INTRODUCTION

Welcome to the University of Auckland. This Calendar is the official publication of the University and includes academic statutes and regulations governing admission, enrolment, fees and examinations. The Calendar sets out requirements for degrees, diplomas and certificates and lists the approved courses offered by the University. It also provides key information about the University and its staff.

The Academic Year
The academic year at the University of Auckland is divided into two semesters. Each semester covers a period of about 15 weeks comprising approximately 12 teaching weeks followed by three weeks for study and examination. The first semester usually starts at the beginning of March and the second semester in mid-July. Each semester has a mid-semester break which lasts for one to two weeks. During the three weeks after the end of lectures, there is a period of study followed by the examinations for the courses studied during that semester. There is a three-week inter-semester break during which results will be published and any further admissions and enrolments processed. A small number of specialist courses may be taught during the inter-semester break. A Summer School comprising six weeks operates from the beginning of January. A limited number of courses are available. A small number of programmes are offered in quarters rather than semesters, comprising approximately 10 teaching weeks followed by one week for study and examinations. Additionally, a range of masters programmes are available for commencement in November, including fully-online options offered as part of the Auckland Online initiative.

The Points System
The value allocated to each course is standardised and is given as a number of points, based on the notional hours of learning in the course. A full-time programme will usually require the completion of eight 15-point courses a year. Most taught courses are offered in values of 10, 15, 20 and 30 points. For instance, the programme for many bachelors degrees requires the completion of a total of 360 points. The points value for diplomas and certificates varies according to the discipline and content. Full details are listed in the regulations.

Planning a Programme
Assistance with programme planning for current students is available online through the My Programme Requirements report. This report outlines the academic requirements for a programme of study and provides an individualised report comparing a student’s progress towards completion against the requirements. It indicates where requirements have been met, which requirements have yet to be completed and the points required. Students are able to enrol directly from the report into courses available for the programme.

Students can also enrol into classes via Timetable Planner. This tool allows students to view potential timetable options, as well as adding preferences such as work or study gaps.

Students planning a programme can also consult faculty and departmental handbooks and seek advice about programmes and course options through faculty student centres and AskAuckland Central. Course advice is provided in the University’s General Library before the start of the academic year. Intending students should phone 0800 61 62 63 or visit auckland.ac.nz for general advice and information. This Calendar contains the regulations and requirements for each faculty’s degrees, diplomas and certificates. It is important that students read the regulations for the programme they plan to take and ensure that they complete the prerequisites required for subsequent study. The details for each course are listed by faculty and in alphanumeric order in the Course Prescriptions. In addition, there is a range of Interfaculty and Conjoint degrees which are administered and supervised across the faculties.

Admission and Enrolment
The University of Auckland has an online system for admission and enrolment. All new students, and those intending to change their programme, should complete the online Application for Admission (www.auckland.ac.nz/apply_now).

If students do not have internet access, Application for Admission forms are available by phone, by mail or in person from: AskAuckland Central, The University of Auckland, 24 Princes St, or Private Bag 92019, Auckland Mail Centre, Auckland 1142, New Zealand. Email studentinfo@auckland.ac.nz. Phone 0800 61 62 63.

Applicants whose admission to a programme is approved will receive an offer of a place and on acceptance of this offer may proceed to enrol in courses.

Official Communications to Students
Email is the official and primary means of communication with students. All official email to a student will be sent to a student’s University email address (username@aucklanduni.ac.nz). If the student wishes to forward messages to other addresses it is their responsibility to ensure the alternative address is in place and operating correctly. Failure to read an email does not free a student from their responsibilities to understand and comply with the University’s requirements.
GLOSSARY OF TERMS

Note: The descriptions below are not intended to be legal definitions. The Regulations in the Calendar should also be referred to when interpreting these terms.

Academic English Language Requirement: A specified level of attainment in English studies in NCEA, CIE, IB or equivalent; if admitted without meeting this requirement students may satisfy it in their first year of study by passing a specified undergraduate course in academic English.

Academic Head: A person appointed to an academic leadership position with responsibility for managing a school or department.

Academic Integrity Course: An online course designed to increase student knowledge of academic integrity, University rules relating to academic conduct, and the identification and consequences of academic misconduct.

Academic Standing: A means of measuring a student’s academic performance each semester. Students are required to pass at least 50 percent of points enrolled in a semester to maintain good academic standing. Graduated academic sanctions apply to students failing to meet this requirement.

Ad Eundem Statum: A means of admission to the University on the basis of a qualification awarded by a body other than the New Zealand Qualifications Authority or the University of Auckland.

Admission: The process by which a student applies, and is approved, for entry to the University and to a University qualification.

Alumni: A term describing graduates of the University and staff who have worked for the University.

Bachelors degree: A first degree.

Bachelors honours degree: Can be either an undergraduate degree, usually requiring four years of full-time study, or a one-year postgraduate degree completed after a bachelors degree. In both cases, it requires the completion of a research component at a level equivalent to a masters degree.

Campus: A geographic location where University of Auckland qualifications are delivered.

Certificate: A qualification awarded after academic study of a coherent programme of between 60 and 120 points.

Certificate of Proficiency: Recognises successful completion of a course by those who are not enrolled in a degree or diploma.

Class: A component of a course, e.g., a lecture stream.

Clinic: Student learning is primarily through the practice (or quasi-practice environment) and use of techniques for treating clients or patients. Assessment of student activities covers observation, interviewing, diagnosis, treatment, etc. E.g. medical or nursing clinical practice courses.

Completing student: A student whose current enrolment is designed to complete a certificate, diploma or degree.

Component Degree: One of the qualifications that make up a Conjoint Degree. A Conjoint Degree will always include two component degrees. A student is awarded both component degrees on completion of the conjoint programme.

 Concurrent teaching: Occurs when students who are enrolled for courses at different levels within qualifications attend some or all of the same classes. This is different from the situation where students enrol in a course at a higher level than might be expected and attend classes with more advanced students.

Conjoint Degree: Allows the completion of two undergraduate degrees (component degrees) in a shorter timeframe and with fewer points than would be possible through enrolling in them separately. Requires a minimum academic standard for admission and for continuation each year. While students are admitted to a Conjoint Degree, they are awarded two separate qualifications.

Core courses: Compulsory courses that cover knowledge essential for the completion of a programme of study.

Corequisite course: A course that should be taken in the same semester as another unless it has previously been satisfactorily completed.

Council: The governing body of the University. It is comprised of elected staff, students and graduates, and external appointees.

Course: A basic component of all academic programmes.

Course prescriptions: A list of courses including course code, title, points value, description of content, prerequisites, corequisites and restrictions.

Coursework: Assessable work produced by students, normally submitted during teaching weeks, e.g., essays, assignments, reports, tests, and practical, tutorial and seminar work.

Cross-credit: A course which is common to two University of Auckland undergraduate diplomas or bachelors degrees and is credited to both.

CUAP: Committee on University Academic Programmes. A subcommittee of Universities New Zealand on which all universities and the New Zealand Union of Students Associations are represented. CUAP undertakes programme approval and moderation procedures for New Zealand universities, as well as providing advice and comment on academic matters and developments across the university system.

Cumulative GPA: Calculated from all grades achieved by a student. Used for selection purposes unless an alternative has been indicated by the Faculty.

Current enrolment: Courses or other work taken by a student in the current academic year, quarter or semester.

Degree: Principal qualification awarded by the University of Auckland, i.e., bachelors, masters and doctoral degrees.
**DELNA**: Diagnostic English Language Needs Assessment.

**Department**: A division of a faculty centred around a subject or group of related subjects.

**Diploma**: A University qualification, generally awarded at graduate or postgraduate level.

**Direct entry**: Entry into a higher level of a subject or the later part of a degree without completion of the normal prerequisites.

**Discipline**: A branch of knowledge which is researched and taught at the University.

**Dissertation**: A written research component of a degree or diploma worth between 40 and 80 points.

**Distance education**: Courses or programmes of study which provide content and support services to students who rarely, if ever, attend for face-to-face or for on-campus access to educational facilities.

**Distinction**: Postgraduate degrees and postgraduate diplomas may be awarded with Distinction to signify a highly superior level of performance.

**Doctoral degree**: A qualification at an advanced level requiring an original contribution to knowledge.

**EFTS**: Equivalent full-time student.

**Electives**: A defined set of courses for a diploma or degree from which a student may make a choice.

**End of lectures**: The final day of the final teaching week of a semester. The final lecture for a particular course might occur before this day.

**Enrolment**: The process by which a student, having gained admission to the University and to a qualification, selects and gains entry to courses and classes.

**Examination**: Formal assessment under supervision occurring after the teaching in a course has been completed.

**Exit qualification**: A qualification, usually of a lesser credit value, that can be awarded to a student when they are unable to or choose not to complete the qualification in which they are or have been enrolled. A student may not commence study towards an exit qualification. It is only awarded following prior enrolment in an alternative qualification.

**Faculty**: An organisational unit responsible for the delivery of academic programmes and research. Faculties usually comprise a number of schools or departments.

**Field studies**: Learning or investigation is primarily carried out in the field rather than in a classroom or laboratory. Field work courses tend to be in archaeology and geography.

**Flexible learning**: Learning characterised by a mixed mode of delivery and assessment of instructional material.

**General Education**: A requirement of all undergraduate degrees which ensures students learn about disciplines outside their main area of study. General Education courses are identified by a ‘G’ after the course number and are listed in the General Education Schedules.

**GPA**: Grade Point Average. A means of measuring a student’s performance at this University. The average grade achieved over a period of time expressed numerically on a scale between 0 (no passes) and 9 (A+ average).

**GPE**: Grade Point Equivalent. A means of measuring a student’s prior relevant academic performance and experience from another institution. Grades or marks achieved at external institutions and/or in examinations (such as NCEA) expressed as an equivalent to a Grade Point Average on the scale 0-9.

**Graduand**: A person who has completed the requirements for a degree but has not yet had the degree conferred.

**Graduate**: A person on whom a degree has been conferred.

**Graduate certificate**: A graduate certificate must be a minimum of 0.5 EFTS or 60 points. CUAP requires that half or more of the courses must be above Stage II.

**Graduate diploma**: A graduate diploma must be a minimum of 1.0 EFTS or 120 points. It must include 75 points above Stage II.

**Honours**: Degrees, in some cases completed within prescribed time limits, may be awarded with honours which signify advanced or distinguished study.

**Interfaculty programme**: A programme where responsibility for development and delivery is formally shared by more than one faculty, or a programme which was developed for the purpose of being made available to a broad range of students not necessarily associated with a specific faculty, and usually managed centrally.

**Invigilated examination**: The process of physical or online monitoring of an examination to ensure that students do not indulge in unfair means that can hamper the integrity of an examination.

**Laboratory**: A teaching session of a practical nature, which includes demonstration, supervised exercises and hands-on activities. E.g. science laboratory, computer laboratory.

**Late Year Term**: A period of about 12-13 weeks used for teaching or research. It starts on 1 December and finishes on the last Saturday before the beginning of the first semester of the following academic year.

**Lecture**: A basic unit of instruction.

**Limited entry**: Applied to a course or programme for which the number of students that can be accepted is limited because of constraints on staffing, space or equipment.

**Major**: A required component of a bachelors degree, including a specified number of points in a subject at the most advanced level.

**Masters degree**: A degree programme at a higher level than a bachelors degree.

**Maximum full-time enrolment**: 80 points per semester, 30 points in Summer School, 45 points per quarter or 60 points in Late Year Term.

**Merit**: Postgraduate degrees and postgraduate diplomas may be awarded with Merit to signify a superior level of performance.

**Micro-credential**: A stand-alone unit of study of between 5 and 40 points that certifies the achievement of a specific set of skills and knowledge and has demonstrable support from relevant industries, employers or communities.
**Minimum full-time enrolment:** 50 points per semester, 25 points in Summer School, 25 points per quarter or 50 points in Late Year Term.

**Minor:** A component of a degree including a specified number of points above Stage I in a subject.

**Module:** 45 points focused on a particular skill or area of study. Restricted to undergraduate degrees.

**Nominee:** An individual who has been delegated authority from the Dean or Academic Head, for example, to grant approvals with regard to a particular process, e.g. concession requests.

**Normal full-time study:** A student workload of 120 points in one year.

**NZQA:** New Zealand Qualifications Authority. The government agency that administers the National Certificates of Educational Achievement (NCEA) qualifications for secondary school students, and is responsible for the quality assurance of non-university tertiary training providers in New Zealand.

**Online campus:** Where the teaching occurs online without the requirement to attend on-campus classes. Communication between teachers and students is via a learning management system and email and reliable internet access is required.

**Online study:** Courses or programmes that are specifically developed for delivery online and do not require students to attend the University in person.

**Part:** A defined subdivision specified in the regulations of some degrees.

**Plussage:** A method of calculating the final result a student has gained in a course by counting either the final examination grade or a combination of final examination grade plus coursework, whichever is to the student's advantage.

**Point(s):** A value assigned to a course or other work to indicate its weighting within the University of Auckland's certificates, diplomas and degrees.

**Postgraduate certificate:** A qualification of at least 0.5 EFTS or 60 points. CUAP requires that all courses must be above Stage III.

**Postgraduate diploma:** A qualification of at least 1.0 EFTS or 120 points. CUAP requires that all courses must be above Stage III.

**Postgraduate programme:** A programme at a higher level than a bachelors degree.

**Practicum:** The student applies previously acquired knowledge and skills in a supervised situation which approximates the conditions under which the knowledge/skills may ultimately be used in employment. E.g. practice teaching, practicums, internships.

**Prerequisite:** A requirement that must be met before commencement of study for a particular course or programme.

**Prescribed texts:** Textbooks which are considered essential to a course.

**Proctor:** A staff member who deals with non-academic misconduct and disputes involving students. The Proctor can also provide advice on disputes involving a member of staff.

**Programme:** A prescribed set of one or more courses or other work which on satisfactory completion leads to the award of a University of Auckland certificate, diploma or degree.

**Programme schedule:** A list of the courses prescribed for a programme which forms part of the regulations.

**Project:** A piece of investigative written work on a topic approved by the relevant Head of Department and supervisor.

**Quarter:** A period of about 11 weeks which usually includes 10 teaching weeks and an additional week for study and examinations.

**Reassigned course:** A course satisfactorily completed for one programme which has been transferred to another programme.

**ROPAS:** Recognition of Prior Academic Study. A means of assessment of previous study for students from another institution for admission or credit to the University.

**Regulation:** A rule set down by the University.

**Research essay:** A research-based essay on a topic approved by the relevant Academic Head and supervisor and normally worth between 15 and 45 points.

**Research Masters:** A research based programme of study that includes either a 90 or 120 point thesis or research portfolio.

**Research portfolio:** A coherent, integrated programme of research-based work.

**Research project:** A piece of research-based work on a topic approved by the relevant Academic Head and supervisor, normally worth between 30 and 45 points.

**Restriction (restricted course):** A course in which the learning objectives, content and/or assessment are so similar to a second course that a student cannot be credited with both towards a certificate, diploma or degree. In some cases a restricted course may be taken and credited as a Certificate of Proficiency.

**Schedule:** University lists of courses, credits or limitations, often in tabular form.

**School:** A division of a faculty, which may comprise departments or disciplines that teach and research similar or related academic subjects.

**Semester:** A period of about 15 weeks which includes about 12 teaching weeks and about three weeks for study and examinations. In addition there is a mid-semester break of up to two weeks.

**Seminar:** Instruction is primarily through small group teaching for small groups of students, focusing each time on a particular subject. All students are required to actively participate. Seminars can include dialogue with a seminar leader or instructor, or the more formalised presentation of research by participants.

**Senate:** An academic board that advises Council on matters regarding courses of study or training, awards, regulations and other academic matters.
**Session:** Time period usually within a term, but may start or finish before or after the standard term dates. A term may have multiple sessions.

**Specialisation:** A programme of related courses normally comprising more than 50 percent of a qualification.

**Stage:** The academic level of study in a subject.

**Studio:** A method of instruction which focuses on learning through action and developing an assessable creative and/or design process, performance or product. E.g. dance/music composition or performance, fine arts, architectural design studios.

**Subject:** An area of learning which may be provided by a school or a department, or by departments offering related courses.

**Summer School:** A six-week period before the commencement of the academic year during which a select range of courses is taught and assessed.

**Taught Masters:** A programme of study that is normally based on an undergraduate degree and includes coursework consisting of courses, project work and research in varying combinations. Masters degrees that build on generic attributes and/or experience (often called ‘conversion masters’) are usually in professional fields and are recognised as appropriate professional preparation by the industry concerned.

**Term:** A broad reference to a period of enrolment such as a semester, quarter or session.

**Test:** Formal assessment under supervision. In-class tests may be scheduled after the first half of a course or in place of an examination.

**Thesis:** A research component of a postgraduate programme having a value of 90 or more points which will have a written component but may also include design, creative or performative elements.

**Transfer credit:** Credit granted towards a University of Auckland qualification from work successfully completed at another tertiary institution.

**Tutorial:** A small group-learning session. Learning is primarily through less formal, smaller regular classes in which material from lectures and readings can be discussed in more detail.

**Undergraduate:** A person studying towards a first degree.

**Undergraduate course:** A course at Stage I–V taken as part of an undergraduate academic programme.

**Unspecified campus:** Applies to courses where the teaching occurs through scheduled face-to-face interactions on sites that are not recognised University of Auckland campuses. Examples include the provision of courses where the course material is delivered in local work-related environments.

**UTAS:** Undergraduate Targeted Admission Schemes. Admission schemes designed to improve access into higher education for students from under-represented equity groups.

**Workshop:** Presentation of themes and concepts related to a course on an ongoing basis. May involve practical learning activities, discussion, interaction and debate.

## 2022 Closing Dates for Admission

### Closing Dates for Applications for Admission to Undergraduate and Postgraduate Programmes

Applications to the University of Auckland must be received no later than the dates listed in the table below. Applications received after these dates will only be considered if places are available. The following information should be read in conjunction with the Academic Statutes and Regulations.

Not all programmes are available for admission in all semesters or quarters.

### Admission to the University of Auckland

The University of Auckland has an online system for admission and enrolment. All new students, and those intending to change their programme in 2022, are required to complete an Application for Admission. This may be completed online at [www.auckland.ac.nz/apply_now](http://www.auckland.ac.nz/apply_now).

If students do not have internet access, Application for Admission forms are available by phone, by mail or in person from:

- **AskAuckland Central**
  - The University of Auckland
  - 24 Princes St

  or

- Private Bag 92019
  - Auckland Mail Centre
  - Auckland 1142
  - New Zealand
  - Email: studentinfo@auckland.ac.nz
  - Phone: 0800 61 62 63

All Applications for Admission will be acknowledged. Applicants will receive an offer of a place in programmes (degree, diploma or certificate) for which their admission is approved. **This offer of a place must be accepted online before the student can proceed to enrol in courses.**

### Undergraduate

Applications to the University of Auckland must be received no later than the published closing date. Applications received after the closing date will only be considered on the basis of academic merit, if there are places available. International students should start the application process as early as possible to allow sufficient time to apply for a visa.

### Postgraduate

Applications for Semester One submitted after 8 December will only be considered if places are available. Applications for Semester Two submitted after 4 July will only be considered if places are available. International students should start the application process as early as possible to allow sufficient time to apply for a visa.
Doctoral
Doctoral applications may be submitted at any time of the year (excluding the Degree of Doctor of Clinical Psychology and the Degree of Doctor of Education).

Summer School
No late applications will be accepted.

Special Admission
Applications to the University of Auckland must be received no later than the published closing date and no later than 1 December. Applications received after 1 December will only be considered if places are available.

2022 Enrolment Dates
Students must enrol as soon as possible after acceptance of an offer of place, as many University of Auckland courses are very popular and have a limited number of places available.

### Enrolment Opening Date

Arms of the University of Auckland

Heraldic Description

The shield is azure (blue) with an argent (silver) mullet (five-pointed star). Between the stars is an open book "proper" i.e. in its natural colours. The edge of the book and the binding are gold ("Or") and it is bound with seven gold clasps on either side which close the book securely. Its "chief" (broad strip at the top of the shield) is wavy, that is the base of the chief is in a wave-like line. The chief is argent and on it are three kiwis "proper" meaning they are shown in their natural colour.

Symbolism

The open book together with the motto 'Ingenio et Labore', freely translated as 'by natural ability and hard work', reflects the aim of the institution and combined with the three stars, expresses the idea of learning pursued under the Southern Hemisphere sky. The kiwis are indicative of New Zealand, as the bird is confined to its islands, and the silver wavy chief upon which they are set directs attention to the fact that Auckland is on the coast.

The shield, minus the ribbon containing the Latin motto (called the Crest), is used in combination with wordmark and graphic elements to form the University logo. Guidelines for the logo are prescribed in the University's Style Guide.

University of Auckland Act 1961

The University of Auckland was established under the University of Auckland Act 1961.

The full text of the University of Auckland Act can be found by visiting www.legislation.govt.nz and typing the name of the Act into the search box.

History of the University of Auckland

University of New Zealand

As early as 1862 an unknown writer, "J.G.", proposed in Chapman's New Zealand Monthly Magazine that a university should be established in Auckland. The pioneer town, founded less than a quarter of a century before, had other, more pressing, issues and initially there was no response to the suggestion. Consequently the first university, Otago, was created in 1869 in the South Island, where the inhabitants were wealthier and keener on education. In 1870, Parliament passed legislation to create the University of New Zealand as an examining body with affiliated teaching colleges. Auckland politician Maurice O'Rorke, later Speaker of the House of Representatives, advocated that the University be located in Auckland but it was established as a federal body with no fixed location. Canterbury, which had been planning to create a university, became the first place to open a college of the new federal university in 1873.

The citizens of Auckland at first received university instruction at the Auckland Grammar School. Students sat the examinations of the University of New Zealand. In 1877, one of these students, Kate Edger, became the first woman to graduate with a Bachelor of Arts from a British university.

Auckland University College

In 1878, O'Rorke chaired a Royal Commission on higher education that recommended the establishment of university colleges in Auckland and Wellington. In 1882, the Auckland University College was set up by Act of Parliament and was formally opened on 21 May 1883 in the Choral Hall, then the largest hall in Auckland. The Governor, Sir William Jervois, announced that the College was to be a thoroughly democratic institution, open to women as well as men, and to all classes.

The applicants for the first four chairs, of Classics and English, Mathematics, Natural Science, and Chemistry and Physics, were interviewed in England by the New Zealand Agent-General and some of the most famous scientists and scholars of the day, including the great Benjamin Jowett of Balliol College, Vice-Chancellor of the University of Oxford. The men appointed were an impressive group. The chemist, F.D. Brown, had studied in France and Leipzig as well as London, and taught at Oxford and London. He had published a dozen papers. Algernon Phillips Thomas, the biologist, was a Balliol man who had revealed the life history of the liver fluke. The classicist, T.G. Tucker, was to become a famous scholar. When he left to go to Melbourne University in 1885, he was succeeded by Hutcheson Macaulay Posnett, an Irishman who had written several books, including one on comparative literature – that would now be called the sociology of literature – a subject he is credited with inventing. The first professor of Mathematics, George
Horace Belshaw, the philosopher R.P. Anschutz, and the appointed to the staff, notably the very able economist, graduates with postgraduate education abroad were University started to change. The first New Zealand Minister, Sir George Fowlds. Under their leadership the Council (President after 1924), another former Cabinet by a Registrar, Rocke O'Shea, and a new Chairman of the.

In the 1920s and well into the 1930s the College was ruled to carry out good research, notably in Chemistry. no mathematical journals, so the mathematicians knew research was impossible. For instance, the Library took not expected and was rarely done. In some subjects, traditional undergraduate education. Research was leave until the 1920s. The teachers' role was to hand on subjects. There was no system of sabbatical or study of the remainder grew increasingly out-of-date in their some left for positions in Australia and elsewhere. Most academic leaders in the 1950s, when four new professors arrived: H.G. Forder, a very able mathematician; Arthur Sewell, a brilliant lecturer R.A.K. Mason and other distinguished writers.

The College received great intellectual stimulus in 1934 for the first literary movement in New Zealand history Phoenix. This journal was the focus of students led by James Bertram, who established a new literary journal, PhoeniX. This journal was the focus for the first literary movement in New Zealand history and featured the works of Allen Curnow, A.R.D. Fairburn, R.A.K. Mason and other distinguished writers.

The College received great intellectual stimulus in 1934 when four new professors arrived: H.G. Forder, a very able mathematician; Arthur Sewell, a brilliant lecturer in English; a classicist C.G. Cooper; and a new historian, James Rutherford.

The University of Auckland

The College gained its first academic leader in the 1950s, when the Council appointed a Principal (later Vice-Chancellor) K.J. Maidment, a Classics don from Merton College, Oxford. He came in 1950 and remained for two decades. Maidment faced a further, fierce 'site row'. The Council wanted to move the College to a larger site out of town. Instead, in 1956, the National Government offered Government House as compensation for staying out of town. Instead, in 1956, the National Government offered Government House as compensation for staying out of town. Another citizens’ 'save Government House' campaign followed. Both academic staff and the public were deeply divided over the issue, which was resolved in 1960: the University was to stay where it was. In 1957, the slow move towards autonomy was marked by legislation that changed the title of the College to the University of Auckland while leaving the functions and powers of the University of New Zealand intact.
In 1983 the University celebrated its centennial. Although government grant to the University rose rapidly, to $95.2 million by 1989, with the result that there was overcrowding in quite inadequate buildings. Universities everywhere were expanding rapidly. New Zealand academic salaries could not compete with those of overseas universities and many able Auckland staff left for positions in Australian and other universities. Despite these problems, there was significant progress. New subjects were introduced: Geography, Anthropology, Māori Studies and Fine Arts. There was a new emphasis on staff research. Many of the new and younger academics became very active researchers, reflected in the growing lists of staff publications.

In the 1960s, the Report of the Hughes Parry Committee led to major improvements in University conditions and governance. Staff salaries were raised. For the first time, the students were given fairly generous bursaries, which led to a rapid increase in the proportion of full-time students. The government grant to the University rose rapidly. In 1962, the University at last became independent when the University of New Zealand was abolished.

Growth and Change

Over the next two decades the campus was transformed as a massive building programme began and one large building after another was erected: Fine Arts, Science, Engineering buildings, a Student Union, a new Library. A number of new subjects were introduced, including Political Studies, Art History and Sociology. In 1968, teaching commenced in the new Medical School on the Grafton Campus. By the end of the 1960s Auckland had the largest University Library in the country.

When Dr Maidment departed in 1970, there were 9,300 students. His successor, Dr Colin Maiden, was an Auckland engineer who had headed a research division of General Motors in Michigan. One of the first things that struck him in Auckland was the need for better student facilities. He pushed ahead to provide a theatre, a gymnasium and recreation centre, and a large playing-field complex. The entire administrative organisation, from faculties and committees to deputy vice-chancellors, was reformed. The academic boom of the 1960s continued well into the 1970s and several new buildings, such as Human Sciences, were constructed and new subjects, including Management Studies and Computer Science, were introduced. Also established, in 1964, was the Leigh Marine Laboratory, north of Auckland. In 2009 this underwent redevelopment with new facilities opened in 2010.

The 1970s brought numerous social changes: an increase in the proportion of Māori and Pacific students and in the proportion of women and older students. In 1975 and 1981 the first two women professors were appointed, Marie Clay and Patricia Bergquist. At a time of high inflation, the government grant to the University rose rapidly, to $95.2 million by 1989.

In 1983 the University celebrated its centennial. Although there was a certain economic austerity, after a century of growth the University had established itself strongly within its own community and nationally.

There were still to be challenges. The wide-ranging restructuring of education undertaken by the Labour Government after 1984 encompassed the universities, and their autonomy and their identity were seen to be threatened. As a result of efforts by the universities, supported by alumni, some changes were secured in the Education Amendment Acts of 1989 and 1990, but the University Grants Committee was abolished, the Ministry of Education became responsible for tertiary education policy, and the composition of the Council was altered. At the turn of the century, the government took another look at the range of tertiary education through the Tertiary Education Advisory Commission, out of which came the Tertiary Education Commission as the funder of tertiary education.

The 1990s Onwards

Anxious to respond to the growing demand for university education in the early 1990s, the University offered courses at other tertiary institutions in Auckland and Northland. Acquiring buildings used for the 1990 Commonwealth Games village, it began to develop a campus at Tāmaki, initially offering courses in Commerce. Increasing student enrolments obliged it, like other universities, to introduce quotas for all first-year courses in 1992, breaking the historic policy of ‘open entry’.

From the mid-1990s, the University introduced semesters, launched its first major fund-raising appeal, produced its first strategic plan and inaugurated a Summer School. It joined Universitas 21, an international network of research-intensive universities in Australasia, Asia, North America and Europe, as a foundation member. In the late 1990s, the School of Medicine expanded to become the Faculty of Medical and Health Sciences, introducing degrees in Nursing, Health Sciences and Pharmacy.

The third Vice-Chancellor, Professor Kit Carson, served from 1995 to 1998 and was followed by Dr John Hood in 1999. Dr Hood was an alumnus of the University, a former Rhodes Scholar and business leader. He faced a difficult financial situation as governments had progressively reduced tuition subsidies per student, and the University needed to re-activate its building programme. The last period of intensive construction had ended with completion of a new School of Music in 1986 and the Waipapa Marae in 1988. The Law School had moved into refurbished premises in a new precinct to the north of Waterloo Quadrant in 1992. However, the University was growing very rapidly, with increasing numbers of international students as well as a growing number of domestic students who could now borrow to fund their tuition and other costs. This growth reached a peak in 2004 before starting to slow.

In its 2005 Strategic Plan the University resolved to pursue a quality agenda and to limit student growth to an average of one percent per annum over time. Consequently, the University extended limits on admission from a few professional qualifications to all of its undergraduate
degrees. In 2010, the student roll was 40,997 or 32,654 equivalent full-time students (EFTS).

From the 1990s, research became very much more important in the life of the University and its academics. The country started to look more than ever to universities to generate new ideas and knowledge, including innovations that might be harnessed for economic development. The University had already founded UniServices as an organisation to develop and commercialise research. In the early 2000s it became host to four of eight limited-term national Centres of Research Excellence (CoREs) funded by the government.

University Leadership

Dr John Hood left the University in mid-2004 to take up the position of Vice-Chancellor of the University of Oxford. Professor Stuart McCutcheon, formerly Vice-Chancellor at Victoria University of Wellington, succeeded him as Vice-Chancellor in January 2005. Under his leadership a new strategic plan, which was refreshed in 2013, envisaged the development of a University focused on excellent undergraduate teaching and learning, dynamic and challenging postgraduate education, and research that contributes to international knowledge, understanding and economic and social development. The University also recognised that it must play a role in addressing inequities in educational participation and achievement by Māori and Pacific students, and placed an emphasis on enhancing its recruitment and support programmes for potential students. In 2018, the University appointed its first Pro Vice-Chancellor (Pacific), Associate Professor Damon Salesa. In October the same year, Professor Cynthia Kiro took over the role of Pro Vice-Chancellor (Māori) from the inaugural appointee, Mr Jim Peters (2006–2018). In 2021 Associate Professor Te Kawehau Hoskins became the Pro Vice-Chancellor Māori, after Dame Cindy Kiro left and was appointed Governor-General.

Professor McCutcheon retired as Vice-Chancellor in early 2020. Professor Dawn Freshwater, the former Vice-Chancellor of the University of Western Australia, became Vice-Chancellor in March 2020, the first woman to hold the position since the University was founded. Professor Freshwater initially performed her duties under quarantine, then lockdown, amid the Covid-19 pandemic.

From mid-2020, the Vice-Chancellor consulted with staff and students on a new Strategic Plan for the University to replace the one that expired that year. Submissions closed in September 2020 and Taumata Teitei – Vision 2030 and Strategic Plan 2025 – was approved by Council in March 2021. ‘Taumata Teitei’ refers to ‘lofty peaks’, a figurative idea of reaching high for excellence.

In 2021, the University appointed its inaugural Provost, Professor Valerie Linton. Professor Linton was most recently the executive dean of the Faculty of Engineering and Information Sciences at the University of Wollongong in Australia. The Provost is the senior Deputy Vice-Chancellor of the University with responsibility for leading the academic mission.

Funding

A new CoRE funding round for 2021–2028 resulted in the University successfully extending three existing hosted CoREs and establishing a new CoRE, Healthy Hearts for Aotearoa New Zealand – Manaaki Mānawa. From 2020 the University hosts four of the ten CoREs, including Te Pūnaha Matatini, whose researchers played a critical role in Covid-19 modelling for New Zealand, and contributes to five others hosted by other universities.

In 2004, Auckland was designated the country’s leading research university "on virtually any measure" in the Performance Based Research Fund (PBRF) assessment, carried out by the recently created Tertiary Education Commission. In the PBRF assessments released in 2007 and 2012, the University of Auckland again emerged as the New Zealand university with the greatest overall strength. Revenue from research and contract activities grew from $153 million in 2006 to $269 million in 2019. In the latest PBRF round in 2018, the University of Auckland had 390 FTE or 33 percent of the A-rated researchers in the country.

In the 2000s, international ranking systems started to become important to university reputations and placed great significance on research performance. The University was consistently placed first among New Zealand universities, although its actual placement varied from year to year and among the ranking systems. In 2021 the University performed well in the two main rankings – placed at equal 81st in the 2022 QS World Rankings and 137 in the 2022 Times Higher Education (THE) World Rankings.

Organisational Changes

In 2006, Architecture, Dance Studies, Fine and Visual Arts, Music, and Planning combined to form the National Institute of Creative Arts and Industries (NICAI). In 2016, the National Institute of Creative Arts and Industries changed its name to the Faculty of Creative Arts and Industries (CAI) to align with the naming conventions of other University faculties.

The University and the Auckland College of Education amalgamated in September 2004 to form the Faculty of Education. This faculty, based primarily at the College’s campus in Epsom, was established with the aim of becoming New Zealand’s leading provider of teacher and social services education. In 2015, the Faculty of Education changed its name to the Faculty of Education and Social Work, making more visible the two main practitioner communities the faculty engages with and serves – teachers and educators – and those in the human services/social work and counselling professions.

Funding and gifting

The University has become increasingly dependent on its own ability to raise the funds it requires to operate. Student tuition fees, including the fees of international students, have been an important part of University income. Border restrictions due to Covid-19 have impacted the University’s capacity to attract international
students and this is likely to extend for the medium term given the worldwide disruption caused by the pandemic.

The University also receives tuition subsidies contributed by government. Income from research is substantial. Philanthropic donations have also become an important way in which friends and alumni of the University show their support for its activities, for the staff and the students. The University also runs six reserves for research across a wide range of disciplines. Anawhata Reserve, for example, was gifted to the University in 1966 by a group of alumni. In 2011, the Goldwater family gifted Goldie Vineyard and its related wine business to the University for use as a Wine Science teaching facility.

The University has come a long way from the early fund-raising appeal of the 1990s. A "Leading the Way" fundraising campaign, which ran from 2009 to 2012, exceeded its target of $150 million in 2011. The "For All Our Futures" campaign, which ran from 2016–2019, raised $380 million, $80 million more than its target and the largest amount ever raised by any university in New Zealand. The campaign earned an award from the Fundraising Institute of NZ, which named it Best High Value Campaign and winner of the overall Fundraising Excellence Award. The funds are used to support the aspirations of students as well as supporting life-changing research to address critical challenges facing our communities and New Zealand.

**Campus Developments**

Between 2000 and 2007 the University embarked on another major building programme. The impressive Kate Edger Information Commons and Student Commons, the Engineering Atrium and greatly expanded library wing, and a seven-floor extension to the Science Centre, which houses Computer Science and Software Engineering, enhanced the City Campus. A Fale Pasifika opened in 2004 and the Sir Owen G. Glenn Building, a large and striking complex for the Business School, was completed in 2007.

In 2009 the University adopted a Campus Development Strategy that proposed a major investment in infrastructure. Initial projects included the redevelopment of the Grafton Campus to refurbish laboratories, upgrade plant and construct the Boyle building (completed 2012); a student accommodation building at Elam to house 442 students (completed 2011); and a new South Pacific Laboratory, which fosters marine research and educates visitors on the marine environment. A major development of the Maths and Physics buildings was completed in 2011.

In 2013, in a bid to underpin 50 years of growth on a site close to the existing City and Grafton Campuses, the University purchased a 5.2-hectare site at Newmarket. The site, previously owned and occupied by Lion Breweries, has been partially redeveloped, and the mixed-use campus was opened in May 2015, with Engineering and Science occupying the first facilities.

As a result of the Newmarket purchase, in January 2014 the University transferred the 20-hectare Colin Maiden Park and its associated facilities at the Tāmaki Innovation Campus to Auckland Council. This transaction was followed by a sale of the balance of the campus in April 2016, with the University exiting the Tāmaki Campus at the end of 2019. This sale was part of the University's long-term strategy to consolidate activities at the City, Grafton and Newmarket campuses and significantly reduce landholdings. It also reflects the growing importance of cross-disciplinary teaching and research at the University and the need for faculties to be co-located.

After refurbishment in 2014, the University’s iconic building, the ClockTower on Princes Street, now houses the Office of the Vice-Chancellor, Pro Vice-Chancellor Māori, the Council Room and aspects of student administration. The refurbished Alfred Nathan House (completed 2017), also on Princes Street and where the Office of the Vice-Chancellor was previously located, is home to Communications and Marketing, the Schools Partnership Office, the International Office and other administrative and student support services. Although AskAuckland (the former Student Information Centre) has been located there too, it is due to move to a new location near the General Library in April 2022.

The Maidment Theatre, which opened in 1976 and played a crucial role in the development of Auckland’s vibrant theatre scene, was closed in December 2015 and demolished due to concerns about its seismic strength. The University hopes to build a new performing arts facility elsewhere on the City Campus when funding allows.

The Science Centre (completed 2016) on the corner of Princes and Wellesley streets has been a significant enhancement to the City Campus as has the new state-of-the-art Engineering building (B405) that opened in Semester One 2020. The new Faculty of Medical and Health Sciences home, Building 507 on Park Avenue in Grafton, opened March 2020. It houses the School of Population Health, School of Medicine, Growing Up in New Zealand, the National Institute for Health Innovation (NIHI), Speech Science, the Immunisation Advisory Centre and health-related clinics.

In 2018, Council approved the development of a new state-of-the-art Recreation and Wellness Centre. The existing Recreation Centre was built in 1978 when the University had 10,000 students. It now has 40,000 students and more than 5,000 staff. Demolition of the old centre and surrounding structures on the City Campus began in 2020, with construction delayed by Covid-19 but beginning in 2021. Temporary sports and recreation facilities were made available at 70 Stanley Street and in Wynyard Street.

As part of its long-term strategy to consolidate activities at the City, Grafton and Newmarket campuses, the University completed its relocation of teaching, research and other activities from the Tāmaki Innovation Campus, which it had previously sold, in 2019. The Tāmaki campus closed in late 2019. With the move towards cross-disciplinary teaching and research, the Faculty of
Education and Social Work (EDSW) is due to be relocated from its Epsom Campus to the City Campus in 2024.

After more than 20 years of offering programmes in partnership with Manukau Institute of Technology (MIT) in South Auckland, the University opened its own South Auckland campus in 2020. Te Papa Ako o Tai Tonga (Tai Tonga) in Manukau caters to a growing need from the community. The campus offers a Bachelor of Education (Teaching) Primary programme, Bachelor of Commerce, and Master of Business Management programmes.

The provision of accommodation has increased dramatically to cater for the increased number of students seeking a residential experience. Additional self-catered student accommodation, the Carlaw Park Student Village, opened in 2014 next to the Domain, to provide more than 700 student places; a further 315 self-catered single and double studio apartments in Symonds Street opened for Semester One, 2017. Grafton Hall reopened in 2019 after a two-year refurbishment, and provides catered student accommodation, while Waipārūrū Hall was completed in 2020, providing 786 first-year student places. A further 488 self-catered single rooms became available in Te Tirohanga o te Tōangaroa on Anzac Ave in Semester One, 2020.

In 2018 the new Early Childhood Centre opened at Park Avenue in the city.

In May 2019 the new state-of-the-art facility for the Department of Exercise Sciences was officially opened, after its move from Tāmaki. The Newmarket facilities include a Health and Rehabilitation Clinic and a Movement Neuroscience Laboratory and the move has brought the department closer to allied health organisations with which it has relationships, as well as Auckland City Hospital.

In August 2020, the government announced the University would receive ‘shovel-ready’ funding for the construction project to relocate the EDSW to the City Campus. Work began on the complex building programme across six structures in 2021. The flagship of the programme is Building 201, the old Human Sciences Building, being stripped back and rebuilt as an environmentally sustainable fit-for-purpose facility housing the EDSW and the Faculty of Arts. Building 201 is an adaptive reuse project and made its mark early with its design winning a 6 Star Green Star from the NZ Green Building Council in 2021. This puts the building in the ‘world leadership’ category.

In 2021 the University began consulting on its inaugural Estate Strategy 2021–2030, Te Rautaki Tūāpapa. The aim of the strategy is to provide a cohesive, future-focused approach to investment in, and management of, the University’s physical environment and developing innovative campuses as sustainable ecosystems.

Te ao Māori

In 2019, the University presented its Language Plan for the Revitalisation of te reo Māori, which aligns with the Crown strategy. Council adopted a goal of having 50 percent of staff participate in professional development to learn te reo Māori by 2025, and students having the option of a te reo Māori course in their programme of study.

In the same year, the University launched its te reo and tikanga Māori digital learning app called Te Kūaha – The Doorway, an educational resource for staff, students and alumni to learn te reo Māori and protocol.

In 2021 the University was gifted a new Māori name by the people of Ngāti Whātu Ōrākei. Waipapa Taumata Rau was added to the University’s name, replacing – Te Whare Wānanga o Tāmaki Makaurau. Waipapa Taumata Rau locates the University in Tamaki Makaurau (Auckland), an important destination historically and currently that reflects connections between people. The name is an exhortation to excellence and achievement, and reflects the many journeys of the people in the University community.

Covid-19 from 2020

In 2020, the University of Auckland responded to the challenges of Covid-19 by moving all teaching online in a short space of time, allowing continuity of the academic programme. The University also organised support for disadvantaged students, including provision of computer equipment and internet access, and increased student financial hardship support.

Support programmes and online teaching were put in place for around 2,000 international students who were unable to return to Aotearoa New Zealand.

Covid-19 had a serious impact on all major University operations, weakening its overall financial position and requiring a business recovery programme to deliver the changes required to return the University to its strong pre-Covid-19 position.

The Current University

The University of Auckland is located in Aotearoa New Zealand, a place of extraordinary beauty and diversity, where Māori are tangata whenua. From here, the University reaches out to the Pacific, to Asia and the World. The University’s special connection with the Auckland region and unique place in the world is personified in its Māori name, Waipapa Taumata Rau, which was gifted to the University by the people of Ngāti Whātu Ōrākei in 2021. The enduring relationship with tangata whenua is based upon Te Tiriti o Waitangi, an essential part of our distinctiveness, and is a key component of our new Vision 2030 and Strategic Plan 2025 (Taumata Teitei).

The University has seven campuses with eight faculties representing each of its main disciplines: Arts, Business and Economics, Creative Arts and Industries, Education and Social Work, Engineering, Law, Medical and Health Sciences, and Science. It also has two large-scale research institutes: the Auckland Bioengineering Institute and the Liggins Institute.

Many courses and research activities reflect Auckland’s and New Zealand’s place in the world. This perspective
has long been a feature of our programmes. For example, Pacific archaeology, ethnology and languages are emphasised in the discipline of Anthropology. Asian languages, including Chinese, Japanese and Korean, are taught, and Pacific Island languages were introduced in 1991.

Geographers carry out fieldwork in the Pacific Islands, while University scientists make frequent study trips to the Antarctic. The Leigh Marine Laboratory, about 100km north of Auckland and part of the Faculty of Science, brings together a wide range of expertise and facilities to work towards our understanding of the marine environment.

The University continues to build on these foundations with the introduction of the Bachelor of Global Studies in 2018, the Bachelor of Design in 2020 and the Bachelor of Communication in 2022. Additionally, a suite of exclusively online taught masters programmes was introduced in 2020 as part of the Auckland Online initiative, and these offerings have been expanded over time. The University also began offering industry-endorsed micro-credentials in 2021.

The University of Auckland recognises research and research-led teaching as a primary responsibility of its academic staff. High-quality research on a large scale and across the full range of disciplines, represented by faculties and Large-Scale Research Institutes, is essential to ensure the place of the University of Auckland among the leading international research universities. University researchers contribute to the growth of new knowledge by conducting fundamental research across a wide range of fields in the natural, human and social sciences, the humanities and creative arts. Its expertise across a number of research disciplines was called upon by the Government in 2020 to assist in managing the Covid-19 pandemic.

The University fosters the commercialisation of its research to assist in the pursuit of the country’s economic objectives and applies it to enhance social values and advance the wellbeing of all New Zealanders. Research also underpins the University’s obligation to act as a critic and conscience of society. As the leading research university in New Zealand, the University of Auckland is committed to the quality and excellence of its degree courses including its postgraduate and doctoral programmes.

In 2020, the University of Auckland was ranked first for the second consecutive year in the University Impact Rankings by Times Higher Education (THE), reflecting its strong teaching, research, policy and operational performance against the United Nations’ Sustainable Development Goals (SDGs).

Structure of the University

Council
The University’s governing body is the Council, a mixture of elected staff, students and graduates, and outside appointees. The Vice-Chancellor, the University’s chief academic and administrative officer, is also a member. Council is chaired by the Chancellor who is a lay member of the Council.

Senate
On academic matters, Council is bound to consult the Senate which the Vice-Chancellor chairs. This body includes all the professors, some non-professorial staff and student representatives. The Senate takes advice from the Education and Research Committees, and from specialist committees, dealing for example with the Library and the Faculties.

Vice-Chancellor
The Vice-Chancellor is the head of the University: its chief academic and administrative officer and the employer of all staff. The Vice-Chancellor is responsible for providing academic leadership along with effective management, and for leading strategic planning and directing resource allocation.

Provost
The Provost is the senior Deputy Vice-Chancellor of the University with responsibility for leading the academic mission.

Deputy Vice-Chancellors
The Deputy Vice-Chancellor (Research) is responsible for assisting and advising the Vice-Chancellor and University Council on research policy, research management and performance.

The Deputy Vice-Chancellor (Strategic Engagement) is responsible for ensuring that the University develops, maintains and grows the key national and international relationships that will enhance and enable its ability to perform as a leading university.

The Deputy Vice-Chancellor (Operations) and Registrar is responsible for Finance, IT, Property, Communications and Marketing, Academic and Shared Services, Organisational Performance, Planning and Information, Campus Life, Legal and Risk functions.

Pro Vice-Chancellors
The Pro Vice-Chancellor (Māori) has responsibility for developing a positive Māori profile in the University and assisting in the development of Māori programmes in liaison with the Vice-Chancellor, Māori staff, students and the community.

The Pro Vice-Chancellor (Pacific) has responsibility for developing a positive Pacific profile in the University and assisting in the development of Pacific programmes in liaison with the Vice-Chancellor, Pacific staff, students and the community.

The Pro Vice-Chancellor (Equity) leads the Equity Office, Te Ara Tautika, and has responsibility for advising,
monitoring, reporting, and developing policies and programmes on equity in education and employment.

The Pro Vice-Chancellor (Education) contributes to the oversight of cross-University academic matters, ensuring the quality of its academic policy and offerings, and excellence in learning and teaching approaches.

Faculties
Each faculty is a sub-committee of Senate and is headed by a Dean who is usually supported by Associate Deans, a Director of Faculty Operations and other administrative staff. The Dean is responsible for co-ordinating the academic and research activities of individual departments and liaises with both the Office of the Vice-Chancellor and the Senate committees on academic programmes, staff appointments, buildings, research funding, library facilities, timetabling etc. The faculty student centres provide assistance to students with programmes and courses. Information is available on faculty websites; handbooks are available from both faculty and departmental offices.

Large-Scale Research Institutes
Each large-scale research institute (LSRI) is headed by a Director, supported by a Deputy Director and administrative staff. The Director is responsible for co-ordinating the research activities of LSRI staff, including postgraduate research supervision, and liaises with both the Office of the Vice-Chancellor and the Senate committees on regulations, staff appointments, buildings, research funding, library facilities etc. Information is available on LSRI websites.

Central Administration and Services
Day-to-day central administration and service provision is performed by the Vice-Chancellor’s Office, Student and Academic Services, Alumni Relations and Development, Campus Life, Communications and Marketing, Equity Office, Finance, Human Resources, International Office, IT Services, Libraries and Learning Services (including the University Library), Office of Research Strategy and Integrity, Organisational Performance and Improvement, Property Services and the School of Graduate Studies.

The City Campus
The City Campus, established in 1883, is in the heart of Auckland City. Separated from the tower blocks of the central business district by historic Albert Park on its western flank, the campus covers over 20 hectares. To the southeast lie the trees and open spaces of the Auckland Domain. Its proximity to the cultural and commercial amenities of the country’s largest city, attractive green setting and harbour views bestows advantages enjoyed by few inner city campuses anywhere.

The City Campus has undergone major development during its existence with many refurbished and new building works.

A new 32,000m² building for the Faculty of Engineering is complete and work has begun on the construction of a new Recreation and Wellness Centre building. Temporary sports and recreation facilities have been made available at 70 Stanley Street and in Wynyard Street.

The Epsom Campus
The Epsom Campus was established in 1926 as the site of the Auckland College of Education, formerly known as the Auckland Teachers’ College and the Auckland Teachers’ Training College (established 1881). Upon the amalgamation of the Auckland College of Education and the University of Auckland in 2004, the Epsom Campus became the primary site for the new Faculty of Education and Social Work.

The 11.5 hectare campus on Epsom Avenue is approximately four kilometres from the City Campus and three kilometres from the Grafton Campus. It is flanked by Mt Eden Village to the west, Maungawhau (Mt Eden) Domain to the north, and directly adjoins Auckland Normal Intermediate and Kohia Schools and Melville Park to the south and south-east. The campus is well sited for major transport routes. Established trees and gardens complement diverse facilities, including gymnasia, café, marae, tennis courts, health and counselling centre and early childhood centres, to make this an attractive study location.

The Epsom Campus also houses Kohia Centre and retail outlet and the Sylvia Ashton-Warner Library.

The Grafton Campus
Located opposite Auckland City Hospital and the entrance to the Domain, the Grafton Campus covers a 2.75 hectare site on Park Road, Grafton. Originally established for the School of Medicine in 1968, the site was recognised as a separate campus in 1995 and in 2008 was formally designated as the Grafton Campus.

Home to the Faculty of Medical and Health Sciences (FMHS) and the Liggins Institute, the campus is a modern biomedical and health education and training facility, complemented by a specialist medical library, the Philson.

The campus houses a number of significant research facilities, including the Auckland Cancer Society Research Centre, Manaaki Mānawa – the Centre for Heart Research, the Centre for Brain Research, a state-of-the-art Biomedical Imaging Research Unit, the Centre for Advanced MRI, the Clinical Research Centre, the Neurological Foundation Human Brain Bank, the Auckland Regional Bio Bank, Grafton Clinical Genomics, the Clinical Skills Centre and the Auckland Medical Research Foundation Medical Sciences Learning Centre.

With the opening of the new Building 507, all Faculty schools are represented on campus, as well as hosting publicly accessible teaching and research clinics and Speech Science (part of the Faculty of Science).

Satellite clinical campuses of FMHS operate at Middlemore, North Shore, Tauranga and Waikato Hospitals.
with further clinical sites at Henderson, Whangarei, Rotorua, Whakatane and New Plymouth.

The Leigh Campus

The Leigh Marine Laboratory, situated at Leigh, north of Auckland, houses the University’s Marine Science Research Facility.

The Newmarket Campus

The 5.2 hectare Newmarket site was previously owned and occupied by Lion Breweries, and acquired by the University in 2013 to develop as a long term mixed-use campus. The Newmarket Campus is a major strategic acquisition for the University which provides opportunities for long-term growth close to the City and Grafton campuses. The site’s benefits include the opportunity to integrate campus development across the city, providing long term additional space to develop purpose-built research facilities and student accommodation, as well as other business development opportunities.

The campus houses the Faculty of Engineering research facilities as well as the Department of Exercise Sciences (Faculty of Science).

Te Papa Ako o Tai Tonga (The South Auckland Campus)

The University of Auckland has been present in South Auckland for over 20 years. The opening of Te Papa Ako o Tai Tonga in central Manukau continues the University’s commitment to South Auckland. Te Papa Ako o Tai Tonga has space and resources to build and support community and school relationships, and provide more study options for communities in South and East Auckland.

Currently, the Bachelor of Education (Teaching) - Primary, Bachelor of Commerce (First Year), Tertiary Foundation Certificate (Education and Social Work pathway) and New Start programmes are being offered at the new South Auckland Campus, with a limited number of General Education courses to be taught from Semester 1, 2021. Other local University of Auckland students can use the space for informal study, and study-support services will be available to all students.

The opening of the new campus marks the end of a 20-year partnership with Manukau Institute of Technology (MIT), with whom the University previously delivered its programmes from Otara.

The Tai Tokerau Campus

The Tai Tokerau Campus in Whangārei was established by the Auckland College of Education in 1992. Centrally located, the campus offers lecture rooms, student centre, library and a base for Faculty of Education and Social Work programmes and staff, while also providing a wider presence for the University of Auckland in the North.

Alumni Relations and Development

Alumni Relations and Development is the University’s centralised point of contact for two key groups:

- Alumni and friends, an over 200,000-strong network spread across the Auckland region, throughout New Zealand and around the globe. Alumni Relations and Development enables alumni and friends to stay connected with the University and one another and to enjoy a range of benefits and services. Those who wish to have a closer relationship with the University can engage in a number of ways, including the following:
  - find out what’s happening on campus, attend events, watch videos of public lectures, browse our galleries of recent graduation ceremonies or read our recent alumni publications (visit www.auckland.ac.nz/en/alumni/whats-happening.html)
  - join the free flash mentoring platform, Alumni Connect, to get career advice from other alumni or to share experiences and expertise with students (visit www.auckland.ac.nz/en/alumni/get-involved/alumni-connect.html)
  - connect with a range of alumni groups and clubs listed on the alumni and friends website (visit www.auckland.ac.nz/globalalumni).

- Philanthropic partners and donors, whose generosity has a transformative effect on research, teaching and learning at the University. To donate or to find out more about ways to give, and for general information about areas that can be supported, visit www.giving.auckland.ac.nz or email giving@auckland.ac.nz

Alumni Relations and Development operates in close collaboration with the University’s senior leadership, faculties and other service divisions. It is located at University House, 19A Princes Street.

For further information visit www.alumni.auckland.ac.nz or email alumni@auckland.ac.nz

Auckland UniServices Ltd

At UniServices, we bring ideas to life. We partner with the best minds at the University of Auckland to apply intelligent thinking to ideas that have the potential to change the world.

As the University of Auckland’s research and knowledge transfer company, UniServices’ core business is to transform knowledge into solutions for real-world challenges, working with government and industry for more than 30 years.

The objectives of UniServices are to:

- Support researchers and help them grow their research portfolios, increasing the impact of research
on society and expanding the value of research outputs.

- Develop mutually-beneficial relationships with research funders and commercial clients, bringing the external worldview into the University research environment.

- Identify, protect and develop the intellectual property of the University that arises from world-class research

- Commercialise University-sourced technology and innovations, developing and investing in the commercial potential of new ideas produced by University staff and students

- Deliver social and economic benefits of research outputs to the wider community across New Zealand

Centres of UniServices are situated on campus. The head office is located at Level 10, 49 Symonds Street. Opening hours are Monday to Friday 8.30am to 5pm. Phone: +64 9 373 7522 or visit www.uniservices.co.nz
Statutes and Regulations and their Application
The following guidelines outline how the regulations and statutes in the *Calendar* are typically applied. The University reserves the right to introduce new and/or change regulations or statutes and/or to change the content of courses should the circumstances require.

Admission Regulations

Application for Admission

All new students intending to study at the University of Auckland for the first time, and students intending to change their programme, must submit an Application for Admission. To be admitted applicants must meet (a) the admission requirements as detailed below and (b) any specific programme entry requirements. Applicants whose admission to a programme is approved will receive an offer of a place and on acceptance of this offer may proceed to enrol online in courses.

Prerequisites and Conditions

1 Subject to the Council’s statutory powers to decline admission and enrolment (whether for insufficiency of accommodation or of teachers or for other cause) and to Regulation 2, a person is eligible to be admitted to the University and to be admitted as a student if that person:
   a has satisfied the requirements for entrance to a university in New Zealand
   or
   b is granted Special Admission
   or
   c is granted Discretionary Entrance
   or
   d is granted admission ad eundem statum, based upon study at a secondary school or another tertiary institution:
      (i) at entrance level
      or
      (ii) with credit
      or
      (iii) with graduate status.

2 Unless Senate approves otherwise, a person who has not reached the age of 16 years by 31 December in the year preceding that in which admission is sought will not be eligible to be admitted to this University.

3 A person seeking to be admitted to the University must:
   a comply with these regulations
   and
   b sign and date the declaration on the Application for Admission form which includes the words:
      'I will comply at all times with the University’s statutes, regulations, rules and policies'
   or
   c complete and submit the Application for Admission online, which includes a declaration with the words: ‘I will comply at all times with the University’s statutes, regulations, rules and policies’ and accept that completing and submitting the Application for Admission online constitutes signing and dating the declaration as defined under the Contract and Commercial Law Act 2017.

Requirements for Entrance to a University in New Zealand

4 a National Certificate of Educational Achievement
   From 2005 to 2014: a minimum of 42 credits at Level 3 or higher on the National Qualifications Framework, including a minimum of 14 credits at Level 3 or higher in each of two subjects from an approved subject list, with a further 14 credits at Level 3 or higher taken from no more than two additional domains on the National Qualifications Framework or approved subjects; plus, a minimum of 14 credits at Level 1 or higher in Mathematics or Pangarau; plus, a minimum of 8 credits at Level 2 or higher in English or Te Reo Māori; 4 credits must be in Reading and 4 credits must be in Writing.

   From 2015: NCEA Level 3; plus, three subjects at Level 3, made up of 12 credits each in three approved subjects; plus Literacy, 10 credits at Level 2 or above*, made up of 5 credits in reading, 5 credits in writing; plus Numeracy, 10 credits at Level 1 or above*, made up of Achievement standards – specified achievement standards available through a range of subjects, or Unit standards – package of three numeracy unit standards (26623, 26626, 26627 – all three required).

   For 2020 only to recognise the disruption caused by COVID-19: NCEA level 3; plus three subjects at Level 3, made up of 12 credits each in three approved subjects; plus Literacy, 10 credits at Level 2 or above*, made up of 5 credits in reading, 5 credits in writing; plus Numeracy, 10 credits at Level 1 or above*, made up of Achievement standards – specified achievement standards available through a range of subjects, or Unit standards – package of three numeracy unit standards (26623, 26626, 26627- all three required).

   *Note: For the lists of Level 1, Level 2 and 3 standards that contribute to University Entrance requirements, please visit the NZQA website www.nzqa.govt.nz/ncea.
b **Bursaries examination**

- Up to and including 1986: an aggregate total of 160 marks in four subjects.
- From 1987 to 1992: four individual subjects with D grades or higher. (Practical Art up to 1988 counts as two subjects for this purpose.)
- From 1993 to 2003: three individual subjects with C grades or higher plus Higher School Certificate, or an ‘A’ or ‘B’ Bursary.

c UE gained before 1986.

d Up to and including 1992: a combination of credits, in a minimum of four subjects, gained from UE before 1986 and/or Bursaries Examinations since. A credit required a mark of at least 40 percent in 1986 or a D grade or higher from 1987 on. (Practical Art up to 1988 counts as two subjects for this purpose.)
- From 1993 to 2003: a combination of credits in three individual subjects in the Bursaries Examination plus Higher School Certificate.

e Up to and including 2003: 13 credits in three different subjects at Level 3 or above on the National Qualifications Framework and Higher School Certificate.

*Note: Credits in approved subjects from the National Qualifications Framework, and grades C or better in NZUEBS or equivalent, may be combined to make up the equivalent of three C passes.*

**Special Admission**

5 a A person who does not hold a university entrance qualification but who is a New Zealand citizen or permanent resident and has attained the age of 20 years on or before the first day of the semester in which a proposed programme is offered is eligible to be granted Special Admission.

b A person seeking Special Admission to the University has to apply for it in accordance with the Admission Regulations and submit evidence of age and educational qualifications.

Senate may waive the age requirement where an applicant is in its opinion otherwise fit to be admitted and, in particular, has satisfied any qualification for admission specified in the regulations for that programme of study.

d A person seeking to be admitted to the University of Auckland who wishes to be granted credit for any prior learning must apply under Regulation 7 (Admission at Entrance Level or with Credit).

e Special Admission applicants who have previously failed a foundation programme or not reached an adequate standard in a preparatory programme, will not be re-admitted to the University unless their last enrolment is two or more years previous and they have subsequently undertaken work, study or life experience that demonstrates readiness for academic study. Special Admission applicants refused admission should be advised of other study options.

**Discretionary Entrance**

6 a A person under the age of 20 years who does not meet the University Entrance standard, but

- (i) is a citizen or permanent resident of New Zealand or Australia*
- (ii) has received secondary schooling to at least New Zealand Year 12 level (or its equivalent overseas) and earned at least 14 credits in an approved subject at Level 2 towards NCEA (or its equivalent)
- (iii) has met the literacy and numeracy standards required for University Entrance, or their equivalents may apply for Discretionary Entrance.

* Australian applicants’ most recent year of schooling must have been in New Zealand.

b Persons who have undertaken Year 13 study beyond 1 June at a New Zealand secondary school may normally not be admitted under the Discretionary Entrance provisions before July in the following year. Admission will be at the discretion of the University.

c In special circumstances the Chair of Universities New Zealand–Te Pōkai Tara’s Sub-Committee on University Entrance may permit persons who do not fulfill Regulation 6a(ii) or Regulation 6a(iii) above to apply for Discretionary Entrance.

d A person studying at a New Zealand secondary school, who is attempting to qualify for entrance to the University, may apply for Discretionary Entrance in the same year for the purpose of enrolling in courses offered in Summer School. Any person admitted under this regulation who does not, in the following January, meet the University Entrance standard will be required to withdraw from the University and may re-apply for admission at mid-year. Students required to withdraw may complete their Summer School programme before doing so, but any courses passed will not be credited to a qualification until a University Entrance qualification is gained.
A person seeking Discretionary Entrance to the University must apply by completing the requirements prescribed on the Discretionary Entrance form.

**Admission ad eundem statum (Admission at Entrance Level or with Credit)**

7  a  **From a New Zealand university**

A student from another university in New Zealand, including a student who had enrolled at the University of Auckland previously, who wishes to reapply to the University of Auckland must submit an Application for Admission online and may apply for credit under the provisions of the Credit Regulations.

b  **From another tertiary institution in New Zealand or overseas**

A person who wishes to be admitted to the University and who has gained appropriate qualifications validated by the New Zealand Qualifications Authority or from an overseas institution may be granted admission by this University:

(i)  at entrance level

(ii)  with credit towards a certificate, diploma or a Bachelors degree for work which in the opinion of Senate is substantially equivalent and is in accordance with the credit regulations

(iii)  with graduate status.

c  **From a New Zealand secondary school**

New Zealand citizens, permanent residents or international students who have gained from a New Zealand secondary school an entrance qualification approved by Universities New Zealand–Te Pōkai Tara for the purpose of admission ad eundem statum, may be granted admission ad eundem statum to this University.

d  **From an overseas secondary school**

New Zealand citizens, permanent residents or international students who have gained an appropriate overseas qualification may apply to have that qualification recognised as being equivalent to a university entrance qualification set out in Regulations 4a–e above. A New Zealand citizen who has completed a year of academic study overseas, which is deemed to be at the equivalent of Year 13 in New Zealand, whether or not a formal academic qualification has been obtained, may apply for Discretionary Entrance, if appropriate, or may apply for ad eundem statum entrance under this Regulation.

e  A person seeking admission under this regulation has to apply by completing the requirements on the Application for Admission online.

8  a  Credits may be specified or unspecified and the grant of admission may include permission to advance in specified subjects or courses.

b  Prerequisite courses or programmes may be prescribed as a condition of the approval to proceed to a higher degree or other qualification.

**Students Enrolled at Another Educational Institution**

9  a  When they enrol, students are required to declare if they are intending to enrol concurrently during the year in question at any other educational institution.

b  A student at a New Zealand secondary school who satisfies the admission requirements and who has the specific written approval of the institution’s principal may, with the approval of Senate or its representative, enrol in up to 15 points per semester.

**English Language Competence**

10  a  Applicants for admission to the University of Auckland must provide evidence acceptable to the University of their competence in both written and spoken English.

b  For admission purposes, the University will be satisfied of an applicant’s competence in English:

(i)  if English is the applicant’s first language

or

(ii)  if the applicant has a New Zealand university entrance qualification

or

(iii)  if the applicant has an overseas university entrance qualification from a country where the main language is English and the main language of instruction and assessment for that qualification was English

or

(iv)  if the applicant performs to a satisfactory standard, as set down by the University Senate from time to time, in an approved English Language test

or

(v)  if the applicant provides other evidence acceptable to the University of competence in both written and spoken English.

c  If the applicant is age 20 years or over, and is a New Zealand citizen or permanent resident, this regulation...
does not apply.

Note: Under the provisions of the Education and Training Act 2020, the University of Auckland may require students over the age of 20 applying for admission to any restricted entry programme to provide evidence of English language competency.

Credit Regulations

Credits

1. A student may, with the approval of Senate or its representative and on payment of the prescribed fees under the Fees Statute, be granted credit towards a programme approved by the Dean of Faculty concerned under the provisions of these regulations.

b. A student may not be granted further credit for work already credited under this regulation.

Credit from Another Tertiary Institution: Transfer Credit

2. A student who applies for admission to the University of Auckland and has undertaken an appropriate programme or micro-credential at an approved tertiary institution may be granted appropriate credit towards a degree or other qualification of the University of Auckland on the basis of work successfully completed in the previous programme or micro-credential.

b. To be awarded an undergraduate degree of the University of Auckland a student must complete at least the equivalent of a full time year of study as an enrolled student at the University of Auckland and pass a minimum of 120 points towards that degree.

c. Credit granted under 2a above may be specified or unspecified and the grant of admission may restrict advancement in specified subjects or programmes.

d. (i) Credit granted under 2a above for an undergraduate qualification will normally be granted only for courses or micro-credentials at Stage I and Stage II. Only in exceptional circumstances will the grant of credit be considered at Stage III for courses or micro-credentials taken at Stage III at another tertiary institution.

(ii) Credit for completed micro-credentials will only be approved if the micro-credential was originally awarded with credit. Credit is not available for non-credit-bearing micro-credentials. Credit for micro-credentials will be approved at the level at which the micro-credential was approved, or the level for which it is assessed as being the equivalent of, for non-New Zealand micro-credentials.

(iii) Where Parts are specified for a Bachelors degree, credit may be awarded within a Part according to suitability of course or micro-credential content and/or professional requirements and irrespective of the Stage or level of the course or micro-credential passed. Credit towards an undergraduate qualification will not normally be granted for postgraduate level courses or micro-credentials.

(iv) Subject to any provisions of the relevant Programme Regulations, where a transferring student has completed an undergraduate qualification at a recognised New Zealand or overseas institution, credit granted under 2a above will be treated as though it were ‘cross-credit’ under 5a and will be subject to the limits set out in 7.

(v) Credit may be refused for undergraduate courses or micro-credentials passed more than five years previously.

e. Unless prohibited by the regulations of a prescribed degree, credit may be granted under 2a above towards a Bachelors Honours Postgraduate degree, taught Masters degree or the taught component of a research Masters degree with a total points value of more than 120 points, or Postgraduate Diploma provided that:

(i) No more than 30 points may be granted as transfer credit.

(ii) The enrolment in the postgraduate qualification at the University of Auckland is no later than three semesters from the initial enrolment in the courses or micro-credentials for which credit is to be given.

(iii) The application for transfer credit is made at the time the student is admitted to the postgraduate qualification.

(iv) The completed courses or micro-credentials are at postgraduate level in the disciplinary area of the qualification for which transfer credit has been sought.

(v) Transfer credit will not be given for independent research courses such as a dissertation, research essay, research project, research portfolio, thesis, or similar, or the major creative component of a postgraduate programme.

(vi) Transfer credit will not be given for courses in completed qualifications. Micro-credentials are not considered to be completed qualifications.

(vii) Grades for transfer credit courses or micro-credentials will not be included in the calculation of an overall grade for Honours (or Distinction/Merit).
Where prior approval for external tertiary study, exchange or study abroad enrolment has been granted:

(i) The grant of more than 30 points of credit for courses or micro-credentials taken at another tertiary institution will be considered for a Bachelors Honours degree, taught Masters degree, the taught component of a research Masters degree with a total points value of more than 120 points, or a Postgraduate Diploma.

(ii) The grant of credit for courses or micro-credentials taken at another tertiary institution will be considered for a research Masters degree.

g The grant of 60 points of credit from a completed postgraduate certificate towards a Postgraduate Diploma may be approved where the admission regulations for the diploma programme allow for it.

h Credit will not be available for any course or micro-credential passed at another tertiary institution with a conceded or restricted pass.

i Where cross-credit or transfer credit has been awarded at another tertiary institution, this credit may not also be credited to a programme at the University of Auckland.

Approved Study at Another Institution

A student who is enrolled at the University of Auckland and who concurrently enrols and completes courses or micro-credentials at another tertiary institution, which they wish to credit to their University of Auckland qualification, must:

(i) Seek from the Dean of the relevant Faculty, or nominee, prior approval of the proposed concurrent enrolment and confirmation that the courses or micro-credentials will satisfy the regulations and requirements for the qualification for which the student is enrolled at this University and that appropriate credit may be granted.

(ii) Apply for credit in accordance with these regulations when the official results are known.

Any credit granted towards a University of Auckland qualification from study at a Summer School will be added to the current year of study at this University.

Where prior approval has not been sought, credit will not normally be granted.

Where study at another institution is part of approved external study, study abroad or exchange arrangement, credit for an undergraduate qualification may be approved for Stage III or postgraduate level courses if the successfully completed study is deemed appropriate for such credit by the Dean of the relevant Faculty or nominee.

Cross-credits and Internal Credit

In this Regulation 'cross-credit' means a course which is common to two University of Auckland undergraduate qualifications, which may be Bachelors degrees, undergraduate diplomas and undergraduate certificates, and is credited to both. 'Internal credit' means credit awarded to a programme for one or more courses passed for another University of Auckland qualification, which cannot be designated as a cross-credit.

A student taking two programmes may only be awarded as cross-credits and/or internal credit the maximum allowed for one, but not both, of the programmes.

A course which is designated a cross-credit may not be credited to more than two qualifications.

When calculating cross-credits between a second and third qualification, points from previously granted cross-credits may not be used. The maximum number of cross-credit points that may be granted is based on one third of the points not previously designated for cross-credits.

A Stage III course that fulfils the Stage III requirements of one qualification may not normally be designated as a cross-credit to meet the Stage III requirement of another qualification unless permitted by the regulations of a prescribed undergraduate degree.

A student may not designate as a cross-credit any course passed with a conceded pass or a restricted pass. If that course is compulsory, another course may be substituted for it as Senate or its representative may approve.

Designation of courses as cross-credits, as permitted by these regulations, is subject to the approval of the Dean of the relevant Faculty or their nominee.

Micro-credentials completed at the University of Auckland

If a micro-credential is completed at the University of Auckland and credit is approved into a University of Auckland qualification the credit will be designated as Internal Credit.

A micro-credential may only be credited to one qualification.
Limits

8 Subject to any other provisions of these regulations or the relevant Programme Regulations:

a In the case of qualifications of equal value, the total value of transfer credit, cross-credits and internal credit is limited to one third of the total value of the degree, diploma or certificate.

b Where the qualifications concerned are of different values, the total value of transfer credit, cross-credits and internal credit may not exceed one third of the total points value applying to the qualification of lesser value.

c Cross-credits are not available for Masters degrees, Bachelors Honours Postgraduate degrees, doctorates, postgraduate certificates and postgraduate diplomas.

Limits on Cross-Credits for Conjoint Degrees

9 a A conjoint degree programme is considered to be two degrees for the purpose of calculating cross-credits.

b (i) A maximum of 80 points may be cross-credited from a completed conjoint degree component to another qualification.

(ii) A maximum of 80 points may be cross-credited from a completed qualification to a conjoint degree component.

(iii) The apportionment of the points for each component of a conjoint degree is subject to the approval of the appropriate Deans or their representatives.

Reassigned Courses

10 a A student may apply, by submitting an Application to Reassign Courses form, to reassign courses passed for, and assigned to, one qualification to another qualification for which the courses are available.

b A student may not reassign courses passed for one qualification to another once the qualification for which the courses were passed has been awarded, unless the former qualification has been surrendered or rescinded.

c A student may not reassign to another qualification any course passed with a conceded pass or a restricted pass. If that course is compulsory, another course may be substituted for it as Senate or its representative may approve.

d A student may apply to reassign a course or courses passed for a Certificate of Proficiency to a taught Masters degree, or the taught component of a research Masters degree with a total points value of more than 120 points, a Bachelors Honours Postgraduate degree, a postgraduate diploma or a postgraduate certificate provided that:

(i) no more than 30 points are reassigned

(ii) the enrolment in the postgraduate qualification is no later than three semesters from the initial enrolment in the course(s) reassigned from a Certificate of Proficiency

(iii) the application to reassign is made at the time the student is admitted to the postgraduate qualification

(iv) the course is available in the schedule of the qualification to which it is reassigned.

e Courses which are reassigned cease to be credited to the former qualification.

Review and Appeal Procedure

11 a Decisions under these Regulations may be reviewed only if:

(i) There was a failure of the University’s process and/or

(ii) The basis of the decision was manifestly at odds with the evidence.

b Requests for review of Transfer Credit and Approved Study at Another Institution decisions should be made to the Applications and Admissions Office. Requests for review of Cross-credits, Internal Credit and Reassigned Courses decisions should be made to the Records, Enrolment and Fees Office.

c If the request for review is unable to be resolved by the Applications and Admissions or Records, Enrolment and Fees Offices, it will be referred to the Faculty concerned or, in the case of postgraduate qualifications, the Dean of Graduate Studies for reconsideration.

d If a student remains dissatisfied following reconsideration by the Faculty or Dean of Graduate Studies, a written appeal for a review of the credit decision may be submitted to the Director, Academic Services.

e The Credit Review Board will consider all appeals relating to credit decisions on behalf of Senate.

f Students who are submitting an appeal have the right to be heard in person.

g The decision of the Credit Review Board must be recorded and the appellant informed of the decision in writing.

h The decision of the Credit Review Board is final.
Enrolment and Programme Regulations

The ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit.

Application of Regulations to doctoral degrees

1 The Enrolment and Programme Regulations apply to doctoral degrees only as stated at Regulations 1a-b.
   a Doctoral degrees are subject to:
      Regulation 4b(ii) within the Academic Calendar provisions
      Regulation 7 within the Definitions of Full-time and Part-time Study
      Regulation 10b within the General Programme Provisions
      Regulations 12–15 pertaining to Rescindment and Surrender of Qualifications
      Regulations 18a-b, 18d-e, 19 a-b and 19d-e within the Enrolment provisions
      Regulation 20 pertaining to Members of the Security Intelligence Service
      Regulation 70 pertaining to Provost’s Special Powers.
   b Doctoral degrees governed by the 2011 or 2016 Statutes for the Degree of Doctor of Philosophy or by the General Regulations for Named Doctorates are subject to Regulations 1a and 16a of these Enrolment and Programme Regulations.

Application of regulations to micro-credentials

2 The Enrolment and Programme Regulations apply to micro-credentials with the exception of the regulations pertaining to:
   Restrictions – Regulation 11
   Discontinuation – Regulation 16
   Academic English Language Requirement – Regulation 22
   Meeting the Academic English Language Requirement – Regulations 23–29
   Failure to meet the Academic English Language Requirement – Regulations 30–34
   Re-admission – Regulations 37–42
   Academic Standing – Regulations 56–57
   At Academic Risk Academic Standing – Regulation 59
   Academic Restriction Academic Standing – Regulations 60–61
   Enrolment Terminated – Regulation 62–69

3 References to programmes and courses in these regulations, excluding the sections noted in Regulation 2, should be interpreted to include micro-credentials.

Academic Calendar

4 a The academic year will begin on the first day of January of the calendar year and will end on the last day of December of that same calendar year.
   b There will be:
      (i) a Summer School, a Late Year Term, two semesters, four quarters and an Academic Year Term in each year
      (ii) a doctoral year term corresponding to each block of 12 months from the initial date of doctoral programme enrolment for a doctoral student.
   c The Summer School will normally begin on the second working day after the New Year break and will end with examinations normally held over three days commencing the second or third Monday in February. If the second working day is a Friday, the Summer School will begin on the following Monday.
   d The first semester will normally begin on the ninth or tenth Monday of the calendar year and end on the 26th Monday of the calendar year, the final three weeks and one day of which will normally be a study and examination period.
   e The second semester will normally begin on the 29th or 30th Monday of the calendar year and end on the 46th Monday of the calendar year, the final three weeks and one day again normally being a study and examination period.
   f Each semester will include a break of at least one week after about six weeks of teaching.
   g Quarters normally comprise a ten week period of teaching and examinations, followed by a break of one or two weeks.
   h The Academic Year Term will begin on the first day of January and will end on the last day of December of that same calendar year. Within the Academic Year Term, individual sessions that commence on a date within the Academic Year Term will be used to denote specific shorter periods of study.
Definitions of Full-time and Part-time Study

5 Full-time study is defined as a student workload of:
   a not fewer than 100 points over two semesters in one year
   or
   b not fewer than 50 points in one semester
   or
   c not fewer than 25 points in Summer School
   or
   d not fewer than 25 points in one quarter
   or
   e not fewer than 50 points in Late Year Term
   or
   f not fewer than 100 points in the Academic Year Term.

6 Part-time study is defined as a student workload of:
   a fewer than 100 points over two semesters in one year
   or
   b fewer than 50 points in one semester
   or
   c fewer than 25 points in Summer School
   or
   d fewer than 25 points in one quarter
   or
   e fewer than 50 points in Late Year Term
   or
   f fewer than 100 points in the Academic Year Term.

7 a Full-time/part-time status for doctoral students is determined separately for each month of enrolment.
b A full-time doctoral student is enrolled in 10 points each month.
c A part-time doctoral student is enrolled in 5 points each month.

Points

8 a (i) Students in a Bachelors degree, diploma or certificate are subject to the provisions of the Academic Standing regulations
   (ii) A student may enrol in:
         (a) up to 80 points in each of Semesters One and Two
         (b) up to 30 points in a Summer School
         (c) up to 45 points in each of Quarters One, Two, Three and Four
         (d) up to 60 points in Late Year Term
         (e) up to 60 points in total if a student is enrolled in both Summer School and the Late Year Term
         (f) up to 190 points in the Academic Year Term, or in the Academic Year Term in conjunction with other semesters, quarters or terms.

Notes:
1 A recommended full-time programme in Semesters One and Two would normally comprise a total of 120 points.
2 A recommended full-time programme in Quarters One, Two, Three and Four would normally comprise a total of 120 points.

b (i) For a Masters degree where another programme is included in the enrolment, a limit on points may be determined by the Dean of Faculty or delegated representative in any particular case provided that the Masters programme will always comprise more than half of the total points for which the student has enrolled.
   (ii) Students who are eligible to claim student allowances and/or an additional student loan entitlement and wish to enrol during the summer vacation period in order to work on their thesis, dissertation or research topic are required to complete a Course Alteration Form.

Exchange/Study Abroad

9 For study at another institution as part of an approved undergraduate exchange or study abroad arrangement:
   a a student is required to enrol in at least 45 points in a semester for up to two semesters of their degree
   b a student may enrol in a maximum of 75 points in a semester for up to two semesters of their degree
   c the maximum amount of credit that may be awarded under these regulations is the maximum limit specified in Regulation 7 of the Credit Regulations.
General Programme Provisions
10  a For the purposes of this section of the Regulations a representative of Senate includes a Dean, and a Deputy or Associate Dean; a Head of School and a Deputy or Associate Head of School; and a Head of Department and a Deputy or Associate Head of Department.

b Subject to the Admission Regulations and to the express provisions of any other statute or regulation, every student for a certificate, diploma or degree programme must:
   (i) be admitted to the University
   and
   (ii) follow the prescribed programme in the order prescribed or indicated in accordance with the regulations governing that programme
   and
   (iii) comply with the provisions of the Examination Regulations.

c Each student must ensure that, before confirming their enrolment, their proposed programme and enrolment:
   (i) complies with the regulations of the qualification to which they have been admitted
   and
   (ii) does not involve lecture clashes.

d Senate or its representative may in exceptional circumstances approve:
   (i) a proposed enrolment which does not in every particular satisfy the regulations for the programme for which the student is intending to enrol
   or
   (ii) a variation in the programme to avoid lecture clashes.

e Where an approval of a proposed programme as a whole is declined by a representative of Senate the student may appeal to Senate whose decision shall be final.

f A Faculty may determine whether a programme will be offered part-time or full-time for new students in any particular academic year. This information will be made available on the University’s website.

g Where electives are prescribed for a programme, Senate may at its discretion determine which of them shall be available in any semester provided that sufficient electives are available to enable students to complete their programme.

h A student who has enrolled for the second semester in a course or courses that have a first semester prerequisite or corequisite and who fails the prerequisite/corequisite course(s) may not proceed with the second semester enrolment unless a concession is granted by the relevant Dean.

i Where in the opinion of a Head of Department an insufficient number of students has enrolled in a course taught in the Department or where there are insufficient staff to teach it, that Head of Department may, with the approval of the Dean of Faculty, cancel that course not later than one week after the beginning of the semester in which it would have been taught, if the essential prerequisites for any student's enrolment are not thereby affected. A student is not to be charged a fee for any alteration to enrolment required because of the cancellation of a course.

j If a student wishes to enrol in a course that is not explicitly listed in the Structure and Content or Schedule of their programme, they may do so, provided that:
   (i) the Structure and Content or Schedule of their programme includes a provision for them to enrol in other courses
   and
   (ii) approval is given by the Dean of the faculty in which the course is offered
   and
   (iii) any prerequisite, corequisite or other conditions are met or Senate or its representative has, in approving the enrolment, waived those requirements
   or
   (iv) it is completed as a Certificate of Proficiency.

k In respect of individual courses, ‘to complete’ means to attend all required classes, submit any required assessment, sit any required examinations, and be awarded a pass grade.

Restrictions
11  a A student may not normally enrol in the same semester or quarter or Summer School or Late Year Term for more than two different programmes.

b (i) A student may not enrol in the same semester or quarter or Summer School or Late Year Term for courses the content of which is substantially similar.
(ii) A student may not enrol for any course the content of which is the same as, or substantially similar to, any course for which credit has been received, provided that in exceptional circumstances Senate or its representative may permit such enrolment for a Certificate of Proficiency.

(iii) Work submitted for credit towards the result in any course may not be resubmitted in respect of any other course.

c A student who has twice enrolled in, but has failed to be credited with a pass in, a course is not entitled to enrol again in that course other than in exceptional circumstances approved by Senate or its representative.

d A student may not be admitted to a programme for a qualification at the same level, in the same discipline, as a qualification that has already been awarded or conferred or for which the requirements have been completed, unless specific provision is made in the regulations for the relevant programme or special approval is given by Senate or its representative.

e Unless special approval is given by Senate or its representative, a student may not be admitted to a programme for a postgraduate qualification

(i) for which the student has previously failed to meet the general requirements by being unable to complete within the total allowable enrolment limit

or

(ii) the content of which is the same as, or substantially similar to, any qualification for which the student has previously failed to meet the general requirements.

Rescindment and Surrender of Qualifications, Micro-credentials and Digital Badges

12 The University Council may rescind any qualification, micro-credential or digital badge conferred or issued in error.

13 A qualification, micro-credential or digital badge may be surrendered on application to Academic Services, and records of the qualification, micro-credential or digital badge being awarded will be amended, including digital records. If the surrendered qualification is a degree or diploma then the graduate will be removed from the graduate database.

14 Rescindment or surrender of a qualification, micro-credential or digital badge is regarded as final. Re-conferment of the rescinded or surrendered qualification, micro-credential or digital badge would only be approved in exceptional circumstances.

15 Any subsequent reassignment of courses from a rescinded or surrendered qualification towards another University of Auckland qualification must comply with the Credit Regulations of the University Calendar.

Discontinuation

16 a A student who has not enrolled in a course for a programme for a period of three years shall have their admission to the programme discontinued and must apply for readmission to that programme before any further enrolment for the programme.

b (i) A student who has enrolled in a foundation or undergraduate degree programme in their first semester of study at the University of Auckland who fails to actively engage in their course(s) or programme in the first four weeks of enrolment, to the extent that they are deemed by the relevant Programme Director to be unlikely to successfully complete their courses, may have their admission to the programme discontinued and their enrolment deleted. The decision will be made by the relevant Associate Dean Academic based on a recommendation from the Programme Director.

(ii) A student discontinued in these circumstances will be eligible for a full refund of tuition fees for the course(s) deleted.

(iii) If a student who has been discontinued subsequently wishes to recommence the programme they were discontinued from they must apply for readmission to the programme. The relevant Associate Dean Academic may approve admission, decline admission or permit a student to be readmitted under specific conditions.

c A student who has twice enrolled in, but has failed to be credited with a pass in a course which is required for completion of, or continued enrolment in, a programme may have their enrolment for that programme discontinued by Senate or its representative.

d A student who has been admitted to a programme with specified conditions which must be met in order to be able to continue enrolment in that programme and who has not met those conditions may have their enrolment for that programme discontinued by Senate or its representative.

e A student who has been re-admitted to a programme after discontinuation may have specified conditions imposed which must be met in order to be able to continue enrolment in that programme. Where such conditions are not met their enrolment for that programme may be discontinued by Senate or its representative.
A student whose enrolment in a programme has been discontinued under Regulations 16c or 16d may not be re-admitted to that programme within two years of the date of discontinuation.

A student who has received ‘Did not sit’ (DNS) or ‘Did not complete’ (DNC) grades on all their courses in a semester may have all future course enrolments deleted and their programme discontinued by Senate or its representative.

A student whose enrolment has been discontinued because of failure to meet specified conditions, or as a result of receiving ‘Did not sit’ (DNS) or ‘Did not complete’ (DNC) grades in a prior semester, may apply for reconsideration of their discontinuation where they consider that medical or other exceptional circumstances should be taken into account. An application for reconsideration of discontinuation must be made to the Dean of the Faculty in writing.

Enrolment

17 a Following acceptance in a programme of their choice, students can enrol in courses online. For late enrolment see the Late Enrolment provisions in this section.

b Students whose dissertations or theses for a diploma or degree are incomplete are required to be enrolled until the dissertation or thesis is presented.

18 a A double-semester course is a full-year course, run over two consecutive semesters and assessed at the end of the second semester of enrolment. The same grade is applied across both components of the course.

b To complete, students must enrol consecutively in both the A and B component of the course. Deadlines for additions and deletions for double-semester enrolments are noted under Changes to Current Enrolment.

c Enrolments must normally be made in consecutive semesters unless a suspension of time is approved for a postgraduate research course under General Regulations.

d The A and B enrolments in a double-semester course are two components of the same course. Any action applied to one component is applied to both.

e Enrolment in the A component of a double-semester course is considered a request for enrolment in the B component for the following semester and withdrawal from or deletion of one component will be applied to the remaining component.

19 a A double-quarter course is a half-year course, run over two consecutive quarters and assessed at the end of the second quarter of enrolment. The same grade is applied across both components of the course.

b To complete, students must enrol consecutively in both the A and B component of the course. Deadlines for additions and deletions for double-quarter enrolments are noted under Changes to Current Enrolment.

c Enrolments must normally be made in consecutive quarters unless a suspension of time is approved for a postgraduate research course under General Regulations.

d The A and B enrolments in a double-quarter course are two components of the same course. Any action applied to one component is applied to both.

e Enrolment in the A component of a double-quarter course is considered a request for enrolment in the B component for the following quarter and withdrawal from or deletion of one component will be applied to the remaining component.

Members of the Security Intelligence Service

20 a No member of the Security Intelligence Service enrolled as a student at the University shall carry out any inquiries into security matters within the University premises.

b The proposed attendance of a member of the Security Intelligence Service at the University shall be discussed between the Security Intelligence Service and the Registrar before their enrolment.

c After those discussions have been held, Senate shall determine each year what special conditions (if any) as to attendance at Classes shall apply to students who are members of the Security Intelligence Service in order to maintain discipline among the students of the University by preventing any possible disturbance to the carrying out of normal teaching activities.

d In this Section 20 ‘Member of the Security Intelligence Service’ means an officer or employee engaged in the Security Intelligence Service established under the New Zealand Security Intelligence Service Act 1969.

Academic Integrity

21 a All students admitted to a University of Auckland programme, excluding the University of Auckland Certificate in Foundation Studies, are required to complete the online Academic Integrity course.
b Completion of the Academic Integrity Course is a one-time only requirement. A student who has completed the Academic Integrity Course under the regulations for a programme is not required to repeat the course when admitted to any subsequent programme.

c For undergraduate students, completion of the Academic Integrity Course is a condition of fulfilling the requirements for General Education.

d Students who, for any reason, are fully or partially exempted from the requirements for General Education must complete the online Academic Integrity Course unless they have previously done so.

e All postgraduate students who have not already completed the Academic Integrity Course are required to do so as a condition for completing their programme of study, and before any degree, diploma or certificate is conferred or awarded.

Academic English Language Requirement

22 All domestic students, and all international students applying on the basis of a New Zealand secondary school qualification or results at another New Zealand tertiary institution, who are admitted to a University of Auckland bachelor's degree qualification, with the exception of the Bachelor of Education (Teaching) Huarahi Māori specialisation, are required to meet the Academic English Language Requirement. Students admitted to the Bachelor of Education (Teaching) Huarahi Māori specialisation are required to meet the Academic Māori Language Requirement below.

Note: for the purpose of these regulations this includes the Bachelor of Advanced Science (Honours), the Bachelor of Engineering (Honours), the Bachelor of Medical Imaging (Honours) and the Bachelor of Urban Planning (Honours).

Meeting the Academic English Language Requirement

23 To meet the Academic English Language Requirement through an entry qualification on admission to a bachelor's degree a student must have:

a If applying based on NCEA results

(i) gained the University Entrance Literacy Standard and through their NCEA results achieved a minimum of 17 credits in English at Level 2 and/or 3

Note: English for Academic Purposes standards US 22749, US 22750 and US 22751 will contribute to meeting the Academic English Language Requirement

or

(ii) gained the University Entrance Literacy standard solely through Te Reo Māori and/or Te Reo Rangatira credits

or

b if applying based on University of Cambridge International Examinations (CIE, taken in New Zealand) results, gained the University Entrance Literacy Standard and achieved a minimum of a D grade in an English course at AS or A Level

or

c if applying based on International Baccalaureate (taken in New Zealand) results, gained the University Entrance Literacy Standard and be in receipt of 26 points

or

d if a graduate,

(i) completed a bachelor's degree, or a higher qualification from a New Zealand university

or

(ii) completed a bachelor's degree, or a higher qualification, from a recognised tertiary education provider in New Zealand

or

(iii) completed a qualification from an overseas tertiary institution that is the equivalent of a bachelor's degree, or higher, in New Zealand, as approved by Senate or its representative

or

e completed a University of Auckland Foundation programme.

24 A student who has been admitted to a bachelor's degree having passed at least 60 points of study at a tertiary institution, but who has not met the requirements in Regulation 23, will meet the Academic English Language Requirement if they achieve a result of good or satisfactory in DELNA screening (or an average score of 7 across all bands, and a minimum score of 7 in writing, in DELNA diagnosis if required). This result must be achieved within 12 months (three consecutive semesters) of the student's first enrolment.

25 A student who has been granted Special Admission will meet the Academic English Language Requirement if they achieve a result of good or satisfactory in DELNA screening (or an average score of 7 across all bands, and
a minimum score of 7 in writing, in DELNA diagnosis if required). This result must be achieved within 12 months (three consecutive semesters) of the student’s first enrolment.

26 Where the regulations allow a student to meet the Academic English Language Requirement through DELNA screening and/or diagnosis under Regulation 24 or 25, only the student’s first attempt within the nominated 12 month period will be accepted as the definitive result for the purposes of meeting the Academic English Language Requirement.

27 Where the Academic English Language Requirement is not met by an entry qualification, as outlined in Regulation 22, or through an acceptable result in DELNA screening and/or diagnosis, as outlined in Regulations 22, 23 and 24, the requirement must be met by the student passing an academic English language course, approved by Senate or its representative, within 12 months (three consecutive semesters) of the student’s first enrolment. A list of approved courses can be found on the University’s website.

28 Summer School is defined as a semester for the purposes of the Academic English Language Requirement.

29 If a student enrols in an academic English language course prior to completing DELNA screening and/or diagnosis, but subsequently meets the Academic English Language Requirement through DELNA, the deadlines for making changes to their current enrolment as specified in Regulation 46 of the Enrolment and Programme Regulations, Changes to Current Enrolment, of the University Calendar, will still apply.

**Failure to meet the Academic English Language Requirement**

30 A student who fails to meet the Academic English Language Requirement by the end of the 12 months may have their programme discontinued.

31 A student who has had their programme discontinued because of failure to meet the Academic English Language Requirement may apply for reconsideration of the decision where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. An application for reconsideration of the discontinuation must:
   a be made on the Reconsideration of the Academic English Language Requirement form
   and
   b include evidence of disabilities, impairments, medical or other exceptional circumstances
   and
   c reach the Pro Vice-Chancellor (Education) within 14 days of the decision to discontinue being made.

33 Where such reconsideration is given the Pro Vice-Chancellor (Education) may:
   a confirm the discontinuation
   or
   b cancel the discontinuation
   or
   c cancel the discontinuation but apply conditions to any further enrolment.

33 A student who has had their programme discontinued because of failure to meet the Academic English Language Requirement will be excluded from enrolment in all programmes at the University of Auckland for at least one year.

34 Any student who has had their programme discontinued under the Academic English Language Requirement regulations and who has had their application for reconsideration declined may, within 14 days of being advised of the decision, appeal to the Provost against the decision of the Pro Vice-Chancellor (Education).

**Academic Māori Language Requirement**

35 All students applying on the basis of a New Zealand qualification or results at another New Zealand tertiary institution who are admitted to the University of Auckland Bachelor of Education(Teaching) Huarahi Māori specialisation are required to meet the Academic Māori Language Requirement.

**Meeting the Academic Māori Language Requirement**

36 To meet the Academic Māori Language Requirement through an entry qualification on admission to Bachelor of Education(Teaching) Huarahi Māori specialisation a student must have:
   a if applying based on NCEA results, gained the University Entrance Te Reo Matatini Standard and through their NCEA results achieved a minimum of 20 credits in Te Reo Matatini and/or Te Reo Rangatira at Level 2 and/or 3
   or
   b if applying based on the National Māori Language Proficiency Examinations, gained Whakamātauria Tō Reo Māori at Level 3
   or
   c passed TFCMAORI 10F or a similar Foundation level programme
   or
d an acquired proficiency through wānanga reo, kura reo, Te Ātaarangi, kōhanga reo, marae (e.g. through working as kaikōrero and kaikaranga on marae), or employment that requires Māori language fluency (e.g. as a translator or kaiārahi reo in a school).

Readmission
37 A student whose programme has been discontinued for failure to meet the Academic English Language Requirement will be entitled to apply for admission to a programme after one year of exclusion.

Applications must:
- be made on the Reconsideration of the Academic English Language Requirement form
- state the programme for which the student intends to apply, should the application for readmission be successful
- state the reasons why the student believes they should be readmitted and include evidence, where applicable
- reach the Director, Academic Services two months prior to the listed closing date for application to the programme.

Where such application is made, the Director, Academic Services may:
- permit the student to be readmitted
- permit the student to be readmitted under specific conditions
- decline readmission.

38 A student declined readmission under these provisions may apply for reconsideration of their application for readmission. Where such reconsideration is given, the Pro Vice-Chancellor (Education) may:
- confirm the decision to decline readmission
- permit the student to be readmitted
- permit the student to be readmitted under specific conditions.

39 Applications for reconsideration of a decision to decline readmission must reach the Pro Vice-Chancellor (Education) within 14 days of the decision to decline readmission being made.

40 A student readmitted under conditions specified by the Director of Academic Services or the Pro Vice-Chancellor (Education), but who fails to satisfy those conditions, will be automatically excluded from enrolment in all programmes at the University of Auckland.

41 A student excluded under Regulation 40 is not entitled to apply for admission to a programme for at least one year following the date of their exclusion.

42 Any student declined readmission at this University under the Academic English Language Requirement regulations and who has had their application for reconsideration declined may, within 14 days of being advised of the decision, appeal to the Provost against the decision of the Pro Vice-Chancellor (Education).

Additions
43 A Student wishing to add a course to their current enrolment may do so online before the deadline for additions to be made for the session, semester, Summer School, quarter or Late Year Term of the enrolment, where the approved limit has not been reached.

Deletions
44 a A student wishing to delete a course may do so online before the deadline for deletions to be made for the session, semester, Summer School, quarter or Late Year Term of the enrolment.

b The course will be deleted from the student’s academic record.

Late Enrolment
45 a Subject to the availability of courses and/or availability of places in a course, a late enrolment may be accepted
   (i) after the day prescribed and before the deadline for additions and deletions;
   (ii) after the deadline for additions and deletions upon payment of a late enrolment fee.

b The choice of courses for students who enrol after the closing date for enrolment will be determined by Senate or its representative and will not necessarily be those proposed by the students concerned. In determining
such courses, Senate is to have regard to the prior claims upon both laboratory and classroom space of those students who have enrolled at or before the prescribed time.

Changes to Current Enrolment

Deadlines for Additions and Deletions

46 The rules that determine the deadlines for making additions and deletions under Regulations 43 and 44 are set out below. Where the deadline falls on a weekend, it will be extended to include the next working day. The actual dates will be available on the University website.

<table>

</tr>
</tbody>
</table>

Notes:

(i) Course dates need to be set so that they incorporate all the hours of learning required for a course.

(ii) Where a course has multiple classes with different dates, the course date refers to the dates for the specific class in which the student is enrolled.

(iii) All courses must be scheduled to start on a Monday, with the exception of those starting on the first day of the
Late Year Term and Summer School, or where an exception has been approved by Academic Services. The notional start date may be a different date to when teaching actually starts.

47 It is not sufficient for a student to notify an addition or deletion solely to the department or faculty. The enrolment request must be completed through Student Services Online or on a Course Alteration Form completed and submitted to the University within the deadline.

48 Where special circumstances apply, a student may apply for an exemption from additional fees from the Director, Academic Services (or delegated authority).

49 In emergency situations, the Director, Student and Academic Services (or delegated authority) may waive fees for late deletions for a defined period of time and/or for nominated group of students.

50 Deadline dates as specified in the table above are calculated from the start date of the course and class a student is enrolled in as specified in Student Services Online. The start date of a course and class may be prior to the period of teaching for the course or class.

51 Where a thesis or research portfolio enrolment commences on 1 December, the deadline for deleting the enrolment, and the accompanying Semester One and Two enrolment, or for making changes to the points value of the enrolment in Semester One, is the fourth Friday of the course.

Late Deletion

52 a Late applications to delete a course or courses will be considered by the Director, Academic Services (or delegated authority) only in exceptional circumstances (such as illness, injury or events beyond the control of the student) and upon submission by the student of appropriate evidence.

b Applications must be made on the Late Application to Delete a Course form and must be received by the last day of lectures of the semester, quarter, Summer School, or Late Year Term for the course. For FOUNDST courses applications must be made on the Late Application to Delete a Course form and must be received by the last day of the course in which the student is enrolled.

c Following the decision on an application for late deletion of a course, the student may apply for reconsideration of that decision. An application for reconsideration must be made:

(i) in writing to the Director, Academic Services no later than four weeks after the student is notified of the decision

and

(ii) must be accompanied by further evidence in support of the application.

d Where a student has been permitted by the Director, Academic Services to delete a course after the prescribed date under this regulation, any refund or credit of tuition fees will be granted in accordance with the Tuition Fees Refund or Credit Guidelines given in Regulation 55.

Substitutions

53 a Where a department directs a student to substitute one course for another in the same subject, the faculty administration staff will process the substitution on the student’s behalf and notify the student when the substitution has been actioned.

b Courses may be substituted up until three weeks before the end of lectures for the semester in which the course is taught, or two weeks before the end of lectures for the quarter in which the course is taught.

c A course may only be substituted with a course which is of the same duration, same points value and taught in the same semester or quarter.

Note: Where students are directed to take a more/less advanced Second Semester course in place of a First Semester course, or a later quarter course in place of an earlier quarter course, they will be permitted, if necessary, to make a late academic deletion. The deletion will be processed by the department on behalf of the student.

d The substituted course will be removed from the student’s academic record.

e There will be no adjustment to the student’s tuition fees. If there is a variation between charges payable in respect of the substitute and the substituted course, the student will be required to pay only the difference in those charges.

f There will be no refund or credit of any fees or charges for the substituted course.

Withdrawals

54 a Any student wishing to cease attendance in a programme or course after the period specified for deletion may
apply to do so by obtaining the approval of the relevant Head of Department and the Dean of the Faculty for that programme. Application must be made on the Course Alteration Form.

**Deadlines for Withdrawals**

b The last dates for withdrawals are set out below:

<table>
<thead>
<tr>
<th>For enrolment in</th>

</tbody>
</table>

c The course will remain on the academic record and show as a withdrawal.

d For the purposes of calculating a University Grade Point Average a withdrawal will be counted as a failure.

e There will be no refund or credit of any fees or charges for the withdrawn course. All fees will remain owing.

f For calculation of Requirements for Maintaining Good Academic Standing (under Regulation 56 of these regulations) withdrawal will be counted as a failure.

g For selection into a limited-entry course, a withdrawal is counted as a failure.

h Where withdrawal from a course will not reduce the student’s enrolment to less than 100 points over the academic year, the withdrawal from that course will not affect selection into limited-entry courses.

i For student allowances withdrawal from a course will count as a failure and automatically reduce the number of points in which the student is deemed to be enrolled.

j If a student who ceases to attend lectures fails to complete the Course Alteration Form, the course(s) will be recorded as ‘Did not sit’ (DNS) and will count as a failure for all purposes.

k Applications to withdraw submitted after the dates in Regulation 53b and before the end of the semester,
quarter, Summer School or Late Year Term will be considered by the Director, Academic Services (or delegated authority) only in exceptional circumstances (such as illness, injury or events beyond the control of the student) and upon submission of the appropriate evidence.

l Students receiving USA Government Federal Student Aid Title IV funds for payment of their study at the University of Auckland are subject to special withdrawal procedures. For further information students should contact the Applications and Admissions Office.

Refund or Credit of Fees
55 a Where a student applies, before the dates specified in Regulation 46, to delete all courses of the current enrolment, a full refund or credit of all tuition fees and the Student Services Fee will be made.

Note: A student who has deleted all courses is no longer deemed to be enrolled.

b Where a student applies, before the dates specified in Regulation 46, to delete one or more but not all courses of the current enrolment, a refund or credit of the fees for the course(s) deleted will be made.

c Where a student has been permitted by the Director, Academic Services, under Regulation 51, to delete a course after the prescribed date because of illness, injury or exceptional circumstances beyond the student's control, a refund or credit of tuition fees will be granted in accordance with the Tuition Fees Refund or Credit Guidelines below, provided that Senate may in its discretion increase this percentage, but there will be no refund of the Student Services Fee.

d All course deletions, under Regulations 55a, 55b and 55c above, whereby the fees have been paid and therefore application for a refund may be made, will incur a refund processing fee which shall be deducted from the refund of the fees.

Notes: Tuition Fees Refund or Credit Guidelines:
1 For single-semester courses which are deleted:
   (i) before the commencement of the mid-semester break for that semester: 50 percent
   (ii) thereafter no refund or credit will be granted.

2 For double-semester courses which are deleted:
   (i) before the commencement of the mid-semester break for the First Semester: 75 percent
   (ii) before the end of the First Semester: 50 percent
   (iii) before the commencement of the mid-semester break for the Second Semester: 25 percent
   (iv) thereafter no refund or credit will be granted.

3 For Summer School courses which are deleted:
   (i) before the end of the second week from the start of Summer School: 50 percent
   (ii) thereafter no refund or credit will be granted.

4 For quarter courses which are deleted:
   (i) before the end of the fifth week of the quarter: 50 percent
   (ii) thereafter no refund or credit will be granted.

5 For double-quarter courses which are deleted:
   (i) before the end of the first quarter: 50 percent
   (ii) thereafter no refund or credit will be granted.

6 For Late Year Term courses which are deleted:
   (i) before the end of the fifth week of the Late Year Term: 50 percent
   (ii) thereafter no refund or credit will be granted.

7 For Certificate in Foundation Studies (CTFOUND) and Foundation Studies Certificate (FOUNDST) courses which are deleted:
   (i) before the end of 50% of the course: 50 percent
   (ii) thereafter no refund or credit will be granted.

8 For courses with non-standard dates:
   (i) before the end of 50% of the course: 50 percent
   (ii) thereafter no refund or credit will be granted.

9 For courses that start on dates other than the official start date of a semester, quarter, Summer School or term, the deadline as stated in Guidelines 1–8 above will be calculated from the start date of the course as specified in Student Services Online. The start date of the course may be prior to the period of teaching for the course.

e Students receiving USA Government Federal Student Aid Title IV funds for payment of their study at the University of Auckland are subject to special refund procedures. For further information students should contact the Applications and Admissions Office.
The University may delay processing a refund or credit until after the last dates for additions and deletions under Regulation 46 have expired.

Where a student has provided all required documentation in support of their visa application and Immigration New Zealand has declined to grant a student visa then the University will process a full refund of any funds received, without deduction of a refund or administration fee.

**Academic Standing**

56 Regulations concerning Academic Standing apply to all undergraduate qualifications at the University of Auckland.

   a The application of these regulations includes students intending to transfer to the University of Auckland from any other New Zealand university and those students applying for admission having previously studied at another tertiary institution.

   b Summer School is classified as a semester for the purposes of Academic Standing.

   c Academic Standing statuses are Good, At Academic Risk, Academic Restriction and Enrolment Terminated.

**Deferred Results**

57 Assessment of a student’s Academic Standing will be undertaken when results for at least 50 percent of points enrolled are available and where the results for the remaining points would not affect the overall outcome. Where results for 50 percent of points or more are not available assessment of a student’s Academic Standing may be deferred until sufficient results are available and an assessment can be made.

A student whose Academic Standing has not been able to be assessed for one or more semesters may have their academic status amended by more than one status at the discretion of Senate or its representative.

**Requirements for Maintaining Good Academic Standing**

58 A student is required to pass at least 50 percent of points enrolled in any one semester, including Summer School, to maintain Good Academic Standing.

**At Academic Risk Academic Standing**

59 A student who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to At Academic Risk.

   a A student with a status of At Academic Risk may be required to participate in such academic support programmes as deemed appropriate by the relevant Faculty.

   b A student with a status of At Academic Risk who is enrolled in more than 60 points in the following semester of study (or 15 points in Summer School) may be required by the department to delete the excess course(s).

   c A student with a status of At Academic Risk who meets the requirements for Good Academic Standing will, in the next semester of study, have their record amended to that status.

**Academic Restriction Academic Standing**

60 A student with a status of At Academic Risk who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to Academic Restriction.

   a A student with a status of Academic Restriction will be restricted to:

      (i) not more than 45 points of enrolment in that semester

      (ii) not more than 25 points in Summer School.

   b A student with a status of Academic Restriction will be required to participate in such academic support programmes as deemed appropriate by the relevant Faculty.

   c The record of a student with a status of Academic Restriction will be referred to the relevant Faculty for review of the restriction which may be varied if appropriate.

   d A student with a status of Academic Restriction who meets the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to At Academic Risk. Students whose enrolment is restricted under these provisions may apply to Senate for reconsideration of the restriction where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. Where such reconsideration is given, Senate or its representative (the Dean of the Faculty concerned) may:

      (i) confirm the restriction

      or

      (ii) vary the restriction.

   e Applications to Senate must:

      (i) be made on the Reconsideration of Academic Standing form

      and
(ii) if special consideration is sought for medical or other exceptional reasons, include evidence
and
(iii) reach the Dean of the Faculty concerned before the first day of the semester or Summer School.

61 Any student restricted under the Academic Standing regulations may within 14 days appeal to the Provost against the decision of Senate.

Enrolment Terminated

62 A student with a status of Academic Restriction who fails to meet the requirements for Good Academic Standing will, in the next semester of study, have their academic standing amended to Enrolment Terminated.

63 A student with a status of Enrolment Terminated will be excluded from all programmes at the University of Auckland.

64 A student with a status of Enrolment Terminated will be entitled to reapply for admission to a programme after one year of exclusion. Where such application is made, Senate or its representative (the Dean of the Faculty concerned) may:
   a decline readmission
   or
   b permit a student to be readmitted under specific conditions.

65 A student declined readmission under these provisions may apply to Senate for reconsideration of their exclusion where they consider that disabilities, impairments, medical or other exceptional circumstances should be taken into account. Where such reconsideration is given, Senate or its representative (the Dean of the Faculty concerned) may:
   a confirm the exclusion
   or
   b permit a student to enrol under specific conditions.

66 A student permitted to re-enrol under conditions specified by Senate or its representative, but who fails to satisfy those conditions, will be automatically excluded from enrolment at the University of Auckland.

67 A student excluded under Regulation 66 is not entitled to apply for admission to a programme for at least one year.

68 Applications to Senate must:
   a be made on the Reconsideration of Academic Standing form
   and
   b if special consideration is sought for medical or other exceptional reasons, include evidence
   and
   c state the programme for which the student intends to apply, should the application for readmission be successful
   and
   d reach the Dean of the Faculty concerned before the first day of the semester or Summer School.

69 Any student declined readmission at this University under the Academic Standing regulations may within 14 days appeal to the Council against the decision of Senate.

Provost’s Special Powers

70 a The Provost may give such direction, or make such provision as they think fit, for the relief of exceptional hardship including but not restricted to:
   (i) enforcement of requirements for admission to the University or to a programme, alteration or amendment to statutes or regulations, change in programme or examination requirements
   or
   (ii) occasions where official advice has been given in writing and acted upon, and it is later found that the courses the student has taken do not accord with the programme regulations and that hardship would be caused if the student were to be compelled to comply with the full requirements of the regulations.

b A student may appeal against any decision of the Provost under this Regulation to the Vice-Chancellor by giving notice in writing to the Registrar within 14 days of being notified of the decision. The Vice-Chancellor shall have the power to make such provision as it may think fit. The decision of the Vice-Chancellor on any appeal under this Regulation shall be final.
Examination Regulations

These regulations should be read in conjunction with the following examination information which contains more detail and specific instructions:

For staff: The Assessment (Coursework, Tests and Examinations) Policy and Procedures and the Examination of Sub-doctoral Postgraduate Research Components of 30 Points and Above Procedures

For students: The Examination instructions and regulations page on the University website.

Requirements
1. In order to be credited with a course, a student needs to have:
   a. enrolled in accordance with the Enrolment and Programme Regulations and any applicable doctoral regulations
   and
   b. completed to the satisfaction of the examiners such oral, practical, written or other tests or assignments as have been prescribed for completion during the course
   and
   c. completed to the satisfaction of the examiners and in accordance with these regulations any prescribed examination
   and
   d. made any payment due by that student to the University.

   Note: Students are to be informed by each Course Director of the specific requirements for courses and the extent to which coursework and test results will be taken into consideration in determining final results. In some cases candidates may not be permitted to sit the examination, as a result of unsatisfactory or incomplete coursework.

Language of Assessment
2. Except in courses where students are required to demonstrate their knowledge and understanding of languages other than English or Māori, or where a student has made provision to complete an assessment task in Te Reo Māori under the Assessing Te Reo Māori in Coursework and Examination Procedures, all assessment tasks must be completed in English.

Work Other than Examinations
3. a. It is the responsibility of each student to ascertain the nature of the requirements for each course from the Course Director concerned.
   
   b. Provided that students have met deadlines set for this work, examiners should normally have determined and returned interim or definitive grades for this work before sitting the examination, if one is prescribed.

Direction of Examinations
4. a. Candidates are subject to these regulations and to the relevant Examination Instructions.
   
   b. Examinations will comprise such written, oral and practical examinations as the examiners may determine. This may include examinations that are to be completed in a digital mode.
   
   c. Where degree regulations or prescriptions permit, examiners may release to the candidates the whole or part of the examination in advance of the sitting of the examination.

Time, Place and Mode of Examinations
5. a. Students must sit examinations at times, at places, and in modes which shall be determined by the University.
   
   (i) ‘Modes’ refers to the way the examination is carried out and includes paper-based or digital (computer-based or online) delivery. Examinations in digital modes may be completed as invigilated or non-invigilated examinations.
   
   (ii) Where permitted by Government requirements and University COVID-19 rules, Associate Deans (Learning and Teaching) may approve the on-campus invigilated delivery of clinical, practical or performance examinations, where these examinations meet criteria determined by the Provost.
   
   (iii) Where permitted by Government requirements and University COVID-19 rules the Director, Learning and Teaching may approve the use of invigilation in individual examinations (other than for those approved in (ii)), where these examinations meet criteria determined by the Provost.
   
   b. The times and places of examinations for each academic term are set out in the examinations timetable.
   
   c. A student may not be examined in any course or part of a course at any time, or (except in cases where duly authorised online, off-campus examinations are being conducted) at a place other than that set down for them in the timetable, except when, with the approval of the Examination Services Manager, a different time or place or an online examination may be approved because of special circumstances, provided that there is the payment of the relevant extra fee prescribed in the Fees Statute.
Special Examination Conditions
6 A student who is permanently or temporarily impaired in a manner which affects their ability to undertake examinations under the prescribed examination conditions may, upon production of the appropriate evidence, and subject to the approval of an approved delegated authority, be examined under conditions which take account of the particular impairment.

Materials Permitted in the Examination
7 a In compliance with the relevant Examination Instructions, and unless directed by the examiner, a candidate must not bring to an examination location:
   (i) any written or printed matter or any blank paper
   (ii) any electronic device and/or mobile technology, or watches of any kind.
   Note: Medically prescribed devices are permitted.

b Where specified material or calculators are permitted, examiners are responsible for ensuring that material or calculators brought into the examination room are checked prior to the start of the examination.

c If a non-permitted electronic device, and/or item of mobile technology, and/or watch of any kind is identified in the possession of a student:
   (i) during an on-campus, invigilated examination - the device will be removed by room supervisors and a fine of $100 will apply.
   (ii) by invigilation during an online examination - a report on the student’s possession and/or use of the device will be reviewed subsequent to the examination and may result in a warning as per Regulation 9b.
   Note: Where questions of academic integrity are raised any invigilation report may also inform academic misconduct proceedings.

d Audible alarms may not be active on any devices permitted in an on-campus examination location. Any device that emits an audible sound signal or alarm during an examination will be removed for the duration of the examination and a fine of $150 will apply.

e Candidates must show their student identity cards or complete any other identity check as required for verification purposes before their examination commences.

f Students undertaking:
   (i) invigilated examinations on campus must display their student identity cards on their desk for the duration of the examination. Where a student does not present a valid student identity card they will be required to remain under examination supervision until they have been verified by the Examinations Office. An administrative fee of $25 will be charged.
   (ii) digital or online examinations must undertake identity verification as instructed, which may include the presentation of their student identity card.

Conduct
8 From the commencement of an examination until final results are received, a student must not communicate in any way with an examiner in regard to an examination, except through Examination Services.

9 a Any complaint that a student has committed an academic offence in an examination must be dealt with under the provisions of the Student Academic Conduct Statute.

b Any complaint that a student has committed an offence not specified in Regulation 7 relating to unauthorised equipment or materials, timekeeping or other minor matter in which questions of academic integrity are not at stake will receive a warning letter from the Manager, Examinations Services. If a student receives two such warning letters they will be fined $150.

Non-payment of Examination Fines and Charges
10 a The Examinations Services Manager has the delegated authority to impose the examination fines and charges set out in these Regulations.

b Where a student does not pay a fine or charge imposed under these Regulations then, until those fines or charges are paid in full and without prejudice to the right to recover the unpaid fines or charges at law, the Manager, Examinations Services Office may authorise:
   (i) withholding the formal notification of the results of any examination of the student
   (ii) declining to re-enrol the student
   (iii) declining to release the student’s academic record
   (iv) withholding any degree or diploma certificate from that student
   (v) restricting that student’s access to University services
   (vi) charging a late payment fee not exceeding $50
(vii) imposing additional charges to recover legal and collection costs where a third party is engaged to recover those fees and charges.

Missed Examinations
11 A student who has missed an examination by reporting for it at the wrong time cannot sit that examination at another time.

Aegrotat and Compassionate Consideration
12 a An application for Aegrotat or Compassionate Consideration may be made by students who have been prevented from being present at an examination or who consider that their preparation for or performance in an examination has been seriously impaired by temporary illness or injury or exceptional circumstances beyond their control, if the following conditions are satisfied:
   (i) They must be enrolled for the course,
   (ii) The application form must be submitted to the University Health and Counselling Service within one week of the date that the examination affected took place, or if more than one examination has been affected, then within one week of the last of those examinations. A late application may be accepted if medical or other evidence is provided confirming that exceptional circumstances beyond the student’s control prevented them from submitting the application by the due date.
   (iii) The medical certificate or statement of exceptional circumstances on the application form must be completed in accordance with Regulations 12b and 12c below.

b In the case of illness or injury, a registered medical practitioner must:
   (i) State when the practitioner saw the student. This should be on the day of the examination, or if this is not possible, on the day before or the day after. For impaired preparation, the medical certificate should cover a period within the fortnight immediately preceding the examination, unless special circumstances apply.
   (ii) Give sufficient detail of the illness or injury to show clearly that the student was not responsible for the illness or injury.
   (iii) State whether, in the practitioner’s opinion, the illness or injury of the student at the time either prevented the student from taking the examination, or was likely to have seriously impaired the student’s preparation for it or performance in it.

c In the case of exceptional circumstances beyond the student’s control, the statement of circumstances must be supported by suitable evidence.

d The application will be considered by Senate’s representative only if the medical or counselling adviser to the University reviews the evidence submitted and confirms that:
   (i) the student was not responsible for the illness or injury or exceptional circumstances and
   (ii) because of the illness or injury or exceptional circumstances the student was either prevented from being present at the examination or the student’s preparation for or performance in the examination was likely to have been seriously impaired.

e The student may be granted an aegrotat or compassionate grade by Senate’s representative if the above conditions are satisfied and there is a recommendation for an aegrotat or compassionate grade from the appropriate Academic Head or Dean.

f To make a recommendation for an aegrotat or compassionate grade, the Academic Head or Dean must certify that:
   (i) the student’s overall coursework and tests results in the course was at minimum at a C– standard, or where relevant the minimum standard for a class of Honours, Merit or Distinction and
   (ii) for a student who sat the examination, the mark attained in the examination was lower than expected taking into account the student’s coursework and test results in that course and
   (iii) the student is in their opinion clearly worthy of a pass in the course or, where relevant, to be awarded a class of Honours, Merit or Distinction.

g If a recommendation is required for a course with no coursework, the Academic Head or Dean may take into account the coursework, tests and examination performance in any other courses for the same degree, where this is available to them.

h When considering the application, Senate’s representative may take into account the student’s work in other courses, or approve an aegrotat or compassionate grade other than that recommended, as it sees fit.

i The above is subject to the restrictions that:
(i) No more than one third of the total points value credited to a degree or diploma may be awarded with an aegrotat or compassionate grade granted under this Regulation.

(ii) A student for a Masters degree, Bachelors Honours Postgraduate degree or a Postgraduate Diploma in which Honours, Merit or Distinction is available may:
   (a) instead of applying for aegrotat or compassionate consideration, apply to re-enrol in all of the courses affected
   or
   (b) apply for aegrotat or compassionate consideration in courses worth up to the points limit specified above, and to re-enrol in any other affected courses in order to retain eligibility for Honours, Merit or Distinction.

j A student who applied for Aegrotat or Compassionate Consideration in any course may, in exceptional circumstances and on a recommendation from the Academic Head, be granted permission by Senate’s representative to take another examination, either written or oral, in that course.

k The provisions of Regulation 12 apply to:
   (i) Any final written examination presented for a course for a certificate, diploma or degree other than a doctoral degree.
   (ii) Any final practical examination, other than a clinical or performance examination, presented for a course for a certificate, diploma or degree other than a doctoral degree.

l The provisions of Regulation 12 apply (with necessary changes) to:
   (i) The final submission in each year of work for the practical subjects for the Degree of Bachelor of Fine Arts, Bachelor of Fine Arts (Honours), Postgraduate Diploma in Fine Arts or the Degree of Master of Fine Arts.
   (ii) The final submission in each semester of studio work for the Degree of Bachelor of Architectural Studies as if such final submission were an examination and as if the date upon which such final submission was due were the date of examination.

Note: The fees for Aegrotat and Compassionate Consideration are listed under the Fees Statute.

Reconsideration

13 a Following the decision of Senate’s representative on an application for Aegrotat or Compassionate Consideration, the student may apply to the Director, Academic Services, for reconsideration of that decision.

b An application for reconsideration must be made:
   (i) in writing to the Director, Academic Services, no later than four weeks after the student is notified of the decision of Senate’s representative
   and
   (ii) must be accompanied by further evidence in support of the application for aegrotat or compassionate consideration.

c Where the application seeks reconsideration of the effect of any medical evidence previously supplied or consideration of any additional medical evidence or both then:
   (i) If the medical or counselling adviser who reviewed the medical evidence previously submitted did not confirm that the requirements of Regulation 12d(i) and 12d(ii) had both been met then all the medical evidence shall be referred to a medically qualified independent person (“Referee”) to determine that question. The Referee’s decision will be final and conclusive.
   (ii) If the requirements of Regulation 12d(i) and 12d(ii) have been found (either on the first application or by a Referee on reconsideration):
      (a) not to have been met, then the application shall be declined;
      (b) to have been met, then Senate’s representative shall consider the other factors to be taken into account in terms of Regulation 13 and determine whether or not to grant the application and that decision shall be final and conclusive.

Tests

14 Where a percentage of the marks awarded for a course is allocated to a test, and a student is prevented by temporary illness or injury or exceptional circumstances beyond their control from sitting the test, or consider that their preparation for or performance in the test has been seriously impaired by any of those causes, then, if the conditions in Regulations 12c to 12f (with the necessary changes) are complied with, the student may on application and at the discretion of the Academic Head:
   a be permitted to sit another written test
   or
   b receive a mark for the test based on the average of marks awarded for other coursework
   or
c take a viva voce examination
or
d have the percentage of marks allocated to the test reallocated to the examination.

Results Determination
15 In determining a student’s result the examiners:
a may take into consideration the work done by the student during the course
b are to give due weight to reports on practical work done by the student wherever these are required
c are to include marks obtained by the student where a percentage of marks for on-course assessment has been allotted.

Grades and Marks
16 Pass Marks
A pass mark is 50 percent or over.

17 Pass Grades
There are 11 pass grades:

19 Conceded Passes
a Conceded passes apply only to courses taken towards:
   (i) a Bachelors degree
   or
   (ii) an undergraduate diploma comprising not fewer than 240 points
   or
   (iii) Parts I, II or III of a four year Bachelors honours degree, or the respective Part in a conjoint degree.

b Courses taken towards Bachelors honours postgraduate degrees are not eligible for conceded passes.

c A student may, at the discretion of the relevant faculty, be considered for a conceded pass. No application by the student is required.

d A conceded pass, if granted, may not be declined by the student.

e A conceded pass will apply only to the programme for which it is awarded and may not be reassigned or credited to any other programme.

f A student granted a conceded pass in a course who wishes to take that course again may do so only for Certificate of Proficiency.
g A conceded pass will not be awarded for a course to meet the requirements of General Education.

h A conceded pass will not be given for a course failed at another university.

i For the degrees of:
  Bachelor of Arts – BA
  Bachelor of Commerce – BCom
  Bachelor of Dance Studies – BDanceSt
  Bachelor of Education (Teaching) – BEd(Tchg)
  Bachelor of Global Studies – BGlobalSt
  Bachelor of Health Sciences – BHSc
  Bachelor of Human Services – BHumServ
  Bachelor of Music – BMus
  Bachelor of Physical Education – BPE
  Bachelor of Property – BProp
  Bachelor of Science – BSc
  Bachelor of Social Work – BSW
  Bachelor of Sport, Health and Education – BSportHPE
  Bachelor of Theology – BTheol
Conceded passes will be awarded by a meeting of the Examiners for the faculty concerned, provided that the Dean of the faculty has the power to award where such power is authorised by the Examiners, in accordance with the following provisions.

  One course to a maximum value of 30 points may be conceded provided:
    (i) the concession will allow the student to complete the degree
    (ii) the course conceded is not a course counting towards the student’s major or core requirements
    (iii) the student obtained a grade of D+ in the course
    (iv) the result was achieved in the last two semesters of enrolment, one of which may be a Summer School.

j For the degrees of:
  Bachelor of Architectural Studies – BAS
  Bachelor of Laws – LLB
Conceded passes will be awarded by a meeting of the Examiners for the faculty concerned in accordance with the following provisions:

  (i) one course to a maximum value of 20 points may be conceded
  (ii) the concession will allow the student to complete the degree
  (iii) for the LLB, the course is not one of the core law subjects prescribed by the New Zealand Council of Legal Education
  (iv) the student obtained a grade of D+ in the course
  (v) the result was achieved in the last two academic terms of enrolment, one of which may be Summer School.

k For the degrees of:
  Bachelor of Engineering – BE
  Bachelor of Engineering (Honours) – BE(Hons)
  Bachelor of Fine Arts – BFA
  Bachelor of Fine Arts (Honours) – BFA(Hons)
  Bachelor of Optometry – BOptom
  Bachelor of Urban Planning – B UrbPlan
  Bachelor of Urban Planning (Honours) – B UrbPlan(Hons)
Conceded passes will be awarded by a meeting of the Examiners for the faculty concerned in accordance with the following provisions:

  (i) that by the award of a conceded pass the student will complete a Part
  and
  (ii) one course to a maximum of 20 points per Part and a maximum of 20 points in any one academic year may be conceded
  and
  (iii) that to be eligible for the award of a conceded pass in any course the student must have achieved a grade of D+ and an overall Grade Point Average of 2.5 or better in that year
  and
  (iv) that no more than two courses be conceded, to a maximum of 30 points, in any one degree.

l For the degree of Bachelor of Advanced Science (Honours) – B AdvSci(Hons):
Conceded passes will be awarded by a meeting of the Examiners for the faculty, provided that the Dean of the faculty has the power to award where such power is authorised by the Examiners, in accordance with the
following provisions:
One course to a maximum value of 30 points may be conceded provided:
(i) the concession will allow the student to complete the degree
(ii) the course conceded is not a course counting towards the student’s major or core requirements
(iii) the course conceded is not at 700 level
(iv) the student obtained a grade of D+ in the course
(v) the result was achieved in the last two semesters of enrolment, one of which may be a Summer School.

m For the degree of Bachelor of Education (Teaching English to Speakers of Other Languages) – BEd(TESOL):
Conceded passes will be awarded by a meeting of the Committee of BEd(TESOL) Examiners in accordance with
the following provisions:
(i) that by award of a conceded pass the student will complete that Part
and
(ii) a maximum of 15 points in any one Part be conceded
and
(iii) that to be eligible for the award of a conceded pass the student must have achieved a grade of D+ in
that course (or courses) and an overall Grade Point Average of 2.5 or better in that Part.

n For the degree of Bachelor of Nursing – BNurs:
Conceded passes will be awarded by a meeting of the Committee of BNurs Examiners in accordance with the
following provisions:
(i) that by award of a conceded pass the student will complete that course
and
(ii) a maximum of 30 points in the Part be conceded
and
(iii) that to be eligible for the award of a conceded pass the student must have achieved a grade of D+ in
that course (or courses) and an overall Grade Point Average of 2.5 or better in the Part.

o Conjoint Degrees
For all conjoint degrees consideration for the award of conceded passes will be in accordance with the provisions for the particular degree as set out in (i), (j), (k) and (n) of this section.

Deferred Results
20 a Bachelor of Education (Teaching English to Speakers of Other Languages) – BEd(TESOL)
Where a student has a fail grade of D+ in a course (or courses) and the Examiners deem that the failure(s) may be redeemable by satisfactory completion of additional work, then a pass in that Part may be awarded under the following provisions:
(i) that the award of a grade for that course (or courses) be deferred until a prescribed course of additional study and/or examination be completed to the satisfaction of the Examiners
and
(ii) deferred results be limited to a maximum of 15 points in any Part
and
(iii) that to be eligible for a deferred result a student must achieve an overall Grade Point Average of 2.5 or better
and
(iv) that the reassessed grade in that course (or courses) be no greater than a grade of C+.

b Bachelor of Medical Imaging (Honours) – BMedImag(Hons)
Where a student has not achieved a pass in a particular component or components of a Part the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners.
If in the opinion of the Examiners for BMedImag(Hons) a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

c Bachelor of Medicine and Bachelor of Surgery
MBChB Parts II, III, IV and V
Where a student has not achieved a pass in a particular component or components of a course the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the examiners.
If in the opinion of the Examiners for MBChB a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that Part.

MBChB Part VI
Where a student has not achieved a pass in a particular component or components of this Part, the Examiners may withhold the result and require a further period of assignment to a department. This will involve
postponement of qualification.
If in the opinion of the Board of MBChB Examiners a particular weakness in a component or components is such that it cannot be, or has not been, addressed by this additional work, the student will fail the Part.

d Bachelor of Nursing
BNurs Part I
Where a student has a fail grade of D or D+ in a course (or courses) and the Examiners deem that the failure(s) may be redeemable by satisfactory completion of additional work then a pass in that Part may be awarded under the following provisions:
(i) that the award of a grade for that course (or courses) be deferred until a prescribed course of additional study and/or examination be completed to the satisfaction of the Examiners
and
(ii) deferred results be limited to a maximum of 30 points in any Part
and
(iii) that to be eligible for a deferred result a student must achieve an overall Grade Point Average of 2.5 or better
and
(iv) that the reassessed grade in that course (or courses) be no greater than a grade of C+.
BNurs Parts II, III
Where unsatisfactory performance occurs in the clinical practice component of courses in Part II and Part III of the programme, the result of the course will be deferred. In these circumstances, the student will be required to complete additional work to the satisfaction of the examiners.

e Bachelor of Optometry – BOptom
Where a student has not achieved a pass in a particular component or components of a course the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners.
If in the opinion of the Examiners for BOptom a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

f Bachelor of Pharmacy – BPharm
Where a student has not achieved a pass in a particular component or components of a course the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners.
If in the opinion of the Examiners for BPharm a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

g Bachelor of Physical Education – BPE
Where a student has been unable to complete the practical component of a course due to illness, injury or circumstances beyond their control, the result of the course will be deferred. In these circumstances the student will be required to complete assessment of the practical component as soon as practicably possible at a time deemed appropriate by the Head of Programme.

h Bachelor of Social Work – BSW
Where performance criteria have not been met in the skills based components of Stage II, III, and IV courses in the programme, the result of the course or courses will be deferred. In these circumstances, the student will be required to complete additional work to the satisfaction of the examiners. The work will be re-examined as soon as possible or in the following semester.

i Bachelor of Sport, Health and Physical Education – BSportHPE
Where a student has been unable to complete the practical component of a course due to illness, injury or circumstances beyond their control, the result of the course will be deferred. In these circumstances the student will be required to complete assessment of the practical component as soon as practicably possible at a time deemed appropriate by the Programme Leader.

j Doctor of Clinical Psychology – DClinPsy
Where conditions are imposed on candidature at the conclusion of enrolment in PSYCH 800 in accordance with Regulations 29(a) and 30 of the DClinPsy regulations, submission of the PSYCH 800 result will be deferred for the period prescribed for satisfaction of the condition(s). Where the examiner(s) of the relevant component of PSYCH 800 determine(s) that a particular weakness is such that it cannot be addressed by the setting of additional work or revisions and/or examination, the result will not be deferred and the candidate will have failed to successfully complete PSYCH 800. Where the result for PSYCH 800 is deferred but the candidate fails to satisfy the relevant condition(s) by the required date, the candidate will have failed to successfully complete PSYCH 800.
k **Doctor of Education – EdD**
Where conditions are imposed on candidature in accordance with Regulations 30(a) and 31 of the EdD regulations, the submission of the relevant course result will be deferred for the period prescribed for satisfaction of the relevant condition(s). Where a candidate has not demonstrated, to the satisfaction of the examiner in at least one component of the assessment for the relevant course, the capacity for doctoral level work, the result will not be deferred and the candidate will have failed to successfully complete the coursework component of the programme. Where the result is deferred but the candidate fails to satisfy the relevant condition(s) by the required date, the candidate will have failed to successfully complete the coursework component of the programme.

l **Doctor of Health Sciences – DHSc**
Where conditions are imposed on candidature in accordance with Regulations 29(a) and 30 of the DHSc regulations, the submission of the relevant course result will be deferred for the period prescribed for satisfaction of the relevant condition(s). Where a candidate has not demonstrated, to the satisfaction of the examiner in at least one component of the assessment for the relevant course, the capacity for doctoral level work, the result will not be deferred and the candidate will have failed to successfully complete the coursework component of the programme. Where the relevant course result is deferred but the candidate fails to satisfy the relevant condition(s) by the required date, the candidate will have failed to successfully complete the coursework component of the programme.

m **Graduate Diploma in Teaching (Early Childhood Education), Graduate Diploma in Teaching (Primary), Graduate Diploma in Teaching (Secondary)**
Where a student, at the completion of their programme, receives a grade of D+ for one non-practicum course the result of this course will be deferred. In this circumstance, the student’s overall progress will be reviewed by the Programme Director and if it is deemed to be of a satisfactory standard then the student may be given an opportunity to complete additional work within six weeks of notification.

n **Master of Nursing Science – MNSc**
Where a student has not achieved a pass in a particular component or components of a course the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

o **Master of Social Work (Professional) – MSW(Prof)**
Where performance criteria have not been met in the skills based components of courses in Parts I and II of the programme, the result of the course will be deferred. In these circumstances, the student will be required to complete additional work to the satisfaction of the examiners. The work will be re-examined as soon as possible or in the following semester.

p **Postgraduate Certificate in Health Sciences in Mammography**
Where a student has not achieved a pass in a particular component or components of CLINIMAG 708, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

q **Postgraduate Diploma in Health Psychology – PGDipHealthPsych**
Where a student has not achieved a pass in a particular component or components of HLTHPSYC 745, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for PGDipHealthPsych a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

r **Postgraduate Diploma in Health Sciences in Magnetic Resonance Imaging**
Where a student has not achieved a pass in a particular component or components of CLINIMAG 712, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGDipHSc in Magnetic Resonance Imaging a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

s **Postgraduate Diploma in Health Sciences in Nuclear Medicine**
Where a student has not achieved a pass in a particular component or components of CLINIMAG 716, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGDipHSc in Nuclear Medicine a particular weakness in a component or components is such that it cannot be addressed by the setting of
additional work and/or examination, the student will fail that course.

t Postgraduate Diploma in Health Sciences in Ultrasound
Where a student has not achieved a pass in a particular component or components of CLINIMAG 715, the Examiners may withhold the result pending the completion of specified additional work and/or examination to the satisfaction of the Examiners. If in the opinion of the Examiners for the PGDipHSc in Ultrasound a particular weakness in a component or components is such that it cannot be addressed by the setting of additional work and/or examination, the student will fail that course.

Recount of Marks
21 By making application not later than seven weeks after the last day of the examination period, any student sitting an examination other than oral or practical may have the marks awarded for their examination script recounted. A recount of marks covers a careful rechecking of the marks recorded by the examiner and ensures that no answer, or any part of an answer, submitted by a student has been overlooked. Recounts should always include a careful checking of the accuracy and inclusion of coursework marks.

Note: For the prescribed fee for an Application for Recount of Marks see the Fees Schedule.

Availability of Scripts
22 By making application during the three months after the end of the examination period for the examination, a copy of a student’s completed examination may be made available to them.

Note: Completed examinations will normally be retained only for four months after the examination period and thereafter will be destroyed.

Theses, Dissertations, Research Portfolios and Research Projects
23 Where a thesis, dissertation, research portfolio or research project is required as part of an examination the following conditions apply.

a Masters Theses
Details of the pre- and post-examination submission requirements for Masters theses, dissertations, research portfolios or research projects are listed in the General Regulations – Masters Degrees.

b Other Theses, Dissertations, Research Portfolios and Research Projects
Pre-examination submission requirements for other theses, dissertations, research portfolios, or research projects will be defined by the faculty.

c Doctoral Theses
Details of the requirements for pre- and post- examination submission of doctoral theses, the examination of doctoral theses and appeals as to the examination of doctoral theses are contained in the relevant doctoral programme regulations.

Embargoing of Theses
24 a A thesis will normally be available for public consultation unless there are compelling reasons for restricting access to it.

b Access to a thesis may be restricted, normally for a maximum of two years, if it contains confidential and sensitive material that would:

(i) breach prior contractual arrangements with outside organisations or
(ii) prevent or jeopardise an application for a patent, licence, or registration or
(iii) provide good reason for refusing to disclose the contents of the thesis, consistent with the provisions of the Privacy Act (2020) or the Official Information Act (1982).

c An application for an embargo is to be made by the author of the thesis and/or the supervisor, through the Academic Head to the Dean of Graduate Studies.

d The embargo will apply to all copies of the thesis, whether hard copy or electronic.

25 The University Librarian or a delegated authority has a right to make and supply copies of theses in terms of Section 56 of the Copyright Act (1994) unless the author has imposed conditions restricting the reproduction of their work for a stipulated period.

Failed Theses
26 a Where a thesis or dissertation has failed the examination, that thesis or dissertation is not to be deposited in the University Library or digital repository.

b Where a thesis has passed, but requirements for the degree have not been met, the thesis is not to be deposited in the University Library or digital repository.
References to the Senate

27 For the purposes of these regulations ‘Senate’s representative’ means delegates of the Senate duly empowered to consider applications for aegrotat and compassionate consideration and award aegrotat and compassionate grades.

Fees Statute 2001

1 Title and Commencement
This statute may be cited as the Fees Statute 2001 and came into force on 1 January 2001.

2 Interpretation
In this statute unless the context otherwise requires:
‘Council’ means the Council of the University of Auckland.
‘Deletions’ means the deletion of a course from the student’s academic record as specified in the Enrolment and Programme Regulations.
‘Domestic Student’ has the meaning given in the Act.
‘Due Date’ is the date specified on the Fees Account and/or on the student’s account available through Student Services Online.
‘Enrol’ has a corresponding meaning.
‘Enrolment’ means enrolment in a programme or course at the University.
‘Enrolment and Programme Regulations’ are the Regulations governing enrolment and all associated activity such as, but not limited to, definitions of full-time and part-time study, restrictions to enrolment and changes to current enrolments after closing date.
‘Fees Account’ means an invoice or an invoice/statement, or online invoice/statement for the fees and charges payable by a Student as a condition of enrolment.
‘International Student’ has the meaning given in the Act.
‘Staff Member’ means a member of the staff of the University.
‘Student’ includes a Domestic Student and an International Student who is:
   a duly enrolled as a Student of the University
   or
   b applying to enrol as a Student of the University.
‘Student Loan’ has the same meaning as it has in section 2 of the Student Loan Scheme Act 2011.
‘Student Services Fee’ means the fee paid by an enrolled Student for Student Support Services provided by the University.
‘University’ means the University of Auckland constituted under the University of Auckland Act 1961.
‘University Services’ means those services provided by the University that can be accessed by a Student on request or application, such as enrolment, the provision of an official academic transcript or other services such as (but not limited to) accommodation, health care or library.
‘Withdrawals’ of courses may be approved as outlined in the Enrolment and Programme Regulations.

3 Tuition Fees
3.1 The Council may prescribe from time to time Tuition Fees payable by:
   a Domestic Students; in compliance with section 227 of the Act
   and
   b International Students or any categories of International Students; in compliance with section 228 of the Act.
3.2 Tuition Fees may be prescribed either by resolution of the Council or by a schedule to this statute.
3.3 The Tuition Fees prescribed by the Council at the date when this statute comes into force apply until other Tuition Fees are prescribed in place or in addition to them.

4 General Fees
4.1 The Council hereby prescribes the General Fees specified in the schedule.
4.2 The Council may from time to time by resolution vary the amount of, or delete, any General Fee specified in the schedule or prescribe any additional General Fee.
4.3 Any such variation, deletion, or addition shall apply from the date specified in the amending resolution.

5 Additional Fees/Charges
Faculties and Departments of the University may impose charges to recover costs in providing Students with non-compulsory services incidental to courses or programmes.
6 Payment of Fees and Charges
6.1 Tuition Fees, General Fees and any other charges imposed pursuant to section 5 that are included on the Student’s Fees Account must be paid by the Student.

6.2 All Students must pay the full amount on their Fees Account by the due date.

6.3 Charges imposed on a Student pursuant to section 5 that are not included in a Fees Account shall be paid by the Student on demand.

6.4 Any instalment of a Student Loan (within the meaning of the Student Loan Scheme Act 2011) that is available to a Student and received by the University in respect of their enrolment shall be applied toward payment of the Student Fees Account on the occasion of that enrolment.

7 Refunds or Credits
7.1 The Council may by resolution prescribe from time to time in accordance with sections 227 and 228 of the Act;
   a the circumstances in which Domestic Students and International Students are or may be entitled to a refund or credit of all or any part of the Tuition Fees and General Fees paid or payable to the Council and
   b the quantum of those refunds.

7.2 The circumstances in which a refund or credit may be made and the quantum of that refund or credit that is applicable when this statute comes into force, continues until a change is prescribed by resolution.

7.3 The Council will take all reasonable steps to ensure that both Domestic Students and International Students are informed of the circumstances in which they are or may be entitled to any refund or credit of all or any part of the fees that have been paid or are payable by them to the Council.

7.4 The refund or credit of all or any part of a Tuition Fee or a General Fee that was paid by Student Loan shall be applied in reduction of that loan.

7.5 In the case where a credit balance is insufficient to cover the total amount of the refund processing fee or administration fee, the fee will be adjusted to equal the amount of the credit balance.

7.6 In the event the University ceases to provide the courses in which the Student is enrolled then the University will delete the enrolments and process any refund or credit in accordance with the Enrolment and Programme Regulations and without deduction of or requirement to pay a refund fee.

8 Non-payment of Fees and Charges
8.1 Where a Student does not pay:
   a the Fees Account rendered to that Student
   or
   b a charge for that Student imposed under section 5 on demand;
   then, until those fees and charges are paid in full and without prejudice to the right to recover the unpaid fees or charges at law; the Council may:
   (i) Delete the enrolment of that Student from a course or courses;
   (ii) Withhold the formal notification of the final grades of the Student;
   (iii) Decline to re-enrol the Student;
   (iv) Decline to release the Student’s official academic transcript;
   (v) Exclude that Student from the University;
   (vi) Withhold any Degree or Diploma certificate from that Student;
   (vii) Restrict that Student’s access to University Services.
   (viii) Charge a late payment fee.
   (ix) Impose additional charges to recover legal and collection costs where a third party is engaged to recover those fees and charges.

8.2 Application for Reinstatement
   a A Student upon whom a penalty is imposed under section 8.1(i) may apply to have their enrolment reinstated upon payment of the outstanding amount owing and the course reinstatement fee as outlined in Schedule - Part A.

   b To be eligible to complete course requirements, a Student must apply for course reinstatement no later than two weeks before the beginning of the examination period within the semester which enrolment in the course(s) took place.

8.3 A Student upon whom a penalty is imposed under section 8.1 may by giving written notice to the Director, Academic Services within eight days of the penalty having been imposed, apply to the Council or duly constituted Committee of the Council to review the imposition of that penalty. The notice must set out the reasons for the review. The decision of the Council or its Committee is final.
9 **Non-attendance**

A Student who stops attending lectures or classes in a course or courses remains liable for the fees prescribed for that course or courses.

---

**Fees Schedule**

The 2022 fees schedules for Part A (all students), Part B (domestic students) and Part C (international students) were unavailable at time of going to print. The 2022 fees schedules can be viewed on the University website from mid-December 2021 at www.calendar.auckland.ac.nz.

---

**General Regulations – Bachelors Honours Postgraduate Degrees**

*The following regulations take precedence over the specific regulations for each Bachelors Honours Postgraduate degree published in this Calendar. As far as possible they are to be read in conjunction with the specific degree regulations for each Bachelors Honours Postgraduate degree. The Bachelors Honours Postgraduate degree will not be awarded until the requirements for the qualifying Bachelors degree have been completed.*

*Note: For the purpose of these regulations:*

(i) a Bachelors Honours Postgraduate degree is worth a total of 120 points

(ii) a research component consists of a dissertation, research portfolio, research essay, research project or thesis worth between 30 and 120 points

(iii) a research essay or research project will normally be worth no more than 45 points

(iv) a dissertation will be worth at least 40 points and less than 90 points

(v) a research portfolio or thesis will be worth 90 or 120 points.

**General Requirements**

1 A student enrolled for a Bachelors Honours Postgraduate degree at this University must pass the full points value specified in the degree regulations. The total enrolment may not exceed the minimum points requirement for the degree by more than 40 points.

**Duration of Enrolment**

2 The requirements for a Bachelors Honours Postgraduate degree must be completed within:

- a one year of initial enrolment for the degree if enrolled full-time

- or

- b two years of initial enrolment for the degree if enrolled part-time.

3 In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

**Completion of Requirements**

4 a A student enrolled for a Bachelors Honours Postgraduate degree must complete all work in taught courses by the last day of the semester in which the course is taught.

b The specified date for submission of a dissertation, research essay, research portfolio, research project or thesis of 30 points or more that is included in a bachelors honours postgraduate degree is the last day of the final term of enrolment in the dissertation, research essay, research portfolio, research project or thesis. If, in exceptional circumstances beyond the student’s control, the dissertation, research essay, research portfolio, research project or thesis has not been able to be completed by the last day of the final term, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

c A student who has failed a course or courses of no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the duration of enrolment specified in Regulation 2 in order to complete the degree.

d In emergency situations the Pro Vice-Chancellor (Education) may approve extensions of time beyond those permitted in 4b, for a nominated group of students.

**Tuition Fees for Extensions of Time**

5 a Where an extension of time for the submission of a dissertation, research portfolio, research essay, research project or thesis is approved under Regulation 4b, students will be required to be enrolled and pay tuition
fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the course has ended.

b In emergency situations the Pro Vice-Chancellor (Education) may waive part or all of any tuition fees for extension courses related to dissertations or research projects for a nominated group of students.

Honours
6 a Where the specific degree regulations include a provision for Honours, a Bachelors Honours Postgraduate degree may be awarded with Honours where the student has passed a research component of at least 30 points, comprising a single identifiable course.

b Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

c First Class Honours may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Second Class Honours First Division may be awarded where a student has achieved an overall Grade Point Average between and including 5.5 and 6.9. Second Class Honours Second Division may be awarded where a student has achieved an overall Grade Point Average between and including 4.0 and 5.4. Third Class Honours may be awarded where the student has achieved an overall Grade Point Average of 3.9 or below. The overall Grade Point Average will be rounded to one decimal place for the purpose of this Honours calculation.

7 Calculation of the class of Honours will include the grades given for all courses attempted in the degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Submission
8 a Dissertations, research essays, research portfolios, research projects and theses are to be submitted to the supervisor or department in accordance with Regulation 4b.

b The Head of Department is to transmit the submitted dissertation, research essay, research portfolio, research project or thesis to the examiner(s).

c Copies of dissertations, research essays, research portfolios, research projects and theses are not deposited with the University Library.

Suspension
9 Enrolment for a Bachelors Honours Postgraduate degree will normally be continuous. In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may grant a period of suspension from enrolment not normally exceeding two consecutive semesters. In such cases the period of suspension will not count towards the time limits for the degree.

Transfer Credits, Cross-credits and Reassignments
10 a Transfer credits
Transfer credits may be awarded for a Bachelors Honours Postgraduate degree as specified in Regulations 2e and 2f(i) of the Credit Regulations.

b Cross-credits
Courses may not be cross-credited into or from a Bachelors Honours Postgraduate degree.

c Reassignments
(i) With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

(ii) In certain circumstances, Senate or its representative may approve the reassignment of points to the relevant Postgraduate degree as provided for in Regulation 6c.

Certificate of Proficiency
11 The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

Transitional Certificate
12 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Bachelors Honours Postgraduate degree.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Bachelors Honours Postgraduate degree.
General Regulations – Masters Degrees

The following regulations apply to all Masters degrees published in this Calendar unless otherwise stated. As far as possible they are to be read in conjunction with the specific degree regulations for each Masters degree.

Notes:
(i) a Masters is a Research Masters if it includes a thesis or research portfolio of at least 90 points, otherwise it is a Taught Masters
(ii) a research essay or research project will normally be worth no more than 45 points
(iii) a dissertation will be worth at least 40 points and less than 90 points
(iv) a research portfolio or thesis will normally be worth 90 or 120 points
(v) for the purposes of these regulations only, full-time enrolment is 50 points or more in one semester or 25 points or more in one quarter, otherwise the semester or quarter enrolment (and any Summer School enrolment) is part-time
(vi) The ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ or ‘Academic Head’ is the head of that academic unit
(vii) a representative of Senate includes a Dean, and a Deputy or Associate Dean.

General Requirements

1 A student enrolled for a Masters degree at this University must pass the full points value specified in the degree regulations. The total enrolment may not exceed the minimum points requirement for the degree by more than 40 points.

Duration of Enrolment

2 a The requirements for a Masters degree must be completed in accordance with the following time limits and the thesis or research portfolio due dates in Regulation 2e.

(i) (a) the start date of the enrolment in the thesis or research portfolio where the programme commences with a thesis or research portfolio enrolment
or
(b) the first semester, quarter or Summer School in which a student enrolled for a course which is assigned or reassigned to the programme.

(ii) One period of Summer School enrolment counts towards the time limit as one semester of part-time enrolment, but is not counted if a thesis or research portfolio enrolment has already commenced.

(iii) Where a student’s enrolment is partially full-time and partially part-time, the part-time time limit applies, provided that:
(a) one semester of full-time enrolment counts as two semesters of part-time enrolment
(b) one quarter of full-time enrolment counts as two quarters of part-time enrolment.

(iv) Where a student’s enrolment is entirely full-time, it must be in consecutive semesters or quarters.

(v) Where a student’s enrolment is at least partially part-time, up to a maximum of four semesters or four quarters of non-enrolment may occur provided that:
(a) one semester of non-enrolment counts towards the time limit as one semester of part-time enrolment
(b) one quarter of non-enrolment counts towards the time limit as one quarter of part-time enrolment and
(c) any semesters of non-enrolment occur prior to commencement of a thesis or research portfolio enrolment.

b Enrolment in a Research Masters degree must conclude with the submission of the thesis or research portfolio.

c Enrolment in the thesis or research portfolio must commence on either 1 December, 1 March or 15 July and continue until the submission of the thesis or research portfolio.

d A student must enrol in thesis or research portfolio points in no fewer than two and no more than four consecutive semesters until the thesis or research portfolio points requirement is satisfied and subject to the time limits in Regulation 2a.

</tr>
</tbody>
</table>

Notes:
1 The final semester of enrolment depends on the start date of the thesis or research portfolio and the number of semesters (either two, three or four) in which a student is enrolled in thesis or research portfolio points before they satisfy the thesis or research portfolio points requirement.
2 These due dates provide 12 months of continuous enrolment in the thesis or research portfolio for students completing their thesis or research portfolio points enrolment in two consecutive semesters, and 18 or 24 months of continuous enrolment for other students (by enrolment in thesis or research portfolio points in three or four consecutive semesters respectively).
3 This due date occurs within the final semester of enrolment.
4 This due date is in the same year as the final semester of enrolment.
5 This due date is in the year following the final semester of enrolment.

f A student enrolled for a 240 point Research Masters must complete at least 105 points of coursework prior to enrolment in the thesis or research portfolio.

g A student enrolled for a 300 point Research Masters must complete at least 180 points of coursework prior to enrolment in the thesis or research portfolio.

h A student enrolled for a 360 point Research Masters must complete at least 240 points of coursework prior to enrolment in the thesis or research portfolio.

Completion of Requirements
3 a Thesis or Research Portfolio Extension of Time
   (i) If, in exceptional circumstances beyond the student’s control, a thesis or research portfolio has not been able to be completed by the due date specified in Regulation 2, Senate or its representative may, upon consideration of a student’s application and the required supporting evidence, approve a limited extension of time, not normally exceeding eight months, for the work to be completed.
   (ii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the thesis or research portfolio has ended.
   (iii) In emergency situations the Pro Vice-Chancellor (Education) may approve extensions of time beyond
those permitted in 3a(i) for a nominated group of students and may waive part or all of any tuition fees for extension courses related to theses or research portfolios for these students.

b **Dissertation/Research Essay/Research Project**

(i) The specified date for submission of a dissertation or research project that is included in a masters degree is the last day of the final term of enrolment in the dissertation or research project. If, in exceptional circumstances beyond the student’s control, the dissertation or research project has not been able to be completed by the last day of the final term of enrolment in the dissertation or research project, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

(ii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student's current enrolment period in the dissertation or research project has ended.

(iii) In emergency situations the Pro Vice-Chancellor (Education) may approve extensions of time beyond those permitted in 3b(i) for a nominated group of students and may waive part or all of any tuition fees for extension courses related to dissertations or research projects for these students.

c **Other courses**

Extensions of time to complete work in courses other than a dissertation, research essay, research portfolio, research project, or thesis will not be granted beyond the end of the semester(s) or quarter(s) of enrolment in the course.

d **Failed courses**

A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester or quarter beyond the duration of enrolment for completion specified in Regulation 2 in order to complete the degree.

**Honours**

4 a Where the specific degree regulations include a provision for Honours, a Masters degree may be awarded with Honours where a student’s overall grade is sufficiently high and where the student has passed a research component of at least 30 points, comprising a single identifiable course.

b There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.

c First Class Honours may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Second Class Honours First Division may be awarded where a student has achieved an overall Grade Point Average between and including 5.5 and 6.9. Second Class Honours Second Division may be awarded where a student has achieved an overall Grade Point Average between and including 4.0 and 5.4. The overall Grade Point Average will be rounded to one decimal place for the purpose of this Honours calculation.

**Distinction or Merit**

5 a Where the specific degree regulations include a provision for Distinction or Merit, and Honours has not been awarded, the Masters degree may be awarded with Distinction or Merit where a student’s grade is sufficiently high.

b Distinction may be awarded where a student has achieved an overall Grade Point Average of 7.0 or higher. Merit may be awarded where a student has achieved an overall Grade Point Average between and including 5.5 and 6.9. The overall Grade Point Average will be rounded to one decimal place for the purpose of this Honours calculation.

**Theses**

6 a The student is to submit a digital copy of their thesis to the appropriate Faculty Student Centre in accordance with Regulations 2 and 3a.

b The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

c The Associate Dean Postgraduate Research (or nominee) of the Faculty is responsible for transmitting copies of the thesis to the examiners.

d Where the outcome of the examination is to award a thesis a passing grade:

(i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will confirm that the thesis has been deposited in ResearchSpace.

(ii) The thesis will be accessible through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.
Where the outcome of the examination is to award a thesis a fail grade the thesis will not be held in the University’s digital repository.

**Research Portfolios**

7 a The student is to submit a digital copy of their research portfolio to the appropriate Faculty Student Centre in accordance with Regulations 2 and 3a.

b The Associate Dean Postgraduate Research (or nominee) of the Faculty is responsible for transmitting copies to the examiners.

c Copies of research portfolios are not deposited in the University’s digital repository.

**Dissertations/Research Essays/Research Projects**

8 a The student is to submit a digital copy of their dissertation, research essay or research projects to the supervisor or department in accordance with Regulations 2 and 3b.

b The Academic Head is responsible for transmitting copies to the examiners.

c Copies of dissertations, research essays and research projects are not deposited with the University’s digital repository.

**Substitutions and Failed Courses**

9 Masters students may not change their enrolment in a course after the last date approved for deletions, except in exceptional circumstances as provided for in the Enrolment and Programme Regulations under Changes to Current Enrolment.

10 A Masters student may not normally re-enrol in a failed course except as provided for in the regulations relating to aegrotat and compassionate passes. In exceptional circumstances, the student may apply to Senate or its representative, on the recommendation of the Head of Department, for permission to re-enrol in the course.

11 Calculation of the overall grade will include the grades given for all courses attempted in the degree. For the purposes of grade or mark calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

**Suspension**

12 In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may grant a period of suspension from enrolment not normally exceeding one year for enrolment in a thesis or research portfolio or two consecutive semesters, or four quarters, for enrolment in other courses. In such cases the period of suspension will not count towards the time limits for the degree.

**Transfer Credits, Cross-credits and Reassignments**

13 a **Transfer credits**

   (i) Transfer credits may be awarded for a Taught Masters degree or the taught component of a Research Masters degree with a total points value of more than 120 points as specified in Regulations 2e and 2f(i) of the Credit Regulations.

   (ii) Except as provided for in Regulations 2e and 2f(ii) of the Credit Regulations, transfer credits may not be awarded for a Research Masters degree.

b **Cross-credits**

Courses may not be cross-credited into or from a Masters degree.

c **Reassignments**

With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

**Certificate of Proficiency**

14 a The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

b A course passed for a Certificate of Proficiency may be reassigned to a Taught Masters degree, or the taught component of a Research Masters degree with a total points value of more than 120 points as specified in Regulation 9 of the Credit Regulations.

c A course passed for a Certificate of Proficiency may not be reassigned to a Research Masters degree except as specified in 14b above.

**Transitional Certificate**

15 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Masters degree.
Reviews of Examination of Thesis or Research Portfolio
16 a If a student believes that, in the examination of their thesis or research portfolio, they have been significantly disadvantaged by the examination process, or any part of the examination process, then they may request a review of the decision. An application for review must be made to the Associate Dean (Postgraduate) or nominee of the faculty, and must clearly set out the grounds for the review. All relevant documents relied upon must be submitted with the application for review.

b Any application for review as to the examinations process or outcome must be lodged within three months of the result of the examination being officially communicated to the student.

c The Associate Dean (Postgraduate) or nominee will investigate the matter and will provide the Dean of Graduate Studies with a written report within two weeks of the student’s application. Following receipt of the report the Dean of Graduate Studies will make the final decision.

Reviews of Extensions and Suspensions
17 a If an extension or suspension application is declined, the student may make an application for a review of that decision. An application for review must be made in writing to the Associate Dean (Postgraduate) or nominee of the faculty within three months of the decline being officially communicated to the student. The application must clearly set out the grounds for the review, and all relevant documents relied upon must be submitted with the application for review.

b The Associate Dean (Postgraduate) or nominee will investigate the application for review and provide the Dean of Graduate Studies with a written report within two weeks of the student’s application. Following receipt of the report the Dean of Graduate Studies will make the final decision.

c Where the Dean of Graduate Studies has permitted a student to suspend or extend a course following a review and has provided that decision to the student, any tuition fees that are incurred as a result of the decision, as determined by Regulation 3a or b, must be paid.

Variations
18 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Masters degree.

General Regulations – Named Doctorates
These Regulations apply to doctoral enrolments that commenced prior to 1 January 2022, except enrolments in the Doctor of Philosophy and Higher Doctorates, and should be read in conjunction with the relevant degree regulations. The ‘Department’ is the Department or School or other academic unit in which the candidate is registered, and the ‘Head of Department’ is the head of that academic unit.

Admission
1 Every candidate for a named-doctoral degree must have applied for admission and been admitted to the University of Auckland.

Registration
2 a Every candidate for a named-doctoral degree must be registered by the Board of Graduate Studies.

b Registration is provisional for all candidates for the first 12 months of equivalent full-time study following the Date of Registration as defined in Regulation 2.

c Application for registration must be made to the Head of Department, Division, School, Chair of a Board of Studies or Director of the Research Centre or Institute (“the Head of Department”) in the discipline in which the candidate is to be registered and must include, where appropriate to the composition of the doctoral degree, a preliminary research proposal.

d The Head of Department will make a recommendation to the Faculty Associate Dean (Postgraduate) as to whether the candidate:
(i) meets the eligibility criteria and has the ability to follow the proposed programme of study
and
(ii) has submitted a satisfactory preliminary research proposal as stipulated by the Head of Department.

e Where the Head of Department is satisfied, this recommendation must include:
(i) the proposed date of registration
(ii) nominations for supervisors
(iii) confirmation that the School/Department accepts responsibility for making satisfactory supervision arrangements and providing research resources and facilities over the whole enrolment for the degree
(iv) an appropriate set of goals for the provisional period of registration agreed to by both the candidate and nominated main supervisor; these must include, but are not limited to, those goals prescribed in the regulations for the relevant named doctorate and any standard goals required by the Board of Graduate Studies such as attendance at induction events, English language screening, and the satisfaction of academic integrity and health and safety requirements.

f Where an intending candidate is not resident in Auckland, the Head of Department must also provide the Associate Dean (Postgraduate) and the Board of Graduate Studies with evidence that the candidate will be provided with research resources and supervisory support at the location in which the research is to be carried out.

g On receipt of the recommendation of the Head of Department, the Faculty Associate Dean (Postgraduate) will make a recommendation to the Board of Graduate Studies as to the matters set out in Regulation 2d.

h On receipt of the recommendation of the Faculty Associate Dean (Postgraduate), the Board of Graduate Studies will decide whether or not to register the candidate and, if so, the conditions that will apply to the registration. The Board of Graduate Studies may call for any further information it considers relevant before making its decision.

i Registration takes effect on the date (the “Date of Registration”) approved by the Board of Graduate Studies. Where a candidate has already started supervised research on the doctoral topic, the Date of Registration may, subject to approval by the Board of Graduate Studies, be backdated by not more than six months.

j The Board of Graduate Studies will appoint the supervisors for each candidate. The supervisors must be actively involved in research in the candidate’s general field, and must either hold a doctoral degree or be appropriately qualified and experienced. Persons who are themselves candidates for the same named doctorate may not be appointed as supervisors, although they may be appointed as advisers.

k For each candidate the Board of Graduate Studies will appoint a suitably qualified main supervisor who takes overall responsibility for the supervision of the candidate and for assistance in the provision of research resources. The main supervisor must be a staff member of the University of Auckland.

l In addition, the Board of Graduate Studies will appoint for each candidate:
   (i) at least one suitably qualified co-supervisor and/or
   (ii) an advisory committee or adviser/s.

m Candidates wishing to present and defend a thesis in Te Reo Māori must, before applying to the Head of Department to be registered, obtain the permission of the Pro Vice-Chancellor (Māori). When such permission is granted, the Pro Vice-Chancellor (Māori) will make a recommendation in writing to the Board of Graduate Studies as to:
   (i) whether the candidate has adequate fluency and literacy in Te Reo Māori in the subject area of the thesis and
   (ii) the likelihood of being able to find appropriately qualified examiners for the thesis.

Reviews of Registration

3 a During provisional registration, a candidate must achieve the goals prescribed by the Board of Graduate Studies and satisfy any other applicable programme requirements specified in the regulations for the relevant named doctorate.

b Where a thesis proposal is required as a provisional goal, it should be submitted for approval to the appropriate committee or subcommittee of the Department, Institute and/or Faculty in which the candidate is registered. The committee may accept the proposal, or indicate changes needed to the candidate and supervisor(s) and request a resubmission, or it may decline the proposal. It will inform the Head of Department of its decision.

c At the end of the provisional registration period, the candidate, the supervisor/s and the Head of Department are to submit a formal report to the Board of Graduate Studies on the progress of the candidate. This report may also be discussed by the appropriate postgraduate committee of the Department, Institute and/or Faculty in which the candidate is registered. The report should clearly state whether or not the progress of the candidate has been satisfactory, whether or not any programme specific requirements for the period have been satisfied, and whether or not the goals laid down for the provisional period of registration have been achieved. The report should include a recommendation that the candidate’s registration be:
   (i) confirmed or
   (ii) continued on a provisional basis for a period of three to six months or
(iii) discontinued and the candidate recommended for enrolment in another programme, where a suitable programme exists

or

(iv) terminated.

d At the end of each year of registration following the provisional period, the main supervisor, the candidate and the Head of Department are to submit, through the Associate Dean (Postgraduate) of the Faculty, a joint report to the Board of Graduate Studies on the candidate’s progress. This report may also be discussed by the appropriate postgraduate committee of the Department, Institute and/or Faculty in which the candidate is registered. As part of this report, the main supervisor and the Head of Department are to make one of the following recommendations:

(i) that the candidate’s registration be continued

or

(ii) that the candidate’s registration be continued subject to specified conditions

or

(iii) that the candidate’s registration be terminated.

e Where a recommendation is made under Regulation 3c(ii) or 3d(ii), the Head of Department will also recommend to the Board of Graduate Studies any specific goals and/or conditions to be met by the candidate and the time in which these are to be completed. At the end of this period the Head of Department and main supervisor will advise the Board of Graduate Studies whether or not these requirements have been met. Registration will be terminated if the specified conditions have not been fulfilled to the satisfaction of the Board of Graduate Studies.

f No decision to terminate registration may be made by the Board of Graduate Studies unless the candidate has been notified in writing and given reasonable opportunity to respond.

Changes to the Conditions of Registration

4 a The Head of Department may, after consultation with the candidate, make a written recommendation to the Board of Graduate Studies via the Faculty Associate Dean (Postgraduate) for changes in the conditions of registration for the candidate. After considering a recommendation from the Head of Department, the Board of Graduate Studies may, after considering any submissions made by the candidate, change the conditions of registration for any candidate.

b Where a resident candidate intends to be absent from the University in pursuit of their research for more than two months, supervisors are to submit for approval by the Board of Graduate Studies, through the Head of Department and before the candidate’s departure, suitable plans for the supervision of the candidate during the period of absence.

c When necessary, the Head of Department will make a recommendation to the Board of Graduate Studies regarding changes to the supervision of the candidate. This will normally be required when a supervisor is granted leave, resigns or retires.

Whilst the Board of Graduate Studies will take into consideration the candidate’s views on any recommended changes to supervision, it reserves the right to determine the appointment of supervisor/s according to the availability of suitably qualified staff.

d When the Board of Graduate Studies is satisfied that there is sufficient reason, it may extend a candidate’s submission date. Before approving an extension of submission time the Board of Graduate Studies will require the candidate, the supervisor(s) and Head of Department to agree on the programme of supervision and schedule of research considered necessary for submission by the new date proposed.

e Where a candidate is unable to continue with their research programme because of circumstances beyond their control, the Board of Graduate Studies may suspend their registration for a specified period of time. The conditions of Regulation 7g of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

f Enrolment and Programme Regulations regarding discontinuation apply to candidates for named doctorates.

g The Board of Graduate Studies may terminate the registration of any candidate who:

(i) fails to enrol for any academic year corresponding to a year of registration

or

(ii) fails to make payment of any tuition fees related to the registration

or

(iii) applies to cease being registered

or

(iv) has not made satisfactory progress while under provisional registration

or
(v) has received an unsatisfactory annual report
or
(vi) has not submitted a required provisional year or annual report
or
(vii) has not met any conditions specified under Regulation 3e
or
(viii) has not satisfied a requirement as stipulated in the structure and content regulation of the relevant named doctorate regulations
or
(ix) has not submitted or re-submitted the examinable work in time
or
(x) has had the termination of their registration recommended by a decision of a Disputes Committee constituted pursuant to Regulation 6
or
(xi) is prohibited under the Disciplinary Statute of the University from enrolling.

Before making a decision to terminate a candidate's registration pursuant to this Regulation or otherwise, the Board of Graduate Studies will allow the candidate a reasonable opportunity to respond.

Enrolment and Fees
5  a  Candidates for the degree must be enrolled and pay all prescribed fees including tuition fees in each academic year for which they are registered. Candidates need not pay tuition fees for any period during which their registration is suspended.

b  On enrolment in each academic year every candidate must pay the prescribed fees for that academic year, including the Student Services fee.

c  A candidate who submits all examinable work or terminates their registration will receive a refund of one-twelfth of the tuition fee and the Student Services fee paid for each complete month of the period between the date of submission of the examinable work or termination of registration and the end of the academic year for which fees have been paid.

d  Notification of the award of the degree will be withheld until all outstanding fees have been paid for the academic year in which a candidate is registered. Candidates will not be able to graduate until all outstanding fees have been paid.

Appeals
6  a  If a doctoral candidate believes that they have been significantly disadvantaged by the examination process, or by any part of the examination process, then a written appeal may be made to the Board of Graduate Studies, setting out the grounds of the appeal. All relevant documents relied upon must be submitted with the appeal. Regulations 11d and 11e of the Statute for the Degree of Doctor of Philosophy 2016 shall then apply.

b  Candidates, supervisors or Heads of Department may appeal against any decision, other than one bearing on examination matters, of the Board of Graduate Studies normally within three months of the making of the decision, on the grounds that:
(i) relevant information which was not available to the Board of Graduate Studies at the time of its making the decision has since become available
and/or
(ii) the procedure adopted in arriving at the decision was unfair.

The appeal must state clearly all grounds relied on by the candidate and attach all relevant documentation. Regulation 11b of the Statute for the Degree of Doctor of Philosophy 2016 shall then apply.

Dispute Resolution Procedures
7  Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

Transitional Arrangements
8  a  These regulations came into force on 1 January 2016 and revoked the previous General Regulations for Named Doctorates.

b  For candidates initially registered under previous regulations, the Board of Graduate Studies may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.
General Regulations – Postgraduate Certificates

The following regulations take precedence over the specific regulations for each Postgraduate Certificate published in this Calendar. As far as possible they are to be read in conjunction with the specific regulations for each Postgraduate Certificate.

Note: For the purposes of these regulations:
(i) a postgraduate certificate is worth 60 points
(ii) a representative of Senate includes a Dean, Deputy Dean, or Associate Dean
(iii) the ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit.

General Requirements
1 A student enrolled for a Postgraduate Certificate at this University must pass the full points value specified in the postgraduate certificate regulations. The total enrolment may not exceed the minimum points requirement for the postgraduate certificate by more than 30 points.

Deadlines for Completion
2 a The requirements for a Postgraduate Certificate must be completed within:
   (i) one semester of initial enrolment for the postgraduate certificate if enrolled full-time
   or
   (ii) four semesters of initial enrolment for the postgraduate certificate if enrolled part-time.

b In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

c In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may increase the duration allowed for enrolment for a period not normally exceeding one semester.

Completion of Requirements
3 a A student enrolled for a Postgraduate Certificate must complete the requirements by the last day of the final semester of enrolment in the programme.

b Extensions of time to complete work in examined courses or 100 percent coursework courses will not be granted beyond the end of the semester(s) in which the course is offered.

c A student who has failed a course or courses of no more than 30 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 2 in order to complete the postgraduate certificate.

Transfer Credits, Cross-credits and Reassignments
4 a Transfer credits
   Transfer credit may not be awarded for a Postgraduate Certificate.

b Cross-credits
   Courses may not be cross-credited into or from a Postgraduate Certificate.

c Reassignments
   With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

Certificate of Proficiency
5 a The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

b A Certificate of Proficiency course may be reassigned to a Postgraduate Certificate as specified in Regulation 9 of the Credit Regulations.

Transitional Certificate
6 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Postgraduate Certificate.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Postgraduate Certificate.
General Regulations – Postgraduate Diplomas

The following regulations take precedence over the specific regulations for each Postgraduate Diploma published in this Calendar. As far as possible they are to be read in conjunction with the specific regulations for each Postgraduate Diploma.

Note: For the purposes of these regulations:

(i) a postgraduate diploma is worth a total of 120 points
(ii) a research essay or research project will normally be worth up to 45 points
(iii) a dissertation will be worth at least 40 points and less than 90 points
(iv) a research portfolio will be worth 90 or 120 points
(v) the ‘Department’ is the Department or School or other academic unit in which the student is enrolled, and the ‘Head of Department’ is the head of that academic unit
(vi) a representative of Senate includes a Dean, and Deputy or Associate Dean.

General Requirements

1 A student enrolled for a Postgraduate Diploma at this University must pass the full points value specified in the postgraduate diploma regulations. The total enrolment may not exceed the minimum points requirement for the postgraduate diploma by more than:
   a 40 points
   or
   b 20 points in the case of a student with credit granted from a postgraduate certificate.

Duration of Enrolment

2 a The requirements for a Postgraduate Diploma must be completed within
   (i) one year of initial enrolment for the postgraduate diploma if enrolled full-time
   or
   (ii) four years of initial enrolment for the postgraduate diploma if enrolled part-time.

   b In the case of a student who has completed a postgraduate certificate for which credit is granted to a postgraduate diploma the requirements must be completed within
   (i) one semester of admission if enrolled full-time
   or
   (ii) two years of admission if enrolled part-time.

   c In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

   d In exceptional circumstances Senate or its representative, on the recommendation of the Head of Department, may increase the duration allowed for enrolment for a period not normally exceeding two consecutive semesters.

Completion of Requirements

3 a A student enrolled for a Postgraduate Diploma must complete all work in taught courses by the last day of the semester in which the course is taught.

   b (i) The specified date for submission of a dissertation, research essay or research project of 30 points or more that is included in a postgraduate diploma is the last day of the final term of enrolment in the dissertation, research essay or research project.

   (ii) If, in exceptional circumstances beyond the student’s control, a dissertation or research project has not been able to be completed by the due date specified in Regulation 3b(i), Senate or its representative may, upon consideration of a student’s application and the required supporting evidence, approve a limited extension of time, not exceeding six months.

   (iii) If an extension is approved, a student will be enrolled in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in a dissertation or research project course has ended.

   (iv) In emergency situations the Pro Vice-Chancellor (Education) may approve extensions of time beyond those permitted in 3b(ii) and may waive part or all of any tuition fees for extension courses related to dissertations or research projects for these students.

   c A student who has failed a course or courses of no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the duration of enrolment specified in Regulation 2 in order to complete the postgraduate diploma.
d **Fine Arts Studio**
A student enrolled for the Postgraduate Diploma in Fine Arts must complete their individual programme not later than 1 November in the year in which the work is undertaken or by such other date as may be approved by the Head of School of Fine Arts.

**Distinction or Merit**

4 a Where the specific postgraduate diploma regulations include a provision for Distinction or Merit, a postgraduate diploma may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high.

b Distinction may be awarded where a student has achieved an overall grade point average of 7.0 or higher. Merit may be awarded where a student has achieved an overall grade point average of between and including 5.50 and 6.99.

5 Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in the diploma. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

**Dissertations / Research Essays / Research Projects**

6 a Dissertations, research essays, and research projects are to be submitted to the supervisor or department in accordance with Regulation 3b.

b The Head of Department is to transmit the submitted dissertation, research essay, or research project to the examiner(s).

c Copies of dissertations, research essays, and research projects are not deposited with the University Library.

**Transfer Credits, Cross-credits and Reassignments**

7 a **Transfer credits**
Transfer credits may be awarded for a Postgraduate Diploma as specified in Regulations 2e and 2f(i) of the Credit Regulations.

b **Cross-credits**
Courses may not be cross-credited into or from a Postgraduate Diploma.

c **Credit from a postgraduate certificate**
In the case of a student who has completed a Postgraduate Certificate for which credit is granted to a Postgraduate Diploma, admission to the Postgraduate Diploma must take place within five years of completion of the Postgraduate Certificate.

d **Reassignments**
With the approval of the Head of Department, courses may be reassigned as specified in Regulation 9 of the Credit Regulations.

**Certificate of Proficiency**

8 a The Certificate of Proficiency regulations under ‘Other Programmes’ apply.

b A Certificate of Proficiency course may be reassigned to a Postgraduate Diploma as specified in Regulation 9 of the Credit Regulations.

**Transitional Certificate**

9 The Transitional Certificate regulations under ‘Other Programmes’ apply. A Transitional Certificate course may not be reassigned to a Postgraduate Diploma.

**Variations**

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to the regulations for a Postgraduate Diploma.

---

**International Students**

The following notes are intended to be a general guide for international students wishing to be admitted to the University of Auckland. Further information is available from the International Office or from the International students section of the University website at www.international.auckland.ac.nz

**Admission**

International students should apply for admission using the online Application for Admission. Intending applicants should note the following general points:

1 All international students enrolling in an undergraduate programme must hold, as a minimum requirement, an acceptable university entrance qualification.
All international students seeking admission to graduate or postgraduate programmes must hold, or expect to hold before the start of the programme, a recognised first degree in a relevant discipline.

Applicants whose first language is not English are required to provide satisfactory evidence of their proficiency in English. International applicants entering the University on the basis of NCEA or Cambridge Assessment International Education (Cambridge International, formerly known as University of Cambridge International Examinations (CIE)) taken in New Zealand, or International Baccalaureate (IB) taken in New Zealand, must meet the standard literacy requirements for admission. International applicants who have taken Cambridge International or IB outside of New Zealand must meet the standard admission requirements from these qualifications but may also meet the standard literacy requirement through an alternative approved English test as outlined in the minimum English Language proficiency requirements. International applicants entering the University on the basis of qualifications other than NCEA, Cambridge International or IB taken in New Zealand must meet a specified score in IELTS or an alternative approved English test, or must have completed and passed the Foundation Certificate in English for Academic Purposes (FCertEAP), the English Pathway for Undergraduate Studies (EPUS), the English Pathway for Postgraduate Studies (EPPS), or an approved alternative. The minimum score required in IELTS for admission to an undergraduate programme at the University is an overall score of 6.0 with no less than 5.5 on an individual band. The minimum score required in IELTS for admission to a postgraduate programme at the University is an overall score of 6.5 with no less than 6.0 on an individual band. Higher requirements may be imposed by faculties for entry to specified undergraduate and postgraduate programmes.

Health and Travel Insurance

It is the responsibility of all international students to ensure that they have appropriate and current approved health insurance for their period of study in New Zealand, and for the length of their student visa. Health and travel insurance is a condition of enrolment, and as such, must be valid for the entire duration of study. A student’s enrolment cannot continue in the event of their insurance cover being declined.

Student Visa

International students may commence online offshore study while applying for a visa. The majority of international students must have a student visa before entering New Zealand. All students must have a student visa or a Variation of Conditions, for the duration of their studies prior to entering New Zealand. For further information, visit Immigration New Zealand’s website at www.immigration.govt.nz.

- An international student is any student who is not a citizen or permanent resident of New Zealand (includes the Cook Islands, Tokelau and Niue) or Australia.

- Every international student must provide the following information to the University of Auckland:
  - photocopy of title page of passport and of current visa if entering New Zealand
  - current address and contact phone number(s). Upon arrival in Auckland, students must provide their Auckland address and contact phone number(s)
  - full name and current address of an emergency contact/next of kin.

- Where a student does not provide the required contact details and/or evidence of a valid student visa either prior to commencement of study onshore or before the visa information held on file at the University expires, then, until that evidence is produced, the Council may:
  - withdraw the enrolment of that student from a course or courses, with no refund or credit of fees and/or
  - decline to re-enrol the student
  - restrict or remove that student’s access to University services, including but not limited to the Student Learning System.

International Student Fees

International fees (refer to Schedule – Part C – International Students) apply to students who:

- are not citizens of New Zealand or Australia (refer note 5a above)
- do not hold residency status in New Zealand or Australia
- are being fully funded under the New Zealand Ministry of Foreign Affairs and Trade New Zealand Aid Programme
- are not participating in an official University of Auckland exchange programme.

International Scholarships

The University of Auckland also offers international scholarships including the University of Auckland International Student Excellence Scholarship, University of Auckland Doctoral Scholarships at PhD level for
international students from all countries; and scholarships from various faculties at all levels. To find out more about scholarships visit https://www.auckland.ac.nz/en/study/scholarships-and-awards.html

Phone: +64 9 373 7599  ext  87494

Students studying outside New Zealand

8 Students studying outside New Zealand can study without a student visa. However, on arrival in New Zealand a student must provide evidence of a valid student visa or a Variation of Conditions which permits study at the University of Auckland.

Code of Practice

9 The University of Auckland has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Ministry of Education. Copies of the Code are available in six languages from the New Zealand Qualification Authority (NZQA) website at www.nzqa.govt.nz/the-code.

The Limitation of Entry Statute 1991

Pursuant to Section 255 of the Education and Training Act 2020 the Council of the University of Auckland hereby makes the following Statute:

1 a This statute may be cited as The Limitation of Entry Statute 1991.
   b This Statute came into force on 1 January 1991.

2 Where the Council is satisfied that it is necessary to do so because:
   a students cannot be allocated places in appropriate lecture rooms or laboratories at times when they can reasonably be expected to attend
   or
   b the number of teaching staff does not ensure all students expected to seek a place in a particular programme or course can be adequately taught;
there shall be deemed to be an insufficiency of accommodation or of staff.

3 The maximum number of students that may be enrolled for any such programme or course shall be determined by the Council from time to time after considering any recommendations from Senate and be published in a schedule to this Statute.

4 In determining such maximum number of students the Council may, after securing a recommendation from Senate:
   a prescribe academic standards to be achieved as a prerequisite for enrolment for any such programme or course
   and
   b prescribe other criteria for selection of students to be permitted enrolment for any such programme or course.

5 The Limitation of Entry Statute 1985 is hereby repealed.

Limitations Schedule 2022

This Schedule is made under the provisions of Regulation 3 of the Limitation of Entry Statute 1991.

Limited-entry Programmes and Courses

Because of insufficient accommodation and restrictions on staffing there will be a limitation on the number of students who can be enrolled in 2022 in the programmes and courses listed below.

Approved Limitations

1 Students must apply for a place in any limited entry programme. Unless otherwise specified in Closing Dates for Admission, the closing date for Application for Admission is 8 December 2021 and for Enrolment is 14 February 2022. The closing date for Admission to Summer School is 1 December 2021 and for Enrolment is 22 December 2021.

2 Application for places in any limited-entry programmes and/or courses will be made online, or in person.

3 Applications received after the specified closing dates will be given reduced priority in consideration for a place in a limited-entry programme and/or course.

4 Where the number of applicants for a place in a limited-entry programme or course exceeds the approved number of available places, the Faculty or department concerned will select students in accordance with criteria that have been approved by the University Council.
5 Where a course is taught in both semesters, the Selection Committee will allocate students to Semester One or Semester Two where numbers of applications for one semester exceed places available.

6 Selection criteria will be available from the Faculty or department concerned for the information of students. In general, selection will be based upon academic merit. In those cases where the scholastic record is insufficient, e.g., Discretionary Entrance and Special Admission, other criteria such as the recommendation of the School Principal or Advisor, or employment history, will be taken into account. Account will also be taken of the University’s Equal Educational Opportunity objectives. Limitations on programmes and courses are listed below.

Section 3: All other scheduled courses

All other scheduled courses offered by the University shall be deemed to be limited. The maximum number of students that may be enrolled in each course shall be the maximum limit set by the relevant faculty, which will usually be the maximum capacity of the room(s) allocated to the class(es) associated with each course through the University’s timetable process in accordance with the Academic Timetable Policy. Students will be selected for enrolment on a first in, first enrolled basis, until the maximum capacity has been reached.

C. General Education Courses

General Statutes and Regulations

81 Conferment of Academic Qualifications and Academic Dress Statute 1992
86 Availability of Academic Dress
86 The Degrees and Diplomas Statute 1991
92 The Honorary Degrees and Awards Statute 2019
93 Guidelines for the Award of Honorary Degrees and Fellowships
Conferment of Academic Qualifications and Academic Dress Statute 1992

1 Every degree and every diploma of the University shall be conferred or awarded in pursuance of a resolution of the Council and at a meeting of the Council.

2 Every degree and every diploma of the University shall be conferred or awarded by the Chancellor, or if they are absent from the meeting or incapacitated by sickness or otherwise, by the Vice-Chancellor or Pro-Chancellor. The Council may also authorise another person to confer degrees or award diplomas at a particular ceremony.

3 Every recipient of a degree shall receive a certificate in appropriate form, under the Common Seal of the University, that their degree has been conferred and stating the class of honours (if any awarded), or whether it has been awarded with Distinction or Merit.

4 Every diploma shall be in appropriate form under the Common Seal of the University and state, where relevant, whether it has been awarded with Distinction or Merit.

5 At a specified time or times each year the Council shall meet in convocation of the University to confer degrees and award diplomas. Persons wishing to have their degree conferred or diploma awarded (whether in person or in absentia) at such a ceremony must apply in accordance with the dates specified on the University website.

6 The form of words to be used by the Chancellor, the Vice-Chancellor, Pro-Chancellor or such other person as may have been appointed by the Council to confer degrees or to award diplomas shall be as follows:
   a Degrees
      ‘By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], confer the degrees stated upon those who, within their several faculties, have satisfied the requirements of this University.’
   b Diplomas
      ‘By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], award the diplomas stated upon those who, within their several faculties, have satisfied the requirements of this University.’

7 In appropriate circumstances, the form of words to be used by the Chancellor, the Vice-Chancellor, Pro-Chancellor or such other person as may have been appointed by the Council to confer degrees and to award diplomas shall be as follows: ‘By the authority vested in me by resolution of the University of Auckland Council I [NAME], [POSITION], confer the degrees and award the diplomas stated upon those who, within their several faculties, have satisfied the requirements of this University.’

8 The academic dress worn by members of the University at any public ceremony of the University shall be the costume appropriate to their degree, but doctors may on special occasions wear a scarlet gown and graduates admitted ad eundem statum may wear the academic costume of their own university. Unless the holder of a diploma is also a graduate the only academic dress they may wear is an undergraduate gown and the scarf appropriate to their diploma.

9 The academic costumes of the University of Auckland shall be as follows:
   a The robe for the Chancellor of the University is a blue damask gown with facings of gold lace, bearing on each shoulder the coat of arms of the University. The cap is a black velvet trencher with gold lace and tassel. The robe for the Pro-Chancellor is a black gown with facings of blue silk and gold lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with gold tassel. The robe for the Vice-Chancellor is a blue silk gown with facings of silver lace, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with silver lace and tassel. The robe for the Registrar is a gown of black silk with facings of blue silk, bearing on each shoulder the coat of arms. The cap is a black velvet trencher with a black tassel. The academic dress for Graduation Officials shall be the costume appropriate to their degree. In addition, the gown shall bear on each shoulder the coat of arms of the University, and the trencher shall have a blue tassel. Graduation Officials who are not graduates shall wear an undergraduate gown bearing the coat of arms of the University on each shoulder.
   b The gown for a Bachelors degree is as for the Cambridge Bachelor of Arts. The gown for a Masters degree is as for the Cambridge Master of Arts. The hood for every degree is the size and shape as for the Cambridge Master of Arts. The hood for a Bachelors degree is lined with coloured satin and bordered with white fur. The hood for a Masters degree is lined with coloured satin only. The hoods for the Bachelors and Masters degrees are as follows:

MAud  
lilac lining; 25mm dark brown band on the edge of the satin
MBiomedSc  
lilac lining; 75mm dark brown band on the edge of the satin
The hood for a Bachelor with Honours degree is as for the relevant Bachelors degree, with the addition of a 25mm ribbon band on the outside of the hood, alongside the fur. The colour of the ribbon band is the same colour as the lining.

The hood for a Bachelors degree for which the prerequisite is another Bachelors degree within the same Faculty, is as for a Bachelor with Honours degree, with the addition of a second 25mm band at a distance of 25mm from the first band. Both bands are the same colour as the lining.

When a new Bachelors or Masters degree is introduced within a Faculty, the main hood colour shall be that of the predominant existing colour used for that faculty's Bachelors or Masters qualifications. The hood for the new qualification may be distinguished through the use of bands or stripes of a width and colour to be determined by consultation between the Faculty and the Office of Graduation and approved by Council.

The hood for an Interfaculty Bachelors degree or Masters degree is lined with the predominant colour of the Faculty primarily responsible for the degree, with the addition of a 25mm ribbon band on the edge of the satin. Where there are two Faculties involved, the colour of the ribbon band is the predominant colour of the hood lining of the second Faculty. Where more than two Faculties are involved, the hood for the new qualification may be distinguished through the use of bands or stripes of a width and colour to be determined by consultation between the Faculty and the Office of Graduation and approved by Council.

d The gown for the degrees of Doctor of Clinical Psychology, Doctor of Education, Doctor of Fine Arts, Doctor of Health Sciences, Doctor of Medicine, Doctor of Music, Doctor of Musical Arts and Doctor of Pharmacy is as for the Cambridge Master of Arts with the addition of facings of 50mm wide satin. The hood is made wholly of satin and this and the facings of the gown are of the following colours for the different degrees:

- **Clinical Psychology**: dark blue
- **Education**: emerald green
- **Fine Arts**: gold
- **Health Sciences**: TBC
- **Medicine**: crimson
- **Music**: white
Musical Arts  white
Pharmacy  grey-green

e  The gown for the degree of Doctor of Philosophy is as for the Cambridge Master of Arts, with the addition of
100mm satin facings, made up of 75mm of scarlet edged with 25mm of gold. The hood is made wholly of scarlet
satin.

f  The gown for the degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature, and Doctor of Science
is as for the Cambridge Master of Arts, but is made of black silk, or scarlet silk or cloth. The hood is made
wholly of satin, and is of the following colours for the different degrees:

Engineering  dark violet
Laws  light blue
Literature  pink
Science  dark blue

The cap for all graduates other than Doctors and the officers of the University is a black trencher with a
tassel. The cap for all Doctors other than officers of the University is as for the full dress Cambridge Doctor of
Philosophy, namely a round black velvet bonnet with a gold cord around the crown ending in tassels.

Note: The colour of the lining of the hood for the Degree of Master of Philosophy is that of the closest Masters
degree to which the subject of the MPhil relates.

h  The scarf for a diploma is to be made of the same black material as the gown with a band of colour in plain
satin as in existing hoods down the centre edge. The colour is to match the degree cluster most closely
associated with the diploma. The lining is to be the same colour as the band. The width of the scarf at the
base is to be 140mm in total, the black being 100mm and the colour 40mm, and narrowing behind the neck. A
band of the lining colour is to be stepped down from the inside edge to the outside edge of the black material
at the base of each side of the scarf. The diploma scarves are as follows:

Architecture  lemon band and lining
Arts  pink band and lining
Business and Economics  burgundy band and lining
Creative and Performing Arts  pink band and lining
Education  emerald green band and lining
Engineering  dark violet band and lining
Fine Arts  gold band and lining
Laws  light blue band and lining
Medical and Health Sciences  crimson band and lining
Music  white band and lining
Pharmacy  grey-green band and lining
Planning  chartreuse green band and lining
Property  silver grey band and lining
Science  dark blue band and lining
Theology  forest green band and lining

i  The gown for the honorary degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature, Doctor of
Music, Doctor of Science and Doctor of the University of Auckland is as for the Cambridge Master of Arts, but
is made of scarlet satin. The hood is made wholly of satin, and is one of the following colours for the different
degrees:

Engineering  dark violet
Laws  light blue
Literature  pink
Music  white
Science  dark blue
The University of Auckland  University blue

10  Regalia specifications for degrees and diplomas that have been deleted from this Statute can be found in previous
ingeditions of the University Calendar.

11  The gown for a Fellow of the University of Auckland will be an undergraduate gown of the colour University Blue
bearing on the left front lapel the coat of arms of the University. No hood or cap shall be worn.
Availability of Academic Dress

The Kate Edger Educational Charitable Trust trading as Academic Dress Hire owns a stock of academic gowns, hoods, scarves, trenchers and Tudor bonnets. These are available for hire Monday to Friday from 8.30am until 5pm throughout the year. Details may be obtained from Academic Dress Hire, 17 George Street, Newmarket, or www.academicdresshire.co.nz. A student completing the requirements for a degree or diploma will receive information regarding the hire of academic dress for the graduation ceremony with their invitation to apply to graduate.

The Degrees and Diplomas Statute 1991

At the University of Auckland this 18th day of February 1991.

Pursuant to the Education and Training Act 2020, the Council of the University of Auckland, after consulting Senate, hereby makes the following statute:

1 This Statute may be cited as the Degrees and Diplomas Statute 1991.

2 The Council shall have power to confer the following degrees on any person who completes a course of study in accordance with the provisions of the regulations for that qualification.

- Bachelor of Advanced Science (Honours) BAdvSci(Hons)
- Bachelor of Architectural Studies BAS
- Bachelor of Arts BA
- Bachelor of Arts (Honours) BA(Hons)
- Bachelor of Biomedical Science (Honours) BBiomedSc(Hons)
- Bachelor of Commerce BCom
- Bachelor of Commerce (Honours) BCom(Hons)
- Bachelor of Communication BC
- Bachelor of Dance Studies BDanceSt
- Bachelor of Dance Studies (Honours) BDanceSt(Hons)
- Bachelor of Design BDes
- Bachelor of Early Childhood Studies BECSt
- Bachelor of Education (Teaching) BED(Tchg)
- Bachelor of Education (Teaching) (Honours) BED(Tchg)(Hons)
- Bachelor of Education (Teaching English to Speakers of Other Languages) BED(TESOL)
- Bachelor of Engineering BE
- Bachelor of Engineering (Honours) BE(Hons)
- Bachelor of Fine Arts BFA
- Bachelor of Fine Arts (Honours) BFA(Hons)
- Bachelor of Global Studies BGlobalSt
- Bachelor of Health Sciences BHSc
- Bachelor of Health Sciences (Honours) BHSc(Hons)
- Bachelor of Human Services BHumServ
- Bachelor of Laws LLB
- Bachelor of Laws (Honours) LLB(Hons)
- Bachelor of Medical Imaging BMedimag
- Bachelor of Medical Imaging (Honours) BMedimag(Hons)
- Bachelor of Medicine and Bachelor of Surgery MBChB
- Bachelor of Medical Science (Honours) BMedSc(Hons)
- Bachelor of Music BMus
- Bachelor of Music (Honours) BMus(Hons)
- Bachelor of Nursing B Nurs
- Bachelor of Nursing (Honours) BNurs(Hons)
- Bachelor of Optometry BOptom
- Bachelor of Pharmacy BPharm
- Bachelor of Pharmacy (Honours) BPharm(Hons)

3 The Council shall have the power to confer the following honorary degrees in accordance with the provisions of the Honorary Degrees Regulations 1998.  
Doctor of Engineering  
Doctor of Literature  
Doctor of Laws  
Doctor of Music  
Doctor of Science  
Doctor of the University of Auckland  
A Masters degree in any Faculty of the University

4 The Council may confer a degree or award a diploma previously included in a University of Auckland Degrees and Diplomas Statute on a person who had been enrolled in a programme leading to that qualification prior to its deletion from the Statute provided that person:  
a had completed a significant component of the course of study prior to the deletion of the degree or diploma and
b has completed a course of study in accordance with the provisions of the regulations for that degree or diploma.

5 The Degrees Statute 1990 is hereby repealed.

The Honorary Degrees and Awards Statute 2019

Pursuant to sections 192 and 194 of the Education Act 1989 and section 20 of the University of Auckland Act 1961 Council of the University makes the following statute:

1 This Statute may be cited as the Honorary Degrees and Awards Statute 2019 and shall come into force on the 22 October 2019.

2 Council may at its discretion:
   a Confer the following honorary degrees:
      Doctor of Laws
      Doctor of Science
      Doctor of Literature
      Doctor of Music
      Doctor of Engineering;
      and
   b Award the title ‘Fellow of the University’ (‘Fellowship’).

3 University Honours Committee of Council shall consider nominations and make recommendations to the Council for the conferring of any honorary degree or fellowship under this Statute.

4 University Honours Committee shall henceforth consist of:
   a the Chancellor who shall be the Chair of the Committee
   b the Vice-Chancellor
   c the Pro-Chancellor
   d one member appointed by Council
   e two members of Senate elected by Senate
   f the student member of Council.

5 Council may, from time to time, approve guidelines for the award of honorary degrees and fellowships and, in making its recommendations, University Honours Committee shall ensure that it complies with all those guidelines.

6 Council may also, in its discretion and on the recommendation of University Honours Committee:
   a award the title ‘Professor Emeritus’ to a retired member of the academic staff who held the office of a Professor of the University immediately before their retirement
   b award the title ‘Distinguished Professor Emeritus’ to a retired member of the academic staff who held the office of a Distinguished Professor of the University immediately before their retirement
   c award the title ‘University Librarian Emeritus’ to a retired member of staff who held the office of University Librarian immediately before their retirement and who has a record of long and distinguished service to the University as the University Librarian.

7.1 University Honours Committee may recommend to Council, for the conferment of an Honorary Doctor’s degree:
   a Any person who:
      (i) is academically distinguished, or has made a distinguished contribution in fields relevant to the University, and has, or has had, some intimate connection with the University
      or
      (ii) has shown strong interest in the well-being of the University by benefactions, or in other appropriate ways
      or
      (iii) is of international repute and is visiting, or has visited the University in an official capacity.

7.2 The contribution a current or retired staff member has made to the University in the course of their employment shall not be grounds for the award of an Honorary Doctor’s degree.

7.3 University Honours Committee may recommend to Council, for the conferment of a Fellowship, a person who:
   a has made a unique and valuable contribution to the University
   and
   b is not a permanent member of staff.

8 A nomination for the conferment of an honorary degree or a fellowship may be made by any three persons each of
whom is a member of Council or of Senate or of both these bodies; and shall be made confidentially to the Vice-Chancellor in accordance with the relevant provisions of the guidelines in force under Clause 5 of this Statute.

9 The Honorary Degrees and Awards Statute 1998 is hereby repealed.

Guidelines for the Award of Honorary Degrees and Fellowships

1 A nomination for an honorary degree or for the award of a fellowship shall be made confidentially in writing to the Vice-Chancellor and signed by three persons each of whom shall be a member of the Council or of Senate or of both these bodies.

2 Each nomination shall be accompanied by a statement outlining in sufficient detail the career, standing and qualifications of the nominee and the grounds under Clauses 7.1, 7.2 or 7.3 for conferring the degree or awarding the fellowship.

3 After consideration, the Vice-Chancellor shall refer each nomination that meets the requirements specified in the Honorary Degrees and Awards Statute together with its accompanying statement to the University Honours Committee of Council.

4 If Council approves a recommendation from the University Honours Committee that an honorary degree be conferred or a fellowship be awarded, the Vice-Chancellor shall invite the nominee to accept the award.

5 The conferring of honorary doctorate degrees shall not be confined to a graduation ceremony but shall be arranged at the discretion of the Council.

6 The award of a fellowship shall be arranged at the discretion of the Council.

REGULATIONS – ARTS

The Degree of Bachelor of Arts – BA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Arts Schedule, including
      (i) at least 180 points in courses above Stage I, of which at least 90 points must be above Stage II
      (ii) courses in a minimum of three subjects listed in the Bachelor of Arts Schedule
   b two majors of 120 points each from the Bachelor of Arts Schedule, of which at least 45 points must be above Stage II in each major
   c 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

4 a A student may include in their degree one or more modules of 45 points from one of the subjects available for modules in the Bachelor of Arts Schedule.
   b Courses passed for modules cannot also be counted for majors.

5 Up to 30 points may be taken from courses available for other programmes offered at this University.

General Education Exemptions

6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules and
   (ii) a further 15 points from courses available for this degree.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
8 For language courses, enrolment of students with prior knowledge of the language is at the discretion of the Academic Head or nominee.

a Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.

b If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course.

c A student who has passed or been credited with a language acquisition course may not enrol for a course which precedes that course in the sequence of language acquisition courses.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Arts (BA) Schedule

Requirement: • 75 points: ACADENG 210, LINGUIST 100, 200, 201, 203

Ancient History

The BA in Ancient History was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

Major may include up to 45 points from GREEK or LATIN courses listed below

| Stage I courses: ANCHIST 100–110, CLASSICS 110–140, GREEK 100, 101, LATIN 100, 101 | Requirement: • at least 15 points from ANCHIST 100, 102, 103, 110 |
| Stage II courses: ANCHIST 200–263, CLASSICS 210–285, GREEK 200–204, LATIN 200–205 | • at least 75 points from ANCHIST 100–379 including at least 30 points from ANCHIST 300–379 |
| Stage III courses: ANCHIST 300–379, CLASSICS 310–385, GREEK 300–310, LATIN 300–310 | Major must include: |

Anthropology

| Stage I courses: ANTHRO 103–109, MĀORI 130 | Requirement: • at least 30 points from ANTHRO 103–109 |
| Stage II courses: ANTHRO 200–202, 205–251, MĀORI 230 | • at least 15 points from ANTHRO 200, 201, 202, 203 |
| Stage III courses: ANTHRO 301–374, MĀORI 330, 396 |

Art History

| Stage I courses: ARTHIST 107–109, 114, 115, HUMS 101 | Requirement: • at least 15 points from ANTHRO 302, 303, 304, CHINESE 303, 339, HISTORY 313, 335 |
| Stage II courses: ARTHIST 200–247, ANCIENT 280, PHIL 212 | • at least 15 points from CHINESE 301, 302, TRANSLAT 300 |
| Stage III courses: ARTHIST 300–347, HUMS 300 | • 30 points from ASIAN 100, 101, 102, 103, 104, 200, 201, 202, 203 |

Chinese

| Stage I courses: ASIAN 100, CHINESE 130, HISTORY 103, JAPANESE 150, KOREAN 120 |
| Stage II courses: ASIAN 200, 202–209, CHINESE 203, COMPLIT 206, HISTORY 213, 225, JAPANESE 240, 241, 243, 270, KOREAN 205, POLITICS 211, 254 |
| Stage III courses: ANTHRO 327, 329, ASIAN 300, 302, 303, 309, CHINESE 303, COMPLIT 302, ECON 343, GEOG 322, HISTORY 313, 335, INTBUS 306, JAPANESE 308, 340, 341, 343, 370, 385, KOREAN 305, 381 |

Requirement: • 30 points: ASIAN 100, 303

Classical Studies

The BA in Classical Studies was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

Major may include up to 45 points from GREEK or LATIN courses listed below
### Classical Studies and Ancient History

**Stage I courses:** ANCIENT 100–130, GREEK 100, 101, LATIN 100, 101
**Stage II courses:** ANCIENT 200–285, ANTHRO 200, 206, GREEK 200–204, LATIN 200–205, PHIL 204
**Stage III courses:** ANCIENT 302, 314, 322, 324, 351, 354–356, 358–360, 362, GREEK 300–310, LATIN 300–310
**Major must include:**
- at least 45 points from COMMS 301–309, MEDIA 314, 327, MKTG 306
- at least 45 points from BUSINESS 291, COMMS 200–208, MEDIA 214, 216, 222, POLITICS 233, SCIGEN 201, SCREEN 200, 201
- at least 30 points from DRAMA 301–306
- at least 15 points from ANCIENT 100–130
- at least 15 points from ANCIENT 200–208
- at least 45 points from ANCIENT 300–385

![Table of courses](https://example.com/table.png)

### Communication

**Stage I courses:** BUSINESS 151, COMMS 100–105, DRAMA 100, ENGLISH 121, MĀORI 130, MKTG 151, PACIFIC 105, SCIGEN 101
**Stage II courses:** BUSINESS 291, COMMS 200–208, 213, MĀORI 271, MEDIA 212, 214, 222, POLITICS 233, SCIGEN 201, SCREEN 200, 201
**Stage III courses:** COMMS 301–309, 312, 318, MEDIA 314, 327, 328, MKTG 306, POLITICS 345, SCIGEN 301, SOCIOL 318
**Major must include:**
- 30 points from COMMS 100–105
- 30 points from COMMS 200–213
- 30 points from COMMS 301–318, MEDIA 314

### Criminology

**Stage I courses:** CRIM 100, MĀORI 130, PHIL 104, POLITICS 109, SOCIOL 100, 101, 103
**Stage II courses:** ARTHIST 230, CRIM 200–209, HISTORY 227, PHIL 217, SOCIOL 203
**Stage III courses:** ARTHIST 332, CRIM 301–310, HISTORY 327, MĀORI 335, PHIL 337, POLITICS 320, SOCIOL 315, 326, LAW/PUBL 423
**Requirement:**
- 30 points: CRIM 207, 301

### Drama

**Stage I courses:** ANCIENT 110, DANCE 101, DRAMA 100, MĀORI 190, MUS 145, PACIFIC 110
**Stage II courses:** ANCIENT 225, 285, DANCE 201, DRAMA 202–205, ENGLISH 213, 265, EUROPEAN 207, MĀORI 292, MUS 245–248, PACIFIC 210
**Stage III courses:** ANCIENT 325, 385, DRAMA 301–307, ENGLISH 310, 353, EUROPEAN 307, MĀORI 393, PACIFIC 310
**Requirement:**
- 60 points: DRAMA 100, 202
- at least 30 points from DRAMA 301–306
French
Stage I courses: EUROPEAN 100
Stage II courses: COMPLIT 200–210, EUROPEAN 200–278, FRENCH 203–279
Requirement:
• 15 points: EUROPEAN 100
• 15 points from FRENCH 204, 214, 218, 229, 239, 241, 244, 269, 279
• 30 points from FRENCH 304, 305, 377, 378
• at least 15 points from FRENCH 306, 308, 314, 320, 322, 329, 331, 339, 341, 344, 349, 379
• up to 30 points from EUROPEAN 200–378

Gender Studies
Stage I courses: ANTHRO 106, ENGLISH 102, GENDER 101, POLITICS 109
Stage III courses: ANTHRO 316, ARTHIST 342, 354, 357, 358, ARTHIST 333, ASIAN 303, COMMS 304, COMPLIT 303, CRIM 303, ENGLISH 346, 354, GENDER 301–307, HISTORY 326, 341, PACIFIC 307, PHIL 345, PSYCH 319, SOCIOL 315, 322, 326, THEOREL 311
Requirement:
• 30 points: GENDER 101, 208
• at least 15 points from GENDER 301–307

Geography
Stage I courses: EARTHSCI 105, GEOG 101–140
Stage II courses: GEOG 202–262, GISC 241, 242
Stage III courses: GEOG 302–399, GISC 341, 343
Requirement:
• 30 points: GEOG 101, 102
• 15 points: GEOG 250
• 15 points from GEOG 202, 205, 261, 262
• a further 15 points from GEOG 202, 205, 261, 262, GISC 241, 242
• 15 points: GEOG 399

German
Stage I courses: EUROPEAN 100, GERMAN 106, 178
Stage II courses: COMPLIT 200–210, EUROPEAN 200–278, GERMAN 201–291, HISTORY 217
Requirement:
• 45 points: EUROPEAN 100, GERMAN 201, 301
• at least 30 points from GERMAN 106, 210–260, 291, 303–360, 391
• up to 30 points from COMPLIT 200–306, EUROPEAN 200–378

Greek
The BA in Greek was suspended in 2021. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.
Stage I courses: ANCIENT 102–130, GREEK 100, 101, LATIN 100, 101
Stage II courses: ANCIENT 200–285, GREEK 200–204, LATIN 200–205
Stage III courses: ANCIENT 300–385 GREEK 300–310, LATIN 300–310
Requirement:
• at least 30 points from GREEK 300–310

Health and Society
Stage I courses: HLTHSOC 100, MĀORI 130, POPHLTH 102, STATS 150
Stage II courses: ANTHRO 208, 225, HISTORY 210, 227, HLTHSOC 201–203, PACIFIC 213, POPHLTH 204, 210
Stage III courses: ANTHRO 337, 372, 376, GEOG 305, HISTORY 327, 367, HLTHSOC 301–305, PACIFIC 313, POPHLTH 312, 313, SOCIOL 326, 333
Stage IV course: LAWGENRL 432
Requirement:
• 45 points: HLTHSOC 100, 201, 301

History
Stage I courses: ASIAN 100, EUROPEAN 100, HISTORY 103–108, HUMS 101
Stage II courses: ANCIENT 255, ARTHIST 225, HISTORY 201–271, PACIFIC 214, POLITICS 229
Stage III courses: ANCIENT 355, ARTHIST 325, HISTORY 300–371, HUMS 300, MĀORI 396, PACIFIC 314

Italian
Stage I course: EUROPEAN 100
Stage II courses: ARTHIST 236, COMPLIT 200, 202, 210, EUROPEAN 200, 207, ITALIAN 201, 202, 204–209, 211, 235–278, MUS 243
Stage III courses: ITALIAN 300, 301, 305–379
Requirement:
• 45 points: EUROPEAN 100, ITALIAN 201, 300
• at least 15 points from ITALIAN 202, 204, 209, 211
• at least 30 points from ITALIAN 301, 305, 330, 333–338, 355, 356
• up to 30 points from ARTHIST 236, COMPLIT 200, 202, 210, EUROPEAN 200, 207

Japanese
Stage I courses: ASIAN 100, JAPANESE 130–150
Stage II courses: HISTORY 225, JAPANESE 222–292
Stage III courses: HISTORY 335, JAPANESE 300, 307–392
Requirement:
• 45 points: ASIAN 100, JAPANESE 150, 332
• 30 points from HISTORY 225, JAPANESE 222, 240–270, 292
• 15 points from JAPANESE 307–324, 340, 341, 343, 370, 381–392, HISTORY 335

Korean
Stage I courses: ASIAN 100, KOREAN 110–120
Stage II courses: ASIAN 204, 209, KOREAN 200–278
Stage III courses: ASIAN 302, 309, KOREAN 300–381
Requirement:
• 45 points: ASIAN 100, KOREAN 120, 301
• 30 points from ASIAN 204, 209, KOREAN 205
• 15 points from ANTHRO 329, ASIAN 302, 309, KOREAN 305

Latin
Stage I courses: ANCIENT 102–130, GREEK 100, 101, LATIN 100, 101
Stage II courses: ANCIENT 200–285, GREEK 200–204, LATIN 200–205
Stage III courses: ANCIENT 300–385, GREEK 300–310, LATIN 300–310
Requirement:
• at least 30 points from LATIN 300–310

Linguistics
Stage I courses: LINGUIST 100, 101
Stage II courses: LINGUIST 200–209
Stage III courses: LINGUIST 300–324
Requirement:
• 15 points: LINGUIST 100
• 60 points: LINGUIST 200, 201, 300, 301
### Logic and Computation

**Stage I courses:** COMPSCI 101, 120, 130, LINGUIST 100, MATHS 102, PHIL 101, 105  
**Stage II courses:** COMPSCI 220, 225, LINGUIST 200, 201, LOGICOMP 201, MATHS 250, 253, 254, 255, PHIL 222, 216  
**Stage III courses:** COMPSCI 320, 350, 367, LINGUIST 300, LOGICOMP 300–399, MATHS 315, 326, 328, PHIL 306, 315, 323  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Māori Studies

**Stage I courses:** COOKIS 101, MĀORI 101–190, POLITICS 107  
**Stage II courses:** ANTHRO 207, ARTHIST 238, COOKIS 201, 204, HISTORY 227, 260, MĀORI 200–292, POLITICS 229  
**Stage III courses:** ARTHIST 338, COOKIS 300, 301, HISTORY 360, HUMS 300, MĀORI 301–396  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Mathematics

**Stage I courses:** MATHS 102–190  
**Stage II courses:** COMPSCI 225, MATHS 208–270, STATS 210  
**Stage III courses:** ENGSCI 391, MATHS 302–363, STATS 310, 325, 370  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Media, Film and Television

**Stage I courses:** COMMS 100, 104, MEDIA 101  
**Stage II courses:** CHINESE 203, COMMS 202, FRENCH 239, GERMAN 230, KOREAN 205, MĀORI 202, MEDIA 202–236  
**Stage III courses:** CHINESE 303, COMMS 302–304, 318, FRENCH 339, KOREAN 305, MĀORI 303, MEDIA 307–336, SOCIOL 319  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Music

**Stage I courses:** ANTHRO 103, 106, MĀORI 190, MUS 103–111, 130, 143–182, PACIFIC 110  
**Stage II courses:** ANTHRO 202, 217, 234, MUS 203–207, 230, 231, 243–265, 276  
**Stage III courses:** ANTHRO 301, 327, 329, 357, MUS 306, 307, 330–334, 343–367, 376, 387, 389  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Pacific Studies

**Stage I courses:** COOKIS 101, HISTORY 104, PACIFIC 100, 105, 110, SAMOAN 101, TONGAN 101  
**Stage II courses:** ARTHIST 217, COOKIS 201, 204, PACIFIC 200-216, SAMOAN 201, TONGAN 201  
**Stage III courses:** ARTHIST 317, COOKIS 300, 301, PACIFIC 300–316, SAMOAN 301, TONGAN 301  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Philosophy

**Stage I courses:** PHIL 100–105  
**Stage II courses:** PHIL 200–208  
**Stage III courses:** LOGICOMP 301, PHIL 300–368

### Politics and International Relations

**Stage I courses:** POLITICS 106–109  
**Stage II courses:** COMMS 201, HISTORY 227, PHIL 205, POLITICS 201–254  
**Stage III courses:** COMMS 304, MĀORI 330, 335, PHIL 310, POLITICS 300–356

### Psychology

**Stage I courses:** PSYCH 108, 109, STATS 100–125  
**Stage II courses:** PSYCH 200–209  
**Stage III courses:** EDUC 323 , EXERSCI 307, PSYCH 300–320, 326–328  
**Major must include:**  
- at least 30 points from PSYCH 108, 109  
- at least 15 points from STATS 100–125  
- at least 45 points from PSYCH 200–209  
- at least 45 points from EDUC 323, EXERSCI 307, PSYCH 300–326

### Screen Production

The BA in Screen Production was suspended in 2021. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

A major in this subject requires the approval of the Academic Head or nominee.

**Stage I courses:** COMMS 100, 104, MEDIA 101  
**Stage II courses:** ANTHRO 212, COMMS 202, 203, MĀORI 202, MEDIA 202–236, SCREEN 200, 201  
**Stage III courses:** COMMS 302, 307, MĀORI 303, MEDIA 307–336, SCREEN 300–303  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204, 301, 302

### Social Science for Public Health

The BA in Social Science for Public Health was suspended in 2020. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

**Stage I courses:** ANTHRO 100, 102, ASIAN 140, GEOG 102, 104, HISTORY 107, MĀORI 130, PACIFIC 105, PHIL 104, POLITICS 107, POPPLHLTH 101, 102, SOCIOL 101, 103  
**Stage II courses:** ANTHRO 208, 241, GEOG 202, HISTORY 210, PACIFIC 206, POLITICS 222, 229, POPPLHLTH 203, 204, SOCSCHIP 200  
**Stage III courses:** ANTHRO 337, 366, GEOG 305, HISTORY 367, MĀORI 335, PACIFIC 306, SOCIOL 333, SOCSCHIP 300  
**Requirement:**  
- at least 15 points from POPPLHLTH 101, 102, 203, 204  
- at least 15 points from ANTHRO 208, GEOG 305, HISTORY 367, SOCIOL 333

### Sociology

**Stage I courses:** SOCIOL 100–105  
**Stage II courses:** CRIM 205, GENDER 208, SOCIOL 200–229  
**Stage III courses:** GENDER 301, SOCIOL 300–340  
**Requirement:**  
- at least 45 points from MĀORI 101, 103, 104, 201, 203, 204  
- at least 15 points from ANTHRO 208, GEOG 305, HISTORY 367, SOCIOL 333

### Spanish

**Stage I courses:** EUROPEAN 100, SPANISH 178  
**Stage II courses:** COMPLIT 200–210, EUROPEAN 200, 206, 207, LATINAM 201, 210, 216, MUS 243, SPANISH 201–278  
**Stage III courses:** EUROPEAN 300, 302, 307, LATINAM 301–325, SPANISH 302–378
Statistics

Stage I courses: COMPSCI 101, DATASCI 100, MATHS 108, 120, 130, 162, STATS 100–150
Stage II courses: MATHS 208, 250, 269, STATS 201–250
Stage III courses: ENGSCI 391, STATS 301–389, 399

Requirement:
• 15 points: STATS 101–125
• a further 15 points from DATASCI 100, STATS 101–150
• 15 points from MATHS 201, 208, 210, 225
• a further 30 points from MATHS 208 or 250, STATS 201–255
• 15 points from STATS 310, 325, 330, 380
• a further 30 points from ENGSCI 391, STATS 301–389

Teaching English to Speakers of Other Languages

Completion of this major does not meet New Zealand teacher registration requirements.

Stage I courses: ACADENG 101, ENGWRIT 101, EDUC 117, LANGTCHG 101, LINGUIST 100, 101, any language acquisition course
Stage II courses: LANGTCHG 202 or LINGUIST 203, LANGTCHG 205, 207, 209

Requirement:
• 15 points LANGTCHG 101

Theological and Religious Studies

Stage I courses: THEOREL 101, 102, 106

Additional courses available for the BA:

Academic English Studies
Stage I courses: ACADENG 100–104
Stage II courses: ACADENG 210, 212

Arts General
Stage I courses: ARTSGEN 103, 104
Stage III course: ARTSGEN 300

Astrosciences
Stage I course: ASTRO 100

Biological Sciences
Stage I course: BIOSCI 100

Career
Stage I course: CAREER 100, 101
Stage III course: CAREER 300

Comparative Literature
Stage II courses: COMPLIT 200–210
Stage III courses: COMPLIT 302–306

Computer Science
Stage I courses: COMPSCI 101, 111, 130

Cook Islands Māori
Stage I course: COOKIS 101

Pacific Studies
Minor must include:
• PACIFIC 100, 200

Screen Production
A minor in this subject requires the approval of the Academic Head or nominee.
Minor must include:
• COMMS 100, FTVMS 101, SCREEN 200, 201

Social Science for Public Health
Minor must include:
• SOCSCIIPH 200, 300 and at least 15 points from POPLHLTH 101, 102, 203, 204, 207

Spanish
Minor must include:
• SPANISH 105

Statistics
Minor must include:
• at least 60 points from STATS 101-390

Teaching English to Speakers of Other Languages
Minor must include:
• LANGTCHG 101, 202, 207, 301

Theological and Religious Studies
Minor must include:
• at least 15 points from THEOREL 100–106 and THEOREL 201

Stage II course: COOKIS 201

English Writing
Stage I course: ENGWRIT 101

French
Stage I courses: FRENCH 101, 102
Stage II courses: FRENCH 203, 230

German
Stage I courses: GERMAN 101, 102
Stage II course: GERMAN 200

Humanities
Stage I course: HUMS 101
Stage III course: HUMS 300

Italian
Stage I courses: ITALIAN 100, 106, 107, 177
Stage II courses: ITALIAN 200, 203, 210, 212, 232
Stage III course: ITALIAN 304

Physics
Stage I course: PHYSICS 102

Russian
Stage I courses: RUSSIAN 100, 101
The Degree of Bachelor of Communication – BC

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.

Duration and Total Points Value

1. A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2. Of the 360 points required for this degree, a student must pass:
   a. at least 315 points from courses listed in the Bachelor of Communication Schedule, including:
      i. at least 180 points in courses above Stage I, of which at least 90 points must be above Stage II
      ii. 120 points from the Core Courses listed in the Bachelor of Communication Schedule
      iii. a major of at least 135 points from the Bachelor of Communication Schedule
      iv. 45 points from one of the modules listed in the Bachelor of Communication Schedule
   b. 30 points from courses offered in either the General Education Open schedule or the General Education Faculty schedule approved for this degree or from a combination of these schedules.

3. Up to 15 points may be taken from other undergraduate courses offered at this University.

4. A student must complete the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5. A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions

6. a. A student is exempted from the requirement to pass courses offered in the General Education Schedule who has:
      i. completed an undergraduate degree at a tertiary institution
      or
      ii. been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b. A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

   c. A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
      i. 15 points from courses offered in the General Education Schedules
      and
      ii. a further 15 points from courses available for this degree.
Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
9 These regulations came into force on 1 January 2022.

### The Degree of Bachelor of Theology – BTheol
*New admissions into the Degree of Bachelor of Theology were suspended in 2014. Students who have a current enrolment in this qualification should contact their faculty regarding completion.*

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Duration and Total Points Value
1. A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

#### Structure and Content
2. Of the 360 points required for this degree, a student must pass:
   a. at least 255 points from courses listed in the Bachelor of Theology Schedule, including 180 points above Stage I of which at least 75 points must be above Stage II
   and
   b. a student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
c Up to 45 points may be taken from courses in the Bachelor of Arts Schedule with the approval of the Academic Head or nominee.

d Up to 30 points may be taken from courses in other Bachelor programmes offered at this University.

**General Education Exemptions**

3 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

- either
  - (i) completed an undergraduate degree at a tertiary institution
  - or
  - (ii) commenced study for this degree at a tertiary institution before 1 January 2006
  - or
  - (iii) been admitted to this degree with credit from another tertiary institution of 240 points or more.

b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.

(ii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

c A student admitted to this degree with credit from another tertiary institution of between 120 and 235 points inclusive, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:

- (i) 15 points from courses offered in the General Education Schedules

- (ii) a further 15 points from courses available for this degree.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

**Conjoint Degrees**

4 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

**Variations**

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

6 These regulations and/or schedule have been amended with effect from 1 January 2022.

---

**Bachelor of Theology (BTheol) Schedule**

| Stage I courses: THEOLOGY 101–107, 135, 136, 175, 176 |

**BTheol must include:**

- 60 points: THEOLOGY 103, 104, 107, 201
- 15 points from THEOLOGY 301, 303, 304, 306, 308, 330
- 60 points from THEOLOGY 310–313, 315, 319, 321–327, 331–335, 354, 355

---

**The Degree of Bachelor of Arts (Honours) – BA(Hons)**

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this programme, a student must have:

a completed the requirements for the Degree of Bachelor of Arts or Bachelor of Global Studies from this University or an equivalent qualification as approved by Senate or its representative

-and

b passed the specified prerequisite courses for one of the subjects listed in the Bachelor of Arts (Honours) Schedule with a Grade Point Average of 5.0 or higher in 45 points above Stage II in that subject, or the equivalent as approved by Senate or its representative

-and
c passed the specified prerequisite courses as listed in the Bachelor of Arts (Honours) Schedule for the intended subject, or the equivalent as approved by Senate or its representative.

2 A student who has not completed all the requirements for the Degree of Bachelor of Arts or Bachelor of Global Studies but who has:
   a passed courses with a total value of at least 345 points for that degree
   and
   b achieved a Grade Point Average of 5.0 or higher in 45 points above Stage II in the subject intended for the Bachelor of Arts (Honours)
   and
   c passed the specified prerequisite courses as listed in the Bachelor of Arts (Honours) Schedule for the intended subject
   may, with the approval of the relevant Academic Head or nominee, enrol for this degree. The remaining courses for the Degree of Bachelor of Arts or Bachelor of Global Studies must be passed within the first semester of enrolment for the Bachelor of Arts (Honours). The Degree of Bachelor of Arts (Honours) will not be awarded until the requirements for the Degree of Bachelor of Arts or Bachelor of Global Studies have been completed.

Notes:
(i) This programme includes some subjects that are limited entry as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.

(ii) Applicants to Preparatory Clinical Psychology must be able to demonstrate professional attributes suitable for becoming a clinical psychologist. A written supplementary application, personal references and an interview will normally be required.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this degree, a student must pass:
   a at least 120 points in one of the subjects listed in the Bachelor of Arts (Honours) Schedule
   or
   b (i) at least 90 points in one of the subjects listed in the Bachelor of Arts (Honours) Schedule
   and
   (ii) up to 30 points may be taken from other subjects listed in the Bachelor of Arts (Honours) Schedule, or from other 700 level courses offered at this University. The approval of all Academic Heads or nominees concerned is required.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 The programme for each student requires the approval of the relevant Academic Head or nominee and the Dean of Faculty of Arts.

Dissertation / Research Essay / Research Project
8 a The dissertation or research essay or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The dissertation or research essay or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.

   c The dissertation or research essay or research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
9 A student may apply to reassign courses passed from this programme to the Graduate Diploma in Arts or the Postgraduate Diploma in Arts.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.
Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Arts (Honours) (BA(Hons)) Schedule

Subjects available:

Anthropology
Prerequisite: A major in Anthropology or Anthropological Science, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 30 points from ANTHRO 700, 719, 727, 733, 753, 760, 761, 762, 763
- a further 60 points from ANTHRO 700–763
- 30 points from ANTHRO 780 Research Project or ANTHRO 782 Research Essay

Art History
Prerequisite: A major in Art History, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 90 points from ARTHIST 700–738, 793, MUSEUMS 700, 702, 704, 705, 750
- 30 points: ARTHIST 790 Research Project

Asian Studies
Prerequisite: A major in Chinese, Japanese or Korean, or an equivalent subject approved by the Academic Head or nominee, or a major in Asian Studies or an equivalent subject approved by the Academic Head or nominee with relevant language skills approved by the Academic Head or nominee

- 60 points from ANCIENT 719, 749–751, 756
- 45 points: ANCIENT 792 Dissertation

Criminology
Prerequisite: A major in Criminology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 90 points from CRIM 701–710, SOCIOL 703, 713, 740, 742
- 30 points: CRIM 780 Research Project

Development Studies
Prerequisite: A major in one of the subjects listed below, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 60 points: DEVELOP 701, 709, 710, 712
- 30 points from ANTHRO 753, CHINESE 727, DEVELOP 702–706, 713–717, ECON 771, EDUC 705, 710, 766, ENVMGT 744, 746, GEOG 714, 715, INDIGEN 711, 712, MĀORI 732, 743, PACIFIC 700, POLITICS 707, 710, 724, 731, 750, 751, SOCIOL 700, 713, 718, 735
- 30 points: DEVELOP 780 Research Project

Drama
Prerequisite: A major in Drama, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 90 points from DRAMA 708, 710, 711, 718–722, 724–726, 730, EDUC 737, 756, ENGLISH 703, 706, 709, 711
- 30 points: DRAMA 790 Research Project or ENGLISH 781 Research Project

Economics
Prerequisite: A major in Economics, or an equivalent subject approved by the Academic Head or nominee including ECON 301, 311, 321 or equivalent courses approved by the Academic Head or nominee
Requirement:
- 30 points: ECON 701 and 711
- 15 points from ECON 721, 723, 726
- 45 points from ECON 702–784
- 30 points: ECON 788 Research Essay

Education
Prerequisite: A major in Education, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 90 points from EDPROFM 700, 702, EDPROFST 754, EDUC 702–787, 791
- 30 points: EDUC 790 Research Project

Employment Relations and Organisation Studies
Prerequisite: A major in Employment Relations and Organisation Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- 15 points: BUSINESS 710
- 60 points from GLMI 705–708
- 15 points from BUSINESS 704, 705, 711, 712, GLMI 709–712, 750, 751
- 30 points: GLMI 780 Research Essay
English
Prerequisite: A major in English or Writing Studies, or an equivalent subject
approved by the Academic Head or nominee
Requirement:
• 90 points from DRAMA 708, 718, ENGLISH 700–779, 782–787

French
Prerequisite: A major in French, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 90 points from FRENCH 701, 705–778
• 30 points: FRENCH 790 Research Project

Gender Studies
Prerequisite: A major in Gender Studies, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 30 points: GENDER 700
• 60 points from DEVELOP 702, DRAMA 708, ENGLISH 702, 709, 731,
FRENCH 729, GENDER 701–706, HISTORY 706, 707, 725, 736,
MEDIA 711, PHIL 740, POLITICS 724, POPHLTH 769, PSYCH 755,
SOCCHFAM 700, SOCHLTH 756, SOCIO 700, 728, 735, SPANISH 722, 738
• 30 points: GENDER 780 Research Project
or
• 30 points: GENDER 700
• 45 points from DEVELOP 702, DRAMA 708, ENGLISH 702, 709, 731,
FRENCH 729, GENDER 701–706, HISTORY 706, 707, 725, 736,
MEDIA 711, PHIL 740, POLITICS 724, POPHLTH 769, PSYCH 755,
SOCCHFAM 700, SOCHLTH 756, SOCIO 700, 728, 735, SPANISH 722, 738
• 45 points GENDER 785 Dissertation

Geography
Prerequisite: A major in Geography, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 15 points: GEOG 701
• at least 60 points from EARTHSCI 705, 713, 732, ENVMGT 741–782,
ENVSCI 704, 713, 737, 738, GEOG 712–779
• a further 15 points from other approved 700 level courses offered at
this University
• 30 points: GEOG 789 Research Project

German
Prerequisite: A major in German, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• at least 60 points from GERMAN 703–778
• up to 30 points from COMPLIT 705, 709, LANGTCHG 710, 716, 739,
740, 746, 751, 752, 757, 761, 762, 764, 765, LINGUIST 709, 720, 722,
724, 736, TRANSLAT 713, 719
• 30 points: GERMAN 780 Research Project

Greek
New admissions into the BA(Hons) in Greek were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.
Prerequisite: A major in Greek, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 45 points: GREEK 707, 714
• 30 points from ANCIENT 719, 749–751, 756, GREEK 709
• 45 points: GREEK 792 Dissertation

History
Prerequisite: A major in History, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 30 points: HISTORY 737
• 60 points from HISTORY 700–761
• 30 points: HISTORY 780 Research Project

Italian
Prerequisite: A major in Italian, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 90 points from COMPLIT 705, ITALIAN 700–778
• 30 points: ITALIAN 780 Research Project or ITALIAN 782 Research Essay

Japanese
Prerequisite: A major in Japanese, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• at least 90 points from ASIAN 702, 752–759, HISTORY 707, JAPANESE

• at least 60 points from 700 level courses, including research essays or
projects, in one of the subjects available
• at least 30 points from 700 level courses, including research essays or
projects, in another of the subjects available or Comparative Literature
• at least 30 points from appropriate 700 level language competence
courses, in a language other than the first language taken for this degree
• Research essays to the value of at least 30 points must be included in
the programme

Latin
Prerequisite: A major in Latin, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 45 points: LATIN 707, 714
• 30 points from LATIN 709, ANCIENT 719, 749–751, 756
• 45 points: LATIN 792 Dissertation

Linguistics
Prerequisite: A major in Linguistics, or an equivalent subject approved by the
Academic Head or nominee
Requirement:
• 90 points from LINGUIST 700–743
• 30 points: LINGUIST 790 Research Project

Logic and Computation
New admissions into the BA(Hons) in Logic and Computation were suspended in 2021. Students who have a current enrolment in this subject...
should contact their faculty for advice regarding completion.

**Prerequisite:** A major in Logic and Computation, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 15 points from COMPSCI 720, 750, 760, 767
- 15 points from PHIL 736–738
- a further 60 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738
- 30 points: LOGICOMP 782 Research Project

**Māori Studies**

**Prerequisite:** A major in Māori Studies, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 75 points from ARTHIST 730, INDIGEN 711, 712, MĀORI 700–750
- 45 points: MĀORI 785 Dissertation
- 90 points from ARTHIST 730, INDIGEN 711, 712, MĀORI 700–750
- 30 points: MĀORI 790 Research Project

**Mathematics**

New admissions into the BA(Hons) in Mathematics were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

**Prerequisite:** A major in Mathematics, or an equivalent subject approved by the Academic Head or nominee including either MATHS 332 and MATHS 320 or 329, or MATHS 340, 361, 363 or equivalent courses approved by the Academic Head or nominee

**Requirement:**
- 90 points from MATHS 701–710, 712–770, 781–784, 786–789
- 30 points: MATHS 776 Research Project
- at least 45 points from MATHS 701–710, 712–770, 781–784, 786–789
- up to 45 points, subject to approval by the Academic Head, from 700 level courses in a related subject
- 30 points: MATHS 776 Research Project

**Media and Communication**

**Prerequisite:** A major/specialisation in Communication or Media, Film and Television, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 90 points from COMMS 700–713, MEDIA 704–746
- 30 points: MEDIA 781 Research Project

**Museums and Cultural Heritage**

**Prerequisite:** A major in Anthropology, Art History, History, Māori Studies, Museums and Cultural Heritage or Sociology, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 45 points: MUSEUMS 702, 704
- 45 points from ANTHRO 704, 708, 742, 756, ARTHIST 700, 703, 706, 719, 730, 731, 732, 734, ENGLISH 718, HISTORY 705, 712, MĀORI 741, MUSEUMS 700, 701, 705, 706, 750, 751, 760, 761
- 30 points: MUSEUMS 780 Research Project

**Music**

New admissions into the BA(Hons) in Music were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

**Prerequisite:** A major in Music, or its equivalent approved by the Academic Head or nominee

**Requirement:**
- 90 points from ANTHRO 727, 728, 733, 753, MUS 742–768

**Pacific Studies**

**Prerequisite:** A major in Pacific Studies, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 60 points: PACIFIC 700, 714
- 30 points from ARTHIST 730, 732, DEVELOP 702, EDUC 710, 712, ENGLISH 700, GEOG 715, HISTORY 712, INDIGEN 711, 712, MĀORI 700, MUSEUMS 705, PACIFIC 701–716
- 30 points: PACIFIC 785 Research Project

**Philosophy**

**Prerequisite:** A major in Philosophy, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 90 points from PHIL 701, 720–759, 765, 768–773
- 30 points: PHIL 782 Research Project

**Politics and International Relations**

**Prerequisite:** A major in Politics and International Relations, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 90 points from POLICY 701, 702, 742, POLITICS 700–724, 731–777
- 30 points: POLITICS 780 Research Project

**Psychology**

**Prerequisite:** A major in Psychology, or an equivalent subject approved by the Academic Head or nominee including PSYCH 306, or PSYCH 211, 323, 324, 325, or an equivalent course approved by the Academic Head or nominee

**Requirement:**
- 15 points: PSYCH 779
- 75 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–778
- 30 points: PSYCH 780 Research Project

**Preparatory Clinical Psychology**

- 15 points: PSYCH 779
- 60 points: PSYCH 708, 718, 723
- 15 points from PSYCH 700–770, 775–778
- 30 points: PSYCH 780 Research Project

**Screen Production**

**Prerequisite:** A major in Screen Production, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 90 points from SCREEN 700, 709–714
- 30 points: SCREEN 780 Research Project

**Sociology**

**Prerequisite:** A major in Sociology, or an equivalent subject approved by the Academic Head or nominee

**Requirement:**
- 60 points from GENDER 700, SOCIOL 700–713, 728–748
- 30 points: SOCIOL 718
- 30 points: SOCIOL 790 Research Project

**Spanish**

**Prerequisite:** A major in Spanish, or an equivalent subject approved by the Academic Head or nominee including at least two non-language acquisition courses, one of which must be at Stage III or equivalent courses approved by the Academic Head or nominee

**Requirement:**
- 90 points from SPANISH 718–723, 729–778
- 30 points: SPANISH 782 Research Project
Statistics

New admissions into the BA(Hons) in Statistics were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

Prerequisite: A major in Statistics, or an equivalent subject approved by the Academic Head or nominee including STATS 210 or 225, or an equivalent course approved by the Academic Head or nominee

Requirement:
- 90 points from STATS 700–703, 705, 708–780, 782–787
- 30 points: STATS 781 Research Project

The Degree of Master of Arts – MA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Arts from this University with 75 points above Stage II, including at least 45 points above Stage II in the prerequisite subject for the specialisation in which they intend to enrol with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   and
   (ii) passed the specified prerequisite courses for one of the subjects listed in the Master of Arts Schedule
   or
   b (i) the Degree of Bachelor of Arts (Honours) from this University with a Grade Point Average of 5.0 or higher in 90 points in the prerequisite subject for the specialisation in which they intend to enrol, or the equivalent as approved by Senate or its representative
   or
   (ii) the Postgraduate Diploma in Arts the specialisation in which they intend to enrol or the Postgraduate Diploma in Translation Studies from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative.

2 A student who has passed courses with a total value of only 345 points towards the Degree of Bachelor of Arts from this University and has passed:
   a all other requirements for the degree
   and
   b the specified prerequisite courses for one of the subjects listed in the Master of Arts Schedule with a Grade Point Average of 5.0 or higher in at least 45 points above Stage II in that subject
may, with the approval of the relevant Academic Head or nominee, enrol in the courses for this degree. The requirements for the Degree of Bachelor of Arts must be completed during the first semester of initial enrolment for the Degree of Master of Arts. Should these requirements not be completed within that semester, enrolment for the Degree of Master of Arts will be suspended until they have been completed.

3 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.

Duration and Total Points Value
4 A student admitted to this degree under Regulation 1a, 2 or 3 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements for one of the specialisations as listed in the Master of Arts Schedule.
b A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of courses taken for this degree.

c A student who has to complete 180 points may include up to 30 points from other approved 700 level courses offered at this or another university.

d A student who has to complete 120 points for a taught Masters may include up to 30 points from other approved 700 level courses offered at this University.

e Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

7 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation / Research Portfolio / Thesis
8 a The dissertation, research portfolio or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The dissertation, research portfolio or thesis topic must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.

c The dissertation, research portfolio or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Arts or Postgraduate Diploma in Language Teaching.

Distinction / Honours / Merit
10 This degree may be awarded with either Honours, Distinction or Merit in accordance with the General Regulations – Master Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Arts (MA) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

Ancient History
Prerequisite subject: Ancient History, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 120 points: ANCIENT 796 Thesis or ANCIENT 797 Research Portfolio
or
• 30 points from ANCIENT 719, 727, 728, 756
• 90 points: ANCIENT 794 Thesis

Anthropology
Prerequisite subject: Anthropology, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 120 points: ANTHRO 796 Thesis or ANTHRO 797 Research Portfolio
Taught Masters
• 60 points from ANTHRO 700–763
• 60 points: ANTHRO 790 Dissertation
or
• 75 points from ANTHRO 700–763
• 45 points: ANTHRO 792 Dissertation

Applied Linguistics
Students who are not native speakers of English and who have not had at least two years of secondary or tertiary education with English as the language of instruction will need a minimum of 6.5 IELTS (Academic) or equivalent.

Prerequisite subject: Language Teaching, Linguistics, TESOL, or a language, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 120 points: LANGTCHG 796 Thesis or LINGUIST 796 Thesis
Taught Masters
• 75 points from LANGTCHG 700–740, 746, 747, 751, 752, 754, 756, 760–765, LINGUIST 724, 731
• 45 points: LANGTCHG 757, 790 Research Project, or LINGUIST 792 Dissertation

Art History
Prerequisite subject: Art History, or an equivalent subject approved by the Academic Head or nominee

Requirement:
Research Masters
• 120 points: ARTHIST 795 Research Portfolio or ARTHIST 796 Thesis
Taught Masters
• 75 points from ARTHIST 700–738, MUSEUMS 700, 702, 704, 705, 750
• 45 points: ARTHIST 792 Dissertation

Asian Studies
Prerequisite subject: Asian Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: ASIAN 796 Thesis or ASIAN 797 Research Portfolio
or
• 30 points from ASIAN 708–758, CHINESE 730, 732–742, COMPLIT 703, 705, HISTORY 707, 737, JAPANESE 702, 703, 706, 745, 747, 748, POLITICS 751
• up to 30 points of postgraduate level study from an approved exchange with an overseas institution
• 90 points: ASIAN 793 Thesis

Chinese
Prerequisite subject: Chinese, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: CHINESE 796 Thesis or CHINESE 797 Research Portfolio
or
• 30 points from ASIAN 702, 752–759, CHINESE 730, 732–778, TRANSLAT 716
• 90 points: CHINESE 793 Thesis
Taught Masters
• 75 points from ASIAN 702, 752–759, CHINESE 730, 732–778, TRANSLAT 716
• 45 points: CHINESE 792 Dissertation

Criminology
Prerequisite subject: Criminology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: CRIM 796 Thesis or CRIM 797 Research Portfolio

Development Studies
Prerequisite subject: Anthropology, Asian Studies, Development Studies, Economics, Education, Geography, Global Studies, History, Māori Studies, Pacific Studies, Politics and International Relations or Sociology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: DEVELOP 796 Thesis
or
• 30 points: DEVELOP 709, 710
• 90 points: DEVELOP 794 Thesis
Taught Masters
• 60 points: DEVELOP 701, 709, 710, 712
• 15 points from ANTHRO 753, CHINESE 727, DEVELOP 702–706, 713–717, ECON 771, EDUC 705, 710, 766, ENVMT 744, 746, GEOG 714, 715, INDIGEN 711, 712, MĀORI 732, 743, PACIFIC 700, POLITICS 707, 710, 724, 731, 750, 751, SOCIOL 700, 713, 718, 735
• 45 points: DEVELOP 792 Dissertation or DEVELOP 793 Research Portfolio

Drama
Prerequisite subject: Drama, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: DRAMA 796 Thesis or DRAMA 797 Research Portfolio
or
• 30 points from DRAMA 708, 710, 711, 716, 718–726, 728, 730, EDUC 737, 756, ENGLISH 703, 706, 709, 711
• 90 points: DRAMA 793 or 795 Thesis
Taught Masters
• 120 points from DRAMA 708–711, 716–726, 728–730, EDUC 737, 756, ENGLISH 703, 706, 709, 711, including at least 45 points from DRAMA 709, 717, 770, 792 Dissertation

Economics
Prerequisite subject: Economics, or an equivalent subject approved by the Academic Head or nominee including ECON 701, 711 and either ECON 721 or 723 or equivalent courses approved by the Academic Head or nominee
Requirement:
Research Masters
• 30 points from ECON 701–783
• 90 points: ECON 794 Thesis
Taught Masters
• 75 points from ECON 701–783
• 45 points: ECON 792 Dissertation

Education
Prerequisite subject: Education, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: EDUC 796 Thesis or EDUC 797 Research Portfolio

Employment Relations and Organisation Studies
Prerequisite subject: Employment Relations and Organisation Studies, or an equivalent subject approved by the Academic Head or nominee including BUSINESS 710 and BUSINESS 704 or 705 or equivalent courses approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GLMI 796 Thesis

English
Prerequisite subject: English, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: ENGLISH 796 Thesis or ENGLISH 797 Research Portfolio
or
• 30 points from DRAMA 708, 718, ENGLISH 700–787
• 90 points: ENGLISH 793 Thesis
Taught Masters
• 75 points from DRAMA 708, ENGLISH 700–787
• 45 points: ENGLISH 792 Dissertation

French
Prerequisite subject: French, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: FRENCH 796 Thesis or FRENCH 797 Research Portfolio
or
• 30 points from FRENCH 708, 718, ENGLISH 700–787
• 90 points: FRENCH 793 Thesis
Taught Masters
• 75 points from FRENCH 701–778
• 45 points: FRENCH 792 Dissertation

Gender Studies
Prerequisite subject: Gender Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GENDER 796 Thesis or GENDER 797 Research Portfolio
Geography
Prerequisite subject: Geography, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GEOG 796 Thesis

German
Prerequisite subject: German, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GERMAN 796 Thesis or GERMAN 797 Research Portfolio
• at least 15 points from GERMAN 703–778
• up to 15 points from COMPLIT 701–778
• 90 points: GERMAN 793 Thesis
Taught Masters
• at least 60 points from GERMAN 703–778
• up to 15 points from COMPLIT 701–778
• 45 points: GERMAN 792 Dissertation

Greek
Prerequisite subject: Greek, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: GREEK 796 Thesis or GREEK 797 Research Portfolio
• 30 points from ANCIENT 719, 756, GREEK 709
• 90 points: GREEK 794 Thesis

History
Prerequisite subject: History, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: HISTORY 796 Thesis or HISTORY 797 Research Portfolio

Italian
Prerequisite subject: Italian, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: ITALIAN 796 Thesis or ITALIAN 797 Research Portfolio
• 30 points from ITALIAN 701–778
• 90 points: ITALIAN 793 Thesis
Taught Masters
• 75 points from ITALIAN 701–778
• 45 points: ITALIAN 792 Dissertation

Japanese
Prerequisite subject: Japanese, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: JAPANESE 796 Thesis or JAPANESE 797 Research Portfolio
• 30 points from ASIAN 702, 752–759, HISTORY 707, JAPANESE 702–745, 747, 748
• up to 30 points of postgraduate level study from an approved exchange with an overseas institution

Languages and Literature
New admissions into the MA in Languages and Literature were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.
Prerequisite subject: Languages and Literature, or one of the subjects listed below, or an equivalent subject approved by the Academic Head or nominee and 90 points in another of the subjects listed below including a language competence course at Stage III or equivalent language competence approved by the Academic Head or nominee
Subjects: Chinese, English, French, German, Greek, Italian, Japanese, Korean, Latin, Māori Studies, Spanish
Requirement:
Research Masters
• 120 points: LANG Lit 796 Thesis or LANG Lit 797 Research Portfolio
• 90 points: Thesis in one of the subjects available
Taught Masters
• at least 15 points from 700 level courses in one of the subjects available
• at least 30 points from 700 level courses in another of the subjects available
• at least 30 points from appropriate 700 level language competence courses, in a language other than the student’s first language for this degree if those points have not been taken in that language for the BA(Hons) or PGDipArts
• 45 points: LANG Lit 792 Dissertation

Latin
Prerequisite subject: Latin, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: LATIN 796 Thesis or LATIN 797 Research Portfolio
• 90 points: LATIN 794 Thesis

Linguistics
Prerequisite subject: Linguistics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: LINGUIST 796 Thesis
• 90 points: LINGUIST 793 Thesis
Taught Masters
• 75 points from LINGUIST 700–743
• 45 points: LINGUIST 792 Dissertation

Logic and Computation
New admissions into the MA in Logic and Computation were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.
Prerequisite subject: Logic and Computation, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
• 120 points: LOGICOMP 796 Thesis
Māori Studies
Prerequisite subject: Māori Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: MĀORI 796 Thesis or MĀORI 797 Research Portfolio

Mathematics
New admissions into the MA in Mathematics were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.
Prerequisite subject: Mathematics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: MATHS 796 Thesis
- 30 points from MATHS 701–770, 777, 781–789, 792–794 or approved 700 level courses in related subjects with the approval of the Academic Heads or nominees
- 90 points: MATHS 798 Research Portfolio

Media and Communication
Prerequisite subject: Communication or Media, Film and Television, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: MEDIA 796 Thesis or MEDIA 797 Research Portfolio
- 60 points from COMMS 700–713, MEDIA 704–746
- 60 points: MEDIA 793 Dissertation

Museums and Cultural Heritage
Prerequisite subject: Museums and Cultural Heritage, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: MUSEUMS 796 Thesis or MUSEUMS 797 Research Portfolio

Music
New admissions into the MA in Music were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.
Prerequisite subject: Music, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: MUS 796 Thesis

Pacific Studies
Prerequisite subject: Pacific Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: PACIFIC 796 Thesis or PACIFIC 797 Research Portfolio
- 75 points from ARTHIST 730, 732, DEVELOP 702, EDUC 710, 712, ENGLISH 700, GEOG 715, HISTORY 712, INDIGEN 711, 712, MĀORI 700, MUSEUMS 705, PACIFIC 701–716
- 45 points: PACIFIC 792 Dissertation
- 60 points from ARTHIST 730, 732, EDUC 710, 712, ENGLISH 700, GEOG 715, INDIGEN 711, 712, MĀORI 700, 710, 711, PACIFIC 701–716
- 60 points: PACIFIC 793 Dissertation

Philosophy
Prerequisite subject: Philosophy, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: PHIL 796 Thesis or PHIL 797 Research Portfolio
- 75 points from PHIL 701, 720–759, 765, 768, 769, 774–777
- 45 points: PHIL 792 Dissertation

Politics and International Relations
Prerequisite subject: Politics and International Relations, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: POLITICS 796 Thesis
- 30 points from POLICY 701, 702, POLITICS 700–729, 733–777
- 90 points: POLITICS 794 Thesis

Psychology
Prerequisite subject: Psychology, or an equivalent subject approved by the Academic Head or nominee including PSYCH 306, or an equivalent course approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: PSYCH 796 Thesis

Screen Production
Prerequisite subject: Screen Production, or equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: SCREEN 797 Project

Sociology
Prerequisite subject: Sociology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: SOCIOL 796 Thesis or SOCIOL 797 Research Portfolio
- 75 points from GENDER 700, SOCIOL 700–790
- 45 points: SOCIOL 792 Dissertation
- 60 points from GENDER 700, SOCIOL 700–790
- 60 points: SOCIOL 794 Dissertation

Spanish
Prerequisite subject: Latin American Studies or Spanish, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Research Masters
- 120 points: SPANISH 796 Thesis or SPANISH 797 Research Portfolio
- 30 points from SPANISH 718–778
- 90 points: SPANISH 793 Thesis
- 75 points from SPANISH 718–778
- 45 points: SPANISH 792 Dissertation

Statistics
New admissions into the MA in Statistics were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.
Prerequisite subject: Statistics, or an equivalent subject approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee

**Research Masters**
- 30 points from STATS 700–706, 708–787
- 90 points: STATS 798 Thesis

**Taught Masters**
- 75 points from STATS 700–706, 708–787
- 45 points: STATS 793 Dissertation

**Requirement:**
- 30 points from STATS 700–706, 708–787
- 90 points: STATS 798 Thesis

**A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:**

Prerequisite subject: English or Writing Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 120 points from DRAMA 708, ENGLISH 700–778, 782, 785, 787
• 60 points: ENGLISH 789 Dissertation

French
Prerequisite subject: French, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 120 points from COMPLIT 705, 709, ENGLISH 746, FRENCH 701–778
• 60 points: FRENCH 791 Dissertation

Gender Studies
Prerequisite subject: Gender Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 30 points: GENDER 700
• 90 points from DEVELOP 702, DRAMA 708, ENGLISH 702, 731, 759, FRENCH 729, GENDER 701–706, 780, 785, HISTORY 706, 707, 725, 736, MEDIA 711, PHIL 740, POLITICS 707, 724, POPULHLTH 769, PSYCH 755, SOCCHFAM 700, SOCHLTH 756, SOCIOL 700, 728, 735, SPANISH 722, 738
• 60 points: GENDER 793 Dissertation

Geography
Prerequisite subject: Geography, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 15 points GEOG 701
• at least 75 points from ENVMT 741–762, GEOG 712–779
• up to 30 additional points from other 700 level courses in a related subject as approved by the Academic Head
• 60 points: GEOG 794 Dissertation

German
Prerequisite subject: German, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 30 points: GERM 707
• a further 90 points from GERM 705–778
• 60 points: GERM 791 Dissertation

History
Prerequisite subject: History, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 30 points: HISTORY 737

• a further 90 points from HISTORY 700–761
• 60 points: HISTORY 793 Dissertation

Italian
Prerequisite subject: Italian, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 30 points: ITALIAN 700
• 90 points from COMPLIT 705, ITALIAN 702–779
• 60 points: ITALIAN 791 Dissertation

Japanese
Prerequisite subject: Japanese, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 120 points from ASIAN 702, 752–759, JAPANESE 702–748
• 60 points: JAPANESE 791 Dissertation

Linguistics
Prerequisite subject: Linguistics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 120 points from LINGUIST 700–743
• 60 points: LINGUIST 791 Dissertation

Māori Studies
Prerequisite subject: Māori Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 120 points from ARTHIST 730, INDIGEN 711, 712, MĀORI 700–750
• 60 points: MĀORI 793 Dissertation

Media
Prerequisite subject: Communication or Media, Film and Television, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 120 points from COMMS 700–713, MEDIA 704–746
• 60 points: MEDIA 793 Dissertation

Museums and Cultural Heritage
Prerequisite subject: Anthropology, Art History, History, Māori Studies, Museums and Cultural Heritage or Sociology, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 45 points: MUSEUMS 702, 704
• 75 points from ANTHRO 704, 708, 742, 756, ARTHIST 700, 730, 732, 734, ENGLISH 718, HISTORY 705, 712, MĀORI 741, MUSEUMS 700, 701, 705, 706, 751, 760, 761
• 60 points: MUSEUMS 793 Dissertation

Pacific Studies
Prerequisite subject: Pacific Studies, or an equivalent subject approved by the Academic Head or nominee
Requirement:
Taught Masters
• 60 points: PACIFIC 700, 714
• 60 points from ARTHIST 730, 732, DEVELOP 702, EDUC 710, 712, ENGLISH 700, GEOG 715, HISTORY 712, INDIGEN 711, 712, MĀORI 700, MUSEUMS 705, PACIFIC 701–715
### Philosophy
**Prerequisite subject:** Philosophy, or an equivalent subject approved by the Academic Head or nominee

**Requirement:** Taught Masters
- 120 points from PHIL 701, 720–759, 765, 768, 769, 774–782
- 60 points: PHIL 793 Dissertation

### Politics and International Relations
**Prerequisite subject:** Politics and International Relations, or an equivalent subject approved by the Academic Head or nominee

**Requirement:** Taught Masters
- 120 points from POLICY 701, 702, 742, POLITICS 700–724, 731–777
- 60 points: POLITICS 793 Dissertation

### Psychology
**Prerequisite subject:** Psychology, or an equivalent subject approved by the Academic Head or nominee including PSYCH 306, or PSYCH 211, 323, 324, 325, or an equivalent course approved by the Academic Head or nominee

**Requirement:** Taught Masters
- 15 points from PSYCH 779
- 15 points from PSYCH 743 or 744
- a further 45 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–778
- 45 points from other 700 level courses in the Faculty of Arts

### Screen Production
**Prerequisite subject:** Screen Production, or an equivalent subject approved by the Academic Head or nominee

**Requirement:** Taught Masters
- 120 points: SCREEN 700, 701, 712, 714
- 60 points: SCREEN 792 Dissertation

### Sociology
**Prerequisite subject:** Sociology, or an equivalent subject approved by the Academic Head or nominee

**Requirement:** Taught Masters
- 30 points: SOCIOL 718
- 90 points from GENDER 700, SOCIOL 700–713, 728–748
- 60 points: SOCIOL 794 Dissertation

### Spanish
**Prerequisite subject:** Spanish, or an equivalent subject approved by the Academic Head or nominee including at least two non-language acquisition courses, one of which must be at Stage III, or equivalent courses approved by the Academic Head or nominee

**Requirement:** Taught Masters
- 30 points: SPANISH 700
- 90 points from SPANISH 718–782
- 60 points: SPANISH 791 Dissertation

A student who has to complete 240 points must satisfy the requirements for one of the following subjects:

- Ancient History
- Greek
- Languages and Literature
- Latin
- Logic and Computation
- Mathematics
- Music
- Statistics

*Students who have a current enrolment in one of these subjects should contact their faculty for advice on completion.*

### The Degree of Master of Conflict and Terrorism Studies – MCTS

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Admission
1. In order to be admitted to this programme, a student needs to have:
   - either
     - a. completed the requirements for a Bachelor of Arts (Honours), or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of 5.0 or higher
     - or
     - b. completed the requirements for a Bachelor's degree, or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of at least 5.0 in 45 points above Stage II.

2. Admission to this programme requires Academic Head or nominee approval.

#### Duration and Total Points Value
3. A student admitted to this degree under Regulation 1a must:
   - a. pass courses with a total value of 120 points
   - and
   - b. complete within the time limit specified in the General Regulations – Masters Degrees
   - and
   - c. not exceed 160 points in the total enrolment for this degree.

4. A student admitted to this degree under Regulation 1b must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points in the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Conflict and Terrorism Studies Schedule.

Taught Masters
b A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Conflict and Terrorism Studies cannot continue.

c A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Conflict and Terrorism Studies cannot continue.

6 a Where a student has previously passed courses equivalent to any of the required courses for this degree, a 700 level course approved by the Academic Head or nominee must be substituted.

b Enrolment in any elective course is subject to the approval of the relevant Academic Head or nominee.

c The programme for each student requires the approval of the Academic Head or nominee for this degree.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8 a A thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis or dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
9 A student may apply to reassign courses passed for the Master of Conflict and Terrorism Studies to the Postgraduate Diploma in Conflict and Terrorism Studies.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

   b. The project topic must be approved by the Programme Coordinator prior to enrolment.
   c. The project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Honours**

6. This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

**Variations**

7. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

8. These regulations have been amended with effect from 1 January 2014.
The Degree of Master of Indigenous Studies – MIndigSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this programme, a student needs to have:
   either
   a. completed the requirements for a Bachelors Honours degree or Postgraduate Diploma, or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of 5.0 or higher
   or
   b. completed the requirements for a Bachelors degree, or an equivalent qualification approved by Senate or its representative, in a relevant subject with a Grade Point Average of 5.0 or higher in 45 points above Stage II.

2. Admission to this programme requires Academic Head or nominee approval.

Duration and Total Points Value
3. A student admitted to this degree under Regulation 1a must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points in the total enrolment for this degree.

4. A student admitted to this degree under Regulation 1b must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 220 points in the total enrolment for this degree.

Structure and Content
5. A student enrolled for this degree must complete the requirements as listed in the Master of Indigenous Studies Schedule.

6. A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Indigenous Studies cannot continue.

7. A student who has to complete 180 points for this degree must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Indigenous Studies cannot continue.

8. Where a student has previously passed courses equivalent to any of the required courses, a 700 level course approved by the Coordinator for this degree must be substituted.

9. Enrolment in any elective course is subject to the approval of the relevant Academic Head or nominee.

10. The programme for each student requires the approval of the Coordinator for the Master of Indigenous Studies.

11. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme regulations, Academic Integrity, of the University Calendar.

Reassignment
12. A student may apply to reassign courses passed for the Master of Indigenous Studies to the Postgraduate Diploma in Indigenous Studies.

Honours
13. This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
14. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Dissertation
15 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Amendment
16 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Literature – MLitt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a Masters degree with First or Second Class Honours
   or
   b in exceptional cases, completed the requirements for one of the other preliminary qualifications that would be required for enrolment for the Degree of Doctor of Philosophy
   and
   c the approval of the relevant Academic Head or nominee.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass a thesis with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

Structure and Content
3 Research Masters
   A student enrolled for this degree must complete a 120 point thesis, based on original research in one of the subjects available in Arts or Theology.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
5 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment of Thesis
6 A thesis rejected for the Degree of Doctor of Philosophy may not be submitted for this degree.
Honours
7 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations have been amended with effect from 1 January 2014.

The Degree of Master of Public Policy – MPP

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   either
   a completed the requirements for the Degree of Bachelor of Arts (Honours) in Politics and International Relations from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative including POLICY 742 or an equivalent course approved by Senate or its representative
   or
   b (i) completed the requirements for a Bachelors degree from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative
       or
       (ii) (a) completed the requirements for a Bachelors degree in a relevant subject from this University, or the equivalent as approved by Senate or its representative
           and
           (b) passed 60 points of courses towards the Postgraduate Certificate in Arts from this University, that includes POLICY 701, 702, 769 and POLITICS 757, or POLICY 740 and 741 with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded.

2 A student who has met the requirements for admission under Regulation 1a above, and who has not completed POLICY 742 or its equivalent must have passed this course within one calendar year concurrent with enrolment in the Master of Public Policy. Should this requirement not be completed within this period, enrolment in further courses required for the Degree of Master of Public Policy will not be permitted until POLICY 742 has been completed.

Note: Relevant subjects may include anthropology, business, communication, economics, governance, law, media, organisational studies, political science, public administration, public health, public management, public policy, public relations, social geography, social sciences and sociology.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b, 1c or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Public Policy Schedule.

b A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Public Policy cannot continue.
c A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Public Policy cannot continue.

d A student who has to complete 180 points for a Research Masters must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken. If this Grade Point Average is not achieved, enrolment in the Master of Public Policy cannot continue.

6 Where a student has previously passed courses equivalent to any of the required courses, a 700 level course approved by the Programme Coordinator for this degree may be substituted.

7 a Enrolment in any elective course is subject to the approval of the relevant Academic Head or nominee.

b The programme for each student requires the approval of the Programme Coordinator for this degree.

8 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Public Policy or Postgraduate Certificate in Arts.

Transfer from Postgraduate Certificate in Arts
10 A student who has passed courses towards the Postgraduate Certificate in Arts may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Teaching English to Speakers of Other Languages – MTESOL

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a Bachelors degree from this University with a Grade Point Average of 3.5 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative and
(ii) at least two years’ relevant professional experience or equivalent, as approved by Senate or its representative

or

b (i) completed the requirements for a Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.5 or higher, or the equivalent as approved by Senate or its representative

and

(ii) at least one year of relevant professional experience or equivalent, as approved by Senate or its representative.

2 Students who have not completed two years of full-time study in an English medium institution must have achieved an overall score of 6.5 with a minimum of 6.0 on all bands in IELTS (Academic) or equivalent.

Notes:

(i) Admission to and completion of this programme does not meet New Zealand teacher registration requirements.

(ii) A relevant subject may include: Business English, Linguistics, Language Studies, Language Teaching, Teaching English to Speakers of Other Languages (TESOL), Teaching English as a Foreign Language (TEFL), Translation and Interpreting

Duration and Total Points Value

3 A student enrolled for this degree must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content

5 Taught Masters

A student enrolled for this degree must pass 120 points from courses listed in the Master of Teaching English to Speakers of Other Languages Schedule.

6 Permission to prepare and present a Dissertation must be given by the Academic Head or nominee.

7 The Academic Head or nominee may approve the inclusion of up to 45 points from equivalent 700 level courses offered at Victoria University of Wellington, or from other 700 level courses in Language Teaching and Learning offered at the University of Auckland.

8 The programme for each student requires the approval of the relevant Academic Head or nominee.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation

10 a A dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b A student enrolled for the dissertation must also have passed or be enrolled in LANGTCHG 745.

c The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

d The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours / Distinction

11 This degree may be awarded with either Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Variations

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

13 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Theology – MTheol

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a Bachelor of Theology (Honours) with at least Second Class Honours, First Division, or an equivalent qualification as approved by Senate or its representative
   or
   b completed the requirements for the Postgraduate Diploma in Theology with at least Merit, or an equivalent qualification as approved by Senate or its representative
   and
   c approval from the Academic Head or nominee.

Duration and Total Points Value

2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

Structure and Content

3 Research Masters
   Of the 120 points required for this degree a student must complete a thesis as listed in the Master of Theology Schedule.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis

5 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Postgraduate Adviser in Theology.
   b The thesis is to be based on original research and the research topic is to be approved by the Academic Head or nominee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours

6 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

8 These regulations and/or schedule have been amended with effect from 1 January 2015.
The Degree of Master of Translation – MTrans

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Arts (Honours) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative or
   (ii) completed the requirements for the Degree of Bachelor of Arts from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   b demonstrated competence in one of the languages offered for the Master of Translation equivalent to at least the level of a B+ grade in a language course above Stage II at this University
   and
   c for students who are not native speakers of English and who have not had at least three years of tertiary education with English as the language of instruction, a minimum overall score of IELTS (Academic) 7 or equivalent.
2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained extensive relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a above by Senate or its representative.
3 An interview and written aptitude test may be required.

Duration and Total Points Value
4 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Translation Schedule.
   b A student must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Translation cannot continue.
6 Where a student has previously passed courses equivalent to any of the required courses for this degree, a 700 level course(s) approved by the Academic Head or nominee must be substituted.
7 The programme of each student requires the approval of the Academic Head or nominee.
8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme regulations, Academic Integrity, of the University Calendar.

Reassignment
9 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Translation Studies or Postgraduate Certificate in Translation.

Distinction
10 This degree may be awarded with Distinction or Merit as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

Certificate in Arts – CertArts

The regulations for this certificate are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Arts, or a conjoint programme that includes the Bachelor of Arts as a component degree, or the Graduate Diploma in Arts at this University
   and
   b passed at least 60 points for that degree or diploma
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Languages – CertLang

The regulations for this certificate are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this certificate must follow a programme of the equivalent of one full-time semester and pass courses with a total value of 60 points from the courses listed in the Certificate in Languages Schedule.

Structure and Content
2 Of the 60 points required for this certificate, a student must pass at least 30 points above Stage I.

3 A student may not include courses for this certificate from more than two of the languages listed in the schedule for this certificate.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Special Cases
5 Enrolment of students with prior knowledge of the language being studied is at the discretion of the Academic Head or nominee.
   a Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.

   b If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course for this certificate.
c A student who has passed or been credited with a language acquisition course, for this or any other programme, may not enrol for a course which precedes that course in the sequence of language acquisition courses in that language subject.

**Credit and Cross-credit**

6 A student who has passed a language course from the General Education Schedules may be granted credit for the equivalent course from the schedule for this certificate.

7 A student may not be granted credit or cross-credit towards this certificate of more than 15 points, including any points credited under Regulation 6.

**Variations**

8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

9 These regulations and/or schedule have been amended with effect from 1 January 2021.

Diploma in Arts – DipArts

The regulations for this diploma are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Arts, or a conjoint programme that includes the Bachelor of Arts as a component degree, at this University
   and
   b passed at least 120 points for that degree or diploma
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Arts Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Languages – DipLang

The regulations for this diploma are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.

Duration and Total Points Value
1 A student enrolled for this diploma must follow a programme of the equivalent of two full-time semesters and pass courses with a total value of 120 points from the courses listed in the Diploma in Languages Schedule.

Structure and Content
2 Of the 120 points required for this diploma, a student must pass
   a at least 60 points above Stage I, including
   b at least 30 points above Stage II.
3 A student may not include courses for this diploma from more than two of the languages listed in the schedule for this diploma.
4 With the permission of the Academic Head or nominee concerned, a student may include for this diploma up to 30 points from postgraduate level language acquisition courses.
5 With the permission of the Academic Head or nominee for a language for which points have been passed at Stage II, and approval of the Dean of Faculty of Education and Social Work, a student may include 15 points from EDUC 318 for this diploma.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Special Cases
7 Enrolment of students with prior knowledge of the language being studied is at the discretion of the Academic Head or nominee.
   a Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level.
   b If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course for this diploma.
c A student who has passed or been credited with a language acquisition course, for this or any other programme, may not enrol for a course which precedes that course in the sequence of language acquisition courses in that language subject.

Credit and Cross-credit
8 A student who has passed a language course from the General Education Schedules may be granted credit for the equivalent course from the schedule for this diploma.
9 A student may not be granted credit and/or cross-credits towards this diploma of more than 30 points, including any points credited under Regulation 8.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Diploma in Arts – GradDipArts

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for any degree from this University, or the equivalent as approved by Senate or its representative
       or (ii) demonstrated practical, professional, or scholarly experience of an appropriate kind that is approved by Senate or its representative as equivalent to that specified in 1a(i) above
   and
   b attained a level of preparation appropriate to the selected major for the Graduate Diploma in Arts as approved by the relevant Academic Head or nominee.

2 A student may, if Senate or its representative gives approval, enrol for this graduate diploma without having fulfilled the requirements of Regulation 1b above, provided that the student completes any prerequisite courses as part of or in addition to the normal requirements of this programme.

3 With the approval of Senate or its representative, a student who needs only 30 points to complete the Degree of Bachelor of Arts may enrol concurrently for this graduate diploma and those remaining points, provided that the graduate diploma will not be awarded until the Degree of Bachelor of Arts is completed.

Duration and Total Points Value
4 a A student enrolled for this graduate diploma must follow a programme equivalent of two full-time semesters and pass courses with a total value of 120 points.
   b The requirements for a Graduate Diploma in Arts must be completed within four years of initial enrolment.
   c In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.
   d In exceptional circumstances the Academic Head may increase the duration allowed for enrolment for a period not normally exceeding two consecutive semesters.

Structure and Content
5 Of the 120 points required for this graduate diploma a student must pass:
   a at least 75 points above Stage II from the Bachelor of Arts or Bachelor of Arts (Honours) Schedules
   and
   b at least 60 points from a major listed in the Bachelor of Arts Schedule, including the Stage III courses required for that major.

6 The programme for this graduate diploma may include a research essay or research project of up to 30 points in a subject for which the student is approved by the Academic Head or nominee as suitably qualified.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Course(s) selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

9 Cross-credits will not be granted toward the Graduate Diploma in Arts.

Research Essay / Research Project
10 a The research essay or research project, when included in this qualification, is to be carried out under the guidance of a supervisor appointed by Senate or its representative on the recommendation of the relevant Academic Head or nominee.
   b The research essay or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The research essay or research project is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
12 These regulations have been amended with effect from 1 January 2020.

Postgraduate Certificate in Arts – PGCertArts
The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have:
   a completed the requirements for a Bachelors degree from this University
   and
   b passed the specified prerequisite courses in the selected subject for the Master of Arts, or the Master of Public Policy, with a Grade Point Average of 3.5 or higher in 45 points above Stage II in that subject, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained equivalent practical, professional or scholarly experience of an appropriate kind.

Structure and Content
3 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Commencement
5 These regulations came into force on 1 January 2021.

REGULATIONS – BUSINESS AND ECONOMICS

The Degree of Bachelor of Commerce – BCom

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Business and Economics.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from the courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points from the Core Courses listed in the Bachelor of Commerce Schedule
      (ii) 15 points from the Capstone Courses listed in the Bachelor of Commerce Schedule
      (iii) at least 180 points above Stage I, of which at least 75 points must be above Stage II from the courses listed in the Bachelor of Commerce Schedule
      (iv) the requirements of one or more majors as listed in the Bachelor of Commerce Schedule with at least 45 points at Stage III in each major

   and

b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 Up to 30 points may be taken from other undergraduate courses offered at this University.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ACADENG 104 to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.

5 Students must pass or be concurrently enrolled in all the Stage I Core Courses listed in the Bachelor of Commerce Schedule before enrolling in any other courses for this degree.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses available for this degree.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
8 In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiner as having reached the standard of a pass at Stage I, the student may be credited with the appropriate Stage I course(s).

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

- **Stage I course:** MGMT 101
- **Stage II courses:** MGMT 211, 223
- **Stage III courses:** MGMT 300, 302, 304, 309, 314, 320, 325

** Marketing **
- **Stage II courses:** MKTG 202, 203
- **Stage III courses:** MKTG 300–314

** Mathematics **
- **Stage I courses:** MATHS 108, 120, 130
- **Stage II courses:** MATHS 208, 250

** Operations and Supply Chain Management **
- **Stage II courses:** OPSMGT 255, 258
- **Stage III courses:** OPSMGT 300, 357, 370–385

** Property **
- **Stage I course:** PROPERTY 102

** Statistics **
- **Stage II courses:** STATS 100, 108
- **Stage III courses:** STATS 208, 210, 255
- **Stage III courses:** STATS 310, 320, 326, 370, 383
Core courses:

- 75 points: BUSINESS 111, 114, 115, 202, INFOSYS 110
- 15 points from BUSINESS 112, 113

- 15 points from STATS 100, 108

Capstone courses

- 15 points from BUSINESS 350–353

BCom majors:

**Accounting**

- 15 points: ACCTG 102
- 30 points from ACCTG 211, 221, 222
- 30 points from BUSAN 300, 301
- 15 points from BUSAN 304, INFOSYS 310
- 15 points from BUSAN 300–305, MKTG 308, OPSMGT 357, STATS 301, 330

**Business Analytics**

- 15 points: BUSAN 201
- 15 points from BUSAN 200, STATS 208, 255
- 15 points from BUSAN 300, 301
- at least 15 points from BUSAN 304, INFOSYS 310
- a further 15 points from BUSAN 300–305, MKTG 308, OPSMGT 357, STATS 301, 330

**Commercial Law**

- 30 points: COMLAW 201, 203
- 45 points from COMLAW 301–321, LAWCOMM 422

**Economics**

- 45 points: ECON 152, 201, 211
- 45 points from ECON 301–381

**Finance**

- 75 points: ACCTG 102, MATHS 108, 208, FINANCE 251, 261
- 45 points from ACCTG 371, COMLAW 305, ECON 352, FINANCE 351, 361, 362, 383, 384

**Information Systems**

- 30 points: INFOSYS 220, 222
- 15 points from INFOSYS 303, INFOSYS 305
- 30 points (or 45 points if INFOSYS 310 is selected) from BUSAN 301, 302, INFOSYS 300–341, OPSMGT 357

**Innovation and Entrepreneurship**

- 30 points: INNOVENT 203, 204

- 30 points: INNOVENT 306
- 15 points from INNOVENT 305, 307, 308, MGMT 302

**International Business**

- 30 points: INTBUS 201, 202
- 15 points: INTBUS 300
- 15 points from INTBUS 305, 306, 307

**International Trade**

The BCom major in International Trade was suspended in 2014. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

- 60 points: ECON 201, 341, INTBUS 201, 305
- 15 points from ECON 342, 343, 352, INTBUS 306

**Management**

- 30 points: MGMT 211, 223
- 30 points from MGMT 300, 304, 309, 314, COMLAW 314
- 15 points from BUSINESS 328, MGMT 300, 302, 304, 309, 314, 320

**Marketing**

- 30 points: MKTG 202, 203
- 15 points: MKTG 303
- 30 points from MKTG 301, 302, 304–306, 308, 309, 312, 314

**Operations and Supply Chain Management**

- 45 points: OPSMGT 255, 258, 370
- 30 points (or 45 points if INFOSYS 310 is selected) from BUSAN 305, INFOSYS 310, 321, OPSMGT 357, 371, 372, 376

**Taxation**

- 30 points: COMLAW 201, 203
- 30 points: COMLAW 301, 311
- 15 points from ACCTG 311, 371, ECON 361, FINANCE 361

The Degree of Bachelor of Property – BProp

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Business and Economics.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:
   a 330 points from courses listed in the Bachelor of Property Schedule and
b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ACADENG 104 to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.

General Education Exemptions

4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses listed in the Bachelor of Commerce Schedule.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses listed in the Bachelor of Commerce Schedule.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements

5 A student enrolled for this degree must participate in skills workshops as required by, and to the satisfaction of, the Head of Department of Property.

Conjoint Degrees

6 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

8 These regulations and/or schedule have been amended with effect from 1 January 2021.

Bachelor of Property (BProp) Schedule

Requirement:

- 210 points: BUSINESS 111, 112 or 113, 114, INFOSYS 110, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
- 15 points from BUSINESS 115, ECON 152
- 15 points from BUSINESS 115, ECON 152
- 75 points from PROPERTY 300, 311–351, 370–385

The Degree of Bachelor of Commerce (Honours) – BCom(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   either
a completed the requirements for the Degree of Bachelor of Commerce from the University of Auckland or
b completed the requirements for an equivalent qualification as approved by Senate or its representative and
c passed the prerequisites for one of the subjects listed in the Bachelor of Commerce (Honours) Schedule with a Grade Point Average of 5 or higher in 45 points at Stage III in that major and
d the approval of the Dean of Faculty of Business and Economics.

Duration and Total Points Value
2 A student enrolled for this degree must:
a pass courses with a total value of 120 points and
b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements for one of the subjects listed in the Bachelor of Commerce (Honours) Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 Students intending to qualify for entry to the Degree of Master of Commerce must include the prerequisite courses in the intended subject listed in the Master of Commerce Schedule.

Research Project
7 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
b The research project topic must be approved by the relevant Head of Department prior to enrolment.
c The research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
8 A student may apply to reassign courses passed to the Graduate Diploma in Commerce or the Postgraduate Diploma in Commerce.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Commerce (Honours) (BCom(Hons)) Schedule

Subjects available:

Accounting
Prerequisite: A major in Accounting including ECON 221 or MATHS 208 or STATS 208 or equivalent courses as approved by the Head of Department

• 15 points: OPSMGT 760
• 30 points from OPSMGT 752, INFOSYS 750, 751
• 45 points from BUSINESS 704, 705, 710, INFOSYS 700, 701, 722, 737, 740, 750, 751, OPSMGT 700, 701, 732, 752, 757, 762–780
• 30 points: OPSMGT 788 Research Project

The Degree of Bachelor of Property (Honours) – BProp(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed all the requirements for the Degree of Bachelor of Property
      and
   b achieved an average grade of B or higher in the courses taken for Part III of that degree.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
      and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.
3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Property (Honours) Schedule.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Essay
6 a The research essay is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research essay topic must be approved by the Head of Department of Property prior to enrolment.
   c The research essay must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
7 A student may apply to reassign courses passed to the Postgraduate Diploma in Property.
Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Business Administration – MBA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   a either
      (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in at least 90 points in the most advanced courses, or the equivalent as approved by Senate or its representative
      or
      (ii) completed the requirements for the Postgraduate Diploma in Business from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      or
      (iii) (a) completed the requirements for a relevant Bachelors degree as approved by Senate or its representative and
            (b) completed the requirements for the Postgraduate Certificate in Business from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
      and
   b normally, at least three years’ relevant management experience approved by Senate or its representative
   and
   c provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve the admission of a student:
   a who has attained extensive relevant, practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirements in Regulation 1a
   and
   b who has at least three years’ relevant management experience approved by Senate or its representative
   and
   c who has provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Notes:
(i) A relevant undergraduate degree may be in business, engineering, humanities, sciences or technology.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Business and Economics.

Duration and Total Points Value
3 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c must not exceed 220 points for the total enrolment for this degree.
Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Business Administration Schedule.

5 A student enrolled for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses. If this Grade Point Average is not achieved, enrolment in the Master of Business Administration cannot continue.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 A student enrolled for this degree who has been credited for another degree or diploma with any courses the same or similar to those listed for this degree, is to substitute for each course so credited an alternative course approved by Senate or its representative.

8 The programme for each student requires the approval of the Director of the Programme prior to enrolment.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Certificate in Business.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Transfer from Postgraduate Certificate in Business Management
11 A student who has passed courses towards the Postgraduate Certificate in Business Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Business Analytics – MBusAn

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

Admission
1 In order to be admitted to this degree, a student must have:

   
   either
   
   a (i) (a) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in the most advanced 90 points, or the equivalent as approved by Senate or its representative
   
   or (b) completed the requirements for a relevant Bachelors Honours degree with a Grade Point Average of 5.0 or higher from this University, or the equivalent as approved by Senate or its representative
   
   and
   
   (ii) completed STATS 108 or its equivalent as approved by Senate or its representative
   
   or
   
   b (i) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
   
   and
   
   (ii) completed STATS 108 or its equivalent as approved by Senate or its representative
   
   and
   
   (iii) passed 60 points in the Postgraduate Certificate in Business Analytics from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded
   
   or
   
   c (i) completed the requirements for the Postgraduate Diploma in Business in Administration or Postgraduate
Diploma in Business Management from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

and

(ii) completed STATS 108 or BUSADMIN 763 or BUSMAN 707, or the equivalent as approved by Senate or its representative.

Note: A relevant degree may be in business, engineering, social sciences, sciences or technology.

Duration and Total Points Value

A student admitted to this degree must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 220 points for the total enrolment for this degree.

Structure and Content

A student enrolled for this degree must complete the requirements as listed in the Master of Business Analytics Schedule.

A student must achieve a Grade Point Average of 5.0 or higher in Part I. If this Grade Point Average is not achieved, enrolment in the Master of Business Analytics cannot continue.

A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Courses selected for this qualification are subject to confirmation by the Programme Director.

Transfer from Postgraduate Certificate in Business Analytics

A student who has passed courses towards the Postgraduate Certificate in Business Analytics that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Reassignment

A student may apply to reassign courses passed to the Postgraduate Certificate in Business Analytics or Postgraduate Diploma in Business Analytics.

Distinction

This degree may be awarded with Merit or Distinction in accordance with the General Regulations – Masters Degrees.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2022.

### The Degree of Master of Business Development – MBusDev

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this degree, a student must have:

a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative
or (ii) (a) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative

and

(b) passed 60 points in the Postgraduate Certificate in Business Development from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded

or

(b) completed the requirements for a relevant Bachelors honours degree from this University, or the equivalent as approved by Senate or its representative

or

(iii) completed the requirements for the Postgraduate Diploma in Business in Administration or Business Development or Māori Business Development from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

and

c normally, at least three years' relevant work experience approved by Senate or its representative

and

d provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve the admission of a student:

a who has attained extensive relevant, practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirements in Regulation 1a

and

b who has at least three years' relevant work experience approved by Senate or its representative

and

c who has provided appropriate references and completed any additional tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Notes:

(i) A relevant degree may be in business, engineering, health sciences, humanities, sciences or technology.

(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Business and Economics.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a or 2 must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c must not exceed 220 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c must not exceed 160 points for the total enrolment for this degree.

Structure and Content

5 A student who is required to complete 180 points must pass each of Parts I, II and III as listed in the Master of Business Development Schedule.

6 A student who is required to complete 120 points must pass each of Parts II and III as listed in the Master of Business Development Schedule.

7 a A student will not normally be permitted to enrol for Part III unless Part II has been completed with a Grade Point Average of 4.0 or higher. If this Grade Point Average is not achieved, enrolment in the Master of Business Development cannot continue.

b A student who has failed to pass Part II in its entirety may, at the discretion of Senate or its representative, be allowed to enrol for the course or courses needed to complete that Part, together with a course or courses towards Part III.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
9 Where a student has passed a course for a qualification that has been awarded, and such a course is deemed by the Programme Director to be the same as or substantially similar to any course required for this degree, the student must pass an alternative course(s) approved by the Programme Director to complete this degree.

10 Courses selected for this qualification are subject to confirmation by the Programme Director.

Transfer from Postgraduate Certificate in Business Development
11 A student who has passed courses towards the Postgraduate Certificate in Business Development that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Reassignment
12 A student may apply to reassign courses passed to the Postgraduate Diploma in Business Development or Postgraduate Certificate in Business Development.

Distinction
13 This degree may be awarded with Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

---

- Requirement: Taught Masters

A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

**Business Growth**
- Requirement: Taught Masters
- Part I
  - 60 points from BUSDEV 711–715
- Part II
  - 60 points from BUSDEV 731, 741–744
  - 60 points: BUSDEV 780–782

**Technology Commercialisation**
- Requirement: Taught Masters
- Part I
  - 60 points from BUSDEV 711–715
- Part II
  - 60 points from BUSDEV 731–734
- Part III
  - 60 points: BUSDEV 780–782

**Innovation and Product Management**
- Requirement: Taught Masters
- Part I
  - 60 points from BUSDEV 711–715
- Part II
  - 60 points from BUSDEV 721–724, 731
  - 60 points: BUSDEV 780–782

---
The Degree of Master of Business Management – MBM

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have:
   a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative
   or
   (ii) a completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
       and
       b passed 60 points in the Postgraduate Certificate in Business Management from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded, or the equivalent as approved by Senate or its representative
   or
   b (i) completed the requirements for a Bachelor of Commerce honours degree from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
   or
   (ii) completed the requirements for the Postgraduate Diploma in Business in Administration or Business Management or Māori Business Development from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: A relevant degree may be in arts, business, creative arts and industries, education, engineering, health and medical sciences, law, sciences or technology

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content

5 A student who is required to complete 180 points must pass each of Parts I, II and III from one of the specialisations as listed in the Master of Business Management Schedule.

6 A student who is required to complete 120 points must pass each of Parts II and III as listed in the Master of Business Management Schedule.

7 a A student will not normally be permitted to enrol for Part III unless Part II has been completed with a Grade Point Average of 4.0 or higher. If this Grade Point Average is not achieved, enrolment in the Master of Business Management cannot continue.
   
   b A student who has failed to pass Part II in its entirety may, at the discretion of Senate or its representative, be allowed to enrol for the course or courses needed to complete that Part, together with a course or courses towards Part III.

8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

9 Where a student has passed a course for a qualification that has been awarded, and such a course is deemed
by the Programme Director to be the same as or substantially similar to any course required for this degree, the student must pass an alternative course(s) approved by the Programme Director to complete this degree.

10 Courses selected for this qualification are subject to confirmation by the Programme Director.

Transfer from Postgraduate Certificate in Business Management
11 A student who has passed courses towards the Postgraduate Certificate in Business Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Reassignment
12 A student may apply to reassign courses passed to the Postgraduate Diploma in Business Management or Postgraduate Certificate in Business Management.

Distinction
13 This degree may be awarded with Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Commerce – MCom

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a (i) (a) completed the requirements for the Degree of Bachelor of Commerce from the University of Auckland or an equivalent qualification approved by Senate or its representative
              and
         (b) passed the specified prerequisite courses in the subject intended for this degree with a Grade Point Average of 5 or higher in 45 points above Stage II in that major
      or
   (ii) (a) completed the requirements for the Degree of Master of Business Administration from the University of Auckland or an equivalent qualification approved by Senate or its representative
              and
         (b) passed at least 90 points above Stage I from courses listed in the Bachelor of Commerce Schedule including at least 45 points above Stage II in the intended subject for this degree
                     and
         (c) achieved a Grade Point Average of 5.0 or higher in 45 points in the Stage III courses
      or
   b (i) (a) completed the requirements for the Degree of Bachelor of Commerce (Honours) from the University
of Auckland or an equivalent qualification approved by Senate or its representative
and
(b) passed the Bachelor of Commerce (Honours) in the subject intended for this degree with a Grade
Point Average of 5.0 or higher over the programme

or

(ii) (a) completed the requirements for the Postgraduate Diploma in Commerce from the University of Auckland
or an equivalent qualification approved by Senate or its representative
and
(b) passed the Postgraduate Diploma in Commerce in the subject intended for this degree with a Grade
Point Average of 5.0 or higher over the programme.

2 A student who has not completed all the requirements for the Degree of Bachelor of Commerce but who has:

a passed courses with a total value of at least 330 points for that degree
and
b passed the specified prerequisite courses as listed in the Master of Commerce Schedule for the intended
subject
and
c achieved a Grade Point Average of 5.0 or higher in 45 points above Stage II in the prerequisite courses may,
with the approval of the relevant Head of Department enrol for this degree. The remaining courses for the
Degree of Bachelor of Commerce must be passed within 12 months of initial enrolment for the Master of
Commerce. The Degree of Master of Commerce will not be awarded until the requirements for the Bachelor of
Commerce have been completed.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points for the total enrolment of this degree.

4 If a student is enrolled in the Late Year Term in points towards the MCom, then this counts as a semester in
respect of the time limits specified in the General Regulations – Masters Degrees.

5 A student admitted to this degree under Regulation 1b must:

a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment for this degree.

Structure and Content

6 a A student enrolled for this degree must complete the requirements for one of the subjects as listed in the
Master of Commerce Schedule.

b A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher
in the first 60 points of taught courses. If this Grade Point Average is not achieved, enrolment in the Master of
Commerce cannot continue.

c A student required to complete 180 points for this degree may substitute up to 30 points from other subjects
listed in the Master of Commerce Schedule or from other 700 level courses offered at this University as
approved by all Heads of Department.

7 A research project may be included as approved by the Academic Head or nominee.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation

9 a The thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its
representative.

b The thesis or dissertation topic must be approved by the relevant Departmental Postgraduate Committee prior
to enrolment.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations –
Master Degrees, except for students enrolled in a dissertation in the Late Year Term.
Submission of a Dissertation taken in the Late Year Term
10 a A student who has enrolled in a dissertation in the Late Year Term must submit the dissertation by the final Friday of the Late Year Term. If, in exceptional circumstances beyond the student’s control, the dissertation has not been able to be completed by this date, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

b The dissertation is to be submitted in accordance with Regulation 9 of the General Regulations – Masters Degrees.

Reassignment
11 A student may apply to reassign courses passed for the Master of Commerce to the Postgraduate Diploma in Commerce.

Honours
12 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Commerce (MCom) Schedule
A student who has to complete 120 points must satisfy the requirements for one of the following subjects:

Accounting
Requirement:
Research Masters
• 120 points: ACCTG 796 Thesis
Taught Masters
• 60 points from ACCTG 701–703, 711–782, BUSINESS 704, 705, 710, FINANCE 705–782
• 60 points: ACCTG 791 Dissertation

Commercial Law
Requirement:
Research Masters
• 120 points: COMLAW 796 Thesis
Taught Masters
• 60 points from BUSINESS 704, 705, 710, COMLAW 700, 703, 747, 748, 757, LAWCOMM 701–789
• 60 points: COMLAW 791 Dissertation

Economics
Requirement:
Research Masters
• 120 points: ECON 796 Thesis

Finance
Requirement:
Research Masters
• 120 points: FINANCE 796 Thesis
Taught Masters
• 60 points from BUSINESS 704, 705, 710, FINANCE 700–702, 705–782, ACCTG 711–782
• 60 points: FINANCE 791 Dissertation

Global Management and Innovation
Requirement:
Research Masters
• 120 points: GLMI 796 Thesis
Taught Masters
• 60 points from BUSINESS 704, 705, 710, GLMI 700–712, 750, 751
• 60 points: GLMI 791 Dissertation

Information Systems
Requirement:
Research Masters
• 120 points: INFOSYS 796 Thesis
Taught Masters
• 60 points from INFOSYS 700–705, 720, 750, 751, 722–740, OPSMGT 752, 757, 780
• 60 points: INFOSYS 791 Dissertation

Marketing
Requirement:
Research Masters
• 120 points: MKTG 796 Thesis
Taught Masters
• 60 points from BUSINESS 704, 705, 710, MKTG 701–718
• 60 points: MKTG 791 Dissertation

Operations and Supply Chain Management
Requirement:
Research Masters
• 120 points: OPSMGT 796 Thesis
Taught Masters
• 60 points from BUSINESS 704, 705, 710, INFOSYS 700–704, 722, 737, 740, 750, 751, OPSMGT 700, 701, 732, 752, 757, 760, 762–780
• 60 points: OPSMGT 791 Dissertation
A student who has to complete 180 points must satisfy the requirements for one of the following subjects:

### Accounting
**Prerequisite:** A major in Accounting including ECON 221 or MATHS 208 or STATS 208, or an equivalent course as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 30 points: ACCTG 701, 702
  - 60 points from ACCTG 703, 711–788, BUSINESS 704, 705, 710, FINANCE 705–782
  - 90 points: ACCTG 794 Thesis
- **Taught Masters**
  - 30 points: ACCTG 701, 702
  - at least 60 points from ACCTG 703, 711–782, BUSINESS 704, 705, 710

  - 60 points: ACCTG 791 Dissertation

### Global Management and Innovation
**Prerequisite:** A major in International Business or Management or Innovation and Entrepreneurship, or equivalent as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 15 points: BUSINESS 710
  - 15 points from BUSINESS 704, 705
  - 60 points from BUSINESS 704, 705, 711, 712, GLMI 700–712, 750, 751
  - 90 points: GLMI 794 Thesis
- **Taught Masters**
  - 15 points: BUSINESS 710
  - 15 points from BUSINESS 704, 705
  - a further 90 points from BUSINESS 704, 705, 711, 712, GLMI 700–712, 750, 751, 780
  - 60 points: GLMI 791 Dissertation

### Commercial Law
**Prerequisite:** A major in Commercial Law, or equivalent as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 30 points: COMLAW 703
  - 60 points from BUSINESS 704, 705, 710, COMLAW 700, 747, 748, 757, LAWCOMM 701–789
  - 90 points: COMLAW 793 Thesis
- **Taught Masters**
  - 30 points: COMLAW 703
  - 90 points from BUSINESS 704, 705, 710, COMLAW 700, 747, 748, 757, 788, LAWCOMM 701–789
  - 60 points: COMLAW 791 Dissertation

### Information Systems
**Prerequisite:** A major in Information Systems including 15 points at Stage II in Statistics, or an equivalent course as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 45 points: INFOSYS 720, 750, 751
  - 45 points from INFOSYS 700–705, 722–740, OPSMGT 752, 757, 780
  - 90 points: INFOSYS 794 Thesis
- **Taught Masters**
  - 45 points: INFOSYS 720, 750, 751
  - 75 points from INFOSYS 700–705, 722–740, OPSMGT 752, 757, 780, 788
  - 60 points: INFOSYS 791 Dissertation

### Economics
**Prerequisite:** A major in Economics including 45 points from ECON 301, 311, 321, or equivalent courses approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 30 points: ECON 701, 711, 721, 723
  - 15 points from ECON 721, 723
  - 45 points from ECON 700, 702–788
  - 90 points: ECON 794 Thesis
- **Taught Masters**
  - 30 points: ECON 701, 711
  - 15 points from ECON 721, 723
  - 75 points from ECON 700, 702–788
  - 60 points: ECON 791 Dissertation

### Marketing
**Prerequisite:** A major in Marketing

**Requirement:**
- **Research Masters**
  - 15 points from MKTG 701, 712
  - 30 points: BUSINESS 704 or 705, 710
  - 45 points from MKTG 701–718
  - 90 points: MKTG 794 Thesis
- **Taught Masters**
  - 45 points: BUSINESS 704, 705, 710
  - 15 points from MKTG 701, 712
  - a further 60 points from BUSINESS 704, 705, MKTG 701–712, 710, 712, 717, 718, 788
  - 60 points: MKTG 791 Dissertation

### Finance
**Prerequisite:** A major in Finance including ECON 221 or MATHS 208 or STATS 208, or an equivalent course as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 30 points: FINANCE 701, 702
  - 15 points from BUSINESS 704, 705, 710, FINANCE 700, 751, 761
  - 45 points from ACCTG 711–782, FINANCE 705–782
  - 90 points: FINANCE 794 Thesis
- **Taught Masters**
  - 30 points: FINANCE 701, 702
  - at least 60 points from BUSINESS 704, 705, 710, FINANCE 700, 705–788, including 15 points from FINANCE 751, 761
  - up to 30 points from ACCTG 711–788, BUSINESS 704, 705, 710
  - 60 points: FINANCE 791 Dissertation

### Operations and Supply Chain Management
**Prerequisite:** A major in Operations and Supply Chain Management and STATS 208 or 255 or BUSAN 200 or INFORMGMT 290 or equivalent courses as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 15 points: OPSMGT 760
  - 30 points from INFOSYS 750, 751, OPSMGT 752
  - 45 points from BUSINESS 704, 705, 710, INFOSYS 700, 701, 722, 737, 740, 750, 751, OPSMGT 700, 701, 732, 752, 757, 762–780
  - 90 points: OPSMGT 794 Thesis
- **Taught Masters**
  - 15 points: OPSMGT 760
  - 30 points from INFOSYS 750, 751, OPSMGT 752
  - 75 points from BUSINESS 704, 705, 710, INFOSYS 700–704, 722, 737, 740, 750, 751, OPSMGT 700, 701, 732, 752, 757, 762–780, 798
  - 60 points: OPSMGT 791 Dissertation

### Global Management and Innovation
**Prerequisite:** A major in International Business or Management or Innovation and Entrepreneurship, or equivalent as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 15 points: BUSINESS 710
  - 15 points from BUSINESS 704, 705
  - 60 points from BUSINESS 704, 705, 711, 712, GLMI 700–712, 750, 751
  - 90 points: GLMI 794 Thesis
- **Taught Masters**
  - 15 points: BUSINESS 710
  - 15 points from BUSINESS 704, 705
  - a further 90 points from BUSINESS 704, 705, 711, 712, GLMI 700–712, 750, 751, 780
  - 60 points: GLMI 791 Dissertation

### Information Systems
**Prerequisite:** A major in Information Systems including 15 points at Stage II in Statistics, or an equivalent course as approved by the Head of Department

**Requirement:**
- **Research Masters**
  - 45 points: INFOSYS 720, 750, 751
  - 45 points from INFOSYS 700–705, 722–740, OPSMGT 752, 757, 780
  - 90 points: INFOSYS 794 Thesis
- **Taught Masters**
  - 45 points: INFOSYS 720, 750, 751
  - 75 points from INFOSYS 700–705, 722–740, OPSMGT 752, 757, 780, 788
  - 60 points: INFOSYS 791 Dissertation
The Degree of Master of Commercialisation and Entrepreneurship – MCE

New admissions into the Master of Commercialisation and Entrepreneurship were suspended in 2020. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a four year undergraduate or honours degree deemed relevant by Senate or its representative with a B– average or higher in at least 90 points or equivalent in the most advanced courses taken towards this entry qualification
   or
   (ii) completed the requirements for an undergraduate degree and the requirement for a postgraduate diploma deemed relevant by Senate or its representative with a B– average or higher in at least 90 points or equivalent in the most advanced courses taken towards this entry qualification
   or
   (iii) completed the requirements for an undergraduate degree deemed relevant by Senate or its representative with a B– average or higher in at least 90 points or equivalent in the most advanced courses taken towards this entry qualification, and evidence of professional experience considered equivalent to the additional advanced study required in a(i) or (ii) above
   and
   b performed acceptably in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience.

Duration and Total Points Value

3 A student enrolled for this degree must:
   a (i) pass courses with a total value of 120 points
   and
   (ii) complete within the time limit specified in the General Regulations – Masters Degrees.
   b The total enrolment for this degree must not exceed 160 points.

Structure and Content

4 Taught Masters
   a A student enrolled for this degree must pass 120 points from courses listed in the Master of Commercialisation and Entrepreneurship Schedule.
   b A student must complete Part I with at least a B grade average before commencing Part II.

5 Cross-credits will not be granted towards the award of the Degree of Master of Commercialisation and Entrepreneurship.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 The programme for each student must be approved by the Programme Director prior to enrolment and, for some students, may include preparatory work as specified by the Director.

8 A student who does not meet the requirements for this degree may apply to reassign courses passed for the Master in Commercialisation and Entrepreneurship to the Postgraduate Certificate in Commercialisation and Entrepreneurship.

Transfer from Postgraduate Certificate in Commercialisation and Entrepreneurship

9 A student who has passed for a Postgraduate Certificate in Commercialisation and Entrepreneurship courses that are available for this degree, who has not yet had the Postgraduate Certificate in Commercialisation and Entrepreneurship awarded and who is eligible to be admitted to this programme under Regulation 1, may reassign those courses to this degree.

Distinction

10 This degree may be awarded with Distinction or Merit as specified in the General Regulations – Masters Degrees.
Variations
11 In exceptional circumstance Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Human Resource Management – MHRM
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelors degree from this University deemed relevant by Senate or its representative, with a Grade Point Average of 5.0 or higher in 90 points of the most advanced courses, or the equivalent as approved by Senate or its representative.

Note: A relevant undergraduate degree may be in the humanities, sciences, technology or engineering.

Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

Structure and Content
3 a A student enrolled for this degree must complete the requirements as listed in the Master of Human Resource Management Schedule.

b A student enrolled for this degree who has been credited for another degree or diploma with any courses the same or similar to those listed for this degree may, at the discretion of Senate or its representative, be required to substitute approved additional Part III courses from the Master of Management Schedule for courses required for Part I.

c A student will not normally be permitted to:
   (i) enrol for Part III unless Part I has been completed with a Grade Point Average of 4.0 or higher.
   (ii) enrol for Part V unless Part III has been completed with a Grade Point Average of 4.0 or higher.

4 Courses selected for this qualification are subject to confirmation by the Programme Director.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar in Part I.

6 Cross-credits will not be granted towards the award of the Degree of Master of Human Resource Management.

Reassignment
7 A student may apply to reassign courses passed for this degree to the Master of Management or Postgraduate Diploma in Management or Postgraduate Certificate in Management.

Distinction
8 This degree may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high. Distinction may be awarded where a student has achieved a grade of A- or higher overall. Merit may be awarded where a student has achieved a B+ grade overall.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Information Governance – MInfoGov

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this degree, a student must have:
   a. (i) completed the requirements for a relevant Bachelor's degree from this University with a Grade Point Average of 4.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative
   or
   (ii) a completed the requirements for a relevant Bachelor's degree from this University, or the equivalent as approved by Senate or its representative
   and
   b. (i) passed 120 points in the Postgraduate Diploma in Information Governance from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate diploma has not been awarded
   or
   (ii) passed 60 points in the Postgraduate Certificate in Information Governance from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded
   or
   b. completed the requirements for the Postgraduate Diploma in Business in Information Governance from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

2. In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

Notes:
(i) A relevant Bachelor's degree may be in business, engineering, health sciences, humanities, law, sciences or technology.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Business and Economics.

Duration and Total Points Value

3. A student admitted to this degree under Regulation 1a or 2 must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 220 points for the total enrolment for this degree.

4. A student admitted to this degree under Regulation 1b must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points for the total enrolment for this degree.

Structure and Content

5. a. A student enrolled for this degree must complete the requirements as listed in the Master of Information Governance Schedule.
b A student enrolled for this degree who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses. If this Grade Point Average is not achieved, enrolment in the Master of Information Governance cannot continue.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 Courses selected for this qualification are subject to confirmation by the Programme Director.

Transfer from Postgraduate Diploma in Information Governance or Postgraduate Certificate in Information Governance

8 A student who has passed courses towards the Postgraduate Diploma in Information Governance or Postgraduate Certificate in Information Governance that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate diploma or postgraduate certificate has not been awarded.

Reassignment

9 a A student may apply to reassign courses passed to the Postgraduate Diploma in Information Governance or Postgraduate Certificate in Information Governance.

b Enrolment in the Master of Information Governance must be discontinued before any course is reassigned.

Distinction / Honours / Merit

10 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

12 These regulations came into force on 1 January 2022.

### Master of Information Governance (MInfoGov) Schedule

A student who has to complete 120 points must satisfy the following requirements:

**Taught Masters**
- 45 points: INFOGOV 704, 705
- and either
  - 75 points from INFOGOV 700–703, 706–712, other approved courses listed in the MCom or LLM Schedules
- or
  - 45 points from INFOGOV 700–703, 706–712, other approved courses listed in the MCom or LLM Schedules

A student who has to complete 180 points must satisfy the following requirements:

**Taught Masters**
- 90 points: INFOGOV 700–702, 704, 705
- and
- 90 points comprising
  - either
    - at least 45 points from INFOGOV 703, 706–712
    - up to 45 points from other approved courses listed in the MCom or LLM Schedules
- or
- 30 points: INFOGOV 720 Information Governance Project or 780 Research Project

**LLM Schedules**
- 45 points from INFOGOV 700–703, 706–712, other approved courses listed in the MCom or LLM Schedules
- or
- at least 15 points from INFOGOV 703, 706–712
- up to 45 points from other approved courses listed in the MCom or LLM Schedules
- or
- 30 points: INFOGOV 720 Project or 780 Research Project

The Degree of Master of International Business – MIntBus

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelors degree from this University deemed relevant by Senate or its representative with a Grade Point Average of 5.0 or higher in at least 90 points of the most advanced courses, or the equivalent as approved by Senate or its representative.

*Note: A relevant undergraduate degree may be in the humanities, sciences, technology or engineering.*

Duration and Total Points Value

2 A student admitted to this degree must:
   - pass courses with a total value of 240 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 280 points for the total enrolment for this degree.

Structure and Content
3 a A student enrolled for this degree must complete the requirements as listed in the Master of International Business Schedule.

b A student enrolled for this degree who has been credited for another degree or diploma with any courses the same or similar to those listed for this degree may, at the discretion of Senate or its representative, be required to substitute additional Part III courses for courses required for Part I.

c A student will not normally be permitted to:
(i) enrol for Part III unless Part I has been completed with a Grade Point Average of 4.0 or higher.

The Degree of Master of Property – MProp

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1  In order to be admitted to this programme, a student needs to have:

  either

  a (i) completed the requirements for the Degree of Bachelor of Property

  and

  (ii) passed the courses taken for Part III of that degree with an average grade of B or higher

  or

  b (i) completed the requirements for the Degree of Bachelor of Property (Honours)

  and

  (ii) achieved an average grade of B or higher

  or

  c (i) completed the requirements for the Postgraduate Diploma in Property

  and

  (ii) achieved an average grade of B or higher

  or
d completed the requirements for any other appropriate Bachelors degree or equivalent qualification as approved by Senate or its representative, provided that the average grade in the final year of study was equivalent to B or higher.

2 A student who has not completed all the requirements for the Degree of Bachelor of Property but who has:
- passed courses with a total value of at least 330 points for that degree
- achieved an average grade of B or higher in at least 75 points for Part III
may, with the approval of the Head of Department of Property, enrol for this degree. The remaining courses for the Degree of Bachelor of Property must be passed within 12 months of initial enrolment for the Master of Property. The Degree of Master of Property will not be awarded until the requirements for the Bachelor of Property have been completed.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a, 1d or 2 must:
- pass courses with a total value of 180 points
- complete within the time limit specified in the General Regulations – Masters Degrees
- not exceed 220 points for the total enrolment of this degree.

4 If a student is enrolled in the Late Year Term in points towards the MProp, then this counts as a semester in respect of the time limits specified in the General Regulations – Masters Degrees.

5 A student admitted to this degree under Regulation 1b or 1c must:
- pass courses with a total value of 120 points
- complete within the time limit specified in the General Regulations – Masters Degrees
- not exceed 160 points for the total enrolment of this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Property Schedule.
- A student who has to complete 180 points must achieve a Grade Point Average of 5.0 in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Property cannot continue.
- A student required to complete 180 points for this degree may substitute other 700 level courses offered at this University as approved by Senate or its representative.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8 A student who has enrolled in a dissertation in the Late Year Term must submit the dissertation by the final Friday of the Late Year Term. If, in exceptional circumstances beyond the student’s control, the dissertation has not been able to be completed by this date, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

Submission of a Dissertation taken in the Late Year Term
9 A student who has enrolled in a dissertation in the Late Year Term must submit the dissertation by the final Friday of the Late Year Term. If, in exceptional circumstances beyond the student’s control, the dissertation has not been able to be completed by this date, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

Reassignment
10 A student may apply to reassign courses passed for the Master of Property to the Postgraduate Diploma in Property.
Honours
11 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Property Practice – MPropPrac

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in at least 90 points of the most advanced courses taken towards the qualification, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
        and
        (b) passed 60 points in the Postgraduate Certificate in Property Practice or Postgraduate Diploma in Property Practice from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded
   or
   b completed the requirements for the Postgraduate Diploma in Business in Property Management from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative.

2 Students who have previously been awarded the Degree of Bachelor of Property will not be admitted.

3 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) A relevant degree may be in architecture, arts, business, education, engineering, health sciences, medical sciences, law, planning, sciences or technology.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Business and Economics.

Duration and Total Points Value
4 A student admitted to this degree under Regulation 1a or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
A student admitted to this degree under Regulation 1b must:

- pass courses with a total value of 120 points
- complete within the time limit specified in the General Regulations – Masters Degrees
- not exceed 160 points for the total enrolment for this degree.

**Structure and Content**

6 A student who is required to complete 180 points must pass each of Parts I and II as listed in the Master of Property Practice Schedule.

7 A student will not normally be permitted to enrol for Part II unless 120 points of Part I has been completed with a Grade Point Average of 4.0 or higher. If this Grade Point Average is not achieved, enrolment in the Master of Property Practice cannot continue.

8 A student who is required to complete 120 points must pass 60 points of courses in Part I not previously passed for the PGDipBus in Property Practice and Part III as listed in the Master of Property Practice Schedule.

9 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar* in Part I.

10 Where a student has passed a course for a qualification that has been awarded, and such a course is deemed by the Programme Director to be the same as or substantially similar to any course required for this degree, the student must pass an alternative course(s) approved by the Programme Director to complete this degree.

11 Courses selected for this qualification are subject to confirmation by the Programme Director.

**Transfer from Postgraduate Certificate in Property Practice or Postgraduate Diploma in Property Practice**

12 A student who has passed courses towards the Postgraduate Certificate in Property Practice or Postgraduate Diploma in Property Practice that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

**Reassignment**

13 A student may apply to reassign courses passed to the Postgraduate Diploma in Property Practice or Postgraduate Certificate in Property Practice.

**Distinction**

14 This degree may be awarded with Distinction or Merit in accordance with the General Regulations – Masters Degrees.

**Variations**

15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Commencement**

16 These regulations came into force on 1 January 2022.

</tbody>
</table>

| **Part II**                |  |
| 45 points from PROPRAC 709, 778, 779 |
a (i) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative

and

(ii) completed STATS 108 or its equivalent as approved by Senate or its representative

or

b (i) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative

and

(ii) completed STATS 108 or its equivalent as approved by Senate or its representative

and

(iii) passed 60 points in the Postgraduate Certificate in Supply Chain Management from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

or

c (i) completed the requirements for a relevant Bachelors honours degree with a Grade Point Average of 5.0 or higher from this University, or the equivalent as approved by Senate or its representative

and

(ii) completed STATS 108 or its equivalent as approved by Senate or its representative

or

d (i) completed the requirements for the Postgraduate Diploma in Business in Administration or Postgraduate Diploma in Business Management from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

and

(ii) completed BUSADMIN 763 or BUSMAN 707 or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: A relevant degree may be in business, engineering, health sciences, sciences or technology

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a, b or c must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c must not exceed 220 points for the total enrollment for this degree.

4 A student admitted to this degree under Regulation 1d must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c must not exceed 160 points for the total enrollment for this degree.

Structure and Content
5 A student who is required to complete 180 points must

a pass each of Parts I, II and III as listed in the Master of Supply Chain Management Schedule.

and

b will not normally be permitted to enrol for Part III unless a Grade Point Average of 5.0 or higher has been achieved in 105 points from Parts I and II. If this Grade Point Average is not achieved, enrolment in the Master of Supply Chain Management cannot continue.

6 A student who is required to complete 120 points must

a pass each of Parts II and III as listed in the Master of Supply Chain Management Schedule

and

b will not normally be permitted to enrol for Part III unless a Grade Point Average of 5.0 or higher has been achieved in 45 points from Part II. If this Grade Point Average is not achieved, enrolment in the Master of Supply Chain Management cannot continue.

7 A student who has failed to pass Part II in its entirety may, at the discretion of Senate or its representative, be allowed to enrol for the course or courses needed to complete that Part, together with a course or courses towards Part III.
A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Where a student has passed a course for a qualification that has been awarded, and such a course is deemed by the Programme Director to be the same as or substantially similar to any course required for this degree, the student must pass an alternative course(s) approved by the Programme Director to complete this degree.

Courses selected for this qualification are subject to confirmation by the Programme Director.

Transfer from Postgraduate Certificate in Supply Chain Management

A student who has passed courses towards the Postgraduate Certificate in Supply Chain Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Reassignment

A student may apply to reassign courses passed to the Postgraduate Diploma in Supply Chain Management or Postgraduate Certificate in Supply Chain Management.

Distinction

This degree may be awarded with Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2021.

Certificate in Commerce – CertCom

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this certificate, a student must have:

a been enrolled in the Degree of Bachelor of Commerce, or a conjoint programme that includes the Bachelor of Commerce as a component degree, or the Graduate Diploma in Commerce, at this University

and

b passed at least 60 points for that degree

and

c been recommended for admission by the Dean or nominee.

Total Points Value

A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content

Of the 60 points required for this certificate, 30 points must be from courses listed as available for the BCom in the Bachelor of Commerce Schedule.

A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Commerce – DipCom
The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Commerce, or a conjoint programme that includes the Bachelor of Commerce as a component degree, at this University
   and
   b passed at least 120 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed as available for the BCom in the Bachelor of Commerce Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Commerce – GradDipCom
The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Commerce
   or
   b any other degree approved by Senate or its representative
   or
   c a professional qualification in Commerce approved by Senate or its representative.

2 With the approval of Senate or its representative, a student may enrol for this graduate diploma after passing at least 345 points for the Degree of Bachelor of Commerce or the equivalent in other such degrees. The graduate diploma will not be awarded until such qualifying degree is completed.

Duration and Total Points Value
3 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

4 The total value of the courses credited to this graduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this graduate diploma, a student must pass:
   a at least 75 points above Stage II, including at least 45 points above Stage II from courses listed in the Bachelor of Commerce Schedule
b up to 45 points from Stage II courses listed in the Bachelor of Commerce Schedule.

6 Up to 30 points above Stage I may be taken from other programmes offered by this University.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Cross-credits will not be granted towards the Graduate Diploma in Commerce.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations have been amended with effect from 1 January 2021.

Postgraduate Certificate in Business – PGCertBus

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
   or
   b (i) completed the requirements for a professional qualification in Accountancy, Engineering, Medicine or a related healthcare subject, Science or other discipline deemed relevant to the programme of study by Senate or its representative
   and
   (ii) at least two years of relevant work experience approved as appropriate by the relevant Head of Department
   or
   c at least five years of employment experience deemed relevant to this programme by Senate or its representative.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Business Schedule.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 Courses selected for this qualification are subject to the confirmation of the Programme Coordinator.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2022.

Postgraduate Certificate in Business (PGCertBus) Schedule

Requirement:
• 60 points: BUSMAN 771–774, or other approved courses from the PGDipBus or MBA Schedules
Postgraduate Certificate in Business Analytics – PGCertBusAn

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have:
either
a (i) (a) completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in the most advanced 90 points, or the equivalent as approved by Senate or its representative
or (b) completed the requirements for a relevant Bachelors Honours degree from this University, or the equivalent as approved by Senate or its representative
and (ii) completed STATS 108 or its equivalent as approved by Senate or its representative
or b (i) completed the requirements for the Postgraduate Diploma in Business in Administration or Postgraduate Diploma in Business Management from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
and (ii) completed STATS 108 or BUSADMIN 763 or BUSMAN 707, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or can demonstrate equivalent practical, professional or scholarly experience of an appropriate kind.

Note: A relevant degree may be in business, engineering, health sciences, social sciences, sciences or technology

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
a pass courses with a total value of 60 points
and b complete within the time limit specified in the General Regulations – Postgraduate Certificates
and c not exceed 90 points for the total enrolment for this postgraduate certificate.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete 60 points from the courses listed in the Postgraduate Certificate in Business Analytics Schedule.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 Courses selected for this qualification are subject to the confirmation of the Programme Coordinator.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2022.

Postgraduate Certificate in Business Analytics (PGCertBusAn) Schedule

Postgraduate Certificate in Commercialisation and Entrepreneurship – PGCertCE

New admissions into the Postgraduate Certificate in Commercialisation and Entrepreneurship were suspended in
2020. Students who have a current enrolment in this qualification should contact their faculty for advice regarding
completion.

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a four-year undergraduate or honours degree deemed relevant by
       Senate or its representative with a B– average or higher in at least 90 points or equivalent in the most
       advanced courses taken towards this entry qualification
       or
       (ii) completed the requirements for an undergraduate degree and the requirement for a postgraduate
       diploma deemed relevant by Senate or its representative with a B– average or higher in at least 90 points
       or equivalent in the most advanced courses taken towards this entry qualification
       or
       (iii) completed the requirements for an undergraduate degree deemed relevant by Senate or its
       representative with a B– average or higher in at least 90 points or equivalent in the most advanced
       courses taken towards this entry qualification, and evidence of professional experience considered
       equivalent to the additional advanced study required in (a)(i) or (ii) above
   and
   b performed acceptably in any tests of academic aptitude and/or interviews prescribed by Senate or its
   representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met
the above requirements, but who has attained an equivalent qualification or professional experience.
Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 A student enrolled for this postgraduate certificate must pass courses with a total value of at least 60 points
selected from the courses listed in Part I of the Master of Commercialisation and Entrepreneurship Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 Cross-credits will not be granted towards the award of the Postgraduate Certificate in Commercialisation and
   Entrepreneurship.

8 The programme for each student must be approved by the Programme Director and, for some students, may
   include preparatory work as specified by the Director.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme that does not
   conform to these regulations.

Amendment
10 These regulations have been amended with effect from 1 January 2021.

Postgraduate Certificate in Commerce – PGCertCom

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have:
   a completed the requirements for a Masters degree from this University, or the equivalent as approved by
     Senate or its representative
   and
   b passed any prerequisite requirements specified in the Master of Commerce schedule for the subject intended
     for this postgraduate certificate with a Grade Point Average of 5.0 or higher, or the equivalent as approved by
     Senate or its representative.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a at least 60 points in one of the subjects listed in the Master of Commerce Schedule
   or
   b (i) at least 45 points in one of the subjects listed in the Master of Commerce Schedule, excluding thesis
       courses
       and
       (ii) up to 15 points from other courses listed in the Master of Commerce Schedule or other approved 700
           level courses offered at this University.

5 A research essay may be included as approved by the Academic Head or nominee.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and
   Programme Regulations, Academic Integrity, of the University Calendar.

7 Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.
Research Essay
8  a The research essay, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research essay topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The research essay must be completed and submitted as specified in the General Regulations – Postgraduate Certificates.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2022.

Postgraduate Diploma in Property – PGDipProp

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Property
   or
       (ii) completed the requirements for any other degree qualification approved by Senate or its representative that is indicative of ability to undertake advanced study in Property
   and
   b achieved an average grade of at least B in at least 75 points in Stage III Property courses or equivalent.

2 A student who has not completed all the requirements for the Degree of Bachelor of Property but who, for that degree, has:
   a passed courses with a total value of at least 345 points
   and
   b achieved an average grade of B or higher in at least 75 points for Part III
   may, with the approval of the Head of Department, enrol for this postgraduate diploma. The remaining points required for the Degree of Bachelor of Property must be completed within 12 months of initial enrolment for this diploma. Should the requirements for the Bachelor of Property not be completed in this time, the Postgraduate Diploma in Property enrolment will be suspended until they have been completed.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
   a at least 120 points from courses listed in the Postgraduate Diploma in Property Schedule
   or
   b (i) at least 90 points from courses listed in the Postgraduate Diploma in Property Schedule
   and
       (ii) up to 30 points at 700 level from a related subject, provided it is deemed by the Head of Department of Property to be relevant to the student’s programme and appropriate to be taken as part of this postgraduate diploma.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
7 a A dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The dissertation topic must be approved by the Head of Department of Property prior to enrolment.

   c The dissertation is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2019.
Postgraduate Diploma in Property Practice – PGDipPropPrac

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma a student must have:
   a completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in at least 90 points of advanced courses, or the equivalent as approved by Senate or its representative
   or
   b (i) completed the requirements for a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its representative
   and
   (ii) passed 60 points in the Postgraduate Certificate in Property Practice from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded.

2 Students who have previously been awarded the Degree of Bachelor of Property will not be admitted.

3 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or can demonstrate equivalent practical, professional or scholarly experience of an appropriate kind.

Note: A relevant degree may be in arts, business, education, engineering, health sciences, medical sciences, law, planning, sciences or technology

Duration and Total Points Value
4 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas
   and
   c not exceed 160 points for the total enrolment for this postgraduate diploma.

Structure and Content
5 A student enrolled for this postgraduate diploma must complete the requirements as specified in the Postgraduate Diploma in Property Practice Schedule.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Transfer from Postgraduate Certificate in Property Practice
7 A student who has passed courses towards the Postgraduate Certificate in Property Practice that are available in this postgraduate diploma may apply to reassign those courses to this postgraduate diploma provided that the postgraduate certificate has not been awarded.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:
   a 330 points as listed in the Bachelor of Architectural Studies Schedule
   and
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions

4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Architecture and Planning.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Head of School of Architecture and Planning.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Variations

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

6 These regulations and/or schedule have been amended with effect from 1 January 2018.

The Degree of Bachelor of Dance Studies – BDanceSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.
(ii) To be eligible for selection an applicant must demonstrate that they have the artistic and creative skills and knowledge required for this degree. The submission of a CV, written statement and audition/interview is required.

Duration and Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Dance Studies Schedule, including at least 180 points above Stage I, of which at least 90 points must be above Stage II
   and
   b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
      (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
      (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
3 Up to 30 points may be taken from courses available for any other Bachelors degree at this University.

General Education Exemptions
4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of Dance Studies Programme.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Head of Dance Studies Programme.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Special Cases
5 Students entering this degree with prior learning in dance may be required to:
   either
   a enrol directly in a corresponding Stage II or Stage III course
   or
   b take an alternative course approved by the Head of the Programme.

In such cases where a student is required to enrol in an advanced or alternative course (due to prior learning), should the student then fail the advanced or alternative course, the student will be credited with the course
originally specified in the Regulations if they are certified by the examiner as having reached the standard of a pass for that course.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Design – BDes

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Design Schedule
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
   c up to 30 points from courses available for this degree or other Bachelors degrees at this University.
3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by the Senate or its representative for 15 points of General Education.

General Education Exemptions
4 A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Academic Head.
   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
      (i) 15 points from courses offered in the General Education Schedules and
      (ii) a further 15 points from courses approved by the Academic Head.
   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Conjoint Degrees
5 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Commencement
7 These regulations came into force on 1 January 2020.

The Degree of Bachelor of Fine Arts – BFA

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme equivalent to six full-time semesters, and pass courses with a total value of 360 points unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a (i) at least 300 points from courses listed in the Bachelor of Fine Arts Schedule, including at least 195 points above Stage I, of which 75 points must be above Stage II
   (ii) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   (iii) up to 30 points from courses available from other Bachelor’s degrees at this University

   or

   b (i) 285 points from courses listed in the Bachelor of Fine Arts Schedule, including at least 195 points above Stage I, of which 75 points must be above Stage II
   (ii) a 45 point module from other Bachelor’s degrees at this University
   (iii) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations of The University of Auckland Calendar, may substitute an academic English language course approved by the Senate or its representative for 15 points of General Education.

General Education Exemptions
4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Academic Head.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this
degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
(i) 15 points from courses offered in the General Education Schedules and
(ii) a further 15 points from courses approved by the Academic Head.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees
5 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

The Degree of Bachelor of Music – BMus

The regulations for this degree are to be read in conjunction with all the other relevant statutes and regulations including the Academic Statutes and Regulations.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.
(ii) To be eligible for selection an applicant must demonstrate that they have the knowledge required for the Creative Practice specialisations in the degree. An audition or composition portfolio is required.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Music Schedule, including:
      (i) at least 180 points above Stage I
      (ii) 60 points: MUS 104, 143, 243, 343
      (iii) the courses specified for one of the specialisations listed in the Bachelor of Music Schedule, of which at least 75 points must be above Stage II

   and

   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

4 Up to 30 points may be substituted for elective courses in the Bachelor of Music Schedule from courses in other programmes offered at this University.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
(i) completed an undergraduate degree at a tertiary institution
or
(ii) commenced study for this degree at a tertiary institution before 1 January 2006
or
(iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Music.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
(i) 15 points from courses offered in the General Education Schedules
and
(ii) a further 15 points from courses approved by the Head of School of Music.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
6 In any course that includes performance work of a practical nature, a student must comply with the requirements for that course as specified by the Head of School of Music.

Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Bachelor of Urban Planning – BUrbPlan

Note: New admissions into the Degree of Bachelor of Urban Planning were suspended in 2021. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Degree Requirements
1 Students who enrol for the Degree of Bachelor of Urban Planning (Honours) may be awarded the Degree of Bachelor of Urban Planning if, having passed all courses and completed all other requirements for the BUrbPlan(Hons), their performance in the courses is deemed by the Head of School of Architecture and Planning to be not of Honours standard.

Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.

The Degree of Bachelor of Dance Studies (Honours) – BDanceSt(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of Bachelor of Dance Studies from this University with a Grade Point Average of 5.0 or higher in 90 points above Stage II, or the equivalent as approved by Senate or its representative.

2 A student who has not completed the requirements for the Degree of Bachelor of Dance Studies from this University but who has:
   a passed courses with a total value of at least 345 points for that degree and
   b achieved a Grade Point Average of 5.0 or higher in 90 points above Stage II
may, with the approval of the Head of Programme, be admitted to the Bachelor of Dance Studies (Honours) concurrently with the remaining courses for the Degree of Bachelor of Dance Studies. The Degree of Bachelor of Dance Studies (Honours) will not be awarded until the requirements for the Bachelor of Dance Studies have been completed.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts And Industries.
(ii) To be eligible for selection an applicant must demonstrate that they have the artistic and creative skills and knowledge required for this degree. The submission of a CV, written statement and audition/interview is required.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Dance Studies (Honours) Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
7 In any course that includes performance work of a practical nature a student must comply with the requirements for that course as specified by the Head of Programme.

Research Project
8 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of Programme.
b The research project topic must be approved by the Head of Programme prior to enrolment.

c The research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
9 A student may apply to reassign the courses passed from this degree to the Postgraduate Diploma in Dance Studies.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Fine Arts (Honours) – BFA(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 a No student on whom the Degree of Bachelor of Fine Arts has already been conferred may enrol for this degree.

b At the discretion of the Dean of Faculty of Creative Arts and Industries a student who has completed Parts I, II and III for a Bachelor of Fine Arts or its equivalent, and achieved a Grade Point Average of 5.0 or higher in all Fine Arts courses above Stage II, may be permitted to enrol for this degree.

c Where the Faculty of Creative Arts and Industries approves enrolment for the Degree of Bachelor of Fine Arts (Honours) the courses previously passed for the Degree of Bachelor of Fine Arts will be reassigned to the Degree of Bachelor of Fine Arts (Honours).

Note: 30 points of the General Education requirement must be completed prior to enrolment.

Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 480 points required for this degree, a student must pass:

a 360 points from the Degree of Bachelor of Fine Arts Schedule

and

b 120 points from courses listed in the Bachelor of Fine Arts (Honours) Schedule.

4 The programme for each student requires the approval of the Dean of Faculty of Creative Arts and Industries.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Conjoint Degrees
6 Special arrangements apply where this degree is taken as a component degree of an approved conjoint degree programme for which the specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Research Project
7 a The research project is to be carried out under the guidance of a supervisor/s appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Creative Arts and Industries.
b The research project topic must be approved by the Dean of Faculty of Creative Arts and Industries prior to enrolment.

c The research project is to be completed by the last day of the final semester of enrolment in the research project. If, in exceptional circumstances beyond the student’s control, the research project has not been able to be completed by the above deadline, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

Award of Honours
8 The Bachelor of Fine Arts (Honours) may be awarded with either First Class Honours or Second Class Honours in either First Division or Second Division. The class of Honours shall be determined by the grade achieved in FINEARTS 790.

Withdrawal from Honours
9 A student whose work does not satisfy the standard specified in Regulation 8, or who at any time chooses to withdraw from Honours, may transfer from the Degree of Bachelor of Fine Arts (Honours) to the Degree of Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degree of Bachelor of Fine Arts (Honours) may be reassigned to the Degree of Bachelor of Fine Arts.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2015.

The Degree of Bachelor of Music (Honours) – BMus(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student must have:
   a completed the requirements for the Degree of Bachelor of Music from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative and
   b approval from the Head of School of Music.

2 A student who has not completed the requirements for the Degree of Bachelor of Music but who has:
   a passed courses with a total value of at least 340 points for that degree and
   b a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative may, with the written approval of the Head of School of Music, enrol for this degree concurrently with the remaining courses for the Degree of Bachelor of Music. The Degree of Bachelor of Music (Honours) will not be awarded until the requirements for the Bachelor of Music have been completed.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Music (Honours) Schedule.

6 Course(s) selected for this qualification must be approved by the Head of School of Music prior to enrolment.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
8 In any course that includes performance work of a practical nature a student must comply with the requirements for that course as specified by the Head of School of Music.

Research Project
9 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Music.

b The research project topic must be approved by the Head of School of Music prior to enrolment.

c The research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
10 A student may apply to reassign the courses passed for this degree to the Graduate Diploma in Music or Postgraduate Diploma in Music.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Bachelor of Urban Planning (Honours) – BUrbPlan(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 No student on whom the Bachelor of Planning has been conferred or who has passed more than 240 points towards the Bachelor of Planning, or equivalent, may enrol for this degree.
Notes:

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

(ii) To be admitted a student must meet University entry criteria and through the submission of a written statement demonstrate knowledge required for the programme.

Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 480 points required for this degree, a student must pass:
   a at least 450 points from courses listed in the Bachelor of Urban Planning (Honours) Schedule
   and  
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
   c A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

4 a A student must pass each of Parts I, II, III, and IV as listed in the Bachelor of Urban Planning (Honours) Schedule.
   b (i) A student will not be permitted to enrol for Part II unless Part I has been completed, nor to enrol for Part III unless Part II has been completed, nor to enrol for Part IV unless Part III has been completed.
   (ii) However, a student who has failed to pass one of those parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.
   (iii) Only in exceptional circumstances will a student be permitted to enrol for Part III unless all of Part I has been completed, or to enrol for Part IV unless all of Part II has been completed.
   (iv) A student will not be permitted to enrol for Part IV if they have not completed the 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
   (v) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Head of School of Architecture and Planning.

   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Head of School of Architecture and Planning.

   d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Honours
6 a Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours will be determined by the student’s weighted average grade over courses undertaken in Parts II, III and IV excluding General Education.

c The class of Honours is determined by the weighted Grade Point Average as follows:
- 7.0 to 9.0 - First Class Honours
- 5.5 to 6.9 - Second Class Honours First Division
- 4.0 to 5.4 - Second Class Honours Second Division
- 3.9 and below - Third Class Honours

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Architecture – MArch

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a (i) completed the requirements for the Degree of Bachelor of Architecture
       or
   (ii) completed the requirements for the Master of Architecture (Professional)
       or
   (iii) completed the requirements for the Postgraduate Diploma in Architecture
       or
   (iv) completed the requirements for an equivalent qualification, approved by Senate or its representative, that is indicative of ability to undertake advanced study in Architecture

   and

   b achieved a sufficiently high average grade, as determined by the Head of School of Architecture and Planning.

2 A student who has not completed all the requirements for one of the qualifications listed in Regulation 1 but who, for that qualification, has:
   a no more than 20 points left to complete
   and
   b achieved an average grade of B– or higher in at least 70 points at the highest level of that qualification may, with the approval of the Head of School, enrol for this degree. The remaining points required for the qualification must be completed within 12 months of initial enrolment for this degree. Should this requirement not be completed in this time, the enrolment for the Degree of Master of Architecture will be suspended until they have been completed.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.
Structure and Content
5 Of the 120 points required for this degree, a student must pass:

Research Masters

either
a 120 point Thesis listed in the Master of Architecture Schedule
or
b (i) 90 point Thesis listed in the Master of Architecture Schedule
and
(ii) at least 30 points from courses approved by the Head of School of Architecture and Planning from:
(a) the Elective Courses listed in the Master of Architecture Schedule
(b) the Elective Courses listed in the Postgraduate Diploma in Architecture Schedule, not already passed
for that qualification
(c) other 700 level programmes offered at this University
or
c Sustainable Design

either
(i) 120 point Thesis listed in the Master of Architecture Schedule
or
(ii) 90 point Thesis listed in the Master of Architecture Schedule
and
30 points from the Elective Courses listed in the Master of Architecture Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic must be approved by the Head of School of Architecture and Planning prior to enrolment.

c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Architecture (Professional) – MArch(Prof)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of Bachelor of Architectural Studies with a Grade Point Average of 4.0 or higher in 90 points at Stage III, or the equivalent as approved by Senate or its representative.

2 A student who has not completed the requirements for the Degree of Bachelor of Architectural Studies or the equivalent but who has:

a no more than 20 points left to complete
and
b achieved a Grade Point Average of 5.0 or higher in 90 points at Stage III, or the equivalent,
may, with the approval of the Head of School of Architecture and Planning, enrol in the courses for the Master of Architecture (Professional). The remaining points required for the Degree of Bachelor of Architectural Studies or its equivalent must be completed within 12 months of initial enrolment for the Master of Architecture (Professional). Should this requirement not be completed within this time, enrolment for the Degree of Master of Architecture (Professional) will be suspended until they have been completed.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value
3 A student who has enrolled for this degree must pass courses with a total value of 240 points.
4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Architecture (Professional) Schedule.
6 A student who has not completed ARCHPRM 305, ARCHTECH 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706 as approved by the Academic Head or nominee.
7 The programme for each student requires the approval of the Head of School of Architecture and Planning.
8 A student enrolled for this degree must, before enrolment in ARCHDES 796, achieve a Grade Point Average of 4.0 or higher over 90 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) cannot continue.
9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Planning (Professional) once.
   b A student may reassign courses from this degree to the Master of Architecture (Professional) and Heritage Conservation once.
   c A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Design once.
   d A student may apply to reassign courses passed for the Master of Architecture (Professional) to the Postgraduate Diploma in Architectural Studies.
   e All courses that can be reassigned must be reassigned including courses not completed.

Deadlines for Completion
11 a A student must complete the requirements for this degree within four semesters if enrolled full-time or eight semesters if enrolled part-time or equivalent.
   b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.
   c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

Completion of Requirements
12 a If, in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 11c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees.
   b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.
   c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 11 in order to complete the coursework component of the degree.
Thesis
13 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d The exhibition and oral presentation will be followed by the submission of the thesis.

e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.

f The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 12 and 13.

g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i Where the outcome of the examination is to award a thesis a passing grade:

(i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.

(ii) The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

j Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

14 A Certificate of Proficiency course may be reassigned to the coursework component of this degree as specified in Regulation 9 of the Credit Regulations.

Honours
15 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
16 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
17 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Architecture (Professional) and Heritage Conservation – MArch(Prof)HerCons

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to meet the admission requirements for the Degrees of Master of Architecture (Professional) and Master of Heritage Conservation.
Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value
2 a A student admitted to this degree must pass courses with a total value of 300 points.
   b The total enrolment for this degree must not exceed 340 points.

Structure and Content
3 A student enrolled for this degree must complete requirements as listed in the Master of Architecture (Professional) and Heritage Conservation Schedule.
4 A student who has not completed ARCHPRM 305, ARCHTECH 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706 as approved by the Academic Head or nominee.
5 The programme for each student requires the approval of the Head of School of Architecture and Planning.
6 A student enrolled for this degree must, before enrolment in ARCHDES 796, achieve a Grade Point Average of 4.0 or higher over 120 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) and Heritage Conservation cannot continue.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Deadlines for Completion
8 a A student must complete the requirements for this degree within five semesters if enrolled full-time or ten semesters if enrolled part-time or equivalent.
   b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.
   c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

Completion of Requirements
9 a If, in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 8c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees.
   b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.
   c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 8 in order to complete the coursework component of the degree.

Thesis
10 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.
   c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.
   d The exhibition and oral presentation will be followed by the submission of the thesis.
   e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.
   f The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 9 and 10.
   g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.
h The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i Where the outcome of the examination is to award a thesis a passing grade:
   (i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.
   (ii) The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

j Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

Reassignment
11 a A student may reassign courses from this degree to the Master of Architecture (Professional) once.
b A student may reassign courses from this degree to the Master of Heritage Conservation once.
c A student may apply to reassign courses passed for the Master of Architecture (Professional) and Heritage Conservation to the Postgraduate Diploma in Architectural Studies.
d All courses that can be reassigned must be reassigned, including courses not completed.

Honours
13 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

The Degree of Master of Architecture (Professional) and Housing Studies – MArch(Prof)HousSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must meet the admission requirements for the Degrees of Master of Architecture (Professional) and Master of Housing Studies.

Duration and Total Points Value
2 a A student admitted to this degree must pass courses with a total value of 300 points.
b The total enrolment for this degree must not exceed 340 points.

Structure and Content
3 A student enrolled for this degree must complete requirements as listed in the Master of Architecture (Professional) and Housing Studies Schedule.

4 A student who has not completed ARCHPRM 304, 305, ARCHTECH 307, 312, 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706 as approved by the Academic Head or nominee.

5 Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.
A student enrolled for this degree must achieve a Grade Point Average of 4.0 or higher over 120 points in the taught courses of this degree prior to enrolment in ARCHDES 796. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) and Housing Studies cannot continue.

A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Deadlines for Completion
8 a A student must complete the requirements for this degree within five semesters if enrolled full-time or ten semesters if enrolled part-time or equivalent.

b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.

c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

Completion of Requirements
9 a If, in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 9c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees.

b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.

c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 8 in order to complete the coursework component of the degree.

Thesis
10 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d The exhibition and oral presentation will be followed by the submission of the thesis.

e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.

f The student is to submit a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 9 and 10.

g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h The Associate Dean (Postgraduate Research) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i Where the outcome of the examination is to award a thesis a passing grade:

   (i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will confirm that the digital copy has been deposited in ResearchSpace.

   (ii) The thesis deposited in digital form will be accessible to users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

j Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.
Reassignment
11 a A student may apply to reassign courses to the Master of Architecture (Professional) once.
   b A student may apply to reassign courses to the Master of Housing Studies once.
   c A student may apply to reassign courses passed to the Postgraduate Diploma in Architectural Studies.
   d All courses that can be reassigned must be reassigned, including courses attempted but not completed.

Honours
12 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not
    conform to these regulations.

Commencement
14 These regulations came into force on 1 January 2022.

The Degree of Master of Architecture (Professional) and Urban Design – MArch(Prof)UrbDes

_The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations._

Admission
1 In order to be admitted to this programme, a student needs to meet the admission requirements for the Degree of Master of Architecture (Professional).

_Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries._

Duration and Total Points Value
2 a A student admitted to this degree must pass courses with a total value of 300 points.
   b The total enrolment for this degree must not exceed 340 points.

Structure and Content
3 A student enrolled for this degree must complete the requirements as listed in the Master of Architecture (Professional) and Urban Design Schedule.

4 A student who has not completed ARCHPRM 305, ARCHTECH 314, 315 or equivalent courses must complete one or both of ARCHPRM 700, ARCHTECH 706 as approved by the Academic Head or nominee.

5 The programme for each student requires the approval of the Head of School of Architecture and Planning.

6 A student enrolled for this degree must, before enrolment in ARCHDES 796, achieve a Grade Point Average of 4.0 or higher over 120 points in the taught courses of this degree. If this Grade Point Average is not achieved, enrolment in the Master of Architecture (Professional) and Urban Design cannot continue.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Deadlines for Completion
8 a A student must complete the requirements for this degree within five semesters if enrolled full-time or ten semesters if enrolled part-time or equivalent.
   b A student enrolled in this degree must complete their thesis by the date approved by the Head of School of
Architecture and Planning which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.

c With the approval of the Head of School of Architecture and Planning a student may submit their thesis up to 12 months after the student’s initial enrolment in the thesis if enrolled full-time, or its part-time equivalent.

Completion of Requirements
9 a If, in exceptional circumstances beyond the student’s control, the thesis has not been able to be completed by the date set under Regulation 8c, Senate or its representative, acting upon the recommendation of the Head of School of Architecture and Planning, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees.

b Extensions of time to complete coursework will not be granted beyond the end of the semester(s) of enrolment in the course.

c A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester beyond the deadline for completion specified in Regulation 8 in order to complete the coursework component of the degree.

Thesis
10 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis topic and mode of presentation must be approved by the Head of School of Architecture and Planning prior to enrolment in the thesis. The mode of presentation will normally include an exhibition of finished work (including some or all of digital, graphic and/or three-dimensional components) and an oral presentation of the finished work to examiners, supervisors, academic staff and other students in the cohort being examined.

c The exhibition and oral presentation shall be organised by the Head of School of Architecture and Planning in consultation with the Faculty Student Centre.

d The exhibition and oral presentation will be followed by the submission of the thesis.

e Recordings of exhibitions and oral presentations are not deposited in the University Library, nor deposited with the University’s digital repository.

f The student is to submit three temporary-bound copies and a digital copy of their thesis to the Faculty Student Centre in accordance with Regulations 8 and 9.

g The digital thesis shall be formatted as specified in the Guidelines for Formatting a Digital Thesis at the University of Auckland.

h The Associate Dean (Postgraduate) of the Faculty is responsible for transmitting the submitted copies to the examiners.

i Where the outcome of the examination is to award a thesis a passing grade:
   (i) Within one month of being advised of the outcome of the examination, the student must complete any minor corrections required to the satisfaction of the supervisor, deposit one hard-bound copy of the thesis with the appropriate Faculty Student Centre, and deposit a digital copy of the thesis in ResearchSpace in the University Library. The Faculty Student Centre will forward the hard-bound thesis to the University Library and will confirm that the digital copy has been deposited in ResearchSpace.
   (ii) The thesis deposited in digital form will be accessible to authenticated users through the University’s digital repository unless embargoed under Regulation 25 of the Examination Regulations.

j Where the outcome of the examination is to award a thesis a fail grade, the thesis will not be held in the University’s Library or digital repository.

Reassignment
11 a A student may reassign courses from this degree to the Master of Architecture (Professional) once.

b A student may apply to reassign courses passed for the Master of Architecture (Professional) and Urban Design to the Postgraduate Diploma in Architectural Studies.

c All courses that can be reassigned must be reassigned including courses not completed.

Honours
12 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

The Degree of Master of Dance Studies – MDanceSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have:
   either
   a completed the requirements for the Degree of Bachelor of Dance Studies (Honours), Postgraduate Diploma in Creative and Performing Arts or Postgraduate Diploma in Dance Studies from this University, or the equivalent as approved by Senate or its representative
   or
   b completed the requirements for the Degree of Bachelor of Dance Studies including 90 points at Stage III with a Grade Point Average of 5.0 or higher from this University, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has extensive relevant practical, professional or scholarly experience equivalent to the requirements in Regulation 1b.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Master of Dance Studies Schedule.

6 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of courses. If this Grade Point Average is not achieved, enrolment in the Master of Dance Studies cannot continue.

7 Courses selected for this qualification are subject to confirmation by Academic Head or nominee

Reassignment

8 A student may apply to reassign courses passed to the Postgraduate Diploma in Dance Studies.

Honours

9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Thesis

10 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The thesis topic and mode of presentation for examination must be approved by the Academic Head prior to enrolment.
c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Performance and Exhibition
11 a Where performance or exhibition research forms an agreed part of the thesis presentation under Regulation 8b, the examination of the performance or exhibition component shall be organised by the Academic Head in conjunction with the Faculty Student Centre. The process for the written thesis shall be in accordance with the General Regulations – Masters Degrees.

b Recordings of performances and exhibitions are not deposited in the University Library, nor deposited with the University’s digital repository, except when included within a written thesis submission in accordance with the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

   and
   c not exceed 160 points for the total enrolment in this degree.
A student admitted to this degree under Regulation 1a or 2 must:

a. pass courses with a total value of 180 points

and

b. complete within the time limit specified in the General Regulations – Masters Degrees

and

c. not exceed 220 points for the total enrolment in this degree.

Structure and Content

A student enrolled for this degree must complete the requirements as listed in the Master of Design Schedule.

A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses to enrol in either DESIGN 794 or 795.

A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Portfolio / Thesis

The research portfolio or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

The thesis topic must be approved by the Academic Head or nominee prior to enrolment.

The research portfolio or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment

A student may apply to reassign courses passed to the Postgraduate Certificate in Design.

Transfer from Postgraduate Certificate in Design

A student who has passed courses towards the Postgraduate Certificate in Design may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Distinction / Honours / Merit

This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations

In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

These regulations came into force on 1 January 2021.

**The Degree of Master of Fine Arts – MFA**

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

In order to be admitted to this degree, a student must have:

either
a. completed the requirements for the Degree of Bachelor of Fine Arts (Honours) or Postgraduate Diploma in Fine Arts from this University with a Grade Point Average of 4.5 or higher, or the equivalent as approved by Senate or its representative

or

b. (i) completed the requirements for the Degree of Bachelor of Fine Arts from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative

or

(ii) (a) completed the requirements for a Bachelors degree from this University, or the equivalent as approved by Senate or its representative

and

(b) completed the requirements for the Postgraduate Certificate in Fine Arts from this University with a Grade Point Average of 4.5 or higher

or

(iii) (a) completed the requirements for a Bachelors degree from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative

and

(b) provided appropriate references, a portfolio and/or completed interviews prescribed by Senate or its representative.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value
2 A student admitted under Regulation 1a must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points for the total enrolment for this degree.

3 A student admitted under Regulation 1b must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 220 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Fine Arts Schedule.

5 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses prior to enrolment in FINEARTS 779, 780 or 781.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 A student may apply to reassign courses passed to the Postgraduate Certificate in Fine Arts.

Distinction / Honours / Merit
8 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

9 a. The research essay, research portfolio, studio, studio practice essay, or studio research essay is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b. The research essay, research portfolio, studio, studio practice essay, or studio research essay topic and/or mode of presentation must be approved by the Head of School, Elam, no later than the end of week two of the first semester of enrolment.

c. Examination of the research portfolio or studio through exhibition or performance shall be organised by the Head of School, Elam, in consultation with the Faculty Student Centre, which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment.
d A student enrolled in the research portfolio must submit two temporary-bound copies and a digital copy of the written component to the Faculty Student Centre.

Deadlines for Completion
10 A student enrolled in the research essay, research portfolio, studio, studio practice essay or studio research essay must complete the assessable outcomes for that course:
   a by the date approved by the Head of School, Elam, which will be no earlier than the last day of the twelfth week in the final semester of enrolment and no later than the last day of the final semester of enrolment
   or
   b up to 12 months if enrolled full-time, or its equivalent part-time, after the student’s initial enrolment in the research essay, research portfolio, studio, studio practice essay, or studio research essay with the approval of the Head of School, Elam.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Housing Studies – MHousSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   a (i) a relevant Bachelors Honours postgraduate degree or postgraduate diploma from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   (ii) a relevant Bachelors degree in a relevant major from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) the Degree of Bachelor of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours), Bachelor of Health Sciences (Honours), Bachelor of Laws (Honours), Bachelor of Property (Honours), Bachelor of Science (Honours), Bachelor of Urban Planning (Honours) or the Postgraduate Diploma in Architecture may be considered relevant
(ii) the Degree of Bachelor of Architectural Studies, Bachelor of Arts, Bachelor of Commerce, Bachelor of Health
Sciences, Bachelor of Laws, Bachelor of Property or Bachelor of Science may be considered relevant. Degrees may be in relevant majors such as architecture, economics, geography, management, population health, planning, social welfare, sociology, urban planning.

Duration and Total Points Value
3 A student enrolled for this degree under Regulation 1a(i) must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student enrolled for this degree under Regulation 1a(ii) or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Housing Studies Schedule.

   b A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45
      points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the
      Master of Housing Studies cannot continue.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and
   Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 a A student may apply to reassign courses to the Master of Architecture (Professional) and Housing Studies
   once.

   b A student may apply to reassign courses to the Master of Urban Planning (Professional) and Housing Studies
   once.

   c All courses that can be reassigned must be reassigned including courses that have been attempted but not
      completed.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not
   conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2022.

The Degree of Master of Music – MMus

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this degree, a student must have completed the requirements for:
   
   either
   
   a. the Degree of Bachelor of Music (Honours) or Postgraduate Diploma in Music from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

   or

   b. (i) the Degree of Bachelor of Music from this University with a Grade Point Average of 4.0 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative

   or

   (ii) a relevant Bachelor's degree as approved by Senate or its representative with a Grade Point Average of 4.0 in 75 points at Stage III, or the equivalent as approved by Senate or its representative

   or

   (iii) (a) the Degree of Bachelor of Music from this University or the equivalent as approved by Senate or its representative

   and

   (b) the Postgraduate Certificate in Music from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded.

2. In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: A relevant Bachelor's degree may be in arts, creative arts, education, humanities, or performing arts, and should include a music component.

Duration and Total Points Value
3. A student admitted to this degree under Regulation 1a must:
   
   a. pass courses with a total value of 120 points

   and

   b. complete within the time limit specified in the General Regulations – Masters Degrees

   and

   c. not exceed 160 points for the total enrolment for this degree.

4. A student admitted to this degree under Regulation 1b or 2 must:
   
   a. pass courses with a total value of 180 points

   and

   b. complete within the time limit specified in the General Regulations – Masters Degrees

   and

   c. not exceed 220 points for the total enrolment for this degree.

Structure and Content
5. A student enrolled for this degree must complete the requirements as listed in the Master of Music Schedule.

6. A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses prior to enrolment in MUS 785 or 786. If this Grade Point Average is not achieved, enrolment in the Master of Music cannot continue.

7. A student who has previously passed any courses the same as, or similar to, courses required for this degree must substitute (an) alternative course(s) approved by the Head of the School of Music.

8. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Completion of Requirements
9. If in exceptional circumstances beyond the student’s control, the Research Portfolio or Thesis has not been able to be completed by the date set under Regulation 3, Senate or its representative, acting upon the recommendation of the Head of School of Music, may approve a limited extension of time not normally exceeding four months, for the work to be completed. Fees will be as stated in the General Regulations – Masters Degrees.

Research Project / Thesis
10. a. The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
The research project or thesis topic must be approved by the Academic Head or nominee prior to enrolment.

The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Research Portfolio
a The research portfolio is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The portfolio of creative work is to include a written component, in which the creative elements of the portfolio should be discussed in a scholarly and intellectually coherent manner.

c The research portfolio is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
A student may apply to reassign courses passed to the Postgraduate Diploma in Music or Postgraduate Certificate in Music.

Honours
This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Music
A student who has passed courses towards the Postgraduate Certificate in Music that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Variations
In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Urban Design – MUrBDes

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
In order to be admitted to this programme, a student needs to have completed the requirements for:

either

a the Degree of Bachelor of Architecture

or

b the Degree of Bachelor of Planning
or c the Degree of Bachelor of Urban Planning (Honours) or
d the Degree of Master of Architecture (Professional) or
e the Degree of Master of Planning Practice or
f the Degree of Master of Urban Planning or
g a qualification equivalent to a four-year degree in Landscape Architecture, approved by Senate or its representative or
h an equivalent qualification, provided that Senate or its representative is satisfied that the prior degree or equivalent qualification is indicative of ability to undertake advanced study in Urban Design.

2 Applicants for admission will be required to submit a portfolio of work that provides evidence of an appropriate level of skill in design and urban analysis, a resume of professional work, and a statement on why they wish to study urban design.

**Note:** This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

**Duration and Total Points Value**

3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.

**Structure and Content**

5 Taught Masters
   A student enrolled for this degree must pass 120 points from the courses listed in the Master of Urban Design Schedule.

6 If any of the courses listed have been previously completed, students must substitute an equivalent number of points from 700 level courses offered in the School of Architecture and Planning.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Reassignment**

8 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Design once.

   b A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Urban Design once.

   c All courses that can be reassigned must be reassigned, including courses not completed.

**Distinction**

9 This degree may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high. Distinction may be awarded where a student has achieved a grade of A- or higher overall. Merit may be awarded where a student has achieved a B+ grade overall.

**Variations**

10 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

**Amendment**

11 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Urban Planning (Professional) – MUrbPlan(Prof)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for a Bachelors or Masters degree, in a relevant discipline excluding the Degrees
of Bachelor of Planning, Bachelor of Urban Planning, Bachelor of Urban Planning (Honours), Master of Planning Practice and Master of Urban Planning, and having:

(i) achieved an average grade of B or higher in at least 90 points at Stage III or in the final Part in that Bachelors degree

or

(ii) achieved an average grade of B or higher in at least 90 points for the final Part of that Masters degree

or

b gained an equivalent qualification, provided that Senate or its representative is satisfied that the prior degree or equivalent qualification is indicative of ability to undertake advanced study in Urban Planning.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Creative Arts and Industries.

Duration and Total Points Value
2 A student enrolled for this degree must:
a pass courses with a total value of 240 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 280 points.

Structure and Content
4 Taught Masters
A student enrolled for this degree must pass 240 points in courses from Parts I and II as listed in the Master of Urban Planning (Professional) Schedule.

5 Each Part must be completed before the next Part may be taken.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Urban Planning (Professional) once.

b A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Heritage Conservation once.

c A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Urban Design once.

d All courses that can be reassigned must be reassigned including courses not completed.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2014.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2021.
The Degree of Doctor of Fine Arts – DocFA

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Fine Arts.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Fine Arts.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.

General requirements
1 A candidate for the Degree of Doctor of Fine Arts (DocFA) is required to undertake an original and coherent research project and to present the outcomes of that research project for examination as creative work supported by a thesis.

2 The research project must involve enquiry that is experimental and/or critical in nature and be driven by a creative intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.

3 The research project must be conducted under supervision and over the period of enrolment in the DocFA programme, and must be conducted in accordance with the Research Code of Conduct Policy.

4 The work submitted for examination must demonstrate the research achievements of an individual. Where doctoral research involves the contributions of others, those contributions must be clearly identified in accordance with the Doctoral Thesis Policy and Procedures.

5 a The creative work requirement at Regulation 1 must be satisfied by a substantial presentation of creative outputs and/or live performance and/or audio, video, digital or other recording or documentation.

   b The creative work must be undertaken and completed through a sustained engagement in creative practice in the relevant field(s) of study.

   c The creative work must be submitted for examination as:

      either

      (i) an exhibition, and/or other live performance held after submission of the thesis.

      or

      (ii) audio, visual, digital or other recording or documentation submitted together with the thesis.

6 a The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 30,000 words.

   b The thesis must be undertaken and completed in accordance with the Doctoral Thesis Policy and Procedures.

7 The creative work and supporting thesis submitted for examination may, subject to the Doctoral Thesis Policy and Procedures, include published outcomes.

8 In order for the DocFA degree to be awarded, Regulation 48 must be satisfied, and the Board of Graduate Studies (or delegate[s]) must be:

    a satisfied that, subject to Regulation 44, the candidate has performed at doctoral level in an oral examination, held in accordance with Regulation 45, on the submitted creative work and supporting thesis, the subject of the creative work and supporting thesis and the field(s) to which the subject belongs

    and

    b satisfied, by the examination process prescribed by these regulations, that:

       (i) the submitted creative work is an original and significant creative work

       and

       (ii) the submitted creative work and thesis meet internationally recognised standards

       and

       (iii) the thesis is an original contribution to the field of Fine Art and demonstrates knowledge of the artistic practices and literature relevant to the creative work undertaken and the ability to exercise critical and analytical judgment of them.

Duration
9 The creative work and supporting thesis must be submitted for examination within a maximum of 48 months.
of full-time equivalent enrolment from the initial date of enrolment in the DocFA programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the doctoral extension of enrolment policy and procedures.

10 The creative work and supporting thesis must not be submitted in less than 36 months of full-time equivalent enrolment from the initial date of enrolment in the DocFA programme, unless permission is granted by the Board of Graduate Studies (or delegate).

11 Permission for submission of the creative work and supporting thesis must not be granted where a candidate has been enrolled for less than 24 months full-time equivalent from the initial date of enrolment in the DocFA programme.

12 Part-time enrolment may be permitted, subject to the doctoral full-time and part-time enrolment policy and procedures.

13 A candidate may be permitted to suspend their enrolment subject to the doctoral suspension of enrolment policy and procedures.

Admission

14 To be admitted to the DocFA programme, applicants must satisfy the University’s Admission regulations and are required to have:
   a in their most recent attempt at a relevant qualification:
      (i) completed the requirements for a Masters degree in a relevant subject area with at least a B+ average at the University of Auckland; in all cases relevance is determined by the Board of Graduate Studies (or delegate)
      or
      (ii) completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as relevant, with regard to subject area, and as equivalent to a Masters degree with at least a B+ average at the University of Auckland
and
   b satisfied the requirements of the DocFA candidate research capacity policy and procedures
and
   c satisfied the requirements of the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate)
and
   d have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the DocFA degree
and
   e have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of doctoral matters (“the Academic Head(s)”) with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head(s).

15 In exceptional circumstances, the Board of Graduate Studies (or delegate) may, subject to the doctoral exceptional circumstance entry policy and procedures, admit an applicant whose qualifications do not meet the requirements of Regulation 14a.

16 An applicant may be considered for transfer from an existing doctoral enrolment subject to the doctoral transfer policy and procedures.

17 An applicant may be considered for off-campus enrolment subject to the doctoral off-campus research policy and procedures.

18 The final decision on admission to the DocFA programme shall be made by the Board of Graduate Studies (or delegate).

19 Admission to the DocFA programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment.

20 Admission to the DocFA programme is valid for up to six months (or a maximum of 12 months in exceptional circumstances as approved by the Board of Graduate Studies (or delegate)) from the date of notification of admission to the programme. Where enrolment in the programme does not occur within that time, re-application for admission to the programme is required.
21 Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

**Supervision**

22 The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate’s enrolment.

23 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the doctoral supervision policy and procedures.

24 Changes in supervision during candidature are subject to the doctoral supervision policy and procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

**Enrolment and Candidature**

25 Except for any period(s) of suspension approved under Regulation 13, candidates are required to be enrolled continuously from the initial date of enrolment in the DocFA programme until the date of the submission of the creative work and supporting thesis under Regulations 9-11.

26 Candidature for the DocFA degree commences upon enrolment in the DocFA programme and continues, regardless of any period(s) of suspension approved under Regulation 13, until the date on which any one of the following occurs:
   a. notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree at Regulation 8 have been met;
   b. notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 47 is that the degree not be awarded;
   c. candidature expires under Regulation 29;
   d. a candidate withdraws from the programme under Regulation 49;
   e. candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 50.

27 Candidature is provisional until confirmed and is subject to the doctoral confirmation of candidature policy and procedures, the doctoral continuation of confirmed candidature policy and procedures, and the doctoral candidature intervention policy and procedures.

28 The following additional confirmation milestone is required for all candidates and is subject to the doctoral confirmation of candidature policy and procedures: completion of a substantial piece of creative work or works to the satisfaction of the supervisors and the Confirmation Review Committee.

29 a. Candidature expires when the creative work and supporting thesis are not submitted for examination by the date required under Regulation 9.
   b. Candidature expires when the creative work and supporting thesis are not submitted for examination by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 46.

30 Where candidature has expired under Regulation 29, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 55(b) of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

31 Enrolment in the DocFA programme is not possible where candidature remains expired under Regulation 29 or where a candidate withdraws from the programme under Regulation 49.

32 Termination of candidature under Regulation 50 is also termination of enrolment in the DocFA programme for enrolled candidates.

33 Candidates who are required, pursuant to Regulation 46, to revise and resubmit their creative work and/or their supporting thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the creative work and/or supporting thesis. The maximum duration of enrolment for revision and resubmission of the creative work and/or supporting thesis pursuant to Regulation 46 is 12 months full-time equivalent.

34 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the doctoral off-campus research policy and procedures.

35 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules,
policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of candidacy.

36 Candidates may change the title of their research project at any point prior to submission of the creative work and supporting thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees
37 All fees required by and pursuant to the Fees Statute must be paid for the duration of enrolment in the DocFA programme.

38 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 13.

39 a A candidate who withdraws from the DocFA programme, or who has their candidature terminated, will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of withdrawal from the programme or termination of candidature and the end of the current doctoral year.

b A candidate who submits their creative work and supporting thesis will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of submission and the end of the current doctoral year, provided the candidate has been enrolled for at least 36 months full-time equivalent.

40 Graduation is not permitted until all outstanding monies owing to the University have been paid.

Submission
41 The creative work and supporting thesis must be submitted in accordance with the DocFA submission and examination procedures.

Examination
42 For each candidate, the Board of Graduate Studies (or delegate) will appoint two examiners, at least one of whom must be based outside New Zealand, in accordance with the doctoral appointment of examiners policy and procedures.

43 The examination for the DocFA degree must be conducted in accordance with the DocFA submission and examination procedures and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, the doctoral examination extraordinary circumstances and posthumous award procedures.

44 Except where a candidate is exempted pursuant to the doctoral examination extraordinary circumstances and posthumous award procedures, the DocFA degree cannot be awarded where an oral examination has not taken place.

45 Where a candidate proceeds to oral examination, the oral examination is to be held in accordance with the DocFA submission and examination procedures.

46 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the DocFA submission and examination procedures, and determine the outcome of the examination.

Final Decision
47 The final decision as to the award of the DocFA degree will be made by the Board of Graduate Studies (or delegate(s)), who may also be the decision-maker at Regulation 46.

48 The final examined and approved thesis, together with a record or documentation of the creative work presented and successfully examined, must be submitted in accordance with the DocFA submission and examination procedures in order for the requirements of the DocFA degree to be met.

Withdrawal from Programme
49 A candidate may withdraw from the DocFA programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature
50 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:

a failure to meet the requirements for confirmation of candidature pursuant to Regulation 27

b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 27

c failure to satisfy conditions imposed on candidature pursuant to Regulation 27

d failure to comply with candidature reporting requirements pursuant to Regulation 27
e failure to complete or satisfactorily complete revisions to any component of the examined creative work and supporting thesis by the date required by the Board of Graduate Studies (or delegate)

f failure to comply with submission requirements pursuant to Regulation 48

g failure to make payment of any tuition fees related to enrolment in the DocFA by the due date

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 50 is permanent unless successfully appealed in accordance with Regulation 55b.

51 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 50, the candidate will be given notice of termination proceedings and allowed fourteen calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision.

52 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of these regulations.

53 a Where a candidate withdraws from the DocFA programme, or has their candidature terminated, or fails to meet the requirement for the award of the DocFA, admission to a new DocFA or other doctoral programme in Fine Arts at a later date will not normally be permitted.

b A person who withdraws from any doctoral programme in Fine Arts (or equivalent) or has their doctoral candidature in Fine Arts (or equivalent) terminated (or equivalent), or who fails to meet the requirements for the award of a doctoral degree in Fine Arts (or equivalent), will not normally be admitted to the DocFA, except in accordance with the doctoral transfer policy and procedures. In all cases, equivalence is determined by the Board of Graduate Studies (or delegate).

Variations

54 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for candidature, except where variation of a national or government directive or requirement is involved.

Appeals

55 a Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment, subject to the doctoral candidature appeal procedures.

b A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature or to decline an extension of enrolment, subject to the doctoral candidature appeal procedures.

56 Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the doctoral candidature appeal procedures.

57 Candidates and former candidates may appeal the outcome of a DocFA examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the doctoral examination appeal procedures.

58 Appeals as to examination will be determined in accordance with the doctoral examination appeal procedures.

Dispute Resolution

59 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

60 Any matter that has been, could have been or could be appealed under the provisions of Regulation 55 or 57 is precluded from consideration as a dispute under Regulation 59.

Further Provisions

61 a The DocFA programme is subject to the Limited Entry Statute.

b Candidates are subject to:
   (i) the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute
   and
   (ii) the provisions of the Enrolment and Programme regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost's Special Powers
   and
   (iii) the Examination Regulations, where coursework is prescribed pursuant to Regulation 27.

62 The doctoral policies and procedures cited in these regulations may be reviewed and amended from time-to-time.

63 Candidates are subject to any additional doctoral policies and procedures devised in support of these regulations and amended from time-to-time.
These regulations may be reviewed and amended from time-to-time.

These regulations came into force on 1 January 2022.

For candidates initially enrolled under previous regulations, the Board of Graduate Studies (or delegate) may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

The Degree of Doctor of Music – DMus

Note: New admissions into the Degree of Doctor of Music were suspended in 2021. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including Academic Statutes and Regulations.

Preamble

A candidate for the degree of Doctor of Music is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

It is expected that this programme will normally be completed within four years of full-time candidature but in no fewer than three years of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.

The Degree of Doctor of Music is awarded for the successful pursuit of a coherent programme of advanced composition that is supported by a written thesis and carried out over the period of registration for the Degree. Upon completion of the programme, candidates must submit a portfolio which, in the opinion of the examiners and the Board of Graduate Studies, satisfies both the following criteria:

(i) the consistent demonstration of compositional skills (the composition component) at the highest professional levels, meeting internationally recognised standards for such work

and

(ii) the provision of written material (the thesis) that demonstrates a knowledge of the artistic practices and literature relevant to the works contained in the composition component and an ability to articulate critical and analytical judgement relating to them.

The thesis may not, without the prior permission of the Board of Graduate Studies, exceed 20,000 words in total.

All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility

A candidate for the Degree of Doctor of Music is required to have:

(a) completed the requirements for the Degree of Master of Music at the University of Auckland with First Class Honours or Second Class Honours First Division, or completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to the Degree of Master of Music with First Class Honours or Second Class Honours (First Division) at the University of Auckland

and

(b) demonstrated, to the satisfaction of the Head of School of Music, in consultation with appropriate Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in music composition and research.

Admission Essential

Every candidate for the Degree of Doctor of Music must have applied for admission and have been admitted to the University of Auckland.

Duration and Total Points Value

A candidate enrolled for this degree must complete the requirements for this degree, with a total value of 360 points, within not fewer than three full-time years and not more than four full-time years (or the part-time equivalent) from the date of registration, unless permitted to do otherwise by the Board of Graduate Studies under Regulation 8 of these regulations.

Registration

Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.
b The following provisional goals are required of all candidates:
   (i) full proposals for both the composition component and the thesis, including a provisional title, a
       schedule of research, an outline of compositions yet to be written and a statement of resources required
       to complete the research, to be approved by the appropriate postgraduate committee
   (ii) substantial items of compositional and written material, such as a major section from a composed work
       and a literature review, completed to the satisfaction of the main supervisor
   (iii) presentation by the student of the proposal and/or work in progress to an appropriate forum, e.g.,
       seminar, research group, conference, to the satisfaction of the supervisors
   (iv) ethics approval/s and/or permissions obtained for the research (if required)
   (v) completion of the standard doctoral milestone goals relating to induction, English language and
       academic integrity as prescribed by the Board of Graduate Studies upon commencement of the
       registration
   (vi) completion of a health and safety risk assessment and training for any laboratory/studio/field and
       related work activities
   (vii) enrolment in and satisfactory passing of one or more courses as determined by the postgraduate
       committee.

c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates
and as required after the commencement of registration as per Regulation 4a of the General Regulations for
Named Doctorates.

Structure and Content

6 a A candidate for this degree must pass MUS 894 Composition.

b A candidate is to submit for examination a collection of original and substantial musical works of at least sixty
   minutes’ duration (the composition component), consisting of at least three significant items, each of which
   may be within any of the following classes:
   (i) orchestral work
   (ii) work using vocal, keyboard or ensemble resources
   (iii) music theatre
   (iv) sonic arts.

c Sonic arts may be included in work within classes (i), (ii) or (iii) listed in Regulation 6b.

d A candidate is also to submit for examination a thesis which may address a single research topic or more than
   one related research topics or provide detailed analytical commentary on the compositions submitted, and
   which will be linked to the composition component in such a way that the candidate’s creative and aesthetic
   ideals are clearly articulated.

Reviews of Registration

7 Reviews of registration will be made in accordance with Regulation 3 of the General Regulations for Named
   Doctorates.

Changes to the Conditions of Registration

8 Changes to supervision, extensions of time, and suspension or termination of registration will be made according
   to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees

9 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for
   Named Doctorates.

Submission

10 a Copies of Portfolio
   All candidates are initially required to submit one copy of a portfolio in temporary binding and one electronic
   copy in pdf format to the School of Graduate Studies. The portfolio consists of the composition component
   and the thesis, which are to be supplemented by three copies of any accompanying audio or audiovisual files,
   or those involving other media. Copies should include the following statement to examiners on the first page:
   “This portfolio is for examination purposes only and is confidential to the examination process.”

b Time for Submission
   Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the
   portfolio in no fewer than three and no more than four years from the Date of Registration if they are full-time
   students, or no fewer than six and no more than eight years in the case of candidates who have been registered
   as part-time students for the whole period of their registration. In the case of candidates who have been
   permitted to change between full-time and part-time registration, the submission times will be calculated on
   a pro rata basis.
c Notification of Submission
Three months prior to the expected date of submission, candidates should notify the School of Graduate Studies in writing of their intention to submit. If the candidate has reason to believe that any person would be unsuitable to serve as an examiner of the portfolio on the grounds of conflict of interest, then the candidate may also submit at this time the name of this person or persons and a statement in writing as to the nature of the conflict of interest to the Dean of Graduate Studies.

d Declaration as to Originality
The portfolio is to be accompanied by a statutory declaration, signed by the candidate, stating:
(i) that the portfolio is the candidate's own work
(ii) that no part of the portfolio has been submitted or accepted for any other degree or diploma
(iii) that written permission has been obtained for any third-party copyright material reproduced in the portfolio that represents a "substantial part" of the other work
(iv) that the temporary-bound copy and electronic copy of the composition component and thesis are identical, and that the three copies of the accompanying files are identical.

e Language of Portfolio
The portfolio is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

Examination
11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that Regulations 9f, 9g, 9l, 9o, 9r (iv-vii), 9s (iv-vii) and 9u of the Statute for the Degree of Doctor of Philosophy 2016 will not apply.

a Nomination of Examiners
On notification of intention to submit under Regulation 10c, the Head of School of Music will, on the advice of the supervisor/s, nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study represented by the portfolio. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University or have been involved in either the research for or the preparation of the portfolio. Examiners will be appointed in accordance with Regulation 9d of the Statute for the Degree of Doctor of Philosophy 2016.

b Appointment of Examination Committee
The Board of Graduate Studies will also appoint an Examination Committee, which will normally be composed of:
(i) the Head of School of Music
and
(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee
and
(iii) one other person ("the Head of Department Nominee"), nominated by the Head of School of Music. This person will have knowledge of the general field of the portfolio, but not necessarily of the portfolio's techniques and topics, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the research for or the preparation of the portfolio. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty must be substituted.

c Examiners' Reports
Each examiner will be provided with electronic copies of the portfolio, together with accompanying audio or audiovisual files, or those involving other media, and, acting independently, is required to provide the School of Graduate Studies, within two months of receipt of the portfolio, with a written report in English on the quality of the work according to the criteria outlined at Regulation 1c. One copy of the portfolio will be provided to the Examination Committee.

d The examiners will include with their reports one of the following recommendations:
(i) to award the degree, subject to satisfactory performance at the oral examination;
The portfolio can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing any of the material contained in the portfolio.
or
(ii) to award the degree after specified “minor corrections” have been made to the portfolio to the satisfaction of one of the examiners or a nominee (who may be the main supervisor) and by a specified date, and subject to satisfactory performance at the oral examination;
This recommendation can be made when the composition component has reached the required standard but for minor problems such as those involving notation or performance logistics and/or when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, problems connected with referencing or typographical errors. These changes can normally be made within a three-month period. When these corrections are made, the portfolio will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after specified revisions have been made to the portfolio to the satisfaction of the examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance at the oral examination;
This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantial, for example in the case of the composition component the need to reshape the structure of a piece, reconsider the use of performing media or achieve higher standards of presentation, or in the case of the thesis the need to analyse data further, rewrite chapters or sections, correct significant lapses in logic or coherence, or achieve higher standards of presentation. These changes can normally be made within a 3-6 month period.

or

(iv) to permit the candidate to revise the portfolio and resubmit it for examination on one further occasion only.
This recommendation is made when an examiner concludes that the portfolio is not yet of doctoral standard. It may require in the case of the composition component a reconsideration of structure, a higher level of understanding of performing media or greater evidence of creative control, and/or in the case of the thesis further research, rewriting of specific sections, reconceptualisation or reorganisation in order to reach the required standard. The candidate will be permitted to resubmit, normally within a twelve-month period.

or

(v) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree.
This recommendation is made when an examiner is of the opinion that the portfolio demonstrates substantial flaws incompatible with the requirements of a DMus.

or

(vi) not to award any degree.

Replacement of Examiners
If a report has not been received within two months, the School of Graduate Studies will send a reminder to the examiner and advise them that unless the report is received within two further months the appointment of the examiner will be terminated. If the report has not been received within two months of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.

The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.

Consideration of Examiners' Reports
The examiners' reports will be referred to the Examination Committee as in Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016. The Examination Committee, which will be provided with a copy of the portfolio and any accompanying audio or audiovisual material, will make a report to the Board of Graduate Studies which includes the nature and outcome of any communication with the examiner/s and/or supervisor/s made under Regulation 9k and which recommends one of the following:

(i) to appoint one or more further independent examiners to report on any areas of conflict

or

(ii) to proceed to the oral examination

or

(iii) to permit the candidate to revise the portfolio and resubmit it for examination on one further occasion only

or

(iv) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

(v) not to award any degree.

Further Examiners
In the event that the examiners' reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners, as specified in Regulation 9m of the Statute for the Degree of Doctor of Philosophy 2016, to report on any matters it may specify. Such examiners will be provided with copies of the portfolio.
h Oral Examination
In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

i Recommendation of the Oral Examination
On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations:

either
(i) to award the degree
or
(ii) to award the degree after specified “minor corrections” (see Regulation 11d(ii)) have been made to the portfolio, to the satisfaction of the Oral Examiner or nominee (who may be the main supervisor), and by a specified date
or
(iii) (a) to award the degree subject to revising part or parts of the portfolio, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School of Music), by a specified date. When the Head of School of Music acts as the Oral Examiner’s nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School of Music may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the main supervisor. If the Head of School of Music is unable to assess whether the revisions have been made to the required standard, the revisions to the portfolio must be assessed by the Oral Examiner
(b) to award the degree subject to revising part or parts of the portfolio to the satisfaction of the Examiner or Examiners by a specified date
or
(iv) to permit the candidate to revise the portfolio, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 11f(iii)

or
(v) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree
or
(vi) not to award the degree.
In the case of recommendations 11i(iii) and 11i(iv), the report must also state clearly the nature of the revisions recommended.

j When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies. When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

k Revision and Resubmission
In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the portfolio prior to an oral examination, the Examination Committee will recommend

(i) a timeframe for the resubmission
The date of resubmission of the portfolio may not be fewer than six months or more than twelve months from the date the examiners’ reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, Regulations 9r(i to iii) of the Statutes for the Degree of Doctor of Philosophy Statute 2016 apply

and

(ii) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the portfolio is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission
(iii) if the portfolio is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated
(iv) upon resubmission, the portfolio is to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable to re-examine the portfolio, the Board of Graduate Studies will appoint alternative examiner/s.
(v) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11f. Following consideration of all examiners’ reports, the Examination Committee
will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11f. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ reports to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulations 11h and 11i of these regulations. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

(a) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

(b) not to award the degree.

In the event that the Board of Graduate Studies requires the candidate to revise the portfolio after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be fewer than six months or more than twelve months from the date of the oral examination. In such cases, Regulation 9s(i-iii) of the Statute for the Degree for the Doctor of Philosophy 2016 and the following provisions apply:

(i) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the portfolio is to be resubmitted. The registration of the candidate is to continue under the conditions applying at the first date of submission

(ii) if the portfolio is not resubmitted by the prescribed date, the registration of the candidate will normally be terminated

(iii) upon resubmission, the portfolio is to be examined by the same examiners in accordance with the provisions of this Clause, excepting that a further resubmission may not be recommended. If one or both of the original examiners is unavailable, the Board of Graduate Studies will appoint alternative examiner/s.

(iv) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports, the original examiners’ reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11f. Following consideration of all examiners’ reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11f. The Examination Committee report must recommend one of the following:

(a) to proceed to a second oral examination (in which case Regulations 11h and 11i of these regulations apply)

or

(b) to award the degree

or

(c) to award the degree after specified “minor corrections” (see Regulation 11d(ii)) have been made to the portfolio to the satisfaction of the Examiner or nominee (who may be the main supervisor), by a specified date

or

(d) not to award the degree, but refer the portfolio to the appropriate authority within the University for consideration of the award of another degree

or

(e) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations of the work (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

**Final Decision**

After considering all of the reports of the examiners and Examination Committees, the Board of Graduate Studies will make the final decision as to the award of the degree.

**Copies for Deposit**

On completion of the examination the candidate must deposit two hardbound copies of the portfolio, corrected or revised as may be required, and of any accompanying audio or audiovisual material, with the School of Graduate Studies. These must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same. The degree will not be conferred until the candidate has complied with this requirement.
Variations
12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

Appeals
13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures
14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements
15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Music were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled.

The Degree of Doctor of Musical Arts – DMA

Note: New admissions into the Degree of Doctor of Musical Arts were suspended in 2021. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Preamble
1 a A candidate for the degree of Doctor of Musical Arts is required to pursue an approved programme of advanced study and research as an enrolled student of the University.

b It is expected that this programme will normally be completed in no fewer than 33 months and no more than 36 months of full-time candidature. Part-time candidature may also be permitted with the approval of the Board of Graduate Studies.

c The Degree of Doctor of Musical Arts is awarded for the successful completion of a coherent programme of advanced performance work that is firmly supported by a written thesis and carried out over the period of registration for the Degree, which in the opinion of the examiners and the Board of Graduate Studies satisfies both the following criteria:

(i) the consistent exhibition of performance skills at the highest professional levels, meeting internationally recognised standards for such work
and
(ii) the provision of written material (the thesis) that makes an original contribution to the field of knowledge relating to music performance, and shows an ability to articulate critical judgement and performance theory, while demonstrating a knowledge of the literature relevant to the history and performing practice of the music contained in the candidate’s examinable programmes.

The thesis may not, without the prior permission of the Board of Graduate Studies, exceed 35,000 words in total.

d All research for this degree is to be conducted in accordance with the University of Auckland Guidelines for the Conduct of Research.

Eligibility
2 A candidate for the Degree of Doctor of Musical Arts is required to have:

a completed the requirements for the Degree of Master of Music at the University of Auckland with First Class Honours or Second Class Honours First Division, or completed the requirements for the award of a qualification that the Board of Graduate Studies considers to be equivalent to the Degree of Master of Music with First Class Honours or Second Class Honours (First Division) at the University of Auckland
and

b demonstrated, to the satisfaction of the Head of School of Music, in consultation with the School of Music Postgraduate Committee, the level of training and ability that is necessary for the pursuit of a programme of advanced doctoral study in music performance and research.

Admission Essential
3 Every candidate for the Degree of Doctor of Musical Arts must have applied for admission and have been admitted to the University of Auckland.
Duration and Total Points Value

4 A candidate enrolled for this degree must normally follow a programme of 36 full-time months (or the part-time equivalent) and pass an approved three-part programme of advanced study in music performance and research with a total value of 360 points.

Registration

5 a Registration and all conditions pursuant to it shall be determined in accordance with Regulation 2 of the General Regulations for Named Doctorates.

b The following provisional goals are required of all candidates:
   (i) full proposals for both the thesis and future recitals, including a provisional title, a schedule of research, an outline of repertoire and a statement of resources required to complete the research, to be approved by the appropriate postgraduate committee
   (ii) a substantial piece of written work, such as a literature review, completed to the satisfaction of the main supervisor
   (iii) presentation of a minimum of one and maximum of two recitals
   (iv) presentation by the student of the proposal and/or work in progress to an appropriate forum, e.g., seminar, research group, conference, to the satisfaction of the supervisors
   (v) ethics approval/s and/or permissions obtained for the research (if required)
   (vi) completion of the standard doctoral milestone goals relating to induction, English language and academic integrity as prescribed by the Board of Graduate Studies upon commencement of the registration
   (vii) completion of a health and safety risk assessment and training for any laboratory/studio/field and related work activities
   (viii) enrolment in and satisfactory passing of one or more courses as determined by the postgraduate committee.

c Further provisional goals may be added as per Regulation 2 of the General Regulations for Named Doctorates and as required after the commencement of registration as per Regulation 4a of the General Regulations for Named Doctorates.

Reviews of Registration

6 a Reviews of progress and continuation of registration will be made according to Regulation 3 of the General Regulations for Named Doctorates.

b During provisional registration, a candidate must achieve the provisional goals specified by the Board of Graduate Studies, and successfully complete the requirements for Part I of the degree as specified in Regulation 9 of these regulations.

c Annual reviews of progress and continuation of registration beyond the period of provisional registration will be made in accordance with Regulation 3d of the General Regulations for Named Doctorates and in relation to Regulation 9 of these regulations below as well as progress on the thesis.

Changes to the Conditions of Registration

7 Changes to supervision, extensions of time, and suspension or termination of registration will be made according to Regulation 4 of the General Regulations for Named Doctorates.

Enrolment and Fees

8 Enrolment and payment of fees will be determined according to Regulation 5 of the General Regulations for Named Doctorates.

Structure and Content

9 a During the period of Registration a candidate will undertake a three-part programme of academic and practical research in performance, repertoire and pedagogy relating to the candidate's instrument or performance medium, and present a total of five public recitals each of approximately 90 minutes' duration, including, in Part III, the Final Recital.

b The candidate's recitals must provide a balanced programme comprising solo and ensemble repertoire which must include music of historical significance, recognised virtuoso pieces and works of a demanding contemporary nature. For each recital the candidate must provide substantial programme notes of a professional standard. In every case except for the Final Recital, the candidate's proposed programme and programme notes are to be approved by the performance supervisor and the Head of School of Music at least three months before the recital date. The proposed programme for the Final Recital must be included in the candidate's Annual Report at the end of Part II. The proposed Final Recital programme may be changed with the approval of the performance supervisor and the Head of School of Music at least six months before the recital date.
Part I

During Part I of the degree the candidate will:

(i) present a minimum of one and a maximum of two recitals, as prescribed in Regulations 9a, b and f
and
(ii) provide full proposals and a substantial example of written work
and
(iii) give a seminar on the thesis research, in consultation with the appropriate supervisor or supervisors.

Part II

During Part II of the degree the candidate will continue to undertake supervised research in performance, and on the approved thesis topic. To complete Part II, the candidate must present:

(i) a minimum of two and a maximum of three recitals, so that a total of four recitals has been presented for Parts I and II together
and
(ii) a seminar on the thesis research, in consultation with the appropriate supervisor or supervisors.

Part III

During Part III of the degree the candidate will complete and submit the thesis, and will present a further seminar and a Final Recital, with a programme that is linked to the thesis topic in such a way that the candidate’s theoretical and aesthetic ideals are clearly articulated through both the musical performance and the written submission.

Recitals

All recitals except the Final Recital will be assessed by panels appointed by the Head of School of Music, to whom a report on each recital should be sent. The panels will consist of an internal examiner, an external examiner of international expertise and distinction and the Head of School of Music or nominee, who will act as moderator. Each of the first four recitals must be judged satisfactory in order for the student to progress to the next.

Recitals judged unsatisfactory will be treated as follows:

(i) the recital should normally be retaken within two months. If circumstances do not allow this, an application may be made to the Head of School of Music for a further month in which to present the recital
(ii) the original programme must normally be offered again in its entirety. Any alteration of the programme must be approved, in advance, by the Head of School of Music
(iii) the same examining panel, where possible, will judge the retaken recital. If either examiner or the Head of School of Music nominee should become unavailable, the Head of School of Music will appoint a replacement.

Recitals may only be retaken once; if a retaken recital is judged to be unsatisfactory, the Head of School of Music will recommend to the Board of Graduate Studies that registration in the degree be terminated.

Submission

10 Copies of Thesis

All candidates are initially required to submit to the School of Graduate Studies one copy of the thesis in temporary binding and one electronic copy in pdf format. Copies should include the following statement to examiners on the first page:

“This thesis is for examination purposes only and is confidential to the examination process”.

b Time for Submission

Unless permitted to do otherwise by the Board of Graduate Studies, a candidate must normally submit the thesis and undertake the final recital in no fewer than 33 months and no more than 36 months from the Date of Registration if they are full-time students, or no fewer than 66 months and no more than 72 months in the case of candidates who have been registered as part-time students for the whole period of their registration. In the case of candidates who have been permitted to change between full-time and part-time registration, the submission times will be calculated on a pro rata basis.

c Notification of Submission

Three months prior to the date of the Final Recital, which should normally be undertaken on or before the maximum submission date, a candidate must notify the School of Graduate Studies in writing of their intention to submit the thesis, which must be received one month before the date of the Final Recital or maximum submission date, whichever is sooner. This notice of submission must be approved by the Head of School of Music and must include details of the programme of the Final Recital, as approved by the Head of School of Music, in accordance with Regulation 9b. If a candidate has reason to believe that any person would be unsuitable to serve as an examiner on the grounds of conflict of interest, then the candidate may also submit to the School of Graduate Studies at this time the name of this person or persons and a statement in writing
as to the nature of the conflict of interest. This notice of submission must be approved by the Head of School of Music.

d Declaration as to Originality
One month prior to the date of the Final Recital, the candidate must submit to the School of Graduate Studies one copy of the thesis in temporary binding and one electronic copy in pdf format accompanied by a statutory declaration, signed by the candidate, stating:
(i) that the thesis is the candidate’s own work
(ii) that no part of the thesis has been submitted or accepted for any other degree or diploma
(iii) that the temporary-bound copy and electronic copy are identical.

e Language of Thesis
The thesis is to be presented in English unless otherwise approved by the Board of Graduate Studies at the time of first registration of the candidate.

Examination

11 The examination process will follow that of Regulation 9 of the Statute for the Degree of Doctor of Philosophy 2016, except that Regulations 9c, 9e, 9f, 9g, 9i, 9l, 9o, 9r (iv-vii), 9s (iv-vii) and 9u of the Statute for the Degree of Doctor of Philosophy 2016 will not apply.

a Nomination and Appointment of Examiners
Upon request to approve a notice of submission as per Regulation 10c of these regulations, the Head of School of Music will, on the advice of the supervisor(s), nominate at least two suitably qualified persons to the Board of Graduate Studies for selection as examiners. The nominees should each hold a doctoral degree, or have equivalent expertise and experience, and be expert in the field of study which is the subject of the thesis and creative work. At least one nominee must be from outside New Zealand. The examiners may not be staff members of the University of Auckland or have been involved in either the research for or the preparation of the thesis and recital, and will not therefore have been involved in assessment of any of the first four recitals. The examiners will be appointed in accordance with Regulation 9d of the Statute for the Degree of Doctor of Philosophy 2016. Both examiners must be able to attend the Final Recital in person and one examiner must be able to attend the Oral Examination in person.

b Appointment of Examination Committee
The Board of Graduate Studies will also appoint an Examination Committee, which will normally be composed of:
(i) the Head of School of Music
(ii) an Associate Dean (Postgraduate), who will chair the Examination Committee
(iii) one other person (“the Head of Department Nominee”), nominated by the Head of School of Music. This person will have knowledge of the general field of the thesis, but not necessarily of the thesis topic, and will normally be a staff member of the University. No member of the Examination Committee may be a supervisor or have been involved in either the thesis research or the preparation of the thesis or recital. The Associate Dean will normally be from the same faculty as the candidate, but if that person is in the same department as the candidate then an Associate Dean from another faculty must be substituted.

c Examination Process
The final examination will take the thesis and the Final Recital into joint consideration.

d The Final Recital is to be attended by both the examiners and the Head of Department Nominee, and must be recorded in both sound and vision.

e Each examiner will be provided with a copy of the thesis, which is to be examined independently. Within one month after the date of the Final Recital, examiners are required to provide the Board of Graduate Studies with a report on both the thesis and the Final Recital according to the criteria given in Regulation 1c. The examiners will include with their reports one of the following recommendations. The examiners may also combine a recommendation of Regulation 11e(v) of these regulations with the recommendation of (ii), (iii) or (iv).
(i) to award the degree, subject to satisfactory performance at the oral examination;
   The thesis and Final Recital can be passed without any further amendment or correction. Sometimes examiners may wish to include a list of suggested amendments for the candidate to use when publishing the thesis.

or
(ii) to award the degree after specified “minor corrections” have been made to the thesis to the satisfaction of one of the examiners or a nominee (who may be the main supervisor) and by a specified date, and subject to satisfactory performance at the oral examination (and in the Final Recital if recommendation (v) is also selected).
This recommendation can be made when the thesis has reached the required standard but for minor problems such as inconsistency in terminology, problems connected with referencing or typographical errors. These changes can normally be made within a three-month period. When these corrections are made, the thesis will meet the standard and then will be ready for permanent binding and placement in the Library.

or

(iii) to award the degree after specified revisions have been made to the thesis to the satisfaction of the examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance at the oral examination (and in the Final Recital if recommendation (v) is also selected).

This recommendation is made when an examiner concludes that the revisions required are not minor, but are substantial, for example the need to analyse data further, rewrite chapters, correct significant lapses in logic or coherence, or achieve higher standards of presentation. These changes can normally be made within a 3-6-month period.

or

(iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only. This recommendation is made when an examiner concludes that the thesis is not yet of doctoral standard. It will require either further research, rewriting of specific sections, reconceptualisation, and/or reorganisation in order to reach the required standard. The candidate will be permitted to resubmit, normally within a twelve-month period.

and/or

(v) to permit the candidate to repeat the Final Recital on one further occasion only.

This recommendation is made when an examiner concludes that Final Recital was not yet of doctoral standard. It may require a higher level of professional competence, interpretive reconceptualisation or a greater degree of musical artistry. The candidate will be permitted to offer the Final Recital again, normally within a 12-month period.

or

(vi) not to award the degree, but refer the thesis and performance (the Final Recital) to the appropriate authority within the University for consideration of the award of another degree.

or

(vii) not to award any degree.

f Replacement of Examiners

(i) If a report has not been received within one month, the School of Graduate Studies will send a reminder to the examiner and advise them that unless the report is received within a further month the appointment of the examiner will be terminated. If the report has not been received within one month of the date of the reminder, the Board of Graduate Studies may appoint a replacement examiner.

(ii) The Board of Graduate Studies reserves the right to appoint a replacement examiner in the event that an examiner provides an inappropriate report.

Any replacement examiner will be provided with a digital recording of the Final Recital, as well as with a copy of the thesis.

g Consideration of Examiners’ Reports

The examiners’ reports will be referred to the Examination Committee as in Regulation 9k of the Statute for the Degree of Doctor of Philosophy 2016. The Examination Committee, which will be provided with both a copy of the thesis and a DVD recording of the Final Recital, will make a report to the Board of Graduate Studies which includes the nature and outcome of any communication with the examiner/s and/or supervisor/s made under Regulation 9k and which recommends one of the following:

(i) to appoint one or more further independent examiners to report on any areas of conflict

or

(ii) to proceed to the oral examination

or

(iii) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only

or

(iv) to permit the candidate to revise the thesis and resubmit it for examination on one further occasion only and retake the Final Recital on one further occasion only

or

(v) not to award the degree, but refer the thesis and performance (the Final Recital) to the appropriate authority within the University for consideration of the award of another degree

or

(vi) not to award any degree
Further Examiners
In the event that the examiners’ reports are in serious conflict the Board of Graduate Studies may appoint independent external examiners, as in Regulation 9m of the Statute for the Degree of Doctor of Philosophy 2016, to report on any matters it may specify. Such examiners will be provided with a copy of the recording of the Final Recital and the thesis.

Oral Examination
In the event that the Board of Graduate Studies accepts a recommendation to proceed to an oral examination, Regulation 9n of the Statute for the Degree of Doctor of Philosophy 2016 will apply.

Recommendation of the Oral Examination
On completion of the oral examination, the Chair will provide a written report and recommendation, endorsed by the Head of Department Nominee and the Oral Examiner, to the Board of Graduate Studies. The report will include one of the following recommendations. The Examiners may also combine recommendation Regulation 11j(v) of these regulations with the recommendation of (ii), (iii) or (iv):

either

(i) to award the degree

or

(ii) to award the degree after specified “minor corrections” (see Regulation 11e(ii)) have been made to the thesis, to the satisfaction of the Oral Examiner or nominee (who may be the Main Supervisor), and by a specified date, and subject to satisfactory performance in the Final Recital where recommendation (v) is also selected

or

(iii) (a) to award the degree subject to revising part or parts of the thesis, to the satisfaction of the Oral Examiner or nominee (who will be the Head of School of Music), by a specified date, and subject to satisfactory performance in the Final Recital where recommendation (v) is also selected. When the Head of School of Music acts as the Oral Examiner’s nominee, the nature of the revisions must be such that they can certify that compliance has been achieved. In such cases, the Head of School of Music may discuss the revisions with the Head of Department Nominee on the Examination Committee and/or the Main Supervisor. If the Head of School of Music is unable to assess whether the revisions have been made to the required standard, the revisions to the thesis must be assessed by the Oral Examiner

or

(b) to award the degree subject to revising part or parts of the thesis to the satisfaction of the Examiner or Examiners by a specified date

or

(iv) to permit the candidate to revise the thesis, and resubmit it for examination on one further occasion only, but only if the candidate has not already been permitted to revise and resubmit under Regulation 11g(iii) or (iv)

and/or

(v) to permit the candidate to repeat the Final Recital on one further occasion only, but only if the candidate has not already been permitted to retake the Final Recital under Regulation 11g(iv)

or

(vi) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

(vii) not to award the degree.

In the case of recommendations 11j(iii) and 11j(iv), the report must also state clearly the nature of the revisions recommended.

When minor corrections are required, Regulation 9p of the Statute for the Degree of Doctor of Philosophy 2016 applies. When revisions are required, Regulation 9q of the Statute for the Degree of Doctor of Philosophy 2016 applies.

Revision and Resubmission of the Thesis/Repetition of the Final Recital
(i) In the event that the Examination Committee recommends to the Board of Graduate Studies that the candidate should be permitted to revise the thesis, or revise the thesis and retake the Final Recital, prior to an oral examination, the Examination Committee will recommend:

(a) a timeframe for the resubmission of the thesis

(b) a timeframe for the retaking of the Final Recital, if required.

(ii) The date of resubmission of the thesis or retaking of the Final Recital may not be fewer than six months or more than twelve months from the date the examiners’ reports were forwarded to the Examination Committee by the School of Graduate Studies. If the Board of Graduate Studies accepts the recommendation, Regulations 9r(i to iii) of the Degree of Doctor of Philosophy Statute 2016 apply

and
the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted and/or the Final Recital retaken. The registration of the candidate is to continue under the conditions applying at the first date of submission.

if the thesis is not resubmitted or the Final Recital is not repeated by the prescribed date, the registration of the candidate will normally be terminated.

upon resubmission of the thesis, or resubmission of the thesis and retaking of the Final Recital, the thesis, and Final Recital if retaken, are to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission or recital may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis or to attend the repeated Final Recital, the Board of Graduate Studies will appoint alternative examiner/s. In cases where a repeated Final Recital has not been required by the Board of Graduate Studies, examiners will be provided with a copy of the recording of the original.

upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports and the original examiners’ reports to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11g. Following consideration of all examiners’ reports, the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11g. The Examination Committee may recommend the appointment of one or more further independent examiners to report on any areas of conflict, and the Board of Graduate Studies may appoint a further examiner where there is serious conflict between examiners’ reports. Further examiners must be provided with a copy of the thesis and a recording of the Final Recital. If the Examination Committee recommends that an oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ reports to the candidate no fewer than five working days before the oral examination. The procedure for the oral examination will be that in Regulations 11i and 11j of these regulations. If the Examination Committee recommends that an oral examination should not be held, its report will include one of the following recommendations:

(a) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

(b) not to award the degree.

In the event that the Board of Graduate Studies requires the candidate to revise the thesis and/or repeat the Final Recital after an oral examination, the Oral Examination Committee will recommend a timeframe for the resubmission. The date of resubmission may not be fewer than six months or more than twelve months from the date of the oral examination. In such cases, Regulation 9s(i-iii) of the Statute of the Degree for the Doctor of Philosophy 2016 and the following provisions apply:

(i) the candidate is required to enrol and pay the prescribed tuition and research fees from the month in which the decision was made to the month in which the thesis is to be resubmitted and/or the Final Recital retaken. The registration of the candidate is to continue under the conditions applying at the first date of submission

(ii) if the thesis is not resubmitted or the Final Recital is not repeated by the prescribed date, the registration of the candidate will normally be terminated

(iii) upon resubmission, the thesis and/or Final Recital are to be examined by the same examiners in accordance with the provisions of this Regulation, excepting that a further resubmission or recital may not be recommended. If one or both of the original examiners is unavailable to re-examine the thesis or to attend the repeated Final Recital, the Board of Graduate Studies will appoint alternative examiner/s. In cases where a repeated Final Recital has not been required by the Board of Graduate Studies, examiners will be provided with a copy of the recording of the original.

(iv) upon receipt of both of the examiners’ reports, the School of Graduate Studies will provide copies of the new examiners’ reports, the original examiners’ reports and the oral examination report to the Examination Committee and to the supervisor/s on a confidential basis. The procedure followed by the Examination Committee will be that in Regulation 11g. Following consideration of all examiners’ reports the Examination Committee will make a report to the Board of Graduate Studies which includes the nature and outcome of any communications with the examiners and/or supervisor/s made under Regulation 11g. The Examination Committee report must recommend one of the following:

(a) to appoint one or more further examiners to report on any areas of conflict. Where the Board of Graduate Studies appoints a further examiner, they shall be provided with a copy of the thesis and a recording of the Final Recital as appropriate.

or
(b) to proceed to a second oral examination in cases where the thesis was revised and resubmitted (in which case Regulations 11i and 11j of these regulations apply)

or

(c) to award the degree

or

(d) to award the degree after specified minor corrections (see Regulation 11e(ii)) have been made to the thesis to the satisfaction of the Examiner or nominee (who may be the Main Supervisor), by a specified date

or

(e) not to award the degree, but refer the thesis and Final Recital to the appropriate authority within the University for consideration of the award of another degree

or

(f) not to award the degree.

If the Examination Committee recommends that a second oral examination be held, and the Board of Graduate Studies accepts this recommendation, the School of Graduate Studies will release the examiners’ evaluations of the work (Part 2 of the report) to the candidate no fewer than five working days before the oral examination.

Final Decision

After considering all of the reports of the examiners and Examination Committees, the Board of Graduate Studies will make the final decision as to the award of the degree.

Copies for Deposit

On completion of the examination the candidate must deposit two hardbound copies of the thesis and one digital copy, corrected or revised as may be required, and the audio and video recordings of the Final Recital with the School of Graduate Studies. These must be accompanied by a statutory declaration signed by the candidate stating that the hardbound copies and the digital copy are the same. The degree will not be conferred until this requirement has been complied with.

Variations

12 In exceptional circumstances the Board of Graduate Studies may approve a personal programme which does not conform to these regulations.

Appeals

13 Appeals regarding the examination process or decisions of the Board of Graduate Studies must be made according to Regulation 6 of the General Regulations for Named Doctorates.

Dispute Resolution Procedures

14 Disputes are to be resolved in accordance with Regulation 7 of the General Regulations for Named Doctorates.

Transitional Arrangements

15 a These regulations came into force on 1 January 2016. The 2006 regulations for the Degree of Doctor of Musical Arts were thereby repealed.

b For a candidate initially registered under earlier regulations for this degree the Board of Graduate Studies may agree to vary the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled.

Certificate in Architectural Studies – CertAS

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this certificate, a student must have:

a been enrolled in the Degree of Bachelor of Architectural Studies, or the Graduate Diploma in Architectural Studies at this University

and

b passed at least 60 points for that degree or diploma

and

c been recommended for admission by the Dean or nominee.

Total Points Value

2 A student admitted to this certificate must pass courses with a total value of 60 points.
Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Architectural Studies Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Dance Studies – CertDanceSt
The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Dance Studies at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Dance Studies Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Design – CertDes
The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Design, or a conjoint programme that includes the Bachelor of Design as a component degree, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Design Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Fine Arts – CertFA

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Fine Arts, or a conjoint programme that includes the Bachelor of Fine Arts as a component degree, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Fine Arts Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Certificate in Music – CertMus

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Music, or a conjoint programme that includes the Bachelor of Music as a component degree, or the Graduate Diploma in Music, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Music Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Architectural Studies – DipAS
The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Architectural Studies at this University and
   b passed at least 120 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Architectural Studies Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Dance Studies – DipDanceSt
The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Dance Studies at this University and
   b passed at least 120 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Dance Studies Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.
Diploma in Design – DipDes

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Design, or a conjoint programme that includes the Bachelor of Design as a component degree, at this University

Commencement
6 These regulations came into force on 1 January 2021.
Diploma in Music – DipMus

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this diploma, a student must have:
   a. been enrolled in the Degree of Bachelor of Music, or a conjoint programme that includes the Bachelor of Music as a component degree, at this University
   and
   b. passed at least 120 points for that degree
   and
   c. been recommended for admission by the Dean or nominee.

Total Points Value
2. A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3. Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Music Schedule.
4. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6. These regulations came into force on 1 January 2021.

Graduate Diploma in Architectural Studies – GradDipAS

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a. (i) a Bachelors degree in interior architecture, interior design, spatial design or an equivalent qualification, as approved by Senate or its representative
   and
   (ii) achieved a Grade Point Average of 5.0 or higher for their entry qualification
   or
   b. (i) a Bachelor of Architectural Studies with a major in architectural technology or a three-year Diploma in Architecture or the equivalent, as approved by Senate or its representative
   and
   (ii) achieved a Grade Point Average of 5.0 or higher for their entry qualification.
2. Applicants will be required to submit a portfolio of work that provides evidence that they have an appropriate level of skill in architectural design and graphic communication.

Duration and Total Points Value
3. A student admitted to this graduate diploma under Regulation 1a must:
   a. pass courses with a total value of 150 points
   and
   b. complete within three semesters.
4. A student admitted to this graduate diploma under Regulation 1b must:
   a. pass courses with a total value of 120 points
   and
   b. complete within two semesters.
Structure and Content
5 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Architectural Studies Schedule.

6 The programme for each student requires the approval of the Head of School of Architecture and Planning or nominee.

7 Cross-credits will not be granted towards the Graduate Diploma in Architectural Studies.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2021.

### Graduate Diploma in Architectural Studies (GradDipAS) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement:</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 120 points: ARCHDES 300, 301, ARCHHTC 341, ARCHPRM 305, ARCHTECH 314, 315</td>
</tr>
</tbody>
</table>

A student who has to complete 150 points must satisfy the following requirements:

<table>
<thead>
<tr>

</table>

### Graduate Diploma in Music – GradDipMus

*The regulations for this graduate diploma are to be read in conjunction with all the other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have:
   
   either
   
   a completed the requirements for the Bachelor of Music
   or
   
   b completed the requirements for an equivalent degree approved by Senate or its representative
   or
   
   c attained a level of competence approved by Senate or its representative as equivalent to that specified in a or b above and appropriate for the proposed programme for this graduate diploma.

**Duration and Total Points Value**

2 A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

**Structure and Content**

3 Of the 120 points required for this graduate diploma, a student must pass:
   
   either
   
   a 120 points in courses from the subjects or majors listed in the Bachelor of Music Schedule, Bachelor of Music (Honours) Schedule, MUS 620, including at least 90 points above Stage II
   or
   
   b (i) at least 90 points in courses above Stage II from the subjects or majors listed in the Bachelor of Music Schedule, Bachelor of Music (Honours) Schedule, MUS 620
   
   and
   
   (ii) up to 30 points from courses available for any other degree at this University, with the approval of the relevant Heads of Departments and the Head of School of Music.

4 A dissertation may not be included in the Graduate Diploma in Music.

5 Cross-credits will not be granted towards the Graduate Diploma in Music.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Practical Requirements**

7 In any course that includes performance work of a practical nature, a student needs to comply with the requirements for that course as specified by the Head of School of Music.

**Variations**

8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

9 These regulations have been amended with effect from 1 January 2020.

---

**Postgraduate Certificate in Architectural Project Management – PGCertAPM**

*The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this postgraduate certificate, a student must have completed the Degree of Bachelor of Architectural Studies from this University with a Grade Point Average of 4.0 or higher in 60 points at Stage III, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

**Duration and Total Points Value**

3 A student enrolled for this postgraduate certificate must:

a. pass courses with a total value of 60 points

and

b. complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

**Structure and Content**

5 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Architectural Project Management Schedule.

6 A student who has not completed ARCHPRM 305 or its equivalent must complete either ARCHPRM 700 or 701 as approved by the Academic Head or nominee.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Variations**

8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

9 These regulations and/or schedule have been amended with effect from 1 January 2022.

---

**Postgraduate Certificate in Architectural Project Management (PGCertAPM) Schedule**

- 30 points: ARCHGEN 704, ARCHPRM 702
- 30 points from ARCHPRM 700, 701, 703, 704, ARCHTECH 706–710, URBPLAN 721

---

**Postgraduate Certificate in Design – PGCertDes**

*The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for a Bachelors degree from this University with a Grade Point Average of 3.5 or higher in 90 points at Stage III, or the equivalent as approved by Senate or its representative.
In exceptional circumstances Senate or its representative may approve admission of a student who has:

- attained extensive relevant practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirement in Regulation 1
- and
- performed at an acceptable level in any tests of academic aptitude, portfolio and/or interviews prescribed by Senate or its representative.

**Duration and Total Points Value**

A student enrolled for this postgraduate certificate must:

- pass courses with a total value of 60 points
- complete within the time limit specified in the General Regulations – Postgraduate Certificates
- and
- not exceed 90 points for the total enrolment in this postgraduate certificate.

**Structure and Content**

A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Design Schedule.

A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

**Variations**

In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

**Commencement**

These regulations came into force on 1 January 2021.

Postgraduate Certificate in Music – PGCertMus

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for the Degree of Bachelor of Music from this University with a Grade Point Average of 3.5 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has
at least three years of relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Duration and Total Points Value
3 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time specified in the General Regulations – Postgraduate Certificates
   and
   c not exceed 90 points for the total enrolment for this postgraduate certificate.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Music Schedule.
5 A student who has previously passed any courses the same as, or similar to, courses required for this degree must substitute (an) alternative course(s) approved by the Head of the School of Music.
6 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, *University Calendar*.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2021.

Postgraduate Diploma in Architecture – PGDipArc

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
either
a completed the requirements for the Degree of Bachelor of Architectural Studies
or
b completed the requirements for an equivalent qualification approved by Senate or its representative
and
c achieved a sufficiently high average grade, as determined by the Head of School of Architecture and Planning.

2 A student who has not completed all the requirements for the Degree of Bachelor of Architectural Studies but who, for that qualification, has:
a no more than 20 points left to complete
and
b achieved an average grade of B- or higher in at least 70 points at the highest level of that qualification may, with the approval of the Head of School, enrol for this postgraduate diploma. However, the remaining points required for the qualification must be completed within 12 months of initial enrolment for this degree. Should this requirement not be completed in this time, the enrolment for the Postgraduate Diploma in Architecture will be suspended until they have been completed.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
a 75 points from the Core Courses listed in the Postgraduate Diploma in Architecture Schedule
and
b at least 45 points from the Elective Courses listed in the Postgraduate Diploma in Architecture Schedule, as approved by the Head of School of Architecture and Planning.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2022.
Postgraduate Diploma in Architecture (PGDipArch) Schedule

**Requirement:**

**Core Courses**
- 75 points: ARCHGEN 702, 799
- 45 points from ARCHDRC 700–703, ARCHGEN 711–715, 733, ARCHHTC 700–704, ARCHPRM 702–705, ARCHTECH 707–710, URBDES 702

### Postgraduate Diploma in Music – PGDipMus

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

### Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a  completed the requirements for the Bachelor of Music
   or
   b  completed the requirements for an equivalent degree approved by Senate or its representative
   or
   c  attained a level of competence approved by Senate or its representative as equivalent to that specified in a or b above, and appropriate for the proposed programme for this postgraduate diploma.

### Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a  pass courses with a total value of 120 points
   and
   b  complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

### Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
a 120 points from courses listed in the Bachelor of Music (Honours) Schedule for which the student has passed the prerequisite courses

or

b (i) at least 90 points from courses listed in the Bachelor of Music (Honours) Schedule for which the student has passed the prerequisite courses

and

(ii) up to 30 points from courses available for any other Postgraduate Diploma or Bachelors Honours degree at this University, with the approval of the relevant Heads of Departments and the Head of School of Music.

5 The programme for each student must be approved by the Head of School of Music prior to enrolment.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation

7 a A dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The dissertation topic must be approved by the Head of School of Music prior to enrolment.

c The dissertation must be completed and submitted as specified in the General Regulations – Postgraduate Diplomas.

Distinction

8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Practical Requirements

9 In any course that includes performance work of a practical nature a student must comply with the requirements for that course as specified by the Head of School of Music.

Variations

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

11 These regulations have been amended with effect from 1 January 2021.

Postgraduate Diploma in Therapeutic Dance – PGDipThDance

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate diploma, a student needs to have:

a been enrolled in the Degree of Master of Dance Movement Therapy

and

b passed at least 30 points in that degree

and

c been recommended for admission by the Academic Head or nominee.

Duration and Total Points Value

2 A student admitted to this postgraduate diploma must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content

4 A student enrolled for this postgraduate diploma must pass DANCE 724, 772–776.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Distinction
6 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2022.

523 The Degree of Master of Professional Studies – MProfStuds
527 Postgraduate Certificate in Academic Practice – PGCertAcadPrac
The Degree of Bachelor of Early Childhood Studies – BECSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is not an initial teacher education qualification.

Admission
1 The applicant will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014. While a record of criminal convictions will not prevent any student from attaining their qualification, it may limit their options with regards to available practical learning opportunities.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.

Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 360 points required for this degree, a student must pass:
   a at least 330 points listed in the Bachelor of Early Childhood Studies Schedule
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by the Senate or its representative for 15 points of General Education.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses available for this degree.

English Language Requirements
7 A student must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, prior to enrolment in EDUCSW 302.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Commencement
9 These regulations came into force on 1 January 2022.

The Degree of Bachelor of Education (Teaching) – BEd(Tchg)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children and young persons.

Admission
1 To be admitted to this programme a student must have demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional certification and passed the numeracy and literacy skills assessments.
2 Students who have a qualification gained at an overseas institution may be required to provide evidence of language proficiency.
3 To be admitted to the Huarahi Māori specialisation students must have passed a Te Reo Māori competency assessment and met the University Entrance Literacy requirements in Te Reo Māori or equivalent.

Notes:
(i) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.
(iii) Personal references and an interview will be required.

Duration and Total Points Value
4 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Credit Regulations.
5 The requirements for this degree must be completed within six years of initial enrolment unless in exceptional circumstances Senate or its representative extends this period.

Structure and Content
6 Of the 360 points required for this degree, a student must pass:
   a at least 345 points from one of the specialisations listed in the Bachelor of Education (Teaching) Schedule and
   b 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
7 a A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.
   b A student enrolled for the Huarahi Māori specialisation is exempted from the Academic English Language Requirement.

Language Requirements
8 a A student enrolled for the Primary specialisation must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDPRAC 304 or 307.
   b A student enrolled for the Huarahi Māori specialisation must demonstrate competence in the Māori language,
by passing EDPROFM 101, as prescribed by the Faculty of Education and Social Work, prior to enrolment in EDPRACM 304.

General Education Exemptions
9  a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution
   or
   (iv) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses approved by the Dean of Faculty of Education and Social Work.

   c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
10  a In any course that has a practicum and non-practicum component, a student must pass both the practicum and the non-practicum component in order to have passed that course as a whole.

   b Re-enrolment in any practicum course after failing that course requires the permission of the Dean or nominee.

   c At the discretion of Senate or its representative, a student who does not pass a practicum course may be declined permission to re-enrol for this degree.

Professional Requirements
11  a In order to complete the requirements for this degree, a student must be able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand.

   b A student who, after enrolment, ceases to be able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean or nominee.

   c If the Dean or nominee has reason to believe that a student does not meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand the Dean or nominee shall advise the student and take into account any written response from the student.

   d If the Dean or nominee is satisfied that the student is not able to meet the criteria for provisional certification of the Teaching Council of Aotearoa New Zealand then they will notify Senate or its representative.

   e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

   f A student whose enrolment is terminated under Regulation 11e may appeal that decision to the Provost or the duly appointed delegate.

Termination of Enrolment
12  a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by the Dean of the Faculty of Education and Social Work and any application to re-enrol may likewise be declined.

   b A student who is subject to any such inquiry may be suspended by the Dean of Faculty of Education and Social Work from attending lectures, classes and any teaching placement pending the outcome of the inquiry.

   c A student whose enrolment is terminated under Regulation 12a may appeal that decision to the Provost or the duly appointed delegate.
Reassignment
13 In exceptional circumstances, and with the approval of Senate or its representative, a student may apply to reassign Stage II or III courses passed for this degree to the Graduate Diploma in Education.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Education (Teaching) (BEd(Tchg)) Schedule

Early Childhood Education
The BEd(Tchg) in Early Childhood Education was suspended in 2021. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Requirement:
• EDUCSW 199
• 120 points: EDCURRIC 118, EDPRAC 105, EDPROFST 103, 104, EDPROFM 100, EDUC 106, HUMSERV 102, SOCWORK 111
• 150 points: EDCURRIC 207–209, 216, 217, EDPRAC 205, EDPROFST 211, 212, EDPROFM 200, EDUC 203
• 75 points: EDPRAC 307, EDPROFST 308, 315, EDPROFM 300, EDUC 324

Early Childhood Education – Pasifika
The BEd(Tchg) in Early Childhood Education – Pasifika was suspended in 2017. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Requirement:
• 150 points: EDCURRPK 111, 115, 116, 120, 121, EDPRACPK 102, EDPROFST 100, EDUC 113 or 118, 119
• 90 points: EDCURRPK 210–212, EDPRAC 202, EDPROFST 204, 206
• 105 points: EDCURRPK 313, 322, 353, EDPRAC 306, EDPROFST 313, EDUC 324

Huarahi Māori
Requirement:
• 150 points: EDCURRM 108, 111, 113, 117, 119, EDPRACM 100, EDPROFM 101, 102, EDUC 106
• 120 points: EDCURRM 201, 203, 205, EDPRACM 204, EDPROFM 203, 204, 208, EDUC 203
• 75 points: EDPRACM 304, EDPROFST 302, 304, 307, EDUC 324

Primary
Requirement:
• EDUCSW 199
• 135 points: EDCURRIC 108, 109, 113, 117, 119, EDPRAC 100, EDPROFM 100, EDPROFST 102, EDUC 106
• 135 points: EDCURRIC 201, 203, 205, 206, EDPRAC 204, EDPROFM 200, EDPROFST 208, 209, EDUC 203
• 75 points: EDPRAC 304, EDPROFST 300, 302, 307, EDUC 324

Teachers’ specialisation
The BEd(Tchg) in Teachers’ specialisation was suspended in 2017. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Requirement:
• at least 60 points from EDPROFST 222, 350, 355, 357, 358
• up to 60 further points from courses above Stage II listed in the Graduate Diploma in Education Schedule

The Degree of Bachelor of Education (Teaching English to Speakers of Other Languages) – BEd(TESOL)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is not an initial teacher education qualification.

Admission
1 The applicant will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014. While a record of criminal convictions will not prevent any student from attaining their qualification, it may limit their options with regards to available practical learning opportunities.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.

Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 360 points required for this degree, a student must pass:

a at least 300 points listed in the Bachelor of Education (Teaching English to Speakers of Other Languages) Schedule
b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar

c up to 30 points from courses available for this degree or other Bachelors degrees at this University.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by the Senate or its representative for 15 points of General Education.

5 The programme for each student requires the approval of Dean of Faculty of Education and Social Work, or nominee, prior to enrolment each year.

6 A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDPROFST 306.

General Education Exemptions
7 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
either
(i) completed an undergraduate degree at a tertiary institution
or
(ii) commenced study for this degree at a tertiary institution before 1 January 2006
or
(iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
(i) 15 points from courses offered in the General Education Schedules
and
(ii) a further 15 points from courses available for this degree.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Bachelor of Human Services – BHumServ

New admissions to the Bachelor of Human Services were suspended in 2015. Students who have a current enrolment in this qualification should contact their Faculty for advice regarding completion. The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 To be admitted to this programme a student must have personal qualities suitable for this programme. Personal references may be required.

Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application process. While a record of criminal convictions will not prevent any student from attaining their qualification, it may limit their options with regards to available service-learning opportunities and employment in human services.

2 Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value
3 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
4 Of the 360 points required for this degree, a student must pass:
   a at least 330 points from courses listed in the Bachelor of Human Services Schedule including:
      (i) at least 180 points in courses above Stage I, of which at least 75 points must be above Stage II
      (ii) 255 points from the courses listed in the Core Courses Schedule
      (iii) 75 points from the courses listed in the Elective Courses Schedule.
   b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
      (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.
      (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
     either
     (i) completed an undergraduate degree at a tertiary institution
     or
     (ii) commenced study for this degree at a tertiary institution before 1 January 2006
     or
     (iii) been admitted to this degree with credit from another tertiary institution of 240 points or more.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.
Termination of Enrolment
6  a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.
   b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.
   c A student whose enrolment is terminated under Regulation 6a may appeal from that decision to the Council or its duly appointed delegate.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Human Services (BHumServ) Schedule

The Degree of Bachelor of Physical Education – BPE

New admissions to the Degree of Bachelor of Physical Education were suspended in 2016. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children and young persons. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this degree.

Admission
1  To be admitted to this programme a student must:
   a meet University entry criteria
   and
   b have demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration. Personal references and an interview will normally be required.
   Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application process consistent with the requirements for provisional registration of the Teaching Council of Aotearoa New Zealand.

2  Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value
3  A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
4  Of the 480 points required for this degree, a student must pass:
   a at least 420 points from the Core Courses listed in the Bachelor of Physical Education Schedule.
   b at least 30 points from the Elective Courses listed in the Bachelor of Physical Education Schedule.
   c (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education).

In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

General Education Exemptions

A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

either

(i) completed an undergraduate degree at a tertiary institution

or

(ii) commenced study for this degree at a tertiary institution before 1 January 2006

or

(iii) been admitted to this degree with credit from another tertiary institution of 240 points or more

A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:

(i) 15 points from courses offered in the General Education Schedules

and

(ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements

In any course that has a practicum and non-practicum component, a student must pass both the practicum and the non-practicum component in order to have passed that course as a whole.

Re-enrolment in any EDPRAC course after failing that course requires the permission of the Dean of Faculty of Education and Social Work or nominee.

At the discretion of Senate or its representative, a student who does not pass EDPRAC 103, 203, 303, 403 may be declined permission to re-enrol for this degree.

Results may be deferred for courses with a practical component where a student is unable to complete due to illness, injury, or other exceptional circumstances beyond their control.

Where results are deferred, assessment of a practical component must be undertaken as soon as practicably possible at a time deemed appropriate by the Head of Programme.

Professional Requirements

In order to complete the requirements for this degree, a student must be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.
f A student whose enrolment is terminated under Regulation 8e may appeal from that decision to the Council or its duly appointed delegate.

Termination of Enrolment
9 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 9a may appeal from that decision to the Council or its duly appointed delegate.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Bachelor of Social Work – BSW

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 To be admitted to this programme a student must:
   a meet University entry criteria
   and
   b have personal qualities suitable for becoming a social worker. Personal references and an interview will normally be required.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.
(ii) The applicant will be required to consent to a Police check to ensure they meet the requirements of the Social Workers Registration Act 2003.

Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

3 The requirements for this degree must be completed within 16 semesters of initial enrolment.

Structure and Content
4 Of the 480 points required for this degree, a student must pass:
   a at least 450 points from the Bachelor of Social Work Schedule.
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
5 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, must complete ENGLISH 121G to fulfill their General Education requirement, or with approval from Senate or its representative, may substitute an alternative Academic English Language Requirement course for 15 points of General Education.

6 The programme for each student must be approved by the Head of Programme.

English Language Requirements
7 A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in SOCWORK 317.

General Education Exemptions
8 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical and Professional Requirements
9 a At the discretion of Senate or its representative, a student who does not pass a Professional Practice course (SOCWORK 221, 280, 317, 411, 415) may be declined permission to re-enrol for this degree.

b Re-enrolment in any of SOCWORK 221, 280, 317, 411 or 415 after failing that course requires the permission of the Dean of Faculty of Education and Social Work.

c A student must continue to meet the requirements for registration throughout the duration of enrolment in the programme.

Termination of Enrolment
10 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 10a may appeal that decision to the Council or its duly appointed delegate.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.
Bachelor of Social Work (BSW) Schedule

- 90 points: SOCYOUTH 433, SOCWORK 411, 413–415
- at least 15 points from SOCCHFAM 382, 431, 482, SOCCHLTH 334, 381, 481, SOCWORK 353, 383, 484, SOCYOUTH 483

The Degree of Bachelor of Sport, Health and Physical Education – BSportHPE

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a 330 points from the courses listed in the Bachelor of Sport, Health and Physical Education Schedule, including
      (i) 210 points from the Core Courses listed in the Bachelor of Sport, Health and Physical Education Schedule
      (ii) 180 points in courses above Stage I, of which at least 75 points must be above Stage II.
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 A student must consent to the disclosure of criminal convictions and any safety checks as required by the Children's Act 2014 prior to enrolment in EDUCSW 302 and SPORT 204.
   Note: A record of criminal convictions will not prevent any student from attaining their qualification but may limit their options with regards to available service-learning opportunities and employment opportunities.

4 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.
English Language Requirements
5 A student enrolled for this degree must demonstrate competence in the English language, by passing EDUCSW 199, as prescribed by the Faculty of Education and Social Work, before enrolment in EDUCSW 302.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses approved by the Dean of Faculty of Education and Social Work.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
7 a Results may be deferred for courses with a practical component where a student is unable to complete due to illness, injury, or other exceptional circumstances beyond their control.

b Where results are deferred, assessment of a practical component must be undertaken as soon as practicably possible at a time deemed appropriate by the Programme Leader.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme that does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Bachelor of Education (Teaching) (Honours) – BEd(Tchg) (Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Degree of Bachelor of Education (Teaching) from the University of Auckland or an equivalent qualification as approved by Senate or its representative
   or
   b completed the requirements for an equivalent qualification recognised for teacher registration in New Zealand as approved by Senate or its representative
and
 c a Grade Point Average of 5.0 or higher in 45 points above Stage II.

2 A student who has not completed the requirements for the Degree of Bachelor of Education (Teaching) but who has:
 a passed courses with a total value of at least 345 points for that degree
 and
 b a Grade Point Average of 5.0 or higher in 45 points above Stage II
 may, with the approval of the Dean of Faculty, enrol for this degree. The remaining points for the Degree of Bachelor of Education (Teaching) must be passed within the first semester of enrolment for the Degree of Bachelor of Education (Teaching) (Honours). The Degree of Bachelor of Education (Teaching) (Honours) will not be awarded until the requirements for the Degree of Bachelor of Education (Teaching) have been completed.

Duration and Total Points Value
3 A student enrolled for this degree must:
 a pass courses with a total value of 120 points
 and
 b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Education (Teaching) (Honours) Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 Course(s) selected for this qualification are subject to confirmation by the Academic Head or nominee.

Research Portfolio / Research Project
8 a The research portfolio or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
 b The research portfolio or research project topic must be approved by the relevant Programme Coordinator and the Dean of Faculty of Education and Social Work prior to enrolment.
 c The research portfolio or research project must be completed and submitted as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
9 A student may apply to reassign the courses passed to the Postgraduate Certificate in Education or Postgraduate Diploma in Education.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Bachelor of Social Work (Honours) – BSW(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 a No student on whom the Degree of Bachelor of Social Work has already been conferred may enrol for this degree.

b In order to be admitted to this degree, a student must have:
   (i) passed 360 points towards the Degree of Bachelor of Social Work from this University with a Grade Point Average of 5.0 or higher in 60 points above Stage II
   and
   (ii) been recommended for admission by the Dean of Faculty of Education and Social Work.

c Where the Dean of Faculty of Education and Social Work approves enrolment for the Degree of Bachelor of Social Work (Honours) the courses previously passed for the Degree of Bachelor of Social Work will be reassigned to the Degree of Bachelor of Social Work (Honours).

Duration and Total Points Value
2 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 480 points required for this degree, a student must pass:
   a 330 points from the Bachelor of Social Work Schedule
   and
   b (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules
   (ii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   and
   c 120 points from courses listed in the Bachelor of Social Work (Honours) Schedule.

4 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work.

Research Project
5 a The research project is to be carried out under the guidance of a supervisor/s appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Education and Social Work.

b The research project topic must be approved by the Dean of Faculty of Education and Social Work prior to enrolment.

c A student enrolled must complete the research project by the last day of the final semester of enrolment in the research project.

d In exceptional circumstances beyond the student's control, Senate or its representative, acting upon the recommendation of the Head of Department, may approve a limited extension of time, not exceeding two months.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses approved by the Dean of Faculty of Education and Social Work.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this
degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:

(i) 15 points from courses offered in the General Education Schedules
and
(ii) a further 15 points from courses available for this degree.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical and Professional Requirements

7 a At the discretion of Senate or its representative, a student who does not pass a required Professional Practice course (SOCWORK 317, 715) may be declined permission to re-enrol in this degree.

b Re-enrolment in any of SOCWORK 317, 411 or 715 after failing that course requires the permission of the Dean of Faculty of Education and Social Work.

c A student must continue to meet the requirements for registration throughout the duration of enrolment in the programme as outlined in the programme handbook.

Termination of Enrolment

8 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 8a may appeal that decision to the Provost or the duly appointed delegate.

Reassignment

9 A student may apply to reassign the courses passed to the Degree of Bachelor of Social Work.

Honours

10 a This degree will be awarded with Honours in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours is determined by the student’s overall grade in 120 points of 700 level courses as follows:

<table>
<thead>
<tr>
<th>Grade Range</th>
<th>Class of Honours</th>
</tr>
</thead>
<tbody>
<tr>
<td>7.0 to 9.0</td>
<td>First Class Honours</td>
</tr>
<tr>
<td>5.5 to 6.9</td>
<td>Second Class Honours First Division</td>
</tr>
<tr>
<td>4.0 to 5.4</td>
<td>Second Class Honours Second Division</td>
</tr>
<tr>
<td>3.9 and below</td>
<td>Third Class Honours</td>
</tr>
</tbody>
</table>

Variations

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

12 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Counselling – MCouns

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have completed the requirements for:

a (i) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in at least 90 points in the most advanced courses, or the equivalent as approved by Senate or its representative
or
(iii) the Postgraduate Diploma in Counselling Theory or the Postgraduate Diploma in Education in Counselling from this University with a Grade Point Average of 5.0 or higher in at least 90 points or equivalent in the most advanced courses, or the equivalent as approved by Senate or its representative and
b at least three years relevant professional experience approved by the Academic Head or nominee.

2 An interview supported by referees’ statements and evidence of practical experience is required.

Note: Agencies where counsellors in training are placed wish to ensure that client safety is not compromised. For this reason, the application form for the Counselling programme asks applicants to indicate whether they have any criminal convictions. Before any candidate can be accepted into the degree, an official police statement concerning absence or otherwise of criminal convictions will be required.

3 No student on whom the Degree of Master of Education – Counselling specialisation has already been conferred by the University of Auckland may enrol for this degree unless specific approval is given by Senate or its representative.

Notes:
(i) Relevant Bachelors degrees may include education, counselling, nursing, social work.
(ii) Applicants will be required to consent to disclosure of criminal convictions and safety checks as required by the Children’s Act 2014.
(iii) An interview supported by referees’ statements and evidence of practical experience is required.

Duration and Total Points Value
4 A student admitted to this degree under Regulation 1a or 2 must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Counselling Schedule.

7 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120 points of taught courses prior to enrolment in PROFCOUN 795 or 796. If this Grade Point Average is not achieved, enrolment in the Master of Counselling cannot continue.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Termination of Enrolment
9 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

   b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

   c A student whose enrolment is terminated under Regulation 9a may appeal that decision to the Provost or the duly appointed delegate.

Research Portfolio/Thesis
10 a The Research Portfolio is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The research portfolio or thesis topic must be approved by the Academic Head or nominee prior to enrolment.
The research portfolio or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
11 A student may apply to reassign courses passed to the Postgraduate Diploma in Counselling Theory.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
14 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Counselling (MCouns) Schedule

The Degree of Master of Education – MEd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:

   either

   a (i) the Postgraduate Diploma in Education from this University, or an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher

   or (ii) the Degree of Bachelor of Education (Teaching) (Honours) from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher

   or (iii) the Degree of Bachelor of Education (Teaching) from this University, or an equivalent qualification recognised for teacher registration as approved by Senate or its representative, with a Grade Point Average of 5 or higher

   or (iv) (a) a Bachelors degree

   and (b) the Postgraduate Certificate in Education with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

   or (v) (a) a relevant professional qualification in education as approved by Senate or its representative, with at least two years of relevant professional experience as approved by the Head of School

   and...
(b) the Postgraduate Certificate in Education with a Grade Point Average of 5 or higher, provided that the postgraduate certificate has not been awarded.

2 A student who has not gained a Grade Point Average of 5.0 or higher as specified in Regulation 1 must have otherwise shown to the satisfaction of the Dean of Faculty of Education and Social Work capacity to undertake advanced study and research in the courses proposed to be taken for this degree in order to be admitted to this programme.

3 No student on whom the Degree of Master of Arts in Education has already been conferred by the University of Auckland may enrol for this degree unless specific approval is given by Senate or its representative.

Duration and Total Points Value
4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Education Schedule.

7 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses in this degree. If the Grade Point Average is not achieved, enrolment for the Master of Education cannot be continued.

8 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
10 A student who has to complete 180 points for this degree and who does not achieve the required Grade Point Average in the first 60 points of taught courses may apply to reassign courses passed for the Master of Education to the Postgraduate Diploma in Education or Postgraduate Certificate in Education.

Thesis
11 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Education
12 A student who has passed courses towards a Postgraduate Certificate in Education may reassign those courses to this degree provided that the Postgraduate Certificate in Education has not been awarded.

Honours
13 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Educational Leadership – MEEdLd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this degree, a student must have:
   either
   a (i) completed the requirements for the Degree of Bachelor of Education (Teaching) (Honours), or Postgraduate Diploma in Education or Postgraduate Diploma in Educational Leadership from this University with a Grade Point Average of 5.0 or higher
   and
   (ii) completed EDPROFST 738 or the equivalent as approved by Senate or its representative
   or
   b (i) have completed the requirements for the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   (ii) have completed the requirements for the Degree of Bachelor of Arts with a major in Education from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   (iii) (a) have completed the requirements for a Bachelors degree, in a relevant subject, as approved by Senate or its representative
   and
   (b) the Postgraduate Certificate in Education from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded
   or
   (iv) (a) a relevant professional qualification in education as approved by Senate or its representative
   and
   (b) the Postgraduate Certificate in Education from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded
   and
   c at least three years of practical experience in teaching or a related profession, including experience in a formal or informal leadership and/or management role.
   Note: Relevant subjects may include education, psychology, social work, social sciences and sociology.

2. A student who has met the requirements for admission under Regulation 1a above, and who has not completed EDPROFST 738 or its equivalent must have passed this course within two semesters of enrolment in the Master of Educational Leadership. Should this requirement not be completed, enrolment in any further courses required for the Degree of Master of Educational Leadership will not be permitted until EDPROFST 738 has been completed.

Duration and Total Points Value
3. A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.
A student admitted to this degree under Regulation 1b must:

a. pass courses with a total value of 180 points

and

b. complete within the time limit specified in the General Regulations – Masters Degrees

and

c. not exceed 220 points for the total enrolment for this degree.

Structure and Content

5. A student enrolled for this degree must complete the requirements as listed in the Master of Educational Leadership Schedule.

b. A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken. If this Grade Point Average is not achieved, enrolment in the Master of Educational Leadership cannot continue.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

7. A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Educational Leadership or Postgraduate Diploma in Education or Postgraduate Certificate in Education.

Thesis

8. a. The thesis is to be carried out under the guidance of a supervisor appointed by the Academic Head or nominee.

b. The thesis topic must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.

c. The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Education, Postgraduate Diploma in Education or Postgraduate Diploma in Educational Leadership

9. A student who has passed courses towards the Postgraduate Certificate in Education, Postgraduate Diploma in Education or Postgraduate Diploma in Educational Leadership may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Honours / Distinction

10. This degree may be awarded with either Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Variations

11. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

12. These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Educational Leadership (MEdLd) Schedule

A student who has to complete 120 points must satisfy the following requirements:

**Prerequisite:** 30 points from EDPRA 751, EDPROFST 757, EDUC 735, 787, or equivalent courses approved by the Academic Head or nominee

**Requirement:**

- **Research Masters**
  - 120 points: EDPROFST 796 Thesis

   or
   (ii) (a) the Degree of Bachelor of Education (Teaching) (Honours) from this University with a Grade Point Average of 5.0 or higher, or its equivalent as approved by Senate or its representative
       and
       (b) at least one year of teaching experience
   or
   b (i) the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Physical Education from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
       and
       (iii) at least two years teaching experience
   or
   c (i) the Degree of Bachelor of Education (Teaching) from this University with a Grade Point Average of 3.5 or higher, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Physical Education from this University with a Grade Point Average of 3.5 or higher, or its equivalent as approved by Senate or its representative
   or
   d (i) (a) a Bachelor’s degree
       and
       (b) a Graduate Diploma in Teaching (Early Childhood Education), Graduate Diploma in Teaching English in Schools to Speakers of Other Languages, Graduate Diploma in Teaching (Primary), Graduate Diploma in Teaching (Secondary), or Postgraduate Diploma in Teaching (Secondary Field-based) from this University with a Grade Point Average of 3.5 or higher, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Education (Teaching) (Honours) from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
   or
   e (i) a Diploma in Teaching or equivalent as approved by Senate or its representative, with at least three years of equivalent full time relevant teaching experience approved by the Programme Leader
       and
       (ii) the Postgraduate Certificate in Education with a Grade Point Average of 5.0 or higher.

Duration and Total Points Value

2 A student admitted to this degree under Regulation 1a and 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
A student admitted to this degree under Regulation 1c, 1d, and 1e must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Education Practice Schedule.

5 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses. If the Grade Point Average is not achieved, enrolment in the Master of Education Practice cannot be continued.

6 Students who have previously completed EDCURRIC 716, EDUC 735, 787, EDPRAC 751 or EDPROFST 754 must substitute EDPROF 702 for EDUC 764.

7 Courses selected for this qualification are subject to confirmation by the Academic Head or nominee.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Education or Postgraduate Certificate in Education.

Distinction
10 a This degree may be awarded with Distinction or Merit where the overall grade is sufficiently high.

   b Where the requirements for this degree have not been completed in accordance with the time limit specified in the General Regulations – Masters Degrees the student’s eligibility for the award of Distinction or Merit will lapse. On the recommendation of the Dean of Faculty, Senate or its representative may approve the retention of the award of Distinction or Merit.

   c Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in this degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedules have been amended with effect from 1 January 2022.

The Degree of Master of Higher Education – MHigherEd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to:

   either
   a (i)  have completed the requirements for a postgraduate degree or diploma from this University, with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative
   and
   (ii) have at least three years of extensive, relevant professional teaching experience, or professional experience in a significant learning and teaching role, including content and experience equivalent to that obtained through the Postgraduate Certificate in Higher Education as approved by Senate or its representative
   or
   b (i)  have completed the requirements for a degree from this University, with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) have completed the requirements for a degree from this University, or the equivalent as approved by Senate or its representative
   and
   (b) have completed the requirements for the Postgraduate Certificate in Academic Practice or Postgraduate Certificate in Higher Education from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative, provided that the postgraduate certificate has not been awarded
   and
   c be currently employed in the tertiary education sector and have a substantial role in teaching and/or supporting student learning, or have, within the past three years, been employed in the tertiary education sector and had a substantial role in teaching and/or supporting student learning.

   Note: A substantial role in teaching or supporting student learning may include academic, library or learning design positions.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has extensive, relevant professional teaching experience, or extensive, relevant professional experience in a significant learning and teaching role, that is deemed to be the equivalent of the requirements in Regulation 1.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

   a  pass courses with a total value of 120 points
   and
   b  complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c  not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:

   a  pass courses with a total value of 180 points
   and
   b  complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c  not exceed 220 points for the total enrolment for this degree.

5 The requirements for this degree must be completed on a part-time basis.

Structure and Content

6 A student enrolled for this degree must complete the requirements as listed in the Master of Higher Education Schedule.

7 A student who has to complete 180 points for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses and prior to enrolment in HIGHED 793. If the Grade Point Average is not achieved, enrolment in the Master of Higher Education cannot be continued.
8 A student admitted to this programme under Regulation 1a may substitute HIGHED 701 or HIGHED 702 for HIGHED 703 with the approval by the Programme Director.

9 A student may substitute an approved research methods course for HIGHED 704 with the approval of the Programme Director.

10 The programme for each student requires the approval of the Dean of the Faculty of Education and Social Work prior to enrolment.

11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
12 A student who does not achieve the Grade Point Average specified in Regulation 7 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Higher Education or Postgraduate Certificate in Higher Education.

Dissertation
13 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment in HIGHED 793.

c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Higher Education or Postgraduate Certificate in Academic Practice
14 A student who is required to complete 180 points and has enrolled in courses towards the Postgraduate Certificate in Academic Practice or Postgraduate Certificate in Higher Education may reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Honours
15 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
16 In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
17 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Master of Social and Community Leadership – MSCL
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student must have completed the requirements for:

   either

   a A Bachelors degree with at least 60 points in social science subjects from a New Zealand university, or an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II

   or
b (i) a Bachelors degree with at least 60 points in social science subjects from a New Zealand university, or an equivalent qualification approved by Senate or its representative
and
(ii) the Postgraduate Certificate in Social and Community Leadership with a Grade Point Average of 5.0 or higher, provided that the Postgraduate Certificate in Social and Community Leadership has not been awarded

or

b (i) a relevant professional qualification, equivalent to a Bachelors degree of at least 360 points as approved by Senate or its representative, with at least two years of relevant professional experience approved by the Head of School of Counselling, Social Work and Human Services
and
(ii) the Postgraduate Certificate in Social and Community Leadership with a Grade Point Average of 5.0 or higher, provided that the Postgraduate Certificate in Social and Community Leadership has not been awarded.

Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 a A student enrolled for this degree must complete the requirements as listed in the Master of Social and Community Leadership Schedule.

b A student may substitute an alternative course the same as, or similar to, SOCWORK 718, as approved by the Academic Head.

c A student must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Social and Community Leadership cannot continue.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
6 A student who does not achieve the Grade Point Average specified in Regulation 4c may apply to reassign courses passed for the Master of Social and Community Leadership to the Postgraduate Certificate in Social and Community Leadership.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis must be approved by the relevant Academic Head or nominee or Postgraduate Committee prior to enrolment.

c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2019.

Master of Social and Community Leadership (MSCL) Schedule

| Requirement: |
| Research Masters |
| 60 points: SOCCLEAD 703, 706 |
| 30 points from: EDUC 735, 787, EDPRAC 751, EDPROFST 754, SOCWORK 718, or another approved 700 level research methods course |
| 90 points: SOCCLEAD 794 or 795 Thesis |
The Degree of Master of Social Work – MSW

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have:
   
   either
   
   a completed the requirements for the Degree of Bachelor of Social Work from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher in at least 90 points or equivalent in the most advanced courses taken towards the entry qualification
   
   or
   
   b completed the requirements for the Degree of Bachelor of Social Work (Honours) from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher in at least 90 points or equivalent in the most advanced courses taken towards the entry qualification
   
   or
   
   c (i) completed the requirements for the Postgraduate Diploma in Professional Supervision from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher
   
   and
   
   (ii) hold a qualification in social work approved by Senate or its representative
   
   or
   
   d completed the requirements for the Postgraduate Diploma in Health Sciences (Social Work) from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher
   
   or
   
   e completed the requirements for the Postgraduate Diploma in Social Work from this University or an equivalent qualification approved by Senate or its representative with an average grade of B or higher.

2 A student who has not gained an average of B or better as specified in Regulation 1 must have otherwise shown to the satisfaction of the Dean of Faculty of Education and Social Work capacity to undertake advanced study and research in the courses proposed to be taken for this degree in order to be admitted to the programme.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

   a pass courses with a total value of 240 points
   
   and
   
   b complete within the time limit specified in the General Regulations – Masters Degrees
   
   and
   
   c not exceed 280 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b, 1c, 1d or 1e must:

   a pass courses with a total value of 120 points
   
   and
   
   b complete within the time limit specified in the General Regulations – Masters Degrees
   
   and
   
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Master of Social Work Schedule.

   b A student who has to complete 240 points for this degree must achieve a Grade Point Average of at least 5.0 in the first 120 points of the coursework component of the degree. If this Grade Point Average is not achieved, enrolment in the Master of Social Work cannot continue.

   c A student may substitute an alternative course the same as, or similar to, SOCWORK 718, as approved by the Academic Head.

   d With the approval of all Academic Heads concerned, up to 30 points may be selected from other 700 level courses offered at this University.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Thesis / Research Portfolio
7  a The thesis or research portfolio is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis or research portfolio topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.
   c The thesis or research portfolio is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for the Master of Social Work to the Postgraduate Diploma in Social Work.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Social Work (Professional) – MSW(Prof)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   a completed the requirements for a Bachelors degree in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points at Stage III, or the equivalent as approved by Senate or its representative and
   b demonstrated in accordance with the approved selection criteria determined by the Faculty of Education and Social Work the qualities necessary for a person seeking to be a social worker. This will normally require letters of reference and an interview.

2 In exceptional circumstances Senate or its representative may approve the admission of student who has relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) Relevant subjects may include anthropology, education, gender studies, history, human geography, law, Māori studies, Pacific studies, nursing, population health, psychology, sociology.
(ii) Applicants will be required to consent to a Police check to ensure they meet the requirements of the Social Workers Registration Act 2003.
(iii) Applicants will be required to undergo safety checks required by the Children’s Act 2014.
(iv) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

Structure and Content
4 a A student enrolled for this degree must complete the requirements as listed in the Master of Social Work (Professional) Schedule.

b A student will not normally be permitted to enrol for Part II unless Part I has been completed.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical and Professional Requirements
6 a At the discretion of Senate or its representative, a student who does not pass required courses for Part I may be declined permission to re-enrol in this degree.

b Re-enrolment in any of SOCWORK 721, 722, 725 after failing that course requires the permission of the Dean of Faculty of Education and Social Work.

c A student must continue to meet the requirements of being a fit and proper person for registration by the New Zealand Social Workers Registration Board throughout the duration of enrolment in the programme as outlined in the programme handbook.

Termination of Enrolment
7 a If the behaviour of a student in a practice environment is found, after due and fair inquiry, to be disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 7a may appeal that decision to the Provost or the duly appointed delegate.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Teaching (Primary) – MTchg(Primary)

New admissions to the Master of Teaching (Primary) were suspended in 2019. Students who have a current enrolment in this qualification should contact their Faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this masters programme.
Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed a degree of at least 360 points at the Bachelors or Bachelors Honours level or a Masters degree of at least 240 points from a New Zealand university with a Grade Point Average of 5.0 or higher
   or
   b attained a qualification approved by Senate or its representative as:
      (i) equivalent to that specified in 1a above
      and
      (ii) appropriate for the proposed programme for this degree
   or
   c completed a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority
      and
   d demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration. Personal references and an interview will be required.
2 Applicants whose first language is not English and who have not had at least three years of tertiary education with English as the language of instruction will be required to have achieved a minimum overall score of 7.5 IELTS (Academic) with no band lower than 7, or equivalent.
3 Applicants are required to pass the Faculty of Education and Social Work’s numeracy and literacy skills assessments.
   Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application process consistent with the requirements for provisional registration of the Teaching Council of Aotearoa New Zealand.
4 Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value
5 A student enrolled for this degree must follow a programme of two semesters and summer school full-time and pass courses with a total value of 180 points.
6 The requirements for this degree must be completed within 12 months of commencing study.
7 In exceptional circumstances Senate or its representative may extend this period not exceeding one additional consecutive semester.

Structure and Content
8 A student must pass 180 points from the courses listed in the Master of Teaching (Primary) Schedule.
9 A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester.
10 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.
11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practicum Requirements
12 a In any course that has a practicum and non-practicum component, a student must pass both the practicum and non-practicum component in order to have passed that course as a whole.
   b Re-enrolment in ED PROF 758 after failing this course requires the permission of the Dean of Faculty of Education and Social Work or nominee. A student may re-enrol on only one further occasion.

Professional Requirements
13 a To complete the requirements for this Degree, a student must meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.
   b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.
   c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.
If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

A student whose enrolment is terminated under Regulation 13e may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

**Termination of Enrolment**

14 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 14a may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

**Reassignment**

15 A student may apply to reassign courses passed for the Master of Teaching (Primary) to the Postgraduate Diploma in Education.

**Distinction**

16 a This degree may be awarded with Distinction or Merit where the overall grade is sufficiently high.

b Where the requirements for this degree have not been completed in accordance with the time limit specified in Regulation 6 the student’s eligibility for the award of Distinction or Merit will lapse. On the recommendation of the Dean of Faculty, Senate or its representative may approve the retention of the award of Distinction or Merit.

c Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in this degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

**Variations**

17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Commencement**

18 These regulations came into force on 1 January 2015.

### Master of Teaching (Primary) (MTchg(Primary)) Schedule

| Requirement: | 180 points from EDPROF 737–741, 753–758, 766, 767 |

---

### The Degree of Master of Teaching (Secondary) – MTchg(Secondary)

*New admissions to the Master of Teaching (Secondary) were suspended in 2017. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.*

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this degree, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this master’s programme.

**Admission**

1 In order to be admitted to this programme, a student needs to have:

a completed a degree of at least 360 points at the Bachelors or Bachelors Honours level from a New Zealand university with a Grade Point Average of 5.0 or higher

or

b attained a qualification approved by Senate or its representative as:

(i) equivalent to that specified in 1a above

and

(ii) appropriate for the proposed programme for this degree
or

c completed a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority

and

d completed courses at Stage III or IV in a teaching subject appropriate to the secondary school curriculum

and

e demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration. Personal references and an interview will be required.

2 Applicants whose first language is not English and who have not had at least three years of tertiary education with English as the language of instruction will be required to have achieved a minimum overall score of 7.5 IELTS (Academic) with no band lower than 7.

3 Applicants are required to pass the Faculty of Education and Social Work’s numeracy and literacy skills assessments.

Note: The applicant will be required to consent to disclosure of criminal convictions as part of the application process consistent with the requirements for provisional registration of the Teaching Council of Aotearoa New Zealand.

4 Admission to this programme is at the discretion of Senate or its representative.

Duration and Total Points Value

5 A student enrolled for this degree must follow a programme of two semesters and summer school full-time and pass courses with a total value of 180 points.

6 The requirements for this degree must be completed within 12 months of commencing study.

7 In exceptional circumstances Senate or its representative may extend this period not exceeding one additional consecutive semester.

Structure and Content

8 A student must pass 180 points from the courses listed in the Master of Teaching (Secondary) Schedule.

9 A student who has failed a course or courses totalling no more than 40 points may be approved by Senate or its representative to enrol for no more than one further consecutive semester.

10 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practicum Requirements

12 a In any course that has a practicum and non-practicum component, a student must pass both the practicum and non-practicum component in order to have passed that course as a whole.

b Re-enrolment in EDPROF 758 after failing this course requires the permission of the Dean of Faculty of Education and Social Work or nominee. A student may re-enrol on only one further occasion.

Professional Requirements

13 a To complete the requirements for this Degree, a student must meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 13e may appeal from that decision to the University of Auckland Council or its duly appointed delegate.
Termination of Enrolment
14 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 14a may appeal from that decision to the University of Auckland Council or its duly appointed delegate.

Reassignment
15 A student may apply to reassign courses passed for the Master of Teaching (Secondary) to the Postgraduate Diploma in Education.

Distinction
16 a This degree may be awarded with Distinction or Merit where the overall grade is sufficiently high.

b Where the requirements for this degree have not been completed in accordance with the time limit specified in Regulation 6 the student’s eligibility for the award of Distinction or Merit will lapse. On the recommendation of the Dean of Faculty, Senate or its representative may approve the retention of the award of Distinction or Merit.

c Calculation of the award of Distinction or Merit will include the grades given for all courses attempted in this degree. For the purposes of this calculation, Withdrawal, Did Not Sit and Did Not Complete will count as zero.

Variations
17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
18 These regulations came into force on 1 January 2015.

---

Master of Teaching (Secondary) (MTchg(Secondary)) Schedule

| Requirement: Taught Masters | 180 points from EDCURSEC 700, 701, EDPROF 701, 737, 738, 741, 757, 758, 766, 767 |

The Degree of Doctor of Education – EdD

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Education.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Education.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.
(v) “Successfully complete” means to complete all requirements and submit all required work for the relevant course, course component or programme component and pass the prescribed examination.

General requirements
1 A candidate for the Degree of Doctor of Education (EdD) is required to undertake advanced coursework and an original and coherent research project and to present the outcome of that research project for examination as a thesis.

2 The research project must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding or application of knowledge in the relevant field(s) of study.

3 The research project must be conducted under supervision and during the period of enrolment in the EdD programme, and must be conducted in accordance with the Research Code of Conduct Policy.

4 The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 75,000 words.

5 The thesis must be undertaken and completed in accordance with the doctoral thesis policy and procedures.
6 A candidate must successfully complete a 360 point programme consisting of EDUC 801, EDUC 802, EDUC 803 and EDUC 804 ("the coursework component") and the thesis.

7 In order for the EdD degree to be awarded, Regulations 6 and 51 must be satisfied, and the Board of Graduate Studies (or delegate[s]) must be:
   a satisfied that, subject to Regulation 47, the candidate has performed at doctoral level in an oral examination, held in accordance with Regulation 48, on the thesis, the subject of the thesis and the field(s) to which the subject belongs
   and
   b satisfied, by the examination process prescribed by these regulations, that the thesis:
      (i) makes an original and significant contribution to knowledge or understanding, or to the application of knowledge, in its field(s)
      and
      (ii) meets internationally recognised standards for such work
      and
      (iii) demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature
      and
      (iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration

8 The thesis must be submitted within a maximum of 36 months of full-time equivalent programme enrolment from the initial date of enrolment in the EdD programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the doctoral extension of enrolment policy and procedures.

9 The thesis must not be submitted in less than 36 months of full-time equivalent programme enrolment from the initial date of enrolment in the EdD programme, unless permission is granted by the Board of Graduate Studies (or delegate).

10 Permission for submission of the thesis must not be granted where a candidate has been enrolled in the thesis for less than 24 months full-time equivalent.

11 Except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances and subject to Regulation 12, the coursework component must be successfully completed within one year of full-time equivalent programme enrolment and prior to commencement of the thesis enrolment.

12 The coursework component must be successfully completed in order for the thesis to be submitted for examination.

13 Except where full-time enrolment is compatible with course availability and approved by the Board of Graduate Studies (or delegate), enrolment in the coursework component must proceed on a part-time basis. Enrolment in the thesis may be full-time or part-time, subject to the doctoral full-time and part-time enrolment policy and procedures.

14 A candidate may be permitted to suspend their enrolment subject to the doctoral suspension of enrolment policy and procedures.

Admission

15 To be admitted to the EdD programme, applicants must satisfy the University’s Admission regulations and are required to have:
   a in their most recent attempt at a relevant qualification:
      (i) completed the requirements for a Bachelors Honours or Masters degree or Postgraduate Diploma in a relevant subject area with at least a B+ average at the University of Auckland; in all cases relevance is determined by the Board of Graduate Studies (or delegate)
   or
      (ii) completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as relevant, with regard to subject area, and as equivalent to a Bachelors Honours or Masters degree with at least a B+ average at the University of Auckland
   and
   b satisfied the requirements of the doctoral candidate research capacity policy and procedures
   and
   c had at least two years’ professional experience in education or in another professional area considered comparable by the Board of Graduate Studies (or delegate)
   and
d satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate) and

e have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the EdD degree and

f have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of doctoral matters ("the Academic Head(s)") with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head(s).

16 In exceptional circumstances, the Board of Graduate Studies (or delegate) may, subject to the doctoral exceptional circumstance entry policy and procedures, admit to the EdD programme an applicant whose qualifications do not meet the requirements of Regulation 15a.

17 An applicant may be considered for off-campus enrolment subject to the doctoral off-campus research policy and procedures.

18 The final decision on admission to the EdD programme shall be made by the Board of Graduate Studies (or delegate).

19 Admission to the EdD programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment.

20 Admission to the EdD programme is valid for the next programme start date (or, in exceptional circumstances as approved by the Board of Graduate Studies (or delegate) for up to two programme start dates) following the date of notification of admission to the programme. Where enrolment in the programme does not occur within that time, re-application for admission to the programme is required.

21 Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

Supervision

22 The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate's enrolment.

23 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the doctoral supervision policy and procedures.

24 Changes in supervision during candidature are subject to the doctoral supervision policy and procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

Enrolment and Candidature

25 Except for any period(s) of suspension approved under Regulation 14, candidates are required to be enrolled continuously from the initial date of enrolment in the EdD programme until the date of thesis submission under Regulations 8-10.

26 Candidature for the EdD degree commences upon enrolment in the EdD programme and continues, regardless of any period(s) of suspension approved under Regulation 14, until the date on which any one of the following occurs:

a notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree at Regulation 7 have been met;

b notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 50 is that the degree not be awarded;

c candidature expires under Regulation 32;

d a candidate withdraws from the programme under Regulation 52;

e candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 53.

27 Candidature is provisional until confirmed, and is subject to the doctoral confirmation of candidature policy and procedures, the doctoral continuation of confirmed candidature policy and procedures, and the doctoral candidature intervention policy and procedures.
28 The following additional confirmation milestone is required for all candidates and is subject to the doctoral confirmation of candidature policy and procedures: successful completion of the coursework component with an average result of B+ or higher.

29 Post-confirmation milestones in the form of participation in specified continuation seminars must be prescribed, pursuant to Regulation 27, for all candidates.

30 a Where a candidate does not successfully complete EDUC 801 or EDUC 802 or EDUC 803, conditions on candidature pursuant to Regulation 27 may, subject to Regulation 31, include requirements to satisfactorily complete specific additional work and/or revisions.

b Where conditions are imposed in accordance with Regulation 30(a), the submission of results for the course will be deferred.

c Where any condition imposed in accordance with Regulation 30(a) is not satisfied, the candidate will have failed to successfully complete the coursework component of the programme.

31 a The provisions of Regulations 30(a) and (b) can apply to a maximum of two courses, and one time only to each course.

b For the provisions of Regulations 30(a) and (b) to be exercised, a candidate must have demonstrated, to the satisfaction of the examiner in at least one component of the assessment for the relevant course, the capacity for doctoral level work. Where the examiner is not duly satisfied, the candidate will have failed to successfully complete the coursework component of the programme.

32 a Candidature expires when the thesis is not submitted for examination by the date required under Regulation 8.

b Candidature expires when the thesis is not submitted for examination by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 49.

33 Where candidature has expired under Regulation 32, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 58(b) of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

34 Enrolment in the EdD programme is not possible where candidature remains expired under Regulation 32 or where a candidate withdraws from the programme under Regulation 52.

35 Termination of candidature under Regulation 53 is also termination of enrolment in the EdD programme for enrolled candidates.

36 Candidates who are required, pursuant to Regulation 49, to revise and resubmit their thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis pursuant to Regulation 49 is 12 months full-time equivalent.

37 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the doctoral off-campus research policy and procedures.

38 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules, policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of candidature.

39 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees

40 All fees required by and pursuant to the Fees Statute must be paid for the duration of enrolment in the EdD programme.

41 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 14.

42 A candidate who withdraws from the EdD programme, or who has their candidature terminated, will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of withdrawal from the programme or termination of candidature and the end of the current doctoral year.

43 Graduation is not permitted until all outstanding monies owing to the University have been paid.
Submission
44 The thesis must be submitted in accordance with the doctoral thesis submission procedures – pre examination.

Examination
45 The coursework component must be examined in accordance with the doctoral coursework policy and procedures.

46 a For each candidate, the Board of Graduate Studies (or delegate) will appoint two thesis examiners, at least one of whom must be based outside New Zealand, in accordance with the doctoral appointment of examiners policy and procedures.

b The thesis must be examined in accordance with the doctoral examination procedures and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, with the doctoral examination extraordinary circumstances and posthumous award procedures.

47 Except where a candidate is exempted pursuant to the doctoral examination extraordinary circumstances and posthumous award procedures, the EdD degree cannot be awarded where an oral examination has not taken place.

48 Where the Board of Graduate Studies (or delegate) determines, under the doctoral examination procedures, that a candidate will proceed to oral examination, the oral examination is to be held in accordance with the doctoral examination procedures and the doctoral oral examination procedures.

49 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the doctoral examination procedures and determine the outcome of the examination.

Final Decision
50 The final decision as to the award of the EdD degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 49.

51 The final examined and approved thesis must be submitted in accordance with the doctoral thesis submission procedures – post examination in order for the requirements of the EdD degree to be met.

Withdrawal from Programme
52 A candidate may withdraw from the EdD programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature
53 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:

a failure to meet the requirements for confirmation of candidature pursuant to Regulation 27

b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 27

c failure to satisfy conditions imposed on candidature pursuant to Regulation 27

d failure to comply with candidature reporting requirements pursuant to Regulation 27

e failure to successfully complete the coursework component of the programme

f failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)

g failure to comply with the doctoral thesis submission procedures – post examination

h failure to make payment of any tuition fees related to enrolment in the EdD by the due date.

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 53 is permanent unless successfully appealed in accordance with Regulation 58b.

45 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 53, the candidate will be given notice of termination proceedings and allowed fourteen calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision.

55 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of these regulations.

56 a Where a candidate withdraws from the EdD programme or has their candidature terminated, or fails to meet the requirements for the award of the degree, admission to a new EdD or other doctoral programme in a relevant subject at a later date will not normally be permitted.

b A person who withdraws from any relevant doctoral programme or has a relevant doctoral candidature
terminated (or equivalent), or who fails to meet the requirements for the award of a relevant doctoral degree, will not normally be admitted to the EdD.

c Relevance at (a) and (b), and equivalence at (b), are determined by the Board of Graduate Studies (or delegate).

Variations
57 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for candidature, except where variation of a national or government directive or requirement is involved.

Appeals
58 a Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment, subject to the doctoral candidature appeal procedures.

b A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature or to decline an extension of enrolment, subject to the doctoral candidature appeal procedures.

59 Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the doctoral candidature appeal procedures.

60 Candidates and former candidates may appeal the outcome of an EdD thesis examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the doctoral examination appeal procedures.

61 Appeals as to thesis examination will be determined in accordance with the doctoral examination appeal procedures.

Dispute Resolution
62 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

63 Any matter that has been, could have been or could be appealed under the provisions of Regulation 58 or 60 is precluded from consideration as a dispute under Regulation 62.

Further Provisions
64 A candidate who is unable to complete the coursework component with a B+ or higher average may apply to the Academic Head to be admitted to a Postgraduate Certificate in Education (PGCertEd) or a Postgraduate Diploma in Education (PGDipEd) and have their courses reassigned at the time of withdrawal from the EdD or termination of candidature, provided a candidate has not failed more than 30 points of the coursework component, does not already hold the proposed exit qualification and has not been enrolled in the EdD for more than one year full-time equivalent.

65 a The EdD programme is subject to the Limited Entry Statute.

b Candidates are subject to:

(i) the Examination Regulations, the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute

and

(ii) the provisions of the Enrolment and Programme regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost’s Special Powers.

66 The doctoral policies and procedures cited in these regulations may be reviewed and amended from time-to-time.

67 Candidates are subject to any additional doctoral policies and procedures devised in support of these regulations and amended from time-to-time.

68 These regulations may be reviewed and amended from time-to-time.

69 These regulations came into force on 1 January 2022.

70 For candidates initially enrolled under previous programme regulations, the Board of Graduate Studies (or delegate) may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.
Certificate in Sport, Health and Physical Education – CertSportHPE

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Sport, Health and Physical Education, or a conjoint programme that includes the Bachelor of Sport, Health and Physical Education as a component degree, at this University and
   b passed at least 60 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Sport, Health and Physical Education Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Sport, Health and Physical Education – DipSportHPE

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Sport, Health and Physical Education, or a conjoint programme that includes the Bachelor of Sport, Health and Physical Education as a component degree, at this University and
   b passed at least 120 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Sport, Health and Physical Education Schedule.
4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.
Graduate Diploma in Education – GradDipEd

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is not an initial teacher education qualification.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a Bachelors degree
   or
   (ii) completed the requirements for a university diploma approved by Senate or its representative
   or
   (iii) completed a professional qualification in teaching, counselling, social work or relevant other profession approved by Senate or its representative
   or
   (iv) at least five years’ employment experience deemed relevant to this programme by the Senate or its representative
   and
   b satisfied the Dean of Faculty of Education and Social Work that they have appropriate training and experience to undertake the programme.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of the equivalent of two full-time semesters and pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this graduate diploma, a student must pass:
   either
   a 120 points from courses listed in the Graduate Diploma in Education Schedule, including at least 75 points above Stage II
   or
   b at least 90 points from courses listed in the Graduate Diploma in Education Schedule, including at least 75 points above Stage II

   and
   up to 30 points from other courses available at this University. The approval of all Heads of Departments concerned is required.

4 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal course of study which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2022.

Graduate Diploma in Education (GradDipEd) Schedule

| Requirement: 120 points, including at least 75 points above Stage II | • at least 90 points from EDCURRIC 338, 345–368, 630–632, EDCURRM 321–324, EDCURRPK 322, 353, EDPROFM 321, 322, EDPROFST 220–226, 318–371, 386–390, 700–702, EDUC 341
Graduate Diploma in Teaching (Early Childhood Education) –
GradDipTchg(ECE)

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this graduate diploma, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this graduate diploma.

Admission
1 In order to be admitted to this programme, a student must have:
   a completed the requirements for:
      (i) a degree from a New Zealand university or the equivalent as approved by Senate or its representative
      or
      (ii) a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority
   and
   b demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration and certification.

Notes:
(i) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014.
(ii) Personal references and an interview will be required.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of full-time study in an academic year and pass courses with a total value of 150 points.

3 In exceptional circumstances, part-time enrolment may be permitted with approval of the Programme Leader.

4 The requirements for this graduate diploma must be completed within 24 months of initial enrolment unless, in exceptional circumstances, Senate or its representative extends this period.

Structure and Content
5 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Teaching (Early Childhood Education) Schedule.

6 The programme for each student requires the approval of the Academic Head or nominee prior to enrolment.

7 A student who has previously passed any course the same as, or similar to, the courses required for this graduate diploma must substitute an alternative course(s) approved by the Programme Leader.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practicum Requirements
9 a Where a course has a practicum and (non-practicum) coursework components, a student must pass both components to pass that course as a whole.

   b If a student’s current enrolment in EDPRAC 613 or 614 has ended, but the student has not received a pass in the practicum component of EDPRAC 613 or 614, the student’s enrolment can be extended and the student will be required to pay tuition fees at the rate of 10 points for each two-month period, or part thereof, in order to pass the practicum component for this course.

   c Re-enrolment in EDPRAC 613 or 614 after failing that course requires the permission of the Dean of Faculty of Education and Social Work or nominee.

   d At the discretion of Senate or its representative, a student who does not pass EDPRAC 613 or 614 may be declined permission to continue this graduate diploma.

Language Requirements
10 a Students must pass EDUCM 199 in the first year of enrolment.

   b Students must pass EDUCSW 199 in the first semester of enrolment.
Professional Requirements
11 a In order to complete the requirements for this graduate diploma, a student must be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 11e may appeal that decision to the Provost or the duly appointed delegate.

Suspension or Termination of Enrolment
12 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 12a may appeal that decision to the Provost or the duly appointed delegate.

Reassignment
13 A student may apply to reassign courses passed for this graduate diploma to the Graduate Diploma in Education.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

Graduate Diploma in Teaching English in Schools to Speakers of Other Languages – GradDipTESSOL

New admissions into the Graduate Diploma in Teaching English in Schools to Speakers of Other Languages were suspended in 2020. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:

a (i) completed the requirements for a Bachelors degree
    or
    (ii) completed the requirements for a university diploma approved by Senate or its representative
    or
    (iii) completed a professional qualification in teaching or relevant other profession approved by Senate or its representative

    and
b not less than two years’ relevant professional experience and be currently teaching in a New Zealand early childhood, primary or secondary setting
and
c satisfied the Dean of Faculty of Education and Social Work that they have appropriate training and experience to undertake the programme.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of the equivalent of two full-time semesters and pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this graduate diploma, a student must pass:
either
a 120 points from the courses listed in the Graduate Diploma in Teaching English in Schools to Speakers of Other Languages Schedule, including at least 75 points above Stage II
or
b at least 105 points from courses listed in the Graduate Diploma in Teaching English in Schools to Speakers of Other Languages Schedule, including at least 75 points above Stage II
and
up to 15 points from other courses available at this University. The approval of all Heads of Departments concerned is required.

4 The programme for each student requires the approval of the Programme Coordinator prior to enrolment.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal course of study which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Diploma in Teaching (Primary) – GradDipTchg(Primary)

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this graduate diploma, students are required to be in various teaching environments which will bring them into contact with children. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this graduate diploma.

Admission
1 In order to be admitted to this programme, a student must have:
   a completed the requirements for:
      (i) a degree from a New Zealand university or the equivalent as approved by Senate or its representative
      or
      (ii) a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority
   and
   b demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration and certification.

Notes:
(i) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014.
(ii) Personal references and an interview will be required.

(iii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of full-time study in an academic year and pass courses with a total value of 150 points.

3 In exceptional circumstances, part-time enrolment may be permitted with approval of the Programme Leader.

4 The requirements for this graduate diploma must be completed within 24 months of initial enrolment unless, in exceptional circumstances, Senate or its representative extends this period.

Structure and Content
5 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Teaching (Primary) Schedule.

6 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

7 A student who has previously passed any course the same as, or similar to, those courses required for this graduate diploma must substitute an alternative course(s) approved by the Programme Leader.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practicum Requirements
9 a Where a course has a practicum and (non-practicum) coursework components, a student must pass both components to pass that course as a whole.

b If a student’s current enrolment in EDPRAC 615 or 616 has ended, but the student has not received a pass in the practicum component of EDPRAC 615 or 616, the student’s enrolment can be extended and the student will be required to pay tuition fees at the rate of 10 points for each two-month period, or part thereof, in order to pass the practicum component for this course.

c Re-enrolment in EDPRAC 615 or 616 after failing that course requires the permission of the Dean of Faculty of Education and Social Work or nominee.

d At the discretion of Senate or its representative, a student who does not pass EDPRAC 615 or 616 may be declined permission to continue this graduate diploma.

Language Requirements
10 a Students must pass EDUCM 199 in the first year of enrolment.

b Students must pass EDUCSW 199 in the first semester of enrolment.

Professional Requirements
11 a In order to complete the requirements for this graduate diploma, a student must be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 11e may appeal that decision to the Provost or the duly appointed delegate.

Suspension or Termination of Enrolment
12 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.
b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 12a may appeal that decision to the Provost or the duly appointed delegate.

Reassignment
13 A student may apply to reassign courses passed for this graduate diploma to the Graduate Diploma in Education.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

Graduate Diploma in Teaching (Secondary) – GradDipTchg(Sec)

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this graduate diploma, students are required to be in various teaching environments which will bring them into contact with young persons. Only persons able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this graduate diploma.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for:
      (i) a degree from a New Zealand university or the equivalent as approved by Senate or its representative or
      (ii) a qualification recognised as equivalent by the Teaching Council of Aotearoa New Zealand and New Zealand Qualifications Authority
      and
   b demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional registration and certification.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Education and Social Work.
(ii) Applicants will be required to consent to disclosure of criminal convictions and safety checks required by the Children’s Act 2014.
(iii) Personal references and an interview will be required.

Duration and Total Points Value
2 A student enrolled for this graduate diploma must follow a programme of full-time study in an academic year and pass courses with a total value of 150 points.

3 In exceptional circumstances, part-time enrolment may be permitted with approval of the Programme Leader.

4 The requirements for this graduate diploma must be completed within 24 months of initial enrolment unless, in exceptional circumstances, Senate or its representative extends this period.

Structure and Content
5 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Teaching (Secondary) Schedule.

6 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

7 A student who has previously passed any course the same as, or similar to, the courses required for this graduate diploma must substitute an alternative course(s) approved by the Programme Leader.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practicum Requirements
9 a In any course that has a practicum and non-practicum component, a student must pass both the practicum and non-practicum component in order to have passed that course as a whole.

b Where a weakness occurs in the practicum component of EDPRAC 612, students will be required to enrol in an extension course and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This provision will only apply when the student’s current enrolment in EDPRAC 612 has ended.

c Re-enrolment in EDPRAC 612 after failing that course requires the permission of the Dean of Faculty of Education and Social Work or nominee.

d At the discretion of Senate or its representative, a student who does not pass EDPRAC 612 may be declined permission to be readmitted to this graduate diploma.

Language Requirements
10 a Students must pass EDUCM 199 in the first year of enrolment.

b Students must pass EDUCSW 199 in the first semester of enrolment.

Professional Requirements
11 a In order to complete the requirements for this graduate diploma, a student must be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand.

b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand must immediately notify the Dean of Faculty.

c If the Dean of Faculty has reason to believe that a student does not meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the student and take into account any written response from the student.

d If the Dean of Faculty is satisfied that the student is not able to meet the criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or its representative.

e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any application to re-enrol may likewise be declined.

f A student whose enrolment is terminated under Regulation 11e may appeal that decision to the Provost or the duly appointed delegate.

Suspension or Termination of Enrolment
12 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 12a may appeal that decision to the Provost or the duly appointed delegate.

Reassignment
13 A student may apply to reassign courses passed for this graduate diploma to the Graduate Diploma in Education.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

Graduate Diploma in Teaching (Secondary) (GradDipTchg(Sec)) Schedule

Postgraduate Diploma in Counselling Theory – PGDipCounsTh

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for a Bachelors degree in education, counselling, nursing, social work or another profession from this University or an equivalent qualification approved by Senate or its representative
   and
b at least three years practical experience in teaching, counselling, nursing, social work or an equivalent profession as approved by Senate or its representative
and

c an interview supported by referees’ statements and evidence of practical experience is required.

Note: Agencies where counsellors in training are placed wish to ensure that client safety is not compromised. For this reason, the application form for the Counselling programme asks applicants to indicate whether they have any criminal convictions. Before any candidate can be accepted into the degree, an official police statement concerning absence or otherwise of criminal convictions will be required.

2 No student on whom the Postgraduate Diploma in Education – Counselling specialisation has already been conferred by the University of Auckland may enrol for this postgraduate diploma unless specific approval is given by Senate or its representative.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 120 points from the Postgraduate Diploma in Counselling Theory Schedule.

6 The programme for each student must be approved by the Dean of Faculty of Education and Social Work prior to enrolment.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Termination of Enrolment
8 a If the behaviour of a student in a learning or practice environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any practice placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 8a may appeal that decision to the Provost or the duly appointed delegate.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

Prerequisite: Prior approval from the Dean of Faculty of Education and Social Work

**Postgraduate Diploma in Educational Leadership – PGDipEdLd**

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this programme, a student needs to:
   a have completed the requirements for a Bachelor’s degree from this University or an equivalent degree as approved by Senate or its representative
   and
   b (i) hold a professional qualification in teaching, or other profession approved by Senate or its representative
   and
   (ii) have at least three years practical experience in teaching or in a related profession, including experience in a formal or informal leadership and/or management role.

2 Any student who has completed the requirements for the Degree of Master of Education in Educational Administration, the Postgraduate Diploma in Educational Management or the Degree of Master of Educational Management at the University of Auckland may not be admitted to this postgraduate diploma.

**Duration and Total Points Value**

3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

**Structure and Content**

5 A student enrolled for this postgraduate diploma must pass 120 points in courses as listed in the Postgraduate Diploma in Educational Leadership Schedule.

6 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

Postgraduate Diploma in Educational Leadership (PGDipEdLd) Schedule

| Requirement:                                                                 |                                                                 |
|                                                                             | 60 points from EDCURRIC 721, 722, 740, EDPROF 704, 709, 724,    |
|                                                                             | EDPROFST 716, 739, 740, 751, 755, 762, 769, 774, 782, EDUC 732,   |
|                                                                             | or other 700 level courses approved by the Programme Head        |
| • 30 points: EDPROFST 738                                                   |                                                                 |
| • 30 points from EDPRAC 751, EDPROFST 757, EDUC 735, 787                |                                                                 |

Postgraduate Diploma in Higher Education – PGDipHigherEd

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a been enrolled in the Degree of Master of Higher Education
   and
   b passed at least 30 points for that degree
   and
   c been recommended for admission by the Programme Director.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
3 The total enrolment for this postgraduate diploma must not exceed 160 points.
4 The requirements for this postgraduate diploma must be completed on a part-time basis.

Structure and Content
5 A student enrolled for this postgraduate diploma must complete the requirement as listed in the Postgraduate Diploma in Higher Education Schedule.
6 A student may substitute an approved research methods course for HIGHED 704 with the approval of the Programme Director.
7 The programme for each student must be approved by the Dean of Faculty of Education and Social Work prior to enrolment.
8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
10 In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2019.
Postgraduate Diploma in Higher Education (PGDipHigherEd) Schedule

Requirement:
• 120 points: HIGHED 701, 702, 703, 704

Postgraduate Diploma in Professional Supervision – PGDipProfSup

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to:
   a have completed the requirements for a Bachelors degree approved by Senate or its representative
   and
   b be currently employed in health, counselling, social or human services or other appropriate professional context
   and
   c have at least three years relevant professional experience.
2 A student who has completed the requirements for the Postgraduate Certificate in Professional Supervision, or its equivalent, may on the recommendation of the relevant Head of Programme, and with the approval of Senate or its representative, credit to this Postgraduate Diploma in Professional Supervision, the courses passed for the Postgraduate Certificate in Professional Supervision.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass:
   a at least 120 points from courses listed in the Postgraduate Diploma in Professional Supervision Schedule
   or
   b (i) at least 90 points from courses listed in the Postgraduate Diploma in Professional Supervision Schedule and
      (ii) up to 30 points from other postgraduate courses as approved by Senate or its representative.
6 The programme for each student requires the approval of Senate or its representative.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

Postgraduate Diploma in Professional Supervision (PGDipProfSup) Schedule

Requirement:
• 60 points: PROFSUPV 700, 701
• 60 points from PROFSUPV 707, 710–718
Postgraduate Diploma in Social Work – PGDipSW

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for the Degree of Bachelor of Social Work from this University with a Grade Point Average of 3.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 A student enrolled for this postgraduate diploma must pass 120 points in courses as listed in the Postgraduate Diploma in Social Work Schedule.

5 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior to enrolment.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
7 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2022.

Postgraduate Diploma in Teaching (Secondary Field-based) – PGDipTchg(SecFB)

New admissions to the Postgraduate Diploma in Teaching (Secondary Field-Based) were suspended in 2017. Students who have a current enrolment in this qualification should contact their faculty for advice regarding completion.

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

In order to satisfy the requirements of this postgraduate diploma, students are required to be in various teaching environments which will bring them into contact with young persons. Only persons who have demonstrated the potential to meet the criteria for professional registration of the Teaching Council of Aotearoa New Zealand will be permitted to enrol in this postgraduate diploma.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for:
      (i) a Bachelors degree from a New Zealand university with at least a B average
   or
      (ii) a relevant professional qualification approved by the Academic Head.

Note: A student wishing to enrol in a thesis or research portfolio for the Master of Social Work following the award of this postgraduate qualification should note that SOCWORK 718 Applied Research in Social Services (or an equivalent 30 points in a research methods course approved by the Academic Head) is a prerequisite for enrolment.

Postgraduate Diploma in Social Work (PGDipSW) Schedule

<table>

</tr>
</thead>
<tbody>
<tr>
<td>• 120 points from EDPROFST 743, 744, EDUC 731, 737, 767, PROFSUPV 700, 701, 710, 712, 714–716, 718, SOCCHFAM 700, 731, 734–736, SOCHLTH 700, 732, 756, 757, SOCWORK 700, 702, 713, 718, 719, 757, 758, 759, SOCYOUTH 736</td>
</tr>
</tbody>
</table>

Note: A student wishing to enrol in a thesis or research portfolio for the Master of Social Work following the award of this postgraduate qualification should note that SOCWORK 718 Applied Research in Social Services (or an equivalent 30 points in a research methods course approved by the Academic Head) is a prerequisite for enrolment.
(ii) a qualification recognised as equivalent by the New Zealand Qualifications Authority (NZQA)
and
b passed at least 30 points from 300 or 400 level courses in a teaching subject appropriate to the secondary
school curriculum
and
c demonstrated the potential to meet the Teaching Council of Aotearoa New Zealand criteria for provisional
registration. Personal references, an online application and an interview will be required.

Note: The applicant will be required to consent to disclosure of criminal convictions as part of the applications
process consistent with the requirements for professional registration of the Teaching Council of Aotearoa New
Zealand.

2 Admission to this postgraduate diploma is at the discretion of the Senate or its representative.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a follow a programme of the equivalent of two part-time years and pass courses with a total value of 120 points
   and
   b complete within 36 months of initial enrolment unless, in exceptional circumstances, Senate or its
representative extends this period.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 120 points from the courses listed in the Postgraduate
Diploma in Teaching (Secondary Field-based) Schedule.

6 The programme for each student requires the approval of the Dean of Faculty of Education and Social Work prior
to enrolment.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
8 a In any course that has a practicum and non-practicum component, a student must complete both components
in order to have passed that course as a whole.
   b Re-enrolment in any EDPRAC course after failing that course requires the permission of the Dean of Faculty of
Education and Social Work or nominee.
   c At the discretion of Senate or its representative, a student who does not pass an EDPRAC course may be
declined permission to re-enrol for this diploma.

Professional Requirements
9 a In order to meet the requirements for this postgraduate diploma, a student must be able to meet the criteria
for provisional registration of the Teaching Council of Aotearoa New Zealand.
   b A student who ceases to be able to meet the criteria for provisional registration of the Teaching Council of
Aotearoa New Zealand must immediately notify the Dean of Faculty of Education and Social Work.
   c If the Dean of Faculty of Education and Social Work has reason to believe that a student does not meet the
criteria for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall advise the
student and take into account any written response from the student.
   d If the Dean of Faculty of Education and Social Work is satisfied that the student is not able to meet the criteria
for provisional registration of the Teaching Council of Aotearoa New Zealand the Dean shall notify Senate or
its representative.
   e On receipt of such advice, Senate or its representative may terminate the student’s enrolment and any
application to re-enrol may likewise be declined.
   f A student whose enrolment is terminated under Regulation 9e may appeal that decision to the Council or its
duly appointed delegate.

Termination of Enrolment
10 a If the behaviour of a student in a teaching environment is found, after due and fair inquiry, to be offensive,
disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in
the programme may be terminated by the Senate or its representative and any application to re-enrol may
likewise be declined.
b A student who is subject to any such inquiry may be suspended by the Senate or its representative from
lectures, classes and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under 10a may appeal that decision to the Council or its duly
appointed delegate.

Distinction
11 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations –
Postgraduate Diplomas.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2017.

Postgraduate Diploma in Teaching Linguistically Diverse Learners –
PGDipTLDL

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a (i) completed the requirements for the Bachelor of Education (Teaching) from this University or an
equivalent qualification as approved by Senate or its representative
   or
   (ii) completed the requirements for an Advanced Diploma in Teaching as approved by Senate or its
representative
   or
   (iii) completed a professional qualification in teaching or relevant other profession approved by Senate or
its representative
   and
   b at least two years of prior professional experience in a New Zealand early childhood education centre, primary
or secondary school.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met
the above requirement, but who has attained an equivalent qualification and/or professional experience in the
education profession.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply.
Selection criteria are available from the Faculty of Education and Social Work.

Duration and Total Points Value
3 A student enrolled in this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within four years of initial enrolment if enrolled part-time. In exceptional circumstances, full-time
enrolment may be permitted with approval of the Programme Leader and a student must complete within two
years of initial enrolment.

4 The total enrolment for this postgraduate certificate must not exceed 160 points.

Structure and Content
5 A student enrolled in this postgraduate diploma must complete the requirements as listed in the Postgraduate
Diploma in Teaching Linguistically Diverse Learners Schedule.
6 Up to 30 points may be taken from other courses at this University with the approval of the Programme Coordinator.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The requirements for this postgraduate diploma must be completed on a part-time basis.

Reassignment
9 A student may apply to reassign courses passed for the Postgraduate Diploma in Teaching Linguistically Diverse Learners to the Postgraduate Certificate in Teaching Linguistically Diverse Learners.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

REGULATIONS – ENGINEERING

The Degree of Bachelor of Engineering – BE

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Degree Requirements

1 Students who enrol for the degree of Bachelor of Engineering (Honours) may be awarded the degree of Bachelor of Engineering if, having passed all courses and completed all other requirements for a BE(Hons), their performance in the courses is deemed by the Dean of Engineering to be not of Honours standard.

Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.

The Degree of Bachelor of Engineering (Honours) – BE(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 A student must pass 480 points from the Bachelor of Engineering (Honours) Schedule including:
   a 120 points: Part I as listed in the Bachelor of Engineering (Honours) Schedule including 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   and
   b 120 points from each of Parts II, III and IV from one of the specialisations as listed in the Bachelor of Engineering (Honours) Schedule.

3 a Where approved courses are listed in the Bachelor of Engineering (Honours) Schedule, inclusion of these courses for this degree must be approved by the Head of Department or nominee prior to enrolment.
   b Courses approved for Part II and III must normally be at or above Stage II or III, respectively.
   c Courses approved for Part IV must be at 700 level.

4 a A student will not normally be permitted to enrol for Part II unless Part I has been completed, or to enrol for Part III unless Part II has been completed, or to enrol for Part IV unless Part III has been completed.
   b However, a student who has failed to pass one of those Parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.
   c Only in exceptional circumstances will a student be permitted to enrol for Part III unless Part I has been completed, or to enrol for Part IV unless Part II has been completed.

5 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions

6 A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   a completed an undergraduate degree at a tertiary institution
   or
   b commenced study for this degree at a tertiary institution before 1 January 2006
   or
c been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution

or
d been admitted to this degree with credit from another tertiary institution for the entire Part I of this degree.

7 A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses offered at this University.

8 A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees

9 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Practical Requirements

10 a A student enrolled for this degree must carry out satisfactorily such practical work, workshop practice, field trips and laboratory requirements, as prescribed by the Faculty of Engineering.

b A student will not be considered to have completed the requirements for this degree unless Academic Services has received from the Dean of Faculty of Engineering confirmation that the student has complied with the requirements of Regulation 10a.

English Language Requirements

11 a A student enrolled for this degree must demonstrate competence in the English language, in ENGGGEN 199, as prescribed by the Faculty of Engineering.

b A student will not be considered to have completed the requirements for this degree unless Academic Services has received from the Dean of Faculty of Engineering confirmation that the student has complied with the requirements of Regulation 11a.

Honours

12 a Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b A weighted Grade Point Average will be calculated and rounded to one decimal point, according to the following weightings:

<table>
<thead>
<tr>
<th>Part</th>

c The class of Honours is determined by the weighted Grade Point Average as follows:

- 7.0 to 9.0 – First Class Honours
- 5.5 to 6.9 – Second Class Honours First Division
- 4.0 to 5.4 – Second Class Honours Second Division
- 3.9 and below – Third Class Honours

Variations

13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

14 These regulations and/or schedule have been amended with effect from 1 January 2022.

Specialisations available:

**Biomedical Engineering**

**Requirement:**

**Part II**

- BIOMENG 299 or ENGGGEN 299
- 120 points: BIOMENG 221, 241, 261, BIOSCI 107, ENGGGEN 204, ENGSCI 211, 233, MEDSCI 142

**Part III**
• 105 points: BIOMENG 321, 341, ENGGEN 303, ENGSCI 314, 331, MEDSCI 205, 309
• 15 points from CHEM 380, 392, COMPSYS 303, ENGSCI 309, 344, 355, 391, EXERSCI 303, MATHS 362, MECHENG 313, 352, 371, MEDSCI 312, 314, 318 another approved course above Stage II offered at this University

Part IV
• ENGEN 499
• 30 points: BIOMENG 791, ENGGEN 403
• at least 15 points from BIOMENG 771, CHEMMAT 723, 753, 754, 757, COMPSYS 705, ELECTENG 722, 733, ENGSCI 711, 712, 740, 741, 753, 772, MATHS 764, 765, MECHENG 743, MEDSCI 703, 737
• up to 30 points from other approved courses
• 30 points: ENGSCI 700 Research Project

Chemical and Materials Engineering

Requirement:
Part II
• CHEMMAT 299 or ENGGEN 299
• 120 points: CHEMMAT 201–206, ENGGEN 204, ENGSCI 211

Part III
• 105 points: CHEMMAT 301–303, 305, 306, ENGGEN 303, ENGSCI 311
• 15 points from CHEMMAT 304, 720, 723, 725, 754, 755, 757, or other approved courses

Part IV
• ENGEN 499
• 30 points: CHEMMAT 752, ENGGEN 403
• a further 30 points from CHEMMAT 720, 723–725, 753-760, 763 or another approved course
• 30 points: CHEMMAT 750 Design Project
• 30 points: CHEMMAT 751 Research Project

Civil Engineering

Requirement:
Part II
• CIVIL 299 or ENGGEN 299
• 120 points: CIVIL 200, 202, 203, ENGGEN 204, ENVENG 200, ENGSCI 211, STRUCTENG 200, 201

Part III
• 105 points: CIVIL 300, 302, 303, ENGGEN 303, ENGSCI 311, ENVENG 300, STRUCTENG 304
• 15 points from CIVIL 301, 304, 305, ENVENG 331, or another approved course

Part IV
• ENGEN 499
• 60 points: CIVIL 756, 790, 791, ENGGEN 403
• at least 15 points from CIVIL 700, 722, 726, 729, 731, 733, 735, 736, 741, 750, 782, ENVENG 701, 740, 747
• up to 15 points from another approved course
• 30 points: CIVIL 705 Research Project

Computer Systems Engineering

Requirement:
Part II
• COMPSYS 299 or ENGGEN 299
• 105 points: COMPSYS 201, 209, ELECTENG 291, 292, ENGGEN 204, ENGSCI 211, SOFTENG 281
• 15 points from ELECTENG 204, SOFTENG 283, 284

Part III
• 60 points: COMPSYS 301, 305, ENGGEN 303, ENGSCI 313
• at least 30 points from COMPSYS 303, 304, 306
• up to 30 points from COMPSYS 302, ELECTENG 305, 331, 332, SOFTENG 325, 350, 364
• up to 15 points from another approved course

Part IV
• ENGEN 499
• 30 points: COMPSYS 770, ENGGEN 403
• at least 15 points from COMPSYS 701, 723, 726
• at least 15 points from COMPSYS 704, 705, 725

• up to 30 points from COMPSYS 710–715, 721, 722, 727, ELECTENG 704, 706, 722, 726, 732–734, SOFTENG 701, 751, 761
• up to 15 points from another approved course
• 30 points: COMPSYS 700 Research Project

Electrical and Electronic Engineering

Requirement:
Part II
• ELECTENG 299 or ENGGEN 299
• 105 points: COMPSYS 201, ELECTENG 204, 209, 291, ENGGEN 204, ENGSCI 211, SOFTENG 281
• 15 points from ELECTENG 292, SOFTENG 283, 284

Part III
• 60 points: ELECTENG 310, 311, ENGGEN 303, ENGSCI 313
• at least 30 points from ELECTENG 305, 309, 331, 332
• up to 30 points from COMPSYS 302-306, ELECTENG 307, SOFTENG 325, 350, 364, or other approved courses

Part IV
• ENGEN 499
• 30 points: ELECTENG 770, ENGGEN 403
• 60 points from COMPSYS 705, 723–727, ELECTENG 701, 703, 704, 706, 721, 722, 724, 726, 731–736, 738, SOFTENG 753, or other approved courses
• 30 points: ELECTENG 700 Research Project

Engineering Science

Requirement:
Part II
• ENGEN 299 or ENGSCI 299
• 90 points: BIOMENG 221, ENGGEN 204, ENGSCI 211, 233, 255, 263
• 30 points from BIOMENG 241, COMPSCI 225, ENGSCI 205, MECHENG 211, SOFTENG 281, STATS 210, or other approved courses

Part III
• 105 points: ENGGEN 303, ENGSCI 314, 331, 343, 344, 355, 391
• 15 points from BIOMENG 341, ENGSCI 309, or another approved course

Part IV
• ENGEN 499
• 30 points: ENGGEN 403, ENGSCI 773
• at least 30 points from BIOMENG 771, ENGSCI 701, 711, 712, 721, 740–742, 745, 753, 755, 760–763, 768, GEOTHERM 785
• up to 30 points from other approved courses
• 30 points: ENGSCI 700 Research Project

Mechanical Engineering

Requirement:
Part II
• ENGEN 299 or MECHENG 299
• 105 points: ENGGEN 204, ENGSCI 211, MECHENG 211, 222, 235, 236, 242
• 15 points: MECHENG 201 or another approved course

Part III
• 120 points: ENGGEN 303, ENGSCI 311, MECHENG 311, 322, 325, 334, 340, 352

Part IV
• ENGEN 499
• 30 points: ENGGEN 403, MECHENG 731
• 60 points from ENGGEN 705, MECHENG 707, 708, 712, 713, 715, 718, 722, 724, 726, 743, 747, 752, 754 or other approved courses
• 30 points: MECHENG 700 Research Project

Mechatronics Engineering

Requirement:
Part II
• ENGEN 299 or MECHTRON 299
• 105 points: ENGGEN 204, ENGSCI 211, MECHENG 211, 222, 235, 242, 270
• 15 points: MECHENG 201 or another approved course

Part III
• 120 points: ENGGEN 303, ENGSCI 311, MECHENG 306, 313, 322, 325, 370, 371
  Part IV
• ENGGEN 499
• 45 points: ENGGEN 403, MECHENG 705, 706
• 45 points from COMPSYS 726, ENGGEN 705, MECHENG 707–709, 712, 715, 718, 722, 724, 726, 735, 736, 752, 754, or other approved courses
• 30 points: MECHENG 700 Research Project

Software Engineering
Requirement:
Part II
• ENGGEN 299 or SOFTENG 299
• 90 points: COMPSYS 201, ENGGEN 204, ENGSCI 211, SOFTENG 206, 281, 283
• 15 points from ELECTENG 291, SOFTENG 282
• 15 points from ELECTENG 204, 292, SOFTENG 284
Part III
• 60 points: ENGGEN 303, SOFTENG 306, 325, 351
• at least 30 points from SOFTENG 310, 350, 364, 370
• up to 30 points from COMPSYS 367, 373, COMPSYS 303–306, ELECTENG 305, 331, 332, ENGSCI 313, or other approved courses
Part IV
• ENGGEN 499
• 30 points: ENGGEN 403, SOFTENG 770
• at least 30 points from COMPSYS 705, 723, 726, ELECTENG 733, ENGSCI 760, SOFTENG 701, 702, 710, 711, 715, 750–754, 761, 762
• up to 30 points from other approved courses
• 30 points: SOFTENG 700 Research Project

Structural Engineering
Requirement:
Part II
• ENGGEN 299 or STRCTENG 299
• 120 points: CIVIL 200, 202, 203, ENGGEN 204, ENVENG 200, ENGSCI 211, STRCTENG 200, 201
Part III
• 105 points: CIVIL 300, ENGGEN 303, ENGSCI 311, STRCTENG 300-303
• 15 points from CIVIL 301–303, 305, or another approved course
Part IV
• ENGGEN 499
• 75 points: CIVIL 756, 790, ENGGEN 403, STRCTENG 710, 711
• 15 points from CIVIL 700, 722, 726, 729, 731, 733, 735, 736, 741, 750, 782, 791, ENVENG 701, 740, 747, or another approved course
• 30 points: CIVIL 705 Research Project

Engineering Leadership
Stage III course: ENGGEN 388

The Degree of Master of Aerospace Engineering – MAerospaceEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative
   and
   (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   or
   (iii) (a) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
   or
   (iv) (a) a relevant Bachelors degree as approved by the Senate or its representative
   and
   (b) a relevant Postgraduate Diploma from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   b (i) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) a relevant Bachelors degree from this University as approved by the Senate or its representative

2 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative
   and
   (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   or
   (iii) (a) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
   or
   (iv) (a) a relevant Bachelors degree as approved by the Senate or its representative
   and
   (b) a relevant Postgraduate Diploma from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or
   b (i) a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) a relevant Bachelors degree from this University as approved by the Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Aerospace or Postgraduate Diploma in Aerospace Engineering from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Aerospace Engineering Schedule.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 5.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Aerospace Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Aerospace Engineering cannot continue.

9 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project / Thesis
10 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The topic of the research project or thesis must be approved by the Academic Head or nominee prior to enrolment.
   c The research project or thesis is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
11 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Aerospace Engineering
12 A student who has passed courses towards a Postgraduate Certificate in Aerospace Engineering or Postgraduate
Diploma in Aerospace Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment
13 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering or Postgraduate Certificate in Aerospace Engineering or Postgraduate Diploma in Engineering or Postgraduate Diploma in Aerospace Engineering.

Honours
14 This degree may be awarded with Honours in accordance with the General Regulations - Masters Degrees.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
16 These regulations came into force on 1 January 2021.

### Master of Aerospace Engineering (MAerospaceEng) Schedule

A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Research Masters</th>
<th>Taught Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 30 points: AEROSPCE 730, 740</td>
<td>• at least 30 points from AEROSPCE 720, MECHENG 711, 712, 743</td>
</tr>
<tr>
<td>• 90 points: AEROSPCE 792 or 793 Thesis</td>
<td>• up to 15 points from COMPSYS 704, ELECTENG 721, 722, 732, ENGGEN 731–733, GEOG 771, 772, 774, MECHENG 713, 722, 724, 742, 747, OPSMGT 760, 766, PHYSICS 753, SCIENT 701, 702, 704</td>
</tr>
<tr>
<td>• 30 points: AEROSPCE 730, 740</td>

### The Degree of Master of Earthquake Engineering – MEqEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   - either
     - a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
     - or
     - (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative and
     - (b) passed 60 points in the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering from this University relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   - or
     - (iii) (a) a relevant Bachelors degree from this University, as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative and
     - (b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
or

(iv) (a) a relevant Bachelors degree as approved by Senate or its representative

and

(b) the Postgraduate Diploma in Engineering from this University with at least 60 points of courses relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or

b (i) a relevant Bachelors degree from this University as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

or

(ii) (a) a relevant Bachelors degree as approved by Senate or its representative

and

(b) passed 60 points in the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering from this University relevant to the Master of Earthquake Engineering with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded.

Note: Whether a degree is considered relevant will depend on the courses taken in that degree. Degrees in Architecture, Civil Engineering or Science for example, may be considered relevant.

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:

a  pass courses with a total value of 120 points

and

b  complete within the time limit specified in the General Regulations – Masters Degrees

and

c  not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:

a  pass courses with a total value of 180 points

and

b  complete within the time limit specified in the General Regulations – Masters Degrees

and

c  not exceed 220 points for the total enrolment for this degree.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Master of Earthquake Engineering Schedule.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by Senate or its representative.

7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 4.5 or higher in the first 30 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Earthquake Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Earthquake Engineering cannot continue.

9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Project

10 a A thesis or research project, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The topic of the thesis or research project must be approved by the Head of Department prior to enrolment.
c The thesis or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering or Postgraduate Diploma in Engineering

11 A student who has passed courses towards the Postgraduate Certificate in Engineering, Postgraduate Certificate in Earthquake Engineering, or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment

12 A student may apply to reassign courses passed for the Master of Earthquake Engineering to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Earthquake Engineering.

Honours / Distinction / Merit

13 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations

14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

15 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Earthquake Engineering (MEqEng) Schedule

A student who has to complete 120 points must satisfy the following requirements:

| Requirement: |  |
| Research Masters |  |
| • 15 points: CIVIL 720 |  |
| • 15 points from CIVIL 702, 710, 711, 714, 715, 717–719, 724, 725, 727, 741, 742, 744–746, 750 |  |
| • 90 points: CIVIL 793 or 794 Thesis |  |
| Taught Masters |  |
| • 15 points: CIVIL 720 |  |
| • at least 45 points from CIVIL 702, 710, 715, 717, 725, 745, 746, 787–789, but no more than 30 points from CIVIL 787–789 |  |
| • at least 15 points from CIVIL 710, 714, 715, 717–719, 727, 742, 745, 746, 750 |  |
| • at least 15 points from CIVIL 702, 724, 725, 741 |  |
| • up to 60 points from CIVIL 711, 716, 740, 744, DISMGT 703 |  |

With the prior approval of the Head of Department, up to 30 points may be replaced by other appropriate 600 and 700 level courses at this or another University.

A student who has to complete 180 points must satisfy the following requirements:

| Requirement: |  |
| Research Masters |  |
| • 15 points: CIVIL 720 |  |
| • 75 points from CIVIL 702, 710, 711, 714, 715, 717–719, 724, 725, 727, 741, 742, 744–746, 750; with the prior approval of the Head of Department, up to 45 points may be replaced by other relevant 600 and 700 level courses at this or another University |  |
| • 90 points: CIVIL 793 Thesis |  |
| Taught Masters |  |
| • 60 points: CIVIL 713, 714, 720, 727 |  |
| • at least 45 points from CIVIL 702, 710, 715, 717, 725, 745, 746, 787–789, but no more than 30 points from CIVIL 787–789 |  |
| • at least 15 points from CIVIL 710, 715, 717–719, 724, 745, 746, 750 |  |
| • at least 15 points from CIVIL 702, 724, 725, 741 |  |
| • up to 60 points from CIVIL 711, 716, 721, 740, 744, DISMGT 703, ENNGEN 769; with the prior approval of the Head of Department, up to 30 points may be replaced by other appropriate 600 and 700 level courses at this or another University |  |

The Degree of Master of Engineering – ME

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed:

   either

   a (i) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points above Stage III or its equivalent

   or

   (ii) the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative and
(b) the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher or its equivalent

or

(iii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses
and
(b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering

or

(iv) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative
and
(b) the Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher or its equivalent

or

b (i) the requirements for a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher, or its equivalent, in 120 points in the most advanced courses

or

(ii) (a) the requirements for a relevant Bachelors degree, as approved by Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.

2 Students must have completed courses relevant to the specialisation in which they intend to enrol, and passed any prerequisite courses prior to enrolment in this programme.

3 A student wishing to enrol in courses listed in a specialisation in the Master of Engineering Studies Schedule as part of this programme must satisfy any prerequisites specified for that specialisation.

4 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or equivalent professional experience in the engineering profession.

Duration and Total Points Value

5 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

6 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

7 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Engineering Schedule.

8 A student enrolled for this degree who has already passed any course the same or similar to those required for this degree, must substitute an alternative course approved by the appropriate Head of Department.

9 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in at least 30 points of taught courses taken for this degree by the end of the first semester of their enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering cannot continue.

10 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this degree and have completed all taught courses by the end of their second semester of enrolment. If this Grade Point Average is not achieved, enrolment in the Master of Engineering cannot continue.
11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Thesis**

12 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis is to embody the results obtained by the student in an investigation on a topic approved by the Head of Department prior to enrolment.

c The investigation is to be carried out by the student at the University under the direct supervision of a member of the academic staff, provided that:

   (i) laboratory work may be carried out in an approved institution outside the University for such limited period or periods as Senate or its representative may determine

   (ii) field work may be carried out at such places and for such periods as Senate or its representative may determine.

d At the discretion of the Head of Department the candidate may be required to attend an oral examination.

e The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering**

13 A student who has passed courses towards a Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available for a specialisation in this degree and is eligible to be admitted to this programme, may apply to reassign those courses to the Master of Engineering for that specialisation provided that the postgraduate certificate or postgraduate diploma has not been awarded.

**Reassignment**

14 A student may apply to reassign courses passed for this degree to the Master of Engineering Studies, Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering.

**Honours**

15 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

**Variations**

16 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

17 These regulations and/or schedule have been amended with effect from 1 January 2022.

---

**Master of Engineering (ME) Schedule**

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

<table>
<thead>
<tr>
<th>Bioengineering</th>
<th>Electrical and Electronic Engineering</th>

Bioengineering
Requirement: Research Masters
• 60 points from BIOMENG 771, CHEMMAT 753, 754, 757, ELECTENG 722, 733, ENGG 769, ENGSCI 711, 712, 740, 772, MECHENG 743, MEDSCI 703, 737, other relevant 700 level courses offered at this University approved by the Programme Director
• 120 points: BIOENG 796 ME Thesis (Bioengineering)

Chemical and Materials Engineering
Requirement: Research Masters
• at least 60 points from any of the courses, excluding project courses, listed for the Chemical and Materials Engineering or Food Engineering specialisations in the Master of Engineering Studies Schedule
• 120 points: CHEMMAT 796 ME Thesis (Chemical and Materials)

Civil Engineering
Requirement: Research Masters
• at least 60 points from any of the courses, excluding project courses, listed for the Civil Engineering, Construction Management, Geotechnical Engineering, or Transportation Engineering specialisations in the Master of Engineering Studies Schedule
• 120 points: CIVIL 796 ME Thesis (Civil)

Computer Systems Engineering
Requirement: Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Computer Systems Engineering
• 120 points: COMPSYS 796 ME Thesis (Computer Systems)

Electrical and Electronic Engineering
Requirement: Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Electrical and Electronic Engineering
• 120 points: ELECTENG 796 ME Thesis (Electrical and Electronic)

Engineering Science
Requirement: Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Engineering Science
• 120 points: ENGSCI 796 ME Thesis (Engineering Science)

Environmental Engineering
Requirement: Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Environmental Engineering
• 120 points: ENVENG 796 ME Thesis (Environmental)

Mechanical Engineering
Requirement: Research Masters
• at least 60 points from any of the courses, excluding project courses, listed for the Mechanical Engineering or Medical Devices and Technologies specialisations in the Master of Engineering Studies Schedule.
• 120 points: MECHENG 796 ME Thesis (Mechanical)

Mechatronics Engineering
Requirement: Research Masters
• 60 points from any of the courses, excluding project courses, listed for the Mechatronics Engineering, Mechanical Engineering, Computer Systems Engineering or Electrical and Electronic Engineering specialisations in the Master of Engineering Studies Schedule
• 120 points: MECHTRON 796 ME Thesis (Mechatronics)

Software Engineering
Requirement: Research Masters
• at least 60 points from courses, excluding project courses, listed in the Master of Engineering Studies Schedule for the specialisation in Software Engineering
• 120 points: SOFTENG 796 ME Thesis (Software Engineering)

The Degree of Master of Engineering Management – MEMgt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a completed the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage III
   or
   b completed the requirements for an equivalent degree qualification, as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering
   or
c (i) completed the requirements for a Bachelors degree relevant to the proposed programme of study, as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering
and
(ii) completed at least three years’ relevant work experience approved by the Dean of Faculty of Engineering.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 160 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Management Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project
7 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research project topic must be approved by the Head of Department prior to enrolment.
   c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2020.

---

**Master of Engineering Management (MEMgt) Schedule**

Requirement:
**Taught Masters**
- 15 points: ENGG 736
- at least 30 points from CIVIL 703, 704, 708, 765, ENGG 705, 722–725, 730–733, other approved 600 and 700 level courses offered by the Faculty of Engineering
- at least 30 points from BUSADMIN 761–764, 766, BUSDEV 711–715, 731–734, BUSMAN 701–705, 707, 708
- 30 points: ENGG 792 or 794 Research Project

---

**The Degree of Master of Engineering Project Management – MEPM**

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this degree, a student must have completed the requirements for:
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

   or
(ii) a relevant Bachelors Honours degree from this University with a Grade Point Average of 4.0 or higher, or
the equivalent as approved by Senate or its representative

or

(iii) a relevant Postgraduate Diploma with a Grade Point Average of 4.0 from this University, or the equivalent
as approved by Senate or its representative

or

(iv) (a) a relevant Bachelors Honours degree from this University, or the equivalent as approved by Senate
or its representative

and

(b) the Postgraduate Certificate in Engineering Project Management from this University with a Grade
Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded

or

(b) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points
above Stage II, or the equivalent as approved by Senate or its representative

or

(ii) (a) a relevant Bachelors degree from this University, or the equivalent as approved by Senate or its
representative

and

(b) the Postgraduate Certificate in Engineering Project Management from this University with a Grade
Point Average of 4.0 or higher, provided that the postgraduate certificate has not been awarded.

2 All applicants must have at least two years of relevant professional experience approved by the Dean of Faculty
of Engineering.

3 In exceptional circumstances Senate or its representative may approve admission of a student who has:
   a attained extensive, practical, professional or scholarly experience in the engineering profession deemed
equivalent to the requirement in Regulations 1 and 2

and

b performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or
its representative.

Notes:

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection
criteria are available from the Faculty of Engineering.

(ii) A relevant qualification may be in applied science, architecture, commerce, construction, engineering,
information technology, science or technology.

Duration and Total Points Value

4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations - Masters Degrees

and

c not exceed 160 points for the total enrolment for this degree.

A student admitted to this degree under Regulation 1b or 3 must:

a pass courses with a total value of 180 points

and

b complete within the time limit specified in the General Regulations - Masters Degrees

and

c not exceed 220 points for the total enrolment for this degree.

Structure and Content

6 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Project
Management Schedule, which may include the requirements for the specialisation listed.

7 Students must achieve a Grade Point Average of 4.0 or higher in the first 30 points of taught courses taken for this
degree. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Project Management
cannot continue.

A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60
points of taught courses taken for this degree. If this is not achieved, enrolment in the Master of Engineering
Project Management cannot continue.

9 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and
Programme Regulations, Academic Integrity, of the University Calendar.
Transfer from Postgraduate Certificate in Engineering Project Management
10 A student who has passed courses towards the Postgraduate Certificate in Engineering Project Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Research Project
11 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research project topic must be approved by the Head of Department prior to enrolment.
   c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
12 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering Project Management.

Honours
13 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Engineering Project Management (MEPM) Schedule

A student who has to complete 120 points must satisfy one of the following requirements:

<table>

The Degree of Master of Engineering Studies – MEngSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed:

   either
   a (i)  the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher in 120 points above Stage III or its equivalent
   or
   (ii)   (a)  the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or an equivalent degree qualification as approved by Senate or its representative and
   (b)    passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering Studies with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
   or
   (iii)  (a)  the requirements for a relevant Bachelors degree, as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent, in 120 points in the most advanced courses and
   (b)    at least three years of relevant work experience approved by the Dean of Faculty of Engineering
   or
   (iv)   (a)  the requirements for a relevant Bachelors degree as approved by Senate or its representative and
   (b)    the Postgraduate Diploma in Engineering from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent
   or
   (v)    a Bachelors degree of at least four years duration equivalent to 1a(iv) with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b (i)   the requirements for a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 4.0 or higher, or its equivalent, in 120 points in the most advanced courses
   or
   (ii)   (a)  the requirements for a relevant Bachelors degree, as approved by Senate or its representative and
   (b)    passed 60 points in the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering from this University relevant to the intended specialisation in the Master of Engineering Studies with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Note: Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.

2 For entry to a specialisation in this programme, students must have completed courses relevant to the specialisation, passed any prerequisite courses prior to enrolment in this programme and satisfied any prerequisites specified for the specialisation in the Master of Engineering Studies Schedule.

3 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or professional experience in the engineering profession.

   Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value

4 A student admitted to this degree under Regulation 1a must:
   a    pass courses with a total value of 120 points
   and
   b    complete within the time limit specified in the General Regulations – Masters Degrees
c not exceed 160 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Studies Schedule.

7 If these requirements include courses the same as, or similar to, those already passed by a student, alternative courses must be substituted as approved by the appropriate Head of Department.

8 This degree will be conferred with an endorsement as to the chosen area of specialisation.

9 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 3.5 or higher in the first 30 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Studies cannot continue.

10 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Studies cannot continue.

11 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation / Research Portfolio / Research Project
12 a The dissertation, research portfolio or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

    b The dissertation or research project topic and the elements of the research portfolio must be approved by the Head of Department prior to enrolment.

    c At the discretion of the Head of Department, the dissertation, research portfolio or research project candidate may be required to attend an oral examination.

    d The dissertation, research portfolio or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Light Metals Reduction Technology
13 A student who has passed courses towards a Postgraduate Certificate in Light Metals Reduction Technology that are available for the Light Metals Reduction Technology specialisation may reassign those courses to this specialisation in this degree provided that the Postgraduate Certificate in Light Metals Reduction Technology has not been awarded.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
14 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available for a specialisation in this degree may apply to reassign those courses to this specialisation provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment
15 A student may apply to reassign courses passed to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering.

Honours / Distinction / Merit
16 This degree may be awarded with either Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.

Variations
17 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
18 These regulations and/or schedule have been amended with effect from 1 January 2022.
### Master of Engineering Studies (MEngSt) Schedule

A student who has to complete 120 points must satisfy the requirement for one of the following specialisations:

#### Chemical and Materials Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from CHEMMAT 713, 721, 724, 752–755, 758, 771–773, 787–789, 795, MECHENG 742, but no more than 45 points from CHEMMAT 787–789, 795
  - up to 75 points from CHEMMAT 712, 720, 722, 723, 756, 757, 759–762, ENERGY 721, ENNGEN 732, 769, ENVSCI 711, FOODSCI 703, MECHENG 743
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Civil Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from CIVIL 702, 704, 707–710, 717, 723–725, 740, 745, 764–766, 769–771, 787–789, 792, 795, but no more than 45 points from CIVIL 787–789, 795
  - up to 75 points from CIVIL 701, 703, 706, 711, 713–716, 718–722, 726, 727, 730–734, 737, 741, 742, 744, 750, 754, 758–763, 767, 773–775, 782, 783, 791, ENNGEN 734, 769, ENVENG 760
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Computer Systems Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from COMPSYS 701, 704, 705, 726–729, 787–789, 795, ELECTENG 704, 706, 734, SOFTENG 701, 751, but no more than 45 points from COMPSYS 787–789, 795
  - up to 75 points from COMPSYS 710, 711, 713–715, 721–725, 730–732, ELECTENG 722, 726, 732, 733, SOFTENG 761
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Construction Management

**Requirement:**
- **Taught Masters**
  - at least 45 points from CIVIL 704, 707, 709, 765, 787–789, 795, but no more than 45 points from CIVIL 787–789, 795
  - up to 75 points from CIVIL 703, 708, 716, 738, 743, 791, 792, ENNGEN 734, ENNGSCI 755, other approved 600 and 700 level courses offered at this University

#### Electrical and Electronic Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from COMPSYS 726, 727, ELECTENG 704, 706, 734, 737–741, 787–789, 795, but no more than 45 points from ELECTENG 787–789, 795
  - up to 75 points from ELECTENG 701, 703, 721, 722, 724, 726, 731–733, 735, 736
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Engineering Science

**Requirement:**
- **Taught Masters**
  - 45 points from ENNGSCI 787–789, 795
  - up to 75 points from BIOMENG 771, ENNGSCI 705, 706, 711, 712, 721, 740–742, 745, 746, 753, 760–763, 765, 768, 772, GEOTHERM 785
  - up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Environmental Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from ENNGSCI 776 or 777 Research Portfolio

#### Food Engineering

**Requirement:**
- **Research Masters**
  - 90 points: CHEMMAT 777, 778
  - 30 points from CHEMMAT 772, 773

#### Geotechnical Engineering

**Prequisite:** CIVIL 324 or 728 or equivalent

**Requirement:**
- **Taught Masters**
  - at least 15 points but no more than 30 points from EARTHSCI 705, 770–772

#### Mechanical Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from MECHENG 711, 714, 719, 728, 742, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
  - up to 75 points from AEROSPCE 720, 730, 740, ENGGEN 705, 769, MECHENG 701, 702, 712, 713, 715, 717, 718, 722, 724, 726, 735, 736, 743, 747, 752, 754
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

#### Mechatronics Engineering

**Requirement:**
- **Taught Masters**
  - at least 45 points from MECHENG 710, 719, 720, 728, 730, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
  - up to 75 points from COMPSYS 704, 705, 723, 726, 730–732, ELECTENG 706, 733, ENNGEN 705, 769, 770, MECHENG 709, 722, 724, 726, 735, 736, 752, 754
  - up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
Medical Devices and Technologies  
New admissions into the MEngSt in Medical Devices and Technologies were suspended in 2021. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Taught Masters

- at least 45 points from COMPSYS 704, 705, 726, 727, SOFTENG 701, 751, 754, 755, 761, 787–789, 795, but no more than 45 points from SOFTENG 787–789, 795
- up to 75 points from COMPSCI 711, 715, 725, 734, SOFTENG 702, 710, 711, 715, 750, 752, 753, 762
- up to 30 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department
Mechanical Engineering

Requirement:
Taught Masters
• at least 45 points from MECHENG 711, 714, 719, 728, 742, 751, 753, 787–789, 795, but no more than 60 points from MECHENG 787–789, 795
• up to 135 points from AEROSPCE 720, 730, 740, ENNGEN 705, 769, MECHENG 701, 702, 712, 713, 715, 717, 718, 722, 724, 726, 735, 736, 743, 747, 752, 754
• up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Mechatronics Engineering

Requirement:
Taught Masters
• at least 45 points from MECHENG 710, 719, 720, 728, 730, 751, 753, 787–789, 795, but no more than 45 points from MECHENG 787–789, 795
• up to 135 points from COMPSYS 704, 705, 723, 726, 730–732, ELECTENG 706, 733, ENNGEN 705, 769, 770, MECHENG 709, 722, 724, 726, 735, 736, 743, 747, 752, 754
• up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Medical Devices and Technologies

New admissions into the MEngSt in Medical Devices and Technologies were suspended in 2021. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

Polymer Engineering

Requirement:
Taught Masters
• at least 45 points from CHEMMAT 758, 772, 773, 778
• 120 points from CHEM 760, CHEMMAT 724, 752, 753, 755–757, 759, 760, 772, 773, 778, ENNGEN 732, 769
• up to 105 points from CIVIL 761–763, 767, 768, 773–775
With the prior approval of the Head of Department, up to 45 points may be replaced by appropriate courses offered at this or another university.

Software Engineering

Requirement:
Taught Masters
• at least 45 points from COMPSYS 704, 705, 726, 727, SOFTENG 701, 751, 754, 755, 761, 787–789, 795, but no more than 60 points from SOFTENG 787–789, 795
• up to 135 points from COMPSYS 711, 715, 725, 734, SOFTENG 702, 710, 711, 750, 752, 753, 762
• up to 45 points from appropriate 600 and 700 level courses offered at this University, subject to approval by the Head of Department

Transportation Engineering

Requirement:
Taught Masters
• at least 45 points from CIVIL 764–766, 769–771, 779, 787–789, but no more than 60 points from CIVIL 779, 787–789
• 30 points from CIVIL 660, 661, 758, 759
• up to 105 points from CIVIL 761–763, 767, 768, 773–775

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this degree, a student must have completed the requirements for:
either

a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

or

(ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative

and

(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Infrastructure Asset Management or Postgraduate Diploma in Infrastructure Asset Management from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded or
(iii) (a) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
and
(b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering

or
(iv) (a) a relevant Bachelors degree as approved by the Senate or its representative
and
(b) a relevant Postgraduate Diploma from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

or
b (i) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or
(ii) (a) a relevant Bachelors degree from this University as approved by the Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Infrastructure Asset Management or Postgraduate Diploma in Infrastructure Asset Management from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Infrastructure Asset Management Schedule, which may include the requirements for one of the specialisations listed.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 4.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Infrastructure Asset Management cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in their first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Infrastructure Asset Management cannot continue.

9 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Research Project / Thesis
10. a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The topic of the research project or thesis must be approved by the Academic Head or nominee prior to enrolment.
   c The research project or thesis is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
11. A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Infrastructure Asset Management or Postgraduate Diploma in Infrastructure Asset Management
12. A student who has passed courses towards a Postgraduate Certificate in Infrastructure Asset Management or Postgraduate Diploma in Infrastructure Asset Management that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment
13. A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering or Postgraduate Certificate in Infrastructure Asset Management or Postgraduate Diploma in Engineering or Postgraduate Diploma in Infrastructure Asset Management.

Distinction / Honours / Merit
14. This degree may be awarded with either Honours, Distinction, or Merit in accordance with the General Regulations - Masters Degrees.

Variations
15. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
16. These regulations came into force on 1 January 2022.

**Master of Infrastructure Asset Management (MInfraAssetMgt) Schedule**

A student who has to complete 120 points must satisfy one of the following requirements:

<table>
<thead>

• at least 15 points from ENVMGT 741, GEOG 712, 714, GLMI 705, 706, 708, LAWENVIR 723, LAWPUBL 745, 747, 749, POPLHLTH 717, 725, 726, 760, STAT 707, 721, 727, URBPLAN 701, 703

or
• 30 points: ENNGEN 792 or 794 Research Project

The Degree of Master of Materials Engineering – MMaterialsEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative and
   (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Materials Engineering or Postgraduate Diploma in Materials Engineering from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
(iii) (a) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
and
(b) at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
or
(iv) (a) a relevant Bachelors degree as approved by the Senate or its representative
and
(b) a relevant Postgraduate Diploma from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
or
b (i) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
or
(ii) (a) a relevant Bachelors degree from this University as approved by the Senate or its representative
and
(b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Materials Engineering or Postgraduate Diploma in Materials Engineering from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

2 In exceptional circumstances Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Materials Engineering Schedule, which may include the requirements for one of the specialisations listed.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 4.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Materials Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in their first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Materials Engineering cannot continue.

9 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Research Portfolio / Research Project
10 a The research portfolio or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The topic of the research portfolio or research project must be approved by the Academic Head or nominee prior to enrolment.

c The research portfolio or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
11 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Materials Engineering or Postgraduate Diploma in Materials Engineering
12 A student who has passed courses towards a Postgraduate Certificate in Materials Engineering or Postgraduate Diploma in Materials Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment
13 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering or Postgraduate Certificate in Materials Engineering or Postgraduate Diploma in Engineering or Postgraduate Diploma in Materials Engineering.

Honours
14 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
16 These regulations came into force on 1 January 2022.

---

The Degree of Master of Medical Engineering – MMedicalEng

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1. In order to be admitted to this degree, a student must have completed the requirements for:

   either

   a. (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

   or

   (ii) (a) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative

   and

   (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Medical Engineering or Postgraduate Diploma in Medical Engineering from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded
(iii) (a) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative and (b) at least three years of relevant professional experience approved by the Academic Head or nominee in the Faculty of Engineering

or

(iv) (a) a relevant Bachelors degree as approved by Senate or its representative and (b) a relevant Postgraduate Diploma from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

or

b (i) a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or

(ii) (a) a relevant Bachelors degree as approved by Senate or its representative and (b) passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Medical Engineering or Postgraduate Diploma in Medical Engineering from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Master of Medical Engineering Schedule.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Medical Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Medical Engineering cannot continue.

9 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation or Research Project

10 a The dissertation or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
b. The topic of the dissertation or research project must be approved by the Academic Head or nominee prior to enrolment.

c. The dissertation or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
11 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Medical Engineering or Postgraduate Diploma in Medical Engineering
12 A student who has passed courses towards the Postgraduate Certificate in Medical Engineering or Postgraduate Diploma in Medical Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment
13 A student may apply to reassign courses passed to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Engineering or Postgraduate Diploma in Medical Engineering.

Honours
14 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
16 These regulations came into force on 1 January 2022.

Master of Medical Engineering (MMedicalEng) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

<table>
<thead>
<tr>
<th>Biomechanical Engineering</th>
<th>Medical Devices and Technologies</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Requirement:</strong> Taught Masters</td>
<td><strong>Requirement:</strong> Taught Masters</td>

The Degree of Master of Robotics and Automation Engineering – MRobotEng

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have completed the requirements for:
   
   either

   a (i)  the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

   or

   (ii)  (a)  the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University, or the equivalent as approved by Senate or its representative

   and

   (b)  passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Robotics and Automation or Postgraduate Diploma in Robotics and Automation from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded

   or

   (iii)  (a)  a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

   and

   (b)  at least three years of relevant professional experience approved by the Dean of Faculty of Engineering

   or

   (iv)  (a)  a relevant Bachelors degree as approved by Senate or its representative

   and

   (b)  a relevant Postgraduate Diploma in a relevant subject from this University with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative

   or

   b (i)  a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

   or

   (ii)  (a)  a relevant Bachelors degree as approved by Senate or its representative

   and

   (b)  passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Robotics and Automation or Postgraduate Diploma in Robotics and Automation from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate certificate or postgraduate diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

(ii) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   
   a  pass courses with a total value of 120 points

   and

   b  complete within the time limit specified in the General Regulations – Masters Degrees

   and

   c  not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b or 2 must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Robotics and Automation Engineering Schedule.

6 A student who has previously passed any course the same as, or similar to, the courses required for this degree must substitute an alternative course as approved by the Head of Department or nominee.

7 A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Robotics and Automation Engineering cannot continue.

8 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Robotics and Automation Engineering cannot continue.

9 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project
10 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The topic of the research project must be approved by the Academic Head or nominee prior to enrolment.

c The research project is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
11 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Robotics and Automation Engineering or Postgraduate Diploma in Robotics and Automation Engineering
12 A student who has passed courses towards the Postgraduate Certificate in Robotics and Automation Engineering or Postgraduate Diploma in Robotics and Automation Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Reassignment
13 A student may apply to reassign courses passed to the Postgraduate Diploma in Engineering or Postgraduate Certificate in Robotics and Automation Engineering or Postgraduate Diploma in Robotics and Automation Engineering.

Honours
14 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
16 These regulations came into force on 1 January 2021.

Master of Robotics and Automation Engineering (MRobotEng) Schedule

<table>
<thead>
<tr>
<th>Taught Masters Requirement:</th>

**Graduate Diploma in Engineering – GradDipEng**

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this programme, a student needs to have:
   a. either
      i. completed the requirements for any Bachelors degree approved by Senate or its representative
      or
      ii. received a professional qualification in Engineering approved by Senate or its representative
      or
      iii. attained an equivalent level of practical experience in the engineering profession as approved by Senate or its representative
   or
   b. attained a level of technical competence in Engineering equivalent to at least Parts I and II of the Degree of Bachelor of Engineering (Honours), as may be approved by the Dean of Faculty of Engineering.

**Duration and Total Points Value**

2. A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

**Structure and Content**

3. Of the 120 points required for this graduate diploma, a student must pass:
   a. at least 45 points from courses, excluding Project courses, listed in the Master of Engineering Studies Schedule.
   b. up to 75 points from:
      i. Stage III, IV or 700 level courses as listed in the Bachelor of Engineering (Honours) Schedule, excluding research project courses
      ii. courses listed in the Graduate Diploma in Engineering Schedule
      iii. up to 30 points from courses listed for Parts I and II in the Bachelor of Engineering (Honours) Schedule, with the specific approval of the Dean of Faculty of Engineering.

4. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5. The programme for each student requires the approval of the Dean of Faculty of Engineering.

**Variations**

6. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

7. These regulations and/or schedule have been amended with effect from 1 January 2020.

---

**Graduate Diploma in Engineering (GradDipEng) Schedule**

Courses available:

- ENGG GEN 601, 602, 622, 623

---

**Postgraduate Certificate in Aerospace Engineering – PGCertAerospaceEng**

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this postgraduate certificate, a student must have completed:
either
a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
or
b a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
a pass courses with a total value of 60 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Aerospace Engineering Schedule.
5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course as approved by the Head of Department or nominee.
6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Aerospace Engineering (PGCertAerospaceEng) Schedule

| Requirement: | • 15 points: AEROSPCE 730
| | • at least 30 points from AEROSPCE 720, 740, MECHENG 711, 712, 743
| | • up to 15 points from COMPSYS 704, ELECTENG 721, 722, 732, ENGGEN 731–733, GEOG 771, 772, 774, MECHENG 713, 722, 724, 742, 747, OPSMGT 760, 766, PHYSICS 753, SCIENC 701, 702, 704

Postgraduate Certificate in Earthquake Engineering – PGCertEqEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have completed:
a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject, or an equivalent degree qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points above Stage III or its equivalent
or
b (i) the requirements for a Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
and
(ii) at least three years of relevant work experience approved by the Dean of Faculty of Engineering
or
c a relevant Bachelors degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II.

**Duration and Total Points Value**

2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

**Structure and Content**

4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 15 points: CIVIL 720
   and
   b 45 points from courses listed in the Master of Earthquake Engineering Schedule, excluding CIVIL 793 and 794.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Variations**

6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

7 These regulations have been amended with effect from 1 January 2020.

---

**Postgraduate Certificate in Engineering – PGCertEng**

*The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have completed the requirements for:
    either
    a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
    or
    b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained an equivalent qualification or professional experience in the engineering profession.

*Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.*

**Duration and Total Points Value**

3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

**Structure and Content**

5 Of the 60 points required for this postgraduate certificate, a student must pass:
    either
    a 60 points from courses listed in the Master of Engineering Studies Schedule, excluding dissertation, research portfolio and research project courses, of which at least 30 points must be from courses in one of Biomedical Engineering, Chemical and Materials Engineering, Civil Engineering, Computer Systems Engineering, Electrical and Electronic Engineering, Energy Technology, Engineering General, Engineering Science, Environmental Engineering, Mechanical Engineering, Software Engineering, Structural Engineering, or Sustainable Resource Recovery
    or
    b (i) at least 45 points of courses approved by the Head of Department from one of the specialisations listed
in the Master of Engineering Studies Schedule, excluding dissertation, research portfolio and research project courses, and excluding the Geotechnical Engineering, Medical Devices and Technologies and Polymer Engineering specialisations

and
(ii) up to 15 points of 600 and 700 level courses approved by the Head of Department

or

(c) the requirements for the specialisation as listed in the Postgraduate Certificate in Engineering Schedule.

6 This certificate will be conferred with an endorsement in a specialisation only if the requirements in Regulation 5b or 5c are satisfied.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2021.

Postgraduate Certificate in Engineering (PGCertEng) Schedule

Specialisation available:

Polymers Engineering

Requirement:
• 60 points: POLYM 700, 704–706

Postgraduate Certificate in Engineering Project Management – PGCertEPM

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   and
   b a relevant Bachelor's degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1. Note: A relevant Bachelor's degree may be in applied science, architecture, commerce, construction, engineering, information technology, science or technology.

Duration and Total Points Value
3 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 Of the 60 points required for this postgraduate certificate, a student must pass:
   a (i) 30 points from CIVIL 703, ENGGEN 731, 740
   and
   (ii) 30 points from courses listed in the Master of Engineering Project Management Schedule or other approved courses offered at this University, excluding ENGGEN 792 and 794
   or
   b 60 points: ENGGEN 740, 741.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2021.

Postgraduate Certificate in Geothermal Energy Technology – PGCertGeothermTech

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher over 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b the Degree of Bachelor of Science from this University with a Grade Point Average of 2.5 or higher over 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   c the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) or Bachelor of Science from this University, or the equivalent as approved by Senate or its representative, with at least three years of professional experience in the geothermal industry approved by the Dean of Engineering or nominee.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must pass 60 points from courses listed in the Postgraduate Certificate in Geothermal Energy Technology Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Certificate in Geothermal Energy Technology (PGCertGeothermTech) Schedule

Requirement:
• 45 points: GEOTHERM 601, 602, 689
• 15 points from GEOTHERM 603, 620
Postgraduate Certificate in Infrastructure Asset Management – PGCertInfraAssetMgt

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate certificate, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelor's degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value

2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content

4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Infrastructure Asset Management Schedule.

5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course as approved by the Head of Department or nominee.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

8 These regulations came into force on 1 January 2022.

Postgraduate Certificate in Light Metals Reduction Technology – PGCertLMRTech

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme a student needs to have completed the requirements for an approved Bachelor's degree at a level deemed satisfactory by the Dean of Faculty of Engineering.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not
met the above requirement, but who has attained an equivalent qualification or professional experience in the engineering profession.

Duration and Total Points Value
3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5 A student enrolled for this postgraduate certificate must pass 60 points from courses listed in the Postgraduate Certificate in Light Metals Reduction Technology Schedule.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Postgraduate Certificate in Materials Engineering – PGCertMaterialsEng

*The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete one of the requirements listed in the Postgraduate Certificate in Materials Engineering Schedule, which may include the requirements for one of the specialisations listed.
5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course as approved by the Head of Department or nominee.
6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2022.

Postgraduate Certificate in Medical Engineering – PGCertMedicalEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   either
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Medical Engineering Schedule.

5 A student who has previously passed any course the same as, or similar to, the courses required for this qualification must substitute an alternative course as approved by the Head of Department or nominee.
6 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2022.

Postgraduate Certificate in Robotics and Automation Engineering – PGCertRobotEng

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b the requirements for a relevant Bachelor's degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a at least 15 points from COMPSYS 726, 730
   and
   b at least 15 points from COMPSYS 731, 732, MECHENG 709
   and
   c up to 30 points from courses listed in the Master of Robotics and Automation Engineering Schedule, excluding COMPSYS 792.

5 A student who has previously passed any course the same as, or similar to, the courses required for this qualification must substitute an alternative course as approved by the Head of Department or nominee.

6 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Postgraduate Diploma in Aerospace Engineering – PGDipAerospaceEng

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate diploma, a student must have completed:
   
ed either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value

2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content

4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Aerospace Engineering Schedule.

5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate diploma must substitute an alternative course as approved by the Head of Department or nominee.

6 With the prior approval of the Academic Head or nominee, up to 30 points may be replaced by other relevant 600 and 700 level courses offered at this or another university.

7 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction

8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations

9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commenence

10 These regulations came into force on 1 January 2021.

Postgraduate Diploma in Aerospace Engineering (PGDipAerospaceEng) Schedule

Requirement:
- 15 points: AEROSPCE 730
- at least 30 points from AEROSPCE 720, 740, MECHENG 711, 712, 743
- up to 75 points from COMPSYS 704, ELECTENG 721, 722, 732, ENGEN 731–733, GEOG 771, 772, 774, MECHENG 713, 722, 724, 742, 747, OPSMG 760, 766, PHYSICS 753, SCIENT 701, 702, 704
Postgraduate Diploma in Engineering – PGDipEng

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.
2 Students must have completed any prerequisite courses required for their specialisation prior to admission.
3 In exceptional circumstances, Senate or its representative may approve admission of a student who has not met the requirements in Regulation 1 and 2, but who has attained an equivalent qualification or extensive professional experience in engineering.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree is considered relevant will depend on the courses taken in that degree and the specialisation a student intends to complete. As well as degrees in Engineering, degrees in Architecture, Planning, or Science, for example, may be considered relevant to some specialisations.

Duration and Total Points Value
4 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 Of the 120 points required for this postgraduate diploma, a student must pass:
   a at least 90 points from courses in one of the specialisations listed in the Master of Engineering Studies Schedule, excluding dissertation, research portfolio, research project courses and the Geotechnical Engineering and Medical Devices and Technologies specialisations
   and
   b up to 30 points from other approved 600 or 700 level courses offered at this or another university.
7 Up to 45 points may be replaced by other appropriate approved 600 and 700 level courses offered at this or another university.
8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
9 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations have been amended with effect from 1 January 2021.
Postgraduate Diploma in Infrastructure Asset Management – PGDipInfraAssetMgt

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this postgraduate diploma, a student must have completed:
   - either
     a. the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
     or
     b. a relevant Bachelor's degree from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

(ii) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value

2. A student admitted to this postgraduate diploma must:
   - a. pass courses with a total value of 120 points
   - b. complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3. The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content

4. A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Infrastructure Asset Management Schedule.

5. A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate diploma must substitute an alternative course as approved by the Head of Department or nominee.

6. With the prior approval of the Academic Head or nominee, up to 30 points may be replaced by other relevant 600 and 700 level courses offered at this or another university.

7. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction

8. This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations

9. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

10. These regulations came into force on 1 January 2022.

Postgraduate Diploma in Materials Engineering – PGDipMaterialsEng

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this postgraduate diploma, a student must have completed:
either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this
      University with a Grade Point Average of 2.5 or higher in 120 points above Stage III, or the equivalent as
      approved by Senate or its representative
   or
   b a relevant Bachelors degree from this University with a Grade Point Average of 3.0 or higher in 75 points above
      Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree or subject is considered relevant will depend on the courses passed. Degrees or subjects in applied science, engineering, information technology, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 A student enrolled for this postgraduate diploma must complete one of the requirements listed in the Postgraduate Diploma in Materials Engineering Schedule, which may include the requirements for one of the specialisations listed.
5 A student who has previously passed any course the same as, or similar to, the courses required for this postgraduate diploma must substitute an alternative course as approved by the Head of Department or nominee.
6 With the prior approval of the Academic Head or nominee, up to 30 points may be replaced by other relevant 600 and 700 level courses offered at this or another university.
7 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2022.
Postgraduate Diploma in Medical Engineering – PGDipMedicalEng

Postgraduate Diploma in Robotics and Automation Engineering – PGDipRobotEng

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University in a relevant subject with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b the requirements for a relevant Bachelors degree with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.
(ii) Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, information technology, mechatronics, science, or technology, may be considered relevant.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 30 points: COMPSYS 726, 730
   and
   b 15 points from ENGGEN 730–732
   and
   c 75 points from courses listed in the Master of Robotics and Automation Engineering Schedule, excluding COMPSYS 792.

5 A student who has previously passed any course the same as, or similar to, the courses required for this qualification must substitute an alternative course as approved by the Head of Department or nominee.

6 With the prior approval of the Academic Head or nominee, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

7 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2021.
Regulations – Law

Degrees

370  The Degree of Bachelor of Laws – LLB
371  The Degree of Bachelor of Laws (Honours) – LLB(Hons)
373  The Degree of Master of Laws – LLM
375  The Degree of Master of Legal Studies – MLS
377  The Degree of Master of Taxation Studies – MTaxS

Certificates and Diplomas

379  Graduate Certificate in Law – GradCertLaw
380  Graduate Diploma in Law – GradDipLaw
380  Postgraduate Certificate in Law – PGCertLaw

Interfaculty Programmes – Law

506  The Degree of Bachelor of Global Studies – BGlobalSt
510  The Degree of Master of Disaster Management – MDisMgt
515  The Degree of Master of Global Studies – MGlobalSt
523  The Degree of Master of Professional Studies – MProfStuds
525  Certificate in Global Studies – CertGlobalSt
527  Diploma in Global Studies – DipGlobalSt
528  Postgraduate Certificate in Disaster Management – PGCertDisMgt
534  Postgraduate Diploma in Global Studies – PGDipGlobalSt
The Degree of Bachelor of Laws – LLB

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Law.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 480 points required for this degree, a student must pass:
   a 465 points: Part I, including LAW 121G, and Parts, II, III and IV as listed in the Bachelor of Laws Schedule and
   b 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 a Except as permitted under Regulation 9, a student may not enrol for Part II unless Part I has been completed.
   b Each student must pass Parts II, III and IV in the order set out in the Bachelor of Laws Schedule unless approval to vary the order is given by the Dean of Faculty of Law.

   Note: A student completing Part II will be permitted to commence Part III concurrently, subject to prerequisites and points limits.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions
5 A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   a completed an undergraduate degree at a tertiary institution
   or
   b commenced study for this degree at a tertiary institution before 1 January 2006
   or
   c been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution
   or
   d completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations.

6 A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Written Work and Practical Requirements
7 In order to complete the requirements of LAW 400 or LAW 499 under Regulation 2 above, a student must carry out such legal research assignments and practical application of the law as the Faculty of Law may require.

Conjoint Degrees
8 Special arrangements apply where this degree is taken as a component degree of an approved conjoint degree programme. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Graduate Admission
9 A student who is a graduate or graduand of any university in New Zealand, or who is granted admission ad eundem statum with graduate status under the Admission Regulations, may be granted credit of up to 75 points towards LLB Part I. Such a student will normally be required to pass satisfactorily LAW 121G, 131 and 141 before applying for admission to LLB Part II.
Note:
(i) Admission to Part II will be subject to selection, according to the approved selection criteria.
(ii) In exceptional circumstances the Dean of Faculty of Law may permit a graduate or graduand to be admitted directly to LLB Part II without having passed LAW 121G, 131 and 141, provided that the applicant has demonstrated to the satisfaction of the Dean an aptitude for legal studies, and provided that LAW 121G, 131 and 141 are taken concurrently with the Part II course(s).

Courses from Other Programmes
10 a In place of elective Law courses totalling not more than 45 points for this degree, a student may take courses at Stage II or above offered for other programmes at this University, if they are related to the student’s Law studies and approved by the Dean of Faculty of Law.

b While approval of such courses is normally given before enrolment, the Dean of Faculty of Law may in special cases apply this provision to courses previously passed for another programme. Where the Dean approves such courses, they are to be reassigned from that other programme to this degree.

Research Papers
11 a With the prior approval of the teacher of the course and the Dean of Faculty of Law, a student enrolled for this degree may elect to present a research paper in lieu of an examination in any elective law course.

b This regulation applies also to a student taking any elective Law course or courses for any degree other than this, or for any diploma or for a Certificate or Certificates of Proficiency.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Laws (LLB) Schedule

<tr>
<td></td>
<td>• 15 points from courses listed in the General Education Schedules available for the non-Law degree or the conjoint degree</td>
</tr>
</tbody>
</table>

Notes:
(i) a student enrolling in LLB Part I will, in respect of the courses other than LAW 121G, 131 and 141, be required to enrol in the degree of the University of Auckland for which such courses are prescribed or available.

The Degree of Bachelor of Laws (Honours) – LLB(Hons)
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 a No student on whom the Degree of Bachelor of Laws has already been conferred may enrol for this degree.

b At the discretion of the Dean of Faculty of Law, a student who has completed Parts I and II for the Degree of Bachelor of Laws may be permitted to enrol for this degree.

c Where the Faculty of Law approves enrolment for the Degree of Bachelor of Laws (Honours) the courses previously passed for the Degree of Bachelor of Laws will be reassigned to the Degree of Bachelor of Laws (Honours).

(i) a student who is required to take 15 points from courses in General Education (other than LAW 121G) and who does not take these points in Part I, will need to fulfill this requirement concurrently with Parts II–IV. In this case the points will be additional to the requirements of Parts II–IV.

Part II
• 130 points: LAW 201, 211, 231, 241, 298

Part III
• 65 points: LAW 301, 306, 316

Part IV
• 55 points: LAW 498 or 499
Duration and Total Points Value
2 A student enrolled for this degree must pass courses with a total value of 540 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
3 Of the 540 points required for this degree, a student must pass:
   a 480 points from the Degree of Bachelor of Laws Schedule
   and
   b 60 points from courses listed in the Bachelor of Laws (Honours) Schedule.
4 All the provisions and requirements of the Degree of Bachelor of Laws apply also to a student enrolled for this degree, including the provisions concerning written work and practical requirements, courses in other faculties and research papers, and the General Education requirements.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Conjoint Degrees
6 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination for which the specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Dissertation
7 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.
   b The dissertation topic must be approved by the Dean of Faculty of Law prior to enrolment.
   c A student must enrol for the dissertation in the semester following completion of Part IV of the schedule for the Degree of Bachelor of Laws.
   d The dissertation must be completed and submitted by the last day of lectures in the semester of enrolment.
   e In exceptional circumstances beyond the student’s control, Senate or its representative may approve a limited extension of time, not exceeding two months, for the completion of the dissertation. Where an extension of time is approved, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the course has ended.

Award of Honours
8 This degree will be awarded only where a student’s work throughout the entire programme, inclusive of the courses required for the Degree of Bachelor of Laws, is of a sufficiently high standard, as determined by the Faculty of Law. In assessing the standard of a student’s work in this programme, the courses taught by other faculties that are taken as part of Part I will not be taken into account.

Withdrawal from Honours
9 A student whose work does not satisfy the standard specified in Regulation 8, or who at any time chooses to withdraw from Honours, may transfer from the Degree of Bachelor of Laws (Honours) to the Degree of Bachelor of Laws. In that case the courses already passed for, or credited to, the Degree of Bachelor of Laws (Honours) may be reassigned to the Degree of Bachelor of Laws, except for any dissertation taken under Regulation 3b.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.
The Degree of Master of Laws – LLM

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student must have:
   a (i) completed the requirements for the Degree of Bachelor of Laws or for the Degree of Bachelor of Laws (Honours), or an equivalent qualification in Law as approved by Senate or its representative
   or
   (ii) (a) completed the requirements of a relevant qualification as approved by Senate or its representative and
        (b) been in practice as a barrister or solicitor, in New Zealand or elsewhere, for no less than two years full-time or the equivalent part-time
   and
   b (i) gained a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses taken for the Bachelor of Laws or Bachelor of Laws (Honours) or an equivalent qualification in Law
   or
   (ii) passed, for a Postgraduate Diploma in Legal Studies, at least 60 points in 700 level courses, or in LAW 690 Dissertation and 700 level courses, provided that a Grade Point Average of 5.0 or higher has been achieved in such courses and/or dissertation
   or
   (iii) passed, for a Postgraduate Certificate in Law, at least 60 points in 700 level courses, provided that a Grade Point Average of 5.0 or higher has been achieved in these courses
   or
   (iv) otherwise shown to the satisfaction of Senate or its representative capacity to undertake advanced study and research in the courses proposed to be taken for this degree.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this degree, a student must pass:
   either
   a Research Masters
      (i) LAW 700
      and either
      (ii) 120 point Thesis listed in the Master of Laws Schedule
      or
      (iii) (a) 90 point Thesis
             and
             (b) 30 points from either courses or the Dissertation listed in the Master of Laws Schedule
      or
      (iv) 120 point Research Portfolio listed in the Master of Laws Schedule
      or
      (v) (a) 90 point Research Portfolio
           and
           (b) 30 points from either courses or the Dissertation listed in the Master of Laws Schedule
      or
   b Taught Masters
      (i) LAW 700
      and either
      (ii) 120 points from courses listed in the Master of Laws Schedule
or
(iii) (a) 90 points from courses
and
(b) 30 point Dissertation listed in the Master of Laws Schedule.

5 An exemption from LAW 700 may be granted to a student who has demonstrated to the satisfaction of the Dean of Faculty of Law advanced skills in legal research methodology.

6 With the permission of the Dean of Faculty of Law a student may include up to 30 points from any other 700 level courses in programmes offered at this University provided they are relevant and suitable for inclusion in this degree.

7 Where courses, which may include a Dissertation, Thesis or Research Portfolio on a relevant topic, totalling at least 90 points are passed from one of the areas of specialisation listed in the Master of Laws Schedule, this degree may be conferred with an endorsement as to that area of specialisation.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Transfer from Postgraduate Certificate in Law or Postgraduate Diploma in Legal Studies

9 A student who has passed, for a Postgraduate Certificate in Law or a Postgraduate Diploma in Legal Studies, courses that are available for this degree and is eligible to be admitted to this programme, may reassign those courses to this degree provided the Postgraduate Certificate in Law or the Postgraduate Diploma in Legal Studies have not been awarded.

Note: A student who is not a law graduate will not be eligible to transfer to this degree.

Thesis / Dissertation

10 a The thesis, research portfolio, or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.

b The thesis or dissertation topic or the elements of the research portfolio must be approved by the Dean of Faculty of Law prior to enrolment.

c The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours / Distinction / Merit

11 This degree may be awarded with Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Variations

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

13 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

**The Degree of Master of Legal Studies – MLS**

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1. In order to be admitted to this programme, a student needs to have:
   a. completed the requirements for:
      
      either
      
      (i) a four-year Bachelors degree from this University, or equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative

      or

      (ii) a Bachelors (Honours) degree from this University, or equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage III, or the equivalent as approved by Senate or its representative

      or

      (iii) a Bachelors degree from this University, or equivalent qualification as approved by Senate or its representative

      and

      (b) a postgraduate qualification equivalent to one year’s advanced study, with a Grade Point Average of 5.0 or higher in 60 points, as approved by Senate or its representative

      and

      b. shown to the satisfaction of the Dean of Faculty of Law the capacity to undertake advanced study and research in the courses proposed to be taken for this degree.

   or

   c. (i) the Degree of Bachelor of Commerce in Commercial Law from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative

   or

   (ii) a Bachelors degree from this University, or an equivalent qualification as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative

   and

   d. shown to the satisfaction of the Dean of Faculty of Law the capacity to undertake the courses for this degree.
Duration and Total Points Value

2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
   and
   c not exceed 160 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1c must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Master Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Master of Legal Studies Schedule.

5 The programme for each student requires the approval of the Dean of Faculty of Law.

6 An exemption from LAW 700 may be granted to a student who has demonstrated to the satisfaction of the Dean of Faculty of Law advanced skills in legal research methodology.

7 A student may be permitted to substitute up to 30 points from LAW 760, 790, LAWCOMM 701–790, LAWENVIR 701–785, LAWGENRL 701–785, LAWPUBL 701–785 for LAW 701 where the student has demonstrated to the satisfaction of the Dean of Faculty of Law advanced knowledge of the New Zealand legal system, its sources, structure and method.

8 With the permission of the Dean of Faculty of Law a student may include up to 30 points from any other 700 level courses offered at this University that are relevant and suitable for inclusion in this degree.

9 Where a student passes courses, which may include a Dissertation or Thesis on a relevant topic, totalling at least 90 points from one of the areas of specialisation listed in the Master of Legal Studies Schedule, this degree will be conferred with an endorsement as to that area of specialisation.

10 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation

11 a A thesis or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Dean of Faculty of Law.
   b The thesis or dissertation topic needs the approval of the Dean of Faculty of Law prior to enrolment.
   c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Transfer from Postgraduate Certificate in Law

12 A student who is eligible to be admitted to this degree under Regulation 1 and has passed courses towards a Postgraduate Certificate in Law that are available for this degree may reassign those courses to this degree, provided that the Postgraduate Certificate in Law has not been awarded.

Honours / Distinction / Merit

13 This degree may be awarded with Honours, Distinction or Merit as specified in the General Regulations – Masters Degrees.

Variations

14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

15 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Taxation Studies – MTaxS

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**
1. In order to be admitted to this programme, a student needs to have:
   
   either
   
   a. completed the requirements for one of the following:
   
   (i) the Degree of Bachelor of Commerce (Honours)
   
   or
   
   (ii) the Degree of Bachelor of Laws
or
(iii) the Degree of Bachelor of Laws (Honours)
or (iv) the Postgraduate Diploma in Business in Business Taxation and an undergraduate degree approved by Senate or its representative
or (v) an equivalent qualification approved by Senate or its representative
and
b passed the specified prerequisite courses or such other alternative courses approved by Senate or its representative
and
c achieved a Grade Point Average of 5.0 or higher in their last equivalent full-time year of study
and
d shown to the satisfaction of the Programme Director the capacity to undertake advanced study and research in the courses proposed to be taken for this degree
or
e completed the requirements for one of the following:
(i) the Degree of Bachelor of Commerce
or
(ii) an equivalent qualification approved by Senate or its representative
and
f achieved a Grade Point Average of 5.0 or higher in their last equivalent full-time year of study
and
g shown to the satisfaction of the Programme Director the capacity to undertake the courses for this degree.

2 As a condition of admission, students admitted under Regulation 1a may be required to take LAW 701 for a Certificate of Proficiency.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1e must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points for the total enrolment for this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Taxation Studies Schedule.

6 A student admitted under Regulation 1e may be required to take LAW 701 as part of this degree.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8 a A thesis or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The thesis or dissertation topic must be approved by the relevant Head of Department prior to enrolment.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours / Distinction / Merit
9 This degree may be awarded with Honours, Distinction or Merit in accordance with the General Regulations – Masters Degrees.
Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Graduate Certificate in Law – GradCertLaw

The regulations for this graduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements of:
   either
   a the Degree of Bachelor of Laws
   or
   b the Degree of Bachelor of Laws (Honours)
   or
   c an equivalent qualification in law as approved by Senate or its representative.

Duration and Total Points Value
2 A student enrolled for this graduate certificate must follow a programme equivalent to one full-time semester and pass courses with a total value of 60 points.

Structure and Content
3 Of the 60 points required for this graduate certificate, a student must pass at least 60 points from LAW courses listed for Parts II, III and IV of the Bachelor of Laws Schedule.

4 With the approval of the Dean of Faculty of Law, in lieu of courses required under 3, up to 30 points may be substituted from courses listed in the Master of Laws Schedule. In this case, the Dean may require a student to take LAW 700.

5 With the approval of the Dean of Faculty of Law, a student may take up to 15 points from courses at Stage II or higher in other programmes offered at this University, provided they are relevant and suitable for inclusion in this graduate certificate.

6 The programme for each student requires the approval of the Dean of Faculty of Law.

7 A student admitted to this programme under Regulation 1c may be required to take LAW 131 Legal Method for a Certificate of Proficiency as a condition of enrolment, or to include LAWGENRL 443 or LAW 701.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment From Certificate of Proficiency
9 A student who has passed for a Certificate of Proficiency courses that are available for this graduate certificate, and has enrolled for this programme, may apply to reassign those courses to this graduate certificate in accordance with the Credit Regulations.
Graduate Diploma in Law – GradDipLaw

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this programme, a student needs to have completed the requirements of:

- the Degree of Bachelor of Laws
- the Degree of Bachelor of Laws (Honours)
- an equivalent qualification in law as approved by Senate or its representative.

Duration and Total Points Value

A student enrolled for this graduate diploma must follow a programme equivalent to two full-time semesters and pass courses with a total value of 120 points.

Structure and Content

Of the 120 points required for this graduate diploma, a student must pass at least 120 points from courses listed for Parts II, III and IV of the Bachelor of Laws Schedule, including at least 75 points from Parts III and IV.

With the approval of the Dean of Faculty of Law, in lieu of courses required under 3, up to 30 points may be substituted from courses listed in the Master of Laws Schedule. In this case, the Dean may require a student to take LAW 700.

With the approval of the Dean of Faculty of Law, a student may take up to 30 points from courses at Stage II or higher in other programmes offered at this University, provided they are relevant and suitable for inclusion in this graduate diploma.

The programme for each student requires the approval of the Dean of Faculty of Law.

A student admitted to this programme under Regulation 1c may be required to take LAW 131 Legal Method for a Certificate of Proficiency as a condition of enrolment, or to include LAWGENRL 443 or LAW 701.

A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment From Certificate of Proficiency

A student who has passed for a Certificate of Proficiency courses that are available for this graduate diploma, and has enrolled for this programme, may apply to reassign those courses to this graduate diploma in accordance with the Credit Regulations.

Cross-credits will not be granted toward this graduate diploma.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

These regulations have been amended with effect from 1 January 2019.

Postgraduate Certificate in Law – PGCertLaw

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this programme, a student needs to have:
a completed the requirements for the Degree of Bachelor of Laws or for the Degree of Bachelor of Laws (Honours) at a level that indicates ability to undertake advanced study and research in Law
or
b gained any other qualification, approved by Senate or its representative, that is indicative of ability to undertake advanced study and research in Law.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a LAW 700 and at least 60 points from courses listed in the Master of Laws Schedule, other than LAW 790, 794, 796, 797, 798.
   b In the case of a student admitted under Regulation 1b above, the student’s choice of courses in Regulation 4a is subject to the approval of the Dean of Faculty of Law. As a condition of enrolment the student may be required to take LAW 131 or LAW 701 for a Certificate of Proficiency.
   c The programme for each student requires the approval of the Dean of Faculty of Law prior to enrolment.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations have been amended with effect from 1 January 2019.

The Degree of Bachelor of Health Sciences – BHSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value

1. A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Regulations – Medical and Health Sciences

Structure and Content

2. Of the 360 points required for this degree, a student must pass:
   a. at least 135 points from the Core Courses listed in the Bachelor of Health Sciences Schedule
   b. up to 120 points from the Elective Courses listed in the Bachelor of Health Sciences Schedule
   c. the requirements of a major as specified in the Bachelor of Health Sciences Schedule
   d. (i) 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
      (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
      (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education Exemptions

3. a. A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.

   b. A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

   c. A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
      (i) 15 points from the courses offered in the General Education Schedules
      and
      (ii) a further 15 points from other courses available for this degree.

   d. A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees

4. Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.
Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
6 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Health Sciences (BHSc) Schedule

| Requirement: |
| Core Courses: |
| • 135 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216 |
| Elective Courses: |
| • up to 120 points selected from the following courses, with no more than 45 points from the Stage I courses listed. |

| Stage I courses: |
| • ANTHRO 109, BIOSCI 107, CHEM 110, ECON 151, 152, GENDER 101, GEG 102, MAORI 130, MEDSCI 142, PHIL 104, PSYCH 108, 109, SOCIOL 101, 103, STATS 101 |
| Stage II courses: |
| • POPLHLTH 203, 206–208, 211–215, STATS 201 |
| Stage III courses: |
| • MAORIHTH 301, POPLHLTH 301, 303–307, 310–316, STATS 330 |

Major available:

Population Health
• 30 points: POPLHLTH 300, 302
• at least 15 points from MAORIHTH 301, POPLHLTH 312, 313

The Degree of Bachelor of Medical Imaging – BMedImag
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Degree Requirements
1 Students who enrol for the Degree of Bachelor of Medical Imaging (Honours) may be awarded the Degree of Bachelor of Medical Imaging if, having passed all courses and completed all other requirements for a BMedImag(Hons), their performance in the courses is deemed by the Head of the School of Medical Sciences to be not of Honours standard.

Note: Honours standard will normally imply completion of all courses in the minimum time and with a weighted grade point average exceeding a minimum set by the University.

The Degree of Bachelor of Medicine and Bachelor of Surgery – MBChB
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a either
      (i) completed the requirements for the courses listed in Part I of the MBChB Schedule on a full-time basis, with a Grade Point Average of 6.0 or higher
   or
      (ii) successfully completed, normally in the minimum academic time and no more than five years prior to the date of application, a degree, postgraduate degree or postgraduate diploma from a New Zealand university with a Grade Point Average of 6.0 or higher or equivalent
   or
      (iii) met the requirements of a special entry scheme
   and
   b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as a doctor. This requirement will normally include an interview.

2 a Students selected for admission under Regulation 1a(i) will be admitted to MBChB Part II.
   b Students selected for admission under Regulation 1a(ii) or Regulation 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the schedule to these regulations before proceeding to Part II.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.
Duration and Total Points Value
3 a A student enrolled for this degree must follow a programme of six full-time years and pass courses with a total value of 720 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

b Enrolment for the degree will normally be continuous. In exceptional circumstances Senate or its representative, on the recommendation of the Head of Programme, may grant a period of suspension from enrolment not normally exceeding two consecutive semesters.

c Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4 Of the 720 points required for this degree, a student must pass:

a 705 points from Parts I, II, III, IV, V and VI, as listed in the Bachelor of Medicine and Bachelor of Surgery Schedule.

b (i) 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.

(ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

(iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5 a However, where a student has been granted admission with credit, or in exceptional circumstances which Senate or its representative approves, a student may be directly admitted to Part II, Part III or Part IV.

b Each Part of the programme is to be completed to the satisfaction of Senate or its representative before a student is permitted to enrol for the next Part.

c At the discretion of Senate or its representative, a student who fails any of Parts II-VI may be declined permission to re-enrol in the programme as a whole.

d A student who fails twice to pass the same Part will not be permitted to continue with this degree.

General Education Exemptions
6 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

either

(i) completed an undergraduate degree at a tertiary institution

or

(ii) commenced study for this degree at a tertiary institution before 1 January 2006

or

(iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution

or

(iv) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulation.

b A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
7 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Faculty of Medical and Health Sciences may require.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Fitness to Practise Requirements
9 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.
Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 9c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 9c or their application to re-enrol declined under Regulation 9d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Amendment

10 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Nursing – BNurs

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value

1 A student enrolled for this degree must follow a programme of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content

2 Of the 360 points required for this degree, a student must pass:

a 345 points from the Parts as listed in the Bachelor of Nursing Schedule

and

b 15 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

3 a Each Part must normally be completed before the next Part may be taken. However, a student who has failed to pass Part I in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next successive Part.

b A student who fails twice to pass the same Part will not be permitted to continue with the degree.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions

5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
either
(i) completed an undergraduate degree at a tertiary institution
or
(ii) commenced study for this degree at a tertiary institution before 1 January 2006
or
(iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution
or
(iv) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulation.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from courses approved by the Head of School of Nursing.

c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
6 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Head of School of Nursing may require.

English Language Requirements
7 A student enrolled for this degree must demonstrate competence in the English language, by passing NURSING 199, as prescribed by the School of Nursing, prior to enrolment in NURSING 201.

Fitness to Practise Requirements
8 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 8c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 8c or their application to re-enrol declined under Regulation 8d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Conjoint Degrees
9 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2019.

The Degree of Bachelor of Optometry – BOptom

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree a student must have:
   a (i) completed the requirements for courses listed in Part I of the Bachelor of Optometry Schedule, or an equivalent programme of study deemed appropriate by Senate or its representative, with a Grade Point Average of 5.5 or higher in the courses specified
   or
   (ii) successfully completed, no more than five years prior to the date of application, with at least the equivalent of a Grade Point Average of 5.5 or higher, a degree or postgraduate diploma deemed appropriate by Senate or its representative
   or
   (iii) met the requirements of a special entry scheme
   and
   b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as an optometrist. This requirement will normally include an interview.
2 Students admitted under Regulation 1a(ii) or 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the Bachelor of Optometry Schedule prior to Part II.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
3 a A student admitted to this degree must follow a programme of the equivalent of ten full-time semesters and pass courses with a total value of 600 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.
   b Enrolment must normally be continuous.
   c Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4 Of the 600 points required for this degree, a student must pass:
   a 570 points: Parts I, II, III, IV and V as listed in the Bachelor of Optometry Schedule
   and
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules.
5 A student must complete the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
6 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Program Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
7 In exceptional circumstances up to 120 points of credit as approved by the Head of School may be substituted for Part I or parts thereof.
8 Each Part must normally be completed before the next Part may be taken. However, a student who has failed to pass one of those Parts in its entirety may be allowed, at the discretion of Senate or its representative, to enrol for the course or courses needed to complete that Part together with a course or courses towards the next Part.

General Education Exemptions
9 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
(iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution

or

(iv) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulation.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from other undergraduate courses offered at this University approved by the Head of School of Optometry and Vision Science or nominee.

c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, must pass:

(i) 15 points from the courses offered in the General Education Schedules

and

(ii) a further 15 points from other undergraduate courses offered at this University approved by the Head of School of Optometry and Vision Science or nominee.

d A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Enrolment for Two Programmes

10 A student may not be enrolled in this degree at the same time as in another programme, unless special permission is given by Senate or its representative.

Practical Requirements

11 a A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Faculty of Medical and Health Sciences may require.

b In any course that includes both a final written examination and practical or clinical work, a student must pass both the final written examination and the practical or clinical work to pass that course as a whole. However, a student who passes the practical or clinical work but fails the final written examination may, at the discretion of the Head of School, have the result for the practical or clinical work for that failed course carried forward when the course is repeated.

c A student who repeats any course may also be required to undertake such additional practical or clinical work as the Head of School of Optometry and Vision Science determines.

d Where a weakness occurs in the clinical practice component, in accordance with Examination Regulation 20, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This provision will only apply when the student's current enrolment period has ended.

Fitness to Practise Requirements

12 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 12c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 12c or their application to re-enrol declined under Regulation 11d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Honours

13 a This degree may be awarded with Honours where a student’s overall grade is sufficiently high. There are two classes of Honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.
Honours may normally be awarded only if the requirements for this degree are completed within ten semesters of initial enrolment for the degree. In exceptional circumstances however, Senate or its representative may approve an extension of this period for not more than two further semesters.

Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Bachelor of Pharmacy – BPharm

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for courses listed in Part I of the Bachelor of Pharmacy Schedule, or an equivalent programme of study deemed appropriate by Senate or its representative, with a minimum average grade of B over the courses specified
   or
   (ii) successfully completed, no more than five years prior to the date of application, a minimum of two years of full-time study deemed appropriate by Senate or its representative with a Grade Point Average of 4.0 or higher or equivalent
   or
   (iii) met the requirements of a special entry scheme

   and
   b demonstrated in accordance with approved selection criteria the qualities determined by the Faculty of Medical and Health Sciences as appropriate for a person seeking a qualification as a pharmacist. This requirement will normally include an interview.

   Note: The applicant will also be required to consent to a Police check and a Children’s Act check.

2 Students selected for admission under Regulations 1a(ii) or 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the Bachelor of Pharmacy Schedule before proceeding to Part II.

   Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
3 a A student enrolled for this degree must follow a programme of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admissions Regulations and/or the Credit Regulations.

   b Study for this degree must be pursued in continuous semesters. Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4 Of the 480 points required for this degree, a student must pass:
   a 465 points: Parts I-IV as listed in the Bachelor of Pharmacy Schedule

   and
   b 15 points offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.
5 A student must complete the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 a A student will not normally be permitted to enrol for Part II until Part I is completed, or to enrol for Part III until Part II has been completed, or to enrol for Part IV until Part III has been completed.

b A student who fails a course twice will not be permitted to continue with the degree.

7 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

English Language Requirements
8 A student enrolled for this degree must demonstrate competence in the English language, by passing PHARMACY 199, as prescribed by the School of Pharmacy, before being permitted to enrol for PHARMACY 213.

General Education Exemptions
9 a A student is exempted from the requirement to pass courses offered in the General Education Schedule who has:

   either

   (i) completed an undergraduate degree at a tertiary institution

   or

   (ii) commenced study for this degree at a tertiary institution before 1 January 2006

   or

   (iii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution

   or

   (iv) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulation.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from other courses offered at this University in consultation with the Head of School of Pharmacy.

c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedule is nonetheless required to complete the Academic Integrity course.

Practical Requirements
10 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Head of School of Pharmacy may require.

Fitness to Practise Requirements
11 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 11c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 11c or their application to re-enrol declined under Regulation 11d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Bachelor of Biomedical Science (Honours) – BBiomedSc(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Science with a major in Biomedical Science from this University, or an equivalent qualification as approved by Senate or its representative and
   b passed 90 points in courses above Stage II with a grade point average of 6.5 or higher and
   c the approval of the Head of School of Medical Sciences.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Biomedical Science (Honours) Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
6 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Medical Sciences.
   b The thesis topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
7 A student may apply to reassign courses passed to the Postgraduate Diploma in Biomedical Science.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.
### Amendment

10 These regulations and/or schedule have been amended with effect from 1 January 2022.

### The Degree of Bachelor of Health Sciences (Honours) – BHSc(Hons)

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

### Admission

1 In order to be admitted to this programme, a student needs to have:
   
   a. completed the requirements for the Degree of Bachelor of Health Sciences from this University or an equivalent degree approved by Senate or its representative
   
   and
   
   b. passed 90 points in courses at Stage III in the Bachelor of Health Sciences, or equivalent degree, with an average grade of B or higher
   
   and
   
   c. the approval of the Head of School of Population Health.

*Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.*

### Duration and Total Points Value

2 A student enrolled for this degree must:
   
   a. pass courses with a total value of 120 points
   
   and
   
   b. complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

### Structure and Content

4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Health Sciences (Honours) Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

### Dissertation

6 a. The dissertation is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Population Health.

b. The dissertation topic must be approved by the Head of School of Population Health prior to enrolment.

c. The dissertation must be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

### Reassignment

7 A student may apply to reassign courses passed to the Postgraduate Diploma in Health Sciences.

### Honours

8 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

### Variations

9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Amendment

10 These regulations and/or schedule have been amended with effect from 1 January 2022.
Bachelor of Health Sciences (Honours) (BHSc(Hons)) Schedule

Requirement:
- 30 points: POPLHLTH 758, 767
- 30 points from DIGIHLTH 701, HLTHMGT 729, MAORIHTH 709, 710, POPLHLTH 704, 708, 711, 715, 718–720, 724, 732, 735–738, 752, 765
- 60 points: POPLHLTH 780 Dissertation

The Degree of Bachelor of Medical Imaging (Honours) – BMedImag(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this programme, a student needs to have:
   a. (i) completed the requirements for courses listed in Part I of the Bachelor of Medical Imaging (Honours) Schedule, or an equivalent programme of study deemed appropriate by Senate or its representative, with a Grade Point Average of 5.0 or higher in the courses specified
   or (ii) successfully completed, no more than five years prior to the date of application, with at least the equivalent of a Grade Point Average of 5.0 or higher, a degree or postgraduate diploma deemed appropriate by Senate or its representative
   or (iii) met the requirements of a special entry scheme
   and

2. Students selected for admission under Regulations 1a(ii) or 1a(iii) may be required to successfully complete some or all of the courses listed in Part I in the Bachelor of Medical Imaging (Honours) Schedule before proceeding to Part II.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
3. a. A student enrolled for this degree must follow a programme of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admissions Regulations and/or the Credit Regulations.
   b. Study for this degree must be pursued in continuous semesters. Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
4. Of the 480 points required for this degree, a student must pass:
   a. 465 points: Parts I–IV as listed in the Bachelor of Medical Imaging (Honours) Schedule.
   b. (i) 15 points offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree.
   (ii) A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
   (iii) In order to complete the requirements for General Education students must pass the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

5. a. Each Part of the programme is to be completed to the satisfaction of Senate or its representative before a student is permitted to enrol for the next Part.
   b. A student who fails twice to pass the same Part will not be permitted to continue with the degree.

English Language Requirements
6. A student enrolled for this degree must demonstrate competence in the English language, by passing MEDIMAGE 199, as prescribed by the Head of the School of Medical Sciences, prior to enrolment in Part III.

General Education Exemptions
7. a. A student is exempted from the requirement to pass courses offered in the General Education Schedule who has:
either
(i) completed an undergraduate degree at a tertiary institution
or
(ii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 15 points from other courses offered at this University in consultation with the Head of School of Medical Sciences.

c A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedule is nonetheless required to complete the Academic Integrity course.

Practical Requirements
8 A student enrolled for this degree must carry out satisfactorily such practical or clinical work as the Head of School of Medical Sciences may require.

Honours
9 a Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours is determined by the student’s overall grade in the Part IV courses as follows:
   - 7.0 to 9.0 - First Class Honours
   - 5.5 to 6.9 - Second Class Honours First Division
   - 4.0 to 5.4 - Second Class Honours Second Division
   - 3.9 and below - Third Class Honours

Fitness to Practise Requirements
10 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 10c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 10c or their application to re-enrol declined under Regulation 10d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Bachelor of Medical Science (Honours) – BMedSc(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have:
   a satisfactorily completed at least the first three years of the Degree of Bachelor of Medicine and Bachelor of Surgery from this University, or of an equivalent medical degree approved by Senate or its representative
   and
   b passed the courses for MBChB Part III, or its equivalent as approved by Senate or its representative, with an average of B or higher
   and
   c approval of the Dean of Faculty of Medical and Health Sciences.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Bachelor of Medical Science (Honours) Schedule.

5 Other 700 level courses selected by students must be approved by the Head of School of Medicine prior to enrolment.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the relevant Head of School.

   b The thesis topic must be approved by the relevant Head of School prior to enrolment.

   c Any laboratory work in connection with the thesis must be carried out within the University. However, Senate or its representative may permit a student to carry out the work in an approved institute outside the University for any period or periods considered necessary.

   d The thesis must be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.

Reassignment
8 A student may apply to reassign courses passed to the Postgraduate Diploma in Health Sciences.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

The Degree of Bachelor of Pharmacy (Honours) – BPharm(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations

Admission
1 In order to be admitted to this degree, a student must have:
   a completed Parts I, II, and III of the Degree of Bachelor of Pharmacy from this University with a Grade Point Average of 5.5 or higher
   and
   b performed satisfactorily in the selection interview.
2 Where admission is granted by the Faculty of Medical and Health Sciences to this degree courses previously passed for the Degree of Bachelor of Pharmacy will be reassigned to the Degree of Bachelor of Pharmacy (Honours).
3 Students who have previously been awarded the Degree of Bachelor of Pharmacy will not be admitted.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
4 a A student enrolled for this degree must pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.
   b The requirements for this degree must be completed on a full-time basis in continuous semesters. Interrupted study may be resumed only with the approval of, and on conditions set by, Senate or its representative.

Structure and Content
5 Of the 480 points required for this degree, a student must pass:
   a 360 points: Parts I-III as listed in the Bachelor of Pharmacy Schedule
   and
   b the requirements as listed in the Bachelor of Pharmacy (Honours) Schedule.

Research Project
6 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Pharmacy.
   b The research project topic must be approved by the Head of School of Pharmacy prior to enrolment.
   c The research project must be completed and submitted by the last day of lectures in the final semester of enrolment.
   d In exceptional circumstances beyond the student’s control, Senate or its representative may approve a limited extension of time, not exceeding two months, for the completion of the research project. Where an extension of time is approved, students will be required to be enrolled and pay tuition fees at the rate of 10 points for each two-month period or part thereof. This will only apply when the student’s current enrolment period in the course has ended.

Fitness to Practise Requirements
7 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.
   b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.
   c If a student is found, after due and fair inquiry, and taking into account any written response from the student,
to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 7c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 7c or their application to re-enrol declined under Regulation 7d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Honours
8 a Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b The class of Honours will be determined by the student’s overall grade in PHARMACY 701, 702 and 789 as follows:
   - 7.0 to 9.0 – First Class Honours
   - 5.5 to 6.9 – Second Class Honours First Division
   - 4.0 to 5.4 – Second Class Honours Second Division
   - 3.9 and below – Third Class Honours

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2021.

The Degree of Master of Audiology – MAud

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   a completed the requirements for a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative and
   b demonstrated in accordance with approved selection criteria determined by the Faculty of Medical and Health Sciences the ability and personal qualities necessary for a person seeking a qualification as an Audiologist. This will normally require an interview.

2 In exceptional circumstances, Senate or its representative may approve the admission of an applicant who has relevant practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.
(ii) A relevant degree may include subjects in one of health sciences, public health, or science. Whether a degree is considered relevant will also depend on the courses taken; relevant areas may include physiology and psychology.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a follow a programme of four full-time semesters and pass courses with a total value of 240 points and
   b complete within the time limit specified for full-time students in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must pass courses with a total value of at least 240 points from Parts I and II as listed in the Master of Audiology Schedule.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

The programme for each student must be approved by the Head of School of Population Health prior to enrolment.

A student enrolled for this degree must, before enrolment in Part II, achieve a Grade Point Average of 4.0 or higher in Part I. If this Grade Point Average is not achieved, enrolment in the Master of Audiology cannot continue.

**Practical and Clinical Requirements**

Each student must pass the clinical and practical requirements of the required courses to the satisfaction of the Head of School of Population Health. This includes a practicum undertaken between Part I and Part II.

**Thesis**

The thesis is to be carried out under the guidance of a supervisor appointed by the Head of School of Population Health. This includes a practicum undertaken between Part I and Part II.

**Reassignment**

A student may apply to reassign courses passed for the Master of Audiology to the Postgraduate Diploma in Health Sciences.

**Honours**

This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

**Variations**

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

These regulations and/or schedule have been amended with effect from 1 January 2019.

### The Degree of Master of Biomedical Science – MBiomedSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

In order to be admitted to this programme, a student needs to have:

*either*

- completed the requirements for the Degree of Bachelor of Science with a major in biomedical science, or an equivalent degree as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 90 points at Stage III

*or*

- completed the requirements for a Bachelor of Science (Honours) in Biomedical Science or a Postgraduate Diploma in Biomedical Science, or an equivalent qualification approved by Senate or its representative, with a Grade Point Average of 5.0 or higher.

**Note:** This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

**Duration and Total Points Value**

A student admitted to this degree under Regulation 1a must:

- pass courses with a total point value of 240 points
A student admitted to this degree under Regulation 1b must:
   a pass the 120 point thesis
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment of this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Biomedical Science Schedule.

5 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher across their best 120 points of courses before being allowed to enrol in MEDSCI 796.

6 A student enrolled in this programme must complete the University of Auckland Academic Integrity Course, as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 The programme for each student must be approved by the Head of School of Medical Sciences prior to enrolment.

Reassignment
8 A student may apply to reassign courses passed for the Master of Biomedical Science to the Postgraduate Diploma in Biomedical Science.

Thesis
9 a The thesis must be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the relevant Departmental Postgraduate Committee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances, Senate or its representative may approve a personal programme of study that does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Clinical Education – M ClinEd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for a degree deemed relevant by Senate or its representative, with an average grade in the final year of study that is equivalent to a B or higher
or

(ii) completed the requirements for the Postgraduate Diploma in Clinical Education, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher

and

b be currently engaged in clinical teaching or curriculum development in a health related discipline.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value

2 A student admitted to this degree under Regulation 1a(i) must:

a pass courses with a total value of 240 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 280 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1a(ii) must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Masters Degrees

and

c not exceed 160 points for the total enrolment for this degree.

Structure and Content

4 A student wishing to enrol in the nursing courses listed in the Master of Clinical Education Schedule must hold current registration as a nurse in New Zealand.

5 A student enrolled for this degree must complete the requirements as listed in the Master of Clinical Education Schedule.

6 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120 points of taught courses for this degree prior to enrolment in CLINED 790, 796, or 797. If this Grade Point Average is not achieved, students may apply to reassign courses passed to the Postgraduate Diploma in Clinical Education.

7 With the approval of the Head of School or nominee students may substitute up to 30 points from the approved courses listed in the Master of Clinical Education Schedule with other relevant postgraduate courses.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

9 The programme for each student must be approved by the Head of School or nominee prior to enrolment.

Thesis / Dissertation

10 a The thesis or dissertation is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School or nominee.

b The thesis or dissertation topic must be approved by the Head of School or nominee prior to enrolment.

c The thesis or dissertation topic is to embody the results obtained by the student in an investigation into an area of clinical education.

d The dissertation or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours

11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

13 These regulations and/or schedule have been amended with effect from 1 January 2022.
Master of Clinical Education (MClinEd) Schedule

A student who has to complete 120 points must satisfy the following requirements:

**Requirement**

**Research Masters**
- 120 points: CLINED 796 Thesis or CLINED 797 Research Portfolio
- or
- 90 points: CLINED 795 Research Portfolio

**Taught Masters**
- 30 points from other 700 level courses offered at this University approved by the Head of School or nominee
- Taught Masters
  - 60 points from CLINED 703–719, NURSING 735, 741, POPLHLTH 701
  - 60 points: CLINED 790 Dissertation

A student who has to complete 240 points must satisfy the following requirements:

**Requirement**

**Research Masters**
- 120 points: Option 1 or 2 as listed in the Postgraduate Diploma in Clinical Education Schedule
- and either
- 120 points: CLINED 796 Thesis or CLINED 797 Research Portfolio
- or
- 90 points: CLINED 795 Research Portfolio
- 30 points from other 700 level courses offered at this University approved by the Head of School or nominee

**Taught Masters**
- 120 points: Option 1 or 2 as listed in the Postgraduate Diploma in Clinical Education Schedule
- 60 points from CLINED 703–719, NURSING 735, 741, POPLHLTH 701
- 60 points: CLINED 790 Dissertation

The Degree of Master of Clinical Pharmacy – MClinPharm

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this programme, a student needs to:
   - either
   - a have completed the requirements for the Degree of Bachelor of Pharmacy or an equivalent pharmacy qualification, approved by Senate or its representative, with an average grade in the final year of study that is equivalent to a B or higher
   - or
   - b have completed the requirements for the Postgraduate Diploma in Clinical Pharmacy, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher
   - and
   - c hold current registration as a pharmacist in New Zealand or as a pharmacist in the country of domicile.

**Duration and Total Points Value**

2 A student admitted to this degree under Regulation 1a must:
   - a pass courses with a total value of 240 points
   - and
   - b complete within the time limit specified in the General Regulations – Masters Degrees.

3 A student admitted to this degree under Regulation 1b must:
   - a pass courses with a total value of 120 points
   - and
   - b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 280 points for a student admitted under Regulation 1a or 160 points for a student admitted under Regulation 1b.

**Structure and Content**

5 A student admitted to this degree under Regulation 1a must complete the requirements of the 240 point option in the Master of Clinical Pharmacy Schedule. Before enrolment for the thesis or research portfolio, the student must complete, with an average grade of at least B, 120 points from the coursework component of the degree. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Clinical Pharmacy.

6 A student admitted to this degree under Regulation 1b must complete the requirements of the 120 point option in the Master of Clinical Pharmacy Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Head of School of Pharmacy prior to enrolment.
Thesis / Research Portfolio
9  a The thesis or research portfolio is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Pharmacy.
   b The thesis or research portfolio topic must be approved by the Head of School of Pharmacy prior to enrolment.
   c The thesis or research portfolio is to embody the results obtained by the student in an investigation into an area of Pharmacy.
   d Any practical work in connection with the thesis or research portfolio must be carried out within the University. However, Senate or its representative may permit a student to carry out the work at an approved site outside the University for any periods or period considered necessary.
   e The thesis or research portfolio must be completed and submitted in accordance with the General Regulations – Masters Degrees.

Practical Requirements
10 Students enrolled for this degree must carry out satisfactorily such practice activities as the Head of School of Pharmacy may require.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2018.

The Degree of Master of Health Leadership – MHlthLd

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for a:
   a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 90 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b relevant Bachelors Honours degree or Postgraduate Diploma from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirements, but who has attained an equivalent qualification or relevant professional experience.

Note:
This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

A relevant degree may be one which qualifies the holder for registration as a health professional, or be in a relevant subject such as arts, business, education, health sciences, law, political science, public health or social work.

Duration and Total Points Value
3 A student admitted to this degree under Regulation 1a must:
A student admitted to this degree under Regulation 1b must:
- pass courses with a total value of 120 points
- complete within the time limit specified in the General Regulations – Masters Degrees
- not exceed 160 points for the total enrolment of this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements for one of the specialisations as listed in the Master of Health Leadership Schedule.

6 A student must achieve a Grade Point Average of 5.0 or higher across their best 60 points of courses taken for this programme prior to enrolment in HLTHMGT 755. If this Grade Point Average is not achieved, enrolment in the Master of Health Leadership cannot continue.

7 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

Project
9 a The project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The project topic must be approved by the relevant Academic Head or nominee.

Reassignment
10 A student may apply to reassign courses passed to the Postgraduate Diploma in Health Leadership or Postgraduate Certificate in Health Leadership.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

### Master of Health Leadership (MHlthLd) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

#### Clinical Quality and Safety
**Requirement:**
**Taught Masters**
- 75 points: HLTHMGT 754, MAORIHTH 701, MEDICINE 700, 702, POPLHLTH 724
- 45 points: HLTHMGT 755 Project in Health Leadership

#### Global Health
**Requirement:**
**Taught Masters**
- 15 points from HLTHMGT 721, POPLHLTH 705, 722, 724, or another approved 700 level course offered at this University

#### Global Health
**Requirement:**
**Taught Masters**
- 15 points from HLTHMGT 721, 729
- a further 15 points from HLTHMGT 729 POPLHLTH 705, 722, 724, or another approved 700 level course offered at this University
- 45 points: HLTHMGT 754, MAORIHTH 701, POPLHLTH 719
- 45 points: HLTHMGT 755 Project in Health Leadership

#### Health Management
**Requirement:**
**Taught Masters**
- 15 points from HLTHMGT 721, 729
- a further 15 points from HLTHMGT 729 POPLHLTH 705, 722, 724, or another approved 700 level course offered at this University
- 45 points: HLTHMGT 754, MAORIHTH 701, POPLHLTH 719
- 45 points: HLTHMGT 755 Project in Health Leadership
A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

### Clinical Quality and Safety

**Requirement:** Taught Masters

- 120 points: HLTHMG 721, 754, MAORIHTH 701, MEDICINE 700, 702, POPLHLTH 705, 722, 724
- 15 points from DIGIHLTH 701, HLTHMG 724, 725, 729, POPLHLTH 709, 718, 719, 739, 760, or another approved 700 level course offered at this University
- 45 points: HLTHMG 755 Project in Health Leadership

### Global Health

**Requirement:** Taught Masters

- 120 points: HLTHMG 721, 754, MAORIHTH 701, POPLHLTH 705, 719, 722, 724
- 15 points from DEVELOP 702, 710, 713, DIGIHLTH 701, HLTHMG 724, 725, POPLHLTH 719, 739, 760, or another approved 700 level course offered at this University
- 45 points: HLTHMG 755 Project in Health Leadership

### Health Management

**Requirement:** Taught Masters

- 120 points: HLTHMG 721, 729, 754, MAORIHTH 701, POPLHLTH 705, 719, 722, 724
- 15 points from DIGIHLTH 701, HLTHMG 724, 725, POPLHLTH 718, 720, 739, 760, or another approved 700 level course offered at this University
- 45 points: HLTHMG 755 Project in Health Leadership

---

The Degree of Master of Health Practice – MHlthPrac

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

### Admission

1. In order to be admitted to this programme, a student needs to have:
   a. completed the requirements for a Bachelors degree deemed relevant by Senate or its representative, with a Grade Point Average of 5.0 or higher in 60 points above Stage II
   or
   b. completed the requirements for a Bachelors Honours degree or Postgraduate Diploma deemed relevant by Senate or its representative, with a Grade Point Average of 5.0 or higher.

2. In exceptional circumstances Senate or its representative may approve admission of a student who has:
   a. attained extensive relevant, practical, professional or scholarly experience deemed equivalent by Senate or its representative to the requirement in Regulation 1a
   and
   b. performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Notes:

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

(ii) A relevant degree may be one which qualifies the holder for registration as a health professional, or be in a relevant subject such as Health Sciences, Nursing, Pharmacy, Public Health or Social Work.

### Duration and Total Points Value

3. A student admitted to this degree under Regulation 1 or 2 must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 220 points for the total enrolment in this degree.

4. A student admitted to this degree under Regulation 1b must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 160 points for the total enrolment of this degree.

### Structure and Content

5. A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Health Practice Schedule.

6. A student enrolled for this degree must achieve a Grade Point Average of 5.0 or higher in 45 points of taught courses prior to enrolment in HLTHSCI 795 or POPLHLTH 790.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

The programme for each student must be approved by the relevant Head of School prior to enrolment.

### Reassignment
A student who does not achieve the Grade Point Average required in Regulation 6 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Health Sciences or the Postgraduate Certificate in Health Sciences.

### Honours
This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

### Variations
In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Amendment
These regulations and/or schedule have been amended with effect from 1 January 2022.

#### Master of Health Practice (MHlthPrac) Schedule
A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

##### Addiction Studies
**Requirement:** Taught Masters

- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 60 points: POPLHLTH 790 Dissertation
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 15 points from POPLHLTH 701, 704, 705, 767
- 30 points from POPLHLTH 738, 768, 773, 774, POPLPRAC 712, 765
- at least 15 points from MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University
- 45 points: HLTHSCI 795 Research Project

##### Health Promotion
**Requirement:** Taught Masters

- 60 points: POPLHLTH 700, 733, 734, POPLPRAC 710
- 60 points: POPLHLTH 790 Dissertation
- 60 points: POPLHLTH 700, 733, 734, POPLPRAC 710
- 15 points from POPLHLTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766, POPLPRAC 712
- 45 points: HLTHSCI 795 Research Project

##### Infant, Child and Adolescent Mental Health
**Requirement:** Taught Masters

- at least 30 points from PSYCHIAT 730, 740, 741, 747, 766, 768, 769, 770, 773
- up to 30 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University
- 45 points: HLTHSCI 795 Research Project

A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

##### Addiction Studies
**Requirement:** Taught Masters

- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 15 points from POPLHLTH 701, 704, 705, 767
- 30 points from POPLHLTH 738, 768, 773, 774, POPLPRAC 712, 765
- at least 15 points from MAORIHTH 701, PAEDS 712, POPLHLTH 721, 722, 738, 766, 768, 773, 774, POPLPRAC 702, 707, 712, 754, 765
- 60 points: POPLHLTH 790 Dissertation
- 45 points: HLTHSCI 795 Research Project
### Health Promotion

**Requirement:**
- Taught Masters
  - 60 points: POPLHLTH 700, 722, 733, 734
  - 15 points from POPLHLTH 701, 704
  - 15 points from POPLHLTH 705, 720, POPLPRAC 710, 712
  - at least 30 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766, POPLPRAC 712
  - 60 points: POPLHLTH 790 Dissertation
    - or
  - 45 points: HLTHSCI 795 Research Project

### Pacific Health

**Requirement:**
- Taught Masters
  - 90 points: POPLHLTH 700, 722, 739, POPLPRAC 710, 711, 712
  - 15 points from POPLHLTH 701, 704, 705
  - 15 points from HLTHMGT 754, MAORIHTH 701, POPLHLTH 715, 717, 718, 720, 725, 732, 734, 735, 736, 737, 752, 765, 766
  - 60 points: POPLHLTH 790 Dissertation
    - or
  - 45 points: HLTHSCI 795 Research Project

### Infant, Child and Adolescent Mental Health

**Requirement:**
- Taught Masters
  - 60 points: PSYCHIAT 740, 747, 768
  - 15 points from POPLHLTH 701, 704, 705, 767
  - at least 30 points from PSYCHIAT 730, 741, 766, 769, 770, 773
  - up to 15 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University
  - 60 points: HLTHSCI 790 Dissertation
    - or
  - 45 points: HLTHSCI 795 Research Project

### Population Mental Health

**Requirement:**
- Taught Masters
  - 75 points: POPLHLTH 700, 722, 735, 736, POPLPRAC 712
  - 15 points from POPLPRAC 702, 710, 754
  - 15 points from POPLHLTH 701, 704, 705
  - at least 15 points from MAORIHTH 701, POPLHLTH 702, 732, 733, 734, 737, 739, 766, POPLPRAC 702, 754
  - 60 points: POPLHLTH 790 Dissertation
    - or
  - 45 points: HLTHSCI 795 Research Project

### The Degree of Master of Health Psychology – MHealthPsych

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

#### Admission

1. In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelor of Science or Bachelor of Arts degree with a major in Psychology (or equivalent) with an average grade in the final year of study that is equivalent to a B or higher.

*Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.*

#### Duration and Total Points Value

2. A student admitted to this degree must:
   a. pass courses with a total value of 240 points
   - and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   - and
   c. not exceed 280 points for the total enrolment for this degree.

#### Structure and Content

3. A student enrolled for this degree must pass courses with a total value of 240 points as listed in the Master of Health Psychology Schedule.

4. A student must, before enrolment for the thesis obtain an average grade of at least B in the first 120 points from the coursework component of the degree. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Health Sciences.

5. A student enrolled for this degree who has already passed any course the same as, or similar to, those required under Regulation 3 must substitute an alternative course as approved by the Head of School of Medicine.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

#### Thesis

7. The thesis is to be carried out under the guidance of a supervisor, appointed by Senate or its representative, on the recommendation of the Head of School of Medicine.

8. The thesis topic must be approved by the Head of School of Medicine prior to enrolment.
The thesis topic is to embody the results obtained by the student in an investigation into an area of health psychology.

Any laboratory work in connection with the thesis must be carried out within the University. However, Senate or its representative may permit a student to carry out the work in an approved institute outside the University for any period or periods considered necessary.

The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours

This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2017.

The Degree of Master of Health Sciences – MHSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this programme, a student needs to have:

- either
  - a completed the requirements for a degree deemed relevant by Senate or its representative, with an average grade in the final year of study that is equivalent to a B or higher
  - or
  - b completed the requirements for the Postgraduate Diploma in Health Sciences, or its equivalent, as approved by Senate or its representative, with an average grade of B or higher.

In order to be admitted to a specialisation within this programme a student needs to have completed the specified prerequisite programmes or courses.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value

A student admitted to this degree under Regulation 1a must:

- a pass courses with a total value of 240 points
- and
- b complete within the time limit specified in the General Regulations – Masters Degrees
- and
- c not exceed 280 points for the total enrolment for this degree.

A student admitted to this degree under Regulation 1b must:

- a pass courses with a total value of 120 points
- and
- b complete within the time limit specified in the General Regulations – Masters Degrees
- and
- c not exceed 160 points for the total enrolment for this degree.

Structure and Content

A student wishing to enrol in any of NURSING 701–789, NURSPRAC 701–719 must hold current registration as a nurse in New Zealand.

A student wishing to enrol in any of CLINIMAG 705–720, MEDIMAG 701–722 must hold current registration with the New Zealand Medical Radiation Technologists Board, or as a Medical Radiation Technologist in their country.
of domicile, and must satisfy the Head of School of Medical Sciences that they have adequate access to clinical work in circumstances approved by the University of Auckland.

7 A student wishing to enrol in any of PROFCOUN 707, SOCWORK 718, SOCCHFAM 700, 734 must hold an undergraduate degree recognised as a professional qualification by the Social Workers Registration Board.

8 A student wishing to enrol in any of OPTOM 757, 759 or 791 must hold current registration as an optometrist in New Zealand.

9 A student enrolled for this degree must complete the requirements as listed in the Master of Health Sciences Schedule.

10 The programme for each student must be approved by the relevant Head of School prior to enrolment.

11 A student who has to complete 240 points for this degree and whose programme includes a thesis, research portfolio, dissertation or research project must, before enrolment for the thesis, research portfolio, dissertation or research project, obtain a Grade Point Average of 5.0 or higher in the first 120 points of taught courses for the degree. If this is not achieved, students may apply to reassign courses passed for this degree to the Postgraduate Diploma in Health Sciences.

12 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements

13 A student enrolled for this degree who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.

14 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol in a clinical remediation course in addition to the requirements of their programme.

Suspension or Termination of Enrolment

15 a If a student is required to undertake clinical or practice experience as part of their programme, and their behaviour, attitude or circumstances is found, after due and fair inquiry, to be inappropriate, offensive or disruptive in this environment, or to be likely to give rise to a risk of harm to the welfare of any party in a clinical or practice environment, then the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

   b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes and any clinical attachments pending the outcome of the inquiry.

   c A student whose enrolment is terminated or application to re-enrol is declined under Regulation 15a may appeal that decision to the Provost or the duly appointed delegate.

Fitness to Practise Requirements

16 a Students in the Nutrition and Dietetics specialisation must meet the applicable fitness to practise requirements, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

   b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practise attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

   c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

   d Where a student’s enrolment in the programme has been terminated under Regulation 16c, any application to re-enrol may be declined.

   e A student whose enrolment is suspended or terminated under Regulation 16c or their application to re-enrol declined under Regulation 16d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Honours

17 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees

Variations

18 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
19 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Health Sciences (MHSc) Schedule

Specialisation available:

Nutrition and Dietetics

**Prerequisite:** BSc in Food Science and Nutrition including BIOSCI 358, MEDSCI 301, 312, 315, POPLHLTH 305, or equivalent

**Requirement:**
- 150 points: DIETETIC 703, 707–709, MAORIHTH 701, POPLHLTH 701, 765
- 90 points: DIETETIC 793 Thesis

The Degree of Master of Nursing – MNurs

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this degree a student must have completed the requirements for:
   a the Degree of Bachelor of Nursing from this University with a Grade Point Average of 5.0 or higher in 120 points at Stage III, or the equivalent as approved by Senate or its representative

2 or
b the Degree of Bachelor of Nursing (Honours) or Postgraduate Diploma in Health Sciences in Advanced Nursing from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
and

c hold current registration as a nurse in New Zealand.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

3 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Nursing Schedule.

5 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120 points from the taught courses of the degree. If this Grade Point Average is not achieved, students may apply to reassign courses passed for this degree to the Postgraduate Diploma in Health Sciences.

6 A student enrolled for this degree who has already passed any course(s) the same as, or similar to, the courses required for this degree must substitute an alternative course(s) approved by the Head of School of Nursing or nominee.

7 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Courses selected for this qualification are subject to confirmation by the Academic Head or nominee.

Dissertation/Research Portfolio/Research Project/Thesis
9 a The dissertation, research portfolio, research project, or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Nursing.

b The dissertation, research portfolio, research project, or thesis is to embody the results obtained by the student in an investigation into an area of Nursing.

c Any laboratory work in connection with the dissertation, research portfolio, research project, or thesis must be carried out within the University. In exceptional cases, Senate or its representative may permit a student to carry out the work in an approved institution outside the University for any period or periods considered necessary.

d The dissertation, research portfolio, research project, or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2022.

A student who has to complete 240 points must satisfy the following requirements:

**Research Masters**
- 120 points from the Advanced Nursing or Mental Health Nursing specialisation as listed in the Postgraduate Diploma in Health Sciences Schedule
- 120 points: NURSING 796 Thesis or NURSING 797 Research Portfolio
- 120 points from MAORIHTH 701, 709, 710, NURSING 710–789, NURSPRAC 701–722, POPLHLTH 718, 746, POPLPRAC 720–724, 756, 758, 761, 766–771
- 90 points: NURSING 790 Research Portfolio

**Taught Masters**
- 30 points from MAORIHTH 701, 709, 710, NURSING 710–789, NURSPRAC 701–726, POPLHLTH 718, 746, POPLPRAC 720–724, 756, 758, 761, 766–771
- 60 points: NURSING 795 Dissertation
- 60 points from NURSING 746, 785
- 120 points from the Advanced Nursing or Mental Health Nursing specialisation as listed in the Postgraduate Diploma in Health Sciences Schedule
- 30 points: NURSING 701 Research Project, HLTHSCI 789 Research Project

---

**The Degree of Master of Nursing Practice – MNursPrac**

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this programme a student needs to have:
   a. (i) completed the requirements for the Degree of Bachelor of Nursing, or its equivalent as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 120 points above Stage II
   or
   (ii) completed the requirements of the Degree of Bachelor of Nursing (Honours) or the Postgraduate Diploma in Health Sciences in Advanced Nursing or Mental Health Nursing, or their equivalent, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher
   and
   b. (i) hold current registration as a registered nurse in New Zealand and have a minimum of two years post registration clinical practice experience
   or
   (ii) hold current registration as a registered nurse with an overseas nursing regulatory body approved by the Head of School of Nursing and have a minimum of two years post registration clinical practice experience
   and
   c. satisfy the Head of School of Nursing that they have adequate access to practical work to undertake the programme at a facility approved by the University of Auckland.

**Duration and Points Value**

2. A student admitted to this degree under Regulation 1a(i) must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 220 points for the total enrolment for this degree.

3. A student admitted to this degree under Regulation 1a(ii) must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
c not exceed 160 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Nursing Practice Schedule.

5 A student must achieve a Grade Point Average of 5.0 or higher in 60 points of taught courses prior to enrolment in NURSING 701 or NURSING 746.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and programme regulations, Academic Integrity, of the University Calendar.

7 The programme for each student must be approved by the Head of School of Nursing prior to enrolment.

Reassignement
8 A student who does not achieve the Grade Point Average required to enrol in NURSING 701 or NURSING 746 may apply to reassign courses passed for the Master of Nursing Practice to the Postgraduate Diploma in Health Sciences or Postgraduate Certificate in Health Sciences.

Distinction
9 This degree may be awarded with Distinction or Merit where a student’s overall grade is sufficiently high. Distinction may be awarded where a student has achieved a grade of A– or higher overall. Merit may be awarded where a student has achieved a B+ grade overall.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Nursing Science – MNSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree a student must have completed the requirements for a relevant Bachelor or Bachelors honours degree or its equivalent as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.
(ii) A relevant degree may include one of health sciences or science. Whether a degree is considered relevant will also depend on the courses taken; relevant areas may include physiology and psychology.
(iii) Applicants will be required to consent to a disclosure of criminal convictions and safety checks required by the Children’s Act 2014 to ensure they meet the requirements of the Health Practitioners Competence Assurance Act 2003.

Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 240 points
and
b complete within four semesters, and in accordance with Regulations 2a(i-v) of the General Regulations – Masters Degrees

3 Students must complete within five years of the date of commencement of study, including any periods of suspension

4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Nursing Science Schedule.

6 A student must achieve a Grade Point Average of 5.0 or higher in the first 60 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Nursing Science cannot continue.

7 A student who has previously passed any course the same as, or similar to, those required for this degree, must substitute an alternative course(s) approved by the Head of School of Nursing.

8 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and programme regulations, Academic Integrity, of the University Calendar.

English Language Requirements
9 A student enrolled for this degree must demonstrate competence in the English Language, by passing NURSING 199, or its equivalent, as prescribed by the Head of School of Nursing, prior to enrolment.

Research Project
10 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Nursing.

b The research project is to embody the results obtained by the student in an investigation into an area of Nursing.

c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Practical Requirements
11 A student enrolled for this degree who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.

Fitness to Practise Requirements
12 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or practice are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 12c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 12c or whose application to re-enrol is declined under Regulation 12d may apply to the Deputy Vice-Chancellor (Academic) for the appeal of that decision in accordance with the policy.

Reassignment
13 A student may apply to reassign courses passed from this degree to the Postgraduate Certificate in Health Sciences in Health Sciences or Postgraduate Diploma in Health Sciences in Health Sciences.
Honours
14 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
16 These regulations and/or schedule have been amended with effect from 1 January 2020.

The Degree of Master of Public Health – MPH

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including
the Academic Statutes and Regulations.*

Admission
1 In order to be admitted to this programme, a student needs to have:
   either
   a (i) completed the requirements for a degree deemed relevant by Senate or its representative
   and
   (ii) achieved an average grade in the final year of study that is equivalent to a B or higher
   or
   b completed the requirements for the Postgraduate Diploma in Public Health, or its equivalent, as approved by
   Senate or its representative, with an average grade of B or higher.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.
3 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Public Health
   Schedule.
5 A student who has to complete 240 points must achieve a Grade Point Average of 5.0 or higher in the first 120
   points of taught courses for this degree prior to enrolment in POPLHLTH 790, 793, or 796. If this Grade Point
   Average is not achieved, students may apply to reassign courses passed for this degree to the Postgraduate
   Diploma in Public Health.
6 A student who has to complete 240 points for this degree and who has completed the requirements for the Degree
   of Bachelor of Health Sciences from this University or an equivalent qualification, cannot enrol in POPLHLTH 760
   and must select another approved 700 level course listed in the Master of Health Sciences Schedule or Master of
   Public Health Schedule.
7 A student who has already passed any course the same as, or similar to, those required for this degree, must
   select another approved 700 level course listed in the Master of Health Sciences Schedule or Master of Public
   Health Schedule.
8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar.*
9 The programme for each student must be approved by the Head of School of Population Health prior to enrolment.

**Thesis / Dissertation**
10 a The thesis or dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the Head of School of Population Health.

b The thesis or dissertation is to embody the results obtained by the student in an investigation into an area of Public Health.

c The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

**Honours**
11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

**Variations**
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

---

**Master of Public Health (MPH) Schedule**

A student who has to complete 120 points must satisfy the following requirements:

- **Requirement:**
  - **Research Masters**
    - • 120 points: POPLHLTH 796 Thesis
  - **Taught Masters**
    - • 60 points: POPLHLTH 790 Dissertation

A student who has to complete 240 points must satisfy the following requirements:

- **Requirement:**
  - **Research Masters**
    - • 120 points from courses listed in the Master of Health Sciences or Master of Public Health Schedule
    - • 120 points: POPLHLTH 796 Thesis
    - or
    - • 30 points from courses listed in the Master of Health Sciences or Master of Public Health Schedule
    - • 90 points: POPLHLTH 793 Research Portfolio
  - **Taught Masters**
    - • 120 points from courses listed in the Postgraduate Diploma in Public Health Schedule
    - • 60 points: POPLHLTH 790 Dissertation

---

**The Degree of Master of Stroke Care – MStrokeCare**

**Admission**
1 In order to be admitted to this degree, a student must have:

- **either**
  - a completed the requirements for a Bachelors degree in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points of the most advanced courses, or the equivalent as approved by Senate or its representative
  - or
  - b (i) completed the requirements for a Bachelors degree in a relevant subject from this University, or its equivalent as approved by Senate or its representative
  - and
  - (ii) passed 60 points of courses towards the Postgraduate Certificate in Stroke Care or Postgraduate Diploma in Stroke Care from this University with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate or diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has not met the above requirements, but who has extensive relevant professional experience deemed to be the equivalent of the requirements in Regulation 1.

*Note: Relevant subjects may include clinical exercise physiology, counselling, dietetics, medicine, nursing, nutrition, occupational therapy, optometry, paramedicine, pharmacy, physiotherapy, population health, psychology, social work, and speech language therapy.*
Duration and Total Points Value
3 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points for the total enrolment of this degree.

Structure and Content
4 a A student enrolled for this degree must complete the requirements as listed in the Master of Stroke Care Schedule.
   
b A student enrolled for this degree must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses. If this Grade point Average is not achieved, enrolment in the Master of Stroke Care cannot continue.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
6 A student may apply to reassign courses passed to the Postgraduate Diploma in Stroke Care or the Postgraduate Certificate in Stroke Care.

Transfer from Postgraduate Certificate in Stroke Care or Postgraduate Diploma in Stroke Care
7 A student who has passed courses towards the Postgraduate Certificate in Stroke Care may apply to reassign those courses to this degree provided that the postgraduate certificate has not been awarded.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2022.

The Degree of Doctor of Health Sciences – DHSc

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Health Sciences.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Health Sciences.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.
(v) “Successfully complete” means to complete all requirements and submit all required work for the relevant course, course component or programme component and pass the prescribed examination.

General requirements
1 A candidate for the Degree of Doctor of Health Sciences (DHSc) is required to undertake advanced coursework and an original and coherent research project, and to present the outcome of the research project for examination as a thesis.

2 The research project must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.

3 The research project must be conducted under supervision and during the period of enrolment in the DHSc programme and must be conducted in accordance with the Research Code of Conduct Policy.

4 The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 70,000 words.
The thesis must be undertaken and completed in accordance with the doctoral thesis policy and procedures.

A candidate must successfully complete a 360-point programme consisting of HLTHSCI 800-803 (the coursework component) and the thesis.

In order for the DHSc degree to be awarded, Regulations 6 and 50 must be satisfied, and the Board of Graduate Studies (or delegate[s]) must be:

a satisfied that, subject to Regulation 46, the candidate has performed at doctoral level in an oral examination, held in accordance with Regulation 47, on the thesis, the subject of the thesis and the field(s) to which the subject belongs

and

b satisfied, by the examination process prescribed by these regulations, that the thesis:

(i) makes an original and significant contribution to knowledge or understanding in its field(s)

and

(ii) meets internationally recognised standards for such work

and

(iii) demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature

and

(iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration

The thesis must be submitted within a maximum of 36 months of full-time equivalent programme enrolment from the initial date of enrolment in the DHSc programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the doctoral extension of enrolment policy and procedures.

The thesis must not be submitted in less than 36 months of full-time equivalent programme enrolment from the initial date of enrolment in the DHSc programme, unless permission is granted by the Board of Graduate Studies (or delegate).

Permission for submission of the thesis must not be granted where a candidate has been enrolled in the thesis for less than 24 months full-time equivalent.

Except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances (and subject to course availability and Regulation 12), enrolment in the coursework component must proceed on a part-time basis and be successfully completed within two years of part-time enrolment (one year of full-time equivalent enrolment) and prior to commencement of the thesis enrolment. Enrolment in the thesis may be full-time or part-time, subject to the doctoral full-time and part-time enrolment policy and procedures.

The coursework component must be successfully completed in order for the thesis to be submitted for examination.

A candidate may be permitted to suspend their enrolment subject to the doctoral suspension of enrolment policy and procedures.

Admission

To be admitted to the DHSc programme, applicants must satisfy the University’s Admission regulations and are required to have:

a in their most recent attempt at a relevant qualification:

(i) completed the requirements for a Bachelors Honours or Masters degree or postgraduate diploma in a relevant subject area with at least a B+ average at the University of Auckland, or the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland; in all cases relevance is determined by the Board of Graduate Studies (or delegate)

or

(ii) completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as relevant, with regard to subject area, and as equivalent to a Bachelors Honours or Masters degree with at least a B+ average at the University of Auckland

and

b satisfied the requirements of the doctoral candidate research capacity policy and procedures

and

c satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate)

and

d have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the DHSc degree
and

e have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of
doctoral matters ("the Academic Head(s)") with regard to the availability of appropriate supervision and the
availability of the research resources deemed necessary by the Academic Head(s).

In exceptional circumstances, the Board of Graduate Studies (or delegate) may, subject to the doctoral
exceptional circumstance entry policy and procedures, admit to the DHSc programme an applicant whose
qualifications do not meet the requirements of Regulation 14a.

An applicant may be considered for off-campus enrolment subject to the doctoral off-campus research policy and
procedures.

The final decision on admission to the DHSc programme shall be made by the Board of Graduate Studies (or
delegate).

Admission to the DHSc programme may be rescinded prior to enrolment in the programme where information
that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was
made, and which would have resulted in a different decision being made, becomes available, or where, due to
circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer
be available for the enrolment.

Admission to the DHSc programme is valid for up to six months (or a maximum of 12 months in exceptional
circumstances as approved by the Board of Graduate Studies (or delegate)) from the date of notification of
admission to the programme. Where enrolment in the programme does not occur within that time, re-application
for admission to the programme is required.

Concurrent enrolment in another programme at the University of Auckland or at another institution is not
permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

Supervision

The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate's
enrolment.

The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance
with the doctoral supervision policy and procedures.

Changes in supervision during candidature are subject to the doctoral supervision policy and procedures and the
approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of
supervisors rests.

Enrolment and Candidature

Except for any period(s) of suspension approved under Regulation 13, candidates are required to be enrolled
continuously from the initial date of enrolment in the DHSc programme until the date of thesis submission under
Regulations 8-10.

Candidature for the DHSc degree commences upon enrolment in the DHSc programme and continues, regardless
of any period(s) of suspension approved under Regulation 13, until the date on which any one of the following
occurs:

a notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree
at Regulation 7 have been met;

b notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 49 is
that the degree not be awarded;

c candidature expires under Regulation 31;

d a candidate withdraws from the programme under Regulation 51;

e candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 52.

Except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances, a candidate
must complete HLTHSCI 800, 801 and 802 prior to enrolment in HLTHSCI 803.

Candidature is provisional until confirmed, and is subject to the doctoral confirmation of candidature policy
and procedures, the doctoral continuation of confirmed candidature policy and procedures, and the doctoral
candidature intervention policy and procedures.

The following additional confirmation milestone is required for all candidates and is subject to the confirmation of
candidature policy and procedures: successful completion of the coursework component with an average result of B+ or higher.

29 a Where a candidate does not successfully complete HLTHSCI 800 or HLTHSCI 801 or HLTHSCI 802, conditions on candidature pursuant to Regulation 27 may, subject to Regulation 30, include requirements to satisfactorily complete specific additional work and/or revisions.

b Where conditions are imposed in accordance with Regulation 29(a), the submission of results for the course will be deferred.

c Where any condition imposed in accordance with Regulation 29(a) is not satisfied, the candidate will have failed to successfully complete the coursework component of the programme.

30 a The provisions of Regulations 29(a) and (b) can apply to a maximum of two courses, and one time only to each course.

b For the provisions of Regulations 29(a) and (b) to be exercised, a candidate must have demonstrated, to the satisfaction of the examiner in at least one component of the assessment for the relevant course, the capacity for doctoral level work. Where the examiner is not duly satisfied, the candidate will have failed to successfully complete the coursework component of the programme.

31 a Candidature expires when the thesis is not submitted for examination by the date required under Regulation 8.

b Candidature expires when the thesis is not submitted for examination by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 48.

32 Where candidature has expired under Regulation 31, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 57(b) of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

33 Enrolment in the DHSc programme is not possible where candidature remains expired under Regulation 31 or where a candidate withdraws from the programme under Regulation 51.

34 Termination of candidature under Regulation 52 is also termination of enrolment in the DHSc programme for enrolled candidates.

35 Candidates who are required, pursuant to Regulation 48, to revise and resubmit their thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis pursuant to Regulation 48 is 12 months full-time equivalent.

36 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the doctoral off-campus research policy and procedures.

37 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules, policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of candidature.

38 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees

39 All fees required by and pursuant to the Fees Statute must be paid for the duration of enrolment in the DHSc programme.

40 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 13.

41 A candidate who withdraws from the DHSc programme, or who has their candidature terminated, will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of withdrawal from the programme or termination of candidature and the end of the current doctoral year.

42 Graduation is not permitted until all outstanding monies owing to the University have been paid.

Submission

43 The thesis must be submitted in accordance with the doctoral thesis submission procedures – pre examination.
Examination

44 The coursework component must be examined in accordance with the doctoral coursework policy and procedures.

45 a For each candidate, the Board of Graduate Studies (or delegate) will appoint two thesis examiners, at least one of whom must be based outside New Zealand, in accordance with the doctoral appointment of examiners policy and procedures.

b The thesis must be examined in accordance with the doctoral examination procedures and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, with the doctoral examination extraordinary circumstances and posthumous award procedures.

46 Except where a candidate is exempted pursuant to the doctoral examination extraordinary circumstances and posthumous award procedures, the DHSc degree cannot be awarded where an oral examination has not taken place.

47 Where the Board of Graduate Studies (or delegate) determines, under the doctoral examination procedures, that a candidate will proceed to oral examination, the oral examination is to be held in accordance with the doctoral examination procedures and the doctoral oral examination procedures.

48 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the doctoral examination procedures and determine the outcome of the examination.

Final Decision

49 The final decision as to the award of the DHSc degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 48.

50 The final examined and approved thesis must be submitted in accordance with the doctoral thesis submission procedures – post examination in order for the requirements of the DHSc degree to be met.

Withdrawal from Programme

51 A candidate may withdraw from the DHSc programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature

52 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:

a failure to meet the requirements for confirmation of candidature pursuant to Regulation 27

b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 27

c failure to satisfy conditions imposed on candidature pursuant to Regulation 27

d failure to comply with candidature reporting requirements pursuant to Regulation 27

e failure to successfully complete the coursework component of the programme

f failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)

g failure to comply with the doctoral thesis submission procedures – post examination

h failure to make payment of any tuition fees related to enrolment in the DHSc by the due date

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 52 is permanent unless successfully appealed in accordance with Regulation 57(b).

53 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 52, the candidate will be given notice of termination proceedings and allowed fourteen calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision.

54 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of these programme regulations.

55 a Where a candidate withdraws from the DHSc programme, or has their candidature terminated, or fails to meet the requirements for the award of the degree, admission to a new DHSc or other doctoral programme in a relevant subject at a later date will not normally be permitted.

b A person who withdraws from any relevant doctoral programme or has a relevant doctoral candidature
terminated (or equivalent), or who fails to meet the requirements for the award of a relevant doctoral degree, will not normally be admitted to the DHSc.

c Relevance at (a) and (b), and equivalence at (b), are determined by the Board of Graduate Studies (or delegate).

Variations
56 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for DHSc candidature, except where variation of a national or government directive or requirement is involved.

Appeals
57 a Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment, subject to the doctoral candidature appeal procedures.

b A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature or to decline an extension of enrolment, subject to the doctoral candidature appeal procedures.

58 Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the doctoral candidature appeal.

59 Candidates and former candidates may appeal the outcome of a DHSc thesis examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the doctoral examination appeal procedures.

60 Appeals as to thesis examination will be determined in accordance with the doctoral examination appeal procedures.

Dispute Resolution
61 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

62 Any matter that has been, could have been or could be appealed under the provisions of Regulation 57 or 59 is precluded from consideration as a dispute under Regulation 61.

Further Provisions
63 A candidate who is unable to complete the coursework component with a B+ or higher average may apply to the Academic Head to be reassigned to a Postgraduate Diploma in Health Sciences (PGDipHSc) at the time of withdrawal from the DHSc or termination of candidature, provided a candidate has not failed more than 30 points of the coursework component and has not been enrolled in the DHSc for more than one year full-time equivalent.

64 a The DHSc programme is subject to the Limited Entry Statute.

b Candidates are subject to:
(i) the Examination Regulations, the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute
and
(ii) the provisions of the Enrolment and Programme regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost’s Special Powers.

65 The doctoral policies and procedures cited in these regulations may be reviewed and amended from time-to-time.

66 Candidates are subject to any additional doctoral policies and procedures devised in support of these regulations and amended from time-to-time.

67 These regulations may be reviewed and amended from time-to-time.

68 These regulations came into force on 1 January 2022.

The Degree of Doctor of Medicine – MD

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Medicine.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Medicine.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.
General requirements

1. A candidate for the Degree of Doctor of Medicine (MD) is required to undertake an original and coherent research project and to present the outcome of that research project for examination as a thesis.

2. The research project must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.

3. The research project must be conducted under supervision from the time of enrolment, and in accordance with the Research Code of Conduct Policy, but may include research undertaken prior to enrolment.

4. The thesis requirement must be satisfied by a cohesive written document, which shall not normally exceed 100,000 words.

5. The thesis must be undertaken and completed in accordance with the doctoral thesis policy and procedures.

6. In order for the MD degree to be awarded, Regulation 46 must be satisfied, and the Board of Graduate Studies (or delegate[s]) must be:
   a. satisfied that, subject to Regulation 42, the candidate has performed at doctoral level in an oral examination, held in accordance with Regulation 43, on the thesis, the subject of the thesis and the field(s) to which the subject belongs
   and
   b. satisfied, by the examination process prescribed by these regulations, that the thesis:
      (i) makes an original and significant contribution to knowledge or understanding in its field(s)
      and
      (ii) meets internationally recognised standards for such work
      and
      (iii) demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature
      and
      (iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration

7. The thesis must be submitted within a maximum of 48 months of full-time equivalent enrolment from the initial date of enrolment in the MD programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the doctoral extension of enrolment policy and procedures.

8. The thesis must not be submitted in less than 36 months of full-time equivalent enrolment from the initial date of enrolment in the MD programme, unless permission is granted by the Board of Graduate Studies (or delegate).

9. Permission for early submission of the thesis must not be granted where a candidate has been enrolled for less than 24 months full-time equivalent from the initial date of enrolment in the MD programme, unless clause 10 applies.

10. A candidate who draws upon research undertaken prior to enrolment may be permitted to submit the thesis after 12 months of full-time equivalent enrolment from the initial date of enrolment in the MD programme.

11. Part-time enrolment may be permitted, subject to the doctoral full-time and part-time enrolment policy and procedures.

12. A candidate may be permitted to suspend their enrolment subject to the doctoral suspension of enrolment policy and procedures.

13. The initial date of enrolment in the MD programme may not be backdated except in exceptional circumstances as approved by the Board of Graduate Studies (or delegate) and up to a maximum of six months.

Admission

14. To be admitted to the MD programme, applicants must satisfy the University’s Admission regulations and are required to have:
   a. in their most recent attempt at a relevant qualification:
      either
      (i) completed the requirements for the award of the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland
      or
      (ii) completed the requirements for the award of a medical qualification that the Board of Graduate Studies (or delegate) considers to be equivalent to the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland
and
b satisfied the requirements of the doctoral candidate research capacity policy and procedures
and
c satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate)
and
d have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the MD degree
and
e have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of doctoral matters ("the Academic Head(s)") with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head(s).

15 An applicant may be considered for transfer from an existing doctoral enrolment subject to the doctoral transfer policy and procedures.

16 An applicant may be considered for off-campus enrolment subject to the doctoral off-campus research policy and procedures.

17 The final decision on admission to the MD programme shall be made by the Board of Graduate Studies (or delegate).

18 Admission to the MD programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment.

19 Admission to the MD programme is valid for up to six months (or a maximum of 12 months in exceptional circumstances as approved by the Board of Graduate Studies (or delegate)) from the date of notification of admission to the programme. Where enrolment in the programme does not occur within that time, re-application for admission to the programme is required.

20 Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

**Supervision**

21 The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate’s enrolment.

22 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the doctoral supervision policy and procedures.

23 Changes in supervision during candidature are subject to the doctoral supervision policy and procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

**Enrolment and Candidature**

24 Except for any period(s) of suspension approved under Regulation 12, candidates are required to be enrolled continuously from the initial date of enrolment in the MD programme until the date of thesis submission under Regulations 7-10.

25 Candidature for the MD degree commences upon enrolment in the MD programme and continues, regardless of any period(s) of suspension approved under Regulation 12, until the date on which any one of the following occurs:

a notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree at Regulation 6 have been met;

b notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 45 is that the degree not be awarded;

c candidature expires under Regulation 27;

d a candidate withdraws from the programme under Regulation 47;

e candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 48.
26 Candidature is provisional until confirmed and is subject to the doctoral confirmation of candidature policy and procedures, the doctoral continuation of confirmed candidature policy and procedures, and the doctoral candidature intervention policy and procedures.

27 a Candidature expires when the thesis is not submitted for examination by the date required under Regulation 7.

b Candidature expires when the thesis is not submitted for examination by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 44.

28 Where candidature has expired under Regulation 27, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 54 of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

29 Enrolment in the MD programme is not possible where candidature remains expired under Regulation 27 or where a candidate withdraws from the programme under Regulation 47.

30 Termination of candidature under Regulation 48 is also termination of enrolment in the MD programme for enrolled candidates.

31 Candidates who are required, pursuant to Regulation 44, to revise and resubmit their thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis pursuant to Regulation 44 is 12 months full-time equivalent.

32 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the doctoral off-campus research policy and procedures.

33 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules, policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of candidature.

34 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees

35 All fees required by and pursuant to the Fees Statute must be paid for the duration of enrolment in the MD programme.

36 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 12.

37 a A candidate who withdraws from the MD programme, or who has their candidature terminated, will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of withdrawal from the programme or termination of candidature and the end of the current doctoral year.

b A candidate who submits their thesis will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of submission and the end of the current doctoral year, provided the candidate has either:

(i) been enrolled for at least 12 months full-time equivalent and submitted the thesis in accordance with Regulation 10

or

(ii) been enrolled for at least 36 months full-time equivalent.

38 Graduation is not permitted until all outstanding monies owing to the University have been paid.

Submission

39 The thesis must be submitted in accordance with the doctoral thesis submission procedures – pre examination.

Examination

40 For each candidate, the Board of Graduate Studies (or delegate) will appoint two examiners, at least one of whom must be based outside New Zealand, in accordance with the doctoral appointment of examiners policy and procedures.

41 The examination for the MD degree must be conducted in accordance with the doctoral examination procedures and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, with the doctoral examination extraordinary circumstances and posthumous award procedures.

42 Except where a candidate is exempted pursuant to the doctoral examination extraordinary circumstances and
posthumous award procedures, the MD degree cannot be awarded where an oral examination has not taken place.

43 Where the Board of Graduate Studies (or delegate) determines, under the doctoral examination procedures, that a candidate will proceed to oral examination, the oral examination is to be held in accordance with the doctoral examination procedures and the doctoral oral examination procedures.

44 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the doctoral examination procedures and determine the outcome of the examination.

Final Decision
45 The final decision as to the award of the MD degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 44.

46 The final examined and approved thesis must be submitted in accordance with the doctoral thesis submission procedures – post examination in order for the requirements of the MD degree to be met.

Withdrawal from Programme
47 A candidate may withdraw from the MD programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature
48 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:

a failure to meet the requirements for confirmation of candidature pursuant to Regulation 26
b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 26
c failure to satisfy conditions imposed on candidature pursuant to Regulation 26
d failure to comply with candidature reporting requirements pursuant to Regulation 26
e failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)
f failure to comply with the thesis submission procedures – post examination
g failure to make payment of any tuition fees related to enrolment in the MD by the due date

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 48 is permanent unless successfully appealed in accordance with Regulation 54.

49 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 48, the candidate will be given notice of termination proceedings and allowed fourteen calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision.

50 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of these regulations.

51 a Where a candidate withdraws from the MD programme, or has their candidature terminated, or fails to meet the requirements for the award of the degree, admission to a new MD or other doctoral programme in a relevant subject at a later date will not normally be permitted.

b A person who withdraws from any relevant doctoral programme or has a relevant doctoral candidature terminated (or equivalent), or who fails to meet the requirements for the award of a doctoral degree in a relevant subject, will not normally be admitted to the MD except in accordance with the doctoral transfer policy and procedures.

c Relevance at 51a and b, and equivalence at 51b, are determined by the Board of Graduate Studies (or delegate).

Variations
52 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for MD candidature, except where variation of a national or government directive or requirement is involved.

Appeals
53 Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment, subject to the doctoral candidature appeal procedures.
A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature or to decline an extension of enrolment, subject to the doctoral candidature appeal procedures.

Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the doctoral candidature appeal procedures.

Candidates and former candidates may appeal the outcome of a MD examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the doctoral examination appeal procedures.

Appeals as to examination will be determined in accordance with the doctoral examination appeal procedures.

Dispute Resolution

Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

Any matter that has been, could have been or could be appealed under the provisions of Regulation 53 or 54 or 56 is precluded from consideration as a dispute under Regulation 58.

Further provisions

The MD programme is subject to the Limited Entry Statute.

Candidates are subject to:
(i) the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute

and
(ii) the provisions of the Enrolment and Programme regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost's Special Powers.

and
(iii) the Examination Regulations, where coursework is prescribed pursuant to Regulation 26.

The doctoral policies and procedures cited in these regulations may be reviewed and amended from time-to-time.

Candidates are subject to any additional doctoral policies and procedures devised in support of these regulations and amended from time-to-time.

These regulations may be reviewed and amended from time-to-time.

These regulations came into force on 1 January 2022.

For candidates initially enrolled under earlier regulations for this degree, the Board of Graduate Studies (or delegate) may agree to vary the application of the provisions of these regulations to ensure consistency with the provisions of the regulations under which the candidate was enrolled where it is satisfied that the candidate would otherwise be at a disadvantage.

Certificate in Health Sciences – CertHSc

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

In order to be admitted to this programme, a student needs to:

a be a New Zealand citizen or permanent resident of New Zealand

and

b have indigenous New Zealand Māori or Pacific whakapapa/ancestry verified through the Māori and Pacific Admissions Scheme

and

c (i) completed Year 13 in a New Zealand secondary school or its equivalent

or

(ii) be eligible for Special Admission to the University

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value

A student admitted to this certificate must complete within two full-time semesters in the same academic year and pass courses with a total value of 120 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.
Structure and Content
3 A student enrolled for this certificate must complete the requirements as listed in the Certificate in Health Sciences Schedule.

4 The programme for each student must be approved by the Academic Director of the Certificate prior to enrolment.

5 A student who fails up to three courses may, with the permission of the Academic Director of the Certificate, complete a subsequent additional assessment for that course(s) providing that:
   a the student has achieved a Grade Point Average of 3.0 over all the courses passed for the Certificate
   and
   b achieved a grade of not less than D for the failed course.

6 The subsequent assessment must be undertaken within two weeks of the notification of results to the student.

7 A student enrolled in this certificate must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2021.

Diploma in Health Sciences – DipHSc

*The regulations for this diploma are to be read in conjunction with all other statutes and regulations including the Academic Statutes and Regulations.*

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Health Sciences, or a conjoint programme that includes the Bachelor of Health Science as a component degree, at this University
   and
   b passed at least 120 points for that degree or diploma
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Health Sciences Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Paediatrics – DipPaed

*The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

Admission
1 In order to be admitted to this programme, a student needs to:
either
a (i) have held, for at least one year, a medical qualification approved by Senate or its representative
and
(ii) hold current registration with the Medical Council of New Zealand
or
b have graduated from the Central Medical School of Fiji and have satisfied the Head of School of Medicine they
have appropriate training and experience to undertake this diploma.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
2 A student enrolled for this diploma must follow a programme equivalent to two consecutive full-time semesters
and pass courses with a total value of 120 points.

Structure and Content
3 A student enrolled for this programme must pass 120 points: PAEDS 601.

4 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as
specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
5 Each student must have completed six months of paediatric training in a hospital approved by Senate or its
representative.

6 A student enrolled for this diploma must carry out satisfactorily such practical or clinical work as the Head of
School of Medicine may require, including:
a performance of clinical duties
and
b participation in community aspects of child care.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2014.

Postgraduate Certificate in Clinical Education – PGCertClinEd

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have:
either
a completed the requirements for a degree deemed relevant by Senate or its representative
or
b (i) completed the requirements for a health professional qualification deemed appropriate by Senate or its
representative
and
(ii) have at least two years’ relevant work experience approved by the Head of School or nominee
and
c be currently engaged in clinical teaching or curriculum development in a health related discipline.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
2 A student enrolled for this programme must:
a pass courses with a total value of 60 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.
Structure and Content
4 A student enrolled for this programme must pass 60 points from the Postgraduate Certificate in Clinical Education Schedule.

5 With the approval of the Head of School or nominee up to 15 points may be selected from other relevant postgraduate courses.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 The programme for each student must be approved by the Head of School or nominee prior to enrolment.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

Postgraduate Certificate in Clinical Pharmacy – PGCertClinPharm

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to:
   a have completed the requirements for the Degree of Bachelor of Pharmacy or an equivalent pharmacy qualification, approved by Senate or its representative
   and
   b hold current registration as a pharmacist in New Zealand or as a pharmacist in the country of domicile.

2 In order to be admitted to the specialisation in Prescribing, a student needs to:
   a be a New Zealand registered pharmacist who holds current registration in New Zealand
   and
   b have completed the Postgraduate Diploma in Clinical Pharmacy or an equivalent qualification
   and
   c hold an appropriate position involving patient care acceptable to the Head of School of Pharmacy
   and
   d have access to a designated medical prescriber who is acceptable to the Head of School of Pharmacy.

3 A student who has completed the requirements for the Postgraduate Certificate in Clinical Pharmacy in one specialisation may, with the permission of Senate or its representative, enrol for the Postgraduate Certificate in Clinical Pharmacy in another specialisation.

   Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
4 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

5 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
6 A student enrolled for this postgraduate certificate must pass 60 points in courses listed in the Postgraduate Certificate in Clinical Pharmacy Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Practical Requirements
8 Students enrolled for this postgraduate certificate must carry out satisfactorily such practice activities as the Head of School of Pharmacy may require.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Postgraduate Certificate in Health Sciences – PGCertHSc

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
   or
   b (i) completed the requirements for a health professional qualification deemed relevant by Senate or its representative
       and
       (ii) had at least two years of relevant work experience approved as appropriate by the relevant Head of School.
2 A student who has completed the requirements for the Postgraduate Certificate in Health Sciences in one specialisation may, with the permission of Senate or its representative, enrol for the Postgraduate Certificate in Health Sciences in another specialisation.
3 To be admitted to the Medical Imaging specialisation a student must:
   a have completed a qualification in Medical Imaging
   and
   b hold current registration with the New Zealand Medical Radiation Technologists Board in the Medical Imaging Technologist scope of practice, or provide evidence of registration or other evidence of the right to work as a Medical Imaging Technologist in their country of domicile.
4 To be admitted to the Mammography specialisation a student must:
   a have completed a qualification in Medical Imaging or Radiation Therapy
   and
   b hold current registration with the New Zealand Medical Radiation Technologists Board in the Medical Imaging Technologist or Radiation Therapist scope of practice, or provide evidence of registration or other evidence of the right to work as a Medical Imaging Technologist or Radiation Therapist in their country of domicile
   and
   c confirm that they have secured continuous employment in a clinical training position approved by the Programme Director or nominee for the duration of their enrolment in the programme.

Note: This programme includes some specialisations that are limited entry as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
5 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
6 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
7 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 60 points from courses listed in the Master of Health Sciences Schedule
   or
   b 60 points from courses in one of the areas of specialisation listed in the Postgraduate Certificate in Health Sciences Schedule.
8 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
9 The programme for each student must be approved by the relevant Head of School prior to enrolment.

Practical Requirements
10 A student enrolled for this postgraduate certificate who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.
11 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol in a clinical remediation course in addition to the requirements of their programme.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

### Postgraduate Certificate in Health Sciences (PGCertHSc) Schedule

#### Specialisations available:

**Advanced Nursing**

**Requirement:**
- 60 points from HLTHSCI 700–708, NURSING 732–735, 741, 742, 744–780, 783, NURSPRAC 701–717, 723–725, 727–730, POPLHLTH 746, POPLPRAC 720–724, 756, 758, 761, 767, 768, other relevant 700 level courses offered at this University approved by the Head of School of Nursing

**Alcohol and Drug Studies**

**Requirement:**
- 60 points: POPLHLTH 737, POPLPRAC 707, 708

**Digital Health**

**Requirement:**
- 15 points: DIGIHLTH 701
- 30 points from DIGIHLTH 702–706
- A further 15 points from DIGIHLTH 701–708 or courses listed in the Master of Data Science or Master of Public Health Schedules excluding DATASCI 792, POPLHLTH 790, 793, 796

**Health Informatics**

*The PDCertHsc in Health Informatics was suspended in 2021. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.*

**Requirement:**
- 45 points from HLTHINFO 723, 728, 730
- 15 points from HLTHINFO 725, HLTHMGT 721, 729, 754, POPLHLTH 722

**Infant, Child and Adolescent Mental Health**

**Requirement:**
- 60 points: PSYCHIAT 740, 747, 768
  - or
  - at least 45 points from PSYCHIAT 740, 747, 768, 769, 770
  - and
  - up to 15 points from other courses approved by the Head of School of Medicine

**Mammography**

**Requirement:**
- 15 points: MEDIMAGE 702
- 30 points: MEDIMAGE 707, CLINIMAG 708
- 15 points from courses listed in the Master of Health Sciences Schedule approved by the Head of School

**Medical Imaging**

**Requirement:**
- 30 points: MEDIMAGE 701, 702

**Mental Health**

*The PGCertHSc in Mental Health was withdrawn in 2021.*

**Mental Health Nursing**

**Requirement:**
- 60 points from HLTHSCI 703, NURSING 742, 746, 773, 774, 776, NURSPRAC 718, 719, 720, 726, POPLPRAC 761, other relevant 700 level courses offered at this University approved by the Head of School of Nursing

**Palliative Care**

**Requirement:**
- 60 points from POPLHLTH 746, POPLPRAC 702, 720–724, SOCHLTH 732

**Pharmaceutical Science**

**Requirement:**
- 60 points from PHARMACY 750–761

**Sports Medicine**

*The PGCertHSc in Sports Medicine was suspended in 2018. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.*

**Requirement:**
- 60 points: POPLPRAC 743–746

**Women’s Health**

**Requirement:**
- At least 45 points from OBSTGYN 712–716
- Up to 15 points from OBSTGYN 724, 725

**Youth Health**

**Requirement:**
- 45 points from NURSING 773, PAEDS 710, 712, 719, 721, POPLHLTH 732, PROFCOUN 700
- 15 points from another 700 level course listed in the Master of Health Sciences or Master of Public Health Schedules
Postgraduate Certificate in Public Health – PGCertPH

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a. been enrolled in the Degree of Master of Public Health or Postgraduate Diploma in Public Health
   and
   b. passed at least 30 points for that qualification
   and
   c. been recommended for admission by the Academic Head or nominee.

Duration and Total Points Value
2 A student enrolled for this postgraduate certificate must:
   a. pass courses with a total value of 60 points
   and
   b. complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Public Health Schedule.

5 A student who has completed the requirements for the Degree of Bachelor of Health Sciences from this University, or an equivalent qualification, cannot enrol in POPLHLTH 760 and must select another approved 700 level course listed in the Postgraduate Certificate in Public Health Schedule.

6 A student who has previously passed MAORIHTH 301, cannot enrol in MAORIHTH 701 and must select another approved 700 level course listed in the Postgraduate Certificate in Public Health Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Head of School of Population Health prior to enrolment.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

Postgraduate Certificate in Stroke Care – PGCertStrokeCare

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for a Bachelor’s degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points of the most advanced courses, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has not met the above requirements, but who has attained extensive relevant professional experience deemed to be equivalent to the requirements in Regulation 1.

Note: Relevant subjects may include clinical exercise physiology, counselling, dietetics, medicine, nursing, nutrition, occupational therapy, optometry, paramedicine, pharmacy, physiotherapy, psychology, social work, and speech language therapy.
Duration and Total Points Value
3 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates
   and
   c not exceed 90 points for the total enrolment for this postgraduate certificate.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Stroke Care Schedule.
5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
7 These regulations came into force on 1 January 2022.

| Requirement: | 60 points: HLTHSCI 710, 711 |

Postgraduate Diploma in Biomedical Science – PGDipBiomedSc

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelors degree deemed relevant by Senate or its representative.
2 In exceptional circumstances Senate or its representative may approve admission of a student who does not meet the above requirements, but who has attained the equivalent qualification or relevant professional experience.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 30 points: MEDSCI 743, 744
   and
   b 90 points from courses listed in the Master of Biomedical Science Schedule, excluding MEDSCI 796.
6 The programme for each student must be approved by the Head of School of Medical Sciences prior to enrolment.
7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Postgraduate Diploma in Clinical Education – PGDipClinEd

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme a student needs to have:
   
   either
   
   a completed the requirements for a degree deemed relevant by Senate or its representative
   
   or
   
   b (i) completed the requirements for a health professional qualification deemed appropriate by Senate or its representative
   
   and
   
   (ii) have at least two years’ relevant work experience approved by the Head of School or nominee
   
   and
   
   c be currently engaged in clinical teaching or curriculum development in a health related discipline.

2 A student who has completed the requirements for either the Postgraduate Certificate in Clinical Education, or the Postgraduate Certificate in Academic Practice, or their equivalent, may, on the recommendation of the Head of School or nominee and with the approval of Senate or its representative, credit to this postgraduate diploma the courses passed for the Postgraduate Certificate in Clinical Education, or the Postgraduate Certificate in Academic Practice.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value

3 A student enrolled for this postgraduate diploma must:
   
   a pass courses with a total value of 120 points
   
   and
   
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content

5 A student enrolled for this postgraduate diploma who has completed the requirements for the Postgraduate Certificate in Clinical Education:
   
   a must pass 120 points from Option 1 in the Postgraduate Diploma in Clinical Education Schedule.
   
   b With the approval of the Head of School or nominee up to 30 points may be selected from other relevant postgraduate courses.

6 A student enrolled for this postgraduate diploma who has completed the requirements for the Postgraduate Certificate in Academic Practice must pass 120 points from Option 2 in the Postgraduate Diploma in Clinical Education Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Head of School or nominee prior to enrolment.

Distinction

9 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

11 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Diploma in Health Psychology – PGDipHealthPsych

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for a Masters Degree in Health Psychology or its equivalent, as approved by Senate or its representative.

2 A student who has not completed all of the requirements for a Masters Degree in Health Psychology (or its equivalent), but who has completed 120 points towards that degree (or its equivalent) may, with the approval of the programme director, enrol for this postgraduate diploma. The requirements for the Masters degree must be completed within 12 months of the commencement of the Postgraduate Diploma in Health Psychology. Should these requirements not be completed within these 12 months, enrolment for the Postgraduate Diploma in Health Psychology will be suspended until they are completed.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.
Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 150 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
4 The total enrolment for this postgraduate diploma must not exceed 180 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 150 points from the courses listed in the Postgraduate Diploma in Health Psychology Schedule.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Fitness to Practise Requirements
7 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme, as outlined in the Faculty of Medical and Health Sciences’ Fitness to Practise Policy.
    b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or behaviour are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Medical and Health Sciences pending the outcome of the investigation.
    c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.
    d Where a student’s enrolment in the programme has been terminated under Regulation 7c, any application to re-enrol may be declined.
    e A student whose enrolment is suspended or terminated under Regulation 7c or their application to re-enrol declined under Regulation 7d may apply to the Provost for the appeal of that decision in accordance with the policy.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2022.

Postgraduate Diploma in Health Sciences – PGDipHSc

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma a student must have:
   either
   a completed the requirements for a degree deemed relevant by Senate or its representative
   or
   b (i) completed the requirements for a health professional qualification deemed appropriate by Senate or its representative
       and
       (ii) have at least two years of relevant professional experience approved by the relevant Head of School.
2 A student who has completed the requirements for the Postgraduate Certificate in Health Sciences from this University or an equivalent qualification as approved by Senate or its representative, may on the recommendation
3 A student who has completed the requirements for the Postgraduate Diploma in Health Sciences in one specialisation may, with the permission of Senate or its representative, be admitted to the Postgraduate Diploma in Health Sciences in another specialisation.

4 To be admitted to the Medical Imaging specialisation a student must:
   a have completed a Bachelors degree in Medical Imaging
   and
   b hold current registration with the New Zealand Medical Radiation Technologists Board in the Medical Imaging Technologist scope of practice, or provide evidence of registration or other evidence of the right to work as a Medical Imaging Technologist in their country of domicile.

5 To be admitted to one of the Magnetic Resonance Imaging, Nuclear Medicine or Ultrasound specialisations a student must:
   a have completed a qualification in Medical Imaging, or a Bachelors degree in a biomedical science related field or allied health profession as approved by the Programme Director or nominee
   and
   b confirm that they have secured continuous employment in a clinical training position approved by the Programme Director or nominee for the duration of their enrolment in the programme.

Note: This programme includes some specialisations that are limited entry as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
6 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

7 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
8 Of the 120 points required for this postgraduate diploma, a student must pass:
   either
   a (i) 15 points from an approved Research Methods Course listed in the Postgraduate Diploma in Health Sciences Schedule, if such a course has not already been passed
   and
   (ii) 105 points from other courses listed in the Master of Health Sciences Schedule
   or
   b 120 points in courses from one of the areas of specialisation listed in the Postgraduate Diploma in Health Sciences Schedule.

9 A student enrolled for this postgraduate diploma who has already passed any course the same as, or similar to, those required under Regulation 7, must substitute an alternative course as approved by the relevant Head of School.

10 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

11 The programme for each student must be approved by the Head of School prior to enrolment.

Practical Requirements
12 A student enrolled for this postgraduate diploma who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Medical and Health Sciences requires.

13 Where a weakness is identified in a clinical practice component of any course, students may be required to enrol in a clinical remediation course in addition to the requirements of their programme.

Distinction
14 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
16 These regulations and/or schedule have been amended with effect from 1 January 2022.

</tbody>
</table>

Specialisations available:

### Advanced Nursing

**Requirement:**
- 120 points from HLTHSCI 700–708, NURSING 732, 733, 735, 737, 741, 742, 744–787, NURSPRAC 701–730, POPLHLTH 746, POPLPRAC 720–724, 756, 758, 760, 761, 767, 768, other 700 level courses offered at this University approved by the Head of School of Nursing

### Alcohol and Drug Studies

**Requirement:**
- 60 points: POPLHLTH 737, POPLPRAC 707, 708
- 30 points from POPLHLTH 738, 753, 768, 773, 774, POPLPRAC 712, 765
- 15 points from POPLHLTH 701, 704, 705, 767
- 15 points from HLTHMGT 721, MAORIHTH 701, PAEDS 712, POPLHLTH 736, 738, 739, 753, 768, 773, 774, POPLPRAC 707, 712, 754, 765

### Digital Health

**Requirement:**
- 120 points: DIGIHLTH 701–706, HLTHMGT 721, POPLHLTH 760 or 90 points: DIGIHLTH 701–706
- a further 30 points from DIGIHLTH 707, 708, or courses listed in the Master of Data Science or Master of Public Health Schedules excluding DATASCI 792, POPLHLTH 790, 793, 796

### Health Informatics

The PGDipHSc in Health Informatics was suspended in 2021. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

**Requirement:**
- 75 points: HLTHINFO 723, 728, 730, POPLHLTH 709, 724
- 15 points from HLTHMGT 729, 754
- 15 points from POPLHLTH 701, 706, 707, 767

### Health Promotion

**Requirement:**
- 60 points: POPLHLTH 700, 722, 733, 734
- 15 points from POPLHLTH 701, 704
- 15 points from POPLHLTH 705, 720, POPLPRAC 710, 712
- 30 points from MAORIHTH 701, 705, POPLHLTH 705, 715, 717, 718, 720, 725, 726, 736, 737, 739, 752, 766, 746, POPLPRAC 712

### Infant, Child and Adolescent Mental Health

**Requirement:**
- at least 30 points from PSYCHIAT 740, 747, 768
- at least 15 points from POPLHLTH 701, 704, 705, 708, 767
- at least 45 points from PSYCHIAT 730, 740, 741, 747, 766, 768–770, 773

### Magnetic Resonance Imaging

**Requirement:**
- up to 30 points from HLTHMGT 754, MAORIHTH 701, PAEDS 712, 719, POPLHLTH 724, 739, POPLPRAC 754, or other approved 700 level courses offered at this University

### Medical Imaging

**Requirement:**
- 75 points: MEDIMAGE 701, 702, 714, 715, 721
- 45 points: CLINIMAG 710–712

### Mental Health Nursing

**Requirement:**
- 30 points from courses listed in the Master of Health Sciences Schedule approved by the Head of School

### Nuclear Medicine

**Requirement:**
- 120 points: MEDIMAGE 701, 702, 720–724, POPLHLTH 730, 790, 793, 796

### Pacific Health

**Requirement:**
- 75 points: POPLHLTH 700, 722, 739, POPLPRAC 710, 712
- 15 points from POPLHLTH 711, 746
- 15 points from POPLHLTH 701, 704, 705
- 15 points from HLTHMGT 754, MAORIHTH 701, POPLHLTH 715, 717, 718, 720, 725, 732, 734, 735, 736, 737, 752, 765, 766

### Palliative Care

**Requirement:**
- 90 points from POPLHLTH 746, POPLPRAC 702, 720–724, SOCHLTH 732
- 15 points from POPLHLTH 701, 709
- 15 points from courses listed in the Master of Health Sciences Schedule

### Pharmaceutical Science

**Requirement:**
- 60 points: PHARMACY 750, 751
- 60 points from PHARMACY 752–754, 760, 761
- 60 points: PHARMACY 750, 751
Postgraduate Diploma in Obstetrics and Medical Gynaecology – PGDipObstMedGyn

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this programme, a student needs to:
   a. have completed the requirements for the Degree of Bachelor of Medicine and Bachelor of Surgery, or an equivalent medical qualification approved by Senate or its representative
   b. hold current registration either with the Medical Council of New Zealand or as a Medical Practitioner in the country of domicile
   c. satisfy the Dean of Faculty of Medical and Health Sciences that they have adequate access to clinical work to undertake the programme at a facility approved by the University of Auckland.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Medical and Health Sciences.

Duration and Total Points Value
2. A student enrolled for this postgraduate diploma must:
   a. pass courses with a total value of 120 points
   b. complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3. The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4. A student enrolled for this postgraduate diploma must pass 120 points from courses listed in the Postgraduate Diploma in Obstetrics and Medical Gynaecology Schedule.

5. A student enrolled for this postgraduate diploma who has already passed any course the same as, or similar to, those required under Regulation 4, must substitute an alternative course as approved by the Head of School of Medicine.

6. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Practical Requirements
7. A student enrolled for this postgraduate diploma must carry out satisfactorily such practical or clinical work as the Head of School of Medicine may require.

Distinction
8. This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
9. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2014.

The Degree of Bachelor of Science – BSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed as ‘Courses available for the BSc’ in the Bachelor of Science Schedule, including:
      (i) at least 180 points above Stage I, including at least 75 points above Stage II
      (ii) courses in a minimum of three subject codes listed in the Bachelor of Science Schedule
      (iii) (a) at least one major, as listed in the Bachelor of Science Schedule, and 15 points from a capstone course listed in the Bachelor of Science Schedule
      or
      (b) one specialisation, as listed in the Bachelor of Science Schedule.
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
   c up to 30 points from courses available for other programmes offered at this University.
3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.
4 a A student may include one or more modules from the modules available in the Bachelor of Science Schedule. If the module is completed all the courses in the module will be counted under Regulation 2a.
   b (i) One module from the Schedule of another degree may be included.
   (ii) If a module from the Schedule of another degree is completed, the courses will be counted under Regulation 2a.

General Education Exemptions
5 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for this degree at a tertiary institution before 1 January 2006
   or
   (iii) been admitted to this degree having completed 240 points or more of degree-level study at another tertiary institution.
   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.
   c A student admitted to this degree, who has completed between 120 and 235 points inclusive of degree-level study at another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:
   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses available for this degree.
A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements
6 In any course that includes assessed practical work as well as other assessed work, it may be required that a student must obtain passes in both the practical and the other work in order to pass that course as a whole. Where this is specified a student who passes the practical work but who fails the other work may, at the discretion of the Academic Head, have the result for the practical work carried forward when the course is retaken.

Conjoint Degrees
7 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
8 a In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiners as having reached a pass in an equivalent Stage I course(s), the student may be credited with the appropriate Stage I course(s).

b If a student who is enrolled in and fails an advanced or accelerated Stage I course but is certified by the examiners as having reached a pass in an equivalent Stage I course in the same subject having a lower entry requirement, the student may be credited with the latter course. The relevant Academic Head shall certify to Senate or its representative that the failed course is an advanced or accelerated course.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Science (BSc) Schedule

Courses available for the BSc:

Anthropology
Stage I courses: ANTHRO 101, 102, 107–109
Stage II courses: ANTHRO 200, 201, 205–208, 235, 252

Astrosiences
Stage I course: ASTRO 100
Stage II course: ASTRO 200

Biological Sciences
Stage I courses: BIOSCI 100–109
Stage II courses: BIOSCI 201–220
Stage III courses: BIOSCI 322–395, 399

Business Analytics
Only for students in the Information and Technology Management major
Stage II course: BUSAN 201
Stage III courses: BUSAN 300–302

Chemistry
Stage I courses: CHEM 100–150
Stage II courses: CHEM 200–260
Stage III courses: CHEM 300, 310–392, 397–399

Civil Engineering
Stage II courses: CIVIL 220, 221
Stage III course: CIVIL 322

Communication
Stage II course: COMMS 208

Computer Science
Stage I courses: COMPSCI 101–130
Stage II courses: COMPSCI 210–290
Stage III courses: COMPSCI 313–393, 399

Data Science
Stage I course: DATASCI 100

Earth Sciences
Stage I courses: EARTHSCI 102, 105, 120
Stage II courses: EARTHSCI 202–262
Stage III courses: EARTHSCI 303–372, 390, 399

Ecology
Stage III course: ECOLOG 301

Economics
Stage I courses: ECON 151, 152
Stage II courses: ECON 201, 211, 212, 221, 271
Stage III courses: ECON 301, 302, 303, 304, 311, 321, 341, 351, 352, 361, 372, 374, 375

Education
Stage II course: EDUC 201
Stage III course: EDUC 323
Electrical Engineering
Only for students in the Physics major
Stage II courses: ELECTENG 209, 292
Stage III course: ELECTENG 303, 331

Engineering Science
Stage III course: ENGSCI 391

Environmental Change
Stage I course: ENVCHG 100
Stage III course: ENVCHG 300

Environmental Engineering
Stage III course: ENVENG 333

Environmental Physics
Stage I course: ENVPHYS 100
Stage II course: ENVPHYS 200
Stage III courses: ENVPHYS 300, 301, 370, 399

Environmental Science
Stage I course: ENVSCI 101
Stage II courses: ENVSCI 201, 203, 204
Stage III courses: ENVSCI 301, 303, 304, 390, 399

Exercise Sciences
Stage I courses: EXERSCI 101–105
Stage II courses: EXERSCI 201–210, 271
Stage III courses: EXERSCI 301–310, 371, 399

Finance
Only for students in a Mathematics or Statistics major with a Grade Point Average of at least 5 and a B grade or higher in MATHS 120 and 130, or 153
Stage II course: FINANCE 261
Stage III courses: FINANCE 361, 362

Food Science
Stage I course: FOODSCI 100, 110
Stage II courses: FOODSCI 200, 202
Stage III courses: FOODSCI 301, 303, 306, 310, 399

Geographic Information Science
Stage II courses: GISCI 241, 242, 243
Stage III courses: GISCI 341, 343, 344, 390, 399

Geography
Stage I courses: GEOG 101–140
Stage II courses: GEOG 202–262
Stage III courses: GEOG 302–399

Information Management
Only for students in the Information and Technology Management major
Stage I course: INFOMGMT 192
Stage III course: INFOMGMT 399

Information Systems
Stage II courses: INFOSYS 220–222
Stage III courses: INFOSYS 300, 302–306, 321, 341

Innovation and Entrepreneurship
Only for students in the Biological Sciences major (Biotechnology pathway) and Information and Technology Management major
Stage II course: INNOVENT 203
Stage III course: INNOVENT 307

Linguistics
Stage I courses: LINGUIST 100, 101, 103
Stage II courses: LINGUIST 200, 201
Stage III courses: LINGUIST 300, 301, 305

Logic and Computation
Stage II course: LOGICOMP 201
Stage III courses: LOGICOMP 300–302

Māori Studies
Stage I course: MĀORI 130

Marine Science
Stage I course: MARINE 100
Stage II course: MARINE 202, 203
Stage III courses: MARINE 302–306, 399

Mathematics
Stage I courses: MATHS 102–199
Stage II courses: MATHS 200–270
Stage III courses: MATHS 302–384, 399

Medical Imaging
Only for students in the Biomedical Science specialisation
Stage III courses: MEDIMAGE 300, 302

Medical Science
Stage I course: MEDSCI 142
Stage II courses: MEDSCI 201–206
Stage III courses: MEDSCI 300–321

Pacific Studies
Stage I course: PACIFIC 100

Philosophy
Stage I courses: PHIL 101, 104
Stage II courses: PHIL 200, 210, 216, 222, 250, 260, 261, 263
Stage III courses: PHIL 315, 351

Pharmacology
Stage III course: PHARMCOL 399

Physics
Stage I courses: PHYSICS 100, 102–160
Stage II courses: PHYSICS 201–244
Stage III courses: PHYSICS 331–390, 399

Physiology
Stage III course: PHYSIOL 399

Psychology
Stage I courses: PSYCH 108, 109
Stage II courses: PSYCH 200–209
Stage III courses: PSYCH 300–320, 326–328, 399
### Science General

**Stage I course:** SCIGEN 101  
**Stage II course:** SCIGEN 201  
**Stage III courses:** SCIGEN 301, 310, 399

### Science Scholars

*Only for Science Scholars students*

**Stage I course:** SCISCHOL 100  
**Stage II course:** SCISCHOL 202  
**Stage III course:** SCISCHOL 302

### Statistics

**Stage I courses:** STATS 100–150  
**Stage II courses:** STATS 201–290

### Sustainability

*Only for students in the Geographic Information Science major*

**Stage I course:** SUSTAIN 100  
**Stage II course:** SUSTAIN 200  
**Stage III course:** SUSTAIN 300

### Urban Planning

**Stage I course:** URBPLAN 103  
**Stage II courses:** URBPLAN 203, 205

### Wine Science

**Stage II course:** WINESCI 201

### Capstone courses available:

ANTHRO 399, BIOMED 399, BIOSCI 399, CHEM 397–399, COMPSCI 399, DATASCI 399, EARTHSCI 399, ENVPHYS 399, ENVSCI 399, EXERSCI 399, FOODSCI 399, GEOG 399, GISCI 399, INFOSYS 310, INFORMGMT 399, LOGICOMP 399, MARINE 399, MATHS 399, PHARMCOL 399, PHYSICS 399, PHYSIOL 399, PSYCH 399, SCIGEN 399, STATS 399

### BSc majors:

#### Anthropological Science
- 30 points from ANTHRO 107–109
- 30 points: ANTHRO 200, 201
- 15 points from ANTHRO 205–208, 235, 252
- 45 points from ANTHRO 306, 309, 317, 322, 337, 349, 352, 353, 365, 377

#### Biological Sciences

*either*
- 60 points: BIOSCI 101, 108, 109, STATS 101
- 15 points: BIOSCI 220
- a further 30 points from BIOSCI 201–290
- 45 points from BIOSCI 301–395, MARINE 303

or one of the following pathways:

- **Biochemistry and Cell Biology**
  - 75 points: BIOSCI 101, 106, 108, 109, STATS 101
  - 15 points from CHEM 110, 120
  - 45 points: BIOSCI 201, 203, 220
  - 30 points: BIOSCI 350, 353
  - 15 points from BIOSCI 326, 349, 351, 355, 356

- **Biotechnology**
  - 75 points: BIOSCI 101, 106, 108, 109, STATS 101
  - 15 points from CHEM 110, 120, 150
  - 75 points: BIOSCI 203, 204, 220, INNOVENT 203, SCIGEN 201
  - 15 points: INNOVENT 307
  - 45 points from BIOSCI 324, 326, 347, 348

- **Ecology**
  - 60 points: BIOSCI 101, 108, 109, STATS 101
  - 30 points: BIOSCI 206, 220
  - 15 points from BIOSCI 204, 205, 207, 208
  - 15 points from ENVSCI 201, MARINE 202, STATS 201
  - 15 points: BIOSCI 333
  - 15 points: BIOSCI 394
  - 15 points from BIOSCI 325, 334, 338, 347, MARINE 303

- **Evolution**
  - 60 points: BIOSCI 101, 108, 109, STATS 101
  - 45 points: BIOSCI 202, 210, 220
  - 45 points: BIOSCI 322, 355, 395

- **Genetics**
  - 60 points: BIOSCI 101, 108, 109, STATS 101
  - 15 points from CHEM 110, 120, 150
  - 45 points: BIOSCI 201, 202, 220
  - 30 points: BIOSCI 351, 355
  - 15 points from BIOSCI 322, 324, 326, 347, 349, 353, 356

#### Marine Biology

- 60 points: BIOSCI 101, 108, 109, STATS 101
- 30 points: BIOSCI 206, 220
- 15 points from BIOSCI 207, 208
- 45 points: BIOSCI 328, 333, 334

#### Microbiology

- 75 points: BIOSCI 101, 106, 108, 109, STATS 101
- 15 points from CHEM 110, 120, 150
- 15 points from BIOSCI 201, 202, 203
- 30 points: BIOSCI 204, 220
- 30 points: BIOSCI 347, 348
- 15 points from BIOSCI 324, 349

#### Plant Biology

- 60 points: BIOSCI 101, 108, 109, STATS 101
- 30 points: BIOSCI 205, 220
- 15 points from BIOSCI 202, 203, 204, 206
- 45 points: BIOSCI 324, 325, 326

#### Zoology

- 60 points: BIOSCI 101, 108, 109, STATS 101
- 60 points: BIOSCI 207, 208, 210, 220
- 30 points: BIOSCI 335, 337
- 15 points from BIOSCI 334, 338

#### Biotechnology

*The BSc in Biotechnology was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.*

*Not available for conjoints*

**Major must include:**
- 60 points: BIOSCI 101, 106, 107, CHEM 110 or 120
- 90 points: BIOSCI 201–204, SCIGEN 201, STATS 101, 108 or BIOSCI 209
- 60 points: BIOSCI 350, 351, 349 or 356, 353 or 354
- 30 points: INNOVENT 203, 204
- 30 points from BIOSCI 340, 347, 348, MEDSCI 314

#### Chemistry

- 30 points: CHEM 110, 120
- 15 points from MATHS 108, 110, 130, PHYSICS 120
- 45 points: CHEM 251, 282, 253
- 15 points: CHEM 351
- 30 points from CHEM 310, 320, 330, 340, 360, 380, 390
Computer Science
• 45 points: COMPSCI 110, 120, 130
• 45 points: COMPSCI 210, 220, 230
• 45 points from COMPSCI 300–379

Earth Sciences
• 30 points: EARTHSCI 120, GEOG 101
• 15 points: EARTHSCI 220
• 30 points from EARTHSCI 202, 203, 208, 261, 262
• 15 points: EARTHSCI 320
• 30 points from EARTHSCI 303–372, 390, GEOG 331, 332, 334, 351

Ecology
The BSc in Ecology was suspended in 2018. Students who have a current enrolment in this major should contact their faculty for advice regarding completion.

• 75 points: BIOSCI 101, 104, ENVSCI 101, GEOG 101, STATS 101 or 108
• 45 points: BIOSCI 206, 209, ENVSCI 201
• at least 15 points from BIOSCI 333, 394, 396, MARINE 303
• 45 points from ANTHRO 349, BIOSCI 320–337, 347, 394–396, ENVSCI 301, GEOG 317–320, 330–332

Environmental Physics
• 15 points: ENVPHY 100
• 15 points from PHYSICS 120, 160
   • either
   • 30 points: MATHS 108 or 110, 208
   • 45 points: MATHS 120, 130, 250
• 15 points from MATHS 253, 260
• 45 points: ENVPHY 200, 300, PHYSICS 201
• 15 points from PHYSICS 361, PHYSICS 332
• 45 points from COMPSCI 361, EARTHSCI 320, 361, ENVPHYS 300, 301, 370, GEOG 334, 335, GISCI 341, MARINE 302, MATHS 361–363, PHYSICS 331–334, 340

Environmental Science
• 15 points: ENVSCI 101
• 15 points from STATS 101, 108
• 30 points: ENVSCI 201, 203
• 15 points from BIOSCI 206, 220, CHEM 260, EARTHSCI 261, 262, GEOG 205, 210, 250, 261, 262, GISCI 241, 242, MARINE 202
• 30 points: ENVSCI 301, 303
• 15 points from BIOSCI 394, CHEM 360, ENVCHG 300, ENVSCI 304, 390, GEOG 334, 352, GISCI 341, MARINE 302, 303

Exercise Sciences
• 45 points: EXERSCI 101, 103, 105
• 45 points from EXERSCI 201, 203, 205, 207
• 45 points from EXERSCI 301, 303, 304, 305, 307
• or the following pathway:
  Applied Exercise and Sport Sciences
  • 45 points: EXERSCI 101, 103, 105
  • 80 points: EXERSCI 201, 203, 205, 206, 207, 271
  • 90 points: EXERSCI 301, 303, 305, 307, 371, 399

Geographic Information Science
• 15 points from COMPSCI 130, STATS 101, 108, URBPLAN 125
• a further 30 points from COMPSCI 130, GEOG 101–140, STATS 101, URBPLAN 103
• 30 points: GISCI 241, 242
• 15 points from BIOSCI 220, COMPSCI 230, ENVSCI 203, STATS 201, 220, URBPLAN 203, 205
• 30 points from GEOG 342, GISCI 341, 343, 344
• a further 15 points from COMPSCI 313–373, GEOG 342, GISCI 341,
  343, 390, SCIGEN 301, STATS 301–389

Geography
• 30 points: GEOG 101, 102
• 15 points: GEOG 250
• 15 points from GEOG 202, 205, 261, 262
• a further 15 points from GEOG 202, 205, 261, 262, GISCI 241, 242
• 45 points from GEOG 302–390, GISCI 341–344

Information and Technology Management
• 45 points: COMPSCI 101 or 130, INFOMGMT 192, INFOSYS 110
• 30 points: BUSAN 201, COMPSCI 230 or INFOSYS 220
• 15 points from COMPSCI 215, INFOSYS 221, INNOVENT 203, OPSMGT 258, SCIGEN 201
• 45 points from BUSAN 300–302, 305, COMPSCI 345, INFOSYS 300, 302–306, 321, 341, OPSMGT 357

Logic and Computation
• 30 points: COMPSCI 120, PHIL 101
• 15 points from COMPSCI 130, LINGUIST 100, PHIL 105
• 15 points from COMPSCI 220, LINGUIST 200, PHIL 216
• 15 points from COMPSCI 225, MATHS 254, 255
• 15 points: PHIL 222
• 30 points: COMPSCI 350, PHIL 315
• 30 points from COMPSCI 320, 367, LINGUIST 300, LOGICOMP 301, MATHS 315, PHIL 306, 322, 323

Marine Science
• 30 points: MARINE 100, STATS 101
• 15 points from BIOSCI 108, 109
• 15 points from GEOG 101, 103
• 15 points: MARINE 202
• 15 points from BIOSCI 220, ENVSCI 203, STATS 201
• 15 points from BIOSCI 206, 208, GEOG 262, GISCI 241
• 15 points: MARINE 302
• 30 points from BIOSCI 328, 333, 334, EARTHSCI 303, 360, GEOG 351, MARINE 303, 305, 306

Mathematics
either
• 45 points from MATHS 120, 130, 162, 199
• 15 points: MATHS 250
• 30 points from MATHS 253, 254, 255, 260, 270
• 45 points from MATHS 302–363
or one of the following pathways:
  Applied Mathematics
  • 45 points from MATHS 120, 130, 162, 199
  • 45 points: MATHS 250, 260, 270
  • 30 points: MATHS 340, 361
  • 15 points from MATHS 362, 363
  Pure Mathematics
  • 45 points from MATHS 120, 130, 162, 199
  • 45 points: MATHS 250, 253, 254, 255
  • 30 points: MATHS 320, 322
  • 15 points from MATHS 315, 326, 328, 333, 340

Pharmacology
• 75 points: CHEM 110, MEDSCI 142, 204, 318, 319
• 15 points from BIOSCI 106, 107
• 30 points from BIOSCI 203, MEDSCI 203, 205, 206
• 15 points from MEDSCI 320, PHARMCOL 399

Physics
either
• 15 points from PHYSICS 120, 160
• 15 points: PHYSICS 121
Biomedical Science

BSc specialisations:

- Physiology
  - 30 points: BIOSCI 107, MEDSCI 142
  - 15 points from CHEM 110, PHYSICS 120 or 160
  - 30 points: MEDSCI 205, 206
  - 15 points from MEDSCI 201, 204
  - 45 points from MEDSCI 309, 311, 312, 316, 317

- Anatomy Imaging Science
  - 90 points: BIOSCI 101, 106, 107, CHEM 110, MEDSCI 142, PHYSICS 160
  - 15 points from BIOSCI 201–203

Studies in Urban Wellbeing
Note: This module was suspended in 2021. Students who have a current enrolment in this module should contact their faculty for advice regarding completion.
• 30 points: GEOG 104, SOCSCIPH 200
• 15 points from GEOG 305, 307, SOCSCIPH 300

Sustainability
• 45 points: SUSTAIN 100, 200, 300

The Degree of Bachelor of Advanced Science (Honours) – BAdvSci(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of eight full-time semesters and pass courses with a total value of 480 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

2 The total enrolment in 700 level courses for this degree must not exceed 160 points.

Structure and Content
3 Of the 480 points required for this degree, a student must pass:
   a at least 420 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including
      (i) at least 300 points above Stage I, including at least 210 points above Stage II
      (ii) courses in a minimum of three subject codes
      (iii) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (iv) a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (v) the core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   c up to 30 points from courses available for other programmes offered at this University.

4 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

5 a A student may include one or more modules from the modules available in the Bachelor of Science Schedule.
   b (i) One module from the Schedule of another degree may be included.
   (ii) If a module from the Schedule of another degree is completed, the courses will be counted under Regulation 3a.

6 A student must achieve a Grade Point Average of 5.0 or higher in each successive two semesters of full-time enrolment, or the part-time equivalent, taken towards this degree. If this Grade Point Average is not achieved, enrolment in the Bachelor of Advanced Science (Honours) cannot continue.

Dissertation / Research Project
7 a The dissertation or research project is to be carried out under the guidance of a supervisor appointed by the relevant Academic Head or nominee.
b  The dissertation or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c  The dissertation or research project is to be completed and submitted in accordance with the Completion of Requirements and Submission regulations of the General Regulations – Bachelors Honours Postgraduate Degrees.

General Education Exemptions

8  a  A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:

   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 240 points of degree level study at another tertiary institution.

b  A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

c  A student admitted to this degree having completed between 120 and 135 points of degree level study from another tertiary institution, or who has completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations, must pass:

   (i) 15 points from courses offered in the General Education Schedules
   and
   (ii) a further 15 points from courses available for this degree.

d  A student who has been fully or partially exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Practical Requirements

9  In any course that includes assessed practical work as well as other assessed work, it may be required that a student must obtain passes in both the practical and the other work in order to pass that course as a whole. Where this is specified, a student who passes the practical work but who fails the other work may in these circumstances, at the discretion of the Academic Head, have the result for the practical work carried forward when the course is retaken.

Conjoint Degrees

10  Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases

11  a  In exceptional circumstances Senate or its representative may permit a suitably qualified student to enrol directly in a Stage II course(s). If the student fails the Stage II course(s) but is certified by the examiners as having reached a pass in an equivalent Stage I course(s), the student may be credited with the appropriate Stage I course(s).

b  If a student who is enrolled in and fails an advanced or accelerated Stage I course but is certified by the examiners as having reached a pass in an equivalent Stage I course in the same subject having a lower entry requirement, the student may be credited with the latter course. The relevant Academic Head shall certify to Senate or its representative that the failed course is an advanced or accelerated course.

Reassignment

12  A student may apply to reassign courses passed to the Postgraduate Diploma in Science and/or the Bachelor of Science.

Honours

13  a  Honours will be awarded in one of three classes: First Class Honours, Second Class Honours, or Third Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b  The class of Honours is determined by the student’s overall grade in all 700 level courses enrolled in towards this degree as follows:

   7.0 to 9.0 – First Class Honours
   5.5 to 6.9 – Second Class Honours First Division
   4.0 to 5.4 – Second Class Honours Second Division
   3.9 and below – Third Class Honours
Variations
14 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
15 These regulations and/or schedule have been amended with effect from 1 January 2022.

| 60 points: BIO SCI 202 or 203, COMP SCI 220, 225, BIO SCI 220 or STATS 201 |
| a further 15 points from any Stage II course in Biological Sciences |
| 15 points: COMP SCI 369 |
| 15 points from STATS 330, 331 |
| 15 points from any Stage III course in Biological Sciences |
| 15 points from Stage III courses in Biological Sciences, Computer Science, Mathematics, Statistics |
| 45 points: BIO SCI 700, 701, 702 |
| 45 points from any 700 level course in Biological Sciences, Computer Science, Mathematics, Statistics |
| 30 points: COMP SCI 789 Research Project |
Computer Science

- 45 points: COMPSCI 110, 120, 130
- 60 points: COMPSCI 210, 220, 230, 289
- 15 points from COMPSCI 215, 225, 235
- 60 points from COMPSCI 313, 315, 316, 320, 331, 335, 340, 345, 350, 351, 367, 369, 373
- 15 points: COMPSCI 389
- 60 points from COMPSCI 701–710, 711, 715, 720, 725, 726, 727, 732, 734, 742, 747, 750–753, 760, 765, 767, 773
- 30 points from any relevant 700 level course with Head of Department approval
- 30 points: COMPSCI 789 Research Project

Marine Science

- 30 points: MARINE 100, STATS 101
- 15 points from BIOSCI 108, 109
- 15 points from GEOG 101, 103
- 15 points: MARINE 202
- 15 points from BIOSCI 220, ENVSCI 203, STATS 201
- 15 points from BIOSCI 206, 208, GEOG 262, GISCI 241
- 30 points: MARINE 302, 304
- 45 points from BIOSCI 328, 333, 334, EARTHSCI 303, 360, GEOG 351, MARINE 303, 305, 306
- 30 points: MARINE 701, 702
- 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
- 15 points from BIOSCI 724, 725, 727, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMTG 742, 744, ENVSCI 704, 714, FOODSCI 703, 708, GEOG 730, 748, 771, MARINE 703, 707
- 60 points: MARINE 780 Dissertation

Mathematics

- 45 points: MATHS 120, 130, 162, 199
- 60 points: MATHS 250, 253, 254, 260
- 60 points: MATHS 320, 332, 340, 361
- 15 points from MATHS 362, 363
- 90 points from MATHS 701–789
- 30 points: MATHS 776 Research Project

Physics

- 45 points: MATHS 120, 130, PHYSICS 121
- 15 points: MATHS 250
- 15 points from MATHS 253, 260
- 60 points: PHYSICS 201, 202, 203, 244
- 60 points from PHYSICS 331–380
- 15 points: PHYSICS 390
- 75 points from PHYSICS 701–780
- 45 points: PHYSICS 786 Dissertation

Psychology

- 60 points: PSYCH 108, 109, 306, 779
- 15 points from STATS 100–125
- 45 points from PSYCH 200–209
- 45 points from EDUC 323, EXERSCI 307, PSYCH 300, 303, 305, 308–320, 326–328, 370
- 15 points from PSYCH 743, 744
- a further 60 points from PSYCH 700–770
- 30 points: PSYCH 780 Research Project
or the following pathway:

Cognitive Neuroscience

- 30 points: PSYCH 108, 109
- 15 points from STATS 100–125
- 45 points from PSYCH 201, 202, 203
- 60 points from PSYCH 303, 305, 306, 370
- 15 points: PSYCH 744
- 60 points from PSYCH 708, 714, 721, 724, 727, 736, 740, 742, 746, 756
- 15 points: PSYCH 775
- 30 points: PSYCH 780 Research Project

Statistics

- 15 points from STATS 101, 108

- 30 points from ENGSNI 391, STATS 301, 302, 320, 326, 330, 331,
The Degree of Bachelor of Science (Honours) – BSc(Hons)

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this degree, a student must have:
   a. completed the requirements for the Degree of Bachelor of Science from this University including at least 90 points above Stage II or the equivalent as approved by Senate or its representative
   b. met the prerequisites for one of the specialisations listed in the Bachelor of Science (Honours) Schedule and attained a Grade Point Average of 5.0 or higher in 45 points above Stage II in the relevant prerequisite or equivalent.

2. A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed:
   a. courses with a total value of at least 345 points towards that degree including the requirements of the major as specified in the regulations for the Bachelor of Science
   b. the Stage III entry requirements for this degree
   may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol for this degree.

3. The requirements for the Bachelor of Science degree must be completed within 12 months of initial enrolment for the Bachelor of Science (Honours). The Bachelor of Science (Honours) will not be awarded until the requirements for the Bachelor of Science have been completed.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.
(ii) Applicants to Preparatory Clinical Psychology must be able to demonstrate professional attributes suitable for becoming a clinical psychologist. A written supplementary application, personal references and an interview will normally be required.

Duration and Total Points Value
3. A student enrolled for this degree must:
   a. pass courses with a total value of 120 points
   b. complete within the time limit specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

4. The total enrolment for this degree must not exceed 160 points.

Structure and Content
5. A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Bachelor of Science (Honours) Schedule.
6. A dissertation or research project between 30 and 60 points must be included. The total points value of the dissertation/research project and research preparation course in the subject must not exceed 60 points.
7. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
8. Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.

Dissertation / Research Project
9. a. The dissertation or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative, on the recommendation of the relevant Academic Head or nominee.
   b. The dissertation or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c. The dissertation or research project is to be completed and submitted in accordance with the General Regulations – Bachelors Honours Postgraduate Degrees.
Reassignment
10 A student may apply to reassign courses passed to the Postgraduate Diploma in Science.

Honours
11 This degree may be awarded with Honours as specified in the General Regulations – Bachelors Honours Postgraduate Degrees.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

Bachelor of Science (Honours) (BSc(Hons)) Schedule

Specialisations available:

Applied Mathematics
Prerequisite: A major in Mathematics, or its equivalent approved by the Academic Head or nominee, including MATHS 340, 361 and MATHS 362 or 363, or equivalent courses approved by the Academic Head or nominee
Requirement:
• at least 45 points from MATHS 761–770
• up to 45 points from approved 700 level courses in Mathematics or related subjects with approval of the Head of Department
• 30 points: MATHS 776 Research Project

Bioinformatics
The BSc(Hons) in Bioinformatics was suspended in 2020. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

Prerequisite: A major in Biological Sciences, or its equivalent approved by the Academic Head or nominee and COMPSCI 220 or an equivalent course approved by the Academic Head or nominee.
Requirement:
• 45 points: BIOINF 702, 704, BIOSCI 702
• 30 points from BIOSCI 733, 737, 752, 755–758, COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 761, 783, 784
• 45 points: BIOINF 789 Research Project

Biological Sciences
Prerequisite: A major in Biological Sciences, or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: BIOSCI 762
• 60 points from BIOSCI 700–704, 724–746, 749–759, 764–765
• 45 points from BIOSCI 700–704, 724–759, 764–765 and a further 15 points, subject to approval by the Academic Head or nominee, from 700 level courses in a related subject
• 45 points: BIOSCI 788 Dissertation

Biotechnology
Prerequisite: A major in Biotechnology, or its equivalent approved by the Academic Head or nominee
Requirement:
• 30 points: BIOSCI 762, SCIENT 703
• 15 points from BIOSCI 701, 704
• a further 30 points from BIOSCI 700–702, 736–738, 741, 746, 749, 751–760, 764–765
• 45 points: BIOTECH 788 Dissertation

Chemistry
Prerequisite: A major in Chemistry, or its equivalent approved by the Academic Head or nominee
Requirement:
• 60 points from CHEM 710–780
or
• 45 points from CHEM 710–780
• 15 points from approved 700 level courses offered at this University
• 60 points: CHEM 793 Dissertation

Computer Science
Prerequisite: A major in Computer Science, or its equivalent approved by the Academic Head or nominee
Requirement:
• at least 60 points from BIOSCI 700, COMPSCI 701–716, 720–777
• up to 30 points from 700 level courses in a related subject with approval of the Head of Department
• 30 points: COMPSCI 789 Research Project

Earth Sciences
Prerequisite: A major in Earth Sciences, Geography, Geology, or its equivalent approved by the Academic Head or nominee including 45 points at Stage III in Earth Sciences or Geology or GEOG 330, 331, 334, 351, 360 or equivalent courses approved by the Academic Head or nominee
Requirement:
• at least 60 points from EARTHSCI 703–780, GEOG 730, 745, 746, 749, 770–772, GEOPHYS 760, 781
• up to 30 points from 700 level courses as approved by the Programme Coordinator
• 30 points: EARTHSCI 789 Research Project

Environmental Physics
Prerequisite: A major in Environmental Physics, Geophysics, Physics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points from EARTHSCI 764, ENVPHYS 700–703, PHYSICS 743
• a further 45 points from ENVPHYS 700–703, 770 or other 600 or 700 level courses in Earth Sciences, Geography, Mathematics, or Physics offered at this University approved by the Academic Head or nominee
• 30 points: ENVPHYS 780 Research Project

Exercise Sciences
Prerequisite: A major in Exercise Sciences, or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: EXERSCI 705
• at least 30 points from EXERSCI 704, 706, 708, 711
• up to 15 points from other 700 level courses offered at this University approved by the Academic Head or nominee
Food Science
Prerequisite: A specialisation in Food Science and Nutrition (Food Science Pathway) or its equivalent approved by the Academic Head or nominee
Requirement:
• at least 30 points from CHEMMAT 757, FOODSCI 706–710
• up to 30 points from MEDSCI 709, 710, BIOSCI 741 or other courses approved by Programme Director
• 60 points: FOODSCI 788 Dissertation

Geography
Prerequisite: A major in Earth Sciences, Geographic Information Science or Geography, or its equivalent approved by the Academic Head including 45 points at Stage III in Geography or equivalent courses approved by the Academic Head or nominee
Requirement:
• 15 points: GEOG 701
• at least 60 points from EARTHSCI 705, 713, 732, ENVMGT 741–762, ENVSCI 704, 713, 737, 738, GEOG 712–779
• up to 15 further points, subject to approval by the Academic Head
• 30 points: GEOG 789 Research Project

Green Chemical Science
Prerequisite: A major or specialisation in Chemistry or Green Chemical Science, or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director
Requirement:
• 30 points from CHEM 710–751, 780
• 30 points: CHEM 760, ENVSCI 714
• 60 points: CHEM 793 Dissertation

Logic and Computation
Prerequisite: A major in Logic and Computation or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points from COMPSCI 720, 750, 760, 767
• 15 points from PHIL 736–738
• 60 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738
• 30 points: LOGICOMP 782 Research Project

Mathematics
Prerequisite: A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332
Requirement
either
• 90 points from MATHS 701–710, 712–770, 781–784, 786–789
• at least 45 points from MATHS 701–710, 712–770, 781–784, 786–789 and up to 45 points from other approved 700 level
• 30 points: MATHS 776 Research Project

Medical Physics and Imaging Technology
Prerequisite: A major in Physics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points: MEDSCI 703, 737, PHYSICS 780
• 15 points: PHYSICS 743
• 15 points from MEDSCI 701–740, PHYSICS 703–780, 791, 792
• 45 points: PHYSICS 787 Dissertation

Medicinal Chemistry
Prerequisite: A specialisation in Medicinal Chemistry or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: CHEM 735
• 45 points from CHEM 710–780, BIOSCI 757, 759, MEDSCI 700, 708, 715, 716, 721, 722
• 60 points: CHEM 793 Dissertation

Pharmacology
Prerequisite: A major in Pharmacology or its equivalent approved by the Academic Head or nominee
Requirement:
• 60 points from MEDSCI 700, 701, 715–723, 744, 745
• 45 points from MEDSCI 700, 701, 715–723, 744, 745
• 15 points from 700 level courses in a related subject approved by the Head of Department
• 60 points: PHARMCOL 787 Dissertation

Photonics
Prerequisite: A major in Physics or its equivalent approved by the Academic Head or nominee including ELECTENG 209 and ELECTENG 210 or 292, and ELECTENG 303 or 331 or equivalent courses approved by the Academic Head or nominee
Requirement:
• 15 points from PHYSICS 726, 752
• at least 15 points from ELECTENG 726, 732, PHYSICS 743
• up to 45 points from other 600 or 700 level courses in Physics or related subjects approved by the Head of Department
• 45 points: PHYSICS 787 Dissertation

Physics
Prerequisite: A major in Physics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points from PHYSICS 703–780
and either
• a further 45 points from GEOPHYS 761–780, MATHS 720, 725, 761–770, PHYSICS 703–780, 791, 792
• up to 30 points from other approved 700 level courses offered at this University
• 30 points: PHYSICS 789 Research Project

Physiology
Prerequisite: A major in Physiology or its equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: MEDSCI 743
• 45 points from MEDSCI 701, 703, 717, 727–734, 737, 739, 744
• 60 points: PHYSIOL 787 Dissertation

Psychology
Prerequisite: A major in Psychology or its equivalent approved by the Academic Head or nominee including PSYCH 306, or PSYCH 211, 323, 324, 325, or an equivalent course approved by the Academic Head or nominee
Requirement:
• 15 points: PSYCH 779
• 75 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–778
• 30 points: PSYCH 780 Research Project
or
Preparatory Clinical Psychology
• 15 points: PSYCH 779
The Degree of Master of Biotechnology – MBiotech

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a the Degree of Bachelor of Science from this University in a relevant major with a Grade Point Average of 4.0 or higher in 75 points above Stage II in Biological Sciences, or the equivalent as approved by Senate or its representative
   or
   b (i) a Bachelors degree in a relevant subject as approved by Senate or its representative
      and
      (ii) passed 60 points in the Postgraduate Diploma in Science in Biotechnology or Biological Sciences from this University with a Grade Point Average or 4.0 or higher, provided that the postgraduate diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:

(i) Relevant subjects may include biochemistry, biological sciences, biomedical sciences, biotechnology, cell biology, genetics, molecular biology.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value

2 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content

4 a A student enrolled for this degree must complete the requirements as listed in the Master of Biotechnology Schedule, which may include the requirements for one of the specialisations listed.

   b A student must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses prior to enrolment in BIOTECH 792. If this Grade Point Average is not achieved, enrolment in the Master of Biotechnology cannot continue.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation

6 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

   c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.
Reassignment
7 A student may apply to reassign courses passed to the Postgraduate Diploma in Science in Biotechnology or Biological Sciences.

Transfer from Postgraduate Diploma in Science
8 A student who has passed courses towards a Postgraduate Diploma in Science in Biotechnology or Biological Sciences and is eligible to be admitted to this degree may apply to reassign those courses to the Master of Biotechnology provided that the postgraduate diploma has not been awarded.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
11 These regulations came into force on 1 January 2022.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:

   either
   a the Degree of Bachelor of Science in a relevant subject from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b (i) a Bachelors degree in a relevant subject as approved by Senate or its representative
   and
(ii) passed at least 60 points towards the Postgraduate Diploma in Science in Chemistry from this University with a Grade Point Average of 4.0 or higher, provided the postgraduate diploma has not been awarded.

Note: Relevant subjects may include chemistry, chemical and materials engineering, food science.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Chemistry Schedule, which may include the requirements for one of the specialisations listed.

5 A student must achieve a Grade Point Average of 5.0 or higher in at least 60 points of taught courses prior to enrolment in CHEM 794. If this Grade Point Average is not achieved, a student must enrol in FOODSCI 791.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation / Research Project
7 a The dissertation or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b The dissertation or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment in CHEM 791 or 794.

   c The dissertation or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for the Postgraduate Diploma in Science in Chemistry.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
11 These regulations will come into force on 1 January 2023.

Specialisations available:

Analytical Chemistry
- 45 points: CHEM 740, 741, 795
- 30 points from FOODSCI 706, 740, FORENSIC 703, 704
- at least 60 points from CHEM 710, 712, 720, 730, 735, 738, 750, 760
- up to 15 points from other 700 level courses offered at this University approved by the Academic Head or nominee
- 30 points: CHEM 791 Research Project

or

- 45 points: CHEM 740, 741, 795
- 30 points from FOODSCI 706, 740, FORENSIC 703, 704
- at least 30 points from CHEM 710, 712, 720, 730, 735, 738, 750, 760, 780
- up to 15 points from other 700 level courses offered at this University approved by the Academic Head or nominee

Materials Science
- 90 points: CHEM 710, 712, 780, 795, CHEMMAT 724, 725
- at least 45 points from CHEM 720, 730, 735, 738, 740, 741, 750, 760
- up to 15 points from other 700 level courses offered at this University approved by the Academic Head or nominee
The Degree of Master of Data Science – MDataSci

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1. In order to be admitted to this degree, a student must have completed the requirements for:
   a. (i) the Degree of Bachelor of Science in Data Science from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Science with a major in Computer Science and a major in Statistics from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b. (i) the Degree of Bachelor of Science with a major in Computer Science or Statistics from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   (ii) COMPSCI 130, MATHS 108, and STATS 101 or equivalent courses approved by the Academic Head or nominee.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value

2. A student admitted to this degree under Regulation 1a must:
   a. pass courses with a total value of 180 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 220 points for the total enrolment in this degree.

3. A student admitted to this degree under Regulation 1b must:
   a. pass courses with a total value of 240 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c. not exceed 280 points for the total enrolment in this degree.

Structure and Content

4. a. A student enrolled for this degree must complete the requirements as listed in the Master of Data Science Schedule.
   b. A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses prior to enrolment in DATASCI 792. If this Grade Point Average is not achieved, enrolment in the Master of Data Science cannot continue.
   c. A student who has to complete 240 points must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses prior to enrolment in DATASCI 792. If this Grade Point Average is not achieved, enrolment in the Master of Data Science cannot continue.

5. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation

6. a. The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b. The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c. The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.
Reassignment
7 A student who does not achieve the Grade Point Average specified in Regulation 4 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science.

Honours
8 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Data Science (MDataSci) Schedule
A student who has to complete 180 points must satisfy the following requirements:

<table>

The Degree of Master of Ecology – MEcology
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a the Degree of Bachelor of Science in a relevant major from this University with a Grade Point Average of 4.0 or higher in 45 points above Stage II in Biological Sciences, or the equivalent as approved by Senate or its representative
   or
   b (i) a Bachelors degree in a relevant subject as approved by Senate or its representative and
   (ii) passed 60 points in the Postgraduate Diploma in Science in a relevant subject from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Notes:
(i) A relevant subject may be in biological sciences, biosecurity and conservation, biotechnology, ecology
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
3 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
4 The total enrolment for this degree must not exceed 220 points.

Structure and Content
5 a A student enrolled for this degree must complete the requirements as listed in the Master of Ecology Schedule.

b A student must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses prior to enrolment in ECOLOG 789. If this Grade Point Average is not achieved, enrolment in the Master of Ecology cannot continue.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
7 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.

c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed to the Postgraduate Diploma in Science in Biosecurity and Conservation or Biological Science.

Transfer from Postgraduate Diploma in Science
9 A student who has passed courses towards a Postgraduate Diploma in Science in Biosecurity and Conservation or Biological Sciences and is eligible to be admitted to this degree may apply to reassign those courses to the Master of Ecology provided that the Postgraduate Diploma has not been awarded.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
12 These regulations came into force on 1 January 2022.

The Degree of Master of Environmental Management – MEnvMgt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:

   either
   a a relevant Bachelors degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   (b) (i) a relevant Bachelors degree as approved by Senate or its representative
   and
   (ii) passed at least 60 points in the Postgraduate Diploma in Science in Environmental Management from this University with a Grade Point Average of 4.0 or higher, provided that the postgraduate diploma has not been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

Note: A relevant Bachelors degree may include the Bachelor of Arts, Bachelor of Commerce, Bachelor of Engineering,
Bachelor of Engineering (Honours), Bachelor of Optometry, Bachelor of Planning, Bachelor of Science, Bachelor of Urban Planning, Bachelor of Urban Planning (Honours).

Duration and Total Points Value
3 A student admitted to this degree must:
   a) pass courses with a total value of 180 points
   and
   b) complete within the time limit specified in the General Regulations – Masters Degrees.
4 The total enrolment for this degree must not exceed 220 points.

Structure and Content
5 a) A student enrolled for this degree must complete the requirements as listed in the Master of Environmental Management Schedule.

b) A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses prior to enrolment in ENVMGT 791. If this Grade Point Average is not achieved, enrolment in the Master of Environmental Management cannot continue.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project
7 a) The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b) The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed to the Postgraduate Diploma in Science in Environmental Management.

Transfer from Postgraduate Diploma in Science
9 A student who has passed courses towards a Postgraduate Diploma in Science in Environmental Management and is eligible to be admitted to this degree may apply to reassign those courses to the Master of Environmental Management provided that the postgraduate diploma has not been awarded.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
12 These regulations came into effect from 1 January 2022.

Master of Environmental Management (MEnvMgt) Schedule

| Taught Masters Requirement: | • 15 points: ENVMGT 701  
|                           | • at least 60 points from ENVMGT 741–762 | • a further 75 points from ENVMGT 741–762, ENVSCI 713, 738, or other approved 700 level courses offered at this University  
|                           |                                     | • 30 points: ENVMGT 791 Research Project |

The Degree of Master of Environmental Science – MEnvSci
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   a) the Degree of Bachelor of Science from this University with a Grade Point Average of at least 5.0 or higher in 75 points above Stage II in Environmental Science, or the equivalent as approved by Senate or its representative and
   b) any prerequisites for the courses in the subject area in which they wish to enrol.
Note: Relevant subjects may include environmental science, geography, biology, chemistry, earth sciences and geology.

Duration and Total Points Value
2 A student enrolled for this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Environmental Science Schedule.
5 A student must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses in order to enrol in ENVSCI 794.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Project
7 a The thesis or research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis or research project topic must be approved by the relevant Academic Head or nominee prior to enrolment.
   c The thesis or research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Environmental Science.

Honours

The Degree of Master of Food Science – MFoodSci

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   either
   a completed the requirements for the Degree of Bachelor of Science in a relevant subject from this University with a Grade Point Average of at least 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b (i) completed the requirements for a relevant Bachelors degree as approved by Senate or its representative
and
(ii) passed at least 60 points towards the Postgraduate Diploma in Science in Food Science from this
University with a Grade Point Average of 4.0 or higher, provided that the postgraduate diploma has not
been awarded.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at
least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the
requirements in Regulation 1.

Notes:
(i) Relevant subjects may include biology, biotechnology, chemistry, food process engineering, food science, or
pharmacology.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply.
Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a) pass courses with a total value of 180 points
   and
   b) complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 220 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Food Science
   Schedule.

6 A student must achieve a Grade Point Average of 5.0 or higher in 60 points prior to enrolment in FOODSCI 791. If
   this Grade Point Average is not achieved, a student must enrol in FOODSCI 790.

7 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and
   Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation / Research Project
8 a) The dissertation or research project is to be carried out under the guidance of a supervisor appointed by
    Senate or its representative.

   b) The dissertation or research project must be approved by the Academic Head or nominee prior to enrolment
      in FOODSCI 790 or 791.

   c) The dissertation or research project is to be completed and submitted in accordance with the General
      Regulations – Masters Degrees.

Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Science in Food Science.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not
    conform to these regulations.

Honours
11 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Commencement
12 These regulations came into force on 1 January 2022.

The Degree of Master of Information Technology – MInfoTech

This qualification is awarded jointly by the University of Auckland and the University of Waikato. The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for:

   either
   a a Bachelors Honours degree from this University with a Grade Point Average of 4.5 or higher in 75 points above Stage III, including at least 45 points in an IT related field at postgraduate level, or the equivalent as approved by Senate or its representative
   or
   b (i) a Bachelors degree from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III or above, including at least 45 points in an IT related field, or the equivalent as approved by Senate or its representative
   or
   (ii) (a) a Bachelors degree from this University, or an equivalent degree qualification as approved by Senate or its representative
   and
   (b) the Postgraduate Certificate in Information Technology from this University with a Grade Point Average of 4.5 or higher, or the equivalent
   or
   c a Bachelors degree from this University with a Grade Point Average of 4.5 or higher in 75 points at Stage III or above, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within two semesters if enrolled full-time or eight semesters if enrolled part-time
   and
   c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within three semesters if enrolled full-time and 12 semesters if enrolled part-time
   and
   c not exceed 220 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1c must:
   a pass courses with a total value of 240 points
   and
   b complete within four semesters if enrolled full-time and 12 semesters if enrolled part-time
   and
   c not exceed 280 points for the total enrolment for this degree.

6 Unless approval has been granted by Senate or its representative to complete under Regulation 3 or 4, a student admitted to this degree under Regulation 2 must:
   a pass courses with a total value of 240 points
   and
   b complete within four semesters if enrolled full-time and 12 semesters if enrolled part-time
   and
   c not exceed 280 points for the total enrolment for this degree.

Structure and Content

7 A student enrolled for this degree must complete the requirements as listed in the Master of Information Technology Schedule.
A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken for this degree prior to enrolment in COMPSCI 778. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 120 points of taught courses taken for this degree prior to enrolment in COMPSCI 778. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

A student who has to complete 240 points must achieve a Grade Point Average of 4.5 or higher in the first 60 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

A student who has to complete 240 points must achieve a Grade Point Average of 4.0 or higher in the first 180 points of taught courses taken for this degree prior to enrolment in COMPSCI 778. If this Grade Point Average is not achieved, enrolment in the Master of Information Technology cannot continue.

A student who has previously passed any courses the same as, or similar to, the courses required for this degree must substitute an alternative course(s) approved by the Director of the ICT Graduate School.

A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

A student who does not achieve the Grade Point Average specified in Regulations 8, 9, 10 or 11 may apply to reassign courses passed for this degree to the Postgraduate Diploma in Information Technology or Postgraduate Certificate in Information Technology.

Honours

15 a This degree may be awarded with Honours where a student’s overall grade is sufficiently high. There are two classes of honours: First Class Honours and Second Class Honours. Second Class Honours are awarded in either First Division or Second Division.

b Where the requirements for the degree have not been completed in accordance with the time limits specified in Regulations 3, 4, 5 and 6, the student’s eligibility for Honours will lapse. However, on the recommendation of the Head of Department, Senate or its representative may approve the retention of eligibility for Honours.

c The calculation for the overall grade to determine the award of Honours will include the grades given for all courses attempted in the degree. For the purposes of grade or mark calculation, Withdrawn, Did Not Sit and Did Not Complete will count as zero.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

17 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Marine Conservation – MMarineCons

The regulations for this programme are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must:
   either
   a have completed the requirements for a Bachelors degree with a Grade Point Average of 4.0 or higher in 75 points above Stage II including at least 45 points in a relevant subject, or the equivalent as approved by Senate or its representative
   or
   b (i) have completed the requirements for a Bachelors degree with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   (ii) have at least three years of relevant professional experience approved by Senate or its representative.
2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of scholarly experience deemed equivalent to the requirements in Regulation 1a, and extensive, relevant, practical, or professional experience.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.
(ii) Relevant subjects may include biology and marine ecology, conservation biology, environmental management, environmental law, environmental policy and social science.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.
4 The total enrolment for this degree must not exceed 220 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Marine Conservation Schedule.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Research Project / Thesis
7 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research project or thesis topic must be approved by the Academic Head or nominee prior to enrolment.
   c The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Marine Science.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.
Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

The Degree of Master of Organisational Psychology – MOrgPsych

*The regulations for this programme are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1. In order to be admitted to this degree, a student must have:
   - **either**
     1. (i) completed the requirements for the Degree of Bachelor of Arts with a major in Psychology, Bachelor of Science with a major in Psychology, Graduate Diploma in Arts in Psychology, Graduate Diploma in Science in Psychology, or Graduate Diploma in Applied Psychology from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II in Psychology, or the equivalent as approved by Senate or its representative
     2. (ii) completed the requirements for a Bachelors degree or Graduate Diploma from this University in a relevant subject with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by the Senate or its representative
   - **and**
     1. passed PSYCH 306 or the equivalent approved by the Academic Head or nominee.

2. In exceptional circumstances, Senate or its representative may approve the admission of a student who has attained at least three years of extensive, relevant, practical, professional or scholarly experience equivalent to the requirements in Regulation 1.

**Notes:**

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

(ii) A relevant subject may be in business, education, or health sciences.

**Duration and Total Points Value**

3. A student admitted to this degree must:
   - pass courses with a total value of 180 points
   - complete within the time limit specified in the General Regulations – Masters Degrees.

4. The total enrolment for this degree must not exceed 220 points.

**Structure and Content**

5. A student enrolled for this degree must complete the requirements as listed in the Master of Organisational Psychology Schedule.

6. A student must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses prior to enrolment in PSYCH 794. If this Grade Point Average is not achieved, enrolment in the Master of Organisational Psychology cannot continue.

7. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Dissertation / Thesis**

8. a. The dissertation or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b. The dissertation or thesis topic must be approved by the Academic Head or nominee prior to enrolment.

   c. The dissertation or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.
Reassignment
9 A student may apply to reassign courses passed to the Postgraduate Diploma in Arts in Psychology or Postgraduate Diploma in Science in Psychology.

Honours
10 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances, Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
12 These regulations came into force on 1 January 2022.

The Degree of Master of Physiotherapy Practice – MPhysioPrac
Subject to CUAP approval
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree a student must have completed a relevant Bachelors degree from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II or the equivalent as approved by Senate or its representative.

2 Applicants will be required to consent to a disclosure of criminal convictions and safety checks required to ensure that they meet the requirements for both the Children's Act 2014 and the Health Practitioners Competence Assurance Act 2003.

3 Applicants will be required to demonstrate in accordance with the approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking to become registered as a Physiotherapist. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

Notes:
(i) A relevant degree may include one of health sciences or science. Whether a degree is considered relevant will also depend on the courses taken. Relevant areas may include exercise sciences, health sciences, physiology, psychology, and sport and exercise science.

(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
4 A student admitted to this degree must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 280 points for the total enrolment in this degree.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Physiotherapy Practice Schedule.

6 A student who has previously passed any course the same as, or similar to, those required for this degree, must substitute an alternative course(s) approved by the Head of Department of Exercise Sciences.

7 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and programme regulations, Academic Integrity, of the University Calendar.
Practical Requirements
8 A student enrolled for this degree who is required to carry out practical or clinical work must satisfactorily complete such work to the standard that the Faculty of Science requires.

9 Candidates must continue to meet the requirements of the Health Practitioners Competence Assurance Act (2003) for professional and ethical behaviour.

Fitness to Practise Requirements
10 a In order to complete the requirements for this degree, a student must meet the applicable fitness to practise requirements for this programme.

b Where a student is being investigated with regard to a fitness to practise matter under the policy, and there is a concern that the student’s attitudes or practice are inappropriate, offensive, disruptive, or may pose a risk of harm to the welfare of any party, that student’s attendance at lectures, classes and any clinical, industry or practice attachments may be suspended by the Deputy Dean of the Faculty of Science pending the outcome of the investigation.

c If a student is found, after due and fair inquiry, and taking into account any written response from the student, to be not fit to practise, the student’s enrolment in the programme may be suspended or terminated in accordance with the policy.

d Where a student’s enrolment in the programme has been terminated under Regulation 13c, any application to re-enrol may be declined.

e A student whose enrolment is suspended or terminated under Regulation 13c or whose application to re-enrol is declined under Regulation 13d may apply to the Pro Vice-Chancellor (Education) for the appeal of that decision in accordance with the policy.

Reassignment
11 A student may apply to reassign courses passed to the Postgraduate Diploma in Science in Exercise Sciences.

Honours
12 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
13 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
14 These regulations came into force on 1 January 2022.

The Degree of Master of Science – MSc

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:

either

a (i) completed the requirements for the Degree of Bachelor of Science from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II including at least 45 points in the prerequisite subject for the specialisation in which they intend to enrol, or the equivalent as approved by Senate or its representative

or

(ii) completed the requirements for the Degree of Bachelor of Optometry with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or

b (i) completed the requirements for the Degree of Bachelor of Science (Honours) from this University with a Grade Point Average of 5.0 or higher in 90 points in the prerequisite subject for a specialisation in which they intend to enrol, or the equivalent as approved by Senate or its representative
or
(ii) completed the requirements for the Postgraduate Diploma in Science from this University with a Grade Point Average of 5.0 or higher in 90 points in the prerequisite subject for the specialisation in which they intend to enrol including at least 75 points of 700 level courses, or the equivalent as approved by Senate or its representative

or
(iii) completed the requirements for the Postgraduate Diploma in Forensic Science with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

2 Students must have completed any prerequisite courses relevant to the specialisation in which they intend to enrol prior to admission to this degree.

3 Students applying for the Optometry specialisation must be registered with the Optometrists and Dispensing Opticians Board and hold a current practising certificate.

4 a A student who has not completed all the requirements of the Degree of Bachelor of Science but who has passed:
   (i) 345 points towards that degree
   and
   (ii) at least 45 points above Stage II in the prerequisite subject with a Grade Point average of 5.0 or higher
   and the prerequisite courses for the specialisation in which they intend to enrol for this degree may, with the approval of the relevant Academic Head or nominee, be admitted to this degree. The requirements for the Degree of Bachelor of Science must be completed within 12 months of initial enrolment for the Degree of Master of Science. Should these requirements not be completed within this period, enrolment in further courses required for the Degree of Master of Science will not be permitted.

   b A student who has not completed all the requirements of the Degree of Bachelor of Science (Honours), Postgraduate Diploma in Science, or Postgraduate Diploma in Forensic Science but who has:
   (i) completed 105 points towards the Degree of Bachelor of Science (Honours), Postgraduate Diploma in Science or the Postgraduate Diploma in Forensic Science from this University
   and
   (ii) met all other relevant entry requirements listed in Regulation 1b, 2 and 3. may, with the approval of the relevant Academic Head or nominee, be admitted to this degree. The requirements for the Degree of Bachelor of Science (Honours), Postgraduate Diploma in Forensic Science or Postgraduate Diploma in Science must be completed within 12 months of initial enrolment for the Degree of Master of Science. Should these requirements not be completed within this period, enrolment in further courses required for the Degree of Master of Science will not be permitted.

5 In exceptional circumstances Senate or its representative may approve the admission of a student who has completed the requirements for the Degree of Bachelor of Science from this University, or an equivalent qualification with significant relevant professional scientific experience.

Notes:

(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

(ii) Equivalent qualifications may include the Degree of Bachelor of Arts, Bachelor of Commerce, Bachelor of Engineering (Honours), or Bachelor of Urban Planning.

Duration and Total Points Value
6 A student admitted to this degree under Regulation 1a or 4a must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 280 points for the total enrolment for this degree.

7 A student admitted to this degree under Regulation 1b, 4b, or 5 must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

Structure and Content
8 A student enrolled for this degree must complete the requirements for one of the subjects as listed in the Master of Science Schedule.
A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Research Portfolio / Dissertation

a A thesis, research portfolio, or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b (i) The thesis or dissertation topic for the 120 point MSc must be approved by the relevant Departmental Postgraduate Committee prior to enrolment in the degree.

(ii) The thesis or dissertation topic for the 240 point MSc must be approved by the relevant Departmental Postgraduate Committee prior to enrolment in the thesis or dissertation.

c A student who has to complete 240 points for this degree and whose programme includes a thesis, research portfolio or dissertation needs, before enrolment for the thesis, research portfolio or dissertation, to obtain a Grade Point Average of 5.0 or higher in 90 points selected from the first 120 points passed in the taught component of the degree. If this is not achieved, the courses passed will be reassigned to the Postgraduate Diploma in Science for all specialisations except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

d A student who has passed at least 105 points but fewer than 120 points of a 240 point degree and obtained a Grade Point Average of 5.0 or higher in 90 points may, with the approval of the relevant Head of Department, Director of School or equivalent, enrol in the thesis, research portfolio or dissertation, but must have completed 120 points for the taught component of the degree within 12 months of initial enrolment in the thesis, research portfolio or dissertation. If this is not achieved the courses passed will be reassigned to the Postgraduate Diploma in Science for all specialisations except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

e The thesis, research portfolio or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment

A student who does not meet the requirements of this degree may apply to reassign courses passed for the Master of Science to the Postgraduate Diploma in Science for all subjects except Forensic Science, for which courses passed will be reassigned to the Postgraduate Diploma in Forensic Science.

Honours / Distinction / Merit

This degree may be awarded with either Honours, Distinction, or Merit in accordance with the General Regulations – Masters Degrees.

Variations

In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

These regulations and/or schedule have been amended with effect from 1 January 2022.

**Master of Science (MSc) Schedule**

A student who has to complete 120 points must satisfy the requirement for one of the following specialisations:

**Applied Mathematics**

**Prerequisite subject:** Applied Mathematics or an equivalent subject approved by the Academic Head or nominee

**Requirement:**

- Research Masters
  - 120 points: MATHS 795 MSc Thesis in Applied Mathematics

**Bioinformatics**

**Prerequisite subject:** Bioinformatics, Biological Sciences, Computational Biology or the equivalent approved by the Academic Head or nominee, including BIOSCI 700–702, 761 or equivalent courses approved by the Academic Head or nominee

**Requirement:**

- Research Masters
  - 120 points: BIOINF 796 MSc Thesis in Bioinformatics

**Biological Sciences**

**Prerequisite subject:** Biological Sciences, or the equivalent approved by the Academic Head or nominee, including BIOSCI 761 or an equivalent course approved by the Academic Head or nominee

**Requirement:**

- Research Masters
  - 120 points: BIOSCI 796 MSc Thesis in Biological Sciences

**Biosecurity and Conservation**

**Prerequisite subject:** Biosecurity or an equivalent subject approved by the Academic Head or nominee, including BIOSCI 761 or ENVSCI 701 or an equivalent course approved by the Academic Head or nominee

**Requirement:**

- Research Masters
  - 120 points: BIOSEC 796 Thesis in Biosecurity and Conservation
Biotechnology
Prerequisite subject: Biological Sciences or Biotechnology or an equivalent subject approved by the Academic Head or nominee, including BIOSCI 761 or an equivalent course approved by the Academic Head or nominee.
Requirement: Research Masters
- 30 points from BIOSCI 700–702, 724–746, 749–759
- 90 points: BIOTECH 794 Thesis

Chemistry
Prerequisite subject: Chemistry or an equivalent subject approved by the Academic Head or nominee, including CHEM 795 or an equivalent course approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: CHEM 796 MSc Thesis in Chemistry

Clinical Exercise Physiology
Prerequisite subject: Clinical Exercise Physiology or an equivalent subject approved by the Academic Head or nominee.
Requirement: Taught Masters
- 75 points: EXERSCI 775, 778, 779
- 45 points: EXERSCI 792 Dissertation

Computer Science
Prerequisite subject: Computer Science or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: COMPSCI 796 MSc Thesis in Computer Science

Earth Sciences
Prerequisite subject: Applied Geology, Earth Sciences, Geography, or Geology or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: EARTHSCI 796 MSc Thesis in Earth Sciences

Environmental Management
Prerequisite subject: Environmental Management or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: ENVMGT 796 MSc Thesis in Environmental Management

Environmental Physics
Prerequisite subject: Environmental Physics, Geophysics, or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: ENVPHY 796 MSc Thesis in Environmental Physics

Environmental Science
Prerequisite subject: Environmental Science or an equivalent subject approved by the Head of School, including ENVS 701 or an equivalent course approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: ENVSCI 796 MSc Thesis in Environmental Science

Exercise Sciences
Prerequisite subject: Clinical Exercise Physiology or Exercise Sciences or an equivalent subject approved by the Academic Head or nominee.
Requirement: Taught Masters
- 120 points: EXERSCI 796 MSc Thesis in Exercise Sciences

Food Science
Prerequisite subject: Food Science or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: FOODSCI 796 MSc Thesis in Food Science

Forensic Science
Prerequisite subject: Forensic Science or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: FORENSIC 796 MSc Thesis in Forensic Science

Geography
Prerequisite subject: Geography or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: GEOG 796 Masters Thesis in Geography

Green Chemical Science
Prerequisite subject: A specialisation in Chemistry or Green Chemical Science or an equivalent subject approved by the Director, including CHEM 760, 795, and ENVS 701 or equivalent courses approved by the Director.
Requirement: Research Masters
- 120 points: CHEM 796 Thesis

Logic and Computation
Prerequisite subject: Logic and Computation or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: LOGICOMP 796 Thesis

Marine Science
Prerequisite subject: Biological Sciences or Environmental Science or Marine Science or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: MARINE 796 MSc Thesis in Marine Science

Mathematics
Prerequisite subject: Mathematics or an equivalent subject approved by the Academic Head or nominee.
Requirement: Research Masters
- 120 points: MATHS 796 Thesis in Mathematics

Medical Statistics
Prerequisite subject: A BSc/BA(Hons) in Statistics or PGDipSci in Statistics or Medical Statistics or an equivalent subject approved by the Academic Head or nominee, with an average of 4.0 (taught) or 5.5 (research) or higher or equivalent approved by the Academic Head or nominee.
Requirement: Taught Masters
- 120 points: MATHS 798 Research Portfolio in Mathematics
A student who has to complete 240 points must satisfy the requirement for one of the following specialisations:

</table>

**Bioinformatics**

The MSc in Bioinformatics was suspended in 2020. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

Prerequisite subject: Bioinformatics or Biological Sciences, or an equivalent subject approved by the Academic Head or nominee including COMPSCI 220 or an equivalent course approved by the Academic Head or nominee

| Research Masters | 60 points: BIOSCI 700–702, 761 | 60 points from BIOSCI 733, 737, 752, 755–758, COMPSCI 715, 720, 732, 760, 767, MATHS 764, STATS 720, 721, 730, 731, 732, 761, 783, 784, or related 700 level courses, from at least two departments as approved by the Programme Director |

**Psychology**

Prerequisite subject: Psychology or an equivalent subject approved by the Academic Head or nominee including PSYCH 306, or an equivalent course approved by the Academic Head or nominee

| Requirement: Research Masters | 120 points: PSYCH 796 Thesis in Psychology |

**Speech Science**

Prerequisite subject: Speech Science or an equivalent subject approved by the Academic Head or nominee

| Requirement: Research Masters | 120 points: SPCHSCI 796 MSc Thesis in Speech Science |

**Statistics**

Prerequisite subject: Medical Statistics or Statistics, or an equivalent subject approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee

| Requirement: Research Masters | 30 points from 700 level courses in Statistics or other approved 600 or 700 level courses offered at this University | 90 points: STATS 798 Thesis |

**Physiology**

Prerequisite subject: Physiology or an equivalent subject approved by the Academic Head or nominee

| Requirement: Research Masters | 120 points: PHYSIO 796 MSc Thesis in Physiology |

**Biosecurity and Conservation**

Prerequisite subject: Biosecurity or an equivalent subject approved by the Academic Head or nominee

| Requirement: Research Masters | 120 points: BIOINF 796 MSc Thesis in Bioinformatics |

**Biological Sciences**

Prerequisite subject: Biological Sciences or an equivalent subject approved by the Academic Head or nominee

| Requirement: Research Masters | 15 points: BIOSCI 761 | 15 points from BIOSCI 700–704, 724–746, 749–761, 764–765 | up to 30 points from approved 700 level courses in a related subject | 120 points: BIOSCI 796 MSc Thesis in Biological Sciences |

**Biosecurity and Conservation**

Prerequisite subject: Biosecurity or an equivalent subject approved by the Academic Head or nominee

| Requirement: Research Masters | 15 points: BIOSCI 761 or ENVSCI 701 | 45 points: BIOSCI 747, 748, ENVSCI 733 | at least 75 points from BIOSCI 700–704, 724–746, 749–761, 764–765 | 120 points: BIOSCI 796 MSc Thesis in Biosecurity and Conservation |

up to 30 points from 700 level courses in Biological Sciences, Environmental Management, Environmental Science, Marine Science
Chemistry
Prerequisite subject: Chemistry or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - 15 points: CHEM 795
  - at least 75 points from CHEM 710–780
  - up to 30 points from 700 level courses in Chemistry or related subjects with approval of the Head of School
  - 120 points: CHEM 796 MSc Thesis in Chemistry

Clinical Exercise Physiology
Prerequisite subject: Exercise Sciences or an equivalent subject approved by the Academic Head or nominee including EXERSCI 301 or an equivalent course approved by the Academic Head or nominee
Requirement:
- Taught Masters
  - 165 points: EXERSCI 720, 721, 775–779
  - 30 points from approved 700 level courses in the Faculty of Science or the Faculty of Medical and Health Sciences
  - 45 points: EXERSCI 792 Dissertation

Computer Science
Prerequisite subject: Computer Science or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - at least 90 points from COMPSCI 701–716, 720–780
  - up to 30 points from 700 level courses in a related subject with approval of the Head of Department
  - 120 points: COMPSCI 796 MSc Thesis in Computer Science

Earth Sciences
Prerequisite subject: Applied Geology, Earth Sciences, Geography, Geology or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - at least 60 points from EARTHSCI 703–780, GEOG 730, 745, 746, 749, 770–772, GEOPHYS 760, 761
  - up to 30 points from 700 level courses as approved by the Programme Coordinator
  - 120 points: EARTHSCI 796 MSc Thesis in Earth Sciences

Environmental Management
Requirement:
- Research Masters
  - 15 points: ENVMGT 701
  - at least 60 points from ENVMGT 741–762
  - up to 45 points from 700 level courses as approved by the Programme Coordinator
  - 120 points: ENVMGT 796 MSc Thesis in Environmental Management

Environmental Physics
Prerequisite subject: Environmental Physics, Geophysics, Physics, or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - 45 points from EARTHSCI 764, ENVPHYS 700–703, PHYSICS 743
  - a further 75 points from ENVPHYS 700–703, 770 or other approved 600 or 700 level courses in Earth Sciences, Geography, Mathematics, Physics or other subjects offered by the Faculty of Science approved by the Academic Head or nominee
  - 120 points: ENVPHYS 796 Thesis

Environmental Science
Requirement:
- Research Masters
  - 30 points: ENVSCI 701, 711
  - at least 60 points from ENVSCI 701, 703–707, 713–738, MARINE 707
  - up to a further 30 points from EARTHSCI 705, 720, GEOG 730, 745–749, 770, 771, ENVMGT 742, 744, MARINE 703 or other approved 700 level courses
  - 120 points: ENVSCI 796 MSc Thesis in Environmental Science

Exercise Sciences
Prerequisite subject: Exercise Sciences or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - 15 points: EXERSCI 705
  - at least 45 points from EXERSCI 704, 706, 708, 711
  - up to 60 points from other 700 level courses offered at this University approved by the Academic Head or nominee
  - 120 points: EXERSCI 796 MSc Thesis in Exercise Sciences

Food Science
Prerequisite subject: Food Science and Nutrition (Food Science pathway) or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - 60 points from FOODSCI 703, 707, 708, CHEMMAT 757
  - 60 points from approved 700 level courses
  - 120 points: FOODSCI 796 MSc Thesis in Food Science

Forensic Science
Prerequisite subject: Forensic Science or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - 105 points from FORENSIC 701–704, 706–708
  - 15 points from 700 level courses as approved by the Programme Director
  - 120 points: FORENSIC 796 MSc Thesis in Forensic Science

Geography
Prerequisite subject: Geography or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
  - 15 points: GEOG 701
  - at least 75 points from EARTHSCI 705, 713, 732, ENVMGT 741–746, ENVSCI 704, 713, 737, 738, GEOG 712–779
  - up to 30 additional points from other 700 level courses in a related subject as approved by the Academic Head
  - 120 points: GEOG 796 Masters Thesis in Geography

Green Chemical Science
Prerequisite: A major or specialisation in Chemistry or Green Chemical Science or an equivalent subject approved by the Director, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Director
Requirement:
- Research Masters
  - 75 points from CHEM 710–751, 780
  - 45 points: CHEM 760, 795, ENVSCI 714
  - 120 points: CHEM 796 Thesis

Logic and Computation
Prerequisite subject: Logic and Computation or an equivalent subject approved by the Academic Head or nominee
Requirement:
- Research Masters
### Marine Science
**Prerequisite subject:** A major in Marine Science or an equivalent subject approved by the Academic Head or nominee. 
**Requirement:**
- Research Masters: at least 60 points from MARINE 701, 703, 715–723, 735, 744, 745
- Research Masters: up to 60 points from other 700 level courses as approved by the Head of Department
- Research Masters: 120 points: MARINE 796 MSc Thesis in Marine Science

### Mathematics
**Prerequisite:** A major in Mathematics or an equivalent subject approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332
**Requirement:**
- Research Masters: at least 75 points in 700 level Mathematics courses
- Research Masters: up to 45 points from approved 700 level courses in Mathematics or related subjects, with the approval of the Head of Department and either
  - 120 points: MATHS 796 Thesis in Mathematics
  - 30 points from MATHS 701–789, 792–797 or 700 level courses in related subjects as approved by the Head of Department
- Research Masters: 90 points: MATHS 798 Research Portfolio in Mathematics

### Medical Statistics
**Prerequisite:** A major in Statistics including STATS 210 or STATS 225, or an equivalent subject approved by the Academic Head or nominee
**Requirement:**
- Taught Masters: at least 75 points from POPHLTH 708, STATS 768, 770, 773, 780
- Research Masters: 15 points from STATS 732 or other 700 level courses offered at this University approved by the Academic Head or nominee
- Research Masters: 15 points from STATS 779
- Research Masters: at least 60 points from POPHLTH 707, 709, 711, 767, STATS 701–703, 705, 708–713, 735–767, 769–779, 782–787
- Research Masters: up to 30 points from 700 level courses offered at this University approved by the Academic Head or nominee
- Research Masters: 45 points: STATS 793 Dissertation

### Optometry
**Prerequisite subject:** Optometry or an equivalent subject approved by the Academic Head or nominee
**Requirement:**
- Research Masters: at least 60 points from OPTOM 701, 715–723, 735, 744, 745
- Research Masters: up to 60 points from other 700 level courses as approved by the Head of Department
- Research Masters: 120 points: OPTOM 796 MSc Thesis in Optometry

### Pharmacology
**Prerequisite subject:** Pharmacology or an equivalent subject approved by the Academic Head or nominee
**Requirement:**
- Research Masters: at least 60 points from PHARMCOL 701, 715–723, 735, 744, 745
- Research Masters: up to 60 points from other 700 level courses as approved by the Head of Department
- Research Masters: 120 points: PHARMCOL 796 MSc Thesis in Pharmacology

### Physics
**Prerequisite subject:** Physics or an equivalent subject approved by the Academic Head or nominee
**Requirement:**
- Research Masters: 75 points from PHYSICS 701–788
- Research Masters: 45 additional points from PHYSICS 701–788, MATHS 761–763, GEOPHYS 761–780
- Research Masters: at least 15 additional points from PHYSICS 701–788, MATHS 761–763, GEOPHYS 761–780
- Research Masters: up to 30 points from approved 700 level courses in related subjects as approved by the Head of Department
- Research Masters: 120 points: PHYSICS 796 MSc Thesis in Physics

### Physiology
**Prerequisite subject:** Physiology or an equivalent subject approved by the Academic Head or nominee
**Requirement:**
- Research Masters: at least 60 points from MEDSCI 700, 701, 715–723, 735, 744
- Research Masters: Research Masters: 105 points from MEDSCI 701, 703, 717, 727–734, 737, 739, 744
- Research Masters: 120 points: PHYSIOL 796 MSc Thesis in Physiology

### Psychology
**Prerequisite subject:** Psychology or an equivalent subject approved by the Academic Head or nominee including PSYCH 306, or PSYCH 211, 323, 324, 325, or an equivalent course approved by the Academic Head or nominee
**Requirement:**
- Research Masters: at least 60 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–779
- Research Masters: 120 points: PSYCH 796 Thesis
- Research Masters: 105 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–779, up to 15 points from other approved 600 or 700 level courses offered at this University
- Research Masters: 120 points: PSYCH 796 Thesis

### Speech Science
**Prerequisite subject:** Speech Science or an equivalent subject approved by the Academic Head or nominee
**Requirement:**
- Research Masters: 60 points from SPCHSCI 701, 711–713, 722, 723, 733, 736, 743, 746, 751–754
- Research Masters: 60 points from other approved 700 level courses in Audiology, Computer Science, Engineering, Linguistics, Psychology, Physiology, Speech Science
- Research Masters: 120 points: SPCHSCI 796 MSc Thesis in Speech Science

### Statistics
**Prerequisite subject:** Statistics or an equivalent subject approved by the Academic Head or nominee, including STATS 210 or 225, or an equivalent course approved by the Academic Head or nominee
**Requirement:**
- Research Masters: 15 points from STATS 732 or other 700 level courses offered at this
The Degree of Master of Speech Language Therapy Practice – MSLTPrac

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have:
   a completed the requirements for a Bachelors degree from this University including 60 points above Stage II in a relevant subject area(s) with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   and
   b demonstrated in accordance with the approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking a qualification as a speech-language therapist. This may require an interview, submission of a supplementary information form and confidential letters of reference.

2 An applicant who has previously been awarded a degree in speech language therapy or the equivalent will not be admitted.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.
(ii) Relevant subject areas may include education, health sciences, linguistics, physiology, psychology.

Duration and Total Points Value
3 A student enrolled for this degree must:
   a pass courses with a total value of 240 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees.

4 The total enrolment for this degree must not exceed 280 points.

Structure and Content
5 A student enrolled for this degree must complete the requirements as listed in the Master of Speech Language Therapy Practice Schedule.

6 a A student may not enrol for Part II until Part I has been completed, unless special approval is given by the Dean of Science or representative.

   b A student who has previously passed courses from another programme that are substantially similar to any one of the courses required under Regulation 5 above may, with the approval of the Dean of Science or representative, be required to take alternative 700 level courses from the subject Speech Science or other approved 700 level courses.

   c Where a student is required to take additional courses as a condition of enrolment for Part I, under Regulation 2 above, those courses:
      (i) are to be taken for Certificates of Proficiency
      and
      (ii) are to be passed within 12 months of initial enrolment for this degree.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Practical and Clinical Requirements
8 A student is required to pass the clinical and practical requirements of the Speech Language Therapy Practice courses to the satisfaction of Senate or its representative.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Termination of Enrolment
11 a If the behaviour of a student in a clinical environment is found, after due and fair inquiry, to be offensive, disruptive or likely to give rise to a risk of harm to the welfare of any person, the enrolment of the student in the programme may be terminated by Senate or its representative and any application to re-enrol may likewise be declined.

b A student who is subject to any such inquiry may be suspended by Senate or its representative from lectures, classes, clinics and any teaching placement pending the outcome of the inquiry.

c A student whose enrolment is terminated under Regulation 9a may appeal that decision to the Council or its duly appointed delegate.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Wine Science – MWineSci

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for the Degree of Bachelor of Science in a relevant subject from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

(ii) Relevant subjects may include biology, chemistry, chemical and materials engineering, earth sciences, environmental science, food science, geography, or geology.

Duration and Total Points Value
2 A student enrolled for this degree must:

a pass courses with a total value of 180 points and

b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 220 points.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Wine Science Schedule.

5 A student must achieve a Grade Point Average of 5.0 or higher in at least 60 points of taught courses in order to enrol in WINESCI 792.

6 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Research Project
7 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research project topic must be approved by the relevant Academic Head or nominee prior to enrolment in WINESCI 792.
   c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Wine Science.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
11 These regulations came into force on 1 January 2021.

The Degree of Doctor of Clinical Psychology – DClinPsy

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Clinical Psychology.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Clinical Psychology.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.
(v) “Successfully complete” means to complete all requirements and submit all required work for the relevant course, course component or programme component and pass the prescribed examination.

General requirements
1 A candidate for the Degree of Doctor of Clinical Psychology (DClinPsy) is required to undertake advanced coursework, clinical practice and an original and coherent research project, and to present the outcome of the research project for examination as a thesis.

2 The research project must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.

3 The research project must be conducted under supervision and during the period of enrolment in the DClinPsy programme, and must be conducted in accordance with the Research Code of Conduct Policy.

4 The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 70,000 words.

5 The thesis must be undertaken and completed in accordance with the doctoral thesis policy and procedures.

6 A candidate must successfully complete the thesis and all components of PSYCH 800.

7 a Candidates must meet the requirements of the Health Practitioners Competence Assurance Act (2003) for professional and ethical behaviour and comply with the requirements of the Faculty of Science Fitness to Practise Policy and Procedures for the duration of candidature.
   b Candidates are subject to the Faculty of Science Fitness to Practise Policy and Procedures.
8 In order for the DClinPsy degree to be awarded, Regulations 6, 7a and 51 must be satisfied, and the Board of Graduate Studies (or delegate(s)) must be:

a satisfied that, subject to Regulation 47, the candidate has performed at doctoral level in an oral examination, held in accordance with Regulation 48, on the thesis, the subject of the thesis and the field(s) to which the subject belongs

and

b satisfied, by the examination process prescribed by these regulations, that the thesis:

(i) makes an original and significant contribution to knowledge or understanding in its field(s) and is of direct relevance to the field of clinical psychology

and

(ii) meets internationally recognised standards for such work

and

(iii) demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature

and

(iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration

9 The thesis must be submitted within a maximum of 48 months of full-time equivalent programme enrolment from the initial date of enrolment in the DClinPsy programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the doctoral extension of enrolment policy and procedures.

10 The thesis must not be submitted in less than 36 months of full-time equivalent programme enrolment from the initial date of enrolment in the DClinPsy programme.

11 a Except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances (and subject to course availability), enrolment in the programme must proceed on a full-time basis prior to successful completion of PSYCH 800.

b A candidate may enrol part-time in any remaining thesis component post successful completion of PSYCH 800, subject to the doctoral full-time and part-time enrolment policy and procedures.

c Except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances, enrolment in the programme must be completed within 48 months of full-time equivalent enrolment from the initial date of enrolment in the DClinPsy programme.

12 A candidate may be permitted to suspend their enrolment subject to the doctoral suspension of enrolment policy and procedures.

Admission

13 To be admitted to the DClinPsy programme, applicants must satisfy the University’s Admission regulations, be a New Zealand or Australian citizen or a New Zealand permanent resident and are required to:

a in their most recent attempt at a relevant qualification:

(i) have completed the requirements for the Degree of Bachelor of Arts (Honours) or Bachelor of Science (Honours) in Psychology with at least a B+ average at the University of Auckland

or

(ii) have completed the requirements for the Degree of Master of Arts or Master of Science in Psychology with at least a B+ average at the University of Auckland

or

(iii) have completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as equivalent to a Bachelors Honours or Masters degree in Psychology with at least a B+ average at the University of Auckland

and

b (i) have passed PSYCH 708, 718, 723, 779 at the University of Auckland with at least a B+ average, or the equivalent as approved by the Board of Graduate Studies (or delegate)

and

(ii) have satisfied the requirements of the doctoral candidate research capacity policy and procedures

and

c demonstrated to the satisfaction of the DClinPsy Admission Board in the School of Psychology, in accordance with the process determined by the Faculty of Science, the qualities necessary for a person seeking to be a Doctor of Clinical Psychology

and

d meet the requirements of the Health Practitioners Competence Assurance Act (2003) for professional and ethical behaviour
e have satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate) and
f have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the DClinPsy degree and
g have the approval of the Head of Psychology or their nominee for the purposes of doctoral matters (“the Academic Head”) with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head.

14 An applicant may be considered for off-campus enrolment subject to the doctoral off-campus research policy and procedures.

15 The final decision on admission to the DClinPsy programme shall be made by the Board of Graduate Studies (or delegate).

16 Admission to the DClinPsy programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment, or where an applicant does not continue to meet the requirements of the Health Practitioners Competence Assurance Act (2003) for professional and ethical behaviour.

17 Admission to the DClinPsy programme is valid for the start date approved by the Academic Head. Where enrolment in the programme does not occur at that time, re-application for admission to the programme is required.

18 Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Supervision

19 The Academic Head is responsible for the provision of supervision for the duration of the candidate’s enrolment.

20 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the doctoral supervision policy and procedures.

21 Changes in supervision during candidature are subject to the doctoral supervision policy and procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

Enrolment and Candidature

22 Except for any period(s) of suspension approved under Regulation 12, candidates are required to be enrolled continuously from the initial date of enrolment in the DClinPsy programme until the date of thesis submission under Regulations 9-10.

23 Candidature for the DClinPsy degree commences upon enrolment in the DClinPsy programme and continues, regardless of any period(s) of suspension approved under Regulation 12, until the date on which any one of the following occurs:
   a notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree at Regulation 8 have been met;
   b notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 50 is that the degree not be awarded;
   c candidature expires under Regulation 32;
   d a candidate withdraws from the programme under Regulation 52;
   e candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 53.

24 Candidature is provisional until confirmed, and is subject to the doctoral confirmation of candidature policy and procedures, the doctoral continuation of confirmed candidature policy and procedures, and the doctoral candidature intervention policy and procedures.

25 Except as permitted by the Board of Graduate Studies in exceptional circumstances, a candidate must enrol in 120 points in each of the first three years of full-time equivalent enrolment, and include 105 points of thesis enrolment
in the first year of full-time equivalent enrolment, 90 points of thesis enrolment in the second year of full-time equivalent enrolment and 45 points of thesis enrolment in the third year of full-time equivalent enrolment.

26 The following additional confirmation milestones are required for all candidates and are subject to the doctoral confirmation of candidature policy and procedures:

a. achievement of Pass grades in the Clinical Practicum 1 competency evaluation and Initial Interview Exam within PSYCH 800
b. achievement of a provisional Pass Grade for Case Report 1 within PSYCH 800
c. completion of a literature review and methods section of the thesis to the satisfaction of the confirmation review committee
d. ethics approval for the research
e. initial data collection to the satisfaction of the main supervisor.

27 The following post-confirmation milestones must be placed on candidature at the time of confirmation in the programme in accordance with Regulation 24:

a. achievement of Pass grades in the Clinical Practicum 2 and 3 competency evaluations and End of Year Exam within PSYCH 800 prior to the first review of confirmed candidature required under Regulation 24
b. achievement of provisional Pass grades for Case Reports 2 and 3 within PSYCH 800 prior to the first review of confirmed candidature required under Regulation 24
c. completion of the data collection and analysis of data to the satisfaction of the main supervisor prior to the first review of confirmed candidature required under Regulation 24.

28 Where the outcome of the first continuation of confirmed candidature review under Regulation 24 is the continuation of candidature, the following conditions must be placed on candidature:

a. achievement of a Pass grade in the Final Internship competency evaluation within PSYCH 800 prior to the next review of confirmed candidature required under Regulation 24 and prior to submission of the thesis
b. achievement of a Pass grade in the Final Clinical Examination within PSYCH 800 prior to the next review of confirmed candidature required under Regulation 24 and prior to submission of the thesis
c. achievement of confirmed Pass grades for Case Reports 1-5 within PSYCH 800 prior to the next review of confirmed candidature required under Regulation 24 and prior to submission of the thesis.

Note: For the avoidance of doubt, Pass grades for Case Reports 1-3 are provisional until confirmed by the examiners for the Final Clinical Examination for PSYCH 800

29 a. Where a candidate does not achieve a Pass grade (provisional or otherwise) in a component of PSYCH 800, conditions on candidature pursuant to Regulation 24 may, subject to Regulation 30, include requirements to satisfactorily complete specific additional work and/or revisions and/or examination.

b. Where conditions are imposed in accordance with Regulation 29(a) at the conclusion of enrolment in PSYCH 800, the submission of the PSYCH 800 result will be deferred.

c. Where any condition imposed in accordance with Regulation 29(a) is not satisfied, the candidate will have failed to successfully complete the relevant component of PSYCH 800.

30 a. The provisions of Regulation 29(a) can apply one time only to each component of PSYCH 800.

b. Where the examiner(s) of the relevant component of PSYCH 800 determine(s) that a particular weakness is such that it cannot be addressed by the setting of additional work or revisions and/or examination, the provisions of Regulation 29(a) cannot be exercised and the candidate will have failed to successfully complete the relevant component of PSYCH 800.

31 All components of PSYCH 800 must be successfully completed in order for the thesis to be submitted for examination.

32 a. Candidature expires when the thesis is not submitted for examination by the date required under Regulation 9.

b. Candidature expires when the thesis is not submitted for examination by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 49.

33 Where candidature has expired under Regulation 32, it may be reinstated only as the outcome of a successful
application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by
successful appeal under Regulation 61 of a decision by the Board of Graduate Studies (or delegate) to decline an
extension of enrolment (retrospective or otherwise).

34 Enrolment in the DClinPsy programme is not possible where candidature remains expired under Regulation 32 or
where a candidate withdraws from the programme under Regulation 52.

35 Termination of candidature under Regulation 53 is also termination of enrolment in the DClinPsy programme for
enrolled candidates. Termination of enrolment pursuant to Regulation 7 is also termination of candidature.

36 Candidates who are required, pursuant to Regulation 49, to revise and resubmit their thesis for examination by
the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of
the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis
pursuant to Regulation 49 is 12 months full-time equivalent.

37 Candidates who wish to be absent from the University in pursuit of their research for more than one month during
enrolment are subject to the doctoral off-campus research policy and procedures.

38 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules,
policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of
candidature.

39 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination,
subject to the approval of the Board of Graduate Studies (or delegate).

Fees
40 All fees required by and pursuant to the Fees Statute must be paid for the duration of enrolment in the DClinPsy
programme.

41 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 12.

42 a A candidate who withdraws from the DClinPsy programme, or who has their candidature terminated, will
receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month
of the period between the date of withdrawal from the programme or termination of candidature and the end
of the current doctoral year.

b A candidate who submits their thesis will receive a refund of one-twelfth of the tuition fee paid for the current
doctoral year per each complete month of the period between the date of submission and the end of the
current doctoral year, provided the candidate has been enrolled in the programme for at least 36 months full-
time equivalent.

43 Graduation is not permitted until all outstanding monies owing to the University have been paid.

Submission
44 The thesis must be submitted in accordance with the doctoral thesis submission procedures – pre examination.

Examination
45 PSYCH 800 must be examined in accordance with the doctoral coursework policy and procedures.

46 a For each candidate, the Board of Graduate Studies (or delegate) will appoint two thesis examiners, at least one
of whom must be based outside New Zealand, in accordance with the doctoral appointment of examiners policy
and procedures.

b The thesis must be examined in accordance with the doctoral examination procedures and/or, where the
Board of Graduate Studies (or delegate) regards it as warranted, with the doctoral examination extraordinary
circumstances and posthumous award procedures.

47 Except where a candidate is exempted pursuant to the doctoral examination extraordinary circumstances and
posthumous award procedures, the DClinPsy degree cannot be awarded where an oral examination has not taken
place on the thesis.

48 Where the Board of Graduate Studies (or delegate) determines, under the doctoral examination procedures, that
a candidate will proceed to oral examination, the oral examination is to be held in accordance with the doctoral
examination procedures and the doctoral oral examination procedures.

49 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made
pursuant to the doctoral examination procedures and determine the outcome of the examination.
Final Decision
50 The final decision as to the award of the DClinPsy degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 49.

51 The final examined and approved thesis must be submitted in accordance with the doctoral thesis submission procedures – post examination in order for the requirements of the DClinPsy degree to be met.

Withdrawal from Programme
52 A candidate may withdraw from the DClinPsy programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature
53 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:
   a failure to meet the requirements for confirmation of candidature pursuant to Regulation 24
   b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 24
   c failure to satisfy post-confirmation milestones or conditions imposed on candidature pursuant to Regulation 24 or Regulation 27 or Regulation 28
   d failure to successfully complete any component of PSYCH 800
   e failure to comply with candidature reporting requirements pursuant to Regulation 24
   f failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)
   g failure to comply with the doctoral thesis submission procedures – post examination
   h failure to make payment of any tuition fees related to enrolment in the DClinPsy by the due date

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 53 is permanent unless successfully appealed in accordance with Regulation 61.

54 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 53, the candidate will be given notice of termination proceedings and allowed fourteen calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision.

55 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of these programme regulations.

56 Termination proceedings under the Faculty of Science Fitness to Practise Policy and Procedures take precedence over, and are independent of, Regulations 53 and 54.

57 Where matters of fitness to practise inform the failure to successfully complete a component of PSYCH 800:
   a termination proceedings will ensue under the Faculty of Science Fitness to Practise Policy and Procedures;
   b termination proceedings, which shall exclude consideration of fitness to practise matters considered under Regulation 57a, will ensue pursuant to Regulation 53d only where:
      (i) the process required under Regulation 57a has concluded and has not resulted in termination of enrolment
      and
      (ii) the failure to successfully complete the component of PSYCH 800 was also informed by matters other than fitness to practise.

58 a Where a candidate withdraws from the DClinPsy programme, or has their candidature terminated, or fails to meet the requirement for the award of the DClinPsy, admission to a new DClinPsy or other doctoral programme in Psychology at a later date will not normally be permitted.

   b A person who withdraws from any doctoral programme in Psychology (clinical or otherwise) or has their doctoral candidature in Psychology (clinical or otherwise) terminated (or equivalent), or who fails to meet the requirements for the award of a doctoral degree in Psychology (clinical or otherwise), will not normally be admitted to the DClinPsy. For the avoidance of doubt: equivalence is determined by the Board of Graduate Studies (or delegate).

Variations
59 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies,
procedures and regulations for DClinPsy candidature, except where variation of a national or government directive or requirement is involved.

Appeals
60 Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to suspension and extension of enrolment, subject to the doctoral candidature appeal procedures.

61 A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature pursuant to Regulation 53 or to decline an extension of enrolment, subject to the doctoral candidature appeal procedures.

62 Where candidature is terminated pursuant to Regulation 7, right of appeal and the determination of appeals are subject to the Faculty of Science Fitness to Practise Policy and Procedures.

63 Appeals as to extension and suspension of enrolment, and as to termination of candidature pursuant to Regulation 53, will be determined in accordance with the doctoral candidature appeal procedures.

64 Candidates and former candidates may appeal the outcome of a DClinPsy thesis examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the doctoral examination appeal procedures.

65 Appeals as to thesis examination will be determined in accordance with the doctoral examination appeal procedures.

Dispute Resolution
66 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

67 Any matter that has been, could have been or could be appealed under the provisions of Regulation 60 or 61 or 64 or under the Faculty of Science Fitness to Practise policy and procedures is precluded from consideration as a dispute under Regulation 66.

Further Provisions
68 a The DClinPsy programme is subject to the Limited Entry Statute.

b Candidates are subject to:
   (i) the Examination Regulations, the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute
   and
   (ii) the provisions of the Enrolment and Programme Regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost’s Special Powers.

69 The doctoral policies and procedures cited in these regulations may be reviewed and amended from time-to-time.

70 Candidates are subject to any additional doctoral policies and procedures devised in support of these regulations and amended from time-to-time.

71 These regulations may be reviewed and amended from time-to-time.

72 These regulations came into force on 1 January 2022.

Certificate in Science – CertSci
The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate, a student must have:
   a been enrolled in the Degree of Bachelor of Science, or a conjoint programme that includes the Bachelor of Science as a component degree, or the Graduate Diploma in Science, at this University
   and
   b passed at least 60 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this certificate must pass courses with a total value of 60 points.
Structure and Content
3 Of the 60 points required for this certificate, 30 points must be from courses listed as available for the BSc in the Bachelor of Science Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Diploma in Science – DipSci
The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Science, or a conjoint programme that includes the Bachelor of Science as a component degree, or the Graduate Diploma in Science, at this University and
   b passed at least 60 points for that degree and
   c been recommended for admission by the Dean or nominee.

Total Points Value
2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3 Of the 120 points required for this diploma, 60 points must be from courses listed as available for the BSc in the Bachelor of Science Schedule.

4 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Applied Psychology – GradDipAppPsych
The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this graduate diploma, a student must have:
   either
   a completed the requirements for any degree from this University, or the equivalent as approved by Senate or its representative
   or
   b demonstrated practical, professional, or scholarly experience as approved by Senate or its representative as equivalent to that specified in 1a above.

Duration and Total Points Value
2 a A student enrolled for this graduate diploma must follow a programme equivalent of one full-time year and pass courses with a total value of 120 points.

   b The requirements for a Graduate Diploma in Applied Psychology must be completed within four years of initial enrolment.
c In all cases, the term of initial enrolment is deemed to be the first term in which the student enrolled for a course which is assigned or reassigned to the programme.

d In exceptional circumstances the relevant Academic Head may increase the duration allowed for enrolment for a period not normally exceeding one year.

Structure and Content
3 A student enrolled for this graduate diploma must complete the requirements as listed in the Graduate Diploma in Applied Psychology Schedule.

4 A student must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic integrity, of the University Calendar.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

Graduate Diploma in Science – GradDipSci

The regulations for this graduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have:
either
  a (i) completed the requirements for any degree from this University, or the equivalent as approved by Senate or its representative
  or
  (ii) demonstrated practical, professional, or scholarly experience of an appropriate kind that is approved by Senate or its representative as equivalent to that specified in 1a(i) above
and
b attained a level of preparation appropriate to the selected major for the Graduate Diploma in Science as approved by the relevant Academic Head or nominee.

2 A student may, if Senate or its representative gives approval, enrol for this graduate diploma without having fulfilled the requirements of Regulation 1b, provided that the student completes any prerequisite courses as part of or in addition to the normal requirements of this programme.

3 With the approval of Senate or its representative, a student who needs only 30 points to complete the Bachelor of Science may enrol concurrently for this graduate diploma and those remaining points, provided that the graduate diploma will not be awarded until such qualifying degree is completed.

Duration and Total Points Value
4 a A student enrolled for this graduate diploma must follow a programme equivalent of two full-time semesters and pass courses with a total value of 120 points.

b The requirements for a Graduate Diploma in Science must be completed within four years of initial enrolment.

c In all cases, the semester of initial enrolment is deemed to be the first semester in which the student enrolled for a course which is assigned or reassigned to the programme.

d In exceptional circumstances the relevant Academic Head may increase the duration allowed for enrolment for a period not normally exceeding two consecutive semesters.

Structure and Content
5 Of the 120 points required for this graduate diploma a student must pass:
a at least 75 points above Stage II, from the Bachelor of Science or Bachelor of Science (Honours) Schedules and
b at least 60 points from a major listed in the Bachelor of Science Schedule, including the Stage III courses required for that major.

6 The programme for this graduate diploma may include a research project in a subject for which the student is approved by the Academic Head or nominee as suitably qualified.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student requires the approval of the relevant Head of Department, Director of School or equivalent prior to enrolment.

9 Cross-credits will not be granted toward the Graduate Diploma in Science.

Research Project

10 a A research project, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative on the recommendation of the relevant Academic Head.

b The research project topic must be approved by the relevant Academic Head prior to enrolment.

c The research project is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Variations

11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

12 These regulations have been amended with effect from 1 January 2019.

Postgraduate Certificate in Information Technology – PGCertInfoTech

This qualification is awarded jointly by the University of Auckland and the University of Waikato. The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for a Bachelor's degree from this University with a Grade Point Average of 4.0 or higher in 75 points at Stage III or above, or the equivalent as approved by Senate or its representative.

2 In exceptional circumstances, Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirement in Regulation 1.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value

3 A student enrolled for this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within one semester if enrolled full-time or four semesters if enrolled part-time.

4 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content

5 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Information Technology Schedule.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

8 These regulations and/or schedule have been amended with effect from 1 January 2018.
Postgraduate Certificate in Information Technology (PGCertInfoTech) Schedule

Requirement:
• 60 points: COMPSCI 718, 719

Postgraduate Diploma in Applied Psychology – PGDipAppPsych

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:
   a the Degree of Master of Arts or Master of Science in Psychology from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   and
   b passed PSYCH 741, 749, 750, 751, 754, 759, or the equivalent as approved by Senate or its representative
   and
   c demonstrated in accordance with approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking a qualification as a registered psychologist. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

   Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Applied Psychology Schedule.

5 The programme for each student requires the approval of the Head of School of Psychology.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
7 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
8 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Diploma in Clinical Psychology – PGDipClinPsych

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:
   a the Degree of Master of Arts or Master of Science in Psychology from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
or
b the Degree of Bachelor of Arts (Honours) or Bachelor of Science (Honours) in Psychology from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
or
c a Doctor of Philosophy in Psychology
and
d passed PSYCH 708, 718, 723 with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
and
e demonstrated in accordance with approved selection criteria determined by the Faculty of Science the qualities necessary for a person seeking a qualification as a Clinical Psychologist. This will normally require an interview, submission of academic transcripts and appropriate letters of reference.

2 Candidates must continue to meet the requirements of the Health Practitioners Competence Assurance Act (2003) for Professional and Ethical behavior.

Notes: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
3 a A student enrolled for this postgraduate diploma who has completed the requirement for a Masters Degree in Psychology which included a thesis, or a Doctor of Philosophy degree in Psychology, must follow a programme of the equivalent of four consecutive full-time semesters and pass courses with a total value of 240 points.

b Any other student enrolled for this postgraduate diploma must follow a programme of the equivalent of six consecutive full-time semesters and pass courses with a total value of 360 points.

Structure and Content
4 a A student who has completed the requirements for a Doctor of Philosophy in Psychology or a Masters Degree in Psychology which included a thesis must follow a programme of 240 points as listed in Option 1 in the Postgraduate Diploma in Clinical Psychology Schedule.

b Any other student enrolled for this postgraduate diploma must follow a programme of 360 points as listed in Option 2 in the Postgraduate Diploma in Clinical Psychology Schedule.

c A student who has not previously passed, or been credited with a pass in PSYCH 718 and 723, or PSYCH 709 and 747 will be required to take PSYCH 718 and 723 or their equivalents before taking Part III.

d A student enrolled for this postgraduate diploma has to carry out satisfactorily such practical or clinical work as the Head of School of Psychology may require.

e A student has to pass both the written work and the practical or clinical work in order to pass each Part of the programme. However, a student who passes the practical or clinical work of Part III but fails the final examination may, at the discretion of the Head of School of Psychology, be required to pass a special examination in order to meet the requirements of the programme. A student who fails any year of the programme may, at the discretion of the Dean following a recommendation from the Head of School of Psychology, be declined permission to enrol again in that year of the programme or in the programme as a whole.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2020.

Postgraduate Diploma in Information Technology – PGDipInfoTech

This qualification is awarded jointly by the University of Auckland and the University of Waikato.

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a been enrolled in the Degree of Master of Information Technology
   and
   b (i) passed at least 60 points for that degree
   and
   (ii) been recommended for admission by the Academic Head or nominee.

2 No student on whom the Degree of Master of Information Technology has been conferred may be permitted to apply for admission to this postgraduate diploma.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must pass 120 points from courses listed in the Master of Information Technology Schedule, excluding COMPSCI 778.

6 The programme for each student must be approved by the relevant Head of Department, Director of School or equivalent.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
10 These regulations have been amended with effect from 1 January 2018.

Postgraduate Diploma in Science – PGDipSci

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a completed the requirements for the Degree of Bachelor of Science from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   and
   b (i) passed the prerequisites for the courses in the selected subject for the Postgraduate Diploma in Science
   or
   (ii) attained a level of competence equivalent to the prerequisites for the courses in the selected subject for Postgraduate Diploma in Science as approved by Senate or its representative.

2 A student may, if Senate or its representative gives approval, enrol for this postgraduate diploma without having fulfilled all the prerequisite requirements, provided that the relevant Head of Department or Director of School may require any such student to enrol for any or all of the prerequisite courses not already passed in addition to the normal requirements of this programme.

3 A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed courses with a total value of at least 345 points towards that degree may, with the approval of the relevant Head of Department or Director of School, enrol for this postgraduate diploma. The remaining courses for the Bachelor of Science must be taken and passed within 12 months of initial enrolment for this postgraduate diploma. Should the requirements for the Bachelor of Science not be completed within these 12 months, enrolment for the Postgraduate Diploma in Science will be suspended until the requirements for the Bachelors degree are completed.

Notes:
(i) This programme includes some specialisations that are limited entry as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

(ii) Equivalent qualifications may include the Bachelor of Arts, Bachelor of Commerce, Bachelor of Engineering, Bachelor of Engineering (Honours), Bachelor of Optometry, Bachelor of Planning, Bachelor of Urban Planning, Bachelor of Urban Planning (Honours).

(iii) Relevant subjects may include applied mathematics, bioinformatics, biological sciences, biomedical science, biosecurity, conservation, biotechnology, chemistry, clinical exercise physiology, computer science, earth sciences, environmental management, environmental science, exercise sciences, food science, geography, geology, geophysics, green chemical science, logic and computation, marine science, mathematics, medical statistics, optometry, pharmacology, physics, physiology, psychology, speech science, statistics, wine science.
Duration and Total Points Value
4 A student enrolled for this postgraduate diploma must:
   a  pass courses with a total value of 120 points
   and
   b  complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 A student enrolled for this postgraduate diploma must complete the requirements for one of the specialisations listed in the Postgraduate Diploma in Science Schedule.
7 A dissertation or research project of up to 45 points may be included as listed in the Postgraduate Diploma in Science Schedule.
8 Courses selected for this qualification are subject to confirmation by the relevant Academic Head or nominee.
9 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation / Research Project
10 a A dissertation or research project, when included in the programme, is to be carried out under the guidance of a supervisor appointed by the Academic Head or nominee.
   b The dissertation or research project topic must be approved by the Academic Head or nominee prior to enrolment.
   c The dissertation or research project is to be completed and submitted in accordance with the General Regulations – Postgraduate Diplomas.

Distinction
11 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
13 These regulations and/or schedule have been amended with effect from 1 January 2022.

  • 15 points from BIOSCI 701, 704 |
• at least 60 points from BIOSCI 700–702, 736–738, 741, 746, 749, 751–761, 764–765
• up to 30 points from other approved 700 level courses offered at this University

Chemistry
Prerequisite: A major in Chemistry, or the equivalent approved by the Academic Head or nominee
Requirement:
• at least 90 points from CHEM 691, 710–780, 795
• up to 30 points from 600 or 700 level courses in Chemistry or related subjects with approval of the Head of Department
Note: Students intending to study for a Master of Science in Chemistry must take CHEM 795

Clinical Exercise Physiology
Prerequisite: A major in Exercise Sciences or Sport and Exercise Science, or the equivalent approved by the Academic Head or nominee including EXERSCI 301 or an equivalent course approved by the Academic Head or nominee
Requirement:
• 90 points: EXERSCI 720, 721, 776, 777
• 30 points from approved 700 level courses in the Faculty of Science approved by the Academic Head or nominee

Computer Science
Prerequisite: A major in Computer Science, or the equivalent approved by the Academic Head or nominee
Requirement:
• at least 90 points from BIOSCI 700, COMPSCI 691, 701–716, 720–780
• up to 30 points from 700 level courses in a related subject with approval of the Academic Head or nominee

Earth Sciences
Prerequisite: A major in Earth Sciences or Geology, or the equivalent approved by the Academic Head or nominee, or a major in Geography including GEOG 330, 331, 334, 351, 360 or equivalent courses approved by the Academic Head or nominee
Requirement:
• at least 60 points from EARTHSCI 703–780, GEOG 730, 745, 746, 749, 770–772, GEOPHYS 760, 761
• up to 30 points from 700 level courses as approved by the Programme Coordinator

Environmental Management
Prerequisite: Bachelors degree approved by the Academic Head or nominee
Requirement:
• 15 points from ENVMGT 701, GEOG 701
• at least 60 points from ENVMGT 741–762
• up to 45 points from 700 level courses as approved by the Programme Coordinator

Environmental Physics
Prerequisite: A major in Environmental Physics, Geophysics or its equivalent approved by the Academic Head or nominee
Requirement:
• 45 points from EARTHSCI 764, EVPHYS 700–703, PHYSICS 743
• a further 75 points from EVPHYS 700–703, 770 or other 600 or 700 level courses in Earth Sciences, Geography, Geographic Information Science, Mathematics, Physics or other subjects offered by the Faculty of Science approved by the Academic Head or nominee

Environmental Science
Prerequisite: A Science subject approved by the Academic Head or nominee
Requirement:
• 15 points: ENVSCI 711
• at least 60 points from ENVSCI 701, 703–707, 713–738, MARINE 707
• up to a further 45 points from EARTHSCI 705, 720, GEOG 730, 745–749, 770, 771, ENVMGT 742, 744, MARINE 703 or other approved 700 level courses

Explain: Exercise Sciences
Prerequisite: A major in Exercise Sciences or the equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: EXERSCI 705
• at least 45 points from 700 level courses in Exercise Sciences as approved by the Head of Department
• up to 60 points from other 700 level courses offered at this University approved by the Academic Head or nominee

Food Science
Prerequisite: A major in Biological Sciences, Chemistry, Food Science, specialisation in Food Science and Nutrition, or the equivalent approved by the Academic Head or nominee
Requirement:
• 60 points from FOODSCI 703, 707, 708, CHEMMAT 757
• 60 points from approved 600 and 700 level courses

Geography
Prerequisite: A major in Earth Sciences or Geography, or the equivalent approved by the Academic Head or nominee including 45 points at Stage III in Geography or the equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: GEG 701
• at least 75 points from EARTHSCI 705, 713, 732, ENVMGT 741–762, ENVSCI 704, 713, 737, 738, GEOG 712–779
• up to 30 points from other approved 700 level courses offered at this University

Green Chemical Science
Prerequisite: A major or specialisation in Chemistry or Green Chemical Science, or the equivalent approved by the Academic Head or nominee, including CHEM 360 and ENVSCI 301 or equivalent courses approved by the Academic Head or nominee
Requirement:
• 90 points from CHEM 691, 710–751, 780, 795
• 30 points: CHEM 760, ENVSCI 714

Logic and Computation
Prerequisite: A major in Logic and Computation or the equivalent approved by the Academic Head or nominee
Requirement:
• 15 points from COMPSCI 720, 750, 760, 767
• 15 points from PHIL 736–738
• 90 points from COMPSCI 720, 750, 760, 767, LINGUIST 721, 724, LOGICOMP 701–705, MATHS 713, 715, PHIL 736–738

Marine Science
Prerequisite: A major in Biological Sciences, Environmental Science, or Marine Science, or the equivalent approved by the Academic Head or nominee
Requirement:
• 15 points: MARINE 701
• 15 points from BIOSCI 761, CHEM 795, ENVSCI 701
• 90 points from the following 700 level courses including at least two of the following subject areas: BIOSCI 724–727, 733, 738, 739, 749, CHEM 770, EARTHSCI 720, ENVMT 742, 744, ENVSCI 704, 714, FOODSCI 703, 708, GEOG 730, 746, 748, 771, GEOPHYS 711–713, 761, MARINE 702–707, STATS 767, or other 700 level courses approved by the Programme Coordinator
### Mathematics

**Prerequisite:** A major in Mathematics or the equivalent approved by the Academic Head or nominee, including MATHS 332, and MATHS 320 or 328 or equivalent courses approved by the Academic Head or nominee. MATHS 302 may be substituted for one of MATHS 320, 328, 332

**Requirement:**
- at least 75 points from MATHS 701–710, 712–770, 781–784, 786–789
- up to 45 points from approved 600 level courses in Mathematics or from MATHS 701–710, 712–770, 781–784, 786–789 or related subjects, with the approval of the Head of Department

### Medical Statistics

**Prerequisite:** A major in Statistics or the equivalent approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee

**Requirement:**
- 45 points: POPLHLTH 708, STATS 770, 773
- 15 points from STATS 779
- at least 30 points from STATS 701–703, 705, 708–787, POPLHLTH 707–709, 711, 767
- up to 30 points from 700 level courses in Statistics or related subjects, as approved by the Head of Department

### Optometry

**Prerequisite:** A specialisation in Optometry or the equivalent approved by the Academic Head or nominee

**Requirement:**
- 120 points from OPTOM 751, 752, 757, 759
- at least 90 points from OPTOM 751, 752, 757, 759
- up to 30 further points, subject to approval by the Head of Department, from approved 600 or 700 level courses in a related subject

### Pharmacology

**Prerequisite:** A major in Pharmacology or the equivalent approved by the Academic Head or nominee

**Requirement:**
- at least 60 points from MEDSCI 700, 701, 715–723, 735, 744, 745
- up to 60 points from other 600 or 700 level courses as approved by the Head of Department

### Physics

**Prerequisite:** A major in Physics or the equivalent approved by the Academic Head or nominee

**Requirement:**
- 75 points from PHYSICS 625–681, 691, 701–787, 788
- a further 45 points from PHYSICS 625–681, 691, 701–787, 788, MATHS 761–770, GEOPHYSYS 761, 780
- at least 15 points from PHYSICS 625–681, 691, 701–787, 788, MATHS 761–770, GEOPHYSYS 761, 780
- up to 30 points, subject to the approval of the Head of Department, from approved 600 and 700 level courses in related subjects

### Physiology

**Prerequisite:** A major in Physiology or the equivalent approved by the Academic Head or nominee

**Requirement:**
- 15 points from MEDSCI 743
- 105 points from MEDSCI 701, 703, 717, 727–734, 737, 739, 744

### Psychology

**Prerequisite:** A major in Psychology or the equivalent approved by the Academic Head or nominee

**Requirement:**
- either
  - 120 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–778
  - 105 points from EXERSCI 711, INDIGEN 712, PSYCH 700–770, 775–778
  - 15 points from other approved 600 or 700 level courses offered at this University
  - Applied Behaviour Analysis: 120 points from PSYCH, 741, 750, 751, 754, 749, 759

### Speech Science

**Requirement:**
- 60 points from SPCHSCI 701, 711–713, 722, 723, 733, 736, 743, 746, 751–754
- 60 points from other approved 600 or 700 level courses in Audiology, Computer Science, Engineering, Linguistics, Physiology, Psychology, Speech Science

### Statistics

**Prerequisite:** A major in Statistics or the equivalent approved by the Academic Head or nominee including STATS 210 or 225 or an equivalent course approved by the Academic Head or nominee

**Requirement:**
- 15 points from STATS 779
- at least 75 points from POPLHLTH 707–709, 711, STATS 700–703, 705, 708–787
- up to 30 points from 700 level courses in Statistics or related subjects, as approved by the Academic Head or nominee

### Wine Science

**Prerequisite:** A major in Chemistry or specialisation in Food Science and Nutrition, or the equivalent approved by the Academic Head or nominee

**Requirement:**
- at least 75 points from WINESCI 701–708
- up to 45 points from approved 600 and 700 level courses in Biological Sciences, Chemical and Materials Engineering, Chemistry, Food Science or Geography

The Degree of Bachelor of Global Studies – BGlobalSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.

Duration and Total Points Value
1 A student enrolled for this degree must follow a programme of the equivalent of six full-time semesters and pass courses with a total value of 360 points, unless credit is granted under the Admission Regulations and/or the Credit Regulations.

Structure and Content
2 Of the 360 points required for this degree, a student must pass:
   a at least 300 points from courses listed in the Bachelor of Global Studies Schedule, including:
      (i) at least 195 points above Stage I, including at least 75 points above Stage II
      (ii) Core Courses: 45 points: GLOBAL 102, 200, 300
      (iii) a major of at least 150 points from the Bachelor of Global Studies Schedule, of which at least 45 points must be above Stage II
      (iv) 60 points from one of the Languages listed in the Bachelor of Global Studies Schedule, of which at least 30 points must be above Stage I
      (v) 45 points from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is aligned with the chosen Language, of which at least 15 points must be above Stage II.
   b 30 points from courses offered in either the General Education Open Schedule or the General Education Faculty Schedule approved for this degree or from a combination of these schedules, and the Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar
   c up to 30 points from courses available for this programme or other programmes at this University.

3 A student who is required to meet the Academic English Language Requirement, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute an academic English language course approved by Senate or its representative for 15 points of General Education.

General Education Exemptions
4 a A student is exempted from the requirement to pass courses offered in the General Education Schedules who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) been admitted to this degree having completed 120 points or more of degree-level study at another tertiary institution.

   b A student who has been exempted from the requirement to pass courses offered in the General Education Schedules must substitute 30 points from courses available for this degree.

   c A student who has been fully exempted from the requirement to pass courses offered in the General Education Schedules is nonetheless required to complete the Academic Integrity course.

Conjoint Degrees
5 Special arrangements apply where this degree is taken as a component degree of an approved conjoint combination. The specific requirements and a complete list of the conjoint degrees available are set out in the Conjoint Degrees section of the University Calendar.

Special Cases
6 a For Language courses, enrolment of students with prior knowledge of the language is at the discretion of the Academic Head or nominee.

   b Enrolment in any particular course(s) may be declined, and enrolment may be required instead in a course at a more advanced level. A student who is required to enrol in a more advanced course may choose either to complete 60 points of Language courses or complete alternative course(s) from elsewhere in the Bachelor of Global Studies Schedule.
c) If a student who has been required to enrol in a more advanced course fails that course they may be credited with an appropriate less advanced course if they are certified by the examiners as having reached the standard of a pass for that course and have not previously been credited with that course.

d) A student who has passed or been credited with a language acquisition course may not enrol for a course which precedes that course in the sequence of language acquisition courses.

Variations
7) In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8) These regulations and/or schedule have been amended with effect from 1 January 2022.

</table>

**Majors available:**

**Global Environment and Sustainable Development**

- **Stage I courses:** EARTHSCI 105, ECON 151, 152, ENVSCI 101, GEG 102, 104, GLOBAL 101, HISTORY 103, INTBUS 151, MĀORI 130, POLITICS 106, STATS 150, SUSTAIN 100, URBPBL 101
- **Stage II courses:** EDUC 212, GENDER 208, GEG 205, GLOBAL 201–203, 205–252, 277–280, MEDIA 231, PACIFIC 205, PHIL 250, SOCIOL 213, 229, SUSTAIN 200, URBPBL 201
- **Stage III courses:** ENVSCI 303, GEG 320, 324, 325, GLOBAL 301–352, 377–380, MEDIA 322, PACIFIC 305, POLITICS 313, PHIL 351, SOCIOL 307, SUSTAIN 300, URBPBL 301, 306
- **Stage IV courses:** LAWNVR 420, 430, LAWPUBL 435, 446, 456

**Major must include:**
- 15 points: ENVSCI 101
- 30 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, POLITICS 106, STATS 150

**Global Politics and Human Rights**

- **Stage I courses:** ECON 151, 152, GLOBAL 101, 102, HISTORY 103, INTBUS 151, MĀORI 130, PHIL 104, POLITICS 106, SOCIOL 103, STATS 150
- **Stage II courses:** ANTHRO 213, COMMS 208, CRIM 207, EDUC 212, GENDER 208, GLOBAL 201–203, 205–252, 277–280, HISTORY 205, PHIL 205, 268, POLITICS 201, 202, 218, 222, 254, SOCIOL 213
- **Stage III courses:** ANTHRO 321, CRIM 302, 307, GEG 308, GLOBAL 301–352, 377–380, HISTORY 309, MĀORI 335, PHIL 310, 368, POLITICS 300, 303, 314, 320, 346, 356, SOCIOL 315
- **Stage IV courses:** LAWPUBL 402, 436, 443, 446, 451, 455, 458, 461

**Major must include:**
- 15 points: POLITICS 106
- 15 points: PHIL 104
- at least 15 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, POLITICS 106, STATS 150

**International Relations and Business**

- **Stage I courses:** ECON 151, 152, GLOBAL 101, 102, HISTORY 103, MĀORI 130, POLITICS 106, STATS 150
- **Stage II courses:** ECON 201, 232, 241, GENDER 208, GEG 202, GLOBAL 201–203, 205–252, 277–280, INTBUS 201, 202, POLITICS 201, 202, SOCIOL 208, 213
- **Stage III courses:** ECON 341, 343, GEG 302, 307, 312, GLOBAL 301–352, 377–380, INTBUS 305, 306, POLITICS 316
- **Stage IV courses:** LAWPUBL 432, 435, 462

**Major must include:**
- 45 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, POLITICS 106, STATS 150
- in total no more than 75 points from ECON 151, 152, 201, 232, 241, 341, 343, INTBUS 201, 202, 305, 306 or other courses from the BCom Schedule may be included in this degree

**Transnational Cultures and Creative Practice**

- **Stage I courses:** ANTHRO 106, ARCHHTC 102, ARTHIST 115, ECON 151, 152, GLOBAL 101, 102, HISTORY 103, MĀORI 130, 190, MUS 188, PACIFIC 110, POLITICS 106, SOCIOL 103, STATS 150, URBPBL 101
- **Stage II courses:** ANTHRO 202, 234, ARCHHTC 237, ARTHIST 206, 233, COMPLIT 200, 202, 206, 210, DANCE 200, EUROPEAN 200, 207, GENDER 208, GLOBAL 201–203, 205–252, 277–280, LATINAM 201, MĀORI 292, MEDIA 202, 222, MUSIC 243, PACIFIC 210, PHIL 212
- **Stage III courses:** ANTHRO 301, 329, ARCHHTC 341, ARTHIST 313, 333, COMPLIT 302, 303, DANCE 302, ENGLISH 346, EUROPEAN 300, 307, GLOBAL 301–352, 377–380, HUMS 300, LATINAM 303, 306, MĀORI 393, MEDIA 307, 327, MUS 387, PACIFIC 310, PHIL 392, SOCIOL 213

**Major must include:**
- at least 45 points from ECON 151 or 152, GLOBAL 101, HISTORY 103, MĀORI 130, POLITICS 106, STATS 150

**BGlobalSt Languages:**

**Academic English**

- **Stage I courses:** ACADENG 100, 101, 104, ENGLISH 121
- **Stage II courses:** ACADENG 210

**Must include:**
- ACADENG 210 or equivalent competency

Subject to approval by Academic Head or nominee, Academic English is available for international students with English as an additional language who would benefit from English study.

**Chinese**

- **Stage I courses:** CHINESE 100, 101
- **Stage II courses:** CHINESE 200, 201, 277, 278
- **Stage III courses:** CHINESE 300, 301, 302, 377, 378

**Must include:**
- CHINESE 201 or equivalent competency

**Cook Islands Māori**

- **Stage I course:** COOKIS 101 and 15 points from either MĀORI 103, SAMOAN 1, TONGAN 101
- **Stage II courses:** COOKIS 201, PACIFIC 212
Stage III courses: COOKIS 301, PACIFIC 312
Must include:
• COOKIS 201 or equivalent competency

French
Stage I courses: FRENCH 101, 102
Stage II courses: FRENCH 203, 204, 269, 277, 278
Stage III courses: FRENCH 304, 305, 320, 377, 378
Must include:
• FRENCH 204 or equivalent competency

German
Stage I courses: GERMAN 101, 102,
Stage II courses: GERMAN 200, 201, 277, 278
Stage III courses: GERMAN 301, 302, 305, 306, 377, 378
Must include:
• GERMAN 201 or equivalent competency

Italian
Stage I courses: ITALIAN 100, 106, 107, 177
Stage II courses: ITALIAN 200, 201, 277, 278
Stage III courses: ITALIAN 300, 301, 377, 378, 379
Must include:
• ITALIAN 201 or equivalent competency

Japanese
Stage I courses: JAPANESE 130, 131
Stage II courses: JAPANESE 231, 232, 277, 278
Stage III courses: JAPANESE 331, 332, 377, 378
Must include:
• JAPANESE 232 or equivalent competency

Korean
Stage I courses: KOREAN 110, 111
Stage II courses: KOREAN 200, 201, 277, 278
Stage III courses: KOREAN 300, 301, 377, 378, 381
Must include:
• KOREAN 201 or equivalent competency

BGlobalSt Area Studies:

Asia
Stage II courses: ARTHIST 206, ASIAN 200, 204, HISTORY 225
Stage III courses: ARTHIST 313, ASIAN 302, 303, 304, ANTHRO 329, ECON 343, GEOG 322, HISTORY 335
Students who have chosen Asia must select either Chinese, Japanese, or Korean as their language.

Europe
Stage II courses: EUROPEAN 200, 206, 207, 212, GLOBAL 204, HISTORY 217, 224, 271
Stage III courses: EUROPEAN 300, 302, 307, 312, GLOBAL 304, HISTORY 317, 324, 371, LAW PUBL 438, 445
Students who have chosen Europe must select either French, German, Italian, Russian, or Spanish as their language.

Latin America
Stage II courses: LATINAM 201, 210, 216
Stage III courses: LATINAM 301, 303, 306, 320, 325
Students who have chosen Latin America must select Spanish as their language.

Māori New Zealand
Stage II courses: ANTHRO 207, ARTHIST 238, HISTORY 227, MĀORI 202, 230
Stage III courses: ANTHRO 338, HISTORY 327, MĀORI 303, 320, 330, 335, 396
Students who have chosen Māori New Zealand must select Māori as their language.

The Pacific
Stage II courses: ANTHRO 234, PACIFIC 200, 206, 207, 211, 213
Stage III courses: ANTHRO 358, GEOG 312, LAWGENRL 428, PACIFIC 306, 311, 313
Students who have chosen the Pacific must select either Cook Islands Māori, Samoan, or Tongan as their language.
The Degree of Master of Bioscience Enterprise – MBioEnt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this programme, a student needs to have:
   a. completed the requirements for
      either
      (i) the Postgraduate Diploma in Bioscience Enterprise
      or
      (ii) any other equivalent qualification approved by Senate or its representative
   and
   b. attained a B+ average in at least 90 points taken for the Postgraduate Diploma in Bioscience Enterprise
   and
   c. approval from the Director of School, or equivalent.

2. A student who has not completed all the requirements of the Postgraduate Diploma in Bioscience Enterprise but who has:
   a. passed 105 points towards the Postgraduate Diploma in Bioscience Enterprise
   and
   b. met all other entry and prerequisite requirements
   may, with the approval of the Director of School or equivalent, enrol for this degree. The requirements for the Postgraduate Diploma in Bioscience Enterprise must be completed within 12 months of initial enrolment for the Master of Bioscience Enterprise. Should these requirements not be completed within these 12 months, enrolment for the Master of Bioscience Enterprise will be suspended until they have been completed.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
3. A student enrolled for this degree must:
   a. pass courses with a total value of 120 points
   and
   b. complete within the time limit specified in the General Regulations – Masters Degrees.

4. The total enrolment for this degree must not exceed 160 points.

Structure and Content
5. Of the 120 points required for this degree, a student must pass:
   Research Masters
   90 point Thesis and 30 points from courses listed in the Research Masters option in the Master of Bioscience Enterprise Schedule.

6. The programme for each student must be approved by the Director of School or equivalent before enrolment for this degree.

7. A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis / Dissertation
8. a. A thesis or dissertation, when included in the programme, is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

   b. The thesis or dissertation topic must be approved by the Programme Coordinator prior to enrolment.

   c. The thesis or dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Honours
9. This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
10. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11. These regulations and/or schedule have been amended with effect from 1 January 2022.
Master of Bioscience Enterprise (MBioEnt) Schedule

| Prerequisite: Postgraduate Diploma in Bioscience Enterprise |
| Requirement: Research Masters |
| • 30 points: SCIENT 720–722 |
| • 90 points: SCIENT 794 Thesis |

The Degree of Master of Disaster Management – MDisMgt

New admissions into the Degree of MDisMgt were suspended in 2021. Students who have a current enrolment in this subject should contact their faculty for advice regarding completion.

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   
either
   
a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage III
   
or
   
(i) the Degree of Bachelor of Arts (Honours), or the Degree of Bachelor of Commerce (Honours), or the Degree of Bachelor of Health Sciences (Honours), or the Degree of Bachelor of Laws, or the Degree of Bachelor of Laws (Honours), or the Degree of Bachelor of Planning, or the Degree of Bachelor of Science (Honours) from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage III
   
or
   
(iii) an equivalent qualification as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering
   
or
   
b (i) the Degree of Bachelor of Arts, or the Degree of Bachelor of Commerce, or the Degree of Bachelor of Health Sciences, or the Degree of Bachelor of Science from the University of Auckland with a Grade Point Average of 5.0 or higher in 120 points above Stage II
   
or
   
(ii) an equivalent qualification as approved by Senate or its representative, at a level deemed satisfactory by the Dean of Faculty of Engineering.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has not met the above requirement, but who has attained an equivalent qualification or professional experience related to disaster management.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a must:
   
a pass courses with a total value of 120 points
   
and
   
b complete within the time limit specified in the General Regulations – Masters Degrees
   
and
   
c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1b must:
   
a pass courses with a total value of 180 points
   
and
   
b complete within the time limit specified in the General Regulations – Masters Degrees
   
and
   
c not exceed 220 points for the total enrolment for this degree.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Master of Disaster Management Schedule.

6 A student must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Disaster Management cannot continue.
6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 Research Project
   a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The research project topic must be approved by the Head of Department prior to enrolment.
   c The research project is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
9 A student who has not met the requirement in Regulation 6 may apply to reassign courses passed to the Postgraduate Certificate in Disaster Management.

Honours
10 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
12 These regulations and/or schedule have been amended with effect from 1 January 2021.

The Degree of Master of Energy – MEnergy
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or (ii) the Degree of Bachelor of Science (Honours) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or (iii) the Degree of Bachelor of Science from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II and the Postgraduate Diploma in Science from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or (iv) the Degree of Bachelor of Commerce (Honours) from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
   or (v) the Degree of Bachelor of Commerce from this University with a Grade Point Average of 5.0 or higher in
75 points above Stage II and the Postgraduate Diploma in Commerce from this University with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative

or

(vi) an equivalent four year study programme from this University as approved by Senate or its representative with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

or

(vii) (a) a relevant Bachelor's degree from this University as approved by Senate or its representative with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

and

(b) at least three years of relevant work experience approved by the Dean of Faculty of Engineering

or

b (i) the qualifications as listed in 1a(i)-(vii), and not met the required Grade Point Average and

(ii) the Postgraduate Certificate in Geothermal Energy Technology or the Postgraduate Certificate in Engineering from this University, with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded

or

c (i) the Degree of Bachelor of Science from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or

(ii) the Degree of Bachelor of Commerce from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative

or

(iii) a relevant Bachelor's degree from this University as approved by Senate or its representative with a Grade Point Average of 5.0 or higher in 120 points in the most advanced courses, or the equivalent as approved by Senate or its representative

or

d (i) one of the qualifications listed in 1c(i)-(iii), and not met the required Grade Point Average and

(ii) the Postgraduate Certificate in Geothermal Energy Technology or the Postgraduate Certificate in Engineering from this University, with a Grade Point Average of 5.0 or higher, provided that the postgraduate certificate has not been awarded.

2 In exceptional circumstances Senate or its representative may approve admission of a student who has:

a attained extensive, practical, professional or scholarly experience in the engineering, geotechnical, or business professions deemed equivalent by Senate or its representative to the requirement in Regulation 1 and

b performed at an acceptable level in any tests of academic aptitude and/or interviews prescribed by Senate or its representative.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Engineering.

Duration and Total Points Value

3 A student admitted to this degree under Regulation 1a or 1b must:

a pass courses with a total value of 120 points and

b complete within the time limit specified in the General Regulations – Masters Degrees and

c not exceed 160 points for the total enrolment for this degree.

4 A student admitted to this degree under Regulation 1c or 1d must:

a pass courses with a total value of 180 points and

b complete within the time limit specified in the General Regulations – Masters Degrees and

c not exceed 220 points for the total enrolment for this degree.

5 A student admitted under Regulation 3 must meet the requirements specified in Regulations 4 or 5 as approved by Senate or its representative.

Structure and Content

6 A student enrolled for this degree must complete the requirements as listed in the Master of Energy Schedule.
7 If these requirements include courses the same as, or similar to, those already passed by a student, alternative courses must be substituted as approved by the appropriate Academic Head.

8 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 5.0 or higher in the first 45 points of courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Energy cannot continue.

9 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 45 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Energy cannot continue.

10 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Transfer from Postgraduate Certificate in Geothermal Energy Technology or Postgraduate Certificate in Engineering

11 A student who has passed courses towards a Postgraduate Certificate in Geothermal Energy Technology or a Postgraduate Certificate in Engineering that are available for this degree may reassign those courses to the Master of Energy provided that the postgraduate certificate has not been awarded.

Research Project / Thesis

12 a The research project or thesis is to be carried out under the supervision of a supervisor appointed by Senate or its representative.

b The research project or thesis topic must be approved by the Academic Head prior to enrolment.

c The research project or thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment

13 A student may apply to reassign courses passed to the Postgraduate Diploma in Energy, Postgraduate Certificate in Energy or Postgraduate Certificate in Geothermal Energy Technology.

Honours

14 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations

15 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

16 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Energy (MEnergy) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following:

<table>
<thead>
<tr>
<th>Requirement:</th>
<th>Taught Masters</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research Masters</td>
<td>771, 783, ELECTENG 735, ENGSCI 745, 755, ENVENG 702, 704, 750–752, ENVMTG 741–744, 746, 747, ENVSCI 711, GEOF 749, GLMI 707, MECHENG 711–714, SCIENT 701, approved 600 and 700 level courses, other than projects and theses, offered at this University</td>
</tr>

The Degree of Master of Engineering Geology – MEngGeol

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Advanced Science (Honours) or Bachelor of Science (Honours) in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage III, including at least 45 points in Earth Sciences or Geology, or the equivalent as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   (iii) the Degree of Bachelor of Science from this University and the Postgraduate Diploma in Science with a Grade Point Average of 5.0 or higher in 75 points above Stage III, including at least 45 points in Earth Sciences or Geology, or the equivalent as approved by Senate or its representative
   or
   (iv) (a) a relevant Bachelors degree with a Grade Point Average of 4.0 in 75 points above Stage II, as approved by Senate or its representative
       and
       (b) completed three years of relevant work experience as approved by the Dean of Faculty of Science
   or
   b the Degree of Bachelor of Science in Earth Sciences with a Grade Point Average of 5.0 or higher in 75 points above Stage II, including at least 45 points in Earth Sciences or Geology, or the equivalent as approved by Senate or its representative.

Note: Relevant degrees may include those in earth science, civil engineering, geology.

Duration and Total Points Value
2 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.
3 A student admitted to this degree under Regulation 1b must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Engineering Geology Schedule.

5 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in the first 60 points of taught courses and prior to enrolment in EARTHSCI 794. If this Grade Point Average is not achieved, enrolment in the Master of Engineering Geology cannot continue.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Thesis
7 a The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The thesis topic must be approved by the Academic Head or nominee prior to enrolment.
   c The thesis is to be completed and submitted in accordance with the General Regulations – Masters Degrees.
Reassignment
8 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Science in Earth Sciences.

Honours
9 This degree may be awarded with Honours in accordance with the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

Master of Engineering Geology (MEngGeol) Schedule

A student who has to complete 120 points must satisfy the following requirements:

| Requirement: Research Masters | 15 points: EARTHSCI 770 | 90 points: EARTHSCI 794 Thesis |

A student who has to complete 180 points must satisfy the following requirements:

| Requirement: Research Masters | 45 points: EARTHSCI 770, 771, 772 | at least 30 points from EARTHSCI 703, 713, 714, 720, 732, 752, 754, 764, 780, GEOG 745, 746, 771, 772, GEOPHYS 761 | 15 points from ENVSCI 711, ENVMGT 744, CIVIL 703, 791 | 90 points: EARTHSCI 794 Thesis |

The Degree of Master of Global Studies – MGlobalSt

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:
   a the Degree of Bachelor of Global Studies from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b the Degree of Bachelor of Arts or Bachelor of Science in a relevant major from this University with a Grade Point Average of 5.0 or higher in 45 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Relevant majors may include anthropology, communication, development studies, economics, environmental science, gender studies, geography, history, indigenous studies, law, linguistics, philosophy, political science, psychology, sociology.

Duration and Total Points Value
2 A student admitted to this degree must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 220 points in the total enrolment for this degree.

Structure and Content
3 A student enrolled for this degree must complete the requirements as listed in the Master of Global Studies Schedule.

4 A student must achieve a Grade Point Average of 4.0 or higher in the first 120 points of courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Global Studies cannot continue.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation
6 a The dissertation is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
b The dissertation topic must be approved by the relevant Academic Head or nominee prior to enrolment.
c The dissertation is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment
7 A student may apply to reassign courses passed for this degree to the Postgraduate Diploma in Global Studies.

Honours
8 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2022.

The Degree of Master of Heritage Conservation – MHerCons

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme, a student needs to have completed the requirements for:
   either
   a (i) the Degree of Bachelor of Arts (Honours) with a relevant major, as approved by Senate or its representative
   or
   (ii) the Degree of Bachelor of Engineering (Honours) in Civil Engineering
   or
   (iii) the Degree of Bachelor of Planning
   or
   (iv) the Degree of Bachelor of Urban Planning (Honours)
   or
   (v) the Degree of Master of Urban Planning
   or
   (vi) the Degree of Master of Urban Planning (Professional)
   or
   (vii) the Postgraduate Diploma in Architecture
   and
   (viii) an equivalent qualification as approved by Senate or its representative
   and
   (ix) achieved a Grade Point Average of 5.0 or higher in 75 points above Stage III
   or
   b (i) the Degree of Bachelor of Architectural Studies
   or
   (ii) the Degree of Bachelor of Arts with a relevant major, as approved by Senate or its representative
   or
   (iii) an equivalent qualification as approved by Senate or its representative
   and
   (iv) achieved a Grade Point Average of 5.0 or higher in 75 points above Stage II.

Duration and Total Points Value
2 A student enrolled for this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 160 points for the total enrolment for this degree.

3 A student enrolled for this degree under Regulation 1b must:
a pass courses with a total value of 180 points
and
b complete within the time limit specified in the General Regulations – Masters Degrees
and
c not exceed 220 points for the total enrolment for this degree.

Structure and Content
4 A student enrolled for this degree must complete the requirements as listed in the Master of Heritage Conservation Schedule.

5 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in the first 45 points of taught courses taken for this degree. If this Grade Point Average is not achieved, enrolment in the Master of Heritage Conservation cannot continue.

6 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
7 a A student may reassign courses from this degree to the Master of Architecture (Professional) and Heritage Conservation once.

b A student may reassign courses from this degree to the Master of Urban Planning (Professional) and Heritage Conservation once.

c All courses that can be reassigned must be reassigned including courses not completed.

8 A student who has not met the requirement in Regulation 5 may apply to reassign courses passed from this degree to the Postgraduate Certificate in Heritage Conservation.

Honours
9 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2022.

---

Master of Heritage Conservation (MHerCons) Schedule

A student who has to complete 120 points must satisfy the requirements for one of the following specialisations:

---

**Built Heritage**

**Requirement:**

**Taught Masters**

- 60 points: MHerCons 700–703
- 30 points from ANTHRO 708, ARCHDES 702, ARCHGEN 711–715, ARCHHRTC 700–704, MUSEUMS 700, 702, 704, 705, or other 700 level courses approved by the Head of School or nominee
- 30 points: MHerCons 790 Research Project

---

**Museums and Cultural Heritage**

**Requirement:**

**Taught Masters**

- 45 points: MUSEUMS 702, 704
- 30 points from ANTHRO 704, 742, 756, ARTHIST 703, 706, 719, 730, 731, 734, COMPLIT 705, 709, ENGLISH 718, MHerCons 700, 701, HISTORY 705, 712, MĀORI 741, MUSEUMS 701, 702, or other 700 level courses offered at this University approved by the Head of School or nominee
- 45 points: MUSEUMS 792 Dissertation

---

A student who has to complete 180 points must satisfy the requirements for one of the following specialisations:

---

**Built Heritage**

**Requirement:**

**Taught Masters**

- 60 points: MHerCons 700–703
- 90 points from ANTHRO 708, ARCHDES 702, ARCHGEN 711–715, ARCHHRTC 700–704, MUSEUMS 700, 702, 704, 705, or other 700 level
The Degree of Master of Mathematical Modelling – MMathModel

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this degree, a student must have completed the requirements for:
   either
   a (i) a relevant Bachelors degree, as approved by Senate or its representative, and a relevant Postgraduate Diploma from this University with at least 60 points of courses in a relevant subject with a Grade Point Average of 4.0 or higher, or the equivalent as approved by Senate or its representative
      or
   (ii) a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
      or
   (iii) a relevant Bachelors Honours degree in a relevant subject from this University, or the equivalent as approved by Senate or its representative, and passed 60 points with a Grade Point Average of 4.0 or higher in the Postgraduate Certificate or Postgraduate Diploma in Mathematical Modelling, or in a relevant postgraduate certificate or diploma in a relevant subject, from this University, provided the postgraduate certificate or postgraduate diploma has not been awarded
      or
   (iv) a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative, and at least three years of relevant professional experience approved by the Programme Director
   or
   b (i) a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
      or
   (ii) a relevant Bachelors degree from this University or its equivalent, as approved by the Senate or its representative, and passed 60 points with a Grade Point Average of 4.0 or higher in the Postgraduate Certificate or Postgraduate Diploma in Mathematical Modelling, or in a relevant postgraduate certificate or diploma in a relevant subject, from this University, provided the postgraduate certificate or postgraduate diploma has not been awarded.

2 Students must have completed 15 points from COMPSCI 130, ENGGEN 131, MATHS 162, and 15 points from ENGSCI 311, 313, 314, MATHS 361, or the equivalent as approved by the Programme Director.

3 In exceptional circumstances the Programme Director may approve the admission of a student who has at least three years of extensive, relevant practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1b.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, or Bachelor of Science
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours)
(iii) A relevant postgraduate certificate or diploma may include the Postgraduate Certificate in Engineering, Postgraduate Diploma in Engineering, or Postgraduate Diploma in Science
(iv) A relevant subject may be analytics, applied mathematics, artificial intelligence, computer science, data science, engineering, information systems, information technology, machine learning, mathematics, operations research, physics, software engineering, structural engineering, electrical engineering, statistics, or technology
(v) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.
Duration and Total Points Value
4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.
5 A student admitted to this degree under Regulation 1b or 3 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Mathematical Modelling Schedule.
7 A student who has previously passed any course or courses the same as, or similar to, the courses required for this degree must substitute an alternative course or courses as approved by the Programme Director.
8 Courses selected for this qualification are subject to the confirmation of the Programme Director.
9 With the prior approval of the Programme Director, up to 45 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.
10 A student who has to complete 120 points must achieve a Grade Point Average of 4.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Mathematical Modelling cannot continue.
11 A student who has to complete 180 points must achieve a Grade Point Average of 4.0 or higher in their first 120 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Mathematical Modelling cannot continue.
12 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
13 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering, or Postgraduate Certificate in Mathematical Modelling, or Postgraduate Diploma in Engineering or Postgraduate Diploma in Science or Postgraduate Diploma in Mathematical Modelling.

Research Project
14 a The research project is to be carried out under the guidance of a supervisor appointed by Senate or its representative.
   b The topic of the research project must be approved by the Programme Director or nominee prior to enrolment.
   c The research project is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering/Science or Postgraduate Diploma in Engineering/Science
15 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering or Postgraduate Diploma in Science that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Mathematical Modelling or Postgraduate Diploma in Mathematical Modelling
16 A student who has passed courses towards the Postgraduate Certificate in Mathematical Modelling or Postgraduate Diploma in Mathematical Modelling that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Honours
17 This degree may be awarded with Honours in accordance with the General Regulations - Masters Degrees.
Variations
18 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
19 These regulations came into force on 1 January 2022.

Master of Mathematical Modelling (MMathModel) Schedule
A student who has to complete 120 points must satisfy the following requirements:

- Taught Masters Requirement:
  - at least 15 points from MATHS 765, 787
  - at least 15 points from ENGSIC 711, 721

- Taught Masters Requirement:
  - up to 45 points from BIOMENG 771, ECON 721, 723, ENGSIC 712, 740, 746, 755, 760, 761, 763, 765, 768, ENVPHYS 701, MATHS 761–764, 766, 769, 770, OPSMGT 752, PHYSICS 742, 743, 752, 753, 757, 780
  - 45 points: ENGSCI 795 Research Project

A student who has to complete 180 points must satisfy the following requirements:

- Taught Masters Requirement:
  - 60 points: ENGSIC 711, 721, MATHS 765, 787
  - at least 45 points from BIOMENG 771, ECON 721, 723, ENGSIC 712, 740, 746, 755, 760, 761, 763, 765, 768, ENVPHYS 701, MATHS 761–764, 766, 769, 770, OPSMGT 752, PHYSICS 742, 743, 752, 753, 757, 780
  - up to 30 points from approved 600 and 700 level courses offered at this University
  - 45 points: ENGSCI 795 Research Project

The Degree of Master of Operations Research and Analytics – MORAn

The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this degree, a student must have completed the requirements for:

- either
  - a (i) a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
  - or (ii) a relevant Bachelors Honours degree from this University, or the equivalent as approved by Senate or its representative
    - and
    - passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics from this University with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded
  - or (iii) a relevant Bachelors degree in a relevant subject from this University, as approved by Senate or its representative, with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
    - and
    - at least three years of relevant professional experience approved by the Dean of Faculty of Engineering
  - or (iv) a relevant Bachelors degree, as approved by the Senate or its representative
    - and
    - a relevant Postgraduate Diploma from this University with at least 60 points of courses in a relevant subject with a Grade Point Average of 5.0 or higher, or the equivalent as approved by Senate or its representative
  - or (b) a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 5.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
  - or (ii) a relevant Bachelors degree from this University, as approved by the Senate or its representative
    - and
    - passed 60 points in the Postgraduate Certificate in Engineering in a relevant subject or Postgraduate Diploma in Engineering in a relevant subject or Postgraduate Certificate in Operations Research and Analytics from this University with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded
Analytics or Postgraduate Diploma in Operations Research and Analytics from this University with a Grade Point Average of 5.0 or higher, provided the postgraduate certificate or postgraduate diploma has not been awarded.

2 Students must have completed any prerequisite courses prior to admission to this degree.

3 In exceptional circumstances Senate or its representative may approve the admission of a student who has at least three years of extensive, relevant practical, professional or scholarly experience in the Operations Research and Analytics profession deemed equivalent to the requirements in Regulation 1b.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science.
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).
(iii) A relevant postgraduate diploma may include the Postgraduate Diploma in Engineering, or a Postgraduate Diploma in Operations Research and Analytics.
(iv) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, machine learning, management science, mathematics, operations research, operations and supply chain management, software engineering, structural engineering, electrical engineering, statistics or technology.

Duration and Total Points Value
4 A student admitted to this degree under Regulation 1a must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Masters Degrees
   and
   c not exceed 160 points for the total enrolment for this degree.

5 A student admitted to this degree under Regulation 1b or 3 must:
   a pass courses with a total value of 180 points
   and
   b complete within the time limit specified in the General Regulations - Masters Degrees
   and
   c not exceed 220 points for the total enrolment for this degree.

Structure and Content
6 A student enrolled for this degree must complete the requirements as listed in the Master of Operations Research and Analytics Schedule.

7 A student who has previously passed any course or courses the same as, or similar to, the courses required for this degree must substitute an alternative course or courses as approved by the Head of Department or nominee.

8 Courses selected for this qualification are subject to the confirmation of the Head of Department or nominee.

9 With the prior approval of the Head of Department or nominee, up to 45 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

10 A student who has to complete 120 points for a Taught Masters must achieve a Grade Point Average of 5.0 or higher in their first 45 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Operations Research and Analytics cannot continue.

11 A student who has to complete 180 points must achieve a Grade Point Average of 5.0 or higher in their first 60 points of taught courses taken for this programme. If this Grade Point Average is not achieved, enrolment in the Master of Operations Research and Analytics cannot continue.

12 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment
13 A student may apply to reassign courses passed to the Postgraduate Certificate in Engineering or Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Engineering or Postgraduate Diploma in Operations Research and Analytics.
Research Project / Thesis
14 a The research project or thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative.

b The topic of the research project or thesis must be approved by the Head of Department or nominee prior to enrolment.

c The research project or thesis is to be completed and submitted in accordance with the General Regulations - Masters Degrees.

Transfer from Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering
15 A student who has passed courses towards the Postgraduate Certificate in Engineering or Postgraduate Diploma in Engineering that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Transfer from Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics
16 A student who has passed courses towards the Postgraduate Certificate in Operations Research and Analytics or Postgraduate Diploma in Operations Research and Analytics that are available in this degree may apply to reassign those courses to this degree provided that the postgraduate certificate or postgraduate diploma has not been awarded.

Honours
17 This degree may be awarded with Honours in accordance with the General Regulations - Masters Degrees.

Variations
18 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
19 These regulations and/or schedule have been amended with effect from 1 January 2021.

Master of Operations Research and Analytics (MORAn) Schedule
A student who has to complete 120 points must satisfy the following requirements:

<table>
<thead>
<tr>
<th>Requirement: Research Masters</th>
<th>120 points: ENGSCI 796 Thesis</th>
</tr>

The Degree of Master of Philosophy – MPhil
The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations, including the Academic Statutes and Regulations but excluding the General Regulations – Masters Degrees.

Admission
1 In order to be admitted to this programme, a student needs to have:
   a approval from the Dean of Graduate Studies
   and
b (i) been enrolled in a Doctor of Philosophy, Doctor of Medicine or Doctor of Clinical Psychology for at least 12 months
or
(ii) completed the research requirements for a Doctor of Education
and
c been recommended for admission by their Head of Department and Faculty Dean or nominee.

**Duration and Total Points Value**
2 A student enrolled for this degree must:
a pass courses with a total points value of 120 points
and
b submit their thesis within six months. An extension of six months may be granted at the discretion of the Dean of Graduate Studies.

**Structure and Content**
3 Of the 120 points required for this degree a student must complete a 120 point MPhil Thesis in the appropriate subject.

**Thesis**
4 The thesis is to be carried out under the guidance of a supervisor appointed by Senate or its representative. The thesis topic must be approved by the relevant Head of Department before enrolment.

**Examination**
5 For students admitted to this degree examiners appointed by the Dean of Graduate Studies will recommend that:
either
a the degree be awarded
or
b the degree not be awarded.

**Copies for Deposit**
6 A student admitted to this degree must correct their thesis, if required, to the satisfaction of the Head of Department and deposit one hard-bound copy of the thesis with the Graduate Centre and a digital copy within three months of admission to this degree.

7 One hard-bound copy and a digital copy of the thesis must be deposited in the University of Auckland Library before the degree can be conferred.

**Honours**
8 The thesis for this degree is not graded and this degree may not be awarded with Honours.

**Variations**
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**
10 These regulations and/or schedule have been amended with effect from 1 January 2016.

---

**The Degree of Master of Professional Studies – MProfStuds**

*The regulations for this degree are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**
1 In order to be admitted to this programme, a student needs to have completed:
either
a the requirements for a four-year Bachelors degree
or
b the requirements for a Bachelors (Honours) degree
or
c the requirements for a Bachelors degree
and
(i) to enrol in the Education or Mathematics Education or Teaching Chinese in Schools specialisations, a professional qualification in Education equivalent to one year’s advanced study
or
(ii) to enrol in a specialisation other than Education or Mathematics Education, either a professional
qualification equivalent to one year’s advanced study or at least three years of professional experience deemed relevant to this programme by Senate or its representative

and
d to enrol in the Education or Mathematics Education specialisations, at least three years of teaching experience

and
e to enrol in the Mathematics Education specialisation, to be currently holding a teaching position

and
f to enrol in the Teaching Chinese in Schools specialisation, attained a proficiency level in Chinese of at least HSK Level 5 or its equivalent

and
g any prerequisites for the courses in the subject area in which they wish to enrol.

Duration and Total Points Value

2 A student enrolled for this degree must:
a pass courses with a total value of 120 points

and
b complete within the time limit specified in the General Regulations – Masters Degrees.

3 The total enrolment for this degree must not exceed 160 points.

Structure and Content

4 A student enrolled for this degree must complete the requirements for one of the specialisations listed in the Master of Professional Studies Schedule.

5 The programme for students enrolling in the International Relations and Human Rights, Language Teaching, and Translation specialisations requires the approval of the relevant Academic Head or nominee and the Dean of Faculty of Arts. The programme for students enrolling in the Education specialisation requires the approval of the Dean of Faculty of Education and Social Work. The programme for students enrolling in the Teaching Chinese in Schools specialisation requires the approval of the Dean of Faculty of Education and Social Work and the Dean of Faculty of Arts. The programme for students enrolling in the Mathematics Education specialisation requires the approval of the Head of Department of Mathematics and the Dean of Faculty of Science. The programme for students enrolling in the Data Science or Digital Security specialisations requires the approval of the Head of Department of Statistics or the Head of Department of Computer Science.

6 Students in the Master of Professional Studies in Education must achieve a Grade Point Average of 4.0 or higher in the first 60 points of taught courses taken. If this Grade Point Average is not achieved, enrolment in the Master of Professional Studies in Education cannot continue without the approval of the Programme Leader.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Dissertation and Research Portfolio

9 a A dissertation or research portfolio, when included in the programme, is to be carried out under the guidance of a supervisor appointed by the Senate or its representative.

b The dissertation or research portfolio topic must be approved by the relevant Head of Department or Programme Coordinator prior to enrolment.

c The dissertation or research portfolio is to be completed and submitted in accordance with the General Regulations – Masters Degrees.

Reassignment

10 A student may apply to reassign the courses passed for the Education specialisation to the Postgraduate Certificate in Education.

Honours

11 This degree may be awarded with Honours as specified in the General Regulations – Masters Degrees.

Variations

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

12 These regulations and/or schedule have been amended with effect from 1 January 2022.
## Master of Professional Studies (MProfStuds) Schedule

### Data Science

**Requirement:** Taught Masters
- at least 30 points from COMPSCI 751, 752, 753, 762
- at least 30 points from STATS 762, 769, 782, 784
- up to 30 points from COMPSCI 705, 711, 720, 732, 734, 760, INFOSYS 720, 722, 727, 737, 740, OPMSGT 760, 762, SCIENT 701, 702, STATS 707, 760, 763, 779, 783 or from 700 level courses relevant to the area of study with approval of the Academic Head or nominee
- 30 points: COMPSCI 791 Research Project

### Digital Security

**Requirement:** Taught Masters
- 60 points: COMPSCI 725, 726, 727, INFOSYS 727
- 30 points from COMPSCI 702, 705, 720, 732, 742, INFOSYS 720, 730, 737, 790, 751
- 30 points: COMPSCI 791 Research Project

### Education

**Requirement:** Taught Masters
- 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757
- 60 points: EDCURRIC 797 or EDPROFST 793 or EDPROFM 797 Dissertation

The approval of the Heads of all Departments in which a student applies to enrol is required.

### Food Safety

**Requirement:** Taught Masters
- 60 points: FOODSCI 711–714
- 45 points: FOODSCI 797 Project
- 15 points from FOODSCI 715–717, or other courses as approved by the Programme Director

### International Relations and Human Rights

The MProfStuds in International Relations and Human Rights was withdrawn in 2021.

### Mathematics Education

**Requirement:** Taught Masters
- at least 45 points from ENGSCI 701–772, MATHS 701–789, STATS 701–703, 705, 708–787
- up to 30 points from EDPROF 725, or other 700 level courses approved by the Head of School of Curriculum and Pedagogy or Programme Director
- 45 points from EDPROFST 789, MATHS 785, STATS 792 Dissertation

### Teaching Chinese in Schools

The MProfStuds in Teaching Chinese in Schools was suspended in 2019. Students who have a current enrolment in this specialisation should contact their faculty for advice regarding completion.

**Requirement:** Taught Masters
- 60 points from EDCURRIC 706, EDPRAC 703
- 60 points from CHINESE 730, 739, 740, 741, 742, EDCURRIC 729, EDPRAC 751

### Certificate in Global Studies – CertGlobalSt

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

#### Admission

1. In order to be admitted to this certificate, a student must have:
   a. been enrolled in the Degree of Bachelor of Global Studies, or a conjoint programme that includes the Bachelor of Global Studies as a component degree, at this University
   and
   b. passed at least 60 points for that degree
   and
   c. been recommended for admission by the Dean or nominee.

#### Total Points Value

2. A student admitted to this certificate must pass courses with a total value of 60 points.

#### Structure and Content

3. Of the 60 points required for this certificate, 30 points must be from courses listed in the Bachelor of Global Studies Schedule.

4. A student must complete the the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6 These regulations came into force on 1 January 2021.

The University of Auckland Tertiary Foundation Certificate – TFC

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this certificate a student must:
   a. be a New Zealand citizen or permanent resident of New Zealand 
   and
   b. (i) have completed Year 12 at a New Zealand secondary school or its equivalent at least one calendar year prior to applying for entry 
   or
   (ii) be eligible for Special Admission to the University.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.

Duration and Total Points Value
2 A student enrolled in the certificate must follow a programme of the equivalent of two full-time semesters and pass courses to the value of 120 points. In exceptional circumstances part-time enrolment may be approved.

Structure and Content
3 A student enrolled for this certificate must complete the requirements as listed in the Tertiary Foundation Certificate Schedule

4 The programme for each student requires the approval of the Coordinator of the Certificate.

5 A student enrolled in this certificate must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 A student who fails a course may, with the permission of the Coordinator of the Certificate, sit a subsequent examination for that course provided that:
   a. the student has achieved an average grade of C+ in the courses taken for this Certificate 
   and
   b. achieved a grade of not less than D for the course in question.

7 The subsequent examination must be undertaken within two weeks of the notification of results to students.

8 A student may re-sit a maximum of 15 points towards completion of the Tertiary Foundation Certificate.

Variations
9 a. A student who achieves a Grade Point Average of 7.0 in the first 60 points of this certificate may enrol in a Stage I course in their second semester, with the approval of the Coordinator of the Certificate.

b. Credit may be granted toward a Bachelors degree at this University for the Stage I course completed under Regulation 9a.

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Requirement:
• 45 points: MUSEUMS 702, 704
• 15 points from ANTHRO 704, 708, 742, 756, ARTHIST 703, 706, 719, 730, 731, 734, COMPLIT 705, 709, ENGLISH 718, HERCONS 700, 701, HISTORY 705, 712, MĀORI 741, MUSEUMS 701

Postgraduate Certificate in Operations Research and Analytics – PGCertORAn

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   either
   a a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours)
(iii) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, machine learning, management science, mathematics, operations research, operations and supply chain management, statistics, or technology

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Operations Research and Analytics Schedule.

5 A student who has previously passed any course or courses the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course or courses as approved by the Head of Department or nominee.

6 Courses selected for this qualification are subject to the confirmation of the Head of Department.

7 With the prior approval of the Head of Department or nominee, up to 15 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.
8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Mathematical Modelling – PGCertMathModel

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   either
   a a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative.

2 Students must have completed 15 points from COMPSCI 130, ENGGEN 131, MATHS 162, and 15 points from ENGSCI 311, 313, 314, MATHS 361, or the equivalent as approved by the Programme Director.

3 In exceptional circumstances the Programme Director may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, or Bachelor of Science
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelor of Arts (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours)
(iii) A relevant subject may include analytics, applied mathematics, artificial intelligence, computer science, data science, engineering, information systems, information technology, machine learning, mathematics, operations research, physics, statistics, or technology
(iv) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
4 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

5 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
6 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Mathematical Modelling Schedule.

7 A student who has previously passed any course or courses the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course or courses as approved by the Programme Director or nominee.

8 Courses selected for this qualification are subject to the confirmation of the Programme Director.
9 With the prior approval of the Programme Director or nominee, up to 15 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

10 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
12 These regulations came into force on 1 January 2022.

### Postgraduate Diploma in Bioscience Enterprise – PGDipBioEnt

*The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this programme, a student needs to have:
   a (i) completed the requirements for the Degree of Bachelor of Engineering or Bachelor of Engineering (Honours) or Bachelor of Science or Bachelor of Technology or Bachelor of Science (Honours) or (ii) attained an equivalent qualification approved by Senate or its representative and
   b (i) completed one of the relevant subject majors as listed in the Postgraduate Diploma in Bioscience Enterprise Schedule or (ii) attained a level of competence equivalent to the prerequisites for the courses in the selected subject major for the Postgraduate Diploma in Bioscience Enterprise as approved by Senate or its representative.

2 A student may, if Senate or its representative gives approval, enrol for this postgraduate diploma without having fulfilled all the prerequisite requirements, provided that the Director of School may require any such student to enrol for any or all of the prerequisite courses not already passed in addition to the normal requirements of this programme.

3 a A student who has not completed the requirements of the Degree of Bachelor of Science but who has passed courses with a total value of at least 345 points towards that degree may, with the approval of the Director of School enrol for this postgraduate diploma. The remaining courses for the Bachelor of Science must be taken and passed within 12 months of initial enrolment for this postgraduate diploma. Should the requirements for the Bachelor of Science not be completed within these 12 months, enrolment for the Postgraduate Diploma in Bioscience Enterprise will be suspended until the requirements for the Bachelor’s degree are completed.
   
   or
   
   b A student who has not completed the requirements of the Degree of Bachelor of Engineering (Honours), but who has passed courses with a total value of at least 465 points towards that degree may, with the approval of the Director of School enrol for this postgraduate diploma. The remaining courses for the Bachelor of Engineering (Honours) must be taken and passed within 12 months of initial enrolment for this postgraduate diploma. Should the requirements for the Bachelor of Engineering (Honours) not be completed within these 12 months, enrolment for the Postgraduate Diploma in Bioscience Enterprise will be suspended until the requirements for the Bachelor’s degree are completed.

Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

**Duration and Total Points Value**

4 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 A student enrolled for this postgraduate diploma must pass 120 points from courses listed in the Postgraduate Diploma in Bioscience Enterprise Schedule.

7 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

8 The programme for each student must be approved by the Director of School or equivalent.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
10 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

Postgraduate Diploma in Bioscience Enterprise (PGDipBioEnt) Schedule

Prerequisite: A BSc or BSc(Hons) with a major in Biological Sciences, Bioinformatics, Biomedical Science, Food Science, Medicinal Chemistry, Pharmacology or Physiology, or a BE in Biomedical Engineering; or a BPharm; or a BTech in Biotechnology

Requirement:
- 90 points: SCIENT 701–706

Postgraduate Diploma in Energy – PGDipEnergy

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a been enrolled in the Degree of Master of Energy
   and
   b passed at least 30 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 30 points: ENERGY 721, 722
   b at least 60 points from courses listed in the Master of Energy Schedule, excluding ENERGY 785, 786, 794 and 795
   c up to 30 points of approved 600 and 700 level courses.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
6 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.
Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment

8 These regulations have been amended with effect from 1 January 2018.

---

**Postgraduate Diploma in Global Studies – PGDipGlobalSt**

*The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to this postgraduate diploma, a student must have completed a Bachelors degree with a relevant major from this University with a Grade Point Average of 3.5 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative.

*Note: Relevant majors may include anthropology, communication, development studies, economics, environmental science, gender studies, geography, history, indigenous studies, law, linguistics, philosophy, political science, psychology, sociology.*

**Duration and Total Points Value**

2 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

**Structure and Content**

4 Of the 120 points required for this postgraduate diploma, a student must pass:
   a 90 points: GLOBAL 700-702
   and
   b a further 30 points from courses listed in the Master of Global Studies Schedule, excluding GLOBAL 793.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar.*

**Distinction**

6 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

**Variations**

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Commencement**

8 These regulations come into force on 1 January 2022.

</table>
2 Except as otherwise specified in these regulations, each student’s programme is to be governed by the regulations for each of the component degrees.

3 Only when all the requirements for both component degrees have been satisfied may the two degrees be conferred upon the student.

Admission
4 Admission to a conjoint degree programme may be at initial enrolment, or after the student has passed or been credited with not more than 270 points for either component degree, but the student must not have graduated in either of the component degrees.

5 a A student seeking admission to a conjoint degree programme must gain admission to each of the component degrees
   and
   b achieve a standard equivalent to a Grade Point Average of at least 3.9, except for the Bachelor of Advanced Science (Honours) and the Bachelor of Engineering (Honours) which require a Grade Point Average of at least 5.5 in the previous year of full-time study.

Continuation
6 In order to continue in a conjoint degree programme, a student needs to achieve a Grade Point Average of at least 3.5 each year, except for the Bachelor of Engineering (Honours) conjoint degrees which require a GPA of 4.0 each year, and Bachelor of Advanced Science (Honours) conjoint degrees which require a Grade Point Average of 5.0 each year.

7 A student who has been discontinued from a conjoint degree programme due to the continuation requirement specified in Regulation 6 may re-apply for admission under these regulations. To be eligible for readmission:
   a the student must have achieved a Grade Point Average of at least 3.5, 4.0 for the Bachelor of Engineering (Honours) or 5.0 for the Bachelor of Advanced Science (Honours), in the most recent 120 points of study towards one or more of the component degrees following the student’s discontinuation. In exceptional circumstances the required Grade Point Average may be waived by Senate or its representative. If a student has fewer than 120 points to complete then they may apply for readmission immediately.
   b neither of the component degrees can have been awarded.

8 A student must state the reasons for re-admission, and include evidence where applicable. Where such application is made, the Deans or nominees of the respective faculties may:
   a permit the student to be readmitted to the conjoint degree programme
   b permit the student to be readmitted under specific conditions
   c decline readmission.

9 A student may be readmitted to a conjoint degree programme once, other than in exceptional circumstances approved by Senate or its representative.

Approval
10 As a condition of approval, a student may be required to include in a conjoint programme:
   a a specified major subject or specialisation
   b specified elective courses.

Total Points Value
11 The total points required for each conjoint degree programme is stated in the Conjoint Degree Schedule and includes the General Education requirement, where applicable.

Academic Integrity
12 All students must pass the University of Auckland Academic Integrity Course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education
13 All students enrolled in a conjoint degree programme, except students enrolled in a BE(Hons)/LLB and BE(Hons)/LLB(Hons), must pass 15 points from courses listed in either the General Education Open Schedule or either of the General Education Faculty Schedules approved for the component degrees for the conjoint degree programme.

General Education Exemptions
14 a A student is exempted from the requirement to pass a course offered in the General Education Schedule who has:
   either
   (i) completed an undergraduate degree at a tertiary institution
   or
   (ii) commenced study for their degree at a tertiary institution before 1 January 2006.
or
(iii) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations.

b A student who has been admitted to either component degree of a conjoint degree programme who has completed 120 points or more of degree-level study at another tertiary institution is exempted from the General Education requirement for the conjoint degree.

c A student who has been exempted from the General Education requirement must substitute 15 points from courses available for the component degrees.

Suspension
15 A student may in any year totally suspend study for both component degrees of a conjoint degree programme.

Additional Component Degrees/Diplomas
16 a If a student has satisfied the requirements of one (but not both) of the component degrees and would be eligible to have that degree conferred, the relevant Dean may approve the suspension of enrolment for the conjoint degree programme to allow the student to enrol for a relevant honours or Masters degree or diploma. In that case the total number of points passed must satisfy the regulations specified for that postgraduate programme.

b With the approval of the relevant Deans, a student who suspends their study in a conjoint degree programme to pursue a graduate programme may subsequently complete the conjoint degree programme provided they have not graduated with either of the component degrees in the meantime.

Graduation
17 Graduation in one component of the conjoint degree constitutes a discontinuation of the conjoint degree programme.

18 A student must graduate in both components of the conjoint degree in one or more ceremonies in the same graduation period.

Variations
19 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
20 These regulations and/or schedule have been amended with effect from 1 January 2022.

The specific requirements for each conjoint degree programme can be found in the Conjoint Degree Schedule and the Conjoint Component Requirements Schedule.

---

**Bachelor of Arts/Bachelor of Advanced Science (Honours) – BA/BAdvSci(Hons)**

1 A student must pass courses with a total value of 660 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

---

**Bachelor of Arts/Bachelor of Communication – BA/BC**

1 Of the 540 points required for the BA/BC conjoint degrees combination, a student must pass:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

2 A student is not permitted to take the Communication major for the BA component.
Bachelor of Arts/Bachelor of Commerce – BA/BCom
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
2 For the BA/BCom conjoint degree programme, a student may not major in both Employment Relations and Organisation Studies in the BA component, and Management in the BCom component.

Bachelor of Arts/Bachelor of Design – BA/BDes
1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Engineering (Honours) – BA/BE(Hons)
1 Of the 690 points required for the BA/BE(Hons) conjoint degree programme, a student must pass:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Fine Arts – BA/BFA
1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Fine Arts (Honours) – BA/BFA(Hons)
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 390 points required for the BFA(Hons) component, including:
      (i) Part I: 90 points: FINEARTS 101–104
      (ii) Part II: 90 points: FINEARTS 204, and 207 or 208, and 209 or 212
      (iii) Part III: 90 points: FINEARTS 305, and 308 or 309, and 310 or 311
      (iv) Part IV: 120 points: FINEARTS 790
   and
   c a further 15 points from courses available for any programme at this University.
   Note: Any student who achieves a grade in FINEARTS 790 that is not of Honours standard will be awarded the Degree of Bachelor of Arts/Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degrees of Bachelor of Arts/Bachelor of Fine Arts (Honours) will be reassigned to the Degrees of Bachelor of Arts/Bachelor of Fine Arts.

Bachelor of Arts/Bachelor of Global Studies – BA/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Arts/Bachelor of Health Sciences – BA/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Music – BA/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
2 The BA component of the conjoint BA/BMus combination is not to include more than 30 points from the subject Music.

Bachelor of Arts/Bachelor of Science – BA/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Laws – BA/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Laws (Honours) – BA/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours) / Bachelor of Communication – BAdvSci(Hons)/BC
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Commerce – BAdvSci(Hons)/BCom
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
and
c a further 15 points from courses available for any programme at this University.

**Bachelor of Advanced Science (Honours)/Bachelor of Design – BAdvSci(Hons)/BDes**

1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule.

**Bachelor of Advanced Science (Honours)/Bachelor of Engineering (Honours) – BAdvSci(Hons)/BE(Hons)**

1 A student must pass courses with a total value of 810 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

**Bachelor of Advanced Science (Honours)/Bachelor of Fine Arts – BAdvSci(Hons)/BFA**

1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

**Bachelor of Advanced Science (Honours)/Bachelor of Global Studies – BAdvSci(Hons)/BGlobalSt**

1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

**Bachelor of Advanced Science (Honours)/Bachelor of Health Sciences – BAdvSci(Hons)/BHSc**

1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

**Bachelor of Advanced Science (Honours)/Bachelor of Music – BAdvSci(Hons)/BMus**

1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Advanced Science (Honours)/Bachelor of Nursing – BAdvSci(Hons)/BNurs
1 A student must pass courses with a total value of 690 points, including:
   a 375 points required for the BAdvSci(Hons) component, including:
      (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
      (ii) at least 270 points above Stage I, including at least 195 points above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science
            (Honours) Schedule
      (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
   and
   b 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Property – BAdvSci(Hons)/BProp
1 A student must pass courses with a total value of 660 points, including:
   a 375 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including:
      (i) STATS 101
      (ii) at least 270 points above Stage I, including at least 195 points above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science
            (Honours) Schedule
      (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
   and
   b 255 points required for the BProp component, including:
      (i) 165 points: PROPERTY 102, 211, 221, 231, 241, 251, 261, 271, 281, ECON 151 or 152, COMLAW 101
      (ii) at least 90 points from PROPERTY 311–384
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Laws – BAdvSci(Hons)/LLB
1 A student must pass courses with a total value of 795 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Laws (Honours) – BAdvSci(Hons)/LLB(Hons)
1 A student must pass courses with a total value of 855 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Commerce – BC/BCom
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Communication/Bachelor of Engineering (Honours) – BC/BE(Hons)
1 Of the 690 points required for the BC/BE(Hons) conjoint degree programme, a student must pass:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Fine Arts – BC/BFA
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Global Studies – BC/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Health Sciences – BC/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Laws – BC/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Laws – BC/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Science – BC/BSc
1 Of the 540 points required for the BC/BSc conjoint degrees combination, a student must pass:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Commerce/Bachelor of Design – BCom/BDes

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Engineering (Honours) – BCom/BE(Hons)

1 A student must pass courses with a total value of 690 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 90 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Fine Arts – BCom/BFA

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Global Studies – BCom/BGlobalSt

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Health Sciences – BCom/BHSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
      (ii) 120 points: HLTHPSYC 122, MAORIHITH 201, POPHLTH 101, 102, 111, 202, 204, 210
      (iii) a further 45 points from MAORIHITH 301, POPHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIIPH 200
      (iv) 15 points from BIOSCI 107, CHEM 110, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142, PHIL 104, PSYCH
           108, 109, SOCIOL 101, 103
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Music – BCom/BMus

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
and

c a further 15 points from courses available for any programme at this University.

---

**Bachelor of Commerce/Bachelor of Property – BCom/BProp**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule and
   b. 255 points required for the BProp component, including:
      (i) 150 points: PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
      (iv) 30 points from PROPERTY 300, 311–351, 370–385 or another course listed in the BCom Schedule and
   c. a further 15 points from courses available for any programme at this University.

---

**Bachelor of Commerce/Bachelor of Science – BCom/BSc**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule and
   b. 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule and
   c. a further 15 points from courses available for any programme at this University.

2. A student in the Information and Technology major for the BSc component is not permitted to take both the Business Analytics and Information Systems majors for the BCom component.

---

**Bachelor of Commerce/Bachelor of Sport, Health and Physical Education – BCom/BSportHPE**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule and
   b. 255 points from the courses listed in the Bachelor of Sport, Health and Physical Education Schedule, including:
      (i) 60 points: EDPROFM 100, SPORHPE 101, 102, 103
      (ii) 15 points from another Stage I course listed in the Bachelor of Sport, Health and Physical Education Schedule
      (iii) 90 points: EDUCSW 201, HEALTHED 201, SPORT 202, SPORHPE 201, 202, 203
      (iv) 15 points: EDUCSW 302
      (v) 60 points from other Stage III courses listed in the Bachelor of Sport, Health and Physical Education Schedule
      (vi) a further 15 points from the Bachelor of Sport, Health and Physical Education Schedule and
   c. a further 15 points from courses available for any programme at this University

---

**Bachelor of Commerce/Bachelor of Laws – BCom/LLB**

1. A student must pass courses with a total value of 675 points, including:
   a. 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law and
   b. 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.
Bachelor of Commerce/Bachelor of Laws (Honours) – BCom/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115 or ECON 152, BUSINESS 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
           (v) A student may not include any of the courses in the subject Commercial Law
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Engineering (Honours) – BDes/BE(Hons)
1 A student must pass courses with a total value of 690 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b 420 points as listed in the Be(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Fine Arts – BDes/BFA
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Global Studies – BDes/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Health Sciences – BDes/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Music – BDes/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.
Bachelor of Design/Bachelor of Property – BDes/BProp
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Science – BDes/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Laws – BDes/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Laws (Honours) – BDes/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Fine Arts – BE(Hons)/BFA
1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Fine Arts Schedule including:
      (i) 180 points: FINEARTS 110–113, 320, 321, 322, SCIGEN 201
      (ii) 75 points consisting of:
         (a) at least 15, but no more than 45, points from FINEARTS 220–236
         (b) at least 30, but no more than 60, points from FINEARTS 240–250.

Bachelor of Engineering (Honours)/Bachelor of Global Studies – BE(Hons)/BGlobalSt
1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Music – BE(Hons)/BMus
1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including
      one of the following specialisations:
      (i) Creative Practice: Classical:
         (a) 60 points: MUS 104, 143, 243, 343
(b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
(c) 15 points from MUS 191–194, 291–294
(d) 15 points from MUS 391–394
(e) 15 points: MUS 365

(ii) Creative Practice: Composition:
(a) 60 points: MUS 104, 143, 243, 343
(b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
(c) 15 points: MUS 365

(iii) Creative Practice: Jazz
(a) 60 points: MUS 104, 143, 243, 343
(b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
(c) 15 points: MUS 365

(iv) Creative Practice: Popular Music
(a) 60 points: MUS 104, 143, 243, 343
(b) 165 points: MUS 180, 181, 196, 280–284, 287, 380, 381
(c) 30 points from MUS 306–340, 345–389

(v) Music Studies:
(a) 60 points: MUS 104, 143, 243, 343
(b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
(c) 45 points from MUS 106, 130, 145, 162
(d) 15 points: MUS 365

Bachelor of Engineering (Honours)/Bachelor of Property – BE(Hons)/BProp

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Science – BE(Hons)/BSc

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Laws – BE(Hons)/LLB

1 A student must pass courses with a total value of 825 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Engineering (Honours)/Bachelor of Laws (Honours) – BE(Hons)/LLB(Hons)

1 A student must pass courses with a total value of 885 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Fine Arts/Bachelor of Global Studies – BFA/BGlobalSt

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Fine Arts/Bachelor of Health Sciences – BFA/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
      (ii) 120 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210
      (iii) 45 points from MĀORIHTH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIPH 200
      (iv) 15 points from BIOSCI 107, CHEM 110, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142, PHIL 102, POLITICS
         113, PSYCH 108, 109, SOCIOL 101, 103
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Music – BFA/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points from as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Science – BFA/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points from as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Fine Arts/Bachelor of Laws – BFA/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Fine Arts/Bachelor of Laws (Honours) – BFA/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Health Sciences – BGlobaSt/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Schedule
      (ii) 135 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, STATS 101
      (iii) 30 points from MAORIHTH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIPH 200
      (iv) 15 points from BIOSCI 107, CHEM 110, ECON 151, 152, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142,
          PHIL 104, PSYCH 108, 109, SOCIOL 101, 103
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Global Studies/Bachelor of Music – BGlobalSt/BMus

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Property – BGlobalSt/BProp

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points from courses listed in the Bachelor of Global Studies Schedule, including:
      (i) 45 points: GLOBAL 100, 200, 300
      (ii) at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
      (iii) (a) a major in Global Environment and Sustainability of at least 120 points, of which at least 45 points must be above Stage II; including ECON 151 or 152 and other courses as listed in the Bachelor of Global Studies Schedule for this major
            (b) 60 points from courses listed in one of the languages in the Bachelor of Global Studies Schedule, of which 30 points must be above Stage I
            (c) 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is associated with the chosen Language, of which at least 15 points must be above Stage II
   and
   b. 255 points required for the BProp component, including:
      (i) 180 points: INFOSYS 110, PROPERTY 102, 103, 211–281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Science – BGlobalSt/BSc

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Laws – BGlobalSt/LLB

1. A student must pass courses with a total value of 675 points, including:
   a. 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b. 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Laws (Honours) – BGlobalSt/LLB(Hons)

1. A student must pass courses with a total value of 735 points, including:
   a. 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b. 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Nursing – BHSc/BNurs

1. A student must pass courses with a total value of 570 points, including:
   a. 255 points from courses listed in the Bachelor of Health Sciences Schedule, including:
      (i) the requirements for a major as specified in the Bachelor of Health Sciences Regulations and Schedule
(ii) 150 points: BIOSCI 107, HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, STATS 101
(iii) a further 30 points from MAORIHTH 301, POPLHLTH 203, 206–208, 211–216, 301, 303–316, SOCSCIPH 200 and
b 300 points required for the BNurs component, including:
   (i) 285 points: MEDSCI 142, NURSING 105, 199, 201, 202, 301, 302
   (ii) 15 points from CHEM 110, NURSING 104.

Bachelor of Health Sciences/Bachelor of Science – BHSc/BSc
1 A student must pass courses with a total value of 540 points, including:
a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule and
b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Laws – BHSc/LLB
1 A student must pass courses with a total value of 675 points, including:
a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule and
b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Laws (Honours) – BHSc/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule and
b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Science – BMus/BSc
1 A student must pass courses with a total value of 540 points, including:
a 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule and
b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule and
c a further 15 points from courses available for any programme at this University.

Bachelor of Music/Bachelor of Laws – BMus/LLB
1 A student must pass courses with a total value of 675 points, including:
a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:
   (i) Creative Practice: Classical:
       (a) 60 points: MUS 104, 143, 243, 343
       (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
       (c) 15 points from MUS 191–194, 291–294
       (d) 15 points from MUS 391–394
       (e) 15 points: MUS 365
   (ii) Creative Practice: Composition:
       (a) 60 points: MUS 104, 143, 243, 343
       (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
       (c) 15 points from MUS 365
   (iii) Creative Practice: Jazz
       (a) 60 points: MUS 104, 143, 243, 343
       (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
       (c) 15 points: MUS 365
   (iv) Creative Practice: Popular Music
       (a) 60 points: MUS 104, 143, 243, 343
       (b) 165 points: MUS 180, 181, 196, 280–284, 287, 380, 381
       (c) 30 points from MUS 306–340, 345–389
   (v) Music Studies:
       (a) 60 points: MUS 104, 143, 243, 343
Bachelor of Music/Bachelor of Laws (Honours) – BMus/LLB(Hons)

1. A student must pass courses with a total value of 735 points, including:
   a. 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:
      (i) Creative Practice: Classical:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
         (c) 15 points from MUS 191–194, 291–294
         (d) 15 points from MUS 391–394
         (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
         (c) 15 points: MUS 365
      (iii) Creative Practice: Jazz:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
         (c) 15 points: MUS 365
      (iv) Creative Practice: Popular Music:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 165 points: MUS 180, 181, 196, 280–285, 287, 380, 381
         (c) 30 points from MUS 306–340, 345–389
   b. 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Nursing/Bachelor of Science – BNurs/BSc

1. A student must pass courses with a total value of 570 points, including:
   a. 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule
      (i) 45 points: NURSING 105, 199, POPLHLTH 111
      (ii) 240 points: NURSING 201, 202, 301, 302
   b. 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
      (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
      (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule
   c. a further 15 points from courses available for any programme at this University.

Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.
Bachelor of Property/Bachelor of Science – BProp/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule
   and
   b 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      (i) STATS 108
      (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
      (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

Bachelor of Property/Bachelor of Laws – BProp/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points required for the BProp component, including:
      (i) 180 points: BUSINESS 115 or ECON 152, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Property/Bachelor of Laws (Honours) – BProp/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points required for the BProp component, including:
      (i) 180 points: BUSINESS 115 or ECON 152, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and

255 points, including:
• 165 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216, 300, 302
• at least 15 points from MAORIHTH 301, POPLHLTH 312, 313
• at least 15 points from POPLHLTH 301, 303, 304, 311, 316
Bachelor of Laws – LLB

405 points:
- 45 points: LAW 121 or 121G, 131, 141
- 360 points from LLB Parts II, III and IV

Bachelor of Laws (Honours) – LLB(Hons)

465 points:
- 45 points: LAW 121 or 121G, 131, 141
- 360 points from LLB Parts II, III and IV
- 20 points from LAWHONS 702–754
- 40 points: LAWHONS 789 Dissertation

Bachelor of Music – BMus

255 points from courses listed in the Bachelor of Music Schedule including one of the following specialisations

Creative Practice: Classical:
- 60 points: MUS 104, 143, 243, 343
- 135 points: MUS 120, 121, 203–205, 220, 221, 320, 321
- 30 points from MUS 191–194, 224, 291–294
- 15 points from MUS 391–394
- 15 points from MUS 306–340, 345–389

Creative Practice: Composition:
- 60 points: MUS 104, 143, 243, 343
- 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
- 15 points from MUS 306–340, 345–389

Creative Practice: Jazz:
- 60 points: MUS 104, 143, 243, 343
- 180 points: MUS 170, 171, 197, 270, 271, 274, 275, 276, 297, 370, 371, 397
- 15 points from MUS 306–340, 345–389

Creative Practice: Popular Music:
- 60 points: MUS 104, 143, 243, 343
- 165 points: MUS 180, 181, 196, 280–284, 287, 296, 380, 381
- 30 points from MUS 306–340, 345–396

Music Studies:
- 60 points: MUS 104, 143, 243, 343
- 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
- 45 points from MUS 106, 130, 145, 162

Bachelor of Nursing – BNurs

285 points, including:
- 45 points: NURSING 105, 199, POPLHLTH 111
- 240 points: NURSING 201, 202, 301, 302

Bachelor of Property – BProp

255 points:
- 180 points: BUSINESS 114, 115 or ECON 152, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
- 15 points from PROPERTY 360–364
- 60 points from PROPERTY 300, 311–351, 370–385

Bachelor of Science – BSc

255 points from courses listed as available in the Bachelor of Science Schedule, including:
- at least 150 points above Stage I, of which at least 75 points must be above Stage II
- courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
- the requirements for one or more majors as listed in the Bachelor of Science Schedule
- 15 points from an approved capstone course listed in the Bachelor of Science Schedule

For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.
Regulations – Foundation Studies, Other Programmes and Courses

Foundation Studies

561 The Foundation Certificate in English for Academic Purposes – FCertEAP
562 Foundation Studies Certificate – FoundStCert
