Structure and Content
3 A student enrolled for this certificate must complete the requirements as listed in the Tertiary Foundation Certificate Schedule.
4 The programme for each student requires the approval of the Coordinator of the Certificate.
5 A student enrolled in this certificate must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
6 A student who fails a course may, with the permission of the Coordinator of the Certificate, sit a subsequent examination for that course providing that:
   a the student has achieved an average grade of C+ in the courses taken for this Certificate and
   b achieved a grade of not less than D for the course in question.
7 The subsequent examination must be undertaken within two weeks of the notification of results to students.
8 A student may re-sit a maximum of 15 points towards completion of the Tertiary Foundation Certificate.

Variations
9 a A student who achieves a Grade Point Average of 7.0 in the first 60 points of this certificate may enrol in a Stage I course in their second semester, with the approval of the Coordinator of the Certificate.
   b Credit may be granted toward a Bachelors degree at this University for the Stage I course completed under Regulation 9a.
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
11 These regulations and/or schedule have been amended with effect from 1 January 2024.

Diploma in Global Studies – DipGlobalSt

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this diploma, a student must have:
   a. been enrolled in the Degree of Bachelor of Global Studies, or a conjoint programme that includes the Bachelor of Global Studies as a component degree, at this University
   b. passed at least 120 points for that degree
   c. been recommended for admission by the Dean or nominee.

Total Points Value
2. A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content
3. Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Global Studies Schedule.
4. A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
5. In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
6. These regulations came into force on 1 January 2021.

Postgraduate Certificate in Artificial Intelligence – PGCertAI

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this postgraduate certificate, a student must have completed:
   either
   a. the requirements for the Degree of Bachelor of Advanced Science (Honours), Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b. the requirements for the Degree of Bachelor of Science or other relevant Bachelors Degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by the Programme Director.

   Note: Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, engineering science, information technology, mechatronics, science, software engineering or technology may be considered relevant.

Duration and Total Points Value
2. A student admitted to this postgraduate certificate must:
   a. pass courses with a total value of 60 points
   b. complete within the time limit specified in the General Regulations – Postgraduate Certificates.
3. The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
5. A student enrolled for this degree must complete the requirements as listed in the Postgraduate Certificate in Artificial Intelligence Schedule.
A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances the Programme Director may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2024.

Postgraduate Certificate in Artificial Intelligence (PGCertAI) Schedule

| Requirement: | • 60 points: COMPSCI 712–714, INFOSYS 703 |

Postgraduate Certificate in Disaster Management – PGCertDisMgt

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a been enrolled in the Degree of Master of Disaster Management
   and
   b passed at least 30 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.
3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 15 points from DISMGT 701, 703
   and
   b 45 points from courses listed in the Master of Disaster Management Schedule, excluding DISMGT 704.
5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations have been amended with effect from 1 January 2018.

Postgraduate Certificate in Energy – PGCertEnergy

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a been enrolled in the Degree of Master of Energy
   and
   b passed at least 30 points for that degree
   and
c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a 30 points: ENERGY 721, 722
   and
   b 30 points from courses listed in the Master of Energy Schedule or other approved 600 and 700 level courses,
      excluding ENERGY 785, 786, 794 and 795.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not
   conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2017.

Postgraduate Certificate in Heritage Conservation –
PGCertHerCons
The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and
regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a been enrolled in the Degree of Master of Heritage Conservation
   and
   b passed at least 30 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements for one of the specialisations
   listed in the Postgraduate Certificate in Heritage Conservation Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as
   specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not
   conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2024.
Postgraduate Certificate in Heritage Conservation (PGCertHerCons) Schedule

Specialisations available:

**Built Heritage**

**Requirement:**
- 45 points: HERCONS 700, 702, 703
- 15 points from a 700 level course approved by the Head of School of Architecture and Planning

**Museums and Cultural Heritage**

**Requirement:**
- 45 points: MUSEUMS 702, 704
- 15 points from ANTHRO 708, 742, 756, ARTHIST 703, 706, 719, 730, 731, 734, COMPLIT 705, 709, ENGLISH 718, HERCONS 700, 701, HISTORY 705, 712, MĀORI 741

Postgraduate Certificate in Mathematical Modelling – PGCertMathModel

*The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1. In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   - either
     a. a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
     or
     b. a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative.

2. Students must have completed 15 points from COMPSCI 130, ENGGEN 131, MATHS 162, and 15 points from ENGSCI 311, 313, 314, MATHS 361, or the equivalent as approved by the Programme Director.

3. In exceptional circumstances the Programme Director may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

**Notes:**

(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts or Bachelor of Science.

(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelor of Arts (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).

(iii) A relevant subject may include analytics, applied mathematics, artificial intelligence, computer science, data science, engineering, information systems, information technology, machine learning, mathematics, operations research, physics, statistics or technology.

(iv) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

**Duration and Total Points Value**

4. A student admitted to this postgraduate certificate must:
   - a. pass courses with a total value of 60 points
   - and
   - b. complete within the time limit specified in the General Regulations – Postgraduate Certificates.

5. The total enrolment for this postgraduate certificate must not exceed 90 points.

**Structure and Content**

6. A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Mathematical Modelling Schedule.

7. A student who has previously passed any course or courses the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course or courses as approved by the Programme Director or nominee.

8. Courses selected for this qualification are subject to the confirmation of the Programme Director.
9 With the prior approval of the Programme Director or nominee, up to 15 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

10 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
12 These regulations came into force on 1 January 2022.

Postgraduate Certificate in Operations Research and Analytics – PGCertORAn

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:

   either
   a a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science.
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).
(iii) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, machine learning, management science, mathematics, operations research, operations and supply chain management, statistics or technology.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:

   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Operations Research and Analytics Schedule.

5 A student who has previously passed any course or courses the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course or courses as approved by the Head of Department or nominee.

6 Courses selected for this qualification are subject to the confirmation of the Head of Department.
7 With the prior approval of the Head of Department or nominee, up to 15 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

Postgraduate Diploma in Bioscience Enterprise – PGDipBioEnt

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for the Degree of Bachelor of Engineering (Honours), Bachelor of Advanced Science (Honours) or Bachelor of Science
in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

2 A student who has not completed the requirements for one of the degrees listed in Regulation 1 but who, for that degree, has:
   a no more than 15 points left to complete
   and
   b achieved a Grade Point Average of 3.0 or higher in 75 points above Stage II
may, with the approval of the Programme Director, be admitted to this postgraduate diploma. The requirements for the qualifying degree must be completed within 12 months of initial enrolment for the Postgraduate Diploma in Bioscience Enterprise. Should these requirements not be completed within this period, enrolment in further courses for the Postgraduate Diploma in Bioscience Enterprise will not be permitted until they have been completed. The Postgraduate Diploma in Bioscience Enterprise will not be awarded until the requirements for the qualifying degree have been completed.

Notes:

(i) A relevant subject may be bioinformatics, biological sciences, biomedical engineering, biomedical science, biotechnology, food science, medical devices and technologies, medicinal chemistry, pharmacology or physiology.

(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

### Duration and Total Points Value

3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

### Structure and Content

5 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Bioscience Enterprise Schedule.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

### Variations

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

### Distinction

8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

### Amendment

9 These regulations and/or schedule have been amended with effect from 1 January 2023.

7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2018.

Postgraduate Diploma in Global Studies – PGDipGlobalSt
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed a Bachelors degree with a relevant major from this University with a Grade Point Average of 3.5 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative.  
Note: Relevant majors may include anthropology, communication, development studies, economics, environmental science, gender studies, geography, history, indigenous studies, law, linguistics, philosophy, political science, psychology or sociology.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:  
   a pass courses with a total value of 120 points  
   and  
b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:  
   a 90 points: GLOBAL 700-702  
   and  
b a further 30 points from courses listed in the Master of Global Studies Schedule, excluding GLOBAL 793.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Distinction
6 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2022.

Postgraduate Diploma in Mathematical Modelling – PGDipMathModel

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:

   either
   a a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative.

2 Students must have completed 15 points from COMPSCI 130, ENNGEN 131, MATHS 162, and 15 points from ENGSCI 311, 313, 314, MATHS 361, or the equivalent as approved by the Programme Director.

3 In exceptional circumstances the Programme Director may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts or Bachelor of Science.
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelor of Arts (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).
(iii) A relevant subject may include analytics, applied mathematics, artificial intelligence, computer science, data science, engineering, information systems, information technology, machine learning, mathematics, operations research, physics, statistics or technology.
(iv) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
4 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Mathematical Modelling Schedule.

7 A student who has previously passed any course or courses the same as, or similar to, the courses required for this qualification must substitute an alternative course or courses as approved by the Programme Director or nominee.

8 Courses selected for this qualification are subject to the confirmation of the Programme Director or nominee.

9 With the prior approval of the Head of Department or nominee, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.
10 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Distinction**

11 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

**Variations**

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

13 These regulations and schedule have been amended with effect from 1 January 2022.

---

**Postgraduate Diploma in Mathematical Modelling (PGDipMathModel) Schedule**

**Requirement:**

- 60 points: ENGSCI 711, 721, MATHS 765, 787
- at least 30 points from BIOMENG 771, ECON 721, 723, ENGSCI 712, 740, 746, 755, 760, 761, 763, 765, 768, ENVPHYS 701, MATHS 761–764, 766, 769, 770, OPSMG 752, PHYSICS 742, 743, 752, 753, 757, 780
- up to 30 points from approved 600 and 700 level courses offered at this University

---

**Postgraduate Diploma in Operations Research and Analytics – PGDipORAn**

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:

* either
  a a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
  or
  b a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

**Notes:**

(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science.

(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).

(iii) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, management science, machine learning, mathematics, operations research, operations and supply chain management, statistics or technology.

**Duration and Total Points Value**

2 A student admitted to this postgraduate diploma must:

* pass courses with a total value of 120 points
* complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

**Structure and Content**

4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Operations Research and Analytics Schedule.

5 A student who has previously passed any course or courses the same as, or similar to, the courses required for this qualification must substitute an alternative course or courses as approved by the Head of Department or nominee.
6 Courses selected for this qualification are subject to the confirmation of the Head of Department or nominee.

7 With the prior approval of the Head of Department or nominee, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Distinction**
9 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

**Variations**
10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**
11 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

**Postgraduate Diploma in Operations Research and Analytics (PGDipORAn) Schedule**

**Requirement:**
- at least 60 points from ENGSCI 760–763, 765, 768, STATS 720, 723, 724, 783
- at least 45 points from COMPSCI 753, 760–762, ENGSCI 712, 755, OPSMG 766, SOFTENG 753, STATS 726, 731, 763, 769
- up to 15 points of approved 600 and 700 level courses offered at this University

Conjoint Component Requirements Schedule
REGULATIONS – CONJOINT DEGREES

General Regulations – Conjoint Degrees

The regulations for these conjoint degree programmes are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

General Provisions

1 The following conjoint degree programmes are available:

- BA/BAdvSci(Hons)
- BA/BC
- BA/BCom
- BA/BDes
- BA/BE(Hons)
- BA/BFA
- BA/BFA(Hons)
- BA/GlobalSt
- BA/BHSc
- BA/BMus
- BA/Sc
- BA/LLB
- BA/LLB(Hons)
- BAdvSci(Hons)/BC
- BAdvSci(Hons)/BCom
- BAdvSci(Hons)/BDes
- BAdvSci(Hons)/BE(Hons)
- BAdvSci(Hons)/BFA
- BAdvSci(Hons)/BGlobalSt
- BAdvSci(Hons)/BHSc
- BAdvSci(Hons)/BMus
- BAdvSci(Hons)/BNurs
- BAdvSci(Hons)/BProp
- BAdvSci(Hons)/LLB
- BAdvSci(Hons)/LLB(Hons)
- BC/BCom
- BC/BE(Hons)
- BC/BFA
- BC/GlobalSt
- BC/BHSc
- BC/LLB
- BC/LLB(Hons)
- BC/Sc
- BCom/BDes
- BCom/BE(Hons)
- BCom/BFA
- BCom/GlobalSt
- BCom/BHSc
- BCom/BMus
- BCom/BProp
- BCom/BSportHPE
- BCom/Sc
- BCom/LLB
2 Except as otherwise specified in these regulations, each student’s programme is to be governed by the regulations for each of the component degrees.

3 Only when all the requirements for both component degrees have been satisfied may the two degrees be conferred upon the student.

**Admission**

4 Admission to a conjoint degree programme may be at initial enrolment, or after the student has passed or been credited with not more than 270 points for either component degree, but the student must not have graduated in either of the component degrees.

5 a A student seeking admission to a conjoint degree programme must gain admission to each of the component degrees

and

b achieve a standard equivalent to a Grade Point Average of at least 3.9, except for the Bachelor of Advanced Science (Honours) and the Bachelor of Engineering (Honours) which require a Grade Point Average of at least 5.5 in the previous year of full-time study.

**Continuation**

6 In order to continue in a conjoint degree programme, a student needs to achieve a Grade Point Average of at least 3.5 each year, except for the Bachelor of Engineering (Honours) conjoint degrees which require a GPA of 4.0 each year, and Bachelor of Advanced Science (Honours) conjoint degrees which require a Grade Point Average of 5.0 each year.

7 A student who has been discontinued from a conjoint degree programme due to the continuation requirement specified in Regulation 6 may re-apply for admission under these regulations. To be eligible for readmission:

a the student must have achieved a Grade Point Average of at least 3.5, 4.0 for the Bachelor of Engineering (Honours) or 5.0 for the Bachelor of Advanced Science (Honours), in the most recent 120 points of study towards one or more of the component degrees following the student’s discontinuation. In exceptional circumstances the required Grade Point Average may be waived by Senate or its representative. If a student has fewer than 120 points to complete then they may apply for readmission immediately.

b neither of the component degrees can have been awarded.

8 A student must state the reasons for re-admission, and include evidence where applicable. Where such application is made, the Deans or nominees of the respective faculties may:

a permit the student to be readmitted to the conjoint degree programme

b permit the student to be readmitted under specific conditions

c decline readmission.

9 A student may be readmitted to a conjoint degree programme once, other than in exceptional circumstances approved by Senate or its representative.

**Approval**

10 As a condition of approval, a student may be required to include in a conjoint programme:

a a specified major subject or specialisation

b specified elective courses.

**Total Points Value**

11 The total points required for each conjoint degree programme is stated in the Conjoint Degree Schedule and includes the General Education requirement, where applicable.

**Academic Integrity**

12 All students must pass the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the *University Calendar*.

**General Education**

13 All students enrolled in a conjoint degree programme, except students enrolled in a BE(Hons)/LLB and BE(Hons)/LLB(Hons), must pass 15 points from courses listed in either the General Education Open Schedule or either of the General Education Faculty Schedules approved for the component degrees for the conjoint degree programme.

**General Education Exemptions**

14 a A student is exempted from the requirement to pass a course offered in the General Education Schedule who has:

*either*
(i) completed an undergraduate degree at a tertiary institution 
or (ii) commenced study for their degree at a tertiary institution before 1 January 2006 
or (iii) completed a minimum of 50 points of study towards this degree in one semester at an overseas institution, either through an overseas exchange programme or through prior approval under the Credit Regulations.

b A student who has been admitted to either component degree of a conjoint degree programme who has completed 120 points or more of degree-level study at another tertiary institution is exempted from the General Education requirement for the conjoint degree.

c A student who has been exempted from the General Education requirement must substitute 15 points from courses available for the component degrees.

Suspension
15 A student may in any year totally suspend study for both component degrees of a conjoint degree programme.

Additional Component Degrees/Diplomas
16 a If a student has satisfied the requirements of one (but not both) of the component degrees and would be eligible to have that degree conferred, the relevant Dean may approve the suspension of enrolment for the conjoint degree programme to allow the student to enrol for a relevant honours or Masters degree or diploma. In that case the total number of points passed must satisfy the regulations specified for that postgraduate programme.

b With the approval of the relevant Deans, a student who suspends their study in a conjoint degree programme to pursue a graduate programme may subsequently complete the conjoint degree programme provided they have not graduated with either of the component degrees in the meantime.

Graduation
17 Graduation in one component of the conjoint degree constitutes a discontinuation of the conjoint degree programme.

18 A student must graduate in both components of the conjoint degree in one or more ceremonies in the same graduation period.

Variations
19 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
20 These regulations and/or schedule have been amended with effect from 1 January 2024.

The specific requirements for each conjoint degree programme can be found in the Conjoint Degree Schedule and the Conjoint Component Requirements Schedule.
Conjoint Degree Schedule

Bachelor of Advanced Science (Honours)/Bachelor of Commerce – BAdvSci(Hons)/BCom

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Commerce were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 660 points, including:
   a. 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   b. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   c. A further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Communication – BAdvSci(Hons)/BC

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Communication were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 660 points, including:
   a. 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   b. 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   c. A further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Design – BAdvSci(Hons)/BDes

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Design were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 660 points, including:
   a. 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   b. 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule

Bachelor of Advanced Science (Honours)/Bachelor of Engineering (Honours) – BAdvSci(Hons)/BE(Hons)

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Engineering (Honours) were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 810 points, including:
   a. 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   b. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2. A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Advanced Science (Honours)/Bachelor of Fine Arts – BAdvSci(Hons)/BFA

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Fine Arts were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 660 points, including:
   a. 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
a student must pass courses with a total value of 660 points, including:

a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule

b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule

c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Global Studies – BAdvSci(Hons)/BGlobalSt

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Global Studies were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 660 points, including:

a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule

b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule

c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Health Sciences – BAdvSci(Hons)/BHSc

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Health Sciences were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 660 points, including:

a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule

b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule

c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Laws – BAdvSci(Hons)/LLB

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Laws were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 795 points, including:

a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule

b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule

Bachelor of Advanced Science (Honours)/Bachelor of Laws (Honours) – BAdvSci(Hons)/LLB(Hons)

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Laws (Honours) were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 855 points, including:

a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule

b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule

Bachelor of Advanced Science (Honours)/Bachelor of Music – BAdvSci(Hons)/BMus

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Music were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 660 points, including:

a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule

b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule

c a further 15 points from courses available for any programme at this University.
Bachelor of Advanced Science (Honours)/Bachelor of Nursing – BAdvSci(Hons)/BNurs

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Nursing were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 690 points, including:
   a 375 points required for the BAdvSci(Hons) component, including:
      (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
      (ii) at least 270 points above Stage I, including at least 195 points above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
      (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
   and
   b 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Property – BAdvSci(Hons)/BProp

New admissions into the Bachelor of Advanced Science (Honours)/Bachelor of Property were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 660 points, including:
   a 375 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including:
      (i) STATS 101
      (ii) at least 270 points above Stage I, including at least 195 points above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
      (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule
   and
   b 255 points required for the BProp component, including:
      (i) 165 points: BUSINESS 114, 115, PROPERTY 102, 211, 221, 231, 241, 251, 261, 271, 281
      (ii) at least 90 points from PROPERTY 300, 311–384
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Advanced Science (Honours) – BA/BAdvSci(Hons)

New admissions into the Bachelor of Arts/Bachelor of Advanced Science (Honours) were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 660 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Commerce – BA/BCom

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule and
c a further 15 points from courses available for any programme at this University.

2 For the BA/BCom conjoint degree programme, a student may not major in both Employment Relations and Organisation Studies in the BA component, and Management in the BCom component.

Bachelor of Arts/Bachelor of Communication – BA/BC

1 Of the 540 points required for the BA/BC conjoint degrees combination, a student must pass:
a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
and
b 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
and
c a further 15 points from courses available for any programme at this University.

2 A student is not permitted to take the Communication major for the BA component.

Bachelor of Arts/Bachelor of Design – BA/BDes

1 A student must pass courses with a total value of 540 points, including
a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
and
b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
and
c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Engineering (Honours) – BA/BE(Hons)

1 Of the 690 points required for the BA/BE(Hons) conjoint degree programme, a student must pass:
a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
and
b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

Bachelor of Arts/Bachelor of Fine Arts – BA/BFA

1 A student must pass courses with a total value of 540 points, including
a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
and
b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
and
c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Fine Arts (Honours) – BA/BFA(Hons)

1 A student must pass courses with a total value of 675 points, including:
a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
and
b 390 points required for the BFA(Hons) component, including:
   (i) Part I: 90 points: FINEARTS 101–104
   (ii) Part II: 90 points: FINEARTS 204, and 207 or 208, and 209 or 212
   (iii) Part III: 90 points: FINEARTS 305, and 308 or 309, and 310 or 311
   (iv) Part IV: 120 points: FINEARTS 790
and
c a further 15 points from courses available for any programme at this University.

Note: Any student who achieves a grade in FINEARTS 790 that is not of Honours standard will be awarded the Degree of Bachelor of Arts/Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degrees of Bachelor of Arts/Bachelor of Fine Arts (Honours) will be reassigned to the Degrees of Bachelor of Arts/Bachelor of Fine Arts.
Bachelor of Arts/Bachelor of Global Studies – BA/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Health Sciences – BA/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Laws – BA/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Laws (Honours) – BA/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Music – BA/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Science – BA/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Design – BCom/BDes
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Commerce/Bachelor of Engineering (Honours) – BCom/BE(Hons)

1. A student must pass courses with a total value of 690 points, including:
   a. 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 90 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which at least 45 points must be at Stage III in each major
   and
   b. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2. A student must complete BUSINESS 111 and either 112 or 113, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

Bachelor of Commerce/Bachelor of Fine Arts – BCom/BFA

New admissions into the Bachelor of Commerce/Bachelor of Fine Arts were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Global Studies – BCom/BGlobalSt

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Health Sciences – BCom/BHSc

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Laws – BCom/LLB

1. A student must pass courses with a total value of 675 points, including:
   a. 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law
   and
   b. 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.
Bachelor of Commerce/Bachelor of Laws (Honours) – BCom/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Music – BCom/BMus

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Property – BCom/BProp

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points required for the BProp component, including:
      (i) 150 points: PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
      (iv) 30 points from PROPERTY 300, 311–351, 370–385 or another course listed in the BCom Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Science – BCom/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

2 A student in the Information and Technology major for the BSc component is not permitted to take both the
   Business Analytics and Information Systems majors for the BCom component.

Bachelor of Commerce/Bachelor of Sport, Health and Physical Education – BCom/BSportHPE

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points from the courses listed in the Bachelor of Sport, Health and Physical Education Schedule, including:
      (i) 60 points: EDPROFM 100, SPORTHPE 101, 102, 103
      (ii) 15 points from another Stage I course listed in the Bachelor of Sport, Health and Physical Education Schedule
      (iii) 90 points: EDUCSW 201, HEALTHED 201, SPORT 202, SPORTHPE 201, 202, 203
(iv) 15 points: EDUCSW 302
(v) 60 points from other Stage III courses listed in the Bachelor of Sport, Health and Physical Education Schedule
(vi) a further 15 points from the Bachelor of Sport, Health and Physical Education Schedule
and
c a further 15 points from courses available for any programme at this University.

**Bachelor of Communication/Bachelor of Commerce – BC/BCom**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

**Bachelor of Communication/Bachelor of Engineering (Honours) – BC/BE(Hons)**

1. Of the 690 points required for the BC/BE(Hons) conjoint degree programme, a student must pass:
   a. 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2. A student must complete COMMS 320, or SCIGEN 201, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

**Bachelor of Communication/Bachelor of Fine Arts – BC/BFA**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

**Bachelor of Communication/Bachelor of Global Studies – BC/BGlobalSt**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.

**Bachelor of Communication/Bachelor of Health Sciences – BC/BHSc**

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b. 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c. a further 15 points from courses available for any programme at this University.
Bachelor of Communication/Bachelor of Laws – BC/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Laws (Honours) – BC/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Science – BC/BSc
1 Of the 540 points required for the BC/BSc conjoint degrees combination, a student must pass:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Engineering (Honours) – BDes/BE(Hons)
1 A student must pass courses with a total value of 690 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete DESIGN 220 or 221 or 222, or SCIGEN 201G, or another course approved by the
   BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Design/Bachelor of Fine Arts – BDes/BFA
New admissions into the Bachelor of Design/Bachelor of Fine Arts were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Global Studies – BDes/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Health Sciences – BDes/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
2024 Calendar  

Bachelor of Design/Bachelor of Laws – BDes/LLB

New admissions into the Bachelor of Design/Bachelor of Laws were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 675 points, including:
   a. 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b. 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Laws (Honours) – BDes/LLB(Hons)

New admissions into the Bachelor of Design/Bachelor of Laws (Honours) were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 735 points, including:
   a. 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b. 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Design/Bachelor of Music – BDes/BMus

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b. 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Property – BDes/BProp

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b. 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Science – BDes/BSc

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   b. 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   c. a further 15 points from courses available for any programme at this University.

Bachelor of Engineering (Honours)/Bachelor of Fine Arts – BE(Hons)/BFA

New admissions into the Bachelor of Engineering (Honours)/Bachelor of Fine Arts were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1. A student must pass courses with a total value of 690 points, including:
   a. 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b. 255 points from courses listed in the Bachelor of Fine Arts Schedule including:
      (i) 180 points: FINEARTS 110–113, 320, 321, 322, SCIGEN 201
      (ii) 75 points consisting of:
(a) at least 15, but no more than 45, points from FINEARTS 220–236  
(b) at least 30, but no more than 60, points from FINEARTS 240–250.

2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Global Studies – BE(Hons)/BGlobalSt**

1 A student must pass courses with a total value of 690 points, including:  
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and  
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule.

2 A student must complete ECON 151 and GLOBAL 101, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Laws – BE(Hons)/LLB**

1 A student must pass courses with a total value of 825 points, including:  
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and  
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

2 A student must complete LAW 241, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Laws (Honours) – BE(Hons)/LLB(Hons)**

1 A student must pass courses with a total value of 885 points, including:  
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and  
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete LAW 241, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Music – BE(Hons)/BMus**

1 A student must pass courses with a total value of 690 points, including:  
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule and  
   b 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:  
      (i) Creative Practice: Classical:  
         (a) 60 points: MUS 104, 143, 243, 343  
         (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321  
         (c) 15 points from MUS 191–194, 291–294  
         (d) 15 points from MUS 391–394  
         (e) 15 points: MUS 365  
      (ii) Creative Practice: Composition:  
         (a) 60 points: MUS 104, 143, 243, 343  
         (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315  
         (c) 15 points: MUS 365  
      (iii) Creative Practice: Jazz  
         (a) 60 points: MUS 104, 143, 243, 343  
         (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397  
         (c) 15 points: MUS 365  
      (iv) Creative Practice: Popular Music  
         (a) 60 points: MUS 104, 143, 243, 343
(b) 165 points: MUS 180, 181, 196, 280–284, 287, 380, 381
(c) 15 points from MUS 306–340, 345–389
(d) 15 points: MUS 365
(v) Music Studies:
   (a) 60 points: MUS 104, 143, 243, 343
   (b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
   (c) 45 points from MUS 106, 130, 145, 162
   (d) 15 points: MUS 365

2 A student must complete MUS 365, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Engineering (Honours)/Bachelor of Property – BE(Hons)/BProp

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule.

2 A student must complete PROPERTY 231, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Engineering (Honours)/Bachelor of Science – BE(Hons)/BSc

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Fine Arts/Bachelor of Global Studies – BFA/BGlobalSt

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Health Sciences – BFA/BHSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Laws – BFA/LLB

New admissions into the Bachelor of Fine Arts/Bachelor of Laws were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.
Bachelor of Fine Arts/Bachelor of Laws (Honours) – BFA/LLB(Hons)

New admissions into the Bachelor of Fine Arts/Bachelor of Laws (Honours) were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Fine Arts/Bachelor of Music – BFA/BMus

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Science – BFA/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Health Sciences – BGlobalSt/BHSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Laws – BGlobalSt/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Laws (Honours) – BGlobalSt/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Music – BGlobalSt/BMus

1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Global Studies/Bachelor of Property – BGlobalSt/BProp

1 A student must pass courses with a total value of 540 points, including:
   a 255 points from courses listed in the Bachelor of Global Studies Schedule, including:
      (i) 45 points: GLOBAL 100, 200, 300
      (ii) at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
      (iii) (a) a major in Global Environment and Sustainability of at least 120 points, of which at least 45 points must be above Stage II; including ECON 151 or 152 and other courses as listed in the Bachelor of Global Studies Schedule for this major
            (b) 60 points from courses listed in one of the languages in the Bachelor of Global Studies Schedule, of which 30 points must be above Stage I
            (c) 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is associated with the chosen Language, of which at least 15 points must be above Stage II

   b 255 points required for the BProp component, including:
      (i) 180 points: INFOSYS 110, PROPERTY 102, 103, 211–281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385

   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Science – BGlobalSt/BSc

1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Health Sciences/Bachelor of Laws – BHSc/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Laws (Honours) – BHSc/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Nursing – BHSc/BNurs

1 A student must pass courses with a total value of 570 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 300 points required for the BNurs component, including:
      (i) 285 points: MEDSCI 142, NURSING 105, 199, 201, 202, 301, 302
      (ii) 15 points from CHEM 110, NURSING 104
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Health Sciences/Bachelor of Science – BHSc/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Laws – BMus/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including
      one of the following specialisations:
         (i) Creative Practice: Classical:
             (a) 60 points: MUS 104, 143, 243, 343
             (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
             (c) 15 points from MUS 191–194, 291–294
             (d) 15 points from MUS 391–394
             (e) 15 points: MUS 365
         (ii) Creative Practice: Composition:
              (a) 60 points: MUS 104, 143, 243, 343
              (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
              (c) 15 points from MUS 365
         (iii) Creative Practice: Jazz:
               (a) 60 points: MUS 104, 143, 243, 343
               (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
               (c) 15 points: MUS 365
         (iv) Creative Practice: Popular Music:
              (a) 60 points: MUS 104, 143, 243, 343
              (b) 165 points: MUS 180, 181, 196, 280–284, 287, 380, 381
              (c) 30 points from MUS 306–340, 345–389
         (v) Music Studies:
              (a) 60 points: MUS 104, 143, 243, 343
              (b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
              (c) 45 points from MUS 106, 145, 162
              (d) 15 points: MUS 365
                 345–348, 362, 363, 367, 376, 387, 389
         and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Laws (Honours) – BMus/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including
      one of the following specialisations:
         (i) Creative Practice: Classical:
             (a) 60 points: MUS 104, 143, 243, 343
             (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
             (c) 15 points from MUS 191–194, 291–294
             (d) 15 points from MUS 391–394
             (e) 15 points: MUS 365
         (ii) Creative Practice: Composition:
              (a) 60 points: MUS 104, 143, 243, 343
              (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
              (c) 15 points from MUS 365
         (iii) Creative Practice: Jazz:
               (a) 60 points: MUS 104, 143, 243, 343
               (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
               (c) 15 points: MUS 365
         (iv) Creative Practice: Popular Music:
(a) 60 points: MUS 104, 143, 243, 343
(b) 165 points: MUS 180, 181, 196, 280–285, 287, 380, 381
(c) 30 points from MUS 306–340, 345–389

(v) Music Studies:
(a) 60 points: MUS 104, 143, 243, 343
(b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
(c) 45 points from MUS 106, 130, 145, 162
(d) 15 points: MUS 365

and
b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Science – BMus/BSc

A student must pass courses with a total value of 540 points, including:
(a) 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
and
(b) 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
and
(c) a further 15 points from courses available for any programme at this University.

Bachelor of Nursing/Bachelor of Science – BNurs/BSc

A student must pass courses with a total value of 570 points, including:
(a) 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule
   (i) 45 points: NURSING 105, 199, POPLHLTH 111
   (ii) 240 points: NURSING 201, 202, 301, 302
and
(b) 255 points from courses listed as available in the Bachelor of Science Schedule, including:
   (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
   (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
   (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
   (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
   (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule
and
(c) a further 15 points from courses available for any programme at this University.

Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

Bachelor of Property/Bachelor of Laws – BProp/LLB

New admissions into the Bachelor of Property/Bachelor of Laws were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

A student must pass courses with a total value of 675 points, including:
(a) 255 points required for the BProp component, including:
   (i) 180 points: BUSINESS 115, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
   (ii) 15 points from PROPERTY 360–364
   (iii) 60 points from PROPERTY 300, 311–351, 370–385
and
(b) 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Property/Bachelor of Laws (Honours) – BProp/LLB(Hons)

New admissions into the Bachelor of Property/Bachelor of Laws (Honours) were suspended from Semester Two 2024. Students with questions or concerns should contact the Student Hubs for advice.

A student must pass courses with a total value of 735 points, including:
(a) 255 points required for the BProp component, including:
Bachelor of Property/Bachelor of Science – BProp/BSc

1. A student must pass courses with a total value of 540 points, including:
   a. 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule and
   b. 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      i. STATS 108
      ii. at least 150 points above Stage I, of which at least 75 points must be above Stage II
      iii. courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      iv. the requirements for one or more majors as listed in the Bachelor of Science Schedule
      v. 15 points from an approved capstone course listed in the Bachelor of Science Schedule and
   c. a further 15 points from courses available for any programme at this University.

   Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

Bachelor of Science/Bachelor of Laws – BSc/LLB

1. A student must pass courses with a total value of 675 points, including:
   a. 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule and
   b. 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Science/Bachelor of Laws (Honours) – BSc/LLB(Hons)

1. A student must pass courses with a total value of 735 points, including:
   a. 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule and
   b. 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.
Conjoint Component Requirements Schedule

Conjoint Component Requirements Schedule

Bachelor of Advanced Science (Honours) – BAdvSci(Hons)

375 points from courses listed as available for the BSc or BSc(Hons) Schedules, including:

• at least 270 points above Stage I, including at least 195 points above Stage II
• courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
• at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
• the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
• the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule

For the BAdvSci(Hons) component, students may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included.

Bachelor of Arts – BA

255 points from courses listed in the Bachelor of Arts Schedule, including:

• the requirements for one or more majors as specified in the Bachelor of Arts Regulations and Schedule of which at least 45 points must be above Stage II for each major
• at least 165 points above Stage I, of which at least 75 points must be above Stage II

Bachelor of Commerce – BCom

255 points from courses listed in the Bachelor of Commerce Schedule, including:

• 105 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110, STATS 100 or 108
• 15 points from BUSINESS 350–353
• at least 135 points above Stage I including at least 75 points above Stage II
• the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which at least 45 points must be at Stage III in each major

A student may substitute one or more other courses for one or more of the above courses with the permission of Senate or its representative.

Bachelor of Communication – BC

255 points, including:

• at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
• 120 points from the Core Courses listed in the Bachelor of Communication Schedule
• the requirements for a major as specified in the Bachelor of Communication Schedule

Bachelor of Design – BDes

255 points:

• 165 points: DESIGN 100, 101, 200, 201, 300, 301, 302
• 90 points from DESIGN 210–243

Bachelor of Engineering (Honours) – BE(Hons)

420 points, including:

• 105 points: CHEMMAT 121, ELECTENG 101, ENNGEN 115, 121, 131, 140, 199, ENGSCI 111
• 315 points of courses in one of the following specialisations:

Biomedical Engineering

Part II

• BIOMENG 299 or ENNGEN 299
• 120 points: BIOMENG 221, 241, 261, BIOSCI 107, ENNGEN 204, ENGSCI 211, 233, MEDSCI 142

Part III

• 90 points: BIOMENG 321, 341, ENGSCI 314, 331, MEDSCI 205, 309

Part IV

• ENNGEN 499
• 30 points: BIOMENG 791, ENGGEN 403
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: ENGSCI 700 Research Project
Chemical and Materials Engineering
Part II
• CHEMMAT 299 or ENNGEN 299
• 120 points: CHEMMAT 201–206, ENNGEN 204, ENGSCI 211
Part III
• 90 points: CHEMMAT 301–303, 305, 306, ENGSCI 311
Part IV
• ENNGEN 499
• 30 points: CHEMMAT 752, ENNGEN 403
• a further 15 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: CHEMMAT 750 Design Project
• 30 points: CHEMMAT 751 Research Project

Civil Engineering
Part II
• CIVIL 299 or ENNGEN 299
• 120 points: CIVIL 200, 202, 203, ENNGEN 204, ENGSCI 211, ENVENG 200, STRCTENG 200, 201
Part III
• 90 points: CIVIL 300, 302, 303, ENGSCI 311, ENVENG 300, STRCTENG 304
Part IV
• ENNGEN 499
• 60 points: CIVIL 756, 790, 791, ENNGEN 403
• a further 15 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: CIVIL 705 Research Project

Computer Systems Engineering
Part II
• COMPSYS 299 or ENNGEN 299
• 105 points: COMPSYS 201, 209, ELECTENG 291, 292, ENNGEN 204, ENGSCI 211, SOFTENG 281
• a further 15 points from courses listed in Part II of this BE(Hons) specialisation
Part III
• 45 points: COMPSYS 301, 305, ENGSCI 313
• a further 45 points from courses listed in Part III of this BE(Hons) specialisation
Part IV
• ENNGEN 499
• 30 points: COMPSYS 770, ENNGEN 403
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: COMPSYS 700 Research Project

Electrical and Electronic Engineering
Part II
• ELECTENG 299 or ENNGEN 299
• 105 points: COMPSYS 201, ELECTENG 204, 209, 291, ENNGEN 204, ENGSCI 211, SOFTENG 281
• 15 points from ELECTENG 292, SOFTENG 283, 284
Part III
• 45 points: ELECTENG 310, 311, ENGSCI 313
• 45 points from COMPSYS 302–306, ELECTENG 305, 307, 309, 331, 332, SOFTENG 325, 350, 364
Part IV
• ENNGEN 499
• 30 points: ELECTENG 770, ENNGEN 403
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: ELECTENG 700 Research Project

Engineering Science
Part II
• ENNGEN 299 or ENGSCI 299
• 90 points: BIOMENG 221, ENNGEN 204, ENGSCI 211, 233, 255, 263
• a further 15 points from courses listed in Part II of this BE(Hons) specialisation
Part III
• 90 points: ENGSCI 314, 331, 343, 344, 355, 391
• a further 15 points from courses listed in Part III of this BE(Hons) specialisation
Part IV
• ENNGEN 499
• 30 points: ENNGEN 403, ENGSCI 773
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: ENGSCI 700 Research Project
Mechanical Engineering

Part II
• ENGGEN 299 or MECHENG 299
• 105 points: ENGGEN 204, ENGSCI 211, MECHENG 211, 222, 235, 236, 242

Part III
• 105 points: ENGSCI 311, MECHENG 311, 322, 325, 334, 340, 352

Part IV
• ENGGEN 499
• 30 points: ENGGEN 403, MECHENG 731
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: MECHENG 700 Research Project

Mechatronics Engineering

Part II
• ENGGEN 299 or MECHTRON 299
• 105 points: ENGGEN 204, ENGSCI 211, MECHENG 211, 222, 235, 242, 270

Part III
• 105 points: ENGSCI 311, MECHENG 306, 313, 322, 325, 370, 371

Part IV
• ENGGEN 499
• 45 points: ENGGEN 403, MECHENG 705, 706
• a further 30 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: MECHENG 700 Research Project

Software Engineering

Part II
• ENGGEN 299 or SOFTENG 299
• 90 points: COMPSYS 201, ENGGEN 204, ENGSCI 211, SOFTENG 206, 281, 283
• a further 30 points from courses listed in Part II of this BE(Hons) specialisation

Part III
• 45 points: SOFTENG 306, 325, 351
• 30 points from SOFTENG 310, 350, 364, 370
• a further 15 points from courses listed in Part III of this BE(Hons) specialisation

Part IV
• ENGGEN 499
• 30 points: ENGGEN 403, SOFTENG 770
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: SOFTENG 700 Research Project

Structural Engineering

Part II
• ENGGEN 299 or STRCTENG 299
• 120 points: CIVIL 200, 202, 203, ENGGEN 204, ENGSCI 211, ENVENG 200, STRCTENG 200, 201

Part III
• 90 points: CIVIL 300, ENGSCI 311, STRCTENG 300–303

Part IV
• ENGGEN 499
• 75 points: CIVIL 756, 790, ENGGEN 403, STRCTENG 710, 711
• 30 points: CIVIL 705 Research Project

All BE(Hons) conjoint students must either:

1  complete BUSINESS 111 and either 112 or 113, or DESIGN 220 or 221 or 222, or ECON 151 and GLOBAL 101, or COMMS 320, or ENGGEN 303, or LAW 241, or MUS 365, or PROPERTY 231, or SCIGEN 201, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303, in their non-BE(Hons) component degree, or

2  complete SCIGEN 201G or another General Education course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

A student may substitute one or more other courses for one or more of the courses listed in the BE(Hons) component with the permission of the BE(Hons) Programme Director or nominee.

Where approved courses are listed in the Bachelor of Engineering (Honours) Schedule, inclusion of these courses in this conjoint component must be approved by the Head of Department or nominee prior to enrolment.
Bachelor of Fine Arts – BFA
255 points:
• 90 points: FINEARTS 110–113
• 30 points from FINEARTS 220–236
• 60 points from FINEARTS 240–250
• 75 points: FINEARTS 320–322

Bachelor of Global Studies – BGlobalSt
255 points from courses listed in the Bachelor of Global Studies Schedule, including:
• at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
• a major of at least 120 points, of which at least 45 points must be above Stage II, from one of the subjects available for majors in the Bachelor of Global Studies Schedule
• 60 points from one of the languages listed in the Bachelor of Global Studies Schedule, of which 30 points must be above Stage I
• 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is associated with the chosen Language, of which at least 15 points must be above Stage II

A student may substitute one or more other courses for one or more of the above courses with the permission of Senate or its representative.

Bachelor of Health Sciences – BHSc
255 points, including:
• 165 points: HLTHPSYC 122, MAORIHITH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216, 300, 302
• at least 15 points from MAORIHITH 301, POPLHLTH 312, 313
• at least 15 points from POPLHLTH 301, 303, 304, 311, 316
• at least a further 15 points from MAORIHITH 301, POPLHLTH 305–307, 312, 313
• a further 30 points from FOODSCI 200, MAORIHITH 301, POPLHLTH 203, 206–208, 211–213, 215, 301, 303–307, 310–313, 315, 316, STATS 201, 330
• 15 points from BIOSCI 107, CHEM 110, ECON 151, 152, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142, PHIL 104, PSYCH 108, 109, SOCIOL 101, 103, STATS 101

Bachelor of Laws – LLB
405 points:
• 45 points: LAW 121 or 121G, 131, 141
• 360 points from LLB Parts II, III and IV

Bachelor of Laws (Honours) – LLB(Hons)
465 points:
• 45 points: LAW 121 or 121G, 131, 141
• 360 points from LLB Parts II, III and IV
• 20 points from LAWHONS 702–754
• 40 points: LAWHONS 789 Dissertation

Bachelor of Music – BMus
255 points from courses listed in the Bachelor of Music Schedule including one of the following specialisations

Creative Practice: Classical:
• 60 points: MUS 104, 143, 243, 343
• 135 points: MUS 120, 121, 203–205, 220, 221, 320, 321
• 30 points from MUS 191–194, 224, 291–294
• 15 points from MUS 391–394
• 15 points from MUS 306–340, 345–389

Creative Practice: Composition:
• 60 points: MUS 104, 143, 243, 343
• 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
• 15 points from MUS 306–340, 345–389

Creative Practice: Jazz:
• 60 points: MUS 104, 143, 243, 343
• 180 points: MUS 170, 171, 197, 270, 271, 274, 275, 276, 297, 370, 371, 397
• 15 points from MUS 306–340, 345–389
Creative Practice: Popular Music:
- 60 points: MUS 104, 143, 243, 343
- 165 points: MUS 180, 181, 196, 280–284, 287, 296, 380, 381
- 30 points from MUS 306–340, 345–396

Music Studies:
- 60 points: MUS 104, 143, 243, 343
- 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
- 45 points from MUS 106, 130, 145, 162

Bachelor of Nursing – BNurs
285 points, including:
- 45 points: NURSING 105, 199, POPLHLTH 111
- 240 points: NURSING 201, 202, 301, 302

Bachelor of Property – BProp
255 points:
- 180 points: BUSINESS 114, 115, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
- 15 points from PROPERTY 360–364
- 60 points from PROPERTY 300, 311–351, 370–385

Bachelor of Science – BSc
255 points from courses listed as available in the Bachelor of Science Schedule, including:
- at least 150 points above Stage I, of which at least 75 points must be above Stage II
- courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
- the requirements for one or more majors as listed in the Bachelor of Science Schedule
- 15 points from an approved capstone course listed in the Bachelor of Science Schedule

For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.
Regulations – Foundation Studies, Other Programmes and Courses

Foundation Studies

635 The Foundation Certificate in English for Academic Purposes – FCertEAP
636 Foundation Studies Certificate – FoundStCert
637 The University of Auckland Certificate in Foundation Studies – CertFoundSt

Other Programmes

638 Certificate of Proficiency – COP
639 Northern Hemisphere Summer Research Scholarship Programme
639 Summer Research Scholarship Programme
640 Transitional Certificate – TransCert
640 Academic English Studies
640 New Start
641 Public Programmes – Event Services
642 English Language Academy – ELA
The Foundation Certificate in English for Academic Purposes – FCertEAP

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student must:
   a (i) be an international student permitted to study in New Zealand
       and
       (ii) (a) have obtained an English language proficiency score of not less than 5.0 in the International English Language Testing System (IELTS) or its equivalent in another such English Language Test recognised by the University of Auckland, for undergraduate conditional offers of admission
           or
           (b) have obtained an English language proficiency score of not less than 5.5 in the International English Language Testing System (IELTS) or its equivalent in another such English Language test recognised by the University of Auckland, for postgraduate conditional offers of admission
       and
       (iii) (a) have received a conditional offer of admission to the University of Auckland or another tertiary education institution in New Zealand
           or
           (b) have obtained a recognised high school qualification in another country which entitles the student to qualify for ad eundem statum admission to a New Zealand university
   or
   b (i) be a citizen or permanent resident of New Zealand
       and either
       (ii) (a) have obtained a recognised high school qualification in another country which entitles the student to qualify for ad eundem statum admission to a New Zealand university
           and
           (b) have obtained an English language proficiency score of not less than 5.0 in the International English Language Testing System (IELTS) or its equivalent in another such English Language Test recognised by the University of Auckland, for undergraduate conditional offers of admission
           or
           have obtained an English language proficiency score of not less than 5.5 in the International English Language Testing System (IELTS) or its equivalent in another such English Language test recognised by the University of Auckland, for postgraduate conditional offers of admission
       or
       (iii) have completed year 13 in a New Zealand secondary school, but not met the standard for University Entrance.

Note: Students who gain admission to the programme under 1b(iii) and who successfully complete the certificate may apply for Discretionary Entrance to the University under the Admission Regulation 6b. The Certificate is not an alternative to fulfilment of the literacy requirement for entrance from a New Zealand secondary school, but will be taken into account in the consideration of applications for Discretionary Entrance.

Duration and Total Points Value

2 A student enrolled for this certificate has to follow an approved full-time programme of the equivalent of one semester and pass courses with a total value of 60 points.

Structure and Content

3 a A student with an undergraduate conditional offer of admission enrolled in this certificate must pass:
   ACADINT A01 Academic Integrity Course
   ENGLACP 20P English for Academic Purposes Level 1
   ENGLACP 30P English for Academic Purposes Level 2

b A student with a postgraduate conditional offer of admission enrolled in this certificate must pass:
   ACADINT A01 Academic Integrity Course
   ENGLACP 30P English for Academic Purposes Level 2
   ENGLACP 40P English for Academic Purposes Level 3
Variations
4 In exceptional circumstances the Academic Board or its representative may approve a personal programme which does not conform to these regulations.

Amendment
5 These regulations have been amended with effect from 1 January 2017.

Foundation Studies Certificate – FoundStCert
The Foundation Studies Certificate is intended to prepare students whose first language is not English for admission to the University of Auckland in particular and to New Zealand universities in general. Suitably qualified students who meet the minimum entrance requirements upon entry to this certificate may also be required to include English Language Acquisition courses offered by the University of Auckland.

Admission
1 In order to be admitted to this programme a student needs to have:
   a completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies
   and
   b a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5, in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland.

Duration
2 Students enrolled for this certificate must follow an approved programme of:
   a at least 41 weeks (standard delivery) if they have undertaken secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies; and have a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5 in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland
   or
   b at least 31 weeks (intensive delivery) if they have undertaken secondary schooling to at least NCEA Level 2, and achieved a minimum of 48 credits at NCEA Level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies; and have a level of English language proficiency equivalent to a score of 5.5 with no band less than 5.0 in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland.

Structure and Content
3 A student enrolled for this certificate must complete:
   a English for Academic Purposes
   and
   b four courses from Accounting, Art, Biology, Chemistry, Classical Studies, Economics, Geography, Information Technology, Mathematics and Statistics, Mathematics with Calculus, Physics, or other courses equivalent to NCEA Level 3 approved by the Academic Director.

4 Students must:
   a achieve at least 65 percent in English for Academic Purposes
   or
   b achieve at least 50 percent in English for Academic Purposes and pass IELTS with an overall score of at least 6.0 in the academic module with no band less than 5.5
   or
   c have completed the Foundation Certificate for Academic Purposes or English Pathway for Undergraduate Studies from the English Language Academy, with a C- or higher.

5 Students must complete all required class work and written examinations which will be equivalent in standards to NCEA Level 3.

6 The programme of each student must be approved by the Academic Director.

7 A student enrolled in this certificate must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
University Entrance
8 A student who satisfactorily completes the University of Auckland Certificate in Foundation Studies will be deemed to have the equivalent of University Entrance.

The University of Auckland Certificate in Foundation Studies – CertFoundSt

Admission
1 In order to be admitted to this programme a student needs to:
   a (i) completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2 at a Merit standard, with no fewer than 12 credits in each of three subjects including Mathematics, or the equivalent as approved by the Board of Studies
   and
   (ii) a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5, in the International English Language Testing System (IELTS) or alternative English language test approved by this University
   or
   b (i) completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2 at a Merit standard, with no fewer than 12 credits in each of three subjects including Mathematics, or the equivalent as approved by the Board of Studies
   and
   (ii) level of English language proficiency equivalent to a score of 5.5, with no band less than 5.0, in the International English Language Testing System (IELTS) or alternative English language test approved by this University
   or
   c (i) completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2 at an Excellence standard, with no fewer than 12 credits in each of three subjects including Mathematics, or the equivalent as approved by the Board of Studies
   and
   (ii) a level of English language proficiency equivalent to a score of 6.0, with no band less than 5.5, in the International English Language Testing System (IELTS) or alternative English language test approved by this University.

Duration
2 a A student admitted under Regulation 1a must pass courses with a total value of 120 points and will normally complete within 12 months.
   b A student admitted under Regulation 1b must pass courses with a total value of 120 points and will normally complete within 9 months.
   c A student admitted under Regulation 1c must pass courses with a total value of 90 points and will normally complete within 6 months.

Structure and Content
3 a A student enrolled for this certificate must complete the requirements as listed in the University of Auckland Certificate in Foundation Studies Schedule
   and
   b (i) achieve at least 65% in CTFOUND 10F, 39F or 40F English for Academic Purposes
   or
   (ii) achieve at least 50% in CTFOUND 10F, 39F or 40F English for Academic Purposes and have passed an IELTS examination with an overall score of at least 6.0 with no band less than 5.5 in the academic module
   or
   (iii) have completed the Foundation Certificate for Academic Purposes or English Pathway for Undergraduate Studies from the English Language Academy, with a C- or higher.
4 In exceptional circumstances, and with the approval of the Deputy Head of College Academic, a student may substitute a pass in CTFOUND 39F for CTFOUND 40F, or a pass in CTFOUND 39F and a pass in a further 20-point subject course from the University of Auckland Certificate in Foundation Studies Schedule for CTFOUND 10F.
5 a In exceptional circumstances a student may enrol in a Stage I course from this University with the approval of
the Deputy Head of College Academic and the Associate Dean (Academic) of the faculty offering the course in which the student wishes to enrol.

b Credit may be granted toward a bachelors degree or diploma at this University for any Stage I course(s) completed under Regulation 4a.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 A student must complete all required class work and written examinations which will be similar in standard and content to NCEA Level 3.

8 The programme of study of each student must be approved by the Deputy Head of College Academic.

Admission to University

9 A student who satisfactorily completes the University of Auckland Certificate in Foundation Studies will be deemed to have the equivalent of University Entrance.

University of Auckland Certificate in Foundation Studies (CertFoundSt) Schedule

A student who has to complete 90 points must satisfy the following requirements:

- 10 points: CTFOUND 40F
- 80 points from CTFOUND 41F–52F, 23F or other courses approved by the Head of College

A student who has to complete 120 points must satisfy the following requirements:

- 40 points: CTFOUND 10F
- 80 points from CTFOUND 11F–23F or other courses approved by the Head of College

REGULATIONS – OTHER PROGRAMMES

Certificate of Proficiency – COP

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to a Certificate of Proficiency, a student:
   a requires the approval of the relevant Associate Dean (Academic) or nominee for the course or courses in which they intend to enrol
   and
   b must meet any prerequisite, corequisite or other conditions of the course or courses, or the Associate Dean (Academic) or nominee has, in approving the admission, waived those requirements.

Structure and Content

2 a Any course that is offered by the University of Auckland may be taken for a Certificate of Proficiency with the approval of the relevant Associate Dean or nominee.

b A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Reassignment

3 a Provided any prerequisite, corequisite or other conditions for that qualification are met, a course passed for a Certificate of Proficiency may, with the approval of Senate or its representative and in conformity with the Credit Regulations, be subsequently reassigned to:
   (i) an undergraduate certificate, diploma or degree
   (ii) a Taught Masters degree, or the taught component of a Research Masters degree with a total points value of more than 120 points, a Bachelors Honours Postgraduate degree, a Postgraduate Diploma or a Postgraduate Certificate, as specified in the Credit Regulations.

b A course passed for a Certificate of Proficiency may not be reassigned to a Research Masters degree except as specified in 3a(ii) above.
Regulations

Where a course has already been credited to a qualification a student may enrol again for that course, or for another course whose content is substantially similar, for a Certificate of Proficiency. Such a course, when passed for Certificate of Proficiency, will not be reassigned to any qualification.

Amendment

4 These regulations have been amended with effect from 1 January 2023.

Northern Hemisphere Summer Research Scholarship Programme

Admission

1 In order to be admitted to this programme a student needs to:
   a have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   b be enrolled in an undergraduate degree or sub-doctoral postgraduate study at an international institution
      at the time of application
   and
   c have a Scholarships Grade Point Average/Grade Point Equivalent of 7.0 or higher in the most recent two years
      of equivalent full-time study
   and
   d be recommended for admission by the Dean or nominee.

Duration

2 Students must complete this programme within eight weeks of initial enrolment.

Structure and Content

3 A student enrolled for this programme must complete course SUMRESCH 302.

Amendment

4 These regulations have been amended with effect from 1 January 2019.

Summer Research Scholarship Programme

Admission

1 In order to be admitted to this programme a student needs to:
   a have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   b (i) be enrolled in an undergraduate degree or postgraduate diploma or Bachelor (Honours) degree at a
      New Zealand university at the time of application
      or
      (ii) have been enrolled in an undergraduate degree at an international institution in the calendar year of
           the programme start date
   and
   c have a Scholarships Grade Point Average/Grade Point Equivalent of 5.5 or higher (5.0 for Māori or Pacific
      students) in the most recent two years of equivalent full-time study
   and
   d be recommended for admission by the Dean or nominee.

Duration

2 Students must complete this programme within ten weeks of initial enrolment.

Structure and Content

3 A student enrolled for this programme must complete course SUMRESCH 301.

Amendment

4 These regulations have been amended with effect from 12 June 2024.
Transitional Certificate – TransCert

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have completed the requirements for a degree of this University or other degree approved by Senate or its representative in any particular case.

Structure and Content
2 The programme consists of such course or courses at undergraduate level in a subject or subjects as Senate or its representative may require or approve.
3 The purpose of this programme is to fulfil the requirements for entry to a specific graduate degree, graduate or postgraduate diploma approved by Senate or its representative.
4 To be eligible for the award of a Transitional Certificate a student has to enrol for the graduate qualification for which the prerequisites were met by taking this programme.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
6 These regulations have been amended with effect from 1 January 2001.

Academic English Studies
Academic English Studies offers credit courses for international students and New Zealand residents whose first language is not English.

A range of courses is offered with the aim of improving academic English skills and increasing proficiency in reading and writing for academic purposes. Students gain credit points for successfully passing each course.

ACADENG 100 develops skills in English grammar and vocabulary for academic reading and writing. ACADENG 101 focuses on academic writing, and the skills needed for basic academic essays. ACADENG 104 focuses on academic English skills to help Business students understand and express business-related concepts. At Stage II level, ACADENG 210 is an advanced academic writing course for students who need to write academic research reports.

ACADENG 100, ACADENG 101 and ACADENG 104 are approved courses for students who have not met the Academic English Language Requirement (AELR). ACADENG 104 can be taken as an elective but priority is given to Business students who need the course to meet the AELR.

Further information may be obtained from the School of Cultures, Languages and Linguistics, Faculty of Arts. Phone: +64 9 373 7599 ext 86727.

New Start
New Start provides part-time University preparation courses for adults over the age of 20 who need skills and confidence to undertake academic study. No previous qualifications are required. Students are required to be New Zealand citizens or permanent residents.

Students gain information on the structure of university degrees, and an insight into the standard of work expected. Educational guidance is an integral part of New Start and ongoing planning is offered during the semester.

In addition, students are required to complete the University of Auckland Academic Integrity ACADINT A01 course and the Diagnostic English Language Needs Assessment (DELNA) while they are with New Start.

New Start General NSGEN 47
New Start General introduces students to a variety of lecture topics in communications, education, humanities, law and social sciences, and offers tutorials, assignments with written feedback and a final test.

This is a 13-week part-time, day or evening course, also with weekend options, providing a comprehensive overview of first-year degree study. This course is compulsory for all students. Depending on the final grade achieved students
may apply for admission into an undergraduate degree in the faculties of Arts, Business, Education and Social Work and Law.

New Start General is offered at three campuses throughout the year: University of Auckland City Campus (Semester One or Semester Two), Te Papa Ako o Tai Tonga Campus, Manukau (Semester One) and Tai Tokerau Campus in Whāngarei (Summer School).

New Start Mathematics

Two mathematics papers are taught at the University of Auckland City Campus: Mathematics Fundamentals NSMAT 10 and Mathematics Preparation for University NSMAT 14. Students intending to enrol in these courses must first sit a maths assessment.

Note that Mathematics Preparation for University is designed to be taken with New Start General as a pathway to Business School. Results will be used to recommend the best pathway for students.

Mathematics Fundamentals NSMAT 10

Mathematics Fundamentals NSMAT 10 is a short intensive course taught over four consecutive Saturdays in a workshop environment designed to build students’ skills and confidence. Students will be working together collaboratively, either as a class or in groups, but sometimes there will be lectures. The course includes assignments and a final test. Students who require additional mathematics support are advised to enrol in this course before undertaking Mathematics Preparation for University NSMAT 14.

This course is offered in Summer School or can be taken in the mid-semester break before the start of Semester Two.

Mathematics Preparation for University NSMAT 14

A variety of topics of everyday interest is explored with the aim of clarifying the underlying mathematics and statistics. This is a 12-week part-time course held in Semester One or Semester Two. The course includes lectures, assignments and a final test.

This course is compulsory and taken together with New Start General NSGEN 47 for students planning to pathway to an undergraduate degree in Commerce or Property at the University’s Business School.

A grade of A– or above achieved in this course and New Start General NSGEN 47 enables students to apply for admission to the Bachelor of Commerce or Bachelor of Property.

Further Information

Further information can be obtained from:

New Start Office
Building 206
14–16 Symonds Street
Auckland 1010.

Website: www.auckland.ac.nz/newstart

Public Programmes – Event Services

Event Services offers lifelong learning opportunities through the delivery of courses, public lectures, workshops and conferences that all draw upon the expertise of the University.

Most events are open to members of the public and are delivered in various formats, including day and evening lectures, seminars, webinars and workshops. It is also possible to join undergraduate students in selected University lecture courses.

For more information visit https://unievents.auckland.ac.nz/ or https://www.publicprogrammes.ac.nz/ or email eventservices@auckland.ac.nz.
English Language Academy – ELA

The University of Auckland’s English Language Academy (ELA) provides a range of English language courses for international students including University Pathway Programmes (for entry to University of Auckland programmes), Academic English and General English courses, bespoke Group Programmes and Teacher Training (English language) courses. ELA is an accredited IELTS, Cambridge English and PTE Academic testing centre. Established over 20 years ago by world-renowned linguist Emeritus Distinguished Professor Rod Ellis, ELA provides students with a quality learning environment with qualified and experienced English language teachers, student services including pastoral care, a study centre and a range of other support services for students.

For more information visit: www.ela.auckland.ac.nz

**GENERAL EDUCATION REGULATIONS AND SCHEDULES**

**General Education Regulations**

1. Students required to include General Education in their programme must pass courses as specified in the General Education Regulations and Schedules for their programme.

2. a. A student will not meet the General Education requirement for their programme if they complete a General Education course with the same subject code as any non-General Education course they have previously passed, or are already enrolled in.

   b. A student will not meet the General Education requirement for their programme if they subsequently enrol in and pass a course with the same subject code as a General Education course which has been passed for their programme, unless the subsequent course is either another General Education course or is assigned to a different programme. Where appropriate the student may be able to use previously completed General Education course(s) to meet another degree requirement. This regulation does not apply to the following courses:
   (i) LAW 121G, 131, and 141 provided no other courses from Parts II–IV of the LLB were completed.
   (ii) EDUC 100G for students enrolled in the BEd(Tchg).

   c. A student who transfers programmes can meet the General Education requirement of their new programme using a course in a subject in which they have passed more than one course if the only courses in that subject credited or reassigned to their new programme are General Education courses.

   d. ANTHRO 106G does not meet the General Education requirement for the Bachelor of Music or Bachelor of Music conjoints.

   e. DISABLTY 113G does not meet the General Education requirement for the Bachelor of Human Services or the Bachelor of Social Work.

3. Language courses do not satisfy the General Education requirement for a student who has prior knowledge of the language (for example, as a native speaker, through formal or informal study, or through living with others who speak the language). A student with prior knowledge of the language may be declined enrolment or the enrolment may be deleted at the discretion of the Academic Head or nominee.

4. a. A student who is required to meet the Academic English Language Requirement through the completion of an approved academic English Language course, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute one of ACADENG 100, 101, 104, ENGWRIT 101 for 15 points of General Education.

   b. In exceptional circumstances approval may be given by the relevant Associate Dean Academic for a student who has already met the Academic English Language Requirement to substitute one of ACADENG 100, 101, 104, ENGWRIT 101 for 15 points of General Education.

**Notes:**

(i) Some courses available for General Education are also available as part of regular degree requirements. The content and assessment for both occurrences of the course are the same. A student must enrol in the General Education offering of a course in order to meet the General Education requirements of their programme.

(ii) Some General Education courses have limits on the number of students who can enrol. Places in these courses will be allocated on a first-come-first-served basis.

**General Education Open Schedule**

**General Education courses approved for all undergraduate programmes**

**Students can also choose courses from the General Education Faculty Schedule(s) approved for their degree.**

**Courses available (15 points):**

REGULATIONS – DOCTOR OF PHILOSOPHY

Statute for the Degree of Doctor of Philosophy – PhD

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Philosophy.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Philosophy.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.

General Requirements
1 A candidate for the Degree of Doctor of Philosophy (PhD) is required to undertake an original and coherent research project and to present the outcome of that research project for examination as a thesis.
2 The research project, which may include scholarly creative practice, must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.
3 The research project must be conducted under supervision and over the period of enrolment in the PhD programme, and must be conducted in accordance with the Research Code of Conduct Policy.
4 The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 100,000 words. Scholarly creative work (written or otherwise) that forms an integrated whole with the written document may be submitted for examination as part of the thesis requirement.
5 The thesis must be undertaken and completed in accordance with the Doctoral Thesis Policy and Procedures and, where scholarly creative work is (to be) presented for examination as part of the thesis requirement, with the PhD – Including Scholarly Creative Work Policy and Procedures.
6 In order for the PhD degree to be awarded, the Board of Graduate Studies (or delegate[s]) must be:
   a satisfied that the requirements of Regulations 1-5 and Regulation 47 have been met
   and
   b satisfied that, subject to Regulation 43, the candidate has performed at doctoral level in an oral examination, held in accordance with this Statute on the thesis, the subject of the thesis and the field(s) to which the subject belongs
   and
   c satisfied, by the examination process prescribed by this Statute, that the thesis:
      (i) makes an original and significant contribution to knowledge or understanding in its field(s)
      and
      (ii) meets internationally recognised standards for such work
      and
      (iii) demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature
      and
      (iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration
7 The thesis must be submitted within a maximum of 48 months of full-time equivalent enrolment from the initial date of enrolment in the PhD programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the Doctoral Extension of Enrolment Policy and Procedures. For the avoidance of doubt, the provisions pertaining to the submission of the “thesis” in this regulation and in the remainder of this statute apply to all work (to be) presented for examination in fulfilment of the thesis requirement at Regulation 1.
8 The thesis must not be submitted in less than 36 months of full-time equivalent enrolment from the initial date of enrolment in the PhD programme, unless permission is granted by the Board of Graduate Studies (or delegate).
9 Permission for submission of the thesis must not be granted where a candidate has been enrolled for less than 24 months full-time equivalent from the initial date of enrolment in the PhD programme.
Part-time enrolment may be permitted, subject to the Doctoral Full-time and Part-time Enrolment Policy and Procedures.

11 A candidate may be permitted to suspend their enrolment subject to the Doctoral Suspension of Enrolment Policy and Procedures.

12 Unless permitted under the PhD – Masters Thesis Transfer Policy and Procedures, the initial date of enrolment in the PhD programme may not be backdated except in exceptional circumstances as approved by the Board of Graduate Studies (or delegate) and up to a maximum of six months.

Admission

13 To be admitted to the PhD programme, applicants must satisfy the University’s Admission regulations and are required to have:
   a in their most recent attempt at a relevant qualification:
      (i) completed the requirements for a Bachelors Honours or Masters degree or postgraduate diploma in a relevant subject area with at least a B+ average at the University of Auckland, or, where relevant to the intended subject of the PhD, the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland; in all cases relevance is determined by the Board of Graduate Studies (or delegate)
      or
      (ii) satisfied the requirements of the PhD – Masters Thesis Transfer Policy and Procedures
      or
      (iii) completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as relevant, with regard to subject area, and as equivalent to a Bachelors Honours or Masters degree with at least a B+ average at the University of Auckland
   and
   b satisfied the requirements of the Doctoral Candidate Research Capacity Policy and Procedures
   and
   c satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate)
   and
   d where creative work is to be presented for examination as part of the thesis requirement, have satisfied the eligibility and research project approval requirements of the PhD – Including Scholarly Creative Work Policy and Procedures
   and
   e have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the PhD degree
   and
   f have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of doctoral matters (“the Academic Head(s)”) with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head(s).

14 In exceptional circumstances, the Board of Graduate Studies (or delegate) may, subject to the Doctoral Exceptional Circumstance Entry Policy and Procedures, admit to the PhD programme an applicant whose qualifications do not meet the requirements of Regulation 13a.

15 An applicant may be considered for transfer from an existing doctoral enrolment subject to the Doctoral Transfer Policy and Procedures.

16 An applicant may be considered for off-campus enrolment subject to the Doctoral Off-campus Research Policy and Procedures.

17 The final decision on admission to the PhD programme shall be made by the Board of Graduate Studies (or delegate).

18 Admission to the PhD programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment.

19 Admission to the PhD programme is valid for up to six months (or a maximum of 12 months in exceptional circumstances as approved by the Board of Graduate Studies (or delegate)) from the date of notification of admission to the programme. Where enrolment in the programme does not occur within that time, re-application for admission to the programme is required.
20 Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

21 Persons who are permitted by the Board of Graduate Studies (or delegate) to enrol in a joint or dual doctoral degree must satisfy all the requirements of this Statute in order to have the PhD degree awarded, unless an individual requirement is varied under Regulation 53.

Supervision
22 The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate's enrolment.

23 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the Doctoral Supervision Policy and Procedures.

24 Changes in supervision during candidature are subject to the Doctoral Supervision Policy and Procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

Enrolment and Candidature
25 Except for any period(s) of suspension approved under Regulation 11, candidates are required to be enrolled continuously from the initial date of enrolment in the PhD programme until the date of thesis submission under Regulations 7–9.

26 Candidature for the PhD degree commences upon enrolment in the PhD programme and continues, regardless of any period(s) of suspension approved under Regulation 11, until the date on which any one of the following occurs:
   a notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree at Regulation 6 have been met
   b notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 46 is that the degree not be awarded
   c candidature expires under Regulation 28
   d a candidate withdraws under Regulation 48
   e candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 49.

27 Candidature is provisional until confirmed, and is subject to the Doctoral Confirmation of Candidature Policy and Procedures, the Doctoral Continuation of Confirmed Candidature Policy and Procedures, and the Doctoral Candidature Intervention Policy and Procedures.

28 a Candidature expires when the thesis is not submitted for examination by the date required under Regulation 7.
   b Candidature expires when the thesis is not submitted by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 45.

29 Where candidature has expired under Regulation 28, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 54 of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

30 Enrolment in the PhD programme is not possible where candidature remains expired under Regulation 28 or where a candidate withdraws from the programme under Regulation 48.

31 Termination of candidature under Regulation 49 is also termination of enrolment in the PhD programme for enrolled candidates.

32 Candidates who are required, pursuant to Regulation 45, to revise and resubmit their thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis pursuant to Regulation 45 is 12 months full-time equivalent.

33 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the Doctoral Off-campus Research Policy and Procedures.

34 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules,
policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of candidature.

35 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees
36 All fees required by and pursuant to the Fees Statute and the PhD Domestic Tuition Fees Policy must be paid for the duration of enrolment in the PhD programme.

37 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 11.

38 a A candidate who withdraws from the PhD programme, or who has their candidature terminated, will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period of withdrawal from the programme or termination of candidature and the end of the current doctoral year.

b A candidate who submits a thesis will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of submission of the thesis and the end of the current doctoral year, provided the candidate has been enrolled for at least 36 months' full-time equivalent.

39 Graduation is not permitted until all outstanding monies owing to the University have been paid.

Submission
40 The thesis must be submitted in accordance with the Doctoral Thesis Submission Pre-Examination Procedures.

Examination
41 For each candidate, the Board of Graduate Studies (or delegate) will appoint two examiners, at least one of whom must be based outside New Zealand, in accordance with the Doctoral Appointment of Examiners Policy and Procedures.

42 The examination for the PhD degree must be conducted in accordance with the Doctoral Examination Procedures and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, with the Doctoral Examination Extraordinary Circumstances and Posthumous Award Procedures. Where scholarly creative work is submitted as part of the thesis requirement, the examination is also subject to the PhD – Including Scholarly Creative Work Policy and Procedures.

43 Except where a candidate is exempted pursuant to the Doctoral Examination Extraordinary Circumstances and Posthumous Award Procedures, the PhD degree cannot be awarded where an oral examination has not taken place.

44 Where a candidate advances to oral examination, the oral examination is to proceed in accordance with the Doctoral Examination Procedures and the Doctoral Oral Examination Procedures.

45 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the Doctoral Examination Procedures and determine the outcome of the examination.

Final Decision
46 The final decision as to the award of the PhD degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 45.

47 The final examined and approved thesis must be submitted in accordance with the Doctoral Thesis Submission Post-Examination Procedures in order for the requirements of the PhD degree to be met.

Withdrawal from Programme
48 A candidate may withdraw from the PhD programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature
49 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:

a failure to meet the requirements for confirmation of candidature pursuant to Regulation 27

b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 27

c failure to satisfy conditions imposed on candidature pursuant to Regulation 27
d failure to comply with candidature reporting requirements pursuant to Regulation 27

e failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)

f failure to comply with the Doctoral Thesis Submission Post-Examination Procedures

g failure to make payment of any tuition fees related to enrolment in the PhD by the due date.

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 49 is permanent unless successfully appealed in accordance with Regulation 54(b).

50 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 49, the candidate will be given notice of termination proceedings and allowed 14 calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision. This process is subject to the Doctoral Termination Proceedings Policy.

51 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of this Statute.

52 a Where a candidate withdraws from the PhD programme, or has their candidature terminated, or fails to meet the requirements for the award of the degree, admission to a new PhD or other doctoral programme in the same subject at a later date will not normally be permitted.

b A person who withdraws from any relevant doctoral enrolment or has a relevant doctoral candidature terminated (or equivalent), or who fails to meet the requirements for the award of a relevant doctoral degree, will not normally be admitted to the PhD except in accordance with the doctoral transfer policy and procedures.

c Relevance and equivalence at Regulation 52b are determined by the Board of Graduate Studies (or delegate).

Variations
53 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for PhD candidature, except where variation of a national or government directive or requirement is involved.

Appeals
54 a Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment subject to the Doctoral Candidature Appeal Procedures.

b A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature, or to decline an extension of enrolment, subject to the Doctoral Candidature Appeal Procedures.

55 Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the Doctoral Candidature Appeal Procedures.

56 Candidates and former candidates may appeal the outcome of a PhD examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the Doctoral Examination Appeal Procedures.

57 Appeals as to examination will be determined in accordance with the Doctoral Examination Appeal Procedures.

Dispute Resolution
58 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

59 Any matter that has been, could have been or could be appealed under the provisions of Regulation 54 or 56 is precluded from consideration as a dispute under Regulation 58.

Further Provisions
60 a The PhD programme is subject to the Limited Entry Statute.

b Candidates are subject to:

(i) the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute

and

(ii) the provisions of the Enrolment and Programme regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost’s Special Powers

and
(iii) the Examination Regulations, where coursework is prescribed pursuant to Regulation 27.

61 The doctoral policies and procedures cited in this Statute may be reviewed and amended from time-to-time.

62 PhD candidates are subject to any additional doctoral policies and procedures devised in support of this Statute, and amended from time-to-time.

63 This Statute may itself be reviewed and amended from time-to-time.

64 This Statute came into force on 1 October 2020.

65 For candidates initially enrolled under a previous statute, the Board of Graduate Studies (or delegate) may agree to vary the application of the provisions of this Statute to ensure consistency with the provisions of the statute under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

---

**REGULATIONS – HIGHER DOCTORATES**

In addition to the degree of Doctor of Philosophy, the University offers higher doctorates in Engineering (DEng), Laws (LLD), Literature (LittD), and Science (DSc). These are the highest academic awards offered by the University and are awarded to graduates or close affiliates of the University of Auckland who have published original work that has, over an extensive period of time, given them authoritative standing and international eminence in their respective field. The higher doctorate is thus to be seen as recognition of real distinction in one of these areas of study. It is awarded rarely and only after rigorous examination of a substantial and significant corpus of material. A person wishing to become a candidate for a higher doctorate should refer to the Guidelines for Candidates of Higher Doctorates.

The Degree of Doctor of Engineering – DEng

**Eligibility**

1 The Degree of Doctor of Engineering shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence in some branch of engineering or technology such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, or as designs and inventions. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Engineering must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

**Application**

7 A person wishing to become a candidate for a Doctor of Engineering should apply in writing to the Dean of Graduate Studies, providing:

   a a completed Application to be Examined for a Higher Doctorate

   and

   b an academic curriculum vitae

   and

   c academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.
The Degree of Doctor of Laws – LLD

Eligibility
1 The Degree of Doctor of Laws shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to the history, philosophy, exposition or criticism of law, such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Laws must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application
7 A person wishing to become a candidate for a Doctor of Laws should apply in writing to the Dean of Graduate Studies, providing:
   a a completed Application to be Examined for a Higher Doctorate
   b an academic curriculum vitae
   c academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

The Degree of Doctor of Literature – LittD

Eligibility
1 The Degree of Doctor of Literature shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to linguistic, literary, philosophical, social, cultural or historical knowledge such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Literature must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.
Application
7 A person wishing to become a candidate for a Doctor of Literature should apply in writing to the Dean of Graduate Studies, providing:
   a a completed Application to be Examined for a Higher Doctorate
   and
   b an academic curriculum vitae
   and
   c academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

The Degree of Doctor of Science – DSc

Eligibility
1 The Degree of Doctor of Science shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to some branch of pure or applied science such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

3 A candidate for the Degree of Doctor of Science must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application
7 A person wishing to become a candidate for a Doctor of Science should apply in writing to the Dean of Graduate Studies, providing:
   a a completed Application to be Examined for a Higher Doctorate
   and
   b an academic curriculum vitae
   and
   c academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

Procedure for the Examination of Higher Doctorates

This procedure applies to the examination of the Degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature and Doctor of Science, and should be read in conjunction with the Higher Doctorate Examination Procedures.

Consideration of Applications to be Examined
1 As soon as possible after an application to be examined has been lodged with the Dean of Graduate Studies and has been determined to meet initial requirements, the application will be forwarded to the relevant Faculty Dean or delegate (“the faculty”) for further consideration.

2 The faculty will appoint an Examination Committee of three senior academics who have a general understanding of the applicant's field of research. At least two members of the Committee must be academic members of the University, one of whom will be nominated to chair the Examination Committee.

3 The Examination Committee will investigate the information provided, including the quality and nature of the
submission for examination, will seek input from the Dean of the faculty, and will make a recommendation to
the Dean of Graduate Studies within one month that the faculty:
  a. will allow the applicant to be admitted to candidature for the higher doctorate
  or
  b. will not allow the applicant to be admitted to candidature for the higher doctorate.

**Notification of Assessment of Application and Intention to Submit**

4. The Dean of Graduate Studies will advise the applicant of the faculty’s decision and, if the application has
   been accepted, will request written notification of the applicant’s intention to proceed with candidature and
   submission. The submission of work to be examined must be received by the Dean of Graduate Studies within
   three months of the notification that the application was accepted.

5. The examination will not proceed until receipt of the candidate’s written notification of intention to proceed and
   payment of fees as set out in Schedule B of the Fees Statute.

**Appointment of Examiners**

6. Upon payment of fees and receipt of the candidate’s written notification of intention to proceed, the Dean of
   Graduate Studies will request that the faculty nominate three external examiners. The nominations should be
   made within three months of the request. The examiners must be of authoritative standing and international
   eminence in the field of the submitted work and must be active in research. At least one examiner shall be
   resident outside New Zealand. Examiners must not have engaged in substantial collaboration with the
   candidate. Any involvement with the candidate by the examiner which could constitute a conflict of interest
   should be declared at the outset. The appointment of all examiners must be approved by the Dean of Graduate
   Studies.

**Submission**

7. The candidate shall lodge at the School of Graduate Studies:
   a. three copies of the work to be examined
   and
   b. a statutory declaration which shall:
       (i) state the extent to which the work is the candidate’s own, and (in the case of a conjoint work) identify
           as clearly as possible which parts are the candidate’s own
       and
       (ii) declare that the work in substantially its present form has not been submitted or accepted previously
           for the award of a degree or diploma in this or any other tertiary institution, and is not being submitted
           for a degree or diploma in any other tertiary institution or for another degree or diploma at this
           institution.

**Examination**

8. The degree will be awarded solely on consideration of the submitted works upon which the candidate’s claim to
   the degree is based.

9. In order to qualify for the degree, the submitted works must provide sufficient evidence that the candidate has
   made an original contribution of special excellence to their discipline such that they are considered to have
   authoritative standing and international eminence in their field.

10. Examiners will be requested to report to the Dean of Graduate Studies on the submission within three months
    of receipt and recommend whether the candidate:
    a. should be awarded the degree
    or
    b. should not be awarded the degree.

11. The reports of all examiners will be forwarded to the Examination Committee for consideration of whether or
    not to admit the candidate to the degree.

12. If the examiners’ recommendations differ, the Examination Committee may invite the examiners to consult
    and provide a written report or reports on the outcome of their consultation. If, after such consultation, the
    differences remain unresolved, the Examination Committee may recommend to the Dean of Graduate Studies
    that a further independent external examiner be appointed to report on areas of conflict.

13. The Examination Committee shall recommend an outcome based on the examiners’ reports to the Dean of
    Graduate Studies. The Dean of Graduate Studies will determine the result of the examination and notify the
    candidate of the decision.
14 An unsuccessful submission may not be presented for re-examination until at least five years after initial submission and must include new material.

Deposit of Submission in the Library
15 On successful completion of the examination of the submitted work, and when possible, two bound copies will be deposited in the University Library by the School of Graduate Studies. The first bound copy will remain in the Library for reference purposes; the second copy may be borrowed by members of the Library, or sent to other libraries on inter-library loan. The third copy will be returned to the candidate.

Graduation
16 Candidates who have satisfied the requirements for any award of the University shall be admitted to that award.
The Course Prescriptions contain approved University of Auckland courses. Before selecting courses from this Calendar, students and potential students are advised to ascertain which courses are expected to be offered in this Academic Year and in which semester they are scheduled by referring to the Class Search on Student Services Online, or by contacting their Student Hub.

Where courses in the following Course Prescriptions are listed with an ‘A’ and a ‘B’ option, this means that, if they are offered, they will be taught over two semesters and students must enrol in both Part A and Part B in order to complete and, where successful, be credited with the course. Courses with no ‘A’ or ‘B’ designation are taught over one semester.

The Prescriptions are listed by faculty, in alpha-numeric order by subject title and should be read in conjunction with the relevant regulations.

**Calculating a Grade Point Average**

Grade Point Averages (GPA) are calculated using the following scale. Courses are weighted based on points value, and the exact formula may vary from programme-to-programme.

# Index of Course Codes

This list indexes course codes alphabetically and shows the titles of the subjects related to them. The faculty column shows where the course prescription can be found.

The University of Auckland

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Foundation Courses

FOUNDST 10F 24 Points

English for Academic Purposes
Develops skills for understanding, writing, reading and speaking English. Attention is paid to accuracy, grammatical structures, spelling, punctuation and word use. Tasks include group discussions and formal presentations, note-taking, extended reading and formal comprehension exercises, paragraph and note-form summaries and preparation of research reports.

FOUNDST 11F 24 Points

Accounting
Provides introduction to accounting methods and concepts. Topics include cash and accrual accounting, budgeting, cash flow, depreciation, assessment of performance, accounting systems, job costing, cost-volume-profit analysis, financial statements for sole traders, partnerships and companies.

FOUNDST 12F 24 Points

Art
Provides a practical knowledge of visual arts and understanding of arts in context. Through a number of practical assignments and the production of a portfolio, students develop ideas, observe, analyse, interpret and evaluate images.

FOUNDST 13F 24 Points

Biology
Develops an understanding of biology and the skills to apply biological knowledge to solve problems, design and perform experiments, and to interpret and present evidence. Topics include structure and function of the cell, responses of plants and animals to biotic and abiotic factors, genetics and evolution (primates and hominids).

FOUNDST 14F 24 Points

Chemistry
Provides science students with the skills and confidence to test their ideas experimentally. Topics include atomic theory, chemical bonding and shapes of molecules, chemistry of transition elements, metal hydrides, halogens and selected ions, analysis of laboratory solutions and commercial products, energy involved in physical and chemical changes. Aqueous Chemistry, oxidation-reductions and applications, spectroscopic identification of organic compounds.

FOUNDST 15F 24 Points

Classical Studies
Gives an introduction to the history, literature, art, architecture and politics of ancient Greece (600-400BC) and Rome (753 BC to 14 AD). Develops vital skills for university level study, including critical thinking, analysis and writing argumentative essays.

FOUNDST 16F 24 Points

Economics
Covers a wide range of economic issues, from basic economic concepts and principles, to policy options available to governments, and probable consequences of economic decisions. Topics include relative scarcity and production possibilities, demand, supply and the market, market structures, including monopoly, externalities, public goods and government intervention, equity and efficiency, financial markets, aggregate demand and supply and the macroeconomic economy.

FOUNDST 17F 24 Points

Geography
Covers the formation of natural features and develops skills involved in interpreting topographic data. Analysis of cultural processes (urban growth, migration, development and sustainability), the study of human actions that modify natural processes, and analysis of the outcomes.

FOUNDST 18F 24 Points

Information Technology
Provides a broad knowledge of computer technology, common application software, programming, word processing, spreadsheets and databases. Topics include computer hardware, computer software, operating systems, business applications, problem solving techniques used for programming.

FOUNDST 19F 24 Points

Mathematics with Calculus
Provides a solid foundation for university subjects requiring a prior knowledge of Mathematics with Calculus. Topics include calculus, algebra, trigonometry, geometry.

FOUNDST 20F 24 Points

Mathematics with Statistics
Provides students with a broad range of mathematical knowledge and skills and is a prerequisite for many university courses. Topics include algebra and graphing functions, exponentials and logarithms, correlation and progression, probability and set theory, random variables and their distributions, time series, linear programming, mathematical modelling, numerical equation solving, binomial, poisson and normal distributions.

FOUNDST 21F 24 Points

Physics
Develops students' theoretical knowledge, problem-solving skills and experimental techniques. Topics include light, waves, kinematics, mechanics, electricity and magnetism, atomic and nuclear physics.

Internship

Postgraduate 700 Level Courses

INTERNSP 700 15 Points

Internship 1
Enables the development of practical knowledge and hands-on experience through a supervised internship.
Chemistry is the branch of science concerned with the substances of which matter is composed, the investigation of their properties and reactions, and the use of such reactions to form new substances. Theory is complemented by experiments in which students develop practical skills, such as the use of common laboratory equipment, powers of observation and the ability to communicate results and conclusions.

**CTFOUND 15F**  
**Design**  
Strong focus on graphic and communication design. Considers graphic design theory and explores communication design solutions by producing a brand identity for an individually chosen project. Students will learn how to design a logo and poster, produce imagery, develop an understanding of building a design brand, interpret and read design works and learn how to use Photoshop.

**CTFOUND 16F**  
**Economics**  
Economics is the study of scarcity; of how society chooses to use scarce resources to satisfy its unlimited wants. Explores what motivates consumers and producers, how the market works and how markets react to change. Increases students’ understanding of what makes up an economy, how it works and why it is important for the individual and others. Uses economic theory to analyse real-life situations. Challenges students to think like an economist and practise decision making.

**CTFOUND 17F**  
**Mathematics with Calculus**  
Calculus is a branch of mathematics that provides an understanding of the changes between values that are related by a function. Students will learn how to manipulate mathematical equations, read trigonometric functions, differentiate to get functions that show rates of change, and integrate to obtain formulas that describe things that are not visible. Logical thinking and reasoning, algorithmic processes and problem solving will also be studied.  
*Restriction: CTFOUND 18F*

**CTFOUND 18F**  
**Mathematics with Modelling**  
Modelling is a branch of mathematics where mathematical representations of the surrounding world are created in order to increase knowledge and predict the future. Students will learn how to manipulate mathematical equations, read trigonometric functions, create formulas for real-life situations and maximise profits and minimise costs. Logical thinking and reasoning, algorithmic processes and problem-solving will be covered.  
*Restriction: CTFOUND 18F*

**CTFOUND 19F**  
**Geography**  
Geography is the study of the Earth as the home of humankind. Geographical skills such as mapping, graphing and interpretation of data will be covered. Topics include tourism development as a cultural process, tectonic processes and global development. A contemporary geographic issue will be studied.

**CTFOUND 20F**  
**Photography**  
Photography is the study of the camera, its capabilities and the ideas, theory and aesthetics around the photographic image as a piece of art. Students will be introduced to the history of photography, how the camera works, camera techniques and the language of composition. Students will study contemporary photographers.
CTFOUND 21F 20 Points

Physics
Physics provides explanations for why natural and man-made phenomena occur. Topics covered: translational motion, forces, momentum, rotational motion, simple harmonic motion, mechanical and electromagnetic waves, direct current electricity, capacitance, electromagnetism and alternating current theory. Different types of experimental techniques and the appropriate situations in which they should be used. Students will be shown how to develop a logical approach to problem-solving and experimental design.

CTFOUND 22F 20 Points

Statistics
Statistics is about collecting and analysing data from a small group to make intelligent and accurate conclusions about a larger group. The Problem, Plan, Data, Analysis, and Conclusion (PPDAC) cycle of inquiry will be used. Statistical knowledge aids in the proper methods to collect data, employ the correct analyses and effectively present the results. Key skills covered: gathering and displaying data, using statistical formulas and writing academic conclusions.

CTFOUND 23F 20 Points

Communication
Communications is about the distribution of ideas. Students will develop an awareness of the challenges they face as consumers and conveyors of big ideas in a variety of media. They will explore a range of oral and visual texts including social media and develop the skills to investigate and infer purpose and meaning.

CTFOUND 39F 20 Points

English for Academic Purposes
Further develops language, academic and critical thinking skills required for university level study.

CTFOUND 40F 10 Points

English for Academic Purposes
Note-taking, critical thinking, research and essay writing are covered. This course covers the language skills that will help students understand academic texts at university.

CTFOUND 41F 20 Points

Accounting
Accounting is the practice of communicating financial information in order to make effective decisions. This course focuses on how to record business transactions for a company, and prepare and analyse the financial statements for a company. Management decision making, breakeven analysis, cash budgeting and spreadsheets are also covered.

CTFOUND 42F 20 Points

Art History
Discusses the analysis and interpretation of works of art within their cultural and historical context. Artists such as Donatello, Masaccio, Leonardo da Vinci, Michelangelo and Raphael (Renaissance) are studied. The modern period includes Cezanne, Picasso, Braque (Cubism) and Mondrian. A New Zealand artist, Colin McCahon, will also be studied. Encourages students to make connections to other artists. Develops skills in critical analysis, writing, presentation and independent research.

CTFOUND 43F 20 Points

Biology
Biology is the study of living things, their environments and their evolution. Understanding how living cells coordinate biochemical reactions, giving rise to what is called ‘life’. By exploring biotechnology, students will discover how cellular and molecular biology are applied to practical human purposes. The wide diversity of living things on Earth: ecosystems, plants and animals, genetics and evolution over time will be studied. Provides opportunities for research, discussion, presenting and writing critically about current biology issues.

CTFOUND 44F 20 Points

Chemistry
Chemistry is the branch of science concerned with the substances of which matter is composed, the investigation of their properties and reactions, and the use of such reactions to form new substances. Theory is complemented by experiments in which students develop practical skills, such as the use of common laboratory equipment, powers of observation and the ability to communicate results and conclusions.

CTFOUND 45F 20 Points

Design
Strong focus on graphic and communication design. Considers graphic design theory and explores communication design solutions by producing a brand identity for an individually chosen project. Students will learn how to design a logo and poster, produce imagery, develop an understanding of building a design brand, interpret and read design works and learn how to use Photoshop.

CTFOUND 46F 20 Points

Economics
Economics is the study of scarcity; of how society chooses to use scarce resources to satisfy its unlimited wants. Explores what motivates consumers and producers, how the market works, and how markets react to change. Increases students’ understanding of what makes up an economy, how it works and why it is important for the individual and others. Uses economic theory to analyse real-life situations. Challenges students to think like an economist and practise decision making.

CTFOUND 47F 20 Points

Mathematics with Calculus
Calculus is a branch of mathematics that provides an understanding of the changes between values that are related by a function. Students will learn how to manipulate mathematical equations, read trigonometric functions, differentiate to get functions that show rates of change, and integrate to obtain formulas that describe things that are not visible. Logical thinking and reasoning, algorithmic processes and problem-solving will also be studied.

CTFOUND 48F 20 Points

Mathematics with Modelling
Modelling is a branch of mathematics where mathematical representations of the surrounding world are created in order to increase knowledge and predict the future. Students will learn how to manipulate mathematical equations, read trigonometric functions, create formulas for real-life situations and maximise profits and minimise costs. Logical thinking and reasoning, algorithmic processes and problem-solving will be covered.

Restriction: CTFOUND 17F

CTFOUND 49F 20 Points

Geography
Geography is the study of the Earth as the home of...
humankind. Geographical skills such as mapping, graphing and interpretation of data will be covered. Topics include tourism development as a cultural process, tectonic processes and global development. A contemporary geographic issue will be studied.

CTFOUND 50F 20 Points
Photography
Photography is the study of the camera, its capabilities and the ideas, theory and aesthetics around the photographic image as a piece of art. Students will be introduced to the history of photography, how the camera works, camera techniques, and the language of composition. Students will study contemporary photographers.

CTFOUND 51F 20 Points
Physics
Physics provides explanations for why natural and man-made phenomena occur. Topics covered: translational motion, forces, momentum, rotational motion, simple harmonic motion, mechanical and electromagnetic waves, direct current electricity, capacitance, electromagnetism and alternating current theory. Different types of experimental techniques and the appropriate situations in which they should be used. Students will be shown how to develop a logical approach to problem-solving and experimental design.

CTFOUND 52F 20 Points
Statistics
Statistics is about collecting and analysing data from a small group to make intelligent and accurate conclusions about a larger group. The Problem, Plan, Data, Analysis, and Conclusion (PPDAC) cycle of inquiry will be used. Statistical knowledge aids in the proper methods to collect data, employ the correct analyses and effectively present the results. Key skills covered: gathering and displaying data, using statistical formulas and writing academic conclusions.

Faculty of Arts

Academic Integrity

ACADINT A01 0 Points
Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Academic English Studies

Stage I

ACADENG 100 15 Points
Forms in Academic English
Focuses on developing an understanding of academic reading and writing, including sentence and paragraph structure and academic vocabulary, and aims to develop strategies for employing these for effective reading and writing of academic texts. Develops an understanding of broad principles and practices of academic discourse at university level. Restriction: May not be taken if ENGWRIT 101 or ESOL 201 or ACADENG 201 or ESOL 210 or ACADENG 210 has previously been passed. This course is available only to students who speak English as an additional language

ACADENG 101 15 Points
Academic English Writing
Teaches students the skills necessary to write essays of exposition and argument for university purposes. It includes brainstorming, writing an outline, structuring an essay, integrating quotations, summaries and referencing. Restriction: May not be taken if ACADENG 93F, 201, 210, ENGWrit 101, ESOL 201, 210, TFCACENG 93F has previously been passed. This course is available only to students who speak English as an additional language

ACADENG 104 15 Points
Academic English for Business
Focuses on core English academic reading and writing skills, and strategies for learning disciplinary vocabulary. Targets the academic literacy needs of students in accessing the undergraduate business curriculum and develops awareness of appropriate text structures and academic style to understand and express business-related concepts in an academic context. Restriction: May not be taken if ENGWRIT 101 or ESOL 201 or ACADENG 201 or ESOL 210 or ACADENG 210 has previously been passed

Stage II

ACADENG 210 15 Points
Writing Research Reports
Aims to develop skills needed for writing research and laboratory reports. It covers key stages in writing a standard report and the language patterns associated with each of these stages. Course components include writing the literature review, methodology, results and discussion sections of a report, dissertation or thesis. Prerequisite: ACADENG 101 or approval of Academic Head or nominee Restriction: ESOL 210. This course is available only to students who speak English as an additional language

ACADENG 212 15 Points
Special Topic
Restriction: ESOL 212. This course is available only to students who speak English as an additional language

Anthropology

Stage I

ANTHRO 106 15 Points
ANTHRO 106G 15 Points
Global Sound Cultures: Musics, Places and People
Examines a wide range of sound and music cultures, from popular transnational mediations to locally produced, community-based traditions. Considers the ways that music takes on meaning, represents identities and places, and interacts with the world. Traces the historical/economic processes by which music cultures emerge and are sustained (or not). Explores the emotional and economic roles that music plays in lives of musicians, composers and listeners. Using theories from ethnomusicology, anthropology, musicology and cultural studies we show how music is affected by and reflects social change, colonisation and indigeneity, technology and local/global economic processes.

ANTHRO 107 15 Points
The Human-made Planet?
How have humans have come to dominate the planet? Explores hominin history, relationships with other organisms, urbanisation and globalisation, and the rise of the capitalocene. Where to from here? As humankind imagines and embraces sustainable, resilient futures, anthropology offers critical perspectives on diverse ways of being, non-western worldviews, complex bio-social interactions, and pathways to deeper socio-natural connectivities.

ANTHRO 108 15 Points
Being Human
Archaeologists and biological anthropologists examine what it is to be human by studying primates, fossils, archaeological remains and both historical and contemporary societies. Humans are immersed in social and ecological worlds that mutually shape our bodies, actions, and understandings (including mātauranga Māori). Explores the past and present reality of being human, and the evolutionary journey to become human. Restriction: ANTHRO 102

ANTHRO 110 15 Points
Culture and Creativity
Explores the connections between culture, creativity, and society through anthropological concepts, Mātauranga Māori, and relevant examples. It covers issues and problems faced by communities locally and globally, using a range of mediums such as whakapapa, material culture, performing arts, media and grassroots movements to illustrate how anthropology can help understand the complexities of creativity and the creation of knowledge.
Stage II

ANTHRO 200 15 Points

Archaeology: Understanding the Past
An examination of current concepts in archaeological research and their place in the development of archaeological thought. How archaeology makes use of its methods and theories to understand the past. An introductory laboratory component. This course is essential for students who may wish to continue their study of Archaeology at Stage III.
Prerequisite: 30 points in Anthropology or 60 points passed

ANTHRO 201 15 Points

Human Evolution
Explores issues fundamental to understanding humans' place in nature from a biocultural perspective. What led to the evolution of bipedalism, large brains, and language? How do we define species in the fossil record? How can we reconstruct ancient diets and ecologies? The course will examine how new discoveries and advancements in biology are reshaping understandings of our evolutionary history.
Prerequisite: 30 points in Anthropology or 60 points passed

ANTHRO 202 15 Points

Music and Identity in World Music Cultures
Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.
Prerequisite: 15 points in Anthropology or 60 points passed

ANTHRO 205 15 Points

Primate Behaviour, Ecology and Conservation
Examines the shift from a hunter-gatherer way of life to one based on village life and agriculture is foundational for the development of complex society. The course considers what socio-cultural changes were involved as Holocene societies developed in different parts of the world and how the relationship between humans and the environment changed.
Prerequisite: 15 points in Anthropology or 60 points passed

ANTHRO 206 15 Points

Origins of Civilisation
Examines the first 600-700 years of human settlement in Aotearoa New Zealand from an archaeological perspective, from Polynesian arrival through the early historic period. Themes include Māori origins in East Polynesia, adaptations to Aotearoa's temperate environment, changing patterns of resource use, Māori material culture and arts, the development of fortified sites or pā, and the emergence of classic Māori society.
Prerequisite: 60 points passed

ANTHRO 208 15 Points

Biosocial Medical Anthropology
Medical Anthropology draws on biological and social/cultural anthropology to address issues of human health and disease. A distinct subfield, it includes studies of the co-evolution of humans and diseases, human ecology, cultural constructions of health and illness, medical knowledge and healing practices, and the political economy of health. Students are asked to research, think and write analytically about these topics.
Prerequisite: 60 points passed at Stage I
Restriction: ANTHRO 324, 372

ANTHRO 212 15 Points

Ethnographic Film and Photography
Examines the relationship between migration and imperialism in the Americas through the framework of colonialism and resistance. Focuses on key case studies from different areas of the Americas that exemplify resistance to colonialism and US imperialism.
Prerequisite: 30 points in Anthropology or 60 points passed

ANTHRO 213 15 Points

Questioning Race and Racism
Multiple anthropological frameworks explore the scholarly and popular understandings of race and racism, and question contemporary perspectives. Why do these concepts have such social and political potency? What are the impacts of concepts of race and practices of racism and anti-racism on individuals, families, communities, nation-states and empires, in Aotearoa New Zealand, the Pacific, and elsewhere?
Prerequisite: 15 points at Stage I in Anthropology and 15 points in BA courses
Restriction: ANTHRO 105

ANTHRO 217 15 Points

Rhythm, Blues and Rock
African-American popular music and culture from the mid-1930s through the early 1960s, including styles such as blues, R 'n' B, and early Rock 'n' Roll. Considers issues of racial and gendered representation, creativity, the popular music industry, the place of music in the development of 'youth culture' and stylistic trends. Individual performers, recordings and performances, are also examined.
Restriction: POPMUS 206

ANTHRO 220 15 Points

Kaumātua Ageing in Aotearoa
Examines contemporary and historical understandings of kaumatua age and ageing roles in Māori society. Topics include: leadership within Māori society; tuakana-teina, gendered roles and complementarity; whanaungatanga and important relationships; health inequities and policies; emerging health partnership models; and the diversity of kaumatua groups.
Prerequisite: 30 points from Anthropology, Māori Studies or Sociology
Restriction: ANTHRO 376

ANTHRO 226 15 Points

Imperialism and Immigration in the Americas
Examines the relationship between migration and imperialist strategies in the Americas through the framework of critical anthropology as a discipline and through the use
of contemporary case studies. This course critically engages with the role of the United States as an imperial power in and draws significantly from decolonial, post-colonial work and work produced by scholars in Latin America. 

Prerequisite: 15 points at Stage I in Anthropology
Restriction: GLOBAL 251

**ANTHRO 277**
Future Generations Anthropology

This course acknowledges the colonial history of anthropology and imagines an anthropology that is relevant now and for the future, with Aotearoa-New Zealand not as just a site of study but an active producer of anthropological knowledge. Explores anthropological concepts via contemporary settings and Mātauranga Māori to demonstrate the usefulness of anthropology in addressing fundamental local and global issues.

Restriction: ANTHRO 109

**ANTHRO 234**
Popular Musics of the Pacific

From hip hop to reggae to pop, this course explores Pacific popular music genre as well as relevant musical techniques, modes of distribution and processes of fusion and change. It probes the positions and possibilities of Pasifika pop musics by discussing critical questions about culture, authenticity, modernisation, consumerism, identity and musical (ex)change.

**ANTHRO 235**
The Anthropology of Human Remains

Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.

Prerequisite: 15 points in Anthropology or 60 points passed
Restriction: ANTHRO 367

**ANTHRO 236**
Economy and Culture

Explores economic systems cross-culturally, including modes of production, forms of exchange, and ideas about property and consumption. Questions and critiques Euro-American assumptions about human nature, social persons, and the ubiquity and morality of markets and market exchange.

Prerequisite: 15 points at Stage I in Anthropology or Employment Relations and Organisational Studies
Restriction: ANTHRO 374

**ANTHRO 241**
Anthropology of the Body

Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender, and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.

Prerequisite: ANTHRO 100 or 30 points in Anthropology
Restriction: ANTHRO 354

**ANTHRO 248**
Special Topic

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

**ANTHRO 250**
World-view and Religion

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion, ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.

Prerequisite: ANTHRO 100 or 30 points in Anthropology or Theological and Religious Studies or Sociology
Restriction: ANTHRO 319

**ANTHRO 252**
Global Heritage Management

Globally, archaeological features and historic monuments are increasingly threatened by urban development, looting, antiquities trafficking, and effects of climate change. Using an archaeological perspective, state-of-the-art recording technologies, community partnerships, legislation, management systems, and the role of museums in conservation and exhibition will be examined. Case studies from Aotearoa, Pacific and elsewhere illustrate major issues, contradictions, and controversies, alongside effective heritage management.

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

**Stage III**

**ANTHRO 301**
Contemporary Research in Music and Culture

A seminar-style course covering a range of current topics and methods in ethnomusicology. Examines selected theories, methods, and perspectives on the roles and meanings of musical activity in contemporary human culture. We will view music as a symbolic component of cultural expression and as both focus and paradigm for cultural structures and behaviours.

Prerequisite: ANTHRO 202 or 30 points at Stage II in Transnational Cultures and Creative Practice
Restriction: ANTHRO 219

**ANTHRO 306**
Pacific Archaeology

The archaeology of the Pacific region, including colonisation, settlement patterns, interisland trade, traditional navigation, cultural change, emergence of complex societies and ethnohistory.

Prerequisite: 60 points at Stage II
Restriction: ANTHRO 706

**ANTHRO 317**
Field Methods in Archaeology

Participation in a field school involving an intensive introduction to all aspects of excavation and subsequent laboratory analysis and report preparation.

Prerequisite: ANTHRO 200 passed with a grade of B- or higher
Restriction: ANTHRO 737

**ANTHRO 319**
World-view and Religion

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion,
ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.  
Prerequisite: ANTHRO 203 or 30 points at Stage II  
Restriction: ANTHRO 250

ANTHRO 321  15 Points  
**Equality and Inequality**  
Examines conceptualisations, realities and consequences of equality and inequality cross-culturally. Considers whether there are egalitarian societies and whether inequality is inevitable. Covers types and systems of inequality such as slavery, gender inequality, caste and class, as well as differences between economic and political inequality, and between equality of opportunity and equality of results.  
Prerequisite: 30 points at Stage II

ANTHRO 329  15 Points  
**Music of East Asia: Tradition, Modernity and Globalisation**  
Explores East Asia from the ethn musico logical perspective and illuminates how music negotiates boundaries and constructs varying identities in China, Japan, and Korea, while affirming a distinct cultural identity generally referred to as "East Asian". Using different musical practices of East Asia as case studies, it examines multiple approaches and methodologies used in studying East Asian music.  
Prerequisite: 30 points at Stage II

ANTHRO 337  15 Points  
**Birth, Death, and Disease: Anthropological Demography**  
Examines how human populations change over time, what factors underlie patterns of disease and death, and why demography is so important to the study of epidemics. The course will explore the use of demographic methods and theories of demographic and epidemiological transition to examine fertility, morbidity, mortality, and migration from an anthropological perspective, with a particular focus on infectious disease dynamics.  
Prerequisite: ANTHRO 201 or 30 points in Anthropology at Stage II or above

ANTHRO 340  15 Points  
**Heritage Conservation in Aotearoa**  
Addresses the main principles of heritage conservation focusing on the rationale rather than treatment methods. Special emphasis is given to the fields of: conservation of place, archaeological, architectural, ethnographic and fine art conservation. Provides students with a cultural orientation to conservation where issues are examined through several contexts, including anthropological studies and conservation science.  
Prerequisite: 30 points at Stage II in Anthropology

ANTHRO 345  15 Points  
**Directed Study in Anthropology**  
A directed reading and individual study course, offered in exceptional circumstances, to prepare students in the methodologies of a selected sub-discipline of Anthropology, with the agreement and under the supervision of appropriate staff.  
Prerequisite: 30 points at Stage II in Anthropology and permission of Major/Specialisation Leader

ANTHRO 348  15 Points  
**Perspectives on Human Growth**  
Adopts evolutionary and biocultural perspectives in examining patterns of human growth and maturation. Human developmental patterns are placed within an evolutionary framework using evidence from non-human primates and earlier hominid remains. Variability within and among human populations in growth and developmental timing is considered in terms of genetics interacting with physical, biotic and social factors.  
Prerequisite: ANTHRO 201 or 60 points in Anthropology

ANTHRO 349  15 Points  
**Primate Behaviour, Ecology and Conservation**  
Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.  
Prerequisite: ANTHRO 201 or 60 points in Anthropology  
Restriction: ANTHRO 205

ANTHRO 351  15 Points  
**Special Topic**  
Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology

ANTHRO 352  15 Points  
**Special Topic: Applied Anthropology**  
Examines how anthropology has been used in interventions that affect people's lives, and how anthropology has contributed to public policy and public discourse. Considers ethical, methodological and theoretical complexities of anthropology's engagement in development and advocacy. Finally, the course will consider how anthropologists fit into the bigger picture of transnational governmentality, policy and economy.  
Prerequisite: 60 points in Anthropology

ANTHRO 353  15 Points  
**Archaeology in Practice**  
Introduces standard laboratory methods for analysing artefacts and generating material culture data to answer questions about the past. Quantitative observations, classification, and hypothesis testing will be emphasised. Course content will be relevant to a range of archaeological research, including research in heritage management contexts. Analysis of Australasian and Pacific Island materials will form the basis of laboratory work when possible.  
Prerequisite: B- or higher in ANTHRO 200 or 201

ANTHRO 354  15 Points  
**Anthropology of the Body**  
Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.  
Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology  
Restriction: ANTHRO 241

ANTHRO 357  15 Points  
**Gender, Sexuality and Popular Music**  
Explores the ways in which gender and sexual identities are both reflected in and modified by mainstream popular music; from 'girl power' to boy bands; from outwardly gay and lesbian artists to the gay appropriation of heterosexual female divas; from the camp masculinity of heavy metal to
ANTHRO 360  
**15 Points**  
**Special Topic**  
Restriction: ANTHRO 200 or 201 or 203 or 219 or 120 points passed

ANTHRO 366  
**15 Points**  
**Medicine, Power and Politics**  
Anthropological examination of the interplay between cultural values, local and national politics, and international health programs and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings.  
Restriction: ANTHRO 203 or 30 points at Stage II

ANTHRO 367  
**15 Points**  
**The Anthropology of Human Remains**  
Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.  
Restriction: ANTHRO 200 or 201 with a minimum B- grade

ANTHRO 370  
**15 Points**  
**Special Topic**  
Restriction: ANTHRO 200 or 120 points passed

ANTHRO 372  
**15 Points**  
**Biosocial Medical Anthropology**  
Medical Anthropology draws on biological and social/cultural anthropology to address issues of human health and disease. A distinct subfield, it includes studies of the co-evolution of humans and diseases, human ecology, cultural constructions of health and illness, medical knowledge and healing practices, and the political economy of health. Students are asked to research, think and write analytically about these topics.  
Restriction: ANTHRO 201 or 30 points at Stage II in Anthropology

ANTHRO 373  
**15 Points**  
**Anthropological Images**  
Examines the use of visual images in the production and dissemination of anthropological knowledge. Examines the choices made in the production of photographs and films, and the politics of representation. The examination of choices made in producing images will be used to consider choices made in the production of anthropological texts.  
Restriction: ANTHRO 212, 330

ANTHRO 374  
**15 Points**  
**Economy and Culture**  
Examines economic systems cross-culturally, including modes of production, forms of exchange, and ideas about property and consumption. Questions and critiques Euro-American assumptions about human nature, social persons, and the ubiquity and morality of markets and market exchange.  
Restriction: ANTHRO 212 in Anthropology or Stage II in Employment Relations and Organisational Studies

ANTHRO 376  
**15 Points**  
**Kaumātua and Health**  
Examines the role of kaumātua in the health of Aotearoa New Zealand. Explores issues surrounding the health of Māori and non-Māori populations, and the impact of cultural and social factors on health.  
Restriction: ANTHRO 220 or 324

ANTHRO 377  
**15 Points**  
**Whiteness in the Settler State**  
Examines the concept and construct of “whiteness” within the construct of the “settler state” through the lens of critical anthropology. Explores the development of white supremacy as an ideology and expression of social and political power and provides students with the conceptual and intellectual frameworks to consider the invisibility of whiteness as a social habit.  
Restriction: 15 points at Stage I in Anthropology

ANTHRO 399  
**15 Points**  
**Capstone: Anthropological Science**  
Provides students with an opportunity to demonstrate their integrated knowledge and growth in the major. Students are encouraged to make connections between their academic learning in anthropological science and the professional world. Specific topics will vary by year, but will feature projects designed to incorporate both independent and collaborative work, as well as the potential for public engagement.  
Restriction: 30 points passed at Stage III in Anthropological Science or Academic Head approval

Postgraduate 700 Level Courses

ANTHRO 708A  
**15 Points**  
**Cultural Resource Management in Archaeology**  
Covers all aspects of cultural resource management as it relates to archaeological sites and heritage with a particular focus on New Zealand archaeology and Māori heritage. There is an emphasis on site identification, recording and interpretation in the field. Legal aspects and the roles of archaeologists and iwi in cultural resource management are also covered.  
To complete this course students must enrol in ANTHRO 708 A and B

ANTHRO 709  
**15 Points**  
**Applying Anthropology**  
Considers the diverse fields in which Anthropology may be applied to peoples and cultures in the contemporary world, including, for example: environmental and development issues; land and resource conflicts; mediation and advocacy; human rights; cultural heritage; social policy; business and industry; communications; marketing; medical investigations; museums and other representational activities. Addresses practical and ethical issues that arise in these areas.

ANTHRO 713  
**30 Points**  
**Special Topic in Biological Anthropology**
ANTHRO 718A 15 Points
ANTHRO 718B 15 Points

Interpreting Biocultural Data
A survey of the design, implementation, analysis, interpretation, and dissemination of research in biocultural anthropology. It provides a holistic overview of both qualitative and quantitative approaches to biocultural anthropological scholarship.
To complete this course students must enrol in ANTHRO 718 A and B

ANTHRO 719 30 Points
ANTHRO 719A 15 Points
ANTHRO 719B 15 Points

Ethnographic Practice and Design
Based on seminars, workshops and field research, the course prepares students to understand the foundations of anthropological ethnography and the ethical issues it entails, and to become proficient ethnographers in the field, in archives and at the desk. The course provides instruction and practice in research design and proposal writing in socio-cultural anthropology.
Restriction: ANTHRO 753
To complete this course students must enrol in ANTHRO 719 A and B, or ANTHRO 719

ANTHRO 724 30 Points

Special Topic in Social Anthropology

ANTHRO 727 30 Points
ANTHRO 727A 15 Points
ANTHRO 727B 15 Points

Ethnographies of Music-making
Advanced theories and methodologies for the ethnomusical analysis of live musical performances and other behaviours across all genres and cultures. Primary attention is given to ethnohistory and participant-observation supported by analysis of industrial, cultural, musical, and mediated phenomena.
To complete this course students must enrol in ANTHRO 727 A and B, or ANTHRO 727

ANTHRO 728 30 Points

Topic in Ethnomusicology

ANTHRO 729 15 Points
ANTHRO 729A 7.5 Points
ANTHRO 729B 7.5 Points

Special Studies in Anthropology
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology, under supervision of appropriate staff.
To complete this course students must enrol in ANTHRO 736 A and B, or ANTHRO 736

ANTHRO 739 15 Points
ANTHRO 739A 7.5 Points
ANTHRO 739B 7.5 Points

Special Studies in Anthropology
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology under supervision of appropriate staff.
To complete this course students must enrol in ANTHRO 739 A and B, or ANTHRO 739

ANTHRO 742 15 Points

Contact and Colonialism
A seminar focused on critical understanding of the political, social and economic expansion of European countries around the world and its cultural consequences. Themes may include: cultural encounter, causes and effects of colonisation, interpretations of the other by colonisers and colonised, Creole cultures, slavery, race, resistance and accommodation, gender, demography, environmental impacts.
Restriction: ANTHRO 720

ANTHRO 746 15 Points

The Archaeology of the Anthropocene
Calls for the Anthropocene, a new geological epoch, recognise long-term, consequential effects of human societies, regardless of size, economics or socio-political complexity, on environments, organisms and ecosystems. When did the Anthropocene begin? How do we track socio-natural interactions over deep time? What might the past offer the future? This course explores how archaeology contributes to these and related questions.

ANTHRO 747 15 Points

Special Topic: Doing Biocultural Research

ANTHRO 748 15 Points

Human Osteology
Advanced method and theory in human osteology. Coursework is a combination of seminars and practical workshops covering the areas of biocultural frameworks, ethics, taphonomy, human identification, dental anthropology, palaeopathology and biomolecular approaches. Work is focused upon method and theory as applied in the southern hemisphere.
Restriction: ANTHRO 790

ANTHRO 749 15 Points

Advanced Primatology
A practical and theoretical exploration of the methodological principles and research methods in
contemporary primatology. Students build a working understanding of behavioural data collection and analysis, as well as developing tools for the assessment of populations and habitats.

Restriction: ANTHRO 730

ANTHRO 753 15 Points

Ethnographic Research
Students learn observational, ethnographic and quantitative social anthropological research methods by designing and carrying out a small class research project. Ethical and methodological issues are introduced.

Restriction: ANTHRO 711, 734

ANTHRO 756 15 Points

Anthropology and Intellectual Property
Examines recent anthropological contributions to debates about intellectual property. These include concepts of ownership, the objectification and appropriation of indigenous knowledge, creativity, bioprospecting, the protection of intangible cultural property, and the effects of global flows of information on persons, privacy and the ownership of ideas.

ANTHRO 758 30 Points

Special Topic in Archaeology

ANTHRO 759 15 Points

Special Topic

ANTHRO 760 15 Points

Anthropological Theory and the Contemporary World
An analysis of foundational and current theoretical works in social anthropology and their relevance to understanding contemporary societies and cultures. The course examines anthropological approaches to long-standing disciplinary debates and contemporary issues of wider public debate.

Restriction: ANTHRO 714

ANTHRO 762 15 Points

Theorising Human Evolution
Investigates contemporary evolutionary theory as it applies to humans and other primates. How has the extended evolutionary synthesis changed understandings of human and primate evolution? Topics include: plasticity, adaptation, modes of selection and niche construction.

Restriction: ANTHRO 710, 726, 751, 752

ANTHRO 763 15 Points

Emerging Bio-Anthropology
Explores new and innovative approaches to the study of the behaviour and biology of humans and other primates. What emerging developments help us to understand the complexity of human and alloprimate niches? Topics include: biocultural dynamics, multi-species entanglements and health in past and contemporary societies.

Restriction: ANTHRO 710, 726, 751, 752

ANTHRO 766 15 Points

Landscape Archaeology
Uses geographic information systems (GIS) and other computer programmes to examine the spatial organisation of data, and the relationship of archaeological sites, features and artifacts to other archaeological remains, and the environment. The social processes underlying these spatial configurations will be a particular focus.

Restriction: ANTHRO 703

ANTHRO 777 15 Points

Theory in Archaeology
A critical analysis of the history of archaeological method and theory focusing on issues in the philosophy of science, systematics, and major schools of thought from Antiquarianism to post-modernism.

Restriction: ANTHRO 700

ANTHRO 780 30 Points

ANTHRO 780A 15 Points

ANTHRO 780B 15 Points

Research Project - Level 9
Restriction: ANTHRO 782
To complete this course students must enrol in ANTHRO 780 A and B, or ANTHRO 780

ANTHRO 782 30 Points

Research Essay - Level 9
Restriction: ANTHRO 754, 780

ANTHRO 790 60 Points

ANTHRO 790A 30 Points

ANTHRO 790B 30 Points

Dissertation in Anthropology
A topic in one of the sub-disciplines of Anthropology to be selected in consultation with a supervisor.

To complete this course students must enrol in ANTHRO 790 A and B, or ANTHRO 790

ANTHRO 792 45 Points

ANTHRO 792A 22.5 Points

ANTHRO 792B 22.5 Points

Dissertation in Anthropology - Level 9
A topic in one of the sub-disciplines of Anthropology to be selected in consultation with staff.

To complete this course students must enrol in ANTHRO 792 A and B, or ANTHRO 792

ANTHRO 796A 60 Points

ANTHRO 796B 60 Points

Thesis - Level 9
Prerequisite: A BA(Hons) in Anthropology with an average of at least B+ for courses taken in the BA(Hons) degree or equivalent
To complete this course students must enrol in ANTHRO 796 A and B

ANTHRO 797A 60 Points

ANTHRO 797B 60 Points

Research Portfolio - Level 9
Prerequisite: A BA(Hons) in Anthropology with an average of at least B for courses taken in the BA(Hons) degree or equivalent
To complete this course students must enrol in ANTHRO 797 A and B

Art History

Stage I

ARTHIST 114 15 Points

ARTHIST 114G 15 Points

Understanding Art: Leonardo to Warhol
Visual intelligence is crucial in navigating the world of images that convey coded messages, and the history of ideas fundamental to all disciplines. How do we read such images? This course decodes paintings, sculptures, prints, architecture, photography and digital images, providing tools to analyse artists from Leonardo to Warhol: experts at moving the eye around the artwork for meanings to emerge.

Restriction: ARTHIST 109
ARTHIST 115 15 Points
ARTHIST 115G 15 Points
Global Art Histories
A broad survey of visual art spanning from the early modern period to the contemporary. Students will be introduced to a range of art practices situated within a global context and will consider art works produced in Māori and Pacific cultures alongside Indian, Asian, Middle Eastern, European and American traditions.

Stage II
ARTHIST 200 15 Points
Radical Change: 1850-1940
Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 222, 300, 322

ARTHIST 201 15 Points
Art and Revolution 1750-1850
Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericault and Delacroix.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 321

ARTHIST 204 15 Points
Ways of Seeing Contemporary Art
Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic.
Prerequisite: 15 points at Stage I in Art History or Media and Screen Studies, and 30 points passed
Restriction: ARTHIST 334

ARTHIST 210 15 Points
Modernism and Design
A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 310

ARTHIST 217 15 Points
Contemporary Pacific Art
Focuses on work by contemporary Pacific artists, exploring the ways that they translate indigenous knowledge and urban experiences into gallery forms such as painting, installation, performance, film and video making. Themes such as migration and diaspora, language and memory, notions of homelands and return, and the creation of complex cultural identities will be explored.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 317

ARTHIST 224 15 Points
Power and Piety: the Baroque
The use of art to display, enhance, and justify political power and piety and to promote political and religious ideologies in the major power centres of seventeenth-century Europe in the Baroque period. Refers to the work of artists such as Caravaggio, Bernini, Velasquez, Rubens, Rembrandt, Van Dyck, Le Brun, Jones and Wren.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 306, 324

ARTHIST 225 15 Points
Imaging the Renaissance
An examination of the society and culture of Europe between 1400 and 1700 as expressed in print and visual images. Topics include court and merchant culture, popular cultures, religious faith and the Reformation, festivals, literacy and the book, family and marriage, food, sexualities, witchcraft, death and disease.
Prerequisite: 15 points at Stage I in Art History or History or EUROPEAN 100 or HUMS 101, and 30 points passed
Restriction: ARTHIST 325

ARTHIST 230 15 Points
Art Crime
Explores the growing trend of art crime through a focus on five primary areas: theft, fraud, smuggling, forgery, and vandalism. These will be examined within the context of international and New Zealand case studies, including the theft of the Mona Lisa in 1911, Nazi looting in World War II, and thefts during the Iraq War in 2003. Ways to curb such crime, particularly the development of art crime squads, will also be discussed.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 332

ARTHIST 231 15 Points
Framing the Viewer: 20th Century Art
The rise of Modernism saw the development of art which is reflexive, which draws attention to itself and the illusion of representation, making us reflect about what art is and how it affects the viewer. This course is designed to enable students to develop their own reflexivity and critical awareness through a study of the ‘classic’ movements of the twentieth century, such as Cubism, Expressionism, Dada, Surrealism, Abstract Expressionism, Op, Pop and Conceptual Art.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 331

ARTHIST 233 15 Points
The Art of Gender Politics
Explores the intersection of gender and ethnicity with the visual arts. Emphasis will be on art forms and traditions in Aotearoa/New Zealand, the United States, Canada and Australia, with some reference to the Pacific, including photography, film, jewellery, tattoo and textiles.
Prerequisite: 15 points at Stage I in Art History and 30 points passed, or 30 points in Transnational Cultures and Creative Practice
Restriction: ARTHIST 319, 333
ARTHIST 235 15 Points
Contemporary Art in Aotearoa NZ
Focuses on contemporary art in Aotearoa New Zealand from the 1970s to the present, beginning with the later modernist period, exploring the innovations and contributions of Māori and Pākehā artists, and charting its influences and evolution into post-object, and contemporary practices. The development of Pacific art as well as practices that engage with feminism and gender are also a focus.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 103, 335

ARTHIST 236 15 Points
Artists and Patrons in Renaissance Italy
A journey into the motivations and inspirations behind the production of art in Renaissance Italy, this course examines the social, economic, religious and political relationships between patrons, artists and artworks c.1400-c.1520 in a variety of civic, religious, familial, artistic and spatial contexts. It ranges from Florence to Milan, the Medicis to the Sforzas, Duccio to Donatello, Leonardo to Michelangelo.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 336

ARTHIST 238 15 Points
Māori Art History: Mana Taonga
Considers Māori visual art from arrival from the Pacific to the present day. Examines how artists critically negotiated current notions of identity in their work. Forms including moko, carving, weaving, architecture, film and contemporary art are explored through key ideas such as gender politics, patronage, and repatriation. Artists examined include Raharuhu Rukupo, Te Kooti, Pine Taiapa, Lisa Reihana and Ralph Hotere.
Prerequisite: 15 points at Stage I in Art History and 30 points passed, or 45 points in BGlobalSt courses
Restriction: ARTHIST 102, 338

ARTHIST 245 15 Points
The Art of Majesty: Tudors and Stuarts
Examines the role of art, architecture and material goods in communicating magnificence and legitimising political power in Tudor and Stuart England. Coverage includes Henry VIII, Elizabeth I, Anne of Denmark and Charles I and artists and architects such as Hans Holbein, Marcus Gheeraerts, Anthony van Dyck and Inigo Jones.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 345

ARTHIST 246 15 Points
Global History of Photography
Overview of photography’s global history, beginning with proto-photographic forms and ending with a consideration of digital technology and social media. Art photography is examined alongside journalistic, scientific and ethnographic paradigms of photographic practice. Conceptual issues such as socio-cultural power relationships and diverse representations of time lie at the heart of this course.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 346

ARTHIST 247 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Art History and 30 points passed

ARTHIST 248 15 Points
Special Topic: Who am I?: Photography and the Construction of Identity
Considers the camera’s involvement in the construction of identity in global photography and in Aotearoa New Zealand from the 1960s to the present. Explores photography’s role in representing selfhood at a time when human identities and experiences are increasingly produced and manipulated through the camera’s lens, and distributed via the Internet.
Prerequisite: 15 points passed at Stage I in the BA
Restriction: ARTHIST 348

Stage III

ARTHIST 300 15 Points
Radical Change: 1850-1940
Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 200, 222, 322

ARTHIST 310 15 Points
Modernism and Design
A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 210

ARTHIST 317 15 Points
Contemporary Pacific Art
Focuses on work by contemporary Pacific artists, exploring the ways that they translate indigenous knowledge and urban experiences into gallery forms such as painting, installation, performance, film and video making. Themes such as migration and diaspora, language and memory, notions of homelands and return, and the creation of complex cultural identities will be explored.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 217

ARTHIST 321 15 Points
Art and Revolution 1750-1850
Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericault and Delacroix.
Prerequisite: HISTORY 294 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 201

ARTHIST 324 15 Points
Power and Piety: The Baroque
The use of art to display, enhance, and justify political power and piety and to promote political and religious ideologies in the major power centres of seventeenth-century Europe in the Baroque period. Refers to the work
of artists such as Caravaggio, Bernini, Velasquez, Rubens, Rembrandt, Van Dyck, Le Brun, Jones and Wren.

Prerequisite: HISTORY 243 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 224, 306

ARTHIST 325 15 Points
Imaging the Renaissance
An examination of the society and culture of Europe between 1400 and 1700 as expressed in print and visual images. Topics include court and merchant culture, popular cultures, religious faith and the Reformation, festivals, literacy and the book, family and marriage, food, sexualities, witchcraft, death and disease.
Prerequisite: 15 points at Stage II in Art History or History and 60 points passed
Restriction: ARTHIST 225

ARTHIST 331 15 Points
Framing the Viewer: 20th Century Art
The rise of Modernism saw the development of art which is reflexive, which draws attention to itself and the illusion of representation, making us reflect about what art is and how it affects the viewer. This course is designed to enable students to develop their own reflexivity and critical awareness through a study of the ‘classic’ movements of the twentieth century, such as Cubism, Expressionism, Dada, Surrealism, Abstract Expressionism, Op, Pop and Conceptual Art.
Prerequisite: 15 points at Stage I in Art History and 15 points from ENGLISH 206, FRENCH 244, HISTORY 241, PHIL 212, or 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 231

ARTHIST 332 15 Points
Art Crime
Explores the growing trend of art crime through a focus on five primary areas: theft, fraud, smuggling, forgery, and vandalism. These will be examined within the context of international and New Zealand case studies, including the theft of the Mona Lisa in 1911, Nazi looting in World War II, and thefts during the Iraq War in 2003. Ways to curb such crime, particularly the development of art crime squads, will also be discussed.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 230

ARTHIST 333 15 Points
The Art of Gender Politics
Explores the intersection of gender and ethnicity with the visual arts. Emphasis will be on art forms and traditions in Aotearoa/New Zealand, the United States, Canada and Australia, with some reference to the Pacific, including photography, film, jewellery, tattoo and textiles.
Prerequisite: GENDER 208 and 15 points at Stage I in Art History, or 15 points at Stage II in Art History and 60 points passed, or 30 points in Transnational Cultures and Creative Practice
Restriction: ARTHIST 233, 319

ARTHIST 334 15 Points
Ways of Seeing Contemporary Art
Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic.
Prerequisite: Any 30 points from Art History, History, Media and Screen Studies, or Philosophy
Restriction: ARTHIST 204

ARTHIST 335 15 Points
Contemporary Art in Aotearoa NZ
Focuses on contemporary art in Aotearoa New Zealand from the 1970s to the present, beginning with the later modernist period, exploring the innovations and contributions of Māori and Pākehā artists, and charting its influences and evolution into post-object, and contemporary practices. The development of Pacific art as well as practices that engage with feminism and gender are also a focus.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 103, 235

ARTHIST 336 15 Points
Artists and Patrons in Renaissance Italy
A journey into the motivations and inspirations behind the production of art in Renaissance Italy, this course examines the social, economic, religious and political relationships between patrons, artists and artworks c.1400-c.1520 in a variety of civic, religious, familial, artistic and spatial contexts. It ranges from Florence to Milan, the Medicis to the Sforzas, Duccio to Donatello, Leonardo to Michelangelo.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 236

ARTHIST 338 15 Points
Māori Art History: Mana Taonga
Considers Māori visual art from arrival from the Pacific to the present day. Examines how artists critically negotiated current notions of identity in their work. Forms including moko, carving, weaving, architecture, film and contemporary art are explored through key ideas such as gender politics, patronage, and repatriation. Artists examined include Raharuhi Rukupo, Te Kooti, Pine Taiapa, Lisa Reihana and Ralph Hotere.
Prerequisite: At least 15 points from ANTHRO 207, HISTORY 252 and 15 points at Stage I in Art History or 15 points at Stage II in Art History and 60 points passed, or 30 points at Stage II in BGlobalSt courses
Restriction: ARTHIST 102, 238

ARTHIST 345 15 Points
The Art of Majesty: Tudors and Stuarts
Examines the role of art, architecture and material goods in communicating magnificence and legitimising political power in Tudor and Stuart England. Coverage includes Henry VIII, Elizabeth I, Anne of Denmark and Charles I and artists and architects such as Hans Holbein, Marcus Gheeraerts, Anthony van Dyck and Inigo Jones.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 245

ARTHIST 346 15 Points
Global History of Photography
Overview of photography’s global history, beginning with proto-photographic forms and ending with a consideration of digital technology and social media. Art photography is examined alongside journalistic, scientific and ethnographic paradigms of photographic practice. Conceptual issues
such as socio-cultural power relationships and diverse representations of time lie at the heart of this course.

**Prerequisite:** 15 points at Stage II in Art History and 60 points passed

**Restriction:** ARTHIST 246

**ARTHIST 348**
**Special Topic:** Who am I?: Photography and the Construction of Identity

Considers the camera’s involvement in the construction of identity in global photography and in Aotearoa New Zealand from the 1960s to the present. Explores photography’s role in representing selfhood at a time when human identities and experiences are increasingly produced and manipulated through the camera’s lens, and distributed via the Internet.

**Prerequisite:** 15 points passed at Stage II in the BA

**Restriction:** ARTHIST 248

**ARTHIST 349**
**Special Topic**

**ARTHIST 700B**
**15 Points**

**Participation, Collaboration, and Photography**

Explores a range of increasingly prevalent artistic practice grounded in artistic collaboration and audience participation that are typically mediated though photographic documentation. Considering work by artists such as Thomas Hirschhorn, Tania Bruguera, and Sophie Calle, this course covers topics such as relational aesthetics, site-specificity and pedagogical interventions into public space.

To complete this course students must enrol in ARTHIST 700 A and B, or ARTHIST 700

**ARTHIST 701**
**30 Points**

**ARTHIST 701A**
**15 Points**

**ARTHIST 701B**
**15 Points**

**Art for the City and the Court**

Examines the production, patronage and display of art and its function within the political, religious and social frameworks of the early modern court and the city. It focuses on Amsterdam and The Hague in the Dutch Republic and London as the epicentre of the Stuart court. The full panoply of visual and material culture are discussed including painting, sculpture, tapestries, clothing, jewellery and interior decoration.

To complete this course students must enrol in ARTHIST 701 A and B, or ARTHIST 701

**ARTHIST 703A**
**15 Points**

**ARTHIST 703B**
**15 Points**

**Cross-cultural Encounters and Creativity**

Explores cross-cultural interactions through images and objects in all visual media from the eighteenth to the twenty-first century in New Zealand, the Pacific, Australia, the Middle East, the Americas, China, Japan and India. The course focuses on meanings and uses of visual arts in different socio-cultural contexts, as well as travel, migration and displacement.

**Restriction:** ARTHIST 733

**Public Art: Politics and Process**

Examines the politics and process around modern and contemporary public art and monuments, predominantly sculpture. Topics include: the challenges of public space, patronage, issues of nationalism and cultural identity, memorialisation (e.g., war and Holocaust memorials), and the urban environment. Issues and controversies around international case studies and local practice are studied in relation to work in Europe, North America, and Australasia.

**Restriction:** ARTHIST 717, 719

To complete this course students must enrol in ARTHIST 706 A and B, or ARTHIST 706

**ARTHIST 715**
**15 Points**

**Special Topic**

**ARTHIST 719**
**15 Points**

**Public Art: Issues and Controversy**

A study of the politics and function of public art and monuments, predominantly sculpture. Topics include: the challenges of public space, issues of nationalism and cultural identity, memorialisation (for example war and Holocaust memorials), patronage and the urban environment, controversial works, and local practice in relation to international case studies. Public art in Europe, North America and Australia is examined.

**Restriction:** ARTHIST 706

**ARTHIST 725**
**30 Points**

**ARTHIST 725A**
**15 Points**

**ARTHIST 725B**
**15 Points**

**Concepts in Contemporary Art**

Examines the cross-fertilisation of theory and praxis, philosophy and art, materialism and idealism in the arts. It will be taught in four thematic units – Body/Mind; Representation/Experience; Self/Other and Materialism/Conceptualism – testing how visual theory bridges the gap between these dual terms. Students will learn to apply a number of important critical theories to their understanding of art, and importantly, to fine-tune those theories through visual experience.

**Restriction:** ARTHIST 724, 729

To complete this course students must enrol in ARTHIST 725 A and B, or ARTHIST 725

**ARTHIST 726**
**15 Points**

**Special Study**

Directed study on a topic or topics approved by the Academic Head.
ARTHIST 727 15 Points
**Art in Context: Study Abroad**
Highlights the importance of studying original artworks in context. Contexts for artworks include the original setting, such as a palace, monastery, or town hall, to wider examinations of the socio-historical situations in which they were created. In addition, new museological contexts for artworks offer insight into the display and interpretation of visual culture.

ARTHIST 729B 15 Points
**Exploring Pacific Art**
Focuses on a range of Māori and Pacific art forms. Themes dealt with include indigenous and migrant voices, memory and notions of belonging, popular culture and its interface with gallery practices, and stereotypes and representation. These topics will be discussed alongside relevant Māori and Pacific writers and theorists, including Ngahuia Te Awekotuku, Albert Wendt and Epeli Hau'ofa.
*Restriction: ARTHIST 732, 736*
To complete this course students must enrol in ARTHIST 730 A and B, or ARTHIST 730

ARTHIST 731 15 Points
**Sites of Resistance**
Focuses on issues and implications of colonialism and its role in relation to the creation and expression of cultural identities. Classes revolve around close discussions of key readings and their implications in relation to contemporary art practice. There will be particular emphasis on the mediums of film, video, photography, multimedia and performance. Topics include border art, gender issues and counter-curating.
*Restriction: ARTHIST 712*

ARTHIST 732 15 Points
**Topics in Pacific Art and Visual Culture**
Focuses on a range of Pacific art forms and aspects of visual culture. Topics include indigenous and migrant voices, memory and notions of belonging, popular culture and its interface with gallery practice and stereotypes and representation. A range of art works and issues are discussed alongside relevant Pacific writers and theorists, including Ngahuia Te Awekotuku, Albert Wendt and Epeli Hau'ofa.

### Stage I

#### CAREER 100

**Crafting your Career**

What is employability? The world of work is changing rapidly. Crafting your Career uses project-based, collaborative, problem-solving exercises to assist students in readying themselves for life after the degree. The course aims to build students’ work-readiness by enhancing their understanding of a variety of workplaces, while developing the skills employers regard as essential to career success.

*Prerequisite: 60 points passed*

*Restriction: ARTSGEN 102, POPLHLTH 300, 302*

### Chinese

#### Stage I

**CHINESE 100** 15 Points  
**CHINESE 100G** 15 Points

**Beginning Modern Chinese 1**  
Introduces students to modern Standard Chinese (Mandarin, Putonghua) through exercises and activities to develop speaking, listening, reading and writing skills. Also introduces the social and cultural background of the language.  
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 101** 15 Points  
**Beginning Modern Chinese 2**  
Continues to develop students’ Chinese proficiency in speaking, listening, reading, writing skills and cultural literacy.  
Prerequisite: CHINESE 100  
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 130** 15 Points  
**Rethinking China**  
An introduction to the artistic, literary, historical and philosophical heritage of China, allowing students to engage with stimulating texts from historical times to the modern period. Taught in English.

**CHINESE 178** 15 Points  
**Chinese Study Abroad 1**  
Formal language study in an approved overseas institution where instruction is in Mandarin Chinese. May not be taken if a more advanced language acquisition course in this subject has previously been passed.  
Prerequisite: Approval of Academic Head or nominee

#### Stage II

**CHINESE 200** 15 Points  
**Intermediate Modern Chinese 1**  
Further develops students’ listening, speaking, reading and writing proficiency. Students who successfully complete the course will be familiar with most of the topics related to everyday life and can communicate in a limited range of contexts.  
Prerequisite: CHINESE 101  
Restriction: CHINESE 202. May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 201** 15 Points  
**Intermediate Modern Chinese 2**  
Further develops students’ listening, speaking, reading and writing skills and introduces the formal register of the language. By the end of the course students can handle daily situations with increasing accuracy.  
Prerequisite: CHINESE 200  
Restriction: CHINESE 202. May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 202** 15 Points  
**Chinese for Heritage Speakers**  
Designed for students who have lived in a Mandarin-speaking environment, but who have limited ability to read and write in Mandarin. This course covers the basic vocabulary and grammatical structures of Modern Standard Chinese with a focus on reading and writing skills.  
Prerequisite: Approval of Academic Head or nominee  
Restriction: CHINESE 100, 101, 110, 200, 201. May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 203** 15 Points  
**China on Screen**  
The transformation of China’s contemporary cultures and communities can be charted through film. This course uses films from the 1930s until this century to examine the development and contestation of the Chinese nation. Several films will be compared with their literary originals in translation.  
Prerequisite: 15 points from ASIAN 100, CHINESE 130, COMMS 100, JAPANESE 150, KOREAN 120, MEDIA 101, 102 and 30 points passed  
Restriction: CHINESE 303

**CHINESE 213** 15 Points  
**Special Topic**  
Prerequisite: CHINESE 101 or 110 or 130

**CHINESE 277** 15 Points  
**Chinese Study Abroad 2A**  
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.  
Prerequisite: Approval of Academic Head or nominee

**CHINESE 278** 15 Points  
**Chinese Study Abroad 2B**  
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.  
Prerequisite: Approval of Academic Head or nominee

#### Stage III

**CHINESE 300** 15 Points  
**Advanced Modern Chinese 1**  
Further develops students’ listening, speaking, reading and writing skills through exploring Chinese culture and society. Builds on previous study of Chinese with an emphasis on developing independent skills to operate confidently in a Chinese-speaking environment.  
Prerequisite: CHINESE 201  
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 301** 15 Points  
**Advanced Modern Chinese 2**  
Builds on the knowledge gained from prior Chinese study and helps develop independent and confident skills as a proficient user of Chinese. Texts covering various aspects of Chinese society, culture and literature will be read to strengthen knowledge of Chinese grammar and vocabulary, develop skills in both written and spoken Chinese, and provide a deeper understanding of contemporary Chinese culture.  
Prerequisite: CHINESE 300  
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

**CHINESE 302** 15 Points  
**Advanced Chinese Reading and Writing**  
Designed for students studying Chinese language at an
advanced level, this course focuses on strengthening reading and writing skills.  
Prerequisite: CHINESE 202 or 301 or approval by Academic Head or nominee

CHINESE 203  15 Points
China on Screen
The transformation of China's contemporary cultures and communities can be charted through film. This course uses films from the 1930s until this century to examine the development and contestation of the Chinese nation. Several films will be compared with their literary originals in translation.  
Prerequisite: 30 points at Stage II in Asian Studies or Media, Film and Television, or CHINESE 130 and 15 points at Stage II in Asian Studies  
Restriction: CHINESE 203

CHINESE 306  15 Points
Chinese Translation
Develops students' competence in translating between Chinese and English in a variety of subject areas, such as trade, tourism, law, literature, or finance, and in different text types. You will learn skills that will help you critically analyse and accurately translate more complex documents, preserving the essence and integrity of the text that require subject knowledge and in-depth research.  
Prerequisite: CHINESE 301 or equivalent proficiency  
Restriction: TRANSLAT 300, 716

CHINESE 313  15 Points
Special Topic
Prerequisite: 30 points at Stage II in Chinese

CHINESE 319  15 Points
Chinese Linguistics
Examining the key Chinese linguistic concepts relevant to the learning and teaching of Chinese as a foreign language, including but not limited to phonetics, phonology, morphology, syntax, writing systems, Chinese dialects and sociolinguistics.  
Prerequisite: CHINESE 201 or approval by Academic Head or nominee

CHINESE 377  15 Points
Chinese Study Abroad 3A
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.  
Prerequisite: Approval of Academic Head or nominee

CHINESE 378  15 Points
Chinese Study Abroad 3B
Formal study in Chinese in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.  
Prerequisite: CHINESE 377 and approval of Academic Head or nominee

Postgraduate 700 Level Courses

CHINESE 724  30 Points
Chinese Film and Popular Culture
Chinese feature films and other popular cultural phenomena (e.g., music, television, fashion, the internet) provide a medium for understanding a society undergoing rapid change. The emphasis is on contemporary developments, including youth cultures and Beijing from the 1960s to the present day. No knowledge of Chinese language required.

CHINESE 729A  15 Points
CHINESE 729B  15 Points
Special Topic
To complete this course students must enrol in CHINESE 729 A and B

CHINESE 730  15 Points
CHINESE 730A  7.5 Points
CHINESE 730B  7.5 Points
Directed Study
To complete this course students must enrol in CHINESE 730 A and B, or CHINESE 730

CHINESE 731  45 Points
Research Essay - Level 9

CHINESE 732  30 Points
Directed Study

CHINESE 737  15 Points
Research Essay - Level 9

CHINESE 739  15 Points
Educational Linguistics in Chinese
Systemically reviews the Chinese language system and key educational linguistic concepts for teaching and learning Chinese as a Second Language. The course will help students gain a solid understanding of the characteristics and development of the Chinese language, including but not limited to Chinese phonetics, dialects, characters, morphemes and words, lexical changes, sentence structures, stylistic issues and genres.  
Prerequisite: CHINESE 301 or equivalent  
Restriction: CHINESE 707

CHINESE 740  15 Points
Chinese Teaching Pedagogy
Critically investigates the pedagogical-content knowledge for teaching Chinese to speakers of other languages. Designed for students to develop practical pedagogical approaches to teach the following five content areas: pronunciation, characters, grammar, discourse and culture. Students will have opportunities to explore different strategies for engaging learners in Chinese language classrooms in schools, universities and the community.  
Prerequisite: CHINESE 301 or equivalent  
Restriction: CHINESE 708

CHINESE 741  15 Points
Acquisition of Chinese
Critically examines the most recent research on, and good practice in, the complex process of acquiring Chinese as a second language. Covers topics related to the relationship between Chinese and students' first language; individual students' different learning beliefs, motivation and autonomy; bilingualism; and the development of needs analyses for young and adult learners of Chinese.  
Restriction: CHINESE 709

CHINESE 742  15 Points
Professional Learning for Chinese Teachers
Explores advanced theories and practices relevant to teaching the Chinese language in different social and educational contexts. Focused on developing advanced intercultural competence and professional skills. Students will develop and apply new skills and techniques based on research and practice at the cutting-edge of the field.  
Prerequisite: Must have attained a proficiency level in Chinese of at least HSK level 5 or its equivalent  
Restriction: CHINESE 710

| ANCENT 210 | 15 Points |
| Egyptian Language 1A |  |
| A study of the Egyptian language, hieroglyphic writing and selected documents up to Dynasty 18. |  |
| Prerequisite: 15 points at Stage I in Ancient History, Classical Studies or Classical Studies and Ancient History and 30 points passed |  |
| Restriction: ANCHIST 210 |  |

| ANCENT 221 | 15 Points |
| Ancient Greek Language 1 |  |
| An introduction to the study and use of the Ancient Greek language. |  |
| Prerequisite: 15 points at Stage I in Ancient History, Classical Studies or Classical Studies and Ancient History and 30 points passed |  |
| Restriction: ANCENT 221, 311, 321, GREEK 100-310 |  |
ANCIENT 214  15 Points
Special Topic: Ancient Barbarians and Others
Examines the history of the idea of the barbarian in the ancient world, case-studies of late Roman barbarian kingdoms such as the Vandals and Goths, and modern receptions of ancient ideas about barbarians and barbarity from the nineteenth century to the present.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 314, HISTORY 254, 354

ANCIENT 215  15 Points
Special Topic: Hellenistic Society
Examines the Hellenistic Period from Alexander the Great to Cleopatra VII as an era of cultural contact and exchange. Considers the narrative of this dynamic period. Develops understanding of the intersection of Greek, Egyptian, Achaemenid, Near Eastern, and Roman traditions in the vast regions ruled by Alexander's successors through the lenses of structures, places, ideas, and anxieties.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 315

ANCIENT 216  15 Points
Sex and Power in Greece and Rome
Many Greek and Roman literary works and historical sources deal with sex and power. This course will explore a range of ancient literary representations of women, men, femininity, masculinity, sexual practices and sexual prejudices. Students will study how ancient authors were influenced by the socio-political context and the constraints of different literary genres. All texts will be read in translation.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Gender Studies, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 316, CLASSICS 216, 316

ANCIENT 217  15 Points
Special Topic
Prerequisite: 15 points at Stage I in Classical Studies and Ancient History, and 30 points passed
Restriction: ANCIENT 317

ANCIENT 220  15 Points
Egyptian Language 1B
Further study of the Egyptian language, hieroglyphic writing and selected documents up to Dynasty 18.
Prerequisite: ANCHIST 210 or ANCIENT 210
Restriction: ANCHIST 220

ANCIENT 221  15 Points
Ancient Greek Language 2
Builds on skills and approaches to the Ancient Greek language developed in ANCIENT 211.
Prerequisite: ANCIENT 211 or GREEK 100
Restriction: ANCIENT 311, 321, GREEK 100-310

ANCIENT 225  15 Points
Greek and Roman Comedy
A study of the comedies of Aristophanes and Menander, Plautus and Terence.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 325, CLASSICS 220, 320

ANCIENT 251  15 Points
Ancient Egyptian Art: Icon and Narrative
A chronological study of the art and architecture of ancient Egypt, from the predynastic period to the end of the New Kingdom, examining trends and styles in all forms of ancient art in Egypt.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History or Art History, and 30 points passed
Restriction: ANCHIST 251, 351, ANCIENT 351

ANCIENT 252  15 Points
Egyptian Religion
A study of ancient Egyptian religion from the Early Dynastic period through to the end of the Late Period. The course will examine religious practice as well as religious thought, and will consider the patterns of belief throughout the ancient period of Egypt's history.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 252, 352, ANCIENT 352

ANCIENT 253  15 Points
Early Egypt
Covers the earliest periods of Egypt's development from the prehistoric period to the end of the Old Kingdom. This course focuses on the lead-up to state formation and the great Pyramid Age that followed.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 253, 353, ANCIENT 353

ANCIENT 254  15 Points
Early Rome
A study of the earliest development of ancient Rome using written sources but with special emphasis on archaeological evidence.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 254, 354, ANCIENT 354

ANCIENT 255  15 Points
The Later Roman Empire
A study of the Roman empire between the third and sixth centuries CE. Topics covered include the social, economic and political crises of the period, encounters and struggles between Romans and barbarians, the conflict between Paganism and Christianity, and the emergence of the barbarian kingdoms in the West and the Byzantine empire in the East.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 255, 355, ANCIENT 355

ANCIENT 256  15 Points
The Ancient World at War
Provides an in-depth analysis of the role of the military in ancient Egypt, Greece and Rome. The physical evidence of warfare as well as chronological development of warfare within each society will be discussed. An additional theme will be the interweaving of the social and cultural impact of warfare and the army upon these civilisations.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 256, 356, ANCIENT 356
**ANCIENT 260**  
**Roman Revolutions**  
Covers the history, politics, society and culture of Rome during the late Republic and early imperial periods. Topics include the army, religion, family, sexuality, literature, art and the life of the provinces, set against the dramatic breakdown of old systems of government and their replacement with a new model of rule.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed  
**Restriction:** ANCIST 203, 213, 260, 360, ANCIENT 360

**ANCIENT 280**  
**Art and Society in Ancient Rome**  
A study of the art and architecture of the ancient Romans. Emphasis will be placed on the role of the visual arts as vehicles for the expression of social values and political and imperial ideas.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Art History, or GREEK 101 or LATIN 101, and 30 points passed  
**Restriction:** ANCIENT 380, CLASSICS 280, 380

**ANCIENT 285**  
**Classical Tragedy**  
Tragedy as a concept, a means of interpreting events, and a literary genre, is central to the ancient Greeks' way of constructing their world. Through a close reading of a selection of ancient dramas, this course will explore the nature and interpretation of tragedy with particular reference to Aristotle's Poetics.  
**Prerequisite:** 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Drama, or GREEK 101 or LATIN 101, and 30 points passed  
**Restriction:** ANCIENT 385, CLASSICS 285, 385

**Stage III**

**ANCIENT 300**  
**Greek and Roman Epic Poetry**  
A study of the beginnings of European epic poetry especially in Homer and Virgil.  
**Prerequisite:** 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin  
**Restriction:** ANCIENT 200, CLASSICS 210, 310

**ANCIENT 304**  
**Directed Study**  
Prerequisite: 15 points at Stage II in Ancient History, Classical Studies or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin

**ANCIENT 310**  
**Egyptian Language 2A**  
This course carries on from ANCIENT 220, with reading extended historical, narrative, and religious texts.  
**Prerequisite:** ANCIST 220 or ANCIENT 220  
**Restriction:** ANCIST 310, 340

**ANCIENT 311**  
**Ancient Greek Language: Intermediate**  
The analysis and description of Ancient Greek grammar, practice in the translation of Ancient Greek to and from English, vocabulary acquisition.  
**Prerequisite:** ANCIENT 221 or GREEK 101  
**Restriction:** ANCIENT 321, GREEK 200-310

**ANCIENT 314**  
**Special Topic: Ancient Barbarians and Others**  
Examines the history of the idea of the barbarian in the ancient world, case-studies of late Roman barbarian kingdoms such as the Vandals and Goths, and modern receptions of ancient ideas about barbarians and barbarity from the nineteenth century to the present.  
**Prerequisite:** 15 points at Stage II in Classical Studies, Ancient History or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin  
**Restriction:** ANCIENT 214, HISTORY 254, 354

**ANCIENT 315**  
**Special Topic: Hellenistic Society**  
Examines the Hellenistic Period from Alexander the Great to Cleopatra VII as an era of cultural contact and exchange. Considers the narrative of this dynamic period. Develops understanding of the intersection of Greek, Egyptian, Achaemenid, Near Eastern, and Roman traditions in the vast regions ruled by Alexander's successors through the lenses of structures, places, ideas, and anxieties.

Course Prescriptions

Communication

Stage I

COMMS 100 15 Points
Communication, Technology and Culture
Explores the past, present and future of communication media. Examines communication media within their social context, and provides a particular focus on the interplay between technology and culture. Key concepts in the study of communication are introduced and various communication media are studied via specific case studies, with particular emphasis placed on new digital platforms including social and mobile media as well as older forms such as television and cinema.

COMMS 101 15 Points
Understanding Communication in Māori and Pacific Worlds
Introduces principles and practices of communication relevant to the unique cultural landscape of Aotearoa. Students will explore communication in the context of te ao Māori and Pacific cultures, ethical issues related to bicultural communication, and the significance of Te Tiriti o Waitangi for communication practitioners.

COMMS 102 15 Points
Communication and Social Change
Examines how public communication shapes and is shaped by broader changes in society. Explores the evolution of language, media narratives and public understanding over time in relation to social issues such as: the representation of marginalised groups in society; environmental challenges; the changing nature of Aotearoa New Zealand society; and global societal trends.

COMMS 104 15 Points
Digital Communication and Practice
Offers a practical and creative approach to digital communication within the critical context of platform studies. Students will navigate the capacities, affordances and limitations of a variety of digital platforms by developing the skills to create platform-specific outputs, such as podcasts, gifs, vlogs, mobile films and digital storytelling shorts.

Stage II

COMMS 200 15 Points
Writing in the Workplace
Addresses written communication in the workplace across a range of discourses, environments, strategies and audiences. Focusing on different kinds of writing used in contexts such as government, community organisations, consultancy, professions, NGOs and private business, students will analyse and produce key workplace text-types within a critical framework of workplace analysis and scholarship on labour and organisations.

COMMS 201 15 Points
Journalism Studies
Explores journalism and the news media, examining their histories and contemporary state. Students gain knowledge about how the news media influences culture and society and will examine how recent social, political, and technological shifts have impacted on journalism. This course is primarily theoretical but has a practical component that involves news writing.

COMMS 202 15 Points
Audiences and Users
Examines the ways that audiences have been conceived, addressed, measured and empowered in the context of the history and technologies of communication media. Theories
of reception to be studied include uses and gratifications models, consumer behaviourism, passive versus active audiences, the rise of the 'prosumer', modes of engagement and fan discourses. Students will also learn about audience research methods.

**Prerequisite:** 60 points at Stage I in BA courses

**COMMS 203:** 15 Points

**Television Journalism**

A practical course where students explore the production of current affairs journalism. Students learn to write, video, present and edit short news items in the field and integrate these into a multi-camera production recorded as live in the television studio. Studio skills include directing, production management, multi-cam scripting, vision switching, presenting and interviewing within a framework of current industry practice.

**Prerequisite:** 60 points at Stage I in BA courses

**COMMS 205:** 15 Points

**Writing: Concept and Craft**

An exploration of written communication which connects writing as an object of analysis and critique to writing as a multi-faceted craft. Since writing systems, materials and tools create the worlds we live in, the course conceptualises the relation between world and word, image and text, technology and body, and addresses cultural, critical and digital literacies that organise lived experience.

**Prerequisite:** 60 points at Stage I in BA courses

**Restriction:** ENGLISH 105, 257, 363

**COMMS 206:** 15 Points

**Special Topic: Persuasion and Power**

**Prerequisite:** 60 points at Stage I in BA courses

**COMMS 207:** 15 Points

**Communication Research Methods**

Introduces students to a variety of research methods in communication studies. Students learn about the foundations of, and approaches to qualitative and quantitative methods and acquire an array of techniques to collect data, such as individual and focus group interviews, participant observation, and surveys, as well as different forms of data analysis.

**Prerequisite:** 60 points at Stage I in BA courses

**COMMS 208:** 15 Points

**Digital Communication Ethics**

Addresses applied ethical issues arising in digital journalism, social media, “big data” surveillance and privacy, algorithmic bias, and software design. As digital media expand beyond the personal computer, there is an increase of ethical issues pertaining to mobile devices, GPS navigation, biometric modelling, artificial intelligence, and the ever-expanding range of wired devices tracking us through the so-called 'internet of things'.

**Prerequisite:** 60 points passed

**COMMS 209:** 15 Points

**Special Topic**

**Prerequisite:** 60 points at Stage I in BA courses

**COMMS 210:** 15 Points

**Practicing Communication in Māori and Pacific Worlds**

Builds on COMMS 101 to develop students' cultural competencies and understanding of tikanga Māori and Pacific cultures. Particular emphasis is given to the concept of whakawhanaungatanga and protocols surrounding engagement, consultation and partnership with Māori and Pacific communities.

**Prerequisite:** COMMS 101 and 45 points at Stage I in BA or BC courses

**COMMS 212:** 15 Points

**Narratives of Social Change**

Investigates how the presentation of information shapes public attitudes and behaviours. Explores how public communication via news, social media and public awareness campaigns influence public understanding, engagement and behaviour. Key ideas explored in this course include: discourse; framing; rhetoric; and the interplay of words, images and sounds in multimodal communication.

**Prerequisite:** COMMS 102 and 45 points at Stage I in BA or BC courses

**COMMS 213:** 15 Points

**Communication and Persuasion**

Explores theories and practices of persuasive communication. Students will develop competencies through practical exercises and case study investigations. The course will also emphasise the ethics of persuasive communication, exploring themes such as the difference between persuasion and manipulation, and the relationship between persuasion and power.

**Prerequisite:** 60 points at Stage I in BA or BC courses

**COMMS 214:** 15 Points

**Communication and Inclusive Leadership**

Explores principles and practices of inclusive leadership and communication in the context of diverse organisations. The course investigates key causes and consequences of inequalities and barriers to inclusion within organisations, including overt and covert biases and forms of discrimination based on gender, ethnicity and disabilities. It also explores leadership strategies and best practices for building and sustaining inclusive organisations.

**Prerequisite:** 60 points at Stage I in BA or BC courses

**Stage III**

**COMMS 303:** 15 Points

**Sports Media**

Examines the relationship between sport and the media. Topics include sports journalism; industry practice; the mediated game event; online communities of fandom; commentary; issues of race and gender; and sports law. Students may have the opportunity to experience televised studio production at the University's television studio.

**Prerequisite:** 15 points from COMMS 200-208 and 15 points in BA courses

**COMMS 304:** 15 Points

**Gender, Politics and the Media**

Addresses the theory, practice and representation of politics in the media from a gendered perspective. Analyses the relationship between the media and women and men in the public sphere.

**Prerequisite:** 15 points from COMMS 200-208, GENDER 208, and 15 points in BA courses

**COMMS 306:** 15 Points

**Special Topic**

**Prerequisite:** 15 points from COMMS 200-208 and 15 points in BA courses

**COMMS 307:** 15 Points

**Communication Internship**

Provides experiential learning opportunities in media,
public relations, advertising, and corporate communication industries. 
Prerequisite: Approval of Academic Head or nominee
Restriction: ARTSGEN 301, CAREER 300

COMMS 308 15 Points
Special Topic
Prerequisite: 60 points at Stage I in BA courses

COMMS 310 15 Points
Special Topic
Prerequisite: 60 points at Stage I in BA courses

COMMS 311 15 Points
Problems and Issues in Contemporary Communication
A seminar exploring a major theme or issue in contemporary communication to be determined by the convenor.
Prerequisite: 60 points at Stage II in BA or BC courses

COMMS 312 15 Points
Documentary and Social Change
Investigates the close alignment between documentary film and social and political transformation. The course will explore documentaries associated with political movements from anti-fascism to LGBTI issues. Students will produce a ‘mini-documentary’ as part of their coursework.
Prerequisite: COMMS 306

COMMS 313 15 Points
Principles and Practices of Social Communication
Develops students’ skills in communicating effectively and ethically to promote positive social change. Students will produce communication relating to real-world social issues, where possible in partnership with an external organisation working to promote social change. The course also looks at processes for carrying out stakeholder consultation and audience testing.
Prerequisite: COMMS 212 and 45 points at Stage II in BA or BC courses

COMMS 314 15 Points
Risk, Crisis and Disaster Communication
Explores how governmental and non-governmental organisations communicate in the context of social risks such as environmental hazards and public health emergencies. The course also investigates communication in the wake of disasters. Concepts explored in the course include: mis- and disinformation; public engagement and risk perceptions; framings and narratives of disaster and risk.
Prerequisite: 60 points passed at Stage II

COMMS 315 15 Points
Environmental Communication
Investigates how environmental challenges and policies are communicated in contemporary society. Particular emphasis is given to the relationship between science communication and popular media narratives.
Prerequisite: 60 points passed at Stage II

COMMS 316 15 Points
Decolonising Technology and Data
Explores Indigenous perspectives on technology and data. Policy, activism and design are explored in relation to decolonisation, equity and rangatiratanga (sovereignty).
Prerequisite: 60 points passed at Stage II

COMMS 317 15 Points
Design for Equity, Accessibility and Justice
Examines principles and practices of inclusive technology design. Considers how technologies can be designed to empower rather than disadvantage members of socially marginalised communities.
Prerequisite: COMMS 208 and 45 points passed at Stage II

COMMS 318 15 Points
Technology Futures
Considers the place of digital technologies in diverse and contested visions of the future, from Silicon Valley futurism to surveillance dystopias, and from ecological critiques of high-technology to projects for building a digital commons.
Prerequisite: 60 points passed at Stage II
Restriction: COMMS 300

COMMS 319 15 Points
Communication Strategies in the Workplace
Addresses principles and best practices for effective communication within workplaces and organisations. Focuses on students’ skills in key areas including: professionalism in communication; listening skills; conflict resolution; and negotiation skills. Particular emphasis is given to the skills required for developing coherent and consistent communication strategies.
Prerequisite: COMMS 214 and 45 points passed at Stage II

COMMS 320 15 Points
Communication Project
Students complete a practical or academic project, involving individual or group-based work.
Prerequisite: 60 points at Stage II in BC courses

COMMS 321 15 Points
News and Journalism in the Digital Age
Examines the changing nature of news and journalism in the digital age. Themes covered include: news values and news cycles; journalistic principles and practices; the interface between journalism and news sources, including public relations industries; journalism’s ‘fourth estate’ role and the evolving relationship between news and public opinion in the digital age; and the political economy of contemporary journalism.
Prerequisite: 60 points passed at Stage II

COMMS 322 15 Points
Designing Visual Communication
Examines the core principles and skills for effective visual communication. Explores the role of visual design in engaging diverse audiences across a variety of communicative contexts.
Prerequisite: 60 points at Stage II in BC courses

COMMS 323 30 Points
Digital Futures
Considers emerging communication and media technologies and potential future consequences for individuals, societies, and the world at large. Key areas of interest include robotics and AI; ubiquitous computing and the Internet of Things (IoT); 3D printing; virtual, augmented and mixed reality technologies. Issues examined include automation; future of employment; surveillance; new modes of experience; transformed human relationships; and ecological consequences.
Restriction: MEDIA 717

COMMS 700 30 Points
Communication and Data
Examines the implications for communication in an age of big data, where code and algorithms curate, evaluate, and profile users’ data. The course addresses issues such as ...
as archives, clouds, privacy, identity, algorithmic bias and discrimination, complexity, informational capitalism, and affective labour, while also considering possibilities for rethinking the past and predicting the future through the analysis and visualisation of data.

**COMMS 702 Communication Excess and Avoidance**
30 Points
Silences and absences make communication possible. Each medium, whether spoken or printed, projected or computed, has peculiar silences ranging from elegant to tragic, comic to painful, fleeting to eternal. Superabundant digital media raise acute questions about communicative excess and possible needs to disconnect. Such questions will be addressed alongside the cultural and technological history of communication excess and absence.
*Restriction: MEDIA 745*

**COMMS 703 Popular Communication and Politics**
30 Points
Explores popular communication across a range of media, genres, texts and technologies to consider the political nature of the cultures, patterns of use, and modes of interpretation that emerge around them. The course will examine the cultural appropriation, adoption, adaptation and distribution of communicative media as well as the political economy of communication, consumer culture and varying forms of fandom.

**COMMS 704 Communication and Culture**
30 Points
Explores the mutually constitutive relationship between communication and culture through analyses of the cultural forms and meanings of social interaction. Acquaints students with classic and contemporary readings and introduces students to ways in which they can adopt a cultural approach toward communication phenomena in interpersonal, organisational, and intercultural settings.

**COMMS 705 Communication Perspectives**
30 Points
Critical review of key debates and perspectives in the Communication field, with a particular emphasis on social change communication. Balances broad coverage of dominant approaches in the field with the study of under-represented perspectives including through studies of Indigenous scholarship and research from the Global South.

**COMMS 706 Communication Case Studies**
30 Points
Explores how research in the Communication field can be applied to address complex challenges of the contemporary world and contribute to the development of solutions. Themes and topics will vary from year to year in line with changing societal issues and the research projects of contributing staff.

**COMMS 707 Research Methods and Design**
30 Points
Critical survey of methodological approaches in the Communication field, including Indigenous and other non-Western methodologies. Students will also be guided through a process for defining their own research problem and establishing an appropriate methodological design. Prepares students to undertake a dissertation as well as covering skills transferable to professional contexts.

**COMMS 708 Communication Internship**
15 Points
Provides experiential learning opportunities within professional communication organisations, such as media, public relations, advertising, non-governmental organisations and corporate communication industries.

**COMMS 709 Special Topic**
30 Points
**COMMS 710 Special Topic**
30 Points
**COMMS 714 Directed Study**

**COMMS 793 Dissertation - Level 9**
60 Points

**Comparative Literature**

**Stage II**

**COMPLIT 200 World Literatures I: Life, Death, War, Peace, Love**
15 Points
Myths, epics, bawdy tales, satires, songs, and plays make up traditions of ancient, medieval, early modern cultures. Compares cultural stories worldwide, from early writing to French Revolution. Includes Gilgamesh, Aztec myths, Roland, *Tale of Genji*, Scandinavian tales, Shakespeare's *Tempest*, Blake's poetry. Introduces skills for reading narratives by genre, theme, poetics. Texts are in English, with attention to texts' original languages.
*Prerequisite: 60 points passed*

**COMPLIT 202 Interpreting Folktales**
15 Points
An introduction to the study and interpretation of folktales. Tales from many cultures will be examined. Contrasting theories on the origins and meaning of folktales will be explored.
*Prerequisite: 60 points passed*
*Restriction: COMPLIT 303*

**COMPLIT 203 Special Topic**
15 Points
*Prerequisite: 60 points passed*

**COMPLIT 206 When East Meets West**
15 Points
Western readers have encountered the literatures of East and South Asia, and Asian readers have encountered Western literature, in a variety of political and cultural contexts, including: colonial expansion, spiritual inquiry, modernisation, warfare, migration, and globalisation. A selection of works from East and West, which have played a key role in these encounters, especially in the modern period, will be studied.
*Prerequisite: 60 points passed*
*Restriction: COMPLIT 302*

**COMPLIT 207 Special Topic**
15 Points
*Prerequisite: 60 points passed*
COMPLIT 208 15 Points
Directed Study in Comparative Literature
A directed reading and individual study course in a selected topic or topics, approved by the Academic Head or nominee.
Prerequisite: 60 points, and approval of Programme Coordinator

COMPLIT 210 15 Points
World Literatures 2: Machines and Modernities
Examines changing cultures and powerful ideas reflected in new literatures from the Industrial Revolution to the contemporary global era. Analyses and compares texts by genre, theme, and poetics. Includes poetry, narratives of European-Indigenous contacts, new culture movements in China and Japan, world drama, migrant writing, travel narratives. Texts are in English, with attention to texts' original languages.
Prerequisite: 60 points passed

Stage III

COMPLIT 302 15 Points
When East Meets West
Western readers have encountered the literatures of East and South Asia, and Asian readers have encountered Western literature, in a variety of political and cultural contexts, including: colonial expansion, spiritual inquiry, modernisation, warfare, migration, and globalisation. A selection of works from East and West, which have played a key role in these encounters, especially in the modern period, will be studied.
Prerequisite: 30 points at Stage II
Restriction: COMPLIT 206

COMPLIT 303 15 Points
Interpreting Folktales
An introduction to the study of folktales, including collection and classification, oral and literary tales, structure, interpretative frameworks, revisions and film versions. Tales from many cultures will be examined. Contrasting theories on the origins and meanings of folktales will be explored.
Prerequisite: 30 points at Stage II
Restriction: COMPLIT 202

COMPLIT 305 15 Points
Special Topic
Prerequisite: 60 points at Stage II

COMPLIT 306 15 Points
Directed Reading and Research
Supervised research projects.
Prerequisite: 60 points passed at Stage II, and approval of Programme Coordinator

Postgraduate 700 Level Courses

COMPLIT 704 15 Points
Special Topic

COMPLIT 705 15 Points
Reading Across Cultures
An advanced level review of approaches to the study of literature across cultures. Tests the potential and limits of theories of literature in the study of literary texts from many cultures and periods. Includes cross-cultural perspectives on authorship, intertextuality, reader-centred theories, literary translation, post-colonial literature, gender and sexuality, as well as reading across disciplines.
Restriction: COMPLIT 700, 709

COMPLIT 707 30 Points

COMPLIT 708 30 Points
Special Topic

COMPLIT 709 30 Points
Reading Across Cultures
An advanced level review of approaches to the study of literature across cultures. Tests the potential and limits of theories of literature in the study of literary texts from many cultures and periods. Includes cross-cultural perspectives on authorship, intertextuality, reader-centred theories, literary translation, post-colonial literature, gender and sexuality, as well as reading across disciplines.
Restriction: COMPLIT 705

COMPLIT 710 15 Points
Special Topic

COMPLIT 711 15 Points
Rethinking Literary Translation
Literary translation has come to be theorised as a dynamic and problematic process, central to comparative literature and shedding light on cross-cultural encounter, colonisation and the post-colonial. Alongside such theoretical considerations, students will undertake a practical translation project between languages in which they have expertise.

COMPLIT 750 15 Points
Directed Study
Supervised research essays on a topic or topics approved by the Programme Coordinator.

COMPLIT 751 30 Points
Directed Study
Supervised research essays on a topic or topics approved by the Programme Coordinator.

COMPLIT 777 15 Points
Study Abroad
Formal study in Comparative Literature in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Permission of Programme Coordinator

COMPLIT 778 15 Points
Study Abroad
Formal study in Comparative Literature in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Permission of Programme Coordinator

COMPLIT 780 30 Points
COMPLIT 780A 15 Points
COMPLIT 780B 15 Points
Research Project - Level 9
To complete this course students must enrol in COMPLIT 780 A and B, or COMPLIT 780

COMPLIT 790 60 Points
COMPLIT 790A 30 Points
COMPLIT 790B 30 Points
Dissertation - Level 9
To complete this course students must enrol in COMPLIT 790 A and B, or COMPLIT 790
COMPLIT 792 45 Points
COMPLIT 792A 22.5 Points
COMPLIT 792B 22.5 Points

Dissertation - Level 9
To complete this course students must enrol in COMPLIT 792 A and B, or COMPLIT 792

COMPLIT 793A 45 Points
COMPLIT 793B 45 Points

Thesis - Level 9
To complete this course students must enrol in COMPLIT 793 A and B

COMPLIT 797A 60 Points
COMPLIT 797B 60 Points

Research Portfolio - Level 9
To complete this course students must enrol in COMPLIT 797 A and B

Cook Islands Māori

Stage I

COOKIS 101 15 Points
COOKIS 101G 15 Points

Introduction to Cook Islands Māori
Gives students an introduction to the structure of Cook Islands Māori as well as allowing them to develop basic skills in listening, speaking, reading and writing. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Stage II

COOKIS 201 15 Points

Cook Islands Māori Language 2
Further consolidates skills in listening, speaking, reading and writing in Cook Islands Māori. Students will also deepen their experience and knowledge of Cook Islands Māori culture through their participation in a dramatised re-enactment of a Cook Islands myth or legend, with its accompanying chants and songs.
Prerequisite: COOKIS 101
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

COOKIS 204 15 Points

Special Topic

Stage III

COOKIS 300 15 Points

Special Topic

COOKIS 301 15 Points

Cook Islands Māori Language 3
Students will develop their language skills to an advanced level, through examining, discussing and analysing, in Cook Islands Māori, selected oral and written texts in various genres, as a model for their own compositions. They will also study traditional oratory as a means of further expressing the richness of Cook Islands culture and history.
Prerequisite: COOKIS 201

Creative Writing

Postgraduate 700 Level Courses

CREWRIT 797A 60 Points
CREWRIT 797B 60 Points

Creative Writing - Level 9
Students will work on a large-scale creative writing project: a novel, short story collection, full-length work of creative nonfiction, or poetry collection. The course includes weekly workshops and seminars, as well as supervision and masterclasses.
Restriction: ENGLISH 763
To complete this course students must enrol in CREWRIT 797 A and B

Criminology

Stage I

CRIM 100 15 Points

Big Ideas in Criminology
Introduces a range of big ideas in criminology that inform contemporary research and justice, both locally and globally. Presents the main concepts and theoretical foundations that inform the field. Critically analyses topical issues and debates related to crime, justice, deviance and social harm.
Restriction: CRIM 201

Stage II

CRIM 200 15 Points

Cultural Criminology
Exposes students to the major concepts and methodological approaches within cultural criminology, a field that is unique in its exploration of the meanings associated with crime and deviance. The course also considers the broader contexts of crime, how powerful groups and media influence criminal justice policies, and the relationship between popular discourses and the nature of social control.
Prerequisite: 60 points passed from BA courses

CRIM 202 15 Points

Contemporary Issues in Punishment
The focus is on contemporary issues in punishment, considering both its purposes and effectiveness. The course explores a range of perspectives drawing on longstanding criminological, sociological and philosophical literatures.
Prerequisite: 60 points passed from BA courses

CRIM 203 15 Points

The Criminal Mind: Crime and Individual Differences
Examines the phenomena of crime and punishment from a psychological perspective. Particular attention is paid to psychological explanations of crime, the relationship between mental illness and crime, and the role of psychology in law enforcement, the courts, and corrections.
Prerequisite: 60 points passed from BA courses

CRIM 204 15 Points

Critical Studies in Policing
Explores policing in New Zealand and beyond, including its legal and theoretical underpinnings. Critically examine media representations of the police, policing and inequality; police culture, power and accountability; the effects of human rights claims on policing methods and emerging threats to policing both locally and globally.
Prerequisite: 60 points passed from BA courses
CRIM 205 15 Points
Crime, Media and Society
The relationship between crime and the media is complex and contradictory. This course investigates this relationship by encouraging students to develop an understanding of how the media help to influence the public views of crime and criminalisation. It will do this by focusing on media portrayals of crime and criminal behaviour, media effects, and theories of media and communication.
Prerequisite: 60 points passed from BA courses

CRIM 206 15 Points
Special Topic
Prerequisite: 60 points passed from BA courses

CRIM 207 15 Points
Criminology: Indigenous and Global
Are we all equal before the law? Or are groups treated differently by the criminal justice system? With particular emphasis on indigenous peoples in New Zealand, Australia and Canada, this course examines the impact of differential practices on inequalities and collective efforts to achieve social change. Concepts of restorative justice are central to this course.
Prerequisite: 60 points passed from BA or BGlobalSt courses

CRIM 208 15 Points
Hate Crime
Provides an overview of ‘hate’ and prejudice-motivated crime using a variety of criminological perspectives. Examines the causes, consequences and manifestations of hate, as well as the social context in which hate crimes occur. Engages with questions around the impact of and responses to hate crime, as well as the link between online and offline hate.
Prerequisite: 60 points passed from BA courses

CRIM 209 15 Points
Special Topic
Prerequisite: 60 points passed from BA courses

Stage III
CRIM 301 15 Points
Issues in Criminal Justice
Discusses the workings of the criminal justice system and explores and contextualises classical and emergent approaches to criminal justice, including their legal underpinnings. Practical and theoretical issues will be considered using a case study approach. Emphasis is given to the developing synthesis of criminal and social justice.
Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

CRIM 302 15 Points
Harassment
Examines the legal, social, and psychological aspects of harassment. Includes a case study approach. Emphasis is given to the relationship between social, legal and psychological issues.
Prerequisite: 60 points passed from BA courses

CRIM 303 15 Points
Gender, Crime and Justice
Explores the importance of gender in the study of crime and criminal justice and examines patterns of offending, victimisation and employment in the criminal justice system amongst women and men. Traditional criminology theories and feminist critiques, and the differential treatment of women and men in the criminal justice system as victims, offenders and professionals will be critically examined and evaluated.
Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

CRIM 304 15 Points
Key Issues in Restorative Justice
Provides a critical analysis of the restorative justice process as a response to offender behaviour, which will aid an understanding of its place within the wider criminal justice system. A variety of perspectives on restorative justice will be considered, as well as the various practices associated with it, and its effectiveness according to different stakeholders.
Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 305 15 Points
Victims and Victimology
Explores patterns and theories of victimisation, the position of victims and victimology within criminology, and the representation of victims in the media. Includes case studies of specific types of victimisation such as racial hate crimes and family and sexual violence. Victims’ rights and the position of victims in the criminal justice system and restorative justice will also be examined.
Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 306 15 Points
Special Topic
Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 307 15 Points
Doing Time: Incarceration and Punishment
Examines punishment and incarceration as a complex social institution informed by a range of social relations and cultural meanings. Explores the way political, social and economic factors shape notions of law and order. Topics include: history of punishment and theories of incarceration, experiences of imprisonment and prison cultures, and various controversial issues in imprisonment, for example, privatisation, the use of solitary confinement, immigration detention, and prison abolition.
Prerequisite: 30 points at Stage II from Criminology, Global Politics and Human Rights
Restriction: SOCIOL 337

CRIM 308 15 Points
Critical Research in Criminology
Introduces critical research methodology. Begins with the problems of epistemology (knowledge) and ontology (reality), then explores data (what is data?) and specific methods of data analysis, such as semiotics, discourse analysis and, amongst others, hermeneutics. Recommended to pursue postgraduate study in criminology.
Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

CRIM 309 15 Points
Paradoxes of Crime Technology
Explores the limits and contradictions of crime prevention technologies. Focuses on the tension between the promises of such technologies and their consequences. Limits are explored via critical analyses of DNA typing, fingerprint comparison, forecasting or prediction, security technologies, and environmental controls, such as ‘target hardening’, ‘guardianship’ and ‘environmental design’.
Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

### Develop 703 30 Points
#### Independent Research
Supervised study on a topic or topics approved by the Academic Head or nominee.

*To complete this course students must enrol in DEVELOP 703 A and B, or DEVELOP 703.*

### Develop 706 15 Points
#### Internship in Development
Involves students in the operation of a development organisation, enables them to put into practice development theory and methods, provides experience of researching and writing a report or proposal to be used by the organisation, and assists them to reflect on the process in the light of development and other social science research literature.

*Prerequisite: Approval of Specialisation leader
To complete this course students must enrol in DEVELOP 706 A and B, or DEVELOP 706.

### Develop 707 15 Points
#### Special Topic

### Develop 709 15 Points
#### Theories of International Development
Examines early and contemporary theories and paradigms of international development, including modernisation and dependency theory, neoliberalism, human development, post-development, and participatory development. Investigates the dominance of economic growth as a development target and how this has been contested. The course will enable students to critically analyse the processes and phenomena involved in what is called ‘development’.

*Restriction: DEVELOP 700

### Develop 710 15 Points
#### Development Policies and Institutions
Provides students with in-depth knowledge of policy approaches to alleviate poverty, enhance social justice and achieve sustainability. Contemporary development policies carried out by governments, donor agencies and UN organisations will be scrutinised. Examples of policies that will be covered in the course are land reform and migration policies, gender policies, climate adaptation and mitigation as well as ethical trade policies.

*Restriction: DEVELOP 700

### Develop 712 15 Points
#### Research Methods in Development - Level 9
Provides a critical review of the phases of development research, including theoretically grounded research design and the unique ethical considerations surrounding development fieldwork. Equips students with advanced skills of employing qualitative and participatory research methodologies in challenging social and cultural settings and develops highly specialised knowledge in applying qualitative data analysis software, presenting findings and developing a postgraduate research proposal.

### Develop 713 15 Points
#### Ethics and Governance in International Development
Addresses challenges to ethics and governance that arise in international development processes. Examines the competing demands of various stakeholders in the development of appropriate governance mechanisms and the values and judgements that inform societal choices and political decision-making. Students shall be familiarised with ethical debates in international development and engaged in ethically informed conversations on contemporary development challenges.

### Develop 715 15 Points
#### Independent Research
Supervised study on a topic approved by the Academic Head or nominee.

### Develop 716 15 Points
#### Global Health and Development
Introduces a social science approach to the study of health and globalisation, tracing various historical genealogies from colonial hygiene movements, to international public health in the development sector, up through contemporary global health institutions and their governance structure. Current issues in health and development, including the increasing role of NGOs and human rights frameworks, are critically analysed.

### Develop 717 15 Points
#### Humanitarian Interventions
Traces the rise of the humanitarian narrative and examines how humanitarianism – along with other key words such as crisis, emergency, and intervention – has become one of the organising categories of political action and order. The course explores the possibilities and limits of intervening in the lives of individuals and communities grounded upon discourses of compassion.

### Develop 780 30 Points
#### Research Project - Level 9
*To complete this course students must enrol in DEVELOP 780 A and B, or DEVELOP 780.

### Develop 791 60 Points
#### Dissertation - Level 9

### Develop 792 45 Points
#### Research Portfolio

### Develop 793 45 Points
#### Thesis - Level 9
*Prerequisite: A BA(Hons) in Development Studies with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in DEVELOP 794 A and B

### Develop 794 45 Points
#### Research Portfolio

### Develop 795 45 Points
#### Thesis - Level 9
*Prerequisite: Approval of the Academic Head or nominee
To complete this course students must enrol in DEVELOP 795 A and B

### Develop 796 15 Points
#### Development Policies and Institutions
Provides students with in-depth knowledge of policy approaches to alleviate poverty, enhance social justice and achieve sustainability. Contemporary development policies carried out by governments, donor agencies and UN organisations will be scrutinised. Examples of policies that will be covered in the course are land reform and migration policies, gender policies, climate adaptation and mitigation as well as ethical trade policies.

*Restriction: DEVELOP 700

### Develop 797 15 Points
#### Theories of International Development
Examines early and contemporary theories and paradigms of international development, including modernisation and dependency theory, neoliberalism, human development, post-development, and participatory development. Investigates the dominance of economic growth as a development target and how this has been contested. The course will enable students to critically analyse the processes and phenomena involved in what is called ‘development’.

*Restriction: DEVELOP 700

### Develop 798 15 Points
#### Development Policies and Institutions
Provides students with in-depth knowledge of policy approaches to alleviate poverty, enhance social justice and achieve sustainability. Contemporary development policies carried out by governments, donor agencies and UN organisations will be scrutinised. Examples of policies that will be covered in the course are land reform and migration policies, gender policies, climate adaptation and mitigation as well as ethical trade policies.

*Restriction: DEVELOP 700

### Develop 799 15 Points
#### Research Methods in Development - Level 9
Provides a critical review of the phases of development research, including theoretically grounded research design and the unique ethical considerations surrounding development fieldwork. Equips students with advanced skills of employing qualitative and participatory research methodologies in challenging social and cultural settings and develops highly specialised knowledge in applying qualitative data analysis software, presenting findings and developing a postgraduate research proposal.

### Develop 800 15 Points
#### Ethics and Governance in International Development
Addresses challenges to ethics and governance that arise in international development processes. Examines the competing demands of various stakeholders in the development of appropriate governance mechanisms and the values and judgements that inform societal choices and political decision-making. Students shall be familiarised with ethical debates in international development and engaged in ethically informed conversations on contemporary development challenges.
DEVELOP 796A  60 Points
DEVELOP 796B  60 Points
Thesis - Level 9
Prerequisite: A BA(Hons) in Development Studies with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in DEVELOP 796 A and B

Drama

Stage I

DRAMA 100  15 Points
DRAMA 100G  15 Points
Presentation and Performance Skills: Taking the Stage
Focuses on enhancing oral communication and performance skills through interactive workshops with speakers and performers highlighting the transferable skills of acting in three main areas: public speaking, improvising and group-devised performance.

Stage II

DRAMA 202A  15 Points
DRAMA 202B  30 Points
History and Performance
Explores a range of major plays from ancient Greek tragedy to contemporary New Zealand drama. This course examines plays in their historical context and as texts for performance. In Semester Two, students learn skills in theatre production by staging a full-length play, directed by an outside professional director.
Prerequisite: 60 points passed including DRAMA 100
Restriction: DRAMA 204
To complete this course students must enrol in DRAMA 202 A and B

DRAMA 203  15 Points
Drama of Aotearoa New Zealand and the Pacific
An overview of the development of modern and contemporary drama, theatre and playwriting in Aotearoa New Zealand. Topics include: experimental theatre, feminist drama and Māori drama. Some plays by Pacific writers will be considered.
Prerequisite: 60 points passed
Restriction: DRAMA 303

DRAMA 205  15 Points
Special Topic
Prerequisite: 60 points passed

Stage III

DRAMA 301  15 Points
Drama: Topics and Themes
Building on the principles and practical skills from DRAMA 202 and 204, the course will focus more narrowly on topics of theatrical practice and dramatic representation. Classes involve theatrical workshops and collaborative projects.
Prerequisite: DRAMA 202 or 204

DRAMA 302  15 Points
Performance Skills
Classes in stage acting, improvisation, movement, voice and character, taught by professional tutors. Students will present a solo or duo short performance.
Prerequisite: 30 points at Stage II
Restriction: DRAMA 719

DRAMA 303  15 Points
Drama of Aotearoa New Zealand and the Pacific
An overview of the development of modern and contemporary drama, theatre and playwriting in Aotearoa New Zealand. Topics include: experimental theatre, feminist drama and Māori drama. Some plays by Pacific writers will be considered.
Prerequisite: 30 points at Stage II
Restriction: DRAMA 203

DRAMA 304  15 Points
Contemporary Theatre Practice
A survey of current trends in theatre practice, including: devised and dance-theatre, participatory and immersive theatre, autobiographical performance, applied theatre and documentary theatre, intermedial and virtual theatre, and new musical theatre. Students will select focus areas and engage in critical and creative research towards two key performance outcomes.
Prerequisite: 30 points at Stage II

DRAMA 305  15 Points
Drama Tools
Develops the skills that are essential in theatre-making, including acting and storytelling, by staging a public performance. During the intensive three-week rehearsal period, under the guidance of an experienced director, students work in a collaborative fashion through ongoing group discussion and theatrical practice. Other transferable skills include effective communication, team-work and problem solving in an active and creative manner.
Prerequisite: 30 points at Stage II

DRAMA 306  15 Points
Production and Management Skills
Introduces students to multiple roles and skills needed for the management of productions, companies and other organisations in the performing-arts, specifically drama, but also dance, music and other performance art. Skills discussed include planning and creating schedules and budgets, procuring and managing resources, arts organisation infrastructure and liaison, donor and benefactor development, social marketing and networking, crowdfunding, and outcome reporting.
Prerequisite: DRAMA 202 or 204

DRAMA 307  15 Points
Special Topic
Prerequisite: 30 points at Stage II

Postgraduate 700 Level Courses

DRAMA 708  30 Points
Drama and the Mind
Examines a selection of modern British and Irish dramatic texts that involve mind-body relationships and the representation of unconscious processes. Perspectives include Freudian psychoanalysis, neuroscience, and theories of acting.

DRAMA 709  45 Points
DRAMA 709A  22.5 Points
DRAMA 709B  22.5 Points
Studio - Level 9
A practical, explorative theatre or drama project, with written reflection, nominated by the student or a small group of students. Projects must be approved and supervised.
To complete this course students must enrol in DRAMA 709 A and B, or DRAMA 709

**Course Descriptions and Restrictions**

- **DRAMA 710**: Semester One Production
  Students participate in a full-scale, public production of a full-length play. As far as possible all roles from acting to lighting to design to stage-management to front of house etc will be taken by students enrolled in the course. Direction will be by teaching staff or guest director.
  
  **Restriction**: DRAMA 703
  For students currently enrolled in a postgraduate programme in Drama.

- **DRAMA 711**: Semester Two Production
  Students participate in a full-scale public production of a full-length play. As far as possible all roles from acting to lighting to design to stage-management to front of house etc will be taken by students enrolled in the course. Direction will be by teaching staff or guest director.
  
  **Restriction**: DRAMA 703

- **DRAMA 716**: Directed Study in Playwriting
  A study of playwriting or workshop or dramaturgy or a short writing project, either original or adaptation.

- **DRAMA 717A**, **DRAMA 717B**: Long Play
  The writing of a complete play for live performance between one hour and two hours in length.
  
  **Restriction**: DRAMA 715
  To complete this course students must enrol in DRAMA 717 A and B

- **DRAMA 718**: Playwriting
  A series of exercises in the basic building blocks of dramatic writing, incorporating guest visits from practising and established dramatists.
  
  **Restriction**: DRAMA 714

- **DRAMA 719**: Performance Skills
  Classes in stage acting, improvisation, movement, voice and character. Students will present a solo performance and a short study in performance training theory.
  
  **Restriction**: DRAMA 302, 702

- **DRAMA 720A**, **DRAMA 720B**: Advanced Playwriting
  Develops skills in playwriting with each student working under supervision.
  
  To complete this course students must enrol in DRAMA 720 A and B, or DRAMA 720

- **DRAMA 721**, **DRAMA 722**: Directed Study in Drama 1, 2

- **DRAMA 723A**, **DRAMA 723B**: Special Topic
  To complete this course students must enrol in DRAMA 723 A and B, or DRAMA 723

- **DRAMA 724**, **DRAMA 724A**, **DRAMA 724B**: Special Topic
  To complete this course students must enrol in DRAMA 724 A and B, or DRAMA 724

- **DRAMA 725**: Special Topic in Drama

- **DRAMA 726**: Special Topic

- **DRAMA 727**: Research Principles for Theatre
  Outlines the principles of research for theatre. Combines critical enquiry, theory and practical exercises to explore best practice in scholarly and creative performance research. Topics include developing a subject, refining a research question, scholarly research practices, using the creative process as research methodology, and framing research findings. Examines impact of language, culture and gender on theatre research.

- **DRAMA 728**: Studio/Project in Practical Drama
  Students may undertake a supervised practical project in drama of a limited scale, either as an individual or in a small group.
  
  To complete this course students must enrol in DRAMA 730 A and B, or DRAMA 730

- **DRAMA 729A**, **DRAMA 729B**: Studio/Project in Drama - Level 9
  Substantial individual and group project(s), including some public presentation of project work.
  
  To complete this course students must enrol in DRAMA 770 A and B, or DRAMA 770

- **DRAMA 730A**, **DRAMA 730B**: Dissertation - Level 9

- **DRAMA 731A**, **DRAMA 731B**: Research Project - Level 9

- **DRAMA 732A**, **DRAMA 732B**: Thesis - Level 9

ENGLISH 204 15 Points

Pacific Literature in English

An introduction to contemporary Pacific Literature exploring texts from canonical Pacific writers to spoken word performance poets. Texts will be examined in light of recent theories in Indigenous Writing Studies, with a focus on crossings of cultural and creative borders, diaspora and identity.

Prerequisite: 30 points at Stage I in English, or 15 points at Stage I in English and PACIFIC 100

ENGLISH 207 15 Points

Creating Stories

Explores narrative theory and analysis through major stories from the literature and art of the last six centuries, from Shakespeare's sources to now; from at least four continents; and including short story, drama, 'classic' and modern novels, verse, children's picture story, narrative painting, comics, film and music video. Investigates universal, human, local, individual, work and intra-work levels of analysis.

Prerequisite: 60 points passed

Restriction: ENGLISH 111

ENGLISH 213 15 Points

Age of Shakespeare: Tragedy

An introduction to the golden age of English theatre, involving detailed study of a selection of tragedies by Shakespeare and his contemporaries. The theatrical emphasis of the course is intended to help students respond to the plays as theatrical artefacts and not merely as literary texts.

Prerequisite: 30 points at Stage I in English or Drama, or approval of Academic Head or nominee

Restriction: ENGLISH 353

ENGLISH 214 15 Points

Early Texts: Modern Inventions

A study of key works and contexts of selected medieval and early modern writers, including Chaucer, Shakespeare, Milton, and Behn. Offers a compact history of literary engagements with important social issues that arose in a period notable for revolution and reform; also develops knowledge of literary forms and trends that are historically important, but, in this period, relatively new.

Prerequisite: 15 points at Stage I in English

Restriction: ENGLISH 210, 330

ENGLISH 216 15 Points

Modernist Transformations

Taking transformation as its theme, the course focuses on a selection of influential Modernist works that map out some of the possibilities for the avant-garde in the early twentieth century. Students will expand their knowledge of modernism as a multimedia, multicultural phenomenon and exert their imaginations and research skills as they consider its relevance to contemporary cultural production.

Prerequisite: 30 points at Stage I in English

Restriction: ENGLISH 206, 222, 322

ENGLISH 217 15 Points

Postcolonial Memory: Ireland

Explores globally significant issues of cultural memory, identity and postcolonial inheritance through the lens of Irish literature and cultural experience. Debates about memory and postcoloniality guide our navigation of twentieth and twenty-first century Irish novels, plays, poetry and short stories. Conversely, our literary navigations interrogate postcolonial representations of identity across changing cultural contexts.

Prerequisite: 30 points at Stage I in English

Restriction: ENGLISH 366, 316, 361
ENGLISH 219 15 Points
Nineteenth Century Literature
Considers a range of literature from the nineteenth century - poetry, fiction and drama - as regards its treatment of growing up in the period. Issues covered include the recognition of childhood as a special state, the establishment of an individual's gender and sexual identity and the opportunities and constraints afforded by the changing social hierarchy and religious belief systems. 
Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 104, 360

ENGLISH 221 15 Points
New Zealand Literature
Offers an historical survey of major writers and key issues in New Zealand literature. Students will not only read some of the best writing our country has to offer but will develop, through the literature studied, a richly detailed overview of New Zealand experience from the period of first contact until now.
Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 355

ENGLISH 223 15 Points
Modern Writing and Critical Thinking
Explores theories and practices of writing and criticality in academic, civic, and artistic contexts. We consider some of the scripts that organise literate social practices and how to perceive and extrapolate their principles. We explore how we are affected by, how we navigate, and how we transform our immersive world of signs.
Prerequisite: 15 points at Stage I in English
Restriction: ENGLISH 305

ENGLISH 252 15 Points
Creative Writing: Four Genres
Develops practical skills in four writing genres: Poetry, Multimedia, Creative Non-Fiction and Short Fiction. A range of published models will be studied alongside write and workshop exercises; and students will develop close-reading skills. Two portfolios of creative work cover all four genres, based on work begun in seminars.
Prerequisite: 45 points passed including 30 points in English
Restriction: ENGLISH 255, 324

ENGLISH 256 15 Points
Tolkien and his Worlds
Examines Tolkien's primary fictional texts, The Hobbit and The Lord of the Rings trilogy, in relation to the author's ideas about fantasy and world-building, his use of Celtic, German and Christian mythology, and the adaptation of the novels into film.
Prerequisite: 60 points passed
Restriction: ENGLISH 256

ENGLISH 265 15 Points
Shakespeare: Comedies and Tragicomedies
A study of selected comedies and tragicomedies of Shakespeare and his contemporaries. Works of Shakespeare may include the romantic comedies of his first decade and a half as a playwright, the so-called 'problem plays', the darker comedies of his middle years, and the tragicomedies of his final years, sometimes called 'romances'. The nature of comedy and its relationship to tragedy is also explored.
Prerequisite: 30 points at Stage I in English or Drama, or approval of Academic Head or nominee
Restriction: ENGLISH 310

Stage III

ENGLISH 305 15 Points
Modern Writing and Critical Thinking
Reading modern works that overtly blend critical and creative styles, the course examines relations among discourses, criticality, and imagination.
Prerequisite: 30 points at Stage II in English, Drama, and/or Writing Studies
Restriction: ENGLISH 223

ENGLISH 306 15 Points
Tolkien and his Worlds
Examines Tolkien's primary fictional texts, The Hobbit and The Lord of the Rings trilogy, in relation to the author's ideas about fantasy and world-building, his use of Celtic, German and Christian mythology, and the adaptation of the novels into film.
Prerequisite: 60 points passed
Restriction: ENGLISH 256

ENGLISH 310 15 Points
Shakespeare: Comedies and Tragicomedies
A study of selected comedies and tragicomedies of Shakespeare and his contemporaries. Works of Shakespeare may include the romantic comedies of his first decade and a half as a playwright, the so-called 'problem plays', the darker comedies of his middle years, and the tragicomedies of his final years, sometimes called 'romances'. The nature of comedy and its relationship to tragedy is also explored.
Prerequisite: 30 points at Stage II in English or Drama
Restriction: ENGLISH 265

ENGLISH 311 15 Points
Creating Stories
Explores narrative theory and analysis through major stories from the literature and art of the last six centuries, from Shakespeare's sources to now; from at least four continents; and including short story, drama, "classic" and modern novels, verse, children's picture story, narrative painting, comics, film and music video. Investigates universal, human, local, individual, work and intra-work levels of analysis.
Prerequisite: 60 points at Stage II from the BA Schedule
Restriction: ENGLISH 111, 207

ENGLISH 316 15 Points
Postcolonial Memory: Ireland
Examines the representation of memory in Irish literature, past and present, in the context of postcolonial history, political events, and the development of Irish identity. It examines the ways in which memory and heritage are represented in literature, focusing on the development of a national identity in Ireland.
Prerequisite: 45 points passed
Restriction: ENGLISH 207

ENGLISH 318 15 Points
The Gothic: Texts and Theory
An advanced introduction to literary theory through an exploration of classic works of Gothic Literature. We examine the competing claims of psychoanalysis,
new historicism, post-colonialism and queer studies in accounting for the appeal and cultural significance of the Gothic mode.

**Prerequisite:** 30 points at Stage II  
**Restriction:** ENGLISH 321

**ENGLISH 322**  
**Modernist Transformations**  
Takes transformation as its theme, focuses on a selection of influential Modernist works that map out some of the possibilities for the avant-garde in the early twentieth century. Students will expand their knowledge of modernism as a multimedia, multicultural phenomenon and exert their imaginations and research skills as they consider its relevance to contemporary cultural production.

**Prerequisite:** 30 points at Stage II in English  
**Restriction:** ENGLISH 206, 216, 222

**ENGLISH 323**  
**Contemporary Poetry**  
An introduction to the work of a dozen influential poets, this course emphasises new developments. The focus is on the still controversial L=A=N=G=U=A=G=E poetry that emerged in the late 1970s and developments concurrent with it. This shift is seen against a background of changes in technology, politics and in popular and intellectual culture.

**Prerequisite:** 30 points at Stage II in English

**ENGLISH 324**  
**Creative Writing: Four Genres**  
Develops practical skills in four writing genres: Poetry, Multimedia, Creative Non-Fiction and Short Fiction. A range of published models will be studied alongside write and workshop exercises and students will develop close-reading skills. Two portfolios of creative work cover all four genres, based on work begun in seminars.

**Prerequisite:** 60 points passed, including 45 points in English

**Restriction:** ENGLISH 252

**ENGLISH 330**  
**Early Texts, Modern Inventions**  
A study of key works and contexts of selected medieval and early modern writers, including Chaucer, Shakespeare, Milton, and Behn. Offers a compact history of literary engagements with important social issues that arose in a period notable for revolution and reform; also develops knowledge of literary forms and trends that are historically important, but, in this period, relatively new.

**Prerequisite:** 30 points at Stage II in English  
**Restriction:** ENGLISH 214, 351

**ENGLISH 340**  
**Arthurian Literature**  
The Arthurian story, from its first passage into French in the twelfth century. The English writings are studied in comparison with their French sources and counterparts (in translation).

**Prerequisite:** 30 points at Stage II in English or FRENCH 200  
**Restriction:** ENGLISH 738, 746

**ENGLISH 343**  
**Writing Poetry**  
Students will be guided through poetry and poetics and the writing of poetry. As part of the course requirement, they will submit a portfolio of poems.

**Prerequisite:** 30 points at Stage II in English, Drama, Writing  
**Studies and Programme Coordinator approval**  
**Restriction:** ENGLISH 328

**ENGLISH 344**  
**Writing Creative Prose**  
An art and craft class focused on refining technical skills in writing short fiction and creative non-fiction, studying local and international models, and based around weekly workshops.

**Prerequisite:** 60 points passed and Programme Coordinator approval  
**Restriction:** ENGLISH 328

**ENGLISH 351**  
**Special Topic**  
**Prerequisite:** 30 points at Stage II in English

**ENGLISH 352**  
**Age of Shakespeare: Tragedy**  
An introduction to the golden age of English theatre, involving detailed study of a selection of tragedies by Shakespeare and his contemporaries. The theatrical emphasis of the course is intended to help students respond to the plays as theatrical artefacts and not merely as literary texts.

**Prerequisite:** 30 points at Stage II in English or Drama  
**Restriction:** ENGLISH 213

**ENGLISH 355**  
**New Zealand Literature**  
Offers an historical survey of major writers and key issues in New Zealand literature. Students will not only read some of the best writing our country has to offer but will develop, through the literature studied, a richly detailed overview of New Zealand experience from the period of first contact until now.

**Prerequisite:** 30 points at Stage II in English  
**Restriction:** ENGLISH 221

**ENGLISH 356**  
**The Modern Novel**  
A study of fiction. The prescribed works vary widely in their country of origin, formal elements and themes. Some are recognised as classics, while others show the new directions taken by the writers of the time. The texts are given detailed consideration as well as being placed within social and critical contexts.

**Prerequisite:** 30 points at Stage II in English  
**Restriction:** ENGLISH 220, 262

**ENGLISH 360**  
**Special Topic: Nineteenth Century Literature**  
Considers a range of literature from the nineteenth century – poetry, fiction and drama – as regards its treatment of growing up in the period. Issues covered include the recognition of childhood as a special state, the establishment of an individual's gender and sexual identity and the opportunities and constraints afforded by the changing social hierarchy and religious belief systems.

**Prerequisite:** 30 points at Stage II in English  
**Restriction:** ENGLISH 219

**ENGLISH 367**  
**Special Topic**  
**Prerequisite:** 30 points at Stage II in English

**Postgraduate 700 Level Courses**

**ENGLISH 700**  
**Pacific Poetry**  
A critical engagement with poetry written in English by the peoples of Oceania (Polynesia, Melanesia, Micronesia). Pacific aesthetics and epistemologies evident in orature and art, in addition to post-colonial and women of colour
feminist theories, will be used in the construction of culturally insightful frameworks to better appreciate this poetry that spans from the 1970s to the present day. 

**Restriction:** ENGLISH 717, 720

**ENGLISH 703**

**Stages of Religion**

The history of English religion through the longer Reformation period, as reflected and addressed especially in the drama of the period, from the Cycle-plays to Milton. Combines English history and history of religion with issues of dramatic history and performance. Extensive use of primary and rare materials.

**ENGLISH 705**

**Modernism and the Contemporary**

Examines the work of Modernist writers intensely concerned with ideas of the contemporary within the context of Modernism, the defining international ‘movement’ of the twentieth century, known for its narratives of crisis and transformation.

**ENGLISH 706**

**Shakespeare: Selected Plays and Poems**

The focus of this course varies from year to year but includes attention to several of the most influential approaches to the reading of Shakespearean texts: psychoanalysis, feminism, new historicism, cultural materialism and post-colonial theory.

**ENGLISH 709**

**Theatre on Screen**

Examines a range of mainstream and arthouse films which treat the processes of theatrical performance and dramatic composition. These films create commercial and aesthetic appeal by engaging the thin dividing line between reality and drama. Topics include: theatricality and politics; the business of theatre; gender and sexuality; adaptation. 

**Restriction:** ENGLISH 774

**ENGLISH 711**

**Shakespeare from Stage to Page, 1590-1640**

Studies the development of the theatre in the half-century encompassing Shakespeare's career and after, and its relation to the print industry of the same period. Treats authors and writing, acting, company structure, audiences, censorship, book production, publication and readership. Involves extensive use of primary and rare materials.

**Restriction:** ENGLISH 342, 754, 765

**ENGLISH 713**

**ENGLISH 713A**

**ENGLISH 713B**

**Research Essays - Level 9**

A number of essays are written with guidance from a supervisor, focusing on a field, author, genre or period of literature. 

To complete this course students must enrol in ENGLISH 713 A and B, or ENGLISH 713

**ENGLISH 714**

**Special Topic: Performing Writing**

Considers multilingual, multi-genre, and multi-modal writing across the last fifty years. Readings include paper books, performance writing texts (live, site-specific, and installations), and born-digital literature. Authors include Caroline Bergvall, Kamau Brathwaite, JR Carpenter, Caren Florance, Édouard Glissant, Duriel E. Harris, Aodán McCardle, Maggie O'Sullivan, Tru Paraha, John Pule, and Jack Ross.

**ENGLISH 718**

**Opening the Archive**

Develops practical research skills while attending to archives as concept and theory. Skills include scoping and pursuing a significant research project, seeking permissions and presenting findings. The course also reflects critically on the provenance of textual, material, visual and digital collections and their public and scholarly uses in the twenty-first century.

**ENGLISH 731**

**Jane Austen and Charlotte Brontë**

A comparative study of two significant women novelists of the nineteenth century, exploring the similarities and differences among their works, as well as giving attention to their critical and popular reception history and their 'afterlife' in print and on screen.

**Restriction:** ENGLISH 752

**ENGLISH 732**

**ENGLISH 732A**

**ENGLISH 732B**

**Popular Fiction: Mystery, Romance and Fantasy**

Popular Fiction offers an opportunity to extend critical study of literature to the mass of texts customarily denied academic approval. A key element is the reader's pleasure. Does pleasure make a difference in what is, admitted, a critical study of several varieties of modern popular fiction, especially children's literature, romance and crime fiction (both in print and on television). Reading of texts will be supported by discussion of a range of theoretical issues. 

To complete this course students must enrol in ENGLISH 732 A and B, or ENGLISH 732

For students currently enrolled in a postgraduate programme in English

**ENGLISH 746**

**Arthurian Literature**

The Arthurian story, from its first passage into French in the twelfth century. The English writings are studied in comparison with their French sources and counterparts (in translation).

**Restriction:** ENGLISH 340

**ENGLISH 769**

**Representing Imagining**

Investigates representation in imaginative writing. Principal texts are from 1928 to the present and from North America, UK, Aotearoa New Zealand, France, and the Caribbean. Topics include genre and expectations; ideologies of originality and copying; discursive mixing; authenticity; wholeness and brokenness; translingualism; the page, the codex and the digitas; and the economy of the imaginative subject.

**ENGLISH 770**

**Research Essays - Level 9**

Essays on a particular author, genre or theme.

**ENGLISH 775**

**Special Topic**

**ENGLISH 780**

**ENGLISH 780A**

**ENGLISH 780B**

**Research Essay - Level 9**

To complete this course students must enrol in ENGLISH 780 A and B, or ENGLISH 780

For students enrolled in a postgraduate programme in English.
ENGLISH 781  30 Points
Research Project - Level 9

ENGLISH 782A  15 Points
ENGLISH 782B  15 Points

Interpreting Janet Frame
An exploration of the fiction of renowned writer Janet Frame. Using interpretative theory, the course addresses the challenge of developing enabling critical contexts for Frame's novels. Conversely, Frame's novels are used as a means of exploring the reading process and the dynamics involved in the act of interpretation.
Restriction: ENGLISH 710
To complete this course students must enrol in ENGLISH 782 A and B

ENGLISH 787  30 Points
Literature USA: from the American Renaissance to the Jazz Age
Examines a selection of classic texts and major issues in the literature of the United States from the American Renaissance of the 1840s and 1850s through to the Jazz Age of the 1920s and 1930s.

ENGLISH 789  60 Points
Dissertation - Level 9

To complete this course students must enrol in ENGLISH 797 A and B

---

English for Academic Purposes

Preparatory Courses

ENGLACP 20P  25 Points

English for Academic Purposes Level 1
Extensive reading of academic texts; writing different types of essays and reports, summary reviews; developing editing and referencing skills, understanding and avoiding plagiarism; oral presentations and group discussion skills and strategies, including pronunciation; developing and consolidating academic vocabulary and grammar of written discourse; monitoring and evaluating own learning; mastery of using electronic and print media learning and reference resources; understanding different English accents.
Restriction: ENGLACP 40P

ENGLACP 30P  35 Points
English for Academic Purposes Level 2
Extensive and intensive reading of extended academic texts; developing skills of analysing, synthesising and critical commentary; writing longer essays and reports (1000 words); integrating and referencing source material; proof-reading and editing; avoiding plagiarism; oral seminar presentations; listening and note-taking from lectures in a subject of choice; orientation to student support and learning resources at the University of Auckland.
Prerequisite: ENGLACP 20P
Restriction: ENGLACP 20P

ENGLACP 40P  25 Points
English for Academic Purposes Level 3
Extensive and intensive reading of extended academic texts at postgraduate level; developing skills of analysing, synthesising and critical commentary; writing longer essays and reports integrating and referencing source material; proof-reading and editing; oral presentations and group discussions; listening and note-taking from lectures. By the end of the course, students are expected to be able to understand texts at a B2/B2+ level and produce texts at a B2+ level.
Corequisite: ACADINT A01

ENGLACP 50P  30 Points
English for Undergraduate Studies
Designed for learners of English who require a level of English language competency for academic study at an undergraduate level in an English-medium tertiary environment. The course covers extensive and intensive reading of extended academic texts; writing academic essays and reports; integrating and referencing source material; proof-reading and editing; oral presentations and group discussions; listening and note-taking from lectures. By the end of the course, students are expected to be able to understand texts at a B2/B2+ level and produce texts at a B2+ level.
Corequisite: ACADINT A01

ENGLACP 60P  30 Points
English for Postgraduate Studies
Designed for learners of English who require a level of English language competency for academic study at a postgraduate level in an English-medium tertiary environment. The course covers extensive and intensive reading of extended academic texts; writing academic essays and reports; integrating and referencing source material; proof-reading and editing; oral presentations and seminar discussions; listening and note-taking from lectures. By the end of the course, students are expected to be able to understand texts at a B2+/C1 level and produce texts at a B2+/C1- level.
Corequisite: ACADINT A01

English Writing

Stage I
ENGWWRIT 101  15 Points

English Writing for Academic Purposes
A skills-based analysis of texts written for academic purposes. Topics include: essays of comparison and
contrast, argumentative essays, problem solution texts, literature reviews, critiques, and report writing.  

Restriction: ENGWRIT 94F

European Studies

Stage I

EUROPEAN 100 15 Points  
EUROPEAN 100G 15 Points  

Europe and the World  
An introduction to the study of Europe, organised around a number of major themes, including linguistic and ethnic groupings, historical periods, literary and cultural movements, religious and philosophical traditions, and political and cultural figures. An ideal course for students wishing to explore European culture and civilisation.

Stage II

EUROPEAN 200 15 Points  

Screening Europe  
Europe's rich and distinctive film tradition provides an opportunity to examine issues of contemporary Europe and its individual nations. This course examines the sources, complexities and resonances of a number of European films and the ways in which they refer, directly or obliquely, to historical, social and political issues around the concept of Europe. The films shown will all be subtitled.  
Prerequisite: 30 points passed in BA or BGlobalSt courses  
Restriction: EUROPEAN 300

EUROPEAN 204 15 Points  
Special Topic

EUROPEAN 206 15 Points  

European Integration  
This cross-disciplinary course examines political, economic, social and cultural integration and its effects in the fabric of contemporary Europe. Issues addressed include identity, immigration and citizenship in Europe, and matters pertaining to the European Union: its political form, enlargement, foreign and security policy, economic and monetary policy, and the European constitution.  
Prerequisite: 30 points passed at Stage I  
Restriction: EUROPEAN 302

EUROPEAN 207 15 Points  

European Drama: Greatest Hits  
Considers important themes and stylistic innovations in European drama through the study of a selection of great plays and playwrights from a number of European countries.  
Prerequisite: 30 points passed in BA courses or Transnational Cultures and Creative Practice  
Restriction: EUROPEAN 307

EUROPEAN 222 15 Points  

European Cinema and The City  
Focuses on the vibrant dialogue on the relationship between European film as a cultural form and the city as social organisation, highlighting the many levels on which the two have been inextricably linked, from the end of the nineteenth century to the present.  
Prerequisite: 30 points passed in BA or BGlobalSt courses  
Restriction: EUROPEAN 322

Stage III

EUROPEAN 300 15 Points  

Screening Europe  
Europe's rich and distinctive film tradition provides an opportunity to examine issues of contemporary Europe and its individual nations. This course examines the sources, complexities and resonances of a number of European films and the ways in which they refer, directly or obliquely, to historical, social and political issues around the concept of Europe. Course Prescriptions

FRENCH

Stage I

FRENCH 101 15 Points

Introductory French Language 1

Introduces students to spoken and written French. It is delivered through two 90-minute sessions per week on campus, blended with an on-line component that uses up-to-date methodology and extensive multimedia materials. It is open to beginners or near beginners. Students who have achieved 24 recent credits in Level 1 NCEA French or 12-16 recent credits in Level 2 NCEA French (or equivalent previous study) should enrol in FRENCH 102. FRENCH 101 does not count towards a major in French. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Prerequisite: FRENCH 101, or approval of Academic Head or nominee

FRENCH 101G 15 Points

Stage II

FRENCH 203 15 Points

Intermediate French Language 1

Consolidates and expands previously acquired knowledge and skills to an intermediate proficiency in everyday authentic French language. Delivered through two 90-minute sessions per week on campus, blended with on-line learning tasks that use extensive multimedia materials. A range of activities are used to develop speaking, listening, reading and writing skills and students' strategies for autonomous learning. Note: Students with NCEA level 2 French should enrol in this course. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Prerequisite: FRENCH 101, or approval of Academic Head or nominee

FRENCH 204 15 Points

Intermediate French Language 2

Topic-based oral and written expression, aural and written comprehension in French, covering a wide range of personal and professional situations. This course is designed for students who have passed FRENCH 203 or 269. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Prerequisite: 15 points from FRENCH 203, 269, or approval of Academic Head or nominee

FRENCH 214 15 Points

French Linguistics

A presentation, in French, of key aspects of French linguistics relevant to the study and teaching of French as a first or second language, including phonetics, phonology, morphology and syntax. The course assumes no prior specialist knowledge of this field.

Prerequisite: 15 points from FRENCH 204, 269, 304

Restriction: FRENCH 314

FRENCH 229 15 Points

The French-speaking World

A study of culture in texts and films from France, North Africa, Africa, Canada, the Caribbean and the Pacific.

Prerequisite: 15 points from FRENCH 204, 269, 304

Restriction: FRENCH 329

FRENCH 241 15 Points

Reading French Literature

Introducing students to a variety of critical approaches, this course aims to provide a basic literary framework through the analysis of selected texts representing a range of genres and periods. Taught in French.

Prerequisite: 15 points from FRENCH 204, 269, 304

Restriction: FRENCH 379

FRENCH 244 15 Points

Modern France: History and Culture

An analysis of how France has been shaped by diverse historical and cultural legacies since the sixteenth century. Topics include the role of religion, the transformations of the State, the significance of Revolution, and the role of war and colonial expansion in modern French history.

Prerequisite: 30 points at Stage I

Restriction: FRENCH 231, 313, 344

FRENCH 269 15 Points

French Language and Culture in Film and Literature

A linguistic and cultural course taught entirely in French and designed to enhance students' aural, oral and written proficiency through the study of a series of recent films and literary texts that also shed light on important aspects of twentieth-century France. This course is designed for students with 24 credits in Level 3 NCEA French, or who have passed FRENCH 203.

Prerequisite: 15 points from FRENCH 203, 204, 304, or approval of Academic Head or nominee

Restriction: FRENCH 129

FRENCH 277 15 Points

French Study Abroad 2A

Formal language study in an approved overseas institution where the language of instruction is French.

Prerequisite: Permission of Academic Head or nominee

FRENCH 278 15 Points

French Study Abroad 2B

Formal language study in an approved overseas institution where the language of instruction is French.

Prerequisite: Approval of Academic Head or nominee

FRENCH 279 15 Points

Special Topic: Panorama of the French Novel

A study of the changing forms of the novel from the representations of the seventeenth century court in Madame de Lafayette’s La Princesse de Cléves to the twentieth century experiments of the French ‘new novelists’. Taught in French.

Prerequisite: 15 points from FRENCH 204, 269, 304

Restriction: FRENCH 341, 741

Stage III

FRENCH 302 15 Points

Special Topic
FRENCH 304
**Advanced French Language 1**
15 Points
Strengthens students’ command of reading, writing, speaking and listening in French. Organised thematically and uses both textual and audio-visual material to introduce students to a range of communicative registers. May not be taken if a more advanced language acquisition course in this subject has previously been passed.
Prerequisite: FRENCH 304

FRENCH 305
**Advanced French Language 2**
15 Points
Further extends students’ French language skills through textual and audio-visual material, enabling them to attain a high level of oral and written proficiency.
Prerequisite: FRENCH 304

FRENCH 306
**Medieval French Language and Culture: Love and Laughter in the Middle Ages**
15 Points
The main focus will be on language and literature, placing works in their historical and cultural contexts.
Prerequisite: FRENCH 304
Restriction: FRENCH 706

FRENCH 314
**French Linguistics**
15 Points
A presentation, in French, of key aspects of French linguistics relevant to the study and teaching of French as a foreign language, including phonetics, phonology, morphology and syntax. The course assumes no prior specialist knowledge of this field.
Prerequisite: FRENCH 304
Restriction: FRENCH 214

FRENCH 320
**French Translation Practice**
15 Points
A course for students wishing to develop skills in translation and to increase their proficiency in using French in a professional or business environment.
Prerequisite: FRENCH 304
Restriction: FRENCH 720

FRENCH 329
**The French-speaking World**
15 Points
Prerequisite: FRENCH 304
Restriction: FRENCH 229

FRENCH 331
**Special Study in French**
15 Points
A research project approved by the Academic Head.
Prerequisite: FRENCH 304 and approval of Academic Head or nominee

FRENCH 341
**Panorama of the French Novel**
15 Points
A study of the changing forms of the novel from the representations of the seventeenth century court in Madame de Lafayette’s *La Princesse de Clèves* to the twentieth century experiments of the French ‘new novelists’. Taught in French.
Prerequisite: FRENCH 304
Restriction: FRENCH 279, 741

FRENCH 344
**Modern France: History and Culture**
15 Points
An analysis of how France has been shaped by diverse historical and cultural legacies since the sixteenth century. Topics include the role of religion, the transformations of the State, the significance of revolution, and the role of war and colonial expansion in modern French history.
Prerequisite: 30 points at Stage II
Restriction: FRENCH 231, 244, 313

FRENCH 377
**French Study Abroad 3A**
15 Points
Formal language study in an approved overseas institution where the language of instruction is French.
Prerequisite: Approval of Academic Head or nominee

FRENCH 378
**French Study Abroad 3B**
15 Points
Formal language study in an approved overseas institution where the language of instruction is French.
Prerequisite: Approval of Academic Head or nominee

FRENCH 379
**Special Topic: Reading French Literature**
15 Points
Introducing students to a variety of critical approaches, this course aims to provide a basic literary framework through the analysis of selected texts representing a range of genres and periods. Taught in French.
Prerequisite: FRENCH 304
Restriction: FRENCH 241

**Postgraduate 700 Level Courses**

FRENCH 701
**Old French: The Medieval Romance**
30 Points
The evolving medieval French romance with particular emphasis on the *Roman de la Rose* as the quintessential medieval study of human nature.

FRENCH 704
**Special Topic**
15 Points

FRENCH 705
**Advanced Language**
30 Points
Advanced language practice in French, with emphasis on close-reading, textual summary and synthesis of both aural and written texts. French techniques of writing will be studied and students will apply these in written assignments.
Prerequisite: FRENCH 305 or placement test and approval of Academic Head or nominee
Restriction: FRENCH 702, 703

FRENCH 706
**Medieval French Literature and Culture: Love and Laughter in the Middle Ages**
30 Points
The main focus will be on language and literature, placing works in their historical and cultural contexts.
Restriction: FRENCH 306

FRENCH 707
**Specialised French Translation 1**
15 Points
Theoretical approaches to translation will be taught through the study of specific authentic texts. Students will use both theoretical and practical knowledge to analyse and produce professional quality translations in a specialised field. Fields covered will be chosen from: literary translation, indigenous Francophone texts, sub-titling for film and television, marketing and advertising, technical and legal or other highly specialised texts.

FRENCH 708
**Specialised French Translation 2**
15 Points
Theoretical approaches to translation will be taught through the study of specific authentic texts. Students will use both
theoretical and practical knowledge to analyse and produce professional quality translations in a specialised field. Fields covered will be chosen from: literary translation, indigenous Francophone texts, sub-titling for film and television, marketing and advertising, technical and legal or other highly specialised texts.

FRENCH 710 30 Points
FRENCH 710A 15 Points
FRENCH 710B 15 Points
Special Topic
To complete this course students must enrol in FRENCH 710 A and B, or FRENCH 710

FRENCH 711 15 Points
Theory and Text
Survey of the most important twentieth-century French literary critics and critical movements. Taught in English.

FRENCH 715 15 Points
Special Topic

FRENCH 720 30 Points
FRENCH 720A 15 Points
FRENCH 720B 15 Points
Advanced French Translation
A study of translation theory and intensive practice in the translation of a variety of texts.
Restriction: FRENCH 320
To complete this course students must enrol in FRENCH 720 A and B, or FRENCH 720

### German

#### Stage I

**GERMAN 101**
15 Points

**GERMAN 101G**
15 Points

**German Language Introductory 1**

Written and oral use of German for students with no previous knowledge of the language or with fewer than 16 credits in NCEA Level 2 German.

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

---

**GERMAN 102**
15 Points

**German Language Introductory 2**

Written and oral use of German. Assumes that students have passed GERMAN 101 or have at least 16 credits in NCEA Level 2 German.

Prerequisite: GERMAN 101 or approval of Academic Head or nominee

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

---

**GERMAN 178**
15 Points

**German Study Abroad I**

Course of at least 3 weeks in length and 60 taught hours on German language and/or culture to be taken at an approved academic institution in a German-speaking country.

Prerequisite: Approval of Academic Head or nominee

---

### Stage II

**GERMAN 200**
15 Points

**German Language Intermediate 1**

Written and oral use of German. Assumes that students have passed GERMAN 102 or have achieved in all standards entered for German NCEA Level 3 or gained grade average 50 or above, or have acquired language competence through a stay or exchange in a German-speaking country.

Prerequisite: GERMAN 102 or approval of Academic Head or nominee

Restriction: GERMAN 104. May not be taken if a more advanced language acquisition course in this subject has previously been passed

---

**GERMAN 201**
15 Points

**German Language Intermediate 2**

Written and oral use of German.

Prerequisite: GERMAN 104 or 200

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

---

**GERMAN 202**
15 Points

**Special Topic: Topics in German Culture and Language**

A critical exploration of important issues in German Studies. The first part investigates German language studies, including the specifics of written and oral German, contrastive linguistics, dialects and varieties, German as a minority language (including in the South Pacific), youth language, and German online-communication.

The second part examines modern German social and cultural history through works of literature and film.

Prerequisite: GERMAN 102

Restriction: GERMAN 392

---

**GERMAN 207**
15 Points

**Modern Germany: A century of social change**

An overview of German society from 1914 to the present, exploring social change in late Imperial Germany the Weimar Republic, Nazi Germany, and the reconstruction of both East and West Germany. Considers issues such as state surveillance, political terrorism, social impacts of German unification, globalisation, and Germany’s role within Europe. No knowledge of German is required.

Prerequisite: 60 points passed

Restriction: GERMAN 307

---

A study of post-1990 German literary texts as well as their social and political environment. Topics include: literary responses to a newly developing national identity, literary reconstructions of life in the GDR, literary representations of a united Germany by immigrants, Jewish identity in a united Germany. Authors considered include Jens...
GERMAN 212 15 Points
Special Study in German
A topic arranged and approved by the Academic Head or nominee.
Prerequisite: Approval of Academic Head or nominee

GERMAN 213 15 Points
Introduction to German Linguistics
Introduction to the linguistic side of Modern German, examining some of its different varieties (spoken vs written, sociolinguistic and others) and some recent changes the language has undergone in its structure.
Prerequisite: GERMAN 102
Restriction: GERMAN 313

GERMAN 214 15 Points
Teaching German as a foreign language
Provides an overview of teaching and learning German as a second or heritage language. Students gain a solid understanding of German teaching and learning, including concepts and theories behind second language learning, individual differences, learning needs, approaches to strengthen learner autonomy, as well as methods and principles of teaching German.
Prerequisite: GERMAN 201 or equivalent
Restriction: GERMAN 314

GERMAN 230 15 Points
German Cinema from Murnau to Riefenstahl
A close analysis of film from the Weimar Republic and the Third Reich as seen against the political and social upheavals of the time with an emphasis on the role of gender and the portrayal of gender in film.
Prerequisite: Any 30 points passed in BA courses
Restriction: GERMAN 331

GERMAN 277 15 Points
German Study Abroad 2A
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

GERMAN 278 15 Points
German Study Abroad 2B
Course taken at an approved academic institution abroad.
Prerequisite: GERMAN 277 and approval of Academic Head or nominee

GERMAN 290 15 Points
Special Topic

GERMAN 291 15 Points
Central Europe and the South Pacific
A study of the German connection with New Zealand, with special reference to the arts and sciences, German-speaking settlements in the nineteenth century, and German and Austrian refugees in the twentieth century.
Prerequisite: 45 points in German
Restriction: GERMAN 391

Stage III

GERMAN 301 15 Points
German Language Advanced 1
Enables students to understand the main ideas of a wide range of complex texts on both concrete and abstract topics and to increase fluency both in oral and written communication. Brings students from proficiency level B1 to B2.1. The course is taught in German.
Prerequisite: GERMAN 201 or 203
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

GERMAN 302 15 Points
German Language Advanced 2
German language acquisition at an advanced level. Advances students from B2.1 level to B2.2 level, i.e., completes the B2 proficiency stage in all four skills: reading, writing, speaking and listening. The course is taught in German.
Prerequisite: GERMAN 301

GERMAN 303 15 Points
Contemporary German Literature
A study of post-1990 German literary texts as well as their social and political environment. Topics include: literary responses to a newly developing national identity, literary reconstructions of life in the GDR, literary representations of a united Germany by immigrants, Jewish identity in a united Germany. Authors considered include Jens Sparschuh, Monika Maron, Barbara Honigmann, Stefan Heym and others.
Prerequisite: GERMAN 201
Restriction: GERMAN 211

GERMAN 305 15 Points
Translation
The theory, practice and critical evaluation of translation, principally of texts translated from German into English. Not intended for students enrolled in the Postgraduate Diploma in Translation Studies.
Prerequisite: GERMAN 301

GERMAN 306 15 Points
Language Acquisition C1
Offers language tuition in the German language on the C1 level of the European Reference Framework for language acquisition courses.
Prerequisite: GERMAN 302
Restriction: GERMAN 701, 703

GERMAN 307 15 Points
Modern Germany: A century of social change
An overview of German society from 1914 to the present, exploring social change in late Imperial Germany, the Weimar Republic, Nazi Germany, and the reconstruction of both East and West Germany. Considers issues such as state surveillance, political terrorism, social impacts of German unification, globalisation, and Germany’s role within Europe. No knowledge of German is required.

GERMAN 310 15 Points
Classicism, Romanticism, Realism
Literary criticism of selected major works of German literature of the eighteenth and nineteenth centuries.
Prerequisite: 45 points above Stage I in German

GERMAN 312 15 Points
Directed Reading and Research
Supervised research projects.
Prerequisite: Approval of Academic Head or nominee

GERMAN 313 15 Points
Introduction to German Linguistics
Introduction to the linguistic side of Modern German, examining some of its different varieties (spoken vs written,
sociolects etc) and some recent changes the language has undergone in its structure.
Prerequisite: GERMAN 201
Restriction: GERMAN 213

GERMAN 214 15 Points
Teaching German as a Foreign Language
Provides an overview of teaching and learning German as a second or heritage language. Students gain a solid understanding of German teaching and learning, including concepts and theories behind second language learning, individual differences, learning needs, approaches to strengthen learner autonomy as well as methods and principles of teaching German.
Prerequisite: GERMAN 201
Restriction: GERMAN 213

GERMAN 220 15 Points
20th Century German Literature
Examines key literary works of prose, poetry and drama against the backdrop of major cultural, social and political shifts in Germany during the twentieth century. Two World Wars, the Weimar Republic, a divided and reunited Germany will be a special focus of the texts examined in this course.
Prerequisite: GERMAN 201
Restriction: GERMAN 210

GERMAN 320 15 Points
German Cinema from Murnau to Riefenstahl
A close analysis of film from the Weimar Republic and the Third Reich as seen against the political and social upheavals of the time with an emphasis on the role of gender and the portrayal of gender in film.
Prerequisite: 30 points passed in German above Stage I
Restriction: GERMAN 230

GERMAN 377 15 Points
German Study Abroad 3A
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

GERMAN 378 15 Points
German Study Abroad 3B
Course taken at an approved academic institution abroad.
Prerequisite: GERMAN 377 and approval of Academic Head or nominee

GERMAN 391 15 Points
Central Europe and the South Pacific
A study of the German connection with New Zealand, with special reference to the arts and sciences, German-speaking settlements in the nineteenth century, and German and Austrian refugees in the twentieth century.
Prerequisite: GERMAN 201
Restriction: GERMAN 291

GERMAN 392 15 Points
Special Topic: Topics in German Culture and Language
A critical exploration of important issues in German Studies. The first part investigates German language studies, including the specifics of written and oral German, contrastive linguistics, dialects and varieties, German as a minority language (including in the South Pacific), youth language, and German online-communication. The second part examines modern German social and cultural history through works of literature and film.

Global Studies

Stage I

GLOBAL 101  15 Points  
GLOBAL 101G  15 Points  
**Global Issues, Sustainable Futures**  
The basis for sustainability – social issues such as population and consumption, environmental issues such as climate change, limited resources and environmental degradation. Discusses the roles that various disciplines (law, business, engineering and urban planning) will play in developing solutions, including consideration of human rights and good governance, new concepts in economics and business management which will lead to sustainable businesses, developments in science and technology which will change how we manage resources and new visions for cities and communities which will support sustainable ways of life.  
*Restriction: GENED 101G*

GLOBAL 102  15 Points  
**Introduction to Global Studies**  
Focuses on transdisciplinary frameworks underpinning the field and uses case studies to illustrate its key concepts. Explores global studies as a critical field of inquiry and covers transdisciplinary themes from the four major streams in global studies.
### Stage II

**GLOBAL 200**  
**Global Challenges**  
Engages with real-world challenges that evoke key global studies themes such as global economic complexity and interdependence; globalisation and identity; cyberspace and netizenship; environmental and health challenges; global citizenship and responsibility. A workshop-based format prioritises teamwork where students produce a joint project in response to their chosen challenge. Provides research methods training to enable students to produce a research proposal for their capstone project.  
Prerequisite: GLOBAL 100 or 102

**GLOBAL 201**  
**Special Topic**  
Prerequisite: 60 points at Stage I in Global Studies

**GLOBAL 202**  
**Special Topic**  
Prerequisite: 60 points at Stage I in Global Studies

**GLOBAL 204**  
**Global Issues Through the European Arts**  
Investigates how artistic productions from different European traditions engage with and shape the world’s most pressing global issues. Considers the socio-political and cultural context of such productions, their ideological orientation and limitations. Uses case studies on the transnational dimensions of migration and exile, unsustainable environmental development, financial and health inequality, sexual slavery and drug trafficking, gender equality and political conflicts.  
Prerequisite: 60 points passed in Global Studies  
Restriction: GLOBAL 304

**GLOBAL 250**  
**Special Topic**  
Prerequisite: 60 points at Stage I in Global Studies

**GLOBAL 251**  
**Migration in the Americas**  
Examines migration in the Americas by exploring the responses of local communities and peoples in Central and South America to international involvement. Discusses the role of global power (and super power) in the region, the connections between historic US action and contemporary migration, and the ways these intersect with issues such as indigenous rights, self-governance and environmental activism.  
Prerequisite: 60 points passed at Stage I  
Restriction: GLOBAL 351

**GLOBAL 252**  
**Asian Cities: Growth and Transition**  
Explores urbanisation and development in Asia as processes from a variety of disciplinary approaches to provide a comprehensive global studies analysis of these interrelated concepts. Focuses on critical topics such as pollution, housing, labour, gender, mobility, and education. The geographical breadth of the course covers East, Southeast, and South Asia.  
Prerequisite: 60 points passed at Stage I  
Restriction: GLOBAL 352

**GLOBAL 277**  
**Study Abroad 2A**  
Course taken at an approved academic institution abroad.  
Prerequisite: Approval of Academic Head or nominee

### Stage III

**GLOBAL 278**  
**Study Abroad 2B**  
Course taken at an approved academic institution abroad.  
Prerequisite: Approval of Academic Head or nominee

**GLOBAL 279**  
**Study Abroad 2C**  
Course taken at an approved academic institution abroad.  
Prerequisite: Approval of Academic Head or nominee

**GLOBAL 280**  
**Study Abroad 2D**  
Course taken at an approved academic institution abroad.  
Prerequisite: Approval of Academic Head or nominee

**GLOBAL 300**  
**Research Project**  
This capstone course provides the opportunity for the synthesis and application of skills and knowledge developed throughout the degree programme. Students complete a research project that applies all the components of the degree.  
Prerequisite: GLOBAL 200

**GLOBAL 301**  
**Special Topic**  
Prerequisite: 60 points at Stage II in Global Studies

**GLOBAL 302**  
**Special Topic**  
Prerequisite: 60 points at Stage II in Global Studies

**GLOBAL 304**  
**Global Issues Through the European Arts**  
Investigates how artistic productions from different European traditions engage with and shape the world’s most pressing global issues. Considers the socio-political and cultural context of such productions, their ideological orientation and limitations. Uses case studies on the transnational dimensions of migration and exile, unsustainable environmental development, financial and health inequality, sexual slavery and drug trafficking, gender equality and political conflicts.  
Prerequisite: 60 points passed in Global Studies  
Restriction: GLOBAL 204

**GLOBAL 350**  
**Special Topic**  
Prerequisite: 60 points at Stage II in Global Studies

**GLOBAL 351**  
**Migration in the Americas**  
Examines migration in the Americas by exploring the responses of local communities and peoples in Central and South America to international involvement. Discusses the role of global power (and super power) in the region, the connections between historic US action and contemporary migration, and the ways these intersect with issues such as indigenous rights, self-governance and environmental activism.  
Prerequisite: 30 points passed at Stage II  
Restriction: GLOBAL 251

**GLOBAL 352**  
**Asian Cities: Growth and Transition**  
Explores urbanisation and development in Asia as processes from a variety of disciplinary approaches to provide a comprehensive global studies analysis of these interrelated concepts. Focuses on critical topics such as
pollution, housing, labour, gender, mobility, and education. The geographical breadth of the course covers East, Southeast, and South Asia.

Prerequisite: 30 points passed at Stage II
Restriction: GLOBAL 252

GLOBAL 377 15 Points
Study Abroad 3A
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

GLOBAL 378 15 Points
Study Abroad 3B
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

GLOBAL 379 15 Points
Study Abroad 3C
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

GLOBAL 380 15 Points
Study Abroad 3D
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

Postgraduate 700 Level Courses

GLOBAL 700 30 Points
Themes in Global Studies
Critically reviews the field of Global studies from an advanced theoretical perspective. Readings explore key concepts such as globalisation/antiglobalisation, inequality, transnationalism, labour, the environment, and public health. Emphasis on transdisciplinary theories concerning human rights, environmental sustainability, global business, Māori and indigenous issues, and cultural industries.

GLOBAL 701 30 Points
Contemporary Issues in Global Studies
Considers the current landscape of Global Studies at the intersection of theory and case studies. Investigates the novelty and challenges in approaching the world’s most pressing problems using a Global Studies-inflected theoretical lens. Uses case studies from the Pacific and driven by indigenous knowledge to solve practical problems like social, economic, and health inequality, unsustainable environmental development, and political conflict.

GLOBAL 702 30 Points
Global Studies Research Design
An advanced examination of research design approaches with an emphasis on non-Western, Māori/Pacific, and indigenous methodologies. Surveys Global Studies methods and research design pathways, including those established in the Pacific and in indigenous contexts. Explorers methods required for advanced studies in the field.

Health and Society

Stage I

HLTHSOC 100  15 Points
Introduction to Critical Global Health
An introduction to how the social sciences and humanities shed light on understandings of the social, political-economic, historical and cultural dynamics that underpin contemporary healthcare, medical practices and knowledge-production, and experiences of health and illness around the world. Examines real-life case studies using a range of health social science approaches.

HLTHSOC 201  15 Points
Medicine, Power and Politics
Explores the interplay between cultural values, local and national politics, and global health programmes and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings, with a focus on issues of scientific expertise, patient empowerment and government involvement in healthcare.
Prerequisite: HLTHSOC 100
Restriction: ANTHRO 366

HLTHSOC 202  15 Points
Global Health and Development
Introduces a critical social science approach to the study of health and globalisation, tracing historical genealogies from colonial hygiene movements, to international public health in the development sector, through to contemporary global health institutions and their governance structures. Current issues and case studies in health and development including the roles of Non-Governmental Organisations (NGOs), participatory approaches, and human rights frameworks.
Prerequisite: HLTHSOC 100, or 15 points at Stage I in Anthropology, Gender Studies, Health and Society, Politics and International Relations or Sociology, or 15 points at Stage II in Global Studies
Restriction: DEVELOP 716, HLTHSOC 202

HLTHSOC 203  15 Points
Contemporary Issues: Pandemics
Examines contemporary and historical pandemics in terms of their social and cultural impact, political-economic facets, and implications for health and healthcare. Topics include the social ramifications of states of emergency; the ethical implications of vaccines and other healthcare measures; religious, activist and NGO responses.
Prerequisite: 15 points at Stage I

Stage II

HLTHSOC 201  15 Points
Medicine, Power and Politics
Explores the interplay between cultural values, local and national politics, and global health programmes and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings, with a focus on issues of scientific expertise, patient empowerment and government involvement in healthcare.

HLTHSOC 202  15 Points
Global Health and Development
Introduces a critical social science approach to the study of health and globalisation, tracing historical genealogies from colonial hygiene movements, to international public health in the development sector, through to contemporary global health institutions and their governance structures. Current issues and case studies in health and development including the roles of Non-Governmental Organisations (NGOs), participatory approaches, and human rights frameworks.
Prerequisite: HLTHSOC 100, or 15 points at Stage I in Anthropology, Gender Studies, Health and Society, Politics and International Relations or Sociology, or 15 points at Stage II in Global Studies
Restriction: DEVELOP 716, HLTHSOC 202

HLTHSOC 203  15 Points
Contemporary Issues: Pandemics
Examines contemporary and historical pandemics in terms of their social and cultural impact, political-economic facets, and implications for health and healthcare. Topics include the social ramifications of states of emergency; the ethical implications of vaccines and other healthcare measures; religious, activist and NGO responses.
Prerequisite: 15 points at Stage I

HLTHSOC 303  15 Points
The Body
Examines cultural and historical variations in how societies understand and experience the human body, with a focus on social, historical, philosophical and political-economic approaches. Topics such as political violence, sport, health, illness, sexuality, gender and religious ritual will be considered. Case studies explore the cultural construction and social experience of the human body in a diverse range of global settings.
Prerequisite: 30 points at Stage II in Health and Society
Restriction: ANTHRO 354

HLTHSOC 304  15 Points
Violence and Pain
Examines the meanings of violence and the various forms it might take, as well as how violence and pain shape ideas about personhood, the body, community and the state. Examines how experiences of pain are communicated, how various forms of violence shape and transform daily life, and how the study of health social science can address these impacts.
Prerequisite: HLTHSOC 201 and 15 points at Stage II in BA courses
Restriction: ANTHRO 743

HLTHSOC 305  15 Points
Culture, Science and Technology
Examines the interplay between culture, scientific knowledge and practice, and technological development with respect to health and illness. Focusing on the social, cultural, ethical, and political dimensions of science and technology, the course introduces students to critical examinations of how knowledge, progress, innovation and expertise are constituted across a variety of global settings.
Prerequisite: HLTHSOC 201 and 15 points at Stage II in BA courses
Restriction: ANTHRO 243

History

Stage I

HISTORY 103  15 Points
HISTORY 103G  15 Points

Global History
It is only since the fifteenth century that a truly global dimension to history can be identified. This course examines key determinants that have bound the fate of peoples together including the emergence of world trade networks, the growth of world religions, the spread of epidemic diseases, the formation of empires, and the migration of peoples across continents.

HISTORY 104  15 Points
Pacific History: An Introduction
Through analysing cross-cultural interactions and the
agency of Pacific peoples, this course examines major periods of change in Pacific history from the Indigenous settlement of the Pacific to the post-WWII world.

**HISTORY 107**  
**Titiro Whakamuri**  
15 Points

Explores Aotearoa New Zealand history by asking ‘ko wai tātou’? Who are we? Where are we? What – and who – is “Aotearoa New Zealand”? What does it mean to belong to this place, and how has this belonging changed over time? Who have been included and excluded in this history?  
Restriction: HISTORY 122, 123

**HISTORY 108**  
**Rise and Fall of the USA**  
15 Points

Examines the major themes and events in the history of the United States from the colonial period to the present. It focuses on the making and remaking of American identity, the promises and paradoxes of American freedom, struggles for justice, and the sources and implications of US power in global perspective.  
Restriction: HISTORY 105

---

**Stage II**

**HISTORY 201**  
**Special Topic**  
15 Points

Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 318

**HISTORY 205**  
**Bloodlands: Global Warfare**  
15 Points

Asks historical questions about warfare in the modern era. Analyses conflicts and state violence and their impacts on people and their governments in a global setting. Themes include: the causes, course and consequences of warfare; restraint in warfare; ideologies of war and peace; civil war and revolution; imperial warfare; genocide; the human impact and context of war.  
Prerequisite: 15 points at Stage I in History and 30 points passed or 30 points at Stage I in Global Politics and Human Rights  
Restriction: HISTORY 309

**HISTORY 208**  
**African-American Freedom Struggles: USA 1900-2000**  
15 Points

An examination of the experience of African Americans during the ‘long civil rights movement’ of the twentieth century, emphasising the depth and breadth of Black oppositional spirit and activity, the achievements, and remaining challenges.  
Prerequisite: 15 points at Stage I in History and 30 points passed, or HISTORY 103 and 30 points passed in Global Politics and Human Rights  
Restriction: HISTORY 308

**HISTORY 210**  
**Health, Medicine and Society**  
15 Points

Examines the rise of modern Western medicine since 1850 and its impact, with a particular emphasis on Britain and its colonies. Topics include public health, hospitals, nursing, psychiatry, sexual health, reproductive health, child health, tuberculosis, medicine and war, and alternative medicines.  
Prerequisite: 15 points at Stage I in History and 30 points passed at Stage I, or HLTHSOC 100 and 30 points passed  
Restriction: HISTORY 367

**HISTORY 213**  
**Mao Zedong, Revolution and China**  
15 Points

An overview of modern Chinese history (late nineteenth century to around 1980), using the life of Mao Zedong (1893-1976) as a jumping-off point for discussions of Chinese political and cultural history. Topics include: the fall of the Qing dynasty, Western imperialism, World War II, the Cultural Revolution, economic reforms since 1976, women's history, and religions in China.  
Prerequisite: 60 points passed  
Restriction: HISTORY 313

**HISTORY 217**  
**Nazi Germany and its Legacies**  
15 Points

An in-depth look into a period of history that has simultaneously fascinated and horrified generations of people around the world. Topics include: the origins of Nazism, Adolf Hitler and the rise of the NSDAP, life in Nazi Germany in peace and war, Hitler's foreign policy, the Second World War, the Holocaust and its myriad legacies in history and popular culture.  
Prerequisite: 45 points passed  
Restriction: HISTORY 317

**HISTORY 224**  
**Old Regime and Revolution: France, 1750-1815**  
15 Points

The French Revolution is recognised as a founding event of modern history. Revolutionaries reinvented political liberty, civic equality, democratic suffrage, human rights; but also invented gender discrimination, political terror, ideological war, dictatorship. We explore this through readings and discussions that examine the origins of the Revolution, the collapse of the monarchy, the experiment of mass democracy, and the Revolution's disputed legacies.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 324

**HISTORY 225**  
**Samurai and Scholars: Early Modern China and Japan**  
15 Points

Early modern China and Japan shared not only geographical space in East Asia but also a history of cultural interaction, trade, and an enduring interest in Confucianism as a moral, philosophical, and social framework. This course explores and compares the government, trade, and culture of these two societies with a focus on the structures and patterns of everyday life.  
Prerequisite: 60 points passed  
Restriction: HISTORY 222, 242, 322, 335, 342

**HISTORY 227**  
**Waitangi: Treaty to Tribunal**  
15 Points

A history of the Treaty of Waitangi and the Waitangi Tribunal. The course explores changing understandings of the Treaty and its role in New Zealand society and history since 1840. The establishment of the Waitangi Tribunal in 1975, the development of its work, and the historical and contemporary claims brought before it will also be studied.  
Prerequisite: 15 points at Stage I in History, Health and Society or Politics and International Relations, or MAORI 130 and 30 points passed  
Restriction: HISTORY 327

**HISTORY 233**  
**Australian History Since 1788**  
15 Points

A survey of the history of Australia from European occupation to the present. It focuses on the lives and experiences of ordinary Australians, as well as providing an overview of the major political and economic developments across two centuries.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 333
HISTORY 239 Medieval Cultures: Faith, Power, Identities 15 Points
Explores the social, cultural, religious and political histories of medieval Europe and its relations with wider worlds. Topics covered may vary from year to year, but will likely include social structures, the place of religious faith, gender relations, power and authority, ethnic identities, conflict and dissent, migrations, literary and artistic expressions, and responses to crises.
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 219, 254, 268, 319, 339, 354, 368

HISTORY 241 Making Sense of the Sixties: the USA 1954-1974 15 Points
An examination of the social, cultural and political history of the US in the 'long sixties', analysing the interplay of radicalism, liberalism and conservatism in this pivotal decade and giving attention to the sixties in historiography and popular memory.
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 341

HISTORY 243 Body and Blood: Religious Cultures and Conflicts c. 50-1650 15 Points
An introduction to Christianity, Islam and Judaism in the late antique and medieval periods and the conflicts which shaped them. It examines the roots of Christian and Muslim religious thinking, their interaction with Jewish and Pagan traditions, the Crusades, anti-Semitism, heresy, schisms within Christianity and the Reformation.
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 356

HISTORY 252 New Zealand Cultural History 15 Points
An introduction to changing ideas about New Zealand and New Zealand culture from colonial times to the present, considering, among other topics, the history of exploration and travel, the iconography of the nation, public and private commemorations and celebrations, the history of the body and the commercialisation of leisure.
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 352

HISTORY 257 Making Modern America 1865-1919 15 Points
A survey of the United States from the end of Reconstruction through the First World War that evaluates the role of ordinary people as well as influential figures. Themes include industrialisation; labour conflict and organisation; segregation; reform; literary and intellectual movements; popular culture; imperialism; politics and the state.
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 357

HISTORY 259 Special Topic 15 Points

HISTORY 270 Ireland since 1798 15 Points
Examines the history of Ireland from 1798 to the present. It investigates major developments in the social, cultural, political and economic history of the island from the United Irish Rising at the end of the eighteenth century to the early twenty-first century, including the creation of the state of Northern Ireland and ongoing attempts to secure a lasting peace there.
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 265, 365, 370

HISTORY 271 Atlantic Revolutions 15 Points
Introduces students to early modern Atlantic history. From the mid-16th to the early 19th centuries, revolutionary upheavals in the Netherlands, England, the Americas and France made the Atlantic basin a crucible of global change. Topics include state power and imperial competition; commercial and cultural interconnections; colonisation and conflict; local and transoceanic communication networks; and the experiences of revolutionary change.
Prerequisite: 60 points passed
Restriction: HISTORY 371

Stage III

HISTORY 300 Thinking History: Approaches to the Past 15 Points
Focuses on the study of history and how historians have understood and explained the past as well as the challenges facing the discipline today. Topics include post-structuralism and history, gender and history, the nature of historical memory and the impact of non-Western perspectives on the discipline.
Prerequisite: 15 points at Stage II in History and 60 points passed

HISTORY 308 African-American Freedom Struggles: USA 1900-2000 15 Points
An examination of the experience of African Americans during the 'long civil rights movement' of the twentieth century, emphasising the depth and breadth of Black oppositional spirit and activity, the achievements, and remaining challenges. Attention will also be given to the 'long civil rights movement' in historiography and popular memory.
Prerequisite: 15 points at Stage II in History and 60 points passed, or HISTORY 103 and 30 points at Stage II in Global Politics and Human Rights
Restriction: HISTORY 208

HISTORY 309 Bloodlands: Global Warfare 15 Points
Asks historical questions about warfare in the modern era. Analyses conflicts and state violence and their impacts on people and their governments in a global setting. Themes include: the causes, course and consequences of warfare; restrain in warfare; ideologies of war and peace; civil war and revolution; imperial warfare; genocide; the human impact and context of war.
Prerequisite: 15 points at Stage II in History and 60 points passed, or 30 points at Stage II in Global Politics and Human Rights
Restriction: HISTORY 205

HISTORY 313 Mao Zedong, Revolution and China 15 Points
An overview of modern Chinese history (late nineteenth century to around 1980), using the life of Mao Zedong (1893-1976) as a jumping-off point for discussions of Chinese political and cultural history. Topics include: the fall of the Qing dynasty, Western imperialism, World War II, the
Cultural Revolution, economic reforms since 1976, women's history, and religions in China.
Prerequisite: 90 points passed
Restriction: HISTORY 213

HISTORY 317
Nazi Germany and Its Legacies
15 Points
An in-depth look into a period of history that has simultaneously fascinated and horrified generations of people around the world. Topics include: the origins of Nazism, Adolf Hitler and the rise of the NSDAP, life in Nazi Germany in peace and war, Hitler's foreign policy, the Second World War, the Holocaust and its myriad legacies in history and popular culture.
Prerequisite: 15 points at Stage II and 60 points passed
Restriction: HISTORY 217

HISTORY 318
Special Topic
15 Points
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 201

HISTORY 324
Old Regime and Revolution in France c.1750-1815
15 Points
The French Revolution is recognised as a founding event of modern history. Revolutionaries reinvented political liberty, civic equality, democratic suffrage, human rights but also reinvented gender discrimination, political terror, ideological war, dictatorship. We explore this through readings and discussions that examine the origins of the Revolution, the collapse of the monarchy, the experiment of mass democracy, and the Revolution's disputed legacies.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 224

Waitangi: Treaty to Tribunal
15 Points
A history of the Treaty of Waitangi and the Waitangi Tribunal. The course explores changing understandings of the Treaty and its role in New Zealand society and history since 1840. The establishment of the Waitangi Tribunal in 1975, the development of its work, and the historical and contemporary claims brought before it will also be studied.
Prerequisite: 15 points at Stage II in History and 60 points passed, or HISTORY 103 and 30 points at Stage II in GlobalSt courses or Health and Society
Restriction: HISTORY 227

HISTORY 333
Australian History Since 1788
15 Points
A survey of the history of Australia from European occupation to the present. It focuses on the lives and experiences of ordinary Australians, as well as providing an overview of the major political and economic developments across two centuries.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 233

HISTORY 335
Samurai and Scholars: Early Modern China and Japan
15 Points
Early modern China and Japan shared not only geographical space in East Asia but also a history of cultural interaction, trade, and an enduring interest in Confucianism as a moral, philosophical, and social framework. This course explores and compares the government, trade, and culture of these two societies with a focus on the structures and patterns of everyday life.
Prerequisite: 90 points passed
Restriction: HISTORY 222, 225, 242, 322, 342

HISTORY 339
Medieval Cultures: Faith, Power, Identities
15 Points
Explores the social, cultural, religious and political histories of medieval Europe and its relations with wider worlds. Topics covered may vary from year to year, but will likely include social structures, the place of religious faith, gender relations, power and authority, ethnic identities, conflict and dissent, migrations, literary and artistic expressions, and responses to crises.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 219, 239, 254, 268, 319, 354, 368

HISTORY 341
Making Sense of the Sixties: the USA 1954-1974
15 Points
An examination of the social, cultural and political history of the US in the ‘long sixties’, analysing the interplay of radicalism, liberalism and conservatism in this pivotal decade and giving attention to the sixties in historiography and popular memory.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 241

HISTORY 352
New Zealand Cultural History
15 Points
An in-depth examination of the cultural history of nineteenth and twentieth century New Zealand considering, among other topics, the history of exploration and travel, the iconography of the nation, public and private commemorations and celebrations, the history of the body and the commercialisation of leisure.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 252

HISTORY 356
Body and Blood: Religious Cultures and Conflicts c.50-1650
15 Points
An in-depth analysis of Christianity, Islam and Judaism in the late antique and medieval periods and the conflicts which shaped them. It examines the roots of Christian and Muslim religious thinking, their interaction with Jewish and Pagan traditions, the Crusades, anti-Semitism, heresy, schisms within Christianity and the Reformation.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 243

HISTORY 357
Making Modern America 1865-1919
15 Points
An advanced survey of the United States from the end of Reconstruction through the First World War that evaluates the role of ordinary people as well as influential figures. Themes include industrialisation; labour conflict and organisation; segregation; reform; literary and intellectual movements; popular culture; imperialism; politics and the state.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 257
**HISTORY 367 15 Points**

**Health, Medicine and Society**
Examines the rise of modern Western medicine since 1850 and its impact, with a particular emphasis on Britain and its colonies. Topics include public health, hospitals, nursing, psychiatry, sexual health, reproductive health, child health, tuberculosis, medicine and war, and alternative medicines.
Prerequisite: 15 points at Stage II in History and 30 points passed, or HLTHSOC 201 and 30 points passed
Restriction: HISTORY 210

**HISTORY 370 15 Points**

**Ireland since 1798**
Examines the history of Ireland from 1798 to the present. It investigates major developments in the social, cultural, political and economic history of the island from the United Irish Rising at the end of the eighteenth century to the early twenty-first century, including the creation of the state of Northern Ireland and ongoing attempts to secure a lasting peace there.
Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 265, 270, 365

**Atlantic Revolutions**
Examines early modern Atlantic history. From the mid-16th to the early 19th centuries, revolutionary upheavals in the Netherlands, England, the Americas, and France made the Atlantic basin a crucible of global change. Topics include state power and imperial competition; commercial and cultural interconnections; colonisation and conflict; local and transoceanic communication networks; and the experiences of revolutionary change.
Prerequisite: 90 points passed
Restriction: HISTORY 271

---

**Postgraduate 700 Level Courses**

**HISTORY 700A 15 Points**

**HISTORY 700B 15 Points**

**Settlers and Empire**
Explores the histories of nineteenth and twentieth century British settler societies, with a particular focus on New Zealand, Australia and Canada. Examines the key conceptual frameworks and major themes for thinking about the comparative and transnational pasts of these settler societies.
To complete this course students must enrol in HISTORY 700 A and B

**HISTORY 705A 15 Points**

**HISTORY 705B 15 Points**

**Writing New Zealand**
A study of the writing of New Zealand history from nineteenth century accounts through to more recent, revisionist undertakings. Considers general and overview histories, as well as key texts and the debates generated by such works. Students will have an opportunity to undertake research on a topic of their own choosing.
To complete this course students must enrol in HISTORY 705 A and B

**HISTORY 706A 15 Points**

**HISTORY 706B 15 Points**

**Topics in European Cultural History**
An historical introduction to the relationship between ideologies, cultural practices, social structures and political institutions in Europe. Topics include: the political history of manners and court culture; public opinion and print culture; gender and consumerism; the history of the senses and the human body.
To complete this course students must enrol in HISTORY 706 A and B

**HISTORY 711A 15 Points**

**HISTORY 711B 15 Points**

**Texts and Contexts**
Takes a broad view of the histories of culture and of communication. It links aspects of the history of ideas (historical, political, religious, scientific, legal, cultural) to the modes of their transmission (objects, performances, languages, spoken, manuscript and printed texts). It relates a wide variety of texts to the historical circumstances of their generation and reception.
To complete this course students must enrol in HISTORY 711 A and B

**HISTORY 712A 15 Points**

**HISTORY 712B 15 Points**

**Insider Histories**
Considers histories from 'the inside', related debates about oral histories and oral history practice. Uses Māori histories as case studies to explore the use of oral sources and issues of subjectivity, offering practical historical research and analytical skills. Topics include: the nature of and problems with oral and other sources, balancing textual and oral sources, writing from a subject position.
To complete this course students must enrol in HISTORY 712 A and B

**HISTORY 713A 15 Points**

**HISTORY 713B 15 Points**

**Empire and Insurgency, 1840-1950**
Investigates insurgency within the British Empire between 1840 and 1950. Drawing upon examples including the Indian Rebellion of 1857 and the Irish Revolution, it explores how we can establish a framework for studying insurgencies, the challenges that arise for historians in comparing acts of rebellion, and how nationalist movements drew upon an empire-wide repertoire of insurgency to advance their objectives.
To complete this course students must enrol in HISTORY 713 A and B

**HISTORY 715A 15 Points**

**HISTORY 715B 15 Points**

**Topics in the History of War and Peace**
An exploration of the history and historiography of war, peace and state violence from a variety of perspectives, focusing on the modern period. Topics could include the course, conduct and consequences of inter-state, civil, revolutionary and imperial warfare as well as of peace-making, internationalism, humanitarianism and the regulation of warfare in international law. Integrates a range of approaches to the study of the past, including international, military, economic, cultural, legal and social histories.
Restriction: HISTORY 716
To complete this course students must enrol in HISTORY 715 A and B

**HISTORY 716 15 Points**

**Topics in the History of War and Peace**
An exploration of the history and historiography of war, peace and state violence from a variety of perspectives, focusing on the modern period. Topics could include the course, conduct and consequences of inter-state, civil,
revolutionary and imperial warfare as well as of peace-making, internationalism, humanitarianism and the regulation of warfare in international law. Integrates a range of approaches to the study of the past, including international, military, economic, cultural, legal and social histories.

Special Topic
To complete this course students must enrol in HISTORY 721 A and B

HISTORY 725A 15 Points
HISTORY 725B 15 Points

Health, Medicine and Society
Health and medicine within the context of the society of which they are part, with a special emphasis on New Zealand from 1840 to the present day. Various public health topics will be investigated including mental health, infant health and maternity, sexually transmitted diseases, tuberculosis, and the politics of health care.

Restriction: HISTORY 702
To complete this course students must enrol in HISTORY 725 A and B

HISTORY 734A 15 Points
HISTORY 734B 15 Points

Uncovering United States History
Explores the arguments, assumptions, and points of view that have created and continue to create historical knowledge of the United States. The course engages with the practice of United States history and historiography, emphasising historians’ ways of doing, thinking, valuing, and writing about the past.

To complete this course students must enrol in HISTORY 734 A and B

HISTORY 736A 15 Points
HISTORY 736B 15 Points

Medieval Women, c.1100-1500
A study of the history and historiography of medieval women, this course considers what medieval women’s history consists of, how it can or should be written, and why it is worth writing.

To complete this course students must enrol in HISTORY 736 A and B

HISTORY 737A 15 Points
HISTORY 737B 15 Points

Rethinking History
An examination of key issues in the theory and practice of history, with a focus on the controversies and consequences of the so-called “poststructuralist (or linguistic) turn” of the 1980s, as well as more recent challenges. The aim is to provide a self-reflexive approach to historians’ representations and interpretations of the past.

To complete this course students must enrol in HISTORY 797 A and B

HUMS 100G 15 Points

Digital Humanities: From Text to txt
An interdisciplinary course designed to introduce students to the Humanities using digital tools and resources. Students will study the approaches, texts and digital technologies of disciplines in the Humanities such as Art History, English, History, Philosophy, and Theological and Religious Studies. Students will expand their knowledge of the Humanities, extend their digital literacy and build critical and creative thinking skills.

Restriction: ARTSGEN 100G

HUMS 101 15 Points

Europe: Medieval to Modern
A thematic and chronological survey of major developments
in European history and visual culture since the early Middle Ages. The course is designed to provide a solid foundation for subsequent study in European history, art history and culture as well as an introduction to the nature of scholarly research and writing in the Humanities.

*Restriction: ARTHIST 106, 107, HISTORY 106*

### Stage III

#### HUMS 700 15 Points

**Critiquing the Museum**

An introduction to the history and theory of museums, and to institutional collecting and the interpretation of culture. Focuses on the role of museums in colonisation and nation building, involvement in globalising processes as well as the opportunities museums offer for social advocacy.

*Prerequisite: 15 points in BA courses*

### Indigenous Studies

#### Postgraduate 700 Level Courses

##### INDIGEN 700 30 Points

**Indigenous Theories**

Topics include cultural autonomy, political inclusion, land claims, urbanisation and indigenous rights. Through a close reading of key texts and engaging in seminar discussions, students will deepen their insight into the knowledge systems that embody indigenous world views and be able to critically and analytically engage with historical and contemporary issues in Indigenous Studies.

##### INDIGEN 701 15 Points

**Special Topic**

##### INDIGEN 702 30 Points

**Special Topic**

##### INDIGEN 710 15 Points

**Indigenous Methodologies**

Research had been a powerful tool of colonisation. This course seeks to explore traditional and new methodologies that are robust, ethical and culturally informed to study Indigenous and Indigenous-related issues. In developing an understanding of relevant methodologies, ethics/tikanga and cultural understanding in Indigenous Studies students will gain knowledge of the links between Indigenous epistemology, research methodology and application.

##### INDIGEN 711 30 Points

**Indigenous Environmental Politics**

Examines contemporary issues related to Indigenous peoples and the environment. There will be a particular focus on the interface between Indigenous peoples, governments and corporate bodies. Topics may include Indigenous responses to environmental degradation; Indigenous peoples and extractive industries; sustainable development; Indigenous environmental protest movements; land and treaty rights; traditional knowledge and resource protection; and Indigenous peoples and climate change.

##### INDIGEN 712 30 Points

**Indigenous Psychologies**

Examines the historical and material circumstances Indigenous peoples face and the emergence and development of Indigenous psychologies to respond to a range of social and psychological challenges. Covers topics relevant to Indigenous and non-Indigenous survival and flourishing including cultural contributions to health and collective and individual wellbeing.

### Dissertation - Level 9

Examines key research issues for indigenous peoples. Students will develop a focused understanding of relevant methodologies, ethics and cultural understandings in Indigenous Studies. Students will develop a research project that identifies a particular indigenous issue and implement an appropriate methodology.

*To complete this course students must enrol in INDIGEN 792 A and B, or INDIGEN 792*

### Italian

#### Stage I

##### ITALIAN 100 15 Points

**Introductory Italian Language**

Learn basic Italian language structures and communication skills, including common words and basic phrases concerning everyday life. Acquire skills of interacting verbally by asking and answering straightforward questions on familiar topics. The course is delivered through a combination of class instruction and interactive online activities. For students with no previous knowledge of Italian.

*Restriction: ITALIAN 106. May not be taken if an equivalent or more advanced language acquisition course in this subject has previously been passed.*

##### ITALIAN 106 15 Points

**ITALIAN 106G 15 Points**

**Italian Language for Beginners 1**

Students learn to speak, read and write Italian, studying aspects of contemporary Italian society and thought. This course does not count towards a major in Italian. For students with no previous knowledge of Italian.

*Restriction: ITALIAN 100. May not be taken if an equivalent or more advanced language acquisition course in this subject has previously been passed*

*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

##### ITALIAN 107 15 Points

**Italian Language for Beginners 2**

Learners further develop lexical, grammatical, cultural and communicative competence, allowing them to prepare for intermediate level grammar and to be operative in social situations requiring a direct exchange of information in the target language environment and areas of immediate need. Meets the standard of Basic User level A2 as set out by the Council of Europe’s Language Policy Unit.

*Prerequisite: ITALIAN 100 or 106*

*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

##### ITALIAN 177 15 Points

**Study Abroad 1**

Language course taken at an approved overseas institution where instruction is in Italian.

*Prerequisite: ITALIAN 106*

*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*
Stage II

ITALIAN 200  15 Points
Intermediate Italian Language 1
Develops writing, reading, speaking and listening skills to an intermediate level, through practice on a wide range of written texts and current audio-visual material.
Prerequisite: ITALIAN 107
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

ITALIAN 201  15 Points
Intermediate Italian Language 2
Continues to develop language skills at an intermediate level.
Prerequisite: ITALIAN 200
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

ITALIAN 202  15 Points
Engendered Voices (Texts in Italian)
A critical study of the representation of women’s experiences and issues of gender and culture, through an examination of literary texts and films by Italian women writers and filmmakers. Students will study texts in Italian.
Prerequisite: ITALIAN 200
Corequisite: ITALIAN 203, 335

ITALIAN 203  15 Points
Engendered Voices (Texts in English)
A critical study of the representation of women’s experiences and issues of gender and culture, through an examination of literary texts and films by Italian women writers and filmmakers. Students will study texts in English. This course does not count towards a major or minor in Italian. Students taking an Italian major or minor should take ITALIAN 202 instead.
Prerequisite: ITALIAN 202
Restriction: ITALIAN 203, 335

ITALIAN 206  15 Points
Special Topic
Prerequisite: ITALIAN 107

ITALIAN 235  15 Points
Special Topic
Prerequisite: ITALIAN 107
Corequisite: ITALIAN 200

ITALIAN 236  15 Points
Special Topic
Prerequisite: 90 points passed in BA courses

ITALIAN 277  15 Points
Italian Study Abroad 2A
Refer to the entry for Language Study Abroad.
Prerequisite: Approval of Academic Head or nominee

ITALIAN 278  15 Points
Italian Study Abroad 2B
Refer to the entry for Language Study Abroad.
Prerequisite: ITALIAN 277 and approval of Academic Head or nominee

Stage III

ITALIAN 300  15 Points
Advanced Italian Language
Builds on the language skills acquired in ITALIAN 200 and 201, focusing on selected topics in more specialised contexts.
Prerequisite: ITALIAN 201

ITALIAN 301  15 Points
Italian Translation Practice
Designed specifically for Stage III Italian students who have no prior formal experience in translation. The course will develop students’ reading, writing, listening and speaking skills in Italian, while introducing a fifth skill, that of translation.
Prerequisite: ITALIAN 200

ITALIAN 312  15 Points
Special Topic
Prerequisite: ITALIAN 107
Restriction: ITALIAN 211, 212

ITALIAN 313  15 Points
Special Topic
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 202, 204, 206, 209, 211, 235, 236

ITALIAN 330  15 Points
Modern Italian Fiction and Drama
Studies in selected fictional and dramatic works of the twentieth century and beyond. It considers the structures, topics and influence of these works and the ways in which they refer to historical, social and political issues as well as to literary and theatrical conventions.
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 202, 204, 206, 209, 211, 235, 236
Corequisite: ITALIAN 300 or equivalent language proficiency
Restriction: ITALIAN 331, 339, 712, 739

ITALIAN 335  15 Points
Engendered Voices (Texts in Italian)
A critical study of the representation of women’s experiences and issues of gender and culture, through an examination of literary texts and films by Italian women writers and filmmakers. Students will study texts in Italian.
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 204, 206, 209, 211, 235, 236
Restriction: ITALIAN 202, 203

ITALIAN 337  15 Points
Special Topic
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 202, 204, 206, 209, 211, 235, 236
Corequisite: ITALIAN 300

ITALIAN 338  15 Points
Special Topic
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 202, 204, 206, 209, 211, 235, 236
Corequisite: ITALIAN 300

ITALIAN 355  15 Points
Directed Study
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 202, 204, 206, 209, 211, 235, 236 and approval of Academic Head or nominee

ITALIAN 356  15 Points
Directed Study
Prerequisite: ITALIAN 201 and 15 points from ITALIAN 202, 204, 206, 209, 211, 235, 236 and approval of Academic Head or nominee

ITALIAN 377  15 Points
Italian Study Abroad 3A
Refer to the entry for Language Study Abroad.
Prerequisite: Approval of Academic Head or nominee
ITALIAN 378  
**Italian Study Abroad 3B**  
Refer to the entry for Language Study Abroad.  
*Prerequisite: ITALIAN 377 and approval of Academic Head or nominee*

ITALIAN 379  
**Study Abroad – Internship**  
Research-informed project based on an internship in an institution or organisation in Italy to gain both academic credit and work experience. Projects will be completed under the supervision of a workplace supervisor and assessed by a University of Auckland academic.  
*Prerequisite: Approval of Academic Head or nominee*

An integrated basic course in modern Japanese covering reading, writing, speaking and listening.  
*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*
situations. Note: Students with NCEA level 2 Japanese or equivalent should enrol in this course.
Prerequisite: JAPANESE 130 or approval of Academic Head or nominee
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 150  
Exploring Japan
Covers Japanese history, culture and society from the seventeenth century to the contemporary period, and serves as an introduction to Japan. Deals with such diverse topics as Japan under the Shoguns, Japan’s modernisation, the modern political system, Japan’s position in the world, popular culture, social structures and gender relations. No knowledge of the Japanese language is required.

JAPANESE 178  
Japanese Study Abroad 1
Formal language study in an approved overseas institution where instruction is in Japanese. May not be taken if a more advanced language acquisition course in this subject has previously been passed.
Prerequisite: Approval of Academic Head or nominee

Stage II

JAPANESE 222  
Structural Analysis of the Japanese Language
Structural analysis of the pronunciation, grammar, script and usage of the modern Japanese language.
Corequisite: JAPANESE 231 or 232

JAPANESE 231  
Japanese Language 2A
Further develops the basic proficiency in modern Japanese necessary to communicate in everyday situations. Uses a range of exercises and activities to develop communicative use of speaking, listening, reading and writing skills in a range of situations as well as strategies to enhance and support these skills. Note: Students with NCEA level 3 Japanese or equivalent should enrol in this course.
Prerequisite: JAPANESE 131 or approval of Academic Head or nominee
Restriction: JAPANESE 220, 239. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 232  
Japanese Language 2B
A continuation of JAPANESE 231 covering more advanced grammar. By the end of the course, students will have acquired all essential grammar items and will be ready to explore more authentic materials in Stage III. Further develops communicative use of the language in speaking, listening, reading and writing in various situations and strategies to enhance and support these skills.
Prerequisite: JAPANESE 231 or approval of Academic Head or nominee
Restriction: JAPANESE 230, 239. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 240  
Villains and Heroes in Japanese Literature
Critically examines important works related to Japan’s literature and culture, from various genres and all periods including the present. Readings in English translation. Emphasis on production and reception of literary texts within such contexts as history, gender, ethnicity, religion, the environment, and power issues.
Prerequisite: 45 points in BA courses, including either JAPANESE 150 or ASIAN 100
Restriction: JAPANESE 340

Stage III

JAPANESE 241  
Japanese Popular Culture since 1945
Examines post-1945 Japanese popular culture such as manga, anime, music and literature, from the perspective of how they have dealt with issues such as national/cultural identity, ‘race’, war memory, gender and globalisation. The historical and political context of each text and cultural practice is emphasised. No knowledge of Japanese language required.
Prerequisite: 45 points in BA courses
Restriction: JAPANESE 341

JAPANESE 243  
Geisha and Samurai: Edo Literature
Explores literary works and other writings and media from early modern (Edo/Tokugawa) Japan, focusing on the way these texts reflect aspects of Edo culture. Texts in English translation.
Prerequisite: 45 points in BA courses, including either JAPANESE 150 or ASIAN 100
Restriction: JAPANESE 343

JAPANESE 270  
Japanese Culture and Traditions
Examines important aspects of Japanese culture, society, and history. Focuses particularly on the creation and recreation of traditions, and the interaction between cultural and historical forces in shaping society. The course consists of four thematic parts, dealing with history, education, family, and health.
Prerequisite: 45 points in BA courses, including either JAPANESE 150 or ASIAN 100
Restriction: JAPANESE 370

JAPANESE 277  
Japanese Study Abroad 2A
Refer to the entry for Language Study Abroad.
Prerequisite: Approval of Academic Head or nominee

JAPANESE 278  
Japanese Study Abroad 2B
Refer to the entry for Language Study Abroad.
Prerequisite: JAPANESE 277 and approval of Academic Head or nominee

JAPANESE 292  
Special Topic: Religion in Modern Japanese Society
Aims to understand the role of religious beliefs, practices, and institutions in modern Japanese society. Topics to be covered include the “invention” of State Shinto and its role in nation-building, the decline of established temple Buddhism, the emergence and impact of new religious movements, and social conflict related to religion-state issues in the postwar period.
Prerequisite: JAPANESE 150 or ASIAN 100, and, a further 30 points from BA courses.
Restriction: JAPANESE 308

Special Topic
2024 Calendar
Faculty of Arts
Course Prescriptions

JAPANESE 307
Classical Language and Culture
15 Points
Introduction to the classical Japanese language and culture. Involves extensive readings of selected works from the classics in the original language.
Prerequisite: 45 points at Stage II in Japanese
Corequisite: JAPANESE 331 or 332

JAPANESE 308
Religion in Modern Japanese Society
15 Points
The aim of this course is to understand the role of religious beliefs, practices, and institutions in modern Japanese society. Topics to be covered include the “invention” of State Shinto and its role in nation-building, the decline of established temple Buddhism, the emergence and impact of new religious movements, and social conflict related to religion-state issues in the postwar period. Prerequisite: ASIAN 100 and 30 points at Stage II in Asian Studies or 45 points in Stage II BA courses, including one of the following: ANTHRO 250, JAPANESE 240, 241, 243, 270, THEOLOGY 201 or THEOREL 201, SOCIOL 213
Restriction: ASIAN 708, JAPANESE 292

JAPANESE 324
Topics in Japanese Linguistics
15 Points
A study of selected areas of Japanese language structure and usage.
Prerequisite: 45 points at Stage II in Japanese including JAPANESE 222
Corequisite: JAPANESE 331 or 332
Restriction: JAPANESE 728

JAPANESE 331
Japanese Language 3A
15 Points
Further develops communicative use of the Japanese language in and beyond everyday situations. With greater focus on written Japanese, students will explore a variety of authentic materials including essays, folk tales, poems and visual texts that contain both traditional and contemporary cultural elements. Students are encouraged to study autonomously as well as collaboratively.
Prerequisite: JAPANESE 232
Restriction: JAPANESE 330, 338, 339. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 332
Japanese Language 3B
15 Points
Further develops communicative use of Japanese language in speaking, listening, reading and writing beyond everyday situations. With greater focus on written Japanese, students will familiarise themselves with various styles of Japanese texts including newspaper articles, manga and short novels, through which their understanding of Japanese culture will deepen.
Prerequisite: JAPANESE 331
Restriction: JAPANESE 330, 338, 339. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 340
Villains and Heroes in Japanese Literature
15 Points
Critically examines important works related to Japan's literature and culture, from various genres and all periods including the present. Readings in English translation. Emphasis on production and reception of literary texts within such contexts as history, gender, ethnicity, religion, the environment, and the deployment of power.
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese including one of JAPANESE 241, 242, 270, HISTORY 242
Restriction: JAPANESE 240

JAPANESE 341
Japanese Popular Culture since 1945
15 Points
Examines post-1945 Japanese popular culture such as manga, anime, music and literature, from the perspective of how they have dealt with issues such as national/cultural identity, 'race', war memory, gender and globalisation. The historical and political context of each text and cultural practice is emphasised. No knowledge of Japanese language required.
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese including one of JAPANESE 240, 243, 270 HISTORY 242, or 30 points at Stage II in Asian Studies
Restriction: JAPANESE 241

JAPANESE 343
Geisha and Samurai Edo Literature
15 Points
Explores, mainly in English translation, literary works and other writings/media from early modern (Edo/Tokugawa) Japan. The emphasis is on understanding aspects of the culture by direct reference to texts written by Japanese at that time.
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese including JAPANESE 240, 241, or 270
Restriction: JAPANESE 243

JAPANESE 370
Japanese Culture and Traditions
15 Points
Examines important aspects of Japanese culture, society, and history. Focuses particularly on the creation and recreation of traditions, and the interaction between cultural and historical forces in shaping society. The course consists of four thematic parts, dealing with history, education, family, and health.
Prerequisite: JAPANESE 150 and either 45 points at Stage II including one of JAPANESE 240, 241, 243 and HISTORY 242 or 30 points at Stage II in Asian Studies
Restriction: JAPANESE 270

JAPANESE 377
Japanese Study Abroad 3A
15 Points
Refer to the entry for Language Study Abroad.
Prerequisite: Approval of Academic Head or nominee

JAPANESE 378
Japanese Study Abroad 3B
15 Points
Refer to the entry for Language Study Abroad.
Prerequisite: JAPANESE 377 and approval of Academic Head or nominee

JAPANESE 392
Special Topic
15 Points
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese

Postgraduate 700 Level Courses

JAPANESE 702
Topics in Japanese Culture and Society
30 Points
In-depth study of selected topics on Japanese culture and society. Topics may include Japanese religion and society, popular culture, early modern history, Japan in East Asia and globalisation. This will be a team-taught course, and the content each year will be adapted according to student research interests. The course requires critical reading of core texts and regular student seminar presentations.
JAPANESE 703 30 Points  
Topics in Japanese Language and Linguistics  
In-depth study of selected topics on Japanese language and linguistics. Topics may include accentuation, morphophonology, transitivity, subjectivity, gender and language, politeness, and discourse strategies. The course focuses on student-led seminar presentations and discussions on assigned key works in the field.

JAPANESE 706 15 Points  
Advanced Japanese Language Acquisition 1  
Uses authentic materials on a variety of topics to enhance language skills in support of postgraduate studies.  
Restriction: JAPANESE 707

JAPANESE 707 30 Points  
Advanced Japanese Language Acquisition 2  
Uses materials on a variety of topics to enhance language skills in support of postgraduate studies. Readings relevant to the individual student's research field will be assigned for critical analysis in Japanese.  
Restriction: JAPANESE 706

JAPANESE 745 15 Points

KOREAN

Stage I

KOREAN 110 15 Points  
KOREAN 110G 15 Points  
Korean for Beginners 1  
Basic written and spoken skills in modern Korean. Through the practice of listening to and reading basic Korean sentences, fundamental grammar and vocabulary are taught so that students will be able to carry out basic conversation and comprehend simple Korean texts.  
Restriction: KOREAN 100, 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed

KOREAN 111 15 Points  
Korean for Beginners 2  
Further develops the basic proficiency in Korean necessary to communicate in limited situations. Uses a range of exercises and activities to develop speaking, listening, reading and writing skills. Introduces distinctive aspects of contemporary Korean culture related to language-use situations.  
Restriction: KOREAN 100, 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed

KOREAN 791 60 Points  
KOREAN 791A 30 Points  
KOREAN 791B 30 Points  
Dissertation - Level 9  
To complete this course students must enrol in JAPANESE 791 A and B, or JAPANESE 791
introducing further points of grammar and their usage. This course serves as the base for oral and written language skills at an intermediate level.

**KOREAN 201**  
**Intermediate Korean 2**  
A continuation of KOREAN 200 covering more advanced grammar points and their usage. Further develops communicative use of Korean in a wide range of everyday situations.

**Prerequisite:** KOREAN 200  
**Restriction:** KOREAN 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 203**  
**Special Topic**

**KOREAN 205**  
**Korea through TV Drama and Film**  
Examines some of the cultural, social and political issues of contemporary South Korea through a selection of popular TV dramas and films.

**Prerequisite:** 15 points at Stage I in Asian Studies, Chinese, Japanese or Korean, or 15 points at Stage I in Media and Screen Studies and 30 points passed  
**Restriction:** ASIAN 202, KOREAN 305

**KOREAN 250**  
**Korean for Heritage Speakers**  
Aims to enhance written skills in modern Korean for students with native speaker background. Emphasis will be placed on the comprehension of a wide range of issues in Korean society.

**Prerequisite:** Approval of Academic Head or nominee  
**Restriction:** KOREAN 110, 111, 200, 201, 300, 301. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 277**  
**Korean Study Abroad 2A**  
Refer to the entry for Language Study Abroad.

**Prerequisite:** Approval of Academic Head or nominee

**KOREAN 278**  
**Korean Study Abroad 2B**  
Refer to the entry for Language Study Abroad.

**Prerequisite:** KOREAN 277 and approval of Academic Head or nominee

**Stage III**

**KOREAN 300**  
**Advanced Korean 1**  
Korean grammar at an advanced level. A continuation of KOREAN 201.

**Prerequisite:** KOREAN 201  
**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 301**  
**Advanced Korean 2**  
Designed to emphasise comprehension and composition of Korean texts.

**KOREAN 305**  
**Korea through TV Drama and Film**  
Examines some of the cultural, social and political issues of contemporary South Korea through a selection of popular TV dramas and films.

**Prerequisite:** 30 points at Stage II in Asian Studies, Chinese, Japanese or Korean or 30 points at Stage II in Media, Film and Television  
**Restriction:** ASIAN 202, KOREAN 205

**KOREAN 306**  
**Special Topic**

**KOREAN 377**  
**Korean Study Abroad 3A**  
Refer to the entry for Language Study Abroad.

**Prerequisite:** Approval of Academic Head or nominee

**KOREAN 378**  
**Korean Study Abroad 3B**  
Refer to the entry for Language Study Abroad.

**Prerequisite:** KOREAN 377 and approval of Academic Head or nominee

**KOREAN 381**  
**Korean Study Abroad 3C**  
Formal language study at an approved overseas institution where the language of instruction is Korean. May include supplementary study at the University of Auckland.

**Prerequisite:** KOREAN 301 or 377 or 378 and approval by Academic Head or nominee

**Language Study Abroad**

The Language Study Abroad courses are intended to permit students to take advantage of opportunities for formal language study in an approved overseas institution where instruction is in a language other than English. Supplementary study at the University of Auckland may be required as part of these courses. Students taking one of these courses should enrol prior to undertaking the overseas study, and enrolment is subject to approval of the planned overseas study by the Academic Head or nominee for the language subject concerned. A final grade for any of the courses will be based on formal assessment of achievement in the language concerned, together with any other work required by the Academic Head or nominee. The courses available for Language Study Abroad are listed under the following subjects: Arts General, Chinese, French, German, Italian, Japanese, Korean, Russian and Spanish.

**Language Teaching and Learning**

**Stage I**

**LANGTCHG 101**  
**Introduction to Language Teaching**  
An introduction to a range of approaches to second language teaching and the theories of language and learning which underpin them. Students will explore the basic concepts related to current approaches to ELT in current contexts of learning.

**Stage II**

**LANGTCHG 202**  
**Introductory English Language Analysis for Teachers**  
Introduces key concepts of phonology, grammar and vocabulary of English and develops an understanding of how they function as systems in written and spoken
English. Develops the skills needed to formally analyse the phonological, lexical and grammatical systems of English. Illustrates how linguistic descriptions can be applied in language teaching.

Prerequisite: 30 points passed or approval of Academic Head or nominee.

**LANGTCHG 205**
Developing Literacy in a Second Language
Examines the theory and practice related to the development of both initial and advanced literacy in a second language: how reading and writing skills are developed in a second language; the interdependency of first and second language literacy skills; effective instructional methods and the role played by second language literacy in the development of academic skills where English is the medium of instruction.

Prerequisite: 30 points passed or approval of Academic Head or nominee

**LANGTCHG 206**
Special Topic: Language Learning and the Brain
Introduces prominent cognitive aspects of language learning. These include memory, attention, code-switching, and multimodal integration when learners form correspondences between linguistic and sensory input. Examines the power of language to influence brain responses and optical illusions. The mechanisms of linguistic influence on the brain, and their implications for teaching, will be explored from multiple angles.

Prerequisite: 30 points passed

**LANGTCHG 207**
Instructed Language Learning
Introduces the study of the language acquisition-rich classroom by considering how a second or foreign language is learned, and explores different aspects of language teaching from the perspective of language learning and factors responsible for individual differences in learning. Students will consider concepts and research in instructed language learning in relation to classroom, institutional, and broader social and political contexts.

Prerequisite: 30 points passed or approval of Academic Head or nominee

Restriction: LANGTCHG 303

**LANGTCHG 209**
Using Tasks in Language Teaching
Students learn about task-based language teaching and have opportunities for hands-on practice in developing tasks for use in the language classroom. The course also enhances students’ understanding of the difference between task-based teaching and traditional approaches to language teaching.

Prerequisite: LANGTCHG 101 or 30 points passed or approval of Academic Head or nominee

Restriction: LANGTCHG 306

---

**Stage III**

**LANGTCHG 300**
Theory and Practice of Language Teaching
A general introduction to English language teaching. This course requires students to undertake a study of current theory and practice relating to the teaching of the knowledge systems of English and of language skills.

Prerequisite: LANGTCHG 101 or 202 or 30 points passed at Stage II or above or approval of Academic Head or nominee

**LANGTCHG 301**
The Second Language Curriculum
Introduces principles and procedures used in course design and to evaluate TEFL courses, coursebooks and materials. Develops a practical understanding of how to set about planning an EFL curriculum.

Prerequisite: LANGTCHG 101 or 30 points passed at Stage II or above or approval of Academic Head or nominee

**LANGTCHG 302**
Practical Language Teaching
Develops an understanding of the procedures, techniques and options used in teaching language lessons; helps participants to design and deliver effective language lessons for a variety of contexts; and introduces participants to a variety of tools for teacher development such as peer teaching, peer observation, and reflective teaching.

**LANGTCHG 304**
The Young Second Language Learner
Examines the experience of children aged 6-12 years and adolescents aged 12-19 in learning a second language. Gives particular attention to the social, cognitive and psychological characteristics of children; examines the needs of young learners of a second language and how languages are learned in different contexts.

Prerequisite: LANGTCHG 101 or 30 points at Stage II or above or approval of the Academic Head or nominee

**LANGTCHG 305**
Special Topic

**LANGTCHG 307**
Special Topic

Prerequisite: 30 points passed at Stage II

**LANGTCHG 308**
Special Topic

**LANGTCHG 309**
Second/Foreign Language Teaching Experience
Students teach English (or another language) for an organisation (local or abroad) approved by the Academic Head or nominee. Excludes teaching in a NZ primary, intermediate or secondary school.

Prerequisite: LANGTCHG 101, 202, 300, 301, 302 with a B average or higher and approval of Academic Head or nominee

**LANGTCHG 311**
Language and Technology
Introduces students to theoretical and practical aspects of using technology for language learning and teaching purposes. Enables students to develop confidence in their ability to integrate technology into their teaching, and in their capacity to explore other technological applications in response to workplace needs. Students will also experience and reflect upon the language learning dimension, and critically examine the relative benefits of particular applications with reference to sound pedagogical principles.

Prerequisite: 30 points passed at Stage II

**LANGTCHG 312**
Special Topic

**Postgraduate 700 Level Courses**

**LANGTCHG 701**
Multilingual Lives - Level 9
Examines main theoretical approaches to understanding multilingualism. Students acquire specialised knowledge

---
of different approaches to addressing the needs of an ethnolinguistically diverse population, and develop a critical awareness of issues and debates in the field. Assignments involve substantial independent research that includes the analysis of factors that influence the acquisition, maintenance, and use of multiple languages in individuals’ lives.

**LANGTCHG 708**  
Special Topic: Experimental Approaches to SLA  
15 Points  
Familiarises students with experiments that investigate second language acquisition. There are two goals. First, to develop an understanding of a range of methods in the field, which include categorisation and memory tests, eye-tracking, measuring skin conductance responses and brain signals. Second, to train students to critically read reports from experiments and to evaluate their relevance for SLA research.

**LANGTCHG 710**  
Task-based Language Teaching  
15 Points  
Examines research that has investigated task-based second language learning and the theoretical rationale for task-based language teaching. Also considers factors in the design of task-based syllabuses and methodological options for lessons based on tasks, and problems in implementation.

**LANGTCHG 715**  
Developing Academic Literacy  
15 Points  
Aims to help participants understand and develop their academic literacies. Focuses on texts involved in the research process, such as review articles, research paper proposals, dissertations and conference abstracts; makes extensive reference to findings from genre and corpus-based analyses; and includes conducting mini-analyses on the discourse in participants’ own disciplines.

**LANGTCHG 734**  
Identity in Language Teaching and Learning  
15 Points  
Explores the concepts of language learner identity and language teacher identity. The course reviews theory and research on identity and considers the practical applications of identity research and debates in classroom practice. Students conduct an independent self-reflective project.

**LANGTCHG 739**  
Directed Study  
15 Points  
Supervised research on an approved topic or topics related to language teaching and learning.

**LANGTCHG 740**  
Language Analysis for Teachers  
15 Points  
Develops an advanced understanding of the structures of English and advanced skills of analysing the key concepts and features of English phonology, morphology, syntax and vocabulary from the perspective of second/foreign language teaching.  
*Restriction: LANGTCHG 720*

**LANGTCHG 746**  
Materials Development and Evaluation  
15 Points  
Examines the principles and processes of designing, adapting and evaluating language teaching materials for teaching language systems and language skills. Examines the role materials development play in professional development.

**LANGTCHG 751**  
Corpus Studies in Applied Linguistics  
15 Points  
Covers the theoretical and practical aspects of using corpora to promote language learning. A major part of the course will focus on using corpora and text analysis tools to provide a description of language as it is used by different people for different purposes. Once we have a good description of language usage, we can move on to consider the role of corpus studies in language teaching.

**LANGTCHG 752**  
Computer Assisted Language Learning  
15 Points  
Covers the theoretical and practical aspects of using technology to promote language learning. Includes culture and CALL, exercise authoring, CALL research, technology and the four skills, web-based language learning, computer-mediated communication, and CALL evaluation.

**LANGTCHG 754**  
English for Specific Purposes  
15 Points  
Considers theory and practice in developing language courses to meet the specific academic or work-related needs of adult learners. In particular, it focuses on analysis of target communication, needs analysis, issues and methodologies in ESP and ESP research. Uses the example of English for Specific Purposes but is relevant to the teaching of other languages for specific purposes as well.

**LANGTCHG 756**  
Special Topic  
15 Points  
*Restriction: LANGTCHG 732, 745*

**LANGTCHG 757**  
Conducting Research in Applied Language Studies - Level 9  
15 Points  
Explores advanced theoretical perspectives for research into second/foreign language learning, teaching, and use. Enables students to acquire an advanced understanding of selected research methods. Students work independently on a small-scale project, which involves the collection and analysis of data on second or foreign language learning, teaching or use.

**LANGTCHG 760**  
Curriculum Design - Level 9  
15 Points  
Advanced level study of theoretical principles and current issues in the second language curriculum. Includes historical examination of influential approaches and methods, with particular attention to the development and current position of communicative approaches. Examines issues associated with course design processes including assessment of needs, objectives setting, syllabus and materials selections, and course evaluation.  
*Restriction: LANGTCHG 741*

**LANGTCHG 761**  
Sociolinguistics - Level 9  
15 Points  
Examines sociolinguistic concepts relevant to understanding influences on language use at the level of individuals, social groups and institutions. Enables students to acquire an advanced understanding of social and regional dialects, perceived differences in the market status of particular languages, the use of sociolects and ethnollects in the media and other public domains, and policies and practices concerning migrant and heritage language maintenance.  
*Restriction: LANGTCHG 749*

**LANGTCHG 762**  
Second Language Acquisition - Level 9  
15 Points  
Advanced study of current theories of second language
acquisition and research that have examined both instructed and naturalistic acquisition. Includes an independent study involving analysis of learner language and writing a standard research report and a critique of a pedagogical approach, drawing on contemporary research on how languages are learned.

**Restriction:** LANGTCHG 722, 723, 743

**LANGTCHG 763**
**Discourse Analysis - Level 9**
Examines major theoretical approaches to the analysis of discourse and implications for pedagogy. Students acquire specialised knowledge of approaches to analysis and frameworks that underpin research, and develop advanced skills in written and spoken text analysis and critical awareness of issues and debates in the field. Assignments involve substantial independent research that includes analysis and interpretation of data.

**Restriction:** LANGTCHG 744

**LANGTCHG 764**
**Creativity: Research and Practice - Level 9**
Theoretical perspectives, pedagogical practices and research projects related to the topic of creativity in language learning and teaching. Enables students to acquire an advanced understanding of the concept of ‘creativity’ with reference to language teaching and learning through exploratory research, practice and reflection.

**Restriction:** LANGTCHG 755

**LANGTCHG 765**
**Language Testing and Assessment - Level 9**
Advanced study of theoretical principles and current issues in language testing, assessment and evaluation, and their application to teaching practice and research. Examines issues associated with the creation of valid and reliable assessments, and the implications for course design processes, with particular attention to the testing, assessment and evaluation of communicative language proficiency.

**Restriction:** LANGTCHG 742

**LANGTCHG 790**
**Research Project - Level 9**
Prerequisite: A GPA of 7.0 or higher over four courses from LANGTCHG 700, 701, 710, 715, 716, 739, 740, 746, 747, 751, 752, 754, 756, 757, 760–765

To complete this course students must enrol in LANGTCHG 790 A and B, or LANGTCHG 790

**LANGTCHG 793**
**Dissertation - Level 9**
To complete this course students must enrol in LANGTCHG 793 A and B, or LANGTCHG 793

**LANGTCHG 796A**
**Latin**
**Stage I**
**LATIN 100**
An introduction to the vocabulary and the grammar of simple sentences in Latin.

**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed

**LATIN 101**
An advancing beginner’s course in the vocabulary and the grammar of complex sentences in Latin.

**Restriction:** LATIN 100 or approval of Academic Head or nominee

**Introduction to Latin Language 2**

To complete this course students must enrol in LATIN 797 A and B

**LATIN 797A**
**LATIN 797B**
***Research Portfolio - Level 9***

To complete this course students must enrol in LATIN 797 A and B

**LATIN 200**
**Latin Language Acquisition: Intermediate**

The analysis and description of Latin grammar, practice in the translation of Latin to and from English, vocabulary acquisition.

**Restriction:** LATIN 101 or 201 or 202 or approval of Academic Head or nominee

**LATIN 201**
**Latin Literary Texts 2A**

Detailed study of prescribed texts with reference to their
language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: LATIN 101 or 200 or 202 or approval of Academic Head or nominee

LATIN 202
Latin Literary Texts 2B
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: LATIN 101 or 200 or 201 or approval of Academic Head or nominee

LATIN 203
Latin Literary Texts 2C
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: LATIN 201

LATIN 204
Latin Literary Texts 2D
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: LATIN 202

LATIN 205
Special Topic: Latin Texts
Study of literary texts in Latin.
Prerequisite: LATIN 101 or approval of Academic Head or nominee

Stage III

LATIN 300
15 Points
Advanced Language Study Part 1
The structure and use of the Latin language including the use of non-classical Latin.
Prerequisite: 30 points from LATIN 200-205

LATIN 301
15 Points
Latin Literary Texts 3A
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: 30 points from LATIN 200-205

LATIN 302
15 Points
Latin Literary Texts 3B
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: 30 points from LATIN 200-205

LATIN 305
15 Points

Latin American Studies

Stage II

LATINAM 200
15 Points
Special Topic: Latin American Icons
An examination of the ways in which Latin America, as a place and a people, has served as a site of otherness and exoticism, providing an economic and symbolic capital for
the consumption and pleasure of colonial, neo-colonial and neo-liberal powers. Latin American cultural studies texts offer students a way to read against the grain established by this process.

**Prerequisite: 30 points from BA courses or 15 points from BGlobalSt courses**

**LATINAM 306**  
Latin American History and Culture through Film  
A journey through five moments of Latin American history and culture, from its creation as a region imagined through the gaze of colonialism, to the present when globalisation is critiqued from the periphery.  
**Prerequisite: 15 points from COMMS 100, FTVM 100, 101, 112, MEDIA 101, SPANISH 103, 105, 200, 201, 277, 278, 319, 321, 377, 378, or 45 points in BGlobalSt courses**  
**Restriction: LATINAM 303**

**LATINAM 301**  
Latin American History and Culture through Film  
A journey through five moments of Latin American history and culture, from its creation as a region imagined through the gaze of colonialism, to the present when globalisation is critiqued from the periphery.  
**Prerequisite: 15 points from LATINAM 201, SPANISH 202, 306**  
**Restriction: LATINAM 306**

**LATINAM 304**  
Study Abroad (Latin America)  
A minimum of four weeks of study at an overseas institution approved by the Spanish and Latin American Study Abroad Adviser.  
**Prerequisite: 30 points at Stage II in BGlobalSt courses**

**LATINAM 306**  
Latin American Icons: The Political Economy of Otherness  
An examination of the ways in which Latin America, as a place and a people, has served as a site of otherness and exoticism providing economic and symbolic capital for the consumption and pleasure of colonial, neo-colonial and neo-liberal powers. Latin American cultural studies texts offer students a way to read against the grain established by this process.  
**Prerequisite: 15 points from LATINAM 201, 216, SPANISH 201, 202, or 30 points at Stage II in BGlobalSt courses**  
**Restriction: SPANISH 306, 729**

**LATINAM 310**  
Visual Cultures and Industries  
Follows transformations in Latin American visual cultures and culture industries since the 1930s, from the liberal to the neoliberal era. Throughout this history, who controls visual media production and how does this control relate to democracy? Have recent alliances between Indigenous groups and social movements to introduce new Media Laws successfully widened participation and challenged corporate media ownership?  
**Prerequisite: 45 points in BA courses or approval of Programme Coordinator**  
**Restriction: LATINAM 310**

**LATINAM 316**  
Music, Politics and Social Change  
A theorised study of the history of twentieth-century social movements in Latin America through its poetry and music, largely as expressed in popular forms. The major focus is on the political and cultural manifestations of these expressions as they respond to and instigate social change.  
**Prerequisite: 15 points from SPANISH 103, 105, 200, 201, 277, 278, 319, 321, 377, 378**  
**Restriction: LATINAM 301, SPANISH 216**

**LATINAM 320**  
Latin American Knowledges  
An examination of new knowledges produced in Latin America that have influenced socio-political theory and global epistemological paradigms but are subalternised as art, culture, or politics. Therefore this course will examine the link between theory and practice in the creation of new knowledge.  
**Prerequisite: 15 points from LATINAM 201, 216, POLITICS 234, SOCIOL 210, SPANISH 202, or 30 points at Stage II in BGlobalSt courses**  
**Restriction: SPANISH 720**

**LATINAM 350**  
Directed Reading and Research  
Supervised research projects.  
**Prerequisite: 75 points in Latin American Studies at Stages I and II, and approval of Academic Head or nominee**

**Stage III**

**LATINAM 301**  
Music, Politics and Social Change  
A theorised study of the history of twentieth-century social movements in Latin America through its poetry and music, largely as expressed in popular forms. The major focus is on the political and cultural manifestations of these expressions as they respond to and instigate social change.  
**Prerequisite: 15 points from LATINAM 201, SPANISH 202, 306, or 30 points at Stage II in BGlobalSt courses**  
**Restriction: LATINAM 216, SPANISH 216**

**LATINAM 302**  
Special Topic  
**Prerequisite: 15 points from LATINAM 201, SPANISH 202, 306**
Linguistics

Stage I

LINGUIST 100 15 Points
Introduction to Linguistics
An introduction to the main areas of linguistics: the production and function of sounds in language (phonetics and phonology), word structure and word formation (morphology), the principles of grammar through a study of sentence structure (syntax), and various aspects of meaning (semantics). The course is a self-contained introduction and assumes no prior knowledge of linguistics or language study.
Restriction: LINGUIST 103

LINGUIST 101 15 Points
LINGUIST 101G 15 Points
Language, Mind and Society
A survey of three areas: the interaction between language structure and use on the one hand, and social structure and social norms on the other (sociolinguistics); the relationship between linguistic and cultural knowledge (anthropological linguistics); and the inter-relationship of language and other cognitive structures, especially as it is revealed through language acquisition (psycholinguistics).

Stage II

LINGUIST 200 15 Points
Syntax
Continues on from LINGUIST 100 or 103 and consists of a formal and a functional part, providing problems and exercises in syntactic analysis, as well as an introduction to grammatical theories and types of grammatical system.
Prerequisite: LINGUIST 100 or 103

LINGUIST 201 15 Points
Phonetics and Phonology
Includes a survey of speech sounds in the world's languages, an overview of speech production and perception, and an introduction to how these sounds are organised into language. Includes a practical component in which theories are applied to language data.
Prerequisite: LINGUIST 100 or 103

LINGUIST 203 15 Points
Applied English Grammar
Covers the different types of sentences in English, with special attention to the relationship between grammar and meaning, tense, aspect and voice; their roles in texts, such as foregrounding, backgrounding and highlighting information, and introducing new information. Students will be shown how to distinguish standard and non-standard varieties of written English, and how to judge if written sentences are effective, appropriate and grammatical.
Prerequisite: 15 points at Stage I

LINGUIST 206 15 Points
Semantics and Pragmatics
An introduction to a wide range of issues of contemporary relevance to the study of meaning. The semantics part includes topics in structural, truth-conditional and cognitive semantics. The pragmatics part covers some of the basic topics in pragmatics.
Prerequisite: LINGUIST 100 or 103
Restriction: LINGUIST 302

LINGUIST 207 15 Points
English Language to 1900
Introduction to the history of the English language from its origins to 1900, with an emphasis on the development of sound changes, grammar, words and meanings in sociocultural and historical contexts.
Prerequisite: 30 points in English or Linguistics
Restriction: ENGLISH 203

LINGUIST 208 15 Points
Special Topic

LINGUIST 209 15 Points
Special Topic

Stage III

LINGUIST 300 15 Points
Advanced Syntax
A continuation of LINGUIST 200. Examines selected topics, such as syntactic dependencies, movement, grammatical relations, phrase structure, typology and universals.
Prerequisite: LINGUIST 200

LINGUIST 301 15 Points
Advanced Phonology
A continuation of LINGUIST 201, introducing a more theoretical approach to phonology including distinctive feature theory, syllable theory, metrical phonology, autosegmental phonology and lexical phonology. Issues are explored in the context of a constraint-based approach to phonology. Includes a practical component in which theories are applied to language data.
Prerequisite: LINGUIST 201

LINGUIST 305 15 Points
Child Language Acquisition
Examines the patterns and mechanisms by which children acquire knowledge of their native language and assesses a number of current theories which have been developed to explain the process.
Prerequisite: LINGUIST 200 or 201 or 203

LINGUIST 308 15 Points
Language Change
Introduces long-term historical trends, types of language change, language families and comparative reconstruction.
Prerequisite: LINGUIST 200, 201
Restriction: LINGUIST 202

LINGUIST 310 15 Points
Linguistics Essays Course
Students undertake supervised research.
Prerequisite: Permission of Academic Head or nominee

LINGUIST 311 15 Points
Special Topic

LINGUIST 314 15 Points
Special Topic

LINGUIST 315 15 Points
Special Topic

LINGUIST 320 15 Points
Topics in Pragmatics
Pragmatics is the systematic study of language in use and is a rapidly developing discipline in linguistics. This course will give a critical survey of the central topics and the latest developments of pragmatics. The domain of pragmatics,
implicature, presupposition, speech act and deixis will be among the issues dealt with in individual lectures.

Prerequisite: LINGUIST 100

LINGUIST 322 15 Points
Middle English: Language and Change
A study of the origins, development and influences on English until around 1500.
Prerequisite: 15 points from LINGUIST 200, 201, ENGLISH 203

LINGUIST 324 15 Points
Morphology
Provides an overview of linguistic morphology and the various strategies of word formation across languages. Theories such as Distributed Morphology, Lexical Phonology and Morphology, Lexeme-Based Morphology, Prosodic Morphology, and Word Syntax will be discussed, and the course will include a practical component in which these theories are applied to language data.
Prerequisite: LINGUIST 100 or 103

Postgraduate 700 Level Courses

LINGUIST 700 15 Points
Directed Study

LINGUIST 701 15 Points
Special Topic

LINGUIST 704 15 Points
Special Topic

LINGUIST 705 15 Points
Field Methods: Phonetics and Phonology
Students analyse the structure of an unfamiliar language, focusing on phonetics and phonology. The language studied in LINGUIST 705 and 706 may be the same in any given academic year.
Prerequisite: LINGUIST 201 and either LINGUIST 300 or 313
Restriction: LINGUIST 707

LINGUIST 706 15 Points
Field Methods: Morpho-syntax
Students analyse the structure of an unfamiliar language, focusing on morphosyntax. The language studied in LINGUIST 705 and 706 may be the same in any given academic year.
Prerequisite: LINGUIST 201 and either LINGUIST 300 or 313
Restriction: LINGUIST 707

LINGUIST 709 15 Points
Linguistic Research
Research methods and practices in Linguistics, which provides students with skills necessary for carrying out linguistic research. In addition to practicum sessions, students will propose, develop and complete an independent research project.

LINGUIST 721 15 Points
Formal Syntax
Formal theories of syntax, generative grammar, and current topics of interest to students. This could include: LFG, Minimalism, the DP analysis, theories of argument structure, and/or formal models of language processing.

LINGUIST 722 15 Points
Phonology
A range of topics from the field of non-linear phonology, including autosegmental phonology, syllable theory, feature geometry and CV phonology.

LINGUIST 724 15 Points
Semantics and Pragmatics
Deals with a wide range of issues in semantics and especially pragmatics. Topics may include implicature, presupposition, speech act, deixis, reference, pragmatics and cognition, pragmatics and semantics, and pragmatics and syntax.
Prerequisite: LINGUIST 206 or 302, or equivalent

LINGUIST 736 15 Points
Issues in Advanced Morphology
Focuses on competing theoretical models of morphology and includes application of one theory in an extended analysis.

LINGUIST 739 15 Points
Directed Study
Directed reading and individual study course designed in consultation with appropriate staff according to the field of research.

LINGUIST 743 15 Points
Special Topic

LINGUIST 790A 15 Points
Research Project - Level 9
To complete this course students must enrol in LINGUIST 790 A and B, or LINGUIST 790

LINGUIST 790B 15 Points

LINGUIST 791A 30 Points
Dissertation - Level 9
To complete this course students must enrol in LINGUIST 791 A and B, or LINGUIST 791

LINGUIST 791B 30 Points

LINGUIST 792A 22.5 Points
Thesis - Level 9
To complete this course students must enrol in LINGUIST 793 A and B

LINGUIST 792B 22.5 Points

LINGUIST 793A 60 Points
Thesis - Level 9
To complete this course students must enrol in LINGUIST 793 A and B

LINGUIST 793B 60 Points

Logic and Computation

Stage II

LOGICOMP 201 15 Points
Special Topic

Stage III

LOGICOMP 300 15 Points
Directed Study
Prerequisite: Approval of Academic Head or nominee
LOGICOMP 301 15 Points
Philosophy and Computation
Covers a range of issues arising from the engagement of philosophy and computer science. Topics include the nature of computation, the limits of computation, and philosophical problems facing Artificial Intelligence.
Prerequisite: COMPSCI 120, and PHIL 216 or 222

LOGICOMP 302 15 Points
Special Topic

LOGICOMP 309 15 Points
Capstone: Logic and Computation
Potential topics relate logic and computation, and their roles in modern information society. Topics and reading material are introduced before students pick topics, to work alone or in small teams. The topics will be chosen to be accessible to all participants, thereby fostering interaction and interdisciplinary collaboration.
Prerequisite: 30 points at Stage III in Logic and Computation

Postgraduate 700 Level Courses
LOGICOMP 701 15 Points
Directed Studies
Supervised research studies in an area of logic and computation.

LOGICOMP 702 15 Points
Special Topic

LOGICOMP 703 15 Points

Restriction: LOGICOMP 780, 788
To complete this course students must enrol in LOGICOMP 782 A and B, or LOGICOMP 782

LOGICOMP 796A 60 Points
LOGICOMP 796B 60 Points
Thesis - Level 9
Prerequisite: A BA(Hons) in Logic and Computation with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in LOGICOMP 796 A and B

Media and Screen Studies

Stage I
MEDIA 101 15 Points
Film Studies
An introduction to the feature film and the main traditions of film criticism. A series of significant films, from 1915 to the present, are explored in detail. The aim is to develop a historical perspective, an awareness of film-making as an art and an interest in the relationship between films and society, including debates about race, gender, censorship.

MEDIA 102 15 Points
Media and Culture
Examines popular media texts, genres, audiences and industries, reflecting on how they influence our notions of self and society. Draws on case studies from a range of popular media, from film and television to comics, games, popular music, social media and advertising. Fosters critical perspectives on media as vehicles for cultural meaning, alongside strategies for crafting personal and collective narratives.

Stage II
MEDIA 202 15 Points
Hollywood and its Others
An investigation of Hollywood’s interactions with European and Asian cinema, with a particular focus on its industrial, aesthetic and cultural aspects. Students will gain a historical understanding of Hollywood cinema and how its relationships with other film cultures have shaped the dynamics of global cinema.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Transnational Cultures and Creative Practice
Restriction: MEDIA 307

MEDIA 212 15 Points
Video Games: Theory and Culture
A study of video games as a new media form situated in the broader context of media theory and history. Considers video gaming as an industry, as a leisure activity, and as a site of aesthetic and narrative innovation. The course examines what makes video games a distinctive media form.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Communication
Restriction: MEDIA 328

MEDIA 213 15 Points
Cinema of Aotearoa New Zealand
Traces a thematic history of filmmaking in Aotearoa New Zealand from the mid-1980s until the present. Locates a range of films in their historical, social and political contexts by concentrating on issues that arise for a small nation defined by indigenous and settler relations, immigration and globalisation.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: MEDIA 313

MEDIA 214 15 Points
Social Media
Addresses issues related to the use of social media and considers in particular the influence of new media corporations such as Facebook, as well as platforms like Twitter, Snapchat, Tinder and YouTube. Explores our cultural practices and social rituals in relation to these peer-to-peer, one-to-many media technologies, and examines this revolution in the media landscape.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: COMMS 204, MEDIA 314

MEDIA 216 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
### MEDIA 217
**Special Topic**
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed

### MEDIA 218
**Popular Music on Screens**
Explores relationships between popular music and visual media, such as film, television and online media. Includes analysis of documentaries, feature films, TV shows, music videos and social media platforms. Themes include stardom, fandom, songs, dancing, music genres, technologies and industries. Texts are situated in debates about music media and power relations marked by class, gender, sexuality, race and ethnicity.
Prerequisite: 15 points at Stage I in Media and Screen Studies, or ANTHRO 106, and 30 points passed
Restriction: MEDIA 323

### MEDIA 220
**Mockumentary and Docu-Genres**
Considers the development of mockumentary and fakery in relation to documentary genres. Introduces students to basic concepts related to documentary realism and then explores a range of film and television examples that refer to, subvert, and problematise notions of visible evidence and factuality.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: MEDIA 316

### MEDIA 221
**Action Films**
Investigates action films as a genre and a “spectacle” in world cinema. Considers the aesthetic qualities of the genre and its interaction with the wider context. Issues studied include the relationship between conventions and inventions, the combination of visual and aural spectacle, as well as how identity is articulated through the discourse of nation, gender, ethnicity, age and the landscape.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: MEDIA 315

### MEDIA 222
**Comics and Visual Narrative**
Explores the medium of comics both as an expression of popular culture and as a visual language. Beginning with a history of sequential graphic narrative, the course considers issues around the legitimacy of a popular art form and means of story-telling, as well as the problem of censorship that dominated comics culture especially in the 1950s.
Prerequisite: 15 points at Stage I in Art History or Media and Screen Studies and 30 points passed, or 30 points in Communication or Transnational Culture and Creative Practice
Restriction: MEDIA 327

### MEDIA 227
**Special Topic**
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed

### MEDIA 229
**Recorded Music and Media Formats**
Cultural studies of the sounds and significance of popular recorded music through the media formats in which it has been manufactured, distributed and consumed. Provides a critical introduction to the role of technologies and industries, studios and producers, musicians, music scenes and everyday listening in relation to vinyl records, radio, cassettes, CDs, the MP3 and streaming music.
Prerequisite: 15 points at Stage I in Media and Screen Studies or ANTHRO 106, and 30 points passed
Restriction: MEDIA 331

### MEDIA 231
**Eco/media**
Eco/media introduces students to the increasingly important and varied role that nature, environment, and ecology play in media, film, and television studies. Students explore how environmentalism is communicated through various media, how the mediation of flora, fauna and the earth’s atmosphere offers powerful new insights into media texts, and how media production and consumption can be analysed using ecological frameworks.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Communication or Global Environment and Sustainable Development
Restriction: MEDIA 332

### MEDIA 233
**Special Topic**
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed

### MEDIA 235
**Visual Culture**
Visual culture is not just part of our everyday lives, it is our everyday lives. This course introduces students to the practices, technologies and knowledges through which visual imagery is constructed and how it circulates. It provides students with the tools for analysing and communicating with various kinds of visual images and objects.
Prerequisite: 15 points at Stage I in Media and Screen Studies or Art History, and 30 points passed
Restriction: COMMS 302, MEDIA 335

### MEDIA 236
**Horror Media**
Explores horror’s aesthetic, experiential, and political dimensions, investigating why and how it has persisted as one of popular culture’s most vigorous and influential genres. Closely considers a range of classic and contemporary films, TV shows and video games, confronting questions of power, affect, mediation and representation.
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed
Restriction: MEDIA 336

### MEDIA 237
**Visualising Screen Stories**
Investigates the conceptual and practical dimensions of creating visual stories for screen. Encourages students to explore aesthetic principles from film history and visual culture by using the basic tools of contemporary digital media. Students will develop screenplays, storyboards and lookbooks, and work collaboratively to create short smartphone films.
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed
Restriction: SCREEN 201, MEDIA 337

### MEDIA 238
**Creating Advertising: Text, Image, Story**
Explores the connections between visual expression, cinematic storytelling and commercial persuasion. Students analyse promotional posters, advertising copy and video-based advertisements before creating their own persuasive media projects. This course offers a thorough introduction
to advertising strategies and industrial practices, and develops students’ skills in promotional messaging and audiovisual storytelling.

**MEDIA 241  15 Points**

**Writing Screen Stories**
Focuses on the fundamentals and principles of dramatic writing for screen. Encourages students to explore narrative strategies from film and television to understand the mechanics of screen stories and to write meaningful screenplays in their own voice.

Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed

Restriction: MEDIA 338

**Stage III**

**MEDIA 307  15 Points**

**Hollywood and its Others**
An investigation of Hollywood’s interactions with European and Asian cinema, with a particular focus on its industrial, aesthetic, and cultural aspects. Students will gain a historical understanding of Hollywood cinema and how its relationships with other film cultures have shaped the dynamics of global cinema.

Prerequisite: 30 points at Stage II in Media and Screen Studies or Transnational Cultures and Creative Practice

Restriction: MEDIA 202

**MEDIA 313  15 Points**

**Cinema of Aotearoa New Zealand**
Traces a thematic history of filmmaking in Aotearoa New Zealand from the mid-1980s until the present. Locates a range of films in their historical, social and political contexts by concentrating on issues that arise for a small nation defined by indigenous and settler relations, immigration and globalisation.

Prerequisite: 30 points at Stage II in Media and Screen Studies

Restriction: MEDIA 213

**MEDIA 314  15 Points**

**Social Media**
Addresses issues related to the use of social media and considers in particular the influence of new media corporations such as Facebook, as well as platforms like Twitter, SnapChat, Tinder and YouTube. Explores our cultural practices and social rituals in relation to these peer-to-peer, one-to-many media technologies, and examines this revolution in the media landscape.

Prerequisite: 30 points at Stage II in Media and Screen Studies

Restriction: MEDIA 214

**MEDIA 315  15 Points**

**Action Films**
Investigates action films as a genre and a “spectacle” in world cinema. Considers the aesthetic qualities of the genre and its interaction with the wider context. Issues studied include the relationship between conventions and inventions, the combination of visual and aural spectacle, as well as how identity is articulated through the discourse of nation, gender, ethnicity, age and the landscape.

Prerequisite: 30 points at Stage II in Media and Screen Studies

Restriction: MEDIA 221

**MEDIA 316  15 Points**

**Mockumentary and Docu-Genres**
Considers the development of mockumentary and fakery in relation to documentary genres. Introduces students to basic concepts related to documentary realism and then explores a range of film and television examples that refer to, subvert, and problematise notions of visible evidence and factuality.

Prerequisite: 30 points at Stage II in Media and Screen Studies

Restriction: MEDIA 220

**MEDIA 323  15 Points**

**Popular Music on Screens**
Explores relationships between popular music and visual media, such as film, television and online media. Includes analysis of documentaries, feature films, TV shows, music videos and social media platforms. Themes include stardom, fandom, songs, dancing, music genres, technologies and industries. Texts are situated in debates about music media and power relations marked by class, gender, sexuality, race and ethnicity.

Prerequisite: 30 points at Stage II in Anthropology or Media and Screen Studies

Restriction: MEDIA 218

**MEDIA 327  15 Points**

**Comics and Visual Narrative**
Explores the medium of comics both as an expression of popular culture and as a visual language. Beginning with a history of sequential graphic narrative, the course considers issues around the legitimacy of a popular art form and means of story-telling, as well as the problem of censorship that dominated comics culture especially in the 1950s.

Prerequisite: 30 points at Stage II in Communication or Media and Screen Studies or Transnational Cultures and Creative Practice

Restriction: MEDIA 222

**MEDIA 328  15 Points**

**Video Games: Theory and Culture**
A study of video games as a new media form situated in the broader context of media theory and history. Considers video gaming as an industry, as a leisure activity, and as a site of aesthetic and narrative innovation. The course examines what makes video games a distinctive media form.

Prerequisite: 30 points at Stage II in Communication or Media and Screen Studies

Restriction: MEDIA 212

**MEDIA 331  15 Points**

**Recorded Music and Media Formats**
Cultural studies of the sounds and significance of popular recorded music through the media formats in which it has been manufactured, distributed and consumed. Provides a critical introduction to the role of technologies and industries, studios and producers, musicians, music scenes and everyday listening in relation to vinyl records, radio, cassettes, CDs, the MP3 and streaming music.

Prerequisite: 30 points at Stage II in Anthropology or Media and Screen Studies

Restriction: MEDIA 229

**MEDIA 332  15 Points**

**Eco/media**
Eco/media introduces students to the increasingly important and varied role that nature, environment, and ecology play in media, film, and television studies. Students explore how environmentalism is communicated through various media, how the mediation of flora, fauna and the
earth’s atmosphere offers powerful new insights into media texts, and how media production and consumption can be analysed using ecological frameworks.

MEDIA 334
Special Topic
15 Points
Prerequisite: 30 points at Stage II in Media and Screen Studies

MEDIA 335
Visual Culture
15 Points
Visual culture is not just part of our everyday lives, it is our everyday lives. This course introduces students to the practices, technologies and knowledge through which visual imagery is constructed and how it circulates. It provides students with the tools for analysing and communicating with various kinds of visual images and objects.
Prerequisite: 30 points at Stage II in Art History or Media and Screen Studies
Restriction: COMMS 302, MEDIA 235

MEDIA 336
Horror Media
15 Points
Explores horror’s aesthetic, experiential, and political dimensions, investigating why and how it has persisted as one of popular culture’s most vigorous and influential genres. Closely considers a range of classic and contemporary films, TV shows and video games, confronting questions of power, affect, mediation and representation.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: MEDIA 236

MEDIA 337
Visualising Screen Stories
15 Points
Investigates the conceptual and practical dimensions of creating visual stories for screen. Encourages students to explore aesthetic principles from film history and visual culture by using the basic tools of contemporary digital media. Students will develop screenplays, storyboards and lookbooks, and work collaboratively to create short smartphone films.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: SCREEN 201, MEDIA 237

MEDIA 338
Creating Advertising: Text, Image, Story
15 Points
Explores the connections between visual expression, cinematic storytelling and commercial persuasion. Students analyse promotional posters, advertising copy and video-based advertisements before going on to create their own persuasive media projects. This course offers a thorough introduction to advertising strategies and industrial practices, and develops students’ skills in promotional messaging and audiovisual storytelling.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: COMMS 309, MEDIA 238

MEDIA 340
Filmmaking
15 Points
A hands-on exploration of the aesthetic and technical challenges of cinematic storytelling. Students are encouraged to reflect on filmmakers’ creative strategies and pursue their own choices in relation to camera, sound, lighting and editing. This limited-entry course involves a blend of lectures and studio-based workshops, and emphasises the links between cinematic ideas and the practical techniques used to realise them.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: SCREEN 200, 302

MEDIA 341
Writing Screen Stories
15 Points
Focuses on the fundamentals and principles of dramatic writing for screen. Encourages students to explore narrative strategies from film and television to understand the mechanics of screen stories and to write meaningful screenplays in their own voice.
Prerequisite: 30 points at Stage II in English or Media and Screen Studies
Restriction: MEDIA 241

Postgraduate 700 Level Courses

MEDIA 713
Media, Sound and Music
30 Points
Interdisciplinary scholarship on sound and music media. Topics include: listening and soundscapes; noise/music; popular culture; the politics of sound and music; audio technologies; affect, feelings and emotions; identities; stardom, celebrity and fandom; voices; material cultures; audiovisual media; social media; and the political economy of music.

MEDIA 715
Visualising Difference
30 Points
Closely examines the representation of racial and ethnic difference in cinema and broadcast television. This course explores and discusses how difference has been conceptualised in colonial, post-colonial, and multicultural frameworks using examples from the USA, Canada, Australia, and New Zealand.

MEDIA 716
Love in/Loving the Cinema
30 Points
Critically examines the theme of love in the cinema. Looks at why the love story has been such a staple of movie narratives and what films can teach us about love. Also explores the nature of the love of cinema itself, cinephilia.

MEDIA 717
Ubiquitous Media
30 Points
Ubiquitous computing has led to an increasingly mediatised world known as the 'Internet of things'. With the increased use of tags and sensors, the development of smart environments means that communication and information media increasingly shape our world and define our relations with others. This interdisciplinary course investigates the philosophical, social and political implications of the move from software to 'everyware'.

MEDIA 726
Directed Study
30 Points

MEDIA 729
Film Evil
30 Points
Explores the theme of evil in the cinema. What films can teach about evil and why it is that conceptions of evil - its nature and source as well as distinctions between natural and moral evil - have formed so much of the subject matter of cinema. The course also considers the proposition that some films may themselves be evil.

To complete this course students must enrol in MEDIA 797 A and B

To complete this course students must enrol in MUSEUMS 761 A and B
MĀORI 130G 15 Points
An introduction to Māori analyses of topics that are often discussed and sometimes controversial, and that continue to shape contemporary life in New Zealand. Topics include aspects of world view, philosophy and social organisation; the Declaration of Independence, the Treaty of Waitangi and European immigration; and contemporary issues including Treaty claims, ownership of the foreshore and seabed and constitutional issues.

MĀORI 131 15 Points
Te Taumata Ngaio: Te Reo 1
An introduction to te reo Māori for University of Auckland staff members with little or no previous knowledge of the language. This course concentrates on the acquisition of written, aural, and oral skills, with a particular focus on te reo Māori for professional contexts, developing the ability to understand and speak Māori, with confidence and competence.
Restriction: MĀORI 103, 106. May not be taken if a more advanced language acquisition course in this subject has previously been passed. Available to University of Auckland staff only.

Stage II

MĀORI 200 15 Points
Kaupapa Hōu: Special Topic: Māori Health and Wellbeing
Draws on critical and ecological approaches to examine Māori health and its contribution to understanding the challenges and impacts of poverty, inequality, racism, discrimination, privilege and power for Māori health across Aotearoa. This course covers topics relevant to students who wish to draw upon Māori health in applied settings and research whilst working responsibly with Māori and other indigenous peoples.

MĀORI 201 15 Points
Whakatakoto Reo Tuarua / Intermediate Written Māori
Follows on from MĀORI 101. Techniques in listening, reading, writing and translation are further developed.
Prerequisite: MĀORI 101 or 105
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

MĀORI 202 15 Points
Decolonising the Screen in Aotearoa
An in-depth examination of the socio-cultural and political impact of New Zealand films foregrounding Māori, both in front of and especially, behind the camera. The course looks primarily at how Māori filmmakers have used cinema as a means to reassert cultural identity and tino rangatiratanga, from its activist beginnings during the Māori Cultural Renaissance in the 1980s, to the present.
Prerequisite: 60 points at Stage I or approval of Academic Head or nominee
Restriction: MĀORI 303

MĀORI 203 15 Points
Intermediate Spoken Māori
Continuing the development of language skills that will facilitate students’ own communicative ability.
Prerequisite: MĀORI 103 or 131
Restriction: MĀORI 206. May not be taken if a more advanced
language acquisition course in this subject has previously been passed.

MĀORI 204 15 Points
Reo Tuarua Kōrero II
Kua tārewahia tēnei pepa mo ngā Raukura Kura Kaupapa/Wharekura me ērā kua eke ki te taumata NCEA Level 3. He pepa mō te taura e makere nei te reo i te arero, he akoranga rumaki reo Māori hoki. This course is for advanced speakers of te reo who have completed kura kaupapa, wharekura or NCEA Level.
Prerequisite: MĀORI 302 or approval by Te Reo Māori Advisor

MĀORI 230 15 Points
Te Ao Hurihuri / Te Tiriti o Waitangi
Follows on from MĀORI 130, examining aspects of traditional Māori society that continue to challenge and mould contemporary life in New Zealand. Topics are covered from a Māori perspective and include the Treaty of Waitangi, the role of the churches in colonisation, language loss and revitalisation, the modern protest movements and the influence of the issues raised on Māori-Pākehā relations.
Prerequisite: MĀORI 130 or 60 points passed

MĀORI 233 15 Points
Tikanga Ancestral Ways
Examines tikanga (ancestral ways of living) and how these have changed since the arrival of Māori in Aotearoa. Beginning with topics of contemporary interest such as land use, the sea, kinship, gender relations, justice, health and economics, this course will trace the patterns of ancestral life, explore historical debates and reflect upon possible futures.
Prerequisite: 30 points passed
Restriction: MĀORI 396

MĀORI 270 15 Points
Kaupapa Hōu: Special Topic

MĀORI 271 15 Points
Māori and the Media / Te Ao Pāho
Examines the interrelationship between Māori and media. The course falls into two main strands: the representation of Māori and te ao Māori across a range of mainstream media, both historic and contemporary, and media made by Māori, for both a general audience and for a Māori audience. The course will draw on theories of political economy, postcolonialism and Kaupapa Māori.
Prerequisite: 30 points passed
Restriction: MĀORI 370

MĀORI 292 15 Points
Kapa Haka 2
Examines traditional and contemporary Māori performing arts and covers all aspects of Māori performance including whakaeke (entry), waiata mōteatea, waiata-ā-riha (action song), poi, haka, whakawātea (exit). There is a strong practical element to the course as well as an analysis of socio-cultural and political contexts of the songs and performance.
Prerequisite: MĀORI 190

Stage III

MĀORI 301 15 Points
Reo Māori Tuhituhi
Follows on from MĀORI 201. Advances skills and techniques in listening, reading, writing and translation. Examines the preservation of oral traditions including grammatical analysis and practical exercises in transcription and translation.
Prerequisite: MĀORI 201

MĀORI 302 15 Points
Reo Māori Kōrero
Ko tēnei te pepa whakaohoho ake i ngā tau ka taha. Ko te whainga, ko te whanake i ngā ture whakataktoranga o te Reo Māori, mai i ngā tuhinga me ngā kōrero Māori kia pai ai te puta mai o te kōrero. Mai anō hoki i ngā tuhinga Māori, ka atā tirohia te ao o te Māori, te ātaahuatanga o te whakahaupatanga mai o te kōrero i roto i te Reo Māori.
Prerequisite: 15 points from MĀORI 203, 204, 206

MĀORI 303 15 Points
Decolonising the Screen in Aotearoa
An in-depth examination of the socio-cultural and political impact of New Zealand films foregrounding Māori, both in front of and especially, behind the camera. The course looks primarily at how Māori filmmakers have used cinema as a means to reassert cultural identity and tino rangatiratanga, from its activist beginnings during the Māori Cultural Renaissance in the 1980s, to the present.
Prerequisite: 60 points at Stage II or approval of Academic Head or nominee
Restriction: MĀORI 202

MĀORI 304 15 Points
Kaupapa Hōu: Special Topic: Kaupapa Māori Research Methodologies
Kaupapa Māori research methodologies is grounded within Mātauranga Māori (Māori epistemology), worldviews, and practices. Students will learn how Kaupapa Māori research methodologies is a critical approach to research practices relevant to Māori, drawing upon Mātauranga Māori, incorporates strategies of resistance to ongoing colonialism as a pathway toward tino rangatiratanga (Māori self-determination), whilst focusing on decolonising Western research practices.
Prerequisite: 30 points at Stage II in Māori Studies or MĀORI 233

MĀORI 320 15 Points
Mātauranga: Māori Knowledge
Explores the various facets of knowledge. This includes genealogy - cosmic, theogonic and anthropogenic (whakapapa), traditional songs (mōteatea), proverbs (whakatauki). The aim is to help develop an understanding of a Māori world view and a te ao mārama paradigm through studying Māori epistemology.
Prerequisite: 15 points from MĀORI 201, 203, 206 or 30 points at Stage II

MĀORI 330 15 Points
Te Ao Hōu / Contemporary Māori Issues
An examination of contemporary issues and debates around Māori identity as indigenous peoples in the twenty-first century. Various aspects of Māori political, cultural, social and economic development in the twenty-first century will be discussed.
Prerequisite: 30 points at Stage II

MĀORI 335 15 Points
Mana Taketake / Indigenous Sovereignty and Public Policy
Examines the nature of the claims that indigenous minorities are making and the political strategies that they use to pursue their self-determining agendas in both domestic and international arenas. Concepts of indigenous and human rights, redistributive justice and others are discussed and...
explored in relation to contemporary demands of some indigenous peoples.
Prerequisite: 30 points at Stage II

MĀORI 370 15 Points
Māori and the Media / Te Ao Pāho
Examines the interrelationship between Māori and media. The course falls into two main strands: the representation of Māori and te ao Māori across a range of mainstream media, both historic and contemporary, and media made by Māori, for both a general audience and for a Māori audience. The course will draw on theories of political economy, postcolonialism and Kaupapa Māori.
Prerequisite: 30 points passed at Stage II in any subject
Restriction: MĀORI 271

MĀORI 392 15 Points
Kapa Haka 3
Advances the lessons learned in MĀORI 292. The practical aspects of performance remain paramount while the range is extended to cover in much greater depth and detail, ancient waiata, various forms and styles of haka and poi, leading into contemporary song, dance and choral works; analysis of the social, cultural and political issues that have inspired historical and contemporary works.
Prerequisite: MĀORI 292 or approval of Academic Head or nominee

MĀORI 394 15 Points
Kaupapa Hōu: Special Topic
Prerequisite: 15 points at Stage II in Māori Studies

MĀORI 396 15 Points
Tikanga: Ancestral Ways
Examines tikanga (ancestral ways of living) and how these have changed since the first arrival of the ancestors of Māori in Aotearoa. Beginning with topics of contemporary interest such as land use, the sea, kinship, gender relations, justice, health and economics, this course will trace the patterns of ancestral life, explore historical debates and reflect upon possible futures.
Prerequisite: 30 points at Stage II
Restriction: MĀORI 233

Postgraduate 700 Level Courses

MĀORI 700 30 Points
Reo Māori: Topic in Māori Language
An examination of developments in Māori and Polynesian language description, analysis and preservation over the past 50 years.

MĀORI 732 30 Points
Rangatiratanga

MĀORI 733 30 Points
Kaupapa Hōu: Special Topic

MĀORI 734 30 Points
Kaupapa Hōu: Special Topic

MĀORI 740 15 Points

MĀORI 740B 15 Points
Kaupapa Hōu: Te Ao Māori: Special Topic
To complete this course students must enrol in MĀORI 740 A and B, or MĀORI 740

MĀORI 741 30 Points
Ngā Taonga Hanga: Taonga Māori
An extension of skills and research methods in material culture.

MĀORI 742 15 Points
MĀORI 742A 7.5 Points
MĀORI 742B 7.5 Points
Kaupapa Hōu: Special Topic
To complete this course students must enrol in MĀORI 742 A and B, or MĀORI 742

MĀORI 743 30 Points
Tōrangapū / Issues in Māori Politics and Policy
An examination of selected issues in public policy and their impact on Māori development.

MĀORI 744 30 Points
Whakaora ai Te Reo Māori - Sociolinguistics
The study of language revival and revitalisation strategies for te reo Māori that have been informed by research, especially the work undertaken since the 1970s Māori renaissance.

MĀORI 748 15 Points
Kaupapa Hōu: Special Topic

MĀORI 749 15 Points
Kaupapa Hōu: Special Topic

MĀORI 750 15 Points
Kaupapa Motuhake: Special Study in Māori Studies
A directed reading and individual study course under supervision approved by the Academic Head or nominee.

MĀORI 785 45 Points
MĀORI 785A 22.5 Points
MĀORI 785B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in MĀORI 785 A and B, or MĀORI 785

MĀORI 790 30 Points
MĀORI 790A 15 Points
MĀORI 790B 15 Points
Research Project - Level 9
Students will design and develop a research project. They will become familiar with relevant methodological and ethical issues as well as designing and carrying out their research project.
To complete this course students must enrol in MĀORI 790 A and B, or MĀORI 790

MĀORI 792A 22.5 Points
MĀORI 792B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in MĀORI 792 A and B

MĀORI 793 60 Points
Dissertation - Level 9

**Te Moana-nui-a-Kiwa/Pacific Worlds**
Introduces students to Pacific Studies and the worlds of Te Moana-nui-a-Kiwa (The Pacific). Through the study of taonga or cultural treasures drawn from specific cultures and societies, insights into Indigenous Pacific knowledges and practices are developed. Spanning deep history and the contemporary moment, this course provides a critical understanding of change in the Pacific over time and space.

#### Pacific Leadership: Navigators of Change

**PACIFIC 209**
Broadens and deepens knowledge of the Pacific and fosters critical understandings of how that knowledge is created. Focuses on Pacific approaches as they theorise Pacific Studies alongside other allied disciplines, identifies the influence of Pacific thinkers and refines thinking via the critical analysis of key debates.

**PACIFIC 210**
Examines innovation and sustainability of Pacific Peoples in the Pacific and within the Pacific communities of Aotearoa. Explores the adaptability and innovation of Pacific peoples to create sustainable communities that embody both traditional cultural values and identities, and are also focused on future development, opportunity, mobility, and communal success.

**PACIFIC 211**
Pacific Youth: Contemporary Realities in the Pacific Region
Addresses critical contemporary issues for youth in the Pacific region with a particular emphasis on Aotearoa. Throughout this course, issues around health and wellbeing, identities (ethnic, spiritual, gender), education, climate change, artistic expressions, resilience, youth engagement and risk taking behaviours will be examined, and the impacts these have upon Pacific young peoples, their families and their communities will be explored.

Two-four music and dance items will normally be taught during the semester.
Prerequisite: PACIFIC 110 or 30 points in Transnational Cultures and Creative Practice

PACIFIC 211
Polynesian Warriors: Sport and Pacific Cultures
15 Points
Sport has profoundly impacted Pacific peoples and cultures, playing critical roles in colonialism and education in the past, to migration and commercialisation in the present. Sport has changed Pacific cultures and been changed by Pacific cultures. Pacific cultural encounters with globalisation, race, capitalism, migration and public discourse will be explored through the experience of sport.
Prerequisite: 30 points passed
Restriction: PACIFIC 311

PACIFIC 212
Pacific Indigenous Literatures and Knowledges
15 Points
Studies Pacific genres of oral literature in English translation. Genres include oratory, poetry, tales of creation, folk tales, and proverbs and sayings.
Prerequisite: 30 points passed
Restriction: PACIFIC 312

PACIFIC 213
Pacific Wellbeing: Empowering Dimensions
15 Points
Examines empowering notions of Pacific wellbeing for Pacific individuals, families and communities. Students explore definitions of Pacific wellbeing and the cultural concepts, models, practices and worldviews that have enhanced the overall positive wellbeing experiences of Pacific peoples across the Pacific region.
Prerequisite: 30 points passed
Restriction: PACIFIC 313

PACIFIC 214
Pacific History: New Zealand in the Pacific from 1900
15 Points
Explores the historical relationship between New Zealand and the Pacific from 1900 onwards. Traces the central importance of New Zealand in the history of the Pacific from the rise of New Zealand’s colonial empire, through the world wars, and towards the movement for decolonisation. Examines the continually evolving place of New Zealand as a nation in the Pacific Ocean.
Prerequisite: 15 points at Stage I in Pacific Studies or History and 30 points passed
Restriction: PACIFIC 314

PACIFIC 215
Special Topic
15 Points
Prerequisite: 30 points passed

Stage III

PACIFIC 300
NZ-Born Pacific Identities
15 Points
Explores the complex issues of growing up as NZ-born persons of Pacific descent. Examines how their dual or multiple identities affect and interact with their behaviours, priorities, social relationships and their concept of self. The course will use a cross-cultural perspective, exploring ethnic identities of other minorities. The concept of inter-generational ethnic identity will also be considered.
Prerequisite: 30 points at Stage II in Pacific Studies

PACIFIC 304
Advanced Pacific Studies
15 Points
This is the 'capstone' course for the Pacific Studies major. It is particularly engaged with the theory and methods of Pacific Studies. Different modes of presenting Pacific Studies work, and their relevance for real world applications - from policy papers and briefings to NGO reports - are also explored. The central feature of the course is the large project to be completed by each student, which will combine knowledge taught in this course with original research.
Prerequisite: PACIFIC 200 and a minimum B- average at Stage II in Pacific Studies

PACIFIC 305
Pacific Innovation and Sustainability
15 Points
Examines innovation and sustainability of Pacific Peoples in the Pacific and within the Pacific communities of Aotearoa. Explores the adaptability and innovation of Pacific peoples to create sustainable communities that embody both traditional cultural values and identities, and are also focused on future development, opportunity, mobility, and communal success.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 205

PACIFIC 306
Pacific Youth: Contemporary Realities in the Pacific Region
15 Points
Addresses critical contemporary issues for youth in the Pacific region with a particular emphasis on Aotearoa. Throughout this course, issues around health and wellbeing, identities (ethnic, spiritual, gender), education, climate change, artistic expressions, resilience, youth engagement and risk taking behaviours will be examined, and the impacts these have upon Pacific young peoples, their families and their communities will be explored.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 206

PACIFIC 307
Gender and the Pacific in a Globalising World
15 Points
Gender affects the way identity, culture and wellbeing is experienced and navigated in the Pacific. Moreover, these processes are complicated by emerging cosmopolitanisms that impact gendered bodies, cultures, institutions, nations and states. This course examines the intersections of race, sex, biology, ableism, colonialism, nationality, politics and social movements in our constructions/understanding of gender in a Pacific and global context.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 208

PACIFIC 308
Special Topic: Topics in Pacific Arts
15 Points
A survey of traditional Pacific art forms focusing specifically on their histories, significance and socio-cultural functioning within contemporary Pacific diasporas. Art forms covered in this course include Pacific architecture, body adornment, tapa (barkcloth), tivaevae (quilt-making), tatau (tattoo) and weaponry. This course will look at these art forms as part of dynamic living cultures within an ever changing, ever global Pacific. Issues addressed in this course include gender, power, ritual and the impact of new technologies on notions of tradition.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 207

PACIFIC 309
Pacific Leadership: Navigators of Change
15 Points
Pacific leadership has had profound effects on Pacific
peoples, playing critical roles in how Pacific societies have responded to the forces of colonisation, Christianity and capitalism. The course will examine Pacific traditional leadership and contemporary leadership in areas such as politics, academia, education, the arts, sports and health, analysing changes and developments.

Prerequisite: 30 points at Stage II in Pacific Studies, Education, Anthropology, History, or approval of Head of School or nominee
Restriction: PACIFIC 209

PACIFIC 310 15 Points
Koneseti
Under supervision of instructors, students plan, rehearse, publicise and present a public song and dance performance. Repertoire selection, costing, and rehearsal skills will be taught.
Prerequisite: PACIFIC 210 or 30 points at Stage II in Transnational Cultures and Creative Practice

PACIFIC 311 15 Points
Polynesian Warriors: Sport and Pacific Cultures
Sport has profoundly impacted Pacific peoples and cultures, playing critical roles in colonialism and education in the past, to migration and commercialisation in the present. Sport has changed Pacific cultures and been changed by Pacific cultures. Pacific cultural encounters with globalisation, race, capitalism, migration and public discourse will be explored through the experience of sport.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 211

PACIFIC 312 15 Points
Pacific Indigenous Literatures and Knowledges
Studies Pacific genres of oral literature in English translation. Genres include oratory, poetry, tales of creation, folk tales, and proverbs and sayings.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 212

PACIFIC 313 15 Points
Pacific Wellbeing: Empowering Dimensions
Examines empowering notions of Pacific wellbeing for Pacific individuals, families and communities. Students explore definitions of Pacific wellbeing and the cultural concepts, models, practices and worldviews that have enhanced the overall positive wellbeing experiences of Pacific peoples across the Pacific region.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 213

PACIFIC 314 15 Points
Pacific History: New Zealand in the Pacific from 1900
Explores the historical relationship between New Zealand and the Pacific from 1900 onwards. Traces the central importance of New Zealand in the history of the Pacific from the rise of New Zealand’s colonial empire, through the world wars, and towards the movement for decolonisation. Examines the continually evolving place of New Zealand as a nation in the Pacific Ocean.

Postgraduate 700 Level Courses

PACIFIC 700 30 Points
The Pacific: Interdisciplinary Studies
An examination of the ways in which the Pacific has been and is studied in the humanities and social sciences; an analysis and evaluation of views and perspectives on the development of the region and its peoples.

PACIFIC 701 30 Points
Pacific Language Studies
Students will research topics such as the historical origins of Pacific languages, their linguistic structure, orthographies, speech levels, sociolinguistic situation in Aotearoa including language shift, loss and maintenance, bilingualism and biliteracy, and the relationship between language, culture and identity.

PACIFIC 705 30 Points
Special Topic

PACIFIC 707 30 Points
Special Topic

PACIFIC 708 30 Points
PACIFIC 708A 15 Points
PACIFIC 708B 15 Points
Special Study
An approved research topic.
To complete this course students must enrol in PACIFIC 708 A and B, or PACIFIC 708

PACIFIC 710 15 Points
Special Study

PACIFIC 711 30 Points
Intervention, Prevention and Promotion of Pacific Wellbeing
Appraises some critical issues negatively affecting Pacific wellbeing across the Pacific region. Examines both the research and systemic processes that seek to combat these adverse effects via strengths-based Pacific-focused interventions and prevention strategies, as well as other approaches that promote positive aspects of Pacific wellbeing.

PACIFIC 712 30 Points
Pacific Indigenous Thought
Explores the relevance and use of Pacific indigenous concepts such as vanua, tapu, and mana across a range of disciplinary contexts. Focuses on Samoan, Fijian and Tongan concepts.

PACIFIC 713 15 Points
Special Topic: Teu le va and Pacific Research
Explores ‘teu le va,’ and how it is theorised and practised in diverse research settings. Focuses on its inception as an indigenous cultural reference and a Pacific research paradigm used by Pacific researchers and Government ministries. Provides knowledge, practical discussion and applications of ‘teu le va’ in the framing of Pacific models, methodologies, relational ethics, methods, and research design.

<td>Introduction to Logic</td>
<td>15 Points</td>
</tr>
<tr>
<td>PHIL 104</td>
<td>Ethics and Justice</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Mind, Knowledge, and Reality**

Metaphysics deals with fundamental problems about the nature of the world and human beings, for example, questions about the existence of God, the nature of time, the relationship between mind and body and the nature of identity and the self. The theory of knowledge studies the sources, limits and justification of human knowledge and understanding as distinct from opinion or belief.

**Introduction to Logic**

Logic is the study of argument. This course aims to provide an understanding of central logical notions, such as consistency and inconsistency, logical truth, and, most importantly, what it means for an argument to be valid or invalid, sound or unsound. The course examines two main logical systems, propositional and predicate logic, and shows how these formal systems are used to analyse and evaluate arguments.

**Ethics and Justice**

How should we live? And how do we live well together? This course examines practical questions of ethics and justice at the personal, professional, social and global levels. The course reflects on these topics in the light of philosophical theories about justice, liberty, rights, and different approaches to ethics that emphasise roles, rules, virtues and consequences.

#### Stage II

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Credit Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL 200</td>
<td>Philosophy of Mind</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Philosophy of Mind**

There are many philosophical problems concerning mental lives (in particular, human mental lives), how they are constituted, and what makes them possible – problems which have generated a vast literature and diverse important philosophical theories. Theories introduced and critically
examined will include dualisms, but will mainly comprise forms of physicalism such as philosophical behaviourism, the identity theory and especially functionalist theories.  
Prequisite: 30 points in Philosophy or 60 points passed  
Restriction: PHIL 320

PHIL 204  
Greek Philosophy  
15 Points
An introduction to some of the important figures in ancient philosophy and the issues with which they were concerned. The work of the Presocratics, Plato, and Aristotle will be explored, with a detailed discussion of the philosophical system of either Plato or Aristotle and its importance in the history of philosophy.  
Prequisite: 60 points from BA courses at Stage I

PHIL 207  
Philosophy and Religion  
15 Points
Examines the relationship between philosophy and religion from the perspective of different philosophical and religious traditions. Topics include: the nature of ultimate reality, arguments for and against the existence of God or gods, competing philosophical and religious accounts of life after death, religious pluralism and diversity.  
Prequisite: 30 points in Philosophy  
Restriction: PHIL 327

PHIL 209  
19th-Century European Philosophy  
15 Points
Examines key figures in nineteenth-century European philosophy, including Arthur Schopenhauer, Friedrich Nietzsche, Søren Kierkegaard, and Karl Marx. Considers alternative reactions to the human condition, either by minimising suffering and seeking tranquillity, by embracing the pain that life contains and continuing to struggle for greatness, by aiming to experience one's true individuality, or by working to establish a non-exploitative social community.  
Prequisite: 30 points in Philosophy or EUROPEAN 100 and 15 points in Philosophy  
Restriction: PHIL 329

PHIL 216  
Modal Logic  
15 Points
An introduction to modal logic, which is a variation of the system of predicate logic studied in PHIL 101. Modal logic is well-suited for studying philosophically important concepts such as necessity, time, knowledge, vagueness, action and obligation. It is also used in computer science for studying the behaviour of programs and is recommended as preparation for studying logic at Stage III.  
Prequisite: PHIL 101

PHIL 218  
Problems in Epistemology  
15 Points
Epistemology is the study of knowledge, rationality, belief and related topics. This course will give an overview of epistemology but will focus on three main issues: foundationalism versus coherentionism, internalism versus externalism and replies to scepticism.  
Prequisite: 30 points in Philosophy  
Restriction: PHIL 338

PHIL 222  
Intermediate Logic  
15 Points
Natural deduction for propositional and predicate logic; introductory metalogic and related topics in formal logic.  
Prequisite: PHIL 101  
Restriction: PHIL 201

PHIL 225  
Power, Critique and Emancipation  
15 Points
What is power? When are relations of power legitimate and illegitimate? How is power structured in the modern world? How can illegitimate structures of power be resisted and reordered to promote justice and human flourishing? This course examines and analyses cultural, economic, political and epistemic structures of power, including gender, race, and class.  
Prequisite: 30 points in Philosophy or 60 points passed  
Restriction: PHIL 345

PHIL 226  
Special Topic  
15 Points
Prequisite: 30 points in Philosophy

PHIL 228  
Special Topic  
15 Points
Prequisite: 30 points in Philosophy

PHIL 231  
Indigenous Philosophy  
15 Points
An exploration of concepts and ideas from a range of indigenous philosophies, critically examining these with a view to understanding their theoretical underpinnings, conceptual migrations, and contemporary significance in both local and global contexts.  
Prequisite: 30 points at Stage I in Philosophy or 60 points passed  
Restriction: PHIL 331

PHIL 250  
Philosophy and the Environment  
15 Points
Philosophical questions relating to the environment and our use of it, such as the following: Do we have obligations to future generations, especially concerning preservation of the environment? What are our moral and epistemic responsibilities regarding climate change and other environmental issues? Does nature have intrinsic value? Is it better to live in a natural world or a virtual world.  
Prequisite: 30 points in Philosophy or 60 points passed  
Restriction: PHIL 351

PHIL 260  
Philosophy of Science  
15 Points
Addresses philosophical questions about science, such as: What distinguishes science from pseudoscience? How is scientific knowledge generated and structured? Should we believe scientific claims about things we cannot directly observe? Do scientific theories give us true accounts of the world? Examines philosophical accounts of science and cases from historical and contemporary scientific research. A background in science is not expected.  
Prequisite: 30 points in Philosophy or 60 points passed  
Restriction: PHIL 360

PHIL 261  
Metaphysical Structures of the World  
15 Points
Metaphysics attempts to give a quite general picture of the nature and structure of the world, and particularly investigates philosophical problems which thereby arise. Science, common sense, religions and cultures all presuppose metaphysical worldviews. Traditional metaphysical problems concern laws, causation, time, space, substance, identity, attributes and universals, free will, reality, existence etc. Course topics will be selected from such traditional problems.  
Prequisite: 30 points in Philosophy or 60 points passed  
Restriction: PHIL 361
PHIL 263 15 Points
Philosophy of Biology
Examines philosophical and conceptual issues in the life sciences. Topics may include the units and levels of selection, adaptationism, the evolution of altruism, biology and ethics, sociobiology and evolutionary psychology, cultural evolution, evolution versus creationism, and the origin and nature of life.
Prerequisite: 30 points in Philosophy or 60 points of GST
Restriction: PHIL 363

PHIL 268 15 Points
Ethical Theory
Philosophical study of moral theory, in both normative ethics and meta-ethics. Topics covered may include: accounts of well-being such as hedonism, preference theory, and objectivism; theories of right action such as consequentialism and contractualism; the demandness of morality; the role of intuitions in moral theory; and the status and justification of moral theories.
Prerequisite: 30 points at Stage I in Philosophy or any 60 points passed from the BA or at 30 points in Global Politics and Human Rights
Restriction: PHIL 368

Stage III

PHIL 300 15 Points
Directed Study
A directed reading and individual study course on a selected philosophical topic offered in exceptional circumstances, with the agreement and under the supervision of appropriate staff.
Prerequisite: B+ average or higher at Stage III in Philosophy and Academic Head approval

PHIL 302 15 Points
Medieval Philosophy
A detailed introduction to either the work of a leading medieval philosopher, for example Augustine, Akaelard, Scotus or Ockham, or to one or more of the topics which were of interest to medieval philosophers. The course aims to show how understanding medieval philosophy is essential for the history of Christian thought and philosophy up to modern times.
Prerequisite: 30 points at Stage II in Philosophy, or EUROPEAN 100 and 15 points at Stage II in Philosophy

PHIL 306 15 Points
Language, Truth and Meaning
Explores how language is used to communicate ideas. Topics may include: the nature of meaning, how words can convey meaning, how word meaning combines to create sentential meaning, how we communicate better by not saying what we mean, how we repair and reconstruct utterances to extract meaning, how truth is related to meaning, how slurs work.
Prerequisite: 30 points at Stage II in Philosophy

PHIL 307 15 Points
Special Topic
Prerequisite: 30 points at Stage II in Philosophy

PHIL 308 15 Points
Special Topic
Prerequisite: 30 points at Stage II in Philosophy

PHIL 315 15 Points
Topics in Applied Logic
A selection of topics in applied logic such as: modal logic (the logic of necessity and possibility), temporal logic (the logic of time), dynamic logic (the logic of change), and epistemic logic (the logic of knowledge and belief, including the logic of belief revision).
Prerequisite: 15 points from PHIL 222, 216 or 266

PHIL 320 15 Points
Philosophy of Mind
There are many philosophical problems concerning mental lives (in particular, human mental lives), how they are constituted, and what makes them possible – problems which have generated a vast literature and diverse important philosophical theories. Theories introduced and critically examined will include dualisms, but will mainly comprise forms of physicalism such as philosophical behaviourism, the identity theory and especially functionalist theories.
Prerequisite: 30 points at Stage II in Philosophy or PHIL 260 and SCIGEN 201
Restriction: PHIL 200

PHIL 323 15 Points
Philosophy of Logic
An introduction to philosophical logic, covering topics such as: paradoxes, non-classical logic, language and logic, conditionals. Emphasis is put on a back and forth dialogue between the methodologies of logic and philosophy.
Prerequisite: PHIL 222 or 30 points at Stage II in Philosophy

PHIL 327 15 Points
Philosophy and Religion
Examines the relationship between philosophy and religion from the perspective of different philosophical and religious traditions. Topics include: the nature of ultimate reality, arguments for and against the existence of God or gods, competing philosophical and religious accounts of life after death, religious pluralism and diversity.
Prerequisite: 30 points at Stage II in Philosophy
Restriction: PHIL 207

PHIL 331 15 Points
Indigenous Philosophy
An exploration of concepts and ideas from a range of indigenous philosophies, critically examining these with a view to understanding their theoretical underpinnings, conceptual migrations, and contemporary significance in both local and global contexts.
Prerequisite: 30 points at Stage II in Philosophy
Restriction: PHIL 231

PHIL 338 15 Points
Problems in Epistemology
Epistemology is the study of knowledge, rationality, belief and related topics. This course will give an overview of epistemology but will focus on three main issues: foundationalism versus coherentism, internalism versus externalism and replies to scepticism.
Prerequisite: 30 points at Stage II in Philosophy
Restriction: PHIL 218

PHIL 340 15 Points
Kant and Hegel
An examination of the development of German idealism from Kant to Hegel, focusing on Kant’s Critique of Pure Reason (1781-1787) and Hegel’s Phenomenology of Spirit (1807).
Prerequisite: 30 points at Stage II in Philosophy, or EUROPEAN 100 and 15 points at Stage II in Philosophy
Restriction: PHIL 220

PHIL 341 15 Points
20th-Century European Philosophy
Examines intellectual movements in twentieth-century...
European philosophy, including phenomenology, hermeneutics, existentialism, and poststructuralism. Discusses key figures in these movements such as Edmund Husserl, Martin Heidegger, Jean-Paul Sartre, Simone de Beauvoir, Maurice Merleau-Ponty, Hannah Arendt, Michel Foucault, and Jürgen Habermas.

Prerequisite: 30 points at Stage II in Philosophy, or EUROPEAN 100 and 15 points at Stage II in Philosophy
Restriction: PHIL 221

PHIL 345

Power, Critique and Emancipation
15 Points

What is power? When are relations of power legitimate and illegitimate? How is power structured in the modern world? How can illegitimate structures of power be resisted and reordered to promote justice and human flourishing? This course examines and analyses cultural, economic, political and epistemic structures of power, including gender, race, and class.

Prerequisite: 30 points at Stage II in Philosophy or 60 points passed at Stage II
Restriction: PHIL 225

PHIL 351

Philosophy and the Environment
15 Points

Philosophical questions relating to the environment and our use of it, such as the following: Do we have obligations to future generations, especially concerning preservation of the environment? What are our moral and epistemic responsibilities regarding climate change and other environmental issues? Does nature have intrinsic value? Is it better to live in a natural world or a virtual world?

Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Philosophy
Restriction: PHIL 250

PHIL 360

Philosophy of Science
15 Points

Addresses philosophical questions about science, such as: What distinguishes science from pseudoscience? How is scientific knowledge generated and structured? Should we believe scientific claims about things we cannot directly observe? Do scientific theories give us true accounts of the world? Examines philosophical accounts of science and cases from historical and contemporary scientific research. A background in science is not expected.

Prerequisite: 30 points at Stage II in Philosophy
Restriction: PHIL 260

PHIL 361

Metaphysical Structures of the World
15 Points

Metaphysics attempts to give a quite general picture of the nature and structure of the world, and particularly investigates philosophical problems which thereby arise. Science, common sense, religions and cultures all presuppose metaphysical worldviews. Traditional metaphysical problems concern laws, causation, time, space, substance, identity, attributes and universals, free will, reality, existence etc. Course topics will be selected from such traditional problems.

Prerequisite: 30 points at Stage II in Philosophy or PHIL 260 and SCIGEN 201
Restriction: PHIL 261

PHIL 363

Philosophy of Biology
15 Points

Examines philosophical and conceptual issues in the life sciences. Topics may include the units and levels of selection, adaptationism, the evolution of altruism, biology and ethics, sociobiology and evolutionary psychology, cultural evolution, evolution versus creationism, and the origin and nature of life.

Prerequisite: 30 points at Stage II in Philosophy or PHIL 260 and SCIGEN 201
Restriction: PHIL 263

PHIL 368

Ethical Theory
15 Points

Philosophical study of moral theory, in both normative ethics and meta-ethics. Topics covered may include: accounts of well-being such as hedonism, preference theory, and objectivism; theories of right action such as consequentialism and contractualism; the demandingness of morality; the role of intuitions in moral theory; and the status and justification of moral theories.

Prerequisite: 30 points at Stage II in Global Politics and Human Rights or Philosophy or PHIL 250 or POLITICS 209
Restriction: PHIL 268

Postgraduate 700 Level Courses

PHIL 701

Philosophy for Children – Theory and Practice
30 Points

Provides a thorough practical grounding in facilitation of philosophical communities of inquiry, and in the construction of materials to stimulate philosophical inquiry. The educational theory and international research on cognitive and social outcomes of Philosophy for Children are explored. A selection of topics in philosophy will be studied at a level appropriate for advanced Education students encountering philosophy for the first time.

Faculty of Arts

Politics and International Relations

Stage I

POLITICS 106 15 Points
Global Politics
An introduction to the study of international relations. The focus is on how international organisations, states and non-state actors raise and address global challenges such as security and human insecurity, humanitarian intervention, global trade and finance, development and poverty, environmental degradation, warfare, and respect for human rights. The course is informed by and introduces a range of international relations theories.

POLITICS 107 15 Points
New Zealand Politics
An introduction to understanding who governs New Zealand and in whose interests. Topics include national identity, institutions of government, leadership, voting and elections, the place of Māori within the political system, parties and political participation. The course draws on current research in NZ politics and provides knowledge that can be applied to a variety of careers, including law, business and public service.

POLITICS 109 15 Points
Foundations of Western Politics and Law
An examination, via the works of selected major European thinkers from Ancient Greece to nineteenth-century Britain, of ideas central to the western tradition of political thought: justice, law, liberty, power, rights, citizenship, the rights of women, and the right to resist governments. Thinkers studied include Plato, Machiavelli, Hobbes, Locke, Rousseau, Wollstonecraft, Mill and Marx.

Stage II

POLITICS 201 15 Points
Globalisation and International Organisations
Examines the relationship between globalisation and international relations. Investigates recent developments of globalisation in view of the rise and fall of great powers, placing globalisation against the backdrop of the school of liberalism in international relations theory, and studies the role played by international organisations.

Prerequisite: 30 points at Stage I in Politics and International Relations or Employment Relations and Organisational Relations or Employment Relations and Organisational Relations or Politics and Human Rights or International Relations and Business

Restriction: POLITICS 348

POLITICS 202 15 Points
Democrats and Dictators
Introduces the study of institutional change in non-democratic and emergent and established democratic states. Develops an understanding of democratic transition and consolidation (or a lack of them), and the breadth of institutional types in global politics.

Prerequisite: 15 points at Stage I in Politics and International Relations, and 30 points from BA courses or 30 points in Global Studies

POLITICS 203 15 Points
Special Topic

Prerequisite: 30 points at Stage I in Politics and International Relations

POLITICS 207 15 Points
Media, Conflict and Peace
Explores the role of media in cases of modern conflict, genocide and peace processes. Through case studies, the course examines media structure, content, framing and psychological responses during times of conflict and peace-making, and how media informs audiences and either foments or quells conflict.

Prerequisite: 30 points at Stage I in Communication, Media and Screen Studies or Politics and International Relations

POLITICS 209 15 Points
Modern Political Thought
What should the state do and what should it keep out of? Focussing on key debates in modern political theory, topics will vary year from year and may include political authority and the rule of law; freedom, coercion, and manipulation; indigenous rights and the welfare state; paternalism; the ethics of war, global justice and feminism.

Prerequisite: 15 points at Stage I in Politics and International Relations and 30 points in the BA

POLITICS 210 15 Points
Special Topic

Prerequisite: 30 points at Stage I in Politics and International Relations

POLITICS 211 15 Points
Politics of China
An introduction to China's domestic politics, emphasising changes since 1978. The course explores topics such as political succession; the cadre system and political decision-making at the central, provincial, and local levels; economic development; popular religion and the state; NGOs and the non-state sector; nationalism and ethnic diversity; the role and relevance of ideological legacies; and institutional innovation and authoritarian survival.

Prerequisite: 30 points at Stage I in Politics and International Relations, or POLITICS 106 and ASIAN 100, or CHINESE 130 and ASIAN 100

POLITICS 216 15 Points
Special Topic

Prerequisite: 30 points at Stage I in Politics and International Relations

POLITICS 218 15 Points
American Politics and Public Policy
Explores American politics and policy. Analyses the US political system and its governance, including the ideas
of federalism, separation of powers, checks and balances. Examines the country’s development, its legal and policy-making system, the dynamics between the various actors, and the struggle for power and policy. Covers political parties, participation, interest groups, social movements, media, campaigns and elections.

Prerequisite: 30 points at Stage I in Politics and International Relations, or POLITICS 106 and 30 points in Global Politics and Human Rights

Restriction: POLITICS 347

POLITICS 222 15 Points
Public Policy: Actors, Processes and Politics

Government policy choices determine the taxes we pay, the resources we consume and the wars we fight. This course provides an introduction to policy studies together with a conceptual tool-kit for understanding and evaluating public policies. It poses questions about the relevance of different actors and instruments in a series of important substantive policy areas: health and food, the environment, foreign relations, (un)employment, crime and the economy.

Prerequisite: 30 points at Stage I in Politics and International Relations or Māori Studies or MĀORI 130, or 30 points at Stage I in Social Science for Public Health, or 30 points at Stage I in BC courses

POLITICS 229 15 Points
Mana Māori Motuhake / Māori Politics and Public Policy

An introduction to Māori politics. Topics include the Treaty of Waitangi, the politicisation of identity, sovereignty and self-determination, representation, globalisation and the Māori economy, Māori development and Māori media. Some contemporary and comparative indigenous policy issues will be discussed.

Prerequisite: 30 points at Stage I in Politics and International Relations or Māori Studies, or any 60 points

POLITICS 233 15 Points
Politics, Media and Public Sphere

Critics voice disquiet about the future of journalism and political deliberation, and the lack of a unified public space where citizens can engage seriously with matters of collective concern. The course surveys the changing public sphere over time, from its early-modern emergence to the challenges of tabloid news and online fragmentation in contemporary media culture.

Prerequisite: 30 points at Stage I in Politics and International Relations, or COMMS 100 and MEDIA 101, or 30 points at Stage I in Communication

POLITICS 236 15 Points
Special Topic

Prerequisite: 30 points at Stage I in Politics and International Relations

POLITICS 254 15 Points
China and the World

A comprehensive investigation of China’s engagement with the world. Focuses on China’s relations with its neighbouring countries and other parts of the world. Examines China’s involvement in international institutions such as the United Nations, the world trade system, the environment and human rights.

Prerequisite: 30 points at Stage I in Politics and International Relations, or Asian Studies or History, or CHINESE 130 and ASIAN 100, or POLITICS 106 and 30 points in Global Politics and Human Rights

Restriction: POLITICS 354

POLITICS 256 15 Points
Special Topic: Critical Security Studies

Investigates recent developments in the theory and practice of international security from a critical perspective. Provides an overview of the main concepts, theories, methodological approaches, and empirical objects in the field. Develops the skills and knowledge necessary to understand a core subject within International Relations.

Prerequisite: 30 points at Stage I in Politics and International Relations, or POLITICS 106 and 30 points in International Relations and Business

Stage III

POLITICS 300 15 Points
Great Power Relations

Examines international diplomatic, economic, and security interactions of the governments of the United States, Europe, Russia, and China and their implications for the Middle East, South Asia, Southeast Asia, Latin America and Oceania, and for the United Nations and other international organisations.

Prerequisite: 30 points at Stage II in Politics and International Relations or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights

Restriction: POLITICS 751

POLITICS 301 15 Points
Toleration and Censorship

An exploration of the ideas and practical dilemmas, past and present, of toleration and intolerance, and the relationship between freedom of expression and attempts to censor and control the public communication of political, religious and moral thought.

Prerequisite: 30 points at Stage II in Politics and International Relations, or 15 points at Stage II in Politics and International Relations and 15 points at Stage II in History or Philosophy

POLITICS 303 15 Points
War and Political Violence

An advanced introduction to violence and war, paying particular attention to why conflicts begin, how they escalate and what can be done to build a sustainable peace. Students explore the main theories of political violence, as well as key themes such as post-conflict reconstruction, sexual violence, reconciliation, humanitarian intervention and terrorism.

Prerequisite: 30 points at Stage II in Politics and International Relations or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights

POLITICS 304 15 Points
Special Topic

POLITICS 311 15 Points
Gender and Global Politics

Advanced investigation of feminist and gender theory as applied to key issues in International Relations. Presents feminist approaches to key contemporary issues including digital politics, women and militarism, global health, sexual violence in war, migration and population displacement, and queer politics. Students will develop a sophisticated understanding of the roles of gender in global politics.

Prerequisite: 30 points in Gender Studies or Global Studies or 15 points at Stage II in Politics and International Relations

POLITICS 313 15 Points
Governing Planet Earth

Environmental problems play an increasingly important
role in contemporary politics. This course examines the role of ideologies and institutions in shaping environmental governance challenges from climate change and land-use conflicts to air and water pollution. Drawing from examples in New Zealand and around the globe, topics include limits to growth, sustainable development, ecological modernisation, ecolocalism and environmental justice. Prerequisite: 30 points at Stage II in Politics and International Relations, or POLITICS 106 and 30 points at Stage II in Global Environment and Sustainable Development, or 30 points at Stage II in BC courses.

Restriction: POLITICS 205

POLITICS 314 15 Points
Democracy in Theory and Practice
Examines the theory and practice of democratic politics. Specific questions include how democracies try to reconcile freedom and equality, and the relations between democratic nationalism and citizenship. Practical topics include judicial review and the rule of law, referendums and the ‘tyranny of the majority’, and issues in political representation, including Māori representation. Prerequisite: 30 points at Stage II in Politics and International Relations, or 15 points at Stage II in Economics or History or Philosophy or Māori Studies or Sociology, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights.

Restriction: POLITICS 214

POLITICS 315 15 Points
The Practice of Politics
Explores the skills and knowledge needed for students to practice politics effectively, considering the range of jobs available in the political arena, the professional skills needed to succeed in political positions, lessons that can be learnt from political science literature about how to practice politics both effectively and ethically, and individual development of employability attributes. Prerequisite: 30 points at Stage II in Politics and International Relations.

POLITICS 316 15 Points
Capitalism and its Critics
An account of the main variants of capitalism, criticisms of capitalism, and some alternatives. Topics include: markets in theory and practice; the value of efficiency and capitalism’s growth imperative; consumer sovereignty; alienation; unemployment; meaningful work; planned economies and market socialism; incentives and the profit motive; democracy at work; labour market regulation; inequality and poverty. Prerequisite: 30 points at Stage II in Politics and International Relations, or 15 points at Stage II in Politics and International Relations and 15 points at Stage II in Economics or History or Philosophy or Māori Studies or Sociology, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights.

Restriction: POLITICS 214

POLITICS 320 15 Points
Social Justice
Examines contemporary theories of justice focusing on the relationships between justice, equality and liberty. Students explore a range of topics that may include the distribution of resources both globally and domestically, and the rights of cultural minorities, gender groups, animals and future generations. Prerequisite: 30 points at Stage II in Politics and International Relations or Philosophy, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights.

POLITICS 345 15 Points
Political Marketing
Studies how and why political organisations such as political parties use business techniques and concepts. Prerequisite: 30 points at Stage II in Politics and International Relations, or 30 points at Stage II in Communication, or 30 points at Stage II in Global Studies.

POLITICS 346 15 Points
Terrorism
Terrorism is a major issue of global concern. In this course, students will learn the definition, history, causes and dynamics of terrorism. They will examine why terrorist organisations emerge, their goals and the causes of their demise. Students also examine the causes of radicalisation of individual terrorists and how governments can counter violent extremism. Prerequisite: 30 points at Stage II in Politics and International Relations, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights.

POLITICS 347 15 Points
American Politics and Public Policy
Explores American politics and policy. Analyses the US political system and its governance, including the ideas of federalism, separation of powers, checks and balances. Examines the country’s development, its legal and policy-making system, the dynamics between the various actors, and the struggle for power and policy. Covers political parties, participation, interest groups, social movements, media, campaigns and elections. Prerequisite: 30 points at Stage II in Politics and International Relations, or 60 points in Global Politics and Human Rights.

Restriction: POLITICS 218

POLITICS 348 15 Points
Ethno-Political Violence: Hate Crimes to Genocide
Examines the causes and prevention of ethno-political violence. Forms of violence examined include: hate crimes; ethnic and religious conflict; revolution, insurgency and civil war; mass killings and genocide. Students will become familiar with the main theories and explanations of this violence, numerous case studies and policies for their prevention. Prerequisite: 30 points at Stage II in Politics and International Relations, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights.

POLITICS 349 15 Points
Terrorism
Terrorism is a major issue of global concern. In this course, students will learn the definition, history, causes and dynamics of terrorism. They will examine why terrorist organisations emerge, their goals and the causes of their demise. Students also examine the causes of radicalisation of individual terrorists and how governments can counter violent extremism. Prerequisite: 30 points at Stage II in Politics and International Relations, or 30 points at Stage II in Communication, or 30 points at Stage II in Global Studies.

Restriction: POLITICS 218

POLITICS 350 15 Points
Research Design in Empirical Political Inquiry
Explores a range of tools and approaches commonly used by political and other social scientists in the course of conducting empirical research. The course is designed to assist postgraduate students in Politics and International Relations, as well as cognate disciplines, in developing their own research projects.}

POLITICS 351 15 Points
Postgraduate 700 Level Courses

POLITICS 701 15 Points
Research Design in Empirical Political Inquiry
Explores a range of tools and approaches commonly used by political and other social scientists in the course of conducting empirical research. The course is designed to assist postgraduate students in Politics and International Relations, as well as cognate disciplines, in developing their own research projects.
the practice of apology, democratisation, development and reconciliation.

POLITICS 704 15 Points
Political Management in Government
Explores how politicians and their staff use management tools to help them achieve their goals within the constraints and challenges of the governing environment. It explores the nature of government, and the potential and limitations of branding, PR, market research, public engagement, strategy, government advertising, crisis management, media management and delivery management within the political environment.

POLITICS 706 15 Points
International Relations in Asia
A theoretical perspective based on empirical analyses that draws on Western theories to examine burgeoning perspectives from the rising East. The empirical analyses cover North Korea's nuclear crisis, territorial disputes in the South China Sea, relations across the Taiwan Strait, as well as regional trade, investment, and finance.

POLITICS 708 15 Points
Theorising International Relations
An advanced examination of contemporary international relations theory. Students will explore key concepts, such as war, anarchy and the state, along with a range of different theoretical perspectives, from realism and liberalism through to feminism, poststructuralism and postcolonialism.

Restriction: POLITICS 318

POLITICS 709 15 Points
Political Extremism
Considers the political context behind a range of forms of modern extremism, including fascism and other forms of dictatorship, genocide, the persecution of minorities, far-right white nationalism, and religious and political terrorism. Investigate cases such as the Nazi regime; Stalin's Soviet Union; the Cambodian, Indonesian and other genocides; al Qaeda; Islamic State / ISIS; and neo-Nazis so as to identify common pathways to extremism.

POLITICS 710 15 Points
The Security-Development Nexus
The security-development nexus has become the leading paradigm for international interventions since the end of the Cold War, especially since the 11 September 2001 terrorist attacks. This course engages with the advanced theoretical, normative and operational underpinnings of the ‘nexus’. The theoretical learning will then allow students to critically analyse the political economy and operational outcomes of international interventions.

POLITICS 711 15 Points
Bodies in/at War
War is a profoundly embodied experience, but the body is often erased in the dominant accounts. This course places the body at the centre of critical thinking on war. Examines how bodies are prepared for war, how different bodies experience war, and what happens to these bodies in the aftermath of war.

POLITICS 722 Special Topic

POLITICS 724 15 Points
Identity and the Politics of Multiculturalism
Explores the theoretical implications of identity politics based on gender, race, ethnicity, sexuality. Considers the effects of these claims on liberty, justice, equal citizenship, political representation and participation. Readings cover liberalism, feminism, communitarianism and deliberative democracy.

POLITICS 731 15 Points
The Engendering of Global Conflict
Explores feminist theory and methodology in the study of war and conflict, including feminist interventions on how to prevent war and conflict. Topics include women's roles in war and the gendering of militarism; sexual and environmental offences, race and human rights violations; colonial legacies, feminist resistance to war, and the UN’s Women, Peace, and Security (WPS) Agenda.

POLITICS 733 Special Topic

POLITICS 737 15 Points
POLITICS 737A 7.5 Points
POLITICS 737B 7.5 Points
Directed Research
Supervised research on an approved topic or topics. To complete this course students must enrol in POLITICS 737 A and B, or POLITICS 737

POLITICS 740 15 Points
Revolutions, Ideas and Media
Revolutions are politics writ large, moments when political reality and political aspirations collide and erupt in often epochal transformations. This course explores the idea, and the realities, of historical and modern revolutions as sources of insight into politics and societal change, with particular attention to the key role of ‘the people’, public opinion and the media.

POLITICS 741 15 Points
Ethics and Health Policy
Considers the intersection between theory, policy, and problems in health. Topics include: defining health and its value; the role of government and markets in providing health care; allocating resources in a government health system; justice, inequalities, and health; coercion to control the spread of disease, whether caused by pathogens (e.g., pandemic influenza) or lifestyle.

POLITICS 750 15 Points
International Relations and Human Rights
An analysis of how governments adopt and implement human rights norms, negotiate human rights treaties with other governments, interact with United Nations human rights institutions, and set up courts to try human rights violations. Includes domestic politics as they bear on international human rights issues.

POLITICS 756 15 Points
New Zealand Government
An examination of the composition, functions and powers of New Zealand's political institutions under MMP. Analyses the extent to which factors such as political leadership, policy, electoral and parliamentary tactics, and relations between the major and minor parties contribute to a government’s success.

POLITICS 757 15 Points
Comparative Public Policy
A comparative examination of policy actors, processes and outcomes. Engaging with a range of conceptual and methodological approaches, the course considers how we
might explain and understand cross-national similarities and differences in policy-making and policy outcomes. The course focuses on the relative importance of interests, institutions and ideas at the national level, as well as international contexts and actors that facilitate diffusion and transfer of policy across countries.

**POLITICS 770**  
**Ethnic Conflict and Civil War**  
Students examine the comparative literature on civil war, mass killings and conflict prevention, and apply this scholarship to past and contemporary cases of violent conflict. In doing so, they learn to carry out two policy-relevant tasks: identify common causes of violence and assess which policies of prevention work best in different contexts.

**POLITICS 774**  
**Politics-Policy Internship**  
Prerequisite: Programme Coordinator approval  
Restriction: POLICY 737

**POLITICS 775**  
**Special Topic**

**POLITICS 776**  
**Media and Politics in an Age of Globalisation**  
Explores the relationship between media and politics, domestically and internationally, within a changing global context. Students will critically engage with key theories in political communication scholarship, such as agenda-setting, priming, framing, silencing and informational effects within the new media dynamics, which includes multiple new media outlets (such as state and private media), platforms, technologies and faster delivery.

**POLITICS 777**  
**Politics of Terrorism and Counterterrorism**  
Provides students with a critical understanding of terrorism and counter-terrorism politics, policy and practice in a globalised world. The course examines theories, causes, typologies and case studies of terrorism, as well as counterterrorism responses by states and the international community. It also engages with moral, ethical and political questions posed by the discursive battleground of terrorism and counterterrorism.

**POLITICS 780**  
**Research Project - Level 9**  
To complete this course students must enrol in POLITICS 780 A and B, or POLITICS 780

**POLITICS 789**  
**Dissertation in International Relations and Human Rights - Level 9**  
To complete this course students must enrol in POLITICS 789 A and B, or POLITICS 789

**POLITICS 792**  
**Dissertation**  
To complete this course students must enrol in POLITICS 792 A and B, or POLITICS 792

---

**Public Policy**

**Postgraduate 700 Level Courses**

**POLICY 700**  
**Special Topic: Statistics and Data Analysis**  
Restriction: POLICY 742, 769, POLITICS 769

**POLICY 701**  
**Policy Analysis and Evaluation**  
Provides a solid practical and theoretical basis for public policy analysis. Examines criteria for effective policy-making as well as competing models of the policy process. Concepts and approaches covered include: problem definition, writing policy briefs, project implementation, reflexive policy-making, cost-benefit and impact analysis. Students will use these concepts and methods to explore substantive topics of their choice.  
Restriction: POLITICS 748

**POLICY 702**  
**Economics of Policy**  
Applies economic reasoning to current problems in policy and government. Covers fundamentals of market economy, competition policy, welfare and taxation, market failure, problems of collective choice, growth and development, the structure of the macroeconomic system, and the role of public finance agencies in the management of the economy.  
Restriction: POLICY 743

**POLICY 737**  
**Applied Policy Project**  
Supervised project on an applied policy topic agreed between the student and a nominated supervisor. Students will produce a project proposal, progress report, dissemination plan, final report, and reflective comments.  
Restriction: POLICY 737, 774

**POLICY 740**  
**Policy Design, Analysis and Implementation**  
Provides a critical overview of the policy process including problem definition, co-design as well as focusing on a range of theoretical and methodological approaches to policy analysis, including cost-benefit analysis, regulatory impact analysis and gender and diversity impact assessments.  
Restriction: POLICY 701
POLICY 741 30 Points
Government and Policy: New Zealand Compared
Examines New Zealand’s machinery of government at both central and local level. Analyses the relative impact of institutions, interests and ideas on public policy outcomes in New Zealand and internationally. Applies these understandings to the methods and processes associated with policy transfer and lesson drawing cross-nationally.
Restriction: POLITICS 756, 757

POLICY 742 30 Points
Statistics and Data Analysis for Policy
Provides the fundamentals of statistical analysis and examines the use of different types of data used in evidence-based policy making, as well as the issues associated with the advent, use and governance of big data. Covers research design choices and quantitative methods for policy analysis.
Restriction: POLICY 769, POLITICS 769

POLICY 743 30 Points
Economics, Budgets and Bureaucrats
Applies key concepts and tools of economic analysis to contemporary policy problems. Focuses on the allocation of the economy’s resources, the budget process and the role of public finance agencies, rationales for government intervention in a market economy, and the impact of expenditure and taxation on the economy and citizens’ wellbeing.
Restriction: POLICY 702

POLICY 744 15 Points
Policy in Practice
Provides a practical opportunity for participants to work with a policy agency in an advisory capacity to develop evidence-informed recommendations addressing a complex policy problem. Engages students in a team-based exercise that applies the knowledge and skills gained from completing the core courses in a way that informs “real world” policy decisions.
Prerequisite: POLICY 740-743
Restriction: POLICY 737, POLITICS 774

POLICY 790 30 Points
Research Project - Level 9
To complete this course students must enrol in POLICY 790 A and B, or POLICY 790

POLICY 792 45 Points
POLICY 792A 22.5 Points
POLICY 792B 22.5 Points
Dissertation - Level 9
Develops students’ ability to design and undertake a policy-related research project under supervision and to present a written report of 15,000 words.
Prerequisite: POLICY 742
Restriction: POLICY 792
To complete this course students must enrol in POLICY 792 A and B, or POLICY 792

POLICY 793 45 Points
POLICY 793A 15 Points
POLICY 793B 30 Points
Dissertation - Level 9
Prerequisite: POLICY 742
Restriction: POLICY 792
To complete this course students must enrol in POLICY 793 A and B, or POLICY 793

Russian

Stage I
RUSSIAN 100 15 Points
RUSSIAN 100G 15 Points
Beginners’ Russian 1
A beginner’s course using multi-media (computer) materials that presumes no prior knowledge of Russian, with emphasis on a range of language skills - listening comprehension, speaking, reading, writing, and the essential grammar of Russian.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

RUSSIAN 101 15 Points
Beginners’ Russian 2
A continuation of RUSSIAN 100. More practice with written and spoken Russian, fundamental grammar, and authentic texts.
Prerequisite: RUSSIAN 100 or approval of Academic Head or nominee
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Stage II
RUSSIAN 200 15 Points
Intermediate Russian 1
A revision of the grammar covered at Stage I, with more vocabulary building, reading of authentic journalistic and literary texts, and practise of listening and speaking.
Prerequisite: RUSSIAN 201 or approval of Academic Head or nominee
Restriction: RUSSIAN 210. May not be taken if a more advanced language acquisition course in this subject has previously been passed

RUSSIAN 201 15 Points
Intermediate Russian 2
Builds on skills obtained in RUSSIAN 200 with special emphasis on practical work, spoken Russian and development of aural-oral skills.
Prerequisite: RUSSIAN 200 or approval of Academic Head or nominee
Restriction: RUSSIAN 210. May not be taken if a more advanced language acquisition course in this subject has previously been passed

RUSSIAN 277 15 Points
Russian Study Abroad 2A
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

RUSSIAN 278 15 Points
Russian Study Abroad 2B
Course taken at an approved academic institution abroad.
Prerequisite: RUSSIAN 277 and approval of Academic Head or nominee
Samoan

Stage I

SAMOAN 101  15 Points
SAMOAN 101G  15 Points

Samoan Language 1
Gives students an introduction to the structure of Samoan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

SAMOAN 101G  15 Points

Stage II

SAMOAN 201  15 Points

Samoan Language 2
Extension of SAMOAN 101 in which more complex sentences will be studied through exposure to reading material and spoken texts such as conversations, speeches, letters, articles, songs and poems.
Prerequisite: SAMOAN 101
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

SAMOAN 203  15 Points
Special Topic

Stage III

SAMOAN 301  15 Points

Samoan Language 3
Conversations and speeches will be studied and practised. The contexts and relationships between ordinary and respectful language levels or honorifics of fa'asamoa protocols will be examined.
Prerequisite: SAMOAN 201

SAMOAN 303  15 Points
Special Topic

Screen Production

Postgraduate 700 Level Courses

SCREEN 700  30 Points
Screenwriting Project
Considers the short film script with a focus on the practice and principles of dramatic screenwriting, including industry format and narrative structure. By developing a script for a 5-8 minute film in stages, students will practice creative writing, script development, and pitching while also learning skills related to production management, proposal writing, and preparing and scheduling a low-budget production.
Restriction: SCREEN 702, 705

SCREEN 701  30 Points
Introduction to Directing
Provides students with a practical overview of the drama and documentary production process from a director's point of view. Students are taken through pre-production, production and post-production on a series of group projects, as well as their own 2-minute short film. Emphasises the importance of directing style, character and story alongside acquiring practical skills. Students are encouraged to critique their own work as well as the work of their classmates.

SCREEN 709  15 Points
Directed Study

SCREEN 710  15 Points
Special Topic

SCREEN 711  15 Points
Special Topic

SCREEN 712  30 Points
Advanced Drama Directing
Focuses on the directing of actors for screen, and the relationship between this and blocking for camera. Students direct in front of the class and create a short piece of work as a group using improvisation. Students first focus on directing and presenting a 10-minute excerpt from a play and then direct and edit an original dramatic short film of 8-10 minutes. Crewing on fellow students' projects is a compulsory requirement.
Prerequisite: SCREEN 701

SCREEN 713  30 Points
Advanced Documentary Directing
Students complete a major treatment/script, an interview exercise, and a completed documentary of 10-12 minutes. For the latter project, the course convener functions like an executive producer, overseeing and critiquing the documentaries as they progress. Emphasis is placed on aesthetic and formal approaches to the documentary and the class will draw extensively on documentary history.
Restriction: COMMS 713

SCREEN 714  30 Points
Screenplay Writing and Development
A practical course in which students work on original features and analyse the work of writers. Students develop a better sense of structure, plot, characters, dialogue, genre and understand the dynamics of constructive feedback and rewriting, known in the screen industry as the 'development process.' Combines lectures and workshops and builds upon SCREEN 700.
Prerequisite: SCREEN 700 or 705 or approval of Programme Director

SCREEN 715  30 Points
Directed Study
Directed research on a selected topic.

SCREEN 780  30 Points
Research Project - Level 9

SCREEN 792  60 Points
Dissertation - Level 9

SCREEN 797A  60 Points
SCREEN 797B  60 Points
Production Project - Level 9
The production of a substantial project in which the student specialises as director, writer, or producer completing either a documentary (approximately 30 minutes), a short dramatic film (approximately 10-15 minutes) or a feature length screenplay (80-110 pages). Students are required to attend a seminar series conducted by academic staff and industry practitioners in Semester One. Crewing on fellow students' projects is also required.
Prerequisite: Approval of Academic Head or nominee
To complete this course students must enrol in SCREEN 797 A and B
Sociology

Stage I

SOCIOL 100 15 Points
Issues and Themes in Sociology
Introduction to sociology as a discipline and a review of some of its internal debates. Topics include: social class, gender, globalisation, power, sexual identity and family. Draws on material from a range of societies.

SOCIOL 101 15 Points
SOCIOL 101G 15 Points
Understanding Aotearoa New Zealand
Provides an introduction to the sociological analysis of New Zealand society. Looks at familiar events, institutions, social processes from a sociological point of view and offers ways to understand them in new and different ways. Focuses on the structure of New Zealand society and on social and political changes which affect the lives of New Zealanders and shape their society.

SOCIOL 103 15 Points
Aotearoa New Zealand Social Policy and Social Justice
Provides an overview of key contemporary social policy issues within the context of globalising economic processes and continuing gendered and racialised divisions. Discusses the way in which debates around social policy are constructed and the implications this has for social justice. Case studies may include food and health, technology, indigeneity and children.

SOCIOL 105 15 Points
Cultural Studies and Society
A cultural studies approach to social life focuses on the way we experience the world, taking account of what we see, what we hear, what we consume and how we communicate. Sociological theory will be explored through investigating different cultural forms including film, advertising, art, social media, sport, and video games.

Stage II

SOCIOL 200 15 Points
Sociological Theory
Aims to map the social condition through theorists who also emphasise the need to transform it. Focuses on material existence, how it is interpreted through language and the investment of people in oppressive regimes, ideologies and discourses. Develops critical perspectives on the intersections of class, race, gender and sexuality. Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with a minimum B+ pass

SOCIOL 203 15 Points
Social Reality and Ideology
Sociologists construe ideology as ideas that conceal social inequalities. This course explores the meaning of ideology and some of its related concepts, such as hegemony, discourse, and subjugation. It then critically analyses some of the most pervasive contemporary ideologies. Although not exhaustive, examples include beliefs about personal responsibility, corporate job creators, faith in technology, and crime and deviance. Prerequisite: 60 points passed from BA courses

SOCIOL 204 15 Points
Special Topic: Social Control
Analyses the means by which different institutions, groups and individuals control the actions, behaviours and thoughts of people in contemporary modern societies, including our own. Discusses controllers, their targets, the mechanisms they employ, the goals they seek to accomplish, and the means by which people resist. Prompts students to reflect how controlling processes have affected their everyday life. Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with a minimum B+ pass or 90 points passed

SOCIOL 205 15 Points
Special Topic: Sociology of Subcultures
Through consideration of sociological theory from the Chicago School, British Cultural Studies, and postmodernism, this course investigates marginal, non-normative, and socially deviant group formations considered as ‘subcultural’. This will include critical consideration of the social, economic, and political dynamics in which specific group practices and identities of subcultures such as ravers, punks, and skaters take shape in capitalist society. Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with a minimum B+ pass Restriction: SOCIOL 225

SOCIOL 207 15 Points
Sociology of Gender and Families
Focuses on the interrelationship between gender, sexuality and families in New Zealand and other Western societies. Through an examination of important moments in the life course of families – for example, partnering and parenting – it explores changes and continuities in the gendered norms, identities, practices and patterns that characterise contemporary family life. Prerequisite: 30 points in Sociology or Gender Studies or 60 points passed Restriction: SOCIOL 214, SOCIOL 222

SOCIOL 208 15 Points
Economy and Society
Examines the changing relations between work and life outside of paid employment. Particular attention is paid to new forms of expropriation that profit from claiming private ownership of collective effort, ideas and cultural forms. These developments are crucial to understanding and contesting social inequality, globalisation, organisational restructuring and new technologies. Course material is drawn from international literatures and is grounded in an understanding of contemporary New Zealand. Prerequisite: 30 points at Stage I in Employment Relations and Organisational Studies or Sociology or 15 points at Stage I in Sociology with a B+ or higher, or 30 points in International Relations and Business

SOCIOL 210 15 Points
Colonisation, Globalisation and Social Justice
Charts the political, economic, cultural and ecological consequences of imperialism, colonisation, globalisation, aid and development, up to and including the IMF/World Bank's neoliberalism and structural adjustment programme. It pays particular attention to violence (physical, psychological and ideological), environmental consequences and health impacts in these contexts. Prerequisite: 30 points at Stage I in Sociology or Employment Relations and Organisational Studies, or 15 points at Stage I in Sociology with a B+ or higher, or 30 points in Global Politics and Human Rights, or 30 points at Stage I in BC courses

SOCIOL 211 15 Points
Sociology of Popular Culture
Popular culture appears to be everywhere, but what political
and social effects might all this popular entertainment have on us? This course seeks to answer such questions through a sociological interpretation of popular culture as both an indicator of social change and as a location of meaning and significance. Topics include reality TV, celebrities, consumption, music, and technology.

**Prerequisite:** 30 points at Stage I in Sociology, or 15 points at Stage I in Sociology with a B+ or higher, or 30 points from COMMS 100, FTVMS 100, 101, MEDIA 101, or 30 points from Comparative Literature

**SOCIOL 213**

**Ethnicity and Identity**

Charts the development of the concepts of racial, national, ethnic and indigenous identities in relation to the histories of modernity and colonisation and then uses these concepts to analyse a range of contemporary issues of identity and belonging.

**Prerequisite:** 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with at least a B+ average or 30 points at Stage I in Global Studies with at least a B+ average, or 90 points passed

**SOCIOL 228**

**Special Topic**

**SOCIOL 229**

**Environmental Sociology**

Environmental sociology provides insight into the complex social processes that define, create and even threaten our natural environment. This course gives tools with which to think sociologically about environmental issues, such as understanding how environmental issues come to be seen as environmental problems, and how political, cultural, and economic factors have come to shape our interaction with the natural environment.

**Prerequisite:** 30 points at Stage I in Sociology, or 30 points from ENVSCI 101, 201, GEOG 102, 205, or COMMS 102 and 15 points from ENVSCI 101, SOCIOL 100

**Stage III**

**SOCIOL 300**

**Feminist, Anti-Colonial and Post-Capitalist Technofutures**

Introduces students to theoretical approaches for understanding the social, material and power (political) dimensions of science and technology, as well as practical approaches for imagining and enacting more ethical, equitable, collaborative and anti-colonial technofutures. Topics studied include: science, technology and social theory; feminist, anti-colonial and post-capitalist approaches to science and technology; translating knowledge to engage public audiences.

**Prerequisite:** 30 points at Stage II in Sociology, or COMMS 103 and 208

**Restriction:** SOCIOL 311

**SOCIOL 301**

**Critical Theory and Society**

Critical theory seeks to understand the multiple contradictions of society and to offer roadmaps for progressive social change. This course explores foundational ideas in the tradition of critical theory and in contemporary critical thought. Critical theories are situated in the social and historical contexts from which they arise and are scrutinised for their relevance to contemporary struggles for social justice.

**Prerequisite:** SOCIOL 200 or 30 points above Stage I in BA or Global Studies courses

**SOCIOL 305**

**Special Topic**

**SOCIOL 307**

**The Pacific in the World**

Brief history of post Second World War theories of economic development and modern world systems. Explores Pacific responses to world systems such as colonisation, capitalism, globalisation and militarisation. Examines Pacific relations with colonial and imperial powers such as Aotearoa New Zealand, Britain, and US. Analyses the limitations of world systems models.

**Prerequisite:** 30 points at Stage II in Global Environment and Sustainable Development or Sociology

**SOCIOL 309**

**Migration, Borders and Displacement**

Examines the relationship between national borders and international migration alongside an exploration of critical theories of the drivers, management and experience of displacement. Particular attention is paid to representations of migration, political and policy responses to migration, and patterns of involuntary, labour, lifestyle and educational migration.

**Prerequisite:** 30 points at Stage II in Global Politics and Human Rights or Sociology

**Restriction:** SOCIOL 306

**SOCIOL 310**

**Researching Social Problems**

Develops skills in integrating theory and methods so that students can critically engage with social problems using a sociological lens both inside and outside the university.

**Prerequisite:** 30 points at Stage II in Sociology or 60 points passed at Stage II from BA courses

**SOCIOL 315**

**Law, Inequality and the State**

Examines, in a comparative mode, how law as a set of social relations and categories can both create and remedy inequalities of gender, race, and class.

**Prerequisite:** 30 points at Stage II in Sociology or 15 points from CRIM 201, 202 or 30 points at Stage II in Global Politics and Human Rights

**Restriction:** SOCIOL 215

**SOCIOL 316**

**Critical Theories of Schooling**

Compulsory schooling in western society has traditionally been seen as a significant instrument of socialisation, progression and economic advancement for young people. The course will engage students in ideas which challenge this view by drawing on critical theories such as Labelling, Marxist, Foucauldian, and Anarchist theory, and exploring topics including colonialism, patriarchy, racism, and the social control of youth.

**Prerequisite:** 30 points at Stage II in Sociology

**SOCIOL 318**

**Sociology of the Media**

An exploration of the relationship and patterns of interaction between media, culture and society through an examination of the print and broadcasting media, and advertising in New Zealand.

**Prerequisite:** 30 points at Stage II in Sociology, or Media, Film and Television, or Communication

**SOCIOL 322**

**A Sociology of Relational Life**

Introduces students to new developments in sociology by examining the significance of our relationships to others:
intimate partners, friends, acquaintances, and even pets. The course considers the ways relationships are embedded in life through everyday practices, sharing photographs, and telling stories. In so doing, it engages with contemporary debates about the rise of individualism and the decline of family life.

**Prerequisite: 30 points at Stage II in Sociology**

**SOCIOL 326** Sociology of Violence and Death

Drawing on writings from a variety of intellectual traditions, this course explores the contested nature of violence through an examination of a number of contemporary debates about the causes, agents, consequences, as well as responses to and interventions in, incidents of violence.

**Prerequisite: 30 points at Stage II in Sociology, or 15 points at Stage II in Sociology and CRIM 201 or 202, or 30 points at Stage II in Health and Society**

**SOCIOL 330** Special Topic

**Prerequisite: 30 points at Stage II in Sociology**

**SOCIOL 333** Sociology of Health, Illness, and Medicine

Presents a conceptual and topical overview of the Sociology of Health, Illness, and Medicine. Specific topics to be addressed include: the social distribution of disease; the social production of disease; the social construction of ‘illness’; the social construction of treatment practices; patient experiences of illness and healthcare; the social organisation of medicine; and alternative visions of healthcare.

**Prerequisite: 30 points at Stage II in Sociology, or COMMS 212 and 15 points in Sociology, or 30 points in Health and Society, or HLTHSOC 100 with a B+ or better**

**SOCIOL 339** Special Topic

**Prerequisite: 30 points at Stage II in Sociology**

**SOCIOL 340** Special Topic

**Prerequisite: 30 points at Stage II in Sociology**

---

**Postgraduate 700 Level Courses**

**SOCIOL 700** Advanced Sociological Theory

Explores gender and sexuality through theories influenced by Marx and Freud. Deleuze (with Felix Guattari) and Lacan are typically used to problematise the relationship of the subject to the capitalist patriarchy. Draws on feminist, queer and trans theory. Scope to research on alternative themes such as race.

**Restriction: SOCIOL 733**

**SOCIOL 701** Advanced Skills in Research

Examination of sociological issues in research design, execution, analysis and interpretation. Particular attention is paid to computer assisted data and benefits of employing multiple methods.

**Restriction: SOCSCRES 702, 703**

**SOCIOL 703** Sociology of Mental Health

Interrogates advanced sociological theories of medicine and psychiatry, investigating mental health interventions as social, economic, cultural and political projects. Key issues will include The Enlightenment and theories of the self, the rise of science and the ‘psy’ professionals, institutionalisation and community care, current sociological theories of mental health, the medicalisation of everyday life, and gender, race and mental illness.

**SOCIOL 706** Special Topic: The Sociology of Disasters

Disasters are increasing in scale, cost, frequency and severity. This course examines their causes and consequences and considers their future avoidance. In doing so, it draws on social theory, Science and Technology Studies, and broad literatures on disaster. Topics include: the risk society thesis, the social patterning of disasters, and the political economy of disasters (disaster capitalism).

**SOCIOL 707** Special Topic: Governing Population and Society

Explores the relationship between population, state and society with a particular emphasis on the settler colonial and post colonial context of Aotearoa New Zealand and the South Pacific. Social theories of biopolitics, gender, racism and technology are examined in order to develop critical insights into population ‘problems’ of migration, borders, fertility/mortality, citizenship and diversity.

**SOCIOL 709** Special Topic: Sociology of Universities

Interrogates the purpose of a university from a sociological lens. Explores how the university is imagined and the different social drivers that guide the ‘purpose’ of a university. Topics include non-performatve diversity, the university as a site for ‘cultural wars’, the neoliberal university, critic and conscience and academic freedom.

**SOCIOL 710** Special Topic: Environmental Justice and Environmental Crimes

An advanced study of sociological and green criminology approaches to environmental harms that illuminates the complex social processes that creates them. This course critically analyses phenomenon that harms humans, non-humans and the environment. Examines the complex political, cultural, economic factors, and social factors contributing to them, as well as the social responses to address these problems.

**SOCIOL 718** Research Projects: Design and Practice

Explores some of the major principles of research design and practice before discussing particular methods of research. Students will work through problem definition, literature review, and research design. Both ‘empirical’ and ‘theoretical’ projects will be encouraged.

**Restriction: SOCIOL 731, SOCSCRES 701**

**SOCIOL 728** Family, Gender and the State

The influence of changing ideologies of mothering, fathering, family and work, as well as the political forces and pressure groups that promote them, on both the development and restructuring of social and legal policies in several industrialised nations, including New Zealand.

**SOCIOL 735** Current Debates in Gender and Sexuality

Traces contemporary sociological debates in the analysis of gender and sexuality. This includes reference to feminist concerns with identities, differences, bodies, power and agency. These issues are taken up and explored through...
an examination of practices enacted on/or through sexed bodies.

**SOCIOL 739**  
Directed Study  
30 Points

**SOCIOL 743**  
Special Topic  
15 Points

**SOCIOL 745**  
Sociology of Science and Technology  
Starting from the premise that science is a social phenomenon, this course investigates how science is shaped by norms, institutions, beliefs and other social forces. It asks students to consider how the human world affects science, and how science affects the human world.  
30 Points

**SOCIOL 746**  
Settler Societies and Indigenous Peoples  
Critically examines settler colonialism and the contemporary politics and practices of recognition and reconciliation between indigenous and settler peoples in Aotearoa New Zealand, Australia, Canada and the USA. The course examines the literatures on settler colonialism and contemporary practices of recognition and apology, as well as the work of courts, tribunals, governments and indigenous communities across these four societies.  
30 Points

**SOCIOL 748**  
Critical Theory and Social Change  
Investigates the social forces and forms of thought currently producing progressive social change out of the contradictory realities of the existing social situation. Considers the immanent possibilities for radical change at the present moment of late capitalism, the grounds on which social change might be justified and the practical steps that might be taken to realise them.  
30 Points

**SOCIOL 790**  
Research Project - Level 9  
To complete this course students must enrol in SOCIOL 790 A and B, or SOCIOL 790  
30 Points

**SPANISH 104**  
Beginners' Spanish 1  
Provides a solid grounding in the basic grammar and vocabulary of Spanish for beginners or near beginners, emphasising communicative competence in the present tense. Develops speaking, listening, reading and writing skills, and prepares students at the A1 Level of the Common European Framework of Reference for Languages.  
15 Points

**SPANISH 105**  
Beginners' Spanish 2  
Moving from the present to the past tenses, this course prepares students for basic conversation about everyday activities such as travel, weather, health, pastimes, emotions and simple narratives of historical events. Prepares students for the A2 Level of the Common European Framework of Reference for Languages.  
15 Points

**SPANISH 200**  
Intermediate Spanish 1  
Consolidates Spanish study by introducing the present subjunctive, enables students to move toward fluency in conversations on contemporary topics, and enriches daily activities with detail, subtlety and idioms used in the context of the rich cultures of the Hispanic world (Spain and Latin America). This course is equivalent to B1 of the Common European Framework of Reference for Languages.  
15 Points

**SPANISH 201**  
Intermediate Spanish 2  
Builds on skills obtained in SPANISH 200 with special emphasis on practical work, spoken Spanish and development of aural-oral skills.  
15 Points
SPANISH 202  
Iberian Cultures and Literatures
An introduction to the study of Iberian literatures in their cultural contexts, focusing on major works and movements from different historical periods. 
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378 
Restriction: SPANISH 302

SPANISH 203  
Iberian and Latin American Civilisations
Focuses on the unique traditions and radical innovations of the pluricultural nations comprising the Iberian Peninsula and Latin America, tracing parallel historical trajectories, diverse political systems and engaging aesthetic creations. Develops knowledge of Spanish and Latin American cultural studies through a global studies approach. 
Prerequisite: 45 points at Stage I in BA courses 
Restriction: SPANISH 103

SPANISH 206  
Spanish Myths and Global Icons
Explores cultural representations of universal Spanish motifs in literature and the arts. Examines classical cultural myths associated with Spain (such as Don Quixote, Don Juan and Carmen), and global icons which have defined modernity, from Picasso, Dalí, and García Lorca to Buñuel and Almodóvar. 
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378 
Restriction: SPANISH 306

SPANISH 207  
Transnational Movements in Hispanic Culture
Explores transnational movements pertaining to Spain and Latin America: topics may include the nineteenth-century agendas of abolitionism, freethinking and feminisms, migration and exile, film co-productions and documentaries, and historical memory networks in the twentieth and twenty-first centuries. 
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378 
Restriction: SPANISH 307

SPANISH 215  
Special Topic
Prerequisite: SPANISH 105 or 108

SPANISH 218  
Making Modern Spain 1840-1939
The making of modern Spain charts a period in which gender, class and ideological upheavals intersect with enquiry and debate as to what constitutes the Spanish nation. An overview of key moments in Spanish cultural politics from high Romanticism through to the end of the Spanish Civil War, examining the connections between seduction, both personal and intellectual, and social revolutions. 
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378 
Restriction: SPANISH 318, 725

SPANISH 223  
Special Topic
Prerequisite: SPANISH 105 or 108

SPANISH 277  
Spanish Study Abroad 2A
For approved courses at overseas institutions with permission of the Academic Head or nominee. 
Prerequisite: B- or higher in SPANISH 105 or approval of Academic Head or nominee

SPANISH 278  
Spanish Study Abroad 2B
For approved courses at overseas institutions with permission of the Academic Head or nominee. 
Prerequisite: B- or higher in SPANISH 105 or approval of Academic Head or nominee

Stage III

SPANISH 202  
Iberian Cultures and Literatures
Advanced study of Iberian literatures in their cultural contexts, focusing on major works and movements from different historical periods. 
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 323, 377, 378 and 15 points from SPANISH 206, 207, LATINAM 201, 210, 216 
Restriction: SPANISH 202

SPANISH 306  
Spanish Myths and Global Icons
Explores cultural representations of universal Spanish motifs in literature and the arts. Examines classical cultural myths associated with Spain (such as Don Quixote, Don Juan and Carmen), and global icons which have defined modernity, from Picasso, Dalí, and García Lorca to Buñuel and Almodóvar. 
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 377, 378 and 15 points from SPANISH 202, 207, LATINAM 201, 216 
Restriction: SPANISH 206

SPANISH 307  
Transnational Movements in Hispanic Culture
Explores transnational movements pertaining to Spain and Latin America: topics may include the nineteenth-century agendas of abolitionism, freethinking and feminisms, migration and exile, film co-productions and documentaries, and historical memory networks in the twentieth and twenty-first centuries. 
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 377, 378 and 15 points from SPANISH 202, 207, LATINAM 201, 216 
Restriction: SPANISH 207

SPANISH 315  
Special Topic
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216

SPANISH 316  
Special Topic
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216

SPANISH 317  
Hispanic Cultures in Cinema
A study of Spanish and/or Latin American cultures and their representation in films. Emphasis on critical theories and cultural contexts of representation. 
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216 
Restriction: SPANISH 718

SPANISH 318  
Making Modern Spain 1840-1939
The making of modern Spain charts a period in which

**Postgraduate 700 Level Courses**

SPANISH 719 30 Points

Special Topic

SPANISH 720 30 Points

Latin American Knowledges

An examination of new knowledges produced in Latin America that have influenced socio-political theory and global epistemological paradigms but are subalternised as art, culture, or politics. Therefore, this course will examine the link between theory and practice in the creation of new knowledge.

Prerequisite: LATINAM 301, 306, or POLITICS 332

Restriction: LATINAM 320

SPANISH 723 30 Points

Advanced Spanish Translation Practice

Aims at developing translator competence within general, cultural and technical knowledge domains, through full translations into and out of Spanish, topic-based research, and summary and selective translations. Specific skills include mastering the different phases in the translation process; understanding the main textual and contextual features of Languages for Specific Purposes (LSP) texts; documentary research skills, and editing and proof-reading skills.

Prerequisite: SPANISH 201 or approval of Spanish Programme Coordinator

Restriction: SPANISH 723

SPANISH 719 30 Points

Directed Reading and Research

Supervised research projects.

Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216, and approval of Academic Head or nominee

SPANISH 720 30 Points

Latin American Icons: Political Economy of Otherness

The ways in which Latin America as a place and a people has served as a site of otherness and exoticism providing economic and symbolic capital for the consumption and pleasure of colonial, neo-colonial, and neo-liberal powers. Latin American cultural studies texts offer students a way to read against the grain established by this process.

Prerequisite: 15 points from HISTORY 310, POLITICS 332, SPANISH 313

Restriction: LATINAM 306, SPANISH 306

of academic texts. These include argumentative essays, compare and contrast texts, definition, classification and critique writing, along with research-based writing such as literature reviews, case studies and reports.

Prerequisite: Coordinator approval
Restriction: ENGWRI 94F

Tertiary Foundation Certificate History

Foundation Courses

TFCHIST 91F 15 Points
Foundation History
An introduction to themes in New Zealand history including the interactions and relationships between the Māori world and Europeans from the late eighteenth century onwards, and their legacies up to the present. Introduces broader skills suitable for studying history, providing a solid foundation for research, critical thinking, speaking, writing and collaborative work that is invaluable in a wide-range of disciplines.
Restriction: HISTORY 91F

Tertiary Foundation Certificate Pacific Studies

Foundation Courses

TFCPAC 91F 15 Points
Foundation Pacific Studies
Introduces students to an essential knowledge of the Pacific and its cultures and peoples, and to the core practices and concepts of interdisciplinary Pacific Studies. This course will provide a foundation of knowledge of Pacific cultures, languages, history, geography and politics, and introduce students to some core Pacific Studies concepts (such as fa'aalo'alo/faka'apa'apa, diaspora, Oceania, identity, and culture). Students will gain familiarity with the history and purposes of Pacific Studies and work with some accessible forms of indigenous Pacific knowledge.

Tertiary Foundation Certificate Sociology

Foundation Courses

TFCSOCIO 91F 15 Points
Foundation Sociology 1
Introduces students to fundamental building blocks in sociology. Students develop familiarity with key sociological concepts that explain social inequalities, enabling them to think sociologically about this issue. In particular, students learn how social structures (for example, class, race/ethnicity, gender and sexuality), social institutions (for instance, the state) as well as interactions between people produce and sustain various forms of inequality.

TFCSOCIO 92F 15 Points
Foundation Sociology 2
Focuses on Aotearoa New Zealand as a multicultural nation produced through colonisation and subsequent waves of migration. Using a range of case studies, the course highlights the role of different cultural norms and values in creating diverse experiences of living in Aotearoa New Zealand. Such divergent realities invite reconsideration of what it means to be a 'New Zealander'

Theological and Religious Studies

Stage I

THEOREL 101 15 Points
THEOREL 101G 15 Points
The Bible and Popular Culture
An exploration of biblical themes, images, and metaphors in contemporary film, music and cultural arts through which religion and culture intersect. It develops tools appropriate for analysing popular culture, as it moves from the local to the national to the global.
Restriction: THEOLOGY 101I, 101G

THEOREL 102 15 Points
Studying Religion: An Introduction
Introduces students to some of the central issues, questions, and debates in the contemporary study of religion. It guides students through a series of case studies, each focusing on a particular topic pertaining to religion, and introduces them to ways of thinking about these topics in an informed and critical way.

THEOREL 106 15 Points
THEOREL 106G 15 Points
Islam and the Contemporary World
Since the religion of Islam has become a very significant aspect of contemporary global and local societies, this course seeks to introduce students to an understanding of key aspects of Islam and an analysis of its significant contribution to New Zealand society as well as to societies and cultures across the world.
Restriction: THEOLOGY 106, 106G

Stage II

THEOREL 200 15 Points
A Major Religious Thinker
In-depth study of a figure whose thought has had a major impact on the development of one or more religious traditions. It includes the critical study of selected texts by the chosen thinker (where these have survived), and of texts and traditions related to the thinker. The figure chosen reflects the research interests of current staff.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 300

THEOREL 201 15 Points
Religions in New Zealand
An exploration of living religions in contemporary New Zealand, surveying the beliefs, traditions and practices that are central to religious groups in New Zealand and their interactions with contemporary culture both locally and globally. The course will introduce students to the comparative study of religion, engaging in such topics as religion and ritual, exploring belief, and interfaith dialogue.
Prerequisite: 15 points at Stage I in Theology or from the BA Schedule, or approval of Academic Head or nominee
Restriction: THEOLOGY 201, THEOREL 320

THEOREL 202 15 Points
A History of the Apocalypse
An ‘apocalypse’ is a divine revelation about the shape of history. It is written for a society in crisis, often describing that society’s collapse before the coming of a better world. This course traces the development of apocalyptic thought
THEOREL 206 15 Points
Religion in Film and Television
Explores the ways that religious themes, myths, and imagery are expressed within the narratives of some classic and contemporary films and television dramas. Students will learn skills to identify the articulation of religious beliefs, narratives, and the sacred or transcendent within the medium of film and television, and to discuss critically this cultural engagement with religion.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 306

THEOREL 208 15 Points
Special Topic in Theological and Religious Studies
Study of a particular theme, religious tradition or set of texts from within the discipline of Theological and Religious Studies.
Prerequisite: 30 points at Stage I from BA Schedule
Restriction: THEOREL 308

THEOREL 209 15 Points
Religious Texts of Terror
Explores the ways that various forms of violence are evoked and discussed within religious texts and traditions. Students will learn about the origins of these ‘texts of terror’, and then trace their ongoing influence throughout history and up to the present day across a range of socio-cultural contexts, both global and local.
Prerequisite: 30 points at Stage I from BA Schedule
Restriction: THEOREL 301

THEOREL 210 15 Points
Religion, Trauma and Suffering
An exploration of how recent insights into trauma and suffering intersect with theology and religion. Students will learn about ways in which religious narratives and practices have contributed to trauma and suffering, as well as possibilities for resistance and relief. The course will include engagements with trauma and suffering across a range of contexts.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 318

THEOREL 213 15 Points
Special Topic
Prerequisite: 30 points at Stage I
Restriction: THEOREL 313

THEOREL 214 15 Points
Special Topic
Prerequisite: 30 points at Stage I

THEOREL 216 15 Points
Early Christianity
Examines the history of Christianity from its origins in Palestinian and diaspora Judaism through to its official endorsement by the Roman Empire at the end of the fourth century. Explores how various traditions about Jesus evolved, how Christians both accommodated and resisted the wider culture, and how norms for “orthodoxy” (correct teaching) gradually took shape.
Prerequisite: 30 points at Stage I from BA Schedule
Restriction: CTHTHEO 252, 352, THEOREL 316, THEOLOGY 104

THEOREL 221 15 Points
Comparative Religion and Society
Provides an introduction to social theories of religion. An empirical approach to the study of religion, which constructs theories and arguments about its social forms and significance through the collection and analysis of data. Global case studies will be used to consider the power of religion both as a force for social cohesion as well as disruption and social change.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 321

THEOREL 222 15 Points
Religion, Climate Change and Justice
An exploration of the influence of religion on how we understand and relate to the natural world. Students will learn about some religious ideas that have contributed to the current climate crisis, as well as the role that religion and spirituality are playing in responses to this crisis.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 322

THEOREL 223 15 Points
How People Became Things: Christianity, Colonisation and Race
An exploration of theological and religious ideas that supported colonisation and contributed to a wider transformation of identity, land and economics. Students will learn about some of the ideas and beliefs that were integral to the progression of colonialism, as well as the role of religion in various forms of resistance.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 323

Stage III

THEOREL 300 15 Points
A Major Religious Thinker
In-depth study of a figure whose thought has had a major impact on the development of one or more religious traditions. It includes the critical study of selected texts by the chosen thinker (where these have survived), and of texts and traditions related to the thinker. The figure chosen reflects the research interests of current staff.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 200

THEOREL 301 15 Points
Religious Texts of Terror
Explores the ways that various forms of violence are evoked and discussed within religious texts and traditions. Students will learn about the origins of these ‘texts of terror’, and then trace their ongoing influence throughout history and up to the present day across a range of socio-cultural contexts, both global and local.
Prerequisite: 30 points at Stage II from BA Schedule
Restriction: THEOREL 209

THEOREL 302 15 Points
A History of the Apocalypse
An apocalypse is a divine revelation about the shape of history. It is written for a society in crisis, often describing that society’s collapse before the coming of a better world. This course traces the development of apocalyptic thought in the religions of the West, from the ancient Middle East through to apocalyptic themes in modern cultures.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 202
THEOREL 306 15 Points
Religion in Film and Television
Explores the ways that religious themes, myths, and imagery are expressed within the narratives of some classic and contemporary films and television dramas. Students will learn skills to identify the articulation of religious beliefs, narratives, and the sacred or transcendent within the medium of film and television, and to discuss critically this cultural engagement with religion.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 206

THEOREL 308 15 Points
Special Topic in Theological and Religious Studies
Study of a particular theme, religious tradition or set of texts from within the discipline of Theological and Religious Studies.
Prerequisite: 30 points at Stage II from BA Schedule
Restriction: THEOREL 208

THEOREL 309 15 Points
Directed Study 1
Provides students with the possibility of undertaking directed study of a topic in Theological and Religious Studies approved by the Academic Head and directed by a member of academic staff with relevant expertise.
Prerequisite: 30 points at Stage II from the BA Schedule

THEOREL 310 15 Points
Directed Study 2
Provides students with the possibility of undertaking directed study of a topic in Theological and Religious Studies approved by the Academic Head and directed by a member of academic staff with relevant expertise.
Prerequisite: 30 points at Stage II from the BA Schedule

THEOREL 313 15 Points
Special Topic
Prerequisite: 30 points at Stage II
Restriction: THEOREL 213

THEOREL 314 15 Points
Special Topic
Prerequisite: 30 points at Stage II

THEOREL 316 15 Points
Early Christianity
Examines the history of Christianity from its origins in Palestinian and diaspora Judaism through to its official endorsement by the Roman Empire at the end of the fourth century. Explores how various traditions about Jesus evolved, how Christians both accommodated and resisted the wider culture, and how norms for “orthodoxy” (correct teaching) gradually took shape.
Prerequisite: 30 points at Stage II from the BA Schedule
Restriction: THEOREL 216, THEOLOGY 104

THEOREL 318 15 Points
Religion, Trauma and Suffering
An exploration of how recent insights into trauma and suffering intersect with theology and religion. Students will learn about ways in which religious narratives and practices have contributed to trauma and suffering, as well as possibilities for resistance and relief. The course will include engagements with trauma and suffering across a range of contexts.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 210

THEOREL 319 15 Points
Theory and Method in Religious Studies
Examines key theories and methods used in the multidisciplinary study of religion. Although dedicated to social-scientific theories of religion, it also covers textual, historical, feminist/queer, and psychological theories. It will provide students with a critical understanding of the diversity of approaches used in the field and raise awareness about the possibilities for framing their own research.
Prerequisite: 30 points at Stage II from the BA Schedule

THEOREL 320 15 Points
Religion in New Zealand
An exploration of living religions in contemporary New Zealand, surveying the beliefs, traditions and practices that are central to religious groups in New Zealand and their interactions with contemporary culture both locally and globally. Comparative study of religion in New Zealand, in such topics as religion and ritual, exploring belief, and interfaith dialogue.
Prerequisite: 30 points at Stage II
Restriction: THEOLOGY 201, THEOREL 201

THEOREL 321 15 Points
Comparative Religion and Society
Examines the social theories of religion. An empirical approach to the study of religion, which constructs theories and arguments about its social forms and significance through the collection and analysis of data. Global case studies will be used to consider the power of religion both as a force for social cohesion as well as disruption and social change.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 221

THEOREL 322 15 Points
Religion, Climate Change and Justice
An exploration of the influence of religion on how we understand and relate to the natural world. Students will learn about some religious ideas that have contributed to the current climate crisis, as well as the role that religion and spirituality are playing in responses to this crisis.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 222

THEOREL 323 15 Points
How People Became Things: Christianity, Colonisation and Race
An exploration of theological and religious ideas that supported colonisation and contributed to a wider transformation of identity, land and economics. Students will learn about some of the ideas and beliefs that were integral to the progression of colonialism, as well as the role of religion in various forms of resistance.
Prerequisite: 30 points at Stage II
Restriction: THEOREL 223

Theology

Postgraduate 700 Level Courses

THEOLOGY 780 30 Points
THEOLOGY 780A 15 Points
THEOLOGY 780B 15 Points

Dissertation - Level 9
A supervised dissertation for BTheol(Hons) students
designed to help them to engage with a research question in the area of Theology. To complete this course students must enrol in THEOLOGY 780 A and B, or THEOLOGY 780.

THEOLOGY 781 15 Points
Research Essay
A supervised research essay designed to help Postgraduate Diploma students engage with a research question in Theology.
Restriction: BSTHEO 789

THEOLOGY 782 15 Points
Research Essay
A supervised research essay designed to help Postgraduate Diploma students engage with a research question in the area of Practical Theology.

THEOLOGY 796A 60 Points
THEOLOGY 796B 60 Points
Thesis - Level 9
The thesis of approximately 35,000 words should embody the results obtained by the candidate in an investigation relating to the subject.
Restriction: BSTHEO 796, CTHTHEO 796, PTHEO 796
To complete this course students must enrol in THEOLOGY 796 A and B.

Tongan

Stage I
TONGAN 101 15 Points
TONGAN 101G 15 Points
Tongan Language 1
Gives students an introduction to the structure of Tongan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Stage II
TONGAN 201 15 Points
Tongan Language 2
Extends language fluency developed in TONGAN 101 by progressively introducing more challenging reading and writing tasks, such as narrating myths and legends and describing aspects of Tongan culture.
Prerequisite: TONGAN 101
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

TONGAN 203 15 Points
Special Topic

Stage III
TONGAN 301 15 Points
Tongan Language 3
 Extends the level of fluency and literacy developed in TONGAN 201. Skills in oral and written Tongan will be extended through intensive study of Tongan history and culture.
Prerequisite: TONGAN 201

Translations
TONGAN 303 15 Points
Special Topic

Transdisciplinary Democracy

Stage I
TDDEM 100 15 Points
Democracy in the 21st Century
Examines the challenges to democracy in New Zealand and globally arising from high inequality, the changing information environment, and authoritarian movements. Uses a transdisciplinary approach to understand the interplay of economic, legal, technological, and cultural factors. Explores innovative ideas for ensuring democratic integrity and building more inclusive, equitable, and participatory democracies.

Translation Studies

Stage I
TRANSLAT 100 15 Points
TRANSLAT 100G 15 Points
Translation for Global Citizens
Covers the foundations of translation and interpreting as an academic discipline and as a critically important communication enabler which serves a multicultural and multilingual society. The course is designed to equip monolingual students, as well as students with language skills, with the literacy in translation and interpreting increasingly needed to navigate today's globalised world and to detect and overcome communication gaps in diverse business and private contexts.

TRANSLAT 101 15 Points
Interpreting for Communities
Introduces students to the practice and theory of community interpreting in a variety of settings. Weekly sessions will provide specific pointers concerning intercultural and interlingual communication such as institutional discourse, power imbalances, ethics, perceptions of role and performance. Practice-oriented training will also be included to build the skill basis towards advancing to competent community interpreters.

Postgraduate 700 Level Courses

TRANSLAT 700 30 Points
Digital Translation - Level 9
Equips students with highly specialised theoretical and practical skills in audiovisual translation (AVT) and localisation. Develops specialised skills and knowledge needed to translate software, websites and audiovisual content. Covers the distinctive characteristics of digital texts. Develops the skills required to address the specific characteristics of digital source texts. Students will be exposed to the latest scholarship and develop an advanced critical understanding of localisation tools and tools to facilitate subtitling.
Restriction: TRANSLAT 715

TRANSLAT 712 30 Points
Computer-aided Translation (CAT) Tools
Introduces students to a wide range of computer skills for professional translators. Participants will learn how to set up an efficient professional IT environment and how to use software solutions to improve both the quality and the
Productivity of their work. Special emphasis will be placed on the generation and management of domain-specific terminology. In addition, this course provides students with an overview of and hands-on experience in the use of market-leading translation memory systems, namely SDL Trados.

Restriction: TRANSLAT 710, 723

TRANSLAT 713
Community Translation and Interpreting
30 Points
Equips students with translation and interpreting skills and knowledge needed to communicate public service information to multilingual and multicultural communities, for example, in healthcare and legal settings and in disaster scenarios. Provides training on terminology, notetaking and memory management complements the knowledge of professional ethics and community management. Students will become aware of wider social roles played by translators and interpreters.

Restriction: TRANSLAT 601, 602, 704, 706

TRANSLAT 715
Audiovisual Translation
30 Points
Equips students with theoretical and practical dimensions of audiovisual translation (AVT). Examines the rapid development of AVT in recent times that encompasses media and information accessibility issues for immigrants, the deaf and hard-of-hearing as well as the blind and visually impaired. Students will gain some hands-on experience of interlingual and intralingual subtitling, facilitated by technology.

Restriction: TRANSLAT 700

TRANSLAT 716
Chinese Specialised Translation
30 Points
Develops students' competence in understanding and producing specialised texts in English and Chinese. Translate materials in a variety of subject areas, such as trade, tourism, science, medicine or finance, and in different text types. Emphasis is on longer texts that require the acquisition of subject knowledge and in-depth terminology research. Introduced to professional ethics.

Restriction: CHINESE 747, 748, TRANSLAT 300

TRANSLAT 717
German Specialised Translation
30 Points
Develops students' competence in understanding and producing specialised texts in English and German. Translate materials in a variety of subject areas, such as trade, tourism, science, medicine or finance, and in different text types. Emphasis is on longer texts that require the acquisition of subject knowledge and in-depth terminology research. Introduced to professional ethics.

Restriction: GERMAN 747, 748

TRANSLAT 718
Japanese Specialised Translation
30 Points
Develops students' competence in understanding and producing specialised texts in English and Japanese. Translate materials in a variety of subject areas, such as trade, tourism, science, medicine or finance, and in different text types. Emphasis is on longer texts that require the acquisition of subject knowledge and in-depth terminology research. Introduced to professional ethics.

Restriction: TRANSLAT 747

TRANSLAT 719
Translation Theories and Paradigms
30 Points
A critical analysis of key theories and paradigms of translation. The examination of a broad range of perspectives will facilitate the awareness that the act and the process of translation are multifaceted. These encompass history, culture, gender and technology as well as translation competence. Analysis and applies different paradigms to translation phenomena.

Restriction: TRANSLAT 702, 703

TRANSLAT 720
Translation Portfolio - Level 9
30 Points
A practical application of the student's prior learning in key paradigms and issues in translation studies, presented in the form of a learning portfolio. Portfolios will contain five pieces of advanced translation work, involving at least three different text types (scientific, technical, legal, medical, literary etc). Students may choose different levels of human-intervention, ranging from post-editing of machine translated texts to transcreation.

Prerequisite: TRANSLAT 712, 719 and 30 points from FRENCH 720, ITALIAN 702, MĀORI 712, SPANISH 723, TRANSLAT 716, 717, 718, 726

TRANSLAT 725
Research Essay
15 Points
A supervised research essay or project on a specific topic in Translation Studies.

TRANSLAT 726
Translation Project - Level 9
30 Points
A supervised research project on a topic in Translation Studies.

To complete this course students must enrol in TRANSLAT 726 A and B, or TRANSLAT 726

TRANSLAT 727
Translation Project
45 Points
TRANSLAT 727A
22.5 Points
TRANSLAT 727B
22.5 Points

TRANSLAT 728
Special Topic
15 Points

TRANSLAT 729
Special Topic
15 Points

TRANSLAT 777
Study Abroad
30 Points
Formal study in an approved overseas university. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Programme Coordinator. Enrolment requires the approval of the Programme Coordinator.

TRANSLAT 778
Study Abroad
30 Points
Formal study in an approved overseas university. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Programme Coordinator. Enrolment requires the approval of the Programme Coordinator.

# Faculty of Business and Economics

## Academic Integrity

**ACADINT A01** 0 Points

**Academic Integrity Course**

An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

## Accounting

### Stage I

**ACCTG 101** 15 Points

**Accounting Information**

Business decisions require accounting information. This course examines the analysis and interpretation of general-purpose financial statements. It assesses financing and investment decisions and covers the role of accounting information to support planning and control.

**ACCTG 102** 15 Points

**Accounting Concepts**

Basic principles and concepts of accounting that underlie the production of information for internal and external reporting. This course provides the technical platform for second year courses in financial and management accounting, finance, and accounting information systems.

**ACCTG 151G** 15 Points

**Financial Literacy**

People who understand the basic principles of finance are likely to get much more mileage out of their money – whether spending, borrowing, saving or investing – than those who do not. Develop an understanding of how to be in control of spending and saving; understand borrowing; make informed investment decisions; know broadly what to insure and what not to; recognise scams and consider whether money is the key to happiness.

*Restriction: May not be taken by students with a concurrent or prior enrolment in Accounting or Finance courses*

### Stage II

**ACCTG 211** 15 Points

**Financial Accounting**

The study of financial accounting principles within New Zealand, to enable students to: (i) understand how they are developed and influenced; (ii) understand and apply New Zealand Financial Reporting Standards; (iii) report the results of complex business structures involving multiple entities and segments. Completing students will understand the role financial statements play in investment, analysis and contracting decisions, providing a base for advanced study and supporting other areas, particularly finance.

*Prerequisite: ACCTG 102*

**ACCTG 221** 15 Points

**Cost and Management Accounting**

Budgets and standards, costing systems, cost information for decision-making and control, performance appraisal, and contemporary related issues.

*Prerequisite: ACCTG 102*

**ACCTG 222** 15 Points

**Accounting Information Systems**

Encompasses the development and distribution of economic information about organisations for internal and external decision-making. Major themes include: objectives and procedures of internal control, the database approach to data management, data modelling, typical business documents and reports and proper system documentation through data flow diagrams and flowcharts.

*Prerequisite: ACCTG 102, INFOSYS 110*

### Stage III

**ACCTG 300** 15 Points

**Directed Study**

**ACCTG 311** 15 Points

**Financial Accounting**

Explanatory and prescriptive theories of accounting provide the context for an examination of the determinants of financial reporting practice in New Zealand with special reference to accounting for pensions, foreign currency, deferred tax and financial instruments. Issues in international accounting and professional ethics are also addressed.

*Prerequisite: ACCTG 211*

**ACCTG 312** 15 Points

**Auditing**

An introduction to the audit of financial statements. The objective of an audit is to add credibility to the information contained in the financial statements. Emphasises the auditor’s decision-making process in determining the nature and amount of evidence necessary to support management’s assertions. The end result of a financial statement audit is a report that expresses the auditor’s opinion on the fair presentation of the client’s financial statements.

*Prerequisite: ACCTG 211 or 292, and INFOMGMT 296 or 294 or ACCTG 222*

**ACCTG 321** 15 Points

**Strategic Management Accounting**

A study of the design of revenue and cost management systems to facilitate strategic decisions. This includes activity-based costing and activity-based management. The learning environment is student-centred with the seminar leader’s role being that of facilitator rather than lecturer. Students work not only as individuals but also in teams.

The learning environment is a combination of lectures, case studies and related readings.

*Prerequisite: ACCTG 221 or 291*

**ACCTG 323** 15 Points

**Performance Measurement and Evaluation**

The design of performance measurement frameworks such as the Balanced Scorecard incorporating strategy maps and alignment principles. Methods of performance analysis will cover ratios, weighting systems and Data Envelopment Analysis. Evaluation principles and methods will include internal audit perspectives around project and programme evaluation, cost-benefit analysis, randomised control tests and value-for-money.

*Prerequisite: 30 points passed at Stage II*
### Course Prescriptions

#### Postgraduate 700 Level Courses

**ACCTG 331** 15 Points  
**Revenue and Cost Management**  
Revenue management concepts and techniques and their support by cost management systems are studied with particular reference to service organisations. The range of services encompasses both private and public sector organisations. Components include: yield management, pricing, linear programming, project management, valuation principles and methodologies.  
*Prerequisite: ACCTG 221 or 291*

**ACCTG 371** 15 Points  
**Financial Statement Analysis**  
How is financial statement information used to evaluate a firm’s performance, risk and value? An opportunity to examine this question and to gain experience in evaluating performance, assessing risk and estimating value.  
*Prerequisite: FINANCE 251 or 261, and ACCTG 211 or 292*

**ACCTG 381** 15 Points  
Special Topic

**ACCTG 382** 15 Points  
Special Topic

#### Postgraduate 700 Level Courses

**ACCTG 701** 15 Points  
**Research Methods in Accounting**  
The theory and application of modern research methods in accounting. The content will include the philosophy, process and design of scientific research. Prior knowledge of basic statistical techniques is assumed.  
*Rrestriction: FINANCE 701*

**ACCTG 702** 15 Points  
**Governance Issues in Accounting**  
An introduction to the economic literatures relating to property rights, transaction cost economics, and agency theory. Application of these notions to the way in which organisations are structured. Identification of why some transactions are internalised and some are undertaken through markets. The application of these ideas to financial and managerial accounting.  
*Rrestriction: FINANCE 702*

**ACCTG 703** 15 Points  
**Directed Study**

**ACCTG 711** 15 Points  
**Financial Accounting Research**  
A study of the contracting-cost theories of accounting policy choice and the related empirical literature. It focuses on agency and efficient contracting explanations for accounting choice. In particular, the course explores the role of accounting in contracts between parties to the firm (e.g., manager, shareholders, debtholders, customers etc). The political process is also analysed to determine the impact on accounting policy choice. Incentives for managers to manipulate earnings under various economic settings are examined and the implications of this behaviour for accounting policy makers are analysed.

**ACCTG 714** 15 Points  
**Contemporary Auditing Research**  
An examination of the theoretical and empirical literature relating to the demand and supply of auditing, theoretical support for auditing activity, measures of audit quality and related topics.

**ACCTG 721** 15 Points  
**Research in Management Control**  
Provides an insight into the theoretical and empirical literature relating to management planning and control in private and public sector organisations. Explores the relationship between strategy, organisation design, performance measurement and evaluation, application of productivity analysis and Data Envelopment Analysis.

**ACCTG 722** 15 Points  
**Research in Revenue and Cost Management**  
An examination of revenue and cost management arising from changes in competitive environments. Includes recent research on the design of revenue and cost management systems including developments such as theory of constraints in manufacturing, service and public sector organisations.

**ACCTG 771** 15 Points  
**Accounting Information and Capital Markets**  
The study of issues in evaluating accounting information and the use of accounting information by investors and analysts. This includes the examination of the empirical relationship between accounting earnings and share prices and the relationship between financial statement analysis and market efficiency. Perceived market failures will be analysed.

**ACCTG 780** 15 Points  
**Special Topic: Sustainability Accounting and Integrated Reporting**  
Examines the theoretical and empirical literature on the role of sustainability accounting and integrated reporting and the determinants for the supply and demand for non-financial reporting and how this has evolved over time.

**ACCTG 786** 15 Points  
**Special Topic**

**ACCTG 788** 30 Points  
**Research Project - Level 9**  
*Restriction: ACCTG 789*

**ACCTG 791** 60 Points  
**Thesis - Level 9**  
*Restriction: ACCTG 794 A and B*
ACCTG 796A 60 Points
ACCTG 796B 60 Points
Thesis for MCom - Level 9
To complete this course students must enrol in ACCTG 796 A and B

Business

**Stage I**

**BUSINESS 111 15 Points**

**Understanding Business**

Business involves creating and capturing different forms of value for diverse stakeholders. Considers customers and markets, and the wider context within which business operates. Develops an understanding of innovation and entrepreneurship and how to manage people. Develops personal and professional capabilities needed in business, including strategies to manage self and work effectively with others.

Restriction: BUSINESS 101, MGMT 101

**BUSINESS 112 15 Points**

**Managing Sustainable Growth 1**

Develops understanding of how to manage people, processes and resources for the benefit of business and society. Focuses on the decisions and trade-offs involved in growing a business, managing customer relationships, and competing in international markets. Explores strategies to enhance productivity and ensure sustainability, and how legal tools can be used to protect value.

Prerequisite: BUSINESS 101 or 111

Restriction: BUSINESS 102, 113, MGMT 101

**BUSINESS 113 15 Points**

**Managing Sustainable Growth 2**

Develops understanding of how to manage people, processes and resources for the benefit of business and society. Focuses on innovation and entrepreneurship, growing a business, managing customer relationships, and competing in international markets. Explores strategies to enhance productivity and ensure sustainability, and how to protect value. Develops professional capabilities by engaging students in assessing a ‘real world’ case and proposing solutions and recommendations.

Prerequisite: A B+ or higher in BUSINESS 101 or 111 and at least a Merit average across 16 credits in NCEA Level 3 Business Studies, a B grade or higher in CIE Business Studies, or 4 out of 7 in Business Management (HL) in IB

Restriction: BUSINESS 102, 112, MGMT 101

**BUSINESS 114 15 Points**

**Accounting for Decision Making**

Examines how understanding financial, non-financial and legal information is critical to business decision making. Considers the accounting and legal requirements, issues and mechanisms that impact management of an organisation. Develops skills in analysing, interpreting and communicating accounting information.

Restriction: ACCTG 101

**BUSINESS 115 15 Points**

**Economics, Markets and Law**

Considers how the economic and legal environment affects individuals, businesses, markets and the global economy. Explores the meaning and impact of price fluctuations, interest rate changes, exchange rate movements and balance of payments problems, standard of living comparisons, regional trading agreements, and regulatory and legal mechanisms and constraints.

Restriction: ECON 101, 111, 151, 151G, 191

**BUSINESS 151 15 Points**

**BUSINESS 151G 15 Points**

**Communication in a Multicultural Society**

Communication knowledge and skills are essential in business careers and for interpersonal and intercultural relationships. This course offers a theory-based approach combined with applied communication practices. Communication knowledge, competencies and skills are developed through exploring relationships, mediated communication, writing, team dynamics, oral presentation and technologies.

Restriction: BUSINESS 101 or 111

Restriction: BUSINESS 101, 111, 291, MGMT 291

**Stage II**

**BUSINESS 200 15 Points**

**Understanding Business Context**

Equips students with an appreciation of the forces and actors at work beyond the market. In order to compete in the marketplace firms need to understand their nonmarket context - culture, law, regulations, politics and the physical environment - which all affect business opportunities and strategies. In turn, businesses can influence their environment, both through deliberate nonmarket strategies and as a result of their core operations.

Prerequisite: 15 points from BUSINESS 102, 112, 113, MGMT 101

Restriction: INTBUS 210, MGMT 231

**BUSINESS 201 15 Points**

**Special Topic**

**BUSINESS 202 15 Points**

**Business Consulting**

Teams will apply multidisciplinary knowledge to solve complex problems in business scenarios. Builds skills in interpreting and presenting business information, project management, ethical decision-making and working in teams. Develops and advances core knowledge, including goals and strategy, organisational culture and structure, marketing, legal analysis, operations and supply chain management, within a dynamic macroeconomic environment.

Prerequisite: 45 points from BUSINESS 112, 113, 114, 115 or ECON 152

**BUSINESS 210 15 Points**

**Study Abroad 2A**

Course taken at an approved academic institution abroad.

Prerequisite: Academic Head or nominee approval

**BUSINESS 211 15 Points**

**Study Abroad 2B**

Course taken at an approved academic institution abroad.

Prerequisite: Academic Head or nominee approval

**BUSINESS 291 15 Points**

**Communication Processes**

Employers are demanding business school graduates with strong communication skills. Covers the theory and process of communication in today's knowledge and information intensive organisations. Develops oral and written communication skills, including professional presentations. Focuses on the role of interpersonal and
team-based communication in building more effective business relationships.  
Prerequisite: 15 points from BUSINESS 102, 112, 113, 192, MGMT 101, 192  
Restriction: MGMT 291

#### BUSINESS 301

**Special Topic: Future17**

Students will collaborate in international teams with peers across several universities to diagnose and propose innovative solutions to challenges presented by third-party organisations that fit within the United Nations Sustainable Development Goals. Skills in interdisciplinary and intercultural collaboration and Design Thinking are developed alongside academic mentors and third-party professionals. The course is delivered in collaboration with global Future17 partner universities.

#### BUSINESS 302

**Special Topic**

#### BUSINESS 303

**Special Topic**

### Project Management and Report Writing

Develops knowledge and skills in project management and report writing which will underpin BUSINESS 308 Internship and Report.  
Prerequisite: BUSINESS 309, INNOVENT 201, 303

### BUSINESS 308

**Internship and Report**

Develops practical knowledge and hands-on experience through a supervised internship and project in an innovative, entrepreneurial organisation.  
Prerequisite: BUSINESS 309, INNOVENT 201, 303

### BUSINESS 310

**Study Abroad 3A**

### BUSINESS 328

**Special Topic**

Prerequisite: 30 points in Management or International Business or Innovation and Entrepreneurship  
Restriction: BUSINESS 309

### BUSINESS 350

**Business Simulation**

An integrated team-based capstone experience based on a business simulation requiring students to demonstrate their ability to work collaboratively as they engage in strategic decision-making.  
Prerequisite: BUSINESS 202 and 30 points at Stage III from BCom courses  
Restriction: BUSINESS 351-353

#### BUSINESS 351

**Industry Case**

A challenging ‘real world’ business case project requiring demonstration of personal and professional skills as teams assess a situation, propose solutions and communicate recommendations.  
Prerequisite: BUSINESS 202 and 30 points at Stage III from BCom courses  
Restriction: BUSINESS 350, 352, 353

#### BUSINESS 352

**Internship and Report**

A project-based internship with a company or other appropriate organisation requiring written and oral reports of findings.  
Prerequisite: BUSINESS 202 and 30 points at Stage III from BCom courses  
Restriction: BUSINESS 350, 351, 353

#### BUSINESS 353

**Research Project**

Prerequisite: BUSINESS 202 and a Grade Point Average of 6.0 or higher in 30 points at Stage III from BCom courses  
Restriction: BUSINESS 350, 351, 352

#### BUSINESS 704

**Quantitative Research Methods**

Students will become familiar with underlying theory and current best practice in quantitative research through discussion and application of topics including measurement, design (including survey design), and computer-based data analysis.  
Prerequisite: BUSINESS 710  
Restriction: MKTG 703, 704

#### BUSINESS 705

**Qualitative Research Methods**

Students will become familiar with current theory and practice as well as methodological debates in the use of qualitative methodologies, including ethnography, case studies, archival research, participant observation, interview and focus group methods, as well as transcription and analysis. A workshop on coding qualitative data will be included.  
Prerequisite: BUSINESS 710 or PSYCH 744  
Restriction: MKTG 703, 704

#### BUSINESS 708

**Special Topic**

#### BUSINESS 709

**Special Topic**

#### BUSINESS 710

**Conducting Research**

The pursuit of new knowledge requires the ability to recognise and design appropriate and robust research studies. Students explore the principles and practices of research design, including the fundamentals of where knowledge comes from; if and to what degree we can be certain about our findings; the ethics of research activities; and how a topic might be investigated from multiple approaches and philosophical perspectives.
BUSINESS 711
Advanced Quantitative Research Methods
An advanced seminar on recent developments in the application of quantitative methods in business research. 
Prerequisite: BUSINESS 704, 710, or Head of Department approval

BUSINESS 712
Advanced Qualitative Research Methods
An advanced seminar on recent developments in the application of qualitative methods in business research. 
Prerequisite: BUSINESS 705, 710, or Head of Department approval

Business Accounting

Postgraduate 700 Level Courses

BUSACT 701
Commercial and Corporate Law
Examines the impact of the law on decision making and management of an organisation. Develops the ability to identify legal requirements, issues and mechanisms critical to managing the risk/reward profile of the firm and achieving its strategic objectives. 
Prerequisite: BUSMGT 721–733, 725

BUSACT 702
Accounting Information Systems - Level 9
Independently manages applied accounting information projects using specialised and advanced problem-solving skills. Students will research and critically assess major information risks and opportunities facing businesses, demonstrating an integrated understanding of relevant theories and approaches. Students will provide well-justified recommendations to address the issues identified to improve company decision making. 
Prerequisite: BUSMGT 721–733, 725

BUSACT 703
Taxation for Business
Provides an overview of the Income Tax Act and the Goods and Services Tax Act and how they are relevant to taxpayers. Topics covered include the nature of income, taxation of common types of income, the deduction and prohibition of various types of expenses, tax accounting issues, provisional tax, rebates, PAYE system, tax returns, and an introduction to GST. 
Prerequisite: BUSMGT 731–733, 725

BUSACT 704
Auditing for Business
Provides an understanding of the audit of financial statements that lends support to their credibility. Emphases will be on the audit process, including the planning stage to the issuing of the audit opinion. 
Prerequisite: BUSMGT 731–733, 725

BUSACT 705
Capstone Project for MProfAcctg - Level 9
Provides opportunities to extend and integrate the understanding of theoretical and practical issues in accounting through a 'real-world' business case. Involves the assessment of risk, cost of capital, financial analysis of performance, forecasting, and the development of recommendations for change and/or improvement. 
Prerequisite: BUSMGT 731–733, 725

BUSACT 731
Financial Reporting
Provides an overview of financial accounting principles within New Zealand and the understanding and application of New Zealand Financial Reporting Standards. Focuses on the role financial statements play in investment, analysis and contracting decisions. 
Prerequisite: BUSMGT 713

BUSACT 732
Business Finance
Examines the functions of the markets for real and financial assets, and their valuation. Focuses on the various techniques that financial managers can create wealth for shareholders and stakeholders.

BUSACT 734
Strategic Management Accounting
Explores the pivotal role of strategic management accounting in fostering sustainable value creation and informed strategic choices. Assess strategic cost management tools, budgetary control systems, and performance measurement via practical projects. Delve into revenue and cost management system design, budget analysis, costing, decision-making systems, performance assessment, and contemporary issues.

Business Analytics

Stage I

BUSAN 100G
Digital Information Literacy
Introduces students to skills, technologies, and techniques for the effective use of digital information. Information in all spheres of personal and professional life is increasingly created, stored, analysed, exchanged and communicated in digital forms. Digital information literacy will help students be more productive in the digital age. 
Restriction: Cannot be taken with or after INFOSYS 110–345

BUSAN 200
Business Analytics
An introduction to the science of fact based, data driven, decision making, exposure to different approaches, support tools, and analytical methods for decision making, particularly using spreadsheets, reinforcement of critical thinking skills and the ability to intelligently use information; and development and integration of modelling skills in a variety of decision-making-oriented applications. 
Prerequisite: 15 points from ECON 221, ENGSCI 211, STATS 101, 108, and 15 points from COMPSCI 101, 107, 130, INFOMGMT 192, INFOSYS 110 
Restriction: INFOMGMT 290

BUSAN 201
Data Management
Rapid advancements in computing power and data storage capacity has changed how digital data is created, stored, consumed, and managed. As a result, business data exists in many formats and representations. Students will be equipped with contemporary data management tools and exploratory techniques to realise the value of data as a business asset. 
Prerequisite: 15 points from COMPSCI 101, 107, 130, INFOMGMT 192, INFOSYS 110 
Restriction: INFOMGMT 292
Stage III

BUSAN 300

Data Wrangling

Organisations are increasingly adopting big data analysis, predictive analytics, social data mining, and deep machine learning to gain business intelligence and insight. The value of such technologies relies on having high-quality data, yet raw data is messy and its transformation to add value is often neglected. Students will explore a data wrangling toolbox to add value to data.
Prerequisite: 15 points from BUSAN 201, INFOMGMT 292, INFOSYS 222
Restriction: INFOMGMT 390

BUSAN 301

Data Visualisation

Visual representations of data enable complex ideas to be communicated clearly and effectively. Covers how to better engage decision makers via data visualisation. Focuses on transforming data into visual digital narratives using modern visualisation tools.
Prerequisite: 30 points from BUSAN 200, 201, ECON 221, INFOMGMT 290-296, INFOSYS 220-280, STATS 208, 255
Restriction: INFOMGMT 392

BUSAN 302

Big Data and Machine Learning

Provides essential skills to build data-driven digital innovations that augment business decisions. This involves identifying problems faced by different groups of individuals from different spheres of life, analysing the problem space and data needs, building a prototype for a selected design, and using machine learning tools and cloud-based big data analytics.
Prerequisite: BUSAN 200 and 15 points from BUSAN 201, INFOMGMT 292, INFOSYS 222
Restriction: INFOMGMT 393, INFOSYS 330

BUSAN 303

Special Topic

BUSAN 305

Simulation Modelling

Uncertainty exists in all management decisions and simulation is used for analysing systems in industry. This course focuses on modelling real-world problems using a commercial simulation tool. Industrial case studies will motivate the content of the course. Topics include the simulation process, general queue modelling, modelling networks (computer or transportation networks) and simulating operations (machine scheduling or assembly line modelling). The emphasis is on “learning by doing”.
Prerequisite: 15 points from BUSAN 200, ECON 221, ENGSCI 255, INFOMGMT 290, OPSMGT 255, 258, STATS 201-290
Restriction: OPSRES 385

BUSAN 306

Directed Study

BUSAN 307

Professional Business Analytics

Focuses on the design and development of end-to-end analytics solutions to business problems. Engages students in issues and challenges relating to problem definition, selection of data analytics tools and techniques, and strategies for ensuring the effective communication of data insights to stakeholders. Develops strategic mindset and teamwork skills.
Prerequisite: BUSAN 201 and 201 and 15 points from BUSAN 200, ECON 221, STATS 208, 255

Business Development

Postgraduate 700 Level Courses

BUSDEV 711

Business in a Changing World

Examines the implications of disruptive technologies such as AI, blockchain and deep learning. Focuses on enabling managers to understand various disruptive trends such as aging populations, global shifts in economic power and urbanisation. Analytical tools, concepts and perspectives are provided which help managers analyse and put forward recommendations on how to navigate disruptive trends and technologies.

BUSDEV 712

Financial Management

Develops an understanding of the financial implications of the decisions managers make and methods for ensuring clear communication of those decisions to various primary and secondary stakeholders. Fundamental techniques and tools required to manage finances and accounts are examined including assessing business feasibility, identifying suitable sources of financing and effectively communicating financial performance information.
Restriction: BUSADMIN 765, 775

BUSDEV 713

Sustainable Value Chains

Examines the reasons for creating value for multiple stakeholders, while striking a balance between growth and sustainability in private and public organisations. Examines the ways in which sustainable value is created through effective and efficient operations, information systems, and supply chain management. Focuses on process design for productivity and sustainability, particularly in uncertain and complex business contexts.
Restriction: BUSADMIN 766, 776

BUSDEV 714

Managing Creativity and People

Examines creativity as a process of creating something novel or imaginative that leads to innovation. Focuses on collaborative and process-based approaches to managing organisational creativity. Explores how businesses can create environments and incentives which stimulate and encourage creativity and innovation.

BUSDEV 715

Contemporary Marketing

Explores highly dynamic business environments and how ongoing digital transformation creates dramatic changes in the role of marketing. Develops an understanding of how collaboration with various stakeholders (e.g. customers, partners and competitors) can create and sustain value. Focuses on the theory and practice of contemporary marketing.
Restriction: BUSADMIN 762, 772

BUSDEV 721

Innovation Management and Strategy

Examines various sources of innovation and the capabilities, processes and challenges of managing innovation and embedding it across an organisation. Focuses on the process of formulating innovation strategy and common elements of innovation strategies.

BUSDEV 722

Product Management

Considers the product manager’s role in developing and
leading product strategy, managing a product portfolio, and helping to foster innovation. Develops capabilities to foster collaboration between functions, manage projects, develop persuasive business cases, and manage products throughout their lifecycle.

BUSDEV 723
New Product Development Processes
Develops the knowledge and capabilities to lead new product development processes and launch products into the market. Examines practices for customer insight, design, prototyping, product planning, and go-to-market strategies.

BUSDEV 724
Designing for Sustainability
Addresses challenges in designing for sustainability, including lifetime and disposal costs, environmental and social impacts, compliance issues, and tensions between corporate responsibility and profit generation. Explores contemporary topics like eco-innovation, circular economy, and social enterprise.

BUSDEV 731
Business Analytics
Addresses the conditions of uncertainty under which more traditional methods of business analytics cannot always be applied. Explores how effective business analysis requires a systematic and multi-disciplinary approach to help drive business success. Examines various analytical methods to aid managerial decision making.
Restriction: COMENT 708

BUSDEV 732
Commercialising Technology
Develops frameworks to help managers understand and analyse the different stages of bringing technology to market and the associated risks and challenges. Examines how organisations set technology and commercialisation strategies and objectives and effectively manage portfolios of projects.
Restriction: COMENT 703

BUSDEV 733
Turning Technology into IP
Clarifies the process of turning technology into intellectual property. Focuses on the different approaches, methods and processes to identify, evaluate and progress technology into intellectual property.
Restriction: COMENT 703

BUSDEV 734
Technology Entrepreneurship
Focuses on the identification and management of strategic opportunities. Provides skills and knowledge to help managers and entrepreneurs to exploit science-based opportunities. Explores practices through which entrepreneurial action can create and capture value in new and established ventures.
Restriction: COMENT 704

BUSDEV 741
Strategy in a Disruptive Age
Develops understanding of the nature of digitalisation, globalisation and other disruptive forces that are causing unprecedented changes in the business environment, irrespective of sector or geography. Focuses on the skills and knowledge managers require to craft and implement effective business strategies in quickly shifting conditions.

BUSDEV 742
Competing Globally
Considers the necessity for New Zealand businesses to engage in business internationally and examines growth opportunities in global markets. Focuses on improving skills and knowledge for analysing international business environments, understanding cultural differences, and operating successfully in foreign markets.

BUSDEV 743
Managing Change
Examines the challenges arising from businesses growth, and the consequential impact of change on which the design, culture and business processes of an organisation. Explores the implications of change and change management practices on internal and external stakeholders. Develops the skills and knowledge to help managers understand, plan and successfully navigate organisational changes.

BUSDEV 744
Leading Business Growth
Explores the conditions under which traditional decision making methods and approaches are ineffective. Examines alternative approaches to leading business growth under uncertainty. Explores how to engage and manage stakeholders in communicating and executing high-impact decisions.

BUSDEV 780
Personal and Team Leadership
Focuses on developing personal and team leadership capabilities within complex, uncertain and creative business contexts. Provides tools and techniques to develop leadership capabilities and self-awareness. Engages students in personal development experiences which enable them to reflect on their strengths and weaknesses and encourages approaches to leadership that are well-suited to current and future work contexts.
Prerequisite: 60 points from BUSDEV 711-715, 721-724, 731-734, 741-744

BUSDEV 781
Managing Collaborative Projects - Level 9
Focuses on managers’ responsibilities and challenges when leading, organising and working within collaborative projects. Explores and evaluates various distributed collaboration tools used to establish and manage project teams. Planning, control, and execution models for business development projects are reviewed and critiqued. Develops skills in the facilitation and effective management of complex collaborations and project team-dynamics within and beyond organisational boundaries.
Prerequisite: 60 points from BUSDEV 711-715, 721-724, 731-734, 741-744

BUSDEV 782
Capstone Project - Level 9
Working with a client’s real-world and real-time problem, students will choose, integrate, and apply theories, frameworks and tools to understand the problem, and subsequently generate and iterate possible solutions. Plans, reports and presentations will be produced and
communicated with the intention of informing and influencing clients and affected stakeholders.

**Prerequisite:** BUSDEV 781 and 60 points from BUSDEV 711-715, 721-724, 731-734, 741-744

To complete this course students must enrol in BUSDEV 782 A and B, or BUSDEV 782

---

### Business Finance

**Postgraduate 700 Level Courses**

**BUSFIN 700**

**Business Accounting and Finance**

Examines the use of accounting information for business decision-making and the application of ethical decision-making models. Analyses general-purpose financial statements and critically evaluates innovations in financial reporting aimed at incorporating sustainability and governance. Evaluates and applies cost and budget information used to support planning and control. Evaluates and applies financial information used in the assessment of financing and investment decisions.

**BUSFIN 704**

**Investment Decision-making**

Analyses the investment decision-making process from the perspective of an investor. Evaluates the role of the equity market and concepts of risk and return in investment decision-making. Develops and applies analytical skills and models to implement effective investment strategies including diversification, optimal portfolio formation, and the management of fixed income securities.

**BUSFIN 705**

**Financial Risk Management**

Analyses the impact of a company’s exposure to financial risks, including exchange rate risk, interest rate risk, and other financial price risks. Develops skills and strategies to mitigate potential financial risk exposure, including the use of hedging policies that contain derivative instruments.

Consider the impact of environmental and social factors in the development of corporate risk management strategies.

**BUSFIN 706**

**Advanced Financial Management - Level 9**

Critically evaluates the function of corporate financial management in a variety of organisation types from a range of stakeholder perspectives. Develops skills to address advanced financial management challenges in areas such as capital budgeting, valuation, capital structure, and mergers and acquisitions and applies these in strategic financial decision-making.

**BUSFIN 707**

**Consultancy Practice**

Focuses on the responsibilities and challenges of working in collaborative projects. Develops the skills required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

**BUSFIN 710**

**Financial Modelling Techniques**

Examines challenges in modelling uncertain financial outcomes and critically evaluates practitioner modelling tools available to financial analysts. Develops practical skills in designing and applying Excel-based financial models to solving common analytical problems in corporate finance and investment analysis.

**BUSFIN 711**

**Financial Analytics Applications**

Critically examines how advanced modelling features can be applied to obtain enhanced analytical insights from spreadsheet-based financial models. Develops skills in applying both non-programming (e.g., PowerBi, Alteryx) and programming (e.g., R, Python) based tools to real-world financial challenges. Applies these tools both to obtain analytical insight and communicate information effectively.

**BUSFIN 712**

**Sustainable Finance**

Examines the intersection between sustainability and finance. Appraises sustainability risks, social challenges, and the implications for companies. Develops analytical skills in the integration of economic, social, and governance (ESG) factors in corporate finance and investment applications.

**BUSFIN 713**

**Climate Finance**

Investigates the key debates in climate finance related to climate change. Evaluates the financial impact of climate change and climate-related risks. Critically evaluates strategies and modelling techniques used by financial market participants in the assessment of the impact of climate change.

**BUSFIN 714**

**FinTech Applications**

Explores the characteristics of the FinTech market and potential opportunities for the use of FinTech applications in finance. Develops and appraises FinTech strategies for informing and addressing finance issues related to corporate finance and addressing investment management.
BUSFIN 715 15 Points
**FinTech and Financial Intermediation**
Investigates emerging FinTech trends in financial intermediation and evaluates strategies and tactics for financial intermediaries in the banking, real estate and insurance sectors. Critically examines current practices in FinTech from the multiple perspectives of a consultant, regulator, incumbent financial institutions and entrepreneur.

**Corequisite:** BUSFIN 707

**Prerequisite:** BUSFIN 706, 714

BUSFIN 720 30 Points
**Financial Analytics Industry Project - Level 9**
Team-based applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.

**Prerequisite:** BUSFIN 706, 710

**Corequisite:** BUSFIN 707

BUSFIN 721 30 Points
**Sustainable Finance Industry Project - Level 9**
Team-based applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.

**Prerequisite:** BUSFIN 706, 712

**Corequisite:** BUSFIN 707

BUSFIN 722 30 Points
**FinTech Industry Project - Level 9**
Team-based applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.

**Prerequisite:** BUSFIN 706, 714

**Corequisite:** BUSFIN 707

BUSFIN 723 30 Points
**Financial Analytics Project - Level 9**
Individual applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.

**Prerequisite:** BUSFIN 706, 710

**Corequisite:** BUSFIN 707

BUSFIN 724 30 Points
**Sustainable Finance Project - Level 9**
Individual applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.

**Prerequisite:** BUSFIN 706, 712

**Corequisite:** BUSFIN 707

BUSFIN 725 30 Points
**FinTech Project - Level 9**
Individual applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.

**Prerequisite:** BUSFIN 706, 714

**Corequisite:** BUSFIN 707

**BUSHRM 701 15 Points**
**Human Resource Analytics**
Develops the tools and frameworks for gathering and analysing data on workforce skills, attitudes and behaviours and building models of how these variables influence business and employee outcomes.

**Prerequisite:** BUSMGT 724, 751, 761, 762, with a B average or higher

**BUSHRM 702 15 Points**
**Strategic Human Resource Management - Level 9**
Focuses on how HR specialists can help business leaders to develop HR strategies that enhance organisational performance and employee well-being. Examines current and emerging research in HRM and evaluates contemporary practice.

**Prerequisite:** BUSMGT 724, 751, 761, 762, with a B average or higher

**BUSHRM 703 30 Points**
**HRM Research Project - Level 9**
Explores human resource management within the business environment through research of a human resource management issue and the production of a written analytical research report that addresses that human resource management issue.

**Prerequisite:** BUSMGT 724, 751, 761, 762, with a B average or higher

**BUSHRM 710 15 Points**
**Consultancy Practice**
Develops the tools and frameworks required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

**Prerequisite:** BUSMGT 724, 751, 761, 762, with a B average or higher

**BUSHRM 711 30 Points**
**Consultancy Project for HRM - Level 9**
A research-informed consultancy project based on a human resource management internship with a company or other appropriate organisation with written and oral reports of the findings.

**Prerequisite:** BUSMGT 724, 751, 761, 762, with a B average or higher

**BUSINFO 700 15 Points**
**Analysis of Business Problems**
Develops a managerial perspective on the use of small and big data in problem identification, analysis and decision-making. Explores big data strategies and develops an understanding of the business and industry context in which analytics professionals operate and how different parts of organisations interact.
BUSINFO 701 15 Points
**Business Analytics Tools**
Develops skills in programming and business intelligence applications using the most commonly applied software and freeware. Provides insights into data wrangling and focuses on using tools for problem-solving, including their application in a variety of business settings.

BUSINFO 702 15 Points
**Information Management**
Develops skills in the use of contemporary data management tools and the DataOps ecosystem to optimise the efficient storage of data. Emphasises data stewardship, including data governance and related ethical considerations. Explores behavioural, strategic and social issues related to data management software and tools to create agile data organisations.

BUSINFO 703 15 Points
**Data Visualisation for Business**
Develops skills in unsupervised machine learning techniques, e.g., cluster analysis, factor analysis, and text mining, which enable unstructured and structured data to be leveraged to provide insights. Uses storytelling and visualisation techniques to translate data patterns in order to inform managerial decision-making.
*Prerequisite: BUSINFO 700*

BUSINFO 704 15 Points
**Predictive Business Analytics**
Provides insights into the most commonly used supervised machine learning techniques, e.g., linear regression, logistic regression, random forest techniques, neural networks. Applies these techniques to model data for predicting relevant events. Addresses caveats of the techniques and how to evaluate model validity and outcomes.

BUSINFO 705 15 Points
**Decision Analytics**
Explores how business analytics can be used to improve business processes and decisions. The link between quantitative models and qualitative processes is explicitly explored. Decision biases are considered in the context of decision modelling. Monte Carlo simulation and optimisation are among the decision tools taught.

BUSINFO 706 15 Points
**Customer and Market Insights**
Develops customer and market insight capabilities through the use of machine learning applications such as prospect selection, churn modelling, customer segmentation and attribution modelling. Focuses on the use of CRM data and explores the contributions that survey data can make. Explores campaign management and other aspects of implementing the results of analytical projects.
*Prerequisite: BUSINFO 704*

BUSINFO 707 15 Points
**Digital Machine Learning - Level 9**
Synthesises academic marketing research findings with previously taught knowledge about analytics, the digital channel, marketing planning and practice in order to attain marketing strategic goals. Enables students to critically and independently evaluate alternative analytics and machine learning techniques and apply these insights to formulating solutions to challenges involving, for example, web scraping, network analyses, google analytics and machine learning techniques such as text mining and cluster analysis.
*Prerequisite: BUSINFO 704*

BUSINFO 708 15 Points
**Supply Chain Optimisation**
Uses key analytic modelling techniques to analyse and optimise supply chains. Topics include facility location, network design, and general logistics. Key trade-offs are explored, including that difference between efficiency and effectiveness. Uncertainty is modelled and shown to be key in supply chain design.
*Prerequisite: BUSINFO 705*

BUSINFO 709 15 Points
**Supply Chain Analytics - Level 9**
Synthesises learning from business analytics methodologies (e.g., multivariate data analysis, data mining, and network visualisation) taught in prior classes. Requires application of the latest supply chain research findings from the academic literature in developing practical business solutions, involving issues such as supplier selection and supplier selection and multi-sourcing. Develops skills and knowledge to independently and critically address open-ended and ill-defined challenges in Supply Chain Management including complex tactical supply chain management problems, including supplier selection, multi-sourcing.
*Prerequisite: BUSINFO 704*

BUSINFO 710 15 Points
**Advanced Project Management**
Develops advanced project management skills and readiness for the final business analytics industry project, including definition and formulation of KPIs, risk assessment, progress monitoring, process evaluation, and reporting. Students will apply these skills in the formulation of an industry project proposal.

BUSINFO 711 15 Points
**Consultancy Practice**
Develops professional skills in communication, case practice, interviewing, networking, and business etiquette. Enhances team and management skills including conflict management and cultural awareness and builds resilience.

BUSINFO 712 30 Points
**Marketing Analytics Industry Project - Level 9**
Marketing analytics consultancy project for a client company with written and oral presentation.
*Prerequisite: BUSINFO 706, 707, 710*

BUSINFO 713 30 Points
**Supply Chain Analytics Industry Project - Level 9**
Supply chain analytics consultancy project for a client company with written and oral presentation.
*Prerequisite: BUSINFO 708-710*

BUSINFO 714 30 Points
**Marketing Analytics Project - Level 9**
Individual marketing analytics consultancy project for a client company with written and oral presentation.
*Prerequisite: BUSINFO 708-710*

BUSINFO 715 30 Points
**Supply Chain Analytics Project - Level 9**
Individual supply chain analytics consultancy project for a client company with written and oral presentation.
*Prerequisite: BUSINFO 708-710*

BUSINFO 716 15 Points
**Business Analytics for FinTech**
Study of the intersection of finance and business analytics. Considers strategies for improving portfolio performance and valuation accuracy from the perspective of a trader or fund manager, and considers how outside investors and
regulators can better detect fraud; uses business analytics tools to improve financial projections.

Pre requisite: BUSINFO 704

BUSINFO 717 15 Points
FinTech and Financial Intermediation - Level 9
Examines emerging FinTech trends in financial intermediation such as digital transformation and responsible innovation and evaluates strategies and tactics for financial intermediaries in the banking, real estate and insurance sectors. Critically examines current practices in FinTech from the multiple perspectives of a consultant, regulator, incumbent financial institutions and entrepreneur.

Pre requisite: BUSINFO 704

BUSINFO 718 30 Points
FinTech Analytics Industry Project - Level 9
Team-based FinTech analytics consultancy project for a client company with written and oral presentations.

Pre requisite: BUSINFO 710, 716, 717

BUSINFO 719 30 Points
FinTech Analytics Project - Level 9
Individual FinTech analytics consultancy project for a client company with written and oral presentation.

Pre requisite: BUSINFO 710, 716, 717

Business International

Postgraduate 700 Level Courses
BUSINT 710 15 Points
Consultancy Practice
Develops the tools and frameworks required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

Pre requisite: BUSMGT 724, 741, 751, 761 with at least a B average

BUSINT 711 30 Points
Consultancy Project for MintBus - Level 9
A research-informed consultancy project based on an international business internship with a company or other appropriate organisation with written and oral reports of the findings.

Pre requisite: BUSMGT 724, 741, 751, 761 with at least a B average
Restriction: BUSMKT 703, 704

Business Management

Postgraduate 700 Level Courses
BUSMAN 701 15 Points
Managing People and Organisations
Explores current management practices and the challenges of managing in contemporary organisations. Examines strategies for effective management and leadership to achieve performance and productivity improvements including change management processes.

Restriction: BUSADMIN 761, 771

BUSMAN 702 15 Points
Contemporary Marketing
Develops an understanding of the contemporary marketing function and focuses on marketing decision-making, marketing strategy development and tactics. Examines the impact of new technology.

Restriction: BUSADMIN 762, 772

BUSMAN 703 15 Points
Financial Decision-making
Focuses on decision-making, budgeting and the management of financial resources. Examines value creation from investments, and the management and control of financial assets.

Restriction: BUSADMIN 765, 775

BUSMAN 704 15 Points
Supply Chain Management
Explores creating value through effective and efficient operations and supply chains for the production and delivery of products and services. Emphasises human, information and sustainability aspects.

Restriction: BUSADMIN 766, 776

BUSMAN 705 15 Points
Strategic Human Resource Management
Explores how HR strategies can enhance organisational performance and employee well-being. Examines research on contemporary challenges in strategic HRM in domestic and multinational firms.

Restriction: BUSADMIN 761, 771

BUSMAN 706 15 Points
Strategic Management
Examines the application of contemporary strategic management frameworks, processes and practices. Evaluates alternative approaches to the development of coherent solutions for an organisation's strategic challenges.

Restriction: BUSADMIN 729, 768, 778

BUSMAN 707 15 Points
Business Analytics

Restriction: BUSADMIN 763, 773

BUSMAN 708 15 Points
Innovation in Practice
Examines strategies for developing an innovation culture and capabilities that will enhance the agility of start-ups and small-to-medium-sized enterprises. Explores opportunity recognition, new product and venture development, risk management, venture financing, and the challenges of SME management.

BUSMAN 709 15 Points
Global Management - Level 9
Critically evaluates the use and application of tools and techniques for the creation and implementation of global management strategies in diverse types of enterprise. Assesses the effectiveness of global management practices in navigating complex and ill-defined contexts. Develops advanced capabilities in designing and communicating strategy.

BUSMAN 710 15 Points
Consultancy Practice
Develops the tools and frameworks required to engage in consultancy practice. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.
BUSMAN 720 15 Points  
**Digital Marketing Strategies**  
Focuses on marketing strategy, planning, and implementation in a digital world. Discusses digital transformation and its impact on customer engagement and consumer behaviour. Builds critical skills in online data analytics.

BUSMAN 721 15 Points  
**Customer Insights**  
Develops a critical understanding of possibilities and limitations of customer insights-based marketing strategies and tactics. Explores the application of customer insights tools.

BUSMAN 722 15 Points  
**Digital Branding and Advertising**  
Explores how businesses communicate with customers and other key stakeholders through digital advertising and social media campaigns. Evaluates the effectiveness of advertising, sales promotion, public relations, personal selling, and direct marketing, in a digital world.  
*Prerequisite: BUSMAN 702*

BUSMAN 723 15 Points  
**Advanced Marketing Strategy**  
Examines current and emerging research in digital marketing and evaluates contemporary practice. Focuses on the development, implementation and management of effective marketing strategies to attain and achieve a sustainable competitive advantage.  
*Prerequisite: BUSMAN 702*

BUSMAN 730 15 Points  
**Human Resource Policy and Practice**  
Evaluates the policies and practices involved in the core processes of HRM and builds students' professional skills in assisting organisations to design and implement these policies and practices effectively.

BUSMAN 731 15 Points  
**Employment Law**  
Analyses and applies the legal principles governing the employment relationship. Specific topics include bargaining, personal grievances, enforcement of employment contracts, strikes and lockouts, the rules regarding holidays, and health and safety obligations.

BUSMAN 732 15 Points  
**Human Resource Analytics**  
Develops the tools and frameworks for gathering and analysing data on workforce skills, attitudes and behaviours and building models of how these variables influence business and employee outcomes.

BUSMAN 750 30 Points  
BUSMAN 750A 15 Points  
BUSMAN 750B 15 Points  
**Consultancy Project in Strategic Management - Level 9**  
A research-informed consultancy project with a company or other appropriate organisation with written and oral reports of the findings.  
*To complete this course students must enrol in BUSMAN 750 A and B, or BUSMAN 750*

BUSMAN 751 30 Points  
BUSMAN 751A 15 Points  
BUSMAN 751B 15 Points  
**Consultancy Project in Digital Marketing - Level 9**  
A research-informed consultancy project with a company or other appropriate organisation with written and oral reports of the findings.  
*To complete this course students must enrol in BUSMAN 751 A and B, or BUSMAN 751*

BUSMAN 771 15 Points  
**Business in Society**  
Examines the role of business in society, how businesses interact with government and other institutions, and how businesses can contribute to solving the key challenges of the twenty-first century.

BUSMAN 772 15 Points  
**Organisations and Culture**  
Explores the role that managers play in building the structure and culture of organisations. Examines key issues in organisational design, culture, behaviour and structures. Develops skills in managing multigenerational and multicultural workforces.

BUSMAN 773 15 Points  
**Effective Decision Making**  
Techniques and tools to support and facilitate managerial decision-making. Builds skills in understanding organisations and their problems through numerical analysis.  
*Restriction: BUSADMIN 763*

BUSMAN 774 15 Points  
**The Global Economy and New Zealand**  
Considers the nature of the global economy and the opportunities for small trading nations such as New Zealand. Examines key issues, global trade, and how governmental policies impact businesses. Explores how New Zealand can become a more productive and prosperous nation.

**Business Management**

**Postgraduate 700 Level Courses**

BUSMGT 707 15 Points  
**Professional Development**  
Develops key interpersonal strategies and communication skills to become an agile, reflective professional and to manage the professional self effectively and cooperatively in a range of business environments. Enhances the emerging manager’s ability to lead and influence others in both cross-cultural contexts and uncertainty.

BUSMGT 708 15 Points  
**Communicating Business Insights**  
Equips students with the ability to utilise data visualisation tools and techniques in crafting and adapting data communication strategies for different types of audiences. Develops critical evaluation of the presentation of data and the implications for ethical communication.
BUSMGT 709  
**Economics and Business Analytics**  
Explores data-driven decision-making in a VUCA (Volatility, Uncertainty, Complexity, Ambiguity) environment, utilise tools for structured thinking, understand market dynamics, and assess consumer, firm, and institutional impacts on the macroeconomy. Develops a managerial perspective on micro- and macro-economic aspects in order to navigate complexities and drive strategic success.

BUSMGT 711  
**Managing People and Organisations**  
Focuses on the foundations of organisational behaviour and managing within the workplace. Examines the challenges that managers and leaders face in managing people and organisations.

BUSMGT 712  
**Principles of Business Analytics**  
Focuses on fact-based and data driven-decision making in a volatile, uncertain, complex and ambiguous (VUCA) world. Introduces and examines tools and approaches to support decision making through an understanding of data and structured thinking.

BUSMGT 713  
**Financial Reporting and Control**  
Focuses on essential accounting knowledge for effective resource allocation and for quantifying, assessing, and communicating information about the health of the enterprise.

BUSMGT 714  
**Economics for Managers**  
Examines attributes and behaviours of consumers, firms, markets and institutions and their impacts on the macroeconomy. Focuses on the micro- and macro-economic aspects of market actors from a managerial perspective.

BUSMGT 716  
**Strategy Capstone - Level 9**  
Examines the logics and processes of strategy formulation and implementation. The course involves extensive business situation case analysis and a 'real world' business project requiring creative and innovative recommendations typical for a capstone experience.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 717  
**Strategic Management - Level 9**  
Advanced analysis of corporate and competitive strategy with a focus on innovation, diversification and strategic change. Uses a case-based approach to evaluate the strengths and limitations of different perspectives for creating an appropriate strategy.  
**Prerequisite:** BUSMGT 711-714 with at least a B- average

BUSMGT 718  
**Business Analytics**  
Focuses on fact-based and data driven-decision making in a volatile, uncertain, complex and ambiguous (VUCA) world. Examines decision biases and tools to overcome decision making under VUCA, particularly through critical and structured thinking.

BUSMGT 719  
**Business Technology**  
Explores emerging technologies and how they impact on business strategies. Examines data-driven decision-making and develops an understanding of innovation culture and capabilities and how these can be harnessed to improve business outcomes.

BUSMGT 720  
**Strategy Capstone Project**  
Advanced analysis of corporate and competitive strategy, spotlighting innovation, diversification, and strategic evolution. Assess various perspectives via case studies to devise fitting strategies. Explore strategy formulation and implementation through immersive case analysis and a 'real world' project.  
**Prerequisite:** BUSMGT 711-714, 718 with at least a B- average

BUSMGT 724  
**Global Operations Management - Level 9**  
Advanced analysis of global operations management. Evaluates the design, management, and improvement of operations in goods and services organisations and critiques strategies to improve global supply chain performance.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 731  
**Financial Reporting and Accounting**  
Provides overview of financial accounting principles within New Zealand and the understanding and application of New Zealand Financial Reporting Standards. Focuses on the role of financial statements play in investment, analysis and contracting decisions.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 732  
**Business Finance**  
Examines the functions of the markets for real and financial assets, and their valuation. Focuses on the various techniques that financial managers can create wealth for shareholders and stakeholders.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 733  
**Analysing Financial Statements - Level 9**  
Advanced analysis of financial statements and the assessments of an organisation's performance. Evaluates tools and techniques used to measure and assess risk and value through an applied project.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 734  
**Strategic Management Accounting**  
Critically analyses the role of strategic management accounting in facilitating strategic decision making and sustainable value creation. Evaluates strategic cost management tools and techniques, budgetary control systems and performance measurement through an applied project.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 735  
**Management Accounting**  
Design and management of revenue and cost management systems. Analysis of Budgets and standards, costing system, cost systems for decision-making and control, performance appraisal, and contemporary related issues.  
**Prerequisite:** 60 points from BUSMGT 711–714 with at least a B- average

</table>

and its implications for asset values and the cost of capital. Includes coverage of models and techniques used for the valuation of real and financial assets.

**BUSMBA 702 Managing Capacity and Inventory**
Develops effective strategies for determining and allocating capacity and inventories to match supply and demand consistent with business strategy, cost factors, and uncertainty. Considers both manufacturing and services utilising perspectives from operations, accounting, and finance.

**BUSMBA 703 Globalising Mindsets**
Develops skills to navigate the complexities of the global business environment. Critically evaluates differences in regulation, culture and customs in formulating strategies to reach overseas customers and navigate different business systems.

**BUSMBA 704 Managing Talent in the 21st Century**
Explores the factors that enable organisations to attract, keep and promote valued talent. Considers the role of technological developments in the definition and organisation of work and the implications for individuals and organisations. Explores principles of human talent management within a context that is constantly changing.

**BUSMBA 705 Approaches to Growth**
Explores various strategic approaches to growth, drawing on strategic management and marketing. Develops skills to critically evaluate, develop and manage growth strategies that are appropriate for the given context.

**BUSMBA 706 Innovating New Products and Services**
Examines the processes that create successful new products and services and explores the development of appealing concepts, prototyping and testing, refinement, production and launch. Develops skills to create a refined concept for a new offering, and plans for processes required to execute its launch into the marketplace.

**BUSMBA 707 Engaging Innovation Ecosystems**
Provides a multi-disciplinary approach to build the practices of innovation, commercialisation, and corporate entrepreneurship. Examines the essential processes of open innovation, such as collaboration, knowledge sharing, and contracting.

**BUSMBA 708 Leading and Managing Change**
Critically evaluates the key determinants of successful organisational change including factors within the control of the change agent, including those that enable and constrain the actions of the change agent. Develops skills to initiate and manage change, and then to embed change in organisational systems and practices.

**BUSMBA 709 Market Making and Market Shaping**
Explores the factors that enable organisations to make and shape markets, drawing on the transdisciplinary science of systems theory. Develops skills to devise and implement strategies on a market or ecosystem level in uncertain and complex contexts.

**BUSMBA 711 Organisational Resilience**
Develops skills to critically assess current reality and understand ripple effects while scanning the horizon for long-term threats and opportunities. Develops skills to build individual and organisational resilience in a context that is volatile, uncertain, complex and ambiguous.

**BUSMBA 721 Te Ao Māori Business**
Investigates how to integrate Māori values into contemporary business practices through examining governance, tikanga, and the Māori economy. Emphasis is placed on sustainability, societal well-being, and principles like kaitiakitanga, social purpose, and long-term planning.

**BUSMBA 722 Aotearoa NZ's Unique Legal Landscape**
Evaluates how New Zealand's unique history shapes our legal and political environment, exploring how businesses can influence future policy and law-making. Through the lens of key areas of commercial law, business leaders learn to identify and critically evaluate significant business constraints and opportunities, thereby enabling more effective decision-making in both domestic and international contexts.

**BUSMBA 723 Strategy in Dynamic Markets**
Explores strategic approaches to sustainable growth in a VUCA (volatility, uncertainty, complexity, and ambiguity) world, focusing on problem-solving, effective positioning in existing markets and shaping of new markets. Develops skills to devise and implement strategies at organisation, ecosystem and market levels in uncertain and complex contexts. Practical examples are used to reinforce climate mitigation and circular economy practices to face and embrace 21st-century challenges.

**BUSMBA 724 Navigating the Economic Environment**
Develops analytical and critical thinking skills in contemporary economic issues, both international and domestic, including national goals, productivity growth, money and inflation, inequality, and the genesis of financial crises. Micro-economic skills in the theory of the firm, competition, and supply and demand are also covered. Practical insights are gained into international economics and domestic issues such as the Māori economy.

**BUSMBA 725 Accounting & Finance**
Develops finance and accounting skills covering topics such
as interpreting financial statements, risk management, valuation techniques, financing, international finance, and fintech. Using case studies and real-world examples, students will develop practical skills in finance decision-making, including the importance of sustainable accounting and climate-related disclosures for ethical financial practices.

**BUSMBA 726**  
*Analytics for Business Decisions - Level 9*  
Develops a critical understanding of data science techniques. Students will be able to independently evaluate and identify sources of data, make high-level data-driven decisions, communicate specialised insights, and contribute to solving real-world problems.

**BUSMBA 727**  
*Delivering Value Through Operations*  
Explores operations and supply chain management, focusing on effective production and delivery of goods and services that meet customer needs. Examines how to improve operations and supply chains to support competitive positioning while considering factors such as uncertainty and environmental sustainability.

**BUSMBA 728**  
*Creating Value Through Innovation*  
Explores contemporary approaches that enhance innovation activities. Expands thinking about design and innovation beyond new products to other sources of value creation. Critically evaluates the role of innovation and design processes in creating new products, services, experiences, and markets. Develops skills to manage a creative approach to problem/opportunity/solution identification and ideation.

**BUSMBA 729**  
*Global Success and Scaling Up*  
Evaluates and assesses opportunities, challenges and risks in exporting or operating a business across borders as part of a global value chain. Combines country and market analysis with internationalisation strategies to explore challenges firms and their leaders face, focussing on New Zealand firms, their global context and the unique trade-offs to be considered.

**BUSMBA 730**  
*MBA Capstone Consultancy Project - Level 9*  
Develops skills in the identification of new opportunities and strategic recommendations for international growth through a consultancy project working with a New Zealand business. Students will learn to utilise information from a range of sources to make decisions while navigating uncertainty. An international field trip provides practical experience and exposure to global business practices.

**BUSMBA 750**  
*Navigating the Business Environment*  
Critically evaluates the business environment from legal, economic, political and social perspectives, at both the national and international levels. Develops skills to identify and influence major constraints and opportunities, and to use this critical understanding in strategic decision-making.

**BUSMBA 751**  
*Financial Management and Control*  
Covers the process of financial management within a corporation and explores how the analysis of a range of financial information can be used to gain insights which enhance managerial decision making. Examines how value can be created for shareholders and other stakeholders through investment and financing decisions.

**BUSMBA 752**  
*Building Capabilities for Performance*  
Explores business strategies based on unique resources and capabilities, utilising perspectives from management and marketing. Develops skills to generate market intelligence, devise strategies, manage intangible assets as well as relationships with external stakeholders.

**BUSMBA 753**  
*Designing, Managing, and Improving Business Processes*  
Explores leading and organisational processes and systems, for effective production and delivery of goods and services meeting customer needs. Considers uncertain and complex business environments, along with operations and supply chain management ideas and technologies.

**BUSMBA 760**  
*Making Evidence-based Decisions under Uncertainty - Level 9*  
Develops highly specialised knowledge about decision making within organisations. Requires the critical synthesis and appraisal of different types of expertise and evidence in informing management practice.  
*Prerequisite: 90 points from BUSMBA 701-753*

**BUSMBA 770**  
*Managing Entrepreneurial Growth Project - Level 9*  
Provides a practical opportunity for participants to work with a New Zealand or international business in an advisory capacity to develop strategic recommendations for growth locally and internationally. Develops a hands-on multi-disciplinary approach to recognising, assessing, and marketing entrepreneurial opportunities for new products and services. An overseas fieldtrip is required to complete the course.  
*Prerequisite: BUSMBA 760 and 90 points from BUSMBA 701-753*

**Business Supply Chain Management**

**Postgraduate 700 Level Courses**

**BUSSCM 700**  
*Supply Chain Management*  
Using quantitative models and qualitative understanding, the course explores the essential components of global supply chains – inventory, logistics and transportation. Considers supply chain dynamics, risk management, collaboration, and sustainability, and the trade-offs inherent in supply chain decisions.  
*Restriction: BUSMGT 772*

**BUSSCM 701**  
*Service Supply Chain Operations*  
Examines both traditional and new approaches for achieving operational competitiveness in service businesses and their associated supply chains. Major service sectors such as health care, banking and financial services, transportation, tourism, and call centres are studied. Addresses both strategic analysis and operational decision making.  
*Prerequisite: BUSINFO 705*
Course Prescriptions

2024 Calendar Faculty of Business and Economics

Course Prescriptions

BUSSCM 703 30 Points
BUSSCM 703A 15 Points
BUSSCM 703B 15 Points

Supply Chain Research Project - Level 9
Examines supply chain management within the business environment through research of a supply chain management issue and the production of a written analytical research report that addresses that issue. To complete this course students must enrol in BUSSCM 703 A and B, or BUSSCM 703

Stage I

BUSSCM 704 15 Points
Strategic Sourcing
Considers analysis, planning, management, and improvement of the sourcing/procurement function in businesses. Special attention is given to supplier selection and relationship management, negotiation, co-ordination and collaboration, and supply chain financing. The course uses both qualitative and quantitative models. Prerequisite: BUSINFO 705
Restriction: BSUMGT 773

BUSSCM 706 15 Points
Supply Chain Integration
Examines cross-functional and inter-organisational business processes, systems, technologies, small and big data analysis, integrated business planning, and partnerships to enhance supply chain performance. Considers analysis, design, implementation, and configuration. Prerequisite: BUSSCM 700

BUSSCM 707 15 Points
Supply Chain Strategy and Design - Level 9
An advanced analysis of the development and implementation of strategies for enhancing supply chain performance. Includes a critical evaluation of strategic issues, tradeoffs, performance metrics, human and financial aspects, and their relation to supply chain design/operation; and a critical reflection on the roles of sustainability and humanitarian logistics. Includes provision of a research-informed business case. Prerequisite: BUSINFO 705
Restriction: BSUMGT 775

BUSSCM 710 15 Points
Supply Chain Consulting
Develops the tools and frameworks required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

BUSSCM 711 30 Points
BUSSCM 711A 15 Points
BUSSCM 711B 15 Points
Supply Chain Consultancy Project - Level 9
A research-informed consultancy project based on a supply chain management internship with a company or other appropriate organisation with written and oral reports of the findings. To complete this course students must enrol in BUSSCM 711 A and B, or BUSSCM 711

Commercial Law

Stage I

COMLAW 101 15 Points
Law in a Business Environment
Decision makers in commerce and industry require an understanding of legal structures, concepts and obligations. Provides an introduction to the New Zealand legal system and the legal environment in which businesses operate, and also introduces legal concepts of property and the law of obligations, including detailed study of various forms of legal liability relevant to business. Prerequisite: BUSSCM 703 A and B, or BUSSCM 703

Restriction: BUSINESS 111, COMLAW 191

Stage II

COMLAW 201 15 Points
Commercial Contracts
Every business transaction involves a contract. Commercial Contracts examines the general principles of the law of contract including the process of formation of a contract, the interpretation of contractual terms and the various obstacles which may impede the enforceability of a bargain. Introduces the special features of contracts in digitally networked environments and issues relating to breach of contract and consumer protection. Prerequisite: COMLAW 101 or 191 or BUSINESS 114 and 115
Corequisite: BUSINESS 112 or 113

COMLAW 203 15 Points
Company Law
Companies are by far the most used vehicle for doing business and an understanding of the rules that govern them is essential for everyone involved in commerce and industry. Examines the nature of a company, incorporation and share capital, the concept of separate legal personality, how a company interacts with the world and the roles of the stakeholders in a company including directors and shareholders. A sound understanding will help decision makers to take the advantages of corporate structure while avoiding pitfalls and legal liability. Prerequisite: COMLAW 101 or 191 or BUSINESS 114 and 115
Corequisite: BUSINESS 112 or 113

Stage III

COMLAW 300 15 Points
Directed Study

COMLAW 301 15 Points
Taxation
An introduction to the Income Tax Act and the Goods and Services Tax Act, with emphasis on developing an understanding of these types of tax as relevant to taxpayers. Specific topics include the nature of income, taxation of common types of income (such as wages, shares and land), the deduction and prohibition of various types of expenses, tax accounting issues (cash or accrual basis), provisional tax, rebates, PAYE system, tax returns and an introduction to GST. Prerequisite: COMLAW 201 or 203

COMLAW 303 15 Points
Receiverships and Reconstructions
A business in difficulty may fail or it may be rehabilitated. Receiverships and Reconstructions looks at aspects of business failure and near failure including informal workouts, formal business rescue regimes, company receiverships and personal bankruptcy. Students will develop the skills and expertise to operate in these fields. Prerequisite: COMLAW 203 or LAW 417

COMLAW 304 15 Points
Business Structures for Enterprises
Business advisers need to be familiar with a wide variety of business structures other than companies. Emphasis is
on the most common of these including franchises, joint ventures, trading trusts, partnerships, unincorporated societies and State Owned Enterprises in order to ensure that advisers are familiar with their merits and legal consequences of utilising these structures.

Prerequisite: COMLAW 203

COMLAW 305 15 Points
Financial Markets Law
Businesses need investment to grow. Many raise finance from the securities markets, in particular by listing on the Stock Exchange. Topics include raising money from the public and the rules relating to insider trading, market manipulation, disclosure obligations, takeovers and listing on the Stock Exchange and will benefit investment advisers and anyone involved in the financial markets.

Prerequisite: COMLAW 203

COMLAW 306 15 Points
Marketing Law
Marketers are not free to say what they want. A variety of laws and codes govern the claims made about goods and services and the ways in which they are presented and sold. Marketing Law covers consumer legislation, product distribution, advertisement, copyright, privacy and competition law. It builds skills in problem solving, decision making and written communication.

Prerequisite: BUSINESS 115 or COMLAW 101, and COMLAW 201 or 203 or MKTG 201 or 203, and 30 points at Stage II

COMLAW 311 15 Points
Advanced Taxation
An advanced study of Income Tax and Goods and Services Tax, with emphasis on the important tax regimes applicable to business taxpayers and high-wealth individuals. Specific topics include corporate taxation, dividends and imputation, company losses and grouping, qualifying companies, trusts, partnerships, financial accruals, international taxation, the disputes procedure and penalties regime, and evasion and avoidance.

Prerequisite: COMLAW 203 and 301, or LAW 429 and LLB Part II
Restriction: LAW 409

COMLAW 314 15 Points
Employment Law
The success of a business depends on the maintaining of a productive relationship with its employees. Employment Law covers the legal principles governing the employment relationship. Specific topics include bargaining, personal grievances, enforcement of employment contracts, strikes and lockouts, the rules regarding holidays, and health and safety obligations.

Prerequisite: COMLAW 201 or 203, or BUSINESS 115 or COMLAW 101 and MGMT 223, or LAW 121 or 131

COMLAW 315 15 Points
Finance and Property Law
Examines the legal concepts of property and ownership which are central to securing repayment of debt. Major topics include types of security over personal and real property; statutory provisions regulating credit contracts and property rights; general principles relating to guarantees; legal aspects of commercial leasing; liability of professional advisers and aspects of unsecured lending.

Prerequisite: COMLAW 201 or 203 or PROPERTY 271

COMLAW 318 15 Points
Special Topic

COMLAW 320 15 Points
Innovation and the Law
New technologies and innovative ideas and information pose challenges and provide opportunities for business and society. Topics will be drawn from intellectual property protection and the commercialisation of emerging technologies, data governance and privacy, blockchain, artificial intelligence regulation, sustainable management of resources and risks, issues related to compliance, and on-line dispute resolution.

Prerequisite: 30 points at Stage II and BUSINESS 115 or COMLAW 101

COMLAW 321 15 Points
Special Topic

Postgraduate 700 Level Courses

COMLAW 700 15 Points
Directed Study

COMLAW 703 30 Points
Legal Research, Writing and Contemporary Issues
The theory and application of legal research methodologies and the practice of legal writing, identifies and resolves key commercial law and taxation issues that arise for businesses and organisations operating in New Zealand.

COMLAW 788 30 Points
Research Project - Level 9

COMLAW 791 60 Points
COMLAW 791A 30 Points
COMLAW 791B 30 Points
Dissertation - Level 9
To complete this course students must enrol in COMLAW 791 A and B, or COMLAW 791

COMLAW 793A 30 Points
COMLAW 793B 60 Points
Thesis - Level 9
To complete this course students must enrol in COMLAW 793 A and B

COMLAW 796A 60 Points
COMLAW 796B 60 Points
Thesis in Commercial Law - Level 9
To complete this course students must enrol in COMLAW 796 A and B

Economics

Stage I

ECON 151 15 Points
ECON 151G 15 Points
Understanding the Global Economy
Economics affects our daily lives and the global environment in many ways. Through the media we are constantly made aware of price increases, interest rate changes, exchange rate movements and balance of payments problems, growth and recessions, standard of living comparisons, regional trading agreements. What does it all mean and how does it all work?

Restriction: BUSINESS 115, ECON 101, 111, 191
Restriction: ECON 101, 111, 152, 191

ECON 152 15 Points
Principles of Economics
Analysis of issues that affect our daily lives, including
pricing decisions by firms and their impact on our cost of living; game theory and strategic decision-making; tackling problems of pollution and global warming; and how governments use monetary and fiscal policies to stimulate economic growth and address unemployment and inequality.

Prerequisite: BUSINESS 115 or ECON 151
Restriction: ECON 101, 111, 191

**Stage II**

**ECON 200** 15 Points
**Special Topic**
Prerequisite: ECON 111 or 152

**ECON 201** 15 Points
**Microeconomics**
Study of the allocation of scarce resources among competing end uses. Intermediate-level analysis of the economic behaviour of individual units, in particular consumers and firms. Although the focus is on perfectly competitive markets, attention is also given to other types of markets. Analysis also includes concepts of expected utility and uncertainty, and welfare economics.

Prerequisite: ECON 101 or 152 or 180 points in Mathematics or Statistics with a GPA of 5 or higher and a B or higher in MATHS 130

**ECON 211** 15 Points
**Macroeconomics**
Provides an introduction to the dynamic microfoundations of macroeconomics, and demonstrates how we can utilise these foundations (i) to understand the trends and fluctuations of macroeconomic aggregates like national output, unemployment, inflation and interest rates, and (ii) to predict the outcome of alternative government policies related to current economic problems of New Zealand and the rest of the world.

Prerequisite: ECON 111 or 152 or 180 points in a BSc major in Mathematics or Statistics with a GPA of 5 or higher and a B or higher in MATHS 130

**ECON 212** 15 Points
**Game Theory**
An introduction to the fundamental concepts of non-cooperative and cooperative game theory: the concept of strategy; two person constant sum non-cooperative games and the minimax value; n-person non-cooperative games and Nash equilibrium; examples and applications in auctions, bargaining and other economic models, political science and other fields; the idea of backward induction and sub-game perfection; introduction to games in coalitional form; the core and the Shapley value.

Prerequisite: 15 points from BUSINESS 115, ECON 101, 151, 152, 191, ENGSCI 111, MATHS 108, 130, PHIL 101

**ECON 221** 15 Points
**Introduction to Econometrics**
Empirical analysis in economics. Focuses on harnessing the power of data and regression techniques to estimate relationships and test hypotheses based on economic models. Emphasises the identification of causal effects critical to policy analysis, decision-making and strategic planning. Covers applications of econometrics in a variety of areas using a statistical computer package.

Prerequisite: 15 points from ECON 152, MATHS 108, 130, STATS 101, 102, 108, 125, 191, or at least 18 credits in Mathematics at NCEA Level 3 including at least 9 credits at merit or excellence, or B in CIE A2 Mathematics, or 5 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)

**ECON 232** 15 Points
**Econometrics of Global Development**
The development of the international economy and changing economic relationships that have taken place since the late nineteenth century. The causes and consequences of growing interdependency among nations are examined. Changing patterns of trade and migration of capital and labour are analysed, as are cyclical and secular trends in output, employment and investment. The focus is on the development of institutions as well as the economic and social conditions that induce and validate change.

Prerequisite: ECON 111 and 101 or 191, or ECON 152

**ECON 241** 15 Points
**International Economic Policy**
An introduction to contemporary issues in international trade and finance, including tariff wars, optimal currency areas, financial crises, debt default and the role of institutions like the IMF. The course provides a conceptual framework to understand how and why nations trade, the forces underpinning financial globalisation, and the political economy of international trade and monetary relations.

Prerequisite: ECON 111 and 101 or 191, or ECON 152

**ECON 242** 15 Points
**Economic Policy**
Explores how economic policy can address socioeconomic challenges like climate change, poverty, sustainability, and the changing nature of work. Examines the role of microeconomic policy in areas such as competition, transport, education, health, labour, international trade, and immigration. Discusses how fiscal and monetary policy can promote welfare and economic stability. Traces the evolution of policy in New Zealand and overseas.

Prerequisite: 15 points from BUSINESS 115, ECON 151, 152

**Stage III**

**ECON 300** 15 Points
**Directed Study**

**ECON 301** 15 Points
**Advanced Microeconomics**
Advanced treatment of aspects of consumer theory, producer theory, and game theory. Applications of this basic theory to the analysis of some topics in uncertainty, contracts, auctions, oligopoly, and information economics.

Prerequisite: ECON 201 and 15 points from ENGGEN 150, ENGSCI 111, MATHS 108, 130, PHIL 101, PSYCH 108, 109, STATS 101, 108

**ECON 302** 15 Points
**Economics of Labour Markets**
The application of economics to labour issues that confront policymakers around the world. Examines how labour markets function and focuses on the use of
economic frameworks to evaluate the effects of various policies, including education and training, welfare and taxation, workplace health and safety, minimum wages, and immigration. Discusses effective strategies to mitigate workplace discrimination.

Prerequisite: ECON 201

ECON 303 15 Points
Law and Economics
Economic analysis of law and organisation, and the application of economics to property rights, patents and natural resource management. Includes: contracts, transaction cost analysis, classical contracting, long-run contracts, enforcement, role of market forces, risk aversion, remedies for breach, economic theory for torts, negligence rules, strict liability, multiple torts, product liability. Special topics may include: crime, insider trading, and business law.

Prerequisite: 15 points from ECON 201, 211, 232

ECON 304 15 Points
Firms and Markets
An introduction to Industrial Organisation, the analysis of markets with imperfect competition. Industrial Organisation is concerned with the interdependence of market structure, firm behaviour and market outcome. Basic concepts of game theory will be systematically introduced and applied to study strategic firm behaviour in a variety of general and more industry-specific market settings. In each case, we will analyse the implications of the market behaviour for consumers and society and explore the potential role for public policy with instruments like regulation, competition policy and patent policy.

Prerequisite: ECON 201

ECON 305 15 Points
Economic Policy Analysis
Examines the design, implementation and analysis of economic policy. Integrates economic theory with empirical methods to evaluate responses to issues that confront policymakers in government and industry. Potential topics include housing, infrastructure and transport investment, climate and sustainability, productivity, employment, welfare and health programmes. Provides opportunities to engage with stakeholders in industry and government.

Prerequisite: ECON 201, 221

ECON 311 15 Points
Advanced Macroeconomics
Designed to teach students modern macroeconomic analysis and focuses on the standard dynamic general equilibrium model, which is central to current macroeconomic research. Students are given a careful introduction to the overlapping generations version of this model and shown how this model can be adapted in different ways to address a wide variety of economic issues and policy questions.

Prerequisite: ECON 201 or 211, and 15 points from ENNGEN 150, ENGSCI 111, MATHS 108, 130

ECON 321 15 Points
Advanced Econometrics
Development of the linear regression model, its basis, problems, applications and extensions: demand systems, time-series analysis including unit roots and co-integration, simulation and resampling methods including an exposure to practical computing classes.

Prerequisite: 15 points from ECON 221, STATS 201, 207, 208, 210, 225 and 15 points from ENNGEN 150, ENGSCI 111, MATHS 108, 130

ECON 341 15 Points
International Trade
The main theories of international trade in goods and services, and of international movements of capital and labour. Partial equilibrium and general equilibrium analysis of the major instruments of trade policy, their economic effects, and the issues created by their use in practice. The economics of regional trading arrangements, such as free trade areas, customs unions and common markets.

Prerequisite: 15 points from ECON 201, 211, 232, 241

ECON 343 15 Points
East Asian Growth and Trade
A study of the economic factors underlying the dynamic trade and growth performance of the major economies of contemporary East Asia, and of the impact of their development on New Zealand's international trading environment. Study of individual East Asian economies is strongly emphasised.

Prerequisite: 15 points from ECON 201, 211, 232, 241

ECON 351 15 Points
Financial Economics
A study of the modern literature on corporate finance, investments and derivative securities. An analysis of consumption and investment decisions in the presence of time and risk, asset pricing models and market efficiency. The term structure of interest rates and various issues in debt and equity financing. The use of derivative securities, e.g., forwards and/or options to manage exchange rate risk.

Prerequisite: ECON 201 and 15 points from ENNGEN 150, ENGSCI 111, MATHS 108, 130

ECON 352 15 Points
International Finance
A study of the modern literature on exchange rate markets, exchange rate determination and the implications of exchange rate movements for various economic issues. Students will gain an understanding of why exchange rates change, of financial market arrangements, and of the reasons for, and implications of, recent events in international financial markets.

Prerequisite: 15 points from ECON 201, 211, 232, 241

ECON 361 15 Points
Public Economics
A study of the role of the state in a modern mixed economy; its roles, measurement and accountability. Topics include: welfare theory, theory of public goods, cost-benefit analysis, budgetary issues, taxation theory and practice, insurance markets, and social insurance.

Prerequisite: ECON 201

ECON 372 15 Points
Energy and Environmental Economics
An overview of the theory and empirical practice of economic analysis as it is used in evaluating energy and environmental problems. Topics covered include natural resource economics, as well as electricity and oil markets. Other topics include environmental policy (pollution and economic efficiency); analysis of economic instruments, such as tradable property rights and pollution taxes; the allocation of non-renewable and renewable resources; and contemporary issues of growth, sustainable development and climate change.

Prerequisite: ECON 201

ECON 374 15 Points
Special Topic: Urban Economics
Explores the growth and impact of cities, as well as the role
of policies that impact their form, structure and economy. What explains the explosive growth in urbanisation over the last 100 years? How do firms and individuals decide where to locate? How can we address current urban problems like crime, poverty, traffic congestion, sprawl, gentrification and pollution? 
Prerequisite: ECON 201

ECON 723 15 Points

Econometrics 2
An overview of time series econometrics, designed to introduce a range of material in stationary and nonstationary time series including: modern model determination methods, unit root and co-integration theory, non-linear time series analysis and continuous time models. Students will be introduced to practical time series forecasting methods.

ECON 741 15 Points

Topics in International Trade
Advanced treatment of selected developments in international trade theory including the link between trade and development and contemporary issues relating to trade strategies and structural adjustment policies with an emphasis on developing countries.

ECON 742 15 Points

Trade Policy
Economic analysis of current trade policy issues, with an emphasis on the theoretical, empirical and policy dimensions of international trade negotiations in the WTO, and the spread of preferential trading arrangements such as free trade areas.

ECON 751 15 Points

Advanced International Finance
A study of open-economy macroeconomic topics (theoretic, empirical and policy oriented), including models of exchange rate behaviour.

ECON 761 15 Points

Public Economics and Policy
Fundamental theorems of public economics, market failure, public choice theory, and distribution; the role of the economist in the making of public policy in a modern mixed economy, ideologies and critiques of the market model, the economics of the welfare state, welfare and tax reform in New Zealand, and applied poverty issues.

ECON 771 15 Points

Economics of Development
Contemporary issues in development economics. Topics include: the way economists’ approaches to leading development issues have evolved to the present; and leading development issues, including sources of economic growth, the role of population, human capital and innovation, labour and migration, international trade and foreign aid, and strategies for sustainable economic development. There is emphasis on the ‘Newly Industrializing Countries’ and other Third World developing countries.

ECON 772 15 Points

The History of Economic Thought
Covers a selection of topics in the history of economic ideas, including classical economics, post-classical microeconomics and macroeconomics including Keynesian, Austrian, institutional economics and behavioural economics. Topics in twentieth century economics and twentieth century debates on international monetary reform will be given emphasis.
ECON 781 15 Points
Experimental Economics
Controlled decision-making experiments have become an integral part of economics, more so with the advent of behavioural economics, which incorporates key insights from other social sciences to add realism to the Homo Economics model of human behaviour. This course will cover a selection of topics in experimental and behavioural economics with applications to commercial decision-making and public policy.

ECON 783 15 Points
Energy Economics
Discusses issues related to the economics of climate change including peak oil as well as regulation and market design issues for energy and carbon markets. Natural resource economics and electricity markets are covered in depth.

ECON 784 15 Points
Special Topic: Health Economics
Examines contemporary issues in health economics including inequalities in healthcare access, utilisation and health outcomes. Application of economic frameworks and theory to inform decision-making around resource allocation and broader issues of health financing, especially in relation to current New Zealand health reforms and delivering equity under Te Tiriti o Waitangi as well as the United Nations Sustainable Development Goals.

Finance

Stage II
FINANCE 251 15 Points
Financial Management
Focuses on practical aspects of corporate finance. Topics covered include: concepts of value creation, risk and required rates of return, financial maths, capital budgeting, capital structure and dividend policies.
Prequisite: ACCTG 102, and 15 points from ECON 221, ENGSCI 211, STATS 101, 108

FINANCE 261 15 Points
Introduction to Investments
Markets for shares, fixed income securities, options and futures. Methods of valuing shares, fixed income securities, options, and futures. Simple techniques of hedging risk. Portfolio diversification. Portfolio evaluation.
Prequisite: FINANCE 251 or 180 points in a BSc major in Mathematics or Statistics with a GPA of at least 5 and a B or higher in MATHS 130

Stage III
FINANCE 300 15 Points
Directed Study

FINANCE 351 15 Points
Advanced Financial Management
A rigorous study of advanced capital budgeting procedures, more difficult aspects associated with capital structure and dividend decisions, mergers and acquisitions. Case study applications of financial management are used. A continuation of the material introduced in FINANCE 251.
Prequisite: FINANCE 251

FINANCE 361 15 Points
Modern Investment Theory and Management
Portfolio theory and equilibrium asset pricing models and empirical tests. Portfolio management (forecasting, construction, administration and evaluation) including issues relating to fixed interest and international equity investment. A continuation of the material introduced in FINANCE 261.
Prequisite: FINANCE 261 and 15 points from ENGSCI 211, MATHS 208, 250

FINANCE 362 15 Points
Risk Management
Examines theoretical and practical aspects of risk management with an emphasis on the effective use of futures, options and other financial derivatives to control market risk exposure. Reviews no-arbitrage methods used to value financial futures and options, including the Black-Scholes model and binomial tree numerical methods.
Prequisite: FINANCE 261 and 15 points from ENGSCI 211, MATHS 208, 250

FINANCE 383 15 Points
Banking and Financial Institutions
Provides a thorough understanding of the role of banks and other financial institutions in the economy. It focuses on the problems of risk management and regulation with a particular emphasis on problems, crises and most importantly the Global Financial Crisis.
Prequisite: FINANCE 251 or ECON 201 and 211

FINANCE 384 15 Points
Special Topic

Postgraduate 700 Level Courses
FINANCE 700 15 Points
Directed Study

FINANCE 701 15 Points
Research Methods in Finance
The theory and application of modern research methods in
finance. The content will include the philosophy, process and design of scientific research. Prior knowledge of basic statistical techniques is assumed.

Restriction: ACCTG 701

**FINANCE 702 15 Points**

**Governance Issues in Finance**

An introduction to the economic literatures relating to property rights, transaction cost economics, and agency theory. Application of these notions to the way in which organisations are structured. Identification of why some transactions are internalised and some are undertaken through markets. The application of these ideas to finance.

Restriction: ACCTG 702

**FINANCE 703 15 Points**

**Special Topic**

**FINANCE 705 15 Points**

**Empirical Finance**

Examines the theory and application of modern research methods in finance. Through exposure to a range of contemporary research issues students will develop a basic framework of how to conduct research, and an overview of some of the pitfalls.

**FINANCE 751 15 Points**

**Modern Corporate Finance**

Examines fundamental principles of corporate financial theory and discusses current issues, seminal theoretical contributions and empirical evidence regarding those theories. Specific topics will be chosen from capital structure, dividend policy, security issuance, mergers and acquisitions, corporate control and initial public offerings.

**FINANCE 761 15 Points**

**Portfolio Theory and Investment Analysis**

Advanced coverage of contemporary issues in investments through readings of classic theoretical articles and recent empirical studies. Topics include: market efficiency and empirical anomalies, risk-return relationships and alternative investment vehicles and strategies. This course builds on material covered in FINANCE 261 and 361 and assumes the student has completed MATHS 208 or its equivalent.

**FINANCE 762 15 Points**

**Risk Management**

The theory and practice of financial risk management for portfolio managers with an emphasis on defining and measuring market risk. This course builds on material covered in FINANCE 362 and MATHS 208 with extensions to include the use of futures, options and other financial derivatives to manage market risk.

**FINANCE 781 15 Points**

**Financial Machine Learning**

Students are expected to apply contemporary machine learning methods to topics in finance. The course focuses on the design and implementation of machine learning solutions in the field of finance.

**FINANCE 782 15 Points**

**Special Topic**

**FINANCE 788 30 Points**

**FINANCE 788A 15 Points**

**FINANCE 788B 15 Points**

**Research Project - Level 9**

*Restriction: FINANCE 789*

To complete this course students must enrol in FINANCE 788 A and B, or FINANCE 788

**FINANCE 791 60 Points**

**FINANCE 791A 30 Points**

**FINANCE 791B 30 Points**

**Dissertation - Level 9**

To complete this course students must enrol in FINANCE 791 A and B, or FINANCE 791

**FINANCE 794A 30 Points**

**FINANCE 794B 60 Points**

**Thesis - Level 9**

To complete this course students must enrol in FINANCE 794 A and B

**FINANCE 796A 60 Points**

**FINANCE 796B 60 Points**

**Thesis - Level 9**

To complete this course students must enrol in FINANCE 796 A and B

### Global Management and Innovation

#### Postgraduate 700 Level Courses

**GLMI 700 15 Points**

**Directed Study**

**GLMI 701 15 Points**

**Competing Internationally**

Examines why, when, and how firms compete internationally. Utilises concepts and research on the firm, cluster and/or industry in international competition, the role of its resources and capabilities, and its adaptation to diverse operating contexts. Includes analysis of internationalising small and medium sized enterprises, mini multinations, and global enterprises.

*Restriction: INTBUS 701*

**GLMI 702 15 Points**

**International Management**

Focuses on management research and practice with a cross-border or cross-cultural dimension. Includes topics such as: forms and management practices in cross-border business; international human resource management; managing knowledge flows across borders; and the cross-border differential impact of culture and institutions on firms.

*Restriction: INTBUS 702*

**GLMI 703 15 Points**

**Global Strategy**

Examines the development and implementation of strategies by global firms. Focuses on strategy formation, strategic management processes, and evaluation in international, multinational and transnational organisations. Includes analysis of strategies such as foreign entry mode options, innovation and production networks.

*Restriction: INTBUS 703*

**GLMI 704 15 Points**

**Challenges of Globalisation**

Discusses the causes of globalisation and its consequences for firms, and other groups and actors. Investigates
challenges and diverse approaches to navigating the globalising arena. Examines a variety of market and non-market governance structures that create incentives and opportunities for international firms.

Restriction: INTBUS 706

GLMI 705 15 Points
People, Performance and Well-being
Examines the employment relationship through tensions at the intersection of human resource management, organisational performance and employee well-being. Explores strategies associated with building, developing and motivating workforces and analyses ways of improving mutuality in employment relationships.

Restriction: MGMT 711, 712

GLMI 706 15 Points
Working in an Age of Uncertainty
Explores the contemporary environment which contains high levels of uncertainty, stemming from new technologies and changes in economy and society. Critically examines issues confronting organisations and work in these fast-paced, fluid and complex contexts, such as power and voice, meaning and dignity, and alternative forms of organising.

GLMI 707 15 Points
Responsible Business and Sustainability
Engages with pressing contemporary topics such as corporate social responsibility, sustainability, ethical business and governance, Māori and indigenous leadership, the stakeholder approach to responsible business, and diversity and inclusiveness in organisations.

Restriction: MGMT 733, 737

GLMI 708 15 Points
Critical, Creative and Strategic Thinking
Focuses on learning and applying ideas, processes and technologies to critical, creative and strategic thinking in fields related to leadership, management and change. Emphasises building the confidence, dexterity and set of practices to question and create new pathways for collaborative and systemic challenges.

GLMI 709 15 Points
Creating Global Ventures
Examines the issues involved in forming and operating a knowledge-intensive company that is global from inception. Includes topics such as assessing opportunities, developing a business model, forming a team and gathering the resources to launch a global new venture.

Restriction: INTBUS 705, MGMT 715

GLMI 710 15 Points
Innovation and Knowledge Management
Examines the role of innovation and knowledge in business profitability and growth. Includes knowledge as a foundation for innovation, core knowledge processes in organisations, understanding innovation processes in uncertain and complex environments, and collaborative innovation.

Restriction: MGMT 721

GLMI 711 15 Points
Strategic Entrepreneurship and Innovation
Examines the challenge of strategising in highly uncertain situations such as knowledge intensive start-ups and introduction of new products or processes. Reviews key theories of strategy and strategising, and applies tools for strategic management and analysis.

Restriction: MGMT 726

GLMI 712 15 Points
Understanding and Managing Creativity
Explores theories and research on creativity in both well-established and entrepreneurial organisations at different levels of analysis – individual, groups and firms. Includes topics such as factors impacting creativity, how to manage creative teams and individuals, and how to develop a creative climate in the organisation.

GLMI 750 15 Points
Contemporary Themes in Global Management and Innovation
Individualised readings and coursework from any field related to Global Management and Innovation.

GLMI 751 15 Points
Directed Readings in Global Management and Innovation

GLMI 780 30 Points
Research Project - Level 9

GLMI 791 60 Points
Thesis - Level 9

GLMI 794A 30 Points
Dissertation - Level 9

To complete this course students must enrol in GLMI 791 A and B.

GLMI 794B 60 Points
Thesis - Level 9

To complete this course students must enrol in GLMI 794 A and B

---

Information Governance

Postgraduate 700 Level Courses

INFOGOV 700 15 Points
Environment of Information Governance
Key legal and governance concepts, practices, structures and mechanisms are studied. This includes a focus on data protection issues. Legal and de facto rules are analysed including their creation, reform and enforcement; business agreements and their interpretation are introduced and relevant standards are evaluated.

INFOGOV 701 15 Points
Information Research in Practice
Develops and applies general and context-specific research methods. Identifies and resolves key research issues that arise for businesses and organisations. Explores application of research methodologies.

Corequisite: INFOGOV 700

INFOGOV 702 15 Points
Information Ethics
Examines ethical, cultural and policy-related concepts related to information, from generation, collection and storage to analysis, application and dissemination, including review and feedback mechanisms. The concepts include
corequisite: INFOGOV 700

INFOGOV 703 15 Points
Impact of New Technologies
Explores themes in the development, usage and regulation of new technologies. Examines a range of technologies such as blockchain technology, and other distributed ledger technologies with reference to compliance, including their implementation and impact in industry and on society. The legal issues arising from the use of smart contracts are investigated.
Corequisite: INFOGOV 700

INFOGOV 704 15 Points
Artificial Intelligence Regulation - Level 9
Critically analyses the legal and policy issues created by advanced artificial intelligence technologies, including regulatory response. Evaluates efficiency, proportionality and necessity of existing or suggested regulation, and develops proposals for the regulation of future challenges. Develops independent research skills including an ability to work in multidisciplinary groups and communicate findings to audiences from a range of disciplinary and jurisdictional backgrounds.
Prerequisite: INFOGOV 700

INFOGOV 705 30 Points
Information Privacy: Theory and Application - Level 9
Critically evaluates the frameworks protecting personal information including their theoretical underpinnings and global reach. Explores the challenges to regulatory frameworks from rapid technological and social changes and encourages independent research as to how these may be addressed. Considers how leadership and accountability mechanisms can impact an organisation's ability to adapt information privacy requirements to unpredictable, complex and ill-defined environments.
Prerequisite: INFOGOV 700

INFOGOV 706 15 Points
Cybersecurity Techniques and Governance
Focuses on information security strategies to address cybercrime. Includes analysis and critique of basic technological and managerial issues related to information security. Related regulations and standards will be also discussed.
Corequisite: INFOGOV 700

INFOGOV 707 15 Points
Dispute Resolution Techniques
Addresses a range of appropriate dispute resolution mechanisms to address complaints. Techniques and best practice for facilitating negotiation of disputes through mediation including skills to assist dispute resolution. Explores negotiation theories, styles, strategies, tactics, and techniques.
Corequisite: INFOGOV 700

INFOGOV 708 15 Points
Intellectual Property and Information
Examines the information governance implications of data-driven innovation and its impact on intellectual and cultural property protection. Explores intellectual and cultural property management strategies to address public policy issues related to information governance.
Corequisite: INFOGOV 700

INFOGOV 709 15 Points
Access to Information
Explores access to information from a global and national perspective. Critically evaluates individuals' right to access to information. Examines the interrelationship between access to information, privacy and data governance. Addresses techniques and procedural rules to evaluate the validity of requests for access to information and grounds for refusal.
Corequisite: INFOGOV 700

INFOGOV 710 15 Points
Sector Regulation
Explores industry-specific information governance requirements. Critically evaluates information governance across public and private sectors. Examines key industry regulations including information governance in healthcare, marketing and insurance. Analyses the role of different regulators in the public sector that address information governance.
Corequisite: INFOGOV 700

INFOGOV 711 15 Points
Special Topic
INFOGOV 712 15 Points
Special Topic
INFOGOV 720 30 Points
INFOGOV 720A 15 Points
INFOGOV 720B 15 Points
Information Governance Project - Level 9
A research-informed consultancy project employing appropriate theories and methodologies to develop and present solutions for issues in information governance.
Prerequisite: INFOGOV 701, 705
To complete this course students must enrol in INFOGOV 720 A and B, or INFOGOV 720

INFOGOV 780 30 Points
INFOGOV 780A 15 Points
INFOGOV 780B 15 Points
Research Project - Level 9
Prerequisite: INFOGOV 701, 705
To complete this course students must enrol in INFOGOV 780 A and B, or INFOGOV 780

Information Systems

Stage I

INFOSYS 110 15 Points
Digital Systems
Explores how information systems and analytical tools help organisations to innovate, optimise and deliver value. Examines how the development and implementation of systems and technologies coordinate and manage information, people, and processes within data governance and privacy frameworks.

Stage II

INFOSYS 220 15 Points
Business Systems Analysis
An Information Technology (IT) professional must understand how IT systems are constructed and tested and how quality is assessed, in order to manage, develop or provide innovative business solutions. Business Systems Analysis introduces systems development process concepts
and activities, with a strong focus on understanding the problem and solution through modelling.
Prerequisite: 15 points from COMPSCI 101, 105, 107, 130, INFOMGMT 192, INFOSYS 110
Restriction: INFOMGMT 291

INFOSYS 221 Programmed Business
Focuses on enhancing Business/IT professional skills. Develops and applies problem-solving and algorithmic skills through pseudocode and fundamental programming constructs. Applies a design thinking methodology of empathise, ideate, design, prototype and test to build applications relevant to current business domains.
Prerequisite: INFOSYS 110
Restriction: COMPSCI 101, 130

INFOSYS 222 Database Systems
Managers and other knowledge workers find that many of their duties revolve around accessing, organising, and presenting organisational and external information. The ability to develop and use computer databases is becoming a critical skill that is required in many disciplines. These skills are developed through an introduction to data modelling, relational theory, database design, and the management of databases.
Prerequisite: 15 points from COMPSCI 101, 105, 107, 130, INFOSYS 110

Stage III

INFOSYS 300 Robotic Process Automation
Examines Robotic Process Automation (RPA) Systems and how RPA fits into the current information technology setups and helps the modern organisation address business process-related problems and opportunities. Examines the benefits and limitations of RPA and how it differs from other business solution technologies.
Prerequisite: 30 points at Stage II in Accounting, Business Analytics, Computer Science, Engineering Science, Information Management, Information Systems, Marketing, Operations and Supply Chain Management, Software Engineering

INFOSYS 301 Directed Study

INFOSYS 302 Special Topic

INFOSYS 303 Solutions Architecture
Information systems specifically designed for organisational IT environments provide competitive advantages. Focuses on using high quality information architecture to address business requirements including the iterative use of system analysis, design and prototyping. Develops familiarity with state-of-the-art modelling, development, and deployment environments, and solutions for designing business systems architecture.
Prerequisite: INFOSYS 220, and BUSAN 201 or INFOSYS 222
Restriction: INFOSYS 320

INFOSYS 304 IT Infrastructure
Modern IT infrastructure relies on a functionally hierarchical network designed around the OSI model. Explores internet-oriented backbones and high-speed access infrastructure, and uses the TCP/IP suite, cloud infrastructure and digital services, and applications to understand basic and business-oriented infrastructure challenges such as capacity planning, architecture design, and scaling of IT infrastructure and applications.
Prerequisite: 15 points from COMPSCI 230, INFOSYS 220, and 15 points from BUSAN 200, 201, COMPSCI 215, 235, INFOSYS 222, INNOVENT 203, OPSMGT 258, SCIGEN 201
Restriction: INFOSYS 224, 322, 339

INFOSYS 305 Digital Strategy and Transformation
Explores strategic opportunities for delivering value through digital technologies. Examines best practices to ensure the effective development and operation of digital capabilities in the global context by aligning business and information technology strategies, controlling risks, and complying with regulatory requirements and standards.
Prerequisite: INFOSYS 220
Restriction: INFOSYS 323

INFOSYS 306 Digital Business and Innovation
Explores the prominent IT-enabled innovative business models and digital platforms that result in the digital transformation of industries, businesses, products and services. Examines the strategic and economic foundations of digital platforms and models. Discusses the design, coordination and management of the ecosystems underpinning the digital business models and platforms. Prerequisite: 30 points at Stage II in either Accounting, Business Analytics, Computer Science, Engineering Science, Information Management, Information Systems, Marketing, Operations and Supply Chain Management, Software Engineering
Restriction: INFOSYS 323, 338, 344

INFOSYS 307 Special Topic

INFOSYS 310A 15 Points

INFOSYS 310B Business Project
A project in conjunction with an industry partner. The projects are to be in the areas of Business Analytics, Information Systems, and Operations and Supply Chain Management. The course encourages students to demonstrate skills and knowledge obtained in previous courses and to develop the capabilities of solving real-life problems.
Prerequisite: 30 points at Stage II in Business Analytics, Computer Science, Information Systems, Operations and Supply Chain Management and a GPA of 5.0 or higher
Restriction: INFOSYS 340, 342, 345
To complete this course students must enrol in INFOSYS 310 A and B

INFOSYS 321 Enterprise Systems
Examines cross-functional integrated computer-based information systems, known as Enterprise Resource Planning (ERP) systems, designed to support an organisation's information needs and operations. Considers issues associated with the selection, analysis, design, implementation and configuration of such systems. Investigates transaction processing, management information and decision support across an organisation’s
business processes. Explores the characterisation of problems, in terms of process and information models. 
Prerequisite: 15 points at Stage II in Accounting, Business Analytics, Computer Science, Engineering Science, Information Management, Information Systems, Marketing, Operations Management, Software Engineering

INFOSYS 341
Information Security in Business
An overview of activities, methods, and procedures used by business to establish robust information security policies. Topics include: security requirements; security management models and practices; risk management; identification and authentication; access control; information security technologies and encryption. In addition, key legal and ethical issues are discussed. Includes practical exercises using certain key technologies to assist learning. 
Prerequisite: 30 points at Stage II in either Business Analytics, Computer Science, Information Systems

Postgraduate 700 Level Courses

INFOSYS 700
Digital Innovation
New information technologies are transforming how innovations are created, distributed, and commercialised. Focuses on the practices for digital innovation creation, distribution, and commercialisation as well as the digital strategies needed to manage such digital innovations.

INFOSYS 702
Special Topic

INFOSYS 703
Managing with Artificial Intelligence
Focuses on a business perspective of the use of Artificial Intelligence (AI) tools and solutions in organisations. Explores how different AI-enabled tools and solutions contribute to organisational and societal objectives and values. Aims to prepare students for jobs that involve technology consultancy and management of technology, with specific focus on AI as an emergent technology.

INFOSYS 704
IT Consultancy
Focuses on developing IT consultancy skills by introducing the lifecycle of IT consultancy project and best practices per each phase. Prepares students for IT consultancy roles that involve business and technology analysis, change management, implementation and performance management.

INFOSYS 705
Directed Study

INFOSYS 706
Digital Sustainability
Informs students about the opportunities in harnessing technology to address the UN SDGs. The course will be guided by the digital sustainability framework (digital maturity, governance, orientation and partnership) and will use real use-cases to develop solutions by students.

INFOSYS 707
Special Topic

INFOSYS 708
Special Topic

INFOSYS 720
Information Systems Research
A substantive review of research in the discipline of information systems. Behavioural, strategic and social issues relating to the design, implementation and impact of information technology applications will be studied.

INFOSYS 722
Data Mining and Big Data
Data mining and big data involves storing, processing, analysing and making sense of huge volumes of data extracted in many formats and from many sources. Using information systems frameworks and knowledge discovery concepts, this project-based course uses cutting-edge business intelligence tools for data analytics.

INFOSYS 727
Advanced Information Security
Focuses on technical security issues of the systems used in today's information technology applications. Explores the practical issues of identification and authentication, security of operating systems, cryptography, disaster recovery and contingency planning, and discusses the relevant theoretical models. Managerial aspects of information security issues as well as legal and ethical issues arising from protecting computer files both from a New Zealand and global perspective will be addressed. The course follows the content of CISSP certification.

INFOSYS 732
Readings in Information Systems
An independent study of the research literature in a particular area of information systems. An opportunity to investigate a topic in depth, and gain valuable research skills. The particular area of research must be jointly agreed upon by the lecturer and students, and approved by the Head of Department.

INFOSYS 735
Cloud Computing Architecture
Cloud Computing Architecture combines practical skills development with broader research and critical thinking skills to enable the student to analyze concepts relating to cloud computing. The curriculum is delivered through instructor-led classes, knowledge assessments, and hands-on labs designed to develop technical expertise in cloud computing and preparing students for a career in cloud solutions.

INFOSYS 750
Research Methods – Quantitative
A comprehensive review of the methodological issues in systems research, including detailed coverage of univariate and multivariate data analysis. 
Prerequisite: 15 points from STATS 201-255, or equivalent 
Restriction: MKTG 703, 704

INFOSYS 751
Research Methods – Qualitative
Focus is on the conduct and evaluation of qualitative research. Reviews various qualitative research methods and ways of analysing qualitative data and the challenges of writing up qualitative research work for conferences and peer-reviewed academic journals. 
Restriction: MKTG 703, 704

INFOSYS 757
Project Management and Outsourcing
Discusses tools and techniques for managing complex projects. Particular focus is given to balancing competing demands among scope, time, cost, and quality. Communication tools for facilitating relationships between the project team and customers are also discussed as well
as between client and vendors on information technology outsourcing projects in onshore, nearshore, offshore and web-based services. Restriction: OPSMGT 757

INFOSYS 788 Research Project - Level 9
Prerequisite: INFOSYS 750 or 751
Restriction: INFOSYS 789

INFOSYS 791 60 Points
INFOSYS 791A 30 Points
INFOSYS 791B 30 Points

Dissertation - Level 9
To complete this course students must enrol in INFOSYS 791 A and B, or INFOSYS 791

INFOSYS 794A 30 Points
INFOSYS 794B 60 Points

Thesis - Level 9
To complete this course students must enrol in INFOSYS 794 A and B

INFOSYS 796A 60 Points
INFOSYS 796B 60 Points

MCom Thesis in Information Systems - Level 9
To complete this course students must enrol in INFOSYS 796 A and B

Innovation

Stage I

INNOVATE 100 15 Points
INNOVATE 100G 15 Points

Innovation through Design
Introduces design thinking and develops a user-centred approach to innovation, emphasising the importance of a deep understanding of user needs throughout an iterative ideation and prototyping process. Utilising the maker space at the Unleash Space and a range of digital tools, students will develop practical making and early stage prototyping skills.

Innovation and Entrepreneurship

Stage II

INNOVENT 203 15 Points
INNOVENT 203G 15 Points

The Entrepreneurial Mindset
Stimulates new ways of thinking about enterprising behaviour in a multi-disciplinary manner relevant to understanding and addressing real world challenges of today. Introduces skills needed to identify and assess opportunities, solve problems creatively, communicate persuasively, work effectively in teams, and understand individual and organisational impact. Prerequisite: 15 points from BUSINESS 102, 103, 112, 113, MGMT 101, or 90 points passed, or 60 points from Part I of the BE(Hons) Schedule

INNOVENT 204 15 Points
Understanding Entrepreneurial Opportunities
Applies processes for creating, evaluating and realising entrepreneurial opportunities. Presents creative and analytical approaches to engage with different stakeholders and make decisions under conditions of uncertainty in a variety of entrepreneurial contexts. Skills to assess opportunities and associated business models and communicate a credible and compelling business case are introduced. Prerequisite: BUSINESS 102 or 103 or 112 or 113, or INNOVATE 100 or 100G or SCIGEN 201
Restriction: INNOVENT 202

Stage III

INNOVENT 300 15 Points
Directed Study

INNOVENT 305 15 Points
Special Topic
Prerequisite: 15 points from ENGG3 302, 303, INNOVENT 201, 203, 204, MGMT 202, 211, SCIGEN 201

INNOVENT 307 15 Points
Ecosystems for Innovation and Entrepreneurship
Introduces the eco-system concept to examine ways that innovating firms interact with various actors to build and sustain viable global enterprises. Actors include: suppliers, competitors, investors, users/customers, governments and universities. Develops the analytical skills needed to identify different actors for potential partnerships and strategies to engage with them. Prerequisite: 15 points from ENGG3 302, 303, INNOVENT 201, 203, 204, MGMT 202, 211, SCIGEN 201

INNOVENT 308 15 Points
Advanced Entrepreneurship
Extends entrepreneurial knowledge and applies advanced skills in the context of a student defined project focused on an innovative opportunity with international potential. Develops an integrated understanding of the complex interactions within a successful interdisciplinary team and the requirements for engaging with experts relevant to the opportunity. Prerequisite: INNOVENT 204
Restriction: INNOVENT 303

INNOVENT 309 15 Points
Responsible Innovation
Methods, tools and techniques for responsible innovation and new product development. Frameworks for managing the creative front end of innovation, and anticipating social and ethical issues associated with green and clean technology, circular economy, and frugal innovation trends. Prerequisite: 15 points from ENGG3 303, INNOVENT 201, 203, 204, SCIGEN 201
Restriction: INNOVENT 302

INNOVENT 310 15 Points
Women in Entrepreneurship
Explores opportunities and challenges faced by women entrepreneurs in today’s global economy. Examines issues related to gender bias, entrepreneurial finance, and growing the entrepreneurial venture. Develops skills for starting and growing an entrepreneurial venture through collaborative, real world opportunity-based assessments. Prerequisite: Either 15 points from INNOVENT 201, 203, 204, SCIGEN 201, or 60 points at Stage II
International Business

Stage I

INTBUS 151 15 Points
INTBUS 151G 15 Points

Business across Borders
Business on a global scale presents unique challenges and unrivalled opportunities to companies equipped to cross national boundaries. Set against a background of current events, the course explores the influence of international trade and multinational corporations on the contemporary global economy.
Restriction: BUSINESS 101, 111, INTBUS 201, 202

Stage II

INTBUS 201 15 Points
Foundations of International Business
Explores the distinctive nature of business conducted beyond the boundary of the domestic market. Examines how firms reach multinational scale while exposed to the turbulence and complexity of international political and economic forces.
Prerequisite: Either 15 points from BUSINESS 102, 112, 113, MGMT 101 and 15 points from BUSINESS 115, ECON 111, 151, 152, 191, or 15 points from ECON 111, 151, 152 and 30 points in International Relations and Business
Restriction: INTBUS 210, 211

INTBUS 202 15 Points
Foundations of Strategy
Examines how firms compete. Focuses on the frameworks and tools needed to make sense of the competitive landscape in order to formulate and implement strategies. Considers the challenges and constraints that managers face in increasingly complex environments and industries.
Prerequisite: 15 points from BUSINESS 102, 112, 113, MGMT 101, or 15 points from ECON 115, 151, 152 and 30 points in International Relations and Business

Stage III

INTBUS 300 15 Points
Firms across Frontiers
Examines international business theories underlying the existence and development of international firms. Analysis of contemporary international business issues.
Prerequisite: BUSINESS 200 or INTBUS 201
Restriction: INTBUS 301, 302

INTBUS 305 15 Points
Governing International Business
Firms that compete internationally need to employ political strategies and understand the governing institutions that affect their ability to do business. Examines the interactions between international firms and governing institutions, and explores the implications of the international regulatory framework for specific industries.
Prerequisite: BUSINESS 200 or INTBUS 201
Restriction: INTBUS 304

INTBUS 306 15 Points
Global and Regional Business
Focuses on the conduct of business in the world's regions. Examines globalisation, regionalisation and market integration and their impact on firms.
Prerequisite: BUSINESS 200 or INTBUS 201
Restriction: INTBUS 310, 311, 312, 313

INTBUS 307 15 Points
International Management and Strategy
Examines theories and practices of management in a cross-border context. Focuses on strategies and their implementation in international markets and how management changes when done internationally.
Prerequisite: INTBUS 201 or 202 or 210 or 211
Restriction: INTBUS 303

INTBUS 308 15 Points
Special Topic
Prerequisite: INTBUS 201 or 202 or 210 or 211

INTBUS 309 15 Points
Directed Study

Leadership and Governance

Postgraduate 700 Level Courses

LDGOV 701 15 Points
21st Century Governance
Explores core thinking and skills associated with governance in a New Zealand context (corporate, Not-For-Profit, project and Indigenous) including the role, function and dynamics of boards, duties of directors, regulatory and legal frameworks, and board practice and engagement.

LDGOV 702 15 Points
Contemporary Debates in Leadership
Explores contemporary challenges confronting leadership including ethics, sustainability, diversity, complexity, partnership and power sharing, particularly related to Te Tiriti o Waitangi, collaborative and network dynamics.

LDGOV 703 15 Points
Leadership in Governance
Integrates leadership and governance thinking and practice through a focus on decision-making, dynamics, relationships and processes in a board context. Pays particular attention to leadership at three levels: team leadership at board level, the Chair’s leadership of the board and strategic leadership by the board.

LDGOV 704 15 Points
Current Issues in New Zealand Governance
Explores developments in governance applied in a New Zealand context focussing on issues around the nature, role and purpose of corporations and their governing bodies and developments such as corporate purpose, integrated reporting, Environmental, Social and Governance (ESG) and shareholder/stakeholder/entity primacy. Includes consideration of Te Tiriti o Waitangi, application of Te Ao Māori principles and governance of Small/Medium Enterprises (SMEs).

LDGOV 705 15 Points
International Developments in Leadership and Governance
Explores international issues and developments, analyse research and innovations, and evaluate trends in the area of leadership and governance. Topics of focus may vary depending on current shifts in discourse on corporate governance and leadership but may include the social license for corporations to operate, Environmental, Social and Governance (ESG) and long term value, shifts in corporate governance, networked configurations, system dynamics, and boundary spanning.
LDGOV 710 15 Points
Special Topic

LDGOV 711 15 Points
Special Topic

Management

Stage II

MGMT 211 15 Points
Understanding Organisations
Explores organisations, different types and forms, and the issues that they need to consider. Questions the role and purpose of organisations within broader social systems. Begins to develop critical approaches and skills in organisational analysis.
Prerequisite: Either 15 points from BUSINESS 102, 112, 113, MGMT 101, or 30 points at Stage I from Anthropology, Communication or Sociology

MGMT 223 15 Points
Understanding Work and People
Models of work organisation, reform and performance, including industrial and post-industrial forms of work. Employee responses to work and the employment relationship. Workforce diversity.
Prerequisite: Either 15 points from BUSINESS 102, 112, 113, MGMT 101, or 30 points at Stage I from Anthropology, Communication or Sociology

Stage III

MGMT 300 15 Points
Management in Dynamic Contexts
Explore and reflect on the realities of management theory and practice through critically examining management challenges, from small entrepreneurial firms to large corporations.
Prerequisite: BUSINESS 200 or MGMT 202 or MGMT 211 or ENGGEN 302 or ENGGEN 303 or SCIGEN 201
Restriction: MGMT 301

MGMT 302 15 Points
Strategic Management
Examines the processes of formulating and implementing strategies, and the critical thinking behind the multifaceted role of organisations in complex business environments. Focuses on strategy issues in and between a range of commercial and public organisations, from entrepreneurial firms to multinational corporations.
Prerequisite: 15 points at Stage II in Business, International Business, Innovation and Entrepreneurship, Management, or 15 points from ENGGEN 201, 204, 303, SCIGEN 201, 301, 301G
Restriction: BUSINESS 304

MGMT 304 15 Points
Managing People
The impact of employment relationships on organisational performance and employee well-being. Principles of staffing, employee development, performance management, reward, diversity management, and employment negotiation.
Prerequisite: MGMT 211 or 223

MGMT 309 15 Points
Organisational Ethics and Sustainability
Considers how organisations can responsibly negotiate the complex demands of changing cultural values, ethical perspectives and real world conditions. Particular emphasis will be placed on strategic planning for a sustainable future that moves beyond 'Business as Usual'.
Prerequisite: BUSINESS 200 or MGMT 211 or MGMT 231 or any 30 points at Stage II in Ethics
Restriction: MGMT 331

MGMT 314 15 Points
Critical Issues in Organisations
Contemporary organisations in a changing context. Each semester the course engages with three key issues affecting organisational life, across levels of organisational analysis. Topics may be drawn from technology, structure and design, power and politics, the structure of work and occupations, or other perspectives.
Prerequisite: BUSINESS 200 or MGMT 211
Restriction: MGMT 311

MGMT 320 15 Points
Special Topic: Management and Games: Integrative Capstone
Prerequisite: BUSINESS 200 or MGMT 202 or 211

MGMT 325 15 Points
Directed Study

Marketing

Stage I

MKTG 151 15 Points
MKTG 151G 15 Points
Essential Marketing
Introduces fundamental marketing ideas and skillsets. Explores the world of customer value creation and marketing communications through the eyes of marketing and creative experts. Covers current topics in marketing including digital and social media, social entrepreneurship, big data analytics, green marketing and sustainability.
Restriction: BUSINESS 111, 112, MKTG 203

Stage II

MKTG 202 15 Points
Marketing Research
Focuses on the critical role and importance of information in marketing. Covers the fundamental concepts of marketing research in traditional and digital environments and examines how these can be used to assist companies in their decision-making.
Prerequisite: MKTG 201 or 203, and 15 points from ECON 221, ENGSCI 211, STATS 100, 101, 108

MKTG 203 15 Points
Strategic Marketing
A comprehensive overview of the central principles and concepts of marketing strategy and management. Highlights the challenges that marketing managers face in planning and implementing effective marketing mix strategies.
Prerequisite: 15 points from BUSINESS 102, 103, 112, 113, MGMT 101
Restriction: MKTG 201

Stage III

MKTG 300 15 Points
Directed Study
MKTG 301
Advanced Marketing Strategy
15 Points
Develops knowledge in how to analyse, implement and evaluate advanced marketing strategies. Encourages the application and consideration of marketing strategies to solve real business challenges. Nurseries a strong appreciation for how marketing connects and relates to other business disciplines.
Prerequisite: MKTG 202 and 201 or 203

MKTG 302
Advanced Marketing Research
15 Points
A case-based course in which students conduct live research for a client and work with mentors from industry. Theory and practice are intertwined to provide students with understanding and experience in key aspects of quantitative market research, including advanced questionnaire design skills, online research methods, data analytics and deriving and communicating insights.
Prerequisite: MKTG 202 and 201 or 203

MKTG 303
Consumer Behaviour
15 Points
Focuses on understanding customers. Applies psychology to how people make consumption decisions and interpret advertising. Includes a consideration of individual differences and environmental/situational influences on consumers.
Prerequisite: MKTG 201 or 203

MKTG 304
Digital Marketing
15 Points
Examines how digital devices and applications are transforming the way organisations engage with consumers and how consumers search for, compare and select products. Develops understanding of how organisations use emerging technologies and how these influence customer preference and decision-making. Builds skills in online data analytics and conducting research with an industry partner.
Prerequisite: MKTG 202 and 201 or 203

MKTG 305
Services Marketing and Management
15 Points
Focuses on services, service design, and service innovation, with the aim of developing empathy for customers and understanding the customer experience. Takes an active and process-oriented approach to achieving these aims, including the application of tools such as design thinking.
Prerequisite: MKTG 202 and 201 or 203

MKTG 306
Advertising and Branding
15 Points
Focuses on how a business can take an integrated approach to communicating with its customers and with other key stakeholders. Explores traditional tools such as advertising, sales promotion, public relations, personal selling, and direct marketing, as well as newer forms of communicating within digital and social media environments.
Prerequisite: MKTG 202 and MKTG 201 or 203, or COMMS 100, 104, MKTG 151 with a B grade or higher and COMMS 202 or 204

MKTG 308
Customer Insights
15 Points
The contemporary big-data revolution requires the integration of marketing strategy, tactical marketing insights and analytical skills. Employs real-life data sets for enhancing strategic and tactical decisions about customers and the market. Collaborates with leading business partners to develop highly sought after practical marketing skills.
Prerequisite: BUSAN 200 or MKTG 202

MKTG 309
Social and Sustainable Marketing
15 Points
Explores how marketers can contribute to a healthy, sustainable, equitable and ethical society. Discusses how marketers need to be aware of the impact of their actions, and teaches how to embed such issues into marketing decisions and use marketing for positive societal change.
Prerequisite: MKTG 201 or 203

MKTG 312
Special Topic
15 Points
Prerequisite: MKTG 202 and 201 or 203

MKTG 313
Customer Insights and Marketing Intelligence
15 Points
The contemporary big-data revolution requires the integration of marketing strategy, tactical marketing insights and analytical skills. Employs real-life data sets for enhancing strategic and tactical decisions about customers and the market. Collaborates with leading business partners to develop highly sought after practical marketing skills.

MKTG 314
Customer Value Management
15 Points
Value creation is a fundamental part of modern marketing and firms increasingly utilise technology for this purpose. Explores cutting edge theory and the practice of customer-centricity, customer relationship management (CRM), customer information management, and sales and field force automation, as well as new models of organisational relationship and customer experience management (CEM).
Prerequisite: MKTG 201 or 203

Postgraduate 700 Level Courses

MKTG 700
Developing Research Ideas in Marketing
30 Points
A critical precursor to the dissertation, this course provides the ground work to transform students into professional researchers. Working critically with the literature and being aware of ethical implications are integral parts of any research. This course provides the necessary skills related to the literature review and ethical conduct that will prepare students for carrying out their own empirical research work in marketing.
Prerequisite: MKTG 701, 703, 705
Corequisite: MKTG 704
Restriction: MKTG 788

MKTG 701
Marketing Theory and Practice
15 Points
A core course providing an introduction to marketing philosophy, theory, current debate and advancements in the field. Emphasis is on developing the critical thinking and analytical skills necessary to undertake postgraduate research.

MKTG 702
Contemporary Marketing Issues
15 Points
An advanced study of marketing theory relating to contemporary issues. Emphasis is on providing students with in-depth knowledge of key topics, and asking them to critically evaluate the field. Topics covered include anti-consumption and consumer resistance, corporate social responsibility, ethics, sustainability, and marketing strategy.
MKTG 705 15 Points
Advanced Consumer Research
A core course in the postgraduate programme, providing a foundation for a deeper understanding of buyers. This is an advanced study of fundamental theories in buyer behaviour, where both classical and contemporary theories are evaluated.

MKTG 707 15 Points
Directed Study

MKTG 710 15 Points
Advertising and Social Media
Examines advertising, with an emphasis on digital communication. Explores how digital trends, such as social media and influencers, are impacting the dynamics between consumers and firms. Develops students' critical thinking and research skills and their ability to develop solutions to advertising challenges.

MKTG 711 15 Points
Technology and Customer Relationships
Analyses and critically evaluates customer relationship management processes and provides insights into the application of digital technologies in managing customer relationships. Develops conceptual frameworks for data selection to enhance customer insights and the management of customer relationships.

MKTG 712 15 Points
Digital Marketing Strategy
Critically evaluates the processes and mechanisms of digital platforms. Develops skills in devising a digital marketing strategy, including product design and pricing.

MKTG 713 15 Points
Market Innovation and Design
Critically evaluates the processes that underlie market-based innovations. Explores key issues and tools to create market-focused innovation to transform experiences, organisations, and societies.

Māori Development

Postgraduate 700 Level Courses

MAORIDEV 720 15 Points
Whai Rawa: Māori Economies
A critical survey of one thousand years of Māori economic and business activity which examines the interaction of resources, culture, society and commerce. Considers Māori enterprise as an Area Study of developing economies such as Whenua Rangatira and the Economy of Mana.

MAORIDEV 721 15 Points
Te Whakapakari Huanga Māori: Māori Entrepreneurship
An examination of both theory and practice in the field of Māori and indigenous entrepreneurship. Participants critique theoretical models and frameworks and engage with tools and methods that help develop ideas leading to a pathway of commercialisation.

MAORIDEV 722 15 Points
Tikanga Ture mo ngā Huanga Māori: Legal Studies
Explores the role of Te Tiriti o Waitangi/Treaty of Waitangi and tikanga Māori in the legal system with an emphasis on statutory and customary law relevant to business in Aotearoa/New Zealand. Importance is placed on governance and business structures most conducive to sustainable kaupapa Māori commercial and entrepreneurial activity.

MAORIDEV 731 15 Points
Te Whakamana Rōpū Māori: Governance and Management
Analysis of the nature of Māori enterprise and Māori governance and management systems in relation to both traditional and modern governance and management theory and frameworks.
Restriction: BUSADMIN 761

MAORIDEV 732 15 Points
Whakatairanga Huanga Māori: Marketing
Customer value and value-creation in markets and the implications for marketing, marketing decision-making with a focus on Māori enterprise.
Restriction: BUSADMIN 762

MAORIDEV 733 15 Points
Tātaritanga Huhua: Quantitative Analysis
Quantitative analysis theory, techniques, and tools to support and facilitate governance and managerial decision-making, drawing on examples from mātauranga Māori or traditional Māori knowledge systems, and from Māori enterprise. Includes financial, statistical, and operational modelling.
Restriction: BUSADMIN 763

MAORIDEV 734 15 Points
Whakataikinga Tahua Huanga Māori: Accounting and Finance
Accounting practice for Māori organisations exploring the structure of accounting information. Develops skills in analysing and critically interpreting accounting and finance data that informs managerial planning, control, decision making and business valuation
Restriction: BUSADMIN 764, BUSADMIN 765

MAORIDEV 738 15 Points
Tikanga Māhere i te Ao Māori: Strategy
Principles and techniques associated with strategic thinking, planning and innovation for business growth and
sustainable economic development. Considers the practical application of strategic and mātauranga Māori theory to Māori and non-Māori organisational contexts with a focus on, achieving simultaneous social, environmental, cultural and economic value creation.

Restriction: BUSADMIN 768

Operations and Supply Chain Management

Stage II

OPSMGT 255 15 Points
Introduction to Operations and Supply Chain Management
An introduction to important decision areas in operations and supply chain management. Modelling and analytical skills will be developed and supporting techniques/tools will be introduced using spreadsheets. Common qualitative and quantitative aspects of supply chain management will be discussed.
Prerequisite: BUSINESS 111 and 15 points from ECON 221, ENGSCI 211, STATS 101, 108

OPSMGT 258 15 Points
Business Process Design
Introduces the elements of business process management through mapping and design. Emphasis is on how organisations identify, design and improve essential business processes. Includes the use of software tools to model and analyse processes for continuous performance improvements.
Prerequisite: BUSINESS 111 or INFOSYS 110 and 15 points from ECON 221, ENGSCI 211, STATS 101, 108

Stage III

OPSMGT 300 15 Points
Directed Study

OPSMGT 357 15 Points
Project Management
An introduction to the management of projects in organisations, with a particular emphasis placed on the interdisciplinary nature and broad application of projects. Topics covered include people management, organisational planning, and resource issues.
Prerequisite: 30 points at Stage II

OPSMGT 370 15 Points
Operations and Supply Chain Strategy
Investigates and explores complex and dynamic issues associated with the design and execution of operations and processes. Promotes an applied, integrated, and systemic approach towards operations across supply chains.
Prerequisite: OPSMGT 255 or ENGGEN 303

OPSMGT 371 15 Points
Business Logistics
Focuses on coordinating logistics across supply chains. Topic coverage features modelling using spreadsheets and includes transportation, forecasting, and inventory control models suitable for use in a distribution and supply chain context.
Prerequisite: OPSMGT 255 or STATS 255 or ENGSCI 255

OPSMGT 376 15 Points
Strategic Procurement
Strategic issues in procurement and supply management, covering analysis, planning, and management of supply activities. To enhance understanding of typical situations procurement managers are dealing with and the impact of their decisions on the overall performance of a supply chain the course uses a game-theoretic approach. Note: Students should be aware that several topics of the course make use of basic calculus concepts such as derivatives and maximisation problems.
Prerequisite: OPSMGT 255 or ENGGEN 303 and 30 points at Stage II

OPSMGT 384 15 Points
Special Topic

OPSMGT 385 15 Points
Special Topic

Postgraduate 700 Level Courses

OPSMGT 700 15 Points
Special Topic

OPSMGT 701 15 Points
Directed Study

OPSMGT 732 15 Points
Readings in Operations Management
A comprehensive review of the research literature in a particular area of operations management. The particular area of research must be jointly agreed upon by the lecturer and student(s) and approved by the Head of Department.

OPSMGT 741 15 Points
System Dynamics and Complex Modelling
The concepts, theories and modelling tools of system dynamics are used to deal with the dynamic complexities arising from interdependencies and interactions amongst various parts and functions within organisations and societies alike. Qualitative and computer modelling are used to gain insight and to foresee the intended outcomes as well as unintended consequences of policies and strategic decisions. All aspects of organisations including HR, IT, operations, marketing and strategy are considered and their interdependencies explored.
Restriction: INFOSYS 740

OPSMGT 752 15 Points
Research Methods – Modelling
Mathematical modelling methods in operations management research. Includes simulation techniques, Markov decision models, optimisation methods, game theoretic formulations, and other modelling methods.
Prerequisite: BUSAN 200 or OPSMGT 255 or STATS 108

OPSMGT 760 15 Points
Advanced Operations Systems
A core course in the postgraduate programme in Operations and Supply Chain Management. Provides a deeper understanding of managing internal and external supply chains. Importance of language processing in proactive improvement is emphasised.

OPSMGT 766 15 Points
Fundamentals of Supply Chain Coordination
Focuses on issues fundamental to supply chain coordination. The impact of information asymmetry, limits of information sharing, incomplete contracts, and other selected topics typically covered in separate subjects such as Contract Theory, Industrial Organisation and Implementation Theory are studied in the supply chain management context. The course will be taught from a quantitative perspective.
OPSMGT 780 15 Points  
Sustainable Transformation  
Sustainable transformation aspires to balance and integrate societal, economic and environmental dimensions. Focuses on the interrelationships and influences between the sustainability dimensions from a systems dynamics perspective where vision and strategies are translated to sustainable processes, actions, and performance. Explores sustainable transformation of individuals and families through to organisations, supply chains and society as a whole.

OPSMGT 788 30 Points  
Research Project - Level 9  
Restriction: OPSMG7 89

OPSMGT 791 60 Points  
OPSMGT 791A 30 Points  
OPSMGT 791B 30 Points  

Dissertation - Level 9  
To complete this course students must enrol in OPSMG7 91 A and B, or OPSMG7 91

OPSMGT 794A 30 Points  
OPSMGT 794B 60 Points  

Thesis - Level 9  
To complete this course students must enrol in OPSMG7 94 A and B

OPSMGT 796A 60 Points  
OPSMGT 796B 60 Points  

Thesis - Level 9  
To complete this course students must enrol in OPSMG7 96 A and B

Property

Stage I

PROPERTY 102 15 Points  
Introduction to Property  
Knowledge of how property markets work and how properties are valued, managed and financed is critical for property professionals and for understanding modern life. Key terms and definitions surrounding the property profession and introductory analyses of supply and demand characteristics unique to property markets will be key learning outcomes. Students will also learn key concepts surrounding residential property valuation and construction.

PROPERTY 103 15 Points  
Property Analytics  
Develops abilities in sourcing and analysing relevant property data to inform investment and development decisions. Applies the use of a geographic information system (GIS) and cashflow model to a practical, small-scale residential project.

Stage II

PROPERTY 211 15 Points  
Property Valuation  
As every property is unique, the valuation of property presents many challenges and has a strong influence on the financial viability of both existing buildings and the development process. General models for valuing commercial property, industrial property, and land will be introduced.  
Prerequisite: 15 points from ACCTG 101, BUSINESS 114, PROPERTY 102  
Corequisite: PROPERTY 251

PROPERTY 221 15 Points  
Property Marketing  
Effective marketing is at the core of successful property management, development and investment. Covers buyer behaviour, marketing research, segmentation and targeting, the marketing plan, the listing process and selling techniques all in the context of the property industry. Develops essential skills for independent thinking, strategic problem solving, effective teamwork and business report writing.  
Prerequisite: 15 points from BUSINESS 102, 112, 113, PROPERTY 102

PROPERTY 231 15 Points  
Property Management  
Achieving optimum performance from property assets is a multi-faceted process involving leases, financial structures, marketing, and occupier demand. Budgeting, operational expenditures, and capital expenditures will be introduced within the property context. An understanding of health and safety issues as well as leases will be provided.  
Prerequisite: 15 points from BUSINESS 102, 112, 113, PROPERTY 102

PROPERTY 241 15 Points  
Land-use Planning and Controls  
Provides an understanding of the Resource Management Act and regional and district plans and how these affect land use and subdivision as well as resource consent applications and other property processes.  
Prerequisite: 15 points from BUSINESS 115, ECON 101, 151, 152, 191, PROPERTY 102

PROPERTY 251 15 Points  
Property Finance and Investment  
Financing represents a fundamental part of how properties are purchased, developed and managed. The application of general theories of property investment, discounted cash flow, risk and return, and financial mathematics is vital for property professionals. Debt and equity financing options are discussed for residential and income-producing property and development projects.  
Prerequisite: 15 points from ACCTG 101, BUSINESS 114, PROPERTY 102

PROPERTY 261 15 Points  
Property Economics  
The supply and demand characteristics of urban developments have impacts on not only the price and availability of property, but on how we live and work. An understanding of development economics, urban policy, and land-use economics will provide students with knowledge of how the decisions of property professionals, policy makers, occupiers shape the built environment.  
Prerequisite: 15 points from BUSINESS 115, ECON 101, 151, 152, 191, PROPERTY 102

PROPERTY 271 15 Points  
Property Law  
Fundamental legal principles and issues affecting the property professional will be considered including contract law, common form contracts found in the property industry
(including leasing, transfer, and valuation) land ownership and professional liability.  
**Prerequisite:** 30 points from BUSINESS 112, 113, 114, 115, or COMLAW 101 and PROPERTY 102

**PROPERTY 281 15 Points**  
**Building Construction**  
Knowledge of construction is vital in understanding property valuation, property management and property development. Building materials, structural options, and building services have a strong influence on how a property performs both financially and functionally. Provides general residential and commercial construction knowledge and an understanding of the construction process.  
**Prerequisite:** 15 points from BUSINESS 102, 112, 113, PROPERTY 102  
**Restriction:** PROPERTY 141

**Stage III**

**PROPERTY 300 15 Points**  
**Directed Study**

**PROPERTY 311 15 Points**  
**Advanced Valuation**  
The theory and practice of valuing special categories of urban property. Topics include: valuation of CBD land and office buildings, shopping centres, hotels and leasehold land. Also covered are: statutory valuations (compulsory purchase), going-concern valuations, litigation, arbitration, and professional ethics and practice.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 331 15 Points**  
**Advanced Property Management**  
Property asset management theory through the study of its practical application in the strategic and estate management of property portfolios held in public and private ownership. The role of corporate real estate management in large organisations.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 342 15 Points**  
**Property Development**  
An introduction to the process of property development, including application of analytical methods to case studies.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 351 15 Points**  
**Advanced Property Finance and Investment**  
An understanding of how to research, analyse and advise on property financing and investment decisions is an essential analytical skill for property professionals. Topics include: asset pricing models, capital structure decision, weighted average cost of capital and adjusted present value, property as an asset class, and financing and investment strategies.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 360 15 Points**  
**Property Simulation**  
An integrated team-based capstone experience based on a property simulation requiring students to demonstrate their ability to work collaboratively as they engage in strategic decision-making.  
**Prerequisite:** 45 points at Stage III in Property  
**Restriction:** PROPERTY 361-364, 371

**PROPERTY 361 15 Points**  
**Property Industry Case**  
A challenging ‘real world’ property industry case project requiring demonstration of personal and professional skills as teams assess a situation, propose solutions and communicate recommendations.  
**Prerequisite:** 45 points at Stage III in Property  
**Restriction:** PROPERTY 360, 362, 363, 364, 371

**PROPERTY 362 15 Points**  
**Property Industry Project**  
A challenging property industry case project requiring the application of personal and professional skills in assessing a situation, proposing solutions and communicating recommendations.  
**Prerequisite:** 45 points at Stage III in Property  
**Restriction:** PROPERTY 360, 361, 363, 364, 371

**PROPERTY 363 15 Points**  
**Internship and Report**  
A project-based internship with a property company or other appropriate organisation requiring written and oral reports of findings.  
**Prerequisite:** 45 points at Stage III in Property  
**Restriction:** PROPERTY 360, 361, 362, 364, 371

**PROPERTY 364 15 Points**  
**Research Project**  
**Prerequisite:** A Grade Point Average of 5.0 or higher in 45 points at Stage III in Property  
**Restriction:** PROPERTY 360, 361, 362, 363, 371

**PROPERTY 370 15 Points**  
**Building Surveying**  
Builds the specific knowledge and skills required to work within the building surveying profession. Topics include building pathology and survey techniques, due diligence reporting, Schedules of Condition, maintenance and reinstatement obligations when leasing commercial property, terminal reinstatement assessments and reporting and law in relation to dilapidations.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 371 15 Points**  
**Property Project**  
A research project, feasibility study or structured internship on an approved topic.  
**Prerequisite:** 90 points from PROPERTY 211-281  
**Restriction:** PROPERTY 372

**PROPERTY 380 15 Points**  
**Property Issues and Trends**  
Property development and investment practices have significant consequences for economic, social and environmental outcomes. Uses relevant literature to provide a critical analysis of contemporary dynamics and problems in international and national property markets.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 382 15 Points**  
**Māori Land Issues**  
History of land conflicts in New Zealand, Waitangi Tribunal process, and development of portfolio management strategies.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 384 15 Points**  
**Property Technology**  
Develops capabilities in applying analytical tools and technologies to the analysis of issues to enhance understanding of property markets and support effective decision-making.  
**Prerequisite:** 90 points from PROPERTY 211-281

**PROPERTY 385 15 Points**  
**Special Topic**
Postgraduate 700 Level Courses

PROPERTY 700 15 Points
Directed Study

PROPERTY 713 15 Points
Property Valuation and Analysis
A review and critical analysis of literature in property valuation theory and practice. Critically evaluates issues relating to concepts, methods, standards and specialist valuation processes, and considers implications for future valuation practice.

PROPERTY 720 15 Points
Property Professional Practice and Consulting
A critical analysis of a practice situation or dilemma in an area of property practice of interest, based on a critique of property theory, literature and stakeholder engagement. Considers the impact and proposes recommendations to enhance future practice.

PROPERTY 730 15 Points
Property Innovation and Technology
Focuses on the development of innovative solutions to address challenges facing property profession. Considers best practice in the use of property technologies.

PROPERTY 743 15 Points
Property Economics and Sustainable Development
Critical analysis of the economics and institutional factors that affect urban property markets. Considers the impact of cultural diversity, sustainability, and supply of money and land in residential and non-residential property development.

PROPERTY 753 15 Points
Property Finance and Management
Focuses on advanced concepts of global markets, investment and finance and their application to inter-related property markets, as well as the advanced theories and practices in financial management. Critically evaluates financial management decisions and behaviour of participants within the property markets using case studies and financial software.

PROPERTY 785 15 Points
Special Topic
A seminar or individual study on a specialised aspect of property.
Corequisite: At least 30 points selected from PROPERTY 701-773, and 784

PROPERTY 786 15 Points
Special Topic: Money, Land and Housing

PROPERTY 789 30 Points
Research Project - Level 9
A dissertation on a topic in property approved by the Head of Department.
Prerequisite: At least 30 points selected from PROPERTY 703-763

PROPERTY 790 30 Points
Research Essay - Level 9
A dissertation on an approved topic in property.
Prerequisite: At least 30 points selected from PROPERTY 701-773, and 784

PROPERTY 791 60 Points
PROPERTY 791A 30 Points
PROPERTY 791B 30 Points
Dissertation
To complete this course students must enrol in PROPERTY 791 A and B, or PROPERTY 791

PROPERTY 794A 30 Points
PROPERTY 794B 60 Points
Thesis - Level 9
To complete this course students must enrol in PROPERTY 794 A and B

PROPERTY 796A 60 Points
PROPERTY 796B 60 Points
Thesis for MProp - Level 9
Prerequisite: PROPERTY 701
To complete this course students must enrol in PROPERTY 796 A and B

Property Practice

Postgraduate 700 Level Courses

PROPPRAC 700 15 Points
Management and Marketing
Achieving optimum performance from property assets is a multi-faceted process involving leases, financial structures, marketing, and occupier demand. Budgeting, operational expenditures, and capital expenditures will be introduced within the property context. An understanding of health and safety issues as well as leases will be provided.

PROPPRAC 701 15 Points
Sustainable Construction
Knowledge of construction is vital in understanding property valuation, property management and property development. Building materials, structural options, and building services have a strong influence on how a property performs both financially, functionally and environmentally. Provides general construction knowledge and an understanding of the construction process in context of buildings’ impact on the environment.

PROPPRAC 702 15 Points
Planning and Development
Property Development is approached from a practical perspective on the development process pathway from vision to commissioning and including the navigation of development controls and other land use restrictions in district plans. Analysis and feasibility are key skills that will be developed with case study illustration and a practical assignment. Design management, consenting, leadership, procurement and delivery will be covered including communication and sustainability.

PROPPRAC 703 15 Points
Law and Governance
Fundamental legal principles and issues affecting the property professional will be considered including contract law, common form contracts found in the property industry (including leasing, transfer, and valuation) land ownership and professional liability. Key property-focused governance concepts, practices, structures and mechanisms are studied.

PROPPRAC 704 15 Points
Property Market Dynamics
The supply and demand characteristics of urban
developments have impacts not only the price and availability of property, but on how we live and work. Development economics, urban policy, and land-use economics inform and guide decisions of property professionals, policy makers, and occupiers who shape the built environment.

**PROPRAC 705 15 Points**
Investment and Finance
Financing represents a fundamental part of how properties are purchased, developed and managed. The application of general theories of property investment, discounted cash flow, risk and return, and financial mathematics is vital for property professionals. Debt and equity financing options are discussed for residential and income-producing property and development projects.

**PROPRAC 706 15 Points**
Valuation
As every property is unique, the valuation of property presents many challenges and has a strong influence on the financial viability of both existing buildings and the development process. Valuation involves a range of models and approaches for valuing residential, commercial and industrial property and undeveloped land.

**PROPRAC 707 15 Points**
Property Technology
Develops capabilities in applying analytical tools and technologies to the analysis of issues to enhance understanding of property markets and support effective decision-making.

**PROPRAC 708 15 Points**
Advanced Valuation
The theory and practice of valuing special categories of property including shopping centres, hotels, leasehold and Māori land. Other professional property practices covered include compulsory purchase, and professional ethics and practice.

**PROPRAC 709 15 Points**
Advanced Property Analytics - Level 9
Extend and apply core property knowledge involving management, development valuation and investment to critically analyse property through use of geographic information system (GIS) and cash flow modelling software. Prerequisite: 45 points from PROPRAC 700-708

**PROPRAC 778 30 Points**
**PROPRAC 778A 15 Points**
**PROPRAC 778B 15 Points**
Capstone Project - Level 9
An individual, research-informed practical project with a company or other appropriate organisation with written and oral reports of the findings.

To complete this course students must enrol in PROPRAC 778 A and B, or PROPRAC 778

**PROPRAC 779 30 Points**
**PROPRAC 779A 15 Points**
**PROPRAC 779B 15 Points**
Capstone Project - Level 9
A team-based, research-informed practical project with a company or other appropriate organisation with written and oral reports of the findings.

To complete this course students must enrol in PROPRAC 779 A and B, or PROPRAC 779

**Tertiary Foundation Certificate Business**

**Foundation Courses**

**TFCBUS 92F 15 Points**
Foundation Business
Develops an understanding of the role of business in a rapidly changing national and international context. Focuses on factors impacting success and value creation including effective management and leadership, understanding customers, innovation and product development, financial and accounting practices, and strategic planning and decision-making.

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Architectural Design

Stage I

ARCHDES 102 15 Points

Design 1
The Conceptual: An introduction, in studio format, to the conceptual realm in which architecture operates, making connections to the cultural, physical, formal, social and political dimensions of architectural design. Emphasises the development of skills and abilities in conceptual thinking and design realisation, using a range of approaches to making and representation.

ARCHDES 103 15 Points

Design 2
The Formal: An introduction, in studio format, to the discipline of architectural organisation and form-making. Re-examines the traditional notions of typology, precedent, geometry, parti and diagrams. Emphasises strategies that build on and transform understanding for organising form given contemporary programmes and modes of representation.

Stage II

ARCHDES 200 30 Points

Design 3
The Domestic: Exploring through design those things both familiar and unfamiliar in our understanding of home, family, privacy, identity, and community. Examines both the most intimate and the most exposed aspects of dwelling. Emphasises the role of precedent in design and addresses scales ranging from the room to the block.

ARCHDES 201 30 Points

Design 4
The Constructed: An introduction to architectural practice as a complex and collaborative enterprise. Offers the opportunity to explore materials, construction, fabrication processes, and detailing, through making. Requires students to understand the full range of drawings required to move from design concept to actual construction.

Stage III

ARCHDES 300 30 Points

Design 5
The Experimental: Students will be exposed to experimental approaches to architectural design that seek to expand the field of architecture. Highlights the role and agency of media in explorative architectural pursuits.

ARCHDES 301 30 Points

Design 6
The Integrated: The culmination of all aspects – conceptual, formal, material, tectonic, environmental, structural – of architectural design within the context of a larger network of infrastructural services. Also requires an understanding of the full range of drawings describing the workings of the building as both an active ‘machine’ and place for human comfort.

ARCHDES 302 30 Points

Directed Study
A topic approved by the Head of School of Architecture and Planning.

ARCHDES 300 and 301 or Departmental approval

Postgraduate 700 Level Courses

ARCHDES 700 30 Points

Advanced Design 1
A studio based inquiry into an architectural topic approved by the Head of School of Architecture and Planning intended to facilitate in-depth study that is both tailored to a student's own interest and aligned with the School's research clusters, sharing workshops, discussions, pin-ups and tutorials.

ARCHDES 701 30 Points

Advanced Design 2
A studio based inquiry into an architectural topic approved by the Head of School of Architecture and Planning intended to facilitate in-depth study that is both tailored to a student's own interest and aligned with the School's research clusters, sharing workshops, discussions, presentations and tutorials.

ARCHDES 702 30 Points

Adaptive Reuse
A studio-based inquiry into an architectural topic in the field of adaptive reuse, approved by the Head of School of Architecture and Planning.

ARCHDES 703 30 Points

Advanced Design in Housing
An advanced studio-based inquiry into housing design, approved by the Head of School of Architecture and Planning.

ARCHDES 796A 60 Points

ARCHDES 796B 60 Points

Thesis - Level 9
A thesis involving a design-based discourse on a topic approved by the Head of School of Architecture and Planning.
for the degree of Master of Architecture (Professional) under the guidance of an appointed supervisor.

Prerequisite: Students must have completed the taught component of their programme

To complete this course students must enrol in ARCHDES 796 A and B

ARCHDES 797A 30 Points
ARCHDES 797B 60 Points

Thesis - Level 9

A thesis involving a design-based discourse on a topic approved by the Head of School of Architecture and Planning for the Degree of Master of Architecture (Professional) and Urban Planning (Professional).

Prerequisite: ARCHDES 700, 701, ARCHGEN 703 or ARCHPRM 700, ARCHPRM 701, URBPLAN 701-708

To complete this course students must enrol in ARCHDES 797 A and B

Architectural History, Theory and Criticism

Stage I

ARCHHTC 102 15 Points
ARCHHTC 102G 15 Points

Modern Architecture and Urbanism

Examines through case studies the cultural contexts that shaped the development of architecture, urban design, landscape and the environment during the twentieth century. Emphasis is placed on the historical developments that influenced changes in style and the theoretical contexts that shaped attitudes towards inhabitation, social organisation, national identity, and cultural self-expression, amongst other things.

Restriction: ARCHHTC 100

Stage II

ARCHHTC 237 15 Points

Postmodern and Contemporary Architecture and Urbanism

Examines architectural and urban history and theory from the postmodern to the recent and contemporary.

Prerequisite: ARCHHTC 102

Restriction: ARCHHTC 235, 236

Stage III

ARCHHTC 340 10 Points

Oceanic Architecture and Urbanism

Examines the development of architecture and its contexts in Aotearoa New Zealand and the South Pacific, including origins, historical influences, key architects and buildings, identity and changing priorities.

Prerequisite: ARCHHTC 235 and 236, or 202 and 230

ARCHHTC 341 15 Points

Worlds of Architecture

Examines topics in pre-modern architectural and urban history and theory across the continents of Eurasia, Africa, the Americas, Australia and Oceania.

Prerequisite: ARCHHTC 237

Restriction: ARCHHTC 339, 340

ARCHHTC 376 15 Points

Directed Study

Postgraduate 700 Level Courses

ARCHHTC 700 15 Points

Pacific Architecture

Examines architectural history and practice in the Pacific region from ancient sites to the present day. Explores design from all periods, with a view to informing future design through consideration of climate, culture, society, materials and economics.

ARCHHTC 701 15 Points

Architecture and Political Philosophy

Examines the political role of architecture and urban space with emphasis on works of Michel Foucault. Analysis of the ways in which architecture constructs habits and habitats in relation to philosophical concepts.

ARCHHTC 702 15 Points

History of Housing in Aotearoa New Zealand - Level 9

A research-based examination of New Zealand’s more than 100-year history of building housing at medium and high densities. Includes analysis of exemplars.

ARCHHTC 703 15 Points

Māori and Pacific Housing

Examines Māori and Pacific housing issues and culturally appropriate housing options for Māori and Pacific peoples, including contemporary whare and papakāinga.

ARCHHTC 704 15 Points

Special Topic

Architectural Media and Fabrication

Stage I

ARCHDRC 103 15 Points

Architectural Media 1

An introduction to drawing and computing techniques related to design studio practice and an overview of the analytical and critical value of these techniques for design.

Restriction: ARCHDRC 102

ARCHDRC 104 15 Points

Architectural Media 2

Examines specific types of representation – both freehand and digital – used in architectural media to develop concepts, evaluate architectural thinking and describe and refine design projects.

Restriction: ARCHDRC 202

Stage II

ARCHDRC 203 15 Points

Architectural Media 3

Examines the relationship between methods of architectural drawing and the three-dimensional communication of fabrication and assemblage. Central to this investigation is an understanding of how drawing is evolving in relation to new technologies.

Prerequisite: ARCHDRC 103, 104

Restriction: ARCHDRC 301, 303, 304, 370, 371, 372, 373

Postgraduate 700 Level Courses

ARCHDRC 700 15 Points

Advanced Digital Fabrication

Covers fabrication technologies and materials, practical experimentation with a range of fabrication tools and an introduction to current research and development.
ARCHPRM 703 15 Points
Special Topic

**Architectural Professional Studies**

**Stage III**

ARCHPRM 305 15 Points
Project Management
Professional practice and the practical demands of managing construction. Explores the roles of architect, client, builder and consultants; land, building, planning and environmental legislation; the consenting processes that precede construction; documentation; cost and quality management; procurement; contract law; construction contracts; site observation; contract administration and progress payments; completion; final accounts; and post-project procedures. 
Prerequisite: ARCHPRM 304, 700

ARCHPRM 700 15 Points
Introduction to Structural Concepts and Construction Principles
The management of the building project from inception to tendering. An examination of client needs and agreements, feasibility studies, project constraints, cost planning and control, consultants, administration and quality control. An analysis of all aspects of the contracts and documentation during construction and final project accounts. 
Restriction: ARCHPRM 304, 700

ARCHPRM 701 15 Points
Project Management
The New Zealand legal system and the law of contract and torts: negotiations, negligence, disputes and remedies relevant to architects in practice. An examination of the requirements for establishing and maintaining an architectural practice as a business venture as well as strategic market management, financial planning, insurance and taxation.

ARCHPRM 702 15 Points
Architectural Project Management
Examines the theory and practice of managing a building construction project. Explores advanced models of project organisation, procurement, construction contracts, time and cost management and efficient delivery methods.

ARCHPRM 703 15 Points
Transnational Professional Practice
Examines the theory and practice of how the built environment is designed and constructed when the architect is operating in a foreign field. Utilising problem-based learning and case studies, the student will assume the role of the alien designer who curates context and thus encounters: the vernacular, regionalism, internationalism and indigeneity.

ARCHPRM 704 15 Points
Special Topic

ARCHPRM 705 15 Points
Special Topic

**Architectural Technology and Sustainability**

**Stage I**

ARCHTECH 108 15 Points
Introduction to Technology and Sustainability
Introduction to structural concepts and construction principles, including building elements, systems and foundation options. Properties of commonly used construction materials, with a focus on timber frame constructions, their regulatory context, applications and detailing, and appropriate ways of applying the principles to design studio projects. Climate and vernacular architecture. Principles of climate-sensitive design. Sustainability and resilience in the built environment. 
Restriction: ARCHTECH 106, 107

**Stage II**

ARCHTECH 207 15 Points
Design Technology 1
Development of structural and construction principles and systems for small-scale and residential buildings. Characteristics and behaviour of common building materials. Building components and detailing. Outline of building codes, health and safety regulations and site operations. Active building services and technologies for residential housing, including heating, cooling, ventilation, water, waste, electrical services and vertical transportation. Application to design studio projects. 
Prerequisite: ARCHTECH 108

ARCHTECH 210 15 Points
Environmental Design 1
Prerequisite: ARCHTECH 108
Restriction: ARCHTECH 208

**Stage III**

ARCHTECH 314 15 Points
Environmental Design 2
Indoor environmental quality for complex, large scale and multi-storey buildings. Requirements of the New Zealand Building Code for energy efficiency and human comfort. Design strategies and innovative materials for high-performance buildings. Qualitative and quantitative approach to sustainable practices. Simulation tools, measurements and techniques. Natural resources,
materials optimisation and building reuse. Sustainability and resilience at the urban scale.

Prerequisite: ARCHTECH 210
Restriction: ARCHTECH 307

ARCHTECH 315 15 Points
Design Technology 2
Development of construction and structural principles for complex, large-scale and multi-storey buildings. Investigation of façade technology, material selection and detailing, as applied in practice. Development of factors affecting buildability, fire protection and building code requirements. Application to design studio projects through drawing and prototyping.

Prerequisite: ARCHTECH 207
Restriction: ARCHTECH 312

Postgraduate 700 Level Courses

ARCHTECH 706 15 Points
Building Materials and Technologies
Explores the selection and integration of appropriate materials, components and systems in relation to the different contexts, scales and stages of the design, documentation, procurement and construction of projects, in alignment with the National Standard of Competency for Architects.
Restriction: ARCHTECH 307, 312, 314, 315

ARCHTECH 707 15 Points
Designing with Resilience Thinking
Examines resilience in the built environment, from reviewing the literature on resilience to analysing case studies and developing strategies to enhance resilience in architecture.

ARCHTECH 708 15 Points
Advanced Building Technologies
Examines how responsive skins can be used to improve building performances. Explores the development of building technologies in the Asian and Oceania regions of the Pacific Rim.
Prerequisite: ARCHTECH 314 and 315

ARCHTECH 709 15 Points
Sustainable and Healthy Housing
Examines the current issues of performances and indoor environmental quality in Aotearoa’s housing. Explores strategies, technologies and materials for designing and retrofitting sustainable, resilient and healthy housing.
Prerequisite: ARCHTECH 314 and 315

ARCHTECH 710 15 Points
Special Topic

Architecture General

Postgraduate 700 Level Courses

ARCHGEN 702 15 Points
Research Process
An introduction to the research process including: research paradigms and strategies, the identification of research topics and research questions, the review and critique of literature, research methodologies, the structuring of research theses and reports, referencing and the preparation of a bibliography. The focus of the course is on preparing students to undertake their own research projects.
Restriction: ARCHGEN 400, 700

ARCHGEN 703 15 Points
Design as Research
Examines the literature on, and approaches to, research by design. Considers research processes and architectural design processes, and the ways in which these processes might be creatively combined in the context of a Masters level design thesis, in order that the thesis process and outcomes might meet the expectations of a research-based thesis.
Restriction: ARCHGEN 300

ARCHGEN 704 15 Points
Directed Study
Prerequisite: Departmental approval

ARCHGEN 711 15 Points
Special Topic
Restriction: ARCHGEN 710, 712-716

ARCHGEN 712 15 Points
Special Topic
Restriction: ARCHGEN 710, 711, 713-716

ARCHGEN 713 15 Points
Special Topic
Restriction: ARCHGEN 710-712, 714-716

ARCHGEN 714 15 Points
Special Topic
Restriction: ARCHGEN 710-713, 715, 716

ARCHGEN 715 15 Points
Special Topic
Restriction: ARCHGEN 710-714, 716

ARCHGEN 716 15 Points
Special Topic
Restriction: ARCHGEN 710-713, 715, 716

ARCHGEN 717 15 Points
Special Topic
Restriction: ARCHGEN 710-712, 713-716

ARCHGEN 733 15 Points
Public Urban Space in the Contemporary City
Examines the role of public urban space in the city and how history, geography, culture, physical connections and architectural form contribute to its formation. Explores how contemporary cities are transforming their urban environments through design.
Restriction: ARCHGEN 730-732, 734-735, URBDES 702

ARCHGEN 744 15 Points
Special Topic
Restriction: ARCHGEN 740-743, 745

ARCHGEN 750 15 Points
Heritage Processes
Examines heritage conservation legislation, policy, guidelines and processes. Includes international context as well as New Zealand laws and processes.

ARCHGEN 751 15 Points
Heritage Assessment and Conservation Planning - Level 9
Examines the assessment of cultural heritage value and the use and preparation of conservation plans to guide heritage conservation work. Coursework comprises the researching and writing of a conservation plan.

ARCHGEN 752 15 Points
Conservation of Materials
Examines the theory and practice of conserving materials commonly found in heritage buildings and artefacts, including stone, brick, timber, concrete and steel.

ARCHGEN 753 15 Points
Diagnosis and Adaptation
Examines the investigation of existing building fabric, diagnosis of issues impacting upon the state of repair or the level of comfort, and the adaptation of heritage buildings,
including strengthening, energy upgrading, reuse and the
design of additions and alterations.

ARCHGEN 754 30 Points
Research Project - Level 9
A research project in the field of heritage conservation
which may include an internship. Placements and topics
to be approved by the Head of School of Architecture and
Planning.
Prerequisite: ARCHGEN 750, 751

ARCHGEN 790 30 Points
ARCHGEN 790A 15 Points
ARCHGEN 790B 15 Points
Research Project - Level 9
Restriction: ARCHGEN 793, 795
To complete this course students must enrol in ARCHGEN 790
A and B, or ARCHGEN 790

ARCHGEN 793A 60 Points
ARCHGEN 793B 60 Points
Thesis - Level 9
A study of research processes, together with a thesis
involving a discourse on a topic approved by the Head
of School of Architecture and Planning for the degree of
Master of Architecture under the guidance of an appointed
supervisor.
Restriction: ARCHGEN 795, 796, 797
To complete this course students must enrol in ARCHGEN 793
A and B

ARCHGEN 795A 45 Points
ARCHGEN 795B 45 Points
Thesis - Level 9
A study of research processes, together with a thesis
involving a discourse on a topic approved by the Head
of School of Architecture and Planning for the degree of
Master of Architecture under the guidance of an appointed
supervisor.
Restriction: ARCHGEN 793, 796, 797
To complete this course students must enrol in ARCHGEN 795
A and B

ARCHGEN 799 60 Points
ARCHGEN 799A 30 Points
ARCHGEN 799B 30 Points
Research Report - Level 9
A report involving research and application in an
architectural subject for the Postgraduate Diploma in
Architecture under the guidance of appointed supervisor
on a topic approved by the Head of School of Architecture
and Planning.
Prerequisite: ARCHGEN 700 or 702
Restriction: ARCHGEN 798
To complete this course students must enrol in ARCHGEN 799
A and B, or ARCHGEN 799

Dance Studies

Stage I

DANCE 101 15 Points
DANCE 101G 15 Points
Introduction to Dance and Creative Processes
To develop an understanding of our moving bodies through
movement awareness, dance improvisation, choreography
and creative and analytic writing. Students will undertake
both theoretical and practical classes focusing on a range
of practices that dancers and movement practitioners
use to facilitate kinaesthetic awareness, experimentation,
communication and choreography. Students will explore
somatic theory and practice, improvisation scores,
choreography and dance analysis. DANCE 101 not available
for BDanceSt.

DANCE 107 15 Points
Dance History and Contexts
Study of the historical development in western theatre
dance from the nineteenth century to the beginning of the
twentieth century.

DANCE 110 15 Points
Contemporary Dance and Choreography I
A study of contemporary dance practices through the
choreography, creative facilitation and techniques of
contemporary dance makers. For BDanceSt students only.

DANCE 112 15 Points
Dance Kinesiology
Introduction to physiological and kinesiological analysis
of dance movements. The study of skeletal alignment,
muscular balance and mechanical efficiency.

DANCE 120 15 Points
Dance Vocabulary I
Introducing the study of diverse dance vocabulary including
ballet, contemporary dance and the field of somatics.
Students will examine specific technical requirements of
identified dance vocabulary.

DANCE 121 15 Points
Dance Technique
Continuation of work undertaken in DANCE 120 with
exploration of skills, repertoire, and merging dance styles.
Prerequisite: DANCE 120

DANCE 131 15 Points
Dance Education
The study of dance education practice and theory that
shapes teaching and learning of dance in school and
community contexts. Note: this course does not meet the
requirements for teacher registration in New Zealand.

Stage II

DANCE 200 15 Points
DANCE 200G 15 Points
Dance and Culture
Examines the interrelationship between dance and wider
political and cultural movements through practical dance
classes and theoretical investigations into diverse cultural
environments around the world. Students physically and
theoretically engage in the study of various dance forms
such as Tango, Salsa, Dabkeh, traditional Chinese dance
and Bharata Natyam.
Prerequisite: 60 points passed

DANCE 201 15 Points
Dance and Interdisciplinarity
Building integrated connections with other arts disciplines
such as music, literature, art.
Prerequisite: DANCE 101 or 110

DANCE 207 15 Points
Choreography and Performance
Focuses on the development and consolidation of
choreographic and performance skills.
Prerequisite: Any 30 points at Stage I in Dance Studies
DANCE 210 15 Points
Contemporary Dance and Choreography 2
Study of contemporary choreography practice and theory. Students create choreography that may be shared through film and/or live performances.
Prerequisite: DANCE 101 or 110

DANCE 211 15 Points
Special Topic
Prerequisite: Any 30 points at Stage I in Dance Studies

DANCE 212 15 Points
New Zealand Dance Contexts and History
Emphasis is on the socio-historical developments of dance in the twentieth century. Choreographers, dancers, designers and composers who have created, influenced and shaped dance in New Zealand will be studied via lectures, videos, scores, and reconstructions.
Prerequisite: DANCE 107

DANCE 215 15 Points
Special Topic: Styles and Techniques: Street Dance and Jazz
Prerequisite: Any 30 points at Stage I in Dance Studies

DANCE 216 15 Points
Indigenous Dance: Aotearoa and Te-Moana-Nui-a-Kiwa
Develops knowledge of foundational creative dance praxis pertaining to the Contexts of Aotearoa and Moana-Nui-a-Kiwa. Explores cultural and kinaesthetic expressions, traditions, protocols and artists' elements in relation to indigenous concepts and methodologies of dance practices.
Prerequisite: MĀORI 190, PACIFIC 110

DANCE 220 15 Points
Dance Vocabulary II
Exploring and analysing contemporary dance practices and techniques. Movement skills and performance skills will be developed integrating personal movement with techniques.
Prerequisite: DANCE 120

DANCE 222 15 Points
Safe Dance Practices
Establishing the theory and practice of safe dance practices within education, performance and health related contexts. Anatomy, kinesiology and dance conditioning methodologies will be studied in relation to dance practice.
Prerequisite: DANCE 112

DANCE 231 15 Points
Community Dance
Entering diverse community settings and teaching and learning dance; analysing the roles and functions of dance in your own and others' communities. Note: this course does not meet the requirements for teacher registration in New Zealand.
Prerequisite: DANCE 131

DANCE 250 15 Points
Special Topic: Social Dance
Prerequisite: Any 30 points at Stage I in Dance Studies

Stage III

DANCE 300 15 Points
Dance Project
Resident/Guest Artist project that gives students an intensive experience of a particular choreographic vocabulary and repertoire. Not available to BA students.
Prerequisite: 30 points at Stage II in Dance Studies

DANCE 301 15 Points
Dance and Improvisation
Developing an embodied personal practice, and understanding of the theory and practice of contact improvisation and its influence in dance, education and community contexts.
Prerequisite: Any 30 points at Stage II in Dance Studies

DANCE 302 15 Points
Dance in Aotearoa New Zealand
An examination of dance in New Zealand including Māori, Pacific Island, European, and Asian influences. Emphasis will be on developments during the twentieth century of traditional form into contemporary practice, indigenous forms in NZ society, the developments in ballet, contemporary and popular dance.
Prerequisite: DANCE 212, or DANCE 200 for students in Transnational Cultures and Creative Practice

DANCE 310 15 Points
Contemporary Dance and Choreography 3
The study of contemporary dance practices through the choreography and techniques of contemporary dance makers.
Prerequisite: DANCE 210

DANCE 311 15 Points
Dance Production
Dance works are choreographed on the students by leading dance professionals in their chosen genre, resulting in a dance production. Not available to BA students.
Prerequisite: Any 45 points at Stage II in Dance Studies

DANCE 312 15 Points
Dance and Technology
Project based study of the interaction between technology and dance. Including hands-on practice with video, digital photography and the study of dance for film.
Prerequisite: Any 30 points at Stage II in Dance Studies

DANCE 313 15 Points
Dance Composition
Studio based course developing improvisational and compositional skills. Choreographic principles are studied as guidelines for structure and design in movement.
Prerequisite: Any 30 points at Stage II in Dance Studies

DANCE 314 15 Points
Transnational Cultures and Creative Practice
An examination of dance in New Zealand including Māori, Pacific Island, European, and Asian influences. Emphasis will be on developments during the twentieth century of traditional form into contemporary practice, indigenous forms in NZ society, the developments in ballet, contemporary and popular dance.
Prerequisite: DANCE 212, or DANCE 200 for students in Transnational Cultures and Creative Practice

DANCE 315 15 Points
Contemporary Indigenous Dance
Explores the artistic relationality of Vā and Whakapapa through indigenous dance praxis. Storytelling through complex choreographic methodological and theoretical concepts will navigate the importance of people to place. Offers an insight into distinct Oceania values as it pertains to the Creative Arts in Aotearoa and wider te-moana-nui-a-kiwa.
Prerequisite: DANCE 216

DANCE 316 15 Points
He mana Motuhake o te-Moana-Nui-a-kiwa: Contemporary Indigenous Dance
Explores the artistic relationality of Vā and Whakapapa through indigenous dance praxis. Storytelling through complex choreographic methodological and theoretical concepts will navigate the importance of people to place. Offers an insight into distinct Oceania values as it pertains to the Creative Arts in Aotearoa and wider te-moana-nui-a-kiwa.
Prerequisite: DANCE 216

DANCE 320 15 Points
Dance Vocabulary III
Refining and deepening dance practices and pedagogy strategies specific to contemporary dance. Choreographic research methods are introduced with emphasis upon articulating key questions and processes for problem solving.
Prerequisite: Any 30 points at Stage II in Dance Studies

DANCE 322 15 Points
Professional Practices
Developing skills and knowledge in planning and managing
for careers in the diverse dance professions. Students will develop arts management and financial business skills, such as learning to write grant applications, CVs and personal plans that relate to employment and funding issues.

Prerequisite: DANCE 222

DANCE 331 15 Points
Dance Education Research
Analysis of dance teaching and learning philosophies, issues and theories as they are translated from texts and curriculum into classroom and community practice. This course does not meet the requirements for teacher registration in New Zealand.

Prerequisite: DANCE 231

DANCE 350 15 Points
Special Topic: Indigenous Contemporary Dance o te Moana Nui a Kiwa
Prerequisite: Any 30 points at Stage II in Dance Studies

DANCE 351 15 Points
Special Topic: Advanced Performance
Prerequisite: Any 30 points at Stage II in Dance Studies

Postgraduate 700 Level Courses

DANCE 720 30 Points
Choreography and Performance Research
Investigates choreographic practice and dance creation as a location for artistic production and academic research. Students will reflect on their own choreographic and performance practice through studio-based activities, while examining choreographic and performance theory.

Prerequisite: Departmental approval
Restriction: DANCE 733, 735, 760

DANCE 722 30 Points
Dance in Community and Education Research
Examines issues and philosophies critical to the development of dance education in formal and informal contexts in New Zealand and internationally. Personal pedagogical practices are reviewed and dominant discourses critiqued.

Prerequisite: Departmental approval
Restriction: DANCE 734

DANCE 724 30 Points
Research Methods and Critical Analysis in Dance Studies
Examines diverse qualitative research methods, critical theory and research ethics. Through practical investigations students will source and critically review literature relevant to their personal research directions.

Prerequisite: Departmental approval
Restriction: DANCE 751

DANCE 730 30 Points
Dance Intensive
Advanced practice in the physicality and creation of dance.

Prerequisite: Departmental approval required

DANCE 761 15 Points
Special Topic
Prerequisite: Departmental approval required

DANCE 764 15 Points
Special Topic
Prerequisite: Departmental approval required

DANCE 765 15 Points
Special Topic in Dance

DANCE 766 15 Points
Special Topic in Dance

DANCE 767 15 Points
Special Topic in Dance

DANCE 768 15 Points
Special Topic in Dance

DANCE 770 30 Points
Dance Project

DANCE 772 15 Points
Dance Therapy, Theory and Practice I
Students will develop their knowledge of dance therapy through theoretical and practical approaches to understanding the conceptual and theoretical foundations that underpin concepts of therapy, well-being, therapist/client relationships and clinical health care systems.

Prerequisite: DANCE 772

DANCE 773 15 Points
Dance Therapy, Theory and Practice II
Builds on DANCE 772. Focuses on deepening theoretical and practical understanding of the needs of a variety of client populations in regard to different ages, issues and settings, in individual and group work.

Prerequisite: DANCE 772

DANCE 774 15 Points
Psychology in Dance Movement Therapy
Focuses on fundamental skills required for professional clinical settings, including counselling and psychological theories and practice including accurate observation and listening techniques, development of the individual and group therapeutic relationship. Key areas covered include abnormal psychology, developmental psychology, group process and advanced counselling skills.

DANCE 775 30 Points
Therapeutic Modalities of DMT
Practicums in dance therapy contexts are supervised by experienced dance therapists. Students will extend their real world knowledge and develop their experience in observing, reporting and facilitating dance movement therapy.

DANCE 776 15 Points
Awareness and Analysis in DMT
Anatomy and kinesiology will involve the study of the structures and systems of the body through both somatic and scientific approaches. Movement observation involves developing key diagnostic and reporting tools in dance movement therapy.

DANCE 777A 15 Points
DANCE 777B 15 Points
Practicum in Dance Movement Therapy
Advanced practicum placements in dance therapy settings are supervised by experienced dance therapists. Students will extend their practical knowledge and develop their experience in observing, reporting and facilitating dance movement therapy at a professional level.

Prerequisite: B average or higher in Part I
Corequisite: DANCE 797
To complete this course students must enrol in DANCE 777 A and B

DANCE 791 30 Points
Research Project - Level 9
Design

Stage I

DESIGN 100 30 Points
Design Methods and Processes 1
Introduces students to human-centred design methods and tools that range from problem framing to prototyping, modelling, and validating solution ideas. Students will address a variety of briefs based on real-world problems and contexts, exploring their personal creative potential through a series of hands-on projects supported by presentations.

DESIGN 101 15 Points
Design Theory and Fundamentals
Introduces historical and contemporary drivers of design as a maker of socio-cultural meaning. Students will learn fundamental design principles used for communication and sense-making, applied across a variety of mediums and technologies. Students will be introduced to tikanga Māori and to the main ethical, socio-cultural, economic and environmental propellants of design.

DESIGN 102G 15 Points
Design for Sustainable Futures
New opportunities are continually emerging in the field of design. This course introduces design as strategy, demonstrating how contemporary design practices have evolved, responded to, and influenced change. By developing a design project that responds to the United Nations Sustainable Development Goals, students will learn how design thinking complements current practice and expands career prospects.

Stage II

DESIGN 200 30 Points
Design Methods and Processes 2
A studio-based course in which students learn new design methods and technologies. Students also develop customised design strategies in response to real-world challenges. By working on a detailed case study, students learn to address issues that affect local communities. Students present their design solutions, learn to pitch design concepts, and evaluate potential outcomes. 
Prerequisite: DESIGN 100, 101

DESIGN 201 15 Points
Creative Communities
Introduces how the digital revolution has empowered people to organise themselves, collaborate and co-operate in non-hierarchical, creative ways. Students will explore the role of designers as catalysts for bottom-up, self-determined and distributed creativity within this scenario. They will learn to design for purpose and positive impact, co-creating open and resilient systems within their local communities.
Prerequisite: DESIGN 100, 101

DESIGN 210 15 Points
Identity, Indigeneity and Place
Encourages students to identify their own positionality within Aotearoa and the wider Pacific. Using decolonising methods to critically analyse design solutions, students will explore their own identity and position themselves as cultural practitioners with obligations towards local communities.
Prerequisite: DESIGN 100, 101

DESIGN 211 15 Points
Aotearoa New Zealand Narratives
An introduction to cultural narratives of Aotearoa New Zealand, and the role that contemporary design is playing as a participatory method for community-led change, both from bottom-up and institutional perspectives. Students will explore design as a practice for facilitating self-determination, and learn ways to enable genuine, respectful partnerships in order to tackle complex local and global challenges.
Prerequisite: DESIGN 100, 101

DESIGN 212 15 Points
Local Making
Examines historic and contemporary making techniques, materials, and networks to understand the scope, scale and value of local traditions, with an emphasis on Māori and Pacific practices. Students will collate a personalised database of local inspirations and resources for continued development and professional reference. This will form the inspiration for the students’ own made outcomes.
Prerequisite: DESIGN 100, 101

DESIGN 213 15 Points
Special Topic: Food Design
Prerequisite: DESIGN 100, 101

DESIGN 220 15 Points
Design Innovation
Introduces students to entrepreneurship within creative industries, focusing on the role of strategic design as a driver for purpose-led, sustainable innovation. Students will learn trends, methods and tools for organisational innovation, whether funding, launching, and managing new start-up companies, or dealing with change within existing organisations (entrepreneurship).
Prerequisite: DESIGN 100, 101
DESIGN 221 15 Points  
**Professional Design Practice**
Examines personal career paths, design team and project operations and responsibilities in small studios through to large organisations, the role of professional networks, and resources for designers to present themselves and their work to future collaborators.  
Prerequisite: DESIGN 100, 101

DESIGN 222 15 Points  
**Business Tools for Designers**
Examines the most relevant tools that designers use for project management and business development. This includes services and technologies involved in strategic planning, content management, scheduling, communicating, collaborating, costing, client relations, impact planning, and product and market research.  
Prerequisite: DESIGN 100, 101

DESIGN 223 15 Points  
**Special Topic: Visual Communication**
Provides extended visual communication concepts and skills for application across a range of design practices and technologies. Practical experiments with a range of materials and technologies explore the elements and principles of visual communication to strengthen skills in effective sense-making, organisation, encoding, and expression of information to convey meaning.  
Prerequisite: DESIGN 100, 101

DESIGN 224 15 Points  
**Design, Wellbeing and Communities**
Students will identify and analyse how selected design interventions contribute to the health and wellbeing of communities in a range of contexts. Using service and experience design methods students will present ethical and feasible design strategies that examine notions of wellbeing, health, happiness and freedom, from individual to community level perspectives.  
Prerequisite: DESIGN 100, 101

DESIGN 225 15 Points  
**The Future of Work and Play**
Students will analyse how global changes such as automation and climate change could impact the way we work and play, now and in the future. Students will critically speculate about possible and probable futures by developing fictional scenarios which test a range of design concepts for transition into preferable futures.  
Prerequisite: DESIGN 100, 101  
Corequisite: DESIGN 200

DESIGN 226 15 Points  
**Smart Homes and Cities**
Introduces the main drivers, strategies, and technologies that make smart cities efficient and sustainable. Students will analyse case studies to understand how these cities work from a systems-level perspective to a human-scale, experiential level. They will propose concept solutions to identified problems and opportunities, demonstrating how future homes and cities may operate synergistically through a connected system of interfaces and services.  
Prerequisite: DESIGN 100, 101  
Corequisite: DESIGN 200

DESIGN 233 15 Points  
**Design for the Natural Environment**
An overview of the ways that design can promote and actualise the regeneration of our natural environment through collaborative, systemic, and circular innovation. Students will learn fundamental theory, frameworks and methods to create positive impact using design strategy within the fields of environmental sustainability and conservation.  
Prerequisite: DESIGN 100, 101

DESIGN 240 15 Points  
**Designing with Data**
Introduces students to the impact data representation has on public perception of global issues. Students will engage and experiment with computational methodologies to interpret, visualise and interact with data sources corresponding to a specific Sustainable Development Goal. Students will produce provocative data-driven visualisations that promote a call-to-action related to a foreseeable local or global crisis.  
Prerequisite: DESIGN 100, 101  
Corequisite: DESIGN 200

DESIGN 241 15 Points  
**Designing Mixed Realities**
Introduces an overview of new materials, products and processes connecting virtual and physical worlds. Students will explore these alternative realities as catalysts for positive impact. Students will experiment with technologies to design projects that augment human experiences in hybrid environments.  
Prerequisite: DESIGN 100, 101  
Corequisite: DESIGN 200

DESIGN 242 15 Points  
**Design and Autonomous Technology**
Introduces the major social, ethical, and technical trends driving the adoption of autonomous technologies and artificial intelligence. Students will explore the expanding role design can play within this field, through a purpose-led, human-centred perspective. Students will produce a prototypical device designed to have autonomous capabilities to affect human or ecological advancement.  
Prerequisite: DESIGN 100, 101  
Corequisite: DESIGN 200

DESIGN 243 15 Points  
**Design and Assistive Technologies**
Students will investigate design interventions that have successfully employed assistive strategies to improve or extend human movement, sensation or mental capacity for a range of individuals and communities. Students will experiment with a range of technologies, experiences and services to design an assistive or rehabilitative intervention that reduces inequalities amongst individuals.  
Prerequisite: DESIGN 100, 101  
Corequisite: DESIGN 200
Stage III

DESIGN 300 15 Points
Design Research Methodologies
Introduction to a range of key design methodologies that inform contemporary design thinking, research and practice within Aotearoa New Zealand, with reference to Mana Moana philosophies of making and community. Drawing on methodological principles, students learn how to develop design strategies, apply design processes and test their design concepts. Consideration will be given to the phasing and planning of design investigations from data analytics to design concepts to practical methods and proposed solutions.
Prerequisite: DESIGN 100, 101 and 90 points from DESIGN 200-243

DESIGN 301 45 Points
Advanced Design Methods Capstone
Students will complete a major design project in collaboration with local stakeholders. Students will develop a design strategy in response to a real-world issue. They will engage in research and practical studio work, select appropriate methods, and use multiple tools and technologies to produce a prototype. Outcomes will be presented to and critiqued by design professionals.
Prerequisite: DESIGN 200, 201, 300 and 90 points from DESIGN 210-243
Corequisite: DESIGN 302

DESIGN 302 15 Points
Critical-Technical Positioning
Students will produce a written account of their capstone project (DESIGN 301). The account will take the form of an essay or technical report supported by visual evidence. It will provide a critical contextualization of the capstone project in relation to global challenges, and use design theory to describe the project from problem framing through to execution.
Prerequisite: DESIGN 200, 201, 300
Corequisite: DESIGN 301

Postgraduate 700 Level Courses

DESIGN 700 15 Points
Design Research Methodologies
A study of how to adopt and adapt different methodologies for context analysis, concept development, design iteration, deployment and evaluation.

DESIGN 701 15 Points
Design Practices
A survey of current contexts, resources and networks to be applied in advanced design practice.

DESIGN 702 30 Points
Design Technologies
A studio-based study of process and production technologies for advanced design outcomes.

DESIGN 703 30 Points
Project Design
The application of design methods, models and technologies to formulate a design specification for prototype development.
Prerequisite: DESIGN 700-702

DESIGN 704 15 Points
Design Impacts
A studio-based investigation that considers design as a catalyst for change and the models for measuring the impacts of design interventions.
Prerequisite: DESIGN 700-702

DESIGN 705 15 Points
Design Futures
Applying speculative design methods to develop future scenarios and solutions for emerging societal and environmental challenges.
Prerequisite: DESIGN 700-702

DESIGN 706 30 Points
Design Enterprise
A studio-based study of enterprise practices for the stable deployment and viable adoption of design products and services.
Prerequisite: DESIGN 700-702

DESIGN 707 30 Points
Internship
An approved internship in design with a commercial or community organisation.
Prerequisite: DESIGN 700-702

DESIGN 708 60 Points
DESIGN 708A 30 Points
DESIGN 708B 30 Points
Capstone Project
An independent studio-based project that critically investigates a specific contemporary issue in design or an issue that would benefit from an advanced design-based solution. Students will develop a project and document the process and impact of their solution to the underlying issue.
Prerequisite: DESIGN 703
To complete this course students must enrol in DESIGN 708 A and B, or DESIGN 708

DESIGN 794A 30 Points
DESIGN 794B 60 Points
Thesis - Level 9
Prerequisite: DESIGN 700-702
To complete this course students must enrol in DESIGN 794 A and B

DESIGN 795A 30 Points
DESIGN 795B 60 Points
Research Portfolio - Level 9
Prerequisite: DESIGN 700-702
To complete this course students must enrol in DESIGN 795 A and B

Fine Arts

Stage I

FINEARTS 101 30 Points
Studio 1.1
Students will work on a range of 'ideas based' activities that will challenge them progressively to develop and extend their knowledge and skills. These range from short focused projects to those allowing more time for research and personal development. Students will cover a range of the disciplines available in the school and be encouraged to explore in a cross-disciplinary manner.
Corequisite: FINEARTS 103 or 104

FINEARTS 102 30 Points
Studio 1.2
An extension of projects from FINEARTS 101 Studio 1.1. Students will be encouraged to develop personal
creative directions with a focus on experimentation and interdisciplinary art and design outcomes.

Prerequisite: FINEARTS 101
Corequisite: FINEARTS 103 or 104

FINEARTS 103
15 Points
Drawing and Related Practices
An introduction to different approaches to drawing and its relationship with contemporary practices in art and design, including traditional approaches to drawing and drawing techniques. Students will also explore drawing as a conceptual process. Research which investigates drawings as both a technical and conceptual practice is encouraged.

Corequisite: FINEARTS 101 or 102

FINEARTS 104
15 Points
Introduction to Critical Studies
An introduction to contemporary art from a practice-led perspective. Themes, ideas and movements relevant to the field of contemporary art will be introduced, alongside key theoretical and philosophical terms. Students study the ways these contextual and conceptual frameworks inform art production. Emphasises the multiple ways in which art-practice engages with these frameworks. Aspects of tikanga Māori and its relationship to art-making will also be introduced.

Corequisite: FINEARTS 101 or 102

FINEARTS 105
15 Points
Special Topic

FINEARTS 109G
15 Points
Introduction to Photographic Practice
Introduces the methods, concepts and contemporary contexts of photographic practice alongside the development of a photographic portfolio. Students will use their own camera, (this can include cell phone cameras) to develop a portfolio of photographic work and explore the ways in which contemporary arts and cultural practices in Aotearoa enable a critical reflection on the production of images.

FINEARTS 110
15 Points
Introduction to Fine Arts Technologies
Introduces students to a range of technical workshops and skills for artistic practice. Students will develop a set of technical competencies and build their capacity to think through making. Students will be inducted into best workshop practice, whakaute, health and safety protocols, and be assessed as safe workshop users while working under direct supervision.

FINEARTS 111
30 Points
Fine Arts Studio 1
Through a series of three short studio-based projects, students will be introduced to key concepts and practices of painting, sculpture and social practice. Emphasises the acquisition of skills in conceptual thinking and the development of ideas, using a range of approaches to the making and presentation of artworks. Aspects of mātauranga Māori and its relationship to artmaking will also be covered.

FINEARTS 113
15 Points
Ideas and Contexts for Creative Practice
Introduces the ways the knowledge of contemporary art and ideas can enable an individual artistic practice. Students will discover and understand ideas relevant to contemporary art.

Stage II

FINEARTS 201
30 Points
Studio 2.1
Provides an understanding of contemporary artistic practice relevant to students' developing artistic interests. Students engage with current art and/or design ideas, methodologies and positions and become experienced in understanding their own practice in relationship to contemporary practices in an increasingly reflexive manner. Consists of the supervised completion of a number of prescribed briefs from which students select.

Prerequisite: FINEARTS 101, 102, 103 and 104 or FINEARTS 100
Corequisite: FINEARTS 203

FINEARTS 202
30 Points
Studio 2.2
Focuses on the conditions of reception relevant to students' work including: ways meaning is created; how art and/or design works are read; and the significance of presentation strategies. Consists of the supervised completion of longer briefs, of which one is self-generated.

Prerequisite: FINEARTS 201

FINEARTS 203
15 Points
Studio 2.3
Study and exploration through practice of an issue relevant to a discipline or area of contemporary discourse. Students will understand, explore and analyse a selected issue through readings, discussions and production and presentation of studio work.

Prerequisite: FINEARTS 101, 102, 103 and 104 or FINEARTS 100
Corequisite: FINEARTS 201 or 202

FINEARTS 204
15 Points
Critical Studies
A practice-led perspective to consider the key contexts and concepts relevant to contemporary art introduced in FINEARTS 104. Examines selected theoretical and philosophical terms, their broader cultural contexts, and their relevance for art-practice. Complements FINEARTS 207 and 208, by exploring art's dynamic relationship to the range of contexts and knowledge discussed, and the ways in which these relationships inform art's production and reception.

Prerequisite: FINEARTS 101, 102, 103, 104
Corequisite: FINEARTS 201 or 202 or 207 or 208 or 209 or 212

FINEARTS 205
15 Points
Special Topic: Creative Computing
Introduces methods and concepts for engaging with computing as artistic practice. Students will learn fundamental principles of programming, work with generative and algorithmic processes, and explore approaches and ideas in the field of computational arts. No prior experience in coding is necessary.
FINEARTS 206 15 Points
Fields of Practice 2
Allows students to study and explore through practice an issue relevant to a media area, with the aim of encouraging reflexivity in relation to media processes. In this course students will understand, explore and analyse a selected issue through readings, discussions and production and presentation of studio work.
Prerequisite: FINEARTS 101, 102, 103, 104, 201, 203
Corequisite: FINEARTS 202

FINEARTS 207 45 Points
Studio Practice 1
Provides an understanding of contemporary artistic practice relevant to students' developing interests. Students will engage with current art ideas, methodologies and positions and will gain experience in understanding their own work in relationship to local and international contemporary art practices. Consists of the supervised completion of a number of prescribed briefs, and focused contextual study in an area relevant to the student's broad interests.
Prerequisite: FINEARTS 101, 102, 103, 104
Restriction: FINEARTS 201, 203

FINEARTS 208 45 Points
Studio Practice 2
Focuses on the conditions of reception relevant to students' work including ways meaning is created; how art works are read; and the significance of presentation strategies.
Restriction: FINEARTS 202, 206

FINEARTS 209 30 Points
Studio Practice 1
Provides an understanding of contemporary artistic practice relevant to students' developing interests. Students will engage with current art ideas, methodologies and positions and will gain experience in understanding their own work in relationship to local and international contemporary art practices. Consists of the supervised completion of a number of prescribed briefs. Discipline-based and interdisciplinary learning will be undertaken, with a dual emphasis on the development of conceptual thinking and material languages.
Prerequisite: FINEARTS 207 or 209
Restriction: FINEARTS 202, 206

FINEARTS 210G 15 Points
Understanding Contemporary Visual Arts Practice
How does the contemporary art world work? Premised on the idea that there are many art worlds, this course examines global and local contemporary artistic practices, theories, histories and institutions, exploring the practices and discourses that constitute these worlds. No prior knowledge or experience of contemporary art is assumed.
Prerequisite: 60 points passed

FINEARTS 211G 15 Points
Understanding Contemporary Fashion Design
Investigates the relationship between fashion design and identity to build understanding of the increasing rapidity of clothing change as both the product of individual choice and the manifestation of a need for community. The emphasis will be on the consumption of fashion and its relationship to the human body with reference to fashion theory in the context of the broader literatures of gender, class and ethnicity.
Prerequisite: 60 points passed

FINEARTS 212 30 Points
Studio Practice 2
Focuses on the conditions of reception relevant to students' work including ways meaning is created; how art works are read; and the significance of presentation strategies.
Prerequisite: FINEARTS 207
Restriction: FINEARTS 202, 206, 208

FINEARTS 220 15 Points
Nga Toi Taketake: Fibre and Textile
Engages students with concepts, materials and methods of making that are indigenous to Aotearoa. Explores ways of developing and creating contemporary art in fibre and textile.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 221 15 Points
Nga Toi Taketake: Kōhatu / Stone
Engages students with concepts, materials and methods of making that are indigenous to Aotearoa. Explores ways of developing and creating contemporary art in kōhatu/stone.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 222 15 Points
Printed Matter: Printmaking
Explores contemporary printed matter. Students will work with a range of traditional printmaking technologies that may include monoprint, screen print, woodcut, and photogravure as well as expanded, experimental processes using digital and laser cutting technologies.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 223 15 Points
Printed Matter: Publication
Introduces students to print publication as a site of contemporary practice exploring ways in which artists, designers, and activists have made use of the printed form as a social medium. Students will experiment with the format and materiality of printed media, and the experience of viewing, through the production of self-published works such as artist's books, posters, and zines. Technical workshops will develop skills in digital and hand-made print and production methods.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 224 15 Points
Time-Based: Moving Image
Offers a practical exploration of moving image production. Students will learn camera techniques and editing skills to support the development of experimental video and audio while learning how digital workflow and project management can affect a creative outcome. Students can work collaboratively or individually, using a range...
of filmmaking equipment and editing software to create moving image works.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 225  
Time-Based: Action and Documentation

Considers how documentation informs our understanding of time-based action and/or performance art and what might be done to retain and communicate the effects of a passing event. Students explore their own time-based practices and develop appropriate methods of documentation including video, photography, drawing, and sound recording. Students can work both collaboratively and individually, using documentation as a visual and conceptual tool for the creation of artworks.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 226  
Photography: Digital Photography

Covers the conceptual and practical possibilities of digital photography. Students will experiment with a wide range of image-making technologies including SLR digital cameras. Lighting considerations and a range of options for printing digital photos will be explored. Contemporary photographic practices will be covered within the context of global image circulation.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 227  
Photography: Analogue Photography

Provides students with an overview of analogue photographic processes. Students will gain skills in darkroom photography, including a practical understanding of film camera technologies, developing and printing processes, and the use of darkroom techniques to refine and manipulate photographic imagery.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 228  
Painting: Materiality and Process

Considers the various ways in which actions, processes, and materials can shape a painting practice. Covers a range of painterly actions and a self-generated list of ‘paint-related’ verbs (to roll, to smudge, to scrape). Students will create a ‘catalogue’ of marks and manipulations of paint. They will then develop these ideas through a studio practice which explores abstraction, materiality, and considerations of form. A broad range of traditional, modern and expanded paint properties and mediums will be considered.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 229  
Painting: Painted Images

Explores contemporary techniques of still life and representational painting as a means of re-thinking visual histories. Students will gather and arrange source materials and object references and explore a range of painted responses. Emphasises the construction and preparation of supports and surfaces, colour theory, and the methods and mediums that support painting practice.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 230  
Sculpture: Constructing and Fabricating

Based in the metal and wood workshops, this course will guide students in the exploration of materials and construction processes. Develop sculptural works in metal or wood. Students will use tools and techniques such as cutting, joining and welding.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 231  
Sculpture: Shaping and Casting

Engages with tactile processes of object-making and reproduction to create works of contemporary art using clay, wax, and other materials. Students will make reproductions of their handmade objects using a range of casting processes and explore how multiples impact the form and content of artworks.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 232  
Performance: Communication, Identity and Community

Focuses on performance art as a means of communication. Examines the ways in which performance can be integral to an artistic and cultural identity, contemporary life, and community.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 234  
Creative Careers: Pathways

Emphasises the practical aspects of establishing a career as a creative practitioner. Covers writing proposals, applications, artist’s statements, and other practical tools for a creative career. Focuses on the ability to communicate ideas effectively to peers and professional networks.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 235  
Creative Careers: Making Exhibitions

Students will consider the types of roles and structures that exist in contemporary art worlds, with a focus on curatorial practice and exhibition making from the perspective of the artist. Engaging with the local art world, students will develop a critically informed exhibition proposal for a real-world context.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 236  
Special Topic: Drawing as Creative Thinking

An introduction to approaches to drawing and its relationship with contemporary practices in art and design, including digital and analogue drawing techniques. The course explores drawing as a conceptual method of thinking through making.  

FINEARTS 240  
Indigeneity and Culture: Ko wai au?

Encourages the development and creation of artworks that explore whakapapa, whakawhanaungatanga, genealogy, and relationality as the foundation of creative practice in the contexts of Aotearoa and Te-Moana-Nui-a-Kiwa. Related indigenous methodologies and concepts will be explored.  
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112
FINEARTS 241 30 Points
Indigeneity and Culture: Power and Place
Explores and examines the ongoing impact of colonisation, imperialism, and migration through art making. Related indigenous methodologies and concepts will be explored.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 242 30 Points
Image, Object and Materiality: What is an Image?
Addresses image-making in a digital world. Explores the relation between the fabrication of individual images and their circulation through mass media using different mediums. Reflection on the different ways artists might embrace or subvert the profusion of internet imagery.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 243 30 Points
Image, Object and Materiality: What is an Object?
Addresses object-making in a digital world. Responds to the immaterial condition of internet culture, students will generate sculptural objects that exist in real space. Reflection on materiality and mediation in contemporary culture.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 244 30 Points
Embodiment, Identity and Agency: Art and Audience
Explores the role of the audience through a creative project, as well as examining the work of artists and writers who have challenged assumptions about art production and reception. Aspects of cultural safety and the ethics of working with others will also be addressed.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 245 30 Points
Embodiment, Identity and Agency: Art and the Self
How is identity produced? Explores key concepts of fluidity, intersectionality, body image, fashion, gender and persona, in relation to photography, film, art, and fashion.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 246 30 Points
Systems, Ecologies and Environments: Art in the Anthropocene
Students will undertake a studio art project that responds to the challenges of the Anthropocene and climate change. The course explores related art and ideas from Aotearoa and overseas.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 247 30 Points
Systems, Ecologies and Environments: Embodied Nature
Explores our place as a species within a broader ecological framework. Enables students to reflect on the limitations proposed by ways of thinking that separate self from world. Through studio practice and artistic research, develops an enhanced awareness of and sensitivity to living systems.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 248 30 Points
Technology and Material Futures: Mixed Realities
Considers virtual and tactile methods of production in contemporary art. Investigates the tension where the physical and virtual worlds are woven together. In mixed realities, the line between analogue and digital artmaking is blurred. This course provides an opportunity to experiment with technologies which might include 3D printing, real-time and interactive technologies, laser cutting, digital casting, and 3D scanning.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 249 30 Points
Technology and Material Futures: World-making
Focuses on the idea that a key driver of creative practice is the seeking out and imagining of alternative models for living, this course provides students with the opportunity to engage in world-making. Students generate and produce artworks that explore new worlds. Provides an understanding of how material affects and conceptual propositions work together to produce meaning in an artwork.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 250 30 Points
Special Topic

Stage III

FINEARTS 302 30 Points
Studio 3.1
Builds on the conceptual, material, technical, and contextual work undertaken in Studio 2. Students will explore and develop, through studio activities, a range of methodologies required to generate and sustain an independent practice. Students are required to pursue open-ended exploration and critical analysis within their making and thinking with an emphasis on experimentation and reflexivity.
Prerequisite: FINEARTS 201, 202, 203, 206 or FINEARTS 200 Corequisite: FINEARTS 304

FINEARTS 303 30 Points
Studio 3.2
Extends the self-directed aspect of FINEARTS 301 through work on one or two long-term personal projects. A key focus is the identification of and response to a contextual issue relevant to contemporary art and/or design. Students will begin to develop an understanding of their practice within the context of a wider field of contemporary art and design practices.
Prerequisite: FINEARTS 302, 304

FINEARTS 304 15 Points
Studio 3.3
Builds on the different disciplines or areas of contemporary discourse explored in Studio 2. Students will study issues relevant to their individual practice and analyse, extend and develop an understanding of them through readings, discussions and the production and presentation of studio work.
Prerequisite: FINEARTS 201, 202, 203, 206 or FINEARTS 200 Corequisite: FINEARTS 302 or 303

FINEARTS 305 15 Points
Critical Practices
Present selected forms of contemporary art practices and their related concepts. Considers these practices to enable a critical understanding of a broad range of contemporary art production and its relevance to students’ own emerging practice. Provides a critical introduction to a range of artists’ writing. Complements FINEARTS 308 and 309 by critically exploring the value of certain frameworks,
FINEARTS 306
Special Topic
FINEARTS 307
Fields of Practice 4
Building on the media areas explored in Studio 2, this course allows students to study and explore an idea or issue in and around an area of contemporary art and/or design discourse. Students will investigate, analyse and develop the selected idea or issue through readings, discussions alongside the production and presentation of studio work.
Prerequisite: FINEARTS 101, 102, 103, 104, 201, 202, 203, 206, 302, 304
Corequisite: FINEARTS 303
Restriction: FINEARTS 309

FINEARTS 308
Studio Practice 3
Builds upon the conceptual, material, technical and contextual work undertaken in Studio Practice 2. Students will explore and develop a range of methodologies that will enable them to understand the principle of a self-directed practice. Students are required to pursue open-ended exploration and critical analysis within their studio work, with an emphasis on experimentation and reflexivity. Consists of a range of supervised briefs embracing media specific, interdisciplinary, Māori, local and global approaches to creating art works. Students will also engage in focused contextual study in an area relevant to their interests.
Prerequisite: FINEARTS 204, 207, 208
Restriction: FINEARTS 302, 304

FINEARTS 309
Studio Practice 4
Extends the self-directed aspect of FINEARTS 308 through work on one or two long-term personal projects. A key focus is the identification of, and response to, a contextual issue or mode of practice relevant to contemporary art. Students will begin to develop an understanding of their own practice within the context of a wider field of local and global contemporary art, and contemporary Māori Art practices.
Prerequisite: FINEARTS 308
Restriction: FINEARTS 303, 307, 309

FINEARTS 310
Studio Practice 3
Builds upon the conceptual, material, technical and contextual work undertaken in Studio Practice 2. Students will explore and develop a range of methodologies that will enable them to understand the principle of a self-directed practice. Students are required to pursue open-ended exploration and critical analysis within their studio work, with an emphasis on experimentation and reflexivity. Consists of a range of supervised briefs embracing media specific, interdisciplinary, Māori, local and global approaches to creating art works.
Prerequisite: FINEARTS 204, 207, 208
Restriction: FINEARTS 302, 304, 308

FINEARTS 311
Studio Practice 4
Extends the self-directed aspect of FINEARTS 308 through work on one or two long-term personal projects. A key focus is the identification of, and response to, a contextual issue or mode of practice relevant to contemporary art. Students will begin to develop an understanding of their own practice within the context of a wider field of local and global contemporary art, and contemporary Māori Art practices.
Prerequisite: FINEARTS 308
Restriction: FINEARTS 303, 307, 309

FINEARTS 320
Creative Methods for Studio Practice
Explores methods for studio practice through an introduction to different approaches for making and thinking creatively. Methods are drawn from the visual arts as well as examples located in poetic, embodied and philosophical orientations to the world. Students apply these in relation to their artistic practice, as well as experiment with developing their own working methods.
Prerequisite: FINEARTS 204, 207, 208, or FINEARTS 204, 207, 212, or FINEARTS 204, 208, 209, or FINEARTS 110-113, 90 points from FINEARTS 220-250

FINEARTS 321
45 Points
FINEARTS 321A 22.5 Points
FINEARTS 321B 22.5 Points

FINEARTS 322
15 Points
FINEARTS 322A 7.5 Points
FINEARTS 322B 7.5 Points

Research Essay: Making Sense of Practice
A response to the capstone project, this course focuses the research essay within relevant local, international, and historical fields of practice. Considers different ways of writing and discussing art, and how different types of art may be served by different forms of interpretation.
Prerequisite: FINEARTS 320
To complete this course students must enrol in FINEARTS 321 A and B, or FINEARTS 321

Stage IV
FINEARTS 402 30 Points
FINEARTS 403 30 Points

Studio 4.1
Places emphasis on students’ understanding and articulation of concepts and discourse surrounding their work. Promotes the development of independent artistic and/or design philosophies and their effective use in relation to studio practice.
Prerequisite: FINEARTS 302, 303, 304 and 305 or FINEARTS 300
Corequisite: FINEARTS 403

FINEARTS 404 30 Points
Studio 4.2
Advances students’ understanding of the way meaning effects are produced by things done or made and the way they are presented. Develops students’ personal methodology through the production of a coherent body
of work supported by a considered use of studio research and explorative work.  
Prerequisite: FINEARTS 302, 303, 304 and 305 or FINEARTS 300  
Corequisite: FINEARTS 402

FINARTS 404  
30 Points  
Studio 4.3  
Further develops students’ understanding and articulation of concepts and discourse surrounding their studio work. Promotes the development of independent artistic and/or design philosophies and their effective use in relation to studio practice.  
Prerequisite: FINEARTS 402  
Corequisite: FINEARTS 403 or 405

FINARTS 405  
30 Points  
Studio 4.4  
Directed at the synthesis and refinement of previous studio practice towards the production and presentation of a body of studio work that demonstrates advanced understandings and professional capabilities. Emphasis placed on the development of presentation strategies appropriate to the exhibition and/or professional submission of work.  
Prerequisite: FINEARTS 403  
Corequisite: FINEARTS 402 or 404

FINARTS 406  
30 Points  
Special Topic  
A development of Part III Studio courses in selected fields.

FINARTS 407  
30 Points  
Special Topic  
A development of Part III Studio courses in selected fields.

FINARTS 408  
60 Points  
Studio 4 A  
Assists students to develop their creative practice through the production of a coherent body of studio-based work. This will be supported by considered development of an artistic and/or design philosophy and its effective use in relation to studio practice. The course encourages a solid understanding of presentation strategies appropriate to the exhibition and/or professional presentation of creative work.  
Prerequisite: FINEARTS 305, 308, 309  
Restriction: FINEARTS 402, 403

FINARTS 409  
60 Points  
Studio 4 B  
Building on Studio 4A this course will assist students to develop further their creative practice through the production of a coherent body of studio-based work. Students will further develop their understanding and articulation of concepts and discourses relevant to their studio work. The course promotes a reflexive understanding of creative practice and strategies for its professional presentation.  
Prerequisite: FINEARTS 408  
Restriction: FINEARTS 404, 405

Postgraduate 700 Level Courses

FINARTS 758A  
60 Points  
Creative Practice Methodologies  
A guided exploration of a range of key research methodologies relevant to contemporary art. Using a seminar format, this course will provide students with the research-specific, discursive and academic skills necessary for advanced creative practice.  
Corequisite: FINARTS 759

FINARTS 759  
45 Points  
FINARTS 759A  
30 Points  
FINARTS 759B  
15 Points  
Studio  
An advanced studio course in which students complete a significant studio art project that demonstrates a sustained level of practical and conceptual enquiry.  
To complete this course students must enrol in FINARTS 759 A and B, or FINARTS 759

FINARTS 761  
30 Points  
Contemporary Practice 1  
A studio-based investigation of a specific medium of contemporary practice. Students will develop advanced conceptual capabilities in that medium and realise finished works to an advanced standard. These specialised outcomes will be informed by complementary acquisition of advanced technical skills and theoretical knowledge in co-requisite courses focused on the same medium.  
Corequisite: FINARTS 762 or 763

FINARTS 762  
15 Points  
Creative Technology 1  
A workshop-based exploration of a specific medium of contemporary practice. Students will develop advanced technical skills in that medium as an area of targeted inquiry. These advanced skills will complement the attainment of specialised creative studio capabilities and advanced theoretical knowledge in co-requisite courses focused on the same medium.

FINARTS 763  
15 Points  
Theories of Practice 1  
A seminar-based interrogation of contemporary theories and contexts pertinent to a specific medium of contemporary practice. Students will develop an advanced understanding of key critical and contextual analysis in that medium. This understanding will complement the attainment of specialised creative studio capabilities and acquired advanced technical skills focused on the same medium.

FINARTS 764  
30 Points  
Contemporary Practice 2  
A studio-based investigation of a specific medium of contemporary practice. Students will develop advanced conceptual capabilities in that medium and realise finished works to an advanced standard. These specialised outcomes will be informed by complementary acquisition of advanced technical skills and theoretical knowledge in related courses focused on the same medium.  
Corequisite: FINARTS 765 or 766

FINARTS 765  
15 Points  
Creative Technology 2  
A workshop-based exploration of a specific medium of contemporary practice. Students will develop advanced technical skills in that medium as an area of targeted inquiry. These advanced skills will complement the attainment of specialised creative studio capabilities and
advanced theoretical knowledge in co-requisite courses focused on the same medium.

FINEARTS 766  
**Theories of Practice 2**  
A seminar-based interrogation of theories and contexts pertinent to a specific medium of contemporary practice. Students will develop an understanding of key critical and contextual analysis in that medium. This understanding will complement the attainment of specialised creative studio capabilities and acquired advanced technical skills focused on the same medium.

FINEARTS 767  
FINEARTS 767A  
FINEARTS 767B  
**Studio - Level 9**  
A supervised studio course in which students complete a significant studio art project producing an original outcome at an advanced level that demonstrates a sustained level of independent, practical and conceptual enquiry.  
**Corequisite:** FINEARTS 782
To complete this course students must enrol in FINEARTS 767 A and B, or FINEARTS 767

FINEARTS 768  
**Studio Practice Essay - Level 9**  
A supervised, independent research essay in which students evaluate and analyse their practice and its contexts to an advanced level.

FINEARTS 769  
**Research Methodologies - Level 9**  
A guided exploration of key research methodologies relevant to contemporary art and art writing. Students draw upon these methodologies to inform and critically investigate their current and ongoing independent research in the discipline at an advanced level.

FINEARTS 770A  
FINEARTS 770B  
**Studio - Level 9**  
A supervised, independent studio-based investigation of an aspect of contemporary art practice to an advanced level.  
**Prerequisite:** FINEARTS 770 and 45 points from FINEARTS 761-769, or FINEARTS 790  
**Corequisite:** FINEARTS 780
To complete this course students must enrol in FINEARTS 770 A and B

FINEARTS 780A  
FINEARTS 780B  
**Studio Research Essay - Level 9**  
A supervised, independent research essay that critically investigates a topic of pertinence to an aspect of contemporary art practice.  
**To complete this course students must enrol in FINEARTS 780 A and B**
FINEARTS 798A 60 Points
FINEARTS 798B 60 Points
Fine Arts Research Portfolio - Level 9
An advanced research portfolio in fine arts and/or design. Prerequisite: 8 or higher in FINEARTS 756 or 790 or 795
To complete this course students must enrol in FINEARTS 798 A and B

Heritage Conservation

Postgraduate 700 Level Courses
HERCONS 700 15 Points
Heritage Processes
Examines heritage conservation legislation, policy, guidelines and processes. Includes international context as well as New Zealand laws and processes. Restriction: ARCHGEN 750
HERCONS 701 15 Points
Heritage Assessment and Conservation Planning - Level 9
Examines the assessment of cultural heritage value and the use and preparation of conservation plans to guide heritage conservation work. Coursework comprises the researching and writing of a conservation plan. Restriction: ARCHGEN 751
HERCONS 702 15 Points
Conservation of Materials
Examines the theory and practice of conserving materials commonly found in heritage buildings and artefacts, including stone, brick, timber, concrete and steel. Restriction: ARCHGEN 752
HERCONS 703 15 Points
Diagnosis and Adaptation
Examines the investigation of existing building fabric, diagnosis of issues impacting upon the state of repair or the level of comfort, and the adaptation of heritage buildings, including strengthening, energy upgrading, reuse and the design of additions and alterations. Restriction: ARCHGEN 753
HERCONS 790 30 Points
Research Project - Level 9
A research project in the field of heritage conservation which may include an internship. Placements and topics to be approved by the Head of School of Architecture and Planning. Prerequisite: ARCHGEN 750, 751, or HERCONS 700, 701 Restriction: ARCHGEN 754

Music

Stage I
MUS 103 15 Points
Music Fundamentals
A practical and theoretical overview of the fundamental written and aural skills required for music literacy. This course prepares students for MUS 104 and further university-level study and practice in music. Restriction: MUS 100, may not be taken with or after passing MUS 101, 104, 174, 184, 284
MUS 104 15 Points
Music Literacies
The development of music theory, aural skills and perception necessary to be an effective musician. The study of basic theory, harmony, analysis, aural perception and musicianship with exemplars from classical, jazz and popular music genres. Includes a choral component. Prerequisite: MUS 103
MUS 106 15 Points
Ensemble Communication and Direction
An examination of the skills and techniques required for the communication and direction of ensembles including orchestras, bands, jazz and contemporary ensembles, choirs and other performing arts contexts. Includes knowledge of repertoire style, genre and period associated with directing music.
MUS 110 15 Points
Composition 1
Foundational studies in music composition and sonic arts. Modular content includes: rhythm and meter, melody and harmony, structure and gesture, time and meter, synthesis and notation and repertoire study. Students may complete Composition 1 and Composition 2 in any order.
MUS 111 15 Points
Composition 2
Foundational studies in music composition and sonic arts. Modular content includes: rhythm and form, timbre and texture, aesthetics and function, style and idea, material and manipulation, creative planning and processes and the composer in society. Students may complete Composition 1 and Composition 2 in any order.
MUS 120 15 Points
Performance 1
Individual lessons and performance classes on an approved instrument or voice. (See course outline and instrumental/vocal syllabus for specific curriculum requirements). Prerequisite: Entrance is by audition. Departmental approval
MUS 121 15 Points
Performance 2
Continuation of work undertaken in MUS 120. (See course outline and instrumental/vocal syllabus for specific curriculum requirements.) Prerequisite: MUS 120
MUS 126 15 Points
Jazz History
A critical examination of musical styles, performers, cultural and industrial contexts surrounding jazz musics from the mid-nineteenth century, including ragtime, through New Orleans, swing, be-bop, cool, free, third-stream and postbop. An in-depth study of primary exponents of various styles. Restriction: MUS 176, 276
MUS 130 15 Points
Introduction to Music Technology
A survey of digital technologies available to assist producing, composing, and performing music. Topics may include: music production (Digital Audio Workstation, MIDI and audio recording/editing, synthesis, and multi-track mixing), sonic art (sound-based composition, visual music, interactive installations), and computer music (sound design, live coding, algorithmic composition). Restriction: MUS 119
MUS 143 15 Points
Contemporary Music Culture
An introductory overview of today’s diverse musical culture. Explores contemporary trends in so-called ‘classical’ music, jazz, production and popular genres, as well as the impact...
of technological innovation (sound recording, film, social media) on our day-to-day musical activities. Emphasis is placed on creative practice in music and the performing arts.

MUS 144G 15 Points

Turning-points in Western Music
A study of significant people, major discoveries and inventions, and key factors (artistic, intellectual, social, technical) that were important agents of change in Western music. No previous knowledge of music is assumed.

MUS 145 15 Points

Western Music Across the Centuries
A comprehensive overview of the enormously rich repertory of Western music, from the beginnings of a literate tradition, through the classical giants, to the present day. Prerequisite: MUS 143

MUS 149 15 Points

MUS 149G 15 Points

Rock to Reggae: Tracking Popular Music in New Zealand
An introduction to New Zealand’s home-grown popular music, from the 1950s to the present day. A broad range of musical styles will be considered and situated within various social contexts. The issue of cultural identity in music – at national and local levels – will also be explored.

MUS 162 15 Points

Introduction to Music Teaching and Learning
A conceptual and practical introduction to music teaching and learning in its various forms and contexts. A survey of the field including studio pedagogy, music education methods, school music, community music, lesson planning, composition and improvisation pedagogy, and foundational knowledge of music teaching and learning. Restriction: MUS 160

MUS 170 15 Points

Jazz Performance 1
The development of instrumental technique and improvisational skills though in-depth study of scales, rhythm, harmony and relevant musical analysis. This course prepares students who major in Jazz Performance and includes 1:1 tuition and group based improvisation classes. Prerequisite: Entrance is by audition. Departmental approval. Corequisite: MUS 197

MUS 171 15 Points

Jazz Performance 2
Continuation of the work undertaken in MUS 170. Prerequisite: MUS 170 or JAZZ 101 and 107

MUS 180 15 Points

Creative Practice in Popular Music 1
Exploration of ideas and processes in the creation and presentation of popular music through workshops, seminars and group discussion. Students will write songs, compose music, use music recording and production techniques and present aspects of their coursework in live performance. Prerequisite: Entrance is by audition. Departmental approval

MUS 181 15 Points

Creative Practice in Popular Music 2
Continuation of work undertaken in MUS 180. Prerequisite: MUS 180

MUS 188 15 Points

Making Words Sing: The Art and Soul of Songwriting
A widescreen survey of contemporary songwriting, its various origins, directions, themes and principles with specific reference to the work, styles and lyrical techniques of prominent songwriters from the past half century. Songwriting from English music hall, through the Beatles and Bob Dylan to contemporary singer-songwriters and today’s hip-hop stars.

MUS 190 15 Points
MUS 190A 7.5 Points
MUS 190B 7.5 Points

Auxiliary Performance Study 1
Tuition on an approved traditional or computer-based instrument or voice. Prerequisite: Entrance is by audition. Departmental approval. To complete this course students must enrol first in MUS 190A and then 190B, or MUS 190

MUS 191 15 Points
MUS 191A 7.5 Points
MUS 191B 7.5 Points

Classical Ensembles 1
The development of performance skills through ensemble work including chamber music, string orchestra, wind orchestra, flute choir, contemporary ensembles and other combinations. To complete this course students must enrol first in MUS 191A and then 191B, or MUS 191

MUS 192A 7.5 Points
MUS 192B 7.5 Points

Performance Skills for Instrumentalists 1
The development of a range of instrumental performance skills beyond those gained in the instrumental studio including collaborative piano, repertoire studies, ensemble techniques, basic pedagogy, keyboard skills, accompanying and other applications. To complete this course students must enrol first in MUS 192A and then 192B

MUS 193A 7.5 Points
MUS 193B 7.5 Points

Performance Skills for Singers 1
The introduction of vocal practices that help voice students develop and sustain a professional career. This course aims to give students the knowledge and practical experience necessary to develop and maintain vocal health in diverse performing contexts. To complete this course students must enrol first in MUS 193A and then 193B

MUS 194 15 Points
MUS 194A 7.5 Points
MUS 194B 7.5 Points

Historical Performance 1
Practical studies in historical performance on an approved instrument or voice. To complete this course students must enrol first in MUS 194A and then 194B, or MUS 194

MUS 195 15 Points
MUS 195A 7.5 Points
MUS 195B 7.5 Points

Popular Music Ensembles 1
The development of performance skills through ensemble work in popular music. To complete this course students must enrol first in MUS 195A and then 195B, or MUS 195
MUS 196A  7.5 Points
MUS 196B  7.5 Points
**Popular Music Performance 1**
The development of instrumental technique and interpretative skills through the in-depth study of scales, rhythm, harmony and the relevant musical analyses of set works. This course prepares students who major in Popular Music with 1:1 instrumental tuition and group-based classes and/or workshops.
*Prerequisite: Audition required
*Restriction: MUS 182, 183
*To complete this course students must enrol first in MUS 196A and then 196B

MUS 197A  7.5 Points
MUS 197B  7.5 Points
**Jazz Ensembles 1**
The application of instrumental and improvisational techniques through performance practice. This course develops stylistic, interpretive and literary musical skills through a variety of large and small ensembles.
*To complete this course students must enrol first in MUS 197A and then 197B

**Stage II**

MUS 202  15 Points
**Materials of Music 4**
Continuation of work begun in MUS 201, including the study of harmony and analysis, aural skills and musicianship.
*Prerequisite: MUS 201

MUS 203  15 Points
**Classical Theory and Musicianship 1**
Continuation of work begun in MUS 104 on music theory, aural skills and musicianship. Includes a choral component.
*Prerequisite: MUS 104

MUS 204  15 Points
**Classical Theory and Musicianship 2**
Continuation of work in MUS 203 on music theory, aural skills and musicianship. Includes a choral component.
*Prerequisite: MUS 203

MUS 205  15 Points
**Classical Theory and Musicianship 3**
Continuation of work in MUS 204 on music theory, aural skills and musicianship. Includes a choral component.
*Prerequisite: MUS 204

MUS 206  15 Points
**Conducting 1**
The study of conducting including listening to and writing about a wide variety of music from all historical periods. The practical component of this course concentrates on posture, patterns and gesture. Studies include examples from choral and orchestral repertoire.
*Prerequisite: MUS 106

MUS 207  15 Points
**Conducting 2**
An introduction to rehearsal planning and management, baton technique, the development of conducting gesture, and advanced score preparation. Repertoire includes classical symphonies, a cappella repertoire and a selection of choral/orchestral works.
*Prerequisite: MUS 206

MUS 210  15 Points
**Composition 3**
Applied concepts and techniques in instrumental/
Course Prescriptions

2024 Calendar

Faculty of Creative Arts and Industries

Course Prescriptions

An initial exploration of music psychology research including music therapy research, neuroscience, neuropsychology and music psychology. Examines the development of musical skills through life with an emphasis on community and pedagogical applications.

**MUS 244**

**Music in Society**

The study of music and text in society using a wide-angled lens to explore how it can be intertwined with issues of politics, gender, religion, race, psychology and class. Examples will include music and text in diverse genres and from various places.

**Prerequisite:** MUS 143 or 30 points from European Studies, German, Italian, Spanish, or Transnational Cultures and Creative Practice

**MUS 245**

**History, Music and Ideas: Rethinking the Classical Canon**

Raises issues specific to classical music in one or more concentrated historical periods. Students will get to know a designated repertoire of musical works, whilst exploring critical topics such as periodisation, canon formation and reception history.

**Prerequisite:** MUS 140 or 143 or 145 or 176

**Restriction:** MUS 240, 345

**MUS 246**

**Experimental Music in the 20th and 21st Centuries**

Tracks definitions and developments in 'experimental' music since the early twentieth century. Concepts of modernism and postmodernism as related to musical composition, performance and listening are the central focus.

**Prerequisite:** MUS 140 or 143 or 145 or 176

**Restriction:** MUS 346

**MUS 247**

**Genre and Convention in Instrumental Music**

Explores the complexities of musical style, aesthetics and reception as related to one or more instrumental genres (such as the symphony, the string-quartet or piano prelude) and related conventions.

**Prerequisite:** MUS 140 or 143 or 145 or 176

**Restriction:** MUS 347

**MUS 248**

**Music on Stage and Screen**

Considers the role of music in one or more of the dramatic arts – opera, musical, ballet, modern dance, film – in any given historical period. Offers opportunity to study specific repertoire in some detail, as well as to investigate music's contribution to dramatic spectacle, characterisation, narrative and non-narrative structures.

**Prerequisite:** MUS 140 or 143 or 145 or 176

**Restriction:** MUS 242, 348

**MUS 249**

**Composing with Computers**

An introduction to the study and use of computers to compose and generate music. Topics include: algorithmic composition, sound design, algorithmic music, artificial intelligence for music creation, live coding.

**Prerequisite:** 30 points at Stage I in Music

**Restriction:** MUS 210

**MUS 250**

**Special Topic**

**Prerequisite:** 30 points passed in Music

**MUS 252**

**Music Psychology and Development**

An initial exploration of music psychology research including editing, band and ensemble recording, analogue and digital production, synthesis, mixing and mastering.

**Prerequisite:** MUS 230

**Restriction:** MUS 219

**MUS 265**

**Crafting a Portfolio Career in Music**

A study of music career profiles with an emphasis on self-management, performance careers, pedagogical careers, technology, music marketing and distribution, legal issues, entrepreneurship and project leadership in the community. Students will reflect on their own development and devise a project plan for implementation.

**Prerequisite:** 30 points passed in Music

**MUS 270**

**Jazz Performance 3**

The development of instrumental technique and improvisational skills through in-depth study of scales, rhythm, harmony and relevant musical analysis. This course prepares students who major in Jazz Performance and includes 1:1 tuition and group based improvisation classes.

**Prerequisite:** MUS 171

**MUS 271**

**Jazz Performance 4**

Continuation of the work undertaken in MUS 270.

**Prerequisite:** MUS 270

**MUS 274**

**Jazz Theory and Musicianship**

An exploration of more advanced jazz theory and musicianship skills including aural and harmony. Coursework prepares students for the implementation of fundamental written theoretical skills. This course also includes a keyboard tutorial.

**Prerequisite:** MUS 104

**MUS 275**

**Jazz Composition and Arranging 1**

Composition and arranging in the jazz idiom exploring small ensemble and big band contexts. Scoring, voicing concepts and sectional writing that assist students in the development of a portfolio of work.

**Prerequisite:** MUS 274

**MUS 276**

**Jazz History**

A critical examination of musical styles, performers, cultural and industrial contexts surrounding jazz music starting from the mid-nineteenth century, including ragtime, through New Orleans, swing, be-bop, cool, free, third-stream and post-bop. An in-depth study of primary exponents of various styles.

**Prerequisite:** 30 points passed in Music

**Restriction:** MUS 126, 176

**MUS 277**

**Jazz Project 2**

Participation and development of pertinent skills towards the completion of a collaborative jazz music project.

**Prerequisite:** Departmental approval

**MUS 280**

**Creative Practice in Popular Music 3**

Specific exploration and the continued development of ideas and processes in the creation and presentation of popular music through workshops, seminars and group discussion. Students will write songs, complete arrangement exercises, use music recording and production...
techniques and present aspects of their coursework in live performance.
Prerequisite: MUS 104, 181

**MUS 281**  
**Creative Practice in Popular Music**  
Continuation of work undertaken in MUS 280.  
Prerequisite: MUS 280, 284

**MUS 282**  
**Popular Music Vocal Performance**  
The development of vocal technique and interpretative skills through the in-depth study of vocal production techniques pertinent to contemporary popular music vocal performance. The emphasis is on the development of practices to enhance the performance of original songs written by the students.
Prerequisite: MUS 183 or 196

**MUS 283**  
**Popular Music Performance 2**  
Continuation of the work undertaken in MUS 196. This course prepares students who specialise in Popular Music with 1:1 instrumental tuition and group-based classes. The emphasis is on the development of techniques and skills to enhance the performance of original songs written by the students.
Prerequisite: MUS 183 or 196
Restriction: JAZZ 232

**MUS 284**  
**Popular Music Theory and Musicianship 1**  
Training in practical musicianship and contemporary music writing skills pertinent to a popular music practitioner. Continued development of aural recognition skills.
Prerequisite: MUS 104 or 185
Restriction: MUS 285

**MUS 287**  
**Popular Music Theory and Musicianship 2**  
Further training in practical musicianship and contemporary music writing skills pertinent to a popular music practitioner. Continued development of aural recognition skills with an emphasis on musical analysis skills.
Prerequisite: MUS 284  
Restriction: MUS 285

**MUS 290**  
**MUS 290A**  
**MUS 290B**  
**Auxiliary Performance Study 2**  
Tuition on an approved traditional or computer-based instrument or voice.
Prerequisite: Entrance is by audition. Departmental approval
To complete this course students must enrol first in MUS 290A and then 290B, or MUS 290

**MUS 292A**  
**MUS 292B**  
**Performance Skills for Instrumentalists 2**  
The development of a range of instrumental performance skills beyond those gained in the instrumental studio including collaborative piano, repertoire studies, ensemble techniques, basic pedagogy, keyboard skills, accompanying and other applications.
To complete this course students must enrol first in MUS 292A and then 292B

**MUS 293A**  
**MUS 293B**  
**Performance Skills for Singers 2**  
Further development of vocal practices that help voice students develop and sustain a professional career. This course aims to give students the knowledge and practical experience necessary to develop and maintain vocal health in diverse performing contexts.
To complete this course students must enrol first in MUS 293A and then 293B

**MUS 294**  
**MUS 294A**  
**MUS 294B**  
**Historical Performance 2**  
Practical studies in historical performance on an approved instrument or voice.
To complete this course students must enrol first in MUS 294A and then 294B, or MUS 294

**MUS 295**  
**MUS 295A**  
**MUS 295B**  
**Popular Music Ensembles 2**  
The development of performance skills through ensemble work in popular music.
To complete this course students must enrol first in MUS 295A and then 295B, or MUS 295

**MUS 296**  
**Popular Music Performance Repertoire 1**  
Vocal or instrumental 1:1 tuition to develop performance skills for a range of popular music repertoire. Students will study set works, investigate a range of solo and ensemble contexts and advance their knowledge of expressive and interpretative performance techniques.

**MUS 297A**  
**MUS 297B**  
**Jazz Ensembles 2**  
The application of instrumental and improvisational techniques through performance practice. This course develops stylistic, interpretative and literary musical skills through a variety of large and small ensembles.
Prerequisite: MUS 197
To complete this course students must enrol first in MUS 297A and then 297B

**MUS 298**  
**MUS 298A**  
**MUS 298B**  
**Classical Ensembles 2**  
The development of performance skills through ensemble work including chamber music, string orchestra, wind orchestra, flute choir, contemporary ensembles and other combinations.
Restriction: MUS 291
To complete this course students must enrol first in MUS 298A and then 298B, or MUS 298

**Stage III**

**MUS 306**  
**Conducting 3**  
Opportunities to conduct a variety of ensemble situations including instrumental, choral/vocal, keyboard and voice, large choral ensemble, recitative and aria, and instrumental ensemble. A keyboard component develops skills needed for score preparation and rehearsals.
Prerequisite: MUS 207

**MUS 310**  
**Composition 5**  
Facilitation of the creative process in individual student
composers. Key concepts and techniques in instrumental/vocal composition and sonic arts will be developed and refined through the completion of projects as negotiated with supervisors. Each project will incorporate relevant technical exercises together with a study of influential composers and their methods. The end-of-semester portfolio may include works for solo instrument, voice, small and large ensemble, and sonic arts genres including multichannel acousmatic music and performance-based sonic art.

**Prerequisite:** MUS 211

**MUS 311**  
**Composition 6**  
A continuation of work undertaken in MUS 310.

**Prerequisite:** MUS 310

**MUS 314**  
**Orchestration**  
A continuation and expansion of the topics addressed in MUS 214. Studies will be broadened to include a stronger emphasis on orchestration, including technique and repertoire.

**Prerequisite:** MUS 214

**MUS 315**  
**Sonic Arts**  
An examination of compositional concepts and techniques relating to acousmatic music and performance-based sonic art. Topics will be investigated through engagement in individually negotiated creative projects supported with technical exercises and a review of relevant repertoire and literature.

**Prerequisite:** MUS 211 or 219

**MUS 320**  
**Performance 5**  
Further performance work, involving weekly individual lessons and performance classes. (See course outline and instrumental/vocal syllabus for specific curriculum requirements).

**Prerequisite:** MUS 221

**MUS 321**  
**Performance 6**  
Continuation of work undertaken in MUS 320.

**Prerequisite:** MUS 320

**MUS 322**  
**Performance Skills 4**  
Further development of a wide range of performance skills beyond those gained in the instrumental/vocal studio, including ensemble techniques, conducting, languages for singers, pedagogy, orchestral audition skills, second instrument study, musicians' health.

**Prerequisite:** MUS 223

**MUS 323**  
**Performance Skills 5**  
Further development of a wide range of performance skills beyond those gained in the instrumental/vocal studio, including ensemble techniques, conducting, languages for singers, pedagogy, orchestral audition skills, second instrument study, musicians' health.

**Prerequisite:** MUS 322

**MUS 324**  
**Advanced Studies in Performance Practice**  
Studies in aspects of historical performance practice, using eighteenth century treatises as well as secondary sources. Exploration of topics including rhetoric, gesture, baroque dance, ornamentation and articulation patterns. Study of an historic instrument may be available as an elective within this course.

**Prerequisite:** MUS 224

**MUS 330**  
**Music Production 3**  
Instruction in the use of the School of Music's professional-level multichannel recording studios supported by practical exercises in popular music production. Topics include: vocal, guitar, and drum recording; synthesis; industry-standard production techniques; and mastering. Coursework will require coordination with performers both within and outside the class.

**Prerequisite:** MUS 219 or 231

**Restriction:** MUS 318

**MUS 331**  
**Music Production 4**  
A continuation and expansion of the topics addressed in MUS 330 including collaborative projects that concentrate on the production of a popular music 'single', including the professional and legal issues associated with high-level studio production. Coursework will require coordination with performers both within and outside the class.

**Prerequisite:** MUS 318 or 330

**Restriction:** MUS 319

**MUS 332**  
**Music Production Project 1**  
An advanced music production and engineering research project, in which an investigation into professional, technological and industrial issues is conducted through practical experience in a professional setting.

**Prerequisite:** MUS 219 or 231

**Restriction:** MUS 355

**MUS 333**  
**Music Production Project 2**  
An advanced music production and engineering research project, in which an investigation into professional, technological and industrial issues is conducted through practical experience in a professional setting.

**Prerequisite:** MUS 219 or 330

**Restriction:** MUS 356

**MUS 334**  
**Sound Design for Film and Video Games**  
A survey of aesthetic theory, repertoire and techniques associated with the industry practice for composing soundtracks for film and video games.

**Prerequisite:** 15 points from MUS 211, 230

**MUS 340**  
**Sound, Style and Syntax**  
A study and in-depth analysis of repertoire from the eighteenth to the twenty-first centuries.

**Prerequisite:** MUS 140 and 201, or 143 and 204

**MUS 343**  
**Music in Aotearoa New Zealand**  
A focused profile of the development of music in Aotearoa New Zealand, concentrating on the issue of cultural identity and the contexts of music composition and performance across classical genres, jazz and pop, contemporary and traditional Māori music (including taonga pūoro), and music from Asia and the Pacific region.

**Prerequisite:** MUS 243 or 30 points at Stage II in Transnational Cultures and Creative Practice
MUS 345 15 Points
History, Music and Ideas: Rethinking the Classical Canon
Raises issues specific to classical music in one or more concentrated historical periods. Students will get to know in some detail a designated repertoire of musical works, whilst exploring critical topics such as periodisation, canon formation and reception history.
Prerequisite: 30 points at Stage II in Music
Restriction: MUS 240, 245

MUS 346 15 Points
Experimental Music in the 20th and 21st Centuries
Tracks definitions and developments in 'experimental' music since the early twentieth century. Concepts of modernism and postmodernism as related to musical composition, performance and listening are the central focus.
Prerequisite: MUS 140 or 143 or 145, and 30 points from Stage II in Music
Restriction: MUS 246

MUS 347 15 Points
Genre and Convention in Instrumental Music
Explores the complexities of musical style, aesthetics and reception as related to one or more instrumental genres (such as the symphony, the string-quartet or piano prelude) and related conventions.
Prerequisite: MUS 140 or 143 or 145, and 30 points from Stage II in Music
Restriction: MUS 247

MUS 348 15 Points
Music on Stage and Screen
Considers the role of music in one or more of the dramatic arts – opera, musical, ballet, modern dance, film – in any given historical period. Offers opportunity to study specific repertoire in some detail, as well as to investigate music's contribution to dramatic spectacle, characterisation, narrative and non-narrative structures.
Prerequisite: MUS 140 or 143 or 145, and 30 points from Stage II in Music
Restriction: MUS 242, 248

MUS 349 15 Points
Topic in World Music
An intensive performance-based course that focuses on a specific regional musical tradition.
Prerequisite: 30 points at Stage II in Music

MUS 355 15 Points
Special Topic: Music Futures
Prerequisite: 30 points at Stage II in Music

MUS 356 15 Points
Special Topic: Ragas of India
Prerequisite: 30 points at Stage II in Music

MUS 357 15 Points
Special Topic
Prerequisite: 30 points at Stage II in Music

MUS 358 15 Points
Musical Interface Design
Design, craft, and development of new technologies for music performance. Students will develop skills required to engage in the creation of interactive installations, digital musical instruments, augmented instruments, and mobile apps. Topics include: theory and practice of musical interface design, audio programming, converting body gestures into sound via digital mapping.
Prerequisite: 30 points at Stage II in Music or Departmental approval

MUS 359 15 Points
Special Topic
Prerequisite: 30 points at Stage II in Music

MUS 362 15 Points
Pedagogical Approaches for the School and Studio
An investigation into practical knowledge about music teaching and learning drawn from teacher experiences, pedagogical research, established music education methods, studio pedagogy and music classroom contexts. Students explore a range of music teaching scenarios and focus on specific areas of professional interest. This is a key preparatory course for postgraduate pedagogical study in studio pedagogy or school music teaching.
Prerequisite: 30 points at Stage II in Music

MUS 363 15 Points
Music and Community Engagement
An initial study of community music ranging from semi-professional music organisations and groups through to community music activities that emphasise access, participation and inclusion. An examination of the health and community benefits of music activity including healthy ageing, early development, and youth and mental health. The role of the community musician is also considered.
Prerequisite: 30 points at Stage II in Music or Transnational Cultures and Creative Practice

MUS 365 15 Points
Music Industry and Business
An overview of the music industry including music production, distribution and reception, music marketing and music project management. An examination of business practices in music including developing and managing events, tours, promotion, the Internet, the role of digital media, organising events and festivals and setting up successful pedagogical studios.
Prerequisite: 30 points at Stage II in Music

MUS 370 15 Points
Jazz Performance 5
The development of advanced instrumental technique and improvisational skills though in-depth study of scales, rhythm, harmony and relevant musical analysis. This course prepares students who major in Jazz Performance and includes 1:1 tuition and group based improvisation classes.
Prerequisite: MUS 271

MUS 371 15 Points
Jazz Performance 6
Continuation of the work undertaken in MUS 370 along with ensemble performances. Students prepare for a 50-minute public recital of their original arrangements, compositions and improvisations.
Prerequisite: MUS 370

MUS 372 15 Points
Jazz Ensembles 5
The application of instrumental and improvisational techniques through performance practice. This course develops stylistic, interpretive and literary musical skills through a variety of large and small ensembles. Students are placed by audition into a small group combo and a large group.
Prerequisite: MUS 273

MUS 375 15 Points
Jazz Composition and Arranging 2
Composition and arranging in the jazz idioms exploring small ensemble and big band contexts. Scoring, voicing
concepts and sectional writing that assist students in the
development of a portfolio of work.
Prerequisite: MUS 275

MUS 376 15 Points
Jazz Research
The preparation and presentation of essays and practical
seminars on a performer or period of stylistic development
related to principal instrument or major study.
Prerequisite: MUS 176 or 276

MUS 377 15 Points
Jazz Project
Participation and development of pertinent skills towards
the completion of a collaborative jazz music project.
Prerequisite: Departmental approval

MUS 380 15 Points
Creative Practice in Popular Music 5
More advanced exploration and the continued development
of ideas and processes in the creation and presentation of
popular music through workshops, seminars and group
discussion. Students will write songs, compose music, use
music recording and production techniques and present
aspects of their coursework in live performance.
Prerequisite: MUS 281

MUS 381 15 Points
Creative Practice in Popular Music 6
Continuation of work undertaken in MUS 380.
Prerequisite: MUS 380

MUS 382 15 Points
Popular Music Performance 3
Development of advanced performance techniques through
1:1 studio lessons. Students will further develop skills
in sight-reading and their knowledge of expressive and
interpretative performance skills.
Prerequisite: MUS 282 or 283

MUS 383 15 Points
Popular Music Recording and Production
A project-based course for Popular Music majors that
involves students recording and producing their own
work using performance, arranging and technology skills.
Students also learn how to plan and manage their own
recording and production project.
Prerequisite: MUS 380
Restriction: JAZZ 332

MUS 389 15 Points
Topics in Popular Music Studies
Selected topics that address key issues informing the
creation and performance of Popular Music and its
reception.
Prerequisite: 30 points at Stage II in Music

MUS 390 15 Points
MUS 390A 7.5 Points
MUS 390B 7.5 Points
Auxiliary Performance Study 3
Tuition on an approved traditional or computer-based
instrument or voice.
Prerequisite: Entrance is by audition. Departmental approval
To complete this course students must enrol first in MUS 390A
and then 390B, or MUS 390

MUS 391 15 Points
MUS 391A 7.5 Points
MUS 391B 7.5 Points
Classical Ensembles 3
The development of performance skills through ensemble
work including chamber music, string orchestra, wind
orchestra, flute choir, contemporary ensembles and other
combinations.
To complete this course students must enrol first in MUS 391A
and then 391B, or MUS 391

MUS 392 15 Points
MUS 392A 7.5 Points
MUS 392B 7.5 Points
Perf Skills Instrumentalists 3
The development of a range of instrumental performance
skills beyond those gained in the instrumental studio
including collaborative piano, repertoire studies, ensemble
techniques, basic pedagogy, keyboard skills, accompanying
and other applications.
To complete this course students must enrol first in MUS 392A
and then 392B, or MUS 392

MUS 393A 7.5 Points
MUS 393B 7.5 Points
Performance Skills for Singers 3
The development of advanced vocal practices that help
students develop and sustain a professional career. This
course aims to give students the knowledge and practical
experience necessary to develop and maintain vocal health
in diverse performing contexts.
To complete this course students must enrol first in MUS 393A
and then 393B

MUS 394 15 Points
MUS 394A 7.5 Points
MUS 394B 7.5 Points
Historical Performance 3
Practical studies in historical performance on an approved
instrument or voice.
To complete this course students must enrol first in MUS 394A
and then 394B, or MUS 394

MUS 395 15 Points
MUS 395A 7.5 Points
MUS 395B 7.5 Points
Popular Music Ensembles 3
The development of performance skills through ensemble
work in popular music.
To complete this course students must enrol first in MUS 395A
and then 395B, or MUS 395

MUS 396 15 Points
Popular Music Performance Repertoire 2
Continuation of the work undertaken in MUS 296. Students
undertake 1:1 tuition to study more advanced repertoire,
and learn transcription, sight-reading and ensemble
performance skills.
Prerequisite: MUS 296

MUS 397A 7.5 Points
MUS 397B 7.5 Points
Jazz Ensembles 3
The application of instrumental and improvisational
techniques through performance practice. This course
develops stylistic, interpretative and literary musical skills through a variety of large and small ensembles.
Prerequisite: MUS 297
To complete this course students must enrol first in MUS 397A and then 397B

Postgraduate 700 Level Courses

MUS 701 15 Points
Advanced Analysis
Develops advanced analytical research skills, focusing on one or more specific repertoires and/or analytical techniques (such as voice-leading analysis, schemata, topics, set theory, metrical analysis or form-functional analysis).
Prerequisite: MUS 205

MUS 702 15 Points
Music Internship
An internship with an industry or education partner in music performance, technology, administration, or pedagogy.
Prerequisite: Departmental approval

MUS 707 30 Points
Research and Practice in Conducting
The development of advanced conducting skills and techniques in a variety of ensemble situations including instrumental and choral/vocal. Includes research into score preparation and rehearsal skill development.
Prerequisite: MUS 306

MUS 710 30 Points
Composition Research Portfolio
Through individually negotiated creative projects and supporting studies in instrumental/vocal composition or sonic arts, students deliver an end-of-semester portfolio of original compositions, wherein skills are refined through targeted research in notational and/or sonic techniques, repertoire study and critical thinking. To take supporting studies in both sonic arts and instrumental composition students should enrol in the corresponding elective MUS 714 or 715.
Prerequisite: MUS 311 or 315

MUS 711 30 Points
Composition Research Project - Level 9
A customised creative project in instrumental/vocal composition and/or sonic arts realised through an end-of-semester portfolio of original compositions.
Prerequisite: 30 points from MUS 710, 770, 780

MUS 714 15 Points
Advanced Orchestration
Advanced orchestration and instrumentation, including contemporary instrumental and vocal techniques, with practical scoring exercises. Composition students are expected to write some original music in this course.
Prerequisite: MUS 314

MUS 715 15 Points
Advanced Sonic Arts
Examination of a wide range of advanced sound-based compositional techniques including multichannel acousmatic music, live sonic arts, algorithmic music, sonic art in the natural environment, visual music and interactive installation.
Prerequisite: MUS 315

MUS 720 30 Points
Classical Performance Research
Creative research in aspects of solo performance. Relevant ensemble work, including orchestral rehearsals and performance, may be required.
Prerequisite: MUS 321

MUS 722 15 Points
Advanced Ensemble Performance 1
Creative research in aspects of ensemble performance through chamber music and ensemble playing.
Prerequisite: Departmental approval

MUS 723 15 Points
Advanced Ensemble Performance 2
Advanced work in the field of chamber music and ensemble playing.
Prerequisite: Departmental approval

MUS 724 30 Points
Studio Pedagogy Research and Practice
The study of pedagogy theory and practice applicable to the studio or school context. A range of topics is explored including instrumental technique, repertoire, health and well-being and pedagogical methods.
Prerequisite: 15 points from MUS 321, 371, 382

MUS 726 15 Points
Aspects of Performance Practice
Selected research for discussion and investigation from the field of Performance Practice and its documentation. The study of source materials; individual projects; performance and/or teaching and direction of music from the area studied.

MUS 727 15 Points
Advanced Auxiliary Performance
Advanced tuition on an approved instrument or voice suitable for a practical component to complement a student's other music study.
Prerequisite: Departmental approval

MUS 729 30 Points
Music Performance Research Project - Level 9
A customised performance project incorporating solo performance, conducting, relevant ensemble work, improvisational skills, presentation of original work and the application of advanced instrumental techniques, as appropriate.
Prerequisite: 30 points from MUS 707, 720, 770, 780

MUS 735 15 Points
Advanced Studies in Music Production and Technology
An intensive interface-based course that focuses on advanced theories and practice of music production and computer music.
Prerequisite: 15 points from MUS 258, 315, 330-334, 358, 383

MUS 736 15 Points
Creative Studies in Music Production
The development of advanced creative and technological skills leading to computer-based creative practice.
Prerequisite: 15 points from MUS 315, 330-334, 383

MUS 737 30 Points
Music Technology Research
A customised creative practice or theoretical investigation of music technology-related disciplines including: computer music, musical interface design, interactive art, technology in music education, performance technology, music and AI, and sound design.

MUS 738 30 Points
Creative Practice Research Project - Level 9
A customised creative practice project employing a
combination of performance, composition and/or production modes.  
**MUS 742**  
Research Project - Level 9  
Prerequisite: MUS 743  
*30 Points*

**MUS 743**  
Advanced Music Research - Level 9  
A critical exploration of advanced concepts and methods for music research, including historical, qualitative, indigenous and practice-led approaches suited to the advanced study of Music. Students develop, apply and critique knowledge of traditional and cutting-edge qualitative methods to design an independent research project for their chosen research topic and to write a substantial research essay.  
*15 Points*

**MUS 744**  
Musicians’ Health and Well-being  
An advanced examination of the critical physical and psychological health issues musicians encounter when preparing for performances and when performing. Topics include aspects of musculoskeletal health, focal dystonia, the protection of the voice and hearing, the role of movement disciplines and the management of stress and music performance anxiety. An inquiry into research from both science and arts disciplines that informs how musicians maintain physical and psychological well-being.  
*15 Points*

**MUS 747**  
Research in Musicology  
An overview of the discipline of musicology, its principal concepts and associated methods of research. Students consider key texts from the scholarly literature and musicological viewpoints and perspectives. This course also develops advanced writing skills.  
Prerequisite: 15 points from MUS 340, 345-348  
*30 Points*

**MUS 748**  
Conducting Repertoire and Pedagogy  
An overview of conducting literature and pedagogical skills for the rehearsal, the concert platform and music education contexts. The course includes analysis, score preparation, practical sessions and requires attendance at designated rehearsals and performances.  
Prerequisite: MUS 306  
*15 Points*

**MUS 749**  
Topic in World Music  
An intensive performance-based course that focuses on a specific regional musical tradition.  
Restriction: MUS 349  
*15 Points*

**MUS 750**  
Performance Research Project  
A supervised course of advanced music performance research culminating in a performance and associated written material.  
Prerequisite: MUS 720  
Restriction: MUS 785  
*15 Points*

**MUS 752**  
Research Project - Level 9  
A supervised course of musicological or music education research.  
Prerequisite: Departmental approval  
*15 Points*

**MUS 754**  
Directed Study in Historical Musicology  
*15 Points*

**MUS 755**  
Directed Study in Contemporary Musicology  
*15 Points*

**MUS 756**  
Directed Study in Music Studies  
*15 Points*

**MUS 757**  
Special Topic: Studies in Historical Musicology  
*15 Points*

**MUS 758**  
Special Topic  
Prerequisite: Departmental approval  
*15 Points*

**MUS 759**  
Special Topic: Critical Theory and Music Technology  
A critical investigation into modern-day music learning, production and consumption. Issues arising in a music landscape mediated by technology and hegemonic political economy will be examined with a focus on the interrogation of power relations using a social justice lens. Topics may include technology in music education, music and Artificial Intelligence, music decolonisation, and music streaming platforms.  
Prerequisite: 15 points at Stage III in Music  
*15 Points*

**MUS 760**  
Themes in Music Education Research  
A survey of pedagogical research themes and applications in music education, studio pedagogy and community music.  
*15 Points*

**MUS 762**  
Approaches to Music Education 1  
A detailed examination of the practices and concepts in a selected music education approach or method.  
*15 Points*

**MUS 763**  
Approaches to Music Education 2  
Further examination of the practices and concepts in a selected music education approach or method.  
Prerequisite: MUS 762  
*15 Points*

**MUS 764**  
Approaches to Community Music  
An examination of community music approaches outside formal settings including singing, instrumental, cultural and technological contexts.  
*15 Points*

**MUS 765**  
Music Entrepreneurship  
An advanced examination of entrepreneurial and business skills for the musician and creative practitioner. Includes the development of specialised technological skills, case studies and innovative approaches to music marketing, arts and cultural engagement, education and music career development.  
*15 Points*

**MUS 767**  
Music Education Research and Practice  
A review of current music education, community music and studio pedagogy research along with the application of practical teaching and workshop techniques and methods relevant for school and community contexts.  
Prerequisite: MUS 362 or 363  
*30 Points*

**MUS 768**  
Community Music Research Project - Level 9  
Music community and/or pedagogy music research project. Includes fieldwork in music industry, community, school, or studio contexts and a research report.  
Prerequisite: 30 points from MUS 707, 724, 767  
*30 Points*
MUS 770  
Jazz Performance Research  
 Practical research in instrumental technique leading to the development of advanced improvisational skills. Students prepare a recital reflecting the technical work undertaken in the semester. Students engage with practice through ensemble and 1:1 instruction.  
Prerequisite: MUS 371

MUS 772  
Jazz Composition and Arranging I  
Jazz arranging and composition for mixed ensembles. Through the analysis and study of advanced compositional and orchestration techniques, students produce original research material for recorded portfolio. Students are encouraged to perform with a 'mentor' from the jazz faculty in the development of a creative process and individual style.  
Prerequisite: MUS 375

MUS 773  
Jazz Composition and Arranging II  
A continuation of work undertaken in MUS 772 for a variety of ensembles.  
Prerequisite: MUS 772

MUS 774  
Jazz Collaborative Project  
Students undertake a research project combining compositional and performance elements from multiple genres: world music, classical, rock, for example, in a blend of contemporary influences. Students contribute original material and written documentation for a recorded portfolio.  
Prerequisite: MUS 371

MUS 780  
Popular Music Research  
The development of advanced song writing and popular music composition skills. Students engage in an in-depth study of lyric writing, word setting, and compositional elements, compose a significant body of new songs and compositions, and produce a research portfolio of recordings and scores of these works.  
Prerequisite: MUS 381

MUS 785A  
MUS 785B  
Research Portfolio - Level 9  
To complete this course students must enrol first in MUS 785A and then 785B

MUS 786A  
MUS 786B  
Thesis - Level 9  
To complete this course students must enrol first in MUS 786A and then 786B

Tertiary Foundation Certificate Creative Arts

Foundation Courses  
TFCCAI 92F  
Foundation Creative Arts  
Helps develop a practical and theoretical understanding of the skills and practises employed by performing artists, visual artists and designers when creating a performance, art object or design portfolio.

Urban Design

Postgraduate 700 Level Courses  
URBDES 702  
Urban Design Theory and Practice  
The language of urban design, urban analysis, urban history, contemporary theory, international and local practice, allied disciplines, cities in the developing world and pacific urbanism.  
URBDES 703  
Directed Study

URBDES 705  
Urban Design Site Analysis  
Urban morphology, site analyses and an exploration of a contemporary urban design issue.  
URBDES 710  
Urban Design Studio 1 - Level 9  
An urban design project involving in-depth specialised research on the implications for urban design at the strategic scale.

URBDES 720  
Urban Design Studio 2 - Level 9  
An advanced urban design project involving highly specialised research related to the analysis and design of the built environment.  
Prerequisite: URBDES 710

URBDES 730  
Urban Design Research Project  
Individual research project in an aspect of urban design theory or practice.

Urban Planning

Stage I  
URBPLAN 101  
URBPLAN 101G  
Introduction to Urban Planning  
An introduction to the discipline of urban planning, examining its evolution, theory, practice, profession, ethics, values and future trends. Offers a critical exploration of the challenges facing urban planners today and into the future.  
Restriction: PLANNING 100G

URBPLAN 122  
Introduction to Society, Civics and Governance Issues for Urban Planning  
An introduction to the concepts of civics and governance in New Zealand and its international obligations, the theories and values of democracy, natural justice and the role institutional behaviour. Provides an understanding of
the basis of the New Zealand legal system, the Te Tiriti o Waitangi/Treaty of Waitangi and public policy development. 
Restriction: URBPLAN 102

URBPLAN 123
15 Points
Urban Planning Economics
An introduction to economic theory, at both the micro and macro levels, and its impact and influence on urban planning policy development and decision making. Includes reference to how economic development can be integrated into effective urban planning policy formulation.
Restriction: URBPLAN 102

URBPLAN 124
15 Points
Urban Environmental Issues
An introduction to ecological processes, urban resilience and growth in an urban context. Explores how urban planning systems can work in sympathy with, or in contradiction to, such processes, and the implications of this for urban planning practice.
Restriction: URBPLAN 105

URBPLAN 125
30 Points
Urban Planning Studio 1
An introduction to studio and design thinking, the urban design discipline, research skills (quantitative and qualitative) and methods, and the land tenure system. Enables students to read plans at different scales and provide visual literacy skills, including GIS and other relevant tools, through a studio-based design exercise relevant to urban planning.

URBPLAN 126
30 Points
Urban Planning Studio 2
An introduction to basic urban design theories and principles as applied to building form, land use and subdivision patterns, the space between buildings, the role of open space and the public realm. Students will undertake site analysis and through a studio-based design exercise develop skills and practices for working at the differing spatial scale relevant for urban planning and urban design.

Stage II

URBPLAN 201
15 Points
Urban Policy Analysis
The application of critical quantitative and qualitative research skills and methods for urban planning. 
Prerequisite: URBPLAN 101-105, or 30 points passed in Global Environment and Sustainable Development

URBPLAN 202
15 Points
Urban Planning Implementation and Law
A critical understanding of the concepts and principles of relevance to urban planning legislation, practice and decision-making. 
Prerequisite: URBPLAN 101-105

URBPLAN 203
15 Points
Urban Infrastructure
A critical analysis of infrastructure provision, modelling, and assets management provision.
Prerequisite: URBPLAN 101-105, or GEOG 101, 102, 140 or GISCI 140, and URBPLAN 103

URBPLAN 204
15 Points
Urban Planning Social Theory and Practice
A critical analysis of the urban social issues, urban social theory, social justice and deprivation, and gender issues. 
Prerequisite: URBPLAN 101-105

URBPLAN 205
15 Points
Transportation Planning
A critical analysis of transportation planning, modelling and its relationship with land use activities in the urban environment. 
Prerequisite: URBPLAN 101-105, or GEOG 101, 102, 140 or GISCI 140, and URBPLAN 103

URBPLAN 210
15 Points
Urban Planning Studio Three
Research and design techniques and skills for evaluating urban design outcomes against urban design criteria at the neighbourhood scale. 
Prerequisite: URBPLAN 110, 111

URBPLAN 211
15 Points
Urban Planning Studio Four
Examines the complex interrelationships of urban planning issues required to achieve effective and sustainable design solutions at the town/city spatial scale. 
Prerequisite: URBPLAN 110, 111

URBPLAN 221
15 Points
Social Issues for Urban Planning
A critical understanding of urban social theory, social justice, social equity, gender issues, social diversity and equality, and who has rights to the city. Housing policies, markets, practices, and their relationship with urban sustainability, including transportation planning responses to social dislocation. Provides the ability to understand and undertake Social Impacts Assessments relevant for urban planning. 
Prerequisite: URBPLAN 101, 122-126 
Restriction: URBPLAN 204

URBPLAN 222
15 Points
Urban Economics
A critical understanding of the principles of urban land use economics, how property markets work and how properties are developed, valued and financed, as well as how urban planning strategies can facilitate, or impede, efficient property markets. 
Prerequisite: URBPLAN 101, 122-126 
Restriction: URBPLAN 304

URBPLAN 223
15 Points
Urban Planning Law
Prerequisite: URBPLAN 101, 122-126 
Restriction: URBPLAN 202

URBPLAN 225
30 Points
Urban Planning Studio 3
Explores the social, economic and consultation and design and report writing skills, factors and tools required to undertake a medium scale re-generation community development project. Studio-based design provides prevention strategies to mitigate the adverse impacts of social dislocation of existing communities and urban gentrification. 
Prerequisite: URBPLAN 101, 122-126

URBPLAN 226
30 Points
Urban Planning Studio 4
Enables students to undertake a detailed and in-depth consideration of a contemporary wicked problem currently
or potentially challenging urban planning practice through a studio-based design exercise leading to a design solution. Potential wicked problems include the impact of climate change on urban form and communities or the challenges of creating resilient and sustainable communities in light of significant urban growth pressures.

Prerequisite: URBPLAN 101, 122-126

### Stage III

**URBPLAN 301**

**Urban Economic Development**

An evaluation of theories, policies and practices of community and economic development relevant for urban planning.

Prerequisite: URBPLAN 201-205, or 30 points at Stage II in Global Environment and Sustainable Development

**URBPLAN 302**

**Heritage/Cultural Issues for Urban Planning**

A critical analysis of the history, theory and practice of heritage planning in New Zealand and relevant international contexts.

Prerequisite: URBPLAN 201-205

**URBPLAN 303**

**Ecology and Resilience**

A critical analysis of the ecological view towards the concepts of resilience; social-ecological systems models, considering wicked problems and the impacts of climate change.

Prerequisite: URBPLAN 201-205

**URBPLAN 304**

**Urban Land Use Economics**

Examines the principles of urban land economics focusing on economic development, property markets and property development.

Prerequisite: URBPLAN 201-205

**URBPLAN 305**

**Māori Urban Planning Issues**

Māori attitudes, values and aspirations in urban planning with an understanding of the Treaty of Waitangi; post Treaty settlements.

Prerequisite: URBPLAN 201-205

**URBPLAN 306**

**Global Contexts and Contemporary Urban Planning Issues**

Examines how comparative urban planning systems address contemporary urban planning issues in both the New Zealand and international contexts.

Prerequisite: URBPLAN 201-205, or 30 points at Stage II in Global Environment and Sustainable Development

**URBPLAN 310**

**Urban Planning Studio Five**

To develop a critical understanding of regional planning practices, and develop advanced research and designs skills in proposing more sustainable urban form.

Prerequisite: URBPLAN 210, 211

**URBPLAN 311**

**Urban Planning Studio Six**

Community engagement, data collection and analysis using a project-based approach.

Prerequisite: URBPLAN 210, 211

**URBPLAN 321**

**Urban Policy Analysis, Development and Research Skills**

A critical understanding of the role public policy plays in practice and how to develop effective, creative outcome-focused policy solutions for urban planning through the application of quantitative and qualitative research skills and methods.

Prerequisite: URBPLAN 221-223, 225, 226 or 30 points passed in Global Environment and Sustainable Development

**Restriction: URBPLAN 301**

**URBPLAN 322**

**Urban Infrastructure**

Examines the issues surrounding the planning, development and funding of different types of social and physical infrastructure, including transportation, energy, renewable energy, and water and sewerage management, using local and international case studies and examples.

Prerequisite: URBPLAN 221-223, 225, 226

**Restriction: URBPLAN 203, 205**

**URBPLAN 323**

**Māori Planning Issues**

A critical understanding of traditional and contemporary relationships between tangata whenua and the urban environment, the theoretical and practical application of a Māori worldview for urban planning practice in Aotearoa New Zealand, and how the Treaty of Waitangi settlement process will impact and influence urban planning.

Prerequisite: URBPLAN 221-223, 225, 226

**Restriction: URBPLAN 305**

**URBPLAN 325**

**Urban Planning Studio 5**

A critical understanding of the importance and integration of land use with transport (including active travel options) and urban infrastructure (including three waters and social infrastructure) while taking into account realistic funding models, costs and benefits through a studio-based design exercise.

Prerequisite: URBPLAN 221-223, 225, 226

**URBPLAN 326**

**Urban Planning Studio 6**

A critical understanding and application of the skills, methods and processes required for the design of sustainable urban places, forms and spaces, and neighbourhood creation.

Prerequisite: URBPLAN 221-223, 225, 226

**Postgraduate 700 Level Courses**

**URBPLAN 701**

**Urban Planning Contexts - Level 9**

An introduction to the city, urban planning and sustainability. Professional roles, practices and values. An introduction to and application of critical quantitative and qualitative research skills and methods for urban planning.

**URBPLAN 702**

**Urban Planning Law - Level 9**

A critical understanding of the concepts and principles of relevant urban planning legislation and decision-making.

**URBPLAN 703**

**Urban Planning and the Environment - Level 9**

A fundamental understanding of ecological issues and their implications for urban planning.
URBPLAN 704 15 Points
People, Communities and Urban Planning - Level 9
A critical analysis of the urban social issues and relevant urban planning responses.

URBPLAN 705 15 Points
Sustainable Infrastructure Planning - Level 9
A critical understanding of the essential physical urban infrastructure and research methods skills for urban planning.

URBPLAN 706 15 Points
Māori Planning Issues - Level 9
Māori attitudes, values and aspirations in urban planning with an understanding of the Treaty of Waitangi. Indigenous development issues.

URBPLAN 707 15 Points
Urban Economic Development - Level 9
Principles of urban economics. Economic development, urban planning strategies. Asset management and property development.

URBPLAN 708 15 Points
Urban Design Studio - Level 9
The principles and concepts of urban design and their application in urban planning practice.

URBPLAN 711 15 Points
Urban Planning Theory - Level 9
A comparative exploration of urban planning theories and ethics.
Prerequisite: URBPLAN 301-305, 310, 311, or URBPLAN 701

URBPLAN 712 15 Points
Sustainable Urbanism - Level 9
Research into critical and contemporary urban planning issues.

URBPLAN 713 15 Points
Shelter - Level 9
Housing policies and practices. Housing and urban sustainability.

URBPLAN 714 15 Points
Urban Planning Methods and Plan Making Studio - Level 9
Urban planning methods and plan making implication and evaluation. Project management.
Prerequisite: URBPLAN 301-305, 310, 311, or URBPLAN 702

URBPLAN 715 45 Points
Urban Planning Research Dissertation - Level 9
An in-depth, self guided research investigation relevant to urban planning with an advanced examination and application of critical quantitative and/or qualitative research skills for urban planning.
Prerequisite: URBPLAN 701, 705

URBPLAN 721 15 Points
Project Management for Urban Planning
A critical understanding of project management methods and skills, and management types and cultures, for private practice and in local and central government agencies. Includes asset management and planning for local government in New Zealand as relevant for urban planning practice.
Prerequisite: URBPLAN 321-323, 325, 326 or Departmental approval

URBPLAN 722 15 Points
Heritage/Cultural Issues
Examines heritage planning history, theory, law and implementation practices in New Zealand and relevant international contexts.
Prerequisite: URBPLAN 321-323, 325, 326

URBPLAN 733 15 Points
Sustainable Urban Design Studio - Level 9
Developing advanced urban design techniques to create sustainable urban forms.
Prerequisite: URBPLAN 708

URBPLAN 734 15 Points
Urban Planning and Governance - Level 9
Public policy, democracy, capacity building and implications of urban planning practice.
Prerequisite: URBPLAN 301-305, 310, 311, or URBPLAN 704

URBPLAN 735 15 Points
Resource Consents and Implementation, Evaluation - Level 9
The critical skills and judgments required in the urban planning implementation process, including Assessment of Environmental Effects/Social Impact Assessment development.
Prerequisite: URBPLAN 321-323, 325, 326

URBPLAN 741 15 Points
Special Topic - Level 9

URBPLAN 742 15 Points
Special Topic - Level 9

URBPLAN 757 30 Points
Research Project - Level 9
An in-depth, self-guided research specialised investigation, with an advanced examination and application of critical quantitative and qualitative research skills for urban planning.
Prerequisite: URBPLAN 301-311 or 321, 326

URBPLAN 794A 45 Points
URBPLAN 794B 45 Points
Thesis - Level 9
To complete this course students must enrol in URBPLAN 794 A and B

URBPLAN 796A 60 Points
URBPLAN 796B 60 Points
Thesis - Level 9
To complete this course students must enrol in URBPLAN 796 A and B

Faculty of Education and Social Work

Academic Integrity
ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Disability Studies

Stage I
DISABLTY 113G 15 Points
Making Disabilities: The Construction of Ideas
Examines the expression of social and cultural ideas of disability in popular culture through film, television and print media. The course aims to develop skills to examine the construction and maintenance of concepts of disability and disabling identities in popular culture. The consequences of these processes are also discussed and their implications for perpetuating social devaluation, discrimination, and disadvantage.

Stage II
DISABLTY 200 15 Points
Disability Frameworks
A range of models and cultural understandings related to disability are examined. These models provide a framework for understanding ways in which disabled people may experience disability. Social constructs that impact on the lives of disabled people will be explored. The influence of emerging models that portray positive social identities, both individual and collective, will be examined.
Restriction: DISABLTY 112

Stage III
DISABLTY 316 15 Points
Supporting Active Participation
An exploration of theories and strategies that promote active participation of disabled people. An understanding of self-determination and a person-centred approach to promote active participation and citizenship underpins this course.
Prerequisite: HUMSERV 101, 102, 104, 201, 202, 203, 211, SOCWORK 111, 112, 114, 211

Education

Stage I
EDUC 100 15 Points
EDUC 100G 15 Points
The Creative Process
Theories and practices of creativity will be examined and practically explored through a variety of disciplines, such as the arts, biology, psychology, sociology, philosophy and education. What is creativity? Can creativity be learnt? What happens in the brain when we are creative? These are some of the questions addressed in this course.

EDUC 105
EDUC 105G
Teaching: Tales and Traditions
Introduction to key ideas on teachers and teaching. Explores teaching traditions, their origins, stories of teaching in New Zealand; stories of teachers that generate change; and how teaching and teachers are understood in a variety of disciplines such as Science, Health, Arts, and Sport. Considers the following: How should we teach? What counts as knowledge? What contradictions do teachers encounter?

EDUC 106
History of Education and Society
Introduces the study of education from sociological, historical and philosophical perspectives. Examines the forces that have shaped education in Aotearoa New Zealand with a view to understanding and theorising issues of equity, social justice, and diversity in education over time.
Restriction: EDUC 118

EDUC 113
Current Issues in Education
Educational issues are pressing concerns in our society. The course will help develop understanding of the background of today’s public debates around schooling and will introduce ways in which educational thought and research address big topics.
Restriction: EDUC 118

EDUC 114
Introduction to Māori Education
An introduction to Māori education and to the education of Māori in Aotearoa. A range of critical issues related to Māori experiences both in and as a result of schooling and education in Aotearoa, and Māori educational interventions that have emerged, are examined.
Restriction: EDUC 118

EDUC 115
Introduction to Child and Adolescent Development
Study of factors influencing children’s development and socialisation within the culturally and linguistically diverse context of New Zealand. Research from developmental psychology and from family and parenting will be drawn upon to explore physical, emotional, social, cognitive and language development during childhood and adolescence.

EDUC 116
Introduction to Educational Thought
Why do we go to school? What is the purpose of schooling in society and do good grades translate into good jobs? An introduction to the study of education from sociological, historical and philosophical perspectives with reference to the forces that have shaped the development of education, especially in New Zealand. Understanding social inequalities in education relating to ethnicity, gender and class form a central concern of this course.

EDUC 117
Teaching and Learning: An Educational Psychological Perspective
Includes an examination of core aspects of educational psychology that include thinking, learning, and behaving. An analysis of relevant theory and research within psychology in education: topics include behaviour analysis, measurement and assessment, cognition, socialisation, and individual differences. Students will explore these in
relation to different educational settings and contexts, for example, culture, community, school, and classroom. Restriction: EDUC 111, 119, 121, 121G

EDUC 118 15 Points
**History and Society in New Zealand Education**
Examines the wider context of New Zealand education through a historical and contemporary overview. Draws on a critical sociological analysis of selected issues in society. Some emphasis is given to learners and their communities, including Māori, Pasifika, new migrants, and people with disabilities. Restriction: EDUC 111, 112, 113, 140, EDUCM 140

EDUC 119 15 Points
**Development, Learning and Teaching**
Presents an introduction to developmental and psychological theory and research and its application to teaching and learning within a variety of educational settings. Understandings for creating effective learning environments which foster high levels of motivation for all learners will be identified through an exploration of typical and atypical development; and behavioural, cognitive, constructivist and social approaches to teaching and learning. Restriction: EDUC 117

EDUC 121 15 Points
EDUC 121G 15 Points
**How People Learn**
Focuses on learning in formal and informal settings and addresses such questions as: why do some things seem easier to learn than others, why do we forget things we once knew, and why do some people learn faster or better than others? Examines the nature of intelligence and how to help personal learning or the learning of others. Restriction: EDUC 111, 117

EDUC 122 15 Points
EDUC 122G 15 Points
**Learning Sexualities**
How and what do we learn about sexualities in New Zealand? Learning about sexualities is viewed as occurring both formally (e.g., through sexuality education) and informally (e.g., through the media) in a diversity of social sites. Schools are examined as one significant site where students are offered sexual meanings. The historical derivation and current context of contemporary education about sexuality along with its social effects are investigated.

EDUC 142 15 Points
**Health and Physical Education in a Diverse Society**
Introduces students to thinking critically about Health and Physical Education. Examines discourses about health and physical activity from historical and sociological perspectives. Introduces diversity as it relates to educational opportunity in Health and Physical Education. Addresses such questions as: How are notions about health and physical education and difference constructed and supported? Restriction: EDUC 141, EDUCM 141

**Stage II**

EDUC 200 15 Points
**Youth Mentoring**
A theoretical and applied study of youth mentoring. Students will develop an understanding of theories of youth and youth mentoring, examine current issues in youth mentoring such as cultural perspectives, developmental considerations, and contexts of youth mentoring. Students will also engage in a mentoring internship where they will demonstrate their ability to integrate and apply their developed knowledge and skills. Prerequisite: Any 60 points passed and approval from the Course Director

EDUC 201 15 Points
**History of Education**
An examination of the nature of historical inquiry with reference to New Zealand's educational past; questions why education has been analysed largely as something planned rather than something experienced and introduces oral history as methodology. Selected aspects of the educational histories of other countries will be discussed for comparative analysis. Prerequisite: Any 60 points passed

EDUC 203 15 Points
**Pasifika Education and Diversity**
Analyses how experiences and outcomes for learners in contemporary education contexts are shaped by social constructions informed by class, ethnicity, culture, gender, sexuality, and (dis)ability. Examines the role of education policies and socio-historical context on teacher responsiveness to diversity and difference. Explores a range of transformative approaches. Particular attention is given to Pasifika learners. Prerequisite: EDUC 106

EDUC 204 15 Points
**Philosophy and Sociology of Education**
An exploration of key educational themes and questions from philosophical and sociological perspectives. Prerequisite: Any 60 points passed Restriction: EDUC 206, 208

EDUC 207 15 Points
**Decolonising Education**
An examination of the interaction of the state and indigenous peoples in the contested area of education and schooling; a focus on de/colonisation develops an understanding of the origins and philosophies of contemporary educational structures such as kōhanga reo, kura kaupapa Māori and wānanga in Aotearoa New Zealand, together with examples of other indigenous educational issues and initiatives. Prerequisite: Any 60 points passed

EDUC 209 15 Points
**The Learning Society**
Takes students beyond the classroom to public educative spaces: museums and galleries, libraries, virtual worlds and the street. Students will explore the idea of public pedagogy and its educative reach in the diverse, urban space of Auckland city. Prerequisite: 60 points passed

EDUC 211 15 Points
**Schooling Ethnic Diversity**
A critical examination of research on ethnic diversity in New Zealand schools. The course discusses equity, 'race', ethnicity, biculturalism, 'multicultural education', equal opportunity, and other theories, structures and strategies developed in New Zealand and overseas in response to ethnic diversity. Prerequisite: Any 60 points passed Restriction: EDUC 310
EDUC 212  
Global Education Policy for All?  
15 Points  
Interrogates how and why education is positioned in contemporary times as a key vehicle for promoting sustainable development and as a fundamental human right. Specific attention is given to the politics and power dynamics behind global educational policies and frameworks, and the impacts these have on learners, educators, communities and societies throughout Oceania and beyond.

EDUC 213  
Education and Social Justice  
15 Points  
Can education contribute to social justice? A critical examination of the contemporary concern with social justice in education. Drawing on local and international research, this course explores debates about the nature of power, and the ways that gender and sexuality, ethnicity, indigeneity, social class, and other social identities are taken up in the pursuit of social justice within education.  
Prerequisite: Any 60 points passed

EDUC 221  
Child Development  
15 Points  
A study of key issues in development, with a focus on early and middle childhood. Topics include family, peer, cultural, and media influences on typical and atypical development.  
Prerequisite: Any 60 points passed

EDUC 222  
Educational Psychology  
15 Points  
An introduction to new ways of thinking about learning in educational settings: how students can develop their learning abilities, be more strategic in their learning, and increase their motivation. These questions and themes can be applied to educational, family and work settings, and to students with different learning needs. A foundation to advanced courses in psychological studies in education.  
Prerequisite: Any 60 points passed

EDUC 223  
Assessment and Evaluation in Education  
15 Points  
An examination of the theoretical and practical dimensions of designing, administering, and interpreting curriculum-aligned assessment and evaluation practices and policy including an introduction to valid and reliable data collection and interpretation practices. Recent New Zealand assessment policy and practice will also be analysed.  
Prerequisite: Any 60 points passed

EDUC 224  
Pedagogy – Beyond Skills and Methods  
15 Points  
Examines personal experiences and views of teaching and learning and the impact of theories of learning on classroom practices. The course also includes discussion of the relationship between pedagogy and race, class and gender; Māori pedagogy; pedagogy and student achievement; and New Zealand and international examples.  
Prerequisite: Any 60 points passed

Restriction: EDUC 225

EDUC 225  
History and Sociology of Education  
15 Points  
An analysis of the theoretical and practical dimensions of designing, administering, and interpreting curriculum-aligned assessment and evaluation practices and policy including an introduction to valid and reliable data collection and interpretation practices. Recent New Zealand assessment policy and practice will also be analysed.  
Prerequisite: Any 60 points passed

EDUC 230  
Understanding Childhood  
15 Points  
Investigates children’s cultural and social worlds in local and global contexts. The course gives a voice to children’s views and understandings of their childhoods. Topics include: What is ‘childhood’? What roles do place and space have in children’s lives? How do children’s rights invite children to participate in their own lives?  
Prerequisite: 45 points at Stage II

EDUC 231  
The Return of the Teacher  
15 Points  
Examines the development of teaching and of the role of ‘teacher’ over time. Draws on examples of teachers from different time periods and cultures to analyse what teaching means and how and why it is valued. Explores implications of different perceptions of the role of teaching and teachers.  
Prerequisite: Any 45 points passed at Stage II

EDUC 232  
Special Study in Education  
15 Points  
Supervised inquiry in an area of education approved by the Head of the Liberal Arts Programme in the Faculty of Education and Social Work.  
Prerequisite: Any 45 points at Stage II and Departmental approval

EDUC 233  
Gifted Education  
15 Points  
An analysis of the gifted education movement and of the need for appropriate educational provision for gifted and talented students. The course draws on current research to assist with the identification of gifted and talented students and with the development of strategies to meet their learning and emotional needs.  
Prerequisite: Any 45 points passed at Stage II

EDUC 234  
History and Sociology of Education  
15 Points  
An analysis of historical and contemporary developments in education taking account of the major influences, national and international, which shape education policy, practice and experience.  
Prerequisite: Any 45 points passed at Stage II

EDUC 235  
Teaching Languages in Schools  
15 Points  
Students who have a working knowledge of a second language will study and apply strategies for classroom teaching of second languages in schools. Following critical reflection on different teaching models used in schools, students will prepare teaching materials, plan class lessons and apply information and communication technology in teaching and learning second languages.  
Prerequisite: Any 45 points passed at Stage II

EDUC 236  
Special Topic  
15 Points  
Prerequisite: Any 45 points passed at Stage II
EDUC 321 15 Points
Politics, Philosophy and Education
Investigates the relationship between local, national and global politics and education in Aotearoa New Zealand. Explores philosophical perspectives on teaching and the relationship between educational theory and practice. 
Prerequisite: EDUC 118 or 140 or 142 or EDUCM 118
Restriction: EDUC 320, EDUCM 320

EDUC 322 15 Points
Re-thinking Pasifika Education
A critical examination of current issues and debates relating to the education and development of Pasifika communities of Aotearoa New Zealand. Theoretical frameworks that enable the identification and critique of multiple perspectives and relations of power will be introduced and explored.
Prerequisite: Any 45 points passed at Stage II
Restriction: EDUC 309

EDUC 323 15 Points
Contemporary Topics in Educational Psychology
A study of the latest topics in Educational Psychology. Supports engagement with contemporary Educational Psychology research and facilitates critical thinking.
Prerequisite: 45 points at Stage II
Restriction: EDUC 342

EDUC 324 15 Points
Inclusive Education and Philosophy
Critically appraises philosophical perspectives on education to enable students to articulate a developing philosophy and practice of teaching including the relationship between local, national and global politics and inclusive education in Aotearoa New Zealand. Highlights concepts of social justice, equity and diversity and relates these concepts to competing discourses of ability, (dis)ability and inclusion.
Prerequisite: EDUC 203

EDUC 341 15 Points
Introduction to Counselling in the Community
An examination of the application of basic principles of counselling to the needs of individual children and adults and to couples, families and other groups.
Prerequisite: Any 45 points passed at Stage II

EDUC 347 15 Points
Ideas of the University Student
Offers a multi-disciplinary exploration of the ‘idea of the university student’ through history, popular culture, and social theory to show how that idea has changed over time and who it has included and excluded along the way. Students will critically reflect on their own diverse positions and experiences as university students in relation to these powerful but shifting ideas about university education and its imagined student.
Prerequisite: Any 45 points passed at Stage II

EDUC 348 15 Points
The Reading Process
Theories of reading are introduced. The components of literacy learning are examined using a literacy acquisition framework of: learning the code, making meaning and thinking critically. A range of approaches and texts for engaging diverse learners at primary and secondary school are examined.
Prerequisite: Any 45 points passed at Stage II

EDUC 351 15 Points
Understanding Behaviour in Classrooms
The contribution of social psychological theories and methods to educators’ understanding and management of learning and instruction in New Zealand classrooms.
Prerequisite: Any 45 points passed at Stage II

EDUC 352 15 Points
Adolescence
Selected aspects of adolescent psychology including theories of development and an examination of contemporary issues in development such as positive youth development, cognitive transitions, family and peer contexts, sexuality, identity, and psychosocial problems.
Prerequisite: Any 45 points passed at Stage II
Restriction: EDUC 343, 344

EDUC 360 15 Points
Treaty Politics in Education
A critical examination of the emergence of the Treaty of Waitangi in education, and the tensions and convergences that exist between Māori aspirations and state policies. Key themes, initiatives, relationships and policies in education are considered within the broader question of the place of the Treaty in Aotearoa New Zealand.
Prerequisite: Any 45 points passed at Stage II

EDUC 380 15 Points
Methods of Research in Education
A grounding in some of the main research and evaluation methods, both quantitative and qualitative, that are useful for educational and social science researchers, and in some of the arguments about their power and legitimacy.
Prerequisite: Any 45 points passed at Stage II

EDUC 384 15 Points
Information Technology in Education
Includes internet safety, critical analysis of educational websites and software, issues involved in using ICT in homes and schools and participation in online class work. This course requires basic computer literacy only; it provides some computer skill development but has a principal focus on appropriate educational use of computers.
Prerequisite: Any 45 points passed at Stage II

EDUC 400 15 Points
Professional Development
Covers topics related to professional and personal development. Discusses the status and challenges of teaching as a profession and includes the varying roles of teachers in keeping up with the rapid changes and expectations required of them. Continuing education for self-improvement is also given emphasis.
Prerequisite: Student must be enrolled in BEd(TESOL)

Stage IV

EDUC 603 15 Points

EDUC 603A 7.5 Points

EDUC 603B 7.5 Points

Education after Society
Critically examines the conceptions that inform education in Aotearoa New Zealand. The course provides critical frameworks for making sense of the complexity of educational issues and prepares students to see themselves as significant actors within education. The course will focus on specific themes and issues that will become the basis for professional inquiry.
Restriction: EDPROFS 612
To complete this course students must enrol in EDUC 603 A and B, or EDUC 603

Diploma Courses

EDUC 603 15 Points

EDUC 603A 7.5 Points

EDUC 603B 7.5 Points
### Postgraduate 700 Level Courses

#### EDUC 702 30 Points
**Historical Research in Educational Settings**
Explores and applies historical research methods to the field of education. Using documentary sources, oral and/or visual evidence, students will be expected to design and carry out a supervised inquiry.

#### EDUC 703 30 Points
**Educational Philosophy**
Current themes in the philosophy of education in the light of broader tendencies in modern and post-modern thought.

#### EDUC 705 30 Points
**Education and Global Policymaking**
Explores the following topics and themes: policy analysis and formulation in the context of development; the impact of the globalisation on, and the role of international agencies in, education for development; human capital theory and human resource development; education and aid; research and consultancy strategies and ethics; New Zealand's ODA policy towards Oceania; global and local intersections in Oceanic education.

*Restriction: EDUC 766*

#### EDUC 706 30 Points
#### EDUC 706A 15 Points
#### EDUC 706B 15 Points
**Measurement and Advanced Statistics**
Instruction in measurement will cover theories, principles, uses, and techniques for estimating statistical and practical significance, causation, instrument validity, reliability, and error. Principles and methods of factor analysis, structural equation modelling, hierarchical level modelling, missing value analysis, and propensity score analysis will be covered to statistically analyse educational data that are latent, nested, repeated, longitudinal, incomplete, and highly interconnected.

*To complete this course students must enrol in EDUC 706 A and B, or EDUC 706*

#### EDUC 709 30 Points
**Re-claiming Pasifika Education**
A critique of education policy, practice and research as experienced by Pacific-heritage communities throughout Aotearoa New Zealand. Socio-cultural and historical perspectives are utilised. Pacific/Pasifika pedagogical frameworks and research approaches are examined in terms of underlying knowledges, philosophies and discourses and how these might position teachers and researchers in partnership with Pasifika communities, to enhance outcomes for Pasifika learners.

#### EDUC 710 30 Points
**Issues in Indigenous Education**
Applied critical studies of selected, topical educational questions of international importance to indigenous peoples. May include the politics and practices of language regeneration, social and educational transformative initiatives, indigenous educational leadership, training and professional practice for indigenous educators, indigenous knowledge and curricula. The course assumes experience or knowledge of indigenous education contexts.

#### EDUC 712 30 Points
**Race, Ethnicity and Education**
An examination of discourses of race and theories of ethnicity in bicultural and multicultural educational contexts in Aotearoa New Zealand.

#### EDUC 713 30 Points
**Global Childhoods - Level 9**
Critically investigates existing and emerging problems in the field of global childhoods. Using theoretical perspectives at the forefront of critical childhood studies and early childhood education, this course develops highly specialised knowledge addressing questions such as: How are concepts, such as sustainability, technology, media, and pandemic, affecting concepts of childhoods? How do global childhoods impact on curriculum, pedagogy and education?

#### EDUC 716 30 Points
**Education and Diversity - Level 9**
How do we best teach for the increasing diversity in our educational settings? This course is an advanced study in educational approaches to ethnic, cultural, and linguistic diversity. Independent critical engagement with antiracist education, bilingual education, cosmopolitan education and critical multiculturalism will occur alongside an examination of educational theory, policy and practice, and in relation to debates in Māori education.

#### EDUC 717 30 Points
#### EDUC 717A 15 Points
#### EDUC 717B 15 Points
**Special Study**
Supervised inquiry in an area of education approved by the Head of the Liberal Arts Programme in the Faculty of Education and Social Work.

*To complete this course students must enrol in EDUC 717 A and B, or EDUC 717*

#### EDUC 726 30 Points
**Special Topic**

#### EDUC 731 30 Points
**Special Topic**

#### EDUC 732 30 Points
**Culturally Sustaining Leadership**
An examination of culturally authentic leadership practices in Aotearoa. This course is designed to increase understanding of why there is a need to have culturally aligned leadership and the implications this might have on culturally sustaining that leadership across a range of contexts.

#### EDUC 733 30 Points
**Teaching in Bilingual/Immersion Settings**
Critically examines research on and practice in bilingual/immersion education, with an emphasis on the implications for educational practice and curriculum development. Includes a focus on the impact of policy on practice in bilingual/immersion settings.

*Restriction: EDPROFST 710*

#### EDUC 734 30 Points
**Māori/Indigenous Language Revitalisation**
Examines efforts to revitalise Māori language and selected indigenous languages through education. Includes interventions by both government and indigenous groups in policy, practices, and language rights. The approach is interdisciplinary, drawing on sociolinguistics, political theory, sociology, law and education, and international, with examples from Aotearoa, Europe, North America and the Pacific.

*Restriction: EDPROFST 711*
EDUC 725 30 Points
Researching Educational Settings
A detailed examination of the assumptions underlying, and processes and practices in different research traditions. The development of understandings of how to conduct research and to analyse, interpret and synthesise research-based information in educational or community settings. 
Restriction: EDPROFST 756

EDUC 737 30 Points
Special Topic: Arts in Communities
Community arts involve people in creative processes that have both artistic and social aims. Through practice and critical analysis students will examine arts in justice, development, health and youth settings, and specific sites such as museums. These practices will be analysed in relation to key political and aesthetic debates about the arts and social change.

EDUC 738 30 Points
Gifted Learners: Meeting their Needs
Covers a range of approaches to identify and provide for the diverse needs of gifted learners in different sectors and interest groups. Acceleration and enrichment strategies will be considered in conjunction with social and emotional implications. 
Restriction: EDPROFST 773

EDUC 741 30 Points
Educational Psychology
An advanced study of cognitive, motivational and social factors influencing learning.

EDUC 742 30 Points
Developmental Psychology
An advanced examination of theory and research in selected topics in child development.

EDUC 747 30 Points
Leadership in Youth Development - Level 9
An advanced study of the theories of adolescence and positive youth development, including a critical examination of research dealing with issues which affect adolescents in a variety of contexts. Includes collaborating with and supporting a campus-based therapeutic youth mentoring programme to advance understanding of youth development leadership and practice skills. 
Prerequisite: Course Coordinator approval
Restriction: PROFCOUN 700, SOCYOUTH 300

EDUC 750 30 Points
Special Topic

EDUC 755 30 Points
Social Psychology of the Classroom - Level 9
A critical examination of key social psychological constructs as they relate to the classroom, student-teacher relationships and learning. Topics such as motivation, stereotyping, class climate, teacher expectation, and teacher and student self-beliefs will be explored in order to critically challenge current teaching practices. Through systematic inquiry students will be expected to identify ways in which a problem of practice can be addressed.

EDUC 756 30 Points
Applied Theatre: Performance of Hope
Applied theatre describes a range of performance practices that address significant social issues. Students will engage with practical approaches to applying theatre in diverse community contexts. Building on an historical overview of applied theatre, students will critically consider political, ethical, aesthetic and pedagogic problems and possibilities inherent to theatre practices that actively contribute to social change.

EDUC 758 30 Points
Winners and Losers? Social Theories of Education
Examines education as a contested site by applying selected critical social theories to current practice and policy issues in a range of educational sectors, from early childhood to tertiary education. Asks whose interests are being most served in the ways in which we currently arrange education and imagines how education could be arranged otherwise.

EDUC 759 30 Points
Inclusive Practices for Neurodiversity
A critical analysis and application of educational approaches to neurodiversity centred on children and young people’s inclusion, belonging and learning across education settings. Provides an opportunity to critically examine concepts and ideas relating to neurodiversity and their implications for and application to education policy, teaching practice, and approaches to learning support.

EDUC 763 30 Points
Special Study
An advanced study in a topical area of educational inquiry.

EDUC 764 15 Points
Special Study
An advanced study in a topical area of educational inquiry.

EDUC 765 30 Points
Critical Inquiries in Educational Settings
Research in critical studies of education is vibrant and wide-ranging. This course focuses on an education topic of pressing political and social concern. Students will have opportunities to engage in small research projects through a range of theoretical and/or disciplinary approaches, using a student cohort plus academic supervisor model.

EDUC 766 15 Points
Education and International Development
Examines the role of education within the process of economic, political, social and cultural change within the ‘developing’ world, with a particular focus on the small island states of the Pacific. Theories, concepts and models of ‘development’ and how these influence educational policy and practice are explored. 
Restriction: EDUC 705

EDUC 767 30 Points
Childhood Studies - Level 9
An advanced study of childhood from a range of perspectives using interdisciplinary approaches of pedagogy, sociology, philosophy, psychology and other disciplines. Independent critical engagement with theories and constructs related to practices across a range of social sciences and humanities will provide students with specialist knowledge and skills to liaise with and inform key agencies of specific issues within the field.

EDUC 768 15 Points
Special Topic

EDUC 769 15 Points
Special Topic

EDUC 777 30 Points
Education, Culture and Knowledge
An examination of sociological theories concerning the
role of culture and knowledge within educational settings. Discusses questions such as: How have globalised forces influenced cultural movements in New Zealand education since the 1970s? How do culture movements influence knowledge production and reproduction, educational policies and professional practices?

Restriction: EDPROFST 776

EDUC 777 30 Points

Māori–Pākehā Educational Relationships
An examination of schooling in New Zealand as an indigenous project. Historical and contemporary expressions of the educational relationship between Māori and Pākehā are studied, including the impact of the Treaty of Waitangi on the development of New Zealand schooling. The course offers an opportunity for students to examine the position of other groups in relation to the Māori–Pākehā relationship.

EDUC 784 30 Points
EDUC 784A 15 Points
EDUC 784B 15 Points

Research Topic in Education
Supervised inquiry in an area of education approved by the Head of the Liberal Arts Programme in the Faculty of Education and Social Work.

To complete this course students must enrol in EDUC 784 A and B, or EDUC 784

EDUC 787 30 Points
EDUC 787A 15 Points
EDUC 787B 15 Points

Māori and Indigenous Research
An examination of how best to approach research with, by and for Māori, Pasifika and other indigenous groups. The course has relevance for all researchers in the education, community and social service sectors. Includes kaupapa Māori and other Indigenous methodologies and the practicalities and ethics of this research. Particular attention is given to the development of advanced writing skills for research.

Restriction: EDPRAC 751, EDPROFST 700, 754, 757
To complete this course students must enrol in EDUC 787 A and B, or EDUC 787

EDUC 790 30 Points
EDUC 790A 15 Points
EDUC 790B 15 Points

Research Project - Level 9

Restriction: EDUC 796
To complete this course students must enrol in EDUC 790 A and B, or EDUC 790

EDUC 791 30 Points

Socio-cultural Examination of Sport and Exercise
Critical examination of the cultural meanings and social significance of sport and exercise. Analyses how different sociological approaches have applied key concepts in examining and understanding the importance of sport and exercise practices in contemporary society.

EDUC 792A 60 Points
EDUC 792B 30 Points

Thesis - Level 9

Corequisite: 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757
To complete this course students must enrol in EDUC 792 A and B

EDUC 794A 30 Points
EDUC 794B 60 Points

Thesis - Level 9

Corequisite: 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757
To complete this course students must enrol in EDUC 794 A and B

EDUC 796A 60 Points
EDUC 796B 60 Points

Thesis - Level 9

Prerequisite: A BA(Hons) in Education with at least Second Class Honours, First Division, or equivalent, and an approved research course
To complete this course students must enrol in EDUC 796 A and B

EDUC 797A 60 Points
EDUC 797B 60 Points

Research Portfolio - Level 9

Prerequisite: A BA(Hons) in Education with at least Second Class Honours, First Division, or equivalent, and an approved research course
To complete this course students must enrol in EDUC 797 A and B

Named Doctoral Courses

EDUC 801 30 Points

Literature Review
An advanced examination of students’ thesis topic through a rigorous review of the existing literature. The craft of advanced academic writing is developed through literature synthesis and critique, identifying research gaps to explore in their thesis work, developing an academic argument, exploring positionality, and drafting research questions for the thesis.

EDUC 802 30 Points

Theoretical Framework
An advanced examination of the role of theoretical frameworks as the system of concepts, assumptions, expectations and beliefs that supports and informs education research. The craft of advanced academic writing is developed through a detailed description of the chosen theoretical framework, with attention to how the framework informs the study design and research questions.

EDUC 803 30 Points

Study Design
An advanced examination of research methods best suited to undertake the proposed thesis investigation. The craft of advanced academic writing is developed through a discussion of and rationale for the proposed methods including a description of study design, participants, sampling plan, study setting, data collection and analysis techniques. Reliability and validity constraints are also explored.

EDUC 804 30 Points

Thesis Proposal
The craft of advanced academic writing is further developed through refinement of the literature review to present a cogent rationale for the proposed investigation, a clear explanation of how the theoretical framework will guide the study and complete articulation of the proposed methods.
Education and Social Work

Stage I

EDUCSW 199 0 Points
EDUCSW 199A 0 Points
EDUCSW 199B 0 Points

English Language Competency
To complete this course students must attain a level of competency in the English language as determined by the Faculty of Education and Social Work. To complete this course students must enrol in EDUCSW 199 A and B, or EDUCSW 199

Stage II

EDUCSW 201 15 Points
Diversity in Aotearoa/New Zealand
Explores diversity in Aotearoa New Zealand, focusing on its bicultural history and contemporary public policy. Questions power relations relating to the Treaty of Waitangi and biculturalism, extending to the nation's increasing ethnic, cultural and linguistic diversities. Critiques intersectionalities of culture, race, ethnicity, gender, socio-economic location, sexuality, disability, age and examines policy implications. Tamaki Makaurau (Auckland) is a key illustrative setting.
Prerequisite: EDUCSW 101 or EDPROFM 100
Restriction: EDUC 118, SOCWORK 113, 114

EDUCSW 202 15 Points
New Cultures of Learning
Examines the current 'learning revolution' that has emerged from widespread economic, social, technological and environmental changes in today's globalised world. Questions the what, why and how of learning and recognises that 'formal' education represents only one aspect of 'learning'. Provides an overview of theories and practices of new cultures of learning, which students can relate to their own learning experiences.

Stage III

EDUCSW 302 15 Points
Service Learning
A service-learning experience during which students will develop specialist knowledge and skills. With supervision, students will engage in culturally-responsive, reflective practice that is of direct benefit to others. Professional and ethical relationship management, effective communication skills, critical reflection and evidence-based decision making will be emphasised.
Prerequisite: Students are required to consent to the disclosure of criminal convictions and safety checks as required by the Children's Act 2014

EDUCSW 303 15 Points
Research and Professional Practice
Develops knowledge and understanding of a range of research paradigms and how research informs professional practice. Critically examines the scope and nature of research. Designs a valid, ethical, and appropriate inquiry of a professional practice topic.
Prerequisite: 45 points at Stage II
Restriction: EDCCURRIC 335

Diploma Courses

EDUCSW 600 15 Points
Special Study
Students undertake a supervised study into an aspect of the New Zealand curriculum, or relevant to education in New Zealand or the wider context. Key questions are formulated and specified outcomes addressed.
Prerequisite: Head of Programme approval

Postgraduate 700 Level Courses

EDUCSW 700 30 Points
Research Methodologies
Students explore two content strands. The first strand focuses on philosophical and theoretical questions about how we use and produce knowledge. The course takes a high-level view of methodological assumptions underlying different research traditions including Māori, Pasifika and other Indigenous research. The second strand focuses on understanding how to collect, interpret and synthesise research information in education and social services.
Restriction: EDRPAC 751, EDPROFS 700, 754, 757, EDUC 735, 787, EDUCSW 701, HIGHER 704, SOCWORK 718

EDUCSW 701 30 Points
Special Study

Education Curriculum Māori

Stage I

EDCURRM 102 15 Points
Te Reo Matatini Te Pihinga
Develops the knowledge, skills and attitudes associated with planning, teaching and assessing for students' literacy learning across ngā Marautanga Māori. Addresses questions such as: What do teachers need to know to teach literacy effectively? How do teachers' literacy competencies affect student learning? How do teachers balance the needs of the curriculum and the needs of learners?
Restriction: EDCCURRM 102

EDCURRM 108 15 Points
Pāngarau: He Whakatakinga
Develops knowledge and understanding of the discipline of Pāngarau and its relevance and purpose. Understands how the discipline is manifested in the form of curricula documents and guides. Considers questions such as what does it mean for children to know pāngarau and the associated debates and related theory. Examines the specific pāngarau education discourse in te reo Māori.
Restriction: EDCCURRM 104

EDCURRM 109 15 Points
Te reo Matatini 1: Te Pihinga
Develops knowledge, skills and attitudes associated with planning, teaching and assessing for learners' literacy learning across Marautanga. Examines a range of pedagogical practices and beliefs, including second language learning theory and pedagogy to teach literacy effectively and to improve outcomes for learners.
Restriction: EDCCURRM 102

EDCURRM 111 15 Points
Hauora
Develops understanding of hauora, its whakapapa, philosophies and practices that support learning and teaching. Examines how teachers implement quality learning experiences based on ngā akoranga koiri me
ngā mātauranga haurua to ensure effective learning for a diverse range of learners. Focuses on how learning is monitored and assessed. Examines the specific te reo Māori discourse in haurua education.  
Restriction: EDCURRM 103

EDCURRM 114 15 Points  
Pūtaiao - He Whakatakinga
Demonstrates knowledge of the relevance of pūtaiao for students, community, and society. Develops understanding of pūtaiao as a discipline. Demonstrates and develops knowledge of the pūtaiao learning areas, planning, teaching and assessment, other relevant progressions, and support materials. Examines how teachers design quality learning environments for positive engagement and effective learning in pūtaiao for a diverse range of learners.  
Prerequisite: EDCURRM 109
Restriction: EDCURRM 205

EDCURRM 117 15 Points  
Ngā Toi: He Whakatakinga
Inquires into the place of Ngā Toi in education, and develops capability and understanding through experiences in each of the three Ngā Toi disciplines: Toi Ataata; Ngā Mahi a te Rēhia; and Toi Puoro. Designs for learning by applying pedagogical, curriculum and content knowledge to select approaches and resources for Ngā Toi learning experiences for valued outcomes for learners.  
Restriction: EDCURRM 101

EDCURRM 119 15 Points  
Tikanga ā-iwi: He Whakatakinga
Develops students' knowledge and skills associated with planning for teaching and learning in tikanga ā-iwi. Examines the history, nature and purpose of tikanga ā-iwi education. Develops students' knowledge of curriculum requirements, social inquiry and resources to plan for students' diverse needs. Examines how learning is monitored and assessed. Examines the specific tikanga ā-iwi discourse of te reo Māori.  
Restriction: EDCURRM 101

Stage II

EDCURRM 201 15 Points  
Pāngarau: He Puāwaitanga
Develops understanding of pāngarau and pedagogical content knowledge for teaching and learning. Designs quality programmes based on knowledge of dispositions, learning and teaching approaches, resources and curricula, and assessment activities. Uses an increasing repertoire of teaching strategies, approaches, learning activities, technologies and assessment for learning. Communicates using the specific pāngarau education discourse in te reo Māori.  
Prerequisite: EDCURRM 108
Restriction: EDCURRM 204

EDCURRM 203 15 Points  
Te Reo Matatini 2: Te Puanga
Further develops the knowledge, skills and attitudes associated with planning, teaching and assessing for learners' language proficiency and literacy learning across te Marautanga Māori. Examines a range of pedagogical practices and beliefs, including second language learning theory and pedagogy to improve outcomes for learners.  
Prerequisite: EDCURRM 109
Restriction: EDCURRM 202

EDCURRM 205 15 Points  
Hangarau me te Pūtaiao - He Whakawhanaketaanga
Develops knowledge in the planning, teaching and assessing of children's learning in the hangarau and pūtaiao curricula as well as knowledge of relevant progressions and support guidelines. Examines how teachers design quality learning environments for positive engagement and effective learning in hangarau and pūtaiao for a diverse range of learners.  
Prerequisite: EDCURRM 113
Restriction: EDCURRM 105, 107

Stage III

Education Curriculum Pasifika

Stage I

EDCURRPK 111 15 Points  
Ng uēaki e Tekinolosia
Develops knowledge and understanding of components of technological literacy as it relates to young children, including Pasifika children. Develops understanding of appropriate pedagogy to enhance learning in technology in Pasifika and general ECE settings. What is technological literacy? How can technological literacy be developed through drawing upon Pasifika languages and cultures? What environments encourage children's exploration of technological experiences?  
Restriction: EDCURRIC 111

EDCURRPK 115 15 Points  
Apii taieni i nga mataiti mua
Develops an appreciation of the nature of science, which supports conceptual understandings and quality teaching and learning approaches to science education in Pasifika ECE settings. How do teachers foster quality learning environments for infants, toddlers and young children based on the ECE curriculum so that learning in science can occur for diverse learners? How can science literacy be developed through Pasifika languages and cultures?  
Restriction: EDCURRIC 115
Stage II

EDCURRPK 116
Lafiafiaga Tau tufuga Pasifika
15 Points
Explores Pasifika perspectives on the four distinct disciplines of dance, drama, music and visual arts within the Arts. Students are encouraged to express ideas, feelings, beliefs and values that foster understanding of others. Theoretical and philosophical perspectives will be examined within the context of Pasifika Arts Education. How are Pasifika Arts interpreted within Early Childhood Education settings?
Restriction: EDCURRIC 116

EDCURRPK 120
Na i vakarau ni vuli ka ena Pasifika
15 Points
Examines Te Whāriki Early Childhood Curriculum with specific reference to Pasifika learners. Pasifika pedagogies will be explored in relation to the principles, strands and goals of the curriculum. What do teachers need to know about the philosophical, theoretical and socio-cultural basis of Te Whāriki? How do Pasifika pedagogies, including teaching through language and culture, relate to the principles, strands and goals of Te Whāriki? Examines social sciences in Te Whāriki and other examples in Pasifika and general ECE settings.

EDCURRPK 121
Moui olaola
15 Points
An introduction to human development from conception to old age and death within a holistic framework. Pasifika and other theoretical perspectives will be discussed in relation to understanding child development in the early years. Students will explore social theories to inform and develop effective teaching and learning strategies inclusive of Pasifika. How can Pasifika languages and cultures boost holistic development in Pasifika and general ECE?

Stage III

EDCURRPK 210
Aoaga o fanau laiti
15 Points
Critically examines influences of historical and contemporary theory and practice for infants/toddlers in Pasifika and general ECE settings. Develops pedagogies responsive to early learners. How do such pedagogies address a responsive infant/toddler curriculum with Pasifika learners? How do relationship-based pedagogies address issues for teachers of infants and toddlers? What is the tension between education and care from Pasifika cultural perspectives?
Restriction: EDCURRIC 210

EDCURRPK 211
Gagana ma lana matafaioi
15 Points
Develops knowledge, skills, dispositions associated with assessing, planning and teaching for children's learning in Pasifika languages and critical literacies. Addresses such questions as: What do teachers need to know to teach learners in Pasifika ECE settings, and with fanau and communities? What educational resources and strategies might be used so all children become competent, confident communicators in Aotearoa New Zealand?
Restriction: EDCURRIC 211

EDCURRPK 212
Fika 'i he Fanau iiki
15 Points
Develops knowledge and understanding of early mathematical concepts and their relationship with holistic learning environments in Pasifika ECE and general settings. What are early mathematical concepts as evident in Pasifika cultures? What is effective planning for mathematical possibilities drawing upon Pasifika languages and cultures within a play based ECE programme? What constitutes a holistic approach to mathematics learning?
Restriction: EDCURRIC 212

EDCURRPK 313
Tuvaluva vakarautaki ena vuli me qito
15 Points
Develops a critical understanding of play within a broader context of learning and teaching in Pasifika and general ECE settings. How do Pasifika and other theoretical and philosophical perspectives on play impact on personal pedagogy? What are the pedagogical implications of play interfacing between individual freedom, fanau and community? What is the significance of play for adult creativity, communication and citizenship?

EDCURRPK 322
Moui fakaagaga i loto he tau Aoga Fanau iiki he Pasifika
15 Points
Explores and critically analyses the notion of spiritual development, spirituality and culture within the context of Pasifika ECE education. Students will explore how to utilise cultural and spiritual knowledge to enhance Pasifika children's learning. What are the implications of spirituality, cultural knowledge and practices for pedagogy and curriculum that enhance holistic development?
Restriction: EDCURRPK 122

EDCURRPK 353
Su'esu'ega loloto i le faaaogaina o gagana
15 Points
Develops a critical understanding of the place of bilingualism/biliteracy in relation to policy and practice of the ECE curriculum Te Whāriki, the New Zealand Curriculum and Pasifika languages. Learning and teaching in the medium of Pasifika languages involves knowledge and skills from the bilingual professional education field. Students are expected to critique the best of local and international bilingual and immersion theory and practice.
Restriction: EDCURRPK 253

Education Curriculum Secondary Diploma

Diploma Courses

EDCURSEC 601
Teaching Years 7-10 Mathematics and Statistics
15 Points
Develops knowledge and understanding of mathematics and statistics learning and teaching in the middle school by considering the questions: What is mathematical and statistical thinking? What are the components of, and key concepts and learning progressions in, the national curriculum? What is quality learning in mathematics and statistics? What constitutes effective teaching practices in mathematics and statistics?
Restriction: EDCURSEC 605, 606, EDCURR 607, 631

EDCURSEC 602
Teaching Years 9-11 Mathematics and Statistics
15 Points
Develops the knowledge, skills and understanding for designing quality learning experiences in mathematics and statistics for diverse learners by considering the questions related to secondary school mathematics and statistics education: What are the key concepts and learning progressions in the national curriculum? What theoretical models best inform as to the growth of understanding?
What constitutes effective teaching and assessment practices?
Prerequisite: EDCURSEC 601
Restriction: EDCURSEC 605, 606, EDCURR 607, 631

EDCURSEC 603 15 Points
EDCURSEC 603A 7.5 Points
EDCURSEC 603B 7.5 Points

Curriculum Statistics Education 2
Develops the knowledge, skills and understanding for designing quality learning experiences and internal national assessment tasks in statistics for diverse learners by considering the questions related to senior secondary school statistics education: What are the concepts and learning progressions in the national curriculum? What statistical ideas pose greatest difficulty for learners? What constitutes effective teaching and assessment practices?
Corequisite: EDCURSEC 601 or 687
Restriction: EDCURR 607, 631, EDCURSEC 605, 606
To complete this course students must enrol in EDCURSEC 603
A and B, or EDCURSEC 603

EDCURSEC 604 15 Points
EDCURSEC 604A 7.5 Points
EDCURSEC 604B 7.5 Points

Senior Mathematics Education
Develops the knowledge, skills and understanding for designing quality learning experiences and internal national assessment tasks in mathematics for diverse learners by considering the questions related to senior secondary school mathematics education: What are the concepts and learning progressions in the national curriculum? What mathematical ideas pose greatest difficulty for learners? What constitutes effective teaching and assessment practices?
Corequisite: EDCURSEC 602 or 687
Restriction: EDCURR 607, 631, EDCURSEC 605, 606
To complete this course students must enrol in EDCURSEC 604
A and B, or EDCURSEC 604

EDCURSEC 607 15 Points

Physical Education Practice
Develops the practical pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing physical education in learning contexts related to teaching Years 9-11. Addresses questions such as: How do teachers plan lessons in, through and about movement? What do teachers need to know to teach in movement-based learning contexts effectively?

EDCURSEC 608 15 Points
EDCURSEC 608A 7.5 Points
EDCURSEC 608B 7.5 Points

Physical Education Curriculum
Develops the curriculum knowledge associated with planning, teaching and assessing physical education in secondary schools. Addresses questions such as: What is physical education and why is it important? How are units and programmes planned using the curriculum and national assessment requirements? How do teachers accommodate assessment qualification requirements in their planning?
Corequisite: EDCURSEC 607 or 687
To complete this course students must enrol in EDCURSEC 608
A and B, or EDCURSEC 608

EDCURSEC 611 15 Points

Teaching Health Education 1
Integrates multidisciplinary-based knowledge and pedagogical content knowledge with developing understanding, skills, attitudes and values associated with teaching in health education across the secondary school. Addresses questions such as: Why is health education important? How are teachers informed in this subject? How is health education taught ethically and effectively for a diverse range of learners?
Restriction: EDCURR 648

EDCURSEC 612 15 Points
EDCURSEC 612A 7.5 Points
EDCURSEC 612B 7.5 Points

Teaching Health Education 2
Examines further the theories, concepts and research central to the teaching of health education. Addresses questions such as: What do teachers need to know to teach and assess learning in health education? What is authentic health education assessment and how do we determine and monitor success? How does knowledge of curriculum concepts determine learning at senior school levels?
Corequisite: EDCURSEC 611 or 687
Restriction: EDCURR 648
To complete this course students must enrol in EDCURSEC 612
A and B, or EDCURSEC 612

EDCURSEC 613 15 Points

Teaching and Learning Science 1
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in intermediate and secondary science education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for a diverse range of learners? How is achievement determined and monitored?
Prerequisite: Departmental approval
Restriction: EDCURSEC 619, 620

EDCURSEC 614 15 Points
EDCURSEC 614A 7.5 Points
EDCURSEC 614B 7.5 Points

Teaching and Learning Science 2
Integrates research, theory and practical experience in examining secondary school science learning contexts. Addresses questions such as: Why is Science important? What is scientific literacy? What pedagogical content knowledge is needed to teach science effectively? How is achievement determined and monitored?
Corequisite: EDCURSEC 613 or 687
Restriction: EDCURSEC 619, 620, EDCURR 608, 633
To complete this course students must enrol in EDCURSEC 614
A and B, or EDCURSEC 614

EDCURSEC 615 15 Points

Teaching and Learning Science 3
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in senior secondary science education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for a diverse range of learners? How is achievement determined and monitored?
Restriction: EDCURSEC 619, 620, EDCURR 608, 633

EDCURSEC 616A 7.5 Points
EDCURSEC 616B 7.5 Points

Teaching Chemistry Education
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable
effective teaching and learning approaches in senior chemistry education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for senior secondary students? How is achievement determined and monitored?
Corequisite: EDCURSEC 613, 615 or 619, 620 or 687
Restriction: EDCURR 638
To complete this course students must enrol in EDCURSEC 616 A and B

EDCURSEC 676 7.5 Points
EDCURSEC 676A 7.5 Points

Teaching Biology Education
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in senior biology education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for senior secondary students? How is achievement determined and monitored?
Corequisite: EDCURSEC 613, 615 or 619, 620 or 687
Restriction: EDCURR 636
To complete this course students must enrol in EDCURSEC 617 A and B

EDCURSEC 678 7.5 Points
EDCURSEC 678A 7.5 Points

Teaching Physics Education
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in senior physics education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for senior secondary students? How is achievement determined and monitored?
Corequisite: EDCURSEC 613, 615 or 619, 620 or 687
Restriction: EDCURR 637
To complete this course students must enrol in EDCURSEC 618 A and B

EDCURSEC 626 15 Points
EDCURSEC 626A 7.5 Points
EDCURSEC 626B 7.5 Points

Geography for Teaching 1
Integrates expertise in the discipline of geography with expertise in planning, teaching and assessing the subject in schools. Develops the conceptual knowledge and skills that are central to the geography curriculum and addresses questions such as: Why is geography important? What do teachers need to know to teach and assess geography effectively? What resources and strategies maximise motivation and learning?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 604, 628, EDCURSEC 628, 629
To complete this course students must enrol in EDCURSEC 626 A and B, or EDCURSEC 626

EDCURSEC 627 15 Points
EDCURSEC 627A 7.5 Points
EDCURSEC 627B 7.5 Points

History for Teaching 1
Integrates disciplinary expertise in relation to History content and historiography while developing the knowledge and skills associated with planning, teaching and assessing the subject. Addresses questions such as: Why is History an important subject? How can History be taught and assessed effectively? What resources and strategies can be used to maximise student motivation in learning History?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 605, 629, EDCURR 632, 633
To complete this course students must enrol in EDCURSEC 630 A and B, or EDCURSEC 630

EDCURSEC 631 15 Points
EDCURSEC 631A 7.5 Points
EDCURSEC 631B 7.5 Points

History for Teaching 2
Enhances disciplinary expertise in relation to developing an appropriate knowledge of content and historiography for Years 11 to 13 History, while further developing the knowledge and skills associated with planning, teaching and assessing the subject. Addresses questions such as: How can teachers challenge students to explore historical issues, understand and develop the methodologies employed by historians?
Corequisite: EDCURSEC 630 or 687
Restriction: EDCURR 605, 629, EDCURSEC 632, 633
To complete this course students must enrol in EDCURSEC 631 A and B, or EDCURSEC 631
Course Prescriptions

EDCURSEC 634 15 Points
EDCURSEC 634A 7.5 Points
EDCURSEC 634B 7.5 Points

Economics Education
Develops knowledge and skills associated with planning for teaching and learning in Economics. Addresses questions such as: What are important principles, concepts and skills associated with Economics education? What do teachers need to know and understand about teaching methodologies, management strategies and resources to successfully plan for the diverse needs of students?
Restriction: EDCURR 661, 635
To complete this course students must enrol in EDCURSEC 634 A and B, or EDCURSEC 634

EDCURSEC 636A 7.5 Points
EDCURSEC 636B 7.5 Points

Accounting Education
Develops knowledge and skills associated with planning for teaching and learning in Accounting. Addresses questions such as: What are important principles, concepts and skills associated with Accounting education? What do teachers need to know and understand about teaching methodologies, management strategies and resources to successfully plan for the diverse needs of students?
Restriction: EDCURR 602, 624
To complete this course students must enrol in EDCURSEC 636 A and B

EDCURSEC 638A 7.5 Points
EDCURSEC 638B 7.5 Points

Business Studies 1
Integrates disciplinary based content knowledge, theory and research with developing knowledge, skills and attitudes associated with planning and assessment in Business Studies. Addresses questions such as: Why is this subject important? What do teachers need to know to teach this subject effectively? What motivates students in the subject and what resources and strategies maximise motivation?
To complete this course students must enrol in EDCURSEC 638 A and B

EDCURSEC 639 15 Points

The Learning Area of Technology
Develops the knowledge, understanding and issues associated with Technology education in the New Zealand Curriculum. Explores current and seminal theory to address questions such as: What is technology? Why is this Learning Area important? What are the important principles and concepts underpinning Technology in the New Zealand Curriculum?

EDCURSEC 641 15 Points
EDCURSEC 641A 7.5 Points
EDCURSEC 641B 7.5 Points

Teaching Specialist Technological Practice
Develops pedagogical content knowledge; skills and attitudes associated with specialist domains of practice in technology. Addresses questions such as: What is technological practice? How does industry practice relate to classroom practice? What strategies are effective for teaching technology to diverse learners? How does specialist knowledge contribute to classroom practice?
What teaching methodologies and resources maximise student success?
Corequisite: EDCURSEC 639 or 687
To complete this course students must enrol in EDCURSEC 641 A and B, or EDCURSEC 641

EDCURSEC 642 15 Points

Implementing Technology Education
Develops pedagogical content knowledge, skills and methodology for designing quality learning experiences and senior assessment tasks in Technology education. Addresses: How are units of work and programmes planned using the curriculum and national assessment requirements? What teaching methodologies, management strategies and resources maximise success for diverse learners? How do teachers determine and monitor success?
Restriction: EDCURSEC 639 or 687

EDCURSEC 643 15 Points
EDCURSEC 643A 7.5 Points
EDCURSEC 643B 7.5 Points

Educating for Visual Communication
Develops pedagogical content knowledge, skills and attitudes for quality visual communication across the Curriculum. Addresses questions such as: What is the value of learning to communicate visually? What are the important principles, concepts and skills in Visual Communication? How can visual communication contribute to children's learning in a range of curriculum areas? How do teachers encourage effective visual communication?
To complete this course students must enrol in EDCURSEC 643 A and B, or EDCURSEC 643

EDCURSEC 644A 7.5 Points
EDCURSEC 644B 7.5 Points

Design and Visual Communication
Develops pedagogical content knowledge, methodologies and skills underpinned by theory to design quality learning experiences and assessment tasks in Design and Visual Communication. Addresses: What are the important design principles, historical influences and ways of thinking and communicating in Design and Visual Communication? How are units and programmes planned using the curriculum and national assessment requirements?
To complete this course students must enrol in EDCURSEC 644 A and B

EDCURSEC 645 15 Points

Music Education 1
Integrates disciplinary-based content knowledge and scholarship with developing knowledge, skills and attitudes associated with planning, teaching and assessing Music. Addresses questions such as: What musical experiences are important to adolescent cognitive and affective development? What do teachers need to know to teach Music effectively? What strategies and resources maximise motivation and learning in Music?
Restriction: EDCURR 646, 661, 662

EDCURSEC 646 15 Points

Music Education 2
Enhances the integration of disciplinary-based content knowledge and scholarship with the knowledge, skills and attitudes required to teach and assess Music in the New Zealand curriculum. Addresses questions such as: What principles, strategies and understandings are necessary to plan, teach and assess music effectively in senior
secondary environments? How can these be scaffolded and monitored?

Corequisite: EDCURSEC 645

Restriction: EDCURR 646, 661, 662

EDCURSEC 647 15 Points
EDCURSEC 647A 7.5 Points
EDCURSEC 647B 7.5 Points

Music Education Research

Provides an opportunity for students to engage in research into an area of the Music curriculum. Addresses the question: What teaching methodologies, management strategies and resources best inform and maximise teacher and student success in secondary music education? Critically evaluates music education in contemporary societies in order to reach an informed understanding of how music education in New Zealand secondary schools might be structured and framed.

Corequisite: EDCURSEC 646 or 687

Restriction: EDCURR 646, 661, 662

To complete this course students must enrol in EDCURSEC 647 A and B, or EDCURSEC 647

EDCURSEC 648 15 Points

Visual Arts Education 1

Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing visual arts education. Addresses questions such as: What is the relationship between art, culture, New Zealand society and the curriculum? How can visual arts education address the needs of ethnically and culturally diverse students? What teaching methodologies, management strategies and resources motivate students and maximise achievement?

Corequisite: EDCURSEC 649

EDCURSEC 649 15 Points

Visual Arts Education 2

Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing visual arts education. Addresses questions such as: What are the important principles, concepts and skills for teaching the visual arts discipline in the arts curriculum? How do visual arts programmes promote development of practical knowledge, exploration and expression of ideas, and understanding of the contexts of art?

Corequisite: EDCURSEC 648

EDCURSEC 650 15 Points
EDCURSEC 650A 7.5 Points
EDCURSEC 650B 7.5 Points

Visual Arts Education 3

Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing visual arts education in the senior school. Addresses questions such as: What are the important principles, concepts and skills for teaching the specialist disciplines in the visual arts curriculum? How are programmes for senior students planned, resourced, managed and implemented to meet national curriculum and assessment requirements?

Corequisite: EDCURSEC 648, 649 or 687

To complete this course students must enrol in EDCURSEC 650 A and B, or EDCURSEC 650

EDCURSEC 651 15 Points

Teaching Drama 1

Develops pedagogical and content knowledge and skills for planning, teaching and assessing drama. Addresses questions such as: What important principles, skills, teaching methodologies and strategies support teaching drama in the secondary school? How can drama education address needs of diverse students? How do drama programmes extend practical knowledge, developing ideas, performance and interpretation and understanding of drama contexts?

Restriction: EDCURSEC 661

EDCURSEC 652 15 Points
EDCURSEC 652A 7.5 Points
EDCURSEC 652B 7.5 Points

Teaching Drama 2

Develops pedagogical and content knowledge, skills and attitudes for planning teaching and assessing drama education in the senior school. Addresses questions such as: What are the important principles, concepts and teaching skills that support specialist drama programmes in the senior secondary school? How are programmes for senior students planned, resourced, and implemented for national curriculum and assessment requirements?

Corequisite: EDCURSEC 651 or 687

Restriction: EDCURR 679, EDCURSEC 661

To complete this course students must enrol in EDCURSEC 652 A and B, or EDCURSEC 652

EDCURSEC 653 15 Points
EDCURSEC 653A 7.5 Points
EDCURSEC 653B 7.5 Points

Teaching Dance Education 1

Develops pedagogical and content knowledge and skills for planning, teaching and assessing dance. Addresses questions such as: What important principles, skills, teaching methodologies and strategies support teaching dance in the arts curriculum? How can dance education address the needs of diverse students? How do dance programmes extend practical knowledge, dance making, performance and interpretation, and understanding of dance contexts?

Restriction: EDCURR 679

To complete this course students must enrol in EDCURSEC 653 A and B, or EDCURSEC 653

EDCURSEC 654 15 Points
EDCURSEC 654A 7.5 Points
EDCURSEC 654B 7.5 Points

Teaching Dance Education 2

Develops pedagogical and content knowledge, skills and attitudes for planning teaching and assessing dance education in the senior school. Addresses questions such as: What are the important principles, concepts and teaching skills that support specialist dance programmes in the senior secondary school? How are programmes for senior students planned, resourced, and implemented for national curriculum and assessment requirements?

Corequisite: EDCURSEC 653 or 687

Restriction: EDCURR 679

To complete this course students must enrol in EDCURSEC 654 A and B, or EDCURSEC 654

EDCURSEC 655A 7.5 Points
EDCURSEC 655B 7.5 Points

Art History Education

Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing art history education. Addresses questions such as: What are the important principles, concepts and skills for teaching art history? How can studies in language and visual literacy be maximised for student achievement? How are programmes
planned, resourced, managed and implemented to meet national curriculum and assessment requirements? To complete this course students must enrol in EDCURSEC 655 A and B

**EDCURSEC 656**  
**Teaching and Learning English 1**  
15 Points  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing English. Addresses questions such as: Why is this subject important? What are the important principles, concepts and skills in this subject? How can the diverse needs of students be addressed? How do teachers plan lessons? What teaching methodologies, management strategies and resources maximise success?  
Corequisite: EDCURSEC 657  
Restriction: EDCURSEC 659, 660, EDCURR 603, 626

**EDCURSEC 657**  
**Teaching and Learning English 2**  
15 Points  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing English. Addresses questions such as: How are units and programmes planned using the curriculum and national assessment requirements? How is success determined for the beginning stages of national qualifications?  
Corequisite: EDCURSEC 656  
Restriction: EDCURSEC 659, 660, EDCURR 603, 626

**EDCURSEC 658**  
**Teaching and Learning English 3**  
15 Points  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing English. Addresses questions such as: What are the important principles, concepts and skills for teaching the senior curriculum? How are senior curriculum units and programmes planned using national qualification assessment requirements? What teaching methodologies, management strategies and resources maximise student success? How is student success determined?  
Prerequisite: EDCURSEC 656, 657 or 687  
Restriction: EDCURSEC 659, 660, EDCURR 603, 626

**EDCURSEC 663**  
**Teaching Media Studies 1**  
15 Points  
Integrates disciplinary-based content knowledge and scholarship with developing the knowledge, skills and understandings associated with planning, teaching and assessing diverse learners in Media Studies at Years 12 and 13. Addresses questions such as: What do teachers need to know to teach and assess for national qualifications? What strategies and resources maximise motivation and learning in Media Studies?  
Restriction: EDCURR 632, 682, EDCURSEC 662

**EDCURSEC 664**  
**Teaching Media Studies 2**  
15 Points  
Enhances the integration of disciplinary-based content knowledge and scholarship with the knowledge, skills and understandings associated with planning, teaching and assessing diverse learners in Media Studies. Addresses questions such as: How do teachers structure programmes for students Years 9-13 in Media Studies? What knowledge, skills and understandings are central to this subject? How do teachers determine and monitor success?  
Corequisite: EDCURSEC 663 or 687

**EDCURSEC 665**  
15 Points  
**EDCURSEC 665A**  
7.5 Points  
**EDCURSEC 665B**  
7.5 Points  
**Teaching ESSOL 1**  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing ESSOL. Addresses questions such as: Why is this subject important? What are the important principles, concepts and skills in this subject? How can the diverse needs of students be addressed? How do teachers plan lessons? What teaching methodologies, management strategies and resources maximise success?  
Corequisite: EDCURSEC 687  
Restriction: EDCURR 627

**EDCURSEC 666**  
15 Points  
**EDCURSEC 666**  
15 Points  
**EDCURSEC 666A**  
15 Points  
**EDCURSEC 666B**  
15 Points  
**Teaching Languages**  
Addresses the methodologies for teaching languages by developing the knowledge, skills and attitudes associated with planning, teaching and assessing Languages. Addresses questions such as: Why is language learning important? What do teachers need to know to teach languages effectively? What strategies and resources maximise student motivation and language acquisition when learning a language?  
Restriction: EDCURR 665, 678, 680

**EDCURSEC 667A**  
15 Points  
**EDCURSEC 667B**  
15 Points  
**Teaching Chinese**  
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Chinese. Addresses questions such as: Why is it important to learn Chinese? What do teachers need to know to teach Chinese effectively? What strategies and resources maximise motivation and language acquisition in learning Chinese?  
Corequisite: EDCURSEC 667 or 687

**EDCURSEC 668A**  
7.5 Points  
**EDCURSEC 668B**  
7.5 Points  
**Teaching French**  
Integrates content knowledge and scholarship with the
knowledge, skills and attitudes associated with planning, teaching and assessing French. Addresses questions such as: Why is it important to learn French? What do teachers need to know to teach French effectively? What strategies and resources maximise motivation and language acquisition in learning French?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 650, 664
To complete this course students must enrol in EDCURSEC 669 A and B

EDCURSEC 670A 7.5 Points
EDCURSEC 670B 7.5 Points

Teaching German
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing German. Addresses questions such as: Why is it important to learn German? What do teachers need to know to teach German effectively? What strategies and resources maximise motivation and language acquisition in learning German?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 601, 623, 680
To complete this course students must enrol in EDCURSEC 670 A and B

EDCURSEC 671A 7.5 Points
EDCURSEC 671B 7.5 Points

Teaching Japanese
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Japanese. Addresses questions such as: Why is it important to learn Japanese? What do teachers need to know to teach Japanese effectively? What strategies and resources maximise motivation and language acquisition in learning Japanese?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 612, 639
To complete this course students must enrol in EDCURSEC 671 A and B

EDCURSEC 674A 7.5 Points
EDCURSEC 674B 7.5 Points

Teaching Samoan
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Samoan. Addresses questions such as: Why is it important to learn Samoan? What do teachers need to know to teach Samoan effectively? What strategies and resources maximise motivation and language acquisition in learning Samoan?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 647, 665
To complete this course students must enrol in EDCURSEC 674 A and B

EDCURSEC 675A 7.5 Points
EDCURSEC 675B 7.5 Points

Teaching Spanish
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Spanish. Addresses questions such as: Why is it important to learn Spanish? What do teachers need to know to teach Spanish effectively? What strategies and resources maximise motivation and language acquisition in learning Spanish?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 613, 640
To complete this course students must enrol in EDCURSEC 675 A and B

EDCURSEC 676 15 Points

Teaching Religious Education
Develops the pedagogical content and subject matter knowledge; skills and attitudes associated with planning, teaching and assessing Religious Education in Catholic/Christian schools. Addresses questions such as: Why is this subject important? What do teachers need to know to teach RE effectively? How can diverse needs of students be addressed? What teaching methodologies, management strategies and resources maximise success?
Restriction: EDPROFST 760

EDCURSEC 677A 7.5 Points
EDCURSEC 677B 7.5 Points

Teaching Classical Studies
Integrates disciplinary-based content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Classical Studies. Addresses questions such as: Why is it important to study Classical Studies? What do teachers need to know to teach and assess for senior qualifications? What strategies and resources maximise motivation and learning in Classical Studies?
Restriction: EDCURR 620, 622
To complete this course students must enrol in EDCURSEC 677 A and B

EDCURSEC 678 15 Points
EDCURSEC 678A 7.5 Points
EDCURSEC 678B 7.5 Points

Te Whakapuakitanga
Integrates content knowledge with knowledge, skills and attitudes associated with planning, teaching and assessing te reo Māori at Years 7-10. Addresses such questions as: Why is it important to learn te reo Māori? What do teachers need to know to teach te reo Māori effectively? What strategies and resources maximise motivation and language acquisition in teaching te reo Māori?
Restriction: EDCURR 606, 630, EDCURRM 320
To complete this course students must enrol in EDCURSEC 678 A and B, or EDCURSEC 678

EDCURSEC 679 15 Points
EDCURSEC 679A 7.5 Points
EDCURSEC 679B 7.5 Points

Te Whakawhanaketanga
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing te reo Māori in Years 11-13. Addresses such questions as: What key factors contribute to the teaching of senior students? How are curriculum units and programmes planned in order to meet high stakes assessment requirements? How do teachers formatively assess student learning?
Corequisite: EDCURSEC 678 or 687
Restriction: EDCURR 606, 630
To complete this course students must enrol in EDCURSEC 679 A and B, or EDCURSEC 679

EDCURSEC 681 10 Points

Special Study
Students undertake a supervised study into an aspect of the
New Zealand curriculum, or relevant to education in New Zealand or the wider context. Key questions are formulated and specified outcomes addressed.

EDCURSEC 684 15 Points
EDCURSEC 684A 7.5 Points
EDCURSEC 684B 7.5 Points

**Junior Commerce Education**
Develops the content knowledge and understanding required to teach a selected subject and the pedagogical knowledge and skills associated with planning, teaching and assessing the subject, consistent with curriculum requirements. 

To complete this course students must enrol in EDCURSEC 684 A and B, or EDCURSEC 684

EDCURSEC 687A 15 Points
EDCURSEC 687B 15 Points

**Studies in Curriculum and Pedagogy**
Develops the content knowledge and understanding required to teach a selected subject and the pedagogical knowledge and skills associated with planning, teaching and assessing the subject, consistent with curriculum requirements. Addresses questions such as: What do teachers need to know to teach this subject effectively? What resources and strategies maximise the motivation and learning of students in this subject?

To complete this course students must enrol in EDCURSEC 684 A and B, or EDCURSEC 684

EDCURSEC 688A 30 Points

**Environmental Education**
Develops the content knowledge, skills and understanding consistent with the environmental education guidelines to enable effective teaching and learning approaches about, for and within the environment. Addresses questions such as: How do teachers design quality learning experiences for a diverse range of learners? How can social sciences, science and technology education enhance the potential of this educational focus?

To complete this course students must enrol in EDCURSEC 689 A and B

EDCURSEC 689A 15 Points
EDCURSEC 689B 7.5 Points

**Multi-disciplinary Approaches**
Develops pedagogical knowledge, skills and attitudes associated with teaching in multi-disciplinary contexts incorporating information and communication technologies. Addresses questions such as: What are the important principles, concepts and skills associated with multi-disciplinary teaching? How do teachers plan for cross-curricular projects? How can multi-disciplinary teams operate effectively? How can the use of ICT contribute to effective learning?

Restriction: EDCURR 625

EDCURSEC 691 15 Points
EDCURSEC 691A 7.5 Points
EDCURSEC 691B 7.5 Points

**Teaching Subject Specialism**
Develops the knowledge and skills required to teach a specific secondary school subject. This includes adapting content knowledge for teaching and developing subject specific pedagogical skills. The course addresses questions such as: What do teachers need to know to teach this subject effectively? What resources and strategies maximise the motivation and learning of diverse learners in this subject?

Restriction: EDCURSEC 601-690

To complete this course students must enrol in EDCURSEC 691 A and B, or EDCURSEC 691

EDCURSEC 692 45 Points
EDCURSEC 692A 30 Points
EDCURSEC 692B 15 Points

**Design for Learning**
Develops understanding of the national curriculum document and the structure and content of the Learning Area, including content, pedagogical knowledge and pedagogical content knowledge required for developing effective learning environments. Develops planning, teaching, and assessment design consistent with national curriculum requirements and with theory and research within the Learning Area. Reflects critically on how responsive pedagogies impact on learning.

Restriction: EDCURSEC 687

To complete this course students must enrol in EDCURSEC 692 A and B, or EDCURSEC 692

**Postgraduate 700 Level Courses**

EDCURSEC 700 30 Points

**Responsive Pedagogies**
Within a curriculum specialism this course examines responsive pedagogies and how these enhance engagement and achievement of priority learners. Through classroom practice students reflect critically on how responsive pedagogies impact on learning.

EDCURSEC 701 30 Points

**Enacting Core Practices**
Examines evidenced-based core practices that have the potential to improve student achievement. Within the context of curriculum areas, students will enact these practices and inquire into the impact of their teaching on priority learners.

EDCURSEC 709 15 Points

**Curriculum, Teaching, and Learning**
Critically explores the New Zealand Curriculum and secondary school qualifications, and develops pedagogical content knowledge of planning, teaching and assessment in specialist learning areas. A short teaching practice enables students to apply knowledge to practice, and critically examine its relationship to relevant theory and research.

EDCURSEC 719A 15 Points
EDCURSEC 719B 15 Points

**Learning Area Inquiry**
Within the context of concurrent field-based teaching, critically reflects on effective teaching practices, and theory and research evidence that underpin them. Develops pedagogical content knowledge, and understanding and use of inquiry within a specialist learning area. Students demonstrate evidence of self-awareness, awareness of learning through use of individualised student data, problem solving skills, and an understanding of culturally responsive pedagogy.

To complete this course students must enrol in EDCURSEC 719 A and B

**EDCURRIC 101 Arts Education Primary**
Develops students’ knowledge, skills and attitudes associated with planning, teaching and assessing children’s learning in the arts: dance, drama, music and visual art. Addresses questions such as: Why are the arts important to children's learning? How do teachers design quality learning experiences that encourage individual responses from a diverse range of learners? How do we monitor and assess learning?
*Restriction: EDCURR 106, 206, EDCURRM 101*

**EDCURRIC 102 Language and Literacy Education Primary 1**
Develops the knowledge, skills and attitudes associated with planning, teaching and assessing for students' learning in the English curriculum. Addresses questions such as: What do teachers need to know to teach the curriculum effectively? How do teachers’ literacy competencies affect student learning? How do teachers balance the needs of the curriculum and the needs of learners?
*Restriction: EDCURR 202, EDCURRM 102*

**EDCURRIC 103 Health and Physical Education**
Develops understandings of the theories, concepts and practices that support learning and teaching in health and physical education. Addresses questions such as: How do teachers implement quality learning experiences based on the health and physical education curriculum for effective learning to occur for a diverse range of learners? How is learning monitored and assessed?
*Restriction: EDCURR 108, EDCURRM 103*

**EDCURRIC 104 Primary Mathematics and Statistics Education 1**
Develops knowledge and understanding of the nature of mathematics and statistics. Considers questions related to primary school mathematics and statistics education such as: What is the purpose and role of mathematics and statistics in the New Zealand Curriculum Framework? What is meant by thinking mathematically and statistically? What are the components of, and key concepts in, the national curriculum?
*Restriction: EDCURR 203, EDCURRM 104*

**EDCURRIC 105 Science Education Primary**
Develops an appreciation of the nature of science that supports conceptual understandings and quality teaching and learning approaches in science education. Addresses questions such as: How do teachers design quality learning experiences based on the science curriculum so that positive engagement and effective learning can occur for a diverse range of learners? How is learning monitored and assessed?
*Restriction: EDCURR 204, EDCURRM 105*

**EDCURRIC 106 Social Studies Education Primary**
Develops students' knowledge and skills associated with planning for teaching and learning in Social Studies. Addresses questions such as: What do teachers need to know and understand about the history, nature and purpose of Social Studies education? How are curriculum requirements, teaching methodologies, management strategies and resources used to plan for students’ diverse needs? How is learning monitored and assessed?
*Restriction: EDCURR 107*

**EDCURRIC 107 Technology Education Primary**
Develops knowledge, skills and attitudes associated with planning, teaching and assessing for children's learning in Technology Education. Addresses questions such as: What do teachers need to know about the nature and purpose of Technology Education? How do teachers design quality learning experiences for a diverse range of learners? How is learning monitored and assessed?
*Restriction: EDCURR 106, 209, EDCURRM 107*

**EDCURRIC 108 Mathematics and Statistics Education 1**
Explores what it means to be a learner of mathematics and statistics, with respect to relevant theory and curricula. Develops knowledge, understandings and skills that will enable students to identify, discuss and reflect on how diverse learners most effectively learn mathematics and statistics.
*Restriction: EDCURRIC 104*

**EDCURRIC 109 Languages and Literacies Education 1**
Examines beliefs and pedagogical practices about languages and literacies.
*Restriction: EDCURRIC 102*

**EDCURRIC 110 Dance/Drama in the Early Years**
Develops fundamental knowledge, skills and attitudes associated with planning, teaching and assessing children's dance and drama learning in early childhood. Addresses questions such as: Why are dance and drama important to children's learning? How do teachers design quality learning experiences that encourage individual responses from a diverse range of learners? How do we assess children's learning?

**EDCURRIC 111 Experiencing Technology**
Develops knowledge and understanding of the components of technological literacy as it relates to young children. Develops understanding of appropriate pedagogical strategies to enhance children's learning in technology. Addresses questions such as: What is technological literacy? How can we develop technological literacy in young children? What environments encourage children's exploration of technological experiences?

**EDCURRIC 112 Hauora: Early Years Movement**
Develops knowledge and understanding of the place of movement in childhood development, growth and learning. Examines questions such as: What is the nature and purpose of physical activity in the early years? What learning and teaching strategies, teacher disposition and practices ensure quality experiences for learning of, through and about movement for diverse learners?

**EDCURRIC 113 Science and Technology Education 1**
Through inquiry, develop an appreciation of the role of science and technology in education and society. Apply pedagogical, curriculum and content knowledge to select appropriate approaches and resources for science
and technology learning experiences to achieve valued outcomes for diverse akonga.

Restriction: EDCURRIC 105, 107

EDCURRIC 114 15 Points
Music in the Early Years
Develops fundamental understanding of knowledge, skills, and attitudes required to assess, plan, and facilitate children's learning through listening, singing, moving, playing and creating with music. Addresses questions such as: What is the value of music in early childhood? How do teachers design quality-learning experiences that motivate and enhance children's learning through music?

EDCURRIC 115 15 Points
Science in the Early Years
Develops an appreciation of the nature of science, which supports conceptual understandings and quality teaching and learning approaches to science education. Examines questions such as: How do teachers foster quality learning environments for infants, toddlers and young children based on the early childhood curriculum so that effective learning in science can occur for a diverse range of learners?

EDCURRIC 116 15 Points
Visual Arts in the Early Years
Develops fundamental knowledge, skills and attitudes associated with planning, teaching and assessing children's visual arts learning in early childhood. Addresses questions such as: Why is visual arts important to children's learning? What are effective design features of quality learning experiences that encourage individual responses from a diverse range of learners? How do we assess for children's learning?

EDCURRIC 117 15 Points
Arts Education
Inquire into the place of The Arts in education and develop capability and understanding through experiences in each of the four arts disciplines. Design for learning by applying pedagogical, curriculum, content and assessment knowledge to select approaches and resources for Arts learning experiences for valued outcomes for diverse akonga.

Restriction: EDCURRIC 101

EDCURRIC 118 15 Points
Young Children and Early Learning Environments

EDCURRIC 119 15 Points
Health and Physical Education and Social Studies Education 1
Explores the aims and purposes of Health and Physical Education and Social Studies Education. Pedagogies and practices that support learning and teaching in these areas are experienced and reflected on. Selection of content and development of appropriate planning decisions is practised

Restriction: EDCURRIC 103, 106

EDCURRIC 130 15 Points
Physical Education Practice 1
Introduces students to the practical foundations of physical education. Involves experiential learning including residential field-based experiences. Addresses such questions as: How do I perform selected physical activities, improve my technical knowledge of the competencies required in the selected activities, analyse selected movements and provide feedback to others?

EDCURRIC 131 15 Points
Physical Education Practice 2
Develops students' competency and knowledge about the physical foundations of physical education. Emphasis is placed on experiential learning. Addresses such questions as: Do I have the knowledge and competence: to be able to perform selected physical activities, to apply appropriate technical knowledge to specific physical activities, and to analyse selected movements and provide feedback?

Prerequisite: EDCURRIC 130

EDCURRIC 132 15 Points
Concepts Underpinning Skilled Movement
Introduces students to the bio-physical foundations of Health and Physical Education including the roles of skill acquisition and bio-mechanics in physical education contexts. Addresses such questions as: How can knowledge of the internal and external mechanics be applied to understand human movement? What is skill and how do people learn motor skills?

EDCURRIC 134 15 Points
Expressive Movement and Physical Education
Develops an understanding of purposeful expressive physical activity that embraces aesthetic and inherent cultural values in learning dance and te ao kori. Addresses such questions as: What knowledge do teachers need in a range of aesthetic and bicultural physical education contexts to develop this work in schools? What choreographic skills are needed for devising aesthetic movement compositions?

EDCURRIC 135 15 Points
Socio-cultural Foundations of Health and Physical Education
Introduces subject matter knowledge in the socio-cultural foundations of Health and Physical Education. Addresses such questions as: What is the nature of sport and why do people play it? In what ways is the body a cultural construct? What educational and cultural practices influence human movement culture and mediate understanding of human physicality?

Stage II

EDCURRIC 200 15 Points
Biophysical Concepts in Physical Education
Develops knowledge and understanding of exercise physiology and motor skill learning in the context of the teaching of Physical Education. Addresses such questions as: What role does physiology play during exercise? What physiological responses occur during, and as a result of exercise? What is the nature of skill learning? What theories inform our understanding of skill acquisition?

Prerequisite: EDCURRIC 132, 133

EDCURRIC 201 15 Points
Mathematics and Statistics Education 2
Develops knowledge, understandings and skills that are effective in the successful teaching of mathematics and statistics. Engage with planning, teaching and assessing mathematics and statistics in responsive ways designed
EDCURRIC 202 15 Points
Languages and Literacy Education Primary 2
Deepens the knowledge, skills and attitudes associated with planning, teaching and assessing for individual students' learning in the English curriculum. Addresses questions such as: What are effective literacy practices for working with individual learners? How are wider concepts of literacy including bilingualism and biliteracy developed? How is learning monitored and assessed?
Prerequisite: EDCURRIC 102
Restriction: EDCURRM 202

EDCURRIC 203 15 Points
Languages and Literacies in Education 2
Applies learning focused pedagogical and curriculum content knowledge, using evidence to scaffold learning and to improve teaching.
Prerequisite: EDCURRIC 109
Restriction: EDCURRIC 202

EDCURRIC 204 15 Points
Primary Mathematics and Statistics Education 2
Develops the knowledge, skills and understanding for designing quality learning experiences for diverse learners. Considers questions related to primary school mathematics and statistics education such as: What are the concepts and learning progressions in the national curriculum? What theoretical models of teaching, learning and assessment best inform teachers about the growth of understanding? What constitutes effective teaching practice?
Prerequisite: EDCURRIC 104
Restriction: EDCURRM 204

EDCURRIC 205 15 Points
Science and Technology Education 2
Through inquiry, develop capability and understanding of the role of science and technology in education and society. Apply integration principles with pedagogical, content, assessment and curriculum knowledge to science and technology learning experiences resulting in valued outcomes for diverse learners.
Prerequisite: EDCURRIC 113

EDCURRIC 206 15 Points
Health and Physical Education and Social Studies Education 2
Critiques pedagogies and practices in Health and Physical Education and Social Studies in relation to their effectiveness for supporting diverse learners. Developing pedagogical, content, assessment and curriculum knowledge is utilised to design approaches for learning and teaching which promote valued outcomes for diverse learners.
Prerequisite: EDCURRIC 119

EDCURRIC 207 15 Points
Curriculum and Pedagogy
Critically examines theories, approaches and key curriculum influences. Examines the critical role of teacher knowledge, inquiry and reflection in implementing appropriate curriculum and assessment for infants, toddlers and young children. Critically explores the relationship between assessment, curriculum, pedagogy and learning, including Kaupapa Māori and Pasifika perspectives.

EDCURRIC 208 15 Points
Investigation and Exploration
Critically examines curriculum approaches that promote children's exploration and learning in science, technology, engineering and mathematics. Key concepts, processes and pedagogies relating to these disciplines are considered. Explores children's learning through play and holistic understandings of infant's, toddler's and young children's learning.

EDCURRIC 209 15 Points
Literacies, Languages, and Cultures
Critically explores responsive, equitable and inclusive pedagogies to support diverse ākonga in learning and developing languages and multi-modal literacies. Examines assessment, planning and teaching that take account of ākonga, whānau and communities. Issues related to literacies, languages and cultures in Aotearoa are critically examined. The construction and interpretation of children's texts are explored.

EDCURRIC 210 15 Points
Languages and Literacies
Explores connections between the wellbeing of teachers and ākonga. 
Explores children's learning through play and holistic understandings of infant's, toddler's and young children's learning.

EDCURRIC 211 15 Points
Languages and Literacies
Explores children's learning through play and holistic understandings of infant's, toddler's and young children's learning.

EDCURRIC 212 15 Points
Mathematics in the Early Years
At the heart of children's learning is the capability to learn and develop knowledge, skills and dispositions associated with assessing, planning and teaching for children's learning in languages and literacies. Addresses questions such as: What do teachers need to know and be, to teach with diverse learners, family, whānau and communities? What resources and strategies maximise complexity and continuity such that all children identify as competent and confident communicators in Aotearoa New Zealand?
Restriction: EDCURRIC 631

EDCURRIC 213 15 Points
Social Sciences Education
Develops knowledge, skills, dispositions associated with children's learning and social sciences education. Addresses questions such as: What do teachers need to know about belonging, contribution, family and community, and empowerment? What do teachers need to understand about culture and identity? How does pedagogical documentation support learning and teaching? What resources and strategies maximise contribution and participation?

EDCURRIC 214 15 Points
Hauora
Inquires into socio-ecological determinants of health in New Zealand society and the implications of these for the health and wellbeing of diverse ākonga and their whānau in early childhood contexts. Explores connections between the wellbeing of teachers and ākonga.

EDCURRIC 215 15 Points
Creative Arts in the Early Years
Explores the role of the Arts (dance, drama, music and

**Course Prescriptions**

Such questions as: What knowledge, skills and attitudes are required to teach and assess Year 11-13 students? What are the issues associated with the learning environments, teaching and assessment methods used by teachers at these levels? **Prerequisite:** 45 points from EDUC 142, EDCURRIC 132, 133, 135

**EDCURRIC 236 Teaching Outdoor Education**

Examines the role of outdoor education as an educational process in physical education contexts. Involves camping and other experiential learning to develop outdoor skills, knowledge, attitudes and behaviours for teaching outdoor education in schools. Addresses such questions as: How does pedagogy and programme design support safe, effective learning in the outdoors? What are the legal responsibilities for teaching outdoor education? **Prerequisite:** EDCURRIC 142

**EDCURRIC 237 Recreation and Leisure**

Examines the nature of recreation and leisure in contemporary society. Addresses such questions as: How does leisure relate to concepts of lifestyle, work and play? What factors influence participation in recreation and leisure activities? How does one educate for leisure? Involves practical learning experiences. 15 Points

**EDCURRIC 241 Special Study in Health and Physical Education**

**Prerequisite:** Approval by Head of Programme required

15 Points

**EDCURRIC 244 Special Study**

15 Points

**EDCURRIC 245 Special Study**

15 Points

**EDCURRIC 277 Special Study**

15 Points

**EDCURRIC 288 Special Study**

15 Points

**Stage III**

**EDCURRIC 303 Scientific and Technological Literacies: Primary**

Develops a critical view of scientific and technological literacies and an understanding of their inter-relationship within a range of learning environments. Asks questions such as: What are scientific and technological literacies? What do teachers need to know to be scientifically and technologically literate? How can teachers develop a quality science/technology learning environment? **Prerequisite:** 225 points passed in the BEd(Tchg) Primary Specialisation

15 Points

**EDCURRIC 309 Senior Primary**

Investigates quality teaching and learning across the curriculum for learners in Years 7-8. Addresses questions such as: What constitutes effective teaching for diverse learners at these levels? How can curriculum be integrated at this level and how can the effectiveness of this integration be monitored? **Prerequisite:** 225 points passed in the BEd(Tchg) Primary Specialisation

15 Points

**EDCURRIC 310 Pasifika Learners**

Examines what helps Pasifika learners to succeed in New Zealand education. Addresses questions such as: Who are Pasifika learners? How is Pasifika success addressed in
EDCURRIC 315 15 Points
Special Topic

EDCURRIC 322 15 Points
Special Study

EDCURRIC 333 15 Points

Advanced Youth Health Education
Critically examines social determinants of adolescent health in New Zealand and analyses their relevance to the Health and Physical Education curriculum. Addresses such questions as: How is the health teacher's role determined by adolescent health issues? What pedagogical practices in health education address adolescent health status?
Prerequisite: EDCURRIC 233

EDCURRIC 334 15 Points
Exercise and Physical Education
Critically examines and applies knowledge about exercise practices in physical education contexts. Addresses such questions as: What evidence base supports current exercise principles? How can the diverse exercise needs of students be addressed in physical education contexts? What issues and dilemmas are associated with current exercise practices? What influences how exercise is programmed in a physical education context?
Prerequisite: EDCURRIC 234

EDCURRIC 335 15 Points
Research Study in Health and Physical Education
Examines research philosophy, approaches and methods in education as a basis for informing professional practice in health and physical education. Addresses such questions as: How can teachers use research to inform their teaching? What represents quality research in educational settings? What issues influence the design and conduct of a research project?
Prerequisite: At least 60 points from EDCURRIC 230-241, 333-337

EDCURRIC 338 15 Points
Enhancing Teaching Through Science
Investigates personal conceptual science understandings and selected science education research to inform effective practice. Selected scientific concepts will be examined to provide experience in enhancing teaching through science and engaging children in effective learning in a variety of environments.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation
Restriction: EDCURRIC 260

EDCURRIC 339 15 Points
Developing Classroom Mathematics Programmes
Develops knowledge and understanding of classroom mathematics procedures and learning environments. Examines the integrated nature of learning, teaching and assessment with respect to long term programmes. Aims to further develop teacher confidence in, and positive attitudes toward, the teaching and learning of mathematics through critical analysis and personal reflection.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 345 15 Points
Literacy in the Primary School
An exploration of a variety of literacy processes, approaches, strategies and resources relevant to literacy learning and teaching in the New Zealand primary school curriculum. The emphasis will be on the place of reading and its relationship to oral, written and visual language.

EDCURRIC 349A 7.5 Points
Understanding and Extending Mathematical Thinking
An investigation of a wide range of strategies that children use to solve mathematical problems. Reflects on reasons for learners' naive conceptions and subsequent planning for teaching thinking strategies.
To complete this course students must enrol in EDCURRIC 349A and B

EDCURRIC 350 15 Points
Teaching Mathematics Investigations
An examination of investigative approaches to the teaching and learning of mathematics within the context of problem solving.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 356 15 Points
Teaching and Learning in the Visual Arts
Extends the theoretical and practical knowledge base for visual arts teaching and learning. Examines pedagogies used to support the development of visual arts literacy. Connects learning in the visual arts with the guiding structures of national curriculum documents and investigates issues such as addressing diversity and using new technologies. Identifies action and reflection practices that enhance visual arts learning.

EDCURRIC 361 15 Points
The Performance Arts in Education
A critical examination of the performance of creating in the arts. The processes of creating and shaping works selected from dance, drama, music and the visual arts will be analysed and used to plan and implement arts education practices in specified educational settings.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 362 15 Points
Drama and Learning
An examination of the learning processes initiated by the use of drama in the classroom with a particular focus on language use. There will be opportunity to design, implement and evaluate drama programmes.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 363 15 Points
Drama Studies
An exploration of practical and theoretical activities relating to drama and performance in a range of contexts.
EDCURRIC 368 15 Points
Initiating and Supporting Learning in Music
Development of the knowledge base for the teacher of Music, linking curriculum design and principles with practical experience of The Arts in the New Zealand Curriculum document, while offering opportunities for reflection on practice.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 369A 7.5 Points
EDCURRIC 369B 7.5 Points
Mathematical Literacy for Lower-achieving Students
Approaches for teaching individuals or small groups who have been identified as achieving below expectations in mathematics in New Zealand primary and secondary schools will be explored. Numeracy assessment tools that identify the problems that students have with mathematical language and mathematical symbols will be explored.
Prerequisite: EDCURRIC 349
To complete this course students must enrol in EDCURRIC 369 A and B

Stage IV

EDCURRIC 430 15 Points
Curriculum Issues in Health and Physical Education
Critically examines the construction of health and physical education in the curriculum. Addresses questions such as: What stands for health and physical education in the curriculum? What contemporary issues face health and physical education teachers? What factors influence how curriculum is constructed and experienced?
Prerequisite: At least 60 points from EDCURRIC 230-241, 333-337

EDCURRIC 431 15 Points
Physical Education Pedagogy
Examines the nature and characteristics of quality teaching in physical education. Addresses such questions as: What legal and ethical issues mediate professional practice? How can a focus on diversity help learners in physical education contexts? What teaching methodologies, management strategies and resources underpin quality practice in physical education?
Prerequisite: EDPROFST 303

EDCURRIC 433 15 Points
The Health Educator
Critically analyses the professional responsibilities and roles of health educators in schools. Addresses such questions as: What are the issues and dilemmas associated with teaching health education? What values and beliefs underpin teaching approaches in health education? How is health education influenced by external factors? How do teachers resolve ethical and professional dilemmas and challenges related to teaching this subject?
Prerequisite: EDCURRIC 235, 333

Diploma Courses

EDCURRIC 600 15 Points
Literacies, Languages, Cultures
Critically explores responsive, equitable and inclusive pedagogies to support diverse ākonga in learning and developing languages and multi-modal literacies. Examines assessment, planning and teaching that take account of ākonga, whānau and communities. Issues related to literacies, languages and cultures in Aotearoa are critically examined. The construction and interpretation of children’s texts are explored.
Restriction: EDCURRIC 631

EDCURRIC 601 15 Points
Creative Arts in the Early Years
Explores the role of the Arts (dance, drama, music and visual art) in contributing to infants’, toddlers’, and young children’s critical thinking and creativity. Theories and practices of teaching and learning in Arts education are examined, including Māori and Pasifika perspectives, and connections are made to children’s play, holistic wellbeing, identities and citizenship.
Restriction: EDCURRIC 632

EDCURRIC 604 10 Points
Health and Physical Education
Develops understandings of the theories, concepts and practices that support learning and teaching in health and physical education. It will examine such questions as: How are teachers informed in these subjects? How do teachers implement quality learning experiences based on the health and physical education curriculum for effective learning to occur for a diverse range of learners?

EDCURRIC 610 10 Points
Science Education
Develops an appreciation of the nature of science which supports conceptual understandings and quality teaching and learning approaches in science education. Addresses questions such as: How do teachers design quality learning environments based on the science curriculum so that positive engagement and effective learning can occur for a diverse range of learners? How is achievement determined and monitored?

EDCURRIC 611 10 Points
Social Studies Education
Develops students’ knowledge and skills associated with planning for teaching and learning in Social Studies. Addresses questions such as: What do teachers need to know and understand about the history, nature and purpose of Social Studies education? What do teachers need to know about curriculum requirements, teaching methodologies, management strategies and resources to successfully plan for students’ diverse needs?

EDCURRIC 613 10 Points
Special Topic
EDCURRIC 620 15 Points
Special Topic
EDCURRIC 621 15 Points
Arts, Language and Literacies Education 1
Develops knowledge, skills and understandings necessary to plan, teach and assess diverse learners in arts, language and literacies by addressing such questions as: Why are these curriculum areas important in the junior school and beyond? How do teachers design and resource quality programmes in order to encourage children to become confident, competent communicators and to maximise their achievement in these areas?
Restriction: EDCURRIC 101, 202, 605

EDCURRIC 622 15 Points
Arts, Language and Literacies Education 2
Extends knowledge, skills and dispositions necessary to plan for, teach and assess diverse learners in arts, language and literacies by addressing such questions as: Why are these curriculum areas important to middle/senior...
primary school learning? What resources, strategies and approaches will maximise achievement? How do teachers design quality teaching and learning programmes which encourage children to become competent communicators in these areas?

Prerequisite: EDCURRIC 621
Restriction: EDCURRIC 101, 202, 606

EDCURRIC 623 15 Points
Investigation and Exploration
Critically examines curriculum approaches that promote children's exploration and learning in science, technology, engineering and mathematics. Key concepts, processes and pedagogies relating to these disciplines are considered. Explores children's learning through play and a holistic understanding of infants, toddlers and young children.

Restriction: EDCURRIC 635

EDCURRIC 624 15 Points
Curriculum and Pedagogy
Critically examines theories, approaches and key curriculum influences. Examines the critical role of teacher knowledge, inquiry and reflection in implementing appropriate curriculum and assessment for infants, toddlers and young children. Critically explores the relationship between assessment, curriculum, pedagogy, and learning, including Kaupapa Māori and Pasifika perspectives.

Restriction: EDCURRIC 630, EDPROFST 621, 622

EDCURRIC 625 15 Points
Curriculum: Maths and Literacy 1
Investigate the learning and teaching of Mathematics and Statistics and English learning areas. Critically examine teaching approaches, resources (including digital technologies) and learner progressions to understand how students learn in Mathematics and Statistics and English. Build essential knowledge and skills for Teaching as Inquiry in these areas.

Restriction: EDCURRIC 621, 622, 628, 629

EDCURRIC 626 15 Points
Curriculum: Maths and Literacy 2
Investigate how responsive pedagogies develop learners and teachers of the Mathematics and Statistics, and English learning areas. A Teaching-as-Inquiry approach will draw on research evidence to develop knowledge, understandings and skills, and planning and assessment strategies, known to improve outcomes for all learners.

Prerequisite: EDCURRIC 625
Restriction: EDCURRIC 621, 622, 628, 629

EDCURRIC 627 45 Points
EDCURRIC 627A 15 Points
EDCURRIC 627B 30 Points
Designing the Wider Curriculum
Students will experience, participate in, inquire into and critically examine the content, theory and pedagogy of five Learning Areas of the New Zealand Curriculum: Health and Physical Education, The Arts, Science, Technology, and Social Studies.

Restriction: EDCURRIC 604, 610, 611, 621, 622
To complete this course students must enrol in EDCURRIC 627 A and B, or EDCURRIC 627

EDCURRIC 628 15 Points
Mathematics, Statistics and Technology Education 1
Develops knowledge and understanding of the nature of mathematics, statistics and technology education by addressing questions such as: What is the nature and purpose of mathematics, statistics and technology education in the New Zealand Curriculum? What are the components, key concepts and learning progressions in the national curriculum? What constitutes effective teaching practices?

Restriction: EDCURRIC 608, 612

EDCURRIC 629 15 Points
Mathematics, Statistics and Technology Education 2
Develops the knowledge, skills and understanding for designing quality learning experiences in mathematics, statistics and technology education for diverse learners by addressing questions such as: What are the mathematical, statistical and technological concepts and learning progressions in the national curriculum? What constitutes effective teaching practices?

Prerequisite: EDCURRIC 628
Restriction: EDCURRIC 609, 612

EDCURRIC 630 15 Points
Early Years Curriculum
Critically evaluates appropriate curriculum for infants, toddlers and young children in early years settings. Integrated approaches to learning and teaching will be emphasised. Addresses, explores and examines questions about complex relationships between curriculum approaches, current learning theory, teachers' professional knowledge, and assessment, planning and evaluation practices with reference to early childhood curriculum.

EDCURRIC 631 15 Points
Languages and Cultures
Develops knowledge, skills and attitudes associated with the planning, teaching and assessing of languages and literacies. Addresses such questions as: What are the interrelationships between languages and cultures in a Pacific nation? What influences construction and interpretation of meaning in text? What are the issues for family/whānau, teachers and learners relating to all children becoming confident, competent communicators in Aotearoa?

Restriction: EDCURRIC 211

EDCURRIC 632 15 Points
The Arts
Develops understanding of the knowledge, skills and attitudes required to optimise learning and teaching in the arts. Involves a focused inquiry into music, dance, drama and visual arts in early childhood settings. Addresses such questions as: How do specific learning and teaching approaches and strategies motivate and enhance all children's learning?

EDCURRIC 633 15 Points
Te Ao Māori Early Childhood Education
Develops competence in te reo Māori and mātauranga Māori. Addresses the needs and aspirations of Māori learners and communities in order to improve educational outcomes. Critically reviews Te Tiriti o Waitangi and Māori pedagogies in relation to teachers' practices. Addresses questions such as: What are the historical and contemporary research and issues for Māori in education?

EDCURRIC 634 15 Points
Hauora
Develops understandings of hauora/well-being and belonging. Inquires into key concepts of health, physical education and social sciences. What images do we hold of children? What does identity mean for learners in a Pacific nation? Why is identity critical for Pasifika learners? What specific learning and teaching approaches and resources
enhance the well-being and participation of children in a diverse society?
Restriction: EDPROFST 101

EDCURRIC 635 15 Points
Exploration
Develops pedagogical content knowledge and understanding in science, mathematics and technology. Considers such questions as: What are key early concepts, processes and possible learning progressions? What constitutes effective learning and teaching approaches to promote children's exploration?

EDCURRIC 636 15 Points
Designing the Wider Curriculum 1
Students will experience, participate in, inquire into and critically examine the content, theory and pedagogy of five Learning Areas of the New Zealand Curriculum: Health and Physical Education, The Arts, Science, Technology, and Social Studies.
Restriction: EDCURRIC 604, 610, 611, 621, 622, 627

EDCURRIC 637 30 Points
Designing the Wider Curriculum 2
Students will experience, participate in, inquire into and critically examine the content, theory and pedagogy of five Learning Areas of the New Zealand Curriculum: Health and Physical Education, The Arts, Science, Technology, and Social Studies.
Prerequisite: EDCURRIC 636
Restriction: EDCURRIC 604, 610, 611, 621, 622

Postgraduate 700 Level Courses

EDCURRIC 700 30 Points
Contemporary Pedagogies - Level 9
Critical examination of contemporary pedagogical approaches and teachers’ own professional knowledge and practice associated with curriculum delivery, appropriate for all learners and their educational outcomes, traversing the early childhood, primary and secondary sectors.

EDCURRIC 701 30 Points
Special Topic

EDCURRIC 702 30 Points
The Arts: Creative Practices
Students will critically explore creative practices in research and pedagogy within and between dance, drama, music and visual arts. The emphasis is on exploring emerging visions, theoretical perspectives and arts-based approaches which broaden relationships through postmodern practices in research and pedagogy appropriate to students living in a multicultural society, globalised world, and digital age.

EDCURRIC 704 30 Points
Teaching for Scientific Literacy
A detailed exploration, focusing on the merits and challenges, of the concept of scientific literacy. Topics will include the nature of science; the process of scientific inquiry; and the role of science education in improving public understanding of science.
Restriction: EDPROFST 729

EDCURRIC 705 30 Points
EDCURRIC 705A 15 Points
EDCURRIC 705B 15 Points
Special Topic: Effective Language Teaching
A practice-focused examination of effective teaching and learning of additional languages in school settings. Aligned with curricular expectations and underpinned by advances in the theory, research and best practice of teaching and learning languages, the course uses evidence-based evaluative inquiry to explore the design and implementation of responsive practices in contemporary language learning environments.
Prerequisite: Departmental approval
Restriction: EDPROFST 360
To complete this course students must enrol in EDCURRIC 705 A and B, or EDCURRIC 705

EDCURRIC 706 30 Points
Researching Practice in the Second Language School Classroom - Level 9
Students will apply appropriate research methods and specialised knowledge in an independent investigation into a problem of practice in the second language school classroom. In an authentic setting, students will carry out the investigation and consider critically issues associated with the methods applied, including ethical concerns.

EDCURRIC 709A 15 Points
EDCURRIC 709B 15 Points
Literacy Intervention: Individual Inquiry
Students engage in advanced study of theory and research related to optimising Literacy Intervention effectiveness. A critical understanding of Literacy Processing theory and Literacy Intervention principles and practices is integral to support teachers in effectively working with children having difficulty with literacy learning. A practicum component involving daily teaching of four six-year-old children forming case studies for analysis is required.
Prerequisite: Departmental approval
To complete this course students must enrol in EDCURRIC 709 A and B

EDCURRIC 712A 15 Points
EDCURRIC 712B 15 Points
Literacy Intervention: Design, Implementation and Research
Critical analysis of issues and research related to the design and implementation of an effective early literacy intervention in an education system is central to this course. Emphasis is on facilitating the professional development and learning of Early Literacy Intervention teachers. Students observe and work with teachers and facilitators at professional learning centres.
Prerequisite: Departmental approval
To complete this course students must enrol in EDCURRIC 712 A and B

EDCURRIC 714 30 Points
Exploring Mathematical Thinking
Provides an opportunity for teachers to critique historical number systems as a way of illuminating theoretical issues, and informing their teaching practice, around learning number and place value concepts.

EDCURRIC 720 30 Points
Teaching with Digital Pedagogies - Level 9
A critical examination of research and practice in using digital technologies to transform classroom pedagogy and enhance students' learning experiences. Building on prior knowledge and using the knowledge and skills developed in the course, students will identify a research focus of their choosing to test concepts of usage, and critically evaluate new instructional designs for using digital technologies in classrooms.
EDCURRIC 721 30 Points
Special Topic: Mental Health and Wellbeing in Schools
How do we ensure that schools are wellbeing and mana-enhancing for children and youth? This course is an advanced examination of the theory and practice of mental health education, wellbeing and hauora in education settings. Emphasis will be placed on developing a substantive and integrated knowledge base, which can be applied to schools and other educational settings in practice.

EDCURRIC 722 30 Points
Teacher Leadership for Learning Equity
Extends teachers’ collaborative and innovative leadership in a curricular area of expertise to optimise learning equity for all students, with priority for Māori, Pacific and migrant children and youth, and those with special needs. Participants will facilitate a teaching initiative with colleagues using inclusive, linguistically and culturally sustaining pedagogies within a selected curriculum area/strand in schools or early childhood centres.
Restriction: EDCURRIC 718

EDCURRIC 723 30 Points
STEM Education in Years 0-8
A practice-focused examination of how to meaningfully integrate science, technology, mathematics and statistics into a localised curriculum with students in Years 0-8. Students will critically examine STEM education, using research to first understand and critique examples drawn from practice, and then to develop an integrated and local learning experience that authentically draws on the STEM disciplines.

EDCURRIC 725 30 Points
Special Topic: Engaging with Te Mātaiaho
Students will critically analyse the key changes to Te Mātaiaho which includes the Common Practice Model for Literacy, Communication, and Maths strategy. Emphasis will be placed on building a substantive knowledge base on changes to the structure of the curriculum and changes to the vision, progressions and learning strands developments and the potential impact on equity and inclusion for all ākonga. Examines the implications of these changes for different stakeholders, including school leaders, teachers, students, parents and whānau in Aotearoa.

EDCURRIC 726 30 Points
EDCURRIC 726A 15 Points
EDCURRIC 726B 15 Points
Special Topic: Current Issues: Sport, Health, Physical Education
How do we address the challenges and opportunities facing teachers, leaders and practitioners in sport, health and physical education? This course critically examines current issues across these fields of practice from a range of perspectives. Students will undertake an investigation of specific issues relevant to their contexts.
To complete this course students must enrol in EDCURRIC 726 A and B, or EDCURRIC 726

EDCURRIC 727 30 Points
EDCURRIC 727A 15 Points
EDCURRIC 727B 15 Points
Special Study
To complete this course students must enrol in EDCURRIC 727 A and B, or EDCURRIC 727

EDCURRIC 729 30 Points
EDCURRIC 729A 15 Points
EDCURRIC 729B 15 Points
Special Study
To complete this course students must enrol in EDCURRIC 729 A and B, or EDCURRIC 729

EDCURRIC 740 30 Points
EDCURRIC 740A 15 Points
EDCURRIC 740B 15 Points
Accelerate Learning in a Digital World - Level 9
A critical examination and application of current theory, research and practice involving the acceleration of students’ learning using digital technologies. Students will undertake an independent critical evaluation of the development, implementation and impact of a digital tool they have designed to accelerate students’ learning.
To complete this course students must enrol in EDCURRIC 740 A and B, or EDCURRIC 740

EDCURRIC 750 30 Points
Arts Research: Innovative Practices
Students will critically explore emerging visions and theoretical concepts that broaden research practices in the Arts. Emphasis will be on how innovative Arts practices move attention from not just what is researched, but to how the research can be conducted and reported in creative ways. Topics include approaches such as narrative, autobiography, performative ethnography, reader’s theatre, poetic inquiry, and a/r/tography.

EDCURRIC 763 30 Points
Special Topic
EDCURRIC 791 30 Points
Enterprise and Innovation in Education
Develops a critical understanding of relationships between business and education, the role of business, enterprise and innovation in the community and various theoretical underpinning frameworks. Develops an in-depth understanding of business practice and critiques opportunities for interaction between enterprise and educational institutions. This would include commercial opportunities for educational institutions as well as contribution to curriculum delivery.
EDCURRIC 791A 60 Points
EDCURRIC 791B 60 Points
MED Thesis - Level 9
To complete this course students must enrol in EDCURRIC 791 A and B

EDCURRIC 792 60 Points
EDCURRIC 792A 30 Points
EDCURRIC 792B 30 Points
Dissertation
To complete this course students must enrol in EDCURRIC 792 A and B, or EDCURRIC 792

Education Māori

Stage 1
EDUCM 106 15 Points
He Tirohanga ki te Mātauranga i Aotearoa
Examines historical and contemporary topics and themes in Māori schooling and education, with particular reference to the revitalisation of te reo Māori. Considers Māori educational aspirations and questions in the context of Treaty, social justice and equity debates in Aotearoa New Zealand. Examines te reo Māori discourse relevant to educational contexts and themes investigated in this course.
Restriction: EDUCM 118
EDUCM 198  0 Points
Te Whakahua Reo Māori
An online self-directed introductory te reo Māori course that provides opportunities to learn correct pronunciation and some basic language for use in professional situations.

EDUCM 199  0 Points
EDUCM 199A  0 Points
EDUCM 199B  0 Points
Te Reo Māori
To complete this course students must attain a level of competency in te reo Māori as determined by the Faculty of Education and Social Work.

To complete this course students must enrol in EDUCM 199 A and B, or EDUCM 199

Stage II
EDUCM 203  15 Points
Te Atawhai i te Rerenga Kētanga
Analyses how experiences and outcomes for learners in contemporary education contexts are shaped by social constructions informed by class, ethnicity, culture, gender, sexuality, and (dis)ability. Examines the role of education policies and socio-historical context on teacher responsiveness to diversity and difference. Explores a range of transformative approaches. Particular attention is given to Pasifika learners.
Prerequisite: EDUCM 106
Restriction: EDPROFM 205

Stage III
EDUCM 300  15 Points
Special Study
EDUCM 324  15 Points
Whiria Te Kaha Tūātinitini
Critically appraises philosophical perspectives on education to enable students to articulate a developing philosophy and practice of teaching including the relationship between local, national and global politics and inclusive education in Aotearoa New Zealand. Highlights concepts of social justice, equity and diversity and relates these concepts to competing discourses of ability, (dis)ability and inclusion. Examines te reo Māori discourse appropriate to course content.
Prerequisite: EDUCM 203

Postgraduate 700 Level Courses
EDUCM 739  30 Points
EDUCM 739A  15 Points
EDUCM 739B  15 Points
Special Study
To complete this course students must enrol in EDUCM 739 A and B, or EDUCM 739

EDUCM 794A  30 Points
EDUCM 794B  60 Points
Thesis - Level 9
Corequisite: 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757
To complete this course students must enrol in EDUCM 794 A and B

Education Practice

Stage I
EDPRAC 100  15 Points
Practicum 1
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Explores the role of the professional teacher through an inquiry-based approach to teaching and learning.
Prerequisite: 30 points from BEd(Tchg) courses and EDPROFST 102
Restriction: EDPRAC 101

EDPRAC 101  15 Points
The Professional Teacher: Primary 1
Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: What does it mean to be a teacher? What does it mean to be a professional? How are teachers learners? How do teachers establish professional relationships in complex environments? Requires demonstration of emerging pedagogical practice.
Prerequisite: Any 45 points from courses in the BEd(Tchg) Schedule
Restriction: EDPROF 100, EDPRAC 102, 103, EDPRACM 101

EDPRAC 102  15 Points
The Professional Teacher: Early Childhood 1
Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: What does it mean to be a teacher? What does it mean to be a professional? How are teachers learners? How do teachers establish professional relationships in complex environments? Requires demonstration of effective emerging pedagogical practice.
Prerequisite: Any 45 points from courses in the BEd(Tchg) Schedule
Restriction: EDPRAC 101, 103, EDPRACM 101

EDPRAC 103  15 Points
The Professional Teacher: Health and Physical Education
Develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: What does it mean to be a teacher? What does it mean to be a professional? How are teachers learners? How do teachers establish professional relationships in complex environments? Requires demonstration of effective emerging pedagogical practice.
Prerequisite: Any 45 points from courses in the BEd(Tchg) Schedule
Restriction: EDPRAC 101, 102, EDPRACM 101

EDPRAC 105  15 Points
Practicum 1
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Explores the role of the
professional teacher through an inquiry-based approach to teaching and learning.
Prerequisite: 30 points from BEd(Tchg) courses and EDPROFST 103
Restriction: EDPRAC 102

Stage II

EDPRAC 201 15 Points
Practicum Primary 2
Further develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: How do I teach responsively and purposefully? How do I establish and maintain professional relationships in complex environments and manage the environment effectively and professionally to enable success for learners? Requires demonstration of effective developing pedagogical practice.
Prerequisite: EDPRAC 101 and any 75 points from courses in the BEd(Tchg) Schedule
Restriction: EDPROF 200, 210, EDPRAC 202, 203, EDPRACM 201

EDPRAC 202 15 Points
Practicum Early Childhood 2
Further develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: How do I teach responsively and purposefully; establish and maintain professional relationships in complex environments and manage the learning environment effectively and professionally to enable success for learners? Requires demonstration of effective developing pedagogical practice.
Prerequisite: EDPRAC 102 or EDPRACPK 102 and any 75 points from courses in the BEd(Tchg) Schedule
Restriction: EDPRAC 201, 203, EDPRACM 201

EDPRAC 203 15 Points
Health and Physical Education Practicum 1
Further develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Requires demonstration of developing pedagogical practice and addresses such questions as: Do I as a teacher practise responsibility and teach purposefully to establish and maintain professional relationships in complex environments?
Prerequisite: EDPRAC 103
Restriction: EDPRAC 201, 202, EDPRACM 201

EDPRAC 204 15 Points
Practicum 2
Develops professional knowledge, skills and dispositions required for effective teaching and learning through an inquiry-based approach. Engages in noticing, recognising and responding to diverse learners by curricula. Practises and reflects on skills necessary to manage complex learning environments.
Prerequisite: EDPRAC 105, EDPROFST 103
Restriction: EDPRAC 202

Stage III

EDPRAC 303 15 Points
Health and Physical Education Practicum 2
Develops the knowledge, skills and attitudes associated with effective pedagogy in diverse health and physical education contexts. Requires demonstration of informed and ethical practice and addresses such questions as: Do I have the subject matter knowledge? Can I teach it effectively? Can I access the required knowledge? How do I assess student learning?
Prerequisite: EDPRAC 203
Restriction: EDPRAC 301, 302, EDPRACM 301

EDPRAC 304 15 Points
EDPRAC 304A 5 Points
EDPRAC 304B 10 Points
Practicum 3
Establishes and sustains culturally responsive, ethical, learner-focused relationships with ākonga, colleagues and whanau in complex environments. Uses an inquiry-based approach to demonstrate competency in professional knowledge, and the skills and dispositions required for effective teaching in Aotearoa New Zealand.
Prerequisite: EDPROFST 208, EDPRAC 204
Restriction: EDPRAC 305
To complete this course students must enrol in EDPRAC 304 A and B, or EDPRAC 304

EDPRAC 305 30 Points
EDPRAC 305A 15 Points
EDPRAC 305B 15 Points
Practicum: Enabling Achievement Primary
Refines an emerging philosophy and effective pedagogy through integrating research, theory and practical experience. Addresses questions such as: What are my moral, ethical and legal obligations as a teacher? How do I manage complexities of teaching professionally in order to create and sustain purposeful learning environments and enable achievement for all learners? Requires demonstration of effective, informed and ethical pedagogical practice.
Prerequisite: EDPRAC 201 and any 180 points from the BEd(Tchg) Schedule
Restriction: EDPROF 300, 310, EDPRAC 301, 302, 303, EDPRACM 301
To complete this course students must enrol in EDPRAC 305 A and B, or EDPRAC 305

EDPRAC 306 30 Points
EDPRAC 306A 15 Points
EDPRAC 306B 15 Points
Practicum: Enabling Achievement Early Childhood
Refines an emerging philosophy and effective pedagogy through integrating research, theory and practical experience. Addresses questions such as: What are my moral, ethical and legal obligations as a teacher? How do I manage complexities of teaching professionally in order to create and sustain purposeful learning environments and enable achievement for all learners?
Requires demonstration of effective, informed and ethical pedagogical practice.
Prerequisite: EDPRAC 202 and any 180 points from courses in the BEd(Tchg) Schedule
Restriction: EDPROF 300, 310, EDPRAC 301, 302, 303, EDPRACM 301
To complete this course students must enrol in EDPRAC 306 A and B, or EDPRAC 306

EDPRAC 307 15 Points
EDPRAC 307A 5 Points
EDPRAC 307B 10 Points

Practicum 3
Establishes and sustains culturally responsive, ethical, learner-focused relationships with ākonga, colleagues and whānau in complex environments. Utilises an inquiry-based approach to demonstrate competency in professional knowledge, and the skills and dispositions required for effective teaching in Aotearoa New Zealand.
Prerequisite: EDPROFST 212, EDPRAC 205
Restriction: EDPRAC 306
To complete this course students must enrol in EDPRAC 307 A and B, or EDPRAC 307

Stage IV

EDPRAC 403 15 Points
Advanced Health and Physical Education Practicum
Critically evaluates personal pedagogy to consolidate understanding and management of the learning and teaching processes. Requires demonstration of informed and ethical practice and addresses such questions as: How do I manage the complexity of teaching?
Prerequisite: EDPRAC 303

Diploma Courses

EDPRAC 607 30 Points
EDPRAC 607A 15 Points
EDPRAC 607B 15 Points

Professional Practice in Context
Uses an evidence-based approach to develop professional knowledge, skills and dispositions for effective teaching in primary and middle school contexts. Addresses what it means to establish effective professional relationships and to teach inclusively and purposefully in complex environments. Requires demonstration of informed and ethical pedagogy.
To complete this course students must enrol in EDPRAC 607 A and B, or EDPRAC 607

EDPRAC 608 30 Points
EDPRAC 608A 15 Points
EDPRAC 608B 15 Points

Professional Learning in Practice
Uses an evidence-based approach to develop professional knowledge, skills and dispositions for effective teaching in secondary school contexts. Questions include: what does it mean to establish positive professional relationships and to teach inclusively and purposefully in complex environments? Requires demonstration of informed and ethical pedagogy.
Restriction: EDPRAC 604
To complete this course students must enrol in EDPRAC 608 A and B, or EDPRAC 608

EDPRAC 610 30 Points
EDPRAC 610A 15 Points
EDPRAC 610B 15 Points

Professional Practice: ECE
Uses an evidence-based approach to support students to develop the professional knowledge, skills, and dispositions required for effective early childhood education teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues, and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 621, 622
To complete this course students must enrol in EDPRAC 610 A and B, or EDPRAC 610

EDPRAC 611 30 Points
EDPRAC 611A 15 Points
EDPRAC 611B 15 Points

Professional Practice: Primary
Uses an evidence-based approach to support students to develop the professional knowledge, skills, and dispositions required for effective primary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues, and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 621, 622
To complete this course students must enrol in EDPRAC 611 A and B, or EDPRAC 611

EDPRAC 612 30 Points
EDPRAC 612A 15 Points
EDPRAC 612B 15 Points

Professional Practice: Secondary
Uses an evidence-based approach to support students to develop the professional knowledge, skills, and dispositions required for effective secondary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues, and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 621, 622
To complete this course students must enrol in EDPRAC 612 A and B, or EDPRAC 612

EDPRAC 613 15 Points

Professional Practice 1: Early Childhood Education
Uses an evidence-based approach to support students to develop the professional knowledge, skills and dispositions required for effective ECE teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Ākonga build professional relationships and enact practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 610, 621, 622

EDPRAC 614 15 Points

Professional Practice 2: Early Childhood Education
A continuation of EDPRAC 613. Uses an evidence-based approach to support students to develop the professional
knowledge, skills and dispositions required for effective ECE teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Ākonga build professional relationships and enact practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.

Prerequisite: EDPRAC 613
Restriction: EDPRAC 600, 607, 608, 621, 622

EDPRAC 615 15 Points
Professional Practice 1: Primary
Uses an evidence-based approach to support students to develop the professional knowledge, skills and dispositions required for effective primary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.

Prerequisite: EDPRAC 615
Restriction: EDPRAC 600, 607, 608, 611, 621, 622

EDPRAC 616 15 Points
Professional Practice 2: Primary
A continuation of EDPRAC 615. Uses an evidence-based approach to support students to develop the professional knowledge, skills and dispositions required for effective primary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.

Prerequisite: EDPRAC 616
Restriction: EDPRAC 600, 607, 608, 621, 622

EDPRAC 621 15 Points
Conceptualising Practice
Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience in early childhood settings. Addresses questions such as: What does it mean to establish effective professional relationships, practice effectively and teach purposefully in complex environments? Requires demonstration of developing pedagogical practice.

EDPRAC 622 15 Points
Pedagogy in Practice
Refines knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Explores such questions as: What does it mean to be a teacher and manage complexities in order to create and sustain purposeful learning environments? What are the moral, ethical and legal obligations of a teacher? Requires demonstration of effective and ethical pedagogical practice.

Prerequisite: EDPRAC 621
Corequisite: EDCURRIC 630–635

Prerequisite: Head of Programme approval required
To complete this course students must enrol in EDPRAC 703 A and B, or EDPRAC 703

EDPRAC 750 30 Points
Special Topic

EDPRAC 751 30 Points
Practitioner Inquiry
Students will explore what it means to take an 'inquiry stance' as a framework for posing, investigating and addressing practice issues. They will investigate a range of practitioner research approaches, develop an understanding of practitioner research methods and design a well justified research question and proposal for an ethical investigation of a professional practice setting.

EDPRAC 752 30 Points
Special Topic

EDPRAC 753A 15 Points
EDPRAC 753B 15 Points
Portfolio of Professional Practice
Within the context of concurrent field-based teaching, advances professional, analytical and reflective skills in completing a sustained portfolio of teaching practice evidence. Students complete and evaluate a practitioner-inquiry investigation project in a specialist learning area, consistent with the valued learner outcomes as defined by the New Zealand Curriculum.

To complete this course students must enrol in EDPRAC 753 A and B

Education Practice Māori

Stage I

EDPRACM 100 15 Points
Noho ā-kura 1
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Explores the role of the professional teacher through an inquiry-based approach to teaching and learning. Examines the te reo Māori discourse relevant to the practicum context.

Prerequisite: 30 points from BEd(Tchg) courses and EDPROFM 102
Restriction: EDPRACM 101

Stage II

EDPRACM 204 15 Points
Noho ā-kura 2
Develops professional knowledge, skills and dispositions required for effective teaching and learning through an inquiry-based approach. Engages in noticing, recognising and responding to diverse learners informed by or guided by curricula. Practises and reflects on skills necessary to manage complex learning environments. Examines the te reo Māori discourse relevant to the practicum context.

Prerequisite: EDPRACM 100
Restriction: EDPRACM 201
**Stage III**

**Noho ā-kura 3**

Builds and sustains culturally responsive, ethical, learner-focused relationships with ākonga, colleagues and whānau in complex learning or education environments. Utilises an inquiry-based approach to demonstrate competency in professional knowledge, and the skills and dispositions required for effective teaching in Aotearoa New Zealand. Examines te reo Māori discourses relevant to the practicum context.

**Prerequisite:** EDPROFM 101, EDPRACM 204

**Restriction:** EDPRACM 302

To complete this course students must enrol in EDPRACM 304 A and B, or EDPRACM 304

**Faiaakoga o akoga kamata 1**

Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. What does it mean to be a teacher in Pasifika and general ECE settings? What does it mean to be a professional? How are teachers learners? How do teachers use Pasifika languages and cultures in professional relationships? Requires demonstration of effective emerging pedagogy.

**Prerequisite:** Any 45 points from courses in the BEd(Tchg) Schedule

**Restriction:** EDPRAC 101, 102, 103, EDPRACM 101

**Interdisciplinary Pedagogy in New Zealand**

Critically analyses the bi-cultural, multicultural, social, political, economic, historical and legal contexts of teaching and learning in New Zealand. Examines and evaluates pedagogical theories, evidence informed practices, and attitudes that are critical to being a professional teacher of adolescent learners in New Zealand.

**EDPROF 701**

**Accelerating Achievement**

Focuses on assessment practices in the context of secondary education in Aotearoa New Zealand, and addresses the enduring challenge of equity in schools to accelerate the achievement of priority learners. Students will engage with current assessment practices, including national qualifications, and will use data and evidence-based research in developing teaching, learning, and assessment practices.

**EDPROF 702**

**The Twenty-first Century Classroom/Centre**

Examines the opportunities and challenges of teaching and learning in twenty-first century classrooms and centres. Addresses superdiversity that is increasingly characteristic of schools and centres, the impact and use of digital pedagogies, innovative learning environments and formal inquiry-based teaching practices. Draws on world leading research and development work carried out with teachers in authentic learning contexts and considers, in particular, the question of what works best for whom and in what circumstances?

**EDPROF 704**

**Advanced Study of Education Practice - Level 9**

Students will undertake an advanced study of contemporary issues, innovations, or curriculum and pedagogical advancement relating to educational practice. This will involve independent work demonstrating application of highly specialised knowledge that is at the forefront of contemporary education practice.

**Prerequisite:** 60 points from the Master of Education Practice Schedule with a GPA of 5.0 or higher

**EDPROF 705**

**EDPROF 705A**

**EDPROF 705B**

**Language Learning Needs**

Investigates strategies to identify, analyse and respond to additional language learning needs of learners from early childhood to secondary settings. Acknowledges the role of first/heritage languages and culture, and philosophies of empowerment. Examines pedagogical frameworks for planning effective language and content integrated teaching. Students review, trial and modify tasks and learning sequences for specific teaching contexts.

**Restriction:** EDPROFST 227, 372

To complete this course students must enrol in EDPROF 705 A and B, or EDPROF 705

**EDPROF 706**

**The Psychology of Teaching**

Critically examines and evaluates contemporary psychological theories of learning and teaching and how these can be applied to professional practice.

**EDPROF 707**

**EDPROF 707A**

**EDPROF 707B**

**Bilingual Education**

Examines theories, models, and principles for bilingualism and Bilingual Education, as well as multilingual approaches in English-medium contexts. Investigates and critiques programmes, pedagogical approaches, resources, and strategies for bilingual learners in English-medium, Māori-medium, Pacific bilingual/immersion, early childhood, primary or secondary educational contexts. Students develop policy, curriculum and assessment materials suitable for bilingual learners in a particular educational context.

**Restriction:** EDPROFST 226, 377

To complete this course students must enrol in EDPROF 707 A and B, or EDPROF 707

**EDPROF 708**

**EDPROF 708A**

**EDPROF 708B**

**Critical Literacy and Assessment**

An exploration of the theory, research and issues for effective critical literacy pedagogy within multicultural environments. A critical investigation into assessment methodologies for socio-culturally and linguistically diverse learners. Focuses on developing effective language assessment practices and policies for learners from diverse
backgrounds and in a variety of educational contexts, with specific focus on the Aotearoa New Zealand context. 
Restriction: EDPROFST 375, 378
To complete this course students must enrol in EDPROF 708 A and B, or EDPROF 708

EDPROF 709 30 Points
Early Childhood Leadership - Level 9
A practice-focused course that introduces and critiques leadership theory and research in order to examine leadership beliefs and attitudes. Advanced examination of leadership in early childhood education from a range of perspectives. Will develop and strengthen leadership practices to improve outcomes for children, families and whānau.

EDPROF 722 30 Points
EDPROF 722A 15 Points
EDPROF 722B 15 Points
Language Focused Curriculum
Examines Second Language Acquisition/learning processes. Investigates models and principles of course design as they relate to devising language and content programmes. Applies a functional-grammar approach to the context of language learning in the curriculum. Focuses on ways of implementing and sustaining language-focused content teaching in diverse educational settings. Discusses the relationship between culture, power, language, language policy and curriculum. 
Prerequisite: EDPROF 705
Restriction: EDPROFST 373, 374
To complete this course students must enrol in EDPROF 722 A and B, or EDPROF 722

EDPROF 724 30 Points
Developing Communities of Learning - Level 9
Critically examines key theoretical concepts and processes related to networked improvement communities, with a specific focus on optimising their development as drivers of change. Emphasis is on integrating theory and practice, especially concepts of equity and collaborative practices as they relate to solving problems of practice within and across educational settings.

EDPROF 725 30 Points
Leading Mathematics Curriculum and Change
A critical examination of current issues relating to Mathematics and Statistics education in New Zealand and global contexts. This course explores the research literature to inform problems of practice in the teaching and learning of mathematics and statistics. 
Restriction: EDPROFST 787

EDPROF 727 30 Points
Collaboration and Inclusive Practices
An examination of collaboration and inclusive practices, centred on improving the experience of diverse learners. Provides an opportunity to critically examine, develop and practice collaboration and inclusive practices, building capacity to work with other professionals, families, communities and learners themselves. Evaluates what it takes to move from an individualistic to a collaborative professional culture to build and support inclusive practices.

EDPROF 737 30 Points
Ako: Learning to Learn and Teaching to Learn - Level 9
Critically examines strategies that support responsive teaching, effective learning and the development of self-regulating learners and teachers. They will utilise the methodology of narrative inquiry to produce an advanced critical analysis and evaluation of personal practice. 

EDPROF 738 15 Points
Te Ao Māori
Students will critically examine the cultural competencies required for teachers of Māori learners, as well as the significance of the cultural locatedness of the teacher in relation to learners, their whānau and communities.

EDPROF 739 15 Points
Differentiating Learning for Literacy and Mathematics
Students will experience and inquire into what responsive pedagogies mean for learners and teachers in literacy and mathematics. They will develop knowledge, understandings and skills in both curriculum areas that are known to improve outcomes for priority learners.

EDPROF 740 15 Points
Promoting Learning through Inquiry: Understanding our Communities
Students will explore, experience and develop understandings of themselves within and across communities. They will be expected to apply these understandings to promote physical, social and emotional wellbeing and connectedness with others.

EDPROF 741 15 Points
Teaching for Social Justice and Inclusion
Students will critically inquire into the notion of social justice and its importance for learning and teaching. Drawing on powerful practices, students will identify a repertoire of inclusive, culturally intelligent and responsive teaching practices that provide rich learning opportunities for priority learners.

EDPROF 752 15 Points
Working Together to Accelerate Learning - Level 9
Students will undertake a supervised investigation that involves advanced analysis of existing data sets and the drawing of robust and trustworthy conclusions with a view to accelerating learning. The processes involved when making judgments to accelerate learning and promote positive relationships with students will be critically examined.

EDPROF 754 15 Points
Promoting Learning through Inquiry: Understanding our World
Students will explore and experience the role that science and technology play in current issues in their community. They will analyse and justify their developing pedagogy in terms of a learning theory that underpins science and technology teaching practice.

EDPROF 755 15 Points
Promoting Learning through Inquiry: Responsiveness and Creativity
Students will explore and experience creative and responsive ways of teaching and learning in the arts that they will then apply to their own practice.

EDPROF 756 15 Points
Enacting Responsive Pedagogies in Literacy and Mathematics
Building on knowledge, understandings and skills, students will enact responsive pedagogies that improve outcomes for priority learners in Literacy and Mathematics. Adaptive
experts will be developed through inquiry into learning
and teaching of these two curriculum areas.
Prerequisite: EDPROF 739

EDPROF 757
An Investigation into Practice - Level 9
15 Points
Students will use selected research methods to address a
problem of practice through an independent, supervised
inquiry. Working as a cohort in authentic settings, students
will critically consider issues, including ethical concerns.
Corequisite: EDPROF 758

EDPROF 758
Inquiring into Practice
15 Points
Students will demonstrate adaptive expertise through
their application of the knowledge, skills and dispositions
required for development of culturally responsive, ethical
and learning focused relationships with children.

EDPROF 759
Investigating Mentoring Practice
30 Points
Utilising teacher inquiry methodologies students will
undertake an in-depth inquiry focused on a contemporary
idea, issue and/or innovation as applied to mentoring and
its potential to support teacher professional learning.
Independent work demonstrating application of highly
specialised knowledge that is at the forefront of mentoring
practice is a central component of this course.

EDPROF 766
Special Study in Education
15 Points
Prerequisite: Head of Programme approval required

EDPROF 767
Special Study in Education
15 Points
Prerequisite: Head of Programme approval required

EDPROF 791A
30 Points
EDPROF 791B
60 Points
Thesis in Educational Leadership - Level 9
The thesis must be an original piece of work addressing a
significant problem in relation to educational leadership.
Students are required to demonstrate an ability to
formulate research questions and design and carry out
an investigation that answers these questions precisely
and with clarity.
Prerequisite: EDPROF 738 and 30 points from EDUC 735, 787,
EDPRAC 751, EDPROFST 757
To complete this course students must enrol in EDPROF 791
A and B

EDPROF 795A
60 Points
EDPROF 795B
30 Points
Thesis in Educational Leadership - Level 9
Prerequisite: EDPROF 738 and 30 points from EDUC 735, 787,
EDPRAC 751, EDPROFST 757
Restriction: EDPROF 791
To complete this course students must enrol in EDPROF 795
A and B

Education Professional Studies

Stage I

EDPROFST 100
15 Points
Hāpai Ākonga
Critically examines the importance of Māori language and
culture in New Zealand Education. Develops ability in te
reo and mātauranga Māori. Addresses questions such as:
How can Māori culture and language be incorporated
in pedagogical practices to be productive for Māori
educational aspirations as well as the education of all
students?
Restriction: EDUC 114, MĀORI 107

EDPROFST 101
Hauora: Early Years Wellbeing
15 Points
Develops knowledge and understandings of issues and
practices relating to the wellbeing of children, families
and communities in early years education. Founded in
Te Whāriki’s three goals of well being and incorporating
key concepts of the Health and Physical Education
Curriculum. Examines the impact of socioecological factors
on wellbeing.
Restriction: EDCURRIC 634

EDPROFST 102
Inquiry into Practice 1
15 Points
Addresses key influences on learning and development,
built and enhancing understandings of personal
experiences and identity. Examines concepts central to
learning and development such as self-efficacy and self-
concept. Explores key aspects within the teacher’s role
with an emphasis on reflection, relationship building,
communication and collaboration. Introduces strategies
central to the first teaching practicum.

EDPROFST 103
Inquiry into Practice 1
15 Points
Addresses key influences on learning and development,
built and enhancing understandings of personal
experiences and identity. Examines concepts central to
learning and development such as self-efficacy and self-
concept. Explores key aspects within the teacher’s role
with an emphasis on reflection, relationship building,
communication and collaboration. Introduces strategies
central to the first teaching practicum.

EDPROFST 104
Early Childhood Education in Aotearoa
15 Points
Explores social, historical and contemporary perspectives
of early childhood education in Aotearoa. Overviews
early childhood services, professional organisations,
early childhood curriculum, theories of learning, and
children’s play and learning contexts. Examines the roles
and responsibilities of teachers in relation to teaching and
learning.

EDPROFST 105
Introducing TESOL Education
15 Points
An introduction to Teaching English to Speakers of Other
Languages (TESOL), the core disciplines that contribute
foundational knowledge to practice in the profession, and
current linguistic, educational, and social needs that it
addresses. Particular focus is on developing awareness
of how societal and contextual factors shape TESOL
educational practice and developing reflective skills
necessary to examine and improve practice.

EDPROFST 115
Professional Early Childhood Practice 1
15 Points
Examines concepts central to learning and development
such as identity, self-efficacy and self-concept. Develops
strategies for building collaborative relationships and
establishing professional communication with colleagues
and tamariki. Explores the role of an early childhood
practitioner through an inquiry-based approach to working
with tamariki.
Stage II

EDPROFST 200 15 Points
Infant Care and Education
Critically examines the influence of historical and contemporary theory related to early learning and professional practice. Addresses questions such as: How do teachers address responsive practice with infants and toddlers in the New Zealand context? How do relationship-based philosophies address issues for teachers of infants and toddlers? What is the tension between education and care?
Restriction: EDCURRIC 210

EDPROFST 203 15 Points
Teaching Health and Physical Education 1
Integrates research, theory and practical experience to inform a developing pedagogy. Addresses such questions as: What knowledge, skills and attitudes are essential to teaching health and physical education? What does it mean to be a research informed inquiry-based practitioner? How is my teaching influenced by my personal beliefs, values and experiences? How do attitudes to difference and diversity influence learning?
Prerequisite: EDPRAC 103
Restriction: EDPROFST 201, 202, EDPROFM 201

EDPROFST 204 15 Points
Te Whāriki for Diverse Learners
Critically examines early childhood curriculum and its implications for developing a personal pedagogy that is responsive to individual learners. How does curriculum combine with teachers' skills, knowledge and attitudes to address equity and diversity in Aotearoa New Zealand? How do teachers manage the relationship between curriculum and the learning environment to enable learners' success?
Prerequisite: 15 points from EDUC 118, 140 and 15 points from EDUC 119, 141

EDPROFST 205 15 Points
Promoting Achievement for Diverse Learners
Explores diversity in the New Zealand context and its implications for teaching and learning. Considers strategies to address identified underachievement. Utilising psychological and sociological theory and research, the course examines practices that create effective teaching and learning environments for diverse/all learners. Teacher expectations, relationships, individual differences, classroom management and questioning are examined in relationship to contemporary approaches to teaching and learning.
Prerequisite: 15 points from EDUC 118, 140, EDUCM 118, 140 and 15 points from EDUC 119, 141, EDUCM 119, 141 or 30 points passed at Stage I in BED(TESOL)

EDPROFST 206 15 Points
Early Childhood Assessment
Assessment for learning and teaching in early childhood education is contextualised and examined in relation to key New Zealand and international policy documents. The complexities, roles, and enactment of assessment concerning young children and childhoods are explored, and key learning areas include relevant theoretical frameworks and pedagogical documentation.
Restriction: EDPROFST 214

EDPROFST 207 30 Points
EDPROFST 207A 15 Points
EDPROFST 207B 15 Points
Interdisciplinary Approach: TESOL
An overview of second language learning and teaching that addresses the interdisciplinary nature of TESOL by developing knowledge, skills and attitudes associated with TESOL within different contexts. Addresses questions such as: What are the important principles, concepts and skills in an interdisciplinary approach to TESOL? Why is intercultural communicative language learning important? How are these concepts evident in practice?
To complete this course students must enrol in EDPROFST 207A and B, or EDPROFST 207
This course may not be taken concurrently with EDPROFST 306A and B, or EDPROFST 306

EDPROFST 208 15 Points
Inquiry into Practice 2
Develops informed understandings about the nature of high quality, effective teaching practices for diverse akonga. Interprets teaching as inquiry with reference to relevant curricula. Identifies and examines specific teacher actions that support high quality, effective teaching and learning. Further develops understandings of strategies central to the second teaching practicum.
Prerequisite: EDPROFST 102, EDPRAC 100
Corequisite: EDPRAC 204

EDPROFST 209 15 Points
Developing Learning Communities
Introduces students to selected contemporary perspectives on learning. Explores strategies that develop self-regulated and self-efficacious akonga, and support learning. Considers rationale and conditions for establishing cultural connections and relationships within a responsive pedagogy alongside factors that contribute to the creation of classrooms as effective learning communities.
Prerequisite: EDPRAC 100, EDPROFST 102

EDPROFST 210 15 Points
Special Topic

EDPROFST 211 15 Points
Engaging with Infants and Toddlers
Analyses social, historical, and contemporary issues related to education and care for infants and toddlers. Investigates relevant pedagogies through a range of theoretical, philosophical, and cultural lenses. Explores images of infants and toddlers and understandings of play and assessment. Considers infants’ and toddlers’ learning and wellbeing and the implications for environmental provision and ethical practice.
Prerequisite: EDPROFST 104
Restriction: EDPROFST 366

EDPROFST 212 15 Points
Inquiry into Practice 2
Develops informed understandings about the nature of high quality, effective teaching practices for diverse ākonga. Interprets teaching as inquiry with reference to relevant curricula. Identifies and examines specific teacher actions that support high quality, effective teaching and learning. Further develops understandings of strategies central to the second teaching practicum.
Prerequisite: EDPROFST 103, EDPRAC 105
Corequisite: EDPRAC 205
EDPROFST 214  
Assessment for Learning and Teaching  
15 Points  
Assessment for learning, for teaching, and of learning will be examined with reference to their specific purposes, characteristics and the degrees of reliability and validity necessary for each. Emphasis will be placed on the appropriate use of assessment tools/tasks and the gathering of robust information so sound interpretations and decisions can be made about learning.  
Restriction: EDUC 224, 225

EDPROFST 215  
Professional Early Childhood Practice 2  
15 Points  
Develops professional early childhood practice through an inquiry-based approach. Enhances practice in engaging with and responding to diverse tamariki informed by developmental knowledge. Creates opportunities to practise and reflect on skills necessary to manage complex early childhood environments.  
Prerequisite: EDPROFST 115

EDPROFST 216  
TESOL Education in Context  
15 Points  
An overview of second language learning and teaching that addresses the interdisciplinary nature of TESOL by developing knowledge, skills and attitudes associated with TESOL within different contexts. The course addresses questions such as: What are the important principles, concepts and skills in an interdisciplinary approach to TESOL? How does digital technology impact TESOL? How are these concepts evident in practice?  
Restriction: EDPROFST 207

EDPROFST 217  
TESOL in Practice I  
15 Points  
Familiarises students with a range of skills and knowledge in second language learning and teaching in different contexts. It uses pedagogical content knowledge and skills for informing future practice including maximising motivation and engagement in TESOL for diverse and multilingual learners. The course examines professional practice in educational environments using a critically reflective approach.  
Restriction: EDPROFST 207

EDPROFST 220  
Introduction to Samoan Language for Teaching  
15 Points  
Focus will be on the acquisition of basic Samoan to develop skills in listening, speaking, reading and writing. How this knowledge can be applied in educational settings will also be examined. Aimed at learners with little or no prior experience of Samoan language.

EDPROFST 222  
Reporting Student Achievement  
15 Points  
Develops understanding about assessment of learning with particular emphasis on principles underpinning the gathering of robust summative information, the making of defensible judgements and decisions and reporting student achievement. Policy requirements related to assessment of learning will be critiqued and implications for practice considered.

EDPROFST 226  
Introduction to Bilingual Education  
15 Points  
An introduction to bilingualism and bilingual education. Examines key principles of programme development and strategies for academic learning of bilingual students in formal and informal settings including immersion and mainstream, early childhood and secondary.

EDPROFST 227  
TESSSOL: Language Learning Needs  
15 Points  
Strategies to identify, analyse, and respond to second language learning needs of students from early childhood to secondary school settings are introduced. Theories of first and second language acquisition are discussed, with reference to the role of first language and culture, and philosophies of empowerment. Practical teaching strategies which enable the integration of content and language learning are introduced.

Stage III

EDPROFST 300  
Raising Student Achievement  
15 Points  
Examines theory, research and practice to promote success for learners. Questions include: How do policies and practice shape what is meant by achievement? How do school communities operate as collaborative teams to raise achievement of learners? How can we identify and promote success for learners? What are the implications for teaching?  
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation  
Restriction: EDPROFST 604

EDPROFST 303  
Teaching Health and Physical Education 2  
15 Points  
Examines the knowledge, skills and attitudes associated with effective pedagogical practice in health and physical education. Addresses such questions as: How can the diverse needs of students be addressed in physical education contexts? How can teachers structure quality learning opportunities? How are units and programmes planned using the curriculum, national guidelines and assessment requirements?  
Prerequisite: EDPROFST 203  
Restriction: EDPROFST 301, 302, EDPROFM 301

EDPROFST 304  
Play: Theory and Practice  
15 Points  
Develops critical understandings of play related to learning and teaching. Addresses questions such as: How do varied theoretical and philosophical perspectives of play influence professional practice? What are the implications of positioning play as the interface between individual freedom and social constraint? What is the significance of play for creativity, communication and citizenship?  
Prerequisite: At least 225 points passed  
Restriction: EDCURRIC 215, 313

EDPROFST 305  
The Reflective and Ethical Teacher  
15 Points  
An examination of principles of how people learn will guide inquiry into own personal teaching practice and reflection on a developing, evidence-informed personal pedagogy. Notions of teacher professionalism and how the moral and ethical nature of teaching impacts on teacher decision-making will be explored.  
Prerequisite: EDPRAC 201  
Corequisite: EDPRAC 305  
Restriction: EDPROFST 313
EDPROFST 306 30 Points
EDPROFST 306A 15 Points
EDPROFST 306B 15 Points

Contemporary Issues in TESOL
Examines a range of contemporary issues relating to TESOL education allowing students to draw connections between theory, research, their own experiences as language users and practice. Addresses questions such as: What are the latest developments in the theory, policy and practice of TESOL? How does digital technology impact TESOL? How does reflective practice shape the work of the TESOL educator?

Prerequisite: Approval from the Course Director

EDPROFST 313 15 Points
The Professional Teacher
Examines theories, evidence informed practices, and attitudes that are critical to being a professional teacher. Explores concepts such as teacher self-efficacy, teacher inquiry, knowledge building and reflection, and factors that support the transition from student to teacher. Discusses the nature of professionalism, and the impact of expectations on teachers, including ethical obligations and legal requirements.

Prerequisite: EDRPAC 202 or 105 points passed at Stage II from the BEd(TESOL) Schedule
Corequisite: EDRPAC 306 or EDPROFST 306

EDPROFST 315 15 Points
Relational Worlds of Children
Explores the relational worlds of all children in early childhood settings in Aotearoa and globally. Critically examines relevant theories and ideas of childhood and children’s learning including children's belonging, being and becoming. Relational philosophies and pedagogies connecting teachers, parents and children with local and global communities addressed within the context of culturally sensitive practices.

EDPROFST 318 15 Points
Language Teaching for ESOL: An Introduction
Addresses current theories, approaches and practices for language teaching and learning for students learning English as an additional language in New Zealand schools and Early Childhood Centres. The course focuses on the needs of learners in all curriculum areas, emphasising the importance of understanding diverse learners' languages and cultures across the curriculum.

Prerequisite: 225 points passed in the BEd(TESOL) Schedule
Corequisite: EDRPAC 306 or EDPROFST 306

EDPROFST 325 15 Points
Introduction to Leadership in Education
A critical examination of the nature of professional leadership in education settings. Educational leadership skills such as goal setting, decision making, problem solving, team building, communication, delegation, vision development and curriculum alignment will be explored.

EDPROFST 344 15 Points
Sport, Games and Play
A critical analysis of the nature, purpose and practice of sport, games and play within New Zealand schools and an evaluation of the socio-cultural impact of those activities on children and on New Zealand society as a whole.

Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation
EDPROFST 350 15 Points
Assessment for Learning
Understandings about the nature and purpose of Assessment for Learning (AFL) will be developed. Emphasis will be placed on strategies associated with AFL and the formative use of information. Policy requirements related to AFL and implications for teachers’ practice and students’ learning will be examined.

EDPROFST 355 15 Points
The Politics of Education
The use of critical theory and discourse analysis to examine the politics of education. Historical and contemporary policy formation, implementation and effect will be examined. The impact of policy on teachers’ work and influence on policy processes will be explored.

EDPROFST 357 15 Points
Reflective Practice for Teachers
Examines moral, political and ethical factors that influence and affect teachers’ work in general and personal professional practice in particular. A critically reflective lens will be used as a means of analysis.

EDPROFST 358 15 Points
Refining Professional Performance
Provides a framework for analysis and critique of the impact of personal professional practice in the context of the prevailing socio-political educational climate. For teachers this will include a consideration of the impact of their practice on learners. A practitioner research project related to a specific area of the student's professional practice will be undertaken.

EDPROFST 360 15 Points
Teaching Languages in Schools
Students who have a working knowledge of a second language will study and apply strategies for classroom teaching of second languages in schools. Following critical reflection on different teaching models used in schools, students will prepare teaching materials, plan class lessons and apply information and communication technology in teaching and learning second languages.

EDPROFST 363 15 Points
Environmental Education: An Introduction
An examination of the nature and purpose of environmental education in New Zealand educational settings. An exploration of curriculum integration models and the ways these can be used to plan and teach environmental education programmes. An investigation of past, present (and possible future) local, national, and global environmental issues and their impacts on the natural and built environments.

EDPROFST 364 15 Points
Enterprise and Innovation for Teaching
Develops teachers' understanding of links between business and education, and the role of business, enterprise and innovation in the community. Links with technology and social studies curricula will provide context for this course.

EDPROFST 365 15 Points
Beyond Special Needs: Inclusive Education
Analyses personal and professional dilemmas associated with teaching children with special needs. Examines strategic practices which promote a responsive learning environment for all learners and approaches to recognising and catering for exceptional children. Addresses relationship building and resource access.

EDPROFST 368 15 Points
Refining Writing Programmes
Develops and extends understanding of the theory and practice of teaching and learning of writing within early childhood and primary settings.

EDPROFST 371 15 Points
Special Topic

EDPROFST 372 15 Points
TESSOL: Language Learning through Tasks
Investigates strategies for maximising language and content learning through instructional tasks. Cognitive, linguistic and metacognitive demands of tasks are considered. Examines pedagogical frameworks for planning effective language and content teaching in early childhood, primary and secondary schools. Students review, trial and modify tasks and learning sequences.

EDPROFST 373 15 Points
TESSOL: Language Learning in the New Zealand Context
The application of current second language acquisition theory to the New Zealand school context. Focuses on functional grammar in the classroom and on the roles of school organisation, policy development and building of school and community relationships in language learning.

EDPROFST 374 15 Points
TESSOL: Language Focused Curriculum
Discusses the relationship between culture, power, language and curriculum. Students investigate models and principles of curriculum design and use a functional-grammar approach to the design of language across the curriculum programmes. Focuses on ways of implementing and sustaining classroom and school wide language focused content teaching.

EDPROFST 375 15 Points
TESSOL: Assessment
Students analyse the personal and contextual factors that may affect linguistic performance in the New Zealand curriculum and critique current assessment procedures used in NZ schools. Focuses on recording and reporting and developing school policies for the assessment of students from diverse linguistic and cultural backgrounds.

EDPROFST 377 15 Points
Bilingual Education: Curriculum and Pedagogy
Examines key principles and processes for curriculum development and resource provision for bilingual learners in mainstream or bilingual educational contexts. Students critique an aspect of programme planning and pedagogy in order to develop curriculum and assessment measures suitable for bilingual learners in a particular school or centre.
EDPROFST 378 15 Points
Critical Approaches to Literacy
An exploration of the issues, theory, research and burgeoning body of literature on literacy in multi-ethnic settings including the development of effective multicultural environments for literacy learning.

EDPROFST 379 15 Points
TESSOL: Materials Design
Critique current resources for English language learning within the New Zealand curriculum using principles from second language learning in content areas. Students use the process of materials design to develop a language resource for a specified group of learners. The resource is presented in a way that can be disseminated to educational audiences.
Prerequisite: EDPROFST 227, 372 and 373
Corequisite: EDPROFST 374

EDPROFST 380 15 Points
TESSOL: Teacher Research Design
A range of research methodologies and methods appropriate for investigating an aspect of language learning through the curriculum is introduced and critiqued. Students conduct a critical review of relevant SLA literature and prepare a research proposal.
Prerequisite: EDPROFST 227, 372, 373 and 374

EDPROFST 381 15 Points
TESSOL: Teacher Research Implementation
The students implement a school-based teacher research study. The focus of this study informs decision making into an aspect of the effectiveness of second language acquisition in the context of a primary or secondary school classroom. Findings of the study are reported in a way that can be disseminated to educational audiences.
Prerequisite: EDPROFST 380

EDPROFST 386 15 Points
Special Topic: Professional Practice in New Zealand Schools
Develops understanding of values and principles of inclusive education to ensure that relationships with students are based on respect. Addresses pedagogy that is purposefully designed to teach and assess students to meet the reading and writing requirements of the New Zealand curriculum. A particular focus will be on the theories of teaching practice that best support English Language Learners.
Prerequisite: Approval from the Course Director

EDPROFST 387 15 Points
Special Topic: Inquiry into Practice in NZ Schools B
Engages critical reflection skills through an inquiry into classroom practice that has relevance to own context. Reflects critically on responsive pedagogies impacting on learning. Understands teaching as inquiry and the iterative process it entails, and enables dissemination of this inquiry using appropriate delivery strategies to a range of audiences, including colleagues, mentors and leaders within own countries' context.
Prerequisite: Approval from the Course Director
Corequisite: EDPROFST 310

EDPROFST 390 15 Points
Special Study
An advanced study in a topical area of educational inquiry.

EDPROFST 392 15 Points
Effective Practice for Beginning Teachers
An inquiry into key aspects of effective practice in primary and middle school contexts that support the transition to becoming a successful beginning teacher. Focuses on knowledge of self, children, schools, communities of practice, and the interactions and relationships between these, to support effective professional practice.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDPROFST 393 15 Points
Special Topic

EDPROFST 394 15 Points
Special Topic

EDPROFST 395 15 Points
Special Topic

EDPROFST 396 15 Points
Professional Early Childhood Practice 3
Develops capability to establish and sustain culturally responsive, ethical, child-focused relationships with tamariki, colleagues and whānau in complex environments. Promotes an inquiry-based approach to demonstrating competency in professional knowledge, and the skills and dispositions required for effective professional early childhood practice.
Prerequisite: EDPROFST 215

EDPROFST 397 15 Points
Current Issues in TESOL
Examines a range of issues relating to Teaching English to Speakers of Other Languages (TESOL) education allowing students to draw connections between theory, research, their own experiences as language users, and practice. Addresses questions such as: What are current developments in the theory, policy and practice of TESOL? Why is intercultural communicative language learning important? How does reflective practice shape the work of the TESOL educator?
Prerequisite: EDPROFST 216
Restriction: EDPROFST 306

EDPROFST 398 15 Points
TESOL in Practice II
Examines a range of contemporary issues relating to Teaching English to Speakers of Other Languages (TESOL) education allowing students to draw connections between theory and practice. Students critically reflect on developments in the TESOL field and their impact on practice. Applies theoretical perspectives and pedagogic principles to the design of TESOL practices in dynamic learning environments.
Prerequisite: EDPROFST 216, 217
Restriction: EDPROFST 306

Diploma Courses

EDPROFST 601 10 Points
Te Ao Māori
Critically examines the educational and cultural needs and aspirations of Māori learners and communities. Questions include: What is the social, historical and policy context of schooling for Māori? Why are te reo and mātauranga Māori important and how can they be integrated across learning contexts for all students? What current research contributes to effective pedagogical approaches for Māori students?
Restriction: EDPROFST 601, 603
EDPROFST 605 15 Points
The Early Years Teacher
Develops critically reflective practice and knowledge of a range of early childhood contexts. Critiques theories of teaching and teacher identity in relation to own practice and professionalism. Explores issues, ethics, policies and politics that influence teacher identity, being and practice. Explores a range of communication skills that support relationships with children, teachers, families and whānau.
Restriction: EDCURRIC 634, EDPROFST 621, 622

EDPROFST 607 15 Points
Relational Worlds of Children
Explores the relational worlds of children in early childhood settings in Aotearoa and globally. Critically examines relevant theories and ideas of childhood and children’s learning including children’s belonging, being and becoming. Relational philosophies and pedagogies connecting teachers, parents and children with local and global communities addressed within the context of culturally sensitive practices.
Restriction: EDPROFST 630, 634, EDPROFST 621, 622

EDPROFST 607A 15 Points
EDPROFST 607B 15 Points
Learning and Teaching in NZ
Critically examines the New Zealand Curriculum and implications for effective learning and teaching from a range of perspectives. Addresses questions such as: what do teachers need to know about learners and how they develop and learn, how to use evidence to promote learning, how to develop positive, professional relationships, and how contextual factors influence learning and teaching.
To complete this course students must enrol in EDPROFST 608 A and B

EDPROFST 609 15 Points
Ako
Critically examines the implications for effective learning and teaching from a range of perspectives. Addresses what teachers need to know about learners, and how they develop and learn, how to use evidence to promote learning, how to apply the strategies that support responsive teaching and the development of self-regulating learners and teachers.
Restriction: EDPROFST 608

EDPROFST 612A 15 Points
EDPROFST 612B 15 Points
Te Whakaako in NZ Secondary Schools
Focuses on adolescent development and learning within the context of implementing the NZ Curriculum. Addresses psychological learning theories, responsive pedagogies, evidence-based assessment practice as well as student motivation and engagement. Explores questions relating to catering for the needs of diverse learners, the Treaty of Waitangi, and the socio-political influences that shape the interconnections between learning and context.
Restriction: EDPROFST 610, 611
To complete this course students must enrol in EDPROFST 612 A and B

EDPROFST 613 15 Points
The Adolescent Learner
Focuses on theories of motivation and engagement in the context of adolescent development. Uses a social and psychological lens to examine neurological changes, adolescent identity, diverse learners, responsive pedagogies, learning theories and mental health issues. Explores questions relating to understanding adolescents to create a positive classroom environment for students.
Restriction: EDPROFST 612

EDPROFST 614 15 Points
EDPROFST 614A 7.5 Points
EDPROFST 614B 7.5 Points
The Inquiring Professional
Examines what it means to be a professional teacher. Considers the concept of the professional teacher as the adaptive expert, able to enquire into and reflect on the impact of current policies, as well as their practice on the diverse learners they teach.
To complete this course students must enrol in EDPROFST 614 A and B, or EDPROFST 614

EDPROFST 621 15 Points
Personal Pedagogy
Focuses on developing a personal pedagogy specific to early childhood. Critically examines relationships between theories and practices. How does the exploration of play, communication and relationships give rise to provision of purposeful and inclusive early childhood learning environments? What is the impact of sociopolitical issues upon early childhood settings and teachers’ practices with infants, toddlers and young children?
Prerequisite: EDCURRIC 630, EDPROFST 622

EDPROFST 622 15 Points
Learning Theories
Critically examines psychological and sociological aspects of human development and learning. What pertinent theories of learning and development influence pedagogies for infants, toddlers and young children? What knowledge of diverse families and communities is necessary for teachers to work in partnership with parents in Aotearoa New Zealand to enhance children’s learning?

EDPROFST 623 15 Points
Special Topic

Postgraduate 700 Level Courses

EDPROFST 700 30 Points
EDPROFST 700A 15 Points
EDPROFST 700B 15 Points

Literacies Education: Research and Practice
Understandings of research tools adequate for empirical study and an application of theory to literacies practices, critical analysis of how research questions are constructed and ability to situate and view educational issues and questions within major theoretical frameworks in literacies education will be developed.
Restriction: EDCURRIC 315, 364
To complete this course students must enrol in EDPROFST 700 A and B, or EDPROFST 700

EDPROFST 702 30 Points
Challenges of Literacy Difficulties
Teachers will critically examine and evaluate research and practice in literacy education, including specific intervention strategies and resources. This will include an examination of the social, cultural, economic, psychological and physiological factors that influence literacy development, including approaches to support and overcome literacy difficulties experienced by diverse learners, including Māori and Pasifika children.
EDPROFST 703 30 Points
EDPROFST 703A 15 Points
EDPROFST 703B 15 Points

**Leading Literacy and Language Inquiries**
Systematic inquiries into teaching and learning for students learning languages or facing difficulties with literacy learning. A review and analysis of literature relevant to the practices of teaching and learning languages and literacies, and engagement with a range of theoretical and pedagogical perspectives will inform the inquiries.

*Restriction: EDPROFST 310, 371*

*To complete this course students must enrol in EDPROFST 703 A and B, or EDPROFST 703*

EDPROFST 705 30 Points

**Literacy Theory and Practice**
An advanced analysis of the theoretical perspectives of social, cultural, political and psychological issues in relation to literacies education. Aspects of theories and practices in literacies including raising the achievement of Māori and Pasifika students and students from diverse language backgrounds, and the influence of diversity and technology on literacy, will be analysed and evaluated.

*Restriction: EDPROFST 701*

EDPROFST 706 30 Points
EDPROFST 706A 15 Points
EDPROFST 706B 15 Points

**Language Analysis for Teachers**
Provides pedagogically relevant information about the English language. Participants will learn fundamental concepts of grammar, vocabulary and the sound system of English and focus on some of the difficulties that learners, including those who are speakers of other languages, commonly experience as they learn English.

*To complete this course students must enrol in EDPROFST 706 A and B, or EDPROFST 706*

EDPROFST 707 30 Points

**Children’s Literature in Education**
A critical examination of children's literature theory, leading to the ability to enhance literacy and critical literacy pedagogy.

EDPROFST 708 30 Points

**Media Literacy in Educational Contexts**
A critical investigation of the theory and practice of teaching media literacy in educational contexts. Includes consideration of barriers, opportunities and teaching practices in primary and secondary schools and across multiple subject areas. An examination and evaluation of current media education initiatives in New Zealand and internationally.

EDPROFST 714 30 Points

**e-Learning in Practice**
A critical analysis of contemporary theory and applied research in educational technology.

EDPROFST 716 30 Points

**Early Years Pedagogy**
Critically examines pedagogy in the early years. How do theory and research inform pedagogy that enables effective learning in the early years? What is the relationship between pedagogy and effective teaching in the early years? What sort of teaching prepares very young children for life’s challenges and life-long learning? In what ways might early years pedagogy take into account an increasingly complex and diverse world?

EDPROFST 717 30 Points

**Learning and Teaching in the First Years**
Critically examines learning and teaching with infants and toddlers in educational settings. How does the context of care impact on contemporary educational views of learning and teaching? How do teachers construct infants and toddlers as learners? What does this mean for their practice? How does international theory and research inform the practice of teachers in Aotearoa New Zealand?

EDPROFST 727 30 Points

**Social Theory and Physical Education**
An advanced examination of the contemporary beliefs, thoughts and actions that represent current practices in physical education.

EDPROFST 728 30 Points

**Special Topic**

EDPROFST 732 30 Points

**Education for Sustainability**
An advanced study of the nature and purpose of environmental education including an examination of sustainability as a contested notion. Theories and pedagogical practices within environmental education in educational settings will be critically analysed in order to enhance professional practice.

EDPROFST 734 30 Points

**Frameworks for Inclusive Settings**
An analysis of educational contexts and their impact on the learning and behaviour of students with particular reference to those with special needs. Emphasis is placed upon assisting teachers to develop inclusive learning environments that enhance academic performance and social behaviour.

*Restriction: EDPROF 634, 734, EDPROFST 634*

EDPROFST 738 30 Points

**Educational Leadership - Level 9**
A reflective examination of the theory and practice of educational leadership including the leadership of teaching and learning. Emphasis will be placed on the synthesis of a substantive and integrated knowledge base, which can be applied to authentic work situations and a personal practice context. Focuses on contemporary leadership practices that are central to effective educational leadership.

*Restriction: EDPROF 770*

EDPROFST 739 30 Points

**Educational Policy and Organisations**
An examination of debates about New Zealand educational policy. This course is designed to increase understanding of the policy process and to develop leadership skills and knowledge in being able to interpret and critique policy analyses.

*Restriction: EDPROFST 771*

EDPROFST 740 30 Points

**Educational Leadership in the Electronic Age**
Advanced study of the impact of ICT on teaching pedagogies, curriculum and management in educational environments. Emphasis is on assisting educational leaders to focus ICTs on school applications that improve management practice and student learning outcomes.

*Restriction: EDPROF 776*
EDPROFST 743 15 Points
Family Counselling
An advanced examination of counselling principles as applied to stresses arising within family relationships. 
Restriction: EDPROF 743

EDPROFST 744 15 Points
Pastoral Care and Counselling in Schools
Provides an overview of the theory and practice of pastoral care and counselling within New Zealand schools. It includes an examination of pastoral care systems and counselling services, including the roles of staff, in relation to the academic mission of schools, disciplinary systems, the health of children and young people and the school-community interface.

EDPROFST 745 15 Points
Group Counselling
A critical examination of group dimensions in counselling activities. 
Restriction: EDPROF 745

EDPROFST 751 30 Points
ECE Curriculum Issues - Level 9
An educational curriculum negotiates social, political, educational and interdisciplinary ideas and theories. Critically examines influences on curriculum pertinent to pedagogical leadership in contemporary early childhood education. What perspectives of children, families and teachers are represented? How do these perspectives privilege particular outcomes? How does practitioner inquiry into curriculum issues underpin and improve practices? Requires the completion of independent research-focused assignments.

EDPROFST 752 30 Points
Assessment for Learning and Teaching
A critical examination of the relationship between assessment, teaching and learning. The notion of Assessment for Learning will be explored in relation to educational policy, relevant literature and contemporary research. Implications for practice and factors affecting implementation will be explored in detail.

EDPROFST 754 30 Points
Critical Research Methodologies in Education
An in-depth examination of ways in which critical research methodologies provide new knowledge and offer alternatives, through analysis of social, cultural, economic, political contexts in education. The critical research paradigm will be explored, to understand various perspectives and methods, and to enhance its use in education research. Students will be expected to design an education inquiry using critical research methodologies.

EDPROFST 755 30 Points
The Inquiring Professional
Optimise learning through a narrative inquiry into practice. Collaboratively and independently engage with theories, strategies and practices of writing life stories to better understand educational processes, practices, places, and policies. Critically analyse relevant literature in a chosen area of interest through a range of writing strategies. Includes writing a critically reflective narrative to inform future practice.

EDPROFST 757 30 Points
Undertaking Research for School Improvement
Students will learn how to design research that contributes to the understanding and improvement of educational practice. They will develop an understanding of practitioner-based research methods and produce a detailed research proposal that includes a clearly defined, and justified, research design and methodology aimed at studying a specific educational problem. 
Restriction: EDPROFST 772

EDPROFST 759 60 Points
EDPROFST 759A 30 Points
EDPROFST 759B 30 Points
Research Portfolio BEd(Tchg)(Hons) - Level 9
A supervised programme of coherent research activity related to a selected aspect of professional practice/education. This will lead to the compilation of a research portfolio that reflects the research and content knowledge, understanding and skills developed during the course of the programme. 
Restriction: EDPROFST 789
To complete this course students must enrol in EDPROFST 759 A and B, or EDPROFST 759

EDPROFST 760 30 Points
Christian Religious Education in Integrated Schools
A critical analysis of pedagogical methodology in Christian Religious Education through an examination of contemporary research, scholarship and theory, in Christian Scripture, Christian thought and History and Christian Religious Education in integrated schools.
Restriction: EDCURSEC 676

EDPROFST 762 30 Points
Mentoring Professionals
An advanced examination of approaches to mentoring and coaching. This course will provide a critical analysis of issues and practices associated with developing professional capacity. Emphasis will be placed upon the role of the educational leader in mentoring other staff into educational and leadership roles across an organisation.
Restriction: EDPROFST 731

EDPROFST 764 30 Points
Disability Policy and Practice
Explores contemporary issues and influences in the education of learners with disabilities. Critically examines a range of contemporary social, political and educational responses to disability.

EDPROFST 765 30 Points
Development in Early Years
An advanced examination of a range of current theories and research issues related to development in early years of childhood. Topics will include: life experiences of children within family/whānau; cognitive, communicative, social, emotional and physical development in a range of contexts.

EDPROFST 769 30 Points
Developing Mentoring Expertise
Mentoring has been identified as being an essential yet complex ingredient for teacher professional learning and development for new and experienced teachers. Underpinning educative models of mentoring is the development of adaptive expertise that builds knowledge through evidence-informed inquiry. Emphasis is placed on catering for the diversity of learning needs throughout professional careers.

EDPROFST 774 30 Points
Education and Empowerment
A critical examination of contemporary issues faced in New Zealand's decile 1-3 urban schools. International and
New Zealand based literature will familiarise students with current theory and research regarding the history, politics, teaching and learning, and best practice relevant to New Zealand’s decile 1-3 urban school students, teachers and communities. Emphasis will be on empowerment theories, underpinned by Freirean perspectives.

**EDPROFST 777 30 Points**  
Curriculum: Theory, Issues, Practice - Level 9  
A critical examination of curriculum using a range of leading educational theories with an emphasis on sociological theory. Importance will be placed on the independent critique of contemporary curriculum issues, and the links between theory, policy and practice. A research informed critical understanding will be applied to the NZ Curriculum Framework, or Te Whāriki, or to a sector in the NZ education system.

**EDPROFST 780 30 Points**  
EDPROFST 780A 15 Points  
EDPROFST 780B 15 Points  
**Special Topic**  
*To complete this course students must enrol in EDPROFST 780 A and B, or EDPROFST 780*

**EDPROFST 781 30 Points**  
EDPROFST 781A 15 Points  
EDPROFST 781B 15 Points  
**Special Topic**  
*To complete this course students must enrol in EDPROFST 781 A and B, or EDPROFST 781*

**EDPROFST 782 30 Points**  
**Educational Change - Level 9**  
Critically examines the purposes and processes of educational change, including a reflection on practices that promote successful outcomes for change initiatives. Processes of educational change in both New Zealand and international contexts will be studied and critiqued from individual, organisational and systemic perspectives. Focuses on leadership practices that have the potential to promote change for improvement.

**EDPROFST 784 30 Points**  
EDPROFST 784A 15 Points  
EDPROFST 784B 15 Points  
**Special Study**  
*To complete this course students must enrol in EDPROFST 784 A and B, or EDPROFST 784*

**EDPROFST 786 30 Points**  
EDPROFST 786A 15 Points  
EDPROFST 786B 15 Points

**Thesis**

### Education Professional Studies Māori

#### Stage I

**EDPROFM 100 15 Points**  
Te Ao Māori - Te Kākano  
Introduces socio-political and historical contexts, including Te Tiriti o Waitangi, to inform understandings about Māori challenges and aspirations within contemporary New Zealand society. Examines own social and cultural locations for their impact on professional and social practices in a range of settings. Develops basic knowledge of te ao Māori including Te Reo me ngā tikanga Māori.  
Restriction: EDUCSW 101, EDPROFST 100

**EDPROFM 101 15 Points**  
Pakirehua Ngaio – Te Ako  
Addresses key influences on learning and development, building and enhancing understandings of personal experiences and identity. Examines concepts central to learning and development such as self-efficacy and self-concept. Explores key aspects within the teacher’s role with an emphasis on reflection, relationship building, communication and collaboration. Introduces strategies central to the first teaching practicum. Examines te reo Māori discourse appropriate to pakirehua ngaio contexts.

**EDPROFM 102 15 Points**  
Pakirehua Ngaio – Te Ako  
Addresses key influences on learning and development, building and enhancing understandings of personal experiences and identity. Examines concepts central to learning and development such as self-efficacy and self-concept. Explores key aspects within the teacher’s role with an emphasis on reflection, relationship building, communication and collaboration. Introduces strategies central to the first teaching practicum. Examines te reo Māori discourse appropriate to pakirehua ngaio contexts.
Stage II

EDPROFM 200 15 Points
Te Ao Māori - Te Māhuri
Introduction of contemporary Māori educational landscapes, policy directions, case-studies and debates to develop critical knowledge and engagement with te ao Māori and Māori Education. Further develops knowledge of te reo, tikanga and mātauranga Māori, and its integration with pedagogy, practice and planning relevant for all ākonga, is developed.
Prerequisite: EDPROFM 100

EDPROFM 203 15 Points
Mātauranga: Te Whakawhanake Hapori Ako
Introduces students to selected contemporary perspectives on learning. Explores strategies that develop self-regulated and self-efficacious learners, and support learning, with a focus on Māori learners. Considers rationale and conditions for establishing connections and relationships within a responsive pedagogy alongside factors that contribute to the creation of Māori medium classrooms as effective learning communities.

EDPROFM 204 15 Points
Te Reo Māori 2
Further develops te reo Māori knowledge, skills and attitudes for learning and teaching across Marautanga. Addresses issues such as planning effectively for personal and professional Māori language development; key theories and approaches underpinning the development of bilingualism and literacy in Māori medium educational contexts and the pedagogical implications of these when planning for learning and teaching.
Prerequisite: EDPROFM 101
Restriction: EDPROFM 209

EDPROFM 208 15 Points
Pakirehua Ngaio – Te Whakaako
Develops informed understandings about the nature of high quality, effective teaching practices for diverse ākonga. Interprets teaching as inquiry with reference to relevant curricula. Identifies and examines specific teacher actions that support high quality, effective teaching and learning. Further develops understandings of strategies central to the second teaching practicum. Examines te reo Māori discourse appropriate to pakirehua ngaio contexts.
Prerequisite: EDPROFM 102, EDPRACM 100
Corequisite: EDPRAC 201 or 202 or EDPRACM 201

EDPROFM 220 15 Points
Special Topic

Stage III

EDPROFM 300 15 Points
Te Ao Māori - Te Puāwaitanga
Fosters Te Tiriti responsive teacher practice, including understanding of and engagement with Māori whānau and community for productive educational relationships and learner outcomes. Applies critical knowledge and skills in mātauranga, tikanga and te reo Māori to extended planning and assessment activities suitable for diverse ākonga.
Prerequisite: EDPROFM 200

EDPROFM 302 15 Points
Te Reo Māori 3
Synthesises te reo Māori knowledge, skills and attitudes for teaching and learning across Marautanga. Addresses issues such as the support of te reo Māori revitalisation at micro, meso and macro levels; the socio-political implications of language change, shift, loss and revitalisation; planning for long-term personal Māori language development in a school context.
Prerequisite: EDPROFM 204

EDPROFM 304 15 Points
Ako mā te Aromatawai - Learning Through Assessment
Addresses assessment literacy and capability through an informed examination and appraisal of the purposes, strategies and practices of assessment for and of learning. Attention is focused on the ways in which Māori medium learners and teachers can use information and evidence from classroom activities and selected New Zealand assessment tools, in particular Māori medium tools, to support and further learning and achievement.
Restriction: EDPROFM 214

EDPROFM 307 15 Points
EDPROFM 307A 7.5 Points
EDPROFM 307B 7.5 Points
Pakirehua Ngaio – Te Pouako Pakirehua
Promotes development of a defensible philosophy of learning and teaching that addresses interactions and intersections between and among professional knowledge bases. Examines pedagogical, ethical and contextual factors influencing teaching practice. Facilitates critique of practitioner inquiry with reference to cognate literature and personal philosophy in relation to the final teaching practicum. Examines te reo Māori discourse relevant to pakirehua ngaio contexts.
Prerequisite: EDPROFM 208
To complete this course students must enrol in EDPROFM 307 A and B, or EDPROFM 307

EDPROFM 313 15 Points
Te Pouako Ngaio
Examines theories, evidence informed practices, and attitudes that are critical to being a professional teacher. Explores concepts such as teacher self-efficacy, teacher inquiry and reflection, and factors that support the transition from student to teacher. Discusses the nature of professionalism, and the impact of expectations on teachers, including ethical obligations and legal requirements.
Prerequisite: EDPRAC 201 or 202 or EDPRACM 201
Corequisite: EDPRAC 305 or 306 or EDPRACM 302
Restriction: EDPROFM 301

EDPROFM 320 15 Points
Special Topic
EDPROFM 321 15 Points
Special Topic
EDPROFM 322 15 Points

Diploma Courses

EDPROFM 600 15 Points
EDPROFM 600A 7.5 Points
EDPROFM 600B 7.5 Points
Te Ao Māori: He tirohanga whakamuri kia ahu whakamua
Introduces socio-political and historical contexts, including Te Tiriti o Waitangi in order to inform understandings of contemporary challenges and aspirations of Māori in educational contexts. Own social locations and cultural beliefs are examined for their impact on teacher practice and outcomes for Māori learners. Learning opportunities
that critically integrate Māori language, knowledge and culture are identified and designed.

Restriction: EDPROFST 601
To complete this course students must enrol in EDPROFM 600 A and B, or EDPROFM 600

Postgraduate 700 Level Courses

EDPROFM 700 30 Points
Being Māori, Thinking Theory
An exploration of theory through a Kaupapa Māori framework. Draws on te reo, tikanga and mātauranga Māori as the foundation for articulating Kaupapa Māori theory as a contemporary theoretical framework of analysis in education.

EDPROFM 701 30 Points
Teaching Te Reo Māori in English–Medium Contexts
Critically analyse te reo Māori revitalisation strategies and theories of language planning including developing personal te reo Māori development plans. Developing critical knowledge, skills of mātauranga, tikanga and te reo Māori and knowledge of relevant curriculum material. Critique second language acquisition theory and develop teaching approaches that support the learning and teaching of te reo Māori and tikanga in English-medium settings.

EDPROFM 702 30 Points
Te whakako i te reo Māori: Teaching te reo Māori
Through an exploration of second language acquisition and pedagogical processes, including an analysis of the latest learning technologies, this course will enable critical reflection on current te reo Māori teaching practices, enhanced language development, and an opportunity to evaluate and strengthen the effectiveness of one’s own te reo Māori teaching practice. This course will be taught in te reo Māori.

EDPROFM 703 30 Points

EDPROFM 796A 60 Points
EDPROFM 796B 60 Points
MED Thesis - Level 9
To complete this course students must enrol in EDPROFM 796 A and B

EDPROFM 797 60 Points
EDPROFM 797A 30 Points
EDPROFM 797B 30 Points
Dissertation
To complete this course students must enrol in EDPROFM 797 A and B, or EDPROFM 797

Education Professional Studies Pasifika

Stage I

EDPROFPK 102 15 Points
Pe mafai vefea e ki tatou o i tamaiti aoga Pasifika
Explores skills and techniques in learning-to-learn in Pasifika medium, bilingual education settings. Students are introduced to characteristics of the development of a first language platform for further successful learning in English. Interpersonal communication and cognition skills and academic language proficiency in students’ first languages will be scaffolded during this course.

Education Studies

Stage III

EDUCN 300 15 Points
Special Topic

Postgraduate 700 Level Courses

EDUCN 793 60 Points
Dissertation - Level 9

Health Education

Stage I

HEALTHED 101 15 Points
Food and Education
Examines the relationship between food, eating, nutrition, and the body. Examines the social, cultural, political, economic and environmental factors that determine how people eat, what they eat, and why. Explores contemporary issues in nutrition and food education, and key challenges to improving the nutrition of communities.

Stage II

HEALTHED 201 15 Points
Youth Mental Health Education
Examines mental health education in Aotearoa New Zealand. Explores holistic, western and non-western approaches to mental health in education settings and the history of public health in schools. Examines how current education policy, resourcing and pedagogical initiatives impact the mental health and wellbeing of children and young people.

Restriction: EDCURRIC 233

HEALTHED 202 15 Points
Sexuality, Education and Society
Examines the role of sexuality and sexuality education in society. Investigates cultural, historical and contemporary perspectives on gender and sexuality in diverse settings, including education and human services. Explores values, beliefs and issues of equity and sexual social justice. Develops sexuality pedagogies and advocacy for education settings and within communities.

Restriction: EDCURRIC 333, EDUC 122

Stage III

HEALTHED 301 15 Points
Whaoranga
Critically examines a range of indigenous-Māori and critical literatures in health, physicality and wellbeing and provides opportunities to consider the relationships between indigenous-Māori wellbeing and other social locations and identities.

Prerequisite: 15 points from EDUCSW 201, HEALTHED 201, SPORTHPE 201

HEALTHED 302 15 Points
Leading Health Promotion in Schools
Critically examines how a range of health promotion models and theories can be applied in education settings. Develops in-depth knowledge of how contemporary health issues such as mental health, alcohol, drugs and obesity affect young people in Aotearoa schools. Develops understanding and skills to apply health promotion principles to
eductional and community settings in culturally responsive and socially critical ways. 
Prerequisite: HEALTHED 201
Restriction: EDCURRIC 433

Higher Education

Postgraduate 700 Level Courses

HIGHED 701 30 Points
Learning and Teaching
Students will document and critically reflect on their teaching practice in the context of their discipline and institution, and the higher education literature on learning and teaching and academic citizenship, taking into account how they will exhibit both leadership through innovation, scholarship and collegiality, and an awareness of difference (gender, ethnicity, ability) such that their practice is culturally and individually sustaining.

HIGHED 702 30 Points
Course Design
Students will explore and critically reflect on the theory and practice of learning and course design in higher education, including different models and methods of assessment and evaluation, such that they can design, implement and evaluate learning and teaching activities, assessment tasks and courses in ways that speak to practice in their discipline and institution, and the higher education literature. 
Prerequisite: HIGHED 701

HIGHED 703 30 Points
Topics in Higher Education
Students will investigate and critically examine a range of current topics and theories in higher education and higher education research and their impact in a local context, in order to deepen their scholarly understanding of learning and teaching in their discipline and in the local and global higher education context, and equip them to design and undertake a higher education dissertation.
Prerequisite: HIGHED 701, 702, or equivalent

HIGHED 704 30 Points
Research Project Design
Students will be introduced to and critically reflect on the breadth of higher education research methodologies and methods, and strategies for research project design and management. This will enable them to produce a research proposal, including a rationale, literature review, methodology and methods, for a higher education research project of their own.
Prerequisite: HIGHED 701 or 702 or 703

HIGHED 793 60 Points
HIGHED 793A 30 Points
HIGHED 793B 30 Points
Dissertation - Level 9
Prerequisite: 30 points from EDUC 735, 787, EDUCSW 700, EDPROFST 754, HIGHED 704
To complete this course students must enrol in HIGHED 793 A and B, or HIGHED 793

Human Services

Stage I

HUMSERV 102 15 Points
Lifespan Development for Human Services
An introduction to the theories of lifespan development.

Stage II

HUMSERV 201 15 Points
Leadership in Human Services
An exploration of contemporary leadership concepts, organisation structures and models with a view to their implementation within human service settings. Various approaches to team structure found in human services will be examined. Organisational structures and culture will be explored with a view to understanding how they are created, sustained and changed.
Prerequisite: HUMSERV 104 and 30 points passed from the BHumServ Schedule

HUMSERV 202 15 Points
Reflective Practice in Human Services
Developing the processes of reflective practice to evaluate 'self' in their role as a human service practitioner. Using an experiential and collaborative approach, students will apply action learning and gather data on their own practice. In consultation with a colleague or mentor, students will implement and evaluate change in their professional practice.
Prerequisite: HUMSERV 104 and 30 points passed from the BHumServ Schedule

HUMSERV 203 15 Points
Ethics and Social Justice
An introduction to major normative ethical theories and to the moral controversies of applied ethics that are relevant to the fields of disability studies and youth work. An examination of the application of the principles of justice to disabled people and youth as expressed in relevant universal declarations and conventions and national legislation.
Prerequisite: Any 30 points passed from the BHumServ Schedule

HUMSERV 211 15 Points
Assessment, Planning and Coordination
An examination of the practical components and implications of assessment, planning and coordination in human services. The theory and practice of needs assessment, service coordination and budget management are examined. The professional ethics and related practice issues are examined in relation to these activities.
Prerequisite: Any 30 points passed from the BHumServ Schedule

Stage III

HUMSERV 305 15 Points
Field Work in Human Services 1
A service-learning experience during which students will connect with an organisation or group to apply classroom knowledge in a human service setting. With supervision, students will be assisted to reflect on their field work experiences to further develop their professional practice skills.
Prerequisite: HUMSERV 101, 102, 104, 201, 202, 203, 211, SOCWORK 111, 112, 114, 211

HUMSERV 306 15 Points
Field Work in Human Services 2
An experiential learning course focused on a consolidation
of understanding the function of reflection and research in human service practice. Students will critically analyse their own practice, connecting it to theory and evidence. With supervision and using appropriate methodology, students will implement and evaluate change in their professional practice.

**Prerequisite:** HUMSERV 101, 102, 104, 201, 202, 203, 211, SOCWORK 111, 112, 114, 211

**Restriction:** HUMSERV 302

**HUMSERV 307**

**Advanced Practice in Cultural Responsiveness**

Effective practice and social change occur when practitioners can locate self, power, and diversity appropriately within bicultural and multicultural contexts. Students will critically engage with theories of cultural competence, cultural responsiveness, and cultural humility to develop skills and strategies to work reflexively across diversity dimensions and contexts, including, but not limited to, ethnicity, sexuality, gender, age and ability.

**Prerequisite:** HUMSERV 101, 102, 104, 201, 202, 203, 211, SOCWORK 111, 112, 114, 211

**Stage I**

**PHYSED 101**

**Games and Sport Education**

Develops knowledge and appreciation of various game forms. Analyses game structures and processes. Develops performance competency in games through experiential learning. Explores and analyses potentially positive and negative outcomes of participating in games and sport.

**Restriction:** EDCURRIC 231, EDPROF 344

**PHYSED 102**

**Alternative Sport and Play**

Develops understanding of alternative sport and games young people play in Aotearoa New Zealand and internationally. Explores a range of non-traditional and non-competitive physical activities. Reflects on the socio-cultural dimensions of these types of physical activities, including an examination of how alternative sport enables young people to learn, play, communicate, create, express themselves, and belong.

**Restriction:** EDCURRIC 232

**PHYSED 103**

**Outdoor Education 1**

Explores the nature and purpose of outdoor education. Requires study and participation in selected outdoor activities to acquire field-specific skills, knowledge, and dispositions. Involves experiential learning and recognition of the contribution of outdoor education to personal and social development, including the facilitation of group processing. Develops basic knowledge of outdoor risk management and environmental care.

**Restriction:** EDCURRIC 236

**PHYSED 104**

**Aquatics and Water Safety**

Studies aquatic activity with an emphasis on the practical competencies that underpin safe and engaging recreation in Aotearoa New Zealand. Includes drowning prevention promotion and water safety education with particular reference to high-risk activities and at-risk groups, including children and youth. Demonstrate responsibility in aquatic environments including developing a range of aquatic skills, identifying hazards, and care for aquatic environments.

**Restriction:** EDCURRIC 130, 232

**Stage II**

**PHYSED 203**

**Outdoor Education 2**

Examines the role of outdoor education as an educational process. Involves experiential learning to develop outdoor skills, knowledge, and behaviours for teaching outdoor education. Develops knowledge of risk management for safe, effective and pleasurable engagement in the outdoors. Develops knowledge and skills for environmental care and protection.

**Restriction:** EDCURRIC 236

**Stage III**

**PHYSED 303**

**Outdoor Education Leadership**

Develops specialist leadership knowledge and skills appropriate to leading educational experiences in the outdoors. Strengthens skills required to facilitate safe, challenging learning experiences in moderate and wilderness environments. Examines policies and legal requirements as they relate to safe industry practice and duty of care.

**Prerequisite:** PHYSED 103, 203

**Professional Counselling**

**Postgraduate 700 Level Courses**

**PROFCOUN 700**

**Counselling In Youth Mentoring**

Theories and concepts of youth mentoring and positive youth development will be examined in relation to practice as youth counsellors. Students will engage in weekly psychoeducational group and one to one counselling sessions on campus with at-risk youth as part of a therapeutic mentoring programme. Lecture topics include counselling skills for youth, effective and ethical mentoring relationships, and risk assessment.

**Prerequisite:** Approval from the Course Director

**Restriction:** EDUC 747, SOCYOUTH 300

**PROFCOUN 701A**

**PROFCOUN 701B**

**Counselling Laboratory**

An intensive "laboratory" in which students work in small groups to develop skills and strategies for the facilitation of counselling processes. PROFCOUN 701 also provides a continuous opportunity for students to integrate theory with practice, and to develop confidence and effectiveness in their role as counsellors.

**To complete this course students must enrol in PROFCOUN 701 A and B**

**PROFCOUN 702**

**Special Topic**

**PROFCOUN 703**

**Special Study**
PROFCOUN 705A 15 Points
PROFCOUN 705B 15 Points
The Counselling Process
An advanced examination of principles of counselling together with their application in the counselling process.
Corequisite: PROFCOUN 701
Restriction: EDPROFST 746
To complete this course students must enrol in PROFCOUN 705 A and B
PROFCOUN 706 15 Points
Cultural Issues in Counselling
A critical examination of cultural dimensions present in counselling activities.
Restriction: EDPROFST 748
PROFCOUN 707 15 Points
Specialist Counselling Skills and Approaches
An advanced examination of the specialist counselling skills and knowledge required to work effectively with clients from a wide range of contexts and experiences. Topics may include working with sexual abuse, family violence, trauma, anxiety, depression, self-harm, suicidality, and loss and grief. The course will focus on the integration of theory, research and practice, and the development of working models to facilitate effective counselling.
PROFCOUN 708 15 Points
Professional Issues in Counselling
An examination of significant professional issues in counselling, including supervision, ethics and accountability, and role development.
Restriction: EDPROFST 749
PROFCOUN 711 15 Points
PROFCOUN 711A 7.5 Points
PROFCOUN 711B 7.5 Points
Counselling Practicum
A counselling practicum course that develops the capacity for reflective practice in relation to theory, ethics, in the context of Aotearoa.
Corequisite: PROFCOUN 701, 705
To complete this course students must enrol in PROFCOUN 711 A and B, or PROFCOUN 711
PROFCOUN 730 30 Points
PROFCOUN 730A 15 Points
PROFCOUN 730B 15 Points
Advanced Counselling Practicum - Level 9
An advanced counselling practicum incorporating critical awareness of issues and analysis of counselling practice in relation to theory, ethics, and the context of Aotearoa. Mastery of counselling practice to an advanced level will be achieved through independent application and development of knowledge and skills within professional practice settings.
Restriction: PROFCOUN 797, 798
To complete this course students must enrol in PROFCOUN 730 A and B, or PROFCOUN 730
PROFCOUN 732 30 Points
PROFCOUN 732A 15 Points
PROFCOUN 732B 15 Points
Professional Counselling Capstone Project - Level 9
A supervised capstone project incorporating highly specialised knowledge at the forefront of counselling, including critical awareness and reflexivity on the nature of professional counselling in the context of Aotearoa. Mastery of practitioner reflexivity to an advanced level will be achieved through independent application and development of knowledge and skills within personal and professional settings.
To complete this course students must enrol in PROFCOUN 732 A and B, or PROFCOUN 732
PROFCOUN 795A 45 Points
PROFCOUN 795B 45 Points
Research Portfolio - Level 9
Prerequisite: EDPROFST 750 or PROFCOUN 709 or SOCWORK 718
Restriction: PROFCOUN 797, 798
To complete this course students must enrol in PROFCOUN 795 A and B
PROFCOUN 796A 45 Points
PROFCOUN 796B 45 Points
Thesis - Level 9
Prerequisite: EDPROFST 750 or PROFCOUN 709 or SOCWORK 718
Restriction: PROFCOUN 797, 798
To complete this course students must enrol in PROFCOUN 796 A and B

Professional Supervision

Postgraduate 700 Level Courses
PROFSUPV 700 30 Points
The Practice of Professional Supervision
A critical examination of the concept, role, purpose and benefits of supervision in a wide range of professions. Supervision and its ethical mandates within professional and organisational contexts in health, counselling and human services will be examined. The knowledge and skills required to offer supervision in professional contexts will be explored in depth, recognising Indigenous and non-Indigenous knowledges that inform practice.
PROFSUPV 701 30 Points
Advanced Approaches in Professional Supervision - Level 9
Builds on prior critical knowledge of a range of theoretical and practical approaches to professional supervision to establish advanced understanding and practice. A critical examination of Western and Indigenous models of supervision for health, counselling and human service contexts, which will include the development of anti-oppressive supervision practice and an integration of advanced knowledge, skills and values of supervision.
Prerequisite: PROFSUPV 700
PROFSUPV 704 15 Points
Counselling Supervision: Relationship and Process
A critical examination of the nature of the supervisory relationship in the context of counselling supervision and the facilitation of supervisory process. Topics include an in-depth exploration of the dynamics of supervisory relationships, the roles of supervisors and supervisees, and the integration of theory and practice in developing skills for facilitating supervisory process.
PROFSUPV 707 30 Points
Supervision Folio
A supervised portfolio with a focus on an in-depth critical reflection on current practice in professional supervision, learning and development in human services and health contexts.
Prerequisite: PROFSUPV 700, 701
PROFSUPV 710 30 Points
**Stress and Trauma in Health and Human Services**
Explores the complex dimensions of stress and trauma encountered by health and human services workers. The historical, cultural and conceptual basis for an understanding of the impact of stress and trauma on both clients and workers is considered. Critically explores research-led strategies to address personal, professional and organisational responses to stressful environments.

PROFSUPV 712 30 Points
**Critical Approaches in Reflective Supervision**
Critical exploration of contemporary theories and practice frameworks for reflective supervision in health, counselling and human services. An examination of strategies for ongoing professional development, including reflective practice, critical reflection, communities of practice, and learning organisations. Different modes of supervision (such as peer supervision and interprofessional supervision) will be examined along with creative action methods of supervision engagement.

PROFSUPV 713 30 Points
**Critical Issues in Counselling Supervision**
An advanced examination of ethical, process and relational issues that may arise in the practice of counselling supervision. Topics include ethical issues for supervisors and supervisees, cultural issues and the relationship between culture and ethics in supervision, the influences of socio-political contexts, power in supervisory relationships, evaluation and accountability.

Restriction: PROFSUPV 705

PROFSUPV 714 30 Points
**Managing and Developing People in Human Services**
A critical examination of strategies for effective management and development of professional staff in the health and human services. Includes critical reflection on effective management processes; indigenous management frameworks; recruitment and selection; supervision and performance planning; coaching and mentoring; training and development; unsatisfactory performance; and building resilience and staff care strategies.

Restriction: PROFSUPV 706

PROFSUPV 715 30 Points
**Practice Teaching and Learning**
Explores the teaching and learning strategies required in the provision of high quality field education in social services and health settings. Critically examines theoretical and evidence informed pedagogies for student practice learning.

PROFSUPV 716 30 Points
**Group Supervision**
Critically explores the benefits and challenges of group supervision. The parameters and value of group supervision are identified and promoted for practice within the current context of health and social services. Specific models of group supervision are developed to support critical reflection managing boundaries, tasks, roles, structure and the creation of a positive group learning.

PROFSUPV 717 15 Points
**Special Study**

PROFSUPV 718 30 Points
**Special Topic**

PROFSUPV 720 30 Points
**Professional Supervision Capstone Project - Level 9**
A supervised capstone project, in which students critically apply advanced knowledge of professional supervision practice and scholarship to explore, develop, and/or refine cultural models/innovations of supervision within their own profession or setting.

Prerequisite: PROFSUPV 701

PROFSUPV 793 60 Points
PROFSUPV 793A 30 Points
PROFSUPV 793B 30 Points
**Dissertation - Level 9**
To complete this course students must enrol in PROFSUPV 793 A and B, or PROFSUPV 793

PROFSUPV 794A 30 Points
PROFSUPV 794B 60 Points
**Thesis - Level 9**
To complete this course students must enrol in PROFSUPV 794 A and B

Regional Development

**Postgraduate 700 Level Courses**

REGDEV 702 15 Points
**Regional Regeneration and Wellbeing**
Examines how education provides a basis for rethinking regional development, community wellbeing and sustainability in an increasingly globalised world. The course explores the significance to community regeneration of indigenous and local knowledge, via mātauranga Māori, place-based learning, public pedagogy and the promotion of educational pathways, as well as how these traverse and intersect the local and the global.

Social and Community Leadership

**Postgraduate 700 Level Courses**

SOCCLEAD 700 15 Points
**Leadership: Ethics and Actions**
Effective social and community leadership requires a strong and critical ethical foundation. Topics include the professional identity and values of social and community sector leadership, social justice, ethical and authentic leadership, and human systems thinking. Leadership that honours the Treaty of Waitangi, diversity, and equity, and actions based on those values, will be explored.

SOCCLEAD 701 15 Points
**Leading Social Innovation**
Evolving approaches to innovating social change will be examined. Topics include theories and change models of social innovation, venture creation, programme design and social enterprise development. Case study analysis will examine contemporary debates on and approaches to evidence-based programming, collaboration and co-design, social impact measurement, ethical social profit ventures, scaling impact and creating sustainable social change.

SOCCLEAD 702 15 Points
**Special Topic**

SOCCLEAD 703 30 Points
**Leadership, Ethics, Systems**
Effective social and community leadership requires a
critical ethical and analytic foundation. Themes examined include ethical leadership values aligned to social justice, in combination with the capacity for analysis of complex social issues, systems, and change processes. Leadership that honours the Treaty of Waitangi, diversity, and equity, and formulates actions based on these values will be explored.

Restriction: SOCCLEAD 700

SOCCLEAD 704 30 Points
Special Study

SOCCLEAD 706 30 Points
Innovation, Design, Evaluation
Evolving approaches to innovating social change and evaluation practice are examined. Topics include contemporary debates on, and approaches to, co-design, collaboration, ethical social innovation, evidence-informed programme design, evaluation models and impact measurement. Using experiential learning, groups of students will be guided through a social innovation design process in response to user needs, and develop robust evaluation proposals.

Restriction: EDUC 726, SOCCLEAD 701

SOCCLEAD 707 30 Points
Programme Evaluation - Level 9
Advanced topics and approaches to programme evaluation. The course will examine high level evaluation specifications, plans and reports to identify methods and options for critical evaluation serving the specialised needs of programme managers, sponsors and publics. Through the lens of real-world issues, politics of innovation and change will be considered in preparing an independent programme evaluation.

SOCCLEAD 708 30 Points
Enacting Social Change - Level 9
Builds on critical knowledge of a range of theoretical and practice approaches to leadership, systems thinking, social innovation and evaluation. Establishes advanced practice understandings of either personal leadership or organisational contexts through an independent structured reflective inquiry grounded in theory.

Corequisite: SOCCLEAD 703 or 706

SOCCLEAD 794A 30 Points
SOCCLEAD 794B 60 Points
Thesis - Level 9
To complete this course students must enrol in SOCCLEAD 794 A and B

SOCCLEAD 795A 60 Points
SOCCLEAD 795B 30 Points
Thesis - Level 9
Restriction: SOCCLEAD 794
To complete this course students must enrol in SOCCLEAD 795 A and B

Social Work

Stage I

SOCWORK 100 30 Points
SOCWORK 100A 15 Points
SOCWORK 100B 15 Points
Ko Wai Au, Ko Wai Koe, Ko Wai Tātou?
Introduces historical and socio-political contexts, beginning with te ao Māori, tikanga Māori, and te Tiriti o Waitangi, that underpin analysis of a range of identities, diversities, aspirations, oppressions and cultures in contemporary Aotearoa. Fosters understanding of how one’s cultural location and intersectional experiences can shape values and attitudes, including bias and prejudice, and the impact of ‘self’ on professional practice.

Restriction: EDPROMF 100, SOCWORK 113
To complete this course students must enrol in SOCWORK 100 A and B, or SOCWORK 100

SOCWORK 101 30 Points
SOCWORK 101A 15 Points
SOCWORK 101B 15 Points

Social Work and Social Justice
The Treaty of Waitangi underpins social work practice in Aotearoa. Social justice and human rights are critically considered alongside an examination of historical and contextual contributors to the development of social work. An introduction to the profession and practice of social work is provided. Relationship building and communication skills are taught within a growing awareness of self.

Restriction: SOCWORK 111, 112, 115
To complete this course students must enrol in SOCWORK 101 A and B, or SOCWORK 101

SOCWORK 102 30 Points
SOCWORK 102A 15 Points
SOCWORK 102B 15 Points
He Tangata: People in Context
Te ao Māori, ecological systems, psychological and lifespan development theories and frameworks are conceptual pillars for introducing human behaviour and experiences across the life course and the complex relationships between individuals and their social environments. Multi-dimensional aspects of human experience, identity and change are explored from a culturally conscientious, equity-oriented perspective.

Restriction: HUMSERV 101, 102
To complete this course students must enrol in SOCWORK 102 A and B, or SOCWORK 102

SOCWORK 111 15 Points
Professional Communication Skills
An introduction into effective personal and professional communication in human services. An experiential and collaborative approach will be used to assist students to explore the place of self in the communication process, to understand the stages, purpose and task of the communication process, and to develop effective interaction.

Stage II

SOCWORK 200 30 Points
SOCWORK 200A 15 Points
SOCWORK 200B 15 Points

Ngā Pou for Mana-enhancing Practice
Engages students in developing a framework for social work practice that supports individual, whānau and community aspirations to ora/wellbeing and enhances individual and collective mana. Focusing centrally on whānau-family-aiga systems, and emphasising critical intersectional analyses of the inequitable impact of socio-structural factors on whānau and communities, it builds core social work knowledge and skills applicable across diverse settings and groups.
Prerequisite: SOCWORK 101 and 102, or 111 and 115, or 181 or 182
Restriction: SOCCHFAM 215, SOCHLTH 231
To complete this course students must enrol in SOCWORK 200 A and B, or SOCWORK 200

SOCWORK 201 30 Points
SOCWORK 201A 15 Points
SOCWORK 201B 15 Points

Culturally Responsive Practice
An introduction to the study of the personal and professional impact of te Tiriti o Waitangi in social work practice and social workers' obligations to bicultural and, more broadly, culturally responsive practice with Māori, Pasifika and other diverse communities. Development of critical understandings of cultural responsiveness and opportunities for experiential learning in community settings.
Prerequisite: SOCWORK 100 and 101, or 30 points from EDPROFM 100, SOCWORK 112, 113, 180
Prerequisite: SOCWORK 100 and 101, or 45 points from EDPROFM 100, SOCWORK 112, 113, 180
Restriction: SOCWORK 212
To complete this course students must enrol in SOCWORK 201 A and B, or SOCWORK 201

SOCWORK 202 30 Points
SOCWORK 202A 15 Points
SOCWORK 202B 15 Points

Law, Policy and Social Action
A critical exploration of the legislative and policy contexts for social work practice in Aotearoa, including the contradictions inherent between te Tiriti o Waitangi and settler capitalism, and tino rangatiratanga and the colonial doctrine of sovereignty. Exploration of social work ethics, and the challenging processes involved in working for change.
Prerequisite: SOCWORK 101 or 112
Restriction: SOCWORK 211, 216
To complete this course students must enrol in SOCWORK 202 A and B, or SOCWORK 202

SOCWORK 221 30 Points
SOCWORK 221A 15 Points
SOCWORK 221B 15 Points

Social Work Theories and Skills
An exploration of theories, models and skills for bicultural social work practice with individuals and whānau in a range of settings and cultural contexts. Informed by the ANZASW Code of Ethics and the SWRB Core Competence Standards, content includes critical engagement with current literature and research guiding assessment and intervention, active skill building, and exploration of personal and professional values.
Prerequisite: SOCWORK 100-102, or 111, 112 and 115
Restriction: SOCWORK 213, 214
To complete this course students must enrol in SOCWORK 221 A and B, or SOCWORK 221

SOCWORK 280 15 Points

SOCWORK 283 15 Points
Special Study
Prerequisite: Programme Director approval and, SOCWORK 211 or 216

Stage III

SOCWORK 310 15 Points
Special Topic

SOCWORK 311 15 Points
Social Work Process and Practice
Students are required to integrate a defined range of approaches to practice comprising work with individuals, families and small groups. Knowledge, skills, values and ethics associated with direct practice will be extended. Students will apply the social work process of reflection and use of self in preparation for becoming a mindfully reflexive practitioner.
Prerequisite: SOCWORK 214 or 221 or 280

SOCWORK 312 15 Points
Applied Social Research
Social workers are reclaiming the research agenda in social work. Sound social work practice relies on evidence to inform theoretical frameworks, intervention decisions and practice evaluation. A practical introduction to the principles, theories and approaches that inform social research, with a particular emphasis on social work contexts.

SOCWORK 315 15 Points
Organisations and Management
Examines the variety of organisational frameworks from which human services are practised and the impact of these contexts on professional identity and practice in the workplace. Contemporary management approaches will be examined with reference to theory and roles and responsibilities assumed by human service managers in a complex and dynamic environment.
Prerequisite: SOCWORK 202 or 30 points from SOCWORK 211, 216, 283

SOCWORK 317 30 Points
Supervised Field Practice and Professional Development 1
A practicum course which focuses on developing a professional identity and a philosophy of practice that is shaped by integrating personal experience and professional knowledge, values and skills gained from the first two years of the Bachelor of Social Work programme. A significant part of this course includes a period of 12 weeks supervised agency-based practical experience for which the student
will be prepared through developing individual learning goals.  
*Prerequisite: EDUCSW199, and SOCWORK 200-202, or 212, 213 and 214*

### Stage IV

**SOCWORK 411**  
**Social Work Interventions for Best Practice**  
An in-depth examination of contemporary issues in social work practice, focusing on evidence-based practice and intervention skills that have direct application to complex practice situations.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 711, 712*

**SOCWORK 412**  
**Statutory Social Work**  
An advanced examination of social work practice in statutory settings and theoretical and research-informed intervention frameworks applicable across a range of fields of service. These include family violence, child welfare, youth justice, prisons, and working with vulnerable adults. Critical investigation of questions of context, relationships, power, ethics, human rights and social justice in authoritative settings will be undertaken.  
*Prerequisite: SOCCHFAM 332 or 314, SOCWORK 317*  
*Restriction: SOCWORK 701*

**SOCWORK 413**  
**The Social Work Discourse**  
The application of sociological analysis to consideration of the role and characteristics of social work practice. An exploration of the professional discourse is framed and how major social trends impact on that discourse in practice and the public domain.  
*Restriction: SOCWORK 713*

**SOCWORK 414**  
**Research and Evaluation in Social Practice**  
An exploration of relevant social work research literature and approaches to data analysis, and the undertaking of a research project. Develops confidence and skills in the application of practice research principles, problem definition, critical review of relevant literature and analysis of existing qualitative data to inform professional practice in social work and social services.  
*Prerequisite: SOCWORK 312*  
*Restriction: SOCWORK 714, 734, 780*

**SOCWORK 415**  
**Supervised Field Practice and Professional Development 2**  
An advanced practicum course which provides an exposition of the relationship between critical reflection, professional supervision and ethical practice to the knowledge, skills and practice experience of the social work profession. A period of 16 weeks supervised agency-based practical experience is included in this course that builds on participant knowledge and skills.  
*Prerequisite: SOCWORK 317, 411, SOCHLTH 313, 334, SOCHFAM 332*  
*Restriction: SOCWORK 715*

**SOCWORK 416**  
**Professional Practice Project**  
A student directed project intended to develop a field of proficiency applicable to current or future professional interests. The project will involve research investigation, critical reflection and analysis, evaluation, and the preparation of resources or development of new practice. On completion students will showcase their project in a verbal presentation.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 411, 712*

### Postgraduate 700 Level Courses

**SOCWORK 700**  
**Clinical Social Work**  
Examines the area of clinical social work practice within the Aotearoa New Zealand context. Content will include a range of theoretical approaches to clinical practice. Theories will include Cognitive Behavioural theory, Narrative theory and Solution-Focused methods. There will be a strong focus on the use of clinical theories when working with Tangata whenua or when working across cultures. Individual, whānau/family, and group work methods will be explored.  
*Prerequisite: Any 60 points passed at Stage III*  
*Restriction: SOCWORK 356, 726*

**SOCWORK 701**  
**Statutory Social Work**  
An advanced examination of social work practice in statutory settings and theoretical and research-informed intervention frameworks applicable across a range of fields of service. These include family violence, child welfare, youth justice, prisons, and working with vulnerable adults. Critical investigation of questions of context, relationships, power, ethics, human rights and social justice in authoritative settings will be undertaken.  
*Prerequisite: SOCCHFAM 332 or 314, SOCWORK 317*  
*Restriction: SOCWORK 401*

**SOCWORK 702**  
**Social Work with Older People**  
Critically explores advanced research, theories and practice of social work with older people from an ecological systems perspective. Content will examine opportunities and challenges presented as people live longer and develop the contributions of social work and social policy to positive aging strategies. Consideration will be given to the bicultural and diverse contexts of practice in Aotearoa New Zealand.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 717*

**SOCWORK 711**  
**Social Work Interventions for Best Practice**  
An in-depth examination of contemporary developments in social work practice, with an emphasis on the employment of evidence-informed interventions that have direct application to complex practice situations.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 411, 712*
SOCWORK 712  
Social Work in Statutory Settings  
An advanced examination of fields of practice in statutory social work. Will include areas such as family violence, child welfare, disability, health, mental health, and working with vulnerable adults. A critical investigation of context, relationships, power, ethics, interventions and best practice in these settings will be undertaken.  
Prerequisite: SOCWORK 721, 722, 723, 724 and 725  
Restriction: SOCWORK 411, 711

SOCWORK 713  
The Social Work Discourse  
A critical analysis of contemporary social work practice, utilising sociological perspectives and contemporary social theory. An in-depth exploration of how the professional discourse of social work is framed and how major social trends impact on that discourse in practice and the public domain.  
Restriction: SOCWORK 413

SOCWORK 715  
Supervised Field Practice and Professional Development  
An advanced practicum course which includes a critical interrogation of the relationships between critical reflection, professional supervision and ethics and their application to professional social work practice. This course includes a minimum of 65 days supervised agency-based practical experience, building on the knowledge and skills gained in the first practicum and subsequent coursework.  
Prerequisite: SOCWORK 317, 411, SOCLTH 313, 334, SOCCHFAM 332  
Restriction: SOCWORK 415

SOCWORK 718  
Applied Research in Social Services  
Examines the role of applied research within professional practice. An in-depth examination of research methods, traditions and techniques particularly used in analysing, evaluating and auditing social service programmes and practices. Aims to enhance and develop the knowledge and understanding of students with regard to the nature and application of a broad range of research methods, the role of theory, ethics and politics in research and in developing a research proposal.  
Prerequisite: SOCWORK 722, 723  
Corequisite: SOCWORK 721, 724

SOCWORK 719  
Special Study

SOCWORK 721A  
Theories and Skills in Social Work Practice  
An in-depth examination of theoretical perspectives, skills and approaches in social work practice related to interpersonal work with individuals, families and groups living through challenging situations. Content will include a critical engagement with contemporary literature and the examination of evidence-informed interventions and critically reflective strategies that help guide professional practice in collaborative and safe environments.  
To complete this course students must enrol in SOCWORK 721 A and B

SOCWORK 722  
Developing Social Work Professional Identity  
Examines contemporary and historical social work cultural identity, language and discourse as a global profession. Socialisation to the profession and its values is explored through a defined range of practice fields, premised on a human rights and social justice framework. Systemic models of practice are reviewed. Inter-professional practice, professional ethics, anti-oppressive and bicultural practice and registration are analysed in the New Zealand setting.

SOCWORK 723  
Social Work in the New Zealand Context  
Examines the history, policy, law, social patterns, trends and issues that contribute to the working environment for bicultural social work practice in Aotearoa New Zealand. Content will encourage an understanding of the organisational, statutory and community context of social services, professional practice and the reflective social worker operating in settings that can be examined, challenged and changed.

SOCWORK 724  
Applied Social Work Research Methods - Level 9  
Examines the role of research within professional social work practice, leading to the development of an independent research proposal. Integrates advanced knowledge and critical reflection in understanding the nature and application of a range of applied research methods and traditions and links to social work practice.

SOCWORK 725  
Supervised Field Placement I  
A first practicum course which focuses on developing a professional identity and a philosophy of practice that is shaped by integrating personal experience and professional knowledge, values and skills. A significant part of this course includes a period of a minimum of 50 days of supervised agency-based practical experience for which the student will be prepared through developing individual learning goals.  
Prerequisite: SOCWORK 722, 723  
Corequisite: SOCWORK 721, 724

SOCWORK 726  
Practice with Communities  
An advanced consideration of change-oriented social work practice with communities, with particular emphasis on diverse and indigenous communities and critical analysis of current and historical factors shaping community wellbeing. Building their own theories of change, students learn models and skills for integrating partnerships with communities into their practice, including engagement, capacity building, community development, organising, activism, research and policy advocacy.  
Prerequisite: 60 points passed at Stage III  
Restriction: SOCWORK 356, 426

SOCWORK 734A  
Professional Social Work Research in Practice - Level 9  
An independent, applied research-based project relating to an aspect of social work practice and undertaken in a practice context. Students will gather and critically analyse authentic data using appropriate research strategies and ethical practice principles, and produce a substantial research report.  
Prerequisite: SOCWORK 792-795  
Restriction: SOCWORK 414, 714  
To complete this course students must enrol in SOCWORK 734 A and B

SOCWORK 735  
Supervised Field Placement II  
An advanced practicum course which includes a critical
interrogation of the relationships between critical reflection, professional supervision and ethics and their application to professional social work practice. Includes a minimum of 70 days supervised agency-based practical experience, building on the knowledge and skills gained in the first practicum and concurrent coursework.

Prerequisite: SOCWORK 721-725

SOCWORK 757 30 Points
Policy Appraisal and Innovation in Human Services
Enables students to assess the construction and performance of policy in fields of social and human service practice. Explores contemporary policy, comparative policy analysis, research-led policy development, programme monitoring and evaluation. Examines practitioner responsibility for policy appraisal to enable practitioners to become conversant with policy innovation and change in professional settings.

SOCWORK 758 30 Points
Special Topic

SOCWORK 759 15 Points
Special Topic

SOCWORK 780 30 Points
SOCWORK 780A 15 Points
SOCWORK 780B 15 Points

Research Project - Level 9
An integrated approach to social work research where students apply specialised practice research principles and data analysis software to existing qualitative and quantitative datasets to engage in problem definition, critical review of relevant literature, research strategies and design, generating data analysis and reporting of research findings to inform professional practice – in social work and social services.

Prerequisite: SOCWORK 312
Restriction: SOCWORK 414, 714, 734
To complete this course students must enrol in SOCWORK 780A and B, or SOCWORK 780

SOCWORK 796A 60 Points
SOCWORK 796B 60 Points

Thesis - Level 9
To complete this course students must enrol in SOCWORK 796 A and B

SOCWORK 797A 45 Points
SOCWORK 797B 45 Points

Research Portfolio - Level 9
To complete this course students must enrol in SOCWORK 797 A and B

Social Work Child and Family Practice

Stage III

SOCCHFAM 332 15 Points
Working with Children and Whanau
An exploration of effective approaches, policies, practices and principles used to engage with children and their whanau within the context of Aotearoa New Zealand. This course will develop the skills and knowledge necessary for working with children and their whanau in community and statutory settings and include consideration of poverty, family violence and child protection.

Prerequisite: SOCCHFAM 215 or SOCWORK 200

SOCCHFAM 382 Special Topic

Stage IV

SOCCHFAM 431 15 Points
Child and Adolescent Mental Health Issues
A critical examination of specific diagnoses and disorders of childhood and adolescence that impact on their mental health and wellbeing, with emphasis on the current successful treatments for severely emotionally distressed children and young people within Aotearoa New Zealand.

Restriction: SOCCHFAM 731

SOCCHFAM 482 Special Topic

Postgraduate 700 Level Courses

SOCCHFAM 700 30 Points
Domestic Violence: Challenges and Responses
An in-depth examination of the prevalence, consequences, risk and protective factors of domestic violence in Aotearoa New Zealand. Draws on local and international research to explore conceptual models, theories, practice and current research concerns, aimed at prevention and intervention activities at the individual, family/whānau, organisational, community and societal levels.

SOCCHFAM 710 15 Points
Special Topic

SOCCHFAM 731 15 Points
Child and Adolescent Mental Health Issues
An in-depth examination of specific diagnoses and disorders of childhood and adolescence that impact on their mental health and wellbeing, with emphasis on contemporary literature and evidence informed practice with children and young people within Aotearoa New Zealand.

Restriction: SOCCHFAM 431

SOCCHFAM 734 30 Points
Issues in Child Welfare and Protection
Explores the critical issues in child welfare and protection encountered by education, health and human services workers. The historical, social and conceptual basis for an understanding of child abuse and neglect is considered. Explores research-led strategies to address personal, professional, and societal responses to the needs of vulnerable children.

SOCCHFAM 735 15 Points
Intimate Partner Violence
An in-depth examination of the prevalence, consequences, risk and protective factors pertaining to intimate partner violence (IPV) in Aotearoa New Zealand. Draws on local and international research to explore conceptual models, theories, practice and current research concerns, aimed at prevention and intervention activities at the individual, family/whanau, organisational, community and societal levels.

Restriction: SOCCHFAM 700

SOCCHFAM 736 Special Topic
Social Work Health Practice

Stage III

**SOCHLTH 313 15 Points**
**Mental Health in Social Practice**
An exploration of the dynamics of social practice with service users and their whānau/family with mental health issues. This course includes an examination of mental health policy and broad approaches to care and recovery. An overview knowledge of the major mental health illnesses and associated recovery strategies will be provided. The impact of mental health issues in Māori, Pasifika, people with disabilities, young people and refugee and migrant communities will be examined. 
Prerequisite: SOCHLTH 231

**SOCHLTH 334 15 Points**
**Effective Social Work in Health and Disability Services**
Explores the role of social work with people who have disabilities or experience disabling conditions through accident, illness and aging. Examines policy and strategies of support for recovery and rehabilitation. Develops skills to address the psychosocial impact of physical loss and change with individuals, carers and families. 
Prerequisite: SOCHLTH 231 or SOCWORK 200

Stage IV

**SOCHLTH 432 15 Points**
**Working with Grief and Loss**
An in-depth examination of theoretical and cultural perspectives of grief and loss that includes loss associated with trauma, terminal and chronic illness and suicide. Personal experience of loss will also be explored. Content will include developing social work skills and interventions that can assist adults and children experiencing grief, loss and change. 
Restriction: SOCHLTH 732

**SOCHLTH 481 15 Points**
Special Topic

Postgraduate 700 Level Courses

**SOCHLTH 700 30 Points**
**Health, Social Justice and Social Work**
A critical examination of health disparities, the social dimensions of health and wellbeing and the role of social work. Explores contemporary literature and research to evaluate development strategies in micro and macro practice in health social work. Changes in the delivery of health care and the impact on the social work role and professional identity will be explored with reference to contemporary challenges and opportunities. 
Restriction: SOCHLTH 753

**SOCHLTH 736 15 Points**
**Health, Social Justice and Practice**
A critical examination of the social dimensions of health and wellbeing and the role of social work. Reviews current literature on the social determinants of health and strategies in micro and macro practice in health social work. Explores challenges and opportunities in the delivery of health care and the impact on the social work role and professional identity. 
Prerequisite: SOCWORK 721-725 
Restriction: SOCHLTH 700

**SOCHLTH 756 30 Points**
**SOCHLTH 756A 15 Points**
**SOCHLTH 756B 15 Points**
**Special Topic**
To complete this course students must enrol in SOCHLTH 756 A and B, or SOCHLTH 756

**SOCHLTH 757 30 Points**
Special Study

Social Work Youth Practice

Stage III

**SOCYOUTH 300 15 Points**
**Therapeutic Youth Mentoring**
Theories and concepts of youth mentoring and positive youth development will be examined in relation to practice as youth mentors. Students will engage in weekly mentoring sessions on campus with local at-risk youth as part of the Campus Connections therapeutic mentoring programme. Lecture topics include adolescent development, effective mentoring relationships, communication and counselling, ethical youth practice, and risk assessment.  
Prerequisite: Any 60 points passed at Stage II or above and approval from the Course Director
Restriction: EDUC 747, PROFCOUN 700

Stage IV

**SOCYOUTH 483 15 Points**
Special Topic

Postgraduate 700 Level Courses

**SOCYOUTH 736 15 Points**
Special Topic

Sport Studies

Stage I

**SPORT 100G 15 Points**
**Sport in Society**
Critically examines the socio-cultural, political and economic significance of sport within Aotearoa New Zealand. Examines how sport is embedded in the lives of people, constitutes identities, and is connected to major spheres of social life and various social issues. Through focusing on select sporting issues it analyses how New Zealanders negotiate understandings of self, ethnicity, gender, sexualities, health, and lifestyle. 
Restriction: EDUC 104G

**SPORT 101 15 Points**
**Making a Difference in Sport**
Explores the skills needed to successfully deliver sport
and recreation activities. Examines differential community provision and develops skills to liaise with and engage diverse participants using psychological and sociological theories. Considers emerging trends in the field. Students will participate in community mapping to identify existing and potential sport and recreation opportunities in diverse communities.

Stage II

SPORT 202 15 Points
Sport and Recreation
Explores sport, recreation, and physical activity environments and cultures in Aotearoa New Zealand, including organised and alternative sport. Examines how children, youth and adults engage with sport and physical culture. Explores issues of access, policy and leadership in the field and investigates how different concepts influence understandings of, and engagement with, sport and physical culture.
Restriction: EDCURRIC 237

SPORT 204 15 Points
Coaching Sport
Examines and applies effective coaching practices, including coaching principles and the nature of practice. Focuses on developmentally and culturally appropriate coaching contexts throughout the lifespan (including childhood, adolescence and adulthood). Attention is given to coaching for diverse players and inclusive practices. Applies player-centred coaching principles.
Prerequisite: Students are required to consent to the disclosure of criminal convictions and safety checks as required by the Children's Act 2014
Restriction: EDCURRIC 239

Stage III

SPORT 302 15 Points
Sport Leadership
Develops the knowledge and skills for leading people and organisations in sporting contexts. Involves the study of leadership theories and styles from a range of different cultures. Includes critical examination of contemporary leadership strategies, issues, politics and policy. Develops interpersonal skills and leadership philosophies.
Prerequisite: SPORT 203, 202

SPORT 303 15 Points
Managing Sport and Recreation
Critically examines the societal value and management of sport and recreation events at local, regional, national and international levels. Investigates aspects such as feasibility, community needs, site selection, scheduling, risk and volunteer management, logistics, publicity, marketing and evaluation. Emphasis is given to practice in applied settings.
Prerequisite: 30 points from SPORT 202, 203, 204, SPORTHPE 201, 202, 203

SPORT 304 15 Points
Sport Psychology and Coaching
Critically examines recognised principles and practices of coaching and managing sport teams, including contemporary knowledge and theories. Individual and team psychological and social practices are examined and critiqued. Explores how coaches analyse the playing environment and the needs of players, including life-sport balance.
Prerequisite: 30 points from SPORT 202, 203, 204, SPORTHPE 201, 202, 203
Restriction: EDCURRIC 239

SPORT 305 15 Points
Sport Media and Marketing
Explores the roles and consequences of media representations of sport and physicality. Develops knowledge of the discourses that influence how sport, the body, and health are understood. Develops skills in marketing communications used to promote sport and physical wellbeing. Investigates issues emerging from the use of social media by sporting organisations, groups and individuals.
Restriction: COMMS 303, SPORT 203

Sport, Health and Physical Education

Stage I

SPORTHPE 101 15 Points
Sociocultural Foundations
Explores the sociological, historical, psychological and philosophical foundations of health, sport and movement cultures. Examines how health and human movement are culturally and socially conceptualised with regard to contemporary concerns and trends. Includes studies of different cultural (Pākehā, Māori, Pacific, Asian) concepts of, and engagement with, health, sport and physical culture.
Restriction: EDCURRIC 135, EDUC 142

SPORTHPE 102 15 Points
Learning and Pedagogy
An introduction to how humans learn and how such learning is applied within the fields of health, physical education, and sport. Examines the way humans develop and apply knowledge, skills, and dispositions and their implications for pedagogical practices in health, physical education, and sport contexts.

SPORTHPE 103 15 Points
Biophysical Foundations
Introduces students to the anatomical, physiological and biomechanical foundations of human movement. Examines the functions of the musculo-skeletal system, the circulatory system and the nervous system, during rest and activity. Studies the biomechanical principles required to improve mechanical efficiency in human movement.
Restriction: EDCURRIC 133

SPORTHPE 104 15 Points
Biophysical Foundations of Human Movement
Introduces students to the biophysical foundations of human movement. Examines the role of the neuro-muscular and musculo-skeletal systems in movement. Examines knowledge of internal and external mechanics and how this is applied to understand human movement.

Stage II

SPORTHPE 201 15 Points
Whakatinanahia
Examines Māori approaches to embodiment, forms of physicality and movement valuable for educational and health settings in Aotearoa New Zealand. Students will gain
knowledge through engaging in forms of Māori physical culture in a range of contexts.
Prerequisite: EDUCSW 101 or EDPROFM 100

SPORTHPE 202 15 Points
Skill Learning
Prerequisite: SPORTHPE 102
Restriction: EDCURRIC 200

SPORTHPE 203 15 Points
Physiology, Exercise, Fitness
Develops knowledge and understanding of exercise physiology. Examines physiological responses during and as a result of exercise. Examines the nature and purpose of deliberate exercise and fitness programmes. Explores the pedagogy of teaching exercise and fitness.
Prerequisite: SPORTHPE 103
Restriction: EDCURRIC 200, 334

Stage III

SPORTHPE 301 15 Points
School Health and Physical Education
Examines health education and physical education in primary and secondary school contexts. Develops knowledge of pedagogy, curriculum, and programming. Critically examines how contemporary issues in the fields of health, sport and physical education impact schools.

SPORTHPE 303 15 Points
Health, Fitness and Culture
Critically examines the nature of incidental and deliberate exercise, lifestyle choices, and concepts of health. Critiques the veracity of evidence linking physical activity and health. Critically explores contemporary health issues associated with sedentary lifestyles, and the impact of twenty-first century lifestyle changes including globalisation and digitalisation. Examines how education can contribute to the diverse exercise and health needs of society.
Prerequisite: SPORTHPE 203
Restriction: EDCURRIC 334

Tertiary Foundation Certificate Māori

Foundation Courses

TFCMAORI 10F 15 Points
Te Pū
Introduction to functional and instructional Māori including everyday vocabulary, basic sentence structures, pronouns, possessives and positional language. Aspects of tikanga will include meeting and greeting people with waiata, karakia and hīmene, and values such as whānau, whakawhanaungatanga and aroha. Referring to their own hapū/iwi students will introduce and locate themselves in relation to their whakapapa and carry out a short mihi.
Restriction: EDFOUND 10F

Youth Work

Stage I

YOUTHWRK 152 15 Points
YOUTHWRK 152G 15 Points
Understanding New Zealand Youth
Examines the concept of ‘youth’ and the historical, economic and political contexts in which young people live and are schooled in New Zealand society. The concept of youth is explored as a fundamental aspect of human development, identity and culture. The ways that we learn about what it is to be a young person in New Zealand today, including sport, body image, media, music, technology and social networking will be explored.

Stage II

YOUTHWRK 281 15 Points
Special Topic

Stage III

YOUTHWRK 381 15 Points
Special Topic

Tertiary Foundation Certificate Education

Foundation Courses

TFCEDFC 13F 15 Points
Child Development and Learning
Presents an overview of language and learning development, and examines strategies for helping children to develop as learners and readers.
Restriction: EDFOUND 13F

TFCEDFC 14F 15 Points
An Introduction to the New Zealand Education System
Introduces students to the education system of New Zealand. Illustrates the historical development of the New Zealand education system, and addresses issues such as changes to governance and curriculum and ethnic diversity in New Zealand schools.
Restriction: EDFOUND 14F

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course

An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Aerospace Engineering

Postgraduate 700 Level Courses

AEROSPCE 720 15 Points
Space Dynamics and Missions
Classical orbital mechanics and dynamics of spacecraft. Application of this knowledge in mission design for achieving pre-specified objectives and adequate spacecraft pointing. Examples of past missions.

AEROSPCE 730 15 Points
Aerospace Systems Design
Systems engineering for aerospace systems including current practice and standard methods. Conceptual and detailed design of interfaces and subsystems for aerospace projects, including aircraft and spacecraft. Advanced computer-aided tools are used to complete team projects. Includes an overview of indigenous perspectives of space and aerospace based on Mātauranga Māori as a case study.

AEROSPCE 740 15 Points
Aerospace Structures and Mechanisms
Overview of the main issues to be addressed during the structural design process of aircraft and spacecraft, including space mechanisms. Includes requirements definition, analysis processes, materials selection, manufacturing, and typical aircraft and spacecraft configurations.

AEROSPCE 791 45 Points
AEROSPCE 791A 15 Points
AEROSPCE 791B 30 Points
Research Project (Aerospace Engineering) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in AEROSPCE 791 A and B, or AEROSPCE 791

AEROSPCE 792A 45 Points
AEROSPCE 792B 45 Points
Thesis (Aerospace Engineering) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in AEROSPCE 792 A and B

AEROSPCE 793A 30 Points
AEROSPCE 793B 60 Points
Thesis (Aerospace Engineering) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in AEROSPCE 793 A and B

Bioengineering

Postgraduate 700 Level Courses

BIOENG 796A 60 Points
BIOENG 796B 60 Points
ME Thesis (Bioengineering) - Level 9
Students are required to submit a thesis on a topic assigned by the Director of Bioengineering.
To complete this course students must enrol in BIOENG 796 A and B

Biomedical Engineering

Stage II

BIOMENG 221 15 Points
Mechanics of Engineered and Biological Materials
Introduction to the laws of conservation of mass, linear momentum, angular momentum and energy and their application to engineering problems. Topics include control volume analysis, fluid statics, Bernoulli’s equation, heat conduction, diffusion, linear elasticity, stresses and strains specific to direct and torsional loading, material constitutive relationships (including anisotropy, nonlinearity, and viscoelasticity), axial and transverse loading, and pressure loading of engineering structures and biomaterials.
Prerequisite: ENGGEN 150, or ENGSCI 111, or a B+ or higher in MATHS 108 or 110, or a B+ or higher in MATHS 120 and 130

BIOMENG 241 15 Points
Instrumentation and Design
An introduction to engineering instrumentation related to the measurement of biological signals, including a group project on the design methodology of instrumentation systems. Topics include: fundamentals of measurement systems (electric circuits, basic electronics, frequency domain signal analysis and transient analysis, measurement systems), engineering design (teamwork, communication, safety in design and professional responsibility, software tools, material and manufacturing process selection).
Prerequisite: ELECTENG 101

BIOMENG 261 15 Points
Tissue and Biomolecular Engineering
Overview of molecular and tissue engineering principles emphasizing biochemical kinetics, gene regulation, cell behaviour and biomedical ethics. Laboratory practice and design project in cell culture and molecular biology techniques. Topics include enzymes and regulation of metabolic pathways, thermodynamic principles of biochemical reactions, systems biology and regulatory motifs in biochemical networks, cell culture techniques, research and medical ethics.
Prerequisite: BIOSCI 107, ENGSCI 211
Restriction: BIOMENG 361

BIOMENG 299 0 Points
Workshop Practice
Restriction: ENGGEN 299

Stage III

BIOMENG 321 15 Points
Continuum Modelling in Bioengineering
An introduction to continuum modelling approaches to bioengineering problems across a range of spatial scales. Topics include: tensor analysis, molecular and cellular mechanics of striated muscle; finite deformation elasticity
and constitutive relations for soft biological materials; conservation equations for momentum, mass and heat transfer in fluids; viscous flow; boundary layers; pure conduction and diffusion; advective transport of mass and heat.

Prerequisite: BIOMENG 221, ENGSCI 211
Restriction: ENGSCI 343

BIOMENG 341 15 Points
Bioinstrumentation and Design
Sensors and actuators (temperature, position, force, pressure, flow, bioelectric, optical sensors and instruments). Signals, systems and controls (s-domain signal notation, transfer functions, frequency response functions, block diagrams, the Laplace transform, first and second order systems, characterisation methods, fundamentals of control). Bioinstrumentation design methodology and group design project integrating professional engineering considerations.

Prerequisite: BIOMENG 241

Postgraduate 700 Level Courses

BIOMENG 771 15 Points
Musculoskeletal and Orthopaedic Biomechanics
Topics that biomechanical and orthopaedic engineers use in research and industry. Includes guest lectures from practitioners. Orthopaedic engineering topics cover implant design, material choice, implant stress shielding and bone loss, implant wear and bone remodelling. Musculoskeletal biomechanics topics cover motion capture, inverse kinematics and dynamics, muscle force evaluation, electromyography (EMG), inertial sensors and applications in sports medicine and rehabilitation.

Prerequisite: 15 points from ENGSCI 311, 313, 314

BIOMENG 791 15 Points
Advanced Biomedical Engineering Design
An engineering project requiring the application and integration of material taught in technical and professional engineering courses to the design of medical devices and software to meet client needs. The project also requires consideration of ethical issues, social impact, safety in design, and international regulations.

Prerequisite: BIOMENG 341

BIOMENG 792 15 Points
Special Topic

BIOMENG 793 15 Points
Special Topic

BIOMENG 794 15 Points
Special Topic

Chemical and Materials Engineering

Stage I

CHEMMAT 100G 15 Points
Materials of the Modern World
Every aspect of daily living is influenced in some way by the materials that surround us. Ceramics, metals, polymers, and composites; each has its own properties which have, over time, influenced the development of modern technological societies. Take a moment to imagine a world without metal, for example, to see how central the science of materials is to everyday life. This course will explore, at a non-specialist level, the basic principles governing the properties and behaviour of a wide variety of common materials and examine their applications and limitations.

CHEMMAT 121 15 Points
Materials Science
Introduction to materials science starting with the fundamentals of atomic structure and bonding and how this builds up a microstructure to create a solid. Metals, polymers, ceramics, electronic materials, composite and biomaterials will be covered and the properties, advantages and disadvantages of each discussed. Considerations such as corrosion, degradation and failure will be studied with a focus on improving design and creating new materials for our future world.

Stage II

CHEMMAT 201 15 Points
Process Engineering 1: Introduction
Materials and energy balances with and without chemical reaction, materials and energy balances in multiphase systems such as crystallisation, evaporation, drying, humidification, dehumidification, absorption, distillation, extraction and filtration. An introduction to the most important unit operations in the chemical industry, design concept and safety as applied to processing.

Prerequisite: CHEM 110 or 120 or ENGGEN 140
Restriction: CHEMMAT 211

CHEMMAT 202 15 Points
Process Engineering 2: Energy and Processing
Introduction to thermodynamics for process engineering. The first and second laws of thermodynamics. Application of thermodynamic concepts in closed systems, flow processes and cycles, refrigeration and liquefaction. Classical chemical thermodynamics including concepts of chemical potential, fugacity and activities; their applications to vapour-liquid equilibria and reacting systems. Multi-component physical equilibria. Multiple reaction equilibria and system-free energy minimisation. Practical examples and applications.

Prerequisite: BIOMENG 771
Restriction: CHEMMAT 212

CHEMMAT 203 15 Points
Process Engineering 3: Transfer Processes

Prerequisite: CHEMMAT 212
Restriction: CHEMMAT 213

CHEMMAT 204 15 Points
Materials

Prerequisite: CHEMMAT 121
Restriction: CHEMMAT 221
CHEMMAT 205 15 Points
Process Design 1
Mechanics of solids and analysis of stress and strain. Introduction to materials selection. Design of thin walled pressure vessels. Application to the design of vessels, tanks, reactors, piping and heat transfer equipment. Introduction to the chemical industry, unit operations, line diagrams and process equipment. Report writing and oral communication skills.
Prerequisite: ENNGEN 121 or equivalent
Restriction: CHEMMAT 231, 232

CHEMMAT 206 15 Points
Applied Chemistry
Fundamental chemistry required for chemical engineering and materials engineering. Topics may include phase equilibrium, reaction kinetics, thermodynamics, surface chemistry, electrochemistry and polymer chemistry. This course will have an emphasis on problem definition and solution.
Prerequisite: 15 points from ENNGEN 140, CHEM 110, 120
Restriction: CHEMMAT 242

CHEMMAT 299 0 Points
Workshop Practice
Restriction: ENNGEN 299

Stage III
CHEMMAT 301 15 Points
Transfer Processes 2
Principles of continuous and staged processes. Mass transfer in various media, systems and phases. Interrelating equipment design to mass transfer processes. Studies of selected separation processes such as absorption, solvent extraction, distillation, and membrane processes.
Prerequisite: CHEMMAT 203 or 213, and CHEMMAT 242 or 206
Restriction: CHEMMAT 312

CHEMMAT 302 15 Points
Advanced Process Engineering
An in-depth analysis of selected topics that influence the design, operation, and performance of process plants. Topics include: particulate technology, particle mechanics and particle motions, non-Newtonian fluid flow, two-phase solid-liquid and gas-liquid flow, computational fluid dynamics, flow through porous media and packed beds, filtration, centrifugation, fluidisation, variable-analysis of variations in materials and product processing, membrane separation methods and optimisation techniques.
Prerequisite: CHEMMAT 203 or 213
Restriction: CHEMMAT 313, 316, 411

CHEMMAT 303 15 Points
Chemical Reactor Engineering
Prerequisite: CHEMMAT 202 and 206, or CHEMMAT 212 and 242
Restriction: CHEMMAT 315

CHEMMAT 304 15 Points
The Future of Energy
Discussion of topical and significant developments in the field of energy transformation, usage and storage in the context of climate change, both globally and in New Zealand. Topics include: energy efficiency, energy storage and applications, sustainability, non-renewable and renewable power generation.
Prerequisite: CHEMMAT 201 or 211
Restriction: CHEMMAT 317

CHEMMAT 305 15 Points
Materials Processing and Performance
Materials processing and performance are critical components of a materials science and engineering degree. This course examines the processing and performance of metals, polymers and ceramics. Topics include metal-making, casting, forming, and forms of degradation, such as corrosion. Emphasis is placed on materials applications for process engineering.
Prerequisite: CHEMMAT 204 or 221
Restriction: CHEMMAT 321, 322, 421

CHEMMAT 306 15 Points
Process Design 2
Prerequisite: CHEMMAT 201 or 211, and CHEMMAT 205 or 232
Restriction: CHEMMAT 331, 756

Postgraduate 700 Level Courses
CHEMMAT 712 15 Points
Directed Study in Chemical Engineering

CHEMMAT 713 15 Points
Advanced Chemical Engineering - Level 9
An independent study in advanced topics, current issues, new trends and developing technologies relevant to the field of chemical engineering, for example energy and environment, alternative fuels, process modeling and control. Topics are informed and supervised by leading researchers in the field and students develop critical assessment, report writing and oral communication skills through independent projects and seminars.

CHEMMAT 717 15 Points
Electrochemical Engineering
The thermodynamics of aluminium electrolysis; heat and mass balance; components of the cell voltage; anode effect and its mitigation, resistance and voltage tracking; cell magnets and magnetic modelling.
Corequisite: CHEMMAT 716, 726, 727

CHEMMAT 718 15 Points
Aluminium Reduction Process Operations
Monitoring overall aluminium cell performance – what are the appropriate parameters to measure, how are they measured and how are they used for process control? Optimising cell performance, scheduling of operations, dealing with process excursions, metal treatment and quality. Novel cell designs.
Corequisite: CHEMMAT 717, 726, 727

CHEMMAT 720 15 Points
Materials Design and Processing
Materials processing of metals, ceramics and polymers. Phase transformation. Microstructural development during
materials processing. Case studies of materials selection in product design.

CHEMMAT 721  
Advanced Materials - Level 9  
15 Points
An advanced course with emphasis on new developments in materials science and engineering and their impact on technology and society, for example surface engineering, nanomaterials and composites, alloy development, high performance ceramics, powder processing, biomaterials. Students develop critical assessment, report writing and oral communication skills through independent projects and seminars.

CHEMMAT 722  
Directed Study in Materials  
15 Points
Directed study in materials science and engineering.

CHEMMAT 723  
Industrial Materials Engineering  
15 Points
Exploration of materials in an industrial context, including industrial metals and alloys, high temperature corrosion, surface engineering, welding, powder metallurgy and additive manufacturing.

CHEMMAT 724  
Advanced Materials Characterisation - Level 9  
15 Points
The underlying theory essential to understanding modern methods of advanced materials analysis including; electron microscopy, surface analysis, atomic force microscopy and nanoindentation. Teaching is highly research informed with examples drawn from the Research Centre for Surface and Materials Science (RCSMS) and involves principles, practical experience and independent project work related to the application of these techniques.

CHEMMAT 725  
Advanced Functional Materials  
15 Points

CHEMMAT 726  
The Light Metals Industry  
15 Points
An overview of the light metals, Ti, Al and Mg, their chemistry, metallurgy and processing, it also deals with trends in the global light metals production and uses and recent advances in extending applications for these materials; economics of feedstock and materials selection and availability; power supply and management; efficient use of equipment and resources; and environmental issues.

CHEMMAT 727  
Materials Performance and Selection for Light Metals Processing  
15 Points
Performance requirements of anodes, cathodes, cell refractories and other aluminium cell construction materials are assessed. Techniques for monitoring materials performance in operation and post operation (autopsies) are discussed. This course also covers materials specifications, how well they predict performance in the aluminium cell as well as the relationship between the fabrication of the cell components and their performance. New materials.

CHEMMAT 732  
Advanced Design Project - Level 9  
30 Points
Advanced Design Project utilising the application of the specialised knowledge required for the design and manufacture of a sophisticated product based on multiple plastics materials. Detailed considerations will include material and process selection, mould design, costing and economics, and environmental impact.

CHEMMAT 750A  
Design Project  
15 Points
Specification, planning and executing a specific process design project. The detailed considerations in the project include environmental impact, safety and occupational health issues, material selection, process energy demand and efficiency, costing and economics, process start-up and operation.

CHEMMAT 751A  
Research Project - Level 9  
15 Points
Students are required to submit a report on independent investigation carried out on a topic assigned by the Head of Department of Chemical and Materials Engineering. The work shall be supervised by a member of staff.

CHEMMAT 752  
Process Dynamics and Control - Level 9  
15 Points
Application of simulation for understanding industry 4.0 focusing on digital twin and process control. Includes rigorous treatment of modelling and control fundamentals, advanced classical control and multiple loop control. Individual research is undertaken to apply advanced concepts and methods in modern chemical processes.

CHEMMAT 753  
Biological Materials and Biomaterials - Level 9  
15 Points
Fundamentals of biological materials from small-scale building blocks (genes, proteins) to large-scale biological entities (organs, joints). Biomaterial design, material selection and functionalisation and the interaction between biomaterials and the biological tissue. Critique and review recent research on selected topics. Individual and team research projects apply advanced concepts and methods to design and implement a scaffold or implant prototype.
sensing, catalysis and biomedical areas. Advanced manufacturing technology – additive manufacturing, powder metallurgy, and sustainable/green manufacturing. Selected advanced concepts in materials performance enhancement are taught through research based individual projects.

Prerequisite: CHEMMAT 121, and 305 or 322 or equivalent

Restriction: CHEMMAT 423

CHEMMAT 755 15 Points
Materials for Energy and Environmental Applications - Level 9
Electronic properties of materials. Applications in energy storage. Smart materials and devices – magnetic and dielectric materials, sensors and actuators, recording devices. Materials for environmental applications – photocatalysis and environmental cleaning, membrane materials, and eco-materials. Core concepts related to energy and environmental applications are extended by individual research projects on selected topics.

Prerequisite: CHEMMAT 201 or 211, and 15 points from ENNGEN 150, ENGSCI 111, MATHS 108, 110
Restriction: CHEMMAT 463, 772

CHEMMAT 756 15 Points
Food Process Engineering
Application of engineering principles to food processing. Topics include: heating and thermal processing, cooling, freezing and thawing, evaporation, dehydration, the use of membranes and packaging. Innovative food processes: high pressure, pulsed electric, UV, ultrasounds and ohmic heating/cooking, and fundamental areas of engineering relevant for food processing such as heat and mass transfer. Process impact on food safety, quality and preservation.

Prerequisite: CHEMMAT 201 or 211, and 15 points from ENNGEN 150, ENGSCI 111, MATHS 108, 110
Restriction: CHEMMAT 463, 772

CHEMMAT 757 15 Points
Engineering Biotechnology
Principles of biochemical engineering. Exploitation of bioreaction and bioprocess systems. Enzyme and microbial reaction kinetics, bioreactor design and downstream processing. Examples of biochemical process and food industry applications.

Prerequisite: ENGSCI 111 or MATHS 108 or equivalent
Restriction: CHEMMAT 361, 464, FOODSCI 704

CHEMMAT 758 15 Points
Resource Recovery Technologies - Level 9
Selection and application of resource recovery processes. Examination of a variety of resource recovery technologies. Critical evaluations of the latest research and development in innovative resource recovery techniques. Social and economic aspects as catalysts or obstacles to resource recovery. Includes an independent research project.

CHEMMAT 759 15 Points
Industry 4.0 for Chemical Engineering
In-depth coverage of digitalisation and Industry 4.0 in the context of modern biological, chemical, food and materials processing industries. Topics include model building, digital models and digital twins using process simulators, scripting, open source software and data-driven analysis using machine learning concepts, and the application of these to modelling a virtual plant.

Prerequisite: ENGSCI 311

CHEMMAT 760 15 Points
Advanced Microbial Technology in Bioprocess Engineering

CHEMMAT 761 15 Points
Special Topic

CHEMMAT 762 15 Points
Special Topic

CHEMMAT 763 15 Points
Waste Reduction and Recycling Technologies
Principles, concepts, and technologies in waste minimisation and recycling. Topics include implementation of waste management and recycling technologies, economic analysis of waste recycling and minimisation and the three pillars of sustainability.

CHEMMAT 771 15 Points
Advanced Food Process Technology - Level 9
Advanced knowledge essential for the application of food process technology. Topics include advanced food processing technology in specific food sectors strategic to New Zealand including dairy processing, meat processing, fruit and vegetable processing, seafood processing, wine processing. Teaching is highly research informed and involves principles, practice and independent project work related to the application of these skills.

CHEMMAT 772 15 Points
Advanced Food Process Engineering - Level 9
Critical evaluation of the latest research and development in innovative thermal and non-thermal food processing technology. Open-ended application of these latest developments to different specific end-point food processing requirements. Teaching is highly research informed with principles, application examples and related individual research project work.

Restriction: CHEMMAT 756

CHEMMAT 773 15 Points
Food Process Systems Engineering - Level 9
Advanced understanding of the theory and application of process systems engineering for the food industry. Includes advanced process analytical technology, real-time quality control, multivariate data analysis, advanced statistical process control, advanced control methods and strategies, and real-time optimisation. Teaching is highly research informed with examples from the Industrial Information and Control Centre (I2C2) and includes an independent laboratory based project.

CHEMMAT 774A 15 Points
CHEMMAT 774B 45 Points
Dissertation in Food Process Engineering - Level 9
A structured supervised research project addressing a topic relevant to the development and commercialisation of food process engineering technologies.

Restriction: CHEMMAT 775, 776, 777

To complete this course students must enrol in CHEMMAT 774 A and B
CHEMMAT 775A  
30 Points  
Dissertation in Food Process Engineering - Level 9  
A structured supervised research project addressing a topic relevant to the development and commercialisation of food process engineering technologies.  
Restriction: CHEMMAT 774, 776, 777  
To complete this course students must enrol in CHEMMAT 775 A and B  
CHEMMAT 776A  
30 Points  
Research Portfolio - Level 9  
A structured supervised research portfolio addressing a topic relevant to the development and commercialisation of process engineering technologies.  
Restriction: CHEMMAT 774, 775, 777  
To complete this course students must enrol in CHEMMAT 776 A and B  
CHEMMAT 777A  
45 Points  
Research Portfolio - Level 9  
A structured supervised research portfolio addressing a topic relevant to the development and commercialisation of process engineering technologies.  
Restriction: CHEMMAT 774, 775, 776  
To complete this course students must enrol in CHEMMAT 777 A and B  
CHEMMAT 778  
15 Points  
Dairy Process Engineering - Level 9  
Industry-focused advanced topics in post-farm-gate processing of milk including liquid milk, powdered dairy and fermented products. Waste and high value product recovery from milk processing. Trends in global dairy industry including new development in food physics and chemistry, new products and processes, design and production of novel foods. Includes individual project-based work, laboratory work and completion of a group-based project. Includes independent research to create unique innovative solutions to an open-ended problem.  
CHEMMAT 779A  
15 Points  
Food Engineering Research Project - Level 9  
A structured supervised research project addressing a topic relevant to the development and commercialisation of food process engineering technologies.  
Restriction: CHEMMAT 774, 775, 776, 777  
To complete this course students must enrol in CHEMMAT 779 A and B  
CHEMMAT 780  
30 Points  
Research Project - Level 9  
To complete this course students must enrol in CHEMMAT 780 A and B, or CHEMMAT 780  
CHEMMAT 787  
15 Points  
Project X - Level 9  
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
CHEMMAT 788A  
15 Points  
CHEMMAT 788B  
15 Points  
Project Y - Level 9  
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CHEMMAT 788 A and B  
CHEMMAT 789  
30 Points  
Project Z - Level 9  
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
CHEMMAT 795  
45 Points  
CHEMMAT 795A  
15 Points  
CHEMMAT 795B  
30 Points  
Research Project - Level 9  
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CHEMMAT 795 A and B, or CHEMMAT 795  
CHEMMAT 796A  
60 Points  
CHEMMAT 796B  
60 Points  
ME Thesis (Chemical and Materials) - Level 9  
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CHEMMAT 796 A and B  
Civil Engineering  
Stage II  
CIVIL 200  
15 Points  
Introduction to Geotechnical Engineering  
The basic concepts and principles governing the mechanical behaviour of soil. Engineering geology, site investigation and soil classification. The principle of effective stress, permeability and seepage, and soil shear strength.  
Restriction: CIVIL 220, 221  
CIVIL 201  
10 Points  
Land Information Systems  
Aspects of elementary engineering surveying as used for gathering site information for the design and setting out of works. Land information systems, modern methods of gathering, processing and presenting information for engineering purposes.  
CIVIL 202  
15 Points  
Fluid Mechanics and Pipe Flow  
Approaches to fluids: classification, dimensional analysis and similarity, integral and differential flow analysis; fluid properties; hydrostatics: pressure distribution in fluids, manometry, forces on plane and curved surfaces; conservation of mass; conservation of energy: Bernoulli equation, energy losses and gains, laminar and turbulent pipe friction losses, local losses, pipes in series and parallel, pipe networks, pumps, cavitation; conservation of momentum: Newton’s Second Law, dynamic forces, fluid transients, Joukowsky equation.  
Restriction: CIVIL 230, 331
CIVIL 203  
Transport Design and Geomatics  
15 Points  
Introduction to Transportation Engineering (mobility for people and goods, sea, land and air transportation systems). Design and construction of longitudinal infrastructure (plans, longitudinal sections and cross sections, earthworks, quantities, mass haul). Transport geometric design (horizontal, vertical and cross sectional design). Geomatic surveying systems (levelling, theodolites, GPS, drones, digital topographical survey systems and remote sensing).  
Restriction: CIVIL 201, 360

CIVIL 210  
Introduction to Structures  
15 Points  
Structural forms and systems. Analysis of determinant systems, elasticity. Engineering beam theory, elasticity, failure theories. Introduction to structural design.  
Prerequisite: ENNGEN 121 or 150  
Restriction: ENVENG 210

CIVIL 211  
Structures and Design 1  
10 Points  
Introduction to structural design – philosophy, loads, codes; design of simple structural elements in various materials.

CIVIL 220  
Introductory Engineering Geology  
10 Points  

CIVIL 221  
Geomechanics 1  
10 Points  
The basic concepts and principles governing the mechanical behaviour of soil, including phase relationships, permeability and seepage, the principle of effective stress, soil strength, compressibility and basic stability analysis.

CIVIL 230  
Fluid Mechanics 1  
10 Points  

CIVIL 250  
Civil Engineering Materials and Design  
10 Points  

CIVIL 270  
Directed Study  
5 Points

CIVIL 271  
Directed Study  
10 Points

CIVIL 299  
Workshop Practice  
0 Points  
Restriction: ENNGEN 299

Stage III

CIVIL 300  
Geotechnical Engineering  
15 Points  
Compaction, settlement and rate of consolidation. Stability analysis in geotechnical engineering, including slope stability, earth pressures on retaining structures and bearing capacity of shallow foundations. Environmental and sustainability considerations.  
Prerequisite: CIVIL 200  
Restriction: CIVIL 322

CIVIL 301  
Foundation Engineering  
15 Points  
Prerequisite: CIVIL 300, and STRCTENG 300 or 301 or 304  
Restriction: CIVIL 721

CIVIL 302  
Hydrology and Open Channel Flow  
15 Points  
Prerequisite: CIVIL 202  
Restriction: CIVIL 331, ENVENG 333

CIVIL 303  
Transport Operations and Pavements  
15 Points  
Traffic engineering, transportation planning and road pavement design. Topics include the main transport planning and traffic design techniques, criteria and fundamentals used in transportation engineering practice, traffic studies, public transport and active modes and transport modelling (micro and macro simulation). Additionally, pavement design, surfacings, traffic loading, mechanistic approaches and rehabilitation of road pavements, and environmental and sustainability considerations, are included.  
Prerequisite: CIVIL 203  
Restriction: CIVIL 360, 361

CIVIL 304  
Climate Adaptation Design  
15 Points  
Fundamental understanding of the impact of climate change on the built environment and strategies, and design for adaptation. Topic areas include assessing climate change impacts, vulnerability studies, and climate change adaptation strategies, adaptation design and asset management for major infrastructure and infrastructure networks. Awareness and consideration of holistic adaptation strategies including indigenous knowledge perspectives and nature-based solutions.  
Prerequisite: CIVIL 200, 203, ENVENG 200  
Corequisite: CIVIL 303

CIVIL 305  
Construction Informatics  
15 Points  
The application of digital and automation technologies
(such as building information modelling, virtual reality/augmented reality, internet of things, laser scanning, drones, artificial intelligence, big data, robotics) in civil engineering and management.

CIVIL 312  
Structures and Design 2  
15 Points  
Prerequisite: CIVIL 211

CIVIL 313  
Structures and Design 3  
15 Points  
Prerequisite: CIVIL 211

CIVIL 314  
Structural Dynamics  
10 Points  
Dynamics of single and multi-degree-of-freedom systems. Ground motion, response spectra, time-history and spectral modal analysis; introduction to seismic design.

CIVIL 322  
Geomechanics 2  
10 Points  
Stability analysis in geotechnical engineering; slope stability, soil pressures on retaining structures, bearing capacity. Consolidation and settlement.  
Prerequisite: CIVIL 221

CIVIL 324  
Geomechanics 3  
10 Points  
Prerequisite: CIVIL 322 or equivalent  
Restriction: CIVIL 420, 728

CIVIL 331  
Hydraulic Engineering  
10 Points  
Prerequisite: CIVIL 330 or equivalent

CIVIL 332  
Fluid Mechanics 2  
10 Points  

CIVIL 360  
Transportation Engineering 1  
10 Points  
Highway alignment geometrics (horizontal, vertical and cross sectional design). Basis of the main pavement design techniques, pavement materials, stabilisation, compaction and bituminous surfacings.

CIVIL 361  
Transportation Engineering 2  
10 Points  

CIVIL 370  
Directed Study  
5 Points

CIVIL 371  
Directed Study  
10 Points

Diploma Courses

CIVIL 660  
Traffic Engineering and Planning  
15 Points  
A range of selected topics in traffic engineering and transportation planning which will provide a basis for extension into further studies.  
Restriction: CIVIL 361, 460

CIVIL 661  
Highway and Pavement Engineering  
15 Points  
A range of selected topics in highway and pavement engineering which will provide a basis for extension into further studies.  
Restriction: CIVIL 360, 461

Postgraduate 700 Level Courses

CIVIL 700  
Geotechnical Analysis  
15 Points  
Shear strength of soil – triaxial testing, measurement of pore water pressures, and interpretation of test data for use in analysis. Introduction to numerical modelling in geotechnical engineering. The use of traditional methods versus numerical modelling in design.  
Prerequisite: CIVIL 300  
Restriction: CIVIL 324

CIVIL 701  
Studies in Civil Engineering 1  
15 Points  
Advanced course on topics to be determined each year by the Head of Department of Civil and Environmental Engineering.

CIVIL 702  
Design of Earthquake Resistant Foundations - Level 9  
15 Points  
Observed behaviour of foundations during earthquakes. Site investigation and laboratory testing to estimate values for required soil parameters. Earthquake induced foundation actions. Shallow and deep foundations subject to earthquake excitation. Soil-foundation-structure-interaction. Force-based and displacement-based design. Earthquake induced earth pressures on stiff retaining structures. An independent foundation design project is required.  
Prerequisite: CIVIL 301, STRCTENG 300 or 304

CIVIL 703  
Project Management in Built Environments  
15 Points  
Application of different project management domains and principles in civil engineering projects, including the theory and practice of planning and control of civil engineering projects from inception to completion.  
Restriction: ENGG 670, 742

CIVIL 704  
Advanced Topics in Project Management - Level 9  
15 Points  
Advanced topics in project management are analysed such as: advanced scheduling techniques, integrated project delivery, lean construction, building-information
modelling, negotiation techniques, dispute resolution and innovative project delivery models. Independent research is undertaken in an advanced project in project management.

CIVIL 705A
CIVIL 705B
Research Project - Level 9
Restriction: CIVIL 408
To complete this course students must enrol in CIVIL 705 A and B

CIVIL 706
Special Topic: Water-sensitive Cities

CIVIL 707
Construction Supply Chain Management - Level 9
Advanced topics in construction supply chain management such as construction logistics, buffer management, relational contracts and behavioural dimensions, analytical models for construction, information technologies and sustainable supply chains. Independent research is undertaken by developing individual research projects in which students study logistics and supply chain problems by analysing real production scenarios or the current literature available in this topic.

CIVIL 708
Work Based Learning for Civil Engineers - Level 9
Develops professional and interpersonal skills within the context of civil engineering competencies. Enhances ability to develop work procedures in the civil engineering industry. Studies the principles of professional ethics and the roles and liabilities of civil engineering professionals.
Restriction: ENGGEN 738
Note: Students must be in part-time professional employment or have completed at least three years' professional employment within engineering or construction.

CIVIL 709
Construction Cost Management
Advanced knowledge of the key concepts, theories and principles used in quantity surveying and construction cost management. Construction applications in procurement, economics, and cost management. Best practices of cost management in built environments.
Restriction: ENGGEN 739

CIVIL 710
Advanced Structural Dynamics - Level 9
Advanced topics in structural dynamics, such as wave guide representation, holistic consideration of structural behaviour including soil, main and secondary structures interaction, nonlinearities of soil-foundation-structure systems including uplift, pile-soil separation, plastic hinge or pounding. The core skills are taught and accompanied by an individual project in which independent research is undertaken to solve a challenging structural dynamics problem.
Prerequisite: Departmental approval

CIVIL 711
Structures Seminar
Selected topics from recent developments in structural analysis and design, including an introduction to the advanced behaviour and design of thin-walled steel sections and composite components made from cold-formed sheet and light-weight fillers.

CIVIL 713
Structures and Design 4
Continuation of the design and detailing of structural assemblages in structural steel, reinforced concrete, reinforced masonry and timber, including connections in steelwork, composite steel/concrete beams and reinforced masonry structures. Emphasis on good load paths, application of seismic design, techniques for the checking of existing structures and lessons learnt from failures. Introduction to the NZ Standard for light timber frame construction and concepts for light steel frame construction.
Prerequisite: either CIVIL 312 and 313, or STRCTENG 301 and 302 and 303
Restriction: CIVIL 411

CIVIL 714
Multistorey Building Design
Techniques for the design of structures to resist seismic loading. Derivation of design actions, alternative structural systems for resisting these loads, design of structural components subject to cyclic inelastic action, detailing of members and joints to enhance earthquake resistance. Techniques of seismic isolation. Design project.
Prerequisite: either CIVIL 313, or STRCTENG 302 and 303

CIVIL 715
Advanced Structural Concrete - Level 9
Design and detailing of prestressed and precast concrete components. Advanced mechanics of reinforced concrete members subject to axial, flexure, shear, and torsion actions. Design of state-of-art low-damage concrete structural systems. Includes an independent concrete design project and an independent research project on past failures of concrete structures.
Prerequisite: CIVIL 313 or STRCTENG 303

CIVIL 716
Construction Risk Management - Level 9
A broad-based understanding of the critical elements of risk and risk management within the civil engineering industry. Risk analysis tools and techniques for the construction engineer, and risk response. Risk monitoring techniques, risk control and transference of risk methods. An independent project is undertaken in which students apply risk principles to civil engineering projects.
Restriction: ENGGEN 737

CIVIL 717
Advanced Structural Timber - Level 9
Advanced topics in timber design such as: shearwalls, diaphragms, special glulam beams, bolted connections, new fasteners, engineered wood products, laminated bridges, inspection of timber structures. Emphasis will be placed on latest international developments. The core skills are taught and accompanied by an individual project in which independent research is undertaken to solve a challenging timber connection problem.
Prerequisite: CIVIL 451 or 750 or equivalent

CIVIL 718
Light Gauge Steel
Use of thin steel load bearing structural components in walls, floors and roofs. Behaviour of members and connections under the full range of structural actions. Theory and design application including the Direct Strength Method of design. Use of light gauge steel acting compositely with other materials such as concrete and structural foams.
Prerequisite: CIVIL 313 or STRCTENG 302
CIVIL 719  
Matrix Structural Analysis  
Direct stiffness method applied to linear, nonlinear and stability analyses. Introduction to variational principles and finite element method. Projects in practical modelling of major structures such as bridges and multi-storey buildings. Use of commercial software.  
Restriction: CIVIL 416

CIVIL 720  
Earthquake Engineering  
Earthquakes and the effects on civil infrastructure. The passage of seismic waves from inception, propagation, arrival at site bedrock, site specific response, infrastructure response. Including engineering seismology, seismotectonic setting of NZ, probabilistic seismic hazard analyses, NZS 1170.5, infrastructure dynamics, base isolation, effects of site geology, geophysical and geotechnical site characterisation, concepts of soil-structure interaction, the Canterbury series of earthquakes.  
Prerequisite: either CIVIL 313 and ENGSCI 311, or ENGSCI 311 and STRCTENG 302 and 303

CIVIL 721  
Foundation Engineering  
Prerequisite: CIVIL 312 or equivalent  
Restriction: CIVIL 323, 421

CIVIL 722  
Slope Engineering  
Slope failure mechanisms, geological controls and classification. Shear strength of rock and soil materials. Laboratory testing of earth materials for slope stability. Limit equilibrium techniques, including analytical, numerical and graphical methods. Effects of water and earthquake on slope stability. Slope monitoring, stabilisation and remediation. Landslide risk management.  
Prerequisite: CIVIL 300 or 322  
Restriction: CIVIL 422, ENVENG 324

CIVIL 723  
Rock Mechanics and Excavation Engineering - Level 9  
Engineering rock behaviour including strength, stiffness and role of discontinuities. Stress-strain analysis, and stability assessment of rock structures and support using advanced models of rock. Theoretical, practical and environmental aspects of ground excavation techniques as applied to tunnelling. An independent research project will develop skills and knowledge to solve a challenging engineering rock behaviour problem.  
Prerequisite: CIVIL 322 or equivalent

CIVIL 724  
Soil Behaviour - Level 9  
Advanced topics in soil behaviour including stress-strain-strength response of remoulded and natural geomaterials when subject to monotonic and cyclic loading; critical state soil mechanics; advanced soil testing; and partially saturated soils. Includes an independent research project related to an applied topic in soil behaviour.  
Prerequisite: CIVIL 324 or equivalent

CIVIL 725  
Geotechnical Earthquake Engineering - Level 9  
Advanced topics in earthquake effects on geotechnical structures, including: dynamic properties of soils; earthquake-induced ground response; seismic stability of slopes, embankments; earth-retaining structures; soil liquefaction; ground deformations; remediation and mitigation techniques. Design applications and advanced methods of analysis with case history analyses of major earthquakes. An independent research project will be used to solve a challenging geotechnical earthquake engineering problem.  
Prerequisite: CIVIL 300

CIVIL 726  
Engineering Geology  
Introduction to fundamentals in soil and rock mechanics and their application to engineering projects. Discussion of natural hazards and their implications on infrastructure design. Practical exercises in field mapping, core logging, aerial photograph interpretation, and basic laboratory tests.  
Restriction: CIVIL 404, EARTHSCI 372, GEOLOGY 372

CIVIL 727  
Dynamics of Structures in Earthquakes  
Dynamic behaviour of structures and the means of predicting their response to the effects of earthquakes. Fundamental principles of earthquake engineering, including the effects of structural properties, and the roles of ductility, damping and isolation in mitigating earthquake damage. An individual research project on the impact of earthquakes on civil infrastructure is undertaken.  
Prerequisite: Departmental approval  
Restriction: CIVIL 314 or equivalent

CIVIL 728  
Geotechnical Engineering in Professional Practice  
Prerequisite: Departmental approval  
Restriction: CIVIL 324

CIVIL 729  
Humanitarian Engineering  
Evaluate frameworks used in the humanitarian engineering field to assist with human crises, including shelter, standards, law, human rights, resilience, appropriate engineering. Rapid assessments, application of minimum international standards for engineering, engineered shelter solutions, water, sanitation and hygiene and the engineering management of humanitarian crises.

CIVIL 730  
Fluid Mechanics  
Examines topics from the areas of fluid dynamics, water resources engineering and statistics, and numerical methods.

CIVIL 731  
Water Resources Modelling  
Risk and uncertainty in water resources systems; evaluation of alternatives in water resources; hydrologic modelling; hydraulic modelling; river basin modelling; water resources economics.
CIVIL 732 15 Points
Coastal Engineering Design
Deriving design conditions, wave pressures and forces, design of structures, beaches and control structures, introduction to port, introduction to coastal modelling.
Prerequisite: CIVIL 733

CIVIL 733 15 Points
Coastal Engineering Dynamics
Waves, wave theories, surf zone processes, sediment transport, dynamics of coastal systems.
Restriction: CIVIL 431

CIVIL 734 15 Points
River Engineering
Scales; flows; fluvial processes; mixing; ecohydraulics.

CIVIL 735 15 Points
Transport Modelling and Design
The planning, modelling, design and operation of current and future transport systems. Topics include transport models and their applications, Intelligent Transport Systems and emerging technologies, transport planning process and travel demand modelling. Transport models are developed to plan, design and manage transport networks based on fundamental modelling concepts, New Zealand specifications and international best practices.
Prerequisite: CIVIL 303
Restriction: CIVIL 758

CIVIL 736 15 Points
Transport Safety and Mobility
Develop a sound understanding of safety and mobility of transport systems. Transport safety topics include safe systems, crash reduction studies, road safety audits and at-grade intersection geometric design, economic appraisal methods and transport infrastructure funding. Planning for transport mobility and sustainable transport systems, public transport systems, active modes and travel behaviour.
Prerequisite: CIVIL 203
Restriction: CIVIL 759

CIVIL 737 15 Points
Coastal Modelling
Computer simulation of coastal and wave processes. Introduces modelling software for coastal engineering, ranging from simplified wave propagation codes to sophisticated computational fluid dynamics (CFD) solvers. The learning approach is mostly hands-on, building on information delivered in lectures to allow the student to gain practical knowledge of the software in computer laboratory sessions.
Prerequisite: CIVIL 733

CIVIL 738 15 Points
Construction 4.0: The Future of Construction - Level 9
Advanced knowledge in Construction 4.0 and the deployment of related technologies (Internet of Things (IoT) smart construction sites, reality capture tools such as drones, 3D scanning, robotics, visualisation) in engineering and construction projects. Applications of technologies in addressing health and safety, productivity, efficiency and sustainability. Best practices of technology implementation in built environments. Independent research is undertaken in Construction 4.0.

CIVIL 740 15 Points
Studies in Civil Engineering 3 - Level 9
Advanced course on topics to be determined each year by the Head of Department of Civil and Environmental Engineering. The course will include the independent application of highly specialised knowledge and skills related to the study area.

CIVIL 741 15 Points
Ground Improvements and Geosynthetics Engineering
Advanced ground improvement techniques including: densification, consolidation, preloading and surcharge, soil reinforcement, stabilisation and thermal ground improvement.
Prerequisite: CIVIL 300 or 322
Restriction: CIVIL 403

CIVIL 742 15 Points
Bridge Design
Comprehensive overview of road and rail bridge typologies, design philosophies, performance requirements in key areas of strength and serviceability, calculation methods to address these topics and the analysis and strengthening of existing bridges. Bridge technology used in New Zealand and associated legislative requirements.
Prerequisite: CIVIL 713, 715 or equivalent

CIVIL 743 15 Points
Special Topic: Building Information Modelling
Introduction to the main principles and tools of Building Information Modelling (BIM) in the Architecture-Engineering-Construction (AEC) industry. This course is suitable for different AEC professionals such as civil and structural engineers, architects, among others.

CIVIL 744 15 Points
Special Study in Earthquake Engineering
An advanced course on topics in earthquake engineering to be determined each year by the Head of Department of Civil and Environmental Engineering.

CIVIL 745 15 Points
Seismic Assessment of Existing Buildings - Level 9
Principles of assessing the response of buildings to earthquakes and identification of vulnerabilities for different building types. Example buildings will be assessed using these advanced methodologies and independent research conducted on appropriate forms of retrofit.

CIVIL 746 15 Points
Nonlinear Structural Analysis - Level 9
Nonlinear behaviour of structures and the formulation of elements to model such behaviour; solution strategies; nonlinear material and section response; nonlinear dynamic analysis; nonlinear geometry; application of nonlinear analysis in engineering practice. Research and critically compare modeling approaches used for real buildings. Includes an independent research project involving nonlinear analysis of a real structure as a ‘blind prediction’.

CIVIL 747 15 Points
Timber Engineering
The practical understanding of timber and its use in the construction industry. Design and detailing techniques for connections in timber structures, plywood structures, pole structures, timber floor systems, bridges, multi-storey buildings, formwork and falsework, arches and cable stayed systems.
Prerequisite: CIVIL 312 or STRCTENG 301
Restriction: CIVIL 451

CIVIL 750 15 Points
Geotechnical Modelling
Analysis of stress and strain in two and three dimensions,
the idea of a constitutive law, elastic and plastic models for geomaterials. Numerical modelling of consolidation.
Implementation of realistic models for soil and rock mass stress-strain-strength behaviour in numerical analysis software and evaluation of geotechnical software against known solutions.

CIVIL 756 15 Points
Capstone Project
Final year team exercise with students in multi-disciplinary civil and environmental roles integrating technical learning into realistic design outcomes. Comprehensive investigation of an open ended, complex, real or synthetic civil engineering problem with simulated professional design office constraints. Includes technical, economic, cultural, social, ethical, and environmental impact components to complete a scheme assessment report, incorporating safety in design concepts.
Prerequisite: 90 points from Part III courses listed in the BE(Hons) Schedule for Civil Engineering or Structural Engineering

CIVIL 758 15 Points
Traffic Systems Design
Prerequisite: CIVIL 361
Restriction: CIVIL 403, 460, 660

CIVIL 759 15 Points
Highway and Transportation Design
Prerequisite: CIVIL 360
Restriction: CIVIL 461, 661

CIVIL 761 15 Points
Planning and Design of Transport Facilities
Selected topics from: traffic signal practice/safety audits, two way highway planning, arterial traffic management, modelling and simulation and traffic flow.

CIVIL 762 15 Points
Transportation Planning
Provides an in-depth exploration of various components of the urban transportation planning process, with emphasis on theories on modelling. The principle behind the conventional four-stage transport planning model, namely, trip generation, trip distribution, modal split and trip assignment, is covered in detail.

CIVIL 763 15 Points
Smart Infrastructure Analytics
Develops fundamental knowledge in the use of computer programming and data analytics to solve real-world infrastructure problems, such as reducing traffic congestion, predicting water usage and infrastructure failures. Group and independent projects are undertaken in which students study complex smart infrastructure analytics problems using real-world data.

CIVIL 764 15 Points
Highway Safety and Operations - Level 9
Advanced planning, design, operation and safety management of predominantly two way two lane highways, including: passing and overtaking models analysis and treatments, collision modification and mitigation, roadway design, skid resistance, delineation, temporary traffic control, evaluation methods, and environmental management measures. An independently applied research project will use advanced analytical skills to critically evaluate factors which impact highway safety.
Prerequisite: CIVIL 360, 361, and 15 points from 661, 759, or equivalent

CIVIL 765 15 Points
Infrastructure Asset Management - Level 9
Advanced theories and techniques fundamental to the management of infrastructure assets, with a primary focus on Asset Management Plans. Covers the entire spectrum of infrastructure, including roads, water networks and buildings. A major independent project incorporates a literature review and selection, and then critical review, of an Asset Management Plan from industry.

CIVIL 766 15 Points
Transportation Asset Management - Level 9
Focuses on advanced topics in transportation asset management. Develops a critical awareness of the key issues encountered, including those related to the evaluation of performance; risk management; predictive modelling and calibration; prioritisation and optimisation; and life cycle analysis. The core skills are extended by an independent applied project in which students undertake to solve a complex transportation asset management problem.

CIVIL 767 15 Points
Pavement Analysis and Design
Selected topics from: pavement design philosophy; stresses, strains and deflections in pavements; pavement material properties and characterisation; traffic loading and volume; pavement failure mechanisms; structural and functional assessment of pavements; empirical and mechanistic pavement design methods; pavement overlay design; asphalt mix design.
Prerequisite: 15 points from CIVIL 661, 759, or equivalent

CIVIL 768 15 Points
Highway Geometric Design - Level 9
An advanced course in highway geometric design techniques. Through the use of an independent applied project, students will apply advanced theory, methods, processes and design tools to the safe design of highway geometric alignments that includes an understanding of human / driver behaviour characteristics.
Prerequisite: CIVIL 360, 361, and 15 points from 661, 759, or equivalent

CIVIL 769 15 Points
Transport Systems Economics - Level 9
Advanced specialist topics in transportation economics including economic analysis, the theory of demand and supply of transport, government intervention policies, and the theory of externalities and agglomeration. Students are required to undertake a major research project by analysing two major transportation infrastructure projects to determine the likely future social and real time benefits and dis-benefits which accrue to the wider community.
CIVIL 771 Planning and Managing Transport - Level 9
An advanced course on integrating land use planning and transport provisions, including planning for different land use trip types and parking, travel demand management techniques, and intelligent transport systems applications. An independent project applies this specialised knowledge towards planning, designing and managing transport infrastructure in a Territorial Local Authority (TLA) area.

CIVIL 773 Sustainable Transport: Planning and Design
Pedestrian planning and design; cycling facilities and planning; land use and trips; travel behaviour change and travel plans; integrated transport assessment; transport impact guidelines for site development.

CIVIL 774 Studies in Transportation 1
A graduate course on a range of selected topics to be determined each year by the Head of the Department of Civil and Environmental Engineering.

CIVIL 775 Studies in Transportation 2
A graduate course on a range of selected topics to be determined each year by the Head of the Department of Civil and Environmental Engineering.

CIVIL 779A 15 Points
CIVIL 779B 30 Points
Research Project in Transportation - Level 9
Students are required to submit a report on a topic in transportation assigned by the Head of Department. To complete this course students must enrol in CIVIL 779 A and B.

CIVIL 781 Construction Planning and Execution
Addresses the construction project life cycle including essential aspects of construction projects such as estimating, construction planning, logistics, budgeting, tendering, contracting, procurement, risk management, occupational health and safety, cultural issues, and legal constraints. Digital tools are used where relevant. Case studies are used to reinforce the application of theoretical ideas to the successful running of construction projects. Restriction: CIVIL 790, 791

CIVIL 782 Water Resources Engineering
A selection from the following: reservoir design and optimisation, flood control and design of flood control structures, micro to large scale hydroelectric, river engineering and sedimentation. A water resources engineering design project. Prerequisite: either CIVIL 302, or CIVIL 331 and ENVENG 333 Restriction: CIVIL 480, 482

CIVIL 783 Water Distribution System Modelling and Analysis
Fundamental theory of hydraulics and water quality in pipe networks, its implementation in software simulation tools and the application of models to the design and management of water distribution systems. Network theory, simulation practice, consumer and fire demand, water loss management, design, optimisation and master planning. Prerequisite: CIVIL 202

CIVIL 787 Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department. Prerequisite: Departmental approval required

CIVIL 788 30 Points
CIVIL 788A 15 Points
CIVIL 788B 15 Points
Research Project - Level 9
Prerequisite: Departmental approval required To complete this course students must enrol in CIVIL 788 A and B, or CIVIL 788

CIVIL 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department. Prerequisite: Departmental approval required

CIVIL 790 15 Points
Civil Engineering Administration
The application of legal, cultural, social and ethical principles to problems in civil engineering and environmental engineering management. Examines the administration of national and international engineering contracts. Discusses statutes affecting engineering business. Investigates the implications of resource management and natural resource allocation legislation on engineering projects. Analyses processes for resolving engineering disputes. Restriction: CIVIL 401, 490, ENNGEN 734

CIVIL 791 15 Points
Construction Management
Understanding topics necessary for effective construction management. Using a generic construction project life cycle, essential aspects of construction projects including the tendering process, planning, resource allocation, teamwork, site safety, and contract types are covered. Case studies are used to reinforce the application of theoretical ideas to the successful running of construction projects with considerations of cultural, social and ethical responsibilities. Restriction: CIVIL 409

CIVIL 792 15 Points
Discrete-event Simulation in Construction - Level 9
Application of discrete-event simulation (DES) modelling to advanced planning and design construction operations and management of the construction supply chain. Critical assessment of the improvements in efficiency of planning methods and decisions patterns in construction management using DES. Individual and team research projects will apply advanced DES concepts and methods to complex, real-world construction projects.

CIVIL 793A 30 Points
CIVIL 793B 60 Points
Thesis - Level 9
To complete this course students must enrol in CIVIL 793 A and B

CIVIL 794A 45 Points
CIVIL 794B 45 Points
Thesis - Level 9
To complete this course students must enrol in CIVIL 794A and B
CIVIL 795 45 Points
CIVIL 795A 15 Points
CIVIL 795B 30 Points

Research Project (Civil) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in CIVIL 795 A and B, or CIVIL 795

CIVIL 796A 60 Points
CIVIL 796B 60 Points

Thesis - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in CIVIL 796 A and B

Computer Systems Engineering

Stage II

COMPSYS 201 15 Points
Fundamentals of Computer Engineering
Digital systems and binary coding; binary numbers; Boolean algebra and computer logic; combinational logic circuits; sequential logic circuits; hardware description language; digital design flow; register transfer level descriptions and design; data paths and control units; from circuits to microprocessors; basic computer organisation; introduction to modern microprocessors; timers and interfacing; C and assembly language for microprocessors; designing digital systems using microprocessors.
Prerequisite: ELECTENG 101

COMPSYS 202 15 Points
Object Oriented Design and Programming
A project-based course with extensive hands-on programming experience. Includes: an introduction to object oriented design including UML, sequence diagrams, use-case analysis; an introduction to object oriented programming in a modern high level language, algorithms, data abstraction and elementary data structures.
Prerequisite: ENNGEN 131 or ENGSCI 131
Restriction: MECHENG 270

COMPSYS 209 15 Points
Computer Systems Design
Project-based course introducing real-world design aspects of hardware and software components of computer systems using appropriate design methodology. Practical skills will be gained in computer aided design tools, printed circuit board design and construction. Professional issues introduced in ENNGEN 204 (health and safety, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) and design for repair are reinforced and developed.
Prerequisite: COMPSYS 201 and ELECTENG 202, or COMPSYS 201 and ELECTENG 291, or PHYSICS 140 and 244
Restriction: ELECTENG 209

COMPSYS 299 0 Points
Workshop Practice
Restriction: ENNGEN 299

Stage III

COMPSYS 301 15 Points
Design: Hardware Software Systems
An appreciation of the engineering design process as applied to computer systems. Design skills are enhanced through engineering projects which typically include elements of: computer hardware/software design, system design and control, sensing, actuation and interfacing. Professional issues introduced in ENNGEN 204 and 303 (health and safety, ethics, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) are reinforced and developed.
Prerequisite: COMPSYS 305, and COMPSYS 209 or ELECTENG 209, and COMPSYS 202 or SOFTENG 281

COMPSYS 302 15 Points
Design: Software Practice
A project-based course to gain experience in software design emphasising problem solving techniques and applications in computer systems engineering. The course includes practical, real-world project(s) involving a representative subset of the following topics: algorithm and data structure selection and implementation, parsing and translation, object-oriented and multi-threaded programming, scripting languages, peer-to-peer communication over internet.
Prerequisite: COMPSYS 202 or SOFTENG 281

COMPSYS 303 15 Points
Microcomputers and Embedded Systems
Prerequisite: COMPSYS 201, and COMPSYS 202 or SOFTENG 251 or 281

COMPSYS 304 15 Points
Computer Architecture
Modern processor architectures. Principles of modern processor design; pipelining; memory hierarchies; I/O and network interfacing; compiler and OS support; embedded processors; performance; multiprocessing.
Prerequisite: COMPSYS 201
Restriction: COMPSCI 313

COMPSYS 305 15 Points
Digital Systems Design
Digital Systems implementation technologies with emphasis on hardware description languages and design abstraction levels; structural, architectural and behavioural modelling; register-transfer level design; datapath and control units; functional and timing simulations; FPGA-based implementation design flow and case studies.
Prerequisite: COMPSYS 201

COMPSYS 306 15 Points
Artificial Intelligence and Machine Learning
Fundamentals of artificial intelligence, including topics from artificial neural networks, fuzzy models, genetic algorithms. Using machine learning as an application of artificial intelligence to use data for training and inference, including topics from convolutional neural networks, deep learning, pattern classification and recognition.
Prerequisite: COMPSYS 201, and COMPSYS 202 or SOFTENG 281
Postgraduate 700 Level Courses

COMPSYS 700A 15 Points
COMPSYS 700B 15 Points

Research Project - Level 9
Students are required to submit a report on project work carried out on a Computer Systems Engineering topic assigned by the Head of Department. The work shall be supervised by a member of staff.
Prerequisite: COMPSYS 301, and 45 points from COMPSCI 311, COMPSYS 302-305, ELECTENG 303, 331, 332
Restriction: COMPSYS 401
To complete this course students must enrol in COMPSYS 700 A and B

COMPSYS 701 15 Points
Advanced Digital Systems Design - Level 9
Advanced concepts in digital design including: System-on-Chip (system level description, behavioural and register-transfer descriptions); advanced modelling techniques and design flows; design space exploration and optimisation; hardware-software partitioning and trade-offs; component reusability; reconfigurable systems; low-power systems; case studies (speech, image, video algorithms implementation, application specific processor design); individual research projects to analyse the problem, model and implement the required hardware-software components.
Prerequisite: COMPSYS 305

COMPSYS 704 15 Points
Advanced Embedded Systems - Level 9
Selected advanced topics from current research in embedded systems such as: embedded systems based on formal models of computation; centralised and distributed architectures for embedded systems; static and dynamic embedded systems; languages and frameworks for distributed embedded systems; actor and agent systems; verification. Includes a significant individual research project.
Prerequisite: COMPSYS 723, and 202 or SOFTENG 281

COMPSYS 705 15 Points
Formal Methods for Safety Critical Software - Level 9
Formal methods for the validation/verification of safety critical software, including machine learning algorithms. Topics covered will include mathematical modelling for embedded, automation, and mechatronic systems; advanced techniques for validation and verification; techniques for formal specification; methods of verification such as Bisimulation and model checking; state space explosion problem and solutions such as BDDs, symbolic model checking, and modular verification; verification of HDL/C using model checking tools. Includes a significant individual research project.
Prerequisite: COMPSYS 202 or ENGSCI 233 or MECHENG 270 or 313 or SOFTENG 211 or 281 or 282

COMPSYS 710 15 Points
Studies in Computer Systems Engineering 1
Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 711 15 Points
Studies in Computer Systems Engineering 2
Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 713 15 Points
Studies in Computer Systems Engineering 4
Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 714 15 Points
Studies in Computer Systems Engineering 5
Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 715 15 Points
Studies in Computer Systems Engineering 6
Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 721 15 Points
Special Topic
An advanced course on topics to be determined each year by the Head of Department.

COMPSYS 722 15 Points
Special Topic
An advanced course on topics to be determined each year by the Head of Department.

COMPSYS 723 15 Points
Embedded Systems Design
Concurrency and models of computation, task models and race conditions, real-time operating systems based approach, synchronous approach, safe state machines, key properties: determinism and reactivity, SoPC and MPSoC, cyber-physical embedded systems, static analysis techniques, case studies in smart grid, automotive, medical devices and the like.
Prerequisite: COMPSYS 303 or 304 or SOFTENG 370
Restriction: COMPSYS 402, 403, 727

COMPSYS 725 15 Points
Distributed Cyber-Physical Systems Design
Prerequisite: COMPSYS 201, and 202 or SOFTENG 281
Restriction: COMPSYS 405

COMPSYS 726 15 Points
Robotics and Intelligent Systems - Level 9
Fundamentals of robotic and intelligent systems, including reactive and deliberative functionality, navigation techniques, planning and programming of robot actions, machine learning, artificial neural networks and may include topics in sensors and actuators, kinematic analysis, fuzzy systems, genetic algorithms. Core concepts are extended by an individual research project where a challenging robotics problem is analysed and a solution implemented and tested.
Prerequisite: 15 points from COMPSYS 302, 306, ENGSCI 331, MECHENG 313, SOFTENG 306
Restriction: COMPSYS 406

COMPSYS 727 15 Points
Model-based Embedded Systems Design - Level 9
Traditional and advanced methods of embedded systems modelling and design, models of computation, hardware-software co-design, real-time and safety-critical systems, principles of embedded and real-time operating systems, design using the real-time operating systems approach and the synchronous approach, use of the networks in real-time
embedded systems. The assessment includes a significant individual research project.
Prerequisite: COMP SYS 303
Restriction: COMP SYS 402, 403, 723

COMP SYS 728 15 Points
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.
Prerequisite: Departmental approval

COMP SYS 729 15 Points
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.
Prerequisite: Departmental approval

COMP SYS 730 15 Points
Robotics and Society
Explores the moral, ethical and societal impacts of increasing automation in our society, and how both work and leisure will be impacted as robots become more commonplace. Topics also include legal issues, privacy, safety, standards, and indigenous and cultural issues and opportunities.

COMP SYS 731 15 Points
Human-Robot Interaction
Human aspects of robotic systems, including how humans and robots can live and interact together. Cultural considerations around the perception of robots and expected robot behaviours in different domains such as agriculture, education, healthcare, and manufacturing.
Prerequisite: 15 points from COMP SYS 302, 306, ENGSCI 311, MECHENG 313, SOFTENG 306

COMP SYS 732 15 Points
Mobile Autonomous Robotics
Techniques and principles for designing and developing mobile robots that interact autonomously with their environment. Topics include sensors and actuators, kinematic analysis, computer vision, state estimation and planning. Includes significant hands-on experience through the design and development of a mobile robot.
Prerequisite: 15 points from COMP SYS 302, 306, ENGSCI 311, MECHENG 313, SOFTENG 306

COMP SYS 770 15 Points
Capstone Project
Final year team exercise with students in multi-disciplinary roles, with focus on computer systems engineering and integrating technical learning into realistic design outcomes. Comprehensive investigation of an open ended, complex, real or synthetic computer, electrical and software engineering problem with simulated professional design office constraints. Includes technical, economic and environmental impact components to complete a scheme assessment report.
Prerequisite: 75 points from Part III courses listed in the BE(Hons) Schedule for the Computer Systems Engineering specialisation

COMP SYS 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

COMP SYS 788 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in COMP SYS 788 A and B

COMP SYS 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

COMP SYS 792 45 Points
COMP SYS 792 A 15 Points
COMP SYS 792 B 30 Points
Research Project (Robotics and Automation) - Level 9
Prerequisite: CHEMMAT 751 or CIVIL 705 or COMP SYS 700 or ELECTENG 700 or ENGGEN 769 or ENGSCI 700 or MECHENG 700 or SOFTENG 700
To complete this course students must enrol in COMP SYS 792 A and B, or COMP SYS 792

COMP SYS 795 45 Points
COMP SYS 795 A 15 Points
COMP SYS 795 B 30 Points
Research Project (Computer Systems) - Level 9
Students are required to submit a report relevant to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in COMP SYS 795 A and B, or COMP SYS 795

COMP SYS 796 A 60 Points
COMP SYS 796 B 60 Points
ME Thesis (Computer Systems) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in COMP SYS 796 A and B

Disaster Management

Postgraduate 700 Level Courses

DISMGT 701 15 Points
Disaster Risk Management - Level 9
A broad based understanding of the critical elements of risk and risk management in pre- and post-disaster scenarios. Key elements include risk identification with regard to the forms and types of risk inherent in areas prone to disasters. Risk management approaches are explored and applied to different aspects of disaster management.

DISMGT 703 15 Points
Disaster Management and Resilience - Level 9
Disaster management concepts and approaches related to urban resilience, including societal and infrastructure resilience. Key elements include exploring holistic approaches to disaster management and assessment of the relationship between resilience and disaster management. This includes systems and complexity, policy and general regulatory environment. This course involves group work and a course project.
Electrical and Electronic Engineering

Stage I

ELECTENG 101 15 Points
Electrical and Digital Systems
An introduction to electrical, computer and electronic systems and technology. Digital circuits and analysis techniques, computer organisation. Analog circuits and analysis techniques. Inductive power transfer, power systems and electric machines. Communication systems.
Restriction: ELECTENG 202, 204, 208, 210

ELECTENG 202 15 Points
Circuits and Systems
Aims to provide a good understanding of the way electrical circuits work. It covers DC and AC circuit theorems and analysis; transient analysis, including the Laplace transform; transfer functions; AC power calculations; and time and frequency representation of signals.
Prerequisite: ELECTENG 101

ELECTENG 204 15 Points
Engineering Electromagnetics
Electrostatics (Coulomb's and Gauss's Laws, scalar potential, energy, capacitance, dielectrics), magnetostatics (Biot-Savart and Ampere's Laws, moving conductors, magnetic forces/torques, ferromagnetic hysteresis, inductance, magnetic materials), electromagnetic induction (Faraday's and Lenz's Laws). Transmission lines subjected to pulse excitation, magnetic circuits and single-phase transformers. Introduction to computational electromagnetics.
Prerequisite: ELECTENG 101

Stage II

ELECTENG 291 15 Points
Fundamentals of Electrical Engineering
AC and DC circuit analysis in the context of linear electrical and electronic systems. Time and frequency domain approaches to describing and analysing electrical networks and systems.
Prerequisite: ELECTENG 101
Restriction: ELECTENG 202

ELECTENG 292 15 Points
Electronics
Electronic devices and circuits for solving engineering problems. Analysis of linear and non-linear microelectronic circuits and their practical applications.
Prerequisite: ELECTENG 202 or 291, or PHYSICS 121 and 244
Restriction: ELECTENG 210

ELECTENG 292 15 Points
Workshop Practice
Restriction: ENNGEN 299

Stage III

ELECTENG 303 15 Points
Systems and Control
Introduction to linear, time-invariant, continuous-time system theory from both a time-domain and frequency domain standpoint. This leads on to the fundamental body of knowledge underlying the control and enhancement of system behaviour, with application to the analysis and control of electrical systems.
Prerequisite: ELECTENG 202

ELECTENG 305 15 Points
Applied Electronics
An advanced treatment of electronic circuits including a rigorous treatment of feedback, device limitations, noise effects, stability, and design considerations. Emphasis on common practical circuits taken from analog and switching applications.
Prerequisite: ELECTENG 202 or 291, and 210 or 292

ELECTENG 307 15 Points
Fields and Waves
Transmission lines subjected to AC excitation, the Smith chart, introduction to matching network design and introduction to antennas for radio systems. Maxwell's equations in differential and integral form, divergence and Stokes' theorems, skin effect and uniform plane waves (lossless/lossy media, reflection and transmission,
polarisation). Case studies in computational electromagnetics.
Prerequisite: ELECTENG 204

ELECTENG 309 15 Points
Power Apparatus and Systems
Introduces students to three-phase electric machines and power system components. Covers theory, modelling and practical aspects for synchronous machines, induction machines, transformer connections, transmission lines and substation components.
Prerequisite: ELECTENG 204

ELECTENG 310 15 Points
Electrical Engineering Design 1
An appreciation of the design process as applied to electrical and electronic engineering systems. Design skills are enhanced through engineering projects which typically involve modelling, simulation and analogue/digital electronic hardware design. Professional issues introduced in ENGGEN 204, 303 and 403 (ethics, sustainability, cultural awareness, communication, leadership, teamwork, financial awareness, safety in design) and design for repair are reinforced and developed.
Prerequisite: ELECTENG 208

ELECTENG 311 15 Points
Electrical Engineering Design 2
The formal introduction to the design process is completed by one or more open-ended projects which typically include elements of design from concept to working prototype. Professional issues introduced in ENGGEN 303 (health and safety, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) and design for repair are reinforced and developed.
Prerequisite: ELECTENG 310

ELECTENG 331 15 Points
Signals and Systems
Introduction to continuous-time and discrete-time signals and systems. Spectral analysis and representation of analog and digital signals, and linear, time-invariant systems. Conversion between analog and digital signals. Systems for manipulating and filtering signals in hardware and software.
Prerequisite: ELECTENG 202 or 291, or PHYSICS 140 and 244
Restriction: ELECTENG 303

ELECTENG 332 15 Points
Control Systems
Introduction to modelling in the time-domain and frequency domain. The fundamental body of knowledge underlying the control and enhancement of system behaviour, with application to the analysis and control of systems.
Prerequisite: ELECTENG 202 or 291
Restriction: ELECTENG 303

Postgraduate 700 Level Courses

ELECTENG 700A 15 Points
ELECTENG 700B 15 Points
Research Project - Level 9
Students are required to submit a report on project work carried out on a topic assigned by the Head of Department. The work shall be supervised by a member of staff.
Prerequisite: ELECTENG 310, 311, and 30 points from ELECTENG 303, 305, 309, 331, 332
Restriction: ELECTENG 401
To complete this course students must enrol in ELECTENG 700 A and B

ELECTENG 701 15 Points
Mobile Wireless Engineering
Aspects of the design and planning of mobile radio systems. Radio propagation for mobile radio systems (multipath, narrowband and wideband channels, channel characterisation and measurements), propagation modelling (free-space, plane-earth, diffraction). Frequency reuse and interference, outage probabilities, system performance evaluation, space diversity, MIMO and millimetre-wave systems.
Prerequisite: ELECTENG 307 or 721 or 737

ELECTENG 703 15 Points
Advanced Power Systems - Level 9
Electricity markets: structure, pricing, optimisation, ancillary services; power system protection practices; distribution network development: smart grid, demand side participation; HVDC and FACT devices theory and application; renewable energy grid integration. Includes a substantial individual research project.
Prerequisite: ELECTENG 731
Restriction: ELECTENG 738

ELECTENG 704 15 Points
Advanced Control Systems - Level 9
Advanced theory of modern control systems with emphasis on optimisation techniques for both deterministic and stochastic processes. State-space modelling of dynamic systems and choice of suitable performance criteria. Adaptive, nonlinear and sliding mode control systems. Core concepts are extended by an individual research project in which a challenging control problem is analysed and solved.
Prerequisite: ELECTENG 722

ELECTENG 706 15 Points
Topics in Digital Signal Processing - Level 9
An advanced treatment of digital signal processing topics with an emphasis on state of the art techniques. Case studies of digital signal processing methods used to solve practical problems in science and engineering. Includes a substantial individual research project.
Prerequisite: ELECTENG 733

ELECTENG 711 15 Points
Studies in Electrical and Electronic Engineering 1
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 712 15 Points
Studies in Electrical and Electronic Engineering 2
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 713 15 Points
Studies in Electrical and Electronic Engineering 3
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 714 15 Points
Studies in Electrical and Electronic Engineering 4
Advanced course on topics to be determined each year by the Head of Department.
ELECTENG 715  15 Points
Studies in Electrical and Electronic Engineering 5
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 716  15 Points
Studies in Electrical and Electronic Engineering 6
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 721  15 Points
Radio Engineering
Matching networks, waveguides, transmitter/receiver design, noise, non-linear behaviour, antennae, applications in computational electromagnetics. Fundamentals of radio propagation, tropospheric effects, diffraction, link budgets, point-to-point link design, multipath propagation, introduction to area coverage (mobile radio) systems. Introduction to radar systems, the radio spectrum and exposure standards.
Prerequisite: ELECTENG 307
Restriction: ELECTENG 421, 737

ELECTENG 722  15 Points
Modern Control Systems
Prerequisite: ELECTENG 303 or 331 or 332
Restriction: ELECTENG 422, 724, MECHENG 720, 724

ELECTENG 724  15 Points
Special Topic
An advanced course on topics to be determined each year by the Head of Department.
Prerequisite: Departmental approval

ELECTENG 726  15 Points
Digital Communications
Prerequisite: 15 points from ELECTENG 303, 331, 332
Restriction: ELECTENG 426, 741

ELECTENG 731  15 Points
Power Systems
Builds on the knowledge of three-phase power systems components to understand modelling, formulation and typical analysis carried out by electricity transmission, distribution and generation entities. Load flow, fault, stability and power quality. Supplemented by laboratories where students learn to use professional software to implement the theoretical aspects.
Prerequisite: ELECTENG 309
Restriction: ELECTENG 411

ELECTENG 732  15 Points
Communication Systems
Prerequisite: ELECTENG 303 or 331
Restriction: ELECTENG 412

ELECTENG 733  15 Points
Digital Signal Processing
Prerequisite: ELECTENG 303 or 331 or ENGSCI 311 or 313
Restriction: ELECTENG 413

ELECTENG 734  15 Points
Power Electronics - Level 9
Selected advanced concepts in power electronics are introduced through a practical and research based individual design project, utilising modern power converter topologies with supporting lectures that include: inductive power transfer and control, DC-DC converter design and control, high frequency magnetics design, semiconductor switches, practical design issues, controlled rectifiers and PWM converters with application to conventional and brushless DC motors.
Prerequisite: ELECTENG 305, 310, 311
Restriction: ELECTENG 414

ELECTENG 735  15 Points
Green Energy Technologies
Advanced green energy technologies with examples from current industry practice and cutting edge research developments. Topics include: renewable energy systems, distributed power generation, energy storage techniques, transportation electrification, power converters for renewable energy integration, soft-switched resonant converters, wireless power transfer, new semiconductor devices, motor drives, and LED lighting.
Prerequisite: ELECTENG 734

ELECTENG 736  15 Points
Analog and Digital Filter Synthesis
Filter concepts and network functions, a review of approximation techniques and frequency transformations, leading to a thorough treatment of passive, active and digital filter implementations.
Prerequisite: ELECTENG 303 or 331
Restriction: ELECTENG 416

ELECTENG 737  15 Points
Advanced Radio Engineering - Level 9
Advanced topics in radio system and high frequency electromagnetic design including: Matching networks, waveguides, transmitter/receiver design, noise, non-linear behaviour, antennae, applications in computational electromagnetics. Fundamentals of radio propagation, tropospheric effects, diffraction, link budgets, point-to-point link design, multipath propagation, introduction to area coverage (mobile radio) systems. Introduction to
radar systems, the radio spectrum and exposure standards. Students will also undertake an individual research project involving high frequency systems design.

Prerequisite: ELECTENG 307
Restriction: ELECTENG 421, 721

ELECTENG 738
Selected Topics in Advanced Power Systems - Level 9
Electricity markets: structure, pricing, optimisation, ancillary services; Power system protection practices; Distribution Network Development: Smart Grids, Demand Side Participation, Integration of DG/renewable sources and Electric Vehicles. Core concepts are extended by an individual research project, a self-guided protection laboratory and industry engagement in advanced power system practices.

Prerequisite: ELECTENG 731
Restriction: ELECTENG 703

ELECTENG 739
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.

Prerequisite: Departmental approval

ELECTENG 740
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.

Prerequisite: Departmental approval

ELECTENG 741
Advanced Digital Communications - Level 9
Advanced topics in modern digital communication systems and networks including: Advanced digital modulation theory and practice in single and multi-user communications systems; advanced information theory including single and multiple source coding; modern error control coding methods and applications; traffic theory and application in communication systems and networks. Theoretical knowledge is extended by an advanced laboratory programme and research projects.

Prerequisite: 15 points from ELECTENG 303, 331, 332
Restriction: ELECTENG 426, 726

ELECTENG 770
Capstone Project
Final year team exercise with students in multi-disciplinary roles, with focus on electrical and electronic engineering, integrating technical learning into realistic design outcomes. Comprehensive investigation of an open-ended, complex, real or synthetic computer, electrical and software engineering problem with simulated professional design office constraints. Includes technical, economic and environmental impact components to complete a scheme assessment report.

Prerequisite: 75 points from Part III courses listed in the BE(Hons) Schedule for the Electrical and Electronic Engineering specialisation

ELECTENG 787
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

ELECTENG 788A
ELECTENG 788B
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval
To complete this course students must enrol in ELECTENG 788 A and B

ELECTENG 789
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

ELECTENG 795
ELECTENG 795A
ELECTENG 795B
Research Project (Electrical and Electronic) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.

Prerequisite: Departmental approval
To complete this course students must enrol in ELECTENG 795 A and B, or ELECTENG 795

ELECTENG 796A
ELECTENG 796B
ME Thesis (Electrical and Electronic) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval
To complete this course students must enrol in ELECTENG 796 A and B

Energy

Postgraduate 700 Level Courses

ENERGY 721
15 Points

Energy Resources
Past, present and likely future uses of various forms of energy focused on electricity generation. Energy resources. Energy economics, prices and markets. Environmental considerations in energy production and use. Climate change, carbon sequestration, carbon trading and carbon taxes.

ENERGY 722
15 Points

Energy Technology

ENERGY 785A
15 Points

ENERGY 785B
30 Points

Research Project - Level 9
Supervised research project addressing a topic relevant to the technical, economic, environmental, regulatory or business aspects of energy.

Prerequisite: Departmental approval
Restriction: ENERGY 786
To complete this course students must enrol in ENERGY 785 A and B
GEOTHERM 601 15 Points
Geothermal Resources and their Use
Worldwide occurrence of geothermal systems, introductory geology, volcanoes and volcanic rocks, New Zealand geothermal systems, structure of the TVZ, hydrothermal alteration, permeability and porosity, introduction to geochemistry of geothermal systems, geothermal surface manifestations, water compositions, geothermometry, silica geochemistry, overview of geophysics for geothermal exploration, geothermal resource assessment.
Corequisite: GEOTHERM 602, 603 or 620
Restriction: GEOTHERM 785

GEOTHERM 602 15 Points
Geothermal Energy Technology
Worldwide geothermal development, types of geothermal systems, thermodynamics, properties of water and steam tables, heat transfer, fluid mechanics, steam-field equipment, geothermal power stations, geothermal drilling, wellbore processes, completion tests, downhole measurements, reinjection, corrosion, stored heat, Darcy's law, cold groundwater, geothermal reservoirs, direct use, reservoir modelling, reservoir monitoring and steam-field management.
Corequisite: GEOTHERM 601
Restriction: GEOTHERM 785

GEOTHERM 603 15 Points
Geothermal Exploration
Hydrothermal alteration, clays, fluid inclusions, direct use, subsidence, scaling and corrosion in geothermal wells, production geochemistry, environmental aspects of geothermal development, feasibility study, physical properties of rocks and self-potential (SP), magnetics, thermal methods, gravity, seismic methods, electrical methods, magneto-tellurics (MT).
Corequisite: GEOTHERM 601, 602
Restriction: GEOTHERM 785

GEOTHERM 620 15 Points
Geothermal Engineering
Completion tests, wellbore flow, two-phase flow, geothermal power cycles, flow measurements, direct use of geothermal energy, environmental effects, scaling and corrosion in geothermal wells, drilling engineering, flow measurements, steam-field operation and maintenance, subsidence, waste heat rejection, heat exchangers, geothermal well-test analysis, stimulation, pipeline design, feasibility study, reservoir modelling theory, TOUGH2, reservoir modelling process, case study (data and conceptual model, natural state modelling), Wairakei model.
Corequisite: GEOTHERM 601, 602
Restriction: GEOTHERM 785

GEOTHERM 689 15 Points
Geothermal Project
Based on a study using field, lab or theoretical methods, students are required to submit a report on some aspect of geothermal exploration, development or exploitation.
to essential drawing skills and CAD, and complete group-based design projects. Topics include systems life cycle, design, and introductions to professional issues such as health and safety, ethics, sustainability, cultural diversity, communication, leadership, and teamwork.

ENGEN 121 15 Points
Engineering Mechanics
An introduction to planar mechanics including: free body diagrams, planar equilibrium of rigid bodies, friction, distributed forces, internal forces, shear force and bending moment diagrams, kinematics and kinetics of particles, work and energy, relative motion, kinematics and kinetics of rigid bodies.
Restriction: CIVIL 210, MECHENG 222

ENGEN 131 15 Points
Introduction to Engineering Computation and Software Development
Introduction to problem solving in engineering through the use of the software package MATLAB, and the programming language C.
Restriction: ENGSCI 233, 331

ENGEN 140 15 Points
Fundamentals of Engineering in Society
An introduction to chemistry and biology as applied to solving fundamental engineering problems from first principles using conservation laws and with appropriate consideration for uncertainty. Problems will also be addressed from a social perspective, considering the environment, the Treaty of Waitangi, social license to operate, and the role of professional engineering skills in the community and society.

ENGEN 199 0 Points
English Language Competency
To complete this course students must attain a level of competency in the English language as determined by the Faculty of Engineering.

Stage II

ENGEN 204 15 Points
Professional Skills and Communication
A system-wide view of the role of the professional engineer in society and business. The skills of advocacy, and individual and group-based communication are put into practice. Scenarios representative of real-world issues are addressed through team-based projects and problem solving. The professional issues introduced in ENGEN 115 (health and safety, ethics, sustainability, cultural diversity, communication, leadership, and teamwork) are continued and developed.
Prerequisite: ENGEN 115, 199

ENGEN 299 0 Points
Workshop Practice
Restriction: BIOMENG 299, CHEMMAT 299, CIVIL 299, COMPSYS 299, ELECTENG 299, ENGSCI 299, MECHENG 299, MECHTRON 299, SOFTENG 299, STRCTENG 299

Stage III

ENGEN 303 15 Points
Managing Projects and Innovation
Introduction to theory and practice of managing projects, innovation, product development and service delivery. Students work in interdisciplinary teams to complete a project based on a complex real-world systems scenario.
Project management and innovation topics are integrated with design studies covered in previous courses, and extended to wider business issues of risk and opportunities, entrepreneurship, financial management, and regulatory issues.
Prerequisite: ENGEN 199, 204

ENGEN 388 0 Points
Leadership in Engineering
Prepares engineers for roles as future leaders. Enhances skills in seeing problems from non-engineering perspectives and dealing with situations without ideal solutions. Develops skills from other disciplines and increases awareness of the broader context of how engineering supports society.
Prerequisite: Programme Director approval

Stage IV

ENGEN 403 15 Points
Managing a Business
An introduction to the commercial drivers and business practices which prepare students for successful roles in the commercial, government, and non-profit sectors after graduation. Students are presented with a systems thinking approach to managing large, complex, multidisciplinary challenges. Professional issues (such as health and safety, sustainability, resilience, ethics, leadership, and cultural diversity) from previous courses are expanded.
Prerequisite: BUSINESS 101 and 102, or BUSINESS 111 and 112, or DESIGN 220 or 221 or 222, or ECON 151 and GLOBAL 101, or COMMS 320 or ENGEN 303 or LAW 241 or MUS 186 or 365 or PROPERTY 231 or SCIGEN 201 or 201G

ENGEN 499 0 Points
Practical Work

Diploma Courses

ENGEN 601 15 Points
Case Studies in Engineering 1
The case study may include aspects of design or analysis, a survey and/or evaluation of a problem in any branch of engineering. Students are required to submit a report.

ENGEN 602 15 Points
Case Studies in Engineering 2
The case study may include aspects of design or analysis, a survey and/or evaluation of a problem in any branch of engineering. Students are required to submit a report.

ENGEN 622 15 Points
Advanced Topics in Engineering 1
Courses on topics determined each year by the Associate Dean Postgraduate in the Faculty of Engineering.

ENGEN 623 15 Points
Advanced Topics in Engineering 2
Courses on topics determined each year by the Associate Dean Postgraduate in the Faculty of Engineering.

ENGEN 698 0 Points
Practical Work for Experienced Engineers
Students will demonstrate via formal records at least 800 hours of relevant practical work experience in Engineering completed in the last 5 years.
Prerequisite: At least 800 hours of practical work in responsible engineering employment
Restriction: ENGEN 699
ENGEN 699 Practical Work
0 Points
Students will complete 800 hours of relevant practical work experience in Engineering and reflect on the connections between their work and their study. The work experience can be undertaken at any time during the degree programme or via a combination of some prior work experience and ongoing work experience gained concurrently with the degree.

Restriction: ENGEN 698

**Postgraduate 700 Level Courses**

ENGEN 701 Professional Project
15 Points
A comprehensive investigation, analysis and reporting of a complex engineering design, development or professional engineering problem.

Prerequisite: Departmental approval

Restriction: ENGEN 401, 405, 410, 705

ENGEN 705 Engineering Product Development
15 Points
Advanced topics in the engineering design and development of new manufactured products, taking an integrated approach including technical, commercial, and user aspects. Theory is linked to practice through multidisciplinary teams engaging in projects and case studies.

Prerequisite: 8 grade or higher in ENGEN 303

Restriction: ENGEN 401, 405, 410, 701, MGMT 305

ENGEN 720 Special Topic
15 Points

ENGEN 721 Special Topic
15 Points

Restriction: ENGEN 769

ENGEN 722 Special Study in Engineering Management 1
15 Points
Directed study of an engineering management topic approved by the Programme Coordinator.

Restriction: CIVIL 716

ENGEN 723 Special Study in Engineering Management 2
15 Points
Directed study of an engineering management topic approved by the Programme Coordinator.

ENGEN 724 Special Study in Technology Management 1
15 Points
Directed study of an engineering technology topic approved by the Programme Coordinator.

ENGEN 725 Special Study in Technology Management 2
15 Points
Directed study of an engineering technology topic approved by the Programme Coordinator.

ENGEN 726 Climate Adaptation of Infrastructure
15 Points
Impacts of climate change on infrastructure and adaptation strategies to respond to these changes. Impact assessments, vulnerability studies, and development of adaptation strategies and techniques for whole of life asset management. Decision-making, management and climate resilience of transport, potable water provision, stormwater and wastewater systems, buildings and other physical infrastructure systems.

ENGEN 730 Management Skills for Project Professionals
15 Points
Core theories and their implications for the art and practice of project management in organisations.

ENGEN 731 Agile and Lean Project Management
15 Points
The culture, structures, roles, tools and techniques required for effective management of projects in uncertain, volatile and ambiguous environments where the project scope evolves or the timescale is the primary driver. Students will learn advanced techniques and apply them to reinforce their learning.

Restriction: ENGEN 740

ENGEN 732 Systems Thinking and Project Business Case
15 Points
The business case as the tool of choice for many businesses for turning strategy into projects and the subsequent investment appraisals. Topics include systems thinking, the theory of constraints, value, cost/benefit analysis, quadruple bottom line, sensitivity analysis, risk analysis, investment appraisal, performance measurement and benefit realisation.

ENGEN 733 Strategy, Portfolios, Programmes and Projects
15 Points
The practical application of strategic management principles to enable the successful delivery of portfolios, programmes and projects in demand and supply side organisations in the public and private sectors. Examination of international examples from different industry sectors illustrates how theoretical concepts and practical applications can relate to the success or failure of portfolios of resources, programmes of work, and individual projects, sometimes in conditions of uncertainty and ambiguity.

Restriction: ENGEN 741

ENGEN 734 Engineering Contracts for Project Managers
15 Points
Theoretical concepts in engineering commercial contracts, how those concepts apply to the work environment and manifest in the contracts in use in the project environment. Students will study relevant case law, NZS3910, NEC3 and FIDIC.

Restriction: CIVIL 790

ENGEN 735 Project Management Case Studies
15 Points
Examination of examples from industry to show how theoretical concepts relate to the success or failure of portfolios of resources, programmes of work, and individual projects. Examination of international examples from different industry sectors illustrates how theoretical concepts and practical applications can relate to the success or failure of portfolios of resources, programmes of work, and individual projects.

Restriction: ENGEN 741

ENGEN 736 Research Implementation and Dissemination - Level 9
15 Points
Critical reflections on undertaking a research project focussing on elements of project implementation and dissemination of research findings and outcomes. Leverage the benefits of the research project by focussing on the communicating the findings of the project to appropriate audiences and maximising the impact of the project for key stakeholders. Critically evaluate own performance in undertaking a project and adoption of a philosophy of continuous improvement during implementation stage of a project. Identification of lessons learned in order to inform future research.

Corequisite: ENGEN 792 or 794 (ENGEN 736 must be taken in the same semester as ENGEN 792 or 792B or 794 or 794B)
ENGEN 737  
**Engineering Risk Management - Level 9**

The theory and practice of risk management, providing a comprehensive approach to identify, analyse, and treat risks inherent in engineering projects. Critical analysis and synthesis of risk management frameworks to deliver outcomes in scenarios of uncertainty and to communicate plans at a professional level. An independent project is undertaken in which students apply risk management theories to engineering projects.  
*Restriction: CIVIL 708*

ENGEN 738  
**Work Based Learning - Level 9**

Studies in professional and interpersonal skills within the context of engineering and project management practice. Develops ability to critically self-assess competencies. Fosters and enhances competencies in preparation towards membership of a professional body via application of theory and exploration of work practices. Students prepare a portfolio of independent work demonstrating competencies required of a Chartered professional at an advanced level.  
*Restriction: CIVIL 709*

ENGEN 739  
**Cost Engineering - Level 9**

Advanced topics in cost engineering such as engineering economics, cost planning, cost estimating, cost control, cost analysis and lifecycle costing. These topics are extended by independent and group applied projects in which students solve complex engineering management problems. The core taught skills are complemented by independent research to solve cost engineering problems or critically analyse alternative cost engineering approaches.  
*Restriction: CIVIL 709*

ENGEN 740  
**Project Management Bodies of Knowledge**

A comprehensive and critical review of existing and emerging project management bodies of knowledge including Waterfall, Agile, Lean and Extreme Project Management approaches. Comparison of a range of project management frameworks and methodologies for management of risk, including the applied application of a range of tools, techniques and knowledge to open-ended project scenarios.  
*Restriction: CIVIL 703, ENGEN 731, 742*

ENGEN 741  
**Project, Programme and Portfolio Management**

Critical elements of project delivery including leadership, organisation, owner profile and participation, project objectives, investment decisions and change management. Project, Programme and Portfolio Management frameworks and their practical application to organisations in managing strategy implementation. Examples from industry show how theoretical concepts relate to the success or failure of projects, programmes and portfolios under conditions of uncertainty and ambiguity.  
*Restriction: ENGEN 733, 735*

ENGEN 742  
**Project Management**

Planning, organisation and control of projects in ordered environments. Application of project management principles, concepts, disciplines, tools, techniques and processes to the typical project lifecycle. Studies in the knowledge areas/domains defined by the Project Management Institute (PMI). Development of a range of skills, tools and techniques to become an effective project manager.  
*Restriction: CIVIL 703, ENGEN 740*

ENGEN 743  
**Applied Creative Thinking**

Application of inventive problem solving and creative thinking to formulate novel engineering solutions. Theories, tools and techniques to assist with generating innovative ideas. Techniques for improving the creativity of teams. Develops skills in the facilitation of workshops to help teams solve complex problems. Practical application of the concepts are synthesised to solve case study industry problems, and students’ individual scenarios.  
*Restriction: ENGEN 722*

ENGEN 746  
**Research Project in Engineering Management - Level 9**

A major project which should relate to a practical situation in an organisation or company selected by the candidate. The project must be approved by the Master of Engineering Management Programme Director, and may take the form of a survey and evaluation of modern advances in engineering management practices, the development and/or implementation of new management strategies, or a management oriented industrial case study.  
*Restriction: ENGEN 763, 764, 765*

To complete this course students must enrol in ENGEN 766 A and B, or ENGEN 766*

ENGEN 749  
**Research Methods for Engineers**

Development of research methods knowledge and skills including research philosophy and design, research ethics, data collection and analysis techniques, identification of limitations, and writing up and reporting. Qualitative and quantitative research methods are addressed.  
*Restriction: CHEMMAT 751, CIVIL 705, COMPSYS 700, ELECTENG 700, ENGEN 721, ENGSCI 700, MECHENG 700, SOFTENG 700*

ENGEN 771  
**Medical Device and Technology Development - Level 9**

Clinical and technical aspects of medical device development. Identification and definition of a medical device, examples and case studies. Evidence based technology, justification and motivation for developing medical devices. Techniques and issues concerning medical device research and design processes. Includes individual research related to medical device and technology development.  
*Restriction: CIVIL 708*

ENGEN 772  
**Medical Device Industry Practice - Level 9**

Commercial lifecycle considerations in medical device design. Clinical evaluation of systems; safety and ethics issues. Medical and regulatory requirements and international standards for medical devices; quality assurance and controlled design. Examples drawn from surgical assistance and medical intervention systems, training systems, prosthetics, orthotics, exoskeleton devices, and healthcare robotics.
A structured supervised research portfolio addressing a topic relevant to the development and commercialisation of medical devices and technologies.

**Prerequisite: Departmental approval**

To complete this course students must enrol in ENGGEN 793 A and B

**ENGGEN 794** 30 Points
**ENGGEN 794A** 15 Points
**ENGGEN 794B** 15 Points

**Research Project - Level 9**

A research project which requires students to undertake a practical application in a temporary endeavour to deliver a product, service or specified outcome. May take the form of action research, project implementation and evaluation of modern advances in project management practices, or a project management oriented case study. Project will be conducted by students working individually within an existing project orientated team.

**Prerequisite: Departmental approval**

To complete this course students must enrol in ENGGEN 794 A and B, or ENGGEN 794

**ENGGEN 794A** 15 Points
**ENGGEN 794B** 15 Points

**ME Thesis (Engineering) - Level 9**

Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.

**Prerequisite: Departmental approval**

To complete this course students must enrol in ENGGEN 796 A and B

**ENGGEN 796A** 60 Points
**ENGGEN 796B** 60 Points

**Engineering Science**

**Stage I**

**ENGSCI 111** 15 Points

**Mathematical Modelling 1**

**Restriction: ENGSCI 211, 213, 311, 313, 314**

**Stage II**

**ENGSCI 205** 15 Points

**Special Topic: Engineering-Centric Machine Learning**

**ENGSCI 211** 15 Points

**Mathematical Modelling 2**

**Prerequisite: ENGGEN 150, or ENGSCI 111, or a B+ grade or higher in MATHS 108 or 110, or a B+ grade or higher in MATHS 120 and 130**

**Restriction: ENGSCI 213**

**ENGSCI 233** 15 Points

**Computational Techniques and Computer Systems**

Introduction to computer architecture and computational techniques. Data representation, memory, hardware,
interfacing, and limitations. Numerical computation and algorithms, coding design and paradigms.

**Prerequisite:** ELECTENG 101 and ENNGEN 131, and ENNGEN 150 or ENGSCI 111

**Corequisite:** ENGSCI 211 or 213

**ENGSCI 255**

**Modelling and Analytics in Operations Research**

Emphasises the relationship between business and industrial applications and their associated operations research models. Software packages will be used to solve practical problems. Topics such as: linear programming, transportation and assignment models, network algorithms, queues, inventory models, simulation, analytics and visualisation will be considered.

**Prerequisite:** 15 points at Stage I in Engineering General or Engineering Science or Mathematics or Statistics

**Restriction:** ENGSCI 211

**ENGSCI 263**

**Engineering Science Design I**

Introduction to concepts of model design for engineering problems, including model formulation, solution procedures, validation, and shortcomings, with examples from topics in computational mechanics, operations research and data science. Further development of problem-solving skills, group project work, and group communication skills. The use of computational models to support design-focused decision making while considering ethical, societal, cultural, and environmental factors.

**Prerequisite:** ENNGEN 115 and ENGSCI 233

**Corequisite:** ENGSCI 211 or 213

**ENGSCI 299**

**Workshop Practice**

**Restriction:** ENNGEN 299

**Stage III**

**ENGSCI 309**

**Image and Digital Signal Processing**

Fundamentals of image processing and digital signal processing. One dimensional signals and digital filters. Digital filtering with FIR and IIR filters and the Digital Fourier Transform (DFT). Two-dimensional signals, systems and analysis methods. 2D images, spatial sampling, grey-scale quantification, point operations, spatial operations, high pass filtering, sharpening images, noisy images, nonlinear image processing.

**Prerequisite:** ENGSCI 211 or 213

**ENGSCI 311**

**Mathematical Modelling 3**

A selection from: ordinary differential equations, systems of equations, analytical and numerical methods, non-linear ODEs, partial differential equations, separation of variables, numerical methods for solving PDEs, models for optimisation, industrial statistics, data analysis, regression, experimental design reliability methods.

**Prerequisite:** ENGSCI 211

**Restriction:** ENGSCI 313, 314

**ENGSCI 313**

**Mathematical Modelling 3ECE**

Complex Analysis, including complex numbers, analytic functions, complex integration, Cauchy's theorem, Laurent series, residue theory; Laplace transforms; Modelling with partial differential equations, including electronic and electrical applications; Fourier Analysis, Fourier transform, Fast Fourier transform; Optimisation, including unconstrained and constrained models, linear programming and nonlinear optimisation.

**Prerequisite:** ENGSCI 211

**Restriction:** ENGSCI 311, 314

**ENGSCI 214**

**Mathematical Modelling 3ES**

Mathematical modelling using ordinary and partial differential equations, calculus of variations and statistical methods. Topics include: eigenvalues, eigenvectors, systems of equations, stability, separation of variables, wave and heat equations, Euler-Lagrange equation, Hamilton’s Principle, probability, random variables, common distributions, Poisson process, exploratory data analysis, confidence intervals, hypotheses tests, linear models including one-way and two-way ANOVA, ANCOVA and multiple regression, introduction to logistic regression.

**Prerequisite:** ENGSCI 211

**Restriction:** ENGSCI 311, 313, 321

**ENGSCI 331**

**Computational Techniques 2**

Methods for computing numerical solutions of mathematical models and data analytics problems with focus on translating algorithms to computer code. A selection of topics from numerical solution of linear and non-linear equations, eigen problems, ordinary and partial differential equations, databases, inverse problems and parameter estimation.

**Prerequisite:** ENGSCI 233

**Corequisite:** ENGSCI 311 or 313 or 314

**ENGSCI 343**

**Mathematical and Computational Modelling in Mechanics**

Development of macroscopic models of physical systems using fundamental mathematical techniques and physical laws. Topics include vector and tensor calculus including indicial notation and integral theorems, conservation laws, control volumes and constitutive equations, continuum assumptions, isotropy and homogeneity. Possible applications include deformation, strain and stress, fluid flow, electromagnetism, reactive chemical transport, and kinetics.

**Prerequisite:** BIOMENG 221 or MECHENG 242, and ENGSCI 211 or 213

**Restriction:** BIOMENG 321

**ENGSCI 344**

**Computational Design for Physical Systems**

Integrate sustainability and environmental considerations into computational engineering. This will develop skills in: analysing complexity and selecting an appropriate model representation of the physical problem; choosing the correct computational tool with which to solve the model; designing and executing appropriate numerical experiments using the chosen tool; validating, interpreting and communicating the simulation results. Enhance skills in sustainable decision-making and addressing environmental challenges.

**Prerequisite:** BIOMENG 321 or ENGSCI 343

**Restriction:** ENGSCI 746

**ENGSCI 355**

**Simulation Modelling for Physical Systems**

Use of simulation models to design complex processes including consideration of cultural, environmental, societal and ethical factors as appropriate. Focus on
practical problem solving, translational methods and the development of real-world modelling skills.

**Prerequisite:** ENGSCI 255 or STATS 255

**Restriction:** OPSRES 385

**ENGSCI 263**

**Engineering Science Design II**

Application of computational engineering methods combined with optimisation techniques to complex engineering design problems. Group-based integrated design, prototype and test projects that include consideration of societal, ethical and professional engineering factors.

**Prerequisite:** 15 points from ENGSCI 311, 313, 314

**Restriction:** ENGSCI 773

**ENGSCI 391**

**Optimisation in Operations Research**

Linear programming, the revised simplex method and its computational aspects, duality and the dual simplex method, sensitivity and post-optimal analysis. Network optimisation models and maximum flow algorithms. Transportation, assignment and transhipment models, and the network simplex method. Introduction to integer programming.

**Prerequisite:** 15 points from ENGEN 150, ENGSCI 111, MATHS 208, 250, 253, and 15 points from COMPSCI 101, ENGEN 131, MATHS 162, STATS 220

**Restriction:** ENGSCI 765

**Postgraduate 700 Level Courses**

**ENGSCI 700A**

15 Points

**ENGSCI 700B**

15 Points

**Research Project - Level 9**

An investigation carried out under the supervision of a member of staff on a topic assigned by the Head of Department of Engineering Science. A written report on the work must be submitted.

To complete this course students must enrol in ENGSCI 700 A and B

**ENGSCI 701**

**Studies in Engineering Science**

An advanced course on topics to be determined each year by the Head of Department of Engineering Science.

**Prerequisite:** Departmental approval

**ENGSCI 705**

15 Points

**Special Topic**

**ENGSCI 706**

15 Points

**Special Topic**

**ENGSCI 711**

15 Points

**Advanced Mathematical Modelling**

A selection of modules on mathematical modelling methods in engineering, including theory of partial differential equations, integral transforms, methods of characteristics, similarity solutions, asymptotic expressions, theory of waves, special functions, non-linear ordinary differential equations, calculus of variations, tensor analysis, complex variables, wavelet theory and other modules offered from year to year.

**Prerequisite:** 15 points from ENGSCI 311, 313, 314

**ENGSCI 712**

15 Points

**Computational Algorithms for Signal Processing**

Advanced topics in mathematical modelling and computational techniques, including topics on singular value decomposition, Principle Component Analysis and Independent Component Analysis, eigen-problems, and signal processing (topics on neural network models such as the multi-layer perception and self-organising map).

**Prerequisite:** 15 points from ENGSCI 311, 313, 314

**ENGSCI 713**

15 Points

**Mathematical Modelling for Professional Engineers**

Mathematical modelling techniques required by professional engineers, such as partial and ordinary differential equations, differentiation and integration, vector calculus, linear algebra, analytical and numerical methods, industrial statistics, and data analysis.

**Prerequisite:** ENGSCI 211 or 213

**Restriction:** ENGSCI 311, 313, 314

**ENGSCI 721**

15 Points

**Data-centric Engineering for Physical Systems**

Mathematical modelling of complex physical systems, including model development, parameterisation and evaluation, illustrated using examples from current research and industry. Inverse problems and uncertainty quantification for physical models in engineering and science, including principles of uncertainty propagation for linear and nonlinear physical models given real-world data, and connections to physics-informed machine learning.

**Prerequisite:** 15 points from COMPSCI 101, ENGSCI 131, MATHS 162, 199; and either 15 points from ENGSCI 311, 313, 314, or MATHS 260 and either STATS 210 or 225

**ENGSCI 740**

15 Points

**Computational Engineering for Physical Systems**

Principles and practice for modelling complex physical systems. Applications in biomechanics, fluid mechanics and solid mechanics. Including topics such as large deformation elasticity theory applied to soft tissues, inviscid flow theory, compressible flows, viscous flows, meteorology, oceanography, coastal ocean modelling, mixing in rivers, fracture, composite materials and geomechanics. Underlying theories, computational techniques and industry applications explored using commercial software.

**Prerequisite:** BIOMENG 321 or ENGSCI 343

**ENGSCI 741**

15 Points

**Waves and Fracture**

Advanced topics in mechanics including: waves and wave motion with applications to acoustics, optics, fluid flow problems and shock discontinuities using numerical methods. Fracture: modes of, displacement discontinuity in linear elasticity, stress intensity factor, spectral solution methods, finite friction. Applications include: hydraulic fracturing, earthquakes, macroscale strength of materials.

**Prerequisite:** BIOMENG 321 or ENGSCI 343

**ENGSCI 742**

15 Points

**Studies in Continuum Mechanics**

An advanced course in continuum mechanics covering topics in the mechanics of solids and fluids and other continua.

**Prerequisite:** Departmental approval

**ENGSCI 745**

15 Points

**Petroleum Engineering**

Interdisciplinary introduction to topics in geology, geophysics, reservoir engineering, drilling and production engineering relevant to the production of oil and gas. Mathematical models of multiphase fluid flow in porous media. Reservoir engineering tools for analysis and forecasting of reservoir performance. Unconventional petroleum resources.

**Prerequisite:** 15 points from ENGSCI 311, 313, 314
ENGSCI 746 15 Points
Advanced Modelling and Simulation in Computational Mechanics
Solution of real-world continuum mechanics problems using computational tools commonly used in engineering practice. Develops skills in analysing complexity; selecting a model representation of the physical problem; choosing the correct computational tool to solve the model; designing and executing appropriate numerical experiments; validating, interpreting and communicating simulation results. Advanced solver methods, and modelling of advanced materials such as large-deformation elastic/plastic materials.
Prerequisite: BIOMENG 321 or ENGSCI 343
Restriction: ENGSCI 344

ENGSCI 753 15 Points
Computational Techniques in Mechanics and Bioengineering
Theoretical and applied finite element and boundary element methods for static and time dependent problems of heat flow, bioelectricity, linear elasticity and non-linear mechanics.
Prerequisite: ENGEN 131 or equivalent, and 15 points from ENGEN 311, 313, 314

ENGSCI 755 15 Points
Decision Making in Engineering
Introduction to techniques for decision making in engineering systems including decision heuristics, simple prioritisation, outranking approaches, analytic hierarchy process, application to group decision making.
Prerequisite: ENGSCI 211 or MATHS 250

ENGSCI 760 15 Points
Algorithms for Optimisation
Meta-heuristics and local search techniques such as Genetic Algorithms, Simulated Annealing, Tabu Search and Ant Colony Optimisation for practical optimisation. Introduction to optimisation under uncertainty, including discrete event simulation, decision analysis, Markov chains and Markov decision processes and dynamic programming.
Prerequisite: 15 points from COMPSCI 101, ENGEN 131, MATHS 162, 199, and 15 points from COMPSCI 120, ENGEN 111, STATS 125

ENGSCI 761 15 Points
Integer and Multi-objective Optimisation
Prerequisite: ENGSCI 391 or 765

ENGSCI 762 15 Points
Scheduling and Optimisation in Decision Making
A course of advanced topics arising in the practical application of optimisation models for machine and resource scheduling, routing applications, staff rostering and performance measurement.
Prerequisite: ENGSCI 391 or 765

ENGSCI 763 15 Points
Advanced Simulation and Stochastic Optimisation
Prerequisite: ENGSCI 391 or 765

ENGSCI 765 15 Points
Advanced Optimisation in Operations Research
Linear programming, the revised simplex method and its computational aspects, duality and the dual simplex method, sensitivity and post-optimal analysis. Network optimisation models and maximum flow algorithms. Transportation, assignment and transhipment models, and the network simplex method. Integer programming. The implementation and solution of optimisation models for practical applications.
Prerequisite: 15 points from ENGEN 150, ENGEN 111, MATHS 208, 250, 253, and 15 points from COMPSCI 101, ENGEN 131, MATHS 162, STATS 220
Restriction: ENGSCI 391

ENGSCI 768 15 Points
Advanced Operations Research and Analytics
Advanced Operations Research and Analytics topics including selected theory, algorithms and applications for non-linear programming, smooth and non-smooth optimisation, equilibrium programming and game theory.
Prerequisite: ENGSCI 391 or 765

ENGSCI 772 15 Points
Whole Organ Modelling
Prerequisite: BIOMENG 321 or ENGSCI 343

ENGSCI 773 15 Points
Capstone Project
Group based projects involving the application and integration of knowledge in computational engineering, data analytics and operations research for design, prototyping and performance testing of a new product. Topics include social and Te Tiriti considerations, engineering design practice, optimisation methods in robust design, material selection and structural analysis, risk management, communication skills, prototype manufacturing and design validation.
Prerequisite: 60 points from courses listed in Part III of the BE(Hons) Schedule for Engineering Science
Restriction: ENGSCI 363

ENGSCI 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

ENGSCI 788A 15 Points
ENGSCI 788B 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in ENGSCI 788 A and B
### Course Prescriptions

#### Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
**Prerequisite:** Departmental approval

**Special Topic**

**ENVENG 701**  
**Urban Stormwater Management - Level 9**  
Design and application of stormwater runoff quantity and quality control systems for urban development including: bioretention, living roofs, swales, permeable/porous pavement, detention ponds, and constructed wetlands. An independent project couples technical design, safety, maintenance, construction, hydrologic and water quality modelling, and stakeholder engagement in an application of "Low Impact Design" from the site to the catchment scale.  
**Prerequisite:** either CIVIL 302 and ENVENG 200, or ENVENG 244 and 333

**Directed Study - Level 9**  
A course on a topic in environmental engineering to be determined each year by the Head of Department of Civil and Environmental Engineering. The course will include the
ENVENG 705 15 Points
Special Topic
A course on a topic in environmental engineering to be determined each year by the Head of Department. The course will include independent application of highly specialised knowledge and skills related to the study area. 
Restriction: ENVENG 402

ENVENG 706 15 Points
Special Topic
A course on a topic in environmental engineering to be determined each year by the Head of Department. 
Restriction: ENVENG 403

ENVENG 707 15 Points
Advanced Water Treatment and Reuse - Level 9
Advanced water, wastewater, greywater, stormwater treatment technologies including advanced oxidation processes, photochemistry, electrochemistry, membrane treatment, and fundamentals of water reuse, applications, and case studies for potable reuse, industrial reuse, and aquifer recharge. Includes an individual research project.
Prerequisite: either ENVENG 300 and 331, or ENVENG 244 and 342

ENVENG 708 15 Points
Environmental Engineering for Sustainable Futures
Addresses emerging engineering solutions to challenges facing humankind including climate change, sustainability and resilience of our society, and persistent waste and pollution in the environment. Includes applications of systems modelling through a holistic thinking lens, sustainability innovations, risk assessment and impact in various technologies and processes, climate change adaptation and mitigation.

ENVENG 719 15 Points
Design Project
A design project requiring input from more than one engineering subdiscipline. The department will offer a number of projects from which the students may select. It will be possible for groups of students to work together on a project. Assessment will be based on a report and an oral presentation of the outcome of the project.
Restriction: ENVENG 419

ENVENG 740 15 Points
Water and Wastewater Engineering

ENVENG 744 15 Points
Environmental Engineering Processes Laboratory
Laboratory research methods (safety, sampling procedures, sample preservation, data analysis and report writing). Laboratory experiments exploring various physical, chemical and biological processes, such as sedimentation, chemical coagulation and precipitation, chlorination, reactor residence time distribution, activated carbon and anaerobic digestion.

ENVENG 746 15 Points
Surface Water Quality Modelling - Level 9
Advanced specialist topics in modelling of lakes and rivers.
ENGEN 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

ENGEN 795 45 Points
ENGEN 795A 15 Points
ENGEN 795B 30 Points

Research Project (Environmental) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in ENGEN 795 A and B, or ENGEN 795

MECHENG 236 15 Points
Design and Manufacture 2
Machine elements and their use in engineering design, including internal combustion engines, clutches, brakes, and basic hydraulic and pneumatics systems and components. Material-based production processes and fabrication methods. Design reliability and safety. Basic principles of "Design for X".
Prerequisite: MECHENG 235

MECHENG 242 15 Points
Mechanics of Materials 1
Prerequisite: ENGGEN 121 or 150

MECHENG 270 15 Points
Software Design
Fundamentals of software design and high-level programming making use of case studies and programming projects. Includes: requirements analysis, specification methods, software architecture, software development environments, software quality, modularity, maintenance, reusability and reliability; models of software development.
Prerequisite: ENGGEN 131
Restriction: COMPSYS 202, SOFTENG 281

MECHENG 299 0 Points
Workshop Practice
Restriction: ENGGEN 299

Stage II

MECHENG 201 15 Points
Introduction to Mechatronics
Introduces mechatronics to mechanical and mechatronics engineers. Covers sensors and actuators, analogue and digital circuit elements for signal processing and programming.
Prerequisite: ELECTENG 101, ENGGEN 131

MECHENG 211 15 Points
Thermoﬂuids
The fundamentals of fluid mechanics, thermodynamics and heat transfer with practical applications to engineering devices and systems.

MECHENG 222 15 Points
Dynamics
Kinematics of particles, rectilinear and curvilinear motion, kinematics of rigid bodies in the plane. Kinetics of particles, systems of particles and rigid bodies. Impulse and momentum, mechanism motion in the plane. Vibration of a particle.
Prerequisite: ENGGEN 121 or 150

MECHENG 235 15 Points
Design and Manufacture 1
The engineering design process as a teamwork and problem-solving activity involving analysis, synthesis, evaluation and critical thinking. Design methodology and communicating design intent through written and graphical means. Introduction to selected motive power sources, machine elements for mechanical power systems, and production and fabrication processes.
Prerequisite: ENGGEN 115

MECHENG 236 15 Points
Design and Manufacture 2
Machine elements and their use in engineering design, including internal combustion engines, clutches, brakes, and basic hydraulic and pneumatics systems and components. Material-based production processes and

Stage III

MECHENG 306 15 Points
Design of Sensing and Actuating Systems
A range of projects on mechatronic elements and systems, involving sensors, actuators and microcontrollers, as well as their interfacing. The design of mechatronic sub-systems, including interfacing, signal conditioning and processing, sensors, actuators, control technologies, software, systems modelling, simulation, analysis and design.
Prerequisite: MECHENG 235 and 270
Restriction: MECHENG 312

MECHENG 311 15 Points
Thermal Engineering
Prerequisite: MECHENG 211

MECHENG 313 15 Points
Design of Real-Time Software
Introduces the principles of software design in a real-time environment. Main topics include computer/microcontroller architecture, programming in a real-time environment, software design and data acquisition systems.
Prerequisite: MECHENG 270

MECHENG 322 15 Points
Control Systems
An introduction to classical control of mechanical and mechatronic systems. Topics include: transfer functions, block diagrams, time response characteristics, stability, frequency response characteristics, and controller design (e.g., pole placement, lead-lag compensation, PID). Applications in MATLAB/Simulink and with physical systems.
Prerequisite: ENGSCI 211, MECHENG 222

MECHENG 325 15 Points
Dynamics of Fluids and Structures
3D rigid body dynamics - inertia tensor, Euler’s equations, gyroscopic motion. Vibration of single and two degree of
freedom systems. Applications to vibration engineering. Introductory acoustics and spectral analysis. Mass, linear momentum, angular momentum and energy equations. Application to internal and external flows, boundary layers, pumps, turbines and lifting bodies. Experimental and numerical methods, dimensional analysis, similarity, and flow measurement.

Prerequisite: MECHENG 211, 222

MECHENG 334  
Design and Manufacture 3  
15 Points

Good practice and standard methods in mechanical engineering design. Conceptual and detailed design in projects involving machine elements, engineering sciences and engineering mechanics. Some of the advanced computer-aided tools (e.g., CAD, CAM, CAE) will be introduced and utilised in some projects.

Prerequisite: MECHENG 235, 236, 242

MECHENG 340  
Mechanics of Materials 2  
15 Points

Complex material behaviour and structural analysis, extending capability from two to three dimensions. States of stress and strain at a point in a general three-dimensional stress system. Generalised stress–strain relations for linearly elastic isotropic materials. Failure theories for ductile and brittle materials, elementary plasticity, and fatigue. Analytical techniques and numerical analysis of complex mechanical elements.

Prerequisite: MECHENG 242

MECHENG 352  
Manufacturing Systems  
15 Points

An introduction to the procedures and technological aspects of a typical manufacturing system; basic concepts and practice of plant and work design, automation, CAD/CAM, planning and simulation; selected IoT technologies; and project-based introduction to the tools and techniques applied by professional engineers in a modern manufacturing setting.

MECHENG 370  
Electronics and Signal Processing  
15 Points

An introduction to the design, analysis and implementation of electronic circuits or systems for various applications such as signal generation and processing, interfacing, and high power electronics.

Prerequisite: ELECTENG 101

MECHENG 371  
Digital Circuit Design  
15 Points

Fundamental concepts in the design of combinational and sequential logic circuits. Modern approach to design using CAD tools that exploit the advantage of automation. Students will be exposed to the use of FPGA to rapid prototype digital systems using schematic and hardware description language entries.

Prerequisite: ELECTENG 101

Postgraduate 700 Level Courses

MECHENG 700A  
15 Points

MECHENG 700B  
15 Points

Research Project - Level 9  
15 Points

Supervised research on a topic in engineering culminating in an independent written project report that includes a literature review, a description of the research and its findings, and a statement of research contribution.

Further supporting technical material will be provided as a compendium.

Prerequisite: 75 points from Part III courses in the BE(Hons)

Schedule

Restriction: MECHENG 407, 408, 461, 462, 762, 763
To complete this course students must enrol in MECHENG 700 A and B

MECHENG 701  
Directed Study  
15 Points

Supervised research on a topic or topics approved by the Academic Head or nominee.

MECHENG 702  
Directed Study  
15 Points

Supervised research on a topic or topics approved by the Academic Head or nominee.

MECHENG 705  
Mechatronics Systems  
15 Points

Fundamentals of digital control and signal processing as applied to mechatronics systems. Modelling and analysis of mechatronics systems that includes transducers and applications. Issues related to mechatronics systems such as thermal management, signal detection, filtering and integrity, etc.

Prerequisite: MECHENG 322, 370

MECHENG 706  
Mechatronics Design Projects  
15 Points

A range of projects that demonstrate the application and integration of engineering knowledge to create practical intelligent devices, machines and systems. AI based control techniques will be introduced.

Prerequisite: MECHENG 306, 313, 370

MECHENG 707  
Special Topic  
15 Points

MECHENG 708  
Special Topic  
15 Points

MECHENG 709  
Industrial Automation  
15 Points

Automation technologies widely used in manufacturing and processing industries. Topics include industrial robotics; programmable logic controllers (PLCs); pneumatics; machine vision systems; automated assembly; design for automation; and Industry 4.0 (such as machine-to-machine communications and data analysis). Students will participate in a number of hands-on labs throughout the course.

Restriction: MECHENG 710

MECHENG 710  
Advanced Industrial Automation - Level 9  
15 Points

Automation technologies widely used in manufacturing and processing industries. Topics include: industrial robotics; programmable logic controllers (PLCs); pneumatics; machine vision systems; automated assembly; design for automation; and Industry 4.0 (such as machine-to-machine communications and data analysis). Students will participate in a number of hands-on labs, including an individual research project related to the application of advanced automation techniques.

Restriction: MECHENG 709

MECHENG 711  
Advanced Computational Fluid Dynamics - Level 9  
15 Points

Application of computational methods to fluid dynamics and heat transfer. Finite volume and finite difference
methods. Convergence and stability. Mesh generation and post-processing. Application of commercial computer programs to industrial problems. An individual project in which the student will be required to apply a commercial CFD code to a research problem of the student’s choice.

Restriction: MECHENG 718

MECHENG 712 15 Points

Aerohydrodynamics
The study of fluid mechanics relevant to external flows, e.g., wind turbines, yachts, aircraft or wind loadings on buildings, boundary layers, computational fluid dynamics.

Prerequisite: MECHENG 325

MECHENG 713 15 Points

Energy Technology
Industrial thermodynamics and energy conversion/efficiency, power cycles, availability and irreversibility, simple combustion analysis, mass transfer, energy studies, boiling and condensation.

Prerequisite: MECHENG 311

MECHENG 714 15 Points

Wind Engineering - Level 9
Advanced specialist topics in wind engineering such as: the wind-loading chain - planetary boundary-layer flow, extreme winds, wind structure, wind loads, dynamic response, bluff body aerodynamics, vortex shedding, aeroelasticity, wind-tunnel testing, pedestrian level winds, wind energy. The core taught skills are extended by an individual project in which independent research is undertaken to solve a challenging wind engineering problem.

Prerequisite: MECHENG 712

MECHENG 715 15 Points

Building Services
Principles and practice of heating, ventilation, air-conditioning and refrigeration (HVAC&R), psychrometry, heating/cooling loads, mass transfer and air quality, refrigeration/heat pump systems, cooling towers, pumps, fans, valves, pipes and ducts.

Prerequisite: MECHENG 325

MECHENG 717 15 Points

Advanced Thermal Systems
Fundamentals of advanced thermodynamics. Topics covered will include a selection from: cycles and applications, heat and mass transfer, psychrometry, refrigeration and air-conditioning, internal combustion engines, combustion, thermal system design and simulation.

MECHENG 718 15 Points

Computational Fluid Dynamics

Restriction: MECHENG 711

MECHENG 719 15 Points

Advanced Engineering Vibrations - Level 9
Selected topics in advanced vibration engineering: multiple degree of freedom and continuous systems, spectral analysis, analytical, approximate and numerical methods, including FEA, vibration instrumentation, measurement and testing, modal analysis, vibration treatment. Includes an individual project in which independent research is undertaken to solve a challenging advanced vibration problem.

Prerequisite: MECHENG 325

Restriction: MECHENG 722

MECHENG 720 15 Points

Advanced Multivariable Control Systems - Level 9
Advanced control of mechanical and mechatronic systems. Topics include: state-space representations, linearisation, discretisation, stability, state feedback control design, optimal control, state estimation and Kalman filters. Applications in MATLAB/Simulink and with physical systems. Includes an individual research project related to the design of advanced control systems encountered in practice.

Prerequisite: MECHENG 322

Restriction: ELECTENG 722, MECHENG 724

MECHENG 722 15 Points

Engineering Vibrations
Selected topics in vibration engineering: Multiple degree of freedom and continuous systems; Spectral analysis; analytical, approximate and numerical methods, including FEA; vibration instrumentation, measurement and testing; modal analysis; vibration treatment.

Prerequisite: MECHENG 325 or equivalent

Restriction: MECHENG 719

MECHENG 724 15 Points

Multivariable Control Systems
Advanced control of mechanical and mechatronic systems. Topics include: state-space representations, linearisation, discretisation, stability, state feedback control design, optimal control, state estimation and Kalman filters. Applications in MATLAB/Simulink and with physical systems.

Prerequisite: MECHENG 322

Restriction: ELECTENG 722, MECHENG 720

MECHENG 726 15 Points

Acoustics for Engineers

Prerequisite: ELECTENG 331 or MECHENG 325

MECHENG 728 15 Points

Advanced MEMS and Microsystems - Level 9
Working principles and fabrication of MEMS/microsystems such as microsensors, microactuators, microfluidics, etc. Exposure to engineering design principles including engineering mechanics, fluids, materials, etc., at microscale. Includes an individual research project related to the design and fabrication of a device for an advanced application.

Prerequisite: MECHENG 325

Restriction: MECHENG 735

MECHENG 730 15 Points

Advanced Biomechatronic Systems - Level 9
Advanced mechatronic principles and techniques for measuring and manipulating biological systems. Human biomechanics and motion control, advanced serial and parallel robots, compliant soft robots, software and functional safety, human robot interaction and force control, novel sensors and actuators, and biomechatronic
design principles. Includes an individual research project related to the analysis, selection and successful implementation of one of these advanced technologies.

Restriction: MECHENG 736

MECHENG 731

Mechanical Design Projects

A variety of engineering projects requiring the development and communication of design solutions to a professional standard, and using a wide range of advanced engineering methods.

Prerequisite: MECHENG 334

15 Points

MECHENG 735

MEMS and Microsystems

Introduction to working principles and fabrication of MEMS/microsystems such as microsensors, microactuators, microfluidics, etc. Exposure to engineering design principles including engineering mechanics, fluids, materials, etc. at microscale. Exposure to microfabrication processes as part of a laboratory component.

Prerequisite: MECHENG 325

Restriction: MECHENG 728

15 Points

MECHENG 736

Biomechatronic Systems

Mechatronic principles and techniques for measuring, assisting, augmenting and mimicking biological systems. Topics include: brain machine interfaces, sensors and actuators, biomechanics and motion control, wearable and assistive devices, bioinstrumentation, soft robotic technologies, human factors, safety/ethical aspects, and biomechatronic design principles. Significant hands-on experience through the design, modelling and development of paradigmatic biomechatronic systems.

Restriction: MECHENG 730

15 Points

MECHENG 742

Advanced Materials Manufacturing - Level 9

Properties and processing of polymers and polymer composites. Analysis of selected manufacturing processes such as injection moulding, extrusion and liquid composites moulding. Viscous flow, flow through porous media and heat transfer. Includes an individual research project related to recent developments in advanced composites in terms of processability/manufacturability, functionality and performance/potential.

15 Points

MECHENG 743

Composite Materials

Prerequisite: MECHENG 340

15 Points

MECHENG 747

Manufacturing and Industrial Processes

Analysis and design of manufacturing processes, with a focus on techniques to manipulate metals and polymers. Application of solid mechanics, fluid mechanics and heat transfer to current additive, subtractive, forming and injection/casting manufacturing technologies. Topics include: bulk and sheet forming, extrusion, injection moulding, 2D and 3D printing processes.

Prerequisite: MECHENG 340

15 Points

MECHENG 751

Advanced CAD/CAM/CNC - Level 9

Advanced computer-aided design (CAD), computer-aided manufacturing (CAM) and computer numerical control (CNC). Intelligent CAD, feature-based design and manufacturing, CAD data interoperability, advanced CAM methodologies, smart CNC systems, and integration of the above technologies. Includes an independent research project to demonstrate mastery of the philosophy, analysis, selection and successful implementation of manufacturing technologies.

Prerequisite: MECHENG 352 or 752

15 Points

MECHENG 752

Technology Management

An appreciation of the strategic systems and technology management aspects of manufacturing systems. Industry based projects that explore the design and optimisation of manufacturing operations form a major part of the course.

Prerequisite: B grade or higher in ENGGEN 303

Restriction: MECHENG 709, 710, 754

15 Points

MECHENG 753

Advanced Industry 4.0 Smart Manufacturing - Level 9

New or emerging technologies and their applications in manufacturing enterprises, including Industry 4.0, product modelling technologies, smart manufacturing systems, industrial IoT (Internet of Things) sensing and data analysis technologies, digital twins, and applications of RFID (Radio Frequency Identification) and interoperability standards such as OPC UA in a modern manufacturing setting. Students will work on research projects individually and independently on a topic related to Industry 4.0.

Prerequisite: MECHENG 352 or 752

Restriction: MECHENG 709, 710, 754

15 Points

MECHENG 754

Industry 4.0 Smart Manufacturing

New information technologies and their applications in manufacturing enterprises, including introduction to Industry 4.0, product modelling technologies, smart manufacturing systems, industrial IoT sensing and data analysis technologies, digital twins and applications of RFID in a modern manufacturing setting.

Restriction: MECHENG 709, 710, 753

15 Points

MECHENG 755

Design for Additive Manufacturing

Design for additive manufacturing (AM), metal AM, polymer AM, AM technologies, material extrusion, powder bed fusion, vat photopolymerisation, material jetting, binder jetting, AM thought process, economics of AM, support generation, residual stress reduction, post-processing, computational design, light-weighting, topology optimisation, lattice structures, mass-customisation, tooling, conformal cooling, heat exchangers, part consolidation, specialised AM software: nTopology Magics, Inspire, CAD for AM.

Prerequisite: MECHENG 235

15 Points

MECHENG 797

Project X - Level 9

Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval
MECHENG 788A 15 Points
MECHENG 788B 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in MECHENG 788 A and B

MECHENG 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

MECHENG 795 45 Points
MECHENG 795A 15 Points
MECHENG 795B 30 Points
Research Project (Mechanical) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in MECHENG 795 A and B, or MECHENG 795

MECHENG 796A 60 Points
MECHENG 796B 60 Points
ME Thesis (Mechanical) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in MECHENG 796 A and B

Mechatronics Engineering

Stage II
MECHTRON 299 0 Points
Workshop Practice
Restriction: ENGGEN 299

Postgraduate 700 Level Courses
MECHTRON 796A 60 Points
MECHTRON 796B 60 Points
ME Thesis (Mechatronics) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.
To complete this course students must enrol in MECHTRON 796 A and B

Polymer Engineering

Postgraduate 700 Level Courses
POLYMER 700 15 Points
Polymer Materials Engineering
Microstructure and morphology of semi-crystalline and amorphous polymers, including alloys and thermoplastic elastomers. The study of structure/property/processing inter-relationships for polymer materials.
Restriction: CHEMMAT 740

POLYMER 704 15 Points
Advanced Polymer Processing
In-depth coverage of advanced polymer processing techniques. Study of additives, degradation processes and the prevention of degradation, formulation of products (thermosets and speciality polymers) and mixing of materials. Advanced moulding techniques, reaction injection moulding and processing biopolymers and speciality polymers as well as liquid moulding.
Restriction: CHEMMAT 741, 743

POLYMER 705 15 Points
Polymer Process and Product Design
Restriction: CHEMMAT 742

POLYMER 706 15 Points
Polymer Testing and Characterisation
Focuses on applying characterisation techniques to polymer materials, especially spectroscopic, thermal and rheological analysis and mechanical testing to understand the behaviour of polymer materials for design, processing and use.
Restriction: CHEMMAT 740, 743

Software Engineering

Stage II
SOFTENG 206 15 Points
Software Engineering Design 1
Project work. Skills and tools in systematic development of software, including testing, version control, build systems, working with others. Professional issues introduced in ENGGEN 204 (ethics, communication, and teamwork) are reinforced and developed while simulating a client-facing software development process.
Prerequisite: SOFTENG 251 or 281

SOFTENG 211 15 Points
Software Engineering Theory
Prerequisite: ENGGEN 131 or COMPSCI 101

SOFTENG 250 15 Points
Introduction to Data Structures and Algorithms
Introduction to the analytical and empirical behaviour of basic algorithms and data structures.
Prerequisite: ENGGEN 131 or COMPSCI 101
Corequisite: ENGSCE 211

SOFTENG 251 15 Points
Object Oriented Software Construction
An introduction to Object Oriented software development. Programming with classes; objects and polymorphism. Evolutionary and test-driven development. Analysis and design. Modelling with UML. Design patterns. Design for reuse, for testing, and for ease of change.
Prerequisite: ENGGEN 131 or COMPSCI 101

SOFTENG 254 15 Points
Quality Assurance
Software verification and validation. Static and dynamic QA activities as part of the software lifecycle. Unit, integration, system, and usability testing. Use of visual notations, automation, and tools to support development activities.
Metrics to quantify strength of testing and complexity of programs.
Prerequisite: SOFTENG 250, 251

**SOFTENG 281 15 Points**

*Object-Oriented Programming*

Computer programming using objects as the mechanism for modularity, abstraction, and code reuse. Review of control structures for conditionals and iteration. Instance variables, methods, and encapsulation. Interfaces, inheritance, polymorphism, and abstract classes. Exception handling. Introduction to basic data structures and basic algorithms including sorting and searching.
Prerequisite: COMPSCI 101 or ENGEN 131
Restriction: COMPSCI 220, COMPSYS 202, MECHENG 270, SOFTENG 251

**SOFTENG 282 15 Points**

*Software Engineering Theory*

Theoretical foundations of software engineering, including sets, formal languages, operations on languages, deterministic and nondeterministic automata, designing automata, determinisation, regular expressions, logic, induction, recursion, program correctness, computability, counting, elements of graph algorithms.
Prerequisite: COMPSCI 101 or ENGEN 131
Restriction: COMPSCI 225, SOFTENG 211

**SOFTENG 283 15 Points**

*Software Quality Assurance*

Software verification and validation. Static and dynamic quality assurance activities as part of the software lifecycle. Unit, integration, system, and usability testing. Metrics to quantify strength of testing and complexity of programs. Techniques for engineering of software systems including requirements, specification, validation, verification. Modelling paradigms including information, behaviour, domain, function and constraint models. Specification languages.
Prerequisite: COMPSYS 202 or SOFTENG 251 or 281
Restriction: SOFTENG 254

**SOFTENG 284 15 Points**

*Data Structures and Algorithms*

Data structures including linked-lists, stacks, queues, trees, hash tables; graph representations and algorithms, including minimum spanning trees, traversals, shortest paths; introduction to algorithmic design strategies; correctness and performance analysis.
Prerequisite: COMPSYS 202 or SOFTENG 251 or 281
Restriction: COMPSCI 220, 717, SOFTENG 250

**SOFTENG 299 0 Points**

*Workshop Practice*

Restriction: ENGEN 299

**Stage III**

**SOFTENG 306 15 Points**

*Software Engineering Design 2*

Working in project teams to develop software to meet changing requirements for a large application. Project planning, Requirements gathering, Estimating, costing and tracking. Acceptance and unit testing. Evolutionary design and development. Collaborative development tools. Professional issues introduced in ENGEN 204 and 303 (communication, leadership, teamwork, safety in design) are reinforced and developed.
Prerequisite: SOFTENG 206, and SOFTENG 254 or 283

**SOFTENG 310 15 Points**

*Software Evolution and Maintenance*

Design and maintenance of multi-version software, debugging techniques, design and documentation for software re-use, programme migration and transformation, refactoring, tools for software evolution and maintenance.
Prerequisite: SOFTENG 254 or 283

**SOFTENG 325 15 Points**

*Software Architecture*

Taxonomy of software architecture patterns, including client/server and multi-tier. Understanding quality attributes. Methodologies for design of software architectures. Technologies for architecture level development, including middleware.
Prerequisite: COMPSYS 302 or SOFTENG 254 or 283
Restriction: COMPSCI 331

**SOFTENG 350 15 Points**

*Human Computer Interaction*

Human behaviour and humans’ expectations of computers. Computer interfaces and the interaction between humans and computers. The significance of the user interface, interface design and user centred design process in software development. Interface usability evaluation methodologies and practice. Includes an evaluation project, group design project, and implementation using current techniques and tools.
Prerequisite: SOFTENG 206 or 283
Restriction: COMPSCI 345, 370

**SOFTENG 351 15 Points**

*Fundamentals of Database Systems*

Relational model, Relational algebra, Relational calculus, SQL, SQL and programming languages, Entity-Relationship model, Normalisation, Query processing, Query optimisation, Distributed databases, Transaction management, Concurrency control, Database recovery.
Prerequisite: SOFTENG 251 or 281
Restriction: COMPSCI 351

**SOFTENG 364 15 Points**

*Networks and Security*

Physical networks, TCP/IP protocols, switching methods, network layering and components, network services. Information security, computer and network security threats, defence mechanisms and encryption.
Prerequisite: COMPSYS 201, and SOFTENG 251 or 281

**SOFTENG 370 15 Points**

*Operating Systems*

Prerequisite: COMPSYS 201, and SOFTENG 251 or 281
Restriction: COMPSCI 340

**Postgraduate 700 Level Courses**

**SOFTENG 700A 15 Points**

**SOFTENG 700B 15 Points**

*Research Project - Level 9*

Students are required to submit a report on project work
carried out on a Software Engineering topic assigned by the Head of Department.
Prerequisite: SOFTENG 306
To complete this course students must enrol in SOFTENG 700 A and B

SOFTENG 701 15 Points
Advanced Software Engineering Development Methods - Level 9
Advanced studies in methods and techniques for developing complex software systems including topics in software engineering environments, advanced software design, tool construction and software architectures. The core taught skills are extended by individual projects in which independent research is undertaken to address challenging software system problems.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 702 15 Points
Advanced Human Computer Interaction
Advanced topics in human computer interaction and human aspects of computer systems relevant to commercial solution development and computer science research. Sample topics: advanced evaluation methods; support of pen and touch-based interaction; trends with domain specific user interface design, such as interfaces for enterprise systems.
Prerequisite: SOFTENG 350
Restriction: COMPSCI 705

SOFTENG 710 15 Points
Studies in Software Engineering 1
Advanced courses on topics to be determined each year by the Head of Department.
Prerequisite: Departmental approval

SOFTENG 711 15 Points
Studies in Software Engineering 2
Advanced courses on topics to be determined each year by the Head of Department.
Prerequisite: Departmental approval

SOFTENG 715 15 Points
Special Topic

SOFTENG 750 15 Points
Software Development Methodologies
Software lifecycle; software process models; examples of software processes; software process improvement; project management; tool support for software development; issues in software engineering.
Prerequisite: COMPSCI 302 or SOFTENG 306
Restriction: COMPSCI 732

SOFTENG 751 15 Points
High Performance Computing - Level 9
Advanced parallel and high performance computing concepts and techniques such as parallel system architecture; parallelisation algorithms and methodology; parallel programming paradigms and technologies. Core concepts and skills are deepened by a hands-on research project in which a challenging parallel computing problem is analysed and solved.
Prerequisite: COMPSCI 302 or SOFTENG 306

SOFTENG 752 15 Points
Formal Specification and Design - Level 9
Formal specification, design, and (automatic) analysis of software systems. Quality assurance through precise description and rigorous verification on the design. Introduction to the Z, OCL and CSP notations. Comparison of approaches, with emphasis on their practical application. Includes a substantial individual research project.
Prerequisite: COMPSCI 302 or SOFTENG 306

SOFTENG 753 15 Points
Machine Learning Techniques and Applications
Examines classic and state of the art algorithms in the field of machine learning. Topics may include: Bayesian classification, regression and state estimation; clustering and mixture models; kernel-based methods; sequential models; graphical models; neural networks and deep architectures.
Prerequisite: COMPSCI 302 or 306 or SOFTENG 306

SOFTENG 754 15 Points
Advanced Software Requirements Engineering - Level 9
Advanced software engineering concepts focusing on techniques for requirements analysis and requirements engineering (RE) of software systems. Topics will include: requirements elicitation, analysis, specification, validation, verification, user experience design, test-driven development and continuous integration. Includes a substantial individual research project.
Prerequisite: COMPSCI 302 or SOFTENG 306

SOFTENG 755 15 Points
Special Topic

SOFTENG 761 15 Points
Advanced Agile and Lean Software Development - Level 9
Advanced software engineering concepts focussing on Agile and Lean software development; including hands-on iterative and incremental software development, self-organising teamwork, project management, and an individual research component to explore challenging issues in this discipline.
Prerequisite: COMPSCI 302 or SOFTENG 306

SOFTENG 762 15 Points
Robotics Process Automation
Covers the fundamentals of Robotic Process Automation (RPA) systems. Students explore what RPA is and where it is useful, how RPA fits into current information technology setups, extracting and manipulating data from both external and internal sources, generating reports and statistics, and orchestrating multi-robot installations.
Prerequisite: COMPSCI 302 or SOFTENG 306

SOFTENG 770 15 Points
Capstone Project
Final year team exercise with students in multi-disciplinary roles, with focus on software engineering, integrating technical learning into realistic design outcomes. Comprehensive investigation of an open ended, complex, real or synthetic computer, electrical and software engineering problem with simulated professional design office constraints. Includes technical, economic and environmental impact components to complete a scheme assessment report.
Prerequisite: 75 points from Part III courses listed in the BE(Hons) Schedule for the Software Engineering specialisation

SOFTENG 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the Head of Department.
Prerequisite: Departmental approval
**Course Prescriptions**

**2024 Calendar Faculty of Engineering**

**Stage II**

**STRCTENG 300**

15 Points

**Design Loads and Dynamic Response of Structures**

Determination of design loads according to AS/NZS1170 and the response of structures under dynamic loadings.  
Prerequisite: CIVIL 210 or STRCTENG 200  
Restriction: CIVIL 314

**STRCTENG 301**

15 Points

**Timber Structures Design**

Structural analytical techniques including computer based approaches to simple indeterminate structures. Design procedures for members and structural systems of timber and engineered wood products including environmental and sustainability considerations in design. Design project.  
Prerequisite: CIVIL 210 or STRCTENG 200  
Restriction: CIVIL 312

**STRCTENG 302**

15 Points

**Steel Structures Design**

Mechanical properties of steel and contextualises the application of steel and steel/concrete into buildings and bridges including material environmental and sustainability considerations. Comprehensive introduction to design of structural steel members and connections and their use in structures. Application to vertical load carrying systems and steel building behaviour in earthquake and fire.  
Prerequisite: CIVIL 210 or STRCTENG 200  
Restriction: CIVIL 313

**STRCTENG 303**

15 Points

**Concrete Structures Design**

Design of reinforced concrete members including beams, columns, walls, foundations. Introduction to prestressed and precast concrete design and applications. Use of the New Zealand Concrete Structures Standard, NZS 3101. Discussion of environmental and sustainability considerations when using concrete as a building material.  
Prerequisite: CIVIL 210 or STRCTENG 200  
Restriction: CIVIL 313

**STRCTENG 304**

15 Points

**Structural Design for Civil Engineers**

Structural loading for gravity and wind in accordance with the loading code AS/NZS1170. Design principles and examples for concrete and timber members and design for timber framed buildings using NZS3604 including the concept of safety in design. Discussion of sustainability and environmental implications of selecting different building materials. Introduction to seismic building behaviour at a conceptual level.  
Prerequisite: CIVIL 210 or STRCTENG 200  
Restriction: CIVIL 312, 313

**Postgraduate 700 Level Courses**

**STRCTENG 710**

15 Points

**Low Rise Structures Design**

Structural systems for low-rise buildings, including seismic design and analysis techniques. Design and detailing of low-rise structures in structural steel, reinforced concrete, reinforced masonry, and timber including discussion of sustainability and environmental impacts of design decisions. Strut and tie for reinforced concrete. Introduction to fire engineering. Techniques in ensuring safety in design, checking of existing structures, lessons from failures, and design for repair.  
Prerequisite: STRCTENG 302, and CIVIL 313 or STRCTENG 303  
Restriction: CIVIL 713

**STRCTENG 711**

15 Points

**Multistorey Structures Design**

Techniques for the design of multistorey structures to resist seismic loading. Derivation of design actions and design of structural components subject to cyclic inelastic action. Includes identifying alternative structural systems for resisting seismic loads, incorporating sustainable design into seismic structural systems, detailing of members and
joints to enhance earthquake resistance, design for repair, seismic isolation, and ensuring safety in design.
Prerequisite: STRCTENG 302, and CIVIL 313 or STRCTENG 303
Restriction: CIVIL 714

STRCTENG 760  15 Points
Forensic Structural Engineering
Investigation of structural failures and disasters extending to the evaluation and assessment, restoration, and strengthening of modern and historic structures. Provides an understanding of the forensic engineering process that applies to the investigation and assessment of structural failures. Business practices including standards of care, performing critical self-assessment of capabilities, assembling a team, and professional ethics, legal testimony, and media relations are also discussed.
Prerequisite: STRCTENG 302, 303
Restriction: CIVIL 744

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Commercial Law

Postgraduate 700 Level Courses

COMLAW 740A 15 Points
COMLAW 740B 15 Points

The Tax Base - Level 9
An advanced study of the breadth of the New Zealand income tax base, including the different concepts of income, its timing and recognition. Comparisons between the nature of capital and income, and the differing treatment of each, provides a deeper understanding of the policy behind the New Zealand income tax regime. Provides a theoretical background and detailed technical knowledge of the scope and application of the most significant regimes for income, deduction and timing in the Income Tax Act 2007. Involves individual research resulting in a substantial individual research essay.

To complete this course students must enrol in COMLAW 740 A and B

COMLAW 747 15 Points

Goods and Services Tax
An advanced study of Goods and Services Tax. Provides both a theoretical background and high level of technical knowledge of the GST Act 1985. Comparisons with other indirect taxes and overseas variations of GST (notably Australian GST and UK VAT) provide a deeper understanding of the policy behind the New Zealand GST regime. Major topics include taxable activities, input tax, output tax, registration, adjustments, taxable supplies, timing and the GST anti-avoidance provisions.

Law

Stage I

LAW 121G 15 Points

Law and Society
An introduction to theories of the nature, functions and origins of law and legal systems, including sources of law; comparative concepts of law; an overview of constitutional and legal arrangements in New Zealand, including the role of the courts; the operation of the legal system in historical and contemporary New Zealand with a focus on concepts of property rights, the Treaty of Waitangi, Treaty Settlements and proposals for constitutional change. Note: Does not meet the General Education requirement for LLB, LLB(Hons), LLB conjoint or LLB(Hons) conjoint degrees.

Restriction: LAW 101

LAW 131 15 Points

Legal Method
An introductory study of how law is made and applied in New Zealand – an overview of the law-making roles of the legislative, executive and judicial branches of government; other influences on the development of the law; an introduction to case law, including judicial reasoning and the doctrine of precedent; an introduction to statute law, including the legislative process and techniques of statutory interpretation and application; the interaction between case law and legislation.
Prerequisite: LAW 121 or 121G

LAW 141 15 Points

Legal Foundations
An overview of the classification, sources and operation of core aspects of New Zealand law, including state law and tikanga Māori. An introduction to other sources, perspectives and explanations of law.
Prerequisite: LAW 121 or 121G
Corequisite: LAW 131

Stage II

LAW 201A 15 Points
LAW 201B 15 Points

Criminal Law
An introduction to the principles and practice of criminal law in Aotearoa New Zealand, including an analysis of a selection of offences, criminal defences and the rules attributing criminal liability. Apart from the rules concerning burden of proof and an introduction to the principles and process of sentencing, no detailed study is made in this course of the law of evidence or procedure.
Corequisite: LAW 298 or 299

To complete this course students must enrol in LAW 201 A and B

LAW 211A 15 Points
LAW 211B 15 Points

Public Law
The principles and workings of the New Zealand constitution; the powers, privileges and immunities of the three branches of government; the exercise and control of public power; and the relationship between the individual and the State (including the position of Māori under the Treaty of Waitangi).
Corequisite: LAW 298 or 299

To complete this course students must enrol in LAW 211 A and B

LAW 231A 15 Points
LAW 231B 15 Points

Law of Torts
The general principles of civil liability for non-consensual wrongs. The principles of liability applying to selected torts, including the intentional torts such as: assault, battery, false imprisonment, intentionally inflicting emotional distress, trespass to land, wrongs to goods, negligence, strict liability, nuisance and defamation. The law relating to compensation for personal injury.
Corequisite: LAW 298 or 299

To complete this course students must enrol in LAW 231 A and B

LAW 241A 15 Points
LAW 241B 15 Points

Law of Contract
The general principles of contract law including: the formation of contracts at common law, New Zealand contract legislation, breach of contract, and remedies
LAW 299
Legal Research 2
An introduction to multi-jurisdictional legal information sources and advanced research skills.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299

Stage IV

LAW 400
Legal Research 3
Completion of legal research requirements as approved by the Faculty of Law, including moot participation and opinion writing.

LAW 410
Special Topic

LAW 411
Special Topic

LAW 456
Supervised Research
A research paper, approved by the Dean of Faculty of Law, written under the supervision of a teacher in the Faculty of Law.

LAW 458
Legal Ethics
A study of legal ethics and professional responsibility including: an introduction to ethical analysis which examines various theories of ethics; the applicability of ethical analysis to legal practice; the concept of a profession and the ethical and professional duties of practitioners (which will include, amongst other topics, conflicts of interest, confidentiality, duties to the court, duties of loyalty and fidelity); the wider responsibilities of lawyers in the community.

LAW 498
Legal Practice
Such work and practical experience in the detailed application of the law and in relation to the provision of legal services as approved by the Faculty of Law.

LAW 700
Legal Research Methodology and Advanced Writing - Level 9
Multi-jurisdictional legal information sources and advanced legal research, research problem formulation and refinement, legal and social science research methodologies, research ethics and evaluative research trail. Legal writing for different purposes and different audiences.

LAW 701
The Legal System: Sources, Structure and Method - Level 9
Examination of the core substantive components of the New Zealand legal system, in comparison with other
municipal legal systems and international law. Analysis of the sources of New Zealand law, including statute, case law and custom, and the influence of international law. Legal methodology in theory and practice, including: judicial reasoning and the doctrine of precedent, techniques of statutory interpretation, and the resolution of disputes. Different modes of legal analysis and approaches to legal theory.

**LAW 760 15 Points**
**Directed Study - Level 9**
Supervised research paper on an advanced legal topic, approved by the Dean of Faculty of Law.

**LAW 790 30 Points**
**Dissertation - Level 9**
A dissertation of approximately 15,000 words resulting from original research of the student, having the scope, and depth of research, of a competent law review article.

**LAW 794A 45 Points**
**LAW 794B 45 Points**
**Research Portfolio 1 - Level 9**
Supervised research comprising a portfolio of research work within an area of specialisation culminating in a linking paper that together creates a coherent body of scholarly work.

*To complete this course students must enrol in LAW 794 A and B*

**LAW 796A 45 Points**
**LAW 796B 45 Points**
**Thesis 1 - Level 9**
A thesis of approximately 30,000 words resulting from original research of the student, displaying at a minimum: thorough research, a competent advanced understanding of the topic studied, and an ability to present the student's understanding of that topic in an orderly way.

*To complete this course students must enrol in LAW 796 A and B*

**LAW 797A 60 Points**
**LAW 797B 60 Points**
**Thesis 2 - Level 9**
A thesis of approximately 40,000 words resulting from original research of the student, displaying comprehensive understanding of the topic studied and an ability to contribute to the better understanding of that topic.

*To complete this course students must enrol in LAW 797 A and B*

**LAW 798A 60 Points**
**LAW 798B 60 Points**
**Research Portfolio 2 - Level 9**
Supervised research comprising a portfolio of research work within an area of specialisation culminating in a linking paper that together creates a coherent body of scholarly work.

*To complete this course students must enrol in LAW 798 A and B*

**Law Commercial**

**Stage IV**

**LAWCOMM 400 15 Points**
**Contemporary Commercial and Private Law Litigation**
Detailed study of contemporary private law issues in the context of commercial litigation, with a dual focus on substance and litigation practice. Topics (selected based on recent cases) will include discrete legal issues across areas like contract, equity, tort and restitution.

*Prerequisite: LAW 201, 211, 231, 241*

**LAWCOMM 401 20 Points**
**Commercial Law**
An introduction to selected areas of business law, in particular relating to the sale of goods and personal property securities but extending to aspects of consumer laws, guarantees and the impact of new business methods.

*Prerequisite: LAW 201, 211, 231, 241*

**Corequisite: LAW 301, 306**

*Restriction: LAW 415, LAWCOMM 452, 456*

**LAWCOMM 402 20 Points**
**Company Law**
A general introduction to the law relating to companies incorporated under the Companies Act 1993 including the nature of corporate personality, the organisation of decision-making within companies, the making of contracts by companies, the duties of directors and the rights and remedies of shareholders.

*Prerequisite: LAW 201, 211, 231, 241*

*Restriction: LAW 417, LAWCOMM 464*

**LAWCOMM 406 20 Points**
**International Sales and Finance**
Study of the law relating to international trade and transnational business transactions, including international sales contracts and international trade finance, and conflict of laws issues arising out of international trade.

*Prerequisite: LAW 211, 231, 241*

*Restriction: LAW 476*

**LAWCOMM 408 20 Points**
**Special Topic**

**LAWCOMM 409 20 Points**
**Special Topic**

**LAWCOMM 410 15 Points**
**Special Topic**

**LAWCOMM 411 15 Points**
**Special Topic**

**LAWCOMM 412 15 Points**
**Restitution**
A study of the general principles of the law of restitution, including an analysis of the concept of unjust enrichment, selected applications of restitutory principle for the recovery of value upon a flawed or conditioned transfer, recovery outside contract for labour expended on another’s behalf, and stripping wrong-doers of profits.

*Prerequisite: LAW 201, 211, 231, 241*

*Restriction: LAW 366, 451, LAWCOMM 405, LAWHONS 726*

**LAWCOMM 413 15 Points**
**Conflict of Laws**
An introduction to private international law (i.e., the body of law dealing with international civil or commercial issues or disputes that are not governed by substantive conventions) including: a study of the jurisdiction of the New Zealand courts, recognition and enforcement of foreign judgments and decrees, and choice of the governing legal system.

*Prerequisite: LAW 201, 211, 231, 241*

*Restriction: LAW 420, 477, LAWCOMM 407*
LAWCOMM 414  15 Points
Law of Personal Property
Introduction to the concepts and legal rights associated with personal property, covering: possessory rights and relationships, including bailment, reservation of title and security interests in goods, and principles relevant to the transfer and acquisition of personal property.
Prerequisite: LAW 231
Restriction: LAW 311, LAWCOMM 442

LAWCOMM 415  15 Points
Financial Markets Law
An examination of the law regulating the promotion of companies, duties and liabilities of directors and promoters for the promotion of a company, public fund raising in New Zealand, insider trading laws and takeovers, and limited liability partnerships.
Corequisite: LAW 417 or LAWCOMM 402 or 464
Restriction: LAW 487, 490, LAWCOMM 444

LAWCOMM 416  15 Points
Tax Law
A general introduction to tax law including: aspects of tax policy; the structure of the tax system; residence; source; the meaning of income; the deductibility of expenditure; the distinction between capital and revenue; depreciation; avoidance; disputes and rulings; GST.
Prerequisite: LAW 211, 241
Restriction: LAW 429, LAWCOMM 403

LAWCOMM 420  15 Points
Advanced Tax Law
A more advanced study of tax law covering topics such as tax history; tax theory; the taxation of companies; dividends; imputation; groups; losses; qualifying companies; trusts; withholding obligations; accruals; avoidance; international tax; profit reduction techniques; transfer pricing; controlled foreign corporations (CFCs); foreign investment funds (FIFs); tax treaties.
Prerequisite: LAWCOMM 403
Restriction: LAW 429, LAWCOMM 403

LAWCOMM 421  15 Points
Commercial Arbitration
The law and procedure relating to the settlement of domestic and international commercial disputes by arbitration, including a study of key arbitration principles, governing law issues, appointment and duties of arbitrators, the conduct of proceedings, enforcement and judicial review of awards, and international investment arbitration.
Prerequisite: LAW 211, 231, 241
Restriction: LAW 414

LAWCOMM 422  15 Points
Competition Law
A study of the principles of competition law in New Zealand including the effect on competition law of the CER Agreement with Australia. Comparison with the competition laws of other countries including the United States, the European Union and Australia.
Prerequisite: LAW 241 or COMLAW 201 and 203
Restriction: LAW 419

LAWCOMM 423  15 Points
Company Liquidations
Examination of the legal process by which companies are placed in liquidation including: the law on corporate insolvency, and the procedures and the enforcement mechanisms used to give effect to the law; current law and new approaches to insolvency.
Prerequisite: LAW 241
Restriction: LAW 422

LAWCOMM 424  15 Points
Insurance Law
A consideration of the law governing insurance contracts, including the duty of utmost good faith; the interpretation of the policy; the scope of cover; warranties and conditions; the claims process and fraudulent claims; and quantification of the insurer’s obligations; subrogation and recoupment; and third party rights.
Prerequisite: LAW 231, 241
Restriction: LAW 431, LAWCOMM 453, LAWHONS 734

LAWCOMM 425  15 Points
International Trade
Study of the law relating to international trade and transnational business transactions; contracts of carriage; the law and policy surrounding the regulation of the international transportation of goods by sea, land and air.
Prerequisite: LAW 211, 231, 241
Restriction: LAW 436

LAWCOMM 426  15 Points
Law and Information Technology
An introduction to the use of information systems in legal practice and research and the impact of the law on information technology including: computer crimes, torts, intellectual property, evidence, privacy, and the assistance given to lawyers by information retrieval, office management and litigation support systems.
Prerequisite: LAW 201, 231
Restriction: LAW 438

LAWCOMM 427  15 Points
Vendor and Purchaser
A study of the law relating to contracts for the sale and purchase of land, including the formation of the contract, the application of relevant statutes, the basic terms of such contracts and their significance, matters of title, settlement and completion, and remedies for breach.
Corequisite: LAW 301
Restriction: LAW 454

LAWCOMM 428  15 Points
Maritime Law
An introduction to shipping law, including an overview of the contracts commonly used for maritime activity; charterparty contracts for the use of ships; contracts for the carriage of goods with a focus on bills of lading; New Zealand domestic legislation relevant to maritime activity; marine insurance; admiralty jurisdiction and the practice of Admiralty law; collision between vessels; the law of salvage, general average and towage.
Prerequisite: LAW 211, 231, 241
Restriction: LAW 459

LAWCOMM 429  15 Points
Advanced Tort
Explores in depth issues touched on in LAW 231 and introduces new causes of action. Topics will include some or all of the following: the recovery of economic loss in negligence, negligent misrepresentation, vicarious liability, factual causation, nonfeasance, the economic torts, the effect of statutes and contracts on the law of tort, and damages.
Prerequisite: LAW 231
Restriction: LAW 484
LAWCOMM 432  15 Points
Corporate Transactions
A study of corporate transactions in operation, with particular reference to the legal and practical processes involved in the formation and implementation of such major business transactions as are typical in the life cycle of a business. The particular transactions focused upon may vary from year to year.
Prerequisite: LAW 241
Restriction: LAW 493

LAWCOMM 433  15 Points
Copyright and Design
An in-depth examination of the law of copyright and registered designs in New Zealand and Australia, including the relationship between copyright and design protection.
Prerequisite: LAWCOMM 404 or LAWCOMM 458

LAWCOMM 434  15 Points
Advanced Contract
Advanced studies in selected areas of Contract Law.
Prerequisite: LAW 241

LAWCOMM 435  15 Points
European Commercial Litigation
A study of jurisdiction, choice of law and enforcement of judgments in cross-border commercial litigation within the European Union; consideration of specific EU Regulations, such as Brussels I, Rome I and Rome II.
Prerequisite: LAW 241
Restriction: LAWCOMM 443, LAW 475

LAWCOMM 436  15 Points
Advanced Company Law
Study in selected areas of company law including theories of the company, companies viewed from a law and economics perspective, the relationship between the board and shareholders, the place of corporate social responsibility, comparative corporate law and current issues in company law.
Prerequisite: LAWCOMM 402

LAWCOMM 437  15 Points
Iwi Corporate Governance
An examination of the common governance structures employed by iwi, why those structures are chosen and the legal and practical issues that arise as a result. Aspects of the law related to trusts, limited partnerships, charities and Māori Authorities, and how they may be interwoven within one overarching structure.
Prerequisite: LAW 211, 241
Restriction: LAW 497

LAWCOMM 440  10 Points
Guarantees and Indemnities
An introduction to the law regarding guarantees and indemnities in New Zealand. The course will mainly focus on guarantees, although indemnities will also be covered.
Prerequisite: LAW 241
Restriction: LAW 401

LAWCOMM 441  10 Points
Creditors’ Remedies
Examination of the diverse and seemingly unrelated areas of the law as they concern the rights of unsecured judgement creditors.
Prerequisite: LAW 241
Restriction: LAW 461

LAWCOMM 445  10 Points
Takeovers
A consideration of the role of takeovers in the economy and the manner in which they are regulated. The principal focuses will be upon the Takeovers Code and upon the workings of the Takeover Panel.
Corequisite: LAW 417 or LAWCOMM 402

LAWCOMM 446  10 Points
Special Topic: Aspects of Iwi Corporate Governance
Prerequisite: LAW 211, 241

LAWCOMM 450  15 Points
International Tax Law
The globalisation of business presents a significant challenge to governments and revenue authorities and opportunities for multinational businesses to be able to locate productive activities, risks, and importantly, profits to any jurisdiction that they wish. This course looks at cross border taxation with emphasis on double tax treaties.
Prerequisite: LAW 211, 241

LAWCOMM 451  15 Points
Construction Law
Examines the law applicable to the lifecycle of a construction and/or infrastructure project, including foundational concepts; the project; post-project claims and latent defects. Covers the statutory and regulatory framework, the contractual matrix, and the law of tort, equity and limitation (as these are applicable to construction and infrastructure projects). Covers legal concepts and jurisprudence unique to construction law.
Prerequisite: LAW 201, 211, 231, 241

LAWCOMM 452  15 Points
Commercial and Consumer Law
A study of the law relating to commercial and consumer law including; the general regime on the sale of goods and its contrast to the Consumer Guarantees Act 1993, selected aspects of carriage of goods and of agency, and the basic disciplines of the Fair Trading Act 1986.
Prerequisite: LAW 201, 211, 231, 241
Corequisite: LAW 301, 306
Restriction: LAW 415, LAWCOMM 401

LAWCOMM 453  10 Points
Aspects of Insurance Law
Covers aspects of the law governing insurance contracts, including the duty of utmost good faith; the interpretation of the policy; the scope of cover; warranties and conditions; the claims process; and quantification of the insurer’s obligation.
Prerequisite: LAW 231, 241
Restriction: LAW 431, LAWCOMM 424, LAWHONS 734

LAWCOMM 456  15 Points
Secured Credit
A detailed study of the law relating to securities over personal property, and related aspects of credit contracts.
Prerequisite: LAW 201, 211, 231, 241
Corequisite: LAW 301, 306
Restriction: LAW 415, LAWCOMM 401

LAWCOMM 457  15 Points
Consumer Law
An in-depth examination of selected aspects of consumer law, including (but not limited to) misleading and deceptive conduct, other unfair practices, unfair contract terms in standard form consumer contracts, consumer guarantees and uninvited direct sales.
Prerequisite: LAW 201, 211, 241

Note: Restrictions and prerequisites are subject to change. Please consult the current academic calendar for the most up-to-date information.

| LAWCOMM 458   | Intellectual Property                      | 15     | Study of the laws which protect the products of intellectual endeavour including: passing-off (and section 9 Fair Trading Act), the Trade Marks Act, the Copyright Act, the action for 'breach of confidence', the Designs Act and the Patents Act. | Pre requisite: LAW 231  
|               | Restriction: LAW 432, LAWCOMM 404          |        |                                                                                                  |
| LAWCOMM 459   | Special Topic: Franchise Law               | 10     | Introduction to the concept of franchising including definitions and alternatives, advantages and disadvantages, the business format franchise model, intellectual property protection, elements of a franchise agreement, cartels legislation and its impact, covenants against competition, unconscionable conduct, unfair contract terms, mediation, and international franchising. | Pre requisite: LAW 241  
|               | Restriction: LAWCOMM 402 or 464            |        |                                                                                                  |
| LAWCOMM 460   | Special Topic                              | 10     |                                                                                                  |
| LAWCOMM 461   | Corporate Insolvency                       | 15     | A study of New Zealand corporate insolvency law, focusing on the commencement of the liquidation and administration process, the inter-relationship of those processes and liquidators' and administrators' powers and liabilities. Topics covered: reckless trading and recovery from directors, the disclaimer of onerous contracts and voidable transactions. Comparative material will be drawn from Australian, Canadian and United Kingdom jurisprudence. | Pre requisite: LAW 231, 241, 298 or 299  
|               | Corequisite: LAW 306, and LAWCOMM 402 or 464 |        |                                                                                                  |
| LAWCOMM 462   | Patents and Related Rights                 | 15     | Australian and New Zealand law relating to patents, including patentable subject matter, ownership, inventorship, validity requirements, patent specification requirements and the law governing infringement. The law relating to the protection of confidential information. A brief introduction to the law relating to plant variety rights. | Pre requisite: LAWCOMM 404 or LAWCOMM 458  
|               | Restriction: LAWCOMM 449                  |        |                                                                                                  |
| LAWCOMM 463   | Trade Marks and Related Rights             | 15     | An examination of the law related to the protection of registered trade marks in Australia and New Zealand. Other legal mechanisms that protect symbols, including the law of passing off, consumer protection legislation, special events legislation and the law relating to geographical indications and domain names. | Pre requisite: LAWCOMM 404 or LAWCOMM 458  
|               | Restriction: LAWCOMM 454                  |        |                                                                                                  |
| LAWCOMM 464   | Company Law                                | 15     | A general introduction to the law relating to companies incorporated under the Companies Act 1993 including the nature of corporate personality, the organisation of decision-making within companies, the making of contracts by companies, the duties of directors and the rights and remedies of shareholders. | Pre requisite: LAW 201, 211, 231, 241  
|               | Restriction: LAWCOMM 402, LAW 417          |        |                                                                                                  |
| LAWCOMM 465   | Theories of Contract Law                   | 15     | Survey and analysis of the main schools of thought and positions in contemporary contract law theory, including: promise theory, transfer theory, economic analysis, communitarian theories and distributive justice theories. Examination of key questions in contract law, such as formation, interpretation and remedies in light of said theories. | Pre requisite: LAW 241  
|               | Corequisite: LAW 316                       |        |                                                                                                  |
|               | Restriction: LAWCOMM 455                  |        |                                                                                                  |
| LAWCOMM 466   | Special Topic                              | 15     |                                                                                                  |
| LAWCOMM 467   | Special Topic: Corporate Governance         | 15     |                                                                                                  |

15 Points

LAWCOMM 755  
**Corporate Finance - Level 9**
30 Points
Detailed study of the law relating to corporate finance. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 758  
**Franchising Law - Level 9**
30 Points
A study of the law relating to franchising. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 767  
**Special Topic: Transfer Pricing - Level 9**
15 Points

LAWCOMM 768  
**Special Topic: Economic Analysis of the Law - Level 9**
15 Points

LAWCOMM 769  
**Special Topic: Economic Regulation: Principles and Practice - Level 9**
15 Points

LAWCOMM 770  
**Private International Law - Level 9**
15 Points
The theory and practice of transnational jurisdiction, choice of law and recognition and enforcement of foreign judgments. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 772  
**Intellectual Property and Practice**
15 Points
An in-depth and detailed examination of the main intellectual property rights and laws and the complexities of their operation within the broader context of the New Zealand and Australian legal systems, including Te Tiriti o Waitangi, its place in the New Zealand legal system and its impact on intellectual property law.
LAWCOMM 773 15 Points
**Corporate Governance in New Zealand - Level 9**
The governance of companies in New Zealand, with a focus on the role of directors and the board. Topics include corporate theory, legal characteristics of the company and internal governance. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 774 15 Points
**Comparative Corporate Governance - Level 9**
A comparison of corporate governance regimes across the world. Current issues in corporate governance are examined - topics may include directors’ remuneration, corporate scandals and responses to corporate scandals. Discussion of convergence of corporate governance regimes is included. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 775A 15 Points
LAWCOMM 775B 15 Points
**International Taxation**
Tests of residence for individuals and corporations. The wider tax base for off-shore income of New Zealand residents. Income derived by overseas residents from New Zealand activities. The Double Tax Treaty System. Selecting the country of residence. Anti-avoidance measures directed at transnational activity. The use of tax havens. As well as New Zealand taxation law, the course also examines the municipal revenue law of some of our trading partners. Involves individual research resulting in a substantial individual research essay.

To complete this course students must enrol in LAWCOMM 775 A and B

LAWCOMM 777 30 Points
LAWCOMM 777A 15 Points
LAWCOMM 777B 15 Points
**Special Topic**
Restriction: COMLAW 755
To complete this course students must enrol in LAWCOMM 777 A and B, or LAWCOMM 777

LAWCOMM 778 15 Points
**Special Topic: Selected Topics in Tort Law - Level 9**

LAWCOMM 779 15 Points
**Special Topic: Asia Pacific Tax - Level 9**

LAWCOMM 780 15 Points
**Corporation and Investor Taxation**
An advanced study of the tax liability and issues affecting companies and their shareholders. Considers the different corporate tax regimes, including dividends, imputations, losses and groupings, amalgamations, LTCs and Unit Trusts. Comparison with other entities is intended to provide a deeper understanding of the policy behind New Zealand’s corporate tax regimes and the allocation of the tax burden between companies, shareholders and other investors.
Restriction: COMLAW 746

LAWCOMM 782 15 Points
**Trade Mark Practice**
The law and practice of filing and registering trade mark applications in New Zealand, Australia and other international jurisdictions. The law and practice of maintaining and enforcing registered trade mark rights.
Corequisite: LAWCOMM 796

LAWCOMM 783 15 Points
**Avoidance Provisions**
An advanced study of all aspects of the general anti-avoidance provision contained in the Income Tax Act 2007. Provides a detailed analysis of the structure, function and application of the general anti-avoidance provision and of its relationship to the "black-letter" tax law. Comparisons with the statutory and common law responses to tax avoidance in other jurisdictions, including Australia, Canada, the UK and US provide a deeper understanding of the policy behind New Zealand’s general anti-avoidance provision.
Restriction: COMLAW 749

LAWCOMM 784 15 Points
**Taxation of Property Transactions**
Examines all of the tax consequences of acquiring, holding, developing, building on, leasing or otherwise dealing with land and personal property.
Restriction: COMLAW 751

LAWCOMM 785 15 Points
**Patent Practice**
The law and practice of obtaining, maintaining and enforcing patent rights in New Zealand, Australia and other international jurisdictions.
Corequisite: LAWCOMM 793

LAWCOMM 786 15 Points
**Tax Administration and Disputes**
An advanced study of the Public Law and procedural issues arising from administration of the Revenue Acts in New Zealand. Provides an analysis of the powers, discretions and responsibility of the Commissioner and the Inland Revenue Department. Major topics include the Department’s assessment function and taxpayer self-assessment, the Binding Ruling regime, the Commissioner’s statutory powers of investigation and information gathering, the exercise of discretions and administrative decisions, and the role of judicial review.
Restriction: COMLAW 753

LAWCOMM 787 15 Points
**Taxation of Trusts and Non-corporate Entities**
An advanced study of the tax liability of different business structures and their members, particularly non-corporate entities. Considers the different tax regimes applicable to trusts, partnerships and limited partnerships, Portfolio Investment Entities (PIEs), charities and Māori authorities. Comparison between these entities provides a deeper understanding of the policy behind New Zealand’s tax regimes and the allocation of the tax burden between companies and other entities.

**Dissertation in Taxation Law - Level 9**
Restriction: COMLAW 790, 792

LAWCOMM 791 15 Points
**Patent Drafting**
The law and practice of drafting patent specifications to accompany patent applications.
LAWCOMM 792  45 Points
Dissertation in Taxation Law - Level 9

LAWCOMM 793  15 Points
Patent Law - Level 9
Australian and New Zealand law relating to patents, including patentable subject matter, ownership, inventorship, validity requirements, patent specification requirements and the law governing infringement. The law relating to the protection of confidential information. Involves individual research resulting in a substantial piece of research writing.
Corequisite: LAWCOMM 772

LAWCOMM 794A  45 Points
LAWCOMM 794B  45 Points
Thesis in Taxation Law - Level 9
Restriction: COMLAW 794
To complete this course students must enrol in LAWCOMM 794 A and B

LAWCOMM 795  15 Points
Copyright and Design - Level 9
An in-depth examination of the law of copyright and registered designs in New Zealand and Australia, including the relationship between copyright and design protection. Involves individual research resulting in a substantial piece of research writing.
Corequisite: LAWCOMM 772
Restriction: LAWCOMM 433

LAWCOMM 796  15 Points
Trade Marks and Related Rights - Level 9
An examination of the law related to the protection of registered trade marks in Australia and New Zealand. Other legal mechanisms that protect symbols, including the law of passing off, consumer protection legislation, special events legislation and the law relating to geographical indications and domain names. Involves individual research resulting in a substantial piece of research writing.
Corequisite: LAWCOMM 772
Restriction: LAWCOMM 463

LAWCOMM 797  15 Points
Interpretation and Validity of Patent Specification
The law and practice of interpreting a patent specification for validity and infringement purposes.

Law Environmental

Stage IV

LAWENVIR 402  20 Points
Special Topic

LAWENVIR 403  20 Points
Special Topic

LAWENVIR 404  15 Points
Climate Change Law
An introduction to and critical examination of multi-sourced climate change law from a New Zealand perspective. Against the relevant international law backdrop, the course critically surveys and assesses domestic New Zealand climate change law including the ‘zero-carbon’ legislative framework, emissions trading, common law, climate change under planning and environmental law, and the emerging legal regime on managed retreat.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or LAW 201, 211, 231, 241

LAWENVIR 420  15 Points
Global Environmental Law
Concepts, principles, customs, and treaties of international law as related to the protection of the global environment including: prevention of pollution, protection of the marine environment, ozone layer protection, climate change, biodiversity, the UNCED process and the legal framework for sustainable development.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or LAW 201, 211, 231, 241
Restriction: LAW 433

LAWENVIR 421  15 Points
Energy and Natural Resources Law
An examination of the common law principles, legislation, and administrative controls in New Zealand relating to ownership of, prospecting for, extraction and use of, minerals (including oil and gas), alternative energy resources, forestry and fisheries resources.

Complex Litigation  
The rise of globalisation and technology has created complex litigation challenges for victims of mass harms nationally and internationally. This course examines comparative theoretical, ideological and economic policies which underpin complex litigation systems with a particular focus on the use of regulatory actions, class actions and litigation funding entities. It also examines major procedural and substantive issues that arise in the context of national and international complex civil litigation.  
Prerequisite: LAW 201, 211, 231, 241, 301, 306, 316  
Restriction: LAWGENRL 457  

LAWGENRL 407  
Special Topic: Indigenous Peoples, Criminal Law and Justice  
An examination of contemporary issues in criminal law and justice concerning Indigenous peoples in Aotearoa New Zealand and internationally. Topics covered include: Indigenous peoples’ experiences of state criminal justice systems, efforts to incorporate Indigenous law and cultural practices into state criminal law and criminal justice systems, and Indigenous legal responses to wrongdoing.  
Prerequisite: LAW 201  

LAWGENRL 408  
Special Topic: Technology Law and Policy  
Considers the most critical issues in the intersection between technology, law and policy. The course examines how technological change affects, and is in turn affected by, legal and policy frameworks. In particular, it focuses on emerging technologies such as artificial intelligence, blockchain and cryptocurrency, and the subsequent challenges for law and society.  
Prerequisite: LAW 201, 211, 231, 241  

LAWGENRL 409  
Special Topic  

LAWGENRL 410  
Special Topic: Comparative Health Law and Policy  
An examination of domestic health care systems using a transdisciplinary lens with a specific focus on the roles that legal, economic, political, cultural, and ethical forces play in the development and regulation of health care systems around the world. Students will analyse the use of law and regulation to design and reform health care.  
Prerequisite: LAW 201, 211, 231, 241, 298 or 299  

LAWGENRL 411  
History of the Law of Obligations  
The doctrinal history of the law of contract, tort and unjust enrichment from the twelfth century to the twentieth century. Original primary materials in the form of case law and legal treatises are considered.  
Prerequisite: LAW 231, 241  
Restriction: LAWGENRL 445, LAWHONS 740  

LAWGENRL 412  
Special Topic  

LAWGENRL 413  
Animals and the Law  
The history, philosophy, and ethics of humanity’s treatment of animals; relevant legislation and case law. Topics include: the development of the humane movement; consideration of whether all animals should be treated as property and the justification for such an approach; the development of animal protection legislation and what it does for animals; and the emergence of a concept of Animal Rights; the use of animals in farming, entertainment, research, and in a companion animal context; enforcement and sentencing of animal welfare offending; and international trends and developments in animal law.  
Prerequisite: LAW 211  
Restriction: LAW 462, LAWGENRL 442  

LAWGENRL 414  
“Justice” in Sentencing  
Concepts of “Justice” in the sentencing process in Aotearoa are examined and critiqued from multiple perspectives with a particular focus on te ao Māori and an emphasis on the practical elements involved in sentencing advocacy.  
Prerequisite: LAW 201  
Restriction: LAWGENRL 456  

LAWGENRL 415  
Evidence  
An overview of the rules related to the presentation of proof in New Zealand courts (civil and criminal) and tribunals, including the rules relating to hearsay, opinion evidence, privilege, examination of witnesses, confessions and the exclusion of illegally obtained evidence.  
Prerequisite: LAW 201, 211  
Restriction: LAW 425, LAWGENRL 401  

LAWGENRL 416  
Directed Study  
Directed study on a topic approved by the Academic Head or nominee.  
Prerequisite: LAW 201, 211, 231, 241  

LAWGENRL 418  
Community Law Internship  
Participation in and report on an approved internship involving at least 115 hours internship with an approved organisation in a community context, and evaluation of the issues arising therefrom.  
Prerequisite: LAW 201, 211, 231, 241, 298 or 299  
Restriction: LAWGENRL 405, 447  

LAWGENRL 420  
Advocacy  
An introduction to the general principles of trial and appellate advocacy in civil and criminal cases, the study of trial preparation and performance with a focus on practical instruction (including demonstrations and exercises which are videotaped and critiqued) and the study of tactical and ethical issues facing litigators.  
Prerequisite: LAW 301, 306  
Restriction: LAW 347, 410
LAWGENRL 421  
Civil Procedure
Studies in civil processes and procedures, with a focus on the New Zealand Senior Courts (High Court, Court of Appeal, Supreme Court). Covers commencement of proceedings (stating a case and a defence), case management processes, interlocutory steps, discovery, evidence and trial processes, costs and appellate procedures.  
Prerequisite: LAW 201, 211, 231, 241  
Restriction: LAW 413

LAWGENRL 422  
Women and the Law
A study of the dual role of law in addressing and maintaining gender inequality, feminist thought on the gendered nature of law, and specific legal issues relevant to the status and interests of women in society.  
Prerequisite: LAW 201, 211  
Restriction: LAW 437

LAWGENRL 423  
Legal History
Historical analysis of problems currently facing the law in Aotearoa New Zealand with reference to both English sources and indigenous developments.  
Prerequisite: LAW 211  
Restriction: LAW 441

LAWGENRL 424  
Negotiation, Mediation and Dispute Resolution
An introduction to negotiation, mediation and dispute resolution covering: (i) a conceptual study of these processes including the study of the function of law, roles of lawyer, ethics, analysis, cultural and socio-economic factors; and (ii) a practical study of these processes including criteria for choosing resolution methods, techniques, attitudes, problem solving strategies, communication techniques, and effectiveness.  
Restriction: LAW 447

LAWGENRL 425  
Psychiatry and the Law
A general introduction to the formal relationship between psychiatry and law; the legal processes affecting compulsory assessment and treatment, including consideration of constitutional and cultural issues, patients' rights and the review process; and the law and practice concerning forensic patients.  
Prerequisite: LAW 201  
Restriction: LAW 448

LAWGENRL 426  
Roman Law
The significance of Roman Law as an enduring legacy from the ancient world to the modern; a study of the sources and historical development of Roman law; and a study of selected aspects of Roman law with a focus on the law of obligations: contract, quasi-contract, delict, quasi-delict. Translations of original primary materials in the form of the Institutes of Gaius, Justinian's Institutes and Justinian's Digest are considered.  
Prerequisite: LAW 231, 241

LAWGENRL 427  
Equitable Remedies
Examination of the more important remedies and orders granted in the court's equitable jurisdiction (excluding constructive trusts). Particular attention is directed to remedies in aid of judgment and interlocutory orders to maintain the court's authority over the parties or their property.  
Prerequisite: LAW 306  
Restriction: LAW 481

LAWGENRL 428  
South Pacific Legal Studies
Legal study of Pacific Island states located in the regions of Micronesia, Melanesia and Polynesia. Distinctive features of law arising in Pacific states, for example sources of law; relationships between custom and imported concepts of law; legal pluralism; corruption and anti-corruption measures; democracy and governance; land law; constitutional crises and constitutional developments; environmental and trade issues; regional issues; human rights issues.  
Prerequisite: 30 points at Stage II in International Relations and Business or LAW 211  
Restriction: LAW 486

LAWGENRL 429  
Law of Family Property
Advanced study of the law of property in family contexts, including trusts, succession, and matrimonial property.  
Corequisite: LAWGENRL 402 or 433  
Restriction: LAW 407

LAWGENRL 430  
Advanced Family Law
Advanced problems in selected areas of family law.  
Prerequisite: LAWGENRL 402 or 433  
Restriction: LAW 407

LAWGENRL 431  
Healthcare Law
An introduction to the legal and ethical issues related to health care delivery including: the purchase and provision of health services, the relationship between health providers and consumers, professional accountability, codes of rights, legal and ethical issues at the start and end of life, and biomedical research.  
Prerequisite: LAW 211, 231  
Restriction: LAW 427

LAWGENRL 432  
Family Law
The law relating to cohabitation and marriage, the establishment of parenthood, and the relationship between parent and child. Study of the interrelationship between the state, the family and child protection and support.  
Prerequisite: LAW 211  
Restriction: LAW 426, LAWGENRL 402

LAWGENRL 430  
Trial Advocacy
Examines the principles of trial advocacy in both civil and criminal cases; practical instruction; related procedural, tactical and ethical issues.  
Prerequisite: LAW 301, 306  
Corequisite: LAWGENRL 401  
Restriction: LAW 347, 410, LAWGENRL 420, LAWHONS 707

LAWGENRL 435  
Theories of Private Law
Different theories of private law and how it leads to different solutions to concrete legal questions. This course explores some of the main schools of normative thought in contemporary private law theory. It examines the key concepts and values associated with each theory before considering different theoretical frameworks for
understanding two of the main categories of private law: property and contract.
Prerequisite: LAW 231, 241
Restriction: LAWHONS 739

LAWGENRL 436 15 Points
Air and Space Law
Examines important aspects of international air and space law using examples of how the international law has been implemented and applied in the New Zealand legal system including topical aviation industry issues.
Prerequisite: LAW 211, 241

LAWGENRL 438 10 Points
Housing Law and Policy
An examination of the law and the policy considerations that relate to residential housing including: the historical development and current state of residential tenancy protection legislation; the relationship between social policy and housing regulation; human rights and social equity considerations; economic measures to achieve government policy objectives for housing; regulating the private rental market; property rights and security of tenure issues; 'consumer protection' measures to ensure safe and habitable housing; housing and natural disasters; retirement housing; new forms of housing ownership; and dispute resolution.
Prerequisite: LAW 301

LAWGENRL 439 15 Points
Housing Law and Policy
An examination of the law and policy relating to residential housing including: human rights and social equity considerations; the role of government and social policy on housing; forms of housing ownership; residential tenancy legislation; regulating the private rental market; measures to ensure safe and habitable housing; retirement housing; housing for disabled persons; and housing following natural disasters.
Prerequisite: LAW 301
Restriction: LAWGENRL 438

LAWGENRL 440 10 Points
Youth Justice
An examination of why children and young people may be treated differently by criminal justice systems; comparison of the unique New Zealand youth justice system with international developments; consideration of particular topics, including the response to Māori young people and issues arising from the gender of young offenders.
Prerequisite: LAW 201, 211
Restriction: LAW 439, LAWGENRL 454

LAWGENRL 443 10 Points
Introduction to Common Law
The history, nature and evolution of the Common Law; common law reasoning; the interaction of case law and legislation in a common law system.
Restriction: LAW 472

LAWGENRL 444 10 Points
Contemporary Issues in Land Law
Study of selected contemporary issues in real property. Topics may include: legal theory of real property; the constitution and takings of private property; state regulation of private property; the law of public recreational access, particularly to the waterfront; indigenous challenges to Crown ownership and governance of land, including the beds of water bodies and national parks; the aims of the Torrens system; and implications of reform of the Land Transfer Act 1952, in particular relating to land covenants, fraud and exceptions to indefeasibility.
Prerequisite: LAW 301

LAWGENRL 445 10 Points
The History of the Law of Obligations
The doctrinal history of the law of contract, tort and unjust enrichment from the twelfth century to the twentieth century. Original primary materials in the form of case law and legal treatises are considered.
Prerequisite: LAW 231, 241
Restriction: LAWGENRL 423, LAWHONS 740

LAWGENRL 446 10 Points
Pacific People in Aotearoa: Legal Peripheries
Examines and critiques certain areas and aspects of the law and legal system in New Zealand of particular relevance for Pacific people and communities.
Prerequisite: LAW 211

LAWGENRL 447 10 Points
Community Law Project
Participation in and report on an approved project involving at least 75 hours with an approved organisation in a community context, and evaluation of the issues arising therefrom.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299
Restriction: LAWGENRL 405

LAWGENRL 448 10 Points
Selected Topics in Health Care Law
A selection of topics designed to consolidate and advance understanding of the theory and practice of health care law. The topics covered will vary according to current legal developments, but are likely to include: the law relating to human research and experimentation; legal and ethical issues in abortion, human reproduction, and assisted reproductive technologies; organ and tissue donation; the sterilisation of mental incompetents; the regulation of health professions, medical manslaughter and the disciplinary process; legal issues arising in human genetics, stem cell research, human reproductive cloning. An opportunity for an in-depth examination of relevant, current legal developments relating to health professional practice and patients' rights.
Prerequisite: LAW 211, 231
Restriction: LAW 468

LAWGENRL 449 10 Points
Selected Topics in Media Law
The law governing the media and journalists. Topics to be covered will include some of: defamation, contempt of court, breach of confidence, privacy, the broadcasting legislation, censorship and copyright.
Prerequisite: LAW 211, 231
Restriction: LAWHONS 721

LAWGENRL 450 10 Points
Public Authority Liability
Detailed consideration of the bases in both public and private law on which public authorities or the Crown may be liable to compensate private individuals or entities, and the debates surrounding this issue; the interface between private and public law.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAW 466, LAWPUBL 450, LAWHONS 742

LAWGENRL 452 15 Points
Appellate Advocacy
General principles of appellate advocacy in both civil and
criminal cases; practical instruction; related procedural, tactical and ethical issues.

**Prerequisite:** LAW 301, 306

**Corequisite:** LAWGENRL 401

**Restriction:** LAW 347, 410, LAWGENRL 420, LAWHONS 707

**LAWGENRL 453**  
15 Points  
**Privacy Law**

An examination of the Law relating to privacy in New Zealand with special reference to the common law protection of privacy; the protection of privacy under the Broadcasting Act 1989; and the scope and application of the Privacy Act 2020.

**Prerequisite:** LAW 211, 231  
**Restriction:** LAWGENRL 440

**LAWGENRL 455**  
10 Points  
**Economic Analysis of Public and Private Law**

Examines the role economic thinking can play in legal reasoning. Key economic concepts. Economic analysis applied to tort and contract law, constitutional and public international law, and judicial decision-making.

**Prerequisite:** LAW 211, 231, 241

**LAWGENRL 457**  
10 Points  
**Special Topic: Complex Litigation**

The rise of globalisation and technology has created complex litigation challenges for victims of mass harms nationally and internationally. This course examines comparative theoretical, ideological and economic policies which underpin complex litigation systems with a particular focus on the use of regulatory actions, class actions and litigation funding entities. It also examines major procedural and substantive issues that arise in the context of national and international complex civil litigation.

**Prerequisite:** LAW 201 and 211 and 231 and 241 and 298; or LAW 201 and 211 and 231 and 241 and 299

**LAWGENRL 458**  
15 Points  
**Pasifika Peoples and the Law**

Undeniably, Pasifika peoples in Aotearoa experience a number of inequalities. However, the complex relationships between these inequalities and the law are rarely explored in legal education and scholarship. Therefore, this course aims to give students an understanding of these relationships by encouraging the use of critical perspectives to examine a range of socio-legal issues facing Pasifika communities in Aotearoa today.

**Prerequisite:** LAW 201, 211, and 298 or 299

**LAWGENRL 459**  
15 Points  
**Race and the Law**

Examines the relationship between race, power and the law in Aotearoa and beyond. Areas of focus will include the changing conceptualisations of race, racism, discrimination, implicit and institutional bias. Students will also examine approaches to racial justice (from Critical Race Theory to Abolition movements) and consider how they understand and address the issues facing communities of colour today.

**Prerequisite:** LAW 201, 211, 231, 241, 298 or 299

**LAWGENRL 460**  
15 Points  
**International Mooting**

Students selected to represent the Faculty of Law in approved international mooting competitions will complete independent research, draft written submissions and present oral argument on complex areas of international law which will be overseen by faculty advisers.

**Prerequisite:** LAW 201, 211, 231, 241, 298 or 299

**LAWGENRL 461**  
15 Points  
**Special Topic**

**LAWGENRL 464**  
15 Points  
**Introduction to Common Law**

The history, nature and evolution of the Common Law; common law reasoning; the interaction of case law and legislation in a common law system.

**Restriction:** LAW 472, LAWGENRL 443

**Postgraduate 700 Level Courses**

**LAWGENRL 702**  
30 Points  
**Foundations of Human Rights - Level 9**

A study of the moral and jurisprudential basis for human rights and for their protection through law including a study of the major theories of justice and rights. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 711**  
30 Points  
**Special Topic: Corruption: Comparative and International Approaches - Level 9**

**LAWGENRL 712**  
30 Points  
**Therapeutic Jurisprudence - Level 9**

The role of the law as a therapeutic agent. The impact of the law on emotional life and psychological wellbeing. Investigation of different areas of the practice of law that may be susceptible to a therapeutic jurisprudence analysis, including drug treatment and mental health courts. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 713**  
30 Points  
**Selected Issues in Family Law - Level 9**

**LAWGENRL 714**  
30 Points  
**Restorative and Therapeutic Justice - Level 9**

30 Points  
**Special Topic: Law and Computer Science - Level 9**

**LAWGENRL 720**  
30 Points  
**Law of Evidence - Level 9**

Fundamental principles and policies central to the law
of evidence in modern times; consideration of how successfully these competing principles and policies are balanced within New Zealand’s legislation governing the admission of evidence: the Evidence Act 2006. Using examples from New Zealand and abroad, consideration of how these principles and policies interact in particular cases in criminal proceedings. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 721 30 Points
Mediation - Level 9
The nature of mediation and its strategic advantages and disadvantages, the legal framework of mediation (including the limits of confidentiality and privilege), negotiation theory and effective client representation in mediation. A central focus on current theoretical issues in dispute resolution such as ethical dilemmas, power dynamics in mediation and the future of the justice system. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 722 15 Points
Comparative Law - Level 9
Comparative law, theory and methodology. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 723 15 Points
Special Topic: Selected Topics in Law of Evidence and Criminal Procedure - Level 9
LAWGENRL 724 15 Points
Miscarriage of Justice - Level 9
LAWGENRL 725 15 Points
Special Topic: Human Rights in their Commercial Context in Aotearoa - Level 9

Special Topic - Level 9
LAWGENRL 770 15 Points
Ideas of Land - Level 9
An exploration of the challenges posed to legal thinking by social and environmental issues in the twenty-first century. Examination of some central tensions in the theory of property law. The history of common law ideas of land. Debates about theories of property in light of selected current issues in the law. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 771 15 Points
Mediation Theory and Practice - Level 9
The mediation process, advantages and disadvantages of mediation, the landscape of mediation in New Zealand and internationally, some basic legal framework issues, the role of mediation in the civil justice system, consideration of some issues surrounding ethics, gender and race dynamics and online mediation. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 772 15 Points
Mediation Advocacy - Level 9
A study of the practice and skills of representing clients effectively in mediation including tactical and ethical issues facing mediators. The relevant legal framework in detail, including the enforceability of mediation agreements, confidentiality and privilege issues, power dynamics and how to deal with common problems in mediation. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 773 15 Points
Theoretical Issues in Therapeutic Jurisprudence - Level 9
An exploration of the theoretical underpinnings of the idea of law as a therapeutic agent. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 774 15 Points
The Practice of Therapeutic Jurisprudence - Level 9
Building on Theoretical Issues in Therapeutic Jurisprudence, this course investigates different areas of the practice of law that may be susceptible to a therapeutic jurisprudence analysis, including drug treatment and mental health courts. Involves individual research resulting in a substantial individual research essay. 
Prerequisite: LAWGENRL 773

Studies in Company Law and Contract Law
An advanced study of selected topics in the areas of company law and contract law, including the relationship between directors, theories of the company, comparative corporate law, shareholders and the company, consideration
of the history of contract law, various jurisprudential and/or comparative approaches to contract law, various doctrines of contract law and potential statutory reform of contract law.

Corequisite: LAWCOMM 402

To complete this course students must enrol in LAWHONS 738 A and B

LAWHONS 739A 10 Points
LAWHONS 739B 10 Points

Theoretical Foundations of Private Law

Explores some of the main schools of thought in contemporary private law theory, including formalism, realism, economic analysis and critical legal studies. Examines the key concepts and values associated with each theory before considering different theoretical frameworks for understanding two of the main categories of private law: property and contract.

To complete this course students must enrol in LAWHONS 739 A and B

LAWHONS 740A 10 Points
LAWHONS 740B 10 Points

The History of the Law of Obligations

The doctrinal history of the law of contract, tort and unjust enrichment from the twelfth century to the twentieth century. Original primary materials in the form of case law and legal treatises are considered.

Restriction: LAW 356, LAWGENRL 445

To complete this course students must enrol in LAWHONS 740 A and B

LAWHONS 741A 10 Points
LAWHONS 741B 10 Points

Indigenous Peoples and the Law

An overall consideration of Indigenous peoples in international, constitutional and human rights law in New Zealand and internationally.

Restriction: LAW 221, LAW 222, LAWPUBL 446

To complete this course students must enrol in LAWHONS 741 A and B

LAWHONS 742A 10 Points
LAWHONS 742B 10 Points

Public Authority Liability

Covers the various public and private law bases for monetary liability of public authorities (with a focus on torts); the doctrinal and policy debates surrounding such liability; the uncertain interface between private and public law.

Restriction: LAW 466, LAWGENRL 450, LAWPUBL 450

To complete this course students must enrol in LAWHONS 742 A and B

LAWHONS 743A 10 Points
LAWHONS 743B 10 Points

Refugee and Immigration Law

Advanced studies on a range of refugee and immigration law matters including: the history and development of the international refugee system, changing understandings of refugees, detention systems and camps, people smuggling, themes in New Zealand immigration law history, the securitisation of immigration law and prospects of a borderless world. The course will incorporate history, theory, policy and critical analysis.

To complete this course students must enrol in LAWHONS 743 A and B

LAWHONS 744 20 Points
LAWHONS 744A 10 Points
LAWHONS 744B 10 Points

Special Topic: Privacy Law

To complete this course students must enrol in LAWHONS 744 A and B, or LAWHONS 744

LAWHONS 745 20 Points

Corporate Governance

A study of the governance of corporations adopting comparative, and law-and-economics perspectives including the role and obligations of the board, the legal and economic relationships between corporate constituents, and trends and developments in corporate governance.

LAWHONS 745A 10 Points
LAWHONS 745B 10 Points

Concepts in Law and Security

An in-depth analysis of theoretical concepts related to law and security. The aims of the course are to introduce students to key concepts in the relevant academic discourse, to explore the ways in which these concepts frame discussions regarding law and security in the post-9/11 era, and to examine the extent to which those concepts influence policy, practice and discourse.

To complete this course students must enrol in LAWHONS 746 A and B

LAWHONS 746A 10 Points
LAWHONS 746B 10 Points

Law of Restitution

A study of the law of just restitution, including its general principles, the concept of unjust enrichment, and the relationship of the subject with other areas of law, including the law of property, contract law, and the law of tort. Consideration is also given to selected areas of practical application, such as the reversal of transfers for mistake, impaired judgement, duress and failure of conditions, and profiting from wrongs.

To complete this course students must enrol in LAWHONS 747 A and B

LAWHONS 747A 10 Points
LAWHONS 747B 10 Points

Special Topic: International Taxation

Tests of residence for individuals and corporations. The wider tax base for off-shore income of New Zealand residents. Income derived by overseas residents from New Zealand activities. The Double Tax Treaty System. Selecting the country of residence. Anti-avoidance measures directed at transnational activity. The use of tax havens. As well as New Zealand taxation law, the course also examines the municipal revenue law of some of our trading partners. Involves individual research resulting in a substantial individual research essay.

To complete this course students must enrol in LAWHONS 748 A and B

LAWHONS 748A 10 Points
LAWHONS 748B 10 Points

Special Topic: Global Environmental Law

Examines environmental law and governance from the international, regional and national levels. The global coverage includes international environmental law and draws on experiences from the European Union, United States, Canada, South America, Australia and New Zealand. The topics include state sovereignty, the UN system, principles and sources of international environmental law, climate change, biodiversity, human rights and current
development in global and domestic environmental governance.

LAWPUBL 409B 5 Points  
Special Topic  
Prerequisite: LAW 201, 211, 231, 241  
Restriction: LAWPUBL 470  
To complete this course students must enrol in LAWPUBL 409 A and B

LAWPUBL 410 15 Points  
International Law  
An introduction to public international law including an overview of the current legal framework, the sources of international law, the law of treaties, international personality, state responsibility, international dispute resolution and selected current issues.  
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 201, 231, 241  
Restriction: LAW 435, LAWPUBL 402

LAWPUBL 411 15 Points  
Local Government Law  
The law relating to the structure, powers and service delivery functions of local government. Examines the history of local government, powers and administrative principles, civil liability, elections, council procedures, works contracts, land valuation, rating systems, environmental functions, bylaws, licensing, roads, public reserves, community services, and civil defence.  
Prerequisite: LAW 201, 211, 231, 241

LAWPUBL 413 15 Points  
Protecting Refugees and Forced Displacement in the 21st Century: Contemporary Law and Practice  
Detailed study of contemporary law and practice relating to the protection of refugees and forcibly displaced people. The intersection of international law with other disciplines, including international relations, development, peace and security, and social studies, provides a broad base to understand applicable legal, political and social policies and discourse to protect displaced people in the twenty-first century.  
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 201, 211, 231, 241

LAWPUBL 414 15 Points  
Administrative Law  
A study of the general principles of judicial review of administrative action, including the ultra vires principle, the substantive and procedural restraints on the exercise of public power, and the remedies available for breach of these principles.  
Prerequisite: LAW 201, 211, 231, 241  
Restriction: LAW 402, 440, LAWPUBL 401, 426

LAWPUBL 420 15 Points  
Contemporary Issues in Criminal Justice  
An examination of selected contemporary issues in criminal justice in Aotearoa New Zealand. Topics may include: whether the criminal justice system in Aotearoa is fit for purpose; punishment and imprisonment; victims and the criminal process; restorative justice; therapeutic jurisprudence; solution-focused courts; family violence; Indigenous peoples and the criminal justice system; media and crime. The focus is on law-in-action and law-in-context.  
Prerequisite: LAW 201  
Restriction: LAW 406, LAWPUBL 463

LAWPUBL 421 15 Points  
Advanced International Law  
Advanced studies in selected areas of the law of nations; a critical analysis of existing and developing international law, and consideration of the relationship between law, economics, politics and international diplomacy.  
Prerequisite: LAW 435 or LAWPUBL 402  
Restriction: LAW 408, LAWPUBL 459

LAWPUBL 422 15 Points  
Contemporary Tiriti/Treaty Issues  
Contemporary legal issues arising under Te Tiriti o Waitangi.  
Prerequisite: LAW 211  
Restriction: LAW 421

LAWPUBL 423 15 Points  
Criminology  
The study of major theories of criminology; the definition, nature and causes of criminal behaviour; the administration of criminal justice; and the interrelation of specific crimes and the criminal justice system.  
Prerequisite: LAW 201, or 121G and either CRIM 201 or 202  
Restriction: LAW 363, 423, LAWHONS 723

LAWPUBL 424 15 Points  
Immigration and Refugee Law  
A consideration of the basic features of the Immigration Act 1987 with emphasis on the role of administrative law in the immigration field, an introduction to the law of refugee status, and the jurisprudence of the New Zealand. Refugee Status Appeals Authority.  
Prerequisite: LAW 211  
Restriction: LAW 428

LAWPUBL 425 15 Points  
Employment Law  
Prerequisite: LAW 231, 241  
Restriction: LAW 430

LAWPUBL 426 15 Points  
Judicial Review  
A study of the general principles of judicial review of administrative action, and remedies available for breach of those principles.  
Prerequisite: LAW 211  
Restriction: LAW 402, 440, LAWPUBL 401
LAWPUBL 427 15 Points
Māori Land Law
Corequisite: LAW 301
Restriction: LAW 359, 444, LAWHONS 719

LAWPUBL 428 15 Points
Rights and Freedoms
The legal modes for protection of civil rights including study of the New Zealand Bill of Rights Act 1990, the Human Rights Act 1993, freedom of speech and religion, criminal procedural rights, equality and the prohibited grounds of discrimination.
Prerequisite: LAW 211
Restriction: LAW 342, 452, LAWHONS 702

LAWPUBL 429 15 Points
Law and Policy
An introduction to different theoretical perspectives on the role of the State and the policy-making process; the policy-making process and the techniques for analysing policy; the process, substance and effects of key policy changes since 1984.
Prerequisite: LAW 211
Restriction: LAW 480

LAWPUBL 430 15 Points
Criminal Procedure
The rules governing the conduct of criminal trials and the investigation of crime. Changes to criminal procedure brought about by judicial interpretation of the New Zealand Bill of Rights Act 1990. Selected topics which may include: search and seizure, name suppression, right to counsel, exclusion of evidence, bail, juries, trial delay.
Prerequisite: LAW 201
Restriction: LAW 482

LAWPUBL 431 15 Points
Advanced Public Law
Advanced studies in selected areas of Public Law.
Prerequisite: LAW 211
Restriction: LAW 483

LAWPUBL 432 15 Points
International Economic Regulation
The growing array of trade and investment, or economic integration, agreements at the multilateral, regional and bilateral levels. Core concepts, theories, institutions and rules from the perspective of public international law, as well as the realpolitik of trade negotiations.
Prerequisite: 30 points at Stage II in International Relations and Business or LAW 211
Restriction: LAW 485

LAWPUBL 434 15 Points
International Criminal Law
The evolution of international criminal law, from the Nuremberg and Tokyo Tribunals to the International Criminal Court. Topics include: the nature and sources of international criminal law; jurisdiction; individual and collective responsibility; substantive crimes and defences; alternatives to criminal trials, such as truth commissions and amnesties.
Prerequisite: LAW 201
Corequisite: LAW 435 or LAWPUBL 402
Restriction: LAW 489

LAWPUBL 435 15 Points
Law of the Sea and Antarctica
A foundational study of the Law of the Sea and the law relating to Antarctica, with specialised work on contemporary legal and policy issues.
Prerequisite: 30 points at Stage II in International Relations and Business, or LAW 211
Restriction: LAW 494, LAWPUBL 462

LAWPUBL 436 15 Points
International Human Rights
An outline of the growing jurisprudence relating to international human rights law, with a particular focus on the case law of the UN Human Rights Committee and the European Court of Human Rights; consideration of the core human rights protected, and the practicalities of how human rights cases are brought before the main adjudicatory bodies.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 211
Restriction: LAW 496

LAWPUBL 438 15 Points
Economic Law
An introduction to the unique organisational structure of the European Union and to its fundamental principles. Topics include: the fundamental structure of the EU; how EU law is made and by whom; the role of the European Courts, and the relationship between EU and national law; and selected areas of EU substantive law, such as the free movement of persons and goods.
Prerequisite: 30 points at Stage II in BGlobalSt courses or LAW 211
Restriction: LAW 498

LAWPUBL 441 15 Points
Nga Tikanga Māori
A study of Māori customary law. Topics that may be covered include: the content of Customary Law as it relates to Māori social and political organisation and land tenure; Customary Law’s interaction with the general (e.g., through statute or the common law); Customary Law and legal pluralism and culture theory; and the role of Customary Law in contemporary Crown-iwi relations.
Prerequisite: LAW 211

LAWPUBL 442 15 Points
Researching Indigenous Rights Theory, Law and Practice
Aims to provide students with the opportunity to develop their research and writing skills, while also acquiring substantive knowledge about indigenous rights law in the context of international law; comparative law; and the domestic law of states. Students will also learn how to research indigenous rights law, for example by learning how to access materials, academic papers, and information.
Prerequisite: LAW 211

LAWPUBL 443 15 Points
Refugee Law
An overview of the international and New Zealand refugee law systems including who is a refugee, the pathways and processes for becoming a refugee, the rights of refugees. Critical approaches to the field of refugee law; discussion of contemporary challenges in the field.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 211
Restriction: LAW 428, LAWPUBL 424

LAWPUBL 444 15 Points
Immigration Law
An overview of the immigration issues in New Zealand. The history of immigration law; examination of some of the key issues in immigration law today including the immigration
law system, citizenship, visas, deportation, appeals and judicial review of immigration decisions and national security issues. Contemporary challenges in the field.

**Prerequisite:** LAW 211

**Restriction:** LAW 428, LAWPUBL 424

**LAWPUBL 445 15 Points**

**European Union Law**
The law related to the European Union and its institutional, economic and social structure as well as the general economic and political implications of the present status of the European Union.

**Prerequisite:** 30 points at Stage II in GlobalSt courses or LAW 211

**Restriction:** LAW 424

**LAWPUBL 446 15 Points**

**Indigenous Peoples in International Law**
An introduction to international law as it relates to Indigenous peoples including: third world approaches to international law; the United Nations Declaration on the Rights of Indigenous peoples; the relationship between international human rights and Indigenous peoples' rights; the universal human rights regime and Indigenous people; regional human rights systems and Indigenous peoples' rights; international economic institutions and Indigenous peoples; business and Indigenous peoples' rights and special topics relevant to Indigenous peoples in the Pacific.

**Prerequisite:** 30 points at Stage II in Global Environments and Sustainable Development or Global Politics and Human Rights, or LAW 211

**LAWPUBL 447 10 Points**

**Statutory Interpretation: Theory and Practice**
The normal mode of legal reasoning and legal argumentation proceeds by way of interpretation: of statutes, of precedents, of contracts etc. This course takes up the systematic study of statutory interpretation. Drawing on examples from different common law jurisdictions, it surveys the traditional techniques employed in the interpretation of statutes and analyses the contemporary debate between different theoretical schools such as textualism, intentionalism, purposivism and pragmatism.

**Restriction:** LAW 488

**LAWPUBL 451 10 Points**

**Counterterrorism Law and Policy**
An examination of various legal issues arising out of the 'global war on terror', including: different paradigms for dealing with emergencies; difficulties of legally defining terrorism; detention of terrorist suspects; ethnic/racial profiling; electronic surveillance; coercive interrogation and torture; targeted killing; criminalisation of offences related to terrorism.

**Prerequisite:** 30 points at Stage II in Global Environments and Sustainable Development or Global Politics and Human Rights, or LAW 201, 211

**Restriction:** LAW 467

**LAWPUBL 452 10 Points**

**Law of Armed Conflict**
The legal rules governing the conduct of hostilities; historical and contemporary operation; associated issues, including treaties and UN peace operations.

**Corequisite:** LAW 435 or LAWPUBL 402

**Restriction:** LAW 473

**LAWPUBL 454 10 Points**

**International Disputes Settlement**
Topics are likely to include: the international law obligation to settle disputes peacefully; legal and political mechanisms for settling international disputes; the establishment and functions of the International Court of Justice; global dispute settlement bodies: dispute settlement system of the World Trade Organization, the Permanent Court of Arbitration, and the International Tribunal for the Law of the Sea; regional tribunals; international criminal courts and tribunals; mixed investor-state dispute settlement.

**Prerequisite:** LAW 211

**Corequisite:** LAW 435 or LAWPUBL 402

**LAWPUBL 455 10 Points**

**The Law of Disarmament**
A legal analysis of the framework governing disarmament and arms control in the international sphere, including (but not limited to) treaties such as the Nuclear Non-Proliferation Treaty, the Comprehensive Test Ban Treaty, the Chemical Weapons Convention, and the Landmines Convention. Relevant case law of the International Court of Justice. The role of civil society in disarmament campaigns.

**Prerequisite:** 30 points at Stage II in Global Politics and Human Rights, or LAW 211

**Restriction:** LAWPUBL 466

**LAWPUBL 456 10 Points**

**Introduction to Criminology**
A study of classical and contemporary theories concerning the nature, causes and effects of crime and delinquency; the varieties of behaviour that society chooses to control or regulate; formal and informal methods and institutions used to achieve crime control; and the operation of various law enforcement, security, correctional and judicial organisations. Throughout the course attention is given to the relationship between theory and practice and students are encouraged to think critically about the implications of criminological research for criminal justice policy.

**Prerequisite:** LAW 201

**Restriction:** LAWPUBL 423

**LAWPUBL 457 10 Points**

**Advanced Employment Law**
Advanced study of both collective and individual aspects of employment law, including comparative treatment of good faith in collective bargaining and ILO conventions. Comparative treatment of tenure in employment, the 'contingent' workforce and transfer of undertakings.

**Prerequisite:** LAWPUBL 425

**Restriction:** LAW 460

**LAWPUBL 458 10 Points**

**Comparative Indigenous Law Topics**
Study of law and legal issues affecting Indigenous peoples in various jurisdictions.

**Prerequisite:** 30 points at Stage II in Global Environments and Sustainable Development or Global Politics and Human Rights, or LAW 211

**Restriction:** LAW 463

**LAWPUBL 459 10 Points**

**Aspects of Advanced International Law**
Advanced studies in selected aspects of international law.

**Prerequisite:** LAW 435 or LAWPUBL 402

**Restriction:** LAW 408, LAWPUBL 421

**LAWPUBL 460 10 Points**

**Comparative Constitutional Law**
Through a comparative approach to constitutional structures, history and constitution-making, this course aims to prepare students both theoretically and practically
to evaluate New Zealand’s constitution and to consider its future.  
*Prerequisite: LAW 211  
*Restriction: LAW 483, LAWPUBL 431*

**LAWPUBL 461  
Indigenous Rights Legal Clinic**  
Explores substantive international and domestic human rights law and associated legal skills taught through a combination of seminars and experiential learning.  
*Prerequisite: LAW 211 or 30 points at Stage II in Global Politics and Human Rights*

**LAWPUBL 462  
Law of the Sea**  
An examination of the history of the development of the law of the sea; the sources of the contemporary law of the sea, leading to the adoption of the 1982 United Nations Convention on the Law of the Sea; and the legal regime of various maritime zones (territorial sea, exclusive economic zone, high seas etc). Particular issues such as the settlement of disputes, maritime delimitation, maritime security, fisheries and bioprospecting are also addressed.  
*Prerequisite: 30 points at Stage II in International Relations and Business, or LAW 211  
*Restriction: LAW 494, LAWPUBL 435*

**LAWPUBL 463  
Advanced Topics in Criminal Law**  
An examination of selected topics in criminal law and the criminal justice process of Aotearoa New Zealand, with comparison to developments in other jurisdictions. Topics may include: victims and the criminal process; restorative justice; therapeutic jurisprudence; solution-focused courts; family violence; indigenous peoples and the criminal justice system; media and crime; and imprisonment. The focus is on law-in-action and law-in-context.  
*Prerequisite: LAW 201  
*Restriction: LAWPUBL 420*

**LAWPUBL 464  
Special Topic**

**LAWPUBL 465  
Special Topic: International Law in Aotearoa/New Zealand**  
Students will consider international law from a New Zealand perspective. The course evaluates how international law shapes New Zealand and operates with(in) its legal system, and focuses on New Zealand’s interaction with, contribution to, and attitude towards different areas of international law.  
*Corequisite: LAWPUBL 402*

**LAWPUBL 466  
Contemporary Issues in Disarmament Law**  
A study of the legal and humanitarian issues relating to arms control and disarmament, including both conventional weapons (landmines, small arms, incendiary weapons for example) and “weapons of mass destruction” (chemical, biological and nuclear weapons). Themes include the role of civil society in law-making, difficulties of verification and dispute resolution and the role of law in disarmament.  
*Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 211  
*Restriction: LAWPUBL 455*

**LAWPUBL 467  
Anti-corruption Law and Democracy**  
The global significance of corruption and its implications for self-government are explored within the context of rising economic and political inequality and illiberal populism. This course asks whether anti-corruption law can respond to democracy’s vulnerabilities and decline. It examines current economic and political trends, anti-corruption law domestically and internationally, and the potential for enhancing the law to better-protect political integrity.  
*Prerequisite: LAW 201, 211  
*Restriction: LAWHONS 735*

**LAWPUBL 468  
Special Topic: Mātauranga Māori and Taonga/Cultural Property and Indigenous Intellectual Property**  
Cultural property topics include: the preservation of cultural heritage; the protection of cultural property during armed conflict; and the restitution and repatriation of cultural objects. Indigenous intellectual property topics include: Māori claims to mātauranga Māori and taonga, with a particular emphasis on Wai 262; and the interface between intellectual property norms and proposals for reform.  
*Prerequisite: LAW 211*

**LAWPUBL 469  
Special Topic**

**LAWPUBL 471  
Special Topic: Local Government Law**  
The law relating to the structure, powers and service delivery functions of local government. This course examines the history of local government, powers and administrative principles, civil liability, elections, council procedures, works contracts, land valuation, rating systems, environmental functions, bylaws, licensing, roads, public reserves, community services, and civil defence.  
*Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Global Politics and Human Rights, or LAW 211  
*Restriction: LAW 463, LAWPUBL 458*

**Postgraduate 700 Level Courses**

**LAWPUBL 700  
The International Legal System - Level 9**  
A discussion of the framework, development and theory of international law. An examination of the key concepts and fundamental principles of international law. Involves individual research resulting in a substantial individual research essay.  
*Restriction: LAW 715*

**LAWPUBL 705  
Criminal Law and Policy - Level 9**  
The history and principles of criminal law, analysis of current issues in substantive and procedural criminal law, criminal justice theory, including the theory of punishment, and criminal law reform. Involves individual research resulting in a substantial individual research essay.  
*Restriction: LAW 715*

**LAWPUBL 707  
Employment Law - Level 9**  
Selected and comparative studies in employment law. Involves individual research resulting in a substantial individual research essay.  
*Restriction: LAW 725*

**LAWPUBL 720  
Local Government Law - Level 9**  
The law relating to the structure, powers and service
delivery functions of local government including: the history of local government, reorganisation schemes, powers and administrative principles, civil liability, elections, council procedures, staff employment, works contracts, financial accountability, land valuation, rating systems, environmental functions and bylaws. Consideration of related public bodies, e.g., education and health authorities. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 725  
**Privacy Law - Level 9**
The law governing data surveillance and techniques of social control through the use of information technology, privacy aspects of the prevention of credit and insurance fraud, criminal investigation and the balance between individual rights and commercial and/or public interests. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 726  
**Public International Law - Level 9**
The principles of international law and their application to municipal law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 730  
**Indigenous Peoples’ Rights in National Law - Level 9**
A study of the application of indigenous peoples’ rights in national jurisdictions including New Zealand, Canada, the United States and select Latin American states. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 732  
**Comparative Indigenous Rights Law - Level 9**
Study of the nature and legal protection of the rights of indigenous persons and groups in international and comparative perspective, including rights to self-government, cultural, religious and linguistic rights. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 736  
**Human Rights Litigation - Level 9**
Study of international conventions and customary international law on human rights, including: free speech, exercise of religion, privacy and nondiscrimination, enforcement mechanisms, human rights theories in international law, third generation human rights including rights to development and a functioning environment, and the recognition of these in international law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 740  
**Special Topic: Advanced Employment Law - Level 9**

LAWPUBL 741  
**Special Topic: International Peace and Security - Level 9**

LAWPUBL 743  
**International Criminal Law - Level 9**
The evolution of international criminal law, from the Nuremberg and Tokyo Tribunals to the International Criminal Court. Topics include the nature and sources of international criminal law, jurisdiction, individual and state responsibility, substantive crimes and defences, and alternatives to criminal trials such as truth commissions and amnesties. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 744  
**Special Topic: Freedom of Speech as Constitutional Principle - Level 9**

LAWPUBL 745  
**Special Topic: Constitution and Custom in the South Pacific - Level 9**

LAWPUBL 746  
**Special Topic: Comparative Health Law and Policy - Level 9**

LAWPUBL 747  
**Special Topic: Patients’ Rights - Level 9**
This wide-ranging course examines key current issues in patients’ rights. Topics may include: access, quality and information, rights to access health care, how the quality of health care is assessed, limits of information disclosure, outcomes data, complaint history, resolution of patient concerns and access to justice, patient protection from incompetence and abusive practitioners and the role of professional discipline.

LAWPUBL 748  
**Special Topic: South Pacific Legal Studies: Critical Issues - Level 9**

LAWPUBL 749  
**Special Topic: Indigenous Persons: Law and Policy - Level 9**

LAWPUBL 751  
**Special Topic: Litigating Human Rights - Law and Practice in Comparative Perspective - Level 9**

LAWPUBL 752  
**Special Topic: Contemporary Issues in International Law - Level 9**

LAWPUBL 753  
**Special Topic: Comparative Health Law and Policy - Level 9**

LAWPUBL 754  
**Special Topic: Comparative Human Rights Law - Level 9**

LAWPUBL 755  
**Special Topic: Comparative Criminology - Level 9**

LAWPUBL 757  
**Special Topic - Level 9**

LAWPUBL 758  
**Special Topic: International Disarmament Law - Level 9**

LAWPUBL 760  
**Selected issues in Public International Law - Level 9**
Explores a selection of contemporary issues in international law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 761  
**Indigenous Peoples’ Rights in International Law - Level 9**
An in-depth study of the international law relevant to the protection of the rights of indigenous peoples. The history of the development of indigenous peoples’ rights in international law; analysis of those rights; the mechanisms in place for indigenous peoples to advocate for their rights in international fora. Involves individual research resulting in a substantial individual research essay.
LAWPUBL 770 15 Points
Theory and History of Criminal Law and Policy - Level 9
Explores the history and principles of criminal law, criminal justice theory, including the theory of punishment with analysis of some current issues in substantive criminal law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 771 15 Points
Advanced Criminal Procedure: Selected Topics - Level 9
An in-depth examination of selected laws governing police investigations and criminal trial practice in New Zealand. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 772 15 Points
Comparative Criminal Procedure - Level 9
An examination of the law related to police investigations and criminal trial practice in Canada, United States and New Zealand. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 773 15 Points
Advanced Evidence Law in Criminal Cases - Level 9
An in-depth examination of the law governing the presentation of evidence in criminal trial proceedings under the New Zealand Evidence Act 2006. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 774 15 Points
Human Rights - Level 9
The legal framework for the protection of human rights including a consideration of the moral and jurisprudential underpinnings of modern human rights. Involves significant individual research resulting in a substantial individual research essay.

LAWPUBL 775 15 Points
Human Rights Remedies - Level 9
A study of human rights dispute mechanisms and remedies available for breach of rights. Involves individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 776 15 Points
Human Rights: Selected Topics - Level 9
A study of selected contemporary human rights issues. Involves individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 777 15 Points
Human Rights in Mental Health Law - Level 9
A study of human rights issues arising in the specific context of mental health law. Involves individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 778 15 Points
Issues in Search and Surveillance - Level 9
A study of current search and surveillance issues in the context of human rights law. Involves significant individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 779 15 Points
Special Topic: International Dispute Settlement - Level 9

Academic Integrity
ACADINT A01 0 Points
Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Audiology

Postgraduate 700 Level Courses
AUDIOL 701 15 Points
Auditory Neuroscience
The anatomy and physiology of the auditory system, including the central nervous system. Topics include: the anatomy and neuroanatomy of the ear, the role of the middle ear, cochlear mechanics and micromechanics, transduction in the cochlea and vestibular system, responses of the auditory nerve and cochlear homeostasis.

AUDIOL 702 15 Points
Basic Diagnostic Audiology
The basic principles and techniques of diagnostic audiology in adults and children. Topics studied include: basic audiological techniques (history-taking, pure tone audiometry, speech audiometry, immittance audiometry, traditional site-of-lesion tests, paediatric assessment, non-organic hearing loss). Emphasis is placed on critical assessment of current literature.

AUDIOL 704 15 Points
Central Auditory Function
Auditory neurophysiology and electrophysiology of central auditory pathways, psychoacoustics, and speech and language. Topics include: the use of electrophysiology, imaging technologies and psychoacoustics to probe the function of the auditory system. Central processes involved in speech and language.

AUDIOL 713 15 Points
Clinical Otolaryngology and Related Sciences
An introduction to otolaryngology and speech pathology. Topics include: principles of pathology and mechanisms of disease, imaging techniques, diseases of the ear, head and neck, the genetics of deafness, neurological disorders that affect hearing and balance, occupational deafness and hearing conservation, speech pathology.

AUDIOL 714 15 Points
Hearing Aids and Other Devices for the Hearing Impaired
An introduction to the design and technology of analogue and digital hearing aids, cochlear implants and assistive devices for children and adults with hearing impairment. Analysis of the signal processing techniques and strategies used in digital hearing aids and cochlear implants.

AUDIOL 715 15 Points
Physics and Acoustics for Audiology
The basic physics of sound; and instrumentation and the principles of digital signal processing involved in audiological research. Topics include: the physics of sound waves, room acoustics, the measurement of reverberation time; the nature of acoustic impedance; the nature of filters and amplifiers, acoustics of speech, calibration.

AUDIOL 716A 15 Points
AUDIOL 716B 15 Points
Clinical Practicum I
Introduces the clinical practice of Audiology. Topics include communication skills; ethics; cultural issues; and the clinical practice of audiology, including counselling, understanding the effects of aging, tinnitus and hyperacusis management. Students will obtain the skills and knowledge to take a clinical history and to perform a basic audiological assessment of adults and children. Particular emphasis is placed on critical evaluation and independent learning. Involves clinical work including a nine week practicum during the summer semester between Part I and Part II. To complete this course students must enrol in AUDIOL 716 A and B.

AUDIOL 718A 15 Points
AUDIOL 718B 15 Points
Clinical Practicum II
The advanced clinical practice of audiology with particular emphasis on paediatric audiology and case management of children and adults. Topics include assessment of hearing in the paediatric population, including clinical electrophysiology, development of speech, auditory processing disorders and management of hearing loss in children. Particular emphasis is placed on critical evaluation and independent learning. The course involves substantial clinical work. Prerequisite: AUDIOL 716
To complete this course students must enrol in AUDIOL 718 A and B.

AUDIOL 796A 45 Points
AUDIOL 796B 45 Points
Thesis - Level 9
To complete this course students must enrol in AUDIOL 796 A and B.

Clinical Education

Postgraduate 700 Level Courses
CLINED 703 15 Points
Learning in Small Groups
Explores how clinicians operate as members and leaders of groups, and the conditions underlying effective group function both in education and the workplace.

CLINED 705 15 Points
Simulation and Clinical Skills Teaching
Theory and practice around the use of simulators in clinical education. Addresses underlying theory, research, course design, acquisition of clinical skills, scenario-based learning, scenario design, simulator programming, and feedback after simulated performance.

CLINED 706 15 Points
Interprofessional Learning, Teamwork and Patient Safety
Explores and evaluates the evidence-base on interprofessional learning in the health professions. Evaluates the role of interprofessional learning in building effective healthcare teams.
course will address methods of teaching and learning professionalism.

CLINED 719  
Clinical Education in Action  
15 Points  
Takes a broad look across essential topics in clinical education of relevance to all clinical teachers involved in teaching with patients, assessing students and planning lessons. Application to practice and peer observation are key components of this course.

CLINED 720  
Special Topic: Teaching and Assessment of Cultural Safety  
15 Points  
Explores the principles and practice of cultural safety in health professions education in Aotearoa. This will include the specific proficiencies required for culturally safe health professionals, and the development of learning techniques and assessment modalities to teach and assess cultural safety.

CLINED 790  
60 Points  
CLINED 790A  
30 Points  
CLINED 790B  
30 Points  
Dissertation - Level 9  
Corequisite: POPLHLTH 701 or equivalent experience  
To complete this course students must enrol in CLINED 790 A and B, or CLINED 790

CLINED 795A  
45 Points  
CLINED 795B  
45 Points  
Research Portfolio - Level 9  
Prerequisite: POPLHLTH 701  
To complete this course students must enrol in CLINED 795A and B

CLINED 796A  
60 Points  
CLINED 796B  
60 Points  
Thesis - Level 9  
Prerequisite: POPLHLTH 701 or equivalent experience  
To complete this course students must enrol in CLINED 796 A and B

CLINED 797A  
60 Points  
CLINED 797B  
60 Points  
Research Portfolio - Level 9  
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.  
Prerequisite: POPLHLTH 701 or equivalent experience  
To complete this course students must enrol in CLINED 797 A and B

Clinical Imaging

Stage II

CLINIMAG 201  
Radiographic Clinical Practice I  
15 Points  
Introduces the fundamental knowledge and clinical skills necessary to perform a range of routine radiographic examinations with a patient-centred focus.

Stage III

CLINIMAG 303A  
15 Points  
CLINIMAG 303B  
15 Points  
Radiographic Clinical Practice II  
Extends the fundamental knowledge and clinical skills necessary to perform a range of routine and non-routine
radiographic examinations, including specialised views and adaptive techniques. Provides the knowledge and clinical skills to perform a range of advanced radiographic imaging examinations with a patient-centred focus, incorporating an evidence-based approach.

Restriction: CLINIMAG 301, 302

To complete this course students must enrol in CLINIMAG 303 A and B

**Stage IV**

<table>
<thead>
<tr>
<th>Course Code</th>

</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 402A</td>
<td>30 Points</td>
</tr>
<tr>
<td>CLINIMAG 402B</td>
<td>30 Points</td>
</tr>
</tbody>
</table>

**Radiographic Clinical Practice IV**

Consolidates the knowledge and clinical skills necessary to perform all radiographic imaging examinations, with a patient-centred focus.

To complete this course students must enrol in CLINIMAG 402 A and B

**Postgraduate 700 Level Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 706</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Nuclear Medicine Specialised Clinical Applications**

Addresses normal and altered radiopharmaceutical biodistribution appearances, and protocol selection and development, associated with cardiovascular, lymphatic and oncological applications in Nuclear Medicine, in addition to investigating new and evolving techniques and applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.

Prerequisite: MEDIMAGE 720

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 707</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**CT Clinical Practice**

Provides students with a sound understanding of CT technology and its application including radiation safety and dose reduction. Addresses normal and abnormal Computed Tomography (CT) imaging appearances, protocol selection and modification, in relation to a range of standard clinical applications. Students will develop the knowledge, competencies, skills and attitudes needed to enable clinical competence in both academic and professional capability in CT practice and application to clinical practice.

Restriction: CLINIMAG 717, MEDIMAGE 710

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 708</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Mammographic Clinical Practice**

Addresses normal and abnormal mammographic imaging appearances, technique evaluation and adaptation, and includes reflection on clinical practice relating to mammography. The course will ensure students develop the knowledge, competencies, skills and attitudes needed to demonstrate mastery in academic and professional mammographic practice.

Prerequisite: MEDIMAGE 707

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 709</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Principles of Clinical Ultrasound**

Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications associated with abdominal ultrasound examinations. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.

Develops clinical competence to the level expected of a trainee sonographer during the initial phase of clinical training.

Corequisite: MEDIMAGE 716

Restriction: CLINIMAG 719

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 710</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**MRI Clinical Applications 1**

Addresses normal and abnormal imaging appearances, protocol selection and development, and applications associated with a range of MRI examinations. Students will examine standard and advanced pulse sequences, in addition to investigating new and evolving techniques and applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical decision making and clinical competence.

Prerequisite: MEDIMAGE 714

Restriction: CLINIMAG 701, 702

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 711</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**MRI Clinical Applications 2**

Addresses normal and abnormal imaging appearances, protocol selection and development, and applications associated with a range of MRI examinations. Students will examine standard and advanced pulse sequences, in addition to investigating new and evolving techniques and applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical decision making and clinical competence.

Prerequisite: MEDIMAGE 714

Restriction: CLINIMAG 702

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 712</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Ultrasound in Women's Health**

Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications relating to women's health. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.

Prerequisite: MEDIMAGE 716

Restriction: CLINIMAG 703

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 713</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Ultrasound Clinical Applications**

Addresses normal and abnormal ultrasound imaging appearances, adaptation of scanning techniques relating to the abdomen, musculoskeletal system, vascular system, small parts and paediatric imaging. Students will develop theoretical knowledge and reflect on competencies, skills and attitudes required for mastery in academic and professional ultrasound practice.

Prerequisite: CLINIMAG 709 or MEDIMAGE 716

Restriction: CLINIMAG 704

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 714</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Ultrasound Clinical Practice**

Develops the knowledge, competencies, skills and attitudes needed to demonstrate mastery in both academic and professional capability in ultrasound practice.

Prerequisite: Departmental approval

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLINIMAG 715</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Nuclear Medicine Clinical Practice**

Develops the knowledge, competencies, skills and attitudes
needed to demonstrate mastery in both academic and professional capability in Nuclear Medicine practice.
Prerequisite: Departmental approval

**CLINIMAG 717** 15 Points
**CT Clinical Applications**
Addresses normal and abnormal Computed Tomography (CT) imaging appearances, protocol selection and modification, and application to clinical practice.
Restriction: CLINIMAG 707

**CLINIMAG 718** 15 Points
**Special Topic**

**CLINIMAG 719** 15 Points
**Ultrasound Abdominal Clinical Applications**
Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications associated with abdominal ultrasound examinations. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical decision making and clinical competence.
Prerequisite: MEDIMAGE 716
Restriction: CLINIMAG 704, 714

**CLINIMAG 720** 15 Points
**Ultrasound Specialised Clinical Applications**
Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications associated with specialised ultrasound imaging. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.
Prerequisite: MEDIMAGE 716
Restriction: CLINIMAG 704, 714

**CLINIMAG 721** 30 Points
**Mammographic Practice**
An in-depth understanding of mammographic imaging of breast anatomy and pathology, and the principles of mammographic technology and image quality. Addresses the knowledge, skills and attributes needed to demonstrate competence in clinical mammographic practice.

**CLINIMAG 722** 30 Points
**Extended Mammographic Practice**
An in-depth understanding of mammography assessment, interventional techniques and quality assurance. Addresses the knowledge, skills and attributes needed to demonstrate competence in academic and extended clinical mammographic practice.

**CLINIMAG 723** 15 Points
**PET-CT Imaging**
Addresses the fundamentals of PET-CT and hybrid imaging including equipment, normal and altered radiopharmaceutical biodistribution appearances and a range of clinical applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning and decision-making.
Prerequisite: MEDIMAGE 720

---

**Dietetics**

### Postgraduate 700 Level Courses

**DIETETIC 703** 15 Points
**Clinical Nutrition: Disease Pathophysiology and Management - Level 9**
Provides basic and practical material for professional application of clinical nutrition knowledge to dietetic practice and case management. Includes the aetiology and pathophysiology of disease states that are relevant to, and underpin, nutritional management and/or treatment. Includes assessment of nutritional status and nutritional requirements, fluid and electrolyte management, nutrition therapy by tube feeding, and dietetic management of various disease states.

**DIETETIC 707** 30 Points
**Professional Skills 1**
Evaluates professional communication, organisation and management skills that will enable students to work effectively as dietitians. Students will describe and appraise nutrition information, dietetic expertise, judgement and reasoning to the nutrition assessment, intervention and evaluation of nutrition and dietetic process plans. Introduces the principles of food service systems and public health to optimise nutrition, health and well-being.
Restriction: DIETETIC 704

**DIETETIC 708** 30 Points
**Professional Skills 2**
Integrates professional communication, organisation and management skills that will enable students to work effectively as dietitians. Students will apply nutrition knowledge, dietetic expertise, judgement and reasoning to the nutrition assessment, intervention and evaluation of nutrition and dietetic process plans. Applies the principles of food service systems and public health to optimise nutrition, health and well-being.
Restriction: DIETETIC 705

**DIETETIC 709A** 15 Points
**DIETETIC 709B** 15 Points
**Professional Skills 3**
Advances effective communication skills to optimise nutrition, health, well-being for individuals and communities. Integrates and appraises the dietetic process as it applies to clinical and dietetic practice. Critically evaluates the scientific principles of clinical nutrition to enable the translation of the evidence to best practice. Apply communication and organisation principles, which will ensure effective, management and leadership within varied environments.
Prerequisite: DIETETIC 708
Restriction: DIETETIC 706
To complete this course students must enrol in DIETETIC 709 A and B

**DIETETIC 710** 15 Points
**Research Methods in Human Nutrition**
An overview of research design and techniques used in human nutrition research. Including the formation and critique of research design, data procedures, analysis and ethical issues.

**DIETETIC 793A** 45 Points
**DIETETIC 793B** 45 Points
**Thesis - Level 9**
Prerequisite: DIETETIC 703, 708
To complete this course students must enrol in DIETETIC 793 A and B
## Digital Health

### Postgraduate 700 Level Courses

<table>
<thead>
<tr>
<th>Course Code</th>

<tr>
<td>DIGIHLTH 706</td>
<td>Health Data Analytics</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Principles of Digital Health**
The study of information technology and information management concepts relevant to the delivery of high quality and cost-effective healthcare. Theoretical frameworks such as data management, decision support, strategic planning and implementation, change management, knowledge management and privacy and other ethical aspects of digital health are included.  
*Restriction: HLTHINFO 728*

**Health Knowledge Management**
Analyses the role and dynamics of knowledge in the working environment in the health sector, and develops aspects of knowledge infrastructure.  
*Restriction: HLTHINFO 723*

**New Zealand Health Data Landscape**
An overview of key issues to support the appropriate and effective use of large volumes of routinely collected data to drive improvements in the delivery of health care. Ethical and equitable use of health data, critical evaluation of health data, identification of analytic methods and appropriate interpretation to support health care decision-making are discussed. Specific datasets are not analysed.  
*Restriction: HLTHINFO 725*

**Healthcare Decision Support Systems**
Familiarises students with the main developments of decision support systems in healthcare. The theoretical concepts and the technology including data mining, clinical decision support systems, diagnostic systems and decision support in managed care are outlined. Ethical issues are also addressed.  
*Restriction: HLTHINFO 730*

**Digital Health Design and Evaluation**
Examines the design and development of digital health tools to meet end-user and health service needs. A series of case studies are used to illustrate the different stages of digital health tool development, evaluation, and implementation. Health service, researcher and end-user perspectives are covered.

**Health Data Analytics**
Analyses, interprets, and presents quantitative data to assist decision making in the health sector. Fundamental elements of statistics, data management, visualisation, epidemiology and computing are covered.

## Health Psychology

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>HLTHPSYC 122</td>
<td>Behaviour, Health and Development</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Behaviour, Health and Development**
Introduction to the relationship between behaviour and the major biological, cognitive and social-emotional processes, applying them to health and development across the life span. Focuses on aspects of behaviour and development particularly relevant for the healthcare professional.  
*Restriction: POPHLTH 122*

### Postgraduate 700 Level Courses

<table>
<thead>
<tr>

<td>Health Psychology</td>
<td>15 Points</td>
</tr>
<tr>
<td>HLTHPSYC 715</td>
<td>Research Methods in Health Psychology</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Health Psychology**
A review of the psychological factors involved in health and illness. Topics include: the understanding of patient behaviour in medical settings, preventative health behaviour, cognitive models of illness, stress and illness, communication and adherence to treatment, the psychology of physical symptoms and coping with chronic disease.

**Research Methods in Health Psychology**
A review of the principal methods used in the design, conduct and analysis of studies in the health psychology area. This will focus on quantitative research, but qualitative methodologies will also be addressed.
HLTHPSYC 716 15 Points
Psychoneuroimmunology
Outlines the nature of the human immune system, its measurement and limitations of current practices and models. The main focus of the course is the extent to which psychological processes such as stress, emotions, and social interactions have been found to influence immune behaviour and the implications of these findings for health and wellbeing. Various theoretical frameworks through which psycho-immune relationships might be understood are presented and discussed.

HLTHPSYC 717 15 Points
Emotions, Emotion Regulation, and Health
Extends content knowledge in health psychology by focussing on the expanding literature linking emotions and emotion regulation with health outcomes. The course provides an overview of the nature and functions of emotions, discrete versus dimensional approaches, developmental and cultural considerations, and the links between emotions and cognitive processes. Specific topics include direct and indirect pathways linking emotions and health, links between emotions and health-deleterious behaviours, symptom detection, screening behaviour, treatment decision-making, and adherence.

HLTHPSYC 719 15 Points
Health Psychology Assessment
Extends content knowledge in health psychology through the development of skills in the assessment and evaluation of constructs commonly used in health psychological research and practice. Includes consideration of general issues in psychometric theory and the specific assessment issues commonly confronting widely-used health psychological research designs, as well as detailed coverage of specific content areas including illness cognitions, health-related psychophysiology, emotions, and health outcomes.
Restriction: PSYCH 701, 747

HLTHPSYC 720 15 Points
Health Psychology Interventions
Reviews the underpinning theory base for approaches commonly used in health psychology interventions such as CBT, and applies these approaches to examples from the field of health psychology. Individual and group/community treatment targets will be considered, including common difficulties that impact on disease occurrence or management, and the psychological consequences of disease.
Restriction: PSYCH 701, 748

HLTHPSYC 742A 15 Points
HLTHPSYC 742B 15 Points
Professional Practice in Health Psychology
Focuses on the professional intervention skills necessary to practice health psychology. Topics include: interviewing and assessment skills, formulation of problems, design and evaluation of interventions and models for interdisciplinary and multidisciplinary functioning. Relevant contexts include: hospitals, hospices, consultancies, general practice etc.
Prerequisite: HLTHPSYC 746
To complete this course students must enrol in HLTHPSYC 742 A and B

HLTHPSYC 743 15 Points
Psychopathology and Clinical Interviewing
Common psychological disorders encountered in clinical practice and health settings. Practical teaching of clinical interview and diagnostic skills is completed in class.

HLTHPSYC 744 15 Points
Research Topic in Health Psychology
Offers the opportunity for academic staff to provide a specific course of study for one or several students. It is available only by arrangement between the staff member(s) and students.

HLTHPSYC 745A 45 Points
HLTHPSYC 745B 45 Points
Practicum in Health Psychology - Level 9
A practical component of supervised applied work of not less than 1,500 hours in approved health settings, and other work as required. A detailed written report of the work undertaken will be required of the student.
Prerequisite: HLTHPSYC 746
To complete this course students must enrol in HLTHPSYC 745 A and B

HLTHPSYC 746 30 Points
HLTHPSYC 746A 15 Points
HLTHPSYC 746B 15 Points
Pre-internship Placement
Requires students to undertake 300+ hours in at least two approved clinical placements in addition to associated workshops and training over a twelve month period.
To complete this course students must enrol in HLTHPSYC 746 A and B, or HLTHPSYC 746

HLTHPSYC 755 15 Points
Special Study

HLTHPSYC 757 15 Points
Psychosomatic Processes
Focuses on the psychological, social and biological mechanisms behind illnesses that present with medically unexplained symptoms. Such illnesses include: chronic fatigue syndrome, chronic pain, irritable bowel syndrome and the somatoform disorders. The diagnostic controversy surrounding these disorders and treatment approaches for these conditions will be addressed.

HLTHPSYC 758 15 Points
Technology and Health
Explores the growing field of digital health and the impact that technology is having on psychological treatments and healthcare delivery. The course will cover a range of eHealth interventions in patient populations as well as discuss issues surrounding the development and implementation of digital health interventions.

HLTHPSYC 796A 60 Points
HLTHPSYC 796B 60 Points
Thesis in Health Psychology - Level 9
To complete this course students must enrol in HLTHPSYC 796 A and B

Health Sciences

Postgraduate 700 Level Courses

HLTHSCI 700 30 Points
Working with People with Long-term Conditions - Level 9
Long-term conditions present one of the most challenging global epidemics of the twenty-first century. This course is designed to support the development of a responsive person-centred healthcare workforce to meet the needs of
people living with long-term conditions and to work with them to improve their self-efficacy and health outcomes.

*Restriction: NURS 738*

**HLTHSCI 701**

**Self-management for People Living with Long-term Conditions - Level 9**

Self-management is a key strategy to maximise quality of life for individuals and their families living with long-term conditions. This course is designed to strengthen assessment of self-management, collaborative person centred goal setting and planning, it focuses on developing motivational communication skills and collaborative strengths-based approaches which support efficacy and activation.

*Restriction: NURS 771*

**HLTHSCI 702**

**Principles of Primary Health Care - Level 9**

Assists primary healthcare professionals working in diverse settings to put population health into practice through primary healthcare. Determinants of health, equity, community empowerment, partnerships and effective ways to care for people with long-term conditions in communities will be explored.

*Restriction: NURS 772*

**HLTHSCI 703**

**Psychological Interventions in Health Care - Level 9**

Focuses on increasing health professionals' skills in the use of psychological interventions for people who have acute or long term mental health or physical health problems. Explores evidence-based psychological models, such as Cognitive and Behaviour Therapy and Motivational Interviewing. Illness beliefs that impact on the person's ability to engage effectively with treatment plans, and self-management of their health problem/s, will also be critiqued.

*Restriction: NURS 760, 781*

**HLTHSCI 704**

**Primary Health Care of Children and Young People - Level 9**

Equips healthcare professionals with the knowledge to provide primary and community health care, from a global to a national and local level, for well children and young people and those with long term conditions. All aspects of the course will be underpinned by the United Nations Convention on the Rights of the Child (UNCRC). Epidemiology, whānau (family) focused partnerships and interventions will be addressed along with the management of common conditions in the 0–25 year age range.

*Restriction: NURS 716, 788*

**HLTHSCI 705**

**Mental Health and Addiction for Health Professionals - Level 9**

Uses a person-focused theoretical framework to explore mental health and addiction problems presenting in non-specialist mental health settings. Conceptualises mental health and addiction problems as frequently co-occurring. Engagement, assessment, collaborative solution focused interventions, referral and care coordination will be explored.

*Restriction: NURSPRAC 718, 719*

**HLTHSCI 706**

**Special Topic**

**HLTHSCI 707**

**Special Topic**

**HLTHSCI 708**

**Special Topic**

**HLTHSCI 710**

**Acute Stroke Care**

Students will develop advanced interdisciplinary knowledge about pre-hospital care, diagnosis and hyperacute stroke care, secondary stroke prevention, stroke pathophysiology and management of risk factors. Students will evaluate and critique stroke epidemiology and equity of access to stroke services. Skills in assessment of neurological impairment, rehabilitation needs, and discharge planning will be developed with reference to clinical guidelines and local contexts.

*Restriction: NURS 771*

**HLTHSCI 711**

**Stoke Rehabilitation**

Students will develop knowledge of the biological processes underpinning neurological recovery after stroke. Students will also develop interdisciplinary understanding of assessment and interprofessional treatment strategies for impairments in communication, swallowing, vision, sensation, cognition, mood, continence, and movement. Skills in assessing independence and participation using standard scales will be also be developed for application in clinical practice.

*Restriction: NURS 771*

**HLTHSCI 712**

**Advanced Stroke Care**

Students will evaluate and critique contemporary and evidence-based advanced clinical assessments and decision-making regarding driving, returning to work, and engaging in physical activity after stroke, including the effects of cognition, mood, and fatigue. Students will also develop advanced skills in communicating with patients and whānau on topics including stroke risk factors, self-management and adjusting to life after stroke.

*Prerequisite: HLTHSCI 710, 711*

**HLTHSCI 713**

**Improving Stroke Care**

The organisation and conduct of clinical research will be evaluated and critiqued, with specific examples from the stroke research evidence base. Critical thinking skills will be developed and applied to basic research and clinical trials. The role of the healthcare professional in translating research into practice will be explored with reference to contemporary implementation theories, models and frameworks.

*Prerequisite: HLTHSCI 710, 711*

**HLTHSCI 714**

**Stroke Research**

Contemporary qualitative and quantitative research methods and clinical trial designs are evaluated and critiqued, with specific examples from the stroke research evidence base. Students will apply this knowledge by formulating a research question and developing a research proposal, including consideration of ethics and institutional approvals, and the timeframe and resources required.

*Prerequisite: HLTHSCI 710-713*
HLTHSCI 789 30 Points
HLTHSCI 789A 15 Points
HLTHSCI 789B 15 Points

Research Project
To complete this course students must enrol in HLTHSCI 789 A and B, or HLTHSCI 789

HLTHSCI 790 60 Points
HLTHSCI 790A 30 Points
HLTHSCI 790B 30 Points

Dissertation - Level 9
Restriction: HLTHSCI 792
To complete this course students must enrol in HLTHSCI 790 A and B, or HLTHSCI 790

HLTHSCI 792 45 Points

Research Project - Level 9
Clinical knowledge and research skills are applied to undertake a practice-oriented research project. Students will work under the direct supervision of a staff member to define their research question, plan and execute their research activities.
Prerequisite: HLTHSCI 710-714

HLTHSCI 793A 45 Points
HLTHSCI 793B 45 Points

Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.
To complete this course students must enrol in HLTHSCI 793 A and B

HLTHSCI 795 45 Points
HLTHSCI 795A 22.5 Points
HLTHSCI 795B 22.5 Points

Research Project in Health Practice - Level 9
An applied research-based project relating to an aspect of health practice in a specialised community development setting. Students will critically analyse real-world cases and problems and develop evidence-informed, innovative solutions to community health issues through literature search, consultation with community leaders and relevant health professionals and through application of relevant community development and change frameworks.
Prerequisite: 15 points from POPLHLTH 701, 704, 705
To complete this course students must enrol in HLTHSCI 795 A and B, or HLTHSCI 795

HLTHSCI 796A 60 Points
HLTHSCI 796B 60 Points

Thesis - Level 9
To complete this course students must enrol in HLTHSCI 796 A and B

HLTHSCI 797A 60 Points
HLTHSCI 797B 60 Points

Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.
To complete this course students must enrol in HLTHSCI 797 A and B

Named Doctoral Courses

HLTHSCI 800 30 Points

Research in Action
Extend scholarly capabilities and in-depth understanding in the critique of the major methodological approaches to research investigations in the health sector. This will include Mātauranga Māori and will provide the rationale for the selection of their methodological approach to the investigation of their identified health issue that is the focus of their thesis research.

HLTHSCI 801 30 Points

Healthcare Strategy and Planning
Provides advanced skills in key areas necessary for high-performing health leaders at senior and/or executive levels. It will support the development of students' ability to sustained commitment to the development of new ideas and practices at the forefront of health service delivery in Aotearoa New Zealand and internationally and integration of these concepts into their proposed thesis.
Prerequisite: HLTHSCI 800

HLTHSCI 802 30 Points
HLTHSCI 802A 15 Points
HLTHSCI 802B 15 Points

Critical Synthesis of Health Issue
Critically appraise and synthesise the relevant evidence to demonstrate independent and original investigation of the health issue that is the focus of the student's thesis research, including consideration and integration of Mātauranga Māori.
Prerequisite: HLTHSCI 800, 801

HLTHSCI 803 30 Points

Research Proposal
Integrates detailed understanding of the theory, methodology and professional context for investigating a defined issue within healthcare. The focus of the course is on the development of the proposal for the thesis research. Students will critically review and demonstrate the integration of the proposed research within healthcare practice and service development and the implications of for health equity.
Prerequisite: HLTHSCI 800-803

HLTHSCI 897A 120 Points
HLTHSCI 897B 120 Points

Thesis
Prerequisite: HLTHSCI 800-803

MBChB

Part II
MBCHB 221A 60 Points
MBCHB 221B 60 Points
MBChB Part II

Through clinical scenarios, lectures and laboratories, students are introduced to human health and the description and pathogenesis of disease processes as a basis for the systematic study of human illness. This is integrated with the study of human organ systems through components focusing on musculoskeletal, digestive, genitourinary, cardiovascular and respiratory systems, linked with practical work in anatomy, physiology,
pathology, medical imaging, and professional, clinical and communication skills.

Restriction: MBCHB 203, 205, 206, 209, 210, 211

To complete this course students must enrol in MBCHB 221 A and B

**Part III**

**MBCHB Part III**

Through clinical scenarios, lectures, laboratories and problem-solving sessions, students explore human health and illness in a multidisciplinary manner with particular focus on the nervous system, blood, immunity and infection, reproduction, development and aging, and how bodily systems are regulated. This is integrated with practical work in anatomy, physiology, pathology, medical imaging and professional, clinical and communication skills, as well as ward-based learning experiences.

Prerequisite: MBCHB 221

Restriction: MBCHB 303, 305, 306, 312, 313

To complete this course students must enrol in MBCHB 321 A and B

**MBCHB Part V**

Students will complete academic study of forty one weeks of which thirty one are in clinical placements. These are: general practice, obstetrics and gynaecology, psychiatry, paediatrics, specialty surgery and a selective. There are three weeks of formal learning on campus including a Population Health week. Other projects and asynchronous learning also needs to be completed. Students may undertake the majority of study in a regional rural setting in Northland.

Prerequisite: MBCHB 401

To complete this course students must enrol in MBCHB 501 A and B

Students undertake patient care, under supervision, in the disciplines of general practice, medicine, surgery, emergency medicine, psychiatry, paediatrics, and obstetrics and gynaecology. Students also complete a week of clinical imaging, a compulsory course in core resuscitation skills and a revision course in procedural skills. The 44-week year includes an optional element for students to undertake study in areas of medicine of their choice (the Elective), or complete a substantial research project, for a period of 10 weeks.

Prerequisite: MBCHB 501

To complete this course students must enrol in MBCHB 551 A and B

**Fundamentals of Medical Imaging**

Provides a fundamental understanding of Medical Imaging practice. Students will examine components of the clinical setting including patient care, cultural competency, and ethical considerations, to prepare them for the clinical learning environment. Students will apply these concepts to radiographic imaging in the context of routine radiographic examinations.

**MEDIMAGE 202**

**Medical Imaging Science**

Provides students with a fundamental understanding of ionising radiation in the context of medical imaging. Addresses x-ray production, instrumentation, x-ray detection, digital imaging and the principles of quality assurance. Also examines the biological effects of ionising radiation, dose, and radiation protection.

Corequisite: MEDIMAGE 203

**MEDIMAGE 203**

**Radiographic Imaging I**

Develops student knowledge of routine radiographic examinations in a Medical Imaging department. The anatomical relationships of the body and the imaging examinations are explored with reference to the appendicular and axial skeleton.

Prerequisite: MEDIMAGE 201

Corequisite: MEDIMAGE 202

**Stage III**

**Medical Imaging for Biomedical Science**

Examines the physical principles of image production, instrumentation and safety considerations of specialised medical imaging modalities, including magnetic resonance imaging (MRI), ultrasound and nuclear medicine. Students will compare normal and abnormal imaging appearances
associated with each of these modalities, and investigate
a range of clinical and research applications.
Prerequisite: MEDSCI 201, 203
Restriction: MEDIMAGE 306

MEDIMAGE 301 15 Points
Radiographic Imaging II
Extends knowledge of radiographic examinations and
procedures in a Medical Imaging department. The
anatomical relationships of the body and the imaging
examinations are explored with focus on specialist views
and adaptive techniques.
Prerequisite: MEDIMAGE 199, 203

MEDIMAGE 302 15 Points
Sectional Imaging Anatomy and Pathology
Develops understanding of anatomy and pathology as
applied in Medical Imaging. Focuses on sectional imaging
anatomy, normal variants and common pathologies
as demonstrated on CT (computed tomography), MRI
(Magnetic Resonance Imaging) and ultrasound images.
Prerequisite: MEDSCI 201, 203

MEDIMAGE 304 15 Points
Advanced Radiographic Imaging
Develops understanding of advanced radiographic imaging
examinations including mammography, angiography,
interventional procedures, and computed tomography.
Addresses the physical principles of image production,
instrumentation and dose considerations. Students will
investigate a range of clinical applications, and normal
and abnormal imaging appearances associated with each
of these modalities.
Prerequisite: MEDIMAGE 202, 203

MEDIMAGE 305 15 Points
Professional Practice in Medical Imaging
Develops fundamental concepts of professionalism,
reflective practice and communication to patient-centred
care and professional practice in Medical Imaging.
Prerequisite: MEDIMAGE 201

MEDIMAGE 306 15 Points
Specialised Medical Imaging
Examines specialised medical imaging modalities including
ultrasound, nuclear medicine, and magnetic resonance
imaging (MRI). Addresses the physical principles of image
production, instrumentation and safety considerations.
Students will investigate a range of clinical applications,
and normal and abnormal imaging appearances associated
with each of these modalities.
Prerequisite: MEDIMAGE 202, 203

MEDIMAGE 307 15 Points
Research Methods
An introduction to the principles of research methodology
and evidence-based practice as applied to medical imaging.
Addresses the knowledge required to evaluate research and the development of skills and research ethics
necessary to conduct medical imaging research.
Restriction: MEDIMAGE 723

Postgraduate 700 Level Courses

MEDIMAGE 701 15 Points
Imaging Anatomy and Pathology
Addresses the principles of medical science at whole body,
organ, tissue, cellular and sub cellular levels by developing
an integrated understanding of anatomy and pathology as it
applies to medical imaging in the clinical context. Specific
anatomical regions and pathologies will be investigated
to explain imaging appearances and evaluate the role of a
variety of imaging modalities in patient pathways.

MEDIMAGE 702 15 Points
Professional Issues in Medical Imaging
Students will investigate the concept of professional practice leading to an exploration of current professional
issues relevant to medical imaging. The course will
develop students’ ability to reflect on, and respond to,
the wide variety of professional, ethical, medico-legal and
clinical workplace issues generated in a rapidly changing
environment.

MEDIMAGE 707 15 Points
Mammographic Technology
Provides students with an in-depth understanding of
mammographic technology and its application. The course
addresses the scientific principles of the modality including
image formation, technical parameters, radiation safety
specific to mammography, image quality, artefacts, and
quality assurance. Equipment developments and new and
evolving techniques will be examined.

MEDIMAGE 708 15 Points
Nuclear Medicine Technology
Extends students’ specialised theoretical knowledge and
understanding of the underlying scientific principles of
nuclear medicine technology. Students will develop the
ability to apply this knowledge to obtain images of optimal
diagnostic quality.
Prerequisite: MEDIMAGE 720

MEDIMAGE 710 15 Points
CT Imaging Technology
Provides students with specialised theoretical knowledge and
understanding of the underlying scientific principles of
CT technology. Students will develop the ability to apply this
knowledge to obtain images of optimal diagnostic quality.
Restriction: CLINIMAG 707

MEDIMAGE 711 15 Points
Musculoskeletal Trauma Image Evaluation
Provides students with the knowledge to evaluate
radiographs of common musculoskeletal trauma in the
clinical setting. Using a systematic method of image
interrogation and a critical approach, students will develop
the ability to provide a preliminary clinical image evaluation
of common musculoskeletal trauma radiographs.

MEDIMAGE 712 15 Points
Musculoskeletal Pathology Image Evaluation
Provides students with the knowledge to evaluate
radiographs of common musculoskeletal pathologies in the
clinical setting. Using a systematic method of image
interrogation and a critical approach, students will develop
the ability to provide a preliminary clinical image evaluation
of common musculoskeletal pathology radiographs.

MEDIMAGE 713 15 Points
Special Studies

MEDIMAGE 714 15 Points
Fundamentals of Clinical MRI
Provides students with knowledge of the fundamental
scientific principles of MRI. Students will examine
components of the clinical environment in the context of
patient care and safety. In addition, students will evaluate
common clinical applications, developing the ability to
analyse standard imaging protocols and explain normal
and abnormal MR imaging appearances.
MEDIMAGE 715 MRI Technology 15 Points
Extends students’ specialised theoretical knowledge and understanding of the underlying scientific principles of MR technology. Students will develop the ability to apply this knowledge to obtain images of optimal diagnostic quality. 
Prerequisite: MEDIMAGE 714
Restriction: MEDIMAGE 703, 704

MEDIMAGE 716 Fundamentals of Clinical Ultrasound 15 Points
Provides students with knowledge of the fundamental scientific principles of ultrasound. Students will develop the ability to apply this knowledge to different patient populations. In addition, students will investigate standard sonography imaging techniques and analyse sonographic imaging appearances.

MEDIMAGE 717 Ultrasound Imaging Technology 15 Points
Explores the principles of ultrasound physics and instrumentation. Students will learn about the properties of sound waves and their behaviour with tissues in the production of ultrasound images, including the construction of artefacts, and develop the ability to manipulate and optimise image production by refining components and controls of the ultrasound machine, while considering the importance of bioeffects and safety.

MEDIMAGE 718 Acute Chest Image Interpretation 15 Points
Provides students with the knowledge to evaluate acute chest radiographs in the clinical setting. Using a systematic method of image interrogation and a critical approach, students will develop the ability to provide a preliminary clinical image evaluation of common acute chest radiographs.

MEDIMAGE 719 Paediatric Image Evaluation 15 Points
Provides students with the knowledge to evaluate radiographs of common paediatric trauma and pathologies in the clinical setting. Using a systematic method of image interrogation and a critical approach, students will develop the ability to provide a preliminary clinical image evaluation of common paediatric radiographs.

MEDIMAGE 720 Fundamentals of Clinical Nuclear Medicine 15 Points
Provides students with knowledge of the fundamental scientific principles of nuclear medicine. Students will examine components of the clinical environment in the context of patient care and safety. In addition, students will evaluate common clinical applications, developing the ability to analyse standard imaging protocols and explain normal and altered biodistribution and nuclear medicine imaging appearances.

MEDIMAGE 721 MRI Safety 15 Points
Extends students’ understanding of the underlying physical principles related to a range of MRI safety issues. The course will provide students with the opportunity to explore these safety issues in greater depth and to apply this knowledge in critically evaluating current policies and practices. New and emerging safety topics will also be examined.
Prerequisite: MEDIMAGE 714

MEDIMAGE 722 Special Topic: Introduction to Cardiac Ultrasound 15 Points
Introduces cardiac ultrasound by exploring the analysis and interpretation of the 2D, M-mode, spectral Doppler, and colour Doppler components of the normal cardiac ultrasound examination. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.

MEDIMAGE 723 Research Methods 15 Points
Research Methods
Provides students with a comprehensive understanding of the principles of research methodology and evidence based practice as applied to medical imaging. Addresses the knowledge required to evaluate research and the development of skills and research ethics necessary to conduct medical imaging research.
Restriction: MEDIMAGE 307

MEDIMAGE 724 Ultrasound Assessment of Heart Disease 1 15 Points
Expands on comprehension of the normal cardiac ultrasound examination, by developing the specialised skills and knowledge required to critically analyse and interpret ventricular function and complex forms of heart, disease including cardiomyopathies and pericardial diseases, using various ultrasound modalities. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making, and clinical competence.

MEDIMAGE 725 Cardiac Pathophysiology 15 Points
Cardiac Pathophysiology
Explores cardiovascular disease as it pertains to a disturbance in the normal structure and function of the heart. Students build on an introduction to normal cardiac structure and function to gain extensive knowledge of the changes to anatomy and physiology that lead to cardiovascular conditions. Students can integrate this knowledge of aetiology, clinical features, and treatment options, into the clinical setting.

MEDIMAGE 740 30 Points
MEDIMAGE 740A 15 Points
MEDIMAGE 740B 15 Points
Research Project - Level 9
To complete this course students must enrol in MEDIMAGE 740 A and B, or MEDIMAGE 740

Medical Science

Stage I

MEDSCI 100G 15 Points
Human Mind and Body Relationships
Humans share with other living things the features of physical self-generation and adaptation to the environment. Humans also live in a mental (mind) world and maintain relationships with our perceived environments. Minds and bodies mutually affect one another. This mind/body dance, which is explored in this course, is what gives rise to all of human behaviour from simple daily activities to the highest forms of creativity.

MEDSCI 101G 15 Points
Environmental Threats to Human Health
Our environment sustains our lives but at times threatens
our health. These threats may occur naturally, or arise from damage we have inflicted on the environment. This course considers health impacts of climate change, pollution, lifestyle choices, poverty and affluence, workplace hazards, emerging infectious diseases, and dangers affecting cancer risk.

MEDSCI 142

Biology for Biomedical Science: Organ Systems
Introduction to human biology with particular emphasis on integrated organ function. The course will deal with: structures and processes associated with the function of the nervous, locomotor, cardiovascular, respiratory, digestive, renal, endocrine, musculoskeletal and reproductive systems.

MEDSCI 201

Human Structure and Function
Presents the structure of biological systems with special reference to human biology, from the levels of histology through to gross anatomy. Specific examples of the correlation between structure and function will be considered. An introduction to current techniques for the visualisation of biological structure will be presented.

MEDSCI 202

Microbiology and immunology
An introduction to the nature and roles of bacteria, viruses, fungi and parasites as the causative agents of human diseases. Topics include: the defence mechanisms of the body, the immune system including autoimmunity and allergy, control of disease by antimicrobials, sterilisation, disinfection and infection control practice.

MEDSCI 203

Mechanisms of Disease
Outlines the basic mechanisms, operating at the molecular, cellular and tissue levels, by which human disease develops. These include genetic factors, cell injury, inflammation, repair, circulatory disturbances, and neoplastic change. These mechanisms are illustrated by descriptions of the pathogenesis of specific diseases that are relevant to the New Zealand situation, or are the focus of current biomedical research.

MEDSCI 204

Pharmacology and Toxicology
A solid grounding in the principles underlying pharmacology and toxicology, including the nature of drug targets, their interaction and response (pharmacodynamics), the fate of drugs within the body (pharmacokinetics), toxicity classification and testing, poisons and antidotes, adverse drug reactions, selective toxicity, drug discovery and development. Selected drug examples will be studied to illustrate key principles of clinical pharmacology.

MEDSCI 205

The Physiology of Human Organ Systems
An integrative approach is used to study fundamental physiological processes which enable the body to overcome the challenge of life. Drawing on examples of normal and abnormal function, the course examines the interaction of vital physiological processes, from cellular control mechanisms to multiple organ systems. Topics include: control of fluid and electrolytes, cardiovascular control, energy use, and the delivery of oxygen and metabolites.

Prerequisite: BIOSCI 107, MEDSCI 142
Restriction: PHARMACY 205

MEDSCI 206

Principles of Neuroscience
The impact of neuroscience revolution on our understanding of human physiology and biomedical research is reviewed. Topics include: mechanisms of neurotransmission, learning, memory, sensory perception (vision, hearing, touch and smell) and application of gene therapy for treating neurological diseases. Special emphasis is placed on the integration and control of physiological function by the nervous system. Examples include control of movement and coordination, regulation of reproduction, blood pressure, breathing, appetite, body weight and sexuality. Developmental neuroscience is also considered. Laboratory exercises provide insight into neural structure and function and include application of neuroimaging technologies.

Prerequisite: BIOSCI 107, MEDSCI 142

MEDSCI 300

Analytical Anatomy and Visualisation
Examines the analysis, description and quantification of anatomical structures, including visualisation methodologies and the challenges of imaging subcellular to whole organ anatomy. Emphasis is placed on emerging applications and technology, including computational anatomy, surgical planning and research applications. Appropriate uses of human tissue, modern imaging technologies, tissue preparation, imaging artefacts, and novel visualisation techniques will be explored.

Prerequisite: MEDSCI 201

MEDSCI 301

Molecular Basis of Disease
An in-depth analysis of the cellular and molecular basis of disease, including the role of environmental and inherited risk factors, as well as mechanisms of response to cell injury and inflammation in the disease process. A number of examples will be studied including cancer and infectious disease.

Prerequisite: MEDSCI 203

MEDSCI 302

Cancer Biology
A study of the scientific basis of cancer including: mechanisms underlying the pathogenesis of cancer, carcinogenesis, DNA damage and repair, properties of cancer cells (including abnormalities of growth and cell cycle control), the growth of tumours, the classification and histopathology of cancers, and an introduction to therapeutic strategies.

Prerequisite: BIOSCI 356 or MEDSCI 203

MEDSCI 309

Biophysics of Nerve and Muscle
An advanced treatment of the physiology of excitable cells. Topics include: the biophysical basis of membrane potential, the spread of electrical activation and synaptic transmission, structure, excitation, mechanics and energetics of muscle and functional differences among
Cardiovascular Biology
An advanced treatment of the human cardiovascular system that provides an integrated framework for understanding the structure, function and regulation of the heart and circulation, and their modification by drugs. Topics include: the energetics and mechanics of the heart, the regulation of heart rhythm and the control of blood pressure and the regulation of flow through the microcirculation. The course is illustrated using examples drawn from current research in the field and from representative disease states.
Prequisite: MEDSCI 205

Neuroendocrinology of Growth and Metabolism
An introduction to the mechanism controlling the production of hormones and how these achieve their effects in regulating body function. The course focuses in particular on the hormone systems controlling growth and metabolism and contrasts the differences between fetal and adult life. It also highlights how defects in endocrine systems are associated with conditions such as obesity and diabetes.
Prequisite: MEDSCI 205

Reproductive Biology
Aspects of reproductive biology including: regulation of gonadal function, the menstrual and oestrous cycles, ovulation, spermatogenesis, feto-maternal physiology including placental function, animal reproduction and assisted reproductive technologies.
Prequisite: 15 points from BIOSCI 107, 203, MEDSCI 142

Immunology
The biology, cellular and molecular events underlying the immune response. The nature and characteristics of antibody-mediated and cell-mediated immunity including antigen recognition and presentation, antibody and T cell receptor structure, immune regulation and cytokines, immunogenetics and histocompatibility. The relationships of the immune system to the activities of pathogenic organisms. Applied immunology including biotechnology, infection, autoimmune, tumour immunology, transplantation and immunodeficiency.
Prequisite: MEDSCI 202 or BIOSCI 201

Nutrition, Diet and Gene Interactions
Gene-X environment interactions are increasingly being recognised to play an important role in the risk and pathogenesis of various diseases. The interaction between genetics and dietary factors in modulating mechanism of gut, bone, cancer and metabolic disease will be considered in this course, as well as the technologies required to understand such interactions.
Prequisite: BIOSCI 202 or 203

Sensory Neuroscience: From Molecules to Disease
The physiology of neurosensory systems in health and disease with an emphasis on clinical relevance and current advances in research. The course will provide in-depth coverage of mechanisms involved in each system at a broad systemic level, down to the molecular level. Topics include vision, hearing, balance, olfaction, taste, touch and pain.
Prequisite: MEDSCI 206

Integrative Neuroscience: From Fetus to Adult
The development and function of the central nervous system in health and disease. Topics include development of the CNS, functional imaging of the human brain, synaptic function in health and disease, development and pathophysiology of motor systems, perinatal and adult brain ischemia, stroke, and sleep related disorders. The topics are covered at an advanced level with emphasis on current advances in the fields.
Prequisite: MEDSCI 206

Pharmacokinetics and Drug Toxicity
Considers the biochemical processes involved in achieving clinically-relevant drug concentrations that result in therapeutic effects and drug toxicity, from drug input, distribution, and elimination plus the ways in which these processes are described (pharmacokinetic modelling). Explores factors such as drug-drug interactions, pharmacogenetics, dosing and pharmacokinetic considerations in selected populations and that may influence both clinical effectiveness and drug toxicity.
Prequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, BIOSCI 203
Restriction: MEDSCI 303, 306, 321

Molecular Pharmacology
Explores the cellular and molecular mechanisms of drug action with a focus on G-protein coupled receptors and biochemical targets for cancer therapy. Drug design is considered from the perspective of in silico modelling, biochemical assessment and intracellular signalling.
Prequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, BIOSCI 203
Restriction: MEDSCI 304, 321

Pharmacology of the Brain and Body
Extends the principles of pharmacology acquired at Stage II to discuss how diseases can be treated in a variety of organ systems including the cardiovascular, gastrointestinal, endocrine, reproductive, and respiratory systems with emphasis on the central nervous system. Covers the mechanisms of action of drugs, and the influence of anatomy, physiology and pathology.
Prequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, 206, BIOSCI 203
Restriction: MEDSCI 305, 307
populations and in various pathological conditions that may influence both clinical effectiveness and drug toxicity. 

Prerequisite: MEDSCI 204 and 30 points from BIOSCI 203, MEDSCI 203, 205
Restriction: MEDSCI 303, 306, 318, 319, 735

MEDSCI 399
Capstone: Medical Sciences
Students will integrate and communicate knowledge attained during their study of medical sciences ranging from normal physiology through pathological process to the safe and effective use of medicines to treat diseases. Students will consider wider societal issues involved in research, such as human and animal ethics, within the context of Aotearoa and Te Tiriti o Waitangi.
Prerequisite: 15 points from MEDSCI 318-320 and 15 points from MEDSCI 301-321
Restriction: BIOMED 399, BIOSCI 399, PHARMCOL 399, PHYSIOL 399

Postgraduate 700 Level Courses

MEDSCI 700
Drug Discovery Biology
Reviews recent studies on the use of chemical and genetic methods to characterise the role of proteins in disease and their potential as drug targets. Topics will include proteins involved in regulation of immune response, lipid mediated cell signalling pathways, drug-protein interactions, some discovery methods, and pre-clinical studies on mechanism of action.

MEDSCI 701
Special Studies in Medical Science
The critical review and analysis of research literature relating to a research topic. Components include an extensive literature review article defining the current knowledge relevant to a particular research area, a research proposal outlining proposed Masters research topic and its significance, and a formal presentation of the proposal. Suitable for students intending to undertake a Masters thesis.
Restriction: MEDSCI 702, 744

MEDSCI 703
Advanced Biomedical Imaging
Theory and practice of biomedical imaging from the subcellular to whole body level with specific emphasis on recent developments. Principles of digital image-processing and image analysis (including quantitative morphology), computed tomography and volume rendering and analysis. Imaging modalities including atomic force microscopy, light and confocal microscopy, electron microscopy, X-ray, CT, ultrasound and magnetic resonance imaging.

MEDSCI 704
Stem Cells and Development
Stem cell biology and the genetic regulation of developmental processes will be examined in normal and disease settings. Blood, immunity, vascular networks and the kidney will be used as systems to explore important concepts in organ development and regeneration. This knowledge will be applied in understanding disease processes such as leukaemia, inflammation and kidney disorders, and in designing new therapeutic strategies.

MEDSCI 705
Infection, Immunity and Disease
Examines the ways in which host immune mechanisms control infection, infectious organisms evade host defence mechanisms, and the consequences of these processes for the host. Examples of human infectious diseases will include: HIV, hepatitis B, influenza, tuberculosis and streptococcal infections. Consideration of the consequences of infection will incorporate discussion of immune self/non-self discrimination, immune tolerance and autoimmune mechanisms, including the impact of response against infections on autoimmunity.

MEDSCI 706
Genomic Medicine
Examines a range of medical genetic disorders that illustrate principles of disease mechanisms, diagnosis and management. These will include: haemophilia, familial cancer, late-onset neurological disorders and mitochondrial disease.

MEDSCI 707
Antimicrobials and Resistance
Antimicrobial resistance is a public health concern developing worldwide. The nature of antimicrobial agents will be explored by examining their discovery, development and mechanisms of action. Antimicrobial resistance will be studied to understand both mechanisms of resistance and the factors that drive resistance. Emphasis will be placed on recent advances in the discovery of antimicrobials and the development of novel strategies for the control of infectious agents.

MEDSCI 708
Advanced Immunology and Immunotherapy
Explores recent advances in immunology including the genes, proteins and cell types involved in the innate and adaptive immune response, with a focus on how key components are integrated at a systems level to determine immune outcomes. Examines a range of inflammatory and immune mediated diseases, together with methods of immunotherapy, including the latest approaches to combat cancer and autoimmune disease.

MEDSCI 709
Nutrition in Health and Disease
The influence that dietary patterns, foods and food components have on the promotion and protection against the common nutrition-related diseases in New Zealand. The relevant epidemiological, clinical, and biochemical/physiological aspects of each disease are covered.

MEDSCI 710
Nutrition Mechanisms
The mechanisms by which food and food components can influence disease processes. Topics covered include: the interaction between genotype and nutrition, antioxidants and oxidation protection mechanisms, dietary toxicology, the process of atherosclerosis, and the influence of the intra-uterine environment on growth and disease.

MEDSCI 711
Clinical Nutrition
Prevention of malnutrition and maintenance of nutritional status during acute and chronic illness through 'artificial' or 'interventional' means. Diagnosis and quantitation of malnutrition, and monitoring of nutrition support therapy. Practical techniques, common complications and quality assurance through a multidisciplinary team approach. Includes treatment of anorexia nervosa and cancer cachexia.
MEDSCI 712 15 Points
**Critical Evaluation of Nutritional Therapies**
The suggested roles for micronutrients, 'nutriceuticals' and functional foods in general health, exercise performance and disease are evaluated using an evidence-based approach. The roles of micronutrients as dietary supplements and the potential actions of nutriceuticals and functional foods are also critically evaluated. Regulatory and ethical issues in the use of nutritional remedies are considered, including their use as supplements in chemotherapy or other conventional therapies, or in individuals with no symptoms.

**Prerequisite:** MEDSCI 302

MEDSCI 713 15 Points
**Principles of Cancer Therapy**
Examines the molecular and cellular processes underlying cancer treatment and the development of tumour-selective therapy; the principles of radiotherapy and chemotherapy; DNA and the basis for its interactions with anticancer drugs; recognition of DNA by proteins; exploitation of these processes by anticancer drugs, oncogenes and other regulatory gene products; signal transduction mechanisms and strategies for changing cell cycle control; cytokines and the role of host responses in cancer therapy; new approaches to cancer therapy including gene therapy and photodynamic therapy.

**Prerequisite:** MEDSCI 302

MEDSCI 714 15 Points
**Advanced Cancer Biology**
Advanced studies of concepts related to the biology of cancer. These will include: molecular mechanisms, signal transduction pathways, genomic instability, telomeres and telomerase, anoikis, DNA damage sensing mechanisms, and hypoxia and tumour progression.

**Prerequisite:** MEDSCI 302

MEDSCI 715 15 Points
**Molecular Toxicology**
Covers the current understanding of mechanisms implicated in toxicity of drugs and environmental chemicals plus the basis of inter-individual susceptibility. The course identifies strategies used to predict and prevent adverse reactions during drug development.

MEDSCI 716 15 Points
**Advanced Drug Disposition and Kinetics**
Advanced study of the absorption, distribution, metabolism and excretion of drugs, and the analysis of these processes. Also included are: in vivo/in vitro techniques in drug ADME studies used in drug development; drug analysis in biological matrices; and pharmaco-genomic aspects related to drug disposition.

MEDSCI 717 15 Points
**Advanced Neuroscience: Neuropharmacology**
An advanced study of current research topics in neuroscience. Involves critical analysis of the literature within the context of a series of major research themes that encompass models from molecular through to systems level neuroscience. Themes will be selected from the following areas: neurogenesis, neurodegeneration and/or addiction.

**Prerequisite:** MEDSCI 206, 317

MEDSCI 718 15 Points
**Pharmacology of Anaesthetics and Analgesics**
General aspects of anaesthetics and analgesics. Topics covered include the development of modern anaesthesia, the mechanisms of action of drugs used in general and local anaesthesia, and issues surrounding safety and efficacy of anaesthesia, including drug error and circadian variation in drug action.

MEDSCI 719 15 Points
**Pharmacometrics**
An introduction to the application of mathematical models used in the interpretation of pharmacological observations. Computer-based analysis methods are investigated using individual and population-oriented approaches.

MEDSCI 720 15 Points
**Biomedical Research Techniques**
An introduction to some of the most commonly used techniques used in today's research laboratories; from tissue culture to confocal microscopy, RT-PCR to mass spectrometry, immunoassay to cloning. Emphasis is placed on understanding the principles behind the techniques, how they are applied to address specific questions, and how to evaluate and use the data they generate.

MEDSCI 721 15 Points
**Advanced Toxicology**
Focuses on classes of drugs associated with idiosyncratic adverse reactions and studies to define their metabolic basis and assessment of toxic risk.

MEDSCI 722 15 Points
**Clinical Pharmacology**
The disposition and action of medicines in humans of all ages will be explored, as well as adverse reactions, effects of pregnancy, medicine classification, and evaluation of clinical trials. Emphasis is placed on understanding the sources of variability of medicines and the use of target concentration intervention.

MEDSCI 723 15 Points
**Cancer Pharmacology**
The pharmacological basis of the action of anti-tumour drugs relevant to human cancer therapy, emphasising the variability of chemotherapy effects, interactions between anti-cancer agents and early phase clinical trials.

MEDSCI 724 15 Points
**Advanced Neuroscience: Neurophysiology**
An advanced treatment of selected topics in neurophysiology and brain pathophysiology. Includes presentations and critical analysis by the students of the current scientific literature within the context of several major research themes that encompass models from molecular and cellular to systems level. Themes will be selected from the following areas: (1) motor control and motor disorders; (2) synapse physiology and pathophysiology; (3) advances in neural stem cell research; and (4) physiology and pathophysiology of CNS glia.

**Prerequisite:** MEDSCI 206, 317

MEDSCI 725 15 Points
**Perinatal Physiology and Medicine**
Fetal development has long-term consequences for health. This advanced course offers a wide range of research themes relating to fetal development and future health. Topics include: placental development, fetal physiology, and endocrine regulation and metabolic function during fetal and postnatal life. The course explores pathogenesis of disease and injury of the fetus and newborn, and how biomedical research leads to potential clinical treatment strategies.

MEDSCI 726 15 Points
**Reproductive Science**
Molecular regulation and coordination of normal reproduction. The reproductive disorders that arise when normal biological processes are disrupted. Recent
molecular methods have enabled us to study these processes and to understand how they can go wrong. Genomic and proteomic approaches to the understanding of reproduction and reproductive disorders will be presented. Examination of the new technologies that allow us to overcome some of these reproductive problems.

MEDSCI 731 15 Points
Advanced Reproductive Biology
Focusses on recent scientific advances in the field of human reproductive biology and medicine, with an emphasis on developing critical thinking skills. Examines the scientific approaches used to understand normal and pathological pregnancies, recent advances in reproductive medicine, and the ethical implications and considerations of assisted reproductive technologies.

MEDSCI 732 15 Points
Molecular Aspects of Endocrinology and Metabolism
Explores how hormones are able to control such a wide range of physiological processes. Covers molecular aspects of hormone action with particular reference to the neuroendocrine and peripheral endocrine systems that control appetite and metabolism. Other topics covered include how defects in hormone action lead to diseases such as cancer, obesity, Type-2 diabetes and cardiovascular disease.

MEDSCI 733 15 Points
Advanced Methods in Cell Physiology
The theoretical basis underpinning electrophysiological and live cell imaging techniques used to probe cellular function will be addressed. Emphasis will be placed on the instrumentation, data acquisition, and data analysis associated with each technology. The approach is practical and computer-based software programmes are used to analyse pre-recorded data, and data produced by the students themselves.
Prerequisite: 15 points from MEDSCI 309, 311, 312, 316, 317
Restriction: MEDSCI 726

MEDSCI 734 15 Points
Advanced Cardiovascular Science
Examines the current state of the field of research relating to cardiovascular physiology, including critical analysis of the literature. This course portrays how an integrative physiological approach can reveal new levels of understanding in the field of cardiovascular research. Examples of this approach will be drawn from research programmes within the broad area of cardiovascular biology.
Prerequisite: 15 points from MEDSCI 309, 311, 312, 316, 317

MEDSCI 735 15 Points
Concepts in Pharmacology
Explores cellular and molecular mechanisms of drug action and drug discovery and development from the perspective of in silico modelling, biochemical assessment, intracellular signalling and human disease. Considers the pharmacokinetic processes involved in achieving clinically-relevant drug concentrations, the link between concentration and effect, the time course of effect and factors that may influence both clinical effectiveness and drug toxicity.
Restriction: MEDSCI 321

MEDSCI 737 15 Points
Biomedical MRI
Provides students with a thorough understanding of a range of biomedical MRI techniques as well as advanced clinical MRI applications such as functional imaging of the brain and cardiovascular system. Laboratories will cover MRI applications in basic science, and MRI applications in clinical medicine.

MEDSCI 738 15 Points
Biological Clocks
Chronobiology – the study of biological rhythms and the clocks that control them. Theory, anatomical location and molecular machinery of biological clocks will be covered, as will the control of rhythms of different time scales from days (circadian rhythms) to years (circannual rhythms). The influence the human circadian clock has on physiology and drug efficacy, and the effect hospitalisation has on the control of sleep cycles will be given special attention.

MEDSCI 739 15 Points
Advanced Sensory Neuroscience
Advanced study of the physiology of neurosensory systems in health and disease. Provides an in-depth coverage of the molecular, cellular and systemic mechanisms underlying vision and hearing.
Prerequisite: MEDSCI 316

MEDSCI 740 15 Points
Stem Cell Biology and Transgenesis
Explores the use of embryonic and adult stem cells in research and for potential therapeutic applications. The development and recent technical advances in the fields of cellular reprogramming and embryonic stem cell-based transgenesis will also be covered.
Prerequisite: BIOSCI 356, MEDSCI 301

MEDSCI 741 15 Points
Medical Imaging Technology - Level 9
Study of the physical processes underlying current clinical imaging techniques. Topics include: physical principles of image acquisition, processing and display; artefacts, image acquisition methods and parameters and their impact upon patient safety and image quality; management of radiation exposure; principles of X-Ray, fluoroscopic, mammographic, computed tomography, magnetic resonance imaging (MRI), nuclear medicine, ultrasound imaging; MRI safety; dose estimation and quality assurance. Emphasis is placed on patient and practitioner care, image quality and artefacts in relation to image interpretation.

MEDSCI 742 15 Points
Anatomy for Medical Imaging - Level 9
Study of clinical and radiographic human anatomy, as demonstrated by current imaging techniques. Topics include: developmental anatomy, surface anatomy, functional anatomy and cross sectional anatomy. Emphasis is placed on normal variants and range of normality, and how to give a structured account of anatomy in relation to image analysis and identification.

MEDSCI 743 15 Points
Design and Analysis in Biomedical Research
An in-depth exploration of the principles of experimental design and data analysis in biomedical contexts. A focus on critical appraisal of choice of statistical tests to address experimental questions and appropriateness and limitations of analysis and interpretation of results will be undertaken. Practical and computer statistical packages are used.
Restriction: MEDSCI 725
MEDSCI 744 15 Points
Project Design in Biomedical Science
An individualised course of study in which each student will provide an exposition of the background to a specific research question in the biomedical sciences combined with a proposal of the best methods to investigate that specific question. A holistic consideration, including the ethical, regulatory, budgetary as well as, any other relevant aspects, of the chosen methods will be documented.
Prerequisite: 30 points from Medical Science at Stage III or higher with a B– or better
Restriction: BIOSCI 761, MEDSCI 701, OBSTGYN 705

MEDSCI 745 15 Points
Drug Development
Examines approaches for bringing potential new therapeutic drugs from the discovery bench into the clinic and the drug development process. Explores a variety of drugs and uses case studies to provide a practical understanding. Integrates multidisciplinary perspectives, drawn from academic and industry experiences, on practices that contribute to the development of safe and effective drug therapies.
Prerequisite: 30 points from Biological Sciences, Medical Sciences or Pharmacology at Stage III or higher, or equivalent

MEDSCI 746 15 Points
Special Topic
MEDSCI 747 15 Points
Special Topic
MEDSCI 748 15 Points
Special Topic
MEDSCI 760 15 Points
Early Life Nutrition, Lifelong Health
An in-depth exploration of the importance of the early life nutritional environment for health across the life course including critical appraisal of evidence from epidemiological, clinical, and pre-clinical studies.

MEDSCI 784A 45 Points
MEDSCI 784B 45 Points
Thesis - Level 9
To complete this course students must enrol in MEDSCI 784 A and B

MEDSCI 785A 45 Points
MEDSCI 785B 45 Points
Thesis - Level 9
To complete this course students must enrol in MEDSCI 785 A and B

MEDSCI 786A 60 Points
MEDSCI 786B 60 Points
Thesis - Level 9
To complete this course students must enrol in MEDSCI 786 A and B

MEDSCI 790 60 Points
MEDSCI 790A 30 Points
MEDSCI 790B 30 Points
Dissertation - Level 9
To complete this course students must enrol in MEDSCI 790 A and B, or MEDSCI 790

MEDSCI 793A 45 Points
MEDSCI 793B 45 Points
Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.

MEDICINE 700 15 Points
Designing Safer Systems
The application of improvement science and safety science methods to achieve better outcomes for patients by reducing harm, waste and variation in health care; includes a focus on measurement for improvement and the application of human factors theory and concepts to design a safer and more reliable health care system.

MEDICINE 702 15 Points
Understanding Complex Clinical Systems
Draws across domains of system science, safety science, complexity theory, and implementation science to help analyse how leaders understand and effect change in healthcare. A particular focus is on understanding how things go wrong and how organisational culture, power, and politics impact on models of effective leadership within clinical systems.

MEDICINE 703 15 Points
Special Studies in Medicine
Advanced study in a specific area usually related to the field of study of the thesis. Topics include, but are not restricted to, clinical neuroscience, bone science, rheumatology, geriatrics, cardiology, respiratory and renal medicine.
Māori Health

Foundation Courses

MAORIHTH 21H 12 Points
Introduction to Biology
An introduction to the structure, function and processes of the human body at cellular and tissue levels. Special emphasis on the four primary tissues including membrane transport, muscle types and function, vision and the immune response, and basic neurobiology. Provides foundational knowledge of development post fertilisation and the anatomy and physiology of selected mammalian organ systems. Exposes students to the laboratory environment, particularly microscopy and dissection.

MAORIHTH 22H 12 Points
Introduction to Anatomy and Physiology
Introduction to human biology through a study of the structure and function of mammalian organ systems. Focus of focus include: skin and derivatives, digestive, nervous, reproductive and urinary, bone, endocrine and circulatory systems. This course also exposes students to learning in a laboratory environment with a strong focus on microscopy and dissection.

MAORIHTH 23H 12 Points
Introduction to Chemistry 1
An overview of general chemistry principles with an emphasis on the language of chemistry and the use of mathematics to determine answers to chemical problems. An emphasis is placed on the atomic scale of matter so that students are able to describe the macroscopic world using a molecular perspective and relate chemical structures to functions. Laboratory work includes techniques of simple qualitative and quantitative measurements.

MAORIHTH 24H 12 Points
Introduction to Chemistry 2
Provides an overview of systematic organic chemistry illustrating the diversity and reactivity of organic compounds, including reaction mechanisms and application of chemical kinetics. Spectroscopic techniques will be discussed, including in relation to structure determination. A quantitative study of proton transfer reactions will allow for understanding of control of pH.

MAORIHTH 25H 12 Points
Introduction to Population Health 1
Introduction to key concepts and foundational knowledge in population health. Concepts include models for conceptualising health, the aggregate health of groups, social determinants of health, social gradients in health outcomes, and health inequalities and inequities, and foundational understanding of health care systems.

MAORIHTH 26H 12 Points
Introduction to Population Health 2
Explores patterns and distributions in health events, causal effects on health, and strategies for addressing health inequalities and inequities at a population level. Exposure to a foundational overview of epidemiology and population health concepts and relevant skills, including understanding and measuring the distribution of disease and illness in well-defined populations, will also be provided.

MAORIHTH 27H 12 Points
Academic and Professional Development in Māori and Pacific Health 1
Presents study and academic writing skills essential for successful transition from secondary education or community contexts into tertiary study. Content focuses on a practical application of Population Health and Māori and Pacific health workforce development, while engaging students in their professional practice, cultural growth and leadership and communication.

MAORIHTH 28H 12 Points
Academic and Professional Development in Māori and Pacific Health 2
Provides study and academic skills necessary for transition from foundation study to first year bachelor level study. Content areas focus on Māori and Pacific relevant examples of population health topics including: health status, determinants of health, barriers to access and quality of care and health interventions targeted at Māori and Pacific populations.

MAORIHTH 29H 12 Points
Introduction to Mathematics
Provides foundation skills in mathematics and develops mathematical competence. Topics covered include measurement, notation, functions, equations, exponential growth/decay, logarithms and statistics. Examples used in the course will revolve around applications of mathematics in the health sciences.

MAORIHTH 30H 12 Points
Introduction to Health Psychology
Introduction to key concepts and foundational knowledge in health psychology. Concepts include models and theories of behaviour change and development, including the relationship between major biological, cognitive and social-emotional processes. Broader social science approaches to behaviour, health and development across the lifespan will also be explored, as well as the application of health psychology for those wishing to pursue a career in health.

MAORIHTH 31H 12 Points
Introduction to Physics
An introduction to physics relevant to health studies, including examples and illustrations that revolve around human physiology. Topics include mechanics, optics, waves, thermal physics, radiation and electricity.

MAORIHTH 32H 12 Points
Special Topic

Stage II

MAORIHTH 301 15 Points
Introduction to Māori Health
Māori society, culture and values are explored. Historical processes are reviewed within the context of the Treaty of Waitangi. The course will examine how these factors underpin the basic determinants of health and shape contemporary Māori health status in Aotearoa. Different approaches to improving Māori health and reducing inequalities will be critically examined. Prerequisite: POPLHLTH 111

Stage III

MAORIHTH 301 15 Points
Māori Health and Practice
Māori health knowledge is used to develop effective public health practice for Māori contexts. Areas of focus include
critical thinking, reflective practice, advocacy and the application of Kaupapa Māori principles.

Prerequisite: MAORIHTH 201
Restriction: POPHLTH 201

Postgraduate 700 Level Courses

MAORIHTH 701 15 Points
Foundations of Māori Health
Provides an overview of the many dimensions of Māori Health. It examines the historical and contemporary determinants of Māori health status, and outlines strategies for improving Māori health in the context of the Treaty of Waitangi, and reducing health inequalities.

Restriction: MAORIHTH 301

MAORIHTH 705 15 Points
Māori Health Promotion and Early Intervention
Discusses the importance of health promotion and early intervention for Māori. Models of health promotion used by different Māori providers will be presented as well as assisting students to design and implement health promotion and interventions which are likely to be effective for Māori individuals, families, and communities.

MAORIHTH 706 15 Points
Māori Health: Policy and Practice
Critically examines public health policy and practice in Aotearoa/New Zealand with respect to Māori health and equity. Provides insights into the application of Kaupapa Māori principles in different areas of public health practice to advance Māori health.

Prerequisite: MAORIHTH 301 or 701

MAORIHTH 707 15 Points
Practicum in Māori Health
Provides the opportunity to develop social assessment and critical analysis skills through the documentation of an approved practicum. Students will be expected to be able to use and demonstrate knowledge of different Māori views, concepts and frameworks. Each student will have supervision and practicum developed appropriate to their learning interests.

MAORIHTH 708 15 Points
Special Studies

MAORIHTH 709 15 Points
Transformational Research for Māori Health
Provides a critical analysis of research and research processes with regard to their potential to colonise or liberate. Drawing on Kaupapa Māori Theory, the course examines how research can be undertaken in ways that are safe for Māori and that contribute to positive Māori development.

Prerequisite: MAORIHTH 710

MAORIHTH 710 15 Points
Kaupapa Māori Theory
Kaupapa Māori Theory (KMT) underpins a range of approaches employed to ensure policy, research and intervention processes emphasise Māori ways of knowing and being and work to prevent the further marginalisation of Māori. Students learn about the development of KMT and its use in the context of Māori health and development, and will experience and learn from a range of initiatives and projects that have KMT at their core.

Prerequisite: MAORIHTH 301 or 701
Restriction: MAORIHTH 702

MAORIHTH 711 15 Points
Special Topic: Māori Quantitative Methods
Provides students with an understanding of how to apply a Kaupapa Māori Research (KMR) approach to quantitative research methods (study design, analysis and dissemination) in the health sciences. It will expose students to a range of analytic and practical tools that can be drawn on in the design and conduct of quantitative research with Māori.

Prerequisite: MAORIHTH 301 or 701

MAORIHTH 792 60 Points
MAORIHTH 792A 30 Points
MAORIHTH 792B 30 Points
Dissertation - Level 9
Restriction: MPHEALTH 792
To complete this course students must enrol in MAORIHTH 792 A and B, or MAORIHTH 792

MAORIHTH 796A 60 Points
MAORIHTH 796B 60 Points
Thesis - Level 9
Restriction: MPHEALTH 796
To complete this course students must enrol in MAORIHTH 796 A and B

Nursing

Stage I

NURSING 104 15 Points
Applied Science for Nurses
Provides an opportunity for the application of specific and selected topics from the biological and physical sciences to be related to beginning nursing practice.

NURSING 105 30 Points
Nursing in Practice
An introduction to nursing as a profession including concepts of nursing practice, and communication skills. The theoretical basis for nursing practice as well as legal and ethical boundaries are introduced. The role of the nurse in health maintenance and health promotion is explored. Skills in assessment of clients and planning client care are introduced.

NURSING 199 0 Points
English Language Competency
To complete this course students must attain a level of competency in the English language as determined by the School of Nursing. This course must be completed prior to enrolling in Part II of the Bachelor of Nursing degree.

Stage II

NURSING 201 60 Points
Nursing Clients with a Pathophysiological Problem
A problem-based course where students acquire the skills associated with nursing clients requiring medical and surgical interventions and subsequent rehabilitation. Understanding the mechanisms of disease and prevention of such diseases is the basis for the course. Students are introduced to the principles of pharmacology and pharmacokinetics. Issues such as caring for clients with chronic pain and an understanding of death and grief are included. Practicums and teaching take place in a variety of clinical settings.

Prerequisite: 120 points at Stage I of the Bachelor of Nursing or equivalent
NURSING 202 60 Points
Mental Health, Addiction, (Dis)Ability and Enablement
Allows students to understand perspectives of mental health and illness, the crisis nature of mental illness and the therapeutic models of mental health management. Students acquire the specific nursing skills required to care for people with mental health problems and also those who have a long-term disability. Students undertake a range of clinical attachments in hospital and community settings.
Prerequisite: NURSING 201

Stage III

NURSING 301 60 Points
Community Health and Wellbeing
Concepts related to health and wellbeing for individuals, families and communities are addressed within the context of social, political and lifespan influences. Current national and global population health priorities for women, children and older people are explored, with focus on childbirth, childhood illness and ageing well. Clinical attachments are in a variety of acute and community settings.
Prerequisite: NURSING 201, 202

NURSING 302 60 Points
Professional Nursing Practice
Allows the student to make the transition from student to professional nurse. A period of practice in an elected area of clinical speciality is included. Issues such as the development of nursing knowledge, autonomy of practice, accountability for practice, and the legal and ethical parameters of competency as a nurse are emphasised.
Prerequisite: NURSING 301

Postgraduate 700 Level Courses

NURSING 700 30 Points
Special Topic

NURSING 701 30 Points
Research Project - Level 9
A personal scholarly exploration of an area of clinical nursing practice that reflects an understanding of research purpose and process. The project includes a critical and comprehensive review of relevant literature which results in new insights and understandings and considers how the application of these might affect existing service delivery or clinical practice models.

NURSING 732 30 Points
Leading and Managing Changes in Healthcare
Theoretical and practice principles of leadership and management in the context of healthcare organisations. Utilises an action based learning model, mentorship and project work.

NURSING 735 30 Points
Clinical Education Practicum
Application and critical analysis of educational theories and concepts in a clinical learning environment. Utilises an action based learning model and project work.

NURSING 740 30 Points
Nurse Practitioner Prescribing Practicum - Level 9
Clinical practicum facilitating mastery of the Nursing Council of New Zealand Nurse Practitioner (NP) competencies for autonomous clinical practice in the Nurse Practitioner scope of practice. Critically analyse clinical cases and develop evidence-informed and innovative solutions through expert consultation and primary literature review. Students will prepare a portfolio demonstrating expert autonomous clinical practice for complex medical and nursing problems.
Prerequisite: NURSING 743

NURSING 741 30 Points
Education for Clinical Practice
Professional learning is essential to enable healthcare professionals to function competently in the complex world of clinical practice. Health care professionals are required to become actively involved in teaching colleagues involved in healthcare and patients. Effective clinical teaching and learning is enabled by laying a foundation in educational theory and practice.

NURSING 742 30 Points
Biological Science for Practice
Focuses on common pathologies acknowledging the New Zealand Health Strategy, giving particular attention to areas where health promotion, preventative care, chronic disease management and cost impact for New Zealand.

NURSING 743 30 Points
Nurse Practitioner Advanced Practicum
Synthesises advanced clinical decision making within the Nurse Practitioner competency framework and prepares for autonomous clinical practice.
Prerequisite: NURSING 785

NURSING 744 30 Points
NURSING 744A 15 Points
NURSING 744B 15 Points
Specialty Nursing Practicum
Gives nurses the opportunity to extend their clinical skills and practice knowledge and to advance clinical decision making by utilising a range of guided learning experiences. The focus is on continued development of clinical expertise, using a practice development approach emphasising person-centred, evidence-based practice, and critical thinking practice to improve health outcomes.
To complete this course students must enrol in NURSING 744 A and B, or NURSING 744

NURSING 745 30 Points
Principles of Medication Management
Focuses on the principles and practice of medication management to improve and extend the knowledge and skills of registered nurses in clinical specialty roles and prepare them for delegated prescribing roles in partnership with clients and collaborating with medical colleagues and the health care team. It is not the intention of this course to prepare nurses for authorised prescribing (nurse practitioner).
Restriction: NURSING 761

NURSING 746 30 Points
Evidence-based Practice and Implementation - Level 9
Considers the types of evidence that inform nursing practice and implementation, and examines barriers and enablers to the application of evidence to practice. Provides students with the tools to locate and appraise evidence and requires the student to engage in research activities resulting in a substantial research essay.
Restriction: NURSING 720

NURSING 747 30 Points
Primary Health Care Nursing
Assists primary healthcare nurses working in diverse settings to put population health principles into practice through primary healthcare. Determinants of health, equity,
community empowerment, partnerships and effective ways to care for people with long-term conditions in communities will be explored.

Restriction: HLTHSCI 702, NURSING 772

NURSING 749 30 Points
Special Topic: Whānau Ora – Tahi
The concept of Whānau Ora is to achieve maximum health and well-being for whānau. Students’ knowledge of the concept will be extended and an understanding of Whānau Ora in nursing practice will be developed. Through guided learning experiences, clinical and academic support, students will self-reflect on nursing praxis and explore equity and social justice in the context of Te Tiriti o Waitangi.

NURSING 770 30 Points
Clinical Practice Development
Develops knowledge, practice and skills within the scope of a beginning registered nurse; enhances client assessment, planning and delivery of client-centred care within a specific healthcare context. Also fosters critical exploration of knowledge and skills appropriate to professional, socio-political, legal-ethical, cultural aspects of practice.

Restriction: NURSING 725, 773
To complete this course students must enrol in NURSING 770 A and B, or NURSING 770

NURSING 772 30 Points
Advanced Assessment and Clinical Reasoning
Nurses make a variety of diagnoses in their daily practice. Advanced nursing practice requires skilled health assessment, estimation of probabilities and evidence-based diagnostic reasoning. This complex cognitive process is developed in relation to skills and knowledge required for sound clinical reasoning.

Restriction: NURSING 770

NURSING 774 30 Points
Nursing People in Acute Mental Health Crisis
The concept of recovery forms the basis of exploring nursing care of people in states of acute crisis. The course focuses on models of acute care, collaborative care, risk assessment and management, and maintaining a safe, non-coercive environment. Students will be expected to engage in critical reflection and analysis of practice issues and case studies.

NURSING 775 30 Points
Leadership and Management for Quality Health Care
Builds management and leadership knowledge, competence and business acumen through project based learning. Focuses on critical thinking, quality service delivery and improvements and maximises organisational performance and change management.

NURSING 778 30 Points
Health Promotion and Early Detection of Cancer
Examines the latest knowledge and research available around health promotion, risk assessment and early intervention for cancer and consider the implications for nursing practice. Content addressed includes epidemiology, genetic risk, nutrition, lifestyle and environmental screening, surveillance, government policies and interventions.

Restriction: NURSING 767

NURSING 779 30 Points
Special Topic: Whānau Ora – Tahi
The concept of Whānau Ora is to achieve maximum health and well-being for whānau. Students’ knowledge of the concept will be extended and an understanding of Whānau Ora in nursing practice will be developed. Through guided learning experiences, clinical and academic support, students will self-reflect on nursing praxis and explore equity and social justice in the context of Te Tiriti o Waitangi.

NURSING 780 30 Points
Mental Health and Addiction Nursing
Introduces a person-focused theoretical framework to explore mental health and addiction problems in healthcare. Conceptualises mental health and addiction problems as frequently co-occurring. Engagement, assessment, collaborative solution focused interventions, referral and care coordination will be explored.

NURSING 782 30 Points
Research Methods in Nursing and Health
Explores the philosophical underpinnings of research methodologies and assists students to understand the major distinctions between quantitative and qualitative approaches. Students will critique research studies and apply research findings to practice. They will gain a practical appreciation of research ethics. By the end of the course, students will be able to apply their learning to the development of a basic research proposal.

Restriction: NURSING 768

NURSING 783 30 Points
Special Topic: Pae Ora
Pae Ora encourages the wider health sector to work collaboratively, to provide high-quality and effective health and disability services at all levels. This course has been designed for those who wish to develop and consolidate a sophisticated understanding of the principles of Pae Ora (Māori Ora – healthy individuals; Whānau Ora – healthy families; Wai Ora – healthy environments) in their practice area.

NURSING 784 30 Points
Advanced Emergency Nursing Practicum
Specialty Emergency nurses provide advanced nursing care and need expertise in assessment, diagnostic processes and therapeutic decision making. Advanced assessment skills along with injury and condition specific management models are taught with a focus on clinical decision making for clients in emergency and accident and medical clinic settings. Designed to refine advanced emergency nursing skills for nurses working in specialty emergency nursing roles.

Prerequisite: NURSING 773 or equivalent, and practising in an advanced nursing role

NURSING 785 30 Points
Clinical Reasoning in Pharmacotherapeutics - Level 9
Builds on prior knowledge to establish an advanced understanding of pharmacotherapeutics and the application of the principles of pharmacokinetics, pharmaco-dynamics to prescribing practice in advanced practice roles; and develops nursing skills in clinical reasoning for safe and effective prescribing.

Prerequisite: NURSING 742, and 770 or 773 or NURSPRAC 720
Restriction: NURSING 706, 722

NURSING 787 30 Points
Fundamentals of Nursing Care
Introduces the novice student to professional and theoretical knowledge in nursing; including clinical assessment skills, cultural awareness and specific ethical issues in nursing. Provides an overview of theories, policies and structures related to the New Zealand health context.

NURSING 789 30 Points
Research Project - Level 9
NURSING 790A 45 Points
NURSING 790B 45 Points

Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.
To complete this course students must enrol in NURSING 790 A and B

NURSING 795 60 Points
NURSING 795A 30 Points
NURSING 795B 30 Points

Dissertation - Level 9
Restriction: NURSING 792
To complete this course students must enrol in NURSING 795 A and B, or NURSING 795

NURSING 796A 60 Points
NURSING 796B 60 Points

Thesis - Level 9
To complete this course students must enrol in NURSING 796 A and B

NURSING 797A 60 Points
NURSING 797B 60 Points

Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.
To complete this course students must enrol in NURSING 797 A and B

Nursing Practice

Postgraduate 700 Level Courses

NURSPRAC 701 30 Points
Cardiac Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of cardiac patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of cardiac nursing.
Restriction: NURSING 730

NURSPRAC 702 30 Points
NURSPRAC 702A 15 Points
NURSPRAC 702B 15 Points

Critical Care Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of critical care patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of critical care nursing.
Restriction: NURSING 730
To complete this course students must enrol in NURSPRAC 702 A and B, or NURSPRAC 702

NURSPRAC 703 30 Points
NURSPRAC 703A 15 Points
NURSPRAC 703B 15 Points

Paediatric Cardiac Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of paediatric cardiac patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of paediatric cardiac nursing.
Restriction: NURSING 730

To complete this course students must enrol in NURSPRAC 703 A and B, or NURSPRAC 703

NURSPRAC 704 30 Points
Cancer Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of patients with cancer. Students will be expected to integrate evidence from a range of sources and apply this to the practice of cancer nursing.
Restriction: NURSING 730

NURSPRAC 706 30 Points
Orthopaedic Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of orthopaedic patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of orthopaedic nursing.
Restriction: NURSING 730

NURSPRAC 707 30 Points
Registered Nurse First Surgical Assist
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of surgical patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of RNFSA nursing.
Restriction: NURSING 730

NURSPRAC 708 30 Points
Emergency Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of patients in the emergency setting. Students will be expected to integrate evidence from a range of sources and apply this to the practice of emergency nursing.
Restriction: NURSING 730

NURSPRAC 710 30 Points
Palliative Care Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of palliative care patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of palliative care nursing.
Restriction: NURSING 730

NURSPRAC 711 30 Points
Pain Nursing Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of patients experiencing pain. Students will be expected to integrate evidence from a range of sources and apply this to the practice of nursing patients with pain.
Restriction: NURSING 730

NURSPRAC 712 30 Points
Diabetes Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of diabetic patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of nursing patients with diabetes.
Restriction: NURSING 730
NURSPRAC 713  
**Paediatric Intensive Care Nursing**  
A clinically based course focussing on history taking, assessment, formulation and nursing care planning. There is an emphasis on pharmacotherapeutic principles of medication management to prepare students for practice as a registered nurse integrated into the course.

NURSPRAC 715  
**Endoscopy Specialty Nursing**  
A clinically based course covering history taking, comprehensive mental health assessment, and negotiation skills. Focuses on the development of person-centred, reflective practice demonstrating understanding of socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 716  
**Ophthalmology Specialty Nursing**  
A clinically based course covering history taking, comprehensive mental health assessment, and negotiation skills. Focuses on the development of person-centred, reflective practice demonstrating understanding of socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 717  
**Practicum for RN Designated Prescribers**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 718  
**Contemporary Mental Health and Addictions Nursing Practice**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 719  
**Clinical Practice in Mental Health and Addictions**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 720  
**Advanced Mental Health Assessment - Level 9**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 721  
**Integrative Nursing Practice**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 722  
**Transition to Professional Nursing Practice**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 723  
**Special Topic: Paediatric Intensive Care**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 724  
**Special Topic: RN First Surgical Assist Practicum**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 725  
**Special Topic: Endoscopy Nursing Practicum**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744

NURSPRAC 726  
**Mental Health Nursing Practicum**  
A problem-based course where students develop the knowledge and assessment skills associated with nursing practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.  
Prerequisite: NURSPRAC 713  
Restriction: NURSING 730, 744
NURSPRAC 727 30 Points
Special Topic: Perioperative Nursing Specialty
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of patients across the perioperative continuum. Students will integrate evidence from a range of sources and apply this to the practice of caring for people requiring surgical intervention.

NURSPRAC 728 30 Points
Special Topic: Frailty in Aged Care Nursing
Frailty is an age-related, progressive geriatric syndrome related to pathological changes in underlying physiological and psycho-social function and the leading cause of mortality and morbidity in older people. Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of older people affected by frailty.

NURSPRAC 729 30 Points
Special Topic

NURSPRAC 730 30 Points
Special Topic

Obstetrics and Gynaecology

Postgraduate 700 Level Courses

OBSTGYN 705 15 Points
Special Topic in Obstetrics and Gynaecology

OBSTGYN 712 15 Points
Contraception and Pre and Early Pregnancy
An evidence-based approach to contraception and pre and early pregnancy care. Mechanisms, side effects and contraindications of methods of contraception are covered. Pre pregnancy care will include preconception counselling and the psycho-social aspects of pregnancy care such as effects of drugs, alcohol, smoking and travel. Best practise and referral guidelines for early pregnancy ante natal care will be covered including diagnosis and management of early pregnancy problems such as recurrent miscarriage, ectopic pregnancy, gestational trophoblastic disease and hyperemesis.

OBSTGYN 713 15 Points
Pregnancy and Postnatal Care in the Community
Common problems of pregnancy for primary care. Includes pregnancy care in the community, obstetric emergencies, common disorders in pregnancy, birth matters, the immediate postpartum period, the newborn.

OBSTGYN 715 15 Points
Medical Gynaecology 1
Women's health and sexually transmitted diseases, menstrual disorders, pelvic pain and dyspareunia, vulva problems and vaginal discharge, menopause management.

OBSTGYN 716 15 Points
Medical Gynaecology 2
Pathophysiology and clinical management of infertility, gynaecological malignancies, family violence, adolescent gynaecology, termination of pregnancy, urogynaecology.

OBSTGYN 717 30 Points

OBSTGYN 717A 15 Points

OBSTGYN 717B 15 Points

Practical Obstetrics and Gynaecology
Practice of obstetrics and medical gynaecology, practical procedures in obstetrics and gynaecology including competency in examinations, cervical smear taking, and insertion of intrauterine contraceptive devices. Competency in normal labour and delivery and minor surgical procedures encountered in obstetric practice. Requires the completion of a logbook approved by the Clinical Supervisor and Head of Department.

Corequisite: OBSTGYN 721 and 722, or 724 and 725
To complete this course students must enrol in OBSTGYN 717 A and B, or OBSTGYN 717

OBSTGYN 722 15 Points
Gynaecology Residential
Approaches to women's health issues, history and examination principles and procedures, issues of screening, hormone replacement therapy and case-based studies. This course must be completed prior to students sitting the clinical and written examinations.

Restriction: OBSTGYN 719

OBSTGYN 723 15 Points
Special Studies

OBSTGYN 724 15 Points
Obstetrics Residential
Attitudes to women's health, including cultural and ethical issues. History-taking techniques and techniques for minor procedures are developed.

Restriction: OBSTGYN 721

OBSTGYN 725 15 Points
Gynaecology Residential
Approaches to women's health issues, principles and procedures associated with history-taking and examination. Issues of screening, hormone replacement therapy and other case-based studies are addressed.

Restriction: OBSTGYN 722

Ophthalmology

Postgraduate 700 Level Courses

OPHTHAL 703 30 Points
Special Topic: Research Methods and Skills for Eye Research
A comprehensive overview, focusing primarily on the ophthalmic arena. Includes: research, methodologies, literature reviews, implementation and appraisal of qualitative and quantitative research, developing research questions and writing up of research for presentation and publication. Provides skills specific to eye research that may not be relevant to other health care professionals.

OPHTHAL 704 30 Points
Special Topic: Ophthalmic Technology
The theory, basic principles, techniques and interpretation of results for ophthalmic technology used in the diagnosis and treatment of eye disease. Technology covered includes: slit lamp biomicroscopy, tonometry, A-scan ultrasound, keratometry; IOL master, HRT, OCT, computerised topography, anterior segment photography, FFA, autorefraction and therapeutic lasers. The latest advances in ophthalmic technology will also be included.

OPHTHAL 705 30 Points
Special Topic: Management of Acute Eye Disease
Overview of the diagnosis and management of 'acute eye conditions' in the community and hospital settings including: signs and symptoms, differential diagnosis, treatment modalities and medium term management.
### Stage I

**OPTOM 101G**  
**How We See**  
Overview of the interdisciplinary study of human vision. The course introduces the biological/physiological organisation of the visual system, discusses the subjective nature of perception, and the implications of studies of biological visual systems for machine vision. Interdisciplinary understandings of vision will be enriched by the examination of historical paintings and artists’ visual experiences.

- **OPTOM 216A**  
  **15 Points**  
  **Introduction to Optometry**  
  A clinically-focused course introducing students to optometric practice and addressing, at an introductory level, the ethical, cultural, theoretical and clinical aspects of the optometric examination. Topics covered include: preliminary tests from the eye examination, communication skills and clinical problem solving. The course will emphasise assessment utilising advanced equipment and the production of clinically relevant outcomes and diagnosis-supportive hypotheses.  
  *To complete this course students must enrol in OPTOM 216A and B*

- **OPTOM 263A**  
  **15 Points**  
  **Essential Optics**  
  An introduction to optics relevant to optometry and necessary to understand the optical performance of the eye, the design of ophthalmic lens applications, and the principles of operation of clinical instrumentation. Topics include: the basic principles of physical optics, the principles of image formation by lenses and lens systems, mirrors and prisms, optics of the eye, ocular ametropia, and aberrations.  
  *Restriction: OPTOM 215, 262, 265*
  *To complete this course students must enrol in OPTOM 263A and B*

- **OPTOM 272A**  
  **15 Points**  
  **Visual Science 1: Structure and Function of the Visual System**  
  Anatomy and physiology of the eye and visual pathway. Topics include composition and structure of the tear film, neural processing in the visual cortex, aspects of visual function including spatial and temporal vision, motion perception and colour vision. Investigation of visual perception using psychophysical and electrophysiological techniques.  
  *Restriction: OPTOM 151, 170, 171*
  *To complete this course students must enrol in OPTOM 272A and B*

### Stage II

**OPTOM 263B**  
**15 Points**  
**Essential Optics**  
An introduction to optics relevant to optometry and necessary to understand the optical performance of the eye, the design of ophthalmic lens applications, and the principles of operation of clinical instrumentation. Topics include: the basic principles of physical optics, the principles of image formation by lenses and lens systems, mirrors and prisms, optics of the eye, ocular ametropia, and aberrations.

**OPTOM 345A**  
**7.5 Points**  
**Principles of Ocular Pharmacology**  
*Prerequisite: OPTOM 171 or 272*
*Restriction: OPTOM 245*
*To complete this course students must enrol in OPTOM 345A and B*

**OPTOM 353A**  
**7.5 Points**  
**Ocular Pathology**  
*Restriction: OPTOM 251*
*To complete this course students must enrol in OPTOM 353A and B*

**OPTOM 375A**  
**7.5 Points**  
**Visual Science 2**  
To provide an understanding of visual information processing in human brain. In particular the cortical processing of shape, motion and colour, and development of the visual cortex will be addressed. A problem-oriented approach will develop critical thinking and problem solving skills. Students will acquire the ability to seek, evaluate
and retrieve scientific information on which to base their clinical practice.

Restriction: OPTOM 270

To complete this course students must enrol in OPTOM 375 A and B

OPTOM 392A 7.5 Points
OPTOM 392B 7.5 Points

Issues in Optometry 2
Prerequisite: Permission of Head of School

Restriction: OPTOM 291

To complete this course students must enrol in OPTOM 392 A and B

Stage IV

OPTOM 416A 15 Points
OPTOM 416B 15 Points

Clinical Optometry
Facilitates the transition from student to professional optometrist. Topics addressed include: structuring the routine optometric examination in a clinical setting, diagnosis and management of disorders of the visual system, case analysis, myopia control, visual ergonomics, vision screening, and visual standards. This course culminates in students examining and managing clients in the public University Clinics under supervision.

Restriction: OPTOM 312, 415

To complete this course students must enrol in OPTOM 416 A and B

OPTOM 430A 7.5 Points
OPTOM 430B 7.5 Points

Contact Lens Practice
Principles of contact lens fitting and clinical procedures used in contact lens practice. Topics include: current designs of contact lenses, soft and rigid materials used in contact lens manufacture, contact lens optics and verification techniques, contact lens fitting, patient contact lens care, and complications associated with contact lens wear.

Restriction: OPTOM 330

To complete this course students must enrol in OPTOM 430 A and B

OPTOM 442A 7.5 Points
OPTOM 442B 7.5 Points

Optometry for Special Populations
An advanced clinical course including consideration of visual disorders specific to children, adults with binocular vision abnormalities, or those with visual impairment including the older population. Topics include: developmental aspects and assessment of infants/children, investigation and management of binocular eye-movement disorders; and diagnosis and management of vision problems in visually impaired patients including electronic, optical and non-optical low vision appliances.

Restriction: OPTOM 341, 440, 441

To complete this course students must enrol in OPTOM 442 A and B

OPTOM 450A 15 Points
OPTOM 450B 15 Points

Diseases of the Eye and Visual System: Diagnosis and Management

Signs, symptoms and diagnosis of diseases of the eye, ocular adnexa and visual system, including the use of therapeutic agents. Indications, contraindications and side effects of therapeutic agents for the treatment of ocular disease.

Restriction: OPTOM 351, 352, 355

To complete this course students must enrol in OPTOM 450 A and B

OPTOM 492A 7.5 Points
OPTOM 492B 7.5 Points

Issues in Optometry 3
Prerequisite: Permission of Head of School

Restriction: OPTOM 391

To complete this course students must enrol in OPTOM 492 A and B

Stage V

OPTOM 510A 15 Points
OPTOM 510B 15 Points

Advanced Clinical Optometry 1
Clinical work with responsibility, under supervision, for patients.

Restriction: OPTOM 410

To complete this course students must enrol in OPTOM 510 A and B

OPTOM 520A 15 Points
OPTOM 520B 15 Points

Advanced Clinical Optometry 2
Clinical work with greater emphasis on particular areas in optometry including: contact lenses, low vision, binocular vision, paediatric optometry and practice management.

Restriction: OPTOM 420

To complete this course students must enrol in OPTOM 520 A and B

OPTOM 560A 15 Points
OPTOM 560B 15 Points

Optometry in Practice
Supervised clinical work in locations external to the Grafton Campus Optometry Clinic. These locations may include University satellite clinics, private optometry practice, hospital eye departments, overseas institutions, or experience in other approved locations. Lectures address; legislation relevant to healthcare including registration and competency, occupational safety and health, ethics, practice management, small business management.

Restriction: OPTOM 462

To complete this course students must enrol in OPTOM 560 A and B

OPTOM 561A 30 Points
OPTOM 561B 30 Points

Optometry in Practice
Advanced clinical work experience in locations external to the Grafton Campus Optometry Clinic. These locations may include University satellite clinics, private optometry practices, hospital eye departments, private ophthalmology practices, overseas institutions, or other approved locations. Topics include; therapeutic management of eye disease, legislation relevant to healthcare including registration and competency, occupational safety and health, ethics, practice management, small business management.

Restriction: OPTOM 462, 560

To complete this course students must enrol in OPTOM 561 A and B
OPTOM 570A  15 Points  
OPTOM 570B  15 Points  
Research in Advanced Optometric Science  
Study modules on a range of topics in optometry and vision science, with the focus being on developing an evidence-based approach on selected topics. Study will include supervised investigations into an approved topic relating to optometry and vision science, including clinical and applied research.  
Prerequisite: OPTOM 416, 430, 442, 450  
Restriction: OPTOM 470, 473, 475, 480  
To complete this course students must enrol in OPTOM 570 A and B  
OPTOM 592A  7.5 Points  
OPTOM 592B  7.5 Points  
Issues in Optometry 4  
A number of special topics in Clinical Skills. Further information may be obtained from the School of Optometry and Vision Science.  
Prerequisite: Permission of Head of School  
Restriction: OPTOM 491  
To complete this course students must enrol in OPTOM 592 A and B  

Postgraduate 700 Level Courses  
OPTOM 751A  15 Points  
OPTOM 751B  15 Points  
Special Study in Vision Science  
The study of selected fields of vision science at an advanced level with detailed study of a particular field. The topic will be prescribed by the Head of School.  
To complete this course students must enrol in OPTOM 751 A and B, or OPTOM 751  
OPTOM 752A  15 Points  
OPTOM 752B  15 Points  
Special Study  
To complete this course students must enrol in OPTOM 752 A and B, or OPTOM 752  
OPTOM 757A  15 Points  
OPTOM 757B  15 Points  
Special Study in Optometry  
The study of selected fields of optometry at an advanced level with detailed study of the particular field. The topic will be prescribed by the Head of School.  
To complete this course students must enrol in OPTOM 757 A and B  
OPTOM 759A  15 Points  
OPTOM 759B  15 Points  
Special Study  
To complete this course students must enrol in OPTOM 759 A and B, or OPTOM 759  
OPTOM 783A  15 Points  
OPTOM 783B  15 Points  
Research Project in Vision Science - Level 9  
Supervised research that represents the personal scholarly work of a student based on a coherent inquiry at an advanced level into an approved topic related to vision science.  
Corequisite: OPTOM 416, 430, 442, 450  
Restriction: OPTOM 473, 570  
To complete this course students must enrol in OPTOM 783 A and B  
OPTOM 791A  45 Points  
OPTOM 791B  45 Points  
Research Portfolio in Clinical Optometry - Level 9  
Advanced clinical optometry research in a chosen sub-specialist area of optometric practice. The area of special interest may include contact lenses, low vision, paediatric optometry, binocular vision, ocular disease management, or any other area approved by the Head of School.  
To complete this course students must enrol in OPTOM 791 A and B  
OPTOM 796A  60 Points  
OPTOM 796B  60 Points  
MSc Thesis in Optometry - Level 9  
To complete this course students must enrol in OPTOM 796 A and B  

Paediatrics  

Diploma Courses  
PAEDS 601A  60 Points  
PAEDS 601B  60 Points  
Diploma in Paediatrics  
Covers: genetic and antenatal factors in development, neonatal paediatrics, assessment of a child's physical, intellectual, emotional and social needs, epidemiology of childhood disease, cultural factors and child health, general and preventative paediatrics, management of common disorders of childhood, and the practical working of the statutory and voluntary services available in New Zealand for the care of children. A logbook and dissertation must be completed.  
To complete this course students must enrol in PAEDS 601 A and B  

Postgraduate 700 Level Courses  
PAEDS 700  15 Points  
Special Topic  
PAEDS 704  15 Points  
Special Studies in Paediatrics  
Advanced study in a specific area, usually related to the field of study of the thesis.  
PAEDS 705  15 Points  
Neonate and Infant Health  
Students will learn about the pathogenesis, diagnosis and clinical management of common medical issues which affect infants from birth through the first year of life. Students will gain both theoretical and practical skills in clinical topics that affect neonates and infants.  
PAEDS 706  30 Points  
PAEDS 706A  15 Points  
PAEDS 706B  15 Points  
Paediatric Care (Toddler-Adolescent)  
Focuses on the pathogenesis, diagnosis and clinical management of common acute and chronic medical issues that affect infants, children, adolescents and young adults from the first year of life onwards. Students will develop both practical and theoretical skills.  
To complete this course students must enrol in PAEDS 706 A and B, or PAEDS 706
Course Prescriptions

PAEDS 707A 30 Points
PAEDS 707B 30 Points

Clinical Portfolio
Students will draw on their paediatric clinical exposure to reflect and modify clinical practice to meet best practices. Students will be given the opportunity to apply complex clinical theory in a structured framework. Students will develop a deep understanding of the theoretical underpinnings in paediatric clinical medicine and proficiency to apply relevant skills.

To complete this course students must enrol in PAEDS 707 A and B

PAEDS 708 15 Points
Population Youth Health
Youth injury prevention, resiliency factors and reproductive issues, and advocacy for young people. How do you make a difference in youth health? This course introduces key concepts in population youth health and utilises an evidence based approach and New Zealand practice examples to consider how youth health can be improved in communities and populations.

Restriction: POPLHLTH 732

PAEDS 710 15 Points
Clinical Care of Gender Diverse Youth
To develop and advance skills, knowledge and expertise in the clinical care of young transgender people.

Corequisite: PAEDS 712

PAEDS 712 15 Points
Youth Health Clinical Skills
Develops and extends knowledge and skills in clinical interviewing, comprehensive assessments and effective interventions with young people.

PAEDS 714 15 Points
Emergency Paediatrics
Designed for health care providers involved in the delivery of acute emergency care to children, this course combines theoretical knowledge with clinical practice. Students will learn to recognise and manage the important paediatric medical and surgical emergencies including the approach to the febrile child, management of seizures and the recognition and management of other acute medical and surgical paediatric conditions.

PAEDS 719 15 Points
Health, Education and Youth Development
Examines the overlap of health and education in the context of youth development by exploring the impact of past and current developments and strategies in both sectors on the wellbeing of young people. It reviews the ‘business’ of schools, the Health and Physical Education curriculum, school-based health and support services, whole school approaches to health, and the health and education needs of students not engaged with the school system.

PAEDS 720 15 Points
Advanced Youth Health
Extends students’ knowledge of youth health and well-being and develops knowledge and skills for supporting or leading improvements or projects in youth health. Will include advanced understandings of youth development and develop youth health project ideas or service improvements for clinical, research or policy settings.

PAEDS 721 15 Points
Clinical Care of Adolescents and Young Adults with Cancer
To develop and advance skills, knowledge and expertise in the clinical care of adolescents and young adults with cancer.

Prerequisite: PAEDS 712

PAEDS 722 15 Points
Youth Health Practicum
Aims to give clinicians the opportunity to extend their professional youth health skills and expertise through a supervised self-directed learning practicum in youth health.

Prerequisite: PAEDS 720

PAEDS 792 45 Points
PAEDS 792A 15 Points
PAEDS 792B 30 Points
Research Project - Level 9
To complete this course students must enrol in PAEDS 792 A and B, or PAEDS 792

Pharmacology

Stage III

PHARMCOL 399 15 Points
Capstone: Integrated Pharmacology
A capstone that applies fundamental principles of pharmacology and toxicology to the safe, effective and responsible use of drugs through investigation of a current area of pharmacological research. Emphasises experimental design, data collection, analysis, interpretation and presentation, as the scientific basis for rational, evidence-based decision-making.

Prerequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, 206, BIOSCI 203, and 30 points from MEDSCI 318-320

Restriction: MEDSCI 399

Postgraduate 700 Level Courses

PHARMCOL 787 60 Points
PHARMCOL 787A 30 Points
PHARMCOL 787B 30 Points
Dissertation - Level 9
To complete this course students must enrol in PHARMCOL 787 A and B, or PHARMCOL 787

PHARMCOL 788 45 Points
PHARMCOL 788A 22.5 Points
PHARMCOL 788B 22.5 Points
BSc(Hons) Dissertation - Level 9
To complete this course students must enrol in PHARMCOL 788 A and B, or PHARMCOL 788

PHARMCOL 796A 60 Points
PHARMCOL 796B 60 Points
MSc Thesis in Pharmacology - Level 9
To complete this course students must enrol in PHARMCOL 796 A and B
Pharmacy

Stage I

PHARMACY 111G  15 Points
Drugs and Society
The use of drugs in society including historical perspectives. Selected examples of the use of medicines in disease, recreational drug use and drug misuse, and cultural and ethnic influences on drug use. Differences between conventional and complementary medicines. The role of the pharmaceutical industry in drug discovery, manufacture and promotion. Legal and ethical issues pertaining to access to pharmaceuticals.

PHARMACY 199  0 Points
English Language Competency
To complete this course students must attain a level of competency in the English language as determined by the School of Pharmacy. This course must be completed prior to enrolling in PHARMACY 213.

Stage II

PHARMACY 211  30 Points
Applied Science for Pharmacy
Specific and selected aspects of chemistry, biochemistry, anatomy, physiology, immunology, microbiology, pathophysiology and pharmacology are explored in the context of beginning clinical pharmacy practice.

PHARMACY 212  30 Points
Pharmaceutical Science and Practice
The properties of materials, principles of pharmaceutical formulation, design of drug delivery systems and routes of administration of drugs are considered. The skills for competent pharmacy practice in New Zealand, including law, ethics, medicines information, clinical communication, cultural competence and elements of human behaviour are introduced.

PHARMACY 213  60 Points
Pharmacy 1
The optimal drug treatment of dermatological, infectious and gastrointestinal diseases and disorders is explored through an integrated multidisciplinary systems-based approach. Clinical and professional skills in law and ethics, critical appraisal, medicines information, pharmaceutical compounding and calculations, clinical communication and cultural competence are introduced. Introductory experiential learning placements in industry, hospital and community pharmacy sites are provided.

PHARMACY 311  60 Points
Pharmacy 2
Optimal drug treatment of respiratory, cardiovascular, renal and hepatic diseases and disorders are explored through an integrated multidisciplinary systems-based approach. Clinical pharmacy skills in law and ethics, dispensing, medicines information, adherence support, clinical communication, physical assessment and management are further developed. Experiential learning placements focus on development of pharmacy practice skills in community/hospital pharmacy settings throughout New Zealand.

Postgraduate 700 Level Courses

PHARMACY 701  45 Points
Medicine Optimisation 1
Evaluation of theoretical frameworks to assess health service design. Optimal drug treatment of cancers, neurological and psychiatric diseases and disorders are explored underpinned by critical appraisal of evidence. Clinical pharmacy skills in law, ethics, dispensing, aseptic compounding, medicines information, teamwork and leadership are consolidated. Advanced experiential learning placement opportunities are undertaken in sites throughout New Zealand and overseas locations.

PHARMACY 702  45 Points
Medicine Optimisation 2
Theories and critical appraisal of evidence applied to design health service innovations. Optimal treatment of musculoskeletal diseases, disorders and pain, children's and older persons’ health issues, patients with multiple morbidities explored through an integrated multidisciplinary systems-based approach. Clinical pharmacy skills in law, ethics, dispensing, medicines information, teamwork, leadership, pharmacoeconomics and health technology are further developed. Advanced experiential learning placement opportunities.

PHARMACY 750  30 Points
Pharmaceutical Formulation
Physiological and physicochemical factors in drug delivery and formulation of pharmaceutical products. Consideration of both traditional (e.g., solutions, semi-solids, solids, aerosols) and novel (e.g., liposomal) drug delivery systems based on the experimental literature.
PHARMACY 751 30 Points
Pharmaceutical Techniques
Experimental and analytical techniques in the assessment of pharmaceutical products and of drug action in biological systems. Consideration of pharmacopeial and official standards, drug stability and drug metabolism.

PHARMACY 752 15 Points
Pharmaceutical Quality Assurance
Principles of good manufacturing practice (GMP), quality assurance and quality control as applied to pharmaceutical products and processes. Consideration of relevant industrial processes, legislation, safety issues, packaging, labelling, stability and regulatory requirements.

PHARMACY 753 15 Points
Pharmaceutical Regulatory Affairs
To synthesise knowledge pertaining to the registration and licensing of pharmaceutical products nationally and internationally and to effectively apply regulatory principles to the introduction of new pharmaceutical products to the New Zealand and global market.

PHARMACY 754 15 Points
Pharmaceutical Science Research Proposal
A comprehensive critical study of the literature pertaining to the proposed thesis research. This will include a review of the relevant methodologies, the analysis of research results and the relationship of published work to the proposed research.

PHARMACY 760 15 Points
Literature Review in Pharmaceutical Sciences
A thorough investigation of the current literature in a specified area leading to a comprehensive review with the intent of a review publication.

PHARMACY 762 15 Points
Literature Review in Pharmacy Practice
A thorough investigation of the current literature in a specified area of pharmacy practice or pharmacotherapy leading to a comprehensive review with the intent of a review publication.

PHARMACY 763 15 Points
Case Studies in Pharmacy Practice
The investigation and construction of case studies in a current area of pharmacy practice to a quality suitable for submission for publication.

PHARMACY 764 30 Points
Medicines Information and Critical Appraisal
Develops advanced skills in the retrieval, evaluation and dissemination of medicines information, as well as the ability to critically evaluate clinical literature in the context of selected common therapeutic areas.

PHARMACY 765 30 Points
Medicines Management and Pharmaceutical Care
Explores the concepts of medicines management and pharmaceutical care planning in the context of selected common therapeutic areas. The course will emphasise the role of the pharmacist in the optimisation of medicines therapy for individual patients. 
Prerequisite: PHARMACY 764

PHARMACY 766 30 Points
Applied Pharmacotherapy
Embody evidence-based practice and the philosophy of pharmaceutical care to achieve optimum therapeutic outcomes in patients with endocrine, cardiovascular, respiratory, mental health, neurological and gastrointestinal disease states.
Prerequisite: PHARMACY 764, 765

PHARMACY 767 30 Points
Advanced Pharmacotherapy
Explores current pharmacotherapeutics in the context of patients with complex pathologies and complex clinical needs, allowing for some specialisation in the student’s areas of interest.
Prerequisite: PHARMACY 764, 765

PHARMACY 769 30 Points
Principles of Prescribing
Legal and ethical considerations; communication with patients and other health professionals; clinical reasoning and decision-making; physical assessment and diagnostic skills; ‘mechanics’ of prescribing; pharmacoeconomic considerations.

PHARMACY 770 30 Points
Prescribing Practicum
A practicum for prescribing: an experiential placement where the pharmacist develops experience in prescribing under the overarching guidance of a designated medical prescriber.
Prerequisite: PHARMACY 769

PHARMACY 771 15 Points
Special Studies

PHARMACY 772 15 Points
Special Studies

PHARMACY 773 30 Points
Special Topic

PHARMACY 774 30 Points
Special Topic

PHARMACY 789A 15 Points
PHARMACY 789B 15 Points
Research Project - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent inquiry at an advanced level into an approved topic related to pharmacy or health scholarship under supervision of School of Pharmacy academic staff and collaborators. Develop understanding about the nature and practice of research and capabilities in data analysis, academic writing and dissemination of research.
Prerequisite: PHARMACY 312
Restriction: PHARMACY 410, 413
To complete this course students must enrol in PHARMACY 789 A and B

PHARMACY 792 60 Points
PHARMACY 792A 30 Points
PHARMACY 792B 30 Points
Dissertation - Level 9
To complete this course students must enrol in PHARMACY 792 A and B, or PHARMACY 792

PHARMACY 796A 60 Points
PHARMACY 796B 60 Points
Thesis - Level 9
To complete this course students must enrol in PHARMACY 796 A and B
PHARMACY 797A 60 Points
PHARMACY 797B 60 Points

Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of enquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or aspect of practice in health.
To complete this course students must enrol in PHARMACY 797 A and B, or PHARMACY 797

Physiology

Stage III

PHYSIOL 399 15 Points
Capstone: Physiology
Advancements in science come through integrating knowledge and excellence in experimental design. Students will integrate and communicate knowledge attained during their physiology degree by developing a research proposal. Working in small groups, and in research group placements will explore scientific knowledge, and experimental design, as well as wider issues such as ethics, health economics, and Māori and Pasifika health advancement.
Prerequisite: 30 points at Stage III in Physiology
Restriction: BIOMED 399, MEDSCI 399, PHARMCOL 399

Postgraduate 700 Level Courses

PHYSIOL 787 60 Points
PHYSIOL 787A 30 Points
PHYSIOL 787B 30 Points
Dissertation - Level 9
Restriction: PHYSIOL 788, 789
To complete this course students must enrol in PHYSIOL 787 A and B, or PHYSIOL 787
PHYSIOL 788 45 Points
PHYSIOL 788A 22.5 Points
PHYSIOL 788B 22.5 Points
BSc(Hons) Dissertation - Level 9
Restriction: PHYSIOL 789
To complete this course students must enrol in PHYSIOL 788 A and B, or PHYSIOL 788
PHYSIOL 796A 60 Points
PHYSIOL 796B 60 Points
MSc Thesis in Physiology - Level 9
To complete this course students must enrol in PHYSIOL 796 A and B

Population Health

Stage I

POPLHLTH 101 15 Points
Introduction to Health Systems
Provides an overview and understanding of the New Zealand health system, including: history of health and health service delivery in New Zealand; the role and functioning of hospitals; primary care; purchasers and funders of health services; the role of insurance and private healthcare providers.

POPLHLTH 102 15 Points
Social Determinants of Health
A description and analysis of health within a social context.

POPLHLTH 103G 15 Points
Epidemics: Black Death to Bioterrorism
Discusses different models of health and provides a range of explanations for how social factors influence health. Options for addressing these issues are also explored.

POPLHLTH 111 15 Points
Population Health
To introduce frameworks and tools for measuring and understanding and improving the health of populations, both locally and globally. These frameworks and tools are derived from epidemiology, demography, public health, environmental health and global health sciences.

Stage II

POPLHLTH 202 15 Points
Research Methods in Health
Examines the different ways of approaching, designing and undertaking population health science research, covering research paradigms and methodologies, including both quantitative and qualitative methods.

POPLHLTH 203 15 Points
Health Promotion: Philosophy and Practice
Explains in detail the theoretical basis of health promotion; calling on current practice examples to bring the theory to life. Introduces international and New Zealand health promotion concepts and tools. Explains how health promotion practice rests on particular approaches, values and ethical considerations which directly link to a political analysis of deprivation and powerlessness.

POPLHLTH 204 15 Points
Health Care Ethics
An introduction to healthcare and medical ethics. A theoretical foundation of ethics in addition to the practical ethical issues relevant to healthcare professionals.

POPLHLTH 206 15 Points
Life Cycle Nutrition
Provides students with a general background and introduction to: the New Zealand diet; food preparation and meal patterns; dietary requirements during pregnancy and lactation, childhood and adolescence, lifestyle changes, maturity and ageing.

POPLHLTH 207 15 Points
Community and Cultural Development
An introduction to the study of community and cultural development as both philosophical approach and programme of practice for building active and sustainable communities from grassroots. Real world examples of effective practice will demonstrate the interdependence of theory, research and practice in health development. Emphasis is placed on collaboration and participation.
Prerequisite: POPLHLTH 102

POPLHLTH 208 15 Points
Mental Health Development
The importance of mental health to overall health and well-being is explored. Major threats to mental health
are reviewed, and contemporary responses to mental health are placed in historical perspective. Current theory, research and practice related to mental health development, which includes both recovery-based approaches and mental health promotion practice (i.e., promotion of well-being) at the community and population levels are reviewed.

*Prerequisite: POPLHLTH 102*

**POPLHLTH 210**

**Equity and Inequalities in Health**

Investigates the way in which social determinants lead to particular distributions of health in populations. Draws on a social epidemiological approach to explore ways in which inequalities in health (based on factors such as age, gender, ethnicity and socio-economic status) are created, then maintained or eliminated.

*Prerequisite: POPLHLTH 102*

*Restriction: POPLHLTH 201*

**POPLHLTH 211**

**Introduction to Environmental Health**

Provides students with concepts and knowledge necessary to understand the influence of the environment on health, and also to understand how human activity affects the environment. Local, regional and global examples of environmental health issues, as well as success stories, are explored. The course introduces approaches that may be taken to identify, understand and reduce environmental hazards.

**POPLHLTH 212**

**Bio-behavioural Aspects of Drug Use**

An introduction to the ways drugs exert their effects on the body, why drug dependence (addiction) occurs and what factors may predispose individuals to the development of drug dependence, including the aetiology of drug dependence and ways in which the study of bio-behavioural aspects of drug use has influenced public health interventions to reduce drug dependence.

**POPLHLTH 213**

**Special Topic: Positioning Pacific Health**

Introduces Pacific perspectives and worldviews of health and wellbeing and examines the social, structural, economic and political determinants of health for Pacific peoples in New Zealand.

*Prerequisite: POPLHLTH 101, 102, 111*

**POPLHLTH 214**

**Special Topic**

**POPLHLTH 215**

**Dynamics of Health Systems**

Examines ways in which approaches to quality and efficiency can be understood to examine changes in health systems, in response to the environment. The influence of key players is a key focus throughout this course.

*Prerequisite: POPLHLTH 101*

**POPLHLTH 216**

**Quantitative Methods in Health**

An introduction to and application of epidemiological and social science-based, quantitative principles, methods and skills used in health sector research.

*Prerequisite: POPLHLTH 111, 202*

---

**Stage III**

**POPLHLTH 300**

**Health Sector Professional Competencies**

Develops core skills in areas of project management, financial management, communication, leadership, team development, and cultural competence. An integrated project development approach is used to expose students to the key principles in these areas and to enable them to build a development plan.

*Prerequisite: POPLHLTH 204*

**POPLHLTH 301**

**Strengthening Health Systems**

*Prerequisite: POPLHLTH 202, 215*

**POPLHLTH 302**

**Health Services Placement**

The placement with a health service organisation provides students with the opportunity for experiential learning and the development of competencies needed in the workplace. Theory and skills learned in previous courses are integrated and extended as students apply prior knowledge to a local health organisation and carry out tasks asked of them.

*Prerequisite: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216*

**POPLHLTH 303**

**Health Informatics**

Students will explore the development and management of information systems in contemporary New Zealand healthcare services. Health informatics concepts, conceptualised in different healthcare settings, are critically reviewed in terms of their practical application.

*Prerequisite: POPLHLTH 101, 202*

**POPLHLTH 304**

**Principles of Applied Epidemiology**

The application of an epidemiological approach in population health, including study of the principles of epidemiological thinking, epidemiological study design and analyses, and the application of these findings to population health. Modules will be taught through specific themes for example, a life course approach or injury prevention.

*Prerequisite: POPLHLTH 111, 202, 216*

**POPLHLTH 305**

**Community Nutrition**

This course builds on POPLHLTH 206 ‘Life Cycle Nutrition’ by providing students with a general overview of the determinants of population eating behaviours and the implications of current dietary behaviours and patterns on health.

*Prerequisite: POPLHLTH 111, 206*

**POPLHLTH 306**

**Health Promotion 2**

Builds on the theory and practice in POPLHLTH 203, and examines in depth the relationship between economic and political processes and health status. The course also looks at the most effective strategies to put health promotion theory into practice. Mixed in with this will be an in-depth introduction to some of the emerging issues in health promotion, and a look at some of the specific areas of health promotion practice.

*Prerequisite: POPLHLTH 203*
POPLHLTH 307 15 Points
Communities and Addictions
Examines how addictions such as tobacco, alcohol, drugs and gambling seriously undermine the health of individuals and the communities in which they live and/or work. Case studies are used to understand the primary elements of community and cultural health development.
Prerequisite: 30 points at Stage II in Population Health

POPLHLTH 311 15 Points
Shaping Health Policy
Investigates recent changes to the ways in which governments seek to intervene to improve a population's health. NZ case studies will be used to illustrate the interrelationships between research, policy and practice in a devolved health system and the changing relationships between government agencies and health providers.
Prerequisite: POPLHLTH 202

POPLHLTH 312 15 Points
Health and Pacific People in NZ
An overview of the major health issues facing Pacific peoples, including analysis of the determinants of health status, focusing on approaches to improving health for Pacific peoples through research, policy, public health programmes and health services. A critique of dominant paradigms of health and well-being in relation to Pacific communities in Aotearoa New Zealand is included with consideration of their effect on health outcomes.
Prerequisite: POPLHLTH 210

POPLHLTH 313 15 Points
Health in Asian Communities
An overview of Asian health issues, including, the biological, ecological cultural, economic social and psychological factors that determine health for Asian New Zealanders is provided. Current practice, policy and research priorities for Asian communities are included.
Prerequisite: POPLHLTH 210

POPLHLTH 315 15 Points
Health and Pacific People in NZ
An overview of the major health issues facing Pacific peoples, including analysis of the determinants of health status, focusing on approaches to improving health for Pacific peoples through research, policy, public health programmes and health services. A critique of dominant paradigms of health and well-being in relation to Pacific communities in Aotearoa New Zealand is included with consideration of their effect on health outcomes.
Prerequisite: POPLHLTH 210

POPLHLTH 316 15 Points
Special Topic: Systematic Reviews and Meta-analysis
The principles of interventional systematic reviews and meta-analysis and their role in evidence-based health practice. Topics include understanding the population of interest, developing search strategies, appraising quality of included studies, data extraction, understanding synthesis (meta-analysis) and interpretation of results in the health context.
Prerequisite: POPLHLTH 211 and 216

POPLHLTH 317 15 Points
Translating Health Information
To lead to improvements in health, information needs to be translated appropriately to influence decision makers. Builds the skills and knowledge to be able to both critique and synthesise existing health information as well as to apply analytical methods and presentation approaches to data in order to effectively communicate findings to different decision-making communities.
Prerequisite: POPLHLTH 202

Postgraduate 700 Level Courses

POPLHLTH 700 15 Points
Community Health Development
Provides a comprehensive overview of the principles, theories, and frameworks for undertaking community-level health development. Special emphasis on empowering and critical perspectives and the implications for health and determinants at a community-level of focus. Informed by current research and a comparative case study approach, the paper examines the opportunities and challenges in the delivery of health for, and by, diverse communities in New Zealand and globally.
Corequisite: POPLHLTH 722

POPLHLTH 701 15 Points
Research Methods in Health
A comprehensive overview, in relation to health, of theoretical underpinnings of research; the asking of research questions; literature reviews; the design, implementation and appraisal of qualitative and quantitative research; and the writing up and dissemination of research.
Restriction: CLINED 714, NURSING 768, POPLHLTH 202

POPLHLTH 704 15 Points
Undertaking Qualitative Health Research
Provides practical experience in the appraisal and use of qualitative methods in research in health. The development of studies from research questions through design, conduct, and analysis and interpretation of such studies are examined in detail. Students are required to prepare a portfolio examining the use of a specific methodological approach in qualitative health research.

POPLHLTH 705 15 Points
Evaluation Research Methods
Provides a comprehensive overview of the principles for programme evaluation in the health sector and an overview of a variety of approaches to programme evaluation and the appropriate use of research tools. Includes logic models, stakeholder analysis, the development of objectives, indicators, client surveys and interviews. Emphasis on mixed methods evaluation designs involving qualitative and quantitative data gathering.

POPLHLTH 706 15 Points
Statistics in Health Science
Provides an overview of statistics and statistical methods for health scientists. Covers a range of methods and tests, including regression.

POPLHLTH 708 15 Points
Epidemiology
Examines epidemiological study design, measures of effect, screening, appropriate statistics for epidemiology, with a focus on public health epidemiology.

POPLHLTH 709 15 Points
Evidence for Best Practice
Evidence based practice uses epidemiological data derived from valid and clinically relevant research. This includes the accuracy of diagnostic tests, the power of prognostic markers and the efficacy and safety of therapeutic, rehabilitative or preventive interventions. This evidence is integrated with relevant contextual evidence such as patient and practitioner values, social, cultural and economic considerations to inform best practice.

POPLHLTH 711 15 Points
Systematic Reviews and Meta-analysis
The principles and critical appraisal of interventional systematic reviews and meta-analysis and their role in evidence-based practice. Topics include: protocol development, question formulation, identification of evidence, selection of studies for inclusion, appraisal and quality of included studies, extraction and recording of
data, synthesis (meta-analysis) and interpretation of results and application.  
**Prerequisite:** POPLHLTH 708 or 709 or equivalent experience

**POPLHLTH 715  15 Points**

**Global Public Health**

Explores global health from a public health perspective, with a strong emphasis on health and its determinants in developing countries. Topics covered include the global burden of risk and disease, global environmental challenges to health, international health governance, international healthcare financing and international health promotion.

**POPLHLTH 718  15 Points**

**Health and Public Policy**

A discussion of policy studies frameworks, and how these can be used to analyse policy issues and processes relevant to health and healthcare.

**POPLHLTH 719  15 Points**

**Health Economics**

Fundamental economic concepts and their application to healthcare. Provides students with some analytical skills with which to address issues and problems in the funding and organisation of health services.

**POPLHLTH 720  15 Points**

**Cost Effectiveness Evaluation**

The application of economic methods to the evaluation of health services and programmes. The principles and techniques of economic evaluation, the process of measuring costs and benefits of health services, quality of life measurement.

**POPLHLTH 722  15 Points**

**Organisation of Health Systems**

The principles, structure, financing and organisation of health systems. Current issues and challenges facing health systems from a national and international perspective.

**POPLHLTH 724  15 Points**

**Quality in Health Care**

Quality healthcare is examined with an emphasis on strategies that enable individuals, teams, and services within healthcare organisations to implement and sustain performance improvement. Allows students to explore the quality principles to an area of their own choice.  
**Restriction:** NURSING 775

**POPLHLTH 725  15 Points**

**Environmental Health**

Explores ways in which the environment affects human health. Studies links between industrial and agricultural development, environmental change and public health at local, national and global levels. Topics include the role of policies, legislation and public health actions in reducing environmental health risks.

**POPLHLTH 726  15 Points**

**Health Protection**

Current issues will be used to illustrate principles of health protection as an element of public health at local and national levels. The main inter-related topic areas within health protection (communicable disease control and surveillance; non-communicable disease control; food safety; alcohol and tobacco; air and water quality) will be discussed, along with identification of health hazards, development of prevention strategies, and field implementation methods.

**POPLHLTH 733  15 Points**

**Health Promotion Theory and Models**

Examines the values, theories and practice models of health promotion and in particular, an approach to the social determinants of health and health equity that seeks to empower individuals and groups to deal with these issues.

**POPLHLTH 734  15 Points**

**Health Promotion Strategies**

An overview of key strategies designed to promote health, with an emphasis on healthy public policy, partnerships, community action and advocacy and ways to link local, national and global actions. Practical and creative approaches to health promotion planning are explored through case studies, invited practitioners and the development of a group project with outcomes of empowerment and health gain.

**POPLHLTH 735  15 Points**

**Mental Health Development: Theory and Principles**

Mental Health Development (MHD) represents an emergent paradigm in the mental health sector, one which emphasises strengths, resilience and positive quality of life. It is applicable to all people, including those with mental illness, and to all aspects of mental health and social services. The course has a particular focus on the treatment and recovery for individuals affected by mental health problems.

**POPLHLTH 736  15 Points**

**Mental Health Promotion**

Examines the central role that positive mental health and well-being plays in the health of populations, it focuses on understanding the determinants of mental health and the processes by which these determinants affect mental health. The theory and application of mental health promotion practice, encompassing strategies for action at the societal, community and individual level, are discussed.

**POPLHLTH 737  15 Points**

**Alcohol, Tobacco and Other Drug Studies**

Provides an introduction and overview to studies on alcohol and other drugs. Incorporates theory and research developed within public health, mental health, and specialised treatment frameworks. Topics will include: coverage of historical developments, a review of major theoretical issues and an overview of current trends.

**POPLHLTH 738  15 Points**

**Biology of Addiction**

Explores the genetic and neurobiological factors that predispose individuals to develop addiction. The neuropharmacology of the main drugs of abuse and factors that are responsible for the variability in drug response (i.e. pharmacokinetics) will be presented. Current neurobiological models of addiction will be considered.

**POPLHLTH 739  15 Points**

**Pacific Health**

Examines a wide range of health issues related to Pacific health. Provides an in-depth analysis with evidence of the global, regional and local issues that determines the health of the Pacific population both in the Pacific region and in New Zealand.

**POPLHLTH 746  15 Points**

**Ethics, Culture and Societal Approaches to Death**

Approaches to death by Māori and other cultures. Resource and legal issues in the New Zealand context. Ethical issues:
explores the magnitude and consequences of the problem of, and contributing factors to, interpersonal and family violence. Examines some of the major violence prevention and intervention activities currently undertaken in New Zealand. Considers how effective practices and policies might be disseminated at the individual, community, and national levels. Themes include: the epidemiology of violence, causes of violence, developing and evaluating interventions, and violence as a health issue.

Restriction: SOCHLTH 751

**POPLHLTH 770**
Special Topic - Level 9

**Addictive Consumptions and Public Health**

Focuses on the extensive health impacts of addictive consumptions, particularly in relation to the legalised consumptions of tobacco, alcohol and gambling. Outlines applications of public health principles to reducing harm from these consumptions. Critically examines the role of corporate industrial complexes in promoting these consumptions and in preventing policy and legislative reforms.

Restriction: POPLPRAC 709

**POPLHLTH 774**

Public Health in Practice

Students will apply population health concepts, principles and methodologies from formal course work to current public health problems, and develop skills in communicating their solutions to a range of diverse audiences, while critically reflecting on their own position. Prerequisite: 45 points from Master of Public Health Schedule

**POPLHLTH 776**

Ethics, Culture and Societal Approaches to Death and Dying

Covers the approaches to death of different cultures, exploring resource and legal issues. Addresses ethical issues: euthanasia versus palliative care, privacy, living wills and end of life medical decision-making, treatment abatement, duties after death, the nature of teamwork, the multidisciplinary nature of palliative care, the role of volunteers, self-care for palliative care providers and home versus residential care.

Restriction: POPLHLTH 746

**POPLHLTH 780**

Dissertation - Level 9

To complete this course students must enrol in POPLHLTH 780 A and B, or POPLHLTH 780

**POPLHLTH 790**

Dissertation - Level 9

To complete this course students must enrol in POPLHLTH 790 A and B, or POPLHLTH 790

**POPLHLTH 796A**

Thesis - Level 9

To complete this course students must enrol in POPLHLTH 796 A and B
Population Health Practice

**Postgraduate 700 Level Courses**

**POPLPRAC 702** 15 Points

**Adult Mental Health and CBT Skills for Primary Care**
A clinically focused course providing an overview of the recognition and management of adult mental health in primary care and other healthcare settings. Topics and content will enable an examination of mental illness in New Zealand including cultural approaches and epidemiology, assessment, identification, treatment and management options. Content covers high prevalence conditions (depression, anxiety) and long term conditions (bipolar disorder and schizophrenia). Topics will include recovery, resilience, CBT techniques and the effect of alcohol and drugs.

**POPLPRAC 707** 15 Points

**Theory and Skills in Counselling Practice**
The theory, research and practice regarding counselling and psycho-therapeutic approaches used in mental health and addiction service contexts. Approaches will be critically examined in terms of history, theory, social context and trends in research. Particular attention will focus on counselling methods currently in use within services.

**POPLPRAC 708A** 15 Points

**POPLPRAC 708B** 15 Points

**Assessment and Intervention with Addiction**
Develops understanding and competency in assessment and intervention work with clients having co-existing problems, specifically those most affected by alcohol and drug issues. It focuses on comprehensive assessment, effective clinical interventions, drug-specific interventions and culturally-specific approaches working with individuals, whānau, and communities. It will involve regular review of practice using case-based scenarios filmed with feedback from tutors, mentors and peers. Corequisite: POPLHLTH 737, POPLPRAC 707

To complete this course students must enrol in POPLPRAC 708 A and B

**POPLPRAC 710** 15 Points

**Community Health Development Practicum**
Theoretical and practical principles of health promotion processes, combined with practical experience, in the context of relevant organisations, community groups and research projects. Students are expected to find their own placement for the practicum.

**POPLPRAC 712** 15 Points

**Project Planning for Lifestyle Change**
Focuses on the planning and development of interventions aimed at addressing lifestyle issues such as alcohol and other dangerous consumptions, obesity, lack of exercise and mental trauma. Students synthesise strategies from published literature and adapt them pragmatically for application in local contexts. Interventions will include those occurring in communities, primary and mental healthcare settings, hospitals, workplaces, and educational institutions.

**POPLPRAC 720** 15 Points

**Psychosocial Issues in Palliative Care**
The psychological and social study of patients with cancer or active, progressive disease, unresponsive to curative treatment. Existential philosophy and models of coping with suffering, communication in palliative care, psychiatric disorders in palliative care, and bereavement.

**POPLPRAC 722** 15 Points

**Symptom Management in Palliative Care**
Assessment and management of pain, nausea and vomiting, respiratory symptoms, delirium, and other symptoms commonly encountered in palliative care and at the end of life, together with an overview of palliative care emergencies, the role of radiotherapy in symptom management, and issues around nutrition and hydration at the end of life.

**POPLPRAC 723** 15 Points

**Advanced Symptom Management in Palliative Care**
Advanced concepts in the assessment and management of symptoms and situations, including the more challenging ones encountered within the palliative care approach to malignant and non-malignant advanced diseases. Prerequisite: POPLPRAC 722

**POPLPRAC 724** 15 Points

**Child and Adolescent Palliative Care**
An examination of specific palliative care issues related to the care of children, adolescents, and their families.

**POPLPRAC 729** 15 Points

**Urgent Primary Medical Care**
Assessment and management of a broad range of acute conditions and related issues including: chest pain, dyspnoea, collapse, coma, anaphylaxis, diabetes, toxicology, psychiatry and environmental conditions.

**POPLPRAC 740** 15 Points

**Urgent Primary Surgical Care**
Assessment and management of acute surgical and subspecialty conditions and related issues including: trauma, head injury, abdominal pain, ophthalmology, ENT, gynaecology, pregnancy, and genito-urinary conditions.

**POPLPRAC 753** 15 Points

**Special Studies**

**POPLPRAC 754** 15 Points

**Infant, Child and Adolescent Primary Mental Health**
Provides an overview of the recognition and primary care management of mental health in the under-eighteen age group. A clinically focused course for primary care practitioners. The content covers attachment, early intervention, development, risk assessment, resilience and families. Topics include depression, anxiety disorders, substance use, eating disorders, first episode psychosis, pain, somatic presentations, disruptive behaviour disorders and common behavioural problems.

**POPLPRAC 756** 30 Points

**Adult Rehabilitation Studies**
Focuses on the rehabilitation of adults with an acquired or traumatic condition; including an in-depth exploration of the philosophy of rehabilitation interwoven with the development of clinical rehabilitation skills. The concepts addressed in rehabilitation reflect the eclectic nature of the discipline. Restriction: POPLPRAC 728

**POPLPRAC 758** 30 Points

**Biology of Ageing**
The systematic analysis of the physiological changes in ageing and the relationship of these changes to current
beliefs and theories around the ageing process. Current issues around biogerontology are discussed.
Restriction: POPLHLTH 749

POPLPRAC 759 30 Points
**Engaging Pasifika Communities in Health**
Examines the concepts and principles of Pasifika health engagement and applies them culturally and appropriately in a Pacific setting to improve Pasifika health outcomes.

POPLPRAC 761 30 Points
**Mental Health in Old Age**
Explores mental health in old age, including positive mental health and the range of mental health challenges facing older adults. There will be a focus on mental health issues and care across the health continuum, including primary care, specialist mental health services, and aged care services.
Restriction: NURSING 747, POPLPRAC 727

POPLPRAC 765 15 Points
**Coexisting Problems: Theory and Principles - Level 9**
Develops further knowledge and skills in working effectively with clients who suffer from coexisting mental health and addiction problems. Students will be presented with research and theory on existent problems and will examine recent developments in intervention strategies.
Prerequisite: POPLPRAC 708 or equivalent experience

POPLPRAC 766 30 Points
**Special Topic in Palliative Care - Level 9**

POPLPRAC 767 30 Points
**Dementia Care**
A clinically focused course that explores dementia within three specific areas: the brain, the diseases, and the person. It explores theoretical concepts and models of dementia care, and focuses on the partnership of individuals, carers and health professionals in the delivery of dementia care.

POPLPRAC 769 30 Points
**Special Topic: Aged Care Practice - Level 9**
Provides an in-depth understanding of the unique clinical and contextual complexities of providing health care in the aged residential care sector. Using rich data sources and standardised assessment tools it focuses on the quality of clinical care. Health professionals will explore the use of gerontological assessment to respond to identified need, inform care planning and care delivery at an individual and systems level.

POPLPRAC 770 30 Points
**Special Topic - Level 9**

POPLPRAC 771 30 Points
**Special Topic**

POPLPRAC 772 30 Points
**Symptom Management in Palliative Care**
An overview of key symptoms commonly encountered in patients with progressive diseases in palliative care and end of life. Addresses assessment and management of these common symptoms using evidenced-based learning.
Restriction: POPLPRAC 722

POPLPRAC 773 30 Points
**Challenges in Symptom Management in Palliative Care**
An overview of key symptoms commonly encountered in malignant and non-malignant patients in palliative care and at end of life. Addresses assessment and management of these common symptoms using evidenced-based learning.
Prerequisite: POPLPRAC 772
Restriction: POPLPRAC 723

POPLPRAC 774 30 Points
**Psychosocial Issues in Palliative Care**
An overview of the psychological and social study of patients with cancer or active, progressive disease, unresponsive to curative treatment. Covers existential philosophy and models of coping with suffering, spirituality, communication in palliative care, family systems, psychosocial assessments, psychiatric disorders in palliative care and bereavement.
Restriction: POPLPRAC 720

**Psychiatry**

**Postgraduate 700 Level Courses**

PSYCHIAT 713 15 Points
**Special Study in Mental Health**

PSYCHIAT 721 15 Points
**Special Topic**

PSYCHIAT 722 15 Points
**Special Topic**

PSYCHIAT 730 30 Points
**Psychopathology**
Explores conceptualisations of mental disorder in children and adolescents from a biopsychosocial and developmental perspective. The DSM-5 classification is used as a framework, with consideration of the benefits and disadvantages of an illness model.

PSYCHIAT 740 15 Points
**Child and Adolescent Psychopathology**

PSYCHIAT 741 15 Points
**Therapy in Child and Adolescent Mental Health – Theory**
Covers the range of treatment modalities used in child and adolescent mental health. Rationale and nature of current therapies will be covered. Students will undertake critical appraisal of the evidence base for therapy pertinent to specific clinical situations.
Prerequisite: PSYCHIAT 740

PSYCHIAT 744 15 Points
**Child and Adolescent Development**
Critically appraises and applies theoretical models and research literature on aspects of child and adolescent development important to mental health. For each of four age ranges, the main aspects of development are reviewed and developmentally appropriate ways of working with children are identified.

PSYCHIAT 766 15 Points
**Youth Addiction and Co-existing Problems**
An overview of key principles required to manage alcohol and drug problems within a Child and Adolescent Mental Health setting.
Health (CAMH) context. Includes a range of topics including aspects of screening, assessment and brief interventions, harm reduction, an introduction to motivational interviewing, and CBT in addiction treatment.

**Assessment, Formulation and Treatment Planning in ICAMH**

Involves a combination of theory and practice. Different methods of assessment, including developmentally appropriate history taking and mental state examination, and of formulation and treatment planning, are applied to a range of infant, child, and adolescent mental health (ICAMH) problems.

*Corequisite: PSYCHIAT 740, 747
Restriction: PSYCHIAT 748, 749
To complete this course students must enrol in PSYCHIAT 768 A and B, or PSYCHIAT 768

**CBT with Children, Adolescents and their Families 1**

Explores Cognitive Behavioural Therapy (CBT) as an evidence-based treatment for children, adolescents and their families, and covers both theoretical and practical applications of CBT. Specifically designed for New Zealand based practitioners working clinically and/or therapeutically with families, students will learn the CBT model, treatment packages and strategies for depression and anxiety. There is also a strong focus on culturally appropriate interventions (especially those appropriate for Māori).

*Prerequisite: PSYCHIAT 740, 747

**PSYCHIAT 770**

**CBT with Children, Adolescents and their Families 2**

Examines advanced knowledge and skills applied to complex disorders. Builds on PSYCHIAT 769 and further extends the practitioner’s knowledge and skill base to include more complex issues of Trauma, Anger, DBD, Self-esteem, OCD and Personality. The strong cultural focus continues, with issues for Māori families being considered in more depth. Students will also have access to New Zealand CBT resources and practice more in-depth CBT skills.

*Prerequisite: PSYCHIAT 769

**Youth Forensic Psychiatry**

Students develop an in-depth understanding of offending, particularly for youth offenders, and the relationship to mental illness. Addresses key roles and responsibilities of key stakeholders and members of the multidisciplinary team in the justice and youth justice systems.

*To complete this course students must enrol in PSYCHIAT 773 A and B, or PSYCHIAT 773

Faculty of Science

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course

An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Astrosciences

Stage I

ASTRO 100 15 Points
ASTRO 100G 15 Points

Planets, Stars and Galaxies

The story of our place in the Universe. Key topics are the exploration of the solar system, searches for planets around other stars, the structure and evolution of stars and galaxies, high-energy astrophysics, and the origin and overall properties of the Universe. No background in physics or mathematics is assumed.

ASTRO 110 15 Points

Introduction to Rocket Science

An introduction to spaceflight and space technology. Topics include rocketry, orbits, spacecraft design and systems, space-based technologies, space exploration, ethical and legal issues and the present and future scientific, technological and social impacts of spaceflight. No background in physics or mathematics is assumed.

Stage II

ASTRO 200 15 Points
ASTRO 200G 15 Points

Astrobiology

Astrobiology examines the potential of the universe to harbour life and is interdisciplinary, combining Geology, Biology, Astronomy, Chemistry, Physics, Philosophy, Ethics. Course focus is on how these disciplines combine with technology, addressing questions of life in the universe. Key topics include origin and evolution of life, definitions and environmental limits of life, and how to search for life beyond Earth.

Prerequisite: 60 points passed

Postgraduate 700 Level Courses

ASTRO 720 15 Points

Planetary Science

Explores celestial bodies and planetary systems and the processes of their formation. Emphasis is on planetary geology and geophysics over the 4.6-billion-year-history of our solar system, evaluating the origination, evolution, and habitability of diverse worlds, using varied tools and techniques. Also addressed are modes of scientific enquiry, knowledge perspectives and the ethics of space exploration.

Biological Sciences

Postgraduate 700 Level Courses

BIOINF 789A 22.5 Points
BIOINF 789B 22.5 Points

Dissertation - Level 9

Prerequisite: COMPSCI 220 and approval of Programme Director

Restriction: COMPSCI 789, STATS 789

To complete this course students must enrol in BIOINF 789 A and B

BIOINF 796A 60 Points
BIOINF 796B 60 Points

MSc Thesis in Bioinformatics - Level 9

To complete this course students must enrol in BIOINF 796 A and B

Biological Sciences

Stage I

BIOSCI 100 15 Points
BIOSCI 100G 15 Points

Antarctica: The Frozen Continent

A general introduction to Antarctica and its environs including the Southern Ocean and the sub-Antarctic islands. Emphasis will be placed on the evolution of Antarctica and how resident plants, animals and micro-organisms have adapted to cope with the extreme environment. Specific topics to be addressed include: the history of Antarctic exploration and its impact on the development of Antarctic science, Antarctic ecosystems, Antarctica as a wilderness region, and the impact of humans including the exploitation of resources and the effects of pollution. This course is suitable for students with both science and non-science backgrounds.

BIOSCI 101 15 Points

Life! Origins and Mechanisms

Questions what life is and explores its machinery. Speculates on how life arose from the flow and capture of solar energy, to power growth, movement, replication and storage of genetic information. Describes how genes interact with environments, and how mutations can be catastrophic or transformational. These processes underpin life as we know it.

BIOSCI 106 15 Points

Foundations of Biochemistry

An introduction to the core elements of biochemistry, investigating biological processes at the chemical and molecular level. Key themes include the molecular structure of proteins, enzyme kinetics, biochemical energetics, carbohydrate and lipid metabolism, nutrition, cell signalling, vision and aspects of plant biochemistry including world food production. These themes provide a framework for discussion of mechanisms underpinning human disease including diabetes and obesity, antibiotic resistance, drug development and plant medicinals.

BIOSCI 107 15 Points

Biology for Biomedical Science: Cellular Processes

The cellular basis of mammalian form and function. Particular emphasis will be placed on cellular components and processes of blood, neural, muscular, reproductive, immune and supporting systems and how they contribute to the structure and function of the body as a whole.
Unlike animals, plants cannot move to respond to changes in their environment. Plants have evolved diverse signaling systems and the ability to grow towards their essential resources. Explores the intricate ways plants function how they are able to respond to developmental and environmental signals at the whole plant and cellular level. 

Prerequisite: BIOSCI 101, 108

**Principles of Ecology**

An examination of ecosystem processes, factors that affect distribution and interactions of organisms, population ecology, and applications of ecology such as restoration and conservation. The key principles of ecology are taught in a New Zealand context emphasising an experimental approach.

Prerequisite: BIOSCI 108, 109 and STATS 101 or 108

**Adaptive Form and Function**

Investigates the diverse biological adaptations of animals, with a focus on generating adaptive hypotheses and ways to test them. Topics covered include comparative physiology, behavioural ecology, hormones and predator/prey interactions.

Prerequisite: BIOSCI 108, and BIOSCI 109 or 109

**Evolution and the Origin of Life**

Covers basic concepts in evolutionary biology including Darwin and the theory of evolution by natural selection, phylogenetics, population genetics, molecular evolution, speciation and extinction. The extent to which Darwin's theory of evolution by natural selection can explain the origins of biological complexity is explored.

Prerequisite: BIOSCI 109, and 15 points from BIOSCI 101-108

**Quantitative Biology**

An introduction to mathematical, statistical and computational literacy as required for contemporary biologists. Topics include fundamentals of experimental design, data exploration and visualisation, model-based inference to process biological data into biological information, comparing statistical models, prediction using mathematical models of biological processes, critical thinking about models and effective communication of findings. Data analysis and generation is taught using the R programming language. Recommended preparation: STATS 101

Prerequisite: BIOSCI 101-109

**Evolution of Genes, Populations and Species**

Advanced concepts in evolutionary biology and their application to current research in molecular evolution,
populations genetics, phylogenetics and organismal evolution. Examples from animals, plants and microbes, as well as topical issues, including speciation, adaptation, co-evolution, sexual selection, conservation, biogeography, genomics, biotechnology and human disease. Recommended preparation: Prior or concurrent enrolment in BIOSCI 202.
Prerequisite: BIOSCI 210

BIOSCI 324 15 Points

Plant Pathology and Symbiosis
Microorganisms and pests form symbioses with plants that are critically important for horticulture and agriculture. This course examines the biology of plant pathogens, pests, and symbionts. It focuses on plant-microbe interactions at the cellular and molecular level, the epidemiology and control of plant diseases, and the mechanisms through which these interactions are mediated.
Prerequisite: BIOSCI 204 or 205
Restriction: BIOSCI 321

BIOSCI 325 15 Points

Plant Diversity and Function
Plants form the basis of ecosystem food chains and are fundamental to life on Earth. The diversity in land plants from both phylogenetic and functional trait perspectives will be presented, exploring key steps in the evolution of plants and how they interact with their environment. It provides a framework of plant life focussing on the ecologically, economically and culturally important plants of Aotearoa New Zealand.
Prerequisite: BIOSCI 108, and BIOSCI 205 or 206
Restriction: BIOSCI 323

BIOSCI 326 15 Points

Plant Biotechnology for Crops and Health
Plants are vital sources of food, health compounds and shelter. Students will learn how biotechnology is used to understand plant biology and discuss strategies for crop improvement. Topics include plant genomics, molecular breeding, genome editing, gene transfer, the regulatory framework and examples of applications in the food, health, environment and crop sectors.
Prerequisite: 15 points from BIOSCI 202, 203, 205
Restriction: BIOSCI 340

BIOSCI 328 15 Points

Fisheries and Aquaculture
Harvest and capture of aquatic organisms and inter-relationships with aquaculture. Fisheries and aquaculture are treated not as distinct disciplines but in the context of integrating exploitation and sustainable environmental integrity. Case studies include deep sea and coastal fisheries, and shellfish culture.
Prerequisite: 15 points from BIOSCI 207, 208, MARINE 202

BIOSCI 333 15 Points

Marine Ecology and Conservation
Patterns and processes in marine ecology and biodiversity are described; including predator-prey interactions, benthic and pelagic habitats, productivity and physiology. Applied aspects include movement ecology, dispersal related to resource availability, disturbance and impacts of resource use e.g., fisheries. Emerging technologies to understand resilience within ecosystems and dispersal will be included.
Prerequisite: BIOSCI 206 or MARINE 202, and 15 points from BIOSCI 220, STATS 101, 108

BIOSCI 334 15 Points

Biology of Marine Organisms
Not only is the earth predominantly oceanic, but higher marine biodiversity occurs on the shallower continental shelf/coastal areas. Students will learn the key groups of marine organisms within New Zealand’s waters. Attention will be given to understanding their diversity, distribution and adaptations to thrive within the dynamic marine environment.
Prerequisite: BIOSCI 108, 109 and 15 points from BIOSCI 206, 207, 208

BIOSCI 335 15 Points

Ecological Physiology
Focuses on the strategies used by animals to cope with physical and biological challenges in the environment. Accordingly, we work at the level of the individual and the interface between physiological, biochemical or molecular approaches on the one hand, and ecology on the other. The adaptive strategies employed by a range of species, with an emphasis on aquatic organisms, in response to physical factors such as temperature, oxygen and food availability, are considered. Energetics and nutrition are emphasised. The course aims to meet the needs of students with ecological interests wishing to recognise the experimental approach to solving problems in environmental biology. The practical work is project oriented rather than laboratory based.
Prerequisite: 15 points from BIOSCI 207, 208

BIOSCI 337 15 Points

Animal Behaviour
Animal Behaviour: Proximate and ultimate causes of behaviour are investigated experimentally in the field and the laboratory. Responses by animals to variations in the physical environment and to other organisms are studied. The development and organisation of behaviour and the theoretical background to topics of current interest are covered, using both New Zealand and overseas examples.
Prerequisite: BIOSCI 220, and BIOSCI 207 or 208

BIOSCI 338 15 Points

Ecology of Terrestrial Animals
The animals of Aotearoa and Tāmaki Makaurau are iconic. We explore the biology, diversity and whakapapa of our native invertebrate and vertebrate animals. Along with a detailed coverage of biology, we focus on practical techniques for sampling and identifying species. This course involves both fieldwork (with the option to conduct this either on campus, or on an overnight fieldtrip) and labwork and training in using biodiversity data for hypothesis testing and scientific communication.
Prerequisite: 15 points from BIOSCI 206-208
Restriction: BIOSCI 320

BIOSCI 347 15 Points

Environmental Microbiology and Biotechnology
The ecology and physiology of micro-organisms in natural and engineered environments. Key themes include marine microbiology, the importance of microbial symbioses to life on Earth, and contemporary research methods in microbiology. Processes such as wastewater treatment and the production of bioactives are used to emphasise exploitation of microbial metabolism for environmental biotechnology purposes.
Prerequisite: BIOSCI 204 or MEDSCI 202

BIOSCI 348 15 Points

Applied Microbiology
Microorganisms and microbial-derived products have been used by humans for millennia. Explores the interface of microorganisms and engineering, including how microorganisms interact with food products in
beneficial and unfavourable ways, identifying and utilising microorganisms to produce chemicals, therapeutics, and materials and how to use innovative methods to engineer microorganisms to perform novel functions or produce novel products.  

Prerequisite: BIOSCI 204 or MEDSCI 202

BIOSCI 349  
Biomedical Microbiology

Prerequisite: BIOSCI 201 and either BIOSCI 204 or MEDSCI 202

BIOSCI 350  
Protein Structure and Function

The relationship of molecular structure to protein function will be emphasised. Techniques for the purification, characterisation, production of native and recombinant proteins and three-dimensional structure determination will be combined with a description of protein structure. Specific groups of proteins will be selected to illustrate structure/function relationships and protein evolution.  

Prerequisite: BIOSCI 201, 203

BIOSCI 351  
Molecular Genetics

The analysis of genetic material in prokaryotes, viruses, yeast, plants and humans is addressed. The means by which genetic information is transferred and the mechanisms underlying genome diversity will be examined, together with the study of eukaryote genomes at the level of chromosome structure and organisation. The molecular mechanisms underpinning selected inherited human disorders will be discussed as well as the role of model species in understanding normal and perturbed biological pathways.  

Prerequisite: BIOSCI 201, 202

BIOSCI 353  
Molecular and Cellular Regulation

The molecular mechanisms which mediate intracellular sorting and targeting of biologically active molecules and the networks of intracellular and extracellular signals which regulate cell function form the focus of this course. The roles of growth factors, oncogenes, plasma membrane receptors, nuclear receptors, ion channels and membrane transporters are emphasised.  

Prerequisite: BIOSCI 201, 203

BIOSCI 355  
Genomics and Genome Biology

Biological information is coded in and expressed from genomes. This course explores methods for detecting structural and functional elements of genomes, plus the wider genome biology of eukaryotic and prokaryotic systems. Students will learn how genomic data is generated and analysed, how genomes evolve, and how genomic information is expressed and regulated.  

Prerequisite: BIOSCI 202  
Restriction: BIOINF 202, BIOINF 301, BIOSCI 354

BIOSCI 356  
Developmental Biology and Cancer

Molecular, cellular and genetic aspects of normal and abnormal development focusing on a variety of model systems including drosophila, the zebrafish and the mouse. Molecular events underlying the development of body form, the differentiation of specific tissues such as the blood, and abnormalities of development which contribute to diseases of the body such as cancer. Implications of transgenic techniques on development.  

Prerequisite: BIOSCI 201

BIOSCI 358  
Nutritional Science

The scientific basis of nutrition focusing on its biochemistry and physiology in health and disease. Nutritional aspects of carbohydrates, fats, proteins, vitamins and trace nutrients are covered in an integrated manner. The methodologies which underpin nutritional science and its applications are included. Reference will be made to a broad range of examples, and a number of specific nutritional topics of current interest will also be included.  

Prerequisite: BIOSCI 203

BIOSCI 359  
Terrestrial Ecology and Conservation

Explores theoretical ecology from populations to ecosystems. Applies ecological theory to conservation management through a cross-disciplinary lens in the context of social and cultural values. Students will test theoretical hypotheses in the field, conduct an ecological site assessment for conservation management and learn to use population viability analysis to assess risks to threatened populations.  

Prerequisite: BIOSCI 206, 220

BIOSCI 395  
Capstone: Biology: The Science of the 21st Century

Major advances in biology have added immensely to the understanding of our world. These advancements will continue, and biological science will influence our future lives and world. Students will enhance their scientific skills by envisioning the innovative future of biology, and its likely cultural, political and economic impacts, globally, and within the context of Aotearoa and Te Tiriti o Waitangi.  

Prerequisite: 30 points at Stage III in Biological Sciences

Postgraduate 700 Level Courses

BIOSCI 700  
Phylogenetics

Students will learn advanced computational methods for inferring phylogenetic trees and studying macroevolutionary processes, including phylogenetic dating, coalescence, epidemic phylogeography, and estimation of ancestral traits and biogeography. Relevant skills in computation (BEAST, command-line programs, R) and statistics (Bayesian methods, model-based inference) will also be taught.  

Restriction: BIOINF 702

BIOSCI 701  
Practical Approaches in Genomics - Level 9

Genomics provides insights into the diversity, evolution, adaptation and function of organisms. Students will complete a research project to apply the advanced practical aspects of genomics across taxa and topics such as conservation, health and ecosystem function.
Recommended preparation: BIOSCI 322, 351 or 355 or equivalent.
Restriction: BIOINF 701

BIOSCI 702 15 Points
**Modelling Biological Processes**
Modelling and simulation are increasingly important aspects of the biological sciences. A variety of biological modelling approaches are introduced through a series of practical exercises to build and analyse models of biological processes. Topics include modelling in ecology and systems biology, agent-based modelling of complex biological systems, and molecular dynamics of biological molecules.
Restriction: BIOINF 703

BIOSCI 704 15 Points
**Practical Applications of Cell Analysis - Level 9**
Application of highly specialised technologies for cell analysis relevant to a wide range of biotechnology-based disciplines including immunology, infectious diseases, stem cells, neuroscience and cancer. Advanced skill development in technologies including high dimensional flow cytometry, cell sorting and microscopy/imaging.

BIOSCI 724 15 Points
**Marine Ecology**
The ocean covers 70% of the surface area of Earth, provides 50% of the oxygen and much of the food consumed. This course considers marine ecology at the local, hemispheric and global levels with a focus on habitat and ecosystem connectivity and the impacts of anthropogenic change.

BIOSCI 725 15 Points
**Ecological Physiology**
Physiological and biochemical processes enable animals to occupy diverse habitats. Highly variable and extreme environments provide an opportunity to study the functional attributes of animals, particularly ectotherms, with respect to their metabolic, respiratory, and nutritional adaptations. A sound understanding of BIOSCI 335 or equivalent is assumed.

BIOSCI 727 15 Points
**Aquaculture**
Current assessment of the national and global status of aquaculture and consideration of future prospects. Examples of aquaculture in New Zealand are examined and a review of general environmental and biological problems and the role of scientific knowledge in aquaculture management. A sound knowledge of BIOSCI 328 or equivalent is assumed.

BIOSCI 729 15 Points
**Evolutionary Biology**
A contemporary approach to central issues in evolutionary biology including mechanisms that produce macroevolutionary patterns. Current research using phylogenetic methods for testing evolutionary hypotheses will be discussed, encompassing the role of selection, the origin of mutations, and concepts of heredity. A sound understanding of BIOSCI 322 or equivalent is assumed.

BIOSCI 730 15 Points
**Entomology and Biosecurity**
More than half of all described species are insects, and even more species await discovery and description. Insects at every trophic level above plants dominate terrestrial and freshwater food chains. Examines the evolution of insects, the importance of their role in terrestrial ecosystems, and the problems posed by insects as biosecurity invaders in non-native environments. A sound understanding of BIOSCI 320 or 338 or equivalent is assumed.

BIOSCI 731 15 Points
**Biogeography**
Examines the patterns of animal and plant distribution, and the processes that influence these patterns. Topics covered include equilibrium theory, island succession, vicariance and dispersal, insular speciation, and human migration and colonisation. A sound understanding of BIOSCI 395 or equivalent is assumed.

BIOSCI 733 15 Points
**Molecular Evolution and Conservation Genomics**
Using the molecular archive to address ecological and evolutionary questions. Provides a broad theoretical and practical basis for undertaking studies in fields ranging from conservation genetics/genomics and connectivity, and biosecurity and forensics, to phylogenetics and molecular evolution. Topics may include the neutral theory of molecular evolution, molecular identification of species, gene flow, selection at the molecular level, and inbreeding depression.

BIOSCI 734 15 Points
**Terrestrial Plant Ecology**
Plants form the autotrophic basis of terrestrial food chains and their distribution, diversity and abundance is a critical determinant of ecosystem functioning. Topics covered include both plant population ecology - including population growth and structure, seed and seedling dynamics, and life history strategies - and community ecology - including vegetation structure, dynamics, and species interactions. Methods to survey, analyse, and model plant populations and communities will also be discussed.

BIOSCI 735 15 Points
**Advanced Behavioural Ecology**
Focuses on organisms interacting in natural environments. Both the mechanistic underpinnings of behaviour and the fitness consequences of such behavioural traits will be examined. Behavioural ecology is not limited to questions of behaviour, but draws in issues of energetics and physiology as these factors are often used as proxies for fitness traits such as differences in survival and reproduction. A sound understanding of BIOSCI 337 or equivalent is assumed.

BIOSCI 736 15 Points
**Microbial Genomics and Metabolism**
Cross-disciplinary issues involved in the understanding of microbial genome structure, gene regulation and metabolism. Includes: the genetic basis of microbial interactions and horizontal gene transfer, the effect of stress and mutation on microbial and viral evolution and modern approaches used to link gene sequence to biological function and phenotypes.

BIOSCI 737 15 Points
**High Resolution Imaging of Biological Molecules**
X-ray crystallography and electron microscopy are two of the principal techniques used by biologists to determine molecular structure. The theory and practice of X-ray crystallography and electron microscopy, including a laboratory component where 3D structure are determined by crystallography and electron microscopy, including a critical determinant of ecosystem functioning. Topics covered include both plant population ecology - including population growth and structure, seed and seedling dynamics, and life history strategies - and community ecology - including vegetation structure, dynamics, and species interactions. Methods to survey, analyse, and model plant populations and communities will also be discussed.

**High Resolution Imaging of Biological Molecules**
X-ray crystallography and electron microscopy are two of the principal techniques used by biologists to determine molecular structure. The theory and practice of X-ray crystallography and electron microscopy, including a laboratory component where 3D structure are determined from experimental data, are addressed. Accessible to students with a variety of backgrounds, including Biology, Bioengineering, Chemistry and Physics. This course complements CHEM 738 and BIOSCI 757.
Advanced Biological Data Analysis
Building on a strong foundation in quantitative biology, fundamental statistical methods and basic R programming, students will learn an array of advanced biostatistical methods for data analysis. Topics covered include: data wrangling, methods for the analysis of designed experiments, regression analysis, including mixed effect models, and the analysis of multivariate data, including advanced supervised and unsupervised learning techniques. Requires students to apply their knowledge across a myriad of complex biological datasets.

Biosecurity and Invasion Biology
Social, ethical and other philosophical issues in the life sciences will be debated and explored. Topics may include: animal and environmental ethics, conservation and biodiversity, the history and philosophy of science, ethical and commercial issues underpinning science, scientific publishing and advocacy, medical and agricultural biotechnology.

Applied Microbiology and Biotechnology
Explores recent advances in microbial biotechnology across the environmental, industrial and medical sectors, highlighting the diversity and complexity of applications. Features of experimental design and data analysis will be discussed. A sound understanding of BIOSCI 348 or equivalent is assumed.

The Molecular Machinery of The Cell
The experimental investigation and modelling of protein behaviour at the molecular level, in order to explain cellular biology and facilitate protein engineering. Topics addressed may include binding, transport, catalysis, chemical modification, and dynamics. A sound understanding of BIOSCI 350 or equivalent is assumed.

Biosecurity and Invasion Biology
The science of invasion biology, including stages of the invasion process and ecological interactions between species. The impacts of invasive alien species in different ecosystems. Population and community ecology, in relation to biosecurity.

Weed and Pest Management
Techniques for the management of invasive plants and animals (vertebrates and invertebrates) in different ecosystem types, including terrestrial and aquatic ecosystems. Approaches to the prevention, control and eradication of invasive species in different situations.

Microbiomes
The roles of microbial communities (microbiomes) and current research methods to study these are considered in different contexts including the environment (natural and biotechnological systems) and the human microbiome. A sound understanding of BIOSCI 347 or equivalent is assumed.

Plant-microbial Interactions
Addresses selected topics in plant microbial interactions. Modern research on issues relating to plant pathogens and biosecurity, plant disease spread (epidemiology) and plant-microbial interactions (both pathogenic and mutualistic) will be investigated and discussed. A basic understanding of microbiology and molecular biology is assumed.

Plant Genomics and Biotechnology
How genomics and gene transfer technologies could be used to achieve improved plant growth and to develop food with new traits. Includes: plant genomics methods, engineering fruit colour, control of fruit ripening and texture, biotechnology project design. A sound understanding of BIOSCI 354 or 340 or 326 or equivalent is assumed.

Synthesis of Plant Products and Foods
Includes the biosynthesis of: selected plant cell-wall components important in dietary fibre or biomass for the production of biofuels, including lignins, cellulose or non-cellulosic polysaccharides; antioxidant pigments in food plants and their possible impacts on human health. The manipulation of nitrogen assimilation in plants to increase the yield and quality of agricultural and horticultural plant products. A sound understanding of BIOSCI 340 or equivalent is assumed.

Plant Genomes and Gene Expression
The analysis of plant genomes and regulation of gene expression in plant biology. Includes: inferences from whole plant genome sequences, genetic control of nitrogen fixation, uptake and use, flowering time, hormone signalling pathways, sugar metabolism and its regulation. A sound understanding of BIOSCI 354 or 340 or 326 or equivalent is assumed.

Genomics and Gene Expression
The analysis of genomes and gene expression as a means of understanding biological processes. Aspects of functional and chemical genomics will be presented, as well as gene expression profiling using microarray technology. In terms of the latter, features of experimental design and data analysis will be discussed in the context of disease and developmental processes. A sound understanding of BIOSCI 351 or equivalent is assumed.

Molecular Form, Function and Design
Biological systems highlight a complex interplay of thousands of molecules. Reviews fundamental studies focusing on molecular structure and function (structural biology), and designer molecules with applications in nanotechnology and biomedicine. Topics may include: enzyme evolution and engineering, protein design and assembly, rational drug and vaccine discovery, and protein structure and dynamics.
and genetic approaches to understand disease mechanisms at the cellular level. A sound understanding of either BIOSCI 349 or 353 or MEDSCI 314 or equivalent is assumed.

BIOSCI 760 15 Points
**Biosystematics**
Exploration of key concepts and processes that form the professional discipline of biosystematics. Introduction and familiarisation with advanced concepts in biosystematics, and knowledge of methods to manage biosystematics collections, to develop accessible biodiversity databases, and to study and characterise biodiversity. Previous experience with basic taxonomic principles and the systematics of a taxonomic group is desirable.

BIOSCI 761 15 Points
**Research Practice - Level 9**
Students will complete an advanced literature review to produce a research output that applies their knowledge to a novel context or application. Students will develop skills to synthesise and communicate their research output including the significance, potential limitations and context within the wider discipline to an academic audience using both written and verbal platforms.

Restriction: BIOSCI 762, ENVSCI 701, MEDSCI 701

BIOSCI 762 15 Points
**BSc(Hons) Dissertation Proposal - Level 9**
A review of the literature associated with the dissertation topic and an outline of the proposed research and its significance. Students will also be required to present an overview of the proposal in a seminar.

BIOSCI 763 15 Points
**Professional Applications of Ecology**
Exploration of key concepts that form the professional discipline of ecology. Introduction and familiarisation with relevant policy, advanced ecological community and population survey and monitoring, use of Geographic Information Science (GIS) and remote sensing, accessing biosystematics resources, data management, effective engagement with mana whenua, and effective communication skills. Some previous knowledge of ecology is desirable.

BIOSCI 764 15 Points
**Human Virology**
The COVID-19 pandemic was a global health crisis without parallel in the modern era and has evoked an unprecedented scientific response. Explores aspects of virus biology to illustrate principles of emergence, transmission and disease caused by viruses with pandemic potential and discusses how emerging pandemics can reshape our ability to respond to future viral threats with pandemic potential.

BIOSCI 765 15 Points
**Translating Biomedical Science into Therapeutic Strategies**
Explores the research involved in development of currently available and potential future cell based biomedical therapeutics. The challenges and wider societal issues which need to be considered when conducting this research will be discussed. Emphasis will also be placed on guiding students as they develop their critical evaluation and communication skills.

BIOSCI 766 15 Points
**Global Change Ecology**
Discusses the profound impacts global change processes have on ecological systems, including climate change, land use change, biodiversity loss and changes in biogeochemical cycles. Covers the complex concepts of global change and approaches for planning and mitigation. Some previous knowledge of ecology is desirable.

BIOSCI 788 45 Points
BIOSCI 788A 22.5 Points
BIOSCI 788B 22.5 Points
**BSc(Hons) Dissertation in Biological Sciences - Level 9**
Restriction: BIOSCI 789
To complete this course students must enrol in BIOSCI 788 A and B, or BIOSCI 788

BIOSCI 796A 60 Points
BIOSCI 796B 60 Points
**MSc Thesis in Biological Sciences - Level 9**
To complete this course students must enrol in BIOSCI 796 A and B

**Biosecurity and Conservation**

**Stage III**

**BIOMED 399** 15 Points
**Capstone: Biomedical Science**
Students will synthesise knowledge and reflect on learning experiences attained during their studies in Biomedical Science. Students will engage in debate on contemporary issues and use their scientific reasoning to counter misunderstandings and misrepresentation. Students will consider wider societal issues involved in research, such as human and animal ethics, Māori and Pacific health advancement, and public health relevance and economic benefits.

Prerequisite: 30 points from BIOSCI 347-358, MEDSCI 300-320, MEDIMAGE 300, 302

**Biotechnology**

**Postgraduate 700 Level Courses**

**BIOTECH 788** 45 Points
**BIOTECH 788A** 15 Points
**BIOTECH 788B** 30 Points
**BSc(Hons) Dissertation in Biotechnology - Level 9**
An independent research study conducted in conjunction with an industry partner.

To complete this course students must enrol in BIOTECH 788 A and B, or BIOTECH 788

**BIOTECH 792** 45 Points
**BIOTECH 792A** 15 Points
**BIOTECH 792B** 30 Points
**Dissertation - Level 9**
To complete this course students must enrol in BIOTECH 792 A and B, or BIOTECH 792
transformations. It is recommended that students with a
chemist's perspective of the properties of matter and its
familiarisation with the language of chemistry and the
further study in chemistry. Special attention is paid to
of the world around us and providing a foundation for
enhancing understanding of the chemical nature
Concepts in Chemistry
CHEM 150 15 Points
Preparatory Course: CHEM 91F

Stage I
CHEM 100 15 Points
Molecules that Changed the World
The impact of chemistry on the modern world will be
explored by focusing on the stories of specific molecules,
including penicillin, DDT and nylon. Their discovery, the
underlying chemical principles that explain their behaviour,
their impact on our lives including social and scientific
issues that arise from their use, and their likely impact on
the future will be investigated. No formal prerequisite,
but the course assumes a science background at Year 11
or higher.

CHEM 110 15 Points
Chemistry of the Living World
A foundation for understanding the chemistry of life is
laid by exploring the diversity and reactivity of organic
compounds. A systematic study of reactivity focuses on
the site and mechanism of reaction including application
of chemical kinetics. A quantitative study of proton transfer
reactions features control of pH of fluids in both living
systems and the environment. It is recommended that
students with a limited background in chemistry take CHEM
150 prior to CHEM 110.

CHEM 120 15 Points
Chemistry of the Material World
The chemistry of the elements and their compounds is
explored. The relationship between molecular structure and
reactivity, the role of energy, concepts of bond formation
and chemical equilibrium are discussed. Issues such as
sustainability, energy and fuels, and the creation of new
materials are also discussed. It is recommended that
students with a limited background in chemistry take CHEM
150 prior to CHEM 120.

Chemistry
Preparatory Courses
CHEM 91P 15 Points
Preparatory Chemistry 1
Preparatory introduction to elements, compounds,
the periodic table, atomic structure, covalent bonding,
molecular shape and polarity. Quantitative chemistry,
including balancing equations, calculating moles and
particles present, calculation of concentration in mol
L-1. Energy and thermo-chemistry. Laboratories include
practical skills and qualitative analysis, and simple
modelling.
Restriction: CHEM 91F

Stage II
CHEM 200 15 Points
Special Topic
CHEM 251 15 Points
Structure and Spectroscopy
To study chemicals it is important to understand the
stereochemical and electronic properties of molecules.
Molecular orbital techniques and the application of
approaches based on molecular symmetry and group
to the understanding of molecular properties,
bonding and spectroscopy will be studied. Application of
these concepts to spectroscopic characterisation and
quantification of materials by various spectroscopic
techniques will be discussed.
Prerequisite: CHEM 120 and 15 points from MATHS 108, 110, 120,
130, PHYSICS 120, 160, STATS 101, 108
Restriction: CHEM 220

CHEM 252 15 Points
Properties and Analysis of Matter
Understanding the physico-chemical properties of matter
is crucial for modern chemistry. Fundamental processes
to the analysis and understanding of chemical systems,
including thermodynamics, equilibria, acid and bases will
be covered. Applications of modern electrochemistry,
physical chemistry of modern materials and methods
for assessing the reliability of results will be described
while the laboratory course emphasises the obtaining and
understanding of chemical measurements.
Prerequisite: CHEM 110, 120, and 15 points from MATHS 108, 110,
120, 130, PHYSICS 120, 160, STATS 101, 108
Restriction: CHEM 240

CHEM 253 15 Points
Making Molecules: Synthesis and Isolation
Creation of chemicals and compounds is at the heart of
synthetic chemistry and is fundamental for the preparation
of new materials and medicines. Students will learn
organic, organometallic and inorganic synthesis with an
emphasis on how and why reactions occur. Students will
study separation strategies and characterisation techniques
such as NMR spectroscopy to determine reaction
outcomes. Provides experience in synthesising, purifying
and characterising compounds.
Prerequisite: CHEM 110
Restriction: CHEM 230

CHEM 254 15 Points
CHEM 254A 7.5 Points
CHEM 254B 7.5 Points
Modelling Chemical Processes
From quantum mechanics to enzyme active sites, statistical
analysis to the greenhouse effect, models are essential
to our understanding of chemical phenomena. But what
makes a good model? How are they developed and tested?
After exploring the concept of models and their relationship
to the scientific method, students will investigate several
currently accepted models used in the chemical sciences.
Prerequisite: CHEM 110, 120 and 15 points from MATHS 108, 110,
130, 150, PHYSICS 120
To complete this course students must enrol in CHEM 254 A
and B, or CHEM 254
CHEM 260
Introduction to Green Chemistry
Introduction to the concepts and principles of Green Chemistry. Selected real-world applications of Green Chemistry are presented to illustrate how these important guiding principles can be applied. The integral laboratory course provides valuable practical experience in relevant areas of the chemical sciences. Prerequisite: Either CHEM 110 and 120, or at least B- in CHEM 110 or 120

Stage III
CHEM 300
Special Topic
CHEM 310
Structural Chemistry and Spectroscopy
Molecular structure is fundamental to the understanding of modern chemistry. Molecular spectroscopy provides an important method for probing the structure of molecules, and the following aspects of this subject will be presented: molecular energies and molecular spectra, molecular symmetry and spectroscopy, surface spectroscopy and the structure and chemistry of surfaces. Prerequisite: 15 points from CHEM 210, 251
CHEM 320
Design and Reactivity of Inorganic Compounds
A selection of the most recent developments in contemporary inorganic chemistry will be covered. Topics include selected physical properties of coordination compounds such as multinuclear NMR spectroscopy, UV-vis spectroscopy, magnetism, redox chemistry and photochemistry, the organometallic chemistry and catalytic reactions of transition elements, bioinorganic and medicinal inorganic chemistry, the kinetics and thermodynamics of ligand substitution reactions, main-group organometallic chemistry and main-group polymers. The laboratories provide an important complementary experience in the synthesis and measurement of physical properties for selected inorganic compounds. Prerequisite: CHEM 220 or 251
CHEM 330
Contemporary Organic Chemistry
Topics in advanced organic chemistry, including the synthesis, reactions and uses of compounds containing phosphorus, selenium, boron and silicon. Organotransition metal chemistry. Asymmetric synthesis. Heterocyclic chemistry and pericyclic reactions. Laboratories emphasise synthetic and structural methods. Prerequisite: 15 points from CHEM 220, 253
CHEM 340
Advanced Analytical Chemistry
Principles and applications of modern instrumental analytical chemistry. Statistical methods, quality control and assurance, sampling, instrumentation, chromatographic and other separation methods, spectrophotometric methods, electro-analytical methods. Prerequisite: 15 points from CHEM 240, 252
CHEM 350
Topics in Chemistry
Topics in modern chemistry. Students will select three of the modules offered, details of which are available in the School of Chemical Sciences Undergraduate Handbook. Prerequisite: 30 points at Stage II in Chemistry To complete this course students must enrol in CHEM 350 A and B, or CHEM 350
CHEM 351
Chemicals Big and Small: Nano-material to Biomacromolecules
Chemical materials are found with a broad range of shapes, sizes and physical properties. Students will study the synthesis of chemical materials; including polymeric materials using radical chemistry, inorganic materials and proteins and peptides using synthetic and biological chemical approaches. Methods to characterise materials will be investigated, including a range of physical and computational techniques giving insight into molecular interactions. Prerequisite: 30 points from CHEM 251, 252, 253 Restriction: CHEM 350

CHEM 352A
CHEM 352B
Advanced Concepts in Chemistry
Comprises various topics in the chemical sciences related to current research interests in the School, which may vary from year to year. Students will be exposed to cutting-edge research concepts and will study four separate modules over two semesters. Prerequisite: CHEM 251 or 253 with a GPA of 4.5 or higher To complete this course students must enrol in CHEM 352 A and B, or CHEM 352
CHEM 360
Contemporary Green Chemistry
Covers topics central to contemporary Green Chemistry such as sustainable syntheses, energy production, catalysis, pollution control, and basic toxicology. The integral laboratory course provides valuable practical experience in relevant areas of the chemical sciences. Prerequisite: CHEM 260
CHEM 370
Materials Chemistry
Synthesis, properties characterisation and applications of advanced materials. Includes a review of current trends in materials research. Important aspects of solid inorganic materials and organic polymers are covered. Prerequisite: 15 points from CHEM 210, 220, 251, CHEMMAT 121
CHEM 380
Medicinal Chemistry
Nature of cellular targets for drug action – lipids, proteins, enzymes, DNA. Principles of molecular recognition. Enzymes and receptors as targets for drug action. DNA as a target for drug action. An overview of approaches to drug discovery and development. Structure-activity relationships, stereochemistry and drug action, prodrugs, drug solubilisation and delivery, drug metabolism and antibiotic resistance. Laboratories focus on the synthesis, computer modelling and biological testing of drugs. Prerequisite: CHEM 110 and a minimum of 165 points passed
CHEM 390
Issues in Drug Design and Development
Intellectual property and patent law in the pharmaceutical industry. An overview of the legal and regulatory framework for drug design and development. Clinical trials: formulation of a drug; phase I, phase II and phase III protocols. An introduction to the principles involved in the Codes of Good Manufacturing Practice and Good Laboratory Practice (quality control and quality assurance procedures) as applied to the manufacture of drug products and the quantification of drugs and metabolites in biological fluids.
Examples of drug development. Case studies of selected drugs from design to release.
Prerequisite: CHEM 110 and a further 150 points passed

CHEM 397 15 Points
Capstone: Green Chemical Science
Explores green chemical processes, principles, applications and development. Students will examine the ethical, social and commercial implications of green chemical processes. Prerequisite: 30 points from CHEM 351, 360, ENVSCI 301

CHEM 398 15 Points
Capstone: Medicinal Chemistry
Integrates and applies the foundations of medicinal chemistry to popular science-related themes, working individually and in groups and producing written and oral reports. Comprises an open-ended drug discovery research project that will require students to work in groups and individually. Prerequisite: CHEM 390 and 15 points from CHEM 310, 320, 330, 340, 351, 360, 380, 392

CHEM 399 15 Points
Capstone: Chemistry
Using a combination of skills learnt throughout their major, students will investigate key chemistry-related phenomena, working individually and in groups, producing both written and oral reports. Along with the chemistry behind the phenomena, the social, environmental, economic and ethical considerations will be explored. Prerequisite: 30 points from CHEM 251, 252, 253, 260 and 255 points passed

Diploma Courses
CHEM 690A 15 Points
CHEM 690B 15 Points
Graduate Diploma Research Project
To complete this course students must enrol in CHEM 690 A and B

CHEM 691 30 Points
CHEM 691A 15 Points
CHEM 691B 15 Points
Postgraduate Diploma Research Project
Restriction: CHEM 790
To complete this course students must enrol in CHEM 691 A and B, or CHEM 691

Postgraduate 700 Level Courses
CHEM 701 15 Points
Directed Study
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of chemistry.

CHEM 702 15 Points
Directed Study
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of chemistry.

CHEM 710 15 Points
Advanced Physical Chemistry
Covers modern areas of research in physical chemistry and may include solid-state nuclear magnetic resonance spectroscopy (NMR), X-ray spectroscopic techniques commonly used in materials science (including synchrotron-based X-ray absorption, emission and scattering techniques), and computational chemistry with applications in heterogeneous catalysis.

CHEM 712 15 Points
Nanomaterials and Nanotechnology
Introduces a range of modern methods used in the synthesis and characterisation of nanomaterials (including metal nanoparticles, polymers, ceramics and their nanocomposites), with the application of these nanomaterials in energy conversion, optical devices and biosensing also being explored. Potential risks of nanomaterials in the environment will be discussed.

CHEM 720 15 Points
Advanced Inorganic Chemistry
Covers modern areas of research in inorganic chemistry, and may include main-group catalysis, medicinal inorganic chemistry, supramolecular chemistry and/or inorganic cluster compounds.

CHEM 730 15 Points
Modern Methods for the Synthesis of Bioactive Molecules
The use of modern methods for the construction of complex molecules with an emphasis on carbon-carbon bond formation and control of stereochemistry. Principles and practice of synthesis design based on retrosynthetic analysis. Each student will present and discuss a recent synthesis of a complex bioactive organic compound. No formal prerequisite, but knowledge of organic chemistry at the level covered in CHEM 330 will be assumed.

CHEM 735 15 Points
Advanced Medicinal Chemistry
A selection of topics dealing with aspects of medicinal chemistry, including anticancer agents, metals in medicine, antibacterial and antiviral chemotherapy, contemporary topics in medicinal and/or bio-organic chemistry.

CHEM 738 15 Points
Biomolecular Chemistry
Discusses how techniques including NMR spectroscopy, calorimetry, neutron scattering and computational modelling, can characterise the molecular structure, dynamics, and interactions of biological macromolecules. The principles of each technique will be presented and complemented with examples of where these methods have made major advances in understanding important biochemical processes. Accessible to students with a background in chemistry, biology, bioengineering, or physics.

CHEM 740 15 Points
Current Topics in Analytical Chemistry
Principles and applications of modern analytical chemistry. Emphasis will be on the solution of problems met by analytical chemists, including a study of the development of instrumentation, and a study of current trends in analytical research. No formal prerequisite, but knowledge of analytical chemistry at the level covered in CHEM 340 will be assumed.

CHEM 741 15 Points
Chemometrics and Quality Assurance in Chemistry
Explores a range of different chemometric processes including statistical analysis techniques, and methods and strategies for experimental design. Concepts related to method validation for analysis will be covered, as well as quality management of chemistry experimental data and principles of Good Laboratory Practice (GLP).
The seminar will demonstrate critical awareness of the role of a range of research methods in chemical sciences. A research understanding of the nature, purpose and application of a research proposal to develop advanced knowledge and sciences culminating in an independent written supervised research planning on a topic in chemical research methods.

CHEM 795 15 Points

CHEM 795A 7.5 Points

CHEM 795B 7.5 Points

**Advanced Topics in Chemistry 1**

To complete this course students must enrol in CHEM 750 A and B, or CHEM 750

CHEM 791 15 Points

CHEM 791A 7.5 Points

CHEM 791B 7.5 Points

**Advanced Topics in Chemistry 2**

A modular course comprising topics in physical, inorganic, organic and analytical chemistry related to departmental research interests, which will vary from year to year. Students satisfactorily completing three modules will be awarded CHEM 750. Students satisfactorily completing an additional three modules will be awarded CHEM 751.

To complete this course students must enrol in CHEM 751 A and B, or CHEM 751

CHEM 760 15 Points

**Advanced Green Chemistry**

Examines topics that are of key global significance to sustainability such as human activities that exceed the planetary boundaries, global warming, ocean acidification, endocrine disrupting compounds, global population, imbalance of the phosphorus and nitrogen cycles, and extinction of species. No formal prerequisite, but knowledge of green chemistry at the level covered in CHEM 360 will be assumed.

CHEM 780 15 Points

**Advanced Materials Chemistry**

A selection of topics on the chemistry of advanced materials, including novel polymeric materials and materials characterisation and analysis. No formal prerequisite, but knowledge of materials chemistry at the level covered in CHEM 380 will be assumed.

CHEM 793 60 Points

CHEM 793A 30 Points

CHEM 793B 30 Points

**Research Project - Level 9**

Corequisite: CHEM 795

To complete this course students must enrol in CHEM 793 A and B, or CHEM 791

CHEM 794 60 Points

CHEM 794A 30 Points

CHEM 794B 30 Points

**Honours Dissertation in Chemistry - Level 9**

To complete this course students must enrol in CHEM 793 A and B, or CHEM 793

CHEM 795 15 Points

**Research Methods in Chemistry - Level 9**

Supervised research planning on a topic in chemical sciences culminating in an independent written research proposal to develop advanced knowledge and understanding of the nature, purpose and application of a range of research methods in chemical sciences. A research seminar will demonstrate critical awareness of the role of research and knowledge in a specialised field of chemical sciences.

CHEM 796A 60 Points

CHEM 796B 60 Points

**MSc Thesis in Chemistry - Level 9**

To complete this course students must enrol in CHEM 796 A and B

**Computer Science**

### Stage I

**COMPSCI 101 15 Points**

*Principles of Programming*

A practical introduction to computers and computer programming in a high-level language. The course is lab-based and focuses on reading and writing computer programs. The course is intended for students who may wish to advance in Computer Science or in Information Systems and Operations Management.

Restriciton: Cannot be taken with or after COMPSCI 105, 107, 130, 210-220, 230-289, 313-399

**COMPSCI 110 15 Points**

*Introduction to Computer Systems*

An introduction to the various layers that make up a modern computer system: encoding of data and instructions, hardware, low-level programming, operating systems, applications and communications.

Restriciton: Cannot be taken with or after COMPSCI 210

**COMPSCI 111 15 Points**

**COMPSCI 111G 15 Points**

*An Introduction to Practical Computing*

A practical introduction to computing. Topics include: web design, an overview of computer hardware and operating systems, effective use of common applications, using the internet as a communication medium, applying programming concepts, and social implications of technology.

Restriciton: Cannot be taken with or after COMPSCI 210, 220, 230

**COMPSCI 120 15 Points**

*Mathematics for Computer Science*

Basic mathematical tools and methods needed for computer science are introduced. Elementary mathematical skills for defining, analysing and reasoning with abstract objects used in programming are developed. Topics include integers and rational numbers, strings and sets, methods of proof (including induction), algorithms and functions, and elementary introductions to graphs, trees, counting and probability.

Prerequisite: MATHS 102 or at least 13 credits in Mathematics at NCEA Level 3 or D in CIE AS Mathematics or C in CIE AS Mathematics or 3 out of 7 in IB Mathematics

Restriciton: Cannot be taken with or after COMPSCI 225, MATHS 254

**COMPSCI 130 15 Points**

*Introduction to Software Fundamentals*

Fundamental programming techniques and processes, such as conditionals, iteration, recursion, functions, testing and debugging. Efficient ways to organise and manipulate data, including sorting and searching algorithms. Writing software that uses and implements common abstract data types such as lists, stacks, queues, dictionaries and trees.

Prerequisite: COMPSCI 101, or B+ or higher in ENGGGEN 131, or Achievement Standard NCEA Level 3 Digital Technologies
and Programming: 91906 Use complex programming techniques to develop a computer program, or 91637 Develop a complex computer program for a specified task. Restriction: COMPSCI 105, 107

Stage II

COMPSCI 210 15 Points
Computer Organisation
The low level representation of data and algorithms in the computer. An introduction to computer organisation. The instruction execution model. Assembly and disassembly of instructions. Assembly language programming. How a high-level language is implemented at the machine level. The memory subsystem. Hardware support necessary to implement a secure multi-user operating system. Prerequisite: COMPSCI 110, 130

COMPSCI 215 15 Points
Data Communications and Security
An introduction to data communications: the OSI reference model, particularly how the lower layers combine to implement the application layer. An introduction to secure communication and computer systems. Prerequisite: COMPSCI 110, 130, PHYSICS 140

COMPSCI 220 15 Points
Algorithms and Data Structures
Restriction: COMPSCI 717, SOFTENG 284

COMPSCI 225 15 Points
Discrete Structures in Mathematics and Computer Science
An introduction to the foundations of computer science, mathematics and logic. Topics include logic, principles of counting, mathematical induction, recursion, sets and functions, graphs, codes, and finite automata. Prerequisite: COMPSCI 120 or MATHS 120
Restriction: MATHS 254, SOFTENG 282

COMPSCI 230 15 Points
Object Oriented Software Development
The design and implementation of object-oriented programmes. Analysis and design. Modelling with UML. Design for reuse, for testing, and for ease of change. Programming with classes, objects and polymorphism. Prerequisite: COMPSCI 130
Restriction: SOFTENG 281

COMPSCI 235 15 Points
Software Development Methodologies
An introduction to software development, including processes, best practices, tools and quality assurance techniques such as testing. Prerequisite: COMPSCI 130
Restriction: COMPSCI 280

COMPSCI 289 15 Points
Research Seminar in Computer Science
An introduction to research topics in computer science. Students will be expected to prepare and deliver a review of research in a topic of their choice. Research articles will be provided during the course, and will consist of key scientific publications. Prerequisite: Minimum GPA of 5.0 and COMPSCI 110, 120, 130

Stage III

COMPSCI 290 15 Points
Special Topic

COMPSCI 313 15 Points
Computer Architecture
Modern processor architectures. Principles of modern processor design; pipelining; memory hierarchies; I/O and network interfacing; compiler and OS support; embedded processors; performance; multiprocessing. Prerequisite: COMPSCI 210, PHYSICS 140
Restriction: SOFTENG 363, COMPSYS 304

COMPSCI 315 15 Points
Data Communications Technologies
The structure of data communications and networks, including the internet, covering all levels of the communications architecture. The layered protocol model, data transmission and coding, link-level and local area network protocols, wide-area internet working, routing, transport and security protocols. Basic application protocols as the foundation for distributed computing. Prerequisite: COMPSCI 210, 215
Restriction: COMPSCI 314

COMPSCI 316 15 Points
Cyber Security
Introduces various concepts related to software, system and network security. Covers a range of topics including attacks on privacy and attack surface, static and dynamic analysis of malware, hardware security (trusted computing base, secure boot, and attestation), network security and some hot topics in cryptography including elliptic curve, blockchain and bitcoin. Prerequisite: COMPSCI 210, 215 or COMPSYS 201

COMPSCI 320 15 Points
Applied Algorithmics
Fundamental design techniques used for efficient algorithmic problem-solving and software development. Methods that yield algorithms that are both provably correct and efficient. Efficiency of algorithms to provide a basis for deciding which algorithm is best for the job. Limits on the power of computers and the theory of NP-completeness. An introduction to methods whose correctness or performance is not guaranteed. Prerequisite: COMPSCI 220, and COMPSCI 225 or MATHS 254

COMPSCI 331 15 Points
Large-Scale Software Development
Students will understand how to develop large-scale software systems, and learn about the issues associated with large-scale software systems and techniques for addressing them. Prerequisite: COMPSCI 230, 235
Restriction: SOFTENG 325

COMPSCI 335 15 Points
Web Programming and Distributed Services
Covers web programming concepts, with applications to data integration from heterogeneous and asynchronous collections. Building web and cloud clients and services, with emphasis on high-level declarative and functional techniques. Dynamic web applications. Security and performance as overarching factors of web application development. Prerequisite: COMPSCI 230 and 15 points at Stage II in Computer Science, or SOFTENG 281
**COMPSCI 340 Operating Systems**

15 Points

Prerequisite: COMPSCI 210, 230

Restriction: SOFTENG 270

**COMPSCI 345 Human-computer interaction**

15 Points

Human behaviour and humans' expectations of computers. Computer interfaces and the interaction between humans and computers. The significance of the user interface, interface design and user centred design process in software development. Interface usability evaluation methodologies and practice. Includes a group development and evaluation project using current implementation techniques and tools.

Prerequisite: COMPSCI 230 or SOFTENG 206

Restriction: SOFTENG 350

**COMPSCI 350 Mathematical Foundations of Computer Science**

15 Points

The aim of this course is to present mathematical models for programming languages and computation, and derive some theorems regarding what can and cannot be computed. Abstract programming languages (finite automata, context-free grammars, Turing and register machines) are studied. Basic concepts for programming languages, limits on computational power and algorithmic complexity are presented. Church-Turing thesis and quantum computing are briefly and critically discussed.

Prerequisite: COMPSCI 220 or PHIL 222, and COMPSCI 225 or MATHS 254

**COMPSCI 351 Fundamentals of Database Systems**

15 Points

Database principles. Relational model, Relational Algebra, Relational Calculus, SQL and Programming Languages, Entity Relationship Model, Normalisation, Query Processing and Query Optimisation, ACID Transactions, Transaction Isolation Levels, Database Recovery, Database Security, Databases and XML.

Prerequisite: COMPSCI 220, and COMPSCI 225 or MATHS 254

Restriction: COMPSCI 751, SOFTENG 351

**COMPSCI 361 Machine Learning**

15 Points

Machine learning is a branch of artificial intelligence concerned with making accurate, interpretable, computationally efficient, and robust inferences from data to solve a given problem. Understand the foundations of machine learning, and introduce practical skills to solve different problems.

Prerequisite: COMPSCI 220, and 15 points from DATASCI 100, STATS 101, 108, and 15 points from COMPSCI 225, MATHS 254, 255

Restriction: COMPSCI 762

**COMPSCI 367 Artificial intelligence**

15 Points

Covers algorithms and representational schemes used in artificial intelligence. AI search techniques (e.g., heuristic search, constraint satisfaction, etc.) for solving both optimal and satisficing tasks. Tasks such as game playing (adversarial search), planning, and natural language processing. Discusses and examines the history and future of AI and the ethics surrounding the use of AI in society.

Prerequisite: COMPSCI 220 and COMPSCI 225 or MATHS 254, or SOFTENG 282 and 284

Restriction: COMPSCI 761

**COMPSCI 369 Computational Methods in Interdisciplinary Science**

15 Points

Many sciences use computational methods that involve the development and application of computer algorithms and software to answer scientific questions. This course looks at how to tackle these interdisciplinary problems through methods like probabilistic computer modelling, computer-based statistical inference, and computer simulations. The material is largely motivated by the life sciences but also uses examples from other sciences. It focuses on modelling and analysing real-world data with an emphasis on analysing DNA sequence data. No background in physical or life sciences is assumed.

Prerequisite: COMPSCI 220, and COMPSCI 225 or MATHS 254

**COMPSCI 373 Computer Graphics and Image Processing**

15 Points

Basic geometric processes including transformations; viewing and projection; back projection and ray tracing. Graphics modelling concepts: primitives, surfaces, and scene graphs, lighting and shading, texture mapping, and curve and surface design. Graphics and image processing fundamentals: image definition and representation, perception and colour models, grey level and colour enhancement, neighbourhood operations and filtering. Use of the OpenGL graphics pipeline.

Prerequisite: COMPSCI 210, 230, or COMPSYS 201 and SOFTENG 281

Restriction: COMPSCI 771

**COMPSCI 380 Project in Computer Science**

15 Points

Each student taking one of these courses will be expected to do an individual practical project under the supervision of a member of staff. Only students with excellent academic records will be allowed to take these courses, and only after a supervisor and topic have been agreed upon by the Head of Department.

Prerequisite: Approval of Academic Head or nominee

Restriction: COMPSCI 690

To complete this course students must enrol in COMPSCI 380 A and B, or COMPSCI 380

**COMPSCI 389 Research Methods in Computer Science**

15 Points

An overview of research methods and techniques used across the discipline of Computer Science, including formal proof techniques and empirical methods that involve quantitative and/or qualitative data. Students will be expected to apply the research methods in a collaborative research project.

Prerequisite: GPA of 5.0 or higher and COMPSCI 289 and 30 points at Stage II in Computer Science

**COMPSCI 390 Special Topic**

15 Points

**COMPSCI 391 Special Topic**

15 Points

**COMPSCI 392 Special Topic**

15 Points
COMPSCI 393 15 Points  
Special Topic

COMPSCI 399 15 Points  
Capstone: Computer Science
Students work in small groups to complete a substantial problem applying the knowledge learnt from the different courses in the Computer Science major. Teams are expected to reason on a problem, devise a solution, produce an artefact and present their work. The capstone provides an opportunity for students to further develop their technical and communication skills.  
Prerequisite: 30 points at Stage III in Computer Science and COMPSCI 210, 220, 230

Diploma Courses

COMPSCI 601 15 Points  
Special Topic  
Prerequisite: Approval of the Academic Head or nominee

COMPSCI 690A 15 Points  
COMPSCI 690B 15 Points  
Graduate Diploma Research Project  
Restriction: COMPSCI 380  
To complete this course students must enrol in COMPSCI 690 A and B

COMPSCI 691A 15 Points  
COMPSCI 691B 15 Points  
Postgraduate Diploma Research Project  
Restriction: COMPSCI 780  
To complete this course students must enrol in COMPSCI 691 A and B

Postgraduate 700 Level Courses

COMPSCI 700 15 Points  
Special Topic

COMPSCI 701 15 Points  
Creating Maintainable Software  
Developing maintainable software has been an ongoing challenge in the software industry. This course presents the principles and practices that have been proposed for developing maintainable software systems. It will evaluate and critique these principles and practices through examining their application in practice and through understanding the research on their effectiveness. Recommended preparation: COMPSCI 331 or 718

COMPSCI 702 15 Points  
Security for Smart-devices
Covers security features supported by the different platforms for smart devices. Provides an overview of the most popular OS platforms in the market and focuses on security for Android and iOS. Recommended preparation: COMPSCI 340

COMPSCI 703 15 Points  
Generalising Artificial Intelligence  
AI deep learning has significantly advanced image understanding, language modelling, speech recognition, game playing, and more. These developments enable near-human capabilities in text and image generation. Explores highly specialised knowledge in planning, reasoning, explanation, natural language understanding, and knowledge acquisition, and assess their contribution to highly competent, general AI systems. Includes a significant individual research project.  
Prerequisite: 15 points from COMPSCI 361, 367, 761, 762, or COMPSCI 713 and 714

COMPSCI 704 15 Points  
Special Topic  
Prerequisite: Approval of the Academic Head or nominee

COMPSCI 705 15 Points  
Advanced Topics in Human Computer Interaction
Human aspects of computer systems, relevant to commercial solution development and computer science research. Sample topics: advanced evaluation methods; support of pen and touch-based interaction; trends with domain specific user interface design, such as interfaces for enterprise systems. Recommended preparation: COMPSCI 345 or SOFTENG 350.  
Restriction: SOFTENG 702

COMPSCI 706 15 Points  
Special Topic  
Prerequisite: Approval of the Academic Head or nominee

COMPSCI 707 15 Points  
Special Topic  
Prerequisite: Approval of the Academic Head or nominee

COMPSCI 710 15 Points  
Directed Study  
Prerequisite: Approval of the Academic Head or nominee

COMPSCI 711 15 Points  
Parallel and Distributed Computing
Computer architectures and languages for exploring parallelism, conceptual models of parallelism, principles for programming in a parallel environment, different models to achieve interprocess communication, concurrency control, distributed algorithms and fault tolerance. Recommended preparation: COMPSCI 320 or 335

COMPSCI 712 15 Points  
AI Agency, Ethics and Society
Introduces students to a range of philosophical and normative topics relating to artificial intelligence. Examines key ideas of intelligence, privacy, consent, and discusses other ethical issues that arise in the development and use of AI. The importance of Māori rights and interests in AI and data are explored. Possible approaches to addressing these various concerns are considered.

COMPSCI 713 15 Points  
AI Fundamentals
Examines the core concepts and techniques in AI, including breakthroughs in symbolic AI, machine learning, and neural networks. Real-world applications are presented, with a focus on AI research in Aotearoa/NZ and ethical considerations. The course is designed to be accessible to students with limited programming experience.

COMPSCI 714 15 Points  
AI Architecture and Design
Equips students with the ability to develop AI applications by introducing well-established AI frameworks and using web-based interactive computing platforms. Students will acquire the skills to implement simple AI techniques using these frameworks and evaluate their performance. Introduces basic practical technologies to investigate artificial intelligence techniques.
COMPSCI 715 15 Points
Advanced Computer Graphics
An advanced look at current research issues in computer graphics. Typical topics include: ray-tracing acceleration methods; radiosity; subdivision surfaces; physically-based modelling; animation; image-based lighting and rendering; non-photorealistic rendering; advanced texturing. Recommended preparation: COMPSCI 373
Prerequisite: Approval of the Academic Head or nominee

COMPSCI 717 30 Points
Fundamentals of Algorithmics
Fundamental techniques are covered for the design of algorithms such as greedy algorithms, divide-and-conquer, and dynamic programming. Data structures are explored that help implement algorithms. Essential tools are taught for analysing algorithms, for example worst- and average-case analyses of space and time. Recommended preparation: COMPSCI 120, 130
Restriction: COMPSCI 220, 320, SOFTENG 250, 284

COMPSCI 718 30 Points
Programming for Industry
An examination of object-oriented programming and design. Key principles of object-oriented programming: typing, encapsulation, inheritance, polymorphism and composition. Fundamental object-oriented modelling and design techniques. Students will develop application software of reasonable complexity that draws on object-oriented language features, and contemporary APIs, frameworks and tools.

COMPSCI 719 30 Points
Programming with Web Technologies
An examination of developing web-based applications. Client-side technologies: HTML, CSS and Javascript. Server-side technologies to support dynamic Web pages and data access. Fundamental relational database concepts and design techniques. Principles of Web-application design. HCI considerations and mobile clients. Students will build a Web-based application that dynamically generates content involving relational database access.

COMPSCI 720 15 Points
Advanced Design and Analysis of Algorithms
Selected advanced topics in design and analysis of algorithms, such as: combinatorial enumeration algorithms; advanced graph algorithms; analytic and probabilistic methods in the analysis of algorithms; randomised algorithms; methods for attacking NP-hard problems. Recommended preparation: COMPSCI 320

COMPSCI 725 15 Points
Usable Security and Privacy Engineering
The human aspect of cyber security and privacy engineering is relevant to commercial solution development and cyber security and privacy research. Sample topics: secure systems design; usable security systems evaluation; privacy-preserving software systems; threat modelling; economics of usable security and privacy; OWASP Top 10 vulnerabilities. Recommended preparation: 30 points from COMPSCI 313, 314, 320, 335, 340, 351, 702, 734, 742

COMPSCI 726 15 Points
Network Defence and Countermeasures
Focuses on the use and deployment of protective systems used in securing internal and external networks. Examines in detail the widely used protocols including SSL, IPSec, DNSSEC as well as covers infrastructure platform protocols including wireless security (IEEE 802.11). Explores current research and developments in the area of network defence and countermeasures. Recommended preparation: COMPSCI 314, 315

COMPSCI 727 15 Points
Cryptographic Management
Focuses on cryptographic systems used in securing communications and data storage. Provides an overview of encryption algorithms including symmetric key cryptography, public key infrastructure, digital signatures and certificate technologies. The course covers management issues related to cryptography and explores current research and developments in this area. Recommended preparation: COMPSCI 210 or MATHS 120

COMPSCI 732 15 Points
Software Tools and Techniques
An advanced course examining research issues related to tools and techniques for software design and development. Topics include: techniques for data mapping and data integration, software architectures for developing software tools, issues in advanced database systems. Recommended preparation: COMPSCI 331 or SOFTENG 325 or COMPSCI 718 and 719
Restriction: SOFTENG 750

COMPSCI 734 15 Points
Web, Mobile and Enterprise Computing
Examines advanced and emerging software architectures at the confluence of XML, web services, distributed systems, and databases. Includes advanced topics in areas such as: mobile computing, remoting, web services for enterprise integration, workflow orchestrations for the enterprise, peer-to-peer computing, grid computing. Recommended preparation: COMPSCI 335 or 718

COMPSCI 742 15 Points
Advanced Internet: Global Data Communications
The course covers wide area networks, global routing, network and protocol performance, buffering and queuing, advanced network measurement, network application performance, content networks, and advanced networking concepts. Recommended preparation: COMPSCI 314 or 315

COMPSCI 747 15 Points
Computing Education
An overview of topics related to the use of technology in education and how people learn computer science concepts. Topics include research methodologies used in computer science education, how novices learn to program, and how technology can engage students in active learning, facilitate collaboration and enhance traditional educational practice. Recommended preparation: 30 points at Stage III in Computer Science or COMPSCI 718

COMPSCI 750 15 Points
Computational Complexity
Definitions of computational models and complexity classes: time complexity (e.g., P and NP), space complexity (e.g., L and PSPACE), circuit and parallel complexity (NC), polynomial-time hierarchy (PH), interactive complexity (IP), probabilistic complexity (BPP), and fixed-parameter complexity. Recommended preparation: COMPSCI 320 or 350

COMPSCI 751 15 Points
Advanced Topics in Database Systems
Database principles. Relational model, relational algebra, relational calculus, SQL, SQL and programming languages, entity-relationship model, normalisation, query processing and query optimisation, ACID transactions, transaction
isolation levels, database recovery, database security, databases and XML. Research frontiers in database systems. Recommended preparation: COMPSCI 220, 225 or COMPSCI 718

Restriction: COMPSCI 351, SOFTENG 351

COMPSCI 752 15 Points
Big Data Management
The deep diversity of modern-day data from many companies requires data scientists to master many technologies that rely on new principles to represent, describe, access, and analyse data. The course will provide insight into the rich landscape of big data modelling, management, and analysis in distributed and heterogeneous environments. Recommended preparation: COMPSCI 220, 351

COMPSCI 753 15 Points
Algorithms for Massive Data
Modern enterprises and applications such as electronic commerce, social networks, location services, and scientific databases are generating data on a massive scale. Analysis of such data must be carried out by scalable algorithms. This course exposes data science practitioners and researchers to various advanced algorithms for processing and mining massive data, and explores best-practices and state-of-the-art developments in big data. Recommended preparation: COMPSCI 320

COMPSCI 760 15 Points
Advanced Topics in Machine Learning
An overview of the learning problem and the view of learning by search. Covers advanced techniques for learning such as: decision tree learning, rule learning, exhaustive learning, Bayesian learning, genetic algorithms, reinforcement learning, neural networks, explanation-based learning and inductive logic programming. Advanced experimental methods necessary for understanding machine learning research.

Prerequisite: COMPSCI 361 or 762

COMPSCI 761 15 Points
Advanced Topics in Artificial Intelligence
Examines the cornerstones of AI: representation, utilisation, and acquisition of knowledge. Taking a real-world problem and representing it in a computer so that the computer can do inference. Utilising this knowledge and acquiring new knowledge is done by search which is the main technique behind planning and machine learning. Research frontiers in artificial intelligence.

Prerequisite: COMPSCI 220 and 225, or COMPSCI 220 and MATHS 254, or COMPSCI 713 and 714, or COMPSCI 718
Restriction: COMPSCI 367

COMPSCI 762 15 Points
Foundations of Machine Learning
Machine learning is a branch of artificial intelligence concerned with making accurate, interpretable, computationally efficient, and robust inferences from data to solve a given problem. Students will be introduced to the foundations of machine learning and will gain practical skills to solve different problems. Students will explore research frontiers in machine learning.

Prerequisite: COMPSCI 713 and 714, or COMPSCI 718, or 15 points from DATASCI 100, STATS 101, 108 and COMPSCI 220 or 717 and COMPSCI 225 or MATHS 254
Restriction: COMPSCI 361

COMPSCI 764 15 Points
Deep Learning - Level 9
Critically analyses the fundamentals of deep neural networks alongside current state-of-the-art advancements in this field. Students will acquire specialised knowledge in state-of-the-art deep learning architectures and gain the ability to apply deep learning in various fields, including natural language processing and computer vision. Includes a significant individual research project.

Prerequisite: COMPSCI 361 or 762, or COMPSCI 713 and 714

COMPSCI 765 15 Points
Modelling Minds
How can researchers of artificial intelligence effectively model subjective aspects of minds, such as emotional states, desires, perceptual experience and intrinsic goals? This course draws upon interdisciplinary methods and considers classic and emerging approaches to try to answer this question. Recommended preparation: COMPSCI 367

COMPSCI 767 15 Points
Intelligent Software Agents
An introduction to the design, implementation and use of intelligent software agents (e.g., knowbots, softbots etc). Reviews standard artificial intelligence problem-solving paradigms (e.g., planning and expert systems) and knowledge representation formalisms (e.g., logic and semantic nets). Surveys agent architectures and multi-agent frameworks.

Prerequisite: COMPSCI 367 or 761, or COMPSCI 713 and 714

COMPSCI 769 15 Points
Natural Language Processing - Level 9
Examines the progress in enabling AI systems to use natural language for communication and knowledge storage. Explores knowledge formalisation, storage, multiple knowledge systems, theory formation, and the roles and risks of belief, explanation, and argumentation in AI. Includes a significant individual research project.

Prerequisite: COMPSCI 361 or 762, or COMPSCI 713 and 714

COMPSCI 771 15 Points
Advanced Topics in Computer Graphics and Image Processing
Basic geometric processes including transformations; viewing and projection; back projection and ray tracing. Graphics modelling concepts: primitives, surfaces, and scene graphs, lighting and shading, texture mapping, and curve and surface design. Graphics and image processing fundamentals: image definition and representation, perception and colour models, grey level and colour enhancement, neighbourhood operations and filtering. Use of the OpenGL graphics pipeline. Research frontiers in computer graphics and image processing. Recommended preparation: COMPSCI 210, 230
Restriction: COMPSCI 373

COMPSCI 773 15 Points
Intelligent Vision Systems
Computational methods and techniques for computer vision are applied to real-world problems such as 2D/3D face biometrics, autonomous navigation, and vision-guided robotics based on 3D scene description. A particular feature of the course work is the emphasis on complete system design. Recommended preparation: COMPSCI 373 and 15 points at Stage II in Mathematics

COMPSCI 778 60 Points
Internship - Level 9
Enables the development of practical knowledge and hands-on experience through a supervised internship in the IT industry. Students complete a research-informed project, and present both written and oral reports of their findings.
COMPSCI 779 30 Points
COMPSCI 779A 15 Points
COMPSCI 779B 15 Points

Internship - Level 9
Enables students to gain workplace experience, the development of practical knowledge, and hands-on experience on research-informed AI projects through a supervised internship with an external organisation. At the end of the internship, students are expected to present both written and oral reports of their findings.
Prerequisite: Academic Head or nominee approval
To complete this course students must enrol in COMPSCI 779 A and B, or COMPSCI 779

COMPSCI 780 15 Points
COMPSCI 780A 7.5 Points
COMPSCI 780B 7.5 Points

Postgraduate Project in Computer Science 1
Prerequisite: Approval of Academic Head or nominee
Restriction: COMPSCI 691
To complete this course students must enrol in COMPSCI 780 A and B, or COMPSCI 780

COMPSCI 789A 15 Points
COMPSCI 789B 15 Points

Honours Research Project - Level 9
Prerequisite: Approval of Academic Head or nominee
To complete this course students must enrol in COMPSCI 789 A and B

COMPSCI 791 30 Points
COMPSCI 791A 15 Points
COMPSCI 791B 15 Points

Research Project - Level 9
To complete this course students must enrol in COMPSCI 791 A and B, or COMPSCI 791

COMPSCI 792 30 Points
COMPSCI 792A 15 Points
COMPSCI 792B 15 Points

Postgraduate Project in Computer Science 2
Prerequisite: Approval of Academic Head or nominee
Restriction: COMPSCI 786
To complete this course students must enrol in COMPSCI 792 A and B, or COMPSCI 792

COMPSCI 796A 60 Points
COMPSCI 796B 60 Points

MSc Thesis in Computer Science - Level 9
To complete this course students must enrol in COMPSCI 796 A and B

Stage III
DATASCI 399 15 Points

Capstone: Creating Value from Data
A group-based project in which students showcase their skills in collaboratively creating value from data. Within a given data science domain, teams will jointly develop a research question, apply their skills to gather, structure, and analyse data to address the question, and communicate their findings effectively. The insights, their implications, limitations, and future work will be discussed by the group. Each team member will write an individual report about the project.
Prerequisite: 30 points at Stage III in Data Science

Postgraduate 700 Level Courses
DATASCI 709 30 Points

Data Management
Data management is the practice of collecting, preparing, organising, storing, and processing data so it can be analysed for business decisions. The course will use R and SQL to illustrate the process of data management. This will include principles and best practice in data wrangling, visualisation, modelling, querying, and updating.
Prerequisite: COMPSCI 130, MATHS 108, and 15 points from STATS 101, 108, or equivalent
Restriction: COMPSCI 351, 791, STATS 383, 707, 765

DATASCI 792 45 Points
DATASCI 792A 15 Points
DATASCI 792B 30 Points

Dissertation - Level 9
To complete this course students must enrol in DATASCI 792 A and B, or DATASCI 792

Earth Sciences
Stage I
EARTHSCI 105 15 Points
EARTHSCI 105G 15 Points

Earth's Natural Hazards
New Zealand experiences many natural hazards caused by the Earth's natural processes through earthquakes, volcanic eruptions, weather bombs, storm surge, tsunami, flooding and wildfires. Focuses on spatial and temporal occurrences of disasters, hazard preparedness and recovery, and societal responses that affect and, sometimes, compound the magnitude of disasters. Case studies are drawn from contemporary and ancient societies.

EARTHSCI 120 15 Points

Planet Earth
Examination of geologic processes that have shaped Earth and life through time, and their impact on modern society. Topics include: earthquakes, plate tectonics, volcanic eruptions, tsunamis, landslides, meteorites and planets, mass extinctions and evolution of life. A practical introduction to rocks, minerals and fossils provides insights into Earth's past and important modern resources.
Restriction: EARTHSCI 103

Stage II
EARTHSCI 202 15 Points

Earth History
Explores the evolution of the Earth from its molten beginnings to the dynamic planet we live on today. Topics
include: stratigraphy (litho-, bio-, cyclo-, magneto-); evolution; paleoecology; Precambrian Earth (formation of first continents and beginnings of life); development of the Earth and life through the Phanerozoic Eon. Knowledge of geological mapping equivalent to EARTHSCI 201 or 220 will be assumed.

Prerequisite: 75 points, including at least 15 points from EARTHSCI 103, 120

EARTHSCI 203 15 Points
Rock and Minerals
The formation of igneous, metamorphic and sedimentary rocks, the minerals they contain, and how they can be used to interpret major Earth Science processes such as crustal evolution, volcanism, mountain building, deformation, and sedimentation.

Prerequisite: 15 points from EARTHSCI 103, 120

EARTHSCI 205 15 Points
New Zealand: Half a Billion Years on the Edge
Take a 500 million year journey through time following the geologic and biologic development of New Zealand from humble beginnings on the edge of the ancient supercontinent Gondwana to the present day geologically dynamic land mass beset by volcanic eruptions, earthquakes and massive erosion as a consequence of being located on the edge of the Earth's largest tectonic plate.

Prerequisite: 75 points passed

EARTHSCI 208 15 Points
Earth Structure
A foundation course that introduces students to descriptive and analytical methods in structural geology. Geological maps are used to help students analyse structural features (e.g., folds, faults, contacts). On completion of this course, students should be able to interpret geological maps, construct cross-sections, and synthesise analytical results into a structural history.

Prerequisite: 15 points at Stage I in Earth Sciences
Restriction: EARTHSCI 204

EARTHSCI 209 15 Points
Special Topic

EARTHSCI 220 15 Points
Practice in Earth Sciences 1
A practical and field based course that introduces and develops theory and work flows to enable students to read, document and interpret landforms and landscapes in 4-D. Students will be required to participate in a residential field experience and undertake independent field work.

Prerequisite: 15 points from EARTHSCI 120, GEOG 101
Restriction: EARTHSCI 201, 260

Stage III

EARTHSCI 303 15 Points
Sedimentary Systems
An advanced course that critically examines ancient and contemporary sedimentary systems. State of the art techniques and technologies (sedimentology, geomorphology, modelling) are used to examine the physical and biological processes in freshwater and marine environments. The application of sedimentary systems in the context of Earth's resources and the current energy transition are highlighted.

EARTHSCI 307 15 Points
Earth's Changing Climate
An exploration of long-term climatic and environmental variability from deep time to the present - all placed in the context of our warming world. Emphasis is on the nature and drivers of climate change, and the tools used for analysis of past climate impacts on Earth landscapes, the hydrosphere and the biosphere.

Prerequisite: 45 points at Stage II, including 15 points from EARTHSCI 201, 202, 220, GEOG 260-263, or equivalent

EARTHSCI 308 15 Points
Tectonic and Magmatic Systems
Explores the tectonic and magmatic evolution of Earth and planetary systems, including their formation, composition, and how they deform. Students are exposed to seminal literature covering the various geological, geochemical, geophysical, and modelling tools and methods used for deciphering Earth deformation and magmatism, and the critical feedbacks between these processes. Recommended preparation: EARTHSCI 203, 208
Restriction: EARTHSCI 304, 305

EARTHSCI 309 15 Points
Special Topic

EARTHSCI 315 15 Points
Analytical Skills in Geology
A laboratory and field-based course expanding a student's ability to collect, synthesise and analyse the range of datasets encountered in Earth Sciences, in disciplines such as geochemistry, sedimentology, structural geology and geophysics. Activities focus around a residential geological field-trip, where students develop advanced quantitative field skills in geologically diverse settings, and provide a report synthesising and interpreting their collected data.

Prerequisite: EARTHSCI 220, 30 points from EARTHSCI 202, 203, 208, 262 and a Grade Point Average of 5.0 or higher

EARTHSCI 320 15 Points
Practice in Earth Sciences 2
A practical and field based course that embeds theory and work flows to enable students to read, document and interpret complex and vulnerable landforms and landscapes in 4-D. Students will be required to participate in a residential field experience and undertake independent field work.

Prerequisite: EARTHSCI 220
Restriction: EARTHSCI 301, GEOG 330

EARTHSCI 361 15 Points
Imaging the Subsurface
Geophysical imaging of the subsurface utilises contrasting rock and fluid properties. Applications include environmental, engineering, resource, hazard, and tectonic studies. Students will acquire and interpret geophysical data by attending a one-day field trip and through laboratory sessions.

Prerequisite: 15 points at Stage II in Earth Sciences, Environmental Physics, Geophysics
Restriction: GEOLOGY 361, GEOPHYS 361

EARTHSCI 372 15 Points
Engineering Geology
An integration of quantitative and qualitative concepts in geology as applied to engineering projects. Fundamentals of soil and rock mechanics will be introduced. Topics covered in the course include landslides, dewatering schemes, contaminant transport, foundations, mines (open-pit and underground), dams, tunnels, urban geology, and transportation infrastructures. Case studies are used
in lectures to demonstrate the importance of geology and water to engineering projects. Fieldwork is required.

Prerequisite: CIVIL 220 or EARTHSCI 201 or 220 or GEOLOGY 201, and 30 points from EARTHSCI 201-263, GEOG 260-263, GEOLOGY 202-205

Restriction: CIVIL 726, GEOLOGY 372

EARTHSCI 390

Directed Study
Prerequisite: Permission of Academic Head

EARTHSCI 399

Capstone: Earth Sciences
Conducting an Earth Science investigation involving a range of skills, as practised in research and industry careers. Students will undertake an independent research project involving field, desktop and/or laboratory work, and communicate the results in written and oral formats. Skills gained include ability to design a research project, collect and analyse qualitative and quantitative Earth Science data, and research communication.
Prerequisite: 30 points at Stage III in Earth Sciences

Postgraduate 700 Level Courses

EARTHSCI 703

Hydrothermal Systems
Active hydrothermal systems are dynamic and significant to national energy requirements, hazards assessment and understanding planetary evolution. Geologic, hydrologic, and geochemical features of hydrothermal systems are considered with an emphasis on hydrothermal systems, sustainable geothermal energy extraction, mechanisms underpinning hydrothermal eruptions, and the potential role of hydrothermal systems in origin of/early life scenarios and the search for extra-terrestrial life.

EARTHSCI 704

Directed Study in Earth Sciences
Prerequisite: Head of School approval

EARTHSCI 705

Geohazards
Contemporary methods used to identify and assess natural hazards, techniques used for the probabilistic forecasting, spatial representation and communication of hazards. How the relationship between hazard information, risk mitigation and emergency management is addressed. There will be a strong focus on the use of case studies.

EARTHSCI 709

Special Topic

EARTHSCI 714

Faults and Fluids
Fault-fluid interaction is critical in earthquake dynamics and hydrothermal systems that have implications for geothermal energy, ore mineralisation and, via hydrothermal alteration, land stability. We will explore the fundamentals of these interactions and their relevance to hazard and resource challenges of society today. This course will be anchored by a strong in-person field component.
Restriction: EARTHSCI 706

EARTHSCI 720

Environmental Geochemistry
Provides a broad overview of applications of geochemistry across multiple disciplines. In addition, this course will help determine the suitability of different analytical techniques to different problems while providing practical experience in collecting and evaluating geochemical data. Subject areas are wide-reaching and include, geology, environmental science, biology, archaeology, and forensic sciences. No formal prerequisite but knowledge of introductory chemistry will be assumed.

EARTHSCI 732

Exploring Environmental Change
Sedimentary and biological records show that extreme, rapid and short-lived climatic and environmental changes occurred in the past. Case studies are used to introduce the tools used to identify and interpret abrupt environmental changes during the Last Glacial Period and Holocene that may have implications for the present and our future.

EARTHSCI 752

Volcanoes
Volcanoes were an important part in the formation of Earth’s crust and atmosphere and influenced the evolution of life. Today, volcanoes play an important role in society from hazards and resources to recreation. This course covers how and why volcanoes erupt from magma processes in the mantle to eruption at the surface.

EARTHSCI 754

Integrated Sedimentology and Tectonics
Develops an advanced and practical understanding of how sedimentary and tectonic processes relate to one another. Case studies, field work, guest lectures and discussions will allow critical examination of the latest research into the dynamics of tectonic and sedimentary environments.

EARTHSCI 770

Engineering Geological Mapping
A field-based course which provides hands-on experience in outcrop mapping, geomorphic mapping, and simple field testing of rocks and soils for geotechnical purposes.

EARTHSCI 771

Advanced Engineering Geology
Advanced engineering geology focused on engineering practice. Interpretation of in-situ testing and laboratory test data (including groundwater) for the derivation of design parameters for input into numerical modeling software. The topics covered include, but are not limited to, design and analysis of site investigation, advanced core logging, slope stability analysis, rock fall assessment, introduction to numerical modeling, liquefaction and seismic hazard assessment for engineering design.

EARTHSCI 772

Hydrogeology
Introduces aquifers and aquifer properties; the various processes and techniques utilised in the discovery, development and assessment of groundwater resources; groundwater in construction; groundwater contamination.

EARTHSCI 785

BAdvSci(Hons) Dissertation in Geology - Level 9
Prerequisite: Approval of Programme Director or Major/ Specialisation Lead
To complete this course students must enrol in EARTHSCI 785 A and B, or EARTHSCI 785

EARTHSCI 789

Honours Research Project - Level 9
To complete this course students must enrol in EARTHSCI 789 A and B, or EARTHSCI 789
EARTHSCI 794A  
30 Points
EARTHSCI 794B  
60 Points
**Thesis in Engineering Geology - Level 9**
To complete this course students must enrol in EARTHSCI 794 A and B

EARTHSCI 796A  
60 Points
EARTHSCI 796B  
60 Points
**MSc Thesis in Earth Sciences - Level 9**
To complete this course students must enrol in EARTHSCI 796 A and B

**Ecology**

**Stage III**

ECOLOG 301  
15 Points
**Advanced Research Skills in Ecology**
Research design and associated methods from the component fields of ecology. A series of field trips to differing habitats are a central component of the course. During these trips students will be supervised in small groups and apply selected research methods and techniques to complete a research project.
Prerequisite: BIOSCI 206

**Postgraduate 700 Level Courses**

ECOLOG 789  
60 Points
ECOLOG 789A  
30 Points
ECOLOG 789B  
30 Points
**Dissertation - Level 9**
Prerequisite: 15 points from BIOSCI 761, 762, ENVSCI 701
To complete this course students must enrol in ECOLOG 789 A and B, or ECOLOG 789

**Environmental Change**

**Stage III**

ENVCHG 300  
15 Points
**Environmental Change**
An exploration of the nature and causes of change in the physical environment, including: natural processes driving environmental change and variability; humans as agents of change; and biophysical and societal sensitivity to change. Past, present and future interactions between society and environmental change with examples drawn from climatology and ecology. Principles of scientific writing and communication will also be addressed.
Prerequisite: Approval of Programme Director or Major/Specialisation Lead
Restriction: GEOG 334

**Postgraduate 700 Level Courses**

ENVCHG 789  
60 Points
ENVCHG 789A  
30 Points
ENVCHG 789B  
30 Points
**BAdvSci(Hons) Dissertation in Environmental Change - Level 9**
Prerequisite: Programme Coordinator approval
To complete this course students must enrol in ENVCHG 789 A and B, or ENVCHG 789

**Environmental Management**

**Postgraduate 700 Level Courses**

ENVMGT 701  
15 Points
**Environmental Management in Practice - Level 9**
Research and practice in Environmental Management. Students will explore alternative perspectives and methodologies applied in environmental management and develop a research proposal that includes a critical review of a contemporary practice.

ENVMGT 741  
15 Points
**Social Change for Sustainability**
Explores the concept of sustainability through different theoretical frameworks and how social and environmental movements have mobilised around this concept over time. Critically interrogates what is sustainable, what is social change, and how can social change be sustainable in a global economy. Draws on case studies of current environmental issues and associated popular social movements.

ENVMGT 742  
15 Points
**Social Dimensions of Global Environmental Change**
An examination of the social dimensions of global environmental change. This includes a review of the history of climate science, the interaction of science with other knowledges, and contemporary debates surrounding climate change as well as other forms of environmental change. It also examines the different ways in which people respond to environmental risks and changes, and the challenges associated with mitigation and adaptation policies.

ENVMGT 743  
15 Points
**Environmental Policy**
Debates surrounding environmental policy and governance provide insights into the complexities of environmental management issues. Examples of environmental governance will be considered at global and local scales. The roles of international agencies, nation-states, civil society and corporations in shaping environmental policy and governance are examined.

ENVMGT 744  
15 Points
**Resource Management**
A review of advanced principles, concepts and approaches to the sustainable management of natural resources. Case studies emphasise the need for conflict resolution, equitable allocation, and decentralised decision-making to address the social and environmental impacts of resource utilisation.

ENVMGT 746  
15 Points
**Collaborative Environmental Management**
An exploration of participatory management and its potential for engaging communities, resource users and stakeholders in the pursuit of sustainable development. Students will examine strategies for incorporating local knowledge within conservation practices and for reconciling natural resource management with human welfare, social justice and indigenous rights.

ENVMGT 748  
15 Points
**Coastal Management**
Explores the physical, social and policy dimensions of coastal management. The nature of coastal environments is a function of physical coastal dynamics, the history of human occupation and utilisation of the coast, and
governmental decision making. Discusses shifts in management approaches in the coastal environment, using national and international examples to highlight key coastal management issues.

**ENVMGT 749**  
**Ethical Environmental Futures**  
We face urgent environmental challenges that require innovative responses to affect better environmental futures. This course will analyse environmental uncertainty and its implications; examine the interface between environmental technologies and society; consider environmental responsibilities, values and ethics; and situate environmental solutions within their wider sociopolitical and economic context. Students will engage with strategies to achieve sustainable and just outcomes.

**ENVMGT 750**  
**Special Topic**

**ENVMGT 751**  
**River Management**  
Explores biophysical, socio-economic, cultural and institutional dimensions of river management, contextualising the situation in Aotearoa New Zealand in global terms. A proactive and precautionary approach engages generatively with river futures, scoping sustainable solutions to contemporary environmental problems. Policy, planning and on-the-ground applications are outlined.

**ENVMGT 760**  
**Special Topic**

**ENVMGT 761**  
**Directed Study**  
*Prerequisite: Approval of Programme Director or Major/Specialisation Lead*

**ENVMGT 762**  
**Directed Study**  
*Prerequisite: Approval of Programme Director or Major/Specialisation Lead*

**ENVMGT 791**  
**Research Project - Level 9**  
*To complete this course students must enrol in ENVMGT 791 A and B, or ENVMGT 791*

**ENVMGT 796A**  
60 Points

**ENVMGT 796B**  
60 Points

**MSc Thesis in Environmental Management - Level 9**  
*To complete this course students must enrol in ENVMGT 796 A and B*

---

**Environmental Physics**

**Stage I**

**ENVPHYS 100**  
15 Points

**ENVPHYS 100G**  
15 Points

**Sun, Sand, Surf: Science of Aotearoa**  
The atmosphere, oceans and land make up the dynamic environment of Aotearoa New Zealand. A range of phenomena with natural beauty can be described elegantly with simple scientific laws. This course establishes the physical principles underlying nature, empowering students to explain everyday environmental phenomena. These principles provide the foundation to unravel the science of Earth, climate and environmental change, and energy systems.

**Stage II**

**ENVPHYS 200**  
**Earth Observations and Models**  
An experiential study of climate and environmental physics. The analysis and modelling of laboratory, field and remote sensing observations to explain the state and behaviour of the atmosphere, oceans and the solid earth. Topics include radiation, cloud and aerosol processes, energy balance, circulations and seismic waves. It develops transferable skills in acquiring measurements, data analytical methods and laboratory techniques.  
*Prerequisite: 15 points from ENVPHYS 100, PHYSICS 100, 102, 120, 121, 160, EARTHSCI 120 and 15 points from MATHS 108, 110, 120, 130, 199, STATS 101-120*  
*Restriction: GEOPHYS 213*

**Stage III**

**ENVPHYS 300**  
**Atmosphere, Ocean and Earth Physics**  
The physics basis for dynamical behaviours of the atmosphere, ocean and solid earth. Topics include the planetary general circulation, development of storms and convection, emergence of climate states, gravity, magnetism and seismology. An emphasis is placed on the fundamental conservation laws and processes that control geophysical systems.  
*Prerequisite: PHYSICS 201, and ENVPHYS 200 or GEOPHYS 213, and 15 points from ENGSCI 211, MATHS 253, 260*  
*Restriction: GEOPHYS 310, 311*

**ENVPHYS 301**  
**Special Topic**

**ENVPHYS 370**  
**Directed Study**  
*Prerequisite: Departmental approval*

**ENVPHYS 399**  
**Capstone: Environmental Physics**  
Students will employ core methodologies (experimental, observational, numerical) to investigate some aspect of climate and environmental systems such as key atmospheric, ocean or solid earth geophysical phenomenon. They will relate their findings to contemporary research in the field, considering wider societal aspects and issues. Students will develop their skills in communication, critical thinking, teaching and creative problem solving.  
*Prerequisite: ENVPHYS 300*  
*Restriction: EARTHSCI 399, GEOG 399, PHYSICS 399*

---

**Postgraduate 700 Level Courses**

**ENVPHYS 700**  
**Frontiers in Climate Science**  
An up-to-date assessment of the state of the climate system that highlights changes in climate pertinent to future change. Evaluates climate using the latest scientific discoveries, evaluates information from observations and models of past, present and future climate. Leverages findings from scientific synthesis efforts and emphasises understanding Earth's climate as a basis for evaluating impacts of climate on wider environment and society.  
*Prerequisite: ENVPHYS 300*
ENVPHYS 701 15 Points
Atmosphere and Ocean Dynamics
Explores physical processes underlying Earth's climate using observations, modelling and predictions. Spans geophysical fluid dynamics, Earth's energy budget, the meridional and vertical heat imbalances, and processes linked to seasonal and long-term climate variations and changes. Explores quasi-geostrophic and wave theory to describe general circulation, Hadley and midlatitude circulations in the atmosphere, Sverdrup balance and western boundary currents in the ocean.
Prerequisite: ENVPHYS 300 or 30 points from PHYSICS 201-203, 231, 240, 244, 251, 261
Restriction: GEOPHYS 711

ENVPHYS 702 15 Points
Subsurface Characterisation with Geophysical Methods
Pertains to subsurface characterisation through the inversion of geophysical observations. The course covers a combination of rock physics, seismic methods, ground-penetrating radar, as well as gravity, magnetic and electrical methods.
Prerequisite: 15 points from EARTHSCI 361, ENVPHYS 300, GEOPHYS 310
Restriction: GEOPHYS 761

ENVPHYS 703 15 Points
Special Topic

ENVPHYS 770 15 Points
Directed Study
Prerequisite: Departmental approval

ENVPHYS 780 15 Points
Research Project - Level 9
To complete this course students must enrol in ENVPHYS 780 A and B, or ENVPHYS 780

ENVPHYS 796A 60 Points
ENVPHYS 796B 60 Points
Thesis - Level 9
To complete this course students must enrol in ENVPHYS 796 A and B

Environmental Science

Stage I
ENVSCI 101 15 Points
ENVSCI 101G 15 Points
Environment, Science and Management
Explores the science behind key environmental issues to recognise the role environmental science plays in understanding the interaction between humans and the environment. The complexity of environmental problems and the difficult task of integrating science, knowledge and values are discussed.

Stage II
ENVSCI 201 15 Points
Natural and Human Environmental Systems
An examination of current environmental issues in coupled natural and human systems such as urban environments. Interactions among biological, physical and social processes are discussed and means of measuring and managing the environmental outcomes of their interactions are addressed.
Prerequisite: At least 45 points at Stage I

ENVSCI 203 15 Points
Modelling Environmental Systems
An introduction to the philosophy and use of models in the study of a range of environmental systems, including coastal, ecological, fluvial, atmospheric and social. Students will develop skills in designing, communicating and critically assessing models of the environment.
Prerequisite: STATS 101 or 108
Restriction: ENVSCI 310

ENVSCI 204 15 Points
Special Topic

Stage III
ENVSCI 301 15 Points
Environmental Science in Practice
Advances in environmental science, technology, and policy are explored using case studies of global environmental issues and proposed solutions. Students apply environmental science to assess how science is used to inform environmental intervention and policy, and understand environmental responses.
Prerequisite: ENVSCI 201 or equivalent

ENVSCI 302 15 Points
Environmental Science, Risk and Society
An examination of the contemporary topics that shape the ways in which environmental science may be communicated and understood. Topics of discussion include issues of scientific uncertainty, risk communication, public trust and the role of media.

ENVSCI 304 15 Points
Special Topic

ENVSCI 390 15 Points
Directed Study
Prerequisite: Academic Head approval

ENVSCI 399 15 Points
Capstone: Environmental Science
Students will engage with the research process, as practised in environmental science. Independent or small group research projects will be undertaken under the guidance of an academic mentor. Students will design and complete an independent research project and communicate their findings. The emphasis is on research skills and assisting students in developing and implementing their independent academic research project.
Prerequisite: 30 points at Stage III in Environmental Science or 15 points at Stage III in Environmental Science and 15 points from other Stage III courses included in the major

Postgraduate 700 Level Courses
ENVSCI 701 15 Points
Research Practice in Environmental Science
An understanding of research in Environmental Science. Students will be introduced to a range of methodologies and will be challenged to critically analyse information and data. Principles of scientific writing and communication will also be addressed. Students will apply these skills by developing and writing a research proposal or critical review.
ENVSCI 704  
**Modelling of Environmental Systems**  
The design and application of models for the investigation of environmental problems: understanding the role and utility of modelling in environmental science; the analysis and representation of environmental phenomena. Provides an understanding of modelling concepts, approaches and applications. An understanding of the material in ENVSCI 310, GEOG 250, MATHS 108 and STATS 101 will be assumed.

ENVSCI 705  
**Handling Environmental Data**  
Contemporary approaches to understanding and analysing environmental data with an emphasis on developing skills to support the 'transformation, visualisation, modelling' cycle. The importance of adopting reproducible research practices (eg, data and code archiving) will be emphasised. The course focuses on an applied laboratory component and will be taught in open-source software. Assessment will be via projects analysing environmental data. No formal prerequisites but an understanding of basic statistical methods equivalent to STATS 101 will be presumed.

ENVSCI 706  
**Special Topic**

ENVSCI 707  
**Directed Study in Environmental Science**  
Prerequisite: Approval of Programme Director or Major/Specialisation Lead

ENVSCI 708  
**Ecosystem Dynamics**  
Ecosystems have a critical role in regulating climate, soil, water, and air quality. Basic concepts of ecosystem ecology are introduced and the effects of human-induced changes on ecosystem processes are examined. The dynamics of key ecosystem processes (e.g. carbon and water cycling) and their driving factors are investigated. Students will conduct a research project linking theoretical and practical aspects of ecosystem science.

ENVSCI 711  
**Environmental Impact Assessment - Level 9**  
A focus on the interdisciplinary, scientific assessment of environmental impacts with specific reference to applying this discipline in New Zealand. Methodologies used in the assessment, monitoring and regulation of environmental impacts will be discussed and critically evaluated. The contribution of Environmental Impact Assessment to policy and regulatory decisions in environmental management, including consenting procedures and planning processes and the roles and duties of public and professional participants, will be covered. A key component of the assessment is the preparation of an individual Environmental Impact Assessment report.

ENVSCI 713  
**Air Quality and Atmospheric Processes**  
Monitoring, modelling and management will be considered with emphasis on air quality standards and guidelines and applications of science and technology to indoor and outdoor air pollution prevention, mitigation and remediation. Case studies and practical work will link the theoretical and practical aspects of air quality science.

ENVSCI 714  
**Environmental Pollution**  
Contaminants of soil and water emitted by point and non-point sources. Monitoring of legacy and emerging contaminants, and impact assessment. Application of science and technology to pollution prevention, mitigation and remediation.

ENVSCI 716  
**Applied Freshwater Ecology**  
Applied freshwater management and restoration issues considered in light of general ecological processes in freshwater systems. Contemporary issues in New Zealand and overseas such as eutrophication, invasive species and climate change are considered. Students will be introduced to methods of measuring ecological health of streams and lakes. Field and laboratory experience in data collection and analysis relevant to environmental management.

ENVSCI 734  
**Restoration and Landscape Ecology**  
Restoration ecology is the scientific study of repairing degraded, damaged or destroyed ecosystems. It is a young but rapidly growing field that represents fundamental changes in human relationships to nature. Restoration draws on concepts from landscape ecology, and the two disciplines are inextricably linked. The course covers the issues of habitat fragmentation and edge effects in a restoration framework.

ENVSCI 737  
**Applied Terrestrial Ecology**  
The dynamics of change in terrestrial ecosystems with a focus on forest and wetland environments. Students will be introduced to methods for vegetation assessment and ecosystem ecology, including multivariate statistical methods. Students are required to participate in a residential field course. No formal prerequisite but a knowledge of ecology equivalent to Stage II, including associated quantitative analysis, is assumed.

ENVSCI 738  
**Water Sensitive Cities**  
This course probes experiments with radical urban change to examine the co-constitution of water-society in the pursuit of improved futures. A case study is built around the aspiration to become a Water Sensitive City. Students first employ quantitative methods to design a water sensitive neighbourhood. Students then critique reductionist approaches to becoming sustainable. The aim is to better understand the sustainable city debate and its emerging logics.

ENVSCI 790  
ENVSIC 790A  
ENVSIC 790B  
**Research Project - Level 9**  
To complete this course students must enrol in ENVSCI 790 A and B, or ENVSCI 790

ENVSCI 794A  
ENVSCI 794B  
**MEnvSci Thesis - Level 9**  
To complete this course students must enrol in ENVSCI 794 A and B

ENVSCI 796A  
ENVSCI 796B  
**MSc Thesis in Environmental Science - Level 9**  
To complete this course students must enrol in ENVSCI 796 A and B
Exercise Sciences

Stage I

EXERSCI 100G 15 Points
Exercise and Fitness: Myths and Reality
An introduction to the principles of physical exercise, with a focus on understanding how the body moves and responds to exercise, how performance can be measured, and how fitness can be developed and maintained to optimise health. Particular emphasis will be placed on the debunking of common myths about exercise, and offering evidence-based advice on the benefits of appropriate physical activity.
Restriction: BIOSCI 107, EXERSCI 101, 105, SPORTSCI 100G, 101, 105, MEDSCI 142

EXERSCI 101 15 Points
Foundations of Exercise and Sport Sciences
Introduction to the scientific principles and concepts underpinning the sub-disciplines of Exercise and Sport Sciences: Biomechanics, Exercise Physiology, Movement Neuroscience and Psychology. Content experts will provide a broad overview of the applications and career pathways of each sub-discipline using examples from research or industry. Academic literacy skills required in all sub-disciplines will be developed.
Restriction: SPORTSCI 101

EXERSCI 103 15 Points
Human Anatomy
The study of the gross anatomical organisation of the neural, muscular and skeletal systems, with particular reference to the neck, limbs, back and abdominal wall. Practical work includes gross anatomy laboratories and CD-ROM study.
Restriction: SPORTSCI 103

EXERSCI 105 15 Points
Exercise Prescription
An introduction to the risks and benefits of exercise, exercise policy and safety, physical fitness testing, guidelines for exercise test administration, principles of exercise prescription, cardiorespiratory and neuromuscular training.
Restriction: SPORTSCI 105, 205

Stage II

EXERSCI 201 15 Points
Exercise Physiology 1
Introduction to the physiological and biochemical requirements and provision of energy for acute exercise and recovery. A key focus is on the mechanisms involved in physiological system responses to aerobic and anaerobic exercise. Practical experiences will cover experimental and scientific procedures of measuring and reporting on physiological responses to acute exercise.
Prerequisite: 15 points from BIOSCI 107, EXERSCI 101, MEDSCI 142
Restriction: SPORTSCI 201

EXERSCI 203 15 Points
Biomechanics 1
Covers the mechanical basis of human movement, using quantitative and qualitative modelling approaches. Focuses on the analysis of sporting performance, locomotion, and musculoskeletal stress. Practical work explores key techniques in measurement and data analysis of human movement and the forces involved.
Restriction: SPORTSCI 203

EXERSCI 205 15 Points
Motor Learning
Introduction to the principles and stages of motor skill acquisition, and their application to sport and exercise. Key concepts include the structure of practice tasks, feedback, individual differences, growth and development, aging, injury, and relationships to the underlying neurobiology. Develops practical skills in the measurement of human motor performance, and in the development and assessment of individualised training programmes to improve skill.

EXERSCI 206 15 Points
Exercise Nutrition
A cross-disciplinary focus on nutrition, examining nutritional enhancement of sports performance, diet and physiological function, eating disorders, energy balance, body composition and the role of diet in growth and exercise.
Prerequisite: 30 points from MEDSCI 100-320 or BSc courses
Restriction: SPORTSCI 206

EXERSCI 207 15 Points
Sport Psychology
An introduction to the study of psychology as it relates to human behaviour and performance in sport settings. Key concepts include achievement motivation, individual differences, performing under pressure, psychological skills training, team dynamics, and their relationships to human motor behaviour and performance.
Prerequisite: 45 points passed at Stage I or II
Restriction: EXERSCI 304, SPORTSCI 304

EXERSCI 210 15 Points
Special Topic

EXERSCI 271 15 Points
Advanced Exercise Assessment and Prescription
This theoretical and workplace-based course integrates behavioural competencies in the application of advanced physical fitness assessment and design, and implementation of evidence-based, effective and individualised exercise programmes for the maintenance of health and physical fitness in apparently healthy individuals. Supervised practice of not less than 70 hours is provided.
Prerequisite: 45 points: EXERSCI 101, 103, 105

Stage III

EXERSCI 301 15 Points
Exercise Physiology 2
Systemic physiological responses and adaptations to exercise training and physical inactivity relevant to selected athletic and medical populations and across the lifespan. Skills will be developed in the interpretation of experimental methods and findings in human exercise physiology.
Prerequisite: 15 points from EXERSCI 201, MEDSCI 205, SPORTSCI 201
Restriction: SPORTSCI 301

EXERSCI 303 15 Points
Biomechanics 2
Advanced quantitative techniques in biomechanics used to study human movement including mathematical modelling and signal processing. An application area such
as occupational ergonomics or clinical gait analysis will be used to demonstrate the biomechanical techniques.

Prerequisite: 15 points from ENNGEN 121, PHYSICS 160, EXERSCI 203, SPORTSCI 203
Restriction: SPORTSCI 303

EXERSCI 304 15 Points
Sport Psychology
The study of psychology as it relates to human behaviour and performance in sport settings. Key concepts include achievement motivation, individual differences, performing under pressure, psychological skills training, team dynamics, and their relationships to human motor behaviour and performance.
Prerequisite: EXERSCI 204 or SPORTSCI 204, or 45 points passed at Stage II or III
Restriction: EXERSCI 207, SPORTSCI 304

EXERSCI 305 15 Points
Movement Neuroscience
Examines brain and spinal cord organisation and function related to movement, and the neurological mechanisms involved in the planning, execution and control of movement in health and disease. Introduces the concept of neural plasticity as it relates to motor skill learning and recovery after injury in both healthy and neurologically impaired populations. An understanding of human anatomy at the level covered in EXERSCI 103 will also be assumed.
Prerequisite: 15 points from EXERSCI 201, 205, MEDSCI 206, 309, 320, PSYCH 202, SPORTSCI 201
Restriction: SPORTSCI 305

EXERSCI 307 15 Points
Psychology of Physical Activity
Introduction to the study of psychology as it relates to physical activity, sedentary behaviour and health. Key concepts include exercise motivation, mental health benefits of exercise, models of behaviour change, intervention design, special populations, and the relationship to the underlying neurophysiology and implications for physical activity behaviour.
Prerequisite: 45 points passed at Stage II or III
Restriction: EXERSCI 204, SPORTSCI 204

EXERSCI 309 15 Points
EXERSCI 309A 7.5 Points
EXERSCI 309B 7.5 Points
Project in Exercise Sciences
A supervised individual practical project in a clinical or other research laboratory setting to explore and assess how science underpins practical skills.
Prerequisite: 15 points at Stage II or III in Exercise Sciences and Departmental approval
Restriction: SPORTSCI 309
To complete this course students must enrol in EXERSCI 309 A and B, or EXERSCI 309

EXERSCI 310 15 Points
Special Topic

EXERSCI 371 15 Points
Practicum in Exercise and Sport Sciences
A workplace-based course of supervised practice of not less than 100 hours. Competencies will be developed in the application of advanced physical fitness assessment and design of evidence-based, effective and individualised exercise programmes for the maintenance of health and physical fitness in apparently healthy individuals.
Prerequisite: EXERSCI 271

EXERSCI 399 15 Points
Capstone: Applying Exercise Sciences
A supervised project course that will focus on applying theoretical knowledge to practical skills. Opportunities will include laboratory and clinic-based research projects, science communication or public engagement projects. Students will work in groups, but will also engage in individual activities to demonstrate their own understanding of topics.
Prerequisite: 15 points from EXERSCI 301, 303, 305, 307

Diploma Courses

EXERSCI 690A 15 Points
EXERSCI 690B 15 Points
Graduate Diploma Research Project
To complete this course students must enrol in EXERSCI 690 A and B

Postgraduate 700 Level Courses

EXERSCI 702 15 Points
Projects in the Exercise Sciences
Provides students with an opportunity to collect data in an area of interest, with the aim of validating an area of study towards their theses.
Restriction: SPORTSCI 702

EXERSCI 703 15 Points
Cardiac Rehabilitation
Seminal literature is used to explore the effects of exercise, physical activity and sedentary behaviour on cardiovascular physiology and pathophysiology within the context of disease prevention and rehabilitation.
Restriction: EXERSCI 720, 721, SPORTSCI 703

EXERSCI 704 15 Points
Advanced Techniques in Biomechanics
A laboratory-based course which explores the current biomechanics methodology for quantifying human movements. Emphasis on motion capture, force measurement, accelerometers, clinical gait analysis, balance assessment, and electromyography. Students will apply biomechanical methods to clinical assessment.
Restriction: SPORTSCI 704

EXERSCI 705 15 Points
Research in the Exercise Sciences
Examines the nature and value of research contributions in the Exercise Sciences and their application to further research and evidence-based practice. Evaluates the process of research, inclusive of the development of research questions and hypotheses, the planning and collection of data in an ethical and unbiased manner, the analysis, interpretation and presentation of data and the dissemination of results.
Restriction: SPORTSCI 705

EXERSCI 706 15 Points
Seminar in Advanced Exercise Physiology
A seminar-based course examining the physiological responses and adaptations to physical exercise or inactivity. Students evaluate, present, and discuss seminal and contemporary research publications on selected topics largely focusing on the cardiovascular, metabolic, and musculoskeletal systems. Emphasis will be placed upon investigations of the explanatory elements of adaptation, from the level of the genome to the living human, and the use of relevant contemporary experimental techniques.
Restriction: PHYSIOL 706, SPORTSCI 706
EXERSCI 708  
**Advanced Seminar in Movement Neuroscience**  
Seminar based course which examines brain organisation and function related to movement in health and disease. Emphasis is placed on contemporary techniques and paradigms in the field of movement neuroscience, with special emphasis on clinical populations that exhibit impaired movement. Neural plasticity is a central theme.  
*Restriction: SPORTSCI 708*

EXERSCI 710  
**Exercise Rehabilitation**  
The role of exercise and physical activity in the rehabilitation of people living with chronic and long-term health conditions. Professional practice in Aotearoa New Zealand. Evidence-based exercise prescription and outcome measurement for selected client populations.  
*Restriction: EXERSCI 720, 721, SPORTSCI 710*

EXERSCI 711  
**Exercise and Performance Psychology**  
Examines the basis of exercise motivation and to examine how psychological states can influence movement control and performance in work, sports, and daily life. The course covers theoretical foundations and involves active discussion of recent empirical studies.

EXERSCI 714  
**Special Topics in the Exercise Sciences**  
*Prerequisite: Head of Department approval*  
*Restriction: SPORTSCI 714*

EXERSCI 720  
**Clinical Exercise Physiology 1**  
Develops specialist knowledge in clinical exercise physiology practice, clinical exercise testing, and the effects of medication on exercise responses in people with cardiovascular, pulmonary and metabolic health conditions. Explores the evidence-based, physiological foundations underlying exercise assessment and prescription for people with these chronic health conditions.

EXERSCI 721  
**Clinical Exercise Physiology 2**  
Develops specialist knowledge in the evidence-based, physiological foundations underlying exercise assessment and prescription for people with orthopaedic, musculoskeletal, neuromuscular, neoplastic, immunologic and mental health-related chronic conditions. Covers treatment planning and reporting, and the critical analysis of the role of exercise in short and long-term chronic disease management.  
*Prerequisite: EXERSCI 720*

EXERSCI 731  
**Physiotherapy Healthcare**  
Students will apply specialist knowledge about the regulation of the practice of physiotherapy in New Zealand supporting professional, legal, ethical, evidence-based and culturally safe practice. Knowledge and skills include Te Tiriti o Waitangi, Māori models of health, government legislation and health strategies, whānau-centred care, interprofessional practice, teamwork, effective communication, and developing a critical consciousness to promote equity in healthcare delivery.

EXERSCI 732  
**Exercise for Rehabilitation**  
Students will apply clinical reasoning and deduction to assessment and treatment of individuals across the lifespan living with chronic health conditions to increase life-long physical activity and reduce sedentary behaviours. Knowledge and skills include aerobic capacity testing, functional assessments, exercise intervention, outcome measurement and self-management support for people undergoing cardiac rehabilitation or living with chronic health conditions and older adults.

EXERSCI 733  
**Musculoskeletal Outpatients**  
Students will evaluate assessments, planning and delivery of interventions for clients with musculoskeletal, orthopaedic, women's health and rheumatologic conditions across the lifespan. Client scenarios will develop clinical reasoning skills underpinning safe, effective and holistic delivery of therapy. Students will learn to formulate differential diagnoses, prioritise clinical problems and implement an evidence-based treatment plan, using manual therapy, exercise and modality-based interventions.

EXERSCI 734  
**Physiotherapy Practice**  
Students will assess, plan and deliver interventions for case-studies with spinal musculoskeletal, orthopaedic, and rheumatological conditions across the lifespan. Students will formulate differential diagnoses, prioritise clinical problems and generate solutions using knowledge and skills of physiotherapy practice. Students will implement culturally safe, evidence-based treatment plans to a range of clinical case scenarios across the lifespan.

EXERSCI 735  
**Neurological Rehabilitation**  
Students will apply specialist knowledge to develop skills in evidence-based assessment and intervention across health care settings, focusing on interdisciplinary rehabilitation of neurological and neurodevelopmental conditions through the lifespan. The emphasis will be on normal development and milestones to underpin learning in paediatric rehabilitation. Motor learning principles will be applied to rehabilitate mobility, walking, balance and upper-limb function, including integration of assistive technology.

EXERSCI 736  
**Acute Care**  
Students will apply advanced knowledge in physiotherapy management of acute respiratory, cardiac, surgical and neurological conditions across the lifespan, and to operate effectively in an interdisciplinary healthcare team. Students will learn to provide cardiopulmonary care for medical, surgical and acute neurological patients and the fundamentals of managing patients in an intensive care unit (ICU) including the role of physiotherapist in an ICU.

EXERSCI 737  
**Physiotherapy in the Community**  
Students will advance generic skills to manage chronic conditions commonly delivered by healthcare services in urban and rural communities. Learning will include manual therapy and exercise interventions for spinal conditions, chronic pain management, falls prevention, movement disorders, amputees, cancer survivors and paediatric respiratory conditions. Students will learn to deliver e-health rehabilitation and to deliver whānau-centred care for Māori and Pasifika communities.

EXERSCI 738  
**Professional Practice**  
Students will apply specialist knowledge and skills to support graduate practice. Topics include: advanced professional practice, registration and ongoing professional
Students will gain essential knowledge for business practices such as Accident Compensation Corporation, private insurance, legal and ethical obligations and occupational health and safety.

Prerequisite: EXERSCI 741, 752, 753

EXERSCI 741
Advanced Physiotherapy Practice - Level 9
15 Points
Students will apply advanced knowledge and skills in specialised and emerging areas of physiotherapy practice, including advanced practitioner roles. Applying critical thinking and evidence-based practices, students will independently develop and evaluate management plans for complex cases. Case scenarios include integration of Hauora Māori, paediatric/neonatal ICU, burns/plastics, spinal cord injury, gender health, hand therapy, palliative care and emergency department physiotherapy.

Prerequisite: EXERSCI 735-737

EXERSCI 751
Physiotherapy Practicum 1
15 Points
Students will undertake supervised practice in clinical settings. This is the first of 5 clinical practicums across different physiotherapy settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients’ problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.

Prerequisite: EXERSCI 751-753

EXERSCI 752
Physiotherapy Practicum 2
15 Points
Students will undertake supervised practice in a clinical setting. This is the second of 5 clinical practicums across different physiotherapy settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients’ problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.

Prerequisite: EXERSCI 751

EXERSCI 753
Physiotherapy Practicum 3
15 Points
Students will undertake supervised practice in a clinical setting. This is the third of 5 clinical practicums across different physiotherapy practice settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients’ problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.

Prerequisite: EXERSCI 751

EXERSCI 754
Physiotherapy Practicum 4
15 Points
Students will undertake supervised practice in a clinical setting. This is the fourth of 5 clinical practicums across different physiotherapy practice settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients’ problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.

Prerequisite: EXERSCI 751-753

EXERSCI 755
Physiotherapy Practicum 5
15 Points
Students will undertake supervised practice in a clinical setting. This is the final of 5 clinical practicums across different physiotherapy practice settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients’ problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.

Prerequisite: EXERSCI 751-753

EXERSCI 775
Seminar in Clinical Exercise Physiology
15 Points
A body of advanced theoretical and administrative work related to exercise prescription and service delivery. The principles of exercise physiology related to clinical populations, especially individuals who have cardiac, musculoskeletal, neurological, pulmonary, immunological, neoplastic, mood, and metabolic disorders, post-surgical cases, the elderly, and for individuals at risk of developing diseases as a consequence of inactivity. Professional and inter-professional relations will be addressed.

Restriction: SPORTSCI 775, 783

EXERSCI 776
Clinical Exercise Practicum 1
30 Points
Individual interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.

Restriction: EXERSCI 771, SPORTSCI 771, 781

EXERSCI 777
Clinical Exercise Practicum 2
30 Points
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.

Restriction: EXERSCI 777, 772, SPORTSCI 772, 781

EXERSCI 778
Clinical Exercise Practicum 3
30 Points
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.

Restriction: EXERSCI 771 and 772, or EXERSCI 776 and 777
Corequisite: EXERSCI 775

Restriction: EXERSCI 773, SPORTSCI 773, 782

EXERSCI 779
Clinical Exercise Practicum 4
30 Points
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical,
safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.

**Societal, economic, legislative and regulatory aspects will also be introduced. Concepts will be illustrated using real food systems with a focus on lipids, water and vitamin C.**

**Restriction:** FOODSCI 201

**FOODSCI 110 Concepts in Food and Nutrition**

Introduces students to the multifaceted nature of food science and nutrition with a focus on the interplay between food, nutrition and health. Provides general insights relating food molecules to food function and health. Societal, economic, legislative and regulatory aspects will also be explored. No background in science is assumed.

**Restriction:** FOODSCI 100

### Stage II

**FOODSCI 200 Food Composition and Nutrition**

Covers the composition and structure of food. The approach will extend the FOODSCI 100 content from lipids to proteins, carbohydrates and key minor food components. There will be a focus on the molecular structure of the major food components and how they relate to the physical, sensory and nutritional properties of foods.

**Prerequisite:** 15 points from BIOSCI 106, CHEM 110, FOODSCI 100

**Restriction:** FOODSCI 201

**FOODSCI 202 Food Preservation**

Food is spoilt by microbiological, chemical, biochemical and physical processes. It is important to understand the mechanism of spoilage caused by each of these processes in order to prevent or minimise such degradation. This course includes fundamental principles covering the preservation and processing of different food products. The principles involved in the development of food safety and HACCP programmes, as well as New Zealand food laws are also covered.

**Prerequisite:** 15 points from FOODSCI 200, 201, 15 points from MATHS 108, 110

**Restriction:** FOODSCI 302

### Stage III

**FOODSCI 301 Food Quality Attributes**

Attributes that make food attractive, such as colour, flavour, and texture, and how they alter during processing are studied. Texture measurement and methods of studying food structure will be discussed. Lectures will be given on non-destructive testing of food.

**Recommended preparation:** BIOSCI 203

**Prerequisite:** FOODSCI 200 or 201

**FOODSCI 303 Sensory Science**

Human perception and preference of food products. Design of experiments, statistical methodologies and applications in industry and research. Sampling of foods is undertaken in this course.

**Prerequisite:** 15 points from STATS 101, 108 and 15 points from FOODSCI 200, 201

**Corequisite:** FOODSCI 301 or Permission of the Programme Director/Course Coordinator

**FOODSCI 306 Principles of Food Processing**

The fundamental principles of freezing and thawing, thermal processing and canning, fermentation and dehydration are studied. The fundamental areas of engineering relevant
for food processing such as heat and mass transfer, are covered. Process impact on food safety, quality and preservation is also discussed.

**Prerequisite:** FOODSCI 202

**Restriction:** CHEMMAT 756

**FOODSCI 310**

**Theory of Food Product Design**

Examines the science underpinning human sensory perception and food preferences and how this science interfaces with the design and development of food products as well as the fundamental aspects of food product development.

**Prerequisite:** FOODSCI 100, 200 and STATS 101 or 108

**Restriction:** FOODSCI 303, 304

**FOODSCI 399**

**Capstone: Food and Nutrition**

Food and Nutrition pathway students will work together in groups to identify and develop a new food product or food system that addresses or responds to a nutritional issue. Students will focus on the interplay between the nutritional aspects of the product or system and the sensory, stability, convenience, cost, regulatory and processing aspects of the product.

**Prerequisite:** FOODSCI 303 or 310 and a further 30 points at Stage III in Food Science and Nutrition

**Prerequisites:**

- FOR 201
- CHEMMAT 101
- CHEMMAT 111

---

**FOODSCI 700**

**Selected Topics in Food Science 1**

Modules will be organised by the staff and invited lecturers. Topics offered will usually be based on the specialist interests of the lecturers, although controversial issues may be included (for example, genetically modified food, irradiated food). Students may be required to participate actively by contributing seminars. Topics may vary from year to year.

To complete this course students must enrol in FOODSCI 709 A and B, or FOODSCI 709

**FOODSCI 710**

**Industrial Internship - Level 9**

The industrial internship is an opportunity for students to experience the food industry at first hand. While the placement would normally be in New Zealand, overseas internships are possible. The student will work in the food organisation on a defined project under the supervision of a suitably qualified person. A detailed written report on the assignment must be submitted.

**Prerequisite:** Permission of Programme Director

---

**FOODSCI 715**

**Food Allergens and Intolerants**

An understanding of the epidemiology, management, regulation and classification of food allergens and intolerants in accordance with Food Standard 1.2.3 (Australia New Zealand Food Standards Code). This includes the study of foods or food groups with the major food allergens as identified in the Food Allergen Labeling and Consumer Protection Act (FALCPA), and application to new product development and labeling.

**FOODSCI 740**

**Food Analysis**

Students are provided with an opportunity to experience a range of analytical techniques that are used in food industry laboratories and in food science research.

**Restriction:** FOODSCI 301, 610

---

**FOODSCI 750**

**Advanced Topics in Food Science 1**

A modular course consisting of topics chosen from the diverse research interests of the Food Science staff and academic visitors which may vary from year to year.

**Prerequisite:** Permission of Programme Director

**Restriction:** FOODSCI 709

---

**FOODSCI 751**

**Advanced Topics in Food Science 2**

A modular course consisting of topics chosen from the diverse research interests of the Food Science staff and academic visitors which may vary from year to year.

**Prerequisite:** Permission of Programme Director

**Restriction:** FOODSCI 709

---

**FOODSCI 752**

**Research Proposal - Level 9**

A review of the literature and research methods associated with a selected research topic assigned to an individual student. This will be at internationally recognised academic standards and demonstrate a capacity for independent
thinking. It will include a consideration of the project from a Vision Mātauranga perspective.

Prerequisite: Permission of Programme Director

**FOODSCI 755** 15 Points

**Special Topic**

Prerequisite: Programme Director approval

**FOODSCI 788** 60 Points

**FOODSCI 788A** 30 Points

**FOODSCI 788B** 30 Points

**BSc(Hons) Dissertation in Food Science - Level 9**

A research proposal will be prepared on the dissertation topic. Students will be required to present an overview of the proposal in a seminar. Students will participate in the critical analysis of scientific papers. The student will carry out an original piece of research. The results will be presented and discussed in a dissertation. A seminar on the research will be given.

Restriction: FOODSCI 789

To complete this course students must enrol in FOODSCI 788 A and B, or FOODSCI 788

**FOODSCI 790** 30 Points

**FOODSCI 790A** 15 Points

**FOODSCI 790B** 15 Points

**Research Project - Level 9**

Prerequisite: Permission of Programme Director

To complete this course students must enrol in FOODSCI 790 A and B, or FOODSCI 790

**FOODSCI 791** 60 Points

**FOODSCI 791A** 30 Points

**FOODSCI 791B** 30 Points

**Dissertation - Level 9**

Prerequisite: Permission of Programme Director

To complete this course students must enrol in FOODSCI 791 A and B, or FOODSCI 791

**FOODSCI 796A** 60 Points

**FOODSCI 796B** 60 Points

**MSc Thesis in Food Science - Level 9**

Prerequisite: Permission of Programme Director

To complete this course students must enrol in FOODSCI 796 A and B

---

**Forensic Science**

---

**Postgraduate 700 Level Courses**

**FORENSIC 701** 15 Points

**Fundamental Concepts in Forensic Science**

Ethics and quality assurance in forensic science. Principles of criminal law, principles of evidence and procedure, expert evidence, interpretation of scientific evidence, probability and statistics. Forensic pathology, psychology and psychiatry.

**FORENSIC 702** 15 Points

**Introduction to Forensic Science**

Forensic biology, documents, fingerprints, physical evidence, toolmarks, fire examination, explosives, hairs and fibres, drugs, toxicology, alcohol (including blood and breath alcohol), crime scene examination, firearms identification.

**FORENSIC 703** 15 Points

**Statistics and Molecular Biology for Forensic Science**

Statistics: data summarisation and reduction, laws of probability, conditional probability, likelihood ratios and Bayes theorem. Interpretation of statistical results. Forensic biology: basic principles of population genetics, genomic structure, conventional blood grouping. DNA profiling: structure, enzymology and basic chemistry of nucleic acids, PCR and microsatellites, interpretation of DNA profiles, developing forensic DNA technologies.

**FORENSIC 704** 15 Points

**Techniques and Applications for Forensic Science**

Analytical techniques: GC, HPLC, GC-MS chromatography, IR and UV spectroscopy. Applications: toxicology, illicit drugs, sports drugs, racing chemistry. Physical and trace evidence.

**FORENSIC 706** 15 Points

**Environmental Forensic Science**

Concepts of environmental science. Environmental monitoring and spill analysis, environmental legislation, criminal and environmental law. Case studies and practical work.

**FORENSIC 707** 30 Points

**FORENSIC 707A** 15 Points

**FORENSIC 707B** 15 Points

**Project in Forensic Science**

A research essay on an aspect of forensic science.

Restriction: FORENSIC 705

To complete this course students must enrol in FORENSIC 707 A and B, or FORENSIC 707

**FORENSIC 708** 15 Points

**Special Topic: Forensic Science in a Digital World**

Principles and applications of data science and statistics to forensic science. Methods may include machine learning, artificial intelligence, Bayesian inference, data visualisation, data security and the ethical use of data. Applications may include wastewater analysis, DNA sequencing, drug identification, biometrics, and crime detection and prevention. Prior knowledge of basic statistics is assumed. Familiarity with statistical programming language R is beneficial.

**FORENSIC 710** 15 Points

**FORENSIC 710A** 7.5 Points

**FORENSIC 710B** 7.5 Points

**Advanced Topics in Forensic Science**

A modular course comprising topics in Forensic Science related to staff research interests.

To complete this course students must enrol in FORENSIC 710 A and B, or FORENSIC 710

**FORENSIC 790A** 15 Points

**FORENSIC 790B** 15 Points

**MSc Thesis in Forensic Science - Level 9**

Note: The Forensic Science MSc thesis research courses are mounted with the assistance of the Institute of Environmental Science and Research Ltd (ESR) and ESR facilities and databases will be used for some research. As ESR facilities and databases are relied on in Court proceedings, appropriate steps must be taken to ensure the integrity of ESR's analyses. This means students wishing to use ESR laboratory facilities as part of the MSc programme will be subject to the same type of access requirements as ESR employees. This includes a security clearance (essentially a check of any convictions recorded against you) and a drug test prior to being given access to ESR resources. Students will normally be required to provide a DNA sample to ensure that any allegations of cross-contamination of a DNA sample can be properly
investigated. The DNA profile will be retained by ESR. All other information will be returned to the students at the completion of their studies. Students who would like further details of these conditions should contact the Programme Director.

Prerequisite: Permission of Programme Director
To complete this course students must enrol in FORENSIC 796 A and B

Geographic Information Science

Stage I

GISCI 140 15 Points
Geographic Information and Spatial Thinking
An introduction to the conceptual base of Geographic Information Science, the practical use of geo-spatial data and various societal issues related to the use of Remote Sensing and Geographic Information Systems. This course will introduce students to a range of contemporary geospatial technologies. It covers key concepts and principles behind the development and application of these technologies. The course exercises cover a range of application of GIS for analysis and display of spatial data, focusing on non-programmable solutions.
Restriction: GEOG 210

Stage II

GISCI 241 15 Points
Principles of Remote Sensing
An introduction to remote sensing tools and techniques and their application within the earth, environmental and urban environments. The course focuses on the processing, analysis and interpretation of data collected by government and commercial satellites, Unmanned Aerial Vehicles (UAV) and aerial photography. The course introduces image interpretation, multispectral images, supervised and unsupervised image classification and change detection. Techniques for analysing remote sensing data are introduced through a series and lab-based activities and are applied during an independent project.
Prerequisite: 60 points passed

GISCI 242 15 Points
Principles of GIScience
Spatial analysis and GIScience applications of spatial data handling for built and natural environments within the context of theoretical frameworks for understanding human-driven and physical phenomena. Develops advanced practical knowledge of methodology and applications for changing environments. Focus topics include climate change, air pollution, healthcare access, transportation, and 3D game worlds.
Prerequisite: 60 points passed
Restriction: GEOG 318

GISCI 243 15 Points
Special Topic

Stage III

GISCI 341 15 Points
Remote Sensing of Surface Processes
Key concepts of geographic information science as applied to earth and environmental sciences. Monitoring, analysis, visualisation and modelling of landscape change for terrestrial and coastal environments, using imagery from satellites, airplanes (LiDAR) and UAVs. Principles and practice of field techniques, including RTK-GPS, LiDAR and UAV piloting will be reviewed with application to catchment management, conservation, natural hazards and civil infrastructure.
Prerequisite: GISCI 241
Restriction: GEOG 317

GISCI 343 15 Points
GIScience Programming and Development
Programming and scripting-based techniques for spatial big data analysis, spatial data handling, modelling, automation, and development for the GIScience domain.
Prerequisite: 15 points from GISCI 241, 242, GEOG 317, 318

GISCI 344 15 Points
Special Topic

GISCI 390 15 Points
Directed Study
Prerequisite: Approval of Programme Director or Major/ Specialisation Lead

GISCI 399 15 Points
Capstone: GIScience
Students will independently demonstrate domain knowledge through applying their skills as members of groups completing a community-based GIScience projects serving needs identified by community stakeholders. Groups will be assembled based on skillsets of individual students (e.g., programming, remote sensing, advanced vector analysis, etc.), and students will be assessed on their independent contributions to the group project.
Prerequisite: 30 points at Stage III in Geographic Information Science

Geography

Stage I

GEOG 101 15 Points
Earth Surface Processes and Landforms
Understanding of the functioning of natural systems at the Earth's surface and human interactions with these systems. Examines the operation and interaction between Atmospheric, Hydrological, Ecological and Geomorphic systems. Environmental processes are an integrating theme. Topics include: climate and hydrological systems, ecological processes; surface sediment cycle; and processes governing development and dynamics of major landform types.

GEOG 102 15 Points
Geography of the Human Environment
Examines the relationships among personal geographies and global geographies of uneven development, economic, environmental and socio-cultural change. Using a variety of examples from New Zealand and the world we illustrate the connection between local places and global issues.

GEOG 103 15 Points
GEOG 103G 15 Points
Mapping Our World
An introduction to contemporary geospatial technologies such as web-mapping, GPS and tracking devices (such as your phone), Remote Sensing and GIS. Covers key concepts and principles behind these tools and their use, along with practical experiences through laboratories. Critical and theoretical perspectives on the tools, their use, and their social impacts will be discussed.
Restriction: GEOG 140, GISCI 140

**Stage II**

**Cities and Urbanism**
What makes a great city? This course explores 'urbanism' in both historical and contemporary cities to determine the essence of urbanity and the way that citizens (and visitors) experience city life. The dynamics and character of cities are considered in terms of their built environment, environmental systems, population, social diversity, and planning policies and practices.

**Geographies of the Pacific**
Examines the diverse geographies of Pacific peoples, their worldviews and ways of living. Case studies are used to place these geographies in entangled environmental, economic, historical, social, cultural and political contexts and to identify contradictory dynamics of change.

**Cities, Regions and Communities**
A critical examination of geographic processes and consequences in contemporary society. Topics are selected from the instructors' research interests, which include: the transformation of urban places and spaces; the forms and location of industries and retailing; social geographies of the city; New Zealand's linkages with the global economy and society; urban historical geographies; and demographic and social changes in New Zealand and the Pacific region.

**Environment and Society**
A critical exploration of the interconnectedness of environment and society. The course highlights the importance of understanding how different views and attitudes influence people's interactions with the environment. Key themes include governance, management and development, which are addressed through issues such as conservation, climate change adaptation, disasters and resource use. Classes draw on a variety of case studies from New Zealand and overseas.

**Geographical Research in Practice**
A critical examination of the research experience in geography. Case studies and field work demonstrate approaches to understanding the complex interactions of social and environmental processes. Students will develop practical skills in problem identification, research methodologies, ethics and analytical practices.

**Climate and Society**
Exploration of themes in climatology, meteorology, hydro-climatology and oceanography with a focus on the nature and role of key processes. These will be examined in relation to key issues for society such as extreme weather events, drought, floods, air pollution and climate change.

**Geopolitics and Indigenous Rights**
Examines Indigenous peoples as agents of geopolitical change. Introduces colonial/decolonial geographies to demonstrate the geopolitical implications of Indigenous ways of knowing, being and doing. Key themes include: territory and geopolitics; Indigenous identities, subject-formation and intersectionality; Indigenous knowledges, rights and political agency; and, Indigenous relationships with non-Indigenous peoples.

**Resources and Environmental Management**
Examines the development and conservation of the environment in its use as a resource base, with particular reference to the way in which institutional structures in society determine provision and allocation. Attention is balanced between international experience and the policy framework in New Zealand. The course provides an understanding of key concepts, practices and methods.

**The Human Dimension of Disasters**
An overview of the human dimension of disasters which covers crucial concepts and theories, vulnerability and the causes of disasters, disaster risk reduction and management, post-disaster recovery and transversal issues such as culture and gender. The discussions encompass not only theoretical but also policy and practical materials and draw on examples and case studies from throughout the world with a particular focus on the most vulnerable and marginalised areas and communities.

**Stage III**

**Population, Health and Society**
A survey of major themes in population, health and social geography. An examination of the dynamics of population complements analyses of health and healthcare, the education sector, the welfare state, and the changing character of urban places.

**Urban Geography**
Analysis of key processes shaping socio-cultural geographies of contemporary cities. Using international and local examples, issues such as the economy of cities, the culture of cities, home and housing, segregation and polarisation, the imaging of cities and sustainability are explored.

**Geopolitics and Indigenous Rights**
Examines Indigenous peoples as agents of geopolitical change. Introduces colonial/decolonial geographies to demonstrate the geopolitical implications of Indigenous ways of knowing, being and doing. Key themes include: territory and geopolitics; Indigenous identities, subject-formation and intersectionality; Indigenous knowledges, rights and political agency; and, Indigenous relationships with non-Indigenous peoples.

**Resources and Environmental Management**
Examines the development and conservation of the environment in its use as a resource base, with particular reference to the way in which institutional structures in society determine provision and allocation. Attention is balanced between international experience and the policy framework in New Zealand. The course provides an understanding of key concepts, practices and methods.

**The Human Dimension of Disasters**
An overview of the human dimension of disasters which covers crucial concepts and theories, vulnerability and the causes of disasters, disaster risk reduction and management, post-disaster recovery and transversal issues such as culture and gender. The discussions encompass not only theoretical but also policy and practical materials and draw on examples and case studies from throughout the world with a particular focus on the most vulnerable and marginalised areas and communities.
Politics, Markets and Economies

Uses geographical insights to explore the interrelationships between politics, economy, and culture. The course focuses on attention on institutions, subjectivity and the making of markets. It examines political projects and economic spaces such as higher education, food and creative economies at the regional, national, and global level.  
Prerequisite: 30 points at Stage II

Applied Physical Geography

Examines the challenges of ‘doing science’ in the real world. With particular emphasis on climate, fluvial and coastal processes, the types of data, knowledge and information needed for decision making in environmental contexts are examined. Examines the ways human activities affect, and are affected by, the environmental settings of humans. Seeks improved understanding, and prediction, of the world around humans framed as both a resource and hazard.  
Prerequisite: 45 points at Stage II in Geography

Technology, Power and Social Change

Technology, algorithms, and Big data are changing our relationships with reality, space and power. This course explores how we know each other, society, and ourselves in this period of unprecedented technological change.  
Prerequisite: 45 points at Stage II

Coastal and Marine Studies

Focuses on the development of coastal landforms across a range of temporal and spatial scales. Introduces natural processes such as waves, tides and circulation, as well as geological-scale coastal evolution driven by changes in sea level and sediment supply. The course has an applied focus with specific emphasis on coastal management problems that affect society. Issues considered include coastal erosion during storms, the impacts of shoreline engineering, climate change and accelerating sea level rise.  
Prerequisite: 45 points at Stage II, including EARTHSCI 262 or GEOG 262, or equivalent

Landscape, Environment and Heritage

An examination of environmental change from a historical geography perspective. Approaches to investigating and understanding the transformation of environments are explored, and processes driving creation of different types of landscapes including heritage places are considered. The course enables students to place the modern environment within a historical context.  
Prerequisite: 30 points at Stage II

Directed Study

Prerequisite: Approval of Programme Director or Major/ Specialisation Lead

Capstone: Geography

An engagement with the research process, as practised in geography. Students will undertake an independent research project and communicate their findings, with due attention to research design, methodology, research ethics, information sources, field practise, data analysis, and research communication. Independent or small group research projects may involve residential or local fieldwork, laboratory analysis, desktop analysis or other research activities.  
Prerequisite: GEOG 250 and 30 points at Stage III in Geography

Postgraduate 700 Level Courses

Research in Practice

A reflection on the process of developing research projects from theory to methods, analysis, and the presentation of findings. Attention is directed to the ways in which research is shaped by intellectual histories, pressing social and environmental challenges, and contemporary academic and political debates. The course allows students to develop specialised interests in geography or environmental management.

Mobilities and Wellbeing

An exploration of place-based human mobilities and their influence on health and wellbeing, employing current theoretical perspectives. No formal prerequisite, but an understanding of material in Stage III courses in human geography will be assumed.

Geographies of Housing and Urban Change

Advanced study of housing and urban issues, including the topics of homeownership, asset-based welfare, the politics of housing affordability, housing reforms and the changing dynamics of gentrification. Contemporary issues such as mortgage market dynamics and social rented housing reforms are examined. The course will consider also urban governance, office property investment and development processes, and sites of consumption and spectacle.

People, Participation and Development

A critical overview of issues associated with people’s participation in development in their geographical context, including processes and outcomes, accountability, empowerment and transformation in the context of livelihood strengthening, resource management, health and sanitation, education and disaster risk reduction. The course provides the students with theoretical knowledge but also practical skills through the use in class of participatory tools as both contents and teaching aids. Discussions rely upon concrete examples from throughout the world with a particular focus on marginalised places.

Geographies of Public Policy

Exploring ‘policy’ — an all too familiar and taken for granted term — by focusing on how policies get made, how different actors and varieties of expertise influence the policy process, and how policies shape people and place. It introduces students to transdisciplinary conversations involving geographers, anthropologists, sociologists and urbanists.

Future Food and Biological Economies

Investigates contemporary understandings, issues and strategies relating to the development of biological economies and food networks in the context of the globalising food economy. Addresses transformations in agro-food complexes and questions of nature-society relationships to do with ‘sustainable’ and ‘resilient’ food production and consumption.
GEOG 745 15 Points
**Applied Fluvial Geomorphology**
Catchment-scale perspectives are used to analyse spatial and temporal variability in river forms and processes. River responses to disturbance are placed in a long-term evolutionary context. Prospective river futures are appraised using field analyses and numerical modelling applications. These principles and techniques are used to discuss management options. No formal prerequisite but final year undergraduate experience in a related field required.

GEOG 746 15 Points
**Applied Coastal Geomorphology**
An advanced course on the process-form relationships that shape coastlines over a range of spatial and temporal scales. Coastal processes are examined with field experiments in which principles of experiment design and field deployment are demonstrated. Long-term evolutionary perspectives are examined using a range of field techniques. These short- and long-term approaches are then merged to address examples of applied coastal management problems. No formal prerequisite but an understanding equivalent to GEOG 351 will be assumed.

GEOG 749 15 Points
**Applied Climate Science**
An examination of climate themes relevant to society. Themes will vary but may include hydrology and water resources, agriculture, human health, ocean-atmosphere interaction and energy in the climate system. The sensitivity of selected biophysical and human activity systems to climate will be explored and the actual and potential impacts of climatic variability and change (past and future) investigated.

GEOG 750 15 Points
**Environment and Landscape**
Environmental change in New Zealand since European settlement, including exploitation of natural resources, the creation of different cultural landscapes, and recognition of places as natural and cultural heritage. Different approaches to investigating and understanding recent environmental change are addressed. The course is suitable for physical and social science students, and will enable them to place the modern environment within a historical context. The course may include short guided walks and a one day or two half-day fieldtrips.

GEOG 759 15 Points
**Research Topics in Geography**
Direct research on an approved topic or topics.
Prerequisite: Approval of Programme Director or Major/Specialisation Lead

GEOG 760 15 Points
**Directed Study in Geography**
Directed studies on an approved topic or topics.
Prerequisite: Academic Head approval

GEOG 761 15 Points
**Special Topic: Monitoring Change from Space with Machine Learning**
Remotely sensed (satellite) data and machine learning techniques will be used to classify and analyse both commercial and environmental targets through time. Techniques will focus on both pixel classification and object detection and students will experience the latest in satellite imagery analysis with a focus on deriving actionable information.

GEOG 771 15 Points
**Spatial Analysis and Geocomputation**
Approaches to and challenges in analysing spatial data. Specific techniques will include geographical regression, point pattern analysis, interpolation, and newer geocomputation and machine learning methods. Students will gain an advanced knowledge of spatial analysis. An understanding equivalent to GISCI 242 will be assumed.

GEOG 774 15 Points
**Advanced Spatial Data Handling**
Advanced approaches to spatial data handling (processing, management, visualisation, and analysis) in web-based environments, including theoretical debates and implications as well as applications for spatial data handling in integrated open-source and web-based mapping/GIS environments. There will be an applied laboratory component and lecture/seminar component where the broader social and theoretical implications of developments in spatial data handling will be engaged. No formal prerequisite, but an understanding equivalent to GEOG 318 will be assumed.

GEOG 789 30 Points
GEOG 789A 15 Points
GEOG 789B 15 Points
**Honours Research Project - Level 9**
To complete this course students must enrol in GEOG 789 A and B, or GEOG 799

GEOG 793 60 Points
**Dissertation - Level 9**

GEOG 796A 15 Points
GEOG 796B 15 Points
**Masters Thesis in Geography - Level 9**
To complete this course students must enrol in GEOG 796 A and B

---

**Geophysics**

**Stage II**

GEOPHYS 213 15 Points
**The Geophysical Environment**
This course explores the physical principles governing – and the connections between – the Earth’s atmosphere, oceans and interior. Topics include the structure of the solid earth, ocean currents and tides, and fundamental aspects of weather and climate.
Prerequisite: 15 points from PHYSICS 120, 121, 150, 160, and either 15 points from ENGSCI 111, MATHS 108 or MATHS 120 and 130
Restriction: PHYSICS 213

**Stage III**

GEOPHYS 310 15 Points
**Physics of the Earth**
Covers the physics of the solid earth from the surface to the core. Specifically, the course explores the Earth’s gravitational field (including the rotation and figure of the earth), seismology, heat flow, the magnetic and electromagnetic field to unravel the properties, processes, and structure of the Earth’s interior.
Prerequisite: 15 points from EARTHSCI 103, 120, GEOLOGY 103, and 15 points from GEOPHYS 213, PHYSICS 213, and 15 points from ENGSCI 211, MATHS 253, 260, PHYSICS 211
Restriction: GEOPHYS 330
GEOPHYS 311 15 Points
Atmosphere, Ocean, and Climate Physics
Examines the physical and dynamic processes shaping the atmosphere and oceans, covering the thermodynamics of the climate system and the dynamics of global atmospheric and oceanic circulations. Explores the fundamental physical processes that control Earth's climate and investigates the dilemmas they present in our current understanding of climate.
Prerequisite: 15 points from PHYSICS 201, 231, and 15 points from GEOPHYS 213, PHYSICS 213, and 15 points from ENGSCI 211.
Restriction: GEOPHYS 331

GEOPHYS 339 15 Points
Special Topics in Geophysics

GEOPHYS 361 15 Points
Fundamentals and Applications of Geophysical Exploration
The fundamentals of geophysical exploration methods and their application. The course will provide a comprehensive overview of seismic techniques, geophysical borehole methods, and an introduction to gravity, electric, magnetic, electromagnetic, and radar techniques. Applications of these will be considered including hydrocarbon, mineral and geothermal exploration. Geophysical data will be acquired and analysed through field and laboratory work.
Prerequisite: 15 points from EARTHSCI 103, 120, GEOLOGY 103, and GEOPHYS 213 or PHYSICS 213 and MATHS 208 or equivalent
Restriction: EARTHSCI 361, GEOLOGY 361

GEOPHYS 399 15 Points
Capstone: Geophysics
Students will employ core methodologies (experimental, observational, computational, numerical) to investigate some aspect of a key geophysical phenomenon, and relate their findings to contemporary research in the field, considering wider societal aspects and issues. Students will develop their skills in communication, critical thinking, teaching and creative problem solving.
Prerequisite: 30 points from GEOPHYS 310, 311, 361
Restriction: EARTHSCI 399, PHYSICS 399

Diploma Courses

GEOPHYS 690 30 Points
GEOPHYS 690A 15 Points
GEOPHYS 690B 15 Points
Graduate Diploma Research Project
To complete this course students must enrol in GEOPHYS 690 A and B, or GEOPHYS 690
GEOPHYS 691 30 Points
GEOPHYS 691A 15 Points
GEOPHYS 691B 15 Points
Postgraduate Diploma Research Project
To complete this course students must enrol in GEOPHYS 691 A and B, or GEOPHYS 691

Postgraduate 700 Level Courses

GEOPHYS 780 15 Points
Directed Study

GEOPHYS 789 30 Points
GEOPHYS 789A 15 Points
GEOPHYS 789B 15 Points
Honours Research Project - Level 9
To complete this course students must enrol in GEOPHYS 789 A and B, or GEOPHYS 789
GEOPHYS 796A 60 Points
GEOPHYS 796B 60 Points
MSc Thesis in Geophysics - Level 9
To complete this course students must enrol in GEOPHYS 796 A and B

Information Management

Stage I

INFOMGMT 192 15 Points
Information Tools for Business
The ability to manage and analyse information is essential in many aspects of business. This course provides a practical introduction to a variety of information tools used to analyse and visualise data relating to aspects of information management. Through these tools and methods students explore using data to inform decisions related to a variety of activities.

Stage III

INFOMGMT 399 15 Points
Capstone: Information Management
Students work in a small group to solve a substantial problem. Groups are expected to reason on a problem, devise a solution, produce an artefact and present their work. The capstone provides an opportunity to students to further develop their technical and communication skills.
Prerequisite: BUSAN 201 or INFOMGMT 292, and COMPSCI 230 or INFOSYS 220, and 15 points from COMPSCI 215, INNOVENT 203, OPSMGT 258, SCIGEN 201, and 30 points from BUSAN 300-305, COMPSCI 345, INFOMGMT 390, 392, 393, INFOSYS 300, 320-323, 330, 338, 339, 341, MKTG 308, OPSMGT 357

Marine Science

Stage I

MARINE 100 15 Points
MARINE 100G 15 Points
The Oceans Around Us
A multidisciplinary approach to understanding the importance of our oceans in terms of natural processes and human uses and values. It includes an understanding of the physical and biological processes in the ocean and how they are addressed through ocean management in New Zealand and internationally, allowing informed debate about the future of the ocean realm.

Stage II

MARINE 202 15 Points
Principles of Marine Science
An introduction to the physical and biological structure of the oceans, sea floor, coastlines and the biological communities that inhabit them. Subject matter includes an overview of the nature and scope of marine science globally and within the New Zealand and Auckland contexts. A wide
coverage of marine science issues are presented with an emphasis on multidisciplinary examples.
Prerequisite: 30 points at Stage I in BSc courses

MARINE 203 15 Points
Special Topic

Stage III

MARINE 302 15 Points
Dynamics of Marine Systems
Fundamental processes in the marine environment with an emphasis on interdisciplinary linkages in the functioning of marine ecosystems. Topics include: the role of fluid dynamics in the lives of marine animals and in shaping the physical marine environment, and interdisciplinary studies of marine ecosystems.
Prerequisite: MARINE 202

MARINE 303 15 Points
Freshwater and Estuarine Ecology
The structure, biodiversity and ecology of lakes, streams, wetlands and estuaries and linkages with near-shore marine habitats. Emphasis is placed on the role of science in monitoring and managing these ecosystems. Case studies include the impact of Auckland's urban sprawl on stream, estuarine and near-shore marine habitats, and local estuaries as nurseries for fish.
Prerequisite: 15 points from BIOSCI 206, ENVSCI 201, MARINE 202
Restriction: BIOSCI 330

MARINE 304 15 Points
Advanced Concepts in Marine Science
Independent study on current topics in marine science under the guidance of an individual academic with similar interests to the student, focusing on specialist research techniques in chosen subfields of marine science.
Restriction: MARINE 399

MARINE 305 15 Points
Practical Skills in Marine Science
Development of practical skills in a range of marine science disciplines. Includes a residential field trip at the Leigh Marine Laboratory.
Prerequisite: MARINE 202

MARINE 306 15 Points
Special Topic

MARINE 307 15 Points
Directed Study

MARINE 399 15 Points
Capstone: Marine Science
A capstone course for those enrolled in the Marine Science major, in which students demonstrate mastery of concepts and skills learnt during their degree through the production and presentation of an independent project developed in conjunction with a mentor from the academic staff.
Prerequisite: MARINE 202 and 30 points at Stage III in BSc courses
Restriction: MARINE 304

Postgraduate 700 Level Courses

MARINE 701 15 Points
Current Issues in Marine Science
An exploration of current topics in Marine Science. The topics and material will recognise the wide range of undergraduate experience across participants and emphasise the value of cross-disciplinary approaches to Marine Science.

MARINE 702 15 Points
Field Techniques in Marine Science
An advanced course in the development of practical skills in research design, implementation and analysis in Marine Science.

MARINE 703 15 Points
Marine Protected Areas - Level 9
Current research related to marine protected areas is reviewed, including planning principles and processes for designing marine protected areas, and its role in science, conservation of biological diversity, and fisheries. Practical components include visits to marine reserves, exposure to planning software, and analysis of marine protected related data. The knowledge and skills gained are applied with an independent research project.
Restriction: ENVSCI 726

MARINE 704 15 Points
Special Topic

MARINE 705 15 Points
Ocean Management and Planning
Approaches to management and conservation of global oceans are changing rapidly to address increasingly complex social, economic and environmental issues. Reviews current ocean governance, policy, planning and management approaches, modern ocean management and planning tools using examples from recent international ocean conservation projects.

MARINE 706 15 Points
Special Topic

MARINE 707 15 Points
Applied Estuarine Ecology
Emphasises multi-disciplinary science that integrates across different empirical and theoretical approaches to better understand the functioning of soft-sediment ecosystems. Covers fundamental ecological principles of soft-sediment systems through to the impacts associated with human activities. Includes practical exercises in experimental field ecology which will introduce students to key research methods. No formal prerequisite but knowledge of Stage III marine ecology or science will be assumed.
Restriction: ENVSCI 702

MARINE 780 60 Points
MARINE 780A 30 Points
MARINE 780B 30 Points
Dissertation - Level 9
To complete this course students must enrol in MARINE 780 A and B, or MARINE 780

MARINE 790 30 Points
MARINE 790A 15 Points
MARINE 790B 15 Points
Research Project - Level 9
To complete this course students must enrol in MARINE 790 A and B, or MARINE 790

MARINE 792 60 Points
MARINE 792A 30 Points
MARINE 792B 30 Points
Dissertation - Level 9
To complete this course students must enrol in MARINE 792 A and B, or MARINE 792
Mathematics

Stage I

MATHS 102 15 Points
Functioning in Mathematics
An introduction to calculus that builds mathematical skills and develops conceptual thinking. MATHS 102 works as a refresher course for those who haven't studied Mathematics for some time, a confidence builder for those lacking Mathematical confidence and a preparation course for further study in Mathematics.
Restriction: MATHS 102 may not be taken concurrently with any other Mathematics course, except MATHS 190 and may not be taken after ENGEN 110 or any Mathematics course at Stage I or above, except MATHS 190/190G

MATHS 108 15 Points
General Mathematics I
A general entry to Mathematics for commerce and the social sciences, following Year 13 Mathematics. Covers selected topics in algebra and calculus and their applications, including: linear functions, linear equations and matrices; functions, equations and inequalities; limits and continuity; differential calculus of one and two variables; integral calculus of one variable.
Prerequisite: MATHS 102 or 110 or at least 13 credits in Mathematics at NCEA Level 3 including the Differentiation Standard 91578, or D in CIE A2 Mathematics or C in CIE AS Mathematics or 3 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)
Restriction: ENGEN 150, ENGEN 110, MATHS 120, 130, 208, 250

MATHS 110 15 Points
Mathematics for Natural Sciences
A general entry to Mathematics for the natural sciences, following Year 13 Mathematics. Covers selected topics in algebra and calculus and their application to chemistry, biology and other natural sciences.
Prerequisite: MATHS 102 or 108 or at least 13 credits in Mathematics at NCEA Level 3, or D or better in Cambridge A2 Mathematics, C or better in AS Mathematics, pass in IB Mathematics: Analysis and Approaches (SL or HL)
Restriction: ENGEN 150, ENGEN 110, MATHS 208, 250. More than 15 points from MATHS 120 and 130

MATHS 120 15 Points
Algebra
A foundation for further mathematics courses, essential for students intending to major in Mathematics, Applied Mathematics, Statistics, Physics, or who want a strong mathematical component to their degree. Develops skills and knowledge in linear algebra, together with an introduction to mathematical language and reasoning, including complex numbers, induction and combinatorics. Recommended preparation: Merit or excellence in the Differentiation Standard 91578 at NCEA Level 3.
Prerequisite: MATHS 208, or B- or higher in MATHS 108, or A- or higher in MATHS 110, or A+ in MATHS 102, or at least 18 credits in Mathematics at NCEA Level 3 including at least 9 credits at merit or excellence, or B in CIE A2 Mathematics, or 5 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)

MATHS 190 15 Points
Calculus
An introduction to computational mathematics and programming in MATLAB. The course will introduce some basic concepts in computational mathematics and give applications that include cryptography, difference equations, stochastic modelling, graph theory and Markov chains.
Corequisite: ENGEN 150 or ENGEN 110 or MATHS 108 or 120
Restriction: MATHS 199

MATHS 199 15 Points
Great Ideas Shaping our World
Mathematics contains many powerful and beautiful ideas that have shaped the way we understand our world. This course explores some of the grand successes of mathematical thinking. No formal mathematics background is required, just curiosity about topics such as infinity, paradoxes, cryptography, knots and fractals.
Restriction: MATHS 190 may not be taken after any Mathematics course at Stage III

MATHS 194 15 Points
Advancing in Mathematics
An introduction to University level mathematics, for high-achieving students currently at high school. The numerical computing environment MATLAB is used to study beautiful mathematics from algebra, analysis, applied mathematics and combinatorics. Students will learn to write mathematical proofs and create mathematical models to find solutions to real-world problems.
Prerequisite: Departmental approval

MATHS 200 15 Points
Special Topic
MATHS 208 15 Points
General Mathematics 2
This sequel to MATHS 108 features applications from the theory of multi-variable calculus, linear algebra and differential equations to real-life problems in statistics, economics, finance, computer science, and operations research.
Prerequisite: MATHS 108, ENGEN 150, or MATHS 120 and MATHS 130, or a B- or higher in MATHS 110
Restriction: Cannot be taken, concurrently with, or after MATHS 250, 253

MATHS 250 15 Points
Algebra and Calculus 2
Designed for all students who plan to progress further in mathematics, this course follows directly from MATHS 120 and 130. Covering topics from multivariable calculus and linear algebra, which have many applications in science, engineering and commerce. Students will learn mathematical results and procedures as well as the underpinning ideas and mathematical proofs.
Prerequisite: MATHS 120 and 130, or ENGEN 150 or ENGEN 111

MATHS 253 15 Points
Algebra and Calculus 3
A sequel to MATHS 250, further developing and bringing together linear algebra and calculus. Students will learn about quadratic forms, projections, spectral decomposition, methods of multicriteria optimisation, double, triple and line integrals, Green's theorem and applications.
Prerequisite: MATHS 250

MATHS 254 15 Points
Fundamental Concepts of Mathematics
Explores fundamentals of mathematics important to many branches of the subject and its applications. Topics include equivalence relations, elementary number theory, counting techniques, elementary probability, geometry, symmetry and metric spaces. This is an essential course for all students advancing beyond Stage II in pure mathematics, and highly suitable for other students in the mathematical sciences.
Corequisite: MATHS 250

MATHS 260 15 Points
Differential Equations
The study of differential equations is central to mathematical modelling of systems that change. This course develops methods for understanding the behaviour of solutions to ordinary differential equations. Qualitative and elementary numerical methods for obtaining information about solutions are discussed, as well as some analytical techniques for finding exact solutions in certain cases. Some applications of differential equations to scientific modelling are discussed. A core course for Applied Mathematics.
Prerequisite: MATHS 208 or 250 or ENGEN 211 or a concurrent enrolment in MATHS 250

MATHS 270 15 Points
Numerical Computation
Many mathematical models occurring in Science and Engineering cannot be solved exactly using algebra and calculus. Students are introduced to computer-based methods that can be used to find approximate solutions to these problems. The methods covered in the course are powerful yet simple to use. This is a core course for students who wish to advance in Applied Mathematics.
Prerequisite: MATHS 120 and 130, or 15 points from ENGEN 150, ENGEN 111, MATHS 108, 110 and 15 points from COMPSCI 101, 105, 130, INFOSYS 110, 120, MATHS 162, 199

Stage III

MATHS 302 15 Points
Perspectives in Mathematics Education
For people interested in thinking about the social, cultural, political, economic, historical, technological and theoretical ideas that influence mathematics education, who want to understand the forces that shaped their own mathematics education, or who are interested in teaching. Students will develop their ability to communicate ideas in essay form. Recommended preparation: At least 45 points from courses in Mathematics or Statistics.

MATHS 307 15 Points
Special Topic

MATHS 308 15 Points
Special Topic

MATHS 315 15 Points
Mathematical Logic
Logic addresses the foundations of mathematical reasoning. It models the process of mathematical proof by providing a setting and the rules of deduction. This course builds a basic understanding of first order predicate logic, introduces model theory and demonstrates how models of a first order system relate to mathematical structures. Recommended for high level computer science or mathematical logic.
Prerequisite: B+ or higher in COMPSCI 225 or MATHS 254 or PHIL 222

MATHS 320 15 Points
Algebraic Structures
This is a framework for a unified treatment of many different mathematical structures. It concentrates on the fundamental notions of groups, rings and fields. The abstract descriptions are accompanied by numerous concrete examples. Applications abound: symmetries, geometry, coding theory, cryptography and many more. This course is recommended for those planning graduate study in pure mathematics.
Prerequisite: MATHS 250, 254

MATHS 326 15 Points
Combinatorics
Combinatorics is a branch of mathematics that studies collections of objects that satisfy specified criteria. An important part of combinatorics is graph theory, which is now connected to other disciplines including bioinformatics, electrical engineering, molecular chemistry and social science. The use of combinatorics in solving counting and construction problems is covered using topics that include algorithmic graph theory, codes and incidence structures, and combinatorial complexity.
Prerequisite: MATHS 254, or 250 and a B+ or higher in COMPSCI 225

MATHS 328 15 Points
Algebra and Applications
The goal of this course is to show the power of algebra and number theory in the real world. It concentrates on concrete objects like polynomial rings, finite fields, groups of points on elliptic curves, studies their elementary properties and shows their exceptional applicability to various problems.
in information technology including cryptography, secret sharing, and reliable transmission of information through an unreliable channel.

Prerequisite: MATHS 250 and 254, or a B+ or higher in COMPSCI 225 and 15 points from MATHS 250, 253

MATHS 332 15 Points
Real Analysis
A standard course for every student intending to advance in pure mathematics. It develops the foundational mathematics underlying calculus, it introduces a rigorous approach to continuous mathematics and fosters an understanding of the special thinking and arguments involved in this area. The main focus is analysis in one real variable with the topics including real fields, limits and continuity, Riemann integration and power series.

Prerequisite: MATHS 250, 254

MATHS 333 15 Points
Analysis in Higher Dimensions
By selecting the important properties of distance many different mathematical contexts are studied simultaneously in the framework of metric and normed spaces. This course examines carefully the ways in which the derivative generalises to higher dimensional situations. These concepts lead to precise studies of continuity, fixed points and the solution of differential equations. A recommended course for all students planning to advance in pure mathematics.

Prerequisite: MATHS 332 or a B or higher in MATHS 254

MATHS 334 15 Points
Algebraic Geometry
Algebraic geometry is a branch of mathematics studying zeros of polynomials. The fundamental objects in algebraic geometry are algebraic varieties i.e., solution sets of systems of polynomial equations.

Prerequisite: MATHS 332, and at least one of MATHS 320, 328 and Departmental approval
Restriction: MATHS 734

MATHS 340 15 Points
Real and Complex Calculus
Calculus plays a fundamental role in mathematics, answering deep theoretical problems and allowing us to solve very practical problems. This course extends the ideas of calculus to two and higher dimensions, showing how to calculate integrals and derivatives in higher dimensions and exploring special relationships between integrals of different dimensions. It also extends calculus to complex variables. Recommended preparation: MATHS 253

Prerequisite: MATHS 250

MATHS 341 15 Points
Complex Analysis
Explores functions of one complex variable, including Cauchy’s integral formula, the index formula, Laurent series and the residue theorem. Many applications are given including a three-line proof of the fundamental theorem of algebra. Complex analysis is used extensively in engineering, physics and mathematics. Strongly recommended: MATHS 333

Prerequisite: MATHS 332 and Departmental approval
Restriction: MATHS 740

MATHS 350 15 Points
Topology
Aspects of point-set, set-theoretic and algebraic topology including: properties and construction of topological spaces, continuous functions, axioms of separation, countability, connectivity and compactness, metrisation, covering spaces, the fundamental group and homology theory. Recommended preparation: MATHS 333.

Prerequisite: MATHS 332 and Departmental approval
Restriction: MATHS 750

MATHS 361 15 Points
Partial Differential Equations
Partial differential equations (PDEs) are used to model many important applications of phenomena in the real world such as electric fields, diffusion and wave propagation. Covers linear PDEs, analytical methods for their solution and weak solutions. Recommended preparation: MATHS 253

Prerequisite: MATHS 250, 260

MATHS 362 15 Points
Methods in Applied Mathematics
Covers a selection of techniques to analyse differential equations including the method of characteristics and asymptotic analysis. These methods are fundamental in the analysis of traffic flows, shocks and fluid flows. Introduces foundational concepts to quantify uncertainty in parameters of differential equations and is recommended for students intending to advance in Applied Mathematics. Recommended preparation: MATHS 253, 361

Prerequisite: MATHS 250, 260

MATHS 363 15 Points
Advanced Computational Mathematics
Finite element methods, calculus of variations and control theory are key mathematical tools used to model, compute approximations to model solutions and to understand the control of real-world phenomena. These topics share the same mathematical foundations and can all be described as variational methods. The course offers advanced techniques to handle complicated geometries and optimise desired objectives in applications modelled using differential equations. Recommended preparation: MATHS 253

Prerequisite: MATHS 260 and 270

### Postgraduate 700 Level Courses

**MATHS 701** 15 Points  
**Introduction to Research in Mathematics Education**  
What is Mathematics Education research, and how can it inform practice? This course introduces a range of skills and methods for conducting and critically consuming research in mathematics education. Students will explore issues and techniques in Mathematics Education research as they design their own research studies to inform their teaching and learning practice.  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 702** 15 Points  
**Mathematical Processes in the Curriculum**  
Historically, mathematics curricula have emphasised the what of mathematics (content), at the expense of considering the how. This course uses hands-on experiences and research literature to explore how to teach, learn and do mathematics through processes such as communication, modelling, problem solving, and proving.

**MATHS 703** 15 Points  
**What Can Be More Practical Than a Good Theory?**  
An analysis of theoretical perspectives that inform research in mathematics education, with a focus on learning theories, both social and psychological, and their implications for teaching and learning in mathematics.  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 705** 15 Points  
**Contemporary Issues in Mathematics Education**  
This course explores contemporary topics in mathematics education research and their impact on teaching and learning. Students will investigate and critically examine research and scholarly literature, and consider the implications of current knowledge for their own practice.  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 706** 15 Points  
**Technology and Mathematics Education**  
Practical and theoretical perspectives on ways that technology can enhance teaching and learning of mathematics. Students will consider and critically examine affordances, constraints and obstacles in the use of technology.  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 707** 15 Points  
**Special Topic**  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 708** 15 Points  
**Special Topic**  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 709** 15 Points  
**Special Topic**  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 710** 15 Points  
**Directed Study in Mathematics Education**  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 711** 30 Points  
**Directed Study in Mathematics Education**  
To complete this course students must enrol in MATHS 711 A and B, or MATHS 711

**MATHS 712** 15 Points  
**Teaching and Learning in Algebra**  
Recent theoretical perspectives on the teaching and learning of school and university mathematics are linked to the learning of either calculus or algebra. The focus is on the mathematics content, applications, and effective learning at school and university. Students taking this course should normally have studied mathematics or statistics at 200 level.  
Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 713** 15 Points  
**Logic and Set Theory**  
A study of the foundations of pure mathematics, formalising the notions of a ‘mathematical proof’ and ‘mathematical structure’ through predicate calculus and model theory. It includes a study of axiomatic set theory.  
Prerequisite: MATHS 315 or PHIL 305

**MATHS 714** 15 Points  
**Number Theory**  
A broad introduction to various aspects of elementary, algebraic and computational number theory and its applications, including primality testing and cryptography.  
Prerequisite: B+ in MATHS 328 or 320

**MATHS 715** 15 Points  
**Graph Theory and Combinatorics**  
A study of combinatorial graphs (networks), designs and codes, illustrating their application and importance in other branches of mathematics and computer science.  
Prerequisite: 15 points from MATHS 320, 326, 328 with a B or higher

**MATHS 720** 15 Points  
**Group Theory**  
A study of groups focusing on basic structural properties, presentations, automorphisms and actions on sets, illustrating their fundamental role in the study of symmetry (for example in crystal structures in chemistry and physics), topological spaces, and manifolds.  
Prerequisite: MATHS 320

**MATHS 721** 15 Points  
**Representations and Structure of Algebras and Groups**  
Representation theory studies properties of abstract groups and algebras by representing their elements as
linear transformations of vector spaces or matrices, thus reducing many problems about the structures to linear algebra, a well-understood theory.  
**Prerequisite:** MATHS 320

**MATHS 725 15 Points**  
**Lie Groups and Lie Algebras**  
Symmetries and invariants play a fundamental role in mathematics. Especially important in their study are the Lie groups and the related structures called Lie algebras. These structures have played a pivotal role in many areas, from the theory of differential equations to the classification of elementary particles. Strongly recommended for students advancing in theoretical physics and pure mathematics. Recommended preparation: MATHS 333.  
**Prerequisite:** MATHS 320 and 332

**MATHS 730 15 Points**  
**Measure Theory and Integration**  
Presents the modern elegant theory of integration as developed by Riemann and Lebesgue. This course includes powerful theorems for the interchange of integrals and limits, allowing very general functions to be integrated, and illustrates how the subject is both an essential tool for analysis and a critical foundation for the theory of probability. Strongly recommended: MATHS 333  
**Prerequisite:** MATHS 320 and 332

**MATHS 731 15 Points**  
**Functional Analysis**  
Provides the mathematical foundations behind some of the techniques used in applied mathematics and mathematical physics; it explores how many phenomena in physics can be described by the solution of a partial differential equation, for example the heat equation, the wave equation and Schrödinger's equation. Recommended preparation: MATHS 730 and 750.  
**Prerequisite:** MATHS 332 and 333

**MATHS 734 15 Points**  
**Algebraic Geometry**  
Algebraic geometry is a branch of mathematics studying zeros of polynomials. The fundamental objects in algebraic geometry are algebraic varieties i.e., solution sets of systems of polynomial equations.  
**Prerequisite:** MATHS 332 and at least one of MATHS 320, 328  
**Restriction:** MATHS 334

**MATHS 735 15 Points**  
**Analysis on Manifolds and Differential Geometry**  
Studies surfaces and their generalisations, smooth manifolds, and the interaction between geometry, analysis and topology; it is a central tool in many areas of mathematics, physics and engineering. Topics include Stokes' theorem on manifolds and the celebrated Gauss Bonnet theorem. Strongly recommended: MATHS 333 and 340.  
**Prerequisite:** MATHS 332

**MATHS 740 15 Points**  
**Complex Analysis**  
An introduction to functions of one complex variable, including Cauchy's integral formula, the index formula, Laurent series and the residue theorem. Many applications are given including a three line proof of the fundamental theorem of algebra. Complex analysis is used extensively in engineering, physics and mathematics. Strongly recommended: MATHS 333.  
**Prerequisite:** MATHS 332  
**Restriction:** MATHS 341

**MATHS 750 15 Points**  
**Topology**  
Aspects of point-set, set-theoretic and algebraic topology including: properties and construction of topological spaces, continuous functions, axioms of separation, countability, connectivity and compactness, metrization, covering spaces, the fundamental group and homology theory. Strongly recommended: MATHS 333.  
**Prerequisite:** MATHS 332  
**Restriction:** MATHS 350

**MATHS 761 15 Points**  
**Dynamical Systems**  
Mathematical models of systems that change are frequently written in the form of nonlinear differential equations, but it is usually not possible to write down explicit solutions to these equations. This course covers analytical and numerical techniques that are useful for determining the qualitative properties of solutions to nonlinear differential equations.  
**Prerequisite:** B- in both MATHS 340 and 361

**MATHS 762 15 Points**  
**Nonlinear Partial Differential Equations**  
A study of exact and numerical methods for non-linear partial differential equations. The focus will be on the kinds of phenomena which only occur for non-linear partial differential equations, such as blow up, shock waves, solitons and special travelling wave solutions.  
**Prerequisite:** B- in both MATHS 340 and 361

**MATHS 763 15 Points**  
**Advanced Partial Differential Equations**  
A study of exact and approximate methods of solution for the linear partial differential equations that frequently arise in applications.  
**Prerequisite:** B- in both MATHS 340 and 361

**MATHS 764 15 Points**  
**Mathematical Biology**  
A course introducing central concepts in mathematical biology, with emphasis on modelling of physiological systems and gene dynamics.  
**Prerequisite:** B- in both MATHS 340 and 361

**MATHS 765 15 Points**  
**Mathematical Modelling**  
Advanced topics in mathematical modelling, including selected topics in a range of application areas, principally taken from the physical and biological sciences.  
**Prerequisite:** At least B- or better in both MATHS 340 and 361

**MATHS 766 15 Points**  
**Inverse Problems**  
Covers the mathematical and statistical theory and modelling of unstable problems that are commonly encountered in mathematics and applied sciences.  
**Prerequisite:** At least B- in both MATHS 340 and 363, or PHYSICS 701

**MATHS 769 15 Points**  
**Stochastic Differential and Difference Equations**  
Differential and difference equations are often used as preliminary models for real world phenomena. The practically relevant models that can explain observations are, however, often the stochastic extensions of differential and difference equations. This course considers stochastic differential and difference equations and applications such as estimation and forecasting. Recommended preparation: MATHS 363.  
**Prerequisite:** B- in both MATHS 340 and 361
MATHS 770 15 Points
**Advanced Numerical Analysis**
Covers the use, implementation and analysis of efficient and reliable numerical algorithms for solving several classes of mathematical problems. The course assumes students have done an undergraduate course in numerical methods and can use Matlab or other high-level computational language.
Prerequisite: B- in MATHS 270, 340 and 361

MATHS 776 30 Points
MATHS 776A 15 Points
MATHS 776B 15 Points

Honours Research Project - Level 9
Restriction: MATHS 791
To complete this course students must enrol in MATHS 776 A and B, or MATHS 776

MATHS 777 15 Points
**Project in Mathematics 1 - Level 9**
A supervised investigation or research project including seminar presentation in pure or applied mathematics.

Physics

Stage I

PHYSICS 100 15 Points
PHYSICS 100G 15 Points

Models and Reality
Explore the role of models in physical science and what they contribute to our understanding of the world, and the concepts of reductionism and emergence. Topics include particle physics, materials science, and climate; and the use of models that explain dynamics of populations and artificial systems, including epidemiology, flocking in birds and fish, and the spread of information in social networks.

PHYSICS 102 15 Points

Basic Concepts of Physics
An introduction to the basic principles of physics. Key topics are the physical description of motion, electricity and magnetism. The course focuses on the science of everyday phenomena and the understanding of important physical concepts. This course will equip students with little prior knowledge of physics to succeed in PHYSICS 120 or 160.
Restriction: PHYSICS 103

PHYSICS 120 15 Points

Advancing Physics 1
For students progressing in physical science. Key topics are mechanics, energy, rotation, oscillations, waves and thermodynamics. This is a calculus based course, focusing on fundamental principles, problem solving and hands-on exercises.
Prerequisite: PHYSICS 102, or at least 4 credits in the Mechanics (91524) or Waves (91523) standards in NCEA Level 3 Physics and at least 6 credits in the Differentiation (91578) or Integration (91579) standards in NCEA Level 3 Calculus, or equivalent with departmental approval
Restriction: PHYSICS 160

PHYSICS 121 15 Points

Advancing Physics 2
For students progressing in physical science. Key topics are electrostatics, electromagnetism, circuits, optics, relativity and quantum mechanics. This is a calculus based course, focusing on fundamental principles, problem solving and hands-on exercises.
Prerequisite: PHYSICS 120, or 24 credits in the Mechanics (91524), Electricity (91526), Differentiation (91578),
Integration (91579) standards in NCEA Level 3 at merit or excellence, or equivalent with departmental approval.

Restriction: PHYSICS 150

PHYSICS 140 15 Points
Digital Fundamentals
An introduction to the physical basis of modern computing for Computer Science students and anyone with an interest in modern Information Technology. Key topics are Boolean Algebra, logic circuits, and digital information processing. Hands-on laboratory work is a key component of the course. No prior electronics or programming knowledge is assumed.

Restriction: PHYSICS 219, 243

PHYSICS 160 15 Points
Physics for the Life Sciences
Designed for students intending to advance in the biomedical and life sciences, this course is focused on physical principles relevant to biological systems. Key topics are motion, waves, thermal physics, electricity and instrumentation. The course is primarily algebra-based and includes lectures, laboratories and tutorials. Recommended preparation is NCEA Level 2 Physics and Mathematics, or equivalent.

Restriction: PHYSICS 120

Stage II

PHYSICS 201 15 Points
Classical and Thermal Physics
Classical mechanics and thermal physics. Key topics are linear and rotational motion in three dimensions, fluids, oscillations and mechanical waves, and the laws of thermodynamics. The course will cover both fundamental principles and applied topics, such as planetary dynamics and spacecraft navigation, ultrasound, atmospheric physics and materials science.

Prerequisite: 15 points from PHYSICS 120, 121, 150, 160 and 15 points from ENGSCI 211, MATHS 130, 208, PHYSICS 211
Restriction: PHYSICS 230, 231

PHYSICS 202 15 Points
Electromagnetism
Key topics are electric and magnetic fields, the generation of magnetic fields by currents, the derivation of Maxwell’s equations, the interpretation of light as an electromagnetic wave and polarisation. Both fundamental principles and applied topics, including fibre optics, LEDs, physical optics and interferometers are covered.

Prerequisite: 15 points from PHYSICS 121, 150 and 15 points from ENGSCI 211, MATHS 130, 208, PHYSICS 211
Restriction: PHYSICS 260, 261

PHYSICS 203 15 Points
Relativity and Quantum Physics
Special relativity, quantum mechanics and nuclear physics. Key topics are the Lorentz transformation, mass-energy equivalence, the Schrödinger equation in one dimension, the hydrogen atom, atomic and molecular bonds, isotopes and radioactivity. Both fundamental principles and applied topics, including isotope production, nuclear medicine, and dosimetry are covered.

Prerequisite: 15 points from PHYSICS 121, 150 and 15 points from ENGSCI 211, MATHS 130, 208, PHYSICS 211
Restriction: PHYSICS 250, 251

PHYSICS 244 15 Points
Electronics and Imaging
Provides students with skills in electronics and imaging technologies that will support future work in technology-focused careers, experimental science, medical physics, and photonics. Key topics include networks, resonance, amplifiers, semiconductors, Fourier analysis, imaging systems, MRI systems and biomedical imaging.

Prerequisite: 15 points from PHYSICS 120, 121, 140, 160 and 15 points from COMPSCI 120, ENGGEN 150, ENGSCI 111, MATHS 108, 110, 120, 130, 150
Restriction: PHYSICS 240

Stage III

PHYSICS 309 15 Points
Special Study
Directed study on a topic or topics approved by the Academic Head or nominee.

PHYSICS 331 15 Points
Classical Mechanics and Electrodynamics
Advanced topics in classical mechanics and electromagnetism, including variational and least action principles in mechanics, the physical basis of magnetism, and the four-vector treatment of special relativity and electromagnetism.

Prerequisite: 15 points from PHYSICS 201, 231, 15 points from PHYSICS 202, 261 and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211
Restriction: PHYSICS 315, 325

PHYSICS 332 15 Points
Fluid Mechanics
Surveys fluid mechanics using the Navier-Stokes equations, covering Newtonian and simple non-Newtonian fluids, and examples from soft condensed matter. Different flow regimes will be studied, from small-scale laminar flows to large-scale turbulent and potential flows, and flows in rotating frames of reference. Applications range from microfluidics to geophysical fluids. Numerical approaches and computational tools will be introduced.

Prerequisite: 15 points from PHYSICS 201, 231 and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211

PHYSICS 333 15 Points
Lasers and Electromagnetic Waves
Surveys the basic principles of lasers and explains how the behaviour and propagation of light can be understood in terms of electromagnetic waves described by Maxwell’s equations. The theory and applications of several key optical components will be described, including lasers and resonators.

Prerequisite: 15 points from PHYSICS 202, 261 and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211
Restriction: PHYSICS 326

PHYSICS 334 15 Points
Statistical Physics and Condensed Matter
Covers statistical physics and condensed matter physics, and describes how macroscopic properties of physical systems arise from microscopic dynamics. Topics in statistical physics include temperature, the partition function and connections with classical thermodynamics. Topics in condensed matter physics include crystal structures, phonons, electronic band theory, and semiconductors.

Prerequisite: 15 points from PHYSICS 201, 231, 15 points from PHYSICS 203, 251 and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211
Restriction: PHYSICS 315, 354

PHYSICS 335 15 Points
Quantum Mechanics
Develops non-relativistic quantum mechanics with
applications to the physics of atoms and molecules and to quantum information theory. Topics include the Stern-Gerlach effect, spin-orbit coupling, Bell's inequalities, interactions of atoms with light, and the interactions of identical particles.

Prerequisite: 15 points from PHYSICS 203, 251 and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211
Restriction: PHYSICS 350

PHYSICS 340 15 Points
Electronics and Signal Processing

Electronics and digital signal processing with a strong emphasis on practical circuit design and data acquisition techniques. Topics will be selected from: linear circuit theory, analytical and numeric network analysis, feedback and oscillation, operational amplifier circuits, Fourier theory, sampling theory, digital filter design, and the fast Fourier transform.

Prerequisite: PHYSICS 240 or 244
Restriction: PHYSICS 341
Concurrent enrolment in PHYSICS 390 is recommended

PHYSICS 356 15 Points
Particle Physics and Astrophysics

Particle physics topics covered will include relativistic dynamics and application to fundamental particle interactions, the properties of strong, weak and electromagnetic interactions and the particle zoo. Astrophysics topics will include some of the following: the Big Bang, "concordance cosmology", redshifts, theories of dark matter, extra-solar planets, stellar evolution, supernovae, gravitational wave sources, nuclear astrophysics and the origin of the elements.

Prerequisite: 15 points from PHYSICS 201, 231, 15 points from PHYSICS 203, 251 and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211
Restriction: PHYSICS 355
Concurrent enrolment in PHYSICS 390 is recommended

PHYSICS 371 15 Points
Special Topic

PHYSICS 390 15 Points
Experimental Physics

Covers advanced experimental techniques, giving students choices between a wide range of classic physics experiments and open-ended investigations of physical phenomena.

Prerequisite: 15 points from PHYSICS 201, 202, 203, 231, 240, 244, 251, 261

PHYSICS 399 15 Points
Capstone: Physics

Students will undertake experimental, observational, computational and numerical investigations of key physical phenomena, working individually and in groups, producing both written and oral reports.

Prerequisite: 30 points from PHYSICS 201-261 and 30 points from PHYSICS 309-356

Diploma Courses

PHYSICS 624 15 Points
Mechanics and Electrodynamics

Advanced topics in classical mechanics and electromagnetism, including variational and least action principles in mechanics, the physical basis of magnetism, and the four-vector treatment of special relativity and electromagnetism. Advanced Laboratory work is included in relevant topics.

Prerequisite: Departmental approval
Restriction: PHYSICS 331

PHYSICS 625 15 Points
Lasers and Electromagnetic Waves

Surveys the basic principles of lasers and explains how the behaviour and propagation of light can be understood in terms of electromagnetic waves described by Maxwell's equations. The theory and applications of several key optical components will be described, including lasers and resonators. Advanced Laboratory work is included in relevant topics.

Prerequisite: Departmental approval
Restriction: PHYSICS 333

PHYSICS 626 15 Points
Quantum Physics

Develops non-relativistic quantum mechanics with applications to the physics of atoms and molecules and to quantum information theory. Topics include the Stern-Gerlach effect, spin-orbit coupling, Bell's inequalities, interactions of atoms with light, and the interactions of identical particles. Advanced Laboratory work is included in relevant topics.

Prerequisite: Departmental approval
Restriction: PHYSICS 335

PHYSICS 681 15 Points
Directed Study

Directed study on a research topic approved by the Academic Head or nominee.

PHYSICS 690A 15 Points
Graduate Diploma Research Project

To complete this course students must enrol in PHYSICS 690 A and B

PHYSICS 691 30 Points

PHYSICS 691A 15 Points

PHYSICS 691B 15 Points

Postgraduate Diploma Research Project - Level 9

To complete this course students must enrol in PHYSICS 691 A and B, or PHYSICS 691

Postgraduate 700 Level Courses

PHYSICS 703 15 Points
Advanced Quantum Mechanics

An advanced development of nonrelativistic quantum mechanics in the Dirac formulation is presented. Emphasis is placed on the simplicity and generality of the formal structure, lifting the reliance of introductory courses on wave mechanics.

PHYSICS 715 15 Points
Directed Study

Enrolment requires approval of the Head of Department and the choice of subject will depend on staff availability or on the needs of particular students.

Prerequisite: Departmental approval

PHYSICS 741 15 Points
Advanced Classical Mechanics and Electrodynamics

Develops and deepens students' knowledge and understanding of advanced topics in classical mechanics and electromagnetism, including variational and least action principles in mechanics, the physical basis of
magnetism; and the four-vector treatment of special relativity and electromagnetism.

Restriction: PHYSICS 331, 703

PHYSICS 742 15 Points

Advanced Statistical Mechanics and Condensed Matter

Advanced concepts in statistical mechanics and condensed matter. Topics to be covered include the theory of magnetism, mean field theory, the Ising model, superconductivity, phase transitions, complex systems, and networks.

Restriction: PHYSICS 708

PHYSICS 743 15 Points

Waves and Potentials

Presents the universal mathematical physics of waves and potential fields and discusses related applications. Topics include derivations and solutions for electromagnetic and elastic wave equations, propagation of waves in media, reflection and transmission of waves at interfaces, guided waves in geophysics and optics, and fundamentals of potential theory.

PHYSICS 746 15 Points

Relativistic Quantum Mechanics and Field Theory

Examines quantum field theory. Covers the relativistic generalisations of the Schrödinger equation and many-particle quantum mechanics, quantum electrodynamics is explored using Feynman diagram techniques. Extensions of scalar field theory to include path integrals, statistical field theory, broken symmetry, renormalisation and the renormalisation group.

Restriction: PHYSICS 706, 755

PHYSICS 748 15 Points

General Relativity

Discusses Einstein's General Theory of Relativity with application to astrophysical problems, drawn from black hole physics, gravitational waves, cosmology, astrophysical lensing and solar system and terrestrial tests of the theory. The course includes the mathematical background needed to describe curved spacetimes in arbitrary coordinate systems and the covariant description of fundamental physical relationships.

PHYSICS 751 15 Points

Special Topic

PHYSICS 752 15 Points

Photonics

Advanced topics in photonics including optical detection, semiconductor and modelocked lasers, the propagation of light in optical fibres, and the physics and applications of nonlinear optics.

Restriction: PHYSICS 726, 727

PHYSICS 753 15 Points

The Dynamic Universe

Covers topics in modern astronomy and astrophysics relating to the evolution and dynamics of key astrophysical systems. Topics will be drawn from: stellar structure and stellar evolution; the formation of planets and the evolution of planetary systems; stellar and galactic dynamics; the large scale dynamical behaviour of the expanding universe.

PHYSICS 754 15 Points

Condensed Matter Physics

Covers topics and methods that are important for current condensed matter research. Topics include ferroelectricity, soft condensed matter, experimental materials physics, electronic structure theory, techniques for condensed matter simulation, and renormalisation group theory.

PHYSICS 757 15 Points

Quantum Optics and Quantum Information

The nonrelativistic quantum treatment of electromagnetic radiation (light) and its interaction with matter (atoms, quantum dots, superconducting qubits) is presented. Emphasis is placed on what is strictly quantum mechanical about light compared with a description in terms of Maxwell waves, and on the concepts and methods underlying modern advances in quantum measurement theory and quantum technologies, e.g., quantum communication/cryptography and quantum simulation/computation.

Restriction: PHYSICS 760

PHYSICS 780 15 Points

Advanced Imaging Technologies

Covers the physical basis and use of new imaging technologies and data processing in medicine, biomedicine and biotechnology. Makes use of practical examples from techniques such as computer assisted tomography, nonlinear microscopy, optical coherence tomography, fluorescence or microarray analysis. No formal prerequisite, but an understanding of material to at least a B grade standard in PHYSICS 244, 340, and 15 points from PHYSICS 211, MATHS 253, 260, ENGSCI 211 is recommended.

PHYSICS 786 45 Points

PHYSICS 786A 15 Points

PHYSICS 786B 30 Points

BAdvSci(Hons) Dissertation in Physics - Level 9

To complete this course students must enrol in PHYSICS 786 A and B, or PHYSICS 786

PHYSICS 787 45 Points

PHYSICS 787A 15 Points

PHYSICS 787B 30 Points

Dissertation - Level 9

To complete this course students must enrol in PHYSICS 787 A and B, or PHYSICS 787

PHYSICS 788 15 Points

Project in Physics

PHYSICS 789 30 Points

PHYSICS 789A 15 Points

PHYSICS 789B 15 Points

Honours Research Project - Level 9

To complete this course students must enrol in PHYSICS 789 A and B, or PHYSICS 789

PHYSICS 791 15 Points

Special Topic

PHYSICS 792 15 Points

Special Topic

PHYSICS 796A 60 Points

PHYSICS 796B 60 Points

MSc Thesis in Physics - Level 9

To complete this course students must enrol in PHYSICS 796 A and B

Psychology

Stage I

PSYCH 108 15 Points

Individual, Social and Applied Psychology

Topics covered may include: developmental and social
social cognition, attitudes, group processes, interpersonal
Focuses on humans as social beings. Covers topics such as
learning and memory, concepts and categories, language,
and memory, and the design of psychological experiments.
A laboratory component, in which students are required to
participate as subjects, forms part of the course.

**Stage II**

**PSYCH 200**

**Foundations of Developmental Psychology**

How do children's minds develop, how do they work, and
how do they influence children's behaviour? Students
will learn the theoretical perspectives and methods that
scientists use to investigate the developing mind in infancy
through late childhood. Topics of particular focus include
learning and memory, concepts and categories, language,
the self and identity, social cognition, attachment, and
emotion.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 201**

**Perception and Cognition**

An introduction to a variety of topics in human experimental
psychology. Topics covered may include: perceptual
processes, attention, memory, mental imagery, language
development, theory of mind, problem solving and decision
making. Participation in the laboratory component of this
course is compulsory.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 202**

**Biopsychology**

Provides a basic introduction to the structure and function
of the brain, neuropsychology, and genetic and hormonal
influences on behaviour. This course includes a compulsory
laboratory component.

*Prerequisite: 30 points at Stage I in Psychology or 15 points from BIOSCI 101, 103*

**PSYCH 203**

**Learning and Behaviour**

A consideration of the environmental factors that control
and modify animal (including human) behaviour. Generally,
an experimental laboratory approach is taken, and
quantitative theories are stressed. Topics include: classical
and operant conditioning, theories of reinforcement, the
stimulus control of operant behaviour, behavioural analyses
of problem solving, concept learning and language, choice,
self control, remembering and experimental design. This
course includes a compulsory laboratory component.

*Prerequisite: 30 points at Stage I in Psychology or 15 points from BIOSCI 101, 103*

**PSYCH 204**

**Social Psychology**

Focuses on humans as social beings. Covers topics such as
social cognition, attitudes, group processes, interpersonal
relationships, and language communication. The course
may include participation in and completion of a research
project.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 207**

**Theories of Personality and Development**

The major personality theories are presented including:
Behavioural, Cognitive-Social-Cognitive, Psychodynamic,
Humanistic/Phenomenological, Trait/Dispositional and
Biological/Evolutionary. The hypotheses generated by
these theories, about development from early childhood
onwards and about 'normal' and 'abnormal' behaviour, will
be discussed and evaluated in terms of empirical evidence
and utility. Attention will be paid to cultural issues of
relevance in a New Zealand context.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 208**

**Producing Psychological Knowledge**

How do you go about answering a research question? What
is a research question anyway? Which research
methodology and method will best provide the types of
answers you are looking for? Examines what we do and
can know in psychology, and why and how we know it,
including philosophy of science, methodology, ethics,
research outcomes, and particular methods.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 209**

**Special Topic**

**PSYCH 211**

**Psychology for Society**

Examines what we do and can know in psychology, and
why and how we know it, including philosophy of science,
methodology, ethics, research outcomes, and particular
methods. Embeds a focus on the cultural context of
Aotearoa New Zealand within which psychological
knowledge is applied. Introduces broad content in
preparation for more advanced study.

**PSYCH 212**

**Special Topic**

*Prerequisite: 30 points at Stage I in Psychology*

**Stage III**

**PSYCH 300**

**Applied Psychology**

Discusses psychological issues relating to illnesses and
well-being of people in the workplace. Consideration will
be given both to the theoretical models which have been
developed and to the types of methodology used in their
investigation. Emphasis is given to the interplay between
science and practice.

*Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125*

**PSYCH 302**

**Special Topic**

*Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125*

**PSYCH 303**

**Cognitive Science**

Provides an introduction to cognitive science and cognitive
neuroscience. Topics covered include: visual and auditory
perception, attention, memory, thinking and problem-
solving. Participation in the laboratory component of this course is compulsory.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 304
15 Points
Special Topic
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 305
15 Points
Human Neuroscience
Covers material relating to the neural basis of cognitive processes, including perception, attention, memory and language. Students will be introduced to different methods of inferring mind-brain relations in normal and neurologically-impaired individuals, and different ways of conceptualising mind-brain relations, such as connectionism and modularism.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or MEDSCI 206 or PHYSIOL 220

PSYCH 306
15 Points
Research Methods in Psychology
Deals with principles and practices relevant to psychological research, including philosophy of science, research ethics, research design, measurement of dependent variables, describing and analysing data, and interpreting results. Participation in the laboratory component of this course is compulsory.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 308
15 Points
PSYCH 308A
7.5 Points
PSYCH 308B
7.5 Points
Directed Study
A course of research supervised by a staff member and written up as a course for publication instead of a final examination.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125
Corequisite: Student must be enrolled in (or have completed) an additional 45 points at Stage III in Psychology courses and Programme Director approval
To complete this course students must enrol in PSYCH 308 A and B, or PSYCH 308

PSYCH 309
15 Points
Learning
A discussion of how behaviour is controlled and modified by discriminative stimuli and by consequential reinforcers and punishers. The emphasis is on laboratory research with animals, but with some human data also considered. Topics include: choice behaviour, punishment, avoidance, psychophysics, memory, and cognition. This course includes a compulsory laboratory component.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or 45 points at Stage II in Biological Sciences
Restriction: PSYCH 362

PSYCH 310
15 Points
Introduction to Clinical Psychology
Describes and evaluates psychological approaches to the assessment and treatment of those mental health problems, in adults and children, most commonly encountered by clinical psychologists. Consideration is given to work in mental health, corrections, child protection and neuropsychology rehabilitation. Issues relevant to Māori mental health, gender, cross-cultural work and prevention are included.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 311
15 Points
Advanced Topics in Social Psychology
Focuses on a number of key topics in social psychology. Modules examine interpersonal influence and close relationships, collective behaviour, prejudice and social issues, and social identity and well-being.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 313
15 Points
Psychology of Communication
Studies the links between psychological processes and communication difficulties. Hearing, speech, language and voice will be covered. A range of communication difficulties and communication differences will be introduced and the psychosocial aspects will be discussed, including impact on self-esteem, health-related quality of life, peer/interpersonal relationships and educational and behavioural consequences in children and adults.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 315
15 Points
Special Topic

PSYCH 317
15 Points
Evolution, Behaviour and Cognition
How does behaviour in non-human animals evolve? Do other animals have language? Do they have culture? Can human behaviour be explained in evolutionary terms? This course addresses these questions and the methods that can be used to answer them.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or 45 points at Stage II in Biological Sciences

PSYCH 319
15 Points
Psychology and Gender
The study of gender is crucial to understanding many everyday aspects of our lives, as well as many contemporary social issues. This course provides an introduction to selected key issues in the critical psychology of gender, from a social constructionist perspective. Topics that will be covered include gendered bodies, masculinity and femininity, sexuality, rape, and mental health.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or 30 points at Stage II in Gender Studies

PSYCH 320
15 Points
Culture and Psychology
It is through culture that we make sense of ourselves and our world. Of key interest is how culture, ethnicity and context all play a major role in understanding human experience including behaviour, thoughts, and emotions. Emphasis is placed on critical thinking and analytic skills, and helping students think about their own values and norms from a cultural perspective.
Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

PSYCH 323
30 Points
Changes across the Lifespan
Development is a lifelong process. Classic and modern theories of development provide a foundation for understanding changes and continuities across the lifespan. Students will learn how we develop key social,
emotional, and cognitive abilities across infancy, childhood, adolescence, and adulthood. Developmental psychology will then be applied to understand developmental challenges, atypical development, and the role of social context.

Prerequisite: PSYCH 211

**PSYCH 324** 30 Points  
**The Behaving Brain**

Human brains are enormously complex, and they serve a wide range of human needs, from perception to language to social interactions. Brains are also subject to growth, learning, insult, and ageing. Introduces research and theory on neural and cognitive science, as well as opportunities to apply this knowledge.

Prerequisite: PSYCH 211

**PSYCH 325** 30 Points  
**Social Processes**

Social processes heavily influence how we think, feel, and behave. Students will learn about how social cognition, social influence, attitudes, politics, and identity shape our lived experiences. Explores various topics, which may include prejudice and intergroup relationships, romantic relationships, workplace and organisational dynamics, gendered practices, indigenous psychologies, and the evolution of religion.

Prerequisite: PSYCH 211

**PSYCH 326** 15 Points  
**Life Span Development**

The development of people across the life span is studied. Describes key milestones in development and examines the causes and processes that produce stability and change in people's development over time. Topics discussed will include aspects of cognitive, social and physical development with consideration given to biological, societal and family influences. Attention will also be given to development within the New Zealand context.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125  
Restriction: PSYCH 316

**PSYCH 327** 15 Points  
**Special Topic**

**PSYCH 328** 15 Points  
**Special Topic**

**PSYCH 370** 15 Points  
**PSYCH 370A** 7.5 Points  
**PSYCH 370B** 7.5 Points  
**Research Project**

The main focus of the research project is to undertake practical research-related activities under the direction of a supervisor. The work undertaken will be communicated by the student in the form of a research report. The research activities across the year will give students a broader experience of research and academic activities in the School of Psychology.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125  
Corequisite: 45 points at Stage III or above in Psychology and Head of School approval  
Restriction: PSYCH 308  
To complete this course students must enrol in PSYCH 370 A and B, or PSYCH 370

**PSYCH 399** 15 Points  
**Capstone: Communicating Psychology**

Focuses on communicating psychological ideas and research using different media (e.g., podcast, short film, print media, symposia, grant proposals). Students will be required to work in groups, but to also engage in individual activities to demonstrate their own understanding of the topics explored by them and others in this course.

Prerequisite: 30 points at Stage III in Psychology and 15 points from STATS 100-125

**Diploma Courses**

**PSYCH 651A** 30 Points  
**PSYCH 651B** 30 Points  
**Practicum**

This includes a practical component of up to 1,500 hours of supervised work in an approved applied psychology setting, with an emphasis on the application of research principles and designs. Evaluation is by internal assessment and assessment by field supervisors.

Prerequisite: PSYCH 650  
To complete this course students must enrol in PSYCH 651 A and B

**PSYCH 690A** 15 Points  
**PSYCH 690B** 15 Points  
**Graduate Diploma Research Project**

To complete this course students must enrol in PSYCH 690 A and B

**PSYCH 691A** 15 Points  
**PSYCH 691B** 15 Points  
**Postgraduate Diploma Research Project**

To complete this course students must enrol in PSYCH 691 A and B

**Postgraduate 700 Level Courses**

**PSYCH 700** 15 Points  
**Political Psychology**

Provides an overview of the intersecting fields of psychology and political science. Seminar-based topics include personality and politics, political socialisation, voting behaviour, media effects, rational choice vs. symbolic politics, the competency of the electorate, the psychology of legitimacy, and other timely issues. Attention will be paid to the international literature, though New Zealand-based research will also be discussed.

**PSYCH 707** 15 Points  
**Psychology of Offending**

Covers psychological theories of crime and violence, empirical research relevant to the assessment and treatment of youth and adult offending, with particular emphasis on violent and sexual offending, and the range of roles for psychologists in forensic and correctional settings such as prisons, community and forensic psychiatric hospitals.

**PSYCH 708A** 15 Points  
**PSYCH 708B** 15 Points  
**Clinical Neuropsychology**

Consists of: an introduction to neuroanatomy and neuropathology, seminars on the major areas of neuropsychological dysfunction, introduction to community-used test materials and theoretical issues of neuropsychological assessment, neuropsychological dysfunction, individual assessment and individual case studies.

To complete this course students must enrol in PSYCH 708 A and B
PSYCH 714 15 Points
**Cognitive Neuroscience**
An advanced seminar on cognitive neuroscience. Topics may include: neuroanatomy, neuroimaging methodologies, neurological and developmental disorders, and the organisation of higher cognitive functions such as attention, language, memory and executive functions. Emphasis will be placed on current developments relevant to the understanding of human psychological processes.

PSYCH 715 15 Points
**Psychology and Sustainability**
Human behaviour and thinking is central to both the sustainability problem and viable solutions. This course considers the psychological barriers to thinking and acting sustainably and how theories and research on emotions, modelling, identity, belonging, moral development and the evolution of cooperation can be applied to overcome these barriers. There will be particular emphasis on how to develop 'sustainability consciousness' in individuals and organisations.

PSYCH 716 15 Points
**Social Psychology and Interpersonal Processes**
Key empirical and theoretical areas in contemporary social psychology form the basis of this seminar-based course. Topics will include social cognition, interpersonal influence, communication, and close personal relationships. Students will also conduct small research projects investigating central topics covered in the course.

PSYCH 717 15 Points
**Community Psychology**
The application of psychological knowledge and research skills to issues faced by communities. Students will design an intervention relevant to a social issue. Theoretical approaches to working in community settings and the practical challenges involved will be discussed.

PSYCH 718 15 Points
**Psychotherapeutic Assessment and Formulation**
Major theories used in clinical practice to understand psychological problems will be discussed, including behavioural, cognitive-behavioural, systems and psychodynamic models. Emphasis is on assessment and formulation of clients' problems rather than therapeutic intervention. Approaches covered are those that are most commonly employed by psychologists practicing in New Zealand.

Prerequisite: PSYCH 723
Restriction: PSYCH 709

PSYCH 720A 15 Points
PSYCH 720B 15 Points
**Directed Study**
To complete this course students must enrol in PSYCH 720 A and B.

PSYCH 721 15 Points
**Consciousness and Cognition**
Discusses recent research on consciousness from the perspective of cognitive neuroscience. Topics covered may include: implicit learning, implicit memory, blindsight, the split-brain syndrome, amnesia and hemineglect.

PSYCH 722 15 Points
**Human Learning and Development**
Focuses on the processes and factors that influence human learning in infancy through childhood. Topics discussed may include: early social cognition, language development and the factors that influence school and life success. Consideration will be given to diverse contexts and populations.

PSYCH 723 15 Points
**Mental Health Problems: Aetiology and Assessment**
Provides an overview of common mental health problems in childhood and adulthood and the methods that clinical psychologists use to assess these. Examines theories of causation and risk factors for a number of mental health problems. Also introduces and critiques diagnostic tools and psychometric instruments used in assessment.

Corequisite: PSYCH 718

PSYCH 725 15 Points
**Evolution and Human Behaviour**
Investigates the psychology of humans from an evolutionary perspective. Specific topics may include the evolution of language, religion, mental time travel, social learning, and cognitive nudes, biases and heuristics.

PSYCH 726 15 Points
**Emotion and Identity**
Explores current psychological theory and research on emotion, adding perspectives from sociology, history and cultural studies as well as neuroscience. Topics include the embodied nature of affect; emotion, relationships and social life; emotion and sense of self, subjectivity, narrative and personal history; emotional contagion in crowds and groups; and the power of social norms around public emotional expression.

PSYCH 727 15 Points
**Functional MRI**
A comprehensive overview of functional magnetic resonance imaging (fMRI) with a focus on its use in the cognitive neuroscience of memory and aging. Designed for beginners, topics include experimental design, image acquisition and pre-processing, analysis methods, localisation/anatomy and interpretation. Classes will include a lecture and/or a seminar followed by a hands-on laboratory working with fMRI data to consolidate learning.

PSYCH 728 30 Points
PSYCH 728A 15 Points
PSYCH 728B 15 Points
**Portfolio in ABA**
A series of written clinical assessment and intervention projects in applied behaviour analysis demonstrating appropriate use of the scientist-practitioner model. Projects will be conducted within each of the placements completed during the internship course PSYCH 651. The portfolio should provide evidence of appropriate mastery of basic behaviour-analytic skills, client-centred responsibilities, and foundational knowledge of applied behaviour analysis.

Prerequisite: PSYCH 750, 751, 754
Corequisite: PSYCH 651, 757
To complete this course students must enrol in PSYCH 728 A and B, or PSYCH 728

PSYCH 730 15 Points
**Professional Psychology Practice in New Zealand**
Aims to equip students with knowledge and skills required for registration as a psychologist with the New Zealand Psychologists Board. Topics include the structure and functions of the Psychologists Board/Health and Disability Commissioner, cultural competency (obligations under the Treaty of Waitangi and cultural safe practice), professional ethics (Code of Ethics for Psychologists Working in Aotearoa/New Zealand) and related legislation.

<tbody>
<tr>
<td>PSYCH 731</td>
<td>Social Psychology and Intergroup Processes</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Focuses on the application of social psychological knowledge and theory to the understanding of broad social and cultural processes and phenomena, such as violence, prejudice, group behaviour and conflict, intergroup dynamics, collective behaviour, social beliefs, cultural differentiation and contact.</td>
<td></td>
</tr>
<tr>
<td>PSYCH 733</td>
<td>Critical Health Psychology</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Utilising the frameworks of critical psychology, including gendered, Indigenous and intersectional frameworks, this course examines ways of theorising, understanding and promoting health for individuals, communities and societies.</td>
<td></td>
</tr>
<tr>
<td>PSYCH 736</td>
<td>Human Brain Mapping</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Introduces human brain mapping based on structural magnetic resonance imaging (MRI). Topics include MRI data acquisition, processing and analysis, as well as interpretation of analysis outcomes and fundamentals of neuroanatomy.</td>
<td></td>
</tr>
<tr>
<td>PSYCH 737</td>
<td>Work and Well-Being</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Reviews concepts, methods, applications and current research relevant to the impact of work on employee wellbeing, including topics such as the employee lifecycle, stress, well-being, positive psychology, emotion, bullying and work-life balance.</td>
<td></td>

<tr>
<td>ABA: Communicating Behaviourally</td>
<td>Provides the opportunity to gain practical experience with a range of mediums for communicating behavioural concepts.</td>
<td></td>
</tr>
<tr>
<td>PSYCH 742</td>
<td>Neuroscience of Awareness</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>An advanced seminar on the neuroscience of awareness and related topics. The course will primarily consist of student-led discussion of original research, with particular emphasis on areas of active controversy or debate. In addition to the theoretical discussion of human awareness, there will be a strong focus on the methods and practice of research in human neuroscience.</td>
<td></td>
</tr>
<tr>
<td>PSYCH 743</td>
<td>Critical Qualitative Research in Aotearoa</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Equips students with conceptual, theoretical, political and practical understandings of what it means to do critical, qualitative research in psychology in Aotearoa. Situates methods in relation to who researchers are, where we are, and how we collaborate, including obligations and opportunities provided by Te Tiriti o Waitangi, and Indigenous-led approaches.</td>
<td></td>
</tr>
<tr>
<td>PSYCH 744</td>
<td>Experimental Design and Quantitative Methods for Psychology</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>Covers applications of the general linear model to research design and analysis. Topics include: univariate techniques (analysis of variance, analysis of covariance, regression) and multivariate techniques (multivariate analysis of variance, discriminant analysis, multivariate regression, and factor analysis).</td>
<td></td>
</tr>

<td>Gender, Power, and Sexuality</td>
<td>15</td>
</tr>
<tr>
<td></td>
<td>This seminar-based course will allow students to explore a broad range of topics such as: sexual coercion, prostitution,</td>
<td></td>
</tr>
</tbody>
</table>
rape, pornography, safer sex, lesbian and gay sexuality, heterosexual, bisexuality, sexology, sex therapy, intersex, transgender, sexuality and culture. The emphasis will be on looking at questions from the perspective of theoretical approaches such as Foucault’s work on sexuality and feminist theories.

**PSYCH 756**  
**Dynamics of Brain and Behaviour**  
Examines the behavioural and neural changes that result from normal development, those that may arise in the context of neurological diseases and disorders, and the changes that can be elicited via interventions. Topics include the design and implementation of interventions to improve mental and physical health, methods to evaluate characteristics of change, and the precise mechanisms of neural and behavioural change. Recommended preparation: PSYCH 305

**PSYCH 757**  
**Advanced Applied Behaviour Analysis**  
Advanced education and training in applied behaviour analysis (ABA) in preparation for a professional career. Topics include ethical, professional, and practical issues confronting behaviour analysts in employment; recent research in ABA and other sciences with respect to clinical, educational, and other populations with whom behaviour analysts typically work.  
**Prerequisite:** PSYCH 750, 751  
**Corequisite:** PSYCH 651  
**Restriction:** PSYCH 753  
To complete this course students must enrol in PSYCH 757 A and B, or PSYCH 757

**PSYCH 758**  
**Ethnicity, Identity and Culture**  
Students will draw upon Indigenous and cultural psychological frameworks to examine how psychological research is conducted with ethnic communities, and will examine the influences of culture, values and beliefs across selected topics (e.g. resiliency, language and masculinity).

**PSYCH 759**  
**Advanced Behavioural Psychology**  
Examination of selected topics in contemporary behavioural psychology. The specific topics covered depend partly on student interest, exploring research on the relation between behaviour and environment, considering both animal and human behaviour, and both lab-based research and translation of that research into understanding behaviour of significance to society.

**PSYCH 760**  
**Organisational Psychology**  
Focuses on attitudes and behaviours at work that reflect or impact on the relationship between employee and employer, with a particular emphasis on topics that are proposed to impact on employee well-being and productivity (e.g., job satisfaction, motivation, leadership). Students will be encouraged to adopt a scientist-practitioner perspective, through class discussions and assignments.

**PSYCH 761**  
**Portfolio of Professional Practice Reports**  
A portfolio of original reports associated with the student's practicum experience and demonstrating the ability to make appropriate use of the scientific literature in solving problems in professional practice, as required by the New Zealand Psychologists Board for the practice of psychology.  
**Corequisite:** PSYCH 651  
To complete this course students must enrol in PSYCH 763 A and B, or PSYCH 763

**PSYCH 764**  
**Dual Process Theories of Human Cognition**  
Explores how dual-process theories in cognitive, social and developmental psychology account for human thought and action in terms of the interaction between automatic (implicit, parallel) and controlled (explicit, serial) processes. Topics of focus include memory, learning, numerical cognition, theory of mind, moral reasoning, attribution, executive functioning and decision making.

**PSYCH 765**  
**Special Topic: Pacific Psychologies**  
Explores how Pacific knowledges and worldviews shape and are shaped by Pacific communities to make meaning of and respond to a broad range of topics relevant to psychology.

**PSYCH 766**  
**Occupational Health Psychology**  
Students will focus on the in-depth treatment of this area, focusing primarily on occupational stress, including coverage of topics such as: work, life, and family, job insecurity, workplace incivility, abusive supervision, positive aspects of workplaces, as well as stress management interventions.

**PSYCH 767**  
**Gender Violence**  
What does it mean to say that violence is gendered? How does a gender analysis shape our understanding of the nature of problems like sexual violence, domestic violence, street harassment and online abuse? And how does it guide our responses to the harm of violence and our strategies for prevention? This course will bring a critical feminist lens to understanding key questions, theories and debates in research on gender violence.

**PSYCH 768**  
**Special Topic: Sex and Well-Being**

**PSYCH 769**  
**Special Topic: Developmental Psychology: A Critical Lens**

**PSYCH 770**  
**Behavioural Insights**  
Explores how cognitive biases and errors cause us to behave in irrational ways and how nudging and debiasing can mitigate these effects. Introduces students to methods to run behavioural insight analyses in real-world settings.

**PSYCH 771A**  
**Clinical Practice 1 and Professional Issues**  
Consists of two parts: First, psychological assessment and therapy for diverse clinical populations, including adult, and child and family. Cognitive behaviour therapy and family therapy are central, but other models are included. Consideration of psychotherapy research and practical exercises are incorporated. Secondly, ethics, bicultural and cross-cultural practice, and other professional issues relevant to the practice of clinical psychology are covered. Evaluation is by internal assessment.  
To complete this course students must enrol in PSYCH 771 A and B.

**Psychology**

**Postgraduate 700 Level Courses**

**PSYCHOL 700**  15 Points

**Special Topic: Wairua, Wellbeing and Cultural Considerations**  Wairua is multi-faceted and central to holistic wellbeing. This course privileges Mātauranga Māori in the exploration
of wairua and wellbeing and will provide a strong foundation for working with Māori. Students engage with topics relevant to indigenous cultural considerations in psychological research and practice. Includes self-reflection and group work in a wānaga/noho marae setting.

PSYCHOL 701 15 Points
Special Topic

Psychology

Named Doctoral Courses

PSYCH 800 120 Points
Scientist-practitioner Model
Advanced research based psychological assessment and therapy skills for diverse ages, cultures and clinical settings, and for complex clinical issues. Cognitive, behavioural, systemic, and mātauranga Māori models are central. Development of leadership, integrity, cultural sensitivity and other professional competences to allow registration with the New Zealand Psychologists Board. Supervised practicum experience includes three 200-hour placements and a 1,500 hour internship.

PSYCH 801 30 Points
Scientist-practitioner Model 1
Research based psychological assessment and therapy skills for diverse clinical populations, including adult, child and family. Cognitive-behaviour therapy and family therapy are central, but other models are included. Advanced clinical research design, ethics, bicultural and cross-cultural practice, supervision practice, and other professional issues relevant to the practice of clinical psychology are covered. Evaluation is by internal assessment. Includes one 200-hour placement in either an adult or a child and family setting. Evaluation is by internal assessment, including assessment by field supervisors.

PSYCH 802 30 Points
Scientist-practitioner Model 2
Advanced psychological assessment and therapy skills for diverse clinical populations, including adult, and child and family. Cognitive-behaviour therapy, family therapy, narrative therapy, psychodynamic therapy, and the trauma model are emphasised. Includes two 200-hour placements, in either an adult setting or child and family setting. One of these may, depending on staff availability, be in a specialist setting. Options may include: clinical neuropsychology, forensic psychology, assessment and psychological treatment of psychosocial disorders, and adolescent clinical psychology, drug and alcohol addiction, and others. Evaluation is by internal assessment, including assessment by field supervisors.

PSYCH 803 60 Points
Internship
This includes a practical component of supervised clinical work of not less than 1,500 hours in an approved setting. Emphasis is placed on the application of research principles and designs in routine psychological clinical practice. A university based seminar course that covers topics relevant to advanced, intern-level practice is included. Evaluation is by internal assessment, and assessment by field supervisors.

PSYCH 897 90 Points
Portfolio of Clinical Research
Five original research projects demonstrating appropriate use of the scientist-practitioner model (single case design, programme evaluation or group research may be included). One project will be conducted within each of the three placements associated with the courses PSYCH 801 and 802, and two within the Internship, PSYCH 803. At least one project should be related to research with an adult population, and at least one with a child and family population. The Portfolio will be examined by two internal academic psychologists and assessed by the two external Thesis examiners.

Restriction: PSYCH 894, 895

PSYCH 899 150 Points
Thesis
An original research dissertation completed over the three years of the degree (75 points in year 1, 60 points in year 2, and 15 points in year 3). The research may be basic or applied, but must be relevant to some area of clinical psychology and represent a significant contribution to knowledge in the field.

Restriction: PSYCH 896

Pūtaiao

Stage II

PŪTAIAO 200 15 Points
Mātauranga and Kaupapa Māori Science
Mātauranga is central to the future practice of science in Aotearoa New Zealand. Explores foundational understandings of mātauranga Māori and Kaupapa Māori for scientists. Students will meaningfully and respectfully engage with te ao Māori through place-based relational learning and case studies grounded in whanaungatanga. Students will experience Māori ways of being, knowing, and doing.
Prerequisite: 60 points at Stage I

Regional Development

Postgraduate 700 Level Courses

REGDEV 701 15 Points
Regional Futures
Examines the changing nature of the region as a spatial category of social and political economy. The course draws on place-based understandings of regional development to address how regions are being reassembled and what that means for the futures of people and place. Particular reference, in the New Zealand context, is made to the interconnections between regional and iwi developments.

Science Enterprise

Postgraduate 700 Level Courses

SCIENT 701 15 Points
Accounting and Finance for Scientists
Builds upon scientific numeracy in exploring the sources, uses and reporting of accounting and financial information in science-based enterprises; application of capital budgeting and valuation theory to science-relevant situations; and key bases for financially-informed project and enterprise decision-making and the management of economic resources.
SCIENT 702  
**Marketing for Scientific and Technical Personnel**  
15 Points  
Examines the intermediaries and end-users of technical and research-related applications, products and services; their 'customers', 'value chain', 'marketing', and related concepts in both highly-regulated and open markets; and how effective science-related marketing strategies and promotional efforts are developed and communicated.

SCIENT 703  
**Frontiers in Biotechnology - Level 9**  
An examination of how breakthrough discoveries in contemporary life sciences develop through to commercialisation. Students will integrate their advanced biological skills with business knowledge to critically analyse the commercialisation of scientific discoveries and communicate their findings effectively to both scientists and industry stakeholders.

SCIENT 704  
**Law and Intellectual Property**  
15 Points  
An explanation of the legal system including basic concepts of contract and corporate law in a biotechnology context. Emphasis will be upon intellectual property laws in particular patent law and practice and other means of protecting new ideas, discoveries and inventions. Also covered will be technology licensing and basic competition and marketing law.

SCIENT 705  
**Research Commercialisation**  
15 Points  
Integrative exploration of common theories, processes and models involved in commercialising scientific research. Topics include technology transfer, technological entrepreneurship, commercial potential, risk, and valuation assessment and related tools. Utilises multiple learning approaches including case studies and a 'hands-on' term project.  
Prerequisite: SCIENT 701, 702

SCIENT 706  
**Commercialisation Project**  
15 Points  
A supervised practical application of the theories, concepts and techniques of commercialisation, covered in courses SCIENT 701-705, to a research-based opportunity and its related intellectual property estate.  
Prerequisite: SCIENT 701, 702, 704  
Corequisite: SCIENT 703, 705

SCIENT 707  
**Special Topic**  
15 Points

SCIENT 720  
**Science Enterprise Research Methods**  
15 Points  
Students will become familiar with underlying theory and best practices in the principal qualitative and quantitative methods applicable to, and useful in, thesis research on commercialisation and science-based enterprise.

SCIENT 721  
**Product Development and Regulatory Environments**  
15 Points  
Aims to give students an understanding of the stages of product development for therapeutics, diagnostics and medical devices, as well as the regulatory requirements affecting product development in the Life Sciences. Project management tools and processes will also be covered in the context of product development.

SCIENT 722  
**Current Issues in Bioscience Enterprise**  
15 Points  
An exploration of trends and developments of importance to Life Sciences-related enterprises and industries. Utilises multiple learning approaches, e.g., independent reading, case studies, projects, guest speakers, presentations and related discussions.

SCIENT 794A  
45 Points

SCIENT 794B  
45 Points

**Thesis - Level 9**  
Research project addressing a topic relevant to the commercialisation of research. Overseen jointly by both academic and industry supervisors.  
To complete this course students must enrol in SCIENT 794 A and B

SCIENT 795A  
30 Points

SCIENT 795B  
60 Points

**Thesis - Level 9**  
Research project addressing a topic relevant to the commercialisation of research. Overseen jointly by both academic and industry supervisors.  
To complete this course students must enrol in SCIENT 795 A and B

**Science General**

**Stage I**

SCIGEN 101  
15 Points

SCIGEN 101G  
15 Points

**Communicating in a Knowledge Society**  
Effective communication is required for specialists in all fields to engage meaningfully with society. In this course students gain an understanding of the important role communication plays in a knowledge society. Through case studies and practical experience students learn about the responsibilities and skills required to communicate with a variety of audiences. They learn how to effectively manage and present data and practice oral, written, visual and electronic communication.

SCIGEN 102  
15 Points

SCIGEN 102G  
15 Points

**Contemporary Science in Aotearoa New Zealand**  
What does it mean to do science here and now? This course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding. Students will think critically about the relationships between science and our environment, along with the ethics of science in practice.

SCIGEN 189  
10 Points

**Special Topic**  
Selected topics in Science designed as a short credit course for exchange students coming to New Zealand. This course is only available to inbound exchange students.  
Prerequisite: Permission of Head of Department

**Stage II**

SCIGEN 201  
15 Points

SCIGEN 201G  
15 Points

**Innovating in a Knowledge Society**  
Interdisciplinary examination of science innovation at policy, organisational and project levels including context, impacts and roles of business and research organisations, and ways innovations are presented and received. Case study analysis of the business environment including how innovation is both enabled and constrained in science-
based organisations and society, and innovation strategies in science–based organisations.

**Stage III**

Engaging in a Knowledge Society

Addressing complex issues requires knowledge experts to engage with a variety of people. Solutions will be gained from collaborations that co-produce knowledge in transdisciplinary partnerships that lead to new ways of thinking. This course explores meaningful ways to engage with communities, and reassesses current ways of knowing and doing.

Prerequisite: Any 180 points

A multidisciplinary capstone for students coming from any science discipline. Students apply their cumulative knowledge and skills to a scientific phenomenon from a list of topics, considering the science in the context of sociocultural, ethical, or environmental challenges. Emphasises team as well as self-directed work to support mastery of academic competencies and key transferable skills.

Prerequisite: 45 points passed at Stage III and Associate Dean (Academic) or nominee approval

Restriction: Any other BSc capstone

Communication development and disorders. Normal communication development across the lifespan, in the context of total child development, of major changes
in expectations such as school and literacy, and of variations such as cultural differences and multilingualism. Applications of these concepts in an introduction to the assessment and management of communication disorders in children and of acquired disorders in adults.

**SPCHSCI 712**  
**Linguistics for Speech Language Therapy**  
The study of articulatory phonetics, phonemic transcription using the International Phonetic Alphabet, and the relationship between phonetics and phonology. Additional language analysis covering morphology, syntax, semantics and pragmatics.

**SPCHSCI 714**  
**Speech Language Therapy Clinical Practicum 1**  
Clinical observation under supervisor guidance in a variety of settings, establishing links between theory and practice. This course is supported by weekly tutorial sessions.

**SPCHSCI 713**  
**Anatomy and Physiology for Speech Language Therapy**  
Anatomy and physiology of speech, language and hearing, including the respiratory, phonatory, articulatory, auditory and peripheral and central nervous systems underlying spoken communication. Application of this knowledge is through manipulation of human models and supported computer laboratories.

**SPCHSCI 721**  
**Dysphagia - Level 9**  
Assessment and management of dysphagia (adult and paediatrics). Critical evaluation and synthesis of knowledge are presented in a substantial individual report.  
Prerequisite: SPCHSCI 713  
Restriction: SPCHSCI 701

**SPCHSCI 722**  
**Speech, Language and Communication Needs in Children 1**  
The nature of speech, language and communication needs in children is introduced by focusing on pre-verbal and very early communication, the development of speech, language and communication through preschool and primary school ages, and adolescence. Topics will include developmental language disorders and phonological disorders in children as well as contextual approaches to assessment and intervention, incorporating clinical decision-making, cultural and linguistic diversity and evidence-based practices.  
Prerequisite: SPCHSCI 771

**SPCHSCI 723**  
**Communication Disorders in Adults**  
This course examines theoretical, research and clinical issues in the field of acquired neurogenic communication disorders. It builds on existing knowledge and presents the process of assessment, differential diagnosis, intervention procedures and treatment specifically designed for these conditions. Skills are developed in analysing client-specific approaches, therapeutic programmes and incorporating measures of efficacy into therapy plans.  
Prerequisite: SPCHSCI 713

**SPCHSCI 724**  
**Speech Language Therapy Clinical Practicum 2**  
Clinical observation and practice in a variety of settings, enabling students to work with clients under supervision. This course is supported by weekly tutorials.  
Prerequisite: SPCHSCI 714

**SPCHSCI 733**  
**Audiology for Speech Language Therapy**  
Study of types of hearing impairment, pathologies of the hearing mechanism, tests and clinical procedures used in audiological evaluations and hearing instrumentation.  
Prerequisite: SPCHSCI 713  
Restriction: SPCHSCI 732

**SPCHSCI 734**  
**Speech Language Therapy Clinical Practicum 3 - Level 9**  
Clinical practice in a variety of settings with students taking responsibility for the assessment and management of cases with supervisor guidance. The management plan and decision-making process for the client and their family are outlined and the project outcomes after analysis are presented, in a substantial report. Weekly tutorials support the course.  
Prerequisite: SPCHSCI 724

**SPCHSCI 736**  
**Topics in Communication Disorders in Adults - Level 9**  
Advanced study of speech-language therapy (SLT) in adult populations including working with Māori, bilingualism, progressive conditions, palliative care, lifelong disability and ageing effects on audition and language. It includes highly specialised theoretical and clinical approaches which underpin the content, with implications for SLT practice in the New Zealand context being the predominant focus. Involves an individual management plan for a client resulting in a substantial individual report.  
Prerequisite: SPCHSCI 723  
Restriction: SPCHSCI 741

**SPCHSCI 743**  
**Speech, Language and Communication in Needs in Children 2 - Level 9**  
Extends topics introduced in SPCHSCI 722 by focusing on advanced topics in speech, language and communication needs in children. This includes in-depth learning in speech sound disorders, oromotor difficulties, intellectual and/or physical disability, autism spectrum disorder as well as language disorders in adolescents. Consolidating and extending knowledge of evidence-based practice in child speech and language will include critical evaluation and synthesis of terminology and concepts.  
Prerequisite: SPCHSCI 722  
Restriction: SPCHSCI 732

**SPCHSCI 744**  
**Speech Language Therapy Clinical Practicum 4 - Level 9**  
Clinical practice in a variety of settings with the student demonstrating independent practice and problem solving skills. Involves an individual e-portfolio which includes management session plans with clients as well as peer and supervisor feedback. Supervisory guidance will be given and the course will be supported by weekly tutorials.  
Prerequisite: SPCHSCI 734

**SPCHSCI 746**  
**Voice and Fluency - Level 9**  
Voice - study of the voice and the assessment and management of voice disorders (adult and paediatrics). Fluency - assessment and management of dysfluency disorders (adult and paediatrics). Critical evaluation and synthesis of knowledge are presented in substantial individual case reports.  
Prerequisite: SPCHSCI 713, 733  
Restriction: SPCHSCI 731

**SPCHSCI 751**  
**Special Topic**  
15 Points
be drawn from a wide variety of applications including: walks, Markov chains, probability models. Illustrations will

Statistics for Commerce

STATS 108 15 Points

Restriction: STATS 102, 107, 108, 191

Introduction to Statistics
Intended for anyone who will ever have to collect or make
sense of data, either in their career or private life. Steps
involved in conducting a statistical investigation are studied
with the main emphasis being on data analysis and the
background concepts necessary for successfully analysing
data, extrapolating from patterns in data to more generally
applicable conclusions and communicating results to
others. Other topics include probability: confidence
intervals, statistical significance, t-tests, and p-values;
nonparametric methods; one-way analysis of variance,
simple linear regression, correlation, tables of counts and
the chi-square test.
Restriction: STATS 102, 107, 108, 191

STATS 101 15 Points

Statistics for Commerce

The standard Stage I Statistics course for the Faculty
of Business and Economics or for Arts students taking
Economics courses. Its syllabus is as for STATS 101, but it
places more emphasis on examples from commerce.
Restriction: STATS 101, 102, 107, 191

STATS 108 15 Points

Probability and its Applications
Probability, conditional probability, Bayes theorem, random
walks, Markov chains, probability models. Illustrations will
be drawn from a wide variety of applications including:

finance and economics; biology; telecommunications,
networks; games, gambling and risk.
Corequisite: ENGSCI 171 or MATHS 108 or 110 or 120 or 130
Restriction: STATS 210

STATS 150 15 Points

Communicating Statistics
Examines the uses, limitations and abuses of statistical
information in a variety of activities such as polling, public
health, sport, law, marketing and the environment. The
statistical concepts and thinking underlying data-based
arguments will be explored. Emphasises the interpretation
and critical evaluation of statistically based reports as well
as the construction of statistically sound arguments and
reports. Some course material will be drawn from topics
currently in the news.

Stage II
STATS 201 15 Points

Data Analysis
A practical course using the R language in the statistical
analysis of data and the interpretation and communication
of statistical findings. Includes exploratory data analysis,
analysis of linear models including multiple regression and
analysis of variance, generalised linear models including
logistic regression and analysis of counts, time series
analysis.
Prerequisite: 15 points from STATS 101-108, 191
Restriction: STATS 207, 208

STATS 208 15 Points

Data Analysis for Commerce
A practical course using the popular R language in the
statistical analysis of data and the interpretation and
communication of statistical findings. Includes exploratory
data analysis, analysis of linear models including multiple
regression and analysis of variance, generalised linear models including
logistic regression and analysis of counts, time series analysis.
Prerequisite: 15 points from STATS 101-108, 191
Restriction: STATS 201, 207

STATS 210 15 Points

Statistical Theory
Probability, discrete and continuous distributions,
likelihood and estimation, hypothesis testing.
Prerequisite: 15 points from ENGSCI 171, ENGEN 150, STATS 125
Corequisite: 15 points from MATHS 208, 250, ENGSCI 211 or equivalent

STATS 220 15 Points

Data Technologies
Explores the processes of data acquisition, data storage
data processing using current computer technologies.
Students will gain experience with and understanding
of the processes of data acquisition, storage, retrieval,
manipulation, and management. Students will also gain
experience with and understanding of the computer
technologies that perform these processes.
Prerequisite: 15 points at Stage I in Computer Science or
Statistics

STATS 225 15 Points
generating function techniques, and key properties of some fundamental stochastic models such as random walks, branching processes and Poisson point processes.

**Prerequisite:** B+ or higher in ENGEN 150 or ENGEN 211 or STATS 125, or a B+ or higher in MATHS 120 and 130

**Corequisite:** 15 points from ENGSCI 211, MATHS 208, 250

**STATS 240**

**Design and Structured Data**

An introduction to research study design and the analysis of structured data. Blocking, randomisation, and replication in designed experiments. Clusters, stratification, and weighting in samples. Other examples of structured data.

**Prerequisite:** STATS 101 or 108

**Restriction:** STATS 240

**STATS 255**

**Optimisation and Data-driven Decision Making**

Explores methods for using data to assist in decision making in business and industrial applications. Software packages will be used to solve practical problems. Topics such as linear programming, transportation and assignment models, network algorithms, queues, Markov chains, inventory models, simulation, analytics and visualisation will be considered.

**Prerequisite:** ENGSCI 211 or STATS 201 or 208, or a B+ or higher in either MATHS 108 or 120 or 130 or 162 or 199 or STATS 101 or 108, or a concurrent enrolment in either ENGSCI 211 or STATS 201 or 208

**Restriction:** ENGSCI 255

**Stage III**

**STATS 302**

**Applied Multivariate Analysis**

Covers the exploratory analysis of multivariate data, with emphasis on the use of statistical software and reporting of results. Topics covered include: techniques for data display, dimension reduction and ordination, cluster analysis, multivariate ANOVA and associated methods.

**Prerequisite:** ENGSCI 314 or STATS 201 or 208

**Restriction:** STATS 767

**STATS 310**

**Introduction to Statistical Inference**

Estimation, likelihood methods, hypothesis testing, multivariate distributions, linear models.

**Prerequisite:** STATS 210 or 225, and 15 points from MATHS 208, 250 or equivalent

**Restriction:** STATS 732

**STATS 313**

**Advanced Topics in Probability**

Characterisations of and relations between different kinds of random objects including random functions, random paths and random trees. Modes of convergence; the Law of Large Numbers and Central Limit Theorem.

**Prerequisite:** STATS 225

**Restriction:** STATS 710

**STATS 320**

**Applied Stochastic Modelling**

**Prerequisite:** 15 points from STATS 125, 210, 225 and 15 points from STATS 201, 208, 220, or ENGSCI 314

**STATS 325**

**Stochastic Processes**

Introduction to stochastic processes, including generating functions, branching processes, Markov chains, random walks.

**Prerequisite:** B+ or higher in STATS 125 or B or higher in ENGSCI 314 or STATS 210 or 225 or 320, and 15 points from ENGSCI 211, MATHS 208, 250

**Restriction:** STATS 721

**STATS 326**

**Applied Time Series Analysis**

Components, decompositions, smoothing and filtering, modelling and forecasting. Examples and techniques from a variety of application areas.

**Prerequisite:** 15 points from ECON 211, ENGSCI 314, STATS 201, 208

**Restriction:** STATS 727

**STATS 330**

**Statistical Modelling**

Application of the generalised linear model and extensions to fit data arising from a range of sources including multiple regression models, logistic regression models, and log-linear models. The graphical exploration of data.

**Prerequisite:** ENGSCI 314 or STATS 201 or 208

**STATS 331**

**Introduction to Bayesian Statistics**

Introduces Bayesian data analysis using the WinBUGS software package and R. Topics include the Bayesian paradigm, hypothesis testing, point and interval estimates, graphical models, simulation and Bayesian inference, diagnosing MCMC, model checking and selection, ANOVA, regression, GLMs, hierarchical models and time series. Classical and Bayesian methods and interpretations are compared.

**Prerequisite:** ENGSCI 314 or STATS 201 or 208

**STATS 369**

**Data Science Practice**

Modern predictive modelling techniques, with application to realistically large data sets. Case studies will be drawn from business, industrial, and government applications.

**Prerequisite:** STATS 290 and STATS 310 or 225 and 15 points from ECON 221, STATS 201, 208, or ENGSCI 233 and 263

**Restriction:** STATS 765

**STATS 370**

**Financial Mathematics**

Mean-variance portfolio theory; options, arbitrage and put-call relationships; introduction of binomial and Black-Scholes option pricing models; compound interest, annuities, capital redemption policies, valuation of securities, sinking funds; varying rates of interest, taxation; duration and immunisation; introduction to life annuities and life insurance mathematics.

**Prerequisite:** 15 points at Stage II in Mathematics and 15 points at Stage II in Statistics

**Restriction:** STATS 722

**STATS 380**

**Statistical Computing**

Statistical programming using the R computing environment. Data structures, numerical computing and graphics.

**Prerequisite:** 15 points from ENGSCI 314, STATS 201, 208, 220

**STATS 383**

**The Science and Craft of Data Management**

A structured introduction to the science and craft of data management, including: data representations and
their advantages and disadvantages; workflow and data governance; combining and splitting data sets; data cleaning; the creation of non-trivial summary variables; and the handling of missing data. These will be illustrated by data sets of varying size and complexity, and students will implement data processing steps in at least two software systems.

Prerequisite: ENGSCI 314 or STATS 201 or 208, and COMPSCI 101 or ENGSCI 233 or STATS 220

STATS 392  
15 Points  
Directed Study  
Directed study on a topic from Data Science, Statistics or Probability approved by the Academic Head or nominee.

STATS 399  
15 Points  
Capstone: Statistics in Action  
Provides opportunities to integrate knowledge in statistics and data science, and collaborate with others through a succession of group projects and activities.  
Prerequisite: 30 points at Stage III in Statistics

Postgraduate 700 Level Courses

STATS 701  
15 Points  
Advanced SAS Programming  
A continuation of STATS 301, with more in-depth coverage of programming in the SAS language. Topics covered will include advanced use of the SAS language, advanced data step programming, macros, input and output, connectivity to other software platforms, SAS SQL.  
Prerequisite: STATS 301

STATS 702  
15 Points  
Special Topic in Statistics 2

STATS 703  
15 Points  
Special Topic in Statistics 1

STATS 705  
15 Points  
Topics in Official Statistics  
Official statistics, data access, data quality, demographic and health statistics, other social statistics, economic statistics, analysis and presentation, case studies in the use of official statistics.

STATS 707  
15 Points  
Computational Introduction to Statistics  
An advanced introduction to statistics and data analysis, including testing, estimation, and linear regression.  
Prerequisite: 15 points from STATS 101, 108 and 15 points from COMPSCI 101, MATHS 162  
Restriction: ENGSCI 314, STATS 201, 207, 208, 210, 225

STATS 708  
15 Points  
Topics in Statistical Education  
Covers a wide range of research in statistics education at the school and tertiary level. There will be a consideration of, and an examination of, the issues involved in statistics education in the curriculum, teaching, learning, technology and assessment areas.

STATS 709  
30 Points  
Predictive Modelling  
Predictive modelling forecasts likely future outcomes based on historical and current data. Following an advanced introduction to statistics and data analysis, the course will discuss concepts for modern predictive modelling and machine learning.  
Prerequisite: COMPSCI 130, MATHS 108, and 15 points from STATS 101, 108, or equivalent  
Restriction: STATS 201, 207, 208, 210, 225, 707, 765

STATS 710  
15 Points  
Probability Theory  
Fundamental ideas in probability theory; sigma-fields, laws of large numbers, characteristic functions, the Central Limit Theorem.  
Prerequisite: B+ or higher in STATS 225 or 15 points from STATS 310, 320, 325

STATS 720  
15 Points  
Stochastic Processes  
Prerequisite: STATS 320 or 325

STATS 721  
15 Points  
Foundations of Stochastic Processes  
Fundamentals of stochastic processes. Topics include: generating functions, branching processes, Markov chains, and random walks.  
Prerequisite: 15 points from STATS 125, 201, 225, 320 with at least a B+ and 15 points from MATHS 208, 250, 253  
Restriction: STATS 325

STATS 722  
15 Points  
Foundations of Financial Mathematics  
Fundamentals of financial mathematics. Topics include: mean-variance portfolio theory; options, arbitrage and put-call relationships; introduction of binomial and Black-Scholes option pricing models; compound interest, annuities, capital redemption policies, valuation of securities, sinking funds; varying rates of interest, taxation; duration and immunisation; introduction to life annuities and life insurance mathematics.  
Prerequisite: 15 points at Stage II in Statistics or BIOSCI 209, and 15 points at Stage II in Mathematics  
Restriction: STATS 370

STATS 723  
15 Points  
Stochastic Methods: Theory and Applications  
Essential probabilistic techniques underlying discrete and continuous stochastic models and their applications. Markov processes in discrete and continuous time, diffusion processes, Ito's lemma, stochastic differential equations, and martingales. Applications may include models from biology and population genetics, physics, engineering, chemistry, finance, economics, and statistics.  
Prerequisite: 15 points from ENGSCI 314, STATS 313, 325, or 15 points with a B+ and 15 points from MATHS 208, 250, 253 with at least a B+ and 15 points from MATHS 215, 225, 325 with at least a B+ and 15 points from MATHS 215, 225, 325  
Restriction: STATS 325

STATS 725  
15 Points  
Special Topic

STATS 726  
15 Points  
Time Series  
Stationary processes, modelling and estimation in the time domain, forecasting and spectral analysis.  
Prerequisite: STATS 210, and 15 points from STATS 326, 786

STATS 727  
15 Points  
Foundations of Applied Time Series Analysis  
Fundamentals of applied time series analysis. Topics include: components, decompositions, smoothing and filtering, modelling and forecasting. Examples
and techniques from a variety of application areas are presented.

**STATS 730 15 Points**

**Statistical Inference**
Fundamentals of likelihood-based inference, including sufficiency, conditioning, likelihood principle, statistical paradoxes. Theory and practice of maximum likelihood. Examples covered may include survival analysis, GLM's, nonlinear models, random effects and empirical Bayes models, and quasi-likelihood.

Prerequisite: STATS 310 or 732

**STATS 740 15 Points**

**Sample Surveys**
The design, management and analysis of sample surveys. Topics such as the following are studied: Types of Survey. Revision of statistical aspects of sampling. Preparing surveys. Research entry: problem selection, sponsorship and collaboration. Research design: methodology and data collection; Issues of sample design and sample selection. Conducting surveys: Questionnaires and questions; Non-sampling issues; Project management; Maintaining data quality. Concluding surveys: Analysis; Dissemination.

Prerequisite: 15 points from STATS 240, 330, 340, and 15 points from Stage II Mathematics

**STATS 741 15 Points**

**Sample Surveys and Experimental Design**
Design, implementation and analysis of sample surveys and of experiments. This course covers the foundations of both areas.

Prerequisite: 15 points from STATS 201, 207, 208

**STATS 747 15 Points**

**Statistical Methods in Marketing**
Stochastic models of brand choice, applications of General Linear Models in marketing, conjoint analysis, advertising media models and marketing response models.

Prerequisite: 15 points from STATS 201, 207, 208, 210, 707

**STATS 750 15 Points**

**Experimental Design**
The design and analysis of data from experiments involving factorial and related designs and designs which have the property known as general balance (this includes most of the standard designs), and more general designs with blocking and replication. Response surface methodology. Sequential experimentation.

Prerequisite: 15 points from STATS 240, 330, 340, 762

**STATS 761 15 Points**

**Mixed Models**
Linear mixed effect models for the analysis of data from small experiments, particularly those cases where the data are unbalanced. Methods include restricted maximum likelihood for the estimation of variance components.

Prerequisite: 15 points from STATS 240, 330, 340, 762

**STATS 763 15 Points**

**Advanced Regression Methodology**

Prerequisite: 15 points from ENGSCL 314, STATS 201, 207, 208

**STATS 765 15 Points**

**Statistical Learning for Data Science**
Concepts of modern predictive modelling and machine learning such as loss functions, overfitting, generalisation, regularisation, sparsity. Techniques including regression, recursive partitioning, boosting, neural networks. Application to real data sets from a variety of sources, including data quality assessment, data preparation and reporting.

Prerequisite: 15 points from ENGSCL 314, STATS 201, 207, 208 and 15 points from STATS 210, 225, 707

Corequisite: May be taken with STATS 707

Restriction: STATS 369

**STATS 766 15 Points**

**Multivariate Analysis**
A selection of topics from multivariate analysis, including: advanced methods of data display (e.g., Correspondence and Canonical Correspondence Analysis, Biplots, and PREFMAP) and an introduction to classification methods (e.g., various types of Discriminant Function Analysis).

Prerequisite: STATS 310 or 732

**STATS 767 15 Points**

**Foundations of Applied Multivariate Analysis**
Fundamentals of exploratory analysis of multivariate data, with emphasis on the use of statistical software and reporting of results. Topics covered include: techniques for data display, dimension reduction and ordination, cluster analysis, multivariate ANOVA and associated methods.

Prerequisite: 15 points from ENGSCL 314, STATS 201, 207, 208, 707

Restriction: STATS 302
STATS 768  
Longitudinal Data Analysis  
15 Points  
Exploration and regression modelling of longitudinal and clustered data, especially in the health sciences: mixed models, marginal models, dropout, causal inference.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 210, 707

STATS 769  
Advanced Data Science Practice  
15 Points  
Databases, SQL, scripting, distributed computation, other data technologies.  
Prerequisite: 15 points from STATS 220, 369, 380 and 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 770  
Introduction to Medical Statistics  
15 Points  
An introduction to ideas of importance in medical statistics, such as measures of risk, basic types of medical study, causation, ethical issues and censoring, together with a review of common methodologies.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208 and 15 points from STATS 210, 225, 707

STATS 771  
Special Topic  
15 Points

STATS 773  
Design and Analysis of Clinical Trials  
15 Points  
The theory and practice of clinical trials, including: design issues, data management, common analysis methodologies, intention to treat, compliance, interim analyses and ethical considerations.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 776  
Estimating Animal Abundance  
15 Points  
Fundamentals of the statistical methods that underly capture-recapture, distance sampling and occupancy analysis, focusing on the critical role that p, the probability of detection, plays in estimating n, the number of animals, or psi, the probability of species presence. Extensions to these fundamental tools including spatially explicit, genetic, and hierarchical methods will be covered.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 779  
Professional Skills for Statisticians  
15 Points  
Statistical software, data management, data integrity, data transfer, file processing, symbolic manipulation, document design and presentation, oral presentation, professional ethics.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 208, 707

STATS 780  
Statistical Consulting  
15 Points  
Students will learn about the practicalities of statistical consulting. Students will carry out a statistical consulting project, including the writing of a report, under the supervision of a member of the academic staff.  
Prerequisite: STATS 330 or 762

STATS 781  
30 Points

STATS 781A  
15 Points

STATS 781B  
15 Points

Research Project - Level 9  
Restriction: STATS 789  
To complete this course students must enrol in STATS 781 A and B, or STATS 781

STATS 782  
15 Points

Statistical Computing  
Professional skills, advanced statistical programming, numerical computation and graphics  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 208, 707

STATS 783  
15 Points

Simulation and Monte Carlo Methods  
A practical introduction to modern simulation and Monte Carlo techniques and their use to simulate real situations and to solve difficult statistical inferential problems whose mathematical analysis is intractable.

STATS 784  
15 Points

Statistical Data Mining  
Data cleaning, missing values, data warehouses, security, fraud detection, meta-analysis, and statistical techniques for data mining such as regression and decision trees, modern and semiparametric regression, neural networks, statistical approaches to the classification problem.  
Prerequisite: 15 points from STATS 210, 225, and 15 points from STATS 330, 762

STATS 785  
15 Points

Foundations of Statistical Data Management  
SAS statistical software with an emphasis on using SAS as a programming language for purposes of database manipulation, simulation, statistical modelling and other computer-intensive methods.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707  
Restriction: STATS 301

STATS 786  
15 Points

Time Series Forecasting for Data Science  
Delivers a comprehensive understanding of widely used time series forecasting methods, illustrates how to build models to uncover the structure in time series and perform model diagnostics to assess the fit of models, and develops analytical and computer skills that are necessary for analysing time series data. Familiarity with coding in R is recommended.  
Prerequisite: 15 points from STATS 201, 208  
Restriction: STATS 326, 727

STATS 787  
15 Points

Data Visualisation  
Effective visual presentations of data. Topics may include: how to present different types of data; human perception; graphics formats; statistical graphics in R; interactive graphics; visualising high-dimensional data; visualising large data.  
Prerequisite: 15 points from STATS 220, 369, 380 and 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 789  
15 Points

Simulation and Monte Carlo Methods  
A practical introduction to modern simulation and Monte Carlo techniques and their use to simulate real situations and to solve difficult statistical inferential problems whose mathematical analysis is intractable.

STATS 790  
30 Points

Research Project - Level 9  
Restriction: STATS 796  
To complete this course students must enrol in STATS 790 A and B, or STATS 790

STATS 792  
45 Points

Research Project - Level 9  
Restriction: STATS 796  
To complete this course students must enrol in STATS 792 A and B, or STATS 792
STATS 793 45 Points
STATS 793A 22.5 Points
STATS 793B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in STATS 793 A and B, or STATS 793

STATS 798A 45 Points
STATS 798B 45 Points
Masters Thesis in Statistics - Level 9
Prerequisite: 15 points from STATS 310, 732 and 15 points from
STATS 330, 762, or approval of Head of Department
Restriction: STATS 790, 796
To complete this course students must enrol in STATS 798 A and B

Sustainability

Stage I
SUSTAIN 100 15 Points
SUSTAIN 100G 15 Points
Sustainability and Us
What is sustainability? Discusses what sustainability means, and its underpinning values, history and operation within complex physical systems. Students complete a group project to develop skills in collective decision making with a solution focus. Two sustainability issues, such as food and water, are discussed in depth.

Stage II
SUSTAIN 200 15 Points
The Sustainable Community
What is the sustainable community? We unpack the nature of complex social and ecological systems with a particular focus on large organisations and cities. Students undertake a group project to enhance their skills in collective decision making, and to develop skills in integrating information and presenting sustainability solutions. Two sustainability issues, such as climate change and fisheries, are discussed in depth.
Prerequisite: 60 points passed

Stage III
SUSTAIN 300 15 Points
A Sustainable World
Is it possible to have a sustainable global system? We focus on large scale social institutions including politics, the media, national and international law and economics. Students undertake a group project to develop skills in researching and integrating information from a range of experts and recommending sustainability solutions to policy makers. Two sustainability issues, such as population and plastic, are discussed in depth.
Prerequisite: 30 points passed at Stage II

Tertiary Foundation Certificate Biological Science

Foundation Courses
TFCBIO 91F 15 Points
Foundation Biology 1
An introduction to biological sciences with an emphasis on organism diversity, which includes bacteria, plants, fungi and animals. Fundamentals of classification, ecology and evolution are introduced and the study of a current topic in biology is used to develop research and critical thinking skills. Practical classes are both laboratory-based and field based.
Restriction: BIOSCI 91F, 91P

TFCBIO 92F 15 Points
Foundation Biology 2
Concepts introduced in TFCBIO 91F are further developed with an emphasis on the structures and processes of living things at cellular and molecular levels. Cell biology, genetic principles and biochemistry are explored and further developed in a human biological context. Laboratories focus on students developing key practical skills.
Restriction: BIOSCI 91F, 92F, 91P

Tertiary Foundation Certificate Chemistry

Foundation Courses
TFCCHEM 91F 15 Points
Foundation Chemistry 1
Introduction to elements, compounds, the periodic table, atomic structure, covalent bonding, molecular shape and polarity. Quantitative chemistry, including balancing equations, calculating moles and particles present, calculation of concentration in mol L-1. Energy and thermo-chemistry. Laboratories include practical skills and qualitative analysis, and simple modelling.
Restriction: CHEM 91F, 91P

TFCCHEM 92F 15 Points
Foundation Chemistry 2
Introduces further principles of chemistry. Physical chemistry and qualitative inorganic analysis, including chemical kinetics and chemical equilibrium. Organic chemistry, including hydrocarbons, oxygen-containing functional groups, isomerism and reaction classifications, acids, bases, buffer solutions and titrations. Laboratories include reactions of hydrocarbon and oxygen-containing organic compounds, chromatography, testing for anions and cations in solution, acid-base titrations.
Restriction: CHEM 92F

Tertiary Foundation Certificate Environmental Stud

Foundation Courses
TFCENV 91F 15 Points
Geography
How does geography effect both how we live today and our future? An introduction to human and physical geography with an emphasis on population, migration, social inequality, uneven development, climate change, sustainability and geospatial thinking. We examine these geographical topics using a variety of local and global case studies.

TFCENV 92F 15 Points
Earth and Environmental Sciences
How do biophysical processes shape the Earth and the environmental issues we face on it? Introduces students to the physical processes that shape our world, from earthquakes deep underground to glaciers on mountain tops. Explores how physical and biological processes on Earth interact in pressing environmental issues like climate change, pollution and species conservation.
Tertiary Foundation Certificate Mathematics

Foundation Courses

**TFCMATHS 89F 15 Points**  
**Mathematics for Arts**  
Includes several important mathematical ideas within historical, environmental, societal, political, financial, justice, entertainment and cultural contexts. Will also be guided by the interests of its learners as citizens and consumers, who will be encouraged to draw on the mathematics they are already familiar with. Aimed at linking mathematics to the world of students who are likely to be non-STEM majors.

**TFCMATHS 90F 15 Points**  
**Preparatory Skills in Mathematics**  
Development of fundamental mathematics concepts including an understanding of arithmetic ideas as expressed in fractions, decimals and percentages, ratio and proportion, measurement and algebraic thinking. Application of these concepts in contexts such as financial literacy, problem solving, and real-life mathematics will form the basis of this course. 
Restriction: EDFOUND 15F, TFCEDUC 15F

**TFCMATHS 91F 15 Points**  
**Foundation Mathematics 1**  
This mathematics course aims to promote an understanding of number skills, including an introduction to algebra. Students will learn how to use simple technology and develop their problem solving abilities. 
Restriction: MATHS 91F, 92F

**TFCMATHS 92F 15 Points**  
**Foundation Mathematics 2**  
This mathematics course aims to use the skills learnt in TFCMATHS 91F to develop an understanding of functions in their tabular, algebraic and graphical representations. Prepares students for MATHS 102. Recommended preparation: TFCMATHS 91F or TFCMATHS 93F. 
Restriction: MATHS 92F

**TFCMATHS 93F 15 Points**  
**Foundation Mathematics 3**  
This mathematics course aims to promote an understanding of numerical and algebraic skills at a deeper level than TFCMATHS 91F. Students will learn how to use simple technology and develop their problem solving abilities.

**TFCMATHS 94F 15 Points**  
**Foundation Mathematics 4**  
This mathematics course aims to use the skills learnt in TFCMATHS 93F to develop an understanding of functions, including differential functions, in their tabular, algebraic and graphical representations. This course prepares students for MATHS 102.

Restrictions: MATHS 93F, 93P

Restriction: PHYSICS 91F, 91P

Tertiary Foundation Certificate Physics

Foundation Courses

**TFCPHYS 92F 15 Points**  
**Foundation Physics 2**  
A second foundation course for students who understand the basic mechanics of motion in a straight line. Further mechanics, including equilibrium, projectile motion, rotational motion and gravitation. Electromagnetism, including electrostatics, elementary circuits and the effects of magnetic fields.
Restriction: PHYSICS 92F

Tertiary Foundation Certificate Statistics

Foundation Courses

**TFCSTATS 92F 15 Points**  
**Foundation Statistics**  
Provides an introduction to statistics for anyone who will ever have to collect, analyse or interpret data, either in their career or private life. Statistical skills will be developed through Exploratory Data Analysis of real data using appropriate technology and statistical techniques. An important aspect of the course will involve communication of results.

Transdisciplinary Environmental Futures

Stage I

**TDENVF 100 15 Points**  
**Our Environmental Futures: Te Taiao Tāngata**  
Explores the complex relationships between environmental systems and humans. Working in teams, students examine environmental, social, economic and cultural perspectives in the real-world contexts of waitā (sea), waitī (freshwater) and whenua (land). Students will respond to environmental issues by recognising ora (wellbeing) and Ki Uta ki Tai (the interconnectedness of ecosystems) and develop a transdisciplinary mindset to tackle current and future environmental challenges.

Wine Science

Stage II

**WINESCI 201 15 Points**  
**Introduction to Wine Science**  
An introduction to grape growing and wine. Topics covered include history of wine, geography and terroir, grape growing, winemaking technology, microbiology, sensory evaluation, and health considerations of wine. A special emphasis on grape growing and winemaking in New Zealand.
Prerequisite: Any 120 points passed

Postgraduate 700 Level Courses

**WINESCI 701 15 Points**  
**Winemaking in a New Zealand Setting**  
The principles and practices of local winemaking are reviewed and compared with international counterparts to highlight the distinctive characteristics of winemaking in New Zealand. A microvinification project is undertaken in which students begin with an allotment of grapes, monitor...
the fermentation using a range of analytical techniques, and make decisions which affect the style of wine they produce.

WINESCI 702 15 Points
The Science Behind Grape Production
Develops understanding of the contemporary scientific knowledge and research that is of relevance to grape production for winemaking. The application of traditional and modern molecular methods in plant science and plant pathology will be discussed in relation to the selection, improvement and management of vines and grape attributes. Research issues of national and international relevance to viticulture will also be addressed.

WINESCI 703 15 Points
The Science Behind Winemaking
Follows on from 702 and focuses on the contemporary scientific knowledge and research that is of relevance to winemaking, commencing from the point of grape harvest. The application of traditional and modern methods in biochemistry and microbiology will be discussed. Research issues of national and international relevance to winemaking will also be addressed.

WINESCI 704 15 Points
Sensory Evaluation and Statistical Methods
The principles of sensory science, sensory analysis of wine, differences among wine types, regional styles and grape types will be covered. Emphasis will be placed on those components which influence sensory appeal. The application of statistical methods to wine sampling and to the design of sensory panels will be overviewed.

WINESCI 705 15 Points
WINESCI 705A 7.5 Points
WINESCI 705B 7.5 Points
Project in Wine Science
Students will gain a thorough understanding of the current knowledge on a selected topic associated with wine science and have experience in writing a research proposal and in giving a presentation to the peer group. To complete this course students must enrol in WINESCI 705 A and B, or WINESCI 705

WINESCI 706 15 Points
The Business of Wine Production
Students will be introduced to the economics of grape growing, winemaking, winery design and management. Distribution and marketing will be introduced. Special topics including wine law, use and negotiation of contracts small business development, stock valuation, issues of appellations, labelling and brand development will be taught. Environmental and resource management issues and health and safety regulations will be covered.

WINESCI 707 15 Points
WINESCI 707A 7.5 Points
WINESCI 707B 7.5 Points
Topics in Wine Science
A number of advanced or special topics in wine science. This course may not be offered every year; further information may be obtained from the School of Chemical Sciences. To complete this course students must enrol in WINESCI 707 A and B, or WINESCI 707

WINESCI 708 15 Points
Post-fermentation Processes in Winemaking
Covers the theory and practice of fining, filtration and other methods of wine clarification. Chemical and sensory effects of barrel and tank aging of red and white wine will be covered as well as blending decisions and stabilisation. Quality control methods used during processing, aging and packaging will also be addressed.

WINESCI 792 45 Points
WINESCI 792A 22.5 Points
WINESCI 792B 22.5 Points
Research Project - Level 9
To complete this course students must enrol in WINESCI 792 A and B, or WINESCI 792

WINESCI 796A 60 Points
WINESCI 796B 60 Points
MSc Thesis in Wine Science - Level 9
Advanced research on an aspect of wine science. This may be undertaken with the Wine Industry CRIs and University staff. To complete this course students must enrol in WINESCI 796 A and B

General Education

Academic Integrity

**ACADINT A01** 0 Points

**Academic Integrity Course**

An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Accounting

**Stage I**

**ACCTG 151G** 15 Points

**Financial Literacy**

People who understand the basic principles of finance are likely to get much more mileage out of their money – whether spending, borrowing, saving or investing – than those who do not. Develop an understanding of how to be in control of spending and saving; understand borrowing; make informed investment decisions; know broadly what to insure and what not to; recognise scams and consider whether money is the key to happiness.

*Restriction: May not be taken by students with a concurrent or prior enrolment in Accounting or Finance courses*

Anthropology

**Stage I**

**ANTHRO 106G** 15 Points

**Global Sound Cultures: Musics, Places and People**

Examines a wide range of sound and music cultures, from popular transnational mediations to locally produced, community-based traditions. We consider the ways that music takes on meaning, represents identities and places, and interacts with the world. We trace the historical/economic processes by which music cultures emerge and are sustained (or not). We look at the emotional and economic roles that music plays in lives of musicians, composers and listeners. Using theories from ethnomusicology, anthropology, musicology and cultural studies we show how music is affected by and reflects social change, colonisation and indigeneity, technology and local/global economic processes.

Architectural History, Theory and Criticism

**Stage I**

**ARCHHTC 102G** 15 Points

**Modern Architecture and Urbanism**

Examines through case studies the cultural contexts that shaped the development of architecture, urban design, landscape and the environment during the twentieth century. Emphasis is placed on the historical developments that influenced changes in style and the theoretical contexts that shaped attitudes towards inhabitation, social organisation, national identity, and cultural self-expression, amongst other things.

*Restriction: ARCHHTC 100*

Art History

**Stage I**

**ARTHIST 114G** 15 Points

**Understanding Art: Leonardo to Warhol**

Visual intelligence is crucial in navigating the world of images that convey coded messages, and the history of ideas fundamental to all disciplines. How do we read such images? This course decodes artworks, photographs, advertising, digital images, and architecture, providing tools to analyse artists from Leonardo to Warhol: experts at moving the eye around the image for meaning to emerge.

*Restriction: ARTHIST 109*

**ARTHIST 115G** 15 Points

**Global Art Histories**

A broad survey of visual art spanning from the early modern period to the contemporary. Students will be introduced to a range of art practices situated within a global context and will consider art works produced in Māori and Pacific cultures alongside Indian, South Asian, Middle Eastern, European and American traditions.

Arts General

**Stage I**

**ARTSGEN 103G** 15 Points

**Ko Wai Tātou? Who Are We?**

Ko wai tātou? Who are we? Who are our people and communities? What do our ideas about who we are mean for relations of in/equality or how we experience belonging individually and collectively? In addressing these questions, this course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding.

Asian Studies

**Stage I**

**ASIAN 140G** 15 Points

**New Zealand and Asia**

Explores Asia and its interrelationship with New Zealand, including Asia's growing presence in New Zealand in all its manifestations, and the evolving political, social, economic, cultural, and strategic relations between this country and Asia. Topics will include historical and contemporary ties with Asia, Asian migration, literature, media and films. The course will focus especially on South-East and East Asia.

Astrosciences

**Stage I**

**ASTRO 100G** 15 Points

**Planets, Stars and Galaxies**

The story of our place in the Universe. Key topics are the exploration of the solar system, searches for planets around other stars, the structure and evolution of stars and galaxies, high-energy astrophysics, and the origin and overall properties of the Universe. No background in physics or mathematics is assumed.

*Restriction: PHYSICS 107, 107G*

**Astrobiology**

Astrobiology examines the potential of the universe to harbour life and is interdisciplinary, combining Geology, Biology, Astronomy, Chemistry, Physics, Philosophy, Ethics. Course focus is on how these disciplines combine with technology, addressing questions of life in the universe. Key topics include origin and evolution of life, definitions and environmental limits of life, and how to search for life beyond Earth. 

**Prerequisite:** 60 points passed

**Antarctica: The Frozen Continent**

A general introduction to Antarctica and its environs including the Southern Ocean and the sub-Antarctic islands. Emphasis will be placed on the evolution of Antarctica and how resident plants, animals and micro-organisms have adapted to cope with the extreme environment. Specific topics to be addressed include: the history of Antarctic exploration and its impact on the development of Antarctic science, Antarctic ecosystems, Antarctica as a wilderness region, and the impact of humans including the exploitation of resources and the effects of pollution. This course is suitable for students with both science and non-science backgrounds.

**Communication in a Multicultural Society**

Communication knowledge and skills are essential in business careers and for interpersonal and intercultural relationships. This course offers a theory-based approach combined with applied communication practices. Communication knowledge, competencies and skills are developed through exploring relationships, mediated communication, writing, team dynamics, oral presentation and technologies. 

**Materials of the Modern World**

Every aspect of daily living is influenced in some way by the materials that surround us. Ceramics, metals, polymers, and composites; each has its own properties which have, over time, influenced the development of modern technological societies. Take a moment to imagine a world without metal, for example, to see how central the science of materials is to everyday life. This course will explore, at a non-specialist level, the basic principles governing the properties and behaviour of a wide variety of common materials and examine their applications and limitations.

**Molecules that Changed the World**

The impact of chemistry on the modern world will be explored by focusing on the stories of specific molecules, including penicillin, DDT and nylon. Their discovery, the underlying chemical principles that explain their behaviour, their impact on our lives including social and scientific issues that arise from their use, and their likely impact on the future will be investigated. No formal prerequisite, but the course assumes a science background at Year 11 or higher.

**Beginning Modern Chinese I**

Introduces students to modern Standard Chinese (Mandarin, Putonghua) through exercises and activities to develop speaking, listening, reading and writing skills. Also introduces the social and cultural background of the language. 

**Prerequisite:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.
### Classical Studies and Ancient History

</tr>
</thead>
<tbody>
<tr>
<td>EARTHSCI 105G</td>
<td>Earth's Natural Hazards</td>
<td>15 Points</td>
</tr>
<tr>
<td>EARTHSCI 105G</td>
<td>New Zealand experiences many natural hazards caused by the Earth's natural processes through earthquakes, volcanic eruptions, tsunamis, landslides, avalanches, and floods.</td>
<td></td>
</tr>
</tbody>
</table>
eruptions, weather bombs, storm surge, tsunami, flooding and wildfires. Focuses on spatial and temporal occurrences of disasters, hazard preparedness and recovery, and societal responses that affect and, sometimes, compound the magnitude of disasters. Case studies are drawn from contemporary and ancient societies.

**Stage II**

**EARTHSCI 205G** 15 Points  
**New Zealand: Half a Billion Years on the Edge**  
Take a 500 million year journey through time following the geologic and biologic development of New Zealand from humble beginnings on the edge of the ancient supercontinent Gondwana to the present day geologically dynamic land mass beset by volcanic eruptions, earthquakes and massive erosion as a consequence of being located on the edge of the Earth’s largest tectonic plate.  
*Prerequisite: 75 points passed*

**Economics**

**Stage I**

**ECON 151G** 15 Points  
**Understanding the Global Economy**  
Economics affects our daily lives and the global environment in many ways. Through the media we are constantly made aware of price increases, interest rate changes, exchange rate movements and balance of payments problems, growth and recessions, standard of living comparisons, regional trading agreements. What does it all mean and how does it all work?  
*Restriction: ECON 101, 111, 152, 191*

**Education**

**Stage I**

**EDUC 100G** 15 Points  
**The Creative Process**  
Theories and practices of creativity will be examined and practically explored through a variety of disciplines, such as the arts, biology, psychology, sociology, philosophy and education. What is creativity? Can creativity be learnt? What happens in the brain when we are creative? These are some of the questions addressed in this course.

**EDUC 105G** 15 Points  
**Teaching: Tales and Traditions**  
Introduction to key ideas on teachers and teaching. Explores teaching traditions, their origins, stories of teaching in New Zealand; stories of teachers that generate change; and how teaching and teachers are understood in a variety of disciplines such as Science, Health, Arts, and Sport. Considers the following: How should we teach? What counts as knowledge? What contradictions do teachers encounter?

**EDUC 121G** 15 Points  
**How People Learn**  
Focuses on learning in formal and informal settings and addresses such questions as: why do some things seem easier to learn than others, why do we forget things we once knew, and why do some people learn faster or better than others? Examines the nature of intelligence and how to help personal learning or the learning of others.  
*Restriction: EDUC 111, 117*

**EDUC 122G** 15 Points  
**Learning Sexualities**  
How and what do we learn about sexualities in New Zealand? Learning about sexualities is viewed as occurring both formally (e.g., through sexuality education) and informally (e.g., through the media) in a diversity of social sites. Schools are examined as one significant site where students are offered sexual meanings. The historical derivation and current context of contemporary education about sexuality along with its social effects are investigated.

**Engineering General**

**Stage I**

**ENGG 100G** 15 Points  
**Technological Choices for the Future**  
A consideration of technological choices to support informed decision making in the use of technology in modern society. The course focuses on important questions such as: What is the future direction of power generation in New Zealand? How can we create a sustainable future? Where will current developments in robotics and mobile communications lead us?

**ENGG 101G** 15 Points  
**Software, Data and Intelligent Automation**  
Introduces concepts of intelligent automation, robotic process automation, analytics and artificial intelligence/machine learning. Includes consideration of data privacy and sovereignty, and the ethics of AI. Students will engage in critical analysis of potential intelligent automation applications and solutions, and will build their own software robot through practical laboratory work.

**English**

**Stage I**

**ENGLISH 102G** 15 Points  
**Great Books: Seduction and Betrayal**  
Surveys a selection of literary masterpieces by major authors from different periods in the history of English literature. Selection of texts is organised around the theme of seduction and betrayal, understood more particularly as a story-arc exploring attitudes to love and sex, to politics and ambition, to ethical conduct, and to the activity of reading itself.

**ENGLISH 121G** 15 Points  
**Reading/Writing/Text**  
Develops University-wide skills of reading, writing and analysis. Addresses the needs of students in both English and other disciplines where both writing and reading have an important role in learning. The course fosters personal writing skills and also introduces writing as a subject of study in itself.
Environmental Physics

Stage I

ENVPHYS 100G  15 Points
Sun, Sand, Surf: Science of Aotearoa
The atmosphere, oceans and land make up the dynamic environment of Aotearoa New Zealand. A range of phenomena with natural beauty can be described elegantly with simple scientific laws. This course establishes the physical principles underlying nature, empowering students to explain everyday environmental phenomena. These principles provide the foundation to unravel the science of Earth, climate and environmental change, and energy systems.

Environmental Science

Stage I

ENVSCI 101G  15 Points
Environment, Science and Management
Explores the science behind key environmental issues to recognise the role environmental science plays in understanding the interaction between humans and the environment. The complexity of environmental problems and the difficult task of integrating science, knowledge and values are discussed.

European Studies

Stage I

EUROPEAN 100G  15 Points
Europe and the World
An introduction to the study of Europe, organised around a number of major themes, including linguistic and ethnic groupings, historical periods, literary and cultural movements, religious and philosophical traditions, and political and cultural figures. An ideal course for students wishing to explore European culture and civilisation.

Exercise Sciences

Stage I

EXERSCI 100G  15 Points
Exercise and Fitness: Myths and Reality
An introduction to the principles of physical exercise, with a focus on understanding how the body moves and responds to exercise, how performance can be measured, and how fitness can be developed and maintained to optimise health. Particular emphasis will be placed on the debunking of common myths about exercise, and offering evidence-based advice on the benefits of appropriate physical activity.
Restriction: BIOSCI 107, EXERSCI 101, 105, SPORTSCI 100G, 101, 105, MEDSCI 142

Fine Arts

Stage I

FINEARTS 109G  15 Points
Introduction to Photographic Practice
Introduces the methods, concepts and contemporary contexts of photographic practice alongside the development of a photographic portfolio. Students will use their own camera, (this can include cell phone cameras) to develop a portfolio of photographic work and explore the ways in which contemporary arts and cultural practices in Aotearoa enable a critical reflection on the production of images.

Stage II

FINEARTS 210G  15 Points
Understanding Contemporary Visual Arts Practice
How does the contemporary art world work? Premised on the idea that there are many art worlds, this course examines global and local contemporary artistic practices, theories, histories and institutions, exploring the practices and discourses that constitute these worlds. No prior knowledge or experience of contemporary art is assumed. Prerequisite: 60 points passed

FINEARTS 211G  15 Points
Understanding Contemporary Fashion Design
Investigates the relationship between fashion design and identity to build understanding of the increasing rapidity of clothing change as both the product of individual choice and the manifestation of a need for community. The emphasis will be on the consumption of fashion and its relationship to the human body with reference to fashion theory in the context of the broader literatures of gender, class and ethnicity. Prerequisite: 60 points passed

French

Stage I

FRENCH 101G  15 Points
Introductory French Language 1
Introduces students to spoken and written French. It is delivered through two 90-minute sessions per week on campus, blended with an on-line component that uses up-to-date methodology and extensive multimedia materials. It is open to beginners or near beginners. Students who have achieved 24 recent credits in Level 1 NCEA French or 12-16 recent credits in Level 2 NCEA French (or equivalent previous study) should enrol in FRENCH 102. FRENCH 101 does not count towards a major in French. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Gender Studies

Stage I

GENDER 101G  15 Points
Gender: Global and Local
Develops an understanding of key concepts that underlie gender analysis, and how they are expressed in politics, culture and society. Examines the meaning of gender across a range of subjects and issues on the global stage and in our everyday lives. Restriction: GENDER 100
### Geography

**Stage I**

**GEOG 103G 15 Points**

**Mapping Our World**

An introduction to contemporary geospatial technologies such as web-mapping, GPS and tracking devices (such as your phone), Remote Sensing and GIS. Covers key concepts and principles behind these tools and their use, along with practical experiences through laboratories. Critical and theoretical perspectives on the tools, their use, and their social impacts will be discussed.

**GEOG 104G 15 Points**

**Cities and Urbanism**

What makes a great city? This course explores 'urbanism' in both historical and contemporary cities to determine the essence of urbanity and the way that citizens (and visitors) experience city life. The dynamics and character of cities are considered in terms of their built environment, environmental systems, population, social diversity, and planning policies and practices.

### German

**Stage I**

**GERMAN 101G 15 Points**

**German Language Introductory 1**

Written and oral use of German for students with no previous knowledge of the language or with fewer than 16 credits in NCEA Level 2 German. **Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.

### Global Studies

**Stage I**

**GLOBAL 101G 15 Points**

**Global Issues, Sustainable Futures**

The basis for sustainability - social issues such as population and consumption, environmental issues such as climate change, limited resources and environmental degradation. Discusses the roles that various disciplines (law, business, engineering and urban planning) will play in developing solutions, including consideration of human rights and good governance, new concepts in economics and business management which will lead to sustainable businesses, developments in science and technology which will change how we manage resources and new visions for cities and communities which will support sustainable ways of life. **Restriction:** GENED 101G

### History

**Stage I**

**HISTORY 103G 15 Points**

**Global History**

It is only since the fifteenth century that a truly global dimension to history can be identified. This course examines key determinants that have bound the fate of peoples together including the emergence of world trade networks, the growth of world religions, the spread of epidemic diseases, the formation of empires, and the migration of peoples across continents. **Restriction:** BUSINESS 101, 111, INTBUS 201, 202

### Humanities

**Stage I**

**HUMS 100G 15 Points**

**Digital Humanities: From Text to txt**

An interdisciplinary course designed to introduce students to the Humanities using digital tools and resources. Students will study the approaches, texts and digital technologies of disciplines in the Humanities such as Art History, English, History, Philosophy, and Theological and Religious Studies. Students will expand their knowledge of the Humanities, extend their digital literacy and build critical and creative thinking skills. **Restriction:** ARTSGEN 100G

### Innovation

**Stage I**

**INNOVATE 100G 15 Points**

**Innovation through Design**

Introduces design thinking and develops a user-centred approach to innovation, emphasising the importance of a deep understanding of user needs throughout an iterative ideation and prototyping process. Utilising the maker space at the Unleash Space and a range of digital tools, students will develop practical making and early stage prototyping skills.

### Innovation and Entrepreneurship

**Stage II**

**INNOVENT 203G 15 Points**

**The Entrepreneurial Mindset**

Stimulates new ways of thinking about enterprising behaviour in a multi-disciplinary manner relevant to understanding and addressing real world challenges of today. Introduces skills needed to identify and assess opportunities, solve problems creatively, communicate persuasively, work effectively in teams, and understand individual and organisational impact. **Prerequisite:** 15 points from BUSINESS 102, 103, 112, 113, MGMT 101, or 90 points passed, or 60 points from Part I of the BE(Hons) Schedule

### International Business

**Stage I**

**INTBUS 151G 15 Points**

**Business across Borders**

Business on a global scale presents unique challenges and unrivalled opportunities to companies equipped to cross national boundaries. Set against a background of current events, the course explores the influence of international trade and multinational corporations on the contemporary global economy. **Restriction:** BUSINESS 101, 111, INTBUS 201, 202
### Italian

**Stage I**

**ITALIAN 100G** 15 Points  
**Introductory Italian Language**  
Learn basic Italian language structures and communication skills, including common words and basic phrases concerning everyday life. Acquire skills of interacting verbally by asking and answering straightforward questions on familiar topics. The course is delivered through a combination of class instruction and interactive online activities. For students with no previous knowledge of Italian.  
*Restriction: ITALIAN 106. May not be taken if an equivalent or more advanced language acquisition course in this subject has previously been passed.*

**ITALIAN 106G** 15 Points  
**Italian Language for Beginners 1**  
Students learn to speak, read and write Italian, studying aspects of contemporary Italian society and thought. This course does not count towards a major in Italian. For students with no previous knowledge of Italian.  
*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.*

---

### Law

**Stage I**

**LAW 121G** 15 Points  
**Law and Society**  
An introduction to theories of the nature, functions and origins of law and legal systems, including sources of law; comparative concepts of law; an overview of constitutional and legal arrangements in New Zealand, including the role of the courts; the operation of the legal system in historical and contemporary New Zealand with a focus on concepts of property rights, the Treaty of Waitangi, Treaty Settlements and proposals for constitutional change. Note: Does not meet the General Education requirement for LLB, LLB(Hons), LLB conjoint or LLB(Hons) conjoint degrees.  
*Restriction: LAW 101*

---

### Linguistics

**Stage I**

**LINGUIST 101G** 15 Points  
**Language, Mind and Society**  
A survey of three areas: the interaction between language structure and use on the one hand, and social structure and social norms on the other (sociolinguistics); the relationship between linguistic and cultural knowledge (anthropological linguistics); and the inter-relationship of language and other cognitive structures, especially as it is revealed through language acquisition (psycholinguistics).

---

### Marine Science

**Stage I**

**MARINE 100G** 15 Points  
**The Oceans Around Us**  
A multidisciplinary approach to understanding the importance of our oceans in terms of natural processes and human uses and values. It includes an understanding of the physical and biological processes in the ocean and how they are addressed through ocean management in New Zealand and internationally, allowing informed debate about the future of the ocean realm.

---

### Marketing

**Stage I**

**MKTG 151G** 15 Points  
**Essential Marketing**  
Introduces fundamental marketing ideas and skillsets. Explores the world of customer value creation and marketing communications through the eyes of marketing and creative experts. Covers current topics in marketing including digital and social media, social entrepreneurship, big data analytics, green marketing and sustainability.

---

### Mathematics

**Stage I**

**MATHS 190G** 15 Points  
**Great Ideas Shaping our World**  
Mathematics contains many powerful and beautiful ideas that have shaped the way we understand our world.
This course explores some of the grand successes of mathematical thinking. No formal mathematics background is required, just curiosity about topics such as infinity, paradoxes, cryptography, knots and fractals.

**Medical Science**

*Stage I*

**MEDSCI 100G**

Human Mind and Body Relationships

Humans share with other living things the features of physical self-generation and adaptation to the environment. Humans also live in a mental (mind) world and maintain relationships with our perceived environments. Minds and bodies mutually affect one another. This mind/body dance, which is explored in this course, is what gives rise to all of human behaviour from simple daily activities to the highest forms of creativity.

**MEDSCI 101G**

Environmental Threats to Human Health

Our environment sustains our lives but at times threatens our health. These threats may occur naturally, or arise from damage we have inflicted on the environment. This course considers health impacts of climate change, pollution, lifestyle choices, poverty and affluence, workplace hazards, emerging infectious diseases, and dangers affecting cancer risk.

**Music**

*Stage I*

**MUS 144G**

Turning-points in Western Music

A study of significant people, major discoveries and inventions, and key factors (artistic, intellectual, social, technical) that were important agents of change in Western music. No previous knowledge of music is assumed.

**MUS 149G**

Rock to Reggae: Tracking Popular Music in New Zealand

An introduction to New Zealand’s home-grown popular music, from the 1950s to the present day. A broad range of musical styles will be considered and situated within various social contexts. The issue of cultural identity in music – at national and local levels – will also be explored.

**Māori Studies**

*Stage I*

**MAORI 101G**

Introduction to Written Māori

An introduction to listening, reading, writing and translation techniques used in the composition, reading and understanding of basic Māori. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition. 

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**MAORI 103G**

Introduction to Spoken Māori

An introduction to spoken Māori for those with no previous knowledge of the language. Concentrates on the acquisition of aural and oral skills, developing the ability to understand and speak Māori.

Restriction: MAORI 106. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**Optometry and Vision Science**

*Stage I*

**OPTOM 101G**

How We See

Overview of the interdisciplinary study of human vision. The course introduces the biological/physiological organisation of the visual system, discusses the subjective nature of perception, and the implications of studies of biological visual systems for machine vision. Interdisciplinary understandings of vision will be enriched by the examination of historical paintings and artists’ visual experiences.

**Pacific Studies**

*Stage I*

**PACIFIC 100G**

Te Moana-nui-a-Kiwa/Pacific Worlds

Introduces students to Pacific Studies and the worlds of Te Moana-nui-ā-Kiwa (The Pacific). Through the study of taonga or cultural treasures drawn from specific cultures and societies, insights into Indigenous Pacific knowledges and practices are developed. Spanning deep history and the contemporary moment, this course provides a critical understanding of change in the Pacific over time and space.

**Pharmacy**

*Stage I*

**PHARMACY 111G**

Drugs and Society

The use of drugs in society including historical perspectives. Selected examples of the use of medicines in disease, recreational drug use and drug misuse, and cultural and ethnic influences on drug use. Differences between conventional and complementary medicines. The role of the pharmaceutical industry in drug discovery, manufacture and promotion. Legal and ethical issues pertaining to access to pharmaceuticals.

**Philosophy**

*Stage I*

**PHIL 105G**

Critical Thinking

An introduction to reasoning, argument, and explanation
that emphasises the development of practical skills and their use in everyday life. The course introduces different forms of reasoning and explains techniques to evaluate them. It will enable students to distinguish good arguments and explanations from bad ones, to explain the difference, and thereby to improve critical thinking abilities.

**Physics**

*Stage I*

**PHYSICS 100G**  
*Models and Reality*  
Explore the role of models in physical science and what they contribute to our understanding of the world, and the concepts of reductionism and emergence. Topics include particle physics, materials science, and climate; and the use of models that explain dynamics of populations and artificial systems, including epidemiology, flocking in birds and fish, and the spread of information in social networks.

**Politics and International Relations**

*Stage I*

**POLITICS 107G**  
*New Zealand Politics*  
An introduction to understanding who governs New Zealand and in whose interests. Topics include national identity, institutions of government, leadership, voting and elections, the place of Māori within the political system, parties and political participation. The course draws on current research in NZ politics and provides knowledge that can be applied to a variety of careers, including law, business and public service.

**Population Health**

*Stage I*

**POPLHLTH 103G**  
*Epidemics: Black Death to Bioterrorism*  
Epidemics have devastated human populations and will continue to do so. This course looks at how epidemics can run rampant through society and how we can control them. It will include examples from the past and present, as well as outline future threats. A diversity of epidemics will be covered, from the plague, gambling, depression, pandemics, nun-biting and alien abduction.

**Psychology**

*Stage I*

**PSYCH 109G**  
*Mind, Brain and Behaviour*  
Topics covered may include: the nature of sensory and perceptual processes, the cause of perceptual illusions, the structure and function of the human brain, approaches to animal and human learning, models of human language and memory, and the design of psychological experiments. A laboratory component, in which students are required to participate as subjects, forms part of the course.

**Russian**

*Stage I*

**RUSSIAN 100G**  
*Beginners’ Russian 1*  
A beginner’s course using multi-media (computer) materials that presumes no prior knowledge of Russian, with emphasis on a range of language skills – listening comprehension, speaking, reading, writing, and the essential grammar of Russian.  
*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

**Samoan**

*Stage I*

**SAMOAN 101G**  
*Samoan Language 1*  
Gives students an introduction to the structure of Samoan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition.  
*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

**Science General**

*Stage I*

**SCIGEN 101G**  
*Communicating in a Knowledge Society*  
Effective communication is required for specialists in all fields to engage meaningfully with society. In this course students gain an understanding of the important role communication plays in a knowledge society. Through case studies and practical experience students learn about the responsibilities and skills required to communicate with a variety of audiences. They learn how to effectively manage and present data and practice oral, written, visual and electronic communication.

**SCIGEN 102G**  
*Contemporary Science in Aotearoa New Zealand*  
What does it mean to do science here and now? This course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding. Students will think critically about the relationships between science and our environment, along with the ethics of science in practice.

*Stage II*

**SCIGEN 201G**  
*Innovating in a Knowledge Society*  
Interdisciplinary examination of science innovation at policy, organisational and project levels including context, impacts and roles of business and research organisations, and ways innovations are presented and received. Case study analysis of the business environment including how innovation is both enabled and constrained in science–based organisations and society, and innovation strategies in science–based organisations.
Stage III

SCIGEN 301G  15 Points

Engaging in a Knowledge Society
Addressing complex issues requires knowledge experts to engage with a variety of people. Solutions will be gained from collaborations that co-produce knowledge in transdisciplinary partnerships that lead to new ways of thinking. This course explores meaningful ways to engage with communities, and reassesses current ways of knowing and doing.

Sociology

Stage I

SOCIOL 101G  15 Points

Understanding Aotearoa New Zealand
Provides an introduction to the sociological analysis of New Zealand society. Looks at familiar events, institutions, social processes from a sociological point of view and offers ways to understand them in new and different ways. Focuses on the structure of New Zealand society and on social and political changes which affect the lives of New Zealanders and shape their society.

Spanish

Stage I

SPANISH 104G  15 Points

Beginners' Spanish 1
Provides a solid grounding in the basic grammar and vocabulary of Spanish for beginners or near beginners, emphasising communicative competence in the present tense. Develops speaking, listening, reading and writing skills, and prepares students at the A1 Level of the Common European Framework of Reference for Languages. Restriction: SPANISH 107. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Sport Studies

Stage I

SPORT 100G  15 Points

Sport in Society
Critically examines the socio-cultural, political and economic significance of sport within Aotearoa New Zealand. Examines how sport is embedded in the lives of people, constitutes identities, and is connected to major spheres of social life and various social issues. Through focusing on select sporting issues it analyses how New Zealanders negotiate understandings of self, ethnicity, gender, sexualities, health, and lifestyle. Restriction: EDUC 104G

Statistics

Stage I

STATS 101G  15 Points

Introduction to Statistics
Intended for anyone who will ever have to collect or make sense of data, either in their career or private life. Steps involved in conducting a statistical investigation are studied with the main emphasis being on data analysis and the background concepts necessary for successfully analysing data, extrapolating from patterns in data to more generally applicable conclusions and communicating results to others. Other topics include probability; confidence intervals, statistical significance, t-tests, and p-values; nonparametric methods; one-way analysis of variance, simple linear regression, correlation, tables of counts and the chi-square test. Restriction: STATS 102, 107, 108, 191

STATS 150G  15 Points

Communicating Statistics
Examines the uses, limitations and abuses of statistical information in a variety of activities such as polling, public health, sport, law, marketing and the environment. The statistical concepts and thinking underlying data-based arguments will be explored. Emphasises the interpretation and critical evaluation of statistically based reports as well as the construction of statistically sound arguments and reports. Some course material will be drawn from topics currently in the news.

Sustainability

Stage I

SUSTAIN 100G  15 Points

Sustainability and Us
What is sustainability? Discusses what sustainability means, and its underpinning values, history and operation within complex physical systems. Students complete a group project to develop skills in collective decision making with a solution focus. Two sustainability issues, such as food and water, are discussed in depth.

Theological and Religious Studies

Stage I

THEOREL 101G  15 Points

The Bible and Popular Culture
An exploration of biblical themes, images, and metaphors in contemporary film, music and cultural arts through which religion and culture intersect. It develops tools appropriate for analysing popular culture, as it moves from the local to the national to the global. Restriction: THEOLOGY 101, 101G

THEOREL 106G  15 Points

Islam and the Contemporary World
Since the religion of Islam has become a very significant aspect of contemporary global and local societies, this course seeks to introduce students to an understanding of key aspects of Islam and an analysis of its significant contribution to New Zealand society as well as to societies and cultures across the world. Restriction: THEOLOGY 106, 106G

Tongan

Stage I

TONGAN 101G  15 Points

Tongan Language 1
Gives students an introduction to the structure of Tongan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for
students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition. 

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Translation Studies

Stage I

TRANSLAT 100G 15 Points
Translation for Global Citizens
Covers the foundations of translation and interpreting as an academic discipline and as a critically important communication enabler which serves a multicultural and multilingual society. The course is designed to equip monolingual students, as well as students with language skills, with the literacy in translation and interpreting increasingly needed to navigate today’s globalised world and to detect and overcome communication gaps in diverse business and private contexts.

Urban Planning

Stage I

URBPLAN 101G 15 Points
Introduction to Urban Planning
An introduction to the discipline of urban planning, examining its evolution, theory, practice, profession, ethics, values and future trends. Offers a critical exploration of the challenges facing urban planners today and into the future. 
Restriction: PLANNING 100G

Youth Work

Stage I

YOUTHWRK 152G 15 Points
Understanding New Zealand Youth
Examines the concept of ‘youth’ and the historical, economic and political contexts in which young people live and are schooled in New Zealand society. The concept of youth is explored as a fundamental aspect of human development, identity and culture. The ways that we learn about what it is to be a young person in New Zealand today, including sport, body image, media, music, technology and social networking will be explored.
## Micro-credentials

A micro-credential certifies the achievement of a specific set of skills and knowledge. Micro-credentials can be stand-alone units and can also potentially be used as credit towards a formal qualification.

Professional Teaching Fellow in German
◊2021 Mareike Schmidt, MA Jena

Professor in Italian
1994 Bernadette Luciano, MA Stan., PhD Col.

Prince of Asturias Professor of Spanish and Latin American Studies
◊2010 José Colmeiro, MA SUNY Stony Brook, PhD UC Berk.

Professor of Spanish and Latin American Studies
1987 Christine R. Arkinstall, MA Oviedo, BA PhD

Associate Professors in Spanish and Latin American Studies
2009 Carlos Eduardo Piñeros, MA PhD Ohio State
1996 Walescka Pino-Ojeda, MA PhD Wash. (Seattle)

Global Studies
Associate Professor
2020 Jamie Gillen, BS Virginia Tech., MA Kentucky, PhD Colorado

Senior Lecturer
2019 Patrick Saulmatino Thomsen, MA Seoul NU, PhD Wash. (Seattle)

Lecturer
2023 Linetto Basilone, MA Naples, PhD

School of Humanities
Head of School
Kim Phillips, BA(Hons) Melb., DPhil York(UK)

Deputy Head of School (Academic)
Jeremy Armstrong, BA New Mexico, MLitt PhD St And.

Deputy Head of School (Postgraduate)
Sophie E. Tomlinson, BA(Hons) Well., PhD Camb.

Deputy Head of School (Research)
Lisa Bailey, PhD Prin., MA

Deputy Head of School (Teaching and Learning)
Andrew Withy, MA PhD

Art History
Professor
2010 Gregory Minissale, MSc City(UK), MA PhD Lond.

Associate Professors
1997 Ngarino Ellis, LLB MA PhD
2002 Erin Griffey, MA PhD Courtauld Inst.
1997 Caroline Vercoe, MA PhD

Classical Studies and Ancient History
Associate Professors
2008 Jeremy Armstrong, BA New Mexico, MLitt PhD St And.
◊2004 Lisa Bailey, PhD Prin., MA

Senior Lecturers
2003 Jennifer Hellum, MA PhD Tor.
2012 Maxine Lewis, BA(Hons) Newcastle(NSW), PhD Synd.

Lecturer
2023 Alex McAuley, BA(Hons) PhD McG., MSc Edin.

English and Drama

Professors
1988 Alex Calder, MA PhD
2005 Selina Tusitala Marsh, ONZM, MA PhD
2006 Lisa Samuels, BA N.Carolina, MA PhD Virginia

Associate Professors
2005 Jan Cronin, BA(Hons) Trinity(Dub.), PhD Leeds
◊2015 Paula Morris, MNZM, MA Well., MFA Iowa, DPhil York(UK)
2014 Emma Willis, MA PhD

Senior Lecturers
2010 Rina Kim, MA UC Dublin, PhD Warw.

Professional Teaching Fellows
2021 Andrew Dawson, MA
◊2018 Sparkle Gibbs, MA PhD
1993 Stephanie Wyatt, MA DipTchg
2015 Agnieszka Zabicka, MA Jagiellonian, PGDipArts PhD

History

Professors
2003 Maartje M. Abbenhuis, BA(Hons) PhD Cant.
1988 Linda Bryder, DPhil Oxf., MA
1992 Malcolm Campbell, BA(Hons) PhD NSW
1993 Caroline Daley, BA(Hons) PhD Well.
1997 Kim Phillips, BA(Hons) Melb., DPhil York(UK)
2009 Jonathan Scott, BA(Hons) Well., PhD Camb.

Associate Professors
◊2004 Lisa Bailey, PhD Prin., MA
2003 Jennifer Frost, BA Calif., MA UC Davis, PhD Wisconsin-Madison
2006 Aroha Harris, MNZM, MPhil Massey, PhD

Senior Lecturers
◊2008 Felicity Barnes, BA PhD DipMgt
2007 Lindsay Diggelmann, MA PhD
1999 Paul Taillon, BA Northwestern, PhD Wisc.
1999 Joseph Zizek, BA BSc Alberta, MA PhD UC Berk.

Lecturer
2021 Rowan Light, BA(Hons) Syd., PhD

Senior Tutor
◊2004 Sara Buttsworth, BA(Hons) PhD W.Aust.

Media and Screen

Professor
2012 Neal Curtis, BA(Hons) E.Lond., MA Nott., PhD Nott.Trent
1992 Laurence Simmons, PhD Well., MA

Associate Professors
2010 Allan Cameron, BA(Hons) MA Otago, PhD Melb.
1998 Shuchi Kothari, MA Pune, MA PhD Texas-Austin
2001 Sarina Pearson, BA Calif., MAVA S.Calif., PhD
2003 Xuelin Zhou, MA Guangzhou, MA Warw., PhD
1997 Nabeel Zuberi, BA(Hons) Nott., MA Mich., PhD Texas-Austin
Senior Lecturers
2012 Brendan Donovan, BA BCom Otago, MA

Professional Teaching Fellow
2007 Peter Simpson, MA

Museums and Cultural Heritage
David and Corina Silich Associate Professor
2006 Linda Tyler, MA Cant.

Philosophy

Professors
1994 Christopher J. Martin, MA Sus., PhD Prin.
2012 Timothy P. Mulgan, BA(Hons) Otago, DPhil Oxf.
1995 Robert L. Wicks, BA Michigan State, MA PhD Wisconsin–Madison

Associate Professor
2008 Matheson Russell, BA Syd., PhD NSW, DipTh Oxf.

Peter Kraus Associate Professor in Philosophy
2023 Krushil Watene, PhD St And., MA

Senior Lecturers
2008 Patrick Girard, BA McG., PhD Stan.
2015 Emily C. Parke, BA Reed, PhD Penn.
1999 Jeremy M. Seligman, BA Oxf., PhD Edin.

Professional Teaching Fellow
2018 Andrew Withy, MA PhD

Theological and Religious Studies

Professor
2013 Mark R. Mullins, BA Alabama, MCS Regent Coll., PhD McM.

Maclaurin Goodfellow Associate Professor in Theological and Religious Studies
2023 Michael Mawson, MA Well., PhD Notre Dame

Senior Lecturer
2009 Nicholas J. Thompson, BA(Hons) MTh Otago, MA Br.Col., PhD Glas., DipLib Well., DipGrad Otago

Mildred Weisman Professional Teaching Fellow
2018 Orna Weinroth, BA Sarah Lawrence, PhD George Wash.

Post Doctoral Research Fellow
2022 Therese Lautua, BA BTHeol(Hons) PhD

School of Māori Studies and Pacific Studies (Te Wānanga o Waipapa)

Heads of School
Tiopira McDowell, MA PhD
Lisa Uperesa, BA UC Berk., MA MPhil PhD Columbia

Māori Studies

Professors
1999 Tracey McIntosh, MNZM, MA PhD
1988 Margaret S. Mutu, BSc MPhil PhD
2017 Linda Waimarie Nikora, MSocSci DPhil Waik.

School of Social Sciences

Head of School
Katherine Smits, BA(Hons) BJur W.Aust., MPhil Camb., PhD Cornell

Deputy Head of School (Academic)
Alice Mills, BA(Hons) MSc PhD Cardiff

Deputy Head of School (Postgraduate)
Judith H. Littleton, BA(Hons) Syd., MA PhD ANU

Deputy Head of School (Research)
Nicholas Malone, BAColorado, PhD Oregon

Deputy Head of School (Teaching and Learning)
Martin Wilkinson, MA DPhil Oxf.

Anthropology

Professors
1996 Melinda S. Allen, BA Arizona, MA Hawaii, PhD Wash. (Seattle)
1993 Gregory D. Booth, BMusEd Temple, MMus PhD Kent State
1999 Simon Holdaway, MA Otago, PhD Penn.
1993 Thegn N. Ladefoged, BA UCSB, MA PhD Hawaii
1998 Judith H. Littleton, BA(Hons) Syd., MA PhD ANU
Associate Professors
2012 Ethan Cochrane, MA PhD Hawaii
2010 Nicholas Malone, BA Colorado, PhD Oregon
2018 Marama Muru-Lanning, DipTchg Waik., MA PhD

Senior Lecturers
2014 Heather Battles, BA Well., MA PhD McM.
2002 Mark Busse, MA Chicago, PhD Calif.
1995 Christine Dureau, MA Monash, PhD Macq.
2011 Sun Hee Koo, MA NYU, PhD Hawaii
2016 Rebecca Philipps, MA PhD
2000 Kirsten Zemke, MA PhD

Lecturer
2020 Callie Vandewiele, BA(Hons) Pacific, PhD Camb.

Senior Research Fellow
Dilys A. Johns, MA; CCI ICCROM NZCCM

Criminology
Associate Professors of Criminology
2012 Alice Mills, BA(Hons) MSc PhD Cardiff
2010 James Oleson, MPhil PhD Camb., JD UC Berk.
2016 Tamasailau Suaili-Sauni, MNZM, LLB MA PhD

Senior Lecturers in Criminology
2013 Ronald Kramer, BA La Trobe, MA MPhil PhD Yale
2015 Claire Meehan, BSc(Hons) PhD Ulster, MSSc PGCE Belf.
2013 Robert Webb, MA PhD
2020 Susann Wiedlitzka, BS Cal. Polytech., MA Hamburg, PhD Qld.

Development Studies
Professor
2014 Andreas Neef, MSc PhD Hohenheim

Senior Lecturer

Senior Research Fellow
Chapika Sangkapitux, MSc NIDA, PhD Monash

Politics and International Relations
Professors
2006 Jennifer Curtin, MA Waik., PhD ANU
1992 Martin Wilkinson, MA DPhil Oxf.

Associate Professors
2006 Jennifer Lees-Marshment, MA Manc., PhD Keele
2013 Stephen Noakes, BA(Hons) Qu., MA Br.Col., PhD Qu.
2004 Katherine Smits, BA(Hons) BJur W.Aust., MPhil Camb., PhD Cornell

Senior Lecturers
2014 Maria Armoudian, BA SW Oklahoma State, PhD S.Calif.
2018 Timothy Fadgen, BA Mass., MA Syracuse, JD Maine, PhD
2013 Thomas Gregory, BA(Hons) Sheff., MSc Aberystwyth, PhD Manc.
2002 Geoffrey Kemp, MA MPhil PhD Camb.
2019 Fabio Scarpello, MA PhD Murd.
2012 Christopher Wilson, MA PhD ANU

Lecturers
2023 Nicole Wegner, MA PhD Mc.*M.
2024 Victoria Woodman, MA

Public Policy
Professor
2006 Jennifer Curtin, MA Waik., PhD ANU

Senior Lecturer
2018 Timothy Fadgen, BA Mass., MA Syracuse, JD Maine, PhD

Lecturers
2021 Sarah Bickerton, MA Cant.
2021 Mohammad Salimifar, MA Ferdowsi, PhD

Quantitative Social Sciences
Associate Professor
2008 Barry Milne, BA(Hons) MSc Otago, PhD King’s Coll. Lond.

Senior Lecturer
2015 Stephanie D'Souza, BSc(Hons) PhD

Sociology
Professors of Sociology
2022 Francis Collins, MA PhD
2000 Steve Matthewman, MA PhD

Associate Professors in Sociology
2008 Bruce M. Z. Cohen, BSc(Hons) Tees., MSc Hudd., PhD Brad.
2000 Vivienne Elizabeth, BA PhD Cant.
2011 Campbell Jones, BA MCom Otago, PhD Keele

Senior Lecturers in Sociology
2009 Ciara Cremin, MA PhD Leeds
2011 Manuel Valle, MA PhD UC Berk.

Senior Lecturer in Sociology and Gender Studies
2015 Carisa R. Showden, AB Syracuse, MA PhD N.Carolina

Lecturers in Sociology
2022 Karly Burch, PhD Otago
2020 Moeata Keil, MA PhD
2020 Sereana Naepi, PhD Br.Col., MA
Faculty of Business and Economics

Dates given are those of taking up employment. Where degrees and diplomas are shown without the name of the awarding university, the university is Auckland. ◊ Denotes a part-time, permanent appointment.

Faculty Management Team

⚠️ 2015 Nina Hood, BA(Hons) Lond., MA NYU, MSc DPhil Oxford, GradDipTchg(Secondary)
2024 Calendar  University Personnel

2018 Naashia Mohamed, BA Stir., MA PhD
2010 Rod Philpot, BA BEd Leth., MEd PhD PGDipEdMgt
2008 Constanza Tolosa, BA The Andes (Colombia), MA SUNY Stony Brook, EdD

Lecturers
2015 Hayley McGlashan, BPE ACE, MProfStuds PhD
2014 Jacinta Oldehaver, BEd DipTchg ACE, MEd PhD
2002 Jean M Uasike Allen, BEd ACE, MEd PhD

Professional Teaching Fellows
2017 Megan Clune, BEd(Tchg) MProfStuds PGDipEd
2016 Toni Driller, BCom MEDPrac GradDipTchg
2005 Gillian Frankcom, BA(Hons) Open(UK), PGCE Lond., MEd PhD
2022 Moema Gregorzewski, MA PhD
2012 Gail Ledger, DipEd MEd

Research Fellow
2017 Analosa Veukiso-Ulugia, BSW(Hons) MPP PhD

Honorary Professors
Richard Tinning, BEd(PE) W.Aust., BEd La Trobe, PhD Ohio State, HonD Deakin
Ian Wilkinson, BEcon James Cook, MAppPsych Qld., PhD Illinois

Honorary Associate Professor
Wayne Smith, DipPE Otago, MEd Deakin, PhD Qld.

Honorary Principal and Senior Lecturers
Elizabeth Anderson, BA Cant., MEd Massey, EdD
Nola Harvey, MEd PGDipLangLit Waik., DipTchg NSTC, DipTchg(ECE) ACE, CertTESOL Trinity (Lond.), BA
Rena Heap, BSc Well., DipTchg WCE, PGCertDigital Unitec, MEd PhD
Adrienne Sansom, MA PhD N.Carolina Greensboro, DipDanceDramaEd HDipTchg ACE, DipKTchg AKC

Honorary Research Fellow
Naomi Rosedale, MA PhD GradDipTchg PGDipEdLd

Learning, Development and Professional Practice
Head of School
Marek Tesar, TTC MA Comenius, PhD

Group Services Coordinator
Donna Johnson

Professors
2005 Gavin T. L. Brown, BEdTESL C’dia (Québ.), MEd Massey, PhD; FAPS
2005 Deidre Le Fevre, BEd Massey, PhD Mich., DipTchg PNTC, MEd
1998 Christine Rubie-Davies, MNZM, DipTchg NSTC, BA MEd Phd; FAPA FAPS FRSNZ
2013 Marek Tesar, TTC MA Comenius, PhD

Associate Professors
1991 Helen Dixon, BEd Waik., MEdAdmin Massey, DipEHC ACE, EdD
1986 Lexie Grudnoff, MA PhD Waik., DipEd DipEHC DipMan HDipTchg Henley
1987 Eleanor Hawe, MEd DipTchg Waik., PhD
2015 Kane Meissel, MSc PhD
2009 Claire Sinnema, LTCL, DipTchg ACE, BEd MEdMgt EdD
2012 Jason M. Stephens, BA Vermont, MEd Vanderbilt, PhD Stan.

Senior Lecturers
2011 Pat Bulleen, BSc Loyola Chicago, BA(Hons) PhD
2009 Maria Cooper, DipTchg PGDipEd ACE, BCom MEd PhD
2002 Maree Davies, PhD Melb., DipTchg DipMathEd PGDipEd ACE, BA MEd
2003 Esther Fitzpatrick, BEd DipTchg Waik., MEd PhD
2019 Camilla Highfield, MFA RMIT, DipTchg ACE, EdD
1999 Lyn McDonald, DipTchg ACE, BEd MEdAdmin Massey, EdD
2015 Frauke Meyer, MEd Oldenburg, MEd PhD
2020 Jo Smith, PhD S.Calif., GradDipEd Melb.
2011 Penelope Watson, LTCL, LRSM, DipTchg ACE, BA PhD PGDipEd

Lecturers
2004 Annaline Flint, BA S.Af., HDE Cape Town, MEd PhD
2020 Kiri Gould, MEd DipTchg Waik., PGDipEd Unitec, PhD
2017 Kaye Twyford, BA Massey, DipTchg PNTC, MA PhD PGDipEdLd
2011 Janna Wardman, MEd Melb., PhD
2013 Deborah Widdowson, PhD UC Berk., MA

Professional Teaching Fellows
2002 Sandra Chandler, DipTchg ACE, BA MEd
2002 Paul Heyward, DipTchg PGDipEd ACE, BA MEd EdD
2015 Kiri Jaquieri, BEd Auck.UT, PGDipEd
2010 Vivienne Mackisack, DipTchg WCE, PGDipSM Unitec, DipSTN ACE, MEd PhD
2002 Brian Marsh, PhD PGDipEd Massey, DipTchg ACE, MA
2015 Justine O’Hara-Gregan, BA DipTchg Waik., DipEl ACE, MEd PhD
2015 Shareen Sapsworth, BEd ACE, PGDipEdMgt PGDipBus
2011 Tessa Tupai, BEd(Tchg)(Hons) MEd
2022 Dennis Yeung, BSc HK, MPhil EdUHK
2020 Megan Welton, MSc PhD

Senior Tutor
2002 Sheryll McIntosh, MEd DipTchg
Research Fellows
Georgi Toma, MA NYU, PhD, Syd., Auck.
Shengnan Wang, BA Yunnan, MA Durh., PhD

Honorary Associate Professors
Mavis Haigh, PhD Waik., DipTchg ACE, BA BSc
Richard Hamilton, MA PhiD Illinois
Mary Hill, BA Well., Med PhD Waik., DipTchg WTC

Honorary Principal and Senior Lecturers
Diti Hill-Denee, DipTchg ATC, MA
Ngaire Hoben, DipTchg ACE, MedAdmin MA EdD
John Hope, DipEd ACE, MA PhD
Jean Rockel, Med DipEd Massey, DipTchg

Honorary Senior Research Fellow
Louise Keown, MA PhD

Honorary Research Fellows
Mohamed Alansari, MA PhD
Ann Dunphy, MNZM, MA
Joy Eaton, BA DipSM Unitec, DipTchg ACE
Julia Westera, BA Tas., DipEd Qld., DipEdPsych MA PhD

Te Puna Wānanga

Head of School
Helene Connor, BA DipTchg PGDipWomSt Massey, Med PhD

Professors
♦1987 Alison Jones, MNZM, BSc Massey, MPhil PhD
2009 Stephen May, BA(Hons) Well., Med Massey, PhD Brist., DipTchg CCE, BA: FRSNZ
1996 Tony Trinick, EdD Waik., HDipTchg PNTC, MA DipMathsEd
2002 Melinda Webber, BEd DipTchg ACE, Med PhD PGDipEd

Principal and Senior Lecturers
2016 Piata Allen, BMD Auck.UT, Med GradDipTchg(Sec)
2016 Helene Connor, BA DipTchg PGDipWomSt Massey, Med PhD
1996 Hēmi Dale, DipTchg ACE, BA Med PGDipArts
2004 Peter J. Keegan, BA(Hons) PhD Well., MPhil Waik.
1998 Sophie Tauwehe Tamati, BEd ACE, PGDipInt&Trans DipTchg Waik., Med PhD

Lecturers
♦2015 Ruth Lemon, BCS Auck.UT, Med GradDipTchg(Primary)
2021 Hana Turner-Adams, DipTchg ACE, Med PhD
1992 ’Ema Wolfgramm-Foliaki, MA PhD PGCertAcadPrac

Professional Teaching Fellows
♦2012 Lincoln Dam, BA(Hons)
♦2005 Tamsin Hanly, DipTchg ACE, MA
♦2019 Ella Newbold, MSc Waik., DipTchg ACE
♦2015 Rochai Tairaroa, BLS Waik., BScPhys Wintec, GradDipT Waik., MProfStuds

Research Fellow
♦2022 Frances Hancock, BSW(Hons) Massey, MTS Harv., PhD

Honorary Lecturers
John McCaffery, BA(Hons) DipTchg HDipTchg DipTESSOL Well.
Rae Si’i’lata, BEd(Tchg) DipTESSOL HDipTchg HCertBilEd ACE, MA PhD
Hinekura Lisa Smith, BA Waik., Med GradDipTchg PhD

Honorary Research Fellow
Rose Yukich, GradDipTchg ATC, MA PhD

Tai Tokerau Campus

Director of Tai Tokerau
Māia Hetaraka, BEd(Tchg)(Hons) EdD

Group Services Coordinator
Marama Temu

Lecturers
2019 Tania Cliffe-Tautari, BA GradDipTchg PGDipEd Waik., Med PhD
2012 Māia Hetaraka, BEd(Tchg)(Hons) EdD

Professional Teaching Fellows
2021 Michael Harrison, BEd(Tchg)
2011 Veronica Peri, DipTchg ACE, Med
2018 Mirko Wojnowski, MA Kansas, MA Tor., PGCertAcadPrac

Faculty of Engineering

Dates given are those of taking up employment. Where degrees and diplomas are shown without the name of the awarding university, the university is Auckland. ♦ Denotes a part-time, permanent appointment.

Faculty Management Team

Dean
Richard Clarke, MMath PhD Nott.

Deputy Dean
Jason M. Ingham, PhD UCSD, MBA ME; FEngNZ FIStructE FNZSEE, MASCE

Associate Dean Postgraduate (Research)
Nirmal Nair, BE Baroda, ME IIs., PhD Texas A&M; CIGRE Dist. Member, SMIEEE

Associate Dean Postgraduate (Taught)
Cody Mankelow, BA BSc MHSc MEngst PhD

Associate Dean (Research)
Mark Battley, BE PhD
Associate Dean (Teaching and Learning)
Enrique del Rey Castillo, MEng TU Madrid, ME Gdansk TU, MSc Minho, MSc CTU, PhD PGCertHigherEd; CMEng CPEng

Associate Dean (Academic)
Michael A. Hodgson, BE PhD

Associate Dean (International)
Partha S. Roop, BE Anna, MTech IIT Kharagpur, PhD NSW

Associate Dean (PBRF)
Andrea Raith, BSc Dipl.-Math TU Darmstadt, PhD

Associate Dean (Equity and Diversity)
Catherine Watson, BE(Hons) PhD

Assistant Dean (Academic)
Andrew J. Mason, PhD Camb., BE(Hons); MEngNZ

Assistant Dean (Teaching and Learning)
Hazim Namik, BE(Hons) PhD

Director of Faculty Operations
Michael Willimott, MMus

Director of Faculty Finance
Suzanne Pohlen, BCom; CA

Departments

Chemical and Materials Engineering

Head of Department
Ashvin Thambyah, BSMBE Marquette, MSc DIC Imperial, PhD NU Singapore, PGCertAcadPrac

Deputy Head of Department (Academic)
Meng Wai Woo, BE James Cook, PhD NU Malaysia; CEng, MChemE

Professor and Chair in Food and Process Systems Engineering
2006 Brent Young, BE(Hons) PhD Cant., GradCertHighEd Technol.Syd.; CEng, FChemE FEngNZ

Emeritus Professors
Neil D. Broom, BEMet(Hons) Melb., PhD; FRSNZ
John J. J. Chen, BE, PhD; CEng, FChemE FRSNZ

Geoffrey G. Duffy, BSc, ASTC Dip. NSW, PhD DEng; CEng, FChemE, FRSNZ
Mohammed M. Farid, BSc Baghdad, MSc PhD Swansea; CEng, FChemE
W. George Ferguson, BSc BE NZ, PhD; CEng CSci, FEngNZ FIE Aust FIMMM

Associate Professors
2005 Mark I. Jones, BE PhD; CEng CPEng, FIMMM, MEngNZ MRSNZ
2015 Steve Matthews, BE PhD
2010 Jenny Malmstrom, MSc Chalmers, PhD Aarhus
2010 Ashton Partridge, PhD La Trobe, BSc; MNZIC
2019 Meng Wai Woo, BE James Cook, PhD NU Malaysia; CEng, MChemE

Senior Lecturers
2018 Amar Auckaili, BSc Baghdad, MSc Jordan, MHigherEd PhD; CEng, MChemE
2019 Laura J. Domigan, BSc(Hons) PhD Cant. (jointly with Biological Sciences)
1993 Michael A. Hodgson, BE PhD
2015 Kaveh Shabbaz, BSc Azad JK, MSc Semnan, PhD Malaya, PGCertHigherEd
2013 Filicia Wicaksana, BEng Widya Mandala, MSc DIC Imperial, PhD NSW
2019 Shan Yi, BEng Tianjin, MEng PhD Nanyang Technol.
2008 Wei Yu, BE Liaoing, MS PhD Qu.

Lecturers
2019 Reza Arjmandi, BSc(Hons) Isfahan UT, PhD Auck.UT
2019 Shanghai Wei, BEng HUAT, MEng Sichuan, PhD; MEngNZ MRSNZ

Professional Teaching Fellows
1994 Paul Collins, BE
2019 Amanda Dilenno, BS Carnegie-Mellon
2019 Andrea Kolb, Dipl.-Ing (FH) Nuremberg Tech., PhD Well.
2022 Marc Lewis, BE(Hons)
2018 Thomas Loho, BE(Hons) PhD

Research Fellows
2018 Alireza Akbarinejad, MSc Sharif UT, PhD Tarbiat
2019 Anais Chalard, Dipl.-Ing Toulouse INP-ENSIACET, PhD Paul Sabatier
2015 Muhammad Hayat, BE MSc Chalmers, PhD
2019 Vonne M. van Heeswijk, MSc Eindhoven UT, PhD
2022 Jake Jin-Kyo Oh, BTech MSc PhD
2019 Jingjing Liu, ME Northeastern (China), PhD; AMChemE
2023 Subhasree Bhaskar Sarkar, BPharmTech WBU, MEng Hanseo, PhD

Honorary Academic
Harvey Weake, BE(Hons) Cant.; FEngNZ

Honorary Research Fellow
John Kennedy, BSc Madurai-K, MSc Madr., PhD

Civil and Environmental Engineering

Head of Department
Jason M. Ingham, PhD UCSD, MBA ME; FEngNZ FNZSEE MASCE Life Member SESOC
Deputy Head of Department (Academic and Service)
Richard S. Henry, BE(Hons) PhD; MEngNZ

Deputy Head of Department (Research)
Liam Wotherspoon, BE(Hons) PhD; FNZSEE, MEERI; MEngNZ

Professors
2008  G. Charles Clifton, BE(Hons) ME Cant., PhD; FEng NZ, Life Member NZSEE and SESOC
2010  Seosamh B. Costello, BE NUI, MSc PhD Birm.; CEng, CMEng NZ MIEI
1999  Kim N. Dirks, BSc MCG., MSc PhD
2014  Lokesh P. Padhye, BE(Hons)
2010  Richard S. Henry, BE(Hons) PhD; MEngNZ
2007  Theuns Henning, ME
2007  Nawawi Chouw, Dipl.-Ing. Dr.-Ing.
2013  Alice Yan Chang-Richards, BE(Hons) MSc
2016  Ray Payne, BE PhD; Dist.FEng NZ FRNZ, MASCE
2007  Rolando O. Orense, MSc Philippines, DEng Tokyo; CMEng NZ MASCE, PE
2007  Pierre Quenneville, BE RMC, MEng Montreal, PhD Qu.; FEng NZ, MSc, PEng
2011  Ajit K. Sarmah, BScEng(Hons) SHUATS, MEng Asian IT; MS Qld., PhD Adel.; CMEng NZ MRSNZ
2005  Asaad Y. Shamseldin, BSc Khartoum, MSc PhD NUI Galway; MEngNZ
1996  Naresh Singhal, BTech IIT Bombay, MS Louisiana St., MA PhD Prin.; MEngNZ
2019  Jakobus E. van Zyl, M.Eng Jo'burg, PhD Exe.; MASCE, PrEng
2009  Liam Wotherspoon, BE(Hons) PhD; FNZSEE, MEERI; MEngNZ

Adjunct Professor
2016  Ray Payne, BE

Associate Professors
2013  Alice Yan Chang-Richards, BE(Hons) MSc CSUT China, PhD
2007  Nawawi Chouw, Dipl.-Ing. Dr.-Ing. Ruhr; DGBE, EERI, NZSEE, MEngNZ
2007  Theuns Henning, ME Pret., PhD; CMEngNZ, IntPE
2010  Richard S. Henry, BE(Hons) PhD; MEngNZ
2014  Lokesh P. Padhye, BE(Hons) SPCE, MS PhD Georgia Tech., PE Texas, MHigherEd; CMEngNZ, SFHEA
2000  Douglas J. Wilson, BE PhD, NZCE; CMEngNZ

Adjunct Associate Professors
2017  Steven Briggs, ME DIS Lough.
2018  Bruce Marks, BE

Senior Lecturers
2014  Subeh Chowdhury, BE(Hons) PhD; MEngNZ
2019  Enrique del Rey Castillo, MEng TU Madrid, ME Gdansk TU, MSc Minho, MSc CTU, PhD PGCertHigherEd; CMEng CPEng
2018  Lucas Hogan, BS Cal. Polytechn., PhD
2019  Minh Kieu, BSc Hanoi UST, MS Linköping, PhD Qld.UT; MAITPM MATIUAP MASCE MEASTS MIEEE MPIA
2021  Kilisimasi Latu, PhD Melb., ME
2006  Quincy T. M. Ma, BE(Hons) PhD; FNZSEE, MEngNZ
2019  Sandeeka Mannakkara, BE(Hons) PhD

2011  Gary Raftery, BE(Hons) PhD PGCert NUI Galway; MEngNZ MIEI
2007  Prakash Ranjitkar, BE Tribhuvan, ME Asian IT, PhD Hokkaido; CMEngNZ
2018  Tom Shand, BE(Hons) Cant., PhD NSW
2019  Max Stephens, MS Portland St., PhD Wash. (Seattle)
2018  Charlotte Toma, BE(Hons) PhD; MIAHR MEngNZ
2016  Colin N. Whittaker, BE(Hons) PhD Cant.; MIAHR MEngNZ
2015  Wei-Qin Zhuang, BE Tianjin, MEng PhD Nanyang Technol.; MEngNZ
2019  Conrad Zorn, BE(Hons) Cant., ME PhD
2018  Yang Zou, BE CQJTU, MSc Cardiff, PhD Liv.; MEngNZ

Lecturers
2018  Tūmanako Fa’a’au, BE(Hons) PhD
2021  Ashkan Hashemi, ME PhD; CPEng CMEngNZ, IntPE (APEC)
2023  Hongyu Jin, BMGT QDU, MSc UC Lond., PhD Deakin
2022  Shanon Lim, BCom BSc Otogo, PhD King’s Coll. Lond., MSc; CAANZ CASANZ
2022  Romain Meite, MS ESTP Paris, PhD; MEngNZ
2022  Arezoo Rahimi, BSc Isfahan UT, MSc PhD Nanyang Technol.
2023  Alex Shegaj, BE(Hons) PhD
2015  Wei-Qin Zhuang, BE(Hons) PhD; MIAHR MRSNZ
2023  Nona Taute, BE(Hons); MEngNZ

Professional Teaching Fellows
2018  Andrew Brown, BSCE(Hons) Texas-Austin, MSCE UC Berk., PhD Texas-Austin, PE Texas; CPESC MASCE
2009  Bevan A. Clement, BCA Well., MBA Walk.; MILT
2019  Con Lu, ME Pavia; CMEng NZ CEng(UK), MIStructE
2023  Paraone Luiten-Apirana, BCom BE(Hons)
2016  Cody Mankelow, BA BSc MHSc BE(Hons) MEng PhD
2008  Garry Miller, BSc(Hons) Durh., MBA Leeds, PhD; FICE, MEngNZ MIStructE, MAPM, PMP, CEng(UK)
2018  Erik van den Top, BEng(Hons) Utrecht; CAPP ACCN

Research Fellows
2022  Tahereh Jasemi, MEHE Shahid Sadoughi, PhD
2022  Amelia Lin, MSc TU Berlin, PhD
2022  Bharat Manna, PhD IIT Kharagpur
2017  Fedelyn Regualy, MS UP Diliman, PhD; MEngNZ
2023  Yaxiong Shen, BE(Hons) PhD

Honorary Staff
1972  Roger C. M. Dunn, BE NZ, BSc Well., MEngSc NSW; FITE FEng NZ
2006  Heide Friedrich, Dipl.-Ing Bauhaus, PhD; MASCE MEngNZ MIAHR MRSNZ
2010  Vicente Gonzalez, BE(Hons) Valparaiso, ME PhD Catholic U. Chile; MASCE MEngNZ
2019  Pablo Higuera, BE(Hons) MS PhD Cantabria
1980  Thomas J. Larkin, BE PhD; MEngNZ
1983  James Lim, BEng Sheff., PhD Nott.; CEng, MICE
1989  Hugh W. Morris, ME; CMEngNZ
Electrical, Computer, and Software Engineering

Head of Department
Kevin W. Sowerby, BE PhD; SMIEEE

Deputy Head of Department (Academic)
Mark Andrews, BE PhD

Deputy Head of Department (Research)
Oliver Sinnen, Dipl.-Ing RWTH Aachen, ME PhD IST Lisbon

Professor of Computer Systems
1994 Zoran Salcic, Dipl.-Ing ME PhD Sarajevo; FRSNZ, SMIEEE

Professors
1992 Grant A. Covic, BE PhD; FENZ FRSNZ, SMIEEE
2000 Aiguo (Patrick) Hu, BE PhD; SMIEEE
1995 Bruce MacDonald, BE PhD Cant.; SMIEEE

Andrew Connolly, MNZM, MBChB; FRACS
Donald Harris, MD Minn.; FACS FSVS
Salil Nair, MBChB Dund.; FRCS
Garth Poole, MBChB; FRACS

Honorary Senior Lecturers
Shanel Deo, MBChB; FRACS
Jonathan Mathy, MD Stan.; FRACS
Amber Moazzam, MBBS Pakistan; FRACS
Stanley Shing, MBChB; FRACS

Surgery – Taranaki

Academic Coordinator (Taranaki)
Edmund Leung, MBChB Imperial, DMedSci Warw., PCert Management WITT; FEBS FRCS, MRCS, RCS(Eng), UEMS

Senior Lecturers
2019 Michael Connelly, MD Minn., MPH Mich.; FACEM FACEP
2018 Murray Cox, MBChB Otago; FRACS
2018 Falah El-Haddawi, MBChB Baghdad; FRACS
2017 Wayne Elliott, MBChB Otago; FRACS
2019 Glenn Farrant, MBChB Otago
2018 Susie Flink, MD Wayne State; FACEM
2017 James Johnston, MBChB Otago; FRACP

Honorary Associate Professor
2018 Andrew Connolly, MBChB; FRACS

Honorary Senior Lecturer
Ashok Gunawardene, MBChB(Hons) Birm., PhD Otago; MRCS

Surgery – Waikato/Rotorua

Adjunct Associate Professor
2009 Ian Campbell, MBChB; FRACS

Senior Lecturers
2018 Joseph Baker, MBChB Otago, MCh UC Dublin; FRCS
2022 Jesse Fischer, MBChB MMedSc Otago; FRACS
2000 Manar Khashram, MBChB; FRACS
2010 Win Meyer-Rochow, MBChB Otago, PhD Syd.; FRACS
2021 Nish Patel, MBChB Wales, PhD Brst.; FRACS
2019 Mazen Shasha, MBChB MSc Basrah; FAMPA
2017 Andrew Wood, BA BMCh Oxf., PhD; FRACS

Honorary Associate Professor
Jitoko Cama, MBBS Fiji; FRACS

David McCormack, MBBS King’s Coll. Lond.; FRCS

Honorary Senior Lecturers
Omid Ahmadi, MBChB; FRACS
Jonathan Bartlett, MBChir Camb.; MRsB
Abdul-Kader Ebrahim, MBChB Cape Town; FRACS
Jesse Fischer, MBChB MMedSc; FRACS
Niroshan Kumar, MA Cant., MB BCHIR; FRCSI
Asanga Nanayakkara, MBChB, Otago
Ruwan Paranawidana, MBBS Sri Lanka; FRACS
Kumanan Selvarajah, MBChB BDS MDS; FRACS
Thasvir Singh, MBChB; FRACDS(OMS) FRACS
Martyn Sims, MBChB; FRACS

Honorary Academic
Abdul-Kader Ebrahim, MBChB Cape Town; FRACS

Surgery – Waitematā
Associate Professor
2014 Simon Young, MBChB; FRACS

Advanced Clinical Skills Centre
Director
Chris Lash, MBChB; FACEM
Manager
Ada Li

Clinical Skills Centre
Director
Harsh Bhoopatkar, GradCertClinEd NSW, MBChB MMedSc

Group Services Coordinator
...

Associate Professor
‡2001 Andrew Wearn, MBChB MMedSc Birm.; FRNZCGP, MRCGP

Senior Lecturer
‡2013 Karen Falloon, MBChB PhD DipPaed PGDipMedSc; FRNZCGP

Professional Teaching Fellow
‡2010 Miriam Nakatsuji, PGCertWHlth Otago, MBChB DipPaed; FRNZCGP

Learning and Teaching Unit
Director
John P. Egan, BA SUNY Oswego, MA PhD Br.Col., MHigherEd

Professional Teaching Fellows
2015 Gulay Dalgic, BA Bosphorus, MBA Beykent, PhD Marmara
2015 Emma Sadera, BA(Hons) Lond., MA Open(UK)

Senior Tutor
2008 Pauline Cooper-loelu, MA PGCertAcadPrac

Medical Programme Directorate
Head of Medical Programme
Andrew D. MacCormick, MBChB PhD; FRACS

Deputy Head of Programme
E. Briar Peat, MBChB MSc Lond., DTM&H LSHTM, PGDipClinEd NSW; FRACP

Director of Admissions
Navdeep Sidhu, MBChB PGCertHealSc Otago, MClinEd; FAcadMed FANZCA

Director of Assessment
Karanjot Lall, MBChB DCH Otago

Phase 1 Director
Carolyn J. Barrett, BSc PhD PGDip Otago

Phase 2 Director
Kira Bacal, MPH Texas, MD PhD Baylor; FACEP

Phase 3 Director
Michael Puttick, MB BS MD; FRCS, MRCS

Year 2 Coordinator
Kathleen Mistry, GradCertPalliative Fln., PGDipPaeds Otago, BHB MBChB

Year 3 Coordinator
Stephen Ritchie, MBChB PhD; FRACP

Year 4 Coordinator

2006  
Janine Wiles, MA Otago, PhD Qu.

### Senior Lecturers

2019  
Sarah Fortune, MPsychSc UC Dublin, MSc LSHTM, BA PhD

2017  
Rodrigo Ramallho, MD UNA, PhD

2019  
Ryan San Diego, BSc Letran, MSc DLSU, PG Dip PsychPrac Massey, PhD

### Lecturers

2022  
Vartika Sharma, BPhysio GGS Indira., MBA IHMR, PhD Ghent

### Senior Tutor

2007  
Deborah Hager, MPH PhD

### Professional Teaching Fellow

2023  
Carina Walters, BPharm Otago, MSc Adel.

### Senior Research Fellow

2022  
Andrea Edwards, MS APUS, PhD

### Research Fellow

2016  
Joanna Ting Wai Chu, MSc PhD

### Honorary Associate Professor

Elsie Ho, MNZM, MSc HK, PhD Waik.

### Honorary Senior Lecturer

Peter Huggard, JP, MPH MEd EdD; ACIS

### Honorary Research Associate

Edwin Sayes, BA PhD

### Honorary Research Fellow

Julie Spray, BFA(Hons) MA PhD

### Honorary Senior Research Fellows

Jinsong Chen, MPH PhD

Andi Crawford, MSc PG Dip Clin Psych Well., PhD

Sarah Gerritsen, MA Dip Arts Well., PhD

Pauline Gulliver, BSc PhD Otago

Ladan Hashemi, B Clin Psych Med Psych PhD Shiraz

Raimond Jacquemard, MBChB VU Amsterdam, MMed OFS

### Te Kupenga Hauora Māori

### Head of Department, Tumuaki

M. J. Papaarangi Reid, DipComH Otago, BSc MBChB DipObst; FNZCPHM FRACS

### Group Services Manager

Sue Kistanna, MBA, CA

### Professors Te Kupenga Hauora Māori

2022  
Jonathan Koea, MBChB MD; FRACS

2005  
M. J. Papaarangi Reid, DipComH Otago, BSc MBChB DipObst; FNZCPHM FRACS

### Associate Professors Te Kupenga Hauora Māori

2015  
Donna Cormack, MA PhD Waik.

2006  
Rhys G. Jones, MBChB MPH; FNZCPHM

2016  
Sarah-Jane Paine, MSc Otago, PhD Massey

### Senior Lecturers Te Kupenga Hauora Māori

2008  
Anneka Anderson, MA PhD

2022  
Danny de Lore, MBChB DCH Otago; FRACP

2016  
Jade Tamatea, MBChB PhD; FRACP (jointly with Medicine)

2019  
Karen Wright, MBChB DCH(Credit) Otago, MPH; FRNZCP, MNZCPHM

### Lecturer Te Kupenga Hauora Māori

2021  
Marie Jardine, MSLTPrac PhD

### Professional Teaching Fellows

2022  
Hana Burgess, BHSc(Hons) MPH
Faculty of Science

Dates given are those of taking up employment. Where degrees and diplomas are shown without the name of the awarding university, the university is Auckland. ◊ Denotes a part-time, permanent appointment.

Faculty Management Team

Dean
John G. Hosking, BSc PhD; FRSNZ, Mem.IEEE

Deputy Dean
Julie Rowland, DipTchg ACE, BSc(Hons) PhD Otago

Associate Dean (Academic)
Bruno Fedrizzi, MSc PhD Padova

Associate Dean (Diversity and Inclusion)
Sonia Fonua, BSc MA PhD

Associate Dean (Doctoral)
Vivien Kirk, PhD Camb., MSc; FNZMS

Associate Dean (International)
Sebastian Link, MSc TU Clausthal, PhD Massey, DSc

Associate Dean (Māori)
Jade Le Grice, BA(Hons) PhD

Associate Dean (Masters and Postgraduate Taught)
Tilo Söhnel, DiplChem PhD TU Dresden; MNZIC

Associate Dean (Pacific)
Sina R. Greenwood, MSc PhD

Associate Dean (Research)
Jan Lindsay, Dr. rer. nat. Giessen, MSc

Associate Dean (Sustainability)
Gillian Lewis, BSc(Hons) PhD Otago

Associate Dean (Teaching and Learning)
Andrew J. Luxton-Reilly, BSc MA PhD PGCertAcadPrac; MACM Mem.IEEE

Assistant Dean (International)
Sathiamoorthy Manoharan, BTech IIT Kharagpur, PhD Edin.

Associate Dean (PBRF)
Robert Amor, MSc Well., PhD

Associate Dean (CFI)
Murray Ford, MSc PhD

Kāiārahi
Teariki Tuiono, BSc NZ, MEd CCE, GradDipLnTchg Massey

Director of Faculty Operations
Linda Thompson, DipTchg ACE, BA Otago, MMgt PGDipBusAdmin Massey

Director of Faculty Finance
Louise Jones, BCom

Centres of Research Excellence

Maurice Wilkins Centre
Director
Gregory M. Cook, MSc DPhil Waik.; FRSNZ (The University of Otago)

Deputy Directors
Margaret A. Brimble, DNZM, MSc PhD S’ton; CChem, FNZIC FRACI FRS FRSNZ FRSC (The University of Auckland)
Emily J. Parker, BSc(Hons) Cant., PhD Camb. (Victoria University of Wellington)
Peter R. Shepherd, BSc(Hons) PhD Massey (The University of Auckland)

Research Operations Manager
Rochelle Ramsay, BSc(Hons) Otago, PGDipBusAdmin Massey

Te Pūnaha Matatini
Director
Priscilla Wehi, BA BSc(Hons) Cant., MSc Lincoln(NZ), PhD Waik. (The University of Otago)

Deputy Director
Michael O’Sullivan, MS PhD Stan., BSc MPhil (The University of Auckland)

Research Operations Manager
Kathryn Morgan, MSc GradDipTchg(Sec)

Research Units, Centres and Institutes

Ngā Ara Whetū – Centre for Climate, Biodiversity and Society
Hosted by the Faculty of Science and co-hosted by the Business School, Faculty of Arts and Faculty of Engineering.

Directors
Rachel Wolfgamm, MCom PhD
Julie Rowland, DipTchg ACE, BSc(Hons) PhD Otago
Niki Harré, MA(Hons) PhD DipTSec
Jacqueline Beggs, MSc PhD Otago
Maria Armoudian, BA SW Oklahoma State, PhD S.Calif.
David Noone, BSc(Hons) PhD Melb.
Saeid Baroutian, BSc Azad, MEng Shahid Bahonar, PhD Malaya, PGCertAcadPrac; AMIChemE
Rod McNaughton, BA(Hons) W.Laur., MA PhD W.Ont., PhD Lanc.

Centre for Computational Evolution

Directors
Simon Greenhill, MSc PhD
Simone Linz, MSc PhD Heinrich Heine
Anna Santure, BSc(Hons) PhD Otago

Centre for Pūtaiao

Directors
Jade Le Grice, BA(Hons) PhD
Te Kahuratai Moko-Painting, DipPReoK TWhA, BSc MMarCon

Future Food Research Centre

Directors
Siew-Young Quek, BSc(Hons) NU Malaysia, PhD Birm.; FNZIFST, MIFT(USA) MNZIC
Clare Wall, BSc Wales, MAppSc PhD Qld.UT
Meng Wai Woo, BE(Hons) James Cook University, PhD NU Malaysia; CEng, MChemE

Institute for Innovation in Biotechnology

Director
Kerry Loomes, BSc(Hons) PhD Massey

NAOInstitute

Directors
Michael Witbrock, BSc(Hons) Otago, PhD Carnegie-Mellon
Gill Dobbie, MTech Massey, PhD Melb.

Te Ao Marama – Centre for Fundamental Inquiry

Directors
Kathleen A. Campbell, BSc Calif., MSc Wash., PhD S Calif.; FRNZ
Richard Easther, BSc(Hons) PhD Cant.

Schools and Departments

Biological Sciences

Head of School
Allen G. Rodrigo, BSc (Hons) PhD DSc Cant.; FRNZ

Director, First Year Teaching
Amanda A. Harper, GradDipTchg ACE, MSc EdD

Group Services Manager
Julie Davis

University Distinguished Professor
1998 Margaret A. Brimble, DNZM, MSc PhD S’ton.; CChem, FNZIC FRACi FRsC FRSNZ (jointly with Chemical Sciences)

Professors
├2010 Andrew Allan, BSc(Hons) Cant., PhD Camb.
├2003 Jacqueline R. Beggs, MSc PhD Otago
├1995 Kendall D. Clements, BSc Well., PhD James Cook, MSc
2005 Rochelle Constantine, ONZM, BSc PGDipSci Massey, MSc PhD (jointly with Institute of Marine Science)
├1993 Garth J. S. Cooper, DSc DPhil Oxf., BSc MBChB DipObst; FMediSci FRCPA FRNZ (jointly with Medicine)
2005 Alexei Drummond, BSc PhD; FRNZ (jointly with Computer Science)
2002 P. Rod Dunbar, MBChB PhD Otago; FRNZ
2014 Juliet Gerrard, DNZM, BA(Hons) DPhil Oxf.; FRSNZ (jointly with Chemical Sciences)
2007 Anthony J. Hickey, MSc PhD (jointly with Marine Science)
2013 Andrew G. Jeffs, MSc PhD (jointly with Institute of Marine Science)
2012 Gavin Lear, BSc(Hons) DPhil Oxf.
1991 Gillian Lewis, BSc(Hons) PhD Otago
1991 Kerry Loomes, BSc(Hons) PhD Massey
2015 Cate Macinnis-Ng, BSc PhD Technol.Syd.
1993 Craig D. Millar, MSc PhD
├2007 Anthony R. J. Phillips, BSc Well., MBChB Otago, PhD
2016 Anthony Poole, BSc(Hons) PhD Massey
1994 Joanna J. Putterill, MSc PhD
2020 Allen G. Rodrigo, BSc(Hons) PhD DSc Cant.; FRNZ
2010 James Russell, MSc PhD (jointly with Statistics)
1999 Mary A. Sewell, MSc PhD Alberta
2007 Russell G. Snell, MSc Otago, PhD Cardiff
2007 Margaret Stanley, BSc(Hons) Otago, PhD Monash
├2014 David M. Suckling, MSc PhD Cant.
2007 Michael W. Taylor, BSc Otago, PhD NSW, MSc
├2018 Maren Wellenreuther, MSc Hamburg, Adel., PhD
2013 ZhiQiang Zhang, BSc PhD Cornell; FRSNZ

Emeritus Professors
Edward N. Baker, CNZM, MSc PhD; FNZIC FRNZ
A. Richard Bellamy, CNZM, BSc NZ, MSc PhD; FRSNZ
Michael N. Clout, BSc(Hons) Edin., PhD; FRNZ
Richard Gardner, PhD DSc; FRNZ
Philip J. Harris, MA PhD Camb.

Associate Professors
2018 Jane R. Allison, BSc(Hons) Cant., PhD Camb.
2008 Ghader Bashiri, BSc Shahid Chamran, MSc Guilan, PhD
2008 Bruce Burns, MSc PhD Colorado
2018 Emma Carroll, BSc(Hons) PhD
2008 Brendon Dunphy, MSc PhD (jointly with Marine Science)
2010 Anne Gaskett, BA BSc(Hons) Melb., PhD Macq.
2012 David Goldstone, MSc PhD
2022 Simon Greenhill, MSc PhD
2015 Kim M. Handley, MSc PhD Manc.
├2008 Paul Harris, MSc PhD (jointly with Chemical Sciences)
2008 Gregory Holwell, BSc(Hons) Melb., PhD GradDipEd Macq.
├2012 Klaus Lehner, MSc PhD TU Darmstadt
1999 J. Shaun Lott, BSc(Hons) Sur., PhD Leeds
├2011 Robin MacDiarmid, MSc PhD Otago
2017 Jennifer Miles-Chan, MSc PhD
2024 Calendar University Personnel

2004 George Perry, MSc Cant., PhD Melb., PGCap Lond. (jointly with Environment)
2013 Anna Santure, BSc(Hons) PhD Otago
2011 Robert Schaffer, BSc Aberd., PhD E. Anglia
2000 Christopher Squire, MSc PhD
2011 Matthew D. Templeton, BSc(Hons) PhD Otago
2013 Darren Ward, MSc La Trobe, PhD

Senior Lecturers
2003 Catherine E. Angel, BSc Leeds, MSc PhD Aberd.
2010 Augusto S. Barbosa, BA PhD Brasilia
2010 Anna Brooks, BCA BSc(Hons) Well., PhD
2006 Esther M. M. Bulloch, BSc(Hons) Massey, PhD Camb.
2016 Kristal Cain, BSc(Hons) Texas A&M, PhD Indiana
2021 Christopher Carrie, BSc, PhD W.Aust.
2001 Karine David, BSc DEA PhD Paris XI
2010 Rebecca Deed, BSc(Hons) PhD (jointly with Chemical Sciences)
2016 Austen Ganley, BSc(Hons) PhD
2019 Iain D Hay, BSc(Hons) PhD Massey
2017 Nijat Imin, MSc XJAU (China), PhD ANU
2013 Jessie Jacobsen, BSc(Hons) PhD
2005 Richard L. Kingston, BSc(Hons) PhD Massey
2015 Sarah Knight, MSc PhD
2018 Nicholas Matzke, MA PhD Calif.
2018 David Pattemore, MSc PhD Prin.
2019 Emma Scotter, MNZM, BSc(Hons) PhD
2008 Hilary Sheppard, BSc Bath, PhD Leic.
2018 Nobuto Takeuchi, MSc PhD Utrecht
1999 John A. Taylor, BSc(Hons) PhD Edin.
2012 Louis Tremblay, BSc Montreal, MSc McG., PhD Guelph
2015 Christopher S. Walker, MSc PhD
2021 Nari M. Williams, BAgircSci Adel., PhD Murdoch
1993 Shane D. T. Wright, BSc Cant., PhD

Lecturers
2019 James Brock, BSc Bangor, MSc Coventry, PhD
2023 Nicole Edwards, MSc PhD
2018 Matthew Fullmer, BSc(Hons) Mass., PhD Conn.
2019 Charlotte Jones-Todd, Msc PhD St And. (jointly with Statistics)
2020 Alice D. Penna, MSc Turin, PhD Tas., PhD Paris IV
2008 David Seldon, BSc(Hons) GradDipSecTchg Auck. UT, MSc

Professional Teaching Fellows
2012 Caroline Aspden, MSc
2017 Kathryn Jones, BSc Well., PhD
2021 Jennifer Jury, BSc(Hons)
2017 Monica Kam, BTech(Hons) PhD
2015 Julie McIntosh, MSc PhD
2005 Suzanne J. Reid, PhD PGDipSci

Senior Tutor
1994 Amanda A. Harper, GradDipTchg ACE, MSc EdD

Senior Research Fellows
2007 Jacqueline F. Aitken, MSc PhD Texas
2012 Paul G. Young, MSc PhD
2016 Ivana Sequeira, MSc Sheff., PhD Massey, PGDipBus XIMR

Research and Postdoctoral Fellows
2022 Samantha Arras, BSc(Hons) PhD Qld.
2021 Michael Barnett, MSc PhD
2023 MaiZe Cao, BSc(Hons) PhD
2021 Sandesh Deshpande, BEng VTU, MSc TU Hamburg, PhD
2022 Alicia Didsbury, MSc PhD PGDipSci
2012 Vaughan Feisst, MSc PhD
2015 Renee R. Handley, BSc(Hons) PhD
2015 Inken Kelch, Dipl. Biol. Humboldt, PhD
2020 Renata Kowalczyk, MSc Gdansk, PhD
2021 Teng Li, BSc PhD Nankai
2022 Jia Jiet Lim, BSc(Hons) Nott-My, PhD
2016 Evert J. Loef, MSc Leiden, PhD
2022 Danielle Maddock, BSc(Hons) PhD Otago
2021 Alexandra Palmer, PhD UC Lond., BFA(Hons) MA
2016 Bikiran Paridesi, MSc PhD
2016 Saem Park, MSc PhD PGDip
2021 Florian Pichimuller, MSc Salzburg, PhD
2022 Caroline Puente-Lelievre, BSc UdeA, PhD James Cook
2022 Katarina Stuart, BSc(Hons) PhD NSW
2019 Matthew Sullivan, BSc(Hons) PhD
2020 Molly Swanson, BSc(Hons) PhD
2023 Jamie R. H. Taka, MSc PhD
2021 Alexander Trevarton, BSc(Hons) PhD
2021 Whitney Whitford, MSc PhD
2020 Yuliana Yosaatmadja, MSc Massey, PhD
2018 Xinhua Zhao, BSc Shandong Ag., PhD Chinese Acad. Sci.

Honorary Professors
Donald R. Love, BSc(Hons) PhD Adel.; CBiol, FIbior FAIBiol, MRCPath
Wendy Nelson, MNZM, BSc(Hons) Well., PhD Br.Col.; FRSNZ

Sarah Gray

**Manager, Automation and Improvement**  
David Spalding

**Group Financial Controller**  
Julian Michael, CA

**Head of Research and Operations Finance**  
David Jordan, BCompt(Hons) S.Af., MBA; CA

**Head of Financial Planning and Analysis**  
Helen Cattanach

**Head of Business Advisory**  
Cameron Thomas, BCom; CA
Foundation Studies Programmes

New Start
Programme Manager
Rochai Taiaroa, MProfStuds
Administration Assistant
Ata Houpapa, MEd

University of Auckland Tertiary Foundation Certificate
Programme Director
Andrew Dawson, MA
Deputy Director
Rachel Passmore, BSc(Hons) Reading, PGDipTchg ACE, MSc
Programme Administrator
Astrid Tjahyono, BMus

Human Resources

Director of Human Resources
Andrew Phipps, MSocSci Waik.
Associate Director, Health, Safety and Wellbeing
Angus Clark, BSc Strath., Ch.EHO MREHIS
Associate Director, HR Advisory
Stefanie Boyer, BA Cant., MA Birkbeck, PGCertHR CIPD
Associate Director, HR Services

Associate Director, Organisational Development
Pip Ball, BA Cant., PGDipArts Well.
Associate Director, Talent and Recruitment
Ian Craig, MCom Otago
Associate Director, Kaārahi
Dale Harding-Thomas, MIndS Otago, PGCertLCG Mind Lab, BEd
Associate Director, Diversity, Equity and Inclusion
Guillermo Merelo, MPP ITESM, LLB UNAM, PhD

International Office

Director International
Martin Hookham-Simms, BSc(Hons) Hudd., MBA UC Lond., PGDip CIM
Deputy Director International Partnership
Yara Vasina, BSc(Hons) MA NSW, GradCert Technol.Syd.

Deputy Director International Marketing and Recruitment
Vasso Koutsos, BBus Massey
Associate Director International Business Development
Natasha Ager, MBA Macq.

Libraries and Learning Services

Director, Libraries and Learning Services
Sue Roberts, BA(Hons) Leic., MA Liv., PGDipLIM Liv.J.Moores
Associate Director, Learning, Teaching and Research
Nicola Rawnsley, CertT T Auck.UT, MLIS Well., MA PhD
Associate Director, Research and Collections
Hester Mountifield, MBibl PGDipHigherEd Jo‘burg; FLIANZA

Associate Director, Student Hubs and Client Services
Justin Horan, BSc
Manager, Academic Engagement
Avette Kelly, GradDipTchg(Sec) ACE, MA PGDipBus Kaiārahi
Manuhiri Huatahi, BBS Massey, MLIS Well., MCom Abigail McClutchie, DipBus Auck.UT, NZCALE Ako Aotearoa, BA BCom(Hons)

Office of Research Strategy and Integrity

Director, Research Strategy and Delivery
Alexandra Thomas, BA(Hons) Essex, PGCert Lond.Met.
Executive Assistant to the Director, Research Strategy and Delivery
Christine Whyte

Associate Director – Research Infrastructure
Roger Lins, BSc(Hons) PhD Otago, PGDipArts
Research Infrastructure Manager
Laura McAllum, BSc(Hons) Columbia
Research Manager – Major Initiatives
Anne Casey, MA(Hons) Cant.

Research Impact Manager
Faith Welch, BSc PhD Brist.

Research Impact Advisor
Hannah Read, MSc PhD

Research Development Manager
Julia Vilstrup Mouatt, BSc Massey, MSc PhD Copenhagen

Research Development Coordinator
Victoria Hewitt, BSc(Hons) MSc Cant., PhD Monash, GradDipEd DCE

Research Manager – Vision Matauranga

Research Manager International
Mark Hurdley, BA(Hons) De Mont.

Animal Welfare Officer
Jodi Salinsky, BA Florida, BS Portland St., DVM Wash. State; MANZCVS

Clinical Services Veterinarian
Sabina Darke, Dr. med. vet. Giessen

Associate Director – Research Operations
Nicholas Kearns, BCom NSW, PGDipBus GradDipAppPsych

Research Service Improvement Manager
Josh Alden, BSc MBioEnt

Research Portfolio Manager
Simmon Hofstetter, BSc PhD Alberta

Research Portfolio Coordinator
Nina Attwood, MA PhD

ResearchHub Content Specialist

Senior Research Programme Coordinators
Emma Dawson, BA Otago Kosala Krishnan, BSc(Hons) Lond.Guild, MA

Ethics and Integrity Manager
Elizabeth Visser, MSc(agric) DSc(agric) Pret., MFA Whitecliffe

Senior Ethics Advisor

Ethics Advisors
Colleen Altagracia Fiona Cheal Madhavi Manchi, MA B’Lore, PhD Tata Inst.Soc.Scis

Regulatory Approvals Administrator
Maran Cassin

Office of the Vice-Chancellor

Vice-Chancellor
Dawn Freshwater, BA(Hons) Manc., PhD Nott.

Executive Assistant to the Vice-Chancellor
Julie Tomov

Chief of Staff
Brian Ten Eyck, BSc Virginia Tech., MA Arizona, EdD Penn.

Executive Assistant to the Chief of Staff
Ranmali Mada, PGDipBus; ACGI

Deputy Vice-Chancellor (Research)
Frank H. Bloomfield, ONZM, BSc(Hons) MBChB Manc., PhD; FRACP, MRCP(UK)

Executive Assistant to the Deputy Vice-Chancellor (Research)
Kirsty Hamel

Deputy Vice-Chancellor (Strategic Engagement)
Erik Lithander, BSc LSE, MPhil DPhil Camb.

Executive Assistant to the Deputy Vice-Chancellor (Strategic Engagement)
Viola Laban

Deputy Vice-Chancellor (Operations) and Registrar
Adrienne Cleland, MBA Massey; CPA(Aust.), FFIN

Executive Assistant to the Deputy Vice-Chancellor (Operations) and Registrar
Heather Seal

Director of Human Resources
Andrew Phipps, MSocSci Waik.

Executive Assistant to the Director of HR
Dee Chapman

Pro Vice-Chancellor (Equity)
Cathy Stinear, BSc PhD

Manager – Equity
Vicki Watson

University Committee Executive
Wendy Verschaeren, LLM FU Brussels

Event and Protocol Manager
Melissa Burnett

Office of the Provost

Provost
Valerie Linton, BSc Sheff., MBA La Trobe, PhD Camb.

Pro Vice-Chancellor (Education)
Bridget Kool, BHSc Auck.UT, MPH PhD; FCNA(NZ), RN
### Director – Learning and Teaching
Gayle Morris, BA *Concordia (Edmon.),* MEd *Glas.,* PhD *Melb.*
