 1a
   and
   b. who has at least three years’ relevant management experience approved by Senate or its representative
   and
   c. who has provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Note: A relevant undergraduate degree may be in business, engineering, humanities, sciences or technology.

Duration and Total Points Value
3. A student admitted to this degree must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. must not exceed 220 points for the total enrolment for this degree.

Structure and Content
4. A student enrolled for this degree must complete the requirements as listed in the Master of Business Administration Schedule.

5. A student enrolled for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses. If this Grade Point Average is not achieved, enrolment in the Master of Business Administration cannot continue.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7. A student enrolled for this degree who has been credited for another degree or diploma with any courses the same or similar to those listed for this degree, is to substitute for each course so credited an alternative course approved by Senate or its representative.

8. The programme for each student requires the approval of the Director of the Programme prior to enrolment.
Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Certificate in Business.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Business Analytics – MBusAn
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:

   either
   a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in the most advanced 90 points, or the equivalent as approved by Senate or its representative
       or
       (b) completed the requirements for a relevant Bachelors Honours degree with a Grade Point Average of 5.0 or higher from this University, or the equivalent as approved by Senate or its representative

       and
       (ii) completed STATS 108 or its equivalent as approved by Senate or its representative

   or
   b (i) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative

       and
       (ii) completed STATS 108 or its equivalent as approved by Senate or its representative

       and
       (iii) passed 60 points in the Postgraduate Certificate in Business Analytics from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

   or
   c (i) completed the requirements for the Postgraduate Diploma in Business in Administration or Postgraduate Diploma in Business Management from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

       and
       (ii) completed STATS 108 or BUSADMIN 763 or BUSMAN 707, or the equivalent as approved by Senate or its representative.

Note: A relevant degree may be in business, engineering, social sciences, sciences or technology.

Duration and Total Points Value
2 A student admitted to this degree must:

   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
3 a A student enrolled for this degree must complete the requirements as listed in the Master of Business Analytics Schedule.

   b A student must achieve a Grade Point Average of 5.0 or higher in Part I. If this Grade Point Average is not achieved, enrolment in the Master of Business Analytics cannot continue.
4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 Courses selected for this qualification are subject to confirmation by the Programme Director.

Reassignment
6 A student may apply to reassign courses passed to the Postgraduate Diploma in Business Analytics.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction / Merit
8 This degree may be awarded with Merit or Distinction in accordance with the General Regulations – Masters Degrees.

Commencement
9 These regulations came into force on 1 January 2021.

The Degree of Master of Business Development – MBusDev

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
        and
        (b) passed 60 points in the Postgraduate Certificate in Business Development from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded
   or
   b (i) completed the requirements for a relevant Bachelors honours degree from this University, or the equivalent as approved by Senate or its representative
   or
   (ii) completed the requirements for the Postgraduate Diploma in Business from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
      and
      c normally, at least three years’ relevant work experience approved by Senate or its representative
      and
      d provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve the admission of a student:
   a who has attained extensive relevant, practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirements in Regulation 1a
      and
   b who has at least three years’ relevant work experience approved by Senate or its representative
      and
   c who has provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Note: A relevant degree may be in business, engineering, health sciences, humanities, sciences or technology.
Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c must not exceed 220 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c must not exceed 160 points for the total enrolment for this degree.

Structure and Content
5 A student who is required to complete 180 points must pass each of Parts I, II and III as listed in the Master of Business Development Schedule.

6 A student who is required to complete 120 points must pass each of Parts II and III as listed in the Master of Business Development Schedule.

7 a A student will not normally be permitted to enrol for Part III unless Part II has been completed with a Grade Point Average of 4.0 or higher. If this Grade Point Average is not achieved, enrolment in the Master of Business Development cannot continue.

   b A student who has failed to pass Part II in its entirety may, at the discretion of Senate or its representative, be allowed to enrol for the course or courses needed to complete that Part, together with a course or courses towards Part III.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

9 Where a student has passed a course for a qualification that has been awarded, and such a course is deemed by the Programme Director to be the same as or substantially similar to any course required for this degree, the student must pass an alternative course(s) approved by the Programme Director to complete this degree.

10 Courses selected for this qualification are subject to confirmation by the Programme Director.

Reassignment
11 A student may apply to reassign courses passed to the Postgraduate Diploma in Business Development or Postgraduate Certificate in Business Development.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
13 This degree may be awarded with Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Commencement
14 These regulations came into force on 1 January 2021.

---

(ii) (a) completed the requirements for the Degree of Master of Business Administration from the University of Auckland or an equivalent qualification approved by Senate or its representative

and

(b) passed at least 90 points above Stage I from courses listed in the Bachelor of Commerce Schedule including at least 45 points above Stage II in the intended subject for this degree

and

(c) achieved a Grade Point Average of 5.0 or higher in 45 points in the Stage III courses

or

(b) (i) (a) completed the requirements for the Degree of Bachelor of Commerce (Honours) from the University of Auckland or an equivalent qualification approved by Senate or its representative

and

(b) passed the Bachelor of Commerce (Honours) in the subject intended for this degree with a Grade Point Average of 5.0 or higher over the programme

or

(ii) (a) completed the requirements for the Postgraduate Diploma in Commerce from the University of Auckland or an equivalent qualification approved by Senate or its representative

and

(b) passed the Postgraduate Diploma in Commerce in the subject intended for this degree with a Grade Point Average of 5.0 or higher over the programme.

A student who has not completed all the requirements for the Degree of Bachelor of Commerce but who has:

a passed courses with a total value of at least 330 points for that degree

and

b passed the specified prerequisite courses as listed in the Master of Commerce Schedule for the intended subject

and

c achieved a Grade Point Average of 5.0 or higher in 45 points above Stage II in the prerequisite courses may, with the approval of the relevant Head of Department enrol for this degree. The remaining courses for the Degree of Bachelor of Commerce must be passed within 12 months of initial enrolment for the Master of Commerce. The Degree of Master of Commerce will not be awarded until the requirements for the Bachelor of Commerce have been completed.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 220 points for the total enrolment of this degree.

4 If a student is enrolled in the Late Year Term in points towards the MCom, then this counts as a semester in respect of the time limits specified in the General Regulations – Masters Degrees.

5 A student admitted to this degree under Regulation 1b must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 160 points for the total enrolment for this degree.

Structure and Content

6 a A student enrolled for this degree must complete the requirements for one of the subjects as listed in the Master of Commerce Schedule.

b A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses. If this Grade Point Average is not achieved, enrolment in the Master of Commerce cannot continue.

and

c A student required to complete 180 points for this degree may substitute up to 30 points from other subjects listed in the Master of Commerce Schedule or from other 700 level courses offered at this University as approved by all Heads of Department.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Thesis / Dissertation
8 a The thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis or dissertation topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Master Degrees, except for students enrolled in a dissertation in the Late Year Term.

Submission of a Dissertation taken in the Late Year Term
9 a A student who has enrolled in a dissertation in the Late Year Term must submit the dissertation by the final Friday of the Late Year Term. If, in exceptional circumstances beyond the student’s control, the dissertation has not been able to be completed by this date, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

b The dissertation is to be submitted in accordance with Regulation 9 of the General Regulations – Masters Degrees.

Reassignment
10 A student may apply to reassign courses passed for the Master of Commerce to the Postgraduate Diploma in Commerce.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

### The Degree of Master of Management – MMgt

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelors degree from this University deemed relevant by Senate or its representative with a Grade Point Average of 5.0 or higher in 90 points of the most advanced courses, or the equivalent as approved by Senate or its representative.

*Note: A relevant undergraduate degree may be in the humanities, sciences, technology or engineering.*
Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
3 a A student enrolled for this degree must complete the requirements as listed in the Master of Management Schedule.

   b A student enrolled for this degree who has been credited for another degree or diploma with any courses the same or similar to those listed for this degree may, at the discretion of Senate or its representative, be required to substitute additional Part III courses for courses required for Part II.

   c A student will not normally be permitted to enrol for Part III unless Part II has been completed with a Grade Point Average of 4.0 or higher.

4 The programme for each student requires the approval of the Programme Director.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 Cross-credits will not be granted towards the award of the Degree of Master of Management.

Reassignment
7 A student may apply to reassign courses passed from this degree to the Postgraduate Diploma in Management or Postgraduate Certificate in Management.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Distinction
9 This degree may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high. Distinction may be awarded where a student has achieved a grade of A- or higher overall. Merit may be awarded where a student has achieved a B+ grade overall.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Property – MProp

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a (i) completed the requirements for the Degree of Bachelor of Property
   and
(ii) passed the courses taken for Part III of that degree with an average grade of B or higher

or

b (i) completed the requirements for the Degree of Bachelor of Property (Honours)

and

(ii) achieved an average grade of B or higher

or

c (i) completed the requirements for the Postgraduate Diploma in Property

and

(ii) achieved an average grade of B or higher

or

d completed the requirements for any other appropriate Bachelors degree or equivalent qualification as approved by Senate or its representative, provided that the average grade in the final year of study was equivalent to B or higher.

2 A student who has not completed all the requirements for the Degree of Bachelor of Property but who has:

a passed courses with a total value of at least 330 points for that degree

and

b achieved an average grade of B or higher in at least 75 points for Part III

may, with the approval of the Head of Department of Property, enrol for this degree. The remaining courses for the Degree of Bachelor of Property must be passed within 12 months of initial enrolment for the Master of Property. The Degree of Master of Property will not be awarded until the requirements for the Bachelor of Property have been completed.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a, 1d or 2 must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 220 points for the total enrolment of this degree.

4 If a student is enrolled in the Late Year Term in points towards the MProp, then this counts as a semester in respect of the time limits specified in the General Regulations – Masters Degrees.

5 A student admitted to this degree under Regulation 1b or 1c must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 160 points for the total enrolment of this degree.

Structure and Content

6 a A student enrolled for this degree must complete the requirements as listed in the Master of Property Schedule.

b A student who has to complete 180 points must achieve a Grade Point Average of 5.0 in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Property cannot continue.

c A student required to complete 180 points for this degree may substitute other 700 level courses offered at this University as approved by Senate or its representative.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation

8 a The thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis or dissertation topic must be approved by the Departmental Postgraduate Committee prior to enrolment.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees, except for students enrolled in a dissertation in the Late Year Term.

Submission of a Dissertation taken in the Late Year Term

9 a A student who has enrolled in a dissertation in the Late Year Term must submit the dissertation by the final
Friday of the Late Year Term. If, in exceptional circumstances beyond the student’s control, the dissertation has not been able to be completed by this date, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

b The dissertation is to be submitted in accordance with Regulation 9 of the General Regulations – Masters Degrees.

Reassignment
10 A student may apply to reassign courses passed for the Master of Property to the Postgraduate Diploma in Property.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Supply Chain Management – MSCM

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:

   either

   a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative
   and
   (ii) completed STATS 108 or its equivalent as approved by Senate or its representative.
   or

   b (i) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
   and
   (ii) completed STATS 108 or its equivalent as approved by Senate or its representative.
   and
   (iii) passed 60 points in the Postgraduate Certificate in Supply Chain Management from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded
   or

   c (i) completed the requirements for a relevant Bachelors honours degree with a Grade Point Average of 5.0 or higher from this University, or the equivalent as approved by Senate or its representative
   and
   (ii) completed STATS 108 or its equivalent as approved by Senate or its representative
   or

   d (i) completed the requirements for the Postgraduate Diploma in Business in Administration or Postgraduate Diploma in Business Management from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
and
(ii) completed BUSADMIN 763 or BUSMAN 707 or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: A relevant degree may be in business, engineering, health sciences, sciences or technology

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a, b or c must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c must not exceed 220 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1d must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c must not exceed 160 points for the total enrolment for this degree.

Structure and Content
5 A student who is required to complete 180 points must
   a pass each of Parts I, II and III as listed in the Master of Supply Chain Management Schedule.
   and
   b will not normally be permitted to enrol for Part III unless a Grade Point Average of 5.0 or higher has been achieved in 105 points from Parts I and II. If this Grade Point Average is not achieved, enrolment in the Master of Supply Chain Management cannot continue.

6 A student who is required to complete 120 points must
   a pass each of Parts II and III as listed in the Master of Supply Chain Management Schedule
   and
   b will not normally be permitted to enrol for Part III unless a Grade Point Average of 5.0 or higher has been achieved in 45 points from Part II. If this Grade Point Average is not achieved, enrolment in the Master of Supply Chain Management cannot continue.

7 A student who has failed to pass Part II in its entirety may, at the discretion of Senate or its representative, be allowed to enrol for the course or courses needed to complete that Part, together with a course or courses towards Part III.

8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

9 Where a student has passed a course for a qualification that has been awarded, and such a course is deemed by the Programme Director to be the same as or substantially similar to any course required for this degree, the student must pass an alternative course(s) approved by the Programme Director to complete this degree.

10 Courses selected for this qualification are subject to confirmation by the Programme Director.

Reassignment
11 A student may apply to reassign courses passed to the Postgraduate Diploma in Supply Chain Management or Postgraduate Certificate in Supply Chain Management.

Transfer from Postgraduate Certificate in Supply Chain Management
12 A student who has passed courses towards the Postgraduate Certificate in Supply Chain Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
14 This degree may be awarded with Distinction or Merit in accordance with the General Regulations – Masters Degrees.
Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2021.

Certificate in Commerce – CertCom

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Commerce, or a conjoint programme that includes the Bachelor of Commerce as a component degree, or the Graduate Diploma in Commerce, at this University
      and
   b passed at least 60 points for that degree
      and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed as available for the BCom in the Bachelor of Commerce Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Commerce – DipCom

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Commerce, or a conjoint programme that includes the Bachelor of Commerce as a component degree, at this University
      and
   b passed at least 120 points for that degree
      and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.
Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed as available for the BCom in the Bachelor of Commerce Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Commerce – GradDipCom
The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Commerce
   or
   b any other degree approved by Senate or its representative
   or
   c a professional qualification in Commerce approved by Senate or its representative.

2 With the approval of Senate or its representative, a student may enrol for this graduate diploma after passing at least 345 points for the Degree of Bachelor of Commerce or the equivalent in other such degrees. The graduate diploma will not be awarded until such qualifying degree is completed.

Duration and Total Points Value
3 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

4 The total value of the courses credited to this graduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this graduate diploma, a student must pass:
   a at least 75 points above Stage II, including at least 45 points above Stage II from courses listed in the Bachelor of Commerce Schedule
   b up to 45 points from Stage II courses listed in the Bachelor of Commerce Schedule.

6 Up to 30 points above Stage I may be taken from other programmes offered by this University.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Cross-credits will not be granted towards the Graduate Diploma in Commerce.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations have been amended with effect from 1 January 2021.

Postgraduate Certificate in Business – PGCertBus
The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
or
b (i) completed the requirements for a professional qualification in Accountancy, Engineering, Medicine or a related healthcare subject, Science or other discipline deemed relevant to the programme of study by Senate or its representative
and
(ii) at least two years of relevant work experience approved as appropriate by the relevant Head of Department
or
c at least five years of employment experience deemed relevant to this programme by Senate or its representative.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
a pass courses with a total value of 60 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Business Schedule.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 Courses selected for this qualification are subject to the confirmation of the Programme Coordinator.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2021.

Postgraduate Certificate in Business Analytics – PGCertBusAn

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have:
either
a (i) (a) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in the most advanced 90 points, or the equivalent as approved by Senate or its representative
or
(b) completed the requirements for a relevant Bachelors Honours degree from this University, or the equivalent as approved by Senate or its representative
and
(ii) completed STATS 108 or its equivalent as approved by Senate or its representative
or
b (i) completed the requirements for the Postgraduate Diploma in Business in Administration or Postgraduate Diploma in Business Management from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
and
(ii) completed STATS 108 or BUSADMIN 763 or BUSMAN 707, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or can demonstrate equivalent practical, professional or scholarly experience of an appropriate kind.

Note: A relevant degree may be in business, engineering, health sciences, social sciences, sciences or technology.

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates
   and
   c not exceed 90 points for the total enrolment for this postgraduate certificate.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete 60 points from the courses listed in the Postgraduate Certificate in Business Analytics Schedule.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Postgraduate Diploma in Property – PGDipProp

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Property
   or
   (ii) completed the requirements for any other degree qualification approved by Senate or its representative that is indicative of ability to undertake advanced study in Property
   and
   b achieved an average grade of at least B in at least 75 points in Stage III Property courses or equivalent.

2 A student who has not completed all the requirements for the Degree of Bachelor of Property but who, for that degree, has:
   a passed courses with a total value of at least 345 points
   and
   b achieved an average grade of B or higher in at least 75 points for Part III
   may, with the approval of the Head of Department, enrol for this postgraduate diploma. The remaining points required for the Degree of Bachelor of Property must be completed within 12 months of initial enrolment for this diploma. Should the requirements for the Bachelor of Property not be completed in this time, the Postgraduate Diploma in Property enrolment will be suspended until they have been completed.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
   a at least 120 points from courses listed in the Postgraduate Diploma in Property Schedule
   or
   b (i) at least 90 points from courses listed in the Postgraduate Diploma in Property Schedule
   and
   (ii) up to 30 points at 700 level from a related subject, provided it is deemed by the Head of Department of Property to be relevant to the student’s programme and appropriate to be taken as part of this postgraduate diploma.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Dissertation
7  a  A dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

  b  The dissertation topic must be approved by the Head of Department of Property prior to enrolment.

  c  The dissertation is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Variations
8  In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
9  This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Bachelor of Architectural Studies – BAS

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:
   a 330 points as listed in the Bachelor of Architectural Studies Schedule
   and
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions

4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Architecture and Planning.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Head of School of Architecture and Planning.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Variations

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

6 These regulations and/or schedule have been amended with effect from 1 January 2018.

Bachelor of Architectural Studies (BAS) Schedule

Requirement:

- 330 points: ARCHDES 102, 103, 200, 201, 300, 301, ARCHDRC 103, 104, 203, ARCHHTC 102, 237, 341, ARCHPRM 305, ARCHTECH 108, 207, 210, 314, 315
The Degree of Bachelor of Dance Studies – BDanceSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: To be eligible for selection an applicant must demonstrate that they have the artistic and creative skills and knowledge required for this degree. The submission of a CV, written statement and audition/interview is required.

Duration and Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Dance Studies Schedule, including at least 180 points above Stage I, of which at least 90 points must be above Stage II
   and
   b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
   (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
   (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 Up to 30 points may be taken from courses available for any other Bachelors degree at this University.

General Education Exemptions
4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of Dance Studies Programme.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Head of Dance Studies Programme.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Special Cases
5 Students entering this degree with prior learning in dance may be required to:
   either
   a enrol directly in a corresponding Stage II or Stage III course
   or
   b take an alternative course approved by the Head of the Programme.

In such cases where a student is required to enrol in an advanced or alternative course (due to prior learning), should the student then fail the advanced or alternative course, the student will be credited with the course originally specified in the Regulations if they are certified by the examiner as having reached the standard of a pass for that course.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Music – BMus

The regulations for this degree are to be read in conjunction with all the other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: To be eligible for selection an applicant must demonstrate that they have the knowledge required for the Creative Practice specialisations in the degree. An audition or composition portfolio is required.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Music Schedule, including:
      (i) at least 180 points above Stage I
      (ii) 60 points: MUS 104, 143, 243, 343
      (iii) the courses specified for one of the specialisations listed in the Bachelor of Music Schedule, of which at least 75 points must be above Stage II
   and
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

4 Up to 30 points may be substituted for elective courses in the Bachelor of Music Schedule from courses in other programmes offered at this University.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Music.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
      (i) 15 points from courses offered in the General Education Schedules
      and
      (ii) a further 15 points from courses approved by the Head of School of Music.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
6 In any course that includes performance work of a practical nature, a student must comply with the requirements for that course as specified by the Head of School of Music.
Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint
combination. The specific requirements and a complete list of the conjoint degrees available are set out in the
Conjoint Degrees section of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Urban Planning – BUrBPlan
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including
the Academic Statutes and Regulations.

Degree Requirements
1 Students who enrol for the Degree of Bachelor of Urban Planning (Honours) may be awarded the Degree of
Urban Planning if, having passed all courses and completed all other requirements for the BUrBPlan(Hons),
their performance in the courses is deemed by the Head of School of Architecture and Planning to be not of
Honours standard.

Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted
grade point average exceeding a minimum set by the University.

The Degree of Bachelor of Dance Studies (Honours) – BDanceSt(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including
the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of
Bachelor of Dance Studies from this University with a Grade Point Average of 5.0 or higher in 90 points above Stage II, or the equivalent as approved by Senate or its representative.

2 A student who has not completed the requirements for the Degree of Bachelor of Dance Studies from this University but who has:
   a passed courses with a total value of at least 345 points for that degree
   and
   b achieved a Grade Point Average of 5.0 or higher in 90 points above Stage II
may, with the approval of the Head of Programme, be admitted to the Bachelor of Dance Studies (Honours) concurrently with the remaining courses for the Degree of Bachelor of Dance Studies. The Degree of Bachelor of Dance Studies (Honours) will not be awarded until the requirements for the Bachelor of Dance Studies have been completed.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Dance Studies (Honours) Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
7 In any course that includes performance work of a practical nature a student must comply with the requirements for that course as specified by the Head of Programme.

Research Project
8 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of Programme.

   b The research project topic must be approved by the Head of Programme prior to enrolment.

   c The research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
11 A student may apply to reassign the courses passed from this degree to the Postgraduate Diploma in Dance Studies.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Fine Arts (Honours) – BFA(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 a No student on whom the Degree of Bachelor of Fine Arts has already been conferred may enrol for this degree.
b. At the discretion of the Dean of Faculty of Creative Arts and Industries, a student who has completed Parts I, II, and III for a Bachelor of Fine Arts or its equivalent, and achieved a Grade Point Average of 5.0 or higher in all Fine Arts courses above Stage II, may be permitted to enrol for this degree.

c. Where the Faculty of Creative Arts and Industries approves enrolment for the Degree of Bachelor of Fine Arts (Honours), the courses previously passed for the Degree of Bachelor of Fine Arts will be reassigned to the Degree of Bachelor of Fine Arts (Honours).

Note: 30 points of the General Education requirement must be completed prior to enrolment.

Duration and Total Points Value
2. A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3. Of the 480 points required for this degree, a student must pass:
   a. 360 points from the Degree of Bachelor of Fine Arts Schedule
   and
   b. 120 points from courses listed in the Bachelor of Fine Arts (Honours) Schedule.

4. The programme for each student requires the approval of the Dean of Faculty of Creative Arts and Industries.

5. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Conjoint Degrees
6. Special arrangements apply where this degree is taken as a component degree of an approved conjoint degree programme for which the specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Research Project
7. a. The research project is to be carried out under the guidance of a supervisor/s appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Creative Arts and Industries.

   b. The research project topic must be approved by the Dean of Faculty of Creative Arts and Industries prior to enrolment.

   c. The research project is to be completed by the last day of the final semester of enrolment in the research project. If, in exceptional circumstances beyond the student’s control, the research project has not been able to be completed by the above deadline, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

Award of Honours
8. The Bachelor of Fine Arts (Honours) may be awarded with either First Class Honours or Second Class Honours in either First Division or Second Division. The class of Honours shall be determined by the grade achieved in FINEARTS 790.

Withdrawal from Honours
9. A student whose work does not satisfy the standard specified in Regulation 8, or who at any time chooses to withdraw from Honours, may transfer from the Degree of Bachelor of Fine Arts (Honours) to the Degree of Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degree of Bachelor of Fine Arts (Honours) may be reassigned to the Degree of Bachelor of Fine Arts.

Variations
10. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11. These regulations and/or schedule have been amended with effect from 1 January 2015.

The Degree of Bachelor of Music (Honours) – BMus(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this programme, a student must have:
   a. completed the requirements for the Degree of Bachelor of Music from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative and
   b. approval from the Head of School of Music.

2. A student who has not completed the requirements for the Degree of Bachelor of Music but who has:
   a. passed courses with a total value of at least 340 points for that degree and
   b. a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative may, with the written approval of the Head of School of Music, enrol for this degree concurrently with the remaining courses for the Degree of Bachelor of Music. The Degree of Bachelor of Music (Honours) will not be awarded until the requirements for the Bachelor of Music have been completed.

Duration and Total Points Value

3. A student enrolled for this degree must:
   a. pass courses with a total value of 120 points and
   b. complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4. The total enrolment for this degree must not exceed 160 points.

Structure and Content

5. A student enrolled for this degree must complete the requirements as listed in the Bachelor of Music (Honours) Schedule.

6. Course(s) selected for this qualification must be approved by the Head of School of Music prior to enrolment.

7. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements

8. In any course that includes performance work of a practical nature a student must comply with the requirements for that course as specified by the Head of School of Music.

Research Project

9. a. The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Music.

   b. The research project topic must be approved by the Head of School of Music prior to enrolment.

   c. The research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations

10. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

11. This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment

12. A student may apply to reassign the courses passed for this degree to the Graduate Diploma in Music or Postgraduate Diploma in Music.

Amendment

13. These regulations and/or schedule have been amended with effect from 1 January 2021.

• 60 points from MUS 701–790, ANTHRO 727, 728, 733, 753

The Degree of Bachelor of Urban Planning (Honours) – BUrbPlan(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 Admission to this programme is at the discretion of Senate or its representative.

2 No student on whom the Bachelor of Planning has been conferred or who has passed more than 240 points towards the Bachelor of Planning, or equivalent, may enrol for this degree.

Note: To be admitted a student must meet University entry criteria and through the submission of a written statement demonstrate knowledge required for the programme.

Duration and Total Points Value

3 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

4 Of the 480 points required for this degree, a student must pass:
   a at least 450 points from courses listed in the Bachelor of Urban Planning (Honours) Schedule
   and
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
   c A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

5 a A student must pass each of Parts I, II, III, and IV as listed in the Bachelor of Urban Planning (Honours) Schedule.
   b (i) A student will not be permitted to enrol for Part II unless Part I has been completed, nor to enrol for Part III unless Part II has been completed, nor to enrol for Part IV unless Part III has been completed.
   (ii) However, a student who has failed to pass one of those parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.
(iii) Only in exceptional circumstances will a student be permitted to enrol for Part III unless all of Part I has been completed, or to enrol for Part IV unless all of Part II has been completed.

(iv) A student will not be permitted to enrol for Part IV if they have not completed the 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.

(v) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education Exemptions

6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Architecture and Planning.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Head of School of Architecture and Planning.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

8 a Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours will be determined by the student’s weighted average grade over courses undertaken in Parts II, III and IV excluding General Education.

c The class of Honours is determined by the weighted Grade Point Average as follows:
   7.0 to 9.0 - First Class Honours
   5.5 to 6.9 - Second Class Honours First Division
   4.0 to 5.4 - Second Class Honours Second Division
   3.9 and below - Third Class Honours

Amendment

9 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Architecture – MArch

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this programme, a student needs to have:
   
ed either
   a (i) completed the requirements for the Degree of Bachelor of Architecture
   or
   (ii) completed the requirements for the Master of Architecture (Professional)
   or
   (iii) completed the requirements for the Postgraduate Diploma in Architecture
   or
   (iv) completed the requirements for an equivalent qualification, approved by Senate or its representative, that is indicative of ability to undertake advanced study in Architecture

   and

   b achieved a sufficiently high average grade, as determined by the Head of School of Architecture and Planning.

2. A student who has not completed all the requirements for one of the qualifications listed in Regulation 1 but who, for that qualification, has:
   
   a no more than 20 points left to complete

   and

   b achieved an average grade of B– or higher in at least 70 points at the highest level of that qualification may, with the approval of the Head of School, enrol for this degree. The remaining points required for the qualification must be completed within 12 months of initial enrolment for this degree. Should this requirement not be completed in this time, the enrolment for the Degree of Master of Architecture will be suspended until they have been completed.

Duration and Total Points Value

3. A student enrolled for this degree must:
   
   a pass courses with a total value of 120 points

   and

   b complete within the time limit specified in the General Regulations – Masters Degrees.

4. The total enrolment for this degree must not exceed 160 points.

Structure and Content

5. Of the 120 points required for this degree, a student must pass:

   **Research Masters**
   
ed either
   a 120 point Thesis listed in the Master of Architecture Schedule

   or

   b (i) 90 point Thesis listed in the Master of Architecture Schedule

   and

   (ii) at least 30 points from courses approved by the Head of School of Architecture and Planning from:

       (a) the Elective Courses listed in the Master of Architecture Schedule

       (b) the Elective Courses listed in the Postgraduate Diploma in Architecture Schedule, not already passed for that qualification

       (c) other 700 level programmes offered at this University

   or

   c **Sustainable Design**
   
ed either

   (i) 120 point Thesis listed in the Master of Architecture Schedule

   or

   (ii) 90 point Thesis listed in the Master of Architecture Schedule

   and

   30 points from the Elective Courses listed in the Master of Architecture Schedule.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

Thesis

7. a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The thesis topic must be approved by the Head of School of Architecture and Planning prior to enrolment.
The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2014.

The Degree of Master of Architecture (Professional) – MArch(Prof)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of Bachelor of Architectural Studies with a Grade Point Average of 4.0 or higher in 90 points at Stage III, or the equivalent as approved by Senate or its representative.

2 A student who has not completed the requirements for the Degree of Bachelor of Architectural Studies or the equivalent but who has:
   a no more than 20 points left to complete
   and
   b achieved a Grade Point Average of 5.0 or higher in 90 points at Stage III, or the equivalent, may, with the approval of the Head of School of Architecture and Planning, enrol in the courses for the Master of Architecture (Professional). The remaining points required for the Degree of Bachelor of Architectural Studies or its equivalent must be completed within 12 months of initial enrolment for the Master of Architecture (Professional). Should this requirement not be completed within this time, enrolment for the Degree of Master of Architecture (Professional) will be suspended until they have been completed.

Duration and Total Points Value
3 A student who has enrolled for this degree must pass courses with a total value of 240 points.

4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Architecture (Professional) Schedule.

6 A student who has not completed ARCHPRM 304, 305, ARCHTECH 307, 312, 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706.

7 The programme for each student requires the approval of the Head of School of Architecture and Planning.

8 A student enrolled for this degree must, before enrolment in ARCHDES 796, achieve a Grade Point Average of 4.0 or higher over 90 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) cannot continue.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Planning (Professional) once.
b A student may reassign courses from this degree to the Master of Architecture (Professional) and Heritage Conservation once.

c A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Design once.

d A student may apply to reassign courses passed for the Master of Architecture (Professional) to the Postgraduate Diploma in Architectural Studies.

e All courses that can be reassigned must be reassigned including courses not completed.

**Deadlines for Completion**

11 a A student must complete the requirements for this degree within four semesters if enrolled full-time or eight semesters if enrolled part-time or equivalent.

b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.

c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

**Completion of Requirements**

12 a If in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 11c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees, Regulation 4.

b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.

c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 11 in order to complete the coursework component of the degree.

**Thesis**

13 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d The exhibition and oral presentation will be followed by the submission of the thesis.

e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University's digital repository.

f The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 12 and 13.

g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i Where the outcome of the examination is to award a thesis a passing grade:

   (i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.

   (ii) The thesis deposited in digital form will be accessible to authenticated users through the University's digital repository unless embargoed under Regulation 25 of the Examination Regulations.
Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

A Certificate of Proficiency course may be reassigned to the coursework component of this degree as specified in Regulation 9 of the Credit Regulations.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Architecture (Professional) (MArch(Prof)) Schedule

| Requirement: Research Masters: | up to 15 points from ARCHGEN 721–725  
| • 90 points: ARCHDES 700, 701, ARCHGEN 703, ARCHPRM 701  
| • up to 30 points from ARCHPRM 700, ARCHTECH 706  
| • 30 points comprising:  
| up to 15 points from ARCHGEN 711–716

The Degree of Master of Architecture (Professional) and Heritage Conservation – MArch(Prof)HerCons

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this programme, a student needs to meet the admission requirements for the Degrees of Master of Architecture (Professional) and Master of Heritage Conservation.

Duration and Total Points Value

A student admitted to this degree must pass courses with a total value of 300 points.

The total enrolment for this degree must not exceed 340 points.

Structure and Content

A student enrolled for this degree must complete requirements as listed in the Master of Architecture (Professional) and Heritage Conservation Schedule.

A student who has not completed ARCHPRM 304, 305, ARCHTECH 307, 312, 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706.

The programme for each student requires the approval of the Head of School of Architecture and Planning.

A student enrolled for this degree must, before enrolment in ARCHDES 796, achieve a Grade Point Average of 4.0 or higher over 120 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) and Heritage Conservation cannot continue.

A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Deadlines for Completion

A student must complete the requirements for this degree within five semesters if enrolled full-time or ten semesters if enrolled part-time or equivalent.

A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.

With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.
Completion of Requirements
9  a  If in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 8c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees, Regulation 4.

b  Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.

c  A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 8 in order to complete the coursework component of the degree.

Thesis
10  a  The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b  The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c  The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d  The exhibition and oral presentation will be followed by the submission of the thesis.

e  Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.

f  The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 9 and 10.

g  The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h  The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i  Where the outcome of the examination is to award a thesis a passing grade:

(1)  Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.

(2)  The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

j  Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

Reassignment
11  a  A student may reassign courses from this degree to the Master of Architecture (Professional) once.

b  A student may reassign courses from this degree to the Master of Heritage Conservation once.

c  A student may apply to reassign courses passed for the Master of Architecture (Professional) and Heritage Conservation to the Postgraduate Diploma in Architectural Studies.

d  All courses that can be reassigned must be reassigned, including courses not completed.

Variations
12  In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
13  This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
14  These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Architecture (Professional) and Urban Design – MArch(Prof)UrbDes

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to meet the admission requirements for the Degree of Master of Architecture (Professional).

Duration and Total Points Value
2 a A student admitted to this degree must pass courses with a total value of 300 points.
   b The total enrolment for this degree must not exceed 340 points.

Structure and Content
3 A student enrolled for this degree must complete the requirements as listed in the Master of Architecture (Professional) and Urban Design Schedule.
4 A student who has not completed ARCHPRM 304, 305, ARCHTECH 307, 312, 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706.
5 The programme for each student requires the approval of the Head of School of Architecture and Planning.
6 A student enrolled for this degree must, before enrolment in ARCHDES 796, achieve a Grade Point Average of 4.0 or higher over 120 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) and Urban Design cannot continue.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Deadlines for Completion
8 a A student must complete the requirements for this degree within five semesters if enrolled full-time or ten semesters if enrolled part-time or equivalent.
   b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.
   c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

Completion of Requirements
9 a If in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 8c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees, Regulation 4.
   b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.
   c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 8 in order to complete the coursework component of the degree.

Thesis
10 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d The exhibition and oral presentation will be followed by the submission of the thesis.

e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.

f The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 8 and 9.

g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i Where the outcome of the examination is to award a thesis a passing grade:

(i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.

(ii) The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

j Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

Reassignment

11 a A student may reassign courses from this degree to the Master of Architecture (Professional) once.

b A student may apply to reassign courses passed for the Master of Architecture (Professional) and Urban Design to the Postgraduate Diploma in Architectural Studies.

c All courses that can be reassigned must be reassigned including courses not completed.

Variations

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

13 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment

14 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Architecture (Professional) and Urban Planning (Professional) – MArch(Prof)UrbPlan(Prof)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student must meet the admission requirements for the Degrees of Master of Architecture (Professional) and the Master of Urban Planning (Professional).
Duration and Total Points Value

2 a A student admitted to this degree must pass courses with a total value of 360 points.

b The total enrolment for this degree must not exceed 400 points.

Structure and Content

3 A student enrolled for this degree must complete the requirements as listed in the Master of Architecture (Professional) and Urban Planning (Professional) Schedule.

4 A student who has not completed ARCHPRM 304, 305, ARCHTECH 307, 312, 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706.

5 The programme for each student requires the approval of the Head of School of Architecture and Planning.

6 A student enrolled for this degree must, before enrolment in ARCHDES 797, achieve a Grade Point Average of 4.0 or higher over 180 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) and Urban Planning (Professional) cannot continue.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Deadlines for Completion

8 a A student must complete the requirements for this degree within six semesters if enrolled full-time or twelve semesters if enrolled part-time or equivalent.

b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.

c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

Completion of Requirements

9 a If in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 8c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees, Regulation 4.

b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.

c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 8 in order to complete the coursework component of the degree.

Thesis

10 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d The exhibition and oral presentation will be followed by the submission of the thesis.

e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.

f The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 9 and 10.

g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.
Where the outcome of the examination is to award a thesis a passing grade:
(i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.
(ii) The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

Reassignment

11 a A student may reassign courses from this degree to the Master of Architecture (Professional) once.

b A student may reassign courses from this degree to the Master of Urban Planning (Professional) once.

c A student may apply to reassign courses passed for the Master of Architecture (Professional) and Urban Planning (Professional) to the Postgraduate Diploma in Architectural Studies.

d All courses that can be reassigned must be reassigned, including courses not completed.

Variations

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

13 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment

14 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Community Dance – MCommDance

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Postgraduate Diploma in Dance Studies with a Grade Point Average of 5.0 or higher
   or
   b completed the requirements for the Degree of Bachelor of Dance Studies (Honours) with a Grade Point Average of 5.0 or higher
   or
   c completed the requirements for an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher
   and
   demonstrated the ability to undertake advanced study in Community Dance.

Duration and Total Points Value

2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 160 points.
Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Master of Community Dance Schedule.

5 The programme for each student must be approved by the relevant Head of Department or Programme Coordinator prior to enrolment.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis

7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

    b The thesis topic must be approved by the relevant Head of Department or Programme Coordinator prior to enrolment.

    c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations

8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment

10 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Master of Dance Studies – MDanceSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   either
   a completed the requirements for the Degree of Bachelor of Dance Studies (Honours), Postgraduate Diploma in Creative and Performing Arts or Postgraduate Diploma in Dance Studies from this University, or the equivalent as approved by Senate or its representative
   or
   b completed the requirements for the Degree of Bachelor of Dance Studies including 90 points at Stage III with a Grade Point Average of 5.0 or higher from this University, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has extensive relevant practical, professional or scholarly experience equivalent to the requirements in Regulation 1b.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Dance Studies Schedule.

6 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of courses. If this Grade Point Average is not achieved, enrolment in the Master of Dance Studies cannot continue.

7 Courses selected for this qualification are subject to confirmation by Academic Head or nominee

Reassignment
8 A student may apply to reassign courses passed to the Postgraduate Diploma in Dance Studies.

Thesis
9 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic and mode of presentation for examination must be approved by the Academic Head prior to enrolment.

c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Performance and Exhibition
10 a Where performance or exhibition research forms an agreed part of the thesis presentation under Regulation 8b, the examination of the performance or exhibition component shall be organised by the Academic Head in conjunction with the Faculty Student Centre. The process for the written thesis shall be in accordance with the General Regulations – Masters Degrees.

b Recordings of performances and exhibitions are not deposited in the University Library, nor deposited with the University’s digital repository, except when included within a written thesis submission in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

**The Degree of Master of Design – MDes**

_The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations._

**Admission**
1 In order to be admitted to this degree, a student must have completed the requirements for: _either_
a (i) a Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 90 points at Stage III, or the equivalent as approved by Senate or its representative

or

(ii) (a) a Bachelors degree from this University or the equivalent as approved by Senate or its representative

and

(b) the Postgraduate Certificate in Design from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

or

b a Bachelors Honours degree from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstance Senate or its representative may approve admission of a student who has:

a attained extensive relevant practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirement in Regulation 1

and

b performed at an acceptable level in any tests of academic aptitude, portfolio and/or interviews prescribed by Senate or its representative.

Duration and Total Points Value

3 A student enrolled for this degree under Regulation 1b must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 160 points for the total enrolment in this degree.

4 A student admitted to this degree under Regulation 1a or 2 must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

b not exceed 220 points for the total enrolment in this degree.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Master of Design Schedule.

6 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses to enrol in either DESIGN 794 or 795.

7 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Portfolio / Thesis

8 a The research portfolio or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic must be approved by the Academic Head or nominee prior to enrolment.

c The research portfolio or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment

9 A student may apply to reassign courses passed to the Postgraduate Certificate in Design.

Transfer from Postgraduate Certificate in Design

10 A student who has passed courses towards the Postgraduate Certificate in Design may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Variations

11 In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction / Honours / Merit

12 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Commencement

13 These regulations came into force on 1 January 2021.

The Degree of Master of Fine Arts – MFA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have:
   either
   a completed the requirements for the Degree of Bachelor of Fine Arts (Honours) or Postgraduate Diploma in Fine Arts from this University with a Grade Point Average of 4.5 or higher, or the equivalent as approved by Senate or its representative
   or
   b (i) completed the requirements for the Degree of Bachelor of Fine Arts from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) completed the requirements for a Bachelors degree from this University, or the equivalent as approved by Senate or its representative
   and
   (b) completed the requirements for the Postgraduate Certificate in Fine Arts from this University with a Grade Point Average of 4.5 or higher
   or
   (iii) (a) completed the requirements for a Bachelors degree from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative
   and
   (b) provided appropriate references, a portfolio and/or completed interviews prescribed by Senate or its representative.

Duration and Total Points Value

2 A student admitted under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

3 A student admitted under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Master of Fine Arts Schedule.

5 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses prior to enrolment in FINEARTS 779, 780 or 781.
6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

7 A student may apply to reassign courses passed to the Postgraduate Certificate in Fine Arts.

8 a The research essay, research portfolio, studio, studio practice essay, or studio research essay is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The research essay, research portfolio, studio, studio practice essay, or studio research essay topic and/or mode of presentation must be approved by the Head of School, Elam, no later than the end of week two of the first semester of enrolment.

c Examination of the research portfolio or studio through exhibition or performance shall be organised by the Head of School, Elam, in consultation with the Faculty Student Centre, which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.

d A student enrolled in the research portfolio must submit two temporary-bound copies and a digital copy of the written component to the Faculty Student Centre.

Deadlines for Completion

9 A student enrolled in the research essay, research portfolio, studio, studio practice essay or studio research essay must complete the assessable outcomes for that course:

a by the date approved by the Head of School, Elam, which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment

or

b up to 12 months if enrolled full-time, or its equivalent part-time, after the student's initial enrolment in the research essay, research portfolio, studio, studio practice essay, or studio research essay with the approval of the Head of School, Elam.

Variations

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction / Honours / Merit

11 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Amendment

12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Music – MMus

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a the Degree of Bachelor of Music (Honours) or Postgraduate Diploma in Music from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
   or
   b (i) the Degree of Bachelor of Music from this University with a Grade Point Average of 4.0 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative
   or
   (ii) a relevant Bachelors degree as approved by Senate or its representative with a Grade Point Average of 4.0 in 75 points at Stage III, or the equivalent as approved by Senate or its representative
   or
   (iii) (a) the Degree of Bachelor of Music from this University or the equivalent as approved by Senate or its representative
   and
   (b) the Postgraduate Certificate in Music from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: A relevant Bachelors degree may be in arts, creative arts, education, humanities, or performing arts, and should include a music component.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Music Schedule.

6 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses prior to enrolment in MUS 785 or 786. If this Grade Point Average is not achieved, enrolment in the Master of Music cannot continue.

7 A student who has previously passed any courses the same as, or similar to, courses required for this degree must substitute (an) alternative course(s) approved by the Head of the School of Music.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Completion of Requirements
9 If in exceptional circumstances beyond the student’s control, the Research Portfolio or Thesis has not been able to be completed by the date set under Regulation 3, Senate or its representative, acting upon the recommendation of the Head of School of Music, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in Regulation 4 of the General Regulations – Masters Degrees.
Research Project / Thesis
10 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The research project or thesis topic must be approved by the Academic Head or nominee prior to enrolment.

c The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Research Portfolio
11 a The research portfolio is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The portfolio of creative work is to include a written component, in which the creative elements of the portfolio should be discussed in a scholarly and intellectually coherent manner.

c The research portfolio is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
12 A student may apply to reassign courses passed to the Postgraduate Diploma in Music or Postgraduate Certificate in Music.

Transfer from Postgraduate Certificate in Music
13 A student who has passed courses towards the Postgraduate Certificate in Music that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
15 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
16 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Urban Design – MUrbdEs
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
either
  a  the Degree of Bachelor of Architecture
  or
  b  the Degree of Bachelor of Planning
  or
  c  the Degree of Bachelor of Urban Planning (Honours)
  or
  d  the Degree of Master of Architecture (Professional)
  or
  e  the Degree of Master of Planning Practice
  or
  f  the Degree of Master of Urban Planning
  or
  g  a qualification equivalent to a four-year degree in Landscape Architecture, approved by Senate or its representative
  or
  h  an equivalent qualification, provided that Senate or its representative is satisfied that the prior degree or equivalent qualification is indicative of ability to undertake advanced study in Urban Design.

2 Applicants for admission will be required to submit a portfolio of work that provides evidence of an appropriate level of skill in design and urban analysis, a resume of professional work, and a statement on why they wish to study urban design.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a  pass courses with a total value of 120 points
   and
   b  complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 Taught Masters
   A student enrolled for this degree must pass 120 points from the courses listed in the Master of Urban Design Schedule.

6 If any of the courses listed have been previously completed, students must substitute an equivalent number of points from 700 level courses offered in the School of Architecture and Planning.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
8 a  A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Design once.

   b  A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Urban Design once.

   c  All courses that can be reassigned must be reassigned, including courses not completed.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Distinction
10 This degree may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high. Distinction may be awarded where a student has achieved a grade of A- or higher overall. Merit may be awarded where a student has achieved a B+ grade overall.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Urban Planning – MUrbdPlan

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Urban Planning or the Degree of Bachelor of Urban Planning (Honours) from this University with a Grade Point Average of 5.0 or higher in URBPLAN 711-714, 734, 735, 757
   or
   b completed the requirements of an equivalent qualification as approved by Senate or its representative, that is indicative of their ability to undertake advanced study in Urban Planning, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Urban Planning Schedule.
5 With the approval of the Head of School of Architecture and Planning, up to 30 points may be substituted from other 700 level courses at this University.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the Head of School of Architecture and Planning.
   c The thesis topic is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

The Degree of Master of Urban Planning (Professional) – MUrbdPlan(Prof)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a Bachelors or Masters degree, in a relevant discipline excluding the Degrees of Bachelor of Planning, Bachelor of Urban Planning, Bachelor of Urban Planning (Honours), Master of Planning Practice and Master of Urban Planning, and having:
achieved an average grade of B or higher in at least 90 points at Stage III or in the final Part in that Bachelors degree  
or  
(ii) achieved an average grade of B or higher in at least 90 points for the final Part of that Masters degree  
or  
b gained an equivalent qualification, provided that Senate or its representative is satisfied that the prior degree or equivalent qualification is indicative of ability to undertake advanced study in Urban Planning.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 240 points  
   and  
   b complete within the time limit specified in the General Regulations – Masters Degrees.
3 The total enrolment for this degree must not exceed 280 points.

Structure and Content
4 Taught Masters
   A student enrolled for this degree must pass 240 points in courses from Parts I and II as listed in the Master of Urban Planning (Professional) Schedule.
5 Each Part must be completed before the next Part may be taken.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Planning (Professional) once.
   b A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Heritage Conservation once.
   c A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Urban Design once.
   d All courses that can be reassigned must be reassigned including courses not completed.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment

The Degree of Doctor of Fine Arts – DocFA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.

Preamble
1a A candidate for the Degree of Doctor of Fine Arts is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

1b It is expected that this programme will normally be completed within four years of full-time candidature and in no fewer than three years of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.

1c The Degree of Doctor of Fine Arts is awarded for a formal and systematic exposition of a coherent programme of advanced creative work that is supported by a written thesis and carried out over the period of registration for the degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:

(i) is an original and substantial creative work

and

(ii) meets internationally recognised standards for such work

and

(iii) the thesis is an original contribution to the field of Fine Art and demonstrates knowledge of the artistic practices and literature relevant to the creative work undertaken and the ability to exercise critical and analytical judgment of them.

1d The submission of the creative work will normally be:

(i) an exhibition, and/or other live performance held after submission of the thesis.

or

(ii) audio, visual or other recording or documentation submitted together with the thesis.

1e The thesis may not, without prior approval of the Board of Graduate Studies, exceed 30,000 words in total.

1f All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility
2 A candidate for the Degree of Doctor of Fine Arts is required to have:

2a (i) completed the requirements for the award of either the Degree of Master of Fine Arts with First Class or Second Class Honours First Division at the University of Auckland

or

(ii) completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent

and

2b demonstrated to the satisfaction of the Head of School of Fine Arts, in consultation with the School of Fine Arts Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in fine arts creative practice and research.

Admission Essential
3 A candidate for the Degree of Doctor of Fine Arts must have applied for admission and been admitted to the University of Auckland.
Duration
4 A candidate must complete the requirements for this degree within not fewer than three full-time years and not more than four full-time years (or their part-time equivalent) from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8 of these regulations.

Registration
5 a Registration and all conditions pertaining to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
   b The following provisional goals are required of all candidates:
      (i) approval of the full research proposal by the appropriate departmental/faculty postgraduate committee, including full proposals for both creative work and thesis, a provisional title, a discussion of methodology, an outline of the creative work to be undertaken, an outline of the thesis structure and statement of the resources required to complete the research
      (ii) substantial examples of creative work such as a series of works, exhibition, or performance completed to the satisfaction of the main supervisor
      (iii) a substantial piece of written work, such as a literature review, completed to the satisfaction of the main supervisor
      (iv) presentation by the student of the research proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the main supervisor
      (v) ethics approval/s and/or permissions obtained for the research (if required)
      (vi) attendance at one of the Doctoral Skills Programme Induction Days
      (vii) completion of the standard doctoral milestone goals relating to induction, English language and academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration
      (viii) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities.
   c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

Structure and Content
6 A student enrolled for this degree must pass FINEARTS 894 Studio.

Reviews of Registration
7 Reviews of progress and continuation of registration will be made according to Regulation 3 of the General Regulations for Named Doctorates.

Changes to the Conditions of Registration
8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees
9 Enrolment and fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Submission
10 a Time for Submission
   Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the creative work and thesis in no fewer than three and no more than four years from the Date of Registration if they are full-time students, or no fewer than six and no more than eight years in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.
   b Copies of Creative Work and Thesis
      (i) In those cases where the submission of the creative work is an exhibition and/or performance, as in Regulation 1d(i), the following will apply:
          At least one month prior to the submission of the creative work, all candidates are initially required to submit one copy in temporary binding and one electronic copy in pdf format of the thesis to the School of Graduate Studies. Copies should include the following statement to examiners on the first page: “This thesis is for examination purposes only and is confidential to the examination process.”
      (ii) In those cases where the creative work is submitted together with the thesis, as in Regulation 1d(ii), all candidates are initially required to submit two copies of the creative work as documentation and/or as recordings in a standard retrievable form, and one copy of the thesis in temporary binding and one electronic copy of the thesis in pdf format to the School of Graduate Studies by the maximum
submission date. The thesis copies should include the following statement to examiners on the first page:

“This creative work and thesis are for examination purposes only and are confidential to the examination process.”

c Notification of Submission

Three months prior to the expected date of submission of the creative work, or of the creative work and thesis, candidates should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the creative work or thesis on the grounds of conflict of interest, then they may also submit at this time the name of this person or people and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

This notice of submission must be approved by the Head of School and, in the case of Regulation 1d(i), must include:

(i) a brief statement describing the creative work to be examined

and

(ii) a statement as to the availability of the creative work for examination

and

(iii) confirmation that a suitable venue for such creative work as an exhibition and/or performance is available within the time limit of the enrolment

and

(iv) confirmation that the creative work submission will be recorded in a standard retrievable form and two copies deposited with the School of Graduate Studies.

In the case of Regulation 1d(ii), this notice of submission must be approved by the Head of School and must include:

(v) a brief statement describing the creative work to be examined

and

(vi) a statement as to the availability of the creative work for examination; that it will be documented, or recorded in a standard retrievable form, and that two copies will be deposited with the School of Graduate Studies.

d Declaration as to Originality of the Thesis and Creative Work

The thesis is to be accompanied by a statutory declaration, signed by the candidate, stating:

(i) that the creative work and thesis are the candidate's own work

(ii) whether any part of the creative work and/or thesis (in form or substance) has been submitted or accepted for any other degree or diploma and, where that is the case, clearly setting out the extent to which that earlier work has been incorporated into the thesis

(iii) that written permission has been obtained for any third-party copyright material reproduced in the creative work and/or thesis that represents a “substantial part” of the other work

(iv) that the temporary-bound copy and electronic copy of the thesis are identical

e Co-Authorship

(i) Where the thesis contains jointly authored research papers, case studies and/or any other work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.

(ii) Where the thesis includes research reported in published or unpublished co-authored works, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.

(iii) Where the creative work includes co-produced creative work, a Co-Production Form must be signed by the candidate and all the joint producers, stating the elements of the jointly produced material which are the candidate's own work.

f Language of Thesis

The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

Examination

a General Provisions

The Head of School of Fine Arts and/or the Associate Dean (Postgraduate) of the Faculty may nominate another person to the Board of Graduate Studies to be authorised to act in their place in all of the provisions of this Regulation and Regulations 12 and 13. If either the Head of School or Associate Dean (Postgraduate) is a supervisor of the candidate, an alternate must be nominated and appointed.

b Neither the supervisors nor the candidate may communicate with the examiners regarding the examination at any stage of the examination process, except as specified in Regulations 12 and 13 of these regulations.
c Nomination of Examiners
On notification of submission or intent to submit under Regulation 10c, the Head of School will, on the advice of the supervisor/s, nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis and creative work. At least one nominee should be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the research or the preparation of the creative work and/or thesis.

d Appointment of Examiners
The Board of Graduate Studies will consider the nominations provided by the Head of School and any submissions made by the candidate under the provisions of Regulation 10c and will appoint two suitably qualified persons who are available to act as examiners. Both examiners must be able to participate in the oral examination in the case of candidates submitting in accordance with Regulation 1d(i); one examiner must be able to participate in the oral examination in the case of candidates submitting in accordance with Regulation 1d(ii).

e Appointment of Examination Committee
The Board of Graduate Studies will also appoint an Examination Committee which will normally be composed of:
(i) the Head of School
and
(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee
and
(iii) one other person (“the Head of School Nominee”) nominated by the Head of School. This person will have knowledge of the general field of the creative work and the thesis, but not necessarily of the research topic, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the creative work or thesis research or the preparation of the creative work or thesis. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty should be substituted.

Examination with Exhibition and/or Performance
12 a In those cases where the submission of the creative work is an exhibition and/or performance as in Regulation 1d(i), the oral examination will proceed as follows:
(i) The oral examination will take place during the period in which the creative work is being examined and on or near the site of that work.
(ii) Each examiner will be provided with a copy of the thesis at least one month prior to the final exhibition and/or performance and is to examine the thesis independently prior to the oral examination.
(iii) Each examiner will attend the final exhibition or performance of the creative work and is to examine the creative work independently prior to the oral examination.
(iv) The Head of School will arrange the oral examination to take place after the examiners have completed their independent examinations but during the period in which the creative work is available for examination.
(v) The Board of Graduate Studies will appoint a person to act as Independent Chair of the oral examination. The chair must be a member of the academic staff of the University but will not normally be a member of the Faculty of Creative Arts and Industries.
(vi) The oral examination must be attended by the candidate, both examiners, the Chair and the Head of School Nominee on the Examination Committee. The Head of School Nominee will not act as examiner and may only participate to the extent requested by the chair. The main supervisor may attend with the agreement of the candidate but may only participate to the extent requested by the Chair.
(vii) At the oral examination the candidate may give a short introductory presentation concerning the creative work and the thesis.
(viii) During the oral examination, examiners will discuss with the candidate issues pertinent to the creative work and thesis and relevant matters in the field to which the creative work and thesis belong.
(ix) No recommendation regarding outcome is to be made at the time of the oral examination; and no discussion of the recommendations listed in Regulation 12b is permitted at this time regardless of whether or not the candidate is present.
(x) On completion of the oral examination, the Chair will provide a written report to the Board of Graduate Studies attesting to the integrity of the examination.
(xi) On completion of the oral examination there is to be no communication regarding the examination between the examiners, or between the examiners, the Head of School nominee and the candidate.

b Examiners’ Reports
Acting independently, the Examiners are required to provide the School of Graduate Studies, within four weeks
of attendance at the oral examination, with a written report in English on the quality of the creative work and the thesis according to the criteria outlined in Regulation 1c.

Each report will include one of the following recommendations:

either

(i) to award the degree

The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material

or

(ii) to award the degree after specified “minor corrections” have been made to the thesis, to the satisfaction of one of the examiners or nominee (who may be the main supervisor), and by a specified date. The examiner should provide a full list of corrections. This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. These changes can normally be made within a three month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library

or

(iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of one of the examiners or nominee (who will be the Head of School), by a specified date. The examiner should provide a full list of revisions. This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 3-6 month period

or

(b) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the examiner or examiners by a specified date

or

(iv) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the creative work and/or thesis is not yet of Doctor of Fine Arts standard. The creative work and/or thesis will require either further research, reworking of specific areas, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required Doctor of Fine Arts standard. The candidate will be permitted to resubmit, normally within a 12 month period

or

(v) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree. This recommendation is made when an examiner is of the opinion that the creative work and/or thesis has substantive flaws incompatible with the requirements of a Doctor of Fine Arts

or

(vi) not to award the degree.

c As suppliers of evaluative material in terms of the Privacy Act 1993, all examiners will be informed that the information and reports they supply as such will be held in confidence to the candidate, supervisors and to persons involved in the formal examination process. Candidates’ preparation for thesis revision should be assisted by knowing what the examiners have said about their thesis. Examiners’ reports will normally be released initially to those involved in the examination process, other than the candidate. Part 1 of the report, the recommendation, will not be released to the candidate but, if the Examination Committee recommends that the candidate revise the thesis, and the Board of Graduate Studies accepts that recommendation, then the School of Graduate Studies will release the examiners’ evaluations (Part 2 of the report) to the candidate. The author of each report will not be identified. Part 2 of the report will also be released for the purposes of judging the Vice-Chancellors Prize for Best Doctoral Thesis for those candidates who have been nominated.

d The Board of Graduate Studies (through the Dean of Graduate Studies) reserves the right to remove from an examiner’s report made available to the candidate any material that it considers should not be released.

e Replacement of Examiners

If a report has not been received within one month of the oral examination, the School of Graduate Studies will send a reminder to the examiner and advise that unless the report is received within one further month the appointment of the examiner will be terminated. If the report has not been received within one month of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner, who will be provided with a recording of the exhibition and/or performance.

The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.
f  **Consideration of Examiners’ Reports**

Upon receipt of both the examiners’ reports, the School of Graduate Studies will provide copies for consideration by the Examination Committee. The examiners’ reports will also be made available to the supervisor/s on a confidential basis. Supervisor/s may comment on the reports in writing to the Examination Committee on a confidential basis. The Examination Committee may also request clarification of issues raised in the examiners’ reports from the examiners and, if necessary, from supervisors. If the recommendations of the examiners differ and the Examination Committee considers that the difference may be resolved, the Chair may invite the two examiners to consult and to provide a written report or reports on the outcome of their consultations. The Examination Committee may also contact the Examiners to seek agreement on a list of recommended minor corrections and/or revisions.

g  **Recommendation of the Examination Committee**

The Examination Committee will then make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 12e and which recommends one of the following:

(i) to appoint one or more further independent examiners to report on any areas of conflict or

(ii) to award the degree

or

(iii) to award the degree after specified “minor corrections” have been made to the thesis, to the satisfaction of one of the examiners or nominee (who may be the main supervisor), and by a specified date. This recommendation shall include full details of the work to be undertaken and a time frame for the completion of that work and nominate the party to whose satisfaction the work must be completed.

or

(iv) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of one of the examiners or nominee (who will be the Head of School), by a specified date. This recommendation shall include full details of the work to be undertaken and a time frame for the completion of that work and nominate the party to whose satisfaction the work must be completed.

or (b) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Examiner or Examiners by a specified date. This recommendation shall include full details of the work to be undertaken and a time frame for the completion of that work and nominate the party to whose satisfaction the work must be completed.

or

(v) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under this clause. This recommendation shall include a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date the examiner’s reports were forwarded to the Examination Committee by the School of Graduate Studies.

or

(vi) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

or

(vii) not to award the degree.

h  **Further Examiners**

In the event that the examiners’ reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners to report on any matters it may specify. In this event, the candidate will be kept informed, and Regulations 12b to 12d will apply for the reports of the further examiners. Such examiners will be provided with a recording of the exhibition and/or performance, and with a copy of the thesis.

i  **Minor Corrections**

In the event that the Board of Graduate Studies requires a candidate to undertake minor corrections, the following provisions apply:

(i) the Head of School Nominee will ensure that the candidate is provided with a copy of the required minor corrections, and the specified date for the corrections to be completed by

(ii) if the required minor corrections are completed to the satisfaction of an examiner or nominee (who may be the main supervisor) by the specified date, that person will notify the School of Graduate Studies that the degree may be awarded
(iii) in cases where an examiner or nominee (who may be the main supervisor) reports that the minor corrections were not completed to their satisfaction or by the specified date, the Examination Committee will consider the evidence and will make a report and recommendation to the Board of Graduate Studies.

j Revisions
In the event that the Board of Graduate Studies requires the candidate to undertake revisions to the satisfaction of an examiner or nominee (who will be Head of School), or to the satisfaction of both examiners, the following provisions apply:

(i) the Head of School Nominee will ensure that the candidate is provided with a copy of the required revisions, and the specified date for the revisions to be completed by

(ii) if the required revisions are completed to the satisfaction of an examiner or nominee (who will be the Head of School), or the examiners, by the specified date, that person will notify the School of Graduate Studies that the degree may be awarded

(iii) in cases where an examiner or nominee (who will be the Head of School), or the examiners, report that the revisions were not completed to their satisfaction or by the specified date, the Examination Committee will consider the evidence and will make a report and recommendation to the Board of Graduate Studies. This recommendation may include the need to undertake further revisions.

k Revision and Resubmission
In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the creative work and/or thesis and resubmit it on one occasion only, the Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date the examiners’ reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, the following provisions apply:

(i) the School of Graduate Studies will inform the candidate of the decision, and will forward copies of Part 2 of the examiners’ reports to the candidate

(ii) within two weeks of the notification from the School of Graduate Studies, the Examination Committee will meet with the candidate and discuss the revisions required

(iii) the Chair of the Examination Committee will send a written report of the meeting with the candidate to the School of Graduate Studies which will include a recommendation as to the date for resubmission

(iv) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission

(v) if the creative work and/or thesis is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated

(vi) upon resubmission, the revised creative work and/or thesis is to be examined as a whole by the same examiners in accordance with the provisions of Regulation 12, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the creative work and/or thesis, the Board of Graduate Studies will appoint alternative examiner/s

(vii) a second oral will only be held in the event that the creative work is required to be revised and resubmitted

(viii) where no amendments to the thesis were required, the examiners shall be provided with a copy of the original thesis for reference purposes but shall not re-examine it

(ix) where the creative work was not required to be revised and resubmitted, the examiners shall be provided with a recording of the creative work for reference purposes but shall not re-examine it

(x) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 12e. Following consideration of all examiners’ reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 12e and a recommendation in accordance with Regulation 12f of these regulations.

l Final Decision
After considering all of the reports of the examiners and the Examination Committee, the Board of Graduate Studies will make the final decision as to the award of the degree.

m Copies for Deposit

(i) On successful completion of the examination, candidates will be required to deposit two archival records in a standard retrievable form of the examined creative work, and two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, with the School of Graduate Studies. The degree will not be conferred until the candidate has complied with this requirement.

(ii) When two hardbound copies and a digital copy of the Doctor of Fine Arts thesis are deposited, these
must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.

(i) The digital thesis and recording of the examined creative work deposited shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

(ii) A recording of the examined creative work and a thesis which are deposited in digital form will be accessible through the University’s digital repository, unless embargoed under Regulation 25 of the Examination Regulations.

Examination of Creative Work with the Thesis

13 a In those cases where the creative work is submitted together with the thesis, as in Regulation 1d(ii), Regulations 11a to 11e will apply.

b Examiners’ Reports

Each examiner will be provided with the recording or documentation of the creative work and an electronic copy of the thesis in pdf format. The recording or documentation of the creative work and a copy of the thesis will be provided to the Examination Committee. The Examiners will independently examine both the thesis and the creative work. Acting independently, the Examiners are required to provide the School of Graduate Studies, within two months of receipt of the creative work and thesis, with a written report in English on the quality of the creative work and thesis according to the criteria outlined in Regulation 1c.

c The examiners will include with their reports one of the following recommendations:

(i) to award the degree, subject to satisfactory performance at the oral examination. The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material.

or

(ii) to award the degree after specified “minor corrections” have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), by a specified date, and subject to satisfactory performance at the oral examination. This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. These changes can normally be made within a three month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after revisions have been made to the thesis to the satisfaction of the Examiner or nominee (who will be the Head of School), by a specified date, and subject to satisfactory performance at the oral examination. This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 3-6 month period.

or

(iv) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the creative work and/or thesis is not yet of Doctor of Fine Arts standard. The creative work and/or thesis will require either further research, reworking of specific areas, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required Doctor of Fine Arts standard. The candidate will be permitted to resubmit, normally within a 12 month period.

or

(v) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree. This recommendation is made when an examiner is of the opinion that the creative work and/or thesis has substantive flaws incompatible with the requirements of a Doctor of Fine Arts.

or

(vi) not to award the degree.

d As suppliers of evaluative material in terms of the Privacy Act 1993, all examiners will be informed that the information and reports they supply as such will be held in confidence to the candidate, supervisors and to persons involved in the formal examination process. Candidates’ preparation for thesis revision should be assisted by knowing what the examiners have said about their thesis. Examiners’ reports will normally be released initially to those involved in the examination process, other than the candidate. Part 1 of the report, the recommendation, will not be released to the candidate but, if the Examination Committee recommends that the candidate proceed to oral or that the candidate revise and resubmit the work prior to an oral, and the Board of Graduate Studies accepts that recommendation, then the School of Graduate Studies will release the examiners’ evaluations (Part 2 of the report) to the candidate. The author of each report will not be identified.
Part 2 of the report will also be released for the purposes of judging the Vice-Chancellors Prize for Best Doctoral Thesis for those candidates who have been nominated.

The Board of Graduate Studies (through the Dean of Graduate Studies) reserves the right to remove from an examiner’s report made available to the candidate any material that it considers should not be released.

Replacement of Examiners
If a report has not been received within two months, the School of Graduate Studies will send a reminder to the examiner and advise that unless the report is received within two further months the appointment of the examiner will be terminated. If the report has not been received within two months of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.

The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.

Consideration of Examiners’ Reports
The Examination Committee will consider the examination reports in accordance with Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016.

Recommendation of the Examination Committee
The Examination Committee will then make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016 and which recommends one of the following:

(i) to appoint one or more further independent examiners to report on any areas of conflict
or
(ii) to proceed to the oral examination
or
(iii) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only
or
(iv) to refer the thesis to the appropriate authority within the University for consideration of the award of another degree
or
(v) not to award the degree.

Further Examiners
In the event that the examiners’ reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners to report on any matters it may specify. In this event, the candidate will be kept informed, and Regulations 13b to 13e will apply for the reports of the further examiners. Such examiners will be provided with the recording or documentation of the creative work and a copy of the thesis.

Oral Examination
In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

Recommendation of the Oral Examination
On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of School Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations:

either
(i) to award the degree
or
(ii) to award the degree after specified “minor corrections” (see Regulation 13c(ii)) have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), and by a specified date
or
(iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School), by a specified date. When the Head of School acts as the Oral Examiner’s nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School may discuss the revisions with the Head of School Nominee on the Examination Committee and/or the main supervisor. If the Head of School is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis must be assessed by the Oral Examiner
or
(b) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Examiner or Examiners by a specified date
or (iv) to permit the candidate to revise the creative work and/or thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 13h(iii). This recommendation is made when an examiner concludes that the creative work and/or thesis is not yet of Doctor of Fine Arts standard. The creative work and/or thesis will require either further research, reworking of specific areas, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required Doctor of Fine Arts standard. The candidate will be permitted to resubmit, normally within a 12 month period.

or (v) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

or (vi) not to award the degree. In the case of recommendations 13k(iii) and 13k(iv), the report must also state clearly the nature of the revisions recommended.

l When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies.

m When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

Revision and Resubmission

In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the creative work and/or thesis prior to an oral examination, Regulations 12j(i-v) of these regulations will apply

and (i) upon resubmission, the revised creative work and/or thesis is to be examined as a whole by the same examiners in accordance with the provisions of this Regulation 13, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis, the Board of Graduate Studies will appoint alternative examiner/s

(ii) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 13f. Following consideration of all examiners’ reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 13f. The Examination Committee may recommend the appointment of one or more further independent examiners to report on any areas of conflict, and the Board of Graduate Studies may appoint a further examiner in accordance with Regulation 13h of these regulations. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations of the revised thesis (Part 2 of the report) to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulation 9m of the Statute for the Degree of Doctor of Philosophy 2016. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

(a) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

or (b) not to award the degree.

(o) In the event that the Board of Graduate Studies requires that a candidate revise and resubmit the creative work and/or thesis after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be more than 12 months from the date of the oral examination. In such cases, the following provisions apply:

(i) the School of Graduate Studies will inform the candidate of the decision and send a copy of the oral examination report to the Examination Committee

(ii) within two weeks of the notification from the School of Graduate Studies, the Examination Committee will meet with the candidate and discuss the revisions required

(iii) the Chair of the Examination Committee will send a written report of the meeting with the candidate to the School of Graduate Studies

(iv) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission

(v) upon resubmission, the revised creative work and/or thesis is to be examined as a whole by the same examiners in accordance with the provisions of this Regulation 13, excepting that a further resubmission
may not be recommended. If one or both of the original examiners is unavailable to re-examine the creative work and/or thesis, the Board of Graduate Studies will appoint alternative examiner/s

(vi) where no amendments to the thesis were required, the examiners shall be provided with a copy of the original thesis for reference purposes but shall not re-examine it

(vii) where the creative work was not required to be revised and resubmitted, the examiners shall be provided with a copy of the creative work for reference purposes but shall not re-examine it

(viii) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports, the original examiners’ reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 13f. Following consideration of all examiners’ reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 13f. The Examination Committee report must recommend one of the following:

(a) to appoint one or more further examiners in accordance with Regulation 13h of these regulations to report on any areas of conflict

or

(b) to proceed to a second oral examination. In which case Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply

or

(c) to award the degree

or

(d) to award the degree after specified “minor corrections” have been made to the thesis to the satisfaction of the Examiner or nominee (who may be the Main Supervisor), by a specified date

or

(e) to refer the creative work and thesis to the appropriate authority within the University for consideration of the award of another degree

or

(f) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations of the revised thesis (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

p Final Decision
After considering all of the reports of the examiners and the Examination Committee, the Board of Graduate Studies will make the final decision as to the award of the degree.

q Copies for Deposit
(i) On successful completion of the examination, candidates will be required to deposit two archival records in a standard retrievable form of the examined creative work, and two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, with the School of Graduate Studies. The degree will not be conferred until the candidate has complied with this requirement.

(ii) When two hardbound copies and a digital copy of the Doctor of Fine Arts thesis are deposited, these must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.

r (i) The digital thesis and recording of the examined creative work deposited shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

(ii) A recording of the examined creative work and a thesis which are deposited in digital form will be accessible through the University’s digital repository, unless embargoed under Regulation 25 of the Examination Regulations.

Variations
14 In exceptional circumstances the Board of Graduate Studies may approve a personal programme that does not conform to these regulations.

Appeals
15 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures
16 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.
Transitional Arrangements
17 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Fine Arts were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of this statute to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

The Degree of Doctor of Music – DMus
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including Academic Statutes and Regulations.

Preamble
1 a A candidate for the degree of Doctor of Music is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

b It is expected that this programme will normally be completed within four years of full-time candidature but in no fewer than three years of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.

c The Degree of Doctor of Music is awarded for the successful pursuit of a coherent programme of advanced composition that is supported by a written thesis and carried out over the period of registration for the Degree. Upon completion of the programme, candidates must submit a portfolio which, in the opinion of the examiners and the Board of Graduate Studies, satisfies both the following criteria:

(i) the consistent demonstration of compositional skills (the composition component) at the highest professional levels, meeting internationally recognised standards for such work

and

(ii) the provision of written material (the thesis) that demonstrates a knowledge of the artistic practices and literature relevant to the works contained in the composition component and an ability to articulate critical and analytical judgement relating to them.

d The thesis may not, without the prior permission of the Board of Graduate Studies, exceed 20,000 words in total.

e All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility
2 A candidate for the Degree of Doctor of Music is required to have:

a completed the requirements for the Degree of Master of Music at the University of Auckland with First Class Honours or Second Class Honours First Division, or completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to the Degree of Master of Music with First Class Honours or Second Class Honours (First Division) at the University of Auckland

and

b demonstrated, to the satisfaction of the Head of School of Music, in consultation with appropriate Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in music composition and research.

Admission Essential
3 Every candidate for the Degree of Doctor of Music must have applied for admission and have been admitted to the University of Auckland.

Duration and Total Points Value
4 A candidate enrolled for this degree must complete the requirements for this degree, with a total value of 360 points, within not fewer than three full-time years and not more than four full-time years (or the part-time equivalent) from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8 of these regulations.

Registration
5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.

b The following provisional goals are required of all candidates:

(i) full proposals for both the composition component and the thesis, including a provisional title, a
schedule of research, an outline of compositions yet to be written and a statement of resources required to complete the research, to be approved by the appropriate postgraduate committee

(ii) substantial items of compositional and written material, such as a major section from a composed work and a literature review, completed to the satisfaction of the main supervisor

(iii) presentation by the student of the proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the supervisors

(iv) ethics approval/s and/or permissions obtained for the research (if required)

(v) completion of the standard doctoral milestone goals relating to induction, English language and academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration

(vi) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities

(vii) enrolment in and satisfactory passing of one or more courses as determined by the postgraduate committee.

c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

Structure and Content

6

a A candidate for this degree must pass MUS 894 Composition.

b A candidate is to submit for examination a collection of original and substantial musical works of at least sixty minutes’ duration (the composition component), consisting of at least three significant items, each of which may be within any of the following classes:

(i) orchestral work
(ii) work using vocal, keyboard or ensemble resources
(iii) music theatre
(iv) sonic arts.

c Sonic arts may be included in work within classes (i), (ii) or (iii) listed in Regulation 6b.

d A candidate is also to submit for examination a thesis which may address a single research topic or more than one related research topics or provide detailed analytical commentary on the compositions submitted, and which will be linked to the composition component in such a way that the candidate’s creative and aesthetic ideals are clearly articulated.

Reviews of Registration

7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named Doctorates.

Changes to the Conditions of Registration

8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees

9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Submission

10

a Copies of Portfolio

All candidates are initially required to submit one copy of a portfolio in temporary binding and one electronic copy in pdf format to the School of Graduate Studies. The portfolio consists of the composition component and the thesis, which are to be supplemented by three copies of any accompanying audio or audiovisual files, or those involving other media. Copies should include the following statement to examiners on the first page: “This portfolio is for examination purposes only and is confidential to the examination process.”

b Time for Submission

Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the portfolio in no fewer than three and no more than four years from the Date of Registration if they are full-time students, or no fewer than six and no more than eight years in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.

c Notification of Submission

Three months prior to the expected date of submission, candidates should notify the School of Graduate
Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the portfolio on the grounds of conflict of interest, then the candidate may also submit at this time the name of this person or persons and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

d Declaration as to Originality
The portfolio is to be accompanied by a statutory declaration, signed by the candidate, stating:
(i) that the portfolio is the candidate's own work
(ii) that no part of the portfolio has been submitted or accepted for any other degree or diploma
(iii) that written permission has been obtained for any third-party copyright material reproduced in the portfolio that represents a "substantial part" of the other work
(iv) that the temporary-bound copy and electronic copy of the composition component and thesis are identical, and that the three copies of the accompanying files are identical.

e Language of Portfolio
The portfolio is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

Examination
11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that Regulations 9f, 9g, 9l, 9o, 9r (iv-vii), 9s (iv-vii) and 9u of the Statute for the Degree of Doctor of Philosophy 2016 will not apply.

a Nomination of Examiners
On notification of intention to submit under Regulation 10c, the Head of School of Music will, on the advice of the supervisor/s, nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study represented by the portfolio. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the research for or the preparation of the portfolio. Examiners will be appointed in accordance with Regulation 9d of the Statute for the Degree of Doctor of Philosophy 2016.

b Appointment of Examination Committee
The Board of Graduate Studies will also appoint an Examination Committee, which will normally be composed of:
(i) the Head of School of Music
and
(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee
and
(iii) one other person ("the Head of Department Nominee"), nominated by the Head of School of Music. This person will have knowledge of the general field of the portfolio, but not necessarily of the portfolio's techniques and topics, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the research for or the preparation of the portfolio. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty must be substituted.

c Examiners' Reports
Each examiner will be provided with electronic copies of the portfolio, together with accompanying audio or audiovisual files, or those involving other media, and, acting independently, is required to provide the School of Graduate Studies, within two months of receipt of the portfolio, with a written report in English on the quality of the work according to the criteria outlined at Regulation 1c. One copy of the portfolio will be provided to the Examination Committee.

d The examiners will include with their reports one of the following recommendations:
(i) to award the degree, subject to satisfactory performance at the oral examination; The portfolio can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing any of the material contained in the portfolio.
or
(ii) to award the degree after specified "minor corrections" have been made to the portfolio to the satisfaction of one of the examiners or a nominee (who may be the main supervisor) and by a specified date, and subject to satisfactory performance at the oral examination; This recommendation can be made when the composition component has reached the required standard but for minor problems such as those involving notation or performance logistics and/or
when the thesis has reached the required standard but for minor problems such as inconsistency in
terminology, problems connected with referencing or typographical errors. These changes can normally
be made within a three-month period. When these corrections are made, the portfolio will meet the
standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after specified revisions have been made to the portfolio to the satisfaction of the
examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to
satisfactory performance at the oral examination;
This recommendation is made when an examiner concludes that the revisions required are not minor,
but are substantial, for example in the case of the composition component the need to reshape
the structure of a piece, reconsider the use of performing media or achieve higher standards of
presentation, or in the case of the thesis the need to analyse data further, rewrite chapters or sections,
correct significant lapses in logic or coherence, or achieve higher standards of presentation. These
changes can normally be made within a 3-6 month period.

or

(iv) to permit the candidate to revise the portfolio and resubmit it for examination on one further occasion
only.
This recommendation is made when an examiner concludes that the portfolio is not yet of doctoral
standard. It may require in the case of the composition component a reconsideration of structure, a
higher level of understanding of performing media or greater evidence of creative control, and/or in the
case of the thesis further research, rewriting of specific sections, reconceptualisation or reorganisation
in order to reach the required standard. The candidate will be permitted to resubmit, normally within a
twelve-month period.

or

(v) not to award the degree, but refer the portfolio to the appropriate authority within the University for
consideration of the award of another degree.
This recommendation is made when an examiner is of the opinion that the portfolio demonstrates
substantial flaws incompatible with the requirements of a DMus.

or

(vi) not to award any degree.

e Replacement of Examiners
If a report has not been received within two months, the School of Graduate Studies will send a reminder to
the examiner and advise them that unless the report is received within two further months the appointment
of the examiner will be terminated. If the report has not been received within two months of the date of the
reminder, the Board of Graduate Studies may appoint a replacement examiner.

The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an
examiner provides an inappropriate report.

f Consideration of Examiners’ Reports
The examiners’ reports will be referred to the Examination Committee as in Regulation 9k of the Statute for
the Degree of Doctor of Philosophy 2016. The Examination Committee, which will be provided with a copy
of the portfolio and any accompanying audio or audiovisual material, will make a report to the Board of
Graduate Studies which includes the nature and outcome of any communication with the examiner/s and/or
supervisor/s made under Regulation 9k and which recommends one of the following:
(i) to appoint one or more further independent examiners to report on any areas of conflict
or
(ii) to proceed to the oral examination
or
(iii) to permit the candidate to revise the portfolio and resubmit it for examination on one further occasion
only
or
(iv) not to award the degree, but refer the portfolio to the appropriate authority within the University for
consideration of the award of another degree
or
(v) not to award any degree.

g Further Examiners
In the event that the examiners’ reports are in serious conflict the Board of Graduate Studies may appoint
independent external examiners, as specified in Regulation 9m of the Statute for the Degree of Doctor of
Philosophy 2016, to report on any matters it may specify. Such examiners will be provided with copies of the
portfolio.
h Oral Examination
In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

i Recommendation of the Oral Examination
On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations:

either
(i) to award the degree
or
(ii) to award the degree after specified “minor corrections” (see Regulation 11d(ii)) have been made to the portfolio, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), and by a specified date
or
(iii) (a) to award the degree subject to revising part or parts of the portfolio, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School of Music), by a specified date. When the Head of School of Music acts as the Oral Examiner's nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School of Music may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the main supervisor. If the Head of School of Music is unable to assess whether the revisions have been made to the required standard, the revisions to the portfolio must be assessed by the Oral Examiner
(b) to award the degree subject to revising part or parts of the portfolio to the satisfaction of the Examiner or Examiners by a specified date
or
(iv) to permit the candidate to revise the portfolio, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 11f(iii)
or
(v) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree
or
(vi) not to award the degree.
In the case of recommendations 11i(iii) and 11i(iv), the report must also state clearly the nature of the revisions recommended.

j When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies. When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

k Revision and Resubmission
In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the portfolio prior to an oral examination, the Examination Committee will recommend

(i) a timeframe for the resubmission
The date of resubmission of the portfolio may not be fewer than six months or more than twelve months from the date the examiners’ reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, Regulations 9r(i to iii) of the Statutes for the Degree of Doctor of Philosophy Statute 2016 apply

and

(ii) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the portfolio is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission
(iii) if the portfolio is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
(iv) upon resubmission, the portfolio is to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the portfolio, the Board of Graduate Studies will appoint alternative examiner/s.
(v) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11f. Following consideration of all examiners’ reports, the Examination Committee
will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11f. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ reports to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulations 11h and 11i of these regulations. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

(a) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree
or
(b) not to award the degree.

In the event that the Board of Graduate Studies requires the candidate to revise the portfolio after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be fewer than six months or more than twelve months from the date of the oral examination. In such cases, Regulation 9s(i-iii) of the Statute for the Degree for the Doctor of Philosophy 2016 and the following provisions apply:

(i) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the portfolio is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission

(ii) if the portfolio is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated

(iii) upon resubmission, the portfolio is to be examined by the same examiners in accordance with the provisions of this Clause, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable, the Board of Graduate Studies will appoint alternative examiner/s.

(iv) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports, the original examiners’ reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11f. Following consideration of all examiners’ reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11f. The Examination Committee report must recommend one of the following:

(a) to proceed to a second oral examination (in which case Regulations 11h and i of these regulations apply)

or

(b) to award the degree

or

(c) to award the degree after specified “minor corrections” (see Regulation 11d(ii)) have been made to the portfolio to the satisfaction of the Examiner or nominee (who may be the main supervisor), by a specified date

or

(d) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

(e) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations of the work (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

**Final Decision**

After considering all of the reports of the examiners and Examination Committees, the Board of Graduate Studies will make the final decision as to the award of the degree.

**Copies for Deposit**

On completion of the examination the candidate must deposit two hardbound copies of the portfolio, corrected or revised as may be required, and of any accompanying audio or audiovisual material, with the School of Graduate Studies. These must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same. The degree will not be conferred until the candidate has complied with this requirement.
Variations
12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

Appeals
13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures
14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements
15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Music were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled.

The Degree of Doctor of Musical Arts – DMA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Preamble
1 a A candidate for the degree of Doctor of Musical Arts is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

b It is expected that this programme will normally be completed in no fewer than 33 months and no more than 36 months of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.

c The Degree of Doctor of Musical Arts is awarded for the successful completion of a coherent programme of advanced performance work that is firmly supported by a written thesis and carried out over the period of registration for the Degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies both the following criteria:

(i) the consistent exhibition of performance skills at the highest professional levels, meeting internationally recognised standards for such work

and

(ii) the provision of written material (the thesis) that makes an original contribution to the field of knowledge relating to music performance, and shows an ability to articulate critical judgement and performance theory, while demonstrating a knowledge of the literature relevant to the history and performing practice of the music contained in the candidate’s examinable programmes. The thesis may not, without the prior permission of the Board of Graduate Studies, exceed 35,000 words in total.

d All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility
2 A candidate for the Degree of Doctor of Musical Arts is required to have:

a completed the requirements for the Degree of Master of Music at the University of Auckland with First Class Honours or Second Class Honours First Division, or completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to the Degree of Master of Music with First Class Honours or Second Class Honours (First Division) at the University of Auckland

and

b demonstrated, to the satisfaction of the Head of School of Music, in consultation with the School of Music Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in music performance and research.

Admission Essential
3 Every candidate for the Degree of Doctor of Musical Arts must have applied for admission and have been admitted to the University of Auckland.

Duration and Total Points Value
4 A candidate enrolled for this degree must normally follow a programme of 36 full-time months (or the part-time
equivalent) and pass an approved three-part programme of advanced study in music performance and research with a total value of 360 points.

Registration

5  a  Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.

   b  The following provisional goals are required of all candidates:
      (i) full proposals for both the thesis and future recitals, including a provisional title, a schedule of research, an outline of repertoire and a statement of resources required to complete the research, to be approved by the appropriate postgraduate committee
      (ii) a substantial piece of written work, such as a literature review, completed to the satisfaction of the main supervisor
      (iii) presentation of a minimum of one and maximum of two recitals
      (iv) presentation by the student of the proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the supervisors
      (v) ethics approval/s and/or permissions obtained for the research (if required)
      (vi) completion of the standard doctoral milestone goals relating to induction, English language and academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration
      (vii) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities
      (viii) enrolment in and satisfactory passing of one or more courses as determined by the postgraduate committee.

   c  Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

Reviews of Registration

6  a  Reviews of progress and continuation of registration will be made according to Regulation 3 of the General Regulations for Named Doctorates.

   b  During provisional registration, a candidate must achieve the provisional goals specified by the Board of Graduate Studies, and successfully complete the requirements for Part I of the degree as specified in Regulation 9 of these regulations.

   c  Annual reviews of progress and continuation of registration beyond the period of provisional registration will be made in accordance with Regulation 3d of the General Regulations for Named Doctorates and in relation to Regulation 9 of these regulations below as well as progress on the thesis.

Changes to the Conditions of Registration

7  Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees

8  Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Structure and Content

9  a  During the period of Registration a candidate will undertake a three-part programme of academic and practical research in performance, repertoire and pedagogy relating to the candidate's instrument or performance medium, and present a total of five public recitals each of approximately 90 minutes' duration, including, in Part III, the Final Recital.

   b  The candidate's recitals must provide a balanced programme comprising solo and ensemble repertoire which must include music of historical significance, recognised virtuoso pieces and works of a demanding contemporary nature. For each recital the candidate must provide substantial programme notes of a professional standard. In every case except for the Final Recital, the candidate's proposed programme and programme notes are to be approved by the performance supervisor and the Head of School of Music at least three months before the recital date. The proposed programme for the Final Recital must be included in the candidate's Annual Report at the end of Part II. The proposed Final Recital programme may be changed with the approval of the performance supervisor and the Head of School of Music at least six months before the recital date.
Part I

c During Part I of the degree the candidate will:
(i) present a minimum of one and a maximum of two recitals, as prescribed in Regulations 9a, b and f and
(ii) provide full proposals and a substantial example of written work
and
(iii) give a seminar on the thesis research, in consultation with the appropriate supervisor or supervisors.

Part II
d During Part II of the degree the candidate will continue to undertake supervised research in performance, and on the approved thesis topic. To complete Part II, the candidate must present:
(i) a minimum of two and a maximum of three recitals, so that a total of four recitals has been presented for Parts I and II together
and
(ii) a seminar on the thesis research, in consultation with the appropriate supervisor or supervisors.

Part III
e During Part III of the degree the candidate will complete and submit the thesis, and will present a further seminar and a Final Recital, with a programme that is linked to the thesis topic in such a way that the candidate's theoretical and aesthetic ideals are clearly articulated through both the musical performance and the written submission.

Recitals
f All recitals except the Final Recital will be assessed by panels appointed by the Head of School of Music, to whom a report on each recital should be sent. The panels will consist of an internal examiner, an external examiner of international expertise and distinction and the Head of School of Music or nominee, who will act as moderator. Each of the first four recitals must be judged satisfactory in order for the student to progress to the next.

Recitals judged unsatisfactory will be treated as follows:
(i) the recital should normally be retaken within two months. If circumstances do not allow this, an application may be made to the Head of School of Music for a further month in which to present the recital
(ii) the original programme must normally be offered again in its entirety. Any alteration of the programme must be approved, in advance, by the Head of School of Music
(iii) the same examining panel, where possible, will judge the retaken recital. If either examiner or the Head of School of Music nominee should become unavailable, the Head of School of Music will appoint a replacement.

Recitals may only be retaken once; if a retaken recital is judged to be unsatisfactory, the Head of School of Music will recommend to the Board of Graduate Studies that registration in the degree be terminated.

Submission
10a Copies of Thesis
All candidates are initially required to submit to the School of Graduate Studies one copy of the thesis in temporary binding and one electronic copy in pdf format. Copies should include the following statement to examiners on the first page:
“This thesis is for examination purposes only and is confidential to the examination process”.

b Time for Submission
Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the thesis and undertake the final recital in no fewer than 33 months and no more than 36 months from the Date of Registration if they are full-time students, or no fewer than 66 months and no more than 72 months in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.

c Notification of Submission
Three months prior to the date of the Final Recital, which should normally be undertaken on or before the maximum submission date, a candidate must notify the School of Graduate Studies in writing of their intention to submit the thesis, which must be received one month before the date of the Final Recital or maximum submission date, whichever is sooner. This notice of submission must be approved by the Head of School of Music and must include details of the programme of the Final Recital, as approved by the Head of School of Music, in accordance with Regulation 9b. If a candidate has reason to believe that any person would be unsuitable to serve as an examiner on the grounds of conflict of interest, then the candidate may also submit to the School of Graduate Studies at this time the name of this person or persons and a statement in writing
as to the nature of the conflict of interest. This notice of submission must be approved by the Head of School of Music.

d Declaration as to Originality
One month prior to the date of the Final Recital, the candidate must submit to the School of Graduate Studies one copy of the thesis in temporary binding and one electronic copy in pdf format accompanied by a statutory declaration, signed by the candidate, stating:
(i) that the thesis is the candidate's own work
(ii) that no part of the thesis has been submitted or accepted for any other degree or diploma
(iii) that the temporary-bound copy and electronic copy are identical.

e Language of Thesis
The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

Examination

11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that Regulations 9c, 9e, 9f, 9g, 9i, 9l, 9o, 9r (iv-vii), 9s (iv-vii) and 9u of the Statute for the Degree of Doctor of Philosophy 2016 will not apply.

a Nomination and Appointment of Examiners
Upon request to approve a notice of submission as per Regulation 10c of these regulations, the Head of School of Music will, on the advice of the supervisor(s), nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis and creative work. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University of Auckland or have been involved in either the research for or the preparation of the thesis and recital, and will not therefore have been involved in assessment of any of the first four recitals. Examiners will be appointed in accordance with Regulation 9d of the Statute for the Degree of Doctor of Philosophy 2016. Both examiners must be able to attend the Final Recital in person and one examiner must be able to attend the Oral Examination in person.

b Appointment of Examination Committee
The Board of Graduate Studies will also appoint an Examination Committee, which will normally be composed of:
(i) the Head of School of Music
and
(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee
and
(iii) one other person (“the Head of Department Nominee”), nominated by the Head of School of Music. This person will have knowledge of the general field of the thesis, but not necessarily of the thesis topic, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the thesis research or the preparation of the thesis or recital. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty must be substituted.

c Examination Process
The final examination will take the thesis and the Final Recital into joint consideration.

d The Final Recital is to be attended by both the examiners and the Head of Department Nominee, and must be recorded in both sound and vision.

e Each examiner will be provided with a copy of the thesis, which is to be examined independently. Within one month after the date of the Final Recital, examiners are required to provide the Board of Graduate Studies with a report on both the thesis and the Final Recital according to the criteria given in Regulation 1c. The examiners will include with their reports one of the following recommendations. The examiners may also combine a recommendation of Regulation 11e(v) of these regulations with the recommendation of (ii), (iii) or (iv).
(i) to award the degree, subject to satisfactory performance at the oral examination;
The thesis and Final Recital can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the thesis.

or

(ii) to award the degree after specified “minor corrections” have been made to the thesis to the satisfaction of one of the examiners or a nominee (who may be the main supervisor) and by a specified date, and subject to satisfactory performance at the oral examination (and in the Final Recital if recommendation (v) is also selected).
This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, problems connected with referencing or typographical errors. These changes can normally be made within a three-month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after specified revisions have been made to the thesis to the satisfaction of the examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance at the oral examination (and in the Final Recital if recommendation (v) is also selected).

This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantial, for example the need to analyse data further, rewrite chapters, correct significant lapses in logic or coherence, or achieve higher standards of presentation. These changes can normally be made within a 3-6-month period.

or

(iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the thesis is not yet of doctoral standard. It will require either further research, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required standard. The candidate will be permitted to resubmit, normally within a twelve-month period.

and/or

(v) to permit the candidate to repeat the Final Recital on one further occasion only. This recommendation is made when an examiner concludes that Final Recital was not yet of doctoral standard. It may require a higher level of professional competence, interpretive reconceptualisation or a greater degree of musical artistry. The candidate will be permitted to offer the Final Recital again, normally within a 12-month period.

or

(vi) not to award the degree, but refer the thesis and performance (the Final Recital) to the appropriate authority within the University for consideration of the award of another degree.

or

(vii) not to award any degree.

Replacement of Examiners

(i) If a report has not been received within one month, the School of Graduate Studies will send a reminder to the examiner and advise them that unless the report is received within a further month the appointment of the examiner will be terminated. If the report has not been received within one month of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.

(ii) The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.

Any replacement examiner will be provided with a digital recording of the Final Recital, as well as with a copy of the thesis.

Consideration of Examiners’ Reports

The examiners’ reports will be referred to the Examination Committee as in Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016. The Examination Committee, which will be provided with both a copy of the thesis and a DVD recording of the Final Recital, will make a report to the Board of Graduate Studies which includes the nature and outcome of any communication with the examiner/s and/or supervisor/s made under Regulation 9k and which recommends one of the following:

(i) to appoint one or more further independent examiners to report on any areas of conflict

or

(ii) to proceed to the oral examination

or

(iii) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only

or

(iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only and retake the Final Recital on one further occasion only

or

(v) not to award the degree, but refer the thesis and performance (the Final Recital) to the appropriate authority within the University for consideration of the award of another degree

or

(vi) not to award any degree
Further Examiners
In the event that the examiners’ reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners, as in Regulation 9m of the Statute for the Degree of Doctor of Philosophy 2016, to report on any matters it may specify. Such examiners will be provided with a copy of the recording of the Final Recital and the thesis.

Oral Examination
In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

Recommendation of the Oral Examination
On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations. The Examiners may also combine recommendation Regulation 11j(v) of these regulations with the recommendation of (ii), (iii) or (iv):

either
(i) to award the degree
or
(ii) to award the degree after specified “minor corrections” (see Regulation 11e(iii)) have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the Main Supervisor), and by a specified date, and subject to satisfactory performance in the Final Recital where recommendation (v) is also selected
or
(iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance in the Final Recital where recommendation (v) is also selected. When the Head of School of Music acts as the Oral Examiner’s nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School of Music may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the Main Supervisor. If the Head of School of Music is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis must be assessed by the Oral Examiner
or
(b) to award the degree subject to revising part or parts of the thesis to the satisfaction of the Examiner or Examiners by a specified date
or
(iv) to permit the candidate to revise the thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 11g(iii) or (iv)
and/or
(v) to permit the candidate to repeat the Final Recital on one further occasion only, but only if the candidate has not already been permitted to retake the Final Recital under Regulation 11g(iv)
or
(vi) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree
or
(vii) not to award the degree.

In the case of recommendations 11j(iii) and 11j(iv), the report must also state clearly the nature of the revisions recommended.

When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies. When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

Revision and Resubmission of the Thesis/Repetition of the Final Recital
(i) In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the thesis, or revise the thesis and retake the Final Recital, prior to an oral examination, the Examination Committee will recommend:
(a) a timeframe for the resubmission of the thesis
(b) a timeframe for the retaking of the Final Recital, if required.

(ii) The date of resubmission of the thesis or retaking of the Final Recital may not be fewer than six months or more than twelve months from the date the examiners’ reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, Regulations 9r(i to iii) of the Degree of Doctor of Philosophy Statute 2016 apply
(iii) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted and/or the Final Recital retaken. The registration of the candidate is to continue under the conditions applying at the first date of submission

(iv) if the thesis is not resubmitted or the Final Recital is not repeated by the prescribed date, the registration of the candidate will normally be terminated

(v) upon resubmission of the thesis, or resubmission of the thesis and retaking of the Final Recital, the thesis, and Final Recital if retaken, are to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission or recital may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis or to attend the repeated Final Recital, the Board of Graduate Studies will appoint alternative examiner/s. In cases where a repeated Final Recital has not been required by the Board of Graduate Studies, examiners will be provided with a copy of the recording of the original.

(vi) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11g. Following consideration of all examiners’ reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11g. The Examination Committee may recommend the appointment of one or more further independent examiners to report on any areas of conflict, and the Board of Graduate Studies may appoint a further examiner where there is serious conflict between examiners’ reports. Further examiners must be provided with a copy of the thesis and a recording of the Final Recital. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ reports to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulations 11i and 11j of these regulations. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

(a) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

(b) not to award the degree.

m In the event that the Board of Graduate Studies requires the candidate to revise the thesis and/or repeat the Final Recital after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be fewer than six months or more than twelve months from the date of the oral examination. In such cases, Regulation 9s(i-iii) of the Statute of the Degree for the Doctor of Philosophy 2016 and the following provisions apply:

(i) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted and/or the Final Recital retaken. The registration of the candidate is to continue under the conditions applying at the first date of submission

(ii) if the thesis is not resubmitted or the Final Recital is not repeated by the prescribed date, the registration of the candidate will normally be terminated

(iii) upon resubmission, the thesis and/or Final Recital are to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission or recital may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis or to attend the repeated Final Recital, the Board of Graduate Studies will appoint alternative examiner/s. In cases where a repeated Final Recital has not been required by the Board of Graduate Studies, examiners will be provided with a copy of the recording of the original.

(iv) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports, the original examiners’ reports and the oral examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11g. Following consideration of all examiners’ reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11g. The Examination Committee report must recommend one of the following:

(a) to appoint one or more further examiners to report on any areas of conflict. Where the Board of Graduate Studies appoints a further examiner, they shall be provided with a copy of the thesis and a recording of the Final Recital as appropriate.

or

(b) to proceed to a second oral examination in cases where the thesis was revised and resubmitted (in which case Regulations 11i and 11j of these regulations apply)
(c) to award the degree
or
(d) to award the degree after specified minor corrections (see Regulation 11e(ii)) have been made to
the thesis to the satisfaction of the Examiner or nominee (who may be the Main Supervisor), by a
specified date
or
(e) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the
University for consideration of the award of another degree
or
(f) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate
Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations
of the work (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

Final Decision
After considering all of the reports of the examiners and Examination Committees, the Board of Graduate
Studies will make the final decision as to the award of the degree.

Copies for Deposit
On completion of the examination the candidate must deposit two hardbound copies of the thesis and one
digital copy, corrected or revised as may be required, and the audio and video recordings of the Final Recital
with the School of Graduate Studies. These must be accompanied by a statutory declaration signed by
the candidate stating that the hardbound copies and the digital copy are the same. The degree will not be
conferred until this requirement has been complied with.

Variations
12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not
conform to these regulations.

Appeals
13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made
according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures
14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements
15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Musical
Arts were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may
agree to vary the provisions of these regulations to ensure consistency with the provisions of the regulations
under which the candidate was enrolled.

Certificate in Architectural Studies – CertAS

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations
including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Architectural Studies, or the Graduate Diploma in Architectural
      Studies at this University
   and
   b passed at least 60 points for that degree or diploma
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Architectural
Studies Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Dance Studies – CertDanceSt

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Dance Studies at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Dance Studies Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Design – CertDes

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Design, or a conjoint programme that includes the Bachelor of Design as a component degree, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Design Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Fine Arts – CertFA

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Fine Arts, or a conjoint programme that includes the Bachelor of Fine Arts as a component degree, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Fine Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Music – CertMus

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Music, or a conjoint programme that includes the Bachelor of Music as a component degree, or the Graduate Diploma in Music, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Music Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.
Diploma in Architectural Studies – DipAS

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this diploma, a student must have:
   a. been enrolled in the Degree of Bachelor of Architectural Studies at this University
   and
   b. passed at least 120 points for that degree
   and
   c. been recommended for admission by the Dean or nominee.

Total Points Value
2. A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3. Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Architectural Studies Schedule.
4. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6. These regulations came into force on 1 January 2021.

Diploma in Dance Studies – DipDanceSt

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this diploma, a student must have:
   a. been enrolled in the Degree of Bachelor of Dance Studies at this University
   and
   b. passed at least 120 points for that degree
   and
   c. been recommended for admission by the Dean or nominee.

Total Points Value
2. A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3. Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Dance Studies Schedule.
4. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6. These regulations came into force on 1 January 2021.

Diploma in Design – DipDes

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this diploma, a student must have:
a  been enrolled in the Degree of Bachelor of Design, or a conjoint programme that includes the Bachelor of Design as a component degree, at this University

b  passed at least 120 points for that degree

c  been recommended for admission by the Dean or nominee.

Total Points Value

2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content

3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Design Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

6 These regulations came into force on 1 January 2021.

Diploma in Fine Arts – DipFA

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this diploma, a student must have:

a  been enrolled in the Degree of Bachelor of Fine Arts, or a conjoint programme that includes the Bachelor of Fine Arts as a component degree, at this University

b  passed at least 120 points for that degree

c  been recommended for admission by the Dean or nominee.

Total Points Value

2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content

3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Fine Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

6 These regulations came into force on 1 January 2021.

Diploma in Music – DipMus

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this diploma, a student must have:

a  been enrolled in the Degree of Bachelor of Music, or a conjoint programme that includes the Bachelor of Music as a component degree, at this University

b  passed at least 120 points for that degree
c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Music Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Architectural Studies – GradDipAS

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) a Bachelors degree in interior architecture, interior design, spatial design or an equivalent qualification, as approved by Senate or its representative
   and
   (ii) achieved a Grade Point Average of 5.0 or higher for their entry qualification
   or
   b (i) a Bachelor of Architectural Studies with a major in architectural technology or a three-year Diploma in Architecture or the equivalent, as approved by Senate or its representative
   and
   (ii) achieved a Grade Point Average of 5.0 or higher for their entry qualification.

2 Applicants will be required to submit a portfolio of work that provides evidence that they have an appropriate level of skill in architectural design and graphic communication.

Duration and Total Points Value
3 A student admitted to this graduate diploma under Regulation 1a must:
   a pass courses with a total value of 150 points
   and
   b complete within three semesters.

4 A student admitted to this graduate diploma under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within two semesters.

Structure and Content
5 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Architectural Studies Schedule.

6 The programme for each student requires the approval of the Head of School of Architecture and Planning or nominee.

7 Cross-credits will not be granted towards the Graduate Diploma in Architectural Studies.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Diploma in Architectural Studies (GradDipAS) Schedule

A student who has to complete 120 points must satisfy the following requirements:

Requirement:
• 120 points: ARCHDES 300, 301, ARCHHTC 341, ARCHPRM 305, ARCHTECH 314, 315

A student who has to complete 150 points must satisfy the following requirements:

Requirement:
• 135 points: ARCHDES 300, 301, ARCHPRM 305, ARCHTECH 207, 210, 314, 315
• 15 points from ARCHHTC 341, 376

Graduate Diploma in Music – GradDipMus

The regulations for this graduate diploma are to be read in conjunction with all the other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
either
a completed the requirements for the Bachelor of Music
or
b completed the requirements for an equivalent degree approved by Senate or its representative
or
c attained a level of competence approved by Senate or its representative as equivalent to that specified in a or b above and appropriate for the proposed programme for this graduate diploma.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this graduate diploma, a student must pass:
either
a 120 points in courses from the subjects or majors listed in the Bachelor of Music Schedule, Bachelor of Music (Honours) Schedule, MUS 620, including at least 90 points above Stage II
or
b (i) at least 90 points in courses above Stage II from the subjects or majors listed in the Bachelor of Music Schedule, Bachelor of Music (Honours) Schedule, MUS 620
and
(ii) up to 30 points from courses available for any other degree at this University, with the approval of the relevant Heads of Departments and the Head of School of Music.

4 A dissertation may not be included in the Graduate Diploma in Music.

5 Cross-credits will not be granted towards the Graduate Diploma in Music.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
7 In any course that includes performance work of a practical nature, a student needs to comply with the requirements for that course as specified by the Head of School of Music.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations have been amended with effect from 1 January 2020.
Postgraduate Certificate in Architectural Project Management – PGCertAPM

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate certificate, a student must have completed the Degree of Bachelor of Architectural Studies from this University with a Grade Point Average of 4.0 or higher in 60 points at Stage III, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Duration and Total Points Value

3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content

5 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Architectural Project Management Schedule.

6 A student who has not completed ARCHPRM 304-305 or equivalent courses must complete ARCHPRM 700.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

9 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Design – PGCertDes

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for a Bachelors degree from this University with a Grade Point Average of 3.5 or higher in 90 points at Stage III, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has:
   a attained extensive relevant practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirement in Regulation 1
   and
   b performed at an acceptable level in any tests of academic aptitude, portfolio and/or interviews prescribed by Senate or its representative.

Duration and Total Points Value

3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates
   and
   c not exceed 90 points for the total enrolment in this postgraduate certificate.
Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Design Schedule.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
7 These regulations came into force on 1 January 2021.

### Postgraduate Diploma in Architecture – PGDipArch

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Degree of Bachelor of Architectural Studies
   or
   b completed the requirements for an equivalent qualification approved by Senate or its representative
   and
   c achieved a sufficiently high average grade, as determined by the Head of School of Architecture and Planning.

2 A student who has not completed all the requirements for the Degree of Bachelor of Architectural Studies but who, for that qualification, has:
   a no more than 20 points left to complete
   and
   b achieved an average grade of B– or higher in at least 70 points at the highest level of that qualification
   may, with the approval of the Head of School, enrol for this postgraduate diploma. However, the remaining points required for the qualification must be completed within 12 months of initial enrolment for this degree. Should this requirement not be completed in this time, the enrolment for the Postgraduate Diploma in Architecture will be suspended until they have been completed.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 75 points from the Core Courses listed in the Postgraduate Diploma in Architecture Schedule
   and
   b at least 45 points from the Elective Courses listed in the Postgraduate Diploma in Architecture Schedule, as approved by the Head of School of Architecture and Planning.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2014.

Postgraduate Diploma in Fine Arts – PGDipFA

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme a student needs to have:
   a completed the requirements for a Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative
   and
   b at least three years of relevant professional experience approved by Senate or its representative.

Duration and Total Points Value

2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
   and
   c not exceed 160 points for the total enrolment for this postgraduate diploma.

Structure and Content

3 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Fine Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic integrity, of the University Calendar.

Transfer from Postgraduate Certificate in Fine Arts

5 A student who has passed courses towards the Postgraduate Certificate in Fine Arts may apply to reassign those courses to this postgraduate diploma provided that the postgraduate certificate has not been awarded.

Distinction

6 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

8 These regulations and/or schedule have been amended with effect from 1 January 2021.

Postgraduate Diploma in Music – PGDipMus

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Bachelor of Music
   or
   b completed the requirements for an equivalent degree approved by Senate or its representative
   or
   c attained a level of competence approved by Senate or its representative as equivalent to that specified in a or b above, and appropriate for the proposed programme for this postgraduate diploma.
Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 120 points from courses listed in the Bachelor of Music (Honours) Schedule for which the student has passed
      the prerequisite courses
   or
   b (i) at least 90 points from courses listed in the Bachelor of Music (Honours) Schedule for which the student
       has passed the prerequisite courses
       and
       (ii) up to 30 points from courses available for any other Postgraduate Diploma or Bachelors Honours degree
            at this University, with the approval of the relevant Heads of Departments and the Head of School of
            Music.
5 The programme for each student must be approved by the Head of School of Music prior to enrolment.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
7 a A dissertation, when included in the programme, is to be carried out under the guidance of a supervisor
   appointed by Senate or its representative.
   b The dissertation topic must be approved by the Head of School of Music prior to enrolment.
   c The dissertation must be completed and submitted as specified in the General Regulations – Postgraduate
      Diplomas.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations –
   Postgraduate Diplomas.

Practical Requirements
9 In any course that includes performance work of a practical nature a student must comply with the requirements
   for that course as specified by the Head of School of Music.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not
    conform to these regulations.

Amendment
11 These regulations have been amended with effect from 1 January 2021.

Postgraduate Diploma in Therapeutic Dance – PGDipThDance
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a been enrolled in the Degree of Master of Dance Movement Therapy
   and
   b passed at least 30 points in that degree
   and
   c been recommended for admission by the Academic Head or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
3 The total enrolment for this postgraduate diploma must not exceed 160 points.

**Structure and Content**

4 A student enrolled for this postgraduate diploma must pass DANCE 724, 772–776.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

**Variations**

6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

7 These regulations have been amended with effect from 1 January 2018.

The Degree of Bachelor of Education (Teaching) – BEd(Tchg)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children and young persons.

Admission

1. To be admitted to this programme a student must have demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional certification and passed the numeracy and literacy skills assessments.

2. Students who have a qualification gained at an overseas institution may be required to provide evidence of language proficiency.

3. To be admitted to the Huarahi Māori specialisation students must have passed a Te Reo Māori competency assessment and met the University Entrance Literacy requirements in Te Reo Māori or equivalent.

Notes:

(i) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014.

(ii) Personal references and an interview will be required.

Duration and Total Points Value

4. A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Credit Regulations.

Structure and Content

5. Of the 360 points required for this degree, a student must pass:
   a. at least 345 points from one of the specialisations listed in the Bachelor of Education (Teaching) Schedule and
   b. 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6. A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.

English Language Requirements

7. A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDPRAC 304 or 307 or EDPRACM 300.

General Education Exemptions

8. A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   a. completed an undergraduate degree at a tertiary institution
   b. commenced study for this degree at a tertiary institution before 1 January 2006
   c. been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

b. A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses approved by the Dean of Faculty of Education and Social Work.

c. A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Practical Requirements
9  a In any course that has a practicum and non-practicum component, a student must pass both the practicum and the non-practicum component in order to have passed that course as a whole.
   b Re-enrolment in any practicum course after failing that course requires the permission of the Dean or nominee.
   c At the discretion of Senate or its representative, a student who does not pass a practicum course may be declined permission to re-enrol for this degree.

Professional Requirements
10 a In order to complete the requirements for this degree, a student must be able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand.
   b A student who, after enrolment, ceases to be able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean or nominee.
   c If the Dean or nominee has reason to believe that a student does not meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand the Dean or nominee shall advise the student and take into account any written response from the student.
   d If the Dean or nominee is satisfied that the student is not able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand then they will notify Senate or its representative.
   e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.
   f A student whose enrolment is terminated under Regulation 10e may appeal from that decision to the Council or its duly appointed delegate.

Termination of Enrolment
11 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by the Dean of the Faculty of Education and Social Work and any application to re-enrol may likewise be declined.
   b A student who is subject to any such inquiry may be suspended by the Dean of Faculty of Education and Social Work from attending lectures, classes and any teaching placement pending the outcome of the inquiry.
   c A student whose enrolment is terminated under Regulation 11a may appeal from that decision to the Council or its duly appointed delegate.

Reassignment
12 In exceptional circumstances, and with the approval of Senate or its representative, a student may apply to reassign Stage II or III courses passed for this degree to the Graduate Diploma in Education.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2021.

Bachelor of Education (Teaching) (BEd(Tchg)) Schedule

Early Childhood Education
Requirement:
- EDUCSW 199
- 120 points: EDUCRIC 118, EDPRAC 105, EDPROFST 103, 104, EDPROFNM 100, EDUC 106, HUMSERV 102, SOCWORK 111
- 150 points: EDUCRIC 207–209, 216, 217, EDPRAC 205, EDPROFST 211, 212, EDPROFNM 200, EDUC 203
- 75 points: EDPRAC 307, EDPROFST 308, 315, EDPROFNM 300, EDUC 324

Early Childhood Education – Pasifika
The Bachelor of Education (Teaching) in Early Childhood Education - Pasifika was suspended in 2017. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Huarahi Māori
Requirement:
- EDUCSW 199
- 135 points: EDUCRM 108, 109, 113, 117, 119, EDPRACM 100, EDPROFNM 101, 102, EDUCM 106
- 135 points: EDUCRM 201, 203, 205, 206, EDPRACM 204, EDPROFNM 203, 204, 208, EDUCM 203
- 75 points: EDPRACM 304, EDPROFNM 302, 304, 307, EDUCM 324
The Degree of Bachelor of Education (Teaching English to Speakers of Other Languages) – BEd(TESOL)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is not an initial teacher education qualification.

Admission

1. The applicant will be required to consent to disclosure of criminal convictions and safety checks required by the Children's Act 2014. While a record of criminal convictions will not prevent any student from attaining their qualification, it may limit their options with regards to available practical learning opportunities.

Duration and Total Points Value

2. A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

3. Of the 360 points required for this degree, a student must pass:
   a. at least 300 points listed in the Bachelor of Education (Teaching English to Speakers of Other Languages) Schedule
   b. 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   c. up to 30 points from courses available for this degree or other Bachelors degrees at this University.

4. A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by the Senate or its representative for 15 points of General Education.

5. The programme for each student requires the approval of Dean of Faculty of Education and Social Work, or nominee, prior to enrolment each year.

6. A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDPROFST 306.

General Education Exemptions

7. a. A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b. A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

   c. A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
      (i) 15 points from courses offered in the General Education Schedules
(ii) a further 15 points from courses available for this degree.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2021.

Bachelor of Education (Teaching English to Speakers of Other Languages (BEd(TESOL)) Schedule

Requirement:
Part I
• EDUCSW 199
• 15 points: LANGTCHG 101
• 15 points from EDPROFST 100, EDPROFM 100
• 15 points from EDUC 100, 118, 122
• 15 points from ACADEMG 100, 101, 210, ENGLISH 121, ENGWRI 101
• 30 points from EDUC 113, 115, 116, 117, 119, 121, EDUCSW 102, HUMSERV 101, 102

Part II
• 45 points: EDPROFST 207, LANGTCHG 207

• 15 points from EDPROFST 205, EDUC 221, 223, EDUCSW 202, LANGTCHG 202
• 15 points from EDUC 204, 213
• 30 points from EDPROFST 214, 227, 318, EDUC 224, 283

Part III
• 45 points: EDPROFST 306, LANGTCHG 301
• 15 points from EDPROFST 372, EDUC 318, 348
• 45 points from EDPROFST 313, 324, 325, EDUC 300, 308, 317, 323, 351, 352, 361, 400

The Degree of Bachelor of Human Services – BHumServ

New admissions to the Bachelor of Human Services were suspended in 2015. Students who have a current enrolment in this qualification should contact their Faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 To be admitted to this programme a student must have personal qualities suitable for this programme. Personal references may be required.

Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application process. While a record of criminal convictions will not prevent any student from attaining their qualification, it may limit their options with regards to available service-learning opportunities and employment in human services.

2 Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value
3 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
4 Of the 360 points required for this degree, a student must pass:
   a at least 330 points from courses listed in the Bachelor of Human Services Schedule including:
      (i) at least 180 points in courses above Stage I, of which at least 75 points must be above Stage II
      (ii) 255 points from the courses listed in the Core Courses Schedule
      (iii) 75 points from the courses listed in the Elective Courses Schedule.

   b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
      (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.
      (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
either
(i) completed an undergraduate degree at a tertiary institution
or
(ii) commenced study for this degree at a tertiary institution before 1 January 2006
or
(iii) been admitted to this degree with credit from another tertiary institution of 240 points or more.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree with credit from another tertiary institution of between 120 and 235 points inclusive must pass:
(i) 15 points from courses offered in the General Education Schedules
and
(ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Termination of Enrolment
6  a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 6a may appeal from that decision to the Council or its duly appointed delegate.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2016. The 2007 regulations for the Degree of Bachelor of Human Services were thereby repealed.

General Education Requirement

• 30 points from courses offered in the General Education Schedules approved for this degree

The Degree of Bachelor of Physical Education – BPE

New admissions to the Degree of Bachelor of Physical Education were suspended in 2016. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children and young persons. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this degree.

Admission
1 To be admitted to this programme a student must:
   a meet University entry criteria
   and
have demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration. Personal references and an interview will normally be required.

Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application process consistent with the requirements for provisional registration of the Teaching Council of Aotearoa New Zealand.

Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value

A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

Of the 480 points required for this degree, a student must pass:

a at least 420 points from the Core Courses listed in the Bachelor of Physical Education Schedule.

b at least 30 points from the Elective Courses listed in the Bachelor of Physical Education Schedule.

c (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.

(ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education).

(iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

General Education Exemptions

A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

either

(i) completed an undergraduate degree at a tertiary institution

or

(ii) commenced study for this degree at a tertiary institution before 1 January 2006

or

(iii) been admitted to this degree with credit from another tertiary institution of 240 points or more.

A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree with credit from another tertiary institution of between 120 and 235 points inclusive must pass:

(i) 15 points from courses offered in the General Education Schedules

and

(ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements

In any course that has a practicum and non-practicum component, a student must pass both the practicum and the non-practicum component in order to have passed that course as a whole.

Re-enrolment in any EDPRACT course after failing that course requires the permission of the Dean of Faculty of Education and Social Work or nominee.

At the discretion of Senate or its representative, a student who does not pass EDPRACT 103, 203, 303, 403 may be declined permission to re-enrol for this degree.

Results may be deferred for courses with a practical component where a student is unable to complete due to illness, injury, or other exceptional circumstances beyond their control.
Where results are deferred, assessment of a practical component must be undertaken as soon as practicably possible at a time deemed appropriate by the Head of Programme.

Professional Requirements
8 a In order to complete the requirements for this degree, a student must be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 8e may appeal from that decision to the Council or its duly appointed delegate.

Termination of Enrolment
9 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 9a may appeal from that decision to the Council or its duly appointed delegate.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
11 These regulations came into force on 1 January 2006. The 1998 regulations for the Degree of Bachelor of Physical Education were thereby repealed.

The Degree of Bachelor of Social Work – BSW

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 To be admitted to this programme a student must:

a meet University entry criteria

and

b have personal qualities suitable for becoming a social worker. Personal references and an interview will normally be required.

Note: The applicant will be required to consent to a Police check to ensure they meet the requirements of the Social Workers Registration Act 2003.
Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

3 The requirements for this degree must be completed within 16 semesters of initial enrolment.

Structure and Content
4 Of the 480 points required for this degree, a student must pass:
   a at least 450 points from the Bachelor of Social Work Schedule.
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education).

6 The programme for each student must be approved by the Head of Programme.

English Language Requirements
7 A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in SOCWORK 317.

General Education Exemptions
8 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
   (i) 15 points from courses offered in the General Education Schedules and
   (ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical and Professional Requirements
9 a At the discretion of Senate or its representative, a student who does not pass a Professional Practice course (SOCWORK 221, 280, 317, 411, 415) may be declined permission to re-enrol for this degree.

   b Re-enrolment in any of SOCWORK 221, 280, 317, 411 or 415 after failing that course requires the permission of the Dean of Faculty of Education and Social Work.

   c A student must continue to meet the requirements for registration throughout the duration of enrolment in the programme.

Termination of Enrolment
10 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.
b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 10a may appeal from that decision to the Council or its duly appointed delegate.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

#### The Degree of Bachelor of Sport, Health and Physical Education – BSportHPE

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Duration and Total Points Value**

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

**Structure and Content**

2 Of the 360 points required for this degree, a student must pass:

a 330 points from the courses listed in the Bachelor of Sport, Health and Physical Education Schedule, including

(i) 210 points from the Core Courses listed in the Bachelor of Sport, Health and Physical Education Schedule

(ii) 180 points in courses above Stage I, of which at least 75 points must be above Stage II.

b 30 points from courses offered in either the General Education Open Schedule or the General Education...
Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student must consent to the disclosure of criminal convictions and any safety checks as required by the Children’s Act 2014 prior to enrolment in EDUCSW 302 and SPORT 204.

Note: A record of criminal convictions will not prevent any student from attaining their qualification but may limit their options with regards to available service-learning opportunities and employment opportunities.

4 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

English Language Requirements

5 A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDUCSW 302.

General Education Exemptions

6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements

7 a Results may be deferred for courses with a practical component where a student is unable to complete due to illness, injury, or other exceptional circumstances beyond their control.

   b Where results are deferred, assessment of a practical component must be undertaken as soon as practicably possible at a time deemed appropriate by the Programme Leader.

Variations

8 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment

9 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Bachelor of Education (Teaching) (Honours) – BEd(Tchg) (Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Degree of Bachelor of Education (Teaching) from the University of Auckland or an equivalent qualification as approved by Senate or its representative
   or
   b completed the requirements for an equivalent qualification recognised for teacher registration in New Zealand as approved by Senate or its representative
   and
   c a Grade Point Average of 5.0 or higher in 45 points above Stage II.

2 A student who has not completed the requirements for the Degree of Bachelor of Education (Teaching) but who has:
   a passed courses with a total value of at least 345 points for that degree
   and
   b a Grade Point Average of 5.0 or higher in 45 points above Stage II
may, with the approval of the Dean of Faculty, enrol for this degree. The remaining points for the Degree of Bachelor of Education (Teaching) must be passed within the first semester of enrolment for the Degree of Bachelor of Education (Teaching) (Honours). The Degree of Bachelor of Education (Teaching) (Honours) will not be awarded until the requirements for the Degree of Bachelor of Education (Teaching) have been completed.

Duration and Total Points Value

3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Education (Teaching) (Honours) Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 Course(s) selected for this qualification are subject to confirmation by the Academic Head or nominee.

Research Portfolio / Research Project

8 a The research portfolio or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The research portfolio or research project topic must be approved by the relevant Programme Coordinator and the Dean of Faculty of Education and Social Work prior to enrolment.

   c The research portfolio or research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations

9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

10 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment

11 A student may apply to reassign the courses passed to the Postgraduate Certificate in Education or Postgraduate Diploma in Education.
Amendment

12 These regulations and/or schedule have been amended with effect from 1 January 2021.

## The Degree of Bachelor of Social Work (Honours) – BSW(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

### Admission

1 a No student on whom the Degree of Bachelor of Social Work has already been conferred may enrol for this degree.

b In order to be admitted to this degree, a student must have:

(i) passed 360 points towards the Degree of Bachelor of Social Work from this University with a Grade Point Average of 5.0 or higher in 60 points above Stage II and

(ii) been recommended for admission by the Dean of Faculty of Education and Social Work.

c Where the Dean of Faculty of Education and Social Work approves enrolment for the Degree of Bachelor of Social Work (Honours) the courses previously passed for the Degree of Bachelor of Social Work will be reassigned to the Degree of Bachelor of Social Work (Honours).

### Duration and Total Points Value

2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

### Structure and Content

3 Of the 480 points required for this degree, a student must pass:

a 330 points from the Bachelor of Social Work Schedule and

b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules

(ii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar and

c 120 points from courses listed in the Bachelor of Social Work (Honours) Schedule.

4 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work.

### Research Project

5 a The research project is to be carried out under the guidance of a supervisor/s appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Education and Social Work.

b The research project topic must be approved by the Dean of Faculty of Education and Social Work prior to enrolment.

c A student enrolled must complete the research project by the last day of the final semester of enrolment in the research project.

d In exceptional circumstances beyond the student’s control, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.
General Education Exemptions

6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses available for this degree.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical and Professional Requirements

7 a At the discretion of Senate or its representative, a student who does not pass a required Professional Practice course (SOCWORK 317, 715) may be declined permission to re-enrol in this degree.

b Re-enrolment in any of SOCWORK 317, 411 or 715 after failing that course requires the permission of the Dean of Faculty of Education and Social Work.

c A student must continue to meet the requirements for registration throughout the duration of enrolment in the programme as outlined in the programme handbook.

Termination of Enrolment

8 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 8a may appeal from that decision to the Council or its duly appointed delegate.

Honours

9 a This degree will be awarded with Honours in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours is determined by the student’s overall grade in 120 points of 700 level courses as follows:

   7.0 to 9.0 - First Class Honours
   5.5 to 6.9 - Second Class Honours First Division
   4.0 to 5.4 - Second Class Honours Second Division
   3.9 and below - Third Class Honours

Reassignment

10 A student may apply to reassign the courses passed to the Degree of Bachelor of Social Work.

Variations

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

12 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Master of Counselling – MCouns

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this programme, a student needs to have:
   a. either
      (i) completed the requirements for a Bachelors degree in education, counselling, nursing, social work or another profession from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher in at least 90 points or equivalent in the most advanced courses taken towards the entry qualification
      or
      (ii) completed the requirements for the Postgraduate Diploma in Counselling Theory, or the Postgraduate Diploma in Education – Counselling specialisation from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher in at least 90 points or equivalent in the most advanced courses taken towards the entry qualification
   and
   b. at least three years practical experience in teaching, counselling, nursing, social work or equivalent profession as approved by Senate or its representative.

2. An interview supported by referees’ statements and evidence of practical experience is required.

   Note: Agencies where counsellors in training are placed wish to ensure that client safety is not compromised. For this reason, the application form for the Counselling programme asks applicants to indicate whether they have any criminal convictions. Before any candidate can be accepted into the degree, an official police statement concerning absence or otherwise of criminal convictions will be required.

3. A student who has not gained an average of B or higher as specified in Regulation 1a must have otherwise shown to the satisfaction of the Dean of Faculty of Education and Social Work capacity to undertake advanced study and research in the courses proposed to be taken for this degree in order to be admitted to the programme.

4. No student on whom the Degree of Master of Education – Counselling specialisation has already been conferred by the University of Auckland may enrol for this degree unless specific approval is given by Senate or its representative.

Duration and Total Points Value

5. A student admitted to this degree under Regulation 1a(i) must:
   a. pass courses with a total value of 240 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 280 points for the total enrolment for this degree.

6. A student admitted to this degree under Regulation 1a(ii) must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points for the total enrolment for this degree.

Structure and Content

7. A student admitted to this degree under Regulation 1a(i) must complete:
   (i) 120 points from courses listed in the Master of Counselling Schedule
   and
   (ii) 120 point Research Portfolio.

   b. A student admitted to this degree under Regulation 1a(ii) must complete a 120 point Research Portfolio.

8. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Termination of Enrolment
9 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 9a may appeal from that decision to the Council or its duly appointed delegate.

Research Portfolio
10 a The Research Portfolio is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b A student who has to complete 240 points, must, before enrolment for the Research Portfolio, obtain an average grade of at least 8 in the first 120 points from the coursework component of the degree. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Counselling Theory.

c A student who does not meet the requirements of this degree may apply to reassign courses passed for the Master of Counselling to the Postgraduate Diploma in Counselling Theory.

d The Research Portfolio must be completed within 12 months of the completion and passing of the courses for this degree.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Counselling (MCouns) Schedule
A student who has to complete 120 points must satisfy the following requirement:

<table>
<thead>
<tr>
<th>Requirement: Research Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>120 points: PROFCOUN 797 Research Portfolio</td>
</tr>
</tbody>
</table>

Note: A student wishing to enrol in the Research Portfolio of the MCouns should note that EDPROFST 750 or PROFCOUN 709 is a prerequisite for enrolment.

A student who has to complete 240 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Research Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>90 points: PROFCOUN 701, 705, 706, 708, 709</td>
</tr>
<tr>
<td>30 points from EDPROFST 700–757, 760–788, EDUC 702–764, 767, PROFCOUN 700–704, 707, PROFSUPV 704, 713, SOCHLTH 732 or 30 points from a 700 level course in another subject as approved by the Associate Dean (Postgraduate)</td>
</tr>
</tbody>
</table>

Note: A student wishing to enrol in the Research Portfolio of the MCouns should note that EDPROFST 750 or PROFCOUN 709 is a prerequisite for enrolment.

The Degree of Master of Education – MEd
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:

either

a (i) the Postgraduate Diploma in Education from this University, or an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher

or

(ii) the Degree of Bachelor of Education (Teaching) (Honours) from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher
b (i) the Degree of Bachelor of Education (Teaching) from this University, or an equivalent qualification recognised for teacher registration as approved by Senate or its representative, with a Grade Point Average of 5 or higher

or

(ii) the Degree of Bachelor of Arts with a major in Education from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher

or

(iii) an equivalent qualification in education, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher

or

(iv) (a) a Bachelors degree
and
(b) the Postgraduate Certificate in Education with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

or

(v) (a) a relevant professional qualification in education as approved by Senate or its representative, with at least two years of relevant professional experience as approved by the Head of School
and
(b) the Postgraduate Certificate in Education with a Grade Point Average of 5 or higher, provided that the postgraduate certificate has not been awarded.

2 A student who has not gained a Grade Point Average of 5.0 or higher as specified in Regulation 1 must have otherwise shown to the satisfaction of the Dean of Faculty of Education and Social Work capacity to undertake advanced study and research in the courses proposed to be taken for this degree in order to be admitted to this programme.

3 No student on whom the Degree of Master of Arts in Education has already been conferred by the University of Auckland may enrol for this degree unless specific approval is given by Senate or its representative.

Duration and Total Points Value

4 A student admitted to this degree under Regulation 1a must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points for the total enrolment for this degree.

Structure and Content

6 A student enrolled for this degree must complete the requirements as listed in the Master of Education Schedule.

7 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses in this degree. If the Grade Point Average is not achieved, enrolment for the Master of Education cannot be continued.

8 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

10 A student who has to complete 180 points for this degree and who does not achieve the required Grade Point Average in the first 60 points of taught courses may apply to reassign courses passed for the Master of Education to the Postgraduate Diploma in Education or Postgraduate Certificate in Education.

Thesis

11 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.
c. The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Transfer from Postgraduate Certificate in Education**

12 A student who has passed courses towards a Postgraduate Certificate in Education may reassign those courses to this degree provided that the Postgraduate Certificate in Education has not been awarded.

**Variations**

13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Honours**

14 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

**Amendment**

15 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

**Master of Education (MEd) Schedule**

A student who has to complete 120 points must satisfy the following requirements:

**Research Masters**

**Prerequisite:** at least 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757

**Requirement:**

- 120 points: EDPROFST 796 Thesis or EDPROFM 796 Thesis

A student who has to complete 180 points must satisfy the following requirements:

**Requirement:**

- 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757
- 90 points: EDUC 794 Thesis or EDUCM 794 Thesis

---

**The Degree of Master of Education Practice – MEdPrac**

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have completed the requirements for:

*either*

a (i) a Bachelor’s degree and
(b) a Graduate Diploma in Teaching (Early Childhood Education), Graduate Diploma in Teaching (Primary), Graduate Diploma in Teaching (Secondary), or Postgraduate Diploma in Teaching (Secondary Field-based) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative and
(c) at least one year of teaching experience

or

(ii) the Degree of Bachelor of Education (Teaching) (Honours) from this University with a Grade Point Average of 5.0 or higher, or its equivalent as approved by Senate or its representative and
(b) at least one year of teaching experience

or

b (i) the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or

(ii) the Degree of Bachelor of Physical Education from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

and
(iii) at least two years teaching experience

or

c (i) the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 3.5 or higher, or the equivalent as approved by Senate or its representative

or

(ii) the Degree of Bachelor of Physical Education from this University with a Grade Point Average of 3.5 or higher, or its equivalent as approved by Senate or its representative
or

(d) (i) a Bachelor’s degree

and

(b) a Graduate Diploma in Teaching (Early Childhood Education), Graduate Diploma in Teaching English in Schools to Speakers of Other Languages, Graduate Diploma in Teaching (Primary), Graduate Diploma in Teaching (Secondary), or Postgraduate Diploma in Teaching (Secondary Field-based) from this University with a Grade Point Average of 3.5 or higher, or the equivalent as approved by Senate or its representative

or

(ii) the Degree of Bachelor of Education (Teaching) (Honours) from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

or

(e) (i) a Diploma in Teaching or equivalent as approved by Senate or its representative, with at least three years of equivalent full time relevant teaching experience approved by the Programme Leader

and

(ii) the Postgraduate Certificate in Education with a Grade Point Average of 5.0 or higher.

Duration and Total Points Value

2 A student admitted to this degree under Regulation 1a and 1b must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

(c) not exceed 160 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1c, 1d, and 1e must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 220 points for the total enrolment for this degree.

Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Master of Education Practice Schedule.

5 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses. If the Grade Point Average is not achieved, enrolment in the Master of Education Practice cannot be continued.

6 Students who have previously completed EDCURRIC 716, EDUC 735, 787, EDPRAC 751 or EDPROFST 754 must substitute EDPROF 702 for EDUC 764.

7 Courses selected for this qualification are subject to confirmation by the Academic Head or nominee.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

9 A student may apply to reassign courses passed to the Postgraduate Diploma in Education or Postgraduate Certificate in Education.

Variations

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction

11 a This degree may be awarded with Distinction or Merit where the overall grade is sufficiently high.

b Where the requirements for this degree have not been completed in accordance with the time limit specified in the General Regulations – Masters Degrees the student’s eligibility for the award of Distinction or Merit will lapse. On the recommendation of the Dean of Faculty, Senate or its representative may approve the retention of the award of Distinction or Merit.

c Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in this degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.
Amendment
12 These regulations and/or schedules have been amended with effect from 1 January 2021.

The Degree of Master of Educational Leadership – MEdLd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   either
   a (i) completed the requirements for the Degree of Bachelor of Education (Teaching) (Honours), or Postgraduate Diploma in Education or Postgraduate Diploma in Educational Leadership from this University with a Grade Point Average of 5.0 or higher
   and (ii) completed EDPROFST 738 or the equivalent as approved by Senate or its representative
   or b (i) have completed the requirements for the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or (ii) have completed the requirements for the Degree of Bachelor of Arts with a major in Education from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or (iii) (a) have completed the requirements for a Bachelors degree, in a relevant subject, as approved by Senate or its representative
   and (b) the Postgraduate Certificate in Education from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded
   or (iv) (a) a relevant professional qualification in education as approved by Senate or its representative
   and (b) the Postgraduate Certificate in Education from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded
   and c at least three years of practical experience in teaching or a related profession, including experience in a formal or informal leadership and/or management role.
   Note: Relevant subjects may include education, psychology, social work, social sciences and sociology.
2 A student who has met the requirements for admission under Regulation 1a above, and who has not completed EDPROFST 738 or its equivalent must have passed this course within two semesters of enrolment in the Master of Educational Leadership. Should this requirement not be completed, enrolment in any further courses required for the Degree of Master of Educational Leadership will not be permitted until EDPROFST 738 has been completed.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.
4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Educational Leadership Schedule.
   b A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken. If this Grade Point Average is not achieved, enrolment in the Master of Educational Leadership cannot continue.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Educational Leadership or Postgraduate Diploma in Education or Postgraduate Certificate in Education.

Thesis
8 a The thesis is to be carried out under the guidance of a supervisor appointed by the Academic Head or nominee.
   b The thesis topic must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Education, Postgraduate Diploma in Education or Postgraduate Diploma in Educational Leadership
9 A student who has passed courses towards the Postgraduate Certificate in Education, Postgraduate Diploma in Education or Postgraduate Diploma in Educational Leadership may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction
11 This degree may be awarded with either Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

Master of Educational Leadership (MEdLd) Schedule

The Degree of Master of Social and Community Leadership – MSCL

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this programme, a student must have completed the requirements for:
   - **either**
     - a Bachelors degree with at least 60 points in social science subjects from a New Zealand university, or an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II
   - or
     - b (i) a Bachelors degree with at least 60 points in social science subjects from a New Zealand university, or an equivalent qualification approved by Senate or its representative
     - and
     - (ii) the Postgraduate Certificate in Social and Community Leadership with a Grade Point Average of 5.0 or higher, provided that the Postgraduate Certificate in Social and Community Leadership has not been awarded
   - or
     - c (i) a relevant professional qualification, equivalent to a Bachelors degree of at least 360 points as approved by Senate or its representative, with at least two years of relevant professional experience approved by the Head of School of Counselling, Social Work and Human Services
     - and
     - (ii) the Postgraduate Certificate in Social and Community Leadership with a Grade Point Average of 5.0 or higher, provided that the Postgraduate Certificate in Social and Community Leadership has not been awarded.

**Duration and Total Points Value**

2. A student admitted to this degree must:
   - a pass courses with a total value of 180 points
   - and
   - b complete within the time limit specified in the General Regulations – Masters Degrees.

3. The total enrolment for this degree must not exceed 220 points.

**Structure and Content**

**Research Masters**

4. A student enrolled for this degree must complete the requirements as listed in the Master of Social and Community Leadership Schedule.

5. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Reassignment
6 A student who does not achieve the Grade Point Average specified in Regulation 4c may apply to reassign courses passed for the Master of Social and Community Leadership to the Postgraduate Certificate in Social and Community Leadership.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.

c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Social Work – MSW

_The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations._

Admission
1 In order to be admitted to this programme, a student needs to have:
  - either
    a completed the requirements for the Degree of Bachelor of Social Work from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher in at least 90 points or equivalent in the most advanced courses taken towards the entry qualification
    or
    b completed the requirements for the Degree of Bachelor of Social Work (Honours) from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher in at least 90 points or equivalent in the most advanced courses taken towards the entry qualification
    or
    c (i) completed the requirements for the Postgraduate Diploma in Professional Supervision from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher
    and
    (ii) hold a qualification in social work approved by Senate or its representative
    or
    d completed the requirements for the Postgraduate Diploma in Health Sciences (Social Work) from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher
    or
    e completed the requirements for the Postgraduate Diploma in Social Work from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher.

2 A student who has not gained an average of B or better as specified in Regulation 1 must have otherwise shown to the satisfaction of the Dean of Faculty of Education and Social Work capacity to undertake advanced study and research in the courses proposed to be taken for this degree in order to be admitted to the programme.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
  - a pass courses with a total value of 240 points
b complete within the time limit specified in the General Regulations – Masters Degrees  
and  
c not exceed 280 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b, 1c, 1d or 1e must:
   a pass courses with a total value of 120 points  
   and  
b complete within the time limit specified in the General Regulations – Masters Degrees  
   and  
c not exceed 160 points for the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Social Work Schedule.
   
b A student who has to complete 240 points for this degree must achieve a Grade Point Average of at least 5.0 in the first 120 points of the coursework component of the degree. If this Grade Point Average is not achieved, enrolment in the Master of Social Work cannot continue.
   
c A student may substitute an alternative course the same as, or similar to, SOCWORK 718, as approved by the Academic Head.
   
d With the approval of all Academic Heads concerned, up to 30 points may be selected from other 700 level courses offered at this University.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Portfolio
7 a The thesis or research portfolio is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   
b The thesis or research portfolio topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.
   
c The thesis or research portfolio is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for the Master of Social Work to the Postgraduate Diploma in Social Work.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Social Work (Professional) – MSW(Prof)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for a Bachelors degree with a minimum of 60 points in social sciences subjects from a New Zealand university or an equivalent degree as approved by Senate or its representative and
   b achieved an average grade of B or higher over 75 points in Stage III of an undergraduate degree and
   c an interview supported by referees' statements and evidence of suitability is required.

   Note: The applicant will be required to consent to a Police check to ensure they meet the requirements of the Social Workers Registration Act 2003.

2 A student who has not gained an average of B or higher as specified in Regulation 1b must have otherwise shown to the satisfaction of the Dean of Faculty of Education and Social Work capacity to undertake advanced study and research in order to be admitted to the programme.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 240 points and
   b complete within the time limit specified in the General Regulations – Masters Degrees and
   c not exceed 280 points for the total enrolment for this degree.

Structure and Content
4 a A student enrolled for this degree must complete the requirements as listed in the Master of Social Work (Professional) Schedule.

   b A student will not normally be permitted to enrol for Part II unless Part I has been completed.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical and Professional Requirements
6 a At the discretion of Senate or its representative, a student who does not pass required courses for Part I may be declined permission to re-enrol in this degree.

   b Re-enrolment in any of SOCWORK 721, 722, 725 after failing that course requires the permission of the Dean of Faculty of Education and Social Work.

   c A student must continue to meet the requirements of being a fit and proper person for registration by the New Zealand Social Workers Registration Board throughout the duration of enrolment in the programme as outlined in the programme handbook.

Termination of Enrolment
7 a If the behaviour of a student in a practice environment is found, after due and fair inquiry, to be disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

   b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

   c A student whose enrolment is terminated under Regulation 7a may appeal from that decision to the Council or its duly appointed delegate.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.
The Degree of Master of Teaching (Primary) – MTchg(Primary)

New admissions to the Master of Teaching (Primary) were suspended in 2019. Students who have a current enrolment in this qualification should contact their Faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this masters programme.

Admission

1 In order to be admitted to this programme, a student needs to have:
   a completed a degree of at least 360 points at the Bachelors or Bachelors Honours level or a Masters degree of
     at least 240 points from a New Zealand university with a Grade Point Average of 5.0 or higher
   or
   b attained a qualification approved by Senate or its representative as:
     (i) equivalent to that specified in 1a above
     and
     (ii) appropriate for the proposed programme for this degree
   or
   c completed a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New
     Zealand Qualifications Authority
     and
   d demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional
     registration. Personal references and an interview will be required.

2 Applicants whose first language is not English and who have not had at least three years of tertiary education
   with English as the language of instruction will be required to have achieved a minimum overall score of 7.5 IELTS
   (Academic) with no band lower than 7, or equivalent.

3 Applicants are required to pass the Faculty of Education and Social Work’s numeracy and literacy skills
   assessments.
   Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application
   process consistent with the requirements for provisional registration of the Teaching Council of Aotearoa New
   Zealand.

4 Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value

5 A student enrolled for this degree must follow a programme of two semesters and summer school full-time and
   pass courses with a total value of 180 points.

6 The requirements for this degree must be completed within 12 months of commencing study.

7 In exceptional circumstances Senate or its representative may extend this period not exceeding one additional
   consecutive semester.

Structure and Content

8 A student must pass 180 points from the courses listed in the Master of Teaching (Primary) Schedule.

9 A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its
   representative to enrol for no more than one further consecutive semester.

10 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior
    to enrolment.

11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
    specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Practicum Requirements
12 a In any course that has a practicum and non-practicum component, a student must pass both the practicum and non-practicum component in order to have passed that course as a whole.

b Re-enrolment in EDPROF 758 after failing this course requires the permission of the Dean of Faculty of Education and Social Work or nominee. A student may re-enrol on only one further occasion.

Professional Requirements
13 a To complete the requirements for this Degree, a student must meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student's enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 13e may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

Termination of Enrolment
14 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 14a may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

Reassignment
15 A student may apply to reassign courses passed for the Master of Teaching (Primary) to the Postgraduate Diploma in Education.

Distinction
16 a This degree may be awarded with Distinction or Merit where the overall grade is sufficiently high.

b Where the requirements for this degree have not been completed in accordance with the time limit specified in Regulation 6 the student's eligibility for the award of Distinction or Merit will lapse. On the recommendation of the Dean of Faculty, Senate or its representative may approve the retention of the award of Distinction or Merit.

c Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in this degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Variations
17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
18 These regulations came into force on 1 January 2015.

The Degree of Master of Teaching (Secondary) – MTchg(Secondary)

*New admissions to the Master of Teaching (Secondary) were suspended in 2017. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.*

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this master’s programme.

**Admission**

1. In order to be admitted to this programme, a student needs to have:
   a. completed a degree of at least 360 points at the Bachelors or Bachelors Honours level from a New Zealand university with a Grade Point Average of 5.0 or higher
   or
   b. attained a qualification approved by Senate or its representative as:
      (i) equivalent to that specified in 1a above
      and
      (ii) appropriate for the proposed programme for this degree
   or
   c. completed a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority
   and
   d. completed courses at Stage III or IV in a teaching subject appropriate to the secondary school curriculum
   and
   e. demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration. Personal references and an interview will be required.

2. Applicants whose first language is not English and who have not had at least three years of tertiary education with English as the language of instruction will be required to have achieved a minimum overall score of 7.5 IELTS (Academic) with no band lower than 7.

3. Applicants are required to pass the Faculty of Education and Social Work’s numeracy and literacy skills assessments.

**Note:** The applicant will be required to consent to disclosure of criminal convictions as part of the application process consistent with the requirements for provisional registration of the Teaching Council of Aotearoa New Zealand.

4. Admission to this programme is at the discretion of Senate or its representative.

**Duration and Total Points Value**

5. A student enrolled for this degree must follow a programme of two semesters and summer school full-time and pass courses with a total value of 180 points.

6. The requirements for this degree must be completed within 12 months of commencing study.

7. In exceptional circumstances Senate or its representative may extend this period not exceeding one additional consecutive semester.

**Structure and Content**

8. A student must pass 180 points from the courses listed in the Master of Teaching (Secondary) Schedule.

9. A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester.

10. The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

11. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

**Practicum Requirements**

12. a. In any course that has a practicum and non-practicum component, a student must pass both the practicum and non-practicum component in order to have passed that course as a whole.

   b. Re-enrolment in EDPROF 758 after failing this course requires the permission of the Dean of Faculty of Education and Social Work or nominee. A student may re-enrol on only one further occasion.
Professional Requirements
13 a To complete the requirements for this Degree, a student must meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 13e may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

Termination of Enrolment
14 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 14a may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

Reassignment
15 A student may apply to reassign courses passed for the Master of Teaching (Secondary) to the Postgraduate Diploma in Education.

Distinction
16 a This degree may be awarded with Distinction or Merit where the overall grade is sufficiently high.

b Where the requirements for this degree have not been completed in accordance with the time limit specified in Regulation 6 the student’s eligibility for the award of Distinction or Merit will lapse. On the recommendation of the Dean of Faculty, Senate or its representative may approve the retention of the award of Distinction or Merit.

c Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in this degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Variations
17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
18 These regulations came into force on 1 January 2015.
b It is expected that this programme will usually be completed within four to six years from the date of registration.

c The Degree of Doctor of Education is awarded for a formal and systematic exposition of a coherent programme of advanced research work carried out over the period of registration for the degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:

- is an original contribution to scholarship relating to professional practice in the field of Education
- meets internationally recognised standards for such work
- demonstrates a knowledge of the literature relevant to the subject of the thesis, and the ability to exercise critical and analytical judgement of it
- is satisfactory in its methodology, in the quality and coherence of its written expression, and in its scholarly presentation and format.

d The thesis may not, without prior permission of the Board of Graduate Studies, exceed 100,000 words in total.

e If the core of the thesis comprises a series of published or unpublished research papers and/or case studies, the candidate must be the lead or sole author of each paper or case study and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.

f If the core of the thesis does not comprise a series of published or unpublished research papers and/or case studies, a candidate may still include within their thesis published or unpublished research papers and/or case studies, provided that the candidate was the lead or sole author of each paper or case study. The thesis must be presented in a consistent format, citation style and typeface.

g In the case of published or unpublished research papers and/or case studies that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper and/or case study. The thesis must be presented in a consistent format, citation style and typeface.

h All material which is not the original work of the author of the thesis must:

- be fully and appropriately attributed
- if a substantial part of another work, only be reproduced with the written permission of the copyright owner of the other work.

i All research for the thesis is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility

2 A candidate for the Degree of Doctor of Education is required to have:

a (i) completed the requirements for the award of either the Degree of Master of Education or the Degree of Master of Arts in Education with First Class or Second Class (First Division) Honours at the University of Auckland

or

(ii) completed the requirements for the award of either the Degree of Bachelor of Education (Teaching) (Honours) or the Degree of Bachelor of Arts (Honours) in Education with First Class or Second Class (First Division) Honours at the University of Auckland

or

(iii) completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to one of the prerequisite qualifications specified in Regulations 2a(i) and (ii)

and

b demonstrated an ability to pursue doctoral level research in the field of Education as typically indicated by the assessment of the equivalent of 30 points or more of independent research work

and

c had at least two years’ professional experience in education or in another professional area considered comparable by the Board of Graduate Studies.

Admission

3 Every candidate for the Degree of Doctor of Education must have applied for admission and been admitted to the University of Auckland.
Duration and Total Points Value
4 a A candidate enrolled for this degree must follow an approved two-part programme with a total value of 360 points.

b Candidates must complete the requirements for Part I within two successive part-time years, unless permitted additional time by the Board of Graduate Studies under Regulation 8.

c After completing Part I candidates must complete the requirements for Part II within two full-time or four part-time years, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8.

Registration
5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.

b The following provisional goals are required of all candidates for this degree:
(i) completion of EDPROFST 844 Research Portfolio
(ii) completion of a literature review to the satisfaction of the main supervisor
(iii) approval of a full thesis proposal by the appropriate postgraduate committee
(iv) presentation of the proposal and/or work in progress to an appropriate forum
(v) completion of the standard doctoral milestone goals relating to induction, English language, academic integrity and health and safety prescribed by the Board of Graduate Studies upon commencement of the registration.

c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

Structure and Content
6 a A candidate enrolled for this degree must pass Parts I and II as follows:
(i) Part I: 120 points from EDPROFST 844 Research Portfolio
(ii) Part II: 240 points from EDPROFST 897 Thesis.

b A candidate must complete the requirements of Part I to the satisfaction of the supervisor and external examiner before commencing Part II.

Reviews of Registration
7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named Doctorates.

Changes to the Conditions of Registration
8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees
9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Submissions
10 The submission process will follow that of Regulation 8 of the Statute for the Degree of Doctor of Philosophy 2016.

Examinations
11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that:

a examiners will be requested to assess the thesis according to the criteria of Regulation 1(c) of these regulations and

b the Board of Graduate Studies will normally appoint the Doctor of Education Adviser as the Head of Department nominee on the Examination Committee (and who will participate in the Oral Examination), as described in the Degree of Doctor of Philosophy Statute, for all Doctor of Education examinations.

Variations
12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform with these regulations.

Appeals
13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.
Dispute Resolution Procedures
14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements
15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Education were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of this statute to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

Foundation Certificate Education – FCertEd
The FCertEd was withdrawn in 2020.

Certificate in Sport, Health and Physical Education – CertSportHPE
The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Sport, Health and Physical Education, or a conjoint programme that includes the Bachelor of Sport, Health and Physical Education as a component degree, at this University and
   b passed at least 60 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Sport, Health and Physical Education Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Sport, Health and Physical Education – DipSportHPE
The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Sport, Health and Physical Education, or a conjoint programme that includes the Bachelor of Sport, Health and Physical Education as a component degree, at this University and
   b passed at least 120 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Sport, Health and Physical Education Schedule.
A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

These regulations came into force on 1 January 2021.

Graduate Diploma in Education – GradDipEd

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is not an initial teacher education qualification.

Admission

In order to be admitted to this programme, a student needs to have:

a (i) completed the requirements for a Bachelors degree

or

(ii) completed the requirements for a university diploma approved by Senate or its representative

or

(iii) completed a professional qualification in teaching, counselling, social work or relevant other profession approved by Senate or its representative

or

(iv) at least five years’ employment experience deemed relevant to this programme by the Senate or its representative

and

b satisfied the Dean of Faculty of Education and Social Work that they have appropriate training and experience to undertake the programme.

Duration and Total Points Value

A student enrolled for this graduate diploma must follow a programme of the equivalent of two full-time semesters and pass courses with a total value of 120 points.

Structure and Content

Of the 120 points required for this graduate diploma, a student must pass:

either

a 120 points from courses listed in the Graduate Diploma in Education Schedule, including at least 75 points above Stage II

or

b at least 90 points from courses listed in the Graduate Diploma in Education Schedule, including at least 75 points above Stage II

and

up to 30 points from other courses available at this University. The approval of all Heads of Departments concerned is required.

The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

In exceptional circumstances Senate or its representative may approve a personal course of study which does not conform to these regulations.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2021

Graduate Diploma in Teaching (Early Childhood Education) – GradDipTchg(ECE)

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this graduate diploma, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this graduate diploma.

Admission
1 In order to be admitted to this programme, a student must have:
   a completed the requirements for:
      (i) a degree from a New Zealand university or the equivalent as approved by Senate or its representative or
      (ii) a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority
   and
   b demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration and certification.

Notes:
(i) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014.
(ii) Personal references and an interview will be required.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of full-time study in an academic year and pass courses with a total value of 150 points.

3 In exceptional circumstances, part-time enrolment may be permitted with approval of the Programme Leader.

4 The requirements for this graduate diploma must be completed within 24 months of initial enrolment unless, in exceptional circumstances, Senate or its representative extends this period.

Structure and Content
5 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Teaching (Early Childhood Education) Schedule.

6 The programme for each student requires the approval of the Academic Head or nominee prior to enrolment.

7 A student who has previously passed any course the same as, or similar to, the courses required for this graduate diploma must substitute an alternative course(s) approved by the Programme Leader.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practicum Requirements
9 a In any course that has a practicum and non-practicum component, a student must pass both the practicum and non-practicum component in order to have passed that course as a whole.

   b Where a weakness occurs in the practicum component of EDPRAC 610, students will be required to enrol in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This provision will only apply when the student's current enrolment in EDPRAC 610 has ended.

   b Re-enrolment in EDPRAC 610 after failing that course requires the permission of the Dean of Faculty of Education and Social Work or nominee.

   c At the discretion of Senate or its representative, a student who does not pass EDPRAC 610 may be declined permission to be readmitted to this graduate diploma.

Language Requirements
10 a Students must pass EDUCM 199 in the first year of enrolment.
b Students must pass EDUCSW 199 in the first semester of enrolment.

Professional Requirements

11 a In order to complete the requirements for this graduate diploma, a student must be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 11e may appeal from that decision to the Council or its duly appointed delegate.

Suspension or Termination of Enrolment

12 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 12a may appeal from that decision to the Council or its duly appointed delegate.

Reassignment

13 A student may apply to reassign courses passed for this graduate diploma to the Graduate Diploma in Education.

Variations

14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

15 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Diploma in Teaching English in Schools to Speakers of Other Languages – GradDipTESSOL

New admissions into the Graduate Diploma in Teaching English in Schools to Speakers of Other Languages were suspended in 2020. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:

a (i) completed the requirements for a Bachelors degree or

(ii) completed the requirements for a university diploma approved by Senate or its representative or

(iii) completed a professional qualification in teaching or relevant other profession approved by Senate or its representative

and
b not less than two years’ relevant professional experience and be currently teaching in a New Zealand early
childhood, primary or secondary setting
and
c satisfied the Dean of Faculty of Education and Social Work that they have appropriate training and experience
to undertake the programme.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of the equivalent of two full-time semesters
and pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this graduate diploma, a student must pass:
either
a 120 points from the courses listed in the Graduate Diploma in Teaching English in Schools to Speakers of Other
Languages Schedule, including at least 75 points above Stage II
or
b at least 105 points from courses listed in the Graduate Diploma in Teaching English in Schools to Speakers of
Other Languages Schedule, including at least 75 points above Stage II
and
up to 15 points from other courses available at this University. The approval of all Heads of Departments
concerned is required.

4 The programme for each student requires the approval of the Programme Coordinator prior to enrolment.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal course of study which does not
conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Diploma in Teaching English in Schools to Speakers of Other Languages (GradDipTESSOL)

Postgraduate Diploma in Counselling Theory – PGDipCounsTh

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for a Bachelors degree in education, counselling, nursing, social work or another profession from this University or an equivalent qualification approved by Senate or its representative
   and
   b at least three years practical experience in teaching, counselling, nursing, social work or an equivalent profession as approved by Senate or its representative
   and
c an interview supported by referees’ statements and evidence of practical experience is required.  

Note: Agencies where counsellors in training are placed wish to ensure that client safety is not compromised. For this reason, the application form for the Counselling programme asks applicants to indicate whether they have any criminal convictions. Before any candidate can be accepted into the degree, an official police statement concerning absence or otherwise of criminal convictions will be required.

2 No student on whom the Postgraduate Diploma in Education – Counselling specialisation has already been conferred by the University of Auckland may enrol for this postgraduate diploma unless specific approval is given by Senate or its representative.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 120 points from the Postgraduate Diploma in Counselling Theory Schedule.

6 The programme for each student must be approved by the Dean of Faculty of Education and Social Work prior to enrolment.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Termination of Enrolment
8 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 8a may appeal from that decision to the Council or its duly appointed delegate.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:
a (i) the Degree of Bachelor of Arts in Education from this University with a Grade Point Average of 3.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative

or (ii) an Advanced Diploma in Teaching with a Grade Point Average of 3.0 or higher as approved by Senate or its representative and at least three years of teaching experience, or the equivalent as approved by Senate or its representative

or (iii) either the Graduate Diploma in Education, Graduate Diploma in Teaching English in Schools to Speakers of Other Languages, Graduate Diploma in Teaching (Early Childhood Education), Graduate Diploma in Teaching (Primary), Graduate Diploma in Teaching (Secondary) from this University with a Grade Point Average of 3.0 or higher or the equivalent as approved by Senate or its representative

or (iv) the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 3.0 or higher in 45 points above Stage II or the equivalent as approved by Senate or its representative

or

b (i) a Bachelors degree

and (ii) the Postgraduate Certificate in Education from this University with a Grade Point Average of 3.0 or higher, provided that the postgraduate certificate has not been awarded.

2 In order to be admitted to the Postgraduate Diploma in Education in Reading Recovery a student must have completed the Degree of Bachelor of Education (Teaching) with a Grade Point Average of 3.0 or higher in 45 points above Stage II or the Graduate Diploma in Teaching (Primary) with a Grade Point Average of 3.0 or higher from this University, or the equivalent as approved by Senate or its representative, and have at least three years’ relevant professional experience approved by Senate or its representative.

3 Students who have been awarded the Degree of Master of Arts in Education will not be admitted to this postgraduate diploma unless permitted by Senate or its representative.

4 In exceptional circumstances, Senate or its representative may approve admission of a student who has at least three years of relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1 and 2.

Duration and Total Points Value
5 A student enrolled for this postgraduate diploma must:

a pass courses with a total value of 120 points

and b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

6 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
7 A student enrolled for this postgraduate diploma must pass 120 points from one of the options listed in the Postgraduate Diploma in Education Schedule.

8 The programme for each student must be approved by the Dean of Faculty of Education and Social Work prior to enrolment.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 A student may apply to reassign courses passed to the Postgraduate Certificate in Education.

Transfer from Postgraduate Certificate in Education
11 A student who has passed courses towards a Postgraduate Certificate in Education may reassign those courses to this postgraduate diploma provided that the postgraduate certificate has not been awarded.

Distinction
12 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2021.
Postgraduate Diploma in Education (PGDipEd) Schedule

Requirement:

either

or

- up to 45 points from other 700 level courses offered at this University. The approval of all Heads of Departments is required.

Specialisations available:

Literacy Education

Prerequisite: Prior approval from the Dean of Faculty of Education and Social Work

Requirement:

- 120 points from EDP PROFST 700–708

Reading Recovery

Prerequisite: Prior approval from the Dean of Faculty of Education and Social Work

Postgraduate Diploma in Educational Leadership – PGDipEdLd

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to:
   a have completed the requirements for a Bachelor's degree from this University or an equivalent degree as approved by Senate or its representative
   and
   b (i) hold a professional qualification in teaching, or other profession approved by Senate or its representative
   and
   (ii) have at least three years practical experience in teaching or in a related profession, including experience in a formal or informal leadership and/or management role.

2 Any student who has completed the requirements for the Degree of Master of Education in Educational Administration, the Postgraduate Diploma in Educational Management or the Degree of Master of Educational Management at the University of Auckland may not be admitted to this postgraduate diploma.

Duration and Total Points Value

3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content

5 A student enrolled for this postgraduate diploma must pass 120 points in courses as listed in the Postgraduate Diploma in Educational Leadership Schedule.

6 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction

8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.
Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

Postgraduate Diploma in Professional Supervision – PGDipProfSup

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to:
   a have completed the requirements for a Bachelors degree approved by Senate or its representative
   and
   b be currently employed in health, counselling, social or human services or other appropriate professional context
   and
   c have at least three years relevant professional experience.

2 A student who has completed the requirements for the Postgraduate Certificate in Professional Supervision, or its equivalent, may on the recommendation of the relevant Head of Programme, and with the approval of Senate or its representative, credit to this Postgraduate Diploma in Professional Supervision, the courses passed for the Postgraduate Certificate in Professional Supervision.

3 Admission to this programme requires the approval of the Dean of Faculty of Education and Social Work.

Duration and Total Points Value
4 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 A student enrolled for this postgraduate diploma must pass:
   a at least 120 points from courses listed in the Postgraduate Diploma in Professional Supervision Schedule
   or
   b (i) at least 90 points from courses listed in the Postgraduate Diploma in Professional Supervision Schedule
   and
   (ii) up to 30 points from other postgraduate courses as approved by Senate or its representative.

7 The programme for each student requires the approval of Senate or its representative.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

Note: A student wishing to enrol in a thesis or research portfolio for the Master of Social Work following the award of this postgraduate qualification should note that SOCWORK 718 Applied Research in Social Services (or an equivalent 30 points in a research methods course approved by the Academic Head) is a prerequisite for enrolment.

Postgraduate Diploma in Teaching (Secondary Field-based) – PGDipTchg(SecFB)

New admissions to the Postgraduate Diploma in Teaching (Secondary Field-Based) were suspended in 2017. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this postgraduate diploma, students are required to be in various teaching environments which will bring them into contact with young persons. Only persons who have demonstrated the potential to meet the criteria for professional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this postgraduate diploma.
Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for:
      (i) a Bachelors degree from a New Zealand university with at least a B average
      or
      (ii) a qualification recognised as equivalent by the New Zealand Qualifications Authority (NZQA)
   and
   b passed at least 30 points from 300 or 400 level courses in a teaching subject appropriate to the secondary
   school curriculum
   and
   c demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional
   registration. Personal references, an online application and an interview will be required.

Note: The applicant will be required to consent to disclosure of criminal convictions as part of the applications
process consistent with the requirements for professional registration of the Teaching Council of Aotearoa New
Zealand.

2 Admission to this postgraduate diploma is at the discretion of the Senate or its representative.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a follow a programme of the equivalent of two part-time years and pass courses with a total value of 120 points
   and
   b complete within 36 months of initial enrolment unless, in exceptional circumstances, Senate or its
   representative extends this period.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 120 points from the courses listed in the Postgraduate
Diploma in Teaching (Secondary Field-based) Schedule.

6 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior
to enrolment.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
8 a In any course that has a practicum and non-practicum component, a student must complete both components
   in order to have passed that course as a whole.
   b Re-enrolment in any EDPRAC course after failing that course requires the permission of the Dean of Faculty of
   Education and Social Work or nominee.
   c At the discretion of Senate or its representative, a student who does not pass an EDPRAC course may be
   declined permission to re-enrol for this diploma.

Professional Requirements
9 a In order to meet the requirements for this postgraduate diploma, a student must be able to meet the criteria
   for provisional registration of the Teaching Council of Aotearoa New Zealand.
   b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of
   Aotearoa New Zealand must immediately notify the Dean of Faculty of Education and Social Work.
   c If the Dean of Faculty of Education and Social Work has reason to believe that a student does not meet the
   criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the
   student and take into account any written response from the student.
   d If the Dean of Faculty of Education and Social Work is satisfied that the student is not able to meet the
   criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or
   its representative.
   e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any
   application to re-enrol may likewise be declined.
   f A student whose enrolment is terminated under Regulation 9e may appeal that decision to the Council or its
duly appointed delegate.
Termination of Enrolment
10  a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by the Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by the Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under 10a may appeal that decision to the Council or its duly appointed delegate.

Distinction
11  This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
12  In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13  These regulations and/or schedule have been amended with effect from 1 January 2017.

Postgraduate Diploma in Teaching (Secondary Field-based) – PGDipTchg(SecFB) Schedule

 Requirement:
• 120 points: EDCURSEC 709, 719, EDPRAC 751, 753, EDPROF 700
• 30 points from EDCURRIC 763, EDPROFST 743, 744, EDUC 726, 731, 737, 747, 756, MAORIHHT 706, POLICY 701, POLITICS 741, 757, POPHLTH 732, 733, 737, 739, PROFCOUN 703, 704, PROFSUPV 700, 710, 714, PSYCH 715, 717, 761, SOCCHFAM 700, 731, 734, SOCLTH 700, 732, SOCIOL 703, 748, SOCCLEAD 702, SOCWORK 718, 757

Postgraduate Diploma in Teaching Linguistically Diverse Learners – PGDipTLDL

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1  In order to be admitted to this postgraduate diploma, a student needs to have:
   a (i) completed the requirements for the Bachelor of Education (Teaching) from this University or an equivalent qualification as approved by Senate or its representative
      or
   (ii) completed the requirements for an Advanced Diploma in Teaching as approved by Senate or its representative
      or
   (iii) completed a professional qualification in teaching or relevant other profession approved by Senate or its representative
   and
   b at least two years of prior professional experience in a New Zealand early childhood education centre, primary or secondary school.

2  In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained an equivalent qualification and/or professional experience in the education profession.

Duration and Total Points Value
3  A student enrolled in this postgraduate diploma must:
   a pass courses with a total value of 120 points
   b complete within four years of initial enrolment if enrolled part-time. In exceptional circumstances, full-time enrolment may be permitted with approval of the Programme Leader and a student must complete within two years of initial enrolment.

4  The total enrolment for this postgraduate certificate must not exceed 160 points.
Structure and Content
5 A student enrolled in this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Teaching Linguistically Diverse Learners Schedule.

6 Up to 30 points may be taken from other courses at this University with the approval of the Programme Coordinator.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The requirements for this postgraduate diploma must be completed on a part-time basis.

Reassignment
9 A student may apply to reassign courses passed for the Postgraduate Diploma in Teaching Linguistically Diverse Learners to the Postgraduate Certificate in Teaching Linguistically Diverse Learners.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
11 These regulations came into force on 1 January 2021.

REGULATIONS – ENGINEERING

The Degree of Bachelor of Engineering – BE
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Degree Requirements
1 Students who enrol for the degree of Bachelor of Engineering (Honours) may be awarded the degree of Bachelor of Engineering if, having passed all courses and completed all other requirements for a BE(Hons), their performance in the courses is deemed by the Dean of Engineering to be not of Honours standard.
Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.

The Degree of Bachelor of Engineering (Honours) – BE(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 A student must pass 480 points from the Bachelor of Engineering (Honours) Schedule including:
a 120 points: Part I as listed in the Bachelor of Engineering (Honours) Schedule including 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar and
b 120 points from each of Parts II, III and IV from one of the specialisations as listed in the Bachelor of Engineering (Honours) Schedule.
3 a Where approved courses are listed in the Bachelor of Engineering (Honours) Schedule, inclusion of these courses for this degree must be approved by the Head of Department or nominee prior to enrolment.
b Courses approved for Part II and III must normally be at or above Stage II or III, respectively.
c Courses approved for Part IV must be at 700 level.
4 a A student will not normally be permitted to enrol for Part II unless Part I has been completed, or to enrol for Part III unless Part II has been completed, or to enrol for Part IV unless Part III has been completed.
b However, a student who has failed to pass one of those Parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.
c Only in exceptional circumstances will a student be permitted to enrol for Part III unless Part I has been completed, or to enrol for Part IV unless Part II has been completed.
5 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions
6 A student is exempted from the requirement to pass courses offered in the General Education Schedules who has: either
a completed an undergraduate degree at a tertiary institution or
b commenced study for this degree at a tertiary institution before 1 January 2006 or
c been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution or
d been admitted to this degree with credit from another tertiary institution for the entire Part I of this degree.
A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses offered at this University.

A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

### Conjoint Degrees

Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

### Practical Requirements

- A student enrolled for this degree must carry out satisfactorily such practical work in ENGGEN 299 and ENGGEN 499, field trips and laboratory requirements, as prescribed by the Faculty of Engineering.
- A student will not be considered to have completed the requirements for this degree unless Academic Services has received from the Dean of Faculty of Engineering confirmation that the student has complied with the requirements of Regulation 10a.

### English Language Requirements

- A student enrolled for this degree must demonstrate competence in the English language, in ENGGEN 199, as prescribed by the Faculty of Engineering.
- A student will not be considered to have completed the requirements for this degree unless Academic Services has received from the Dean of Faculty of Engineering confirmation that the student has complied with the requirements of Regulation 11a.

### Honours

- Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.
- A weighted Grade Point Average will be calculated and rounded to one decimal point, according to the following weightings:
  - Part II: 10%
  - Part III: 30%
  - Part IV: 60%
- The class of Honours is determined by the weighted Grade Point Average as follows:
  - 7.0 to 9.0 - First Class Honours
  - 5.5 to 6.9 - Second Class Honours First Division
  - 4.0 to 5.4 - Second Class Honours Second Division
  - 3.9 and below - Third Class Honours

### Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Amendment

These regulations and/or schedule have been amended with effect from 1 January 2021.

---

### Bachelor of Engineering (Honours) (BE(Hons)) Schedule

#### Part I
- ACADINT A01, ENGGEN 199
- 105 points: CHEMMAT 121, ELECTENG 101, ENGGEN 115, 121, 131, 140, ENGSCI 111

#### General Education Requirement

15 points from courses listed in the General Education Schedules approved for this degree

#### Specialisations available:

- **Biomedical Engineering**
  - Requirement:
    - Part II
      - ENGGEN 299
      - 120 points: BIOMENG 221, 241, 261, BIOSCI 107, ENGGEN 204, ENGSCI 211, 233, MEDSCI 142
    - Part III
      - 105 points: BIOMENG 321, 341, ENGGEN 303, ENGSCI 314, 331, MEDSCI 205, 309
      - 15 points from CHEM 380, 392, COMPSYS 303, ENGSCI 309, 344, 355, 391, EXERSCI 303, MATHS 362, MECHENG 313, 352, 371, MEDSCI 305, 312, 314, another approved course above Stage II offered at this University
      - Part IV
        - ENGGEN 499
        - 30 points: BIOMENG 791, ENGGEN 403
        - at least 30 points from BIOMENG 771, CHEMMAT 753, 754, 757, COMPSYS 705, ELECTENG 722, 733, ENGSCI 711, 712, 740, 741,
Chemical and Materials Engineering

Requirement:
Part II
- ENGENG 299
- 120 points: CHEMMAT 201–206, ENGENG 204, ENGSCI 211

Part III
- 15 points from CHEMMAT 304, 754, 755, 757, or other approved courses offered at this University

Part IV
- ENGENG 499
- 30 points: CHEMMAT 752, ENGENG 403
- 30 points from CHEMMAT 724, 753–760, 763, or other approved courses
- 30 points: CHEMMAT 750 Design Project
- 30 points: CHEMMAT 751 Research Project

Civil Engineering

Requirement:
Part II
- ENGENG 299
- 120 points: CIVIL 200, 202, 203, ENGENG 204, ENVENG 200, ENGSCI 211, STRCTENG 200, 201

Part III
- 105 points: CIVIL 300, 302, 303, ENGENG 303, ENGSCI 311, ENVENG 300, STRCTENG 304
- 15 points from CIVIL 301, 304, 305, or another approved course

Part IV
- ENGENG 499
- 60 points: CIVIL 756, 790, 791, ENGENG 403
- at least 15 points from CIVIL 700, 722, 726, 729, 731, 733, 735, 736, 741, 750, 782, ENVENG 701, 740, 747
- up to 15 points from another approved course
- 30 points: CIVIL 705 Research Project

Computer Systems Engineering

Requirement:
Part II
- ENGENG 299
- 105 points: COMPSYS 201, 209, ELECTENG 291, 292, ENGENG 204, ENGSCI 211, SOFTENG 281
- 15 points from ELECTENG 204, SOFTENG 283, 284

Part III
- 60 points: COMPSYS 301, 305, ENGENG 303, ENGSCI 313
- at least 30 points from COMPSYS 303, 304, 306
- up to 30 points from COMPSYS 302, ELECTENG 305, 331, 332, SOFTENG 325, 350, 364
- up to 15 points from another approved course

Part IV
- ENGENG 499
- 30 points: COMPSYS 770, ENGENG 403
- at least 15 points from COMPSYS 701, 723, 726
- up to 15 points from another approved course
- 30 points: COMPSYS 700 Research Project

Electrical and Electronic Engineering

Requirement:
Part II
- ENGENG 299
- 105 points: COMPSYS 201, ELECTENG 204, 209, 291, ENGENG 204, ENGSCI 211, SOFTENG 281
- 15 points from ELECTENG 292, SOFTENG 283, 284

Part III
- 60 points: ELECTENG 310, 311, ENGENG 303, ENGSCI 313
- at least 30 points from ELECTENG 305, 309, 331, 332
- up to 30 points from COMPSYS 302-306, ELECTENG 307, SOFTENG 325, 350, 364, or other approved courses

Part IV
- ENGENG 499
- 30 points: ELECTENG 770, ENGENG 403
- 60 points from COMPSYS 705, 723–727, ELECTENG 701, 703, 704, 706, 721, 722, 724, 726, 731–736, 738, SOFTENG 753, or other approved courses
- 30 points: ELECTENG 700 Research Project

Mechanical Engineering

Requirement:
Part II
- ENGENG 299
- 105 points: ENGENG 204, ENGSCI 211, MECHENG 211, 222, 235, 236, 242
- 15 points: MECHENG 201 or another approved course

Part III
- 120 points: ENGENG 303, ENGSCI 311, MECHENG 311, 322, 325, 334, 340, 352

Part IV
- ENGENG 499
- 30 points: ENGENG 403, MECHENG 731
- 60 points from ENGENG 705, MECHENG 707, 708, 712, 713, 715, 722, 724, 726, 743, 747, 752, or other approved courses
- 30 points: MECHENG 700 Research Project

Mechatronics Engineering

Requirement:
Part II
- ENGENG 299
- 105 points: ENGENG 204, ENGSCI 211, MECHENG 211, 222, 235, 242, 270
- 15 points: MECHENG 201 or another approved course

Part III
- 120 points: ENGENG 303, ENGSCI 311, MECHENG 312, 313, 322, 325, 370, 371

Part IV
- ENGENG 499
- 45 points: ENGENG 403, MECHENG 705, 706
- 45 points from COMPSYS 726, ENGGEN 705, MECHENG 709, 712, 715, 722, 724, 726, 735, 736, 743, 747, 752, or other approved courses
- 30 points: MECHENG 700 Research Project

Software Engineering

Requirement:
The Degree of Master of Aerospace Engineering – MAerospaceEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have completed the requirements for:

   either

   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

   or

   (ii) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative

   and

   (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded

   or

   (iii) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

   and

   (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering

   or

   (iv) a relevant Bachelors degree as approved by the Senate or its representative

   and

   (b) a relevant Postgraduate Diploma from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

b (i) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or

(ii) a relevant Bachelors degree from this University as approved by the Senate or its representative

and

(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
2 In exceptional circumstances Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Aerospace Engineering Schedule.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 5.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Aerospace Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Aerospace Engineering cannot continue.

9 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering or Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Engineering or Postgraduate Diploma in Aerospace Engineering.

Research Project / Thesis
11 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The topic of the research project or thesis must be approved by the Academic Head or nominee prior to enrolment.

   c The research project or thesis is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
12 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering
13 A student who has passed courses towards a Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Honours
15 This degree may be awarded with Honours in accordance with the General Regulations - Masters Degrees.

Commencement
16 These regulations came into force on 1 January 2021.

Master of Aerospace Engineering (MAerospaceEng) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Research Masters</td>
<td></td>
</tr>
<tr>
<td>• 30 points: AEROSPCE 730, 740</td>
<td></td>
</tr>
<tr>
<td>• 90 points: AEROSPCE 792 or 793 Thesis</td>
<td></td>
</tr>
<tr>
<td>Taught Masters</td>
<td></td>
</tr>
<tr>
<td>• 30 points: AEROSPCE 730, 740</td>
<td></td>
</tr>
</tbody>
</table>

A student who has to complete 180 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Research Masters</td>
<td></td>
</tr>
<tr>
<td>• 30 points: AEROSPCE 730, 740</td>
<td></td>
</tr>
<tr>
<td>• at least 30 points from AEROSPCE 720, MECHENG 711, 712, 743</td>
<td></td>
</tr>
<tr>
<td>• up to 15 points from COMP SYS 704, ELECT ENG 721, 722, 732, GEOG 771, 772, 774, MECH ENG 713, 722, 742, 747, PHYSICS 753, OPS MGT 760, 766, SCIEN T 701, 702, 704</td>
<td></td>
</tr>
<tr>
<td>• 90 points: AEROSPCE 792 or 793 Thesis</td>

The Degree of Master of Earthquake Engineering – MEqEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative
        and
        (b) passed 60 points in the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering from this University relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   or
   (iii) (a) a relevant Bachelors degree from this University, as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative
        and
        (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
   or
   (iv) (a) a relevant Bachelors degree as approved by Senate or its representative
        and
        (b) the Postgraduate Diploma in Engineering from this University with at least 60 points of courses relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   b (i) a relevant Bachelors degree from this University as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative
   or
(ii) (a) a relevant Bachelors degree as approved by Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering, Postgraduate Certificate in
Earthquake Engineering or Postgraduate Diploma in Engineering from this University relevant to
the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, provided the
postgraduate certificate or postgraduate diploma has not been awarded.

Note: Whether a degree is considered relevant will depend on the courses taken in that degree. Degrees in
Architecture, Civil Engineering or Science for example, may be considered relevant.

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has not
met the above requirements, but who has attained an equivalent qualification or professional experience in the
engineering profession.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a  pass courses with a total value of 120 points
   and
   b  complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c  not exceed 160 points for the total enrolment for this degree.
4 A student admitted to this degree under Regulation 1b must:
   a  pass courses with a total value of 180 points
   and
   b  complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c  not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Earthquake
Engineering Schedule.
6 A student who has previously passed any course the same as, or similar to, the courses required for this degree
must substitute an alternative course as approved by Senate or its representative.
7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 4.5 or
higher in the first 30 points of courses taken for this programme. If this Grade Point Average is not achieved,
enrolment in the Master of Earthquake Engineering cannot continue.
8 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60
points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master
of Earthquake Engineering cannot continue.
9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 A student may apply to reassign courses passed for the Master of Earthquake Engineering to the Postgraduate
Diploma in Engineering or Postgraduate Certificate in Earthquake Engineering.

Thesis / Research Project
11 a  A thesis or research project, when included in the programme, is to be carried out under the guidance of a
supervisor appointed by Senate or its representative.
   b  The topic of the thesis or research project must be approved by the Head of Department prior to enrolment.
   c  The thesis or research project is to be completed and submitted in accordance with the General Regulations
   – Masters Degrees.

Transfer from Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake
Engineering or Postgraduate Diploma in Engineering
12 A student who has passed courses towards the Postgraduate Certificate in Engineering, Postgraduate Certificate
in Earthquake Engineering, or Postgraduate Diploma in Engineering that are available in this degree may apply to
reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not
been awarded.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.
Honours / Distinction / Merit
14 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2019.

Master of Earthquake Engineering (MEqEng) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research Masters</td>
</tr>
<tr>
<td>• 15 points: CIVIL 720</td>
</tr>
<tr>
<td>• 15 points from CIVIL 702, 710, 711, 714, 715, 717–719, 724, 725, 727, 741, 742, 744–746, 750</td>
</tr>
<tr>
<td>• 90 points: CIVIL 793 or 794 Thesis</td>
</tr>
<tr>
<td>Taught Masters</td>
</tr>
<tr>
<td>• 15 points: CIVIL 720</td>
</tr>
<tr>
<td>• at least 45 points from CIVIL 702, 710, 715, 717, 725, 746, 787–789,</td>
</tr>
</tbody>
</table>

but no more than 30 points from CIVIL 787–789
• at least 15 points from CIVIL 710, 714, 715, 717–719, 727, 742, 745, 746, 750
• at least 15 points from CIVIL 702, 724, 725, 741
• up to 60 points from CIVIL 711, 716, 740, 744, DISMGT 703
• With the prior approval of the Head of Department, up to 30 points may be replaced by other appropriate 600 and 700 level courses at this or another University

A student who has to complete 180 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement:</th>
</tr>

</tr>
<tr>
<td>• 90 points: CIVIL 793 Thesis</td>
</tr>
</tbody>
</table>

The Degree of Master of Engineering – ME

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed:
   either
   a (i) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points above Stage III or its equivalent
   or
   (ii) (a) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative
   and
   (b) the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher or its equivalent
   or
   (iii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses
   and
   (b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering
   or
   (iv) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative
   and
   (b) the Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher or its equivalent
   or
   b (i) the requirements for a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses
   or
   (ii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative
   and
   (b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.
Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.

2 Students must have completed courses relevant to the specialisation in which they intend to enrol, and passed any prerequisite courses prior to enrolment in this programme.

3 A student wishing to enrol in courses listed in a specialisation in the Master of Engineering Studies Schedule as part of this programme must satisfy any prerequisites specified for that specialisation.

4 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or equivalent professional experience in the engineering profession.

Duration and Total Points Value

5 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

6 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

7 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Engineering Schedule.

8 A student enrolled for this degree who has already passed any course the same or similar to those required for this degree, must substitute an alternative course approved by the appropriate Head of Department.

9 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in at least 30 points of taught courses taken for this degree by the end of the first semester of their enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering cannot continue.

10 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this degree and have completed all taught courses by the end of their second semester of enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering cannot continue.

11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

12 A student may apply to reassign courses passed for this degree to the Master of Engineering Studies, Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering.

Thesis

13 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The thesis is to embody the results obtained by the student in an investigation on a topic approved by the Head of Department prior to enrolment.

   c The investigation is to be carried out by the student at the University under the direct supervision of a member of the academic staff, provided that:
      (i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as Senate or its representative may determine
      (ii) field work may be carried out at such places and for such periods as Senate or its representative may determine.

   d At the discretion of the Head of Department the candidate may be required to attend an oral examination.

   e The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering

14 A student who has passed courses towards a Postgraduate Certificate in Engineering or Postgraduate Diploma in
Engineering that are available for a specialisation in this degree and is eligible to be admitted to this programme, may apply to reassign those courses to the Master of Engineering for that specialisation provided that the postgraduate certificate or postgraduate diploma has not been awarded.

**Variations**

15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Honours**

16 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

**Amendment**

17 These regulations and/or schedule have been amended with effect from 1 January 2020.

### Master of Engineering (ME) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

<table>
<thead>
<tr>
<th>Bioengineering</th>
<th>Chemical and Materials Engineering</th>
</tr>
</thead>
<tbody>

Requirement:
Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Environmental Engineering
• 120 points: ENVENG 796 ME Thesis (Environmental)

Mechanical Engineering
Requirement:
Research Masters
• at least 60 points from any of the courses, excluding project courses, listed for the Mechanical Engineering or Medical Devices and Technologies specialisations in the Master of Engineering Studies Schedule.
• 120 points: MECHENG 796 ME Thesis (Mechanical)

Mechatronics Engineering
Requirement:
Research Masters
• 60 points from any of the courses, excluding project courses, listed for the Mechatronics Engineering, Mechanical Engineering, Computer Systems Engineering or Electrical and Electronic Engineering specialisations in the Master of Engineering Studies Schedule.
• 120 points: MECHTRON 796 ME Thesis (Mechatronics)

Software Engineering
Requirement:
Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Software Engineering.
• 120 points: SOFTENG 796 ME Thesis (Software Engineering)

### The Degree of Master of Engineering Management – MEMgt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this programme, a student needs to have:
   - either
     a. completed the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage III
     or
     b. completed the requirements for an equivalent degree qualification, as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering
   - or
     c. 
       i. completed the requirements for a Bachelors degree relevant to the proposed programme of study, as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering
       and
       ii. completed at least three years’ relevant work experience approved by the Dean of Faculty of Engineering.

2. In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

**Duration and Total Points Value**

3. A student enrolled for this degree must:
   - a. pass courses with a total value of 120 points
   - and
   - b. complete within the time limit specified in the General Regulations – Masters Degrees.

4. The total enrolment for this degree must not exceed 160 points.

**Structure and Content**

5. A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Management Schedule.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Research Project**

7. a. The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b. The research project topic must be approved by the Head of Department prior to enrolment.
The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Master of Engineering Project Management – MEPM

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
      or (ii) a relevant Bachelors Honours degree from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
      or (iii) a relevant Postgraduate Diploma with a Grade Point Average of 4.0 from this University, or the equivalent as approved by Senate or its representative
      or (iv) (a) a relevant Bachelors Honours degree from this University, or the equivalent as approved by Senate or its representative
          and (b) the Postgraduate Certificate in Engineering Project Management from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded
   or b (i) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
      or (ii) (a) a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
          and (b) the Postgraduate Certificate in Engineering Project Management from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded.

2 All applicants must have at least two years of relevant professional experience approved by the Dean of Faculty of Engineering.

3 In exceptional circumstances Senate or its representative may approve admission of a student who has:
   a attained extensive, practical, professional or scholarly experience in the engineering profession deemed equivalent to the requirement in Regulations 1 and 2
      and b performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Note: A relevant qualification may be in applied science, architecture, commerce, construction, engineering, information technology, science or technology.
Duration and Total Points Value

4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
   and
   c not exceed 160 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

6 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Project Management Schedule.

7 Students must achieve a Grade Point Average of 4.0 or higher in 30 points of taught courses taken for this degree by the end of the first semester of their enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Project Management cannot continue.

8 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Transfer from Postgraduate Certificate in Engineering Project Management

9 A student who has passed courses towards the Postgraduate Certificate in Engineering Project Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Research Project

10 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The research project topic must be approved by the Head of Department prior to enrolment.

   c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Reassignment

13 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering Project Management.

Amendment

14 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Engineering Project Management (MEPM) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Taught Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 60 points: CIVIL 703, ENNGEN 730, 731, 736</td>
</tr>
<tr>
<td>• 30 points from CIVIL 704, 708, 709, 716, ENNGEN 705, 732–735, ENGSCI 755, MECHENG 752, other approved 600 and 700 level courses in the Faculty of Engineering</td>
</tr>
</tbody>
</table>

A student who has to complete 180 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Taught Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 60 points: CIVIL 703, ENNGEN 730, 731, 736</td>
</tr>
<tr>
<td>• 90 points from CIVIL 704, 708, 709, 716, ENNGEN 705, 732–735, ENGSCI 755, MECHENG 752, other approved 600 and 700 level courses in the Faculty of Engineering</td>
</tr>
</tbody>
</table>

• 30 points: ENNGEN 792 or 794 Research Project
The Degree of Master of Engineering Studies – MEngSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed:
   either
   a (i) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher in 120 points above Stage III or its equivalent
   or
   (ii) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative and
   (b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering Studies with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   or
   (iii) the requirements for a relevant Bachelor's degree, as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent, in 120 points in the most advanced courses and
   (b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering
   or
   (iv) the requirements for a relevant Bachelor's degree as approved by Senate or its representative and
   (b) the Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent
   or
   (v) a Bachelor's degree of at least four years duration equivalent to 1a(iv) with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b (i) the requirements for a relevant Bachelor's degree as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent, in 120 points in the most advanced courses
   or
   (ii) the requirements for a relevant Bachelor's degree, as approved by Senate or its representative and
   (b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering Studies with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.

2 For entry to a specialisation in this programme, students must have completed courses relevant to the specialisation, passed any prerequisite courses prior to enrolment in this programme and satisfied any prerequisites specified for the specialisation in the Master of Engineering Studies Schedule.

3 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

Duration and Total Points Value

4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.
5 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Studies Schedule.
7 If these requirements include courses the same as, or similar to, those already passed by a student, alternative courses must be substituted as approved by the appropriate Head of Department.
8 This degree will be conferred with an endorsement as to the chosen area of specialisation.
9 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 3.5 or higher in the first 30 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Studies cannot continue.
10 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Studies cannot continue.
11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
12 A student may apply to reassign courses passed to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering.

Dissertation / Research Portfolio / Research Project
13 a The dissertation, research portfolio or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
b The dissertation or research project topic and the elements of the research portfolio must be approved by the Head of Department prior to enrolment.
c At the discretion of the Head of Department, the dissertation, research portfolio or research project candidate may be required to attend an oral examination.
d The dissertation, research portfolio or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Light Metals Reduction Technology
14 A student who has passed courses towards a Postgraduate Certificate in Light Metals Reduction Technology that are available for the Light Metals Reduction Technology specialisation may reassign those courses to this specialisation in this degree provided that the Postgraduate Certificate in Light Metals Reduction Technology has not been awarded.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
15 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available for a specialisation in this degree may apply to reassign those courses to this specialisation provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Variations
16 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction / Merit
17 This degree may be awarded with either Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Amendment
18 These regulations and/or schedule have been amended with effect from 1 January 2021.
Master of Engineering Studies (MEngSt) Schedule

A student who has to complete 120 points must satisfy the requirement for one of the following specialisations:

### Chemical and Materials Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from CHEMMAT 713, 721, 724, 752–755, 758, 771–773, 787–789, 795, MECHENG 742, but no more than 45 points from CHEMMAT 787–789, 795
  - up to 75 points from CHEMMAT 712, 722, 756, 757, 759–762, ENERGY 721, ENGGEN 732, 769, ENVSCI 711, FOODSCI 703, MECHENG 743
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Civil Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from CIVIL 702, 704, 707–710, 717, 723–725, 740, 745, 763–766, 769–772, 787–789, 792, 795, but no more than 45 points from CIVIL 787–789, 795
  - up to 75 points from CIVIL 701, 703, 706, 711, 713–716, 718–722, 726, 737, 740–743, 747, 741, 742, 744, 750, 754, 758–762, 767, 768, 773–775, 782, 791, ENGGEN 734, 769
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Computer Systems Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from COMPSYS 701, 704, 705, 726–729, 787–789, 795, ELECTENG 704, 706, 734, SOFTENG 701, 751, but no more than 45 points from COMPSYS 787–789, 795
  - up to 75 points from COMPSYS 710, 711, 713–715, 721–725, 730–732, ELECTENG 722, 726, 732, 733, SOFTENG 761
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Construction Management

**Requirement:**
- **Taught Masters**
  - at least 45 points from CIVIL 704, 707, 709, 765, 787–789, 795, but no more than 45 points from CIVIL 787–789, 795
  - up to 75 points from CIVIL 703, 706, 713, 740, 741, 791, 792, ENGGEN 734, ENGSCI 755, other approved 600 and 700 level courses offered at this University

### Electrical and Electronic Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from COMPSYS 726, 727, ELECTENG 704, 706, 734, 737–741, 787–789, 795, but no more than 45 points from ELECTENG 787–789, 795
  - up to 75 points from ELECTENG 701, 703, 721, 722, 724, 726, 731–733, 735, 736
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Engineering Science

**Requirement:**
- **Taught Masters**
  - 45 points from ENGSCI 787–789, 795
  - up to 75 points from BIOMENG 771, ENGSCI 705, 706, 711, 712, 721, 740–742, 745, 746, 753, 760–763, 765, 768, 772, GEOTHERM 785

### Environmental Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from ENVENG 701–703, 705, 707, 746, 747, 750, 787–789, 795, but no more than 45 points from ENVENG 787–789, 795
  - up to 75 points from ENVENG 706, 719, 740, 744, 752
  - up to 30 points from appropriate ENVSCI 600 and 700 level courses, subject to approval by the Head of Department
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Food Engineering

**Requirement:**
- **Research Masters**
  - 90 points: CHEMMAT 776 or 777 Research Portfolio
  - 30 points from CHEMMAT 771–773

**Taught Masters**
- at least 15 points from CHEMMAT 772, 773, 778
- up to a further 75 points from BIOSCI 741, CHEMMAT 752, 756, 757, 772, 773, 778, ENGGEN 732, 769, FOODSCI 703, 706–709, 740, or other approved 600 and 700 level courses offered at this University
- 30 points: CHEMMAT 779 Research Project

### Geotechnical Engineering

**Prerequisite:** CIVIL 324 or 728 or equivalent

**Requirement:**
- **Taught Masters**
  - at least 15 points from CIVIL 788, 789
  - up to 15 points from CIVIL 702, 723–725
  - up to 60 points from CIVIL 701, 720–722, 726, 728, 741, 754, ENGSCI 711, ENVENG 746, 752
  - at least 15 points but no more than 30 points from EARTHSCI 705, 770–772

With the prior approval of the Head of Department, up to 45 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university

### Mechanical Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from MECHENG 711, 714, 719, 728, 742, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
  - up to 75 points from AEROSPACE 720, 730, 740, ENGGEN 706, 769, MECHENG 701, 702, 712, 713, 715, 717, 722, 724, 726, 735, 736, 743, 747, 752
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Mechatronics Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from MECHENG 710, 719, 720, 728, 730, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
  - up to 75 points from COMPSYS 704, 705, 707, 732, 733, ELECTENG 706, 733, ENGGEN 705, 769, MECHENG 709, 722, 724, 726, 735, 736, 752
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
Medical Devices and Technologies

Requirement:
Research Masters
• 30 points from ENGGEN 770, 771 or other approved 600 or 700 level courses
• 90 points: ENGGEN 793 Research Portfolio

Taught Masters
• 30 points: ENGGEN 770, 771
• 30 points from CIVIL 703, CHEMMAT 740, 741, ENGGEN 705, MECHENG 728, 730, 752, MEDSCI 703, PHYSICS 780, or other approved 600 or 700 level courses offered at this University
• 60 points: ENGGEN 791 Dissertation

Polymer Engineering

Requirement:
Taught Masters
• 60 points: POLYMER 700, 704–706
• 15 points from CHEMMAT 721, 753, ENGGEN 769, MECHENG 742, 743, 751, 752, PSYCH 715, an approved 600 or 700 level course offered at this University
• 45 points: MECHENG 795 Research Project

Software Engineering

Requirement:

A student who has to complete 180 points must satisfy the requirement for one of the following specialisations:

Civil Engineering

Requirement:
Taught Masters
• at least 45 points from CIVIL 702, 704, 707–710, 711, 723–725, 740, 745, 763–766, 769–772, 787–789, 792, 795, but no more than 60 points from CIVIL 787–789, 795
• up to 135 points from CIVIL 701, 703, 706, 711, 713–716, 718–722, 726, 727, 730–734, 737, 741, 742, 744, 750, 754, 756–762, 767, 768, 773–775, 782, 791, ENGGEN 734, 769
• up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Computer Systems Engineering

Requirement:
Taught Masters
• at least 45 points from COMPSYS 701, 704, 705, 726–729, 787–789, 795, ELECTENG 704, 706, 734, SOFTENG 701, 751, but no more than 60 points from COMPSYS 787–789, 795
• up to 135 points from COMPSYS 710, 711, 713–715, 721–725, 730–732, ELECTENG 722, 726, 732, 733, SOFTENG 761
• up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Construction Management

Requirement:
Taught Masters
• at least 45 points from CIVIL 704, 707, 709, 765, 787–789, 795, but no more than 45 points from CIVIL 787–789, 795
• at least 30 points from CIVIL 703, 708, 716, 791, 792
• up to 105 points from CIVIL 738, 743, ENGGEN 734, ENGSCI 755, other approved 600 and 700 level courses offered at this University

Electrical and Electronic Engineering

Requirement:
Taught Masters
• at least 45 points from COMPSYS 704, 705, 726, 727, ELECTENG 704, 706, 734, 737–741, 787–789, 795, but no more than 60 points
• from ELECTENG 787–789, 795
• up to 135 points from ELECTENG 701, 703, 721, 722, 724, 726, 731–733, 735, 736
• up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Taught Masters
• at least 45 points from COMPSYS 704, 705, 726, 727, SOFTENG 701, 751, 754, 787–789, 795, but no more than 45 points from SOFTENG 787–789, 795
• up to 75 points from COMPSCI 711, 715, 725, 734, SOFTENG 702, 710, 711, 715, 750, 752, 753, 755, 761, 762
• up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Environmental Engineering

Requirement:
Taught Masters
• at least 45 points from ENVENG 701–703, 705, 707, 746, 747, 750, 787–789, 795, but no more than 60 points from ENVENG 787–789, 795
• up to 75 points from ENVENG 706, 719, 740, 744, 752, GEOTHERM 785
• up to 60 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Food Engineering

Requirement:
Taught Masters
• at least 15 points from CHEMMAT 772, 773, 777
• up to a further 135 points from BIOSCI 741, CHEMMAT 752, 756, 757, 772, 773, 778, ENGGEN 732, 769, FOOOSCI 703, 706–709, 740, or other approved 600 or 700 level courses offered at this University
• 30 points: CHEMMAT 779 Research Project

Sustainable Resource Recovery

Requirement:
Taught Masters
• 30 points: CHEMMAT 758, 763
• 60 points from CHEM 760, CHEMMAT 724, 752, 753, 755–757, 759, 760, 772, 773, 778, ENGGEN 732, 769
• 30 points: CHEMMAT 780 Research Project

Transportation Engineering

Requirement:
Taught Masters
• at least 45 points from CIVIL 763–766, 769–772, 779, 787–789, but no more than 45 points from CIVIL 779, 787–789
• up to 75 points from CIVIL 758, 759, 761, 762, 767, 768, 773–775
With the prior approval of the Head of Department, up to 45 points may be replaced by other appropriate courses offered at this or another university.

Engineering Science

Requirement:
Taught Masters
• at least 45 points, but no more than 60 points, from ENGSCI 787–789, 795
• up to 135 points from BIOMENG 771, ENGSCI 705, 706, 711, 712, 721, 740–742, 745, 746, 753, 760–763, 765, 768, 772, GEOTHERM 785
• up to 60 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
### Mechanical Engineering
**Requirement:** Taught Masters  
- at least 45 points from MECHENG 711, 714, 719, 728, 742, 751, 753, 787–789, 795, but no more than 60 points from MECHENG 787–789, 795  
- up to 135 points from AEROSPCE 720, 730, 740, ENGG 705, 769, MECHENG 701, 702, 712, 713, 715, 717, 722, 724, 726, 735, 736, 743, 747, 752  
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Mechatronics Engineering
**Requirement:** Taught Masters  
- at least 45 points from MECHENG 710, 719, 720, 728, 730, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795  
- up to 135 points from COMPSYS 704, 705, 723, 730–732, ELECTENG 706, 733, ENGG 705, 769, MECHENG 709, 722, 724, 726, 735, 736, 752  
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Polymer Engineering
**Requirement:** Taught Masters  
- 60 points: POLYMER 700, 704-706  
- 75 points from CHEMMAT 721, 753, ENGG 769, MECHENG 742, 743, 751, 752, PSYCH 715; up to 45 points from approved 600 and 700 level courses offered at this University  
- 45 points: MECHENG 795 Research Project

### Software Engineering
**Requirement:** Taught Masters  
- at least 45 points from COMPSYS 704, 705, 726, 727, SOFTENG 701, 751, 754, 787–789, 795, but no more than 60 points from SOFTENG 787–789, 795  
- up to 135 points from COMPSCI 711, 715, 725, 734, SOFTENG 702, 710, 711, 750, 752, 753, 755, 761, 762  
- up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

### Sustainable Resource Recovery
**Requirement:** Taught Masters  
- 30 points: CHEMMAT 758, 763  
- 120 points from CHEM 760, CHEMMAT 724, 752, 753–757, 759, 760, 772, 773, 778, ENGG 732, 769  
- 30 points: CHEMMAT 788 Research Project

### Transportation Engineering
**Requirement:** Taught Masters  
- at least 45 points from CIVIL 763–766, 769–772, 779, 787–789, but no more than 60 points from CIVIL 779, 787–789  
- 30 points from CIVIL 660, 661, 758, 759  
- up to 105 points from CIVIL 761, 762, 767, 768, 773–775  
With the prior approval of the Head of Department, up to 45 points may be replaced by appropriate courses offered at this or another university

---

The Degree of Master of Robotics and Automation Engineering – MRobotEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this degree, a student must have completed the requirements for:
   
either
   
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   
   or
   
   (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative  
   
   and
   
   (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Robotics and Automation or Postgraduate Diploma in Robotics and Automation from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   
   or
   
   (iii) (a) a relevant Bachelor degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative  
   
   and
   
   (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
   
   or
   
   (iv) (a) a relevant Bachelor degree as approved by Senate or its representative  
   
   and
   
   (b) a relevant Postgraduate Diploma in a relevant subject from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
or
b (i) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
or
(ii) (a) a relevant Bachelors degree as approved by Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Robotics and Automation or Postgraduate Diploma in Robotics and Automation from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Robotics and Automation Engineering Schedule.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Robotics and Automation Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Robotics and Automation Engineering cannot continue.

9 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 A student may apply to reassign courses passed to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering or Postgraduate Certificate in Robotics and Automation Engineering or Postgraduate Diploma in Robotics and Automation Engineering.

Research Project
11 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The topic of the research project must be approved by the Academic Head or nominee prior to enrolment.

   c The research project is to be completed and submitted in accordance with the General Regulations - Masters Degrees.
Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
12 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Robotics and Automation Engineering or Postgraduate Diploma in Robotics and Automation Engineering
13 A student who has passed courses towards the Postgraduate Certificate in Robotics and Automation Engineering or Postgraduate Diploma in Robotics and Automation Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
15 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Commencement
16 These regulations came into force on 1 January 2021.

Master of Robotics and Automation Engineering (MRobotEng) Schedule
A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Taught Masters Requirement:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• 30 points: COMPSYS 726, 730</td>
<td></td>
</tr>
<tr>
<td>• 15 points from ENNGEN 730–732</td>
<td></td>
</tr>
<tr>
<td>• at least 15 points from COMPSYS 731, 732, ELECTENG 704, MECHENG 709, 724, 736, SOFTENG 762</td>
<td></td>
</tr>
<tr>
<td>• up to 15 points from COMPSCI 760, 761, 765, 767, 773, ENNGEN 769, ENGSCI 760</td>
<td></td>
</tr>
<tr>
<td>• 45 points: COMPSYS 792 Research Project</td>
<td></td>
</tr>
<tr>
<td>With the prior approval of the Head of Department, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university</td>
<td></td>
</tr>
</tbody>
</table>

A student who has to complete 180 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Taught Masters Requirement:</th>
<th></th>

Graduate Diploma in Engineering – GradDipEng
The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a either
      (i) completed the requirements for any Bachelors degree approved by Senate or its representative
      or
      (ii) received a professional qualification in Engineering approved by Senate or its representative
      or
      (iii) attained an equivalent level of practical experience in the engineering profession as approved by Senate or its representative
   or
   b attained a level of technical competence in Engineering equivalent to at least Parts I and II of the Degree of Bachelor of Engineering (Honours), as may be approved by the Dean of Faculty of Engineering.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this graduate diploma, a student must pass:
a at least 45 points from courses, excluding Project courses, listed in the Master of Engineering Studies Schedule.

b up to 75 points from:
   (i) Stage III, IV or 700 level courses as listed in the Bachelor of Engineering (Honours) Schedule, excluding research project courses
   (ii) courses listed in the Graduate Diploma in Engineering Schedule
   (iii) up to 30 points from courses listed for Parts I and II in the Bachelor of Engineering (Honours) Schedule, with the specific approval of the Dean of Faculty of Engineering.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 The programme for each student requires the approval of the Dean of Faculty of Engineering.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Certificate in Aerospace Engineering – PGCertAerospaceEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Aerospace Engineering Schedule.

5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course as approved by the Head of Department or nominee.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Commencement
8 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Earthquake Engineering – PGCertEqEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have completed:
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points above Stage III or its equivalent
   or
   b (i) the requirements for a Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
      and
      (ii) at least three years of relevant work experience approved by the Dean of Faculty of Engineering
      or
   c a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 15 points: CIVIL 720
   and
   b 45 points from courses listed in the Master of Earthquake Engineering Schedule, excluding CIVIL 793 and 794.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations have been amended with effect from 1 January 2020.

Postgraduate Certificate in Engineering – PGCertEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained an equivalent qualification or professional experience in the engineering profession.

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 Of the 60 points required for this postgraduate certificate, a student must pass:
   either
   a 60 points from courses listed in the Master of Engineering Studies Schedule, excluding dissertation, research portfolio and research project courses, of which at least 30 points must be from courses in one of Biomedical Engineering, Chemical and Materials Engineering, Civil Engineering, Computer Systems Engineering, Electrical and Electronic Engineering, Energy Technology, Engineering General, Engineering Science, Environmental Engineering, Mechanical Engineering, Software Engineering, Structural Engineering, or Sustainable Resource Recovery
   or
   b (i) at least 45 points of courses approved by the Head of Department from one of the specialisations listed in the Master of Engineering Studies Schedule, excluding dissertation, research portfolio and research project courses, and excluding the Geotechnical Engineering, Medical Devices and Technologies and Polymer Engineering specialisations
   and
   (ii) up to 15 points of 600 and 700 level courses approved by the Head of Department
   or
   c the requirements for the specialisation as listed in the Postgraduate Certificate in Engineering Schedule.

6 This certificate will be conferred with an endorsement in a specialisation only if the requirements in Regulation 5b or 5c are satisfied.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2021.

### Postgraduate Certificate in Engineering (PGCertEng) Schedule

**Polymer Engineering**

Requirement:
- 60 points: POLYMER 700, 704–706

---

### Postgraduate Certificate in Engineering Project Management – PGCertEPM

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   and
b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: A relevant Bachelors degree may be in applied science, architecture, commerce, construction, engineering, information technology, science, or technology.

Duration and Total Points Value
3 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 30 points: CIVIL 703, ENGGEN 731
   and
   b 30 points from courses listed in the Master of Engineering Project Management Schedule or other approved courses offered at this University, excluding ENGGEN 792 and 794.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2021.

Postgraduate Certificate in Geothermal Energy Technology – PGCertGeothermTech
The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher over 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b the Degree of Bachelor of Science from this University with a Grade Point Average of 2.5 or higher over 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   c the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) or Bachelor of Science from this University, or the equivalent as approved by Senate or its representative, with at least three years of professional experience in the geothermal industry approved by the Dean of Engineering or nominee.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must pass 60 points from courses listed in the Postgraduate Certificate in Geothermal Energy Technology Schedule.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Certificate in Light Metals Reduction Technology – PGCertLMRTech

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have completed the requirements for an approved Bachelors degree at a level deemed satisfactory by the Dean of Faculty of Engineering.
2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained an equivalent qualification or professional experience in the engineering profession.

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 A student enrolled for this postgraduate certificate must pass 60 points from courses listed in the Postgraduate Certificate in Light Metals Reduction Technology Schedule.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2014.

Postgraduate Certificate in Robotics and Automation Engineering – PGCertRobotEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed:
   either
a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

or

b the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a at least 15 points from COMPSYS 726, 730
   and
   b at least 15 points from COMPSYS 731, 732, MECHENG 709
   and
   c up to 30 points from courses listed in the Master of Robotics and Automation Engineering Schedule, excluding COMPSYS 792.

5 A student who has previously passed any course the same as, or similar to, the courses required for this qualification must substitute an alternative course as approved by the Head of Department or nominee.

6 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2021.

Postgraduate Diploma in Aerospace Engineering – PGDipAerospaceEng

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.
Structure and Content
4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Aerospace Engineering Schedule.

5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate diploma must substitute an alternative course as approved by the Head of Department or nominee.

6 With the prior approval of the Academic Head or nominee, up to 30 points may be replaced by other relevant 600 and 700 level courses offered at this or another university.

7 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2021.

| Postgraduate Diploma in Aerospace Engineering (PGDipAerospaceEng) Schedule |
|-------------------------------------------------------------|-------------------------------------------------------------|
| Requirement:                                               | • 15 points: AEROSPCE 730                                  |
|                                                            | • at least 30 points from AEROSPCE 720, 740, MECHENG 711, 712, 743 |

Postgraduate Diploma in Engineering – PGDipEng
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.

2 Students must have completed any prerequisite courses required for their specialisation prior to admission.

3 In exceptional circumstances, Senate or its representative may approve admission of a student who has not met the requirements in Regulation 1 and 2, but who has attained an equivalent qualification or extensive professional experience in engineering.

Duration and Total Points Value
4 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 Of the 120 points required for this postgraduate diploma, a student must pass:
   a at least 90 points from courses in one of the specialisations listed in the Master of Engineering Studies Schedule, excluding dissertation, research portfolio, research project courses and the Geotechnical Engineering and Medical Devices and Technologies specialisations
and
b up to 30 points from other approved 600 or 700 level courses offered at this or another university.

7 Up to 45 points may be replaced by other appropriate approved 600 and 700 level courses offered at this or another university.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations have been amended with effect from 1 January 2021.

Postgraduate Diploma in Robotics and Automation Engineering – PGDipRobotEng

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b the requirements for a relevant Bachelors degree with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 30 points: COMPSYS 726, 730
   and
   b 15 points from ENGGEN 730–732
   and
   c 75 points from courses listed in the Master of Robotics and Automation Engineering Schedule, excluding COMPSYS 792.

5 A student who has previously passed any course the same as, or similar to, the courses required for this qualification must substitute an alternative course as approved by the Head of Department or nominee.

6 With the prior approval of the Academic Head or nominee, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

7 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2021.
Regulations – Law

Degrees

327 The Degree of Bachelor of Laws – LLB
328 The Degree of Bachelor of Laws (Honours) – LLB(Hons)
329 The Degree of Master of Laws – LLM
332 The Degree of Master of Legal Studies – MLS
334 The Degree of Master of Taxation Studies – MTaxS

Certificates and Diplomas

335 Graduate Certificate in Law – GradCertLaw
336 Graduate Diploma in Law – GradDipLaw
337 Postgraduate Certificate in Law – PGCertLaw

Interfaculty Programmes – Law

438 The Degree of Bachelor of Global Studies – BGlobalSt
442 The Degree of Master of Disaster Management – MDisMgt
454 The Degree of Master of Professional Studies – MProfStuds
458 Postgraduate Certificate in Disaster Management – PGCertDisMgt
The Degree of Bachelor of Laws – LLB

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1. A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2. Of the 480 points required for this degree, a student must pass:
   a. 465 points: Part I, including LAW 121G, and Parts, II, III and IV as listed in the Bachelor of Laws Schedule and
   b. 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3. a. Except as permitted under Regulation 9, a student may not enrol for Part II unless Part I has been completed.
   b. Each student must pass Parts II, III and IV in the order set out in the Bachelor of Laws Schedule unless approval to vary the order is given by the Dean of Faculty of Law.

   Note: A student completing Part II will be permitted to commence Part III concurrently, subject to prerequisites and points limits.

4. A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions
5. A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   a. completed an undergraduate degree at a tertiary institution
   or
   b. commenced study for this degree at a tertiary institution before 1 January 2006
   or
   c. been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

6. A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Written Work and Practical Requirements
7. In order to complete the requirements of LAW 400 or LAW 499 under Regulation 2 above, a student must carry out such legal research assignments and practical application of the law as the Faculty of Law may require.

Conjoint Degrees
8. Special arrangements apply where this degree is taken as a component degree of an approved conjoint degree programme. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Graduate Admission
9. A student who is a graduate or graduand of any university in New Zealand, or who is granted admission ad eundem statum with graduate status under the Admission Regulations, may be granted credit of up to 75 points towards LLB Part I. Such a student will normally be required to pass satisfactorily LAW 121G, 131 and 141 before applying for admission to LLB Part II.

Note:
(i) Admission to Part II will be subject to selection, according to the approved selection criteria.

(ii) In exceptional circumstances the Dean of Faculty of Law may permit a graduate or graduand to be admitted directly to LLB Part II without having passed LAW 121G, 131 and 141, provided that the applicant has demonstrated to the satisfaction of the Dean an aptitude for legal studies, and provided that LAW 121G, 131 and 141 are taken concurrently with the Part II course(s).
Courses from Other Programmes
10 a In place of elective Law courses totalling not more than 45 points for this degree, a student may take courses at Stage II or above offered for other programmes at this University, if they are related to the student’s Law studies and approved by the Dean of Faculty of Law.

b While approval of such courses is normally given before enrolment, the Dean of Faculty of Law may in special cases apply this provision to courses previously passed for another programme. Where the Dean approves such courses, they are to be reassigned from that other programme to this degree.

Research Papers
11 a With the prior approval of the teacher of the course and the Dean of Faculty of Law, a student enrolled for this degree may elect to present a research paper in lieu of an examination in any elective law course.

b This regulation applies also to a student taking any elective Law course or courses for any degree other than this, or for any diploma or for a Certificate or Certificates of Proficiency.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Bachelor of Laws (Honours) – LLB(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 a No student on whom the Degree of Bachelor of Laws has already been conferred may enrol for this degree.

b At the discretion of the Dean of Faculty of Law, a student who has completed Parts I and II for the Degree of Bachelor of Laws may be permitted to enrol for this degree.

c Where the Faculty of Law approves enrolment for the Degree of Bachelor of Laws (Honours) the courses previously passed for the Degree of Bachelor of Laws will be reassigned to the Degree of Bachelor of Laws (Honours).

Duration and Total Points Value
2 A student enrolled for this degree must pass courses with a total value of 540 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 540 points required for this degree, a student must pass:

a 480 points from the Degree of Bachelor of Laws Schedule

and

b 60 points from courses listed in the Bachelor of Laws (Honours) Schedule.

4 All the provisions and requirements of the Degree of Bachelor of Laws apply also to a student enrolled for this
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Conjoint Degrees

Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination for which the specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Dissertation

The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.

The dissertation topic must be approved by the Dean of Faculty of Law prior to enrolment.

A student must enrol for the dissertation in the semester following completion of Part IV of the schedule for the Degree of Bachelor of Laws.

The dissertation must be completed and submitted by the last day of lectures in the semester of enrolment.

In exceptional circumstances beyond the student’s control, Senate or its representative may approve a limited extension of time, not exceeding two months, for the completion of the dissertation. Where an extension of time is approved, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the course has ended.

Award of Honours

This degree will be awarded only where a student’s work throughout the entire programme, inclusive of the courses required for the Degree of Bachelor of Laws, is of a sufficiently high standard, as determined by the Faculty of Law. In assessing the standard of a student’s work in this programme, the courses taught by other faculties that are taken as part of Part I will not be taken into account.

Withdrawal from Honours

A student whose work does not satisfy the standard specified in Regulation 8, or who at any time chooses to withdraw from Honours, may transfer from the Degree of Bachelor of Laws (Honours) to the Degree of Bachelor of Laws. In that case the courses already passed for, or credited to, the Degree of Bachelor of Laws (Honours) may be reassigned to the Degree of Bachelor of Laws, except for any dissertation taken under Regulation 3b.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Master of Laws – LLM

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this programme, a student must have:

a (i) completed the requirements for the Degree of Bachelor of Laws or for the Degree of Bachelor of Laws (Honours), or an equivalent qualification in Law as approved by Senate or its representative

or

(ii) (a) completed the requirements of a relevant qualification as approved by Senate or its representative

and

(b) been in practice as a barrister or solicitor, in New Zealand or elsewhere, for no less than two years full-time or the equivalent part-time

and

b (i) gained a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses taken for the
Bachelor of Laws or Bachelor of Laws (Honours) or an equivalent qualification in Law

or

(ii) passed, for a Postgraduate Diploma in Legal Studies, at least 60 points in 700 level courses, or in LAW 690 Dissertation and 700 level courses, provided that a Grade Point Average of 5.0 or higher has been achieved in such courses and/or dissertation

or

(iii) passed, for a Postgraduate Certificate in Law, at least 60 points in 700 level courses, provided that a Grade Point Average of 5.0 or higher has been achieved in these courses

or

(iv) otherwise shown to the satisfaction of Senate or its representative capacity to undertake advanced study and research in the courses proposed to be taken for this degree.

**Duration and Total Points Value**

2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 160 points.

**Structure and Content**

4 Of the 120 points required for this degree, a student must pass:
   either
   a **Research Masters**
      (i) LAW 700
      and either
      (ii) 120 point Thesis listed in the Master of Laws Schedule
      or
      (iii) (a) 90 point Thesis
            and
            (b) 30 points from either courses or the Dissertation listed in the Master of Laws Schedule
      or
      (iv) 120 point Research Portfolio listed in the Master of Laws Schedule
      or
      (v) (a) 90 point Research Portfolio
          and
          (b) 30 points from either courses or the Dissertation listed in the Master of Laws Schedule
   or
   b **Taught Masters**
      (i) LAW 700
      and either
      (ii) 120 points from courses listed in the Master of Laws Schedule
      or
      (iii) (a) 90 points from courses
            and
            (b) 30 point Dissertation listed in the Master of Laws Schedule.

5 An exemption from LAW 700 may be granted to a student who has demonstrated to the satisfaction of the Dean of Faculty of Law advanced skills in legal research methodology.

6 With the permission of the Dean of Faculty of Law a student may include up to 30 points from any other 700 level courses in programmes offered at this University provided they are relevant and suitable for inclusion in this degree.

7 Where courses, which may include a Dissertation, Thesis or Research Portfolio on a relevant topic, totalling at least 90 points are passed from one of the areas of specialisation listed in the Master of Laws Schedule, this degree may be conferred with an endorsement as to that area of specialisation.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Transfer from Postgraduate Certificate in Law or Postgraduate Diploma in Legal Studies**

9 A student who has passed, for a Postgraduate Certificate in Law or a Postgraduate Diploma in Legal Studies, courses that are available for this degree and is eligible to be admitted to this programme, may reassign those courses to this degree provided the Postgraduate Certificate in Law or the Postgraduate Diploma in Legal Studies have not been awarded.
Note: A student who is not a law graduate will not be eligible to transfer to this degree.

Thesis / Dissertation
10 a The thesis, research portfolio, or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.

b The thesis or dissertation topic or the elements of the research portfolio must be approved by the Dean of Faculty of Law prior to enrolment.

c The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction / Merit
12 This degree may be awarded with Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Laws (LLM) Schedule

Courses available for LLM:

**Requirement:**
- LAW 700
- and at least 120 points from
  - LAW 790 Dissertation
  - LAW 796 Thesis 1
  - LAW 797 Thesis 2
  - LAW 794 Research Portfolio 1
  - LAW 798 Research Portfolio 2

**Requirement:**
- **Research Masters**
  
  **either**
  - LAW 700
  - 120 points: LAW 797 Thesis 2
  
  **or**
  - LAW 700
  - 90 points: LAW 796 Thesis 1
  - 30 points from LAW 760, 790, 792, LAWCOMM 702–797, LAWENVIR 702–785, LAWGENRL 702–785, LAWPubL 705–785

**LLM specialisations:**

**Corporate and Commercial Law**
- LAW 701, 760, 790, LAWCOMM 702–797, LAWPubL 707
- Such other 700 level courses as the Dean of Faculty of Law approves from year to year as relevant for inclusion in this specialisation

**Environmental Law**
- LAW 760, 790, LAWENVIR 702–785
- Such other 700 level courses as the Dean of Faculty of Law approves from year to year as relevant for inclusion in this specialisation

**Human Rights Law**
- Such other 700 level courses as the Dean of Faculty of Law approves from year to year as relevant for inclusion in this specialisation

**International Law**
- LAW 760, 790, LAWCOMM 702, 715, 723, 733, 734, 738, 739, 770, 771, 774, LAWENVIR 702, 710, 725, LAWGENRL 722, LAWPubL 726, 732, 736, 743, 744–785
- Such other 700 level courses as the Dean of Faculty of Law approves from year to year as relevant for inclusion in this specialisation

**Litigation and Dispute Resolution**
- LAW 760, 790, LAWCOMM 702, 723, 726, LAWGENRL 771, 772, LAWPubL 736
- Such other 700 level courses as the Dean of Faculty of Law approves from year to year as relevant for inclusion in this specialisation

**Public Law**
- LAW 760, 790, LAWGENRL 702, 712, 722, LAWPubL 705–785
- Such other 700 level courses as the Dean of Faculty of Law approves from year to year as relevant for inclusion in this specialisation
The Degree of Master of Legal Studies – MLS

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for:
     either
     (i) a four-year Bachelors degree from this University, or equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative
     or
     (ii) a Bachelors (Honours) degree from this University, or equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage III, or the equivalent as approved by Senate or its representative
     or
     (iii) (a) a Bachelors degree from this University, or equivalent qualification as approved by Senate or its representative
     and
     (b) a postgraduate qualification equivalent to one year’s advanced study, with a Grade Point Average of 5.0 or higher in 60 points, as approved by Senate or its representative
   and
   b shown to the satisfaction of the Dean of Faculty of Law the capacity to undertake advanced study and research in the courses proposed to be taken for this degree.
   or
   c (i) the Degree of Bachelor of Commerce in Commercial Law from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   (ii) a Bachelors degree from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   d shown to the satisfaction of the Dean of Faculty of Law the capacity to undertake the courses for this degree.

Duration and Total Points Value

2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
   and
   c not exceed 160 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1c must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Master Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Master of Legal Studies Schedule.

5 The programme for each student requires the approval of the Dean of Faculty of Law.

6 An exemption from LAW 700 may be granted to a student who has demonstrated to the satisfaction of the Dean of Faculty of Law advanced skills in legal research methodology.

7 A student may be permitted to substitute up to 30 points from LAW 760, 790, LAWCOMM 701–790, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785 for LAW 701 where the student has demonstrated to the satisfaction of the Dean of Faculty of Law advanced knowledge of the New Zealand legal system, its sources, structure and method.
8 With the permission of the Dean of Faculty of Law a student may include up to 30 points from any other 700 level courses offered at this University that are relevant and suitable for inclusion in this degree.

9 Where a student passes courses, which may include a Dissertation or Thesis on a relevant topic, totalling at least 90 points from one of the areas of specialisation listed in the Master of Legal Studies Schedule, this degree will be conferred with an endorsement as to that area of specialisation.

10 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Thesis / Dissertation**

11 a A thesis or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.

b The thesis or dissertation topic needs the approval of the Dean of Faculty of Law prior to enrolment.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Transfer from Postgraduate Certificate in Law**

12 A student who is eligible to be admitted to this degree under Regulation 1 and has passed courses towards a Postgraduate Certificate in Law that are available for this degree may reassign those courses to this degree, provided that the Postgraduate Certificate in Law has not been awarded.

**Variations**

13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Honours / Distinction / Merit**

14 This degree may be awarded with Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

**Amendment**

15 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

### Master of Legal Studies (MLS) Schedule

A student who has to complete 120 points must satisfy the following requirements:

**Requirement:**

**Research Masters**

- LAW 700
- 30 points: LAW 701
- 90 points: LAW 794 Research Portfolio 1 or LAW 796 Thesis 1

**Taught Masters**

- LAW 700
- 30 points: LAW 701
- 90 points from LAW 760, 790, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785

A student who has to complete 180 points must satisfy the following requirements:

**Requirement if admitted under Regulation 1c(i):**

**Research Masters**

- LAW 700
- 30 points: LAW 701
- 90 points from LAW 760, 790, 792, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785
- 90 points: LAW 794 Research Portfolio 1 or LAW 796 Thesis 1

**Taught Masters**

- LAW 700
- 30 points: LAW 701
- 150 points from LAW 760, 790, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785, including at least 45 points from LAW 760, 790, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785

**Requirement if admitted under Regulation 1c(ii):**

**Research Masters**

- LAW 700
- 30 points: LAW 701
- 90 points from LAW 760, 790, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785

**Taught Masters**

- LAW 700
- 30 points: LAW 701
- 150 points from LAW 760, 790, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785, including at least 45 points from LAW 760, 790, LAWCOMM 701–797, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785

### The Degree of Master of Taxation Studies – MTaxS

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Admission

1. In order to be admitted to this programme, a student needs to have:
   a. completed the requirements for one of the following:
      i. the Degree of Bachelor of Commerce (Honours)
      or
      ii. the Degree of Bachelor of Laws
      or
      iii. the Degree of Bachelor of Laws (Honours)
      or
      iv. the Postgraduate Diploma in Business in Business Taxation and an undergraduate degree approved by Senate or its representative
      or
      v. an equivalent qualification approved by Senate or its representative
   and
   b. passed the specified prerequisite courses or such other alternative courses approved by Senate or its representative
   and
   c. achieved a Grade Point Average of 5.0 or higher in their last equivalent full-time year of study
   and
   d. shown to the satisfaction of the Programme Director the capacity to undertake advanced study and research in the courses proposed to be taken for this degree
   or
   e. completed the requirements for one of the following:
      i. the Degree of Bachelor of Commerce
      or
      ii. an equivalent qualification approved by Senate or its representative
   and
   f. achieved a Grade Point Average of 5.0 or higher in their last equivalent full-time year of study
   and
   g. shown to the satisfaction of the Programme Director the capacity to undertake the courses for this degree.

2. As a condition of admission, students admitted under Regulation 1a may be required to take LAW 701 for a Certificate of Proficiency.

#### Duration and Total Points Value

3. A student admitted to this degree under Regulation 1a must:
   a. pass courses with a total value of 120 points
   and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1e must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Taxation Studies Schedule.

6 A student admitted under Regulation 1e may be required to take LAW 701 as part of this degree.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8 a A thesis or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The thesis or dissertation topic must be approved by the relevant Head of Department prior to enrolment.

   c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction / Merit
10 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Certificate in Law – GradCertLaw

The regulations for this graduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements of:
   either
   a the Degree of Bachelor of Laws
   or
b the Degree of Bachelor of Laws (Honours)
or

c an equivalent qualification in law as approved by Senate or its representative.

**Duration and Total Points Value**

2 A student enrolled for this graduate certificate must follow a programme equivalent to one full-time semester and pass courses with a total value of 60 points.

**Structure and Content**

3 Of the 60 points required for this graduate certificate, a student must pass at least 60 points from LAW courses listed for Parts II, III and IV of the Bachelor of Laws Schedule.

4 With the approval of the Dean of Faculty of Law, in lieu of courses required under 3, up to 30 points may be substituted from courses listed in the Master of Laws Schedule. In this case, the Dean may require a student to take LAW 700.

5 With the approval of the Dean of Faculty of Law, a student may take up to 15 points from courses at Stage II or higher in other programmes offered at this University, provided they are relevant and suitable for inclusion in this graduate certificate.

6 The programme for each student requires the approval of the Dean of Faculty of Law.

7 A student admitted to this programme under Regulation 1c may be required to take LAW 131 Legal Method for a Certificate of Proficiency as a condition of enrolment, or to include LAWGENRL 443 or LAW 701.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Reassignment From Certificate of Proficiency**

9 A student who has passed for a Certificate of Proficiency courses that are available for this graduate certificate, and has enrolled for this programme, may apply to reassign those courses to this graduate certificate in accordance with the Credit Regulations.

10 Cross-credits will not be granted toward this graduate certificate.

**Variations**

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

12 These regulations have been amended with effect from 1 January 2019.

---

**Graduate Diploma in Law – GradDipLaw**

*The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have completed the requirements of:

   either
   a the Degree of Bachelor of Laws
   or
   b the Degree of Bachelor of Laws (Honours)
   or
   c an equivalent qualification in law as approved by Senate or its representative.

**Duration and Total Points Value**

2 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

**Structure and Content**

3 Of the 120 points required for this graduate diploma, a student must pass at least 120 points from courses listed for Parts II, III and IV of the Bachelor of Laws Schedule, including at least 75 points from Parts III and IV.

4 With the approval of the Dean of Faculty of Law, in lieu of courses required under 3, up to 30 points may be substituted from courses listed in the Master of Laws Schedule. In this case, the Dean may require a student to take LAW 700.
5 With the approval of the Dean of Faculty of Law, a student may take up to 30 points from courses at Stage II or higher in other programmes offered at this University, provided they are relevant and suitable for inclusion in this graduate diploma.

6 The programme for each student requires the approval of the Dean of Faculty of Law.

7 A student admitted to this programme under Regulation 1c may be required to take LAW 131 Legal Method for a Certificate of Proficiency as a condition of enrolment, or to include LAWGENRL 443 or LAW 701.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment From Certificate of Proficiency
9 A student who has passed for a Certificate of Proficiency courses that are available for this graduate diploma, and has enrolled for this programme, may apply to reassign those courses to this graduate diploma in accordance with the Credit Regulations.

10 Cross-credits will not be granted toward this graduate diploma.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations have been amended with effect from 1 January 2019.

Postgraduate Certificate in Law – PGCertLaw
The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Laws or for the Degree of Bachelor of Laws (Honours) at a level that indicates ability to undertake advanced study and research in Law or
   b gained any other qualification, approved by Senate or its representative, that is indicative of ability to undertake advanced study and research in Law.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a LAW 700 and at least 60 points from courses listed in the Master of Laws Schedule, other than LAW 790, 794, 796, 797, 798.
   b In the case of a student admitted under Regulation 1b above, the student’s choice of courses in Regulation 4a is subject to the approval of the Dean of Faculty of Law. As a condition of enrolment the student may be required to take LAW 131 or LAW 701 for a Certificate of Proficiency.
   c The programme for each student requires the approval of the Dean of Faculty of Law prior to enrolment.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations have been amended with effect from 1 January 2019.

Interfaculty Programmes – Medical and Health Sciences

442  The Degree of Master of Disaster Management – MDisMgt
458  Postgraduate Certificate in Disaster Management – PGCertDisMgt
The Degree of Bachelor of Health Sciences – BHSc
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 135 points from the Core Courses listed in the Bachelor of Health Sciences Schedule
   b up to 120 points from the Elective Courses listed in the Bachelor of Health Sciences Schedule
   c the requirements of a major as specified in the Bachelor of Health Sciences Schedule
   d (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
   (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
   (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education Exemptions
3 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:  
   either  
   (i) completed an undergraduate degree at a tertiary institution  
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006  
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
   (i) 15 points from the courses offered in the General Education Schedules  
   and   
   (ii) a further 15 points from other courses available for this degree.
   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees
4 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
6 These regulations and/or schedule have been amended with effect from 1 January 2020.
Bachelor of Health Sciences (BHSc) Schedule

Requirement:
Core Courses:
• 135 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216
Elective Courses:
• up to 120 points selected from the following courses, with no more than 45 points from the Stage I courses listed.

Stage I courses:
• ANTHRO 100, 102, BIOSCI 107, CHEM 110, ECON 151, 152, GENDER 101, GEOG 102, MAORI 130, MEDSCI 142, PHIL 104, PSYCH 108, 109, SOCIO 101, 103, STATS 101
Stage II courses:
• POPLHLTH 203, 206–208, 211–216
Stage III courses:
• MAORIHTH 301, POPLHLTH 301, 303–307, 310–316, SOCSCI 300

Major available:
Population Health
• 30 points: POPLHLTH 300, 302
• at least 15 points from MAORIHTH 301, POPLHLTH 312, 313

The Degree of Bachelor of Medical Imaging – BMedImag

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Degree Requirements
1 Students who enrol for the Degree of Bachelor of Medical Imaging (Honours) may be awarded the Degree of Bachelor of Medical Imaging if, having passed all courses and completed all other requirements for a BMedImag(Hons), their performance in the courses is deemed by the Head of the School of Medical Sciences to be not of Honours standard.

Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.

The Degree of Bachelor of Medicine and Bachelor of Surgery – MBChB

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a either
      (i) completed the requirements for the courses listed in Part I of the MBChB Schedule on a full-time basis, with a Grade Point Average of 6.0 or higher
      or (ii) successfully completed, normally in the minimum academic time and no more than five years prior to the date of application, a degree, postgraduate degree or postgraduate diploma from a New Zealand university with a Grade Point Average of 6.0 or higher or equivalent
      or (iii) met the requirements of a special entry scheme
   and
   b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as a doctor. This requirement will normally include an interview.

2 a Students selected for admission under Regulation 1a(i) will be admitted to MBChB Part II.
   b Students selected for admission under Regulation 1a(ii) or Regulation 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the schedule to these regulations before proceeding to Part II.

Duration and Total Points Value
3 a A student enrolled for this degree must follow a programme of six full-time years and pass courses with a total value of 720 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.
   b Enrolment for the degree will normally be continuous. In exceptional circumstances Senate or its representative, on the recommendation of the Head of Programme, may grant a period of suspension from enrolment not normally exceeding two consecutive semesters.
c Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4 Of the 720 points required for this degree, a student must pass:
   a 705 points from Parts I, II, III, IV, V and VI, as listed in the Bachelor of Medicine and Bachelor of Surgery Schedule.
   b (i) 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.
   (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
   (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 a However, where a student has been granted admission with credit, or in exceptional circumstances which Senate or its representative approves, a student may be directly admitted to Part II, Part III or Part IV.
   b Each Part of the programme is to be completed to the satisfaction of Senate or its representative before a student is permitted to enrol for the next Part.
   c At the discretion of Senate or its representative, a student who fails any of Parts II-VI may be declined permission to re-enrol in the programme as a whole.
   d A student who fails twice to pass the same Part will not be permitted to continue with this degree.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.
   b A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
7 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Faculty of Medical and Health Sciences may require.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Fitness to Practise Requirements
9 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.
   b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.
   c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.
   d Where a student’s enrolment in the programme has been terminated under Regulation 9c, any application to re-enrol may be declined.
A student whose enrolment is suspended or terminated under Regulation 9c or their application to re-enrol declined under Regulation 9d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2020.

General Education
Part I
• 15 points from courses listed in the General Education Schedules approved for this degree

The Degree of Bachelor of Nursing – BNurs
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a 345 points from the Parts as listed in the Bachelor of Nursing Schedule
   and
   b 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 a Each Part must normally be completed before the next Part may be taken. However, a student who has failed to pass Part I in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next successive Part.

   b A student who fails twice to pass the same Part will not be permitted to continue with the degree.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses approved by the Head of School of Nursing.

c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Practical Requirements
6 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Head of School of Nursing may require.

English Language Requirements
7 A student enrolled for this degree must demonstrate competence in the English language, by passing NURSING 199, as prescribed by the School of Nursing, prior to enrolment in NURSING 201.

Fitness to Practise Requirements
8 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 8c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 8c or their application to re-enrol declined under Regulation 8d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Conjoint Degrees
9 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2019.

### The Degree of Bachelor of Optometry – BOptom

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**
1 In order to be admitted to this degree a student must have:

a (i) completed the requirements for courses listed in Part I of the Bachelor of Optometry Schedule, or an equivalent programme of study deemed appropriate by Senate or its representative, with a Grade Point Average of 5.5 or higher in the courses specified

or

(ii) successfully completed, no more than five years prior to the date of application, with at least the equivalent of a Grade Point Average of 5.5 or higher, a degree or postgraduate diploma deemed appropriate by Senate or its representative

or

(iii) met the requirements of a special entry scheme
and
b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as an optometrist. This requirement will normally include an interview.

2 Students admitted under Regulation 1a(ii) or 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the Bachelor of Optometry Schedule prior to Part II.

Duration and Total Points Value
3 a A student admitted to this degree must follow a programme of the equivalent of ten full-time semesters and pass courses with a total value of 600 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

b Enrolment must normally be continuous.

c Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4 Of the 600 points required for this degree, a student must pass:

a 570 points: Parts I, II, III, IV and V as listed in the Bachelor of Optometry Schedule

b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.

5 A student must complete the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

7 In exceptional circumstances up to 120 points of credit as approved by the Head of School may be substituted for Part I or parts thereof.

8 Each Part must normally be completed before the next Part may be taken. However, a student who has failed to pass one of those Parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.

General Education Exemptions
9 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

(i) completed an undergraduate degree at a tertiary institution

(ii) commenced study for this degree at a tertiary institution before 1 January 2006

(iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses listed in the Bachelor of Science Schedule.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

(i) 15 points from the courses offered in the General Education Schedules

(ii) a further 15 points from other courses listed in the Bachelor of Science Schedule.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Enrolment for Two Programmes
10 A student may not be enrolled in this degree at the same time as in another programme, unless special permission is given by Senate or its representative.

Practical Requirements
11 a A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Faculty of Medical and Health Sciences may require.
b In any course that includes both a final written examination and practical or clinical work, a student must pass both the final written examination and the practical or clinical work to pass that course as a whole. However, a student who passes the practical or clinical work but fails the final written examination may, at the discretion of the Head of School, have the result for the practical or clinical work for that failed course carried forward when the course is repeated.

c A student who repeats any course may also be required to undertake such additional practical or clinical work as the Head of School of Optometry and Vision Science determines.

d Where a weakness occurs in the clinical practice component, in accordance with Examination Regulation 21, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This provision will only apply when the student’s current enrolment period has ended.

**Fitness to Practise Requirements**

12 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 12c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 12c or their application to re-enrol declined under Regulation 11d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

**Variations**

13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Honours**

14 a This degree may be awarded with Honours where a student’s overall grade is sufficiently high. There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b Honours may normally be awarded only if the requirements for this degree are completed within ten semesters of initial enrolment for the degree. In exceptional circumstances however, Senate or its representative may approve an extension of this period for not more than two further semesters.

**Amendment**

15 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Pharmacy – BPharm

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for courses listed in Part I of the Bachelor of Pharmacy Schedule, or an equivalent programme of study deemed appropriate by Senate or its representative, with a minimum average grade of B over the courses specified
   or
   (ii) successfully completed, no more than five years prior to the date of application, a minimum of two years of full-time study deemed appropriate by Senate or its representative with a Grade Point Average of 4.0 or higher or equivalent
   or
   (iii) met the requirements of a special entry scheme
   and
   b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as a pharmacist. This requirement will normally include an interview.

   Note: The applicant will also be required to consent to a Police check and a Children’s Act check.

2 Students selected for admission under Regulations 1a(ii) or 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the Bachelor of Pharmacy Schedule before proceeding to Part II.

Duration and Total Points Value
3 a A student enrolled for this degree must follow a programme of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admissions Regulations and/or the Credit Regulations.

   b Study for this degree must be pursued in continuous semesters. Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4 Of the 480 points required for this degree, a student must pass:
   a 465 points: Parts I-IV as listed in the Bachelor of Pharmacy Schedule
   and
   b 15 points offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.

5 A student must complete the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 a A student will not normally be permitted to enrol for Part II until Part I is completed, or to enrol for Part III until Part II has been completed, or to enrol for Part IV until Part III has been completed.

   b A student who fails a course twice will not be permitted to continue with the degree.

7 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

English Language Requirements
8 A student enrolled for this degree must demonstrate competence in the English language, by passing PHARMACY 199, as prescribed by the School of Pharmacy, before being permitted to enrol for PHARMACY 213.

General Education Exemptions
9 a A student is exempted from the requirement to pass courses offered in the General Education Schedule who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.
b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from other courses offered at this University in consultation with the Head of School of Pharmacy.

c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedule is nonetheless required to complete the Academic Integrity course.

**Practical Requirements**

10 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Head of School of Pharmacy may require.

**Fitness to Practise Requirements**

11 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 11c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 11c or their application to re-enrol declined under Regulation 11d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

**Variations**

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

13 These regulations and/or schedule have been amended with effect from 1 January 2021.

### The Degree of Bachelor of Biomedical Science (Honours) – BBiomedSc(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have:

a completed the requirements for the Degree of Bachelor of Science with a major in Biomedical Science from this University, or an equivalent qualification as approved by Senate or its representative and

b passed 90 points in courses above Stage II with a grade point average of 6.5 or higher and

c the approval of the Head of School of Medical Sciences.
Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.
3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Biomedical Science (Honours) Schedule.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
6 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Medical Sciences.
 b The thesis topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.
 c The thesis is to be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Biomedical Science.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2020.

Bachelor of Biomedical Science (Honours) (BBiomedSc(Hons)) Schedule

| Requirement: |
| 30 points from BIOSCI 701, 736, 737, 741, 746, 755–759, HLTHPSYC 716, MEDSCI 700, 703–723, 727, 729–740, 743, 745 |
| * 90 points: MEDSCI 785 Thesis |

The Degree of Bachelor of Health Sciences (Honours) – BHSc(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Health Sciences from this University or an equivalent degree approved by Senate or its representative
   and
   b passed 90 points in courses at Stage III in the Bachelor of Health Sciences, or equivalent degree, with an average grade of B or higher
   and
   c the approval of the Head of School of Population Health.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.
3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Health Sciences (Honours) Schedule.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
6 a The dissertation is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Population Health.
   b The dissertation topic must be approved by the Head of School of Population Health prior to enrolment.
   c The dissertation must be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Health Sciences.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Medical Imaging (Honours) – BMedImag(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for courses listed in Part I of the Bachelor of Medical Imaging (Honours) Schedule, or an equivalent programme of study deemed appropriate by Senate or its representative, with a Grade Point Average of 5.0 or higher in the courses specified
   or (ii) successfully completed, no more than five years prior to the date of application, with at least the equivalent of a Grade Point Average of 5.0 or higher, a degree or postgraduate diploma deemed appropriate by Senate or its representative
   or (iii) met the requirements of a special entry scheme
and
b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as a Medical Imaging technologist. This requirement will normally include an interview.

2 Students selected for admission under Regulations 1a(ii) or 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the Bachelor of Medical Imaging (Honours) Schedule before proceeding to Part II.

Duration and Total Points Value
3 a A student enrolled for this degree must follow a programme of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admissions Regulations and/or the Credit Regulations.
Study for this degree must be pursued in continuous semesters. Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

**Structure and Content**

4 Of the 480 points required for this degree, a student must pass:

a 465 points: Parts I-IV as listed in the Bachelor of Medical Imaging (Honours) Schedule.

b (i) 15 points offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.

(ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

(iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 a Each Part of the programme is to be completed to the satisfaction of Senate or its representative before a student is permitted to enrol for the next Part.

b A student who fails twice to pass the same Part will not be permitted to continue with the degree.

**English Language Requirements**

6 A student enrolled for this degree must demonstrate competence in the English language, by passing MEDIMAGE 199, as prescribed by the Head of the School of Medical Sciences, prior to enrolment in Part III.

**General Education Exemptions**

7 a A student is exempted from the requirement to pass courses offered in the General Education Schedule who has:

   either

(ii) completed an undergraduate degree at a tertiary institution

   or

(ii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from other courses offered at this University in consultation with the Head of School of Medical Sciences.

c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedule is nonetheless required to complete the Academic Integrity course.

**Practical Requirements**

8 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Head of School of Medical Sciences may require.

**Honours**

9 a Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours is determined by the student’s overall grade in the Part IV courses as follows:

   7.0 to 9.0 - First Class Honours
   5.5 to 6.9 - Second Class Honours First Division
   4.0 to 5.4 - Second Class Honours Second Division
   3.9 and below - Third Class Honours

**Fitness to Practise Requirements**

10 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student,
to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 10c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 10c or their application to re-enrol declined under Regulation 10d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

Bachelor of Medical Imaging (Honours) (BMedImag(Hons)) Schedule

| Requirement: | • 120 points: CLINIMAG 201, HLTHPSYC 122, MEDIMAGE 201, 202, 203, MEDSCI 201, 203, 205 |
| Part III | • 120 points: CLINIMAG 301, 302, MEDIMAGE 301–306 |
| Part IV | • 60 points: CLINIMAG 402 |
| | • 30 points: CLINIMAG 707, MEDIMAGE 711 |
| | • 30 points: MEDIMAGE 740 Research Project |

The Degree of Bachelor of Medical Science (Honours) – BMedSc(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have:
   a satisfactorily completed at least the first three years of the Degree of Bachelor of Medicine and Bachelor of Surgery from this University, or of an equivalent medical degree approved by Senate or its representative and
   b passed the courses for MBChB Part III, or its equivalent as approved by Senate or its representative, with an average of B or higher and
   c approval of the Dean of Faculty of Medical and Health Sciences.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Medical Science (Honours) Schedule.

5 Other 700 level courses selected by students must be approved by the Head of School of Medicine prior to enrolment.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the relevant Head of School.

   b The thesis topic must be approved by the relevant Head of School prior to enrolment.
c Any laboratory work in connection with the thesis must be carried out within the University. However, Senate or its representative may permit a student to carry out the work in an approved institute outside the University for any period or periods considered necessary.

d The thesis must be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Health Sciences.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Nursing (Honours) – BNurs(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Nursing from this University or an equivalent degree approved by Senate or its representative
   and
   b passed the courses for Part III in the Bachelor of Nursing with an average grade of B or higher
   and
   c the approval of the Head of School of Nursing.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Nursing (Honours) Schedule.

5 Other 700 level courses selected by students must be approved by the Head of School of Nursing prior to enrolment.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
7 a The dissertation is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Nursing.

b The dissertation topic must be approved by the Head of School of Nursing prior to enrolment.
c The dissertation must be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
10 A student may apply to reassign courses passed to the Postgraduate Diploma in Health Sciences.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Pharmacy (Honours) – BPharm(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations

Admission
1 In order to be admitted to this degree, a student must have:
   a completed Parts I, II, and III of the Degree of Bachelor of Pharmacy from this University with a Grade Point Average of 5.5 or higher
   and
   b performed satisfactorily in the selection interview.

2 Where admission is granted by the Faculty of Medical and Health Sciences to this degree courses previously passed for the Degree of Bachelor of Pharmacy will be reassigned to the Degree of Bachelor of Pharmacy (Honours).

3 Students who have previously been awarded the Degree of Bachelor of Pharmacy will not be admitted.

Duration and Total Points Value
4 a A student enrolled for this degree must pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.
   b The requirements for this degree must be completed on a full-time basis in continuous semesters. Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
5 Of the 480 points required for this degree, a student must pass:
   a 360 points: Parts I-III as listed in the Bachelor of Pharmacy Schedule
   and
   b the requirements as listed in the Bachelor of Pharmacy (Honours) Schedule.

Research Project
6 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Pharmacy.
   b The research project topic must be approved by the Head of School of Pharmacy prior to enrolment.
   c The research project must be completed and submitted by the last day of lectures in the final semester of enrolment.
   d In exceptional circumstances beyond the student’s control, Senate or its representative may approve a limited extension of time, not exceeding two months, for the completion of the research project. Where an extension of time is approved, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the course has ended.
Fitness to Practise Requirements

7  a  In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

    b  Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

    c  If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

    d  Where a student’s enrolment in the programme has been terminated under Regulation 7c, any application to re-enrol may be declined.

    e  A student whose enrolment is suspended or terminated under Regulation 7c or their application to re-enrol declined under Regulation 7d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Honours

8  a  Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

    b  The class of Honours will be determined by the student’s overall grade in PHARMACY 701, 702 and 789 as follows:

        7.0 to 9.0 – First Class Honours
        5.5 to 6.9 – Second Class Honours First Division
        4.0 to 5.4 – Second Class Honours Second Division
        3.9 and below – Third Class Honours

Variations

9  In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

10 These regulations came into force on 1 January 2021.

The Degree of Master of Audiology – MAud

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1  In order to be admitted to this degree, a student must have:

    a  completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative and

    b  demonstrated in accordance with approved selection criteria determined by the Faculty of Medical and Health Sciences the ability and personal qualities necessary for a person seeking a qualification as an Audiologist. This will normally require an interview.

2  In exceptional circumstances, Senate or its representative may approve the admission of an applicant who has relevant practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

   Note: A relevant degree may include subjects in one of health sciences, public health, or science. Whether a degree is considered relevant will also depend on the courses taken; relevant areas may include physiology and psychology.

Duration and Total Points Value

3  A student enrolled for this degree must:
a follow a programme of four full-time semesters and pass courses with a total value of 240 points and
b complete within the time limit specified for full-time students in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must pass courses with a total value of at least 240 points from Parts I and II as listed in the Master of Audiology Schedule.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
7 The programme for each student must be approved by the Head of School of Population Health prior to enrolment.
8 A student enrolled for this degree must, before enrolment in Part II, achieve a Grade Point Average of 4.0 or higher in Part I. If this Grade Point Average is not achieved, enrolment in the Master of Audiology cannot continue.

Practical and Clinical Requirements
9 Each student must pass the clinical and practical requirements of the required courses to the satisfaction of the Head of School of Population Health. This includes a practicum undertaken between Part I and Part II.

Thesis
10 a The thesis is to be carried out under the guidance of a supervisor appointed by the Head of School of Population Health.
   b The thesis is to embody the results obtained by the student in an investigation into an area of Audiology.
   c Any laboratory work in connection with the thesis must be carried out within the University. However, Senate or its representative may permit a student to carry out the work in an approved institute outside the University for any period or periods considered necessary.
   d The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
11 A student may apply to reassign courses passed for the Master of Audiology to the Postgraduate Diploma in Health Sciences.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
13 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Biomedical Science – MBiomedSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Degree of Bachelor of Science with a major in biomedical science, or an equivalent degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 90 points at Stage III
   or
b completed the requirements for a Bachelor of Science (Honours) in Biomedical Science or a Postgraduate Diploma in Biomedical Science, or an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher.

**Duration and Total Points Value**

2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total point value of 240 points
   and
   b complete within with the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment of this degree.

3 A student admitted to this degree under Regulation 1b must:
   a pass the 120 point thesis
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment of this degree.

**Structure and Content**

4 A student enrolled for this degree must complete the requirements as listed in the Master of Biomedical Science Schedule.

5 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher across their best 120 points of courses before being allowed to enrol in MEDSCI 796.

6 A student enrolled in this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 The programme for each student must be approved by the Head of School of Medical Sciences prior to enrolment.

**Reassignment**

8 A student may apply to reassign courses passed for the Master of Biomedical Science to the Postgraduate Diploma in Biomedical Science.

**Thesis**

9 a The thesis must be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Honours**

10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

**Variations**

11 In exceptional circumstances, Senate or its representative may approve a personal programme of study that does not conform to these regulations.

**Amendment**

12 These regulations and/or schedule have been amended with effect from 1 January 2020.

---

**Master of Biomedical Science (MBiomedSc) Schedule**

A student who has to complete 120 points must satisfy the following requirement:

- **Research Masters**
  - 120 points: MEDSCI 796 Thesis

A student who has to complete 240 points must satisfy the following requirements:

- **Research Masters**
  - 30 points: MEDSCI 743, 744
  - 90 points from BIOSCI 701, 736, 737, 741, 746, 755–759, EXERSCI 703, 704, 706, 708, 712; HLTHPSYC 716, MAORIHTH 701, MEDIMAGE 701, MEDSCI 700, 703–746, PHARMACY 752, 753, POPLHLTH 706, 708, 709, 738, 739, 763, 765, POPLPRAC 758
  - 120 points: MEDSCI 796 Thesis
The Degree of Master of Clinical Education – M ClinEd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a degree deemed relevant by Senate or its representative, with an average grade in the final year of study that is equivalent to a B or higher
   or
   (ii) completed the requirements for the Postgraduate Diploma in Clinical Education, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher
   and
   b be currently engaged in clinical teaching or curriculum development in a health related discipline.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a(i) must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1a(ii) must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
4 A student wishing to enrol in the nursing courses listed in the Master of Clinical Education Schedule must hold current registration as a nurse in New Zealand.

5 A student enrolled for this degree must complete the requirements as listed in the Master of Clinical Education Schedule.

6 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120 points of taught courses for this degree prior to enrolment in CLINED 790, 796, or 797. If this Grade Point Average is not achieved, students may apply to reassign courses passed to the Postgraduate Diploma in Clinical Education.

7 With the approval of the Head of School or nominee students may substitute up to 30 points from the approved courses listed in the Master of Clinical Education Schedule with other relevant postgraduate courses.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

9 The programme for each student must be approved by the Head of School or nominee prior to enrolment.

Thesis / Dissertation
10 a The thesis or dissertation is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School or nominee.

   b The thesis or dissertation topic must be approved by the Head of School or nominee prior to enrolment.

   c The thesis or dissertation topic is to embody the results obtained by the student in an investigation into an area of clinical education.

   d The dissertation or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.
Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2020.

### The Degree of Master of Clinical Pharmacy – MClinPharm

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Admission
1. In order to be admitted to this programme, a student needs to:
   - **either**
     - a. have completed the requirements for the Degree of Bachelor of Pharmacy or an equivalent pharmacy qualification, approved by Senate or its representative, with an average grade in the final year of study that is equivalent to a B or higher
     - or
     - b. have completed the requirements for the Postgraduate Diploma in Clinical Pharmacy, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher
   - and
     - c. hold current registration as a pharmacist in New Zealand or as a pharmacist in the country of domicile.

#### Duration and Total Points Value
2. A student admitted to this degree under Regulation 1a must:
   - a. pass courses with a total value of 240 points
   - and
   - b. complete within the time limit specified in the General Regulations – Masters Degrees.

3. A student admitted to this degree under Regulation 1b must:
   - a. pass courses with a total value of 120 points
   - and
   - b. complete within the time limit specified in the General Regulations – Masters Degrees.

4. The total enrolment for this degree must not exceed 280 points for a student admitted under Regulation 1a or 160 points for a student admitted under Regulation 1b.

#### Structure and Content
5. A student admitted to this degree under Regulation 1a must complete the requirements of the 240 point option in the Master of Clinical Pharmacy Schedule. Before enrolment for the thesis or research portfolio, the student must complete, with an average grade of at least B, 120 points from the coursework component of the degree. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Clinical Pharmacy.

6. A student admitted to this degree under Regulation 1b must complete the requirements of the 120 point option in the Master of Clinical Pharmacy Schedule.

7. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

8. The programme for each student must be approved by the Head of School of Pharmacy prior to enrolment.

#### Thesis / Research Portfolio
9. a. The thesis or research portfolio is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Pharmacy.
b The thesis or research portfolio topic must be approved by the Head of School of Pharmacy prior to enrolment.

c The thesis or research portfolio is to embody the results obtained by the student in an investigation into an area of Pharmacy.

d Any practical work in connection with the thesis or research portfolio must be carried out within the University. However, Senate or its representative may permit a student to carry out the work at an approved site outside the University for any periods or period considered necessary.

e The thesis or research portfolio must be completed and submitted in accordance with the General Regulations – Masters Degrees.

Practical Requirements
10 Students enrolled for this degree must carry out satisfactorily such practice activities as the Head of School of Pharmacy may require.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2018.

The Degree of Master of Health Leadership – MHealthLd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for a Bachelors degree deemed relevant by Senate or its representative with a Grade Point Average of 5.0 or higher in the 90 points or equivalent of the most advanced courses taken towards this entry qualification
   or
   b completed the requirements for a Bachelors Honours degree or Postgraduate Diploma deemed relevant by Senate or its representative, with a Grade Point Average of 5.0 or higher.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or relevant professional experience.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment of this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment of this degree.
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment of this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements for one of the specialisations as listed in the Master of Health Leadership Schedule.
6 A student must achieve a Grade Point Average of 5.0 or higher across their best 60 points of courses before being allowed to enrol in HLTHMGT 755.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
8 The programme for each student must be approved by the relevant Head of School prior to enrolment.

Reassignment
9 A student who does not achieve the Grade Point Average required to enrol in HLTHMGT 755 may apply to reassign courses passed for the Master of Health Leadership to the Postgraduate Diploma in Health Leadership or the Postgraduate Certificate in Health Leadership.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

Master of Health Leadership (MHlthLd) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

Clinical Quality and Safety
Requirement:
• 45 points from HLTHMGT 721, 754, POPLHLTH 705, 722, 724 or other approved course
• 30 points: MEDICINE 700, 702
• 45 points: HLTHMGT 755 Project in Health Leadership

Global Health
Requirement:
• 45 points from HLTHMGT 721, 754, POPLHLTH 705, 722, 724 or other approved course

A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

Clinical Quality and Safety
Requirement:
• 75 points: HLTHMGT 721, 754, POPLHLTH 705, 722, 724
• 30 points: MEDICINE 700, 702
• 30 points from HLTHINFO 728, HLTHMGT 724, 725, 729, MAORIHTH 701, POPLHLTH 709, 718, 719, 739, 760, or other courses as approved by the Head of School of Medicine
• 45 points: HLTHMGT 755 Project in Health Leadership

Global Health
Requirement:
• 75 points from HLTHMGT 721, 754, POPLHLTH 705, 722, 724
• 30 points: POPLHLTH 715, 752
• 45 points: HLTHMGT 755 Project in Health Leadership

Health Management
Requirement:
• 45 points from HLTHMGT 721, 754, POPLHLTH 705, 722, 724 or other approved course
• 30 points: HLTHMGT 729, POPLHLTH 719
• 45 points: HLTHMGT 755 Project in Health Leadership

Health Management
Requirement:
• 75 points: HLTHMGT 721, 754, POPLHLTH 705, 722, 724
• 30 points: HLTHMGT 729, POPLHLTH 719
• 30 points from HLTHINFO 728, HLTHMGT 724, 725, MAORIHTH 701, POPLHLTH 718, 720, 739, 760, or other courses as approved by the Head of School of Population Health
• 45 points: HLTHMGT 755 Project in Health Leadership
The Degree of Master of Health Practice – MHLthPrac

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for a Bachelors degree deemed relevant by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II
   or
   b completed the requirements for a Bachelors Honours degree or Postgraduate Diploma deemed relevant by Senate or its representative, with a Grade Point Average of 5.0 or higher.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has:
   a attained extensive relevant, practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirement in Regulation 1a
   and
   b performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Note: A relevant degree may be one which qualifies the holder for registration as a health professional, or be in a relevant subject such as Health Sciences, Nursing, Pharmacy, Public Health or Social Work.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1 or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment in this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment of this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Health Practice Schedule.

6 A student enrolled for this degree must achieve a Grade Point Average of 5.0 or higher in 45 points of taught courses prior to enrolment in HLTHSCI 795 or POPLHLTH 790.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the relevant Head of School prior to enrolment.

Reassignment
9 A student who does not achieve the Grade Point Average required in Regulation 6 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Health Sciences or the Postgraduate Certificate in Health Sciences.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
11 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2019.
## Master of Health Practice (MHlthPrac) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

### Addiction Studies
**Requirement:** Taught Masters
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 60 points: POPLHLTH 790 Dissertation
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 15 points from MAORIHTH 701, PAEDS 712, POPLHLTH 722, 738, 739, 747, 766, 768, 773, 774, POPLPRAC 702, 707, 712, 754, 765
- 45 points: HLTHSCI 795 Research Project

### Health Promotion
**Requirement:** Taught Masters
- 60 points: POPLHLTH 700, 733, 734, POPLPRAC 710
- 60 points: POPLHLTH 790 Dissertation
- 60 points: POPLHLTH 700, 733, 734, POPLPRAC 710
- 15 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766
- 45 points: HLTHSCI 795 Research Project

### Infant, Child and Adolescent Mental Health
**Requirement:** Taught Masters
- At least 30 points from PSYCHIAT 730, 740, 741, 747, 766, 768, 769, 770, 773
- Up to 30 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University
- 60 points: POPLHLTH 790 Dissertation
- 45 points: HLTHSCI 795 Research Project

A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

### Addiction Studies
**Requirement:** Taught Masters
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 15 points from POPLHLTH 701, 704, 705, 767
- 30 points from POPLHLTH 738, 768, 773, 774, POPLPRAC 712, 765
- At least 15 points from MAORIHTH 701, PAEDS 712, POPLHLTH 721, 722, 738, 739, 747, 766, 768, 773, 774, POPLPRAC 702, 707, 712, 754, 765
- 60 points: POPLHLTH 790 Dissertation
- 45 points: HLTHSCI 795 Research Project

### Health Promotion
**Requirement:** Taught Masters
- 60 points: POPLHLTH 700, 722, 733, 734
- 15 points from POPLHLTH 701, 704
- 15 points from POPLHLTH 705, 720, POPLPRAC 710, 712
- At least 30 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766, POPLPRAC 712
- 60 points: POPLHLTH 790 Dissertation
- 45 points: HLTHSCI 795 Research Project

### Infant, Child and Adolescent Mental Health
**Requirement:** Taught Masters
- 60 points: PSYCHIAT 740, 747, 768
- 15 points from POPLHLTH 700, 704, 705, 767
- At least 30 points from PSYCHIAT 730, 741, 766, 769, 770, 773
- Up to 15 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University
- 60 points: POPLHLTH 790 Dissertation
- 45 points: HLTHSCI 795 Research Project

### Pacific Health
**Requirement:** Taught Masters
- 90 points: POPLHLTH 700, 722, 739, POPLPRAC 710, 711
- 15 points from POPLHLTH 701, 704, 705
- 15 points from HLTHMGT 754, MAORIHTH 701, POPLHLTH 715, 717, 718, 720, 725, 732, 734, 735, 736, 737, 752, 765, 766
- 45 points: HLTHSCI 795 Research Project

### Population Mental Health
**Requirement:** Taught Masters
- 45 points: POPLHLTH 700, 735, 736
- 15 points: POPLPRAC 702, 710, 754
- 60 points: POPLHLTH 790 Dissertation
- 45 points: POPLHLTH 700, 735, 736
- 15 points: POPLPRAC 702, 710, 754
- 15 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 732, 734, 737, 739, 766, POPLPRAC 702, 754
- 45 points: HLTHSCI 795 Research Project
Population Mental Health
Requirement:
Taught Masters
• 75 points: POPLHLTH 700, 722, 735, 736, POPLPRAC 712
• 15 points from POPLPRAC 702, 710, 754
• 15 points from POPLHLTH 701, 704, 705

The Degree of Master of Health Psychology – MHealthPsych

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelor of Science or Bachelor of Arts degree with a major in Psychology (or equivalent) with an average grade in the final year of study that is equivalent to a B or higher.

Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

Structure and Content
3 A student enrolled for this degree must pass courses with a total value of 240 points as listed in the Master of Health Psychology Schedule.

4 A student must, before enrolment for the thesis obtain an average grade of at least B in the first 120 points from the coursework component of the degree. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Health Sciences.

5 A student enrolled for this degree who has already passed any course the same as, or similar to, those required under Regulation 3 must substitute an alternative course as approved by the Head of School of Medicine.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 The thesis is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Medicine.

8 The thesis topic must be approved by the Head of School of Medicine prior to enrolment.

9 The thesis topic is to embody the results obtained by the student in an investigation into an area of health psychology.

10 Any laboratory work in connection with the thesis must be carried out within the University. However, Senate or its representative may permit a student to carry out the work in an approved institute outside the University for any period or periods considered necessary.

11 The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
13 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2017.

The Degree of Master of Health Sciences – MHSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this programme, a student needs to have:
   either
   a. completed the requirements for a degree deemed relevant by Senate or its representative, with an average grade in the final year of study that is equivalent to a B or higher
   or
   b. completed the requirements for the Postgraduate Diploma in Health Sciences, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher.

2. In order to be admitted to a specialisation within this programme a student needs to have completed the specified prerequisite programmes or courses.

Duration and Total Points Value

3. A student admitted to this degree under Regulation 1a must:
   a. pass courses with a total value of 240 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 280 points for the total enrolment for this degree.

4. A student admitted to this degree under Regulation 1b must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points for the total enrolment for this degree.

Structure and Content

5. A student wishing to enrol in any of NURSING 701–789, NURSPRAC 701–719 must hold current registration as a nurse in New Zealand.

6. A student wishing to enrol in any of CLINIMAG 705–720, MEDIMAG 701–722 must hold current registration with the New Zealand Medical Radiation Technologists Board, or as a Medical Radiation Technologist in their country of domicile, and must satisfy the Head of School of Medical Sciences that they have adequate access to clinical work in circumstances approved by the University of Auckland.

7. A student wishing to enrol in any of PROFCOUN 707, SOCWORK 718, SOCCHFAM 700, 734 must hold an undergraduate degree recognised as a professional qualification by the Social Workers Registration Board.

8. A student wishing to enrol in any of OPTOM 757, 759 or 791 must hold current registration as an optometrist in New Zealand.

9. A student enrolled for this degree must complete the requirements as listed in the Master of Health Sciences Schedule.

10. The programme for each student must be approved by the relevant Head of School prior to enrolment.

11. A student who has to complete 240 points for this degree and whose programme includes a thesis, research portfolio, dissertation or research project must, before enrolment for the thesis, research portfolio, dissertation or research project, obtain a Grade Point Average of 5.0 or higher in the first 120 points of taught courses for the degree. If this is not achieved, students may apply to reassign courses passed for this degree to the Postgraduate Diploma in Health Sciences.

12. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Practical Requirements
13 A student enrolled for this degree who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.

14 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol in a clinical remediation course in addition to the requirements of their programme.

Suspension or Termination of Enrolment
15 a If a student is required to undertake clinical or practice experience as part of their programme, and their behaviour, attitude or circumstances is found, after due and fair inquiry, to be inappropriate, offensive or disruptive in this environment, or to be likely to give rise to a risk of harm to the welfare of any party in a clinical or practice environment, then the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any clinical attachments pending the outcome of the inquiry.

c A student whose enrolment is terminated or application to re-enrol is declined under Regulation 15a may appeal from that decision to the Council or its duly appointed delegate.

Fitness to Practise Requirements
16 a Students in the Nutrition and Dietetics specialisation must meet the applicable fitness to practise requirements, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practice Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 16c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 16c or their application to re-enrol declined under Regulation 16d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Variations
17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
18 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees

Amendment
19 These regulations and/or schedule have been amended with effect from 1 January 2020.

Master of Health Sciences (MHSc) Schedule

**The Degree of Master of Nursing – MNurs**

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this programme a student needs to:
   - either
     - a (i) have completed the requirements for the degree of Bachelor of Nursing, or its equivalent as approved by Senate or its representative
       and
     - (ii) achieved an average grade in the final year of study that is equivalent to a B or higher
   - or
     - b (i) have completed the requirements for the Postgraduate Diploma in Health Sciences in Advanced Nursing, or its equivalent as approved by Senate or its representative, with an average grade of B or higher
       or
     - (ii) have completed the requirements for the Degree of Bachelor of Nursing (Honours), or its equivalent as approved by Senate or its representative, with an average grade of B or higher
       and
     - c hold current registration as a nurse in New Zealand.

**Duration and Total Points Value**

2. A student admitted to this degree under Regulation 1a must:
   - a pass courses with a total value of 240 points
     and
   - b complete within the time limit specified in the General Regulations – Masters Degrees
     and
   - c not exceed 280 points for the total enrolment for this degree.
3 A student admitted to this degree under Regulation 1b must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Nursing Schedule.

5 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120 points from the taught courses of the degree. If this Grade Point Average is not achieved, students may apply to reassign courses passed for this degree to the Postgraduate Diploma in Health Sciences.

6 A student enrolled for this degree who has already passed any course(s) the same as, or similar to, the courses required for this degree must substitute an alternative course(s) approved by the Head of School of Nursing or nominee.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Head of School of Nursing prior to enrolment.

Thesis / Research Portfolio / Dissertation
9 a. The thesis, research portfolio or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Nursing.

b. The thesis, research portfolio or dissertation is to embody the results obtained by the student in an investigation into an area of Nursing.

c. Any laboratory work in connection with the thesis, research portfolio or dissertation must be carried out within the University. However, Senate or its representative may permit a student to carry out the work in an approved institution outside the University for any period or periods considered necessary.

d. The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Nursing Practice – MNursPrac

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Nursing, or its equivalent as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points above Stage II
   or (ii) completed the requirements of the Degree of Bachelor of Nursing (Honours) or the Postgraduate Diploma in Health Sciences in Advanced Nursing or Mental Health Nursing, or their equivalent, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher
   and
   b (i) hold current registration as a registered nurse in New Zealand and have a minimum of two years post registration clinical practice experience
   or (ii) hold current registration as a registered nurse with an overseas nursing regulatory body approved by the Head of School of Nursing and have a minimum of two years post registration clinical practice experience
   and
   c satisfy the Head of School of Nursing that they have adequate access to practical work to undertake the programme at a facility approved by the University of Auckland.

Duration and Points Value

2 A student admitted to this degree under Regulation 1a(i) must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1a(ii) must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Master of Nursing Practice Schedule.

5 A student must achieve a Grade Point Average of 5.0 or higher in 60 points of taught courses prior to enrolment in NURSING 701 or NURSING 746.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and programme regulations, Academic Integrity, of the University Calendar.

7 The programme for each student must be approved by the Head of School of Nursing prior to enrolment.

Reassignment

8 A student who does not achieve the Grade Point Average required to enrol in NURSING 701 or NURSING 746 may apply to reassign courses passed for the Master of Nursing Practice to the Postgraduate Diploma in Health Sciences or Postgraduate Certificate in Health Sciences.
Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
10 This degree may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high. Distinction may be awarded where a student has achieved a grade of A– or higher overall. Merit may be awarded where a student has achieved a B+ grade overall.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2020.

Master of Nursing Practice (MNursPrac) Schedule
A student who has to complete 120 points must satisfy the following requirements:

The Degree of Master of Nursing Science – MNSc
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree a student must have completed the requirements for a relevant Bachelor or Bachelors honours degree or its equivalent as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II.

Notes:
(i) A relevant degree may include one of health sciences or science. Whether a degree is considered relevant will also depend on the courses taken; relevant areas may include physiology and psychology.
(ii) Applicants will be required to consent to a disclosure of criminal convictions and safety checks required by the Children's Act 2014 to ensure they meet the requirements of the Health Practitioners Competence Assurance Act 2003.

Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 240 points
   and
   b complete within four semesters, and in accordance with Regulations 2a(i-v) of the General Regulations – Masters Degrees
3 Students must complete within five years of the date of commencement of study, including any periods of suspension
4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Nursing Science Schedule.
6 A student must achieve a Grade Point Average of 5.0 or higher in the first 60 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Nursing Science cannot continue.
7 A student who has previously passed any course the same as, or similar to, those required for this degree, must substitute an alternative course(s) approved by the Head of School of Nursing.
8 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and programme regulations, Academic Integrity, of the University Calendar.
English Language Requirements
9 A student enrolled for this degree must demonstrate competence in the English Language, by passing NURSING 199, or its equivalent, as prescribed by the Head of School of Nursing, prior to enrolment.

Research Project
10 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Nursing.

b The research project is to embody the results obtained by the student in an investigation into an area of Nursing.

c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Practical Requirements
11 A student enrolled for this degree who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.

Fitness to Practice Requirements
12 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practice requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practice Policy.

b Where a student is being investigated with regard to a fitness to practice matter under the policy, and there is a concern that the student’s attitudes or practice are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practice, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 12c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 12c or whose application to re-enrol is declined under Regulation 12d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Reassignment
13 A student may apply to reassign courses passed from this degree to the Postgraduate Certificate in Health Sciences in Health Sciences or Postgraduate Diploma in Health Sciences in Health Sciences.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
15 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
16 These regulations and/or schedule have been amended with effect from 1 January 2020.

### The Degree of Master of Public Health – MPH

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have:

- either
a (i) completed the requirements for a degree deemed relevant by Senate or its representative
and
(ii) achieved an average grade in the final year of study that is equivalent to a B or higher
or
b completed the requirements for the Postgraduate Diploma in Public Health, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Public Health Schedule.

5 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120 points of taught courses for this degree prior to enrolment in POPLHLTH 790, 793, or 796. If this Grade Point Average is not achieved, students may apply to reassign courses passed for this degree to the Postgraduate Diploma in Public Health.

6 A student who has to complete 240 points for this degree and who has completed the requirements for the Degree of Bachelor of Health Sciences from this University or an equivalent qualification, cannot enrol in POPLHLTH 760 and must select another approved 700 level course listed in the Master of Health Sciences Schedule or Master of Public Health Schedule.

7 A student who has already passed any course the same as, or similar to, those required for this degree, must select another approved 700 level course listed in the Master of Health Sciences Schedule or Master of Public Health Schedule.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

9 The programme for each student must be approved by the Head of School of Population Health prior to enrolment.

Thesis / Dissertation
10 a The thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Population Health.

b The thesis or dissertation is to embody the results obtained by the student in an investigation into an area of Public Health.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Doctor of Medicine – MD

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.

Preamble

1 a A candidate for the Degree of Doctor of Medicine is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

b A candidate for the Degree of Doctor of Medicine may draw upon original studies completed prior to registration that have not been submitted as part of a previous degree or diploma.

c It is expected that this programme will usually be completed within three to four years of full-time candidature. Part-time candidature may also be permitted.

d The Degree of Doctor of Medicine is awarded for a formal and systematic exposition of a coherent programme of advanced research work in any branch of medicine or medical science presented in a thesis which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:

(i) is an original contribution to any branch of medicine or medical science

and

(ii) meets internationally recognised standards for such work

and

(iii) demonstrates a knowledge of the literature relevant to the subject of the thesis, and the ability to exercise critical and analytical judgement of it

and

(iv) is satisfactory in its methodology, in the quality and coherence of its written expression, and in its scholarly presentation and format.

e The thesis may not, without prior permission of the Board of Graduate Studies, exceed 100,000 words in total.

f If the core of the thesis comprises a series of published or unpublished research papers and/or case studies, the candidate must be the lead or sole author of each paper or case study and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.

g If the core of the thesis does not comprise a series of published or unpublished research papers and/or case studies, a candidate may still include within their thesis published or unpublished research papers and/or case studies, provided that the candidate was the lead or sole author of each paper or case study. The thesis must be presented in a consistent format, citation style and typeface.

h In the case of published or unpublished research papers and/or case studies that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper and/or case study. The thesis must be presented in a consistent format, citation style and typeface.

i All material which is not the original work of the author of the thesis must:

(i) be fully and appropriately attributed

or
(ii) if a substantial part of another work, only be reproduced with the written permission of the copyright owner of the other work.

j All research for the thesis is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility
2 A candidate for the Degree of Doctor of Medicine is required to have:
   a (i) completed the requirements for the award of the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland
   or
   (ii) completed the requirements for the award of a medical qualification that the Board of Graduate Studies considers to be equivalent to the prerequisite qualification specified in Regulation 2a(i) of this regulation
   and
   b demonstrated an ability to pursue doctoral level research in the field of medicine or medical science, as measured by the prior completion of 30 points or more of postgraduate level or equivalent research to an appropriate standard
   and
   c following the completion of their medical qualification, normally had at least five years of experience in medical practice or in an area considered comparable by the Board of Graduate Studies.

Admission
3 Every candidate for the Degree of Doctor of Medicine must have applied for admission and been admitted to the University of Auckland.

Duration
4 a A candidate will normally be required to complete the requirements for the degree within not less than three full-time years and not more than four full-time years, or the part-time equivalent, from the date of registration unless permitted to do otherwise by the Board of Graduate Studies.
   b A candidate who draws upon original studies completed prior to registration may, with the permission of the Board of Graduate Studies, complete the requirements for the degree in less than three years. The minimum time for completion will not be less than one full-time year or part-time equivalent.

Registration
5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
   b A minimum of four goals will normally be prescribed by the Board of Graduate Studies for completion during the period of provisional registration.

Structure and Content
6 A candidate enrolled for this degree must pass MEDSCI 896 Thesis.

Reviews of Registration
7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named Doctorates.

Changes to the Conditions of Registration
8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees
9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Submission
10 a All candidates are required to submit one copy in temporary binding and one electronic copy in pdf format of the thesis to the Graduate Centre. Copies should include the following statement to examiners on the first page:
   “This thesis is for examination purposes only and is confidential to the examination process.”
   b Three months prior to the expected date of submission, a candidate should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the thesis on the grounds of conflict of interest, then the candidate may also submit at this time the name of this person and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.
c The thesis is to be accompanied by a statutory declaration, signed by the candidate, stating that the thesis is the candidate's own work and that neither the thesis nor any part of it has been submitted or accepted for any other degree or diploma and that written permission has been obtained for any third-party copyright material reproduced in the thesis that represents a "substantial part" of the other work. The declaration should also state that the temporary-bound copy and electronic copy are identical.

d Where the thesis contains jointly authored research papers, case studies and/or any other work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work. Where the thesis includes research reported in published or unpublished co-authored works (other than as in Regulations 1g and 1h in the PhD Statute) a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate's own work.

e The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

Examination

11 The examination process will follow that of Regulation 9 of the PhD Statute, except that Regulations 9a, b, c, d, e, f, g and i will not apply, and

a The Associate Dean (Postgraduate) of the Faculty of Medical and Health Sciences, the Head of Department, and/or the Dean of the Faculty may nominate another person to the Board of Graduate Studies to be authorised to act in their place in all of the provisions of this Regulation 11 and Regulation 9 of the PhD Statute where it applies. If either the Head of Department or the Associate Dean (Postgraduate) or the Dean of the Faculty is a supervisor of the candidate, an alternate must be nominated and appointed.

b Neither the supervisors nor the candidate may communicate with the examiners regarding the examination at any stage of the examination process, except as specified in this Regulation 11 or Regulation 9 of the PhD Statute where it applies.

c Nomination of Examiners
On notification of submission or intent to submit under Regulation 10b, the Head of Department will, on the advice of the supervisor(s), nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the thesis research or the preparation of the thesis.

d Appointment of Examiners
The Board of Graduate Studies will consider the nominations provided by the Head of Department and any submissions made by the candidate under the provisions of Regulation 10b and will appoint two suitably qualified persons who are available to act as examiners. One examiner must be able to participate in any oral examination in person.

e Appointment of Examination Committee
The Board of Graduate Studies will appoint a Doctor of Medicine Examination Committee consisting of the Associate Dean (Postgraduate) of the Faculty of Medical and Health Sciences as Chair, the Head of Department, the Dean of Faculty of Medical and Health Sciences, and the Head of School of Medicine, for all Doctor of Medicine examinations.

f Examiners’ Reports
Each examiner will be provided with an electronic copy of the thesis in PDF format and, acting independently, is required to provide the Graduate Centre, within two months of receipt of the thesis, with a written report in English on the quality of the thesis according to the criteria of Regulation 1(c) of these regulations. A copy of the thesis will be provided to the Examination Committee.

g Recommendation of Examiners
The examiners will include with their reports one of the following recommendations:

(i) to award the degree.
   The thesis can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the material.

or

(ii) to award the degree after specified “minor corrections” have been made to the thesis to the satisfaction of the Chair of the Doctor of Medicine Examination Committee or nominee, who may be the Main Supervisor, by a specified date.
   This recommendation is made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, referencing problems, or typographical errors. When
these are corrected, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) (a) to award the degree after revisions have been made to the thesis to the satisfaction of the Doctor of Medicine Examination Committee, by a specified date, and subject to satisfactory performance at any oral examination.

This recommendation is made when the Examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. These changes can normally be made within a 3–6 month period. The Examiner should indicate whether or not they regard an Oral Examination as appropriate.

or

(b) to award the degree after revisions have been made to the thesis to the satisfaction of the Examiner by a specified date, and subject to satisfactory performance at any oral examination. The Examiner should indicate whether or not they regard an Oral Examination as appropriate.

This recommendation is made when the Examiner concludes that the revisions required are not minor, but are substantive including re-analysis of data, or rewriting of chapters, or corrections of significant lapses in logic or coherence. The nature of the revisions must be such that subject-specific knowledge is required and the Examiner wishes to see and approve the changes. These changes can normally be made within a 3–6 month period.

or

(iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only. This recommendation is made when the Examiner concludes that the thesis is not yet of MD standard. It will require either further research, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required MD standard. The candidate will be permitted to resubmit, normally within a 12 month period.

or

(v) not to award the degree, but refer the thesis to the appropriate authority within the University for consideration of the award of another degree.

This recommendation is made when the Examiner is of the opinion that the thesis has substantive flaws incompatible with the requirements of a MD.

or

(vi) not to award any degree.
j Where a candidate is required to revise and resubmit the thesis before any oral examination, Regulation 9r of the PhD Statute will apply, except that the examiners shall examine the revised thesis as a whole in accordance with Regulation 11g of these regulations rather than Regulation 9g of the PhD Statute, excepting that a further resubmission may not be recommended, and that the recommendations available to the Examination Committee at Regulation 9r(vii) of the PhD Statute are replaced by those detailed at Regulation 11h of these regulations.

k Oral Examination
   (i) An Oral Examination will be held only on the recommendation of the Doctor of Medicine Examination Committee or as required by the Board of Graduate Studies.
   (ii) An oral examination will only be held where there is a reasonable doubt regarding the adequacy of the thesis and/or the appropriate recommendation and where, in the opinion of the Committee or of the Board of Graduate Studies, an oral examination is the most appropriate way of addressing those doubts.
   (iii) Should an oral examination be required, the Board of Graduate Studies will appoint a Head of Department Nominee in accordance with Regulation 9e of the PhD Statute, and the Oral Examination and the remainder of the examination process will proceed as per Regulation 9n to 9t of the PhD Statute, except that:
      a) Where a candidate has previously revised and resubmitted their thesis in accordance with Regulation 11h(v) of the Doctor of Medicine regulations no subsequent revision and resubmission is permitted.
      b) Where an oral examination results in the candidate being required to revise and resubmit the thesis:
         (i) the examiners shall examine the revised thesis as a whole in accordance with Regulation 11g of the Doctor of Medicine regulations rather than Regulation 9g of the PhD Statute, excepting that a further revision and resubmission may not be recommended
         and
         (ii) the composition of the Examination Committee for the revised and resubmitted thesis at Regulation 9s(vii) of the PhD Statute shall revert to that of the Doctor of Medicine Examination Committee appointed in accordance with Regulation 11e of the Doctor of Medicine regulations but include, where that person is not already included, the Head of Department Nominee appointed in accordance with Regulation 9e of the PhD Statute
         and
         (iii) The recommendations available to the Examination Committee at Regulation 9s(vii) of the PhD Statute after consideration of the examiners’ reports for the revised and resubmitted thesis shall be replaced by those detailed at Regulation 11h of the Doctor of Medicine regulations.

l Copies for Deposit
   (i) On successful completion of the examination, candidates will be required to deposit two hardbound copies of the thesis and one digital copy, corrected as may be required, with the Graduate Centre. The degree will not be conferred until the candidate has complied with this requirement.
   (ii) When two hardbound copies and a digital copy of the thesis are deposited, these must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same.

Variations
12 In exceptional circumstances the Board of Graduate Studies may approve a programme which does not conform to these regulations.

Appeals
13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures
14 Disputes are to be resolved according to Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements
15 a These regulations came into force on 1 January 2016. The 2009 regulations for the Degree of Doctor of Medicine were thereby repealed.
   b For candidates initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.
Certificate in Health Sciences – CertHSc

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to:
   a be a New Zealand citizen or permanent resident of New Zealand
   and
   b have indigenous New Zealand Māori or Pacific whakapapa/ancestry verified through the Māori and Pacific Admissions Scheme
   and
   c (i) completed Year 13 in a New Zealand secondary school or its equivalent
   or
   (ii) be eligible for Special Admission to the University

Duration and Total Points Value
2 A student admitted to this certificate must complete within two full-time semesters in the same academic year and pass courses with a total value of 120 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 A student enrolled for this certificate must complete the requirements as listed in the Certificate in Health Sciences Schedule.

4 The programme for each student must be approved by the Academic Director of the Certificate prior to enrolment.

5 A student who fails up to three courses may, with the permission of the Academic Director of the Certificate, complete a subsequent additional assessment for that course(s) providing that:
   a the student has achieved a Grade Point Average of 3.0 over all the courses passed for the Certificate
   and
   b achieved a grade of not less than D for the failed course.

6 The subsequent assessment must be undertaken within two weeks of the notification of results to the student.

7 A student enrolled in this certificate must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2021.

Certificate in Health Sciences (CertHSc) Schedule

| Requirement: |
| 120 points: MAORIHTH 21H–30H |

Diploma in Health Sciences – DipHSc

The regulations for this diploma are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Health Sciences, or a conjoint programme that includes the Bachelor of Health Science as a component degree, at this University
   and
   b passed at least 120 points for that degree or diploma
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Postgraduate Certificate in Health Leadership – PGCertHlthLd

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a been enrolled in the Degree of Master of Health Leadership or Postgraduate Diploma of Health Leadership
   and
   b passed at least 30 points for that qualification
   and
   c been recommended for admission by the Academic Head or nominee.

Duration and Total Points Value
2 A student admitted to this programme must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must pass 60 points from courses listed in the Postgraduate Certificate in Health Leadership Schedule.
5 The programme for each student must be approved by the relevant Head of School prior to enrolment.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2019.

Postgraduate Certificate in Health Leadership (PGCertHlthLd) Schedule

| Requirement:                                                                 |
| • at least 30 points from HLTHMGT 721, 754, POPLHLTH 705, 722, 724           |
| • up to 30 points from HLTHMGT 729, MEDICINE 700, 702, POPLHLTH 715, 719, 752 |

Postgraduate Certificate in Health Sciences – PGCertHSc

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
   or     
   b (i) completed the requirements for a health professional qualification deemed relevant by Senate or its representative
   and
   (ii) had at least two years of relevant work experience approved as appropriate by the relevant Head of School.
2 A student who has completed the requirements for the Postgraduate Certificate in Health Sciences in one
specialisation may, with the permission of Senate or its representative, enrol for the Postgraduate Certificate in
Health Sciences in another specialisation.
3 a To gain admission to the Medical Imaging or Mammography specialisations a student needs to have completed
   an undergraduate degree in Medical Imaging or an equivalent qualification, and hold current registration with
   the Medical Radiation Technologists Board or as a Medical Radiation Technologist in their country of domicile
   and
   b satisfy the Head of School of Medical Sciences that, if it is required for the programme, they have adequate
   access to clinical work to undertake the programme in circumstances approved by the University of Auckland.

Duration and Total Points Value
4 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
5 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
6 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 60 points from courses listed in the Master of Health Sciences Schedule
   or
   b 60 points from courses in one of the areas of specialisation listed in the Postgraduate Certificate in Health
   Sciences Schedule.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
8 The programme for each student must be approved by the relevant Head of School prior to enrolment.

Practical Requirements
9 A student enrolled for this postgraduate certificate who is required to carry out practical or clinical work must
   satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.
10 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol
    in a clinical remediation course in addition to the requirements of their programme.
Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Certificate in Public Health – PGCertPH

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a been enrolled in the Degree of Master of Public Health or Postgraduate Diploma in Public Health
   and
   b passed at least 30 points for that qualification
   and
   c been recommended for admission by the Academic Head or nominee.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 30 points: MAORIHTH 701, POPLHLTH 760
   b 15 points from POPLHLTH 708, 709
5 A student who has completed the requirements for the Degree of Bachelor of Health Sciences from this University, or an equivalent qualification, cannot enrol in POPLHLTH 760 and must select an alternative course from Regulation 4c.
6 A student who has previously passed MAORIHTH 301, cannot enrol in MAORIHTH 701 and must select an alternative course from Regulation 4c.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
8 The programme for each student must be approved by the Head of School of Population Health prior to enrolment.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

Postgraduate Diploma in Biomedical Science – PGDipBiomedSc

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelors degree deemed relevant by Senate or its representative.
2 In exceptional circumstances Senate or its representative may approve admission of a student who does not meet
the above requirements, but who has attained the equivalent qualification or relevant professional experience.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 30 points: MEDSCI 743, 744
   and
   b 90 points from courses listed in the Master of Biomedical Science Schedule, excluding MEDSCI 796.

6 The programme for each student must be approved by the Head of School of Medical Sciences prior to enrolment.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations –
   Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not
   conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2017.

Postgraduate Diploma in Clinical Education – PGDipClinEd
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
   or
   b (i) completed the requirements for a health professional qualification deemed appropriate by Senate or its
        representative
        and
        (ii) have at least two years’ relevant work experience approved by the Head of School or nominee
        and
        c be currently engaged in clinical teaching or curriculum development in a health related discipline.

2 A student who has completed the requirements for either the Postgraduate Certificate in Clinical Education, or
   the Postgraduate Certificate in Academic Practice, or their equivalent, may, on the recommendation of the Head
   of School or nominee and with the approval of Senate or its representative, credit to this postgraduate diploma
   the courses passed for the Postgraduate Certificate in Clinical Education, or the Postgraduate Certificate in
   Academic Practice.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma who has completed the requirements for the Postgraduate
   Certificate in Clinical Education:
a must pass 120 points from Option 1 in the Postgraduate Diploma in Clinical Education Schedule.

b With the approval of the Head of School or nominee up to 30 points may be selected from other relevant postgraduate courses.

6 A student enrolled for this postgraduate diploma who has completed the requirements for the Postgraduate Certificate in Academic Practice must pass 120 points from Option 2 in the Postgraduate Diploma in Clinical Education Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Head of School or nominee prior to enrolment.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
10 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2020.

| Requirement: Postgraduate Diploma in Clinical Education (PGDipClinEd) Schedule |
| Requirement: Postgraduate Diploma in Clinical Pharmacy – PGDipClinPharm |
| Option 1 | 701 or other courses approved by the Head of School or nominee |
| • 30 points from CLINED 715, NURSING 741 |

1 In order to be admitted to this postgraduate diploma a student must have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
   or
   b (i) completed the requirements for a health professional qualification deemed appropriate by Senate or its representative
       and
       (ii) have at least two years of relevant professional experience approved by the relevant Head of School.

2 A student who has completed the requirements for the Postgraduate Certificate in Health Sciences from this University or an equivalent qualification as approved by Senate or its representative, may on the recommendation of the relevant Head of School, credit the courses passed from the Postgraduate Certificate in Health Sciences to the Postgraduate Diploma in Health Sciences.

3 A student who has completed the requirements for the Postgraduate Diploma in Health Sciences in one specialisation may, with the permission of Senate or its representative, be admitted to the Postgraduate Diploma in Health Sciences in another specialisation.
Students applying for the Medical Imaging specialisation must hold current registration with the New Zealand Medical Radiation Technologists Board in the Medical Imaging Technologist scope of practice or as a Medical Imaging Technologist in their country of domicile and if it is required, confirm that they have adequate access to clinical work at a facility approved by the Programme Director.

Students applying for the Magnetic Resonance Imaging, Nuclear Medicine, or Ultrasound specialisation must confirm that they have adequate access to clinical work at a facility approved by the Programme Director.

Duration and Total Points Value
5 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
6 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
7 Of the 120 points required for this postgraduate diploma, a student must pass:
   either
   a (i) 15 points from an approved Research Methods Course listed in the Postgraduate Diploma in Health Sciences Schedule, if such a course has not already been passed
   and
   (ii) 105 points from other courses listed in the Master of Health Sciences Schedule
   or
   b 120 points in courses from one of the areas of specialisation listed in the Postgraduate Diploma in Health Sciences Schedule.
8 A student enrolled for this postgraduate diploma who has already passed any course the same as, or similar to, those required under Regulation 7, must substitute an alternative course as approved by the relevant Head of School.
9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
10 The programme for each student must be approved by the Head of School prior to enrolment.

Practical Requirements
11 A student enrolled for this postgraduate diploma who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.
12 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol in a clinical remediation course in addition to the requirements of their programme.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
14 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Diploma in Health Sciences (PGDipHSc) Schedule

**Approved Research Methods Courses:**

MEDSCI 743, NURSING 782, OPHTHAL 703, POPLHLTH 701, 704–708, 711, 712

Specialisations available:

**Advanced Nursing**

Requirement: 

- 120 points from HLTHSCI 700–708, NURSING 732, 733, 735, 737, 741, 742, 744–770, 773–780, 782, 785–787, NURSPRAC 701–726, other courses approved by the Head of School of Nursing

or

- 120 points from NURSING 742, 746, 770, 773, 782, 785, NURSPRAC 705, 710-712, 717, POPLPRAC 756, 758, 760, 761, 767, 768, other courses approved by the Head of School of Nursing

or

- 120 points from NURSING 742, 746, 770, 773, 782, 785, NURSPRAC 705, 710-712, 717, POPLPRAC 756, 758, 760, 761, 767, 768, other courses approved by the Head of School of Nursing

or
Postgraduate Diploma in Obstetrics and Medical Gynaecology – PGDipObstMedGyn

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this programme, a student needs to:

- 120 points from NURSING 742, 745, 746, 773, 782, 785, NURSPRAC 704, 710, 717, POPLHLTH 746, POPLPRAC 720, 722, 723, 724, other courses approved by the Head of School of Nursing
- 120 points from HLTHSCI 703, NURSING 742, 744–746, 773, 774, 776, 782, 785, NURSPRAC 717–720, 726, POPLPRAC 761, other courses approved by the Head of School of Nursing

Alcohol and Drug Studies

Requirement:
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 30 points from POPLHLTH 738, 753, 768, 773, 774, POPLPRAC 712, 765
- 15 points from POPLHLTH 701, 704, 705, 767
- 15 points from HLTHMGT 721, MAORIHTH 701, PAEDS 712, POPLHLTH 736, 738, 739, 747, 753, 768, 773, 774, POPLPRAC 707, 712, 754, 765

Health Informatics

Requirement:
- 75 points: HLTHINFO 723, 728, 730, POPLHLTH 709, 724
- 15 points from POPLHLTH 701, 704
- 15 points from POPLHLTH 705, 701, 706, 707, 767

Health Promotion

Requirement:
- 60 points: POPLHLTH 700, 722, 733, 734
- 15 points from POPLHLTH 701, 704
- 15 points from POPLHLTH 705, 720, 765
- 30 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766, 746, POPLPRAC 712

Infant, Child and Adolescent Mental Health

Requirement:
- at least 30 points from PSYCHIAT 740, 747, 768
- at least 15 points from POPLHLTH 701, 704, 705, 708, 767
- at least 45 points from PSYCHIAT 730, 740, 741, 747, 746, 766–770, 773
- up to 30 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University

Magnetic Resonance Imaging

Requirement:
- 75 points: MEDIMAGE 701, 702, 714, 715, 721
- 45 points: CLINIMAG 710–712

Medical Imaging

Requirement:
- 30 points: MEDIMAGE 701, 702
- 60 points from CLINIMAG 705–720, MEDIMAGE 707–722
- 30 points from courses listed in the Master of Health Sciences Schedule approved by the Head of School

Mental Health Nursing

Requirement:
- 120 points from HLTHSCI 703, NURSING 742, 744–746, 773, 774, 776,

Postgraduate Diploma in Obstetrics and Medical Gynaecology – PGDipObstMedGyn

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this programme, a student needs to:

- 120 points from NURSING 742, 745, 746, 773, 782, 785, NURSPRAC 704, 710, 717, POPLHLTH 746, POPLPRAC 720, 722, 723, 724, other courses approved by the Head of School of Nursing
- 120 points from HLTHSCI 703, NURSING 742, 744–746, 773, 774, 776, 782, 785, NURSPRAC 717–720, 726, POPLPRAC 761, other courses approved by the Head of School of Nursing

Alcohol and Drug Studies

Requirement:
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 30 points from POPLHLTH 738, 753, 768, 773, 774, POPLPRAC 712, 765
- 15 points from POPLHLTH 701, 704, 705, 767
- 15 points from HLTHMGT 721, MAORIHTH 701, PAEDS 712, POPLHLTH 736, 738, 739, 747, 753, 768, 773, 774, POPLPRAC 707, 712, 754, 765

Health Informatics

Requirement:
- 75 points: HLTHINFO 723, 728, 730, POPLHLTH 709, 724
- 15 points from POPLHLTH 701, 704
- 15 points from POPLHLTH 705, 701, 706, 707, 767

Health Promotion

Requirement:
- 60 points: POPLHLTH 700, 722, 733, 734
- 15 points from POPLHLTH 701, 704
- 15 points from POPLHLTH 705, 720, 765
- 30 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766, 746, POPLPRAC 712

Infant, Child and Adolescent Mental Health

Requirement:
- at least 30 points from PSYCHIAT 740, 747, 768
- at least 15 points from POPLHLTH 701, 704, 705, 708, 767
- at least 45 points from PSYCHIAT 730, 740, 741, 747, 746, 768–770, 773
- up to 30 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University

Magnetic Resonance Imaging

Requirement:
- 75 points: MEDIMAGE 701, 702, 714, 715, 721
- 45 points: CLINIMAG 710–712

Medical Imaging

Requirement:
- 30 points: MEDIMAGE 701, 702
- 60 points from CLINIMAG 705–720, MEDIMAGE 707–722
- 30 points from courses listed in the Master of Health Sciences Schedule approved by the Head of School

Mental Health Nursing

Requirement:
- 120 points from HLTHSCI 703, NURSING 742, 744–746, 773, 774, 776,
have completed the requirements for the Degree of Bachelor of Medicine and Bachelor of Surgery, or an equivalent medical qualification approved by Senate or its representative
and
b hold current registration either with the Medical Council of New Zealand or as a Medical Practitioner in the country of domicile
and
c satisfy the Dean of Faculty of Medical and Health Sciences that they have adequate access to clinical work to undertake the programme at a facility approved by the University of Auckland.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 A student enrolled for this postgraduate diploma must pass 120 points from courses listed in the Postgraduate Diploma in Obstetrics and Medical Gynaecology Schedule.

5 A student enrolled for this postgraduate diploma who has already passed any course the same as, or similar to, those required under Regulation 4, must substitute an alternative course as approved by the Head of School of Medicine.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
7 A student enrolled for this postgraduate diploma must carry out satisfactorily such practical or clinical work as the Head of School of Medicine may require.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2014.

Postgraduate Diploma in Obstetrics and Medical Gynaecology (PGDipObstMedGyn) Schedule

Postgraduate Diploma in Public Health – PGDipPH

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
either
a completed the requirements for a degree deemed relevant by Senate or its representative
or
b (i) completed the requirements for a health professional qualification that is deemed appropriate by Senate or its representative
and
(ii) at least two years’ relevant work experience approved by the Head of School of Population Health
and
c satisfied the Head of School of Population Health that they have appropriate training and experience to undertake the programme.
2 A student who has completed the requirements of the Postgraduate Certificate in Public Health or its equivalent, may on the recommendation of the Head of School of Population Health, and with the approval of Senate or its representative, credit to this postgraduate diploma, the courses passed for the Postgraduate Certificate in Public Health.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
   either
   a (i) 45 points: MAORIHTH 701, POPLHLTH 760, 776
         (ii) 15 points from POPLHLTH 708, 709
         (iii) 15 points from POPLHLTH 701–707, 767
         (iv) at least 45 points from HLTHINFO 722–725, 728, 730, HLTHMGT 721–754, MAORIHTH 701, 705–711, MEDSCI 709, POPLHLTH 700–737, 739, 750–753, 760–763, 765, 767, 769–772, 774, 776, POPLPRAC 710–712, 715, 716
   or
   b the specialisation listed in the Postgraduate Diploma in Public Health Schedule.
6 A student enrolled for this postgraduate diploma who has completed the requirements for the Degree of Bachelor of Health Sciences from this University, or an equivalent qualification, cannot enrol in POPLHLTH 760 and must select an alternative course from Regulation 5a(iv).
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
8 The programme for each student must be approved by the Head of School of Population Health prior to enrolment.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
10 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2019.

465 Postgraduate Diploma in Operations Research and Analytics – PGDipORAn
The Degree of Bachelor of Science – BSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:

a at least 300 points from courses listed as ‘Courses available for the BSc’ in the Bachelor of Science Schedule, including:
   (i) at least 180 points above Stage I, including at least 75 points above Stage II
   (ii) courses in a minimum of three subject codes listed in the Bachelor of Science Schedule
   (iii) (a) at least one major, as listed in the Bachelor of Science Schedule, and 15 points from a capstone course listed in the Bachelor of Science Schedule
        or
        (b) one specialisation, as listed in the Bachelor of Science Schedule.

b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

c up to 30 points from courses available for other programmes offered at this University.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

4 A student in the Information and Technology major for the BSc component is not permitted to take both the Business Analytics and Information Systems majors for the BCom component.

5 a A student may include one or more modules from the modules available in the Bachelor of Science Schedule. If the module is completed all the courses in the module will be counted under Regulation 2a.
   
   b (i) One module from the Schedule of another degree may be included.
   
   (ii) If a module from the Schedule of another degree is completed, the courses will be counted under Regulation 2a.

General Education Exemptions

6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   
   (i) completed an undergraduate degree at a tertiary institution
   
   or
   
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   
   or
   
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

5 A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

   (i) 15 points from courses offered in the General Education Schedules
   
   and
   
   (ii) a further 15 points from courses available for this degree.

5 A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Practical Requirements
7 In any course that includes assessed practical work as well as other assessed work, it may be required that a student must obtain passes in both the practical and the other work in order to pass that course as a whole. Where this is specified a student who passes the practical work but who fails the other work may, at the discretion of the Academic Head, have the result for the practical work carried forward when the course is retaken.

Conjoint Degrees
8 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
9 a In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiners as having reached a pass in an equivalent Stage I course(s), the student may be credited with the appropriate Stage I course(s).

b If a student who is enrolled in and fails an advanced or accelerated Stage I course but is certified by the examiners as having reached a pass in an equivalent Stage I course in the same subject having a lower entry requirement, the student may be credited with the latter course. The relevant Academic Head shall certify to Senate or its representative that the failed course is an advanced or accelerated course.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Science Scholars

Only for Science Scholars students

Stage I course: SCISCHOL 100
Stage II course: SCISCHOL 202
Stage III course: SCISCHOL 302

Statistics

Stage I courses: STATS 100–150
Stage II courses: STATS 201–290
Stage III courses: STATS 301–389, 399

Sustainability

Stage I course: SUSTAIN 100
Stage II course: SUSTAIN 200
Stage III course: SUSTAIN 300

Urban Planning

Only for students in the Geographic Information Science major

Stage I course: URBPLAN 103
Stage II courses: URBPLAN 203, 205

Wine Science

Stage II course: WINESCI 201

Capstone courses available:

ANTHRO 399, BIOMED 399, BIOSCI 397–399, COMPSCI 399, DATASCI 399, EARTHSCI 399, ENVS 399, EXERSCI 399, FOODSCI 399, GEOG 399, GEOPHYS 399, GISCI 399, INFOSYS 310, INFOMGMT 399, LOGICOMP 399, MARINE 399, MATHS 399, PHARMCOL 399, PHYSICS 399, PHYSIOL 399, PSYCH 399, SCIGEN 399, STATS 399

BSc majors:

Anthropological Science

• 30 points: ANTHRO 101, 102
• 30 points: ANTHRO 200, 201
• 15 points from ANTHRO 205–208, 235, 252
• 15 points: ANTHRO 309
• 30 points from ANTHRO 306, 317, 318, 322, 328, 337, 348, 349, 352, 353, 365, 367

Biological Sciences

either

• 60 points: BIOSCI 101, 108, 109, STATS 101
• 15 points: BIOSCI 220
• a further 30 points from BIOSCI 201–290
• 45 points from BIOSCI 301–395, MARINE 303
or one of the following pathways:

Biochemistry and Cell Biology

• 75 points: BIOSCI 101, 106, 108, 109, STATS 101
• 15 points from CHEM 110, 120
• 45 points: BIOSCI 201, 203, 220
• 30 points: BIOSCI 350, 353
• 15 points from BIOSCI 326, 349, 351, 355, 356

Biotechnology

• 75 points: BIOSCI 101, 106, 108, 109, STATS 101
• 15 points from CHEM 110, 120, 150
• 75 points: BIOSCI 203, 204, 220, INNOVENT 203, SCIGEN 201
• 60 points: BIOSCI 326, 347, 348, INNOVENT 307

Ecology

• 60 points: BIOSCI 101, 108, 109, STATS 101
• 30 points: BIOSCI 206, 220
• 15 points from BIOSCI 204, 205, 207, 208
• 15 points from ENVS 201, MARINE 202, STATS 201
• 15 points: BIOSCI 333
• 15 points: BIOSCI 394
• 15 points from BIOSCI 325, 334, 338, 347, MARINE 303

Evolution

• 60 points: BIOSCI 101, 108, 109, STATS 101
• 45 points: BIOSCI 202, 210, 220
• 45 points: BIOSCI 322, 355, 395

Genetics

• 60 points: BIOSCI 101, 108, 109, STATS 101
• 15 points from CHEM 110, 120, 150
• 45 points: BIOSCI 201, 202, 220
• 30 points: BIOSCI 351, 355
• 15 points from BIOSCI 322, 324, 326, 347, 349, 353, 356

Marine Biology

• 60 points: BIOSCI 101, 108, 109, STATS 101
• 30 points: BIOSCI 206, 220

Biotechnology

The BSc in Biotechnology was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

Not available for conjoints

Major must include:

• 60 points: BIOSCI 101, 106, 107, CHEM 110 or 120
• 90 points: BIOSCI 201–204, SCIGEN 201, STATS 101, 108 or BIOSCI 209
• 60 points: BIOSCI 350, 351, 349 or 356, 353 or 354
• 30 points: INNOVENT 203, 204
• 30 points from BIOSCI 340, 347, 348, MEDSCI 314

Chemistry

• 30 points: CHEM 110, 120
• 15 points from MATHS 108, 110, 130, PHYSICS 120
• 45 points: CHEM 251, 252, 253
• 15 points: CHEM 351
• 30 points from CHEM 310, 320, 330, 340, 360, 380, 390

Computer Science

• 45 points: COMPSCI 110, 120, 130
• 45 points: COMPSCI 210, 220, 230
• 45 points from COMPSCI 300–379
Earth Sciences
either
• 30 points: EARTHSCI 120, GEOG 101
• 15 points: EARTHSCI 220
• 30 points from EARTHSCI 202, 203, 208, 261, 262
• 15 points: EARTHSCI 320
• 30 points from EARTHSCI 303–372, GEOG 331, 332, 334, 351
or one of the following pathways:

Geology
• 45 points: EARTHSCI 102, 120, GEOG 101
• 15 points: EARTHSCI 220
• 45 points from EARTHSCI 202, 203, 208, 262
• 15 points: EARTHSCI 320
• 45 points from EARTHSCI 303–305, 307, 361, 372

Climate
• 45 points: EARTHSCI 102, 120, GEOG 101
• 30 points: EARTHSCI 220
• 30 points from EARTHSCI 202, 203, 208, 262, GEOPHYS 213
• 15 points: EARTHSCI 320
• 45 points from GEOG 332, 334, GEOPHYS 311

Earth Surface Processes
• 30 points: EARTHSCI 120, GEOG 101
• 15 points from EARTHSCI 102, GEOG 140
• 30 points: EARTHSCI 220, 262
• 15 points from EARTHSCI 202, 261
• 15 points from EARTHSCI 202, 261, ENVSCI 203, GSCI 241
• 15 points: EARTHSCI 320
• 15 points from GEOG 331, 351
• 15 points from EARTHSCI 303, 307, 372, GEOG 331, 351
• 15 points from EARTHSCI 303, 307, 372, GEOG 331, 351, GSCI 341, 343

Ecology
The BSc in Ecology was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

• 75 points: BIOSCI 101, 104, ENVSCI 101, GEOG 101, STATS 101 or 108
• 45 points: BIOSCI 206, 209, ENVSCI 201
• at least 15 points from BIOSCI 333, 394, 396, MARINE 303
• 45 points from ANTHRO 349, BIOSCI 320–337, 347, 394–396, ENVSCI 301, GEOG 317–320, 330–332

Environmental Science
• 30 points: ENVSCI 101, STATS 101
• 30 points: ENVSCI 201, 203
• 15 points from BIOSCI 206, 220, CHEM 260, EARTHSCI 261, 262, GEOG 205, 210, 250, 261, 262, GSCI 241, 242, MARINE 202
• 30 points: ENVSCI 301, 303
• 15 points from BIOSCI 394, CHEM 360, GEOG 332, 334, 352, GSCI 341, MARINE 302, 303

Exercise Sciences
• 30 points: EXERSCI 101, 103
• 45 points: EXERSCI 201, 203, 204
• 15 points: EXERSCI 305
• 30 points from EXERSCI 301, 303, 304

Geographic Information Science
• 15 points from COMPSCI 130, STATS 101, URBPLAN 103
• a further 30 points from COMPSCI 130, GEOG 101–140, STATS 101, URBPLAN 103
• 30 points: GSCI 241, 242
• 15 points from BIOSCI 220, COMPSCI 230, ENVSCI 203, STATS 201, 220, URBPLAN 203, 205
• 30 points from GEOG 342, GSCI 341, 343, 344
• a further 15 points from COMPSCI 313–373, GEOG 342, GSCI 341, 343, SCIGEN 301, STATS 301–380

Geography
• 30 points: GEOG 101, 102
• 15 points: GEOG 250
• 15 points from GEOG 202, 205, 261, 262
• a further 15 points from GEOG 202, 205, 261, 262, GSCI 241, 242
• 45 points from GEOG 302–352, GSCI 341–344

Geophysics
• 30 points from EARTHSCI 120, PHYSICS 120 or 160
  either
• 30 points: MATHS 108 or 110, 208
  or
• 45 points: MATHS 120, 130, 250
• 15 points from MATHS 253, 260
• 60 points: GEOPHYS 213, 310, 311, PHYSICS 201
• 15 points from GEOPHYS 361, PHYSICS 332

Information and Technology Management
• 45 points: COMPSCI 101 or 130, INFORMGMT 192, INFOSYS 110
• 30 points: BUSAN 201, COMPSCI 230 or INFOSYS 220
• 15 points from COMPSCI 215, INFOSYS 221, INNOVENT 203, OPSMGT 258, SCIGEN 201
• 45 points from BUSAN 300–302, 305, COMPSCI 345, INFOSYS 300–306, OPSMGT 357

Logic and Computation
• 30 points: COMPSCI 120, PHIL 101
• 15 points from COMPSCI 130, LINGUIST 100, PHIL 105
• 15 points from COMPSCI 220, LINGUIST 200, PHIL 216
• 15 points from COMPSCI 225, MATHS 254, 255
• 15 points: PHIL 222
• 30 points: COMPSCI 350, PHIL 315
• 30 points from COMPSCI 320, 367, LINGUIST 300, LOGICOMP 301, MATHS 315, PHIL 306, 322, 323

Marine Science
• 30 points: MARINE 100, STATS 101
• 15 points from BIOSCI 108, 109
• 15 points from BIOG 101, GEOG 140
• 15 points: MARINE 202
• 15 points from BIOSCI 220, ENVSCI 203, STATS 201
• 15 points from BIOSCI 206, 208, GEOG 262, GSCI 241
• 15 points: MARINE 302
• 30 points from BIOSCI 328, 333, 334, EARTHSCI 303, 360, GEOG 351, MARINE 303

Mathematics
either
• 45 points from MATHS 120, 130, 162, 199
• 15 points: MATHS 250
• 30 points from MATHS 253, 254, 255, 260, 270
• 45 points from MATHS 302–363
or one of the following pathways:

Applied Mathematics
• 45 points from MATHS 120, 130, 162, 199
• 45 points: MATHS 250, 260, 270
• 30 points: MATHS 340, 361
• 15 points from MATHS 362, 363

Pure Mathematics
• 45 points from MATHS 120, 130, 162, 199
• 45 points from MATHS 250, 253, 254, 255
• 30 points: MATHS 320, 332
• 15 points from MATHS 315, 326, 328, 333, 340

Operations Research
The BSc in Operations Research was withdrawn in 2020.
Pharmacology
- 15 points from BIOSCI 106, CHEM 110
- 30 points: BIOSCI 107, MEDSCI 142
- 30 points from BIOSCI 203, MEDSCI 203, 205, 206
- 15 points: MEDSCI 204
- 30 points: MEDSCI 318, 319
- 15 points from MEDSCI 320, PHARMCOL 399

Physics

either
- 15 points from PHYSICS 120, 160
- 15 points: PHYSICS 121
- either
  30 points: MATHS 108 or 110, 208
  or
  45 points: MATHS 120, 130, 250
- 15 points from MATHS 253, 260
- 45 points: PHYSICS 201–203
- 15 points from ELECTENG 303, 331, MEDSCI 309, PHYSICS 331–335, 340, 356, 371, 390
- 30 points from PHYSICS 331–335, 340, 356, 390 or one of the following pathways:

Medical Physics and Imaging Technology
- 15 points from PHYSICS 120, 160
- 30 points: BIOSCI 107, MEDSCI 142
- 90 points: MEDSCI 205, 206, PHYSICS 121, 201, 202, 244
  either
  30 points: MATHS 108 or 110, 208
  or
  45 points: MATHS 120, 130, 250
- 15 points from MATHS 253, 260
- 75 points: MEDSCI 309, PHYSICS 203, 333, 340, 390

Photonics
- 15 points from PHYSICS 120, 160
- 15 points: PHYSICS 121
- either
  30 points: MATHS 108 or 110, 208
  or
  45 points: MATHS 120, 130, 250
- 15 points from MATHS 253, 260
- 75 points: ELECTENG 210 or 292, PHYSICS 201–203, 244

BSc specialisations:

Biomedical Science
Not available for conjoint degree programmes

either
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 15 points from BIOSCI 201–203
- 15 points from MEDSCI 201–206
- 45 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
- 15 points: BIOSCI 220
- 60 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
- 15 points: BIOMED 399
  or one of the following pathways:

Anatomical Imaging Science
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 15 points from BIOSCI 201–203
- 60 points: BIOSCI 220, MEDSCI 201, 203, 206
- 15 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
- 45 points: MEDIMAGE 300, 302, MEDSCI 300
- 15 points from BIOSCI 347–358, MEDSCI 300–320
- 15 points: BIOMED 399

Cancer Biology and Therapeutics
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 75 points: ELECTENG 209 or 331, 303, PHYSICS 333, 340, 390

Physiology
- 30 points: BIOSCI 107, MEDSCI 142
- 15 points from CHEM 110, PHYSICS 120 or 160
- 30 points: MEDSCI 205, 206
- 15 points from MEDSCI 201, 203, 204
- 45 points from MEDSCI 309, 311, 312, 316, 317

Psychology
- 30 points: PSYCH 108, 109
- 15 points from STATS 100–125
- 45 points from PSYCH 200–209
- 45 points from EXERSCI 304, PSYCH 300–326, THEOREL 314

Statistics

either
- 15 points from STATS 101–125
  a further 15 points from DATASCI 100, STATS 101–150
- 15 points from STATS 201, 208, 210, 225
  a further 30 points from STATS 201–255, MATHS 208 or 250
- 15 points from STATS 310, 325, 330, 380
  a further 30 points from STATS 301–380, ENGSCI 391
  or one of the following pathways:

Applied Statistics
- 15 points from STATS 101, 108
- 15 points from DATASCI 100, STATS 125, 150
- 15 points from STATS 201, 208
- 30 points from STATS 220, 240, 255
- 15 points from STATS 330, 380
- 30 points from STATS 301, 302, 326, 330, 331, 380, MATHS 302

Statistics and Probability
- 15 points from STATS 101, 108
- 15 points: STATS 125
- 15 points from MATHS 108–153
- 15 points from STATS 210, 225
- 30 points from MATHS 208, 250, STATS 201, 208, 210, 220, 225, 240, 255
- 15 points from STATS 310, 325, 330, 380
  a further 30 points from STATS 301–380, ENGSCI 391

BSc specialisations:

Biomedical Science
Not available for conjoint degree programmes

either
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 15 points from BIOSCI 201–203
- 15 points from MEDSCI 201–206
- 45 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
- 15 points: BIOSCI 220
- 60 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
- 15 points: BIOMED 399
  or one of the following pathways:

Anatomical Imaging Science
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 15 points from BIOSCI 201–203
- 60 points: BIOSCI 220, MEDSCI 201, 203, 206
- 15 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
- 45 points: MEDIMAGE 300, 302, MEDSCI 300
- 15 points from BIOSCI 347–358, MEDSCI 300–320
- 15 points: BIOMED 399

Cancer Biology and Therapeutics
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 75 points: BIOSCI 201, 202, 220, MEDSCI 203, 204
- 15 points from BIOSCI 203, MEDSCI 205
- 45 points: BIOSCI 356, MEDSCI 302, 319
- 15 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
- 15 points: BIOMED 399

Cardiovascular Biology
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 45 points: BIOSCI 220, MEDSCI 205, 206
- 15 points from BIOSCI 201, 203
- 15 points from BIOSCI 201, 203, MEDSCI 204
- 15 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
- 30 points: MEDSCI 309, 311
- 15 points from BIOSCI 353, MEDSCI 320
- 15 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
- 15 points: BIOMED 399

Cellular and Molecular Biomedicine
- 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
- 45 points: BIOSCI 201, 203, 220
- 15 points from MEDSCI 201–206
- 30 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
• 30 points: BIOSCI 350, 353
• 30 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
• 15 points: BIOMED 399

Genetics
• 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
• 45 points: BIOSCI 201, 202, 220
• 15 points from MEDSCI 201–206
• 30 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
• 30 points: BIOSCI 351, 355
• 30 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
• 15 points: BIOMED 399

Infection and Immunity
• 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
• 60 points: BIOSCI 201, 220, MEDSCI 202, 203
• 30 points from BIOSCI 201–204, EXERSCI 206, MEDSCI 201–206
• 45 points: BIOSCI 349, MEDSCI 301, 314
• 15 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
• 15 points: BIOMED 399

Neuroscience
• 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
• 75 points: BIOSCI 220, MEDSCI 201, 204, 205, 206
• 15 points from BIOSCI 201–203
• 30 points: MATHS 317, 320
• 15 points from MEDSCI 309, 316
• 15 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
• 15 points: BIOMED 399

Nutrition and Metabolism
• 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
• 90 points: BIOSCI 203, 204, 220, MEDSCI 201, 203, 205
• 45 points: BIOSCI 358, MEDSCI 312, 315
• 15 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
• 15 points: BIOMED 399

Reproduction and Development
• 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
• 90 points: BIOSCI 201–203, 220, MEDSCI 201, 205
• 45 points: BIOSCI 356, MEDSCI 312, 315
• 15 points from BIOSCI 347–358, MEDIMAGE 300, 302, MEDSCI 300–320
• 15 points: BIOMED 399

Data Science
Not available for conjoint degree programmes
• 60 points: COMPSCI 120, 130, STATS 101, 125
• 15 points: MATHS 108

Modules available:

Data Analysis
• 15 points from STATS 101, 106
• 15 points from STATS 201, 208
• 15 points from STATS 301, 330, 340

Exercising the Body and Mind
• 15 points: EXERSCI 105
• 15 points from EXERSCI 202, 204
• 15 points: EXERSCI 304

Innovation and Entrepreneurship
Requirement:
• 15 points from INNOVATE 100, 100G
• 30 points: INNOVENT 204, 308

Quantitative Critical Thinking and Communication
• 30 points: SCIGEN 101, STATS 150
• 15 points from STATS 201, 208

Food Science and Nutrition
Not available for conjoint degree programmes
either of the following pathways
Food Science
• 105 points: BIOSCI 101, 106, CHEM 110, MEDSCI 142, PHYSICS 160
• 60 points: BIOSCI 201, 202, MEDSCI 200, 201
• 30 points: BIOSCI 348, MEDSCI 301, 306, 310
• 15 points: BIOMED 399

or
Nutrition
• 120 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, POPHLTH 111, STATS 108
• 105 points: BIOSCI 202, 203, EXERSCI 206, MEDSCI 200, MEDSCI 203, 205, POPHLTH 206
• 60 points: BIOSCI 358, MEDSCI 310, MEDSCI 315, POPHLTH 305
• 15 points from FOODSCI 301, MEDSCI 301, 312
• 15 points from BIOSCI 201, MEDSCI 301, POPHLTH 301, SCIGEN 201
• 15 points: FOODSCI 399

Green Chemical Science
Not available for conjoint degree programmes
• 75 points: BIOSCI 106, CHEM 110, 120, ENVSCI 101, PHYSICS 160
• 15 points from MATHS 108, 110, 120, 130, STATS 101, 108
• 15 points from BIOSCI 101, 109, EARTHSCI 120, GEOG 101, MEDSCI 142, SCIGEN 101, SUSTAIN 100
• 75 points: CHEM 251, 252, 253, 260, ENVSCI 201
• 15 points from BIOSCI 203, 204, 206, EARTHSCI 261, GEOPHYS 213, MEDSCI 204, SCIGEN 201, SUSTAIN 200
• 60 points: CHEM 351, 360, 397, ENVSCI 301
• 15 points from CHEM 301, 320, 330, 340, 380, 390, SUSTAIN 300
• 15 points from BIOSCI 333, 347, ENVSCI 303, MARINE 303, SCIGEN 301

Medicinal Chemistry
Not available for conjoint degree programmes
• 90 points: BIOSCI 101, 106, 107, CHEM 110, 120, MEDSCI 142
• 15 points from MATHS 108, 110, 130, PHYSICS 120, 160, STATS 101
• 90 points: BIOSCI 201, 203, CHEM 251, 253, MEDSCI 204, 205
• 15 points from BIOSCI 202, 204, CHEM 252, 260, MEDSCI 202, 203
• 60 points: CHEM 330, 390, 392, MEDSCI 318
• 15 points from BIOSCI 349, 351, 353, 355, 356, CHEM 320, 340, 351, 360, MEDSCI 319, 320
• 15 points: CHEM 398

Modules available:

Data Analysis
• 15 points from STATS 101, 106
• 15 points from STATS 201, 208
• 15 points from STATS 301, 330, 340

Exercising the Body and Mind
• 15 points: EXERSCI 105
• 15 points from EXERSCI 202, 204
• 15 points: EXERSCI 304

Innovation and Entrepreneurship
Requirement:
• 15 points from INNOVATE 100, 100G
• 30 points: INNOVENT 204, 308

Quantitative Critical Thinking and Communication
• 30 points: SCIGEN 101, STATS 150
• 15 points from STATS 201, 208
Science in Society
• 45 points: SCIGEN 101, 201, 301

Science Scholars
Only for Science Scholars students
• 15 points from MĀORI 130, 130G, PHIL 100, SCIGEN 101, 101G, SCISCHOL 100
• 30 points: SCISCHOL 202, 302

Software Development
• 45 points from COMPSCI 101, 130, 230, 235, 331

Spatial Data Analysis
• 30 points from GEOG 140, GISCI 241, 242
• 15 points from GISCI 341, 343

Studies in Food and Health
• 30 points: FOODSCI 100, 200
• 15 points from FOODSCI 301, EXERSCI 206

Studies in Urban Wellbeing
• 30 points: GEOG 104, SOCSCIPH 200
• 15 points from GEOG 305, 307, SOCSCIPH 300

Sustainability
• 45 points: SUSTAIN 100, 200, 300

The Degree of Bachelor of Advanced Science (Honours) – BAdvSci(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

2 The total enrolment in 700 level courses for this degree must not exceed 160 points.

Structure and Content
3 Of the 480 points required for this degree, a student must pass:
   a at least 420 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including
      (i) at least 300 points above Stage I, including at least 210 points above Stage II
      (ii) courses in a minimum of three subject codes
      (iii) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (iv) a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (v) the core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   c up to 30 points from courses available for other programmes offered at this University.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

5 a A student may include one or more modules from the modules available in the Bachelor of Science Schedule.
   b (i) One module from the Schedule of another degree may be included.
      (ii) If a module from the Schedule of another degree is completed, the courses will be counted under Regulation 3a.

6 A student must achieve a Grade Point Average of 5.0 or higher in each successive two semesters of full-time enrolment, or the part-time equivalent, taken towards this degree. If this Grade Point Average is not achieved, enrolment in the Bachelor of Advanced Science (Honours) cannot continue.

Dissertation / Research Project
7 a The dissertation or research project is to be carried out under the guidance of a supervisor appointed by the relevant Academic Head or nominee.
   b The dissertation or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The dissertation or research project is to be completed and submitted in accordance with the Completion
of Requirements and Submission regulations of the General Regulations – Bachelors Honours Postgraduate Degrees.

General Education Exemptions
8  a  A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points of degree level study at another tertiary institution.

b  A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

c  A student admitted to this degree having completed between 120 and 135 points of degree level study from another tertiary institution must pass:
   (i) 15 points from courses offered in the General Education Schedules and
   (ii) a further 15 points from courses available for this degree.

d  A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
9  In any course that includes assessed practical work as well as other assessed work, it may be required that a student must obtain passes in both the practical and the other work in order to pass that course as a whole. Where this is specified, a student who passes the practical work but who fails the other work may in these circumstances, at the discretion of the Academic Head, have the result for the practical work carried forward when the course is retaken.

Honours
10  a  Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b  The class of Honours is determined by the student’s overall grade in all 700 level courses enrolled in towards this degree as follows:

   - 7.0 to 9.0 - First Class Honours
   - 5.5 to 6.9 - Second Class Honours First Division
   - 4.0 to 5.4 - Second Class Honours Second Division
   - 3.9 and below - Third Class Honours

Conjoint Degrees
11  Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
12  a  In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiners as having reached a pass in an equivalent Stage I course(s), the student may be credited with the appropriate Stage I course(s).

b  If a student who is enrolled in and fails an advanced or accelerated Stage I course but is certified by the examiners as having reached a pass in an equivalent Stage I course in the same subject having a lower entry requirement, the student may be credited with the latter course. The relevant Academic Head shall certify to Senate or its representative that the failed course is an advanced or accelerated course.

Reassignment
13  A student may apply to reassign courses passed to the Postgraduate Diploma in Science and/or the Bachelor of Science.

Variations
14  In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15  These regulations and/or schedule have been amended with effect from 1 January 2021.
Bachelor of Advanced Science (Honours) (BAdvSci(Hons)) Schedule

**Requirement:**

Core Courses
- 15 points from SCIGEN 101, SCISCHOL 100, SUSTAIN 100, MĀORI 130
- 15 points from SCIGEN 201, SCISCHOL 202, SUSTAIN 200

- 30 points: CHEM 760, ENVSCI 714
- 75 points: CHEM 251, 252, ELECTENG 210, MATHS 260, 270, MECHENG 211, 242, MEDSCI 205, 206
- 30 points from PHYSICS 331–380
- 15 points from SCISCHOL 100, 202 and 302 are only available to Science Scholars students

**Specialisations:**

**Applied Physics**
- 45 points: MATHS 120, 130, PHYSICS 121
- 15 points: MATHS 250
- 15 points from MATHS 253, 260
- 45 points from PHYSICS 201, 202, 203, 244
- 15 points from CHEM 251, 252, ELECTENG 210, MATHS 260, 270, MECHENG 211, 242, MEDSCI 205, 206
- 30 points from PHYSICS 331–380
- 15 points from CHEM 310, 340, 380, ELECTENG 331, MATHS 340, 361–363, MECHENG 340, MEDSCI 309
- 15 points: PHYSICS 390
- 30 points from PHYSICS 701–780
- 30 points from CHEM 710, 740, 780, ELECTENG 726, 732, MATHS 761–770, MECHENG 711, 743, MEDSCI 703, 737
- a further 15 points from approved level courses
- 45 points: PHYSICS 786 Dissertation

**Chemistry**
- 30 points: CHEM 110, 120
- 15 points from MATHS 108, 110, 130, PHYSICS 120
- 60 points: CHEM 251–254
- 30 points: CHEM 351, 352
- 45 points from CHEM 310, 320, 330, 340, 360, 380, 390
- 60 points from CHEM 710–751, 760, 780
- 60 points: CHEM 793 Dissertation

**Computational Biology**
- 75 points: BIOSCI 101, 108 or 109, COMPSCI 120, 130, STATS 101
- 60 points: BIOSCI 202 or 203, COMPSCI 220, 225, BIOSCI 220 or STATS 201
- a further 15 points from any Stage II course in Biological Sciences
- 15 points: COMPSCI 369
- 15 points from STATS 330, 331
- 15 points from any Stage III course in Biological Sciences
- 15 points from Stage III courses in Biological Sciences, Computer Science, Mathematics, Statistics
- 45 points: BIOSCI 700, 701, 702
- 45 points from any 700 level course in Biological Sciences, Computer Science, Mathematics, Statistics
- 30 points: COMPSCI 789 Research Project

**Computer Science**
- 45 points: COMPSCI 110, 120, 130
- 60 points: COMPSCI 210, 220, 230, 289
- 15 points from COMPSCI 215, 225, 235
- 60 points from COMPSCI 313, 315, 316, 320, 331, 335, 340, 345, 350, 351, 367, 369, 373
- 15 points: COMPSCI 389
- 60 points from COMPSCI 701–710, 711, 715, 720, 725, 726, 727, 732, 734, 742, 747, 750–753, 760, 765, 767, 773
- 30 points from any relevant 700 level course with Head of Department approval
- 30 points: COMPSCI 789 Research Project

**Ecology**
- 75 points: BIOSCI 101, 108, 109, ENVSCI 101, STATS 101
- 75 points: BIOSCI 206, 210, 220, ENVSCI 201, 203
- 15 points from SCIGEN 201, SCISCHOL 202, SUSTAIN 200

**Environmental Change**
- 60 points: EARTHSCL 120, ENVSCI 101, GEOG 101, STATS 101
- 15 points from BIOSCI 109, CHEM 110
- 60 points from EARTHSCL 220, 261, 262, ENVSCI 201, GEOG 261, 262, MARINE 202
- 15 points from BIOSCI 220, EARTHSCL 203, 261, 262 ENVSCI 201, 203, GEOG 205, 261, 262, MARINE 202, GISCI 241
- 45 points: ENVCHG 300, GEOG 205, 234
- 30 points from BIOSCI 394, EARTHSCL 303, 307, 360, ENVSCI 301, 303, GEOG 320, 324, 325, 331, 351, 352, GISCI 341, MARINE 302
- 15 points from EARTHSCL 732, GEOG 730, 749
- 15 points from ENVMGMT 742, ENVSCI 704, 705, GEOG 748
- 60 points: ENVCHG 789 Dissertation

**Geology**
- 45 points: EARTHSCL 102, 120, GEOG 101
- 75 points: EARTHSCL 202, 203, 208, 220, 262
- 30 points: EARTHSCL 315, 320
- 45 points from EARTHSCL 303–372, 390
- 60 points from EARTHSCL 703–780, GEOPHYS 761
- 60 points: EARTHSCL 785 Dissertation

**Green Chemical Science**
- Not available for conjoint degrees

**Requirement:**
- 75 points: BIOSCI 106, CHEM 110, 120, ENVSCI 101, PHYSICS 160
- 15 points from MATHS 108, 110, 120, 130, STATS 101, 108
- 15 points from BIOSCI 101, 109, EARTHSCL 120, GEOG 101, MEDSCI 142
- 75 points: CHEM 251, 252, 253, 260, ENVSCI 201
- 15 points from BIOSCI 203, 204, 206, EARTHSCL 261, GEOPHYS 213, MEDSCI 204, SCIGEN 201
- 45 points: CHEM 351, 360, ENVSCI 301
- 15 points from CHEM 310, 320, 330, 340, 380, 390
- 15 points from BIOSCI 333, 347, ENVSCI 303, MARINE 303, SCIGEN 301
- 15 points from CHEM 310, 320, 330, 340, 380, 390, BIOSCI 333, 347, ENVSCI 303, MARINE 303, SCIGEN 301
- 30 points from CHEM 710–751, 780
- 30 points: CHEM 760, ENVSCI 714
- 60 points: CHEM 793 Dissertation

**Marine Science**
- 30 points: MARINE 100, STATS 101
- 15 points from BIOSCI 108, 109
- 15 points from GEOG 101, 140
- 15 points: MARINE 202
- 15 points from BIOSCI 220, ENVSCI 203, STATS 201
- 15 points from BIOSCI 206, 208, GEOG 262, GISCI 241
- 45 points from BIOSCI 328, 333, 334, EARTHSCI 303, 360, GEOG 351, MARINE 303
- 30 points: MARINE 701, 702
- 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
- 15 points from BIOSCI 724, 725, 727, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMT 742, 744, ENVSCI 702, 704, 714, FOODSCI 703, 708, GEOG 730, 748, 771, MARINE 703
- 60 points: MARINE 780 Dissertation

**Mathematics**
- 45 points: MATHS 120, 130, 162, 199
- 60 points: MATHS 250, 253, 254, 260
- 60 points: MATHS 320, 332, 340, 361
- 15 points from MATHS 362, 363
- 90 points from MATHS 701–789
- 30 points: MATHS 776 Research Project

**Physics**
- 45 points: MATHS 120, 130, PHYSICS 121
- 15 points: MATHS 250
- 15 points from MATHS 253, 260
- 60 points: PHYSICS 201, 202, 203, 245
- 60 points from PHYSICS 331–380
- 15 points: PHYSICS 390
- 75 points from PHYSICS 701–780
- 45 points: PHYSICS 786 Dissertation

**Psychology**
- 30 points: PSYCH 108, 109
- 15 points from STATS 100–125
- 45 points from PSYCH 200–209
- 30 points: PSYCH 306, 370
- 30 points from EXERSCI 304, PSYCH 300, 303, 305, 308–320, 326–328, THEOREL 314
- 15 points: PSYCH 744
- 75 points from PSYCH 700–770
- 15 points: PSYCH 779
- 30 points: PSYCH 780 Research Project

**Statistics**
- 15 points from STATS 101, 108
- 45 points: MATHS 120, 130, STATS 125
- 15 points from STATS 201, 208
- 30 points: MATHS 250, STATS 225
- 30 points: STATS 310, 325
- 30 points from ENGS 301, ENGS 302, 320, 326, 330, 331, 369, 370, 380
- 15 points from STATS 779, 782
- 45 points from STATS 701, 702, 703, 705, 708–720, 722–731, 737–773, 776–787
- 30 points from STATS 701, 702, 703, 705, 708–720, 722–731, 737–773, 776–787, or other approved 700 level courses offered by the faculty
- 30 points: STATS 781 Research Project

---

**The Degree of Bachelor of Science (Honours) – BSc(Hons)**

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the [Academic Statutes and Regulations](#).*

**Admission**

1. In order to be admitted to this degree, a student must have:
   a. completed the requirements for the Degree of Bachelor of Science from this University including at least 90 points above Stage II or the equivalent as approved by Senate or its representative
   and
   b. met the prerequisites for one of the specialisations listed in the Bachelor of Science (Honours) Schedule and attained a Grade Point Average of 5.0 or higher in 45 points above Stage II in the relevant prerequisite or equivalent.

2. A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed:
   a. courses with a total value of at least 345 points towards that degree including the requirements of the major as specified in the regulations for the Bachelor of Science
   and
   b. the Stage III entry requirements for this degree may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol for this degree.

   The requirements for the Bachelor of Science degree must be completed within 12 months of initial enrolment for the Bachelor of Science (Honours). The Bachelor of Science (Honours) will not be awarded until the requirements for the Bachelor of Science have been completed.

   *Note: Applicants to Preparatory Clinical Psychology must be able to demonstrate professional attributes suitable for becoming a clinical psychologist. A written supplementary application, personal references and an interview will normally be required.*

**Duration and Total Points Value**

3. A student enrolled for this degree must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4. The total enrolment for this degree must not exceed 160 points.
Structure and Content
5 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Bachelor of Science (Honours) Schedule.

6 A dissertation or research project between 30 and 60 points must be included. The total points value of the dissertation/research project and research preparation course in the subject must not exceed 60 points.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

Dissertation / Research Project
9 a The dissertation or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the relevant Academic Head or nominee.

b The dissertation or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The dissertation or research project is to be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
12 A student may apply to reassign courses passed to the Postgraduate Diploma in Science.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

Bachelor of Science (Honours) (BSc(Hons)) Schedule

Specialisations available:

Applied Mathematics
**Prerequisite:** A major in Mathematics, or its equivalent approved by the Academic Head or nominee, including MATHS 340, 361 and MATHS 362 or 363, or equivalent courses approved by the Academic Head or nominee
**Requirement:**
- at least 45 points from MATHS 761–770
- up to 45 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department
- 30 points: MATHS 776 Research Project

Bioinformatics
*The BSc(Hons) in Bioinformatics was suspended in 2020. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.*

**Prerequisite:** A major in Biological Sciences, or its equivalent approved by the Academic Head or nominee and COMPSCI 220 or an equivalent course approved by the Academic Head or nominee.
**Requirement:**
- 45 points: BIOINF 702, 704, BIOSCI 702
- 30 points from BIOSCI 733, 737, 752, 755–758, COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 761, 783, 784
- 45 points: BIOINF 789 Research Project

Biomedical Science
*The BSc in Biomedical Science was withdrawn in 2020.*

**Biotechnology**

**Prerequisite:** A major in Biotechnology, or its equivalent approved by the Academic Head or nominee.
**Requirement:**
- 30 points from BIOSCI 741, 752, 759
- 30 points: SCIENT 701, 703
- 15 points: BIOSCI 762
- 45 points: BIOTECH 788 Dissertation

Biological Sciences
**Prerequisite:** A major in Biological Sciences, or its equivalent approved by the Academic Head or nominee
**Requirement:**
- 15 points: BIOSCI 762

Chemistry
**Prerequisite:** A major in Chemistry, or its equivalent approved by the Academic Head or nominee
**Requirement:**
- 60 points from CHEM 700–702, 724–746, 749–761
- 45 points from BIOSCI 700–702, 724–759 and a further 15 points, subject to approval by the Academic Head or nominee, from 700 level courses in a related subject
- 45 points: BIOSCI 788 Dissertation

- or
- 60 points from CHEM 710–780
- 45 points from CHEM 710–780
- 15 points from approved 700 level courses offered at this University
- 60 points: CHEM 793 Dissertation
Computer Science
Prerequisite: A major in Computer Science, or its equivalent approved by the Academic Head or nominee
Requirement:
• at least 60 points from BIOSCI 700, COMPSCI 701–716, 720–777
• up to 30 points from 700 level courses in a related subject with approval of the Head of Department
• 30 points: COMPSCI 789 Research Project

Earth Sciences
Prerequisite: A major in Earth Sciences, Geography, Geology, or its equivalent approved by the Academic Head or nominee including 45 points at Stage III in Earth Sciences or Geology or GEOG 330, 331, 334, 351, 360 or equivalent courses approved by the Academic Head or nominee
Requirement:
• at least 60 points from EARTHSCI 703–780, GEOG 730, 745, 746, 749, 770–772, GEOPHYS 760, 761
• up to 30 points from 700 level courses as approved by the Programme Coordinator
• 30 points: EARTHSCI 789 Research Project

Exercise Sciences
Prerequisite: A major in Exercise Sciences, or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: EXERSCI 705
• at least 30 points from EXERSCI 702–704, 706–714 and up to 30 points from approved 700 level courses offered at this University
• 45 points: EXERSCI 780 Dissertation

Food Science
Prerequisite: A specialisation in Food Science and Nutrition (Food Science Pathway) or its equivalent approved by the Academic Head or nominee
Requirement:
• at least 30 points from CHEMMAT 757, FOODSCI 706–710
• up to 30 points from MEDSCI 709, 710, BIOSCI 741 or other courses approved by Programme Director
• 60 points: FOODSCI 788 Dissertation

Geography
Prerequisite: A major in Earth Sciences or Geography, or its equivalent approved by the Academic Head including 45 points at Stage III in Geography or equivalent courses approved by the Academic Head or nominee
Requirement:
• 15 points: GEOG 701
• at least 60 points from EARTHSCI 705, 713, 732, ENVMTG 741–762, ENVSCI 704, 713, 737, 718, GEOG 712–779
• up to 15 further points, subject to approval by the Academic Head
• 30 points: GEOG 789 Research Project

Geophysics
Prerequisite: A major in Geophysics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points from EARTHSCI 714, 746, GEOPHYS 711–713, 761, PHYSICS 743
• 45 points from approved 600 or 700 level courses in Earth Sciences, Geophysics, Mathematics or Physics, or other Science subjects approved by the Head of Department
• 30 points: GEOPHYS 789 Research Project

Green Chemical Science
Prerequisite: A major or specialisation in Chemistry or Green Chemical Science, or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director
Requirement:
• 90 points in 700 level Mathematics courses
• 30 points: MATHS 776 Research Project
• 15 points from PHYSICS 726, 752

Mathematics
Prerequisite: A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332
Requirement:
• 15 points from COMPSCI 720, 750, 760, 767
• 15 points from PHIL 736–738
• 60 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738
• 30 points: LOGICOMP 782 Research Project

Medical Physics and Imaging Technology
Prerequisite: A major in Physics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points: MEDSCI 703, 737, PHYSICS 780
• 15 points: PHYSICS 743
• 15 points from MEDSCI 701–740, PHYSICS 703–780, 791, 792
• 45 points: PHYSICS 787 Dissertation

Medicinal Chemistry
Prerequisite: A specialisation in Medicinal Chemistry or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: CHEM 735
• 45 points from CHEM 710–780, BIOSCI 757, 759, MEDSCI 700, 708, 715, 716, 721, 722
• 60 points: CHEM 793 Dissertation

Medicine
Prerequisite: A major in Pharmacology or its equivalent approved by the Academic Head or nominee
Requirement:
• either
  • 60 points from MEDSCI 700, 701, 715–723, 744, 745 or
  • 45 points from MEDSCI 700, 701, 715–723, 744, 745
• 15 points from 700 level courses in a related subject approved by the Head of Department
• 60 points: PHARMCOL 787 Dissertation

Photonics
Prerequisite: A major in Physics or its equivalent approved by the Academic Head or nominee including ELECTENG 209, 210, 303 or equivalent courses approved by the Academic Head or nominee
Requirement:
• 15 points from PHYSICS 726, 752
• at least 15 points from ELECTENG 726, 732, PHYSICS 743
• up to 45 points from other 600 or 700 level courses in Physics or related subjects approved by the Head of Department
• 45 points: PHYSICS 787 Dissertation

Physics
Prerequisite: A major in Physics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points from PHYSICS 703–780
and either
• a further 45 points from GEOPHYS 761–780, MATHS 720, 725, 761–770, PHYSICS 703–780, 791, 792
• up to 30 points from other approved 700 level courses offered at this University
• 30 points: PHYSICS 789 Research Project

Psychology
Prerequisite: A major in Psychology or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points from PHYSICS 703–780
and either
• a further 45 points from GEOPHYS 761–780, MATHS 720, 725, 761–770, PHYSICS 703–780, 791, 792
• up to 30 points from other approved 700 level courses offered at this University
• 30 points: PHYSICS 789 Research Project

The Degree of Master of Data Science – MDataSci
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   a (i) the Degree of Bachelor of Science in Data Science from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Science with a double major in Computer Science and Statistics from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b (i) the Degree of Bachelor of Science with a major in Computer Science or Statistics from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   (ii) COMPSCI 130, MATHS 108, and STATS 101 or equivalent courses approved by the Academic Head or nominee.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment in this degree.
3 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment in this degree.
Structure and Content
4 a A student enrolled for this degree must complete the requirements as listed in the Master of Data Science Schedule.

b A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses prior to enrolment in DATASCI 792. If this Grade Point Average is not achieved, enrolment in the Master of Data Science cannot continue.

c A student who has to complete 240 points must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses prior to enrolment in DATASCI 792. If this Grade Point Average is not achieved, enrolment in the Master of Data Science cannot continue.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
6 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
7 A student who does not achieve the Grade Point Average specified in Regulation 4 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Data Science (MDataSci) Schedule

A student who has to complete 180 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Taught Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>60 points: COMPSCI 752, 760, STATS 763, 769</td>
</tr>
<tr>
<td>at least 15 points from STATS 705, 730, 783, 784, 787</td>
</tr>
<tr>
<td>at least 15 points from COMPSCI 711, 720, 734, 750, 753</td>
</tr>
<tr>
<td>up to 45 points from COMPSCI 705, 715, 732, 761, 765, 767, ENGSCI</td>
</tr>
</tbody>
</table>

A student who has to complete 240 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Taught Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>60 points from COMPSCI 717, 751, 762, STATS 707, 762, 765, 782, or other approved 700 level courses offered at this University</td>
</tr>
<tr>
<td>60 points: COMPSCI 752, 760, STATS 763, 769</td>
</tr>
<tr>
<td>at least 15 points from STATS 705, 730, 783, 784, 787</td>
</tr>
<tr>
<td>at least 15 points from COMPSCI 711, 720, 734, 750, 753</td>
</tr>
</tbody>
</table>

<p>| |</p>
<table>
<thead>
<tr>

The Degree of Master of Environmental Science – MEnvSci

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   a the Degree of Bachelor of Science from this University with a Grade Point Average of at least 5.0 or higher in 75 points above Stage II in Environmental Science, or the equivalent as approved by Senate or its representative and
b any prerequisites for the courses in the subject area in which they wish to enrol.

Note: Relevant subjects may include environmental science, geography, biology, chemistry, earth sciences and geology.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Environmental Science Schedule.

5 A student must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses in order to enrol in ENVSCI 794.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Project
7 a The thesis or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The thesis or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Environmental Science.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Information Technology – MInfoTech
This qualification is awarded jointly by the University of Auckland and the University of Waikato.
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a a Bachelors Honours degree from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage III, including at least 45 points in an IT related field at postgraduate level, or the equivalent as approved by Senate or its representative
or
b  (i) a Bachelors degree from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III or above, including at least 45 points in an IT related field, or the equivalent as approved by Senate or its representative
or
(ii) (a) a Bachelors degree from this University, or an equivalent degree qualification as approved by Senate or its representative
and
(b) the Postgraduate Certificate in Information Technology from this University with a Grade Point Average of 4.5 or higher, or the equivalent
or
c a Bachelors degree from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III or above, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points and
   b complete within two semesters if enrolled full-time or eight semesters if enrolled part-time and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points and
   b complete within three semesters if enrolled full-time and 12 semesters if enrolled part-time and
   c not exceed 220 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1c must:
   a pass courses with a total value of 240 points and
   b complete within four semesters if enrolled full-time and 12 semesters if enrolled part-time and
   c not exceed 280 points for the total enrolment for this degree.

6 Unless approval has been granted by Senate or its representative to complete under Regulation 3 or 4, a student admitted to this degree under Regulation 2 must:
   a pass courses with a total value of 240 points and
   b complete within four semesters if enrolled full-time and 12 semesters if enrolled part-time and
   c not exceed 280 points for the total enrolment for this degree.

Structure and Content

7 A student enrolled for this degree must complete the requirements as listed in the Master of Information Technology Schedule.

8 A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken for this degree prior to enrolment in COMPSCI 778. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

9 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses taken for this degree prior to enrolment in COMPSCI 778. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

10 A student who has to complete 240 points must achieve a Grade Point Average of 4.5 or higher in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

11 A student who has to complete 240 points must achieve a Grade Point Average of 4.0 or higher in the first 180 points of taught courses taken for this degree prior to enrolment in COMPSCI 778. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.
12 A student who has previously passed any courses the same as, or similar to, the courses required for this degree must substitute an alternative course(s) approved by the Director of the ICT Graduate School.

13 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
14 A student who does not achieve the Grade Point Average specified in Regulations 8, 9, 10 or 11 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Information Technology or Postgraduate Certificate in Information Technology.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
16 a This degree may be awarded with Honours where a student’s overall grade is sufficiently high. There are two classes of honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b Where the requirements for the degree have not been completed in accordance with the time limits specified in Regulations 3, 4, 5 and 6, the student’s eligibility for Honours will lapse. However, on the recommendation of the Head of Department, Senate or its representative may approve the retention of eligibility for Honours.

c The calculation for the overall grade to determine the award of Honours will include the grades given for all courses attempted in the degree. For the purposes of grade or mark calculation, Withdrawn, Did Not Sit and Did Not Complete will count as zero.

Amendment
17 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Marine Conservation – MMarineCons

The regulations for this programme are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must:

   either

   a have completed the requirements for a Bachelors degree with a Grade Point Average of 4.0 or higher in 75 points above Stage II including at least 45 points in a relevant subject, or the equivalent as approved by Senate or its representative
or
b (i) have completed the requirements for a Bachelors degree with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
and
(ii) have at least three years of relevant professional experience approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of scholarly experience deemed equivalent to the requirements in Regulation 1a, and extensive, relevant, practical, or professional experience.

Note: Relevant subjects may include biology and marine ecology, conservation biology, environmental management, environmental law, environmental policy and social science.

Duration and Total Points Value
3 A student enrolled for this degree must:
  a pass courses with a total value of 180 points
  and
  b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 220 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Marine Conservation Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project / Thesis
7 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The research project or thesis topic must be approved by the Academic Head or nominee prior to enrolment.

c The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Marine Science.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Marine Studies – MMarineSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of
Bachelor of Science from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Marine Studies Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation / Thesis
6 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The research project or thesis topic must be approved by the Academic Head or nominee prior to enrolment.

   c The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
7 A student may apply to reassign courses passed to the Postgraduate Diploma in Science in Marine Science.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Organisational Psychology – MOrgPsych

The regulations for this programme are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:

   either
   a (i) completed the requirements for the Degree of Bachelor of Arts with a major in Psychology, Bachelor of Science with a major in Psychology, Graduate Diploma in Arts in Psychology, Graduate Diploma in Science in Psychology, or Graduate Diploma in Applied Psychology from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II in Psychology, or the equivalent as approved by Senate or its representative

   or
   (ii) completed the requirements for a Bachelors degree or Graduate Diploma from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by the Senate or its representative
1 In order to be admitted to this degree, a student must have:
   either
   a (i) completed the requirements for the Degree of Bachelor of Science from this University with a Grade
Point Average of 5.0 or higher in 75 points above Stage II including at least 45 points in the prerequisite subject for the specialisation in which they intend to enrol, or the equivalent as approved by Senate or its representative

or

(ii) completed the requirements for the Degree of Bachelor of Optometry with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or

b (i) completed the requirements for the Degree of Bachelor of Science (Honours) from this University with a Grade Point Average of 5.0 or higher in 90 points in the prerequisite subject for a specialisation in which they intend to enrol, or the equivalent as approved by Senate or its representative

or

(ii) completed the requirements for the Postgraduate Diploma in Science from this University with a Grade Point Average of 5.0 or higher in 90 points in the prerequisite subject for the specialisation in which they intend to enrol including at least 75 points of 700 level courses, or the equivalent as approved by Senate or its representative

or

(iii) completed the requirements for the Postgraduate Diploma in Forensic Science with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

2 Students must have completed any prerequisite courses relevant to the specialisation in which they intend to enrol prior to admission to this degree.

3 Students applying for the Optometry specialisation must be registered with the Optometrists and Dispensing Opticians Board and hold a current practising certificate.

4 a A student who has not completed all the requirements of the Degree of Bachelor of Science but who has passed:

(i) 345 points towards that degree

and

(ii) at least 45 points above Stage II in the prerequisite subject with a Grade Point average of 5.0 or higher and the prerequisite courses for the specialisation in which they intend to enrol may, with the approval of the relevant Academic Head or nominee, be admitted to this degree. The requirements for the Degree of Bachelor of Science must be completed within 12 months of initial enrolment for the Degree of Master of Science. Should these requirements not be completed within this period, enrolment in further courses required for the Degree of Master of Science will not be permitted.

b A student who has not completed all the requirements of the Degree of Bachelor of Science (Honours), Postgraduate Diploma in Science, or Postgraduate Diploma in Forensic Science but who has:

(i) completed 105 points towards the Degree of Bachelor of Science (Honours), Postgraduate Diploma in Science or the Postgraduate Diploma in Forensic Science from this University

and

(ii) met all other relevant entry requirements listed in 1b may, with the approval of the relevant Academic Head or nominee, be admitted to this degree. The requirements for the Degree of Bachelor of Science (Honours), Postgraduate Diploma in Forensic Science or Postgraduate Diploma in Science must be completed within 12 months of initial enrolment for the Degree of Master of Science. Should these requirements not be completed within this period, enrolment in further courses required for the Degree of Master of Science will not be permitted.

5 In exceptional circumstances Senate or its representative may approve the admission of a student who has completed the requirements for the Degree of Bachelor of Science from this University, or an equivalent qualification with significant relevant professional scientific experience.

Note: Equivalent qualifications may include the Degree of Bachelor of Arts, Bachelor of Commerce, Bachelor of Engineering (Honours), or Bachelor of Urban Planning.

Duration and Total Points Value

6 A student admitted to this degree under Regulation 1a or 4a must:

a pass courses with a total value of 240 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 280 points for the total enrolment for this degree.

7 A student admitted to this degree under Regulation 1b, 4b, or 5 must:

a pass courses with a total value of 120 points

and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment for this degree.

Structure and Content
8 A student enrolled for this degree must complete the requirements for one of the subjects as listed in the Master of Science Schedule.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Portfolio / Dissertation
10 a A thesis, research portfolio, or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b (i) The thesis or dissertation topic for the 120 point MSc must be approved by the relevant Departmental Postgraduate Committee prior to enrolment in the degree.
(ii) The thesis or dissertation topic for the 240 point MSc must be approved by the relevant Departmental Postgraduate Committee prior to enrolment in the thesis or dissertation.

c A student who has to complete 240 points for this degree and whose programme includes a thesis, research portfolio or dissertation needs, before enrolment for the thesis, research portfolio or dissertation, to obtain a Grade Point Average of 5.0 or higher in 90 points selected from the first 120 points passed in the taught component of the degree. If this is not achieved, the courses passed will be reassigned to the Postgraduate Diploma in Science for all specialisations except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

d A student who has passed at least 105 points but fewer than 120 points of a 240 point degree and obtained a Grade Point Average of 5.0 or higher in 90 points may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol in the thesis, research portfolio or dissertation. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Science for all specialisations except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

e The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
11 A student who does not meet the requirements of this degree may apply to reassign courses passed for the Master of Science to the Postgraduate Diploma in Science for all subjects except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours / Distinction / Merit
13 This degree may be awarded with either Honours, Distinction, or Merit in accordance with the General Regulations – Masters Degrees.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Science (MSc) Schedule
A student who has to complete 120 points must satisfy the requirement for one of the following specialisations:

<table>
<thead>
<tr>

Mathematics
Prerequisite subject: Mathematics or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: MATHS 796 Thesis in Mathematics
or
• 30 points from MATHS 701–789, or approved 700 level courses in related subjects with the approval of the Head of Department
• 90 points: MATHS 798 Research Portfolio in Mathematics

Medical Statistics
Prerequisite: Prerequisite: A BSc/BA(Hons) in Statistics or PGDipSci in Statistics or Medical Statistics or an equivalent subject approved by the Academic Head or nominee, with an average of 4.0 (taught) or 5.5 (research) or higher or equivalent approved by the Academic Head or nominee
Requirement:
Taught Masters
• 30 points: STATS 768, 780
• 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
• 30 points from POPHLTH 707–709, 711, 767, STATS 701–703, 705, 708–731, 735–767, 769–779, 782–787, or other 700 level courses offered at this University approved by the Academic Head or nominee
• 45 points: STATS 793 Dissertation

Optometry
Prerequisite subject: Optometry or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: OPTOM 796 MSc Thesis in Optometry
Taught Masters
• 90 points: OPTOM 791
• 30 points: OPTOM 757

Pharmacology
Prerequisite subject: Pharmacology or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: PHARMCOL 796 MSc Thesis in Pharmacology

Physics
Prerequisite subject: Physics or an equivalent subject approved by the Academic Head or nominee

A student who has to complete 240 points must satisfy the requirement for one of the following specialisations:

Applied Mathematics
Prerequisite subject: Applied Mathematics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• at least 60 points from MATHS 761–770
• up to 60 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department
• 120 points: MATHS 795 MSc Thesis in Applied Mathematics

Bioinformatics
The MSc in Bioinformatics was suspended in 2020. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

Prerequisite subject: Bioinformatics or Biological Sciences, or an equivalent subject approved by the Academic Head or nominee including COMPSCI 220 or an equivalent course approved by the Academic Head or nominee
Requirement:
Research Masters
• 60 points: BIOSCI 700–702, 761
• 60 points from BIOSCI 733, 737, 752, 755–758, COMPSCI 715, 720,
Biological Sciences

Prerequisite subject: Biological Sciences or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 15 points: BIOSCI 761
- at least 75 points from BIOSCI 700–702, 724–746, 749–761
- up to 30 points from approved 700 level courses in a related subject
- 120 points: BIOSCI 796 MSc Thesis in Biological Sciences

Biomedical Science

The MSc in Biomedical Science was withdrawn in 2020.

Biosecurity and Conservation

Prerequisite subject: Biosecurity or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 15 points: BIOSCI 761 or ENVSCI 701
- 45 points: BIOSCI 747, 748, ENVSCI 733
- at least 30 points from BIOSCI 724, 730, 735, 751, ENVMGT 743, 746, ENVSCI 716, 737
- up to 30 points from approved 700 level courses in the Faculty of Science
- 120 points: BIOSEC 796 MSc Thesis in Biosecurity and Conservation

Chemistry

Prerequisite subject: Chemistry or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 15 points: CHEM 795
- at least 75 points from CHEM 710–780
- up to 30 points from 700 level courses in Chemistry or related subjects with approval of the Head of School
- 120 points: CHEM 796 MSc Thesis in Chemistry

Clinical Exercise Physiology

Prerequisite subject: Exercise Sciences or an equivalent subject approved by the Academic Head or nominee

Requirement:

Taught Masters

- 90 points: EXERSCI 703, 705, 710, 712, 771, 772
- 30 points from approved 700 level courses in the Faculty of Science or the Faculty of Medical and Health Sciences
- 75 points: EXERSCI 773, 774, 775
- 45 points: EXERSCI 792 Dissertation

Computer Science

Prerequisite subject: Computer Science or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- at least 90 points from COMPSCI 701–716, 720–780
- up to 30 points from 700 level courses in a related subject with approval of the Head of Department
- 120 points: COMPSCI 796 MSc Thesis in Computer Science

Earth Sciences

Prerequisite subject: Applied Geology, Earth Sciences, Geography, Geology, or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- at least 60 points from EARTHSCI 703–780, GEOG 730, 745, 746, 749, 770–772, GEOPHYS 760, 761
- up to 30 points from 700 level courses as approved by the Programme Coordinator
- 120 points: EARTHSCI 796 MSc Thesis in Earth Sciences

Environmental Management

Requirement:

Research Masters

- 15 points: GEOG 701
- at least 60 points from ENVMGT 741–747
- up to 45 points from 700 level courses as approved by the Programme Coordinator
- 120 points: ENVMGT 796 MSc Thesis in Environmental Management

Exercise Sciences

Prerequisite subject: Exercise Sciences or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 15 points: EXERSCI 705
- at least 75 points from EXERSCI 702–704, 706–714
- up to 30 points from other 700 level courses as approved by the Head of Department
- 120 points: EXERSCI 796 MSc Thesis in Exercise Sciences

Food Science

Prerequisite subject: Food Science and Nutrition (Food Science pathway) or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 60 points from FOODSCI 703, 707, 708, CHEMMAT 757
- 60 points from approved 700 level courses
- 120 points: FOODSCI 796 MSc Thesis in Food Science

Forensic Science

Prerequisite subject: Forensic Science or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 105 points from FORENSIC 701–704, 706–708
- 15 points from 700 level courses as approved by the Programme Director
- 120 points: FORENSIC 796 MSc Thesis in Forensic Science

Geography

Prerequisite subject: Geography or an equivalent subject approved by the Academic Head or nominee

Requirement:

Research Masters

- 15 points: GEOG 701
- at least 75 points from EARTHSCI 705, 713, 732, ENVMGT 741–746, ENVSCI 704, 713, 737, 738, GEOG 712–779
- up to 30 additional points from other 700 level courses in a related subject
- 120 points: GEOG 796 MSc Thesis in Geography
subject as approved by the Academic Head
• 120 points: GEOG 796 Masters Thesis in Geography

Geophysics
Prerequisite subject: Geophysics or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points from GEOPHYS 711–713, 761
• 90 points from 700 level courses in Earth Sciences, Geophysics, Mathematics, Physics or other Science subjects approved by the Programme Coordinator
• 120 points: GEOPHYS 796 MSc Thesis in Geophysics

Green Chemical Science
Prerequisite: A major or specialisation in Chemistry or Green Chemical Science or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director
Research Masters
Requirement:
• 75 points from CHEM 710–751, 780
• 45 points: CHEM 760, 795, ENVSCI 714
• 120 points: CHEM 796 Thesis

Logic and Computation
Prerequisite subject: Logic and Computation or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 15 points from COMPSCI 720, 750
• 15 points from PHIL 736–738
• 90 additional points from LOGICOMP 701, 702, COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, MATHS 713, 715, PHIL 736–738
• 120 points: LOGICOMP 796 Thesis

Marine Science
Requirement:
Research Masters
• 15 points: MARINE 701
• 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
• 90 points from the following 700 level courses including at least two of the following subject areas: BIOSCI 724–727, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMGT 742, 744, ENVSCL 702, 704, 714, FOODSCI 703, 708, GEOG 730, 746, 748, 771, GEOPHYS 711–713, 761, MARINE 702–705, STATS 767, or other courses approved by the Programme Coordinator
• 120 points: MARINE 796 MSc Thesis in Marine Science

Mathematics
Prerequisite: A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332
Requirement:
Research Masters
• at least 75 points in 700 level Mathematics courses
• up to 45 points from approved 700 level courses in Mathematics or related subjects, with the approval of the Head of Department and either
• 120 points: MATHS 796 Thesis in Mathematics
or
30 points from MATHS 701–789, 792–797 or 700 level courses in related subjects as approved by the Head of Department
90 points: MATHS 798 Research Portfolio in Mathematics

Medical Statistics
Prerequisite: A major in Statistics including STATS 210 or STATS 225, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 75 points: POPLHLTH 708, STATS 768, 770, 773, 780
• 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
• 15 points from STATS 779, 782
• at least 60 points from POPLHLTH 707, 709, 711, 767, STATS 701–703, 705, 708–711, 735–767, 769–779, 782–787
• up to 30 points from 700 level courses offered at this University approved by the Academic Head or nominee
• 45 points: STATS 793 Dissertation

Optometry
Prerequisite subject: Optometry or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters either
• 120 points from OPTOM 751, 752, 757, 759
or
at least 90 points from OPTOM 751, 752, 757, 759 and up to 30 points from 700 level courses in a related subject as approved by the Head of School
• 120 points: OPTOM 796 MSc Thesis in Optometry

Pharmacology
Prerequisite subject: Pharmacology or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• at least 60 points from MEDSCI 701, 701, 715–723, 735, 744, 745
• up to 60 points from other 700 level courses as approved by the Head of Department
• 120 points: PHARMCOL 796 MSc Thesis in Pharmacology

Physics
Prerequisite subject: Physics or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 75 points from PHYSICS 701–788 and either
• 45 additional points from PHYSICS 701–788, MATHS 761–763, GEOPHYS 761–780
or
at least 15 additional points from PHYSICS 701–788, MATHS 761–763, GEOPHYS 761–780 and up to 30 points from approved 700 level courses in related subjects as approved by the Head of Department
• 120 points: PHYSICS 796 MSc Thesis in Physics

Physiology
Prerequisite subject: Physiology or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points: MEDSCI 733, 743
• 90 points from MEDSCI 701–703, 717, 727–734, 737, 739, 744
• 120 points: PHYSIOL 796 MSc Thesis in Physiology
Psychology
Prerequisite subject: Psychology or an equivalent subject approved by the Academic Head or nominee including PSYCH 306 or an equivalent course approved by the Academic Head or nominee

Requirement:
Research Masters
either
• at least 105 points from INDIGEN 712, PSYCH, 700–770, 775–778
• up to a further 15 points from other approved 600 or 700 level courses offered at this University
• 120 points: PSYCH 796 Thesis in Psychology

Speech Science
Prerequisite subject: Speech Science or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 60 points from SPCHSCI 701, 711–713, 722, 723, 733, 736, 743, 746, 751–754
• 60 points from other approved 700 level courses in Audiology, Computer Science, Engineering, Linguistics, Psychology, Physiology, Speech Science
• 120 points: SPCHSCI 796 MSc Thesis in Speech Science

Statistics
Prerequisite subject: Statistics or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
• 15 points from STATS 779, 782
• at least 90 points from POPHLTH 707–709, 711, STATS 701–787
• up to 30 points from approved 700 level courses offered at this University
• 90 points: STATS 798 Thesis

Taught Masters
• 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
• 15 points from STATS 779, 782
• at least 150 points from POPHLTH 707–709, 711, STATS 701–787
• up to 15 points from another approved 700 level course offered at this University
• 45 points: STATS 793 Dissertation

Wine Science
Prerequisite subject: Wine Science or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• at least 75 points from WINESCI 701–708
• up to 45 points from approved 700 level courses in Biological Sciences, Chemical and Materials Engineering, Chemistry, Food Science or Geography as approved by the Programme Director
• 120 points: WINESCI 796 MSc Thesis in Wine Science

The Degree of Master of Speech Language Therapy Practice – MSLTPrac

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
a completed the requirements for a Bachelor's degree from this University including 60 points above Stage II in a relevant subject area(s) with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
and
b demonstrated in accordance with the approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking a qualification as a speech-language therapist. This may require an interview, submission of a supplementary information form and confidential letters of reference.

2 An applicant who has previously been awarded a degree in speech language therapy or the equivalent will not be admitted.

Note: Relevant subject areas may include education, health sciences, linguistics, physiology, psychology.

Duration and Total Points Value
3 A student enrolled for this degree must:
a pass courses with a total value of 240 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Speech Language Therapy Practice Schedule.

6 a A student may not enrol for Part II until Part I has been completed, unless special approval is given by the Dean of Science or representative.

b A student who has previously passed courses from another programme that are substantially similar to any one of the courses required under Regulation 5 above may, with the approval of the Dean of Science or representative, be required to take alternative 700 level courses from the subject Speech Science or other approved 700 level courses.
c Where a student is required to take additional courses as a condition of enrolment for Part I, under Regulation 2 above, those courses:
   (i) are to be taken for Certificates of Proficiency
   and
   (ii) are to be passed within 12 months of initial enrolment for this degree.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical and Clinical Requirements
8 A student is required to pass the clinical and practical requirements of the Speech Language Therapy Practice courses to the satisfaction of Senate or its representative.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Termination of Enrolment
10 a If the behaviour of a student in a clinical environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes, clinics and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 9a may appeal that decision to the Council or its duly appointed delegate.

Honours
11 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Wine Science – MWineSci

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of Bachelor of Science in a relevant subject from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Relevant subjects may include biology, chemistry, chemical and materials engineering, earth sciences, environmental science, food science, geography, or geology.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Wine Science Schedule.

5 A student must achieve a Grade Point Average of 5.0 or higher in at least 60 points of taught courses in order to enrol in WINESCI 792.
6 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project
7 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The research project topic must be approved by the relevant Academic Head or nominee prior to enrolment in WINESCI 792.

c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Wine Science.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Commencement
11 These regulations came into force on 1 January 2021.

The Degree of Doctor of Clinical Psychology – DClinPsy

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the General Regulations for Named Doctorates and the Academic Statutes and Regulations.

Preamble
1 a A candidate for the Degree of Doctor of Clinical Psychology is required to pursue an approved programme of advanced study, research and clinical practice as an enrolled student of the University.

b It is expected that this programme will normally be completed within three years of full-time candidature.

c The Degree of Doctor of Clinical Psychology is awarded for a formal and systematic exposition of a coherent programme of advanced research work and supervised practice, carried out over the period of registration for the degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies all of the following criteria:

(i) that the research thesis is an original contribution to knowledge, and is of direct relevance to the field of clinical psychology

and

(ii) that the research components of the degree (thesis and clinical research projects) meet internationally recognised standards for such work

and

(iii) that the candidate has demonstrated both the knowledge of the relevant literature, in both research and clinical practice, and the ability to exercise analytical and professional judgement.

d A Doctor of Clinical Psychology thesis may not exceed 60,000 words in total without the permission of the Board of Graduate Studies.

e If the core of the thesis comprises a series of published or unpublished research papers, the candidate must be the lead or sole author of each paper and must provide a contextual framework and concluding discussion. The range and focus of this material shall generally correspond with the introductory and concluding chapters of a thesis. The thesis must be presented in a consistent format, citation style and typeface.

f If the core of the thesis does not comprise a series of published or unpublished research papers, a candidate may still include within their thesis published or unpublished research papers, provided that the candidate
was the lead or sole author of each paper. The thesis must be presented in a consistent format, citation style and typeface.

g In the case of published or unpublished research papers that the candidate has contributed to but is not the sole or lead author of, the candidate may report in the thesis their contribution to the research with due reference to the original paper. The thesis must be presented in a consistent format, citation style and typeface.

h All material that is not the original work of the author must:
   (i) be fully and appropriately attributed
   or
   (ii) if a substantial part of another work, be reproduced only with the written permission of the copyright owner of that other work.

i The Portfolio of Clinical Research may not exceed 25,000 words in total and will consist of five separate reports with the maximum word limit of 5000 words for each.

j All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility

2 In order to be admitted to this doctoral degree, candidates must have:
   a (i) completed the requirements for the Degree of Bachelor of Arts (Honours) or Bachelor of Science (Honours) in Psychology from this University with a Grade Point Average of 6.0 or higher
   or
   (ii) completed the requirements for the Degree of Master of Arts or Master of Science in Psychology from this University with a Grade Point Average of 6.0 or higher
   or
   (iii) an equivalent qualification in Psychology with a Grade Point Average of 6.0 or higher as approved by the Board of Graduate Studies
   and
   b (i) passed PSYCH 708, 718, 723, 779 with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   and
   (ii) passed PSYCH 780 with a Grade Point Average of 6.0 or higher, or the equivalent as approved by Senate or its representative
   and
   c demonstrated in accordance with the approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking to be a Doctor of Clinical Psychology. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

3 Candidates must continue to meet the requirements of the Health Practitioners Competence Assurance Act (2003) for Professional and Ethical behaviour.

Admission

4 Every candidate for the Degree of Doctor of Clinical Psychology must have applied for admission and been admitted to the University of Auckland.

Duration and Total Points Value

5 a A candidate for this degree must follow a programme consisting of three full-time years, and pass an approved programme with a total value of 360 points.

b Candidates must pass each part, and must normally complete the requirements for this degree within three years from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 9 of these regulations.

Registration

6 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.

b The following provisional goals are required for all candidates for this degree:
   (i) completion of PSYCH 801 and PSYCH 897 Part I
   (ii) completion of a full thesis research proposal for PSYCH 899 Thesis to the satisfaction of the appropriate postgraduate committee
   (iii) completion of a literature review and method section to the satisfaction of the academic unit or nominee
   (iv) ethics approval(s) and/or permissions obtained for the research
   (v) commence data collection
(vi) completion of the standard goals relating to induction, English language, academic integrity and health and safety prescribed by the Board of Graduate Studies upon commencement of the registration.

c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

Structure and Content
7 a Of the 360 points required for this degree, a student must pass Parts I, II and III, as listed in the Doctor of Clinical Psychology Schedule.

Note that PSYCH 897 and 899 are awarded only on completion of the whole programme.

b (i) A student who fails any course or part of a course of the programme, may be required to repeat that part or course or to sit a special examination before proceeding into the next part of the programme.

(ii) A student must complete PSYCH 801 before enrolment in PSYCH 802, and must complete PSYCH 802 before enrolment in PSYCH 803.

(iii) A student who fails any part of the programme may be declined permission to enrol again in that part of the programme or, under Regulation 4g of the General Regulations for Named Doctorates, be declined permission to enrol in the programme as a whole.

Reviews of Registration
8 Reviews of registration will be made each year in accordance with Regulation 3 of the General Regulations for Named Doctorates, except that Regulation 3c(ii) will not apply. Instead, candidates may be confirmed subject to specified conditions.

Changes to the Conditions of Registration
9 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees
10 Enrolment and fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Submission
11 a All candidates are initially required to submit one copy of the thesis and the Portfolio of Clinical Research in temporary binding and one electronic copy in pdf format of the thesis and the Portfolio of Clinical Research to the Graduate Centre. Copies should include the following statement to examiners on the first page:

“This thesis and portfolio are for examination purposes only and are confidential to the examination process.”

b Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the thesis and the Portfolio of Clinical Research in no fewer than three and no more than four years from the Date of Registration.

c Three months prior to the expected date of submission, candidates should notify the Graduate Centre in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the thesis and the Portfolio of Clinical Research on the grounds of conflict of interest, the candidate may also submit at this time the name of this person and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

d The thesis and Portfolio of Clinical Research are to be accompanied by a statutory declaration, signed by the candidate stating:

(i) that the thesis and Portfolio of Clinical Research are the candidate’s own work

(ii) whether any part of the thesis or Portfolio of Clinical Research (in form or substance) has been submitted or accepted for any other degree or diploma and, where that is the case, clearly setting out the extent to which that earlier work has been incorporated into the thesis or Portfolio of Clinical Research

(iii) that written permission has been obtained for any third-party copyright material reproduced in the thesis or Portfolio of Clinical Research that represents a “substantial part” of the other work

(iv) that the temporary-bound copy and electronic copy are identical.

e The thesis and Portfolio of Clinical Research are to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

f Where the thesis or Portfolio of Clinical Research contain jointly authored research papers and/or any other jointly authored work, published or unpublished, a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate’s own work.

Where the thesis or Portfolio of Clinical Research include research reported in published or unpublished
co-authored works (other than as in Regulations 1e and 1f), a Co-Authorship Form must be signed by the candidate and all the joint authors, stating the extent to which the jointly authored material is the candidate’s own work.

Examination
12 a The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016 except that:
(i) examiners will be requested to examine the thesis according to the criteria of Clause 1(c) of these regulations, and to provide an assessment of the grades assigned to the Portfolio of Clinical Research
(ii) candidates may be asked to make specified minor corrections to or resubmit all or part of the Portfolio of Clinical Research.

b In the event that a candidate is asked to resubmit all or part of the Portfolio of Clinical Research the same process of examination will be followed for the resubmitted work.

Variations
13 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

Appeals
14 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures
15 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements
16 a These regulations came into force on 1 January 2020. The 2016 regulations for the Degree of Doctor of Clinical Psychology were thereby repealed.

b For candidates initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the application of the provisions of this statute to ensure consistency with the provisions of the statute under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

Certificate in Science – CertSci

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Science, or a conjoint programme that includes the Bachelor of Science as a component degree, or the Graduate Diploma in Science, at this University and
   b passed at least 60 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed as available for the BSc in the Bachelor of Science Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Science – DipSci

*The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Science, or a conjoint programme that includes the Bachelor of Science as a component degree, or the Graduate Diploma in Science, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed as available for the BSc in the Bachelor of Science Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Applied Psychology – GradDipAppPsych

*The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

Subject to CUAP approval

Admission
1 In order to be admitted to this graduate diploma, a student must have:
   either
   a completed the requirements for any degree from this University, or the equivalent as approved by Senate or its representative
   or
   b demonstrated practical, professional, or scholarly experience as approved by Senate or its representative as equivalent to that specified in 1a above.

Duration and Total Points Value
2 a A student enrolled for this graduate diploma must follow a programme equivalent of one full-time year and pass courses with a total value of 120 points.

b The requirements for a Graduate Diploma in Applied Psychology must be completed within four years of initial enrolment.

c In all cases, the term of initial enrolment is deemed to be the first term in which the student enrolled for a course which is assigned or reassigned to the programme.

d In exceptional circumstances the relevant Academic Head may increase the duration allowed for enrolment for a period not normally exceeding one year.
Structure and Content
3 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Applied Psychology Schedule.

4 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Science – GradDipSci
The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a (i) completed the requirements for any degree from this University, or the equivalent as approved by Senate or its representative
   or
   (ii) demonstrated practical, professional, or scholarly experience of an appropriate kind that is approved by Senate or its representative as equivalent to that specified in 1a(i) above

   and

   b attained a level of preparation appropriate to the selected major for the Graduate Diploma in Science as approved by the relevant Academic Head or nominee.

2 A student may, if Senate or its representative gives approval, enrol for this graduate diploma without having fulfilled the requirements of Regulation 1b, provided that the student completes any prerequisite courses as part of or in addition to the normal requirements of this programme.

3 With the approval of Senate or its representative, a student who needs only 30 points to complete the Bachelor of Science may enrol concurrently for this graduate diploma and those remaining points, provided that the graduate diploma will not be awarded until such qualifying degree is completed.

Duration and Total Points Value
4 a A student enrolled for this graduate diploma must follow a programme equivalent of two full-time semesters and pass courses with a total value of 120 points.

   b The requirements for a Graduate Diploma in Science must be completed within four years of initial enrolment.

   c In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

   d In exceptional circumstances the relevant Academic Head may increase the duration allowed for enrolment for a period not normally exceeding two consecutive semesters.

Structure and Content
5 Of the 120 points required for this graduate diploma a student must pass:
   a at least 75 points above Stage II, from the Bachelor of Science or Bachelor of Science (Honours) Schedules
   and
   b at least 60 points from a major listed in the Bachelor of Science Schedule, including the Stage III courses required for that major.

6 The programme for this graduate diploma may include a research project in a subject for which the student is approved by the Academic Head or nominee as suitably qualified.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student requires the approval of the relevant Head of Department, Director of School or equivalent prior to enrolment.

9 Cross-credits will not be granted toward the Graduate Diploma in Science.

Research Project
10 a A research project, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative on the recommendation of the relevant Academic Head.

b The research project topic must be approved by the relevant Academic Head prior to enrolment.

c The research project is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations have been amended with effect from 1 January 2019.

Postgraduate Certificate in Information Technology – PGCertInfoTech

This qualification is awarded jointly by the University of Auckland and the University of Waikato. The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelor's degree from this University with a Grade Point Average of 4.0 or higher in 75 points at Stage III or above, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirement in Regulation 1.

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within one semester if enrolled full-time or four semesters if enrolled part-time.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Information Technology Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2018.

Postgraduate Certificate in Information Technology (PGCertInfoTech) Schedule

Requirement:
• 60 points: COMPSCI 718, 719
Postgraduate Diploma in Applied Psychology – PGDipAppPsych

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:
   a  the Degree of Master of Arts or Master of Science in Psychology from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   and
   b  passed PSYCH 741, 749, 750, 751, 754, 759, or the equivalent as approved by Senate or its representative
   and
   c  demonstrated in accordance with approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking a qualification as a registered psychologist. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a  pass courses with a total value of 120 points
   and
   b  complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Applied Psychology Schedule.

5 The programme for each student requires the approval of the Head of School of Psychology.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Diploma in Clinical Psychology – PGDipClinPsych

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:
   a  the Degree of Master of Arts or Master of Science in Psychology from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   b  the Degree of Bachelor of Arts (Honours) or Bachelor of Science (Honours) in Psychology from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   c  a Doctor of Philosophy in Psychology
   and
passed PSYCH 708, 718, 723 with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative.

and
demonstrated in accordance with approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking a qualification as a Clinical Psychologist. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

2 Candidates must continue to meet the requirements of the Health Practitioners Competence Assurance Act (2003) for Professional and Ethical behavior.

Duration and Total Points Value

3 a A student enrolled for this postgraduate diploma who has completed the requirement for a Masters Degree in Psychology which included a thesis, or a Doctor of Philosophy degree in Psychology, must follow a programme of the equivalent of four consecutive full-time semesters and pass courses with a total value of 240 points.

b Any other student enrolled for this postgraduate diploma must follow a programme of the equivalent of six consecutive full-time semesters and pass courses with a total value of 360 points.

Structure and Content

4 a A student who has completed the requirements for a Doctor of Philosophy in Psychology or a Masters Degree in Psychology which included a thesis must follow a programme of 240 points as listed in Option 1 in the Postgraduate Diploma in Clinical Psychology Schedule.

b Any other student enrolled for this postgraduate diploma must follow a programme of 360 points as listed in Option 2 in the Postgraduate Diploma in Clinical Psychology Schedule.

c A student who has not previously passed, or been credited with a pass in PSYCH 718 and 723, or PSYCH 709 and 747 will be required to take PSYCH 718 and 723 or their equivalents before taking Part III.

d A student enrolled for this postgraduate diploma has to carry out satisfactorily such practical or clinical work as the Head of School of Psychology may require.

e A student has to pass both the written work and the practical or clinical work in order to pass each Part of the programme. However, a student who passes the practical or clinical work of Part III but fails the final examination may, at the discretion of the Head of School of Psychology, be required to pass a special examination in order to meet the requirements of the programme. A student who fails any year of the programme may, at the discretion of the Dean following a recommendation from the Head of School of Psychology, be declined permission to enrol again in that year of the programme or in the programme as a whole.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

7 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Diploma in Forensic Science – PGDipForensic

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for the Degree of Bachelor of Science from this University with a Grade Point Average of 3.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.
Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Forensic Science Schedule.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representatives may approve a personal programme which does not conform to these regulations.

Distinction
7 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2020

Postgraduate Diploma in Information Technology – PGDipInfoTech

This qualification is awarded jointly by the University of Auckland and the University of Waikato.
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a been enrolled in the Degree of Master of Information Technology
   and
   b (i) passed at least 60 points for that degree
   and
   (ii) been recommended for admission by the Academic Head or nominee.
2 No student on whom the Degree of Master of Information Technology has been conferred may be permitted to apply for admission to this postgraduate diploma.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 120 points from courses listed in the Master of Information Technology Schedule, excluding COMPSCI 778.
6 The programme for each student must be approved by the relevant Head of Department, Director of School or equivalent.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Amendment
10 These regulations have been amended with effect from 1 January 2018.

Postgraduate Diploma in Science – PGDipSci
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Science from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   b (i) passed the prerequisites for the courses in the selected subject for the Postgraduate Diploma in Science or
   (ii) attained a level of competence equivalent to the prerequisites for the courses in the selected subject for Postgraduate Diploma in Science as approved by Senate or its representative.

2 A student may, if Senate or its representative gives approval, enrol for this postgraduate diploma without having fulfilled all the prerequisite requirements, provided that the relevant Head of Department or Director of School may require any such student to enrol for any or all of the prerequisite courses not already passed in addition to the normal requirements of this programme.

3 A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed courses with a total value of at least 345 points towards that degree may, with the approval of the relevant Head of Department or Director of School, enrol for this postgraduate diploma. The remaining courses for the Bachelor of Science must be taken and passed within 12 months of initial enrolment for this postgraduate diploma. Should the requirements for the Bachelor of Science not be completed within these 12 months, enrolment for the Postgraduate Diploma in Science will be suspended until the requirements for the Bachelor’s degree are completed.

Notes:
(i) Equivalent qualifications may include the Bachelor of Arts, Bachelor of Commerce, Bachelor of Engineering, Bachelor of Engineering (Honours), Bachelor of Optometry, Bachelor of Planning, Bachelor of Urban Planning, Bachelor of Urban Planning (Honours).
(ii) Relevant subjects may include applied mathematics, bioinformatics, biological sciences, biomedical science, biosecurity, conservation, biotechnology, chemistry, clinical exercise physiology, computer science, earth sciences, environmental management, environmental science, exercise sciences, food science, geography, geology, geophysics, green chemical science, logic and computation, marine science, mathematics, medical statistics, optometry, pharmacology, physics, physiology, psychology, speech science, statistics, wine science.

Duration and Total Points Value
4 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 A student enrolled for this postgraduate diploma must complete the requirements for one of the specialisations listed in the Postgraduate Diploma in Science Schedule.

7 A dissertation or research project of up to 45 points may be included as listed in the Postgraduate Diploma in Science Schedule.
8 Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Dissertation / Research Project**

10 A dissertation or research project, when included in the programme, is to be carried out under the guidance of a supervisor appointed by the Academic Head or nominee.

b The dissertation or research project topic must be approved by the Academic Head or nominee prior to enrolment.

c The dissertation or research project is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

**Variations**

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Distinction**

12 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

**Amendment**

13 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

**Postgraduate Diploma in Science (PGDipSci) Schedule**

**Specialisations available:**

**Applied Mathematics**

Prerequisite: A major in Applied Mathematics or Mathematics, or an equivalent subject approved by the Academic Head or nominee, including MATHS 340, 361, and MATHS 362 or 363, or equivalent courses approved by the Academic Head or nominee

Requirement:
- at least 60 points from MATHS 761–770
- up to 60 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department

**Bioinformatics**

The PGDipSci in Bioinformatics was suspended in 2020. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

Prerequisite: A BSc with a major in Bioinformatics or Biological Sciences and COMPSCI 220, or equivalent as approved by the Programme Director.

Requirement:
- 45 points from BIOINF 702, 704, BIOSCI 702
- 75 points from BIOINF 701, BIOSCI 733, 737, 752, 755–758, 761
- COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 732, 761, 783, or related 700 level courses, as approved by the Programme Director

**Biological Sciences**

Prerequisite: A major in Biological Sciences or the equivalent approved by the Academic Head or nominee

Requirement:
- at least 90 points from BIOSCI 700–702, 724–746, 749–761
- up to 30 points from 600 or 700 level courses in a related subject

**Biomedical Science**

The PGDipSci in Biomedical Science was withdrawn in 2020.

**Biosecurity and Conservation**

Prerequisite: A major in Biological Sciences or the equivalent approved by the Academic Head or nominee

Requirement:
- 45 points: BIOSCI 747, 748, ENVSCI 733
- 45 points from BIOSCI 761 or ENVSCI 701, BIOSCI 724, 730, 733, 735, 738, 751, ENVMTG 742, 743, 746, ENVSCI 716, 734, 737
- 30 points from approved 700 level courses in the Faculty of Science

**Biotechnology**

Prerequisite: A major in Biotechnology or the equivalent approved by the Academic Head or nominee

Requirement:
- 45 points from BIOSCI 741, 752, 755, 759
- 30 points: SCIENT 701, 703
- 45 points from other approved 700 level courses in Biological Sciences

**Chemistry**

Prerequisite: A major in Chemistry, or the equivalent approved by the Academic Head or nominee

Requirement:
- at least 90 points from CHEM 691, 710–780, 795
- up to 30 points from 600 or 700 level courses in Chemistry or related subjects with approval of the Head of Department

Note: Students intending to study for a Master of Science in Chemistry must take CHEM 795

**Clinical Exercise Physiology**

Prerequisite: A major in Exercise Sciences or Sport and Exercise Science, or the equivalent approved by the Academic Head or nominee including EXERSCI 302 or an equivalent course approved by the Academic Head or nominee

Requirement:
- 90 points: EXERSCI 703, 705, 710, 712, 771, 772

---
• 30 points from approved 700 level courses in the Faculty of Science or the Faculty of Medical and Health Sciences

**Computer Science**
**Prerequisite:** A major in Computer Science, or the equivalent approved by the Academic Head or nominee
**Requirement:**
• at least 90 points from BIOSCI 700, COMPSCI 691, 701–716, 720–780
• up to 30 points from 700 level courses in a related subject with approval of the Academic Head or nominee

**Earth Sciences**
**Prerequisite:** A major in Earth Sciences or Geology, or the equivalent approved by the Academic Head or nominee, or a major in Geography including GEOG 330, 331, 334, 351, 360 or equivalent courses approved by the Academic Head or nominee
**Requirement:**
• at least 60 points from EARTHSCI 703–780, GEOG 730, 745, 746, 749, 770–772, GEOPHYS 760, 761
• up to 30 points from 700 level courses as approved by the Programme Coordinator

**Environmental Management**
**Prerequisite:** Bachelors degree approved by the Academic Head or nominee
**Requirement:**
• 15 points: GEOG 701
• at least 60 points from ENVMT 741–762
• up to 45 points from 700 level courses as approved by the Programme Coordinator

**Environmental Science**
**Prerequisite:** A Science subject approved by the Academic Head or nominee
**Requirement:**
• 15 points: ENVSCI 711
• at least 60 points from ENVSCI 701–707, 713–738
• up to a further 45 points from EARTHSCI 705, 720, GEOG 730, 745–749, 770, 771, ENVMT 742, 744, MARINE 703 or other approved 700 level courses

**Exercise Sciences**
**Prerequisite:** A major in Exercise Sciences or Sport and Exercise Science, or the equivalent approved by the Academic Head or nominee
**Requirement:**
• 15 points: EXERSCI 705
• at least 45 points from 700 level courses in Exercise Sciences as approved by the Head of Department
• up to 60 points from other 600 or 700 level courses in Biological Sciences, Engineering, Exercise Sciences, Food Science, Nutrition, Physiology, Psychology, Statistics, or related subjects, as approved by the Head of Department

**Food Science**
**Prerequisite:** A major in Biological Sciences, Chemistry, Food Science, specialisation in Food Science and Nutrition, or the equivalent approved by the Academic Head or nominee
**Requirement:**
• 60 points from FOODSCI 703, 707, 708, CHEMMAT 757
• 60 points from approved 600 and 700 level courses

**Geography**
**Prerequisite:** A major in Earth Sciences or Geography, or the equivalent approved by the Academic Head or nominee including 45 points at Stage III in Geography or the equivalent approved by the Academic Head or nominee
**Requirement:**
• 15 points: GEOG 701

• at least 75 points from EARTHSCI 705, 713, 732, ENVMT 741–762, ENVSCI 704, 713, 737, 738, GEOPHYS 712–779
• up to 30 points from other approved 700 level courses offered at this University

**Geophysics**
**Prerequisite:** A major in Geophysics or the equivalent approved by the Academic Head or nominee
**Requirement:**
• 45 points from EARTHSCI 763, GEOPHYS 711–713, 761, PHYSICS 743
• 75 points from approved 600 or 700 level courses in Earth Sciences, Geophysics, Mathematics, Physics or other Science subjects approved by the Head of Department

**Green Chemical Science**
**Prerequisite:** A major or specialisation in Chemistry or Green Chemical Science, or the equivalent approved by the Academic Head or nominee, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Academic Head or nominee
**Requirement:**
• 90 points from CHEM 691, 710–751, 780, 795
• 30 points: CHEM 760, ENVSCI 714

**Logic and Computation**
**Prerequisite:** A major in Logic and Computation or the equivalent approved by the Academic Head or nominee
**Requirement:**
• 15 points from COMPSCI 720, 750, 760, 767
• 15 points from PHIL 736–738
• 90 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738

**Marine Science**
**Prerequisite:** A major in Biological Sciences, Environmental Science, or Marine Science, or the equivalent approved by the Academic Head or nominee
**Requirement:**
• 15 points: MARINE 701
• 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
• 90 points from the following 700 level courses including at least two of the following subject areas: BIOSCI 724–727, 731, 732, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMT 742, 744, ENVSCI 702, 704, 714, FOODSCI 703, 708, GEOG 730, 746, 748, 771, GEOPHYS 711–713, 761, MARINE 702–705, STATS 767, or other courses approved by the Programme Coordinator

**Mathematics**
**Prerequisite:** A major in Mathematics or the equivalent approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332
**Requirement:**
• at least 75 points in 700 level Mathematics courses
• up to 45 points from approved 600 or 700 level courses in Mathematics or related subjects, with the approval of the Head of Department

**Medical Statistics**
**Prerequisite:** A major in Statistics or the equivalent approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee
**Requirement:**
• 45 points: POPHLTH 708, STATS 770, 773
• 15 points from STATS 779, 782 or equivalent
• at least 30 points from STATS 701–703, 705, 708–787, POPHLTH 707–709, 711, 767
• up to 30 points from 700 level courses in Statistics or related subjects, as approved by the Head of Department
Optometry
Prerequisite: A specialisation in Optometry or the equivalent approved by the Academic Head or nominee
Requirement:
• 120 points from OPTOM 751, 752, 757, 759
or
• at least 90 points from OPTOM 751, 752, 757, 759
• up to 30 further points, subject to approval by the Head of Department, from approved 600 or 700 level courses in a related subject

Pharmacology
Prerequisite: A major in Pharmacology or the equivalent approved by the Academic Head or nominee
Requirement:
• at least 60 points from MEDSCI 700, 701, 715–723, 735, 744, 745
• up to 60 points from other 600 or 700 level courses as approved by the Head of Department

Physics
Prerequisite: A major in Physics or the equivalent approved by the Academic Head or nominee
Requirement: either
• 120 points from INDIGEN 712, PSYCH 700–770, 775–778
or
• 105 points from INDIGEN 712, PSYCH, 700–770, 775–778
• 15 points from other approved 600 or 700 level courses offered at this University
or
• Applied Behaviour Analysis: 120 points from PSYCH, 741, 750, 751, 754, 749, 759

Physiology
Prerequisite: A major in Physiology or the equivalent approved by the Academic Head or nominee
Requirement:
• 30 points from MEDSCI 733, 743
• 90 points from MEDSCI 701, 703, 717, 727–734, 737, 739, 744

Psychology
Prerequisite: A major in Psychology or the equivalent approved by the Academic Head or nominee
Requirement: either
• 120 points from INDIGEN 712, PSYCH 700–770, 775–778
or
• 105 points from INDIGEN 712, PSYCH 700–770, 775–778
• 15 points from other approved 600 or 700 level courses offered at this University
or
• Applied Behaviour Analysis: 120 points from PSYCH, 741, 750, 751, 754, 749, 759

Speech Science
Requirement:
• 60 points from SPCHSCI 701, 711–713, 722, 723, 733, 736, 743, 746, 751–754
• 60 points from other approved 600 or 700 level courses in Audiology, Computer Science, Engineering, Linguistics, Physiology, Psychology, Speech Science

Statistics
Prerequisite: A major in Statistics or the equivalent approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee
Requirement:
• 15 points from STATS 779, 782 or equivalent
• at least 75 points from STATS 701–703, 705, 708–787, POPLHLTH 707–709, 711
• up to 30 points from 700 level courses in Statistics or related subjects, as approved by the Academic Head or nominee

Wine Science
Prerequisite: A major in Chemistry or specialisation in Food Science and Nutrition, or the equivalent approved by the Academic Head or nominee
Requirement:
• at least 75 points from WINESCI 701–708
• up to 45 points from approved 600 and 700 level courses in Biological Sciences, Chemical and Materials Engineering, Chemistry, Food Science or Geography

The Degree of Bachelor of Global Studies – BGlobalSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Global Studies Schedule, including:
      (i) at least 195 points above Stage I, including at least 75 points above Stage II
      (ii) 45 points: GLOBAL 100, 200, 300
      (iii) a major of at least 150 points from the Bachelor of Global Studies Schedule, of which at least 45 points must be above Stage II
      (iv) 60 points from one of the Languages listed in the Bachelor of Global Studies Schedule, of which at least 30 points must be above Stage I
      (v) 45 points from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is aligned with the chosen Language, of which at least 15 points must be above Stage II.

   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar

   c up to 30 points from courses available for this programme or other programmes at this University.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions
4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
     either
     (i) completed an undergraduate degree at a tertiary institution
     or
     (ii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

   c A student who has been fully exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees
5 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
6 a For Language courses, enrolment of students with prior knowledge of the language is at the discretion of the Academic Head or nominee.

   b Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level. A student who is required to enrol in a more advanced course may choose either to complete 60 points of Language courses or complete alternative course(s) from elsewhere in the Bachelor of Global Studies Schedule.

   c If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course.
d A student who has passed or been credited with a language acquisition course may not enrol for a course which precedes that course in the sequence of language acquisition courses.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

8 These regulations and/or schedule have been amended with effect from 1 January 2021.

Bachelor of Global Studies (BGlobalSt) Schedule

| Requirement: |
| Core Courses: GLOBAL 100, 200, 300 |

Majors available:

Global Environment and Sustainable Development

Stage I courses: EARTHSCI 105, ECON 151, 152, ENVSCI 101, GEOG 102, 104, GLOBAL 101, HISTORY 103, INTBUS 151, POLITICS 106, SUSTAIN 100, URBPLAN 101

Stage II courses: GEOG 205, GLOBAL 201–252, 277–280, MEDIA 231, PACIFIC 205, PHIL 250, POLITICS 218, 222, 254

Stage III courses: ENVSCI 303, GEOG 320, 324, 325, GLOBAL 301–352, 377–380, MEDIA 332, PACIFIC 305, POLITICS 313, PHIL 351, SOCIOL 307, SUSTAIN 300, URBPLAN 301, 306

Stage IV courses: LAWENVIR 420, 430, LAWPUBL 435, 446, 458

Major must include:

• 15 points: ENVSCI 101
• 30 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, POLITICS 106

Global Politics and Human Rights

Stage I courses: ECON 151, 152, GLOBAL 101, HISTORY 103, INTBUS 151, PHIL 104, POLITICS 106, SOCIOL 103

Stage II courses: ANTHRO 213, COMMS 208, GLOBAL 201–252, 277–280, HISTORY 205, PHIL 205, 268, POLITICS 201, 218, 222, 254

Stage IV courses: LAWPUBL 402, 436, 443, 446, 451, 455, 458, 461

Major must include:

• 15 points: POLITICS 106
• 15 points: PHIL 104
• at least 15 points from ECON 151 or 152, GLOBAL 101, HISTORY 103

International Relations and Business

Stage I courses: ECON 151, 152, GLOBAL 101, HISTORY 103, POLITICS 106

Stage II courses: ECON 201, 232, 241, GEOG 202, GLOBAL 201–252, 277–280, INTBUS 201, 202, POLITICS 201, SOCIOL 208

Stage IV courses: LAWPUBL 432, 435, 462

Major must include:

• at least 45 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, POLITICS 106
• in total no more than 75 points from ECON 151, 152, 201, 232, 241, 341, 343, INTBUS 201, 202, 305, 306 or other courses from the BCom Schedule may be included in this degree.

Transnational Cultures and Creative Practice

Stage I courses: ANTHRO 100, 101, ARCHHTC 102, ARTHIST 115, ECON 151, 152, GLOBAL 101, HISTORY 103, MĀORI 190, MUS 188, PACIFIC 110, POLITICS 106, URBPLAN 101

Stage II courses: ANTHRO 202, 234, 252, ARCHHTC 237, ARTHIST 206, 233, COMMS 204, COMPLIT 200, 202, 206, 210, DANCE 200, EUROPEAN 200, 207, GLOBAL 201–252, 277–280, LATINAM 201, MĀORI 292, MEDIA 202, 222, PACIFIC 210, PHIL 212

Major must include:

• at least 30 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, POLITICS 106

BGlobalSt Languages:

Academic English

Stage I courses: ACADENG 100, 101, 104, ENGLISH 121

Stage II courses: ACADENG 210

Must include

• ACADENG 210 or equivalent competency

Subject to approval by Academic Head or nominee, Academic English is available for international students with English as an additional language who would benefit from English study.

Chinese

Stage I courses: CHINESE 100, 101

Stage II courses: CHINESE 200, 201, 277, 278

Stage III courses: CHINESE 300, 301, 302, 377, 378

Must include:

• CHINESE 201 or equivalent competency

Cook Islands Māori

Stage I course: COOKIS 101 and 15 points from either MĀORI 103, SAMOAN 101, TONGAN 101

Stage II courses: COOKIS 201, PACIFIC 212

Stage III courses: COOKIS 301, PACIFIC 312

Must include:

• COOKIS 201 or equivalent competency

French

Stage I courses: FRENCH 101, 102

Stage II courses: FRENCH 203, 204, 269, 277, 278

Stage III courses: FRENCH 304, 305, 320, 377, 378

Must include:

• FRENCH 204 or equivalent competency
German
Stage I courses: GERMAN 101, 102
Stage II courses: GERMAN 200, 201, 277, 278
Stage III courses: GERMAN 301, 302, 305, 306, 377, 378
Must include:
- GERMAN 201 or equivalent competency

Italian
Stage I courses: ITALIAN 100, 106, 107, 177
Stage II courses: ITALIAN 200, 201, 277, 278
Stage III courses: ITALIAN 300, 301, 377, 378, 379
Must include:
- ITALIAN 201 or equivalent competency

Japanese
Stage I courses: JAPANESE 130, 131
Stage II courses: JAPANESE 231, 232, 277, 278
Stage III courses: JAPANESE 331, 332, 377, 378
Must include:
- JAPANESE 232 or equivalent competency

Korean
Stage I courses: KOREAN 110, 111
Stage II courses: KOREAN 200, 201, 277, 278
Stage III courses: KOREAN 300, 301, 377, 378
Must include:
- KOREAN 201 or equivalent competency

Māori
Stage I courses: MĀORI 101, 103, 104
Stage II courses: MĀORI 201, 203

GlobalSt Area Studies:

Asia
Stage II courses: ARTHIST 206, ASIAN 200, 204, HISTORY 225
Stage III courses: ARTHIST 313, ASIAN 302, 303, 304, ANTHRO 329, ECON 343, GEOG 322, HISTORY 335
Students who have chosen Asia must select either Chinese, Japanese, or Korean as their language.

Europe
Stage II courses: EUROPEAN 200, 206, 207, 212, HISTORY 217, 224
Stage III courses: EUROPEAN 300, 302, 307, 312, HISTORY 317, 324, LAWPUBL 438, 445
Students who have chosen Europe must select either French, German, Italian, Russian, or Spanish as their language.

Latin America
Stage II courses: LATINAM 201, 210, 216
Stage III courses: LATINAM 301, 303, 306, 320, 325

The Degree of Master of Bioscience Enterprise – MBioEnt
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for either

   - GERMAN 201 or equivalent competency

   - ITALIAN 201 or equivalent competency

   - JAPANESE 232 or equivalent competency

   - KOREAN 201 or equivalent competency

   - MĀORI 203 or equivalent competency

   - RUSSIAN 201 or equivalent competency

   - SAMOAN 201 or equivalent competency

   - SPANISH 201 or equivalent competency

   - TONGAN 201 or equivalent competency

   - MĀORI 203 or equivalent competency

Students who have chosen Latin America must select Spanish as their language.

Māori New Zealand
Stage II courses: ANTHRO 207, ARTHIST 238, HISTORY 227, MĀORI 202, 230
Stage III courses: ARTHIST 338, HISTORY 327, MĀORI 303, 320, 330, 335, 396
Students who have chosen Māori New Zealand must select Māori as their language.

The Pacific
Stage II courses: ANTHRO 204, 234, PACIFIC 200, 206, 207, 211, 213
Stage III courses: ANTHRO 358, GEOG 312, LAWGENRL 428, PACIFIC 306, 311, 313
Students who have chosen the Pacific must select either Cook Islands Māori, Samoan, or Tongan as their language.
(i) the Postgraduate Diploma in Bioscience Enterprise
or
(ii) any other equivalent qualification approved by Senate or its representative
and
b attained a B+ average in at least 90 points taken for the Postgraduate Diploma in Bioscience Enterprise
and
c approval from the Director of School, or equivalent.

2 A student who has not completed all the requirements of the Postgraduate Diploma in Bioscience Enterprise but who has:
   a passed 105 points towards the Postgraduate Diploma in Bioscience Enterprise
   and
   b met all other entry and prerequisite requirements
may, with the approval of the Director of School or equivalent, enrol for this degree. The requirements for the Postgraduate Diploma in Bioscience Enterprise must be completed within 12 months of initial enrolment for the Master of Bioscience Enterprise. Should these requirements not be completed within these 12 months, enrolment for the Master of Bioscience Enterprise will be suspended until they have been completed.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this degree, a student must pass:
   Research Masters
   90 point Thesis and 30 points from courses listed in the Research Masters option in the Master of Bioscience Enterprise Schedule.

6 The programme for each student must be approved by the Director of School or equivalent before enrolment for this degree.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8 a A thesis or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The thesis or dissertation topic must be approved by the Programme Coordinator prior to enrolment.

   c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2014.

The Degree of Master of Disaster Management – MDisMgt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage III
   or
   (ii) the Degree of Bachelor of Arts (Honours), or the Degree of Bachelor of Commerce (Honours), or the Degree of Bachelor of Health Sciences (Honours), or the Degree of Bachelor of Laws, or the Degree of Bachelor of Laws (Honours), or the Degree of Bachelor of Planning, or the Degree of Bachelor of Science (Honours) from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage III
   or
   (iii) an equivalent qualification as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering
   or
   b (i) the Degree of Bachelor of Arts, or the Degree of Bachelor of Commerce, or the Degree of Bachelor of Health Sciences, or the Degree of Bachelor of Science from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage II
   or
   (ii) an equivalent qualification as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained an equivalent qualification or professional experience related to disaster management.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Disaster Management Schedule.

6 A student must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Disaster Management cannot continue.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Research Project
   a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research project topic must be approved by the Head of Department prior to enrolment.
   c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.
Reassignment
9 A student who has not met the requirement in Regulation 6 may apply to reassign courses passed to the Postgraduate Certificate in Disaster Management.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Energy – MEnergy

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
      or
   (ii) the Degree of Bachelor of Science (Honours) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      or
   (iii) the Degree of Bachelor of Science from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II and the Postgraduate Diploma in Science from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      or
   (iv) the Degree of Bachelor of Commerce (Honours) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      or
   (v) the Degree of Bachelor of Commerce from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II and the Postgraduate Diploma in Commerce from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      or
   (vi) an equivalent four year study programme from this University as approved by Senate or its representative with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative
      or
   (vii) a relevant Bachelors degree from this University as approved by Senate or its representative with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative
and
(b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering

or

b (i) the qualifications as listed in 1a(i)-(vii), and not met the required Grade Point Average

and

(ii) the Postgraduate Certificate in Geothermal Energy Technology or the Postgraduate Certificate in Engineering from this University, with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

or

b (i) the Degree of Bachelor of Science from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or

(ii) the Degree of Bachelor of Commerce from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or

(iii) a relevant Bachelors degree from this University as approved by Senate or its representative with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

or

d (i) one of the qualifications listed in 1c(i)-(iii), and not met the required Grade Point Average

and

(ii) the Postgraduate Certificate in Geothermal Energy Technology or the Postgraduate Certificate in Engineering from this University, with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has:

a attained extensive, practical, professional or scholarly experience in the engineering, geotechnical, or business professions deemed equivalent by Senate or its representative to the requirement in Regulation 1

and

b performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a or 1b must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1c or 1d must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 220 points for the total enrolment for this degree.

5 A student admitted under Regulation 3 must meet the requirements specified in Regulations 4 or 5 as approved by Senate or its representative.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Energy Schedule.

7 If these requirements include courses the same as, or similar to, those already passed by a student, alternative courses must be substituted as approved by the appropriate Academic Head.

8 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 5.0 or higher in the first 45 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Energy cannot continue.

9 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 45 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Energy cannot continue.

10 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Transfer from Postgraduate Certificate in Geothermal Energy Technology or Postgraduate Certificate in Engineering

11 A student who has passed courses towards a Postgraduate Certificate in Geothermal Energy Technology or a Postgraduate Certificate in Engineering that are available for this degree may reassign those courses to the Master of Energy provided that the postgraduate certificate has not been awarded.

Research Project / Thesis

12 a The research project or thesis is to be carried out under the supervision of a supervisor appointed by Senate or its representative.

b The research project or thesis topic must be approved by the Academic Head prior to enrolment.

c The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment

13 A student may apply to reassign courses passed to the Postgraduate Diploma in Energy, Postgraduate Certificate in Energy or Postgraduate Certificate in Geothermal Energy Technology.

Variations

14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

15 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment

16 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Energy (MEnergy) Schedule

The Degree of Master of Engineering Geology – MEngGeol

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for:

   either

   a (i) the Degree of Bachelor of Advanced Science (Honours) or Bachelor of Science (Honours) in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage III, including at least 45 points in Earth Sciences or Geology, or the equivalent as approved by Senate or its representative
or
(ii) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

or
(iii) the Degree of Bachelor of Science from this University and the Postgraduate Diploma in Science with a Grade Point Average of 5.0 or higher, in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage III, including at least 45 points in Earth Sciences or Geology, or the equivalent as approved by Senate or its representative

or
(iv) (a) a relevant Bachelors degree with a Grade Point Average of 4.0 in 75 points above Stage II, as approved by Senate or its representative
and
(b) completed three years of relevant work experience as approved by the Dean of Faculty of Science

or

b the Degree of Bachelor of Science in Earth Sciences with a Grade Point Average of 5.0 or higher in 75 points above Stage II, including at least 45 points in Earth Sciences or Geology, or the equivalent as approved by Senate or its representative.

Note: Relevant degrees may include those in earth science, civil engineering, geology.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Geology Schedule.

5 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses and prior to enrolment in EARTHSCI 794. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Geology cannot continue.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The thesis topic must be approved by the Academic Head or nominee prior to enrolment.

   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Earth Sciences.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2020.
Master of Engineering Geology (MEngGeol) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Research Masters</th>
<th>15 points: EARTHSCI 770</th>

The Degree of Master of Heritage Conservation – MHerCons

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either a (i) the Degree of Bachelor of Arts (Honours) with a relevant major, as approved by Senate or its representative
   or (ii) the Degree of Bachelor of Engineering (Honours) in Civil Engineering
   or (iii) the Degree of Bachelor of Planning
   or (iv) the Degree of Bachelor of Urban Planning (Honours)
   or (v) the Degree of Master of Urban Planning
   or (vi) the Degree of Master of Urban Planning (Professional)
   or (vii) the Postgraduate Diploma in Architecture
   or (viii) an equivalent qualification as approved by Senate or its representative
   and (ix) achieved a Grade Point Average of 5.0 or higher in 75 points above Stage III
   or b (i) the Degree of Bachelor of Architectural Studies
   or (ii) the Degree of Bachelor of Arts with a relevant major, as approved by Senate or its representative
   or (iii) an equivalent qualification as approved by Senate or its representative
   and (iv) achieved a Grade Point Average of 5.0 or higher in 75 points above Stage II.

Duration and Total Points Value

2 A student enrolled for this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and b complete within the time limit specified in the General Regulations – Masters Degrees
   and c not exceed 160 points for the total enrolment for this degree.

3 A student enrolled for this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and b complete within the time limit specified in the General Regulations – Masters Degrees
   and c not exceed 220 points for the total enrolment for this degree.
Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Heritage Conservation Schedule.

5 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Heritage Conservation cannot continue.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Heritage Conservation once.

b A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Heritage Conservation once.

c All courses that can be reassigned must be reassigned including courses not completed.

8 A student who has not met the requirement in Regulation 5 may apply to reassign courses passed from this degree to the Postgraduate Certificate in Heritage Conservation.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Heritage Conservation (MHerCons) Schedule
A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

### Built Heritage
**Requirement:** Taught Masters  
- 90 points: ARCHGEN 750–754
- 30 points from ANTHRO 708, ARCHDES 702, ARCHGEN 711–716, MUSEUMS 700, 702, 704, 705, SOCIOL 732, or other 700 level courses approved by the Head of School of Architecture and Planning

### Museums and Cultural Heritage
**Requirement:** Taught Masters  
- 45 points: MUSEUMS 702, 704
- 30 points from ANTHRO 704, 708, 742, 756, ARCHGEN 750, 751, ARTHIST 703, 706, 719, 730, 731, 734, ENGLISH 718, HISTORY 705, 712, MĀORI 741, MUSEUMS 701, 702, 705, SOCIOL 732, or up to 30 points from other approved 700 level courses offered at this University
- 45 points: MUSEUMS 792 Dissertation

A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

### Built Heritage
**Requirement:** Taught Masters  
- 90 points: ARCHGEN 750–754
- 90 points from ANTHRO 708, ARCHDES 702, ARCHGEN 711–716, MUSEUMS 700, 702, 704, 705, SOCIOL 732, or other 700 level courses approved by the Head of School of Architecture and Planning

### Museums and Cultural Heritage
**Requirement:** Taught Masters  
- 45 points: MUSEUMS 702, 704
- 90 points from ANTHRO 704, 708, 742, 756, ARCHGEN 750, 751, ARTHIST 703, 706, 719, 730, 731, 734, ENGLISH 718, HISTORY 705, 712, MĀORI 741, MUSEUMS 701, 702, 705, SOCIOL 732, or up to 30 points from other approved 700 level courses offered at this University
- 45 points: MUSEUMS 792 Dissertation

The Degree of Master of Higher Education – MHigherEd

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*
Admission

1 In order to be admitted to this programme, a student needs to:

   either
   a (i) have completed the requirements for a postgraduate degree or diploma from this University, with a 
         Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as 
         approved by Senate or its representative

       and
       (ii) have at least three years of extensive, relevant professional teaching experience, or professional 
            experience in a significant learning and teaching role, including content and experience equivalent to 
            that obtained through the Postgraduate Certificate in Higher Education as approved by Senate or its 
            representative

   or
   b (i) have completed the requirements for a degree from this University, with a Grade Point Average of 5.0 
        or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its 
        representative

       or
       (ii) (a) have completed the requirements for a degree from this University, or the equivalent as approved by 
            Senate or its representative

       and
       (b) have completed the requirements for the Postgraduate Certificate in Academic Practice or 
           Postgraduate Certificate in Higher Education from this University with a Grade Point Average of 5.0 or 
           higher, or the equivalent as approved by Senate or its representative, provided that the postgraduate 
           certificate has not been awarded

   and
   c be currently employed in the tertiary education sector and have a substantial role in teaching and/or 
      supporting student learning, or have, within the past three years, been employed in the tertiary education 
      sector and had a substantial role in teaching and/or supporting student learning.

   Note: A substantial role in teaching or supporting student learning may include academic, library or learning 
         design positions.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has 
   extensive, relevant professional teaching experience, or extensive, relevant professional experience in a 
   significant learning and teaching role, that is deemed to be the equivalent of the requirements in Regulation 1.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points

   and
   b complete within the time limit specified in the General Regulations – Masters Degrees

   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points

   and
   b complete within the time limit specified in the General Regulations – Masters Degrees

   and
   c not exceed 220 points for the total enrolment for this degree.

5 The requirements for this degree must be completed on a part-time basis.

Structure and Content

6 A student enrolled for this degree must complete the requirements as listed in the Master of Higher Education 
   Schedule.

7 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher 
   in the first 60 points of taught courses and prior to enrolment in HIGHED 793. If the Grade Point Average is not 
   achieved, enrolment in the Master of Higher Education cannot be continued.

8 A student admitted to this programme under Regulation 1a may substitute HIGHED 701 or HIGHED 702 for HIGHED 
   703 with the approval by the Programme Director.

9 A student may substitute an approved research methods course for HIGHED 704 with the approval of the 
   Programme Director.
The programme for each student requires the approval of the Dean of the Faculty of Education and Social Work prior to enrolment.

A student admitted to this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

A student who does not achieve the Grade Point Average specified in Regulation 7 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Higher Education or Postgraduate Certificate in Higher Education.

Dissertation

The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative. The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment in HIGHE 793. The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Higher Education or Postgraduate Certificate in Academic Practice

A student who is required to complete 180 points and has enrolled in courses towards the Postgraduate Certificate in Academic Practice or Postgraduate Certificate in Higher Education may reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Variations

In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours

This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Operations Research – MOR

From 1 January 2021 the Master of Operations Research will be renamed the Master of Operations Research and Analytics.

The Degree of Master of Operations Research and Analytics – MORAn

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this degree, a student must have completed the requirements for:

either

a (i) a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
or
(ii) (a) a relevant Bachelors Honours degree from this University, or the equivalent as approved by Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics from this University with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded

or
(iii) (a) a relevant Bachelors degree in a relevant subject from this University, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
and
(b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering

or
(iv) (a) a relevant Bachelors degree, as approved by the Senate or its representative
and
(b) a relevant Postgraduate Diploma from this University with at least 60 points of courses in a relevant subject with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or
b (i) a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
or
(ii) (a) a relevant Bachelors degree from this University, as approved by the Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics from this University with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded.

2 Students must have completed any prerequisite courses prior to admission to this degree.

3 In exceptional circumstances Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant practical, professional or scholarly experience in the Operations Research and Analytics profession deemed equivalent to the requirements in Regulation 1b.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science.
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelor of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).
(iii) A relevant postgraduate diploma may include the Postgraduate Diploma in Engineering, or a Postgraduate Diploma in Operations Research and Analytics.
(iv) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, machine learning, management science, mathematics, operations research, operations and supply chain management, software engineering, structural engineering, electrical engineering, statistics or technology.

Duration and Total Points Value

4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b or 3 must:
   a pass courses with a total value of 180 points
   and
b. complete within the time limit specified in the General Regulations - Masters Degrees
and
c. not exceed 220 points for the total enrolment for this degree.

Structure and Content
6. A student enrolled for this degree must complete the requirements as listed in the Master of Operations Research and Analytics Schedule.

7. A student who has previously passed any course or courses the same as, or similar to, the courses required for this degree must substitute an alternative course or courses as approved by the Head of Department or nominee.

8. Courses selected for this qualification are subject to the confirmation of the Head of Department or nominee.

9. With the prior approval of the Head of Department or nominee, up to 45 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

10. A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 5.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Operations Research and Analytics cannot continue.

11. A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Operations Research and Analytics cannot continue.

12. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
13. A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering or Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Engineering or Postgraduate Diploma in Operations Research and Analytics.

Research Project / Thesis
14. a. The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b. The topic of the research project or thesis must be approved by the Head of Department or nominee prior to enrolment.

c. The research project or thesis is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
15. A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics
16. A student who has passed courses towards the Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Variations
17. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
18. This degree may be awarded with Honours in accordance with the General Regulations - Masters Degrees.

Amendment
19. These regulations and/or schedule have been amended with effect from 1 January 2021.
### Master of Operations Research and Analytics (MORAn) Schedule

### The Degree of Master of Philosophy – MPhil

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the Academic Statutes and Regulations but excluding the General Regulations – Masters Degrees.

#### Admission

1. In order to be admitted to this programme, a student needs to have:

   a. approval from the Dean of Graduate Studies
   
   and
   
   b. (i) been enrolled in a Doctor of Philosophy, Doctor of Medicine or Doctor of Clinical Psychology for at least 12 months
   
   or
   
   (ii) completed the research requirements for a Doctor of Education
   
   and
   
   c. been recommended for admission by their Head of Department and Faculty Dean or nominee.

#### Duration and Total Points Value

2. A student enrolled for this degree must:

   a. pass courses with a total points value of 120 points
   
   and
   
   b. submit their thesis within six months. An extension of six months may be granted at the discretion of the Dean of Graduate Studies.

#### Structure and Content

3. Of the 120 points required for this degree a student must complete a 120 point MPhil Thesis in the appropriate subject.

#### Thesis

4. The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative. The thesis topic must be approved by the relevant Head of Department before enrolment.

#### Examination

5. For students admitted to this degree examiners appointed by the Dean of Graduate Studies will recommend that:

   either
   
   a. the degree be awarded
   
   or
   
   b. the degree not be awarded.

#### Copies for Deposit

6. A student admitted to this degree must correct their thesis, if required, to the satisfaction of the Head of Department and deposit one hard-bound copy of the thesis with the Graduate Centre and a digital copy within three months of admission to this degree.
7 One hard-bound copy and a digital copy of the thesis must be deposited in the University of Auckland Library before the degree can be conferred.

Honours
8 The thesis for this degree is not graded and this degree may not be awarded with Honours.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2016.

The Degree of Master of Professional Studies – MProfStuds

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed:

   either
   a the requirements for a four-year Bachelors degree
   or
   b the requirements for a Bachelors (Honours) degree
   or
   c the requirements for a Bachelors degree
      and
      (i) to enrol in the Education or Mathematics Education or Teaching Chinese in Schools specialisations, a professional qualification in Education equivalent to one year’s advanced study
      or
      (ii) to enrol in a specialisation other than Education or Mathematics Education, either a professional qualification equivalent to one year’s advanced study or at least three years of professional experience deemed relevant to this programme by Senate or its representative
      and
   d to enrol in the Education or Mathematics Education specialisations, at least three years of teaching experience
      and
   e to enrol in the Mathematics Education specialisation, to be currently holding a teaching position
      and
   f to enrol in the Teaching Chinese in Schools specialisation, attained a proficiency level in Chinese of at least HSK Level 5 or its equivalent
      and
   g any prerequisites for the courses in the subject area in which they wish to enrol.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
      and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Professional Studies Schedule.

5 The programme for students enrolling in the International Relations and Human Rights, Language Teaching, and Translation specialisations requires the approval of the relevant Academic Head or nominee and the Dean of Faculty of Arts. The programme for students enrolling in the Education specialisation requires the approval of the Dean of Faculty of Education and Social Work. The programme for students enrolling in the Teaching Chinese in Schools specialisation requires the approval of the Dean of Faculty of Education and Social Work and the Dean of Faculty of Arts. The programme for students enrolling in the Food Safety specialisation requires the approval of the Director of Food Science. The programme for students enrolling in the Mathematics Education specialisation requires the approval of the Head of Department of Mathematics and the Dean of Faculty of Science. The programme for students enrolling in the Data Science or Digital Security specialisations requires the approval of the Head of Department of Statistics or the Head of Department of Computer Science and the Dean of Faculty of Science.
6 Students in the Master of Professional Studies in Education must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken. If this Grade Point Average is not achieved, enrolment in the Master of Professional Studies in Education cannot continue without the approval of the Programme Leader.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Dissertation and Research Portfolio
9 A dissertation or research portfolio, when included in the programme, is to be carried out under the guidance of a supervisor appointed by the Senate or its representative.
   b The dissertation or research portfolio topic must be approved by the relevant Head of Department or Programme Coordinator prior to enrolment.
   c The dissertation or research portfolio is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Reassignment
11 A student may apply to reassign the courses passed for the Education specialisation to the Postgraduate Certificate in Education.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

| • 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757 |
| • 60 points: EDCURRIC 797 or EDPROFST 793 or EDPROFM 797 Dissertation |
| The approval of the Heads of all Departments in which a student applies to enrol is required. |

| Requirement: Taught Masters |
| • 60 points: FOODSCI 711–714 |
| • 45 points: FOODSCI 797 Project |
| • 15 points from FOODSCI 715–717, or other courses as approved by the Programme Director |

| Mathematics Education |
| Requirement: Taught Masters |
| • at least 45 points from ENGSCI 701–772, MATHS 701–789, STATS 701–703, 705, 708–787 |
| • up to 30 points from EDPROFST 787, or other 700 level courses |

International Relations and Human Rights
The MProfStuds in International Relations and Human Rights was suspended in 2018. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Requirement:
Taught Masters
• 15 points: POLITICS 750
• 60 points from DEVELOP 709, 710, ECON 741, 742, 771, EDUC 715, LAENVIR 710, LAWGENRL 702, LAWPUBL 726, 732, 736, 743, PHIL 767, POLITICS 702, 706, 707, 724, 740, 746, 751, 754, 763, 768, 770–773, 776, SOCIOL 713
• 45 points: POLITICS 789 Dissertation

If POLITICS 750 has been passed prior to enrolment for this degree another course may be substituted for it with the approval of the Programme Coordinator.
Certificate in Global Studies – CertGlobalSt

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this certificate, a student must have:
   a. been enrolled in the Degree of Bachelor of Global Studies, or a conjoint programme that includes the Bachelor of Global Studies as a component degree, at this University
   b. passed at least 60 points for that degree
   c. been recommended for admission by the Dean or nominee.

Total Points Value
2. A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3. Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Global Studies Schedule.

4. A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6. These regulations came into force on 1 January 2021.

The University of Auckland Tertiary Foundation Certificate – TFC

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this certificate a student must:
   a. be a New Zealand citizen or permanent resident of New Zealand
   and
   b. (i) have completed Year 12 at a New Zealand secondary school or its equivalent at least one calendar year prior to applying for entry
   or
   (ii) in special circumstances be eligible for Special Admission to the University.

Duration and Total Points Value
2. A student enrolled in the certificate must follow a programme of the equivalent of two full-time semesters and pass courses to the value of 120 points. In exceptional circumstances part-time enrolment may be approved.

Structure and Content
3. A student enrolled for this certificate must complete the requirements as listed in the Tertiary Foundation Certificate Schedule

4. The programme for each student requires the approval of the Coordinator of the Certificate.

5. A student enrolled in this certificate must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
6 A student who fails a course may, with the permission of the Coordinator of the Certificate, sit a subsequent examination for that course providing that:
   a the student has achieved an average grade of C+ in the courses taken for this Certificate and
   b achieved a grade of not less than D for the course in question.

7 The subsequent examination must be undertaken within two weeks of the notification of results to students.

8 A student may re-sit a maximum of 15 points towards completion of the Tertiary Foundation Certificate.

Variations
9 a A student who achieves a Grade Point Average of 7.0 in the first 60 points of this certificate may enrol in a Stage I course in their second semester, with the approval of the Coordinator of the Certificate.
   b Credit may be granted toward a Bachelors degree at this University for the Stage I course completed under Regulation 9a.

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Diploma in Global Studies – DipGlobalSt

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Global Studies, or a conjoint programme that includes the Bachelor of Global Studies as a component degree, at this University and
   b passed at least 120 points for that degree and
   c been recommended for admission by the Dean or nominee.
Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Global Studies Schedule.
4 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Academic Practice – PGCertAcadPrac

New admissions into the PGCertAcadPrac were suspended in 2018. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.
The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to:
   a have completed the requirements for any degree approved by Senate or its representative
   and
   b be currently employed in the tertiary education sector and have significant teaching responsibilities and/or roles in supporting student learning.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must pass 60 points from the courses listed in the Postgraduate Certificate in Academic Practice Schedule.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2014.

Postgraduate Diploma in Bioscience Enterprise – PGDipBioEnt

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) or Bachelor of Science or Bachelor of Technology or Bachelor of Science (Honours)
   or (ii) attained an equivalent qualification approved by Senate or its representative
   and
   b (i) completed one of the relevant subject majors as listed in the Postgraduate Diploma in Bioscience Enterprise Schedule
   or (ii) attained a level of competence equivalent to the prerequisites for the courses in the selected subject major for the Postgraduate Diploma in Bioscience Enterprise as approved by Senate or its representative.

2 A student may, if Senate or its representative gives approval, enrol for this postgraduate diploma without having fulfilled all the prerequisite requirements, provided that the Director of School may require any such student to enrol for any or all of the prerequisite courses not already passed in addition to the normal requirements of this programme.

3 a A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed courses with a total value of at least 345 points towards that degree may, with the approval of the Director of School enrol for this postgraduate diploma. The remaining courses for the Bachelor of Science must be taken and passed within 12 months of initial enrolment for this postgraduate diploma. Should the requirements for the Bachelor of Science not be completed within these 12 months, enrolment for the Postgraduate Diploma in Bioscience Enterprise will be suspended until the requirements for the Bachelor's degree are completed.
   or
   b A student who has not completed the requirements of the Degree of Bachelor of Engineering (Honours), but who has passed courses with a total value of at least 465 points towards that degree may, with the approval of the Director of School enrol for this postgraduate diploma. The remaining courses for the Bachelor of Engineering (Honours) must be taken and passed within 12 months of initial enrolment for this postgraduate diploma. Should the requirements for the Bachelor of Engineering (Honours) not be completed within these 12 months, enrolment for the Postgraduate Diploma in Bioscience Enterprise will be suspended until the requirements for the Bachelor's degree are completed.

Duration and Total Points Value
4 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

5 The total enrolment for this postgraduate diploma must not exceed 160 points.
Structure and Content
6 A student enrolled for this postgraduate diploma must pass 120 points from courses listed in the Postgraduate Diploma in Bioscience Enterprise Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Director of School or equivalent.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
10 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

**Postgraduate Diploma in Bioscience Enterprise (PGDipBioEnt) Schedule**

**Prerequisite:** A BSc or BSc(Hons) with a major in Biological Sciences, Bioinformatics, Biomedical Science, Food Science, Medicinal Chemistry, Pharmacology or Physiology, or a BE in Biomedical Engineering; or a BPharm; or a BTech in Biotechnology

**Requirement:**
- 90 points: SCIENT 701–706
- 30 points from approved 700 level courses in Biological Sciences, Medical Science, Food Science or Bioscience Enterprise listed in the Postgraduate Diploma in Science Schedule, or courses from other approved programmes

</table>

2 Except as otherwise specified in these regulations, each student’s programme is to be governed by the regulations for each of the component degrees.

3 Only when all the requirements for both component degrees have been satisfied may the two degrees be conferred upon the student.

Admission
4 Admission to a conjoint degree programme may be at initial enrolment, or after the student has passed or been credited with not more than 270 points for either component degree, but the student must not have graduated in either of the component degrees.

5 a A student seeking admission to a conjoint degree programme must gain admission to each of the component degrees and
achieve a standard equivalent to a Grade Point Average of at least 3.9, except for the Bachelor of Advanced Science (Honours) and the Bachelor of Engineering (Honours) which require a Grade Point Average of at least 5.5 in the previous year of full-time study.

Continuation
6 In order to continue in a conjoint degree programme, a student needs to achieve a Grade Point Average of at least 3.5 each year, except for the Bachelor of Engineering (Honours) conjoint degrees which require a GPA of 4.0 each year, and Bachelor of Advanced Science (Honours) conjoint degrees which require a Grade Point Average of 5.0 each year.

7 A student who has been discontinued from a conjoint degree programme due to the continuation requirement specified in Regulation 6 may re-apply for admission under these regulations. To be eligible for re-admission:
   a the student must have achieved a Grade Point Average of at least 3.5, 4.0 for the Bachelor of Engineering (Honours) or 5.0 for the Bachelor of Advanced Science (Honours), in the most recent 120 points of study towards one or more of the component degrees following the student’s discontinuation. In exceptional circumstances the required Grade Point Average may be waived by Senate or its representative. If a student has fewer than 120 points to complete then they may apply for readmission immediately.
   b neither of the component degrees can have been awarded.

8 A student must state the reasons for re-admission, and include evidence where applicable. Where such application is made, the Deans or nominees of the respective faculties may:
   a permit the student to be readmitted to the conjoint degree programme
   b permit the student to be readmitted under specific conditions
   c decline readmission.

9 A student may be readmitted to a conjoint degree programme once, other than in exceptional circumstances approved by Senate or its representative.

Approval
10 As a condition of approval, a student may be required to include in a conjoint programme:
   a a specified major subject or specialisation
   b specified elective courses.

Total Points Value
11 The total points required for each conjoint degree programme is stated in the Conjoint Degree Schedule and includes the General Education requirement, where applicable.

Academic Integrity
12 All students must pass the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education
13 All students enrolled in a conjoint degree programme, except students enrolled in a BE(Hons)/LLB and BE(Hons)/LLB(Hons), must pass 15 points from courses listed in either the General Education Open Schedule or either of the General Education Faculty Schedules approved for the component degrees for the conjoint degree programme.

General Education Exemptions
14 a A student is exempted from the requirement to pass a course offered in the General Education Schedule who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for their degree at a tertiary institution before 1 January 2006.
   b A student who has been admitted to either component degree of a conjoint degree programme who has completed 120 points or more of degree-level study at another tertiary institution is exempted from the General Education requirement for the conjoint degree.
   c A student who has been exempted from the General Education requirement must substitute 15 points from courses available for the component degrees.

Suspension
15 A student may in any year totally suspend study for both component degrees of a conjoint degree programme.

Additional Component Degrees/Diplomas
16 a If a student has satisfied the requirements of one (but not both) of the component degrees and would be eligible to have that degree conferred, the relevant Dean may approve the suspension of enrolment for the
conjoint degree programme to allow the student to enrol for a relevant honours or Masters degree or diploma. In that case the total number of points passed must satisfy the regulations specified for that postgraduate programme.

b With the approval of the relevant Deans, a student who suspends their study in a conjoint degree programme to pursue a graduate programme may subsequently complete the conjoint degree programme provided they have not graduated with either of the component degrees in the meantime.

Graduation
17 Graduation in one component of the conjoint degree constitutes a discontinuation of the conjoint degree programme.
18 A student must graduate in both components of the conjoint degree in one or more ceremonies in the same graduation period.

Variations
19 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
20 These regulations and/or schedule have been amended with effect from 1 January 2021.

The specific requirements for each conjoint degree programme can be found in the Conjoint Degree Schedule and the Conjoint Component Requirements Schedule.

Conjoint Degree Schedule

Bachelor of Arts/Bachelor of Advanced Science (Honours) – BA/BAdvSci(Hons)
1 A student must pass courses with a total value of 660 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Commerce – BA/BCom
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
2 For the BA/BCom conjoint degree programme, a student may not major in both Employment Relations and Organisation Studies in the BA component, and Management in the BCom component.

Bachelor of Arts/Bachelor of Design – BA/BDes
1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Engineering (Honours) – BA/BE(Hons)
1 Of the 690 points required for the BA/BE(Hons) conjoint degree programme, a student must pass:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
Bachelor of Arts/Bachelor of Fine Arts – BA/BFA
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Fine Arts (Honours) – BA/BFA(Hons)
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 390 points required for the BFA(Hons) component, including:
      (i) Part I: 90 points: FINEARTS 101–104
      (ii) Part II: 90 points: FINEARTS 204, and 207 or 208, and 209 or 212
      (iii) Part III: 90 points: FINEARTS 305, and 308 or 309, and 310 or 311
      (iv) Part IV: 120 points: FINEARTS 790
   and
   c a further 15 points from courses available for any programme at this University.

Note: Any student who achieves a grade in FINEARTS 790 that is not of Honours standard will be awarded the Degree of Bachelor of Arts/Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degrees of Bachelor of Arts/Bachelor of Fine Arts (Honours) will be reassigned to the Degrees of Bachelor of Arts/Bachelor of Fine Arts.

Bachelor of Arts/Bachelor of Global Studies – BA/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Health Sciences – BA/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Music – BA/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

2 The BA component of the conjoint BA/BMus combination is not to include more than 30 points from the subject Music.

Bachelor of Arts/Bachelor of Science – BA/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
and

c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Laws – BA/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Laws (Honours) – BA/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Commerce – BAdvSci(Hons)/BCom
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Design – BAdvSci(Hons)/BDes
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Engineering (Honours) – BAdvSci(Hons)/BE(Hons)
1 A student must pass courses with a total value of 810 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Fine Arts – BAdvSci(Hons)/BFA
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Global Studies – BAdvSci(Hons)/BGlobalSt
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
and b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule and
c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Health Sciences – BAdvSci(Hons)/BHSc
1 A student must pass courses with a total value of 660 points, including:
  a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule and
  b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule and
  c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Music – BAdvSci(Hons)/BMus
1 A student must pass courses with a total value of 660 points, including:
  a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule and
  b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule and
  c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Nursing – BAdvSci(Hons)/BNurs
1 A student must pass courses with a total value of 690 points, including:
  a 375 points required for the BAdvSci(Hons) component, including:
    (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
    (ii) at least 270 points above Stage I, including at least 195 points above Stage II
    (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
    (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
    (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
    (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule and
  b 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule and
  c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Property – BAdvSci(Hons)/BProp
1 A student must pass courses with a total value of 660 points, including:
  a 375 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including:
    (i) STATS 101
    (ii) at least 270 points above Stage I, including at least 195 points above Stage II
    (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
    (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
    (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
    (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule and
  b 255 points required for the BProp component, including:
    (i) 165 points: PROPERTY 102, 211, 221, 231, 241, 251, 261, 271, 281, ECON 151 or 152, COMLAW 101
    (ii) at least 90 points from PROPERTY 311–384 and
  c a further 15 points from courses available for any programme at this University.
Bachelor of Advanced Science (Honours)/Bachelor of Laws – BAdvSci(Hons)/LLB

1 A student must pass courses with a total value of 795 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Laws (Honours) – BAdvSci(Hons)/LLB(Hons)

1 A student must pass courses with a total value of 855 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Design – BCom/BDes

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Engineering (Honours) – BCom/BE(Hons)

1 A student must pass courses with a total value of 690 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 90 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110
      (ii) 15 points from BUSINESS 350-353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
      at least 45 points must be at Stage III in each major
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Fine Arts – BCom/BFA

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Global Studies – BCom/BGlobalSt

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Health Sciences – BCom/BHSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
b 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
   (i) the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
   (ii) 120 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210
   (iii) a further 45 points from MAORIHTH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIIPH 200
   (iv) 15 points from ANTHRO 100, 102, BIOSCI 107, CHEM 110, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142,
       PHIL 104, PSYCH 108, 109, SOCIOL 101, 103

   and

   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Music – BCom/BMus

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Property – BCom/BProp

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points required for the BProp component, including:
      (i) 150 points: PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
      (iv) 30 points from PROPERTY 300, 311–351, 370–385 or another course listed in the BCom Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Science – BCom/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

2 A student in the Information and Technology major for the BSc component is not permitted to take both the
   Business Analytics and Information Systems majors for the BCom component.

Bachelor of Commerce/Bachelor of Sport, Health and Physical Education – 
BCom/BSportHPE

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points from the courses listed in the Bachelor of Sport, Health and Physical Education Schedule, including:
      (i) 60 points: EDPROFM 100, SPORTHPE 101, 102, 103
      (ii) 15 points from another Stage I course listed in the Bachelor of Sport, Health and Physical Education Schedule
      (iii) 90 points: EDUCSW 201, HEALTHED 201, SPORT 202, SPORTHPE 201, 202, 203
      (iv) 15 points: EDUCSW 302
      (v) 60 points from other Stage III courses listed in the Bachelor of Sport, Health and Physical Education Schedule
   and
   c a further 15 points from the Bachelor of Sport, Health and Physical Education Schedule

   and

   c a further 15 points from courses available for any programme at this University.
Bachelor of Commerce/Bachelor of Laws – BCom/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Laws (Honours) – BCom/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Engineering (Honours) – BDes/BE(Hons)

1 A student must pass courses with a total value of 690 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the Be(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Fine Arts – BDes/BFA

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Global Studies – BDes/BGlobalSt

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Health Sciences – BDes/BHSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Design/Bachelor of Music – BDes/BMus

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Property – BDes/BProp

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Science – BDes/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Laws – BDes/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Laws (Honours) – BDes/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Fine Arts – BE(Hons)/BFA

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Fine Arts Schedule including:
      (i) 180 points: FINEARTS 110–113, 320, 321, 322, SCIGEN 201
      (ii) 75 points consisting of:
           (a) at least 15, but no more than 45, points from FINEARTS 220–236
           (b) at least 30, but no more than 60, points from FINEARTS 240–250

Bachelor of Engineering (Honours)/Bachelor of Global Studies – BE(Hons)/BGlobalSt

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule.
Bachelor of Engineering (Honours)/Bachelor of Music – BE(Hons)/BMus

1. A student must pass courses with a total value of 690 points, including:
   a. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and
   b. 255 points as listed in the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:
      (i) Creative Practice: Classical:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
         (c) 15 points from MUS 191–194, 291–294
         (d) 15 points from MUS 391–394
         (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
         (c) 15 points: MUS 365
      (iii) Creative Practice: Jazz:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
         (c) 15 points: MUS 365
      (iv) Creative Practice: Popular Music:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 180, 181, 196, 280, 281, 282, 284, 287, 288, 380, 381, 382
         (c) 15 points: MUS 365
      (v) Music Studies:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
         (c) 45 points from MUS 106, 130, 145, 162
         (d) 15 points: MUS 365

Bachelor of Engineering (Honours)/Bachelor of Property – BE(Hons)/BProp

1. A student must pass courses with a total value of 690 points, including:
   a. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and
   b. 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Science – BE(Hons)/BSc

1. A student must pass courses with a total value of 690 points, including:
   a. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and
   b. 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Laws – BE(Hons)/LLB

1. A student must pass courses with a total value of 825 points, including:
   a. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and
   b. 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Laws (Honours) – BE(Hons)/LLB(Hons)

1. A student must pass courses with a total value of 885 points, including:
   a. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and
b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

---

**Bachelor of Fine Arts/Bachelor of Global Studies – BFA/BGlobalSt**

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

---

**Bachelor of Fine Arts/Bachelor of Health Sciences – BFA/BHSc**

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
      (ii) 120 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210
      (iii) 45 points from MĀORIHTH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIIPH 200
      (iv) 15 points from ANTHRO 100, 102, BIOSCI 107, CHEM 110, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142, PHIL 102, POLITICS 113, PSYCH 108, 109, SOCIOL 101, 103
   and
   c a further 15 points from courses available for any programme at this University.

---

**Bachelor of Fine Arts/Bachelor of Music – BFA/BMus**

1 A student must pass courses with a total value of 540 points, including:
   a 255 points from as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

---

**Bachelor of Fine Arts/Bachelor of Science – BFA/BSc**

1 A student must pass courses with a total value of 540 points, including:
   a 255 points from as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

---

**Bachelor of Fine Arts/Bachelor of Laws – BFA/LLB**

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

---

**Bachelor of Fine Arts/Bachelor of Laws (Honours) – BFA/LLB(Hons)**

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

---

**Bachelor of Global Studies/Bachelor of Health Sciences – BGlobalSt/BHSc**

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Schedule
(ii) 135 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 202, 204, 210, STATS 101
(iii) 30 points from MAORIHTH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCH 200
(iv) 15 points from ANTHRO 100, 102, BIOSCI 107, CHEM 110, ECON 151, 152, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142, PHIL 104, PSYCH 108, 109, SOCIOL 101, 103
and
  a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Music – BGlobalSt/BMus
1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Property – BGlobalSt/BProp
1 A student must pass courses with a total value of 540 points, including:
   a 255 points from courses listed in the Bachelor of Global Studies Schedule, including:
      (i) 45 points: GLOBAL 100, 200, 300
      (ii) at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
      (iii) (a) a major in Global Environment and Sustainability of at least 120 points, of which at least 45 points
           must be above Stage II; including ECON 151 or 152 and other courses as listed in the Bachelor of Global Studies Schedule for this major
           (b) 60 points from courses listed in one of the languages in the Bachelor of Global Studies Schedule, of
               which 30 points must be above Stage I
           (c) 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule
               that is associated with the chosen Language, of which at least 15 points must be above Stage II
   and
   b 255 points required for the BProp component, including:
      (i) 180 points: INFOSYS 110, PROPERTY 102, 103, 211–281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Science – BGlobalSt/BSc
1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Laws – BGlobalSt/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Laws (Honours) – BGlobalSt/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.
Bachelor of Health Sciences/Bachelor of Nursing – BHSc/BNurs

1 A student must pass courses with a total value of 570 points, including:
   a 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
      (ii) 150 points: BIOSCI 107, HLTHPSYC 122, MAORIHITH 201, POPLHLTH 101, 102, 111, 202, 204, 210, STATS 101
      (iii) a further 30 points from MAORIHITH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIPH 200
   b 300 points required for the BNurs component, including:
      (i) 285 points: MEDSCI 142, NURSING 105, 199, 201, 202, 301, 302
      (ii) 15 points from CHEM 110, NURSING 104

Bachelor of Health Sciences/Bachelor of Science – BHSc/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Laws – BHSc/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Laws (Honours) – BHSc/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Science – BMus/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Music/Bachelor of Laws – BMus/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:
      (i) Creative Practice: Classical:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
         (c) 15 points from MUS 191–194, 291–294
         (d) 15 points from MUS 391–394
         (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
         (c) 15 points from MUS 365
      (iii) Creative Practice: Jazz
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
         (c) 15 points: MUS 365
(iv) Creative Practice: Popular Music
(a) 60 points: MUS 104, 143, 243, 343
(b) 180 points: MUS 180, 181, 196, 280, 281, 282, 284, 287, 288, 380, 381, 382
(c) 15 points: MUS 365
(v) Music Studies:
(a) 60 points: MUS 104, 143, 243, 343
(b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
(c) 45 points from MUS 106, 130, 145, 162
(d) 15 points: MUS 365

and

b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Laws (Honours) – BMus/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:
      (i) Creative Practice: Classical:
          (a) 60 points: MUS 104, 143, 243, 343
          (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
          (c) 15 points from MUS 191–194, 291–294
          (d) 15 points from MUS 391–394
          (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
           (a) 60 points: MUS 104, 143, 243, 343
           (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
           (c) 15 points: MUS 365
      (iii) Creative Practice: Jazz:
           (a) 60 points: MUS 104, 143, 243, 343
           (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
           (c) 15 points: MUS 365
      (iv) Creative Practice: Popular Music:
           (a) 60 points: MUS 104, 143, 243, 343
           (b) 180 points: MUS 180, 181, 196, 280, 281, 282, 284, 285, 287, 380, 381, 382
           (c) 15 points: MUS 365
      (v) Music Studies:
           (a) 60 points: MUS 104, 143, 243, 343
           (b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
           (c) 45 points from MUS 106, 130, 145, 162
           (d) 15 points: MUS 365

and

b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Nursing/Bachelor of Science – BNurs/BSc

1 A student must pass courses with a total value of 570 points, including:
   a 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule
      (i) 45 points: NURSING 105, 199, POPLHLTH 111
      (ii) 240 points: NURSING 201, 202, 301, 302
   and
   b 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
      (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
      (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule
Bachelor of Property/Bachelor of Science – BProp/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      (i) STATS 108
      (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
      (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

Bachelor of Property/Bachelor of Laws – BProp/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points required for the BProp component, including:
      (i) 180 points: BUSINESS 115 or ECON 152, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Property/Bachelor of Laws (Honours) – BProp/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points required for the BProp component, including:
      (i) 180 points: BUSINESS 115 or ECON 152, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Science/Bachelor of Laws – BSc/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Science/Bachelor of Laws (Honours) – BSc/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.
## Conjoint Component Requirements Schedule

### Bachelor of Advanced Science (Honours) – BAdvSci(Hons)
375 points from courses listed as available for the BSc or BSc(Hons) Schedules, including:
- at least 270 points above Stage I, including at least 195 points above Stage II
- courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
- at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
- the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
- the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
For the BAdvSci(Hons) component, students may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included.

### Bachelor of Arts – BA
255 points from courses listed in the Bachelor of Arts Schedule, including:
- the requirements for one or more majors as specified in the Bachelor of Arts Regulations and Schedule of which at least 45 points must be above Stage II for each major
- at least 165 points above Stage I, of which at least 75 points must be above Stage II

### Bachelor of Commerce – BCom
255 points from courses listed in the Bachelor of Commerce Schedule, including:
- 105 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110, STATS 100 or 108
- 15 points from BUSINESS 350–353
- at least 135 points above Stage I including at least 75 points above Stage II
- the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which at least 45 points must be at Stage III in each major
A student may substitute one or more other courses for one or more of the above courses with the permission of Senate or its representative.

### Bachelor of Design – BDes
255 points:
- 165 points: DESIGN 100, 101, 200, 201, 300, 301, 302
- 90 points from DESIGN 210–243

### Bachelor of Engineering (Honours) – BE(Hons)
420 points, including:
- 105 points: CHEMMAT 121, ELECTENG 101, ENNGEN 115, 121, 131, 140, 199, ENGSCE 111
- 15 points: ENNGEN 204
- 195 points from courses listed for Parts II and III for a specialisation in the Bachelor of Engineering (Honours) Schedule as approved by the relevant Head of Department
- 105 points from Part IV (including ENNGEN 403) for a specialisation in the Bachelor of Engineering (Honours) Schedule as approved by the relevant Head of Department
A student may substitute one or more other courses for one or more of the courses listed in the BE(Hons) component with the permission of Senate or its representative.

### Bachelor of Fine Arts – BFA
255 points:
- 90 points: FINEARTS 110–113
- 30 points from FINEARTS 220–236
- 60 points from FINEARTS 240–250
- 75 points: FINEARTS 320–322

### Bachelor of Global Studies – BGlobalSt
255 points from courses listed in the Bachelor of Global Studies Schedule, including:
- at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
- a major of at least 120 points, of which at least 45 points must be above Stage II, from one of the subjects available for majors in the Bachelor of Global Studies Schedule
- 60 points from one of the languages listed in the Bachelor of Global Studies Schedule, of which 30 points must be above Stage I
- 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is associated with the chosen Language, of which at least 15 points must be above Stage II
A student may substitute one or more other courses for one or more of the above courses with the permission of Senate or its representative.

### Bachelor of Health Sciences – BHSc
255 points, including
- the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
- 135 points: HLTHPSYC 122, MAORIHTH 201, POPPLHTH 101, 102, 111, 202, 204, 210, STATS 101
- a further 30 points from MAORIHTH 301, POPPLHTH 203, 206–208, 211–216, 301, 303–316, SOCSCHP 200
- 15 points from ANTHRO 100, 102, BIOSCI 110, ECON 151, 152, GENDER 101, GEOG 102, MAORI 130, MEDSCI 142, PHIL 104, PSYCH 108, 109, SOCIOI 101, 103

### Bachelor of Laws – LLB
405 points:
- 45 points: LAW 121 or 121G, 131, 141
- 360 points from LLB Parts II, III and IV

### Bachelor of Laws (Honours) – LLB(Hons)
465 points:
- 45 points: LAW 121 or 121G, 131, 141
- 360 points from LLB Parts II, III and IV
- 20 points from LAWHONS 702–749
- 40 points: LAWHONS 789 Dissertation

### Bachelor of Music – BMus
255 points from courses listed in the Bachelor of Music Schedule including one of the following major specialisations:

**Creative Practice: Classical:**
- 60 points: MUS 104, 143, 243, 343
- 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
- 15 points from MUS 191–194
- 15 points from MUS 391–394
- 15 points from MUS 306–340, 345–389

**Creative Practice: Composition:**
- 60 points: MUS 104, 143, 243, 343
- 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
- 15 points from MUS 306–340, 345–389
Creative Practice: Jazz:
• 60 points: MUS 104, 143, 243, 343
• 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
• 15 points from MUS 306–340, 345–389
Creative Practice: Popular Music:
• 60 points: MUS 104, 143, 243, 343
• 180 points: MUS 180, 181, 196, 280, 281, 282, 284, 287, 288, 380, 381, 382
• 15 points from MUS 306–340, 345–389
Music Studies:
• 60 points: MUS 104, 143, 243, 343
• 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
• 45 points from MUS 106, 130, 145, 162

Bachelor of Nursing – BNurs
285 points, including:
• 45 points: NURSING 105, 199, POPLHLTH 111
• 240 points: NURSING 201, 202, 301, 302

Bachelor of Property – BProp
255 points:
• 180 points: BUSINESS 114, 115 or ECON 152, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
• 15 points from PROPERTY 360–364
• 60 points from PROPERTY 300, 311–351, 370–385

Bachelor of Science – BSc
255 points from courses listed as available in the Bachelor of Science Schedule, including:
• at least 150 points above Stage I, of which at least 75 points must be above Stage II
• courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
• the requirements for one or more majors as listed in the Bachelor of Science Schedule
• 15 points from an approved capstone course listed in the Bachelor of Science Schedule
For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.
Regulations – Foundation Studies, Other Programmes and Courses

Foundation Studies
487 The Foundation Certificate in English for Academic Purposes – FCertEAP
488 Foundation Studies Certificate – FoundStCert
489 The University of Auckland Certificate in Foundation Studies – CertFoundSt

Other Programmes
489 Certificate of Proficiency – COP
490 Northern Hemisphere Summer Research Scholarship Programme
490 Summer Research Scholarship Programme
491 Transitional Certificate – TransCert

491 Academic English Studies
492 New Start for Adults
493 Public Programmes – Event Services
493 English Language Academy – ELA
REGULATIONS – FOUNDATION STUDIES

The Foundation Certificate in English for Academic Purposes – FCertEAP

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student must:
   a (i) be an international student permitted to study in New Zealand and
   (ii) (a) have obtained an English language proficiency score of not less than 5.0 in the International English Language Testing System (IELTS) or its equivalent in another such English Language Test recognised by the University of Auckland, for undergraduate conditional offers of admission or
   (b) have obtained an English language proficiency score of not less than 5.5 in the International English Language Testing System (IELTS) or its equivalent in another such English Language Test recognised by the University of Auckland, for postgraduate conditional offers of admission and
   (iii) (a) have received a conditional offer of admission to the University of Auckland or another tertiary education institution in New Zealand or
   (b) have obtained a recognised high school qualification in another country which entitles the student to qualify for ad eundem statum admission to a New Zealand university
   b (i) be a citizen or permanent resident of New Zealand and either
   (ii) (a) have obtained a recognised high school qualification in another country which entitles the student to qualify for ad eundem statum admission to a New Zealand university and
   (b) have obtained an English language proficiency score of not less than 5.0 in the International English Language Testing System (IELTS) or its equivalent in another such English Language Test recognised by the University of Auckland, for undergraduate conditional offers of admission or
   have obtained an English language proficiency score of not less than 5.5 in the International English Language Testing System (IELTS) or its equivalent in another such English Language test recognised by the University of Auckland, for postgraduate conditional offers of admission or
   (iii) have completed year 13 in a New Zealand secondary school, but not met the standard for University Entrance.

Note: Students who gain admission to the programme under 1b(iii) and who successfully complete the certificate may apply for Discretionary Entrance to the University under the Admission Regulation 6b. The Certificate is not an alternative to fulfilment of the literacy requirement for entrance from a New Zealand secondary school, but will be taken into account in the consideration of applications for Discretionary Entrance.

Duration and Total Points Value

2 A student enrolled for this certificate has to follow an approved full-time programme of the equivalent of one semester and pass courses with a total value of 60 points.

Structure and Content

3 a A student with an undergraduate conditional offer of admission enrolled in this certificate must pass: ACADINT A01 Academic Integrity Course ENGLACP 20P English for Academic Purposes Level 1 ENGLACP 30P English for Academic Purposes Level 2

b A student with a postgraduate conditional offer of admission enrolled in this certificate must pass: ACADINT A01 Academic Integrity Course ENGLACP 30P English for Academic Purposes Level 2 ENGLACP 40P English for Academic Purposes Level 3

Variations

4 In exceptional circumstances the Academic Board or its representative may approve a personal programme which does not conform to these regulations.
Amendment
5 These regulations have been amended with effect from 1 January 2017.

Foundation Studies Certificate – FoundStCert

The Foundation Studies Certificate is intended to prepare students whose first language is not English for admission to the University of Auckland in particular and to New Zealand universities in general. Suitably qualified students who meet the minimum entrance requirements upon entry to this certificate may also be required to include English Language Acquisition courses offered by the University of Auckland.

Admission
1 In order to be admitted to this programme a student needs to have:
   a completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies
   and
   b a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5, in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland.

Duration
2 Students enrolled for this certificate must follow an approved programme of:
   a at least 41 weeks (standard delivery) if they have undertaken secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies; and have a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5 in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland
   or
   b at least 31 weeks (intensive delivery) if they have undertaken secondary schooling to at least NCEA Level 2, and achieved a minimum of 48 credits at NCEA Level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies; and have a level of English language proficiency equivalent to a score of 5.5 with no band less than 5.0 in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland

Structure and Content
3 A student enrolled for this certificate must complete:
   a English for Academic Purposes
   and
   b four courses from Accounting, Art, Biology, Chemistry, Classical Studies, Economics, Geography, Information Technology, Mathematics and Statistics, Mathematics with Calculus, Physics, or other courses equivalent to NCEA Level 3 approved by the Academic Director.

4 Students must:
   a achieve at least 65 percent in English for Academic Purposes
   or
   b achieve at least 50 percent in English for Academic Purposes and pass IELTS with an overall score of at least 6.0 in the academic module
   or
   c have completed the Foundation Certificate for Academic Purposes or English Pathway for Undergraduate Studies from the English Language Academy, with a C- or higher.

5 Students must complete all required class work and written examinations which will be equivalent in standards to NCEA Level 3.

6 The programme of each student must be approved by the Academic Director.

7 A student enrolled in this certificate must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

University Entrance
8 Students who satisfactorily complete this certificate will meet the requirements for University Entrance.
The University of Auckland Certificate in Foundation Studies – CertFoundSt

The University of Auckland Certificate in Foundation Studies Programme is intended to prepare students whose first language is not English for admission to the University of Auckland in particular and to New Zealand universities in general. Suitably qualified students who meet the minimum entrance requirements upon entry to the Programme may also be required to include English Language Acquisition courses offered by the University of Auckland.

Admission
1 In order to be admitted to this programme a student needs to:
   a satisfy the Academic Board that they have completed secondary schooling to at least the equivalent of NCEA Level 2.
   b have a level of English language proficiency equivalent to a score of 5.0 in the International English Language Testing System (IELTS).

Duration
2 Students enrolled for this certificate have to follow an approved programme of at least one semester.

Structure and Content
3 The programme consists of: English Language, Computer Skills, Study and Learning Skills, and at least four courses chosen from the following list of subjects:
   Accounting
   Calculus
   Chemistry
   Design
   Economics
   Geography
   Physics
   Statistics
   or other approved NCEA Level 3 subjects.

4 Students must:
   a pass at least four of the courses from the list above.
   and
   b (i) achieve a B grade in English for Academic Purposes
   or
   (ii) have passed an IELTS examination at a level approved by the Academic Board with an overall score of at least 6.0 and all bands 5.5 or better in the academic module
   or
   (iii) have completed the Foundation Certificate for Academic Purposes (FCertEAP) or English Pathway for Undergraduate Studies (EPUS) offered through the English Language Academy, with a C- or higher.

5 Students must complete all required class work and written examinations which will be similar in standard and content to NCEA Level 3.

6 The programme of each student must be approved by the Academic Board.

Admission to University
7 a Students who satisfactorily complete the Certificate in Foundation Studies will satisfy the minimum requirements for entry to the University.
   b Students who complete up to 30 points in University courses may apply to have those points credited towards a degree or diploma at the University.

REGULATIONS – OTHER PROGRAMMES

Certificate of Proficiency – COP

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to a Certificate of Proficiency, a student:
a requires the approval of the relevant Associate Dean Academic or nominee for the course or courses in which they intend to enrol
and
b must meet any prerequisite, corequisite or other conditions of the course or courses, or the Associate Dean Academic or nominee has, in approving the admission, waived those requirements.

Structure and Content
2 a Any course that is offered by the University of Auckland may be taken for a Certificate of Proficiency with the approval of the relevant Associate Dean or nominee.

b A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
3 a Provided any prerequisite, corequisite or other conditions for that qualification are met, a course passed for a Certificate of Proficiency may, with the approval of Senate or its representative and in conformity with the Credit Regulations, be subsequently reassigned to:
   (i) an undergraduate certificate, diploma or degree
   (ii) a Taught Masters degree, or the taught component of a Research Masters degree with a total points value of more than 120 points, a Bachelors Honours Postgraduate degree, a Postgraduate diploma or a Postgraduate certificate, as specified in Regulation 9d of the Credit Regulations.

b A course passed for a Certificate of Proficiency may not be reassigned to a Research Masters degree except as specified in 3b(ii) above.

c Where a course has already been credited to a qualification a student may enrol again for that course, or for another course whose content is substantially similar, for a Certificate of Proficiency. Such a course, when passed for Certificate of Proficiency, will not be reassigned to any qualification.

Amendment
4 These regulations have been amended with effect from 1 January 2021.

Northern Hemisphere Summer Research Scholarship Programme

Admission
1 In order to be admitted to this programme a student needs to:
   a have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   b be enrolled in an undergraduate degree or sub-doctoral postgraduate study at an international institution at the time of application
   and
   c have a Scholarships Grade Point Average/Grade Point Equivalent of 7.0 or higher in the most recent two years of equivalent full-time study
   and
   d be recommended for admission by the Dean or nominee.

Duration
2 Students must complete this programme within eight weeks of initial enrolment.

Structure and Content
3 A student enrolled for this programme must complete course SUMRESCH 302.

Amendment
4 These regulations have been amended with effect from 1 January 2019.

Summer Research Scholarship Programme

Admission
1 In order to be admitted to this programme a student needs to:
   a have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   b (i) be enrolled in an undergraduate degree or postgraduate diploma or Bachelor (Honours) degree at a New Zealand university at the time of application
   or
   (ii) have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   (iii) have a Scholarships Grade Point Average/Grade Point Equivalent of 7.0 or higher in the most recent two years of equivalent full-time study
   and
   (iv) have a firm research offer at a New Zealand university
   and
   (v) be recommended for admission by the Dean or nominee.
have been enrolled in an undergraduate degree at an international institution in the calendar year of the programme start date
and
have a Scholarships Grade Point Average/Grade Point Equivalent of 6.0 or higher (5.5 for Māori or Pacific students) in the most recent two years of equivalent full-time study
and
d be recommended for admission by the Dean or nominee.

Duration
2 Students must complete this programme within ten weeks of initial enrolment.

Structure and Content
3 A student enrolled for this programme must complete course SUMRESCH 301.

Amendment
4 These regulations have been amended with effect from 1 January 2019.

Transitional Certificate – TransCert
The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have completed the requirements for a degree of this University or other degree approved by Senate or its representative in any particular case.

Structure and Content
2 The programme consists of such course or courses at undergraduate level in a subject or subjects as Senate or its representative may require or approve.

3 The purpose of this programme is to fulfil the requirements for entry to a specific graduate degree, graduate or postgraduate diploma approved by Senate or its representative.

4 To be eligible for the award of a Transitional Certificate a student has to enrol for the graduate qualification for which the prerequisites were met by taking this programme.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
6 These regulations have been amended with effect from 1 January 2001.

OTHER UNIVERSITY COURSES

Academic English Studies
Academic English Studies offers credit courses for international students and New Zealand residents whose first language is not English.

A range of courses is offered with the aim of improving academic English skills and increasing proficiency in reading and writing for academic purposes. Students gain credit points for successfully passing each course.

ACADENG 100 develops skills in English grammar and vocabulary for academic reading and writing. ACADENG 101 focuses on academic writing, and the skills needed for basic academic essays. ACADENG 104 focuses on academic English skills to help Business students understand and express business-related concepts. At Stage II level, ACADENG 210 is an advanced academic writing course for students who need to write academic research reports.

ACADENG 100, ACADENG 101, and ACADENG 104 are approved courses for students who have not met the Academic English Language Requirement (AELR). ACADENG 104 can be taken as an elective but priority is given to Business students who need the course to meet the AELR.

Further information may be obtained from the School of Cultures, Languages and Linguistics, Faculty of Arts.
Phone: +64 9 373 7599 ext 86588.
New Start for Adults

New Start provides part-time University preparation courses for adults over the age of 20 who need skills and confidence to undertake academic study. No previous qualifications are required. Students are required to be New Zealand citizens or permanent residents.

Students gain information on the structure of university degrees, and an insight into the standard of work expected. Educational guidance is an integral part of New Start and ongoing planning is offered during the semester.

In addition, students are required to complete the University of Auckland Academic Integrity ACADINT A01 course while they are with New Start.

New Start General NSGEN 47

New Start General introduces students to many lecture topics in humanities, social sciences, education and law and offers tutorials, assignments with written feedback and a final test.

This is a 13-week part-time, day or evening course providing a comprehensive overview of first-year degree study. This course is compulsory for all students.

Depending on the final grade achieved students may apply for admission into an undergraduate degree in the faculties of Arts, Business, Education and Social Work and Law.

New Start General is offered at three campuses throughout the year: University of Auckland City Campus (Semester One or Semester Two), Te Papa Ako o Tai Tonga Campus, Manukau (Semester One or Semester Two) and Tai Tokerau Campus in Whāngarei (Summer School or Semester Two).

New Start Mathematics

Two mathematics options are taught at the University of Auckland City Campus: Mathematics Fundamentals NSMAT 10 and Mathematics Preparation for University NSMAT 14. Students intending to enrol in these courses must first sit a maths assessment.

Note that Mathematics Preparation for University is designed to be taken with New Start General as a pathway to Business School. Results will be used to recommend the best pathway for students.

Mathematics Fundamentals NSMAT 10

Mathematics Fundamentals NSMAT 10 is a short intensive course taught over four consecutive Saturdays in a workshop environment designed to build students’ skills and confidence. Students will be working together collaboratively, either as a class or in groups, but sometimes there will be lectures. The course includes workshops, assignments and a final test. Students who require additional mathematics support are advised to enrol in this course before undertaking Mathematics Preparation for University NSMAT 14.

This course is offered in Summer School or can be taken in the mid-semester break before the start of Semester Two.

Mathematics Preparation for University NSMAT 14

A variety of topics of everyday interest is explored with the aim of clarifying the underlying mathematics and statistics.

This is a 12-week part-time, evening course held in Semester One or Semester Two. The course includes workshops, lectures, assignments and a final test.

This course is compulsory and taken together with New Start General NSGEN 47 for students planning to pathway to an undergraduate degree in Commerce or Property at the University’s Business School.

A grade of A– or above achieved in this course and New Start General NSGEN 47 enables students to apply for admission to the Bachelor of Commerce or Bachelor of Property.

Further Information

Further information can be obtained from the

New Start Office,
Building 206,
14-16 Symonds Street,
Auckland.

Public Programmes – Event Services

Event Services offers lifelong learning opportunities to regional community and professional bodies through the delivery of courses, public lectures, workshops and conferences that all draw upon the expertise of the University.

Most courses are open to all adults and are taught in various formats including day and evening lectures, seminars and workshops. It is also possible to join undergraduate students in selected University lecture courses.

For more information visit www.publicprogrammes.ac.nz or email publicprogrammes@auckland.ac.nz

English Language Academy – ELA

The ELA provides a range of English language courses for international students including General English, Academic English, University pathway courses (providing entry to University of Auckland programmes), group courses, IELTS and PTE test preparation, and teacher training courses (for teaching English). The ELA is an accredited IELTS, Cambridge English and PTE Academic testing centre. Based at 67 Symonds St, the ELA provides students with a quality learning environment with qualified and experienced English language teachers, student services including pastoral care, a study centre, computing facilities, and a range of other support services for students. For more information visit: www.ela.auckland.ac.nz

GENERAL EDUCATION REGULATIONS AND SCHEDULES

General Education Regulations
1 Students required to include General Education in their programme must pass courses as specified in the General Education Regulations and Schedules for their programme.

2 
   a A student may not take a General Education course with the same subject code as any course they have previously passed, or are already enrolled in.

   b A student will not meet the General Education requirement for their programme if they subsequently enrol in a course with the same subject code as a General Education course which has been passed for their programme, unless the subsequent course is assigned to a different programme. Where appropriate the student may be able to use the course to meet another degree requirement. Provided no other courses from Parts II-IV of the LLB were completed this regulation does not apply to LAW 121G, 131, and 141.

   c Students who transfer programmes and wish to meet the General Education requirement of their new programme using a course in a subject in which they have passed more than one course may do so if the General Education course is the only course in that subject credited or reassigned to their new programme.

3 A student may not take both of their General Education courses in the same subject.

4 Language courses do not satisfy the General Education requirement for a student who has prior knowledge of the language (for example, as a native speaker, through formal or informal study, or through living with others who speak the language). A student with prior knowledge of the language may be declined enrolment or the enrolment may be deleted at the discretion of the Academic Head or nominee.

5 A student who is required to meet the Academic English Language Requirement as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

Notes:
(i) Some courses available for General Education are also available as part of regular degree requirements. The content and assessment for both occurrences of the course are the same. A student must enrol in the General Education offering of a course in order to meet the General Education requirements of their programme.

(ii) Some General Education courses have limits on the number of students who can enrol. Places in these courses will be allocated on a first-come-first-served basis.

(iii) Students who have met the Academic English Language Requirement under Regulations 14-16 of the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar cannot use ACADENG 100, 101, or ENGWRIT 101 to meet the General Education requirement for their degree.

(iv) ANTHRO 106G does not meet the General Education requirement for the Bachelor of Music or Bachelor of Music conjoints.

(v) LAW 121G does not meet the General Education requirement for the Bachelor of Laws, Bachelor of Laws (Honours), Bachelor of Laws conjoints or Bachelor of Laws (Honours) conjoints.

(vi) DISABLTY 113G does not meet the General Education requirement for the Bachelor of Human Services or the Bachelor of Social Work.

(vii) URBPLAN 101G does not meet the General Education requirement for the Bachelor of Urban Planning or the Bachelor of Urban Planning (Honours).

(viii) ARCHHTC 102G does not meet the General Education requirement for the Bachelor of Architectural Studies.

Regulations – Doctor of Philosophy and Higher Doctorates

Regulations – Doctor of Philosophy

501 Statute for the Degree of Doctor of Philosophy – PhD

Regulations – Higher Doctorates

505 The Degree of Doctor of Engineering – DEng
506 The Degree of Doctor of Laws – LLD
506 The Degree of Doctor of Literature – LittD
507 The Degree of Doctor of Science – DSc
507 Procedure for the Examination of Higher Doctorates
Statute for the Degree of Doctor of Philosophy – PhD

General Requirements
1 Candidates for the Degree of Doctor of Philosophy (PhD) are required to undertake an original and coherent research project and to present the outcome of that research project for examination as a thesis.

2 The research project, which may include scholarly creative practice, must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.

3 The research project must be conducted under supervision and over the period of enrolment in the PhD programme, and must be conducted in accordance with the Research Code of Conduct Policy.

4 The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 100,000 words. Scholarly creative work (written or otherwise) that forms an integrated whole with the written document may be submitted for examination as part of the thesis requirement.

5 The thesis must be undertaken and completed in accordance with the doctoral thesis policy and procedures and, where scholarly creative work is (to be) presented for examination as part of the thesis requirement, with the policy and procedures for including scholarly creative work in a PhD.

6 In order for the PhD degree to be awarded, Regulation 47 must be satisfied, and the Board of Graduate Studies (or delegate[s]) must be satisfied that, subject to Regulation 43, the candidate has performed at doctoral level in an oral examination held in accordance with this Statute and on the subject of the thesis and the field(s) to which the subject belongs, and satisfied, by the examination process prescribed by this Statute, that the thesis
   a makes an original and significant contribution to knowledge or understanding in its field(s), and
   b meets internationally recognised standards for such work, and
   c demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature, and
   d is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration
7 The thesis must be submitted within a maximum of 48 months of full-time equivalent enrolment from the initial date of enrolment in the PhD programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the policy and procedures for extension of doctoral enrolment. For the avoidance of doubt, the provisions pertaining to the submission of the “thesis” in this regulation and in the remainder of this statute apply to all work (to be) presented for examination in fulfilment of the thesis requirement at Regulation 1.

8 The thesis must not be submitted in less than 36 months of full-time equivalent enrolment from the initial date of enrolment in the PhD programme, unless permission is granted by the Board of Graduate Studies (or delegate).

9 Permission for submission of the thesis must not be granted where a candidate has been enrolled for less than 24 months full-time equivalent from the initial date of enrolment in the PhD programme.

10 Part-time enrolment may be permitted, subject to the policy and procedures for full-time and part-time PhD enrolment.

11 A candidate may be permitted to suspend their enrolment subject to the policy and procedures for suspension of doctoral enrolment.

12 Unless permitted under the masters thesis transfer policy and procedures, the initial date of enrolment in the PhD programme may not be backdated except in exceptional circumstances as approved by the Board of Graduate Studies (or delegate) and up to a maximum of six months.

Admission
13 To be admitted to the PhD programme, applicants must satisfy the University’s Admission regulations and are required to have:
In their most recent attempt at a relevant qualification:

(i) completed the requirements for a Bachelors Honours or Masters degree or postgraduate diploma in a relevant subject area with at least a B+ average at the University of Auckland, or, where relevant to the intended subject of the PhD, the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland; in all cases relevance is determined by the Board of Graduate Studies (or delegate)

or

(ii) completed all the taught course requirements (if any) for a Masters degree at the University of Auckland with at least a B+ average, and have satisfied the requirements of the masters thesis transfer policy and procedures

or

(iii) completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as relevant, with regard to subject area, and as equivalent to a Bachelors Honours or Masters degree with at least a B+ average at the University of Auckland

and

b satisfied the requirements of the policy and procedures for PhD candidate research capacity

and

c satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate)

and

d where creative work is to be presented for examination as part of the thesis requirement, have satisfied the eligibility and research project approval requirements of the policy and procedures for including scholarly creative work in a PhD

and

e have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the PhD degree

and

f have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of doctoral matters (“the Academic Head(s)”) with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head(s).

In exceptional circumstances, the Board of Graduate Studies (or delegate) may, subject to the policy and procedures for exceptional circumstance entry to the PhD, admit to the PhD programme an applicant whose qualifications do not meet the requirements of Regulation 13a.

An applicant may be considered for transfer from an existing doctoral enrolment subject to the policy and procedures for doctoral transfer.

An applicant may be considered for off-campus enrolment subject to the policy and procedures for off-campus research.

The final decision on admission to the PhD programme shall be made by the Board of Graduate Studies (or delegate).

Admission to the PhD programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment.

Admission to the PhD programme is valid for up to six months (or a maximum of 12 months in exceptional circumstances as approved by the Board of Graduate Studies (or delegate)) from the date of notification of admission to the programme. Where enrolment in the programme does not occur within that time, re-application for admission to the programme is required.

Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except in exceptional circumstances approved by the Board of Graduate Studies (or delegate).

Persons who are permitted by the Board of Graduate Studies (or delegate) to enrol in a joint or dual doctoral degree must satisfy all the requirements of this Statute in order to have the PhD degree awarded, unless an individual requirement is varied under Regulation 53.

Supervision

The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate’s enrolment.
23 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the doctoral supervision policy and procedures.

24 Changes in supervision during candidature are subject to the doctoral supervision policy and procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

Enrolment and Candidature
25 Except for any period(s) of suspension approved under Regulation 11, candidates are required to be enrolled continuously from the initial date of enrolment in the PhD programme until the date of thesis submission under Regulations 7-9.

26 Candidature for the PhD degree commences upon enrolment in the PhD programme and continues, regardless of any period(s) of suspension approved under Regulation 11, until completion of the requirements for the degree, unless candidature expires under Regulation 28 or is terminated under Regulation 49.

27 Candidature is provisional until confirmed, and is subject to the confirmation of candidature policy and procedures, the continuation of confirmed candidature policy and procedures, and the candidature intervention policy and procedures.

28 Candidature for the PhD degree expires when a candidate fails to submit their thesis for examination by the date required under Regulation 7 or by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 45.

29 Where candidature has expired under Regulation 28, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 54 of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

30 Enrolment in the PhD programme is not possible where candidature remains expired under Regulation 28.

31 Termination of candidature under Regulation 49 is also termination of enrolment in the PhD programme for enrolled candidates.

32 Candidates who are required, pursuant to Regulation 45, to revise and resubmit their thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis pursuant to Regulation 45 is 12 months full-time equivalent.

33 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the doctoral policy and procedures for off-campus research.

34 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules and policies relating to student conduct and obligations (academic or otherwise) for the duration of candidature.

35 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees
36 All fees required by and/or pursuant to the Fees Statute and the PhD domestic tuition fees policy and procedures must be paid for the duration of enrolment in the PhD programme.

37 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 11.

38 A candidate who submits a thesis or withdraws from the PhD programme, or who has their enrolment terminated, will receive a refund of one-twelfth of the tuition fee paid for each complete month of the period between the date of submission of the thesis or withdrawal from the programme or termination of enrolment and the end of the academic year for which fees have been paid, provided the candidate has been enrolled for at least 36 months.

39 Candidates will not be able to graduate until all outstanding monies owing to the University have been paid.

Submission
40 The thesis must be submitted in accordance with the thesis submission procedures – pre examination.

Examination
41 For each candidate, the Board of Graduate Studies (or delegate) will appoint two examiners, at least one of whom must be based outside New Zealand, in accordance with the appointment of doctoral examiners policy and procedures.

42 The examination for the PhD degree must be conducted in accordance with the doctoral examination procedures
and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, with the doctoral examination extraordinary circumstances and posthumous award procedures. Where scholarly creative work is submitted as part of the thesis requirement, the examination is also subject to the policy and procedures for including scholarly creative work in a PhD.

43 Except where a candidate is exempted pursuant to the doctoral examination extraordinary circumstances and posthumous award procedures, the PhD degree cannot be awarded where an oral examination has not taken place.

44 Where a candidate advances to oral examination, the oral examination is to proceed in accordance with the doctoral examination procedures and the doctoral oral examination procedures.

45 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the doctoral examination procedures and determine the outcome of the examination.

Final Decision
46 The final decision as to the award of the PhD degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 45.

47 The final examined and approved thesis must be submitted in accordance with the thesis submission procedures – post examination in order for the requirements of the PhD degree to be met.

Withdrawal from Programme
48 A candidate may withdraw from the PhD programme at any time by notifying the University in writing.

Termination of Candidature
49 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:
   a failure to meet the requirements for confirmation of candidature pursuant to Regulation 27
   b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 27
   c failure to satisfy conditions imposed on candidature pursuant to Regulation 27
   d failure to comply with candidature reporting requirements pursuant to Regulation 27
   e failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)
   f failure to comply with the thesis submission procedures – post examination
   g failure to make payment of any tuition fees related to enrolment in the PhD by the due date.

50 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 49, the candidate will be given notice of termination proceedings and allowed 14 calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision.

51 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of this Statute.

52 Where a candidate withdraws from the PhD programme, or has their candidature terminated, enrolment in a new PhD or other doctoral programme in the same subject at a later date will not normally be permitted.

Variations
53 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for PhD candidature, except where variation of a national or government directive or requirement is involved.

Appeals
54 Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment and termination of candidature, subject to the procedures for doctoral appeals – candidature.

55 Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the procedures for doctoral appeals – candidature.

56 Candidates may appeal the outcome of a PhD examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the procedures for doctoral appeals – examination.

57 Appeals as to examination will be determined in accordance with the procedures for doctoral appeals – examination.

Dispute Resolution
58 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.
Further Provisions
59 The doctoral policies and procedures cited in this Statute may be reviewed and amended from time-to-time.

60 PhD candidates are subject to any additional doctoral policies and procedures devised in support of this Statute, and amended from time to time.

61 This Statute may itself be reviewed and amended from time-to-time.

62 For candidates initially registered under a previous statute, the Board of Graduate Studies (or delegate) may agree to vary the application of the provisions of this Statute to ensure consistency with the provisions of the statute under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

REGULATIONS – HIGHER DOCTORATES

In addition to the degree of Doctor of Philosophy, the University offers higher doctorates in Engineering (DEng), Laws (LLD), Literature (LittD), and Science (DSc). These are the highest academic awards offered by the University and are awarded to graduates or close affiliates of the University of Auckland who have published original work that has, over an extensive period of time, given them authoritative standing and international eminence in their respective field. The higher doctorate is thus to be seen as recognition of real distinction in one of these areas of study. It is awarded rarely and only after rigorous examination of a substantial and significant corpus of material. A person wishing to become a candidate for a higher doctorate should refer to the Guidelines for Candidates of Higher Doctorates.

The Degree of Doctor of Engineering – DEng

Eligibility
1 The Degree of Doctor of Engineering shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence in some branch of engineering or technology such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, or as designs and inventions. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Engineering must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate’s first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application
7 A person wishing to become a candidate for a Doctor of Engineering should apply in writing to the Dean of Graduate Studies, providing:
   a a completed Application to be Examined for a Higher Doctorate
   and
   b an academic curriculum vitae
   and
   c academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.
The Degree of Doctor of Laws – LLD

Eligibility
1 The Degree of Doctor of Laws shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to the history, philosophy, exposition or criticism of law, such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Laws must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application
7 A person wishing to become a candidate for a Doctor of Laws should apply in writing to the Dean of Graduate Studies, providing:
   a. a completed Application to be Examined for a Higher Doctorate
   and
   b. an academic curriculum vitae
   and
   c. academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

The Degree of Doctor of Literature – LittD

Eligibility
1 The Degree of Doctor of Literature shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to linguistic, literary, philosophical, social, cultural or historical knowledge such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Literature must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate’s first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application
7 A person wishing to become a candidate for a Doctor of Literature should apply in writing to the Dean of Graduate Studies, providing:
   a. a completed Application to be Examined for a Higher Doctorate
   and
The Degree of Doctor of Science – DSc

Eligibility

1. The Degree of Doctor of Science shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to some branch of pure or applied science such that they are considered to have authoritative standing and international eminence in their field.

2. The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

3. A candidate for the Degree of Doctor of Science must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4. No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5. No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6. Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application

7. A person wishing to become a candidate for a Doctor of Science should apply in writing to the Dean of Graduate Studies, providing:
   a. a completed Application to be Examined for a Higher Doctorate
   b. an academic curriculum vitae
   c. academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).

8. Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.
been accepted, will request written notification of the applicant’s intention to proceed with candidature and submission. The submission of work to be examined must be received by the Dean of Graduate Studies within three months of the notification that the application was accepted.

5 The examination will not proceed until receipt of the candidate’s written notification of intention to proceed and payment of fees as set out in Schedule B of the Fees Statute.

Appointment of Examiners
6 Upon payment of fees and receipt of the candidate’s written notification of intention to proceed, the Dean of Graduate Studies will request that the Faculty nominate three external examiners. The nominations should be made within three months of the request. The examiners must be of authoritative standing and international eminence in the field of the submitted work and must be active in research. At least one examiner shall be resident outside New Zealand. Examiners must not have engaged in substantial collaboration with the candidate. Any involvement with the candidate by the examiner which could constitute a conflict of interest should be declared at the outset. The appointment of all examiners must be approved by the Dean of Graduate Studies.

Submission
7 The candidate shall lodge at the School of Graduate Studies:
   a three copies of the work to be examined
   and
   b a statutory declaration which shall:
      (i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate's own
      and
      (ii) declare that the work in substantially its present form has not been submitted or accepted previously for the award of a degree or diploma in this or any other tertiary institution, and is not being submitted for a degree or diploma in any other tertiary institution or for another degree or diploma at this institution.

Examination
8 The degree will be awarded solely on consideration of the submitted works upon which the candidate’s claim to the degree is based.

9 In order to qualify for the degree, the submitted works must provide sufficient evidence that the candidate has made an original contribution of special excellence to their discipline such that they are considered to have authoritative standing and international eminence in their field.

10 Examiners will be requested to report to the Dean of Graduate Studies on the submission within three months of receipt and recommend whether the candidate:
   a should be awarded the degree
   or
   b should not be awarded the degree.

11 The reports of all examiners will be forwarded to the Examination Committee for consideration of whether or not to admit the candidate to the degree.

12 If the examiners’ recommendations differ, the Examination Committee may invite the examiners to consult and provide a written report or reports on the outcome of their consultation. If, after such consultation, the differences remain unresolved, the Examination Committee may recommend to the Dean of Graduate Studies that a further independent external examiner be appointed to report on areas of conflict.

13 The Examination Committee shall recommend an outcome based on the examiners’ reports to the Dean of Graduate Studies. The Dean of Graduate Studies will determine the result of the examination and notify the candidate of the decision.

14 An unsuccessful submission may not be presented for re-examination until at least five years after initial submission and must include new material.

Deposit of Submission in the Library
15 On successful completion of the examination of the submitted work, and when possible, two bound copies will be deposited in the University Library by the School of Graduate Studies. The first bound copy will remain in the Library for reference purposes; the second copy may be borrowed by members of the Library, or sent to other libraries on inter-library loan. The third copy will be returned to the candidate.

Graduation
16 Candidates who have satisfied the requirements for any award of the University shall be admitted to that award.
COURSE PRESCRIPTIONS

The Course Prescriptions contain approved University of Auckland courses. Before selecting courses from this Calendar, students and potential students are advised to ascertain which courses are expected to be offered in this Academic Year and in which semester they are scheduled by referring to the Class Search on Student Services Online, or by contacting AskAuckland Central in Alfred Nathan House, 24 Princes Street, email studentinfo@auckland.ac.nz, phone 0800 316 263, or the relevant faculty student centre.

Where courses in the following Course Prescriptions are listed with an ‘A’ and a ‘B’ option, this means that, if they are offered, they will be taught over two semesters and students must enrol in both Part A and Part B in order to complete and, where successful, be credited with the course. Courses with no ‘A’ or ‘B’ designation are taught over one semester.

The Prescriptions are listed by faculty, in alpha-numeric order by subject title and should be read in conjunction with the relevant regulations.

Course Prescriptions Index

Enables the development of practical knowledge and hands-on experience through a supervised internship.

INTERNSP 703 Internship 4
Enables the development of practical knowledge and hands-on experience through a supervised internship.

Faculty of Arts

Academic Integrity

ACADINT A01 0 Points
Academic Integrity Course
The Academic Integrity Course is an online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Academic English Studies

Stage I

ACADENG 100 15 Points
Forms in Academic English
Focuses on developing an understanding of academic reading and writing, including sentence and paragraph structure and academic vocabulary, and aims to develop strategies for employing these for effective reading and writing of academic texts. Develops an understanding of broad principles and practices of academic discourse at university level.
Restriction: May not be taken if ENGRWIT 101 or ESOL 201 or ACADENG 201 or ESOL 210 or ACADENG 210 has previously been passed. This course is available only to students who speak English as an additional language

ACADENG 101 15 Points
Academic English Writing
Teaches students the skills necessary to write essays of exposition and argument for university purposes. It includes brainstorming, writing an outline, structuring an essay, integrating quotations, summaries and referencing.
Restriction: May not be taken if ACADENG 93F, 201, 210, ENGRWIT 101, ESOL 201, 210, TFCACENG 93F has previously been passed. This course is available only to students who speak English as an additional language

ACADENG 104 15 Points
Academic English for Business
Focuses on core English academic reading and writing skills, and strategies for learning disciplinary vocabulary. Targets the academic literacy needs of students in accessing the undergraduate business curriculum and develops awareness of appropriate text structures and academic style to understand and express business-related concepts in an academic context.
Restriction: May not be taken if ENGRWIT 101 or ESOL 201 or ACADENG 201 or ESOL 210 or ACADENG 210 has previously been passed

Stage II

ACADENG 201 15 Points
Writing Research Reports
Aims to develop skills needed for writing research and laboratory reports. It covers key stages in writing a standard report and the language patterns associated with each of these stages. Course components include writing the literature review, methodology, results and discussion sections of a report, dissertation or thesis.
Prerequisite: ACADENG 101 or approval of Academic Head or nominee
Restriction: ESOL 210. This course is available only to students who speak English as an additional language

ACADENG 212 15 Points
Special Topic
Restriction: ESOL 212. This course is available only to students who speak English as an additional language

Anthropology

Stage I

ANTHRO 100 15 Points
Human Cultures: Introduction to Social Anthropology
Humans are social and cultural beings. This course provides an understanding of human lives. Basic concepts and approaches are covered.

ANTHRO 101 15 Points
World Archaeology
World archaeology from the emergence of culture to the first cities, including the Pacific region.

ANTHRO 102 15 Points
How Humans Evolve
Humans are primates united by sociality, diversity, and flexibility and are subject to the same evolutionary forces as other species. However, human evolution is biocultural and is subject to both biological and cultural inheritances. Biological anthropology includes the study of human evolution past and present. This course will examine our evolutionary history and how evolution affects humans today.

ANTHRO 103 15 Points
Musics of the World in Everyday Life
Examines the personal, communal, religious, patriotic, emotional and economic roles that music plays in the lives of musicians, composers and listeners. Employs research from a range of ethnographic perspectives and encourages students to think and act analytically about their own musical worlds. Examples and case studies are drawn from around the globe, encompassing contemporary urban and remote village settings.

ANTHRO 104 15 Points
ANTHRO 104G 15 Points
Peoples and Cultures of the Pacific
A survey of the peoples of Pacific Islands through the perspectives of archaeology, biological anthropology, ethnomusicology, linguistics and social anthropology.
ANTHRO 106  15 Points
ANTHRO 106G  15 Points
Issues and History in Popular Music
A survey of popular music styles, artists, sub-cultures and issues that explores facets such as genre, the music industry, music and politics, music videos, the sales process, race and identity, and gender theory. Core theory and writers in popular music studies are introduced and popular music is used to explore societal changes in class, ethnicity, gender, sexuality, youth, and global economic and cultural processes. Note: Does not meet the General Education requirement for BMus or BMus conjoint degrees.
Restriction: POPMUS 106, 106G  

Stage II

ANTHRO 200  15 Points
Archaeology: Understanding the Past
An examination of current concepts in archaeological research and their place in the development of archaeological thought. How archaeology makes use of its methods and theories to understand the past. An introductory laboratory component. This course is essential for students who may wish to continue their study of Archaeology at Stage III.
Prerequisite: 30 points in Anthropology or 60 points passed  

ANTHRO 201  15 Points
Human Evolution
Explores issues fundamental to understanding humans’ place in nature from a biocultural perspective. What led to the evolution of bipedalism, large brains, and language? How do we define species in the fossil record? How can we reconstruct ancient diets and ecologies? The course will examine how new discoveries and advancements in biology are reshaping understandings of our evolutionary history.
Prerequisite: 30 points in Anthropology or 60 points passed  

ANTHRO 202  15 Points
Music and Identity in World Music Cultures
Examines music’s role in the construction and reinforcement of identity. Considers a range of culturally constructed concepts including class, gender and ethnicity; also considers the impact of mass mediated sound and unique nature of music in the cultural diaspora. Examples and case studies range from the ritual musics of Africa and the classical music of South Asia to East Asian pop.
Prerequisite: 30 points passed  

ANTHRO 203  15 Points
Thinking like a Social Anthropologist
A survey of some of the key anthropological theories used to analyse human social life, discussed by reference to cross-cultural studies. Also considers current debates/issues within the discipline.
Prerequisite: ANTHRO 100 or 30 points in Anthropology  

ANTHRO 204  15 Points
Ethnography of Island Polynesia
What is distinctive about Polynesian culture and society? How and why are Polynesian cultures alike? How are they different? In what ways are Fiji, Samoa, Tikopia, Tokelau and Tonga different or similar to other Oceanic cultures? Anthropological studies of these questions will be explored through indigenous Polynesian, anthropological and historical accounts.
Prerequisite: ANTHRO 100 or 30 points in Anthropology, Māori Studies or Pacific Studies, or 45 points in GlobalSt courses  

ANTHRO 205  15 Points
Primate Behaviour, Ecology and Conservation
Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.
Prerequisite: 15 points in Anthropology or 60 points passed
Restriction: ANTHRO 349  

ANTHRO 206  15 Points
Origins of Civilisation
The shift from a hunter-gatherer way of life to one based on village life and agriculture is foundational for the development of complex society. The course considers what socio-cultural changes were involved as Holocene societies developed in different parts of the world and how the relationship between humans and the environment changed.
Prerequisite: 15 points in Anthropology or 60 points passed
Restriction: ANTHRO 332  

ANTHRO 207  15 Points
Archaeological History of Aotearoa New Zealand
Examines the first 600-700 years of human settlement in Aotearoa New Zealand from an archaeological perspective, from Polynesian arrival through the early historic period. Themes include Māori origins in East Polynesia, adaptations to Aotearoa’s temperate environment, changing patterns of resource use, Māori material culture and arts, the development of fortified sites or pā, and the emergence of classic Māori society.
Prerequisite: 60 points passed
Restriction: ANTHRO 365  

ANTHRO 208  15 Points
Medical Anthropology
Medical Anthropology draws on biological and social/cultural anthropology to address issues of human health and disease. A distinct subfield, it includes studies of the co-evolution of humans and diseases, human ecology, cultural constructions of health and illness, medical knowledge and healing practices, and the political economy of health. Students are asked to research, think and write analytically about these topics.
Prerequisite: ANTHRO 100 or 102 or 60 points passed at Stage I  

ANTHRO 211  15 Points
Human Sex, Gender and Sexuality
Explores the central anthropological topics of human sex, sexuality and gender from diverse perspectives. Topics may include cross-cultural and social conceptualisations and creations of difference; ideas about biology, gender and sexuality; how they are simultaneously socio-cultural products and forces; lived experiences and corporeal and political phenomena; reproductive politics; and global, national and local sexual and gender relations.
Prerequisite: ANTHRO 100 or 30 points in Anthropology, Gender Studies, History or Sociology
Restriction: ANTHRO 215, 342  

ANTHRO 212  15 Points
Ethnographic Film and Photography
Explores uses of photography and film in the production and dissemination of anthropological knowledge. Emphasises the choices in subject matter, imagined audience, composition, construction of narrative (or not), and mode of representation that are made at all stages in the production...
of ethnographic images. Uses ethnographic images to reflect on construction of ethnographic texts.

Prerequisite: ANTHRO 100 or ARTHIST 115 or 30 points in Anthropology, Sociology, Media Film and Television, or Communication

Restriction: ANTHRO 320

ANTHRO 213
15 Points

Questioning Race and Racism

Multiple anthropological frameworks explore the scholarly and popular understandings of race and racism, and question contemporary perspectives. Why do these concepts have such social and political potency? What are the impacts of concepts of race and practices of racism and anti-racism on individuals, families, communities, nations, states and empires, in Aotearoa New Zealand, the Pacific, and elsewhere?

Prerequisite: 15 points at Stage I in Anthropology and 15 points in BA courses

Restriction: ANTHRO 105

ANTHRO 217
15 Points

Rhythm, Blues and Rock

African-American popular music and culture from the mid-1930s through the early 1960s, including styles such as blues, R 'n' B, and early Rock 'n' Roll. Considers issues of racial and gendered representation, creativity, the popular music industry, the place of music in the development of 'youth culture' and stylistic trends. Individual performers, recordings and performances, are also examined.

Prerequisite: 30 points passed

Restriction: POMMUS 206

ANTHRO 234
15 Points

Popular Musics of the Pacific

From hip hop to reggae to pop, this course explores Pacific popular music genre, artists and songs as well as relevant musical techniques, modes of distribution and processes of fusion and change. It probes the positions and possibilities of Pasifika pop musics by discussing critical questions about culture, authenticity, modernisation, consumerism, identity and musical (ex)change.

Prerequisite: 30 points passed

ANTHRO 235
15 Points

The Anthropology of Human Remains

Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.

Prerequisite: 15 points in Anthropology or 60 points passed

Restriction: ANTHRO 367

ANTHRO 236
15 Points

Special Topic

ANTHRO 241
15 Points

Anthropology of the Body

Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender, and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.

Prerequisite: ANTHRO 100 or 30 points in Anthropology

Restriction: ANTHRO 354

ANTHRO 244
15 Points

Politics of Culture

A critical exploration of contemporary debates on and around the idea of 'culture'. Focuses particularly on controversies at the interface between anthropology and politics, from problems of cultural translation and the appropriation of culture, to the politicisation of culture, multiculturalism and the rise of the 'consumer culture'.

Prerequisite: ANTHRO 100 or 30 points in Anthropology or Political and International Relations

Restriction: ANTHRO 330

ANTHRO 246
15 Points

Tradition and History in New Zealand Archaeology

Examines Māori traditions and history as a guide to processes in the New Zealand archaeology. Case studies will include Māori canoe traditions, the expeditions of Hongi Hika and Te Rauparaha, and the Ngāi Tahu settlement of the South Island.

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

Restriction: ANTHRO 346

ANTHRO 247
15 Points

Anthropology Today: Debates in Culture

The primary aim is to provide students with an introduction to some of the more topical and controversial themes that social anthropologists are currently engaged with. Topics include: the culture of terrorism, anthropology and cyberculture, the anthropological study of prisons, race and racism, and the politics of representation.

Prerequisite: ANTHRO 100 or 30 points in Anthropology

Restriction: ANTHRO 331

ANTHRO 248
15 Points

Special Topic

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

ANTHRO 250
15 Points

World-view and Religion

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion, ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.

Prerequisite: ANTHRO 100 or 30 points in Anthropology or Theological and Religious Studies or Sociology

Restriction: ANTHRO 319

ANTHRO 251
15 Points

Special Topic

Prerequisite: ANTHRO 100 or 30 points in Anthropology

ANTHRO 252
15 Points

Global Heritage Management

Globally, archaeological features and historic monuments are increasingly threatened by urban development, looting, antiquities trafficking, and effects of climate change. Using an archaeological perspective, state-of-the-art recording technologies, community partnerships, legislation, management systems, and the role of museums in conservation and exhibition will be examined. Case studies from Aotearoa, Pacific and elsewhere illustrate major issues, contradictions, and controversies, alongside effective heritage management.

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed
ANTHRO 268 15 Points
Exploring Ethnography
Explores ethnographic approaches to human cultures, including key elements of ethnographic fieldwork and analytic approaches. Uses ethnography to understand contexts and processes that shape people's social and cultural lives. In any given year, a different ethnographic region (e.g., Europe, Melanesia, Polynesia, South-East Asia, New Zealand) or theme (e.g., art, economics, racism, technology, violence) may be covered.
Prerequisite: ANTHRO 100 or 30 points in Anthropology, Sociology or History
Restriction: ANTHRO 368

ANTHRO 318 15 Points
Archaeological Science
Archaeology uses a great number of scientific methods. This lab course introduces the application of these techniques. Using the resources found in our laboratories, topics covered include geophysical sub-surface prospecting, dating, identifying the origin of archaeological material using petrography and geochemistry, residue analysis, ceramic and stone artefact production, and study of archaeological sediments. Coursework includes a series of hands-on laboratories.
Prerequisite: B- or higher in ANTHRO 200 or 201

ANTHRO 319 15 Points
World-view and Religion
Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion, ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.
Prerequisite: ANTHRO 203 or 30 points at Stage II
Restriction: ANTHRO 250

ANTHRO 321 15 Points
Equality and Inequality
Examines conceptualisations, realities and consequences of equality and inequality cross-culturally. Considers whether there are egalitarian societies and whether inequality is inevitable. Covers types and systems of inequality such as slavery, gender inequality, caste and class, as well as differences between economic and political inequality, and between equality of opportunity and equality of results.
Prerequisite: ANTHRO 203 or 30 points at Stage II

ANTHRO 322 15 Points
Origins of Civilisation
The shift from a hunter-gatherer way of life to one based on village life and agriculture is foundational for the development of complex society. The course considers what socio-cultural changes were involved as Holocene societies developed in different parts of the world and how the relationship between humans and the environment changed.
Prerequisite: 60 points at Stage II
Restriction: ANTHRO 206

ANTHRO 327 15 Points
Music and Culture in Bollywood
Focuses on Hindi film songs and song scenes taken from mainstream "Bollywood" films, with consideration of tensions between music as popular song and as a narrative component. Examines issues and theories of music, semiotics and narrative context and convention and explores the role of film song in South Asian popular culture.
Prerequisite: 30 points at Stage II

ANTHRO 328 15 Points
Bioarchaeology
A practical introduction to the archaeological analysis and interpretation of biological remains, emphasising faunal materials but also including macrobotanical remains and pollen.
Prerequisite: ANTHRO 200 or 201 with a minimum B- grade

ANTHRO 329 15 Points
Music of East Asia: Tradition, Modernity and Globalisation
Explores East Asia from the ethnomusicological perspective and illuminates how music negotiates boundaries and constructs varying identities in China, Japan, and Korea, while affirming a distinct cultural identity generally referred to as "East Asian". Using different musical practices of East Asia 517

ANTHRO 301 15 Points
Contemporary Research in Music and Culture
A seminar-style course covering a range of current topics and methods in ethnomusicology. Examines selected theories, methods, and perspectives on the roles and meanings of musical activity in contemporary human culture. We will view music as a symbolic component of cultural expression and as both focus and paradigm for cultural structures and behaviours.
Prerequisite: ANTHRO 202 or 30 points at Stage II in Transnational Cultures and Creative Practice
Restriction: ANTHRO 219

ANTHRO 306 15 Points
Pacific Archaeology
The archaeology of the Pacific region, including colonisation, settlement patterns, interisland trade, traditional navigation, cultural change, emergence of complex societies and ethnohistory.
Prerequisite: 60 points at Stage II
Restriction: ANTHRO 706

ANTHRO 309 15 Points
Quantitative Methods in Anthropology
Introduces analytical approaches to anthropological data, emphasising application of statistical principles to research design. Strongly recommended for all students of anthropology considering postgraduate study. Concepts and topics include: variable scales, operational definitions, sampling, choosing appropriate statistical tests, error, measures of central tendency and dispersion, accuracy, bias and validity. This course assumes only a limited mathematical background.
Prerequisite: ANTHRO 200 or 201 or 203 or 120 points passed
Restriction: SOCSCRES 300

ANTHRO 310 15 Points
Reading Ethnography
Ethnographic texts are the major outcome of research in social and cultural anthropology. This seminar-based course compares different ethnographies and approaches to ethnographic research and writing.
Prerequisite: B or higher in ANTHRO 203 or CRIM 200 or PACIFIC 200

ANTHRO 317 15 Points
Field Methods in Archaeology
Participation in a field school involving an intensive introduction to all aspects of excavation and subsequent laboratory analysis and report preparation.
Prerequisite: ANTHRO 200 passed with a grade of B- or higher
Restriction: ANTHRO 737
Asia as case studies, it examines multiple approaches and methodologies used in studying East Asian music.

Prerequisite: 30 points at Stage II

**ANTHRO 330**
**Politics of Culture**
A critical exploration of contemporary debates on and around the idea of ‘culture’. Focuses particularly on controversies at the interface between anthropology and politics, from problems of cultural translation and the appropriation of culture, to the politicisation of culture, multiculturalism and the rise of the ‘consumer culture’.

Prerequisite: ANTHRO 203 or 30 points at Stage II
Restriction: ANTHRO 244

**ANTHRO 331**
**Anthropology Today: Debates in Culture**
The primary aim is to provide students with an introduction to some of the more topical and controversial themes that social anthropologists are currently engaged with. Topics include: the culture of terrorism, anthropology and cyberterrorism, the anthropological study of prisons, race and racism, and the politics of representation.

Prerequisite: ANTHRO 203 or 30 points at Stage II
Restriction: ANTHRO 247

**ANTHRO 337**
**Birth, Death, and Disease: Anthropological Demography**
Examines how human populations change over time, what factors underlie patterns of disease and death, and why demography is so important to the study of epidemics. The course will explore the use of demographic methods and theories of demographic and epidemiological transition to examine fertility, morbidity, mortality, and migration from an anthropological perspective, with a particular focus on infectious disease dynamics.

Prerequisite: ANTHRO 201 or 60 points in Anthropology

**ANTHRO 340**
**Heritage Conservation in Aotearoa**
Addresses the main principles of heritage conservation focusing on the rationale rather than treatment methods. Special emphasis is given to the fields of: conservation of place, archaeological, architectural, ethnographic and fine art conservation. Provides students with a cultural orientation to conservation where issues are examined through several contexts, including anthropological studies and conservation science.

Prerequisite: 30 points at Stage II in Anthropology

**ANTHRO 342**
**Human Sex, Gender and Sexuality**
Explores the central anthropological topics of human sex, sexuality and gender from diverse perspectives. Topics may include cross-cultural and social conceptualisations and creations of difference; ideas about biology, gender and sexuality; how they are simultaneously socio-cultural products and forces; lived experiences and corporeal and political phenomena; reproductive politics; and global, national and local sexual and gender relations.

Prerequisite: ANTHRO 203 or 30 points at Stage II
Restriction: ANTHRO 211, 215

**ANTHRO 345**
**Directed Study in Anthropology**
A directed reading and individual study course, offered in exceptional circumstances, to prepare students in the methodologies of a selected sub-discipline of Anthropology, with the agreement and under the supervision of appropriate staff.

Prerequisite: ANTHRO 200 or 201 or 219 or 203 and Head of Disciplinary Area approval

**ANTHRO 346**
**Tradition and History in New Zealand Archaeology**
Examines Māori traditions and history as a guide to processes in the New Zealand archaeology. Case studies will include Māori canoe traditions, the expeditions of Hoki Hika and Te Rauparaha, and the Ngāi Tahu settlement of the South Island.

Prerequisite: ANTHRO 200 or 201 or 203 or 219 or 120 points passed
Restriction: ANTHRO 246

**ANTHRO 347**
**Special Topic in Anthropology**
Prerequisite: 30 points at Stage II in Anthropology including either ANTHRO 200 or 201

**ANTHRO 348**
**Perspectives on Human Growth**
Adopts evolutionary and biocultural perspectives in examining patterns of human growth and maturation. Human developmental patterns are placed within an evolutionary framework using evidence from non-human primates and earlier hominid remains. Variability within and among human populations in growth and developmental timing is considered in terms of genetics interacting with physical, biotic and social factors.

Prerequisite: ANTHRO 201 or 60 points in Anthropology

**ANTHRO 349**
**Primate Behaviour, Ecology and Conservation**
Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.

Prerequisite: ANTHRO 201 or 60 points in Anthropology
Restriction: ANTHRO 205

**ANTHRO 351**
**Special Topic**
Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology

**ANTHRO 352**
**Special Topic: Applied Anthropology**
Examines how anthropology has been used in interventions that affect people’s lives, and how anthropology has contributed to public policy and public discourse. Considers ethical, methodological and theoretical complexities of anthropology’s engagement in development and advocacy. Finally, the course will consider how anthropologists fit into the bigger picture of transnational governmentality, policy and economy.

Prerequisite: 60 points in Anthropology

**ANTHRO 353**
**Archaeology in Practice**
Introduces standard laboratory methods for analysing artefacts and generating material culture data to answer questions about the past. Quantitative observations, classification, and hypothesis testing will be emphasised.

Course content will be relevant to a range of archaeological research, including research in heritage management
contexts. Analysis of Australasian and Pacific Island materials will form the basis of laboratory work when possible. 

Prerequisite: B- or higher in ANTHRO 200 or 201

ANTHRO 354 15 Points
Anthropology of the Body
Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings. 
Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology 
Restriction: ANTHRO 241

ANTHRO 357 15 Points
Gender, Sexuality and Popular Music
Explores the ways in which gender and sexual identities are both reflected in and modified by mainstream popular music: from 'girl power' to boy bands; from outwardly gay and lesbian artists to the gay appropriation of heterosexual female divas; from the camp masculinity of heavy metal to lesbian rock and riot grrrls; from women-hating gangster rappers to powerful women in the recording industry. 
Prerequisite: 30 points at Stage II
Restriction: POPMUS 306

ANTHRO 358 15 Points
Gender and Colonialism in the Pacific
The transformation of gender relations in the Pacific from the inception of the European contact period and through the colonial process. Emphasis will be on the gendered nature of colonialism both in terms of how it framed the process, as well as how the experience was lived. 
Prerequisite: ANTHRO 203 or 30 points at Stage II

ANTHRO 360 15 Points
Special Topic
Prerequisite: ANTHRO 200 or 201 or 203 or 219 or 120 points passed

ANTHRO 365 15 Points
Coming of the Māori: Archaeology of Aotearoa
Examines the first 600-700 years of human settlement in Aotearoa/New Zealand from an archaeological perspective, from Polynesian arrival through the early historic period. Themes include Māori origins in East Polynesia, adaptations to Aotearoa's temperate environment, changing patterns of resource use, Māori material culture and arts, the development of fortified sites or pā, and the emergence of classic Māori society. 
Prerequisite: 60 points at Stage II
Restriction: ANTHRO 207

ANTHRO 366 15 Points
Medicine, Power and Politics
Anthropological examination of the interplay between cultural values, local and national politics, and international health programs and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings. 
Prerequisite: ANTHRO 203 or 30 points at Stage II

ANTHRO 367 15 Points
The Anthropology of Human Remains
Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere. 
Prerequisite: ANTHRO 200 or 201 with a minimum B- grade
Restriction: ANTHRO 235

ANTHRO 368 15 Points
Exploring Ethnography
Explores ethnographic approaches to human cultures, including key elements of ethnographic fieldwork and analytic approaches. Uses ethnography to understand contexts and processes that shape people's social and cultural lives. In any given year, a different ethnographic region (e.g., Europe, Melanesia, Polynesia, South-East Asia, New Zealand) or theme (e.g., art, economics, racism, technology, violence) may be covered. 
Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology 
Restriction: ANTHRO 268

ANTHRO 370 15 Points
Special Topic
Prerequisite: ANTHRO 200 or 120 points passed

ANTHRO 399 15 Points
Capstone: Anthropological Science
Provides students with an opportunity to demonstrate their integrated knowledge and growth in the major. Students are encouraged to make connections between their academic learning in anthropological science and the professional world. Specific topics will vary by year, but will feature projects designed to incorporate both independent and collaborative work, as well as the potential for public engagement. 
Prerequisite: 30 points passed at Stage III in Anthropological Science or Academic Head approval

Postgraduate 700 Level Courses

ANTHRO 700 30 Points
ANTHRO 700A 15 Points
ANTHRO 700B 15 Points
Method and Theory in Archaeology
A critical review of current themes and issues in archaeological method and theory. 
To complete this course students must enrol in ANTHRO 700 A and B, or ANTHRO 700

ANTHRO 701 30 Points
ANTHRO 701A 15 Points
ANTHRO 701B 15 Points
Human Palaeoecology
Critical survey of methods, theories and problems in human palaeoecology, including issues of resource use, landscape change, island colonisation and anthropogenic extinctions. 
To complete this course students must enrol in ANTHRO 701 A and B, or ANTHRO 701

ANTHRO 703 30 Points
ANTHRO 703A 15 Points
ANTHRO 703B 15 Points
Landscape Archaeology
Uses geographic information systems (GIS) and other computer programmes to examine the spatial organisation of data, and the relationship of archaeological features both to other features, and the environment. The social
processes underlying these spatial configurations will be a particular focus.

To complete this course students must enrol in ANTHRO 703 A and B, or ANTHRO 703

**Anthropology 704A** 15 Points
**Anthropology 704B** 15 Points

**Material Culture**
The study of material culture using museum, ethnographic, archaeological and experimental approaches, including the information provided by material culture studies on human agency and the structuring of societies.

To complete this course students must enrol in ANTHRO 704 A and B

**Anthropology 708A** 15 Points
**Anthropology 708B** 15 Points

**Cultural Resource Management in Archaeology - Level 9**
Covers all aspects of cultural resource management as it relates to archaeological sites and heritage with a particular focus on New Zealand archaeology and Māori heritage. There is an emphasis on site identification, recording and interpretation in the field. Legal aspects and the roles of archaeologists and iwi in cultural resource management are also covered.

To complete this course students must enrol in ANTHRO 708 A and B

**Anthropology 709** 15 Points

**Applying Anthropology - Level 9**
Considers the diverse fields in which Anthropology may be applied to peoples and cultures in the contemporary world, including, for example: environmental and development issues; land and resource conflicts; mediation and advocacy; human rights; cultural heritage; social policy; business and industry; communications; marketing; medical investigations; museums and other representational activities. Addresses practical and ethical issues that arise in these areas.

**Anthropology 712** 30 Points
**Anthropology 713** 30 Points

**Special Topic in Biological Anthropology**

**Anthropology 718A** 15 Points
**Anthropology 718B** 15 Points

**Interpreting Biocultural Data**
A survey of the design, implementation, analysis, interpretation, and dissemination of research in biocultural anthropology. It provides a holistic overview of both qualitative and quantitative approaches to biocultural anthropological scholarship.

To complete this course students must enrol in ANTHRO 718 A and B

**Anthropology 719** 30 Points
**Anthropology 719A** 15 Points
**Anthropology 719B** 15 Points

**Ethnographic Practice and Design**
Based on seminars, workshops and field research, the course prepares students to understand the foundations of anthropological ethnography and the ethical issues it entails, and to become proficient ethnographers in the field, in archives and at the desk. The course provides instruction and practice in research design and proposal writing in socio-cultural anthropology.

Restriction: ANTHRO 753

To complete this course students must enrol in ANTHRO 719 A and B, or ANTHRO 719

**Anthropology 724** 30 Points

**Special Topic in Social Anthropology**

**Anthropology 727** 30 Points
**Anthropology 727A** 15 Points
**Anthropology 727B** 15 Points

**Ethnographies of Music-making**
Advanced theories and methodologies for the ethnomusicological analysis of live musical performances and other behaviours across all genres and cultures. Primary attention is given to ethnomusicology and participant-observation supported by analysis of industrial, cultural, musical, and mediated phenomena.

Prerequisite: 30 points from ANTHRO 323, 333, 357

To complete this course students must enrol in ANTHRO 727 A and B, or ANTHRO 727

**Anthropology 728** 30 Points

**Topic in Ethnomusicology**

**Anthropology 729** 15 Points
**Anthropology 729A** 7.5 Points
**Anthropology 729B** 7.5 Points

**Research in Popular Music Culture**
Advanced ethnomusicological theories and methodologies for the analysis of data that are obtained from mediated performance, archival sources, material culture and recorded music and image.

Prerequisite: 30 points from ANTHRO 323, 333, 357

**Anthropology 732** 15 Points

**Reading Medical Ethnography**
Examines the social anthropological practice of ethnography of health and illness in community and clinical settings, including ‘non-Western’ and ‘Western’ cultural contexts, through critical readings of recent ethnographies in medical anthropology. Considers ethnographic and anthropological theory, ethics, methodology and application.

**Anthropology 733** 30 Points
**Anthropology 733A** 15 Points
**Anthropology 733B** 15 Points

**Research in Popular Music Culture**
Advanced ethnomusicological theories and methodologies for the analysis of data that are obtained from mediated performance, archival sources, material culture and recorded music and image.

Prerequisite: 30 points from ANTHRO 323, 333, 357

**Anthropology 735** 30 Points

**Special Topic in Anthropology**

**Anthropology 736** 30 Points
**Anthropology 736A** 15 Points
**Anthropology 736B** 15 Points

**Special Studies in Anthropology**
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology, under supervision of appropriate staff.

To complete this course students must enrol in ANTHRO 735 A and B, or ANTHRO 735

**Anthropology 732** 15 Points

**Reading Medical Ethnography**
Examines the social anthropological practice of ethnography of health and illness in community and clinical settings, including ‘non-Western’ and ‘Western’ cultural contexts, through critical readings of recent ethnographies in medical anthropology. Considers ethnographic and anthropological theory, ethics, methodology and application.

**Anthropology 733** 30 Points
**Anthropology 733A** 15 Points
**Anthropology 733B** 15 Points

**Research in Popular Music Culture**
Advanced ethnomusicological theories and methodologies for the analysis of data that are obtained from mediated performance, archival sources, material culture and recorded music and image.

Prerequisite: 30 points from ANTHRO 323, 333, 357

**Anthropology 735** 30 Points

**Special Topic in Anthropology**

**Anthropology 736** 30 Points
**Anthropology 736A** 15 Points
**Anthropology 736B** 15 Points

**Special Studies in Anthropology**
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology, under supervision of appropriate staff.

To complete this course students must enrol in ANTHRO 736 A and B, or ANTHRO 736
ANTHRO 738 15 Points  
**Anthropology and World Religions**
Examines the relationships between global religious bodies and theologies and local belief and practices. Addresses questions of agency, culture, power, cross-cultural encounters and vernacularisation in world religions such as, Christianity, Buddhism and Islam or themes such as, missionaries, vernacularisation and colonialism.

ANTHRO 739 15 Points  
**ANTHRO 739A 7.5 Points**
**ANTHRO 739B 7.5 Points**
**Special Studies in Anthropology**
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology under supervision of appropriate staff.  
*To complete this course students must enrol in ANTHRO 739 A and B, or ANTHRO 739*

ANTHRO 742 15 Points  
**Contact and Colonialism**
A seminar focused on critical understanding of the political, social and economic expansion of European countries around the world and its cultural consequences. Themes may include: cultural encounter, causes and effects of colonisation, interpretations of the other by colonisers and colonised, Creole cultures, slavery, race, resistance and accommodation, gender, demography, environmental impacts.  
Restriction: ANTHRO 720

ANTHRO 744 15 Points  
**Anthropology and History**
A critical examination of the characteristics, applications and interactions of different media in the production of the past: chant, genealogy, song, dance, textiles, carving, architecture, as well as written text.  
Restriction: ANTHRO 720

ANTHRO 745 15 Points  
**Special Topic: Anthropology and the Humanities**
Explores the interactions between anthropology and the humanities, especially literature and visual arts. Topics include anthropology's formation in relation to modernism, primitivism; how these movements have influenced nationalisms; contemporary exercises in genre-bending: ethnographic novels, ethnography as literature, televised ethnography; the borders between empirical ethnographic and imaginative accounts. Students will consider how and why disciplinary boundaries are formed and transgressed.

ANTHRO 746 15 Points  
**Special Topic: The Archaeology of the Anthropocene**
Calls for the Anthropocene, a new geological epoch, to recognise long-term, consequential effects of human societies, regardless of size, economics or socio-political complexity, on environments, organisms and ecosystems. When did the Anthropocene begin? How do we track socio-natural interactions over deep time? What might the past offer the future? This course explores how archaeology contributes to these and related questions.

ANTHRO 747 15 Points  
**Special Topic**

ANTHRO 748 15 Points  
**Human Osteology**
Advanced method and theory in human osteology. Coursework is a combination of seminars and practical workshops covering the areas of biocultural frameworks,
ANTHRO 763 15 Points
Emerging Bio-Anthropology
Explores new and innovative approaches to the study of the behaviour and biology of humans and other primates. What emerging developments help us to understand the complexity of human and alloprimate niches? Topics include: biocultural dynamics, multi-species entanglements and health in past and contemporary societies.

Restriction: ANTHRO 710, 726, 751, 752

ANTHRO 780 30 Points
ANTHRO 780A 15 Points
ANTHRO 780B 15 Points
Research Project - Level 9
Restriction: ANTHRO 782
To complete this course students must enrol in ANTHRO 780 A and B, or ANTHRO 780

ANTHRO 782 30 Points
Research Essay - Level 9
Restriction: ANTHRO 754, 780

ANTHRO 790 60 Points
ANTHRO 790A 30 Points
ANTHRO 790B 30 Points
Dissertation in Anthropology
A topic in one of the sub-disciplines of Anthropology to be selected in consultation with a supervisor.
To complete this course students must enrol in ANTHRO 790 A and B, or ANTHRO 790

ANTHRO 792 45 Points
ANTHRO 792A 22.5 Points
ANTHRO 792B 22.5 Points
Dissertation in Anthropology - Level 9
A topic in one of the sub-disciplines of Anthropology to be selected in consultation with staff.
To complete this course students must enrol in ANTHRO 792 A and B, or ANTHRO 792

ANTHRO 796A 60 Points
ANTHRO 796B 60 Points
Thesis in Anthropology - Level 9
Prerequisite: A BA(Hons) in Anthropology with an average of at least B+ for courses taken in the BA(Hons) degree or equivalent
To complete this course students must enrol in ANTHRO 796 A and B

ANTHRO 797A 60 Points
ANTHRO 797B 60 Points
Research Portfolio - Level 9
Prerequisite: A BA(Hons) in Anthropology with an average of at least B for courses taken in the BA(Hons) degree or equivalent
To complete this course students must enrol in ANTHRO 797 A and B

ARTHIST 107 15 Points
The Renaissance: Art and the City
An investigation of the social and cultural history of urbanisation 1400-1600 as expressed in painting, sculpture and architecture. The areas of study will involve looking at art in the spheres of public buildings, religious institutions and private houses. The cities to be covered may include Florence, Bruges, Venice, Antwerp and Rome.

ARTHIST 109 15 Points
Shock of the Modern
Will explore the production and reception of modern art in the context of rapid social, political and technological change during the period from c.1850 to 1970. Modern art is interpreted broadly to include painting, sculpture, design, architecture, performance, photography and film. Issues such as the emergence of the avant garde, primitivism and abstraction will be studied.

Restriction: ARTHIST 104, 105, 141

ARTHIST 114 15 Points
ARTHIST 114G 15 Points
Understanding Art: Leonardo to Dali
Is seeing learned? Can an image be read in the same way as a text? Understanding images is central to everyday life. Visual literacy is fundamental to all disciplines. This course provides students with tools for making sense of various kinds of images and objects: photographs, advertisements, paintings, film, television, comics, cartoons, monuments, buildings, maps, landscape, digital and internet images.

Restriction: ARTHIST 109

ARTHIST 115 15 Points
ARTHIST 115G 15 Points
Global Art Histories
A broad survey of visual art spanning from the early modern period to the contemporary. Students will be introduced to a range of art practices situated within a global context and will consider art works produced in Māori and Pacific cultures alongside Indian, Asian, Middle Eastern, European and American traditions.

Stage II

ARTHIST 200 15 Points
Radical Change: 1850-1940
Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.

Prerequisite: 15 points at Stage I in Art History and 30 points passed

Restriction: ARTHIST 222, 300, 322

ARTHIST 201 15 Points
Art and Revolution 1750-1850
Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericault and Delacroix.

Prerequisite: 15 points at Stage I in Art History and 30 points passed

Restriction: ARTHIST 321

ARTHIST 203 15 Points
Art and Devotion in Northern Europe
A survey of art in Northern Europe with the focus on developments primarily in painting and sculpture, and to a lesser extent in manuscript illumination and tapestry. Religious symbolism, approaches to landscape representation and portraiture are examined, as well as new genres such as still life and architectural painting.
Artists studied include van Eyck, Campin, van der Goes, Hieronymus Bosch and Pieter Brueghel.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 303

**ARTHIST 204**

**Ways of Seeing Contemporary Art**

Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 317

**ARTHIST 206**

**South Asian Photography**

Examines the development and reception of photography from the nineteenth to the twenty-first centuries across South Asia, focusing on how photographic practices evolved in response to socio-political factors such as class, gender, and colonisation. The course will cover topics such as studio portraits, painted images, and fine-art prints looking at works by artists such as Dayanita Singh and Raghu Rai.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 334

**ARTHIST 210**

**Modernism and Design**

A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 310

**ARTHIST 214**

**Rethinking NZ Art and Curating**

The selection of topics from the late eighteenth century to the 1970s includes cross-cultural interactions and representations, landscape and art, questions of cultural identity and innovation, relationships with the art of Europe, America, Australia and Oceania, and tensions between the local and international. Painting, sculpture, carving, architecture, photography and other media are studied.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 311, 110G, 314

**ARTHIST 215**

**The Print in Northern Europe 1470-1600**

Examines the emergence and development of the print as an independent art form in Northern Europe during the Renaissance, with a close study of the works of major artists.

**Prerequisite:** 30 points at Stage I in Art History, or 30 points at Stage I in European Studies, or 15 points at Stage I in Art History and 15 points at Stage I in European Studies

**Restriction:** ARTHIST 315

**ARTHIST 217**

**Contemporary Pacific Art**

Focuses on work by contemporary Pacific artists, exploring the ways that they translate indigenous knowledge and urban experiences into gallery forms such as painting, installation, performance, film and video making. Themes such as migration and diaspora, language and memory, notions of homelands and return, and the creation of complex cultural identities will be explored.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 317

**ARTHIST 224**

**Power and Piety: the Baroque**

The use of art to display, enhance, and justify political power and piety and to promote political and religious ideologies in the major power centres of seventeenth-century Europe in the Baroque period. Refers to the works of artists such as Caravaggio, Bernini, Velasquez, Rubens, Rembrandt, Van Dyck, Le Brun, Jones and Wren.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 306, 324

**ARTHIST 225**

**Imaging the Renaissance**

An examination of the society and culture of Europe between 1400 and 1700 as expressed in print and visual images. Topics include court and merchant culture, popular cultures, religious faith and the Reformation, festivals, literacy and the book, family and marriage, food, sexualities, witchcraft, death and disease.

**Prerequisite:** 15 points at Stage I in Art History or History or EUROPEAN 100 or HUMS 101, and 30 points passed

**Restriction:** ARTHIST 325

**ARTHIST 230**

**Art Crime**

Explores the growing trend of art crime through a focus on five primary areas: theft, fraud, smuggling, forgery, and vandalism. These will be examined within the context of international and New Zealand case studies, including the theft of the Mona Lisa in 1911, Nazi looting in World War II, and thefts during the Iraq War in 2003. Ways to curb such crime, particularly the development of art crime squads, will also be discussed.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 332

**ARTHIST 231**

**Framing the Viewer: 20th Century Art**

The rise of Modernism saw the development of art which is reflexive, which draws attention to itself and the illusion of representation, making us reflect about what art is and how it affects the viewer. This course is designed to enable students to develop their own reflexivity and critical awareness through a study of the ‘classic’ movements of the twentieth century, such as Cubism, Expressionism, Dada, Surrealism, Abstract Expressionism, Op, Pop and Conceptual Art.

**Prerequisite:** 15 points at Stage I in Art History and 30 points passed

**Restriction:** ARTHIST 331

**ARTHIST 233**

**The Art of Gender Politics**

Explores the intersection of gender and ethnicity with the visual arts. Emphasis will be on art forms and traditions in Aotearoa/New Zealand, the United States, Canada and...
Australia, with some reference to the Pacific, including photography, film, jewellery, tattoo and textiles. 

Prerequisite: 15 points at Stage I in Art History and 30 points passed, or 30 points in Transnational Cultures and Creative Practice 
Restriction: ARTHIST 319, 333

ARTHIST 235 15 Points
Contemporary Art in Aotearoa NZ
Focuses on contemporary art in Aotearoa New Zealand from the 1970s to the present, beginning with the later modernist period, exploring the innovations and contributions of Maori and Pakeha artists, and charting its influences and evolution into post-object, and contemporary practices. The development of Pacific art as well as practices that engage with feminism and gender are also a focus.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 103, 335

ARTHIST 236 15 Points
Artists and Patrons in Renaissance Italy
A journey into the motivations and inspirations behind the production of art in Renaissance Italy, this course examines the social, economic, religious and political relationships between patrons, artists and artworks c.1400-c.1520 in a variety of civic, religious, familial, artistic and spatial contexts. It ranges from Florence to Milan, the Medicis to the Sforzas, Duccio to Donatello, Leonardo to Michelangelo.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 336

ARTHIST 238 15 Points
Māori Art History: Mana Taonga
Considers Māori visual art from arrival from the Pacific to the present day. Examines how artists critically negotiated current notions of identity in their work. Forms including moko, carving, weaving, architecture, film and contemporary art are explored through key ideas such as gender politics, patronage, and repatriation. Artists examined include Raharuhi Rukupo, Te Kooti, Pine Taiapa, Lisa Reihana and Ralph Hotere.
Prerequisite: 15 points at Stage I in Art History and 30 points passed, or 45 points in GlobalSt courses
Restriction: ARTHIST 102, 338

ARTHIST 245 15 Points
The Art of Majesty: Tudors and Stuarts
Examines the role of art, architecture and material goods in communicating magnificence and legitimising political power in Tudor and Stuart England. Coverage includes Henry VIII, Elizabeth I, Anne of Denmark and Charles I and artists and architects such as Hans Holbein, Marcus Gheeraerts, Anthony van Dyck and Inigo Jones.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 345

ARTHIST 246 15 Points
Global History of Photography
Overview of photography’s global history, beginning with proto-photographic forms and ending with a consideration of digital technology and social media. Art photography is examined alongside journalistic, scientific and ethnographic paradigms of photographic practice. Conceptual issues such as socio-cultural power relationships and diverse representations of time lie at the heart of this course.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 346

ARTHIST 247 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Art History and 30 points passed

ARTHIST 248 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 348

Stage III

ARTHIST 300 15 Points
Radical Change: 1850-1940
Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 200, 222, 322

ARTHIST 303 15 Points
Art and Devotion in Northern Europe
A survey of art in Northern Europe with the focus on developments primarily in painting and sculpture, and to a lesser extent in manuscript illumination and tapestry. Religious symbolism, approaches to landscape representation and portraiture are examined, as well as new genres such as still life and architectural painting. Artists studied include van Eyck, Campin, van der Goes, Hieronymus Bosch and Pieter Brueghel.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 203

ARTHIST 310 15 Points
Modernism and Design
A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand. 
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 210

ARTHIST 313 15 Points
South Asian Photography
Examines the development and reception of photography from the nineteenth to the twenty-first centuries across South Asia, focusing on how photographic practices evolved in response to socio-political factors such as class, gender, and colonisation. The course will cover topics such as studio portraits, painted images, and fine-art prints looking at work by artists such as Dayanita Singh and Raghu Rai.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 206
ARTHIST 314  15 Points
Rethinking NZ Art and Curating
The selection of topics from the late eighteenth century to the 1970s includes cross-cultural interactions and representations, landscape and art, questions of cultural identity and innovation, relationships with the art of Europe, America, Australia and Oceania, and tensions between the local and international. Painting, sculpture, carving, architecture, photography and other media are studied. Prerequisite: HISTORY 252 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 110, 110G, 214

ARTHIST 315  15 Points
The Print in Northern Europe 1470-1600
Examines the emergence and development of the print as an independent art form in Northern Europe during the Renaissance, with a close study of the works of major artists. Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 215

ARTHIST 317  15 Points
Contemporary Pacific Art
Focuses on work by contemporary Pacific artists, exploring the ways that they translate indigenous knowledge and urban experiences into gallery forms such as painting, installation, performance, film and video making. Themes such as migration and diaspora, language and memory, notions of homelands and return, and the creation of complex cultural identities will be explored. Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 217

ARTHIST 321  15 Points
Art and Revolution 1750-1850
Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericauld and Delacroix. Prerequisite: HIST 224 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 201

ARTHIST 324  15 Points
Power and Piety: The Baroque
The use of art to display, enhance, and justify political power and piety and to promote political and religious ideologies in the major power centres of seventeenth-century Europe in the Baroque period. Refers to the work of artists such as Caravaggio, Bernini, Velasquez, Rubens, Rembrandt, Van Dyck, Le Brun, Jones and Wren. Prerequisite: HISTORY 243 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 224, 306

ARTHIST 325  15 Points
Imaging the Renaissance
An examination of the society and culture of Europe between 1400 and 1700 as expressed in print and visual images. Topics include court and merchant culture, popular cultures, religious faith and the Reformation, festivals, literacy and the book, family and marriage, food, sexualities, witchcraft, death and disease. Prerequisite: 15 points at Stage II in Art History or History and 60 points passed
Restriction: ARTHIST 225

ARTHIST 331  15 Points
Framing the Viewer: 20th Century Art
The rise of Modernism saw the development of art which is reflexive, which draws attention to itself and the illusion of representation, making us reflect about what art is and how it affects the viewer. This course is designed to enable students to develop their own reflexivity and critical awareness through a study of the ‘classic’ movements of the twentieth century, such as Cubism, Expressionism, Dada, Surrealism, Abstract Expressionism, Op, Pop and Conceptual Art. Prerequisite: 15 points at Stage I in Art History and 15 points from ENGLISH 206, FRENCH 244, HISTORY 241, PHIL 212, or 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 231

ARTHIST 332  15 Points
Art Crime
Explores the growing trend of art crime through a focus on five primary areas: theft, fraud, smuggling, forgery, and vandalism. These will be examined within the context of international and New Zealand case studies, including the theft of the Mona Lisa in 1911, Nazi looting in World War II, and thefts during the Iraq War in 2003. Ways to curb such crime, particularly the development of art crime squads, will also be discussed. Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 230

ARTHIST 333  15 Points
The Art of Gender Politics
Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic. Prerequisite: At least 15 points from FTVMS 203, HISTORY 206, PHIL 212 and 15 points at Stage I in Art History or 15 points at Stage II in Art History or 15 points at Stage I in Art History and 60 points passed, or 30 points in Transnational Cultures and Creative Practice
Restriction: ARTHIST 233, 319

ARTHIST 334  15 Points
Ways of Seeing Contemporary Art
Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic. Prerequisite: At least 15 points from FTVMS 203, HISTORY 206, PHIL 212 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 204

ARTHIST 335  15 Points
Contemporary Art in Aotearoa NZ
Focuses on contemporary art in Aotearoa New Zealand from the 1970s to the present, beginning with the later modernist period, exploring the innovations and contributions of Maori and Pakeha artists, and charting its influences and evolution into post-object, and contemporary practices. The
development of Pacific art as well as practices that engage with feminism and gender are also a focus.

of culture in museums and art galleries, the strategies of public exhibitions, and the role of curators and institutions in identity formation and nationalism. Case studies are drawn from international practice as well as regional examples from New Zealand, Australia and the Pacific.

Restriction: ARTHIST 721

ARTHIST 719 15 Points
Public Art: Issues and Controversy
A study of the politics and function of public art and monuments, predominantly sculpture. Topics include: the challenges of public space, issues of nationalism and cultural identity, memorialisation (for example war and Holocaust memorials), patronage and the urban environment, controversial works, and local practice in relation to international case studies. Public art in Europe, North America and Australia is examined.

Restriction: ARTHIST 706

ARTHIST 722 30 Points
ARTHIST 722A 15 Points
ARTHIST 722B 15 Points
Rembrandt and the Dutch Golden Age
A broad range of critical approaches to the art and life of Rembrandt. The course is taught in seven modules: these comprise the socio-political milieu in which he worked, the historical documents of his life, the artworks he produced, the technical aspects of his work, the organisation of his studio and mechanics of the art market, the issue of authorship and the critical reception of his life and work.

Restriction: ARTHIST 737
To complete this course students must enrol in ARTHIST 722 A and B, or ARTHIST 722

ARTHIST 725 30 Points
ARTHIST 725A 15 Points
ARTHIST 725B 15 Points
Concepts in Contemporary Art
Examines the cross-fertilisation of theory and praxis, philosophy and art, materialism and idealism in the arts. It will be taught in four thematic units – Body/Mind; Representation/Experience; Self/Other and Materialism/Conceptualism – testing how visual theory bridges the gap between these dual terms. Students will learn to apply a number of important critical theories to their understanding of art, and importantly, to fine-tune those theories through visual experience.

Restriction: ARTHIST 724, 729
To complete this course students must enrol in ARTHIST 725 A and B, or ARTHIST 725

ARTHIST 726 Special Study
Directed study on a topic or topics approved by the Academic Head.

ARTHIST 727 15 Points
Art in Context: Study Abroad
Highlights the importance of studying original artworks in context. Contexts for artworks include the original setting, such as a palace, monastery, or town hall, to wider examinations of the socio-historical situations in which they were created. In addition, new museological contexts for artworks offer insight into the display and interpretation of visual culture.

Exploring Pacific Art
Focuses on a range of Māori and Pacific art forms. Themes dealt with include indigenous and migrant voices, memory and notions of belonging, popular culture and its interface with gallery practices, and stereotypes and representation. These topics will be discussed alongside relevant Māori and Pacific writers and theorists, including Ngahuia Te Awekotuku, Albert Wendt and Epeli Hau’ofa.

Restriction: ARTHIST 732, 736
To complete this course students must enrol in ARTHIST 730 A and B, or ARTHIST 730

ARTHIST 731 15 Points
Sites of Resistance
Focuses on issues and implications of colonialism and its role in relation to the creation and expression of cultural identities. Classes revolve around close discussions of key readings and their implications in relation to contemporary art practice. There will be particular emphasis on the mediums of film, video, photography, multimedia and performance. Topics include border art, gender issues and counter-curating.

Restriction: ARTHIST 712

ARTHIST 732 15 Points
Topics in Pacific Art and Visual Culture
Focuses on a range of Pacific art forms and aspects of visual culture. Topics include indigenous and migrant voices, memory and notions of belonging, popular culture and its interface with gallery practice and stereotypes and representation. A range of art works and issues are discussed alongside relevant Pacific writers and theorists, including Ngahuia Te Awekotuku, Albert Wendt and Epeli Hau’ofa.

Asian Studies

Stage I

ASIAN 100 15 Points
Images of Asia
An interdisciplinary introduction to the histories and cultures of East Asian societies, exploring their development, their engagement with each other over time, and what makes them the societies that they are today.
Restriction: HISTORY 135

ASIAN 140 15 Points
ASIAN 140G 15 Points
New Zealand and Asia
Explores Asia and its interrelationship with New Zealand, including Asia’s growing presence in New Zealand in all its manifestations, and the evolving political, social, economic, cultural, and strategic relations between this country and Asia. Topics will include historical and contemporary ties with Asia, Asian migration, literature, media and films. The course will focus especially on South-East and East Asia.

Stage II

ASIAN 200 15 Points
Asian Identities
Students explore the changing and contested nature of Asian identities through readings of seminal scholarly and theoretical texts on each theme, combined with analysis of the ways these themes are reflected in film, fiction and other popular cultural texts. The four themes (nationalism; gender; minorities; and indigenous rights) and a concentration on post-1945 East and South-East Asia provide the focus.
Prerequisite: ASIAN 100 or 30 points in Gender Studies or 45 points in BGlobalSt courses
Restriction: ASIAN 303

ASIAN 202 Special Topic
Prerequisite: 45 points at Stage I in BA courses

ASIAN 203 Special Topic
Prerequisite: 45 points at Stage I in BA courses

ASIAN 204 Asian Diasporas
Focuses on three major diasporic groups in Asia: Chinese, Korean and Japanese. Comparisons will be made among the three diasporic groups of overseas Koreans, Japanese and Chinese in their migration patterns, modes of adaptation, and transnational life styles.
Prerequisite: 45 points at Stage I in BA courses or 45 points in BGlobalSt courses
Restriction: ASIAN 302

ASIAN 209 Transnational Asia: Challenges and Possibilities
Critically engages the current debates surrounding the concept and movement of “transnational Asia” and the possibility of reconciliation among China, Japan and the two Koreas. Examines the historical, cultural and ideological sources and recent development of this new form of regionalism, in addition to such challenges as Chinese hegemony and competing nationalism in the region.
Prerequisite: ASIAN 100 or KOREAN 120 and 45 points at Stage I in BA
Restriction: ASIAN 309, 753

Stage III

ASIAN 300 15 Points
Special Study
Independent student research conducted under the supervision of one or more lecturers.
Prerequisite: Approval of Academic Head or nominee

ASIAN 302 Asian Diasporas
Focuses on three major diasporic groups in Asia: Chinese, Korean and Japanese. Compares the migration patterns, modes of adaptation and transnational lifestyles of overseas Chinese, Japanese and Koreans.
Prerequisite: 30 points at Stage II in BA or BGlobalSt courses
Restriction: ASIAN 204

ASIAN 303 Asian Identities
Students explore the changing and contested nature of Asian identities through readings of seminal scholarly and theoretical texts on each theme, combined with analysis of the ways these themes are reflected in film, fiction and other popular cultural texts. The four themes of nationalism; gender; minorities; and indigenous rights, and a concentration on post-1945 East and South-East Asia provide the focus.
Prerequisite: ASIAN 100 and 30 points at Stage II in BA, or GENDER 100 and 30 points at Stage II in BA courses, or 30 points at Stage II in BGlobalSt courses
Restriction: ASIAN 200

ASIAN 304 Special Topic
Prerequisite: ASIAN 100 and 30 points at Stage II in BA courses, or 30 points at Stage II in BGlobalSt courses
ASIAN 309
Transnational Asia: Challenges and Possibilities
Aims to critically engage the current debates surrounding
the concept and movement of “transnational Asia” and
the possibility of reconciliation among China, Japan and
the two Koreas. Examines the historical, cultural, and
ideological sources and recent development of this new
form of regionalism, as well as such challenges as Chinese
hegemony and competing nationalism in the region.
Prerequisite: ASIAN 100 or KOREAN 120 and 30 points at Stage
II in BA
Restriction: ASIAN 209, 753

Postgraduate 700 Level Courses

ASIAN 702
Approaches to Research in Asian Studies
The theories and methods of research in history, literature
and cultural studies in an Asian context, including practical
instruction in the skills involved in developing individual
research projects.
Restriction: ASIAN 700

ASIAN 708
Religion in Modern Japanese Society
The aim of this course is to understand the role of religious
beliefs, practices, and institutions in modern Japanese
society. Topics to be covered include the “invention” of
State Shinto and its role in nation-building, the decline of
established temple Buddhism, the emergence and impact
of new religious movements, and social conflict related to
religion-state issues in the postwar period.
Restriction: JAPANESE 308

CAREER 100G

Crafting your Career
What is employability? The world of work is changing rapidly.
Crafting your Career uses project-based, collaborative,
problem-solving exercises to assist students in readying
themselves for life after the degree. The course aims to build
students' work-readiness by enhancing their understanding
of a variety of workplaces, while developing the skills
employers regard as essential to career success.
Prerequisite: 60 points passed
Restriction: ARTSGEN 102, POPLHLTH 300, 302

Stage II

CAREER 200

Understanding the Workplace
Enables students to build on existing paid work or voluntary
service external to their University studies while learning
about the dynamics of cultures within professional or
organisational settings. Students will research how their
target organisation functions, will consider other forms of
workplace environment and will demonstrate how their
own activities contribute to personal and professional
development.
Prerequisite: 90 points passed
Stage III

CAREER 300 15 Points
Internship
Enables students to gain workplace experience and to develop new skills, contacts and networks in a setting relevant to personal career interests. Students will undertake an internship project at a business or community enterprise. Academic content will include preparation before, and self-reflection and reporting after the placement. Consideration will be given to overseas as well as locally-based opportunities.
Prerequisite: 60 points passed at Stage II with a Grade Point Average of 6.0 or higher and Dean or nominee approval
Restriction: ARTSGEN 301, COMMS 307

Chinese

Stage I

CHINESE 100 15 Points
Beginning Modern Chinese 1
Introduces students to modern Standard Chinese (Mandarin, Putonghua) through exercises and activities to develop speaking, listening, reading and writing skills. Also introduces the social and cultural background of the language.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 101 15 Points
Beginning Modern Chinese 2
Continues to develop students’ Chinese proficiency in speaking, listening, reading, writing skills and cultural literacy.
Prerequisite: CHINESE 100
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 130 15 Points
Rethinking China
An introduction to the artistic, literary, historical and philosophical heritage of China, allowing students to engage with stimulating texts from historical times to the modern period. Taught in English.

CHINESE 178 15 Points
Chinese Study Abroad 1
Formal language study in an approved overseas institution where instruction is in Mandarin Chinese. May not be taken if a more advanced language acquisition course in this subject has previously been passed.
Prerequisite: Approval of Academic Head or nominee

Stage II

CHINESE 200 15 Points
Intermediate Modern Chinese 1
Further develops students’ listening, speaking, reading and writing proficiency. Students who successfully complete the course will be familiar with most of the topics related to everyday life and can communicate in a limited range of contexts.
Prerequisite: CHINESE 101
Restriction: CHINESE 202. May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 201 15 Points
Intermediate Modern Chinese 2
Further develops students’ listening, speaking, reading and writing skills and introduces the formal register of the language. By the end of the course students can handle daily situations with increasing accuracy.
Prerequisite: CHINESE 200
Restriction: CHINESE 202. May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 202 15 Points
Chinese for Heritage Speakers
Designed for students who have lived in a Mandarin-speaking environment, but who have limited ability to read and write in Mandarin. This course covers the basic vocabulary and grammatical structures of Modern Standard Chinese with a focus on reading and writing skills.
Prerequisite: Approval of Academic Head or nominee
Restriction: CHINESE 100, 101, 110, 200, 201. May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 203 15 Points
China on Screen
The transformation of China’s contemporary cultures and communities can be charted through film. This course uses films from the 1930s until this century to examine the development and contestation of the Chinese nation. Several films will be compared with their literary originals in translation.
Prerequisite: 30 points from ASIAN 100, COMMS 100, CHINESE 130, FTVMS 100, 101, JAPANESE 150, KOREAN 120, MEDIA 101 or 45 points at Stage I in BA courses
Restriction: CHINESE 303

CHINESE 213 15 Points
Special Topic
Prerequisite: CHINESE 101 or 110 or 130

CHINESE 277 15 Points
Chinese Study Abroad 2A
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Approval of Academic Head or nominee

CHINESE 278 15 Points
Chinese Study Abroad 2B
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Approval of Academic Head or nominee

Stage III

CHINESE 300 15 Points
Advanced Modern Chinese 1
Further develops students’ listening, speaking, reading and writing skills through exploring Chinese culture and society. Builds on previous study of Chinese with an emphasis on developing independent skills to operate confidently in a Chinese-speaking environment.
Prerequisite: CHINESE 201
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 301 15 Points
Advanced Modern Chinese 2
Builds on the knowledge gained from prior Chinese study and helps develop independent and confident skills as a
proficient user of Chinese. Texts covering various aspects of Chinese society, culture and literature will be read to strengthen knowledge of Chinese grammar and vocabulary, develop skills in both written and spoken Chinese, and provide a deeper understanding of contemporary Chinese culture.

Prerequisite: CHINESE 300
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

CHINESE 302  15 Points
Advanced Chinese Reading and Writing
Designed for students studying Chinese language at an advanced level, this course focuses on strengthening reading and writing skills.
Prerequisite: CHINESE 202 or 300 or approval by Academic Head or nominee

CHINESE 303  15 Points
China on Screen
The transformation of China’s contemporary cultures and communities can be charted through film. This course uses films from the 1930s until this century to examine the development and contestation of the Chinese nation. Several films will be compared with their literary originals in translation.
Prerequisite: 30 points at Stage II in Asian Studies or Media, Film and Television, or CHINESE 130 and 15 points at Stage II in Asian Studies
Restriction: CHINESE 203

CHINESE 313  15 Points
Special Topic
Prerequisite: 30 points at Stage II in Chinese

CHINESE 377  15 Points
Chinese Study Abroad 3A
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Approval of Academic Head or nominee

CHINESE 378  15 Points
Chinese Study Abroad 3B
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: CHINESE 377 and approval of Academic Head or nominee

Postgraduate 700 Level Courses

CHINESE 724  30 Points
Chinese Film and Popular Culture
Chinese feature films and other popular cultural phenomena (e.g., music, television, fashion, the internet) provide a medium for understanding a society undergoing rapid change. The emphasis is on contemporary developments, including youth cultures and Beijing from the 1960s to the present day. No knowledge of Chinese language required.

CHINESE 727  30 Points
Chinese New Zealanders
Examines both recent immigration trends and the historical development of the New Zealand Chinese and other Asian communities. Special attention will be paid to the impact on New Zealand’s demographic profile, social and economic implications and race relations issues, and contemporary transnationalism in its historical context. Will also examine settlement and integration issues, and the tension between globalisation and New Zealand nationalism.

CHINESE 729A  15 Points
Special Topic
To complete this course students must enrol in CHINESE 729 A and B

CHINESE 730  15 Points
CHINESE 730A  7.5 Points
CHINESE 730B  7.5 Points
Directed Study
To complete this course students must enrol in CHINESE 730 A and B, or CHINESE 730

CHINESE 731  45 Points
Research Essay - Level 9

CHINESE 732  30 Points
Directed Study

CHINESE 735  15 Points
Introduction to Chinese Linguistics
The phonology, written system, dialectology, semantics, morphology, syntax and rhetoric of Chinese; and an introduction to the terminology and methodology used in Chinese linguistics research. The focus will be on the development of students’ skills in critically appraising existing works and carrying out their own individual research projects.
Restriction: CHINESE 717

CHINESE 737  15 Points
Research Essay - Level 9

CHINESE 739  15 Points
Educational Linguistics in Chinese
Systemically reviews the Chinese language system and key educational linguistic concepts for teaching and learning Chinese as a Second Language. The course will help students gain a solid understanding of the characteristics and development of the Chinese language, including but not limited to Chinese phonetics, dialects, characters, morphemes and words, lexical changes, sentence structures, stylistic issues and genres.
Prerequisite: CHINESE 301 or equivalent
Restriction: CHINESE 707

CHINESE 740  15 Points
Chinese Teaching Pedagogy
Critically investigates the pedagogical-content knowledge for teaching Chinese to speakers of other languages. Designed for students to develop practical pedagogical approaches to teach the following five content areas: pronunciation, characters, grammar, discourse and culture. Students will have opportunities to explore different strategies for engaging learners in Chinese language classrooms in schools, universities and the community.
Prerequisite: CHINESE 301 or equivalent
Restriction: CHINESE 708

CHINESE 741  15 Points
Acquisition of Chinese
Critically examines the most recent research on, and good practice in, the complex process of acquiring Chinese as a second language. Covers topics related to the relationship between Chinese and students’ first language; individual students’ different learning beliefs, motivation and autonomy; bilingualism; and the development of needs analyses for young and adult learners of Chinese.
Restriction: CHINESE 709
CHINESE 742 15 Points
Professional Learning for Chinese Teachers
Explores advanced theories and practices relevant to teaching the Chinese language in different social and educational contexts. Focused on developing advanced intercultural competence and professional skills. Students will develop and apply new skills and techniques based on research and practice at the cutting-edge of the field.
Prerequisite: Must have attained a proficiency level in Chinese of at least HSK level 5 or its equivalent
Restriction: CHINESE 710

CHINESE 777 15 Points
Chinese Study Abroad I
Formal study in an approved overseas institution where instruction is in Chinese. This course is not suitable for native speakers of Chinese. Enrolment requires the approval of the Academic Head or nominee.

CHINESE 778 15 Points
Chinese Study Abroad II
Formal study in an approved overseas institution where instruction is in Chinese. This course is not suitable for native speakers of Chinese. Enrolment requires the approval of the Academic Head or nominee.

CHINESE 780 30 Points
CHINESE 780A 15 Points
CHINESE 780B 15 Points
Research Project - Level 9
To complete this course students must enrol in CHINESE 780 A and B, or CHINESE 780

CHINESE 782 30 Points
Research Essay - Level 9

CHINESE 792 45 Points
CHINESE 792A 22.5 Points
CHINESE 792B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in CHINESE 792 A and B, or CHINESE 792

Classical Studies and Ancient History

Stage I

ANCIENT 100 15 Points
Ancient Egyptian History
A broad overview of ancient Egyptian society and history. It encompasses the approximately 2000 years between the early period of formation of the state of Egypt and the end of the New Kingdom. A focus on political history forms the framework for discussions of the art, literature, and religion of the period.
Restriction: ANCHIST 100

ANCIENT 102 15 Points
Ancient Greek History
An introduction to Greek history and civilisation from the Bronze Age to the death of Alexander the Great utilising both archaeological evidence and literary sources.
Restriction: ANCHIST 102

ANCIENT 103 15 Points
Roman History
An introduction to the civilisation and history of Ancient Rome, with particular reference to the Republic and Early Empire.
Restriction: ANCHIST 103

ANCIENT 104 15 Points
Dynasties, Democracy, Empire
Explores the history and cultures of three civilisations in the ancient Mediterranean: Egypt, Greece, and Rome. Uses ancient evidence, from the newest archaeological discoveries, to the works of classical literature, to present major historical events in the Mediterranean against the backdrop of the everyday lives of the people who lived in these societies.
Restriction: ANCHIST 110

ANCIENT 110 15 Points
ANCIENT 110G 15 Points
Classical Mythology
A study of ancient Greek and Roman mythology – its gods, heroes and monsters – through the works of major writers and artists from the Greco-Roman world.
Restriction: CLASSICS 110, 110G

ANCIENT 130 15 Points
Love and Death in Greek and Roman Literature
A study of selected literary texts from ancient Greece and Rome that deal with two themes that continue to be relevant today.
Restriction: CLASSIC 130

Stage II

ANCIENT 200 15 Points
Greek and Roman Epic Poetry
A study of the beginnings of European epic poetry: especially in Homer and Virgil.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 300, CLASSICS 210, 310

ANCIENT 210 15 Points
Egyptian Language 1A
A study of the Egyptian language, hieroglyphic writing and selected documents up to Dynasty 18.
Prerequisite: 15 points at Stage I in Ancient History, Classical...
A study of some influential philosophical texts from Greco-Roman antiquity with reference to circumstances of composition and ancient reception. Writers studied may include Plato, Xenophon, Aristotle, Cicero, Lucretius, Seneca the Younger, Plutarch, Sextus Empiricus, and Augustine. **Prerequisite:** 15 points at Stage I in Classical Studies, Ancient History, Classical Studies and Ancient History, Philosophy, or GREEK 101, or LATIN 101, or EUROPEAN 100, and 30 points passed  
**Restriction:** ANCIENT 350, CLASSICS 250, 350

ANCIENT 251  
**Ancient Egyptian Art: Icon and Narrative**  
A chronological study of the art and architecture of ancient Egypt, from the predynastic period to the end of the New Kingdom, examining trends and styles in all forms of ancient art in Egypt.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History or Art History, and 30 points passed  
**Restriction:** ANCIENT 251, 351, ANCIENT 351

ANCIENT 252  
**Egyptian Religion**  
A study of ancient Egyptian religion from the early Dynastic period through to the end of the Late Period. The course will examine religious practice as well as religious thought, and will consider the patterns of belief throughout the ancient period of Egypt's history.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed  
**Restriction:** ANCIENT 252, 352, ANCIENT 352

ANCIENT 253  
**Early Egypt**  
Covers the earliest periods of Egypt's development from the prehistoric period to the end of the Old Kingdom. This course focuses on the lead-up to state formation and the great Pyramid Age that followed.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed  
**Restriction:** ANCIENT 253, 353, ANCIENT 353

ANCIENT 254  
**Early Rome**  
A study of the earliest development of ancient Rome using written sources but with special emphasis on archaeological evidence.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed  
**Restriction:** ANCIENT 254, 354, ANCIENT 354

ANCIENT 255  
**The Later Roman Empire**  
A study of the Roman empire between the third and sixth centuries CE. Topics covered include the social, economic and political crises of the period, encounters and struggles between Romans and barbarians, the conflict between Paganism and Christianity, and the emergence of the barbarian kingdoms in the West and the Byzantine empire in the East.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed  
**Restriction:** ANCIENT 255, 355, ANCIENT 355

ANCIENT 256  
**The Ancient World at War**  
Provides an in-depth analysis of the role of the military in ancient Egypt, Greece and Rome. The physical evidence of
warfare as well as chronological development of warfare within each society will be discussed. An additional theme will be the interweaving of the social and cultural impact of warfare and the army upon these civilisations.

**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed

**Restriction:** ANCIENT 256, 356, ANCIENT 356

**ANCIENT 258** 15 Points

**Fifth Century Athens**
Examines the social, economic, political, and ideological development of Athens and Athenian democracy in the fifth century BC; the course will consider both literary sources and archaeological material.

**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed

**Restriction:** ANCIENT 258, 358, ANCIENT 358

**ANCIENT 260** 15 Points

**Roman Revolutions**
Covers the history, politics, society and culture of Rome during the late Republic and early Imperial periods. Topics include the army, religion, family, sexuality, literature, art and the life of the provinces, set against the dramatic breakdown of old systems of government and their replacement with a new model of rule.

**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed

**Restriction:** ANCIENT 203, 213, 260, 360, ANCIENT 360

**ANCIENT 280** 15 Points

**Art and Society in Ancient Rome**
A study of the art and architecture of the ancient Romans. Emphasis will be placed on the role of the visual arts as vehicles for the expression of social values and political and imperial ideas.

**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, Art History, or GREEK 101 or LATIN 101, and 30 points passed

**Restriction:** ANCIENT 380, CLASSICS 280, 380

**ANCIENT 285** 15 Points

**Classical Tragedy**
Tragedy as a concept, a means of interpreting events, and a literary genre, is central to the ancient Greeks’ way of constructing their world. Through a close reading of a selection of ancient dramas, this course will explore the nature and interpretation of tragedy with particular reference to Aristotle’s Poetics.

**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Drama, or GREEK 101 or LATIN 101, and 30 points passed

**Restriction:** ANCIENT 385, CLASSICS 285, 385

**Stage III**

**ANCIENT 300** 15 Points

**Greek and Roman Epic Poetry**
A study of the beginnings of European epic poetry especially in Homer and Virgil.

**Prerequisite:** 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**Restriction:** ANCIENT 200, CLASSICS 210, 310

**ANCIENT 304** 15 Points

**Directed Study**
Prerequisite: 15 points at Stage II in Ancient History, Classical Studies or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**ANCIENT 310** 15 Points

**Egyptian Language 2A**
This course carries on from ANCIENT 220, with reading extended historical, narrative, and religious texts.

**Prerequisite:** ANCIENT 220 or ANCIENT 220

**Restriction:** ANCIENT 310, 340

**ANCIENT 314** 15 Points

**Special Topic**
Prerequisite: 15 points at Stage II in Classical Studies, Ancient History or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**Restriction:** ANCIENT 214

**ANCIENT 315** 15 Points

**Special Topic**
Prerequisite: 15 points at Stage II in Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**Restriction:** ANCIENT 215

**ANCIENT 316** 15 Points

**Sex and Power in Greece and Rome**
Many Greek and Roman literary works deal with sex and power. This course will explore a range of ancient literary representations of women, men, femininity, masculinity, sexual practices and sexual prejudices. Students will study how ancient authors were influenced by the socio-political context and the constraints of different literary genres. All texts will be read in translation.

**Prerequisite:** 15 points at Stage II in Classical Studies, Ancient History, Classical Studies and Ancient History, Gender Studies, Greek, or Latin

**Restriction:** ANCIENT 216, CLASSICS 216, 316

**ANCIENT 317** 15 Points

**Special Topic**
Prerequisite: 15 points at Stage II in Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**Restriction:** ANCIENT 217

**ANCIENT 325** 15 Points

**Greek and Roman Comedy**
A study of the comedies of Aristophanes and Menander, Plautus and Terence.

**Prerequisite:** 15 points at Stage II in Classical Studies, Ancient History, or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**Restriction:** ANCIENT 225, CLASSICS 220, 320

**ANCIENT 345** 15 Points

**Dialogues of Plato**
An interpretative study with attention to the literary form, dramatic and rhetorical features and dialectical method, with their implications for our understanding of the arguments, concepts and positions presented. Dialogues to be read include topics such as: ethics, the soul, love, education, knowledge, politics, reason and persuasion, the theory of forms, and the nature of the cosmos.

**Prerequisite:** 15 points at Stage II in Classical Studies, Ancient History, or Classical Studies and Ancient History, or 30 points at Stage II in Greek

**Restriction:** ANCIENT 245, CLASSICS 240, 340

**ANCIENT 350** 15 Points

**Philosophical Writing in Antiquity**
A study of some influential philosophical texts from Greco-Roman antiquity with reference to circumstances of composition and ancient reception. Writers studied may
include Plato, Xenophon, Aristotle, Cicero, Lucretius, Seneca the Younger, Plutarch, Sextus Empiricus, and Augustine. Prerequisite: 15 points at Stage II in Classical Studies, Ancient History, or Classical Studies and Ancient History, or 30 points at Stage II in Greek
Restriction: ANCIENT 250, CLASSICS 250, 350

ANCIENT 351 15 Points
Ancient Egyptian Art: Icon and Narrative
A chronological study of the art and architecture of ancient Egypt, from the predynastic period to the end of the New Kingdom, examining trends and styles in all forms of ancient art in Egypt. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Art History or Greek
Restriction: ANCHIST 251, 351, ANCIENT 251

ANCIENT 352 15 Points
Egyptian Religion
A study of ancient Egyptian religion from the Early Dynastic period through to the end of the Late Period. The course will examine religious practice as well as religious thought, and will consider the patterns of belief throughout the ancient period of Egypt's history. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History
Restriction: ANCHIST 252, 352, ANCIENT 252

ANCIENT 353 15 Points
Early Egypt
Covers the earliest periods of Egypt's development from the prehistoric period to the end of the Old Kingdom. This course focuses on the lead-up to state formation and the great Pyramid Age that followed. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History
Restriction: ANCHIST 253, 353, ANCIENT 253

ANCIENT 354 15 Points
Early Rome
A study of the earliest development of ancient Rome, using written sources but with special emphasis on archaeological evidence. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Latin
Restriction: ANCHIST 254, 354, ANCIENT 254

ANCIENT 355 15 Points
The Later Roman Empire
A study of the Roman Empire between the third and sixth centuries CE. Topics covered include the social, economic and political crises of the period, encounters and struggles between Romans and barbarians, the conflict between Paganism and Christianity, and the emergence of the barbarian kingdoms in the West and the Byzantine empire in the East. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin
Restriction: ANCHIST 255, 355, ANCIENT 255

ANCIENT 356 15 Points
The Ancient World at War
Provides an in-depth analysis of the role of the military in ancient Egypt, Greece and Rome. The physical evidence of warfare as well as chronological development of warfare within each society will be discussed. An additional theme will be the interweaving of the social and cultural impact of warfare and the army upon these civilisations. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History
Restriction: ANCHIST 256, 356, ANCIENT 256

ANCIENT 358 15 Points
Fifth Century Athens
The social, economic, political, and ideological development of Athens and Athenian democracy in the fifth century BC; the course will consider both literary sources and archaeological material. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek
Restriction: ANCHIST 258, 358, ANCIENT 258

ANCIENT 360 15 Points
Roman Revolutions
Covers the history, politics, society and culture of Rome during the late Republic and early Imperial periods. Topics include the army, religion, family, sexuality, literature, art and the life of the provinces, set against the dramatic breakdown of old systems of government and their replacement with a new model of rule. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Latin
Restriction: ANCHIST 260, 303, 313, 360, ANCIENT 260

ANCIENT 377 15 Points
Study Abroad (Rome)
Study abroad on archaeological sites in the Roman Empire. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, and approval of Academic Head or nominee
Restriction: ANCHIST 377, CLASSICS 377

ANCIENT 378 15 Points
Study Abroad (Greece)
Study abroad on archaeological sites in Greece. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, and approval of Academic Head or nominee
Restriction: ANCHIST 378, CLASSICS 378

ANCIENT 379 15 Points
Study Abroad (Egypt)
Study abroad on archaeological sites in Egypt. Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, and approval of Academic Head or nominee
Restriction: ANCHIST 379

ANCIENT 380 15 Points
Art and Society in Ancient Rome
A study of the art and architecture of the ancient Romans. Emphasis will be placed on the role of the visual arts as vehicles for the expression of social values and political and imperial ideas. Prerequisite: 15 points at Stage II in Classical Studies, Ancient History, or Classical Studies and Ancient History, or 30 points at Stage II in Latin or Art History
Restriction: ANCIENT 280, CLASSICS 280, 380

ANCIENT 385 15 Points
Classical Tragedy
Tragedy as a concept, a means of interpreting events, and a literary genre, is central to the ancient Greeks' way of constructing their world. Through a close reading of a selection of ancient dramas, this course will explore
the nature and interpretation of tragedy with particular reference to Aristotle’s Poetics.
Prerequisite: 15 points at Stage II in Classical Studies, Ancient History, or Classical Studies and Ancient History, or 30 points at Stage II in Greek, Latin or Drama
Restriction: ANCIENT 285, CLASSICS 285, 385

Communication

Stage I
COMMS 100 15 Points
Communication, Technology and Culture
Explores the past, present and future of communication media. Examines communication media within their social context, and provides a particular focus on the interplay between technology and culture. Key concepts in the study of communication are introduced and various communication media are studied via specific case studies, with particular emphasis placed on new digital platforms including social and mobile media as well as older forms such as television and cinema.
Restriction: FTVMS 100

COMMS 104 15 Points
COMMS 104G 15 Points
Advertising and Society
A critical examination of advertising and advertisements focusing on the role advertising plays in consumer culture. Advertisements from a diverse range of media are studied in order to analyse how advertisements construct and disseminate meaning. The course investigates how advertising engages with the logic of wider cultural and global transformations with consideration given to both consumer and industry perspectives.
Restriction: FTVMS 110, 110G

Stage II
COMMS 200 15 Points
Writing in the Workplace
Addresses written communication in the workplace across a range of discourses, environments, strategies and audiences. Focusing on different kinds of writing used in contexts such as government, community organisations, consultancy, professions, NGOs and private business, students will analyse and produce key workplace text-types within a critical framework of workplace analysis and scholarship on labour and organisations.
Prerequisite: 60 points at Stage I in BA courses

COMMS 201 15 Points
Journalism Studies
Explores journalism, communications and the news media, examining the history and contemporary state of such practices from a theoretical, rather than practical, perspective. Students gain knowledge about the profound impact that social, political and technological shifts have had on the field of communications today and discuss their implications for popular, professional and citizen journalism.
Prerequisite: 60 points at Stage I in BA courses
Restriction: FTVMS 225

COMMS 202 15 Points
Audiences and Users
Examines the ways that audiences have been conceived, addressed, measured and empowered in the context of the history and technologies of communication media. Theories of reception to be studied include uses and gratifications models, consumer behaviourism, passive versus active audiences, the rise of the ‘prosumer’, modes of engagement and fan discourses. Students will also learn about audience research methods.
Prerequisite: 60 points at Stage I in BA courses
COMMS 203 15 Points
Television Journalism
A practical course where students explore the production of current affairs journalism. Students learn to write, video, present and edit short news items in the field and integrate these into a multi-camera production recorded as live in the television studio. Studio skills include directing, production management, multi-cam scripting, vision switching, presenting and interviewing within a framework of current industry practice.
Prerequisite: 60 points at Stage I in BA courses
Restriction: FTVMS 201

COMMS 204 15 Points
Social Media
Addresses issues related to the use of social media and considers in particular the influence of new media corporations such as Facebook, as well as platforms like Twitter, Snapchat, Tinder and YouTube. Explores our cultural practices and social rituals in relation to these peer-to-peer, one-to-many media technologies, and examines this revolution in the media landscape.
Prerequisite: 60 points at Stage I in BA courses
Restriction: FTVMS 235, 335

COMMS 205 15 Points
Writing: Concept and Craft
An exploration of written communication which connects writing as an object of analysis and critique to writing as a multi-faceted craft. Since writing systems, materials and tools create the worlds we live in, the course conceptualises the relation between world and word, image and text, technology and body, and addresses cultural, critical and digital literacies that organise lived experience.
Prerequisite: 60 points at Stage I in BA courses
Restriction: ENGLISH 105, 257, 363

COMMS 206 15 Points
Special Topic: Persuasion and Power
Prerequisite: 60 points at Stage I in BA courses

COMMS 207 15 Points
Special Topic
Prerequisite: 60 points at Stage I in BA courses

COMMS 208 15 Points
Digital Communication Ethics
Addresses applied ethical issues arising in digital journalism, social media, “big data” surveillance and privacy, algorithmic bias, and software design. As digital media expand beyond the personal computer, there is an increase of ethical issues pertaining to mobile devices, GPS navigation, biometric modelling, artificial intelligence, and the ever-expanding range of wired devices tracking us through the so-called ‘internet of things’.
Prerequisite: 60 points passed

COMMS 209 15 Points
Special Topic
Prerequisite: 60 points at Stage I in BA courses

Stage III
COMMS 300 15 Points
New Media and the Future of Communication
Explores theories and practices of communication in the digital age. The course analyses contemporary debates and controversies about the impact of new digital media platforms on the nature and ethics of communication. Examines the implications for the future in terms of opportunities and risks for individuals, communities and institutions in an environment of rapidly advancing communication technologies.
Prerequisite: 15 points from COMMS 200-208 and 15 points in BA courses
Restriction: FTVMS 203, 314

COMMS 301 15 Points
Digital Communication and Practice
Offers a practical and creative approach to digital communication within the critical context of platform studies. Students will navigate the capacities, affordances and limitations of a variety of digital platforms by developing the skills to create platform-specific outputs, such as podcasts, gifs, vlogs, mobile films and digital storytelling shorts.
Prerequisite: 15 points from COMMS 200-208 and 15 points in BA courses

COMMS 302 15 Points
Visual Communication
Provides students the tools for communicating with various kinds of visual images and objects. These may include brands, logos, graphics, photographs, advertisements, promos, paintings, cartoons, maps, architecture and architectural diagrams. Students will interrogate their culturally specific visual competencies and refine their skills in visual literacy while addressing issues of textuality, identity, ethnicity, nation, class, gender, and communicative inter-relationships more generally.
Prerequisite: ARTHIST 115 and 30 points from BA courses, or 15 points from COMMS 200-208 and 15 points from BA courses

COMMS 303 15 Points
Sports Media
Examines the relationship between sport and the media. Topics include sports journalism; industry practice; the mediated game event; online communities of fandom; commentary; issues of race and gender; and sports law. Students have the opportunity to experience outside broadcast of televised sport and use the university television studio to engage with key media sport professionals.
Prerequisite: 15 points from COMMS 200-208 and 15 points in BA courses
Restriction: FTVMS 313

COMMS 304 15 Points
Gender, Politics and the Media
Addresses the theory, practice and representation of politics in the media from a gendered perspective. Analyses the relationship between the media and women and men in the public sphere.
Prerequisite: 15 points from COMMS 200-208, GENDER 208, and 15 points in BA courses
Restriction: FTVMS 213, 324

COMMS 306 15 Points
Special Topic: Documentary and Social Change
Documentary film has a close alignment with social change, reflecting or even producing political transformation. Explores strands of documentary associated with political movements from anti-fascism to LGBTI issues, examining how the history of screen technology and differing documentary modes engage with audiences. Students will produce a ‘mini-documentary’.
Prerequisite: 15 points from COMMS 200-208 and 15 points in BA courses
Western literature, in a variety of political and cultural settings, the work of Western readers has encountered the literatures of East Asia, and South Asia, and Asian readers have encountered the literatures of Western culture. The course will examine the cultural appropriation, adoption, adaptation and distribution of communicative media as well as the political economy of communication, consumer culture and varying forms of fandom.

**COMMS 704**

**Special Topic**: Communication and Culture

Explores the mutually constitutive relationship between communication and culture through analyses of the cultural forms and meanings of social interaction. Acquaints students with classic and contemporary readings and introduces students to ways in which they can adopt a cultural approach toward communication phenomena in interpersonal, organisational, and intercultural settings.

**COMMS 710**

**Special Topic**

**COMMS 713**

**Documentary Making**

Students produce, direct and edit a 9-12 minute documentary. Emphasis is placed on learning technical and craft aspects of documentary-making informed by the rich and varied tradition of the genre. Analysis of a series of influential documentaries.

**Restriction**: SCREEN 719

**COMMS 748**

**Special Topic**

**Comparative Literature**

**Stage II**

**COMPLIT 200**

**World Literatures I: Life, Death, War, Peace, Love**

Myths, epics, bawdy tales, satires, songs, and plays make up traditions of ancient, medieval, early modern cultures. Compares cultural stories worldwide, from early writings to French Revolution. Includes Gilgamesh, Aztec myths, Roland, Tale of Genji, Scandinavian tales, Shakespeare's Tempest, Blake's poetry. Introduces skills for reading narratives by genre, theme, poetic. Texts are in English, with attention to texts' original languages.

**Prerequisite**: 60 points passed

**Restriction**: MEDIA 717

**COMPLIT 701**

**Communication and Data**

Explores the implications for communication in an age of big data, where code and algorithms curate, evaluate, and profile users' data. The course addresses issues such as archives, clouds, privacy, identity, algorithmic bias and discrimination, complexity, informational capitalism, and affective labour, while also considering possibilities for rethinking the past and predicting the future through the analysis and visualisation of data.

**COMPLIT 702**

**Communication Excess and Avoidance**

Silences and absences make communication possible. Each medium, whether spoken or printed, projected or computed, has peculiar silences ranging from elegant to tragic, comic to painful, fleeting to eternal. Superabundant digital media raise acute questions about communicative excess and possible needs to disconnect. Such questions will be addressed alongside the cultural and technological history of communication excess and absence.

**Restriction**: MEDIA 745

**COMPLIT 202**

**Interpreting Folktales**

An introduction to the study and interpretation of folktales. Tales from many cultures will be examined. Contrasting theories on the origins and meaning of folktales will be explored.

**Prerequisite**: 60 points passed

**Restriction**: COMPLIT 303

**COMPLIT 203**

**Special Topic**

**COMPLIT 206**

**When East Meets West**

Western readers have encountered the literatures of East and South Asia, and Asian readers have encountered Western literature, in a variety of political and cultural contexts.
contexts, including: colonial expansion, spiritual inquiry, modernisation, warfare, migration, and globalisation. A selection of works from East and West, which have played a key role in these encounters, especially in the modern period, will be studied. 

Prerequisite: 60 points at Stage II
Restriction: COMPLIT 302

COMPLIT 207 15 Points
Special Topic
Prerequisite: 60 points passed

COMPLIT 208 15 Points
Directed Study in Comparative Literature
A directed reading and individual study course in a selected topic or topics, approved by the Academic Head or nominee. 

Prerequisite: 60 points, and approval of Programme Coordinator

COMPLIT 210 15 Points
World Literatures 2: Machines and Modernities
Examines changing cultures and powerful ideas reflected in new literatures from the Industrial Revolution to the contemporary global era. Analyses and compares texts by genre, theme, and poetics. Includes poetry, narratives of European-Indigenous contacts, new culture movements in China and Japan, world drama, migrant writing, travel narratives. Texts are in English, with attention to texts' original languages. 

Prerequisite: 60 points passed

Stage III

COMPLIT 302 15 Points
When East Meets West
Western readers have encountered the literatures of East and South Asia, and Asian readers have encountered Western literature, in a variety of political and cultural contexts, including: colonial expansion, spiritual inquiry, modernisation, warfare, migration, and globalisation. A selection of works from East and West, which have played a key role in these encounters, especially in the modern period, will be studied.

Prerequisite: 30 points at Stage II
Restriction: COMPLIT 206

COMPLIT 303 15 Points
Interpreting Folktales
An introduction to the study of folktales, including collection and classification, oral and literary tales, structure, interpretative frameworks, revisions and film versions. Tales from many cultures will be examined. Contrasting theories on the origins and meanings of folktales will be explored. 

Prerequisite: 30 points at Stage II
Restriction: COMPLIT 202

COMPLIT 304 15 Points
Intercultural Literary Studies
How do we gain understanding from reading literature from other periods and cultures? What critical skills can be helpful in more fully understanding these texts? This course equips students for in-depth study of other literatures through the exploration of a broad range of literary genres, periods, and critical approaches, on the basis of a wide selection of literary texts. All readings are in English. 

Prerequisite: 60 points at Stage II
Restriction: COMPLIT 209

COMPLIT 305 15 Points
Special Topic
Prerequisite: 60 points at Stage II

COMPLIT 306 15 Points
Directed Reading and Research
Supervised research projects. 

Prerequisite: 60 points passed at Stage II, and approval of Programme Coordinator

Postgraduate 700 Level Courses

COMPLIT 701 30 Points
Telling and Retelling
Most storytelling involves the reworking of existing stories. Exploration of the processes involved in retelling, including: oral transmission, rewriting in a different period or culture, and adaptation from written form to cinematic or sung form. Poses questions about the psychological and social functions of retelling. Examples taken from Europe, Asia and the Pacific.

COMPLIT 702 30 Points
Rethinking Autobiography
A presentation of the lively debates on autobiography currently underway: theorisations of the self and the writing and construction of the self; women's autobiography; postcolonial autobiography; illustrated in a wide variety of autobiographical texts (including letters, diaries, memoirs, confessions, poetry, short stories, novels and video) from ancient and modern Europe, Asia and the Pacific.

COMPLIT 703 30 Points
COMPLIT 703A 15 Points
COMPLIT 703B 15 Points
Rethinking Literary Translation
Literary translation has come to be theorised as a dynamic and problematic process, central to comparative literature and shedding light on cross-cultural encounter, and colonisation and the post-colonial. Alongside such theoretical considerations students will undertake a practical translation project between languages in which they have expertise.

To complete this course students must enrol in COMPLIT 703 A and B, or COMPLIT 703

COMPLIT 704 15 Points
Special Topic

COMPLIT 705 15 Points
Reading Across Cultures
An advanced level review of approaches to the study of literature across cultures. Tests the potential and limits of theories of literature in the study of literary texts from many cultures and periods. Includes cross-cultural perspectives on authorship, intertextuality, reader-centred theories, literary translation, post-colonial literature, gender and sexuality, as well as reading across disciplines.

Restriction: COMPLIT 700, 709

COMPLIT 707 30 Points
Special Topic

COMPLIT 708 30 Points
Special Topic

COMPLIT 709 30 Points
Reading Across Cultures
An advanced level review of approaches to the study of literature across cultures. Tests the potential and limits of theories of literature in the study of literary texts from many cultures and periods. Includes cross-cultural perspectives on authorship, intertextuality, reader-centred theories,
literary translation, post-colonial literature, gender and sexuality, as well as reading across disciplines.

## Criminology

### Stage II

**CRIM 200**  
*Cultural Criminology*  
Explores students to the major concepts and methodological approaches within cultural criminology, a field that is unique in its exploration of the meanings associated with crime and deviance. The course also considers the broader contexts of crime, how powerful groups and media influence criminal justice policies, and the relationship between popular discourses and the nature of social control.  
Prerequisite: 60 points passed from BA courses

**CRIM 201**  
*Debates in Criminology*  
Presents analysis of criminal behaviour, crime control and community safety. Attention is paid to criminal offending, response and regulation. Examples are drawn from New Zealand and overseas.  
Prerequisite: 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIOL 100, 101, 103

**CRIM 202**  
*Contemporary Issues in Punishment*  
The focus is on contemporary issues in punishment, considering both its purposes and effectiveness. The course explores a range of perspectives drawing on longstanding criminological, sociological and philosophical literatures.  
Prerequisite: 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIOL 100, 101, 103

**CRIM 203**  
*The Criminal Mind: Crime and Individual Differences*  
Examines the phenomena of crime and punishment from a psychological perspective. Particular attention is paid to psychological explanations of crime, the relationship between mental illness and crime, and the role of psychology in law enforcement, the courts, and corrections.  
Prerequisite: 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, PSYCH 108, SOCIOL 100, 101, 103

**CRIM 204**  
*Critical Studies in Policing*  
Explores policing in New Zealand and beyond, including its legal and theoretical underpinnings. Critically examine media representations of the police, policing and inequality: police culture, power and accountability; the effects of human rights claims on policing methods and emerging threats to policing both locally and globally.  
Prerequisite: 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIOL 100, 101, 103

**CRIM 205**  
*Crime, Media and Society*  
The relationship between crime and the media is complex and contradictory. This course investigates this relationship by encouraging students to develop an understanding of how the media help to influence the public views of crime and criminalisation. It will do this by focusing on media portrayals of crime and criminal behaviour, media effects, and theories of media and communication.  
Prerequisite: 30 points at Stage I in Law, Media, Film and Television, Psychology, or Sociology

**CRIM 206**  
*Special Topic*  
Prerequisite: 30 points from MĀORI 130, PHIL 103, 104, POLITICS 109, SOCIOL 100, 101, 103

---

### Stage III

**CRIM 301**  
*Issues in Criminal Justice*  
Discusses the workings of the criminal justice system and explores and contextualises classical and emergent approaches to criminal justice, including their legal underpinnings. Practical and theoretical issues will be considered using a case study approach. Emphasis is given to the developing synthesis of criminal and social justice.  
Prerequisite: 15 points from CRIM 201, 202

**CRIM 302**  
*Criminology: The Indigenous and the Global*  
Are we all equal before the law? Or, are groups treated differently by the criminal justice system? This course examines, with particular emphasis on indigenous peoples in New Zealand, Australia and Canada, the impact of differential practices on inequalities and collective efforts to achieve social change. Concepts of restorative justice are central to this course.  
Prerequisite: 15 points from CRIM 201, 202

**CRIM 303**  
*Gender, Crime and Justice*  
Explores the importance of gender in the study of crime and criminal justice and examines patterns of offending, victimisation and employment in the criminal justice system amongst women and men. Traditional criminology theories and feminist critiques, and the differential treatment of women and men in the criminal justice system as victims, offenders and professionals will be critically examined and evaluated.  
Prerequisite: 15 points from CRIM 201, 202

**CRIM 304**  
*Key Issues in Restorative Justice*  
Provides a critical analysis of the restorative justice process as a response to offender behaviour, which will aid an understanding of its place within the wider criminal justice system. A variety of perspectives on restorative justice will be considered, as well as the various practices associated with it, and its effectiveness according to different stakeholders.  
Prerequisite: 15 points from CRIM 201, 202

**CRIM 305**  
*Victims and Victimology*  
Explores patterns and theories of victimisation, the position of victims and victimology within criminology, and the representation of victims in the media. Includes case studies of specific types of victimisation such as racial hate crimes and family and sexual violence. Victims’ rights and the position of victims in the criminal justice system and restorative justice will also be examined.  
Prerequisite: 15 points from CRIM 201, 202

**CRIM 306**  
*Special Topic*  
Prerequisite: 15 points from CRIM 201, 202

---

DEVELOP 706 15 Points
DEVELOP 706A 7.5 Points
DEVELOP 706B 7.5 Points

**Internship in Development**
Involves students in the operation of a development organisation, enables them to put into practice development theory and methods, provides experience of researching and writing a report or proposal to be used by the organisation, and assists them to reflect on the process in the light of development and other social science research literature. **Prerequisite: DEVELOP 701 and approval of Academic Head or nominee**  
To complete this course students must enrol in DEVELOP 706 A and B, or DEVELOP 706

DEVELOP 708 15 Points
Special Topic - Level 9

DEVELOP 709 15 Points
**Theories of International Development**
Examines early and contemporary theories and paradigms of international development, including modernisation and dependency theory, neoliberalism, human development, post-development, and participatory development. Investigates the dominance of economic growth as a development target and how this has been contested. The course will enable students to critically analyse the processes and phenomena involved in what is called 'development'.  
**Restriction: DEVELOP 700**

DEVELOP 710 15 Points
**Development Policies and Institutions**
Provides students with in-depth knowledge of policy approaches to alleviate poverty, enhance social justice and achieve sustainability. Contemporary development policies carried out by governments, donor agencies and UN organisations will be scrutinised. Examples of policies that will be covered in the course are land reform and migration policies, gender policies, climate adaptation and mitigation as well as ethical trade policies.  
**Restriction: DEVELOP 700**

DEVELOP 712 15 Points
**Undertaking Development Research**
Provides students with an overview of all phases of development research, from the theoretical framing of research, methods employed, ethical considerations, and the completion of a research proposal which can be used as the basis of an MA thesis proposal.  
**Prerequisite: Approval of the Academic Head or nominee**

DEVELOP 713 15 Points
**Ethics and Governance in International Development**
Addresses challenges to ethics and governance that arise in international development processes. Examines the competing demands of various stakeholders in the development of appropriate governance mechanisms and the values and judgements that inform societal choices and political decision-making. Students shall be familiarised with ethical debates in international development and engaged in ethically informed conversations on contemporary development challenges.

DEVELOP 715 15 Points
**Independent Research**
Supervised study on a topic approved by the Academic Head or nominee.

DEVELOP 716 15 Points
**Global Health and Development**
Introduces a social science approach to the study of health and globalisation, tracing various historical genealogies from colonial hygiene movements, to international public health in the development sector, up through contemporary global health institutions and their governance structure. Current issues in health and development, including the increasing role of NGOs and human rights frameworks, are critically analysed.

DEVELOP 717 15 Points
**Humanitarian Interventions**
Traces the rise of the humanitarian narrative and examines how humanitarianism – along with other key words such as crisis, emergency, and intervention – has become one of the organising categories of political action and order. The course explores the possibilities and limits of intervening in the lives of individuals and communities grounded upon discourses of compassion.

DEVELOP 792 45 Points
DEVELOP 792A 22.5 Points
DEVELOP 792B 22.5 Points

**Dissertation - Level 9**
To complete this course students must enrol in DEVELOP 792 A and B, or DEVELOP 792

DEVELOP 793 45 Points
DEVELOP 793A 22.5 Points
DEVELOP 793B 22.5 Points

**Research Portfolio**
**Prerequisite: Approval of the Academic Head or nominee**
To complete this course students must enrol in DEVELOP 793 A and B, or DEVELOP 793

DEVELOP 794A 45 Points
DEVELOP 794B 45 Points

**Thesis - Level 9**
**Prerequisite: A BA(Hons) in Development Studies with at least Second Class Honours, First Division, or equivalent**
To complete this course students must enrol in DEVELOP 794 A and B

DEVELOP 796A 60 Points
DEVELOP 796B 60 Points

**Thesis - Level 9**
**Prerequisite: A BA(Hons) in Development Studies with at least Second Class Honours, First Division, or equivalent**
To complete this course students must enrol in DEVELOP 796 A and B

**Drama**

**Stage I**

**DRAMA 100** 15 Points
**DRAMA 100G** 15 Points

**Presentation and Performance Skills: Taking the Stage**
Focuses on enhancing oral communication and performance skills through interactive workshops with speakers and performers highlighting the transferable skills of acting in...
three main areas: public speaking, improvising and group-devised performance.

Stage II

**DRAMA 202A** 15 Points
**History and Performance**
Exploring a range of major plays from ancient Greek tragedy to contemporary New Zealand drama. This course examines plays in their historical context and as texts for performance.
In Semester Two, students learn skills in theatre production by staging a full-length play, directed by an outside professional director.
Prerequisite: 60 points passed and approval by the Academic Head or nominee
*Restriction: DRAMA 204*
To complete this course students must enrol in DRAMA 202A and B

**DRAMA 203** 15 Points
**New Zealand and Pacific Drama**
An overview of the development of modern and contemporary drama, theatre and playwriting in New Zealand. Topics include: experimental theatre, feminist drama and Māori drama. Some plays by Pacific writers will be considered.
Prerequisite: 60 points passed
*Restriction: DRAMA 203*

**DRAMA 205** 15 Points
**Special Topic**
Prerequisite: 60 points passed

Stage III

**DRAMA 301** 15 Points
**Drama: Topics and Themes**
Building on the principles and practical skills from DRAMA 202 and 204, the course will focus more narrowly on topics of theatrical practice and dramatic representation. Classes involve theatrical workshops and collaborative projects.
Prerequisite: DRAMA 202 or 204 and approval of Academic Head or nominee

**DRAMA 302** 15 Points
**Performance Skills**
Classes in stage acting, improvisation, movement, voice and character, taught by professional tutors. Students will present a solo or duo short performance.
Prerequisite: 30 points at Stage II and approval of Academic Head or nominee
*Restriction: DRAMA 719*

**DRAMA 303** 15 Points
**New Zealand and Pacific Drama**
An overview of the development of modern and contemporary drama, theatre and playwriting in New Zealand. Topics include: experimental theatre, feminist drama and Māori drama. Some plays by Pacific writers will be considered.
Prerequisite: 30 points at Stage II
*Restriction: DRAMA 203*

**DRAMA 304** 15 Points
**Contemporary Theatre Practice**
A survey of current trends in theatre practice, including: devised and dance-theatre, participatory and immersive theatre, autobiographical performance, applied theatre and documentary theatre, intermedial and virtual theatre, and new musical theatre. Students will select focus areas and engage in critical and creative research towards two key performance outcomes.
Prerequisite: 30 points at Stage II and approval of Academic Head or nominee

**DRAMA 305** 15 Points
**Special Topic: Drama Tools**
Develops the skills that are essential in theatre-making, including acting and storytelling, by staging a public performance. During the intensive three-week rehearsal period, under the guidance of an experienced director, students work in a collaborative fashion through ongoing group discussion and theatrical practice. Other transferable skills include effective communication, team-work and problem solving in an active and creative manner.
Prerequisite: 30 points at Stage II and approval of the Academic Head or nominee

**DRAMA 306** 15 Points
**Production and Management Skills**
Introduces students to multiple roles and skills needed for the management of productions, companies and other organisations in the performing-arts, specifically drama, but also dance, music and other performance art. Skills discussed include planning and creating schedules and budgets, procuring and managing resources, arts organisation infrastructure and liaison, donor and benefactor development, social marketing and networking, crowdfunding, and outcome reporting.
Prerequisite: DRAMA 202 or approval of the Academic Head or nominee

**Postgraduate 700 Level Courses**

**DRAMA 708** 30 Points
**Drama and the Mind**
Examines a selection of modern British and Irish dramatic texts that involve mind-body relationships and the representation of unconscious processes. Perspectives include Freudian psychoanalysis, neuroscience, and theories of acting.

**DRAMA 709** 45 Points
**DRAMA 709A** 22.5 Points
**DRAMA 709B** 22.5 Points
**Studio - Level 9**
A practical, explorative theatre or drama project, with written reflection, nominated by the student or a small group of students. Projects must be approved and supervised.
To complete this course students must enrol in DRAMA 709 A and B, or DRAMA 709

**DRAMA 710** 30 Points
**Semester One Production**
Students participate in a full-scale, public production of a full-length play. As far as possible all roles from acting to lighting to design to stage-management to front of house etc will be taken by students enrolled in the course. Direction will be by teaching staff or guest director.
*Restriction: DRAMA 703*

**DRAMA 711** 30 Points
**Semester Two Production**
Students participate in a full-scale public production of a full-length play. As far as possible all roles from acting to lighting to design to stage-management to front of house etc
will be taken by students enrolled in the course. Direction will be by teaching staff or guest director.
Restriction: DRAMA 703

DRAMA 716 15 Points
Directed Study in Playwriting
A study of playwriting or workshop or dramaturgy or a short writing project, either original or adaptation.

DRAMA 717A 30 Points
DRAMA 717B 30 Points
Long Play - Level 9
The writing of a complete play for live performance between one hour and two hours in length.
Restriction: DRAMA 715
To complete this course students must enrol in DRAMA 717 A and B

DRAMA 718 30 Points
Playwriting
A series of exercises in the basic building blocks of dramatic writing, incorporating guest visits from practising and established dramatists.
Restriction: DRAMA 714

DRAMA 719 15 Points
Performance Skills
Classes in stage acting, improvisation, movement, voice and character. Students will present a solo performance and a short study in performance training theory.
Restriction: DRAMA 302, 702

DRAMA 720 30 Points
DRAMA 720A 15 Points
DRAMA 720B 15 Points
Advanced Playwriting
Develops skills in playwriting with each student working under supervision.
To complete this course students must enrol in DRAMA 720 A and B, or DRAMA 720

DRAMA 721 15 Points
Directed Study in Drama 1

DRAMA 722 15 Points
Directed Study in Drama 2

DRAMA 723 30 Points
DRAMA 723A 15 Points

To complete this course students must enrol in DRAMA 723 A and B, or DRAMA 723

DRAMA 724 30 Points
DRAMA 724A 15 Points
DRAMA 724B 15 Points
Special Topic
To complete this course students must enrol in DRAMA 724 A and B, or DRAMA 724

DRAMA 725 15 Points
Special Topic in Drama

DRAMA 726 30 Points
Special Topic

DRAMA 728 30 Points
Creative Research for Theatre
Introduces students to principles of postgraduate creative research for theatre. Combines critical reflection and practical exercises to explore best practice in contemporary performance research. Topics include developing a subject, refining a research question, using the creative process as research methodology, framing research findings. Issues of research, language, culture and gender are covered in terms of impact on creative research projects.

DRAMA 730 30 Points
DRAMA 730A 15 Points
DRAMA 730B 15 Points
Studio/Project in Practical Drama
Students may undertake a supervised practical project in drama of a limited scale, either as an individual or in a small group.
To complete this course students must enrol in DRAMA 730 A and B, or DRAMA 730

DRAMA 770 60 Points
DRAMA 770A 30 Points
DRAMA 770B 30 Points
Studio/Project in Drama - Level 9
Substantial individual and group project(s), including some public presentation of project work.
To complete this course students must enrol in DRAMA 770 A and B, or DRAMA 770

DRAMA 790 30 Points
DRAMA 790A 15 Points
DRAMA 790B 15 Points
Research Project
To complete this course students must enrol in DRAMA 790 A and B, or DRAMA 790

DRAMA 792 45 Points
DRAMA 792A 22.5 Points
DRAMA 792B 22.5 Points

Research Portfolio - Level 9
To complete this course students must enrol in DRAMA 797 A and B

English

Stage I

ENGLISH 101 15 Points

Literature and the Contemporary
Constitutes a wide-ranging study of literatures in English
in different forms and media in the twentieth and twenty-first centuries. Themes studied may include modernity/postmodernity, diaspora, gender relations, sexuality, cross-cultural contacts, memory, film adaptation, war and ecological crisis. Works will be examined in the context of key historical events and cultural movements.

**ENGLISH 102** 15 Points

**ENGLISH 102G** 15 Points

**Great Books: Seduction and Betrayal**

Surveys a selection of literary masterpieces by major authors from different periods in the history of English literature. Selection of texts is organised around the theme of seduction and betrayal, understood more particularly as a story-arc exploring attitudes to love and sex, to politics and ambition, to ethical conduct, and to the activity of reading itself.

**ENGLISH 113** 15 Points

**Global South: New World Texts**

Introduces cross-disciplinary study of transnational texts in English, with particular reference to poetry and prose works from the Caribbean and Pacific, including New Zealand. In both regions, the local history of writing is extensive and includes notable texts that reflect diverse cultural origins, but also a sharp sense of the new (scenes, socio-political structures, languages).

**ENGLISH 121** 15 Points

**ENGLISH 121G** 15 Points

**Reading/Writing/Text**

Develops University-wide skills of reading, writing and analysis. Addresses the needs of students in both English and other disciplines where both writing and reading have an important role in learning. The course fosters personal writing skills and also introduces writing as a subject of study in itself.

---

**Stage II**

**ENGLISH 204** 15 Points

**Pacific Literature in English**

An introduction to contemporary Pacific Literature exploring texts from canonical Pacific writers to spoken word performance poets. Texts will be examined in light of recent theories in Indigenous Writing Studies, with a focus on crossings of cultural and creative borders, diaspora and identity. 

*Prerequisite: 30 points at Stage I in English, or 15 points at Stage I in English and PACIFIC 100*

**ENGLISH 207** 15 Points

**Creating Stories**

Explores narrative theory and analysis through major stories from the literature and art of the last six centuries, from Shakespeare's sources to now; from at least four continents; and including short story, drama, 'classic' and modern novels, verse, children's picture story, narrative painting, comics, film and music video. Investigates universal, human, local, individual, work and intra-work levels of analysis.

*Prerequisite: 60 points passed
Restriction: ENGLISH 111*

**ENGLISH 213** 15 Points

**Age of Shakespeare: Tragedy**

An introduction to the golden age of English theatre, involving detailed study of a selection of tragedies by Shakespeare and his contemporaries. The theatrical emphasis of the course is intended to help students respond to the plays as theatrical artefacts and not merely as literary texts.

*Prerequisite: 30 points at Stage I in English or Drama, or approval of Academic Head or nominee
Restriction: ENGLISH 353*

**ENGLISH 214** 15 Points

**Early Texts: Modern Inventions**

A study of key works and contexts of selected medieval and early modern writers, including Chaucer, Shakespeare, Milton, and Behn. Offers a compact history of literary engagements with important social issues that arose in a period notable for revolution and reform; also develops knowledge of literary forms and trends that are historically important, but, in this period, relatively new.

*Prerequisite: 15 points at Stage I in English
Restriction: ENGLISH 210*

**ENGLISH 216** 15 Points

**Modernist Transformations**

Modernist writers wanted to ‘Make it new, make it strange, make it dance’. This course focuses on Modernist texts from the first half of the twentieth century, tracing in the literature, art and other cultural productions of that period the development of ideas and techniques still relevant to how we write, think and ‘make it new’ today.

*Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 206, 222*

**ENGLISH 217** 15 Points

**Postcolonial Memory: Ireland**

Explores globally significant issues of cultural memory, identity and postcolonial inheritance through the lens of Irish literature and cultural experience. Debates about memory and postcoloniality guide our navigation of twentieth and twenty-first century Irish novels, plays, poetry and short stories. Conversely, our literary navigations interrogate postcolonial representations of identity across changing cultural contexts.

*Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 266, 316, 361*

**ENGLISH 219** 15 Points

**Nineteenth Century Literature**

Considers a range of literature from the nineteenth century – poetry, fiction and drama – as regards its treatment of growing up in the period. Issues covered include the recognition of childhood as a special state, the establishment of an individual's gender and sexual identity and the opportunities and constraints afforded by the changing social hierarchy and religious belief systems.

*Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 104*

**ENGLISH 221** 15 Points

**New Zealand Literature**

Offers an historical survey of major writers and key issues in New Zealand literature. Students will not only read some of the best writing our country has to offer but will develop, through the literature studied, a richly detailed overview of New Zealand experience from the period of first contact until now.

*Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 355*

**ENGLISH 252** 15 Points

**Creative Writing: Introduction**

Develops writing skills in poetry, creative nonfiction, fiction and multimedia. Seminars exploring key aspects of
from the literature and art of the last six centuries, from Shakespeare's sources to now; from at least four continents; and including short story, drama, "classic" and modern novels, verse, children's picture story, narrative painting, comics, film and music video. Investigates universal, human, local, individual, work and intra-work levels of analysis.

**Prerequisite: 60 points at Stage II from the BA Schedule**

**Restriction: ENGLISH 111, 207**

**ENGLISH 313**

**15 Points**

**From Romantics to Victorians**

An exploration of some key preoccupations of nineteenth-century literature: identity and the psyche, and the self’s engagement with the other. Both topics will be considered against a changing social context which influenced religious beliefs and constructions of gender in particular. Covers poetry and prose from the 1790s to the 1880s.

**Prerequisite: 30 points at Stage II in English**

**Restriction: ENGLISH 217, 266, 361**

**ENGLISH 318**

**15 Points**

**The Gothic: Texts and Theory**

An advanced introduction to literary theory through an exploration of classic works of Gothic Literature. We examine the competing claims of psychoanalysis, new historicism, post-colonialism and queer studies in accounting for the appeal and cultural significance of the Gothic mode.

**Prerequisite: 30 points at Stage II**

**Restriction: ENGLISH 321**

**ENGLISH 323**

**Contemporary Poetry**

An introduction to the work of a dozen influential poets, this course emphasises new developments. The focus is on the still controversial L=A=N=G=U=A=G=E poetry that emerged in the late 1970s and developments concurrent with it. This shift is seen against a background of changes in technology, politics and in popular and intellectual culture.

**Prerequisite: 30 points at Stage II in English**

**Restriction: ENGLISH 217, 256, 306**

**ENGLISH 340**

**15 Points**

**Arthurian Literature**

The Arthurian story, from its first passage into French in the twelfth century. The English writings are studied in comparison with their French sources and counterparts (in translation).

**Prerequisite: 30 points at Stage II in English or FRENCH 200**

**Restriction: ENGLISH 738, 746**

**ENGLISH 343**

**15 Points**

**Writing Poetry**

Students will be guided through poetry and poetics and the writing of poetry. As part of the course requirement, they will submit a portfolio of poems.

**Prerequisite: 30 points at Stage II in English, Drama, Writing Studies and Programme Coordinator approval**

**Restriction: ENGLISH 328**
ENGLISH 344 15 Points
Writing Creative Prose
An art and craft class focused on refining technical skills in writing short fiction and creative non-fiction, studying local and international models, and based around weekly workshops.
Prerequisite: 60 points passed and Programme Coordinator approval
Restriction: ENGLISH 328

ENGLISH 345 15 Points
Adolescent Fiction
Adolescence is a problematic category and a peculiarly modern one; necessarily, the same holds true for adolescent fiction. The aim of this course is to examine this phase of development that is neither childhood nor adulthood but lies between, and recent literary and filmic responses to the characteristic interests and demands of readers at this stage of their lives. Course reading will include film and television, as well as written texts.
Prerequisite: 30 points at Stage II in English

ENGLISH 346 15 Points
African and Caribbean Literature
The Caribbean, by virtue of its geography and history, embraces cultural elements of Africa, India, Europe and North America. The focus, however, will primarily be on Caribbean and African societies in order to address a range of issues connected to these variously hybrid cultures: slavery, black identity and sexuality, nation/narration, home and location/dislocation.
Prerequisite: 30 points at Stage II in English or Transnational Cultures and Creative Practice, or approval of Academic Head or nominee

ENGLISH 351 15 Points
Special Topic: Renaissance Poetry
A study of poems by the extraordinary English poets writing in the early modern period, giving due attention to their contexts. It covers short, witty poems – erotic, meditative, political -- by Shakespeare, Sidney, Donne, Herbert, Marvell, as well as Milton’s great religious epic, Paradise Lost. Women’s writing, for the first time in English, is a distinctive, added pleasure.
Prerequisite: 30 points at Stage II in English

ENGLISH 353 15 Points
Age of Shakespeare: Tragedy
An introduction to the golden age of English theatre, involving detailed study of a selection of tragedies by Shakespeare and his contemporaries. The theatrical emphasis of the course is intended to help students respond to the plays as theatrical artefacts and not merely as literary texts.
Prerequisite: 30 points at Stage II in English or Drama
Restriction: ENGLISH 213

ENGLISH 354 15 Points
Writing Selves
Extends student skills in critical reading and composition while critically exploring changing concepts of the self. Considers the nationalist and historicising functions traditionally assigned to biographies and autobiographies, issues of authorship, genre, form, and convention, sexual and gender politics in life writing, and the controversial borderline between fiction and auto/biography.
Prerequisite: 30 points at Stage II in English or Writing Studies
Restriction: ENGLISH 263

ENGLISH 355 15 Points
New Zealand Literature
Offers an historical survey of major writers and key issues in New Zealand literature. Students will not only read some of the best writing our country has to offer but will develop, through the literature studied, a richly detailed overview of New Zealand experience from the period of first contact until now.
Prerequisite: 30 points at Stage II in English
Restriction: ENGLISH 221

ENGLISH 356 15 Points
The Modern Novel
A study of fiction. The prescribed works vary widely in their country of origin, formal elements and themes. Some are recognised as classics, while others show the new directions taken by the writers of the time. The texts are given detailed consideration as well as being placed within social and critical contexts.
Prerequisite: 30 points at Stage II in English
Restriction: ENGLISH 220

ENGLISH 360 15 Points
Special Topic
Prerequisite: 30 points at Stage II in English

ENGLISH 367 15 Points
Special Topic
Prerequisite: 30 points at Stage II in English

Postgraduate 700 Level Courses

ENGLISH 700 30 Points
Pacific Poetry
A critical engagement with poetry written in English by the peoples of Oceania (Polynesia, Melanesia, Micronesia). Pacific aesthetics and epistemologies evident in orature and art, in addition to post-colonial and women of colour feminist theories, will be used in the construction of culturally insightful frameworks to better appreciate this poetry that spans from the 1970s to the present day.
Restriction: ENGLISH 717, 720

ENGLISH 701 30 Points
Milton and Poetic Authority
Milton is the poet who has been most significant in the establishment of the familiar canon of English poetry. This achievement raises questions about the greatness of poetry written in one set of historical circumstances that is then judged by an audience constructed in part by the poetry itself. In this context the course covers political as well as poetic works.
Restriction: ENGLISH 760

ENGLISH 702 30 Points
Postcolonial Literary Studies
Provides a critical investigation of postcolonial literary studies as a field of academic inquiry and cultural critique. We read essays by influential theorists, including theoretical essays by contemporary poets and novelists, but concentrate on the study of literary texts produced in the social, political and cultural circumstances that are largely identified as postcolonial.
Restriction: ENGLISH 786

ENGLISH 703 15 Points
Stages of Religion
The history of English religion through the longer Reformation period, as reflected and addressed especially in the drama of the period, from the Cycle-plays to Milton. Combines
English history and history of religion with issues of dramatic history and performance. Extensive use of primary and rare materials.

**ENGLISH 705**  
*Modernism and the Contemporary*  
Examines the work of Modernist writers intensely concerned with ideas of the contemporary within the context of Modernism, the defining international 'movement' of the twentieth century, known for its narratives of crisis and transformation.

**ENGLISH 706**  
*Shakespeare: Selected Plays and Poems*  
The focus of this course varies from year to year but includes attention to several of the most influential approaches to the reading of Shakespearean texts: psychoanalysis, feminism, new historicism, cultural materialism and post-colonial theory.

**ENGLISH 707**  
*Writing World War II*  
Takes the terror wrought by bombing as its theme with particular focus on the literature of the Second World War and the Cold War that followed it. Also addresses contemporary literary reimaginings of the Second World War, which incorporate elements of military, architectural and postcolonial history, and asks what these later versions imply about the war’s historicity.

**ENGLISH 709**  
*Theatre on Screen*  
Examines a range of mainstream and arthouse films which treat the processes of theatrical performance and dramatic composition. These films create commercial and aesthetic appeal by engaging the thin dividing line between reality and drama. Topics include: theatricality and politics; the business of theatre; gender and sexuality; adaptation.  
*Restriction: ENGLISH 774*

**ENGLISH 711**  
*Shakespeare from Stage to Page, 1590-1640*  
Studies the development of the theatre in the half-century encompassing Shakespeare’s career and after, and its relation to the print industry of the same period. Treats authors and writing, acting, company structure, audiences, censorship, book production, publication and readership. Involves extensive use of primary and rare materials.  
*Restriction: ENGLISH 342, 754, 765*

**ENGLISH 713**  
*Research Essays - Level 9*  
A number of essays are written with guidance from a supervisor, focusing on a field, author, genre or period of literature.  
*To complete this course students must enrol in ENGLISH 713 A and B, or ENGLISH 713*

**ENGLISH 718**  
*Opening the Archive*  
Develops practical research skills while attending to archives as concept and theory. Skills include scoping and pursuing a significant research project, seeking permissions and presenting findings. The course also reflects critically on the provenance of textual, material, visual and digital collections and their public and scholarly uses in the twenty-first century.

**ENGLISH 725**  
*Writing, Literacy, Poetics*  
Study of textualities, reading and writing as situated language, and literary study in relation to wider literacies and media. What does ‘deep reading’ promise? Can one be ‘fully literate’? Readings in literacy and literary theory, performativity, and performance.

**ENGLISH 731**  
*Jane Austen and Charlotte Brontë*  
A comparative study of two significant women novelists of the nineteenth century, exploring the similarities and differences among their works, as well as giving attention to their critical and popular reception history and their ‘afterlife’ in print and on screen.  
*Restriction: ENGLISH 752*

**ENGLISH 732A**  
*Popular Fiction: Mystery, Romance and Fantasy*  
Popular Fiction offers an opportunity to extend critical study of literature to the mass of texts customarily denied academic approval. A key element is the reader’s pleasure. Does pleasure make a difference in what is, admittedly, a critical study of several varieties of modern popular fiction, especially children’s literature, romance and crime fiction (both in print and on television). Reading of texts will be supported by discussion of a range of theoretical issues.  
*To complete this course students must enrol in ENGLISH 732 A and B*

**ENGLISH 746**  
*Arthurian Literature*  
The Arthurian story, from its first passage into French in the twelfth century. The English writings are studied in comparison with their French sources and counterparts (in translation).  
*Restriction: ENGLISH 340*

**ENGLISH 756**  
*Special Topic*

**ENGLISH 758**  
*Advanced Studies in Rhetoric and Composition*  
An investigation of writing practice, taking up situated, instrumental and political aspects central to rhetorical theory throughout history from Aristotle and Cicero to Bakhtin, Habermas, Burke, Anzaldua and Gates. Considers issues that have served to focus the work of commentators and theorists, including cognitive process theory, language as social semiotic, gender and literacy studies, and writing for new technologies.  
*Restriction: ENGLISH 350*

**ENGLISH 769**  
*Representing Imagining*  
Investigates representation in imaginative writing. Principal texts are from 1928 to the present and from North America, UK, Aotearoa New Zealand, France, and the Caribbean. Topics include genre and expectations; ideologies of originality and copying; discursive mixing; authenticity; wholeness and brokenness; translanguaging; the page, the codex and the digitalis; and the economy of the imaginative subject.

**ENGLISH 770**  
*Research Essays - Level 9*  
Essays on a particular author, genre or theme.
ENGLISH 775 15 Points
Special Topic: Jane Austen
Focuses on the complete novels of Jane Austen, their critical reception, their adaptations, and their afterlife in popular culture.

ENGLISH 777 15 Points

ENGLISH 778 30 Points
Pedagogy and Performance
Explores teaching as theory and performance in the context of Writing Studies and English. The course reviews the discipline of English, its concerns, materials and methods, and the challenge of multi-literacies. Teaching writing is rationalised in theory and rehearsed in practice through learning activities and assignments that address the discourse of discipline, the teaching room and public pedagogy.

ENGLISH 779 30 Points
The Social Text, 1350-1590
Explores the relations between literature and political society in the late medieval/early modern period. The literary text may articulate the designs and demands of political culture, employing the terms of emerging political discourses, or it may itself become a political event. The course aims at an understanding of public culture in the period, including its texts.

ENGLISH 780 30 Points
ENGLISH 780A 15 Points
ENGLISH 780B 15 Points
Research Essay - Level 9
To complete this course students must enrol in ENGLISH 780 A and B, or ENGLISH 780
For students enrolled in a postgraduate programme in English.

ENGLISH 781 30 Points
Research Project - Level 9
ENGLISH 782A 15 Points
ENGLISH 782B 15 Points
Interpreting Janet Frame
An exploration of the fiction of renowned writer Janet Frame. Using interpretative theory, the course addresses the challenge of developing enabling critical contexts for Frame's novels. Conversely, Frame's novels are used as a means of exploring the reading process and the dynamics involved in the act of interpretation.
Restriction: ENGLISH 710
To complete this course students must enrol in ENGLISH 782 A and B
ENGLISH 783 15 Points
Studies in English Renaissance Drama
An advanced seminar on the intersection of literary and theatrical cultures in the English Renaissance period. Students will become acquainted with performance theories relating to the Renaissance stage, with particular attention paid to the relation between stage production and the production of meaning.

ENGLISH 785 15 Points
Directed Study
Supervised research on a topic or topics approved by the Academic Head or nominee.

ENGLISH 787 30 Points
Literature USA: from the American Renaissance to the Jazz Age
Examines a selection of classic texts and major issues in the literature of the United States from the American Renaissance of the 1840s and 1850s through to the Jazz Age of the 1920s and 1930s.

ENGLISH 792 45 Points
ENGLISH 792A 22.5 Points
ENGLISH 792B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in ENGLISH 792 A and B, or ENGLISH 792

ENGLISH 793A 45 Points
ENGLISH 793B 45 Points
Thesis - Level 9
Restriction: ENGLISH 710
To complete this course students must enrol in ENGLISH 793 A and B

ENGLISH 796A 60 Points
ENGLISH 796B 60 Points
Thesis - Level 9
Restriction: ENGLISH 710

Prerequisite: A BA(Hons) in English with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in ENGLISH 797 A and B

English for Academic Purposes

Preparatory Courses
ENGLACP 20P 25 Points
English for Academic Purposes Level 1
Extensive reading of academic texts; writing different types of essays and reports, summary reviews; developing editing and referencing skills, understanding and avoiding plagiarism; oral presentations and group discussion skills, including pronunciation; developing and consolidating academic vocabulary and grammar of written discourse; monitoring and evaluating own learning; mastery of using electronic and print media learning and reference resources; understanding different English accents.
Restriction: ENGLACP 40P

ENGLACP 30P 35 Points
English for Academic Purposes Level 2
Extensive and intensive reading of extended academic texts; developing skills of analysing, synthesising and critical commentary; writing longer essays and reports (1000 words); integrating and referencing source material; proof-reading and editing; avoiding plagiarism; oral seminar presentations; listening and note-taking from lectures in a subject of choice; orientation to student support and learning resources at the University of Auckland.
Prerequisite: ENGLACP 20P
**Course Prescriptions**

---

**ENGLACP 40P**  
**English for Academic Purposes Level 3**  
25 Points  
Extensive and intensive reading of extended academic texts at postgraduate level; developing skills of analysing, synthesising and critical commentary; writing longer essays and reports integrating and referencing source material; proof-reading and editing; avoiding plagiarism; oral seminar presentations and discussions; listening and note-taking from lectures; orientation to student support and learning resources at the University of Auckland.  
**Prerequisite:** ENGLACP 30P  
**Restriction:** ENGLACP 20P

---

**English Writing**

**Stage I**

**ENGWRI 101**  
**English Writing for Academic Purposes**  
15 Points  
A skills-based analysis of texts written for academic purposes. Topics include: essays of comparison and contrast, argumentative essays, problem solution texts, literature reviews, critiques, and report writing.  
**Restriction:** ENGWRI 94F

---

**European Studies**

**Stage I**

**EUROPEAN 100**  
15 Points  
**EUROPEAN 100G**

Europe and the World  
An introduction to the study of Europe, organised around a number of major themes, including linguistic and ethnic groupings, historical periods, literary and cultural movements, religious and philosophical traditions, and political and cultural figures. An ideal course for students wishing to explore European culture and civilisation.

**Stage II**

**EUROPEAN 200**  
15 Points  
**Screening Europe**

Europe's rich and distinctive film tradition provides an opportunity to examine issues of contemporary Europe and its individual nations. This course examines the sources, complexities and resonances of a number of European films and the ways in which they refer, directly or obliquely, to historical, social and political issues around the concept of Europe. The films shown will all be subtitled.  
**Prerequisite:** 30 points passed in BA or GlobalSt courses  
**Restriction:** EUROPEAN 300

**EUROPEAN 204**

Special Topic

**EUROPEAN 206**  
15 Points  
**European Integration**

This cross-disciplinary course examines political, economic, social and cultural integration and its effects in the fabric of contemporary Europe. Issues addressed include identity, immigration and citizenship in Europe, and matters pertaining to the European Union: its political form, enlargement, foreign and security policy, economic and monetary policy, and the European constitution.  
**Prerequisite:** 30 points passed at Stage I  
**Restriction:** EUROPEAN 302

**EUROPEAN 207**

15 Points  
**European Drama: Greatest Hits**

Considers important themes and stylistic innovations in European drama through the study of a selection of great plays and playwrights from a number of European countries.  
**Prerequisite:** 30 points passed in BA courses or Transnational Cultures and Creative Practice  
**Restriction:** EUROPEAN 307

**EUROPEAN 208**

15 Points  
**Images of Men in Europe, 18th-21st Century**

Focuses on the images of men in Europe, from the end of the eighteenth century to the present day, in the construction of European identity. The course examines changing representations of masculinity in European visual culture, particularly through sports and war, in relation to issues of consumption, medicine and sexuality.  
**Prerequisite:** 30 points passed in BA courses  
**Restriction:** EUROPEAN 304

**EUROPEAN 212**

15 Points  
**The History and Culture of War and Violence**

Looks at the history and culture of war and violence through the ages with a particular focus on Europe. Themes may include: war and technology, war and society, war and ideology and the regulation of war and violence.  
**Prerequisite:** 30 points at Stage I in BA or GlobalSt courses  
**Restriction:** EUROPEAN 312

**EUROPEAN 277**

15 Points  
**European Study Abroad 2A**

Course taken at an approved academic institution abroad.  
**Prerequisite:** Approval of Academic Head or nominee

**EUROPEAN 278**

15 Points  
**European Study Abroad 2B**

Course taken at an approved academic institution abroad.  
**Prerequisite:** EUROPEAN 277 and approval of Academic Head or nominee

**Stage III**

**EUROPEAN 300**

15 Points  
**Screening Europe**

Europe's rich and distinctive film tradition provides an opportunity to examine issues of contemporary Europe and its individual nations. This course examines the sources, complexities and resonances of a number of European films and the ways in which they refer, directly or obliquely, to historical, social and political issues around the concept of Europe. The films shown will all be subtitled.
